40,000 IDLE MEN IN PARIS.

The Great Strike, Coupled With the Dreyfus Agitation, May Cause Grave Events---Troops Confront the Workless Throngs.

PARIS, October 12.—There are signs that the great strike is on the verge of collapse, and everybody in political circles hopes that it is. The strikers are much chagrined at the refusal of all the carpenters to join their ranks and begin to believe that the plan of a general strike of all trades cannot be realized. But the leaders are as confident as ever and persist in declaring a great social war.

There are at this moment on strike 8,000 navvies, 2,000 labourers, 500 carters, 1,000 wharfingers, 5,000 locksmiths, 5,000 masons, 2,500 stonecutters, 3,500 house painters, 2,500 plumbers, 2,500 carpenters, (not included in the general union which refused to strike), 2,000 mechanics and 5,500 cabinet makers. In all, some forty thousand strong men are idle in Paris to-day.

There is a growing spirit of opposition among the strikers. They resent the abstention of any department of trade from their strike. Where persuasion has failed to induce hesitating workmen to join them a mild sort of violence has been tried. Some stonecutters working upon some sculpture that will make the Champs Elysees Hotel a remarkably fine structure were disagreeably surprised to find a group of strikers calmly sawing through the tall poles supporting the scaffolding on which they were working. Naturally enough, they hastened to get down to solid earth as quickly as possible, where they were coolly informed they must put on their coats and join the strikers in the name of the solidarity of labour.

TROOPS BY THE THOUSAND.

This is the kind of coercion the Government has determined to stop, and this is why so many troops are now quartered in Paris. Every heap of stones hides a sentry, and miniature camps, formed of half a dozen pioupious, with stacked rifles, add a picturesques touch of colour to the streets. All along the Cours de la Reine, the Champ de Mars and Champ Elysees groups of cuirassiers may be seen riding about slowly, leading their mounts by bridle and smoking to while away the time.

It must be admitted that the soldiers cause no fear in the people. Even the strikers hail them with cries of "Vive l'armee!"

Every family has brothers or sons in the army. Consequently there is a deep and sincere affection linking the people and military together. It is, indeed, the strength of this bond that makes some of those who know France and the French best, and who look beneath the surface of things, fear a Dreyfus uprising just at this time. Suppose the Cour de Cassation should reject the demand for revision, it is pretty safe to argue that matters would very quickly calm down. It is the anti-revisionist party that is actively militant. Most of those who favour a new trial for the former Captain are convinced of his guilt, but think he should be retried in order to calm all agitation. Of course the revisionists—that is to say, those who profess loudly their belief in Dreyfus' innocence—are ready to take any steps or go to any lengths to gain their point. Still, if the Court of Appeals should decide there are no good grounds for reopening the case, the entire nation would swing into line in defence of the chose jugee. There might be sporadic attempts made among the Dreyfusists to reopen the matter, but they would surely prove fruitless, while, on the other hand, the satisfaction of victory would make the anti-Dreyfusists rally on the side of peace, law and order. Should, however, the Cour de Cassation decide in a contrary sense and Dreyfus be brought to France again, the consequence probably would be very serious.

A CRITICAL SITUATION.

This, then, is the situation. More than forty thousand workmen are idle, and their ranks are constantly increasing. To control them there is an army, which has not only sympathy for the people, but has a secret grievance—namely, the attacks made upon it by the Dreyfusists. What will be the result if the people and army should come in conflict? Paris—in fact, France—seems to be on the edge of a volcano.

Caran d'Ache's cartoon in the Figaro has sinister weight. It represents the blind Republic turning into the twenty-eighth year of her existence. Awaiting her in the road are Medusa-headed hag holding brief bags of the Dreyfus affair, a sturdy workman standing idle with folded arms, Britannia with a trident and shield bearing the motto "Fashoda;" the Duc d'Orleans and the Prince Louis Napoleon, both ready to enter into possession of France; a scowling Arab and a long perspective of other enemies. And right into their midst is walking the blind Phrygian bonneted figure. Philosophy here joins hands with caricature. Is the French Republic really at a turning point in her history?

CUBA'S DEBT SPAIN'S BURDEN.

The Madrid Ministers Seek to Force the United States to Assume the Financial Load---Spain Must Soon Evacuate Cuba.

PARIS, October 12.—The sitting yesterday of the joint peace commission of the United States and Spain were devoted, according to the Gaulois, to an examination of the solution which it is possible to give to two questions in the protocol. The Philippine question, the Gaulois adds, was discussed incidentally, the United States commissioners seeking to impose a system of compensation for claims connected with the entire group, by assuming the debt, providing Spain guaranteed the Cuban debt.

The Spaniards, it further appears, wish the United States to assume the Cuban debt and to hand over to Spain all the war material in Cuba and Porto Rico. The discussion, still according to the Gaulois, was very animated. Judge Day, the president of the American commission, and Senor Montero Rios, the president of the Spanish commission, have received precise instructions from their respective Governments. The Americans consider that they cannot discuss the principles forming the base of the protocol, to which the Spaniards reply that the protocol was signed at a critical moment and under so pressing a necessity that it cannot be considered as expressing the sovereign will of a free nation.

OCCUPATION OF CUBA.

WASHINGTON, D. C., October 12.—The American commissioners have notified the Spanish authorities in Havana that the United States will assume entire control, military and governmental, of the Island of Cuba on December 1. The same control will be exercised in Porto Rico on October 18.—On the other hand, a despatch from Madrid says that the Spanish Government announces its intention to maintain a strong force of troops in Cuba until the treaty of peace with the United States is definitely signed. To this the officials of the War Department give answer that the instructions given to the American military commission in Havana to take possession of the island on December 1, irrespective of the presence or absence of the Spanish officials will be rigorously adhered to. The Spanish troops may stay in Cuba for a time after that date, if evacuation is not complete, but they will no longer be the masters of the island, and United States officials will administer all of its affairs.

MANITOBA'S CROP SPOILED

Wet Weather Has Ruined One-Quarter of This Year's Wheat Yield.

(Special to the Star.)

WINNIPEG, Man., October 12.—It is estimated that one-fourth of the wheat crop of Manitoba has been ruined by the prolonged wet weather, and some men say that estimate is very small.

Threshing is at a standstill, and dealers are taking their second buyers off the market, owing to the paucity of deliveries.

The weather is now clear and suitable for the present condition of the outstanding grain, and if it continues a fortnight the balance of the crop should be saved.

Prices have changed considerably during the past few days. Seventy-one cents and over is now bid at Fort William. Dealers who have good wheat are inclined to hold.

CHINA'S NEW EMPEROR.

The Dowager Empress Selects a Figurehead Ruler.

LONDON, Oct., 12.—The Empress Dowager of China and the Imperial clan, according to a special despatch from Pekin, have adopted as the new Emperor, a son of the late Emperor Tmng-Chi, who will shortly be proclaimed

A special despatch from Shanghai says: "Early this morning (Tuesday), a United States consular officer, with thirty armed members of the recently discharged Corean bodyguard, invaded the foreign bureau, with the intention of rescuing Huang, former Chinese consul at Singapore and lately minister designate of China to Japan, who was arrested on Monday by order of the Empress Dowager in connection with the reform movements. Huang, however, refused to go, and the party retired crestfallen."

CATHOLIC BISHOPS.

The Annual Conference of the American Prelates Held at Washington.

WASHINGTON, D. C., October 12.—The archbishops of the Roman Catholic Church, constituting at their annual meeting, the chief governing body of the Church in America, began to assemble at the Catholic University on Tuesday, preparatory to their opening session to-day. As a preliminary to this, the board of directors of the university, made up of archbishops and bishops, began their annual meeting. The two bodies, one governing the university, and the other the Church at large, are closely allied, and their meetings are practically merged. There was no formality, as the distinguished prelates came together for the board meeting. The meeting was in the board room at McMahon Hall, and, as usual, was behind closed doors. Those present were Cardinal Gibbons, president of the board; Archbishops Williams, of Boston; Corrigan, of New York; Ryan, of Philadelphia; Keane, the American representative at Rome; Bishops Spalding, of Peoria; Maes, of Covington; Folihe, of Detroit; Hartman, of Cleveland; Monsigneur Connarty, rector of the university, and Treasurer Waggaman, of Washington. Archbishops Chapelle, of New Orleans; Ireland, of St. Paul; Riordan, of California, and Bishop Farley, of New York, were absent.

CHRISTIAN ENDEAVOURERS.

The Ontario Convention Opened at Hamilton, Ont.

HAMILTON, Ont., October 12.—Over five hundred delegates have arrived to attend the convention of the Young People's Society of Christian Endeavour of Ontario, and many more are expected. The average arrangements for receiving the delegates and billeting them are most perfect. The drill hall has been transformed into a bower of beauty for the occasion, being beautifully decorated with banners, flags, evergreens and suitable mottos. The convention proper opened yesterday afternoon at 2 o'clock. Dr. Fraser, of Knox Church, Hamilton, led the devotional exercises, after which Rev. Robert Johnson, of London, preached the convention sermon. The drill hall is seated to provide for 4,000 people. Rev. A. F. MacGregor responded to the addresses of welcome in a few chosen words.

The evening service opened with an orchestral selection, followed by a beautiful chorus, "And the Glory of the Lord," from the "Messiah." The Endeavourers then received a fine address from Elliott S. Rowe, of Toronto, on Christian Sociology. He dealt very eloquently with the subject of labour from a Christian standpoint. The Minister of Education, Hon. George W. Ross, followed with a splendid address on Christian Citizenship. "Though many societies have arisen during the past century," he said, "the societies that will be remembered the longest as the best organizations were those that have arisen out of the church." He dealt at some length with the preparation of the children to take the places that are occupied by the present generation.

MANSLAUGHTER, NOT MURDER.

VICTORIA, B. C., October 12.—After a trial lasting a week, Belle Adams, a white woman, accused of murdering her mulatto paramour, Charles Kincard, was found guilty of manslaughter, with a strong recommendation to mercy. The jury was out nearly six hours considering the verdict.

TERRORISM IN DAWSON.

John D. McGillivray, of Dawson City, correspondent of the New York Herald, writes that paper:

"No one of the injured dares to make formal charges for fear of jeopardizing his rights. Yet if a fair parliamentary commission were sent in here, many willing witnesses would come forward. There has been gathered enough evidence by newspaper correspondents to make out strong cases against several officials, and this would doubtless be placed in its hands."

MINISTERS IN OTTAWA.

An Important Cabinet Council to be Held—The Ocean Mail Contract.

(Special to the Star.)

OTTAWA, October 12.—It is not probable that Sir Wilfrid Laurier will be able to attend at Washington on November 1, as his presence will be required here to receive the new Governor-General, so far it has not been decided where His Excellency, the Earl of Minto will be sworn in. Lord Stanley was the last Governor-General to be sworn in at Ottawa. When the ceremony takes place here, it is the occasion of one of the prettiest and most picturesque State functions that Canada ever sees.

The next Cabinet meeting will be an important one, as the Premier and a large number of his colleagues will be present. Amongst the business to be attended to is the letting of the contract for the winter mail service. Tenders for this service were opened in Quebec last week. They call for a six months' arrangement, covering the winter season; this to be followed by a two years' contract, commencing on the 1st of May next. There is hot competition between the rival steamship companies for the securing of the contract. Mr. H. A. Allan and Mr. Henry Allan, representing the Allan Steamship Company, were in the city yesterday in connection with the matter.

The members of the Quebec Conference will also render an account of the position there. It is possible that the date of the bye-elections may be fixed.

MRS. ROMAINE DEAD.

OTTAWA, October 12. — Mrs. Romaine, widow of the late Robert Romaine, one time publisher of the Peterborough Review, and later head of the Government Stationery Department, at Ottawa, died rather suddenly last evening. Mrs. Romaine, who was much respected by her friends and acquaintances here, was the only surviving sister of the late Hon. Thomas White, and of Mr. Richard White, of Montreal.

MAXWELL, Ont.—Mrs. Ward, wife of Rev. J. Ward, Methodist minister, was buried in Flesherton, yesterday. She died from consumption.

Plays and Players

Wallack's success, "A Guilty Mother," will soon visit the Queen's Theatre.

Albert Chevalier has returned to the dramatic stage in London in "The Land of Nod," which he wrote. It was not wholly successful, but was designed to introduce Mr. Chevalier's specialties, and is said to have accomplished that so insistently that the audience grew weary.

The old favourite, "Natural Gas," dressed in new clothes and abounding in new business, will be presented at the Queen's during the week of October 24th. Eddie Girard, in his former successful character, Whirlem O'Rourke, is the central figure of the company.

Commencing to-morrow for the balance of the week, Katherine Rober and the Lillian Kennedy Company will present at the Queen's Theatre the sensational comedy, "She Couldn't Marry Three." Miss Rober has established herself a favourite, and crowded houses should greet her during the three remaining days of her engagement.

October 24th will see the first performance in Montreal of Klaw and Erlanger's extravaganza, "Jack and the Beanstalk." It will be produced at the Academy of Music.

For the week of October 24th, the attraction at the Royal will be the Reilly and Woods aggregation of 37 vaudeville artists.

Robert Taber has won the only distinction that two London failures could afford, although in each instance he was associated with the best names of the English stage. In "Peter the Great," with Irving, he made an impression where every one else failed. Now in Forbes-Robertson's production of "Macbeth," which has not brought distinction to Robertson or to Mrs. Patrick Campbell, the honours go to Taber.

Mrs. Kendal appears to have returned most auspiciously to the London stage in "The Elder Miss Blossom," in which she plays a spinster who thinks that she is loved, but discovers that it is her younger sister. The play was written for the Kendals by two unknown authors, and is light, but agreeable, and the tributes to Mrs. Kendal's acting have been enthusiastic. Her part is generally comic, with a touch of pathos.

A New York paper is responsible for this item: "The Mordaunt and Brock Stock Company, which has been on a brief tour, returns to the Columbus, in Harlem, and makes a bold experiment with 'Leah.' That drama from the German has been reconstructed by the Rev. Oliver J. Booth, of Montreal. In this version the Jewess does not die, but becomes the happy wife of the Christian. Una Abell will portray the heroine in this new aspect, Edgar Davenport the hero, and Mr. Mordaunt is in the cast."

Have you ever noticed that the front row of players in a theatre orchestra is composed largely of bald-headed men? This fact has been investigated in England recently, and a number of the musical and scientific papers have discussed the singular fact. It has been found that the musicians who play wind instruments and who sit on the right of the leader suffer from baldness, while the violinists on the other side, as a rule, have long hair. An investigation has disclosed the fact that the constant use of most wind instruments produces an exaggerated form of baldness.

George Alexander will soon produce "A Man of Forty," written for him by Walter Frith. The story starts with the hypothesis that a wealthy member of Parliament is engaged to marry a woman whose husband is supposed to have died in Africa, although certain proof is lacking. But this husband is alive, and engaged to the daughter of the man who is about to marry the wife. Julie Opp, who has become the leading actress of the company, will be the mother, and Fay Davis the daughter. The play concludes happily in spite of the unpleasant complication with which it begins.

"The Girl from Paris" will be at the Academy of Music next week. This is one of the most successful Rice productions, and has been doing a good business in every city that it has visited. It is a musical comedy by Ivan Caryll and George Dance, Americanized by Edward Rice, whose company presents it. It has a merry theme, treating on the wiles of a gay girl from Paris, who captivates with her delightful manner and charms everybody among the male sex with whom she comes in contact. She is the typical French coquette, and the complications she causes for her many admirers and the means they resort to in trying to relieve themselves from their embarrassments makes the vehicle upon which the happenings are based, while the situations and incidents abound with the merriest kind of humour.

As the time draws near for the opening of Her Majesty's Theatre, which is bound to be the most important event of the season in the annals of Montreal theatricals, from the fact that no new ground floor theatre has been built in our city for twenty-five years, and also owing to its being one of the finest constructed, most beautiful and safest theatres on the American continent, enquiries are pouring in on all sides, as to the opening play and the sale of seats. "The Ballet Girl," which has been selected to open Her Majesty's, has been winning golden opinions from the press of the different cities in which it has been playing, particularly that critical town of Boston, whose press has been unanimous in agreeing on the "Ballet Girl's" drawing powers, and the popular enthusiasm it arouses. Mr. Frank Murphy intimates that the scale of prices for an event which calls forth double and treble the ordinary prices all over the continent, will be made to suit every one. "The Ballet Girl" runs at Her Majesty's for the entire week, with matinees, so that every one will have a chance to see this splendid production.

Olga Nethersole came to this country in 1894, says Munsey's Magazine, to escape from the success she had made in England playing adventuress parts. She won New York with her Camille, and after that could play what she liked—sure of an audience. For in this respect a woman has the advantage over a man—let her make a hit, and her personality is a drawing card in itself. How she will look and what she will wear are potent agencies in attracting audiences, whereas, with the man, they fail to enter into the case. But Miss Nethersole has not been obliged to depend upon extraneous aids to permanency of popularity. She possesses the artistic temperament, is a creature of moods, and consequently abhors ruts. This imparts to her acting the freshness, the virility, which constitutes magnetism. Rumours of Miss Nethersoles marriage, rife at this period, appear to have been without foundation. She is to return to this country during the present autumn, probably with "The Termagant," the new play written for her by Louis N. Parker and Murray Carson, authors of "Rosemary," and which she uses to inaugurate her tenancy of Mr. Tree's new London theatre, Her Majesty's

Richard Mansfield is accepted readily in "Cyrano de Bergerac," and not because his own performance approaches that of Coquelin, says the New York Sun, but because it indicates clearly about all that is in the singular character created by the author. The entire reproduction of the drama here in English is adequate to a similiarly clear exposition of the French original. A German version has not fared so well in Berlin, although the translation was made by Ludwig Fulda, a skilled dramatist and facile poet. The actor of Cyrano was Kainz, who had expressed his fear of failure in the leading role, and perhaps gave a poor idea of the character. He is an artist of splendid intelligence, imagination and fire, but the swashbuckler is the last personage in the world that he is qualified by temperament or physique to represent. He is slight and delicate, and the nasal disguise doubtless concealed his facial expression, one of the special merits of his art. But the nose was not greatly accentuated in Berlin. Indeed, one of the critics complained that what had been a play of the nose in Paris had been made by Fulda and Kainz a play of the heart. The speeches prohibited by the censor had the effect of making that functionary seem even more ridiculous than usual.

A despatch from London, says: "Mr. Anthony Hope's romantic drama, 'The Adventure of Lady Ursula,' now in course of production at the Lyceum Theatre, New York, under the management of Mr. Daniel Frohman was successfully produced last evening, under the management of Mr. Charles Frohman, at the Duke of York's Theatre. The play was enthusiasticaly received, Miss Evelyn Millar and Mr. Herbert Warrin, who have the principal parts, being frequently recalled. It is prettily and artistically mounted." Of the same production at the Lyceum Theatre, the New York "Musical Age," says: "The 'Adventure of Lady Ursula,' by Anthony Hope, is bound to be considered a distinct part of dramatic literature, and the highest kind of dramtic literature, too, mind you. It approaches in real merit to no less a play than Goldsmith's 'She Stoops to Conquer.' Possibly the quality of humour is not so well sustained in 'Lady Ursula' as in Goldsmith's immortal play, but what it loses in this point it gains in the thrilling dramtic interest, in the sustained action, which is firmly maintained and never flags from the first act to the last. The scene of the duel between Lady Ursula and Sir George Sylvester is not equalled in force of climax by anything we have seen in New York during the past five years. Not the least charm of the play was the character and quality of the music made by Mr. Franko and his orchestra. This was well up to the high average maintained in every feature of the Lyceum Theatre."

The wonderful success of Miss Margaret Anglin, of Toronto, with Richard Mansfield in "Cyrano de Bergeres" is gratifying to all Canadians. Of her the New York Sun says: "It rarely happens that an actress scores a success so unostentatiously as Miss Margaret Anglin. All that had been previouly known of her were the facts that she was a Canadian and that last season, while understudy in the Sothern Company, she played Lady Ursula in Hope's play with such amazing success that it compelled Miss Virginia Harned to recover from a somewhat serious illness and resume her role after missing one performance. When Miss Anglin first appeared as Roxane last night a sigh went up from all parts of the house: 'Here's another blonde and simpering ingenue.' But as soon as she spoke Miss Anglin arrested attention. Her voice was charming, and she moved about the stage with an ease which showed that, however short her training may have been, she was in every sense an experienced actress. As the play progressed this young girl, who has neither beauty nor a fine stage presence to assist her, fairly captivated the audience by the grace and tenderness with which she invested a most thankless and trying role."

According to an authoritative Berlin writer, the American stage was never supported liberally until about twenty-five years ago, as the customs and tastes of this country were little inclined towards the drama. Americans are too devoted to business to care much for the stage after they have finished the work of the day. France is said by this writer to have provided more plays to this country, described as the home of literary freebootery, than any other nation, as their farcical elements exaggerated appeal strongly to the people. In this they are aided by the grotesqueness of the actors, who strive for the crudest comic effects. Of the plays most popular here, "Rip Van Winkle" has been played 5,000 times. Joseph Jefferson, described as the first actor who ever travelled from one city to another, is said to have made $3,000,000, of which a part came from the $5,160,000 that this play has drawn. The "Old Homestead," according to this account, has been acted 5,000 times, and drawn $4,750,000. "The Silver King," with 4,500 performances, drew $3,000,000. The four newest and most popular plays at present are said to be "Mavourneen," "The Power of the Press," "Mme. Sans Gene," and "The Senator," while "Erminie" is described as the work of an American named Adonson, who knew the taste of Americans, and adapted "Robert Macaire" to suit it, with such success that the piece had 4,500 performances and earned $3,000,000. Kate Claxton is said to have followed that example, and adapted a play called "The Two Orphans," in which she acted 6,000 times, with receipts amounting to more than $2,500,000. "Boot" and Barrett received $600,000 in one season. There are said to be very few of the successful actors among scores that have failed. "Adaption" is described as the American synonym for theft.

For the week of October 17 the farcical comedy "The Nancy Hanks," which has been a standard attraction in the United States or several seasons, will be presented at the Queen's Theatre, with the original cast, headed by the author himself, Frank Hannehill, jr., and a company of exceptional merit. The piece has a plot that is interesting, referring to a "salted" gold mine that a French marquis who comes to America has been induced to invest in. It turns out that the mine is all right after all, and everything ends happily. In the company are some of the best people in farcical comedy. Interspersed through the play are some of the latest song successes, including: "I'm a 'Spectable Cullud Married Lady." There are some twenty-two musical numbers in all.

The Theatre Royal will have a novelty next week. Ernest Roeber, the wrestling champion of the world, will give exhibitions of Graeco-Roman wrestling with Leo Pardello. The vaudeville, comprising the Roeber and Crane Brothers, judging from the roster, should make a great performance. The list is headed by Le Clair and Leslie, two good travesty artists. They will appear in a "Society Star." Alf. Grant will appear in his specialty as introduced by him in Hoyt's "Trip to Chinatown," Ward and Vokes and other farce comedy companies. Crane Bros., the "Mud Town Rubes," will introduce a stage character originated by themselves.

DEPARTMENTS' CONFLICT.

The St. Lawrence Channel is Governed by Two.

SITUATION COMMENTED ON BY HARBOUR COMMISSIONERS.

At the meeting of the Harbour Board yesterday afternoon, the conflicting evidence which had been submitted in the case of the grounding of the Glencairn Head, was brought up for discussion and it was the opinion of the members that the placing and looking after the buoys should not be divided between two departments. Mr. Thomson said that an officer of one Government department had declared that the guiding buoy was in its proper place, while an officer of another Government department had declared it to have been some 25 or 30 feet out of position.

The responsibility for placing and looking after buoys in the channel should not be divided between two departments, but should belong to one department alone.

At present the river channel, depth of water, etc., was indicated on charts supplied by the Public Works Department, and the buoys were placed and looked after by the Department of Marine. Mr. Thomson urged that the buoy service should be under the sole control of one department, and must be so, if the navigation of the river was to be improved.

