MOVE FOR LOWER WATER RATES WILL SOON BE MADE

Alderman Duquette Has a Plan Which He Will Soon Put Forward.

CLAIMS HE WILL HAVE MANY TO SUPPORT HIM.

Reassembling of Aldermen After the Holidays Will be Followed by Prompt Steps.

From events which transpired at the City Hall to-day it was demonstrated that so soon as the aldermen get back from their holidays that the question of reducing the water rates will be taken up in good earnest.

There is not the slightest doubt but that the City Council will be called upon to cast its vote on a motion asking for a decided reduction in the rates. When this vote is polled it will be seen just who favor a reduction and who still desire to keep the rates up.

Ald. Duquette said to-day "In two weeks hence I shall present a written motion to Council asking that the water rates be remodelled."

"In what way do you desire to reduce the rates?" was asked

Ald. Duquette "I do not desire at the present time to go into explanations of my plan; I can say, however, that my motion will be of a nature that a decided and satisfactory reduction in the rates will be asked. I feel that there is a strong demand on the part of the public for a reduction. I do not think it will satisfy the citizens if a little better terms are given. It is certain that the public does not take kindly to the fact that the city every year makes fully a quarter of a million dollars profit on the sale of water. Such a profit, I admit, is enormous.

"I know that many aldermen claim the rates should not be reduced because the city cannot afford to decrease the revenue. This is all very well in its way, at the same time it is not fair that an enormous revenue should be raised on selling water. If we part with some revenue by reducing the water rates we shall have to raise revenue in some other manner. If other cities can afford to sell water at lower rates than Montreal, there should be some plan to sell cheap water here.

"In all large cities in the United States and in Europe the principle of selling water at cost has been readily admitted. From an hygienic point of view the aldermen should decide that citizens should get a bountiful supply of water at the most reasonable rates."

Continuing, Ald. Duquette said he believed that the feeling of the majority of the Council was that the rates would have to come down; in fact he believed his motion would carry.

Several members of Council being interviewed in regard to a reduction in the rates, said they would vote for any motion asking a reduction. The taxpayers, at the last civic elections had been promised a reduction; some reform in the matter had been made, but a really satisfactory cutting down of the rates had not been effected. The elections would soon be around again and if the aldermen were wise they would vote to cut down the rates. They pointed out that after all the aldermen were sent to Council to do as electors desired, that there was a strong desire to have the rates reduced was apparent on every hand. They thought that before many weeks hence a motion would be carried in Council making a decided cut. It was almost certain that soon after the rates were made lower a motion would be made in Council to raise additional revenue by levying new taxes on concerns that now paid no special taxes.

It was very probable that a motion would be made to slightly increase the real estate tax. Were such a motion carried the aldermen in the future, would not have to worry about money in order to keep the streets in good repair.

A city father will submit a plan to Council asking that the water tax remain as it is at present, but that landlords pay it; in turn they would have to collect it from tenants with the rent. This alderman points out that if this plan were adopted that the city would not lose a very large amount every year by the water taxes not being paid. He also holds that citizens would scarcely feel any burden if they paid the water tax in with their rent every month.

CHASE AFTER A STEAMER.

Papers for Seizure of Dorothy Issued But She Escaped.

Special to the Montreal Star.

Kingston, Ont., August 24. — There was an interesting chase yesterday after the steamer Dorothy, of Wilmington, Delaware, which recently had a collision with the steamer Plummer, of the Lake and Ocean Navigation Company, Toronto, on the St. Lawrence. The latter company have been awaiting a chance to seize the Dorothy for the damage done to the Plummer. They instructed a local legal firm to have her seized when she touched here yesterday. The necessary papers were procured, but the parties interested were attending the funeral of the late United States Consul when the Dorothy reached the Government wharf. They reached the wharf in time to see the Dorothy's stern up the harbor. The lawyer took the first train west for the purpose of heading off the United States vessel at Port Dalhousie and seizing her.

HE WILL BE TAKEN BEFORE A CHURCH COURT FOR TRIAL

A Sequel to the Shop Window Wedding Case Before the Methodist Church.

REV. MR. ARMSTRONG TO ANSWER CHARGES.

Accused of Seeking to Procure Performance Described as of Demoralizing Character.

A sequel to the marriage ceremony which took place in the window of a city shop about two months ago, will be found in specific charges which are to be made against Rev. John Armstrong, of Hochelaga Methodist Church, the minister who performed the ceremony.

The charges have been formulated, and will be laid before a committee of the Montreal Conference immediately upon the return of Rev. Melvin Taylor, chairman of the district, who has been in England for some time.

REV. MELVIN TAYLOR,

Chairman of the court which will hear charges against Rev. John Armstrong.

When publicity was given to the wedding, much indignation was expressed both among Roman Catholic and Protestant clergy, and it was thought at the time that the Methodist Church, as such, would take some action.

It is now explained that it was thought best to wait until Rev. M. Taylor came back, so that the action may be legal from a church conference standpoint. Meanwhile, Rev. Mr. Thomas, pastor of the Lachute Methodist Church, has accepted the responsibilities of complainant, and it is understood that it was he who actually drew up the charges.

When asked if he would make a statement to the Star for publication, Mr. Thomas said he would prefer not to say anything at the present time, but that before the court which will be convened by the chairman, he will declare himself.

The whole matter will be made the subject of such a formal enquiry that it will assume the character of a court of special jurisdiction, with power to suspend Rev. M. Armstrong or reprimand him in any degree decided upon. In case of the decision being unfavorable to Mr. Armstrong, he will have the right to appeal to the General Conference.

The actual charge against him is that he sought to procure a performance described as being of a demoralizing character, and with agreeing with other persons to procure the use of the ministerial office, which the accused holds, for monetary purposes.

The charges claim that his action constituted a scandalous abuse of the ministerial office; violated public decency, and is out of harmony with moral and ecclesiastical discipline and usage.

Rev. Mr. Taylor is expected home from England in a week's time, and it is expected that the trial will take place shortly afterwards.

Rev. Mr. Armstrong is a superannuated minister of the Methodist body, but has the right to the pastorate of a church.

NEW YORK DISAPPOINTED.

Regrets Change in Programme of Visit of British Squadron.

Special to The Montreal Star.

New York, August 24.—Great dissatisfaction is expressed here over the action of Secretary Bonaparte, of the Navy Department, in changing the arrangements for the reception of the British squadron. The whole city was ready to take part in welcoming the sailors, and the disappointment is very keen. New Yorkers had decided to make the affair a memorable one.

Special to The Montreal Star.

Newport, R. I., August 24. — News that the visit of the British squadron will be made to Newport during the latter part of October or early in November was received with many expressions of regret at clubs and elsewhere. It had been understood that the fleet would visit New York and would not come to Newport at all, and many cottagers had partly arranged to assist in making the stay of Prince Louis and his officers as pleasant as possible in their winter homes. Now that the programme has been changed, and the fleet is to come to Newport, cottagers hardly know what to do. There are usually quite a number lingering here as late as November 1, and it is likely that a large number of others will now arrange to keep their villas open so as to be here when the fleet is in port. It is probable also that some will return here and reopen their houses temporarily.

Storm Centre of Negotiations Shifts From Portsmouth to St. Petersburg and Peace or War Hinges on Czar's Decision.

From a Special Correspondent of the Montreal Star.

Portsmouth, N.H., August 24.—The peace conference is not in session today. The adjournment from yesterday afternoon until Saturday, was made necessary by the presentation of modified terms, by the Japanese, which it was necessary for the Russian envoys to communicate to the Czar. It does not follow that the modifications are of very great importance. Indeed, M. Witte intimated yesterday that a change of form rather than an change of essence was involved.

Unreasonable optimism has given place to more reasonable pessimism within twenty-four hours.

The understanding of the Japanese concessions is that, the old demands regarding Sakhalin and indemnity, have been combined and that the Japanese propose to barter Sakhalin for a sum of money to pay their war expenses. This sum is said to exceed $500,000,000. It is said positively that the proposal was not made at the instance of President Roosevelt, and that it is probably was first made direct from Tokio to St. Petersburg.

The Japanese want peace. The Russian view to-day, is that Sakhalin is hers by right and that she cannot with dignity and honor buy it back. She sees in the proposal of a sale of this kind just the old indemnity in a new form. The Russian envoys to-day seem to be in a position absolutely uncompromising, and only word from St. Petersburg can change their position. Japan needs the money. For sentimental reasons, and for other reasons of a more materialistic sort she wants to retain the Island of Sakhalin. The people of Japan would be disappointed, with a peace that involved the restoration of even a part of it to Russia.

On the other hand, it has been said here, with great positiveness, that M. Witte would not dare to go back to Russia if he accepted terms which would be agreeable to Japan in her present state of mind.

There are those who assert that in spite of his desiring peace M. Witte is determined that Russia will not pay a kopeck in the way of indemnity, that he would put his duty as a patriotic Russian before his duty as a minister.

APPEAL TO PETERHOF.

It now appears that the appeal of the President has been to Peterhof, and not to Portsmouth, and that Ambassador Meyer saw the Emperor after receiving a telegram of instructions from Oyster Bay. M. Witte's announcement came later in the day at a time of great excitement, when everybody was on the tip-toe of expectation, on hearing that the envoys had left the Navy Yard.

His Excellency prefaced his account of what had been done by saying, "We have accomplished nothing. We have arrived nowhere."

This was most significant, coming, as it did, on the top of the presentation of the modified terms of the Japanese.

Here a significant detail must be noted. It has been said that M. Witte's attitude might be only a diplomatic bluff, and that in due time he would recede from his position rather than have the war go on. It was said, however, last night on good authority, Mr. Takahira made the remark after adjournment. "The situation is hopeless." Later on, when asked to confirm or deny this, the Japanese envoy said, "I would prefer to have you speak to Mr. Sato about that."

DIPLOMATIC MOVE.

It is said in certain quarters here that the Japanese, in putting forward the suggestion that the northern half of Sakhalin, or the part held by her in 1875, should be purchased by Russia, in lieu of paying of an indemnity, did so with the sure knowledge that Mr. Witte would reject it emphatically.

At the same time, this would be a good diplomatic move and one likely to convince the civilized world that the envoys of the Mikado were anxious to display the spirit of conciliation which the President had suggested to both parties at the meeting on the Mayflower. At the same time, there was nothing to be lost or risked in putting forward a plan which, because of its containing provisions for the payment of a concealed indemnity, was impossible, unless a radical change took place in the ideas of the other side. Besides, there was a logical objection to the Sakhalin plan, even if it were quite unobjectionable, in every other respect. If the principle of the limitation of Russia's sea power in the Pacific were to be involved in a treaty, Northern Sakhalin would be worthless as a possession.

M. Korostovotz, when seen to-day, said: "Nothing has occurred to change the situation, and I feel that nothing is likely to occur, until the meeting of the conference on Saturday. We are receiving and sending a great many dispatches."

JAPANESE CONCESSIONS.

The feeling here, is that the alleged Japanese concessions, instead of conciliating the Russians, have the very opposite effect. So that considering his views, on the vital subject of the indemnity, M. Witte was only expressing his real sentiments, when he said that the conference had not accomplished anything. Of course, a great deal had been done. Russia and Japan had found out where they stand on a number of points. They had even been able to agree on some. But all this must go for nothing, as long as the crucial difficulty could not be removed.

There has been talk here of another ingenious plan. It is this: Let Japan keep Sakhalin and waive indemnity. It is said that the sale of the mining rights on the Island would net her an enormous sum, which would more than cover all her war expenses. But how about the determination of the Czar not to give his consent to the cession of a part of Russian territory? Besides, Japan is now in possession of this land, and could hardly be expected to waive the advantage that the fact gives her.

DEBT OF HONOR.

In her present frame of mind Russia will do only one thing. She will pay the expenses of the thousands of prisoners on the hands of the Japanese. That she regards as a debt of honor. On the other hand, she regards an indemnity as dishonorable to her as a nation. She contends that it is contrary to all precedents to pay off a reimbursement until an opponent has been "vanquished." Those subtle distinctions between "defeat" and the other thing. In the same way an indemnity of $600,000,000 would be no more tolerated to Russia than one of $1,000,000,000. Russia is as careless of money as of men. It is the principle of the thing that she is thinking of. "Not a kopeck," says M. Witte; "Not a cent," says M. Martens, who is next to the envoys themselves, perhaps the most influential members of the party. The detailed account of the activity of the President in the course of this week, demonstrates that at the very time when he was alleged untruthfully to be bringing pressure to bear on the envoys here he was doing nothing of the kind, but using his persuasion in quite another direction.

Cheering Citizens Greet the Prince in the Capital To-day

Special to the Montreal Star.

Ottawa, Ont., August 24.—A great crowd of cheering citizens of the capital greeted His Serene Highness Prince Louis of Battenberg when he arrived at the Central Railway Station at 11.45 to-day, over the C. P. R. short line. The people of the Capital are manifesting great interest in the brief visit of the Prince, and decorations were being put up this morning, with feverish haste on all the public buildings, and on many places of business.

The Prince was met at the station by Sir Wilfrid Laurier, Sir Ferderick Borden, Hon. W. S. Fielding, Hon. Sydney Fisher, General Lake, Lieut.-Col. Vidal, Mr. Mackenzie King, President of the Canadian Club.

Lieut.-Col. Sherwood, Aldermen Black and Desjardins, representing the city, members of the committee which has in hand the plans for the celebration, and many other officials and citizens of prominence.

When the train pulled in, Sir Wilfrid Laurier introduced the Ministers and others, and after a few minutes spent in conversation, the Prince and those accompanying him entered a carriage and drove to Rideau Hall. The distinguished visitor was greeted with loud cheers along the route.

After a luncheon by the Canadian Club, at one o'clock, the Prince will visit the City Hall, where a civic address will be read. This evening Prince Louis will be dined by Chief Justice Taschereau.

The invited guests will include the members of the Cabinet, the Judges of the Supreme Court, and the members of the Military staff. The blue jackets will arrive at 4.15 this afternoon. All is in readiness for their reception.

DEATH OF MRS. STANFORD.

Honolulu, August 24.—The tragic death of Mrs. Leland Stanford has been recalled by a sensational story published here to the effect that representatives of Stanford estate practically offered monetary inducements to local physicians to change their opinion that strychnine caused the death of Mrs. Stanford. It is alleged that the bill of $150 of Doctor C. B. Wood, who performed the autopsy on the body of Mrs. Stanford, has been refused payment by the estate on the ground that teritorial authorities should have performed the autopsy. Dr. Wood declared that he was employed in behalf of the estate by Dr. Humphries and the latter said that he considered the refusal to pay Dr. Wood to be amazing, as he considered the employment of a private autopsy physician to be proper.

A newspaper, in its story of the matter, says that in different interviews, a representative of the estate indicated to the physicians that it would be satisfactory to the estate if they could revise their findings of poisoning, and in such event their bills were not to be questioned, and Doctors Humphries, Day and Wood, would be paid the amount of their claims of $150.

All three doctors are preparing a statement to place their version of the scientific facts of the case before the public, in a final justification of the decision concerning the cause of the death of Mrs. Stanford.

The New Lieutenant-Governor.

Special to the Montreal Star.

Ottawa, August 24. — Mr. George Hedley Vicars Bulyea, the newly appointed lieutenant governor of Alberta, was born at Gagetown, N.B., in 1859. He graduated from the University of New Brunswick in 1878 and drifted into mercantile pursits. He removed to the west and in 1891 was an unsuccessful candidate in the general teritorial elections. He was elected to the Assembly in 1894 and was re-elected by acclamation on accepting office in 1897. He was then non-resident member of the Haultain-Ross executive council. He was appointed Yukon commissioner for the territorial government in 1898 and was re-elected by acclamation in 1902 and next year he became commissioner of public works for the Territories.

HON. G. H. V. BULYEA,

TWO MEN WERE KILLED AND ONE SERIOUSLY INJURED

Steam Pipe Explosion on the Steamship Lakonia has Fatal Consequences.

CAUSE OF THE ACCIDENT IS STILL UNEXPLAINED.

The Vessel Was Just on the Point of Starting When the Explosion Occurred.

The bursting of a steam pipe on board the Donaldson liner Lakonia, at five o'clock a.m. to-day, resulted in the death of two men and seriously scalding a third, who now lies in the Montreal General Hospital in a critical condition.

The killed are:

Alexander Smith, Glasgow, Scotland, third engineer of the Lakonia.

S. Jackson, stoker, who joined the Lakonia at Montreal on this voyage.

Injured: Andrew Miller, a young man of 22, and fifth engineer of the Lakonia.

The Donaldson Liner had received her clearance paper, and it was the intention that she should sail at daylight to-day on her return voyage to Glasgow, being in the trade between that city and Montreal, Robert Reford and Company, Canadian agents.

Just how the fearful accident occurred is not known at this time, but a careful inquiry by the coroner at the inquest this afternoon will probably develop some explanation.

The fire in the boilers had been stoked up to the proper pitch, and the steam pressure necessary to successfully navigate the vessel had been attained, when all at once one of the steam pipes burst enveloping the men who were on duty. The explosion, which, fortunately for the vessel, occurred before the Lakonia left her dock, was heard even outside of the vessel and there was an immediate rush to the rescue.

It was found that Alexander Smith, the third engineer, and S. Jackson, the stoker, had been instantly killed while Adrew Miller, the fifth engineer, was still alive. He was terribly scalded, however, and now lies in the General Hospital in a very critical condition.

Police officer Latournou, who was on duty on the wharf at five o'clock this morning when the explosion occurred, states that he plainly heard the crash, and hurrying to the spot, assisted in the rescue.

The General Hospital was at once communicated with by telephone and medical assistance arrived on the spot without delay. When the medical men and the ambulance arrived, Miller was unconscious. The dead bodies of Smith and Jackson were taken to the morgue, and an inquest is being held this afternoon.

The Lakonia, will, of course, be detained by the accident, as the necessary repairs will have to be made, and those on the vessels have been summoned to appear at the inquest.

The Lakonia's representatives here, Messrs. Robert Reford and Company, could to-day offer no explanation for the accident. The vessel is a well-found freighter, and is a familiar craft in the St. Lawrence trade.

The flags on the Lakonia are flying at half-mast in consequence of the fatality.

Accused of Issuing Worthless Cheque

Arthur Hamel was up before Judge Lafontaine to-day on a charge of obtaining money on false pretences. Geo. Legault made the complaint against the accused. It is alleged that Hamel had made friends with Legault and after a while asked him if he could not help him out financially to some extent. He said that he had a cheque for twenty dollars and would give it to the man if he would advance him some money on it. Legault gave him seven dollars, Hamel saying that he could give him the balance later. When Legault took the cheque into the Moison's Bank they told him that it was utterly worthless. Proceedings were then taken to have Hamel arrested, and to-day the Judge said he would remand him till the thirtieth, when his case will come up in enquete.

When the early voyageurs canoed up the Ottawa and great Lake Timiskaming they little thought how easily the trip would be made two hundred years after, by rail and steamer and how pleasant a resting place there would be at the foot of "the deep and shallow water." The Bellevue Hotel is charmingly situated in the midst of the pines on a bluff overlooking the foot of the lake—it is electric lighted and has all modern conveniences and means of enjoyment. Superb fishing can be obtained near by. Address for rates and all particulars the Manager, Timiskaming, Que.

TWO MEN FOUND BEATEN TO DEATH NEAR STRATFORD

A Double Murder Apparently Committed There at Early Hour To-day.

GRUESOME DISCOVERY OF A TRAIN CREW.

Engine Ran Over One of the Bodies Which Was Lying on the Track.

Stratford, Ont., August 24.—What appears to be a double murder, was committed here at an early hour to-day, in a field near the outskirts of the city, named John Gamble, an old man who had been living by himself, was killed, and the dead body of Seneca, an Indian, was found on the railway track.

A Grand Trunk Railway train from Fort Erie to Stratford, in charge of Engineer McGowan, came in about six o'clock, and the engineer saw a man's body on the track, but not in time to stop his train. On going back he he found that both legs had been cut off, but he claims that the man was deathly cold, with his head badly battered. While viewing the body the crew came across tracks of blood and on following them up found the dead body of Gamble, lying outside his shanty, forty yards from the track, with his head completely battered in. Two men are held by the police as witnesses, both having been found near the scene of the crime. One named Harold Crowfield, was found wandering about the field in which Gamble's little shanty stood, in a dazed condition, with a large cut on his head.

He said that three Indians had knocked at the door of the shanty during the night, and on being denied admission, had assaulted the inmates, killing the old man and wounding himself.

He told another story afterwards to the effect that a man named Caleb Poyner, Seneca, Gamble and himself, were drinking heavily during the night, and soon began to quarrel, and Gamble and the Indian went outside to fight it out. Crowfield says he put his head out of the door of the shanty and received a heavy blow on the head, and that Poyner ran away. The affair appears to be the result of a drunken row. An inquest will be held this afternoon.

Jammed In An Elevator Shaft.

A young man named Henry Anderson had a narrow escape from being killed at the Place Viger Hotel yesterday. He was a driver in the employ of Henry Gatehouse, and went to the hotel to deposit some goods in the freight elevator, to be taken up to the kitchen department. He looked into the elevator shaft to see where the lift was, when it descended upon him and pinned his head over an obstacle, nearly strangling him. Fortunately the elevator man had the presence of mind to immediately reverse, and Anderson was rescued. He proved to have sustained no other injury than a shock to his system, which may lay him up for a day or two.

MONTREAL MANAGED TO SHUT OUT JERSEY CITY YESTERDAY

Montreal and Jersey City played a game yesterday which put them on a plane with the big leaguerers.

Never in the history of the game has such sharp fielding been seen in this city. Both pitchers were on their mettle and while there is not much in the summary to their credit they pitched ball which kept the batters guessing, and when it was hit it went either at the infielders or up in the air, where it was easy to get.

What hits Jersey City did get went for nothing, and Halligan and Keister were the only ones to see better than first base. Montreal figured in four double plays which took the heart out of the "skeeters."

On the other hand, the hits which Montreal got came, with the exception of one, in the first and second innings, and they were helped out by a passed ball and a man being hit by a pitched ball.

Hassett, the umpire, who has been in a peck of trouble in the previous games between these teams had very little to bother him, although one or two of his decisions looked somewhat off color. He left town last night for Toronto.

There were a number of navy men present, who enjoyed the game immensely once they got an inkling of what the players were driving at.

There were four of them in the left grand stand, marine artillerymen, who, having been provided with advertising megaphones, let the people know how they could root for the Colonials; they imagined possibly that the Montreal team was composed of simon pure Canadians. Many of their comments were amusing, especially when they got down to figuring out the technical points. To them the bases were stones and they couldn't imagine for their lives why it was when the ball was cut to right or left that the batsman did not run. They were well pleased, however, especially with the result.

EASTERN LEAGUE HAS FOUR SLUGGERS.

The honor of being the best hitter in the Eastern League lies between four players just now. For a long time Catcher Byers, of Baltimore, held full away, but he has fallen away lately, and his chances of holding the top place have dwindled considerably, for in four games played last week he made but a single hit. The struggle at the present time lies between Pattee, of Jersey City, with .324; Byers, of Baltimore, with .336; McFarland, of Providence, with .334, and Jimmy Jones, of Newark, with .336. The latter's hitting powers are equal to that of Byers' These are excellent averages for long service men, and it is doubtful if any baseball season has brought out four such high ratings. Following are the averages of the league:

Double Header on Saturday.

Montreal and Baltimore will open a series of games to-morrow and on Saturday there will be a double header. The Orioles have been going along strong, but in the past couple of days they have suffered a couple of bumps which somewhat benefited Jersey City.

LACROSSE

SHAMROCKS, WITH JUNIORS PLAYING, BEAT NATIONALS.

Special to the Montreal Star.

Quebec, August 24.—A tremendous crowd of people, including many of the naval visitors, and exceeding 3,000 in all, assembled to witness the exhibition match between the Shamrocks and Nationals yesterday afternoon, and those who expected to see a good match were not disappointed.

The teams lined up as follows: Shamrocks—Goal, Casey; point, Howard, cover point, McIntyre; defence, Kavanagh, McIlwaine, Kenny; centre, J. Currie; home, Nichols, O'Reilly, J. Hogan; outside W. Hennessy; inside F. Hogan.

National— Goal L'Heureux; point, Marcellin; cover point, Blanchard; defence, Sauve, Decarrie, Clement; centre, Lecours; home, Lachappelle, Dulude, Cattarinick; outside, Lamoureaux; inside, Contant.

Referee—Dave Butler; assistant, Nap. Belleau. Umpires, J. McCormick and Art. Talbot.

