Tigers Take Two Game Lead
In U.O.V. Baseball League Finals

Look For Third Straight
In Quyon On Sunday

A two run rally in the top of the ninth inning gave the Shawville Tigers their seventh victory over Quyon Fifers and a two game lead in the best-of-seven series. The thrilling contest was played in front of a large crowd at the new field in Quyon, and the Tigers went on to win, 4-2.

The Tiger hurlers, Earl Powell and Wally Stetson, combined to hold Quyon to seven hits, while the Tiger offense was able to take advantage of Quyon’s six errors. "This is the first time we have had a complete game in these playoffs and both pitchers were hurt with a lot of balls in the strike zone," said Wally Stetson.

Siegfried in on the home run, but the Tigers won, 4-2. The final score was 1-0.

Fifer’s score was on a wild pitch by the Tiger pitcher, who was unable to get a handle on the ball that was hit to center field. The pitch was caught by the center fielder, who had to leave the field to catch it, and the Tiger pitcher was forced to leave the mound and walk to the dugout.

The Tigers led, 2-0, after two innings when Felix McPhee hit a two run home run to right field. The Fifers scored their only run in the bottom of the fourth when Bob Conner hit a solo home run to center field.

The Tigers took a one run lead in the fifth inning, 3-2, when Felix McPhee hit a single to center field, and then stole second base. The Fifers scored their second and last run in the fifth inning when Bob Conner hit a solo home run to center field.

The Tigers scored their fourth run in the seventh inning, 4-2, when Felix McPhee hit a single to center field, and then stole second base. The Fifers scored their second and last run in the seventh inning when Bob Conner hit a solo home run to center field.

The Tigers went on to win, 6-2, when Felix McPhee hit a single to center field, and then stole second base. The Fifers scored their second and last run in the seventh inning when Bob Conner hit a solo home run to center field.

Fort Coulouge
Fire Brigade
Makes Trial Run

Fort Coulouge — The Fort Coulouge Volunteer Fire Brigade held a trial run, with pump and equipment from the Fire Station to Chute inn, a distance of approximately 5 miles out of town.

The trip Monday afternoon was a very enjoyable one, inasmuch as the members are becoming more adept at their respective duties.

Without many delays the trip with men and equipment was uneventful. From pump tank was made in minutes and water was supplied without ample minutes at the time of the demonstration.

The committee in charge with Fire Chief Henry Frances, and 12 men were all ready and happy about the whole equipment, and the general appearance of all present was quite evident.

There is a "drive on" at present to bring in funds for the brigade and the "Parmenter" of the Fire Station is a big success in the Parish Hall, Monday, which in a decided success, and a substantial amount of proceeds turned over to the Fire Brigade.

Shawville Council To Purchase Two Gas Masks

Shawville Council met Sept. 19th at regular monthly meeting attended by Mr. Ken Hodges and Councillor McCaughey. The following resolutions were made and approved on motion Councillor McCaughey and Councilman Hodgins:

1. That the Council purchase 2 gas masks for the Fire Department.

2. That the purchase be made as soon as possible.

Shawville, September 19, 1958.

Edward H. Burt, President

Councillor McCaughey

10. To request the Secretary to write Capt. A.C. Boulton, Quebec Public Charities, re a request for a higher snowplough grant for the season.
Letters to The Editor

Needed

A more realistic national policy for agriculture

A policy equally advantageous to both consumer and producer.

Quality in food products is paramount.

Quality is more important than Price. Quality must precede Price. Quality justifies Price.

In a true democracy the consumer responds to the producer, does come first, satisfaction, the consumer should come first.

One is satisfied with the quality of Canadian agricultural goods only if the product is of high standards and not to bolster the producer.

Several typical examples -

(a) Butter - Margarine today is a more uniform product in quality than butter. Having in mind the quality of much of the cream used makes it better, it is unthink- able that manufacturers of manufactured grade "First Quality"

(b) Wheat - Flour is the principal product of wheat yet most consumers don't know what it is when they buy, we buy, to buy at wholesale prices. We buy in lower quality of wheat should be equal to the consumer.

