Col. J. Humphrey Gets Send-off From Grenadiers

Lieut-Colonel James Humphrey, well known Westmount resident who lives at 23 Anwoth road, was tendered a reception by members of the Canadian Grenadier Guards and 6087 Association at a get-together held in the Thistle Curling Club, Kensington avenue, Westmount, on Saturday night.

Col. Humphrey will leave shortly to take up residence in his native Scotland. Arthur Olding, president of the association presented Colonel Humphrey with a pen and pencil set on behalf of the regimental association.

Mr. Olding expressed the wish that their old comrade in arms would enjoy his stay in Scotland.

Col. Humphrey expressed regret that he was soon to leave Canada. He thanked the members and said he hoped to keep his ties with the Grenadier Guards and the association, and he said that he expected to visit Canada often in the future.

The association members fully enjoyed the evening which was highlighted by a roaring curling match in which most participated.

Major Norman Nicholson was presented with the golf trophy which he won at the annual member tourney. E. L. Lamontain made the presentation.

Plans for another golf tournament in the fall were announced by P. Pepler, who asked all present to keep the event in mind.

Game Hunting In Canada Features Talk At Rotary

Members of the Westmount Rotary Club learned the fundamentals of big game hunting in the Canadian North, when they were shown movies and received a running commentary of a 20 day hunting expedition at their luncheon meeting, Wednesday.

With Phil Bruneau handling the colored four reels of film and Bill White telling the story of their experience, the members were shown numerous events of the hunting party undertaken in 1946.

The official part included the two men with Mr. White's wife, Marion, who was also responsible for bagging some of the game during the trip.

Excellent pictures were shown of her killing a Grizzly bear, and another outstanding action shot was taken when one of the party killed a caribou.

"The hours are long on such a hike," Mr. White said, claiming that the usual day starts at dawn and ended at dusk. High above the tree line, the movies showed how they scaled some of the mountain tops and tracked down game during the day.

Travelling with the three Montreaders, were a number of Indian guides as well as a horse ranger

Poor Butterfly, She's Lonesome Waiting . . . (For the Spring, That Is)

Madame Butterfly — Constance Dorothy Barnes of the Westmount Police Force found a butterfly fluttering in Westmount Park on Sunday despite the wintry weather. Does this March butterfly herald an early spring or did it escape from the park conservatory looking for a breath of fresh air?

Municipal Ass'n Backs Referendum On Sunday Sports

The executive committee of the Westmount Municipal Association met on Monday evening under the chairmanship of J. R. Fenwick.

Publicity chairman R. S. White stated that the committee decided to recommend to the City Council that a referendum of citizens be taken on the question of whether Sunday sports should be permitted in Westmount.

It was also recommended that the organ in Victoria Hall which is at present out of condition, should be replaced by a new electric organ. It was felt by the committee that the repair cost, plus the price which may be obtained for the present organ would probably more than offset the purchase price of the new electrical instrument.

The Educational and Library Committee are in favour of making available to citizens long playing symphony records. It was the opinion that this service would prove a boon to those who delight in good music. Before this idea can be proceeded with, however, it will be necessary to refer to the terms of the original deed of donation of the library. The library committee will report back to the next meeting.

Mr. White said that the annual Spring meeting would be held on May 2 in Victoria Hall.

The committee also discovered that chimney cleaning comes under the police department, not the fire department as had been generally understood.

The membership of the association is very high, 854 paid up members being on the books. A drive will be instituted to increase this number, as it is the feeling of the association that every West-

Trout Fishing Opens — April 19 Set as Date

Westmount followers of Isaac Walton, should take note that the Quebec Provincial Department of Game and Fisheries has announced that trout fishing in the province will open on April 19.

Trout fishing on lakes still covered with ice after April 19, however, will be forbidden.

The different seasons for rainbow trout fishing in various sections of the province will be made known shortly.

Mayor Cameron Goes To Quebec Fights Mtl. Bill

Mayor J. S. Cameron of Westmount accompanied by the city solicitor, J. W. Weldon, K.C., left for Quebec on Wednesday night, to join in the fight of suburban municipalities, for the right to be represented on the Transportation Commission, or any other commission which may be created, if the Montréal Bill calling for public ownership of mass transportation system in the Montreal Metropolitan area receives approval of the Provincial Government.

Mayor Cameron stated to The Examiner before leaving, that Westmount was solidly behind the other interested municipalities in their demand that at least two of a five member commission should be named by them.

Francis Fauteux, K.C., has been retained as counsel to represent the suburban cities, and to press for the incorporation of their views in the Montréal Bill which is being considered by the private bills committee.

Asked by the Examiner as to whether he favored expropriation of the Montreal Tramways, Mayor Cameron said that he "was in favor of the principle of the expropriation of mass transportation systems."

Twelve municipalities were represented at a closed meeting convened by Mayor Romuald Bourque in the Outremont City Hall on Tuesday.

Attending the meeting were the following: Outremont, Mayor Bourque and E. T. Sampson, city secretary; Mayor E. Wilson of Verdun, Mayor Cameron of Westmount, also J. W. Weldon, K.C., City Solicitor for Westmount; Mayor Charles Lafontaine, Ville St. Michel; Mayor Anatole Carignan of Lachine; Mayor J. H. Authier, Ville St. Laurent; Mayor Paul Pratt, Longueuil; Mayor Jean Langelier, Pointe-aux-Trembles; Mayor J. A. Leroux of Ville LaSalle; Mayor Lyman I. Playfair, Hampstead; and Archambault Desy, representing four municipalities under the Montreal Metropolitan Commission.

Also present were Charles Sylvestre, K.C., city attorney for Lachine and Ville LaSalle; Emilien Brais, city attorney for Longueuil; and Rene Laberge, finance director of Lachine.

Mayor R. E. Schofield of the Town of Mount Royal, who was in Quebec, could not attend the meeting.

After a two-hour discussion, a resolution which received unanimous approval was moved by Mayor Edward Wilson, of Verdun, and seconded by Mayor J. S. Cameron of Westmount, to the effect that mass transportation be municipalized but with certain conditions.

The text of the resolution reads as follows:

It is unanimously resolved, that the mayors present at this meeting, favor in principle, subject to the following conditions, public

Music Festival Planned for 'Y' Hobby Show

Westmount will have a Music Festival, on a small scale, as a part of the Boys' and Girls' Hobby Show at the Westmount Y.M.C.A. on Friday evening, April 14th., at 8.15 p.m.

Of first consideration is the adjudicator, and for this event there has been secured Dr. D. M. Herbert, Mus. D., Mus. B., L.R.S.M., Supervisor of Music for the Montreal Protestant Central School Board. Dr. Herbert is very widely known, outside of school circles as well, being formerly on the staff of the McGill Conservatorium of Music and organist of Emmanuel Church on Drummond street.

Those who attended the international school music festival in the Forum, several years ago, will remember Dr. Herbert's conducting of the huge massed choirs.

Parents and teachers of piano, singing, instrumental or dancing pupils, of all ages up to 19 years, will want to hear Dr. Herbert's helpful criticisms of their performances. An opportunity is given to play or sing in public to a friendly audience, also, and confidence is built up in this way which will be very valuable to the boys and girls concerned.

Westmount Baptist Church Receives Many Donations

The gifts were officially dedicated after the official presentation to the Church had been made by A. E. Smith, secretary of the house committee.

A mahogany pulpit and paneling in the background of the platform, all hand carved, were the principal items presented.

Other gifts included carpeting for the church auditorium, rubber tiles in the lobby, new fern pedestals, velvet drapes for the baptistry, and a scarf finished in gold braid for the communion table.

Scouting Around

with REG. GROOME

St. Matthias Pack met again in the upstairs hall last Friday when George Young completed his 1st star along with Roger Bellingham. Colin Russel, Norman Burrows and Peter Seely all passed some of the tests towards their 1st stars. The Brown Six were the victors in a thrilling "Candle Relay," but the White Six is leading the current competition. Senior Sixer Russel Williams, who is going up to the Scouts, shook hands with the sixers as a farewell gesture and was honored with the Grand Howl at the close of the meeting. Cubs reminded to bring in tonight more comic books which the Pack is collecting for a lad who is in hospital.

ownership of the tramway system in the metropolitan area of Montreal, and the formation of a transportation board to the benefit of all the municipalities in the said metropolitan area.

1. That the transportation commission be composed of five members, two to be appointed by the City of Montreal, two to be appointed by other municipalities in the metropolitan area, and a chairman to be designated by the Lieutenant-Governor-in-Council.

2. A uniform fare be established if possible, and, if impossible, that zones be established, and that the fares be uniform within a radius of so many miles from the centre of Montreal.