The game started rather listlessly, and the first half was nearly all Shamrock, the boys in green scoring three goals in each quarter. In the second half the Montreal players let up a little, or rather, the Nationals woke up, and scored four straight goals. The play was very clean, throughout, very few players being penalized, and these for only minor offences. Lamoureux did good work for the Nationals, their special star, however, being Marcellin, whose play at point was very much admired. The Shamrock defence played a steady game, Casey in goals making some excellent stops. Special mention is also due to Kavanagh, Currie, Hennessey and F. Hogan.

The game, although only an exhibition, one, is destined to have quite an influence for good upon the lacrosse situation in Quebec. The interest manifested in the play by the largest crowd which has assembled here for years to witness a match, has created the desire among a number of local enthusiasts to see such a team got together here as would stand a good chance of senior honors.

THERE'LL BE A HOT TIME IN OTTAWA ON SATURDAY.

Special to The Montreal Star.

Ottawa, August 24.—His Excellency Lord Grey will face the ball at Saturday's match between the Shamrocks and the Capitals, and a party from Government House will witness the game.

Lt.-Governor Guild, of Massachusetts and the officers of the second cruising squadron now at Quebec will be the guests of the Capital executive. Three hundred jack tars will also be in attendance. Extra accommodation for spectators is being arranged for, as it is expected that the crowd will be the largest of the season.

The Capitals had another excellent workout this afternoon and the men again showed their fine condition by the manner in which they entered into the spirit of the play. For over an hour the players were at work hammer and tongs, and if the Shamrocks win Saturday they can surely claim the title of world's champions. The defence yesterday proved as steady as a rock, while the home was resourceful at all stages. The Senators realize they will have to run a big score here Saturday or their chances for finishing the season on equal terms with the Shamrocks will be slim.

The executive is carefully considering the play of each man, and there may be a number of changes in the positions of the men, although the personnel of the twelve will keep the same as in recent matches.

Eddie Murphy will play at inside home, where it is expected his clever shooting will be of advantage to the team. Eastwood will be at outside home, and Gaul, Allen and Butterworth in the field.

The final practice will be this afternoon, and there are several other measures that will come in for their share of attention.

The regular Canadian Championship Meet will be held on the Montreal Amateur Athletic Association Grounds, and promises to be as much of a success as any that have been held thus far.

Already President Gorman of the Canadian Amateur Athletic Union has received notification from one of the New York Clubs that their entries will be very large, and he expects from letters he has received from different parts of Canada, that Canadian entries will be exceptionally so.

DURNAN HAD NO TROUBLE WHATEVER TO DEFEAT TOM SULLIVAN

Special to The Montreal Star.

Toronto, Ont., August 24.—In a race of which the first half sparkled with keen interest, but which deteriorated into a procession on the return journey, Edward Durnan, of Toronto, defeated "Tom" Sullivan, of London, England, on Toronto Bay yesterday afternoon, on a three mile race with a turn for $1,000 a side and the sculling championship of America.

Thousands of persons witnessed the race from points of vantage on the island and the water front, while boats of all descriptions lined both sides of the course, which was from Hanlan's Point to Ward's, a distance of one mile and a half and return.

The water was perfect, as what little wind there was came from the southeast and hardly ruffled the water. The start was to have been made at 6.10, but owing to difficulty in clearing the course, it was not until 6.47 that Starter Pearson was able to get his men off. Durnan romped away from his buoy like a quarter horse, pulling 36 strokes to the minute, while Sullivan pulled 34.

DURNAN ASSUMED LEAD.

Durnan soon assumed a slight lead, which increased to almost a length, as the scullers approached the Referee's boat. Here, in response to an encouraging wave of the hand from his wife, Sullivan dug his oars into the water with greater force and more speed, and his shell forged to the front. It was so quickly done that Durnan was plainly disconcerted. He missed a stroke with his left oar, and he kept watching his opponent. Sullivan's style was by no means as finished as Durnan's, but he plugged away in a manner that kept his boat moving at a fast rate, and increased somewhat his lead, which, at the R. C. Y. C. club house was fully a length. Sullivan had not steered a straight course and his shell was well over in Durnan's water, and "Pat." Mulqueen called the Referee's attention to the possibility of a foul. Still keeping his stroke to 34, Sullivan maintained his lead, but Durnan spurted within 200 yards of the turning buoys and reduced Sullivan's advantage to a half length.

Durnan was the first to look around and locate the buoys, for which he was steering straight. Sullivan, on the other hand, was still out of his water. The men struck their buoys at the same time. Durnan made a beautiful turn, but Sullivan made a mess of it, and the Toronto sculler started on the homeward journey with a length lead. With the wind in his favor, and in front of his opponent Durnan fairly made his shell leap through the water.

SULLIVAN ROWED OUT.

Sullivan appeared to be rowed out. His stroke lacked power and fell to 26 to the minute. He looked around and saw Durnan now four lengths ahead. From this point to the finish it was a procession. Sullivan had shot his bolt. The pace to the turning buoys had told its tale. His powers were exhausted and he was no longer able to give battle to his younger and more vigorous opponent.

Durnan improved his lead as he pleased, and a half mile from the finish he stopped rowing and waved his hands to his friends on the referee boat. Then he grasped his oars again and continued on his victorious way to the finish line, fifteen or twenty lengths in front of Sullivan, who labored painfully to the end. The official time was given as 20.05 4-5.

There was considerable betting on the result of the race. In some instances slight odds were given on Sullivan. Sullivan has no excuse to offer for his defeat, which he accepted philosophically. Durnan announced last night that he would immediately challenge Stansbury for the world's championship.

Sullivan's Friends Disappointed.

(Canadian Associated Press.)

London, August 24.—Tom Sullivan's Putney friends are greatly disappointed at his failure to defeat Eddie Durnan at Toronto yesterday for the sculling championship of America.

CANADIAN AMATEUR ATHLETIC UNION MEETING WILL BE IMPORTANT

The next annual meeting of the Canadian Amateur Athletic Union, which will take place on the 16th September next, promises to be a most important one.

A large number of important propositions will be brought before the meeting.

The question of Lacrosse amateurs playing against professionals will no doubt come up again.

The question of the reinstatement of Dade and Finlayson will be discussed.

The question of sending a Canadian team to the Olympic games in Greece is another thing that will be talked about, and there are several other measures that will come in for their share of attention.

The regular Canadian Championship Meet will be held on the Montreal Amateur Athletic Association Grounds, and promises to be as much of a success as any that have been held thus far.

Already President Gorman of the Canadian Amateur Athletic Union has received notification from one of the New York Clubs that their entries will be very large, and he expects from letters he has received from different parts of Canada, that Canadian entries will be exceptionally so.

GENERAL TELEGRAPHIC NEWS.

AN INCREASE OF RATES.

Foreshadowed for Intercolonial by a Moncton Paper.

Special to The Montreal Star.

Moncton, N.B., August 24.—The local Liberal organ foreshadows an increase in intercolonial freight and passenger rates as necessary to balance revenue and expenditure. It says: "That local freight rates along the Intercolonial required adjustment is unquestioned, but local passenger rates require a similar adjustment, and such may be expected. The employes are entitled not merely to receive a living wage, but to be brought up to the standard of other railways in corresponding divisions, and it is impossible to grant these increases without, in the instance of the Intercolonial, placing the burden of that increase upon the passenger and freight earnings, the same as an ordinary employer is compelled to add increased cost of production to the cost of the article produced."

British Columbia Legislation.

Special to The Montreal Star.

Victoria, B.C., August 24.—Among the interesting items of business foreshadowed for the coming session of the provincial legislature is a measure to ratify and confirm all leases of lands, timber areas, foreshore, etc., which were executed by the chief commissioner in the years 1899, 1900 and a part of 1901 in contravention of legislation of 1899, vesting the necessary authority in the executive only. Legislation will also be brought down amending the fisheries act, which has yet to be officially proclaimed in order to secure the force and effect of law, and legislation dealing with the question of foreshore in various particulars. Still another measure will have for its purpose the reconstruction of the provincial civil measure, with provision for appointment by examination, progressive promotion, superannuations, etc. Such a measure was drafted for submission to the house last session, but was held back by the Government in consequence of the scant majority at its command and the timorousness of the ministry.

Mr. Morey's Body Recovered.

Toronto, Ont., August 24.—A despatch from Port Hanfield, Muskoka, announces that the body of C. A. Morey, manager of the American Crucible Steel Company, of Toronto, who was drowned on August 5th in Lake Joseph, has been recovered after a two weeks' search. With his wife and four others Mr. Morey was sailing on Lake Joseph, when a severe thunderstorm came up and his boat capsized.

Committed on Four Charges.

Hamilton, Ont., August 24.—James Russell, who has a bad record, was committed for trial to-day on four charges of theft and one of attempting to rob Thos. Barnes, a wealthy contractor, of $500 by holding a gun at Barnes' head and demanding his cash. Barnes positively identified the prisoner.

Handsome Residence Burned.

Victoria, August 24.—Hatley Park, the handsome residence of Rolland Stuart, on Esquimalt harbor, was destroyed by fire early yesterday. The contents included a costly collection of paintings and furnishings, etc., valued at $25,000, all of which is a total loss.

Windsor, Ont. — Mrs. Clarke, wife of A. H. Clarke, K.C., M.P. for South Essex, is dead at Kingsville. Mrs. Clarke was a daughter of David Gibson, of Brantford, and a niece of the Hon. J. M. Gibson, former Attorney-General of Ontario.

TARIFF COMMISSION STARTS AT ONCE

Work to be Undertaken is of Considerable Magnitude.

DATES ARE NOT YET FIXED

Arrangements Expected to Be All Completed in Course of Few Days.

Special to The Montreal Star.

Ottawa, Ont., August 24.—The Ministers have not yet fixed the dates upon which they will hold sittings in connection with the tariff inquiry, but it is understood that arrangements will be made within a day or two, and that the commissioners will enter upon the work almost immediately. The Ministers conducting the investigation will be the same as in 1897, Hon. W. S. Fielding, Sir Richard Cartwright and Hon. Wm. Paterson, with the addition of Hon. L. P. Brodeur, Minister of Island Revenue.

Sir Richard Cartwright will not be able to accompany his colleagues to distant parts of the Dominion, but will sit with them at meetings in centres nearer the Capital. Communications have been sent to the Ministers, expressing the desire that their visits in particular cases may be made at certain particular times, which are mentioned, but the Ministers find it difficult to comply with these requests. The work they are undertaking is of considerable magnitude, involving long journeys from ocean to ocean, and, after the travel is over, much time will be required for consideration of the information obtained. Moreover, the opportunity between now and next session of Parliament is brief for such a comprehensive inquiry. The Ministers will therefore be obliged to commence work immediately, and it is hoped that parties in the various districts of the Dominion, who are interested, will be ready to present their views, whenever the sittings of the commission open.

A Sunday School Rally.

Special to the Montreal Star.

Farnham Centre, Que., August 25. — A very successful Sunday School rally was held in the Presbyterian Church here on Tuesday. The audiences, which were large, were addressed by Rev. W. C. Watson, of Cowansville; Rev. J. J. Theakston, of Sutton; Rev. M. F. Boudreau, of this place; Mr. H. E. Harris, of Farnham; Mr. J. J. Hutchinson, of Brigham; Miss Spalding, of Montreal, and Miss C. M. Buck, of East Farnham. The different papers read and discussed excited great interest.

Age Adds to Its Popularity

Fifty years ago Putnam's Corn Extractor was introduced. Its sale has been enormous. Why? Because it's the only painless remedy for corns, warts and bunions. Doubtless you've proved this yourself.

UNION STATION PROPERTY.

Grand Trunk Unable to Close With the Lessees.

Special to the Montreal Star.

Toronto, Ont., August 24. — Mr. M. K. Cowan, K.C., solicitor for the Grand Trunk Railway Company, returned to Montreal last night without having succeeded in closing with any more of the lessees of the Union Station property. A gang of men will be started to work in a few days to remove the debris that now covers the property. Difficulty has been found in estimating the value of the foundation walls of many of the old buildings, and in order to ascertain their condition, the company will proceed to clear out the cellars. Mr. Cowans is still hopeful of obtaining a settlement with the parties interested, without recourse being had to arbitration.

Attempting to Swim Channel.

Dover, Eng., August 24.—The thirtieth anniversary of the success of Captain Matthew Webb in swimming across the English Channel, which occurs to-day, brought out three candidates anxious to emulate the famous swimmer. They are: Miss Annette Kellerman, the woman champion swimmer of Australia; T. W. Burgess, who has already made three unsuccessful attempts to swim the Channel, and Horace Mew. All three made an early start from this vicinity under favorable weather conditions.

Disasterous Fishing Trip.

Special to the Montreal Star.

St. Thomas, Ont., August 24. — Peter Elliott, who lives south of the city, had an exciting and disastrous experience yesterday while fishing. While casting, the hook caught in a wasp's nest. The wasps stung Elliott in the face and neck, and in running away from them Mr. Elliott fell over an obstruction and broke his right arm at the wrist.

Tramp Mechanic Was Wealthy.

Special to the Montreal Star.

Stratford, Ont., August 24.—A tramp mechanic, apparently mentally weak, was picked up early this morning, and when searched at the police station it was found he had $500 on his person and bank deposit books totalling $2,000 in his possession. He claims to have come from Sarnia to work in the Grand Trunk shops.

German Cruiser at Esquamalt.

Victoria, B.C., August 24.—The German cruiser Balke, Captain Behancke, returned to Esquimalt yesterday after an extended cruise in northern waters. The voyage was the first which a German cruiser has even taken to the Alaskan coast.

LAWN TENNIS

The Game Old Champions.

Newport, R. I., August 24.—Without exertion, Holcombe Ward, of New York, and Beals C. Wright, of Boston, successfully defended their national tennis championship in doubles on the Casino courts yesterday by defeating F. B. Alexander and H. H. Hackett, both of New York, in straight sets, 6—2, 6—1, 6—3.

The doubles' championship match was the main event of the day, but in addition the entire second round in the singles' championship event was completed, making, with the double matches, 75 tennis contests, decided in two days, a record in this sport.

FOOTBALL

Jack's the Boy for Play.

Last evening a handful of His Majesty's marines improved the shining hour, or rather half-hour, by indulging in a game of Association football with the Y. M. C. A. boys at the Ball grounds. Doffing their tunics, the guardians of England's glory went into the game with characteristic snap and vigor, and despite the disadvantage of their heavy clothing, showed that the handy man is as handy with his feet as with anything else. Time and again the tars dashed up the field carrying all before them, all, that is, that they didn't knock out of the way, and with ordinary luck should have scored several times. But fate was against them, and they failed to tally. Y.

DEATH SENTENCE PASSED ON WOMAN

Mary Hope Young Found Guilty of Child Murder.

RECOMMENDED TO MERCY

Received the Dread Words of the Judge With Composure and Walked Strongly to Cell.

Halifax, August 24.—After one of the briefest trials in the criminal history of this province, Mary Hope Young was yesterday afternoon found guilty of the murder of May Ward, and a few minutes later sentenced to death to take effect on the 20th of December between the hours of 4 in the morning and 12 noon, was pronounced upon her. She stood the terrible ordeal with but the slightest change of countenance.

After admission in the evidence yesterday morning of her statement made to the Prosecuting Attorney on the 30th of June last, Kingsley Melanson was called by the Crown but his evidence was of a negative character, not greatly effecting the issues. The Attorney-General then addressed the jury, and, after recess for lunch Mr. Monroe replied for the defence in an able address. After the charge from the judge the jury retired and in half an hour returned with the verdict of guilty. Foreman Spicer paused a moment before he pronounced the awful word "Guilty," but with a recommendation to mercy. For a moment there was absolute silence in the court room, the prisoner standing without the slightest change of countenance. Then the jury was discharged and Sheriff Smith was directed by the judge to clear the court. When all but the officers of the court and lawyers had departed the prisoner was asked by Clerk Stewart if she had any thing to say why judgment should not be pronounced upon her, and in a clear voice she replied: "I am not guilty". Then the sentence was pronounced by the judge. The prisoner was immediately removed to her cell, walking with a strong, firm step, and on reaching there took up a paper and at once seemed to be deeply engrossed in it. When Judge Meagher yesterday morning admitted the evidence of her confession he said he would reserve the Crown case for the full bench as to its admissability. This he did without application being made by her counsel.

Argument will be heard on this point in November, and if the evidence is decided to be inadmissable a new trial will probably be held. Should the appeal fail, the recommendation for mercy will be forwarded to Ottawa for executive action.

The future custody of little Elma Young has not been settled, but today this will be decided upon between the attorneys for Mary Hope Young, and the Crown.

Elmer E. Young, of Boston, expects to take the child back with him, where he says he will provide for its upbringing.

"MORE GOD AND LESS DRESS."

Rev. Campbell Morgan Critioizes the American Churches.

New York, August 24. A criticism of the American Protestant churches was voiced yesterday by Rev. Dr. G. Campbell Morgan, who has been working in the late Rev. Dwight L. Moody's place at East Northfield, Mass. When on the point of sailing for Europe on the steamer Baltic, Rev. Dr. Campbell Morgan said:

"The American Church does not seem to be much more than a special organization now. Its members spend more time developing along social lines than they do along spiritual lines. The business men, the influential Christians, and those who are in a position to do their duty, wrapped in their own affairs or busy in the pursuits of pleasure or frivolity, they lose track of the way and forget the pledges they made to their church.

"The old fire and oil time spirit are lacking, and without this what can be expected by social clubs, but a leading away from God and the path. How can a business man expect to have an influence with his employes when they know his life, its methods, and just how far he practices what he preaches.

"What the churches want is more of God and less of dress and social position; more of the spirit of the Master and less of strife for place and money, and more religion by example and life than by preaching and talking."

Americans Sue in Canadian Court.

Special to the Montreal Star.

Ottawa, August 24.—On Tuesday a writ claiming $10,000 was issued by Mr. J. E. O'Meara against M. P. Shannon, Ottawa, on behalf of Mr. Hildreth, of New York city. The plaintiff is the widow of the late D. Morgan Hildreth, a New York barrister, who sues as a legatee under the will for the sum of $10,000 alleged to be due as fees for procuring and defending the defendant's interests in the Langham hotel, New York. The defelant has resided in Ottawa for some months.

Work of the Sunday Schools.

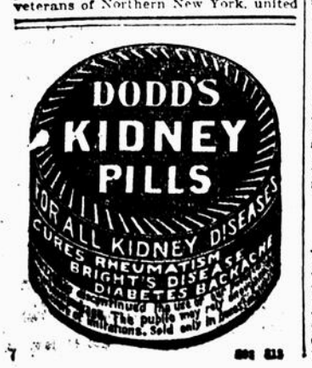
Clifton, Mass., August 24.—At yesterday's session of the International committee of the Sunday School Union, it was reported that there are 154,159 schools with 1,222,723 teachers and 14,168,305 members in the world, and that there are 924 members in the home department, and 121,600 names on cradle rolls. During the last year 219,703 members of Sunday schools joined the church.

Set Fire to Barn.

Brockville, Ont., August 24.—On Tuesday, while a steam thresher was at work on the premises of W. H. Earle, near Philipsville, a spark from the engine set fire to the barn, which, with other outbuildings was destroyed. The loss will amount to $3,000.

Unveil Monument at Ogdensburg.

Ogdensburg, N. Y., August 24.—In the presence of Vice-President Fairbanks, veterans of Northern New York, united with Ranscott Post G. A. R. at Ogdensburg yesterday, and unveiled a monument in Library Park, commemorating the partiotism of soldiers of the town of Oswegatchie, who fell in the Civil War. The largest crowd in Ogdensburg's history witnessed the ceremonies. At noon a military parade formed, which was participated in by the 41st regiment of Brockville, Ont., and was reviewed by Mr. Fairbanks. Following the passing of the troops at the monument, the dedicatory exercises took place.



THE CHRISTIAN BROTHERS.

Mr. Charlebois Sends Protest to Educational Department.

Special to the Montreal Star.

Ottawa, August 24.—Mr. L. P. Charlebois has written a letter to Hon. Dr. Pyne, Minister of Education for Ontario, in which he says:

"I have the assurance of a large number of members of the Ottawa Separate School Board that they desire to engage qualified teachers for their schools, in place of the Christian Brothers, but the attitude of the clergy is so dictatorial that life is too short to spend quarrelling with the Archbishop."

Further the letter goes on to state that the lay teachers eligible to replace the Christian Brothers, in and around Ottawa, have been intimidated. It is said, in a personal canvas by Inspector Rochon and prevented from sending in their applications for positions with the Separate School Board. Mr. Charlebois asks the Minister of Education to investigate this charge against the inspector.

He points out also that if the present state of affairs continues, the Guigues school of this city will have the same kind of instruction as last year, which, he says, was inferior.

Mr. Charlebois, continuing, remarks that the granting of permits to unqualified teachers, as is sometimes done, is contrary to the Separate School Act, section 88. As there remain now but two weeks before the opening of school, Mr. Charlebois suggests that the Board should advertise for qualified teachers.

In closing, Mr. Charlebois tells the Minister of Eudation that the Christian Brothers were "foisted on the Separate School supporters by persons financially and otherwise interested, and that unless the department interferes, serious complications may arise that will prevent the opening of Guigues school in September.

Mr. Charlebois has also written the Separate School Board, asking for information on the subject of prizes for the St. Jean Baptiste school, intimating that some irregularity existed in the manner of purchasing them.

In the same letter he suggests that the increased expenditure for salaries of Christian Brothers, decided upon some time ago, be submitted in some way for the aproval or disapproval of the Separate School ratepayers.

Special to The Montreal Star. Ottawa, Ont., August 24.—It is expected that the Governor-General and party will leave on Saturday for Edmonton.

Situation is Not Improving.

St. Petersburg, August 24.—The situation in the Baltic provinces is not improving. Several political murders have been reported. Official advices show that the disturbances are fostered and directed by a thoroughly arganized social revolutionary committee, with headquarters at Riga, the emissaries of which defy the best efforts of the police. The intelligence department of this committee supplied ample warning of the movements of the troops. Four of the leaders were arrested recently, one of whom was a woman. The social revolutionaries are very strong at Riga, Rival, and Libau.

The Russian National Assembly.

St. Petersburg, August 24.—Thanksgiving services were held in the municipal hall yesterday, in commemoration of the promulgation of a national assembly. Several officials were present. The services concluded with a prayer for the preservation of the Imperial family, which was chanted by the officiating priests.

The Emperor's manifesto proclaiming the assembly was officially read at the regular session of the municipal council. The council decided to send a loyal address to the Emperor and also to commemorate the event by the inauguration of some charitable work for the benefit of the poor of the city.

Special to the Montreal Star.

Ottawa, August 24.—Rev. Charles W. Casson, of Milford, New Hampshire, has accepted a call to the Church of Our Father, Unitarian, of this city. Rev. Mr. Casson, who is a native of Toronto, desires to return to Canada. He will assume charge on October 1. Rev. Mr. Casson, who is about 34 years of age, has labored with considerable success in the New England States for the past eight years.

Killed in His Laboratory.

St. Louis, M., August 24.—Dr. William Rininger, a member of the Faculty of Marion-Sims Medical College, was killed by an explosion of benzine in the laboratory of his home yesterday. The sacrifice of his life was indirectly due to his zeal in prosecuting a systematic study of the symptoms and cure of consumption. He was cleaning the lens of his microscope by the light of a gas jet when the fumes ignited and the explosion followed.

Arrest in Cotton Scandal.

Saratoga, N.Y., August 24.—Frederick A. Peckham, indicted for complicity in the Department of Agriculture cotton reports scandal, was arrested here yesterday, and arraigned before United States Commissioner Charles N. Davison, who ordered an adojurnment of examination till to-day. In default of $18,000 bail Peckham was lodged in gaol.

Hotel Employes Under Arrest.

New York, August 24.—Claiming that through a conspiracy between waiters and checkers at the Hotel Astor, he was being defrauded of about $300 per day, W. C. Muschenein, the lessee of the hotel has had four employes arrested and other arrests are expected. It is said these thefts have been going on since last October and aggregate more than $90,000.

Young Lad Drowned at Walkerville.

Walkerville, Ont., August 24.—A drowning accident occurred here yesterday, the victim being Harvey Leavit, aged 14, son of Alex. Leavit, general agent of the Mutual Life of Canada. The lad was swimming with some other boys, and, venturing too far out, became exhausted and was unable to reach shore. The body has not yet been recovered.

Ex-Judge Calhoun is Busy.

MIX-UP OVER PROPERTY.

Newspaper Crowded Out by Dominion Coal Company.

Special to the Montreal Star.

Glace Bay, N.S., August 24.—A peculiar property tangle has developed here in connection with the Y. M. C. A. property. The Gazette Publishing Company negotiated to buy the building and lot. The directors gave their consent and the matter was then to pass to the general committee, as only the directors attended the meeting to discuss he sale. A mortgage existed on the property for $2,100. At this stage the Dominion Coal Company came in, lifted the mortgage and securing the consent of one of the Y. M. C. A. directors to the sale, occupied the building, even putting a watchman there at night. The remaining Y. M. C. A. directors expect to tender the Coal Company the amount of the mortgage and ask that the building be surrendered to the Gazette.

