THE

Mason & Hamlin Cabinet Organ,

FOR

CHAPELS AND SCHOOLS,

Is acknowledged to be the best instrument of its kind now manufactured, while in the DRAWING ROOM, owing to the beauty and elegance of its case, combined with its sweetness of tone and variety of expression, it is fast taking its position beside the Pianoforte, forming a most agreeable complement to the latter instrument.

The very simple and pleasing contrivance called the *Automatic Swell* is attached to all the Cabinet Organs, and affords the player facilities for effect and variety such as no other reed instrument possesses.

The flattering testimonial to the superior excellence of the Cabinet Organ over all competitors, signed by the leading Organists and Professional men of the United States, recommends it as being "specially desirable for private as well as public use."

CANADA

Railway Advertising Company

NOTICE.

IN order to avoid the trouble and inconvenience heretofore experienced in looking after the Cards placed in only a limited number of Cars, and for a shorter period than a year, the CANADA RAILWAY ADVERTISING COMPANY beg to announce to their patrons and the public that hereafter no advertisements will be received for a less period than one year, and that each advertiser's Card will be placed in all the cars of the Grand Trunk Company leaving the Montreal Station.

An important saving in time and labour being thus effected, the Company will be enabled to make a considerable reduction in the rates of advertising, as well as to confer an important advantage on all advertisers.

As this change, and the addition of several new Passenger Cars which have recently been placed on the line, will involve the re-arrangement of the Cards, advertisers will have an opportunity of making any alterations in their advertisements which they may desire, if early notice is given at the Office.

In addition to the claims of this medium of advertising, which has been fully recognized by both Wholesale and Retail Dealers, the holding of the PROVINCIAL EXHIBITION in this city this year will undoubtedly add largely to the number of travellers, and very much increase the value of advertising in the Cars.

Samples of several new and attractive forms of Cards, the cost of which will meet the views of all classes of advertisers, are now being prepared, and may be seen in a few days at the Office,

PUBLIC OPINION IN ENGLAND.—We lately noticed the apparent reaction of public opinion in England manifested by some of the leading London newspapers on Canadian affairs. Our "delegates" seemed for a moment rather to have overturned the well-balanced mind of John Bull. Brown's overwhelming bursts of assertion, Galt's insinuating suggestions and plausible figures, and Cartier's never-ending bore, bore, really appeared to have brought all parties to consent to give as much money as these gentlemen wanted to keep themselves in power till they had carried Confederation,—a term which, considering that they are now all past middle life, would very well have served their purposes. Perhaps the change which we have since noted is due to the exercise of some influence by the New Brunswick "Antis," whose pilgrimage succeeded that of our statesmen. Or, perhaps, as we rather suppose, when the British public had got free from the stunning effects of the President of the Council; from the soft seductions of the Finance Minister; from the learned disquisitions which secured an Oxford degree for Kingston's member; and from that tease of the member for Montreal East, which would have worn out even old Elwes' resolution to hold on to his bags—perhaps, we say, when relieved from these influences, the public mind in England reverted to its normal condition of sobriety. At any rate, for the last mail or two we have seen very plain indications of a growing dislike to make all those loans for useless or mischievous projects in this country, which, it was said, had been so thoroughly arranged with the Imperial Government, that we had nothing to do but hold out our hands and take the money. The last exhibition of this phase of opinion on the other side of the Atlantic we find in a speech of Mr. C. Buxton, which we copy to-day. Mr. Buxton is said not to be a very original thinker; but a good hand at divining the leading sentiment of the hour among the people with whom he lives, and some of whom return him to Parliament. It will be seen that in an address to his constituents he loudly condemns the engagement, which as the *Daily News* said on the same subject, our delegates had made, or "fancied they had made," with the Imperial authorities. Mr. Buxton, too, alludes to the expressions of opinion in the British press, to which we have referred above, and especially to an article in the *Times*—no doubt the one on the Canadian defences, which we copied some ten days ago—and after testifying his own approbation of the *Times* opposition to the incurring of expenditure or responsibility for the Colonies, he avows his hope that the article in question will have the effect of preventing that which he deprecates. It is singular that Mr. Buxton though he evidently sees the weak point in the scheme of the neutralization of Canada—a weakness which it appears to us must always make that plan inadmissible, seems to entertain, as several other English authorities have shown that they entertain, a fond hankering for an arrangement which would relieve them from any Trans-Atlantic anxieties. Of course no one is bound to attach more than a due degree of importance to the views or utterances of Mr. Buxton, or of any other individual. Still it is by such utterances that we gather the drift of general English feeling, which it is of no small consequence for us in this country that we should understand, and therefore it is, though Mr. Buxton may be only a very respectable member of Parliament,—perhaps one more likely to be influenced by public opinion around him than capable of directing that opinion—that we should not neglect views thus publicly put forward. This is so especially when the speaker supports his own sentiments by appeals to a journal, which, however time serving it may be, and however frequently it may be wrong with regard to foreign affairs, which it does not comprehend, is very rarely at fault either as to its history or guidance with respect to the current of events and opinion at home.

LIFE ASSURANCE—ADDITIONAL SECURITY FOR FAMILIES.—The wisdom of encouraging prudential arrangements for providing for families, has long been understood by writers on morals and practical legislators. There is nothing which the authorities in any country have greater reason to desire than that their citizens or subjects should take measures to prevent the widows or orphans, whom they may leave behind them, from becoming a charge upon the public, as in some shape they must do, if they are not otherwise taken care of. We hold, therefore, that it was an excellent measure which was passed in the last session of Parliament, in virtue of which policies of insurance may be guaranteed to widows or childrens in such a manner as to save them from being seized in execution if the husband or father, on whose life they are effected, should fall into insolvency. Of course proper notices are to be given so that creditors will not be deceived as to the true position of a policy thus secured to survivors; but the family may be rendered safe from the sale of a policy thus effected, just as they may be rendered safe, by a pre nuptial contract on specified property properly enregistered. We dare say that this amendment of the law will as it should do, give a considerable impetus to the business of life insurance, and we see that the active manager of that first rate office the Colonial, has lost no time in bringing under the notice of husbands and wives, and of the public in general, the additional inducements which he can now offer to persons who will desire to lay up a capital for their survivors out of their yearly incomes. Full particulars will be seen in the advertisement of the Colonial Life Aussurance Office, published this day, in the appropriate column.

