VOL. XXXIV. No. 161 MONTREAL, THURSDAY, JULY 10, 1902. PRICE ONE CENT.

Five Toronto Firemen Under Falling Walls

An Early Morning Blaze Results Disastrously to the Fire Brigade.

THREE LEAVE FAMILIES

Estimated That the Losses Will Reach One Hundred Thousand Dollars.

(Special to the Montreal Star.)

TORONTO, July 10.—Five firemen were killed this morning in a disastrous fire which started in the old Street Railway stables at Front and George streets, and swept the district to the east and south.

The fire started at five minutes past six in the south end of the old stables occupied as a grain and storage warehouse by McIntoshs & Sons. The flames raged through this building from the Esplanade to Front street, and at half-past seven o'clock only the front wall of the building was standing.

The whole of the fire brigade fought the fire, but in spite of every effort to check them the flames leapt across the Esplanade and crossed George street to the east. The wholesale hay and straw warehouse of Gadsby and McCann, on the east side of George street, half way between Front and George streets, provided additional fury for the flames which were spreading in great sheets.

THE THREE FIRST VICTIMS.

David See, Harry Clarke and Adam Kerr, of the Lombard street section, were working outside the southeast wall of the McIntosh building, near the Esplanade, when the brick wall, two storeys high, collapsed suddenly and toppled outward. Three men were buried under a great mound of hot brick and blazing timbers and though an instant rush was made by their comrades to rescue them they were quite dead when extricated. Their bodies were taken to the morgue.

Great crowds watched the fire and the police had the utmost difficulty in controlling them. They swarmed in the windows of the markets, and hotels, and on the roofs and platform of the new market building. On the Esplanade their recklessness of danger was particularly noticeable. They crowded around the burning buildings which the firemen and police expected to see fall at any moment.

TWO WERE VICTIMS.

At nine o'clock the bodies of two other firemen, Walter Collard, of Rose Avenue Hall, and Fred Russell, of Younge street, were found at the back of the McIntosh building where another wall had collapsed.

The buildings destroyed were those of McIntosh and Sons, Gadsby McCann and Burns and Co., ice storage warehouse, and Brown and Love, cut stone contractors. The loss is estimated as follows: Brown and Love, loss to machinery, $20,000; Gadsby and McCann, $2,000; Burns & Co., $5,000; P. McIntosh & Son, $45,000. The losses are partially covered by insurances, but the amounts cannot be learned.

All of the men killed except See and Collard were married and had families.

Grace Baptist Church Is to Be Reorganized

The Present Building Is to Be Sold as Soon as Practicable and a New and More Commodious One Erected.

Grace Baptist Church, Westmount, is to be re-organized, under a new name, the present building sold, as soon as practicable, and a more commodious and convenient place of worship erected.

This was the decision of the members of the church at the regular business meeting held last evening. The question came up on the recommendation from the board of officers.

Grace Baptist Church was organized about eleven years ago and for a considerable time held services in Queen's Hall, with the late Rev. Dr. Justin D. Fulton, as pastor. When Dr. Fulton resigned it was decided to move to Westmount and locate in that growing suburb, where it was thought there was a good field for a Baptist Church, although very few of the members of the new church were then residents of that district. The Rev. W. T. Graham was called to the pastorate and for a time they worshipped in Elm Hall. The present building at the corner of Western and Oliver avenues, was erected and dedicated in December 1893. It was soon found, however, that the building was unsuited for the requirements of a Baptist church.

Two years ago, Rev. Mr. Graham accepted a call to Calvary Baptist Church, Brantford, and Rev. S. Sheldon, of Barrie, Ont., was called to the pastorate, which he filled until two months ago when he resigned, and it is understood, will engage in other work. Grace Church has been progressive, has accomplished good work and is favourably known throughout the denomination. But it was thought that the Baptist cause in the west end could be strengthened. Recently conferences have been held between the officers of the church and several Baptist gentlemen of Westmount, not hitherto identified with the church, with this end in view as well as entering into more aggressive work.

The conferences resulted in an agreement being reached that a number of these gentlemen, including several recent arrivals from other cities, would join Grace Church, assist in its re-organization, in the erection of a more convenient and commodious edifice, and work together for the good of the cause. This the officers agreed to recommend to the church and a notice was, accordingly, sent to each member, that the question of re-organization would be considered at the regular meeting last evening.

The meeting was well attended, and after full consideration, the church almost unanimously voted to adopt the plan of re-organization recommended. There were, it is understood, no votes recorded in the negative. The re-organization will take place immediately and the present building will be used as long as required.

Daring Highway Robbery Accompanied by Violence; The Perpetrators Arrested

Highway robbery with violence was committed on St. Paul street at a late hour last night.

Walter Williams met two men on Notre Dame street, and they asked him for enough money to buy a bed for the night. He offered to give them enough to see them through at the Salvation Army Lighthouse, and they asked him to conduct them their, saying they were strangers.

Williams was willing, and he led the way. When passing a dark alley, they sprang upon him, and beat him to the ground. Then they searched his pockets, and got a gold watch. His screams frightened them so much that before they got his money they took to their heels.

Though much hurt Williams gave a chase, and a few yards away he met Constables McRae and Bricault. They took in the situation, and after a chase and fight they caught their men. The watch was found in the path the men had taken and the chain at the scene of the assault. The men gave their names as Frank Murphy and Charles McCarthy. To-day they pleaded not guilty, and were remanded by Judge Choquet for enquete.

MR. REMI ARBOUR DIED SUDDENLY

The Well Known Turf Man Died From Heart Disease

IN HIS BROTHER'S HOTEL

He Had Been Unwell for Some Time —Planned a Holiday Before Going to Bed.

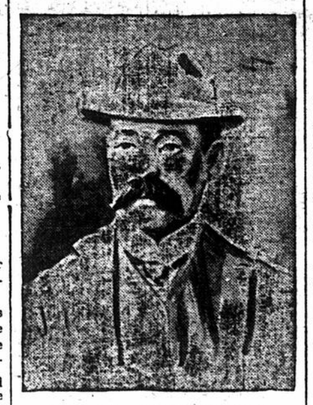
At six a. m., to-day, Mr. Remi Arbour was found dead in his room at Mr. Tim Arbour's hotel, 121 St. Lawrence street.

The deceased has been living with his brother since the sudden death of his wife about three years ago. Previous to that he kept the Turf House at the corner of St. Lawrence and Roy streets.

He was an authority on turf matters, and one of the best known hotel men in the province.

For a long time past Mr. Arbour complained of feeling unwell, but it was not thought that there was anything serious the matter. He spent last evening in company with a number of friends, and retired at the usual hour, after talking over a programme for a holiday trip next week. At 4.30 a. m. he was heard in the hallway leading to his room, and, when the servant went to call him at six, he was found lying dead upon the floor of his room.

Dr. Vipond was at once called, and declared heart disease to be responsible for his sudden end.



THE LATE REMI ARBOUR.

The deceased was born in Kingston, Ont., forty-nine years ago, and was brought to Montreal when four years of age. He had a large circle of friends and was proverbially honest in his dealings. The funeral will take place on Sunday afternoon from Mr. Tim Arbour's hotel.

INSPECTOR M'MAHON IS FRENCH-CANADIAN

The Decision Arrived at by Chairman of Police Committee

A QUESTION OF PATRONAGE

As a Consequence of This Ruling a French-Canadian Will Succeed Him as Captain.

In municipal and police circles there is much discussion over the moves now going on in connection with certain appointments that are to be made on the police force.

It is now definitely announced that Chairman Lebeuf has decided that Inspector McMahon is a French-Canadian and that the position of captain which was vacated by him when he became inspector will be filled by a Frenchman. Up to this decision it was always admitted that the position belonged to an Irish representative.

The matter was discussed some little time ago by the Police Committee and the members evenly divided upon the question of nationality. It was left to the chairman to give the deciding vote, and he will give it in favour of a French-speaking officer.

There are two captaincies vacant, and the sub-committee some time ago made known their wishes as to who should be appointed. It is now said that the continual putting off of the naming of the men by the Police Committee is a scheme with a purpose that is not all Coleur de rose.

There are three detective vacancies. These are caused through the death of Detective Reid, and the promotions of Inspector Lamouche and Sergeant Detective Charpentier.

A WARM DEFENCE OF CAPE COLONY

Acting Premier's Arguments Against Suspension of Constitution

BUT FEW WHITES ARE REBELS

Such a Course Would Make the Dutch Sullen and Resentful to the British.

CAPE TOWN, July 10.—Mr. Graham, the Acting-Premier of Cape Colony, addressed a large and enthusiastic meeting in the Wynberg Town Hall, recently. He said all he wanted was to do right in the interests of the future of the country. Four years ago he stood before the electorate an Imperialist to the finger-tips, and he remained so to-day. The colony was in a most flourishing condition. The recent successful flotation of a loan had proved that. Sir J. Gordon Sprigg's optimism was justifiable, and it was this flourishing country that the suspensionists wished to reduce to an ignominious vassalage. The fraternization of Briton and Boer since the peace had disproved the continual calumnies on the noble conduct of the troops. They had now gained what they had fought for—the liberty and freedom of South Africa. The power of Krugerism had been destroyed the Afrikander Bond had been crushed, and they were now asked to suspend the Constitution, which meant to capitulate to the bond without firing a shot. If they thought suspension necessary for British supremacy, and that measures would not be passed by Parliament ensuring that supremacy, he would not hesitate for a moment to

CONCUR IN SUSPENSION;

but the whole scheme was unnecessary. Suspension would reduce the colony to the level of a little dependency such as Turk's Island—a step unprecedented in the history of the Empire. He sketched the history of the suspension movement, stating that at Mr. Rhodes' meeting of 20 Progressives, when a petition was first signed, the idea of the members was that the Constitution should be suspended only for a few days. He was quite sure that Mr. Rhodes was under that impression. Later, the members met the Government, on which occasion it was stated that the Constitution could be suspended by Act of Parliament, first, by a clause in virtue of which they could suspend the Constitution, and, lastly, by a clause by which they could re-enact it. The Government said that was impossible. There is very little possibility, he continued, of the Act necessary for suspension being introduced in the Imperial Parliament before November.

REBELS ARE THE SCUM.

It is said that two per cent. of the whites of the colony are rebels, and because a handful of the scum have gone into rebellion is the colony to be branded with the stigma of rebellion? If every Dutchman in the colony were branded as a rebel, we should store for ourselves a heritage of woe, and if the constitution were suspended Dutchmen would certainly think they were branded. If we thought that Mr. Chamberlain would govern here for twenty years, or Lord Milner, good and well, but what if Sir Henry Campbell-Bannerman were in power? I am told that suspension is necessary to gain a progressive majority. But I am certain that with the new registration return there will be a good progressive majority. Mr. Chamberlain will have petitions and counter-petitions, and before November there will be an opportunity of the Cape Parliament meeting. Then, Mr. Chamberlain will see how members support the measures necessary to ensure British supremacy. Would suspension allay racial feeling? What would the Dutch farmer think, who would be deprived of practically everything, if his vote were also taken? The Dutch would return to their farms

SULLEN AND RESENTFUL,

and bide their time. The constitution, if suspended, would not be given back until Federation was an accomplished fact. Then the Cape would have no voice in the matter, and Natal, with responsible institutions, would dominate the position. If Federation were forced upon the Cape during the suspension we should lose control of the Customs, railways, and defence, and lose the possibility of protecting the colony from dismemberment. Nothing would prevent the Orange River being made the boundary of the Cape, or Bechuanaland being added to the Transvaal, or Griqualand East being annexed to Natal. He wanted to warn England. The voice of the provinces was inarticulate owing to martial law, therefore signatories to the petitions were not representative of the colony. He wished English statesmen to pause before taking a step in the question.

Sir Francis Explains.

Some comment has been made in quarters hostile to the British Royal family upon the statement made by Sir Francis Knollys on the Monday before the operation upon the King to the effect that there was no truth in the alarmist rumours concerning His Majesty's health. The King's private secretary has consequently made the following statement: "The attention of His Majesty's Private Secretary has been called to a report which he regards as grossly unfair, not only to himself, but also to all concerned. A press agency telegraphed to Sir Francis Knollys mentioning a rumour that the King had been the victim of a paralytic seizure, and Sir Francis, in reply, said there was not one word of truth in the story. The answer appears to have been made public without any reference to the question, and in such a form as to make it appear that the contradiction applied to His Majesty's general condition. As an answer to the specific report the official denial was entirely applicable, but if made to cover the King's general condition it would have lacked both justification and foundation in fact. In this lies what Sir Francis considers unfair."

If you wear trade mark D suspenders with no-rust buckles, you will have comfort and service. They are guaranteed by the makers and sold in the best shops.

THE COLONIAL PREMIERS IN LONDON.

Sir Wilfrid and Lady Laurier are the Guests of Lord Strathcona at Imperial Bazaar.

(Special by Cable from the Special Correspondent of the Montreal Star in London.)

LONDON, July 10. — Sir Wilfrid Laurier and Lady Laurier accompany Lord Strathcona to the Imperial coronation bazaar at the Royal Botanical Gardens, at which the Queen opens this afternoon.

To-night the Colonial guests attend the Prince and Princess of Wales' reception, at St. James Palace.

WINDERMERE.

QUEBEC'S LABOUR TROUBLES.

There is Not Much Change in the Situation To-day.

(Special to the Montreal Star.)

QUEBEC, July 10.—Every effort is being put forth by the leaders in the local labour movement to solidly unite all branches of labour against those responsible for the attempts to reduce the wages of the ship labourers. A large public meeting in St. Roch was held last night, and addressed by several leaders in the cause of labour, at which some 200 non-union men, including shed labourers joined and organized labour unions.

Employes of the Wolvin syndicate have been aiding the Leyland Line as much as possible.

The unloading of the grain from the wrecked steamer Indiana has been delayed owing to the employes of the Great Northern grain elevator being loaned to the Leyland Line to place a perishable consignment of beef from Chicago on board the Iberian.

GREAT HEAT IN FRANCE.

Over Three Hundred Soldiers Overcome by Sunstroke.

(Special to the Montreal Star.)

PARIS, July 10.—During the manoeuvres of the one hundredth and eighth infantry at Bergen to-day, 320 men were overcome by sunstroke. The manoeuvres were stopped. Three men are dead and others are in a serious condition.

NEW YORK, July 10. — Yesterday was the hottest day of the year in this city. The weather bureau thermometer registered 91 degrees at 1 o'clock, and there was little or no breeze. Six deaths from the heat were reported during the morning.

Ottawa Has a Fire Scare.

(Special to the Montreal Star.)

OTTAWA, July 10.—Ottawa had a scare to-day when a fire broke out in nearly the centre of the flats, and in the region where houses are springing up over the area of the fire of 1900. The fire originated in an unfinished house owned and inhabited by a man named Preston. There was a heavy wind blowing and grave fears were entertained that the fire would spread. Thanks to the efforts of Chief Provost and the brigade, the whole of which was called out, the fire was confined to the house where it originated. The damage was small.

Baptist Young People Meet.

PROVIDENCE, R. I., July 10.—Every State and Territory in this country, and provinces of Canada, and Mexico, were represented when the Baptist Young People's Union of America convened in this city today. Nearly ten thousand delegates congregated in Infantry Hall and at the First Baptist church for the opening praise service this morning. The convention which continues until Saturday, was formally opened by President Chapman, of Chicago.

Toronto Strike About Over.

TORONTO, Ont., July 10.—The electrical workers' strike, which has now run six weeks, is believed to be nearly at an end. Of 150 men who went out, about 100 have returned to work under the terms they have been asking, namely, 30 cents an hour and an eight hour day. Fifty-five men are still out and a settlement regarding them is expected to be reached at a conference with the employer's committee to be held to-night.

Des Moines River is Rising.

DES MOINES, Ia., July 10.—The flood situation is at a most alarming stage to-day. The Des Moines River was 21 feet above low water mark at 7 o'clock, and is still rising. The Raccoon River, which empties into the Des Moines here is also still going up. The flood is at the highest point since 1851, when the river was six feet deep over what it is now occupied by thousands of residences, business houses and factories.

The President Will Attack.

WASHINGTON, July 10.—The State Department has received a cablegram from Minister Bowen, at Caracas, dated to-day, saying, "The president has arrived at Barcelona to attack the enemy there instead of waiting here to be attacked."

R. & O. STEAMER GETS INTO TROUBLE.

The Kingston Goes Aground at Charlotte, But is Released at Noon To-day.

(Special to the Montreal Star.)

KINGSTON, Ont., July 10, 1902.—The overflow in the Genesee river at Charlotte, N. Y., caused by the recent heavy rains, has caused much trouble. The R. and O. Co.'s steamer Kingston in attempting to turn in the river, assisted by a tug, jammed her nose on one back, and the flow of water running at the rate of seven miles an hour forced her stem high on the opposite bank. Placed as she was she formed a complete dam and caused the flooding of the surrounding country.

At one time it was feared that she would capsize, the current pushing against her having forced her port side up till she was at an angle of 45 degrees.

Senator L. J. Forget, President of the Richelieu and Ontario Navigation Company, when seen this afternoon regarding the accident stated that the steamer had been released by towing her stern up stream. They had been able to get her off before noon to-day.

So far as he had learned the vessel had sustained no damage from her contact with the two banks of the river.

MARCONI WILL NOT RETURN TILL AUGUST.

HALIFAX, N. S., July 10.—Richard Vyvian, engineer in charge of erection of the Marconi station, states that Mr. Marconi will not come to Cape Breton until the latter part of August. The postponement of Mr. Marconi's visit is due to the fact that the Italian Government has just placed at his disposal a man of war, on board of which Mr. Marconi will make experiments in long distance wireless telegraphy. In the meantime it is altogther likely communication with the Cornwall station will be established by Mr. Vyvian. Mr. Marconi probably will come to Sydney direct in the Italian war ship.

CASE OF FRED LEE RICE.

Governor Yates Told Why He Must Pay the Penalty.

(Special to the Montreal Star.)

OTTAWA, Ont., July 10. — Governor Yates, of Illinois, who addressed a petition to "His Excellency the Minister of Justice" asking for clemency towards the condemned murderer, Fred Lee Rice has been communicated with. The petition sought clemency merely on the ground that Rice came of decent people. He had been told that under the Canadian constitution the exercise the prerogative of mercy rests with the Crown and that the Governor-General-in-Council have been addressed, also that the Privy Council has considered the matter and decided that there was no good sufficient ground for any interference with the course of justice.

HONOLULU CELEBRATED.

Citizens Were in Ignorance of the Illness of the King.

(Special to the Montreal Star.)

SAN FRANCISCO, July 10.—Honolulu, 2,100 miles from the mainland, and one of the few places which the cable doesn't reach, scooped the world on July 26 on the coronation of King Edward. The people of the Hawaiian capital knew nothing of the illness of the King nor of the postponement of his crowning, and the Britons among them, and the Americans, too, observed the day with feasting and a joyful celebration. What Honolulu did on the day it supposed King Edward had been formally raised to the throne, takes up pages of the Honolulu papers, which have just been received here.

Ex-McGill Student Dies in Denver.

(Special to the Montreal Star.)

KINGSTON, Ont., July 10.—Word was received in the city to-day of the death at Denver, Col., of James Mackie, son of James Mackie, Montreal, and formerly G. T. R. station master at Kingston. The deceased was about 26 years of age, and had resided for the past two years in Colorado for the benefit of his health. He graduated from the Science Department of McGill University in 1898 and was a skilled electrician.

SARMATION IN PORT.

The Allan Vessel Brings Over 125 Icelanders.

The Allan line steamer Sarmatian, Captain E. Pitts, R. N. R., arrived in Montreal yesterday from Glasgow with passengers and a general cargo. The vessel reports much fog, but has seen no ice. The Sarmatian brought 67 passengers, having landed her steerage of 125 Icelanders at Quebec. The Icelanders are travelling through to Winnipeg.

The Lower Niagara River Power and Water Supply Company, of Lewiston, Niagara County, was incorporated at Albany N.Y., on Wednesday with a capital of $5,000,000. The directors are J. Low, J. S. Simmons and F. J. Brown, of Niagara Falls.

AN INSPECTOR IS WANTED FOR THE ELEVATORS.

When the Fire Committee meets today one of the members will state that many of the elevators in the city are not as safe as they should be, and that an inspector should be appointed to inspect them. At the present time there is a by-law which says elevators shall be inspected twice a year, and that the charge for each inspection shall be two dollars. Some time ago a motion was made in the Fire Committee asking that an elevator inspector be appointed, but the cry was raised of no funds and so the matter dropped. There are eight hundred elevators in the city, and it will be contended that it would pay to appoint an inspector. Apart from the monetary view of the matter, the Fire Committee claims it is in the public interest that an elevator inspector should be appointed.

SEVERAL LARGE GANGS REPAIRING STREETS.

The Road Committee at the present time has a large gang of men at work repairing the streets, and it is expected that in the course of a few weeks they will be in pretty fair repair, as those things are viewed at the City Hall.

At the beginning of the year a considerable sum was set aside for street repairs. A special sum was also voted to put the sidewalks in better repair.

There Was No Quorum.

The regular meeting of the Society for the Protection of Women and Children was to have been held this morning, but was cancelled for want of a quorum. Mr. S. Carsley, president, and Mr. A. Marshall, secretary, together with the Rev. E. McManus, were all that were present.

Mr. Marshall's monthly report, which was on the table, showed that upwards of 62 complaints had been investigated during the month, involving the welfare of 93 wives and children. The majority of these were of the ordinary character—drunkenness, desertion, non-support, etc.—but there were two or three special cases, and these will be thoroughly ventilated in the courts.

FRESH AIR FUND EXCURSION YESTERDAY TO SHERRINGHAM PARK.

The committee in charge of the Fresh Air Fund ran a very successful excursion to Sherringham Park yesterday. Several hundred mothers and children were given free transport thereto and return on the steamer Duchess of York, and after their arrival in the park were treated to a generous supply of sandwiches, cake, beverages, candies, etc. The afternoon was spent in recreative exercises and sports, and all appeared to have a good time.

JACQUES LEBLANC MAY LOSE HIS HAND.

Jacques Leblanc who was shot in the wrist by Frank Rawlinson, on Tuesday night, is in a critical condition at the General Hospital. It is just possible that blood poisoning may ensue from the injuries, and that amputation may be necessary. The officials of the institution, are, however, hopeful that this painful necessity may be avoided.

Pressmen's Annual Picnic.

The annual picnic of the printing pressmen, photo-engravers and stereotypers, will take place at Isle Gros Bois, on Saturday next. Boats will leave the Longueuil wharf at 8 and 10 a.m., 12 a.m., and 2.30 and 4.50 p.m. Five hundred dollars in prizes will be distributed, and there will be competition games of baseball and dancing.

Catholic Sailors' Concert.

St. Gabriel's Court, Catholic Order of Foresters, gave the concert at the Catholic Sailors' Club last night. Mr. F. Cantwell, chief ranger, presiding. The singing, dancing and recitations were warmly applauded. One of the most interesting items was "Mamma's Lullaby," composed by Prof. J. J. Shea, and sung by Master J. Asselin. Several sailors took part, and among the unnautical folk tendering their services were Miss Katherine O'Byrne, Miss Lizzie O'Byrne, Miss Gretta Deegan, Miss Edith Wright, Miss Haddesley, Prof. J. J. Shea, Prof. Rousselle, Messrs. Coz, Deegan, Carter and Kelly.

To Test the Destroyers.

LONDON, July 10.—In order to test the strength of the torpedo-boat destroyers, the Admiralty has ordered a remarkable experiment to be made at the Portsmouth dockyard. One of the dry docks is being especially prepared for the destroyer Wolf, where she will be subjected to a series of tests, which will include hogging and sagging strains. At first she will be sagged by being hung by the head and stern from two platforms having no support beneath. The middle will then he hogged; that is, she will be balanced across a pile of timber so that the full strain of the unsupported fore and aft parts will be thrown on the centre of the vessel.

The experiments will prove whether a destroyer's hull is so weak, as was suggested in the case of the Cobra, that the back breaks when a wave lifts her amidships or a sea lifts her in such a manner that the wave is hollow beneath her middle.

Houses Swept Away.

HOPE, Idaho, July 10.—A cloudburst at Ellisport, east of Hope, swept away twelve houses and washed out two miles of track on the Northern Pacific Railroad. There was no loss of life. For a considerable distance around Ellisport the country is flood ed. The creek is wide and swift, and all the trestles are gone from Clark's Fork to Hope.

Mr. John Fraser, accountant of the Finance Department, Ottawa, has been promoted to the position of accountant and Dominion bookkeeper, his predecessor, Mr. Dickinson, being superannuated.

BOERS IN BOSTON PRAISE CANADIANS.

(Special to the Montreal Star.)

BOSTON, July 10.—Among the passengers landed yesterday in Boston from the Prince Arthur, were C. Luyt, C. Moll, and A. Malan, who came that way from Bermuda, where they have been prisoners in the hands of the British.

The three are 33, 35 and 42 years of age, respectively, and all speak excellent English.

They will sail from Quebec and go by way of England to Pretoria, where Mr. Luyt was a lawyer, prior to the war. He was educated in England. All were captured when Cronje surrendered at Paardeberg and their praise for the Canadian troops, who carried the day in that occasion, are fully as high as the opinion the Canadians freely stated of their Boer opponents.

LORD METHUEN'S RETURN HOME

Has Been Marked by Very Little Demonstration.

GEN. WHITE'S REPUTATION

Kitchener is Now a Hero With the Radicals—All Classes Will Unite in Welcoming Him.

(Special to the Montreal Star.)

LONDON, July 10.—Lord Methuen's return to England has been as quiet as Lord Kitchener's welcome will be demonstrative. Lord Methuen remained in South Africa for a longer period than any other of the Generals of the original army corps, of which so much was expected and by which so little was accomplished. He has risen in the public estimation in consequence of the English grit with which he persisted in seeing the thing through, and, notwithstanding his final defeat and capture, he has a better public reputation than Gen. Buller or the other generals, with the single exception of Gen. French. Gen. Sir Geo. White, who has been properly reticent since the relief of Ladysmith, has profited by the publication of the recent budget of war correspondence, and is now accounted one of the most gallant and faithful soldiers of the British Army.

Lord Kitchener has become the hero of the Radicals and the pro-Boers, because he is credited with having brought the war to a close by insisting upon magnanimous terms for a brave enemy. Both political camps will unite in welcoming him home this week. His next command will probably be in India; but he will likely remain until the end of the year in England, where he can be consulted by the War and Colonial offices respecting the settlement in South Africa.

THE FLOODS AT CALGARY.

Traffic Between the East and West is Resumed.

(Special to the Montreal Star.)

CALGARY, N. W. T., July 10.—The first communication with the west since last Thursday was had yesterday. Two train loads of passengers left the station and were hurried west to the twin bridge and were transferred to a train which was waiting there to receive them. The actual number of people who have been delayed in Calgary who went west yesterday, is 368. The twin bridge has fallen at one end and rests entirely in the water. A sloping platform had been built to allow passengers to walk over. The C. P. R. had about sixty men ready to assist passengers with their luggage and for the carrying of children and escorting of women across. As soon as the passengers for the west had been got over the bridge, a large number who were journeying east were got across and brought into Calgary. Supt. Niblock is at the twin bridge personally superintending the erection of a temporary pile bridge across the river. This was found necessary, as it will be many weeks before the iron bridge can be raised and straightened. It is expected that the pile structure will be ready for traffic by Friday.

CHARGED WITH BRIBERY.

The Mayor of Minneapolis Indicted by the Grand Jury.

MINNEAPOLIS, July 10.—The Grand Jury has returned indictments charging A. A. Ames, Mayor of the city; Fred W. Ames, superintendent of police, and Jos. Cohen with accepting bribes. The charges are based on the alleged collection of tribute from abandoned women, in which, it is alleged, Cohen acted for the Mayor and chief.

The Pythians Name Officers.

STRATFORD, Ont., July 10.—The Grand Lodge, Knights of Pythias, resumed yesterday. An invitation to hold the next convention at Toronto was unanimously accepted. The election of officers resulted as follows: Grand chancellor, F. J. Fitzgerald, London; grand vice-chancellor, Als. Bicknell, Woodstock; grand prelate, E. A. Horton, St. Thomas; grand master of exchequer, John Burns, Hamilton; grand K. of R. and S., W. G. Haynes, Toronto; grand master-at-arms, George Burdlick, London; grand inner guard, F. Edmand, Toronto; grand outer guard, Maurice Linz, Windsor.

Mr. J. P. Whitney in Ottawa.

(Special to the Montreal Star.)

OTTAWA, Ont., July 10.—Mr. J. P. Whitney and Lieut.-Col. Matheson are here, and held a consultation with the local Conservative leaders. They express themselves as being perfectly satisfied with the situation.

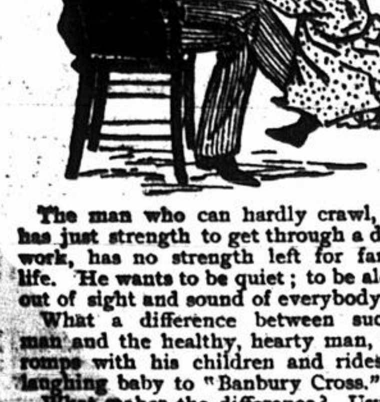
Lady Henry Somerset Coming.

(Special to the Montreal Star.)

OTTAWA, July 10.—Lady Henry Somerset, President of the World's W. C. T. U., after attending the convention in Portland, Me., in October, will visit Montreal, Toronto and Chicago.

A Giant Geyser Active.

SAN FRANCISCO, July 10.—Near Salina Cruz, on the Pacific Coast, of the Isthmus of Tehuantepec, a giant geyser is active as the result of heavy earthquakes in that region since April 18 last. The column of water, rising to a height of about 50 feet, roars and hisses among the rocks and is an object of great interest to the people and to passing vessels, being plainly visible from the sea. It was seen by the passengers and crew of the steamer Newport which has reached here. The steamer reports that affairs in Guatemala are becoming normal again after the scare occasioned by the tremendous earthquakes.



The man who can hardly crawl, and has just strength to get through a day's work, has no strength left for family life. He wants to be quiet; to be alone, out of sight and sound of everybody.

What a difference between such a man and the healthy, hearty man, who romps with his children and rides his laughing baby to "Banbury Cross."

What makes the difference? Usually disease of the stomach, involving the entire digestive and nutritive system.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. When these diseases are cured the hindrance to the proper nourishment of the body is removed and strength comes back again.

"I am happy to say I am getting to feel fine," writes Mr. A. J. Vanderwater, of 873 West Division Street, Chicago, Ill. "In all I have taken six bottles of 'Golden Medical Discovery' and four or five vials of the little 'Pellets.' They have done me worlds of good. These medicines have brought the great change in me from a slow mope of a man that could hardly crawl, tired and sick all the time, and could do no work. Now I can work, sleep, eat, and feel fine, and that tired feeling is all going away. I am very thankful that I wrote to Dr. Pierce. His 'Golden Medical Discovery' and his little liver 'Pellets' have almost made a new man of me. I feel young as I did at thirty years. No other doctor for me, only Dr. Pierce."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

DEATHS REPORTED.

At the Star Office To-day.

MALBAY, Que., Mrs. John Johnson is dead, aged 74 years.

OTTAWA.—Mr. Antoine Choquette is dead at the age of 44 years.

HAMILTON.—E. C. Fearnside, a well known market gardener, is dead, aged 63.

LONDON.—John Ward, aged 60 years, 50 of which he had spent in London, is dead.

WATFORD, Ont.—Peter Dodds, aged 70, one of Watford's oldest business men, died yesterday.

QUEBEC.—Mr. D. C. Morency, surveyor, of Levis, died on Tuesday, after only a few hours' illness.

NEW YORK.—Former Park Commissioner Edward Bell died early to-day from typhoid fever.

WOODSTOCK, Ont.—Mrs. John Gordon, a resident of Woodstock for over fifty years, died yesterday.

BROCKVILLE, Ont.—Mrs. Robt. Lipsett, wife of one of Brockville's retired merchants, is dead.

ASBURY PARK.—John P. Drummond, prominent in horse racing circles throughout the country, is dead.

TORONTO.—William C. Haskett, traveller for Lyman Knox & Clarkson, wholesale druggists, died Tuesday.

COLUMBUS, Ohio.—Chief Justice Marshall J. Williams, of the Ohio Supreme Court, is dead of diabetes.

SYRACUSE, N. Y.—Judge William Harvin died at his home in Skaneateles, on Wednesday, aged 94 years.

OGDENSBURG.—Henry Smithers, aged nineteen, committed suicide at Heuvelton, by taking a dose of paris green.

ARNPRIOR.—News has been received here of the death at Campbell's Bay, Quebec, of Mrs. Walter P. Tierney.

HUDSON, N. Y.—Ex-County Judge Levi Longley died at his summer residence, Copake Lake, of neuralgia of the heart.

HAMILTON.—Mrs. McGiverin, wife of W. F. McGiverin, assistant secretary of the Royal Hamilton Yacht Club, is dead, aged 49.

OGDENSBURG, N. Y.—Joseph Lancto is dead, here, aged 93.

Mrs. Maria Rock is dead, at Converse, aged 86.

HAMILTON.—Mrs. Audette, widow of the late Joshua Audette, was found dead in bed yesterday. She leaves a grown up family.

HAMILTON — Mrs. Clara Whatley, wife of G. R. Whatley, daughter of Bandmaster George Robinson, of the 13th Regiment band, is dead.

PHILADELPHIA — Edward Muench, chief purchasing agent of the United States Steel Corporation, is dead at his home in Overbrook, aged 30.

WOODSTOCK, Ont. — Word has been received of the death in Cairo, Ills., of Jas. B. McMullen, formerly of Woodstock.

Levina Carroll, relict of the late James Galloway, of Ingersoll, is dead, aged 90.

BROCKVILLE, Ont. — Henry Burns, of Bedford, aged 20 years, died of consumption.

Mrs. Goodfellow, one of the oldest residents of Smith's Falls, is dead.

Thos. Warren, a leading merchant of North Augusta, died from blood poisoning, aged 56 years. He leaves a widow and three sons.

VANCOUVER, B. C.—Mrs. Youdall, wife of Hugh Youdall, and a native of Truro, N.S., died suddenly, from heart failure, on Tuesday.

Mrs. McQuarrie, wife of L. McQuarrie, contractor, died in Westminster, on Tuesday. She was a native of Streetsville, Ontario.

Mrs. Catharine Gray, late of Halifax, died on Tuesday, in Blain, Washington.

AMERICA'S UNCROWNED KING.

J. Pierpont Morgan and Party Entertained in Germany.

BERLIN, July 10.—Notwithstanding Mr. J. Pierpont Morgan's statement that he visited Berlin solely for pleasure, he managed to have a number of conferences yesterday with leading German steamship managers, financiers and business men.

The Hotel Bristol was besieged with scores of visitors of all classes and descriptions, appealing for an audience with the "reiche Amerikaner." Some wanted donations for foundling homes, others subscriptions for new church buildings. A number came with pitiful descriptions of suffering and want.

But Mr. Morgan has a bodyguard, a faithful valet, something like the prize fighter "Jim" Corbett, or worse. His grimace is sufficient to frighten the boldest mendicant.

Sunday was a royal day for the Morgan party. In accordance with special telegraphic orders from the Kaiser to Potsdam, the officials of the royal stables and palaces displayed attention such as is only bestowed upon visiting monarchs.

A VISIT TO POTSDAM.

Early in the morning the party found special carriages waiting to take them to Potsdam, the Versailles of Germany.

Here were relays of royal equipages to take the party to the new palace, where all the royal apartments were shown. Then they had a drive to the beautiful Sans Souci Park, where Frederick the Great used to ride to shady Babelsberg, with its romantic schloss. Visits were also made to the vaults where Frederick William and Queen Elizabeth are interred. The weather was perfect, and at all points of interest were special guides and attendants, instructed by the Kaiser to wait upon the party.