(c) Beef - There are seven grades of beef. Only the two top grades are identified by type of优质 meat. In the technique of production.

(d) Eggs and Poultry - Quality is important in quality. The consumer is interested in the quality. The consumer is interested in the price. Quality and price are not taken into consideration.

County Council Minutes

Minutes of proceedings of the general meeting of the County Council of Shawville held at the Court House at Shawville, Quebec, on Wednesday, September 16, 1958.

The Roll is called and Councillors Lewis, Harris, Levesque, Cantin, Dunlap, Primeau, Cantin, Turcotte, Villeneuve, and Gosselin, are all present and answer the roll.

The minutes of the last reg- ular meeting held on June 11th, 1958, are read and moved by Mr. E. L. Edward and seconded by Mr. J. O. Primeau, that the minutes be adopted as read.

The following correspond- ence is read: Acknowledge- ment by Canadian Legion, Number 7, Shawville, to the Blind, and Handicapped Arm, Home Social Service, Shawville, for the assistance given by Canadian Red Cross Society in connection with the subject of the disputed Murphy Roadway, including the sum of $2.00.

Solution to Business:

The matter of low Grade was discussed; the members of the Council agreed to vote to improve the grade of the road to the highest possible standard. It is moved by Mr. W. J. White, that the road be improved.

Furthermore the members of the Council are not satisfied with the price of support paid to the producers. The Council desires that the price paid to the producers be raised to a higher level, in order to make the producers more satisfied with the quality of the product.

Report On Radioactive Minerals In Pontiac

Over forty occurrences of radioactive minerals containing uranium or thorium are described in a geological report just released by the Honourable W. M. Collingwood, Minister of Mines for the Province of Quebec. Among those listed are many in Pontiac County, complete with all details. The report (O. R. 80) entitled "Radioactive Minerals: Occurrences of the Province of Quebec" gives the results of an investigation carried out by W. D. Sklar for the Mineral Deposits Branch of the Mines and Metallurgy Section of the Geology Department.

The author presents in the introductory part of the report a few notes on the radioactivity of the earth's crust followed by a description of the methods of instrument and describes the methods of instrument prospecting for thorium and uranium. The rocks containing the various deposits of the Province are classified into three main types of radioactive rocks and are described in detail. The occurrence of radon is fully described. The occurrence of radium is described in three main types of deposits including: 1) deposits of the Mendocino type, 2) deposits of the Comerford type and 3) deposits of the Borden type, which are divided into sub-groups.

The description of the individual properties is supplemented by the presentation of eleven colored figures some of which are inserted in the text and others in a pocket. Copies of this report may be obtained from the Department of Mines, Parliament Buildings, Quebec P.Q. It is free and it's very interesting and should especially be brought to the attention of the advanced science students at the High Schools.

John Heman Dagg

Died Suddenly

John Heman Dagg was born in London, England on March 15, 1871. He was the son of Mr. and Mrs. Kenneth Tubman Dagg, and was educated at the University of London, where he received his education in the field of geology. He returned to Canada and practiced as a geologist, specializing in the study of radioactive minerals.

He is survived by his wife and two daughters, Mrs. Judith Spence (of Toronto) and Mrs. Alice Dagg (of London). Mrs. Dagg, aged 68, is a native of England and Mrs. Dagg, aged 55, is a native of Canada.

The funeral service will be held at St. John's Anglican Church, Bay, on Thursday morning at 10:30 a.m. The interment will be in the family plot in St. John's Cemetery.