AFFAIRS IN THE SOUTH.—The end of the war has deprived us of those stirring incidents which used to make this part of the chapter of news, the most interesting that could be set before the reader. Nevertheless, it is worth noting that events in that part of the continent are not standing still; but on the contrary are, we hope, tending to a good and happy restoration of lasting peace. The late papers bring us accounts of State Conventions held in Alabama and South Carolina, in which almost in the words adopted for the same purpose by the State of Mississippi, they have repealed their secession ordinance, and have adopted the emancipation of the negroes as the law of the State. General Beauregard has also applied for pardon with other ex-rebel leaders of inferior note.

LOWER PROVINCES DELEGATES.—At a meeting of the Committee to make arrangements for the reception of the Lower Province Delegates held yesterday, it was decided that a ball should be given on the evening of the 27th instant. Sir Morton Peto and the friends who are travelling with him have been invited and will, we believe, be present. Other festivities are under consideration by the Committee, all of which will be made public in due course.

EMIGRATION FROM THE LOWER PROVINCES TO THE UNITED STATES AND ITS REMEDY.—Some time ago it was said that confederation was knocked on the head in New Brunswick by an American interest, which desired to build the Western extension Railway. Here is the way in which a Confederate newspaper advocates the making of the American road:—

Within the last twelve months, *from one or two streets of the city of St. John, nearly one hundred mechanics have taken their departure for the States!* Many of these were fine young fellows—manly, honest and industrious. They were anxious to remain at home with their parents, their sisters, their brothers and their schoolmates, but "times were dull"—there was nothing doing, and little prospect of improvement The house-joiners, the blacksmiths, the masons feared for the coming winter, and decided not to await the probable penury that lay before them in case they remained here. Should the Railway be built to the States real estate will be enhanced in value immensely; it will become a desirable investment at once. Consequently, carpenters, masons painters and other mechanics and laborers will at once find employment. At the same time, the ship yards will be enabled to obtain material by rail more cheaply than at present, and an encouragement will thus be given to builders to extend their operations. The cost of living in St. John, also, will be reduced by railroad communication with the fine agricultural districts of York and Carleton, from which produce of all kinds will be received in rich abundance. The shingles, boards, ship knees, &c., that will reach St. John by this road will furnish freights to our schooners and other small craft trading with the States. But perhaps the Common Council of St. John will refuse to allow the citizens of St. John to participate in these advantages. It may be that they will decline to aid a work that will keep our young men at home, enhance the value of our property, and increase the prosperity of the city in every respect.

CONCERT.—Mme. El-Dora Louie and party will give a grand entertainment at the Mechanics' Hall this evening. The artists connected with this Concert are all highly spoken of by the leading journals of cities which they have visited. We expect to see a full house this evening.

ENGLISH OPINION ON CONFEDERATION.

The St. John's *Globe* says: "It is urged here as a reason why we should accept Confederation, that the British Government desired us to do so," and then after asserting that British opinion in regard to the scheme is founded in ignorance, the writer asks how many English publicists have examined the features of that obnoxious scheme agreed upon at Quebec? How many of them know that that scheme subordinates these Lower Provinces, even in the smallest local matter, to the Confederate Council sitting at Ottawa—a Council in which New Brunswick may not have a single representative? How many of them know anything of the application of the principal of representation by population to the Maritime Province? How many of them know that by this mode of representation Upper Canada will, in twenty years, have a clear majority of the representatives over all of the other members of the Confederation? How many of them understand the principle on which the Upper House is to be arranged? How many of them know anything about the Northwest territory, about the enlargement of the Canadian canals, or the building of Canadian fortifications in so far as these matters affect us? How many of them know that our taxation will be double the moment we enter upon Confederation? How many of them know that the Canadians are a people with whom we have no trade: that they are a people with for whom we have no more affection than we have for the people of Australia or New Zealand, or any other British Colony? We venture to say that these are matters that never enter into the Englishman's mind when he considers the Confederation question. All he knows is that he is called upon annually for a certain sum to keep up fortifications at Quebec and Halifax and to pay a few soldiers scattered over the Province. He believes that after Confederation he will be relieved of this expense, and therefore he favors the scheme."

THE EARL AND COUNTESS OF DERBY AMONGST THE BUTCHERS.—On Monday 300 of the butchers of Preston, along with their wives, paid a visit to Knowsley, in compliance with an invitation given a short time ago by the Hon. F. A. Stanley, M.P. The party were received most hospitably by the Earl and Countess of Derby. An excellent dinner was provided for the butchers; and their wives, at the request of the Countess partook of tea at the hall. During the day Lord Derby joined the company, and expressed the pleasure he had felt in entertaining them. The butchers of Preston have long been staunch supporters of the Derby family.

THE TEMPERANCE LEAGUE.—The Crystal Palace was on Tuesday a gathering-place of an immense number of members of temperance societies. The National Temperance League had organised the demonstration, which was the most successful affair of the kind that has yet been held There were, of course, various sports in the grounds, and a balloon ascent. In the afternoon there was a meeting, which was addressed by several of the most prominent advocates of the temperance cause.

CITY ITEMS.

ROBBERY AND FORGERY.—In the month of September last, a man named Alphonse Deault, living at the Cedars, came to the city and deposited in the Savings Bank the sum of eighty dollars, the result of his earnings. He was accompanied by a man named Honore Bourbonnais, a neighbour of his, who witnessed the deposit and heard the conversation that took place. After depositing the money and receiving a pass-book, Deault enquired what would be the consequence if he lost the book, as he was anxious to know if he would lose the money also. The proper steps to take in such an event were pointed out to him, and his age, residence, &c., having been taken down, he left the office. When the season came, Deault left to resume work as a lumberman, his usual employment in the winter time, and for this purpose he went away to join a shanty about six hundred miles off. During the winter Bourbonnais had been boasting that he had money in the bank which he could get at any time. He was engaged to be married to a young woman at the Cedars, and in February, just before the marriage was to take place, he came to Montreal, went to the Savings Bank and represented himself to be Deault, that he had lost the pass book and wanted his money. Being in possession of all the needful information he was able to satisfy the authorities as to his being the man he represented and having made an affidavit and signed a receipt in name of Deault he got the money, returned home, got married and it is to be presumed lived as happily as the consciousness of the crime would permit. On Tuesday Deault, being in want of a small sum of money, went to the Savings Bank, but found that his money was gone. He at once informed the Chief of Police who despatched detectives Bouchard and St. Yves to find out the robber. Their suspicions pointing to Bourbonnais they started about five on Tuesday afternoon for the Cedars, about forty miles from here. By the time they got there it was pitch dark and not knowing the way very well they ran the risk several times of having their necks broken by being violently tossed out of the sulky in which they rode, over villanous paths and by ways. About one o'clock they, however, reached the house and found the man they were in search of in bed. It was a sad awakening for his poor wife who knew nothing of the crime. When he was told the errand of the officers of justice he fell down apparently lifeless, and it was with the utmost difficulty he was brought round. When being taken away his wife clung to him convulsively, and it was with difficulty, and only after using every entreaty that the detectives could succeed in pacifying her. He was brought to the Police Station about six o'clock yesterday morning, and after being taken before the Police Magistrate, was remanded. Detectives Bouchard and St. Yves, it will thus be seen, lost no time in ferretting out and bringing the offender before a Court of Justice, and great credit is due to them.