3. The municipalities be granted a right of appeal from any decision of the proposed commission regarding services and fares.

4. This recommendation is made with the understanding that the jurisdiction of a transportation commission would be confined to the operation of the tramways, bus, and subway systems in the metropolitan area.

In view of the foregoing it is requested that the Montreal Bill as presented be modified accordingly.

Special Entry For Hobby Show

The Hobby Show Committee has secured for one of their special exhibits the services of several women D.P's, who will demonstrate the ancient art of weaving. These women, from International Y.M.C.A., will be at the Westmount Y.M.C.A. from April 12 to 15, during the Hobby Show. They will be dressed in beautiful costumes of their own native European land.

The general committee of the Hobby Show is in the process of collecting prizes from various companies.

During the past week representatives have been around to every school in Westmount to distribute blotters and to give a small talk to the pupils about the Hobby Show.

WHAT NEXT?

The vagaries of censors are inexplicable. So, too, in many instances, is the need for censorship.

The little dictionary which accompanied me through high school defines a censor as "one who examines or judges; one who finds fault." As such the average censor is about as popular as a worm-ridden apple.

This century hasn't yet overcome its desire to be told what to think, what to do, and what to see. Hence, the censor boards that sprinkle the land with their views, their ordinances and their edicts—many of them the result of narrow, bigotted minds.

When we reach the millenium, possibly even before that if more people can be educated properly, censors will be a thing of the past and each citizen will decide for himself what it is right and what it is wrong to see, hear and read. But until that time of true democracy arrives we must put up with such bodies as the Quebec film censors.

There ran at the Snowdon Theatre just about a year ago a very interesting, strictly adult production entitled "An Act of Murder." Its central theme was euthanasia, its story very similar to that of Dr. Sanders.

Last week the Seville Art Theatre announced that it would be showing the film on Saturday. Then came the revelation that they had been asked to withdraw the film at the request of the Province of Quebec censors. Why?

The answer to that question is something that I am anxiously awaiting. For I have written our dear censors and asked them, very politely, their reasons for "requesting" the Seville Art Theatre not to show one of the few films released from Hollywood in 1949 that was not designed for view by adolescents. When that answer comes I'll print it in the Pillar. Then we can both laugh—or groan—depending upon what we had for dinner that day.

OLD BOYS

Westmount High's Old Boys are expected to be out in force March 27, that's a week from this coming Monday, for their annual reunion. This time the scene of festivities will be the Queens Hotel and there are a few items a little out of the customary in connection with the event.

Last year's guest speaker, Dr. G. D. Kilpatrick, prefaced his very entertaining discourse by saying that twentieth century men and women talk too much, think too little. He gave as an example the fact that it was necessary to invite him to the doings just to

Y. M. C. A. NOTES

YOUNG ADULT SECTION: The So-Ed Program got away to an excellent start last Thursday, after the difficulties which were faced due to the severe weather on March 9. G. B. Langley of the Royal Bank gave an excellent talk on "Home Management." It was followed by an interesting discussion. The instructional courses have been limited to golf, tennis, water safety and dancing, with a full enrolment in the tennis course. It is not too late to secure five excellent lessons in the other subjects. Register before next Thursday.

The Square Dance Club will have as its guest caller Mr. Melvin of the Valois Citizens' Association. This regular monthly visit of Mr. Melvin is looked forward to with enthusiasm by the Club members and their friends. If you are interested in learning to square dance, be sure to be present next Tuesday at 8.00 o'clock.

The Badminton Club played a return match last Wednesday with the North Branch Badminton Club in the Queen's School gym. The Club is meeting each Wednesday in the Westmount Senior High School at 7.30 and in the "Y" gymnasium on Friday evening at 7.30. Anyone interested in playing badminton for the remainder of the season will find a welcome.

The Friday Social Dance will be honouring Ireland's Patron Saint next Friday night. This is a time when we can really get to know a group of young people in a friendly social atmosphere.

The Sunday Evening Firesides will be held up to April 2. These informal get-togethers around the fireplace start at 9.00 o'clock and offer an opportunity for mem-

Hon. George Drew At Legion Meet

The Hon. George Drew, Progressive Conservative leader in the House of Commons at Ottawa, and also leader of His Majesty's Loyal Opposition, will be the guest speaker at the annual convention of the Quebec Provincial Command of the Canadian Legion at Sherbrooke, this year.

The convention opens on April 16 and will conclude with the closing banquet on April 19.

The venue of the convention is the armoury of the Sherbrooke Regiment.

More than usual importance is attached to this year's convention as the Dominion Command biennial convention will take place in Winnipeg one month later.

Resolutions adopted at Sherbrooke will, in most cases, be carried to the Dominion Convention for endorsement.

say a few words. Apparently, the Old Boys' directors took his words to heart. This year there'll be no guest speaker.

Instead the accent will be on entertainment and in this field Art Briggs has come up with a programme that includes the name of Paula, "exotic Indian dancer." In the past the only thing exotic to be present at Old Boys' meetings was The Herald's Aune Sandland—and she was there merely to cover the event for her estimable journal. There have been on occasion a few exotic plants in the vicinity but I have omitted previous mention of them because exotic plants are not, to the ordinary mind, very exotic.

I have a sneaking suspicion that Paula will turn out to be somebody like Mr. J. D. Lawley or Mr. John Anderson. At any rate, I'll be at the Queens on the 27th to find out.

and cook, for the group had 27 horses and numerous supplies to trek into the interior once they had made their initial journey by air.

The speaker outlined many of the characteristics of hunting, pointing out that any hunter should practise his shooting before aiming at wild animals. He also mentioned that the pack horses are very jealous of the saddle horses and that a characteristic of the mountain sheep was a white rump with a black tail.

The movies displayed wonderful scenery and a special shot, taken of a sun set was outstanding, giving the area incredible beauty.

The speakers were introduced by Bill Abbott and thanked by Douglas McKean of the Club.

With Jim Lawson acting as Chairman of the meeting, three new members were inducted into the Westmount Rotary Club. They were Harry Houston, Michael Tansey and William H. Dean, introduced as members by Don Ross, Ted Harrison and Morris McQuigan respectively.

mount resident should belong to the association.

Following on Mr. White's disclosure that a questionnaire would be sent out by the City Hall authorities, The Examiner received by mail, a copy of a letter to be circulated on the question and a stamped addressed return postcard, worded: "Are you in favour of opening the Westmount Athletic Grounds on Sunday afternoons for spectator sports at which admission charges will be made?"

Citizens are asked to mark the card Yes or No and to sign it and return it to The General Manager, City Hall.

The accompanying letter gives a history of the ground and how it was acquired by Westmount. Figures dealing with the cost of operating the Athletic Grounds are also given for the guidance and information of voters.

It will be recalled that the Rev. O. J. Ritz advocated Sunday sports for Westmount in the issue of The Examiner dated December 2, 1949.

Westm't Theatre Shows Initiative With View Room

Something new in movie comfort has been inaugurated by Wyn Currie, popular manager of Westmount's de luxe Avenue Theatre.

A special view room seating fourteen persons and completely glassed off from the rest of the auditorium has been installed in a small balcony at the rear of the theatre.

The room is soundproof and air conditioned, thus permitting the privileged fourteen spectators to smoke and talk without disturbing the rest of the movie-goers. The sound is piped in through a loud speaker.

The view room is quite small and is situated next to the operator's booth. Settees and easy chairs make for the maximum in comfort for the fourteen persons who see the screen through a specially treated plate glass window.

The room has been designed for groups who wish to be seated together. It must be rented as a whole, no individual seats being sold. The rent for the fourteen seats is \$10 plus tax a performance, which works out at 85 cents a person.

Reservations for the view room must be made in advance.

It is quite flattering that Westmount should have been the first city in this part of the country to try out this innovation.

The idea is not new, however, as many movie theatres in the United Kingdom adopted the idea many years ago, and in Glasgow it is possible in at least one theatre to have dinner served while watching the picture on the screen.

King Winter Still Here

Westmount Park was given a fairyland look on Thursday which was accentuated next day by the prevailing bright sunlight which glistened on the snow-capped evergreens and the ice-coated branches.

Westmount Navy Officer Enthused Over Goose Bay

Lieut. Don Jamieson R.C.N. (R) of 483 Strathcona avenue, Westmount, gives a very enthusiastic account of a visit he made to the R.C.A.F. station at Goose Bay, Labrador over last weekend.

Lieut. Jamieson travelled to the R.C.A.F. outpost, as a member of a concert party arranged by Alan Murray of Dumbell memories.