There should be no dual responsibility, was the opinion of Mayor Prefontaine and at a future time he would be prepared to introduce a resolution to this effect.

The report of Engineer Kennedy, based upon a recent conference with the shipping insurance and other people looking to the improvement in the aids to river navigation will be considered at the next meeting of the Board. The matter being an important one, it was ordered that copies of the report be supplied to members, that they might be in a position to deal with it intelligently when it came up.

The contract for supplying lumber, etc., for the new pier was awarded to W. H. Kelly Lumber Company of Buckingham. The contract will amount to about $54,000. This company was the lowest bidder, except on two or three items of minor importance. This is the same firm which has held the contract with the Board for the past two years.

The borings to determine the site for the proposed dry dock were not yet completed, but Mr. Kennedy hoped to have his report ready for the next meeting, when the site may be decided upon.

McGILL'S MEDICAL FRESHMAN CLASS.

The present session of the Faculty of Medicine at McGill promises to be the most successful in its history. Already 450 students have been enrolled, and the registers are not yet closed. The total number in attendance upon lectures last year was 403, so that the increase this year is nearly 50. The registrar of the faculty, Dr. Ruttan, says that there are eight or ten more students to enter the faculty, so that the total increase will be about 60. The graduating class this year remains, in point of numbers, much the same as its predecessors of 1897 and 1896, there being from eighty to ninety students therein. The large increase has occurred in the ranks of the freshmen. England and the United States are now furnishing their quota of students, large numbers coming from both countries. This satisfactory showing is attributed to the recent meeting of the British Medical Association in this city, which brought together many of the leading medical practitioners of both countries, and gave them an insight into the splendid facilities enjoyed by McGill for the education of the young.

DIED IN KLONDIKE.

A letter has been received in this city from Dawson, N.W.T., announcing the death of Thomas Duggan, a former resident of Ottawa. The deceased was about 35 years of age, and had worked in the Kootenay mines in British Columbia before going to the Yukon. He had also been a foreman on the bridge construction of the C.P.R. for several years. It is supposed that he has a sister residing in Ottawa, the wife of a foreman in the C.P. R. shops at that place.

O'BRYAN CASE.—Enquete proceedings in the case of Richard N. O'Bryan, accused of the publication of immoral literature in his paper, Town Topics, was called for hearing at the police court yesterday afternoon. The accused was not present and on the request of the prosecution a delay was granted until Monday next to obtain the evidence of Mr. Robert White, collector of customs. The proceedings commence at eleven o'clock.

PROF. ALLBUTT'S LECTURE

At the Opening of the Faculty of Medicine of McGill.

The opening lecture in the Faculty of Medicine at McGill University was delivered yesterday by Prof. Albutt, of Cambridge University, Eng., in the presence of Dean Craik, and most of the professors and students of the faculty. His subject was "Medicine," and it was treated in a scholarly and exhaustive manner. In the course of his remarks he complimented the teaching staff of the Faculty on the enviable position McGill held among the universities of the world. He expressed delight at the thoroughness of the training given to the students, and spoke in a congratulatory way concerning the excellent appointments of the medical building.

Professor Allbutt is a native of Dewsbury, where he was born in 1836. He was educated at St. Peter's School, York, and at Caius College, Cambridge, where he acquired four scholarships in as many years. Soon afterwards he decided to enter the medical profession, and after a pass degree in Arts, went with distinction in chemistry and geology. On leaving Cambridge he entered St. George's Hospital, and afterwards spent some time in the hospitals of Paris, and graduated in due course as M.A. and M.D. of Cambridge.

After a brief stay in London, Dr. Allbutt went to the Leeds Infirmary, as consulting physician in medicine. While there he contributed largely both to medical and general literature. By devising the "short clinical thermometer" he did much to forward clinical thermometry in hospital and general practice. He later engaged in the study of the pathology of the nervous system in the "Patholgical Transactions," he published researches on this subject. In 1888, he delivered the address on medicine to the British Medical Association at Glasgow, and was made an LL.D., of that University. In 1889, he retired from practice, and was appointed a commissioner in Lunacy, an office which he held for three years, when he was appointed Regius Professor of Physic to the University of Cambridge, in succession to the late Sir George Paget. He was elected a Fellow of the Tinnean Society and of the Society of Antiquaries, in 1867, and a Fellow of the Royal Society in 1880. He is editor of the "System of Medicine," a weekly publication. During his stay in Montreal he is the guest of Prof. T. George Adami, of McGill.

THE BOSTON & MAINE RAILWAY.

The annual report of the Boston & Maine Railroad for the past year has been issued, and among other information shows that the gross transportation earnings were $19,742,945 and the total operating expenses $13,723,674, leaving net transportation earnings at $6,019,270, which were increased by other sources of income to $8,759,475, while after deducting all charges were available for dividends $1,283,423. During the year the receipts from the freight department increased $226,474, while the passenger receipts decreased $40,215. The total number of miles operated is 1,715.

FRENCH EVANGELIZATION.

An Address on the Subject by Rev. Dr. Amaron.

An illustrated lecture was given in St. John's French Presbyterian Church last night by the Rev. Dr. Amaron on "French Evangelization." The subject," he said, was of the most importance, in view of its influence, direct and indirect. All should read afresh the history of this country, and the events that led up to the conquest, and any man would have to admit, that the French colony had been neglected, and was at least two centuries behind the conquerors. French evangelization was indeed a God-inspired work. It was well known that the infant colony was entrusted to the spiritual welfare of the Church of Rome. Protestant interests were excluded; the Huguenots were not permitted to emigrate. Nevertheless, some did come, and founded a colony at L'Acadie, only to be sent back by the authorities.

In comparison with New England, which was founded a century later, French Canada showed a great want of prosperity and thrift. At the time of the conquest 90 per cent. of the people were grossly superstitious, and ignorance brooded over the land. Gradually the Gospel and truth had been preached, so that at present beneficial results were in daily evidence. During years past people had left this province by the thousand, and they did not go to Catholic Spain or Ireland, but to the land of the Puritans and Pilgrims.

In some quarters there had been a cry raised against proselytism, continued the speaker, but all should remember that many French Canadians no longer believed the doctrine of Rome, and if the Gospel was not preached to them they would fall into infidelity.

During the lecture views were thrown upon a curtain in front, illustrative of the subject under discussion.

RECIPROCITY THE LEADER.

Hon. N. C. Wallace So Regards It Among Conference Subjects.

Hon. N. Clarke Wallace, who has been spending some time in Quebec watching the proceedings of the International Commission, was in the city Monday, en route for home. The hon. gentleman thought that the greatest question before the Commission is reciprocity, and that the present time was the most favourable opportunity for Canada to negotiate a treaty with the United States.

Mr. Wallace seemed pretty well convinced that Sir Wilfrid Laurier would appeal to the people within a year.

TO PREACH AT ZION.

The Rev. G. Ellery Read, of Rock Island Congregational Church, will occupy the pulpit of Zion Church at the morning and evening services on Sunday next. The reverend gentleman, who is an alumnus of the Congregational College here, is a preacher of much fervour and eloquence, his pastorate at Rock Island having been attended with great success.

THE FOOTBALL SEASON.

The melancholy days have come;
  The saddest of the year

  For those companions fair,
Who leaving him, have turned their eyes
  To men of brawn and hair.

AT WORK AGAIN.

Ottawa College Will Re-organize the Team.

OTTAWA, October 12.—Instead of sitting down and moping over their very bad beating on Saturday, the College team intend doing the proper thing, and will set about at once to put the fifteen on the very best possible footing. College will have two weeks in which to get ready to meet the Granites here, and by that time it is thought that the team will be a very different one to that which was defeated in Montreal on Saturday. The team will be thoroughly reorganized at once, and more attention will be given to the practices.

It is thought that with very little change that the forward line will be as good as any in the Quebec Union. It was not the fault of the forwards and scrimmage that College lost on Saturday, but through the poorness of the back division.

College made the grave mistake of playing Dandurand at quarter, who only had one day's practice. After ten minutes' play, Dandurand was as good as no one. It is likely that Nolan, who played well in practice, will be kept in the position, and an effort will be made to get Pat. Murphy to play full back in place of Bonin, who was a failure. One change will likely be made on the half back line.

PUNTS.

Says the Kingston Whig to-day: "There was a wild scene on the field at the conclusion of the match. It was with difficulty the crowd was cleared off the gridiron to permit of the last minutes' play being gone through with. After that the crowd rushed on and surrounded the referee and umpire, jostled them and called them out of their name. The attitude of these over-jealous and injudicious admirers of Queen's became so threatening that friends of the two cadets doubled to their rescue and formed a cordon of red coats around their comrades, escorting them from the field and to a cab. It was the wildest and most unruly crowd ever seen on the local football field after a match."

The Brits were trying to arrange a game with Brockville for Saturday, 22nd, but Brockville has another engagement on that day.

Rev. Father Fallon denies that he is to assume control over Ottawa College team. There will be no change in the present management.

McGill had some light practice on the campus yesterday afternoon, in preparation for Saturday's match with Toronto 'Varsity.

Hal McGiveren, formerly captain of Ottawa City team, is now acting as back and is keeping the fifteen in trim for next Saturday's game with the Hamilton "Tigers."

All of the city clubs have so many players that they have been able to form extra teams. These teams will meet each other in exhibition games.

The Varsity team leaves Friday morning for Montreal, arriving here on Friday night, and after a night's rest will be ready for a hard game with McGill on Saturday.

An official of the Quebec Rugby Union finds legal ground for the interference, now practiced by the teams, in rule 16, which says in part: "No player shall obstruct or charge against an opponent (except during a scrimmage, or except such opponent has the ball, or such player is running at or with the ball.)"

This official says it is an easy matter to find justification for interference play in that clause.

ON TRACK AND TURF.

RACING AT WINDSOR.

WINDSOR, Ont., October 12.—Yesterday's third race was declared off, and the following entries substituted:

3rd race, 6 1-2 furlongs, 3 year olds and up, selling—Albert S., 113; Lady of the West, 100; Mystery, 99; Sanger, 97; Glen Albyn, Miss Kitty, 93; Spanish Princess, Santa Cruz, Sir Tenny, Gracie C, 93; Prima, 96; Rob Chance, 91; Percita, 107.

Cynthia H., Kenosha, Nero, Helena H., and Dick Warren also ran.

MORRIS PARK RACES.

NEW YORK, October 12. — A large crowd watched the racing at Morris Park yesterday. The Dixiana stakes furnished a fine contest. Briar Sweet was the favourite, while Banaster was heavily backed. Briar Sweet went to the front at once, while Bangle and Banaster ran along close behind. The positions were unchanged into the stretch when the boys on Bangle, Swiftmas and Handsel drove hard and in a furious finish the favourite won by half a length straightened out, while Banaster was a bad last. The fifth race was a feature of the day. Warrenton was made favourite while Sir Walter, Candle Black, White Frost and Peep O'Day were evenly backed at about 4 to 1 each. Peep O'Day went out in front at the fall of the flag, but was quickly passed by Sir Walter, who showed the way at the far turn, when Candle Black and Peep O'Day passed him and it looked as if he was beaten. He came again, however, and in a furious drive won by a neck from Warrenton, who closed fast in the stretch, while Peep O'Day was third, half a length away. The time equalled the track record of 1.55 1-4. Summary:

First race, 6 1-2 furlongs — Julius Caesar, 110, Littlefield, 5 to 1 and 2 to 1, won by half a length; Brasse, 110, Maher, 13 to 5 and even, second by a neck; Fairy Dale, 107, Jones, 8 to 1 and 3 to 1, third. Time, 1.24. Emanera, Flora Lin, Stain, Trianom, To and Fro and Delicate also ran.

Second race, seven furlongs — Autumn, 120, Maher, 11 to 5 and 4 to 5, won; by two lengths; MacLeod of Dare, 111, Burns, 5 to 1 and 2 to 1, second by one length; Acushla, 108, Clawson, 8 to 1 and 3 to 1, third. Time, 1.28 3-4. La Penitente, King Barleycorn, Dr. Barker, Dr. Fitzsimmons, Scannel, Domineer, Passac, Tyrba, and Exception also ran.

Third race, Silver Brook, selling, 5 1-2 furlongs.—Toluca, 110, Clawson, 11 to 5 and 4 to 5, won by two lengths; Satin Slipper, 104, Turner, 6 to 5, and 2 to 5, second by four lengths; Blue Away, was second, but was disqualified; Cormorant, 105, Maher, 6 to 1 and 8 to 5, third. Time, 1.06 1-4. Diminutive and Turvey Drop also ran.

Fifth race, one mile—Briar Sweet, 110, Maher, even, and 2 to 5, won by a length; Bangle, 118, Burns, 15 to 1 and 4 to 1, second by half a length; Handsel, 109, Sims, 30 to 1, and 7 to 1, third. Time, 1.41 1-2. Swiftmas and Banaster also ran.

Fifth race, one mile and a furlong—Sir Walter, 113, Clayton, 4 to 1 and 8 to 5, won by a neck; Warrenton, 109, Spencer, 13 to 5 and even, second by half a length; Peep O'Day, 125, Taral, 5 to 1 and 2 to 1, third. Time 1.55 1-4. Clarina, Ganelaria, White Frost and Candle Black also ran.

Sixth race selling mule—Scotch Plaid, 100, Maher 4 to 1 and 7 to 5, won by a head; Estaca, 111, Doggett, 15 to 1 and 5 to 1, second; Mazarino, 112, Burns, 9 to 2 and 9 to 2, third. Time, 1.41 1-2. Blue Away, Banquo II., Glencine, Uncle Louis, Double Quick, Oxnard, Myth and Rossifer also ran.

THE GAME OF GOLF.

LADIES' CHAMPIONSHIP.

Miss Hoyt, the Champion, Leading the Other Scorers.

NEW YORK, October 12.—The third annual tournament, held under the auspices of the United States Golf Association, to determine the women's golf championship of America, began early yesterday morning, on the links of the Ardsley Golf Club, on the banks of the Hudson river. The beginning of the contest was witnessed by nearly 1000 enthusiasts. That Miss Beatrix Hoyt, of Sinnecook Mills, who had held the honour and trophy, which was presented to the association by the Hon. Robert Cox, M. P., for Edinburgh, since 1896, will again prove her superiority, is conceded by nearly every person interested in the game. Miss Hoyt certainly has shown that she far out-classes all her fair rivals and in fact many of them, who are good judges, say that there are very few Scotch women who can outplay her.

As was to be expected Miss Hoyt's round of the links was the feature of the play and she was followed by a gallaxy of some 400 men and women, who frequently applauded the young woman's masterly strokes. With the possible exception of a couple of chances in putting, Miss Hoyt made no mistakes in her round in which she had for a partner, Mrs. E. Dewitt Cochrane, of the local club. The champion accomplished the journey with 92 strokes for the 18 holes and Mrs. Cochrane took 113.

The next best score was made by Miss Edith B. Burt, of the Philadelphia Country Club, who made the circuit of the links in 100 strokes. Miss Mabeline Boardman of the Essex County Golf Club, Mass., and Miss Grace B. Keyes, of Concord, Mass., came next with 102 each. Miss Carroll Eidlitz, of Ardsley, qualified with 103 and another New Englander, Miss Maude Wetmore, of Newport, finished with 104. Mrs. J. A. Greiner, of the Baltimore Country Club, and Miss Ruth Underhill, of Queen's County, L. I., tied with 107 each. Mrs. E. A. Manico, of Pittsfield, Mass., and Miss Marion Shearson, of Chicago, each had scores of 107. Mrs. W. F. Morgan, of the Baltusrol County Club, finished fourteenth with 108, and Miss Katherine K. Cassatt, of Philadelphia Cricket Club, and Miss Harriet S. Curtis completed the qualified list with 109 each.

METROPOLITAN GOLF CLUB.

The club trophy of the Metropolitan is attracting much attention among the golfers. It has to be won two years in succession to become the property of any winner. The colt belt, won by Mr. H. Gardiner, who presented it to the club. Each year winners will be inscribed on shields. On Saturday next there will be a match between Bachelors and Benedicts. The losers will provide luncheon. The first round of the trophy competition must be played off on or before the 15th inst. Dr. J. T. Finnie presented the colt belt, and the Rev. Mr. McCuaig presided at the meeting.

THE CRICKET CREASE.

THE GAME WAS A DRAW.

CHICAGO, October 12.—The picked cricket eleven from All-Chicago escaped being defeated by the English team Monday on account of rain. On Saturday night, when darkness called a halt in the match, Captain Warner's men had finished one inning and scored 295 runs. The local players had gathered in 29 runs in their first inning with the loss of two wickets. Play was resumed on the Parkside grounds shortly after 11 o'clock yesterday morning and the locals were able to add only 45 more runs to their score, making a total of 74 runs for the inning. Being behind they followed up the batting after luncheon, and made 83 runs for the loss of seven wickets. Rain began falling in torrents, but as the Englishmen could not remain to finish the match it was declared a drawn game, although the visitors were at the time 138 runs ahead, with another inning to play. The Chicagoans realized that they had no show to defeat the Englishmen and were pleased to have the game declared a draw. At five o'clock the visitors started for New York and will sail for England as soon as they can after arriving in the metropolis.

AMONG THE ATHLETES.

GIVEN PRIZES.

Presentation to Successful Competitors at the Cedar A. A. A. Games.

One of the most pleasant reminders one could desire to come across of the beneficent influences of good healthy athletics, in developing manly-minded and strong-limbed boys, was furnished in the parlours of the Queen's Theatre last evening, when the presentation of prizes won at the first annual field day of the Cedar Amateur Athletic Association took place. Though this is their first annual field day, the young gentlemen of the evergreen association wish it to be understood that it is the ninth year of the association's existence. It had its humble beginning in the lot in rear of Mr. J. B. Sparrow's residence, at the corner of Sherbrooke and Park avenue, and it was perhaps partly on this account that Mrs. Sparrow's interest was aroused in the sport of the boys. At any rate, she has been the friend and patron of the association during its career, and the boys showed last evening that they were not unappreciative of her kindly and active interest in their sports. Mr. Ed. Varney presided at the gathering, but it was from her hands that each victor received his trophy. Having acquitted herself of this pleasant task, Mr. Percy Gormery, president of the association, made a manly acknowledgment of the indebtedness of the boys to their honorary president, and on behalf of the association presented her with a handsome bouquet of roses. A number of other ladies, all friends of the association, were present. The prizes were all very handsome, the crowning piece probably being the cup for the relay race, given by Mr. Sparrow, which was won by Montreal High School.

QUOITING.

CANADIAN CHAMPIONSHIP.

TORONTO, October 12. — The annual tournament for the quoiting championship of Canada, started yesterday afternoon on the grounds of the Heather Quoiting Club, and, although the entries were not quite as large as in former years, the best players of the country turned out as large as ever, as all of the contestants were of the first quality.

The results of the first draw on the first series was as follows: A. E. Kennedy, 27; W. Lawson, 41; W. Kitchen, 41; J. Richardson, 38; J. Lawson, 41; J. Bell, 24; J. Russell, 29; J. I Bell, 41; R. Errington, 41; F. Claus, 33; J. Coulter, 36; A. Metheson, 42; J. Thompson, 21; J. T. Peacock, 41; J. Edward, 41; E. W. Smith, 22; R. Callender, 41; H. M. Playter, 25.

CURLING.

A TORONTO BONSPIEL.

TORONTO, October 12.—At the annual meeting of the Granite Curling Club there was a large attendance of members, with President W. J. McMurtry in the chair.

The report of the year's games referred to the winning of the Walker Vase by Mr. George H. Gooderham's rink, and the loss of the city trophy for the first time since competed for. The retiring committee recommended that the system of playing for the Walker Vase should be changed to a bonspiel, and take something of the same form as the bowling tournament held at the Island each year. The meeting approved of the suggestion.

MISCELLANEOUS SPORTS.

WANTS $50,000.

Fitzsimmons Sues Hotel Proprietor for That Amount.

NEW YORK, October 12.—The refusal of proprietor James Breslin, of the Gilsey House, to allow Robert Fitzsimmons to absorb a bowl of soup in the hotel restaurant constituted an insult, in the judgment of the pugilist, that can be wiped out only with money—preferably bills of large denomination. The champion has brought suit against Mr. Breslin for $50,000 damages. The papers were served last night, and there is a prospect that the people may have a chance to see a champion pugilist in a battle before long, even though it be but a legal battle.

The complaint sets forth that Fitzsimmons makes his living by appearing before the public of the United States and other parts of the world, and that his success and well being depends on the esteem and popularity with which he is regarded by the said public. He has always been accustomed, the complaint says, in his travels, to stay at the most respectable and proper inns and hotels. Garbled statements of the affair of Mr. Breslin have been sent out, he asserts, which will cause hotel proprietors and managers to look at him with a glassy eye and will incite the public to stay away from his theatrical performances.

In conclusion Fitzsimmons says that his "good name, fame and credit" have been injured; that he has been held up to "public scandal and disgrace;" that his feelings have been "outraged," and that his business has received "great and lasting injury and damage."

For all of which he requests the Court to award his possession of $50,000 of Mr. Breslin's bank roll.

SHARKEY AND CORBETT.

NEW YORK, October 12.—Articles of agreement for a fight between James J. Corbett and Thomas Sharkey, to take place on November 22, under the auspices of the Lennox Athletic Club, for a purse of $20,000, were signed last night by George F. Considine, for Corbett, Tom O'Rourke, for Sharkey, and Joseph Vacius for the Lennox Athletic Club. A forfeit of $2500 is to be deposited by both parties and by the club to guarantee the fulfillment of the articles.

GOSSIP.

Yesterday's trotting races at Lexington were postponed owing to rain.

The Imperial Baseball Club, of Hochelaga, met and defeated the Waston Foster team by the score of 7 to 5. The Waston Foster's team had the Hochelaga Batteries; Currnnya and Tapa, Batteries for Imperial Houle and Wester.

Mr. R. B. Hutcheson, who succeeded in winning the individual championship from Mr. Bray, on September 24, in Sherbrooke, was also successful in defending that trophy on Saturday last in a match with Mr. H. H. Wootton.

The Butler-Goddard fight, which was to have taken place last night at Pittsburgh, Pa., was declared off because Butler was not satisfied with the purse.

Mr. Thomas Heffernan, President of the Pastime Boating Club, of New York, passed through Toronto yesterday, on his way to Troy, N.Y., where he will become a member of the Christian Brothers. Mr. Heffernan was one of the best known club men in New York. He was in Toronto at the regatta this summer, and became very well known and very popular there.

According to Toronto exchanges, Eddie Gleason has hopes of being re-instated by next Saturday.

A general meeting of the White Star Hockey Club will be held in the Club rooms this evening, for the purpose of electing officers for the ensuing year. Members of the Club, and all wishing to join please attend.

The annual meeting of the Victoria Rifles' Bowling Club will be held at the Armory on Saturday night. The Vics expect to put in a good season this year. They will commence practice this week.

A FREDERICTON LADY

Tells how Distressing Pains in Her Back and Kidneys have Vanished Since Taking

DOAN'S KIDNEY PILLS.

Mrs. K. Burns is well known in Fredericton as an enterprising business woman, who keeps a grocery store on King street. By careful attention to business she has succeeded in building up a good trade, and is always anxious to satisfy the wants of her customers. She gave our representative an interview in the matter of taking Doan's Kidney Pills, and related the story of her experience with this remarkable remedy as follows:—

"For over a year I have been afflicted with intense pain in my back, extending from the base of my spine up to my shoulders. I sometimes felt dizzy, and could scarcely venture upstairs without sitting down to rest. I ascertained that my distress was due in a great measure to the deranged action of the kidneys. My loins ached continually, and I could scarcely bend my back. I did not pay much attention to my trouble at first, thinking it would wear away, but in this I was disappointed as it gradually grew worse.