POLICE COURT.—The Court was all day occupied with a number of cases of assaults which, however, were mostly of a very trifling nature. The cases of.

Henri Beaumont, and Honore Bourbonnais, we have given elsewhere.

REPORTED EXPLOSION.—A rumour was in town yesterday forenoon which caused considerable excitemnet that the Ottawa steamer, Prince of Wales, had burst her boiler between St. Annies and Point Claire, killing some and wounding others. The number was very circumstantially stated at twenty-eight. One or two individualy fond of excitement, rushed to Lachine in search of the burst. On finding that they had been sold they, after quitely imbibing some of Dawes best bitter, returned pensively to town, having at least enjoyed the trip and the fresh air.

APPLICATION FOR A ADMISSION TO BAIL.—On Saturday H. A. McCoy Esq., Advocate, lodged apetition for *habeas corpus* in the case of George E. McLean indicted for larceny at the last Quarter Sessions, and on whose case the jury could not agree. The petition was heard on Tuesday and after along argument the prisoner was admitted to bail himself for $600 and two sureties in $400 each.

RECORDER'S COURT.—There were altogether thirty-five cases, none of them of any public interest.

After the ordinary charges were disposed of the Court was engaged in hearing a charge of nuisance brought by Romeo H. Stephens, Esq., against Colonel John Dyde. The nuisance complained of arose from, as charged, the offensive nature of the contents of a wooden box placed, for the purpose of holding manure, against the wall of Mr. Stephens house, in a lane leading from Peel to McTavish streets, behind Prince of Wales Terrace, Sherbrooke street.

G. H. Stephens, Esq., appeared for the private prosecutor, and W. H. Kerr, Esq., for the defence.

The evidence of the various witnesses was substantially the same, and may be summed up shortly. On the 6th of September last Mr. Stephens, who has several times before brought actions against the present defendant, and two other neighbours charged with the same offence, but which actions have been thrown out on point of form or from want of evidence, requested the special duty policemen Cullen and his colleague to inspect the place complained of. Constable Cullen, Councillor Isaacson, A. B. Taft, Esq., Architect, and R. H. Stephens, Esq., testified that on that day a very offensive smell proceeded from the box in question. It was chiefly filled with horse dung, but along with this were portions of the remains of fowls, their entrails, feet, heads, &c., some potatoe parings, and, generally, what is known as kitchen offal. There were in addition swarms of flies and some maggots, attracted by or bred from these refuse matters. In the opinion of the witnesses the smell was injurious to health, and was certainly very offensive to the smell. Arthur Mullholland, in the service of Colonel Dyde, was called to prove by whom the box was used and its position. He also testified that no kitchen offal had been placed there since the 6th, the day on which warning was given, and this does not appear to have been denied by the witnesses for the defence.

Mr. Kerr contended that the action was improperly laid, as the lane really and truly formed part of the premises of the house occupied by Colonel Dyde in Prince of Wales Terrace, and therefore came under the 12th instead of the 7th section of the By-laws of the incorporation, in which case there not being a cart load, which by that section was allowed to accumulate before a tenant or proprietor could be compelled to remove it he would ask that the charge be dismissed. He called Henry Jackson, Esq., agent for Mr. Hopkins, the proprietor of the houses in Prince of Wales Terrace, who said that the extent in depth was 172 feet, including the parterre in front, the house, the yard and the lane. He knew this to be so, as he had laid out the property himself. The boxes in question were placed in that lane before Mr. Stephens had purchased the house he now lives in. They were placed there to keep the place tidy. On cross-examination, witness said he received instruction about numbers 7, 8 and 9, in one of which houses Colonel Dyde lives. The lane belongs to Mr. Hopkins. Don't know who he bought it from. Have been agent for the late Sir George Simpson's representatives. Think it likely Mr. Hopking bought it from them.

Mr. Stephens put in the deed of the property to show that Mr. Hopkins had only a servitude over the lane in common with the occupants of that and other two terraces, numbering twenty-five houses in all. He then said that whatever the result of this trial would be, his client intended to drop the case against the other two gentlemen who had formerly been summoned. There was no vindictive feeling, and a nominal fine would satisfy, but in view of the threatened approach of cholera, he believed it to be a public duty to take the course he had done. He quoted the laws on nuisances, and contended that as the lane was a public lane, open from one end to the other, and in which defendant had only right of ingress and egress, that he had no right to make it a receptacle for filth.

Mr. Kerr for the defence contended that the summons was defective, inasmuch as it specified distinct charges, and attempted to make out the offence by accumulating separate acts. He then went into the merits of the question, contending that Mr. Jackson had proved the lane to be part of the property of the owner of Prince of Wales Terrace, and as such was really a part of Col. Dyde's yard. If the charge were found proven, it would be impossible for any man to keep on his premises any kitchen refuse whatever, and the city by-laws never contemplated such a hard ship as that. The good faith of the defendant, too, was apparent, as he had at once removed all the matters complained of as offensive.

The Recorder said that in another case where there was no question of proprietorship raised, he had found that lanes such as the one in this case could not be made receptacles of filth. The objection as to form was also repelled. An action such as this, would only settle this particular case, and could not at all affect the question as to title which he understood from the evidence was about to be tried before another Court. Under all the circumstances, and as the prosecutor had asked for the smallest penalty, he would fine the defendant in $1 and costs.