Mr. Morgan was apparently very much impressed with the Kaiser, but all he would say for publication was: "I am sorry, but I cannot say anything about the Kaiser. He was exceedingly courteous to us. He's a great man, for a fact!"

The French in West Africa.

LONDON, July 10.—The Paris correspondent of the Times says that a decree abolishing the post of Government Commissioner of Lake Chad, thus making that territory a province of the French Congo colonies, indicates the intention of the new ministry to limit the independence of the French officials in the region in question.

This, says the correspondent, marks a policy of peace in West Africa, which is sure to be attacked by the military party. Hereafter no officer, hoping to win laurels, will be allowed to undertake operations without direct orders from the Colonel Office in Paris.

Rice is Closely Guarded.

TORONTO, Ont., July 10. — A strict watch is being kept on Fred. Lee Rice, the condemned murderer of Constable Boyd. In nine days he is to die, but he has said that a rope will never go round his neck. Every precaution is being taken to keep from him anything which would help him to take his own life. He has, it is said, little hope of the success of the latest scheme for a respite, and is attending to his spiritual adviser, Rev. Robert Hall. "If you have to die," his mother wrote, "my only hope is that you will be prepared for the end."

Bishop Ridley's Mission.

(Special to the Montreal Star.)

OTTAWA, July 10.—Bishop Ridley, of the Anglican diocese of Caledonia, B.C., was in the city yesterday and left in the afternoon for the East. He is going to Constantinople and other Old World libraries to study ancient manuscripts.

AQUATICS

WEATHER WON HENLEY RACES

A Strong Wind Was Always Favouring One Crew.

THUS ARGONAUTS LOST

Titus Also Had the Worst Water, and Luck Ran Heavily Against the Visitors.

(Special to the Montreal Star.)

LONDON, July 10.—Weather conditions had much to do with determining the results of the second day's racing at Henley. The wind blew off the Bucks bank, and each crew having that station was favoured by at least a full length. The Toronto crew had the exposed station, and was defeated by the Old Blues in the Third Trinity boat after an arduous and gallant struggle. The Canadians took their defeat with characteristic coolness, although they were sorely disappointed in losing the chance of rowing with Leander in the final heat. The Irish crew lost the heat for the Thames cup through a similar disadvantage of position and Titus was equally unfortunate in having the worst water and in being beaten in the heat for the Diamond Sculls, although he was generally regarded as a superior oarsman to Kelly. Luck ran heavily against the visitors in all these events. The attendance was again large, notwithstanding the unfavourable weather.

St. Rose Officers.

The members of the Ste. Rose Boat Club held a largely attended meeting at the club house, Ste. Rose, last night, for the purpose of electing a club and entertainment committee for the present season.

Mr. D. Hatton presided. It was unanimously decided to hold fortnightly dances at the club house for the members. Social parties will also be given twice monthly.

The club house and grounds are being specially attended to at the present time.

The following committee was appointed to act for the season: Messrs. D. Hatton, G. R. Kearley, W. Meadowcroft, J. H. Resther, Charles MacAdam, R. Stevenson, Harry Boon; joint secretaries, Messrs. J. MacBeth Taylor and Hector Garand.

ATHLETICS

IRISH CHAMPIONSHIPS.

Kiely Wins With the Hammer and the Leahys Capture Jumping Events.

The Irish athletic championships this year were held in connection with the Cork Exposition, and took place on the Mardyke cricket ground, Cork, on June 21. All the previous holders of the championships who defended their titles were successful, but new champions were unearthed in the mile, four miles, high and broad jump. Kiely, the veteran weight thrower, won the 16-pound hammer with a good performance, and "Dinny," who has been hurdling for a generation, won the 120 yard hurdles in good time. Peter O'Conner, the noted broad jumper, was an absentee, but the Leahy family, one of whom holds the British record for the high jump, captured the two jumping events.

880-Yards—Won by J. E. Finnegan (holder), Dublin; C. R. Fausset, Dublin University, second; J. J. Curran, Limerick, third. Time 2 minutes, 9 3-5 seconds.

Throwing the Hammer—Won by T. F. Kiely, Carrick-on-Suir (holder), with 150 feet 3 1-3 inches; C. Walsh, Macroom, second, with 109 feet 8 inches.

100-Yard—Won by D. Murray, County Dublin Harriers; H. Thrift, Dublin University, second; R. F. Cruise, Blackrock College, third. Time, 10 3-5 seconds.

Long Jump—Won by C. Leahy, Charleville, with 22 feet 8 inches; T. F. Kiely, Carrick-on-Suir, second, 22 feet.

One Mile—Won by J. J. Daly, Galway; J. G. Quirk, Bansha, County Tipperary, second; W. H. Fry, Dublin University, third. Time 4 minutes 43 2-5 seconds.

Putting the Weight—Won by J. Golovan, New Ross (holder), with 40 feet 1 inch; T. F. Kiely, Carrick-on-Suir, 36 feet 8 1-2 inches, second; H. Singleton, Cork, 34 feet 10 inches, third.

High Jump—Won by C. Leahy, Charleville, 6 feet 3-4 inch; P. J. Leahy, Charleville, 0.

120-Yard Hurdle—Won by D. Carey, Dublin, (holder); P. Harding, Dublin, second; J. Murray, Dublin, third. Time 17 seconds.

220-Yards—Won by D. Murray, Dublin, (holder); C. R. Fausset, Dublin University, second; H. Thrift, Dublin University, third. Time 23 2-5 seconds.

Four Mile—Won by J. J. Daly, Galway; J. Morrisey, Cork, second. Time 21 minutes 59 4-5 seconds.

LACROSSE

Cornwall Ready.

CORNWALL, July 10.—The Cornwall lacrosse team will leave for Toronto Friday night, and will measure their strength with the Queen City Club on the Island oval, Saturday afternoon. One week later the Toronto team will play in Cornwall. They had a hard practice with a team of Indians last Saturday afternoon, before the Intermedite game, and have been at work every night this week. The men are in better condition than any time this year.

The loss of Donald Cameron, who strained his shoulder on Dominion Day, is a severe blow to the Cornwall defence, of which he has for years been the king pin and canny long-headed general.

The game here on July 19 should be a corker in any case. Toronto's men, like those of Cornwall, are improving every hour and they may spring another National surprise.

CYCLING

New Bicycle Record.

ATLANTIC CITY, July 10.—In defeating George Leander in two straight 10-mile heats Tuesday evening, Albert Champion made new competitive and track bicycle records. The Frenchman won the first heat by 3 1-2 laps in 15 minutes 4 seconds.

Champion started out for records in the second heat. The five miles were ridden in 7 minutes 12 2-5 seconds, the 10 miles being completed in 14 minutes 29 3-5 seconds. Champion rode the last mile like a fiend, going the distance in 1 minute 26 2-5 seconds. All of these latter times are track competitive records. Leander was nowhere in the last heat, being 7 1-2 laps behind the flying Frenchman at the finish.

SHOOTING.

D. Bain is Champion.

The Winnipeg gun club held another most successful tournament yesterday. The weather was fine with the exception of a few showers late in the afternoon. Shooting commenced about 9.30, and continued all day until 6 o'clock p.m. Mr. D. H. Bain won the honours of the day by winning the 50 bird contest, scoring 45 out of a possible 50, which entitles him to the provincial championship for the present year. Mr. Bain is too well known in trap-shooting circles to need any introduction to the public. He is known as an excellent shot, and although it is the first time he has carried off championship honours, he is always somewhere near the top. Mr. Bain also won the miss and out shoot, hitting 19 out of 22 shot at.

The team shoot, which was scheduled to take place for the referee's chair, so generously donated by the J. H. Ashdown Hardware company, failed to materialize. The Winnipeg gun club had two excellent teams ready for competition, but were offered no opposition.—Winnipeg Free Press.

FOOTBALL

Winnipeggers Defeated.

TORONTO, July 10.—At Sunlight Park last night, the Broadviews defeated the Winnipeg Shamrock Association football team, that is now touring eastern Canada, by 1 to 0, in a keenly contested game. The goal was scored in the first half. The defeat is the first of the Shamrocks' tour. They have played in Detroit, Berlin and Galt, and go east from here.

TENNIS.

MISS HAGUE TO PLAY

She Will Defend the Canadian Championship at the Niagara-on-the-Lake Tournament.

Montreal has become the leading centre of lawn tennis. At the International tournament now in progress at Niagara-on-the-Lake, Miss Minnie Hemans Hague, of this city, has been chosen by the Provincial Associations to represent Canada and defend the championship which she won last year. Miss Hague has won three silver cups, and quite a variety of gold brooches, clocks and silverware, and is, as well as the most skillful, the most popular player on the lawn.

CANADIAN TOURNAMENT.

Play in the Canadian Lawn Tennis championship matches was continued here yesterday on the courts of the Queen's Royal Hotel, but owing to a heavy thunderstorm not much progress was made. Score:

Open singles, preliminary round—Irving Wright, Princeton, beat H. E. Avery, Detroit, by default.

First round—A. C. McMaster, Toronto, beat E. R. Patterson, Toronto, 7—5, 6—1; El. Leonard, Harvard, beat C. A. Lindley, Yale, 6—1, 6—1.

Handicap singles, first round—R. G. Hunt (owe 15) beat A. N. MacDonald (half fifteen), 4—6, 6—2, 8—6; C. Dickson (15), beat H. Florsheim (half thirty), 6—3, 6—3.

Game in United States.

NEW YORK, July 10.—Two exceptionally fine matches were played yesterday in the continuation of the Round Robin series of doubles on the courts of the County Club, of Westchester. Ward and Davis, the national and international champions, found it necessary to play five hard sets before they defeated Clothier and Ogden. Darkness caused the match between Whitman and Ware vs. the Wrenn Brothers to remain unfinished. The Wrenns played an exceptionally strong game. They nearly took the first set, captured the second, and were evenly balanced and stronger in the fourth, when the match was stopped. Both teams lobbed with exceptional brilliancy, and many clever shots. The summary:

Round Robin doubles—Holcombe Ward and Dwight E. Davis defeated William J. Clothier and Montgomery Ogden, 6—4, 8—10, 3—6, 6—3, 6—3.

Malcolm D. Whitman and Leo E. Ware vs. Robert D. Wrenn and Geo. L. Wrenn, jr., 6—6, 1—6, 6—2, 6—6 (unfinished).

ODDS AND ENDS.

Murray, the professional of the Westmount Golf Club, on Tuesday succeeded in clipping two more strokes off the record for the nine-hole course, making the record in 38 in spite of the heavy wind which was sweeping over the links. This will probably stand as the record for some time.

A cablegram received from R. K. Barker, Captain of the Argonauts, says, that the Argonauts were beaten by the best eight in fourteen years. The Toronto crew fought absolutely to the finish. They had the worst station, but no complaint is being made. The winning British eight are likely to visit Canada next year.

A new lacrosse club has been formed of members, sixteen years of age, called the Belmonts. The team consists of Emilien Marchand, Jos. Morotte, J. Ryan, E. Jasmin, A. Bellemare, B. Leroux, J. Hanley, S. Black, A. Cyphiot, F. Mainville, A. McGowan, A. Deschamps, B. Leroux. Challenges should be sent to B. Leroux, 34 Rolland street.

The first swimming races for the champion ships of the Amateur Athletic Union will be held at Travers Island on Saturday. Some of the best short-distance men in America have entered, and promise a lively competition. E. C. Shaeffer, of Reading, Pa., the noted record-breaker, will meet such fast N. Y. A. C. men as Otto Wahle, Charles Ruberl and F. A. Wenck, now on his way from England; the K. A. C. cracks, G. W. Van Cleaf and L. deB. Handley, and Columbia University's representative, J. W. Spencer.

The second series of races will be contested Saturday, August 12, and Saturday, October 4, all under N. Y. A. C. auspices, at Travers Island.

Colonel Lynch's Flag.

The flag of the "2nd Irish Brigade," one of the two regiments commanded by "Colonel" Lynch, has found its way to Kingston-on-Thames, and has been presented to the Mayor of that borough (Dr. W. E. St. Lawrence Finny) by a soldier just returned from South Africa. The flag is in the Boer colours, and bears the name of the brigade, and the words "For Liberty" and "Remember '98," in reference to the Irish Rebellion of that year. The story goes that the flag was found under dramatic circumstances. Shortly after a fight in which the 2nd Irish Brigade took part, and just before it was disbanded, the dead body of one of its members was found lying on the veldt. The flag was wrapped round his body, and pinned to it was the fly-leaf of a Bible, on which was written in blood the following words: "Send this flag to Dublin, and pray for the soul of Patrick Mooney. Good-bye." Sewn into the flag was an ancient-looking bullet and a piece of paper, on which was written: "This bullet was taken from the dead body of an Irish patriot, who died for his country in 1798, named Patrick O'More." The soldier who found these interesting relics was himself afterwards killed in action, but before he died he entrusted them to one of his comrades, with the request that if he got back to England he would hand them over to the Mayor of Kingston. His Worship intends to have them suitably framed, and they will be added to the possessions of the borough.

Ottawa's Carnegie Library.

OTTAWA, July 10.—Mayor Cook and Ald. Ross waited on Hon. Mr. Scott regarding the civic application for the site of the Carnegie library on the canal reserve, facing Maria street. The Secretary of State decided not to give a definite answer until the return of Sir Wilfrid Laurier from London. This may mean that the library might not be built for another year, and as the city wants to put up the building at an early date, another site may be chosen.

EUREKA HARNESS OIL Imperial Oil Co.

Time—2.18¼, 2.15, 2.16½, 2.13¼.

NEW SYSTEM FOR TROTTING RACES.

Horse Winning Fastest of Three Heats Will be Awarded Purses at Brighton's Big Meet.

NEW YORK, July 10.—The Grand Circuit meeting, which is to take place at the Brighton Beach race track next month, should be as successful as last year's meet at the same track, as purses aggregating $66,500 are to be offered for the different classes.

A new and novel system of harness racing is to be introduced for the purpose of preventing long-drawn-out contests, such as were witnessed at the meeting last year.

The new system of harness racing provides for three heats and no more in each race. The winner of the first heat will retire from the race before the second heat; the winner of the second heat will retire before the third.

The horse winning the fastest heat is to be deemed winner of the race and receive first money; the winner of the next fastest heat second money, etc. Eight races are to be decided on this plan. They are the 2.18, 2.16, 2.14 and 2.10 races for trotters, and the 2.24, 2.15, 2.12 and 2.08 races for pacers. The purses in all these races are $1500 each.

DEAD HEAT IN A STEEPLECHASE—FASTEST TIME AT BRIGHTON

Two Sensations Furnished at the Beach.

NEW YORK, July 10.—In the fastest time ever made on the Brighton Beach track for the distance 5½ furlongs, Eugenia Burch came home a winner in the Montaud Stakes at Brighton yesterday. The Ben Strome filly ran in 1.06 3-5, 1-5 of a second faster than Leonora Lorings ran it. She carried 100 pounds, and was third choice in the betting. Injunction, from the Keene stable, was favourite, and Cinquevalli, an added starter, was second choice. Eugenia Burch broke in front, and, making all the running, won by a length from Injunction.

For the first time in many days the public saw a dead heat in a steeplechase race. Eophone and Inspector Stevens, under a furious drive in the last quarter, came to the wire head and head. The judges were unable to separate them. The purse was divided.

Blues, at 1 to 10, galloped home an easy winner in the fifth race at one mile and a furlong. Summary:

First race, for 2-year-olds, selling, 6 furlongs—Dramatist, 115, Shaw, 2 to 5 and 1 to 4, won; Semper Vivax, 112, Odom, 10 to 1 and 2 to 1, second; Bismarck, 112, O'Connor, 6 to 1 and even, third. Time, 1.15. Squid, President and Sapere also ran.

Second race, high weight handicap, for all ages, 6 furlongs—Irritable, 128, Shaw, 2 to 1 and 4 to 5, won; Remorse, 112, Wonderly, 6 to 1 and 2 to 1, second; Operator, 112, O'Connor, 5 to 2 and even, third. Time, 1.14. Roue, Esene, Neither One, Fair Knight, Honolulu, Delmarch, Paulcreyton and Maru also ran.

Third race, steeplechase, selling, short course, about two miles—(x) Eophone, 141, Mara, 12 to 1 and 5 to 1; (x) Inspector Stevens, 152, Ray, 11 to 5 and 4 to 5; Somerset, 154, Ray, 11 to 5 and 4 to 5; Somerset, 154, G. Green, 9 to 5 and 7 to 10, third. Time, 2.34. Boisterous, Higbie, Fairie, Trillion, Victor, Decameron (xx) Curfew Bell and (xx) Marylander also ran.

(x) Dead heat between Eophone and Inspector Stevens.

(xx) Curfew Bell and Marylander fell.

Fourth race, the Montaud Stakes, for 2-year-olds, 5½ furlongs—Eugenia Burch, 110, Odom, 3 to 1 and even, won; Injunction, 117, Shaw, 8 to 5 and 1 to 2, second; Cinquevalli, 110, O'Connor, 11 to 5 and 4 to 5, third. Time, 1.06 3-5. Hackensack, Sailmaker and Jack O'Lantern also ran.

Fifth race, for 3-year-olds and upwards, 1 mile and a furlong—Blues, 120, Shaw, 1 to 10 and out, won; Tom Kenney, 110, O'Connor, 25 to 1 and 8 to 5, second; Watercure, 107, L. Jackson, 10 to 1 and 2 to 5, third. Time, 1.51 2-5. Only three starters.

Sixth race, for 2-year-olds, 5 furlongs—Our Nugget, 109, J. Conley, 7 to 2 and even, won; Goldvan, 112, L. Jackson, 8 to 1 and 3 to 1, second; Jerry, 112, Shaw, 8 to 1 and 3 to 1, third. Time, 1.01. Knock Lagow, Bernard, General Prig, Robbinet and Woodlake also ran.

The Fort Erie Results.

FORT ERIE RACE TRACK, Ont., July 10.—Weather cloudy, track slow. Results: First race, 6 1-2 furlongs, for maidens, 3-year-olds—Bella, 98, Sheedy, 10 to 1, won by three lengths; Worthington, 100, Adams, 7 to 1, 2; Sheppard, 105, Ellis, 5 to 1, 3. Time, 1.21 3-4. Impressive, Mazzara, Tholan, Artificial, Miss Chapman, Ran After, The Mirage, and Dianera II. finished as named.

Second race, 5 furlongs, 2-year-olds, selling—Laura F. M., 102, C. Kelly, 8 to 5, won by half a length; Louise Collier, 107, McInerney, 3 to 1, 2; Optima, 107, McQuade, 3 to 1, 3. Time, 1.02 3-4. Woolsack, Navigator, Mary Milden, Quality Street and Helen K. finished as named.

Third race, one mile and 20 yards, for 3-year-olds and up, selling—Hinsdale, 110, Irvine, 3 to 1, won by two lengths; Ducassa, 107, C. Alley, 6 to 1, 2; Sir Kingston, 103, Ellis, 15 to 1, 3. Time, 1.42 1-4. Drummond, Teucer, Dubious, Senator Beveridge and Clarena finished as named.

Fourth race, 1 mile, for 4-year-olds and upwards, selling—Baffled, 103, Irvine, even, won by three lengths; King's Pet, 105, McQuade, 5 to 1, 2; Curtsey, 106, Brennan, 7 to 1, 3. Time, 1.42. Lutes Fonso, Golden Harvest, Gray Dally, Meggs and Appreciation finished as named.

Fifth race, 7 1-2 furlongs, for 3-year-olds and up, selling—Hie Away, 101, Minder, 2 to 1, won by six lengths; Filibuster, 101, Adams, 3 to 1, 2; Rice, 108, C. Aker, 6 to 1, 3. Time, 1.34 1-2. Concertina and Urganda finished as named.

Sixth race, steeplechase, short course, for 3-year-olds and up—Henry Gibbs, 145, Brazil, 8 to 5, won by four lengths; Stamp, 131, Slater, 2 1-2 to 1, 2; Verna K., 134, Brodie, 6 to 1, 3. Time, 3.14 1-4. Yasodhara, The Esmond and Terry Ranger finished as named.

Hoofbeats.

Harold H., 2.04, the champion Canadian pacer, has been sold by the Swartz Bros., of Wingham, to the McLaren Bros., of Winnipeg, Man., for $8,000.

Jockey Bullman was suspended for ten days for breaking the barrier with Dramatist a couple of times on Monday. Jockeys Smith, Redfern and Michaels were also disciplined.

Lester Reiff has been engaged by John A. Drake, of Chicago, to train and ride his horses. Reiff has been granted both a trainer's and a jockey's license by the Western Jockey Club.

Mr. Seagram is reported to have won over $15,000 over the victory of his two-year-old Dramatist at Brighton Beach on Monday. He got 8 to 1 to win and 3 to 1 place for his money.

M. J. Maloney's Ohnet, winner of the last race on Monday at New York, entered to be sold at $1,000, was bid up to $1,800 by H. T. Griffin, owner of Peninsula, the second horse, but the Toronto owner retained the gelding with the usual $5 bid.

It will be good news to all lovers of a gallant horse that Ethelbert is going so well at Sheepshead Bay as to warrant the belief that he will soon be seen in the arena again. Trainer Joyner gave the great son of Eothen and Maori a fine open gallop at Sheepshead Bay early yesterday morning, and all witnesses of the work, including the trainer, were much impressed by the move.

The Quebec Turf Club, at their annual meeting, elected the following officers for the ensuing year: Hon. president, Hon. P. Garneau; hon. vice-president, Lieut.-Col. J. E. Turnbull; president, Victor Chateauvert, Esq.; vice-president, W. Price, Esq., treasurer, Major F. Lampson; secretary, Capt. A. F. Ashmead. It was decided to hold the annual meeting on Thursday and Saturday, 11th and 13th September next.

Stewards of the Western Jockey Club, at their monthly meeting, took action to discourage foul and rough riding on the part of jockeys. A rule was passed that the licenses of jockeys hereafter guilty of such practice shall be revoked. The action was taken because of complaints received by the stewards regarding the rough tactics of certain riders. Jockey Coburn has been guilty of several offences, and strong complaint has been made against Jockey Matthews.

MISCELLANEOUS

EXTINCTION FEARED FOR ALLIGATORS.

Reptiles Have Been Nearly Exterminated by Hunters in Florida.

NEW YORK, July 10.—Persons who visited Florida a few years ago and saw the rivers, swamps and bayous literally teeming with countless thousands of alligators will be surprised to learn that these large reptiles are fast becoming extinct. The constant wholesale warfare that has been waged against them has thinned them out so completely that, unless a halt is soon called, their total extermination is only a matter of time. While they were formerly numerous as far north as Georgia, they have gradually become extinct, until now they are found in great numbers only along the coast line of the extreme Southern States. In Florida they are practically extinct, with the exception of Manatee, Lee, DeSoto and Dade counties. In the Everglades the species have probably been more numerous than in any other portion of the world, for the reason that it has been well nigh impossible to get to them. In this almost impregnable swamp nature has defended them so well that if a hunter succeeded in penetrating it and killing his game he was frequently unable to secure it.

It was not until the hide of the saurian became a factor of commerce that its extermination began in earnest. The skins, when tanned, make excellent leather for the manufacture of such articles as trunks, travelling bags, purses, pocket books and all kinds of leather novelties. Books are also bound with it, and it is even utilized for upholstering chairs. Dade county, on the east coast of Florida, sends to market about 50,000 skins annually, while the number from the counties on the west coast reaches fully 125,000 each year.

In addition to the wholesale slaughter of large alligators for commercial purposes, a feature of recent developments is the preparation of young ones for the summer trade. Dealers pay $15 a hundred for the little reptiles while they are from five to ten inches in length. They are disembowled, pickled in a preserving solution, stiffened by the insertion of wires into their bodies, stuffed with sawdust and then varnished. They are mounted on pin cushions, pin and jewellery trays, paper weights, etc., and retailed at an average price of fifty cents each. One firm in Florida sells every summer thousands of these little stuffed "gators" to tourists, and as many more thousands every summer at Northern resorts.

Joseph Chamberlain would certainly smoke the Chamberlain Cigar if he could buy them in England as he is a man who knows a good cigar when he gets it—Do you? Sells for 10c and is worth it.

BASEBALL

MONTREAL DIDN'T PLAY

Toronto Was Beaten and Buffalo by Winning Twice Got to the Top of the Eastern League.

Montreal did not play yesterday.

Following are the scores in the other Eastern League games:

At Worcester—By innings— R. H. E.
Worcester .. ..000011100—3 11 2
Toronto .. ..010000000—1 2 4
Batteries — Falkenberg and Steelman; Gardner and Toft.

At Buffalo—
First game—By innings—
Buffalo .. ..0101[illegible]010—3 9 0
Rochester .. ..000100000—1 5 1
Batteries—MacFarlan and Phelps; Hooker and Bevier.

At Buffalo—
Second game—By innings—
Buffalo .. ..302000000—5 10 2
Rochester .. ..000020000—2 7 2
Batteries—Mason, Shaw and Bevier; Horton and Phelps.

At Jersey City—By innings—
Jersey City.. .. .. ..200005210—10 6 3
Newark .. ..000100001—2 12 1
Batteries—Thielman and O'Neill; Barnett and Butler.

Diamond Dust.

Halligan, of Jersey City, is still the league leader in batting, with an average of .389. Charlie Carr is next with .361, Hayden third with .357.

The Alert B. B. Club is open to receive challenges from any team whose members are 15 and under. Address all challenges to A. Fennell, 45 Berthelet street.

Manager McKean is not with the Rochester team, having been called home on account of the illness of his wife, and Jack Hayden is on the hospital list with a strained side.

"Scrambled baseball by a scrambled team" is the way they speak of the game the New Yorks are putting up these trying days. Brodie, twice released and as many times signed, is playing the best game of the bunch.

A very exciting game of baseball took place in the Union Baseball grounds, St. Henry, between the Maples and Unions, both of St. Henry, and of the Juvenile League. The Maples won by an easy score of 25 to 22. The umpire was a special feature of the game.

One enthusiast at Chicago on the holiday became so excited when the home team tied the score that he fired six shots in the air from his revolver, every shot passing through his umbrella, which he had previously adjusted to shade him from the burning sun.

Three baseball fatalities were registered on July 4. At Dallas, Texas, Pitcher Harrington was killed by a batted ball; at Cincinnati, George Steinkam, a 16-year-old youngster, was struck by a batted ball under the right ear, and instantly killed, and at Danville, Ark., Hubert Jones, a 14-year-old boy, was struck over the heart by a foul tip and killed in an instant.

The Celebrated Thoroughbred Stallion STONELEIGH, THE BEST BRED HORSE IN CANADA.

Selected in England by Lieut.-Col. Dent, Imperial Remount Officer for Canada, for improving the breed of Canadian horses; will be at our stables for the season of 1902.

BLOOD POISON

Have You Sore Throat, Pimples, Copper-Colored Spots, Aches, Old Sores, Ulcers in the Mouth, Hair Falling? Write for proofs of permanent cures of most obstinate cases in 15 to 35 days. Worst cases solicited. Capital, $500,000. 100-page book FREE. No branch offices.

COOK REMEDY CO., 1097 Masonic Temple, Chicago, Ill.

The Expert opinion of MR. LOUIS FORTIER, who declares under oath that

"GRANDAS CIGARS are at least equal to imported cigars,"

has added greatly to the prestige already obtained by these cigars.

Also on oath Mr. Fortier says that HE PREFERS GRANDAS.

161 t

BE A FREE MAN

Be a Man Among Men! Be Strong and Youthful! Free Yourself From the Chains That Hold You Down!

Nature intended you to be a strong man. You have the physique, the constitution, and yet you do not feel the vim, the sand, the ambition one would expect in a man of your age. What is it? Why, a lack of vitality—the foundation of manhood. You have lost it, no matter how. Get it back, feel young, look young, act young. Life is beautiful when you have health, I can help you with my

DR. McLAUGHLIN'S ELECTRIC BELT.

My confidence in my method enables me to offer the Belt on trial, and any who can offer me reasonable security can have my Belt at my risk and

PAY FOR IT WHEN CURED.

Men, why will you be weak? Why do you not listen to the echo of thousands of grateful voices raised in thanks to Dr. McLaughlin's Electric Belt? Why do you go on from day to day realizing that you are losing your nerve force, your manhood, when you see a cure within your grasp? Reach for it, take it to your heart, and feel the life-blood flowing, jumping, dancing through your veins; feel the exhilarating spark of manly power warm your frame, the bright flash come to your eye, and the firm grip to your hand—the grip which grasps your fellow-man and tells him that you have found your Mecca—you have regained your Manhood.

ACT NOW Act to-day. Do not delay a matter which is the key to your future happiness; do not allow a disease to destroy all possibility of future pleasure for you. Whatever your condition to-day, you will not improve as you grow older. Age calls for greater vital force, and the older you get the more pronounced and apparent will be your weakness; so cure it now—cure it while you are young. The time is ripe. While the vital spark is still warm it can be easily fanned to flame by Electricity, and Dr. McLaughlin's Electric Belt will make you strong if you try it now.

Warranted Not to Burn or Blister.

My appliances are warranted the strongest in the world, yet they give the current like a soothing, glowing warmth, flowing into the body without the stinging, burning sensation caused by old-style Belts. My special inventions—the cushion electrode and regulator—prevent this horror. My Belt is half-price to those having the old-style burning belts.

FREE BOOK.—I have published an 80-page book, beautifully illustrated, and full of truths for men and women who are low in vitality, weak and declining. It is worth reading. If you have tried everything else and believe in nothing, this book will convert you to the altar of truth. I will send it, closely sealed, free. Ask for it. Call, if possible, and consult me personally.

DR. M. A. McLAUGHLIN, 214 St. James St., Montreal, Que.

OFFICE HOURS—9 a.m. to 6 p.m. Sundays, 10 to 1. Wednesdays and Saturday evenings till 9.

UNCLE SAM AND THE BRITISH WEST INDIES

The Report That They Would Be Exchanged for a Port on the Alaskan Coast Is Denied.

(Special to the Montreal Star.)

WASHINGTON, D. C., July 10.—The officials of the department deny the report from Boston that negotiations are pending the exchange of a port on the Alaskan coast for the British West Indies. It is true, however, that the United States Government has investigated the feasibility of making some sort of an exchange of this kind, but that investigation was coupled with the incipient plan on foot here some time ago, in fact before the death of President McKinley, to secure possession of all the West Indian Islands from all nations having holdings there. It was thought then by some American statesmen, and Senator Lodge, of Massachusetts has been credited with being the leader of the thought, that the U. S. ought properly to own all of the West Indies on account of the Isthmian Canal. A general plan for taking over all of the Islands, if arrangements could be made with the nations owning them, was thought about, but it never made much progress toward completion and was practically dismissed altogether at the time that the treaty for the purchase of the Danish West Indies was completed. The plan never got beyond the vaguest outlines. Senator Lodge is believed to have faith that the United States will one day own all the West Indian Islands. The suggested exchange with Great Britain, however, would not find favour with the State Department, even if a direct offer were to come from the British Foreign Office. To the mind of Secretary Hay, the Alaskan Boundary dispute must be settled upon its merits and not by exchange.

PHILIPPINE FRIAR LANDS.

The Vaticans Reply to Judge Taft Mailed to Washington.

ROME, July 10.—The answer of the Vatican to the note of Judge Taft, governor of the Philippine Islands, concerning religious affairs in the archipelago, which was handed to Cardinal Rampolla, papal secretary of state, July 3, was re-mailed to be delivered to Judge Taft at a late hour last night. It will be telegraphed entire to Washington.

The Vatican's answer to Judge Taft follows: The contract, which the Vatican proposes shall be signed by both parties comprises twelve articles.

The first article says the Philippine Government is to buy the lands of the four religious orders concerned, the Holy See acting as intermediary.

The second article describes what are the agricultural lands to be bought.

The third article says that if some of these lands are possessed by corporations, the friars will sell their share.

The fourth article establishes a tribunal of arbiters to be composed of five members, two of which are to be chosen by the Vatican, two by the Philippine Government, and the fifth member by the other four.

The fifth article provides that the work of arbiters shall begin January 1, 1903.

The sixth article refers to title deeds; these will be transferred to the Philippine Government.

Article seven sets forth that payment is to be made in Mexican dollars, interest accruing at four per cent.

Article 8 deals with transfer to the church of ancient crown lands with ecclesiastical buildings on them.

The ninth article proposes amicable accord in the matter of the existing charitable educational trusts which are in dispute.

The tenth article provides for arbitration as to the indemnity the United States shall pay for the ecclesiastical buildings used during the war in the Philippines.

According to the eleventh article, the expenses of the tribunal of arbiters is to be paid by the Philippine Government.

Article twelve declares that the Holy See in the sphere of action which is in its incompetence, shall use all its influence for the pacification of the Philippine Islands, and in favour of their adhesion to the established government and which shall prevent all political opposition on the part of clergy, both regular and secular.

THE CAPE BRETON RAILWAY.

A New Yorker Making a Report on the Road.

(Special to the Montreal Star.)

SYDNEY, N. S., July 10.—M. E. Evans, a prominent New York engineer, is now in Cape Breton, at the instance of the Reorganization Committee of the Dominion Securities Company, to enquire into the affairs of the Cape Breton Railway. Mr. Evans' report will include a description of the country through which the road passes, advantages underlying its construction and the feasibility of making it a connecting link in the fast passenger service between New York and London. He states that work is still going on and that it would be pushed ahead as rapidly as possible.

Mr. Evans will spend about a week in Cape Breton gathering information, respecting the road that is required by the committee.

Storm and Fire in Shubenacadie.

(Special to the Montreal Star.)

TRURO, N. S., July 10.—A terrific electrical storm raged in the Shubenacadie and Milford districts Tuesday. Shortly after midnight, lightning struck the station house and flames were discovered about four o'clock this morning, in spite of the pouring rain, bursting from all parts of the building. They spread to Mr. G. W. McFetridge's store and barn. The store was burned, but the barn was saved. Most of the goods were removed from the store in fairly good condition. The store was covered by $500 insurance, and the goods were insured for the same amount. The telegraph instrument at Shubenacadie station was injured. Electrical flashes from it caught the blind near by, which was burned without, however, igniting the building. Eighteen telephone instruments in Shubenacadie were burned out.

To Consider Price of Hair Cuts.

OTTAWA, July 10.—At a recent meeting of the Ottawa barbers there was an agitation to have the price of hair cutting raised from fifteen to twenty-five cents. It was pointed out that advances had been made in Montreal, Toronto, Hamilton and other places. A committee was appointed to interview the boss barbers in the matter, and a mass-meeting of bosses and men will be held next Sunday afternoon, in the Canadian Institute Building.

Hanna Is Trying to Settle the Coal Strike

(Special to the Montreal Star.)

POTTSVILLE, Pa., July 10.—According to Congressman Patterson, of this district, Senator Hanna told him negotiations are in progress that possibly will lead to an early settlement of the coal strike. Mr. Patterson spent part of yesterday in conference with the Senator regarding plans for a settlement. When questioned as to the manner in which it was to be brought about Senator Hanna refused to give particulars. As this Congressional district is largely composed of anthracite miners, Mr. Patterson asked for some assurance that the settlement would not be derogatory to the interests of the miners. He was given to understand the terms would likely be highly satisfactory to the united mine workers.

NANTICOKE, Pa., July 10.—President Mitchell, of the United Mine Workers, came here from Wilkesbarre yesterday and addressed the delegates of District No. 1, now in annual convention. He was received with much enthusiasm. In his address he ridiculed the rumours that the operators were about to start up collieries, scored the Citizens' Alliance organizations of Scranton and Wilkesbarre, and concluded as follows: "In all my experience in the labour movement, I have never participated in a strike in which I felt so confident of success. If our membership will stand, as I know they will, we shall in the not distant future achieve a victory and shall settle for all time the right of the coal miners to receive for honest labour and unremitting toil at least a sufficient wage to enable them to live, maintain and educate their families and enjoy a few of the pleasures of civilization."

