

AMENDMENT INTRODUCED BY CONSERVATIVES

Declares That Canada Needs Immigration and Economy

E. W. Beatty And P.J.A. Cardin Were Speakers At Board Of Trade Banquet

About Three Hundred Guests Present at Thirty-Fifth Annual Banquet Held Last Evening in Masonic Hall—S. R. Fuller, Jr., Presided—A. M. Sangster Told History of Board of Trade Since 1889—Hon. Mr. Cardin Delivered Eloquent Address—Has Abounding Confidence in Canada's Future—Sound Theories Advanced by E. W. Beatty, K.C., President of C.P.R.—Immigration and Economy Should Be First Considerations of National Policy.

"THERE is no place in Canada for the wailings of the alarmist or the ravings of the pessimist," said E. W. Beatty, K.C., President of the Canadian Pacific Railway, speaking last evening at the thirty-fifth annual banquet of the Sherbrooke Board of Trade. "But do not understand me to mean that this precludes the desirability of thoughtful consideration to improve existing conditions and so order our national policy that the undoubted future of the country may be realized as speedily as possible. And if you ask me what is wrong with Canada, I would answer: absolutely nothing, except, perhaps, some of the people in it."

TOUCHED ON NATIONAL PROBLEMS BEFORE CANADA

Mr. Beatty, in the course of his address, touched upon the national problems before Canada at the present day, and set forth his arguments to show that the remedy for most of the ills was immigration, pointing out that Canada could unquestionably support many times the nine millions of people which make up her population at present, and that many more than nine millions were required to support Canada. "If the population were double what it is," he said, "many problems would naturally solve themselves."

"Economy must also be enforced," Mr. Beatty said that the principles by which the Government should be guided in any large expenditure are those which would guide any sound business man or corporation. The principles upon which these expenditures should be regulated he set forth as follows: Are they necessary for public safety? Will they be productive of more revenue? Are they necessary from the standpoint of public convenience? Are they expenditures which are within the limits of your resources and, therefore, such that even a prudent man would make?

DOLLAR WASTED IS NOT EASILY REPLACED

"I have tried to indicate that I am not a pessimist," said the speaker. "Intelligent optimists are what we would all be fortunate in being. He is a man of great faith, combined with prudence. He is far removed from the attractive but unthinking gentleman who induces in us a spirit of complacency not consistent with initiative or effort; who says there is no occasion to think, much less worry; that all we have to do is to leave it to Providence or the Government. This man has been the cause of the waste and extravagance for which you and I are discharging. He is the man who has aided by his advocacy of ill-considered policies, the expenditure of a great deal of money which it would have been wisdom to save, and he is the man who is still amongst us with that infectious optimism which is unaccompanied by business experience and sound judgment. I would like him to gracefully retire, for a short time at least, from the stage, and leave it to the cooler, saner, but equally confident business and professional men who realize that a dollar is worth exactly one hundred cents, and that once wasted it is not easily replaced."

WAS ONE OF MOST SUCCESSFUL FUNCTIONS OF ITS KIND EVER HELD IN SHERBROOKE—SPEAKERS WERE LISTENED TO WITH KEEN ATTENTION—THREE HUNDRED PRESENT

Both the guests of honor, Mr. E. W. Beatty and the Hon. P. J. A. Cardin, Minister of Marine and Fisheries, were listened to with keen interest and attention by the assembly of close to three hundred which sat down at the long tables in Masonic Hall. Mr. S. R. Fuller, Jr., president of the Sherbrooke Board of Trade, acted as chairman, and in addition to the guests of honor, Mr. Beatty and Mr. Cardin, seated at his right and left, the head table was occupied by Messrs. F. N. McCrea, M.P., E. W. Tobin, M.P., Grant Hall, His Worship Mayor Brault, A. M. Sangster, Justice C. D. White, Hon. E. L. Adams, United States Consul, J. H. Walsh, W. A. Hale, James Mackinnon, E. W. Farwell, D. J. Steele, A. E. Bernard, Frank Thompson and J. K. Edwards.

The banquet was one of the most successful functions of its kind held in Sherbrooke. The chairman, Mr. Fuller, in his brief opening remarks, spoke of the importance of the Board of Trade to Sherbrooke.

"Sherbrooke has forty-four industries," he said. "Twelve of these industries were brought in through the influence of our friends to the south of us. Sherbrooke employs in these industries normally 4,600 workers. Of these employees there are 2,400 normally employed by the twelve industries brought in as American branches. Therefore, the importance of trade to the City of Sherbrooke is paramount. It is an industrial centre, for 4,600 people normally employed in industries means nearly 20,000 inhabitants. The last census stated the city's population as roughly 24,000. Therefore, the organization which represents trade should be the organization uppermost in the life of every man here. There are certain problems always before a country which vitally effect the welfare of industries and, therefore, the welfare of every individual at this table."

TWO KILLED AND FORTY HURT IN TRAIN WRECK

Regular Train Crashed into Football Special—Terrible Scenes in Almost Pitch Darkness of Tunnel.

LONDON, April 26.—Two persons were killed and between thirty and forty injured in a train smash just outside the Euston Station this morning. One of the many, specials from Northern England, bringing football fans to the association cup final at the Wembley stadium between the Aston Villa and Newcastle teams was standing in the mouth of the tunnel when an electric train from Watford bearing early city workers crashed into it at thirty miles an hour.

Terrible scenes following for an hour afterward in the almost pitch darkness of the tunnel. The casualties occurred in those carriages of both trains which were telescoped by the impact.

TEN DIRECTORS OF HOME BANK TO FACE TRIAL

Cases Will Come Before Toronto Court Next Week—Charged With Conspiracy.

NEWFOUNDLAND ELECTION LAST WEEK IN MAY

Indications Are that There Will Be a Three-Cornered Fight—Sir Richard Squires May Enter Contest.

ST. JOHN'S, Nfld., April 26.—Sir William Allardice, Governor of Newfoundland, has assented to the request of Premier Warren for a dissolution of the local legislature. Writs will be issued for a general election and it will be held last week in May or first week in June. Indications point to a three-cornered fight with the Warren party and the opposition party in the field and a third organization headed by Sir Richard Squires, figuring in the fight.

SECRET SOCIETIES QUITE ACTIVE IN GERMANY

Ambassadors of Allied Nations Request German Government to Put End to These Activities.

BERLIN, April 26.—The ambassadors of the Allied Nations, as a result of the decision taken recently by the Council of Ambassadors in Paris, yesterday made joint representations to the German Government calling attention to the existence of secret societies in Germany, said to be carrying on activities contrary to the treaty of Versailles and threatening the safety of the occupying forces. The representations request that the German Government put an end to these activities.

BRIDGEPORT, Conn., April 26. Adam Parrillo, twenty-seven years old, of Saratoga Springs, N.Y., was arrested here yesterday in connection with the holdup of the Hochelaga Bank's collection car on April 1st last when a bandit and the chauffeur of the car were shot dead and \$142,288 in cash stolen.

General Opinion Is British Government Bound To Take Hand In Irish Deadlock

Boundary Question Is Paramount Question of Day—In Event of British Government Resorting to Special Legislation to Remove Difficulties, Some of Commentators Foresee Trouble in Parliament, Where Strong Opposition Is Expected on Ulster's Behalf.

(Associated Press Despatch) LONDON, April 26.—The Irish deadlock is discussed from every aspect by the morning papers as the paramount question of the day. The assumption continues general that the British Government is bound to act within the next few days, but views differ as to exactly what form the action will take.

In the event of the Government resorting to special legislation to remove the difficulties, some of the commentators foresee trouble in Parliament, where strong opposition is expected on Ulster's behalf.

The Ulsterites take their stand on the Government of Ireland act of 1920, which gave the six counties. This they regarded as a final settlement and the Belfast ministers refused to become a party to the Treaty of 1921, which the British Government concluded with the Southern leaders. They are understood to be agreeable to some minor adjustments of the frontier line, but beyond this they will not go.

The Free State Government, on the other hand, stands by the treaty, and nothing but the treaty. Assuming that this move will be an amending act to compel Ulster to appoint a boundary commissioner, the Westminster Gazette says such a measure might pass the House of Commons, but that it would certainly be held up by the Lords and could only be adopted if passed by the House in three successive sessions.

There is a suggestion in some quarters that the Free State's attitude is mainly influenced by the domestic situation, especially by the pressure from the anti-treatyites. The Dublin correspondent of the Daily Telegraph says.

"It is no secret that the desire of the Cosgrave Government to force the boundary issue has been prompted by the army's growing discontent, and by the force of Republican sentiment which sways large numbers of the Government's supporters equally with the professed Republicans."

Meighen Declares Labor Move Is Not In Order

Right Hon. Arthur Meighen Contested Regularity of Woodworth's Amendment to Budget, Because It Proposed a Definite Measure of Taxation Infringing on a Prerogative of the Crown—Mr. Speaker Reserved Decision Until Monday—Dr. J. E. Fontaine (Liberal, Hull), William Black (Progressive, South Huron), and A. J. Doucet (Conservative, Kent, N.B.) also Spoke on Budget—Latter Introduced Amendment to Budget "Declaring that the Welfare of Canada Requires a Consistently Maintained Protective Policy."

(Associated Press Despatch)

OTTAWA, April 26.—House debate on the budget yesterday suddenly developed a strange tangle of procedure. It saw a conservative amendment proposed hard on the heels of the Labor amendment of Thursday and eventually adjournment of the debate till Monday, when Speaker Lemieux will give his decision.

And in the meantime the House turned from discussion of tariffs to that of supply for the Department of Agriculture.

The trouble arose from the amendment proposed on Thursday by J. S. Woodworth, Labor member for Centre Winnipeg.

Yesterday afternoon Right Hon. Arthur Meighen, leader of the Opposition, raised the point that the Woodworth amendment was out of order, mainly on the ground that as moved by Mr. Woodworth it called for the imposition of a tax, infringing on a prerogative of the Crown. There was a difference between the amendment proposed by Mr. Woodworth in his speech and the one subsequently read by the chair, in that a positive proposal for a tax had been changed into a suggestion that such a tax might be desirable.

LABOR MEMBER REPLIES TO OPPOSITION MEMBER.

Mr. Meighen took the ground that the amendment as read by the chair had not been moved by a member at all.

To this Mr. Woodworth replied that following his speech, Speaker Lemieux had suggested to him that the change in his amendment would bring it more in harmony with the rules of the House. Therefore the terms of the amendment had been changed.

As to its original terms, Mr. Woodworth claimed that they were identical with an amendment moved by Robert Forke, Progressive leader, last session, which had been accepted.

Thereupon Speaker Lemieux announced that he would reserve his decision till Monday.

endment. Scarcely had the House passed from the point of order on the Woodworth motion when A. J. Doucet, Conservative, Kent, N.B., moved from Conservative ranks what is probably the shortest budget amendment on record.

It declares that "This House is of opinion that the welfare of Canada requires a consistently maintained protective policy."

Deputy Speaker Gordon was now in the chair. He held decision as to the acceptability or otherwise of this amendment over to Monday likewise.

Dr. J. E. Fontaine, Liberal member for Hull, and William Black, Progressive member for South Huron, also spoke on the budget.

The last four of the twenty-five branch lines bills were introduced and sent to the railway committee.

In committee of supply the House adopted estimates of the Department of Agriculture totalling \$212,000.

British Premier's Daughter Will Have An Opportunity Of Observing Housekeeping Methods Of Queen Mary Over Week-End

Ramsay MacDonald and His Daughter Ishbel Will Be Guests of Their Majesties at Windsor Castle—This Afternoon King George and the Premier Will Attend Football Match, While Queen Mary Will Show Ishbel Through Ancient Castle.

(Associated Press Despatch.)

LONDON, April 26.—Ishbel MacDonald, student of domestic economies at London University, and, incidentally, daughter of Britain's Labor Premier, will have the opportunity of observing Queen Mary's housekeeping methods this week-end when she accompanies her father to Windsor Castle on their first private, personal visit to Their Majesties.

This afternoon, while the Premier runs over to the big football match at Wembley with the King, Queen Mary will show Ishbel through the ancient palace, crowded with fabulous treasures in the form of tapestries, china and plate, the latter including the famous "gold pantry," estimated to be worth £2,000,000 sterling. After dinner Their Majesties will lead the way up to the suite of drawing rooms where Queen Victoria used to stand on her little royal rug and hold her prim and proper after-dinner courts. There will be a little music, a little general conversation, and royalty and their guests will be off to bed with the promise of a late Sunday sleep if they want it, for there is no general breakfast table rule at Windsor.

The Premier and his daughter will have their porridge in their private apartments on Sunday morning, but will be expected to be present at a special religious ceremony to be held in St. George's Chapel by the Archbishop of Canterbury.

After lunch, if it does not rain, the King will show Premier MacDonald his gardens, a band will play on the terrace which was Queen Elizabeth's famous promenade, and the town folks of Windsor will be admitted to the grounds. Monday morning the MacDonalds will leave the castle, Ishbel returning to her studies in London and the Premier travelling to Aberavon, Wales, to address his constituents on Tuesday.

THE WEATHER

FAIR TODAY AND SUNDAY

Pressure distribution has changed but little since yesterday morning, except that the high area over the Great Lakes has increased in intensity. Snow or rain has fallen in the Maritime Provinces and Manitoba while in the other provinces the weather has been fair.

Forecast: Moderate northeast winds, fair today and Sunday, stationary or somewhat higher temperatures.