"Not getting any relief from the many home remedies I tried, I became more anxious about my condition, and began to look around for a cure. I decided to try Doan's Kidney Pills, and got a box through Messrs. R. T. Mack & Co., druggists here; and before I had finished a month's treatment I was completely cured, and now I am feeling as well as ever, and my back is strong and without ache or pain. I can highly recommend Doan's Kidney Pills for lame back and many distressing troubles arising from the wrong action of the kidneys."

Doan's Kidney Pills never fail to cure Backache, Bright's Disease, Diabetes, Dropsy, Gravel, Rheumatism, Lumbago, Weakness of the Kidneys, in Children, Headache, Numbness, Female Troubles, etc. Sold by all druggists, or sent by mail on receipt of price, 50c a box, or 3 boxes for $1.25. THE SCAVENGING SERVICE.

A Reduction of the Working Hours of the Men Suggested.

Health Committee Hesitates About Taking Means to Make the Appropriation Last Out the Year.

Shall the city scavenging department be reduced in efficiency one half or shall it be maintained in the meantime at its present state of efficiency until the appropriation is exhausted, with the prospect of the department having to close down altogether when that occurs? was the question debated, and debated with considerable warmth at yesterday's meeting of the Health Committee.

Months ago the City Sanitary Engineer drew the committee's attention to the fact that the scavenging department's appropriation would be exhausted about the middle of November at the rate the expenditure was kept up. Ald. Ames then urged that the weekly expenses be reduced in order that some sort of a fairly scavenging service might be maintained until the end of the year, but the committee would not assume the responsibility, and so the expenditure was kept up, and the time is drawing near when the appropriation must be quite exhausted.

There appears to be no possibility of securing any more money in a regular way, and it is now either a question of curtailment or complete closing down of scavenging department within a few weeks.

The matter was referred to a sub-committee consisting of Aldermen Prenoveau, Ames and Dufresne to discuss and they decided to recommend that a policy of retrenchment be inaugurated at once so that something might be done in the way of scavenging up to the very end of the year.

The report came up at yesterday's meeting, but the members would not assume the responsibility of making the required reduction and so the matter remains as it was.

THE SUB-COMMITTEE REPORT.

The report, which was presented by Ald. Ames, made the following recommendations:

1st—That the hours of the employes of the scavenging department be reduced between 29th October and 28th December to such an extent that the men employed in the workshops be required to work only half their present time, and the men on the outside service two-thirds time.

2nd—That the incinerator be closed during the month of December, and the sum of $[illegible] saved thereby be varied and devoted to the requirements of the scavenging department.

3rd—That certain items of the expenditure of the Health Department be varied, giving $800 to $900 extra for the scavenging department.

Ald. Ames said that the members of the committee found themselves face to face with a very awkward and sad position, for they realized that it was impossible to look for relief from the city treasury, for there was no money available, and the only thing to be done was to adopt the painful alternative and by curtailing the working hours of the men, reduce the efficiency of the service very much. If there were any legal means of securing the $5,000 required he would have been glad, but there was absolutely no possibility.

He explained the recommendations of the sub-committee at length.

The wage list of the department is $720. By putting the men in the workshops on half time, and the men in the collecting service at two-thirds time, and by dismissing one or two edtra employes, $225 a week would be saved, or $2,250 on the ten weeks of the year remaining.

The incinerator would be kept going full time until December, and for that month it would be closed down altogether, thus saving $1,000.

With the assistance of Dr. Laberge and the other officials they could vary $800 or $900 from the other appropriations.

FELT THEIR POSITION KEENLY.

Ald. Ames said that he and Ald. Prenoveau felt their position very keenly, and he hoped that they would have the unanimous support of the committee. Ald. Ames added that a remedy might come indirectly through the remedy proposed. If they tried this half service, and it was bound to be a poor service, the citizens would probably rise in arms and demand that some extraordinary means be taken to raise the money. The committee could say, at any rate that it had done its best.

Alderman Gallery thought that the department might just as well close right down, as maintain an inefficient service.

Ald. Ames thought that that would not be in the city's best interests.

Ald. Gallery thought that to avoid letting the whole brunt of the reduction falling upon the poor men, some of the horses might be sold. There are 61 horses now, and if 40 of them were sold, a saving of $160 a week in feed could be effected.

Ald. Ames—"No the city should not sell its horses."

Ald. Turner—"We could effect a big saving by making citizens separate their ashes from the garbage.

Ald. Ames—"That is true, but we could not have the by-law passed in time to effect relief now."

SELL SOME OF THE HORSES.

Ald. Gallery—"I am in favour of selling some of the horses. If we cut down the men's time and keep horses standing in the stables eating their heads off, how will the citizens like it?"

Ald. Ames—"We keep all of our men on, and during the hours they are employed they will require all the horses."

To an enquiry, Ald. Ames explained that with shortened hours, it was proposed, one collection of scavenging a week, instead of two.

Ald. Gallery—"I do not think we should cut down the service like that."

Ald. Ames—"All right, then, there is only one alternative—I am willing to be responsible for one-seventh of the $5,000 if you are, and I have no doubt other members will join us."

Ald. Gallery—"I know you are richer than I am; but that is not the question. The money can be got. We voted $1,000 to New Westminster the other day, and $2,000 has been thrown away lately."

Ald. Ames—"We might not have been in this fix if we had all been careful and (addressing Ald. Gallery) but for your action in connection with a mistake in the minutes we might have saved $1,000 over the men really dismissed in March, though the minutes said in May."

Ald. Gallery—"You cannot blame me for that. If the minutes were wrong it was not my fault."

Ald. Ames—"No, but the minutes could have been rectified by unanimous consent of the committee, and you refused to have the correction made."

Ald. Turner said he had also objected to the change being made.

AN ATTACK ON MR. DORE.

Ald. Roy said he would protest with all his force against the proposal to reduce the men's time. The whole trouble was the fault of Mr. Dore, the superintendent, and if there were to be any reductions in hours and wages they should begin, not with the poor men earning a dollar and a quarter a day, but with the big men, like Mr. Dore, earning fat salaries of $2,000 and $3,000 a year. Mr. Dore had never done his duty by the committee, and simply laughed at the members. He merited dismissal. In the meantime he (Ald. Roy) would move that the discussion on the report be deferred until Ald. Brunet, who was absent, could be present.

Ald. Ames remarked that the committee had no right to interfere with Mr. Dore's salary, as it was fixed by the Council.

Ald. Gallery said he considered the proposal to cut off one collection of scavenging a week just as illegal as it would be to cut off the water supply for a couple of days every week. The opinion of the City Attorney should be obtained on the point.

Ald. Turner said that sickness was liable to result, and one death was of more importance than the saving of $5,000.

PERSONAL RESPONSIBILITY.

Ald. Ames said he was perfectly aware of the fact, and would be glad to personally assume a share of the responsibility to keep the service going.

Ald. Gallery said that Mr. Dore was responsible. He should have reported the matter.

Mr. Dore: "I did report."

Ald. Gallery: "You didn't report just how things were."

Ald. Ames: "What was the use of Mr. Dore reporting. He did report time and again. But how did you back up his reports. Have you backed me up in my efforts to promote economy?"

Alderman Roy moved that the committee adjourn until Friday to permit of Ald. Brunet attending, and that in the meantime the opinion of the City Attorneys be obtained on the point raised by Ald. Gallery.

ABOUT DODGING.

Ald. Ames at this point remarked: "What is the use of acting like a lot of children? You have spent the money, and now you are trying to dodge the question."

Ald. Gallery: "We don't want to dodge, and are no more afraid than you are, but I want to give the peeople what they pay for and are entitled to."

Ald. Ames: "And if the report is for you you will act upon it, if it is not, you will go straight against it. What is the use of asking for a report?"

The motion of Alderman Roy was then carried, Aldermen Roy, Turner and Gallery, voting for it, and Aldermen Ames and Dufresne against.

The committee then adjourned.

CATHOLIC SOCIETIES.

Division No. 1 Ancient Order of Hibernians, will hold their annual entertainment on the 23rd of November, the anniversary of the Manchester Martyrs. A hard working committee has been appointed, and the Division expects to surpass all previous occasions.

The Annual Church parade of the Ancient Order of Hibernians will be held on Sunday, November the 20th, to St. John Baptiste Church. The order will be headed by St. Gabriel's Brass Band, and by a uniformed detachment of the Hibernians Knights under command of Cap. Rawley.

A social and debating club, for the promulgation and preservation of Irish Language and Literature was organized in St. John Baptiste Parish on Sunday afternoon, by Mr. A. J. McCracken. The new club is known as the Sarsfield Social and Debating Club. The officers elected were Mr. A. J. McCracken, president; Mr. Patrick O'Neill, jr., secretary; and P. Turner, treasurer. The club will hold weekly meetings and interesting debates will take place. They will also hold a social and dramatic entertainment on Hallowe'en, when some of the best local talent will take part.

The annual entertainment in aid of the Catholic Sailors' Club will be held this year in St. Mary's Hall, corner of Craig and Panet Sts., on the 18th inst. A splendid programme has been prepared and a good time is assured those attending.

A BENEFIT CONCERT.

Prof. Von Liebich's recovery after three months' sickness is to be commemorated by his numerous friends by tendering him a grand benefit. It will take the form of a concert, to be given in Windsor Hall next month, and many prominent citizens are giving their names as patrons. Several of the best known local artists have already volunteered their kind assistance so that all things point to a grand artistic as well as social success.

Scrofulous Sores and Ulcers

Are hard to heal with ordinary remedies. Yet no one need despair of a cure no matter of how long standing or how large the sore or ulcer may be. Burdock Blood Bitters applied externally and taken internally according to directions will positively make a cure, and leave the skin as clear and smooth as a child's. Hundreds of people, after trying all sorts of remedies, have been cured by

BBB FOR THE BLOOD

Here's a remarkable case of Mr. Arthur Greenwood, of Randboro, Que., who writes as follows:—

"Having suffered from Scrofula on the face, and the many medicines I took not seeming to do me any good, I thought I would give up trying for a cure, but decided to try B.B.B. before doing so. I got one bottle and before it was finished my face was well. I could fill this paper with words of gratitude to Burdock Blood Bitters. Nothing in the world equals it."

THE DAY OF TEMPTATION,

A STORY OF TWO CITIES.

BY WILLIAM LE QUEUX,

COPYRIGHTED, 1898, BY WILLIAM LE QUEUX.

HAPTER III.—(Continued.)

Half-an-hour later the cabdriver and the constable stood in the small upper room at Vine Street Police Station, the office of the inspector of the Criminal Investigation Department attached to that station, Inspector Elmes, a dark-bearded stalwart man of forty-five, sat at a table while behind him arranged over the mantelshelf, were many photographs of criminals, missing persons, and people who had been found dead in various parts of the metropolis and whose friends had not been traced. Pinned against the grey-painted walls were several printed notices offering rewards, some with portraits of absconding persons, others with crude woodcuts of stolen jewels. It was a bare carpetless room but eminently businesslike.

"Well," the Inspector was saying to the constable as he leant back in his chair. "There's some mystery about the affair you think—eh? Are there any signs of murder?"

"No, sir," the man answered. "At present the doctor has discovered nothing."

"Then until he has, our Department can't deal with it," replied the detective. "Why has your Inspector sent you up here?"

"Because it's so mysterious, I suppose, sir."

"She may have had a fit—most probable, I should think. Until the doctor has certified I don't see any necessity to stir. It's more than possible that when the man who let her at the Criterion reads of her death in the papers he'll come forward, identify her, and clear himself." Then, turning to the cabman, he asked: "What sort of man was he—an Englishman?"

"Well, I really don't know, sir. He spoke to the dead girl in her own language, yet I thought when he spoke to his friend at the station that his English was that of a foreigner. Besides, he looked like a Frenchman, for he wore a large bow for a tie, which no Englishman wears."

"You think him a foreigner because of his tie—eh?" the detective observed, smiling. "Now if you had noticed his boots with a critical eye you might perhaps have accurately determined his nationality. Look at a man's boots next time."

Then, taking up his pen, he drew a piece of pale yellow official paper before him, noted the number of the cabman's badge, inquired his name and address, and asked several other questions, afterwards dismissing both men with the observation that until a verdict had been given in the Coroner's Court he saw no reason to institute further inquiries.

Two days later the inquest was held in a small room at St. Martin's Town Hall, the handsome building overlooking Trafalgar Square, and as may be imagined was largely attended by representatives of the Press. All the sensationalism of London evening journalism had, during the two days intervening, been let loose upon the mysterious affair, and the remarkable "latest details" had been "worked up" into an amazing, but utterly fictitious story. One paper, in its excess of zeal to outdistance all its rivals in sensationalism, had hinted that the dead woman was actually the daughter of an Imperial House, and this had aroused public curiosity to fever heat.

When the usual formalities of constituting the Court had been completed, the jury had viewed the body, and the cabman had related his strange story, the Coroner, himself a medical man, dark-bearded and middle-aged, commenced a close cross-examination.

"Was it French or Italian the lady spoke?" he asked.

"I don't know the difference, sir," the cabman admitted. "The man with her spoke just as quickly as she did."

"Was there anything curious in the demeanour of either of them?"

"I noticed nothing strange. The gentleman to'd me to drive along Pall Mall and the Haymarket, or, of course, I'd 'ave taken the proper route, up Charin' Cross road and Leicester square."

"You would recognize this gentleman again, I suppose?" the Coroner asked.

"I'd know him among ten thousand," the man promptly replied.

Inspector Elmes, who was present on behalf of the Criminal Investigation Department, asked several questions through the Coroner, when the latter afterwards resumed his cross-examination.

"You have told us," he said, "that just before entering the cab the gentleman was accosted by a friend. Did you overhear any of their conversation?"

"I heard the missing man address the other as 'Major,'" the cabman replied, fingering the metal badge displayed upon the breast of his faded coat. "He introduced the Major to the lady, but I was unable to catch either of their names. When you're seated on your box you can't hear much in a noisy station. The two men seemed very glad to meet, but, on the other hand, my gentleman seemed in a great hurry to get away."

"You are certain that this man you know as the Major did not arrive by the same train, eh?" asked the Coroner, glancing sharply up from the paper whereon he was writing the depositions of this important witness.

"I am certain; for I noticed him lounging up and down the platform fully arf an hour before the train came in."

"Then you think he must have been awaiting his friends?"

"No doubt he was, sir, for as soon as I drove the lady and gent'eman away, he, too, started to walk out of the station."

Then the Coroner, having written a few more words upon the foolscap before him, turned to the jury, exclaiming—

"This last statement of the witness, gentlemen, seems, to say the least, curious."

In an insant all present were on tiptoe with excitement, wondering what startling facts were likely to be revealed.

CHAPTER IV.—"THE MAJOR."

No further questions were put to the cabdriver at this juncture, but medical evidence was at once taken. Breathless stillness pervaded the count, for the statement about to be made would put an end to all rumour, and truth would be known.

When the dapper elderly man had stepped up to the table and been sworn, the Coroner, in the quick, businesslike tone which he always assumed towards his fellows medical men, said:

"You are Doctor Charles Wyllie, house-surgeon, Charing Cross Hospital?"

"I am," the other answered in a correspondingly dry tone, while the Coroner wrote the witness's name.

"The woman was brought to the hospital, I suppose?"

"Yes, the police brought her, but she had already been dead about three-quarters of an hour. There were no external marks of violence, and her appearance was as though she had died suddenly from natural causes. In conjunction with Doctor Henderson I yesterday made a careful post-mortem. The body is that of a healthy woman of about twenty-three, evidently an Italian. There was no trace whatever of organic disease. From what I noticed, when the body was brought to the hospital, however, I asked the police to let it remain untouched until I was ready to make a post-mortem."

"Did you discover anything that might lead to a suspicion of foul play?" inquired the Coroner.

"I made several rather curious discoveries," the doctor answered, whereat those in court shifted uneasily, prepared for some thrilling story of how the woman was murdered. "First, she undoubtedly died from paralysis of the heart. Secondly, I found around the left ankle a curious tattoo-mark in the form of a serpent, with its tail in its mouth. It is beautifully executed, evidently by an expert tattooist. Thirdly, there was a white mark upon the left breast, no doubt the scar of a knife wound, which I judged to have been inflicted about two years ago. The knife was probably a long narrow-bladed one, and the bone had prevented the blow proving fatal."

"Then a previous attempt had been made upon her life, you think?" asked the Coroner, astonished.

"There is no doubt about it," the doctor answered. "Such a wound could never have been caused by accident. It had no doubt received careful surgical attention, judging from the cicatrice."

"But this had nothing to do with her death?" the Coroner suggested.

"Nothing whatever," replied the doctor. "The appearance of the body gives no indication of foul play."

"Then you assign death to natural causes—eh?"

"No, I do not," responded Dr. Wyllie deliberately, after a slight pause. "The woman was murdered."

These words produced a great sensation in the breathlessly silent court.

"By what means?"

"That I have utterly failed to discover. All appearances point to the fact that the deceased lost consciousness almost instantly, for she had no time even to take out her handkerchief or smelling-salts, the first thing a woman does when she feels faint. Death came very swiftly, but the ingenious means by which the murder was accomplished are at present entirely a mystery. At first my suspicions were aroused by a curious discolouration of the mouth, which I noticed when I first saw the body; but strangely enough this had disappeared yesterday when I made the post-mortem. Again, in the centre of the left palm, extending to the middle finger, was a dark and very extraordinary spot. This I have examined microscopically and submitted the skin to various tests, but have entirely failed to determine the cause of the mark. It is dark gray in colour, and altogether mysterious."

"There was no puncture in the hand?" inquired the Coroner.

"None whatever. I examined the body thoroughly, and found not a scratch," the doctor answered quickly. "At first I suspected a subcutaneous injection of poison; but this theory is negatived by the absence of any puncture."

"But you adhere to your first statement that she was murdered?"

"Certainly. I am confident that the paralysis is not attributable to natural causes."

"Have you found any trace of poison?"

"The contents of the stomach were handed over by the police to the analyst. I cannot say what he has reported," the doctor answered sharply.

At once the Coroner's officer interposed with the remark that the analyst was present, and would give evidence.

The foreman of the jury then put several questions to the doctor, in order to jusitfy his election at the head of the dozen Strand tradesmen. Foremen of juries are found of cross-examining witnesses, although they never elicit any fresh fact, for witnesses hold a Coroner's jury in supreme contempt and resent their endeavours to obtain a clear narrative. In this case, however, the foreman was a keen observer, and a shrewd man of business.

"Do you think, Doctor," he asked, "that it would be possible to murder a woman while she was sitting in a cab in so crowded a place as Piccadilly Circus?"

"The greater the crowd, the less the chance of detection, I believe."

AN EARLIER THANKSGIVING.

How would this time of the year do for Thanksgiving day?

It is the policy of the Government to put it off until the shadow of December is already on the soggy fields of dead grass and the winter winds are beginning to blow through the bare branches of the trees. Then, if one takes a holiday, it is to stay indoors, and be thankful that the price of coal is no higher. As for the harvest, only those with the most retentive memories can remember anything about it.

The late Government were nearly as bad. They celebrated Thanksgiving day in the middle of November; this Government have moved it along to the end of the month. Now Thanksgiving was intended to be something of a harvest home festival—a day associated with the bringing in of the sheaves, the garnering of the apples, the making merry with the yellow pumpkin. It was not a time for looking out the snow-shovel, and putting up the double windows.

We should be given an opportunity to be thankful for the harvest as soon after the harvest is as convenient; and, after the thanks have been given, it is infinitely better that the day should be one to invite us out into the autumn woods and over the so lately shorn fields rather than to mow us up in the house with a leaden sky to be seen through the windows. As it is, we have far too little chance to enjoy the dreamy quiet of Indian summer or the winey air of the blue vaulted autumn. Why should we not have our holiday now, and not in the sodden days that follow the first snows?

ROOSEVELT'S CAMPAIGN.

The New York Post thinks that Col. Roosevelt alienated votes when he took so much pains to declare himself an "extensionist" in his opening speeches in the New York gubernatorial campaign. The Colonel would probably reply that, if so, he made more than he lost; and it would seem that this estimate is correct. One of the chief elements of his strength is his war record; and the men who are enthusiastic over the war, are very likely to be in favour of reaping the fruits of the said war. But the resentment that is said to be felt by the Independents because the Colonel declined their nomination, is probably a more serious matter. The very fact of his nomination may be taken as a confession that the Republicans do not think they could win this year with the straight party vote only. Hence, if the independent element is not drawn to the ticket by Roosevelt's name, he may easily ride to disaster.

"Teddy" Roosevelt has been for years an idol of the sturdy independents of New York state. They liked to see him at the front when any difficult task called for the doing. He was one of the gentlemen selected to superintend the reform of the Federal civic service, under President Cleveland—a task of rare delicacy and requiring considerable back-bone as politics go. Then when the "reformers" captured the Government of New York, the Lesser, they borrowed Mr. Roosevelt to come over and look after the police. Subsequently, he went to the Navy Department, and then to Santiago. Consequently, both the independents and all those who love a "bonnie fechter" may be expected to have a soft spot in their hearts for the mettlesome "Teddy"; and their vote plus the Republican vote is depended upon to carry the day.

But to see him taken up by Platt whom they have been schooled to distrust and then to have him dodge an independent nomination—presumably to oblige Platt—is likely to shake their faith in the bold Rough Rider. Still they may argue with much reason that this is the only way he could get elected, and that he is not necessarily bound to follow the crook of Platt's finger after he once gets into office. No one imagines that he will prove a pliant instrument in the hands of the party managers in any case, no matter how "good" his intentions may be or how abject his pledges. He is simply not built that way. Hence he may get an independent vote from men who are sorry to see him in such bad company, but who still would rather have him governor than Croker's second choice among the Van Wycks. There is little doubt that Judge Van Wyck, if elected, would be a governor by the machine and for the machine, though by no means of the machine; while there is always hope that "Teddy" will occasionally tell the machine which is now behind him that he intends to take his own way. The choice is between Tammany undiluted, and Platt tempered by Roosevelt's unruliness. It is a pity there is not a better chance for the New York electors to put an entirely unshackled man in office; but civilization is pretty well committed to party government, and the independents have done well to compel one of the great parties to turn to them for a candidate in the hour of danger. They scored their victory when the Republican Convention preferred Roosevelt to Black or any other man long in training with the party.

THE VALUE OF GUN FIRE.

Two of the clauses in the report of the American Naval Board on the fight off Santiago, give one a realizing sense of the power of gun fire at sea. The report says:

The average range of the ships most engaged was about a mile and a half.

No American ship at any time during the battle was within a mile of an unsurrendered Spanish ship.

The contrast between this and the conditions of the old days when fighting ships lashed themselves together and fought it out with cutlasses and boarding pikes, tells of the revolution wrought by the long-range guns. Mounted on a floating base, dipping and rising with every roll of the sea, charging through the water like a race-horse, with a flying target over a mile away, still these guns were able to absolutely disable and finally wreck iron-protected cruisers which were built for the express purpose of enduring gun fire. This is emphatically the day of the gun. Even during the land battle before the walls of Santiago, where the tropical country was by no means favourable to the use of artillery, the power of the gun was again apparent. Experts tell us that if the Spanish Admiral had taken his rapid-fire guns out of the ships lying in the harbour and mounted them on the fortifications, the Americans would have had the greatest difficulty in disturbing the garrison. As it was, one Spanish battery with smokeless powder was worth several puffing out telltale smoke at every explosion, for the simple reason that it could keep firing while the American guns were perpetually on the move, the Spanish getting their range at once. Artillery fire is now so accurate as to seem miraculous, which marks a great revolution from the day when the first cannon were trundled onto the field among the archers as an experiment from which little was expected.

HERVEY INSTITUTE.

The Annual Meeting of the Institution Held Yesterday.

