A BEAUTIFUL HEAD

OF

RICH GLOSSY HAIR,

Completely Preserved

TO THE GREATEST AGE.

And who that is gray would not have it restored to former color; or bald, but would have the growth restored, or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions but would be cured, or with sick headache, (neuralgia,) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this, see circular and the following:

Ann Arbor, November 5, 1856.

Prof. O. J. Wood—Dear Sir: I have heard much salt of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first by my good wife, whose hair had become very thin and entirely white, and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and most confidentially recommend its use by all who would have their hair restored from white or gray (by reason of sickness or age,) to original color and beauty, and by all young persons who would have their hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

Farmer Wood: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending it to me to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly yours,
SOLOMON MANN.

Carlyle, Ill., June 26, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effects. My hair was becoming, as I thought, permaturely gray, but by the use of his Restorative it has resumed its original color, and, I have no doubt, permanently so.

2ndly.—Adding to the amount assured.
3rdly.—In a reduction of Premiums falling due in the five years subsequent to 1857.
4thly.—In a reduction of all Premiums subsequent to that date.

The Surplus in 1857, divisable among the assured, exceeds TWO HUNDRED AND FIFTY THOUSAND POUNDS, Sterling.

The realized assets of this Company amount to over ONE MILLION THREE HUNDRED THOUSAND POUNDS, Stg.; and the annual income upwards of TWO HUNDRED AND TWENTY THOUSAND POUNDS.

The rates of Premium are as low as the experience of more than half a century warrant; and as eighty per cent. of all profits is every five years divided among the assured, it is evident that these rates are the very lowest that any Life Insurance Company can demand, consistent with its own safety, and the consequent security of the assured. Policies are issued with or without participation of profits, for one year, seven years, whole life, joint lives, or payable on the life attaining the age of sixty. Premiums payable quarterly, half-yearly, or yearly. One-half credit for first five years.

LATEST PROCEEDINGS IN THE PROVINCIAL PARLIAMENT.

(By Telegraph—Special despatch to the Chronicle.)

TORONTO, 22nd June, 1858.

LEGISLATIVE COUNCIL.

Hon. Mr. Patton moved that Tuesday being a Saturday Holiday, the House on its rising do stand adjourned until Wednesday.—Carried.

The new Townships Bill, the Fulton Flour Company Bill, the Metropolitan Life Assurance Co's. Bill, the Bill to vest the control of the Harbor and lighthouse of Toronto with a Harbor Commission, the Bill to provide for the Inspection of Leather, Mr. Boulton's Usury Bill, were read a third time and passed.

The Criminal Justice Administration Bill was then read a second time, and the House adjourned.

LEGISLATIVE ASSEMBLY.

Last night,—Mr. Brown's amendment having been lost,

The House went into committee of the Whole on the Estimates.

The Government proposed about 2,30 A.M. to go through the first three pages and adjourn.

The Opposition would only consent to go through the Militia Supplies.

Accordingly the House has continued in session all the night, and will probably do so till 12 o'clock on Saturday night.