DROUGHT AROUND QUEBEC.

Want of Rain Has Now Been Felt for Several Weeks.

Special to The Montreal Star.

Quebec, August 24.—The entire country around Quebec is suffering severely from drought, and has felt the want of rain now for several weeks past. One or two showers and thunderstorms have occurred during the last month, but only at rare intervals, and the rainfall upon each occasion has been so light that it has scarcely sunk into the ground at all. As a consequence, garden crops of all kinds are suffering severely, and many wells are dry. Farmers are in several instances drawing water for considerable distances, and the cataract at Montmorency is almost dry, only a small rill of water passing over the precipice. Such a scarcity of water has not been seen here for a quarter of a century. The city is shrouded in smoke from surrounding bush fires, or from settlers' fires, and as intense dryness prevails in all the woodlands, there are many apprehensions of a recurrence of forest conflagrations.

Eight People Hurt in Collision.

Niagara Falls, N. Y., August 24.—A trolley car of the Niagara Gorge line struck another car standing at the crossing of the New York Central railway yesterday and eight people were injured, some seriously.

The accident it is thought was caused by the failure of brakes on a loaded trailer to work.

ABENAKIS SPRINGS

"The Carlsbad of Canada,"

ACKNOWLEDGED by all to be the most attractive Summer and Health Resort in Canada—far enough away from the city to be free from the hustle and bustle, the din and the noise, and still within easy access, easy to come, easy to go. Come for a day—stay a week. Some come early in the season and remain all the summer, running in and out as occasion requires. You couldn't find a more ideal spot at which to while away the time and win back vim and energy. Fun while resting—lots of it. Everything for your comfort and amusement. No dreary days at Abenakis—couldn't be glum if you wanted to. Good cheer is in the air; it's catching—everybody happy. Come, forget your cares, leave sighs for to-morrow—be one of the jolly crowd to-day. Drink of the "Waters of Life," as Abenakis Mineral Spring Water was known to the Indians centuries ago, and known to the present generation as the "Fountain of Youth"—marvellous for its curative properties and endorsed by the most eminent physicians. Don't study and plan, just COME; you will be satisfied. By far the most popular resort in Canada. Had to enlarge our hotel this season, and not large enough now have to enlarge it again next season to accommodate our friends. We have rooms engaged now for 1906. You had better come now and pick yours out for next summer. Most resorts glad to get guests for this year, we book them a year in advance. How? Why, because we have the nicest place; easy to get to; rates reasonable, and we try to give everybody a "square deal."

HOTEL OPEN UNTIL OCTOBER FIRST.

THE PRICE OF PEACE.

The adjournment of the Peace Conference until Saturday will cause the minds of "the gallery" to hark back to the loud professions of possessing "the fullest powers" with which the envoys opened the proceedings. It may be remembered that at that time, when pessimists were predicting that the conference would fail at the very outset because the Russian envoys would be found to be without proper credentials in this respect, we ventured the surmise that the powers of the "plenipotentiaries" were not of so very great importance when each set would be in constant communication with its home Government. And now it seems that these envoys with the fullest of powers are about to take a recess for nothing in particular until Saturday.

But by this time it is no secret that the home Governments in both cases are practically at the council board. Even President Roosevelt, who is taking a keen interest in the progress of the negotiations, is having important cable communication with the American ambassador at St. Petersburg, who, in turn, has had a three-hour audience with the Czar. There is no need in this electric age for a Government to entrust very much more than an agent's task to a "plenipotentiary." It can keep constantly informed as to the progress of his business and can give him new instructions every hour. The day of the real plenipotentiary and of the real ambassador is over.

St. Petersburg and Tokio may now be regarded as having seen each other's first cards, and as now considering what to play next. It looks as if Japan were not particular about the name by which the indemnity is to be called. If it hurts Russian dignity to pay an "indemnity," the obliging Japanese, with true Oriental politeness, will accept their cheque for the same amount under any other name. The report that they are willing to sell Sakhalin back to Russia, if true, means that Sakhalin is no real menace to the safety of Japan. The Japanese know their ground by this time fairly well; and if they decide to let Russia keep anything on the Pacific coast, it will be because they are persuaded that it will not materially assist the enemy in any subsequent war of revenge.

It looks as if the question of the future would be with Japan, as with Britain, a problem of naval supremacy. No treaty can prevent Russia from building a fleet in the Baltic; and, once built, nothing can keep the Russians from taking it to Japanese waters when they choose. Consequently if Japan is to be free from the peril of having her fleet overpowered and her communications with Corea and Port Arthur cut, she must always possess a stronger navy than Russia. Now if she has this stronger navy, the fortification of Sakhalin by Russia will not be a very important point; for it will only lock up a Russian force which will have to stand a siege and which will be prevented from intervening elsewhere. This may be the view of Japan, which, possibly, is willing to undertake to maintain its naval supremacy if it can now get a whacking indemnity from Russia.

And it is likely just this indemnity that Russia most dreads being compelled to pay. Poverty has already crippled her in competition with Britain; and the waste of this war, with a big indemnity on top of it, will add to her weakness in this regard. She can undoubtedly get the money, but will have to pay a good price for it; and the Russian people are carrying about all the taxation they can endure. If the Rusian people could be consulted, they would probably be willing to give up the Amur Valley rather than put their names to notes running to five hundred million dollars. But it is the Government which is to be consulted; and autocratic governments are notoriously nationally ambitious. If peace is really a matter of dollars and cents—as appearances indicate—the soldiers in Manchuria and their families at home might be asked how much they are willing to subscribe toward it.

TORONTO AND LORD MINTO.

The Toronto press has been doing some altogether unnecessary "knocking" of Lord Minto since his appointment as Viceroy of India. The Globe surmises that the choice of Lord Minto will "nowhere create more surprise than in Canada," and adds the "ex cathedra" dictum that "our late Governor-General would hardly be regarded as a statesman." The Globe probably learned to know statesmen by sight when it was admiring G. W. Ross every lawful morning. The Toronto Star says that "the Canadian opinion will be that Lord Kitchener's triumph consists less in the resignation of Lord Curzon than in the sending out of Lord Minto as his successor." Lord Minto, the Toronto Star regards as chiefly "a social ornament," and reports that he merely "drifted undamaged" through his term in Canada.

It will be noted that both papers modestly speak for Canada. We are not asked to put up with their valuable personal opinion, but are allowed to learn through them what Canada is thinking. This is convenient; for it has not always been easy heretofore to learn from one journal the entire mind of the Dominion. It will also be noted that these two Toronto papers agree in judging Lord Minto to be "no statesman." Thus the British Government will learn what blunders it can expect to make when it moves without consulting Toronto.

It would be instructive to know in what manner Lord Minto could have displayed statesmanship when at Rideau Hall which would have duly impressed Toronto. The constitutional limitations of a Governor-General are exceedingly narrow. If Lord Minto had ventured upon any very bold strokes of statesmanship, we fear that the Globe and the Toronto Star would have been about the first voices in Canada to be raised against this interference with the monopoly in statesmanlike conduct possessed by their friends, the Federal Ministers. If "rank outsiders" are to be permitted to flourish around here in the character of statesmen, are they not likely to lessen the resplendent shine of the peerless home-grown statesmen whose reputation the Globe and the Toronto Star are always so industriously burnishing?

The truth is that Lord Minto presided over the affairs of this country during a particularly delicate and critical period, and that he emerged from the trial with conspicuous success. He displayed that rare combination, tact and courage; and that is a combination which will be of the greatest value to him in his new position in India. If he had intermeddled, he would have proven himself thereby unfitted for the post of Viceroy at a time when a military genius is engaged in strengthening the defences of this most vulnerable and most precious possession of the Empire. The Toronto idea of statesmanship may be meddlesomeness. There are sometimes indications that this is their test. But it would be indiscretion at Ottawa and something worse at Calcutta. The British Government has chosen shrewdly in view of the present situation, even though the Toronto press cannot credit the fact that one whom they have seen with their own eyes can be worthy of such distinction.

If there is any one thing which the "summer girl" feels she must have, it is a good coat of tan; the kind that won't wash off. She will roll up her sleeves and bask in the sun for hours to acquire the coveted tint. It remained for Boston, that home of conventionality and culture, to invent a means of "hurry-up tanning" which, it is claimed, will permit the maiden to take on a full all-summer coat of tan by a few morning's practice in her back yard or on the "gallery." They have discovered that all they have to do is to split open a cucumber, annoint themselves with the juice and dry off in the sun. It is claimed that a rich brown color results after a few trials, and will stay until it wears off. Henceforth, no one will be able to tell whether the Boston maiden with the nut brown skin has been "vacating" on the mountains or by the seaside, or has just been cucumbered.

There is a strange story of sacrifice from Morristown, Pa. The property of the Florida Wine Company came into the hands of a Quaker, and the community looked with curiosity to see what use he was going to make of some one hundred barrels of wine which had accumulated on the premises. He gave no uncertain sound on that subject, but emptied them at once into the Schuylkill River. It is alleged that there was a sudden desire for the healthful exercise of bathing, and that many rugged citizens, who had not looked upon water since their childhood, plunged in in big wads, and had to be fished out with boat hooks.

Shall We Say "Viceroy ?"

To the Editor of the Montreal Star.

Sir,—Has not the time come for changing the title of "Governor-General" into that of "Viceroy," in the federated colonies of the Empire

The title "Viceroy," while conferring more dignity upon the office, also more aptly expresses the position and duties of one who, at the head of the democratic government of the Dominion or Commonwealth, represents, not the extraneous power of the British Parliament, but the person of the King himself.

THE PASSING HOUR

India is a big place, but not big enough to hold Lord Kitchener and any other fellow that runs up against him.

Having seen wide-awake Canadians Prince Louis will now hasten to Toronto to see what they look like while asleep.

What convinces the public about the great value of the Ontario silver mines is that the owners themselves admit they are valuable.

How doth the busy little bee
Keep hustling, making honey;
While his owner gathers in the sweets
And thus makes all the money.

As Norway's vote was at the rate of 3,000 to 1, it seems scarcely likely that any one will be heroic enough to hold his hand up and demand a recount.

The people of India do not want Curzon to go. This feeling seems to have cropped up shortly after the announcement that Lord Minto might take Major Maude with him.

It is a supreme test of beauty when a girl can eat corn on the cob and still look pretty.

Sweden and Norway appear to have settled everything now but the amount of the allmony.

NO MONEY IN IT.

Book Agent—Would you take the "Life of the Czar of Russia" for $1.50?
Citizen—No, sir. That wouldn't pay my expenses going over there.

When two civilized nations get to disputing about a money matter the lives of a few thousand soldiers are not supposed to count.

September approaches, but bear in mind that under the new rules you are not required to shed that straw lid until the 15th of the month.

OYAMA TO THE MIKADO.

'Tween you and me, Mik, what's the use
Of all this Portsmouth chewing?
The boys are willing turn us loose
And something will be doing.
To tell the truth we fairly itch
For exercises fistic
To corner Mr. Linevitch
And finish up artistic.

Why do the envoys sweat and toil
In logic grim and steady
To arbitrate a bit of soil
That's ours (you bet) already?
Why should Indemnity intrude
When, honestly, we've got 'em
In such an easy attitude
It seems a shame to swat 'em?

They think our terms a bit too strong?
I'm sorry things befall so;
But I opine it won't be long
Ere they are sorry also.
So keep 'em to our prices, Sire,
And if they scorn to take 'em,
By Fujiyama's sacred fire
We'll just waltz in and make 'em.

Most kinds of war are bad, but the hardy farmer of the Northwest feels that he could live through a grain-rate war.

The Bare Foot Cure.

(Chicago Journal.)

Brother Rockefeller's mania for saving souls has got so bad that he is going around without any shoes.

Unconfirmed rumors are still eating three square meals a day at Portsmouth.

If the peace conference falls through it will be up to Oyama to make some one sorry.

The noble Romans took a great delight
In entertainments that were very bloody,
Though we to-day can't see how such a sight
Could be considered nice by anybody.
Great dramas were concocted by the pen
Held in the fretful hand of pompous Nero;
The first act saw the villain's finish, then
They killed the minor characters and hero.

Occasionally, too, in Nero's reign
They had what they politely called a "circus."
To try to tell of it would be in vain;
The hunt for frightful words would overwork us.
They called it "sport," however, in those days
To see the gladiators do the killing,
To see the tiger turn its baleful gaze
Upon the one whose blood 'twould soon be spilling.

To-day? Ah, no, we would not go to see
Wild beasts turned loose to mangle and to ravage;
Such "sport" as this would seem to you and me
Superlatively terrible and savage.
We'd rather sit, with features drawn and sick,
In fierce excitement rooted to our places,
While some lacrosse performer lifts his stick
And separates opponents from their faces.

We much prefer to see the umpire scoot,
The hockeyist exhibiting a raw bone,
The football player take his hob-nail boot
And dislocate some gentle player's jawbone.
And oftentimes we take our autos out
And split the wind until the quickly spill us,
And hurl us here and there and round-about,
And in the modern sportive manner kill us.

Out of the Ordinary.

A NEW MINE DANGER.

A rather unexpected danger in coal mines, as also in other places, has appeared. In an English mine an ordinary 100-volt, 16-candle power lamp proved to be capable of causing smoke to rise within three minutes when imbedded in coal dust, and of producing flame within twenty-five minutes when laid on the top of coal dust. In other experiments, heat was generated so rapidly that when the lamp was partly covered by coal dust the bulb exploded in four minutes at 459 degrees F., and at a certain point combustion was begun in the dust and continued after removal of the lamp. Careless laying down of a lamp might start a fire quite unnoticed.

GATES IS A GOOD SPENDER.

Report has it that John W. Gates is making all the other plungers at Saratoga look small. Gates thinks and acts in thousands where the average man does the same things in dollar bills. He hardly recognizes small change when he sees it. His bets at the races are all up in three figures, he pays a dollar for a shave and tosses another dollar to the boy who shines his shoes. He buys a good dinner for a large party at a time, and gives the biggest tips ever heard of. The chances are that even with his big expense he will break even or better on the present meet. At present he is away ahead of the game.

FATHER JOHN, OF CRONSTADT.

Father John, of Cronstadt, who has such extraordinary influence with the Czar, is 86 years old. In personality he answers the description of the average Russian peasant, only in his case abstemiousness has wrought a refining effect on his features. He is short of stature, with a somewhat florid complexion, and his small, twinkling gray eyes have that furtive appearance characteristic of the Russian working class. In spite of his great age, he is remarkably active, and his long, brown hair is untouched with silver.

POPE GREGORY BISHOP.

Pope Gregory XVI died on June 1st, 1846, nearly sixty years ago, and it would seem impossible that a bishop appointed by him could be still alive and in harness. But Dr. Daniel Murphy, archbishop of Hobart, Tasmania, the last prelate of Pope Gregory's creation, is in his 91st year. He was born in Cork while the battle of Waterloo was being fought, was consecrated an Indian bishop in 1846, and translated to Hobart in 1865. He is the sole survivor of the council of 1851 that proclaimed the dogma of the immaculate conception.

NEW YORK'S "RICHEST" RICH.

New Yrok has the richest baby, the richest boy, the richest bachelor, the richest spinster, the richest married man and the richest widow in the whole wide world. Parts of this big claim might be overthrown on close scrutiny, but we continually hear of little John Nicholas Brown, the richest baby in the world; James Henry Smith, the richest bachelor; William Ziegler, Jr., the richest boy; Miss Stickney, the richest spinster; Rockefeller, richest of all, etc.

MADISON, WIS., WOMEN VOTED.

Few women had ever voted at the elections at Madison, Wis., until this summer, when the ladies made up their minds that there must be a new high school, and that bonds must be issued for the purpose. The men voted a majority of 13 against the bonds, but the women voted a majority of 421 in favor, resulting in a total majority of 284 for the bonds. The opposition will contest, saying that women may not vote for bond issues, although they may vote for members of school boards.

DECORATION FOR MIKADO.

The famous British Order of the Garter has so far been conferred on only one Oriental ruler, viz., the Shah of Persia. Before many months, however, it will be bestowed on the Emperor of Japan, between whose country and Great Britain the closest relations now exist. It is the present intention to have the Prince and Princess of Wales, at the end of their visit to India, sail in a great warship to Japan bearing the coveted decoration with them.

VIGORITE, NEW EXPLOSIVE.

Vigorite, the new explosive of Prof. Shulz and Engineer Gehre, of Switzerland, is a nitrous compound, which, united with saltpeter, has given results claimed to indicate a strength about ten times greater than that of any other explosive. In the open air it burns without exploding. It has the further advantage of being insensible to friction, shock of concussion, while it is not injured by wetting or by freezing.

THIS DATE 30 YEARS AGO.

The Hon. Messrs. Geoffrion and Huntington have been confined to their chambers for several days by serious indisposition, from which they have not as yet recovered.

BOTH the above-named Canadian statesmen have passed away. Mr. Huntington was one of the best orators in the country, his diction being always in excellent style. He was Postmaster-General in the Liberal Cabinet from October, 1875, to October, 1878, when the Cabinet resigned. Mr. Felix Geoffrion was Minister of Inland Revenue in the same administration from July, 1874, to November, 1876, when he resigned owing to ill-health.

The clothing firm of Messrs. James O'Brien & Co. have established branches in Manitoba and British Columbia. They believe that an extensive business in ready-made clothing can be lucratively carried on by them in both provinces.

THE late Hon. James O'Brien was one of the most extensive clothiers in the Dominion. His firm was well known in every city and village in the country. He was made a Senator in the nineties and died a few years ago. For many years he was a director of the City and District Savings Bank.

Lord Houghton and his son, the Hon. Mr. Milnes, arrived in the city this morning from Quebec, and are guests at the Hall. They leave in a few days for Ottawa, Toronto and points west.

THE late Lord Houghton, author and poet, was a gentleman of most scholarly attainments, writing in unsurpassable style as "Monckton Milnes." He was elevated to the peerage on Aug. 20, 1863. He wrote and published several volumes of poems under the title of "Poems of Many Years," "Palm Leaves," etc., and many pamphlets. His last work was "Monographs, Personal and Social," published in 1873.

Teething, Eczema and Scald Head

Bring Much Suffering to Babies and Young Children—Certain Cure in Dr. Chase's Ointment.

In the home where there are young children Dr. Chase's Ointment is found useful almost every day of the year. During the teething period, especially, there is almost sure to be an attack of eczema, scald head or some form of itching, skin disease.

Besides the keen distress which such ailments bring to the little ones, there is always the danger of eczema becoming chronic and clinging to them through life.

There is no reason for any child to suffer in this way so long as Dr. Chase's Ointment is obtainable, for it is a prompt and thorough cure.

Only a few applications are required to bring relief from the itching, stinging sensations, and the skin is left in a clear, smooth and healthful condition. Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Had Diarrhoea so bad he had to give up work.

HAVE YOU EVER BEEN IN THIS POSITION?

If you have not been, but ever do be, remember that Dr. Fowler's Extract of Wild Strawberry is nature's specific for all Bowel Complaints.

It has been on the market for 60 years. Surely this is reputation enough as to its efficacy.

Mr. Henry Voll, Carthage, Ont., writes: "I have used Dr. Fowler's Extract of Wild Strawberry with the best of results. Last summer I had the Diarrhoea so bad that I had to give up work. A friend of mine persuaded me to give Dr. Fowler's Extract of Wild Strawberry a trial, which I did, and can say that it cured me entirely. I can recommend it to all who are troubled with Diarrhoea."

Be sure and ask for Dr. Fowler's and take no substitute. All dealers sell it.

Why Furnaces Crack in Summer
In the old fashioned hotwater heaters with wide, flat surfaces, the soot finds a splendid resting place. A scraper and brush jams soot into the interstices between the water sections. There it cakes and hardens, absorbs moisture, then it expands, and you have a cracked waterpost. If you have a "Bison" hotwater heater you won't have any furnace troubles. There are no flat soot collecting surfaces in the "Bison"—no crevices where soot can lodge; there will be no cracked waterposts, no delays, no mess, no plumbers' bills.

Flashes of Thought.

France intends to demand satisfaction of Morocco, regardless of the fact that the supply is far from being equal to the demand.—Philadelphia North American.

Russia will please take notice that Kitchener's views have prevailed, and India will be prepared for any demonstration that the Bear may make in that quarter.—Ottawa Citizen.

The proposition to merge Nova Scotia, Prince Edward Island and New Brunswick into one province has much to recommend it, and nothing, save sentiment and the ambitions of a few politicians, to prevent it.—Hamilton Spectators.

Glance at the lists of directors of some of our prominent insurance companies, and see if there are not among these directors men who don't direct, and don't even attend directors' meetings, but who are paid directors' fees solely for the use of their names.—Hamilton Herald.

The resignation of Lord Curzon, viceroy of India, may mean many things, but one thing it certainly does mean, and that is that Lord Kitchener has won a final and complete victory in his effort to be the real—and not merely the nominal—commander-in-chief in India.—Boston Transcript.

We heartily endorse the suggestion that wherever it can conveniently be arranged the children of the public schools should participate in the centenary commemoration of Trafalgar. Let us have a regular Nelson day on October 21, and let it be such a one as the children will long remember.—Toronto Globe.

Of a deadlooked peace conference, no news is eminently good news. The adjournment at Portsmouth is the best evidence that hope has not been abandoned; that diplomacy is active all over the civilised world to avert the continuance of a war, to renew which now would be almost a crime against the human race.—New York Evening Post.

The greatest problem which faces the wheat-growers at present is the obtaining of sufficient help to garner the harvest. Even if the 15,000 helpers that are wanted are brought from the east, it is plain that the energies of the farmers and their families will be taxed to their uttermost to save their harvest.—Manitoba Free Press.

It would be well for the Montreal harbor management and the Public Works Department of the Dominion Government to ascertain what ground there is for the complaint of the Glasgow shippers and ship-owners, that the cost of handling cargoes at Montreal is excessive, while the wharf facilities are not up to date. If anything is to be done in the matter no time should be lost.—Toronto Globe.

BRINGS POPE'S BLESSING.

Rev. Father McDonald, of St. Mary's, Had Private Audience.

Rev. P. McDonald, curate of St. Mary's church, has just returned from a tour through Europe. During his stay in Rome he had the privelege of a private audience with the Holy Father. The Pope sent his Apostolic Benediction to the people of St. Mary's parish. Father McDonald while in Rome said Mass at the tomb of St. Peter, and in Milan at the tomb of St. Charles Borromee.

Of his audience with Pope Pius X., Father McDonald said:

"His Holiness is a man of charming manner and of very imposing appearance. Dressed in immaculate white, his countenance beaming with heavenly sweetness, his very presence would inspire love and confidence. I will never forget my visit to Pius X., and the fatherly way in which he conversed with me. He was particularly interested in the welfare of the Irish Catholics of Montreal, and spoke in the highest terms of the allegiance of the Irish people to the Holy See. He empowered me to give the Apostolic Benediction to the people of St. Mary's parish, which I will impart next Sunday during High Mass"

With preparations for the celebration of his diamond wedding going on around him, a Marienburg tradesman, named Halbetadt, aged 80, hanged himself in his bedroom, leaving a note explaining that he was "tired of life."

WOULD YOU RATHER HAVE
$8 or $3?
Why, then, be satisfied with bank interest when you can make your money earn a minimum of 8 per cent. in buying shares in The J. T. Lyons, Inc. These shares are $10 each, non-assessable, and you can buy one or more as you require.
The Lyons Drug Stores are known in Montreal as the most prosperous and best patronized drug stores in Canada. There are four of them—in different localities, tapping the chief centres of trade, and all are doing well—and there is good money in a well-established drug business.
Nor are these stores of recent growth.
About twenty years ago the first one was established, and the present business is the evolution from that modest beginning. The business is sufficient to assure shareholders a handsome dividend, and its natural increase means that dividends of 25 per cent. or more should be forthcoming. And then shares which will have cost $10 will find purchasers very readily at $30.
Investors of $5,000 will then receive yearly $1,250, or could sell out for at least $15,000.
Of course, only a few can avail themselves of this opportunity. And first come first served.
$10 buys one share.
$30 buys three shares.
$50 buys five shares.
$100 buys ten shares.

The Admiral Prince Concludes His Montreal Visit

The two days' visit of Prince Louis of Battenberg to Montreal came to an end at 8.45 to-day when His Serene Highness took the train for Ottawa.

Those who have had in their charge the management of the reception of the distinguished visitors, and who have devoted their time and energy to make it a success and an honor to the city, can now rest from their labors, and looking back over the events of the last two days can felicitate themselves on the results they have attained. Nothing could have been more successful than the reception of the Prince. The many different plans formed for his entertainment during his stay in our midst were all carried out in the greatest harmony and without one unpleasant event to mar the effect of the whole. When one considers the multitude of details to be arranged for, the countless number of little things which are so petty in themselves but which contribute so enormously to the success or failure of such an undertaking, these happy results seem little short of marvellous.

