REPORT OF THE DIRECTOR OF DEVELOPMENT	67
REPORT OF THE PUBLIC RELATIONS OFFICER	69
REPORT OF THE LOYOLA OF MONTREAL STUDENTS' ASSOCIATION	70
REPORT OF THE PRESIDENT OF THE ALUMNI ASSOCIATION	76
REPORT OF THE AUDITORS	79

I have the honour to submit the annual report of Loyola College for 1967/8. In the centennial year of Canada's Confederation and during Expo '67, the College was privileged to participate in a number of events and to join in various studies that made our heritage in Quebec and Canada more meaningful and challenging.

It should be noted that our financial position has continued to be acutely painful despite very good support from the general public, protracted negotiations with government about a more equitable share of both capital and operating grants, and considerable austerity even in essential academic requirements. Loyola would be wanting in gratitude if this report failed to recall the exceptional understanding, accorded by lending institutions and other creditors over a lengthy period beyond the customary time of grace.

In the body of this report a number of changes are noted both in administrative and academic organization of the College. Most notable are the creation of the post of Vice-President, Academic and Vice-President, Administration, the evolution of a set of statutes for the Board of Governors (still to be adopted), and the inclusion of three students to elective seats on the Senate. These changes, besides being a part of the changing times, clearly reflect the determination at Loyola to deal with the colleges rapid growth, with interdependence between colleges and the general public, and to give increasing responsibility to faculty and students for decision-making on campus. It may, perhaps, be noted that the participation of faculty and students, while energetic and responsible, is not directed sharply at those elements in academic methods and aims which in their judgment, are open to question and change. This observation does not, however, lessen the welcome which the College offers, nor discount the value to be expected from public participation of all and, in particular, students.

WILLIAM J. DUNN, S.J., President

During the year under report, the Office of the President has been busy with the many duties of the office. The President has been active in the many duties of the office. The President has been active in the many duties of the office. The President has been active in the many duties of the office.

During the year under report, a new classroom building, the W.F.X. Bryan building, was officially opened. Besides being something of a miracle in planning and construction (thanks to Cinq-Mars and Desmarais architects and Longpré Ltd. contractors and their various collaborators), this new edifice provides some much-needed instructional space and modern, specialized facilities for the burgeoning department of Communication Arts.

In concluding this brief introduction, I wish to acknowledge our many obligations to the Board of Governors for their advice and support. In particular, I express to faculty on behalf of the whole Loyola family our warm appreciation for their loyalty and understanding in a trying period of financial and political uncertainty. Finally, to the students and non-academic staff, to our many benefactors and well-wishers, I express for Loyola gratitude and best wishes.

REPORT OF THE ACADEMIC VICE-PRESIDENT

During 1967-1968, the Office of Dean of Studies was changed to Academic Vice President and the associate deans were appointed deans of their Faculty. In March 1968, revised and enlarged terms of reference for the Academic Vice President and Deans were formulated and are to be used for some time on a trial basis. Study was started on the terms of reference for Chairmen of Departments but are not yet completed.

The academic year started late so that students could work as long as possible at Expo. The late start, combined with a study week at the end of January, made the academic year extremely short. Some students, particularly freshmen, found it difficult to adjust to this shortened year which next year will revert to normal proportions.

Faculty attention was given to problems associated with grading, promotion, interdisciplinary programs and undergraduate teaching. Specific recommendations will undoubtedly be made to Senate in the coming year as a result of this attention. Experimentation has been taking place at Loyola in greater use of tutorials, seminars and interdisciplinary courses. As the budget permits the use of these teaching techniques will be increased.

FRESHMEN - Mr. W. Cozens continued his able coordination of special programs for Freshmen. An extensive orientation program was developed, lectures on study habits were presented and seventy-four faculty members participated in the Student Advisory Program. Effective direction and counselling of Freshmen is essential in assisting these students to make the necessary adjustments to a university program.

COUNSELLING - The Guidance Center, under the direction of Mr. J. Hale, provided counselling to nearly one-sixth of the student body and continued to work closely with faculty and the academic administration.

An increasing number of faculty members have gained recognition for their research and study through publication of articles and books. In addition the list of awards to students has also increased. Of particular interest are the Rhodes Scholarship awarded to history graduate Robert Calderisi and a major National Research Council fellowship to Terrence Cherry.

Three students were elected to Senate for the first time. A joint Senate - Board of Governors - Students - Administration committee was formed to study reorganization of the Board of Governors and develop statutes clearly defining its responsibilities.

In closing, I wish to thank Mr. H. Charbonneau for his devoted efforts as Director of the Evening Division. He has moved from Loyola to another university position.

Mr. H. Charbonneau, Director
Department of Evening Languages

ACADEMIC PERSONNEL

Mr. F. KEEFE

B.A. (Columbia), M.A. (Columbia), Ph.D. (Columbia),
C.B. O'Keefe, S.J.,
Academic Vice-President

Mr. J. HARRIS

B.A., M.A., and Ph.D. (University
of Notre Dame), Department of
Sociology.

Mr. J. LAMARCA

B.A., B.S. (University of
Notre Dame), B.S.P. (University
of Notre Dame), Department of French
Studies.

Mr. J. FONG CHU

B.A. (Columbia College, Chicago), M.A.
(Columbia), M.A. (University of
Pennsylvania), Ph.D. (Pennsylvania),
Department of Political Science.

ACADEMIC PERSONNEL

Mr. J. HARRIS

B.A. (University of Chicago), M.A.
(Catholic University of America),
returned to the Department of
Philosophy as an Assistant Professor
after one year of absence.

Mr. J. HARRIS

B.A. (University of Notre Dame),
M.A. (University of Washington),
Department of Evening Languages.

Mr. J. HARRIS

B.A., M.A. (Columbia University),
Ph.D. (State University of New
York at Buffalo), Department of
Education.

Mr. J. HARRIS

B.A. (University of Notre Dame), Ph.D.
received from McGill University at the
Spring Session 1960. Department
of French Languages.

APPENDIX

LIST OF NEW FACULTY 1968/69

FULL PROFESSORS:

Dr. N.P. YALAMOW,

B.L. (Paris), M.A. M.Sc., Agrège d'Etat, and Ph.D. (Sofia), Chairman Department of Modern Languages.

ASSOCIATE PROFESSORS:

Dr. F. ANTOLIN

B.A. (Leon, Spain) L. ès L. and D. ès L. (Madrid), Department of Modern Languages.

Dr. G. DEWEY

B.A., M.A., and Ph.D. (University of Notre Dame), Department of Sociology.

Dr. G. LAURION

B.A., L. ès L. (University of Montreal), D.U.P. Lettres (University of Paris) Department of French Studies.

Dr. Ki Song OH

B.A. (Chuo College, Tokyo), LLB (Tokyo), M.A. (University of Pennsylvania), Ph.D. (Pennsylvania), Department of Political Science.

ASSISTANT PROFESSORS:

B. CAVANAUGH

B.A. (Providence College), M.A. (Catholic University of America), returns to the Department of Philosophy as an Assistant Professor after one year of absence.

A. COSTANZO

B.A. (University of British Columbia), M.A. (University of Washington), Department of Modern Languages.

Dr. K. DATTA

B.A., M.A., (Calcutta University), Ph.D. (State University of New York at Buffalo), Department of Economics.

H. FAMIRA-PARSETICH

B.A. (University of Innsbruck), Ph.D. expected from McGill University at the Spring Convocation 1968. Department of Modern Languages.

Dr. B. FLYNN	B.A., M.A. and Ph.D. (Duquesne University), Department of Philosophy.
I. GROBOVSKY	B.A. (U. of California at Santa Barbara) M.A. (Yale), Department of History.
G. GROSS	B.A. (McGill), M.F.A. (Carnegie Institute of Technology), Assistant Prof. Department of English.
R.A. HENRY	B.A. (Ohio University), M.A. (U. of Massachusetts), Department of Sociology.
C.S. KALMAN	B.Sc (McGill), M.A. (U. of Rochester), Department of Physics.
Dr. L. LASZLO	B.A. (University of Illinois, M.A. (Columbia) Department of Political Science.
T. McPHAIL	B.A. (McMaster), M.A. (U. of Buffalo), Department of Sociology.
Rev. P. MOROZIUK	L.A. Th. (Gregorian), Ph.D. (Pontifical Oriental Institute, Rome), Department of Theology.
Mrs. E. MOULEDOUX	B.A. (Tulane University), B.S.L.S. and M.A. (Louisiana State), Department of Psychology.
Dr. K.K. MUKHERJI	B.Sc. and M.Sc. (Calcutta), Applied Geophysics Diploma (Leeds), Ph.D. (U. of Western Ontario), Department of Geotechnical Science.
J. NORRIS	A.B. and M.A. (University of Notre Dame) Department of Sociology.
Dr. Maria PHILMUS	Ph.D. (University of Ca' Foscari, Venice), Department of English.
R. PHILMUS	B.A. (Brown University), Ph.D. expected from U.C. San Diego in 1968. Department of English.
P. RESTUCCIA	B.A. (C.W. Post College), M.A. (U. of Southern Illinois), Department of Philosophy.
Dr. D. SHACTER	B.A. (Sir George Williams), M.A. (U. of Omaha), Ph.D. (Illinois Institute of Technology), Department of Psychology.

Dr. R. THIRY

B.A. (University of Strasbourg), L. ès
Sc. (University of Nancy), Diplom-Chemiker,
Masters (University of Cologne), Ph.D.
(University of Toulouse), Asst. Prof.
Computer Centre.

I. WEBB

A.B. (Tufts University), M.A. (Stanford)
Department of English.

LECTURERS:

G.B. ENGLISH

B.A. (University of Montreal/Loyola)
B.C.L. (McGill), M. Comm. (University
of Toronto), Lecturer, Department
Business Administration.

H. GREENSPAN

B.Sc. and M.Sc. (McGill), Department of
Mathematics.

A.B. KEVICZKY

B.S. (Fordham), M.S. (City College of N.Y.),
Department of Mathematics.

Sister Marie O'BRIEN

B.S. (St. John University), M.A. (Gonzaga),
Department of Theology.

P. O'NEILL

B.A. and M.A. (University of Toronto),
Department of Philosophy.

C.B. PARIS

S.T.L. (Laval), Diploma - Institut Supérieur
Pastorale Catechetique (Paris), Department
of Theology.

Mrs. S. POTEET

B.A. (Wellesley College), M.A. (U. of
Minnesota), Department of English.

Miss L. SNIDER

B.A. (U. of Toronto), Department of Sociology.

INSTRUCTORS:

C. COCKERLINE

B.A. (Bishop's) Department of English

Mrs. A. FLETCHER

B.A. (Leeds University) Department of English

Miss L. McINTYRE

B.A. (Montreal), Department of English

J.P. SULLIVAN

B.A. (Montreal), Department of English

FACULTY AWARDS

Dr. G. Labbé, Department of French Studies, was granted a post-doctorate
award for research on Dugas.

Three Professors from the Department of French Studies, C. Rouben, J.B.
Boucher, and Mrs. Youssef have received grants and scholarships for their
doctoral studies.

Dr. A. Kawczak, Department of Philosophy, received a Research Fellowship from the University of Alberta which will enable him to work on a book during the academic year 1968/69.

Prof. Charles F. Gagnon, Resident Artist and member of the Department of Communication Arts, has been awarded a Senior Canada Council Grant for research and study in the Visual Arts.

Dr. Stanley Russell, Department of English, received a Senior Canada Council Grant which will enable him to do post-doctoral work in 1968/69.

Dr. Anthony Raspa, Department of English, received a summer study grant from Canada Council enabling him to do post-doctoral work in England.

Dr. T. Nogrady, Department of Chemistry, received an N.R.C. grant for experimental and instrumental purposes amounting to over \$25,000.

Dr. K. Ekler of the Department of Chemistry received a grant of \$3,920 from N.R.C. for research purposes and \$7,500 from the Defence Research Board.

FACULTY ON LEAVE OF ABSENCE - 1968/69

Prof. Donald Clark, Department of Communication Arts.

Prof. Julius Krantzberg, Department of Engineering.

Dr. A. Kawczak, Department of Philosophy.

Prof. C. Schlacks, Department of History.

Dr. S. Russell, Department of English.

Prof. F. Sawyer, Department of Theology.

Prof. R. Wareham, Department of English.

FACULTY PROMOTIONS FOR THE ACADEMIC YEAR 1968-69

Dr. Margret ANDERSEN

Department of French Studies, promoted from Assistant to Associate Professor.

A. BARTHO

Department of French Studies, promoted from part-time Sessional Lecturer to full-time Instructor.

Rev. W. BEDARD, O.F.M.

Department of Theology, promoted from Assistant to Associate Professor.

L. BOYLE

Department of Business Administration, promoted from Lecturer to Assistant Professor.

R.T. COOLIDGE

Department of History, promoted from Assistant to Associate Professor.

C.G. GAGNON

Department of Communication Arts was appointed Artist in Residence with the rank of Associate Professor.

N.K. GOVIL	Department of Mathematics, promoted from Lecturer to Assistant Professor.
W. HUBBARD	Department of History, promoted from Lecturer to Assistant Professor.
Mrs. J. LEBENSOLD	Department of English, promoted from the rank of Instructor to Lecturer.
Mrs. A. LEVESQUE-STEIN	Department of History, promoted from part-time Sessional Lecturer to full-time teaching with the rank of Assistant Professor.
J. MACKRISS	Department of French Studies, promoted from Lecturer to Assistant Professor.
Dr. M. MALIK	Department of Communication Arts who held the rank of Visiting Professor, now becomes an Associate Professor.
G. MONGENOT	Department of French Studies, promoted part-time Sessional Lecturer to full-time Instructor.
Dr. J. MORGAN	Department of Philosophy, promoted from Assistant to Associate Professor.
S. NEILSON	Department of Engineering, promoted from Sessional Lecturer to Sessional Assistant Professor.
Dr. D. O'BRIEN	Department of History, promoted from Assistant to Associate Professor.
Dr. J.E. O'Brien, S.J.	Department of Communication Arts, promoted from Assistant to Associate Professor.
J. SABAT	Department of Mathematics, promoted from Lecturer to Assistant Professor.
Miss P. SALMON	Department of English, promoted from Instructor to Lecturer.
J. TASCONI	Chairman, Department of Sociology, promoted from Assistant to Associate Professor with Tenure.
Mrs. B. WARDY	Department of Classics, promoted from Lecturer to Assistant Professor.