THE ROBBERY FROM MESSRS. SAVAGE & LYMAN'S—Henri Beaumont, who, as we mentioned yesterday, was arrested for obtaining watches and jewellery from Messrs. Savage & Lyman's, was brought before the Police Magistrate, by whom depositions were taken, and he was fully committed for trial. Nothing of consequence came out additional to the information we have already given. Five watches had been sent for inspection, three rings, one a diamond, the others an emerald and a topaz set in diamonds, and two very handsome and valuable gold chains, of a new and beautiful pattern, each of these being worth fifty dollars. Mr. Birks and subconstable Patrick McCall, who followe and arrested the prisoner, displayed a great deal of acuteness in following up the faint traces they had obtained of his route. After having lost about four miles on their way by incorrect intelligence, they arrived at St. Remi Station by road, just as Beaumont was reaching it by track. They allowed him to enter a tavern, and while he was in the act of refreshing himself with a glass of beer, he was quietly laid hold of, and the handcuffs on him before he could make any resistance. Constable McCall was dressed as a labourer, with an old slouched hat on, looking unlike the trim, tidy City policeman he usually appears, and hence his being allowed to get within arms length so quietly. The prisoner had dinner given him, as he was very much fatigued with his long walk, and he was then brought safely to town. The gift of ventriloquism claimed for him, is denied by himself and it is treated by those who had to do with the whole affair as a slight stretch af imagination,

MURDEROUS FIGHT.—On Friday night four men who had been in company with each other at Point St. Charles, were joined by a fifth, named McKeon. They all went together to a number of drinking shops, and finally to a house, said to be of rather doubtful character. The men say they had tried to shake themselves clear of McKeon, who was becoming drunk and quarrelsome. Be this true or not, a fight took place in which McKeon got so dreadfully beaten that he lies in a precarious state. Two of the men, named Devany and Irvine, have been taken into custody, there being no charge against the other two. McKeon has as yet been unable to make any deposition, although the Police Magistrate has been twice at the unfortunate man's bekside.

ST. GEORGE'S SOCIETY'S CONCERT.—On Wednesday evening next, the 27th instant, a concert will be given in aid of the Charitable Fund of the St. George's Society. The fund which is most absolutely necessary during the winter season now approaching, is getting very low, and to maintain the liberality so much required by the distressed must be replenished. Every feeling of benevolence, therefore, must be enlisted in such a cause as this, and Englishmen and the descendants of Englishmen should more especially feel it their duty to attend and promote the attendance at this Concert. An attractive programme will shortly be published.

INSPECTION OF THE 1ST PRINCE OF WALES' REGIMENT.—This fine Regiment, under the command of Lieutenant-Colonel Devlin, paraded at the Victoria Hall on Tuesday evening at eight o'clock, and marched to the Champ de Mars, where the Battalion was inspected by Colonel Macdougall, Adjutant-General of Militia. After receiving the Inspecting officer the corps marched past in open and quarter distance columns in quick and double time, the whole were then put through a variety of Battalion movements, under the command of Lt.-Col. Devlin, Major C. F. Hill, and E. Evans wheeling in column, deploying into line, form-

ing column right in front, facing to the rear, changing the head of column by the wheel of sub-divisions round the centre, forming squares changing front of line right, thrown forward a quarter circle, &c., &c. The Adjutant-General was accompanied by Mrs. Macdougall and Brigade-Major Macpherson. We also noticed Col. Durie, of Toronto; and Lieut.-Colonel George Smith, Assistant Adjutant-General, on the ground. At the conclusion of the inspection, and after giving the grand salute, the officers were called to the front and addressed in complimentary terms upon the appearance of the corps and the highly satisfactory manner in which the various movements were performed, shewing that they, the officers, were up to their marks. A hollow square was then formed, when the Adjutant-General took occasion to address the men of the Battalion, expressing the pleasure he had experienced that evening in witnessing their drill, and the proficiency displayed by them was really surprising, with all the disadvantage of the darkness and the limited accommodation in the drill halls for their practice.—certainly the appearance of the Regiment this evening reflects the greatest credit upon the officers and men. He concluded by thanking Col. Devlin for the pleasure he had afforded him in what he had just witnessed. Mr. Macdougall was present during the whole time and appears to be much interested with the parade. The corps turned out 200 men, with its fine fife and drum band, under the following officers, viz., Lieut.-Col. Devlin, Commandant, Major Hill and Evans, Captains Bond, Pearson, and Burland, Lieutenants Kiernan and Danie, Ens. Townsend, Wall, Matthews, Vass, Hart, and Rogers, Captain and Adjutant Robinson.

THEATRE ROYAL.—This evening the great moral drama entitled the "Drunkard" will be presented at the Theatre Royal with the full strength of the Company. The performance of the evening will conclude with the farce of the "Swiss Cottage," in which Mr. Bowers and Miss Amy Stone will appear, introducing during the piece a number of songs. The bill offered for this evening is a a good one, and should draw a full house.

THE LADIES' BENEVOLENT SOCIETY FETE.

Yesterday the fete in aid of the funds of this excellent society took place, as advertised, in the grounds set apart for the Agricultural Society's Show, St. Catherine Street. Notwithstanding the fineness of the day and the noble object, we regret to say the attendance was by no means what might have been expected. The games were very attractive and were kept up with much spirit. The tilting at the ring was one of the most exciting sports of the day in which Quartermaster Sergeant Tabb, of the No. 1 Troop of Montreal Cavalry, particularly distinguished himself, twice making centres, and once carrying off the ring by an outer stroke. Bombardier Barker, R.A., who took the second prize, having taken four outers. Mr. Guilman, teacher of riding at Guilbault's, created much amusement by exhibiting himself as "Madame" riding her half trained colt. The band of the 60th Rifles, so well and favourably known, played a fine selection of music including the Turner March, by Hamm; the overture to Cheval de Bronze, Auber; L'Africaine, Quadrille, Meyerbeer; Cavatina from Ernani, Verdi; Mabel, Valse, Godfrey; Selections from Il Barbiere, Rossini; Orpheus, Galop, Offenback; March from the Prophet, Meyerbeer. The selection and the execution reflect great credit on the leader and on the performers.

The following is a list of the games and winners:—

Long Foot Race open to all except Indians—Pat Fitzgerald, 1st; Jas Collier, 60th Rifles, 2d; Jas Johnston, do, 3rd.

The games to-day will begin at one o'clock. The programme is even more attractive than yesterday's, and a military band will be in attendance.

VOLUNTEER BRIGADE RIFLE MATCH.

The competition for the "Corporation Challenge Vase" took place at Point St. Charles Rifle Ranges yesterday, commencing at two o'clock p.m. Six corps having entered, viz: The Battalion Garrison Artillery, Engineers, 1st Prince of Wales Rifles, Victorias, Royals and Hochelagos. We subjoin the score of each, the Royals being the winner of the valuable prize, which having been won two years in succession, according to the conditions of the match, becomes the property of the corps. It will be observed by the scores that the contest was very close between the Royals, Artillery, and Victorias at the 200 and 400 yard ranges. The latter corps made the largest score, but lost at the 600 yard ranges.