FRENCH ELECTION TRIALS.

Count Jean de Castellane Loses His Seat.

PARIS, July 10.—The Chamber of Deputies yesterday, by a vote of 307 to 224, invalidated the election of Count Jean de Castellane, a brother of Count Boni de Castellane, at St. Flour, Department of Cantal. Chas. Bos, Radical Socialist, opposed the validation. He said the arrival of Count Jean at St. Flour, was signalized by a rain of gold. Sums of from five thousand francs to ten thousand francs were given to electors. Bands of men also organized to disturb or prevent the meetings of supporters of the Count's opponents.

Count Jean admitted various liberalities, but declared his opponents did the same. He denied the charge of accepting clerical interference.

The invalidation of the election of Count Jean is interesting, because the elections of his brothers Boni and Stanislas were also hotly contested on similar charges, and the Chamber may possibly invalidate them.

Canadian Patriotic Fund.

(Special to the Montreal Star.)

OTTAWA, July 10.— The Canadian Patriotic Fund Association have received a further grant of £300 from the British Empire League headquarters in London, in aid of the widows and orphans of members of the Canadian South African contingents, and of men incapacitated through wounds sustained in the late war.

The Alleged Tobacco Combine.

OTTAWA, July 10. — Judge McTavish, of Ottawa, sets out next month on his enquiry into the existence of an alleged combine in the tobacco trade in Canada. Evidence will be taken and his report laid before the Governor-in-council, which has the power to apply a remedy if the complaints preferred are found to be true.

A YORK FARMER SWINDLED

By Men Who Represent Themselves as Sir Wm. Mulock's Nephews.

TORONTO, Ont., July 10.—One of the most heartless of recent "confidence" swindles has just come to light, involving the loss of the savings of a lifetime. Silas Toole is an old and respected farmer of Whitechurch township, York county. A week ago he was visited at his farm by a couple of well-dressed city-looking men, who said they were nephews of Sir William Mulock, the Postmaster-General and M.P. for North York. They were looking around for farms for investment, and Toole's farm had so favourably impressed them that they were willing to pay $10,000 for it. A bargain was struck, and the young men said they would return in a few days to make the transfer. They asked that in the meantime Toole keep careful watch over a satchel they would leave with him containing the purchase money. Toole said he would, and after showing him what looked like a large roll of bills, they locked the bag and handed it over to him. Late the same day they called again, and said they had made a bargain to buy the farm of Joshua Wilson, nearby, for $5,000. They had not the price with them, however, and asked Toole to advance the money till they got back to the city. The poor old man, thinking he had $10,000 of their money in his keeping, actually went to Newmarket, drew out $5,000, and handed the money over to the rogues.

Three days ago, hearing nothing from them, he opened the satchel left in his care, and found that he had been swindled out of a lifetime's savings. He came to the city yesterday and gave Inspector Stark a description of the men. It has as yet afforded no clue to their identity.

Austrian Prince on Trial.

LONDON, July 10. — Hearing of the charges brought against Prince Francis Joseph of Braganza, who was a member of the Austro-Hungarian Mission to the Coronation of King Edward, and other men were resumed in the Southwark Police Court on Wednesday and attracted much attention. Sir Edward Clarke, the former solicitor-general, defended the Prince.

The prosecutor altered the charge from "Felony" to "Misconduct under the criminal law amendment." Sir Edward intimated that the defense would be conspiracy to rob and blackmail.

The Isthmian Canal.

WASHINGTON, D.C., July 10. — Final negotiations for the conclusion of a definite treaty between the United States and Colombia, which is to authorize the construction of the Panama Canal, began at the State Department yesterday, at a meeting between Secretary Hay and Mr. Cromwell, representing the Panama Canal Company and the Colombian Legation here.

(ROBBERY UNDER ARMS.)

THE MARSTON BOYS BACK AT HOME AGAIN

Welcomed by "Dad" and Warrigal, as Well as by Aileen.

DARING PLAN SUCCEEDS

Starlight Gives Them All a Surprise Before They Start for the Hollow.

(By Rolf Boldrewood.)

CHAPTER XXI.

Daylight broke when we were close up to the Black Range, safe enough, a little off the line, but nothing to signify. Then we hit off the track and led over the Gap and down into a little flat on a creek that ran the same way as ours did.

Jim had managed for father and Warrigal to meet us somewhere near here with fresh horses. There was an old shepherd's hut that stood by itself almost covered with marsh-mallows and nettles. As we came down the steep track a dog came up sniffing and searching about the grass and stones as if he'd lost something. It was Crib.

"Now we're getting home, Jim," says Starlight. "It's quite a treat to see the old scamp again. Well, old man," he says to the dog, "how's all getting on at the Hollow?" The dog came right up to Rainbow and rubbed against his fetlock, and jumped up two or three times to see if he could touch his rider. He was almost going to bark, he seemed that glad to see him and us.

Dad was sitting on a log by the hut smoking, just the same as he was before he left us last time. He was holding two fresh horses, and we were not sorry to see them. Horses are horses, and there wasn't much left in our two. We must have ridden a good eighty miles that night, and it was as bad as a hundred by daylight.

Father came a step towards us as we jumped off. By George, I was that stiff with the long ride and the cold that I nearly fell down. He'd got a bit of a fire, so we lit our pipes and had a comfortable smoke.

"Well, Dick, you're back again, I see," he says, pretty pleasant for him. "Glad to see you, Captain, once more. It's been lonesome work—nobody but me and Jim and Warrigal, that's like a bear with a sore head half his time. I'd a mind to roll into him once or twice, and I should, too, only for his being your property like."

"Thank you, Ben. I'll knock his head off myself as soon as we get settled a bit, Warrigal's not a bad boy, but a good deal like a Rocky Mountain mule; he's no good unless he's knocked down about once a month or so, only he doesn't like any one but me to do it."

"You'll see him about a mile on," says father. "He told me he'd be behind the big rock where the tree grows—on the left of the road. He said he'd get you a fresh horse, so as he could take Rainbow back to the Hollow the long way round."

Sure enough after we'd just got well on the road again, Warrigal comes quietly out from behind a big granite boulder and shows himself. He was riding Bilban, and leading a well-bred, good-looking chestnut. He was one of the young ones out of the Hollow. He's broken him and got him quiet. I remember when I was there first spotting him as a yearling. I knew the blaze down his face and his three white legs.

WARRIGAL'S WELCOME.

Warrigal jumps off Bilbah and throws down the bridle. Then he leads the chestnut up to where Starlight was standing smoking, throws himself down at his feet, bursting out crying like a child. He was just like a dog that had found his master again. He kept looking up at Starlight just like a dog does, and smiling and going on just as if he never expected to see such a good thing again as long as he lived.

"Well, Warrigal," says Starlight, very careless like, "so you've brought me a horse, I see. You've been a very good boy. Take Rainbow round the long way into the Hollow. Look after him, whatever you do, or I'll murder you. Not that he's done, or anything near it; but had enough for one ride, poor old man. Off with you!" He changed the saddle, and Warrigal hopped on to Bilbah, and led off Rainbow, who tossed his head and trotted away as if he'd lots to spare, and hadn't had twelve hours under saddle; best part without a halt or a bait. I've seen a few good un's in my time, but I never saw the horse that was a patch on Rainbow, take him all round.

We pushed on again, then, for ten miles and somewhere about 8 o'clock we pulled up at home — at home. Aileen knew we were coming, and ran out to meet us. She threw her arms round me, and kissed and cried over me for ever so long before she took any notice of Starlight, who'd got down and was looking another way. "Oh! my boy, my boy," she said, "I never thought to see you again for years. How thin you've got and pale, and strange looking. You're not like your old self at all. But you're in the bush again now, by God's blessing. We must hide you better next time. I declare I begin to feel quite wicked, and as if I could fight the police myself."

Genuine Castoria always bears the Signature of Chas. H. Fletcher.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

"Well spoken, Miss Marston," said Starlight, just lifting his hat and making a bit of a bow like, just as if she was a real lady; but he was the same to all women. He treated them all alike with the same respect of manner as if they were duchesses; young or old, gentle or simple—it made no odds to him. "We must have your assistance if we're to do any good. Though whether it wouldn't be more prudent on your part to cut us all dead, beginning with your father, I shouldn't like to say."

Aileen looked at him, surprised and angry like for a second. Then she says—

"Captain Starlight, it's too late now; but words can never tell how I hate and despise the whole thing. My love for Dick got the better of my reason for a bit, but I could—Why, how pale you look!"

STARLIGHT'S SURPRISE.

He was growing pale and no mistake. He had been ill for a bit before he left Berrima, though he wouldn't give in, and the ride was rather too much for him, I suppose. Anyhow, down he tumbles in a dead faint. Aileen rushed over and lifted up his head. I got some water and dabbled it over him. After a bit he came to. He raises himself on his elbows and looks at Aileen. Then he smiles quietly and says—

"I'm quite ashamed of myself. I'm growing as delicate as a young lady. I hope I haven't given you much trouble."

When he got up and walked to the verandah he quite staggered, showing he was that weak as he could hardly walk without help.

"I shall be all right," he said, "after a week's riding again."

"And where are you going when you leave this place?" she asked. "Surely you and my brothers never can live in New South Wales after all that has passed."

"We must try at all events, Miss Marston," Starlight answered, raising up his head and looking proud. "You will hear something of us before long."

We made out that there was no great chance of our being run into at the old place. Father went on first with Crib. He was sure to give warning in some way, best known to father himself, if there was any one about that wasn't the right sort. So we went up and went in.

Mother was inside. I thought it was queer that she didn't come outside. She was always quick enough about that when we came home before, day or night. When I went in I could see, when she got up from her chair, that she was weak, and looked as if she's been ill. She looked so much older, and her hair was a lot grayer than it used to be.

She held out her arms and clung round my neck as if I'd been raised from the dead. So I was in a kind of a way. But she didn't say much, or ask what I was going to do next. Poor soul! she knew it couldn't be much good anyway; and that if we were hunted before, we'd be worse hunted now. Those that hadn't heard of our little game with the Momberah cattle would hear of our getting out of Berrima Gaol, which wasn't done every day.

We hadn't a deal of time to spare, because we meant to start off for the Hollow that afternoon, and get there some time in the night, even if it was late. Jim and dad knew the way in almost blindfold. Once we got there, we could sleep for a week if we liked, and take it easy all roads. So father told mother and Aileen straight that we'd come for a good comfortable meal and a rest, and we must be off again.

AILEEN'S USELESS PLEA.

"Oh! father, can't Dick and Jim stop for a day?" cries out Aileen. "It does seem so hard when we haven't seen Dick for such a while; and he shut up too all the time."

"D'ye want to have us all took the same as last time?" growls father. "Women's never contented as I can see. For two pins I wouldn't have brought them this way at all. I don't want to be making roads from this old crib to the Hollow, only I thought you'd like one look at Dick."

"We must do what's best, of course," said poor Aileen; "but it's hard—very hard on us. It's mother I'm thinking of, you know. If you knew how she always wakes up in the night, and calls for Dick, and cries when she wakes up, you'd try to comfort her a bit more, father."

"Comfort her!" says dad; "why, what can I do? Don't I tell you if we stay about here we're shopped as safe as anything ever was? Will that comfort her, or you either? We're safe to-day because I've got telegraphs on the outside that the police can't pass without ringing the bell—in a way of speaking. But you see, to-morrow there'll be more than one lot here, and I want to be clean away before they come."

"You know best," says Aileen; "but suppose they come here to-morrow morning at daylight, as they did last time, and bring a black tracker with them, won't he be able to follow up your track when you go away to-night?"

"No, he won't; for this reason, we shall all ride different ways as soon as we leave here. A good while before we get near the place where we all meet we shall find Warrigal on the look-out. He can take the Captain in by another track, and there'll be only Jim and I and the old dog, the only three persons that'll go in the near way."

"And when shall we see—see—any of you again?"

"Somewhere about a month, I suppose, if we've luck. There's a deal belongs to that. You'd better go and see what there is for us to eat. We've a long way and a rough way to go before we get to the Hollow."

Aileen was off at this, and then she set to work and laid a clean tablecloth in the sitting-room and set us down our meal—breakfast, or whatever it was. It wasn't so bad—corned beef, first-rate potatoes, fresh damper, milk, butter, eggs. Tea, of course, it's the great drink in the bush; and although some doctors say it's no good, what would bushmen do without it?

We had no intention of stopping the whole night, though we were tempted to do so — to have one night's rest in the old place where we used to sleep so sound before. It was no good thinking of anything of that kind, anyhow, for a good while to come. What we'd got to do was to look out sharp and not be caught simple again like we was both last time.

(To be continued.)

Cruelty in the Philippines.

MANILA, July 10.—General Chaffee has ordered Lieut. Edwin A. Hickman, of the First Cavalry, to Manila for trial by Court Martial, on the charge of alleged cruelty to natives of Tayabas Province. The charges arise from the Gardener inquiry. It is alleged that Hickman ducked two natives in a stream in order to obtain information. He is further charged with having ducked a third native who died from the maltreatment.

Stromberg Took Poison.

NEW YORK, July 10—A death certificate filed yesterday by Dr. G. H. Hammond, who was the physician in attendance on John H. Stromberg, late leader of the Weber & Fields' Theatre orchestra, showed that the musician died of poison, self administered. Stromberg had suffered intensely from rheumatism, and being unable to obtain relief he took Paris green last Saturday night.

THURSDAY, JULY 10, 1902.

The Star at Summer Resorts.

The Star is mailed to any address in Canada or the United States direct from the office of publication for any period desired at city rates.

Orders for the Star by the week, fortnight, month or year may be left at either the head office, St. James street, or at the branch office, corner Peel and St. Catherine.

Cash must accompany all mail orders. No extra charge for postage. tf

THE STREET RAILWAY AND ITS EMPLOYES.

The Montreal Street Railway Company has set a good example by giving its motormen and conductors a substantial increase in wages without waiting to be asked, much less to be forced by a strike. The company is fortunate in being in a position to make this concession to its employes without doing any injustice to its shareholders. It is earning handsome dividends, and can afford to treat its servants handsomely.

MORGAN'S "BRITISH SHIPS."

Mr. Morgan offers to place all his "British ships" at the disposal of the Admiralty. There is only one possible objection to this; and that is—can Mr. Morgan have any "British ships"? What is a British ship if it is not a British-owned ship? How can an American citizen own British-owned ships?

This looks clear enough; but it is really not as simple as this. What Mr. Morgan probably means by "British ships" are ships owned by a British company, the shares of which are to be bought by the Morgan Combine, when it is formed. But it will remain a British company, registered in Britain. Now there is no law against foreigners buying shares in a British company; and, even if they get all the shares, the company does not cease to be technically British.

But would the ships of such a British company, the shares of which were owned in the United States, be British enough to be worth subsidizing as auxiliary cruisers? This is the question which the Admiralty has to decide.

MUST HAVE A CIVIC HOSPITAL.

The City Council will fatally mistake public sentiment if they imagine that by refusing to vote money to begin the erection of the Contagious Diseases Hospital they have comfortably shelved that question for an indefinite period. They have only pointedly called attention to the fact that nothing is being done toward carrying out a definite pledge to perform promptly a work of absolute public necessity.

Without that vote, the public might have imagined that steps of some kind were being taken. Now it is well advertised that things are at a standstill; and that Montreal has practically no provision for the treatment of contagious diseases.

That a city of this size can go in this way is too absurd for any one to pretend. We must have a contagious diseases hospital of some kind, in some place — and at once. No one will begrudge the money required for such a purpose, and no one will believe that the financial side of the question can be any real bar to action. It is a work of emergency, and extraordinary steps may be taken, if necessary, to get the money for it.

If this matter is dilly-dallied with until an epidemic finds us without a hospital, and the citizens get into a natural panic over the perilous and inexcusable situation, the position occupied by the men responsible for this state of affairs will hardly be enviable. The people will stand a good deal in the way of humbugging; but when it brings death in the streets and leaves us defenceless against a flood of infectious disease, they are apt to grow impatient, and go out and look for victims.

One epidemic, spreading through the city because there is no contagious diseases hospital, will drive out of public life every man remotely responsible for this state of things. If the aldermen are well-advised, they will get together and decide upon a forward policy without further delay.

MILNER AND THE CAPE CONSTITUTION.

Those who see the end of Milner in the decision of the British Government to try constitutional Government in Cape Colony before resorting to harsher measures, fail to understand the situation. What Lord Milner said was that the suspension of the constitution would bring to the Cape a desirable cessation from political strife during which the work of re-building the fabric of law and order would be easier than if the party warfare still went on. And there is no evidence that anybody disputes this.

The position of the British Government is that the suspension of a free constitution is so serious a thing that it will risk the friction and dangers of political turmoil rather than take this ominous step. It, no doubt, expects to pay a price for its devotion to constitutionalism; but it is prepared to do so, rather than permit any of the other colonies to imagine that their charters of liberty are held lightly at Westminster. In the interests of self-government, it is to be hoped that the price will be a small one.

But Lord Milner's opinion was, doubtless, an honest one; and was given, be it remembered, before things were as tranquil as they are now. He was thinking more of the re-establishment of British supremacy than of making the constitution a sacred thing in the eyes of the colonists; but he was in an atmosphere of war, while the British Ministers deliberated with the echoes of Boer shouts of loyalty in their ears. Milner's reputation is yet to be made or marred. He will be known as the master architect or as the master blunderer in the reconstruction of South Africa.

CAN EDUCATION BE AN EVIL?

If there is anything the modern world as a whole believes in it is education. Nevertheless, we now and then hear or see doubts expressed as to whether education is a benefit in every case. Not long ago we saw a well-written letter addressed to a New York paper by a clergyman who has grave doubts whether the general tendency of university education at the present time is not to undermine Christian faith. In a matter of this kind the broadest view we can take is the safest and most satisfactory. As to the effects of university education that is a question which presents very different aspects according to the particular university we have in view. It is for parents to choose the university at which they think their sons or daughters will come under the best intellectual and moral influences. We do not see what more can be done. University education, however, is for the few; public school education is for the many, and it is there that we may best study the effect of education. Education in the public schools consists in giving to children certain means of intellectual action which they would not otherwise have had. Reading is a means of intellectual action—an artificial means; so is a knowledge of figures; so is the ability to write. The child who acquires these has so much added power, and sees a wider field open for its activity. The boy who can read and write, and add up and multiply figures, can take a situation that he could not otherwise have taken. He feels, or may feel, also that society has not neglected him, that, so far as education is concerned, it has given him a chance. That may incline him to more hopeful views and may give him a healthy self-respect. If it does, then certainly his education has benefited him. But what it is most necessary to recognize is that added power does not always tend to moralize its possessor. A boy learns to read. What will he read? If nothing has been done to educate his taste, or inspire him with right principles, he may turn this acquired faculty to the most inferior purposes, and have his mind filled with unwholesome and perverted ideas. Or the calculations he is able to make by means of his knowledge of arithmetic may only serve to keep before his mind the idea of gain, quite dissociated from any purpose of steady industry by which gain may be realized. He can write: that gift, too, can be turned to very undesirable ends. There is an outlet for it in the vile anonymous letter; there is another, though more dangerous, outlet in forgery. We see at once that the great question is: how is the power gained by education going to be employed? If it is going to be employed for good, then education is a good; if it is going to be employed for evil then is education, in that particular case, an evil. Considering the matter in this light we see how important it is that, in bestowing the engines of power, we should try at the same time to impart a disposition and desire to use them for good ends, in other words that we should try to do something for the character as well as for the intellect. If this is neglected there is only one other reinforcement left for the moral nature; and that is the general moral tone of the society into which a boy steps when he leaves school. Is that always a reinforcement of the moral nature? It may be in the main and in the long run; but a boy may see much evil, much fraud, much wrong before he has had an opportunity to see the sounder aspects of social and commercial life. On the whole education should be, and is, a great benefit; but it is well to bear in mind how it may be perverted; so that in connection with the imparting of knowledge every influence may be brought to bear that is in any way within the disposal of teachers, to incline the youthful heart to choose wisdom's and not folly's ways.

LORD SALISBURY AND THE UNITED STATES.

Rumours are renewed of the early retirement of Lord Salisbury from the British Premiership; and it is impossible, in view of his Lordship's advanced age, to entirely discredit them. It can only be hoped that his health will be such that the date of his necessary withdrawal will be long delayed.

The impress that Lord Salisbury will leave upon the foreign policy of the Empire, will be very deep; and different parts of the world will date striking changes in their condition from his regime. We here in Canada will remember him chiefly, in all probability, as the Minister who brought about an entire change in attitude toward our big neighbour, the United States. It is not so very long ago that loyalty to Britain seemed to be in some way closely related to hostility to the Republic; and it is largely the work of this one man that this same loyalty to-day well-nigh outruns Canadian self-interest and neighbourly good-will in friendship toward the Americans.

This is no small task; and it has not been the achievement of a small man. To begin with, no man would essay it who was not large enough to overlook the exceedingly annoying attitude of the Americans toward the British Empire at a time when they had no foreign responsibilities to steady their outlook on international questions. Secure within their ring-fence, self-sufficient, they permitted passing passions to dominate their diplomacy, and wrote Presidential messages to foreign powers with an eye single to domestic politics. One British Ambassador was sent home because he allowed himself to be made the victim of a despicable trick: and President Cleveland wrote a Venezuelan message which would have spelled war if sent from any other first class capital in the world.

But the Titan in the Foreign Office endured all this. He would not be even a remote accomplice in so black a crime against civilization as a war between the two great English-speaking peoples. A more truculent attitude would have been immensely popular. He could have played at politics as well as Grover Cleveland. But he was the pilot of a great ship, on which so many of the hopes of humanity are embarked; and he quietly held his course.

When the Spanish war came, and the Americans discovered that they, too, were living in the world; the clear vision of Lord Salisbury who had long seen the essential community of interests between the two countries, was recognized in a glad enough spirit at Washington. From that day to this—in China, in Manchuria, in the whole Pacific world—both peoples have been seeing plainly enough what he saw from the first; and similarity of interests binds them together in certain contingencies with a force which some loudly-advertised alliances might envy.

What this will all mean for Canada is yet to be written. The hostile American tariff, compiled in the old foolish days of open antagonism, is still in force; but a better spirit is gaining strength in New England and the West and the seed of Lord Salisbury's sowing may yet bear a harvest of improved trade relations. In any case, the neighbourly feeling is increased; and one mighty force—our loyalty to Britain, and American sentiment toward her—no longer tends to separate, but rather to bring together. Whatever may be the result, Lord Salisbury has given a new direction to patriotic sentiment on this continent. Patriotism in the United States does not now prove itself by "twisting the lion's tail"; and patriotism here does not delight in pulling feathers from the tail of the eagle.

And one man could not well do more at a stroke toward clearing the path for the march of human progress.

That was a significant remark of the Duke of Devonshire that consideration must be given to the question whether the colonial forces are to be so organized as to make the present Empire inviolate, or if the colonies are to become independent States, providing for their own security. It looks as if the time when we could "dead-head" our way through the international dangers of this greedy world was about past. The patient British tax-payer shows signs of being tired of putting up ships and soldiers for us; and we may soon have to decide whether we will provide our own fleet and army, or contribute fairly to the defences of the Empire.

The report that Russia had practically evacuated Manchuria, when no one was looking, seems to have been premature. In fact, the evacuation has not even begun. There is little reason for the world to fear that it will be dangerously shocked some fine morning by finding Russia entirely out of Manchuria. The Bear will give adequate notice before he drops any choice morsel he has picked up.

The amazing news comes from Venezuela that the Government are going to attack the rebels, if they do not change their minds before next Sunday. If they are not careful they will make the South American national game of revolution unpopular down there; and then the world may forget that there is a Southern appendage to this continent.

Hon. Webster Davis, in the United States, and a small contingent in England are the only Boers who have not yet surrendered. Mr. Davis is pouring his silvery eloquence into the cause, and the English Boers are still calling for golden collections. To the world in general the name of these remnants is now spelt "b-o-r-e."

Carbon and gold have been found by the coal trust to make a very useful combination, but the people of the United States are beginning to find that they will have to effect a separation or the combination will absorb all the rest of the gold it comes in contact with.

We trust Mr. Roosevelt may succeed in breaking up the coal trust that small coals may be cheaper by the time summer goes out.

A DAILY HINT FROM PARIS.

Tan pongee gown with double skirt and waist in a jacket effect with collar of Irish lace.

THIS DATE 30 YEARS AGO.

(From the Star files for July, 1872.)

Montreal thermometer, max. 89, min. 77.

Kidnapping in Mexico is now of common occurrence. In one instance the brigands demand a ransom of $60,000.

The Harp and Beaver Lacrosse Clubs play a match at Point St. Charles, the Harps taking three straight games.

It is reported now that Stanley did not tell all he knew, and that Dr. Livingstone is married to an African Princess and does not want to return.

Rev. G. M. Grant obtains leave of absence from his congregation at St. Matthew's, Halifax, N.S., to make a tour to the Pacific Coast, accompanied by Sandford Fleming.

A company of wealthy Bostonians have purchased the iron mines at Clementsport, N.S., and will commence work as soon as repairs are made to buildings and machinery.

Appointments This Evening.

PROCTOR'S—"Lord Chumley."
THEATRE FRANCAIS—"Held by the Enemy."
SOHMER PARK—Ballet and Vaudeville.

THE PASSING HOUR.

The principle of taxing everything in sight naturally brings in wooden awnings put up especially to attract attention.

Guessing at the date of the Coronation ought to be proceeded against under the anti-lottery law.

The late Cecil Rhodes's little geographical mistake to the effect that Canada consists of two provinces only, is to be corrected by his executors. This is precisely in line with the spirit of the man. He had a soul always above details; but he was too good an Imperialist to designedly leave out of his scheme a large part of the Canadian Dominion.

The American invasion has got as far as Smithfield Market. People have gone to Smithfield before, and been sorry for it.

What will the tail-twisters say when they hear of an American Presidential boom being launched at a London dinner?

Adults pronounce cynical judgment upon themselves when they take it at once for granted that the phrase "slaughter of the innocents" refers to the death of infants.

That Canadian arch on Whitehall will win a reputation as a lightning change artist, and we shall hear of it soon being engaged at one of the London music halls.

One thing the Henley regatta needs is to be moved some place where there is water. To read that race after race is lost because one of the competitors had the difficult side of the course, excites wonder that they do not row where both sides of the course would be equally good.

The report that the press would all wear real Panamas in their baseball match with the Proctorians this afternoon was incorrect. It arose out of a suggestion that in view of the weather their costume be "pyjamas and hats."

THE MAIN POINT.

He—"What is the subject of your graduation essay?"
She—"I haven't thought about it yet, but my dress is to be the loveliest lilac organdie you ever saw."

A RURAL LACONIC.

A gazing bull;
A meadow full
Of buttercups and clover;
A city chap
With gory wrap
The fenceway getting over.

A stamp! A snort!
A yelp! A sort
Of detonating bellow;
An upward flight,
A downward light,
A carcase sadly mellow.

A jury then
Of countrymen,
The local death-appraiser,
The 'quest proceeds,
The verdict reads—
"He wore a tennis-blazer."

Never put off till to-morrow the creditor who will wait till next week.

STRICT CONSTRUCTIONIST.

"What was the cause of that awful racket in your office just before you came?" asked one of the tenants on the third floor.

"You know that young cowboy that came yesterday to begin the study of law with me?" said the other.

"Yes."

"Well, I thought he might as well begin at the bottom, and I told him that when he came down this morning the first thing for him to do would be to clean out the office. He found half a dozen fellows there waiting for me, but he did it all right."—Chicago Tribune.

The average man is as awkward at love making as he is at cutting fresh bread.

DIDN'T CATCH KITCHENER.

Saturday week, when some of us expected the peace settlement, a worthy dean — a most reverend gentleman—possibly slyly thought he could steal a march on Lord Kitchener. He telegraphed from the Orange River Colony, saying: "As I am acting as chaplain and conducting Divine service in very many camps to-morrow, may I ask if the hymn "Peace, Perfect Peace" would not be a most appropriate one to give out to be sung?" And the great "K." wired reply. "Please yourself; but I think 'Onward, Christian Soldiers' quite as good."—London Globe.

The less some men know about a given subject the more they try to show off.

IN SELF-DEFENCE.

"Jerry," said Flaherty, "why is it ye're gittin' so proud since ye're gittin' a bit of money ahead?"

"Me b'y, 'tis loike that wid all th' rich," said Jerry. "'Tis a measure of protiction ag'in me poor relations."

A woman has no business in politics until she can throw mud straight.

COULDN'T HELP IT.

"Did you ever take an oath?" asked the judge.

"Wance only, Y'ur Honour," replied the witness. "Big Moike shwore at me from the top av a sivin-shtory buildin', an' I couldn't l'ave me team t' git at him—so I had t' tahke it."

When a sculptor makes a cast he is either fishing for fame or money.

ONE EXCEPTION.

Mrs. Wickler—"Did you ever see how all the necessaries of life have gone up?"
Wickler—"No, they haven't all gone up."
"Well, I should like to have you mention one thing that hasn't gone up."
"Certainly. My salary."

Some men are known by the brand of cigars they smoke and some by the brand they work off on their friends.

NARROW-MINDED.

"I know one man," said he of the bulging brows, "who has such a narrow mind that a decent-sized, worth-while thought would batter itself unconscious against the sides if it ever tried to get through."

Better eat stale bread than be ill-bred.

Professional bouncers nearly always turn out well.

TOO MUCH.

Mamma—"Have you washed your face, Johnny?"
Johnny—"Yes'm."
Mamma—"And your hands?"
Johnny—"Yes'm."
Mamma—"And your neck?"
Johnny— "Aw, see here, ma, I ain't a angel."

Nobody is above suspicion when a jealous woman is around.

HAD SPECULATED.

Lucas—"Did youse ever speckalate on Wall street?"
Timothy—"Yes, I uster stand around the Stock Exchange an' wonder where my next meal wuz comin' from."—Ohio State Journal.

"Jabez is gettin' used to public speakin', ain't he?"
"Oh, yes. I remember when you could hardly get him to stand up, an' now you can hardly get him to sit down."

The Costume Sale

Everybody is talking about it. Women of taste are attracted by such an extraordinary event—the prettiest costumes in Montreal at little more than half Novi-Modi prices and far less than half any tailor could duplicate them for. Buy this week for Fall. Buy this week for travelling and staying at home.

All $20 to $30 Costumes, now $15.
All $30 to $50 Costumes, now $25.
Most of the latter are silk lined throughout.
All carry our guarantee.

Novi-modi Wardrobe
2364 St. Catherine Street, West.

PUBLIC OPINION

As Represented by the Political Papers.

CANADA'S TRADE ROUTE.
(Toronto Mail and Empire.)

It is a standing reproach to this country that so large a proportion of its traffic with Great Britain continues to pass through New York, Boston and Portland, instead of through its own Atlantic ports. There are two reasons for this: First, the unsatisfactory state of the St. Lawrence channel; second, the want of a fast steamship service. Because something has been left undone to facilitate navigation on the great Canadian river, the marine insurance companies discriminate sharply against it. It has always seemed doubtful that the greater risks of the route were the sole motive for the higher rates of the underwriters, and there is a suspicion that the intrigues of American railway and terminal interests had something to do with it. It is certain, however, that the St. Lawrence could be made safer by improvements than it is in the Government's power to bring about. Something is being done, we are glad to say, for reducing the difficulties of navigation and for bringing the route into favour. By removing obstructions in the channel between Montreal and Quebec, by better lighting and marking the course below Quebec, and by making the pilot service more efficient, the Government can leave the insurance companies without the shadow of a reason for blacklisting our ports.

THE ONTARIO SITUATION.
(Toronto Telegram—Ind.)

Lennox goes Conservative and North Grey remains Liberal as a result of the decisions at Osgoode Hall.

These decisions close the controversy as to the votes polled in the last election, and leave the parties standing as follows:

Conservatives .. .. 48 seats
Liberals .. .. 49 seats
(North Renfrew vacant, 50 seats.)

Assuming that North Renfrew will go Liberal, the best that Hon. G. W. Ross can do on the face of the returns is to meet the House with a majority of two. The election of a Speaker will reduce this majority to one. A Government cannot remain either in office or power with a majority of one in a House of ninety-eight members. But if Hon. G. W. Ross cannot keep office with a majority of one in his favour, how is J. P. Whitney to gain office with a majority of one against him?

THE CORONATION CONTINGENT.
(St. John Globe—Lib.)

There is a lot of grumbling among the Canadians, or among some of them, sent to England as a Coronation contingent. This may or may not be well founded, but it does not sound or read pleasantly. Apparently there is what some of the Canadians consider neglect, and apparently there is jealousy among them. Just what the contingent was sent over for is not very clear, but in all probability it was to do honour in some way to the King. When men of high title and noble blood willingly carry His Majesty's hat and his gloves, and young noblemen in whose veins are the blood of a hundred kings have to hold up his train, loyal and patriotic Canadians need not trail their coats in the dust for some one to stand upon them in order to get up a fight over the trifling difference between marching the streets and lining them.

LEECHING.
(Ottawa Journal—Ind.)

A grown up man who, though able to earn his living, and actually making money, sponges on his relatives for free lodging or free privileges of any kind, is not considered a nice kind of a man, even though the relative he may sponge on at any time does not appear to be put to extra expense Such a relative, having a house and household to maintain need not and does not make his house any bigger to lodge the human leech, any more than Britain may appear to enlarge her navy or consular service to protect or benefit Canada. But the leech is none the less contemptible on that account. What Canada takes as a matter of business she should pay for, like any honest and self-respecting person.

OUR AMERICAN IMMIGRANTS.
(Chicago Record-Herald.)

Statistics were published in these columns recently which proved that about 18,000 Americans had left this country in 1901 to settle in Canada. The figures were surprising for two reasons. In the first place the United States is known as the greatest immigrant absorber in the world, and is hardly known at all as a contributor to the immigration of other countries. In the second place, as a factor in the general tendency thus indicated, there has been a very large influx of Canadians into several parts of our territory, which would hardly persuade Americans that they had much to gain by trekking across the border. But the figures are indisputable, and they are satisfactorily explained in an interview with Sir Thomas Shaughnessy, president of the Canadian Pacific Railway. He says that a great number of the new settlers in the Canadian North-West who have come from the United States are returning Canadians. Given the fair prospects which he describes, such a returning current would be perfectly natural. Few Canadians have any fault to find with their government. Those who emigrate to this country do so, believing that there are greater business opportunities here. A strong sentiment still attaches them to the land of their old homes, and many of them would yield to it if Canada had new opportunities to offer. Their immigration would thus be easily intelligible, while that of native Americans would remain something of a puzzle.

An Enjoyable Trip.

People intending to spend a day out of town should go to "Peloquin's" Hotel, at Ahuntsic, situated at Back River. It is about six miles distance from Montreal, and you can get there by electric cars or the roads are excellent for walking or driving. Arriving at "Peloquin's," you find yourself in a cheery, comfortable hotel, surrounded by large picnic grounds and beautiful gardens.

The bracing air of Ahuntsic makes you ready to enjoy the appetizing meals for which our restaurant has long been noted. The rooms of Peloquin's are large and airy, and for any one wishing to spend the summer in the country no place on the Island of Montreal possesses greater attractions.

Mr. J. B. Peloquin would be pleased to give any further particulars.
P. O. address, Ahuntsic, Que.

and the largest assortment of Spoons, Forks, etc, can be selected in this reliable brand. Equal in design and finish to sterling silver at one-fourth to one-eighth the cost. Remember "1847" the "Silver Plate That Wears," the standard of quality for 50 years.
Made only by MERIDEN BRITANNIA CO.
Sold by leading dealers everywhere. 161 1

A SKIN OF BEAUTY IS A JOY FOREVER
Dr. T. Felix Gouraud's Oriental Cream, or Magical Beautifier

PURIFIES as well as Beautifies the Skin. No other cosmetic will do it.