DOCTORATES AWARDED DURING 1967-68

J. H. BAUER Psychology	University of Manitoba
D. BROWN Classics	University of Tübingen
P. DAVIES English	Yale University
J. HOFBECK Theology	Institut Catholique, Paris.
H. LADD Psychology	University of Windsor

FACULTY DEPARTURES 1967-1968

DR. G. ALLAIRE	Department of Music
R. BARBERIS	Department of Theology
DR. J. BENDER	Department of Sociology
T. BERNIS	Department of English
D. BONYUN	Computer Centre
W. J. CARROLL	Department of Economics
J. COSTA	Department of French Studies
DR. P. DAI	Department of Political Science
A. C. DECHENE	Department of Theology
G. FAYGEL	Department of Mathematics
REV. D. FOGARTY, S.J.	Department of Communication Arts.
K. FORD	Department of Physics
DR. J. KANE	Department of Sociology
MISS S. KURTH	Department of English
E. LEFEBVRE	Department of English
A. E. MacPHEE	Department of Physics
DR. J. McGOVERN	Department of History
E. MILNE	Department of Philosophy
DR. P. MINI	Department of Economics
A. MURPHY	Department of French Studies
MRS. M. PAVITT	Department of French Studies
E. RIOUX	Department of French Studies
J. T. ROONEY	Department of English
R. SIMMONS	Department of English
MRS. M. J. SIMS	Department of English
A. SMALL	Department of Political Science
DR. K. TAM	Department of Physics
G. VEELAND	Computer Centre

FACULTY DEPARTURES 1967-1968

DR. A VICAS	Department of Economics
MRS. Z. YOUSSEF	Department of French Studies
MISS D. ZABORSZKY	Department of English

GUEST LECTURES - 1967-68

Dr. Charles Adams, Director of Islamic Studies at McGill University spoke about this Institute in March 1968 - sponsored by the Political Science Department.

Professor William Alfred, Harvard University, delivered the Lahey Lecture in October 1967. Prof. Alfred is the author of Hogan's Goat, translator of the Agamemnon and of Beowulf.

Mr. Warren Allmand, M.P., gave a talk on "My Views on the Leadership of the Liberal Party" on March 27, 1968 - arranged by the Political Science Department.

Dr. Margaret Andersen, Department of French Studies, gave a lecture on Nellie Sacks - co-winner of the 1946 Nobel Prize for Literature - "Metamorphoses of the World."

Mr. J. A. Beesley, Head of the Legal Division of the Department of External Affairs, spoke on the "The Role of International Law in Foreign Affairs" in January 1968.

MR. Real Caouette, M.P., Leader of the Ralliement des Creditistes, lectured on "Canadian Unity" in December 1967 - sponsored by the Department of Political Science.

Mme. Claire Kirkland-Casgrain, M.L.A. for Jacques-Cartier lectured on "Canada United - Quebec at the Crossroads" in November 1967 - sponsored by the Women's Association of Loyola.

His Excellency S.K. Chow, Ambassador of the Republic of China to the U.N., lectured on "China After Communism" in December 1967-sponsored by the Department of Political Science.

Professor Maxwell Cohen, Dean of Law, McGill University, gave a lecture on "The Study and Practice of Law" - sponsored by the Guidance Centre.

Senator John Connolly, Government House Leader in the Senate, spoke on "Current Crisis in Canada" in March 1968.

Professor C.W. J. Eliot, University of British Columbia, spoke on "Athens-At the Time of Lord Byron" in March 1968 - sponsored by the Classics Department.

Dr. Gerald F. Fitzgerald, senior legal officer of the International Civil Aviation Organization and professor of Air Law at McGill University gave a Lecture on "Effectiveness in Decision Making in the United Nations: A Case Study" sponsored by Departments of History and Political Science in December 1967.

Madame Suzanne Labin lectured on "Some Views on South East Asia." She is the Author of fifteen books on the subject of her opposition to the development of Communism in the Free World. November 1967.

GUEST LECTURES - 1967/1968 continued

Ysepo Letlaka, a member of the executive Committee of the Pan Africanist Congress of Azanian Anti-Apartheid and Pro-African Nationalist Organization spoke in November 1967 on the current situation in South Africa sponsored by the International Affairs Society.

Dr. Alphonso Lingis, Associate Professor of Philosophy at Pennsylvania State University spoke on "Faces" - why it is we speak to a face - or how the 'other mind' is manifested in a face in February 1968 sponsored by the Philosophy Department.

Rev. Bernard Lonergan, S.J., author of Insight: A Study of Human Understanding, Collection, and other books in Latin and English, lectured on "The Absence of God in Modern Culture", in March 1968 - sponsored by the Dean of Arts.

Rev. Walter Ong, S.J., Professor of English at St. Louis University spoke on "The End of the Age of Literacy" in January 1968.

Prof. Roman Serbin, Professor at Collège Ste-Marie, spoke about "The place of Kievan Rus. in East European History - the problem of historical continuity" in March 1968 - sponsored by the Ukrainian Society.

Professor. Louis J. Shein, McMaster University gave two lectures on Russian philosophy in December 1967. The first "The Concept of the 'Unfathomable' in S.L. Frank's Epistemology" and the second dealt with key features in the development of Russian philosophic thought in the 19th and 20th centuries - sponsored by the Loyola Slavic Review.

Professor John Sirjanaki, State University of N.Y. at Buffalo, gave two lectures in March 1968. "Sociology of Cities" and "Theory and Research in Sociology".

His Excellency Pedro R. Suinaga, Ambassador of Mexico to Canada presented a Soccer Trophy to Loyola as one of the permanent athletic awards honoring Loyola Soccer players.

Dr. Samuel Terrien, Union Theological Seminary, New York City, a well-known Old Testament scholar and editor of "The Interpreter's Dictionary of the Bible", spoke on "The Mythical Language of Biblical Faith" in October 1967.

Dr. Raymond Thiry conducted a Seminar sponsored by the Computing Center on "The Electron-Microscope - Principles of Operation and Uses". March 1968.

Dr. Jaime Henao Uribe, Consul General of Colombia, lectured on "La Cultura Andina" in March 1968.

Dr. Jean Vanier, founder and director of a home for mentally retarded adults in L'Arche, France, spoke on "Love and the Conquest of Misery" in February.

Mme. Renée Vautelet, spoke in November 1967 on "A French Canadian Speaks on the Future of Quebec".

Dr. Noel Walsh, Psychiatrist, Mr. J. Nantel, President of Contact and Det. Sgt. J. Durocher, R.C.M.P., Narcotics Division, participated in a panel discussion on "Drugs - Use and Abuse" in February - sponsored by the Student Services Department.

Rev. T. White of St. James the Apostle Anglican Church, Mr. Stephen Hayes of the Presbyterian Church of St. Andres and St. Paul, Rev. B. Somfai, S.J., and a Russian Orthodox Priest participated in a Panel Discussion on "The Shape of Christian Unity Tomorrow" in January - sponsored by the Theology Department.

FACULTY PUBLICATIONS, LECTURES & LEARNED PAPERS 1967-1968

Dr. Margret ANDERSEN - Department of French Studies had Mécanismes Structuraux - méthode de français oral published by the Centre de Psychologie et de Pédagogie. It was written in collaboration with Prof. Huguette Uguay of the University of Montreal, co-author. Dr. Andersen also spoke on The theatre of Bertolt Brecht and introduced his play "Man Equals Man" at the University of Montreal.

Dr. S.N. BAGCHI - Department of Physics had his "General Remarks on Radial Distribution of Liquids" appear in Advances in Physics (Philosophical Magazine Supplement) vol. 16, no. 62, April 1967, p.307.

Dr. D. BROWN - Classics Department, spoke on "The Bronze Age in Crete and Greece" to the Montreal Society of the Archaeological Institute of America in Dec. 1967 at Sir George Williams University.

Prof. R.T. COOLIDGE - Department of History, had his review of Helgaud de Fleury's Vie de Robert le Pieux appear in the July 1967 issue of Speculum.

Prof. J. COSTA - Department of Modern Languages, had his "L'Etna Nella Visione Del Popolo" translated into French and published in Eragmus: Revue Internationale de Psychiatrie et Humanisme, Winter, vol. 1

Prof. K.S. DHINDSA - Biology Department, had two papers published in the Canadian Red. Biol. Soc. in 1967. "The Effect of Malononitrile dimer on neuronal RNA" and "Difference in incidence and severity of pyorrhea in mice fed different diets".

Prof. E. EGAN - Philosophy Department lectured on "Film and Aesthetics" to the faculty and students of Mount Mercy College, Pittsburgh, and again on "Pacifism: the Dynamics of Dissent" to the public at Spring Hill College, Mobile, Alabama. This was also published in Worldview, Sept. 1967. In Dec. '67 he finished a study project on The Christian Community. The study and summary paper "Perspectives on Christian Community" was commissioned by the University Christian Movement and funded by the National Council of Churches in the U.S.A. Prof. Egan acted as a resources person at the International Congress of the U.C.M. in Cleveland in Dec. 1967.

Dr. K. EKLER - Chemistry Department, lectured to the Department of Electrical Power Sources, Defence Research Board in Ottawa on "The Behaviour of Lead in Sulfuric Acid Solutions" and again at the Battery Seminar, Defence Research Board on "The Stability of Lead Oxide in Sulfuric Acid Solutions".

Dr. M. FAIERMAN - Department of Mathematics, had a paper on "The Completeness and Expansion theorems associated with the multi-parameter Eigenvalue Problem in Ordinary Differential Equations" appear in The Journal of Differential Equations.

Prof. N.K. GOVIL - Department of Mathematics, read a paper on "The Enestrom-Kakeya Theorem" at the 35th annual conference of the French-Canadian Assoc. for the Advancement of Science, held at the Univ. of Sherbrooke, Nov. 1967. This was later published by The Tohoku Mathematical Journal vol. 20, 1968.

FACULTY PUBLICATIONS continued

Dr. F. HAYES - Department of Economics, served as Economic Consultant for La Commission d'Enquête sur la Santé et le Bien-être Social, during the summer of '67, preparing papers for the Commission on "Aspects Financiers: a Comment", "Costs of Medical Care"; "Use of a surtax to finance Medical Care"; and "Some Reflections on Economics and Health". He was also co-author of "Le Finance et le Coût" and Les Effets Economiques de l'Assurance Maladie" which appeared in L'Assurance Maladie, Gouvernement du Québec, 1967.

Rev. C. HENKEY - Chairman, Department of Theology, gave a talk on "The Philosophical Aspects of Contraception" to the Loyola Students' Philosophy Club and a theological paper on Birth Control at a panel discussion on "The Pill" sponsored by the Loyola Arts Society. Two book reviews appeared in Theological Studies - one on "De la science à la Théologie; Essai sur Teilhard de Chardin" by G. Crespy and on "Freedom Today: Theological Meditations" by H. Kung.

Dr. R. HINNERS - Dept. of Philosophy, was one of three contributors to a composite book review of Leslie Dewart's "The Future of Belief: Theism in a World of Age". The review appeared in The New Scholasticism XL1, 3, Summer 1967, pp. 402-406. He also had "The Future of Belief: A Response", published in the Spring 1967 issue of Continuum and "Vietnam: Technology v Morality" appeared in Continuum, summer 1967, pp. 221-34. In 1967 Dr. Hinnners accepted the post of Associate Editor of Continuum. His "Death as Possibility" was published in the Autumn 1967 issue of Continuum, pp. 470-482; "The Challenge of Dehellenization" was published in The Future of Belief Debate, edited by Rev. Gregory Baum, (Herder & Herder 1967). In 1968 he was named Associate Editor of Internationale Dialog Zeitschrift (Wien, Freiburg, Basel). In March 1968 he participated in a Symposium on The Future of Belief at the University of Rochester with a paper entitled "Christian Faith and Secular Commitment". His book review of Dupré's The Philosophical Foundation of Marxism appeared in Theological Studies, March 1968. In the Winter 1968 issue of Continuum his "Metaphysics and Dehellenization" appeared.

Prof. E. JOOS - Department of Philosophy, had his article entitled "L'Actualité de Boèce de Dacie" published in Dialogue, Journal of the Canadian Philosophical Association.

Dr. A. KAWCZAK - Department of Philosophy, participated in a two-day Seminar on Youth and World Peace sponsored by the U.N. Club of John F. Kennedy High School. The Literary Supplement of Toronto's Polish Voice published his papers "Contemporary Philosophy & the Problem of Morals", April 1967 and "Scientism or Humanism?", part 1, July 1967, part 11, Aug. 1967. He read a paper on "A New Concept of Authentic Existence" at the 7th Inter-American Philosophical Congress in Quebec, June 1967; submitted a paper to the organizing committee of the International Congress of Philosophy to be held in Vienna, Sept. 1968 on "Empathy & Morality".

Rev. D.G. KENNEDY - Department of Theology, had his "Unity: a Roman Catholic's View" published in Living Church, vol. 156. no. 5, Feb. 1968.

FACULTY PUBLICATIONS continued

Prof. S. KUBINA - Engineering Department, submitted a report dealing with HF Communications System on the CHSS-2 Helicopter for the Dept. of National Defence Engineering Report released Dec. 1967 for DND circulation.

Dr. A. LAUZIERE, Chairman, Department of French Studies, published in collaboration with Dr. M. Tétu & Prof. Savard of Laval, under the direction of P. de Grandpré, Directeur des Arts et des Lettres (Dept. of Cultural Affairs, Quebec), "L'Histoire de la littérature du Québec", vol. 1, published by Beauchemin.

W. LONC S.J. - presented a paper entitled "Magnetic resistance in Boron to 100 Kilo gauss" at the Warsaw Boron Conference in June, 1968.

Dr. N.K. MAJUMDAR - Department of Mathematics had a paper accepted for publication by the Canadian Journal of Mathematics on "Spectral Properties of Matrices with Positive Characteristics Vectors" and has submitted another paper "On Certain Boolean Rings".

Dr. D. McDOUGALL, Chairman of the Department of Geotechnical Science, edited "Thermoluminescence of Geological Materials", published by Academic Press, May 1968. His Discussion of the Note "Anomalies in the Thermoluminescence of the Austin Chalk of Texas", Journal of Sedimentary Petrology, 1968 is in press.

Dr. J. McGRAW - Department of Philosophy, had an article published in The Futurist, Aug. 1957, entitled "Mellontology".

Dr. A. NEWELL - Department of English, was invited to submit an article to the Shakespeare Newsletter, published by the University of Illinois, summarizing the work of his doctoral dissertation on "Fate in Shakespeare's Tragic Art: A Critical Study of the early development".

Dr. T. NOGRADY - Department of Chemistry, presented a paper at the Rencontre Internationale de Chimie Therapeutique, Paris, France in July 1967.

Dr. D. O'BRIEN - History Department, has had his "American Catholics in an Age of Crisis" published in New City, (Chicago) Nov. 1967. His "The American Crisis and the Catholic Crisis" was published in the February 1968 issue of Catholic World. "American Catholic Historiography: a Post-Conciliar Evaluation" was published in the March '68 issue of Church History, pp. 80-94.

Rev. E. O'BRIEN, S.J. - Department of Theology, had his latest book "The Convergence of Traditions" published in Nov. '67 by Herder & Herder, N.Y.