FOR 15 YEARS WAS TROUBLED WITH ECZEMA

There is no other remedy like Burdock Blood Bitters that can possibly give such relief to all sufferers from eczema, salt rheum and all other diseases of the blood for the reason that this old and well tried remedy goes right to the seat of the trouble and completely and permanently drives these diseases out of the system by cleansing the blood and making it pure and rich.

Mr. F. W. H. Schultz, Pembroke, Ont., writes: "Having been troubled with eczema for fifteen years, during which time I tried everything I could think of, including doctors, but without getting anything to do me much good I finally decided to take Burdock Blood Bitters, and I was certainly surprised to find that two weeks after I had started to take it I was relieved of my trouble. That was nine months ago, and I have not had a sign of it since. I surely wish to thank you for this wonderful medicine and strongly recommend it to anyone suffering from the same trouble as I had."

Dull Spotted Teeth Bleached White Quick--Safe Way

To whiten dull, yellowish, stained teeth all you need now do is brush teeth with a few drops of a mild, harmless liquid—then use a special paste—and watch stains disappear. This new method is called Bleached White Combination. The liquid softens the stains—the paste and only gently removes them, but prevents formation of new stains. Fine for removing green stains from children's teeth. No effect on enamel—the mild ingredients are intended to act only on surface stains. Bleached White Combination is the formula of a group of prominent dentists who used Bleached White on their own teeth for four years with highly beneficial results before offering it to the public. Millions of teeth have been whitened this new safe way. For the sake of your teeth, and to avoid disappointment, always insist on Bleached White Combination. The SAFE treatment, and avoid cheap liquid imitations which may do serious damage. At all good dealers such as M. Chagnon, A. E. Duberger, W. H. Griffith.

"Concerning the Collection." (I Cor. 16:1), will be the subject of the sermon next Sunday morning in the Methodist Church. The pastor, Rev. W. P. Wornell, will preach. This is the opening of the campaign for subscriptions toward the current expenses and missionary givings for the new year beginning May 1st. At the evening service the pastor will give the fourth sermon in the series on the churches and will speak on "Why is there a Congregational Church?"

The Sunday School of the Methodist Church is closing a very prosperous year. The attendance for Palm Sunday was the record for the year. The collection was also a record one. The annual meeting will take place the first week in May.

Although the pastoral term of four years is completed by the Rev. W. P. Wornell, of the Methodist Church, it is likely that he will return for a fifth year. The urgent request of the Board was acceded to by the pastor, subject to the action of the conference which meets the first week in June. The harmony and activity in the congregation have made the relations between pastor and people very cordial and another prosperous year is anticipated.

The Easter services in the Methodist Church were well attended and uplifting. The choir, assisted by Mrs. J. A. Frasier, rendered excellent service. The solos by Mrs. Frasier both morning and evening, were exceptionally well done. Mr. A. W. Pratt's solo in the morning also added greatly to the service. Miss Adele Noble rendered two selections on the violin at the evening service which were much appreciated by the congregation. Both pastor and people appreciate the readiness with which Miss Noble responds to the request to help, and to note the developing skill in her use of the violin. The musical part of the service for the day was under the able and efficient leadership of the organist, Mrs. A. A. Learned, who had only partly recovered from a period of illness, but whose interest and determination seemed to increase her strength for the occasion. The pastor, Rev. W. P. Wornell, spoke in the morning on the subject "What Easter Means to Me," and in the evening on "Why is there a Presbyterian Church?"

BIRCHTON

The Easter service on Sunday last was well attended. The church was decorated with potted plants. The choir rendered special music and the sermon by the pastor, Rev. G. F. Lalonde, was in keeping with the occasion.

There was an exceedingly large congregation as usual on Easter Day in St. Paul's Church. The musical portion was very ably rendered by the large choir in the morning under the direction of Mr. Spackman, who presided at the organ, and in the evening with Miss Phyllis McCintock as organist. The Easter hymns were heartily sung by the congregation. Appropriate and impressive sermons were preached by the rector. The altar was profusely decorated with snapdragons, pink carnations and daffodils given by Mrs. Shaw and Mrs. Hall in loving memory of Mr. and Mrs. Hawley, Mrs. Hall and Lloyd Terrant. Easter litany

were given by Mr. and Mrs. W. J. Morrow in loving memory of their son, Willie, who was killed in France.

A meeting of the St. Paul's Guild was held at the residence of Mrs. Robert Kane on Wednesday last. There was a large attendance. The president, Mrs. A. B. Hunt, was prevented from being present on account of an accident to her foot. Mrs. Roe, vice-president, was in the chair. Important business was transacted, including much sewing. It was resolved to meet only once a month during the summer. Mrs. Ed. Bailey was present and stated that she hoped to put a play on in town hall in the early summer. A genuine surprise was given to the Rev. C. T. Lewis. Usually the rector is ever ready with a reply when called upon to say something, but for once he was dumfounded when the presiding officer made a neat little speech and informed him that the members and the president of the Guild wished him to accept a cheque toward the expense of going over from England to France to visit the battlefields and the graves of the Bury boys who were killed in action. Mr. Lewis was quite overcome and expressed his deep appreciation of their kindness and said how pleased he would be to visit France and Flanders. At the conclusion of the meeting tea was served by the hostess assisted by Mrs. Bradley. The next meeting will be held on May 7th.

The many friends of Mr. Geo. Howse, Sr., will be sorry to hear he is now laid up with fractured ribs. Mr. Howse, who has been employed by Mr. S. B. Coates, hearing of his brother John's illness at North Brookbury, went to assist him for a few days and while attending the horses was unfortunately kicked by one.

Councillor R. W. Jenkinson has been in Sherbrooke for a couple of days on business.

Mrs. Douglas Saunders, who has been seriously ill, is improving. Nurse Webster, of Bury Village, is with her.

Mrs. G. W. Cook, of Cookshire, has been for a few days with her daughter, Mrs. G. E. W. Cook.

Mr. H. Lister, of Ottawa, field commissioner of the Boy Scouts Association was in town recently and succeeded in reviving interest amongst the young people. Mr. Lister was able to start a Lone Patrol of Girl Guides and a company of Boy Scouts. These organizations are to be found the world over, in every climate and amongst all races. The main principle is unselfishness—to do good to, and make someone else happy. Discipline and self-reliance are other important features. It is entirely and strictly undenominational. A few years ago there was quite a large company of Boy Scouts and Girl Guides.

Mr. and Mrs. John McKee and Miss Thelma McKee spent Easter in Island Brook with Mr. McKee's sister, Mrs. N. D. Todd, and family.

Master Raymond Sample, of Bury, is stopping with his grandmother, Mrs. A. Sample.

There was a large number of communicants in St. John's Church on Easter Monday last. A profusion of beautiful flowers decorated the altar in memory of Wellington Turner, given by his parents, Mr. and Mrs. H. C. Turner.

The schools opened again on Wednesday after the Easter holidays.

STANSTEAD

Easter Day Services at Stanstead and Beebe.

At Christ Church, Stanstead, and All Saints, Beebe, the great festival of Easter was fittingly celebrated. Both churches were beautifully decorated with flowers and plants. Large congregations were in attendance at all the services, from the early morning celebrations of the Holy Communion, to the later evening services. The services were fully choral, and were well rendered.

At the close of the evening service at Stanstead, a recital was given, which was thoroughly enjoyed by the large congregation. Mr. Cecil Rhoades' tenor solo, Granier's "Hosanna," was beautifully rendered. The instrumental selections with Mrs. Eldon Irvine at the organ, Miss Dorothy Irvine, violin, and Miss Esther Irvine, cello, were excellently played and much appreciated by all. Mrs. Irvine has long been recognized as a talented artist, and her daughters both give promise of marked musical ability. The anthem, "Who Shall Roll Us Away the Stone," was given by the choir, the leading parts being taken by Mrs. Grace, Mrs. Irvine, Mr. C. Rhoades and the Rev. E. Bull.

Mrs. Grace was the soloist at the choral service in the morning, when she sang most acceptably an Easter carol.

The Good Friday services were well attended at both churches. At the evening service at Beebe, the choir from Christ Church, Stanstead, were present and rendered special passion music from Stainer's "Crucifixion," and a special setting of "The Seven Last Words From the Cross." The solo work was taken by the Rev. E. Bull.

Miss Cecilia Stratton has been on the sick list for several days.

Miss Lucy Stockwell spent the week-end in Sherbrooke, a guest of Mr. and Mrs. E. C. Goodhue.

At the community service to be held at the Methodist Church, Stanstead, on Sunday evening, April 27th, Rev. Mr. McLellan, of Montreal, will be the speaker.

Dr. Tonkins, of Sherbrooke, was in Stanstead recently on professional business.

Mr. Donaghy, formerly of Rock Island, spent Easter in Stanstead.

Judge Hackett and daughter, Mary, have returned to Cowansville, after spending Easter with Mr. and Mrs. D. R. Parson.

Miss M. O. McKenzie has returned to Stanstead College, after spending Easter vacation at her home at Adderley.

The annual meeting of the Women's Missionary Society of the Methodist Church, will be held with Mrs. Mick at the Parsonage on Wednesday, April 30th, at three o'clock. This will be the last meeting of the year and the books must be closed, the treasurer requests that all dues, mite boxes and Easter offerings be handed in at this meeting. A large attendance is hoped for.

Mrs. Elwood W. Gibson is spending a week in Boston visiting her daughter, Bernice.

Miss Beulah Stevenson has returned from a visit with friends in Montreal.

Dr. Paintin, of Knowlton, was in Stanstead recently to visit his son, Ralph, who is ill at the college.

Mr. Pallissy, of Montreal, is spending the week in Stanstead to be near his son, who is ill at the college hospital.

Master Donald Robinson, of Cookshire, has been spending a few days with his grandparents, Mr. and Mrs. G. W. L. French.

Mr. John Bagley still remains quite ill at his home here.

Mr. Albert Barber, who spent the winter in Bulwer, has returned and is stopping with his cousin, Mrs. Thos. Hood, and family.

Masters Ralph and Edward Todd, of Scottstown, were recent visitors at Mr. George Hume's.

Miss Cora Bartholomew spent the Easter holidays at her home in Sawyerville.

Mr. T. Meredith was in Martinville and Lennoxville on business recently.

Miss Margaret Wilding, of Montreal, has been the guest of her sister, Mrs. John McVetty, for some weeks.

Mr. and Mrs. John McKee and Miss Thelma McKee spent Easter in Island Brook with Mr. McKee's sister, Mrs. N. D. Todd, and family.

Master Raymond Sample, of Bury, is stopping with his grandmother, Mrs. A. Sample.

Safety Leagues are doing their utmost to make our highways safe for motorists. The motorists, with very few exceptions, are doing their utmost to avoid accidents, but the glaring headlights are the greatest obstacle to safe driving on our highways. Our readers will be pleased to hear that at last this bane of every motorist has apparently been overcome by the "Life-Saver" Lamp. We are informed that this simple device is receiving universal endorsement of Safety Leagues, Traffic Officers, and Highway Officials. We have seen it demonstrated and in the interest of public safety we would suggest our readers do the same.

RUMMAGE SALES GROW IN POPULARITY.

New lines of industry are continually springing up, and among them one which promises to become a "permanent institution" in the weekly rummage sale at the market. "The stands are taken until July," was the edict sent forth from the authorities in charge of that section, and, as this became known to many societies desiring to hold a sale, amalgamation followed. In addition to the weekly sales at the market, the I.O.D.E. members are holding their annual sale in the Armoury, and the whole provides opportunity for everybody to look over a wonderful array of "things I don't want, but you may," and to purchase as much or many of the goods as they wish, or their pocket-books will allow.

FATHERS AND SONS.

Tomorrow morning in Plymouth Church Dr. Read will speak on "Fathers and Sons." He has chosen this subject in accordance with the programme proposed by the boys' work committee of Rotary International. The April number of "The Rotarian" states that "sixty representatives of organizations interested in boys' work met in Chicago in January to discuss ways and means for boys' week for the year 1924."

After much discussion a programme was drawn up, the main thought of which is: "Boys—a nation's greatest asset." Sunday is devoted to the religious life of the boy.

In the evening the subject of the sermon will be "Most Miserable of Men." Mrs. George W. Stevenson and Mrs. Trenholm will sing Shelley's duet, "Hark, Hark My Soul!"

THE LAST SUNDAY OF METHODIST CHURCH YEAR.

The Methodist Church in Canada closes its conference and financial year on April 30. Tomorrow, therefore, is the last Sunday of the year 1923-24 in the local church. It is thought by the official members and the pastor that the year just closing will prove a banner one in the point of attendance as public services and generous giving on part of the people. In spite of the fact of so many removals and losses by death, the adherents of the church have supported the various funds most liberally, and when all arrears are

MILITIA NOTES

April 23rd, St. George's Day, Shakespeare Day, Zeebrugge Day, and Second Battle of Ypres Day; what a combination of glorious memories surge through the mind when we stop to think, if we ever do. Englishmen, better still, Britishers; all should combine in honoring that day, made famous first by a more or less traditional saint, then by birth of England's poet—whose laurels never have been seriously challenged, whose stirring words of patriotism and inspired love of country have done so much to mould the Anglo-Saxon race, and finally in our own memories by deeds performed by our own "warrior saints" homely saints whom we never recognized until they had "gone West," and who on returning to their own land have reverted to a very ordinary monotonous everyday personality. But who can doubt that the flame is still there, and will flame again to light that torch of pure unselfishness and divine sacrifice if profane hands ever stretch forth to extinguish it.

