## SITUATION ON THE VETO BILL

### Will King be Compelled to Carry Out Recommendation of Premier?

London, July 8.—Talk of compromise on the constitutional question is filling the air to-day. The Unionist newspapers at the eleventh hour recognize that the King has no alternative but to create sufficient peers to carry the veto bill if the Premier so recommends, and say therefore that the House of Lords will commit political suicide if it compels the Government to take that course.

Hence, with a view to saving the Lards' face, they point to the fact that Viscount Morley in the recent debate in the House of Lords showed a disposition to look favorably on an amendment Lord Newton proposes to move on the report stage of the measure, which provides that no bill with further limitation of the legislative powers of the House of Lords shall be introduced until after another general election.

The Unionists are now inclined to regard an undertaking on the part of the Government not to go any farther in the direction of a single chamber government as an acceptable compromise, and if Premier Asquith should decide to accept Lord Newton's amendment it is understood the House of Lords will adopt the veto bill before the House of Commons has thrown out the Lords amendments.

It is reported that the Unionist leaders in this event have decided upon a policy of acceptance of the veto bill under protest with the intention to repeat it when they return to power and then to proceed to reform the House of Lords and as soon as possible introduce the referendum into the constitutional system.

## GERMANY'S COURSE IN MOROCCO

### Russian Ambassador in Berlin Has a Talk With Foreign Secretary.

Berlin, July 7.—The Russian Ambassador called to-day at the Foreign Office and had a long talk with Baron Von Kiderlin Waechter, the Foreign Secretary. He had been directed by Emperor Nicholas to inquire in a friendly spirit concerning Germany's intentions in Morocco.

There has been no intimation of what Germany's pretensions will be in the eventual bargaining between the powers over Morocco. Officials here adhere to the point of view that France first of all should state her intentions in the premises.

There is some reason to believe, according to a well informed and friendly diplomat, that the ultimate basis of negotiations will concern Germany's participation in railroad and industrial concessions in Morocco and the extension of the Kamerun-Congo Railroad, while in anti-German diplomatic circles the opinion is expressed that Germany first will try to secure a position in South Morocco and fall back upon a demand for railroad concessions if she should fail therein. The brunt of the opposition to the first proposition would, it is believed, rest with Great Britain since France is less concerned over Germany securing a foothold on the Atlantic coast of Morocco.

## BORDEN'S TOUR OF THE PRAIRIES

### Conservative Leader Has Met With Great Success During His Entire Trip.

Winnipeg, Man., July 7.—Mr. Borden's tour of the prairie provinces which opened in Winnipeg on June 19, comes to an end to-morrow with meetings at Morden, Rosebank and Summerset in the constituency of MacDonald, represented by W. D. Staples. To-day was one of the busiest of the entire tour. Mr. Borden spoke at Gladstone, a strong Liberal district, in the morning, met the Grain Growers at Portage La Prairie in the afternoon, and also addressed a large public meeting. To-night he was at St. Pierre, a French settlement near St. Boniface. The Portage La Prairie Grain Growers brought from the opposition leader a sharp reply when they accused him of not being sincere in his stand against reciprocity. He declared that he thoroughly respected their sincerity in favoring it and expected equal respect for the sincerity of his own views thereon. They also accused the Conservatives in parliament with blocking legislation in the farmers interests, which brought from him the statement that it was obviously unfair of them to take that stand and let reciprocity blind their eyes to the policy of the Conservatives in respect to chilled meat, Hudson's Bay Railway, and terminal elevators. Mr. Borden's party was joined to-day by T. W. Crothers, M.P., W. S. Middlebro, M.P., who have been stumping Manitoba; J. C. H. Bergeron, who has been addressing meetings in the French settlements; Hon. Robert Rogers, and Hugh Armstrong.

### TORONTO GETS RELIEF FROM HEAT

Toronto, Ont., July 7.—An ordinary cloudless July day, with a pleasant wind from the east and a temperature that never rose higher than 79 degrees; came as a relief to Torontonians to-day, after the hottest week they had ever endured. Eight further registrations of deaths due directly or indirectly to the heat were made at the City Hall to-day, bringing the total now on record to 48, an appalling number in proportion to the population. Those registered to-day included three men, aged 56, 62, and 69; two women of 64 and 71; and three children under one year.

### HIGHWAY ROBBER WAS ARRESTED.

Renfrew, Ont., July 7.—On the Canadian Pacific Railway track near Renfrew this afternoon a highway robber was arrested by the man he robbed. Geo. McLaren, of Castleford, was walking to Renfrew when he met a stranger, who was also coming this way. First the stranger offered to sell McLaren a watch. The price was fixed at \$5 and McLaren bought it. Then he rued his bargain and asked the stranger to cancel his deal. This the man agreed to do, but no sooner had McLaren got his money back than a revolver was levelled at him with a command to hand over all his cash. McLaren complied and once more changed his mind and jumped upon the stranger taking a loaded revolver from him and \$15 of which he had been robbed. He marched the stranger to Renfrew and handed him over to Chief Plaigste who took him before the police magistrate. The magistrate found him guilty of highway robbery and remanded him until to-morrow for sentence. The prisoner gives his name as Henry Pelletir and his address as Montreal. He is a young man with a respectable appearance and tearfully begged for leniency. McLaren's action in disarming the robber, recovering his money and making the arrest has won him high praise.

## ROYAL VISIT TO DUBLIN

### King and Queen, With Prince of Wales, Reached Harbor Last Evening.

Dublin, July 7.—The royal yacht Victoria and Albert, with King George and Queen Mary and the Prince of Wales and Princess Mary on board, anchored in Kingston harbor this evening. Every available point along the breakwater and on the landingstages was crowded with cheering Dublinites who, on seeing the King and the Prince of Wales on the bridge of the yacht, burst forth singing the National Anthem. The first division of the home fleet, anchored just outside the harbor also fired salutes in honor of Their Majesties. The royal party will not land until to-morrow.

When they come ashore they will be received by the Lord Lieutenant of Ireland and driven in state carriages to the castle where they are to reside during their stay. A number of brilliant state functions are to take place in the royal residence during the next few days, including dinners, a levee, a court reception and a chapter of the Order of St. Patrick. The old building, dated from early in the thirteenth century, is not very imposing in appearance, but it is commodious and well suited for court ceremonies.

In the presence chamber, where the court receptions will be held, stands the King's throne of gilt carved work under a canopy of rich crimson velvet beautifully ornamented with gold lace. In the hall room, known as St. Patrick's Hall, the chapters of the Order of St. Patrick always are held. In the panelled ceiling is a large allegorical painting of George III, supported by figures representing justice and liberty. One of the side panels is filled with a painting of St. Patrick preaching to the native Irish and on the other side is a picture of the submission of the Celtic chieftains to Henry II. Sunday their Majesties will attend service at St. Patrick's Cathedral. The present building dates from 1190, when it took the place of one which had stood on the same site for centuries. During the time of Cromwell, the projector used the Cathedral as a law court.

Monday the King will inspect the Royal Irish Constabulary in Phoenix Park, where he will also hold a review of troops and present some of the regiments with new colors.

The weather to-night is brilliant and Dublin looks her best in her gala decorations. Enthusiastic crowds are parading the streets.

Among a large party of guests at the Vice-Regal Lodge are the Earl and Countess of Bandon, the Earl and Countess of Carrick, the Countess of Mayo, Lord and Lady Castletown, the Earl and Countess of Rosse, Lord and Lady Castlemaine, and Lord and Lady Pierrae.

From the enthusiasm of the populace there is every indication that their Majesties will receive a popular ovation to-morrow. The Lord Mayor of Dublin announces that he will do nothing to mar the harmony of the King's reception. He intends to see His Majesty in state before the King leaves Dublin, but he declines to say when or where. As the official programme for to-morrow's reception does not provide for the presence of the Lord Mayor, it is evident that he contemplates meeting the King on some later occasion.

The Irish people feel flattered that King George has visited Ireland before going to Scotland or Wales, and it is believed that little will come of the efforts of the independents to disturb the harmony of the occasion.

Addresses will be presented to the King from every sort of public body from all over Ireland, representing Home Rulers as well as Unionists.

Six thousand applications have been received from persons desiring to attend the court on Tuesday, but the state rooms at the castle will only accommodate about 1,000.

Another incident that is affording satisfaction is that King George and Queen Mary have decided to visit Maynooth College Sunday afternoon, where they will be received by Cardinal Logue and Archbishop Walsh.

The decoration of the city in honor of the royal visit has been carried out with lavish hand. Miles of streets are spread with bunting and festoons, while from the landing place at Kingstown to the city boundary—a distance of over six miles—there are nine triumphal arches connected by continuous decorations.

All kinds of public entertainments, especially for children, and other festivities have been arranged in connection with the visit of the King and the Queen. The preparations for illuminations are thrice greater than on the day of the Coronation.

Scenes of tremendous enthusiasm were enacted on the Stock Exchange to-day. Business was suspended while the members sang the National Anthem. Finally it was decided to close the exchange next Tuesday as well as to-morrow.

The independents, on the other hand, are trying to draw the people from the reception of the royal party by holding the annual pilgrimage to the grave of Wolf Tone to-morrow instead of Sunday.

## NEW SEAL TREATY SIGNED

### Terms Prohibit Pelagic Sealing in Behring and Other Seas.

Washington, D.C., July 7.—By the terms of the seal treaty signed to-day, pelagic sealing is prohibited in the seas of Behring, Okhotsk, Kamchatka and Japan.

The convention arranges for the apportionment among the signatory powers of the annual proceeds of the several seal herds in which they are interested, as follows: Thirty per cent of the skins annually taken from the American and Russian herds respectively is divided equally between Great Britain and Japan; thirty per cent from the Japanese herds, divided equally among the United States, Great Britain and Russia and thirty per cent from any herds which may hereafter resort to the breeding grounds under British jurisdiction in the North Pacific ocean is to be divided equally among the United States, Russia and Japan.

In connection with this apportionment the United States will make an advance payment of \$200,000 to Great Britain and Japan each. These payments are to be refunded to this country out of the proceeds of the British and Japanese share of skins taken from the American herds.

"This payment," says an official statement on the subject, "is in effect merely a loan and was necessary only because the United States reserves the right to discontinue altogether the killing of the Pribilof Island seals."

The convention also prohibits the hunting of sea otters on the high seas. The treaty will extend for five years and thereafter until terminated by one year's notice by any of the powers concerned.

### BRITISH POSTMAN UNDER ARREST.

Toronto, Ont., July 7.—Gorge Guile, a London, England, postman, was arrested in this city this afternoon charged with stealing British currency equivalent to \$245 from letters.

The information that he was wanted came in a cable message from Scotland Yard, who had located him by intercepting letters. Two hours after the message was received found by Detective Greer at a house on Niagara Street. He will be held for the arrival of an officer from London.

### CANADIAN NORTHERN WILL TUNNEL MOUNT ROYAL

Toronto, July 7.—Sir Donald Mann stated to-day that tenders would be awarded in two or three days for the construction of 550 miles of railroad for the Canadian Northern from Port Arthur to Sellwood Junction, supplying the connecting link between Toronto and the Canadian west served by the C. N. R.