The following are the conditions of the match:—

Ranges—200, 400, and 600 yards—five shots at each range. Enfield Rifles, as served out to the rank and file of the Montreal City Battalions of the Active Force; minimum pull, 6 lbs. At Range A, standing; at other Ranges, any position. Open to competition by the Battalions of the Active Volunteer Force of the City of Montreal; five competitors from each Battalion, and to be won two years in succession, under the same conditions of firing, before becoming the absolute property of any Battalion—to be shot for in each September, and to be in charge of the Winning Battalion for the year until finally adjudged.

The following officers were in charge of the firing parties, viz.: Majors Hill and Grant, superintended the firing of each squad, Major Edwin Evans, and Lieut. Davidson, superintended the scoring. The drill instructor, Srgt. Nappy, 30th Regt., and Sergt. Peacock, 25th Regt., kept the scores, marks, and buglers were detailed for the 25th Regt. The whole of the arrangements were carried out strictly in accordance with the regulations, and nothing happened to mar the proceedings. The day was fine, and a large number of spectators were present, volunteers and civilians. Amongst them we noticed Colonel Dyde, commandant, who seemed to take great interest in the match. Lt. Col. Devlin, Major Isaacson, Lieut.-Col. W. O. Smith, Capt. Walter Scott, Capt. Routh, Capt. Wall, Ensign Crawford, Capt. Crawford, Victoria's, Capt. J. S. Mathewson, Lieut. J. Savage, and Ensign Mathewson, Brigade Major Macpherson and other officers not in uniform.

COMPLIMENTARY PLEASURE EXCURSION TO MR. HENRY HOGAN.

We, last week, received a polite invitation to make part of a pleasure party which on Saturday left this city on board a steamboat, chartered by the friends of Mr. Hogan, for an excursion to Terrebonne. Unfortunately for ourselves other engagements made it impossible for us to accept this kind provocation to enjoyment, and we are, therefore, indebted to our contemporary, the *Transcript*, for a notice of the convivialities, which appear to have been of a very lively and cordial character. Mr. Starnes acted as chairman, with the guest of the day on one side of him, and the Hon. T. D. McGee on the other. Highland Pipers and the capital band of the 25th K. O. B. woke the echos of the St. Lawrence with their music; and after the usual loyal and patriotic toasts the health of Mr. Hogan was proposed. The latter gentleman, rather breaking down under the honours heaped upon him, committed the response to Mr. Devany, who, not being able to plead the usual excuse of being unaccustomed to public speaking, offered the thanks of his principal with all the eloquence which those who know him know that he is master of. At Terrebonne there was a procession which seems to have been conceived very much in the style of that by which the Lord Mayor on the 9th day of every November is escorted through the City of London, and we should judge by the description was little less splendid than that well known Civic Exhibition. There was a band; there were pipers; there was in the person of Captain Rudolph a fair representation of one of the giants known as Gog and Magog, whose effigies grace the occasions of great city banquets in the Metropolis of the Empire; there were highlanders with claymores, and numerous other remarkable spectacles. The party enjoyed themselves on shore by games, athletic sports and dances. There was moreover tea and coffee at Captain Voligny's residence, and then a merry return homewards to the St. Lawrence Hall. The following is a list of the party:—

C E Belle, Jules Fournier, M Cuvillier, W Marchand, E Doutre, R Steel, D Butters, M P Ryan, Dr Pallen, E Charlton, Joseph Jones, D Wood, Gilbert Scott, A Watson, W Williamson, J McShane, D McNevin, J Haldane, Johnson Thomson, Dr Radway, A P Savage, A B Chaffee, J C Meeker, J A Henderson, Hy Starnes, Hon T D McGee, Dr R Macdonell, L Devany, E I Bancroft, Thos Workman, Col Dyde, H S Hepburn, Jas Grant, Capt Swale, Capt Farrell, T W Griffith, Duncan McDonald, T McCready, S Waddell, E S Eastwood, F Nashwood, Jno Ross, W Lindsay, T Matthews, S J Doran, A McGibbon, T Hawson, Walter Macfarlane, C W Starnes, Joseph Daley, Fredk Gerikin, M Rielle, W O'Brien, Fred Penton, Peter Macfarlane, James Smith, Capt Rudolf, W S Macfarlane, W Wilson, John Thomson, Capt Voligny, J A Glassford, Capt Roy, W T McGrath, H Hogan.

We may add that the commissaries and quartermaster's departments were admirably officered by Messrs. James Smith, W. O'Brien, Joseph Daley, John Thomson, and Wm. Wilson, and that Dr. Pallen composed and recited an original epic poem expressly for this occasion.

CORRESPONDENCE.

THE RESULTS OF THE SESSION.

To the Editor of the MONTREAL HERALD.

MR. EDITOR,—Your remarks on the do-nothing policy of the Government will be echoed by everyone—a policy so remarkably barren of action that the Speaker makes a point of contrasting with it the number of private bills introduced as a sort of make-weight. Our government appear to have reversed the old axiom, and read it thus:—"Never do to-day that which can be put off until to-morrow."

I am reminded that on the occasion of the return of Queen Elizabeth from one of her country visits, the Speaker of the House of Commons waited upon her, and upon being asked by the Queen "*What hath passed?*" replied with all due humility, "May it please your Majesty, seven weeks have passed!"

I think the session just closed may be recorded in the History of Canada as one in which all useful legislation was postponed, and capital punishment was abolished for every crime not likely to be committed.

I am, Mr. Editor,
A VOICE FROM THE CROWD.

MONTREAL, 20th Sept., 1865.

To the Editor of the MONTREAL HERALD.

SIR,—Upon my arrival this evening by the steamer "Prince of Wales" to this city, I was astounded to hear that a report of its loss, and worse still, great loss of life had been circulated. I humbly thank the Great Father—it is not true—and hereby testify, after nearly nine years' experience of travel by that line of boats, at least 4 times every month, that nothing short of wilful misrepresentation could have given rise to the report. I have travelled much, for many years past and never did I see a boat to *equal* the "Prince of Wales" in its management. Indeed, as far as its management is concerned, I think it perfection; from its officers to its subordinates nothing can surpass them. Its good captain, Wm. Shepherd, is a gentleman in every sense of the word.

Most respectfully,
G. MATTHEWS,
Mount Victoria, Hudson, C. E.

Meeting of the Provincial Synod of the Church of England and Ireland in Canada.

The Rev. PROLOCUTOR took the chair at ten o'clock, and business was resumed.

The minutes of the previous meeting were read and confirmed.