You have often seen the old dog sleeping by the fireside, quiver and whimper, with the reality of the dreams the origin of which lies far back in the past. That feeling came to me when on Wednesday evening last the khaki clad boys of the 35th Battery, Army Service Corps, Sherbrooke Regiment, and others unattached, but bearing the gorgeous ribbons or glittering medals, proving their participation in that great adventure, marched into the Church of St. George, listened to the Rev. (Major) Belford, sprang to attention and stood rigid while the mournful strains of the "Last Post" and the triumphant challenge of "Reveille" rang through the silent church, and finally to the gay music of the band marched down Wellington street and then back to their quarters. It even stirred the members of St. George's Church, who turned out on the upper balcony and cheered the boys as they passed, a mark of appreciation which I do not think has been shown since the days of the scarlet clad "Fifty-third."

The Sherbrooke Regiment is up to its full strength, as allotted. They are working hard and well, and the results are more noticeable day by day. The attendance of combatant officers rates nearly one hundred per cent., and the individual companies are backing them up. "D" Company will take some beating when it comes to attendance, and it is whispered that they have their eyes on the "cup," and the "shield," and any other trophies that there may be round without a strong guard.

Major "Bob" Smith attended the War Game in Montreal. We are expecting a full report of the battle; say, Bob, isn't war.....?

Who won the Billiard Handicap, and what happened to the experts? Well, it is an accepted fact that proficiency at billiards is strong presumption of a wasted youth. We never could make a "break" of more than sixty, eh, what!

Here's hoping for a good turn out next Wednesday, dry roads, and warmer weather, so as to give the R.S.M. a chance for more instruction in "guards and pickets."

Tomorrow, Rev. Mr. Brown will preach in the morning on "Though Him and For Him," and at night on the old saying, "For Satan finds some mischief still for idle hands to do," illustrated by the tragic story of the king who walked on the roof of his house when he should have been at war with his armies. The choir will repeat two Easter anthems, "Hosanna," and "Now is Christ Risen."

ACTION TAKEN OVER A LEASE FOR PROPERTY

Case Taken by Semi-Ready, Limited Against O. A. Begin and Conrad Larose Is Dismissed.

Mr. Justice Globensky rendered judgment this morning in the case of Semi-Ready, Limited, Vs. O. A. Begin and Conrad Larose. This action was taken sometime ago and the plaintiff alleged in his declaration that he was the lessee of a certain property situated in the north half of lot No. 220 in the centre ward of the city of Sherbrooke at the corner of Wellington and Albert Street.

Plaintiff said that he secured a lease on the side property by deed of transfer from Dame Fedora Hains, wife of J. A. Robert, and that defendants, O. A. Begin and Conrad Larose, were illegally occupying the said premises and refused to vacate same although requested to do so.

The plaintiff requested that the defendants or whosoever may be found occupying the said premises be ordered to vacate, surrender and deliver to the plaintiff the property above described, and to pay to the plaintiff the sum of \$2,000 to represent the value of the fruits and revenues.

The defendants in their plea alleged that the Semi-Ready, Limited, gave an option to J. H. Poupard to buy the said lease for \$5,000 by monthly installments of \$125 with interest of seven per cent per annum; that the said J. H. Poupard transferred all his rights in the in, that the defendant, O. A. Begin, in that the defendant, D. A. Begin, on April 22nd, 1922, tendered the sum of \$2,132 balance due on said date.

Mr. Justice Globensky dismissed the action with costs. Wells, Lynch and Wilson acted for plaintiff, and Panneton and Boisvert for defendants.

JUDGMENT IN LOCAL HOTEL CASE GIVEN

Mr. Justice Globensky rendered judgment on Thursday in the case of George Dumayne Vs. the Corporation of the Town of Magog. The plaintiff, in his action, alleged that on August 6, 1922, while walking on the sidewalk on Somers Street, in the town of Magog, he fell, having struck a big stone which had been left there by the employees of the defendant, that he suffered a fractured leg, that he was unable to work for a long time and that he incurred doctors' expenses and that he suffered damages for \$5,000.

The defendant in his plea denied all the allegations of the declaration and alleged that if plaintiff fell on that stone, it was by the own fault and carelessness of the plaintiff.

Mr. Justice Globensky, in his judgment, declared that the accident happened by the fault and negligence of the plaintiff, and consequently dismissed the action with costs.

Mr. C. C. Cabana acted for plaintiff and Panneton and Boisvert for the town of Magog.

ACTION TAKEN IN CONNECTION WITH TRAVELLERS' HOTEL—CASE DISMISSED BY MR. JUSTICE WHITE.

His Lordship, Justice White, presiding in the Bankruptcy Court, rendered an interesting judgment in the matter of Victor Benoit, bankrupt, and Miss Regina Lapalme, intervenor, and Allaire and Leblanc, authorized trustees.

Victor Benoit, owner of the Travellers' Hotel, in Sherbrooke, made an assignment several months ago, in the hands of Allaire and Leblanc, authorized trustees. The trustees had given notice of the payment of a dividend amounting to thirty-eight cents on a dollar, payable to the creditors on March 18th. On March 7th an intervention was filed by Miss Lapalme, contesting the assignment, which intervention was dismissed. On March 20th a new intervention by the same person was filed, alleging that an assignment was made on January 29th, 1923, by Victor Benoit; that by the assignment it appears that Benoit had a surplus of \$13,486.71; that the petitioner, Regina Lapalme, is a creditor for an amount of \$250.00; that the assignment was fraudulent and made with the intention of depriving the creditors of the amount due them; that Benoit was not insolvent at the time of the assignment; that Benoit on June 18th, 1923, had sold all his rights in a certain immovable to one J. W. Cote, for a nominal price; that an action was taken by the authorized trustees to annul this sale, which action was subsequently settled between the trustees and J. W. Cote, who then became the owner of an immovable for which Benoit had refused the sum of \$10,000; that this action was settled for the sum of \$4,150.00; that all the proceedings on the assignment, the settlement of the action, were fraudulent and are null and void and the petitioner asked that all the proceedings be declared null and void the whole with costs.

The authorized trustees, through their attorney, Mr. Emile Rioux, contested this intervention and petition, alleging that the proceedings were legal, that the settlement had been made in the interest of the creditors, and denying all the allegations of the intervention.

His Lordship Justice White dismissed the intervention with costs in favor of the trustees.

Mr. C. C. Cabana represented the intervenor, Miss Lapalme, and Mr. Emile Rioux, K.C., acted for the trustees.

LENNOXVILLE

Boys' Choir Entertained.

The boys' choir of St. George's Church was entertained on Thursday evening in the church hall at an ice cream social when a very enjoyable evening was spent. About fifteen boys were present and the time passed pleasantly in games, music, etc., Master Wilson Beck's selections on the piano being especially appreciated. The hostesses were Mrs. Christie, Mrs. Green, Mrs. Bellam, Mrs. Beck and Mrs. Brown and the ice cream and other good things served met with the hearty approval of the boys.

General Notes.

Mr. Aleck Burke, of Sawyerville, has been the guest of Mr. and Mrs. James McCallum for a few days.

Mr. L. D. Meredith, of Eel River, N.B., was a guest of his brother-in-law, Mr. L. D. Sample, recently.

Masters Harold and Dral Sample have gone to Island Brook to spend the Easter holidays with their grandmother, Mrs. Matthew Treadwell.

Miss C. Macdonald, of Spring Hill, who has been the guest of her aunt, Mrs. F. Gagnon, has gone to Hamilton, Ont., to visit her brother, Mr. Angus McDonald.

Supper in aid of St. Anthony's Church, April 30th. Everybody welcome.

PRESENTATION TO MASTER RAYMOND EPPS.

It was a notable gathering of Boy Scouts and their friends which convened last evening at the town hall to do honor to one of their number, Scout Raymond Epps, to whom was presented a gilt cross in recognition of his having saved the life of a comrade scout, while bathing near their camp last June. Rev. J. Emery Coulter, of Concord, Vt., formerly scoutmaster of Huntingville troop, made the presentation, in a short speech urging upon the boys the cultivation of the courage which scoutship demands. Three hearty cheers and a threefold showed the scouts' appreciation of the reward.

Mr. Harry Lister, of Ottawa, Dominion field commissioner, who was present, read a letter from J. O. Robertson, field commissioner, congratulating the recipient of one of the highest honors in the gift of scoutship. Mr. Lister addressed the scouts in an informal speech. He said that scouting, contrary to popular belief, was not military, although the boys were taught to move with precision and respond to words of command. To the charge that the scout movement had no religion, he proved that loyalty, service, brotherhood, self-help were all fruits of true religion.

Mr. Coulter gave several humorous selections of the kind beloved by boys, who expressed their delight in the unimpassioned cheering.

Rev. F. R. Matthews, who acted as chairman, defined the task of the age to be the development of youth, and demonstrated the need of moral courage, as well as physical.

(Associated Press Despatch)
OLYMPIC, Wash., April 26. — Evidence that the sister of a king, even though she be in "darkest" Africa, sometimes hankers for finery is found in a letter written by the reigning monarch to the agent of a trading post at Hlabatine.

Several of the royal communications were received here by Archibald C. Tweedie, of the state department of labor and industries, from his brother, George Tweedie, who is stationed at the trading post. One of the letters is as follows: Mr. B. C. Dorkin, Hlabatine: Please allow my sister Miwa to have 22 ladies dresses dont give her more with kindest regards, Yours faithfully,

I Mswaker Sigcan, King of Pondoland. The letter is written in English in a plain and legible hand. The trading post at Hlabatine is about 150 miles inland, and Tweedie and Dorkin are said to be the only white men in a radius of 100 miles.

35c "Danderine" does Wonders
for Any Girl's Hair

Girls! Try this! When combing and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy—a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and luxuriance. While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of delightful, refreshing "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair becomes.

BROADCASTING
IS IMPOSSIBLE
WITHOUT WIREIn Spite of the Fact that It Is
Known as "Wireless" Many
Miles of Wire Are Used.

(Associated Press Despatch)
NEW YORK, April 26. — While radio broadcasting and receiving, as it is known today, is a development of the wireless telegraphy and telephony system originated by William Marconi and others, it is not generally known that wires, thousands of miles of them, play a vital part in the new science.

Illustration of the preparation necessary to wide broadcasting of a Lincoln Day speech of President Coolidge in New York, when WEAF, local station of the American Telephone and Telegraph Company, sent the President's words to millions of ears throughout the country.

First, a special wire was installed into the Waldorf-Astoria, where the President spoke. A special sending set was placed in the hotel basement, attached to the microphone, before which the President was to speak. A man with a chest telephone sat within a few feet of the President, watching his every movement and reporting each to the man at the basement set who, through deft manipulation of necessary mechanisms, sent the words evenly through the special wire to WEAF's studio in lower Broadway. There another group of experts took the President's words and drained them simultaneously into wires which carried them to WEAF's broadcasting plant a mile away, for local radio consumption, and into copper strands that carried them to Washington, D.C., and Providence, R.I., where other stations sent them into the air on other waves that carried the address into homes for hundreds of miles away. Thus did the President's speech reach New York's metropolitan area, New Jersey, all of New England and a large part of the south almost as soon as the words were spoken.

On another occasion WEAF, through the use of telephone wires, broadcast simultaneously from stations in New York, Schenectady, Pittsburgh and Chicago a convention programme.

Wire transmission of programmes for radio broadcasting, while not the least, is one of the main problems of getting metropolitan programmes within range of the smaller receiving sets hundreds and thousands of miles away. There is the problem of properly regulating tone volume of the spoken and written words and the music before it is directed into the telephone wires. A specially trained crew of men on duty in the plant department adjoining the studios, in which the programmes are sent through the microphones, control, through multitudinous instruments, the tonal qualities of the matter broadcast.

ADVOCATES AMPLE AMOUNT OF DECENT LOVE-MAKING
But Ellnor Glyn, the noted English authoress, who is shown above, deprecates "the rough and turbulent elements" which creep into some American films. Her notion of movie reform is "to give elderly women thrills of decent impulses." Or, in other words, she would give motion picture audiences "tranquility with an ample amount of decent love-making." Following her recent arrival at New York aboard the Aquitania these were the sentiments expressed by Mrs. Glyn. And by the way, she wanted it known that she is Mrs. Glyn, and not Miss Glyn, as she is sometimes called. She is the mother of two married daughters and "the very proud grandmother of three grandchildren."

Self-Denial appeal?

The Army in the Police Courts
In many Police Courts, Salvation Army Officers are on duty to help those who have no one to befriend them. Very often prisoners are remanded to the Army's care and are salvaged from the ranks of human failures.

The Army in Prison and Reformatory
Our penal institutions are visited regularly by Salvation Army Officers who interest themselves in the problems of the men and women incarcerated there. Many a person has been re-claimed to decent citizenship by their unselfish efforts.

The Army takes care of the Unmarried Mothers
Of 700 girls and women who sought the shelter of the Army Rescue Homes last year, 500 of them were "unmarried mothers." Stories without a parallel in human interest could be written on this phase of the work, suffice it to say that it is done with Christlike unselfishness.

This "Social" work is only a part of the service the Army is giving to the community, but it is one of the most important of its branches. To carry on requires money, and the Army looks to its friends through the Annual Self-Denial Appeal for the necessary funds.

The children of the Junior W. The tables looked very attractive with the various articles, many of them made by the children, and all found a ready sale. Tea was served downstairs, and the programme included a pretty missionary play, songs and recitations, each taking his or her part in a way most gratifying to the director, Mrs. A. E. Wiggitt. The event gave evidence of the little members' deep interest in the work. Mrs. Robert Seiveright, their supervisor, worked untiringly toward the success of the event, which closes the activities until the autumn. The proceeds were most gratifying.