FACULTY PUBLICATIONS continued

Rev. J.E. O'BRIEN, S.J. - Chairman, Department of Communication Arts, participated in a Seminar at Toronto's York Univ. which was broadcast over CBC-FM network. He delivered a paper to the seminar on "The Art of Communication". The seminar was organized by the Canadian Industrial Editors Association. He also conducted a probe of The Christian Pavilion at Expo for the annual meeting of the Montreal Association of Insurance Women. Fr. O'Brien participated in the 2nd National Conference on Labour-Management Relations, sponsored by the Economic Council of Canada, Ottawa; participated at a Symposium on "The Present Position and Future Development of Canadian Communications Research and Teaching" sponsored by the School of Graduate Studies, Univ. of Saskatchewan; took part in a colloquium sponsored by the World Assoc. of Christian Broadcasters at the Centre for the Study of Democratic Institutions, Santa Barbara, California. He was a speaker at the summer conference of the Ontario Secondary School Headmasters' Council, Ste-Adele, Quebec in Aug. '67 and guest speaker at a working conference of the Performing Arts and Technological Media, held at McGill and sponsored by the National Council of Churches of the U.S.A. He was critic for six Communication Workshops, sponsored by the Bell Telephone Co. of Canada for their vice-presidents in the Spring and Summer of '67; Fr. O'Brien was appointed ad hoc consultant for the Government of Canada, Ottawa, and guest speaker at an inter-faculty Seminar at McGill in Nov. '67. He participated in a panel discussion at the annual meeting of the American Marketing Association, directed a Seminar at the annual meeting of the United Church of Canada in Saskatoon and conducted a two-day Communication Workshop on Campus for 100 teachers of religion.

Dr. Desirée PARK - Philosophy Department, had an article on "Locke and Berkeley on the Moynaux Problem" published in Journal of the History of Ideas.

Prof. D. PORTER - Political Science Department, has an article on "Algerian Lessons for 'Counter-Insurgency'" published in Christianity and Revolution, May '67 and "Black Revolt and Vietnam" in Our Generation. His review of Humbaraci - "Algeria: The Revolution that Failed" was published in the Journal of Asian and African Studies, 1967. He participated in a panel concerning "The Role of the Military in Africa" at the International Students' Conference, Sir George Williams University, and presented a paper on "The Political Role of Workers' Self-Management in Algeria" to the Inter-University Seminar of Africanists in 1967.

Dr. S. RUSSELL - Department of English, had his "Self-Destroying Love in Keats" published in Keats-Shelley Journal, XVI, Winter 1967, pp. 79-91.

Dr. D. SAVAGE - Department of History, travelled on a Canada Council Grant to the 2nd International Congress of Africanists held at Dakar. En route he lectured on African themes at University College, Dar-es-Salaam and at Cambridge. He delivered a paper on "African Labour Unrest in Mombasa, 1939-1955" at the 52nd annual Conference of the Assoc. for the Study of Negro Life and History, at Greensboro, N.C., in Oct. '67. His article "The Irish Unionists 1867-1886" appeared in Eire-Ireland, vol. 2 no. 3, Autumn '67. In June 1968 he presented a paper on "Kenyatta and the Development on African Nationalism" to the Canadian Historical Assoc. at the annual meeting of the Learned Societies.

FACULTY PUBLICATIONS continued

Prof. J. SABAT - Department of Mathematics, had a note published in the Canadian Mathematical Bulletin entitled "Note on an Application of the S-Function in the Representation of Solutions of Algebraic Equations."

Dr. S. SANTHANAM - Department of Physics, had a paper on "Decay of Promethium 144 and Higher excited states in Nd. 144" published.

Prof. T. SRIVASTAVA - Department of Mathematics, had his "On an Integral Transform" appear in vol. 2, no. 1, of the Progress of Mathematics. He also read a paper on the same subject at the meeting of the American Mathematical Society in Chicago.

Dr. P. TOUPIN - Department of French Studies, had published "Saint-Simon" in Extrait du Cahier no. 11 de l'Académie Canadienne-Française.

Dr. K.K. TAM - Department of Physics, published "A Covariant Treatment of Relativistic Plasma Oscillations".

Dr. G. TRUDEL - Chemistry Department, spoke on "Information Retrieval" as part of a seminar held at Loyola in May '68. The seminar was co-sponsored by the Montreal section of the Chemical Institute of Canada. Together with Dr. Zienius he organized a seminar on "Separation Techniques" held at Loyola and sponsored by the Analytical Chemistry Division of the Chemical Institute of Canada.

Prof. R. WAREHAM - English Department, presented "The Earth is not just an ordinary Planet: Some Observations on Man and his World" to the Canadian Assoc. for American Studies in London, Ont. Nov. '67. He also presented a report on the experimental humanities program which is currently being offered in English 101, (Evening Division) to a Study Group on the Structure of the Discipline of English, at the Convention of the National Council of Teachers of English in Honolulu, Hawaii, Nov. '67.

Dr. R. ZIENIUS - Chemistry Department, was invited to serve as Moderator for a panel discussion on "Is there a need for analytical chemists as such?". It was held during the annual conference of the Chemical Institute of Canada in Vancouver. With Dr. G. Trudel he also spoke on "Information Retrieval" as part of a seminar co-sponsored by the Montreal section of the Chemical Institute of Canada and held at Loyola. Dr. Zienius also organized a seminar on "Separation Techniques" held at Loyola and sponsored by the Analytical Chemistry Division of the Chemical Institute of Canada.

REPORT OF THE VICE PRESIDENT, ADMINISTRATION

In addition to the financial statements found in a later section of this report, administrative departments which support the academic operation and development of Loyola are included in the report for the first time.

BOOKSTORE

This department serves the entire college community by stocking all required texts, a wide range of supplies and a large self-service paperback reference section containing over six thousand titles.

Its facilities have expanded three-fold in the last year with emphasis on the self-service paperback operation and a complete stock of stationery items.

DATE CENTRE

The college has an IBM computer with 20,000 locations of memory and punched card input/output and also a Univac 9200 computer with 8,192 positions of memory, 400 card per minute reader, 250 line per minute printer, and 75 - 200 card per minute punch. Also attached is a communications package enabling a Loyola-Computel System Ltd. connection for larger computing job requirements.

A teletype terminal is connected to McGill University's IBM 360/50 RAX conversational mode system. Four 026 Key-punch machines, a plotting facility, and thirteen Friden Model 132 electronic calculators are also included in the facilities.

This equipment permits multiple jobs for the Registrar, Evening Division, Development, Alumni and Financial Offices. Other departments may also use these facilities as required.

MAIL

From a small, incoming mail-sorting area, this department has grown into a large, internal mail-handling operation over the last three years. Its integrated services distribute and pick up all internal mail three times daily and process all incoming and outgoing mail for the entire college.

In addition to handling mail, this department offers an extensive photocopy service.

PERSONNEL

The year 1967-68 saw the inauguration of a Personnel Department at Loyola. Time was spent in up-dating and improving personnel files and records as well as systems of recruiting and placement.

While organization and orientation were the major preoccupations of the year, other considerations were weighed: 1) A wage survey and wage adjustment for all hourly paid staff, more competitive with similar institutions elsewhere; 2) Reduction of working hours of cleaning and cafeteria staffs, more in line with working conditions at other institutions; 3) Standardization of vacation allowances for hourly paid and salaried staff.

PHYSICAL PLANT

This busy department handles an average of thirty-five to fifty-five work orders daily for maintenance, alterations, renovations, or moving a variety of objects. The cleaning section provides regular house-keeping services for all eighteen college-owned buildings, on or off campus. The Grounds section handles snow removal, landscaping, grass-cutting and up-keep of vehicles.

Some of the major renovations carried out during the course of the year include the complete remodelling of the 6937 part of the Centennial Building, construction of offices in the Science Building,

major renovations in the Bryan Building and Central Building, relocation of the Bookstore facilities and preparation of office space throughout the whole campus.

In the course of the year, capital additions included the Bryan Building, new boilers, new electrical sub-station and reorganization of existing space to increase the number of classrooms by eleven.

PRINTING

This operation uses the latest offset duplicating equipment and has expanded its services to the administrative and academic community considerably in the last two years. The offset duplicating process is used because of its low cost, versatility and speed.

The printshop reproduces books, professors' notes, examinations, schedules, bulletins, transcripts and all letterheads and forms for administrative and academic departments.

PURCHASING

Functioning as a liaison between the college and outside suppliers, this department obtains quotations and prices, literature and product information, maintaining a library of catalogues for selection of products in all markets.

It assists in the control of all capital expenditures. It provides continuously up-dated information on budgetary approvals, orders placed and invoices received pertinent to each capital expenditure account.

The central purchasing system is designed to ensure the orderly flow of material and to reduce to a minimum the time spent by department heads in matters of purchasing.

SECURITY

The number of officers in the campus security force has doubled since 1966/67 enabling better attention to the multiple security tasks. The securing of buildings, checking parking permits, watching traffic flow, inspections of buildings on rounds and helping to restore articles lost or found have all contributed to efficient operations at Loyola.

APPROPRIATE TO THE

Expenditures for Land, Buildings,

Structures, Equipment and

Operating Expenses for the year ended June 30, 1968

REVENUE OF THE

Expenditures for the year ended June 30, 1968

REVENUE OF THE

The following figures are financial statements for the year ended June 30, 1968 and presented at the end of the report.

FINANCES

The year's financial results may be summarized in the deficiency of funds which increased by \$2,983,327 from \$1,664,421 on June 30, 1967 to \$4,647,748 as at June 30, 1968. Application and source of funds for the year follow:

APPLICATION OF FUNDS

Expenditures for land, buildings, furniture, equipment and library books	\$3,232,853
Mortgage Instalment	2,518
Interest on Loan	203,812
Excess of operating expenditure over income for the year	271,157
	\$3,710,340

SOURCE OF FUNDS

Transfers from the Development Fund	727,013
---	---------

INCREASE IN FUND DEFICIENCY	\$2,983,327
-----------------------------	-------------------------

The Auditors' Report and Financial Statements for the year ended June 30, 1968 are presented at the end of the reports.

A. Ferrari,
Vice President, Administration

REPORT OF THE FACULTY OF ARTS

The Faculty of Arts continues to be the largest on the campus. Statistics made available in December 1967 show that the Faculty has increased by 425% since 1961.

	<u>Arts I</u>	<u>Arts II</u>	<u>Arts III</u>	<u>Arts IV</u>	<u>Total</u>	<u>Increase over previous year</u>
1967-68	495	536	395	275	1701	17%
1966-67	529	445	297	188	1459	33%
1965-66	446	338	209	118	1111	42%
1964-65	345	223	118	97	783	36%
1963-64	229	143	107	92	571	13%
1962-63	189	131	97	100	517	29%
1961-62	136	111	109	45	401	

Neither the quality of teaching or curriculum has suffered during the rapid growth period. The variety of courses has more than tripled and the number of faculty members has now reached over one hundred and twenty from the thirty-one in 1961-62.

The fine work of the Faculty in teaching, research and writing continued and many Faculty members acted as consultants, speakers and panelists in addition to their responsibilities at Loyola. Outstanding teaching and research by Faculty was recognized through awards, grants and fellowships and some members continued their studies on sabbatical and special leaves of absence.

The Communication Arts Department established a Film Lending Library in cooperation with the National Film Board with an initial collection of 140 films. It also sponsored a Western Film Festival, a special film program on Marshall McLuhan and an Institute on the Teaching of High School Religion. Communication Arts students, directed by Dr. Malik, completed a research project on Expo '67 and others worked with Prof. Gagnon on a 16mm. film.

The Economics Department held its Third Annual Symposium with the theme "Canada and the Gold Crisis". Distinguished participants included Novelle Richards (Eastern Caribbean Commission), Dr. Moin Baquai (Pakistan Planning Commission), Prof. Douglas Dows (Cornell) and Jorge Bravo (International Bank for Reconstruction and Development). Economics professors continued to support the Economics Honor Society as guest speakers and panelists.

The English Department sponsored its annual Lahey Lecture with a presentation by Prof. William Alfred (Harvard) on Beckett's Waiting for Godot for English professors of all the colleges and universities in Quebec.

First year English students wrote, edited, designed and produced the art work in "Book: poetry and prose by the students of english 101" with some advice from Prof. Barbara Jack.

The French Studies Department installed a second language laboratory. Modern Languages will have its own chairman next year and an improved and expanded curriculum with courses in Russian and linguistics being offered for the first time.

The Political Science Department continued its active life outside the classroom, sponsoring many public lectures by guest speakers. The Department plans to concentrate on an expansion of its Canadian studies program in the coming year.

The Sociology Department also invited guest speakers to address well attended groups on the campus.

The Fourth Annual Contemporary Theology Institute was sponsored by the Theology Department under the chairmanship of Rev. E. O'Brien, S.J. Eminent theological scholars participated in the discussions on "New Ways in Theological Ethics."

Loyola is one of the Montreal regional representatives on a panel of the Consultation of Theological Education in Canada being conducted by the Ecumenical Institute of Canada.

Contact has been made with the Montreal Catholic School Commission to discuss plans for meeting the needs of teachers of religion.

The Center for African Studies is now separated from the History Department under its first director, Dr. Donald Savage.

A Department for Interdisciplinary Studies was approved by Senate with the Dean of Arts as Chairman. This will allow for the cross appointment of faculty members and development of interdisciplinary courses. The first of these, a course in Social Change will start in the next academic year.

Space for classrooms, labs and general use continues to be a serious problem. The Bryan Building opened with 17 classrooms in November 1967, but space is still at a premium and far from adequate.

The possibility that Loyola might be expected to house some of the English CEGEP (Collège d'Enseignement Général et Professionnel) students has necessitated a re-examination of plans for the future within the framework of this new provincial education plan. This examination has fostered closer contact between Loyola and other colleges and universities in the province as well as with the authorities in the Department of Education. In addition, many faculty members

have participated in the preparation and examination of proposed CEGEP curriculum.

The coming year should see the acceptance of terms of reference for Department Chairmen, new interdisciplinary courses, increased awareness by faculty of new possibilities in the areas of curriculum, teaching and administration and greater participation by students in academic affairs at all levels.

G. MacGuigan, S.J.
Dean of Arts.

In addition to the four full-time professors, the Department has eleven Chartered Associates as lecturers in the Day and Evening Divisions. Ten additional full-time teachers have been hired for the coming year.

With the addition of two full-time faculty posts by the strength of this Department is now seven. This increase will facilitate a continuous planning of courses in General Education, Business Administration, Human Development, Management, Quantitative Research, Marketing and Marketing Research.

Over the past several years the Department has been working to develop a biological program and the addition of a new program in the Department of North American Studies. The Department has been working to develop a program in the Department of North American Studies. The Department has been working to develop a program in the Department of North American Studies.

RESEARCH - DAY DIVISION

	1966-67	1967-68
Course 1	100	100
Course 2	100	100
Course 3	100	100
Course 4	100	100
Course 5	100	100
Course 6	100	100
Course 7	100	100
Course 8	100	100
Course 9	100	100
Course 10	100	100

RESEARCH - EVENING

There are 12 students in the Evening Division of the Department of North American Studies. The Department has been working to develop a program in the Department of North American Studies.

REPORT OF THE FACULTY OF COMMERCE

During the 1967-68 academic year, the Faculty of Commerce by its rapid growth became the second largest English-speaking Faculty of Commerce in Montreal. Although the Economics Department is considered to be part of the Faculty of Arts, it has co-operated fully in our program which includes an honours and major in Economics. In this respect, appreciation should be voiced to the other disciplines that have rendered outstanding services to the Faculty.