At the annual meeting of the Hervey Institute, Mountain street, yesterday afternoon, the following were chosen officers for the ensuing year:

Hon. president — The Countess of Aberdeen.
Hon. vice-president — Mrs. George Hague.
President—Mrs. George Sumner.
Vice-president—Mrs. Langlois.
Treasurer—Miss Lawder.
Recording secretary — Mrs. Alex. Murray.
Corresponding secretary—Miss Douglas.
Registrar—Mrs. James Tasker.
Committee of management — Mesdames T. J. Alloway, W. H. Alford, G. H. Balfour, R. Cassels, J. Christie, M. L. Clark, W. Drysdale, F. Stuart Foster, Lady Galt, M. Holt, F. J. Logie, J. L. Morris, A. Macdonald, George Vipond, G. Fisk, and Utting.
Young ladies' committee—Misses Campbell, Monk, Sumner, Annie Sumner and Vibert.

Mr. George Hague presided.

The treasurer's report showed a balance in hand of $515 from 1897, with this year's receipts, $2,962, and disbursements, $2,765, leaving a balance of $197.

Mr Hague referring to a suggestion in the report of the recording secretary, stated that the several institutions in the city should move together to get more control over the children placed with them. Any beneficial and lasting influence derived from training was prevented by being removed by the parents too soon. He asked for an agitation for legislation on the subject. The Rev. Mr. Dewey supported the proposition.

The report of the recording secretary expressed appreciation of the work of the matron and teacher. During the year seven older girls entered service, the reports showing satisfaction. Fifty nine children had shared the privilege of the home during the year. Of these twenty-three had left, having been taken away by parents, etc., and twelve had been admitted, leaving forty-eight in the institution at the present time, with new admissions almost daily. The home had accommodation for only about fifty, but it was frequently obliged to find room for more than that number.

After adoption of the reports, a vote of thanks was passed, and the meeting closed with the benediction by the Rev. Mr. Dewey.

WEST END ABATTOIR.

At the meeting of the Butchers' Association last evening the following resolution was adopted:—"That the Butchers' Association of Montreal recommends the erection of a new abattoir in the vicinity of Point St. Charles, although this need not necessarily interfere with the East End abattoir already existing, believing that this arrangement will satisfy the requirements of all the butchers in the city."

The wish was also expressed that the new abattoir should be supplied with all modern appliances.

BUSINESS NOTES.

The following entries have been made in the Tutelle Office:

Mary Ann Murphy — Mrs. John McCormick, second-hand dealer.

W. J. McGuire & Co. — W. J. McGuire, Toronto plumber, will do business in Montreal as a plumber.

Delorme & Michon — Alp. Delorme and Desire Michon, spice dealers.

Lacasse & Archambault — Elzear Lacasse and Louis Archambault, butchers.

Hodgson & Wright have dissolved partnership.

On holidays in England two parties of men or boys will frequently get hold of opposite ends of a rope and pull on it, as a test of the strength of the two parties. They call it the "tug of war." Many a hardworking man and woman in each day's toil, is pulling a "tug of war" with death for an antagonist.

They fail to take proper care of their health. When they suffer from indigestion or a slight bilious attack they "wear it out." After a while these disorders wear out the reckless man or woman and the result is consumption, malaria, rheumatism, or some blood or skin disease. Dr. Pierce's Common Sense Medical Adviser tells all about these diseases. It is free to all. Dr. Pierce's Golden Medical Discovery cures all the maladies named. It cures the cause. It makes the appetite hearty, the digestion perfect, the liver active and the blood pure. It is the great blood-maker, flesh-builder and nerve tonic. Don't let a druggist impose on you with a more profitable substitute.

"I had a very severe pain in the small of my back, where my hips join on to my body, and it hurt so that I thought I was going to come apart," writes Wm. Z. Powers, Esq., of Erin Shades, Henrico Co., Va. "My doctor came and pronounced it rheumatism. He gave me a prescription, but I got no better, but worse. I purchased a bottle of Dr. Pierce's Golden Medical Discovery from my druggist and commenced to use it. I began to improve at once and got well. Now I am in perfect health,—no pain, no rheumatism."

Nearly every disease known to doctors and the treatment is described in Doctor Pierce's Common Sense Medical Adviser. One thousand and eight pages and over three hundred illustrations. FREE. Send thirty-one one-cent stamps, to cover customs and mailing *only*, to the World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y., for paper-covered copy. French cloth binding, fifty stamps. This book is a veritable medical library in one volume.

YUKON EXPERIENCES.

Mr. Auzias Turenne, the French Consul to Dawson City, Returns to the City.

ARE ADMINISTRATIVE ABUSES.

The Staff Needs Strengthening in Several Departments in His Opinion.

QUESTION OF GOLD ROYALTY

There is no Doubt it will Have to be Removed or Decreased He Says.

Mr. Auzias Turenne, a special correspondent of the well known Paris journal, Le Temps, is in town. He has just returned from a special journalistic mission to the Klondike. His experiences would fill a volume. Mr. Turenne wrote twenty articles about the gold fields, and says he has a reserve "vein" of material.

Speaking about his trip, he said in part: "I left Montreal on February 18. There were three members of the party, and we had altogether 3,000 lbs. of provisions, which we had selected with great care, and found very serviceable. One of the great hardships of life in the Yukon is the unsatisfactory food which often produces scurvy. I met one man who had only just got into the country when he was attacked by the disease; black patches appeared on his cheeks, and his teeth began to drop out. There was nothing for it but to hurry back home; it was like a disintegration of the whole system. I had good health, and I ascribe my freedom from scurvy to the fact that I lived largely on game.

"We left Skagway on March 20, and paid six cents a pound for the transportation of our supplies by mules to the summit of the White Pass. I carried our collapsible boat myself, because I was afraid it would be damaged, and I was very glad I did because nearly every other collapsible boat I saw had been so injured by the carriers as to be almost useless. But it was not always easy to scramble up the White Pass with it, and sometimes I almost stopped the procession. 'Burn your boat, it will be no good to you up there. You will never get up,' and so on, until I remembered it was Sunday and determined to wait till next day. In some places it is a very stiff climb, with a torrent of melted snow close by into which now and then some one falls.

"We arrived at Dawson about the middle of May. It is a dreadful place and very unhealthy. To begin with, the climate is extremely trying. During the journey the temperature was often very low, and we had to close the face openings of our sleeping bags altogether. But the summer weather is worse. It thaws the frozen soil on the surface only, and in this you have to work. Then at night, even in mid-summer, there is frequently a severe frost. Rheumatism and many kinds of spinal troubles are very common.

"The ice left the Yukon river on May 13 and the lakes on June 1. Each time Dawson was flooded, and several inches of mud left everywhere, but as the town is built on a swamp, the difference was hardly noticed. Still, it is not an inviting place to sleep in, breathing the same air with thousands of others, lying on soil in which all kinds of nastiness are left to decompose. After the confined life of the winter and the hardships endured in carrying supplies over the passes the inhabitants have not a healthy look. Anemic, dyspeptic, scorbutic, they say with unconscious irony, 'I have not come here for my health.' Fortune is their aim, but five times out of ten death is the lot they draw. Typhoid fever, bronchitis, inflammatory rheumatism, and above all scurvy help to clear out the camp, and make room for new comers. The cemetery is full of youths of 18, 20 and 25. In the hospital next the Catholic church fifty or sixty patients are rotting to death of scurvy. You can make sure of your bed there beforehand by paying a subscription of $50 a year; and that is better than driving away thoughts of disease and death by wasting money in the dance houses and saloons—a dollar for a dance, fifty cents for the girl, and fifty cents for whiskey.

"There are 32 saloons running night and day, but closed on Sunday, and there are a good many gambling dives and dance houses. But any public disorder is very quickly suppressed. Inspectors Starnes and Harper, of the Mounted Police, are entitled to great credit for the good order preserved. In this respect Dawson presents a marked contrast to Skagway and Dyea, and yet the population is composed of much the same elements. The vast majority of the people at Dawson are Americans. Most of the citizens who are British subjects are French-Canadians. French is very commonly heard, and officials sent out to the country ought to be able to speak the two languages. On this account the appointment of Judge Dugas has been received with great satisfaction. At present the French Canadians who do not speak English have difficulty in making their wishes known to the officials, and this puts them at a disadvantage."

"I had one camp in Dawson City and another on the Indian river. I spent a month there and two months and a half on the Klondike proper, going over pretty nearly all the creeks. There is no doubt that the Klondike district is marvellously rich, but its riches are confined to a very small space. Commissioner Ogilvie's report was perfectly true; but there have been no rich strikes since. The fame of the Klondike has been built on 100 claims on Bonanza Creek, a stream 25 miles long, 40 on El Dorado, which is seven or eight miles, and about 30 others on Hunker and Bear Creeks."

As to the charges against officials of the Dominion Government, Mr. Turenne preferred to say nothing, as he has been appointed French consular agent in Dawson, and he is returning there to take up his duties, and to look after some business interests he has acquired. In the ability and good faith of Major Walsh, whom he met at Fort Selkirk, and afterwards at Dawson City, he has full confidence. He did not wish to say anything about other officials whose names have been brought before the public, for the reason already indicated. But he is of opinion that the staff needs strengthening in several departments, and there are administrative abuses which needs remedying.

"What about the ten per cent. royalty?"

"There is no doubt it will have to be decreased or removed," replied Mr. Turenne. "Even on rich claims the gold costs from 30 to 50 per cent. for labour and fuel, and when you add a tax of 10 per cent, on the gross output it is too heavy a burden for the industry to bear. At present, there is no doubt that false returns are made to escape the payment of the royalty, and some men refuse to wash out their pay dirt rather than submit to the tax. It is felt to be the more burdensome because the Government really does very little beyond maintaining order."

DROUTZ IS RECOVERING.

The Would-be Valleyfield Suicide Now Able to be Up.

Stanislas Droutz, who shot himself over a love affair at Valleyfied on Monday, is doing very well at the Notre Dame Hospital and yesterday at noon, was able to get up and walk around. He related his story of the affair more than fifty times to the students who questioned him, and his bed was surrounded all day. He does not speak very plain English or French. The physicians have not yet succeeded in extracting the bullet from his neck, and they will make another effort this afternoon.

MR. DU DOMAINE'S CONCERT.

The concert given by Mr. Ernest du Domaine, an accomplished violinist who has recently taken up his residence in this city, drew a large and fashionable audience to the Karn Hall last night, when he made his debut before a Montreal audience. That he created a most favourable impression was evidenced by the hearty plaudits which greeted his every number. Mr. du Domaine knows how to use the king of instuments. His style is vigorous and full of spirit, and his bowing is excellent. The tone he manages to secure from the violin is round and full, and every note, including the extremely high ones is true and correct. His two best numbers last night were Greig's Sonata in F. (for piano and violin); and Sarasates "Zigeunerweisen." In the rapid passages in the last-named selection his fingering was excellent, and his remarkable execution as well as the dash and fire he put into the number, were such that an encore was demanded. In complying thereto, he rendered a dainty lullaby song with great expression and effect. Pierne's "Serenade" was another very pleasing number, as was also Schumann's "Traumerei." This was given in rather a more forceful style than Montrealers have been in the habit of hearing heretofore. Interspersed with Mr. du Domaine's numbers were songs by Miss Hollinshead and Mr. Wilkes. The former was suffering from a cold, and it was feared at first that she would only be able to contribute one number. But she appeared in the second part of the programme and sang very prettily Frances Allitzens "My life and thine." The violin obligato by Mr. du Domaine added very materially to the pleasing effect which this number created. Mr. Wilkes was in good voice, and his rendering of "Big Ben," and "How fair art thou," was all that could be desired.

A feature of the evening was the appearance of Miss Abbott, daughter of the late Sir John Abbott, whose artistic piano-forte accompaniment added so much to the charm of Greig's "Sonata in F," which Mr. du Domaine played. It was a critical audience but nothing but praise of Miss Abbott's clever execution was heard.

STABBING CASE.—The case of Kinton Dorion, who is under a charge of stabbing a fellow companion, Charles Farrell, at Lac Labelle, was not resumed in enquete at the police court yesterday afternoon. Mr. Poirier, the legal defender of Dorion is at present detained at Ottawa. On request of the accused, proceedings were deferred until Friday, the 14.

DYSPEPSIA
Geo. S. Scally, of 75 Nassau st., New York, says: "For years I have been troubled with rheumatism and dyspepsia, and I came to the conclusion to try your pills. I immediately found great relief from their use; I feel like a new man since I commenced taking them, and would not now be without them. The drowsy, sleepy feeling I used to have has entirely disappeared. The dyspepsia has left me and my rheumatism is gone entirely. I am satisfied if any one so afflicted will give Radway's Pills a trial they will surely cure them, for I believe it all comes from the system being out of order —the liver not doing its work.

PRISONER EXAMINED.

Daignault Gives Evidence in His Own Behalf.

IT IS SOME WHAT CONTRADICTORY TO THAT GIVEN BY HIM AT THE CORONER'S EXAMINATION.

(Special to the Star.)

SHERBROOKE, Oct. 12.—George Daigneault, the accused in the Magog murder case, yesterday morning changed his position at the bar to one in the witness box, and his testimony in his own behalf continued all day and through a portion of this morning's session.

The accused, as witness, stated that he went to the dance at Roy's place, accompanied by Thompson. He took no liquor there, and was perfectly sober during the whole evening, though Thompson got very full. When Gignac, Ducharme and Horan drove up witness was in the house. Witness chanced to step outside about that time, when Horan came up to him and said "Good night." Horan then entered the house. Witness stood talking with Mrs. Langlois for a few moments, when he heard some loud talking, and turning, saw three fellows scuffling. Two of them were strangers to him, but the other was his friend, Thompson, who was under the influence of liquor. The latter was trying to free himself. Witness then stepped up, taking Gignac, a stranger to him, by the collar, and pulled him back. He then stepped between Gignac and Thompson, and held the latter. Gignac came up and got witness by the coat collar. Witness pushed him back with his hand, but he came up again and attempted to strike him. Witness tried to push him away again, when he fell. Gignac called witness uncomplimentary names, and said: "I can do as much for you as for Thompson." After Gignac fell witness pushed Thompson away. Somebody asked for water, and Thimpson went for some. He said, "Let me go, I have just struck a man, and I think I have killed him." Miss Dubour came out and asked what was the matter, and witness replied, "A man has been struck." He heard for the first time of Gignac's death when he was arrested, about ten o'clock the next morning. He did not push Gignac back very hard, and his hand was half open at the time. He touched him somewhere in the face.

The counsel for the prosecution made a lengthy cross examination of the accused.

Mr. J. T. Broderick, Crown prosecutor, asked that the evidence of witness before the coroner's jury be produced, as it was contradictory to that now being given.

Mr. L. C. Belanger objected to this, and claimed that the prosecution should not be permitted to ask prisoner questions relative to his evidence at the coroner's inquest.

The court decided that as accused had taken the witness box he was subject to all the rules of cross-examination.

The evidence of the witness before the coroner's jury was now read by the clerk of the Crown.

Another series of cross-questions were then put to the prisoner, and the case was continued on the same lines this morning.

TROOPS QUARREL.

One Coloured Cavalryman Killed — Five Wounded, Two Fatally.

HUNTSVILLE, Ala., October 12.—The Tenth Cavalry, coloured, arrived from Montauk yesterday and had not been off the train an hour before some of its members became involved in a difficulty with the provost guard. One man was killed and five wounded, two fatally.

Soon after the men left the train one of the cavalrymen went to a house frequently by white men and attempted to clean out the place. He was arrested by a corporal's detail of four men of the provost guard. The arrest was quickly noised about, and the negro cavalrymen attempted to rescue the prisoner. The first man who advanced toward the guard was halted and as he turned to run was fired upon. Firing then became almost general and continued several minutes. Corporal McNaughton, Company L, Sixth Infantry, commanding the detail, was killed at the first fire. Private E. Wiles, Company M, Sixth Infantry, was shot in the knee, and Private Larkin, Company L, Sixth Infantry, received a ball in the leg. Private James Gleston, Troop M, Tenth Cavalry, received a bullet in the spine and will die. Two other Tenth Cavalry men were wounded, one of them fatally.

The affair would have been attended by more serious consequences had not a mounted platoon from the Tenth Cavalry scattered the belligerent negroes with drawn sabres. The white soldiers here entertain a very bitter feeling against the negro troops, and it is feared trouble will occur whenever the two races meet.

The recently published returns of the Dominion revenue and trade show a large increase. The amount of these notes, $2 and $1, in circulation on September 30 was $3,367,000.

THE FASHODA DISPUTE.

Everything Indicates That Britain and France Will Settle it Amicably.

PARIS, October 12.—The London correspondent of the Matin, who generally echoes the opinions of the French Embassy at the British capital, admits that the evidence supports the truth of the reports as to the desperate condition in which General Kitchener found Major Marchand, and as to the latter's almost utter lack of supplies of any kind. He says: "It is probable that Major Marchand confessed his inability to retain the territory even if not handicapped by the presence of the British and the Dervishes. It is, however, without question that Marchand did accept the British offer, courteous though it be, to provide him with transportation to Cairo. If he admits the impracticability of remaining at Fashoda, he ought to fall back to his former post at Behr-El-Ghazal.

"In such an event, France could negotiate with Great Britain to enable her to revictual and reinforce Major Marchand by the only possible route, namely the Nile.

"Whatever may be the developments of the situation, however, France must not abandon her rights to have an outlet by the Nile for the commerce of her Central African possessions."

The Government it is reported, has been informed that its despatch to Major Marchand, forwarded by the courtesy of the British Government through the Sirdar, has already been delivered and that Major Marchand is sending an officer with his reply to Cairo whence it will be telegraphed to Paris, probably arriving early next week.

The extremist papers are making strong efforts to excite public opinion against Great Britain, but it is believed in the best informed circles that Major Marchand will be authorized to return by way of Cairo.

COAL IN NEWFOUNDLAND.

Writing in the London Times, D. W. Prowse, thus describes the coal of Newfoundland:

"The coal is bright, clean and hard. It very much resembles in appearance the variety of the mineral known in England as Wharncliffe Silkstone coal. It has been tested on the local railway with excellent results. Coal-mining and exploration have only been carried out on a very small scale over the 50 square miles of the Grand Lake coalfields. The largest output, so far, is from the pit at the end of the branch railway. Since the line was completed, operations have commenced on a coal seam which has been opened right on the main line, near a small river called Goose Brook. This coal is of excellent quality, and there is every indication that the coal measure and workable areas of coal extend much further than was at first supposed. Recent exploration and actual working show clearly that the whole of the western portion of the island, the most beautiful and productive portion of the colony, is more or less a vast coalfield. The north-east portion of this carboniferous area, as it is now being traced out, pushes into the interior, and not towards the gulf. There are three coal areas in Newfoundland—Grand Lake, St. George Bay and Codroy. It is probable that, in the near future the best seam, the Codroy coal, will be worked."

DECLARING DIVIDENDS.

R. & O. Company Meets This Afternoon—Street Railway Quarterly Dividend.

The directors of the Richelieu and Ontario Navigation Company will meet this afternoon for the purpose of declaring the half-yearly dividend. This semi-annual dividend for years has been three per cent, and it is altogether likely that to-day's will be the same.

The Montreal Street Railway Company has declared a dividend of two and one-half per cent. for the quarter ending September 30. This dividend is payable on and after Wednesday, November 2. The annual meeting of the company will be held on Wednesday, November 2.

Major Rutherford, Royal Canadian Artillery, Quebec, is in town at the Place Viger.

Mr. S. W. Fairchild and Mrs. Fairchild, of New York, are in town, at the Windsor.

Mr. Strachan Bethune, Q.C., and Mrs. Bethune have taken up their residence at the Windsor for the winter.

Mrs. E. A. Lilly, of Montreal, with Lady Winter, of Newfoundland, and party, are at the Queen's Hotel, Toronto.

Sir Wilfrid Laurier arrived at the Windsor last evening from Arthabaskaville, and left this morning for Ottawa.

Mr. and Mrs. E. A. Whitehead are among those who have returned for the autumn from their pretty cottage at Dorval.

Dr. Morris S. Grant and Mrs. Grant, of Warren, Penn., who are among the American visitors at present in town, are at the Windsor.

Mr. G. B. Cramp and Miss Cramp are established at their town residence, 62 McTavish street, for the autumn, on their return from their cottage at Dixie.

Mr. and Mrs. James Johnston and family have arrived at their town residence, St. Mark street, from Hamilton Lodge, Como, where they have spent the summer.

Mr. John J. Cayley, of Picton, Ont., was married to Miss Lila Maud McDonald at Hallowell, Ont., on Tuesday, the Rev. W. J. Joliffe, Ph. D., performing the ceremony.

Mr. and Mrs. G. W. Eadie and family have taken farewell of their charming country house at the Island, Dorval, for another season, and are again established in town for the winter.

Mr. Horace Wallis, Ottawa correspondent of the Toronto Mail and Empire, will assume control of the Quebec Chronicle in a day or two. He was given a hearty farewell on Tuesday evening.

Montrealers at Toronto hotels to-day are: Rossin, Henry Sohloman, A. H. Fuller; Queen's, F. W. Stewart, A. McPherson and wife, A. M. Simmons, G. H. Harrower, B. W. Yates and Mrs. Yates; Grand Union, A. Armstrong, P. Jones, H. E. Ledoux, wife and child, R. Park and E. R. Jarvis; Walker, E. C. Harrison and James Steele.

Hon. M. B. Daly, Lieutenant-Governor of Nova Scotia, has been notified that Lord Herschell, the president of the Joint High Commission, would pay a visit to Nova Scotia. Lord Herschell sails from Quebec with Admiral Sir John Fisher on the battleship Renown for Halifax, where he will be the guest of honour at the Government House.

President Felix Faure is having a hard time with his Order of the Golden Fleece, with which he has been invested by the Queen Regent of Spain in recognition of his services in the war just ended. There are only a certain number of the collars returned to the crown of Spain or Austria on the death of their possessors, and on each collar is engraved the name of the Knights who had worn it. The only collar the Queen Regent now has to bestow on M. Faure is that which belonged to Bismarck, and Faure is naturally unwilling to wear the collar of the Iron Chancellor about his neck. Consequently he will have to wait until some other Knight dies.

Mr. and Mrs. Henrdie left last night for Hamilton.

Mr. Henry Dobell and family are among those who have returned to town from Dorval for the autumn.

Mrs. C. H. Binks and family, who have returned from England, are among the arrivals by the Gallia.

Dr. Lyman Allen, of Burlington, Vt., was married at Beverly, Mass., on Tuesday to Miss Mary C. Torrey, of that place.

Mr. C. B. Frost, M.P., and Miss Frost, of Smith's Falls, who are among the recent arrivals in town, are at the Windsor.

Mrs. M. A. Duff and Master Duff, who arrived from England by the Scotsman, are at the Queen's, en route to Winnipeg.

Mrs. A. E. Roe, 123 Union avenue, has returned home after an absence of four months, spent at the various health resorts.

After the meet yesterday Mrs. H. Montagu Allan entertained a number of lady friends at five o'clock tea at "Ravenscrag."

Mr. D. A. Armstrong and Mrs. Armstrong, of Birmingham, who arrived from England by the Scotsman, are at the Queen's.

Mr. Elliot Galt, eldest son of the late Sir Alexander Galt, K.C.M.G., has arrived in town from Lethbridge, N. W. T., and is the guest of his mother, Lady Galt, 290 Mountain street.

Mrs. (Dr.) G. P. Girdwood, University street, gave a ladies' dinner party last evening. Among those present were Mrs. Duncan McEachran, Mrs. W. Gardiner, Mrs. Allbult, Miss England and Mrs. Harrington.

The very handsome residence which Captain G. H. Matthews, president of the Sincennes-MacNaughton Line, is building for his own occupation on the corner of Dorchester and Mansfield streets, is approaching completion.

Right Hon. Joseph Chamberlain and Mrs. Chamberlain on Tuesday left Danvers, Mass., where they have been visiting Mrs. Chamberlain's family for several weeks, en route for their home in England. They will go via Boston and New York.