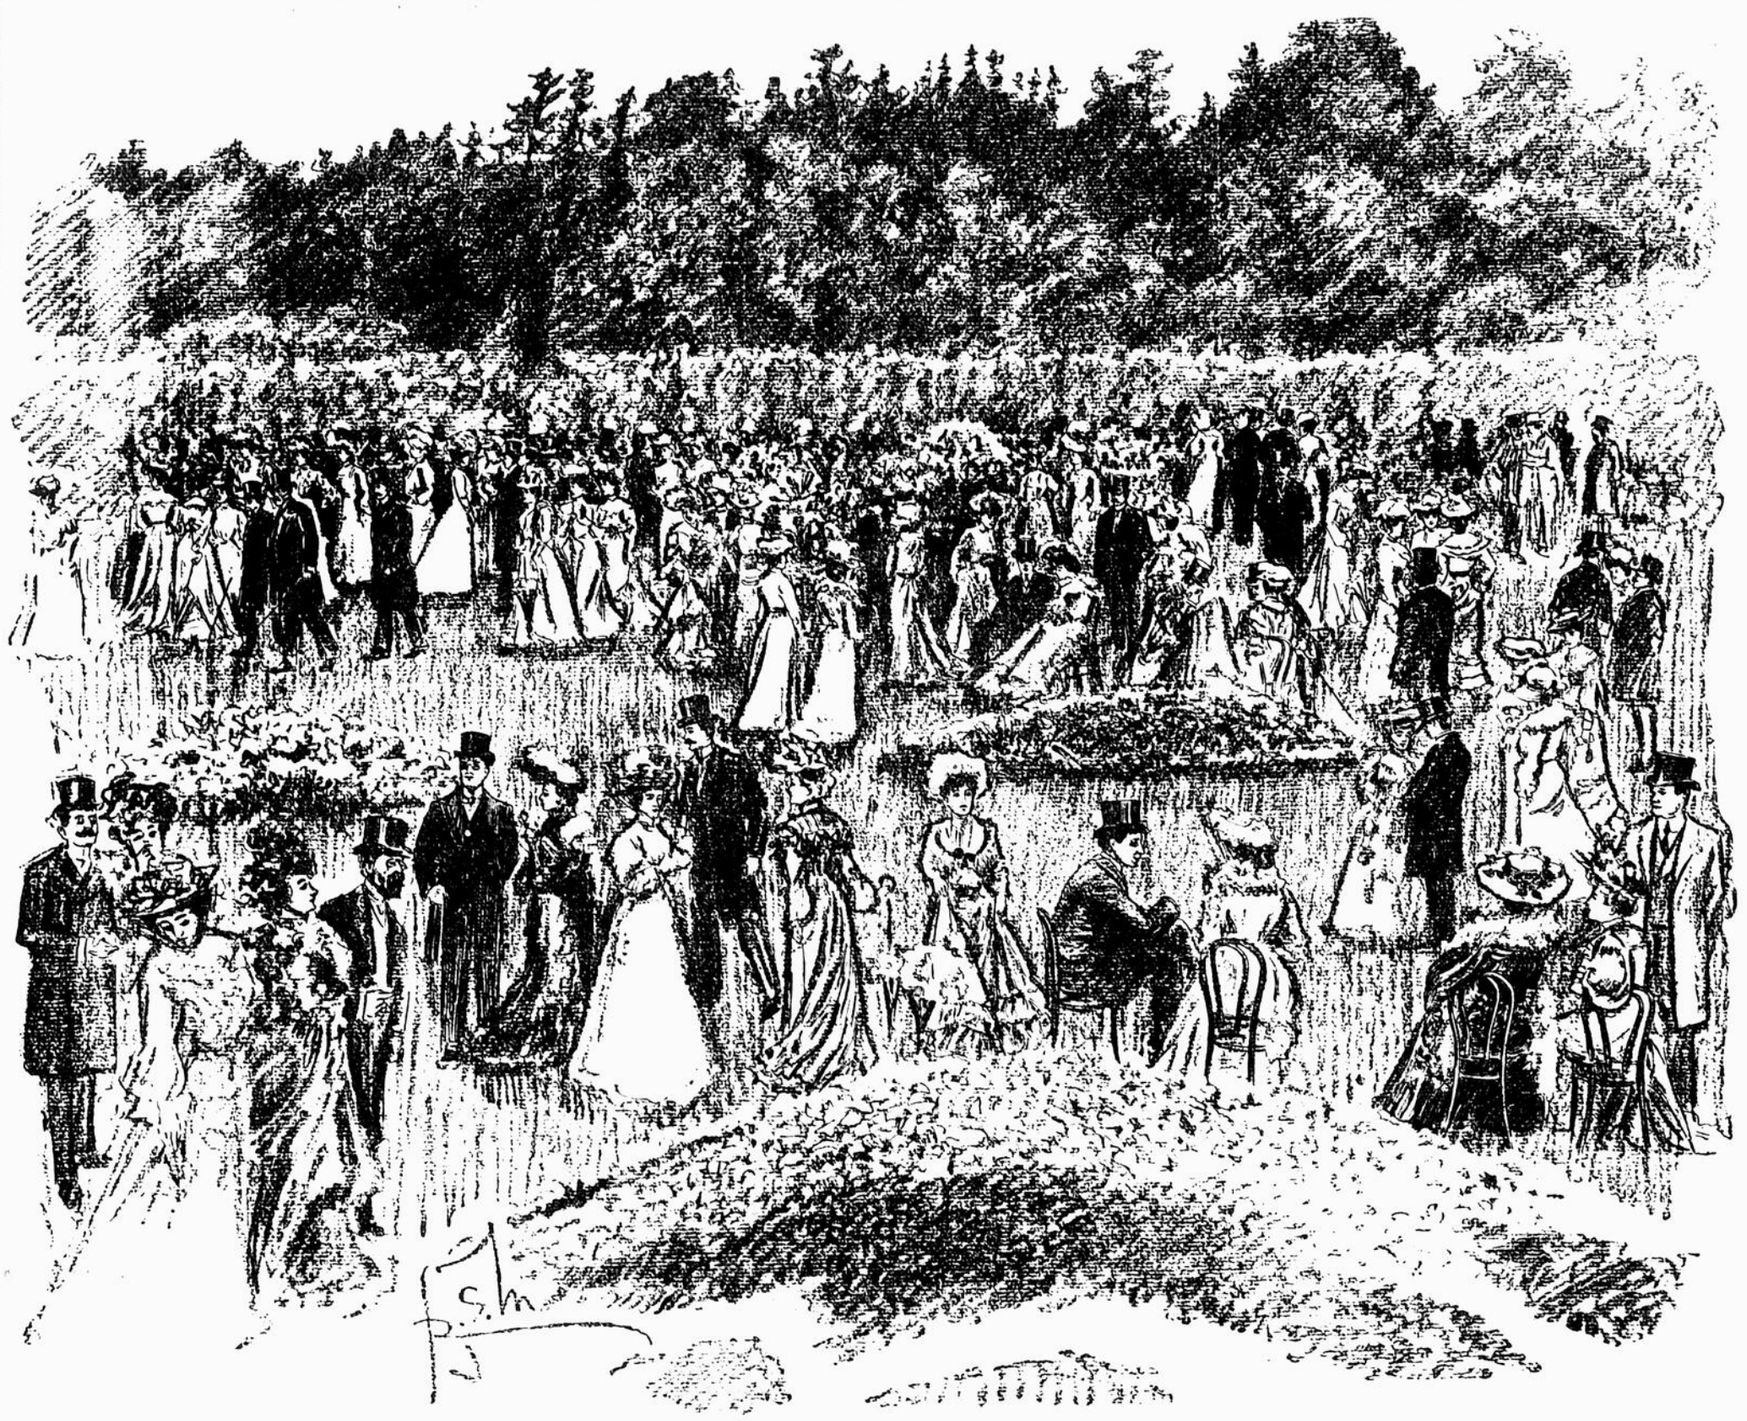
All credit is due to the gentlemen of the reception committee for the brilliant success of the affair. The visitors seemed to thoroughly enjoy themselves all the time, and if they received only half the pleasure they expressed, all have every reason to be satisfied. Even the weather entered into the general conspiracy to make things pleasant for them, and after the capricious way it has been acting all summer this looks like nothing less than a special providence. In one word, the reception has been a triumph, and Montreal can feel satisfied that she has shown Prince Louis of Battenberg, his officers and men a hospitality worthy of such distinguished visitors, and also worthy of Canada's leading city. The community followed Hamlet's advice, and received them "according to our own honor and dignity," and our guests declared they would long bear pleasant memories of their sojourn here.

There were present to-day at the Windsor station to bid farewell to the Prince, Mayor Laporte, Ald. Sadler, chairman of the reception committee, Sir Thomas Shaughnessy, Sir Montague Allan and others. The Admiral was sharp on time, with the punctuality he always shows, and which is characteristic of the man of affairs. After a few words with those present, thanking them for their courtesy and for the pleasant time they had contributed to give him, he went on board his special car, accompanied by Flag-Lieut. Sowersby, the train pulled out and Montreal saw the last of her genial visitor.

Even at the last moment the Prince showed the thought gentleman he always is. In is hurry he had been unable to take leave of Manager Weldon of the Windsor, so he gave instructions to Captain Kinghall, who accompanied him to the station to hunt up Mr. Weldon on is return to the hotel, and convey to him His Highness's thanks for the way in which he had taken care of him and his officers.

The officers who have remaind behind in Montreal will follow different plans in the disposal of their time. Some will go on to Ottawa this afternoon, others will remain in Montreal a day or two, and still others will return to Quebec.

It is expected that the Prince will go on to Toronto to-night. The sailors who leave this afternoon for Ottawa to give a tournament there, leave from there for Toronto to-night at eleven o'clock.



VISIT OF PRINCE LOUIS OF BATTENBERG.—SCENE IN THE CIVIC GARDEN ON THE SUMMIT OF MOUNT ROYAL DURING THE PROGRESS OF THE GARDEN PARTY IN HONOR OF HIS SERENE HIGHNESS.

THE LAST NIGHT OF TOURNAMENT.

There was another very large audience at the Arena last evening, and it was afterwards announced that the receipts for the two nights amounted to $2,600 which, after expenses have been paid, will net the hospitals a nice sum.

The performance was of the same character as that of Tuesday night, the horseback wrestling being in many respects the feature of the evening. There was only one injured after a plucky fight, and a day or two of rest will fit him for his daily tasks.

Just as the men were being lined up for a march past the committee in single file, His Serene Highness, with two members of his staff appeared at the Arena and walked to the front of the box which he occupied the night previous. He stood there while the three hundred men were presented with souvenirs of their visit to the city and then marched around the promenade bowing his acknowledgments to the cheering people and in one case stooping to shake hands with an old lady who put out her hand as though he was a life long friend.

With the band playing, "God Save the King," the Prince took his departure and the Arena festivities were at an end.

By winning the final wrestling match the South African veterans retain the local championship. They, last night, beat the sailors first and then the Field Battery.

THE DINNER AT ST. JAMES'S CLUB.

St. James's Club members dined Prince Louis and several members of his staff last night. Mayor Laporte and Sir Gilbert Parker were also guests of the club. Mr. G. R. Hooper presided. There were in all about fifty members present, and the function was in every respect a success.

THE GARDEN PARTY A GREAT SUCCESS.

A perfect day and a huge concourse of people tended yesterday to make the garden party given by the city in his honor, an occasion to live long in the memory of H. S. H. Prince Louis of Battenberg.

The civic holiday was royally kept, and in the true democratic spirit intended by the Mayor. The people flocked to meet the Prince, and when they met him they insisted on signifying their pleasure at the meeting by shaking hands. In turn many hundreds of people were presented, and if the Prince is suffering from an arm that is stiff from over exertion, he has the satisfaction of knowing that excess of hospitality on the part of his entertainers is the cause.

The afternoon was perfect.

The rain of the previous day had laid the dust and made it a pleasure to drive through the long leafy roads leading to the top of the mountain. Its crowds the people flocked to the vicinity of the Park Ranger's house. They came in cabs, in carriages, in street cars and on foot. It was a truly mixed crowd where tweeds rubbed elbows with frock coats, where a rainy day skirt and a cotton blouse were more in evidence than the usual garden party silks and laces. The uniform of the Street Railway employes was in as frequent evidence as that of the sailor There were a few military uniforms, and many white flannels. The Prince wore a brown tweed suit with black bowler, and the officers of the squadron were also in mufti. In costume there was every variety to choose from. It was also a cosmopolitan crowd and included many creeds and nationalities, in a small way it was typical of the Empire including as it did soldiers, sailors, a few orientals, and many of Montreal's most loyal citizens.

GOOD POLICE ARRANGEMENTS

Had it not been for the excellent management of the police in charge, the road leading to the Park Ranger's house would have become congested long before three o'clock the hour set for the arrival of the Prince. Hundreds of people, camera in hand, lined the wayside, and camped out comfortably on the grass. H. S. H's wish to see as many as possible of the people of Montreal was gratified, for at a first estimate is seemed as if all the people left in the city had gathered to do him honor.

The beautiful natural situation of the civic garden with its trimly laid out flower beds was a blaze of color. Everywhere small tables were placed about the lawns. The Park Ranger's vine-covered house was a mass of bunting, while among the deep green of the creeper covered walls were shields bearing the letters "L. B." and the names of the frigates of the second cruiser squadron. Large marquees were erected on the lawn at the side of the house, and there the refreshment tables were spread. Close by the red coats of the Band gave an added note of color. A setting to the scene was furnished by the clusters of golden glow, which like huge yellow bouquets showed up against the background of deep green hedge beyond which the deeper green of the firs stretched up towards the sky.

The lawn was already well filled when H. S. H., preceded by four mounted policemen, drove up in a large open carriage with Capt. King-Hall, Sir Montagu Allan following with Flag-Lieut. Sowerby. As H. S. H. alighted the crowd surged forward, and the policemen with difficulty made a pathway through which, attended by the reception committee, and the Prince, bowing to right and left, made his way to the small marque reserved for him, the band playing the National Anthem. Once at his destination the tent was besieged, and it took the combined voices and the physical persuasion of several stalwart policemen to keep the people at a convenient distance. After the mayor and aldermen had greeted H. S. H. the general public was admitted, and for nearly two hours Prince Louis shook hands with all comers, occasionally exchanging a word with someone in the throng. The guests were presented by the Mayor, and as they passed the line a favored few found seats behind the receiving party. In the crowd many were content to shake hands and pass on, others extended a few words of welcome to the Prince, while again others, principally strangers, explained to the Prince who they were, and whence they came. For everyone the Prince had a hearty smile and a grasp of the hand. To the many children, some too young to walk, who were in the line, he paid special attention and one or two of the prettiest little girls were kissed by His Highness. As time wore on, those about the Prince became anxious on account of the strain to which he was subjected as the heat was intense, but H. S. H. insisted that he felt little fatigue, and continued to make the people welcome. At last it was decided in view of the lateness of the hour to curtail the presentations, but the Prince realizing that many were disappointed by such a measure, went to the entrance of the marquee, and greeted many others. It was after five o'clock when the Prince finally departed with Sir Montagu Allan, being cheered to the echo until after the carriage had disappeared in the distance.

In addition to His Highness, Prince Alexander and the officers of the second cruiser squadron, the guests at the garden party included Mayor and Mrs. Laporte, Lady Hingston, Miss Eileen Hingston, Archdeacon and Mrs. Norton, Miss Lucy Norton, Principal Peterson, Mrs. Huntly Drummond, Mr. and Mrs W. Robb, Miss Robb, Mrs. Stevenson, Lieut.-Col. and the Misses Gardner, Prof. and Mrs. Adams, Miss T. Allan, Mr. and Mrs. George E. Drummond, Sir Montagu Allan, Mr. A. W. Hooper, Lieut.-Col. THE LUNCHEON AT THE HUNT CLUB.

The luncheon in honor of His Serene Highness at the Montreal Hunt was one of the most enjoyable functions of the visit. The chair was occupied by Mr. W. R. Miller, the master, and Prince Louis sat on his right, and Sir Montagu Allan on his left.

"His Majesty King Edward" was the only toast given by the chairman, and the Prince made a very happy reply on the same lines as those touched upon in his reply to the address presented to him at the City Hall.

Among those present were: Sir Montagu Allan, Mr. Angus Hooper, Mr. Hugh Paton, Mr. W. R. Miller, M.F.H., Mr. A. E. Ogilvie, Mr. Watson Ogilvie, Mr. B. McLennan, Senator Mackay, Mr. Andrew Reford, Mr. Robert Reford, Lieut.-Col. Whitehead, Mr. Colin Campbell, Mr. Harold Hanson, Mr. George Gillespie, Mr. H. B. MacDougall, Sir William Hingston, Mr. H. Learmont, Mr. J. G. Muir, Dr. Charles McEachran and Sir Thomas Shaughnessy.

Will Not Grant Certificates.

Special to The Montreal Star.

Chatham, Ont., August 24.—The Canadian Association of Stationary Engineers, which concluded its annual convention here yesterday afternoon, decided not to grant certificates of membership to members as these might prove dangerous should a member drop out and still retain his certificate, also to make the conditions for membership an examination by the board and six months' residence in Canada after the necessary qualifications had been produced. The preamble constitution was changed somewhat, and now states explicitly that the association shall at no time be used for the purpose of strikes, the association being organized solely for educative purposes.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure Send for circulars, free.

STE. CUNEGONDE AND ANNEXATION

The Town's Legal Adviser Strongly Opposed to the Suggested Union With City

REPLY OF CITY DELEGATES

The Subject of Expropriation — He Claims Montreal's Law Is Hard on Proprietors.

The Ste. Cunegonde Council met last evening to consider the annexation by-law. Mr. F. X. Dupuis, M. L. A. for Chateauguay, who is the legal adviser of the town of Ste. Cunegonde, made an impassioned address against the adoption of the by-law.

He denounced the clause stating that no expropriation shall be carried out for fifteen years as a useless provision, and one that could not be maintained. The Legislature was the only power that could order such expropriations. Annexation would be followed by the widening of Notre Dame street, and this would mean considerable loss to the proprietors on that street, for the Montreal expropriation law was entirely against the proprietor. He instanced the case of Amherst street, where the people had to appeal to the Legislature to secure enough to pay for their property, while the proprietors on St. Lawrence street were dissatisfied.

Mr. Dupuis also declared himself against the clause which provided that the city of Montreal must keep the street pavements in repair at a cost no greater than that now incurred in the arranging of the streets. Mr. Dupuis declared that Montreal did such work more cheaply than the town, and should not charge any more than it cost. He also inveighed against turning over the proprietors and tenants of the town to the city without due consideration. It required three months at least to consider the proposition.

Several other members of the auxiliary committee, which is adjoined to the Town Council to consider the matter, gave their views on the question. In reference to clause 7, an amendment was submitted to the effect that the chief of police and fire should receive the same salary as a sub-chief of the city of Montreal.

Mayor Laporte and Ald. L. A. Lavallee, were present by special invitation, and replied to Mr. Dupuis. Alderman Lavallee dealt with the objections one by one, to demonstrate that they were not based on any good foundation. The committee will meet again next Monday evening.

Narrow Escape from Drowning.

Miss L. Lynch, formerly of Montreal, who at present resides with her sister, Mrs. M Walsh, at Batiscan, while taking exercise Tuesday morning near the water edge, stepped into a small boat, and losing her balance, fell backwards into about fifteen feet of water. Mr. W. J. Jones, of Montreal, who is spending his holidays here, happened to be nearby, and rushing to the rescue, succeeded in saving her from drowning. Mr. W. Kavanagh, of New York, who is here recuperating his health was also on the scene, and assisted Mr. Jones in carrying Miss Lynch to her home nearby, where she was soon restored not feeling much worse, for her experience.

Three Men Beat a Chinamen.

A violent assault was committed by three young men who entered the laundry of Hing Lung, 293 Lagauchetiere street. His assailants struck him on the head with an ironing board and a chair, severely injuring him. When examined at the Notre Dame Hospital it was found that his jaw had been fractured and he was also suffering from wounds on the body and face. The police have the case in hand and will do their best to find the assailants.

Caverhill, Mr. L. H. Davis, Mr. Geo. J. Kilvin, Mr. C. A. Forest, Mr. A. D. MacTier, Mr. Thomas McDougall, Dr. C. M. Hays, Lieut. Bowerly.

The vice-chairmen were Lieut.-Col Whitehead, Mr. Angus W. Hooper and Mr. James Elmsley.

SOME OF THE SPEECHES.

After the toast to the King, the only toast of the evening, "Rear-Admiral Prince Louis of Battenberg and the Royal Navy," was proposed by Mr. C. D. Monk, K.C., M.P., and seconded by the Consul-General of France.

Mr. Monk was particularly happy in his speech, and his dignified reference to the brilliant services of the guest of the evening, and his well deserved compliments to the British navy were warmly applauded.

In seconding the toast, M. Kleczkowski said how pleased he was to greet once more the welcome uniform of the British Admiral, a uniform of the British squadron. He knew by word bonds of respect and true personal esteem officers of both the English and French navies had been long linked together. "They all belong to the brotherhood of men who live for an ideal, who strive for a cause, who have a common worship for military honor, a common love for military courage. It is that worship and that love which, by a noble inspiration, have prompted Admiral Couillard and his eighty officers, when passing in front of the Nelson monument in London, to turn their eyes straight to the bas-relief representing the great man's death, and to lift their hats as a supreme homage to a dying hero."

After an allusion to the fetes at Brest and Portsmouth, and an amusing reference to reports in the press describing sailors of the two fleets strolling arm-in-arm in the streets, and "murdering each others tongue," the Consul-General paid a tribute of respect to King Edward's benign influence in the rapprochement between the countries, and concluded his remarks by these words: "France and England have had many centuries of war. They must and will have as many centuries of peace."

The toast was responded to in the name of the Admiral in the most happy and eloquent terms by Captain King Hall, commander of the "Cumberland," who accompanied H. S. H. in his trip to Montreal.

Captain King Hall answered for the Admiral because of a most severe cold which made it impossible for Prince Louis to speak, and forced him to leave the banquet at an early hour.

Captain King Hall proposed the health of the Dufferin and the members of the St. James's Club, which was responded to very happily by the chairman, Major Hooper.

PRINCE ALEXANDER LEAVES TO-DAY.

Young Prince Alexander of Battenberg, who has been a guest of Sir William Hingston during his stay in Montreal, will go on to Ottawa this afternoon. He will be accompanied by Captain Fairchild, of the Dufferin, who was his companion while here. From Ottawa the young prince will go to Toronto with the rest of the party.

APPRECIATION FROM THE IRISH CATHOLICS.

The True Witness, organ of the Irish Catholics of Montreal, will say editorially:

"The citizens of Montreal have had the best traditions of royal visits to the commercial metropolis of the Dominion revived by the welcome given on Tuesday to His Serene Highness Prince Louis Alexander of Battenberg. His Worship Mayor Laporte expressed the cordial feelings of all our people in the terms of the official address, which was particularly timely in its tribute to King Edward the Peacemaker. It is not by nations or races only that the influence of His Majesty upon the relations of the world powers is acknowledged to-day. Civilized society everywhere feels and appreciates the genius of this monarch for promoting the peaceful interests of other peoples as well as his own; and it was not too much for the Mayor of the city of Montreal to say that nowhere more than in Canada, by reason of this country's abiding faith in the cause of national and racial union and amity, can the glorious character of King Edward evoke more true and intelligent appreciation.

"The response of His Highness indicated his excellent knowledge of the happy conditions and aspirations of our united people and of the noble task to which they have set themselves of developing the boundless resources of their vast domain.

"The gracious courtesy which His Highness paid to the Catholic portion of the community while it will be particularly grateful and memorable, only emphasizes upon their side their confidence and satisfaction, in the common experiences of Canadians of every creed and origin, with British institutions."

The marriage of Miss Juliette Leger to Mr. James E. Currie jr., will take place on August 30th.

PRISONERS MAKE BREAK FOR LIBERTY

Surrendered to the Guard After Shots Had Been Fired.

ONE CAUGHT IN THE RIVER

Brought Before the Magistrate They Elected to Be Tried by Jury.

Special to the Montreal Star.