He also announced that the section of the Toronto-Ottawa line from Toronto to Trenton, a distance of about 100 miles, would be ready for inspection. The line as far east as Kingston this fall. The rest of the line to Ottawa would not be ready for traffic for would be ready for traffic for trains about a year.

"How about your entrance into Montreal?" Sir Donald was asked. "Is it true you will enter that city by tunneling Mount Royal?"

"That is subsequently correct. We have experts working now on a scheme to get into Montreal by tunnel through the mountain from the north. I can't say anything about the feasibility of this scheme until we get a report from the experts."

## HOTEL GRENOBLE

56th St. & 7th Ave.  
Opposite Carnegie Hall,  
NEW YORK CITY.

Located within two blocks of beautiful Central Park and in the city's most refined residential district, this exclusive family and transient hotel offers more in real living and comfort than many hotels whose accommodations are much more expensive. The hotel is within a few blocks of the theatres and shops and is only 8 minutes' ride from the Grand Central and Pennsylvania R. R. stations. There is no more ideal stopping place for ladies travelling alone.

The Restaurant, Cafe and Grill are of the finest in the city and are noted for the excellence of their cuisine and service. Well trained servants render unobtrusive and perfect service throughout the hotel.

**The Quebec Chronicle**  
 QUEBEC, JULY 8, 1911.

**AGADIR.**  
 Opinions are still very much divided as to whether Germany's action in regard to Morocco means peace or a sword. Some of the more responsible German newspapers affect to believe that the main object in sending a warship to Agadir is an honorable settlement of the Moroccan question and that such a demonstration is necessary to bring France to the point. The aim may be peaceful but it smacks too much of the bully.

In any event the situation is grave enough to cause a flutter in political and financial circles. Mr. Asquith recognizes the seriousness of the situation but expresses his hope that diplomacy will find a way out. He has, however, signified the intention of Great Britain to support France in accordance with the treaty obligations of those countries.

The most serious possibility of the situation would undoubtedly be the conversion of Agadir into a coaling station for the German fleet. There are many people without any tendency to hysteria both in England and Germany who are firmly convinced that a clash between the two countries is only a matter of time. And some of them do not hesitate to argue that the sooner the clash comes the better will it be for England. These, however, are debatable questions and such a war would have the most terrible and far-reaching effects.

So far as can be gathered from superficial indications the interested powers are seeking a solution of the vexed problem in a calm and judicial manner and an amicable and honorable settlement is hoped for.

**TOLERATION.**  
 Mayor Archambault of Hull occupies a responsible position but he hardly seems to realize it. He is now credited with the remark that an Orange procession "is just as distasteful to the Catholics of Hull as a St. Jean Baptiste procession would be to Protestants."

His intolerant attitude proves that Protestant demonstrations are offensive to the Mayor of Hull but when he states that St. Jean Baptiste processions are a source of irritation to Protestants he is guilty of a falsehood which is buttressed by no evidence. Everyone knows that St. Jean Baptiste processions are held all over Canada and Protestants have never yet sought to discourage or interfere with them. If Mayor Archambault really does believe what he says then it is such men as he who would be responsible for the alleged situation. When he approves of his policemen beating inoffensive spectators about the head because they do not take off their hats when a procession (which he considers objectionable to them) passes by on the street, then both he and his police should be brought to a realization of their duties and responsibilities. This is, when all is said and done, a British country and religious tolerance and justice should be observed in it.

**PROTECTED INTERESTS.**  
 Mr. Fielding pretends to be the champion of the masses versus the classes in this, reciprocity question and the Ministerial press when hard up for an argument in favor of the Taft-Fielding conspiracy—and this is no rare occurrence—invariably bring out their old "chestnut" about the protected interests.

In this connection it is well to realize that there are fifty-six manufacturers and financiers in the Canadian Parliament. Thirty-two are supporting the Government and twenty-four the Opposition. The "big interests" seem to be friendly to the Government.  
 Men at the head of the "big interests" such as Senator Cox, Senator Jeffray, Sir Melvin Jones, McKenzie and Mann, Sir William Whyte and Chas. M. Hayes are all supporting Sir Wilfrid. These men and hundreds of others control the corporations of Canada. They are all closely allied to the Liberal party. The "big interests" know where they have secured protection in the past.  
 Recently the Liberal party is said to have extended its "big interests" connection. Among the strongest supporters of Sir Wilfrid are these "big interests": J. J. Hill, the Guggen-

heims, J. P. Morgan, and the Beef Trust.  
 It is a fight between the people of Canada and a corrupt fund subscribed by the big interests to maintain in power a corrupt Government that is ruled by corporations, trusts and mergers.

**WATER DROWNS.**  
 Reckless people, who are indifferent to risks, give their friends and the community generally too much trouble and worry, to be allowed to mind their own business without interference. No man or woman who is reckless is capable of minding his own business properly.

Of all the reckless performances that humanity is guilty of, there is none worse than going out in a sailboat or canoe without knowing how to manage it. When the recklessness goes so far as to tempt others into the snare, the recklessness becomes criminal.  
 Water drowns.  
 Every year one feels that this fact should more and more be dinned into the ears of the old and young, rich and poor, active and feeble, alike. Parents should insist on their children learning to swim as soon as they can be put in the water. Civic legislators should multiply facilities for bathing and swimming, both outdoors and in city baths.

Strict regulations should be enforced respecting all who go out in boats or canoes. No one who has not a certificate of ability to handle a sailboat should be permitted to take others out at the risk of their lives. Of course such a view will be regarded as grand-motherly by some, who are prepared to rage over a tainted drinking cup. There is less danger in the cup than the ignorantly managed sailboat.

Women are usually the victims of these tragedies. They might do much to protect themselves by refusing to go out boating with anyone who is not fully capable, not only of sailing a boat, but of meeting an emergency. There is no honor in being drowned for the sake of an inefficient waterman's goodwill.

**WHEAT.**  
 The big "plum" in the reciprocity pudding is reserved for the man who grows wheat, according to government arguments. They say:  
 "Of course, everybody is going to get rich out of reciprocity; there may be some delay or even doubt in the case of the others, but when it comes to the wheat grower, there is no doubt—no delay. He is to be given a new market—a market of ninety millions—the sun of the south is to shine on his west fields, and his grain will turn to gold."

If reciprocity does not "make the wheat grower rich," it is confessedly a failure. The Government would rest their whole case on that single claim. Therefore, it is worth looking into closely. We do not want to sell our birthright for a mess of pottage; and then not get the pottage.  
 A market is not to be measured by its size but by its purchasing capacity. A man who drove his hogs to a fine market made up of ninety other hog raisers would have to drive them home again. A market of nine merchants or mechanics, who eat pork, would be far better.

The American market is a wheat-exporting market. It has wheat for sale. At the present time, the United States is producing wheat enough to feed 120 millions, let alone 90 millions. It is exporting more wheat than Canada.

The wheat production and exportation from the United States and Canada respectively for the last four years were as follows:

	United States.	Canada.
	Production bushels.	Exportn. bushels.
1907	735,260,970	76,569,423
1908	634,087,000	100,371,057
1909	664,602,000	66,923,244
1910	737,189,000	

The figures of flour exported show even more convincingly that the Americans are a much greater exporting nation in wheat products than we are. In 1907, they exported fifteen barrels to our one; in 1908 they exported—roughly—fourteen barrels to our two; and in 1909 they exported ten barrels to our a little better than one and a half. That is, the Americans exported last year in wheat and flour the equivalent of 114,000,000 bushels of wheat.

The trouble about vacations is that those who are most in need of them are least likely to get them.

Among the uncrowned kings in London who escaped mention during the excitement incident to the coronation was Jim Jeffries.

**What are you doing to better the condition of your teeth?**  
 Do you know it is a very serious matter? The teeth are the guards in the vestibule of the system. Every bit of nourishment passes through the mouth. If the mouth is unclean, those filthy germs are carried down into the digestive organs and your health is impaired. Keep your teeth and mouth in a perfect hygienic state every hour of the day and night.

The foremost tooth cleanser and antiseptic is

**SOZODONT**

Its fragrant fumes diffuse themselves into the minutest crevices, the liquid penetrating where it can, washes away the germs, leaving a clean, antiseptic deodorized surface. There is nothing made that will give such perfect satisfaction. Fragrance and efficiency are its strong features.

Children love it  
**SOZODONT TOOTH POWDER AND PASTE**

are especially prepared for polishing the surface of the teeth and making them beautiful and pearly white.  
 Sold at every Toilet Counter

Foremost of those who deserve our pity is the man who is back from his vacation and has a summer of work before him.

The following appears in the Boli-var Breeze, N.Y.:—"During Monday's trial, E. A. Richardson, the village constable, occupied a chair near the jury men and kept a sharp eye on them.

It can be readily seen that there is a splendid missionary field ripe for the Carnegie sickle in Northern Africa just now. Also there is a very apt illustration of the magnitude of the task that awaits the preachers of the Carnegie universal peace evangel.

France has been pushing ahead in Morocco with troops, and Spain also, as if they might conclude to pacify the country as England pacifies Egypt, that is, by staying indefinitely. The Kaiser might protect German interests as well by diplomatic means in the first instance "by" any other, but that is not his humorous way. He prefers to jar other governments.

Now that the season of thunder storms is here, telephone patrons must bear in mind that it is dangerous to talk over the 'phone while the air is filled with electricity. The Supreme Court of the United States has just decided that anyone who is shocked while using a telephone at the time of an electric storm cannot recover damages from the telephone company. A Philadelphia newspaperman, who was thus shocked while telephoning from the Philadelphia Country Club obtained a verdict for \$2,500 damages in a suit against the telephone company in the lower courts, but the Supreme Court has set aside the award on the ground that the telephone company was not guilty of negligence in the case.

**BRITISH SHIPS AND THEIR SUBSIDIES.**

A company with a capital of \$10,000,000, all of which is subscribed, has been formed in London to establish new ship-building yards, docks and shops at Sydney, Nova Scotia, where 300 acres of land has been secured for the purpose. Upon the construction alone of this new Canadian plant \$6,000,000 will be spent, and the dry dock, 1040 feet long and 110 wide, will accommodate any ship afloat or designed. A significant part of the announcement is that the Government of Canada, combined with that of the Province of Nova Scotia, will pay the company an annual subsidy of \$170,000 for thirty-five years. This Government bonus is nearly 2 per cent a year on the entire capital of \$10,000,000 and is to be continued for a third of a century. It is stated that if Canada decides to go into the construction of leviathan battle ships for itself these new yards will be adapted to the requirements.

The British have no near competitor in shipping maintained on the seas. On the ocean Great Britain is a protectionist country, and, in several ways, direct and indirect, subsidizes the vast fleet of vessels that sail under the flag. In this instance its colonial dependency directly subsidizes a great modern ship-building plant, and the money required is easily raised in London. In order to regain its leadership in swift runs across the ocean the British Government loaned, at a nominal rate of interest, a large amount of money to the company that proceeded, successfully, to build the fastest passenger vessels on the ocean. British mail subsidies to ships under its flag are on a generous scale. Meanwhile the merchant

100 Miles of Laces

Purchased from the Dominion Corset Co.

