Peruse the First

Winemaking Region in Quebec

1980

The story begins in 1980, when passionate— and admittedly, slightly crazy!— vintners Christian Barthomeuf and Jacques Breault traveled to Ontario to obtain cuttings to plant the first vineyard in the Eastern Townships. Just like that, Dunham's Domaine des Côtes d'Ardoise was born.

A few years later, Dr. Jacques Papillon purchased the vineyard and exploited it for 30+ years while Christian Barthomeuf opened Clos Saragnat in Frelighsburg, where he would eventually develop the very first ice cider.

1982

Four more visionaries (Charles-Henri de Coussergues, Hervé Durand, Frank Furtado and Pierre Rodrigue) work tirelessly to establish the region's second vineyard, l'Orpailleur.

2004 and 2012

From this lovely story was born two wine routes: The Brome-Missisquoi Wine Route in 2004 and the Estrie Wine Route in 2012.

Wine Country
Awaits

The Wine Route

The Brome-Missisquoi region is hotbed of winemaking in Quebec. Over the past 40 years, dozens of new vineyards have popped up, bringing their own personality and unique offering onto the landscape. The properties are connected by Quebec's only Wine Route, which spans a breathtaking 160 kilometres through rolling hills and quaint villages. A guaranteed highlight of any Townships visit!

Download the map at
laroutedesvins.ca

For more wine country touring, explore the Estrie Wine Route, which was created eight years ago and also boasts charming stops for oenophiles and epicureans alike.

Vibrant and Green

Vibrant by day and night, Sherbrooke delights visitors with its authentic feel and urban energy. Whether your favourite travel experiences include sampling local fare, partaking in outdoor adventures, or connecting with local art, music, and architecture, the city that the Abenaki call *Nikitotegwak* (at the river that forks) invites you to experience attractions big and small that make it a choice destination.

Sherbrooke is the urban centre of the Eastern Townships and it holds more than a few culinary surprises. Did you know that Sherbrooke plays host to some 100 cultural communities? That it values diversity and embraces local products? With six craft breweries with storied, rich histories, and an urban vineyard, there's something to please the most adventurous palates.

The city vibrates to the beat of its lively cultural scene with outdoor festivals, shows from artists of all genres, and venues with exceptional cachet.

It is also an open-air museum, known internationally as the capital of trompe-l'oeil murals with its unique art circuit showcasing 18 masterpieces. Three museums plus art galleries and urban exhibits add to the city's artsy appeal.

Sherbrooke is green spaces, with a mountain and parks that beckon guests to play outside, contemplate the city, and enjoy city strolls. It's a lake, of course, with downtown's Lac des Nations serving as a hub of sporting events and art (including the popular mosaicultures, a.k.a. large-scale art installations built from plants). Finally, it is the starting point (or arrival point) of an exceptional bike route that slowly reveals both the beauty of the natural setting and the gourmet pleasures to be enjoyed in region.

Sherbrooke is the spot where city and nature converge, a hotbed of unforgettable moments and encounters, and an essential stop on any jaunt to the Eastern Townships.

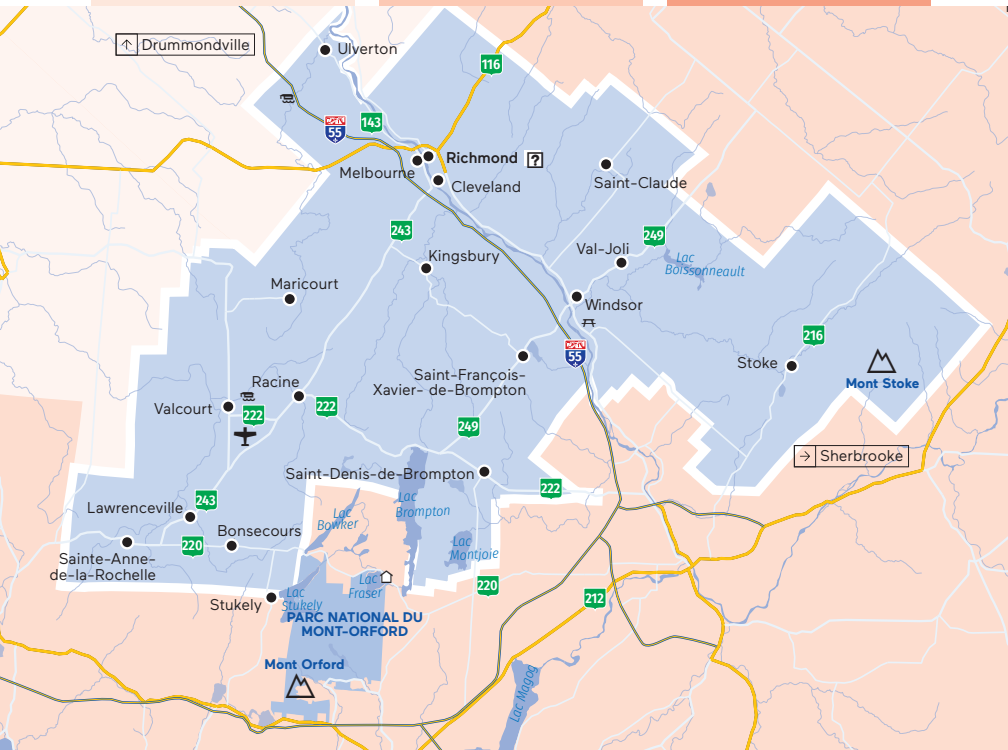
Richmond's Heritage Trail features 36 examples of architecture from bygone eras. The town is also the starting point for many bike routes, hiking trails, and nautical excursions down Rivière Saint-François.

