PARLIAMENT HAS A KNOTTY QUESTION

Mr. Flint's Prohibition Resolution Debated

IN THE HOUSE OF COMMONS.

THE GOVERNMENT EVIDENTLY TRYING TO DODGE THE QUESTION—SOME LIBERALS SPEAK FREELY — THE DEBATE ADJOURNED — WELAND CANAL WILL OPEN TO-MORROW— JAPANESE IMMIGRANTS.

(From Our Special Correspondent.)

Ottawa, April 23. — In the House Mr. Flint moved the resolution setting forth the desirability of enacting legislation to give prohibition to those provinces which voted for it.

Mr. Bell, Prince Edward Island, seconded the motion. As a supporter of the Government he warned the Ministers it would be advisable for them to accept the motion.

Mr. McClure (another Liberal) wanted Dominion prohibition. He said the Government simply played with the question. He refused to vote against his Government. (Laughter.)

Mr. Craig charged that Mr. Flint's sole object was to get the Government out of a hole.

The discussion was continued for some time. Mr. Moore favoring a general prohibitory law.

Mr. Parmelee moved a sub-amendment declaring it inexpedient to adopt any prohibitory legislation in view of the vote on the plebiscite.

Mr. Godbout (Lib.) then moved the adjournment of the debate.

Mr. Foster protested. He said the Liberals were resorting to the same trick as last year. He would not support the motion to adjourn unless assurances were given by the Premier that the matter would be brought up on an issue next Monday.

Sir Wilfrid Laurier fenced, but finally said he would give the suggestion favorable consideration.

The debate was adjourned and the House adjourned at 1 a.m.

Sporting News. PROSPECTS OF LACROSSE. EFFORTS TO FORM A NEW LEAGUE - SHERBROOKE AND QUEBEC WILL BE IN IT - PERHAPS THE NATIONALS AND SHAMROCKS MAY JOIN.

Lovers of the National game will, no doubt, be pleased to learn that everything seems to progress favorably in local lacrosse circles, and Quebecers will again have an opportunity this coming season of witnessing some good games. The executive appointed at a meeting held on Thursday last have made very favorable arrangements with the lessees of the Q.A.A.A. grounds, and have also received a favorable answer from Sherbrooke, which club would enter a league composed of Quebec and Victorias, of this city, while the Intermediate Nationals and Intermediate Shamrocks will be invited to join the league. If these five clubs join hands they will form a strong league, and some interesting matches will be looked forward to. A meeting for the election of officers and general business will probably be held at Sherbrooke in the near future.

WILL THE COMMISSIONERS YIELD? New York, April 23. - Senator Tim Sullivan arrived in town to-day from Hot Springs, Ark. It is said on good authority that he came home expressly to endeavor to have President York and the Police Board reconsider its determination not to issue renewals of licenses to the fight clubs of this city. It is probable that fight licenses may be issued to-morrow as a result of Senator Sullivan's conference with the Police Board. Ever since the Commissioners declared that they would not grant any of the boxing clubs a new license there has been the greatest hustling ever done by the fight promoters to secure enough influence to get the Commissioners to change their minds. If by any chance the Commissioners should refuse to grant the clubs licenses it would be a great blow to all interests in the sport, for there are a great many contests arranged to be fought before September.

Although there is still a quantity of ice on the Beauport shore, there is a clear channel up the St. Charles as far as the eye can extend. Parties from up the river say that all the ice above Cap Rouge is jammed at the latter place, the ice being grounded and in some places piled up about thirty feet. According to the same parties the spring tides will have little or no effect on the ice, which probably will not disappear until after heavy rains and winds.

The Secret of Happy Motherhood. Is Found in the Use of the Great Restorative - DR. CHASE'S NERVE FOOD - It Makes Women Healthy and Children Robust. It is the delight of every mother to see her children strong, healthy and happy. She cannot expect them to be so unless she is in perfect health during the expectant period. Then it is that the future health of the child is decided. If mothers realized their duty to themselves and to their unborn child, their health would not be so neglected, and there would be fewer weak, puny nervous children. It is rich red blood and steady nerves that beget healthy children, and these foundations of good health come with the use of Dr. Chase's Nerve Food. Here are quoted letters which illustrate the wonderful beneficial effects of Dr. Chase's Nerve Food on women and children. It is the greatest restorative known to physicians to-day.