36-Yd. Pieces, Worth \$1.00 to \$3.00, for 10c

ON Saturday in the Bargain Bazaar (Basement), we will place on sale an immense purchase of Torchon and Valenciennes Laces, slightly damaged by water. These Laces were purchased from The Dominion Corset Co., at a mere fraction of their value. Never in the history of Quebec has such a bargain in Laces been offered. The widths are from 1 to 3 inches and the regular prices from 3c to 10c a yd. The quantity is tremendous, comprising 5,000 pieces of 36 yards each—180,000 yards—540,000 feet—6,480,000 inches—or more than ONE HUNDRED MILES. If drawn out to its full length it would reach from Quebec to Chicoutimi, or in the other direction to Sherbrooke. One end could be tied to a post in Quebec and it could be paid out loosely along the Q. & L. St. J. track as far as Lake Edward. It would stretch from Protland, Maine, to Boston, or from New York to Philadelphia with enough left over for a side trip to Camden, N.J.

On Sale by the piece of 36 yards only, the original value of each piece being from \$1. to \$3.50. Your choice of any piece at the one price for the 36 yards.....

10c

More D. & A. Corsets Pure White, Spotless

\$1.00 to \$3.00 Values for 24c

ANOTHER magnificent lot of "D. & A." Corsets just received. These Corsets were saved from the flames, but so badly saturated with water that it was thought impossible to use them. We took the lot, comprising 8,000 corsets in all, and got them at our own price. We had the entire lot renovated, dried and scientifically cleaned, and although they are not pressed they are, nevertheless, difficult to distinguish from fresh new goods. They are absolutely clean—white—spotless—not a sign of rust on any of them. The material is fine quality Batiste. The styles are Directoire, medium long and short models. Some with garters, others without. All sizes in the lot from 18 to 36, and meant to sell at from \$1.00 to \$3.00. On Sale in the Bargain Bazaar, (Basement). Your choice.

24c

Men's Neglige Shirts Clearing at 49c

ON Saturday morning, at 8 o'clock sharp, we will place on sale 850 Neglige Shirts in Fine Quality Madras and Percalé, very newest colorings and designs in stripes and checks, all sizes from 14 to 18, but not in each pattern, regular prices 65c, 75c and 90c each. Your choice, Saturday, while they last.....

49c

Unframed Pictures

Regular 30c Value for 5c

ONE hundred only—Unframed Pictures, size 14x19 inches, mounted on cardboard, suitable for framing, immense variety of attractive subjects on sale Saturday. This is the greatest bargain in Pictures which has been offered during 1911, and we know from experience that the quantity will not last long at this price. Those who do not wish to be disappointed would be wise to come at 8 o'clock sharp—no phone or mail orders filled.—the regular price is 30c. each, Saturday Bargain, each.....

5c

GIRL IN ALASKA SURVEY.

Miss Mary Carlisle, one of the most popular members of Washington's smart set, has the distinction of being the first unmarried woman to explore the frozen wilds of Northern Alaska. She is a daughter of the late Calderon Carlisle, a lawyer who had an international reputation.

Miss Carlisle recently joined the Coast and Geodetic Survey party which is to mark the boundary between the British possessions and Alaska on the extreme northern point.

The party of American scientists left Seattle recently on an American vessel and are now somewhere far up in Alaska.

At Dawson they were joined by a band of Eskimoes, who will act as servants and guides. The objective point is the one hundred and forty-first meridian west of Greenwich. Here the party will make camp all through the summer months and, carry on the survey work.

The party is in charge of Thomas Ross. One of his assistants is accompanied by his wife, who chaperons Miss Carlisle. No white woman has gone thus far north, according to the officials of the survey, and the exposure and lack of necessities of life have resulted frequently in the death of members of surveys sent out by the Government.

Miss Carlisle's brother Mandeville said to-night that he had heard little or nothing from her since the party left Seattle, and he does not know where they are at present.

TO STOP HICCUGHS.

Simple cases of hiccough are often relieved by such measures as sucking ice or taking salt and vinegar. Pulling the tongue forward and holding it for some time is an effective procedure.

Sometimes obstinate hiccough is relieved when the patient is strong by having him hang with the arms extended and grasping some beam or pole, so that his feet do not touch the floor. With all the abdominal muscles tense, have him hold his breath as long as possible.

Sneezing is very efficient in certain cases, since it is the exact opposite to hiccough, being a sudden expiratory act. In Plato's "Symposium" the physician Eryximachus recommended too much, either to hold his breath or to gargle with a little water, and if not relieved to tickle his nose and sneeze, whereupon the hiccough would be sure to go.

The spelling "hiccough" is recent, being a combination of the syllables "hic" and the latter term of "cough," which is without either physiological or etymological basis; the pronunciation, with perhaps the rarest exceptions, is still that of the older form "hiccup," earlier given variously—as "hickup," "hickupnickup," "hichop," "hickcock," "hickcock," and "hickett," with quasi-diminishing suffixes ock, et; but the "hick," a syllable aptly expressive of the spasmodic sound produced by the conditions giving rise to the particular disturbance, is found in all

references to the origin of the term to which the writer has been able to obtain. The term singultus is rarely used.

What Brought On The Fight.

(From the Philadelphia Times.)

Bishop Woodbridge, of Kentucky, was discussing the Southern mountaineers, among whom he has lived and worked for many years. The question of family feuds was brought up and the Bishop related the following anecdote:

"A certain family had attended a reunion which terminated in a free-for-all fight. The offenders were taken before the local justice of the peace, who questioned an old woman as to the particulars of the fight. Her description was typical of the mountaineers' attitude toward strife and bloodshed.

"Well, Judge," she said, 'em Lewis got into an argument with Hank Budds. Budds smashed 'em over the head with a stick of cord wood, busting his head open. Then 'em's brother slashed Hank up with a butcher knife and Lou Barry shot him through the leg. Larry Stover went at Lou with an axe, and, then, Judge, we just naturally got to fighting."

Disease and Sickness is prevented by the use of CLAIRE FONTAINE water in your home. Try it on your tots, children and young folks and see how they like it and improve by its use. For older folks it is indispensable. Here is the opinion of an American Doctor.

Office of Theron C. Stearns, M.D., Jersey City, N.J. MM. Timmons & Son, Quebec, P.Q. Gentlemen, Though familiar with all the medicinal and table waters sold, I wish to say to you that your CLAIRE FONTAINE water is the most remarkable of all of them. I am very active, and find of good things to eat. Overwork and overeating naturally go together and invariably produce a series of ills, such as rheumatism, and liver and kidney difficulties. These troubles have in the past necessitated rest and active medications of a more or less disagreeable character, I find, however, if I make use of CLAIRE FONTAINE water I can omit the disagreeable medication, and can continue in perfect health. In view of the perfection of CLAIRE FONTAINE water as a table water, and the further very remarkable fact that the ordinary use of the water is in no way prohibited by its truly wonderful medicinal effects, I think I may safely congratulate you upon the possession of the most remarkable thing in the world. I propose to institute a series of experiments with CLAIRE FONTAINE water, with a view of finding an explanation of its remarkable effects. I hereby this may be due to the nice adjustment by nature of the simple salts which it contains. In any case, it is worthy of study, I leave outward a rate of 10 quarts by water to Montreal and thence by rail to Jersey City, or which find check enclosed, and oblige. Very truly yours, THERON C. STEARNS, M.D. Ask your grocer for it. Wholesale only from factory. M. TIMMONS & SON, - - Quebec, P.Q.

### MOTHER LODGE OF ODDFELLOWS

#### Installation of Officers at Albion Last Night Was Interesting Ceremony.

"Albion," the Mother Lodge of the Independent Order of Oddfellows in this City, was last evening honored by the presence, in an official capacity, of the Acting District Deputy Grand Master, of No. 4 District, Brother A. J. Elkott, (P.G.) and suite of Deputy Grand Lodge Officers who were present with the above Lodge for the purpose of installing into their respective offices, the officers for the term ending 31st December next.

Eloquent and appropriate speeches were made by the D.D. Grand Master, Visiting Installing Officers, during the course of which reference was made to the growth of the Order in Quebec and elsewhere and of the grand and noble work performed by this excellent Order throughout the Continent of America, whose policy is to bury the dead, care for the widow, and educate the orphan. The records of "Albion" Lodge show the closing term to be one of great prosperity both with regard to numerical strength and financial standing, while the coming term holds prospects of even greater success than before. "Albion" Lodge now stands in the front rank of membership of the Lodges in this jurisdiction, and present prospects point to the honor of this distinction among Lodges throughout Canada in the near future.

The officers for the coming term are:—N. G., Br. F. J. Nicol, V.G. Br. W. J. Wyse, R.S. Br. F. Bill, F.S. Br. (P.G.) P. Dale, Treas. Br. (P.G.) W. Jordan, Warden Br. (P.G.) J. H. Wood, Cond'r. Br. H. Morrison, Chaplain Br. T. White (P.G.) R. S. S. Br. C. A. Wood, L.S.S. Br. W. Barlow, R.S.N.G. Br. T. Lane (P.G.) L.S.N.G. Br. (P.G.) J. Norton R.S.V.G. Br. E. Paradis; L.S.V.G. Br. J. Scott (P.G.) I. G. Br. F. M. Morgan; O. G. Br. Watt, (P.G.); Organist, Br. J. P. Frost.

The elected representatives for Grand Lodge are Bros. (P.G.) T. Lane, J. Norton, and P. Dale. The officers who assisted Bro. Elliott in the installation of officers were as follows:—E. H. Walling, P.G.; T. Lane, P.G.; P. Dale, P.G.; J. Kelly, P.G.; J. Norton, P.G.; J. Scott, P.G.

#### RECORDER'S COURT.

Five persons charged with drunkenness appeared in the Recorder's Court yesterday. Three were fined \$10 and costs or fifteen days' jail each and two discharged.

#### MILITARY CAMP AT LEVIS BREAKS UP

The Military Camp at St. Joseph de Levis was brought to a close last evening and most of the members of the different regiments left for their respective homes.

#### BODY IS NOT YET IDENTIFIED

The body of the man which was picked up at the foot of Smith Lane, this side of the Allan Steamship wharf, on Thursday evening, is still at the morgue. No one has appeared to identify the remains and who the man was is still a mystery.

#### ODDFELLOW'S DECORATION DAY.

The annual-decoration day of the Oddfellows will be held to-morrow afternoon at Mount Hermon Cemetery and promises to be as usual a most interesting event. The ceremony will take place at 3 p.m. and there will no doubt be a large attendance.

#### THREE COMFORTABLE COMFORTS.

Light, soft and easy Negligee Shirts, of English Ascot Cloth Double Cuffs and extra double Collar, only \$1.75. Thin, light underwear, long or short, only 50c. Green, Helio, Tan or Gray Cashmere Sock, 3 pairs for \$1.00, at J. H. Mullin. See Adv't.

#### ACCIDENTAL DROWNING WAS THE VERDICT

The body of the man found in the water at St. Romuald was identified at the Coroner's inquest which was held yesterday morning as that of J. Demers, of St. Nicholas. The evidence showed that the man had been drowned while boating, and a verdict of accidental drowning was returned by the jury.