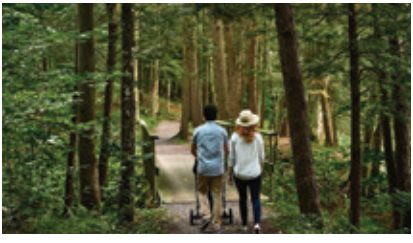
Valcourt was home to infamous inventor J. Armand Bombardier (of Ski-Doo fame). Today, the town hosts the most notorious winter motorsport event in the world: The Grand Prix Ski-Doo de Valcourt.

Ulverton oozes small-town charm and is the starting point for the *Chemin des Cantons*. Must-see sights include Ulverton Woolen Mill and its covered bridge, plus a vineyard tucked in the hills.



Ulverton Woolen Mill

Canada's Only Textile Interpretation Centre



Through exhibits and guided tours, Ulverton Woolen Mill is a unique place where guests can explore the evolution of wool processing methods. The mill itself dates to 1840 and features a complete set of operational machinery from the 19th century.

Events, Exhibits & More

At the Mill, special events run from May to early October, with standouts like high tea on Wednesdays and live entertainment on Thursdays. The *Avant de Perdre le Fil* exhibit debuts in mid-June and will be the first in Quebec to combine augmented reality and 3D space-time audio technology for an incredible immersive experience. The exhibit explores the ingenuity of the mill's machines and the extensive work that's gone into restoring them. As for the permanent *En Avant les Machines!* exhibit, its highlights include a guided tour and the opportunity to see the 120+ year old machines spring back to life. Finally, don't miss picnic Fridays!

Walking Trails

There is a small but beautiful trail network to explore at Ulverton Woolen Mill: A 4 km stretch that is stroller accessible, and a 2 km leg that's more rustic. Take a stroll to find picnic tables, views on the river, a covered bridge, and a boutique stocked with artisanal knits and skeins of wool.

A lovely place to spend the day with the family.

Outdoor Recreation

6 BEST PRACTICES

More and more people are enjoying the great outdoors, and we're all for it. Here are some ways to make the experience fun and safe today... and for generations to come.

→ 1

Pick up your trash. And dispose of it correctly in a public bin or at home. This includes dog waste! Even bags marked biodegradable or compostable take years to decompose in nature.

→ 2

Keep dogs on leash and in designated areas. The reason is simple: The scent left by dogs can repel wild animals.

→ 3

Stay on the trail. Think of the trail like a scar: Every step outside of it creates further damage. Going off trail also increases your risk of getting lost or injured which can be both dangerous and costly, should rescue services be required.

→ 4

Be courteous. On the trail, remember that ascending hikers have priority, keep noise pollution to a minimum, warn fellow hikers of your intention to pass, and respect the trail's vocation (i.e. don't ride your bike on a hiking trail).

→ 5

Think safety. Before heading out, make a habit of gathering pertinent trail information (distance, conditions, difficulty, etc.) and telling someone where you're going and when you expect to return. You'll also want to wear appropriate shoes and clothing and bring a supply of water and food.

→ 6

Pay your way. Access fees are usually just a few dollars but play a critical role in keeping our parks and nature centres afloat. And speaking of infrastructure: Pay attention to parking regulations to avoid a nasty surprise when you get back to the trailhead.

And most importantly, enjoy your time exploring the great outdoors in the Eastern Townships!