Six men and eight ladies made up the party, which included several members of the Sun Life concert troupe and the dance line of the Red Feather Revue.

The group left Dorval at 1.00 p.m. Saturday in an R.C.A.F. North Star piloted by Flt. Lieut. Don Payne D.F.C. with Flt. Lieut. Rolland Lloyd as co-pilot. The plane arrived at Goose Bay at 4.30 p.m. Montreal time taking only 3½ hours for the trip, which contrasts with about four days by boat.

Although a navy type, Lieut. Jamieson states that in all his service experience he has never seen any establishment which comes within striking distance of the efficiency and appointments he found at Goose Bay.

Over 100 miles of roads have been constructed, homes have been built for the married personnel which would not look out of place in Westmount.

Houses Well Designed

The usual barrack look has been eliminated, each house having a different appearance and design from the one next, even to the colour of the paint used he said.

In addition, the dwellings are completely furnished, with air conditioned heating and electric light, and planned kitchens.

Flatware and even linen is provided for the married couples, and Lieut. Jamieson states that it is no wonder that there is a waiting list at Air Force Headquarters of married men who wish to be transferred to Goose Bay.

He pays great tribute to the

Speeches Ruined By Gesticulation Says J. Melancon

Pointers which may be of assistance to some of our up and coming youthful Westmount orators, were given by Jean Melancon at a recent meeting of the Montreal Richelieu Club.

Mr. Melancon, who has taught the fine points in diction and oratory to a large circle of French-Canadian actors, speakers and radio artists, stressed that speakers should not gesticulate unless they know how.

Too often, he said, good speeches were ruined by indiscriminate and senseless use of hands. His advice to budding public speakers was, that if they do not know what to do with their hands, put them in their pockets and keep them there.

Mr. Melancon stated that very often points which the speaker wished to emphasize or stress were missed altogether because of inappropriate or unnecessary gestures.

The remarks made by this eminent French-Canadian authority may be of assistance to those taking part in the current series of lectures and discussions at the Westmount Y.M.C.A.

Vets May Be Admitted To D. V. A. Hospitals

Westmount veterans who, up until now, have been denied treatment in hospitals administered by the Department of Veterans' Affairs, will be pleased to learn that regulations, according to an announcement by Veterans' Minister Milton Gregg, have now been amended, to allow of the admission to these hospitals of any veteran of either war, providing he qualifies as to ability to pay the daily rate, and that there is accommodation available.

The minister listed the conditions under three headings.

1. There must be room for the veteran, and, undoubtedly, some time will elapse before there is sufficient accommodation.

2. The veteran must pay for hospitalization just as he would have to do in a civilian hospital.

3. Veterans, such as pensioners already entitled to free care, will still get free treatment, and will have priority over others.

Mr. Gregg said that rates charged would be as near as possible

to those charged in civilian hospitals in the district involved. Further, the veteran will be responsible for paying the fees of the doctors who treat him. The veteran will have to arrange for, and pay, his own doctor. He also must be referred to the department by a doctor.

The announcement is of potential interest to more than 1,000,000 veterans. It means a widening list of persons eligible for admission to a D.V.A. hospital. At present, those admitted are pensioners, recipients of burnt out pensions or veterans' allowances, and veterans with meritorious service in a war theatre who are unable to provide treatment for themselves.

The new regulations provide for acceptance of veterans who have a satisfactory health insurance plan or those who are able to pay for hospitalization.

Until now any veteran who was able to get into a D.V.A. hospital and who was not entitled to free treatment, has been charged an

The meeting will be held for the purpose of receiving the annual report of the board of directors and for the election of directors and trustees for the ensuing term.

It would appear on the surface that Minister Gregg's latest announcement may up this figure.

Continuing the series of character-studies, entitled "Actors in the Greatest Drama of the Ages," Rev. D. M. Grant will select "Two Subtle Enemies" and "Two Splendid Cowards" on Sunday morning and evening respectively. The object of these character-studies is (1) that we may see the characters themselves in their true light; (2) that we may see ourselves in their attitudes and reactions to Christ and to life; and (3) that through them and their reactions we may get a clearer vision of Him who was the central figure in the greatest drama of

human history. Following the evening service, the Alpha Omega Society will meet in the hall for a specially-prepared programme, in which the members of the Congregation are invited to share.

The Kirk Session will meet on Monday evening, and the Bruce Copland Mission Band on Thursday afternoon. The boys' and girls' groups will meet as usual on Tuesday and Wednesday.

The members are looking forward with interest and expectation to the Pre-Easter Communion Services — which will be held on Palm Sunday. On March 26th, Preparatory Service will be held, at which time new members will be received and welcomed.

St. Mary's Hospital Plans \$117,964 Drive Objective

Richard (Dick) S. White, of 1 Murray avenue, Westmount, has been appointed general campaign chairman of St. Mary's Hospital's forthcoming campaign, J. J. Gallagher, president of the hospital, announced today.

Mr. White, Mr. Gallagher said, "will have the very difficult job of directing volunteer workers in a drive for \$117,964 to meet the hospital's 1949 deficit. The campaign will take place between April 17 and March 2".

The campaign chairman will be assisted by the following:

Thomas J. Madden and Louis P. Beaubien, general vice-chairmen; James Cleary, parish division chairman; Ken McArdle, special names chairman; Paul C. Dawson, chairman, industrial division; Dr. J. J. Dinan, chairman, doctors division; R. J. Dunlevy, publicity division chairman; Mrs. John S. Corbett, chairman, ladies division, and Martin Whitacker, treasurer.

Pointing out that it was "the human element" that prevented a hospital from being operated on a sound business basis, Mr. Gallagher recalled one example of "compassion towards the sick" as an instance of just why St. Mary's cannot operate within a budget.

Need For Funds "Consider the case of Mr. X," he said. "He was a patient for over nine months. He had Blue Cross benefits of \$70, and when these were exhausted he was accepted by the Quebec Public Charity Act who pay a limit of \$4.00 per day. Obviously when food, accommodation, linens, medicines, special nurses and treatments are considered, this sum does not even approach the cost of hospitalization. His total bill at cost was \$4,532.96, including \$3,075 for oxygen treatments. Q.P.C.A. paid its amount for 275 days for a total of \$1,100, while the hospital must absorb the remainder, \$3,362.95.

"The hospital knew all along that the patient was indigent, yet he received the finest of medical care, as do all patients, regardless of whether they are able to pay or not."

It is for reasons such as this, he said, that St. Mary's shows a deficit. "You cannot be merciless where the sick are concerned."

Mr. White, it was learned, will establish campaign headquarters in the Windsor Hotel on April 1.

Westmount Boys May Apply for Navy Scholarship

Westmount lads are offered a chance of getting a one-year scholarship valued at \$580 tenable either at Royal Military College, Kingston, or at Royal Roads, Victoria.

The scholarship is being put up by the Naval Officer's Association of Montreal.

In making the announcement, Cmdr. (S) D. R. McRobie, R.C.N. (R), president of the Association, said that the award would cover the first year's fees and expenses, at either of the two Canadian services colleges in 1950.

Preference will be given to candidates who are relatives of former or serving personnel of the naval forces of Canada and who contemplate a career in the Royal Canadian Navy.

One of the conditions of the scholarship is that applicants must be bona fide residents of the Montreal area, living within a radius of 40 miles from Phillips Square.

Applications are to be made prior to July 1, this year, to the chairman scholarship committee, Naval Officer's Association of

Royal Bank Appointments

D. T. YOUNGSON

R. I. FINDLATER

The Royal Bank of Canada announces the appointment of D. T. Youngson as manager of its Greene Avenue Branch, Westmount, succeeding J. M. Carleton, who is being attached to the Bank's Head Office for special duties. Mr. Youngson was formerly manager at the Sherbrooke and Decarie branch of the bank. His successor is R. I. Findlater, who comes to Montreal from Moncton, N.B., where he was manager of the Mountain Road branch of the Royal Bank.

wonderful organizing job done by governmental agencies in transforming this barren wilderness of snow and stumpy bush into a comfortable place to live, for the more than 1,000 R.C.A.F. personnel stationed there, besides at least an equal number of American Air Force members also in the neighbourhood.

The single men may not find it quite so attractive, but everything has been done to make life pleasant. A movie house which compares with the Avenue in Westmount, shows first run pictures every afternoon and evening, the prices being 25 cents for adults and 15 cents for children. Bowling alleys are also there and tennis, badminton facilities are also provided. The station has its own dance band which pays for the many dances.

