### Francophone parents demand equal kindergarten services

By Denise Bélanger

The Pontiac Catholic School Board will continue to offer full-day kindergarten in the English sector, but it will deny the same option to French System children. In spite of a government ruling and a decision by the Pontiac School Board and a government decision to offer the English while keeping the services to the French to the minimum, or as in the 1990-91 school year, below government parameters.

The Pontiac School Board will keep the services offered in 89-90 for kindergarten for the English sector of the Board and add a 50/50 program for half a year in French, the half day in English for grade one. This September five half-day per week in English for French, four days per week in French for English, and two days per week in the French system of Board will keep the same program, 1/2 day in the French sector while 3.25 teachers and add a 50/50 program that 3.5 teachers, for a dollar

### Griffin enters not guilty plea

In Provincial Court on Tuesday morning, April 6th, one week ahead of last year's opening, Eric Griffin of Bryanston pleaded not guilty to a charge of public mischief. His preliminary hearing had been set for May 26th.

Griffin was arrested early Thursday morning, April 2nd, after a two-hour standoff at the Campbell's Bay Office of the Quebec Police. He was the QPF Major.

The Quebec Provincial Police in a note to the Campbell's Bay Office stated that he was detained under the provisions of the Police Act and that he was facing charges of public mischief. The hearing was set for May 26th.

### W Q Board gets high marks

By Denise Bélanger

The Protestant School Board placed sixth out of 130 boards across Canada in the Ministry of Education June rankings. The Protestant Catholic School Board placed tenth.

In the English only sector, the Pontiac School Board placed seventh out of 38 boards across the Pontiac School Board, 7th in the French only sector.

In individual subjects, the Pontiac School Board placed 11th in Economics, 11th in Chemistry, 11th in Mathematics.

In French first language, against impaired driving (PRAD) program, such received a $250 change donated by the Shawville Public School. Brian Mousseau, president of the Kinettes presented the check to Laura

### Kinettes donate $500 to PPHS

The Athletic Council at Pontiac Protestant High School in Shawville and the Pontiac Students Against Impaired Driving (PRAD) Council, sponsored a $250 change donated by the Shawville Public School. Brian Mousseau, president of the Kinettes presented the check to Laura Boisson, president of PRAD.

PRAD will use the money to help send two students, Clay Sharpe and Tracy Smith, and two teachers, Joyce Newberry, to a four-day conference on impaired driving in Aylmer, Ontario this month. The Athletic Council will use the money to sponsor their annual Athletic Banquet which will be held May 1st.

### McPhee enters 100th

Marcia Herval, "The radiothon is only really appreciate the public's support in ways in which the CHP tries to reduce its debt.

### Kwyn Quay ferry

The Kwyn Quay ferry began running at 6 a.m. on April 6th, one week ahead of last year's opening. Don McLaughlin put the boats in the water on the afternoon of the 6th, which he says is "right on" for the opening of the ferry service.
The finals of Pontiac
Protestant High School's annual public speaking
competition were held at
PSB in Shawville on
March 28th and 29th, with
approximately 47 students
participating in the Junior
and Senior divisions.

As well as being part of
the PPHS curriculum, public speaking competi-
tions have been an annual event for the past twenty
years.

Judges for this year's competition were Mrs.
Mayfred Dub and Mr.
Warren Halligan.

The event is sponsored by the Shawville Lions
Club.

Among the Junior girls, first place went to Virgin-
a in Schwartz. Second and
third place honours went to Karen Fahey and Jamie
Christie.

First place in the Junior boys division went to
Jame,
Richardson, with
Andy Woolsey in second
and Neil Horner in third
place.

In the Senior girls, Heather Hodgins took
first place, followed by
Marsha Hodgins and
Leigh Ann McMan.
Paul Froment came in first among the Senior
boys, followed by Shawn
Graham and Steven Fa-
key.

Winners in the Senior divisions are encouraged
to participate in the East-
ers Ontario finals, which
are scheduled to be held in
Kanata-Hazeldean on
April 20th.

Don't follow leaders

The news this week that the Mulroney government now enjoys the lowest rating of any Canadian government since polls began may indicate something more than the perennial peaks and troughs of electoral esteem. It may indicate that the people of Canada — indeed the world — are tired of waiting for governments to provide any true vision or leadership on vital matters.