The attendance at forenoon service in the Anglican Cathedral on Thursday last, was not so numerous as might have been expected, though rather more than usual on such occasions. The psalms, responses and Nicean Creed were chanted by the Choir with excellent effect; and a sermon was preached by the Rev. Professor Thompson well adapted to prepare the minds of his hearers for the work before them. It might have been well for many of those afterwards present at the School-House to have embraced the opportunity of listening to the remarks and instruction of the reverend gentleman.—The assemblage of the diocesan members of the Church, which was held, according to notice, in the afternoon, did not accomplish the purpose, for which it was called. Assemblies *en masse* are contrary to the rule and practice of the British Constitution, and inconsistent with any practical adaptation under our legislative system. This had been foreseen in the present instance, and a proposal had been made to adopt a representative assembly of clerical and lay members throughout the diocese consistently with the spirit of Mr. Helliard Cameron's Act. But the objections of several persons, supported by legal authority, had been yielded to; and the meeting *en masse* was called by letters circular and public advertisement. Such an assemblage as met on Thursday afternoon was no more a fair representation of the members of the Anglican Church in this diocese, than a meeting of Londoners and delegates in Hyde Park would be of the people of the United Kingdom. The room was soon more than comfortably filled; the clergy were tolerably well represented as to numbers, but they were a mere faction compared with the lay members present. His Lordship the Bishop, as a matter of course occupied the chair, and the Rev. W. Wood opened the meeting by reading several appropriate prayers. After an explanation from His Lordship of the progress of the movement towards the institution of a Synod in the diocese of Quebec, the first resolution expressive of an acceptance of the provisions of Mr. Cameron's Act was moved by the Hon. Mr. Shephard and seconded by the Rev. W. Wood. This resolution was passed unanimously, and that was all the real business that was done. The second resolution was proposed by Mr. Dunscomb and seconded by the Rev. Mr. Parkins, to the effect, that the Synod should consist of the Bishop, the licensed clergy of the diocese in priests' orders, the principals of colleges or collegiate schools under the Bishop's control, and one lay representative from every parish or cure. The first obstruction arose, we think, very injudiciously on the part of one of the clergy (the Rev. Mr. Balfour) moving an amendment for the admission of deacons into the Synod. As there are seldom more than three or four clergy of this rank at the same time in the whole diocese, and as they only continue so for the space of a year, and must generally be regarded as young and inexperienced, the interruption was ill-judged. The proposal, however, was soon overborne by an amendment moved by Mr. Jeffrey Hale, that the assembly should proceed to appoint a committee for the purpose of drawing up a constitution to be submitted for approval at an adjourned meeting. It would be difficult, and quite unprofitable to attempt a description of the debate which ensued, and how it grew warmer and warmer; how the the clergy insisted on their right to vote in a separate body, when they would otherwise have evidently been swamped; and how at last the Assembly was adjourned, amid much confusion till the month of September or October next. There was a goodly sprinkling of members of the long robe profession present, to whose authority appeals were occasionally made. Several of them indeed volunteered effusions of legal eloquence and one fluent speaker was so much carried away in the course of his special pleading, that he seemed to consider the Bishop and his assessor as sitting *in banco*; and rather amused his hearers by several times addressing his Right Reverend Lordship as "your honour," and "may it please your honour." The delay afforded by the adjournment may allow both Clergy and Laity time to make themselves better acquainted with the subject; and when they meet again to come with plans more carefully organized and more widely disseminated. But those persons who really wish to see a Synod instituted in the diocese, should remember that by raising objections and difficulties at every step, they may be promoting the very object of certain parties, who, unable to prevent the agitation of the question, will be glad to see its settlement indefinitely postponed.

THE "NOVA SCOTIAN."—We are requested to mention for the information of those who may be desirous of visiting the Montreal Ocean Steamship Company's new steamship "Nova-Scotian," that she will be open to the inspection of the public on Wednesday and Thursday next at the Company's Wharf, Pres-de-Ville. As the ship is now being coaled, no visitors can be admitted on board previous to that time.

THE EXECUTION AT MONTREAL.—Intelligence reached this city yesterday, that the two condemned criminals were executed at Montreal about 10 o'clock A. M. in the presence of an immense crowd of spectators. The Prisoners had, on Tuesday last, fully acknowledged their guilt to the priests in attendance upon them, before receiving the Sacrament, at the same time desiring the confession to be made public. At their desire Rev. Mr. Villeneuve made their confession known to the other prisoners, spectators of their repentance. They said that they were guilty of the crime, and were prepared to meet their just fate, hoping that their Maker would accept it as an expiation of their sins. They seem prepared to meet it.

ACCIDENT IN ST. ROCHS.—In the trench opened in Crown street, St. Rochs, for the purpose of laying the water pipes, a large portion of the embankments suddenly gave way on Thursday last, burying one of the laborers McLennan by name, under the *debris*. Though rescued very quickly by the foreman and his fellow laborers, he appeared to have received serious injury, and was at once conveyed to the Nunnery Hospital. He was a married man with a family.

We have some news of interest from Utah. The principal Mormon Elders had consentad to deliver themselves to the U. S. Marshal, to await their trial on the charge of treason. A party of Mormons who had arrived at Camp Scott represented the church as torn by dissensions, and wished to return to the United States. A despatch from Washington states that sufficient intelligence has been received to leave no doubt that Capt. Marcy and his command had arrived at Camp Scott in safety.

☞ We have been requested to state that Dr. TUMBLETY will remain in town during today, (Saturday,) and may be consulted at his Office, No. 21 St. Lewis Street.

Above we give the result of a match recently played on the Plains of Abraham, between the Quebec Cricket Club and the Officers of the 39th Regiment:—resulting, as will be seen by the score, in the total defeat of the former. The general superiority of the military was apparent from the commencement of the game, and too much praise cannot be awarded their eleven for the true cricketing style in which they obtained the victory. Smith in the first innings, and Hoare in the second (bowling round-arm in splendid style) made sad havoc with their opponents stumps'—which coupled with the sharp and efficient fielding at the different points—rendered it a matter of no small difficulty to procure a run.