Among the summer residents who are still prolonging their stay at Ste. Agathe des Monts, are Mr. and Mrs. E. J. Major and the Misses Baumgarten, the little daughters of Mr. and Mrs. A. Baumgarten. Mrs. Baumgarten will leave for New York accompanied by Miss M. Monk, in a few days to join Mr. Baumgarten.

Mr. W. C. McDonald continues to progress favourably from the result of his recent accident, though still confined to his residence, Prince of Wales Terrace.

The ball, which Mr. and Mrs. Hugh Paton have decided to give, instead of a hunt breakfast, at their country house at Bord a Plouffe, on Tuesday, October 18th, gives every promise of being a delightful and much appreciated departure from the usual conventional festivity. A special car will be provided by Mr. and Mrs. Paton for the conveyance of their guests to Cartierville, which will leave Dominion square at 7.30 on that evening.

LACHUTE CHURCH UNION.

The Presbytery of Montreal held a special meeting at Lachute yesterday to consider the advisability of amalgamating the First Presbyterian Church of that place with Henry's Church, formerly the Free Church. The session boards of both churches as representing the congregations, having expressed a desire that the union should take place, the Presbytery decided to recommend that their wishes be agreed to. At the suggestion of the Presbytery, a meeting of the session boards will shortly be held for the purpose of making arrangements for the erection of a new church edifice. The union will probably go into effect in the near future.

M. Cambon, the former Ambassador of France at Washington, has arrived in Paris.

MAY MOVE TO WINDSOR.

The chances are that Montreal will shortly lose another tobacco factory and Windsor Ont., be the gainer thereby.

Goldstein Bros., and D. W. Ferguson, of Montreal who recently made an examination of the tobacco fields of Essex county have submitted a proposition for the establishment of a tobacco factory in Windsor. They will establish a factory employing from 30 to 50 hands, if the city will furnish a site and buildings worth $10,000 together with free water and exemption from taxation for 10 years. The Windsor finance committee, of Windsor, will consider the offer.

Dr. Bourque, of the Notre Dame Hospital, who is sick with typhoid fever at that institution, is doing very well, and the doctors hope to yet save him.

The Face of Jim.

"Hellow, Jim, what's the matter with your face?"

"Face nothing. It's my feet."

"Well, to judge by your looks, one would think you had a combination of toothache, neuralgia, and a broken bank book. But, say, what's the matter with your feet?"

"Hanged if I know, they feel as if I'd been walking on needles, soles burn like a Fourth of July procession, and I verily believe there's a row of pegs under them."

"Why don't you wear Goodyear Welted Shoes, then you wouldn't have anything but a smooth sole under your foot?"

"Well, these are Goodyear welted; at least the salesman said they were."

"Now, Jim, not one salesman in a thousand can tell the difference between a real Goodyear and an imitation. I'll bet you a new hat yours are not real."

"How will you prove it?"

"You prove it yourself when you say you have pegs, stitches and other varieties of corn fertilizers under your feet."

"Well, how in thunder am I to know when I get a Goodyear Welt Shoe, if a salesman lies or don't know?" said the irate, painy-footed Jim.

"Wear the Slater Shoe."

"But how will I know them?"

"Simply because the 'Slater Shoe' is made in no other way, and you couldn't get fooled if you wanted to be."

"Slater Shoes" are all Goodyear Welted, made in twelve foot-fitting shapes, all sizes, all widths, stamped on the soles with the maker's name and price, $3.00. $4.00 and $5.00.

QUEBEC LADY GOLFERS

Are Defeated by the Ladies of the Royal Montreal Club.

Rain Was Not Allowed to Interfere With the Play at Dixie Yesterday.

Yesterday proved a very unfortunate day so far as weather was concerned for the match between the Montreal and Quebec lady golfers.

The early morning looked dark and cloudy when the members of the club met at the station. After debating for some time as to the advisability of going out to the club-house, a general rush was made for the train almost at the last moment, thus that point was settled.

A heavy shower of rain greeted their arrival, the match was called off and the members thought of taking the next train back to the city.

However, the rain ceased, and after considerable controversy between the president of both clubs it was decided to try and put the match through, weather permitting.

The teams started off with the following gentlemen acting as scorers: Messrs. J. Taylor, Morris, Budden, Dr. Wylde, Stancliffe and Taylor.

A short intermission was taken for lunch then the teams again took to the links.

GRAND TRUNK TELEGRAPHERS.

A Committee in Session in the City to Formulate Requests and Perfect Organization.

A committee of the employes of the Grand Trunk Railway who are members of the Order of Railway Telegraphers have arrived in the city from different parts of the system and are seeking a conference with the superintendent, Mr. F. H. McGuigan.

This committee was in session at the Richelieu Hotel to-day. It is their purpose to request from the railway a re-adjustment of wages, looking to an increase in the same. The telegraphers have had under consideration for some time the perfection of the organization of their union on the Grand Trunk system, the same as on the C. P. R., and it is likely that further steps may be taken in that direction while the men are in the city. Grand Organizer Davis of the Order of Railway Telegraphers, represents the Executive of the Order at the meeting. He has been working along the Grand Trunk system for some time under instructions from the head office in Peoria, Ills. It is not unlikely that the Grand Chief of the order, Mr. W. V. Powell, may also put in an appearance here before the work of the committee has been completed.

PHARMACEUTICAL EXAMINATION.

The Preliminary Board of Examiners held their quarterly examinations on Thursday, October 6, when twenty-four candidates presented themselves. Of these six passed upon all subjects, their names, placed in order of merit, being as follows: Louis Weinfield, Joseph G. Leonard, Omer O. Paquette, P. E. Brouillette, Geo. Letourneau, C. A. Dupont. Mr. Geo. A. Leduc, of Quebec, passed upon all subjects but arithmetic, for which subject he will have to present himself again in January next. The candidates were examined in French, English, Latin, Arithmetic, History and Geography.

The examiners were Rev. Abbe Verreau, of Jacques Cartier Normal School, and Prof. Isaac Gammell, of the High School, Montreal.

The next examination will be held on January 5, 1899.

MR. MORIN APPEARS

In the Counter Charge of Stock Gambling Made Against Him.

Mr. J. H. Morin, the complainant in the bucket shop case now in progress against Messrs. Gosselin, Fortier and Lamontagne, was notified this morning that a warrant had been issued against him in connection with the above alleged stock gambling case. He came to the Police Court this morning from Toronto in answer to a summons from the court calling for his appearance. He denied the charge, and bail was accepted by the Magistrate in two sureties of $200. The deposit was made by Mr. L. A. Wilson, of Lawrence A. Wilson & Co., and Mr. Morin personally.

The case against Messrs. Gosselin, Fortier and Lamontagne will be resumed tomorrow morning.

ROBBED HIS FATHER.

Wilfrid Landrieville Gets Four Years in Penitentiary.

Wilfrid Landrieville, arrested by Detective Despault, pleaded guilty before the Police Magistrate this mornig to robbing his father, who lives at 374 St. Andre street, of several articles of silverware. He was given a sentence of four years in the penitentiary.

WANTS $5,000 DAMAGES.

P. Donovan, a dining room owner on Craig street, is suing the city for $5,000 damges for false arrest. The plaintiff alleges that the police went to his place in a patrol waggon at the instance of a Sanitary Officer, broke in and arrested him. He was taken to the Police Station and put in the cells, where he remained for some time. He was taken before the Recorder and discharged, there being no charge laid against him. It appears that Donovan was at a neighbours when he heard the Sanitary Officer run his place down. He strongly objected, and the former went out and called up the Police. Donovan in the meantime went into his own place, and it was there he was arrested.

WEST END LAND SALE.

Some choice property on Crescent street between St. Catherine and Sherbrooke streets, was put up at auction at J. Cradock Simpson & Co.'s this morning. The building lots in question have a total frontage of 60 feet and a depth of 103 feet. The limit placed on the property was $1.30 per square foot, and it was bid up as high as $1.25 and expenses, which would bring it up about 2 1-2 cents. As there were several people interested in the bidding, the chances are the property will be closed out privately.

THE OCEAN MAILS.

The Interim Contract May be Awarded This Afternoon.

(Special to the Star.)

OTTAWA, October 12.—Sir Louis Davies and Sir Richard Cartwright have returned and spent the morning in their offices. Sir Wilfrid Laurier arrives this afternoon. An urgency meeting of the Council is summoned for three o'clock, at which it is possible the steamship tenders may be considered.

Messrs. Andrew and Henry Allan with Mr. R. A. E. Greenshields had a long interview with Sir Richard Cartwright this morning. Mr. Torrance, on behalf of the Dominion Line, is also in town and Mr. D. W. Campbell of the Beaver Line, is on his way up. The contract will be awarded and the subsidy given only on the distinct understanding that the terms of the contract are carried out in every particular.

PROPOSAL TO EXPEL COUNT ESTERHAZY FROM THE FRENCH ARMY.

(Special to the Star.)

PARIS October 12. — Although the strikers are evidently wavering, thirty more brigades of gendarmerie have been ordered to Paris.

WANTS TO SEE THE DOSSIER.

Maitre Mornard, who will represent Dreyfus in the revision proceedings before the Court of Cassation, has applied to Alphonse Bard, reporter of the original proceedings, for authorization to examine the documents in the Dreyfus case.

MAY EXPEL ESTERHAZY.

The Council of the Legon of Honour, acting at the instigation of the Minister of War, will shortly deliberate upon the case of Count Esterhazy with the view of his dismissal from the army.

COL. PICQUART'S CASE.

The Cabinet yesterday discussed the question of the seclusion of Lieut.-Col. Picquart. MM. Brisson, Bourgeois and Delcasse urged that the secret confinement of the prisoner ought to cease. M. Sarrien declared that Picquart was completely out of the jurisdiction of the Cabinet. He suggested that Gen. Chanoine might appeal to the Military Procurator or to Gen. Zurlinden, Military Governor of Paris, who alone were able to relax the rigours of Picquart's imprisonment.

CLEMENCEAU'S CHALLENGE.

No answer has yet been made to the article of M. Clemenceau in L'Aurore, in which it is charged that M. Hanotaux, when Minister of Foreign Affairs, paid 27,000 francs ($5,400) for photographs of letters alleged to have been written by the German Emperor and which are contained in the Dreyfus dossier.

THE PEACE NEGOTIATIONS.

The gravest anxiety is caused by the hitch in the negotiations of the Spanish-American peace commission. The refusal of the Americans to recognize the Cuban and Porto Rican debts and the determination of the United States to insist upon the annexation of the entire Philippines have combined to provoke Spain to a point where she will demand the intervention of the Powers.

THE CESAREWITCH.

Won by Chaleureux—Sloan's Mount Astorie Ran Second.

LONDON, October 12.—The Autumn Handicap at Newmarket, was won by Leopold D. Rothschild's colt Sacripant. High Treasurer, the property of Lord Howe, and ridden by Tod Sloan, was unplaced.

In the Kennett Plate, Lord Rosebery's Ebba, with Sloan up, had a walk over.

Sir J. Miller's Chaleureux won the Cesarewitch Stakes. Astorie, the property of Sir B. Waldie Griffiths, ridden by Sloan, finished second. Merman ran third.

A selling plate, for two year olds, was won by H. McCalmont's Karosoko, ridden by Sloan.

WEDDINGS IN TORONTO.

(Special to the Star.)

TORONTO, October 12.—Several weddings of a quiet nature, but with fashionable people concerned, took place here to-day. There was a quiet little house wedding at Carlton Lodge, the residence of Judge McDougall, this afternoon. The bride, Miss Ethel Amelia McDougall, was given away by her father. The groom, Dr. William Herbert Young, of Peterboro, was assisted by Mr. G. Harold Muntz. The maid of honour was a younger sister of the bride, Miss Sheik McDougall. Rev. W. J. McCaughan, of St. Andrew's Church, performed the ceremony.

Another quiet wedding will be the marriage of Miss Mary T. Ryan, daughter of Mr. Peter Ryan, of Grosvenor street, to Mr. Ernest Wilfrid Pratt, of Victoria, B.C. The ceremony will be performed at six o'clock this evening by Father Brennan. The bride will be assisted by her younger sister, Miss Margaret Ryan, and a brother of the bride. Mr. Bernard Ryan will attend the groom.

A quiet wedding was that of Miss L. F. C. Nellis, daughter of the late Dr. Nellis, President of Victoria University, to Mr. J. R. L. Starr. The wedding occurred at the house of the bride's mother, and was performed by Rev. J. H. Starr, father of the groom, and Rev. Dr. Reynar, of Victoria University. The bridesmaid was Miss Dingwall, of Toronto, and the groom was assisted by his brother, Dr. Starr.

NOTES OF THE NEWS.

Sir Henri Joly de Lotbiniere is lying ill of severe cold at his home at Lotbiniere.

There has been a decided improvement in the export lumber trade of Ottawa during the past few weeks, and large quantities are being sent to the American market.

Mrs. Augusta Nack, accomplice of Martin Thorn, who was executed for the murder of William Guldensuppe, is becoming blind. Double cataracts are forming over both the woman's eyes.

The village of Foxboro, six miles from Belleville, Ont., was visited by burglars on Tuesday night. The jewellery store of Charles Gardiner and the shoe store of D. B. Leavens was entered, and a quantity of stock taken. Tramps are suspected.

While some workmen were excavating for a new block of buildings at the Wellington Barracks, which was formerly the Richmond Prison, they came on a coffin, on the plate of which was "J. P., hanged 1883." This was at once known to be the coffin containing the mortal remains of Joe Poole, who was hanged at Richmond Prison on the 18th December, 1883, for the murder of John Kenny, a man connected with the Fenian organization, but who was supposed to be a traitor to the cause. Kenny was shot in Seville Place, Dublin, on the night of the 4th of July, 1882. Poole was arrested for complicity in his murder, but was afterwards discharged. On the 27th November, 1883, Constable Cox was murdered in Abbey street, and Poole was arrested the following day, but shortly afterwards discharged, to be rearrested for the Kenny murder. The jury disagreed on the first trial; but on the second Poole was found guilty, and sentenced to be hanged. He declared his innocence of the murder, but ended up his speech with the words "Farewell to Erin! Three cheers for the Irish Republic, and to h— with English tyranny!" The discovery of the remains of Poole made a great stir in the city. His mother, Mrs. Poole, is making application to allow the remains to be placed in his father's grave.

Salmon fishing statistics for the year past show a great falling off in the catch of fish, and as the decrease is noted all over the three kingdoms, there must be some very potent reason for the decline. Lord Howth, who takes a very lively interest in the matter, has asked the Limerick Fishery Conservatory to sanction his sending an expert to report on the cause of the decline, and to see what can be done to effect some improvement. The Board of Conservators, while agreeing to assist Lord Howth in every way they could, did not apepar to be very enthusiastic or sanguine of any success attending such an enquiry. Mr. Reeves, chairman of the Board, expressed the opinion that the decline was due more to natural causes, such as something in the sea, or climate, which they did not at present understand, than to the undue poaching in the Upper or netting in the Lower Shannon, and in this opinion, he said, he was strengthened by the fact that it was not alone in the Shannon that the falling off had been so noticeable, but it had also occurred to as great an extent in the north of Ireland, Scotland and Norway.

A recent visit to Shakespeare's house and Anne Hathaway's cottage has convinced Mr. Edwin Drew of two dangers, which he refers to as follows: "I was informed officially in Shakespeare's birth-room that the hot water pipes in winter are so affecting the plaster that it peels off, and, owing to this the signatures of Tennyson and Dickens have disappeared. Among the mass of names on walls and ceilings are many which add an interest even to the overwhelming halo of Shakespearian memories, and these great names are a record in themselves. Yet they must disappear without further protection. Could not the walls and ceilings be encased in glass to preserve the names and stop the peeling? At the Hathaway Cottage—a thatched house with much woodwork—I found a good coal fire burning, and near was dry wood, only too inflammable. A spark would set the place alight, and it would be in ashes in a few minutes. I saw no adequate means to check fire. As the cottage belongs to us all, should not its protection concern us? I don't think any fire should be allowed in it, and the excellent inmates should live in a house near."

SAYS HE ESCAPED.

Peculiar Story Told by a Man Now Under Arrest in England.

The Attorney-General has written to the Montreal authorities, that he has been notified by the Imperial Government, of the arrest of a man, giving the name of Charles Edwards, who has confessed that he is wanted in Montreal for murder. His story is that three years ago, while awaiting trial, he made his escape from goal in this city. He is being held pending the arrival of a reply from Canada.

The communication puzzles the authorities, as they know of no such case, and the records are now being searched for any trace of such a case.

BORED THE SAFE DOOR.

Robbers Visited Messrs. Christin & Co.'s Office and Got $50.

The ginger ale factory building of J. Christin & Co., on Sanguinet St., was entered this morning by robbers, who made a very good haul.

They got in about three o'clock by a window in the engine room and they immediately proceeded to the office where they broke open the till and took over $50.00 in American money and a revolver, 32 calibre.

Holes were bored in several places in the door of the safe, but the robbers did not succeed in breaking it open. The robbers were surprised by an employe of the firm, Mr. Ferland, and they escaped, leaving behind them all their tools and a little bottle half full of powder. The case has been put in the hands of the detectives.

NEWS OF THE CITY.

SEPARATION—Judge Loranger has granted Joseph Landry separation from his wife, Elmire Barrette, on the ground of ill conduct.

LEMIEUX INQUEST.—An inquest will take place this evening at the morgue, on the death at Valleyfield of Louis Lemieux, who was struck by a train of the Canada Atlantic.

STOLE A DOLLAR—Pierre Longpre, a boy of 13, living on Poupart street, pleaded guilty to stealing $1 from the till of Mr. Jas. Brossard, merchant. He was sent back for sentence.

BROKE HIS LEG.—The General Hospital ambulance was called at halfpast nine this morning to the canal at Point St. Charles, for a man named Edward Bond, of 59a Forfar street, employed by Peck, Benny and Co. The man had fallen and broken his right leg. He was taken to the hospital.

HILLMAN'S CASE—Mr. L. A. Lapointe, the secretary-treasurer of the Licensed Victuallers' Association stated this morning that the Association had taken up the defence of Mr. E. W. Millman, who is being sued by the Citizens League, for having kept his restaurant open on plebiscite day.

VICTIM OF DRINK.—Coroner McMahon held an inquest this morning at the morgue on the body of Josephine Barrette, who was found dead at No. 13 Perrault lane, on Monday morning.

Dr. Wyatt Johnston, who made the autopsy, said that the woman had been drinking heavily and she had slight wounds on the body. These, however, were of no consequence. Several other witnesses were heard, who told of her drinking habits and the jury rendered a verdict of "Death from alcoholism."

BICYCLIST FINED.—At Westmount this morning, twelve bicyclists were sentenced by Mr. McMahon, to $1 or 8 days, for fast riding in the limits of the municipality. The by-law forbids riding at a speed of more than 10 miles an hour.

RAILWAY APPEALS—The Montreal Park and Island Railway are appealing from the award of Messrs. Whitehead, Hobson and Pare, arbitrators in the case of the Dominion Bridge Company, for property expropriated by them at Lachine.

MR. ROBIDOUX'S UMBRELLA.—A valuable umbrella stolen from the Hon. J. E. Robidoux yesterday was recovered by the detectives this morning. Phileas Desjardins was arrested on the charge, but pleaded not guilty and was remanded for trial.

ACCIDENTAL DEATH.—Coroner McMahon went to Vaudreuil last night, where he held an inquest on the body of Olivier Robillard, aged 76, who was killed at 5.45 on Monday night by the Canada Atlantic at Vaudreuil. The evidence given showed that the man was deaf, and that the engineer in charge of engine 576, William Checketts, was not to be blamed, and the jury rendered a verdict of "accidental death."

CATHOLIC SCHOOLS.—The Catholic School Commissioners met last night. Rev. Racicot presided. The financial report will be read at the next meeting. The report of the night schools, which has already been published in the Star, was read. It was decided to build a new fence between the Commercial Academy and the Sisters of Nazareth. The nomination of a teacher for the Montcalm school was put off until the next meeting.

SETTLED BY THE CITY.

Legal Expenses in the Case Which Resulted in the Seizure of the City Hall Paid—City's Suit for Damages Dropped.

On September 10 the Finance Committee passed a report, in virtue of which the city has paid Messrs. St. Jean, Archer & Decary some $2,800 legal costs, incurred in connection with the suits taken against the city by them, on account of the city failing to carry out the expropriations in 1896. It was stated, while the matter was under discussion in the Finance Committee, that the lawyers would have the right to proceed against their clients, and that the latter could call in the city en guarantee. This would have entailed considerable additional expense, and it was to prevent this that the report was passed. Now, however, there is much indignation expressed at the settling of the cases, as one of the results is the settlement of the case for $100,000 taken against some of the plaintiffs in these cases for damages in connection with the sensational and much-advertised seizure of the City Hall during Mr. Wilson Smith's term as Mayor. It will be remembered that the seizure of the City Hall was made with great ostentation, but that when the seizure was resisted in the courts it was quashed, as it had been taken without the authority of the courts.

Mr. Roy, then City Attorney, retaliated at the time by taking an action for $100,000 damages against the parties in whose names the seizure had been made, and he and other eminent counsel then advised the Mayor that there was every chance of the city winning its case.

Now that this case has been withdrawn without any compensation to the city, there is much annoyance expressed about the City Hall, and an explanation will be asked for in the City Council. It is explained that the city did not have to pay the costs of the seizure of the City Hall.

MOCK CITY COUNCIL.

The regular weekly meeting of the Y. M. C. A. Mock City Council will be held in the Council Chamber on Friday, October 14, to consider the business specified in the following order of the day. Report, Police Committee, on petition for revision of regulation governing Bicycle Stands on public side-walks.

Report, Finance and Parks, recommending the sale of that portion of the city property bounded by Mount Royal Avenue, Pine avenue, Esplanade and Park avenues as follows:

That the real estate hereafter specified, being the property of the city, be sold or leased for a term not exceeding ninety-nine years; and that the proceeds be applied wholly and solely to the reduction of the permanent fund debtedness of the city. That property (known as part of Fletcher's Field) bounded by Mount Royal avenue, Pine avenue, Park avenue and Esplanade avenue. W. A. Doig, chairman.

ACCUSED OF STEALING BRASS.

Elizie Dion, Michael Cobbin and Alfred Duke were arrested by Detectives Suthergill and Picard last night charged with stealing 1800 lbs., brass and copper scrap from the C. P. R. and G. T. R. Companies, at the wharf. The metal, which is part of the cargo of the Thompson Liner Grecian, was stolen from barrels and sold at a junk store.

All three acknowledged finding the metal but pleaded not guilty to the theft. They were remanded for trial.

THE DIOCESAN COLLEGE.

Tenth Annual Confernece of the Association Opened.

The tenth annual conference of the Montreal Diocesan Theological College Association was opened this morning with a plain celebration of the Holy Communion in the college chapel, University street. The Rev. T. E. Cunningham, rector of St. Luke's Church, officiated as celebrant, and among those present were the Lord Bishop of Montreal, the Rev. Messrs. Mallinson, Fyles Mills, Plante, Bourne, Yates, Wilson, Robinson, McEwan, Judge, Lewis, Graham, Marriott, Mason, Flanigan, Lummas, Pratt, Craig, Rexford, Troop, Elliott, Cunningham, the Ven. Archdeacon Mills, and the Rev. Dr. Ker. At the close of the service, a quiet hour was conducted by the Rev. Mr. Rexford, who also delivered a series of fifteen minute addresses on the work and personality of the Holy Spirit. He alluded to the intimate relationship which existed between the third Person in the Blessed Trinity and the human nature of Christ. The Holy Spirit, he said, was the agent in the creation and preparation of that nature. He was also manifest at the baptism of Christ, and this gentle and benign influence was fitly symbolized in the dove. The relationship established at that time between the Son and the Holy Spirit continued throughout the earthly ministry of the former, and numerous illustrations were given in the Gospels of the manner in which Christ had been sustained by the Spirit.