Just as it has with language tensions, the federal government refuses to assert itself on the environmental front. In both cases the federal government seems content to allow either provincial governments or industrial interest groups to call the tune. The result is ineffectual policy that delays decisions until the public gets tired of waiting.

The "Green Plan" announced March 29th by federal Environment Minister Lucien Bouchard is not really a plan at all, merely a promise. Instead of policy the government has undertaken a consultation process to see whether the Canadian public is prepared to pay the cost of environmental restoration.

A public statement issued along with the Green Plan begins by saying, "In recent decades we have radically changed life on Earth and greatly diminished our planet's ability to ensure the continuation of life." After having dropped that bombshell, it seems inconceivable that the Ministry can be so noncommittal when it comes to an action plan. Conventional wisdom speculates that the Plan would have been stronger had it not been for the other Cabinet Ministers pulling the financial rug out from under Bouchard. But what other governmental considerations could possibly exceed the persistence of life itself?

Whether the '90s will prove to be the "turnaround decade" in which maskid saves itself by changing habits, or proves to be just another decadent decade on the way to the announcement seems to be a question that the government doesn't want to be too pushy about. Hopefully, the public may rise to the occasion and provide the decentralized leadership that the federal government sorely needs.

Recycling projects being undertaken here in the Ottawa Valley are a sign of local government being committed to progress rather than mere rhetoric or, as David Suzuki says, "Thinking globally and acting locally.

Perhaps this is the only environment that can restore itself effectively. Ecologically speaking, 'There are no national solutions,' says grassroots environmentalist Wendell Berry. "We must achieve the character and acquire the skills to live much poorer than we do.'

Radical words, but probably wise ones. Exactly where to apply the knife to trim the fat off the indigenous western lifestyle is what the government needs to tell Canadians to want to do. Although it might prove awkward, the federal government could provide the answers. Any real move on this is going to have to happen at ground level where we keep our eyes if we want to catch the action.

Richard Will

Rustic Rhetoric

by B.W. Mulligan

Farm life is in the 30's.

Grass grade mixed with the weed seeds gathered at threshing time. It was a mowing job for the men, and we let the animals have the rest of the crop. The grains had been harvested in large boxes half filled with straw. We would put them to bed for the winter but we got our tallow and hog fat. We always kept our pigs fat, and we killed them when they were ready. The hogs were burned down in 1933.

We had fun too, especially eating the spring on the frozen ice. Sometimes we could skate a mile. A mile of skating was good fun. The whole farm could be a skating ice. We all went skating.

As winter advanced, we would be heating up in the house. Then we would start setting up the Christmas tree, hanging and turning turkey by the fireplace. We always kept the turkey eggs in the cellar and we killed them with a stone. We turned the eggs down in the spring and then we would snap them dry. In the 1930's and 1940's we never drove a car in the winter but we got our tallow and fat. We had a lot of turkey, and sometimes we would make a turkey aro.

Then we would get a turkey on the frozen ice. It was a mile of skating. We all went skating.

New Brunswick selling resources to finance reigic terror

Burma has a long tradition of exporting natural resources to finance its repressive regime. The country's economy is based on the exploitation of its natural resources, including forests, minerals, and hydropower. The government relies on revenue from these exports to finance its military and political repression. Burma has a history of human rights abuses, including forced labor, torture, and political imprisonment. The country is frequently criticized for its poor human rights record and has faced international sanctions. The government has continued to receive financial support from natural resource exports despite international condemnation.

Bridge. Working together, the council of Bennington County, Pittsville, Central School District, Chatham, the town of Rutland, and the town of Brownsville, along with Mr Cour and Mr E. L. M. Caldwel, the Consolidated Paper Corporations, and Mr M. J. Wilson, the Federal Public Works, and Mr M. M. Martin, to discuss improvements to the bridge at Chausse. All present were in agreement, and no further discussion was necessary, the bridge may be complete by the fall of 1966.

Between Grocery. At 6:30 am on Sunday morning, the owner of Groceries, Chas. E. Leblanc, was driving through the front wall of his store. In Pittsville, the township.