Toronto, August 24.—Two prisoners, Joseph Clayton and William Curtis, made a break for liberty from Toronto jail grounds yesterday. With 28 others they were being kept at the gaol pending removal to the Central Prison, which is at present overcrowded. The gang was taken to the grading and levelling work in Riverdale, and Clayton and Curtis bolted for the river half a mile away. Guard David Gozzins fired two shots after them and ran in pursuit. At the river he cornered them. One ran into the water, and the other hesitated on the bank and both surrendered. They were brought before the police magistrate to-day on a charge of attempting to escape from custody. They wanted a trial by jury, and the magistrates committed them. Clayton has been serving a five months' sentence for vagrancy, and Curtis four months for the same offence. Their excuse was that they had been sentenced to the Central Prison and should not have been kept in the gaol.

A RAILWAY CHANGE.

Mr. C. W. Spencer Leaves C. P. R. for Great Northern.

Mr. C. W. Spencer has resigned the position of general superintendent of

MR. C. W. SPENCER,

Who has been appointed general manager of the Mackenzie & Mann railways east of Fort William.

transportation, eastern lines of the Canadian Pacific Railway Company, his resignation taking effect on August 31. It is understood that Mr. Spencer will accept a position with Mackenzie and Mann, as general manager of their lines east of Fort William, and will have charge of the entire construction of the Great Northern Railway between Fort William and Maritime Provinces.

Mr. Spencer has been connected with the C. P. R. for over 34 years, having entered the service in 1871. He worked his way up through the different departments of the company until Mr. Thomas Tait, formerly manager of transportation, resigned his present position in Australia, and Mr. Spencer was appointed to the position of general superintendent.

Probably no railway man is better known throughout Canada than Mr. Spencer, and no one is more popular with the railway people and the general public.

The Canadian Pacific Railway Company has accepted Mr. Spencer's resignation with sincere regret. Mr. D. McNicoll, general manager, said he was very sorry to lose Mr. Spencer, on account of his valuable services to the company in the past, but as he was accepting a better position he could not resist the temptation to sever his connection with the company.

Mr. Spencer will have his office in Montreal, and will take up his new duties on September 1.

Mr. Ham Will Soon Be Out.

Mr. George Ham's many friends will be pleased to learn that his condition is very much improved, and it is hoped that he will be able to get out about the first of next week. In fact he is now planning on taking a trip by water leaving here on Monday or Tuesday. He will be accompanied by his son and nurse. To-day Mr. Ham asked to have some work sent up to him, so that he would have something to do. He also asked for the daily papers, so that he could find out what the "boys" have been doing since he was first taken ill.

Fell From a Street Car.

Edward Brochet fell from a street car at the corner of Cuvillier and St. Catherine streets to-day. The man narrowly escaped death as he rolled in front of the fender and nearly went under the front trucks. When picked up he was bleeding from wounds on the head. When examined at the Notre Dame hospital, however, it was found that he had not been seriously injured.

He Was Acquitted.

Patrick Leahy, who was arrested on July 25th charged with assaulting and robbing Harris Gosk, was acquitted by Judge Choquet this morning. The complainant failed to put in an appearance to-day, and the evidence which had previously been taken at the enquete was not deemed sufficient to condemn the accused.

FRENCH CABINET HAS LONG SESSION

Considering Disciplinary Measures to be Taken Against Morocco.

WILL SULTAN BACK DOWN?

Military Occupation of a Town Near Algerian Frontier May Follow Refusal.

Paris, August 24.—The Ministers, under the presidency of Premier Rouvier, held a lengthy special session to-day. It was principally devoted to a consideration of the disciplinary measures to be taken against Morocco, should the Sultan not yield to the demands of the Government for redress for the recent arrest of a Franco-Algerian citizen.

An official communication says that unanimous approval was given to the instructions to be sent to the French Minister at Fez, St. Rene Taillandier, and to the subsequent action to be taken to compel the Sultan to give complete satisfaction.

The nature of this action is not disclosed, but it is known that it contemplates the military occupation of a Moroccan town near the Algerian frontier, probably Oudjda, owing to its proximity to a large French garrison in Algeria, and to its strategic importance, as it commands the route to the interior of Morocco and the capital, Fez. The latest official advices from Fez show that the Sultan continues to hold the Algerian a prisoner. The communication does not refer to the peace negotiations, although it is understood that the Ministers informally discussed the general prospects of peace.

Following the meeting Premier Rouvier sent instructions to the French Minister to demand the immediate release of the prisoner, informing him that a military demonstration would be made in case of a negative response.

Later it was announced that the Ministers had decided that in case Morocco refused the French demands, the entire personnel of the French legation would leave Morocco, simultaneously with the military demonstration.

PHENOMENA.

Watch closely the small panel on the left side of the title on the first page of the Star and observe the type change from day to day.

Special to the Montreal Star.

Ottawa, August 24.—Sir Wilfrid Laurier decided definitely to-day to attend the inaugural celebrations at Edmonton and Regina. Outside of the tariff commission and the vice-regal party, it is not definitely known who will go from the Capital.

The marriage of Miss Dutton, daughter of Mrs. E. Dutton, of 126 St. Famille street, to Mr. H. Mould, of the Montreal General Hospital, took place to-day. Mr. and Mrs. Mould have left for Toronto and other western cities.

LUNCHEON TO PRINCE.

Canadian Club Entertains the Distinguished Visitor.

Special to the Montreal Star.

Ottawa, August 24.— The luncheon tendered Prince Louis of Battenberg by the Canadian Club this afternoon, was a success from the standpoint of attendance and enthusiasm. Mr. MacKenzie King, president of the club, presided, and the speechmaking was confined to his introductory remarks of welcome and a brief speech by the guest of honor.

The Prince said he was suffering from a severe cold, and spoke briefly but with feeling. He thanked the people of the capital for their kindly welcome. He was glad to visit the Canadian seat of government in the coat of a British Admiral, for it meant more than the man inside. He was sorry the people could not have an opportunity of seeing all the sailors of his fleet.

Sir Wilfrid Laurier and the majority of the members of the Cabinet in the city were present. The civic address was presented at the City Hall at 3 o'clock. The Prince will go West this evening.

Municipal Improvements Show.

The American Society of Municipal Improvements will hold their twelfth annual convention in the Crystal rink corner of Dorchester and Guy streets, on September 5th, 6th, and 7th. The first Exhibition of Municipal Supplies will take place from September 5th, to September 9th, in the Crystal rink, also. Arrangements are being made to make it a grand success.

The Victorian Inward.

The Allan liner Victorian, on her way inward, passed Point Amour at 8.40 a.m. to-day. The turbiner should be at Quebec at 2 p.m. to-morrow and reach Montreal Saturday morning.

SIR GILBERT PARKER DEFENDS CANADA

He Shows Character of Expert the Board of Trade Called on.

PROF. MASON'S CONCLUSIONS

Work of An Anti-Imperialist and One Who Thinks Having Colonies a Crime.

Sir Gilbert Parker, M. P., will accompany Sir Wilfrid Laurier to the North West to attend the ceremony in connection with the inauguration of the new provinces, Alberta and Saskatchewan. It is fifteen years since Sir Gilbert crossed the continent and he expects to find the development will justify the belief that Canada is to be the granary of the Empire.

"Have you seen Prof. Mason's report to thea British Board of Trade on the North-West of Canada, with special reference to wheat production for export, and what do you think of it?" was asked Sir Gilbert Parker to-day.

"Yes, I have seen the report, but I am not inclined to discuss at length the evidence set forth by Prof. Mason in this voluminous and wide-ranging document, from which he draws his conclusions. That is a work for experts, and I have no doubt that the Canadian Government will think it a duty to substantiate the claims it has made through its official experts the year past, that Canada can supply sufficient foodstuffs for the United Kingdom, even for the Empire. I remember the proud official boast on the archway in Whitehall at the time of the Coronation—"Canada, the Granary of the Empire!"

I have no need to take up the cudgels for the Canadian Government, or for the C. P. R., which has confidently advertised the fact that Canada can supply all the wheat which is now supplied by the United States, Austria-Hungary, the Argentine and other

SIR GILBERT PARKER M.P.

countries. I notice that Mr. Muir, in the introduction to the report, thanks Sir William Van Horn and Sir Thos. Shaughnessy for their kind assistance in his enquiries. I have no doubt they will deeply relish the result of these inquiries, which provides a cold douche for the high hopes entertained by the directors of that vast national enterprise, the C. P. R. It represents a great many millions of money, a wide and powerful range of national interests, and a great deal of first-class and experienced material, which has risked much and accomplished immense results. Is it true, that the C. P. R. authorities, like the Canadian Government, has been deceiving the public of the Empire, or have they all been deceived? Have they been stating a case on insufficient knowledge and only playing the game of national showmen? They have backed their faith by organizations for immigration, for transportation, and for general development, but it would appear that they are sailing with too much canvas—if Mr. Mason, the political economist, is right.

WHAT MR. MASON SAID.

"Very great improvements in the productive power of the country, and a very considerable increase in the effective population, as well as a more exclusive regard to wheat cultivation, would have to take place before the North-West could be regarded as being in a position to be relied upon to produce for export to Great Britain a quantity of wheat even nearly sufficient for the growing requirements of the country."

"These oracular words represent a portion of Mr. Mason's sixth conclusion. Having laid down his conditions, his conclusion assumes at once that they will not be fulfilled. And such is political economy!

"I cannot imagine that the Canadian Government or the C. P. R. will take any great exception to the statements. They would, however, probably question the conclusion that the conditions would not be met. If the British public want wheat from Canada the demand for wheat will probably be satisfied. Most first-class free trade political economists rely on that 'natural' law in their protests against 'artificial' advantages.

Mr. Mason sees no hope for a large influx of British immigrants of the farming class into Canada, because the farming population in England has decreased in late years, and "the numbers on which to draw grow smaller. He apparently forgets the size of the population of England, and of the agricultural population and the simple economic fact, also, that there is such a thing as increase of births and deaths, and that for many and many a year to come England could send, as she sent last year, 45,000 first-class immigrants to Canada, and then only be relieving the severest pressure of her population.

The increase of births and deaths is not to be reckoned by fifty thousand years, but by the many hundreds of thousands, and all these are not born artisans, whom, Mr. Mason says, will not be welcomed in Canada, or farmers; but they are born with capacity to become good farmers, as previous settlement over generations in this country shows. Pedantry is a draw-back in political economy, and here is pedantry under a ponderous attempt to appear judicial and impartial.

"But I said I would not deal with the report and its evidence, or comment—as I might do, without having visited the North West four times in eight years as Mr. Muir has done—on the facts presented in detail or in general. That is work for experts, who will find other rules to guide them than those of the political economists. I have, however, a protest to mention which I shall not minimize. I condemn the action of the British Board of Trade in appointing Mr. Mason to make such a report as it required. The Canadian people protested with vigor against partial jurists being appointed to the Alaskan Boundry Commission by the United States. Here is a case as flagrant.

Mr. Mason is well known to hold extreme Cobdenite views, and his lectures in Toronto University preach the doctrine of Free Trade in an unmodified form. He does not believe in the Imperial idea, and he is opposed, with an unnecessary bitterness, to preferential relations between Canada and the Mother Country. He has held that England itself would be better without the Colonies, and that the Colonies would be vastly better without England.

"Yet at a time when the question of preference and commercial union with Canada, are acute and the most judicial and practical commission of inquiry is needed, the British Board of Trade selects a partisan professor of political economy for the purpose—not two or three practical men, partly from Canada and partly England—but one man whose opinions and and bias in the minds of most fair-minded and responsible men would unfit him to do so important a piece of work."

"However valuable the injunction presented in this report, the public of Canada can attach little importance to the conclusions drawn from it, and when the public of the United Kingdom know the past course of Mr. Mason's views and actions they will be no less sceptical. But meanwhile the conclusions in this report which pronounce, in effect, against the value of preference and reciprocity with England, will be used by a political party overseas to discredit Mr. Chamberlain's policy. The responsibility for this indefensible resolution lies with the Board of Trade in England."

From a Special Correspondent of the Montreal Star.

St. Petersburg, August 24.—The Foreign Office to-day for the first time, consented to make a definite statement about the peace conference, and it has ranged itself with the court, which, since the nature of the Japanese proposals became known, has been outspoken against peace. Foreign Minister Count Lamsdorffs, spokesman, said this afternoon: "It is absolutely final, that Russia will pay no contribution, in any shape or form, whether ostensibly a reimbursement, or for the redemption of the Island of Sakhalin, or any other pretence."

ST. JEAN BAPTISTE.

Special to the Montreal Star.

Farnham, Que., August 24. — This town to-day is en fete, the occasion being the celebration of St. Jean Baptiste, the French Canadian national holiday. Crowds of citizens, former residents, members of visiting societies and pleasure seekers from out of town throng the gaily decorated streets. Notwithstanding the threatening aspect of the weather this morning the visitors continued to pour into town by every train, while hundreds of residents of the district came in.

COLLISION OFF CAPE RACE.

Special to the Montreal Star.

St. John's, Newfoundland, August 24.—Two badly damaged vessels, the Norwegian steamer Hong Haakon, from New York, and the Norwegian barque, Alert, from Belfast, put in here last night after meeting in collision in the fog off Cape Race. The steamer towed the barque in. The Hong Haakon was bound for Philley's Island, to load ore, and the Alert for Cagne, to load lumber.

ENVOYS ARE NOW RESTING ON OARS

It is Thought To-day That M. Witte Communicated With President.

SIGNING OF THE PROTOCOLS

Claimed That These are Really Nothing More Than the Minutes of Meetings.

Portsmouth, August 24.— It can be stated with positiveness now that it was the President's personal message to Emperor Nicholas Yesterday, delivered to His Majesty in person by Mr. Meyer, which was communicated to M. Witte and Baron Rosen Tuesday afternoon at the Navy Yard. The President desired that the Russian plenipotentiaries should be apprised of the step he contemplated, and the fast that they, as is understood, approved of it is significant in the extreme. President Roosevelt until Tuesday had confined himself to communicating with M. Witte and Baron Keneko. His role was unofficial. He had not put himself in direct communication with St. Petersburg or Tokio. Now he has made his appeal officially, personally, as the head of one state to the head of another, to Emperor Nicholas. If it has failed, there still remains a last appeal to the Emperor of Japan.

PAUSE TO-DAY.

To-day superficially at least, there is a pause. M. Witte and Baron Rosen were off at 10 o'clock in an automobile, announcing that they were going to Magnolia to lunch with Baroness Rosen at the Russian Embassy. They expected to return to-night, but "might stay over until to-morrow." A little incident occurred just before they left which may or may not be significant. Mr. Pierce, the assistant secretary of state, was hastily telephoned for and came to the hotel at 9.20. He was with M. Witte for twenty-five minutes; then they left. Mr. Pierce dismissed the visit with the explanation that it was only to make arrangements about the trip of M. Witte and Baron Rosen. There is a suspicion, however, that M. Witte delivered to Mr. Pierce a communication for the President.

MINUTES OF MEETING.

There is a report, which cannot be absolutely confirmed, that late last night Baron Komura and Mr. Takahira were at the navy yard. If this is true it is possible that the President had some comunication with them after hearing from Mr. Meyer.

It seems that the so-called protocols signed at yesterday's session of the conference were not protocols at all in the proper sense of the word. They were simply what in diplomacy are called the "proces verbal," or minutes of the meetings. In Russia they are called "protocols," and as the Russian secretary made the announcement, the word employed led to a misunderstanding. As the conference has sat on seven different days, when he said seven of the protocols had been signed yesterday, four yesterday and three previously, the conclusion was drawn that he meant the protocols of seven articles only had been signed.

WANTED TO BE TRIED.

Man Walks Into Toronto Court and Answers Charge of Theft.

Special to The Montreal Star.

Toronto, August 24.—Berlin F. Gregory, who has been wanted in this city for some time, walked into the Police Court this morning and asked to be tried on the charge of stealing $2,000 from John B. Swann last April. The court promised to accommodate him, but the charge may fall through. Gregory had a stable on Pembroke street, with a mortgage on it. He received $2,000 from John B. Swann, of Stockbridge, Mass., in a transaction over the stable, and when Swann learned of the mortgage he caused a charge of theft to be laid. He has, it is understood, secured sufficient of Gregory's property to recover the $2,000. Gregory left the city after the transaction. The case was adjourned for a week, and Gregory was allowed to go on his own bail.

ROY IS DISCHARGED.

Judge Considered Evidence Did Not Show Wilful Misrepresentation.

Special to The Montreal Star.

Sweetsburg, Que., August 24.—Joseph Pierre Roy, charged with perjury in connection with the inquest over the murder of Wilfrid Audette, Farnham, was discharged yesterday, at the close of the preliminary investigation conducted by District Magistrate H. W. Mulvena, of Sherbrooke.

The judge did not consider that the evidence adduced by the Crown showed any wilful misrepresentation on the part of the accused, although it was shown that his account of his movements was not properly timed.

THE WORK OF THE SUMMER BURGLAR

Another diamond robbery of very large proportions has come to light. This time it was not from any shop, but from a private residence, and is none other than the home of the Hon. Robert Mackay, 1059 Sherbrooke. Five diamond rings, a watch and about $30 in cash were taken, and the value of the whole is close to $1,500, and was all the property of Mrs. Mackay.

The detective department has been keeping very quiet over the matter, and have been working hard to locate what seems to be a well organized gang. The announcement of this robbery, which took place recently, coming so closely on top of the Johnson robbery, has made the detectives realize most forcibly that they have no ordinary crowd to deal with, and they are sparing no efforts to find the missing goods as well as to get a hand on the thieves.

The summer months always bring announcements of robberies, but not for a long time has Montreal suffered so many cases of organized robberies of such large proportions. There can be little doubt but that a gang, and a clever one, too, is working, for the method of this last theft is no less daring than that used in the case of Johnson Bros., the St. Catherine street jewellers, where also diamonds to a large value were taken. It is surmised that Mrs. Mackay was followed home from down town on the day of the theft. She had been down doing a little shopping and came home and laid her jewellery on the dressing table in her room. About an hour later she returned and found that the articles had been stolen.

The servants were questioned and said that they had noticed a man hanging around the premises on the day in question, but they were not able to give any description that would be of sufficient service to the police to place the man. It was, however, stated at headquarters last night that several articles of jewellery had been found in Toronto, and it is very likely that they may prove to be some of the goods that have been taken from here if not those belonging to Mrs. Mackay, probably those that have been taken from other places here this summer.

Some of the other places that have suffered from theft this summer, beside Johnson Bros., are Dr. W. G. Nichols, 56 St. Matthew street. His house was entered about three weeks ago, and a number of articles were stolen while the family were away. Mr. Alexander Patterson's home, 55 Simpson street, also suffered. In a house on Drummond street the man was found by one of the servants and got away in time to save himself by saying that he was a book agent. The house of Mr. Stewart, on St. Famille stret, and Col. Ibbotson's have also been entered. In the former case a lot of goods were taken and in the latter nothing, the man being found asleep in a room on the top story.

VERDICT IN THE LAKONIA EXPLOSION

The inquest into the death of Engineer Smith and Fireman Jackson, of the Donaldson line SS. Lakonia to-day, was opened at 2 p.m. by Deputy Coroner Biron.

Captain Malcolm Neil Gillis, master of the ship declared that after having examined the auxiliary pipes at the place where the accident occurred, he was unable to give any cause for the explosion. He was on deck at the time it happened.

John Carnegie, chief engineer, swore that he was in the engine-room when the explosion occurred. The deceased, Smith, was on top of the boiler, arranging the valves at starting, when suddenly there came a crash. The room was filled with steam and water, and witness was unable to see for a time. When he was able to reach the spot where the explosion occurred, after helping the men, he examined the pipes, but was unable to tell what caused the accident. There were 120 pounds of steam registered at the time.

After hearing the evidence the jury brought in the following verdict: "That Alexander Smith and S. Jackson came to their death as the result of th bursting of an auxiliary steam pipe in the boiler room of the S.S. Lakonia. In this case there is no crime, and no one is to be held criminally responsible, as the machinery was in good order when last examined in July."

WALL STREET WAS EXCITED AT CLOSE

Local stocks maintained their strong tone in the afternoon, with the trading in Detroit United very active.

The bulk of the business in that stock was done on the basis of 95¾ to 97¾, the latter being a fraction above the top price of the morning.

Scotia kept strong around 87½, but was quiet.

Power was rather on the weak side, but Mackay common was steady.

The Wall Street market took a sudden drop just before the close.

Reading jumped to 125½ suddenly, and then fell to 122.

Copper was off to 85⅛, after selling at 85⅝.

It was a very excited close.

PANIC OF 1903 COULD NOT BE DUPLICATED

Even if the Present High Priced Issues Took a Bad Tumble.

STOCKS STILL KEEP FIRM

Detroit Ry. Was the Big Feature Locally on Quite Heavy Transactions.

There was nothing spectacular in stocks to-day, but everything looked strong again.

Smelters made a new high mark, selling at 131¾. Canadian Pacific was within ¼ of its top mark, while Union Pacific sold up to 137⅜. The record is 137⅞.

A new Wall Street feature was Louisville and Nashville, while the crowd which has been around the list boosting everything in turn gave the Tractions some attention and put them higher.

The friends of Detroit United were active both in Montreal and New York, and under the influence of heavier transactions that stock again crossed the 95 mark.

In a quiet way investors are picking this stock up, but the traders at the moment seem to be responsible for the bulk of the business.

Said a Montreal broker: "There is one thing about that Wall Street market. Should the under-pinning give way and some of those high-priced issues come down the ladder the small people cannot get scorched very much. No matter how high the market goes now we cannot have a repetition of the smash of 1903, when almost everybody got hurt.

"I hear many people say that the market is riding for a fall, and it may be true, but conditions are as widely different from those of 1903 as day is from night. Business to-day is sound, and a set-back in the industrial world looks to be a long way off.

"There have been no crazy wildcat amalgamations, such as we saw in the 1901-1902 period, and in hundreds of other ways things look rosy to-day in comparison with the times I speak of.

"The market, however, is a puzzle, and the attitude of the public proves the problem of the day. I think the public will eventually nibble freely at low-priced issues, and I look for a good market in the autumn, but the high price of many stocks will be a safeguard against a general wave of speculation on the part of people who cannot afford to lose much money."

On limited trading Nova Scotia Steel went about a point higher. The news on the company appears to be favorable. The Star hears that the concern is mining and running out 1,200 tons of ore a day from the mines at Wabana, Newfoundland. The greater portion of this output is being shipped to Europe. Six large steamers have been running regularly between Wabana and Rotterdam, carrying from five to eight thousand tons each trip. The installation of new mechanical devices at the plant output has been doubled, and gives at present employment to over 1,000 men. About the first of September the company will begin getting in the winter supply of ore for furnaces at Sydney Mines.

The open hearth furnaces at Sydney Mines have been working to their full capacity for the past month producing a finished quality of steel, for which a ready market is found.

The local trading in Detroit was heavy, 2105 shares changing hands. In New York 1000 shares sold to noon. Opening around 94½, the price rose steadily to 95⅝, the Wall Street market usually keeping just a little ahead of ours on the rise.

Of the other tractions, Toledo lost a fraction, selling back to 35, while there was no snap to Toronto Ry., which sold at 106.

The advance in Halifax Ry. to 107 was based on talk of an increased dividend, the belief being that the rate will be advanced 1 per cent.

Bell Telephone was again stronger, selling at 158½ to 159. There appears to be some investment orders on hand.

Twin City was quiet. The company's gross earnings from January 1st to the end of the first week in August amount to $2,887,171, against $2,502,915 last year, an increase of $184,256, or 7.36 per cent.

Havana is still indulging in a breathing spell. The month of July the company showed earnings of $176,927, the biggest of the year. They compared with $145,623, an increase of $31,304.

They gave Louisville and Nashville a little turn in New York, and some very bullish talk on the stock came over the wires to Montreal people. The road for the week ended June 30 showed a surplus over charges of $6,931,000, an increase of $242,655.

Hudson's Bay shares added a little to their new record, selling at 77. A London cable said that there was quite a little trading in them even at these high figures.

Outside of the trading in Detroit and Pacific, the Canadians in Wall Street were rather quiet. The sales and highest and lowest prices to noon were as follows:

	High.	Low.
3,200 Canadian Pacific	161¾	160¾
1,000 Detroit	95⅝	94⅞
700 Soo	136	135

	Bid	Asked
Mackay	41	41½
Mackay pref.	73½	74½
Havana	74	74½
Havana pref.	66½	67¼

The Hill stocks did not do much. Great Northern was quoted at 317. Northern Securities at 188 to 189, and Northern Pacific 212 to 214.

The sales to noon in Wall Street today were 535,500 shares.

THE BOOM IN RIO SHARES.

Montreal and Toronto People Now Seem Very Bullish.

Rio issues have been on the boom in the Montreal and Toronto curb markets, and there is evidently some manipulation. Toronto people have been extremely bullish on the company, and a firm up there is out with a circular advising everybody to get in. In part it says:

"The whole proposition has been rounded off in a most satisfactory manner, and in a couple of years it is not improbable that a dividend will be paid to the Rio shareholders. All the roads that the company want have now been acquired, and at a conservative estimate the net earnings, when electrified of the trolley systems, will be $2,000,000, the electric light will yield $600,000, the power $600,000, and the gas probably another $600,000, making a total of $3,800,000 net.