AT LAST—science has solved what is known as woman's oldest problem. And solved it in an amazingly efficient, practical and delightfully fastidious way. It is due to the perfection, during the world-war, of a wonderful super-absorbent. It is called Kotex, and you are offered a trial, free. Just mail the coupon below to me.

WHAT THIS SAMPLE SHOWS

That Kotex is a pure, white, porous product, exceedingly light weight. Yet it is also very compact—no clumsy bulkiness.

It is five times as absorbent as ordinary cotton, absorbing 16 times its own weight. This gives the protection, the security, which assures perfect poise and peace of mind at all times.

Kotex makes an especial appeal with its offer of immaculate daintiness under

all circumstances. No wonder it has already been adopted by 8 women out of 10 in the better walks of life.

Women have only to hear of Kotex to appreciate what it means in a new safety, comfort and general convenience.

THE SCAPA FLOW.

Cable despatches have announced that operations are about to begin for the salvaging of the German fleet sunk at Scapa Flow. In view of the fact that some other big ships are being taken out to sea and sunk under the disarmament conference decision, some mystery prevails with regard to the proposed expensive operations at Scapa Flow. One of the ships recently sent to the bottom of the sea, under the disarmament, was the Commonwealth.

The Gazette, commenting upon the cable despatches, says:

"No announcement has yet been forthcoming as to the purpose of the British authorities in salvaging the German ships or the uses to which they are to be put. At the time of their sinking, it was understood that a decision was pending as to the disposition of the surrendered vessels, the presumption being that they would be allotted among the Allies in approximate proportion to their then naval strength or needs. It was hinted at the time that, while in no way sanctioning or condoning the act of the German guardians of the ships, Great Britain was just as well satisfied at having the issue thus settled and a possible cause of friction or dissatisfaction among the victorious Powers removed. That the original intention of adding the German craft to the British and other navies is to be carried out is precluded not only by the Washington agreement, but also by the fact that if not already obsolete, most of them will be so by the time they are raised, as the operation of salvage will not be completed before nine years, not to speak of the expense of reconditioning after their long immersion.

"The work of raising the ships will be not only prolonged but extremely costly, which makes the undertaking of the task all the more inexplicable in view of the undoubted efforts of the successive British Governments since the war to exercise the strictest economy and avoid unnecessary outlays out of consideration for the sorely-taxed people of the United Kingdom. A certain amount of valuable metal and other material or equipment will be recovered, but it is doubtful if its value will go far towards repaying the cost of salvaging. The fact that the Baden, the first and so far the only ship raised, was again sent to the bottom in target practice by the navy may give a hint as to the use to which the others are to be put, but in the absence of official and more conclusive information as to the reasons for the operation, which is described as the most extensive of its kind ever undertaken, the public can only indulge in surmise as to why the equivalent of one fortune, in the shape of the Australia, should be sent to Davy Jones' locker, while an immensely greater sum is being employed to resurrect the surrendered enemy craft from their dishonored graves."

A NEW IRISH CRISIS.

And now we have the Irish question again. The boundary between Ulster and the Irish Free State is the difficulty. In the treaty it was provided that a commission of representatives of the Irish Free State, Ulster and the British Government would meet and seek to delimit this boundary. Ulster has failed to appoint a representative and Sir James Craig is credited with saying on one occasion, "Not a yard of our territory will be handed over to a foreign flag, and our enemies will have to trample over our graves before they steal a yard of it."

The Irish Free State does demand territory that is now within the limits of Ulster.

A serious crisis is, therefore, in prospect in Ireland. It may well give impetus to the Republican movement and the skies are by no means without clouds so far as the green isle is concerned.

PRESS COMMENT

WE DON'T, WE HAVE TO RUN!

(Albany Journal)
One easily wonders, as one sees the congestion of automobiles, how it is that still so many people walk.

A SIGN OF SPRING.

(Chicago News)
'Tis the last ton in the coal bin, left blooming alone. All its lovely companions are shoveled and gone.

CRUELTY TO ANIMALS.

(Hamilton Spectator)
A protest has been raised by the Royal Society for the Prevention of Cruelty to Animals against the proposal to have a rodeo, or exhibition of cowboy skills in connection with the British Empire Exhibition. Its objection will be certain of material support. Such demonstrations are impossible without a certain amount of cruelty to dumb animals, savaging largely of the savagery of the Spanish bull fight, which would be distinctly out of place on British soil. Besides, the glories of the great Empire display should in no wise be dependent on such a questionable adjunct.

LOSING EXPORT TRADE.

(Trade Bulletin)
An importer in Glasgow has written Canadian Grocer with a mild complaint about the methods used by some Canadian firms in quoting on export goods. One Ontario firm, for instance, was stated to have quoted their product in "dollars per dozen f.o.b. the factory, Ontario."

This information, so the writer states, was of no use to him as wholesalers in Glasgow wanted to buy c.i.f. Glasgow in British currency. Otherwise it would be impossible for them to calculate what the total cost would be. This put the Glasgow importer in a position that meant he could not do any business with the wholesale trade there, and Canada lost an opportunity to sell some more goods for export.

His point is well taken, according to other members of the trade here. When a foreign buyer is interested in any of our products he wants to know the laid-down cost at his port or station. At least he should have the quotation f.o.b. the port this side in order that he may arrive anywhere near the proper quotation to the trade in his own country.

PROBLEMS IN RESEARCH.

(Toronto Globe)
Directors of research in the laboratories of the largest industries in the United States, spending millions of dollars annually for this work, have combined with the National Research Council in preparing a list of one hundred problems bearing upon industrial questions to which investigators are now trying to find solutions. Forty-five of the hundred problems deal with physical chemistry, eleven with electrochemistry, five with corrosion, nine with rubber, one with paper, four with paints and varnishes, seven with inorganic and eleven with organic chemistry, and seven with cellulose and nitro-cellulose.

The American Chemical Society in giving out the list states that the importance to industry of these problems is illustrated by the fact that more than half of the manufacturers of the United States, representing an investment of \$62,000,000,000, are dependent upon chemistry. A marked development recently is the co-ordination of effort between education and the workshop, industries now making appropriations for special investigations carried on in the laboratories of universities and technical schools.

TWO FAMOUS WOMEN.

(Boston Transcript)
Eleanora Duse and Marie Corelli can be linked only through the synchronism of their deaths. They belonged to very different artistic worlds. Duse stood at the head of the dramatic art in her own land—perhaps, since Bernhard's death, in the world; and her art was above nationality. Her death seems strangely impossible. Announced to appear in Boston this very week, thousands here felt themselves still under the thrall of her last appearance, but six brief months ago. She seemed to personify in a peculiarly significant way a denial of all death, a triumph over all those limitations of advancing age which, in man's usual experience, inhibit life and stifle the expression of life. In her very frailty was she most vital. In the dwindled volume of her voice was it most wondrous that she could say all, bespeak the utmost force of joy and keenest poignancy of sorrow. In the wasted slenderness of her body was it most unwonted that she could be so swift, so subtle, so compelling. Her rejection of any of the means by which the stage customarily conceals, through material artifice, the marks of passing years, did but heighten and intensify the worth of the Duse's conquest of a like object through means alone of the spirit. She seemed a being deathless because already independent.

FARMERS CAN HELP THEMSELVES.

(Christian Science Monitor)
While politicians and others who are eager to give temporary and quick aid to the farmers of the United States are puzzling over what to try next—since the experiment of an increased tariff duty on wheat has failed to raise, or even hold up, the price of that commodity—it might be well for friends of agriculture, who believe in the long look ahead and in fundamental, rather than surface, treatment of the farm problem, to consider some recently published figures on capitalization and production in basic industries. They contain both encouragement and enlightenment. The figures may be relied on as accurate, for they are given in the first report of the Research Council of the National Transportation Institute, whose chairman is Edgar E. Clark, former chairman of the Interstate Commerce Commission, and whose members include Howard E. Coffin, Herbert S. Houston, E. T. Meredith, former Secretary of Agriculture; John F. Stevens, former chief engineer of the Panama Canal, and W. N. Doak of the Brotherhood of Railway Trainmen.

Speaking of the great increase in production in the United States in the last twenty years, the report says, that despite shortened hours of labor the country enjoys sixty per cent. per capita more manufactured goods than in 1900, and adds:

In agriculture, increased use of capital and development of more efficient methods have possible an output 38 per cent. greater with an increase of less than five per cent. in the number of workers. This maintained the food supply of the Nation and the export surplus, and left the great mass of additions to the working population free to engage in mining, manufacturing, trade and transportation.

LETTERS TO THE EDITOR

EFFICIENCY?

Editor of Record:
Sir,—As an example of business methods as carried on at the City Office, the following is of interest:
The undersigned in June, 1920, had the city Gas Department excavate and place piping to his house. Accordingly the city rendered the bill, and it was paid and receipt given. About a year ago a collector called to collect said bill; receipt was produced at city office and it was thought the incident was closed. But no. Yesterday, another collector called to collect the same account of 1920.

Nuff sed.

This incident is published in order to put ratepayers on their guard and demand receipts especially when transacting business at City Office.

SAWYERVILLE

The Easter services in the Methodist Church were largely attended and throughout the interest was well sustained. The pastor spoke from the text, Acts 13-32, "The glad tidings of Easter." The choir, under the leadership of Mr. R. W. Montgomery, at both services rendered several selections in a most efficient manner. The evening service was under the W.M.S. direction. The responsive scriptural lesson was conducted by Mrs. J. W. Shier, and Mrs. French gave a reading, "Inlaid with Gold." The pastor gave an illustrated talk entitled "Dick's Fairy." Miss Shier, deaconess of Montreal, spoke briefly to the Sunday school. The congregations at Randboro and Clifton were good considering the condition of the roads.

A great many people are on the sick list, among whom are Mrs. J. Sawyer, Mr. John Bailey, Mrs. Henry Laroche, Mrs. Pete Coombes, Mrs. Allen Riddle, Mrs. Arthur Lovell and Mr. Jas. Hurley.

The fourth quarterly services of the Methodist Church will be held on May 4 and 6. The sacrament will be administered on Sunday at each of the appointments.

The official board will be held on May 6. All the financial matters connected with the circuit are expected to be finished by this date. The missionary contributions and contributions for connexional funds

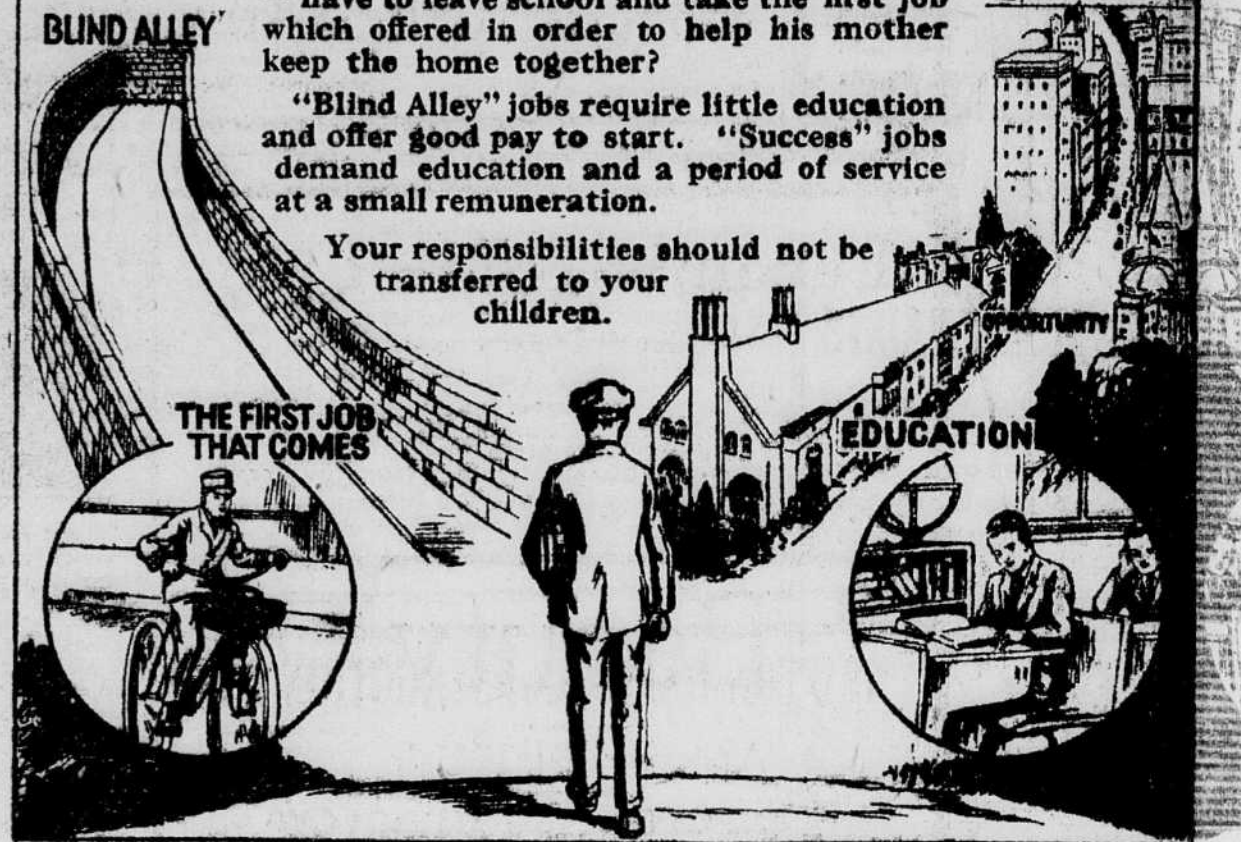

should be sent in at once, and the stewards will be looking for all subscriptions for the general fund of the board. The joint effort of all members and supporters is necessary to make a good finish in the year's work.