We wish we could speak in equally flattering terms of the Quebec Eleven, but as the usual plea of press of business may be urged, we imagine there cannot in any season, certainly not in the present dull one, be much difficulty in getting out for practice a few hours each week. Supposing, however, that the majority of its members cannot leave their occupations before 6 o'clock, two hours still remain quite suitable for the purpose in view. In fine they must either seize every available opportunity to add to their proficiency, although attended with some personal inconvenience, or lay themselves open to reflections such as we know have been made.

As was observed once before in this journal, the club possesses ample material to turn out a first rate eleven, but practice,—practice is wanted.

This year one or two excellent players have, we understand, been added to the club, but apparent want of that co-operation as fielders, which practice alone can give (and without which they need never expect to make even a respectable show against such competitors) was lamentably plain to lookers on. The general remarks of the "knowing ones" around were far from flattering. Some said that the civilians had not the ghost of a chance, while others in tones savoring of sarcasm deplored that they could not have had either much experience or practice in the manly sport. With the latter we cordially agree, and are glad to know that several of the eleven feeling only as cricketers can, the disgrace of this defeat, have resolved not to play in any other match, until the bye-laws of the club, as regards practice, are carried out and the appointed days of meeting for this purpose observed. The subscription list should certainly have increased its strength; the contrary however appears to be the case, but we trust that it will not be long so. Let every member of the club go to work at once, constant and well directed practice can work wonders in a short time and do much to prevent defeat, spite of the glorious uncertainty of the game.—(*Communicated.*)

THE ST. JEAN BAPTISTE DAY.—This great day in the hearts of our fellow-citizens of Canadian origin, was celebrated with great *eclat*. At an early hour the different societies and institutions formed in procession on St. Catherine Street East, having at their head Captain Desrevière's fine troop of Volunteer Cavalry, and marched through St. Lawrence, Craig, McGill and Notre Dame Streets to the Parish Church, where divine service was celebrated. One of Haydn's Masses was performed by over 200 performers, mostly pupils of the Normal School. An organ, said to be the finest on the continent, and played upon for the first time since its erection, filled the capacious edifice with harmonious sound. The R. C. Bishop of Montreal officiated. After the service, the procession again formed and marched through the principal streets of the city, and finally proceeded to the Champ de Mars, where it dispersed after several addresses had been delivered by Mr. Cherrier and other gentlemen, who were heartily cheered. We noticed that the members of the "Institut Canadien" were not present.

In the evening, a Concert was given in the City Hall. Even that spacious Hall was "crammed." We have seldom met with such a fascinating assemblage of brunettes, take them *en masse*, as were present. The uniform of the Canadian militia companies, dotted here and there through the Hall, produced a very pleasing aspect. The selections of music were of a very good class, and were well played by the amateurs. Mr. Gauthier and the other gentlemen form a circle of amateurs seldom to be met with in a city of a size like Montreal.

During the day a grand pic-nic was held at Guilbault's Garden. The proprietors of this popular summer resort had made great preparations in the way of triumphal arches, and we hope were rewarded for their zeal in the public welfare, by drawing we do not say "crowded houses," but grounds.

The Rifle Band performed, in their usual fine style, on the Champ de Mars, at half-past five. We hear that they will perform once a week at the same place. "So mote it be."—Montreal *Gazette*.

ACCIDENT.—A sailor, named John Gillespie, belonging to the ship *Anglesea*, was dangerously hurt yesterday morning, on the shipping wharf, by a large water pipe (which was being landed from said ship) falling on his back. He was conveyed to the General Hospital in a very bad condition.—*Ib.*

NEW YORK, June 24th.—Baron Wetterstdt, the newly appointed Minister from Sweden and Norway, arrived here last evening in the *Persia*.

The Washington *Times'* correspondent says:—"A meeting of Cabinet was held yesterday, at which despatches from Mr. Dallas and Lord Malmesbury were read. British Government apologizes for recent outrages, and intimate that any injuries proved to have been suffered through them will be redressed."

The Post-office Department has prepared a statement of letters returned here addressed to Bogus Lotteries and other firms. Letters number 1,619, and enclosures in cash and drafts amount to upwards of $9,000. These returns extend back to April 1st. All fools not dead yet.

