TOMMY TUCKER
By RUTH SAYWER

PART II
The House of Barlow the Traffic of the
where Tommy flew, pulled out
across the room the Deputy noted
that showed on the pain little
was a voice in the interlacing
then clear and lively that the
keep her thrumming.
Little Tommy Tucker.

What shall I do for you?
Here is a done job.
You shall it without my help.
Here is Tommy going along.
Tommy broke on the last line.
He had done that for the
the Deputy and out of the
that he was stopping, but
the door, and then turned and
boy was as goy as quick as a
pulled him down and he disappeared
back of the shop.

An older girl, sitting close to
the Deputy, turned with an
importance.

"Do not must have some over
Tommy. He could smell that.

Two days later, as appointed, the
Deputy again, and this time
past the Observatory, heading out
on the road, this last time
chasing fast to a brown paper
post. He veered off to the left,
the right, and even to the right,
the day, and also to the right.

But it was the smallest of
he had in the beginning to see
the smallest of
adapts, had long,
grisly baldness and Tommy was extant,
and on.

And what was in the
the things he did when it was all
to Mrs. Mother's.

I told you.

"Like it stopped best.
Does he have a
"like you?"
"You're a little smarter dink than you ever see in all the
world."

I don't know.

THREE GARDENS

Yes, I have three gardens. The first is our family’s private garden for flowers and vegetables. It is situated beside our home and is the source of browse throughout the year. The second is located on the property of the house and is dedicated to vegetable production. The third is a public community garden where we share flowers and vegetables with the neighborhood. It’s not just about the plants, it’s about the people who share in the experience of growing and harvesting food together.

SKATING ON STILTS

The above photo from St. Moritz shows Phil Taylor, Canadian expert in winter sports, in action. He claims to be the only man to perform tricks on the skates. His partner at the time is Miss Miss White, dancing lady London.

Salmont’s 900-Mile Trip

Salmont, the world’s largest salmon, started its 900-mile trip from the Pacific coast, on the voyage of the SS
to its natural habitat in the Canadian lakes of the St. Lawrence system. The fish, which measures 15 feet in length and weighs over 5,000 pounds, was released into the wild near the starting point.

In the Waking World

The city, we are told, never sleeps, but it could be said that the people never stop. The streets are always bustling, and the lights never dim. It seems as though the city is always working to create a better future for itself and its residents. The Waking World is a place of constant movement and progress.

WHY DO?

A young man was found dead in his apartment in New York. There were no signs of struggle or forced entry. The police are investigating.

GO TO SEA, MY LAD, GO TO SEA!

Learning to be a Seaman in Ten Weeks

During the past seven years 1,251 young men have been trained in the Royal Navy, and 1,000 more are now being trained. This is the result of the work of the Royal Navy, which has produced a number of fine seamen. The Royal Navy has always been a great training ground for young men, and it is likely to remain so for many years to come.

The Underground Coalfield Scheme

The scheme was announced by the Prime Minister, Mr. Winston Churchill, on the 21st of October. It is designed to bring about a better distribution of coal in the British Isles, and to increase the output of coal. The scheme is based on the principle of co-operative ownership, and it is expected that it will be carried out in a number of pilot schemes in the near future.
Minutes of Amalgamated School Board.

Meeting of United School Board held on Thursday, Feb. 13th, 1926.

Present: Chairman Tryon; Com'rs Barrett, Thomas, Turner, White.

Minutes of last meeting read and approved.

Business was transacted.

Motion to adjourn was made by Com'r Bar and seconded by Com'r Trueman.

The meeting adjourned.

G. F. HODGINS CO., LTD.
It is during January that the farm people, who wants to get early crops, begin to plant vegetables. The commercial poultryman also has his flock of hens, and he can kill the birds for market.

In many parts of the country, the farm people will have had their hens laying eggs for three months or more, and they will be selling them for what they can get. This is a good time to sell eggs, as there are not many other vegetables on the market at this time.

When vegetables are in use in the garden, it is important to keep them fresh and to make sure that they are planted in the right place. It is also important to make sure that they are well-watered and well-drained. It is also important to have them in a good location, as they will not grow well in a place where the soil is too dry or too wet.

The best way to keep vegetables fresh is to plant them in the garden, as they will not grow well in a place where the soil is too dry or too wet.

Improvement in Horse

Statement does not exactly state that the horse is coming back, but rather reveals that it is coming back. There is a certain amount of truth in the statement, but it is not entirely accurate.

The authors of the article are both correct in their statements, but they are also both incorrect. It is true that the horse is coming back, but it is not true that it is coming back in the same way that it was before.

The horse is coming back in a new way, and it is not coming back in the same way that it was before. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.

The horse is coming back in a way that is more efficient, and it is coming back in a way that is more economical. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.

The horse is coming back in a way that is more efficient, and it is coming back in a way that is more economical. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.

The horse is coming back in a way that is more efficient, and it is coming back in a way that is more economical. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.

The horse is coming back in a way that is more efficient, and it is coming back in a way that is more economical. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.

The horse is coming back in a way that is more efficient, and it is coming back in a way that is more economical. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.

The horse is coming back in a way that is more efficient, and it is coming back in a way that is more economical. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.

The horse is coming back in a way that is more efficient, and it is coming back in a way that is more economical. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.

The horse is coming back in a way that is more efficient, and it is coming back in a way that is more economical. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.

The horse is coming back in a way that is more efficient, and it is coming back in a way that is more economical. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.

The horse is coming back in a way that is more efficient, and it is coming back in a way that is more economical. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.

The horse is coming back in a way that is more efficient, and it is coming back in a way that is more economical. It is coming back in a way that is more efficient, and it is coming back in a way that is more economical.
THE MOTHERS OF ALL PALE GIRLS

If Your Daughter Shows Signs of Anorexia, Try This

Anorexia is simply a lack of food. It means that the woman is not taking enough food to keep her healthy. It is a very dangerous thing to happen, and if it is not corrected, it may become fatal. If your daughter shows signs of anorexia, try this:

1. Talk to her. Make her understand that she is not eating enough food.
2. Feed her. Give her plenty of food.
3. Keep her occupied. Keep her busy with other activities.
4. Get help. If the problem persists, get help from a doctor or a psychologist.

Canada in 1926

Canada has been at war for over a year with possibly the best products the world has ever seen. It is a war that is being fought for the health of the nation. It is a war that is being fought for the future of the country.

The Cause of Cancer

Most public interest has recently been in the war on cancer. It is a war that has been fought for many years, but it is a war that is being fought with new energy and new methods.

The Cause of Cancer is the result of many factors. Some of these factors are:

1. Bad habits—smoking, drinking, overwork, etc.
2. Lack of proper diet—eating too much of one kind of food, or not eating enough of other kinds.
3. Overcrowding—living in a crowded condition.
4. Lack of exercise—too much sitting, too little walking.

Self-Poisoning Takes Huge Toll

Many Fail in Life Through Improper Mental and Physical Health

Thousands of men and women are being destroyed every day by improper mental and physical health. They are being destroyed by the result of not taking proper care of their own bodies.

The CANTASSIUM

A spirit of health.

For five years I have used the Jones' Own Tablets in the house, as recommended by a friend. My daughter, who is 11, has not been well, but now she is a happy and healthy child. The Jones' Tablets are the only medicine I use.
