Lion's Club Building Home For Widow And Three Children

**Boys Equal Girls At Pontiac Hospital**

Twelve boys and girls of the same age will be the occupants of the Pontiac Hospital. All were born on the same day, November 17, 1915. The boys' average weight is 95 pounds and the girls average 89 pounds. They are considered normal in every way and are taken care of in a similar manner. All are being fed by the hospital kitchen.

**Chefs Furniture and Grills in Recent Addition**

The chefs furniture and grills that were donated to the Pontiac Hospital for the use of patients were recently received. The furniture includes a table, chairs, and a grill. The table is made of oak and is supported by four legs. The chairs are upholstered in red velvet. The grill is made of wrought iron and is designed with a floral pattern.

**Daily Average $1.00**

The average daily cost of food for the patients is $1.00. This includes all meals, and the hospital provides free laundry service for all patients.

**The Early Days in Clarendon**

By Leland Cass

In the Chronicles reader, we are invited to take a flyback through the years to the early days in Portage du Fort. The Editor found a very interesting item from the Editor's notebook which interested him and which he thought would be of interest to the readers of the Chronicles.

The St. Lawrence River was navigable for commerce and trade, and the area was a good location for settlement. The first inhabitants were likely French traders and fishermen, who established a trading post and a settlement on the north side of the river.

In 1682, Father Louis Hennepin, a Jesuit missionary, explored the area and documented the geography and natural resources. He described the area as a good location for settlement because of its fertile land, good fishing, and proximity to the St. Lawrence River.

The area was later settled by French colonists who established a fort and a settlement. The settlement grew and prospered, and by the 18th century, it had become a significant center for trade and commerce.

**WANTED: A SOLDIER!**

It has been our intention to publicize The Hospital Story in this issue. This was in line with our announcement after the first hospital meeting that as soon as both sides had been heard, we would give space to the story and let the readers decide for themselves. This is our intention right up until Thursday noon, by which time we had already set 9 columns of type which, in The Equity, means a full page and a half and we still had an equal distance to go when we called a halt to the operation.

The Equity, means a full page and a half and we still had an equal distance to go when we called a halt to the operation. This was our intention right up until Thursday noon, by which time we had already set 9 columns of type which, in The Equity, means a full page and a half and we still had an equal distance to go when we called a halt to the operation.

**Memorial Bell Victim Of Progress**

Suggests Cairn Be Erected

The Editor: A small house was destroyed by fire last Friday evening. This fire caused no alarm and little damage to the immediate community.

Most residents knew that this building (which belonged to the late Mr. John Smith) was destroyed to make way for the new highway they were planning to construct.

Mr. John Smith, who lived on that property, owned the old house. He had been planning to rebuild it, but his health had been failing and he was unable to do so.

In our opinion we would be doing the hospital, the community and the memory of a soldier and a patriot a great service by erecting a monument in this district.

The column, however, is the last column in the paper. The newspaper is printed on a flatbed press, and the column is the last column to be printed. The paper is folded and sold to the public, and the column is the last column to be sold.

The column is the last column in the paper. The newspaper is printed on a flatbed press, and the column is the last column to be printed. The paper is folded and sold to the public, and the column is the last column to be sold.
BOY SCOUTS

The first page collection has been completed and like most other "firsts" there were mistakes. First, we want to thank the Shawville Citizen for giving their space for us and after the first page we want to apologize for unknowingly having kept a good friend of ours from using his paper for his age for his car. The Rivers and the Shawville Citizen is an emergency to do the job. In order to help us, it would have been if each person who has paper for our boys would be able to give him a good head start. We now have about 10 of a ten days on Sunday, the boys have been given an LEAP to be able to reach Ottawa. Thank you very much for the space. The boys will be back again for another issue in October 28 as please have your benefit in Saturday, October 28 for the first Scout Apple Day. The Cub, Scout and Rovers will be off with their apples and take in that day, Hubert Le Claire, our Scout Leader, has arranged a Scout camp at Beaufort. I am sure that the boys will have a good time and enjoy it and your apple. The Cub Pack met on Wednesday in a place they had never been before. It was a busy hike and all were happy if someone was going to sign at the Scout. Anyway, they had moved the goal but they missed the goal and were taken away. If the Cub Pack ever meets, I am afraid that they will be back to Ottawa. The boys then entered their tripod or explored the range of a piece of rust and then went on walking the river. For fear that a tailing In. For fear that a tailing In.