COLONIAL REPRESENTATIONS IN THE HOME CONVOCATIONS.

The Rev. PROLOCUTOR read a memorial from the House of Bishops to the Archbishops, Bishops and Clergy of the Convocations of Canterbury and York from the Bishops, Clergy and laity of the Canadian Synod. It set forth the recent declarations in high places as to the connection of the mother Church with the Colonial branches; affirmed the identity of faith and doctrine between the two; stated that the Church was desirous, most earnestly, of maintaining the connection, and said that this could best be done if the Anglican communion throughout the world was represented in the convocations of Canterbury and York.

Ven. ARCHDEACON PATTON moved, seconded by Dr. HENDERSON, that the following words be the first in the memorial:—"We the Bishops, Clergy and Laity of the Canadian branch of the United Church of England and Ireland."

The motion was carried and the memorial as amended was sent to the House of Bishops for their Lordships approval.

COMMITTEE ON THE DIACONATE.

The report of the Committee on the Diaconate was then read and taken into consideration.

An amendment—providing that Deacons should not be admitted as Priests till they had served two years as Deacons was carried.

The clause as thus amended, was put to the House and carried by 25 to 22.

The next portion of the report was then taken up. The Committee were not prepared to recommend as Deacons persons in secular employment; that the wants of the Church in many localities might be met by lay readers, commissioned and placed under incumbents.

Rev. Mr. BLEASDELL moved, seconded by Rev. Mr. FOTHERGILL, that the report be referred back to the Committee for amendment.

Some discussion ensued as to the benefit of lay readers, some members supporting this system and others expressing the opinion that they were not yet prepared to adopt it.

The amendment was lost.

The latter clause of the report, respecting the employment of lay agency, was then put and carried.

Rev. Dr. NICHOLLS moved, seconded by the PROVOST of Trinity College, to enact the above resolution respecting deacons as a canon. This was lost, by 23 to 25.

TREASURER'S REPORT.

On motion of Rev. Dr. BANCROFT, the report of the Treasurer was adopted.

POWERS OF METROPOLITAN.

The report on the powers of the Metropolitan was then taken up and passed with a few trifling alterations. It was ordered that the report be sent to the Upper House for the approval of their Lordships.

AFTERNOON SITTING.

MESSAGES FROM THE UPPER HOUSE.

The PROLOCUTOR informed the House that the House of Bishops had concurred in the address to the Convocations of York and Canterbury.

That their Lordships had also concurred in the Canon for a trial of a Bishop.

Also in the resolution with regard to Indian missions, and appointed two delegates from each diocese.

Also in the 8th Article of the Constitution.

CANON ON GODFATHERS AND GODMOTHERS.

This Canon came down from the Upper House for concurrence.

An amendment was proposed to the effect that "God fathers and God mothers as far as may be shall be communicants with the church" instead of making it obligatory that God fathers and God mothers should receive the holy communion.

Mr. BETHUNE thought if these words were introduced they would destroy the canon. It would cease to have force.

Some discussion occurred, several members contending that it would shut the door to the admission to the church of many children, especially in rural districts, if it were necessary that parents must be communicants.

The PROLOCUTOR said that he believed they should pass canons which they could observe. It was for this reason that he supported the introduction of these words, for with them in it was practicable to observe this canon. If they could not have sponsors who were communicants, they should take them as they were.

The above amendment was carried by a large majority, and the canon so amended was then passed, and on the motion of Rev. Canon Bancroft sent to the Upper House for their Lordships concurrence.

RULES OF ORDER.

The DEAN having taken the chair, the PROLOCUTOR, Chairman of the Committee on the rules of order, moved, seconded by Rev. Mr. MARSH, that the amended rules of order be taken into consideration clause by clause. Carried.

The rules were then taken up seriatim. Some discussion took place on the fourth rule, with regard to the Prolocutor addressing the House.

Hon. J. H. CAMERON proposed an amendment to exclude the Prolocutor from Committees, and to prohibit him from taking part in a debate, merely giving him the right of the casting vote. This was declared lost, and Dr. Beaven moved that the rule remain, with the addition that whenever the Prolocutor wishes to address the House he shall call his deputy to the chair and remain on the floor of the House until the debate in which he has taken part shall have ended and the vote been taken.

This was declared carried, but the vote being called for by orders, showed a majority of lay delegates opposed, and the motion was lost.

The other rules were then proceeded with and adopted, with some unimportant alterations.

The PROLOCUTOR said he had received a message from the Metropolitan, informing him that with the consent of the House of Bishops, he would be ready to issue his schedule of acts passed since the Synod met, and prorogue the Synod at any hour not later than 8 o'clock.

The Upper House concurred in the report of the Committee, respecting an address to the Bishop of Capetown, which the Metropolitan would communicate to him.

Also in the Canon on the powers of the Metropolitan with one amendment, which was concurred in by the Lower House.

The Upper House did not concur in the alteration proposed by the Lower House in the 29th Canon (respecting sponsors being communicants.

It was considered, therefore, that the House of Bishops dropped the matter.

They did not concur in the resolution for a joint committee to prepare certain forms for laying foundation stones.

MISCELLANEOUS BUSINESS.

Archdeacon Patton moved, seconded by the Archdeacon of Toronto, that the Secretary of the Synod shall take the necessary steps for the publication of notice of the application to the Legislature for a bill for the sale of rectory lands, and shall place the petition on the subject to the legislature in the hands of members of this Synod who are members of the Legislature for presentation, such members to be requested to introduce a bill in accordance therewith. Carried.

On motion of the same gentleman, the matter was entrusted to the Hon. J. H. Cameron.

On motion of Rev. Mr. MARSH, seconded by Rev. Mr. HOLLAND, Hon J. H. Cameron was named Chairman of the Committee appointed to carry out Rev. Mr. Hemming's motion with respect to the articles and the liturgy.

On motion of Archdeacon PATTON, seconded by Rev. Mr. MARSH, the thanks of the Synod were tendered to Rev. Canon Bancroft, late Secretary, for the able manner in which he discharged the duties of that office while occupied by him.

On motion of Rev. Mr. MARSH, a resolution was adopted enjoining attendance at the meetings of Synod of all members thereof, the resolution to be sent to the Diocesan Synods with directions for them to take such steps as may be deemed best to secure the attendance of delegates at the Provincial Synod.

A vote of thanks was passed to the Railway and Steamboat Companies for the facilities they had afforded the members.

It was understood that motions and unfinished business should stand over and be taken up at the next meeting of Synod.

It being six o'clock the Synod then rose.

EVENING SITTING.