Removes Tan, Pimples, Freckles, Moth Patches, Rash and Skin Diseases and every blemish on beauty, and defies detection. It has stood the test of 54 years, and is so harmless we taste it to be sure it is properly made. Accept no counterfeit of similar name. Dr. L. A. Sayre said to a lady of the haut-ton (a patient): As you ladies will use them, I recommend "Gouraud's Cream" as the least harmful of all the skin preparations. For sale by all Druggists and Fancy Goods Dealers in the U.S., Canada and Europe.

FRED. T. HOPKINS, Prop'r, 37 Great Jones St., N. Y. 63 156eod

MEETINGS AND SOCIETIES.

In the Labour World.

THE BOOKBINDERS.—There were 104 unions represented at the convention of the Brotherhood of Bookbinders. Montreal was not one of them.

THE FEDERATION OF LABOUR.—The per capita tax returns for the month of April show that the American Federation of Labour has 1,100,000 members.

A LABOUR MAYOR.—The mayor of Watertown, N.Y., is an honorary member of Typographical Union, No. 308. He worked at the business a few years ago.

THE BAKERS.—The regular monthly meeting of the Amalgamated Bakers' Union will be held on Saturday afternoon, in the Empire Hall, corner St. Catherine and St. Lawrence streets, when a question of interest to the trade will be discussed.

FIRST ANNUAL PICNIC.—The Printing Pressmen and allied trades have completed arrangements for their picnic, which is to be held at Isle Gros Bois on Saturday. There will be fishing, boating and dancing for those who enjoy them, and games of all kinds, with liberal prizes, will also be held.

THE LABOUR DAY PRIZE.—The Iron Moulders' Union will adopt an entirely new uniform for this year's street parade, and the business agent, Mr. Alex. Mitchell, expects his union to win the prize offered by the Federated Trades and Labour Council for the largest and best disciplined body of men in the procession, while on the other hand, the plumbers, printers, carpenters, plasterers, painters and decorators, boilermakers, brass-workers, electrical workers, and several other large unions have signified their intention of competing for the prize.

STREET RAILWAY EMPLOYES. — At Tuesday night's meeting of the Economic League, the president, in his opening remarks stated that the speedy settlement of the Toronto Street Railway employes' strike meets with the general approval of all labour workers. The result of the strike, he said, has also been most gratifying, and goes to show that capital in all cases cannot control labour. The fight put up by the railway employes was most aggressive. He claimed the Montreal men have themselves to blame for their low wages and long hours, but he was glad to know they were making an effort to better their condition, and he had no doubt when the proper time arrived they would make a firm stand.

TO IMPROVE CITY COUNCILS.—The Federated Trades' Council of Milwaukee has issued a call for a convention to every city central body in the United States and Canada. The object of the gathering is to form an organization for the purpose of improving city councils. It is distinctly understood the new organization will in no way conflict with the principles of the American Federation of Labour. Speaking to a representative of the Star last night on the subject, a prominent labour leader remarked that Montreal should be well represented at the coming convention, as there was great need for improvement in the Montreal city government. He thought it would be a good thing if a couple of the aldermen could be induced to attend the convention and get some pointers.

Fraternal Orders.

ANNUAL EXCURSION.—The members of St. Patrick's T.A. & B. Society have decided to hold an excursion to Lake St. Peter on the afternoon of Aug 4th. The steamer Three Rivers has been chartered for the occasion. A progressive euchre party will be given on the return trip, and for which event valuable prizes are offered. Everything possible is being done to make a pleasant outing for all who attend. Casey's orchestra has also been engaged for the occasion.

THE MACCABEES.—The Knights of the Maccabees are arranging for an outing to be held at Otterburn Park on Saturday, Aug. 2. Field sports of all kinds will be indulged in.

THE LETTER CARRIERS.—An enthusiastic meeting of the Letter Carriers' Association was held Tuesday night, when the committee in charge of the moonlight excursion which is to be held on Tuesday evening next reported that all arrangements are now completed, and indications point to the excursion being the event of the season. A big effort is being made to eclipse all previous outings given by the Letter Carriers' Association. A first class string band has been secured for dancing, and carriages will be in waiting on the wharf on the return of the boat.

THE ODDFELLOWS.—At the meeting of Loyal Excelsior Lodge, No. 6237, I.O.O.F., M.U., the following officers were elected: Noble Grand, J. Maybury; V.G., Bro. R. Boyne; rec. sec., Bro. Bennett; fin. sec., J. Paterson, re-elected; auditors, W. G. Hastie, P.G., Wm. Ardill, P.G., A. Hastie, P.G.; trustees, F. Upton, P.G., R. A. Gentles, P.G., J. E. Burritt, P.P.G.M.; surgeon, Dr. C. C. Gurd; outer guard, Bro. Overall; district deputies, A. J. Leslie, P.G., John Paterson, P.G., W. G. Hastie, P.G. This meeting was a particularly interesting one owing to the fact of a large delegation of visiting brethren from Loyal Green Mountain Lodge, of Barrie, Vt., paying a visit, also Prov. G. M. Crompton, D. Prov G. M. Crawford, and I. P. Prov. G. M. Hamilton, and a number of brethren from the city lodges. Two new members were initiated into the mysteries of the order. On behalf of the officers and members of the lodge, Prov. G. M. Crompton called Bro. Ardill, P.G., to the platform and presented him with a very handsomely framed P.G.'s certificate. After the business of the evening was over, the lodge entertained their visitors in their usual up-to-date manner, when a large programme of vocal and instrumental music was gone through, and a most enjoyable evening brought to a close by the singing of both national anthems.

THAT FADED DRESS

looks too shabby for wear in its present condition, but send it to these works. We will return it looking like new again.

Fresh Air Home.

The River Bank Home.

The Home on the Richelieu River at Chambly is now open. Applications for admission may be made to the committee at the Star office, 165 St. James street, on the afternoons of Monday, Tuesday and Wednesday of each week, during the season, between the hours of 2 and 4 o'clock. Every application must be accompanied with a certificate from the clergyman to whose church the applicant belongs. Blank certificate forms may be obtained from the secretary at the Star office.

The Fresh Air Fund is administered by a volunteer committee of men and women, including the city missionaries, interested in the welfare and suffering of children. It is established to take away from the city for a longer or shorter period children and mothers whom the visiting doctor advises to send. It is:

1. For the sick children of the poor.
2. For tired working mothers with children.
3. For children threatened with sickness, and whose parents have not the means to enable them to leave the city.

Five dollars will send a mother and sick child to the country for a fortnight, and larger amounts will do proportionate good. Contributions may be sent to the Star office, 165 St. James street; Star Branch office, corner of Peel and St. Catherine streets, or to Charles Alexander, Esq., honorary treasurer, 219 St. James street. 155 40

Gustave Albert Ritter, Esq., unofficial member of the Council of Government of the Colony of Mauritius.

Ho Kai, Esq., unofficial member of the Legislative Council of the Colony of Hong Kong.

James Miller Farquharson, Esq., Custos of the parish of St. Elizabeth, in the island of Jamaica.

John Emrys Evans, Esq., formerly British Vice-Consul at Johannesburg, for services rendered in South Africa.

James Donnan, Esq., on retirement as Master Attendant, Colombo, in the island of Ceylon.

Henry Mitchell Hull, Esq., Assistant Colonial Secretary of the Gold Coast Colony.

James Bryant Lindley, Esq., in recognition of services rendered in connection with Refugees in South Africa.

It had been the King's intention to have conferred the Companionship of the said Most Distinguished Order on the late Honorable George Leake, K.C., Prime Minister of the State of Western Australia.

FOREIGN OFFICE LIST.

The following additional names appear in the Court Circular:

G.C.M.G.

Sir Edwin Egerton, K.C.B., His Majesty's Minister at Athens.
Sir Ernest Satow, K.C.M.G., His Majesty's Minister at Pekin.

K.C.M.G.

E. C. Phipps, Esq., C.B., His Majesty's Minister at Brussels.
The Hon. M. Herbert, C.B.
Commodore Francis Powell, C.B.
Pelham Warren, Esq., C.M.G., Consul-General at Shanghai.
Surgeon-General H. Pinching, head of the Sanitary Department at Cairo.
George Mackenzie, Esq., C.B.
Francis O'Callaghan, Esq.

C.M.G.

George Jenner, Esq., His Majesty's Minister at Guatemala.
Colonel J. Greerson, R.A., C.B., M.V.O., late Military Attache at Berlin.
R. Drummond Hay, Esq., Consul-General at Beyrout.
Dr. Henri Angst, Consul-General at Zurich.
A. Archer, Esq., Consul at Bangkok.
F. Jackson, Esq., C.B., Deputy-Commissioner in East Africa.
Capt. H. Cordeaux, Vice-Consul at Berba.
Herr Ignatz Brud, British Consul at Buda Pesth.
Colonel P. Sykes.
Capt. A. C. Clarke, R.N.
Commander G. R. Gaunt, R.N.
Commander P. Cullen.
Capt. C. J. Clare, R.N.

ORDER OF THE BATH.

G.C.B.s.

The King has been pleased to direct that the following promotions in and appointments to the Order of the Bath (Civil Division) be made:

To be Knight Grand Cross: The Earl of Clarendon, the Right Hon. Sir Francis Jeune, K.C.B., Judge Advocate-General; the Right Hon. Sir Algernon West, K.C.B.; Gen. the Right Hon. Sir Brighton Probyn, G.C.V.O., K.C.B., V.C., Keeper of his Majesty's Privy Purse.

To be Knights Commanders: R. Audry, Esq., C.B., Accountant-General of the Royal Navy; the Hon. Eric Barrington, C.B.; the Hon. Francis L. Bertie, Assistant Under-Secretary of State Foreign Office; Sir William Church, Bart., President of the Royal College of Physicians; Clinton Dawkins, Esq., C.B., Chairman of the recent Committee upon the Administration of the War Office; Thomas Henry Elliott, Esq., C.B., Secretary of the Board of Agriculture; Viscount Esher, K.C.V.O., C.B., Secretary to H.M. Office of Works; John Lowndes Gorst, Esq., C.B., Financial Adviser to the Egyptian Government; Henry Graham, Esq., C.B., Clerk of the Parliaments; the Hon. Schomberg McDonnell, C.V.O., C.B.; H. J. Van Sittart Neale, Esq., C.B., Assistant Secretary to the Admiralty; Alfred de Bock Porter, Esq., C.B., Secretary to the Ecclesiastical Commission; Professor William Ramsay, F.R.S.; Evelyn Ruggles-Brise, Esq., C.B., Chairman of the Commissioners of Prisons; Horace Seymour, Esq., C.B., Deputy Master of the Mint; Leslie Stephen, Esq.; George Whitehouse, Esq., Engineer-in-Chief of the Uganda Railway; Henry Yorke, Esq., C.B., Director of Victualling of the Royal Navy.

There are also a number of appointments as Companions of the same Order.

A NEW ORDER OF MERIT.

The King has been pleased to institute an Order of Merit, to which his Majesty, as Sovereign of the Order, has made the following appointments:

Field-Marshal Earl Roberts of Kandahar, K.G., K.P., V.C.
Field-Marshal Viscount Wolseley, K.P., G.C.B.
Gen. Viscount Kitchener of Khartoum, G.C.B., G.C.M.G.
Lord Raleigh, F.R.S.
Lord Kelvin, G.C.V.O., F.R.S.
Lord Lister, F.R.S.
Admiral of the Fleet the Hon. Sir Henry Keppel, G.C.B.
The Right Hon. John Morley, M.P.
The Right Hon. W. E. H. Lecky, M.P.
Admiral Sir Edward Hobart Seymour, G.C.B.
Sir William Huggins, K.C.B., P.R.S.
Frederick George Watts, Esq., R.A.

A CORONATION MEDAL.

His Majesty has been pleased to direct that a medal of special design be conferred upon Lord Mayors, Lord Provosts, Mayors and Provosts in the United Kingdom.

The New Order of Merit.

The new Order of Merit, which has been created by the King in connection with the Coronation honours, is clearly founded on the lines of the well-known Prussian "Ordre pour le Merite." It will have the same comprehensive range and character, including besides British subjects who have won conspicuous distinction in the naval and military services, those who are exceptionally eminent as men of letters and in the fields of art and science. The number of its members will be very restricted. It is, of course, primarily and essentially a British Order, but provision will be made for taking into its ranks distinguished foreign personages as honourary members. The badge of the Order, to be worn by its members, will consist of a cross of red and blue enamel of eight points, having the words "For Merit" (the motto of the Order) in gold letters within a laurel wreath on a blue enamel centre. The reverse of the badge will show the King's Royal and Imperial cipher in gold (two silver swords with gold hilts, placed saltirewise between the angles of the cross, being added in the case of members chosen for military or naval distinction) also within a laurel wreath, on a blue enamel centre; and the whole will be surmounted by the Imperial Crown enamelled in colour, and suspended by a parti-coloured ribbon of Garter blue and crimson, two inches broad. The Sovereign's insignia, except, of course, for the modificatinons necessary to distinguish the Royal dignity of the wearer, will be similar to the insignia worn by the ordinary members of the Order. The ceremony of investiture will be from time to time conducted by the Sovereign as in the case of any other Order, the members designate being introduced by the officer of the Order in attendance. Members of the Order will be entitled to attach a facsimilie of its badge and ribbon to their arms. The Seal of the Order will show a facsimilie of the badge, impaled with the Royal Arms, on a white ground, with the legend "The Seal of the Order of Merit." June 26, as the day originally fixed for the Coronation ceremony, will be observed as the anniversary of the Order. There will be a secretary and registrar of the Order, both of which functions will, for the time being, be centred in the person of the Comptroller of the Lord Chamberlain's Department of the Household, who will wear as his badge of office, a decoration similar to that worn by the members of the Order, with the addition of two silver pens placed saltirewise between the angles of the cross. The secretary and registrar will take charge of the Seal of the Order, keep a record of its members, conduct all correspondence connected with it, and make an entry of all its proceedings in the register of the Order, the Chancery of which will be in the office of the Lord Chamberlain of the Household.

Freemasons Honoured.

Among the recipients of Coronation honours, those who are Freemasons may be very freely counted, and among the more prominent are Lords Roberts, Wolseley and Kitchener, all Past Grand Wardens; Mr. W. L. Jackson, M. P., Provincial Grand Master of West Yorkshire; Sir Francis Knollys, the Lord Mayor of London, Mr. Tomlinson, M. P., both the Sheriffs of London, Mr. William Allan, M. P. (a Mason of some forty years standing), Dr. Alfred Cooper, Mr. Thomas Dewar, M. P., Mr. Firbank, M. P., Mr. W. J. Lawrence, M. P., Mr. Littler, K. C., and Sir Prior Goldney. In the army the Duke of Connaught, Grand Master of England, is the principal promotion; in the Yeomanry the Marquis of Hertford; in the Volunteers Colonel Villiers, 1st Surrey, the Earl of Stradbroke, 1st Norfolk Royal Garrison Artillery, Colonel C. G. Boxall, C. B., 1st Sussex Artillery, and Colonel R. W. Edis, 20th Middlesex R. V.

The Extraordinary Chase Of Outlaw Harry Tracy

SEATTLE, July 10—The pursuit of outlaw Harry Tracy, appears to be temporarily suspended. Sheriff Cudihee has called in the guards of the southern suburbs, leaving only a sufficient number for a careful patrol. It is believed that Cudihee expects the convict, if he re-appears at all, to show up in another part of the country. The posse that started from Renton with the bloodhounds yesterday morning returned in the afternoon after a fruitless search.

Since early yesterday morning the posse has been scouring the country between Renton and Black River Junction. A large territory has been sentried, and it is believed that Tracy is hiding in the dense woods of this district. Guards have been stationed at every road in the section. It is believed that he will soon make his appearance at some house and demand food, as he is known to be without supplies. The rumour that Merrill has joined his murderous comrade cannot be substantiated.

NO ONE KNOWS WHERE HE IS.

As matter stands at this moment no one knows the exact whereabouts of the desperado.

The Salem penitentiary guard, who is with the party at Renton, is certain that Merrill and Tracy are once more together. Three suspicious looking individuals have been reported at Renton. The men have the appearance of tramps and it is thought that they may be three of four men who met Tracy at Black River bridge on Monday night and walked through Renton in the convict's company. At the gaol they gave their names as Andy Neilson, Tom Madden and Phil. Ritchie. The first two say they are loggers and the third says he is an iron bridge builder. Their statements as to their recent actions are conflicting. A diligent search is being made for the fourth alleged accomplice, who is thought to be hanging around Renton, or may have joined the convict. Rumours are rife that the fourth man is none other than Merrill, but this is generally discredited.

HIS CAREER OF CRIME.

Tracy began his career of crime in Colorado in 1897 by killing Deputy Sheriff Valentine Hay, a wealthy cattle owner of Routt County, in that state. In 1898 he was sentenced to the Oregon Penitentiary. He attempted to escape by seizing a locomotive, but the engineer outwitted him, and he was captured. In the scrimmage he wounded Detective Rainer of Portland.

June 9, 1902—Escaped with David Merrill from the penitentiary at Salem at 7 a.m., killing Guards Jones, Ferrell and Tiffany, and wounded Deputy Sheriff Biescher, wounding Guard Ingram.

June 10—Returied in the darkness of the early morning to Salem, where the men held up J. W. Roberts, whom they stripped of clothing, and then stole a team of horses and made their way to Portland. Near Gervais they held up two members of the posse in pursuit and took a horse and buggy.

June 11—Fired on pursuers from ambush near Gervais.

June 12—Broke through cordon of 250 militia and made their escape.

June 14—Stole two horses and rode through Portland suburbs.

June 15—Forced two men to ferry them across Columbia River.

June 17 — At Salmon Creek exchanged shots with a posse, and Tracy wounded Deputy Sheriff Biescher. At Ridgefield the men stole horses and continued their flight.

June 23—Robbed the house of Patrick McGuire at Alacenter.

June 25 — Stole breakfast near Kelso, Mont.

June 26—Stole two horses, but gave them back.

June 29—Slipped through a strong posse guarding the road.

July 1—Seen forty miles from Tacoma. Tracy left Merrill, saying later that he had killed him in a duel. Tracy rode through Olympia.

July 2—Tracy held up six men at South Bay, near Olympia, and forced four to embark with him on Puget Sound. Landed at night at Seattle and started north.

July 5—Two companies of militia united with 20 Sheriff's posses in following Tracy's trail.

July 6—Seen at Deception Pass in sail boat. Two steamers in chase.

July 7—Sheriff's posse, after chase of 125 miles, returned empty-handed to Seattle. Chase on Puget Sound continued by revenue steamers and on land by militiamen and searchers for the $5,000 reward.

July 8—Talked with a ranchman named Gerald, near Renton; a posse was summoned; Tracy left houses by back door, and eluded pursuers fourth time by sprinkling pepper on trail bloodhounds were following.

MOULDERS WILL AID STRIKING MINERS.

TORONTO, Ont., July 10.—At the Moulders' Convention yesterday a vote of $10,000 was passed for the striking coal miners, to be paid if President Mitchell decides to call for help from other labour bodies. Some of the Southern delegates raised the question of the colour line there, and announced that later on they would present a resolution for the exclusion of coloured men from the union in the Southern States. Objection was taken by a number of delegates from the north, but debate was postponed till the motion is presented.

Sir John Bourinot's Illness.

(Special to the Montreal Star.)

OTTAWA, July 10.—Sir John Bourinot's condition remains most serious, though many fluctuations occur. He is suffering from a complication of maladies, including the loss of digestive power. During last session he was warned that he could not stand the strain of continued late hours and the often oppressive heat of the Chamber, but he believed that he should stand to his post throughout the session and did so. The devotion to his duty may be adding to Sir John's sufferings now.

British Government and Morgan.

(Special to the Montreal Star.)

LONDON, July 10.—Strong opinion exists on both sides of the House of Commons, that no agreement should be made by the Government with Mr. Pierpont Morgan until the House has had an opportunity of considering it. The Admiralty Secretary will to-day be questioned on the point.

EASE FOR THE FEET

If your feet are sore, aching, painful, tender, burning, chafed, or blistered, shake a powder of Foot Elm in each shoe. Its effect in giving the feet ease and making them cool and comfortable are something marvellous. Sold by druggists at 25 cents a box, or sent by mail, postage free, D. S. Stott & Jury, Bowmanville, Ont. 161 1

TWO PROVINCES ARE AFTER METCALFE.

(Special to the Montreal Star.)

OTTAWA, July 10.—Two demands were made upon the United States for the extradition of Gilbert Metcalfe, the C. P. R. operator now in custody at New Haven, Conn., one by the province of Ontario and the other by the Manitoba Government. He will be tried for the offence committed in Ontario first, as it antedated the other.

Probable Date of Thanksgiving Day.

(Special to the Montreal Star.)

OTTAWA, July 10.—The likelihood is that Thanksgiving Day this year will be fixed for November 20, although in deference to the wishes of the business community it may be put off until November 27. People who wish to enjoy the holiday would like to be able to celebrate it earlier in November or in the preceding month, when the weather is more favourable out of doors.

Wireless Telegraphy Under Water.

(Special to the Montreal Star.)

PARIS, July 10.—A telegram from Cherbourg states that Rear Admiral Fournier was present at experiments in wireless telegraphy carried out on the submarine boat Triton. The messages were received without difficulty when under water. It is the intention of the French naval authorities to instal a wireless telegraph apparatus on board all submarine boats.

They Refused Free Medicine.

Avoided the Lumberman's Hospital and Cured Themselves by Using

Dr. Chase's Kidney-Liver Pills.

Lumbermen prove their confidence in Dr. Chase by buying his remedies and using them, instead of the hospital treatment supplied them without cost.

An interesting letter.

Mr. John L. Hickey, now caretaker of the Public and High Schools, Trenton, Ont., states: "I have used Dr. Chase's Kidney-Liver Pills and found them the greatest medicine I ever tried. I used them when in the lumber camps and believe by keeping the kidneys and bowels regular and the general health good that they protect a person from catching contagious diseases, which are so common in the camps.

"I have seen hundreds of men using Dr. Chase's Kidney-Liver Pills in the lumber camps. They buy them by the dozen when going in, and to show how much faith they have in them they buy them when they could get their medicine for nothing by going to the hospital camp. Dr. Chase's Kidney-Liver Pills keep my liver, kidneys and bowels regular and my health good. I would not think of being without them."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box. At all dealers, or Edmanson, Bates & Co., Toronto. 161 1

DUPUIS FRERES

July Reduction Sales

Housekeeping Essentials at Essentially Reduced Prices

Saving money on luxuries is always grateful. But it does not compare, in the satisfaction it affords, with effecting economies on articles of everyday need and use.

Hence the short list given here, of utensils of which every housekeeper appreciates the intrinsic value, will prove full of interest. For every item is priced materially below its regular value—many, indeed, at half; and the list is indicative of scores of other household needfuls at correspondingly low prices:

STRAIGHT SAUCEPANS, 2 qts.	18c
STRAIGHT SAUCEPANS, 3 qts.	20c
STRAIGHT SAUCEPANS, 4 qts.	28c
STRAIGHT SAUCEPANS, 6 qts.	33c

HON. A. G. BLAIR AND THE INTERCOLONIAL RAILWAY

Some Changes in the Location of the Line Between Canso and Amherst are Possible.

(Special to the Montreal Star.)

SYDNEY, C.B., July 10.—Hon. A. G. Blair, Minister of Railways, completed his inspection of the Intercolonial Railway at Sydney last evening. Among the matters now under the consideration of the Government, is a change in the location of some parts of the Intercolonial Railway between the Strait of Canso and Amherst. The proposal is to change the location of the road to connect with the Canso bridge at Cape Porcupine, then to run along the Gulf coast to Harbour au Bouchet and Antigonish, thence to Pictou. From there the proposed road will be continued over the short line to Pugwash, at which place a link will be built connecting that town with Amherst. This change will rid the road of mounting heavy grades at Folly, and at the strait; and, while it will involve heavy expenditure, the department feels that it must be undertaken, in order to handle Cape Breton freight traffic economically and expeditiously.

Hon. Mr. Blair was non-committal as to his impression of the Intercolonial Railway facilities at the Strait of Canso; but it is understood he is disappointed, and that there is a possibility of the new ferry steamer Scotia being sold in the United States.

EVACUATING TIEN TSIN.

The Powers are Willing to Withdraw Their Soldiers.

WASHINGTON, D.C., July 10.—Secretary Hay's action upon the appeal of the Chinese Government, through Yuan Shi Kai and Minister Wu relative to the evacuation of Tien-Tsin, has met with success. The foreign generals who have stood in the way of the evacuation will receive instructions from their home governments, and, although one or two minor points remain to be adjusted, it is believed that Tien-Tsin will be turned over to the Chinese authorities.

Secretary Hay, doubting whether anything could be accomplished directly through the diplomats at Pekin, though action there had been contemplated, decided to address himself directly to the governments interested in the Chinese question and maintaining forces in Tien-Tsin. This was done through the American Ambassadors and Ministers resident at the various European courts and Tokio. Answers have been received from nearly all these, and they have all proven favourable to the United States' contention. The powers are now agreed to instruct their generals at Tien-Tsin to abandon the condition which was to have been imposed as a precedent to evacuation, that save the small police force of 300 men, the Chinese military forces must be kept at a distance of not less than 30 kilometres from Tien-Tsin. As this obstacle has been removed, a speedy conclusion is expected of the Tien-Tsin negotiations.

CONVICTS USE DYNAMITE.

An Unsuccessful Break for Liberty in Missouri.

ST. JOSEPH, Mo., July 10.—James Blade, Aleck Allen and James Murray, prisoners in the Buchanan county gaol, wrecked the rear wall of the gaol building yesterday with a powerful charge of dynamite. They then made a fierce fight for liberty, but the guards beat them back with Winchesters. Seventy-five prisoners are confined in the gaol, most of whom made no effort to escape. Those who did were clubbed into submission. No one was injured, although the explosion was felt several blocks away. Blade and Allen are under sentence for highway robbery, and Murray is a Government prisoner. They are now chained to the floors of their cells.

Other prisoners were told what was to happen about five minutes before the fuse was lighted, and by the advice of the leaders they sought safety in their cells. The gaoler was at dinner in another part of the building.

Until the damage to the gaol and court house can be repaired, a large armed guard will be necessary to restrain the prisoners.

INDIAN CHIEF KILLED.

A Six Nation Head Man Struck by Lightning.

ONONDAGA, Ont., July 10.—A terrific electric storm passed over the Indian reserve yesterday afternoon, during which Chief Levi Jonathon, who was driving a team of horses, attached to a buggy, near their council house, was killed outright as also was one horse. Mr. Garlo, who was riding with the deceased also received a severe shock, but is otherwise uninjured. The deceased was one of the most powerful chiefs of the Six Nations.

The Calgary Carpenters.

(Special to the Montreal Star.)

CALGARY, July 10.—The carpenter's union of this city have come to an agreement with Mayor Underwood who is the largest and most representative contractor in the city, and as far as he is concerned, the strike is over.

BROTHER AND SISTER DROWNED TOGETHER.

A Girl Thirteen Years of Age Makes Effort to Save Brother, But Dies With Him.

(Special to the Montreal Star.)

CALGARY, N. W. T., July 10.—A pathetic fatality occurred here yesterday. Two children named Clifford and Florence McLellan were drowned in the Bow. The children with some of their playmates had gone down to the banks of the Bow to play on the sands thrown up by the recent flood. Clifford who was about six years of age, reached for a stick which was coming down with the current. He overbalanced himself and fell into the water which was very deep at that point and was carried down stream. His sister Florence a girl of thirteen made frantic efforts to reach him, but without avail. She rushed along the banks for about fifty yards and when the little boy was borne by the current past a promotory she was almost able to touch him but could do nothing to save him. As she saw his body borne past her she plunged into the water and seized him and at that moment the children were caught in a swifter current and carried out into deep water. The brother and sister locked in each other's arms then disappeared beneath the turbulent waters of the Bow. The frightened children watching on the bank then gave the alram, but it was too late. The bodies have not yet been recovered.

LORD PAUNCEFOTE'S BODY.

Reception of the Late Diplomat's Remains in England.

LONDON, July 10.—The Admiralty has made final arrangements for the reception of Lord Pauncefote's body, now on its way to this country on board the United States armoured cruiser Brooklyn, which left Annapolis on July 1. The British armoured cruiser Australia and the second class cruiser Apollo will meet the Brooklyn outside the Isle of Wight, and escort her to Southampton, where the Naval Commander-in-Chief, Admiral Sir Charles F. Hotham, awaits the American warship's arrival.

A hundred marines, with a band, will form the funeral guard. British bluejackets will act as bearers from the ship to the train. At the beginning of the removal of the remains from the Brooklyn, the ships will fire twenty minute guns. The body will be taken to the family home, Preston Court, Gloucestershire. The interment will be private. Simultaneously a memorial service will be held in London.

So far, it has only been arranged for Captain Richardson Clover, the United States naval attache here, to meet the body at Southampton in behalf of the United States.

Canada at the British Fairs.

OTTAWA, July 10.—Mr. W. H. Hay, of the Central Experimental Farm, returned yesterday from a three months' mission in England and Ireland, where he was on business in connection with the Wolverhampton and Cork fairs.

The attendance so far at the Cork Fair, Mr. Hays says, has been small, almost from 3,000 to 5,000 a day. But it is thought the patronage will boom after the Coronation. At Wolverhampton there is a daily attendance of from 5,000 to 25,000. Canada had a splendid display at both fairs. The largest is at the English one, where the building is well situated between the two main buildings. Every one takes in the Canadian goods. The same kind of exhibit is at Cork as at Wolverhampton, although on a smaller scale.

Wreck on the Hudson Valley Ry.

TROY, N. Y., July 10.—As a result of a head-on collision between two cars on the Hudson Valley Railway, at Caldwell, late yesterday afternoon, one person was killed and at least 16 others were more or less seriously injured. One car was an express, and the other a passenger, the latter loaded with 84 excursionists from Stillwater, members of the Ancient Order of United Workmen.

Gilmore Brown, C.E., of St. John, N.B., has been appointed by the Railway Department a commissioner to investigate the subject of railway cattle guards with a view of enabling the Minister to introduce legislation promised by him last session, when Mr. Lancaster's cattle guard bill was defeated.

See to It that you get PEARLINE, when you buy it. Grocers have poorer washing-powders—that pay more profit. Sometimes these are sent "by mistake," or because "out of Pearline." You'll be told, probably, "just as good—just the same thing." This is not so. Prove it for yourself. PEARLINE the best washing-powder, the Most Economical 663

A NEW ELEMENT FOUND BY A GERMAN SCIENTIST.

It is Called "Radion," and is Active and of Extraordinary Energy.

(Special to the Montreal Star.)

BERLIN, July 10.—Prof. Mackwald, of the Berlin University, announced at the last meeting of the Psychical Society, that he had discovered a new element. The element in question is called Radion. It is active and of extraordinary energy. Prof. Mackwald has separated it from radio-active bismuth—so-called polonium—found in uranium ore. It consists, as Prof. Mackwald discovered, substantially of ordinary bismuth, and of a new metal in the proportion of a thousand to one. The new metal can be separated by the electrolytic process. The rays it emits are something like those of the metal radium, but differ in being almost completely absorbed by paper, as well as by glass. Prof. Mackwald has proved that a porcelain tube heavily charged with electricity by rubbing, immediately lowers its charge when a morsel of this metal weighing hardly a milligramme, is brought within a distance of one decimetre. A chemical analysis of the new metal is rendered very difficult by the fact that one ton of ore contains hardly one gramme of it.

DOMINION STEEL AND COAL.

President Ross Speaks of the Company's Output.

(Special to the Montreal Star.)

SYDNEY, N.S., July 10.—Mr. Jas. Ross, President of the Dominion Steel and Coal Co., in an interview with the Star last night, said the Steel Company was turning out more product now than ever, and at much cheaper cost. Large exportations were being made to the United States and to different parts of Canada. The product was highly spoken of everywhere. There are now six open hearth furnaces in operation, and the daily output of steel averages about 400 tons.

"I expect," Mr. Ross continued, "that the output of coal this year will exceed three million tons. Last month was good, but I think this one will be better."

Amnesty for French Exiles.

(Special to the Montreal Star.)

LONDON, July 10.—The Paris correspondent of the Times says a Parliamentary committee has decided to recommend to the Chamber of Deputies to consider amnesty for strikers and other offenders, proposed by Socialists and also amnesty, proposed by Nationalists for Deroulede and other exiles.

Children Cry for CASTORIA.

Miss May Strathy Killed in London by Falling Decorations

Young Lady, a Native of Lachine, Met Death in Metropolis To-day — Was Struck by Debris Blown From All Souls' Church.

LONDON, July 10.—Shortly after Queen Alexandra passed on her way to open the coronation bazaar, the decorations across Langham Place, heavy and sodden with rain, were caught in a squall of wind and fell, dragging down a mass of coping from the top of All Souls' Church. Miss Strathy, believed to be a Canadian, was killed and several persons injured.

A later despatch to the Star says:

The Miss Strathy killed in London, England, was Miss May Strathy, of Lachine.

** ** ** **

Miss May Strathy, the victim of the catastrophe in London, is the eldest daughter of Mr. Edward W. Strathy, of Lachine, who is the secretary of the Montreal Trust Deposit Company, corner of Notre Dame street and Place d'Armes. She went to London to take in the Coronation, with Mr. and Mrs. A. P. Bastable, of Lachine. Mr. Bastable is cashier of the Commercial Union Assurance Company of this city.

Mr. Strathy lives on Fortieth street, in Lachine, and in addition to the deceased he has a family of four daughters and two sons. Mr. Court Strathy, a brother of the deceased, is a clerk in the Quebec Bank. Mrs. Strathy is dead.

Miss Strathy was twenty-seven years of age, and was the eldest of four girls. She went over to join her aunt and grandmother in England, and was to have sailed on the Teutonic in September for home.

There are at present in London three Miss Strathys, all of whom are related. They are Miss Louise Strathy, sister of Mr. Gordon Strathy, stock broker; Miss Fredericka Strathy, sister of the late Mr. J. B. Strathy, and aunt of Mr. Gordon Strathy, and the unfortunate young lady who was killed. Miss Louise Strathy went over to London in August last, while Miss Fredericka, and the young lady who met with the fatal accident journeyed over just a short time ago.

WAS A FAVOURITE EVERYWHERE.

In Lachine, Miss Strathy was known by every one, and her bright, cheery smile for all made her a pronounced favourite. She took much delight in out-door exercise, and was always interested in all water and other sports.

The news of her sudden death was carried to her grief-stricken father by a Star representative. When he saw the first cable, which did not give any first name, he at once said: "I fear that this is either my sister or my daughter."

FOOTBALLERS ARE UNCERTAIN OF GROUND.

Winnipeg Shamrocks May Not Play on M.A.A.A.

The Montreal Association Football Team is very uncertain as to its ability to receive the Shamrock Football Team from Winnipeg on the Montreal Amateur Athletic Association grounds next Saturday.

Before the Montrealers were quite certain as to the date of the visit of the Shamrocks, the Montreal Cricket Club engaged the grounds for Saturday, and Mr. Matthews, the president of the Football Club, is now trying very hard to get the cricketers to arrange their game so that the footballers will have an opportunity to play theirs.

A Plea From Upper Westmount.

To the Editor of the Montreal Star:

Sir,—I appeal for space in your widely circulated columns, to make a plea for justice. It is generally believed in Montreal that the municipality of Westmount is a model one, and that, like the King, it can do no wrong.

But allow me to protest in the name of very many of the citizens and property-owners of our charming little town, against the arrangement our Councillors are seeking to make with the Montreal Street Railway for track extension. Now, we are not asking a selfish thing when we ask that in this proposed extension, the whole town should benefit, and not a favoured few.