Which Road Will Your Son Take? It Depends on You.

If anything happened to you, would he have to leave school and take the first job which offered in order to help his mother keep the home together?

"Blind Alley" jobs require little education and offer good pay to start. "Success" jobs demand education and a period of service at a small remuneration.

\$200,000.00 Each Week

Leave our Province and come back to us in goods purchased by catalogue.

HAVE WE ever considered what this money, so hard to earn would represent for our Province and for our people, if it were spent here?

Evidently no, for there is not a single person who buys according to this method from strangers, who is not convinced that he is acting to the best of his own interests.

A few minutes of reflection however, would be sufficient to convince him of the grave mistake he is making.

In fact, what do we count on for a living? On the wages earned by our work. In one case as in the other, the few cents which we believe we save in buying from strangers, would represent but low value if we compared them with the higher wages and higher prices of their products, which we would obtain if, by purchasing in one's own province whatever we need we kept our money circulating at home.

The city dweller depends on the farmer to keep him supplied with the products of the soil, and in turn, the farmer depends on the earning workman and men of profession to purchase his products.

Let the farmer spend his money in the province and the demand for

his grain, his vegetables, his fruits, his butter, his eggs and his cheese, will be accordingly increased as the wage-earner of the city is assured of remunerative employment, thanks to the increased volume of business of his employer, and will find himself in a better position to buy goods.

A few cents saved by the farmer by purchasing from strangers represents an equal number of cents less in the envelope of a wage-earner at the end of the week and, fatally, a proportional reduction in the price of farm products.

WHAT DOES GENUINE ECONOMY CONSIST OF?
Is not the answer very plain?

A SQUARE HIP ROOF HOUSE DESIGNED BY CHAS. S. SEDGWICK

THE design submitted for this week's publication is one of the popular type of square houses with hip roof. This home was built in Minneapolis, sold by the owner before the plastering was finished at a nice profit and rebuilt in another location. The plan, therefore, is one that has been tried and has proven its worth while the exterior speaks for itself. It attracted the attention of a prospective client in another state who came all the way to Minneapolis to see its possibilities before building his own home.

With twenty-eight feet front, it presents a broad facade to the street, the side entrance into the vestibule being a pleasing feature. The interior details of cabinet work, stairs, mantels, etc., are most attractive and there are several unusual features which at once catch the eye of the observer. The toilet on the first floor and the built-in buffet and china closets will be particularly noted.

Two porches—one an idea of outdoors sitting room, the other an attractive sun room for winter entertaining—add to the general attractiveness of this house. Upstairs there are four bed rooms, a bath room and plenty of closet space, including a linen closet in the hallway. An upstairs balcony provides

a nice place for the housewife to air the clothing and other things before they are put away for the season.

Built of cement plaster on the exterior walls, with the shingled roof stained and the first floor finished in oak with oak floors, the

balance in pine and birch. It is estimated that it will cost between \$7,500 and \$9,000 to build this home; this estimate is exclusive of the plumbing and heating. This cost could be reduced by changing the interior details, omitting first floor toilet, etc.

REPORTS FACTS INTERESTING IN ARCHAEOLOGY

Information of Work of Expedition to Excavate at Ur in Chal-dees.

(Associated Press Despatch)
PHILADELPHIA, April 26.—The first report of the joint expedition of the British Museum and the University of Pennsylvania in the work of excavating at Ur of the Chaldees in Mesopotamia during the present season was made public here recently. It contains interesting and important archaeological information of the work being performed in the land where history dawned.

The most laborious task, the report stated, was the clearing of the masses of debris surrounding the Ziggurat or staged tower. The walls of the main structure, set up by Ur-Engur about 2300 B.C., are wonderfully well preserved. In all Mesopotamia there is no pre-Christian monument so imposing as the Ziggurat of Ur, the report stated.

Meanwhile, a similar group of men has been employed at Tell-El-Obeid, a little mound some four and one-half miles from the Ziggurat.

"Up to the present two distinct parts of the site have been attacked," says the report. "A cemetery and the building on which Dr. Hall worked. The graves are probably the earliest yet found in this country, dating from the fifth and early fourth millennia, B.C., and have yielded an embarrassing quantity of objects. The people who were at least in part Sumerian, were still using many stone implements, but were none the less quite familiar with copper, and had developed great skill in hammering and casting the metal; but side by side with implements of flint and copper we find copies of the same pottery, showing that both materials, being imported from a distance, were sufficiently valuable to make certain people grudge them to the dead."

"Pottery is for the most part wheel-made, but hand-made wares had not wholly disappeared, and painted pottery recalling that found in the early strata of the ruins of Susa was in use at the beginning of the period, though it seems to have been ousted later by the plain types."

"The dead were laid sometimes at full length, sometimes in the contracted, or 'embryonic' position; many were in mere troughs cut in the hard soil, some were in clay urns, oval or circular, such as continued in use throughout all Babylonian history. Most of the bones had decayed away, but a few skulls and one complete skeleton have been recovered, and should prove of no small interest as evidence for the origins of the Sumerian race."

"The building lies close to the cemetery. On the top of the mound are the scanty remains of a temple put up by Dungi, the second King of the third dynasty of Ur, who reigned about 2250 B.C. This replaced an earlier building which stood on a terraced platform of mud brick, a building about which we can only say that it quite probably dates to the second dynasty of Ur. A lucky chance has brought to light a tablet recording its foundation, and we

learn that it was the temple of the Goddess Nin-Khursag, set up by King A-n-ni-pad-da.

"The scribes who soon after 2000 B.C. drew up a list of the Kings of Sumer and Akkad have left it on record that the Kings who reigned immediately after the flood were those of Kish—and the years of their reigns would put Methuselah to shame; then came the second dynasty, that of Erech, vitiated by the like incredible longevity, and third from the flood is put the first dynasty of Ur."

"This dynasty, like the two that preceded it, has commonly been regarded as mythical. Its rulers were assigned no more than normal length of power, but nothing was known of them, and they were merely named in a schematic list; a dead-reckoning basis on the King lists would put their date somewhere about 4600 B.C. Tell-El-Obeid has produced not only the oldest dated document yet known, but a contemporary record proving the real existence of these shadowy Kings."

The Result Of Paul's Tip

"Say, Paul, I've been and gone and done it, you know what you said about that DERO pump at Wilson's, well, I went there, and looked at that pump, and I guess it's just as you said, the clear thing, and the only thing in that line, and he says they expect to sell about fifty of those outfits this spring, 'cause we're in for a dry summer. An' I asked the guy I was talking to why so, goin' to be a dry summer'n he said 'cause the wind was north-west the first day of spring if you know when that was, an' the 13th day of June comes on Friday, an' there'll be two new moons in July, and all hen's eggs hatched so far this spring has been chickens, and a whole lot more stuff 't I didn't believe, but terenate, I gave him the order for the whole outfit with a pump to pump 320 gallons of water an hour."

"An' that wasn't all, you know, I went down again, and took Mandy along, she said if we had a pump that would give water pressure like the city folks, we'd just got to have a bath room and all the fixin's, so we're goin' to have the whole outfit bought it all at Wilson's, closet, lavatory, bath, sink, and all the fittings, nickel plated on solid brass, he showed me the difference between those and the kind that's just tin or iron coated over with zinc."

"Course it'll make quite a hole in the bank account, by the time we pay the plumber's bill for settin' up all this stuff, but that is all right, we only pass this way once, so we may as well enjoy a little comfort while we do stay. Come over and see us, Paul, when we get the pump goin' and all the fixin's in."

"Sure I will, Si, good for you, and I hope a lot of your neighbors will follow your example, it will help the poor plumbers if nothing more."

Mrs. S. Bulman and Miss Vera Rexford, of Shawinigan Falls, have been spending their Easter holidays with their parents, Mr. and Mrs. F. Rexford.

Easter Sunday services were observed in both churches in the afternoon at the Methodist Church. A very impressive service was held by the Rev. John Murray. The choir rendered beautiful hymns, the soloists being Mrs. G. Chipp and Mr. J. Parker. The baptismal service was also given. In St. George's Church in the evening another impressive service was given by Rev. C. E. S. Brown.

Mr. Clayton Packard is in Beebe to look after her daughter, Mrs. Howard Bachelder, and infant son.

Mr. Goff Probyn, of Worcester, Mass., has been the guest of his parents, Mr. and Mrs. Harry Probyn.

Mr. and Mrs. Clifford Shovino were also guests at the same place.

Miss Kathleen Wilcox spent her holidays in St. Johnsbury with friends.

The drama, "The Mayor's Mistake," was very well given in McGowan's hall on Monday night. A fairly large crowd was present.

Messrs. S. Strange, J. Parker and J. Conoway very kindly gave vocal solos between the acts.

MOORAH FOR COLUMBUS

There are no directions for coloring. Use the colors you think will look well.

UNCLE JIM'S LETTER

Dear Corner Children:

I know the children, especially the ones who like to color pictures, will be pleased to see one in today's corner. When coloring it try to remember who Columbus was, what year he discovered — Oh, I came near telling you, didn't I? and all the things you have learned at school about him.

I will try to have a picture for you every week, but please do not send them to me after you color them. There is no contest at present, and it is very nice to keep them for yourselves or send them to some child who cannot do the work, or has no crayons. I found the picture in the printing office, but there were no directions as to what colors to use, so each one may decide that question.

The mailman is having a little

holiday now so far as bringing mail to the corner is concerned, but I think after a time the children will have lots of news to write about. Just now it is so nice to be out of doors that every one should play outside all the hours of sunshine. I hope many of the corner boys and girls will win prizes and come out well in their exams. That will make them enjoy the summer holidays more.

Hoping that you will have a happy week-end I will say au revoir until Monday.

UNCLE JIM.

THE MAGIC TINDER BOX.

As he was sitting alone one evening in the dark—he was too poor to afford a light—he suddenly remembered the tinder box. He took it from its place, opened it, and at the bottom he found a piece of flint. He struck it against the box and no sooner had the spark appeared than the door of the room flew open and in burst the dog with the eyes as big as teacups.

"What commands has my master for his slave?" he asked. The soldier was amazed. "My word! There must be something strange about the tinder box. It will evidently bring me whatever I ask for!"

Then he said aloud: "Bring me money," and the creature vanished, but was back again in a few minutes holding in his mouth a sack of money.

Soon the soldier found that by striking the flint once the dog would bring him copper coins, by striking it twice the silver coins would be brought, and by striking it three times gold would be brought. That day there was no happier man in all the town. He returned to his grand home and once more lived the life of a deity.

In the town there lived a beautiful

princess, and it had been fore-

told that she would one day marry

a poor soldier. This had so enraged

her father, the king, that he had

her locked up in a great copper pal-

ace, and allowed no one to visit her

except himself and his queen.

When the soldier heard this story

he determined to see the princess,

come what might. So, summoning

the dog with eyes as big as teacups,

he bade him bring the princess to

him without delay.

The dog obeyed, and in a short

time he appeared with the princess,

who was fast asleep on his back.

She was so beautiful that the sol-

dier kissed her, then bade the dog

take her back quietly to her palace.

EAST CLIFTON

Miss Heath spent the holidays at her home at Hillhurst.

The community expresses their sincere sympathy to Mr. George Huppe and family in the loss of Mrs. Huppe, who died of double pneumonia after a short illness. Mrs. Huppe leaves six small children, the youngest a baby ten months old, interment taking place Saturday last at St. Isidore.

Misses May Elliott and Doris Bailey, who are attending Sawyerville model school, are spending the holidays at their homes in town.

Mr. Clayton Blair spent Friday in Sherbrooke.

On Thursday afternoon the Women's Institute met with Miss Hazel Bell at Mr. Judson Waldron's, with eight members present. The president had charge of the meeting. Different discussions took place, one being that each member should give a suggestion in what way the Institute could be improved for this year. The secretary-treasurer reported over \$20 net profit from the oyster supper which was held at Mr. Ed Waldron's a short time ago. At the close of the meeting refreshments were served by Mrs. Judson Waldron and Miss Hazel Bell.

Mrs. Joseph Taylor and Miss Eleanor Walker spent Sunday with Mr. and Mrs. Roy Lowery, Birchton.

Mr. and Mrs. George H. Cote, nee Ellen Thompson, of Salem, Mass., and Miss Alice Thompson, of Scotstown, are spending the holidays with their mother, Mrs. Agnes Thompson.

Mr. W. T. Elliott and son Gordon, who have been working for some time in Kapuskasing, Ont., have returned home.

Misses Hazel Bell and Hilda Bell are visiting their aunt, Mrs. Josine McConnell.

Mrs. N. Snider and daughter have returned to their home in Toronto, after spending a couple of weeks with her sister, Mrs. Bertha Waldron.

Mr. Robert Graham has returned to Sawyerville, after spending a few days at Mr. Jas. Dempsey's.

Miss Marjorie Waldron, of Coaticook, is spending the holidays with her parents, Mr. and Mrs. Ed Waldron.

Messrs. Willis and Andrew McConnell, of Colebrook, N.H., spent the week-end with their brother, Mr. Albert McConnell.

Mr. and Mrs. T. French, of Sawyerville, and Miss Mary Hurley, of Brown's Hill, spent Easter with their parents, Mr. and Mrs. Jas. Hurley.