Hunting, Fishing Good

Good hunting and fishing including salmon is available. Proof of the plentiful supply of salmon is that each member of the concert party was given an 18 lb. salmon to bring home as a memento of the visit. In fact Lieut. Jamieson states the plane on the way back smelt very very fishy as the frozen salmon thawed out. Schoolmaster Potts has about 108 children attending school, and is looking forward to a newer and larger school being readied for early summer occupation.

Rents for the houses are based on rank, and the allocation depends on the family size. A flight sergeant for instance is charged \$45.00 per month for a house which includes every facility and oil for the heating system, men of lower rank and officers are charged proportionately lower or higher rents, according to basic pay rates.

Lieut. Jamieson said that the American Air Force are not quite up to the R.C.A.F. in living quarters, although the Officers Mess was something. It looked more like a posh night club in contrast to the more homey and comfortable mess in the Canadian base.

Worst Smoke Fire Ties Up Traffic

What might have been a serious fire was happily gotten under control before it had gained much headway at the Mountview Apartments, 3025 Sherbrooke Street, W., on Monday morning.

The apartment building, which is almost on the Westmount boundary line, was little damaged by the fire, but, according to the Montreal fire department officers on the scene, it was the worst smoke fire of the year.

Thirty-five persons were rescued by firemen, many of the rescued, most of them women in night attire, being carried down ladders to safety by the firemen.

The fire was first reported at 8.30 a.m. and took just over two hours to quell. A second alarm was sent out.

Damage was limited to the right side of the building.

The fire broke out in the basement of the building.

The majority of the residents were able to return to their apartments after the fire was over. Smoke damage, however, was heavy.

have been born in the hospital in recent months.

The party landed back at Dorval at 5.00 p.m. Sunday afternoon tired but satisfied with their weekend trip.

One thing which impressed was the extent of the barren wastes, the number of lakes, and the gradual thinning out of foliage as the plane winged its way north.

A bus service operates over the 100 mile roadways kept open at the base, which is shaped like a triangle with numerous roads criss crossing from the American side to the Canadian side. The third arm of the triangle is all bush.

Canada Well Defended

Lieut. Jamieson states that he is very satisfied that the defence of Canada's northern approaches is in good hands, and if all our Canadian air depots are at the same high level of efficiency, any intruder will have a rough time. It sure was an eye opener he added.

Goose Bay is really a hub from which planes can cover all approaches, and is used by the commercial lines when Gander is closed due to fog. There is little or no fog at Goose Bay.

The station is commanded by Group Captain J. A. Verner, who has all the worries of running the small town.

Hon. D. C. Abbott RMR Smoker Again Under Fire Plans Listed

Westmount's member at Ottawa, The Hon. D. C. Abbott, Finance Minister, is again the target for nasty remarks.

This time it is the girl waiters in the Parliamentary Restaurant who are after Mr. Abbott's scalp.

The girls are campaigning for new uniforms. They complain that the present ones, once a pleasant shade of blue, have now faded, through many washings, into two-tone and even three-tone effects.

The girls don't like it.

Senators and members of parliament are getting an earful if they care to listen. The waitresses waste no opportunity of displaying the faded spots to the members and of pointing out how disgraceful it is for parliament to dress their staff in such shoddy and unfashionable uniforms.

Mr. Abbott's reported economy drive is blamed by the girls for the hold-out on the new uniforms.

They threaten to take the matter up with those who will understand their feminine concern — the wives of the members and senators if new togs are not forthcoming soon.

Mrs. Beatrice Rickards Mourned by Family Here

Mrs. Beatrice M. L. Rickards, wife of the late C. Dudley Rickards, died at the residence of her daughter, Mrs. W. W. Sealy, 351 Lansdowne Avenue Westmount, on Sunday.

Mrs. Rickards is survived by a son, C. Selby Rickards, of Peterborough, Ont., three daughters, Mrs. Sealy and Mrs. F. Norman Harling, both of Westmount, and Mrs. William W. Sealy, of Galveston, Texas.

The funeral was held from the chapel of Jos. Wray & Bro., Mountain Street, on Tuesday, with burial in Mount Royal Cemetery.

WANTED: AN INVESTIGATION

\$17,000,000 Is Too Much Money

During the past year there has been relatively little unemployment in Canada yet we are told that the cost of administering the federal government's unemployment insurance fund amounted to \$17,000,000.

Senator W. M. Aseltine, of Saskatchewan, has suggested in a speech in the upper house that the Senate committee should investigate this enormous administrative cost. Senator Aseltine points out that contributions to the fund by employers, employees and government in 1949 totalled \$120,000,000, and administrative costs therefore amounted to about 15 per cent of the total, a condition which the Senator described as "shocking".

Church of the Advent

The fourth Sunday in Lent is called Refreshment or Mothering Sunday in the church; the latter name reminds us that it has been kept for many centuries as Mothers' Day. The preacher at the Solemn Eucharist in the Church of the Advent will be the Rev. Kenneth Bolton, rector of the parish of St. John the Divine.

The Bishop of Montreal will pay his annual visit to the Advent parish Wednesday at 8 p.m., and will administer the Sacrament of Confirmation.

Dominion-Douglas

On Sunday morning in Dominion-Douglas Church, Dr. Lloyd Smith will take as his topic, "The Way the Master Went." The choir will render a Motet by Bach, entitled, "I Wrestle and Pray."

The Church School will meet at 3 p.m. An important rehearsal for the Easter Pageant will be held. In the evening Dr. Charles Johnston will continue his Lenten Series for Young People, "Scenes from Jesus' Life" with "Touching His Garment." At the Young Peoples' Union meeting which will follow immediately, Dr. Douglas Wilson will give further vocational guidance as he speaks on "Analysis of Personality," with demonstration of the psychological tests used.

On Monday at 2 p.m., the Sewing Circle invites all ladies interested in sewing and friendly chatter. Tea will be served.

On Tuesday at 10 a.m., the Women's Association will meet to sew, with luncheon to follow at 1 p.m., under the direction of Mrs. A. H. Marden and Mrs. H. S. Van Patter as hostesses.

At 8 p.m., the Handicraft Guild will begin work on a new quilt, and will carry on with the weaving and leather tooling.

On Wednesday at 8 p.m., in Leslie Hall, the Lenten Services on the general theme, "A Clinic in Christian Living," will continue with a discussion, led by Dr. Smith on "Jesus and Our Business."

Next Friday afternoon at 4 p.m.,

If Ottawa has been able to spend \$17,000,000 to handle unemployment insurance at a time when the principle work of the department must be collecting payments from workers and employers, we wonder what administrative costs will amount to if large unemployment occurs and the department has the additional work of returning the insurance contributions to Canadian workers. If ordinary insurance companies had to waste as great a percentage of premiums in administrative costs, there would be little cash left to provide benefits. Senator Aseltine's suggestion of an investigation of the fund's administration does not seem at all unreasonable at this time.

THE TABLE OF THE FUTURE

Limited Space Compels Changes

A furniture man told us the other day that tables with stationary legs will practically disappear in the next few years. The reason he gave was that they take up too much space in the modern high-rent, limited-space dwelling, especially apartments.

Space below the table top must be used. Hence tables will have shelves or drawers below the top, or they will have folding legs, or the top will be hinged to the wall so that it can be put out of the way when space is wanted for a chair.

Last Sunday the Westmount congregation dedicated beautiful church furnishings, provided anonymously by members of the church. Among these were a new

"Matter" is the subject of the Lesson-Sermon to be read in Churches of Christ, Scientist, on Sunday.

The Golden Text is from Isaiah 40:8. "The grass withereth, the flower fadeth; but the word of our God shall stand for ever".

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Then the Pharisees went out, and held a council against him, how they might destroy him. But when Jesus knew it, he withdrew himself from thence and great multitudes followed him, and he healed them all; then was brought unto him one possessed with a devil

Minute Mix

By H.B.S. and D.McG.

MINUTE MENTION . . . Lovely Urmilla Gaydeen, an East Indian who wears the Hindu caste mark like a star between her eyes when dressed in her sari, has been studying at McGill for the past three years. Recently she began taking modelling lessons at the Speirs-Miller Studio, discovered that she is quite photogenic and has since modelled clothes by Alfandri, Jack Liebman and other top notch Montreal designers.