The speaker in conclusion, spoke of the relationship of the Holy Ghost to the institution founded by Christ, namely the church. His work there consisted of the purifying and cleansing of its members from all sin.

The meeting was brought to a close with the benediction.

The regular business sessions of the conference commenced this afternoon, when the following papers were read:

"The Clergyman," (a) In the Study, Rev. N. P. Yates, B. A.; (b) In the Pulpit, Rev. W. P. Lewis, B. A.; (c) In the Parish, Rev. A. C. Wilson. "The Bible in the Sunday School."—Rev. J. Irwin Strong.

To-morrow's programme is as follows:

9.15 a. m.—Holy Communion in College Chapel.

10.00 a. m.—"Historic Views of the Incarnation,"—(a) Patristic, Rev. G. Abbott-Smith, M. A., B. D.; (b) Scholastic, Rev. H. E. Horsey, M. A.; (c) Modern, Rev. F. H. Graham, B. A.

12 noon—"Conditional Immortality,"—Rev. Rural Dean Sanders, B. A.

2.30 p. m.—"The Temperance Question,"—(a) As to the teaching of Scripture, Rev. Jas Carmichael, jr.; (b) As to present circumstances, Rev. E. P. Judge. Discussion.

3.30 p. m.—"The Second Advent,"—(a) In relation to the Millennium, Rev. Basil S. T. Marriott; (b) In relation to the signs of the Times, Rev. F. Steacey, B. A. Discussion.

8.00 p. m.—Graduates Reunion and Business Meeting.

ACTION AGAINST A CHURCH.

Judge Choquette this morning dismissed the case for $5,000 damages of Madame Philippe Vandal against the cure and church wardens of the Parish of St. Vincent de Paul, of Montreal, and Onesime Martineau, called in warranty. The plaintiff when coming out of the church fell on the steps, owing, as she claimed, to the nonremoval of some obstruction. The defendant in warranty Martineau, was condemned to pay his own costs.

Mr. Thos. Fysche, joint general manager of the Merchants Bank of Canada, and Mr. Richard White, of Montreal, are guests at the Colonial, Mt. Clemens, Michigan.

LADY SOMERSET MATTER.

Provincial W. C. T. U. Executive's Endorsation of Her Sustained.

A MOTION OF CENSURE WAS VOTED DOWN.

(See also page nine.)

The W.C.T.U. Convention resumed its work this morning in the Methodist Church at Westmount. The weather was much finer than yesterday, and, as a result, a large number of delegates were present.

The delegates were then all classified and seated in the pews according to the counties they represented. After the meeting came to order, considerable discussion arose over a minute referring to the sending of a letter by the Provincial Executive expressing sympathy with Lady Henry Somerset, World's President. The sending of the letter was consented to, and it was agreed to discuss the sentiments contained in the letter later. It was resolved by a standing vote to make Mrs. Sanderson of Danville, a life member of the World's W.C.T.U. in succession to Mrs. Middleton. A warm tribute was paid Mrs. Sanderson in connection with the presentation of this honour. She replied in appropriate terms.

A motion was made by Mrs. Dickson, of Richmond, seconded by Miss Bord, of Vaudreuil, practically placing the Provincial upon trial for their letter of endorsation to Lady Somerset. This discussion was participated in by the president, Mrs. Rugg, of Stanstead; Mrs. Dickson, Miss Dougall, of Montreal; Mrs. Ewing, and others. The motion was as follows:

"That this Convention does not endorse the Provincial Executive in their action in writing the letter of endorsation to Lady Henry Somerset."

The motion was lost, and it was agreed that this should be a final settlement of the question in the Province of Quebec.

Mrs. Rutherford, the Dominion President, was introduced and received the salute. She spoke briefly.

The following names were announced in connection with the Plan of Work's Committee.

Convener: Mrs. S. J. Craig, Compton; Argenteuil, Mrs. Cole; Brome, Mrs. A. Dyer; Compton and Wolfe, Miss Cairns; Chateauguay, Mrs. Lang; Hochelaga, Mrs. Radford; Huntingdon, Mrs. Dunsmore; Church, Pontiac, Miss Armstrong; Quebec, Church; Pontiac, Mrs. Armstrong; Quebec, Mrs. Distin; Richmond and Drummond, Mrs. Kellock; Shefford, Miss Tompkins; Sherbrooke, Mrs. Berry; Stanstead, Mrs. H. M le Baron; Stanstead, Miss Monk.

Resolution Committee—Mrs Rugg, Stanstead, Convener:

Ottawa, Mrs. McLean; Stanstead, Mrs. Hastings; Argenteuil, Mrs. Henderson; Brome, Mrs. Meikleiohn; Compton, Mrs. J. C. Smith; Chateauguay, Mrs. Cavers; Hochelaga, Miss Walker; Huntingdon, Mrs. McLaren; Missisquoi, Mrs. Johnson; Quebec, Mrs. Stobo; Richmond and Drummond, Mrs. Kidd; Shefford, Mrs. Rockwell; Shefford, Mrs. Allen; Sherbrooke, Mrs. Hyndman; Stanstead, Mrs. M. Hastings.

APOSTOLIC DELEGATE TO CUBA.

WASHINGTON, October 12.—Cardinal Gibbons, who is here attending the meeting of the Archbishops at the Catholic University, received a cablegram from Rome, to-day announcing that the Pope had appointed Archbishop Chappelle, of New Orleans, as apostolic delegate to Cuba. He will retain his position at New Orleans, his new field being a special mission. Archbischop Chappelle is now in Rome.

CHARGED WITH PERJURY.

Pierre Pilato and Jennie Sanderson, two witnesses in a former liquor case, were placed under arrest this morning charged by the Revenue Department with perjury. They are held on a warrant from the Police Court. The information charges them with making false statements in the case of Matilda Laberthe, of Cadieux street, tried before the court on September 28, for selling liquor in her place without a license. Then it is stated, three witnesses, the two accused and an old man named Lamortie, swore that there was no liquor in the house, that none was paid for, and in short that the Revenue officers never visited the premises. It was proved that this was not the fact. Warrants were made out for their arrest some days ago, but the officers were unable to execute them. Yesterday the Deputy High Constable placed them under arrest. They appeared before the Police Magistrate this morning, and pleading not guilty, were remanded for enquete.

AN ENGINEERING TASK.

Mr. R. C. Douglas, Hydraulic and Bridge Engineer of the Department of Railways and Canals, Ottawa, is at the Windsor. Mr. Douglas returns this evening to Cornwall, where he will resume his investigation into the recent bridge catastrophe. It will be remembered that the bridge of the New York & Ottawa Railway, in course of construction, collapsed, resulting in the death of a large number of workmen. Mr. Douglas has been entrusted by Hon. Mr. Blair, Minister of Railways, with the duty of making an investigation into the causes of the disaster. Under his direction a staff of experts have made soundings and borings to determine the character of the river bed. Mr. Douglas declined to discuss the various theories as to how the accident occurred.

McGILL APPLIED SCIENCE '02.

At a meeting of the First Year students of Applied Science, the following officers were elected for the year 1898-99:

President, Mr. H. W. Trenholme; vice-president, Mr. Beck; secretary-treasurer, Mr. C. V. Corless; class reporter, Mr. A. E. Cardell; reading room representative, Mr. Dunfield; representative to technical society, Mr. Dutcher; sports representative, Mr. Mitchell; fotball captain, Mr. H. W. Trenholme.

McGILL BANJO CLUB.

The first practice of the McGill Banjo and Mandolin Club was held last evening in the Applied Science building. The club has secured the services of Mr. Meredith Heward as instructor. A large number were present, and the club has excellent prospects for the coming season. They intend making an extensive tour about Christmas, but have made no definite arrangements yet.

FIRE INSURANCE INVASION.

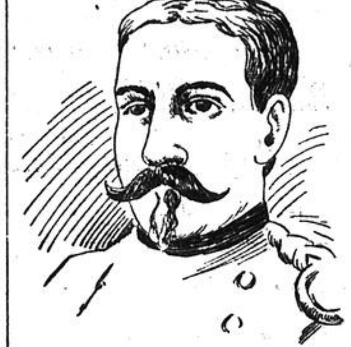
INDIANS WILL SUBMIT.

The Pillagers Decide to Surrender and Thus Avoid a General Indian War in Minnesota.



MAJOR-GENERAL BACON, U. S. A., who commanded the expedition against the rebellious Pillager Indians in Minnesota.

ST. PAUL, MINN., Oct. 12.—A Walker, Minn., special to the Despatch says:—

The Bear Island Pillager Indians will surrender, and war has been avoided. It only remains for the terms to be arranged before the hostiles will come into the agency.

Father Aleysius Homanutz, Gus. Beaulieu, and Chief Cay-Cwa-Che-Way-Bimung, the three peace commissioners, who left on the Flora, last evening, for the hostile camp, got back at 4 o'clock this morning. They got to camp at Black Duck Point at the mouth of the Boy river, at 9 o'clock last night. Indians on watch responded to signals and the three peace commissioners went ashore in a skiff, carrying flour, bacon, sugar, rice, tobacco and canned goods. They met a large number of the Indians back in the woods and were given a cordial greeting. Hands were shaken all round, and the battle of a week ago was talked over. The Indians alluded to it as a "little fun." They asserted that none of their number were killed or wounded.

Bug-Ah-Meh-Ce-Shig was not in conference with the peace commissioners, but his greetings were shouted back and forth across the little bay between him and the commissioners. After landing a big fire was built, and a conference held for three hours. The Indians were familiar with every movement of the troops, and marshals, and nothing told them was new. A report in writing is to be made to Indian Commissioner Jones. The emissaries refused to make public their report until submitted to Commissioner Jones, further than to say that the Indians will come to the agency when a reply is sent back to the settlements in the report of the commissioners.

OPENING OF DOMINION STREET.

Joint Committee From the City and St. Cunegonde to Wait Upon the Grand Trunk---More of Craig Street to Be Paved.

The Road Committee held a prolonged sitting to-day, Alderman Brunet in the chair, and all of the members of the committee being present.

A whole year was taken up discussing the plans for the passage which is to connect the platforms of the Viger Square Station with Notre Dame street. Some of the east end aldermen and people want the bridgeway to be of certain grade, and in a certain place, and others want completely different conditions. The committee heard a long and wearisome discussion over the matter this morning, and finally asked the City Surveyor to prepare a new plan embodying the chief suggestions made.

Alderman Gallery brought up the disgraceful condition of Ann street. Two of the biggest stables in the city are on this street, those of the Dominion Transport Company and Crathern and Caverhill, and it is quite impossible to keep the macadam roadbed in good condition with such heavy traffic. Ald. Gallery asked that the main part of the street be paved in granite blocks.

The City Surveyor was asked to make an estimate of the cost.

On the suggestion of Alderman Turner, the City Surveyor was asked to submit an estimate for the paving in asphalt of the remainder of Centre street.

A deputation of the Town Council of St. Cunegonde headed by Mr. Adam, Town Attorney, and Councillor Luttrell, appeared before the committee to ask for operation in an attempt being made to secure the opening of Dominion street across the Grand Trunk tracks.

The deputation explained that St. Cunegonde had already made representations to Mr. Hays of the Grand Trunk, and that gentleman had stated that the company would open the street if the municipal authorities would pay half the cost of the maintenance of the gates. They thought this a hard condition, and as the city was interested they wished to have the support of the city in making further representations to the company.

Ald. Martineau drew attention to the fact that Ald. Ames has had a notice of motion on the order paper of the City Council for some months back that the Department of Railways and Canals be asked to order the street to be opened.

On motion of Ald. Gallery a sub-committee consisting of Ald. Brunet and Turner and the mover was appointed to act with the St. Cunegonde authorities in the matter.

Another long discussion took place over the Craig street paving matter.

Ald. Dupre moved that the contractors for the paving of Craig street be ordered to continue the work of paving the north side of the street from Vigor square westward as far as it could be done with the balance of $4,500 remaining at the credit of the appropriation for the paving of the street.

Ald. Ouimet moved that the work be done by day's work.

Mr. St. George, the City Surveyor, opposed this suggestion. The job was a small one, and would carry the paving of the north side of Craig street no further than German street. It would not pay to get the materials and tools ready for such a small job, and the result would be only to make an unfair comparison between day's work and contract. As the committee knew he favoured doing work by day's work, but he thought it was only fair to give the department a chance with a decent sized job and at the beginning of the year.

Ald. Ouimet, after some discussion, withdrew his amendment and the main motion was carried without division.

SOLD SHORT MEASURE.

That is the Charge Against Alfred Brisson, of Champlain St.

Alfred Brisson, a merchant of 261 Champlain street, was arrested on a warrant from the Police Court yesterday on two charges of infraction of the weights and measures act. The accusation was laid by Mr. Shale, inspector of weights and measures for Montreal, and charges the accused with using in his store a bushel measure which is half a quart short, and on October 7 another bushel measure 1 1-2 quarts short. The warrant was executed by Deputy High Constable Lambert, and on a plea of not guilty the accused was remanded.

CAPT. ST. PIERRE'S BRAVERY.

The young man Rousseau, who was badly burned on the roof of Mr. C. A. Sharpe's building on Notre Dame street yesterday by electric wires, is doing well at the Notre Dame Hospital. The young man's life was saved owing to the bravery and the daring of Captain T. St. Pierre, of No. 2 Fire Station salvage, who climbed up to the roof with great difficulty and got the young man out of his dangerous position. Captain St. Pierre was afterwards congratulated for his brave deed.

NON-EXPROPRIATION CASE.

Mr. Michael Guerin Suing the City for $97,996 Damages.

Judge Choquette this morning, commenced the hearing of evidence in the case of Mr. Michael Guerin, Real Estate Agent, against the City, for $97,996.72 for damages sustained by him by the nonexpropriation of his properties on St. Antoine street and one property on Aqueduct street, as it was bound to do by its charter for the widening of St. Antoine street and this not later than May 1st, 1895. He was notified that the expropriations were going to take place, and in fact his properties were placarded to that effect. Then the city refused to proceed, entailing thereby loss of rent, etc. He had to cancel his leases, and he places the loss which he has since sustained at the above amount. Mr. Guerin was in the box all day, and was examined as to the details of his losses.

The Lady Warwick Hostel, which the Countess of Warwick has decided to found in connection with the Reading Extension College, will have the founder as president, and Miss Edith Bradley as warden. The hostel will enable women over the age of sixteen years to obtain theoretical and practical instruction in all the lighter branches of agriculture. The executive of Reading College have consented to provide the necessary courses of instruction, and to recognize the hostel as a place of residence for women students. In founding the hostel the Countess of Warwick hopes to develop the formation of settlements of women in various parts of the country to cultivate the land, and so add to their incomes by the sale of fruit, flowers, vegetables, poultry, eggs, honey and other produce. The hostel will accommodate thirty students, and in addition to the usual arrangements, it will have a tennis lawn, large garden, a field covering one acre, an asphalt tennis court and gymnasium.

THE CURE OF INEBRIATES

Discussed by Society for Protection of Women and Children.

GOLD CURE MANAGER REFUSED TO GIVE TREATMENT FREE.

The evils of intemperance were discussed at the monthly meeting of the Society for the Protection of Women and Children this morning. Besides Mr. F. E. Grafton, who presided, there were present Messrs. Walter Drake, Rev. E. McManus, Rev. Thos. Harris and G. M. Marshall, the secretary.

The report of Mr. Marshall for the past month was as follows:

"There were 55 cases reported, investigated, and dealt with during the month of September, 1898, as follows: There were 13 complaints against husbands for drunkenness, general ill-treatment and non-supports'. Of these nine were warned by your agent, on promise of good behavious in future, eight were brought before the judge; he cautioned two and punished six. There were two complaints of assault upon women; had both arrested and both were punished. Four wives reported their husbands had deserted them; found three, induced two to return to their families and compelled one who would not return, to pay an allowance. Sent two sick women to hospital; supplied two poor boys with free schooling and books; placed thirteen destitute children in Homes according to their religion, and one very refractory young girl in the reformatory; took one crippled boy off the streets begging and warned his parents. Four servants reported the non-payment of their wages; I received wages to the amount of $64.

There were also 27 cases of various kinds which cannot well be classified and which were dealt with according to their circumstances."

In reply to letter from Mr. Marshall, the manager of a local Gold Cure institute wrote regretting his inability to treat inebriates free of charge. He said the lack of municipal support and high taxes combined to restrict his field of charitable operations; he was however, willing to quote a reasonable rate.

Mr. Grafton said an inebriate hospital was a necessity. He added that the same opinion was entertained by the Recorder, and took the view that imprisonment in gaol had no corrective influence.

After a recital of the ruin created by the drink habit, the secretary was instructed to communicate with the Belgian Brothers, Longue Pointe, to ascertain on what terms inebriates are treated in that institution.

Sir William Hingston wrote thanking the society for having elected him a director. He also expressed sympathy with the work.

Mr. Marshall reported that domestics frequently were unable to get their wages. He said the servants without knowledge of the law left their positions without giving due notice; everything would be simplified if the servants after unfair treatment took the precaution before leaving to give the legal notice of fifteen days.

THE 21ST'S CHARGE.

Sweep of the British Lancers at the Battle of Omdurman.

Letters from the English officers that fought before Omdurman are reaching home. Some of them put the number of the killed and wounded among the Dervishes even higher than do the newspapers, and all dwell upon the execution wrought by the quick-firing guns and the magazine rifles, at last tested in actual fighting. Since the gallantry of the Twenty-first Lancers has gone through the world, it is worth while to quote the story of their charge as one of the officers that led it tells it to his people:

"In the foreground about 200 Dervishes were crouching in what appeared to be a small khor or crease in the plain. The duty of the cavalry to brush these away and proceed at once to the more numerous bodies in the rear was plain. With a view to outflanking them, the squadrons wheeled to the left into columns of troops, and, breaking into a trot, began to defile across their front. We thought them spearmen, for we were within 300 yards and they had fired no shot. Suddenly, as the regiment began to trot, they opened a heavy, severe and dangerous fire. Only one course was now possible. The trumpet sounded 'right wheel into line,' and on the instant the regiment began to gallop in excellent order toward the riflemen. The distance was short, but before it was half covered it was evident that the riflemen were but a trifle compared to what lay behind. In a deep fold of the ground—completely concealed by its peculiar formation—a long, dense, white mass of men became visible. In length they were nearly equal to our front. They were about twelve deep. It was undoubtedly a complete surprise for us. What followed probably astonished them as much. I do not myself believe that they ever expected the cavalry to com on. The Lancers acknowledged the unexpected sight only by an increase of pace. A desire to have the necessary momentum to drive through so solid a line animated each man. But the whole affair was a matter of seconds.

"At full gallop and in the closest order the squadron struck the Dervish mass. The riflemen, who fired bravely to the last, were brushed head over heels into the khor. And with them the Lancers jumped actually on the spears of the enemy, whose heads were scarcely level with the horses' knees.

"The Dervishes stood their ground manfully. They tried to hamstring the horses. They fired their rifles, pressing their muzzles into the very bodies of their opponents. They cut bridle reins and stirrup leathers. They would not budge till they were knocked over. They stabbed and hacked with savage pertinacity. Many horses pecked on landing or stumbled in the press and the man that fell was pounced on by a dozen merciless foes.

"The regiment broke completely through the line everywhere, leaving sixty Dervishes dead and many wounded in their track. A hundred and fifty yards away they halted, rallied and in less than five minutes were reformed and ready for a second charge. The men were anxious to cut their way back through their enemies. But some realization of the cost of that ride began to come to us all. Riderless horses galloped across the plain. Men clinging on to their saddles, lurched helplessly about, covered with blood from perhaps a dozen wounds. Horses streaming from tremendous gashes limped and staggered with their riders. In one hundred and twenty seconds five officers, sixty-six men and one hundred and nineteen horses out of less than three hundred, had been killed or wounded.

"You know my luck in these things. As on another occasion in the Indian Frontier I came safe through—one of the very few officers whose saddlery, clothes or horse were untouched, and, without any incident that is worth while putting down here.

"One impression only will I record. I remember no sound. The whole event seemed to pass in absolute silence. The yells of the enemy, the shouts of the soldiers, the firing of many shots, the clashing of sword and spear were unnoticed by the senses, unregistered by the brain. Others say the same. Perhaps it is possible for the whole of a man's faculties to be concentrated in eye, bridle-hand and trigger finger, and withdrawn from all other parts of the body."

The Collingwood Council submitted a by-law to the electors on Tuesday, the object being to appoint a commission to manage the electric light and waterworks system. The vote polled was small, and the by-law was defeated, the vote being 13 for to 191 against.

ACCUSED OF FIVE BURGLARIES.

City Detectives Make a Round of the Alleged Thieves and the Receiver of the Goods.

Detectives Despault, McLaughlin and Richard of the city force, made a good round up of alleged burglars last night. Three suspects were captured two of whom are charged with stealing, and the third as an accomplice by receiving the goods. In all they have to answer to five charges of burglary.

Frank South, of 136 Lagauchetiere street, and William Ramsay, of 86 Panet street, are the two men held on these serious accusations, and Maurice Kert, of Craig street, with being their accomplice and receiving the stolen goods. The places they are chaged with robbing are Harris and Fortin, jewellers, 1820 St. Catherine street; Daniel Lavielle, Champlain street; Mrs. Donaldson, 37 Papineau square; Artiste Trottier, 305 Montana street; and Mr. Meredith, 117 Craig street.

The former's place on St. Catherine street was entered on Sunday night as already published and upwards of $150 in jewellery was taken. The other four burglaries were committed during last week but the detectives failed to get any clue. At Mr. Lavielle's a large quantity of tools were stolen, at Mrs. Donaldson's gold taps and household fixtures were carried away in her absence, while at Mr. Trottier's and Meredith's carpenters' and plumbers' tools were stolen.

Yesterday an intimation was received that all the stolen goods were hidden in Kert's second hand store and obtaining a search warrant the detectives paid him a visit. He denied all knowledge of them, but nearly everything was recovered there. Before the Police Magistrate he pleaded not guilty and was allowed out on bail for trial to-morrow. The other two in the affair, after being suspected were shadowed on the wharf yesterday afternoon and captured about 3.30. After lying in the cells all night they were brought before the police magistrate this morning and were remanded for trial.

A LITTLE MORE ACTIVE

And Greater Firmness Noticeable in the Stock Market.

CANADIAN PACIFIC ADVANCED FRACTIONALLY, AS DID ALSO MONTREAL STREET.

A stronger feeling developed in the stock market this morning, with a trifle more activity, though the trading was small. It was, however, an improvement on that of yesterday. Extreme dulness ruled early in the day, but business picked up around noon. The firmness was evidenced in fractional advances in nearly all the principal trading stocks, and in bids of from ¼ to 1 and even 2 points higher in a number of securities. New York's market showed a much improved tone, which had its influence here, as the Montreal market follows New York pretty closely.

London was fractionally higher for Canadian Pacific and lower for Grand Trunk. This fact is attributed to the continuance of the decreases in Grand Trunk earnings. The returns for the period from the 1st to the 7th of October are as follows:

1898	$527,603
1897	541,939
Decrease	$14,336

Some 750 shares of Canadian Pacific changed hands, and the price advanced ¼ during the morning and ⅜ as compared with yesterday's close. The first sale was at 84¼, and this was followed by sales of 650 shares at 84⅝.

Montreal Street gained ⅞ as compared with yesterday's close, of 1⅞ from the opening on the previous morning, but only 100 shares were sold. Tuesday's earnings showed an increase of $106 as compared with the corresponding date last year, the gross takings being $4261. Toronto Rails sold up from 103¼ to 103⅞, the point at which it had closed on the previous night. Monday's earnings were $3136, an increase of $184. Montreal Gas sold ex-dividend at 187¼ and 187, and Cable at 181¼. Dominion Cotton sold at 98.