PERSONNEL

ACCOUNTANCY DEPARTMENT: Professor R. L. McGraw, Chairman.

In addition to the four full-time professors, the Department has eleven Chartered Accountants as instructors in the Day and Evening Divisions. Two additional full-time teachers have been hired for the coming year.

BUSINESS DEPARTMENT: Professor J. R. Hanrahan.

With the addition of two full-time faculty members, the strength of this Department is now seven. This increase will facilitate programme planning of courses in Control, Production, Human Relations, Finance, Investment Management, Operations Research, Marketing and Marketing Research.

CURRICULUM

Curriculum underwent constant revision, bearing in mind new technological changes and the expansion of Commerce programmes throughout North America. In the United States, one out of every four students is participating in a Commerce programme while in Canada the ratio is one out of seventeen.

ENROLMENT - DAY DIVISION

	<u>1967-68</u>	<u>1966-67</u>				
Commerce 1	202	169				
Commerce 2	128	121	Majors in Accountancy, Business & Economics			
Commerce 3	105	98	"	"	"	"
Commerce 4	<u>79</u>	<u>60</u>	"	"	"	"
	<u>514</u>	<u>448</u>				

This represents a 15 percent increase.

EVENING DIVISION

There were 324 students in the Faculty of Commerce in 1967-68 in comparison with 282 students in 1966-67.

GRADUATES - DAY AND EVENING DIVISION

1967-68 May and October (estimated) 90

1966-67 May and October 73

NEW MAJOR IN BUSINESS ADMINISTRATION

The Department has attracted a well qualified faculty, many of whom are specialists. An increasing number of Commerce students are being attracted to this new Department.

COMMERCE STUDENTS ASSOCIATION OF LOYOLA

In 1967-68 this student society showed leadership in extra-curricular activities and again received the L.M.S.A. Trophy for the outstanding association on campus. Among the outstanding activities of this group during the past year were:

BUSINESS EXPOSITION (Careers Day)

COMMERCE NEWS PUBLICATION

GRADUATE EMPLOYMENT ANNUAL

INVESTMENT CLUB

POLICY CHANGES DURING THE YEAR

- 1) With the approval of Senate, the Faculty of Commerce further reduced compulsory courses. It now requires a minimum of two courses in Theology and two in Philosophy.
- 2) The grading procedure was changed to conform to that of the Faculty of Arts. This change will greatly assist in the standardization and efficiency of the Faculty of Commerce.
- 3) Effective in 1968-69, supplemental examinations will be eliminated in all disciplines under the control of the Faculty.
- 4) All full-time members of the Faculty of Commerce are now located in the Cloran Building, Sherbrooke Street West.

CONCLUSION

This past year has been very challenging to the Faculty. Great strides were made in all spheres of education. Considering that this faculty has been in existence for only eighteen years, its impact has certainly been felt on the campus of Loyola of Montreal.

L. Bessner,
Dean of Commerce.

REPORT OF THE FACULTY OF ENGINEERING

STUDENT AFFAIRS

1. Students were enrolled in about equal numbers in Years One, Two and Three. The curricula of these classes was effectively the same as that of the new Engineering Program to be introduced in September 1968.

The promotion rate in the final examination was about 90% in each of the three classes.

2. The Academic Awards night was held in October at which those students who had transferred to other engineering schools at the end of the Third Year were guests of the Engineering Undergraduate Society and its members.

3. The Engineering Undergraduate Society held a buffet lunch in March. Students, staff of the Faculty, and Deans and Chairmen from other Faculties were warmly addressed by the President.

STAFF

Messrs. Kaufman and Krantzberg have been granted leaves of absence for 1968-69 to study for advanced degrees.

Mr. S. A. Neilson has been promoted to Assistant Professor.

Professor Kubina was appointed Chairman of the Computing Center Committee to replace Doctor T. Nogrady of Chemistry who left on leave of absence in February.

Mrs. B. Moore, Secretary of the Faculty, resigned in January due to ill health. She was indefatigable in helping to carry out the plans of the staff, a confidant of the students and a right-arm to the Dean. She has now recovered a great measure of her vigor. Mrs. M. Hurtubise who has replaced her is carrying on in the same tradition as Mrs. Moore and Mrs. Parke.

SPACE

The junior draughting room was moved to the ground floor of the Central Building. The class-rooms remaining in that area are to be converted to an additional Electronics Laboratory and a Soils Mechanics Laboratory. Effectively, the whole ground floor has been assigned to Engineering and all of its facilities are now consolidated there.

DONORS

Mr. A. K. Velan of Velan Engineering, a Governor of Loyola has undertaken to present personally a course in the Planning and Technology of Production in Manufacturing which will provide students with a first-hand introduction to space-age industry.

PROGRAM

With the approval of Senate, Loyola will offer the first four year of a six-year program in engineering, culminating in the award of a Master's Degree. Those completing Loyola's portion of the program will be awarded a B.Sc. While the program then continues for two more years in another engineering school, those who do not choose to continue will be prepared to enter industry at a technological level just short of professional. Even the latter will be within the reach of those who do not go on to graduate school, provided they write two or three examinations of the Provincial licensing bodies.

Considerable flexibility is built into the new program. The options offered are, Chemical, Civil (Design), Electrical (Design), Electrical (Computation), Mechanical (Design), Mechanical (Industrial), Mechanical (Administration). Fortunately, since many existing courses in other Faculties will be utilized, new staff requirements will be held down. Moreover, much of the capital equipment for the purely engineering courses is already owned by the Faculty, and hence here too, expense has been minimized.

Since the staff has been planning this program for several years and introducing it in the lower years during that time, it will be possible to commence all four years of it simultaneously in September 1968.

G. W. Joly,
Dean of Engineering.

REPORT OF THE FACULTY OF SCIENCE

STUDENTS

Enrolment in the Faculty of Science for the current year was as follows:

Biology-Chemistry	240 (30 Honors)
Chemistry	166 (40 Honors)
Geotechnical Science	20
Mathematics	113 (30 Honors)
Physics	78 (27 Honors)
Freshmen in common science program	294

The Science Faculty graduated one hundred and eight students on June 1st, 1968; seven of these received their instruction in the Evening Division.

Mr. Terrence Cherry, Department of Physics, was awarded the coveted Centennial Scholarship of the National Research Council. Miss Anne Ryan won top honours in Chemistry.

At the time of writing, 22 students have been accepted by various universities for advanced studies and about 15 others are considering graduate work.

The Science students were active during the year in various student societies. For example, Biology students have both a pre-medical fraternity (Phi Lambda Rho) and a pre-medical, pre-dental society (PMPD); the Chemistry students a chapter of the Chemical Institute of Canada.

CURRICULUM

The Biology-Chemistry major, designed primarily as a pre-medical course, is being phased out. The sophomore class of this course (both Arts and Science) was given for the last time this year. The Biology major, which will include students intending to enter the medical profession, will begin next year for second year students. The Biology half course (an elective) given to freshmen for the first time this year will be helpful to students intending to follow the biology major.

The other half course electives in freshman are Geotechnical Science and Mathematics. The Faculty felt that these second term electives would assist the Department of Biology and Geotechnical Science to introduce their disciplines to interested students.

The current year saw the introduction of General courses in several departments of the Science Faculty as approved by Senate. This program offers a seven course concentration in a particular discipline and yet are less rigorous than the corresponding Major program. Departments such as Chemistry, introduce them simultaneously in each of the three upper years; other departments decided to begin the courses on a progressive basis.

In previous years, our students registered in Geotechnical Science were required to attend the McGill Field School which was held in May at Sutton, Quebec. This year the Geophysics Field School and the Geology Field School were conducted by Loyola at Knowlton, Quebec.

FACULTY

Ten new members were added to the Science staff last year; this number included five assistant professors, four lecturers and one senior Laboratory Assistant.

The staff in the Science Faculty now stands as follows:

Physics	9 full time professors 1 part time professor 2 research assistants 2 technicians
Geotechnical Science	3 full time professors 3 part time professors 1 research assistant
Mathematics	15 full time professors 4 part time professors
Biology	3 full time professors 1 part time professor 3 lab technicians (1 part time)
Chemistry	8 full time professors (including the Dean) 2 part time professors 1 lab instructor

Dr. Nogrady, Chemistry Department, began a six months Sabbatical Leave in March. He is working at Cambridge University.

FACULTY RESEARCH

The majority of the members of the Faculty have been actively engaged in research work. Many have grants from such bodies as the National Research Council of Canada and the Defence Research Board; others are assisted by industrial research and by grants from Loyola College.

SPECIAL ACTIVITIES OF STUDENTS AND STAFF

The Students conducted an interesting "Open House" in March. All departments were involved and a real effort was made to attract the parents and friends of the students as well as the general public.

The Chemistry Department sponsored a special symposium on "Information Retrieval" in April under the active Chairmanship of Drs. G. J. Trudel and R. Zienius. The symposium was conducted by Mr. J. W. Cherry of Imperial Oil Limited, Calgary, Alberta, and was attended by 40 selected applicants on a restricted basis.

SPACE

The Geotechnical Science Department has opened a new microscope lab, with a capacity of 11 students, in the Bryan Building. They have converted their General Utility Lab to a Mineralogy laboratory with facilities for 14 students.

The Biology Department has been assigned space in the Bryan Building including an Audio Visual Lecture Theatre, two laboratories, equipment rooms and offices.

The former faculty lounge below the Science Library has been divided into faculty offices.

It should be noted that in certain areas the Drummond Science Building is becoming crowded; this is particularly true for the Biology Department and for office and research space for staff.

A. J. GRAHAM, S.J.
Dean of Science

REPORT OF THE EVENING DIVISION

On January 3rd, 1968, Mr. H. Charbonneau, the former Director, assumed new duties as Directeur, Promotion Culturelle at the Université de Montréal and Douglas J. Potvin was appointed Director of the Evening Division of Loyola College. New procedures for upgrading the quality of instruction were introduced and plans formulated for the introduction of new courses with the implementation of a promotional campaign aimed at greater involvement of the Evening Division in the educational requirements of the total community.

The staff - in addition to the Director - includes six full time and two part time personnel. Office hours were extended so that a staff member is always available until 9:00 p.m. on weekdays for consultation with students.

New application forms were developed so that more efficient use of the Computing Centre could be made. Students registering for the Summer Session '68 will use these application forms for the first time. Eventually all information will be programmed and readily available through the computer. A new registration form has also been printed. As a result, all information regarding the student will be on the application form and academic information on the registration form. Registration procedures will be expedited as a result of the new forms. Work is underway on the revision of other forms to achieve more efficient handling of routine information.

Measures were taken to ensure greater responsibility on the part of professors with respect to attendance at class. There was some evidence that students were not being notified when their class was cancelled, with the result that morale among the students was low. Arrangements were made with Radio Station C.J.A.D. to announce all cancelled classes at 5:45 p.m. each evening. The number of cancelled classes decreased remarkably and the Evening Division received inestimable advertising value from these announcements. For the Summer Session, all faculty appointments were approved by Department Chairmen. By this method, the quality of teaching should maintain the excellence to which the students are accustomed.

Six non-credit courses were scheduled for the Summer Session '68. The introduction of these courses is the first phase in the general development of a non-degree program. There is a very strong feeling that the Evening Division can provide more educational services to the total community than it has been doing in the past. In-service courses for teachers, business personnel and technicians have already been planned. Courses for laymen whose interest lies in a specific subject such as public speaking, debating, journalism, art, music, etc. have been investigated. Plans have been completed to provide off-campus courses to teachers and nurses.

With the announcement by McGill University of the inauguration of a Department of Continuing Education, further responsibilities are placed upon the Evening Division for providing a complete curriculum. A greater amount of promotion through advertising and personal contact will be necessary to foster the growth of the Evening Division. While expanding the non-credit courses, the degree program must be consolidated and maintained.

During the past year, in the Faculty of Arts, Majors were offered in Economics and Political Science and a Major in History will be offered, beginning in the 1968 Summer Session. In the Faculty of Commerce, Majors are offered in Accounting, Business and Economics. The new program in Science was introduced and the current program will be phased out during the 1968 Summer Session.

A classification of Special Students was approved by the Evening Division Committee to strengthen the academic requirements for Qualifying Students and provide a category for those who do not meet the requirements for a Qualifying Student. The intention is to classify students as "Qualifying" if they require only a short time to meet all degree status requirements and to provide a longer period of adjustment for those who are on probation. When a student cannot meet the requirements of a Probationary Student, then he must withdraw from the Evening Division.

By definition:

Probationary Students are those whose academic background indicates that a more prolonged period of serious study is necessary before degree status is granted. Probationary Students will be changed to degree status when 12 full credits are amassed after having registered in no more than 17 courses or after an appeal to the Evening Division Committee. Qualifying Students are those who intend to proceed to a degree but who, at the time of registration, do not meet all of the admission requirements. Qualifying Students will be changed to degree students when 5 of the first 6 courses for which they register have been passed and they will receive credit for all courses successfully completed. Qualifying Students may be changed to Probationary Students if they do not pass 4 of the first 6 courses for which they register.

A Scholarship and Bursary Committee was formed and meetings were held to formulate plans for its immediate implementation. The proposal was initiated by the Evening Division Students' Council and \$300.00 was provided for scholarships and bursaries. It was further suggested by the Executive of the Students' Council that a one dollar activity fee be charged to each student during the Summer Session and that this total amount be made available for scholarships and bursaries. A committee consisting of the President of the Students' Council, the Dean of Students, one professor from the part-time Evening Faculty, one professor from the full-time faculty, one representative from the Alumni

Association and the Director of the Evening Division met and agreed upon the general regulations for providing scholarships and bursaries. The proposals will be implemented immediately and the first scholarships and bursaries will be offered during the 1968 Summer Session.

D. J. Potvin,
Director, Evening Division.

REPORT OF THE REGISTRAR

Mr. John Noonan, B.Sc. was appointed Registrar in May 1967 to replace Rev. G. W. Tait, S.J. who was granted leave of absence for further study. Prior to his appointment, Mr. Noonan had served as Assistant Registrar.

The increasing demand for information about Loyola and about higher education in general led to the appointment of Mr. Mark Allen and Mr. David Mullington to expand the liaison program between Loyola and the Montreal area high schools as well as meet the increased demands placed on the Admissions Office.

INTERNAL ORGANIZATION

In order to maintain a high level of services to the rapidly growing Loyola Community, the Registrar's Office recognized the need to utilize more fully the experience and competence of its staff. In April, 1968 a Staff Committee was formed and charged with the responsibility of recommending office policy and procedures to the Registrar. The members of the Committee will be rotated periodically in order to give each employee the opportunity to participate in the planning and decision-making processes.

COMMUNICATION AND GROWTH

Increased growth in terms of enrolment and buildings has made it impossible to communicate vital information to students via the Registrar's bulletin board. With the co-operation of the editor-in-chief of "Loyola News", the Registrar's Office released several bulletins through the "News". The results warrant further exploration in this area.

ADMISSIONS

The Admissions Office reported that as of March 1, 1968, the number of applications for admission to Loyola College had doubled that of the same date in the previous year. This was due in large measure to the early and successful completion of the high school visits programme by Admissions Office personnel and the early distribution of application forms, brochures and posters. The increased interest of the Montreal Community in Loyola College was undoubtedly a contributing factor.