Thus, is it fair, is it just, is it honourable to confine all the street car service to the lower levels of the town and not extend it to the higher levels? It is true that the lower section of Westmount is much more settled than the higher section, but it is simply because it has street car accommodation. If we of the higher level were given the same advantages, you would soon see the green fields cease to exist and be replaced with streets of handsome residences. There is no doubt that the land of the higher level makes more desirable building sites than that of the lower. All the air of Westmount is pure, but it is well known that the higher one ascends, the purer becomes the atmosphere. As matters stand now, we are not treated justly; although heavy taxpayers, we are practically ignored and our money goes to build up another section of the town with no profit to ourselves.

I would hate to impute interested motives in a matter of this kind, but I, for one, and many of my fellow-sufferers, can ascribe no other reason for the persistent discrimination shown to our district by the municipal authorities.

One would think that they could see that the opening up of the higher portion of Westmount would greatly increase the municipal revenues, by attracting many more people to reside there.

But either they cannot, or will not, see it in this light. If spoken to, they talk and promise a lot, but do not act. The time to act has now arrived, and we are determined to get justice for our section. Too much has been spent below and too little above. As matters stand now, the street cars are to run up Guy street, to Westmount avenue, in Cote des Neiges close to Cote des Neiges Road, and the west end of Westmount on the upper level will get no benefit.

The matter, if taken up by our Councillors in an earnest manner, giving fair treatment to the Street Railway Company, can easily be brought to a satisfactory settlement, as I am informed that they are willing to extend their line westward at a great expense to them without getting any money consideration from the town, asking only to have a franchise for thirty years for both upper and lower levels.

We want the cars along Westmount avenue, down to Claremount avenue, making a belt line with the Sherbrooke street connection.

Yours truly,
A. C. ST. AMOUR.

The Projected Public Library.

To the Editor of the Montreal Star:

Sir,—In your issue of July 4th there were some remarks re the Carnegie proffered library, under the head lines, "City may yet refuse Carnegie's library offer." The city would do nothing so rash as to refuse a present of $150,000 for mere quibbling. The men of the city are free to act as they wish. If they wish to accept the library offer, we shall have the library.

We hold the Finance Committee acted prudently in having lay censors. Although, perhaps, it would have been better worded to include a certain profession instead of not exclude a profession. Still, as no reflection was intended, there should be no offence taken.

The clergy of all our churches, and most of all the clergy of the Catholic Church, would be the last to, we believe, stand in the way of their people receiving a blessing. The clergy of the smaller churches should have no reason for opposition. Why should they? Why should any church?

The selection of a representative from Laval University and from McGill University and an alderman is the greatest combination that any Finance Committee could think of, and great credit should be given Alderman Laporte for his prudence and farsightedness. It is a representative from each of the greatest Universities of Canada, and a representative from the Council of its largest and wealthiest city. What more would any one want?

Re the answer from Laval, we would like to know who the person was who gave the answer, and to whom. We would be very disappointed, indeed, if Laval, with her past record, with the position she holds in the public eye, and with her zeal for education, should give the answer as reported. If it be true that this is the answer of the University, acknowledging that they think it unjust that one of them shall represent a great division of the people of Montreal, if they say they are unworthy of the honour, they are unworthy. But I do not doubt that this is not the final answer of that body of educationalists, no more than that the answer of the sister university will be worded similarly.

Let the clergymen who wish to act, say so; that we may know who they are.

The man who says that the clause about laymen will upset a scheme for a $150,000 library must have a very poor opinion of Laval, and are Carnegie and McGill to think their minds are so small that such a trivial thing should prejudice them against having a magnificent privilege for the people? Does he think there is no man in Laval capable of acting as censor? Are we to understand that Laval is afraid to appoint one of their number, for fear that he cannot do as well as a representative from McGill? Trust him! We wager that he comes out no second best to any other representative.

Race feeling; who talks of race feeling? We all are Canadians. I count it treason, for it is treason for men to try to keep alive and to fan into flame feelings that are dying and that surely will be dead in fifty years. Have we not one common Premier? Are we not united in many good works, and who is the Alderman, who will, by word or act, or in any way, put obstacles in the way of the doing of another good deed by the united efforts of both. This is an educational affair; let it be done by educationalists.

STUDENT.

Forestry at Queen's University.

To the Editor of the Montreal Star:

Sir,—Referring to your editorial in a recent issue on "The Science of Forestry," you will be glad to know that a Department of Forestry is, with the assistance of the Ontario Government, to be established in the Mining School at Queen's University, and that the students will probably have their summer experience in the extensive forest reserves of the province. The subject is under careful study, but the desire is to establish a course which will develop forest engineers, who, in the future, it is believed, will be a necessary adjunct of every lumbering establishment, as well as of every forest estate, whether Government or otherwise. In the United States, the forestry movement has at length come home to the people, as shown by the fact that the State of New York, and paper companies, lumber men and other land owners in thirty-three States, from Maine to the Rocky Mountains, and south to Texas, have applied to the Bureau of Forestry at Washington for engineers to lay out their lands on scientific principles.

The American Forestry Association, which has done so much to rouse the United States Government and people to a sense of the importance of the forests, was founded by us in Montreal, and held its first meeting there, its great success being chiefly due to the enthusiasm of Mr. Wm. Little. Succeeding meetings were held in the United States cities, and for a time interest seemed to slacken in Canada. A change for the better, especially in Ontario, is now taking place.

A. T. DRUMMOND.

Toronto, 4th July.

Bertie's Scientific Discovery.

Bertie was seventeen, of seraphic countenance and a scientific turn of mind. Bertie, though young, was also an enthusiastic materialist, and, notwithstanding his big, dreamy blue eyes, totally devoid of sentiment. Surgery was his hobby. He pictured himself in the future as the greatest surgeon of the age.

** ** **

Aunt Susan had come all the way from Montreal to visit the family, and brought with her Brutus, her beautiful Maltese Angora. Aunt Susan owned broad acres, and before her the Presidents of many banks salaamed. Aunt Susan was childless. Hence Bertie, Mary, and Susan were warned not to do or say aught that might offend.

** ** **

Two weeks had passed. Aunt Susan was dozing in the big armchair. The family was gathered about the sitting room table, variously occupied, though silently, fearing to disturb Aunt Susan's repose. Bertie burst into the room, his face aflame and his eyes shining with the light of a great discovery.

"Aunt Susan," he cried, in a voice vibrant with emotion, "you are a benefactor to science. I have discovered the original function of the vermiform appendix. It is the purring apparatus in the feline. I anaesthetized Brutus and then dissected him slowly—he was purring all the while—and found that the purrs came from the vermiform appendix, and had he lived only a few minutes longer I might have made a still greater discovery."

But Aunt Susan had fainted and paterfamilias was rolling up his sleeves, his eyes fixed upon Bertie with a significant stare and a look of grim determination drawing down the corners of his mouth.—N. Y. Times.

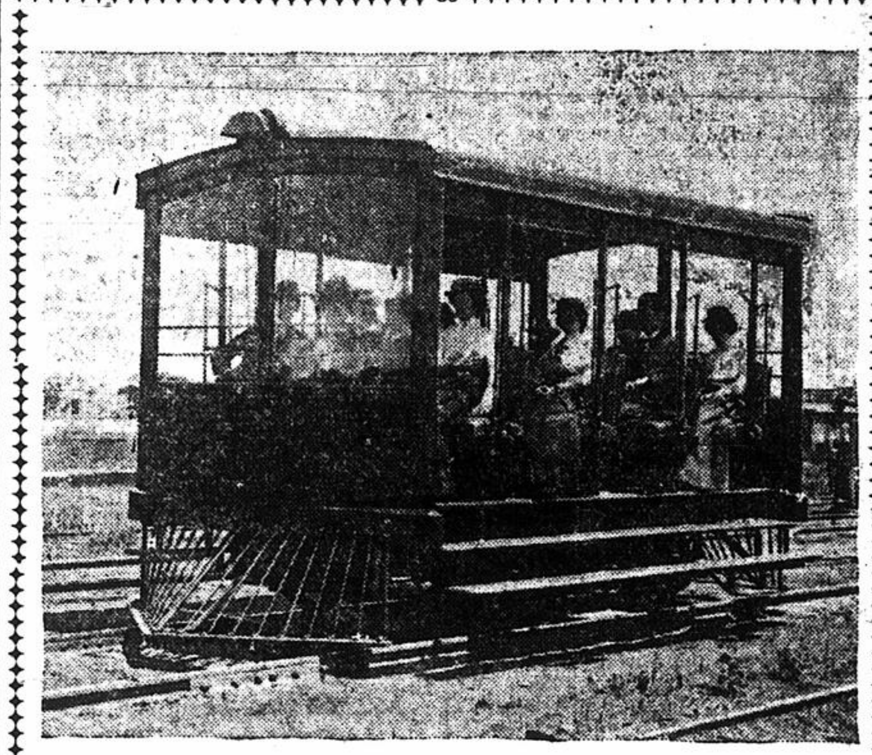
Burial Cure for a Child.

WILKESBARRE, Pa., July 10.—Lightning struck the house of John Hudock, a Russian. It passed down the chimney and struck a child in a cradle, running down its body from the right shoulder to the left hip and then down the leg and across the right foot, burning the flesh all the way. When the parents rushed to the cradle the child showed no signs of life. Neighbours flocked in, and as soon as it could be done a grave two feet deep was made. The child, stripped of all clothing, was covered with earth, its head being left free. The rain poured down, but a crowd stood about the grave praying. Half an hour later Dr. E. M. Davis reached the place and found the child conscious and suffering very little. It was taken to the hospital, and is likely to recover. The theory of the Russians is that the earth absorbs the electricity from the body.

Insurance Circles Stirred by Fire Alarm Report

The half yearly report of the Fire Alarm Department has been the cause of considerable discussion in insurance circles to-day and many enquiries have been made at the Star Office regarding the correctness of the figures given out. A prominent insurance man remarked to the Star that he had been given to understand that the number of fires that had occurred in the city limits during the past six months had decreased instead of increased as indicated by the report. He said the statement showed that during the half year the number of fires was 514 against 491 for the preceding six months. On enquiries being made at the Fire Department it was ascertained that the figures given are alarms sent in to the department, calling out the men and not fires. During the past six months many false alarms have been sent in and it is thought to be the work of an organized gang as the same box was pulled three evenings consecutively. In fact, the trouble became so annoying to the department that the police had to be appealed to and the individual who is caught in the act of pulling a false alarm in future will be dealt with in a severe manner. An official of the fire department stated that he was strongly of the opinion that there had been a decided decrease in the actual number of fires for the past six months as compared with the preceding six months, but, as a matter of fact, there had been a great many more false alarms turned in.

Novel Motor Car Was Tested by the C. P. R. To-day



THE ELECTRIC MOTOR CAR WHICH WILL BE USED IN THE BANFF NATIONAL PARK.

If Montrealers fifty years ago could have seen a handsome car being propelled along parallel rails with no ostensible means of locomotion—with no smoke nor ashes in its trail—with no arm reaching up to electrical wires overhead—nothing but a handsome, brightly glistening carriage moving along at the rate of thirty miles an hour, with its polished woodwork and glass observation front glistening in the sunlight—they would doubtless have been filled with astonishment.

But this is what many Montreal citizens who happened to be in the vicinity of the Windsor street C. P. R. station at 10.30 a.m. to-day beheld.

It was the trial trip of the first electro-gasolene motor car ever operated on the continent. It is an English idea taken by the Canadian Pacific Railway Company for the purpose of showing to better advantage the magnificent scenery of the Rocky Mountains in the vicinity of Banff.

The trial trip to-day was a run as far as Montreal Junction and return. The journey was made expeditiously and with every comfort to the passengers invited by the company to test this new railway vehicle.

THE PRACTICAL USE.

For a considerable time the officials of the company have felt that something of the kind was required for the convenience of the tourists who make Banff their headquarters. Formerly, visitors who wished to examine minutely the wonderful scenery of the Canadian Rockies had to occupy observation cars attached as "trailers" to the regular express trains. It was felt that the time had arrived when something should be put into use which would be independent of the regular trains of the company, and could make little trips to Field, etc., just as the wishes of the tourists should dictate. Hence the present invention, which will be presently packed on a freight car and despatched to its future sphere of labour, high up among the snowy peaks of the Rocky Mountains.

The motor car when it was brought alongside the station platform to-day, proved a neat, handsome little carriage, capable of holding fourteen people comfortably. The seats are comfortably finished with leather cushions, and the propelling apparatus occupies the centre of the carriage, where the engineer, Mr. Albert Ross, stands, with his eight levers within easy reach. The car weighs four tons; the material was brought from England and the carriage was built by the Canadian Pacific in this city. The wooden sides of the carriage re finished in natural woods and present an attractive appearance. Five gallons of the gasoline put aboard this morning, will run the motor car a distance of one hundred miles. The cost of the car is in the vicinity of $1,500.

The sides of the car are open, having blinds which can be raised or lowered as the occupants desire The gasoline is ignited by an electric spark.

To-day the new motor car was not by any means put to its utmost speed, but between the city and Montreal Junction it made between twenty-five and thirty miles an hour, with an easy, comfortable style of locomotion

Mr. Albert Ross, the engineer, who will operate the car at Banff, stated that the experiment, so far as the working of the carriage was concerned was a complete success, and that he did not anticipate any difficulty in taking the car, with its loads of tourists, up through the steepest passes of the Rockies.

The Coronation Bazaar Opened by the Queen

LONDON, July 10.—The Coronation Bazaar, which is probably the biggest affair of its kind ever held, was opened by Queen Alexandra this afternoon. The bazaar was held under a temporary structure covering 150,000 square feet, in the Botanical Gardens, Regents Park. It was in aid of the Hospital for Sick Children. Over 5,000 tickets at a guinea ($5.25) each were sold in advance. A bank had been established on the ground, dinners were arranged by Ritz, and, altogether, every facility was offered those desiring to spend money.

The Queen, in semi-state, with an escort of the Life Guards, and accompanied by several members of the Royal family, drove up to Regent's Park at four o'clock. Her Majesty was welcomed by the Duke and Duchess of Fife, the Duke and Duchess of Teck, and other notabilities. The Indian Princes, the Colonial Premiers, almost all the members of the diplomatic corps, many of the Ministers, and representatives of the nobility were assembled on a dais from which, amid a fanfare of trumpets, the Queen declared the bazaar opened. An inspection of the stalls, of which there were nearly forty, was then begun. At each stall Her Majesty was received by the ladies who organized it.

At the American Court Mrs. Choate and Mrs. Whitelaw Reid accompanied the Queen on her tour of inspection. The American Court consists of eight elaborate stalls. Consuelo Duchess of Manchester watched over the embroideries and American books, Mrs. Bradley Martin supervised American preserved fruits, Mrs. Arthur Paget disposed of jewellery. Her stall was one of the chief features of the show. Its contents were valued at £3,000,000 ($15,000,000). Many splendid jewels were lent for exhibition purposes, especially by J. Pierpont Morgan, though purchases could be made from £1 to £10,000, which was being asked for De Beer's 207 carat diamond, shown at the Buffalo Exposition, and for the great southern cross pearl. Among the aristocratic saleswomen was the Duchess of Marlborough, who, in her stall, had £300 worth of china sent for sale by Emperor William.

Lady Strathcona, wife of the Canadian High Commissioner, and Lady Macdonald presided over Canada's sections, which were beautifully decorated, the principal decorations being maple leaves.

Canadians, Stay at Home.

To the Editor of the Montreal Star:

Sir,—Will you kindly allow me the privilege of your columns to offer a few words of advice to the young men and women of Canada who contemplate coming to the United States for the purpose of procuring employment?

As president of the Canadian Club of Boston for several years I came in contact with many who came here with the idea that work was to be easily obtained, and that wages were much higher than in Canada. They were from all walks in life, —labourers, men and women with trades, and even professional men. They came with the most buoyant hopes of bettering their lot, only to find, after weeks of vain seeking that their anticipations were doomed to disappointment.

The industrial condition of the United States is not what it was twenty or even ten years ago. In those days there were ample opportunities for all who wanted work. At the present time nearly all branches of business are centralized, the great trusts are in control, labour-saving machinery has displaced hand work, wages have been cut down, and thousands of men and women are now walking the streets of the great cities, who would, if they could, eagerly embrace the opportunity to earn a few dollars a week to keep the wolf from the door.

The enormous immigration from Europe, especially from the southern parts, has glutted the labour market, and been a powerful factor in lowering wages. From Italy alone about 1,500 immigrants are arriving every week at the port of Boston, while probably double that number land at New York, Philadelphia and southern coast cities. These people can live in luxury on wages that would drive an American to the poorhouse. The supply of labourers is, therefore, greater than the demand, and much distress consequently exists.

My advice to the young men and women of Canada is, Stay at Home! Their opportunities are better there at the present time than they are here.

If the young people of the eastern provinces are not satisfied with home conditions, let them try the Canadian North-West. That is practically a new country, where the chances of success are excellent for those who are willing to work. A great many are going there from New England, and it looks as if the prediction of Sir Charles Tupper, made at a dinner of the Canadian Club three years ago, that it would not be long before the tide of immigration will flow from this country toward Canada, is about to be verified.

Hoping that these words of advice may be heeded, I remain,

Yours truly,
ROBERT H. UPHAM.

Boston, July 8, 1902.

A Colonization Company to Hold Drawings Now; The Latest Lottery Scheme

Hardly has the Cyclorama of Jerusalem Company closed its doors and stopped its drawings than another concern, which intends to hold regular drawings, and, in fact, has been doing business for three days, starts up.

This is the Colonization Company of Canada, with offices at 1627 and 1629 Notre Dame street.

The reason that it stopped business for a few days, with an intention of resuming it on Monday next, was that matters were arranged in a little too great a hurry to be run properly, and that it will take that long to put them in ship shape.

That the company did not lose much time in starting business was shown by the fact that the letters patent were only issued by the Dominion Government on the 13th of last month.

In this charter, the company, with a capital of $95,000, is allowed to do a general colonization and lumber business, and to allot certain privileged shares by means of drawings (which are fashioned the same as lottery and policy drawings, and are conducted by means of the same sort of a wheel).

Shares are twenty-five cents apiece, but it is only necessary to pay up five per cent. of the actual value within the first three months or so, so that the shares are within the reach of any one.

The company expects to do such a large business that in a month or so it is the intention of the lawyer of the company, Mr. P. R. Goyet, to apply for an increase of the capital stock to a million dollars.

Among the charter members and directors of the company are: Messrs. Henri Dubois, the hotelkeeper who only lately became part proprietor of the old Lepine park; Mr. Amadee Meunier, a well-known livery-stable keeper; Mr. Arthur O. Fiset and Mr. V. Elias Rivet.

THE COMPANY'S PLANS.

Mr. Meunier, when seen this morning by a Star reporter, said:

"Our company is a colonization company. We are not obliged to do any actual colonization work for three years, but we will begin shortly, and are now getting ready to purchase a lot of land in the northern part of the Province. We do not think that there is anything illegal in what we have done, or what we are going to do. If we did, we would not have selected offices in such a prominent place."

"But you hold drawings, do you not?"

"Yes, we are allowed to hold drawings, by which shareholders are enabled to acquire a number of privileged shares free of charge. We are not a lottery, however, in the common acceptance of the word, for whoever invests in a share cannot lose anything, for even if he does not draw any of the privileged shares, the share still remains his property. Another feature which distinguishes our company from a lottery is the fact that we do not pay money prizes, and that we do not give money for the privileged shares."

"They have a certain money value, however, have they not?" he was asked.

"Oh yes, was the reply, and if brokers will buy them, we cannot stop them."

In further conversation Mr. Menieur stated that a person could buy as little as a fifth of a share at a time.

"You are not afraid of the police interfering with you?" he was asked.

"No," he replied, "we are not, and if they do we will fight the matter to the bitter end."

"Why did you stop business?"

"Well we started a little too soon, and, after doing business for the first days of this week, we decided to wait till next Monday, so that we would have time to put our affairs in smooth running order."

"How large are the prizes a shareholder can win in the matter of privileged shares?"

"I do not know exactly," said Mr. Meunier, but there is a regular scale provided by our minutes."

COMPANY'S LEGAL ADVISER.

Mr. Meunier gave the address of Mr. Goyet, the lawyer, who had obtained the charter for further information.

Mr. Goyet explained, like Mr. Meunier, that the company was not a lottery in the regular term of the word, because there could be no loss, and the drawings were only for privileged shares.

"We intend to shortly commence with our colonization work, and I have had interviews with that end in view with Messrs. Sifton and Gouin.

"Our idea is to give each settler who settles with us two lots, and for two years sufficient assistance to become independent. After that we can take one lot, and leave him the other. We must put up ten per cent. of our capital stock, which is $95,000, but we have found out that this is far too small, and we will apply next month to have this increased to a million."

Mr. Goyet, like Mr. Meunier, was unable to state exactly how many privileged shares the holder of one share could win in the drawing, but endorsed the statement that it was according to a scale, which was embodied in the by-laws of the company. He also emphasized the fact that the company did not give money for the prizes won.

"However," he said, "these privileged shares become the property of the shareholders who win them. If you want to sell your hat, and can find a buyer, there is nothing to prevent you from selling it, and it is the same with these privileged shares. If a broker wants to buy them, the owner will have a perfect right to sell them."

Mr. Goyet was asked to explain the modus operandi of the drawings, and said: "They use a big wheel the same as in lotteries, and if you happen to have the lucky number you may get a hundred privileged shares or perhaps more."

Mr. Goyet, like the other gentlemen interested, has no fear of police interference. "If they do interfere," he says, "we will fight them legally in virtue of our charter."

THE LETTERS PATENT.

The following is the notice which appeared in the Canada Gazette:

PUBLIC NOTICE is hereby given that under The Companies Act, 1902, letters patent have been issued under the Great Seal of Canada, bearing date the 13th day of June, 1902, incorporating, Albert Desjordy, manufacturer; Henri Dubois, innkeeper; Amedee Meunier, innkeeper; Arthur O. Fiset, importer; V. Elias Rivet, accountant; George Giguere, manager, all of the City of Montreal, in the Province of Quebec, for the following purposes, viz.:

(a) To acquire and own, to improve, lease and hold, by any legal title, all such lands, timber limits, real and moveable property, water powers and privileges and other appurtenances and improvements as may be necessary or useful in connection with their business as a colonization company and lumber dealers, and to sell, lease or otherwise dispose of the same or any part thereof, the operations of the company to be carried on throughout the Dominion of Canada.

(b) To establish settlers and to furnish and advance them the money necessary for the founding of their establishment under the most advantageous conditions for the object of promoting colonization.

(c) To have the shares in the said company subscribed for with or without premiums, distributed on drawing by lot among the shareholders, payable in privileged shares of the said company only.

(d) To distribute by lot amongst the shareholders of ten per cent. of the lands belonging to the company by the name of "The Colonization Company of Canada" (Limited), with a total capital stock of ninety-five thousand dollars, divided into three hundred and eighty thousand shares of twenty-five cents.

Dated at the office of the Secretary of State of Canada, this 13th day of June, 1902.

R. W. SCOTT,
Secretary of State

THE CORONATION DATE.

It is Said it Will Take Place August 9th.

LONDON, July 10.—It is said on good authority, that subject to the approval of King Edward's physicians, the coronation will take place August 9.

Results at Henley.

(See also page twelve.)

HENLEY, July 10. — The final for the Wyford Challenge Cup was rowed in rough water and stormy weather. Burton jumped off at the start and was never threatened.

In the final heat for the Thames Challenge Cup, Trinity Hall, Cambridge, beat Royal School of Mines Boat Club by 2 1-2 lengths. Time, 7 minutes 34 seconds.

In the final heat for the Silver Goblet, W. Dudley Ward, and C. W. H. Taylor, Third Trinity, Cambridge, beat the London Rowing Club easily. Time, 8 minutes 36 seconds.

In the race for the Visitors' Challenge Cup, Jesus College, Cambridge, beat Balliol College, Oxford, by one-third of a length. Time, 7 minutes 59 seconds.

Religious Orders of France.

PARIS, July 10. — The Premier, M. Combes, has instructed the prefects of all the departments, to notify the religious orders who have not compiled with the law of associations that unless they are dissolved within a week, their establishments will be forcibly closed. Two thousand establishments are involved.

New Station for Ottawa.

OTTAWA, July 10. — Mr. E. J. Chamberlin, general manager of the Canada Atlantic Railway, stated to-day that the company will commence work on the new Central Station for Ottawa this year. The station will cost a quarter of a million dollars, and will be for the accommodation of all systems entering the city.

Mr. Fitzpatrick at Quebec.

(Special to the Montreal Star.)

QUEBEC, July 10.—Hon. Charles Fitzpatrick, the Minister of Justice, is here from Ottawa to-day.

PERSONALS.

(See also page twelve.)

Mayor Cook, of Ottawa, is at the Hall.

Mr. L. Z. Joncas, of Quebec, is at the Hall.

Miss Blanche Lamb, of Cohoes, N.Y., is at the Hall.

Mr. N. Riona, of Quebec, is staying at the Hall.

Mr. H. D. Barry, of Toronto, is a guest at the Queens.

Miss Belle Dunham, of Cleveland, is registered at the Hall.

Mr. and Mrs. F. E. Henderson, of Moncton, are at the Queens.

Mr. and Mrs. E. K. Smith and family, of Scranton, are staying at the Hall.

Miss Florence O. Keys, of Vassar College, Poughkeepsie, is staying at the Hall.

Miss E. M. Dibblee, of New Brunswick, has returned to town, and is the guest of her sister, Mrs. Robinson, 515 Cadieux street.

SEAWANHAKA CUP TRIALS.

They Will Really Commence on Saturday Next.

The real trial races for the Seawanhaka Cup will commence on Saturday next. Mr. Charles Routh has had Osma out since last Saturday, and had some very satisfactory work out of her.

Melons Cooked on the Vines.

SAN FRANCISCO, July 10.—One of the perils of ranching on the Colorado desert has just fallen upon the young colony of Coachella, three miles from Indio, on the line of the Southern Pacific Railroad and only a short distance from the famous Salton Sea that puzzled the scientists a few years ago when the flood waters of the Colorado River poured into this lowest sink of the desert. Two years ago it was found that artesian water could be secured at Indio and its vicinity, at a depth of 500 feet, and at a cost of only $300 a well. It was found that melons grown on this irigated land ripened earlier than in Arizona. Last year at Coachella sixty acres were put in and twenty-five carloads of melons were sent East, which netted the growers $1,000 a car. This year 900 acres were planted and 300 carloads were ready to ship for which $1,200 a carload was offered. Last Friday a sandstorm occurred. It lasted three days and the lowest temperature in all that time in the shade was 126 degrees. The melons were cooked on the vines and the growers will not have a single crate to ship.

King Edward's Recovery.

(Boston Post.)

The steady progress of the King of England towards recovery is a cause of thankfulness and congratulation all over the world. In the United States this sentiment is unanimous. It is not that we, citizens of a democracy, hold the ruler of a people to be superior to the people. Neither is it that the death of the head of a constitutional monarchy can disturb such a Government. There is nothing that would be shaken in the system of the British Empire by the decease of the sovereign and the accession of the heir-apparent. All would go on as before. But in the case of King Edward there is a feeeling of peculiar gratification at the probability that his life will be spared and that he will continue the ruler of Great Britain. This is due to the fact that he has shown himself a fit monarch.

There is a very kindly feeling toward Edward VII in the hearts of the American people. He has been our guest, and to that extent we think we know something about him. In his long apprenticeship to the throne, he has conducted himself with a diligent regard for the requirements of the position to which he has at last attained, and we think he is a pretty fair example of what a sovereign ought to be. We are glad he will live to reign.

As for King Edward as a man, the readiness with which his physical powers respond to the critical demands laid upon them by the operation for the relief of his malady shows him to be "sound." There has been a great deal of malicious gossip about his manner of life as the Prince of Wales, and insinuations of weaknesses and lesions either inherited or caused by dissipation. But when a man of his years can pick up at the rate he has done from such an illness and such an operation, he is neither a degenerate nor a weakling nor a roue. He is sound physically.

NEW YORK.—Charles H. Criss, a well-known cotton broker and member of the New York Cotton Exchange, died suddenly of acute Bright's disease at the Normandie, Normandie-by-the-Sea, N. J.

Gustave Bruce Berckman, a member of the firm of Tiffany & Co., died yesterday in London of typhoid fever.

The Wheat Market is Dull.

(Special to the Montreal Star.)

CHICAGO, Ills., July 10.—Wheat is dull. September sold from 73 1-4 to 74c, back to 73 1-4 and 73 3-8c. The market was unsettled and turned rather weak along towards the close. The map again showed a good deal of rain in the west, but generally clear weather was predicted. Local traders were inclined to sell the distant futures on the improved outlook, but the feeling in July was strong owing to small receipts. The Price Current said the crop showed further slight deterioration owing to storms.

Corn—July sold between 85 to 87c early and off to 83 1-2c. September at 61 1-4c to 61 7-8c to 61 3-8c Prices show somewhat lower tendency. The deal in July was again inactive and the bull leaders let the price go unsupported. Improved weather tended to weaken the more distant market.

Sales of Canadian Pacific in the New York market up to one o'clock to-day were 3000 shares.

Total sales in the New York market up to 1 o'clock to-day were 140,000 shares.

NEW YORK STOCK EXCHANGE.

Specially reported for the Star by C. D. Monk, 16 St. Sacrament street, local manager for J. S. Bache and Co., New York, over direct private wire.

Canadian Pacific Earnings.

Canadian Pacific Railway traffic earnings from July 1 to 7 were:

1902	$695,000
1901	599,000
Increase	$96,000

For the same period a year ago the increase was $14,000.

The Montreal clearing house statement is as follows:

Total for week ending July 10th,

1902	21,379,617
Corresponding week, 1901	21,712,698
Corresponding week, 1900	16,542,904
Coresponding week, 1899	16,017,648

Manual Training Topic Of Prof. Robertson's Address To Pupils at Westmount.

Prof. James W. Robertson, Dominion Dairy Commissioner, and superintendent of the McDonald Manual Training Schools in Canada, yesterday addressed the teachers at present pursuing a course in manual training in the Westmount Academy. The address was delivered at the close of the day's work, at four in the afternoon, and was throroughly practical in its character. For upwards of an hour Prof. Robertson urged the importance of manual training from the educational and economic point of view, as it gave the teachers more power than they thought they possessed, it awakened them to a knowledge of their capabilities, and it also tended to make their pupils unselfish and self-reliant, and imbued them with a desire to carry things through to a finish.

Prof. Robertson was accompanied by Sir William McDonald and Mr. Hyams, an American educationalist, and was introduced to the teachers by Mr. Johansson, superintendent of manual training at the Westmount Academy. Between forty and fifty teachers, chiefly from Montreal, listened to the address.

An inspection of the class preceded the speech-making, and the visitors were shown specimens of paper work, wood carving, carpentering, etc., made by the teachers. The latter were also seen at work, and as they plied saws and planes and chisels and drawing knives, and all the other appurtenances connected with a carpenter's kit, the sight was a novel one. Most of the members of the class were ladies, and they appeared to greatly enjoy their somewhat unconventional work.

BENEFITS OF MANUAL TRAINING.

Prof. Robertson spoke of the benefits of manual training to the educational work of this province. He referred first to the important part it played in the lives of the teachers after it had been understood and thoroughly mastered by them. It gave them an inkling as to the powers they possessed. It developed their strength, both physical and mental. It taught them self-reliance and made them think. How many, he asked, of those to whom he was speaking had any idea a week ago that they possessed the powers that were being exemplified at the carpenter's bench that afternoon. It was safe to say that very few of those present then thought they possessed the talent to carve, to plane, to mitre, and to construct such articles as were laid on the table before him. Manual training, therefore, had revealed to them certain aptitudes which they possessed for doing certain things.

It had made them more powerful, it had educated their hands and their eyes, and it had given them a consciousness of newborn strength and a knowledge of something they did not know before.

Manual training, in so far as the pupil was concerned, made him an interested student. It excited the child's curiosity, and when wonder and curiosity were awakened in a child's breast, the task of driving home the day's lessons was a comparatively easy one. Manual training made the pupil a practical pupil, and it accustomed him to look at things in a practical sense. There was such a thing as too much Latin and Greek, but there could never be an over-dose of practical training in a child's life. Manual training with the pupil as well as with the teacher, taught him to educate the eye and the hand, taught him method and the "why-for" of things, taught him to be self-reliant and developed the more useful powers within him, powers that would stand him in better stead in after life than all the books and literature and mathematics in the world.

MADE SCHOLAR INTERESTED.

Manual training made the scholar interested in his work. His studies grew to be a delight to him. They became great object lessons. The subject of Euclid, for instance, could be better studied if the pupil was enabled to go to a manual training bench after the lesson and put into practice the principles and rules he had learned in the class. So in botany. A child might study botany books for days, might read all about the construction and manner of growth of the potato, for instance, and yet he might not retain the knowledge he acquired. But let a teacher, at the close of the lesson, take a potato, and make it the object of a quiet little talk, explaining its colour, showing how it grew, what its value was, what its enemies consisted of, and she would drive home such a knowledge of the vegetable into the minds of her pupils that they would never forget what she had told them.

So in all spheres of school life, manual training could be made a powerful factor in the education of the young.

To-day, in Quebec, the teachers were sowing a seed which in the course of thirty years would result in a magnificent crop of self-reliant and watchful men and women—men and women who would be a credit and a blessing to the province.

ENJOYABLE LUNCHEON GIVEN ON BOARD NEW SS. LAKE ERIE.

Messrs. Elder, Dempster and Company, gave an informal luncheon on board their fine steamship the Lake Erie at half past one o'clock yesterday afternoon, those present being well known business and transportation men connected with the Montreal trade.

This is the first visit of the Lake Erie to the port, the vessel having been engaged as a troop ship during the latter part of the South African war. The guests inspected the ship and expressed themselves as greatly pleased with the fine appointments of the vessel.

Mr. A. E. Cook, freight manager of the Elder, Dempster Company presided at the luncheon which was given in the dining saloon. Mr. David Campbell, the Canadian manager of the line, being absent in England.

The Lake Erie is a sister ship to the Lake Simcoe, and has a gross tonnage of 8,090 tons. The vessel was built by Messrs. Barclay, Currie & Co., of Glasgow, to the order of Messrs. Elder, Dempster & Co. Her dimensions are: Length, 461 feet; beam, 52 feet; depth, 30 feet. The vessel was built in 1900 of steel, and possesses water ballast tank of enormous capacity, and is one of the most modern vessels afloat. She is fitted out like her sister ship only that she has a smoke room upon her deck that the Lake Simcoe does not possess. The staterooms are large and airy, and the berths are fitted with spring mattresses, and convenient smoke-rooms are fitted up for gentlemen, while ladies find a parlour provided for them.

Among the invisted guests were His Worship Mayor Cochrane, Hon. Senator Mackay, Messrs. L. E. Geoffrion, R. S. White, Capt. Reid, J. W. Loud, Geo. Bosworth, D. McNicoll, A. F. Read, John Corbett, Robert Meighen, L. N. Thompson, M. A. Overend, W. Stewart, J. Hardwell, Geo. Thompson, Norman Wright, C. B. Esdaile, J. S. Norris, R. Peddie, G. T. Bell, C. E. E. Ussher, William Egg, J. Alexander, A. A. Ayer, J. McKergow, P. W. McLagan, D. A. Macpherson, A. Hodgson, H. A. Hodgson, Wm. Nivin, W. T. Ware, John Orpe, A. W. Grant, G. Foster, A. C. Iwenecke, G. Hodge, A. D. McGillis, Chas. J. Baird, J. Carruthers, H. D. Metcalfe, J. Coffey, J. Melady, J. Burton, A. Jacques, N. Christensen, S. Barker, E. Nicholson, W. Power, J. W. Todd, P. Brennan, J. W. Anderson, J. McShane, J. Kentghen, Thos. Henry, Wm. Henry, J. Jones, J. Kirkpatrick, J. Hibbard, J. W. McCullough.