The eight new sloops of war ordered to be built will be apportioned as follows:—One each to navy yard at Portsmouth, Boston, N. York, Philadelphia, Norfolk Pensacola, and San Francisco—latter provided if necessary timber can be procured.

The *Tribune* correspondent says:—"Much doubt is entertained here as to final purpose of Mormons, and unpublished despatches of Gen. Cumming convey some apprehension which Col. Kane's repeated conferences have not removed. At last official accounts they had possession of mountain passes, and ultimate design of exodus was matter wholly of speculation. For this reason, and other that may not be disclosed, it is deemed most prudent, if not absolutely necessary, to maintain a show of effective force to 2d Civil officers in assisting Federal authority."

(From the Hamilton Spectator, June 21.)

TRIP OF THE M. P. P.'S TO DETROIT.

The train which left here on Saturday morning, reached Detroit at about six o'clock in the evening. The members of the Corporation being unaware of the sudden descent of our Provincial legislators, had not made their arrangements so complete as they would otherwise have done if they had had timely notice. They were kindly received by the citizens, however, an invitation was given by the Michigan Central Company for a trip over their line to Chicago. Only two or three accepted the invitation. On Sunday morning the excursionists went on the little steamer *Windsor* to Sandwich, where they attended church, and returned to Detroit for dinner. In the afternoon the fast little steamer *Pearl* took them on an excursion down the river to obtain a view of Lake Erie. They passed down as far as Ambertsburg. Refreshments were served on board.

Yesterday morning the special train left Detroit for home at 8:45, and arrived here at about 3 P. M.

BANQUET AT THE STATION.

On the arrival of the excursionists at the Depot in this city, they were invited to a banquet prepared by Mr. Roach at the Railway Saloon. The members of the City Council had been also invited, nearly all of whom were present. As little time had been given for making arrangements, and the excursionists being anxious to reach Toronto, the affair was necessarily rather hurried. All seemed to enjoy themselves, however, and everything went of in excellent order.

Marcus Talbot, Esq., M P. P. for East Middlesex, proposed the first toast: "To our next merry meeting on board the Great Western." The expedition, he said, was a happy one, both by "flood and field." He was sure all had enjoyed themselves, and were happy in seeing the Great Western Railway, and the magnificent country over which it passes. The Great Western had not come to solicit anything from the public treasury. It had only asked to spend its own money when it chose. Its object would send to divert the trade of America down the St Lawrence, and assist the Grand Trunk. He should regard the Great Western as the greatest enterprise of young Canada. It should be allowed fair play. Although locomotives pass over *sleepers*, there were no sore heads on this occasion. Railway ties will cement the Upper and Lower Provinces, and the present expedition would also lead to matrimonial ties.

C. J. BRYDGES, Esq., said,—I am sure that I for one am happy. The trip was satisfactory to me, and I am glad to have shewn them the garden of Canada, and shewn them the Western lands which Canada will derive her benefits from. The Great Western leads to this beautiful bay (Burlington), down the St. Lawrence. I will be proud and happy next time to take you to Milwaukee under the power you have given us, and shew you whence we Canadians expect to draw such sources of traffic. He asked to be allowed to propose the City of Hamilton as associated with the Great Western Railway. What adds to the prosperity of one adds to the prosperity of both, and it is a suicidal policy which would separate them. He then gave "Prosperity to the City of Hamilton, at the head of the navigable waters which lead to the Atlantic."

Then followed—"The Mayor and Corporation," G. H. Mills, Esq., Mayor, responded. He agreed that the Great Western and Hamilton were together. It would be needless to mention some minor difficulties which had arisen between the Great Western Railway and part of the Corporation. He would say nothing of it now. He hoped that what might conduce to the interests of the Great Western Railway would be sanctioned by the Legislature. This was the unanimous wish of the citizens.

Colonel Harwood said the Great Western was the father of all Canadian Railways.—Events were crowding fast upon each other, and we would soon see science stretching the wire across the Atlantic. The construction of the *Leviathan* was due in great part to the success of the Great Western Railway.—He proposed "Mr. Brydges and the Great Western Railway." (Cheers.) Song—"I'e's a jolly good fellow."

Band—"Partant pour la Syrie."

Mr. Brydges responded briefly.

Mr. HESPELER, of Preston, (in German) said it was not half a century ago that Low Canadians and and Anglo-Saxons were firing at one another in Hamilton. Now they fired with champagne corks. He hoped it would be an amalgamation. The Lower Canadians were first rate, open hearted fellows. He wished power to do away with nationality. Let there be but one—Canadian. We had a great country, why should we be any thing else than true and candid Canadians? The next toast was—

"Our Lower Canadian friends."