"When all the properties have been paid for, the whole $25,000,000 of bonds and $25,000,000 of common stock will likely be issued. A considerable amount of the purchase price of the various properties will be in bonds and stock of the company.

"In the event of the $25,000,000 of bonds being issued, the fixed charges will be $1,250,000, which would leave $2,500,000, or about 10 per cent for the common stock.

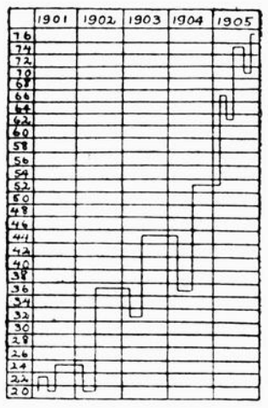
"Parties investing in the bonds with a bonus of 45 per cent stock can sell their stock at about 43 or 44. The bonds will then return over 7 per cent per annum."

HEADS BIG READING "POOL."

E. Wassermann.

One of the most conspicuous of Wall Street's big traders is Edward Wassermann. He has taken a prominent part in the sensational rise in Reading shares, and heads the bull "pool" that is understood to be no less than $5,000,000 ahead on the rise. Mr. Wassermann for a long time has been giving out bullish opinions on Reading, but not until the shorts began to get squeezed and the stock rise did the public start to take notice.

THE HUDSON'S BAY BOOM.



The chart shows the fluctuations in Hudson's Bay shares since 1901. The stock yesterday made a new high record by selling at £76½ in London.

Not long ago an Englishman was out with the startling statement that Hudson's Bay shares would eventually reach £300 a share.

Lord Strathcona, on the other hand, is said to have expressed the view, when here last, that the price was high enough.

DOMINION STEEL RECORD.

Sydney, N.S., August 24. — The largest shipment of steel by the Dominion Iron and Steel Company was made to-day, when twenty-nine cars, amounting to about 1,500 tons, were shipped to Montreal and upper Canadian markets from Sydney.

Work with the company is now so rushed that it is impossible for officials or their clerical employes to get vacations.

COTTON MERGER GOSSIP.

The announcement that the Textile interests had secured control of 8,000 shares of Montreal Cotton stock was read with a good deal of interest.

The voting strength of the pool opposed to the proposed deal is still a matter of conjecture, but it is said to be smaller than the amount stated above.

A shareholder of the company remarked to-day that the directors made a mistake in asking the shareholders to pool their stock for a year and a half. That time, he said, was altogether too long.

GOSSIP ON DOMINION COAL.

The Dominion Coal Company commenced hoisting coal from the Emery seam yesterday afternoon.

The shaft has only recently been pumped out, and considerable repairs and development work will be necessary before much of an output is secured. When in good working order it will be a valuable auxiliary, and will ensure prosperity to the Reserve.

Some years ago 55,000 tons of coal were taken out of this shaft.

MONTREAL CLEARINGS BIG.

Montreal clearings continue to show good gains over a year ago, the week's comparative record being as follows:

Clearings.	
Total for week ending August 24th, 1905	$23,666,393
Cor. week 1904	18,951,923
Cor. week 1903	18,397,050

BANK OF ENGLAND RETURN.

The weekly statement of the Bank of England shows the following changes:

Total reserve, increased	£ 628,000
Circulation, decreased	385,000
Bullion, increased	243,260
Other securities, decreased	305,000
Other deposits, decreased	185,000
Public deposits, increased	464,000
Notes reserve, increased	657,000
Government securities, unchanged.	

The proportion of the bank's reserve to liability, which last week was 43.84 per cent., is now 46.71 per cent. Rate of discount unchanged, at 2½ per cent.

MONEY AND EXCHANGE.

Montreal exchange rates are barely steady as follows between banks: New York funds, 5-64 to 2-64d; sterling, 60 days, 8 31-32 to 9, sterling, demand, 9¾ to 13-32; sterling, cables, 9 7-16 to 15-32; Paris francs long, 5.16¾ to 1-32.

Call money is steady in Montreal at 4 to 4½ per cent.

Call money in New York 2 per cent.

MORGAN A BIG HOLDER.

Interests represented by J. P. Morgan & Co. now hold 400,000 shares of Erie common.

RAILROAD EARNINGS GAIN.

Thirty-one railroads for the second week of August show an average gross increase of 4.31 per cent.

GRANBY WAS LITTLE HIGHER.

Granby was firmer in Boston, and also more active. Sales were 75 shares at 73¾, 675 at 73½, and 500 at 73¾. Range at 2 p.m. was 73¾ to 73½.

COST OF RUNNING BROKERS' OFFICES

Not Much Here But Enormous in New York Where Luxury Counts.

PRIVATE WIRES EXPENSIVE

Wires From Chicago to New York Cost the Brokers About $1000 a Month.

The cost of running a broker's office in Montreal is not especially heavy, but in Wall Street, where private wires are maintained and the offices are furnished elaborately, the expenses are enormous.

Here, brokers pay $20 a month for Montreal tickers, $40 for N.Y. tickers, and also pay the salary of the telegraph operator if there is a private wire.

The other expenses are only those of an ordinary financial office, the size of the staff being in accordance with the business done.

In New York few are able to keep their mere office expenses down to less than $10,000 a year. And these $10,000 fellows do only a small business, for large transactions involve great risks, and, hence, large capital.

And as physical comfort has become an important factor in modern speculation, the broker who cannot offer the creature luxuries supplied in the offices of his richer rivals is bound to lose customers.

There are brokers' offices uptown where the customer has a luxurious bathroom at his disposal, where a magnificent lunch is served free, where champagne is kept on the ice all the time excepting when customers are drinking it, and where cigars of the finest lie in open boxes for all comers.

And here, again, comes the telephone. The 'phone plays its part not only as a factor of convenience to a broker, but as a factor of frightful expense.

Over a hundred brokerage firms in Wall Street conduct a large part of their business by long-distance telephone or by telegraph. They are called "wire houses." Over one hundred such houses have private telephones and telegraph wires to Boston, Philadelphia, Chicago or Montreal. When it is stated that the cost of maintaining a private wire to Chicago is $1,000 a month, and that a proportionate sum is charged for wires to other cities, it is very easy to understand why a private wire is about the costliest part of a brokerage business.

To return to the "floor," let us see what a broker must "put up" in order to gain the privilege of standing on that floor and yelling at the top of his voice.

Do you wish to become a member of this "frenzied finance" club? Well, then, you must first pay your initiation fee—that is, the price of a seat, which may be any amount from $60,000 to $90,000. After that, not before, you may possibly be elected to membership by the committee on admissions. Your name as an applicant for admission will be publicly announced some day on the floor, your name and also those of your nominator and seconder.

Your nominator and seconder, by the way, will before that have been obliged to state in committee that they would unhesitatingly accept your uncertified cheque for at least $20,000, and when those two men have made that declaration for you, you have received the highest endorsement required by Wall Street.

MONTREAL "STREET" GAINS.

August Average Will Be Well Over $8,000 a Day.

Montreal Street Railway earnings continue very big, and increases of over $1,000 a day are now comparatively common, while it looks as if the August receipts would average away over $8,000 a day. The daily showing so far this month is as follows:

	Earnings.	Increase.
August 1	$8,406 25	$ 932 44

WAR BONDS KEPT STRONG.

Russian Issues Held Gains While Japanese Advanced.

The war bonds to-day were strong, thus reflecting the confidence felt regarding the outcome of the peace negotiations. In London Russian Imperial 4's, at 89½, retain yesterday's full advance, while Japanese bonds have advanced.

The 4's are ¼ higher at 89, and a like gain was made in old 5's, at 100¾; new 5's at 101¾, 6's, first series, at 104¾; 6's, second series, at 103¾; new 4½, first issue, 93¾, and the premium on the same loan, second issue, at 2¼ per cent.

OPINIONS ON THE MARKET

J. S. Bache—Total sales of Boston coppers yesterday were 89,000 shares, the largest in several years. Coppers are active to-day. Reading, Penna. and Equipment shares strong and active. The market looks like going higher. Buy and hold Coppers and Tractions.

J. R. Picken—Information from the highest inside quarters is bullish on the general situation. We believe in remaining conservatively bullish.

E. and C. Randolph—L. and N. and Ill. Cent. were both taken in hand, and advanced easily on comparatively moderate transactions. The traction stocks for the first time in a good while showed activity and strength, notably so in Metropolitan. Time money is reported as slightly firmer, but the call market remains unchanged.

Charles Head—The market is now feverish, with sentiment somewhat mixed as to the immediate future, but the underlying feeling is bullish, and the disposition is to buy on all recessions.

Burnett and Co—Cotton market reacted 5 points from top on Europe selling. Expect sharp changes pending next Government report. Situation depends almost wholly on Texas weather conditions.

Town Topics—The market continues to absorb profit-taking selling, and the buying power is greater than at any time this year. The money is on the bull side, and stocks should be bought on every recession.

N. F. Bryant—Impression is general that the 400,000 shares of Erie recently acquired by leading interests have not been taken as a mere speculation. The expected listing of Penna. on German exchanges appears to have brought in some anticipatory buying by German interests.

"Most of us," said a Montreal broker, "missed a great chance in not picking up our land stocks like Canada North-West Land and Hudson's Bay.

"I see that yesterday Hudson's Bay made a new high record, but outside of the old investors, who have always stuck to the shares and always will, few persons here have made money on the rise.

"Some years ago Montreal traders did quite a lot in Hudsons in the London market, but they repeated the mistake they made in Canadian Pacific by selling out too soon.

"You know, about a year ago, perhaps a little farther back than that, local interests tried to get Hudsons listed on the Montreal market, but for some reason or other the governors of the company turned the proposition down.

"Had it not been for that many local traders might have been in on this rise. However, we can't use that excuse for missing the equally big rise scored by Canada North-West Land, which is listed both in the Montreal and Toronto markets."

Lord Strathcona is the biggest shareholder of the Hudson's Bay Company, and consequently reaps the biggest profit (on paper) from the recent advance. The biggest shareholder of the Canada North West Land Company is Mr. Robert Meighen. Next to Mr. Meighen comes the MacIntyre estate.

The New York Post is authority for the statement that one man has lost $1,000,000 on the short side of Reading. Short covering helped very materially in bringing about the rise in the stock.

The Star's correspondent at Seattle, Washington, wires that there is another stiff fight on between J. J. Hill and the Canadian Pacific, or, as he says, "the seven years' war has been renewed."

"It's a mystery to me why there is not more demand for Dominion Steel second mortgage bonds," said a broker. "To me they look extremely attractive."

Canadian Pacific shareholders who want to see the road spend money have only got to take a trip as far as Montreal Junction and peep out of the car window. Much filling in is being done, new main tracks and new sidings are being laid, new yards, round-house, and, in fact, new everything. The work is interesting to those who see it going on from day to day. Much progress has already been made.

NOVA SCOTIA STEEL TALK.

Shareholders Will Be Interested in Latest Developments.

Scotia stocks keep on the firm side. The thirty coke ovens at the Winning pit of the Nova Scotia Steel and Coal Company at Sydney Mines have been working for the past three years with but one break, and are now being cooled off previous to receiving a thorough overhauling.

This plant is being built from a German patent, and is the only one of its kind in Canada. At the time of construction, as the small number erected would indicate, the enterprise was viewed in the light of an experiment, but subsequent developments proved that the German idea compared most favorably with the more modern American patents, turning out just as good coke, and perhaps a trifle more consistently than the less cumbersome device from across the border.

The open hearth furnaces are doing excellent work. On Friday a record was made by the 40 ton retort turning out 51 tons in one trip.

IS HILL FIGHTING THE C.P.R.?

Why the Cut In Grain Rates on His Big Roads?

The reduction in rates made by Mr. James J. Hill in the North-West will have the effect of giving the farmers something like $2,000,000 on the grain shipments to be made this year. The reduction is voluntary in every sense of the word. There is no fight, no contest for territory, nothing to provoke disturbance of the rate situation in itself. Why does Mr. Hill do it?

"Oh," same will say, "he does it for effect on people's minds in order to head off attacks in the State legislatures and in order to influence sentiment on the rate regulation question." "Not at all," some other people will say. "He does it in order to strike a blow at the Harriman lines." "He is fighting Canadian Pacific," others will say, "and wants to give his territory an advantage against the big Canadian wheat crop this year."

It is not philanthropy; it is not pretense; it is the highest kind of business sagacity that is exemplified in his action. —Wall Street Journal.

COURAGE IN SPECULATION.

One of the active traders has made $1,500,000 in the market in the past year. One of his friends, in speaking of the trader's heavy purchases of stocks last year, says: "It takes a lot of courage to buy stocks at these prices when you know that profits have been taken on big lines of stock that were bought 30 or 40 points below these prices. You have to think twice before you take stocks off the hands of people who are selling them at a profit of 40 points."—New York Sun.

WHEAT NOW WAITING FOR HARVESTERS

Cutting Will Be General in Another Week.

BANNER YIELD PREDICTED

Only Trouble Will Be to Get Crops Harvested—Markets Easy.

From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.

Chicago, August 24.—September wheat sold from 80⅝c to 81¼c, and off to 80⅞c, and December from 82⅛ to 82¾c, compared with closing of 80⅞ and 82½c, respectively, yesterday.

The upturn of ½c in Liverpool on shorts covering there, because of smaller American receipts of wheat, coupled with a better cash demand from bull helped early. St. Louis and Kansas City receipts were only 205,000 bushels against 354,000 bushels a year ago.

The Price Current, in its telegraphic summary, says the receipts of winter wheat are smaller owing to reduced prices. Stocks at Minneapolis decreased 5,000 bushels for five days.

It is estimated that the shipments of wheat from Argentina this week will be 3,200,000 bushels, and corn 2,031,000 bushels.

New York wires: Quite a demand for Manitoba wheat for late fall shipment. Fifteen loads worked to-day. Light offerings restricting business.

Special to The Montreal Star.

Winnipeg, August 24.—So rapidly has wheat ripened in the Canadian west during the past week that harvest help has not been brought here early enough, and the crop report issued by the Canadian Pacific to-day complains that in a number of places help is needed very badly. Wheat, which has attained development, where estimates of yield can be considered accurate, is better than anticipated. Around Brandon it is claimed that the yield will run from 25 to 30 bushels to the acre, on Moosejaw section, from 30 to 35, and in southern Manitoba from 20 to 30. Weather during the week has been perfect and cutting is now being done just as rapidly as farmers can accomplish it. There have been no reports of damage, though there has been a slight frost in the Portage district. The crop is undoubtedly the heaviest for twenty years.

Special to The Montreal Star.

Winnipeg, Man., August 24.—The weekly crop bulletin of the Canadian Northern Railway, which will be issued to-day, contains reports of the commencement of the wheat harvest in some localities, and shows that the harvest will be general throughout the country within a week or ten days. The grain is maturing speedily, and there has been no damage from any cause. The yield will run from 20 to 35 bushels per acre, and is probably the heaviest general yield in the history of the country. The company is preparing to handle a big grain traffic this fall.

Special to The Montreal Star.

Ottawa, August 24.—The Canadian Northern Railway Company will have considerable new mileage available for the wheat traffic this week. This will include the Wakopa extension, the Rossburn extension, the Brandon short line, the Prince Albert line, and the extension from Hartney to Virden, providing the company receives permission to cross the Canadian Pacific at Hartney in time. The Edmonton line also will be available for grain traffic as far west as Vermillion.

Winnipeg, August 24.—R. P. Roblin, Premier of Manitoba, interview to-day, states that crops are ready for harvesting sooner than expected, and that there is a shortage of harvest hands. There being such a large crop in Manitoba and the Territories, more men are required than originally anticipated, and as the crop is now assured, harvest hands are in demand and can depend upon getting good wages for a long period of harvesting and threshing.

"The largest and best crop ever grown in the North-West is now ripe and rapidly being harvested," said the Premier, when asked for his opinion on the crop prospect. He had just returned from a two days' trip through the wheat fields, and was bubbling over with enthusiasm as to the outlook. His exact words were: "The largest and best crop ever grown in the North-West is now ripe and rapidly being harvested."

"Do you mean that the grain is ripe and fit to cut?"

"Yes; twenty-five per cent. is already cut and eighty per cent. should be in stock."

"Will there be any waste by shedding or otherwise on account of not being cut?"

"Yes; grain is already dropping from the heads in some cases, as the ear is so fully and heavy that the slightest wind shakes it."

"Do you refer to wheat only?"

"No; wheat, oats and barley are all ripe and suffering to be cut."

"You say we have the largest crop in our history. Would you mind saying what you think our yield would be?"

"I am willing to go on record as estimating that we will pass the 100,000,000-bushel mark this year in wheat, other grains accordingly."

"What do you think the sample is like?"

"As perfect as the most favorable conditions can make it. Of course, wet would reduce the quality, but not the quantity."

"Then you think the talk of rust was unwarranted?"

"Exactly so. We have passed the danger line for everything excepting wet weather."

"Then threshing will soon commence."

"Yes, next week. With a continuation of present conditions, September will be a full month, so to speak, in so far as the movement goes from first hand."

London, August 24.—The Canadian Associated Press has been informed that the German Government is sending a commissioner to Canada to report upon the agricultural and fruit-farming industries.

Fair but cloudy in England; forecast, unsettled. Fair but cloudy in France; forecast, partly cloudy.

Chicago.—Fair to clear in W. and S.W.; partly cloudy W. Temperatures cool in N.W., warm in W. and S.W. There have been rains in Mo., Daks., Ia. and Ill.

Liverpool quoted No. 3 nor. Man. steady at 6s 6¼d to 6s 7½d, on spot.

Options were ¼d stronger, Sept. closing at 6s 5¾d, and Dec. at 6s 7½d.

Antwerp was unchanged at 17⅝ for Bahia Blanca.

Paris closed 15 down on Aug. at 22.45, and 5 down on Nov. and Feb. at 22.85.

Chicago—Sept. wheat was ⅛ down at noon at 80¾, Dec. being steady at 82½. Sept. corn was ⅝c up, at noon at 54¼. Dec. being ⅛ up at 44⅝. Sept. oats were ⅛ up at 26, Dec. being ⅛ up at 26⅝.

Duluth was ⅛ down on Sept. at 84⅜.

Minneapolis was ⅝ down on Sept. at 84¾, Dec. being ⅛ down at 82⅛.

Winnipeg quoted new wheat this morning, for the first time, Aug. being 91.

Oct. old was ⅛ down at 79⅝.

LOCAL MARKET.—Demand is light and purchases are only made for current needs. No. 3 oats, in store, are 42½ to 43c, No. 2 being 43½ to 44c. New oats are steady at 36 to 37c track for No. 3, and 37 to 38c for No. 2.

CHEESE MARKET HOLDS FIRM

Butter Market Is Dull, But Some Demand for Both.

CHEESE.—Demand seems to be fairly active, but buyers are not prepared to concede the figures asked by sellers in a large number of cases. Holders are not prepared to accept less than 11¾c for Quebecs, 11⅝c for Townships, and 11½ to 11⅝c for Ontarios. Purchases, it is understood, have been made at a little below the outside figures from holders who had fair quantities of stock which was purchased during the past few weeks while the market was depressed. These goods show a profit at present prices, and many holders feel like taking a reasonable profit rather than run chances of further advances upon present high prices. The trade generally seems a little dubious as to whether or not the other side will come on at a price which will net out those who purchased stock at present high figures.

Receipts reported on the Board of Trade this morning amounted to 13,028 boxes.

BUTTER.—A sale of a small lot of fancy Township creameries was heard of at 22½c. This was for light salted stock. quotations for which are from the figure mentioned to ¼c more. Some think they see a slight weakness in the situation, while others show no uneasiness in the matter, notwithstanding that trading is supposed to be quite light. The English demand does not appear to be coming on to any extent at the latest rise, and everything depends upon whether it does or not.

Choicest creamery is quoted at 22¼ to 22½c, and good to fine at 21½ to 22c, but in the case of choicest buyers are reluctant to grant the outside figure. Saltless is, of course, quoted up around 23c, it having again resmued its position of a fraction more than other qualities.

Receipts reported on the Board of Trade this morning amounted to 2,436 packages.

EGGS.—The market is holding firm. Receipts are rather larger than of late, and demand is not very active.

Receipts reported on the Board of Trade to-day were 734 cases.

Select eggs now selling at 22c, cracked around 14c, and No. 2 stock at 16½ to 16¾c, while straight gathered are selling at 17½ to 18c. Candled eggs, with the bad and cracked only out, sell at 19 to 20c, while with the No. 2 and select stock out as well, they bring about the same as straight gathered. Dealers are now paying all the way from 16½ to 17¼c in the country for straight gathered.

CHEESE BOARDS WERE FIRM.

Prices Prevailing Throughout the Country Showed No Weakness.

Woodstock, Ont., August 24.—Cheese advanced to 11½c at the meeting of the cheese market. Bidding was keen, but the sellers were reluctant to dispose of their lots. In all 2100 boxes were boarded, but no sales took place on the board, where 11 7-16c and 11¾c were the prevailing bids.

On the street about 1000 boxes sold at 11¾c. The offerings were the make of last week. Save for the past week's make there is little or no cheese in the factories of this district. The milk supply keeps up well, and providing the demand remains as keen as at present, high prices will undoubtedly prevail, state the buyers.

Picton, August 24.—At the cheese board 17 factories boarded 1600 boxes, all colored; all sold at 11¾c.

Lawrenceville, August 24.—At the butter and cheese board there were registered 600 boxes of cheese and 80 boxes of butter. The market price for cheese was 11 1-16c, and for butter 22¾c; all sold.

REFINED SUGAR DECLINED.

Prices Marked 10c Down, Being First Change Since June.

After holding steady and unchanged since last June, the local market for refined sugar declined 10c per 100 to-day, in sympathy with the general weakness throughout other markets. Prices are, per 100 lbs., f.o.b. cars, Montreal, as follows:

Extra granulated, bbls., $4.90.
Extra granulated, half bbls., $5.10.
Extra granulated, bags, $4.85.
Phoenix, bbls., $4.85.
Bright coffee, bbls., $4.75.
Bright yellow, bbls., $4.70.
No. 3 yellow, bbls., $4.65.
No. 2 yellow, bbls., $4.50.
No. 1 yellow, bbls., $4.40.
No. 1 yellow, 100-lb. boxes, $4.35.
Extra ground, bbls., $5.30.
Extra ground, in 50-lb. boxes, $5.50.
Extra ground, 25-lb. boxes, $5.60.
Powdered, bbls., $5.10.
Powdered, in 50-lb. boxes, $5.30.
Paris lumps, bbls., $5.45.
Paris lumps, half bbls. and 50-lb. boxes, $5.55; in 100-lb. boxes, $5.45.

CANADIAN EXPORT PRODUCE.

Landing Facilities for Butter and Cheese In England.

Canadian Associated Press.

London, August 24.—Prof. J. A. Ruddick, Dairy Commissioner, is here enquiring into the butter and cheese trade. He has visited London, Glasgow, Liverpool and Bristol. Everywhere he finds that the satisfaction expressed is due in some measure to the improved facilities for handling on this side. He found the authorities at Liverpool somewhat exercised over complaints recently ventilated in the Ottawa House, regarding produce being allowed to remain for a greater time than was necessary on quays. In this respect he found considerable improvement. He discussed the matter at a meeting of the directors of the Liverpool Provision Merchants' Association.

Prof. Ruddick leaves on Saturday for a short visit in Holland, Denmark and Belgium, to investigate what Canada is up against regarding methods of production and for general information on the dairy question.

On his return, Prof. Ruddick will hold meetings among the shipping people, dock committees and provision merchants at Bristol and Liverpool to thoroughly discuss the whole matter.

Commissioner Ruddick spoke highly of the manner in which produce was handled at Bristol. He attributed the increased Canadian trade to some degree to the failure of Siberian produce, chiefly through the war.

TORONTO LIVE STOCK MARKET.

Run Light and Prices Firm—Everything Cleared.

University of Oxford, First-class Cambridge University Diploma in **Teaching.**

ASSISTED BY THREE HEADS OF DEPARTMENTS:

House—Miss Edgar, B.A., University of Toronto; Junior House and School—Miss Wood, B.A., London, England; Day School—Miss Jones, L.L.A., St. Andrew's and by a staff of twenty-two resident mistresses, mostly graduates of English or Canadian universities, and by thirty visiting teachers and masters.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma, and for the examinations in music of the Conservatory and the Toronto College of Music, and in art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture, who reside in the college and give individual care to the pupils.