YORKSHIREMAN TELLS OF MINING LIFE IN THE FROZEN NORTH.

Mr. James McKie, a native of Yorkshire, Eng., who has spent several years in the Atlin and Klondike districts, was in the city yesterday and sailed by the Lake Erie to-day for England. In speaking of the gold country and its approaches, Mr. McKie said the route is now in fairly good condition, and that the improvements at Five Fingers have rendered the river very much better during the past year. He added that a little more work at the head of Labarge, thirty miles below White Horse, would make the river route all that could be desired. The trip from White Horse to Skagway, 110 miles by rail, is covered in six and a half hours, yet the passenger rate still remains at $20. The freight rates, however, are much lower, with the result that everything is now much cheaper in the Yukon country. The ordinary labourer who used to work for $8, $10 and $11 a day is now satisfied if he gets $4, and he can today purchase his sugar at 8 cents, tea at 50 and 75 cents, and a 50-pound sack of flour for $3.75.

Mr. McKie said that nuggets had been found at Skookum, off Bonanza, which showed that they had been carried a very short distance. His theory is that most of the Klondike district had in past ages been 500 or 600 feet higher and had been ground away; in fact, gold is being found away up on the side hills and in some instances 400 feet from the bed of the creeks.

Building Will Begin at Once.

Mr. Chas. M. Hays, second vice-president of the Grand Trunk Railway, has approved of the plans of the new Railway Young Men's Christian Association at Point St. Charles, and the building will be begun at once. It will be three storys high and will cost $3,000. Besides the class rooms, reading rooms, gymnasium, library and other departments of the ordinary Y. M. C. A. building, it will have a dining room, lunch counter and other conveniences for the use of the members.

Trip on the Continent.

Mr. M. Hicks, the auctioneer, accompanied by his son, has left on the Lake Erie for an extended trip to England, Ireland and Scotland, and the Continent, Mr. Hicks makes this trip every summer, and generally succeeds in collecting large consignments of Rugs, Paintings and Linens, which are offered to the Montreal public in the autumn.

Fight Took Place After Peace Terms Were Signed

Trooper H. C. Massiah, of the South African Contabulary, writes to his mother under date of Potchefstroom hospital, June 6, to tell her of a fight which took place after the peace terms were signed, in which the Constabulary suffered. He says—"Last Friday while the S. A. C. columns were operating in the Losbergs, our advance scouts consisting of a squad from 15, 16 and 18 Troops ran into the Boers. Lieut. Trevennick and Troopers Devereux and Woods, of 16 Troop, were killed and a trooper from 15 Troop and Trooper O'Keefe of 18 Troop, were wounded. Lieutenant Trevennick is from England and joined us from the Imperial Yeomanry. Devereux and Woods are Canadians, and the others English. Trooper Connell, of 16 Troop, had a hole put through his left ear. Our lieutenant, (16 Troop) died here in hospital Sunday morning.

"So peace is declared and our real work commences. There is going to be a big celebration here Coronation Day and all the S. A. C. troops are to take part in it. The war is over in a sense, but there will be some who will have to wait here for they have work to do. I am now able to be out of bed for four hours a day and will be in the Convalescent camp in a day or two."

He sends greetings to all old friends in Montreal and Lachute.

Luncheon to Artisans' Society.

The aldermen yesterday afternoon entertained the Society of Artisans to luncheon on the mountain top. A number of speeches were made. The event was a pleasing one.

OUTINGS.

An Inexpensive and Ready Prepared Luncheon.

During the vacation, suppose you cook less and play more.

Grape-Nuts, the food that makes breakfast so easy to get all the year round, is the ideal food for that purpose.

Grape-Nuts is thoroughly cooked at the factory by food experts, and is always ready to serve with the addition of cream. You can save yourself the heat from cooking and the time and exertion necessary to prepare other food, by its use.

Its high nutrition gives strength and nourishment without the internal heat of meat and other heavy food, keeping the temperature of the body cool and comfortable; its delicious flavour pleases every palate.

Picnicker and camper as well as the housewife preparing the regular meals at home, can pass a pleasant and enjoyable summer by the use of this ready prepared and easily digested food and will miss the usual heavy and sluggish feeling generally felt in hot weather.

Many pleasant ways of changing the form of use found in recipe book in each package. 161 1

An Outremont Delegation.

In compliance with an invitation sent by Mr. L. O. David, City Clerk, a delegation from the Council of Outremont, will visit the City Hall in a few days, to ascertain upon what conditions Outremont is invited to be annexed to the city. The deputation will consist of Messrs Joyce, Lamoureux, Beaubien, and Landoc.

Public Works Appointment.

It is rumoured that Mr. Louis Coste, who was well known in Montreal as the Chief Engineer of the Department of Public Works, will be made Deputy Minister of the same department, succeeding Mr. A. Gobeil, who retires to form a law partnership in this city.

Special Meeting on Friday.

There was no meeting of the Police Committee yesterday afternoon, so a special meeting has been called for Friday morning when it is likely that the long expected promotions will be made.

Would-be Firemen Examined.

Yesterday afternoon the Fire and Light Committee assisted by Chief Benoit, examined a number of applicants for the position of firemen. It is the intention to fill the vacancies from this list in future.

Inspecting the Waterways.

Hon. J. I. Tarte arrived in the city yesterday, after a trip through the Temiskaming and Lake St. John districts, and is enthusiastic over the possibilities of these regions. He says that there is room for hundreds of thousands of settlers. Hon. Mr. Tarte again left the city at noon with his staff, on a tour through the Great Lakes for the inspection of the waterways.

FIFTY YEARS' PROGRESS OF B. LEDOUX & CO. MARKED BY BANQUET

Canadian Workmanship, Says Mr. Ledoux, is Equal to Any in the World.

Fifty years ago yesterday, the firm of B. Ledoux & Co., the well-known waggon and carriage manufacturers, of 93 Osborne street, was founded, and the banquet given last night, for the purpose of celebrating the fiftieth anniversary, was a decided success.

One of the ware-rooms of the spacious factory was converted into a dining hall for the occasion, and it was nicely decorated with bunting, flags, ferns and flowers. Mr. Charles Ledoux sat at the head of the table, and grouped around him were personal friends, business associates and employes of the establishment. Those who were present included: Senator Casgrain, Mr. J. G. H. Bergeron, Mr. F. D. Monk, M.P., Dr. Desrosiers, Mayor Lighthall, of Westmount, Mr. F. X. Perrault, Chief Prevost, of Ottawa; Mr. H. Cameron, Brantford; Mr. J. Hamilton Ferns, Mr. A. Bissonnette, Dr. Laberge, Mr. J. Fortier and ex-Ald. Faucher.

The toast list included "The King," "Mr. Charles Ledoux," "Our Parliaments," "The Guests," "The Bar," "The Employes," and "The Ladies."

In responding to the toast with which his name was coupled, Mr. Ledoux said:

"As no doubt you are aware, there have been big strides made in the building of carriages, as there has been in other branches of business. Canada is still a young country; still, for all that, Canadian workmen have shown to the rest of the world that they can turn out work with the best of them, and are not afraid to put their products in competition with those of other and older countries. As Canada has shown to the world what her young men could do on the veldts of South Africa, so can her workmen and mechanics show what they can do in the commerce of the world."

The speaker declared that goods can now be produced in Canada as good, if not better, than we have been accustomed to importing, and the time is approaching when goods labelled "made in Canada" will be considered superior in finish and durability to those made in Germany or any other country. (Cheers.)

Speeches were also made by Senator Casgrain, Mr. F. D. Monk, M.P., Mayor Lighthall, of Westmount, and by Mr. J. B. Augrignon, on behalf of the employes of the firm. All congratulated Mr. Ledoux on the anniversary and expressed kindly wishes for the future prosperity of the firm. An orchestra discoursed music during the evening. The fact was recalled during the evening that the women of Canada showed their confidence in the firm when they had the carriage presented as a wedding present to the Prince and Princess of Wales built at this factory.

AN INCREASE IN FIRES DURING PAST SIX MONTHS.

A report showing the number of fires for the first six months of the present year was issued at the Fire Alarm Department yesterday afternoon. During that time the number of fires was 514, as against 491 for the six months in the year preceding. Here are some of the details: In January 78 streams, 52 hand extinguishers, and 6 buckets were used; in February, 36 streams, 39 extinguishers, and 12 buckets; in March, 21 streams, 19 extinguishers, and 8 buckets; in April, 32 streams, 33 extinguishers, and 9 buckets; in May, 47 streams, 31 extinguishers, and 20 buckets; in June, 52 streams, 21 extinguishers, and 11 buckets.

The chief fires of the first half of the year are the damage to the plant of the Royal Electric Company, January 16; the entire destruction of the Guardian Assurance offices, January 28; the destruction of St. Mary's church, February 17; the fire in the establishment of the American Silk Waist Company, April 28; the fire on the steamer Forest Holme, May 3; and finally the fire in the lumber yards of J. Grier, June 17.

SUBURBAN NOTES.

The Westmount Town Council will meet this evening for the purpose of considering a project to extend Westmount avenue.

Miss Mauzur, of St. Alban's, Vermont, who was visiting Miss Lane, of Forfar street, Point St. Charles, last week, has returned home.

Work on the new Roman Catholic church, at Westmount is proceeding rapidly, and it is expected that this building will be ready for occupancy by Chrstmas. The walls are now nearing completion.

Several new rustic bridges are being added to those that already cross the pretty little stream in Westmount Park. The grounds are also being sodded, and additional trees are being planted. The Park is now a delightful place in which to spend the afternoon.

Nuisance Complained of.

The residents of St. Denis street, between Lagauchetiere and Dorchester, are greatly annoyed during the summer months by the nauseating emanations coming from a butter factory situated in the lane. The Board of Health was often notified last year, and then petitions were sent, but to no avail. This constitutes, it is claimed, a great nuisance and a danger to the health of the neighbourhood.

Hospital for the Insane.

The report of the Protestant Hospital for the Insane for the week ending July 8, shows: Admissions, 5; discharged cured, 4; discharged on trial, 6; deaths, 1.

The visiting governors for week commencing 14th inst., are:—Messrs. Jas. Coristine, A. A. Ayer, Bishop Carmichael, and Dr. G. E. Armstrong.

Participated in An Assault.

Albert Cote was fined $20 and costs yesterday, or two months' in gaol, for participating in the assault upon Captain Labelle and his family at Verdun on Dominion day. Judge Desnoyers said that he wished he could make the punishment greater.

Business Notes.

Marie Cantin has registered in the Tutelle Office as doing business under the name of M. Meunier and Co.

Arthur Depatie will do business as a plumber under the name of Jos. Labelle and Co.

Extension of the C. P. R.

Sir Thomas Shaughnessy had two interviews yesterday with the directors of the Railway Company of the Colonization of the North in connection with the extension of the line from Labelle to Nominique.

THE MAN FROM GLENGARRY.

Passionate Intensity.

The Literary Digest.—"The opening of the story is Homeric and of fine quality. There is nothing in this book comparable to the fights. They are spiritual and physical; and if the former are closer to Mr. Gordon's heart, the latter are pictured by his pen with a more passionate intensity. . . . The life in the woods of these shantymen affords the most delectable reading. . . . Mrs. Murray, an admirable figure, undoubtedly has her prototype in the author's mother. Mary Robertson Gordon taught philosophy at Mount Holyoke when she was twenty, and declined the principalship later to marry a young Scotch clergyman, and retire with him to the wild isolation of the backwoods."

Street Railway Employes Get Ten Per Cent Increase

The conductors and motormen in the employ of the Montreal Street Railway and the Park and Island Railway will receive an increase in wages, which amounts to about ten per cent. This increase is made retroactive, beginning from the first of July.

This was the decision arrived at by the directors of the two roads, held yesterday afternoon. Immediately after the meeting, General Manager Wanklyn issued the following circular:

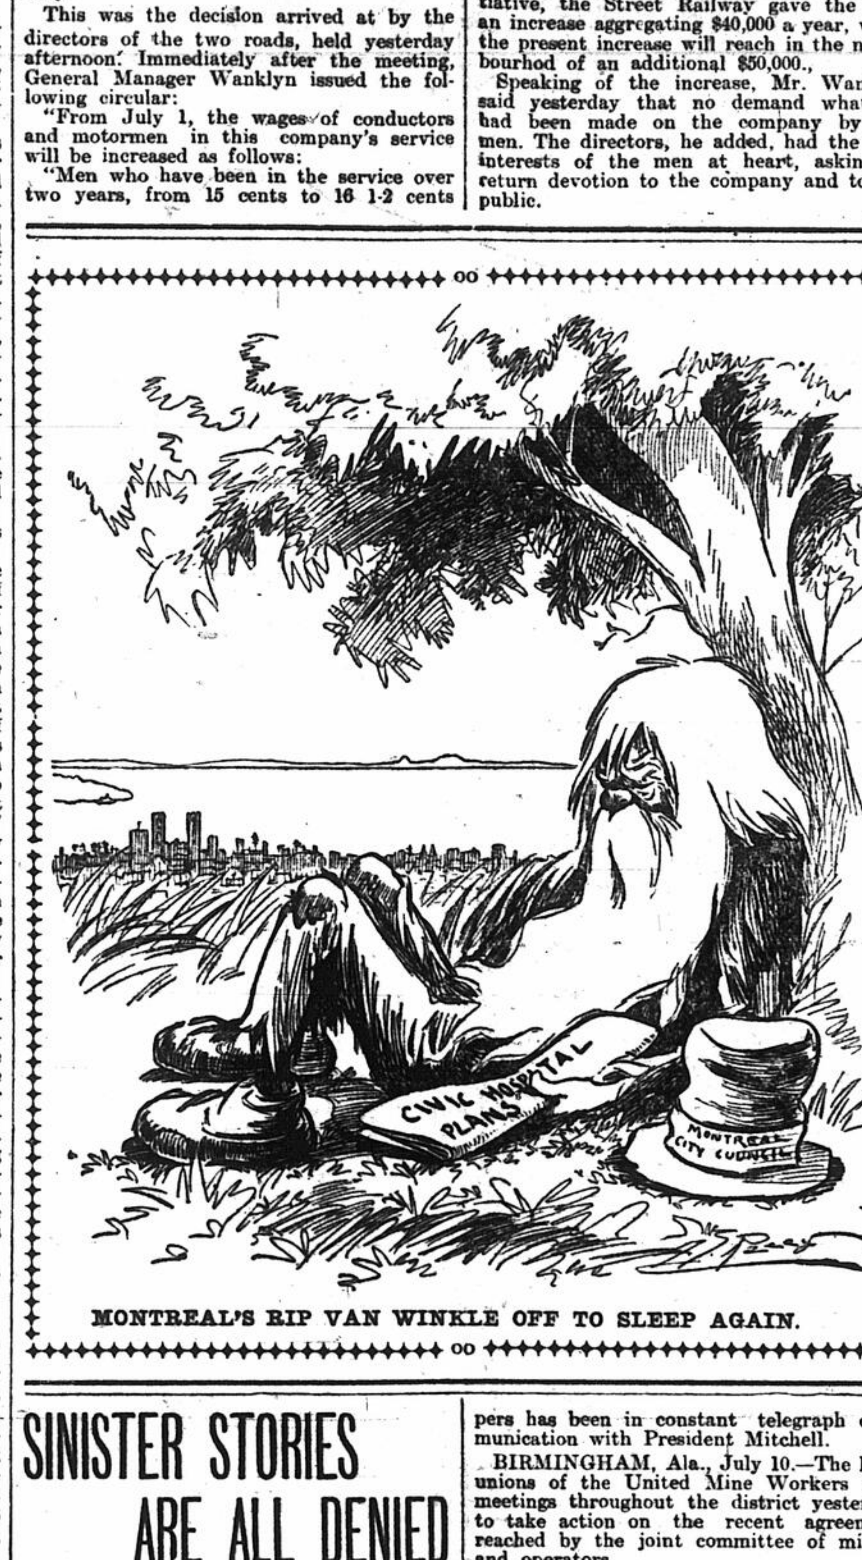
"From July 1, the wages of conductors and motormen in this company's service will be increased as follows:

"Men who have been in the service over two years, from 15 cents to 16 1-2 cents an hour; under two years from 14 2-7 cents to 15 1-2 cents an hour."

The order affects about 1,800 men, and as they work on the average ten hours a day, the increase is a substantial one. Men of over two years' service will get over $50 a year more.

Three years ago, acting upon its own initiative, the Street Railway gave the men an increase aggregating $40,000 a year, while the present increase will reach in the neighbourhod of an additional $50,000.

Speaking of the increase, Mr. Wanklyn said yesterday that no demand whatever had been made on the company by the men. The directors, he added, had the best interests of the men at heart, asking in return devotion to the company and to the public.



MONTREAL'S RIP VAN WINKLE OFF TO SLEEP AGAIN.

SINISTER STORIES ARE ALL DENIED

An Authoritative Statement in Regard to the Health of King Edward.

A FAVOURABLE BULLETIN

Speculation Continues as to the Date of Coronation—The King Favours August.

LONDON, July 10.—The bulletin on King Edward's condition, posted at Buckingham Palace at 10 o'clock this morning, says:

"The King's condition continues to be satisfactory.

(Signed), "TREVES, "LAKING, "BARLOW."

An authoritative statement regarding the health of King Edward was published in today's issue of the British Medical Journal. It says:

"In view of the fact that sinister stories continue to be manufactured and printed, it may be again stated as emphatically as possible that after the operation no trace of malignant disease was observed, that no suspicion of any kind has arisen since, and that the medical attendants are quite satisfied that His Majesty's constitution is thoroughly sound."

The British Medical Journal adds:

"The progress of the last week has been everything that could be desired. The wound, although still deep, is granulating well. During the last few days the improvement in His Majesty's general health has been remarkably rapid. The King has regained his strength almost completely, and is able to take restricted diet with a good appetite.

The Lancet also stigmatizes as "lies" the sensational rumours circulated, and says:

"There is not and never has been the faintest shadow or ghost of a suspicion of any malignant disease."

The Lancet specifically asserts that the King is free from cancer.

WEDNESDAY'S PROGRESS.

Last night King Edward's progress was reported as uninterruptedly favourable. His Majesty reclines on a movable couch most of the day. Some of his physicians are still in constant attendance upon him.

It was announced last evening that it was His Majesty's present intention to be taken on board the royal yacht early next week.

The air is filled with irresponsible Coronation rumours. The date has not yet been announced with authority, but the news agencies have little difficulty in supporting theories based upon easy inferences that the Abbey service will be reduced one half.

The Marquis of Lansdowne, the Foreign Secretary, in the course of a conversation with an enquirer, professed ignorance of the date. Two members of Parliament, discussing the matter, stated that Sir Henry Campbell-Bannerman told one that Mr. Balfour said the King desired to be crowned as soon as possible. He would like the coronation to take place about the middle of August. This desire is held in court circles.

PRESIDENT GOMPERS TALKS.

Arrives at Denver to Preside Over Mine Workers' Conference.

DENVER, Colo, July 10.—President Gompers, of the American Federation of Labour, who is here, in an interview last night, said:

"The convention of the United Mine Workers meets in Indianapolis soon and the matter of a strike fund will be taken up. The convention will also vote on the proposition of calling all the soft coal members of the United States out on a general strike. It can hardly be believed they will do this because it would be better to keep them at work and concentrate all our strength on the anthracite strike. The miners will find we are with them heart and soul."

Since he has been in Denver, Mr. Gompers has been in constant telegraph communication with President Mitchell.

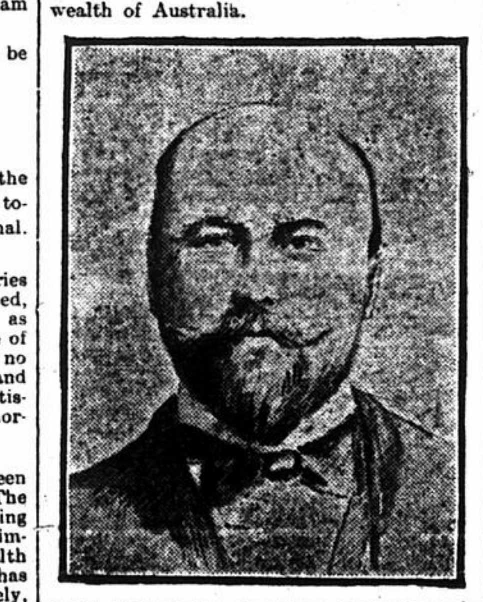
BIRMINGHAM, Ala., July 10.—The local unions of the United Mine Workers held meetings throughout the district yesterday to take action on the recent agreement reached by the joint committee of miners and operators.

It is understood that a majority of the locals, have declared in favour of accepting the scale and preventing a general strike.

EARL OF HOPETOUN'S PROBABLE SUCCESSOR.

Col. Harry Leslie Blundell McCalmont Will Probably Become Gov.-General of Australia.

LONDON, July 10.—It is said that Col. Harry Leslie Blundell McCalmont, M. P., has been chosen to succeed the Earl of Hopetoun as governor-general of the Commonwealth of Australia.



COL. HARRY LESLIE BLUNDELL McCALMONT.

Colonel Harry Leslie Blundell McCalmont, C. B., the Conservative member for the Newmarket division of Cambridgeshire, who is mentioned as the possible successor to the Earl of Hopetoun as Governor-General of Australia, is one of the richest Commoners in England. His selection would undoubtedly please the Australians for he is not only a democratic aristocrat, but he is one of the leaders of the English turf and can therefore sympathize with the great Australian predilection for horse racing. He is a member of the Jockey Club and also of the Royal Yacht Squadron, so that he would also be at home in his yacht in the beautiful harbour of Sydney. Colonel McCalmont was first in the 1st battalion of the 6th Royal Regiment and subsequently in the Scots Guards. He served in South Africa in 1900. He is in the prime of life, having been born in 1861, the eldest son of H. B. B. McCalmont, barrister-at-law. He has been twice married, first to Amy H., daughter of Major-General John Miller, who died in 1889, and secondly to Winifred, daughter of General Sir Henry de Bathe. Colonel McCalmont is personally one of the finest fellows in England, a hail fellow well met with everybody, a man without any "side" and one who would become most popular in Australia. He would in all probability be raised to the peerage before he went out to Australia, a distinction which would give much pleasure to the King, for Colonel McCalmont is one of His Majesty's closest personal friends.

A FREE VETERINARY BOOK.

A most useful little Veterinary Book is now attached to every bottle of Condy's Fluid (the great English Veterinary Remedy).

This Veterinary Book contains instructions from eminent Veterinary Surgeons for the cure of Ailments affecting Horses, Dogs, Cats, Poultry, Cattle and Birds.

Condy's Fluid is a speedy and absolutely certain cure for Sore Shoulders, Sore Backs, Broken Knees, Grease, Thrush, and Cracked Heels in Horses, Distemper, Mange, Canker, and Eczema in Dogs. Condy's Fluid can be obtained through all Chemists and Stores at about 50 cents a bottle. Refuse substitutes, all are inferior and some are poisonous. Insist on having "CONDY'S FLUID." Condy & Mitchell, of London, England, are the only makers.

AN ITALIAN CAPTAIN.

Cured by Pe-ru-na of Catarrh of the Stomach After Doctors Failed.

Hon. J. D. Botkin, Congressman from Kansas Writes an Interesting Letter

CAPTAIN O. BERTOLETTO.

Captain O. Bertoletto, of the Italian barque "Lincelles," in a recent letter from the chief office of the Italian barque Lincelles, Pensacola, Fla., writes:

"I have suffered for several years with chronic catarrh of the stomach. The doctors prescribed for me without my receiving the least benefit. Through one of your pamphlets I began the use of Peruna and two bottles have entirely cured me. I recommend Peruna to all my friends."—O. Bertoletto.

In catarrh of the stomach, as well as catarrh of any part of the body, Peruna is the remedy. As has been often said, if Peruna will cure catarrh of one part, it will cure catarrh of any other part of the body.

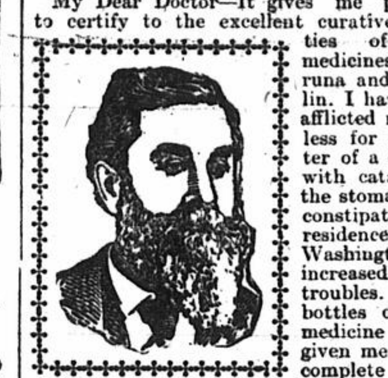
Catarrh is catarrh, wherever located, and the remedy that will cure it anywhere will cure it everywhere.

The following letter from Congressman Botkin speaks for itself:

House of Representatives, Washington, D.C.

Dr. S. B. Hartman, Columbus, O.:

My Dear Doctor—It gives me pleasure to certify to the excellent curative qualities of your medicines — Peruna and Manalin. I have been afflicted more or less for a quarter of a century with catarrh of the stomach and constipation. A residence in Washington has increased these troubles. A few bottles of your medicine have given me almost complete relief and I am sure that a continuation of them will effect a permanent cure. Peruna is surely a wonderful remedy for catarrhal affections.—J.D. Botkin.



This is a case of catarrh of the stomach which has run for twenty-five years, according to his statement, and Peruna has at once come to his relief, promptly accomplishing for him more benefit than he had been able to find in all other remedies during a quarter of a century.

It stands to reason that a man of wealth and influence, like a Congressman of the great United States, has left no ordinary means untried and no stone unturned to find a cure.

If such cures as these do not verify the claim not only that dyspepsia is due to catarrh of the stomach, but also that Peruna will cure catarrh of the stomach, it is impossible to imagine how any evidence could do so.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio. 161 1

ALL ABOUT THE GROWTH OF N.W.T.

The Official Year Book Just Issued Gives Interesting Information.

SOME FINE STOCK IMPORTED

Experiments Being Made at Calgary With New Grains—Sugar Beet Production.

The annual report of "Year Book" of the North-West Territories Department of Agriculture, just issued, consists of 186 pages, including the appendices and a comprehensive index of ten pages. The report, as usual, deals with a great variety of subjects, which indicate the broad field of the department's work.

The table showing the annual precipitation for the past eleven years has been carefully revised and makes a better showing for the Territories than that given in former reports. A new feature is the table presenting in a concise and striking way the relations existing between the meteorological conditions and the crop yields in the different districts for the past four years.

A crop reporting service for the Territories has been organized for the purpose of securing information as to the condition of the growing crops. The table of crop statistics covering the last four years may be summarized as follows:

PRODUCTION.

	Wheat.	Oats.	Barley
1898	18.01	28.93	26.29
1899	6,915,623	4,686,036	337,421
1900	4,028,294	4,226,152	353,216
1901	12,808,447	9,716,132	795,100

YIELD PER ACRE.

	Wheat.	Oats.	Barley
1898	18.01	28.93	26.29
1899	19.02	34.81	23.62
1900	9.75	24.08	20.72
1901	25.37	42.88	32.18

ACREAGE.

	Wheat.	Oats.	Barley.	Total.
1898	307,580	105,077	17,092	429,749
1899	363,523	134,938	14,276	512,737
1900	412,864	175,439	17,044	605,347
1901	504,697	226,568	24,702	755,967

The wheat blockade of the past season is treated of at some length, the causes as well as the difficulties in the way of the transportation companies in connection with it are enumerated.

AGRICULTURAL EXPERIMENTS.

Considerable space is devoted under the head of agricultural experiments to the matter of co-operative agricultural experiments, which have already proved so eminently successful in Ontario, and a scheme is outlined for the formation of a territorial experimental union. It is suggested that agricultural societies throughout the Territories be asked to assist in this work, by undertaking experiments suitable to their respective localities under the direction of the department. The experiments carried on at the Territorial Experiment Station at Calgary with fall and spring wheats, oats, malting barleys, speltz, rape and potatoes are fully described. Attention is drawn to the capabilities of Turkestan alfalfa as a fodder plant for the west. This variety promises better results than the common varieties.

The Deputy Commissioner goes very fully into the matter of sugar beat consumption. The statistics of sugar consumption in Canada given show the possibilities in this line. The methods of cultivation are clearly treated of and estimates are given at the cost of production per acre. A table is given showing polarization tests of sugar beets raised near Lethbridge under irrigation. The sugar content and purity figures in this table are quite remarkable and would seem to clearly indicate the suitability of this district for the production of sugar beets of a high class. Co-operative experiments throughout the Territories in order to ascertain in what particular localities the sugar beet industry may be successfully initiated, is suggested.

RETURNS FROM CATTLE.

The usual information and statistics of cattle exports, etc., are given. The whole question of the difference of beef cattle values at Chicago and Winnipeg is discussed and a detailed statement is presented showing the actual results from a shipment of 55 stray Canadian cattle sold in Chicago, by the Montana Stock Growers' Association for one of the largest cattle concerns in the Territories. The weight of evidence is that the American farmer in Montana does not receive any more for his cattle than the Northwestern raiser.

The deputy commissioner takes up the much debated question of the admission of Canadian store cattle into Great Britain and throws some new light on the subject. He also points out the great economic loss caused by the slaughtering of cattle immediately upon landing.

Thirty-eight pure bred bulls were brought into the Territories last year from Ontario and Manitoba points under the usual departmental arrangement.

The department, in conjunction with the Territorial Pure Bred Cattle Breeders' Association, is sparing no pains to foster the local production of pure bred cattle (the conditions being now favourable), and some pages are devoted to a discussion of the matter. To assist local breeders of pure bred stock, the department has entered into an arrangement similar to that already made for bulls, by which pure bred cows and heifers may be brought in free of transportation charges to the consignees on payment of a nominal fee to the department.

The usual statistics of the dairy industry in the Territories are given. The figures show continued and marked progress.

SHEEP AND SWINE.

Some account is given of the early history of the sheep industry in the Territories. The Deputy Commissioner reiterates his views with regard to the advantages of pasturing small flocks in woven wire fenced enclosures and of rape as a fodder plant for sheep. The unsatisfactory nature of the wool market in the Territories is noted. Atetntion is draw to the apparent necessity of sorting and classifying the clip, especially on the larger ranches. The department indicates its continued interest in the sheep industry by outlining an arrangement for the importation of pure bred rams at a nominal rate on a similar basis to that adopted in connection with bulls.

The importance of studying the demand of the British market in the way of swine products is strongly insisted on. Prejudices against the bacon type of hog from one obstacle which it is pointed out will have to be overcome by persistent educational work, particularly among new American settlers. Mr. Peterson, after a careful study of the experiments in pasturing hogs conducted by Mr. F. W. Hodson, Dominion Live Stock Commissioner, at Guelph, and other points, has been confirmed in the opinion that a general adoption of the plan of grazing hogs within limited enclosures would result in an enormous expansion of the swine industry and place the West in the front rank of bacon producing countries. The usual statistics of prices of live and dressed pork at Winnipeg and Edmonton for each month of the year are given.

EDUCATIONAL WORK.

Seventy-six farmers' institute meetings were held throughout the principal agricultural sections of the territories. Most of the speakers were from the Provinces of Ontario and Manitoba. It is, however, pointed out that steps should be taken to organize a large institute staff, recruited from local sources.

In addition to the usual statistics of the standing of the various agricultural societies, considerable space is devoted to a discussion of the efforts made by the department to make these institutions of practical benefit to the farmers of the Territories. The opinion is expressed that the results of the annual distribution amongst these societies by the federal and territorial governments have not altogether been satisfactory. The fair system comes in for some criticism, but the important place that might be filled by these organizations is indicated. The furnishing of expert live stock judges for agricultural fairs is an innovation for which the territorial Department of Agriculture is entitled to some credit, it having been the first department in Canada to move in this direction some three years ago, and its lead is now being followed by all the provinces. It is pleasing to note that notwithstanding some difficulties the system seems to have "caught on" and to be proving a success.

The report points out the unlimited field for immigration work in eastern Canada. The department by way of experiment, sent a number of specially prepared handbooks to the principal eastern papers, with a request for a notice of the same. The response was astonishing. The department received a large number of requests for the publication, as well as many letters of enquiry. There appears to be no doubt that much ignorance still exists with regard to western conditions in the East, and publications of this sort are the proper means of enlightenment. The usual statistics of immigration and colonization are given.

Copies of the report may be obtained free of charge on application, addressed to the Deputy Commissioner, Department of Agriculture, Regina, N. W. T.

"CYRANO" SUIT WITHDRAWN.

M. Rostand Declines to Continue Chicago Plagiarism Case.

(Special to the Montreal Star.)

CHICAGO, July 10.—The petition filed in M. Rostand's name last week by William Burry, attorney, by which leave was asked to reopen the Gross-Mansfield case, involving the authorship of Cyrano de Bergerac, was withdrawn yesterday, and thus the case, which has attracted so much attention in the local federal court for several years, was finally closed.

Mr. Burry explained that he had withdrawn the petition under instructions from M. Rostand. He said the French playwright had no hand in the filing of the petition last week, but that it was done at the request of a near relative through the French consul in Chicago.

Piles To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. 60c a box, at all dealers or EDMANSON, BATES & Co., Toronto.

Dr. Chase's Ointment

Curse of DRINK

Cured by Colonial Remedy

Can be given in Glass of Water, Tea or Coffee Without the Patient's Knowledge.

Colonial Remedy will cure or destroy the diseased appetite for alcoholic stimulants, whether the patient is a confirmed inebriate, "a tippler," social drinker or drunkard. Impossible for any one to have an appetite for alcoholic liquors after using Colonial Remedy.

Indorsed by Members of W. T. C. U. in United States.

Mrs. Moore, Superintendent of the Woman's Christian Temperance Union, Ventura, Cal., writes: "I have tested Colonial Remedy on very obstinate drunkards, and the cures have been many. In many cases the Remedy was given secretly. I cheerfully recommend and indorse Colonial Remedy. Members of our Union are delighted to find a practical and economical treatment to aid us in our temperance work." Mrs. A. M. Townsend, 218 Tremont street, Boston, Mass. (for years secretary of the W. C. T. U.), states: "I know of so many people redeemed from the curse of drink by the use of Colonial Remedy that I earnestly request you to give it a trial." Sold by druggists everywhere and by mail. Price $1. Trial package free by writing or calling on Mrs. M. A. Cowan (for years member of the Woman's Christian Temperance Union), 2204 St. Catherine st., Montreal.

Sold in Montreal by T. R. Goulden, 281 Bleury st.; E. J. Nadeau, Rachel and St. Denis; Gourlay's Pharmacy, 2613 St. Catherine street. 93 100 2aw

A HOT WEATHER BREAKFAST

It Should be Comforting to the Stomach and Helpful to Digestion.

Malt Breakfast Food

The Ideal Summer Breakfast Cereal is the True System Nourisher.

All experience goes to prove that a hot weather breakfast should be made of food that is comforting to the stomach, easily digested, readily absorbed by the system, and at the same time, a true nourisher and builder of flesh, tissue and muscle. Malt Breakfast Food fulfills all these conditions perfectly. A dish of Malt Breakfast Food at the morning meal gives energy and vim for the day's work. Ask your Grocer for it. 161 1

PERSONALS.

Capt and Mrs. J. Bonham Clay and family are at Little Metis.

INIQUITIES OF TURKISH RULE

Abominable Abuses in the Administration of Affairs.

BRIBERY AND CORRUPTION

Exist in Every Department — The General Disorders are the Symptoms of a Coming Storm.

WASHINGTON, July 10.—The following graphic description of affairs in Turkey is from an American gentleman who has resided there eighteen years and is familiar with every part of the country. The recent cable dispatches concerning revolutionary uprisings in Macedonia and other parts of Turkey and complications with France make this information unusually timely and interesting. He says:

"The state of the Turkish Empire morally, socially, financially and politically betokens the coming of a night of anguish. In every department of government the amount of shameless iniquity is appaling. Simony and bribery, treachery and extortion, always present but once wont to hide themselves, have lost all shame and fear of rebuke and are hideous in their ramifications. Socially the situation everywhere is dismal. You read of the riot and bloodshed in Albania, in Montenegro, along the frontiers of Bulgaria, and the more recent outrages and bloodshed in Armenia.