Mr. PICHE (in French) said Upper Canadians had been represented as tigers and lions. On the contrary, he had suffered from nothing but kindness. Mr. Speaker—I mean Mr. Chairman—we should like to shew you our French population. We have not now a Great Western, but in a few years we'll have the North Shore Railroad; and when we open it, it will be seen if you can't come and fraternize with the 300,000 pure Frenchmen by whose doors it will pass. You are generous, but we'll be not less so. [Mr. Piché then begun to speak in English.] He said he had quite lost all his antipathy to the Upper Canadians, who had been said to be lions, ready to devour. The Upper Canadians showed more to be eaten than men ready to eat. [Laughter and cheers.] Give us now a little of the happiness you enjoy. We will be happy to see you, when you will find what the French population really is.

Mr. DUBORD said great praise had been given to Upper Canada—called the Garden of the Province. It would be a country unsurpassed, second to none. He hoped that Canadians would agree, and Lower Canada would not be behind hand. He had known the countries long; they should go both together. Lay hold of a hawser, and pull the ship on with a long pull, a strong pull, and a pull altogether. Lower Canada was nothing without Upper Canada; Upper Canada was little without Lower Canada. The excitement proved that the time was not far off. We in Lower Canada must copy from you in railroads, and will do so. It strikes me this has been forgotten. The mixed race is the best in the world. [Laughter.] The Bay of St. Paul has the best population in the world. [That's where Scotchmen came to settle.] A mixed race for Upper and Lower Canada would be the best. He could say that there was not a single ugly woman in Quebec, but in Upper Canada they had not an ugly man. [Laughter].

The party soon broke up, and the excursionists took their departure for Toronto.

THE TRIP TO THE FALLS.

A few of the members gave the preference to the route to Niagara Falls, and accordingly reached there on Saturday evening. We have no doubt they enjoyed the trip and the scenery around the great cataract. Some of them returned by the early train yesterday morning, and the rest, we understand, went down from Lewiston to Toronto by the *New Era*. We have been told a couple of French Canadian members refused to accept a free ride over the Great Western, and paid their fares all the way. We only hope the trip has been the means of giving our Lower Canadian friends a better opinion of this section of the Province than they formerly entertained.

ROBILCUND.

The following letter, addressed to the Commission of Robilcund, manifests the spirit in which Lord Canning is disposed to deal with rebels unstained with atrocious crime, and ready to submit themselves to the British Government:—

"From William Muir, Esq., Secretary to Government, North-west Provinces, to R. Alexander, Esq., Commissioner, Robilcund, dated Allahabad, the 28th of April, 1858.

"Sir,—I am directed to communicate to you the general principles which the Right Hon. Governor-General desires to see followed by all civil and other officers who will exercise judicial or magisterial powers in Robilcund on the re-entry of British troops into that province.

"2. The condition of Robilcund has been, in some respects, peculiar. The progress of the revolt in the interior has, until lately, suffered little check. The people, left to themselves, have in many quarters engaged actively in hostilities against each other; but direct opposition to British authority has been mainly confined to the several Redder towns, to the frontier on the Ganges, and to the expeditions against Nynee Tal.

"3. Under these circumstances, his lordship considers it just to distinguish, by a widely differing treatment, the simple bearing of arms, or even acts of social violence committed at a period when the check of lawful government was removed, from acts directly involving treason against the State or a deliberate defiance of its authority. Excepting instances of much aggravation, it is not the wish of government that public prosecutions should be set on foot on account of offences of the former class.

"4. Further in respect of treason and defiance of British authority, his Lordship desires that criminal proceedings shall be taken only against leaders, and against such persons, whether high or low, as have distinguished themselves by activity and rancour against the Government, or by persistance in opposition to its authority after the advance of troops and the reoccupation of stations. The Governor General will admit to amnesty all other classes, even though they have borne arms on the side of the rebels, provided they tender an early and complete submission. But continuance in opposition will exclude from pardon.

"The Governor-General has reason to believe that an impression exists in Rohilcund that the Mahommedan population, as such, is to be proscribed and crushed. It is likely that the rumor has been raised and fostered by the rebel leaders to excite apprehension and mistrust of the Government. His lordship desires that every appropriate occasion may be taken to disabuse the people of this gross error. Such suspected rebels as may be brought to trial will be tried each by his own acts. Each will stand or fall by the line of conduct which he shall be proved to have followed. The Government will maintain, as it has always maintained, a strict impartiality in its administration. Equal justice will be shared by all its subjects, whether Hindoos or Mahommedans. You will make public these views, and instruct the chief district officers to make them widely known, in such manner as may appear to be most effectual.