L. G. Forget & Co.'s cable gave prices of Canadian securities in London as follows: Grand Trunk firsts, 67½; thirds, 19⅞; Canadian Pacific, 86⅝, and Hudson Bay 20½.

As the final movement of yesterday's markets foreshadowed, says the Evening Post, the "discounting" of the foreign political complications reached its climax yesterday. French rentes in particular rose sharply again to-day, reaching a price ¼ point higher than the low level of yesterday forenoon, and lost at the close only part of this advance. The German discount market, too, grew easier. Even the early strength of British consols to-day was attributed to the further hardening of the London discount market, and not to political misgiving. There has been, in fact, more than one favourable turn in the curious kaleidoscope of continental politics. Not only has the French Ministry apparently yielded its pretensions about Fashoda, as it usually does when called peremptorily to account, but to-day's despatches reported the Sultan in a similar conciliatory mood, and for similar reasons, regarding his occupation of Crete. In both instances, oddly enough, a sharp demand, by one or more Powers, such as would sometimes be of itself accepted on the markets as a step towards war, has turned out to be the reassuring incident in the situation. For reasons, however, obvious to all readers of this morning's foreign despatches, Paris is pretty certain to continue for some time a storm-centre of European politics and finance. As illustrating the rather numerous embarrassments of the market at that city, it may be pointed out that Paris exchange on London rose to-day almost to the specie export point; which means, if our own $10,000,000 gold imports last spring by the Havre steamers are any witnesses, that London is skilfully manoeuvring to shift the next American demand for gold off its own shoulders and on to those of its continental neighbour.

The sellers of Canadian Pacific were Forget, Smith, Davies, MacDougall Brothers, and the buyers, Burnett, Hamilton, Gordon Strathy & Co. Toronto Rails were sold by Macdougall Brothers, Forget and Riddell, and bought by Burnett, Howard, Davies and Meeker.

Gas was sold by Oswald and purchased by Howard, G. Weir and Burnett.

NEW YORK STOCKS.

Prices Were Generally Above the Level of Yesterday.

(From the Star's Special Correspondent on Wall Street.)

NEW YORK, October 12.—The early dealings on the Stock Exchange to-day were, to a considerable extent, confined to a few issues. American tobacco was a prominent feature and on heavy selling declined 4 points. There was renewed selling of the coal shares. Jersey Central was marked down three points, Delaware and Hudson ½ and Reading a fraction. The remainder of the list was firm to strong. The Grangers moved up ⅛ to ⅜ per cent. Manhattan Consolidated 1, Sugar Certificates 1½, Great Northern preferred 2⅛, and Northern Pacific ½. As the morning advanced the market became very quiet, but continued firm in tone.

After midday there was a slight increase in the volume of business transacted and prices were moved up ¼ to 1 per cent. above the early level. American Tobacco and the coal stocks were also firmer.

WHEAT ACTIVE.

It Had Friends Galore at Chicago To-day.

(From the Special Correspondent of the Star on the Chicago Board of Trade.)

CHICAGO, October 12.—Not in many moons has the wheat market been as active and broad as it was to-day. It had friends galore, and many of them are known as leaders in the market. The buying was good the whole session, and was led by the private wire concerns. Liverpool and Paris were both higher. There was continued good buying on foreign account of both cash and futures. Broomhall cables: "Reports state that Australian crop is damaged by drought. Cargoes are three pence dearer; strength partly due to small offerings of Russian and Danubian wheats." December sold here from 65⅝ to 65¼, and May at 65⅞ to 66½. North-West receipts were liberal and reports from there say they will keep up for the next sixty days, but this was over-topped by the eagerness of foreigners to take everything that was put on sale. Up to 12.30 o'clock the takings at the seaboard were 112 car loads of corn and 100 of wheat, and there was big business here. There are many in the trade who are bullish on both wheat and corn who were bearish when prices were lower than at present. Corn has helped wheat and has many buyers.

Heal the Lungs

A cough is frequently the only symptom of consumption manifest in the early stages. The irritation of the throat and lungs attracts the germs in the air and the deadly disease makes much progress before its presence is discovered. Unless the structure of the lungs is actually destroyed the germs may be destroyed and the affected parts healed by the use of Shiloh's Consumption Cure. Used for over half a century as a standard remedy.

The following letter is self-explanatory:

"S. C. Wells Company, Le Roy, N. Y. GENTLEMEN:—I have used Shiloh's Cough and Consumption Cure for severe coughs and sore throats, and wish to say that it has always worked like a charm, stopping my cough immediately. It is the very best of all medicines that I have ever tried, and I have tried a great many.—RICHARD J. PROTHEROE, Scranton, Pa."

Shiloh's Consumption Cure is sold by all druggists on a positive guarantee that the purchase money will be refunded in case of failure. 25c, 50c. and $1 a bottle throughout the United States and Canada. In England, 1s. 2d., 2s. 3d. and 4s. 6d.

THE GLENGARRY ELECTION.

Mr. McDonald, the Liberal, Will Hold the Seat Without Further Protest.

(Special to the Star.)

TORONTO, October 12.—The Glengarry election case will not be tried in Alexandria on the 17th inst., as advertised, but an order has been issued transferring the place of trial to Toronto, and the date to October 29. This means that the Conservatives have thrown up the sponge. James McDonald, M.L.A., will therefore continue to sit.

ROSSLAND MINES.

(Special to the Star.)

ROSSLAND, B. C., October 12. — The Bank of Toronto has leased a stone block on Columbia avenue and will open a branch on Saturday or Monday. This will make four chartered banks in Rossland.

A company has been incorporated by W. S. Norman, of Spokane, and others to construct an air-compressing plant on the Taylor system, the same as in use at Magog, Que. The plant will be situated on either Bear, Trail, or Sheep Creek, five or ten miles distnat from Rossland, and the compressed air will be transmitted in fourteen inch iron pipe. This plant supplies air direct to drills without the necessity of compressors at the mines, and will greatly cheapen the cost of power here.

Developments in the workings on the north vein of the Iron Mask are reported highly satisfactory. The ore body is reported as steadily increasing in width and value as drifted on. This part of the mine is not in dispute.

PANAMA CANAL FOR SALE.

WASHINGTON, October 12.—Information has been received to the effect that an offer is about to be made by the French interests controlling the Panama Canal to sell out to the American Government. They say that $125,000,000 of French money has been put into the Panama canal, and that $100,000,000 more in eight year's time will see it completed. The Nicaragua canal, on the other hand, they say, cannot be completed for less than $200,000,000.

A C. P. R. ENGINEER SUFFERS

THE CONQUEST OF CERVERA.

Admiral Sampson Given Credit for the Victory,

ALTHOUGH THE NAVAL BOARD FINDS IT WAS A CAPTAINS' BATTLE.

NEW YORK, October 12. — Although the American fleet in the battle off Santiago on July 3 obeyed the general orders of Rear-Admiral Sampson, given in advance to meet just such an emergency, it was essentially a "Captains' fight." This is in substance the report of the Naval Board, which has been investigating with a view of determining who should be given the credit for the victory, Rear-Admiral Sampson or Rear-Admiral Schley.

"It was a captains' fight," says the report. "Rear-Admiral Sampson was not present and the two orders signalled by Schley, 'Close in,' and 'Engage the enemy,' did no good and were unnecessary, for the ships had already closed in and were engaging the enemy when the orders were run up."

As between the two admirals, the full credit of the victory is given to Rear Admiral Sampson, because he was commanding officer, and the battle was fought under his plans.

The findings of the board are summarized as follows:

1. The battle was fought and won upon plans prepared by Rear-Admiral Sampson.
2. Any directing of the movements of ships done by Schley during the battle was inconsiderable. It was a captains' battle.
3. The New York had no active part in the fight.
4. The Brooklyn was not engaged at so close quarters as has been represented by the first reports. On an average she was two miles away from the enemy.
5. The brunt of the fighting was borne by the Oregon, Texas and Iowa.
6. The New York was about nine miles from the Colon when that ship surrendered and between four or five miles from the nearest sister ships engaged (from which signal distance is taken.)
7. The average range of the ships most engaged was about a mile and a half.
8. No American ship at any time during the battle was within a mile of an unsurrendered Spanish ship.

ZOLA'S FRIENDS TO HIS RESCUE.

PARIS, October 12. — Tuesday, was the day fixed for the sale of the house and furniture of M. Emile Zola, to satisfy a judgment of 30,000 francs obtained against him by three handwriting experts who recently won a libel suit, growing out of the Dreyfus case, against the novelist.

The sale was ordered to take place in spite of the late Lieutenant-Colonel Henry's confession of having forged a letter instrumental in bringing about the conviction of Dreyfus, which sustained the attitude assumed by M. Zola towards the handwriting experts, and although M. O. Mirbeau offered to be responsible for the amount. But the proposed sale resulted in a sensation. The friends of M. Zola, who were present, ran up the bidding on the first article, a Louis X. walnut table, which was originally bought for 120 francs, to 32,000 francs, thus producing the amount required and stopping the sale.

FOUR YEARS FOR SHOOTING.

(Special to the Star.)

SWEETSBURG, October 12.—William St. Martin was on Tuesday sentenced by District Magistrate Mulvena, of Sherbrooke, to four years in the Penitentiary. St. Martin's crime was committed in July last, when he went to the residence of Sheriff Cotton, in the Township of Durham, near here, where his wife was working, and threatened to shoot her. She escaped from his presence, but St. Martin pursued her and was intercepted by the sheriff's son, W. U. Cotton. A scuffle ensued. Young Mr. Cotton used his stick on St. Martin and the latter became enraged and drew his revolver and fired it, the shot narrowly escaping Mr. Cotton's head. St. Martin was arrested, and at first pleaded not guilty, but when the time set for his trial arrived he reversed his plea and acknowledged his guilt.

GRAND MERE IS BUSY.

(Special to the Star.)

QUEBEC, October 12.—The vast paper mill just completed at Grand Mere is now being fitted with machinery, and it is expected that the manufacture of paper will be commenced in it in about a month. No less than 950 men are being employed upon it, and for some time there were 1,400. Its hydraulic wheels are fourteen feet in diameter, and a main of fifteen feet diameter feeds water to the wheels that run the dynamos for electric lighting. There are several buildings in connection with the mill, running from 140 feet to 200 feet each in length. Several hundred men will be employed all winter in the woods cutting logs for pulp.

TORONTO WILLS PROBATED.

(Special to the Star.)

TORONTO, Oct. 12.—The will of the late Rev. J. E. Wells leaves $2,367, of which $1,447 was in life insurance.

The late Anne Eliza Fisher left $5,000, of which $4,075 is in stocks. She leaves one son $50 to buy a mourning ring and among other curious bequests forgives several sons their debts to her.

The will of the late Andrew McCaa, a retired farmer, who lived near here, was filed for probate. He left $8,970.

TROLLEY CARS FOR LONDON.

LONDON, October 12.—The Highways Committee of the London County Council has recommended granting permission for the first overhead trolley system in London.

The United Tramways Company asked permission to try the experiment on one mile of track along the Uxbridge road, in the western end of the town, promising to discontinue it if it proves unsuccessful or unsuitable. It is probable, therefore, that London will soon see a trolley.

THE IMPRISONED JOURNALIST.

(Special Cable to the Star.)

ST. JOHN'S Nfld., Oct. 12.—Petitions asking Governor Murray to release Messrs. Parsons and Herder, of the Telegram, imprisoned for contempt of court, are being largely signed. It is expected they will be released. Great sympathy is felt for them by all sections of the community.

WANTS A SUBSIDY.

(Special to the Star.)

OTTAWA, October 12.—Mr. William Mackenzie, is here looking after a subsidy for the Rainy River railway. He had a conference with Major Walsh, late of the Yukon, and afterwards with Hon. Clifford Sifton.

The repairs which have been going on for nearly a year in the historic house of John Wesley, the founder of Methodism, are nearing completion. The house is to be formally opened as a Methodist centre and museum for Wesley relics.

(From the Star's Special Correspondent Resident in New York.)

Star Bureau, 195 Broadway.

NEW YORK, October 12.—

Much surprise has been expressed in business circles over the statistics of canal traffic to the west. In the last report of the Superintendent of Public Work of New York State it is shown that the freight carried on the Canals in 1897 was 3,617,804 tons, of which 1,165,919 tons were taken westward. Nearly 700,000 tons were way freight, and 500,000 tons through freight.

Without the low rates to the West provided by the canals, certain important markets would be entirely lost to the East, for the reason that Eastern merchants could not compete with Western prices and pay railroad freight rates. The canals are used for the transportation to the West of lumber, pig iron, coal, cement, plaster, marble dust, asphalt and general merchandise. Pig iron is consigned through to Kansas City, Omaha, Topeka, and other Western cities at rates that the railroads could not compete with. Western merchants take advantage of the canal service to stock up in the summer for the autumn and winter trade, so that when the canal business stops in the autumn they have their warehouses full of goods brought West at the lowest rates. As this is the only way such a class of business can be assured to the Eastern men, it is another argument in favour of improved waterways.

The westward business has been outcome of competition in the Eastern traffic. In these days the rates East are so low that canalboat owner is forced to secure a return freight in order to make the trip profitable. A quarter of a century ago, when freight rates on grain were high, it did not pay the owner of a boat to wait around for a return cargo. He discharged his grain freight and made all speed he could back to get another cargo. In two trips at the end of the season he could make enough money to pay the cost of his boat. That is a thing of the past, and now the canalboat owner looks for the westward freight to make up the profits of the trip.

THE QUEBEC CONFERENCE.

The New York Commercial views the work of the Quebec Conference in a very complacent manner. It says: "On this side of the border there is a well defined idea that, on the whole, the representatives of the United States have managed their side of the discussion with consummate ability. Of course, with the meager information at hand about what has actually been accomplished, it is not wise to be too jubilant; but the mere fact that our Canadian cousins are not satisfied, can be taken as an indication that we ought to be. It may not be the highest ethical reasoning to infer that one side to a controversy is successful because the other gives vent to words of disapproval and protest, before the end of the affair is definitely announced with a showing of result; but such is human nature, which obtains in commerce and diplomacy as well as in other things.

"It is said that pending the resumption of the sittings at Washington the Canadian Commissioners will be assailed by various manufacturing interests opposed to free trade and reciprocity, but the practical ending of negotiations and a virtual agreement precludes the possibility of any important change in the understandings as they exist. And, after all, the free trade scare is one invented solely by Candians who, for selfish reasons, are opposed to the increase of trade relations with this country, and who are too timid to meet fair competition in their home markets.

"The treaty of Quebec means much to the future development of both countries, and probably more to Canada than it does to the United States. Canada is largely an undeveloped territory, and except in a few instances, is hardly in a condition for a fast and tight prohibitive tariff. Trade and commerce are what the country needs, and she can get them in no better way than by having an amicable understanding with this country, and by correcting the various abuses which undigested statutes and no statutes at all have caused."

CAMPAIGN NOTES.

The German American Reform Union, an independent organization, has formally endorsed Van Wyck for Governor. Van Wyck's chances in the betting are improving somewhat, but there is really very little betting going on at present. The odds are about 10 to 8 in favour of Roosevelt.

The Rev. Dr. Parkhurst is very much put out because Col. Roosevelt has failed to answer his letter, mailed ten days ago, asking him to define his position toward "Boss" Platt.

Richard Croker has authorized the announcement that as long as he lives he will not retire from the leadership of Tammany Hall.

S.S.S.

HIGHEST MOUNTAIN IN AMERICA.

SEATTLE, Wash., October 12.—The G. H. Eldridge geological survey party, which has just returned from Cook's Inlet Country, is declared to have discovered the highest mountain in North America. The peak, which towers far above Mount St. Elias, is situated in Alaska to the right of the Sushitna river. The Government topographer took triangulations of the elevations, ascertaining by scientific calculations the exact height of the peak, which he declares to be more than 20,000 feet.

NEW YORK POLITICS.

Judge Van Wyck Formally Accepts the Democratic Nomination.

NEW YORK, October 12.—The formal letter of Hon. Augustus Van Wyck, addressed to the chairman of the State Commission, Frederick Schraub, accepting the Democratic nomination for Governor of New York, is made public. The letter contains 2500 words and deals entirely with State issues, particularly with legislation in connection with canal matters. The letters contains a declaration at the outset that the Governor of the State is not officially concerned in any of the questions which the national authorities are called upon to settle, and it closes with a statement by the nominee that, if elected, he will constanly remember that his first duty will be to the people of the whole State, without reference to their political opinions.

ONTARIO BYE-ELECTIONS.

TORONTO, Oct. 12.—The bye-election campaign in East Wellington and South Ontario will be carried on with great energy at once. Mr. Dryden is working quietly in his constituency, and no meetings have been announced. Mr. Gibson has started right into the campaign, and has arranged for a number of meetings, in which he will be assisted by Messrs. Jas. McMullen, M.P., and Andrew Semple, M. P. Other Cabinet ministers may take a hand in the fight next week.

FERGUS, ONT., Oct. 12—At a convention of the Conservative and Independent electors of East Wellington, met today in the town hall here, for the purpose of selecting a candidate to oppose the Reform nominee, Hon. J. M. Gibson, and Dr. Coughlin, who contested the riding in March last, was re-nominated.

TOWNSHIPS TERRORIZED.

Tramp Burglars are Playing Havoc in the Villages.

THEY FIRST ROB A PLACE AND THEN FIRE IT.

(Special to the Star.)

COWANSVILLE, October 12. — This section of the country is rapidly becoming terrorized by the depredations of one of more bands of tramps, incendiaries and burglars, who seem to be gifted with a complete disregard of the sacredness of property and human life. From all the surrounding points come stories of burglaries, and in many cases the places broken into have afterwards been set on fire for the purpose of covering up evidence that might be used effectually aginst the desperadoes. That their plan of setting fire to places after looting them may result in the destruction of a whole village or cause the loss of people's lives does not seem to concern these reckless gentry.

A few nights ago the Ottawa Hotel at Cowansville was entered, and a number of valuables taken. The burglars made themselves perfectly at home, and helped themselves to supper bfore they left. Evidently they were either in better humour on this occasion, or were scared away before they had fully accomplished their mission, for the place was not set on fire. Had it been the results would have been awful, for the hotel is full of boarders, and it would have been only by a miracle that all could have escaped safely. The burnig of Mr. Wm. Robb's creamery here a week ago is also set down to the same gang. A few days ago at Glen Sutton, when a freight train on the C. P. R. stopped, it was discovered that some tramps were in one of the cars. Before they could escape the car was locked and sealed by the train hands, and word sent to Mansonville, and the railway officials and bailiffs of the latter place were on hand at the station to make arrests. But when the train arrived they found that the car had been broken open from the inside, and that not only had the temporary occupants made good their escape, but had taken with them a quantity of the goods with which the car was laden. This last story shows the sort of men that have to be dealt with, and as private individuals are not able, and the authorities do not seem inclined to make any effort toward their apprehension, it would seem that a good plan would be for the railway and insurance companies to combine and engage the services of one or more first-class detectives to work on the case and run the criminals to earth.

The quadrennial convention of the American Christian Church is being held at Newmarket, Ont. The convention will last until Tuesday next.

Speakers at the W. C. T. U. Convention at Westmount Insist on Having it.

TOUCHING MEMORIAL SERVICE.

References Made to the Death of Mrs. Middleton, One of the Union's Officers.

ADDRESS BY MISS DOUGALL.

Address of Welcome to the Delegates at the Evening Gathering.

The fifteenth annual convention of the W. C. T. U., of the Province of Quebec, began its exercises yesterday afternoon, in the Methodist Church at Westmount. The interior of the edifice was tastefully decorated in honour of the occasion. The edge of the platform was lined by potted plants. These, with the blue and white decorations, as well as many handsome mottoed banners, gave the church a most attractive appearance. Owing to the inclemency of the weather there was not so many in attendance as would otherwise undoubtedly have been there. The afternoon devotions were in the nature of a memorial service, conducted by the President of the Provincial organization, Mrs. Sanderson, of Danville.

After singing, "Nearer my God to Thee," an appropriate Scripture selection was read. The Convention was then led in prayer by Mrs. Foster, of Knowlton, and at the conclusion, the Convention recited the Lord's Prayer in unison. "Jesus, Lover of My Soul," was then sung. Mrs. Sanderson, of Danville, then spoke briefly, as follows:

"Our memorial services have always been touching and tender. This year it is more so, owing to the death of our late lamented honourary President, Mrs. Middleton, of Quebec. We have, however, much to be thankful for. We had her with us for many years. She gave us of her advice and counsel, even after she gave up her official position in connection with the organization. She has always been a benediction to us. We do not mourn for her, although our tears should fall. She sees the King in His beauty, and she has heard her Lord's well done." Miss Willard has also passed away. Many more are gone. Their names and memories are written in our hearts."

After the hymn, "Asleep in Jesus," was sung, personal testimonies were given by various delegates as to the worth of the departed sisters. Some of those who had lately joined the great majority, were as follows: Miss Willard, World's President; Mrs. Middleton, Honourary President of the Provincial Union; Mrs. Silver; Mrs. Lyman Buck; Mrs. Darlington, of Quebec; and Mrs. J. P. Noyes.

Miss Dougall, of Montreal, was then called upon by the President to give the Convention some details concerning Mrs. Middleton's last illness. Miss Dougall said that she had asked Mrs. Middleton to visit her at Old Orchard, where the last scenes took place. She was greatly impressed by the old lady's deep humility. Although she was at such an advanced age, Mrs. Middleton took the keenest interest in the meetings of the W. C. T. U. Convention held at that place.

Some thought that she had contracted her last illness from overexertion in attending the open-air meetings. But that was a mistake. Her illness lasted just a week and was a return of an old complaint. Everything possible was done for her. It was two or three days before she gave up hope herself. She expected to have attended this Westmount convention. She had no preparations to make for her final journey. Miss Dougall was with her when she realized that she would not recover, and the sick lady was thoroughly convinced of the soundness of her title to the heavenly home. On the day she went to Old Orchard she said it was her spiritual birthday; 66 years since she was converted. An experienced nurse watched over her, which was comforting to all her friends. She did not, however, wish to give trouble to anyone. She carefully planned everything in connection with her last journey. Nearing the end, she asked her attendants not to pray for her. She "wanted to be alright to-morrow," and it was even so. When the morrow came she closed her eyes. No prince ever had a better funeral than Mrs. Middleton. Hers was a very beautiful close to a noble and useful life. She would have liked to have gone back to Quebec, but this natural longing was lost in the joyful anticipation of her approaching reward. After Miss Dougall's eloquent tribute, during the delivery of which many delegates manifested deep emotion, hymn No. 731 was sung.

MRS. FOSTER, who was one of those with Mrs. Middleton at the end, then spoke a few words about the deceased lady's happy release. "She is just on the other side. I believe she is with us in spirit to-day, and, were she here in the flesh, would bid us go on and continue the work for God and home and native land. She would bid us fight the great fight as if we meant to win. Her whole life was an object lesson to inspire us to work with all our might for our fellow creatures."

The memorial service was then carried on with reference to other departed sisters. After appropriate references had been made, Mrs. Buchanan rendered in a beautiful manner "The Christian Good-night."

The consecration service led by Miss Dougall was begun at 3.30 p.m. The devotional exercises began by the convention singing "O Happy Day," Mrs. Middleton's favourite hymn.

Miss Dougall then addressed the convention at length. The thought she had for the afternoon was GROWING—growth in grace—a gradual ripening for heaven. Some thought it a great mistake to imagine people ripening for heaven. One writer thought that Christians gave no definite evidence of being better to-day than they were twenty years ago. This, however, was not Scripture teaching. If we were selfish and grasping, we need not continue so. "Grow in grace and in the knowledge of our Lord Jesus Christ." If they did not do so, could they be sure that they were Christians at all? They should grow like Christ by study of His character. A verse in Eph. was in point, "Grow up to Him in all things," etc. Christ was the head and they should be growing up to Him. Were they next year going to be dead level Christians, or growing ones? Another thought was that if they did not grow in grace they were in danger of being led away and falling. There certainly was such a thing. People did sometimes become careless in religious things.