Urmilla's father is Chief Inspector of Schools for the whole of Trinidad. Urmilla has been studying science at McGill and took the modelling course just to round out her education so that when she returns home this summer she will really understand Canadian fashions, make-up and good grooming in general. In the Speirs Miller course tests are made to see which pupils are photogenic. Six new pictures a month are sent to firms using models, and when a certain type is required the manufacturer or business firm contacts Betty Speirs who then arranges an appointment. But even under these favorable circumstances Urmilla, with her hair drawn smoothly back into a loose knot, her photogeny and grace, plus that hard to define something which speaks wordlessly of personality — has gone far in a short time. She speaks English beautifully, of course, and is toying with the idea of living in Canada and making a career here in the commercial photography field. Anyhow, the chameleon quality which enables her to wrap her slender figure in a sari and look like a poem, or to don Canadian fashions and look smooth and smart, is not the least fascinating of her talents.

MINUTE MAKE-UP . . . In the modelling class aforementioned there are a surprising number of D.P.'s

"How come?" we asked Betty Speirs.

"Well," she said, "after all, when a girl comes from a foreign country she wants to learn the answers to one important angle of business success — how to look Canadian! How to wear a Canadian hair-do, how to apply cosmetics, how to walk gracefully and in some cases, how to get over shyness. Not all of our DP girls want to be photographer's models — many just want to be sure that they can act correctly and appear at their best when they apply for jobs. Their training as models seems to give them confidence to steam on ahead as new Canadians!"

MINUTE MASTER . . . One gentleman who takes such an interest in these young ladies that he spends a lot of his time on the runway with them is Poey, the studio cat. Sixteen years old and fat, Poey is not above hogging the limelight himself. He was donated to the Speirs-Miller studio by Bessie Anderson, the singer, when just a wee bit of a kitten. White and grey with a pink nose, he can be very dignified. When travelling he scorns a travelling basket, installs himself on the back seat and, between naps, enjoys the scenery.

MINUTE MIAOW . . . The other day while shopping at the Service Groceries we were surprised to feel a large cat wind itself lov-

ingly about our ankles, miaowing affectionately the while.

"What's the matter with your cat?" we asked warily.

"Mr. MacDonald, the proprietor, grinned and remarked "You've got a cooked chicken in your parcel, have ye not? I think I smell chicken, eh?"

We nodded. "The cat knows it is there!" said Mr. MacDonald, "and she is fair daft about chicken."

He packed our little order in a bag and the grey striped cat kept weaving round our feet and miaowing louder and louder.

"Do you know what Mrs. MacDonald did last Christmas Day?" Mr. McD. asked suddenly. She said 'let's get out the car and go down to the shop. I don't like to think of the cat alone so long, with no Christmas dinner —

and her so daft about turkey, too.' So that's just what we did — and, do you know, I think we enjoyed ourselves as much as the cat did."

A graduate of the Montreal General Hospital, Miss Taylor did district nursing with the Victorian Order of Nurses and after receiving the Mildred Forbes Scholarship, proceeded to McGill University where she took a course in public health nursing.

In 1929, she organized and supervised a new V.O.N. district in Regina. After being there for two years, she returned to the V.O.N. in Montreal where she acted as supervisor, first of Rosemount District and later of the North End District where she remained until joining No. 14 Canadian General Hospital, R.C.A.M.C., in January, 1941.

After six months' service at Camp Borden, Miss Taylor went overseas with her unit in June, 1941, serving in England and in Italy. While in the latter country, she was attached to No. 11 British General Hospital in the capacity of matron and her name was mentioned in despatches.

In 1945, Miss Taylor joined the United Nations Relief and Rehabilitation Administration and went to Germany to work among the displaced persons. For 16 months she held the position of chief nurse of the United States zone in Germany.

On her return to Canada in 1948, she became matron of the displaced persons reception centre at St. Paul l'Ermite at the request of the Federal Department of Labor, Immigration Division. She held the post until last October.

Activities of Local Council Revealed At Annual Meeting

The annual meeting of the Local Council of Women of Montreal was held on Wednesday, March 15th, in the Allan Shatford Memorial Hall with the president, Miss Esther Kerry, presiding. The regular meeting was held at two o'clock. Hostesses for tea were from the Montreal Day Nursery.

Miss Kerry announced that when the constitution and by-laws were amended last November, the new title of Montreal Council of Women was adopted and this new name comes into use as of March 15.

"In 1893, when 34 societies federated to become the Local Council of Women of Montreal," she noted, their headquarters could be found in the square mile or two of territory between river and mountain. To-day the Council draws representation east, south, north and west, from all over Greater Montreal; through the affiliation of the Quebec Women's Institutes and of the two great societies of the Anglican and the

United Churches, it has members from the near and the far regions of the Province as well." Now the Council numbers 100 federated societies, representing 35,000 women.

Economics Report

Mrs. E. I. Holmes, chairman of the Economics and Taxation Committee reported that the committee had continued to press for amendments in the Quebec Succession Duties Act, which would increase exemption for widows and children. She stated that a member of the committee had made a comprehensive study of the Royal Commission on the Cost of Living and the findings are to be condensed and mimeographed for distribution to the federated societies and the highlights to be discussed in detail at future Council meetings.

"During the year members of various ethnic groups have been invited to attend meetings of the Council of Women and as a result one of the groups has already become federated," reported Mrs. G. F. W. Kuhring, Chairman of Migration.

The Trades, Business and Professions Committee continued the study of the older woman worker and is undertaking to review the changes recently introduced in the Unemployment Insurance Act and to study the graduation standards of business colleges. Miss F. M. Richards, chairman, reported also that to meet the request made by the National Chairman of Trades, Business and Professions, the committee is collecting information on what other countries are doing for

And women's clubs, she stressed, can do much toward the furthering of good will. The president spoke briefly of the founding of the Westmount Women's Club, in 1918, and she pointed out that, since that time, members have never failed to achieve the aims of the Club.

Representatives of sister organizations, seated at the head table, were introduced by Mrs. Jacques, and response to the introduction was made by Mrs. A. W. Schell, President of the Woman's Art Society.

The programme for the afternoon was provided by John Adaskin, of "Opportunity Knocks", who was introduced by Kenneth Withers, C.B.C. producer. The three artists participating were "discovered" by Mr. Adaskin, having appeared on his Canadian talent show.

Abramo Carfagini, tenor, sang "Una Furtiva Lagrima", from Donizetti's "L'Elisir d'Amore", and Marie Germaine Leblanc, coloratura soprano from Moncton, N.B., sang "The Wren" (Benedict). Mr. Carfagini and Miss Leblanc also sang a duet from Verdi's "Rigoletto". Mr. George Lapenson, violinist, chose as his selection "Danse Espagnole", by Sarasate. The accompanist was Mr. Jack Bristowe.

Mrs. J. C. McKean, first vice-president of the club, thanked the artists. Mrs. D. A. Whittaker was ticket chairman and convener for the event.

Variety Features New Bed Ensemble

A headboard and bedspread ensemble that can be switched about to make eight different combinations is the idea of Miss Yvonne Comptea, of Chippendale's, Chicago.

So many people seem to like this change - about quality, the ensemble has brought inquiries every day since it was introduced at the furniture market, Miss Comptea says.

One ensemble combined a small quaint print with a plain color faille. It was designed for a career girl's room. Dubonnet and a French blue were the predominant colors. The French Provincial headboard was double-faced - print-covered on one side, plain on the other. Spread, ruffles and bolster were completely reversible.

Sewing Tips That Pay Off For Amateur Seamstresses

Brand new smart-looking curtains and slipcovers make your home pretty as a picture! But perhaps you feel that you can't afford to have these made right now. Did you ever think of making them yourself on your sewing-machine? It's not as difficult as you may think, even if your sewing up till now has been rather limited. You could find out how to go about it from Mary Brooks Picken's new Singer Sewing book which is well on its way to become a best-seller for spring.

Mrs. Picken tells you what you need to know to start brightening up that dark corner of your living room. She says that taking proper measurements is one of the most important steps when making a slipcover. For instance, a studio couch with three pillows may require more material than you think. It actually takes 14 yards of plain 36" material, or nine yards of 50" material. And did you know that if you are putting a pleated flounce on an overstuffed chair, you must add at least an extra yard of material? If the material has a large flowered pattern, or other design that was matched, two yards is required.

Another point she stresses is that you should pin-fit slip cover sections to the chair or couch. Careful steps here will ensure a professional finish. When pin-fitting, place pins lengthwise instead of across the fabric for a correct fit.

Also mark fitting line in chalk on all sections and stitch on this line when seaming slip-cover. If you follow instructions step by step your efforts are not going to make your home look amateurish. The countless tricks you can learn to do with your sewing machine attachments will help you give your work that custom-made look. Once you master these things you'll find yourself improvising your own deft touches.

If you are interested in new drapes, this new sewing book tells you how to measure different types of windows, how to cut, stitch and finish your projects. It also gives you a number of suggested colour schemes.