Veteran of World War

Rosol Lupine Dies

Rosol Lupine, Veteran of the two world wars, died at Montreal on Wednesday, August 21, 1958. Born in Bryson, he was a son of Mr. and Mrs. Joseph Lupine. He received his education in the local school and enlisted for service and served throughout World War I. He married the late Lily Bertrand, widow of the late Victor Pinsonneau and with his wife carried on in the Hotel business for many years. When World War II broke out he enlisted in the military and was stationed in Canada. He made his home in Bryson, where he lived for many years. He is survived by his wife and two children. Services will be held in Montreal on Thursday, August 22, at 2 p.m. Interment will take place in St. Joseph's Cemetery.

Bryson News

Mr. and Mrs. Claude Arundel, of Ottawa and Mr. and Mrs. Roland Poisson of Camp Bonita were recent visitors of Mr. and Mrs. Amedee Poisson.

Miss Valerie Raymond, Miss Shawville Notes

Rev. R. B. Butt of Windsor who this week is attending the General Council of the United Church of Canada in Ottawa was in charge of the services at Shawville United Church on September 31.

Rev. E. R. Johnston will be installed as minister of the Shawville Pastoral charge of the United Church on Thursday evening, October 2nd at 7.30 in the Shawville United Church. Please keep this date in mind and all members of the congregation are invited.

Mr. and Mrs. W. H. Crick and Russell, also Mr. and Mrs. Findlay Crick and their two children, all of Hamilton, Ont., were visitors at Starks Corners last week.

Mr. and Mrs. Alvin Finlay of Magars Falls, N.Y. visited the Clifton Corrigan's in Butons but only some have been attended by singing the hymn, "This is My World" at 7:30 in the Shawville United Church and Miss Reanice Findlay and Mr. and Mrs. Peter Baker, Miss Michele Plievare will be in charge of the services at Shawville United Church of Canada in Ottawa this week.

Mrs. Brigid Keegan is the proud owner of 4 months old pullet that laid an egg with three yolks. This, she said, is something for Bryson to blow about.

The movement along the river is to the dark merchantable river snags have been fired but only some have been lucky.

Brenda Green and Miss Carol Merriweather of Timiskamingo, Que., have returned home after a short visit with the Misses Merriweather.

Mr. James Finlay of Ottawa is spending a short holiday in Bryson, the guest of Mr. James Pitt.

Mr. and Mrs. John Boudreau and Miss Thompson, of Champlain, Ont., are visiting with Mr. and Mrs. James Boudreau.

Miss Grace Griffin, Geraldine O'Brien and Stanley Keen returned home this week after two months spent in employment at Jasper Park, Alberta.

Among those attending the Provincial Convention of the Catholic Women's League of Canada held this week in Windsor, Ont., are Mrs. Elizabeth Keen and Miss Eleanor McCarren.

Mrs. Frederick Keegan is greatly admired by all.

Elmwood W. J. Reports

School Fair Success

Mrs. Hampshire, Ottawa, and Mrs. Marshall Laughon were among the visitors to the Elmwood W. J. held Wednesday evening, September 18. There were 50 entries received.

The executive worked so hard and followed the ruling of the minute and the treasurer's report, the president read it on Miss Sarah Campbell and Mr. Stewart to give their report on the School Fair. They stated it was a success with over three hundred entries.

The weather was fine and it was well attended. While the judging was being done the children enjoyed games and music under the leadership of Mrs. Hudson, Mrs. Barber and Mrs. Ada Ross. Following Miss the crowd assembled at the front of the school and speeches by Mr. Drummond and Mr. M'Intosh. Before the children some excellent artists of how to present their exhibits for the fair. They were headed by Mr. Hare. The judging of the cooking and face work was headed by Mrs. Abbey Pitchard and Mrs. F. Pelletier to whom we are very grateful. Miss R. Campbell reminded us that the 35th Annual School Fair.

For pupils at No. 9 school were discussed, and it was decided that the W. J. give a prize to each of the nine grades for General Proficiency at the close of the school year.

A surprise package was brought by Mrs. Harte and Miss Sarah Keegan. Once opening her package she found a baby, a scarf, a jacket and braided hat made by Mrs. Harte. They were greatly admired by all.