Large grounds adjoin the College and afford ample space for tennis, basket-ball, cricket, etc., in summer, and for hockey upon a full-sized rink, in winter.

The Junior School has its own staff and is entirely separate from the Upper School. The Curriculum includes among other subjects, Elementary courses in Cookery, Wood Carving, Basket Weaving and Domestic Science.

French is taught in the Kindergarten, and continued by a graduated course throughout the Junior School.

SHORTHAND IN 30 DAYS

BOYD'S SYLLABIC SHORTHAND

The Most Simple, Legible and Swiftest System in use To-day.
No Positions, Dots, Shades or Dashes to Confuse the Student.

TESTIMONIAL. Montreal, March 1st, 1905.

I take pleasure in recommending BOYD'S SYLLABIC SYSTEM OF SHORTHAND as being much superior to the Pitman system. After attending the College 11 days, I could take dictation from 80 to 90 words per minute and read my notes equal to long hand. I secured my diploma, at 150 words per minute, after 36 days' tuition, and am now stenographer for The Bell Telephone Co. of Canada, Limited. I could read my notes faster and much better after only 8 days' studying BOYD'S SYLLABIC SHORTHAND than I could in Pitman's after studying it for 4 months. The study of BOYD'S SYLLABIC is a pleasure and not labor. To any one wishing to take up stenography I strongly advise them to learn this SYSTEM.

Yours very truly, (Signed), C. V. KENNEDY."

LEVIS ENGINEERING CAMP.

A Lot of Practical Work by Canada's Regulars.

Special to The Montreal Star.

Quebec, August 24.—Seven officers and eighty non-commissioned officers and men of the Royal Canadian Engineers, consisting of contingents from Toronto, London, Kingston, Ottawa and St. Johns, P.Q., are at present in camp at St. Joseph de Levis, and will remain there until about the middle of September. The camp is under the command of Lt.-Col. Weatherbee, of the Headquarters Staff, Ottawa; the officers serving in the camp under him being: Captain Houliston, Ottawa; Lieut. Lindsay, Kingston; Lieut. Hughes, Toronto; Lieut. Stuart, London; Lieut. Benoit, St. Johns, and Lieut. Hogard, acting adjutant. A great deal of practical engineering work has been accomplished since the men went into camp, such as digging trenches, tunnelling mines, building bridges, laying explosives, etc., just as required in active service, besides which they have installed eight miles of field telephone service, which connects the camp ground with the Levis forts, the commanding officers' quarters and a specially constructed field military waggon, arranged for carrying a cable wherever the forces may be engaged and laying it as it proceeds.

STRIKE OF COAL MINERS.

Some Kind of a Settlement Looked for at Nanaimo.

Special to the Montreal Star.

Victoria, B.C., August 24.—It is announced at Nanaimo that a further effort will be made before the expiry of August to bring to an end the unfortunate industrial dispute which has closed the chief collieries of Vancouver Island and thrown hundreds of miners out of work. Whether a settlement will be attained it is impossible to say. A certain proportion of the men are willing to drop the demand for recognition provided some definite understanding is arrived at with the company, guaranteeing that there will be no move made to further cut into earnings, and if the company will execute an agreement for a term of years. On the other hand there are the irreconcilables among the United Mine Workers who still cling tenaciously to the demand for recognition first of all. So far as can be learned this showed itself unmistakably at a recent meeting, when the union decided upon the expulsion of a member who had, over his own signature, written to the press urging a settlement. Meanwhile the company is taking advantage of No. 1 mine being idle to make extensive improvements.

Leave to Inspect G. T. P. Terminals.

Special to The Montreal Star.

Ottawa, Ont., August 24.—Mr. Morse, of the Grand Trunk Pacific, and Hon. Charles S. Hyman, Minister of Public Works, left last night for Fort William, where they will inspect the Grand Trunk Pacific terminals, and also look into the question as to what improvements are necessary to make the terminals available. From Fort William, Mr. Morse will go to Winnipeg, where he hopes to meet the members of the Transcontinental Railway Commission, who yesterday started for that city. From Winnipeg Mr. Morse will go on to Portage La Prairie, and see the first contract on the Transcontinental Railway, which was awarded yesterday, commenced.

FEUD IN BRITISH COLUMBIA.

Arrest of Belligerents Prevented the Shedding of Blood.

Victoria, B.C., August 24.—Because a feminine Morgan is alleged to have made remarks about a sister of the Alsop family, a feud has broken out at the smelter city of Ladysmith during the past few weeks. The original cause of misunderstanding has long since been lost sight of. The feud feeds itself. On Saturday night last the situation became strained to the point of warlike ultimatums and even the inauguration of open hostilities. Alsop and Morgan were quarrelling, and the former as a conclusive argument produced a Winchester, wherewith he fired two shots at Morgan, both missed. Morgan retreated and went to town for ammunition of his own. Securing a supply of shells for his shotgun he began a flanking movement, the object of which was to intercept possible reinforcements and invest the Alsop stronghold from the rear. He had just gained his strategic position and was about to open fire when Constables Callender and O'Connell appeared, and with a special posse secured both belligerents, thereby averting a tragedy as both were in deadly earnest.

BOOT AND SHOE ASSOCIATION

Manufacturers Think That Prices Should Be Advanced.

Quebec, August 24.—The boot and shoe manufacturers and the jobbers have formed an association, to be known as the Wholesale Shoe Association of Canada. The first meeting was held at the Chateau Frontenac last evening, when the following officers were elected: President, Mr. James Robinson; vice-president, Mr. Hamilton, for Ontario; Mr. Ritchie, for Quebec; Mr. Pride, for the Maritime Provinces; Mr. Kilgour, for Manitoba and the North-West Territories; Mr. Erskine, for British Columbia; treasurer, Mr. Hagar; secretary, Mr. Wall. The following important resolution was adopted: "That, owing to the cost of raw material in the manufacture of boots and shoes, it is absolutely necessary to increase the price of goods.

HARVEST HAND SHOT.

Special to the Montreal Star.

Winnipeg, Man., August 24.—Harvesters who arrived here yesterday from Nova Scotia report a shooting affray at Rada, a flag station west of Fort William. When the train stopped for water certain harvesters made offensive remarks to the section men standing near the track and threw bottles and various other refuse from the car at the men. One of these seized a shot gun which chanced to be at hand and taking aim at the train, pulled the trigger, and shot a man from Springhill, N.S., Rod. M. Turnbull. The man who did the shooting is supposed to be an Italian. He was employed in an extra gang doing special work west of Fort William. The wounded man, who was hit in the face and head by scattering shot, was carried to Ignace, where the physicians of the company took charge of him.

A FRIEND OF CHILDREN.

Another of the pioneers among American women in public life has passed away. Though one is uncertain whether or not the term public life should be applied to Mrs. Mary Mapes Dodge. Her books and editorial work went far and wide to the public; but the personality of the woman remained known only to her most intimate friends.

Whether as editor of St. Nicholas or in her books for children, Mrs. Dodge's work has been eagerly read and enjoyed by the young people for whom she wrote—and since children are all future citizens what more could Mrs. Dodge ask in the way of work? Left a widow in her young womanhood, with two boys to care for, she had the inspiration of constant association with child life to guide her intuitions and give strength to the natural bent of her talents. Her poems, stories and sketches were bright and wholesome, suited to the child-mind, and she has been careful in thirty years of editorship of St. Nicholas that all work accepted by her should possess the same qualities.

After the early death of her husband, William Dodge, she devoted her entire life to the care of their two children and to her literary work. She first returned to her father's home but to avoid its busy social life she fitted up an old, barn-like building nearby, and, with deft, feminine touches, decorated its principal room and made it her study. She wrote a volume entitled "Irvington Stories." It had a good sale. But her tremendous success was with the celebrated Dutch story, "Hans Brinker; or, The Silver Skates," which has been translated into many tongues in Holland, is regarded as a classic.

Mary Mapes was born in New York in 1838, and was the daughter of Professor James J. Mapes, who forty years ago was one of the best-known of New Yorkers. He was a scholar, a philosopher, an eminent scientist, and a noted inventor, a brilliant talker, and famous wit. Statesmen and authors were constant visitors at the house. He fed his children on old English ballads and Walter Scott. Two of his daughters became proficient musicians, one an artist, and the fourth, Mary, had a decided literary turn and quick ear for languages.

This talent, carefully fostered by her father, continued to develop until when the time was ripe for the establishment of a children's magazine in America, Mrs. Dodge was chosen as editor-in-chief. And now the long busy life is ended.

HOMEMADE DRINKS.

Summer is wearing on to autumn, but there will still be days when some cool refreshing drinks will be very grateful to thirsty people. Here are a few safe recipes for use at home:

Pineapple Lemonade.—One pint of water, one cup of sugar, one grated pineapple, the juice of three lemons. Make syrup by boiling water and sugar together for ten minutes; add pineapple and lemon juice; cool, strain and add one quart of ice water.

Cream Nectar.—Two ounces of tartaric acid, one and one-half pounds white sugar dissolved in a pint and a half of boiling water. Put it on the stove for twenty minutes. When cold, stir in the beaten white of one egg. Flavor to taste—lemon is best.

Fruit Punch.— One quart of cold water, one-half cup of lemon juice, two cups of sugar, two cups of chopped pineapple, one cup of orange juice. Boil water, sugar and pineapple twenty minutes; add fruit juice, cool, strain and dilute with ice water.

Ginger Punch.—One quart cold water, one-half Canton ginger root, one cup sugar, one-half cup orange juice, one-half cup lemon juice; chop ginger, add water and sugar, boil fifteen minutes; add fruit juice; cool, strain and dilute with crushed ice.

Raspberry Shrub.—Five quarts of raspberries with enough vinegar to cover; let them stand twenty-four hours; strain and take a pint of juice to a pound of sugar; boil ten minutes; cool and bottle for use.

Unfermented Grape Juice. — Ten pounds grapes, one cup of water, three pounds of sugar. Put grapes and water into a granite stew pan; heat until seeds and pulp separate; then strain through jelly bag, add sugar, heat to boiling point and bottle. This will make one gallon. When served it should be diluted one-half with water.

THE PREVALENCE OF EXAGGERATION.

Most of us are prone to be slightly extravagant in language, and what a pity it is this habit of making a good story, no matter how trivial the incident upon which it is founded. In time the good story teller is apt to develop into an unreliable source of information, and what was at one time an amusing gift becomes gradually, the curse of inaccuracy.

"Adjectives" are most effective, and invaluable when used in moderation, but are apt to lose all value when employed to the extent at present in vogue.

What a rare treat it is to mee one who can be accurate and yet not "prosy." Better far be reliable at the expense of wit than amusing at the expense of accuracy.

"True wit is nature to advantage dressed,
What oft was thought, but ne'er so well expressed."

—Pope.

THE CHAPERON SPEAKS.

Very limp and damp my gown, and the sun is beating down,
And my hat's askew above my blistered face,
But at least it's consolation, and a bit of compensation
To know my lambs are gathered in one place.

For Dolly, Amaryllis and the most imprudent Phyllis
Are seldom found together in one spot,
And the only relaxation in a chaperon's vacation
Is to get them all together on a yacht.

Hence, I sit here glad, though paling, for
I never cared for sailing
And I always had a horror of the sea,
But at least the satisfaction of a little forced inaction
Is a thing to be accepted thankfully.

And Dolly, Amaryllis and the most imprudent Phyllis
For once they bear my glance and murmur not,
And content is o'er me stealing (though I'm sure my nose is peeling),
For I know they can't escape me on a yacht.

—Life.

—Design by May Manton.

Blouse Waist, 5113; Five Gored Tucked Skirt, 4930.

A DAINTY AFTERNOON GOWN.

Flowered or Pompadour effects have made notable features of the summer and will extend their favor well into the autumn, being shown in many of the fashionable thin silks as well as in chiffon and the like. The very attractive gown illustrated is adapted to all these materials and also to the organdie and net of immediate wear, and is graceful and attractive in the extreme. The waist, with its slightly open neck and elbow sleeves, is always charming for afternoon indoor occasions whatever the season, but can, nevertheless, be made high and with long sleeves by the addition to yoke and cuffs if better liked. The skirt is five gored, tucked at its lower edge and gathered at the upper, the shirrings forming a shallow yoke. When made from chiffon, net or other transparent material, there should be an inter-lining and inter-skirt of either net or chiffon between the gown and the silk foundation, but when made from any of the summer materials fine lawn is quite sufficient. For a woman of medium size will be required, for the waist 5 yards of material 21, 3 1-2 yards 27 or 2 1-2 yards 44 inches wide with 3-4 yards 18 inches wide for yoke and cuffs when used; for the skirt 9 yards 21, 7 1-2 yards 27 or 4 1-2 yards 44 inches wide. A May Manton pattern of the waist, No. 5113, sizes 32 to 40, or of the skirt, No. 4930, sizes 22 to 32, will be mailed to any address by the Fashion Department of this paper on receipt of ten cents for each.

BOOKER WASHINGTON'S WIFE.

The interest aroused in Booker Washington, the famous negro educator, from time to time when some prominent American asks him to dinner, has at last extended to his wife. Curious people have discovered that Mrs. Washington is a hard worker for the good of the colored people of this country and a faithful and energetic aid to her husband in his efforts for the upliftng of their race.

Mrs. Washington is a well educated negro woman and as modest as any everyday American matron. She is a large woman and tall and has regular features, magnetic eyes, beautiful teeth and good language, with the southern drawl.

This colored woman of the south is a teacher, although she has several children. Five hundred negro girls who are thirsting for better things are under her care at Tuskegee. As a girl she was educated at Fisk college and then went to Tuskegee as an instructress, where she met Booker Washington. Together they are working nobly for the uplift of their people, and if Mrs. Washington is less known to the reading-world than her husband it is because she is so busy in her home and work that she rarely finds time to leave it.

PEACE.

The flower unsummoned, seeks the summer day,
So peace comes; it is on the way.
Straight in its flight—the wild bird's to her tree.
Lay down thy head; peace flies to thee.
—John Vance Cheney, in the August Century.

GIVING UP HABITS.

Talking the other day to the cardinals who had come to congratulate him on his seventieth birthday, Pius X. said: "I never thought I would learn as much in my old days as I am doing. For instance," he added with a sunny smile, "I can now write my name without mussing up a cassock worth 200 francs." And he explained: "For years I indulged in the habit of wiping my pen on the left sleeve of my coat before I began and during writing. Of course, that didn't matter much as long as I wore black clothes, but when I donned the white Papal habit things looked different, and so did I when I came from my writing room. For a time my valet didn't know where to get enough clothes for me to wear. Then I determined to break with this bad habit, and I did. One can give up anything if one but tries hard enough."

HINTS.

Never blue the water in which you rinse white lace, under the impression that you are going to improve the color. Real lace should be finally rinsed in skim milk, which will give it the soft, creamy appearance so much admired.

An easy icing for a cake during the heat, when one's aim is to escape unnecessary steps, is as follows: To a cupful of frosting sugar add just sufficient lemon juice (orange may be substituted) to make the mixture spread easily, and immediately spread it, after carefully stirring, over the cake.

A RECIPE

Tomato Farci: Put a layer of tomatoes in the bottom of a baking dish, then a layer of breadcrumbs, then a sprinkling of salt and pepper, then another layer of tomatoes, and so continue until the dish is full, having the last layer crumbs. Put a few bits of butter over the top and bake in a quick oven twenty minutes. Serve in the dish in which it was baked.

PRESERVING TOMATOES.

Ripe tomatoes should be put up in August, when the vegetable is in its best condition. It is absolutely essential that the vegetable should be perfectly sound and not too ripe, for a single spot of decay is liable, in canned tomatoes, to spoil the entire mass. The various relishes and pickles made from green tomatoes are usually left until September, or even the first of October.

There are several methods of canning tomatoes, the simplest being to stew. As the success of canning depends upon absolute sterilization, the first thing to be attended to is the jars. Wash thoroughly in soda and water, tops and all, then sterilize by bringing the water to a boil. Use only fresh rubber rings, for if the rubber has stretched the sealing will not be perfect.

Have a large kettle of rapidly boiling water on the stove, and having washed the tomatoes, fill a wire basket with them and plunge into the kettle of boiling water until the skins begin to crack. This will take about five minutes. Then plunge into cold water and remove the skins and hard part under the stem. Slice and put into the preserving kettle, which must not be of tin; mash with a wooden spoon, heat slowly, stirring frequently from the bottom.

It is safer to use an iron ring or asbestos mat under the kettle. Cook half an hour, counting from the time the tomatoes begin actually to boil. Put into sterilized jars, filling until the juice runs over the sides, then seal. Care must be taken that no seeds or pulp get between the glass and the rubber. When cold and screwed again, so tighten, wrap in paper and set in a cool place.

WHOLE TOMATOES FOR WINTER USE.

Fill a large stone crock with ripe, perfectly sound, unpeeled tomatoes, adding a few cloves and a sprinkling of sugar between each layer. Cover with a mixture of cold water and vinegar, half and half. Place a layer of thick white flannel over the jar, letting it fall well down into the vinegar, then tie close with a cover of brown paper. Even if the flannel moulds, tomatoes put up in this way are not harmed and will keep all winter.

CANNED TOMATOES SEASONED.

Some good housewives prefer to have their tomatoes already seasoned for the table. In this case, after the tomatoes have cooked one-half hour, allow to every quart of the stewed fruit a teaspoonful of salt, a half teaspoonful of pepper, and a scant half cup of sugar. Have ready some olive oil or hot melted butter, allowing a tablespoonful to each jar. Cook the vegetables five minutes longer, after the seasonings have been added, then fill the sterilized jars almost full. Fill to the brim with the olive oil or hot butter, and seal. Examine the jars in about two weeks, and if you see the slightest sign of fermentation turn out the contents and re-scald.

CANNED WHOLE TOMATOES.

Wash, scald and slice after peeling four quarts of tomatoes and stew twenty minutes, or until tender. Rub through a strainer. Meanwhile scald and peel eight quarts of rather small, round tomatoes and pack in sterilized jars. When all are ready, fill with the scalding hot stewed and strained tomatoes, running a silver knife down the inside of each can to let all air bubbles out and allow the liquid tomato to fill every interstice. Set the cans in shallow pans of hot water in the oven and cook half an hour longer, uncovered. Then fill to overflowing with the boiling hot strained tomato, and seal. These are the directions in the main as given in one of the farmer's bulletins issued by the Department of Agriculture. If there is any strained tomato left it may be canned for sauce later on.

The National Plasterers' Union.

At last night's meeting of the National Progressive Plasterers' Union three new members were admitted, and several applications for membership were received. The stewards on the various works reported that their employers were over-crowded with work and that the demand was greater than the union can supply. The election of delegates to the convention of the National Trades and Labor Congress resulted in the choice of Louis Lessage, John Dormer and Alphonse Depatie. It was decided to be represented in the Labor Day parade by twenty members, as the time was too short to make preparations for a general turn out. It was also decided to endorse the action of the executive board in allowing the members of Local No. 1 of the Operative Plasterers to work with them without having to join the union during the strike.

The Montreal Coopers' Union.

The Montreal Coopers held a largely attended meeting last night in their headquarters and made final arrangements for the Labor Day celebration. The president announced that the national unions would hold their picnic on the Mascotte ball grounds, at the corner of Ontario street and Delorimier avenue, where there will be a lacrosse match between the Young Shamrocks and Quebecs for a handsome trophy. There will also be several automobile races, and an attempt will be made to break all previous records on a round course. Alexander Daoust was elected to represent the union at the coming convention of the National Trades and Labor Congress. Peter Ethier was elected as a substitute. A resolution was passed regretting the death of Joseph Ouelette, who was one of the founders of the union in 1882.

The Boot and Shoe Brotherhood.

All arrangements are being made by local union No. 249, of the International Brotherhood of Boot and Shoe Workers for their general election of International officers, which is to be held on September 1. The pool will be open from 4 p.m., until 10 p.m., and every member, in accordance with the constitution, must record his vote. The union will turn out with the Montreal Trades and Labor Council, on Labor Day, and members not taking part will have to pay the usual fine of $1. An effort will be made to win the banner offered for the organization making the best appearance in the parade.

FREE TO WOMEN ONLY.

St. James Wafers for Pale and Weak Women are a specialty for diseases peculiar to women only. They cure nothing else. But this they do cure. They are in great favor all over England, Scotland and Ireland, and we wish to have them equally well known all over the world. We know of no better way to do this than to give absolutely free to every sick woman a full sized 50c. box. One box is enough to do a lot of good. If the St. James Wafers for Pale and Weak Women were not a specialty or more than ordinary merit we would not make this offer.

St. James Wafers for Pale and Weak Women are nice little Wafers of a pretty lemon color, and are easily taken. Every sick woman who will fill in the following coupon and mail it to our Canadian agents will receive in plain wrapper, a full sized box absolutely free. All names are rigidly kept secret.

The Golf Jacket Advantage

HAVE you ever thought what an advantage the knitted Golf Jacket has over every other kind of jacket at this time of the year? How it is so soft that it can be bundled up into a hand valise and so light that you would not know it was there after you had done so. That is a great deal better than carrying a heavy cloth jacket on your arm to spoil your outing.

We are particularly well stocked in Golf Jackets. We have made it our business to carry everything you would want, but we think the outstanding feature of even our excellent stock is a line that was made in Germany of soft heavy wool with the new large sleeve and V neck, gilt buttons down the front; in colors: navy and white, black and white, navy and black; in sizes from 32 to 42, and which we offer at, each - - - - - - - **$2.75**

Burglary at St. Hyacinthe.

Special to the Montreal Star.

St. Hyacinthe, Que., August 24. — The barber shop of J. H. Richer, located on the Main street in this city, was entered by burglars last night, and stock, consisting of pipes, cigars and razors, was stolen. The thieves entered through an open window in the basement, and, after securing their booty, left by a rear door, the key of which was in the lock. Three suspicious looking men were seen near the place at an early hour this morning by a watchman, but as nothing was known at the time about the burglary, the watchman did not get a good description of them.

DRAMATIC MOMENT OF THE CONFERENCE

Japanese Present the Compromise proposition of the President.

M. WITTE SAYS "A SHAM."

Complete Change of Front at St. Petersburg May Yet Save the Negotiations.

Portsmouth, N. H., August 24.—The Japanese plenipotentiaries yesterday, at the conclusion of the afternoon session of the peace conference, threw the cards upon the table. It was the dramatic moment—the moment to which all the previous proceedings of the conference had led. The protocols involving agreement on eight of the twelve conditions originally presented by Japan had been signed. One side or the other must make a move or the plenipotentiaries had reached the parting of the ways. The adversaries faced each other across the table. Of course, it was well understood what would happen, but that, in a way, only made it more dramatic.

Figuratively, President Roosevelt entered the conference room. M. Witte sat silent and the move in the great diplomatic game passed to Japan. Baron Komura, in a few words, explained that Japan, in her great desire for peace, was ready to make certain "modifications" of the original articles, in the hope that Russia could find it possible to accept them. He then presented in writing to M. Witte the compromise proposition which President Roosevelt had suggested. It was concrete and specific, and it followed the lines outlined in these despatches. It offered to withdraw article 9, providing for the payment by Russia of Japan's bill for the cost of the war, on condition that Russia would accept article 5, which provides for the cession of Sakhalin, so modified as to include an arrangement for the re-purchase by Russia of the northern half of the island for 1,200,000,000 yen. In addition it offered to withdraw entirely articles 11 and 12 (surrender of the interned warships and limitation upon Russia's sea power in the Far East).

It was President Roosevelt's compromise and M. Witte knew its contents as well as Baron Komura. The question of whether he had been "bluffing" was put to the test.

Without a moment's hesitation, M. Witte explained that the modification proposed was merely a sham, a change of phraseology, a diplomatic attempt to induce Russia to pay war tribute under another name. He could not accept it. He told Baron Komura Russia wanted peace. She had given the proofs in accepting every article involving the issues upon which the war was fought, but she could fight, and money for tribute she would not pay—not a kopeck. He asked Baron Komura to withdraw all demands for tribute.

THE ADJOURNMENT.

And so the plenipotentiaries separated, to meet again on Saturday, ostensibly to permit M. Witte to place in writing, as the rules of the conference require, his reply to the Japanese compromise proposition. In reality the adjournment over the two days was to give each side an opportunity to consult its government for the last time.

The outlook is black—many believe it was never so black as last night. The Japanese are not talking. The only possible line of Japanese concession is believed to lie in the direction of a diminution of the amount of the purchase money demanded for the north half of Sakhalin. The decision rests, therefore, as it has from the first, with Russia. Unless the Emperor agrees to yield between now and Saturday, the end is likely to come on that day. And the indications from Peterhof, instead of raising the chances of a change of heart on the part of the Emperor seem to indicate even a firmer determination to yield neither territory nor indemnity, sugar-coated though the latter may be.