If you get under way now, you'll be set for spring by the time it rolls around. After all you won't feel much like running up a set of slip-covers or drapes when you are all in from your housecleaning

Ancients Regarded Honey As A Divine Gift From the Gods

The ancients regarded honey as a divine gift from the gods to man. They believed it fell from the heavens like a dew and that the gods sent the bees to the blossoming meadows to gather the omnipotents' gift. It was considered so rare and valuable that honey was among the treasures exchanged by ancient rulers when they visited each other's kingdoms.

Up to the time of World War I Grecian honey gathered in the Hymetus Mountains around Athens, considered one of the world's finest, was reserved for members of the Russian Imperial Palaces. As far back as recorded history goes, countless kings and queens have supported their own apiaries.

Ancient Egyptians floated huge hive flotillas down the Nile to fields and forests where the finest of certain honey-yielding species blossomed the earliest and most profusely.

The bees themselves, whom the ancients regarded as the gods' special messengers, add an element of romance and wonder. Their hives are fantastic, well-ordered cities, inhabited by workers of unerring instinct and special skills for the part of the task each performs. Their "civilization" has been the wonder of naturalists since the beginning of time.

New Technicians

Dominion Textile Company Limited takes pleasure in presenting to its many friends in the province of Quebec a group of young men who, we feel sure, will go on making history in the textile industry in this province and whose future efforts will guarantee you, as users of Tex-made products, the continued high standard of quality to which you have become accustomed.

They are the company's graduates from the St. Hyacinthe Textile School, pictured above with G. B. Gordon, president of the company, as they received their diplomas recently.

These young men, on bursaries provided by the company, completed four years technical study at St. Hyacinthe — part of a new plan to develop our own textile technicians in Quebec rather than bring them in from other countries — and are now hard at work in various Dominion Textile plants.

We wish them luck and congratulate them.

In the photo above are, left to right; seated — Fernand Houde, Hubert Chatelois, G. B. Gordon, Gaston Lacasse, Jacques Perron. Standing — Germain Ledoux, Jacques Lamontagne, Laurent Vezina, Leo Martin, Marcel Gamache.

NDG's Newest Industry Is "Soft Water Service"

"Just say Culligan sounds like a good Irish name and March 17 being St. Patrick's Day may possibly have induced a two-page spread advertising Culligan Soft Water Service in the issue of Life Magazine out on that date," said Lt. Col. John A. Grant, 5154 Sherbrooke Street West, interviewed regarding N.D.G.'s newest industry, Culligan Soft Water Service, with its renovated premises at 2206 Beaconsfield Avenue.

A resident of Notre Dame de Grace for 30 years, Colonel Grant is President here, and the plant in its improved condition has an area of 3,000 square feet where processing water softener units for the Culligan Soft Water Service will be carried on.

"But the soft water service is no Irish blarney, just the same," Colonel Grant told The Monitor, "for it has over 2,000,000 satisfied users in the U.S.A. and is

Lt. Col. J. A. Grant

rapidly becoming a favorite service in Canada, where it was introduced two years ago." Col. Grant revealed the service is entirely new to Montreal and the plant at Beaconsfield Avenue is there to service West End of Montreal residents "with no equipment to buy, and no work for you."

Adequate office space at the plant will take care of customers and their needs regarding the new installation and new service to West End Montreal and it is anticipated some 30 employees will soon be fully occupied meeting the demand for soft water service. Similar plants throughout Canada and the U.S.A. are today servicing an untold multitude who have discovered that wherever water is used it can be used more efficiently and economically as soft water, whether for household or for industrial purposes — plus the luxury of soft water.

Softens Up Work

All N.D.G. womenfolk know that for an easier day's house-

hold work soft water is essential, as is the bubble bath at the end of a strenuous day.

The easiest and least expensive way to have soft water in the home is with the soft water service that is now available in approximately 3000 cities and towns, and many rural areas. With this Culligan Soft Water Service, a small tank is installed in your water lines. At regular intervals, a routeman exchanges the tank of exhausted zeolite for a tank of regenerated zeolite. This takes only a few seconds. You pay only a small monthly charge and that's all there is to it. The world's greatest bubble bath is then yours . . . any day and every day!

Advantages To User

The advantages of soft water are a constant source of pleasure and amazement to the user. Use soft water and you'll wash dishes in rich soapy suds that cut grease like a flash using only one-fourth to one-half as much soap. Clothes wash whiter and cleaner, too. Soft water bathing and shampooing are a real treat. You feel cleaner all over and your hair will have a new sparkle and lustre.

What's more, tea, coffee and many vegetables taste better when cooked in soft water, and Dad's razor blades last longer when he shaves with soft water and doesn't have to carve his way through a wall of limestone and soap curd.

Water having a hardness of three grains per gallon or more is generally considered to be hard enough to need softening. Most of the country, excepting the Pacific Northwest and a few parts of the Eastern Seaboard, has water that is hard.

Man has struggled with this hard water for years, yet it was only with the discovery of zeolite that a solution was found. Zeolite is a synthetic mineral that has a natural affinity for the calcium and magnesium salts that make water hard. As hard water flows through a bed of

Fossils' Club Presents Show April 18 to 21

This year's Fossils' Club show, slated for Victoria Hall for April 18 to 21 is shaping up as one of the best in the club's 25-year history, said Ed. Hearn, a past president, and the producer of this year's show, in an interview here today. Using the theme "It's About Time," the 1950 show promises to present something with a different twist.

Well sprinkled with the club's views on such diverse subjects as the Montreal Tramways, the political conditions of Montreal and many other items, this year's show is calculated to be one of the best yet.

Featured in the case will be many of the club's top performers including Bob Goodier, John Rice, Allan McIver and Max Ford.

Allan McIver, popular conductor and arranger and a member of the club will again direct the orchestra. All sets and scenery are under the supervision of Jeff Chappleau. Members of the club will again write the original music that is liberally spread throughout the show and which has become so popular over the years. In this regard, one of the club's tunes from last year's show "How Can I Prove that I Love You," has been recorded on London records.

All proceeds from the Fossils' Show will go towards the club's support of Camp Lewis to provide campships for underprivileged boys in the Laurentian Mountains.

zeolite, all hardness is removed and the water emerges soft and ready to really wash things clean in a sea of bubbles.

"This Culligan Soft Water Service is now yours" says Col. Grant to West End Montreal, "and St. Patrick's Day is just as good a day to announce it here as it is to draw it to attention to the millions of readers of Life magazine, and that's no blarney."

Local Cadets To Camp in June

Westmount boys who are members of Canada's Army Cadets, will go into camp for ten days at Val Cartier either in June or during July and August.

It is expected that of the 2,000 cadets in the Montreal area, 1,200 will attend the June camp, while the rest will take in the July and

August summer training courses at Valcartier.

According to an announcement by Army Headquarters in Ottawa, 8,000 cadets across the Dominion will attend summer camps from coast to coast on 10 day routine courses. In addition, another 2,900 will go under canvas at special trade-training centres.

Air Cadet League spokesmen stated that nothing definite had been decided as yet, on how many air-cadets would attend summer camp, but headquarters are working on the problem and an early announcement is looked for.

It is anticipated that summer training this year will again include exchange visits with the United States and the United Kingdom.

Navy League Headquarters also report that the matter of summer camps was under study and an early release may be expected.

Movie actors Franchot Tone and Burgess Meredith took time out during their recent visit to Montreal to "deliver the goods" at one of the 64 schools serviced by the Progress Clubs' Milk Fund, which supplies needy children of all denominations with free milk and vitamins. The actors and campaign chairman Leonard B. Morris are shown above passing out milk to the youngsters. The 1950 Milk Fund campaign is currently under way and lasts until April 15th.  ★★★★★★★★★★★★★★★★★★★★★★

HOLLYWOOD, March 16 — Since the CBC still lives in the old horse and buggy era, most Canadians haven't yet had a chance to sample television. But here in Hollywood, with seven video stations on the air daily, citizens have had an opportunity to discover for themselves how important a factor it is to become in their lives. Though video shows are still pretty awful, excepting a handful of network attractions, novelty of the medium is keeping folks at home and away from all but the best movies and most exciting sports events. There is expected to be a return swing of this pendulum later on, however.

But nobody knows yet what television's effect on radio will be.

Many folk in Hollywood who own television sets state they never listen to radio any more. A few tune in the Jack Benny hour or late evening programs of recorded classics, but otherwise these people seem momentarily lost to the broadcasters. Polls released almost daily predict radio will soon be on its last legs and network broadcasting won't be able to survive the television onslaught. I think this is nonsense.