Lunch Boxes — Make Them Prize Packages

Whenever you pack lunches for your kids or for school personnel, you’re really preparing surprise packages for them. And, lunch every day should be a happy surprise, the kind they’ll enjoy.

Here are some tips for packing lunches.

- Use a wide assortment of cheese.
- Choose fresh fruit almost every day.
- Make sure to put you behind the wheel! Because we have an engine that can talk for itself—in the proved and improved Oldsmobile—Shawville Quebec. October 11, 1951

OLDSMOBILE

John L. Hodgins

The pay-off comes in the performance! And we’re glad to put you behind the wheel! Because we have an engine that can talk for itself — the proved and improved "Rocket"! "Power!" says the "Rocket" — as 135 high-compression horsepower surge into action! "Smooth!" says the "Rocket" — as Hydra-Matic delivers that power with effortless ease! "Quiet!" whispers the "Rocket" — as you enjoy that wonderful new Oldsmobile ride! And we’ll also be glad to tell you about "Rocket" gas savings! We’ll be glad to prove that your best deal is Oldsmobile — only car with the "Rocket"! A special type of cheese was given to Mrs. Noreen, at a party at the Shanes last Thursday evening. Mrs. Noreen was presented with an oil lamp as a present from the village in which she was raised. The village is the vicinity in which she was born.

COAL

Have you ordered your Blue Coal yet? We also have two cars of Welsh Stove Coal — both Mash and Pellet form.

NORTH STAR LAYING MASH

Give your fall pallets a profitable start with NORTH STAR LAYING MASH.

- Locking Plants
When the tin can was inventived 100 years ago, food packaging industry experienced a revolution. Today, another great development is taking place—brought on by a new industry created by Clarence Birdseye. This manual observation was the forerunner of a new industry spread rapidly into the Canadian market. Our factories are busy now. We need to pack, ship, sell, distribute frozen foods to all of Canada. Birdseye had an important role when he started his new industry—creating a new market for frozen foods. To obtain the low temperatures necessary to preserve—frozen foods are packed and palletized at the local market. Birdseye had an important role when he started his new industry—creating a new market for frozen foods. Pickup Service By Calling Merton Glenn
Telephone 16-8-4

"Beats the old team any day, Dad" 

AWHILE back, he figured out just what a new tractor would do for his farm. He didn't have enough cash in the bank to handle the deal. So he talked things over with his bank manager, fair and square.

He got his bank loan — and the tractor. From now on, he expects to work more acreage, increase his farm income. Soon he will be repaid.

He looks to his chartered bank for market information, too, and any other banking service he may need.

That's what he wants. That's what he gets. Sound business all around!

Resource Minister Commands Program

"Making the youth of Canada conscious of the values of wildlife and the great outdoors" was the ideal listened to this week by the Hon. Robert W. Winter, Minister of Resources and Development, in an official address to the youth branch of the Canadian Wildlife Federation. The program was back for its second series over the airwaves.

"The person of Mark Trail—honesty, trustworthiness, respect for the living and the dead, and the like," said Mr. Winter. "The program was to be continued next year, with the Junior Supervisors of the Canadian Wildlife Federation being the guests of the program."

The Minister stated further: "I want to commend the program as a fine, exciting and educational program for the young people."

"The protection of Canada's fisheries, forests and wildlife resources are among the programs of the Department of Resources and Develop-

Men of Leifotheld Prepare Parking Lot

Through efforts of the men of Leifotheld United Church the congregation now has a fenced-in parking lot at 30 X 30.

The lot, across from the church, was donated to the church four years ago and a work crew expecting to work five days next week was making ready any day. The blacktop was to be ready for use in a few days when the larger road ahead will be completed.

With the addition to the grounds of the church, a group of people will be able to use the church as a meeting place for the community.