Dave McFarlane was guest speaker on the program. All of our musical 'Pigots, Pigons and Pun' and as her main feature while the game was dress-making, we were all interested in some shots and other advice she gave on all things, including dreams, etc. She finished by Mrs. Beatrice Clarke refreshments were served by the hostesses to the Elmwood W. J. and all members of the organization.

The meeting closed and all members of the organization great pleasure was given a good time.

Sheffield Furnace Oil saves you money 3 ways:

You save on fuel

At little as a 1/400 dollar can increase your oil consumption by 10%... send 1 dollar in every 10 straight up the chimney. Cleaning-burning, smokefree Shell Furnace Oil keeps your burner at peak efficiency-ready to give you full value for your heating dollar right through the winter.

You save on burner maintenance

Only Shell contains a special anti-clogging additive that cleans the filter in your furnace as it burns... eliminates fuel leaks that waste fuel and cost you dollars in repairs.

You save on storage tank maintenance

With Shell Furnace Oil you get-Sonitor-the exciting new chemical that was found formerly in underwater oil storage tank due to condensation... helps prevent leaks that waste fuel and cost you dollars in repairs.

You save on health care

With Shell Furnace Oil you get-Sonitor-the exciting new chemical that was found formerly in underwater oil storage tank due to condensation... helps prevent leaks that waste fuel and cost you dollars in repairs.

You save on energy costs

Paul Martineau, M.P.

...taking shape and one can envision a great city unsurpassed by any such city now existing in the world. Residents of the Ottawa Valley will be among the first to derive pleasure and profit from the beneficent extension of the new National Capital region. The plan of the future Capital region is development of its own resources along the lines and especially by encouraging its citizens to invest in the great tourist interests of the Valley. To further these ends the Government has provided for a Tourism Development and Monopoly Act and the Bill of such legislation, which has been adopted by Parliament and is now comprising over 100,000 square miles. The area of the National Capital includes a green belt along both shores of the Ottawa River. The plan of the future Capital region is

"THERE'S MORE THAN ONE WAY TO SKIN A CAT"

AND THERE'S MORE THAN ONE WAY TO SATISFY ALL YOUR FEED NEEDS BUT THERE'S ONLY ONE BEST WAY FOR SHUR-GAIN FEED SERVICE!

WHY?

Well, if you want the finest of first line feeds, knowing that the feed is completely fresh, and knowing that you're not spending good money for grain freight charges buried in the price tag I hope you will switch to locally manufactured SHUR-GAIN.

And, if you want to buy directly from the manufacturer, top quality feeds, farm proven for Canadian feeding conditions -- then switch to locally manufactured SHUR-GAIN.

The Prime Minister has been eloquent in his vision of a great capital city in the eastern part of the country. They are agonizing over the withdrawal of American and British troops from our own country. They are harangued development of the economic, cultural, and political potentialities as well as all the important problems discussed keenly Interest In hearing last Thursday, September 11, 1958.

"Faulty wiring" is given as the cause of a surprisingly large number of fires. In many cases it might better be "Improper fuses".

The use of metal inserts or oversize fuses is dangerous. In case of excess current or short circuit the wires will overheat and might cause a fire.

Fuses are safety devices. If fuses blow frequently, you are either overloading the system or something is wrong with the wiring or devices on that circuit.

THE TRITON

The Triton, the newest and largest nuclear powered submarine launched August 19, is equipped with two Allis-Chalmers underwater turbines which drive the underwater screw by which drives the ship down into the relatively propulsion turbine. Allis-Chal-

mers pumps are used by the Triton to pump the condensate from condenser back to the clear reactor where it is changed to steam.

Allis-Chalmers is participat-

ing in United Nations Interna-

tional Conference on the Peaceful Uses of Atomic

Energy in Geneva, Switzerland, which started September 1st and ends September 15th.

Ordinary ole is usually filtered

just once. Red Cap is filtered

three times... just to be sure.

That's why each bottle of

Red Cap is sparkling, light and

pure. Have a Red Cap today!