On Friday evening a wedding reception was held at Miss Agnes Thompson's in honor of her daughter Ellen and husband, Mr. and Mrs. George H. Cole, who were married April 12 in Salem, Mass. About seventy-five were present, neighbors and friends of the bride. A very pleasant evening was spent by all in music and dancing. Refreshments were served at midnight, and the general good time was continued until the early hours. The presents were beautiful, including a large amount of money. The company dispersed wishing Mr. and Mrs. Cole a happy and prosperous life. In future Mr. and Mrs. Cole intend residing in St. Johnsbury, Vt.

The Famous
R 215 A
Peanut Tube
\$4.50

Gentlemen.—It may interest you to know that during the recent transatlantic tests held by the American Radio Relay League and amateur operators in Europe for the purpose of determining whether European signals could be heard in America that the writer has been very successful. Some \$4,000.00 worth of prizes were awarded by manufacturers to those amateurs on this side of the water who could receive the European. The prizes were on mileage, i.e., Stations in the West, of course, getting more mileage credit than Stations in the East for receiving the same European signals.

Throughout these tests I used Northern Electric Peanut Tubes and am glad to say I have been awarded prizes to the value of about \$800.00 for my reception. On several occasions I was able to copy European signals using one Peanut Tube only, and perhaps the best performance was the reception of French 8-AB, which is situated in Nice, France, about 3,000 miles east of my Station. Most of our reception in Halifax was under difficult conditions on account of local power line interference and I consider the performance of my Receiving Set most creditable and am, therefore, a great booster for the Peanut Tube.

Yours very truly,

(Signed) WM. COATES BORRETT.

PRICES AND DETAILS OF SHERBROOKE MARKET

Lansdowne market, in most of its departments had a fairly busy day yesterday and the dealers reported that business, in the main, was good. In the fruit and vegetable market there seemed to be a little less activity, perhaps made more noticeable after the unusual rush just before Easter. The meat and provision market seemed to be fairly busy, however, and buyers were plentiful all morning and afternoon, slackening off a little around the noon hour.

Maple sugar, which has been the feature of the market during the last few weeks, was still prominently displayed by the dealers, but the sale had slackened off to a considerable extent, and the quality of the general run was a little lower. Prices showed a considerable decrease, and the sugar sold generally for about fifteen to eighteen cents per pound.

In the vegetable market there was very little change from last week. Practically the same commodities were displayed. Tomatoes, string beans, parsnips, carrots, all were there selling for the same prices as those asked last week.

In the fruit market, strawberries were in evidence, selling at thirty cents a basket. Bananas were lower at thirty-five cents a dozen, compared with the price of forty cents asked last week. Rhubarb, which made its first appearance last week, sold yesterday for twenty-five cents for bunches of one pound. Pineapples were quoted at thirty cents each.

In the dairy department, the feature was the price of butter which could be had in quantities at twenty-five cents per pound, and thirty cents for the best creamery variety. Eggs seemed plentiful and sold at the same price as last week, thirty cents a dozen. Chicken was very scarce and when it was to be had, it fetched

forty cents a pound.

In the provision market, business was very good, with little change in prices from those of the previous week. Beef was a little scarce, but opinion was expressed that the shortage was only very temporary and that there would be plenty on hand in a short time. Veal was very plentiful and sold in large quantities. Prices held firmly.

COUNTRY PRODUCE

Montreal, April 26th.
EGGS.—There was practically no change in the condition of the local egg market yesterday the feeling being steady owing to the fact that there is a good demand from packers and dealers for supplies for storage for future requirements on account of the excellent quality of the stock being offered from the country. In a wholesale jobbing way a fair trade was done and, on the whole, the market was fairly active, with sales of fresh specials at 33c, extras at 30c, firsts at 27c and seconds at 25c per dozen.

MAPLE PRODUCT.—The tone of the market for maple product remains steady owing to the fact supplies on spot were not excessive, but they were ample to meet all immediate wants. The demand showed no improvement and only a moderate amount of business was done in a wholesale jobbing way in maple syrup at \$2 to \$2.10 per tin of one gallon and at \$1.40 to \$1.50 per tin of 8 lbs., while maple sugar sold at 21c to 23c per lb., as to quality.

HONEY.—The market for honey continues quiet, the demand being only for odd small lots. The feeling was steady and prices were unchanged, with No. 1 white clover honey in comb quoted at 25c per section, No. 2 grade at 20c per section, No. 1 amber at 22c per section and No. 2 amber at 19c per section, while white extract honey sold at 12c per lb. in 30 lb. tins, at 12 1-2c per lb. in 19 lb. tins and at 13c per lb. in 5 lb. tins.

POTATOES.—A steady feeling prevailed in the market for potatoes with a moderate amount of business passing in Green Mountains at \$1.30 and in Quebec stock at \$1.25 per bag of 90 lbs., in bulk, ex-track.

DAIRY PRODUCE

Montreal, April 26th.
BUTTER.—A steady feeling prevailed in the market, but the volume of business was small owing to the fact that wholesale jobbers in most cases are receiving shipments direct from country producers, which in some cases are almost ample to meet their requirements for the time being, therefore they are not called upon to operate in this market to any extent and only sales of odd small lots of No. 1 pasteurized creamery were made at 29c per lb. No. 1 creamery at 28c 1-2c per lb. and No. 2 creamery at 27 1-2c per lb.

CHEESE.—The market was without any feature to note, business being still very quiet for the season of the year, but as the make of fodder goods up to the present has not been as large as a year ago, the offerings are smaller and the tone of the market rules steady at 12 1-2c to 13c per lb.

HAY MARKET

Montreal, April 26th.
HAY.—There was no change in the condition of the market for baled hay, the feeling being steady with a small volume of business passing, and car lots of No. 2 timothy hay were quoted at \$16 per ton, and No. 3 timothy at \$14 to \$15 per ton, f.o.b. cars here.

GRAIN MARKET

Montreal, April 26th.
GRAIN.—The trade in cash wheat in the Winnipeg market yesterday was again quiet, and in consequence the feeling was weaker which resulted in prices declining 1-4c to 3-4c per bushel, No. 1 northern closing at 98 1-4c, No. 2 northern at 95 1-4c, and No. 3 northern at 90 3-4c per bushel, ex-store Fort William. There was no change in premiums, No. 1 northern selling at 3-8c per bushel under the May option, No. 2 northern at 3 3-8c under, and No. 3 northern at 7 1-2c under.

The Liverpool future wheat market closed weaker at a decline of 1-4c to 3-8c per cwt. with the May option quoted at 8s 10 3-8d, July at 8s 10 1-4d, and October at 8s 10 3-8d. Broomhall cable that the Argentine grain shipments this week were 4,995,000 bushels wheat; 2,600,000 bushels corn; 1,050,000 bushels oats, and 1,000,000 bushels linseed, while the Australian shipments were 1,600,000 bushels wheat as against 400,000 last week. The Black Sea shipments were 360,000 bushels wheat; 1,914,000 bushels corn; 135,000 bushels barley, and 456,000 bushels rye. Of the above Russia shipped 240,000 bushels wheat; 290,000 bushels corn; 30,000 bushels barley, and 456,000 bushels rye.

There was a slight improvement in the demand from foreign buyers for grain here yesterday, and as the prices bid in some cases were in line with exporters' views, sales of odd loads of wheat, oats and barley were made for May loading, but the volume on the whole was small and the market was quiet. New York reported that sales of 750,000 bushels of Manitoba wheat were made in that market on Wednesday including a cargo of No. 1 northern at 5c per bushel over the Winnipeg May option, c.i.f. bay ports for last half May shipment, and other sales of No. 1 northern were made at 12 1-2c per bushel over the option, c.i.f. Montreal. It was also reported that ocean freight room for 800,000 to 1,000,000 bushels of Manitoba wheat per week had been booked for the entire month of May to London.

A moderate amount of business was done in oats in the local cash grain market yesterday, but the demand for other lines of grain was still somewhat limited. No. 3 northern wheat was offered at 5 1-2c per bushel over the Winnipeg May option c.i.f. Montreal and No. 3 barley at 12 1-2c per bushel over the same option c.i.f. here, and 3 1-4c per bushel over the May option was bid for No. 2 Canadian western oats c.i.f. bay ports with 3 1-2c asked. The spot market for oats was weaker and prices were reduced 1c to 2c per bushel with sales of odd cars of No. 2 Canadian western at 51c to 52c, No. 3 C.W. at 49c to 50c, No. 1 feed at 48c to 48 1-2c and No. 2 feed at 44c to 45c per bushel ex-store. American No. 2 yellow corn was offering at 97 1-4c and No. 3 yellow at 94 1-2c.

GRiffin AND BISSELL ROAD

On Wednesday, April 9, Mr. C. W. McCullagh received a message that his father, Mr. Andrew McCullagh, had passed away at Port Hope, Ont., in his 87th year. Mr. McCullagh left on the evening train to attend the funeral, returning the following Saturday.

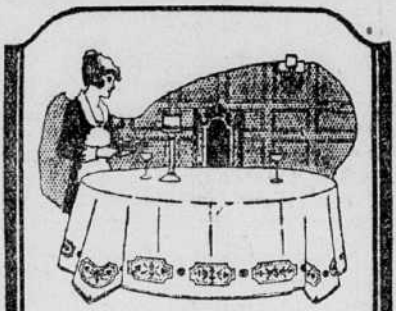

Mrs. C. Severance spent several days recently with her parents, Mr. and Mrs. S. Drew.

Mrs. Alex Layfield spent a couple of days recently in Sherbrooke, the guest of Mr. and Mrs. C. Parker. Miss Kathleen Layfield, of East Angus, was also a guest at the same home.

Mrs. Wallace Brevoort, of Beebe, has been helping take care of her mother-in-law, Mrs. Geo. Brevoort. Mrs. Brevoort remains very weak.

Mr. and Mrs. S. Cole gave a reception on April 17 in honor of their daughter Lillian and her husband.

FARM BUILDINGS DESTROYED BY FIRE AT DIXVILLE

House and Barn on W. J. Kinney Farm Burned to Ground—Personal and General Notes.

DIXVILLE, April 26. — A disastrous fire occurred on Monday evening at about 10 o'clock, when the buildings owned by Mrs. Nellie Chamberlain, on the W. J. Kinney farm, were completely destroyed. The fire started in the barn, and a quantity of hay was burned. The house was not occupied, but some furniture in it was saved. The origin of the fire is unknown. The property was insured.

General Notes
Mr. F. B. Eggleston spent the week-end with his daughter, Mrs. Robert Brown, and family, at Stanhope.

Mrs. James B. Robinson and son Morris, of Ayer's Cliff, are visiting her parents, Mr. and Mrs. Samuel Swales, and other friends in town.

Mr. Ralph Mayhew, of Greenfield, Mass., is spending a few days with relatives here.

Mr. John Chamberlain, of Stanhope, was in town Monday on business.

Mr. J. B. Parker has purchased from Mr. Dennis Marsh the property known as the R. G. Smith farm.

Mr. Everett McCoy, of Beebe, is paying a visit to his uncle, Mr. Fred McCoy, Parker Hill, and other friends.

Miss Ida Lorimer is reported to be somewhat more comfortable during the past few days.

Mrs. Agnes Bellows has sold her house here in the village to Mrs. Adelaar Tanguay.

Miss Evelyn Howe, of Sherbrooke, is visiting her aunt, Mrs. E. W. Damon, and other friends.

Mr. Roland King, who were married in Canada, N.H., on April 16 and are spending their honeymoon in Griffin. A very pleasant evening was spent. Music, both vocal and instrumental, gave much pleasure to a large number of guests. Delicious refreshments were served at the close.

Miss Kathleen Layfield, of East Angus, and Miss Sarah Layfield, of Macdonald College, spent the Easter holidays at their home.

THE DUMMY.
Mother—Why don't you yawn when he stays too long? He'll take the hint and go.

Daughter—I tried that and he merely remarked what beautiful teeth I had.

QUALITY

NO TREASON

PRICE has always been of secondary importance in the blending of KING COLE Orange Pekoe. It has to be, if that characteristic rich flavor is to be maintained. Unusually choice teas are continually sought for it, and the cost of these is frequently changing.

KING COLE Orange Pekoe is for the real tea lover to whom a fine cup of tea is a delightful necessity. Any lowering of the quality would be treason.

The price of KING COLE Orange Pekoe has changed slightly from time to time, and may again be higher or lower according to market conditions, but its original exclusive flavor remains unaltered.

For Loss of Appetite, for Convalescents, for Sleeplessness, for Nursing Mothers.

A TONIC AND STRENGTH BUILDER

DIRECTIONS

For Loss of Appetite—
a wineglass at luncheon and at dinner. Cold drinks and strong liquors should be avoided.

For Nervousness and Convalescents—
and in all cases where a tonic is needed, a wineglassful four times a day without reference to meal hours.

For Nursing Mothers—
it should be used regularly when taking food. One pint each day is sufficient in all ordinary cases.

For Sleeplessness—
a wineglassful at night before retiring. If wakefulness persists, a second should be taken.

NO MORE WEAK and DIZZY SPELLS Since She Used MILBURN'S Heart and Nerve Pills

Miss Bertha Charrette, Regina, Sask., writes:—"I have had a lot of trouble lately, with what I thought was heart trouble, and after an unusual exertion I always felt sick. My doctor advised a complete rest and change, but this I was unable to take. I became interested in Milburn's Heart and Nerve Pills, so started taking them. I have now taken three boxes and am so much improved I can go about my daily work without feeling any after ill effects, and have not had any weak or dizzy spells for some time. Your medicine has done me more good than anything I have ever taken, and I will gladly recommend Milburn's Heart and Nerve Pills to any woman who is weak and run down."

