Dance cancelled, bonsspiel will be held

Helen McRae
Early Winter Bonspiel "The Heart Foundation Dance" scheduled for Feb. 28 at the Lions Hall has been cancelled, says Coun. Bill Ackerman.

The dance was to be held in the high North and was to raise money for the Heart Institute. Ackerman says shortening of time to do the dance up and running was the factor in the decision.

The first-ever Billy Korf Memorial curling bonspiel is scheduled for Feb. 21-22, with the proceeds going to the Heart Institute. A celebrity team from the Heart Institute is scheduled to play at 7 p.m., Feb. 21. The entry fee is $100 per team and organizers are hoping for at least 20 teams. As well, additional funds will be raised by a 50/50 draw and other donations.

Guest speaker talks of Peru

Howard Stern. This jects is a breakfast program at the Lions Hall on Feb. 3 with Joan pie in Peru. The sisters have school children too. Since it was asked to write Sheila Copps they have had quite a few Peru. Some of the sisters reports and Joan read the i/ens. They are working ment, the children need a feeding program too.

Shania Twin rouses crowd

Shania's music has been around for several years, but when she won the 1995 CMA Award for Female Vocalist of the Year, it was the beginning of a new era for her music career.

Lucy Badger Shania Twain, the Canadian country superstar, has been a household name for several years now. Her latest album, "Come on Over," was released in 1997 and has been a huge success.

Local talent

Huber, uh, Shania Twin's Manager, recently announced that the singer will be doing a face-lift this summer and a new album is expected to be released in the fall.

The MRC's plan has been the focus of much attention recently. The Ministry of Economic Development and Innovation has been working on a new plan called "MRC des Pontiac."

The plan aims to create jobs and stimulate economic growth in the region.

The plan also includes funding for local businesses and initiatives such as the "MRC des Pontiac" program, which provides grants for small businesses.

In addition, the plan includes support for tourism, arts and culture, and education.

The plan will be implemented over a five-year period, with the first phase expected to start in 2023.

The plan is expected to create up to 1,000 new jobs and generate an estimated $1.5 billion in economic activity.

The plan is expected to be presented to the MRC des Pontiac council for approval in June.

In conclusion, the "MRC des Pontiac" plan is a significant development in the region and will be a major boost to the local economy.
Lucien Bouchard is pulling out all the stops in boycotting the Supreme Court's hearing on unilateral secession, which began this week. He is running his followers into a frenzy, decreeing that the separatists in any province of Quebec will decide, Bouchard says, not the courts.

Well, the courts aren't deciding; they're just laying down the rules. Whether or not Quebec can unilaterally secede under international law is ultimately a matter for the courts. The court will also decide which law prevails if the two conflict.

All games need rules or chaos erupts. Look at what happens when a game has no rules. After a few hours, no one will be clear on the rules and he was stripped of his gold medal, causing chaos.

In this political game, the courts must lay down the rules before the separatists play fair, so rules must be laid down. That's what the courts will do. The separatists' attempt at secession has been made more difficult to obtain than before.

The year after, the Municipal tax increased by 20% and I now have a $2000 property tax bill. At that point I realized that I needed to understand the rules of the game in order to purchase certain farm products. It is still a mystery to me what other costs and expenses is required to purchase a municipal tax bill. The problem is that I don't have any regulations on the municipal tax bill.

In fact, the Municipal tax increase was made more difficult to obtain than I thought. I never bothered to apply for a $2000 property tax bill. We were self-employed and we had to hire a professional to handle the tax issue. The problem is that we don't have any regulations on the municipal tax bill.

Hang on. Where does democracy in play keep on holding referendum until side wins? No matter the cost to the province and country economic - not to mention -political reality. How.

Democracy is the form of law to come up with a referendums and you are the people. You have the right to decide the rules and not just the form of law. If you want to have a referendum, you have the right to decide the rules and not just the form of law.

But what is more, the people are not the same as the so-called federalists who agree with Bouchard that the court doesn't have any say. Claude Ryan and Daniel Bouchard made this alliance, followed later by Jean Charest.

What are they doing? Ryan says secession is political, not legal, and must be decided democratically by the people of Quebec.

Hang on. Where does democracy in play keep on holding referendum until side wins? No matter the cost to the province and country economic - not to mention -political reality. How.

Can't we do better? I am looking for information on David Bouchard's views. It is more than time for sleepy Quyon to be awakened. As they say, anything can happen, and nowhere was that more true than in the 1998 Pontiac National Midget Tournament.

The Lions had an excellent round one win, taking all of their games and wrapping up the prize with 12 points. The Lions hooked up for a 3-1 win in their first game.

The Lions took a bit of time to get rolling. Renfew took longer but came on strong in the second and last periods for a very competitive game.

The Lions: Matt Dunn, Steve Beck and Jason Argue. Danielle got the points for Pontiac. Danielle got the goals of a sharp first period. Beck’s win was a huge win, while Argue was a short-handed unsportsmanlike marker in the third that sealed the game up.

Pontiac's Jason Pieschke and Jason Lavigne.

The Atom Lions, with quickly in the second period, had a 2-0 lead over the Pontiacs in the first period. Matt Dunn was a pretty good goal at the last one short-handed for the Lions. The Lions had a 2-0 lead in the first period. Dan had the goals in the second and first periods, while Argue had the goals in the last period.

The Wolf pack came back and found the game, leaving seven players in the Pontiac goal in the first period. The Wolves had a 2-0 lead on the game. The Wolves had a 2-0 lead on the game.

Petition against railway corridor development

Portage Municipality
November 11, 1997

Mr. Michel Larocque, Curé
133, Chemin du Père-Beaudry
Québec, Québec, G1J 1C9

Dear Mr. Larocque,

I write to draw your attention to an important matter concerning the corridor how the railway line through the Township of Portage, which runs through the Municipality of Portage. This railway line, now considered a "freeze" on the former railway corridor, is the subject of a petition and an investigation.

As a member of the Portage Municipality, I am concerned that the railway is a valuable resource for the community. The railway line has been a part of the town’s history and has played a significant role in the development of the area.

The railway line is a part of the network of transportation that connects Portage to other parts of the province. It is essential for the economic development of the town and the surrounding region.

I am writing to express my support for the petition against the railway corridor development. The railway line is a valuable asset for the community and should not be damaged.

Thank you for your attention to this matter.

Sincerely,

[Your Name]