#### YOU CANNOT BE WITHOUT THEM.

Children's linen tourmalines 5 cents; also a lot of linen caps at 15 cents. See our big advertisement.

#### COURT OF SESSIONS.

A man named Chrysler, of Pointe-aux-Trembles, was sentenced yesterday in the Court of Sessions, to twenty-three months' jail for forging his father's name to a cheque for \$20 and passing it, was sent to jail for a month. A woman charged with putting two bailiffs out of her house in Montcalmville appeared in Court and pleaded not guilty. Her trial was fixed for the 10th instant.

#### Children Cry FOR FLETCHER'S CASTORIA

### RETURN FROM THE CORONATION

#### Sir Wilfrid Laurier, Canadian Contingent and Others Due To-morrow.

The Canadian Coronation Contingent, Sir Wilfrid Laurier, and several other distinguished people will arrive here to-morrow by the Empress on their return from the ceremonies which have taken place in England in connection with the crowning of King George.

The Empress of Britain, which is conveying them back to Canada, is making good time. She was reported by wireless 145 miles east of Belle Isle at 4 p.m. yesterday and is due at Rimouski at 9 a.m. Sunday and at Quebec at 6 p.m. Sunday. There will no doubt be a great gathering at the dock to welcome back to the Dominion the contingent which has represented so splendidly the Dominion of Canada. The receptions to Sir Wilfrid Laurier also promises to be a striking one.

#### HERE IS A GOOD ONE.

It was rumored a few days ago that the firm of L'Heureux & Gauvin was preparing a great reduction sale. This is an accomplished fact and the sale will commence on Monday, 10th July, and will be one to be relied upon.

#### IS THE HEAT OVER?

We hope so, as it is ruinous to business people not desiring to leave their homes. As our great Mid Summer Sale commences on Monday next, we would advise you to put the temperature aside and take advantage of our immense reductions.

#### SIR W. LAURIER IN QUEBEC

The reception which is being prepared for the Liberal leader will be most cordial but none more so than the reception that awaits you on Monday next at L'Heureux & Gauvin, the opening day of their bargain sales.

#### ACADEMY OF MUSIC.

The Provincial Government has just ratified the decision rendered by the Jury which granted the Europe scholarship to Miss Clotilde Coulombe and has placed the money voted last session for that purpose, at the disposal of the Academy of Music.

#### THIS WEEK'S MONTREAL STANDARD.

Beautifully illustrated with pictures of the Coronation which are very interesting. Price 5c. Sold at the leading book and newspaper stores and at Ant. Langlois', 26 Mountain Hill.

#### EARLY CLOSING OF COURTS.

Chief Justice Lemieux, after consulting with several members of the Bar of the district, and the Montreal Court House authorities, has decided that during the vacation the Superior and Circuit Court offices will close at four o'clock every day.

#### THE QUEBEC SOUVENIR ALBUM.

The best ever published of Quebec and vicinity, combining combined views of Quebec, Montmorency Falls, Ste. Anne de Beaupre and Saguenay River and all of the most interesting places. Sold by the leading firms and at Ant. Langlois' newspaper and souvenir depot, 26 Mountain Hill.

#### DEATH OF MRS. ARCHAMBAULT.

News was received in town yesterday of the death in Montreal of Mrs. Horace Archambault, wife of Judge Archambault, of the Court of King's Bench, and formerly Attorney-General of this Province. The deceased, who has been ill for some time, was the niece of the late Simeon Lelievre, of this city, and was the sister of Mrs. (Hon.) L. P. Pelletier, Mrs. Baillargeon, of Ottawa, and the aunt of Mrs. Georges Belleau, and Messrs. Elzeir Baillargeon, advocate, and Charles Baillargeon, notary, of this city. She was also the sister of the late Mrs. Alphonse Pelletier, of Trois Pistoles. Her funeral will take place in Montreal on Monday next.

#### FOR HOT DAYS.

Flannel Coat and Pants, job \$3.49. Light Underwear, Socks, Panama and Italian Straw Hats. at

ED. BELANGER & CIE., 86 Mountain Hill, 29 Notre Dame St. July 6-8-10-12.

#### MGR. CHOQUETTE

Rev. Mr. Choquette, Superior of the St. Hyacinthe College, was, on the occasion of the centenary of that college promoted to the dignity of domestic prelate to His Holiness the Pope. This news was received with much enthusiasm by the 1,800 former pupils, who attended the banquet given on this occasion, and which was given out by Mgr. Bernard, Mgr. Choquette, who is a brother of Senator Choquette and of Hon. Mr. Choquette, Legislative Councillor, is one of the best known and most learned and scientific members of the Roman Catholic clergy in this Province, and the honor conferred upon him is viewed with considerable satisfaction by all his friends, as none was more deserving of this honor.

### UNKNOWN MAN WAS FOUND UNCONSCIOUS

#### Fell Thirty Feet Over the Cliff at Palace Hill Yesterday Evening.

An unknown man, in an unconscious condition, was found last evening lying in the field below the stairway leading from Palace Hill to St. Valier street, just at the top of the street car trestle. He was taken in the ambulance to the Hotel Dieu without regaining consciousness and appeared to be injured seriously internally.

Nobody seemed to know the man, who had the appearance of a stranger. He is apparently about 55 years of age, and heavily built. How the accident occurred is a mystery, as there is a railing all along the wall and the stairway; but he may have been working on the trestle work and fell over. The distance which the unfortunate man fell is about 30 feet.

When the man was brought to the hospital, an examination of his injuries was made, the doctors being of the opinion that his injuries might not be so serious as imagined. It was stated that the man's name was St. Laurent, but whether he belonged to Quebec or not was not known. At last accounts the man was in a semi-comatose condition.

### ENTERTAINED ON EVE OF MARRIAGE.

A very pleasant reunion took place at the Auditorium Cafe last evening when about 80 friends of Mr. Felix Parent, accountant of the firm of Gagnon Freres, met on the occasion of his forthcoming marriage and presented the future groom with an illuminated address and a purse of gold. Mr. Parent is to be married on Tuesday next to Miss Fabiola Martel, daughter of Mr. Michael Martel and his friends, and in particular the members of the Montagnais Snowshoe Club, of which he is Secretary, would not allow Mr. Parent to abandon bachelor life without showing him how they appreciated his friendship. On Thursday evening the members of L'Union Commerciale presented him with a handsome cabinet of cutlery and last evening his numerous friends entertained him at the Auditorium Cafe, when Mr. Joseph Larochele read the address which Mr. Romo Morin presented him with the purse of sovereigns.

The health of the future benedict was proposed by Mr. J. Cote and was received with much enthusiasm, Mr. Parent replying in a very appropriate manner. Several other speeches were delivered by Messrs. L. Delisle, Ant. Gagnon and Geo. Talbot, while several songs were rendered by Messrs. A. Roussin, R. Morin and P. Nadeau. The ladies were not forgotten and their health was proposed in a very happy manner by Messrs. Ant. Gagnon and Jos. Cote and responded to by Mr. Adelard Faucher.

The committee to whom the success of the organization is due was composed of Messrs. Ant. Gagnon, L. Delisle, Romeo Morin and Joseph Larochele.

### PERSONAL

Miss K. Murphy, of Ottawa, is in this city on a visit to her parents, 340 Richelieu street.

Hon. R. Lemieux, Postmaster-General, left for Murray Bay yesterday, but will return to town to meet Sir Wilfrid Laurier on his arrival.

Capt. H. B. Verret, private secretary to Hon. R. Lemieux, was in town yesterday.

Mr. R. Feeney and family have left for Cap Rouge, where they will spend the summer.

Miss Bella Wishart, of Brooklyn, N.Y., is in town on a visit and is the guest of Mrs. J. Scott.

Mr. George F. Gibson has returned from Anticosti where he has been salmon fishing.

#### FOR THE HOT WEATHER

40 costumes in white and colored duck, worth from \$6.00 to \$13.00. This week \$2.59. See our big advertisement.

#### FAGUY, LEPINAY & FRERE.

THE GASOLINE GRAMMAR. To what extent the automobile has invaded the preparatory school may be judged from the following occurrence: Teacher (to beginners' class in Latin): Can any of you boys give the rules for accentuation of Latin words? Only one hand was raised. "Well, Tenney, what are the rules?" "Words of two cylinders accent the first cylinder, and words of three cylinders accent the ante-penult."

WATER WORKS OFFICE, City Hall.

Quebec, 30th June, 1911. PUBLIC NOTICE is hereby given that sealed tenders enclosed "Tender" and addressed to the undersigned will be received up to 4 p. m. on Wednesday, the 12th inst., for 1000 6-inch, 1000 8-inch and 50 14-inch cast iron pipes (more or less), specials and valves per specifications to be seen at this office.

The pipes shall be delivered free on cars or on wharf in the city and in time to allow the special works contemplated being commenced as early as possible.

Each tender shall be on a blank form procurable at this office and shall be signed by two responsible parties as sureties for the fulfillment of the contract.

Tenders shall contain the City Treasurer's receipt for a sum of \$1,000 which sum will be confiscated in case of refusal to sign the contract and be retained till the completion thereof.

The city does not bind itself to accept the lowest nor any of the tenders and the contractor shall pay for drawing up the contract and of a notarial copy thereof for official use.

J. GALLAGHER, Waterworks Engineer.

BY-LAW NO. 3b.

To Amend By-Law No. 3, Concerning the Markets and Private Stalls.

At a meeting of the City Council, of the City of Quebec, held on the twenty-third day of June, one thousand nine hundred and eleven, the following By-law was read for the first time:

It is ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts as follows:

1. The following clause is added after Clause 51 of By-law No. 3, passed by this Council the 18th of April, to wit:

51. Said stall must have a width of at least twenty feet; by at least a depth of twenty feet, be provided with an ice house of at least nine feet in length by at least five feet in depth and the frontage of said stall must be a window (plate glass) to show that said place is a butcher's stall.

2. The present by-law is declared to form part of said By-law No. 3.

PUBLIC NOTICE.

Is hereby given that, in accordance with section 30 of the Act 29 Vict., ch. 57, as amended by section 11 of the Act 31 Vict., ch. 33, and of section 8 of the Act 39 Vict., ch. 51 and its amendments, the above By-law shall be read a second time and adopted on Friday, the thirtieth day of June instant (1911).

BY-LAW NO. 15.

Concerning Vaccination.

At a meeting of the City Council, of the City of Quebec, held on the twelfth day of May, one thousand nine hundred and eleven, the following By-Law was read for the first time:

Considering that by a circular letter of the Provincial Board of Health any municipal council in this Province is notified to adopt, enact and put in force a by-law, ordering compulsory vaccination and revaccination in the manner hereinafter explained.

In consequence, it is ordered and enacted by the municipal council of the city of Quebec, and the said Council does hereby ordain and enact:

1. From the time the present by-law will come into force, vaccination and revaccination will be compulsory within the limits of this municipality for all persons found in it.

2. Therefore, forty-eight hours after the said by-law shall have come into force, any person, being within the municipality, who will not be able to establish that he has been vaccinated successfully within the last seven years, or who will not be able to establish, by a physician's certificate, that he has been vaccinated but without success within the last six months, will be liable to a fine of five dollars, and also to an additional fine of one dollar for each day he will have omitted or will omit to get vaccinated from the second day after the said by-law has come into force.

