DRUGS ON THE PONTIAC

Dope and drugs have for several years been a serious problem in both Sarnia and Pontiac. The Quebec Police Force is co-operating with the Pontiac Bureau of Narcotics in the sources of supply.

The problem is one which will need also the cooperation of the public at large, particularly those young people who can lose much by becoming victim of this evil.

The police at present has a lot of information which indicates a need to have a foot patrol against the local influence of dope. Any help you can give will be appreciated.

Spread" is their main target at present. The Police Force can be reached at 664-2141 and will follow up any clues received, even without knowing who is calling. This may lead to an lot of extra work tracking down possi­ ble pushers but they feel it would be worth it in the Pontiac County of this situation.

An anonymous letter can be written to the police with information and they will have their word that they will set on the investigation. And this is even better if it is signed.

The OPP has now 6 cars and 20 police officers on duty which means they are more able than ever to respond to any situation. All they want from the rest of us is cooperation.

SHAWVILLE WELCOMED THE PREMIER

There was a lot of talk about being too cagery with Premier Bertrand last Wednesday which caused three hours late to Shawville. At least a dozen people actually waited three hours for him because they had come to the Convention Centre at 6:30 to be among the first row seats and set until 9:30 arrived. The arrival of the convoy was 7:00 and 7:30 Hodges. Never rains as will wash away the伏t of Premier that the full police escort had been there by the time the convoy with the Premier left came and went and finally at nine thirty Mr. and Mrs. Bertrand, Ray Johnston but no minister of justice, Jean-Jacques Bertrand was well pleased to handle the situation even without any special apology. What was the chief of his first major speech of the evening in the English language started out not as an apology for being late but then a few words about his kind of political style. He said that people who were to wait in Canada or not and that the number of the peo­ ple of Quebec are French they will want to do many things differently from the people of other provinces.

It was a good speech and humans seem to have been well and well received and well re­ ported by an experienced reporter. We have just one word of advice that every public official should adopt in these meetings: sometimes be late.

THE ELECTRICITY

there was no electric light at 7:30 and at 8:30 Hodges. For the first time ever to come to Canada from Europe, the Canadian Consulate has been established in Shawville by Mr. Bertrand. Yet, the impression that he was telling the people of other provinces.

Once at a convention in Ottawa where the Premier went well. The hall was early return of Mr. Bertrand when he the Premier but by the time to Queenston he was intent on making his home in Pontiac. And we still have the And­ and state why they, or their ancestors, ther emigrated to this country.

Let's build a strong and thriving Quebec together

The road ahead for Quebec can never be charted by a party embroiled in foreign matters, a party whose policies result in the division of Quebec and New France and whose aim is to divide and conquer our country. The strength of Quebec can never be built by a group of bilingual and unilingual people, the provincial Condition, nor by any ideology based on uncertainty and fleeing with the unknown, separation and provincial separatism.

More than ever, the future strength of Quebec will come from our common ideals, our common love for Quebec, the growth of which requires a party which relates to Quebec's future on wild ventures devoid of any myopic governing program. Together, in the Union Nationale, we can build a strong and thriving Quebec.

Quebec more than ever

Quebec to train firearm safety local instructors

There is to be a new

line in Quebec concerning

Firearms safety, according
to W. A. Hodgins of

Shawville, who has been

appointed by the Quebec

Firearms Federation to teach

classes on the subject of

firearm safety. This has

been decided after instructors

were sent to the United

States to study the well

organized system now in

place in Quebec, and it is

expected that the

instructors will be able to

 produce excellent results.

The course will be held

at the Ottawa Hotel during

the week of April 25th, and

the instructors will be from

Shawville, Pembroke, Pembroke

and Chénéville. The course will

start at 9:30 a.m. on Monday

and end at 4:30 p.m. on Friday.

The course will cover all

aspects of firearm safety,

including the history of

firearms, the laws governing

the use of firearms, and the

methods to ensure safe

handling of firearms.

The instructors will be

selected from among

members of the local

Shawville, Pembroke, Pembroke

and Chénéville. The course will

start at 9:30 a.m. on Monday

and end at 4:30 p.m. on Friday.

What will be the cost of such program to the working man?

Medicare will be paid through a taxation system — Singles earning less than $8000.00 per year and persons with dependents earning less than $10000.00 per year will not pay into the program.

However if you earn more than $2000.00 or $4000.00 the case may be you will pay 0.8% of your earnings up to a maximum of $150.00 per year. Your employer will pay the same amount. Meaning if you have to pay $60.00 per year ($7500.00 X 0.8%) your employer will pay the same.

In order to pay the maximum fee you would have to earn $15,625.00 per year or $31,250.00 annually.

This means that most of the working people in our area will pay some money into the program.

**What will the program provide?**

The contents of the program are not yet known to the public.

By Walker Riley,

Macadam College, Agricultural Extension

A month from now we could be on the land seeding. We are in a position of the most recent and better varieties for 1969, gleaned from the personnel of the "Wheat Crop Improvement" of the Canadian and other countries. These new varieties will be marketed by the major corn seed companies, and can supply you with hybrid that is early enough for your purpose. Only every major corn seed company has a listing them. Every major corn seed company has a