If you want proof, ask the CBC. The government network could sell much more commercial time than it now does. NBC, MBS, ABC and CBS, the four United States webs, have only a few choice spots open. There are 2,000,000 television sets in America as compared with 60,000,000 radio receivers. True, this ratio will change, but radio will retain its peculiar niche.

I think the greatest proof of radio's powers of survival lie with the folk who have owned television sets for over a year. For them the novelty is gone. Housewives tune in radio during the day, because they can listen while they work. Husbands at night tune in sports events on television, but often the video set is monopolized by the kiddies at supper time. After they're off to bed, the set is turned off and stays off because it kills conversation and social mixing.

Of course, television is here to stay. But so are radio and movies. And all three should be better for the competition.

Repeat Showing Of "Toby Tyler"

"Mr. Stubbs", the real, live monkey who won the hearts of his young audience Saturday, will be on hand again this Saturday, when the Children's Theatre will repeat its performance of "Toby Tyler" at Victoria Hall. He does everything but talk, and his friendship with Toby, the young boy who runs away from home to join the circus, is part of a delightful story ably portrayed by a cast of 50. Toby is played by David Luck.

The popular "Singing Lady" appears between acts. The show is under the direction of Dorothy Davis and Violet Walters, and was adapted for stage by Claire Tree Major, whose tour of the United States with her acting company was most successful.

"Rope Of Sand" - "Everybody Does It", At The Monkland

Only a few years ago Burt Lancaster was virtually unknown. Today he is one of Hollywood's top star attractions, a successful motion picture producer in his own right, one of the nation's biggest vaudeville attractions and a circus star who makes more money than any circus star has ever made.

It was Producer Hal Wallis who discovered him in a New York stage flop, "A Sound of Hunting" and who brought him to Hollywood, engineering his career with brilliant foresight by lending him to Mark Hellinger for his first film, "The Killers." That film made Burt a star overnight and he went on from there under the Wallis banner with such hits as "I Walk Alone," "Desert Fury" and "Sorry, Wrong Number."

He will soon be seen in another Hal Wallis production, "Rope of Sand," which arrives Saturday at the Monkland Theatre with Burt heading an impressive star roster that includes Paul Henreid, Claude Rains, Peter Lorre and the luscious French newcomer, Corinne Calvet. A Paramount picture, "Rope of Sand" is set in the fascinating diamond fields of South Africa and is one of the most exciting adventures ever filmed.

Second Top Hit

Everybody will have a singing good time at the Monkland Theatre Saturday watching the fun and tongue-in-cheek humor come tumbling from the screen

throughout every minute of "Everybody Does It."

Paul Douglas sings, Linda Darnell hits operatic high notes and, believe it or not, Celeste Holm warbles off key. They all do it in "Everybody Does It" and the audience will shriek at this explosively funny picture.

It was inevitable that Linda and Paul should be teamed again after their success in "A Letter To Three Wives" and Twentieth Century-Fox found the right vehicle for them in this James M. Cain story about a frustrated soprano and a house-wrecking husband who turns into a smashing baritone.

Glamorous Gloria Swanson, starred in Paramount's "Sunset" hates physical exercise. But she loves to dance.

Kevin Kennedy Signs Robitaille Playing Form

Kevin Kennedy has signed to play second base for Robitaille Motors' seniors this season.

That was announced officially by Pat Patterson, manager of the Robitaille Snowdon Fastball League entry, this week.

Kennedy, manager of the disbanded Ascension nine for the past two years and before that a steady performer with St. Augustine's in the Snowdon League and Westmount Municipal circuit, became a free agent the minute the Ascension club was dissolved, Snowdon League regulations freeze players to their clubs from one season to the next, but managers become free agents at the end of each season or if their club is disbanded.

Reunion

In signing Kennedy, Robitaille will be reuniting the old Westmount Dodgers' smooth keystone combination of shortstop Jack McKissock and second baseman Kevin Kennedy. This duo consistently made the all star team in their days in the Westmount loop and Pat Patterson is expecting great things from them.

Steve Walker, who played second for Robitaille for the greater part of last season, will be shifted to the outfield. The diminutive Stephen has had some experience in pasture patrolling and manager Patterson is hoping that his speed afoot and power at the plate will combine to make him one of the Snowdon circuit's outstanding outfielders.

Facts and Figures

During regular schedule play last summer Kennedy batted 262, collecting 33 hits in 122 trips to the plate. Earlier in the season he went on a hitting spree that hoisted his average to .360. He clouted at a .285 clip in the Ascensionites' semi-final playoff round against Steinberg's.

Breaking down Kennedy's performance at the plate during the regular 1949 schedule, it is found that he hit two home runs, no triples, and nine doubles for a total of 10 runs batted in. The low runs batted in total is partially explained by the fact that Kevin, an RCAF veteran, led off the Ascension batting order for most of the season.

Keith Ham Individual Star In Local Triumph

There are still a few exhibition games to be played by the sportsmen of Westmount High. They are as follows:

Senior A hockey team vs Old Boys: 5:00 p.m. Monday, March 27, at the Forum.

Senior A hockey team vs Senior B hockey team some time soon!

GOOD NEWS

Imagine, a championship! Uh-huh! It's happened at last. The budding "skigulls" of Westmount High School have latched on to the Purple and White this year.

Up at the inter-school skiing

championship at St. Sauveur last weekend, Westmount boys copped first place in classes three and four (Senior A and Senior B) to nose out Lower Canada College, their nearest competitor, by two points.

Captain Keith Ham of the local team came off victorious in the slalom and cross-country with winning performances by Roger Hewson, John Laffoley, Fraser Lindsay, Morgan Earl, Mike Fish, Louis Batshaw and a few others. Earlier in the season Mike Cromble and John Laffoley made good showings, winning regional meets in and around the city.

Pucksters Tie MHS

On Monday at the Forum, the Senior A hockey squad, coached by John Meagher, played their last game of the season with Montreal High and tied them 3-3, thus probably setting a record this year for having the most tie games. They have five in all.

After the big game with McGee and Catholic High battling it out for the top spot (which McGee won 4-2 by the way) the Westmount effort looked pretty tame as Bob Forrest notched his second real hat trick of the year on assists by Dave MacDougall and John Farrabee.

This year's Senior A team consisted of: Johnny Ferrabee, Chuck Johnson, Dave MacDougall, Tom Potter, Jim Brown, and Bill MacCoubrey, forwards; Eric Smart, Don Reece, Bill Meagher, and Mike Palmer, defence; John Swaine, goaler.

Lose to Chambly

The last game of the season for the D.N. McRae-coached Senior B hockey club was played on Tuesday with Chambly County, with the Chamblians winning 9-4. Goals for WHS were scored by Hofman, Sherlock, Cope and Lough on assists by Cope and Sherlock.

Members of the Senior B club were: Mike Barnard, Fred Hofman, Jan Sandzelius, Don Cope, "Beebee" Brown, Jim Beaton, Bobby Sherlock, and Jamie Lough, forwards; Don Mercer, Carter Powis, Dudley Milton, and John Petrey, defence; Colin Irving was goaler. The Senior B boys ended up in fifth place.

Cagers Lose to MHS

In Westmount's final Senior A basketball tussle last week, they lost a hard-fought battle to first-place Montreal High School by a 50-37 score. Mainstay Derek Hannaford led the point-getters with 17 while John Reddow was next with eight.

This team was coached by McGillian Ron Sharpe and was made up of the following players; Derek Hannaford, Jim Lowe, John Vipond, Andy Cote, John Reddow, and Ronnie Lewis, forwards; Doug Reed, John Smith, Bill Creamer, and John Bishop, guards; John Noell and Mike Crombie, utility men.

The Better Half

The "old girls" of W.H.S. paid the school a visit a while back and, using the nucleus of last year's championship hoopla sextet, trounced the present team by a 14-7 score.

"Old Girls" basket-getters were Barbara Holden (5), Beverley

Lewis; Ski Patrol and clerks of the course, Dr. Errol B. Clift, and John Hyland.

Walker (6), and Chuckle Christensen (2). For the school: Frances Williams with three and Shirley MacNiell with two.

The girls' Senior B team ended up in second place by beating Girls' High 10-7.

The line-up of the Senior A and B teams, coached by gym instructor Miss MacMillan, was: Frances Williams, Nancy LeRossignol, Barbara Corbett, Carol Reynolds, Iatsy Flanagan, Mary Jean Morgan, and Daphne Atchison for the A's; and Carol Fischel, Kay Teare, Shirley MacNiell, Ann Pow, Janet Dodge and Dianne Lemieux for the B's.