"Things are not quite so bad in Syria, though they are on the way to it. During the last four years a certain type of emissaries from Constantinople have sown seeds of bitterness among the Moslems and Christians until their relations to each other are marked with unusual hostility, suspicion and open bloodshed. Even in Beirut, one of the most peaceful and progressive cities in the empire, an active vendetta is in progress, and almost nightly men are murdered. No one is punished. No one's life is safe. It would seem as though the very foundations had fallen out of the social fabric.

"I can give in brief the reasons why this awful state of affairs will continue: First, the corruption of the courts, in which all crimes are condoned for money. The sole ambition of the unpaid officials after the collection of the exorbitant taxes is to get a hold upon citizens of every degree, and by means of charges false or true extort money from them. I have lived in Syria over eighteen years and have yet to hear the innocence or guilt of a prisoner or criminal dwelt upon. The officials apparently exalt in the increase of crime, caring only for the bribes and gifts resulting therefrom, while the wretched people caught seek only for a way by which they can get free from the clutches of these minions of the law. No one ever places any moral weight on the judgments delivered, for in ninety-nine cases out of a hundred they are worse than worthless. I am measuring my words and know whereof I am speaking.

"The second fruitful cause is the centralization of absolute power in Constantinople and the treacherous subversion of every vestige of civil rights ever enjoyed by the people. The present sultan years ago instituted a policy by which he was to become the absolute master of everything in the empire. The military establishment in its six great departments takes its orders directly from Abdul Hamid. The civil affairs are supposed to be administered through the Wilayats (some thirty-five in all). In former times the chief officials, civil and military, were almost absolute within their departments, and are still so in theory. But in recent years the sultan has by an invidious system of imperial idraes or edicts filched away every privilege and prerogative of these provincial officials. Constantinople has become a huge auction mart, where every position in the empire is bought and sold for a price.

"Worse than this is the ominous fact that the high provincial officials who once had the power to punish or remove a disobedient or unworthy subordinate are now powerless to effect any reform. When an official falls under their displeasure or judgment the matter must be referred to Constantinople. The delinquent hurries off to the capital and in most cases returns with an imperial rescript in his hand confirming him in his position and enabling him to defy courts and judgments, officials and public opinion. By this process the sultan has insidiously undermined and completely overthrown the legitimate form of government and replaced it by a set of spies iniquitous and despicable beyond degree. The despotic master and the irresponsible palace clique, which has displaced the real government at Constantinople, have now extended their abominable practices and travesty of justice to the ends of the empire. As a result the good men are disheartened and leaving the empire by thousands. Every one who even expresses dissatisfaction with the present regime or sighs for reform and change for the better is instantly branded as one of the young Turkish party and treated as a felon. So the empire has fallen into the hands of the worst elements, parasites and sycophants, who are mocking and baffling each other, in every department, while the common people are trampled under foot.

"The third cause of corruption and lawlessness is, if possible, worst of all. Immediately after the massacres in Armenia and Constantinople there were thousands of soldiers and officers and officials whose hands were dyed with innocent human blood and whose pockets and houses were filled with the accursed plunder which they were allowed to take as their reward. Fearing at that time that the powers might seek the punishment of these red-handed murderers, the sultan began a wholesale shifting of them to all parts of the empire. So that in Syria we have thousands of these brutes who participated in the killing of 100,000 Armenians. No one was even punished. No one was even rebuked. Europe in her pitiful jealousies failed to exact punishment from anyone. In a little time the sultan and all his miserable crew came to glory in the colossal crime. But retribution is coming. The Albanians and the Kurds, after such orgies of lawlessness and bloodshed rapine and plunder, could never be expected to lapse into law-abiding citizens of any empire, and so they are completely out of hand, and at this moment shaking off the last shadow of control from Constantinople and the parts of the empire which were once safe and law-abiding are now preyed upon by treacherous spies and men whose sense of decency and justice was forever blotted out by their awful acts in Arminia. So nither Europe nor the world need express any surprise as the hand of God rolls up the storm clouds of retribution and smites this empire with the awful agonies of the coming night."

Motormen as Passengers.

The yearly trolley ride of the motormen and conductors of the Montreal Street Railway took place last evening. The party filled thirteen cars, left the Hochelaga station at half-past eight o'clock, and, headed by a band, which occupied the first car, the party proceeded over the various routes throughout the city.

"Cook's Friend" BAKING POWDER
Is absolutely pure. It makes delicious buns, breakfast rolls, etc. Is more economical than other high grade baking powders and costs less. Any first class grocer can supply you.

Notes.

The steamship City of Rome, well known in the Atlantic trade, is reported to have been sold to parties interested in Italian commerce. The vessel was built by the Barrow Shipbuilding Company in 1881, and has a net registered tonnage of 3687 tons.

The steamship Carham, which has been chartered by Messrs. McLean, Kennedy & Co., is due in Montreal this morning, and will tie up at Hochelaga.

It has finally been decided to lay a cable from Anticosti to the Magdalen Islands. The distance is 116 miles.

OGILVIE MILLING A STOCK FEATURE

Sharp Advance in the Preferred on a More Active Demand for the Issue.

GENERAL MARKET WAS DULL

Canadian Pacific Fractionally Lower and Montreal Street a Point Higher—Dealings Light.

The correspondents of the Montreal Star in Wall street and on the Chicago Board of Trade report that stocks were dull, while wheat was stronger. In the local market stocks were strong. Sales on the New York Stock Exchange yesterday were 189,108 shares.

The only incident in the stock market during the forenoon to relieve the monotony of the dulness was the buoyancy in Ogilvie Milling preferred. The strength in this stock for some days past has attracted some speculative buying, which naturally sent the price higher in view of the fact that holders have assumed a very strong position. Even though the price has advanced 12 points since being placed on the market it is claimed that 119 to 120 is cheap for a 7-per-cent. cumulative preferred stock of a big going concern.

The first trading in Ogilvie preferred a few weeks ago was at 107, and in a few days the price rose to 110. Since then, however, the rise has been more rapid on account of the attention being paid to the stock by a few speculators. Since the first of the month between 1300 and 1400 shares have been purchased. To-day's advance was the most striking of any, amounting to 1⅝ points. The bonds were inactive this morning, but were firm at 115 bid.

Canadian Pacific declined a half in New York this morning to 134½, following a full point drop yesterday, and on the local market there were a few dealings at 135 and 134¾. Montreal Street rose a point to 276, and Richelieu offerings were mostly taken at 110. Dominion Steel was strong at 54, but there were no dealings in Dominion Coal. Detroit United was steady at 77¼.

A Boston message says: The Dominion Coal Company have closed another contract with the Boston and Maine Railway for 100,000 tons of coal at very favourable prices.

A New York despatch says: The time is approaching for action on the quarterly dividend on Twin City common. It is authoritatively stated that it will in all probability be 1¼ per cent., the same as declared for the last period, when the annual rate was raised from a four to a five per cent. basis. The next dividend on the common stock will be payable on August 15. Prominent interests in the company and in this city are well pleased with the progress made in the matter of earnings.

Messrs. L. J. Forget & Co.'s London cable to-day quoted: Grand Trunk first, 106½; second, 91 3-8; third, 39½; Canadian Pacific, 138⅛.

The Montreal Clearing House returns of bank clearings were $3,588,865.

Montreal Street Railway earnings Monday were $5612.65, an increase of $794.57, and on Tuesday $5007.10, a decrease of $23.30.

Grand Trunk Railway system earnings from 1st to 7th of July:

1902	$581,891
1901	512,472
Increase	$69,419

Montreal Exchange quotations: New York funds, 1-32d to 1-64d between banks, ¼p counter; sterling, 60 days, 9 5-32 to 9 3-16 between banks, 9 3-8 counter; do. demand, 9 11-16 to 9 23-32 between banks, 9⅞ counter; do. cables, 9¾ to 9 13-16 between banks, 10 counter; Paris, francs, long, 518⅜ between banks; do. do. short, 5.15⅜ to 5.15 1-16 between banks, 5.15 counter.

The weekly statement of the Bank of England shows the following changes:

Total reserve, increased	£410,000
Circulation, decreased	391,000
Bullion, increased	19,794
Other securities, decreased	9,903,000
Other deposits, decreased	5,409,000
Public deposits, decreased	1,031,000
Notes reserve, increased	433,000
Government securities, increased	3,696,000

The proportion of the Bank of England's reserve to liability is 48.69 per cent. Last week it was 42.95 per cent. Rate of discount unchanged at 3 per cent.

Messrs. J. S. Bache & Co., New York, send the following Wall Street advices through their local manager, Mr. C. D. Monk:

Americans in London firmer, 1-8 to 1-4 above parity. Strike conditions unchanged. Chances rather against increased dividend in St. Paul. Talk of strong hostility to Gould projects from eastern interests. Considerable short interest in St. Paul in London. Trade regards new opposition to American Sugar as serious. Understood J. P. Morgan & Co. will exercise option on Gates' holdings in L. & N. Forty-nine roads fourth week June average net increase, 7.67. Insiders discouraging bull operations in Amalgamated Copper. Accumulation of St. Paul continues. New interest entered market, taking all offerings of N. Y. C. Penna. sympathetically strong. Chicago freight handlers' strike settled. Sterling lower. Price Current says winter wheat is further slightly improved. Oats somewhat rusted and lodged, but prospects far above average. Corn maintains very good condition. Ills. Central month June increase, $351,052. June 1st to June 30, increase $381,738. May net increase, $77,669, and eleven months net increase, $1,532,330.

Messrs. J. B. Picken & Co., stock and exchange brokers, to-day received the following New York advices over their private wire:

Although nearly all of the issues were traded in, the market was not a very active one, inasmuch as transactions were not of large volume. Movements were marked by irregularity, but gains were scored by a few issues, which as a local wit put it, "Nobody has." The rest of the market is heavy and is not acting well. Penna. and Vanderbilts were strong on pool buying, and soft coalers showed some activity. Sugar was weak, due to the competition of the new company which has entered the field, and which is expected to prove to be no mean competition. The under current to the market seems to tend towards a lower level. Exchange market is easier, 4.87.70. London operations were made conspicuous by their scarcity.

Messrs. Burnett & Co., stock brokers, today received the following advices from their New York correspondents:

WILKESBARRE—President Mitchell is busily engaged in making preparations for the national convention at Indianapolis next Thursday. He will arrive in Chicago Monday and address the 'Longshoremen's Union. In case the convention declared for a sympathetic strike of railroad men and 'longshoremen on the great lakes, they will be counted on to assist general strike. Sub-Treasury statement shows banks lost $541,000 since Friday. A semi-official estimate of Baltimore and Ohio improvements places the cost at $25,000,000. President Gompers, of the American Federation of Labour, says: "I hardly believe the Indianapolis convention will call the soft coal miners out. On general principles it would be better to keep them at work, and concentrate all our strength on the anthracite strike. The miners will win; we are with them heart and soul.

In New York at noon money on call was steady at 3¾ to 4 per cent. Prime mercantile paper, 4½ to 5 per cent. Sterling exchange, steady at 4.87⅜ to 7-8 for demand and at 4.85¼ to ½ for sixty days. Posted rates, 4.86½ to 4.88½ to 9. Commercial bills, 4.84⅝ to 5⅝. Bar silver, 53¼. Mexican dollars, 42¼.

LONDON — Closing: Consols for money, 95 15-16; do for account, 96⅛; Anaconda, 5⅛; Atchison, 85¼; do pfd., 104; B. and O., 111⅜; Canadian Pacific, 138¼; Chesapeake and Ohio, 51; Chicago Great Western, 30⅛; Chicago, Milwaukee and St. Paul, 183; Denver and Rio Grande, 43; do pfd., 95; Erie, 37⅜; do first preferred, 70; do second preferred, 53⅛; Illinois Central, 168½; Louisville and Nashville, 143½; Mo., Kas. and Texas, 27⅛; do preferred, 60; New York Central, 163; Norfolk and Western, 59⅛; do preferred, 94; Ontario and Western, 33⅜; Penna., 78½; Reading, 33⅞; do first preferred, 43; do seconds preferred, 35⅜; Southern Ry., 37⅝; do preferred, 98; Southern Pacific, 66½; Union Pacific, 108⅛; U. P. preferred, 91⅛; U. S. Steel, 39⅝; do preferred, 92⅛; Wabash, 30½; do pfd., 47; Spanish fours, 80½; Rand Mines, 11⅜; De Beers deferred, 22⅜. Bar silver steady, 24 9-16d per ounce. Money, 2¾ to ½ per cent. The rate of discount in the open market for short bills is 2 7-16 to ½ per cent.; do for three months' bills is 2½ to ⅝ per cent.

Among the forenoon sales on the Toronto market were: C. P. R., new, 25 at 130½; C. P. R., 1805, at 134¼ to 135; Can. Gen. Elec., 20 at 206½; R. and O. Nav., 125 at 110½ to 110⅝; Toronto Ry., 30 at 119⅝ to 120; Twin City, 290 at 119⅝ to 120; Dom. Coal, 1425, at 134 to 134⅛; Nova Scotia Steel, 347 at 105⅝ to 107¼; Lake Superior, 25 at 28⅜.

Wall Street Dealings Confused.

NEW YORK, July 10.—Wall Street — There were no wide or significant changes in opening prices, and the movement was exceedingly confused and irregular. Slight opening gains were lost, and the declines recovered. There were heavy dealings in United States Steel, stocks, depressing the common 1-8, and lifting the preferred as much. There was active profit taking in the grangers under cover of the strength of eastern railroads, causing a very irregular market. St. Paul, Atchison, Missouri Pacific, Rock Island, Illinois Central, Sugar and Hocking Coal reacted 1 to 2. New York Central increased its rise to 2 5-8, followed by Penna. with a rise of 1 1-4. When the eastern railroads reacted support was accorded the Gould group, and the market steadied and became quiet.

St. James Wafers.

St. James Wafers can be relied upon in cases where strength is needed.

St. James Wafers have rescued people in desperate straits due to general debility. They have built up constitutions in many cases where the sufferers had steadily grown weaker on other medicines.

St. James Wafers are essentially a tissue builder.

St. James Wafers contain no alcohol, consequently are not a stimulant, and have not the objections of liquid medicines which necessarily contain alcohol.

St. James Wafers help stomach, digest food and send the nutriment through the blood, and this is the honest way to get health and strength, the kind that lasts, develops and breeds the energy which accomplishes much.

"St. James Wafers furnishes a most powerful evidence of the vastly increased power of medicament by combination of judicious pharmaceutic preparations. I have used them with good success when my patients needed strength."

Dr. Charles Hall, Liverpool, Eng.

If you cannot procure the Wafers from your dealer send $1.00 for one bottle, or $5.00 for six bottles, to the St. James Wafers Co., 1728 St. Catherine St., Montreal, Canada.

STREET GOSSIP AND STOCK EXCHANGE ECHOES.

Star Office, Thursday, July 10.

It is not unusual during the dull season in stocks to hear mutterings from the bear quarters of threatened raids. This is because a period of stagnation is more favourable to such operations in view of the absence of demand and the probability that there are always a number of holders who get tired holding high priced stocks on which they cannot realize. To shake some of the weak holders out is therefore a diversion of the holiday season, which is successful according to the varying conditions prevalent at the time. It was not surprising, therefore, to see signs of some such tactics yesterday, in connection with Canadian Pacific and Dominion Coal. The further developments in connection with those stocks will consequently be watched with interest

The Canada North-West Land Company, Limited, report the following sales of farm lands:

	Acres.	Amount.
June, 1902	245,481	$1,021,213.80
June, 1901	8,600	48,458.41
Increase	236,880	$972,755.39
January 1 to June 20, 1902	328,918	$1,444,900.89
January 1 to June 20, 1901	35,331	196,931.06
Increase	293,586	$1,247,919.33

The June sales include 216,000 acres sold en bloc to a colonization company.

It was stated by authority that J. P. Morgan & Co. will exercise their option on the Louisville and Nashville stock owned by John W. Gates and Edwin Hawley. Collateral trust 4 per cent. bonds will be issued to take up the stock.

A Chicago despatch says: Wide interest is beginning to attach to the unusual demand for money in the central West and West. Within a fortnight interest rates have advanced 1 per cent. Chicago began shipping money to the North-West and West about July 1 at the rate of $500,000 daily. It is estimated that about $4,000,000 currency has been sent out of Chicago to St. Paul, Minneapolis and St. Louis. These shipments have started a demand by Chicago banks on New York. The movement from that direction has just begun. The demand from the West is fully two months ahead of the season when, ordinarily, crop-moving requirements occasion money shipments. No special explanation has been afforded. North-Western and Western institutions merely report that the small banks throughout the country are asking for funds, and have to be accommodated.

New York banks were called upon yesterday to furnish funds with which to finance the corn deal under way in Chicago. The demand for Chicago remittances opened brisk, and before the departure of the twenty-four trains for the West what will probably rank as one of the heaviest day's movements ever precipitated was arranged. While the shipments were distributed among several different banks and express companies, the estimate was made that altogether $1,500,000 or more had been sent West by New York institutions. The withdrawals, with the total of last week's shipments, curtail the New York balances of Chicago banks materially, and should the movement last another week the $35,000,000 which, according to estimate, the Chicago banks had on deposit in this city not long ago, will be cut in two.

It is stated on excellent authority that there is no truth whatever in the rumour that the Union Pacific had obtained a majority interest in the St. Paul road. There is no probability of Mr. Harriman succeeding in buying the control of the property when J. P. Morgan prior to the Burlington deal failed to obtain control for the Northern Pacific. James H. Smith, who is one of the largest shareholders in the property and who is alleged to have blocked Mr. Morgan's scheme, is now said to have larger holdings than ever before. The first heavy buying of St. Paul when the present move commenced was on orders from Mr. Smith, who accumulated 10,000 shares of the common stock, which were bought and paid for and transferred to his name.

John W. Gates, whom Wall street has hailed as one of the leaders of the stock market, is to a superficial observer endeavouring to "carry water on both shoulders." A "corner" in the grain market which has sent the price of corn skyward would under ordinary circumstances be possible only to a daring plunger, who could afford at the same time to be bearish on stocks. The present corn "squeeze," however, is not based upon the size of the new corn harvest, but depends upon how much of the cereal is obtainable for immediate delivery. Efforts to "corner" nature's products have not usually been attended by success, and therefore Wall street awaits the end before discussing problematic profits on the deal.

SLUMP IN POTATOES

A Break of 75c a Barrel Reported on New Stock—Light Receipts of Eggs—Other Lines Steady.

CHEESE — Receipts reported on the Board of Trade this morning amounted to 20,679 boxes.

The market was steady, with a slightly firmer tendency, 9 7-16c having been paid in the country for fine Ontarios, and 9 3-4c having been paid for choicest coloured. Quebecs are quoted at 9 1-4 to 9 3-8c; Townships at 9 1-2c, and westerns at 9 1-2 to 9 5-8c, sometimes 9 3-4c.

BUTTER — Receipts reported on the Board of Trade this morning amounted to 7,522 packages.

The market is steady, with 19 3-4c as top figure for fancy Township makes; the general view for choice makes is 19 1-2c. Quebecs range from 19 to over 19 1-4c, and a lot of fancy western creamery has been sold at a fraction over 19c. The market seems about steady.

EGGS—Receipts reported on the Board of Trade this morning amounted to only 171 cases.

The market was steady, with a firm undertone. The anticipated receipts from P. E. I. have a somewhat depressing influence upon the market, but no declines will result. This stock cannot well be sold at less than 13 1-2c a dozen, to leave any margin to the consignee. Western stock is still quoted at about 13c f.o.b., some being bought at 1-2c less and some perhaps more. Straight receipts were refused at 14c here to-day, and 13 3-4 to 14c is generally considered the proper figure. Straight candled are quoted at 14 1-2 to 14 3-4c, and lowest quality of No. 1 candled at 14c. No. 2 candled is selling at 12 to 12 1-2c, some, perhaps bringing a shade more, though one firm offered to sell out at the half.

POTATOES—An unusually sharp decline was reported in the market for new stock this morning, sales having been made at $1.75 a barrel on the farmers' market; yesterday's price for the goods was $2.50. Jobbers are offering fine quality of new stock, in store, at $2.00 a barrel, but they are of the opinion that the market will advance in a few days again, as the decline has ben too sharp for this time of year. The growth, however, has been phenomenal, it having been reported that an increase of fifty per cent. took place during past week of warm weather. The quality of the stock offering is said to be unusually god for this time of year, the potatoes being very large, and nice and dry.

Notwithstanding the above reports of low prices of new stock, we know of a sale of old, comprising a few dozen bags, for out of town, at $1.20 a bag, which is higher than the cost of new stock.

POTASH—Prices are $4.10 to $4.17 1-2 for firsts, and $3.65 to $3.70 for seconds. Pearl ash is very scarce and badly wanted. There have been no transactions of late, but holders would not accept $6.50.

BEANS—These are quoted at about $1.15 to $1.20 a bushel, in dozen bag lots, for primes.

Yesterday's Country Cheese Boards.

PETERBORO.—Boarded, 3490 coloured cheese. All sold at 9 3-8c.

WOODSTOCK.—Boarded, 1395 white and 1125 coloured. No sales.

STIRLING. — Board, 1100. Sold at 9 7-16c.

RUSSELL.—Boarded, 600; one lot sold at 9 3-8c.

MADOC.—Boarded, 1070 cheese. All sold at 9 3-8c.

Montreal Mining Exchange.

Following were the sales at this morning's session of the Mining Exchange:

Dom. Cons., 3,000 at 4 3-4, 1,000 at 5, 2,000 at 5, 1,500 at 5, 5,000 at 5, 2,500 at 5, 1,000 at 5 1-4.

Virtue, 1,500 at 10 1-2.

MONTREAL MINING EXCHANGE.

DECLINE IN CORN.

The Chicago Market Broke a Cent — Wheat and Oats Were Steady—Local Oat Market Firm.

WINNIPEG, July 10.—The membership fee to the Winnipeg Grain Exchange has been advanced from $250 to $500.

The Liverpool wheat market was steady to firmer, July and September closing ⅛d up at 6s 0⅞d and 6s 3⅝d, respectively, December closing unchanged at 6s 4⅛d. Antwerp was steady at 17⅝ for No. 2 red winter. Paris closed 30 down on July at 24.10, September and December being 15 down at 20.70. London quoted No. 1 standard, Cala., prompt, 30s paid; September and October, 30s 1½d, passage 30s 7½d; Walla Walla, passage, 29s 7½d; Australian, prompt, 29s 9d; No. 1 northern spring, passage, 28s 4½d paid; Manitoba inspection, July and August, 27s 10½d, Chicago inspection; wheat parcels, No. 2 northern Manitoba, July and August, 27s 9d paid; No. 2 Calcutta July and August, 30s paid. Soft red Calcutta, July and August, 28s 1½d.

Weather unsettled in England and partially cloudy in France.

The Chicago market was unsettled this forenoon, July options being quoted at noon as follows: Wheat, ⅛c up at 76¼c; corn, 1c down at 85c; oats, unchanged at 43½c.

Bartlett, Frazier & Co., estimate the United States Government report will show crop of 2,400,000 corn, and 6,000,000 wheat.

There were 1,350,458 bushels of wheat in store at Fort William and Port Arthur on June 30. A year ago stocks in store at Fort William were 1,241,089 bushels, and two years ago 1,894,000 bushels. The stocks in store at Fort William, Port Arthur, Keewatin, Winnipeg and interior points are estimated approximately at 3,387,000 bushels, compared with 2,482,000 bushels a year ago, 3,825,000 bushels two years ago, 5,800,000 bushels three years ago, and 1,200,000 bushels four years ago.

During the ten days ending June 30 there were inspected at Winnipeg 867 cars of grain, comprising the following: Wheat—No. 1 hard, 67 cars; No. 1 northern, 295 cars; 2 northern, 309 cars, 3 northern, 7 cars; No. 4, 4 cars; rejected, 1, 3 cars; no grade, 76 cars; rejected, 2 cars; condemned, 3 cars, making a total of 766 cars. Oats—No. 1 white, 1 car; No. 2 white, 34 cars; 2 mixed, 25 cars; feed, 30 cars; no grade, 4 cars; rejected, 1 car; total, 95 cars. Barley—No. 3, 2 cars; feed, 3 cars; no grade, 1 car; total, 6 cars. Flax—None. For the previous week the returns included 608 cars. For the corresponding week last year the inspections were 195 cars.

LOCAL MARKET.—The market is dull and oats are about the only grain moving. Manitoba feed, white, quoted at 48c, and No. 2 white, at 49c; No. 3 white, 48c, and No. 2 Ontarios at 48½c, in store. No. 1 northern Manitoba wheat is quoted at 74½c afloat at Fort William, No. 3 being 72½c.

FEED.—Quotations in car lots on track: Manitoba bran in bags, $17; shorts in bags, $23; Ontario bran, in bulk, $17 to $17.50; shorts are scarce at $22 to $23 in bulk; middlings, $22 to $23; moullie, $23 to $30 according to quality.

ROLLED OATS—The market was quoted steady to-day. Quotations were $4.90 to $5.10 in wood, and $2.35 to $2.40 in bags, in car lots.

BALED HAY—Business is being done at about $9 to $9.50 for No. 1 timothy, and $8 to $8.50 for No. 2; clover, $7.50 on track.

FLOUR — Quotations in Montreal on track are $3.65 to $3.70 for straight rollers, in barrels; in bags, $1.70 to $1.80; extra bags, $1.60 to $1.65; winter patents are $3.85 to $4; Manitoba finest strong bakers, $3.70 to $3.80; patents, $4.10. Ogilvies write today that they quote Hungarian at $4.20 to $4.30, and Glenora at $3.90 to $4.00.

TORONTO. —Wheat — Firmer; red and white sold east at 76½c and 77c on a 5c freight to mills west; goose is quoted at 70c, and spring sold east at 74c. Manitoba No. 1 hard, 82c, Goderich or Port Huron; No. 1 hard, 87½c; No. 1 northern, 85½c, and No. 2 northern, 83½c, grinding in transit.

Flour—Firmer at $2.92½ to $2.95 for 90 per cent. patents, in buyers' bags, middle freights; choice brands are held at 15 to 20c higher. Manitoba flour steady; cars of Hungarian patents, $3.90 to $4.25, and strong bakers, $3.60 to $3.90, bags included, on track at Toronto.

Millfeed—Steady; shorts, $20 for cars, and bran, $15.50 in bulk, middle freights. Manitoba millfeed firm; cars of shorts, $23, and bran, $20, sacks included, Toronto freights.

Corn—Firm; No. 2 yellow, 63c, and No. 2 mixed, 61½c west.

Oats—Easier; No. 2 white, 43 to 43½c, middle freights, and 44½c to 45c east.

Peas—Dull at 75 to 76c middle freights.

Hog and Provision Markets.

HOGS.—Supplies are light and the market is firm. Prices are from 6¾ to 7c for straight lots.

Abattoir dressed hogs are quoted at 9¼ to 9½c under a fair demand.

PORK—Heavy Canada short mess, barrels, $25; long cut, $24; heavy or light short, clear, $24; short cut backs, $24; heavy flanks, $24.

HAMS—Large hams, 12c; medium size, 13c; extra small, 13 1-2c; with bone out, rolled, 14c; choice picnic hams, 12c.

BACON—Breakfast boneless, 15c; Wiltshire sides, 14c; Windsor backs, 14c; green, bone in, not smoked, 11 1-2c; long clear, 11 1-2c.

LARD—Choice refined, compound, in 20-pound wooden pails, 9 3-4c; and more for smaller packages; extra pure, in pails, 11 1-2c; finest kettle, pails, 12 1-2c.

Accomplice of Murder Claims Reward of Justice

(Special to the Montreal Star.)

MALONE, N. Y., July 10.—On June 9th A. Poissant, of this village, disappeared, his body being found in Salmon River two weeks later, plainly showing murder had been committed. The authorities have been unable to find any clue to the murderer until to-day. It seems that on this same night, of June 9, W. J. Clark, of this village, was sandbagged and robbed of a gold watch near the Rutland Railroad station. James Richardson and Tinker Hodges offered the watch for sale next day and were arrested, but on examination Richardson was discharged and Hodges held for robbery and assault, and is now in gaol here. A reward of $250 was offered for the arrest of the murderer. Richardson then left town and went to Tupper Lake, N. Y., and has written to parties here claiming the reward, saying that he and Hodges were together that night, and, after robbing Clark, found Poissant near the river, on Catherine street, and, thinking he had money, tried to rob him, and in the struggle Hodges sandbagged and stabbed him, and, finding he had killed him, they dragged the body to the river and threw it in. He indicated where Poissant's hat would be found, and it was found where he stated. Officers are now on the way to Tupper Lake to arrest Richardson as an accomplice, Hodges, the principal, being safe in gaol in this village.

Valuable Iron Ore Property.

HALIFAX, N. S., July 10. — It is learned from a high authority that the iron ore property at Barracho, C. B., which was purchased by the Dominion Iron and Steel Company, from Father McPherson, a short time ago, has been pronounced by experts to be one of the best iron ore properties as regards both quality and quantity ever discovered in this section of America. As soon as the property is formally handed over to the Steel Company, development on a large scale will probably commence.

New York Cotton Market.

NEW YORK, July 10.—Cotton futures opened steady. July, offered, 8.86; August, 8.35; September, 8.02; October, 7.90; November, 7.81; December, 7.82; January, 7.81; February, 7.83; March, 7.85.

U. S. Immigration Inspector.

Mr. Robert Watchhorn, United States inspector of immigration in this city, is in Washington, D. C., on official business. Before returning to Montreal he and his family will take an extended trip through Great Britain and Europe.

Copper and Lead Markets.

(Special to the Montreal Star.)

NEW YORK, July 10.—Copper steady; lake, $11.95 to $12.15; electrolytic, $11.95 to $12.05; casting, $11.75 to $11.95; standard, $11.37½ to $12.75. London irregular at £52 17s 6d. Lead unchanged in both markets.

The antartic steamship Morning, purchased by the Royal Geographical Society as a relief ship for the Discovery, sailed on Wednesday from London for Victoria Land.

AU BON MARCHÉ

The Great July Sale at Reduced Prices was an immense success all along the line, and it will be kept up during the whole month with numerous new bargains, such as the following:

HATS.—75 pretty Children's Hats, just the kind for the country, usual prices 25c and 35c; July price 5c

BONNETS.—5 dozen White Lawn Bonnets for children, always sold at 50c; at the Bon Marche 10c

TOURMALINES. — Very pretty Tourmalines of ecru linen or pique, different shades, regular price 25c, reduced price 10c

HATS.—50 Leghorn Hats for children, at a very low price. These pretty hats are nicely trimmed with chiffon, pale blue, pink, or red, and are usually sold at $2.50; at the Bon Marche $1.00

COLLARS. — A great variety of pretty Collars, guipure and ecru muslin, made by hand, and very well finished with "Renaissance lace," in the newest shapes, square, round, pointed fronts and with revers; the reduced prices for these pretty collars are 35c, 55c, 65c, 75c, 85c, 95c and $1.25. They are worth twice as much.

TIES.—10 dozen pretty Lace Ties, open-worked ends or embroidered in different designs, nominal value 40c, sale price 15c

SILKS.—1200 yards of pretty Japanese Silks, different shades, striped and corded; just the thing for dresses or shirt waists; regular price 40c, sale price 15c

COSTUMES. — Magnificent Flowered Muslin Costumes, blue and white, pink and white, bodice trimmed with Valenciennes lace and ribbon velvet, skirt trimmed with five rows of white linen applique. These costumes would be cheap at $4.50, reduced price $2.25

SHIRT WAISTS.—Beautiful Percale Shirt Waists, striped gray and blue, pink and white, with groups of tucks, quite new style; ordinary price $1.50, at the Bon Marche 97c

SKIRTS.—25 Skirts of navy blue duck, trimmed with white pique applications, nominal value $1.50, July price 75c

SUITS.—We do not forget the little boys. 50 pretty White Duck Suits, sailor blouse with revers trimmed with pink, pale blue and navy pique; at the Bon Marche, reduced price 75c

BLOUSES.—Very appropriate for warm weather. 50 Linen Blouses for children, sailor collar, front and sleeves trimmed with navy blue duck; very cheap at 40c

BROOCHES. — The latest novelty. Pretty Fancy Brooches for ladies with different portraits of very pretty women, regular price 50c, here 25c

RIBBONS.—150 pieces Silk and Satin Ribbons, different widths, 3, 4 and 5 inches, large choice of pretty shades; some worth as much as 60c per yard; at the Bon Marche 15c

MUSLINS.—100 pieces of pretty Dress Muslins, white ground, flowered in different designs and new colours; regular prices 15c and 20c, now 10c

FOULARDINES—What lady would refuse to buy a magnificent dress of Mercerized Foulardine, worth $3.50, for $1.50

175 pieces of superb Pongee Mercerized Foulardines, in different shades and choice designs; 10 yards are required for a dress; regular price 35c, at the Bon Marche 15c

ORGANDIES.—75 pieces of Organdie Muslins, with satin stripes and flowered in all the principal fashionable shades, such as turquoise, pastel blue, mignonette, pink, pale blue, electric blue. The price of these muslins ranged from 25c to 40c; at the Bon Marche, July price 20c

SEE ALL THESE PRETTY DRESS MUSLINS IN OUR WINDOWS.

FLORIDA WATER.—Only 1 dozen bottles of "Selden" Florida Water, good size, regularly sold at 25c; at the Bon Marche, July price 12½c

FLORIDA WATER.—75 bottles of the celebrated "Murray & Lanman" Florida Water, always sold at 50c; at the Bon Marche reduced July price 39c

In spite of the excessive heat of the last few days, hundreds of persons have thronged through our different departments without intermission, and they were enabled to judge for themselves of the enormous reductions offered in this Great July Sale.

Until further notice our Stores will close at 6 p.m. every evening, Saturdays excepted.

Duchess of Anhalt-Bernburg Dead.

ALEXISBAD, Duchy of Anhalt, July 10.—The Duchess of Anhalt-Bernburg died this morning. The line is now extinct. The Duchess was born October 9, 1811.

Chicago Freight-Handler Killed.

CHICAGO, July 10.—James Landers, a freight handler, was killed last night, his death being the indirect result of the strike. Landers announced that he intended to return to work to-day and a group of freight handlers to whom he made the declaration began to abuse him. A short time afterward he was found in a hallway, his throat being cut. He was taken to the hospital, where he died. The police have arrested Daniel Grogan, another freight handler, whom they suspect of killing Landers.

ONTARIO CROPS PROMISE WELL

Corn Crop is Late and Seems to be a Failure.

HAY AND GRAIN EXTRA GOOD

Only a Few Sections Fear Results of Rain—Fruit Crops are Looking Splendid.

OTTAWA, Ont., July 10.—According to Experimental Farm experts, and leading farmers, the crop in this section will be up to that of last year, and in many respects better. Hay cutting has commenced and is turning out above the average. Oats a fair yield; barley good; peas up to the average; potatoes fine; corn backward; grain and root crops are such as to give little cause for complaint.

Good crop of early summer and fall apples, and a light crop of winter apples. Small fruits show a satisfactory yield; American plums especially heavy.

PERTH—Hay, best for years; winter and spring wheat, oats, barley and peas, on high lands good; low lands suffered.

Roots, looking well; apples and plums, fine.

WESTPORT—Everything promises good yield, unless corn, which does not look very good owing to cold weather.

SMITH'S FALLS—Prospects never better. Hay, abundant; grain promises an abundant harvest. Difficulty in obtaining farm help.

WINCHESTER—Spring seeding promises good yield except in low lands. Hay, good average. Root prospects bright; corn backward; altogether outlook good.

ARNPRIOR. — Farmrs expect bumper crop. Hay, a good average; farmers cutting; grain splendid, and well filled; corn, backward, but promises well; potatoes, good, but late.

BRYSON, Que.—Crops excellent; rain has done no damage; prospects of a full barn.

QUYON, Que.—Crops looking splendid; prospects of an abundant harvest; no damage by rain.