The long instruction received Tuesday night, while not a reply to the communication of President Roosevelt, given M. Witte at the Navy Yard, was of a character to almost completely destroy hope that it will be possible for M. Witte to satisfy the Japanese demand.

NOT FREE AGENT.

But it must be borne in mind that M. Witte in these negotiations is not a free agent. He represents his Emperor. If he were absolutely free, this conference would not fail. He would make peace. He sympathizes with the solution offered by the President, but his hands are tied, and unless he receives an Imperial command he cannot move. Black as the prospect appeared last night, however, the failure of the negotiations is not certain. The Russian camp is pessimistic to a man, but they all know the quick and startling changes of front that sometimes take place at Peterhof. And there are factors in the situations which might affect one of these sudden and inexplicable changes in the Emperor's attitude which have frequently astonished Russia. Private advices from St. Petersburg say that sentiment there, in Moscow, and other large centres favors acceptance of the compromise. This may mean much.

But the real hope still rests with President Roosevelt. He is resourceful. He has made another move. He has sent Ambassador Meyer direct to the Emperor, and they were together, according to advices received here, for three hours yesterday.

Mr. Roosevelt himself last night may have known more about how the Emperor feels than M. Witte, and have been able to act upon the information conveyed to him by his ambassador. The report is industriously circulated here that Emperor William is responsible for the attitude of Emperor Nicholas, and everything is traced back to the meeting of the two Emperors on board the Hohenzollern in the Finnish Gulf. In support of this it is positively stated that after the interview M. Witte's instructions were made stronger and more unyielding.

Demand for Unskilled Labor.

Special to the Montreal Star.

Victoria, B.C., August 24.—There is a strong demand for unskilled labor in British Columbia at present, chiefly in connection with the construction of the Nicola Valley Railway, which is in the hands of McLean Bros., of Vancouver. One thousand more men are wanted for this work, and the minimum of pay is $2.25 per diem, with $5.25 weekly deduction for board. Men will be forwarded from the coast three times a week to Spence's Bridge, being sent forward as engaged either here or at Vancouver.

PHYSICIAN OF A GREAT STATE HOSPITAL

DR. J. F. ENSOR.

Dr. J. F. Ensor, Postmaster of Columbia, S.C., and ex-Superintendent and Physician in charge of State Insane Asylum of Columbia, writes:

"After using your Peruna for a short time myself, and my family having used and are now using the same with good results, am I upon the information of others who have been benefited by it as a cure for catarrh and an invigorating tonic, I can cheerfully recommend it to all persons requiring so effective a remedy."

Uses Pe-ru-na in His Own Family as a Catarrhal Tonic.

DR. ENSOR, of Columbia, South Carolina, is a practicing physician of very extensive experience. He was at one time superintendent and physician in charge of the State Insane Asylum, which gave him a rare opportunity to observe on a large scale the effect of various remedies upon the human system.

Dr. Ensor has not only used Peruna in his family, but has taken it himself.

He has also been brought in close touch with other people who have used Peruna.

He gives it unqualified endorsement as a remedy for catarrh and as an invigorating summer tonic.

It is just such testimonials as these which have given Peruna such a high standard in the estimation of the American public.

There is no way possible to gainsay such frank and genuine testimony.

The only way to account for such testimony is the fact that Peruna really does what is claimed for it.

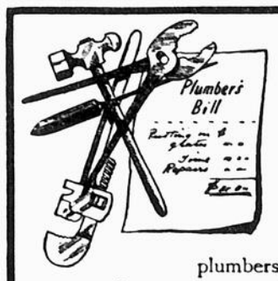
Because it cures catarrh, it clears the way for nature to reassert her sway over the physiological forces of the body and thus rid the system of a great many different chronic diseases.

PE-RU-NA CURES CATARRH

Catarrh is the stronghold of lingering diseases. Once rid the system of catarrh, and it is very difficult indeed for disease to linger very long.

We have on file thousands of testimonials like the one given here. We can give our readers only a slight glimpse of the vast number of grateful letters Dr. Hartman is constantly receiving from all quarters of the globe in behalf of his famous catarrh remedy, Peruna.

Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, Ohio, by reason of his many years of experience in the treatment of catarrh and all catarrhal diseases, is eminently qualified to give advice in all chronic and complicated cases.



Did you ever have your range grates burn out?

If you did you will know what that means in common ranges — it means plumbers, delay, muss and big bills —because common ranges are built that way. As range grates must some time burn out you are certain to have that kind of trouble if yours is a common range.

If you have the Pandora you won't have any trouble, because you can take out the old grates and put in the new ones in ten minutes, and a ten cent piece for a screw-driver does it easier in the Pandora than a whole kit of plumbers' tools will do it in common ranges.

A ten cent piece for a screw-driver is all you need to take out old and put in new Pandora grates.

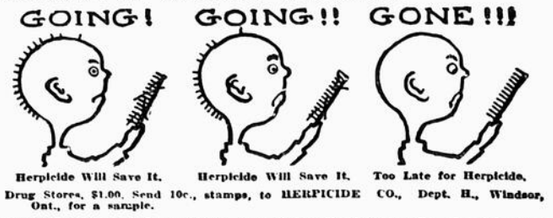
Newbro's Herpicide

The ORIGINAL remedy that "kills the Dandruff Germ."

THE HERPICIDE HABIT.

Careful people now consider it a duty to use a scalp prophylatic, as it insures cleanliness and freedom from dandruff microbes. The refreshing quality and exquisite fragrance of Newbro's Herpicide makes this "duty" such a pleasure that the "Herpicide Habit" is usually formed. A hair-saver that grows in popularity, delights the ladies by keeping the hair light and fluffy and by giving it a silken gloss. Cures dandruff, stops falling hair, gives satisfaction and excites admiration.



Herpicide Will Save It. Herpicide Will Save It. Too Late for Herpicide.

BAPTIST CONVENTION.

Passed Resolutions Strongly Endorsing Prohibition.

Special to The Montreal Star.

Charlottetown, P.E.I., August 24.—The Maritime Baptist convention, before adjourning to meet at Liverpool, N. S., passed resolutions strongly endorsing prohibition, and asking the temperance electors in each party to demand pledges from their candidates to support prohibition, and requesting the Dominion and provincial parliaments to enact legislation securing to cities the right to protect the Sabbath day.

A resolution was also unanimously adopted after a long discussion endorsing the report of the joint committee that a standing committee be appointed to meet committees of other branches of the Baptist family looking toward the complete organic union of the whole Baptist household of the Maritime Provinces.

CANADA AND WEST INDIES

Difficulties Which Stand in the Way of Confederation.

A FEAR OF RETALIATION

United States Might Resent Any Preferential Treatment of Islands.

(Canadian Asosciated Press.)

London, August 24.—The Times' West Indian corespondent points out that one of the chief difficulties in the way of confederation with Canada is that the United States, resenting preferential treatment for Canadian goods would retaliate by taxing West Indian fruit imports.

But there is a more dreaded and widespread conviction that in the cultivation of Canadian trade lies the best hope of securing a stable foundation for building up the future prosperity of the island colonies. The magnitude of the American trade would not warrant the West Indies incurring the chance of retaliation at present, but it is inevitable that better relations with Canada must sooner or later involve reciprocity, if reciprocity cannot be secured without running the risk of exciting antagonism in America. It is evident that whenever the conditions justify it, the risk will be faced. Confederation with Canada is not an unpopular political ideal in the West Indies. It is believed that cheaper administration and a more substantial commercial status would follow such a union, while Canada would find a magnificent field for enterprise, which she could easily and profitably work. One great obstacle in the way of realizing the idea has been the lack of sufficient and effective steamship communication.

That federation with Canada is the destiny of the West Indies, many who have carefully studied the trade phenomena of the New World have no doubt. It means simply taking a leaf out of the United States book. The dream of the United States is an America extending to the foot of the Carribean Sea. The aim of Canada might well, argue those who support federation, be a Dominion including the British West Indies. The latter according to them is a more practical scheme, and capable of earlier accomplishment. It would open up a new era of hope for the West Indies.

The Times, commenting on the federation of Canada and the West Indies, says: "On the face of it, confederation between the West Indies and Canada must be an arrangement very difficult to carry out. There are physical objections. It is some 1,200 miles from Halifax to Kingston, Jamaica. The two regions differ so much in climate and in their whole conditions of life as to make the practical working out of any such scheme almost inconceivable. A still more serious objection lies in the fact that the Dominion is in the fullest sense self governing, and that the West Indies are Crown colonies, where representative institutions are and must be very imperfectly developed. Canada also does not want to be troubled with the negro problem."

A PEST OF CRICKETS.

Street Cars Have Difficulty In Running In Omaha, Neb.

Special to the Montreal Star.

Omaha, Neb., August 24.—Omaha is literally overrun with crickets. Such an army of the insects has swooped down upon the city as to cause great annoyance. They are piled up so high on the street railway rails as to interfere with traffic, and the motormen have difficulty in stopping the cars in many places. They are eating up carpets in homes and hoteds and destroying clothing. At night they gather in such vast numbers around the arc lights in the streets as to make it almost impossible for pedestrians to pass. Patrons of the theatres fight the crickets while witnessing the performances, and bushels of them are swept out of the stores in the morning.

FOUR BADLY INJURED.

Trolley Car and Automobile in Collision at Brooklyn.

New York, August 24.—Two men and two women were badly hurt early today in a collision between a trolley car in Brooklyn and an automobile returning from Bergen Beach. It is thought both women and one of the men will die. The injured are:

Miss Emma Judge, Miss Agnes Rice, Otto Novis and Frank Brown, owner of the motor car.

Both the women were hurried to a hospital where one was found to have sustained a fractured skull, while the other was injured internally. Brown was so badly hurt that he could not be removed from the scene of the accident. The trolley and motor car collided on a crossing at King's Highway, while running at a high speed.

Old Sydney

The words "Old Sydney" stand for everything that is good in bituminous coal—GRATE COAL, HOUSE COAL, STEAM COAL. "Old Sydney" Coal burns brightly, throws an intense heat, and takes less fuel on the grates than most other brands. Then the ash is small in quantity, is heavy and does not fly all over the room.

Any dealer in Montreal will supply "Old Sydney" Grate, House or Steam Coal upon request.

Ask for it, and see delivery slip reads "Old Sydney" Coal.

"Old Sydney" Grate Coal is screened in Montreal before delivery.

Mr. James McQuinn is Dead.

Halifax, N. S., August 24.—Mr. James McQuinn, at one time one of the best known newspaper men in Nova Scotia, and of late years employed in the office of the Secretary for Agriculture, is dead. He had been ill about a year. As an editorial writer on the Chronicle, his work was noted for its force and brilliancy.

Farmer Attempted Suicide.

Fredericton, N. B., August 24.—Captain Tucker, of Staples Settlement, 30 miles from here, attempted to commit suicide by cutting his throat with a scythe. The timely interference of his wife saved his life. He has been despondent over financial troubles.

BURIAL OF SIR AMBROSE SHEA.

Was First Colonial to Be Appointed a Governor by British Crown.

St. John's, Nfld., August 24. — The body of Sir Ambrose Shea, a native of Newfoundland and connected with the colony's political history for fifty years, who died in London on July 20, was accorded a State funeral here yesterday. He was the first colonial subject of the British Empire ever appointed a governor by the Crown, having been Governor of the Bahamas from 1887 to 1895. He was also one of the delegates who framed the Canadian Confederation at Quebec in 1864.

THE WEATHER

There need be little comment on the weather today. Yesterday's fine assortment continues. It, however, threatened to become disagreeable this morning.

In spite of the few drops of rain this morning, the sun came out and to-day we have another such day as the small boy prays for the night before his Sunday school picnic.

The maximum to-day is 75, just three degrees lower than that of yesterday, and the breeze is decidedly stronger, which tends to make it feel much cooler.

The "probs" promise a continuance of pleasant weather for to-day and to-morrow.

The summer is getting on towards an end, as may readily be seen by nothing that the sun is rising later and setting much earlier.

RETURNING FROM THE WEST.

Hon. James McGregor, of New Glasgow, Talks of the Prospects.

Hon. James McGregor, of New Glasgow, N. S., was at the Windsor to-day. The Senator has just returned from a trip to Moose Jaw, N. W. T., where he had been attending to his business interests. The Senator was well pleased with his trip and with the progress made in all branches of development in the West. He stated that the farmers are convinced that there will not be a failure of the crop, now that they had become acquainted with the soil, and they acted accordingly. He also stated that he had to drive over five miles into the country to get lodging for the night, owing to the great number of people that are getting into the country. Land is selling for ten to fifteen dollars per acre, and men who are able to pay as high as $25 per acre consider that they can make money out of such transactions.

Mr. McGregor, accompanied by Mrs. McGregor, left for Nova Scotia by the Maritime Express to-day.

"RALPH CONNOR" IN MONTREAL

He Contrasts Great West To-day With Country He Knew 30 Years Ago.

A WONDERFUL DEVELOPMENT

Hardly Possible for Anything to Happen Canada's Record Crop Almost Ready to Gather.

Rev. Charles W. Gordon (Ralph Connor), of Winnipeg, author of Black Rock, Glengarry School Days, etc., was in town this morning.

In conversation with a Star reporter Mr. Gordon, who spoke enthusiastically of the West, drew a striking contrast between the West of 30 years ago, when he made his first trip to the land beyond Lake Superior, and the West of to-day. Then it was "wild and woolly" indeed but now it was as civilized and as well governed as any other portion of His Majesty's domains, and transportation, which was then slow and tiresome, being conducted chiefly by means of Red River carts drawn by oxen had been replaced by speedy and comfortable trains.

Rev. Mr. Gordon, who has been spending a vacation in the East, said that from the accounts which he had received, the North-West crop, which was certain to be a record one, was almost ready to be harvested, and, in his opinion could not be damaged to any appreciable extent unless very heavy rains or very severe frost occurred within the next two or three weeks, and that he thought very improbable at this season of the year.

He thought the bumper crop, in addition to being a good thing for the farmers and railways, would have the effect of stimulating and developing trade throughout the whole Dominion.

Mr. Gordon left for home by the Imperial Limited to-day.

The Academy of Music.

The Lilliputian Opera Company delighted a crowded audience at the Academy of Music yesterday afternoon with one of the cleverest performances of "H. M. S. Pinafore" ever seen in Montreal. The audience was largely composed of ladies and children, whom even the attractions of the garden party on the mountain could not induce to give up the charm of "the opera which never grows old," as given by Mr. Pollard's wonderful troupe of Australian children. "Pinafore" will be repeated on Saturday afternoon. "The Runaway Girl" continues to draw big houses in the evenings.

St. Ann's Young Men.

The St. Ann's Young Men's Society will hold their annual pilgrimage on Labor Day, September 4th. St. Placide, a pretty village on the Ottawa River, has been selected this year as the destination of the pilgrimage. The steamer Duchess of York will take the pilgrims on board at eight o'clock in the morning, and going up the Ottawa, will stop at Oka, allowing those desirous of visiting the Monastery there an opportunity to do so, returning for them on the down trip. The pilgrimage is under the direction of the Redemptorist Fathers and promises in every way to be an enjoyable outing.

Death of Miss Jessie Mullaly.

Miss Jessie Mullaly, sister of Dr. Emmet Mullaly, 72 Park ave., has passed away. The word was received here last night by her brother, with whom she has been living for the past year. A short time ago she left the city for a short vacation with her parents in Souris, Prince Edward Island, where she died. Dr. Mullaly will leave this evening on the Ocean Limited to attend the funeral.

Took a Dose of Paris Green.

Alexander Lapointe, 64 years of age, swallowed a dose of Paris green, at 1334 Ontario street to-day. The old man was hurried to the Notre Dame Hospital, apparently in a dying condition, but emetics, which were immediately administered, had the desired effect, and it is thought that the patient will recover. The cause of the action is not known.

WORKMEN WARNED OF THE DISASTER

Investigation of the Collapse of Albany Department Store.

EARTH CRUMBLED AWAY

Foreman of Work Had Started to Give Clerks Warning When Crash Came.

Albany, N. Y., August 24.—The coroner's examination of workmen who were digging the cellar under the Myers department store at the time of its collapse two weeks ago, has shown that the men were warned of the approaching disaster for nearly an hour before the structure fell and crushed the life out of thirteen persons.

The most significant testimony thus far has been given by John Mitchell, the foreman employed by the contractor in charge of the job. It had been shown that the laborers dug away the earth about the bases of the pillars supporting the centre of the building, leaving them resting on loose mounds of earth. Mitchell said that when he arrived on the morning of August 8 the first thing that attracted his attention was that a large piece of earth had fallen from the southeastern corner of pier No. 8, the pier that has been the principal object about which the investigation has centred, and that one half hour before the crash came, he and others saw that pier No. 9 had begun crumbling, and that for that half an hour the crumbling continued while the whole force of men were kept working at pier No. 8 with a desperation born of the knowledge that the safety of the entire building depended upon getting it shored up in time.

Five minutes before the crash came the superintendent of the job left the gang in the cellar, saying he was going above to warn the employes off the floor. At the last minute, realizing that their efforts to save the building were useless, the workmen rushed out. All escaped uninjured but Mitchell, who was caught in the wreck and badly bruised.

It has not yet developed that any of the 350 persons in the stories above received adequate warning, with the exception of those in the basement. Here the sagging of the floor drove all the clerks to a place of safety just as the building fell.

The investigation is still in progress.

FINAL EFFORT OF THE PRESIDENT

His Strong Plea for a Peaceful Solution of Portsmouth Problems.

ST. PETERSBURG INTERVIEW.

A Special Audience Was Accorded Ambassador Meyer by the Emperor.

Oyster Bay, N.H., August 24.—President Roosevelt's final effort to induce a cessation of hostilities in the Far East is almost dramatic in its extraordinary interest.

Through George L. von Meyer, the American ambassador, at St. Petersburg, he has made a direct appeal to Emperor Nicholas to permit the adoption of such measures in the pending peace conference as will terminate the war.

A long cablegram was sent to Ambassador Meyer by the President late on Monday. It contained instructions for representations, on behalf of President Roosevelt, to be made directly to the Russian Emperor. There is reason for the belief that those representations were communicated yesterday to the Russian envoys at Portsmouth through the President's messenger.

As a result of the instructions he received, Ambassador Meyer had a special audience of Emperor Nicholas yesterday at Peterhof palace.

The report received from Assistant Secretary of State Peirce at Portsmouth that the peace plenipotentiaries had adjourned their sittings until next Saturday was a source of satisfaction. It is a distinct assurance that efforts are being made with increasing prospect of ultimate success, to compromise on the crucial points of difference among the conferees. It is regarded as certain that every hour gained in the time of the conference makes for a peaceful solution of the differences.

PRESIDENT GAINS POINTS.

Thus far the President has gained his points, one after another. It was due to his efforts that the conference did not break up finally last week, and his further important suggestions prevented a final dissolution of the conference on Monday.

Now he has carried his appeal, too, which can be said to have the positive support of the great neutral powers.

It was stated late last night that Japan has proposed to Russia that the question of indemnity for war expenditures be waived practically and that Russia agree to purchase a portion of Sakhalin for $600,000,000. It is believed that one part of the proposition submitted to Baron Rosen by the President was that Russia should purchase possession of Sakhalin either in part or as a whole, and that if the conferees were unable to agree upon a price to be paid for it the amount be left to the determination of an impartial tribunal. Final decision of the proposition made by Japan through Baron Komura will rest with Emperor Nicholas. Even should it be rejected it is almost certain now that it would be succeeded by other propositions, looking to an ultimate agreement of the plenipotentiaries.

CAMPAIGN ON NON-PARTY LINES

Conservatives of Saskatchewan Decide to Adopt Mr. Haultain's Policy.

THE REGINA CONVENTION

Resolution of Confidence in the Leadership of Mr. R. L. Borden Enthusiastically Carried.

Special to the Montreal Star.

Regina, N.W.T., August 24.—The Conservative party of Saskatchewan has decided to go into the pending campaign on non party lines, and to give its support to any candidate regardless of former party affiliations who will support Hon. F. W. G. Haultain and his policy of provincial rights.

The attendance at the convention held here yesterday, was large and representative, about 200 delegates being present. Among those present were Hon. Mr. Haultain, Senator Perley and Mr. R. S. Lake, M.P. Mr. Lake was appointed Chairman. The resolutions committee after a long session reported in favor of a non-party campaign, deciding that it was more expedient in the interest of the country, to sacrifice their party feelings at the present time, and to fight for those rights which Hon. Mr. Haultain had embodied in his platform. Dr. Ellis, Hon. Mr. Haultain's candidate for Moosomin, moved the adoption of the resolution. Senator Perley took a strong objection to the practical elimination of party lines. He spoke for some time in support of his contention and said that he could not vote for such a resolution.

Other speakers favored taking up the gauntlet which the Liberals had thrown down, but a large majority of the delegates agreed that the issues upon which the election would be fought were of such a nature that they could not go into the contest fighting for the federal principles of conservatism.

Addressing the Assembly, Hon. Mr. Haultain said that he deeply realized the importance of the present occasion. Provincial rights were endangered, and though he could understand how strongly party men felt when a challenge was thrown down to them, the issues that confronted them were not the usual questions that divided the electorate. "The Liberals," he said, "have coerced us, and Walter Scott has sold us, and now he is coming back and asking us to bind the bargain. There are elements of our population who do not understand the terms Liberal and Conservative, but they do understand the question of right and wrong, and they would be asked to vote on these questions that affect the vital interests of their children and their childrens children."

The resolution to go into the campaign on a new party policy was passed amid loud applause.

CONFIDENCE IN MR. BORDEN.

Another resolution which was carried after expressing entire confidence in Mr. Borden's leadership, and thanks for Mr. Borden's strenuous opposition to the Autonomy bills, and reciting the imperative necessity for internal provincial development in the way of roads, etc., and the need for the Hudson Bay Railway, declared that the province should provide at the smallest possible cost an opportunity for every child in the country to obtain a sound primary education in schools controlled and regulated by the Government. Also that similar opportunities should be afforded for secondary education.

It was resolved further that a provincial university, completely free from sectarian influence, or political control, should be established, with ample endowment from the lands of the province, still retained by the federal government. The convention also declared for public ownership of public utilities, and assumption by the Dominion of the Canadian Pacific Railway lands exemption, also that the Legislature at its first session should be appealed to, to have the highest court of the Empire test the constitutionality of these provisions of the Autonomy act, which withheld public lands, timber, mines and minerals from the province, which limited the power of taxation and restricted the freedom of the provincial authorities in respect to legislation and expenditure of provincial funds, in regard to education.

CRESCEUS GOES ON BLOCK.

The Peerless Trotting Stallion Will Be Auctioned Off.

Special to the Montreal Star.

New York, August 24.—Cresceus, the world's champion trotter stallion 2.02 1-4, is to be sold at auction at Madison Square Garden, in November. Cresceus was foaled at the Ketcham Farm, Toledo, 1894, his sire being "the monarch of the homestretch," Robert McGregor, 2.17 1-2. His dam was Mabel, by Mambrina Howard. In his early colthood he suffered from a severe attack of epizootic. A strong blister being placed on his throat in his suffering the colt rubbed his neck over the door of his stall in such a manner as to expose his windpipe. Ketcham gave orders to have him killed, but the caretakers decided to postpone carrying out the order until the next day, when the colt's throat was so improved that he was nursed through his sickness and soon developed into a well made, healthy youngster. His remarkable career on the trotting turf, has never been equalled.

HON. F. W. G. HAULTAIN,

The principal speaker at the Conservative Convention at Regina.

TROUBLE OVER THE SHED PLANS

The Harbor Commissioners Resent Having Plans Forced on Them.

SOME TALK OF RESIGNING

They Did Not Order the New Steel Shed Plans and Do Not Want Them.

The members of the Harbor Commission are still in a quandary respecting the new set of wharf shed plans, which have been sent them.

These plans, which are presumed to have the sanction of Hon. Raymond Prefontaine, were prepared by Mr. Percival S. George. The members of the commission contend that the plans were not ordered by them, were not sanctioned by them and are not desired by them.

"If the Harbor Board is to be sandbagged into accepting a lot of plans which they never ordered and had no idea of orderin then I think it about time they resigned, for there would be no excuse for the Board's existence." This was the remark of one of the commissioners after the meeting yesterday.

At the meeting Mr. Penny wished to know if the Department of Marine and Fisheries had been written to, asking whether the same had been sanctioned by the Government.

Mr. Penny was told that the Government would be written to in this regard, though it had not been done as yet. Senator Mackay was under the impression that there was a misunderstanding somewhere.

Mr. Robert Bickerdike said: "If these are Government plans, why are we, as commissioners, sitting here? I cannot understand the situation. If they are the plans only of Mr. St. George, then, I say, Mr. St. George had no right to send them or have them sent to this board. Let us be informed by the Government imediately who is responsible for these plans."