"It will be your care, in accordance with the infunctions of his Lordship's orders embodied in the circular order dated the 19th of February, to bring forward for early notice by the Governor-General the several examples of conspicuously faithful conduct exhibited by many of the inhabitants of Rohilcund under circumstances of peculiar difficulty.

"I have the honour to be, sir, your most obedient servant.

"W. MUIR, Secretary to Government,
"North-West Provinces,
"Allahabad, April 28."

A deputation, consisting of Mr. Walter Buchanan, M.P, Mr. Robert Dalglish, M.P., Viscount Bury, M.P., Sir Cusack P. Roney, Mr. Alexander Gillespie (of London.) Mr. Alexander Gillespie (of Liverpool,) and Mr. H. E. Montgomerie, had an interview with Mr. G. A. Hamilton, Secretary of the Treasurer, on the 10th, and presented a memorial on the subject of the duty charged on Canadian produce shipped to Great Britain through the United States.

The *Times* returns to the question of the great naval arrangements going on in France, and says that all the assurances in the world cannot do away with the impressions this is likely to produce. England is just the country to suffer by a razzia. Let her take care that a third tempest shall not find her unprepared as in India and the Crimea.

It is said that the Emperor will take occasion of the Cherbourg fete to announce a continuance of the policy that declare the Empire to be in peace.

AUSTRALIA.

MALTA, June 11.—The Australian mail steamer leaves to-day. Her dates are Sydney, April 11th, Melbourne, April, and Sound, April 22d. She has on board one hundred and twenty-three passengers, and gold valued at £114,000. At Melbourne the import trade was dull and stocks were increasing fast. Shipments of gold were more active. Gold was selling at £3 1s. 3d. per ounce. Money was plentiful. Exchange from 1 a 1½ per cent. prem. Wool dull, but there was a good demand for Tallow and Hides. The "Royal Charter" had sailed for Liverpool with 94,000 ounces of gold.

COURT OF QUEEN'S BENCH.

CROWN SIDE.

(Before Mr. JUSTICE CARON.)

THURSDAY, 24th June.

MR. JUSTICE CARON, when the Grand Jury had been sworn in, delivered the following charge:—