EASTER SUNDAY CELEBRATED— GRANBY NEWS

Special Services Were Held at Churches—General News and Personals from Granby.

GRANBY, Que., April 26.—Easter Sunday dawned bright and clear and was duly celebrated in all the churches by special music and sermons. In the Congregational Church the pastor preached an eloquent sermon on "The Assurance of Immortality," this being the third of a series of sermons on the doctrine of immortality preached during the Lenten season. The choir rendered the anthems, "Christ the First Fruits," by Spinney, with solo by Mrs. W. Bradford, and "Easter Morn" by Tozier, with solo by Mr. A. Dickenson. The organist, Mr. Wm. Smithson, Mus. Bac., played "And the Glory of the Lord" as a prelude, "I Know that My Redeemer Liveth" as an offertory and "The Hallelujah Chorus" as a postlude, (all from Handel's "Messiah") many of the congregation remaining standing, while the latter was being rendered. An interesting feature of the service was the christening of the infant son of Mr. and Mrs. A. Dickenson, who received the name of John Reginald. In the evening the Sunday School had charge of the service, giving the programme "Glory in the Garden." The children all took their parts well and the music was very melodious and sung with spirit and vim. The primary Sunday School all wore white gowns and had their little red chairs on the platform, which was banked with Easter lilies, daffodils and ferns. At the close of the morning session of the Primary Sunday School, each child received an Easter gift from Mrs. S. H. C. Minor, this being an annual event.

In the Methodist Church, the pastor, Rev. Thomas Brown, preached upon the theme "The Wonder of Easter" at the morning service, the anthem was "King of Kings" by Simper with solo by Mr. W. R. Legge, and Miss Ruth MacDonald sang an "Easter Song" by Van de Water. At the evening service there were two anthems "We Declare Unto You Glad Tidings" (Mauder) with solo by Miss Mary Layhew, of Montreal, and "Awake Thou that Sleepest" (Jackson) and Mr. Alfred Wade sang an Easter solo. The church was tastefully decorated with Easter lilies, ferns and potted plants and the services throughout were most inspiring and helpful.

The annual "At Home" given by Yarnsack Masonic Lodge was held on Tuesday night in their hall on Drummond Street, there being a good attendance. What was played during the first part of the evening, the prizes for the highest scores falling to Mrs. T. F. Davidson and Mr. C. Harper and the consolation to Mrs. Wm. Smithson and Mr. C. P. MacDonald. After refreshments had been served, dancing was enjoyed for an hour or two, and when the evening was over all expressed themselves as having had a most enjoyable time.

The Little Scorpion Club held a pleasant little dance in the Miner Club rooms on Tuesday evening, there being sixteen couples present. Mr. and Mrs. Weston Lee and Mr. and Mrs. O. V. Giddings acted as chaperons and the music for dancing was furnished by Mr. W. R. Legge, piano; Mr. B. Walsh, violin; and Mr. Nelles Richardson, drums and traps.

Invitations are out for the annual I.O.O.F. "At Home" which will be held in the Miner Club rooms on Friday evening, April 25th. The Little Reapers Mission Band will hold their closing meeting for the season in the Congregational Church on Saturday next when tea will be served to the children at half past five o'clock. At seven there will be an interesting programme in which the children will take part. The mite boxes will be opened and lantern views will be shown on mission work in Japan. Principal G. A. Why it Pays to Insist Upon Gum-Dipped Cords

Tires look much alike before they go on your car. But tires do not wear alike. It is the things you cannot see—the hidden values—that determine tire life and ultimate cost.

You can make sure of obtaining a tire that wears better and so costs the least in the end by insisting upon Gum-Dipped Cords. Gum-dipping insulates each cord with pure, live rubber—prevents wear by keeping the cords from rubbing against one another.

Firestone Cords are gum-dipped. It is this Firestone process that multiplies mileage and noticeably reduces tire costs in a single season.

Firestone Tubes are steam-welded—therefore leak-proof. This keeps tires properly inflated and better mileage results. Ask your dealer.

DRAMA GIVEN AT WINDSOR A GREAT SUCCESS

Players Carried Out Their Various Parts in Excellent Style—Large Audience Pleased.

WINDSOR MILLS, Que., April 26.—For the past three or four years local talent, in respect to amateur drama, seems to have become entirely dormant in Windsor, but on Wednesday night a complete revival took place when "Down in Maine," a comedy in four acts, was presented by a group of local players under the auspices of the Ladies' Guild of St. George's Church.

From the rise of the curtain until the singing of "O Canada" interest was maintained throughout the four scenes at the "Hardscrabble Farm," and for action and perfect diction nothing was left to be desired, except perhaps, "More on it" as Zeph Cummings, the Grand Old Man of the play, might have said. Mr. F. Willment's rendering of this part was in keeping with his pre-war reputation as an actor. His presence in the different scenes fairly carried his audience down to the green hills of Maine, where hospitality reigns supreme among the people. His brother, Ralph, however, a New York millionaire, who has outgrown his country youth, but later returns to the old nest, is an entirely different character and the difficult part was taken by Mr. J. I. McCabe. His return, in the last act, as a physically and financially wrecked one-time millionaire, was pathetic in its perfect rendition. Neil Wentworth, a young inventor and a summer boarder at Hardscrabble Farm, played by Mr. O'Reilly Hewitt, is in love with Susie, the millionaire's daughter, played by Miss Virginia Cmaubell; and the joint acting of the young lovers was particularly harmonizing and natural. Virginia, as a charming daughter of a stern father won the hearts of her audience as well as the folks on the farm, but her portrayal of the young woman who defies all to keep faith with herself and her fiancé was excellent. Bingle, the old fisherman and Tomps, the hired man, played by W. H. Wheeler and C. E. Force, respectively, were a scream from first to last and needed only Miss Keziah Ann Jane Ketchum, played by Miss Mildred Destromp, to stir up their rivalry and true wholesome comedy was the result. The wooing of Keziah alternately by the pair brought out the laughs of the evening and the applause of the audience interrupted them as often as they did each other. Miss Destromp had a very difficult part to play and deserves great credit for the manner in which she interpreted "Forty-three and Desperit." Another comedy pair were, Betsy Tomps, by Miss D. E. Giroux and her stuttering lover, Mose, by Mr. A. Parrett. Their respective parts were exceedingly well acted throughout, especially their tete-a-tete at the picnic scene was the cause of much laughter and enjoyment. Jimpsey, the fresh air fund kid and a little "tough" was well played by Kenneth Destromp, while the part of Mr. Holden, the lawyer, was rendered in a dignified manner by Mr. Russell McCabe. Mrs. Cummings, Zeph's wife and "Ma" down on the farm was rendered by Mrs. W. H. Wheeler in a fine old-fashioned motherly manner, and she brought out the fitting characteristics as Zeph's partner to give the final touch to the picture of a dear old country home.

The feature of the play was the picnic scene in the second act. The stage setting for this scene was simply beautiful and the stage committee in charge deserve no little credit for the scenic effect produced. On the rise of the curtain in this act the players were discovered picnicking in the woods and singing the popular ballad "Down on the Farm" with musical accompaniment by Miss M. Giroux on the piano and A. Parrett, violinist, and in response as an encore Bingle and Tomps repeated the chorus a la Mr. Gallagher and Mr. Sheen style. An old fashioned quadrille introduced after this in charge

The Ladies' Aid of the Methodist Church will meet with Mrs. de Gruchy at the parsonage on Thursday afternoon at 3 o'clock. A cordial invitation is extended to visitors.

The fourth quarterly official board of the Methodist Church will convene with the Rev. E. de Gruchy on Thursday evening, May 1, at 7:30 o'clock in the parsonage. The pastor earnestly asks that all members be present, as it is the last official board meeting Mr. de Gruchy will hold with the members. Owing to ill-health, Mr. de Gruchy is obliged to retire at this coming conference. Mr. de Gruchy has been repeatedly asked to remain a sixth year, but has definitely decided to retire from active work.

The annual meeting of the Thetford Automobile Club was held in the city hall recently, at which the following officers were re-elected: Mr. J. S. Demers, president; Mr. G. Taschereau, vice-president, and Mr. D. Marcotte, secretary. Many matters of interest to the welfare of the club were discussed, among others that an arrangement be made with one of the gasoline stations to sell gasoline at a reduced rate to members of the club. The secretary gave a report of last year's activities and financial statement. The latter showed a small balance to the good. The membership fee is again placed at \$3 per year. Several new copies of the Blue Book were ordered purchased, which are held by the secretary for the benefit of the members.

of Bingle as chief comedian was greatly appreciated.

Between the acts Mr. Malcolm Gilbert gave two recitations, "Jean Baptiste Trudeau" by Drummond, and "Sergeant Blue," both equally well delivered and appreciated; while Mr. C. E. Force in his usual pleasing voice sang "Forgotten," and in response to an encore "Absent" accompanied by Mr. J. I. McCabe. At the close of the last act the entire cast joined in singing the chorus of "Down on the Farm," followed by "O Canada," which brought a thoroughly enjoyable evening to a close.

The decorating and stage committee was composed of Mesdames Harley, Cunningham and McCallum, and the play committee of Mesdames Campbell, Willment, McCabe and Miss E. Giroux. Great credit is due these ladies for the success of the evening. The furniture used in the last two acts was one hundred and fifty years old and was graciously loaned for the occasion by Mrs. Arthur Castonguay. From the expression of approval generally heard after the entertainment, one gathers that these amateur dramas are popular in local circles.

MARBLETON

On Thursday, April 17, "Visitors' Day" was held at the Marbleton Intermediate School and was attended by a number of the parents of the pupils and interested friends of the school. A very nice programme of music, recitations and readings was given by the pupils and much enjoyed by all present: Salute; chorus, "O Canada, Reta Munkittrick and Richie Thornloe; chorus, "Land of the Maple" and the "Marseillaise"; recitations, Osborne Elliott, Merrill Bishop, Marion Munkittrick, Irene Gilbert, Clinton Weston and Alice Willard; "Star Song" by some of the little ones; recitations, Wilfred Munkittrick, Willie Bessant and Marshall Willard; piano solo, Angie Bishop; Leslie Bessant, Lloyd Elliott and Lloyd Mackay; "Lullaby Song," reports of Easter examinations. Rev. A. E. E. Legge commended the pupils for the nice entertainment and for the high percentage of marks taken in many of the subjects, and encouraged them to work hard for the remaining weeks of the term before the final examinations in June. Miss Doris Barter presided at the piano. The following are the grades in

WINDSOR MILLS

Easter Services. The Easter services of the United Church of Windsor were of a deeply spiritual character and participated in by congregations that completely filled the church.

At the service held on Good Friday evening, the pastor, Rev. E. S. Logie, gave an expository address on "The Crucifixion," illustrated with pictures from the paintings of the great masters, Tissot, Copping, Titian, De Vinci, Hoffman Munkacsy and others which left a profound impression as the hushed silence fell upon "The Christ on the Cross," the closing scene presented.

"Seeking Christ in wrong places" was the subject discussed by the pastor on Sunday morning.

Friday's illustrated service was continued on Sunday evening when a portrayal of the "Resurrection" was given with thirty slides made from pictures of the paintings of great artists. It was inspiring to hear the congregation, in a fully packed church singing the familiar resurrection hymns from the screen and reading the scriptures in unison.

After the "Ascension picture" Mrs. E. S. Logie sang "I Know that My Redeemer Liveth," from the Messiah.

IS BOBBER A BARBER? IS ASKED

Question Arises as to Whether "Hair Bobbers" Must Be Licensed.

(Associated Press Despatch) SEATTLE, Wash., April 26.—Whether a bobber is a barber, a question that has disturbed the state of Washington since the Legislature a year ago enacted that barbers must have licenses, evoked the classics when a case reached Judge J. T. Ronald in Superior Court here on appeal from the justice court.

"Beauty parlors, like baseball, have become a national amusement," Judge Ronald remarked in deciding that bobbers needn't be licensed barbers.

The lawyers having dealt with the case of Samson and Delilah, the judge brought out some lines from "Milton and other poets." Lamenting the modern spirit of woman, "which has robbed her of her chief charm, to make wigs and toupees for men," the court yet admonished her:

"Then cease, bright nymph, to mourn thy ravished hair Which adds new glory to the

PROSPERITY THAT IS BOUND TO COME TO CANADA CANNOT BE LONG RETARDED, IN OPINION OF HON. P. J. A. GARDIN

As the Hon. P. J. A. Gardin rose to speak, he was given a great ovation by the gathering. According to the toast list, he was to talk on "Our Heritage," and this he proceeded to do in a manner replete with eloquence. Mr. Gardin in glowing terms spoke of the heritage which belongs to the people of Canada as their right, and he expressed the confident opinion that the prosperity and progress which were bound to come to Canada could not be long retarded by the period of depression which still prevails following the unprecedented ravages and wastes of the war.

Mr. Gardin spoke of the great pleasure which he felt at being enabled to meet for the first time the people of the Eastern Townships, and he extended the greetings of the people of his own community of Sorel. The Eastern Townships were the centre, he said, of industrial life, and with all their advantages of power and location, he felt that increased prosperity could not fail to come to them.

Must Have Confidence.

"The inspiration derived from the efforts of our predecessors must be carried into our endeavors of the present day," he said. "The success which greeted their efforts is bound

EVERY MANUFACTURER SHOULD SUPPORT AGGRESSIVE IMMIGRATION POLICY, DECLARES C.P.R. PRESIDENT

Mr. Beatty's address was a serious discussion of the needs of the Dominion of Canada at the present time, and the two things which he advocated as most necessary in the national policy were immigration and economy.