Mrs. J. M. Bradley, 100 James street, Ottawa, writes: "For several years I have been gradually running down in health. I became nervous and weak, and worried greatly over my future. Hearing of Dr. Chase's Nerve Food and the wonderful results it has accomplished in others, I obtained a box and began using as directed. I began to improve immediately, and am now restored to full health and vigor. Dr. Chase's Nerve Food is an excellent remedy, and I can recommend it to all who are weak, nervous or run down." Mrs. S. Dempsey, Albury, Ont., writes: "My little grand-daughter, nine years old, was pale and weak, she had no appetite, and seemed to be gradually growing weaker. Dr. Chase's Nerve Food proved invaluable in her case, restoring health and color, and making her strong and well." Dr. Chase's Nerve Food has supplanted the weakening, debilitating purgatives and Sarsaparillas as a spring medicine. Instead of weakening the body, Dr. Chase's Nerve Food builds up the fibres of the system; sends pure, rich, red blood coursing through the arteries, reconstructs the wasted nerve-cells, and prevents and cures the ills of spring. In pill form, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Yours truly, ERNEST PACAUD.

We take great pleasure in thus publicly acknowledging the kindness of the editor of our evening contemporary for the interest he has taken in the fund, and we only hope that the other papers will give us like assurance that we have their sympathies in the movement we have inaugurated, and which we intend, with the help of our citizens, to carry to a successful issue.

Great Drop in Prices Since Last Saturday ON THE MONTREAL EXCHANGE

THE NEW YORK STOCK MARKET OPENED WITH LARGE SELLING ORDERS - BUYING WAS ALSO VERY LARGE... BEAR TACTICS DID NOT SUCCEED IN FORCING DOWN PRICES AFTER THE FIRST HOUR - DULLNESS THEN PREVAILED - THE CLOSING WAS STRONG.

Montreal, April 23. - The downward career of prices in the stock market for the past two weeks has been marked, but it has seldom been its lot to suffer such a drop in values as was the case between Saturday and to-day. The decline has been accepted in the street in a pessimistic mood, but the decline, coupled with dullness, appears to be genuine in its ramifications, being supported in a measure by the feeling in Wall street. In the London market to-day Canadian Pacific dropped to 97 1/2, after opening at 98 1/2, and naturally the decline was reflected in the local market. The weakness seemed to be reflected throughout the entire list. Royal Electric dropped from 291 to 194, Toronto Rails from 98 to 97, and Gas to 183 1/2. Street Railway was a decidedly weak feature in the morning, but recovered two points in the afternoon. Dominion Cotton was traded in at par for the most part, but rose gradually in the afternoon and closed at \$1.10. The decline in the mining group was marked. Virtue dropping back to \$1.01. War Eagle to \$1.49, Paye to \$1.174, Republic to \$1.00.

NEW YORK PRODUCE MARKET.

New York, April 23. - Flour receipts, 25,407 barrels; exports, 11,791 barrels; sales, 8,800 packages. Moderately active and nominally lower. Rye flour quiet. Cornmeal easy. Rye weak. Barley dull. Barley malt dull. Wheat receipts, 77,700 bushels; exports, 55,392 bushels; sales, 2,810,000 bushels futures and 240,000 export. Options were weak pretty much all day. Corn receipts, 45,825 bushels; exports, 76,692 bushels; sales, 115,000 bushels futures and 720,000 bushels export. Spot easy. Options market was weak and lower early in the day through liquidation and closed at a decline. Oats receipts, 138,000 bushels; exports, 10,255 bushels; sales, 50,000 bushels spot. Spot dull. Options low and featureless. Butter steady. Cheese steady. Eggs irregular. Molasses steady. Spot coffee quiet. The market for coffee futures opened steady with prices ten points lower under European selling weakness at Havre and closed steady at a net decline of five to fifteen points. Sugar - Raw and refined steady.

LONDON STOCK MARKET.