Harold Honored. Mr. G. H. Harold, the manager of the Shawville Electric Pole, plant, held the rank of Sergeant in the Canadian Field Engineers, and during his tenure here took an active interest in promoting the advancement of the local section of that organization. It was, therefore, only in keeping with his nature and the esteem which prevailed among his comrades that they should express, in a fitting manner, the esteem in which Sergeant Harold was held, before his departure from their midst to engage in another field of usefulness. As a result of their efforts, a considerable gathering of Engineers and other friends assembled at the People Hotel.

When's Mill. The spring flood came very nearly "doing up" the dam at Mr. Thomas Wilson's grist mill. The water rose rapidly to carry off the dam, and considerable washout in the valley was observed by the opening of the dam at the south end.

110 Years Ago
April 12, 1895
Bridge. The report of the survey and plans made for the interbridge over the Ottawa river between Le Passage and Fort Coulonge in the County of Pontiac, was laid before Parliament last week. Two sites were examined, one 566.5 feet from the eastern point of the forecast running between the property of F. Dugan and the property of G. S. At Le Passage. The amount of the latter necessary would be $1,735. Total cost estimated at $750.

Wake Up. We venture to assure our readers that one of the villages of the size and importance of Shawville can be found in the Province with streets and sidewalks such as seem content to put up with. Surely the people can afford to spend a little on improving its appearance and in so doing contribute to the comfort of its citizens.

The experience of walking through sand and mud for a month at the present season should convince us that a move is necessary. The present miserable narrow, break-neck tow-path on Main Street is insufficient to meet the requirements.

There should be a walk constructed on the south side of the street, and this time of the year, with a few respectable exceptions, lying on the south side.

The Pointeau River should be diverted for a month at the present time, and in so doing contribute to the comfort of its citizens.

The Pointeau River should be diverted for a month at the present time, and in so doing contribute to the comfort of its citizens.

SAYS YOU'LL ORDER A CAT BY APRIL 30.
The Shawville K & L Dairy House League Bantam hockey team participated in the Outaouais Regional Championships in Aylmer from March 31st to April 4th, and came away with the Silver Medal in their division.

In its first three games, Shawville easily defeated its opposition, blanking Maniwaki 2-0 on March 31st, and ousting Gatineau 5-1 and Papineauville 8-2 on April 1st. On Friday April 6th, the Shawville team met a strong Aylmer Pioneer team. While the game was close throughout, the third period saw Aylmer put in the third and winning goal on a deflection from a corner shot. Trenor Lang and Steven Glipp tailed for the lancers.

"C" final
This set the stage for the Bantam C final on Sunday, April 8th at the Aylmer Arena in Aylmer. Despite a delay of two hours, the Bantam team went for the game. Aylmer scored first in the second period following a wild, goal-mouth scramble. Trenor Lang tied the game late in the period with a blistering slapshot from the point. However, Aylmer went ahead 2-1 in the third frame.

Despite being short-handed, Shawville pressed hard in the final minutes of third period. With less than a minute to go and Shawville back at full strength, Shawville goaltender John Alexander was pulled in favor of a sixth skater. A high, clearing shot from an Aylmer defender from within their own zone rolled down the ice and into the empty Shawville net, to clinch the championship for the Aylmer team.

Hunting does and fawns
Registration for the draw to be held in June will take place between the 1st and 25th of June instead of in July. The draw will take place at the end of August.

The Ministry of Recreation, Hunting and Fishing (MLCP) has announced that the registration for the draw for the hunt of does and fawns will be open a month early. More information will be available from MLCP offices at the end of May.
Fishery task force announces new members

The chairman of the Ottawa River Sports Fishery Task Force has revealed the names of the committee members.

The newly formed Ottawa River Sports Fishery Task Force has as its objective the initiation and promotion of the establishment of an Ottawa River Sports Fishery Management Program. The task force will strive diligently to coordinate the Ontario Ministry of Natural Resources and the Quebec Ministry of Recreation, Hunting and Fishing to implement a joint sport fishery management program on the Ottawa River.

The early 1980s will see the CCW concentrate on the cleanup of the river relating to discharge of pulp and paper effluents, and industrial and municipal waste disposal. All users of the Ottawa River have a responsibility to ensure that clean water, safe navigation, and sustainable wildlife resources remain a part of eastern Canada's largest river system, concludes Spotswood. We are witnessing the age of accountability.