"Few countries," he said, "have been blessed by nature as has Canada. It has a wealth of known and unknown resources. Its known resources consist of many millions of acres of the most fertile land the world knows, of timber, of minerals, of fisheries and the nucleus of great industrial expansion. It enjoys a climate which, while at times rigorous, is health-giving and varied. Its constitutional system is as we wish it and its people are virile, independent and full of courage. These are our greatest assets. No country's balance sheet, however, can be correctly appreciated without a consideration of its liabilities. The liabilities of the country today consist largely of national, provincial and municipal debts which are somewhat out of proportion to the number of people who must share the burden of them. These liabilities are, however, not disproportionate to the wealth of its resources, but are only an added reason why these resources should be realized upon without undue delay. Now, if I say to you that in this atmosphere, in this situation, there is no place for the walling of the pessimist or the ravings of the alarmist, you will not understand me to mean that this precludes the desirability of thoughtful consideration to improve existing conditions and so order our national policies that the undoubted future of the country may be realized as speedily as possible. And if you asked me what is wrong with Canada, I would answer absolutely nothing except perhaps some of the people in it.

"There are approximately nine million people in this country, and it requires little consideration to reach the conclusion that Canada can support more than nine million people and requires more than nine million people to support it. The problem of immigration itself is not confined to the mere matter of filling our vacant western lands and resettling, if possible, our vacant farms in Nova Scotia and New Brunswick and in Quebec. The increase of this population of farm laborers and skilled artisans and honest labor of any kind is equally important to Eastern Canada as it is to Western Canada.

"Every Canadian manufacturer should, without question, support an aggressive immigration policy because his market is thereby increased, and with this expansion comes a greater market for the natural products of the West. It has been said that every wheel that turns on an immigrant train bound West helps in time to turn the wheels of eastern industry. From the standpoint of the West alone of course, the question is easily answered. The land is there and men are not upon it. The wealth is in the ground and it is not being extracted. It is estimated that 25,000,000 acres of land, arable and productive, are lying vacant within fifteen miles of existing railways. We surely cannot be accused of making the most of our natural resources if this land remains uncultivated and produces nothing which adds to the wealth of the country.

"I can imagine a great many problems in this country which would naturally solve themselves if the population of the country were double what it is. It is even thought that that great controversial question, the tariff, to which I will not further refer because of the political atmosphere which surrounds it, would in itself be determined if the country had more people.

"Obviously, however, we would not look with so much apprehension upon our national and other obligations if 18 or even 15 million people were engaged in bearing them instead of nine.

Immigration Built up U. S.

to come to us. We must have an unbounded confidence in our great country, which has already developed and prospered to a great extent, and to which in the future, greatly increased wealth and happiness may come.

"The great sacrifices made by Canada in the world war have had, and are now having, their inevitable effect," said the Minister, "and we are struggling against adverse conditions which are causing great concern. We must bring to our rescue our confidence in our vast resources, developed and undeveloped, and we must remember that we have unequalled wheat fields, many large and important industries, great mineral wealth, timber lands which are the envy of the world, all bound to contribute to our recovery. Already steps are being made to lower the national indebtedness, raised to great heights by the war. We have a trade balance in our favor.

"We must have confidence in ourselves, in the honesty and integrity of the Canadian people and in our ability and determination to place Canada in its rightful position at the forefront of nations. We possess a heritage which is incomparable with any other. We must accept our destiny, improve and develop our country and prosper with it."

enterprises or in our individual disbursements are those which should be applied by a Government. All large corporations, especially those dealing with the public and which are of a character known as public utilities, are pressed for extensions, improvements and betterments by all the communities through which they run. The principles upon which these expenditures are regulated are principles which are equally appropriate to the administration of large government disbursements. The principles are briefly these: (1) Are they necessary for public safety? (2) Will they be productive of more revenue? (3) Are they necessary from the standpoint of public convenience? (4) Are they expenditures which are within the limits of your resources and therefore such that even a prudent man would make?

Lower Taxation Will Result.

"So far as this country is concerned, the combined effect of more people plus rigid economy until the burden can be shifted to more shoulders is an absolute prerequisite to lower taxation and lower taxation both from the standpoint of our own development and from what is owed to the south of us is necessary if we are to retain our population and also conserve for Canadian industrial development the savings of our own people.

Serious Thought Necessary.

"Intelligent optimism, is a quality which we would all be very fortunate to possess. An intelligent optimism is a man of great faith combined with prudence, and he is very far removed from that attractive but unthinking optimism which licks our ears with glowing optimism and induces in us a spirit of complacency not consistent with either initiative or effort; the man who tells us in and out of season that everything is lovely and that there is no occasion to think, much less worry; that all we have to do is to leave it to Providence or the Government and an effective millennium will soon be established, that we ourselves should do nothing but leave it to George. I suppose I am not exaggerating when I tell you that this gentleman and his numerous brothers have been the cause of the waste and extravagance for which we are engaged in discharging. He is the man who has aided by his advocacy of ill-considered policies the expenditure of a great deal of money which it would have been the part of wisdom to save, and he is the gentleman who is still amongst us with that infectious optimism which is unaccompanied by business experience or sound judgment. For a short time I would like him to gracefully retire from the stage and leave it to the cooler, saner, but more equally confident business and pro-

National Economy Also a Necessity.

"These figures indicate that we are correct in assuming that immigration is our most vital problem but second only in importance to it comes the absolute necessity for national economy for some little time to come.

I know how pressed governments are for improvements and facilities of all kinds and how important they appear to those localities which are clamoring for their provision. Sometimes the expenditures are made for political considerations but I prefer to regard them in the light of whether they are economically sound or otherwise. It may be a radical statement to make but it has always seemed to me that in questions of large expenditure the principles that guide you or me in our own

RUTH'S THIRD HOME RUN GAVE YANKS VICTORY

Came Through With Circuit Clout With Two Men on Bases—Champions' Fifth Straight Win.

(Associated Press Despatch) NEW YORK, April 26.—The crack of home runs hit echoed in every major league game yesterday. Four of the seven victories were direct results of the blow spectacular.

"Babe" Ruth sent his third homer, and trotted home behind Joe Bush and Joe Dugan with the runs that earned a five to two victory for the Yankees over Boston. It was the fifth straight win and landed the world's champions only a half game behind Detroit and Chicago, tied for first place.

A circuit swat by Simmons with two men on won a 6-5 contest from Washington for Connie Mack's hard fighting young Athletics.

Chicago pulled up into the tie with Detroit by trimming St. Louis 6 to 3, although outthrew eleven to seven.

Detroit's clear title to first place was lost when Cleveland made seven

consecutive hits off Daus and Pille in the seventh inning. Speaker's homer figured in the six run rally. The final score was 10 to 2.

Home runs were responsible for four of the five runs in the contest which Brooklyn won from the Giants by 3 to 2. Wayland Dean again baffled Dazzy Vance over the route, but the veteran won yesterday when Bernie Neis lifted one over the fence and scored Vance ahead of him. Meusel's homer with Young on had previously given the Giants a one run lead.

Although outthrew thirteen to six, the Cubs mixed their blows, including a homer by Harnett, with Haines' wildness in the first inning, and scored a 7 to 5 victory over St. Louis.

Homers by Grimm, of Pittsburgh, and Hargrave, of Cincinnati, kept the teams battling until the eighth, when the Pirates retreated before the rapid clouting of the Reds, who made seven runs in the last two innings, by winning 10 to 4 jumped into first place in the league standing.

The Philadelphia-Boston National League game was postponed by rain.

DISRAELI WAS THE SCENE OF SERIOUS FIRE

Catholic Church Was Destroyed Yesterday—Convent Nearby Was Saved by Work of Volunteer Fire-Fighters.

(Special to the Record.) DISRAELI, Que., April 26.—The Catholic Church, a fairly large wooden building, was practically totally destroyed by fire late yesterday morning and the convent building nearby was only saved through the determined efforts of the volunteer fire brigade.

The cause of the outbreak is unknown and the flames had made such great headway before being discovered that it was soon quite apparent that the church building was doomed to destruction. Quite a large number of volunteers rushed to the scene when the warning of a fire was sounded. Several times the flames caught on the convent building, but each time they were extinguished before they did very much damage.

HAVE ACCEPTED INVITATION OF UNITED STATES

Central American Governments Will Take Part in Conference for Purpose of Mediating Between Warring Countries.

(Associated Press Despatch) WASHINGTON, April 26.—Three Central American governments, Salvador, Guatemala and Nicaragua, have accepted an invitation from the United States to participate in a conference at Amalapa, Honduras, for the purpose of mediating between warring factions in that country. A favorable reply is expected from Costa Rica, and delegates will be despatched by the four Central American countries in this new effort to restore order in the distressed sister republic.

The United States will be represented at the conference by Sumner Welles, President Coolidge's personal representative sent to Honduras from Santo Domingo to seek some way out of the middle that has existed in that country since constitutional government expired through failure to elect a president.

GIRL WANTED ON MURDER CHARGE TAKES POISON

Staged Final Act of Her Drama of Vengeance in a Detroit Hotel.

CHICAGO, April 26.—Miss Wanda Elaine Stopa, the youthful attorney, whose mad infatuation for Y. Kenley Smith, Chicago advertising man, on Thursday led her to his home, where she shot to death an aged caretaker who attempted to protect Mrs. Smith from her wrath, staged the final act of her drama of vengeance in a Detroit hotel yesterday by drinking poison.

Additional light was thrown on the girl's preparation to avenge herself on the man who had refused to divorce his wife and marry her by Ernest T. Wood, the middle-aged taxicab driver who took Miss Stopa to Palos Park, Smith's suburban home. Word was received that he picked up a woman resembling Miss Stopa at the Illinois Central station yesterday morning and drove her to Smith's house. He was told to stop a block from the house. His fare was gone about fifteen minutes. He said he heard no shooting and his passenger did not appear excited when she returned.

The story of the taxi driver, according to the police, apparently absolved Vladimir Glaskoff, better known as "Ted" Glasgow, said to be a Russian of nobility, who had posed as Miss Stopa's husband, from any connection with the shooting. It was at first reported that Glaskoff had accompanied Miss Stopa to Smith's home.

Logic was applied to her love for Smith by the young woman, who left a stenographic record of a system she had composed for them to follow. It was found in a note book in her studio here. Her plan of existence, sub-divided as a lawyer writes a brief, carried the sub-headings of "work," "recreation," "friendship" and "companionship."

"An artist needs a manager. You are the artist. I am the manager," she prefaced. Under "work" she bound herself to take "dictation" from Smith. "Of 'companionship' she wrote: 'I will hold myself in readiness to come to you whenever you may wish me outside of working hours.' A later personal note, indicating a crisis in her relations with Smith, read: 'I feel that my attachment for you is becoming a sort of millstone about your neck, that you never intended it to reach the hectic stage it has.'"

SIX SHIPS ARE DESTROYED ON HUDSON RIVER

Damage Estimated at \$1,000,000—Blaze One of the Most Spectacular in Many Years.

(Associated Press Despatch) NEW YORK, April 26.—The steamboat Grand Republic, a sister ship of the General Slocum, which was burned in the East River twenty years ago with the loss of one thousand lives, was destroyed and five other vessels were burned to the water-line early today at their winter berth in the Hudson River, off 157th Street.

The fire, caused by a gasoline explosion on a small unnamed barge, set fire to the A. M. Church, and spread to the Highlander, the Nassau, the Barton, and the Grand Republic, before firemen had their hose lines stretched.

Thirty employees aboard the Grand Republic were awakened by the honking of motor horns on the Riverside Drive viaduct and barely escaped with their lives, many being forced to leap into the water. Two men were burned, one seriously. All of the vessels were the property of the McAllister Steamboat Company. Used in summer excursion

traffic between New York and Bear Mountain of the Hudson were the Grand Republic, the Highlander, and the A. M. Church, which formerly was a hospital ship. The Barton was a steel lighter. Loss of boats represented damages of \$1,000,000, it was estimated.

Weighed down by the tons of water poured into them by fire fighting apparatus, the Grand Republic and the Nassau sank in twenty-five feet of water shortly after the fire had been extinguished.

The blaze was one of the most spectacular in many years. The flames shot high into the heavens and could be seen for many miles in New Jersey and for a considerable stretch along the shores of the Hudson in New York.

In no other car near the price will you find such deep luxurious comfort as in the well upholstered seats of an Overland, nor will you find the big-car riding ease of Triplex Springs (patented), nor an all steel body with long lasting baked enamel finish.

When it comes to real pleasure, nobody gets more out of an automobile than Overland owners. Overland is at once a joy and a saving in gasoline, oil, tires and upkeep from the first day you own it, on and on through a long, long life of faithful service.

Other Overland models: Roadster \$710, Champion \$945, Sedan \$1,125. All prices f.o.b. Toronto. Taxes extra.

The Best Gray-Dort Ever Built

THE Gray-Dort you can buy today at the Gray-Dort showroom is the best Gray-Dort ever built.

It has better parts than ever before were put in a car at its price. It has finer engineering design. The workmanship is of a class demanded only in cars costing much more. It is the most carefully inspected car on the market today. It has the finest rear axle ever put into a motor car.

These are but a few of the things which show how the new Gray-Dort management has revolutionized the building of motor cars. No man can stay in our organization if he considers anything but perfect work good enough for the Gray-Dort. He must work on every car as if it were his car.

Then why the amazingly low Gray-Dort prices? Simply because we must get recognition for the Gray-Dort as the best car in its class. Till that time Gray-Dort prices will remain low.