3. Forty-eight hours after the said by-law will have come into force, any person being within the municipality will have to exhibit to the executive officer of the municipal authority, whenever the said person shall be so required verbally or otherwise, a certificate from a physician, duly qualified to practice as such in the Province, establishing that said person has been vaccinated successfully or that vaccination has been performed upon him, but without success, within the days fixed in the preceding paragraph, and each refusal or omission from such person to exhibit said certificate, when required to do so, will render him liable to a fine of five dollars.

4. A certificate from a physician duly qualified to practice as such within the Province, stating that the state of health of a person does not allow of his being vaccinated, and establishing the reason for such impossibility, if exhibited to the executive officer of the municipal sanitary authority by such person, when asked to produce a vaccination certificate, will exempt such person from the application of the two preceding articles, but provided two months have not elapsed since the date of the certificate.

5. Any physician who will knowingly give a false certificate upon any facts he may be called to certify in virtue of the preceding articles, shall become liable to a penalty of twenty dollars.

6. Any one who will not have the means to pay to be vaccinated shall, on applying to the executive officer of the municipal sanitary authority, and on satisfying him of his inability to pay, be vaccinated at the expense of the Corporation of this city.

7. Are exempted from vaccination, as ordered by the present by-law, persons who may establish to the satisfaction of the executive officer of the municipal sanitary authority that they have had smallpox.

PUBLIC NOTICE.

Is hereby given that, in accordance with section 30 of the Act 29 Vict., ch. 57, as amended by section 11 of the Act 31 Vict., ch. 33, and of section 8 of the Act 39 Vict., ch. 51 and its amendments, the above By-law shall be read a second time and adopted on Friday, the twenty-sixth day of May instant (1911).

SHALL QUEBEC HAVE AN ARENA?

Movement for the Erection of New Structure in This City.

To the Editor of the Chronicle:

Dear Sir,—From rumors current in our city it would appear as though an earnest endeavor is being made by the Quebec Hockey Club to interest some of our business men in the erection of a hockey arena, suitable to meet modern requirements, both as to seating accommodation as well as ice surface, their object in so doing is practically urged by the possibility of the disappearance of the present Quebec Skating Rink, which no doubt will be acquired by the Battlefields Commission for the purpose of using their present site as an entrance to the proposed park. This together with the cramped seating capacity of the present structure renders it almost imperative that immediate action be taken in order that Quebec retain their position in the National Hockey League.

As no doubt all lovers of the greatest of all games are anxiously awaiting to hear if something is to be accomplished in the above direction I thought a word on the subject might be the means of eliciting some opinions on the subject that would help us out of our lethargic condition and force action at once in the construction of what I think is really a much needed want, which taken from other than a sport standpoint, I consider would be one of our greatest assets during the winter season as an attraction to tourists.

Montreal, Ottawa, Sherbrooke and Grand Mere are all splendidly equipped in this respect and their arenas have proved such a success that the building of a new one at Ottawa is now under way. Toronto is displaying a spirit of energy and ambition by erecting one also, their idea being to gain admittance into the big league. Quebec is the oldest club in the game to-day, and judging from appearances last year it proves beyond doubt that this city is one of the most enthusiastic in the support of hockey, and if more did not turn out to see the games it was due to the very good reason that the rink could not accommodate them. Then why is it that a company cannot be formed at once and do something. Surely there are enough business men here, who, putting all sentiment aside, should see from a financial standpoint that the prospects are bright.

Select a site, acquire it next, and with forty or fifty thousand dollars build an arena, that will be a means of keeping our team in the only senior line of sport in which Quebec is represented. If other cities, such as Montreal, have paid as high as 20 per cent under good administration, why cannot we do the same. Really it seems a pity after the severe task of securing admittance to the National League by the Quebec representatives that want of foresight on our part and also want of confidence, should be the means of losing our franchise eternally.

I should be pleased to hear the views of others, especially the opinion of your valuable paper, as I feel sure Quebecers, in general, will appreciate any aid towards the realization of such a worthy project.

Thanking you, etc.

ARENA.

Q. Y. C. CHALLENGE

RACE TO-DAY

The following yachts are entered for the cup race to-day—Cygne, J. F. Lavoie; Ariane, Dr. Arthur Lavoie; St. George, Nap. Mercier; Etoile de Mere, J. G. Giroux; Aleyon; C. Fremont; St. Valier, Nap. Mercier.

First prize will be Q.Y.C. Challenge Cup and gentleman's travelling case; second prize, Ormolu gold mantle clock. The start will be east wind, 10.30 a.m., west wind 11 a.m., from red buoy off the mouth of the St. Charles River, around St. Joseph black buoy, then down to Montmorency Falls, around red buoy and back to starting point; twice around course to complete race, some 15 miles. Time allowance: St. Valier allows Aleyon 7 mins. 29 secs.; St. George, 8 mins. 39 secs.; Cygne, 16 mins. 17 secs.; Etoile de Mere, 19 mins. 3 secs. With a breeze and sea the same as yesterday afternoon this should be one of the best contested races seen in years.

MONTREAL WON FROM ROCHESTER

Billy Burke Had Them Guessing Until the Game Was Practically Won.

Rochester, N.Y., July 7—Montreal beat Rochester this afternoon mostly because the locals could not hit Billy Burke until the game was hopelessly lost. In the ninth inning Rochester scored four runs on hits and three Montreal errors. The locals played wretched ball.

FITZHERBERT WON AS HE PLEASD

Went Lame After the Contest —Other Results at Fort Erie.

Fort Erie, Ont., July 7—Patrons of the Niagara Jockey Club had their first opportunity of witnessing S. C. Hildreth's crack racer Fitzherbert run in public to-day. Fitzherbert was a starter in the six furlongs handicap for which he was a 1 to 5 favorite. He was ridden by Shilling and won in a canter after making all of his own pace. After the finish Fitzherbert went lame and Shilling was forced to dismount and lead him back to the scales. The injury was found to be a bruised foot due to his stepping on a stone.

In the second race, a two-year-old affair, five furlongs, Hildreth's Mad River, who finished second, was disqualified for fouling Terrible Boy in the home stretch. Shilling was fined \$100 by the judges. Mad River was then claimed out of the race by J. W. Hendrick for \$1,100.

The Valley Farm's Martimas colt White Caps made a runaway affair of the two-year-old race that called for starters to be owned by Canadian turfmen. Several stables will leave for Windsor to-morrow, among them being J. E. Seagram, Albert Simons and the Valley Farm stable. A carload will go to Montreal. The latter consignment will include the stables of J. C. Rouse, Wm. Oliver, Thomas Burns, Mode Nicol, and E. Moore. Weather clear; track fast.

1st race, purse, \$500, 2-year-olds, owned in Canada, 5 furlongs—White Caps, won; Sati, 2nd; Goldfern, 3rd. Time 1.01 3-5. Bill Lamb, Rockspring also ran.

2nd race, purse, \$400, 2-year-olds, selling, 5 furlongs—Monkey, won; Ochre Court, 2nd; Toastrack, 3rd. Time, 1.01. Thirty-Four, Terrible Boy, Florida's Beauty, Flamma, Yankee Lotus, Day May, Elma, Rod and Gun also ran. Mad River finished 3rd but was disqualified.

3rd race, \$400, 3-year-olds, selling, 6 furlongs—Star, won; Smirk, 2nd; Apple Prince, 3rd. Time, 1.13 2-5. Cardiff, Planutus, Muskmelon, Anna Casse, Missive, Alexandra, Iron Queen, Sir Raymond, Seconke also ran.

4th race, purse \$500, handicap, for 3-year-olds and up, six furlongs—Fritzherbert won; Col. Ashmeade, 2nd; Pluvius, 3rd. Time, 1.13. Grassmore also ran.

5th race, purse \$500, 3-year-olds and up, mile—Aspiring, won; Dinna Ken, 2nd; Sandrian, 3rd. Time, 1.39 2-5. Red Wine, Cherish, J. H. Houghton also ran.

6th race, purse, 4-year-olds and up, selling, 7 furlongs—Shelby, won; Anna L. Daley, 2nd; Ed. Keck, 3rd. Time, 1.26 3-5. Voltaire, Toniat, Judge Lassing, Narnock J. V. jr., John A., and Joe Rose also ran.

7th race, purse \$400, 3-year-olds and up, selling, mile and a sixteenth—Fulfil, won; Topland, 2nd; Montagnie, 3rd. Time, 1.45 4-5. Cheek, Robert Cooper, Salain, Merman, Eda and Marma also ran.

LACROSSE MATCH.

There will be a lacrosse game for the juvenile league championship at the Q.A.A. grounds on Saturday, July 8, 1911, at 2 o'clock between the Young Quebec and Montcalmville Clubs.

CRICKET PRACTICE.

There will be a cricket practice on the Plains this afternoon. Members are requested to turn out in order to get in form for the approaching match with the Niobe.

RAIN SPOILED RACING AT LATONIA.

Latonia, Ky., July 7—A heavy rain storm again spoiled the racing at Latonia to-day, a small crowd attending, and racing was uninteresting owing to the lack of close finishes. Messenger Boy, after training his field won the fourth easily.

OTTAWA DEFEATED BY MAGDALEN COLEGE.

Henley-on-Thames, Eng., July 7—Ottawa Rowing Club's eight was beaten in the semi-final heat for the Magdalen College cup to-day by the Grand Challenge crew, present holders of the trophy. It was a grand and exciting race. The Oxoians finally obtained the lead and drew away from the Canadians when close to the winning post, winning by two lengths. Time was 6 minutes, 55 seconds.

Semi-ready "Lonely" Sale of Summer Suits

THIS is an "extra occasion," both for downtown and uptown in the stores selling Semi-ready Clothes.

On Monday morning early nearly 500 Semi-ready Suits have been set aside for selling at L'Heureux & Gauvin's and George Morrisette's Stores.

All "sold out" fabrics, all odd and broken lines, all styles which fashion's decrees point to decisive change for next summer—are all marked down for quiet selling during the next ten days.

There will be some "Extra Special" Lonelies, finely finished Semi-ready tailored and designed. Suits at \$10.50.

You can see the label and the price in every Semi-ready Suit to prove its genuineness. The value remains in the pocket until the suit is sold, when it must be removed if the suit is sold as a "lonely," for the Semi-ready label must always tell the exact truth.

If you pay only \$10.50 it would be wrong to leave a \$15 label in the pocket.

Two "Semi-ready" Depots:

George Morrisette, L'Heureux & Gauvin, Cor. St. John & D'Youville Sts. 183-185 St. Joseph Street

EMMET AMATEUR ATHLETIC ASSOCIATION.

The Emmet Amateur Athletic Association are holding an important meeting this evening at the club rooms at 7.30. The baseball team of the Emmets will meet the Laval team at Hare Point on Sunday afternoon at 3 o'clock, when an interesting game is expected.

On holidays, the boat will make a trip from the Island at 8:00 a.m. and in the afternoon at the same hours as on Sundays.  
 Connections at St. Joseph and St. Romuald, with the Levis Street Railway.