The large number of high school graduates who join the labour force rather than enter university prompted the Admissions Office, with the co-operation of the Evening Division, to make Loyola College better known within the industrial community. Letters were sent to

manufacturing, financial and service institutions in the Montreal area outlining a programme called "Opportunities in Higher Education". Approximately four hundred posters illustrating the opportunities available at Loyola College to potential students were distributed to firms which had agreed to cooperate in this effort. The response from the industrial community was greater than anticipated and leads us to believe that this project should be continued.

J. W. Noonan,
Registrar

REPORT OF THE CHAIRMAN OF THE LIBRARY BOARD

The problems and strains of growth of the Library during the year 1967-68 are a reflection of the demands which the development of Loyola of Montreal places on what has been described as "the heart of the University". One obvious strain derives, of course, from the growing student enrolment and the necessary increase in teaching staff, new departments and areas of research leading to a parallel demand for more library materials. But this increase in student population is only a part of the problem facing library development. In the past undergraduate instruction was supported mainly by text-books bought by the students, supplemented by a College Library consisting of standard works and a collection of reference books. This type of library has become decreasingly applicable to university education in an age of rapid change when there has been an information explosion in many fields of knowledge. New teaching methods require the student to undertake more independent study and research and the standard text-book used as a method to convey information has been replaced by reading lists of material which the student can only obtain in the Library.

The building of the Vanier Library in 1964 and the yearly increase in the size of the Library Budget since that date are a recognition of the changing role of the Library and represent an attempt to make up lost ground in library development. In 1966-67 the total library expenditure was \$282,000 with \$114,000 allocated for books and journals. The corresponding amounts for 1967-68 were \$362,093 and \$154,227. Nevertheless, this increase did not match the recommendation of the Canadian Association of College and University Libraries (C.A.C.U.L.) in their brief to the Bladen Commission (1964): that "10% of the institutional operating budget be considered a minimum for the ordinary operation and development of established libraries". In the most recent examination of Canadian libraries by Robert B. Downs, Resources of Canadian Academic and Research Libraries 1967, it was stated, "A College or university library which spends less than \$150 per capita, based on full-time student enrolment, is probably receiving substandard support." Loyola's expected per capita expenditure did not reach this figure in 1967-68 and its actual per capita expenditure will probably be lower than those of the past two years. The sudden financial crisis faced by Loyola in December 1967 required a restriction on spending for library acquisitions which had not been lifted at the time of writing this Report. This check on library growth at a time when new courses and areas of studies were being introduced meant that much of the library material necessary was not available for teaching purposes. Clearly, this type of financial restriction can only be deplored for it places an unnecessary burden on the teaching staff and students and prevents the steady growth of library facilities.

One of the major tasks of the Library Board is to assist the Librarian in the preparation of the Book Budget for the forthcoming year, using the information supplied by the departmental heads and the Librarian.

When this Budget has been approved by the College authorities, it is the Board's responsibility to allocate to each department its portion of the Budget. The first task has been completed by the Board but until the extent of Government operating support has been announced, the amount of money available for book and journal purchases in 1968-69 cannot be determined. This financial uncertainty has prevented any degree of planning for the purchase of books and journals in the next academic year and places in jeopardy new areas of study and library growth. It is to be hoped that the present temporary financial situation will soon be settled and the Library will be able to continue its past pattern of growth so essential in the development of Loyola of Montreal. This rather bleak picture of the Library in 1967-68 does have some shafts of light. In 1965 a Report of the University Library Standards Committee (C.A.C.U.L.) suggested that 100,000 volumes should be regarded as a minimum for the support of undergraduate education. In May 1968, the Loyola Library collection reached 108,000 volumes - a tribute to the past pattern of growth mentioned earlier in my Report.

During February 1968 the Library Board held its first open meeting to which all faculty members were invited. The purpose of the meeting was to promote an exchange of ideas and problems between the Librarians, Board and teaching staff. The major issue raised at the meeting was the length of time between the ordering of books by faculty and the arrival of the books on the Library shelves. The average length of time at Loyola is between 2 to 6 months and this compares favourably with other institutional libraries. This time-lag has been a constant source of dissatisfaction among faculty members and efforts have been made by the library staff to speed-up the process. Department Heads designing new courses should be aware of this time-lag and plan their book orders so that the ordering department of the Library can deal with the orders some months before the beginning of the new academic year.

It is regrettable that this year has been a difficult one for the Library but it should be recognized that the size and quality of its collection has changed appreciably over the past four years. Assuming the Library receives the attention and financial support that has been a feature of the development of Loyola in the recent past, there is every reason to be optimistic about its ability to serve the academic needs of both faculty and students in the future.

R. Coyte,
Chairman, Library Board

REPORT OF THE CHIEF LIBRARIAN

GROWTH OF THE COLLECTION

During the academic year 1967-68, acquisitions and gifts amounted to approximately 14,500 volumes. This compares favourably with the 13,000 volumes acquired in year 1966-67. This rate of growth has been achieved by processing about 2,000 volumes of gifts accumulated in previous years.

The number of additional volumes made available for use amounted to approximately 17,000. This includes microfilm copies of early English books which are not accessioned separately. It also includes previously accessioned material which had been included in the collection more than five years ago but had not been completely processed.

The actual number of new books purchased in 1967-68 was less than in the previous year, due to financial difficulties. These difficulties prevented the complete utilization of the book budget.

PUBLIC SERVICES

(a) ORIENTATION PROGRAM

The orientation program of the previous years continued. It is hoped that the Library Handbook will be again revised in the coming academic year. The New Student Library Card issued to the students proved to be highly successful. It helped to control circulation procedures and was very helpful in the enforcement of discipline.

(b) DISCIPLINE

Student discipline improved considerably compared to the previous year. The altered shelving arrangement in the stack area contributed considerably to more efficient supervision. The suspension of library privileges proved to be an effective deterrent in disciplinary cases. Co-operation with faculty members and student leaders also had a moderating effect on the student this year. However, in spite of the improved situation the results could only be called "tolerable". The large number of lectures and meeting held in the library made it very difficult to achieve a proper "library atmosphere."

(c) CIRCULATION DEPARTMENT

Compared with the previous year, circulation increased 19% from 53,000 books in 1966-67 to 63,000 books in 1967-68. The average book

circulation per student increased only slightly (19.4 in 1966-67)- (20.0 in 1967-68). Due to shortage of staff the Department experienced considerable difficulties during the year. It is hoped that suggested additions to the staff will alleviate these difficulties.

(d) REFERENCE DEPARTMENT

In September 1967, the Department published the first issue of Reference Works in the Georges P. Vanier Library as of July 1967: An Alphabetical Author/Title Bibliography, with Author, Editor, Title, Subject Index. At the end of the Academic year Supplement A: August 1967 to April 1968 was published which incorporated the 552 new titles acquired during the school year. This publication proved to be very popular on the campus. During the year interlibrary loans increased 32% from 680 in 1966-67 to 900 in 1967-68. This amounts to four requests on any working day. The Department assembled displays on the following:

Saint Patrick

Rt. Hon. Vincent Massey

Rt. Hon. Georges Philias Vanier

Dr. Martin Luther King, Jr.

Cecil Day-Lewis (newly appointed Poet Laureate)

Tibet

Canadian Publications purchased under the Centennial Fund.

Flag of Saint George

Publications of Loyola Faculty, a permanent display, continued to be very popular.

At the beginning of the academic year the Department conducted a seminar on library research for advanced philosophy students.

TECHNICAL SERVICES

(a) ORDER DEPARTMENT

All orders requested by the faculty have been processed. However, many of the orders will be sent out to the dealers only in the 1968-69 fiscal year, owing to financial difficulties.

(b) CATALOGUING DEPARTMENT

Compared with the previous year, the number of volumes catalogued in 1967-68 increased 30% to 17,000 books. About 60% of the D'Arcy McGee collection has been catalogued and made available for use.

(c) SERIALS DEPARTMENT

During the year a complete holding list of serial publications has been compiled by the Department.

(d) BINDING

In 1967-68, 3,000 volumes of serials have been bound which is an increase of 28% over the previous year. About 3,000 paperbacks were sent for permabinding. The physical condition of books and periodicals received continues high priority.

SCIENCE LIBRARY

The critical shortage of study and shelf space was further aggravated by the loss of a storage room in the basement. Back issues of serials of many titles had to be moved to the main library in order to alleviate the space situation. This move will be detrimental to the general efficiency of the Science Library.

GIFTS

Numerous gifts were received by the library in 1967-68 for which grateful acknowledgements are tendered. The generous donors are too numerous to mention. However, a few of the most noteworthy are : T.P. Slattery, Q.C. who donated a bronze plaque of Thomas D'Arcy McGee and various other holdings to the D'Arcy McGee Room, and two prominent Jewish Organizations, namely: Hadassah-Wizo Organization of Canada, and the Jewish Chatauqua Society.

EVENTS

During the year the Library participated in the preparation of the Downs Report.

The Chief Librarian attended the "Libraries for Tomorrow" Conference in Montreal.

The Reference Librarian attended a "Conference on Automation" sponsored by the University of Montreal.

The graduating class from the School of Library Science at the University of Ottawa visited the Library and was addressed by the Chief Librarian.

A course of Lectures was given by the Deputy Librarian to the Catholic High School Librarians of Montreal.

Miss Nora Robins, Head Cataloguer, received her M.L.S. degree from McGill Library School at the Spring Convocation, 1968.

Chief Librarian

REPORT OF THE DEAN OF STUDENTS

Student activism, if understood as greater participation in the total life of university, was eminently present on the Loyola campus. The past student government, through outstanding leadership and negotiations, gained representation on the college Senate, increased representation on the Committee of Student Life, and almost every other committee and council that affected the academic and non-academic life of the student.

At no time did the administration and the students approach anything that resembled confrontation. In the firing of staff members the students were consulted and incoming personnel were in fact interviewed by student groups. This, while time consuming, proved highly successful. The greatest area of concern was in the athletic area where there still remains confusion concerning control of finances and the sponsorship of what is generally considered an educational adjunct. Although we had a rather outstanding effort by the Athletic Department, this area will always remain subject, not only to criticism, to the slings and arrows of self appointed experts whose numbers are legion. The student government itself, although healthy, experienced considerable economic reverse, a great deal of which can be attributed to lack of proper financial control. It is becoming clear that the exacting demands of financial control demand the existence of a full time employee. The student body under the brilliant leadership of Graham Nevin prepared a march on the Quebec Government to protest financial inequities which were threatening the very existence of Loyola College. Many people feel reasonably certain that the student participation in this vital problem of finances was chiefly responsible for a speedy and salutary resolution of the problem by the Department of Education.

Great efforts were made by the student government, not only in the planning of a student union, to acquire the necessary finances. The increased enrolment has indicated the need of proper eating and lounge facilities. Present food facilities are not only too small in size, but hardly suitable to the dignity of man.

Rev. G. McDonough, S.J.
Dean of Students

REPORT OF THE CHAPLAIN

PERSONNEL:

Chaplain: Rev. John S. O'Neill, S.J.

Assistant Chaplain: Rev. A. Nelson, S.J.

Besides the Chaplains, the following priests offered Mass, and spoke on Sundays:

Very Rev. P.G. Malone, S.J. President

Fr. Konlup

Fr. Sherry, S.J.

Fr. Somfai, S.J.

Fr. Ryan, S.J.

Fr. J. O'Brien, S.J.

Fr. Browne, S.J.

Fr. McDonough, S.J.

Fr. Gervais, S.J.

Fr. Brzezicki, S.J.

The Chaplains concern themselves mainly with liturgical functions, the sacramental life of the students, and making themselves available for counselling.

LITURGY

Each day Mass was offered in the Main College Chapel at 12:05. In the beginning Mass was offered at 1:05 p.m. but because of extremely poor attendance, this Mass was dropped and a Mass at 5:00 p.m. at Hingston Hall was added. Daily Mass was offered at 8:00 a.m. at Hingston Hall; and once a week, Mass was offered at the Chapel in the Science Building. Confessions were heard each day during Masses at the College Chapel. Attendance at the College Chapel morning Mass was lower than last year's. Attendance at the Hingston Hall Masses averaged about ten for each Mass.

Each Sunday, during the school year, a University Mass at 11:15 a.m. was held in the College Chapel. Attendance at these Masses was between 300 and 400 each Sunday. Many outsiders attended although most of the congregation was from the College community - students, faculty and friends of the College. Folk Music, under the direction of Michael Czerny, was included in these Masses and occasionally, Fr. Browne with the Loyola Brass Quintet would play before and after Mass. In the latter part of the year, the Scholastics were of considerable assistance with the music.

Great efforts have been made at these Masses to foster participation by the congregation and to make the Liturgy meaningful to the College community. We admit some success, but still greater effort is needed to make the Liturgy relevant to the students.

On a few occasions, professors took part in the Homily, a practice which we hope to extend to other departments next year. Three professors who spoke this year were Dr. David O'Brien, Dr. Henry Habib and Professors E. Egan.

Voluntary contributions of \$1900 at the Masses was distributed to worthy causes in Canada and throughout the World.

A special Mass was celebrated for Armistice Day. On March 12th, Mass was offered for Founder's Day. On November 1st and December 8th, holy days of obligation, three Masses were arranged for the students and were well attended.

COUNSELLING

Priests available as Counsellors on Campus were Frs. O'Neill, Nelson, Konlup and Kennedy.

RELIGIOUS ACTIVITIES IN THE COMMUNITY

Members of this Committee were: Messrs, Sawyer, Morgan, Cozens, Frs. O'Neill, Nelson and two students, Kathy O'Connor and Emmett Francoeur. The Committee met once a month during the school year and acted mainly in an advisory capacity to the Chaplain - especially in the area of Liturgy.

LOYOLA CHRISTIAN STUDENTS ASSOCIATION

This is a group of 40 students met each week in groups of five or six to discuss current issues affecting their religious beliefs. This organization is an outgrowth of the Sodality and at present is not solidly structured. During the year this group sponsored the public talks by Dr. Jean Vanier and Dr. Francoeur, and co-sponsored the Seminar on Drugs.

RETREATS

A senior retreat this year took the form of a LIVE-IN. Twenty-two students, men and women, went to St. Jerome for a week-end of

prayer and discussion under the direction of Fr. Konlup and Fr. O'Neill. Films were used extensively to stimulate discussion at the meeting. It is felt that this format can be a model for future retreats and days of renewal.

Fr. O'Neill also conducted a closed retreat for members of the Loyola Christian Students Association.

ALIA

An open discussion on problems of religion under the title of "Sound-Off" was held at Hingston Hall, with a fair attendance. During the Church Unity Octave week, an inter-faith seminar was held at the Vanier Auditorium, entitled "Future of Ecumenism."

During the year, Fr. O'Neill attended conferences for Chaplains and Jesuit Student Counsellors. He plans to attend a six week workshop at Georgetown University on Mental Health Discipline.