W.H.S. Old Boys Challenge School To Puck Battle

On Tuesday morning a very goading and supposedly infuriating letter was handed the boys of Westmount High as Gordie MacNeil, captain of the WHS Old Boys' Hockey squad, put forth in no uncertain terms a challenge to the Senior A pucksters which cannot be taken too lightly. As the missive itself cannot be published due to space limitations, I'll relate four of the main points of the challenge:

1. Do you (the school team) want to go through with the game or do you prefer to default, thereby conceding the inevitable?
2. If you decide to play it out, will you guarantee the appearance of your team?
3. Do we (the Old Boys) need to line up more than five or six "old crocks," or will you provide enough opposition for us to call on a "few spares"?
4. Since the school never seems to win (the record is, one tied and two lost by the school) the Russ McConnell Memorial Trophy, we are considering having it engraved before the game with our name on it. O.K.?"

24-hour Ultimatum

If the school did not answer in 24 hours, the letter continued, the Old Boys would take it for granted that the Senior A sextet had been shamed into appearing. An alternative to playing the game was provided in a "tea dance."

The Russ McConnell Memorial Trophy was conceived five years ago in memory of one of Westmount High's all time greats in hockey and football, Russ McConnell, who was lost at sea while serving in the Canadian Navy in World War II. The trophy is presented each year to the team winning the annual exhibition game between the school and the Old Boys.

St. Leo's Meet Catholic High In Senior B Finals

St. Leo's Senior B Hockey Squad edged their way into the charmed circle last Tuesday at St. Laurent Arena, when they were held to a two all draw with Strathcona Academy. The win clinched second place and the right to engage first place Catholic High Club, in a two game total goal series for Montreal Senior B School Hockey honors.

The local crew have stalled off somewhat in their last two games and have failed to show the form that have carried them through to many impressive wins. Last Saturday St. Thomas held on to earn a draw with the local pucksters.

Navy to Meet Shawinigan Here Saturday

Navy's intermediate cagers hope to add the provincial championship to their city title honours this Saturday evening. The tars meet Shawinigan Tech at Sir Arthur Currie in the second-game of their two-game, total point series for the provincial title.

The Montrealers, playing on a miniature gym, took the first game at Shawinigan last Saturday by a 52-40 count. Their contest ended a 14-game win streak which the power city boys had racked up, including victories over Quebec City and Granby along the playoff trail.

The sailor boys have plenty of respect for Shawinigan and are not likely to enter this week's game with overconfidence. They claim that they had to go all out to cop the duke last week and report that last season this same Shawinigan team trounced Nationale by 40 points.

Prefacing the Navy-Shawinigan game will be the intermediate women's provincial final tilt between Montreal Meteors and Windsor Mills. This game is called for 8.00 o'clock with the males slated to take the floor immediately afterwards.

The apparent weakness in the past few games has been the inability of the forwards to finish their plays with any degree of success once they manoeuvre inside their opponents blue line. No doubt this can be chalked up to the inexperience of the young forwards, who freeze up when in a good scoring position. A few of the boys up front could help the situation if they could drive a little harder and forget trying to appear stylish around the goals. Possibly some of the boys have been seeing too many games at the Forum and are trying to imitate matured players instead of developing their own natural style.

At any rate the teams record shows very little necessity for apology, as they have experienced a very successful season so far and are confident that they stand a fifty fifty chance of taking Catholic High in the play off.

The first game of this two game total series will take place tomorrow morning at Lachine Arena, with the face-off slated for 10.00 a.m. The second game in all probability will be held early next week at the Forum.

Sport Shorts

Two of the school's finest athletes are the Smart boys, Buster and Kevin. On the brawny shoulders of Buster has in recent games, rested the responsibility of coming through with timely goals that spell the margin of victory or defeat for the Academy Senior B Hockey Club. Kevin displays his wares on the basketball floor, and his all around fine performance was the highlight in the Saints last game of the season against Chambly High.

Again a fade-out in the second half erased any chance of victory as the Academy rung the curtain down on the Basketball front with a 31 to 21 defeat. A little more condition of the kind Kevin showed, might of well put a different complexion on those second half fade-outs, which was the only sour note on an otherwise highly enjoyable basketball season.

With Old Man winter sticking around a little late, it will probably set the Annual Boxing Show back a week. The likely date is Friday May 12th.

A new Sports magazine is now in the process of being published. It will feature all the school's athletic activities and will be distributed at the Boxing Show.

Putters' Club

With a good turnout now because of the fine weather, the City of Westmount Putters Social Club enjoyed a great evening of games in the Oak Room of the Victoria Hall.

The activity afforded prizes for practically all the participants and a hilarious time was evidenced. Next week an evening of court whist is planned and a good turnout is anticipated.

George Cairns, president, stated that the following week a quiz program, similar to Share the Wealth, is being planned where everyone has an opportunity of getting a prize and also a chance at the big grand prize of the night.

With the coming of the warmer weather, outdoor programs are just around the corner and members are asked to take advantage of the few indoor events left.

St. Pats Parade Set For Sunday

The executive of the United Irish Societies has announced plans for the annual St. Patrick's parade which will be held on Sunday.

The parade will get under way at 3.00 p.m., the starting point being Fort and Dorchester streets.

Edward O'Flaherty, grand marshal of the year's parade, told The Examiner that every effort had been taken to make the parade a success.

Organization director William C. Hickey, who is handling his 24th parade, said that every precaution had been taken to ensure a prompt start.

Any decision to cancel the annual march because of weather conditions, will remain with the executive, who would make a public announcement in this event.

Westmounters, who usually turn out in large numbers to cheer the h'boys as they pass in review, bedecked with shamrocks and the traditional top hat, should stick close to their radio on Sunday if the weather is inclined to be inclement.

TOPSY TURVY

For a key scene involving a railway wreck in Paramount's "No Man of Her Own," Barbara Stanwyck and Phyllis Thaxter were locked into a special trick railroad coach which was then spun upside down by a giant mechanism as the cameras photographed the shot. Audiences will get the effect of being inside the train when it is wrecked.

Westmount High Wins Ski Event

Westmount High School Senior classes three and four won the Interscholastic Skiing Championships held at St. Sauveur over the week-end. The Westmounters outpointed Lower Canada College to gain their only championship of the entire year. It is, however, the fifth consecutive year that the Westmount High Senior squad have captured the skiing title, which establishes a record for the event and the school. More details on sports page.

Richard holds a two-goal edge over Abel in scoring the most goals. Richard's 36 markers and Abel's 34 places them well ahead of all other players in scoring goals. Ted Lindsay leads in setting up plays. He has assisted in 46 goals.

JOHNNY HOTFOOT SAYS:

"This is important to COKE USERS"

One thing is essential when heating with coke—**HEAP THE FIREPOT FULL!**

Lasalle Coke—clean and light—needs just a little different treatment from unrefined fuels, but no extra attention. It is a little bulkier than coal and must be fired "deeper" to provide the same weight of fuel in the firebox for a long-lasting fire. If you keep a "deep" fire, draft regulation is simplified and you will find coke lasts at least as long, ton for ton, as other solid fuels. Follow this method and you are sure of:

- * Steady and abundant heat.
- * Ease of handling and control.
- * Economy of operation.

If you have the slightest difficulty, take advantage of the Lasalle Customer-Service — it is absolutely free. Whether you obtain coke from your dealer or direct, you are entitled to consultation with one of our experts on your heating problem. He will show you how simple it is to have heating satisfaction with this uniform, modern fuel.

A phone call to your dealer or the Lasalle Service Department, MA. 6221, will bring a service man promptly to your door, at no cost to you.

LASALLE COKE

"Warmth without waste"

We repeat:
Heap firepot full
Shake less
Use very little draft.
A simple instruction pamphlet is yours for the asking.

Westm't Hospital Stops Hiccoughs

The Herbert Reddy Memorial Hospital, Westmount, made the headlines this week with the announcement that Olive McKelvey, the 22-year-old Cherry River, Que., bank clerk girl, had again been relieved of an abnormally-long spell of hiccoughing by an injection of novocaine.

The injection of the drug paralyzed the phrenic nerve, thus relieving the spasms at their source.

Dr. R. G. B. Gilbert, who administered the injection of novocaine at the request of Dr. S. Jamieson, said that he did not know how long the patient would be resting.

The actual cause of the recurring hiccoughs was not yet known.

The treatment received by Miss McKelvey at the Herbert Reddy Hospital relieved her of an uninterrupted four day spell of hiccoughing which started in Florida where she was resting, following recommendation last January 15 by the family doctor.

On that date a novocaine injection had brought an end to an attack which lasted for 15 days with hiccoughing occurring at the rate of 15-20 a minute.
