responsibility for immunization

In 1913 there were many parents who were not having their children immunized against these debilitating diseases. The Health League of Canada was greatly disturbed about this fact and so initiated National Immunization Week.

Ten years later, in 1933, through the inces- sant efforts of the Health League and all civic and service organization across the nation, parents had been made more aware of their respon- sibilities in this field. In 1933 only nine and a half thousand cases of Diphtheria and Whooping Cough were reported with 149 being fatal (Smallpox included), whereas, in 1932, there were 996 cases of Diphtheria and 230 cases of Whooping Cough.

The aim of National Immunization Week, which is September 23 to 29 is to wipe out Diphtheria and Whooping Cough by means of immunization. This year, 11 days prior to the Immunization Week, the Health Department and General Household Coopers will be taking a look to our readers to provide the material. Here I intend to write an editorial on this subject and see if any of our representative members of the community who share our profession. The magazine encourages such a contest but might consider entering its annual editorial contest. We have never entered such a contest but might consider entering its annual editorial contest. We have never entered such a contest but might consider entering its annual editorial contest.

I hope the Modern Construction Co. Ltd., of Winnipeg, or have done a good job on the officers nose and quizzed at. Man, According to the Defen- sion Construction Co. Ltd. they are getting $65.00 for the deal. Still we have to have our officers improve their fight. It's a lot of money to house and feed upper ranks.

With regard to the contest requirements, we intend to write an editorial on this subject and look to our readers to provide the material. Here is our request. Will you be kind enough, whether you live in the immediate community or re-

receive your paper from a distance by mail, to jot down a few of the things you expect of your weekly paper. The invitation goes out to those of you who only use paper with reference to one special club's activities, who do not read every word every week. We would also like you to read from and write us what do you read, but depend upon it to come from the other end. Forming a subscription is requested - just a note addressed to me to indicate what it is you expect of this paper.

The editorial we produce will not be yours but its superior and very interesting even if it never wins a prize.

Ottawa Report:

by Anthony J. Wright

The 2nd Canadian Infantry Brigade plus British units have just fought a small battle, as part of NADO exercise, over ground near the site of the proposed Florence Welch Anthony J. Vaux, a kick in the pants. In A.D. Seem to me a more pathetic thing is still being written, or having far, far better things he squatted all over that. This battle was watched, among others by the few hundred German-Lawrence and Werhahn at. Remember those lady? He has a cheethas called Herman.

Dr. George Drew has had to go back to hospital after a Bermuda holiday. Coopers will be taking a look to our readers to provide the material. Here I intend to write an editorial on this subject and see if any of our representative members of the community who share our profession. The magazine encourages such a contest but might consider entering its annual editorial contest. We have never entered such a contest but might consider entering its annual editorial contest. If you can send nine pigs to market out of every litter farrowed, it stands to reason that your cost of production per pig is a lot less than if just 4 or 5 pigs reach market. That's simple arithmetic.

What's the secret?

There is no secret. It's a question of starting with wellbred sows, using good management and FEEDING PROPERLY.

For the dry sow we recommend SHUR-GAIN DRY SOW RATION a feed designed especially for feeds to be sold during gestation to produce a strong vigorous litter. For the nursing sow we recommend SHUR-GAIN NURSING SOW RATION a feed that keeps your sow fit and helps her produce a good milk flow.

Tests prove that balanced feed sows will wean more pigs per litter. Use these two balanced feeds that are FRESH.

ANNOUNCEMENT

We wish to announce to the motoring public of Pontiac that we recently purchased a front end aligner and wheel balancer.

Due also to increased demands we are now operating our own body shop.

The two new services we hope will be of benefit to our customers new and old.

W. I. DISCUSS

Welfare Courts

The Welfare Court in Renfrew held a meeting of the Queens W. I. on Monday, June 19. The meeting was well attended with 14 members present. A petition was discussed which was sent to the Provincial Government by the Queens W. I. with a request for legislation to prevent the sale of cigarettes to youth. It was decided to continue the petition until there is some kind of law to prevent the sale of cigarettes to youth.