Fr. O'Neill has acted as Chaplain for Teke Fraternity, is a member of the Students Life Committee and moderator for RAC. Both he and Fr. Nelson have occasionally accompanied our Varsity athletes on their trips.

OFFICE OF THE DEAN OF WOMEN

Langley Hall: The 1967-68 academic year opened with a blaze of glory for women students at Loyola. It was heard said "they are really here to stay." as the first girl arrived at Langley Hall, the newly opened Women's Residence.

From the time of the acquisition early in 1967 of the building to house women students, the Dean of Women and many others were busy planning the necessary renovation, equipping, furnishing and staffing of the building. A special women's committee was established to decide on color schemes, furnishings and general décor. The Dean of Women assumed the position of Director of Residence at Langley Hall. She was very ably assisted by Miss Jean Bunting. Prior to the arrival of the students in residence, plans were made for the smooth operation of the building on all levels. Six senior students were carefully chosen to assume the position of Resident Advisors. These students, one assigned to each wing of the building, helped tremendously to create an atmosphere for living and learning.

A Handbook was prepared, outlining general procedures and regulations for orderly community living. Initiated as a temporary guide, the handbook was revised through the mutual cooperation of the Director and the Women's Residence Council.

A temporary student government, the Women's Residence Council, was instituted within the Hall. This group planned a number of social activities, such as a "mixer" held in the main lounge, a "Sing-a-long" with Fr. Browne, open house, a Christmas tree trimming party and a dance at the Windsor Hotel. Besides the social activities, the WRC wrote a constitution to establish a permanent system of student government within the Hall.

The high-light of the year at Langley Hall was the Official Opening, December 10, 1967; this gala affair marked the dedication of the building to Susan B. Langley by her son, Mr. M.J. McCormick.

A considerable amount of work in the Residence involved talking with, advising and counselling students, using the various counselling personnel available on campus. Toward the end of the year, Rev. Arthur Nelson, S.J. Assistant Chaplain, was available certain evenings for informal discussion and counselling. The need for extended counselling has become evident and plans for expansion of this service are being considered.

The Dean of Women continued to foster the participation and active involvement of women in student life. She assisted the Women's Students Association with their various undertakings. The WSA inaugurated a Big-Little-Sister program, designed to meet and help the new student in residence. This program

informed the new student about life at Loyola and successfully culminated in a dinner party.

Advice and assistance were given to other activities engaged in by the WSA. These included the orientation tea, a fashion show and official receptions in which the WRC participated. The newest endeavour of the WSA was the attempt to help organize the women as a reliable alumnae group. The Alumni Office and the Women's Association held a dinner for women graduates. This was seen as a valuable beginning to foster active participation of women in alumni affairs.

As women grew in numbers they also grew in organizations with the formation of a third sorority. Time and advice were given to this group to aid them in forming a stable and workable system. Plans were laid with the girls of the three sororities to form a Panhellenic Council for the establishment of an over-all system for the regulation of sorority life on campus.

The Dean of Women was also involved in a considerable amount of committee work. Outside of Residence duties, she was perhaps engaged most in the area of the personal counselling of students.

REPORT OF THE OFFICE OF THE DEAN OF MEN

As a new member of the Student Services staff this year, the Dean of Men spent his initial months getting to know Loyola, its students and faculty.

As a counsellor, the dean saw many students who were having some kind of personal difficulty with drugs, studies, family, finances and other matters which made life unbearable. The use of marijuana and L.S.D. emerged as a major problem for a small minority. In addition to the counselling services made available to the drug users, a panel presentation by experts on the use and abuse of drugs was offered for the entire student body. As the year nears an end, preparations are under way for a national conference on drug use and abuse to be held on the Loyola campus during the Fall 1968 term.

The advising role of the Dean of Men involved liaison work with student government and the various student societies. Under the LMSA constitution, the Dean of Men was a non-voting member of the Board of Directors with specific provision for speaking privileges. Many hours were devoted to consultation and discussion of student government programs with the officers of LMSA, their committee and board members. The student Senate assumed the role of a court of original jurisdiction in the adjudication of alleged student violations of college policies. The Dean worked closely with the Student Senate as they developed terms of reference and procedures for fulfilling this judicial function. The Dean's office investigated any charges made against a student and referred the case for hearing to the Student Senate providing, in the Dean's judgment, the case could not be handled more justly in another manner. A sub-committee of the Student Life Committee chaired by the Dean of Men is currently studying the entire area of student social regulations, the source of Loyola's authority to make such policies and the procedures by which violations may be adjudicated. Recommendations will be made on these areas during the 1968-69 academic year.

The Dean's office, in cooperation with the LMSA, sponsored a six week Student Leadership Course in which thirty freshmen and sophomores were exposed to the theory and techniques which combine to make a successful, effective student leader. Loyola faculty, administrators, student leaders as well as outside consultants were invited to make presentations during the course of the program.

Negotiations with the Drama Society resulted in an agreement to employ a full-time Drama Director to assist in bringing a high degree of quality to the dramatic efforts of Loyola Students.

As an administrator, the Dean of Men was responsible for the Health Services and Placement Services. As administrative liaison officer with the career planning and placement centre, the Dean organized a faculty, student and administrative planning committee to assist the Director of Placement in his efforts to meet the needs of the student body.

On campus psychiatric services were initiated for the first time this year. As a result of negotiations with Dr. Walsh of St. Mary's Hospital Psychiatric Services, two psychiatrists will spend a total of ten hours each week in the Campus Health Services during the next academic year.

With the cooperation of the Academic Vice President, a study has been conducted into the need of expanding the Guidance Centre. Dr. Laurent Isabelle of the University of Ottawa was engaged as a consultant in this matter.

Finally, a new Director of Men's Housing was appointed to begin work with the new fiscal year. He is a young Canadian interested in Student Personnel work as a career.

The Dean of Men attended several professional meetings during the year where topics ranged from student power confrontations to drug abuse. The year has been full, eventful and tremendously challenging.

REPORT OF THE OFFICE OF THE ASSISTANT DEAN OF MEN

The Assistant Dean of Men has special responsibilities in the area of advice to foreign student fraternities, science and engineering student societies, and the evening student council.

This year, he helped the Maroon and White Society, Loyola's traditional honor society in college service, to restructure itself into a group in which ten faculty members were invited to be full members along with the twenty-third and fourth year student members. The student member's enthusiasm for this orientation refutes the impression gained from this era's newspapers that all students are alienated from all professors and administrators.

The fraternities, with the help of members from the Faculty of Commerce, refined their book-keeping and accounting procedures as part of their progress and development into useful members of the Loyola Community. A further reaching out into the larger North American University community occurred when Loyola's first local fraternity, founded five years ago, became the first Canadian chapter of Phi Kappa Theta, an intercollegiate society with 75 college chapters and 25,000 living initiates. Two of the five fraternities are now inter-collegiate.

The Africa Club decided on its own to elect some native Canadian officers thus broadening this society to an interest group from its former work of mutual help to our African students.

Especially successful was a new activity of the Engineering Students Society - a buffet luncheon held during Founder's Day celebrations at the COTC mess when the President spoke on the immediate future of Loyola.

The Maroon & White Society inaugurated several new activities, but outstanding for its impact was its Founder's Day Breakfast, at which Fr. Malone was the guest of honor.

This year, for the first time, the Evening Students Council participated in Founder's Day with a special panel, considering education in general and evening college education in particular. Sir George Williams Registrar, Donald Peets and Mr. Douglas Potvin, Director of the Evening Division, Rev. Gerald MacGuigan, Dean of Arts and Council Advisor, Dean G. Uihlein, spoke and then made themselves available to meet interested evening students.

The Assistant Dean of Men was chairman of the New Campus Parking Committee which made available a forum for information and discussion on this vexing problem of any growing urban campus.

Refinements were made in the structure of the sub-committee on Fraternities and Sororities which reports to the College Senate, through the Committee on Student Life, as an appellate board representing the various parts of the college interested in these societies, which in a very special way unite students, faculty and alumni.

The Assistant Dean of Men did his share of personal counselling: was chairman or member of several other college committees; was appointed assistant editor of the Journal of the Canadian Association of University Student Personnel Services and editor of the Association's Newsletter. He was a regular member of the science faculty council and of the chemistry department.

HINGSTON HALL

Opening day of the 1967-68 academic year found Hingston Hall completely filled: 304 students, 3 counsellors, 2 Jesuit priests and one Assistant Dean, plus some 13 students on a waiting list. Most of this latter group were successfully placed in Residence within the first two weeks due to last minute cancellations. Of particular interest is the fact that about 100 of the resident students were American. The end of the year found us with 288 students still in Residence. The change in the resident figure was mostly due to drop-outs or failure in mid-term exams.

Bookings for Sophomores, Juniors and Seniors for 1968-69 number 175 paid applications to date. With some 200 plus Freshman applications still to be received Hingston Hall will undoubtedly be filled again next year.

CONSOLIDATION OF DEAN AND DIRECTOR'S OFFICE

This past fall Fr. President integrated the position of Dean and Director of Residence under one head: The Dean of Residence's Office. This greatly aided in the proper re-organization and administration of all elements of staff and budget responsibilities under one responsible authority.

RENOVATIONS

Taking direct action and by-passing all objections to student labor, we painted 6 downstairs corridors, the central foyer, 10 downstairs public rooms, 3 stairwells and all 6 resident floor corridors...all in attractive pastel semi-gloss colors. Use of student labor helped save us approximately \$5,000. The Maintenance Department plastered all areas, painted 3 stairwells and the dining room. We hope, again with the cooperation of the Maintenance Department and the use of some student labor, to continue and complete the painting of all the residence student rooms this summer.

The cost of new carpeting for the Residence living floors has been determined; release of funds is all that is now needed to complete this project... which is desperately needed.

A pricing of new, sturdier furniture for the residents' rooms is now in process. Gradual, year by year, floor by floor, replacement is recommended.

RESIDENCE STAFF

This year we undoubtedly had the finest group of Counsellors and Proctors in the past four years. Each man displayed an exceptional loyalty, dedication

and understanding of his position and duties. Special commendation goes to Mr. Alan Lam, Assistant Dean of Residence. On the Management side, Mr. Tom Armstrong was absolutely invaluable.

GENERAL LIVING PATTERN

The condensed academic year plus the extremely broken pattern of this year generally, contributed to a higher than usual rowdiness in the Residence this year.

MAINTENANCE

With the cooperation of the Director of Physical Plant, Mr. Kelly, we were able to have a general repairman in the building most of the year. Unfortunately, the rapidly deteriorating condition of the room furniture occupied most of his time and left little time to make improvements. This should be continued next year. Maid service was curtailed...saving \$6,000.

SUMMER RENTAL PAMPHLET

A new promotional pamphlet attractively presented with pictures, basic summer facilities and rate information was prepared with the excellent assistance of Mrs. Frood of the Public Relations Department. Nearly 1000 of these have been sent out to date.

FINANCIAL AID DEPARTMENT

All aspects of student Financial Aid were channeled through this Department. This included applications and appeals, where necessary, for Government Aid from Quebec, other Canadian Provinces and home States for our American students; Loyola Bursary assistance; and arrangements for loans from outside sources as well as from funds placed at our disposal by outside agencies.

Last year for the first time letters were sent out to the parents of prospective students dealing with all aspects of financing a student's University career. 1,500 letters were sent and resulted in about 300 interviews and telephone calls dealing with specific financial problems. These were unusually rewarding as a "package" for meeting costs was then found.

New to Loyola is the increased number of married students. It is of interest to note that, particularly in this group, there are more students seeking outright gifts than those willing to assume the obligation of long term loans.

Government Bursary payments to students were greatly delayed. Even when the students were on their summer vacation many had not received the promised bursary.

Again this year the Director, Financial Aid was responsible for checking the financial status of all foreign Students before final acceptance. Because of the unstable political climate in many parts of the world, unanticipated financial problems have arisen among upper classmen.

The Director, Financial Aid, as Executive-Secretary of the Scholarship Committee coordinates all matters pertaining to Scholarships.

Loyola bursaries, also awarded by the Scholarship Committee, are channeled through this office. This year all parents of prospective students were sent bursary applications to fill out if they anticipated financial difficulties. Actually after receiving assistance from their own Government, as suggested in our letter, not many returned the form. We plan to send another letter this year because advance knowledge of student needs assists in planning bursary disbursements.

The Financial Aid Office was also made the clearing-house for Student Accident Insurance.

The three emergency loan funds placed at our disposal by: The Birks Family Foundation, the B'nai B'rith Hillel Foundation and the National Council of Jewish Women were again operative this year. The students seem more aware

of the value of these funds and are repaying their loans as promised so that other students may benefit in a like emergency.

The administrative arrangements for all Convocation Prizes and Medals were again handled by this department.

The foreign students were assisted by various means as follows:

1. Students received Loans and Bursaries from the University.

2. Students from other Provinces and the Districts received Loans from their Governments.

3. Foreign students received Loans from the University of Toronto.

4. Students from other Canadian Provinces received Loans from their Governments.

5. Students received Loans from the University of Toronto.

TOTAL CONTRIBUTION ALL - \$100,000.00

Foreign students received Loans from the University of Toronto.

Students from other Provinces and the Districts received Loans from their Governments.

THE HON. HENRY DUNSTON

1. Students, whose parents are unable to pay for their education, receive Loans from the University.

2. Students received Bursaries from the University.

3. Students received Loans from the University of Toronto.

THE HON. HENRY DUNSTON

4. Students benefited by short term Loans from the University.

THE HON. HENRY DUNSTON

5. Students benefited by short term Loans from the University.

6. Students received Loans and Bursaries from the University.

7. Students received Loans from the University of Toronto.

880 Loyola Students applied for a Quebec Loan and Bursary.

270 Loyola Students were refused by Quebec as having sufficient means.

610 Students received Loans and Bursaries totaling: \$436,240.00

82 students from other Provinces and the United States
received loans from their Governments.

36 Ontario Students received Loans & Bursaries totaling \$ 40,630.00

11 Students from other Canadian Provinces received: 9,125.00

35 U.S. students received from home states: 30,4,6.00

TOTAL GOVERNMENT AID: \$516,411.00

9 Loyola students received loans from Le Prêt d'honneur: \$3,263.00

Loyola College Bursaries were awarded to 47 students: 9,370.00

The Birks Family Foundation:

5 students, whose parents are Birks Employees, received: \$3,100.00(Tuition)

4 students received Bursaries from this fund \$1,000.00

16 students benefited from Short Term Loans: Total \$ 887.00

The B'nai B'rith Hillel Foundation:

34 students benefited by short term loans: Total \$1,713.00

The National Council of Jewish Women:

7 students benefited by short term loans: Total 1 75.00

896 students received loans and/or Bursary Aid through
this office: TOTAL: \$535,919.00

STUDENT PLACEMENT SERVICE

CAREER PLANNING AND PLACEMENT

The Career Planning and Placement Service on the Loyola campus is operated by the Canada Manpower Centre and staffed by five employees including a Director. The major emphasis of this service is concerned with the career placement of graduating seniors. In addition, some efforts are made to list part-time and summer jobs for interested students.