The PROLOCUTOR resumed the chair at a quarter to eight o'clock pursuant to adjournment.

The minutes of the previous meeting were read and confirmed.

The Lower House then proceeded to the House of Bishops, when His Lordship, the METROPOLITAN, closed the proceedings in the following terms.

Reverend Brethren, and Brethren of the Laity:

At the close of this, the third session of our Provincial Synod, before declaring the Synod to be prorogued, it is my duty, as on former occasions, to state how the several matters stand which have been brought before this House, and to certify in writing, as to what business having received the sanction of both Houses, has been passed by the Synod. The business then, which having been brought before the Upper House, and which having been concurred in by that and the Lower House, I hereby declare to have passed the Synod, is as follows:—

1. A resolution reaffirming, and declaring our assent to the Constitution and past Acts of the Provincial Synod.
2. An address to the General Convention of the Protestant Episcopal Church in the United States.
3. The appointment of a Joint Committee of both Houses to consider "what amendments or alterations may be advantageously made in the Church Temporalities Acts, and a Petition to the Legislature respecting the same
4. An address to His Grace, the Archbishop of Canterbury, on the subject of a National Synod of the Bishops of the Anglican Church at home and abroad.
5. The appointment of a Joint Committee of both Houses "for the purpose of compiling a Psalm and Hymn Book."
6. A resolution respecting the use of the words "House of Bishops" wherever occurring in the Acts of the Synod.
7. A memorial to the Legislature respecting the Rectory Lands.
8. Canons "on the election of Metropolitan and Bishops of the Diocese of Montreal."
9. Canons "on submission of clergy to the canons of the Provincial and Diocesan Synods."
10. Canons "on the powers of the Metropolitan."
11. A canon "on the trial of a Bishop."
12. A canon "on the election of Delegates to the Provincial Synod;" and an alteration of the 28th article of the constitution on the same subject.
13. An address to the convocations of Canterbury and York.
14. A resolution respecting a committee to enquire into the state of various Indian missions, &c.

Considering the many and grave questions that have been raised effecting the Colonial Church, in consequence of the recent judgments delivered by the Judicial Committee of the Privy Council in England, this Session of our Provincial Synod has been invested with a more than ordinary importance, and we have great reason for gratitude to Almighty God, that whatever apprehensions may have been entertained lest there might be some serious difficulties in the way of our carrying out the united action of the Dioceses of the Province, yet on no previous occasion has there been manifested so much harmony and good feeling; and let us hope, as we have been permitted thus far to carry forward the great work of the organization of our Ecclesiastical Polity, the Holy Spirit will continue to direct and guide us in all our deliberations and acts, both in our several dioceses and when ever we meet as now in the great council of the Church in Provincial Synod.

I have now only to declare that this Synod is prorogued.

F. MONTREAL, Metropolitan,
President.

Wednesday, Sept. 20th.

His Lordship then pronounced the Benediction, and the Synod broke up.

MR. C. BUXTON ON OUR RELATION WITH CANADA.

The electors of the Hundred of Wellington invited the members for east Surrey, the Hon. P. J. Locke King and Mr. C. Buxton, to dine with them at the King's Arms Hotel, Croyden, on Wednesday, the 30th ult. Mr. G. Leveson, Gower, M.P., presided.

Mr. Buxton, in the course his of speech, observed that it showed what rapid vicissitudes took place in human affairs, that in the interval since he had addressed an audience at Croyden, a considerable change for the worse had come over the aspect of affairs. At the period of the election the prospect in every direction was a brilliant—one there seemed to be nothing before us but prosperity and peace. Now, he did not mean to say that the scene had been overcast by any very black thundercloud, but still its brightness had became dimmed. The trade of the country had fallen off by a considerable amount from that of last year, the harvest had been materially injured by the heavy and repeated rains, the cholera was threatening Europe with its dread visitations, while a frightful plague had actually broken out among the cattle throughout the land, causing inexpressible misery and ruin to individuals, and tending greatly to lessen the supply of meat and milk for the people. As if to add another dark touch to the picture, murders and crimes of violence were never more rife than during the last month. And last, but far from least, (continued the hon. member,) we may note the continuance, or rather the renewed violence, of the strange feeling of exasperation entertained towards us by our brethren on the other side of the Atlantic, a feeling, as we are well assured by impartial witnesses, which might only too easily hurry them under very slight provocation into war, (Hear.) It is extremely painful to find this feeling surviving the restoration of peace in North America, We might naturally have hoped that, at any rate, in the moment of victory, with their pride gratified not only by success, but by the consciousness of the perseverance, energy, and ability which had been displayed on both sides in the great struggle, the Americans would have been disposed to rest satisfied, and to feel little irritation against others. (Hear, hear) That is not so; and, although I, for one certainly feel under no apprehension of our being plunged, for the present, at any rate, into a war with that country; still I do think there is no subject which, at the present moment, demands such anxious and careful thought, as the question how we can most effectually remove every possible inducement or temptation to our North American neighbours to draw the sword against us should any cause of dispute arise. (Hear, hear.) Now, it cannot be denied that such an inducement is actually presented to them by our position in Canada. We cannot doubt that in case any quarrel arose between us and North America, nothing could be a greater in temptation to them to plunge into war, than the fact that we had some 10,000 or 15,000 British troops in Canada, upon whom they might fall with a force incomparably greater in point of numbers, and still more disproportionately powerful in artillery and munitions of war. In keeping that handful of troops in that country, we are offering a glittering prize to their ambition: we are holding out before them a great temptation to fly to firms, should any cause of quarrel arise; while for ourselves we are incurring a most serious risk of disaster and disgrace. (Applause) This question ought, just now to take precedence of every—not that I have the slightest fear of any speedy outbreak of war; but I do think we ought now, while time allows, to be cutting away the roots, as it were, of anything that might grow into a risk of war with our American brethren—a war the most detestable, as well as the most ruinous in which we could possible engage. (Applause) I will not, therefore, apologize if I briefly allude to the urgent question whether and by what means it would be possible to lesson the dangers that lurk in our present relations with Canada. The Government of the country last session made an attempt to grapple with that question. They offered their solution of it, and this is that we should spend some hundreds of thousands of pounds in fortifying one or two points of the Canadians territory, on the condition that the Canadian should do the same elsewhere. The repeated debates on the question demonstrated beyond denial that without an outlay of millions upon millions, and without maintaining an armed force much beyond what England could possibly spare, we could scarcely hope to defend even the eastern end of Canada; and no one attempted to show that we could hold Upper Canada, incomparably the most attractive portion to the Americans. I can not think, therefore, that this solution was sufficient or satisfactory. Another solution of this problem has been recently suggested, viz; that an agreement should be entered into between England and America, that Canada should be neutralized; in other words, that, in case of war such an agreement would at once drop into abeyance, and the only effect of it be to give the Americans the first start in using Canada as their basis of operations. (Hear, hear.) Then again, it has been proposed that we should get rid of the really fearful risks involved in our connexion with Canada by bringing that connexion to a close. I think that that is the only effectual method; but, on the other hand, It would be disgraceful to this country if she were either to refuse to give aid to Canada in case of her being attacked, or if we were to insist, under sense of an alarm, however well founded on severing the connexion in that colony. (Hear, hear.) The time is not yet ripe for any such sudden or violent division, but yet I think, the mind of the people, both hear and in Canada itself, ought to be turning more and more to the consideration whether it would not be for the benefit of both of them that the Canadian Confederation, when it is consolidated as we may trust that before long it will be should become a completely independent nation, instead or remaining a mere branch of a still greater one. (Applause.) I think the portenious loans and guarantees which Canada is exacting from us, and against which the Times has to-day rolled its thunders—not, I trust in vain—may well open our eyes still wider to the momentous question whether it really is for the good of either of us that we should remain thus bound together. (Applause) The hon. gentleman concluded by, referring to the union of the French and English fleets as superinducing the dream that the present system under which every nation armed herself *cap a pie* against her neighbours was not one that would for ever hang its grievous weight upon the onward progress of the human race.