### Shipping News

#### STEAMSHIPS NOW INWARD BOUND

Tunisian, Empress of Britain, Scotian and Saturnia Due Here To-morrow.

The Allua R.M.S. Tunisian, Captain Fairfull, from Liverpool, was 85 miles east of Cape Race at 2:30 p.m. yesterday. Due here to-morrow forenoon. She has 79 first, 216 second and 818 third class passengers.

#### ALLAN LINE.

R.M.S. Virginian, Captain Gambell, arrived from Montreal at 8:30 p.m. yesterday, and after embarking Quebec passengers and the mails, proceeded for Liverpool. She has 126 first, 349 second and 369 third class passengers.

Steamer Scotian, Captain Moar, from Glasgow, with passengers and general cargo, was 187 miles east of Cape Race at 8:15 p.m. on Thursday. Due in port to-morrow night.

#### CUNARD LINE.

Steamer Ansonia, Captain Diggle, from Middlesborough, with a general cargo, arrived in port last night, mooring at the Breakwater.

#### DONALDSON LINE.

Steamer Saturnia, Captain Taylor from Glasgow, with passengers and general cargo, was 245 miles east of Cape Race at 8:40 p.m. on Thursday. Due here on Monday morning.

#### DOMINION LINE.

Steamer Manxman, Captain Christie, from Quebec for Bristol for Bristol, via Liverpool, arrived at the latter place on the 7th instant.

#### MANCHESTER LINE.

Steamer Manchester Trader, Captain Musgrave, from Quebec, arrived at Manchester on the 7th instant.  
 Steamer Manchester Importer, Captain Haworth, from Manchester, with a general cargo, arrived in port last evening and proceeded for Three Rivers.

#### QUEBEC STEAMSHIP CO.

Steamer Cascapedia arrived from Montreal at 5:30 a.m., embarked Quebec passengers and cargo and proceeded for the Maritime Provinces at noon yesterday.

#### THOMSON LINE.

Steamer Cervona, Captain Stooke, from Quebec, arrived at Leith on the 5th instant.

#### WHITE STAR-DOMINION LINE.

R.M.S. Megantic, for Liverpool, sailed from Montreal this morning with a large number of passengers. This steamer will sail at 7 p.m. from here. Passengers will embark at the Breakwater wharf.

#### EMPRESS OF BRITAIN INWARD.

R.M.S. Empress of Britain, Captain Murray, from Liverpool with the Coronation Contingent on board, was 130 miles east of Belle Isle at 4:00 p.m. yesterday, and is due here between 5:00 and 6:00 p.m. to-morrow (Sunday).

#### NOT IN COLLISION.

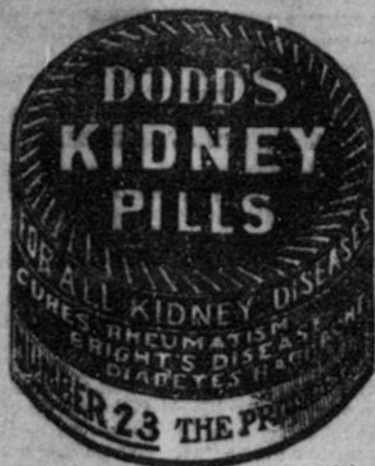

The report received from Montreal on Thursday stating that Captain Riley had held an investigation into a collision between the steamers Cascapedia and Helvetia, said to have occurred two months ago, is without foundation so far as the Cascapedia is concerned. That steamer has not been in collision with any vessel since coming into Canadian waters.

#### SCHOONER FLOATED.

Vineyard Haven, Mass., July 7.—The three-masted schooner Carrie A. Bucknam, which went ashore off Cape Poge, Nantucket went ashore off Cape Poge, Nantucket Sound, early to-day, was pulled off this evening by the revenue cutter Acushnet. Her captain reported that his vessel was apparently uninjured. She is bound from Stockton, Me., for New York, with a cargo of spruce lumber.

#### FREIGHTS AND CHARTERS.

New York, July 7.—The tonnage market was quiet and unchanged and the prevailing demand for tonnage of all kinds was limited. Quotations for Liverpool, 1 1/4 d; London, Hull and Rotterdam, 1 1/4 d; Glasgow, 1 1/4 d; Rotterdam, 2 1/4 c; Hamburg and Bremen, 30 pennings; Bristol, 1 1/4 d; Cork for orders, 2s 1 1/4 d; picked ports, large tonnage, 1s 9 d; cotton to Liverpool, per 100 lbs., 25c.  
 Charters—Spanish steamer, 2,518 tons, coal, Norfolk to west coast of Italy, 8s 6d, option Newport News loading, 8s 7 1/2 d; July; British steamer, 2,300 tons, timber, Gulf to Rotterdam, 73s 9d, July-August; schooner, 467 tons, coal, Philadelphia to Pernambuco, private terms, thence Satilla to Philadelphia, private terms.

schooner, 887 tons, coal, Philadelphia to Charleston and back to New York or Philadelphia, lumber, private terms; schooner, 311 tons, coal, Baltimore to Georgetown, SC, and back north of Hatteras, lumber, private terms; two schooners, 436 and 528 tons, lumber, Bridgewater, NS., to New York, \$3.25; schooner, 352 tons, coal, Philadelphia to Bangor, private terms; schooner, 388 tons, coal, Philadelphia to Calais, \$1.05.

#### NOTES.

#### FOR THE FUTURE.

There's a certain minister whose duties sometimes call him out of the city. He has always arranged for some one of his parishioners to keep company with his wife and little daughter during those absences. Recently, however, he was called away so suddenly that he had no opportunity of providing a guardian.

The wife was very brave during the early evening, but after dark had fallen her courage began to fail. She stayed with her little girl until there was no excuse for staying any longer and then took her upstairs to bed.  
 "Now, go to sleep, dearie," she said, "don't be afraid. God will protect you."  
 "Yes, mother," answered the little girl, "that'll be all right to-night, but the next time let's make better arrangements."—Human Life.

### THE CHRONICLE STEAMSHIP DIRECTORY OF OCEAN SAILINGS.

Dates of sailing with ports of departure and arrival compiled for the Chronicle by P. S. Stocking, general steamship agent, 32 St. Louis Street, Quebec.

Date	Steamer	From	Destination
8	Celtic	New York	Liverpool
8	Lake Erie	Quebec	Havre, London
8	Grampian	Quebec	Glasgow
8	Mauritania	New York	Liverpool
8	Megantic	Quebec	Liverpool
11	Kr. Wm. II.	New York	Ply. Cher. Br.

#### HOW THE IRISH USE POTATOES.

John Redmond, the Irish leader, was annoyed, on his last visit to America, by the commiserating and ignorant remarks on Ireland made by a New York woman.

"Is it true, Mr. Redmond," this woman finally asked, "that the Irish eat nothing but potatoes?"

Mr. Redmond laughed harshly. "That is quite true, madam," he replied, "and when we have eaten the potatoes inside we clothe ourselves with the skins."

### Take Off The Fat Where It Shows

Most women suffer much humiliation and inconvenience, especially during the hot summer months, because of great quantities of fat, so located that, no matter how they dress everybody sees that they are abnormal. This is the season and the day of the slender figure, and fat women are simply not tolerated either in business or social affairs. Women may not know it, but men when they see a fat woman pass them on the street make all manner of sympathetic remarks about her. They do not mean to be unkind or to seem unmanly, but it is natural for a man to dislike fat on a woman. Where fat shows the most there is where it must be removed, and as quickly as possible. Hot weather dresses seem to be made for the fat woman's misery and slender woman's delight. They expose all the charms of woman and her ugliness as well. Exercise and diet will not remove it. This has been proved. The famous Marmola prescription which has met with such phenomenal success and has so many of our society women as its sponsors, is now being sold in tablet form to meet the demand of the public treatment. These little tablets go into your system just like food. They stop the stomach and digestive apparatus from producing fat and reduce the fat upon the body at the rate of from 12 to 15 ounces a day. They are harmless in hot as well as cool weather and can be carried in your purse and taken even after you have indulged in a hearty meal away from home. They are sold at all drug stores at 75 cents a case, or if you prefer you may write the Marmola Company, 854 Farmer Bldg., Detroit, Mich.

**WAUMBKE AND COTTAGES**  
 Jefferson, N. H. in the White Mountain. Capacity 500. NOW OPEN. 18-hole golf course. On famous scenic auto route. Detailed family cottages completely furnished, with hotel service. CHARLES W. MURPHY, Manager.

## DEADLY ANAEMIA

Casts a Shadow Over the Lives of  
Thousands of Women and  
Growing Girls.

"Not enough blood" is the simple meaning of the term anaemia, though it should scarcely need explaining, for, unfortunately, anaemia is one of the greatest evils in this country, afflicting women of all ages, including young girls. The signs of bloodlessness are plain enough—pallid lips and cheeks, and aching back, frequent headaches, with breathlessness, heart palpitation and great weakness. The only effective treatment is to strengthen and build up the blood, and it is just by this power of making new, rich blood that Dr. Williams' Pink Pills have cured anaemia in more cases than it is possible to place on record. Among the host cured of this trouble by Dr. Williams' Pink Pills is Miss C. N. Roberge, of Sorel, Que., who had been in poor health for several years. Miss Roberge says: "I believe that it I had not taken Dr. Williams' Pink Pills my illness would have proved fatal. The trouble came on so gradually that I can scarcely tell the point at which it did begin. The first noticeable symptom was loss of color and a feeling of lassitude. Then I began to lose my appetite, had frequent headaches, and spells of dizziness, and became unable to do any housework without being completely exhausted. Finally my trouble became aggravated by a persistent cough. I took several kinds of medicine, but did not get any relief. At last I was advised to try Dr. Williams' Pink Pills and decided to do so. After I had taken several boxes there was a noticeable improvement in my condition and I continued using the Pills until I had taken nine boxes. The result in my opinion was marvellous. My appetite returned, my nerves were strengthened, my weight increased, headaches disappeared, and I am enjoying the best health of my life. In gratitude for what Dr. Williams' Pink Pills have done for me I give this statement in the hope that it may bring new health to some other sufferer."

Dr. Williams' Pink Pills cure all those troubles due to poor blood, such as anaemia, indigestion, rheumatism, neuralgia, St. Vitus dance, partial paralysis, and the troubles which attack girls budding into womanhood and women of mature years. Sold by medicine dealers everywhere, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### AN UNFORTUNATE ABLUTION.

It is an authentic anecdote of Hogarth that he was wont to make certain miniature sketches on his thumbnail, to be elaborated at an after time. A certain dramatist followed the practice. He would write a plot in the same limited space in shorthand. He was once consulted on a new drama by a manager.

"I have it," the writer exclaimed; and he immediately marked the plot upon his thumb nail. Weeks passed, but no play was presented. The manager consulted the author.

"Now, about the piece! It's done of course; you took it on your thumb nail!"

"To be sure," replied the author, "and there it was for some time; but as ill luck would have it, I one morning unfortunately—washed my hands."

### A Seasonable Suggestion

Holt, Renfrew & Co., Ltd.

## FREAK CARRIAGES.

Vehicles Built by Rich Men and Women Often Very Striking.