Gentlemen of the Grand Jury,—By taking the oath just administered to you, you have, as the Grand Inquest of the district, assumed the duty of enquiring into the truth of the charges to be brought before you, of presenting to the Court all other crimes and offences which may come to your knowledge, of giving information of the abuses which you may have remarked prejudicial to the public interests, and of submitting to the Court, on any subjects within its control, such suggestions as you may consider calculated to promote the prosperity of the district. In the execution of this important task, the best course for you to adopt is to adhere strictly to the clear and precise rules contained in your oath, by which you have promised to fulfil your obligations without envy, hatred or malice,—without fear, favor or affection. You will, I am sure, faithfully accomplish these solemn and important duties, and by so doing you will render society an invaluable service,—by giving assurance and countenance to the good and honest man against the malicious attempts of the wicked one, and by proving to the latter that he was wrong, if he relied upon impunity or the non-execution of the laws. But, Gentlemen, in deliberating upon the indictments which may be laid before you, you will remember, that your duty is not confined exclusively to accusing, but that you have also another and more pleasant office,—consisting in protecting the innocent who are as much entitled to your protection as society has a right to expect that you will denounce the guilty. And upon this subject permit me to tell you, that although your decision, if against the accused, be not final, and although there is another tribunal where he may prove his innocence, it would be, nevertheless, cruel and unjust, for that reason, to subject an innocent person, who will not be represented before you, and who will there have no means of justification, to the danger, humiliation, and misery of a public trial,—always ruinous to the accused, even when decided in his favor,—unless you are well convinced of his guilt, from the evidence taken. If that conviction has not been produced on your minds, and if you entertain strong and reasonable doubts, the defendant is, even before you, entitled to the benefit of those doubts. I will add, that although Grand Jurors, generally, are not in the habit of examining witnesses in favor of the defendant, they have the right to do so, if they think that by that means they will better attain the ends of justice. The number of indictments likely to be submitted to you is comparatively small; and, although several of the charges are, apparently, of some gravity, they present none of those difficulties which require, on the part of the Court, any special observations, with the exception, however, of two or three cases with reference to which, I think it my duty to say a few words. In one of these cases you have three individuals, who, by force, having introduced themselves into the room in which were held the sittings of the Municipal Council of their locality, violently took from the hands of the officer of the said Council, the books of the Corporation containing an assessment roll legally made, and tore and destroyed the said books, with the apparent object of avoiding the payment of the sums for which they had been assessed. Nothing, Gentlemen, is more reprehensible than such conduct, nothing more dangerous than such an example; it is, therefore, of the greatest importance to repress and punish invasions of public order which, if tolerated, would strike at the very foundation of society by reducing to inutility and scorn the constituted authorities, whom it is the duty of every good citizen to respect, even in those cases in which he cannot approve of them. Trespasses and acts of violence of this kind can be justified by no reason whatever; if the Municipal Council in question had done what was not right, or had exceeded the limits of its powers, there were tribunals to which the parties aggrieved ought to have applied for the justice they have taken into their own hands, at the risk of causing troubles and difficulties which so often have fatally resulted. The other case to which I desire to call your attention is one wherein a number of individuals met together, during the night time, and demolished and destroyed two houses belonging to third parties, and for the demolition of which they are now called upon to answer. This, Gentlemen, is a very serious and dangerous offence. Whatever may be the motives which have actuated those persons, they cannot justify or excuse their conduct. Acts of this description must be prevented; property should be respected and protected. If these houses were a nuisance in the locality, there were other and better means available to have that nuisance abated. You will consider these charges unimpassionedly, without prejudice or party spirit, and if the evidence allows it, it will be your duty to afford to the Court an opportunity of punishing outrages which indicate in their perpetrators a degree of demoralization, boldness, and defiance of the law which it is absolutely necessary should be put down. All these duties, Gentlemen, you will discharge with zeal and fidelity, and in such a way as to give to the public, in the administration of justice, that confidence which is so desirable and so indispensable to the security and well being of society. I will conclude my observations, by reminding you that the concurrence of twelve of you, at least, is requisite to enable you to return a "True Bill" against any one accused before you. Gentlemen, if in the course of your deliberations, you desire to obtain from the Court any information or explanation, it is its duty to afford the same, and that duty you will always find the Court ready to perform.

FRIDAY, 25th June.

THE BURNING OF THE MONTREAL.—The case of John C. Rudolf et al., for manslaughter, in connection with the burning of the steamer "Montreal" was fixed for trial on Wednesday next.

In the case of Anthony Dunlevie, indicted for burglary, Mr. Stuart Q. C. entered a *nolle prosequi*.

Adelaide Trudel was put upon her trial for stealing two cotton print aprons, a window curtain of flowered cotton, and a pair of trowsers, valued at 16s., the property of John Leslie, on the 25th of May last. The prisoner made no defence. Verdict "Guilty."

The Grand Jury returned a "true bill," against Ellen Johnson and Jane Egan, for robbery with violence. They were arraigned and pleaded "not guilty."

George Dencker was tried for stealing $22 in bank notes, belonging to Jabez Clapham, on the 7th June inst., at Charlesbourg. The prisoner (a German) was not defended by Counsel, and called no witnesses. The jury found him Guilty.

Robert Murphy was put upon his trial for the larceny of a leather apron of a caleche, of the value of $4, the property of Joseph Bertrand, on the 28th May, last, and for receiving the same knowing it to be stolen. Mr. Hearn defended the prisoner. Verdict Guilty.

The Grand Jury returned "true bills" against Jean Lafontaine, for larceny; Thomas Egan, for stabbing, cutting and wounding with intent to murder; and Patrick Barden, for an aggravated assault. They returned "no bill" against Michel Hamel for riotously beginning to demolish a house &c.

John Guerin was put upon his trial for robbery with violence. François Xavier Lamblin, the private prosecutor and only witness for the Crown, having, in his evidence, contradicted the deposition he made before the committing Magistrate, the prosecution was abandoned by Mr. Stuart, Q. C., and the jury returned a verdict of "not guilty." Mr. Willan appeared for the prisoner.

Parties of Pleasure, desirous of visiting the Upper Ottawa, can be accommodated on reasonable terms by special arrangement, timely notice being given to make connections off regular day trips.

These Steamers will be prepared to Tow Rafts, Logs, &c., when off trips, at reasonable rates, by the hour, mile, or job, as may be agreed upon.

INSURANCES.

ARE YOU ASSURED?