AN ACT TO SECURE TO WIVES AND CHILDREN THE BENEFIT OF ASSURANCES ON THE LIVES OF THEIR HUSBANDS AND PARENTS.

Whereas it is expedient to permit persons to insure their lives for the benefit of their wives and children; Therefore, Her Majesty, by and with the advice and consent of the Legislative Council and Assembly of Canada, enacts as follows:

1. It shall be lawful for any person to insure his life for the whole term thereof, or for any definite period, for the benefit of his wife, or of his wife and children, or of his wife and some or one of his children, or of his children only, or some or one of them, and to apportion the amount of the insurance money as he may deem proper where the insurance is effected for the benefit of more than one.

2. The said insurance may be effected either in the name of the person whose life is insured, or in the name of his wife, or of any other person (with the assent of such person) as trustee; and the premium of any policy of insurance hereafter effected under this Act, shall be payable during the whole of said person's life, or during any lesser period, by annual, half-yearly, quarterly or monthly payments.

3. It shall be lawful, within one year after the passing of this Act, for any person by writing indorsed upon, or attached to any policy of insurance on his life, which may have been effected and issued before the passing of this Act, to declare that such policy and insurance shall be for the benefit of his wife, or of his wife and children, or of his wife and some or one of his children, or of his children only, or of some or one of them, and to apportion the amount of the insurance money as he may deem proper, when the insurance is declared to be for the benefit of more than one.

4. When no appointment is made in any policy or declaration as aforesaid, all parties interested in the said insurance shall be held to share equally in the same, and when it is stated in such policy or declaration, that the insurance is for the benefit of the wife and children generally, without specifying their names, then the word "children" shall be held to mean all the children of the person whose life is insured, living at the time of his death, or whether by any other marriage or not.

5. Upon the death of the person whose life is insured, the insurance money due upon the policy, shall be payable according to the terms of the policy, or of the declaration as aforesaid as the case may be, free from the claims of any creditor or creditors whomsoever.

6. Nothing contained in this Act shall be held or construed to restrict or interfere with the right of any person to effect or assign a policy for the benefit of his wife or children as at present allowed by law, nor shall it affect any assignment of any existing policy made before the passing of this Act, nor any action or proceeding pending at the time of the passing of this Act in any Court of law or equity.

DYSPEPSIA AND INDIGESTION.—These great scourges of our people cannot be too well understood, or the means of averting or curing them too highly appreciated. The person who discovers any means of cure or alleviation, confers a benefit upon his fellows, and is deserving of honor. Jackson, for Jones & Evans, Philadelphia, which medicine is spoken of in terms of the highest commendation by thousands who have tested its efficacy. The New York *Tribune* says, "the reason why Drake's Plantation bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced, &c."

The *Tribune* just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each bottle, and the bottles are not reduced in size. At least twenty imitations and counterfeits have sprung up. They impose upon the people once, and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts are stubborn things.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.

They are Sugar-Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Superintendent Soldiers' Home, Cincinnati, O.

H. B. KINGSLEY, Cleveland, O.

"* * * The Plantation Bitters have cured me of a derangement of the kidneys and the urinary organs, that has distressed me for years. It acts like a charm.
C. C. MOORE, 254 Broadway.

NEW BEDFORD, Mass., Nov. 24, 1863.

DEAR SIR,—I have been afflicted for many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine glassful after dinner. Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.
Respectfully, JUDITH RUSSELL.

If the ladies knew what thousands of them are constantly relating to us, we candidly believe one-half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th Street, New York, says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself and both are hearty, saucy and well. The article is invaluable to mothers." &c.

Such evidence might be continued for a volume The best evidence is to try them. Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these bitters. They speak for themselves

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any persons pretending to sell Plantation Bitters in bulk or by the gallon is an impostor. We sell it *only* in bottles. Sold by principal dealers throughout the habitable globe.

THE WONDER OF THE AGE.

MYSTIKOS OR BOGLE'S MYSTIC HAIR TIN

THE NEWEST AND GREATEST DISCOVERY—The indispensable appendage to every toilet—The companion of young and old—The "long sought for and now found."

IT IS NOT AN INSTANTANEOUS HAIR DYE, but it gradually and mystically restores hair to its original color, and gives to grey, or to any unpleasant hue of hair, any tint, varying from the lightest, through all the intermediate shades, to the deepest black, lifelike and natural, at pleasure. It can be used as easily as oil to the hair. The directions are so simple that a child may apply it. It is contained in one bottle. There is no washing of the hair before or after the application. It will not stain or discolor the scalp. It is as harmless as water. It is chiefly composed of vegetable ingredients, and no sulphur, lead or deleterious minerals are contained in it. It nourishes and strengthens the hair, promotes its growth, and sustains it in prestine beauty to the latest period of life. In short, it is a wonder, a luxury, none should be without it. Try! Be convinced!

The Mystic Hair Tint is peculiarly adapted for ladies, on account of its easy application. Also and for the same reason, to gentlemen in the army or navy.

The Mystikos is also the cheapest article as one bottle will last from nine to twelve months.

, Concise and simple directions accompany each package.