The bored rich, in search of new sensations, have of late been turning their attention to the designing of freak motor-cars. While, however, some of the ideas which have been carried out are extremely novel and ingenious, they are scarcely likely to become popular, for, as one writer remarks in regard to the latest thing in motor-cars—a little auto-cab which has been made to fit a wealthy American lady like a tailor-made costume, being only 28 inches wide and 56 inches high—"very few people want to be helped into their cars with a shoe-horn every time they have had an extra lunch."

Then, again, a novel motor-car designed and owned by a gentleman of Calcutta simply adds to the noise of the ordinary motor-car, which so often offends sensitive ears. On this motor-car, which, by the way, cost \$12,500, the usual bonnet is covered by the enormous figure of a swan, the eyes of which are composed of prism lenses, which are lit up at night by electricity. The beak is made so that the exhaust can be sent through it, causing a noise like the hiss of a steam jet on a dark night, it is liable to cause as much fright amongst quiet-going people as a Canadian dummy horse-car which was exhibited some time ago. The dummy horse was fixed to the front of the car, the horn being attached to the dummy's mouth, while at night the eyes were lit up, a pair of brilliant green and red orbs glaring at passing vehicles.

Some of the novelties in motor-cars, however, take a more practical and useful shape. Amongst the cars, for instance, possessed by the late King of the Belgians, who was a most ardent automobilist, was an elaborate gipsy-van which contained three rooms—a parlor and bedroom and a room for the King's valet. The machine was capable of developing 30 h-p., ensuring a speed of from thirty-five to forty-five miles an hour. Altogether the vehicle cost \$30,000.

And talking of caravans reminds one that the Duke of Newcastle, some time ago, had the most elaborately-fitted of traveling caravans built, which, however, was moved by horse-power. It contained a cooking-range, piano, typewriter, and a dark room, together with accommodation for three persons, in the moderate space of 15 feet by 7 feet, and cost \$3,500.

Four years ago the Duke of Fife had built for him, at a cost of \$10,000, a 60-h.p. motor, which was designed as far as possible to combine the advantages of a railway saloon with the luxury of an apartment in a royal palace. At the back of the carriage was a couch with soft cushions, upon which a passenger could take a siesta at full length. The seats were of the armchair pattern, and were so constructed that the occupants could look out in any direction. The doors opened with nickel-silver handles; soft Turkish carpets covered the floor, and among the fittings were ladies' companions and smoking fittings galore.

Amongst the wonders of the Motor-Car Show at Olympia, London, four years ago were King Edward's specially-constructed shooting car and the Prince of Wales's picnic car, with folding adjustable tables for luncheon or tea.

The French Chocolate King, M. Menier, owns a wonderful motor-car, which is a small hotel on wheels. It is divided into two parts, bed-sitting room, with secret folding beds, and a dressing-room and kitchen with every possible accessory for toilet and cooking. It reminds one very much of the three-roomed flat on wheels in which M. de Fabreque, the well-known millionaire automobile manufacturer of Marseilles, went for a novel holiday jaunt through Europe three years ago. This traveling flat is a combination automobile and home. It contains two sleeping-rooms, which, in the daytime can be converted into large sitting-rooms. There are also a bathroom, dressing-room, and in the rear a complete kitchen, with cooking-range, pantry, and scullery.

### Norway Hotel System.

There is a capital hotel system in vogue in certain parts of Norway. In villages where no hotel exists one of the more prominent inhabitants is subsidized by the Norwegian Government and in return is bound to provide accommodation for not fewer than four travelers. He may take in more if he chooses, but four is the minimum. The accommodation and food supplied are excellent and the charges moderate.

# TWO DESPERATE CASES

## These Two Men Owe Their Lives To GIN PILLS.

Stone in the bladder is a direct result of kidney trouble—one of the results of neglecting the kidneys that have taken cold or are slightly out of order. Mr. Hernan and Mr. Lessard whose letters are given below, were in a bad way until they tried GIN PILLS which cured their trouble by removing the cause.

There is no other kidney pill anywhere that has the merits of GIN PILLS. Sick and diseased kidneys respond quickly to their treatment. Many a case of incipient Brights or Diabetes has been cured by them. They cleanse, restore and build up the entire urinary tract.

573 JAMES ST. NORTH, HAMILTON, ONT.

Gentlemen,

Four years ago I was taken down with Inflammation of the Bladder. During the attacks, which occurred more and more frequently, the agony was unbearable, and I became so weak I could not walk across the floor. The doctors could do nothing to relieve or cure me.

My wife sent for a box of GIN PILLS to try and see if they would help me. From the first they did me good—the pain was relieved at once, and the attacks began to come at longer intervals. I continued taking the pills for six weeks, and then, to my surprise and delight, the stone I sent you some time ago came from me and my pain stopped. It is now three years since GIN PILLS cured me. I have had no return of the trouble, and I have not lost a day's work on account of it since.

There is not the slightest doubt that GIN PILLS saved my life. Yours gratefully, JOHN HERMAN.

GIN PILLS are no un-tried, doubtful remedy. GIN PILLS have been used for years by thousands in every section of Canada. They are guaranteed by the largest wholesale drug houses in the world—and your money will be promptly refunded if GIN PILLS fail to give relief as guaranteed. 50c a box—6 for \$2.50. Sent on receipt of regular retail price if you are unable to get GIN PILLS in your neighborhood. Sample box absolutely free to all sufferers from kidney and bladder troubles. Pain in the back in the region of the kidneys, swollen joints, Rheumatism, Lumbago, non-retention of urine, Brick Dust Deposits, Mucous or Bloody urine, etc., if you write National Drug and Chemical Co., of Canada, Limited, Dept. Q.C., Toronto, Ont.

JOLIETTE, P.O.

"During August last, I went to Montreal to consult a specialist as I had been suffering terribly with stone in the Bladder.

He decided to operate but said the stone was too large to remove and too hard to crush. I returned home and was recommended by a friend to try GIN PILLS.

They relieved the pain. I took two boxes and went back to the specialist. He said the stone was smaller but he could not remove it although he tried for two hours and a half. I returned home and continued to take GIN PILLS, and to my great surprise and joy, I passed the stone.

GIN PILLS are the best medicine in the world and because they did me so much good, I will recommend them all the rest of my life."

J. ALBERT LESSARD.

### SUITED BY LENGTH.

It was one of those rare, red-letter days which come occasionally into the great musician's life. His platform triumphs were almost daily occurrences. His receptions, invitations, at homes, compliments—all these had become the merest trivialities of his existence. But when, after weeks of careful deliberation, he decided to have his hair cut, the occasion was indeed worth remembering. So much so, in fact, that he consented to take his youngest hope with him to the hairdresser's.

"Snip! Snip! The great curls quivered and, one by one, shed their way glories to the ground. The musician nearly wept to see them go.

"Oh, daddy," cried his youngest hope, suddenly, "could I have one?"

His father smiled happily, while the barber exclaimed:

"Dear little fellow! 'Ow touchin'—oh, 'ow touchin'! And do you want to treasure it?" He continued, nearly snipping off the musician's ear in his emotion, "so that in years to come, you can say, 'Be'old, my parent's 'air!'?"

"No fear, silly!" replied the child. "I want it for a new tail for my rocking-horse."

### Children Cry FOR FLETCHER'S CASTORIA

### MOLDED BY CIRCUMSTANCES.

At the grammar school I used to believe all that I was taught. But very often I made an awful misunderstanding. For instance, our Reader said: "The human nature is just like the water. If you put the water into a square vessel the water will become square; and if you put it into a round vessel the water will have a round shape. Boys and girls, therefore, you must choose your friends."

No sooner than the school hour was over, I ran to my neighbor who had a newly born baby. I told the mother, "Don't put your baby in a hard, flat bed; her figure will become flat."

# A Typewriter For Nothing?

Not exactly, but pretty near. Just listen, cut out this ad and sign your name and mail it to us, and if your name is amongst the first ten applicants we will sell you a typewriter for cost price. This is one of the very best chances ever offered to get a typewriter at the lowest price. All our machines are guaranteed. All makes supplied. All prices from \$25 up.

**BETTER PRISONS ARE WANTED**

Governor of Massachusetts Pleads for Institutions That Will Correct the Erring.

Because he believes that Massachusetts should take the initiative in instituting a new modernized and scientific method of dealing with offenders against the laws is Governor Eugene N. Foss' reason for having pardoned thirty-five prisoners during the six months he has been in office.

"I want to see the old Bay State the first to adopt a system which will correct, not punish; which will be based on the sense of honor inborn in most men; which will hold out to every delinquent the shining light of hope," the Governor says. He hopes the State will soon establish a uniform scale of pardons for those in jail which will hold out hope to all prisoners.

He calls the existing system obsolete and characterizes it as totally inadequate. He considers it as founded on wrong principles.

He believes that the time is close at hand when a great reformation will take place, and will wipe out prisons, do away with reform schools, which, it has been said, are little better than schools for crime, and which will put every criminal man and woman upon his or her honor.

Remembering the fact that many criminals are hardened that honor, as understood among normal persons, is now an almost meaningless term to criminals, Governor Foss yet believes that the honor system is the only rational, humane and effective one.

"I am trying to show that kindness is more effective than harshness," continued the Governor. "There may be those who will say that this is merely theorizing, but the theory is one that works out in practice. Being a correct theory, it must work out in practice, if practised judiciously.

"I do not believe in saying to every criminal, 'Go, you are free.' That would be absurd, for that would be putting a sort of premium on crime. I believe in saying, 'You have done wrong, you deserve to be punished, but we are going to try to have you do better in future.'

**NATURE'S FUNNY WAY.**

Sells Us Gold Brick After Gold Brick Without Changing Pattern.

Nature has the funniest way of making monkeys of us mortals. She certainly must enjoy scaring us half to death and seeing how easily it can be done. She sells us precisely the same

pattern of gold brick every few weeks in the course of every year.

Last year, however, just to show that she wasn't confined to the old routine of scares, she rang in a comet with a perfectly good cyanogen tail. She induced a few highbrows to speculate on the poisonousness of that tail and probable results if it should be of a certain degree of density. Nature knew our density, so the only speculation was as to that of the comet's appendage.

Well, we died, all of us, in anticipation. The weaker, franker, ones die the most noticeably and openly. The rest of us died in secret. Every one of us speculated a little on how it would seem to be wiped out in one playful puff of purple poison.

Then the comet went by. Nobody would have known it if public attention had not been called to it, and we went right on living.

Now as the summer is beginning we are starting in for our usual number of deaths by universal and long-sustained drouths. Of course, the last one, which threatened us so seriously, is broken. So was the one before that and the one before—that why continue? The drouth we have on hand at the time is the only one of the lot that hasn't been broken. That's the only way it differs from the others.

The alarmists get really worked up over each one. I suppose there has not been a summer in the last several thousand years when somebody didn't foresee a drouth, that would put an end to the race. I apprehend that away back in Noah's youth they saw drouths coming. Even Noah himself probably himself looked on a copper sky and wiped the perspiration from his brow and said:

"Well, this is the time it's got us. My father often said the rains had stopped for sure, owing to the deforming of the country, and I thought he was foolish. Also my father was fooled, for it rained afterward. But this time—well, it looks bad, that's all."