London, April 23. - The markets here to-day were all very flat, from Consols to mines, and business was meagre, because of the end of account. Rumors were current, including the extraordinary whisper of an impending war with France, over Africa disputes, after the Exhibition. A decline in the war loan to 1-16 premium suggested further borrowing, following Lord Edward Fitzmaurice's estimate of the financial cost of the war at £130,000,000. A break in American securities was also a dispiriting influence in the morning and London lost heart, opening below parity for the first time since the late rise began. Hopeless of New York support, this department was weak

Professional Wall street perceived the absence of pressure of long stock in the steel industries with a cynical lack of surprise. Evidently the opening had been seized to dispose of long stock at the higher level of prices and the shorts were the most eager operators in the market in the early morning cover. This pretty clearly indicated a pause in the most aggressive tactics of the bear campaign, for the collateral object of that campaign is pretty generally believed to be to take on various stocks at the lower level of prices which has been achieved by the bear tactics. The pressure of liquidation was heavy during the first hours, and a secondary drive was made by the bears at the end of that time, but the steady absorption of offerings begot a very cautious mood amongst the professionals and a decidedly quieter tone ensued in the market. Some of the bull pools which have recently been active, notably that in Missouri Pacific, showed a disposition to resume operations. The undertone of the market was firm during the latter part of the day and the closing was strong and rather active.

A PIANO THAT IS A PIANO. The M. J. and Empire of Toronto, on the 16th instant, had the following insertion concerning the Gerhard Heintzman piano, which had been examined in Quebec at Mr. A. Lavigne's music and piano warehouse, 68 St. John street, and tested every day. "One of the abuses of the piano trade is the way in which some manufacturers force free use—and sometimes the free gift—of their Grand pianos upon prominent piano teachers. In view of this apparent kindness on the part of the manufacturer the teacher finds it difficult to resist the request for a testimonial which is sure to follow. It is a practice demoralizing to all concerned and deceives the public. There is one piano, at least, in Canada which has not earned its reputation in that manner, and that is the Gerhard Heintzman piano. Every musician using a Gerhard Heintzman Grand Piano likes it well enough to pay for it, and knows also that it cannot be obtained in any other way. It is despite such practices that the Gerhard Heintzman has won its position as a leader in the Canadian piano trade."

Safe.

The little child is safe from ordinary dangers in the care of the faithful dog. But neither the dog's fidelity, nor the mother's love can guard a child from those invisible foes that lurk in air, water and food—the germs of disease. Children need to be specially watched and cared for. When there is loss of appetite, lassitude and listlessness in a child, an attempt should be made to revive the appetite and rally the spirits. In Dr. Pierce's Golden Medical Discovery parents have found an invaluable medicine for children. Its purely vegetable character and absolute freedom from alcohol and narcotics commend it to every thoughtful person. It is pleasant to the taste, unlike the foul oils and their emulsions offered for children's use. "Golden Medical Discovery" makes pure blood and sound flesh, and absolutely eliminates from the system the poisons which feed disease.

Give the little ones Dr. Pierce's Pleasant Pellets when a laxative is needed. They're easy to take and don't gripe.

THE MURDER OF THOMAS MOONEY

David Dube Now on Trial For His Life.

CHARGED WITH AWFUL CRIME

THE CASE OPENED FOR THE CROWN — SEVERAL WITNESSES EXAMINED — STORY REGARDING THE FINDING OF THE BODY — EXAMINATION OF WITNESSES TO BE CONTINUED THIS MORNING.

David Dube, charged with wilfully murdering Thomas Adams Mooney, on the 26th of October last, stood at the bar of the Criminal Court yesterday morning to be tried for his life. The prisoner is a young man of splendid physique. He is clean shaven and seems to be very intelligent. In fact he is a fair-looking, manly fellow, whom one would scarcely imagine could be guilty of the heinous crime with which he is charged. After a good deal of delay twelve good men and true were chosen as jurors and the trial proceeded. The names of the jury are, as follows:—Jean Beland, Elieussip, Hebert, Urban Groleau, Ulric L'Heureux, Honore Stephane, Antoine Lemieux, Arsine Savard, Elie Labrecque, Aldebert Gingras, Charles Frchette, Aimé Demas, Ludger Lortie.