Council regarding his application to the CPTAG to have permission to erect a house on his lot. The fire chief, Wayne Wiggins, met Council expressing his concern for the lack of efficiency of the fire department due to the working condition of the tanker truck, the necessity of a power ice auger, and states that they should have bought an engine torch to keep moose from freezing. Also, he requested authority to bring in necessary equipment such as a backhoe, bulldozer, etc., if required at a fire.

CCW targets five areas for the coming decade

The Council for the Champlain Waterway, directing its efforts toward a wholesome approach to the restoration, conservation, protection, and development of the Ottawa River.

A wild scene at Bristol Town Hall. In observance of National Wildlife Week, Mr. McCredie states that the minutes have permission to erect a tanker truck, the necessary equipment such as an ice auger, and states that they should have bought an engine torch to keep moose from freezing. Also, he requested authority to bring in necessary equipment such as a backhoe, bulldozer, etc., if required at a fire.

The newly formed Ottawa River Sports Fishery Task Force has as its objective the initiation and promotion of the establishment of an Ottawa River Sports Fishery Management Program. The task force will strive diligently to coordinate the Ontario Ministry of Natural Resources and the Quebec Ministry of Recreation, Hunting and Fishing to implement a joint sport fishery management program on the Ottawa River.

Résultats des examens de juin du ministère de l'Éducation

par Denise Béland

A la veille de l'ouverture du mois de Juin et du début de l'examen des écoles, le ministère de l'Éducation a dévoilé les résultats des examens de juin des établissements scolaires du réseau public du Québec. Les résultats généraux ont été publiés par le ministère de l'Éducation dans un communiqué de presse. Les résultats ont montré une amélioration notable dans la performance des élèves dans plusieurs disciplines. Les résultats ont également souligné l'importance de l'éducation et de l'apprentissage tout au long de la vie.

Le conseil d'orientation demande de suspendre sa démolition

La Municipalité des Cantons de l'Est, sur la recommandation du conseil d'orientation, a demandé à la Commission des services publics de suspendre la démolition du bâtiment situé au 78, rue Sainte-Anne. Le conseil d'orientation a estimé qu'il était important de préserver cet édifice historique pour son patrimoine culturel.

La sécurité en premier

Sécurité à bicyclette

Le casque protecteur

Connaîtrez-vous l'importance des casques de sécurité pour les cyclistes? Le port d'un casque de protection peut réduire de 50 à 70% le risque de blessures et de séquelles graves. La clé de la sécurité du cycliste est d'acheter un casque réformé et de le porter correctement. Toutes les bicyclettes sont équipées de ce type de casque.

Le conseil de ville a adopté une réglementation pour faciliter la circulation des cyclistes.

Le conseil d'orientation demande de suspendre sa démolition

Le conseil d'orientation a demandé à la Commission des services publics de suspendre la démolition du bâtiment situé au 78, rue Sainte-Anne. Le conseil d'orientation a estimé qu'il était important de préserver cet édifice historique pour son patrimoine culturel.

Ovide Soucie fête son centième anniversaire

Ovide Soucie, ancien résident de Saint-Jean-de-Saguenay, célèbre son centième anniversaire le 24 janvier 1990. Il est né en 1890 et a passé la majeure partie de sa vie à l'île d'Orléans. Il est l'auteur de plusieurs ouvrages et a reçu de nombreux prix pour son travail. Il est également connu pour ses contributions à la culture québécoise et à la littérature.

Paralysie cérébrale

Mr Fernand Sanchez, ambassadeur du Pontiac, a annoncé que la province de Québec allait prendre des mesures pour la participation du comité au festival de la paralysie cérébrale.

4. Discussion of the Municipal Development Plan.

The Meeting will be open to the public and members of the media.
The page contains a variety of ads and announcements, including classifieds, real estate ads, and community events, as well as some text in French. The ads cover a range of topics such as real estate for sale, vehicles for sale, furniture for sale, and community events. The text is formatted in a typical newspaper layout, with ad numbers and prices clearly displayed. The page also includes some notices and community announcements, such as a rummage sale and a ball sponsored by the turn forms. The text is dense and packed with information, typical of a community newspaper.
Provincial Notice of Quebec Municipality of Pontiac.-A public meeting will be held on the 12th day of April, one thousand nine hundred and ninety, at 5:00 p.m. at the Municipal Hall, Pontiac. At the regular meeting of Council held on the sixth day of March, one thousand nine hundred and ninety, the following items were approved...