During the past year the Service performed its primary function in a highly satisfactory manner. There was a twenty-six percent increase in the number of graduating seniors registered with the Service in 1967-68 as compared with the preceding year. The Placement Service also worked to set up the beginnings of a Vocational Reference Room for students interested in reading more about career possibilities. Surveys were conducted among the alumni to determine how valuable Career Planning and Placement was in assisting them find a career position when they graduated.

The summer of 1968 found a majority of our students without the temporary employment so necessary to financing their academic year. It is in this area that insufficient efforts were made by the Placement Office and where efforts for improvement will be sought during the next year. Student needs in the area of part-time and summer employment will require an aggressive search for the available openings by our Placement Service Personnel.

Negotiations have been conducted all year between U.C.P.A. and the Ministry of Manpower and Immigration regarding the future status of the College Placement Services. There has been general dissatisfaction among college officials about the inattention and lack of understanding shown by the regional Manpower Centres toward Campus Placement needs. At this time AUCC has entered the final stages of negotiations regarding the reorganization and upgrading of Manpower's Career Planning and Placement Services at colleges and universities.

STUDENT HEALTH SERVICES

The Student Health Service of Loyola College in its second year of operation treated almost twice the number of persons seen the previous year. Again, students living in residence numbered over half of the number of students visiting the Health Service. The Service moved to enlarged quarters in the Centennial Building with private offices for Physician and Nurse; a treatment room, a day care bedroom, two examining cubicles and a waiting room.

Psychiatric Services were initiated with a Psychiatrist visiting one morning a month initially and later weekly as most students sought help.

A full time secretary has assisted in freeing the nurse for counselling, rather than clerical details.

Most students had a chest x-ray taken at registration and this resulted in the hospitalization of one student with open tuberculosis. Two others required careful evaluation and another two with previously known chest disease were found.

STATISTICAL SUMMARY OF HEALTH SERVICES PERFORMED

	<u>1967-68</u>	<u>1966-67</u>
Students	1,903	1,049
Administrative Staff	416	239
Academic Staff	87	143
TOTAL VISITS	2,406	1,431
Visits to Physician	375	276
Psychiatrist	43	-
Students Hospitalized	17	6
Accidents-reported		
a) Sports	91	94
b) On-campus accidents	47	75
c) Off-campus accidents	94	54

MUSIC

Through the efforts of the Department of Student Services a successful music program has been added to the campus. Fr. W. Browne, with his keen interest in all aspects of music, undertook this year to assist in the co-ordination and supervision of this program.

The Loyola Choral Society, under the Directorship of Dr. Thomas Legrady, has increased in quantity and quality since its establishment in 1966. The Choral Society is comprised of students, faculty, staff and members of the local community. Because of its fine program, the Society has attracted more and more students to its ranks. During the 1967-68 academic year the Society presented a number of programs at the college and was invited to appear before groups in the Montreal community. This year's program consisted of:

A Christmas Concert, Loyola, Smith Aud.
Singing with the Band at Christmas Concert during
President's Christmas Party
Wine and Cheese Party, Faculty Club
N.D.G. Ladies' Club at Victoria Hall
St. Mary's Hospital
Spring Concert, with assistance from Dr.
Buell and Dr. Hayes

Not to be outdone, the Loyola College Band, under the direction of Mr. H. Rzepus, made its debut December 10th in a very well-received concert. The Brass Quintet continued to practice and perform regularly. This group appeared on three occasions at Expo '67 as well as at a number of other places in the city. The Quintet joined the Choral Society for the Spring Concert along with the newly formed Wood Wind Quintet and the Loyola Madrigal Singers.

High hopes have been raised this year as members of a Montreal Orchestra expressed interest in reforming as the Loyola Concert Orchestra. Rehearsals with this group began in February and continued until the closing of college.

DEPARTMENT OF PHYSICAL EDUCATION AND ATHLETICS

The Department of Physical Education and Athletics of Loyola during the school year 1967-68 recorded the third consecutive year of auspicious accomplishment.

The most prominent achievement, in this the third year of the expansion program initiated in 1965, was the degree of excellence reached on the local and national level. The varsity teams which represent all areas of the College won six intercollegiate league championships. Both the Varsity Basketball and Varsity Hockey teams were accorded national recognition. During the regular winter sports season Loyola has the best win-loss league record amongst forty-three universities competing across the country. Basketball compiled a perfect record of 14-0 while Hockey lost a single game, concluding the regular season with a 15-1 mark.

In the National Championship Hockey playoffs Loyola defeated the defending champions, the University of Toronto, in the semi-final round. The University of Alberta Golden Bears upset the Loyola Warriors in the last seventeen seconds of play in the Dominion Championship.

The Varsity Soccer team continued its impressive record during 1967, going undefeated throughout their season, and winning the Ottawa-St. Lawrence League for the second consecutive year.

Significant progress was also recorded with the growth and upgrading of the women's physical education and athletic programme, in the individual sports of Judo, Karate and Weight-training in particular, and in team sports, namely, Broomball, Curling, Swimming and Wrestling. Loyola co-eds registered a record number of participants and won their first championship - the Women's Open Basketball League. A second highlight for the women's section of the department was their acceptance as full fledged members of the Ontario-Quebec Conference. Also during the past year the Women's Athletic Council was established enabling Loyola co-eds to become intimately involved in all the administrative facets of the programme.

Karate, which was being offered for the first time, Judo and Weight-training proved to be three of the fastest growing activities with near maximum numbers participating.

The 1967-68 Swimming and Curling teams also distinguished themselves by becoming the first Loyola representatives to achieve runner-up honors in Ottawa-St. Lawrence League Championship competition.

The developmental Junior Varsity teams, established two years ago to give more student athletes the opportunity to learn and improve by playing, assumed a status all their own with both the J.V. Hockey and Basketball Braves winning their respective leagues.

There were other firsts as well: the first Evening Division Hockey League, the first Minor League Football Day, the first Summer Soccer League, the first Sports Hall of Fame Inductions, the first Women's Varsity Volleyball Team, the first Summer Developmental Basketball League, the first Annual Loyola Ontario High School All-Stars vs Quebec High School All-Stars Hockey Game and the First Rowing Club.

During the 1967-68 school year over one hundred and fifty athletic events and several non-athletic affairs were successfully promoted, organized and administered by the Department staff. These included National Collegiate Hockey Championships, the Ottawa-St. Lawrence Hockey Championships, the Ottawa-St. Lawrence League Wrestling Championships, the exclusive hosting and representation of Canada in international competition with the Australian National Basketball Team, the Paraplegic Olympic Games, the Eastern Canada Lacross Clinic, the Third Annual Bi-lingual Football Coaching School featuring the four Head Coaches in the Eastern Conference of the Canadian Football League, the Alumni Sports Night, and the Second Annual Loyola of Montreal Centennial Invitational Hockey and Basketball Tournaments.

To advance the caliber of native talent, the following events were conducted: Greater Montreal Interscholastic Athletic Association Wrestling Championships and Greater Montreal Interscholastic Athletic Association Hockey Championships, Second Annual Pre-Season Hockey Coaches Clinic and Hockey School for Players, Second Annual Pre-Season Basketball Coaches Clinic and Basketball School for Players, First Annual Loyola-Ontario High School All Stars vs Quebec High School All Stars Hockey Game, Third Annual Loyola All Star Hockey Coaches Clinic, Summer Developmental Basketball Program-Instruction and League Play, Third Annual Loyola All Star Basketball Game - Eastern United States All Star vs Eastern Canadian All Stars and Third Annual Loyola All Star Basketball Coaches Clinic.

Vitally supplementing the expenditures of the College, the Department of Physical Education and Athletics continued to help finance its own operation with the solicitations of ten thousand dollars in funds and equipment.

In conclusion, 1967-68 has been a year of fine accomplishment for the Department of Physical Education and Athletics of Loyola of Montreal.

REPORT OF THE DIRECTOR OF DEVELOPMENT

Development Office activity at Loyola during the past year concentrated efforts mainly in the area of the capital development program. Towards the objective of \$6,600,000 set for the public appeal phase of this program, \$4,210,499.69 had been pledged at the end of the fiscal year. Some changes in the building program itself, notably the construction of a faculty residence under a revised financial arrangement, have meant adjustment of the stated objective. In effect, the program is still about \$1,000,000 short of the minimum objective and the appeal continues through the coming year.

Pledges to the capital program in 1967-68 amounted to \$373,696.26 from 817 donors. Corporations, foundations, and individuals contributing to the program to date total 2547. Projected new pledge estimate in 1968-69 is \$582,000.

In June, further impetus was given to the capital development program by the formation of a Special Committee under Mr. Samuel Davidson. The work of this committee was launched at a dinner with Mr. Samuel Bronfman as host. By the end of the fiscal period, the work of this committee had produced pledges totalling \$192,408 with canvassing continuing through the summer period.

Capital campaigns, deferred-giving programs, special need assistance for research, scholarship, equipment and educational operations provide a new kind of challenge to Canadian universities. This challenge can only be met through the comparison of effort and techniques, the exchange of data, and co-operation in the development of new areas of financial support of our universities. Needed as well are improved methods of presenting the case for higher education which will elicit an increased financial response from public and private sources.

A notable development among the universities of Eastern Canada during the past year was the formation of an association of university development officers and the limited exchange of financial support data among participating members. This organized approach to the needs for, and pursuit of, financial aid through a formal association appears to represent a step forward in the common search of universities for growing amounts of assistance from both government and private sources of support.

There were further staff reductions during the year, affecting all areas of the Development Office. The long-sought relocation of offices to provide a more closely integrated physical arrangement of space and personnel was finally achieved and effective interchangeable services of staff became practical. Fund-raising counsel was substantially curtailed at the end of 1967.

The Public Relations Officer and staff was separated from the Development Office and made responsible to the President's Office. With this change publications, advertising and publicity became the responsibility of Public Relations.

Public Relations counsel, which had been provided to Loyola by Mr. V.M. O'Byrne for the previous four years, was assigned to the Loyola Public Relations Officer under Mrs. Norah Frood. The services rendered by Mr. O'Byrne from 1964 through 1967 contributed valuably to a wide diversity of activities and needs. Mr. O'Byrne's expenditure of time, effort and talent, as well as his deep personal concern for the welfare of Loyola, call for special commendation.

ALUMNI OFFICE

The past year in the Alumni Office has been one of reorganization. There have been an updating of records, a revision of the methods of solicitation for funds, a change in the appearance of the "Alumnus" magazine and an upgrading of its content. The annual Alumni Fund for Loyola was most successful under the chairmanship of Mr. Charles A. Phelan, with contributions in the amount of \$57,000 - an increase of \$22,000 over the previous year.

The Alumni appeal in the Capital Campaign which began last year now totals \$160,000 as of June 30, 1968. Details of Alumni Association activities are included in the Report of the President of the Association.

J.S. Dorrance,
Director of Development

REPORT OF THE PUBLIC RELATIONS OFFICER

The efforts of the Public Relations Office to maintain and develop effective internal and external communications for Loyola have continued and, in fact, expanded during the past year.

Increased direct contact with Faculty, Administration, Students and Alumni has improved internal communications and made it easier to provide more complete releases through THE HAPPENING - a bi-monthly Calendar of Events - and information bulletins related to specific events.

Regular contact has been maintained with the local and national press - including T.V. and Radio - through regular releases about Loyola events and activities, faculty appointments and publications, academic programs and student achievements. Press Conferences were called throughout the year to discuss matters of interest and concern to the community outside Loyola.

A quarterly publication, LOYOLA IN ACTION, has been produced and sent to donors, Alumni Officers, other educational institutions and friends of Loyola with information about new developments and growth around the Campus. A brochure encouraging Montreal visitors to use Hingston Hall as a Summer residence was widely distributed to educational institutions in Canada and the United States. In cooperation with the Placement Office, a booklet was prepared to inform employers of Loyola's educational program, the expected number of graduates and interviewing facilities at Loyola. There is no longer a Publications Officer at Loyola and Public Relations services are now required in assisting with the production of other material for internal and external use. These include Memorial Mass booklets, internal telephone directories, programs and invitations for Convocations and special events and The President's Report.

The Public Relations Office has also assisted in the planning of special events at Loyola. These have included Convocations; official openings of new buildings; receptions for visiting lecturers, seminars, and conferences; and concerts arranged by the Committee on Cultural Activities.

It has become increasingly clear that central coordination of events and activities is required at Loyola if the needs of faculty, administration and students are to be equitably met. The Public Relations Office is now in the process of developing an Events Coordination Center through which all requests for facilities and services will be made. In addition to centralizing such requests, this service will improve internal communication at Loyola and facilitate the release of information by the Public Relations Office.

The services offered by the Public Relations Office are available to all areas of faculty and administration and, on an advisory basis, to student government or student organizations when requested. These services are carried out in cooperation and consultation with the individuals, groups or departments involved to better achieve the goal of the Public Relations Office to continually improve internal and external communications at Loyola.

N. Frood,
Public Relations Officer

REPORT OF THE PRESIDENT OF THE LOYOLA OF MONTREAL STUDENTS' ASSOCIATION

INCORPORATION

All preliminary conditions and legal formalities having been complied with, the Loyola of Montreal Students' Association was duly incorporated in 1966 under Part III of the Quebec Companies Act.

CAMPUS (STUDENT) CENTRE

Construction of the Campus (Student) Centre has been delayed. Although the architects have finalized the plans, the \$2,500,000 building cannot be submitted to tender until long-term financial arrangements have been completed. The plans call for the housing of the Students' Association and its member organizations, campus dining facilities, the college bookstore, and spacious lounge areas.

We have actively sought the tangible support of the Provincial Government in recent months. Apart from their acknowledgement of receipts of our letters, telegrams, and petition, no response has been received.

The Board of Governors gave its approval last spring to the construction of the Centre. However, in view of the present financial position of the College and the political and economic climate of Quebec, hopes of realizing the Campus Centre within the near future have diminished.

STUDENT REPRESENTATION BRIEFS

We have presented two briefs on this subject to the Loyola Community. In our preliminary paper, "Representation: the Student Right and the Student Responsibility", we called for the formal participation of students within the structures of university government at Loyola.

In our second paper, "Student Representation: Perspectives and Proposals", we reviewed these points which continually came up in our discussions with the faculty and administration (student irresponsibility, the problem of continuity, the question of representativeness).

Here also, we outlined specifically our proposals, requesting: a) that a Joint Committee on Student Affairs be formed, composed of three members of the Board of Governors and three students; b) that five students be included as full members of the College Senate; c) that consideration be given to the

seating of students on the Curriculum Committee, the Library Board, and the Academic Standing Committee; and d) that joint faculty-student committees be established on the departmental level.

A Joint Conference Committee, with representatives of the Board of Governors, Senate, Administration, and Students' Association, was set up during the year under review. This Committee provides a valuable link between the different governing bodies of Loyola, leading to an increased co-ordination of policies and to discussions which will foster a better understanding among the various groups on campus.

Senate has approved the inclusion of three students within its membership, representing by faculty, Arts, Commerce, Science/Engineering. Student representation has also been increased to four on the Committee on Student Life; and students participate in many of its sub-committees, which include the Health, Judiciary, Food, and Job Placement committees, and the Athletic Board.