IF NOT, it is your duty *immediately* to provide for those who are dependent on you for their daily bread, by taking out a Policy on your Life. Life Assurance is the only sure means of providing against the unfortunate results of premature death, as by payment of a comparatively small sum annually, you may make such a provision for those who will suffer by your death (even should it happen immediately after the Assurance is effected), as will at least preserve them from want, or if your means afford a larger payment, secure them a competency. For example, the payment of $121.67, annually, to

THE LIFE ASSOCIATION OF SCOTLAND

Will assure a sum of £1000 Sterling ($4868.67) on a Life of 30 next birthday, or $608.34, paid annually, will assure £5000 Sterling ($24,333.33), and so on in the same ratio; or parties assuring for £1000 Sterling, and upwards, may take advantage of "HALF CREDIT SYSTEM." (paying only one-half of the premiums for the first fix years, with interest on the other half at *only 5 per cent*), and the following will be the first payment, *securing the* FULL AMOUNT *of the Sums Assured, under deduction of only the amount of the half premiums unpaid:*—

	£1000 Stg.	£5000 Stg.
Age 20.....	$49.20	$245.92
" 30.....	63.88	319.37

THE LIFE ASSOCIATION OF SCOTLAND was established in 1838, and is one of the most extensive Life Assurance Offices in the world. Since the commencement of the business, 420 of the Assured have died, and the Association has paid their families, or others in right of the Policies, the sum assured, amounting to $989,671.49 (£203,357 Stg.)

THE CAPITAL is.....$1,946,668, and the ANNUAL INCOME upwards of $608,333.75.

UNITED KINGDOM LIFE ASSURANCE COMPANY,

Established nearly a Quarter of a Century.

Annual Income Upwards of £136,000.

CHAIRMAN:
THE HON. FRANCIS SCOTT, M.P.
DEPUTY CHAIRMAN:
CHARLES BERWICK CURTIS, ESQ.

THIS Company offers the security of a large paid up Capital, held in Shares by a numerous and wealthy Proprietary, thus protecting the Assured from the risk attending Mutual Offices.

There have been three divisions of profits, the Bonuses averaging nearly 2 per cent. per annum on the sums assured, or from 30 to 100 per cent. on the Premiums paid.

Sums Assured.	Bonuses added.	Payable at Death
£5,000.....	£1,987 10 0.....	£6,987 10 0
4,000.....	1,590 0 0.....	5,590 0 0

500.....	198 15 0.....	698 15 0
100.....	39 15 0.....	139 15 0

The Premiums, nevertheless, are extremely moderate, and

☞ One half of the Annual Premium for a term of years may remain unpaid, bearing interest (without requiring the deposit of the Policy as in other offices.) This Company likewise foregoes all claim for the debt, should the Policy be discontinued.

Upwards of SEVEN HUNDRED THOUSAND POUNDS (including Bonuses) has been paid to Widows, Children, and other Parties holding Policies with this Company, which have become Claims by Death since its formation.

During the last Three Years this Company has issued 1,280 new Policies, insuring £888,758, and producing new Premiums to the amount of £33,993 8s. 0d.

The attention of the Public is earnestly requested to the annexed scale of Premiums, which will be found extremely moderate, and the mode of payment affords every accommodation and facility consistent with security.

1st. Premiums may be paid quarterly, half-yearly, or annually, as may best suit the convenience of the Assured.

2nd. When an Insurance is for Life, half the Annual Premium may remain unpaid for five years, at interest, to be deducted eventually from the Policy, to be paid off at convenience, a system peculiarly suited to obtain Temporary Loans.

3rd. The principle of an ascending and descending scale, which has been adopted, is equally applicable to the opulent, and to those of limited incomes.

4th. Policies are granted on very moderate terms, payable on the death of two, or three parties (as the case may be,) so as to render Leasehold Property, held upon Lives, nearly equal in value to Lands held in perpetuity.

This office has Agents in almost all the principal Towns of Great Britain and Canada, from whom full particulars can be obtained gratuitously, and the means furnished for effecting Insurances; and the same can be had on application to E. SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS

We have put and sold this article for over six years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other article of medicine—NEVER HAS IT FAILED IN A SINGLE INSTANCE. TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter, "WHAT WE DO KNOW," after six years' experience, and PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen minutes after the Syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England, and has been used with NEVER FAILING SUCCESS, in

THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY & DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR OWN PREJUDICES, NOR THE PREJUDICES OF OTHERS, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles are sold every year in the United States. It is an old well-tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

☞ None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.