Mr. Dunbar, the Crown Attorney, presented the case briefly, the outlines of which have already appeared in these columns.

THE EVIDENCE.

After the stenographer had been sworn, Patrick Moran, constable, was called as the first witness. He testified that he had been the guardian of the article connected with the murder, an axe, a measuring stick, Dube's clothing, etc., and that these articles were practically in the same state as when he got them. The various articles were produced.

Deputy Coroner Garneau swore that the report of the inquest which he conducted on the body of Mooney was accurate, and to Mr. Languedoc, Dube's lawyer, he stated that the inquest lasted from the 28th of October until the 8th November, during which time there were several adjournments.

The next witness was Mr. Genest, the well-known surveyor. Mr. Genest introduced a plan, made by himself at the request of the Crown, of the locality where the murder occurred, showing the position of the Dube and Mooney residences, the wood, and the distances from the house to the wood. He said that the trees found near the body must have been cut by a professional woodman, and that the cut was just like that of other trees cut by Dube.

James Berryman, of Concord, N.H., was then sworn. He had lived at Lake Beauport for some time and knew both Mooney and the prisoner. He was one of those who went in search of Mooney after his disappearance. Mrs. Mooney had come to Morgan saying that her husband had not come home to dinner and requesting him to form a search party, as something might have happened to him. The witness with McDonough, Morgan and others went into the bush and met the prisoner, the prisoner's father and brother. They stated that they had found Mooney and that he was dead. At one o'clock the Court adjourned.

AFTERNOON SESSION. In the afternoon Mr. Berryman restated his evidence. He stated that he was present when the body was removed on the 28th. Mr. Gale, High Constable, Constable Leader and Constable Bateau were also present. Nothing had been touched in the meantime, and the body was precisely in the same position as when it was found. Some fresh cut chips were lying on the breast of the corpse. When Mr. Genest made the plan produced witness assisted him by carrying the chain and he believed the plan to be accurate.

quested to look for Mooney by his wife and asked the witness to go with him. On the way they met the Dubés, who were returning. They said they had found the body and volunteered to go back and show the way. One of the Dubés had a lantern, while McDonough, of their own party, also carried one.

Henry McDonough was next called. He lives at Lake Beauport and has known the prisoner for many years. He detailed the incidents which led to the formation of a search party, of which he was a member. When the body was found it was lying under the tree with the right hand up. He recognized the body as that of Thomas Mooney. When asked what wounds were on the body the witness said that there was a large cut on the left temple and a wound on the right side of the head, which could not have been caused by a tree falling on the deceased. The wound could have been caused by a blow from an axe or other similar weapon. The body was under a tree, but the tree was clear of it, being fully 18 inches above the body. After a number of questions relative to Dube's ability as a woodman, the witness stated that the prisoner was only an indifferent chopper, while Mooney was a good one. Four trees were newly cut near the body. The Crown here produced a photograph of the place where the body was found. This photo was taken by Mr. Chm-Mars and the witness had lain under the tree in the position Mooney was found while the picture was being taken. Mr. Languedoc objected to this photograph and mentioned that photograph was not always accurate. He referred to the fact that a prominent English magazine was at the present time publishing a series of articles on the facts of photographs. His objection, however, was not allowed.

In his cross-examination by Mr. Languedoc, McDonough's evidence showed a slight discrepancy with his previous examination at the preliminary investigation. This was simply as to what Dube said when the search party met the prisoner returning from the discovery of the body.

James Morgan was the next witness. He stated that Mooney often went away, the last time being absent about four weeks. He returned home about two weeks before he met his death. In other points the evidence corroborated that of the previous witnesses. The trial will continue to-day.

London, April 21.—The Government has published the despatches exchanged between Mr. Chamberlain and the Australian Premier on the Federation Bill. These show that with a view to meeting the Australian objection to the jurisdiction of the Privy Council—which Mr. Chamberlain admits is practically the only matter now delaying federation—the Government proposes to amalgamate the Privy Council with the House of Lords in this way: The Government would create one Court of Appeal for the whole Empire, and at the same time, in order to strengthen the colonial element in this Supreme Court, several colonial lawyers would be appointed to life peerages.