In a brief, 'The Time for Thoughtful Discussion', presented to the College Senate, we sought the establishment of an ad hoc committee to review all grading policies and procedures.

A sub-committee of Academic Standing, which included two members of faculty and two students, was set up to carry out this task. Its report was issued in February 1968.

EDUCATION EVALUATION

An 'Education Evaluation' project was sponsored by the L.M.S.A. for the first time this year. It was well-received throughout the Loyola community and recognized as a serious attempt on the part of students to study constructively faculty and student attitudes, and to examine the nature of many courses and course presentations.

STUDENT BILL OF RIGHTS

A Student Bill of Rights was drafted and adopted in a referendum last October. It is now included as a preamble to the By-Laws of the Loyola of Montreal Students' Association.

The Student Bill includes seven articles, outlining the rights to government, to due process, of private citizenship, of publication, of representation and information, and of freedom of association, and clarifies the academic rights of the student.

QUEBEC AND THE GOVERNMENT

Our relationship with Quebec and our negotiations with government officials have been characterized by continued frustration.

We have travelled to Quebec and met with Mr. Jean Lamy, Executive Assistant to the Minister of Education and Director of the Education Minister's cabinet. In our discussion on the subject of Loyola's status and government capital and operational grants nothing promising emerged.

In view of the financial crisis facing Loyola and bearing in mind from the student point of view the possibility of a rise in tuition fees, several student rallies led to a decision to stage a mass march to Quebec City. Petitioners obtained thousands of signatures supporting our cause. Only a meeting of Mr. Jean-Guy Cardinal, Minister of Education, with Father Malone, Mr. Terry Copp (Faculty Association President), and Graham Nevin (new Student President) averted at the last minute the proposed march to Quebec City.

U.G.E.Q.

Loyola's official participation in U.G.E.Q. began at the Second Annual Congress from February 15th to the 19th, 1967. Loyola was granted a 'special status', with one vote on the Conseil Central -- the legislative council. This constituted an important first step in a change of attitude among the member bodies of U.G.E.Q., with Loyola formally recognized as having a status above that of 'classical college'.

Members in U.G.E.Q. have shown an impatience to effect radical change in the social and educational structures of the province. In various instances, ideological agitation has been the norm. This may or may not be the best way to bring about a more active, just, and free society in the Province of Quebec; but, as a result, fundamental differences in philosophy do exist within the U.G.E.Q. However, it is the irrevocable duty of the students of Loyola to make their position heard, their ideals known, and their willingness to contribute understood.

ATHLETICS

Our first concern in this area, was to seek the re-establishment of an Athletic Board, with representation from all segments of the community, to formulate policies for the Athletic Department. After lengthy discussions, we drafted and presented to the Committee on Student Life a constitution for such a board. This was accepted and the newly created Board is presently reviewing policies concerned with the financing of the Athletic program,

recruitment, financial aid to student athletes, and eligibility for, and scheduling of, inter-collegiate athletics.

FRATERNITIES AND SORORITIES

In the past year, the constitution of the Inter-Fraternity Council has been adopted. In addition, the constitution of two new sororities are presently under consideration.

DRUGS

The College Senate has adopted as a student regulation the following:

"The use and possession of hallucenogenic drugs, as well as drugs specifically prohibited by law, are not permitted on the Loyola campus. The penalty for the dispensing or sale of drugs on campus is dismissal".

LIBRARY AND STUDY AREAS

Our initial recommendation was to change the physical plant within the library, arranging the bookshelves in one line instead of having them staggered. This has been done and it is our belief that the new arrangement has gone a long way towards preventing breaches of student discipline within the building.

As a focal facility in a student's learning process, the student has a natural interest in the library atmosphere and use and in general the conditions which will provide for its maximum utility. Bearing this in mind, we have proposed that two student representatives sit on the Library Board.

Lastly, a listing of vacant classrooms to serve as additional study areas throughout each day of the week is presently being prepared. This, hopefully, will eliminate the acute shortage of academic areas for study purposes.

FINANCES

The L.M.S.A. has worked with an operational budget of slightly over \$53,000 this part year. This was divided approximately as follows: 40% to the SAC, 25% to publication, 2% for the purchase of fixed assets, and 35% to the member organizations and societies of the Students' Association. An additional \$21,000 has been partially realized (the remainder anticipated and forthcoming) in advertising revenues to help defray the cost of publication.

The Student Centre Building Fund presently stands at \$70,300.

The Student Loan Fund amounts to slightly over \$2,200 while our reserve for capital expansion slightly exceeds \$2,100.

EVENTS

Major activities included a two-day Freshman Variety Show, the Annual Car Wash, the Freshman Fling at the new Place Bonaventure, an 'Ian and Sylvia' concert, the Homecoming Ball, the first-term drama production "Love Me, Love My Dog", a Commerce Business Exposition, the 'Gordon Lightfoot' Show, and the Faculty Presidents' Ball at the Sheraton-Mount Royal Hotel. Carnival was the biggest and best yet, featuring the 'Mitchell Trio', the compudate-dance, a human dog sleigh race, a ski-day at Mont Habitant, and the major dance of the year -- the Carnival Sno-Ball. To complete the schedule of events were the International Week, the speaking engagement of John Howard Griffin, a Conference on Quebec Affairs, the Awards Banquet and the 1968 Graduation Ball at Chateau Champlain.

LOYOLA NEWS

The News has continued to expand and recently received two awards in the Canadian University Press Competitions. Eight editions of the News were mailed to the entire membership of the Alumni Association.

DISCIPLINE

The Student Senate has presented a report which calls for the restructuring of judicial structures at Loyola.

An ad hoc committee has been set up to look into the question of disciplinary procedures in depth. They shall a) seek to determine the source of the law in the university community (powers given by charter; also how far does 'in loco parentis' extend), b) study systems in other Canadian universities, and c) recommend a simple yet complete judicial structure for Loyola.

Over the past year, the Senate has handled three cases involving student discipline.

COMMUNICATION

Communication with the students is still one of our most crucial problems. The student must come to realize that the Students' Association represents them and their interests; that it can do so only with their encouragement, their participation, and their support. They must become knowledgeable in the issues which face them and must responsibly participate in the affairs of the Loyola community. To achieve these aims must always be one of the prime tasks and objectives of student leaders.

PRESIDENT'S EMPLOYMENT AND PERSONNEL

The whole scope of student government has expanded greatly in recent years. The Loyola of Montreal Students' Association is an established business (a corporation, in point of fact), responsible for the organization and co-ordination of all student activities and for the administration of \$200,000 in revenue over a one-year period. The task of student president is overwhelming. It demands his full time and his tireless energies. Recognizing this fact, the president was hired full time by the Board of Directors over the summer months. A discontinuation of this practice is inadvisable. The president is needed to represent the students over the summer, to formulate and carry out policy for the association, to prepare for the political activities and the educational undertakings of the students; and to administer and oversee the program of social and cultural activities to be sponsored throughout the academic year.

S. Sims,
President, L.M.S.A.

REPORT OF THE PRESIDENT OF THE ALUMNI ASSOCIATION

Various Committee Chairmen have reported in some detail with respect to events and projects sponsored by the Association during the past twelve months. It is with considerable appreciation, and deep gratitude to those responsible, that I can report nearly universal success in this regard. I would venture to state that participation by members of the Association in the social events, in the special projects, and in the most important area of concrete support for Loyola, has never been higher. Without ignoring many truly worthwhile occasions during the year's experience, I would like to make special mention of a few instances in which I believe our Association has succeeded in making a worthwhile contribution to Loyola.

The installation of the charter members of the Sports Hall of Fame took place. No event in recent memory brought about such an outpouring of favourable publicity in the various news media for this institution. Our gratitude must be extended to Dr. Brodrick, to Mr. McCallum and to the large group who contributed to this project. \$120,000.00 was pledged by alumni to Loyola's Development Program during 1967, of which about \$50,000.00 was received during 1967. These amounts are considerably in excess of contribution in prior years made by alumni to their alma mater and reflect a rather high average gift since the percentage of participation remains a great deal lower than it should be. Your Fund Chairman for 1968 is seeking to correct this imbalance and it is to be hoped that more alumni will come to realize that, if they do not support Loyola themselves, it is difficult to expect governments, the business community and the public at large to do so.

The Student Loan Fund operated to the advantage of many during the year, and I reiterate my thanks, and yours, to Dean Joly and Dr. Elanar who bore the lion's share of the work in administering this project.

For the third time, the Loyola Medal was presented to an outstanding Canadian, Mayor Jean Drapeau of Montreal. In view of the quality of the recipients of the Medal to date and of its acceptance by the news media as a significant award, I believe we may report that this project has achieved its original object and the Medal ranks high among distinctions of this nature.

A most distinguished alumnus, Ambassador Pedro Suinaga, continued to give constant and unfailing support to this Association and to nearly all its activities. During his tenure as Mexico's Ambassador to this country, many of us came to know him well and to realize the high esteem in which he continues to hold Loyola. Ambassador and Mrs. Suinaga returned to Mexico in early April, after a farewell visit to Loyola to attend the Students' Mass in the Chapel. At this time, I expressed to him on your behalf our appreciation for his interest and support in the efforts of this Association.

A word of gratitude and appreciation is due to Mr. Ed Enos, the Director of Athletics, who has made his facilities available to us whenever they were required, and whose interest in the efforts of our Association has always been high. It should be realized that the original inspiration for the Sports Hall of Fame came from Mr. Enos. The new Athletic Night event, which occurred in December of last year and which proved to be particularly interesting to younger alumni, is likewise the product of his fertile imagination. We remain grateful for his continuing co-operation and hope that the Association, in some way, may assist the efforts of his Department.

Loyola High School remains an important consideration for our Association, since it provides the sole connection with Loyola for many of our members. Two years ago, arrangements were concluded with the Principal, Father K. Casey, and with Mr. Ed Meagher, Vice-Principal and Director of Admissions, to ensure that, as far as possible, sons of alumni would be accommodated. In a day when five times the number of applicants that can be accepted sit for the entrance examinations, the academic level has become extremely high. I would like to express to Father Casey and to Mr. Meagher our deep appreciation for their understanding of the involvement of the Alumni Association in this report, and for their great efforts in implementing the agreements concluded two years ago.

The academic year now concluding has been an eventful one, not only for Loyola but for university-level institutions around the world. Events at McGill last Fall, and later at Columbia and at the University of Paris, are indicative of the tremendous unrest and dissatisfaction among student bodies the world over. To my mind, the most significant manifestation during the course of the year, relating to the attitude of Loyola students, occurred during the financial crisis of February and March last. From my vantage point, it appeared that the students of Loyola in 1968, during those days, displayed great determination, courage and maturity and are entitled to considerable respect and appreciation on the part of alumni. At the time of the proposed march upon Quebec, there were many doubters among us but when we were approached by the representatives of the student body any such doubts were removed by the nature of their preparations, their self-imposed discipline, and the manifest justice of their cause. That they succeeded so well is a tribute to them.

Unfortunately, in certain areas, or at least in one area, the generation gap between some alumni and students did come to light. Unhappily, the reaction of certain of our members was not a cause for great pride. All of us have a perfect right to preserve our own values and express our own opinions as forcefully as we wish, and should do so, however divergent these opinions may be from those of our future members on a given point. However, I suggest that the type of reaction which says "Cross my name from your lists, I have no further interest in anything you do" accomplishes nothing and is unworthy of intelligent men. Where such an experience was encountered, fortunately in very few instances, investigation revealed that the individuals concerned had seldom made much, if any, contribution whatever as alumni. It seems to

me that, on questions and issues which may arise and divide the community more or less on a basis of age, that the young expect argument and discussion but believe they are entitled to be heard, and to respect for, if not acceptance of, their views. It would be unfortunate if such issues produced only a dialogue on the deaf, and I say that there are more with hearing difficulties among us than among the students.

The solutions arrived at with government authorities during the month of March were, at best, temporary, and one can only foresee a long, hard road ahead along which Loyola must pass to achieve its rightful place in the educational system of this Province. One cannot help but be impressed by the immense reservoir of good will among all sections of the Quebec community, particularly among the majority group. However, there are those whose views do not appear, for one reason or other, to coincide with what is so evidently, to us, a just and equitable solution. I am hopeful that we, as a group and as individuals, may become and remain involved in the struggle to achieve for Loyola its proper place in the order of things.

I should like to express our thanks to the administration of Loyola and, in particular, to the Very Reverend Father President who, despite a load of responsibility that would exhaust most men, has always supported our endeavours and encouraged our projects. I am personally grateful for his courtesies and cooperation extended to me throughout the year, and I know you will join me in expressing to him our deepest appreciation.

I should also like to express our thanks to the faculty, some of whom are members of this Association, for their cooperation whenever it has been requested.

Our thanks to Mr. Bernard McCallum and his office staff for their full-time efforts in our behalf. The continuity they provide from year to year, as Directors come and go, does as much to ensure the successes we achieve and is of immeasurable assistance to those who bear the responsibility for directing the affairs of this Association.

Finally, I express my deep gratitude to all of the members of the Board of Directors for their support and encouragement over the past eighteen months. Most of them remain on the Board and our new President will find them efficient, effective and most generous with their time and assistance.

C.A. Phelan,
President, Alumni Association

AUDITORS' REPORT

Very Reverend Patrick G. Malone, S.J.,
resident,
Loyola College.

We have examined the balance sheet of Loyola College as at June 30, 1968 and the related statements of capital account, development fund and income and expense, for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances. As is the case in most organizations in receipt of funds by donation, verification of such items was impracticable beyond accounting for amounts recorded in the books of the College.

In our opinion these financial statements present fairly the financial position of the College as at June 30, 1968 and the results of its operations for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Touche, Ross, Bailey Smart

Chartered Accountants.

The accompanying notes form a part of the financial statements.

LOYOLA COLLEGENOTES TO FINANCIAL STATEMENTS AS AT JUNE 30, 1968

1. Fixed assets except buildings are stated at cost. Buildings are stated at values determined in 1956 by appraisal and by reference to municipal assessments, with additions subsequent to 1956 at cost. No depreciation has been provided in the accounts for the period ending June 30, 1968.
2. Included in the capital account is \$86,814 representing restricted endowments for scholarships and bursaries.
3. A contingent liability exists under a mortgage loan from the Central Mortgage & Housing Corporation in the amount of \$1,853,306. This loan has been guaranteed by the Province of Quebec, who are providing the funds for the repayment of this amount by instalments. It is not anticipated that the College will be called upon to bear any of the cost of the repayment, and the full amount of the initial loan of \$1,890,000 was therefore treated as a capital grant from the Quebec Government and was added to capital account at the time of its receipt.
4. The estimated cost of the Jesuit Fathers' Residence is \$829,640. The Jesuit Fathers of Loyola College intend to incorporate separately from the College during the coming year and acquire the Residence from the College.
5. Pledges outstanding under the current campaign for funds were approximately \$1,230,000 at June 30, 1968.
6. The Government of Quebec has agreed to provide a grant to Loyola College before February 7, 1969 in an amount not exceeding \$4,000,000 for the financing of its capital building programme.