ALMONTE, Ont.—Crops backward and uncertain; dry, hot weather required. Wheat and oats, average; peas, light, damaged by cold rains; corn, very poor; hay, more than average; fruits, good; gardens late but doing better.

HAWKESBURY.—Hay very good on uplands, fully average on low lands; wheat, oats, barley, potatoes, fairly forward and on the uplands promise abundant crop. Low lands, sixty per cent. of average; corn backward, turnips, mangels and carrots, good.

RENFREW — Crops very favourable. Wheat and peas promise well. Oats suffered from early frosts, but with warmer weather are improving. Hay, good average; corn, backward, on account cold weather in June. No particular damage to crops from rains.

CARLETON PLACE.—Crops nearly all fine appearance, and well advanced. Hay abundant, wheat, oats, peas, promise large yield. Corn will be a poor crop, unless there comes 8 or 10 weeks of warm weather to rally it. Root crops give good promise.

PEMBROKE. — Crops of all kinds are good. Pastures, fine; grain crops give great promise; early frost in May injured to a slight extent oats sown broadcast, but in no case was injury done to oats in drills. Roots good, also vegetables; fruit crop abundant.

METCALFE—Hay is good; grain abundant yield, on low lands will be below average. Corn almost a failure on account of cool weather; roots, good average crop. Good all-round crop.

PLANTAGANET. — Hay, new meadows, and high lands good; old meadows and low lands poor. On the whole fully average crop. Wheat, oats and peas all looking well, especially on high lands. Corn backward, but promising. Root crops excellent. Apples, an abundant crop. No harm from heavy rains nor frost.

HAMILTON. — The crop prospects good for abundant yield. Grain and hay crops will exceed average. Peaches very plentiful. Apples and pears a good crop. Plums scarce. Berry crop excellent. Root crop will show a good supply.

BROCKVILLE. — Crops, with exception of corn, will be exceptionally good. If dry weather comes soon, so hay can be harvested, there will be one of the largest crops on record.

KINGSTON.—Good deal of clover cut last week, but much will be decayed by rain. Fall grain looks well. In some sections wheat has not a good head, and spring grain, if the weather improves, should be a good crop. Early barley is now lodged, and this means that what is down will not fill well. Prospects still good if dry weather comes.

BELLEVILLE. — Crops considerably over average. Corn has been kept back by rain and cool weather so much that some has been ploughed under, and fall wheat sowed instead. Roots promise far over the average. Potatoes never looked better. Fruit excellent, particularly apples.

PETERBORO.—Some clover is badly affected. A good deal of grain is down. If rains continue it will be serious, otherwise prospects will be better.

ST. CATHARINES. — Wheat good; corn backward; rye and barley good; oats and hay heavy, but damaged by rain; roots good; apples heavy; other fruits good.

PORT HOPE.—Crops very promising. Wheat good; barley fair; oats very heavy, long straw, but not headed out yet; peas excellent, but some rotting from rain; corn poor crop; clover in abundance, but badly down and rotting at bottom, very little cut; potatoes good.

ST. THOMAS.—Corn a failure; hay good, but poor harvesting; oats very good. Considerable damage done by rain.

LINDSAY—Crops are in bad state. Much land is under water, and everything depends on the weather in the next few weeks. Hay will be light. Roots fair if weather changes.

NAPANEE—Crops better than for years. Frosts injured cherries and plums; strawberries, plentiful; prospect for other berries is bright than for several seasons.

WHITBY—Heavy damage done to crops, especially clover and hay. Oats and other grains have been blown flat by wind and rain. Many fruit trees blown down.

PICTON—Grain crops very good; tomatoes will be light owing to frosts; strawberries and raspberries, a very large yield; apples, an extra large crop.

ORILLIA—Rain has not damaged crops, and with favourable weather, an exceptionally heavy yield is expected.

NORTH BAY—Crops are a little the worse of the heavy rains, but prospects are they will turn out favourable.

MADOC—Hay and grain looking exceedingly well, prospect of large crop. Wet weather has done very little damage.

PRESCOTT—Grain looking well, and promises bountiful harvest. Potatoes and roots all good; hay very heavy; apples and small fruits, fair. Rain has not done any damage.

Morning Fire at Janeville.

(Special to the Montreal Star.)

OTTAWA, July 10.—The village of Janeville was in danger of being wiped out by fire this morning. The fire originated in the house of R. Brock and destroyed in addition to his residence those of Miss Mayer, of Mrs. Alfred Scharf and Riverside Hall. Riverside Hall was removed from Daley avenue, Ottawa, where it was the original St. Paul's church and one of the cradles of Presbyterianism in Ottawa. The damage amounts to some $5,000.

CORN TAX DEFENDED BY LORD GOSCHEN.

Former Liberal Minister Shows a Desire to Return to Tariff and Indirect Tax Days.

LONDON, July 10.—Lord Salisbury, the other day, very unlike himself, expressed enthusiastic gratitude to Lord Goschen for having demonstrated the solvency of Great Britain, which nobody doubted.

One good turn deserves another.

On Thursday in the House of Lords Lord Goschen defended the corn tax. The Lords is not quite the best place for a financial debate, inasmuch as Peers cannot constitutionally amend a money bill, and to throw out a finance bill without changing the government would bring the machinery of the State to a full stop.

Nevertheless, the House of Lords contains a few expert financiers whose opinions are worth having.

Besides Lord Goschen himself there is Lord Welby, who for many years was permanent secretary of the Treasury. Lord Welby is a moderate liberal trained by Mr. Gladstone and chairman of the Cobden Club. He condemned the revival of the duties on foreign corn and reminded the peers that at the close of the Crimean war the income tax was higher by a penny in the pound than now. He drew the inference that it would have been better to raise the income tax than to raise the price of bread, though that course is not the only alternative.

Lord Goschen saw his chance, and, accompanied by a gentle murmur of sympathetic applause, proved to the complete satisfaction of his audience that the more indirect taxes there were the better.

RETURN TO FORMER TARIFF.

His ideal would apparently be the tariff as it was before 1842, under which no fewer than twelve hundred articles were liable to customs duties.

The great work of Peel and Gladstone was to reduce the number, roughly speaking, from twelve hundred to twelve.

Lord Goschen is for broadening the basis of taxation or, in other words, of returning to the finance of Lord Liverpool and Mr. Vansittart.

The rest of his speech was devoted to showing how small the tax is, and how little it will be felt.

COL. DENISON'S ENERGY

(Special to the Montreal Star.)

LONDON, July 10.—Colonel Denison will sail for Montreal to-day. He has gone so far and so fast in presenting the plans of the British Empire League of Canada that neither the Imperialists or Colonials have been able to keep abreast with him. His views on a war tax all around the Empire are not considered practicable by the Canadian Ministers, but the energy with which he has forced the business side of Imperial Federation upon public attention here, is generally recognized.

The Surrender of Tien Tsin.

PARIS, July 10.—The Foreign Office has received the following from Pekin, dated July 9:

"The surrender of the Administration of Tien Tsin to the Chinese is expected very shortly. France has been for several months in favour of this measure, which has been delayed solely by the disturbances in Chi-Li province."

Sailed Through Pumice-Stone.

SAN FRANCISCO, July 10.—The schooner Pearl has arrived from Sinak, Alaska, and her crew reports that when about 400 miles southeast of Unalaska, the vessel sailed through a quantity of pumice stone floating on the surface of the ocean. The stone was encountered on June 26. For nearly 20 miles the vessel sailed through it in almost a straight course.

Monkey Brand Soap removes all stains, rust, dirt, tarnish—but won't wash clothes.

Great Break in Wrapper Prices!

We don't think that in the history of this city, such an absurdly low price was ever placed on Ladies' Wrappers of such quality, style and workmanship, as these we note below.

It is the same old story; the manufacturers overstocked themselves, consequently we secured these at very much below cost.

The Value: $1.50

To-morrow's Price: 75c

Splendid Wrappers, of excellent quality percale, made in good colors of mauve, blue and black, with epaulettes over shoulders, fitted waist lining, extra full skirt, made with a 10 in. flounce. The price of these in the ordinary way would be $1.50. 300 to clear

To-morrow at each 75c.

THE S. Carsley Co., LTD.
MONTREAL.

IN AND AROUND THE CITY.

DIED IN THE HOSPITAL.—Mr. Wm. H. Fenn, 35 years of age, died at the General Hospital Monday after a short illness.

SUNDAY SCHOOL PICNIC.—The annual Sunday school picnic of the Richmond Square Mission will be held on Saturday, July 12th, to Bout de l'Ile Park. Scholars to meet at the mission rooms, about 8.40 a.m., so as to leave at 9 a.m. sharp. Donations toward the picnic will be accepted in funds or refreshments, not later than Friday evening, between 7 and 10 p.m.

FIRE IN A STABLE—A fire broke out last night in a stable in the rear of the Syracuse Smelting Works, and before it could be got under control two horses were cremated. The firemen succeeded, however, in getting one of the three horses that were in the stable out, but the flames spread so rapidly they could not reach the others. The stable was completely destroyed, but owing to the activity of the firemen the blaze was prevented from spreading to the adjoining buildings.

The Ogilvy Store

What every one says must be true: "If you want a Good, Reliable Article in Dry Goods, go to Ogilvy's."

HAMILTON'S
Friday Bargain Day

TO-MORROW THE BIGGEST SALE OF
Ladies' White Muslin Underwear

that this store ever attempted, which means the biggest sales and biggest values in Ladies' Underwear ever presented to the ladies of Montreal either here or elsewhere. The whitewear we offer to-morrow are the entire samples of a noted New York maker which we secured at such concessions that allows us offering you them to-morrow at about ONE HALF the New York prices. All handsomely made garments, elegantly trimmed in lace and insertion, ribbon trimmed, &c., &c., being "samples" they are slightly mussed through handling, otherwise they are perfect in style, quality and workmanship. To give you an idea of the prices:

THE AWFULLY HANDY REVOLVER.

A revolver is an awfully handy thing for a big, plucky man to carry around with him. He never knows when he may quarrel with his wife or some other woman, and it being cowardly to strike a woman, it must be gratifying to the man's self-respect to have the revolver at hand. Besides, he never knows when he may get drunk and feel that he would like to shoot somebody.

Every now and then we hear of somebody being shot, for no sufficient reason; for no particular reason, in fact, except that somebody else happened to have a revolver in his pocket and wanted to try it, or by its possession was made valiant enough to get up a row.

And all this time the powers that be are looking for something to tax, something to license. There must be thousands of revolvers in this city, most of them owned by bullies, cowards or thieves. They are sold with the utmost freedom. No man looks so tough or so drunk that he cannot buy a revolver if he wants one. You cannot keep many things in Montreal without a license. For instance, you cannot keep a dog, a bicycle or a horse without chipping into the civic treasury. But the poorest of us can afford to keep, that awfully handy thing, a revolver.

A law came into force in one of the southern states on July 1st, prohibiting anybody from carrying a revolver weighing less than three pounds. The idea is not a bad one, although it does not go quite far enough. When a man has been carrying a revolver weighing three pounds for a few days, it does not seem quite so handy as at first and the necessity for it does not seem quite so pressing. Gradually he screws up enough courage to venture out of doors with no other protection than his fists and the rectitude and harmlessness of his own disposition.

A few exceptional people like policemen on special duty and bank messengers might be allowed to carry revolvers, but the average man who wants to carry fire-arms to protect himself, should not be trusted with anything smaller than a Winchester rifle so that we may all see him coming.

Probably the Blake Act if properly enforced would be sufficient to deal with the nuisance, but the probabilities are that no law on the subject will be properly enforced that does not involve the collection of revenue.

VISITED BIG DREDGE

An Excursion Party Views the Workings of the J. Israel Tarte Now Near Sorel.

(Special to the Montreal Star.)

SOREL, Que., July 10.—Yesterday afternoon an excursion party, composed of a few professional men, merchants and representatives of the press, paid a visit on Mr. Marcotte's yacht, to the new suction dredge built last year by the Polson Iron Works, and which bears the name of the Minister of Public Works, J. Israel Tarte. This dredge is at present working in the channel of Lake St. Peter between lights Nos. 1 and 2. The excursionists were received by Mr. A. W. Robinson, the engineer who superintended the construction of the dredge; Mr. L. A. Desy, engineer in charge of the works, and Captain Michaud, who showed the visitors over the dredge, and explained the working of the machinery thereof.

Some trouble was experienced when the dredge was first started about a month ago, owing to the heavy seas, which sometimes prevailed in Lake St. Peter, causing a rupture of the joints for the conveyor pipe, but that difficulty has been overcome and as far as could be judged everything was working satisfactorily. The dredge works in bents of 5 feet at a time and the dredgings are conveyed through a three foot tube, a distance of 2100 feet from the dredge. It is estimated that at present working the dredge excavates a depth of seven feet the whole width of the channel, some 300 feet by a length of 500 feet for every working day of 24 hours. There is a crew of 27 men and the average consumption of coal is 23 tons per working day. There are four boilers tested to a carrying capacity of 160 pounds. Some 4000 ft. of the channel in Lake St. Peter has been dredged since the dredge began work. The new iron tug, Lake St. Peter, acts as tender for the dredge. After thanking Messrs. Robinson and Desy, engineers, and Captain Michaud for their courtesy, the visitors returned to Sorel well satisfied with their trip which had been organized by Mr. W. L. M. Desy. Before leaving the local photo artist Mr. Desjardins took several good views of the dredge and the conveyor tube.

Lord Strathcona Sent a Cheque.

LONDON, Ont., July 10.—A cheque for a handsome amount has been received here from Lord Strathcona to assist in the formation of two companies of Kilties Cadets.

THE WEATHER

FINE

Probabilities for the next 24 hours, specially predicted for the Montreal Star at 11 a.m. to-day:

Fresh north-westerly winds; fine and cool.

Friday and Saturday—Light to moderate, variable winds; fine and moderately warm.

Maximum and minimum temperatures during the past 24 hours: Victoria, 68, 50; Kamloops, 82, 54; Calgary, 70, 44; Qu'Appelle, 72, 54; Winnipeg, 70, 50; Port Arthur, 70, 44; Parry Sound, 70, 66; Toronto, 77, 60; Ottawa, 74, 58; Montreal, 76, 60; Quebec, 80, 58; Halifax, 66, 62.

Montreal, July 10.

Readings by the Optical and Engineers' Supply Company's standard barometer at noon yesterday, 29.91; at 8 a.m. to-day 29.85; at 11 a.m. to-day, 29.90; temperature to-day, maximum 75, minimum 61; yesterday, maximum 79, minimum 62.

Sun rose this morning at 4.45 o'clock; will set this evening at 8 o'clock.

AT THE SUMMER RESORTS.

OLD ORCHARD, Me., July 10.—Wind north; rain. Temperature, 68.

ST. ANDREW'S, N.B., July 10.—Wind, east; showery. Temperature, 68.

CACOUNA, Que., July 10.—Yesterday was the warmest day we have had. To-day is fine and cool.

THIRD TRINITY CAPTURED GRAND CHALLENGE TROPHY

The Leanders Who Have Held It for Four Seasons Defeated, Although They Had Advantage of Course—Kelley Won the Diamond Sculls.

HENLEY, England, July 10.—Unsettled weather somewhat marred the spectacular features of the closing day of the regatta, but it in no way diminished the attendance. Besides the thousands temporarily domiciled in the town and on the house boats, visitors arrived in large numbers throughout the morning and when the racing began at 1 o'clock the enclosures, club lawns and rivers were packed by immense throngs. Most of the Colonial Premier and a number of Indian Princes were guests of the regatta officials.

A strong, steady wind off the Bucks Shore with the water decidedly rough, gave a full length of advantage to the crews fortunate to draw that station.

THE LEANDERS DEFEATED.

The racing opened with the final heat for the Grand Challenge Cup, in which, after a good race, Leander succumbed to the Cambridge crew which yesterday defeated Argonauts of Toronto. Third Trinity had all the disadvantage of the Berks Station, but they got off first and at Fawley Court, which was reached in 3 minutes, 29 seconds, were two lengths ahead. At the mile post, reached in 5 minutes 25 seconds, the Leanders spurted splendidly, but though they drew up a little, they could never overhaul their opponents and lost the trophy, which they had held for the past four years. To-day's time was the worst in six years.

Trinity won by a length and a half. Time 7 minutes 17 seconds.

KELLEY WON DIAMOND SCULLS.

In the final for the Diamonds, F. S. Kelley, Balliol College, Oxford, repeated his surprise of yesterday by gaining an unexpected victory over R. B. Etherington-Smith, Leander. The latter had the favoured station and led for a whole mile, but the Oxonian gradually wore him down.

At Fawley Court, which was reached in 4 minutes 14 seconds, Smith was a quarter of a length to the good. But by the time the mile post was reached Kelley was level and being able to keep up his forcing tactics gradually drew clear and ultimately won easily.

STEWARDS' CHALLENGE CUP.

In the final for the Stewards' Challenge Cup, Third Trinity, Cambridge, beat Leander Rowing Club by eight lengths. Time, 7 minutes 45 seconds.

In the final for the Ladies' Challenge Plate, University College, Oxford, beat Eton, by half a length. Time, 7 minutes 16 seconds.

DISBROW SPRANG AT DISTRICT ATTORNEY.

He is Held for the Murder of Clarence Foster and Dimple Lawrence—Spectators Applauded.

(Special to the Montreal Star.)

GOOD GROUND, L. I., July 10.—Louis Disbrow was held for the murder of Clarence Foster and Dimple Lawrence yesterday, and the verdict of the magistrate was received with applause. The wind-up of the hearing was intense and sensational. Disbrow himself, stung from his quiet by the blistering arraignment of the District Attorney, sprang at the lawyer with clutching fingers, only to be dragged back to his seat by his own attorneys, while District Attorney Smith, with a biting hint of strangling that is part of the murder charge made him writhe afresh by telling him this exhibition came with small grace from a man in his position.

Disbrow's attorney, Mr. Miles, offered in evidence the copies of all the proceedings before the Coroner, over the bodies of Foster and Miss Lawrence, and Justice Foster, after listening to objections by District Attorney Smith, admitted the copies.

Mr. Miles then moved that the defendant be discharged on the ground that the evidence had failed to show facts sufficient to constitute a crime.

District Attorney Smith quoted Disbrow's conversation with Walton, in which Disbrow said he was heart-broken, "Dimple" having discarded him for Foster. Mr. Smith went on to say there might have been a double motive. "Where did Foster's money go," he asked. Foster's wife had testified that when he left her on the night of his disappearance he had taken money with him, but none was found on his body.

The court said that circumstances of the case all pointed in this direction, and while the evidence was not very strong, there were things that had to be explained, and he then announced that the prisoner was held for the grand jury.

District Attorney Smith, in summing up against Disbrow, is quoted as saying:

"I believe jealousy was the motive. I believe all were partly intoxicated. I believe that the fight occurred out in the boat, 200 yards from the west shore of Tiana Bay, and that Disbrow lied when he told Walton that he fought with Foster on the beach in front of Ternell's House. That was one of his lies that will convict him.

"'Dimple' Lawrence was choked to death by Disbrow, in my opinion, and the condition of the girl's body seems to prove that conclusively.

"The body was black above the chest and perfectly white below that line. The stock was tied in a hard knot, but this may not signify anything. She was strangled by Disbrow's hands—that is my belief.

"Foster was struck on the forehead with an oar or some blunt instrument and knocked overboard."

GARBED ONLY IN UNDERWEAR.

Escaped Kingston Convict Found Perched in a Farmer's Tree.

(Special Cable to the Montreal Star.)

BROCKVILLE, Ont., July 10.—A prisoner who recently escaped from the Kingston Penitentiary came this way. An Elizabeth town farmer named Gray, living about one mile and a half from Brockville, found him perched in an apple tree, attired only in a suit of underwear. He explained that while travelling from Kingston to Montreal, tramps stripped him of his clothing. The farmer provided him with a pair of trousers and a coat. He has not been seen since. The farmer was not aware at the time who he was, but identified him later from published reports of his description. Warden Platt has been notified by Chief Adams.

To Bridge the Mississippi.

ST. LOUIS, Mo., July 10.—A corporation composed of St. Louis and Eastern capitalists has been organized to build a bridge over the Mississippi River, the erection of extensive terminals on the river front, an elevated road to the world's fair site and a new depot in the heart of the city. It is stated by the incorporators that the total investment in the terminals and elevated road, aside from the cost of the bridge, would reach $10,000,000 at the outset, with a possible expenditure of $5,000,000 later on extensions.

Weather Affects Tourist Traffic.

(Special to the Montreal Star.)

KINGSTON, July 10.—The tourist traffic among the Thousand Islands is very quiet compared with other years. The wet and cold weather has kept the people with money away from the summer resorts between Clayton and Prescott. Hotel men and those who look for the summer trade to benefit them financially will be losers this season.

Imprisoned for Abusing a Child.

(Special to the Montreal Star.)

OGDENSBURG, July 10. — Mrs. Jennie Stark, a West Side character, was arrested yesterday and sentenced to six months in the county gaol, at Canton, for enticing a four-year-old child into her house, cutting off his clothes with a knife, and nearly drowning him in a tub of water. Neighbours rescued the child. The woman was crazed with whiskey.

The Vaticans Message Received.

WASHINGTON, July 10.—A cablegram has been received at the War Department from Governor Taft, transmitting the reply of the Vatican to the proposals of the United States Government. Secretary Root did not get the message until late in the afternoon, as it had to be translated from cipher, and he has not yet considered the subject. The abstract cable last night from Rome contains all the essential features of the reply.

THE ANNUAL MEET OF ARTILLERY MEN.

Plans are Already Being Made at St. John, N. B., Where the Gathering Will Take Place.

(Special to the Montreal Star.)

ST. JOHN, N. B., July 10.—This year's meeting of the Dominion Artillery Association will be held in this city in September, when a shooting competition will be held at Fort Dufferin on the Carleton side of the harbour. There will be several hundreds of artillerymen present and already preparations are being made for targets, etc. Col. R. W. Rutherford, of the artillery headquarters staff, Ottawa, was in the city a few days ago, and looking over the shooting grounds, it was proposed to have an engine placed on Partridge island, beyond the fort, and the dummy torpedo boat drawn to and fro in the water for a target. The boat will be only about 12 or 15 feet long. There will be gunners from all over Canada and some good cash prizes are listed. The soldiers will camp near the fort if the grounds can be secured.

THE BISLEY TEAM TOOK SECOND PLACE.

The Shootists From New Zealand Defeated Them in a Match Under Kolapore Cup Conditions.

(Special by Cable from the Special Correspondent of the Star with the Bisley Team.)

BROOKWOOD, July 10.—The Canadian rifle team shot a match with the New Zealand and Natal teams yesterday, Kolapore Cup conditions, and took second place. The New Zealanders won by nineteen points.

FREIGHT-HANDLERS WILL CONTINUE FIGHT.

CHICAGO, July 10.—A large percentage of the striking freight handlers voted today to refuse the terms presented by the railroads last night and to continue the strike, despite official refusal of the Chicago Federation of Labour to help them. A thousand members attended the meeting. The strikers decided to fight to the last without seeking co-operation or support.

Dental Association Elects Officers.

CHARLOTTETOWN, P. E. I., July 10.—At its evening session the Dental Association decided upon an inter-provincial meeting at Halifax in 1905.

The officers elected were: President, Dr. McArthur, Truro; secretary, Dr. Thompson, Halifax; Executive Committee: Drs. Ayres, Charlottetown; Ryan, Halifax; and Magee, St. John.

Dr. Webster, Toronto, read a paper on "Preparation of Cavities for Filling." Dr. Cates, Campbellton, gave a talk on "Preparation moves where issues become broken down."

Defects of Belleville Boilers.

LONDON July 10.—The committee appointed by the Admiralty to consider certain questions regarding modern types of boilers for the navy recognize that the Belleville boiler, when new and in good condition, is a good steam generator, but its rapid loss of efficiency in ordinary work in commissioned ships is of a serious character. The defects that have been developed in it and the great care required in its manipulation render it, in the opinion of the committee, undesirable to use any more of these boilers in new warships.

Lambert Not Charged With Murder.

TORONTO, Ont., July 10.—Government Inspector Wm. Greer, who has been investigating the Lambert poisoning case at Hilton, in Northumberland county, has returned to the city and placed the facts of the case before the Department. The case, according to the detective, was one of suicide, and not of murder. Lambert was arrested on the charge of neglecting to support his family, and failing to provide his wife with the proper medical attendance.

Two Bodies Were Recovered.

NEW YORK, July 10.—The bodies of Miss Alice McMahon, of Nyack, N. Y., and Frances Horn, daughter of Captain Horn of 95th Company of Coast Artillery, who were drowned by the capsizing of a sail boat off Sandy Hook last Sunday, were recovered to-day. The body of Mr. Horn, the other victim of the accident, has not been recovered.

Boy Drowned at Oakwood, Ont.

OAKWOOD, Ont., July 10.—Cecil Rennie, aged 13, third son of G. B. Rennie, principal of the Oakwood School, was drowned while bathing in a creek. The lad got beyond his depth and was carried away by the swift current.

His Excellency's Plans.

(Special to the Montreal Star.)

OTTAWA, July 10.—It is understood that His Excellency and Lady Minto will spend the month of August in Quebec and that afterwards His Excellency will go on a shooting expedition.

Killed by Falling Timber.

WALLACEBURG, Ont., July 10.—Harry Milerd, son of Israel Milerd, builder, was killed yesterday by falling from a piece of timber on to the dock, at the Sydenham Glass Works.

Ex-Premier Greenway, of Manitoba, who is in Toronto, predicts a good harvest for the Canadian West.

Washington Authorities Will Protest to Britain.

The Complaint of Delay in the Proceedings in the Gaynor-Greene Case---How the Proposed Protest is Regarded at the Ancient Capital.

(Special to the Montreal Star.)

QUEBEC, July 10.—Public opinion is much divided here over the despatch from Washington hinting at probable representations to the British authorities from Washington respecting the progress of the Gaynor-Greene case.

Most of the legal authorities spoken to ridicule the probability of such representations at the present stage of the proceedings, which are still subjudice and confined to the preliminary or habeas corpus stage, the merits of extradition proper not having been reached at all. Consequently, it is argued, there has been no political interference in proceedings which have not been reached, and friends of the Minister of Justice are indignant at Mr. Erwin's suggestion that there is danger of injustice being done when the papers in the case finally reach the Minister.

The matter has not thus far been out of the hands of the Canadian judges, and no active politicians have yet had anything to do with it except as counsel.

On the other hand, there are those who say that it was bad form for law partners of officials of the Departments of Justice to allow themselves to be drawn into the case at all. The counsel for the defence ridicule the idea that their law partnership with the Minister of Justice should exclude them from taking the defence of the accused, and absolutely deny that any political influence has been exercised in the case.

Regarding delays so far occurred, they attribute them to what they call the gratuitous insult offered the local authorities here by Mr. Erwin by his kidnapping scheme to remove the prisoners to Montreal rendering necessary in the interest of the defence the prolonged habeas corpus proceedings which have thus far prevented the matter of extradition from being reached. They say that there is absolutely nothing to be complained of by the American authorities and nothing to appeal from to the British law officers, but that the whole despatch of Mr. Erwin to Washington and the comments thereon by those there associated with him is simply a piece of dramatic byplay.

The respectable element of Quebec society though ready to see Gaynor and Greene get fair play, are anxious that the city should not gain the reputation of harbouring fugitives from justice, and if the extradition judge finds cause for their surrender will expect the Federal authorities to grant the demand of a friendly and neighbouring Government.

THE WASHINGTON DESPATCH.

WASHINGTON, July 10.—The extradition of Messrs. Benjamin F. Green and John F. Gaynor, whose removal from Canada to the State of Georgia for trial on charges of misappropriation and embezzlement of over two million dollars in connection with river and harbour improvements at Savannah, Ga., has been sought for some time by the United States, will take on a diplomatic phase in a few days, when Secretary Hay will communicate to the British Government the view of the officials of the Department of Justice that the Canadian authorities are pursuing an extraordinary and unwarranted course in the case. The delays and embarrassments in the extradition proceedings resulted in Mr. Marion Erwin, the special assistant attorney, who has been in active charge of the extradition on behalf of the United States, transmitting to the attorney-general, under date of Montreal, July 7, a special report on the case, in which he calls attention to the fact that the legal representatives of Messrs. Greene and Gaynor are closely connected with the Canadian officials, to whom this Government must look for extradition of the men whose custody it seeks.

MR. ERWIN'S REPORT.

Mr. Erwin in his report says that prior to instituting the extradition proceedings, he was given notice that the fugitives had taken refuge at Quebec for the purpose of resisting extradition, and that they had employed as their counsel a firm of lawyers to which belong the highest officials of the Provincial and Dominion Government." He said that he was thus "precluded by the position taken by them from conferring with the law officers of the Crown." He therefore retained two attorneys of the Montreal and Canadian bar who have ably assisted him.

Attention is called to the fact that Mr. Erwin made complaint on oath, May 14, 1902, before the Hon. Ulric Lafontaine, one of the Extradition Commissioners, for the province of Quebec, resident at Montreal; who is given jurisdiction over the whole province of Quebec, charging Messrs. Greene and Gaynor with having participated in the crimes of fraud, embezzlement and obtaining money under false pretences. The report then directs attention to the entire regularity of the service of the writs, arrests of Messrs. Greene and Gaynor, and their remand and further examination.

QUEBEC PROCEEDINGS.

After this Judge Andrews, at Quebec, issued writs of habeas corpus, which were served at night on the gaoler at Montreal, who held the men under the Extradition Commissioners for further proceedings. On what followed, the report says:

"Without notice to the commissioner or to the attorneys representing the United States in the proceedings, the Montreal gaoler, who holds his appointment under the provincial authorities, within a few minutes after the service of the writs upon him conveyed the prisoners by special train back to Quebec.

"In view of the fact that there were other judges at Montreal exercising habeas corpus powers, and in such cases the Canadian laws give a judge in the district of Quebec no authority to bring a prisoner from Montreal on habeas corpus enquiry, it is not believed that the gaoler at Montreal would have adopted so extraordinary a course without notice to the parties interested except under pressure. Appearing in behalf of the fugitives were among others the firm of Fitzpatrick, Parent, Taschereau, Roy and Cannon — of which firm the Hon. Charles Fitzpatrick, Minister of Justice for the Dominion of Canada, is a member; of which firm the Hon. S. N. Parent, Prime Minister for the province of Quebec, is a member; of which firm Mr. Cannon, son of the Deputy Attorney-General for the province of Quebec, is a member. Mr. Honore Gervais, law partner of Hon. Mr. Archambault, Attorney-General for the province of Quebec, and also Mr. Chauveau, son of the Extradition Commissioner at Quebec, were also retained by Gaynor and Greene.

The report next reviews the motion of counsel for the U. S. to quash the writ of habeas corpus and remand the prisoners in order that the extradition hearing might proceed and the fact that the evening before Justice Andrews was to render his opinion the prisoners attempted to drop that proceeding on a claim that it was illegal, and through their counsel, had other writs of habeas corpus issued to come before Justice Caron, a judge with concurrent jurisdiction with Justice Andrews, on the ground that their custody by the sheriff at Quebec was illegal.

HIS CONCLUSION.

The report speaks of the powerful political influence felt at every turn the case has taken.

"If this state of affairs is to continue without protest on the part of our Government we had just as well understand in advance that extradition of criminals from Canada under our treaty does not apply to cases where the fugitives have committed financial crimes of magnitude." Concludes the report.

WILL APPEAL TO BRITAIN.

Upon receipt of this report the acting attorney called the matter to the attention of the State Department, saying in his letter of transmittal: "Herewith I have the honour to enclose a communication from Mr. Marion Erwin, special assistant to the Attorney-General, the duly authorized agent of the United States, who has been in charge of proceedings instituted in Canada for the extradition of Benj. D. Greene and John F. Gaynor.

"It has been a matter of great surprise to this department that such a state of affairs as that reported could exist in any country, controlled by British sentiment and laws, and I respectfully request that the facts be laid before the representative of His Britannic Majesty, in order that the matter may be dealt with in accordance with the high standard of British justice."

It is understood that the Secretary of State will bring the matter to the attention of the British Embassy at once.

Basutos Cause Some Uneasiness at Pretoria

PRETORIA, July 10.—There is some uneasiness here regarding the attitude of the Basutos. In consequence of supposed treachery during the war, Joel, one of their prominent chiefs, has been summoned to Maseru, capital of a military district of Basutoland, to stand trial on the charge of high treason. The paramount chief, Lerethodi, is likely to support Joel in the event of the latter's refusal to obey the summons. Troops have been despatched to the frontier.

PRETORIA, July 10.—According to an estimate of the Red Cross identity depot, which fulfilled the functions of a casualty bureau for the Boer forces, their total losses during the war were 3,700 men killed or died of wounds and 32,000 made prisoners of war, of whom 700 died. The Boer forces in the field numbered about 75,000.

ONE THOUSAND MEN DIE FROM CHOLERA.

Hardships of the Borneo Head-Hunters' Expedition Led by Vyner Brooke.

LONDON, July 10.—While Harry De Windt has been undergoing rough experiences in Siberia, his nephew, Charles Vyner Brooke, has been having a terrible time in the northern part of Sarawak.

Despatches received here from Singapore, Straits Settlements, under yesterday's date, give details of the suffering from cholera of the expedition, said to number 10,000 men, sent up the Batang Lubar River, Borneo, to punish the head-hunters. When the expedition, of which Mr. Vyner Brooke was a member, started June 10 it was composed of 815 boats. By June 14 the flotilla was reduced to forty boats, owing to desertions and on account of fear of the cholera. By June 19 over a thousand deaths from cholera had occurred, and hundreds were ill.

The remnants of the expedition, however, successfully fought the head hunters and, including Mr. Vyner Brooke, returned safely to Singapore. The despatch announcing Mr. Vyner Brooke's safety was received by his brother at Henley yesterday evening.

Canadians Ill in Africa.

(Special to the Montreal Star.)

OTTAWA, Ont., July 10.—The following cable from the Casualty Department was received to-day:

CAPE TOWN, S.A., July 8, 1902.—C. 4637, dangerously ill on 6th July, Sydenham, E. Division, S.A.C.; 211, Ernest William Walford, enteric fever. Please inform next of kin, father, James Walford, Garden Hill, Ont. Pietermaritzburg, sixth (imbleach?) 294, Edwin Ernest Graham, pneumonia. Please inform next-of-kin, R. C. Graham, Centreville, Digby Co.

MORE WRECKS ON THE NEWFOUNDLAND COAST.

Fishing Settlements Lose $40,000 in Fish Nets and Gear Destroyed by the Storm.

(Special to the Montreal Star.)

ST. JOHN'S, N. F., July 10.—Reports continue to arrive here of disasters on the coast as the result of the recent storm. Whittle's craft, with five men, was lost off Cape St. Mary. Hennessy's schooner, with twenty-five men and two women on board, barely escaped foundering in Maddox Cove. Eighty boats were destroyed in Pouch Cove. The loss in fish, nets and gear sustained by the settlements near St. John's is estimated at $40,000. The schooner Lily, with a general cargo, ran ashore in Blackhead Bay, and is a total loss. The schooner Jasper has in all likelihood been wrecked, and there have been many minor mishaps to shipping.

QUEBEC IMPROVEMENTS.

New Wharf and Breakwater Will be Built at Ancient Capital.

(Special to the Montreal Star.)

OTTAWA, July 10.—The Department of Public Works has prepared plans and specifications for the proposed new wharf and breakwater to be constructed for the accommodation of shipping at Quebec, but will await the authorization of Hon. J. Israel Tarte before inviting tenders.

Death of William Fortier.

(Special to the Montreal Star.)

QUEBEC, July 10.—William Fortier, deputy prothonotary of the Superior Court, is dead, after only a few days' illness, aged 40 years.

The strike of the Chicago freight handlers is virtually settled, and it is expected that the men will go back to work at once.