Noah knew there wasn't ever going to be any more rain. Then see what Noah got. Didn't he have the soaking of his life, just for that?

Now, I have noticed—and maybe you have noticed too—that every drouth ends with a rain. Did you ever know one to end any other way? —Strickland W. Gillilan, in Chicago News.

**DIAMONDS GOING UP.**

The prices of polished diamonds are controlled by prices of the rough stones and are really made in London, where the products of diamond mines are assembled. The increasing number of workers in recent years, independent of the diamond trade societies and disregarding the societies' rules regarding rate of wages, etc., has so far had no apparent effect, and may have no future effect in raising prices. In fact, dealers report increasing prices and state that they are 10 to 12 per cent. higher than a year ago, excepting those of small stones, like melets, which are practically the same.

**Important to Grocers and Consumers!**

The absolute purity and healthfulness of

**BAKER'S COCOA and CHOCOLATE**

are guaranteed under the pure food laws of Canada. Made by a perfect mechanical process, they are unequalled for delicacy of flavor and food value.

The New Mills at Montreal are now in operation and for the convenience of the Canadian trade we have established Distributing Points at Montreal, Winnipeg, Vancouver

**WALTER BAKER & CO. LIMITED**

ESTABLISHED 1760 DORCHESTER, MASS.

Canadian Mills at 1000 ALBERT STREET, MONTREAL

These informants believe that prices will continue to advance, as nothing is in sight which might prove to be a check.

Two explanations of the advancing prices are made to the consulate. First the syndicate controlling the rough-diamond market limits production in order to increase its profits. Second, the yield of the diamond mines, as a whole, is decreasing; the Kimberly mine is virtually exhausted of the best stones. Those explanations are given according to the respective viewpoint of the parties who offer them.

**COAL! Stove, Egg and Chesnut**

### DAME G. d'AUTEUIL

Weak and discouraged, Mrs. Guillaume d'Auteuil gains by the use of

### St. Michel's Wine

renewed strength and vitality.

The joys of motherhood often cause pain, fatigue and losses which produce exhaustion, nervous depression and the impoverishment of the blood causing serious anemia and weakness.

The following letter tells how Mrs. Guillaume d'Auteuil, following the example of many mothers, has recovered from weakness from which she was suffering.

These are her own words:

Messrs. Boivin, Wilson & Co., Montreal. Gentlemen—After the birth of my first child, I was extremely weak; I had great difficulty in walking, I was deeply discouraged, when my husband having one day read the testimonials of several women in the same condition as I was, who owed their restoration to health to ST. MICHEL'S WINE, became convinced of the value of this famous restorer and bought me some. After having taken one glass before each meal during eight days, I felt that my strength was coming back. Being encouraged, I took a third bottle and now I can attend to my work without fatigue and I am feeling very well.

MRS. GUILLAUME D'AUTEUIL, St. Honore, Temiscouata Co., P.Q.

P.S.—I am sending you a photograph to prove that I have really been cured by ST. MICHEL'S WINE. You may publish my testimony if you so desire.

All mothers or housewives who have to assume the burden of their household should regularly take St. Michel's Wine, to repair the loss of strength caused by fatigue and worry. When health departs, the happiness, joy and pleasure of life also vanishes. This is why it is extremely important to be in good health. St. Michel's Wine, will restore health and strength to mothers. The fact is proven by thousands of people.

## WHY WARMER WINTERS ARE DUE

Polar Regions Retreating as Result of Alteration in Earth's Axis.

"Why We May Expect Warmer Winters" is the comforting title of a pamphlet published by Major R. A. Marriott.

Capt. Scott, writes Major Marriott, "on his return from the Antarctic expedition, emphasized the rapidity with which the south polar ice was retreating. It is a well known fact that in the northern regions a similar condition of things is taking place.

"In Canada certain lands bordering on the north have been hitherto reported too icebound for agricultural operations, but large tracts have now been found to present favorable climatic conditions owing to some change that has taken place. Iceland now bears its name, for in mid-December, 191, there was no snow and scarcely any frost."

Major Marriott suggests that the change is due to the diminishing obliquity of the earth's axis.

In two diagrams he depicts the world at different stages of its history, first in the year 135 B.C., when the globe swung at an inclination of 35 degrees. The polar regions then occupied a far greater extent than they do to-day, and the glacial epoch was reigning over the earth. The other diagram shows the present obliquity of 23 degrees, with the polar regions considerably shrunken.

"The year 2295 A.D." continues Major Marriott, "marks the apex of the general period, when the contrast between summer and winter will be least. This year is only 385 years ahead of us, and we might reasonably expect each century of approach to show some slight modification of climate."

### LAZIEST PLAYER YET WAS BIG BILL BURNS

When Big Bill Burns, sometimes called the richest man in baseball, was decorated with the royal order of "can" by the Cincinnati Reds the news did not come as a surprise to any of his former employers, for the San Saba king is considered a close rival to Jacklitch, the former Brooklyn catcher, when it comes to being the laziest "gazabo" in baseball, says a writer in Sporting News.

Bill never did show any unusual desire for work while with Cincinnati, but the last straw came during the Red's series with Brooklyn when ordered to go out and warm up. He started to do as ordered, but after tossing a few over sat on the clubhouse steps and went asleep.

The game went on for an inning or so and finally Santa Claus Grif decided to send Burns to the mound. He went out to look for him and found the southpaw peacefully dreaming of his Texas steers. It was too much for the Fox, so he sent Burns back to Cincinnati and later turned him over to Philadelphia when Dooin refused to waive on him.

Burns pulled a similar stunt while with Washington, but this time it was during a game. The Nationals were performing at Chicago and with the score 1 to 0 in favor of the Nationals Burns was called to go to the box. He shut the Sox out during the round and then went to sleep on the bench while his teammates were batting. He had to be called when it was time for him to go in again. Incidentally, Chicago made two runs and won the game in this inning.

### A NEW TYPE OF BATTLESHIPS

The approaching doom of the battleship of the Dreadnought and super-dreadnought type has become a live question in British naval circles, in which Sir Philip Watts, admiralty director of naval construction, is credited with having designed already an entirely new type of fighting ship.

Next year's naval programme anticipates the retention of the all big-gun principle, but it is believed that the ships will be considerably smaller in displacement averaging between 17,000 and 18,000 tons. It is expected that this new type will be superior to the present battleships in fighting in shallow waters, and through the fact that it will not offer such a fine target for the enemy as the dreadnoughts now in commission.

The armament of the new type will be the same as the present monsters with their six 15-inch guns and heavy anti-torpedo batteries. Through the use of the combination turbine and reciprocating engines, which have proved so satisfactory on the new passenger liners, it is expected that the new battleships will make a speed of from 34 to 36 knots.

### NEW SALVATION ARMY.

A new departure in the Salvation Army in the United States will be witnessed at noon to-morrow, when Commander Eva Booth, leader of the army in America, will dedicate the first boat of the Salvation navy at the Battery. The dedication will be preceded by a half hour band concert by the national staff band and an open-air massmeeting which will be attended by the Salvation Army national staff and all its Greater New York forces. The yacht, which is the gift of the architect Bradford Lee Gilbert, will, after the service of dedication start on a cruise along the Atlantic Coast. It will stop at cities and towns for open-air services and wharf meetings and to distribute Salvation Army leaflets. Major Erickson, a former sailor, will command a small crew, chiefly of Salvationists.

Commander Booth says the Salvation navy is to become an important part of the army's operations in the U. S. She expects this yacht to be the nucleus of a considerable fleet.

## SUCCESS WON ONLY BY WORK

Find Out What You Are Good For, Then Work At It With All Your Worth.

There is a strong human touch about the answers which a number of intellectual Frenchmen have given to a question submitted by Je Sais Tout, a popular Paris periodical. They were asked what influence they thought chance had on each individual's life; in other words, for how much luck stands in any one's career.

The replies to this very debatable question show that those who have been most successful in life generally think that chance has less to do with success than industry and perseverance. Jules Lemaitre, for instance, thinks that there is really no such thing as chance. "What we call luck is," he says, "belief in some equalizing power; an idea born of the innate instinct of justice in man."

Jules Claretie, on the other hand, admits that chance is a powerful factor, but that it is easy to exaggerate its influence. "Many an officer," he says, "has found himself a hero because his battery or company happened to get a good position. Many an author has got his work accepted because he unexpectedly found the public receptive to his particular vein. But the best chance is—work."

Paul Deroulede's opinion is that one quarter luck is needed to three-quarters perseverance. Maurice Donnay thinks chance plays a very small part. "What is necessary," he says, "is for a man to find out what he was made for. Every man is made to fit some purpose. Few find out what they are meant for. Find your aim and then work at it for all you are worth."

Dr. Doyen agrees in the main with Donnay. Others again, like Maeterlinck and Xavier Leroux are inclined to the belief that chance plays a very prominent part indeed. Prof. Richet, of the Academy of Medicine, reduces the question to figures.

"Success," he says, "is made up of intelligence, capacity and luck. At chess talent means 100 per cent and chance nil; but at roulette chance means 100 per cent and talent nil. Between these two extremes lie all possibilities. Success, I should say, needs 60 per cent intelligence, 10 per cent industry and 30 per cent luck. But these figures should be taken as products, not as additions. If any of these three faculties or powers is nil then the result will be nil, too. After all is said and done the question whether we have been born intelligent is itself a matter of chance or luck. There is no worse stroke of bad luck than to be born a fool."

The composer Massenet's answer is laconic and worldly wise: "Yes, I believe in luck—especially in others."

### SPECIAL TRAIN TO CAP ROUGE.

Special train will leave via Canadian Northern-Quebec Railway, Sunday, July 16th, at 2.15 p.m., returning will leave Cap Rouge at 6 p.m. Train will stop at property. Do not miss this excellent opportunity of inspecting these choice lots, size 35x115. Price \$50 up.

## To All Present Automobile Owners And those Who intend to Own Cars

ON Monday April 17th, I held the formal opening of my magnificent new garage at 426 St. Paul St. All present Automobile Owners, as well as those who intend to own cars in some future time, are cordially invited to attend this opening exhibition.

<p><b>THE SPEEDWELL</b></p> <p>car is a 50 H.P. motor, 4 cylinder car fully guaranteed and equal to the highest priced cars made at any price. Catalogues on request. Prices ..... <b>\$2500 to \$3500</b></p>	<p>The high reputation of the "Speedwell" and "Everett" cars places them upon a plane above the general run of automobiles selling at moderate prices. For these two brands I am the exclusive selling agent for Quebec and the surrounding district.</p> <p>I will also carry a complete stock of Automobile Supplies and Accessories, including the famous "Stepney" Tires of English manufacture, the peerless French make, "Gaulois," and the American, "Goodrich" tires.</p> <p>Those wishing to rent automobiles by the hour, day or week, may take advantage of the first-class service and low prices prevailing at my new garage.</p> <p>Those not possessed of private garages may make use of my facilities. Specially low rates for taking in and looking after privately owned cars.</p>	<p><b>THE EVERETT</b></p> <p>car is the only car which is entirely made in Canada. This effects a saving of 35 p.c. duty, providing the best possible value for the money. Prices ..... <b>\$1450 &amp; \$1500</b></p>