Another appropriate verse about the idea of growing was, "As new born babes desire the sincere milk of the word, that ye may grow." This thought of growing in grace and considering what they could do best for this promise must move them in the coming year. They must do their work in the HOMES. They must reach the fireside circle, or they would not get the results they wished for. Society work was good, but they had to attend to the women and children in the home. "We should have, above all things, family worship in the home."

"If the Scripture is not read in the family, the children will not know it practically or have the love of it in their hearts. In the Sunday School the teacher has not time to go carefully over all the merits of the class. Can we as a Union influence the mothers to give their children Bible instruction?" This is the thought Miss Dougall wished to emphasize.

An interchange of opinion among the members of the Convention then took place upon this subject, after which Miss Dougall made a few remarks by way of concluding the discussion. It was then announced that a daily prayer meeting would be held from 1.30 to 2.30 daily. Lunch will also be served in the building every day during the continuance of the Convention. Rev. Mr. Clipshan closed the meeting with the benediction.

THE EVENING MEETING.

The Convention continued their sittings last evening. The weather still continued disagreeable, but that did not deter a large number from turning out to hear the proceedings.

At eight o'clock a reception to the delegates took place. The county presidents, treasurers and clergymen present took their seats upon the platform and the meeting opened by singing "All Hail the Power of Jesus' name."

Mrs. Sanderson, of Danville, the President, briefly stated the scope of the meeting.

Mrs. Jaques read an address of welcome on behalf of the Westmount Union. She welcomed the delegates as Temperance women—as Christian women—as philanthropic women, united to accomplish great things for God. The work of the W. C. T. U., was pre-eminently a work and labour of love. "We shall reap if we faint not." We look for great enlightenment from the different reports. Although Quebec had not immortalized herself in the recent campaign, she still hoped for great things in the future. She extended a hearty welcome to the visiting delegates.

Miss Sarah Cairns, of Sawyerville, then read an address in reply to that of Mrs. Jaques. She thanked the Westmount Union for its kind welcome. They were delighted to come to Westmount—a place where no saloons were to be found—no back-shops where liquor could be secretly obtained. Many sisters had fallen since the last convention, Mrs. Middleton among the number. Miss Cairns paid a warm tribute to her memory. While awaiting the action of the Government, they should labour on and trust in God. She trusted that these meetings would prove an inspiration to one and all and that the delegates would go to their homes the better for having met together.

Rev. Mr. Clipshan then spoke briefly and welcomed the delegates on behalf of the Westmount Methodist Church. He was happy to say that his church was a temperance church, and had always stood for God, for home, and native land. This was a glad reunion. There were some places represented in that Convention which had done much for the cause of Prohibition. The Government must listen to them. The majority of constituents decide the fate of Governments. Let us, however, correct our opponents. If they only knew the sweets of prohibition as Stanstead and Westmount do, they would never vote against prohibition. Mr. Clipshan spoke warmly at times and was applauded at the conclusion of his address.

Rev. Mr. Winfield said that as the latest comer to Westmount, he thought that the fathers should have spoken first. He gave the delegates a welcome from the Presbyterians. He congratulated the Convention upon what it has accomplished. A great deal remained, however, to be done. No matter how the vote shall influence the Government of this Dominion, there should be scientific temperance instruction given to the young. This should occupy the most important place in their curriculum. The more firmly grounded in scientific temperance principles our young people were in their youth, the better they would be qualified to carry on the fight. "Give our children pure literature." Make a wise choice of reading matter for your children. As regards the recent campaign, your work is no longer an experiment. You have proved the right to be and the power to do. Stand for righteousness, purity and God.

Mrs. Sanderson thanked the clergymen for their kind words and emphasized what had been said regarding scientific temperance instruction.

Rev. Mr. Hopkins, of the Congregationalist Church, next addressed the meeting. Man used to have a monopoly of lodges, society meetings and conventions. That time, however, passed away. Women now participated in these organizations.

The Baptist pastor of Westmount was ill, and consequently absent. He was represented by a brother clergyman, Rev. Mr. Therrien, who, in the name of the Baptists of Westmount, bid the delegates welcome. This effort of the W.C.T.U. had intelligence, strength, docility, and, above all, it had faith

Rev. Mr. McKillican spoke briefly.

Mr. J. H. Carson, secretary of the Provincial Alliance, was introduced by the president as one of their brothers-in-law. They gathered to celebrate a glorious victory. Let this be the point of the Convention. He was glad to see the representatives from Stanstead, the banner county of Quebec, as well as from Compton, Brome, Argentine and Huntingdon. They were present to demand from the Government a prohibitory law for the Dominion of Canada, although Quebec may glory in their "splendid isolation," we want a law for the whole of Canada. We do not want partial prohibition, but national prohibition, and we will have it. We will not take provincial prohibition.

Miss Maunder, of New Zealand, was then called to the platform. The president introduced her as an illustration of the "tie that binds." She received the salute and spoke briefly. She was glad to be with the Convention. The New Zealand temperance workers looked across to America for inspiration in the fight. They were working hard for prohibition in New Zealand also. They had 40,000 votes recorded for local option on a former occasion; the last time there were over 90,000 votes polled. She thought the ladies should have a vote. There were many women in New Zealand who did not know how to use a vote. They proposed to educate them, however. She thought that women should not take a decided stand in politics. They should consider the moral character of the candidates, irrespective of party. She hoped that in their next struggle in New Zealand, which takes place next year, in connection with the general elections, they would derive inspiration from the result in Canada.

A note of regret was read from Rev. Mr. Graham.

Mrs. Mabon, of Sheffield County, then made a few remarks. She thanked the people, clergymen and churches of Westmount for their hearty welcome, and closed by asking for a generous collection to carry on the work.

Refreshments in the form of ice cream and cake were then passed around.

Rev. Clipshan pronounced the benediction, bringing a most interesting and instructive session to a close.

THE ORIGINAL IDEA

MARQUE DE COMMERCE

Of the three PRATTE BROTHERS in piano making was to make the BEST, and this idea is being followed up by this Company.

Our aim has always been to make an artist's piano and not one mere-to sell; to compete with the best American and European instruments and not with commercial pianos.

There seemed a good opening for some firm who could build pianos on honour, of first class quality, and show the artistic world what Canadians could do.

THE PRATTE PIANOS have had unbounded praise from the start, and the reasons why are simple.

We have gathered and put in our pianos the best qualities of foreign pianos, besides improvements of our own, and not a single piano was ever offered to the public until, after eight years of hard work and careful and expensive experiments; then the PRATTE PIANO came forth.

We now have a large assortment of the latest products on exhibition. Ads. on Piano construction begin with No. 1.

THE CLUB NATIONAL.

Members Divided Over Admission of New Members.

MEETING SAT UNTIL 2 O'CLOCK THIS MORNING.

Several hundred persons attended the special meeting of the Club National held last evening to discuss the admission of a some twelve hundred members in view of the annual election of officers, which takes place on Friday evening, and promises to be one of the livelie. meetings in the history of the club. Last night's meeting was itself lively throughout, and only broke up at two o'clock this morning. Mr. Camille Piche, the president, occupied the chair.

Mr. O. Desmarais, M.P., was admitted a member without any opposition, after which the chairman called the second order of the day, for the appointment of a special committee to revise the constitution.

While this motion was under consideration, Mr. Wilfrid Mercier spoke upon the urgency of a revised constitution, and as he was proceeding at some length, and as most of the members did not care about hearing that subject ventilated, but were anxious to vote on the admission of new members, Mr. Marcil raised a point of order, which was not sustained by the president. An appeal was taken from the president's decision, and the appeal was carried on a division of 44 to 40.

A portion of the list of new members, to be admitted, those proposed by Mr. Kelly, was then laid before the meeting, and a lengthy debate took place, those taking part being Messrs. Madore, M.P., Perron, Mercier, Lamarche, Lambert, Marcil, and others.

The friends of Mr. Drouin, one of the candidates for the presidency, raised all kinds of objections. There was great interruption, when Mr. Madore addressed the meeting against the admission of the members upon the end of an election, and Messsrs. Perron, Lamarche, and others, raised various objections and points of order. Finally an amendment by Mr. Perron that the admission of new members to be put off until a week after the election of officers, was voted upon, and was lost upon a division of 30 to 59 amid great cheering.

It was now half-past one o'clock, and the electric lights in the hall had been turned out. The president would not proceed any further, though a number of candles had been lit, and left the chair, accompanied by the members of the minority.

The majority remained in the hall, however, and elected a temporary chairman in the person of Mr. Gaston Maillet, and adopted a protestation against what was described as the obstructive tactics of the minority, and this protest was signed by the members present. Then the meeting adopted unanimously a resolution admitting to membership the twelve hundred members whose names were before the chairman, amid great cheering. The meeting dispersed with the singing of the Marseillaise, and while passing the bust of Duvernay, the founder of the St. Jean Baptiste Society, gave three cheers for Sir Wilfrid Laurier.

ALMOST SUFFOCATED.

Narrow Escape of a Man Who Smoked Lying Down.

A man living with Mr. Robert Ritchie, 135 Congregation street, had a narrow escape from suffocation last night. He lay on a mattress to take a smoke and some lighted ashes falling from his pipe, set the mattress on fire. The man lay on the bed almost suffocated when the firemen broke into the room.

IMMIGRANT BOY MISSING.

Edward Howell, aged 17 years, who immigrated from England a few months ago, and was living at the house of the man who had adopted him, Mr. Charles Joly, of 48 Poupart street, disappeared mysteriously last Thursday from there and has not been seen since.

He had been working at McDonald's Tobacco Factory and had just lost his job, and the Joly family fear that the young man has committed suicide in a moment of discouragement.

BURNETT--JUDAH.

A Fashionable Marriage at the Church of St. James the Apostle This Afternoon.

The Church of St. James the Apostle was, this afternoon, the scene of one of the prettiest weddings of the season, the occasion being the marriage of Miss Miriam Wurtele Judah, third daughter of Mr. F. T. Judah, Q.C., to Mr. James Findlater Burnett, son of the late Mr. James Burnett, broker.

The ceremony was performed by the Rev. Canon Ellegood, assisted by the Rev. Dr. Barclay, of St. Paul's Church.

The floral decorations in the church were very beautiful, a large wedding bell of white roses forming a pretty centrepiece.

Long before the appointed hour every unreserved seat in the church was filled, and crowds of persons lined the walks outside, the carriages containing the guests having some difficulty in drawing up to the curbstone. About half-past two the guests commenced arriving, and for the next half-hour carriage followed carriage in quick succession.

The groom was attended by Mr. James Pangman, and the ushers were: Messrs. Henry Judah, T. R. Clancy, W. Learmont, H. M. Ewan, G. W. Stephens, jr.; F. Meighan and C. Buchanan. The bridesmaids were Miss Amy Judah, Miss Polly Burnett, Miss Duhamel, and Miss Burnett. Miss Sallie Judah was maid of honour.

They were gowned alike, in white taffeta silk, the skirts covered with tulle frills, edged with white satin ribbon. The handsome waists of white taffeta silk were covered with tulle and bertha of lace, with stock collars of white satin and white satin sashes. They wore short tulle veils caught with lover's knots of white satin and three white feathers, and carried bouquets of jacqueminot roses They also wore handsome pearl initial pins, the gift of the groom.

While the guests were assembling, Mr. Reyner, the organist, played the Lohengrin march, and at the close of the ceremony he played Mendelssohn's wedding march. The surpliced choir contributed the full choral service. The music was very beautiful. The ladies' chorus. "Youthful and True," music by Wagner, was heard for the first time in Montreal.

The appearance of the bride caused all attention to be centred on her, as leaning on her father's arm, she passed up the aisle, and very sweet did she look, gowned in a magnificent dress of white duchess satin, the waist being handsomely trimmed with satin de Lyon lace, the collar of which was entirely composed of orange blossoms. The tulle veil, instead of being caught with the customary orange blossom, was held in place by a lover's knot of white satin, caught with a diamond crescent, white feathers, and aigrette. The bride carried an exquisite bouquet of white roses, and maiden hair fern.

THE INSPECTION TOUR.

Sir William Van Horne Will Return via the Crow's Nest Pass.

GRAND TRUNK OFFICIALS BACK FROM THE WEST.

Sir William Van Horne, president of the C. P. R., and his party left Vancouver today on their return trip to Montreal. When Revelstoke, in the Rockies, is reached they will branch off from the main line and proceed by way of Arrowhead and Robson through the rich gold mining districts of Southern British Columbia. After concluding their visit there the party will proceed to Nelson and thence by boat to the present terminus of the Crows Nest Pass Railway at Kooskonup, on Kootenay Lake. They will inspect the new road, going over its entire length to its eastern junction with the main line of the C. P. R. Portions of the new road have already been taken over by the C. P. R. from the contractors as far as Lethbridge, but the western section will not be taken over for over a month yet. In the meantime the road is far enough advanced to Kootenay Lake to run cars over it, but there is a good deal of ballasting yet to be done.

Mr. C. M. Hays, general manager of the Grand Trunk, accompanied by Messrs. G. B. Reeve, traffic manager; F. H. McGuigan, general superintendent; F. B. Morse, superintendent of motive power, and Charles Percy, treasurer, have returned to the city. They have been attending the annual meetings of a number of the lines controlled by the Grand Trunk. The management deny the rumour that the line between Richmond and Levis is to be taken over and operated by the Boston and Maine Railway.

FATHER MATTHEW.

St. Patrick's T. A. & B. Society Held Their Annual Celebration.

The St. Patrick's Total Abstinence and Benefit Society, held their annual celebration in Society's hall, St. Alexander street, last night, in commemoration of the anniversary of Father Matthew, the great temperance lecturer. Besides a large audience, the concert was attended by the Rev. Father McCallum, parish priest of St. Patrick's, and President of the Society, the Hon. Judge Purcell, and the reverend Fathers Driscoll, Heffernan and Veitch, of Conception Harbour, Newfoundland.

An enjoyable programme of vocal and instrumental music was given, among those taking part being: Miss M. Walsh, Messrs. Jas. Kennedy and J. H. Maiden, Miss Louise and Lizzie Daly, Miss Georgie and Kittie Turner, Mrs. Turner, Mrs. Monk, Miss Frances Murphy, Mr. Edouard Le Bel and Mr. J. I. McCaffrey.

Judge Purcell gave a pleasing address on the life of Father Matthew and his widely extended work. Starting from his birth place at Thorston, in 1709, the speaker traced his life, his aspirations, and his victories briefly through the continents. He had he said a natural charm of personal magnetism, and was an untiring worker, and during his 25 years stay at Cork, filled the countryside with his name. Among his philanthropic moves was the establishing of Ireland's first girl's academy, with schools for young men and the founding of Josephine Societies. Touring Ireland in the cause, his grand oratorial powers drew thousands, the speaker said of the native Irish to him, while it was remarkable that the first Temperance Society formed was composed of Father Matthew, a quaker, a humourist and a Unitarian minister. Scotland, England, Europe and America were also visited, and in America 60,000 people indentified themselves with his movements. Death, however, came shortly after, from failing health, and at a time when the world was only beginning to appreciate his efforts.

The speaker's remarks were interspersed with anecdotes and witticisms and altogether a pleasant evening was spent.

Offices of the Great North-Western Telegraph Company have been opened in Victoria and Vancouver, B.C., and direct communication established with these points.

RAILWAY ARBITRATION.

The Argument Over the Freight Differentials Begins.

OPENING OF A NOTABLE RAILWAY ENQUIRY AT CHICAGO.

(Special to the Star.)

CHICAGO, October 12.—A preliminary session of the arbitrators in the dispute between the American lines and the Canadian Pacific over freight rates was held yesterday at the Auditorium and it was not an exceedingly smooth one. At the outset the arbitrators disagreed over the question of open hearings of the case, and at adjournment they had not reached an understanding.

Whether the future sessions will be public will be determined to-day. It is stated that the American lines' representative, Judge Day, and the third arbitrator chosen, President, E. S. Washburn, of Memphis, desire that the hearing shall not be a star chamber affair, but that all shall be given an opportunity of hearing what the disputants have to say for their sides of the case.

John W. Midgeley, representing the Canadian Pacific, stands out strongly for close sessions, claiming that it is not fair to either side of the case that the arguments of representatives should be given publicity.

The real hearing is now in session, Traffic Managers Kerr and Bosworth, of the Canadian Pacific, stating their case. After they have finished laying before the arbitrators all data and evidence which will have a bearing on the issue, Freight Traffic Manager Stubbs, of the Southern Pacific, will present the case of the American roads. He has carefully reviewed the question in a paper which was read yesterday to the executive officers of the interested lines, and it is said that the document is a masterly arraignment of the practice of giving a foreign road a differential.

Railroad men look upon this arbitration as the most important that has arisen in the history of the transportation interests of this country. Never before has the question of whether a differential should be granted been arbitrated. There have been frequent arbitrations covering the matter of differentials, but these have always had to do with the amount that should be granted.

CRISIS AT THE CAPE.

Sir Gordon Sprigg's Ministry Resigns as a Result of a Hostile Vote in the Assembly.

CAPE TOWN, Oct. 12.—The Ministry has resigned.

The Assembly of Cape Colony adopted yesterday, by a vote of 39 to 37, the motion offered by W. H. Schreiner, formerly Attorney-General of Cape Colony, expressing want of confidence in the Government.

PRESBYTERIAN MISSIONS.

Important Meeting of the Home Mission Committee at Toronto.

TORONTO, Ont., October 12.—The regular meeting of the Home Missions committee of the Presbyterian church is in session in St. Andrew's church. There are present Rev. Dr. Cochrane, of Brantford, convener; Rev. Dr. Warden, secretary; Rev. Dr. Robertson, superintendent of North-West missions; Rev. A. A. Scott, Carleton Place, Rev. H. F. Gracey, Gananoque; Lieut.-Col. D. McCrae, Guelph; Rev. Dr. Armstrong, Ottawa; and Rev. W. Cordon, of Winnipeg.

Dr. Cochrane reported as to matters that had been attended to since the last meeting in Montreal during the General Assembly. He had conferred with the Home Mission board of the American church, in regard to missionaries in the Klondike. He had arranged the Skagway, where the Canadian church had a missionary should be handed over to the American board and the Canadians should take over Dawson City. Intimation had been received that the American missionary would leave Skagway as soon as the American board could get a man to take up the work now being done by Rev. Mr. Sinclair.

Several claims for the past year were considered in detail passed for the various Presbyteries. The following among other appointments of Missionaries were made: Quebec, Revs, J. L. Campbell, Geo. Campbell, E. G. Walker and Mr. E. L. Pigeon; Glengarry. Rev. K. McDonald; Ottawa, Rev. E. J. Shaw; Peterboro, Jas. H. Sharpe; Lanark and Renfrew. Rev. M. D. M. Blakely and J. B. Boyd; Kingston, Rev. H. McLean; North Bay, Rev. James Anderson, Messrs. Bell, W. Ross, A. M. Boyle, D. W. S. Urquhart, Wm. Anderson, R. L. McFarlane, F. Welsh, L. H. Currie and D. McKay; Algoma, Rev. N. McPhee, E. Mullan, H. W. Porter, H. Holcombe, T. H. Armstrong, James Steele, W. C. Nixon and S. W. Creasy.

Three new missions are to be opened amongst the miners of Rossland, Nelson and Whitewater districts in British Columbia. Mr. C. W. Gordon was requested to give a month next winter to advance home mission work in Ontario and Quebec.

A special committee was appointed consisting of the Convener, Dr. Cochrane, Dr. Robertson and Dr. Warden, to advocate the claims of the home mission field amongst the students of the Colleges.

THE KAISER'S TOUR.

Emperor William Starts for Palestine With a Large Cortege.

BERLIN, Oct. 12.—The Emperor and Empress of Germany started at 9 o'clock this morning on their journey to the Holy Land. They will go direct to Constantinople and from there to Palestine.

The suite of the Emperor included Dr. Leutbold, general physician; Count Von Rutenburg, the Grand Marshal of the Court; General Von Hahnke, the chief of His Majesty's private military cabinet; Dr. Von Lucanus, the chief of His Majesty's private civil cabinet; Baron Von Buelow, the Minister of Foreign Affairs; Legation Councillor Klehment and a number of other officials. The Empress has with her three ladies of the court and Count Marshal Baron Von Mirbach:

The Imperial party is also accompanied by a body of gendearmes and by eighteen equerries. The gendearms have been taught photography, and by the Emperor's orders, will photograph everything of interest, under the instructions of Sergeant-Major Guessow and Sojuenstahl.

There are 110 trunks in the baggage cars, many of them of immense size and containing the ball dresses of the Empress.

One enormous box, which does not leave the Emperor's vicinity, is in charge of a high functionary. It contains valuable gifts, and diamond decorations for Oriental officials, valued at 4,000,000 marks.

Only six horses were taken, and they are for the Emperor's personal use. The Sultan of Turkey bought thirty-six carriage horses in Berlin for the use of the Empress of Germany and her suite. The Sultan also bought in Berlin all the uniforms and weapons needed for the ceremonies.

JAMAICA'S GOVERNOR.

NEW YORK, October 12.—Sir Augustus Hemming, British Governor of the Island of Jamaica, arrived here to-day on the Atlas Liner Athos, from Kingston. He is on his way to England. The threatened uprising of the Maroons is said to be the cause of Governor Hemming's hasty trip to England. The situation on the island, according to the latest reports, has grown very serious.

CANADIAN TICKET AGENTS.

(Special to the Star.)

OTTAWA, October 12.—The annual meeting of the Canadian Ticket Agents' Association opened here this forenoon. A public reception was given the visitors in the City Hall, when Acting Mayor Cluff read an address of welcome. A banquet will be held this evening at the Russell.

Mayor Penwell, of Pana, Ill., who is the son of a prominent coal operator, has discharged the entire police force, charging them. it is said, with sympathy with the strikers.

BUTTER AND CHEESE.

October Shipments of Creamery Have Been Heavy.

A LIKELIHOOD OF A LARGE MAKE OF OCTOBER BUTTER —CHEESE A WAITING MARKET.

The situation in regard to butter is the most interesting phrase of the dairy produce market at present. The decline to a basis when 19 cents is the outside is now well established, but this has not had the effect of stimulating business to any degree of briskness. The market is somewhat of a wanting one, as English houses are not eager to buy at present, though the market is a good one just now, seemingly preferring to wait to see if a further decline is not probable. There has been some business around 19 cents for fresh made creamery, and possibly a fraction more could be obtained for a fancy lot, but we heard of a purchase of a round lot of choice new creamery, half tubs and half boxes, at 18½ cents. The local demand has not been remarkably brisk, and dairy will not go above 14½ to 15 cents.

The English buying for October shipment was large, and the outgoing boats are taking large quantities, all the space on the Montery having been engaged, while the London and Bristol boats will take out large quantities this week. The reports from the country indicate that a large number of factories have turned their attention to butter making, especially in the Eastern Townships, where, it is said, the make of October cheese will be very small. The recent break in prices helped this movement. The pasturage is excellent all over the country, and the present mild weather will have a favourable effect.

The market has a brighter look, says the New York Commercial Bulletin. Buyers are taking hold a little better, and with much reduced supplies of fresh goods there is a more confident feeling on the part of both the selling and buying interests. Extra fresh western creamery brought 21 cents very easily; indeed the market developed so much firmness at that figure that occasional sales of superlative quality were reported fractionally higher. The proportion of extras in current receipts is quite small, and this is giving strength to the position. Some buyers accepted marks to-day which they would have rejected a week ago, but as a rule where defects are at all noticeable the selling price has to be lowered about 1 cent per pound.

Cheese is a very dull waiting market around 9 cents, new business being remarkable by its absence. The range for western coloured is nominally 9 to 9¼ cents, and for eastern September's, 8⅝ to 8¾ cents. The public cable remains at 42s 6d. The receipts of cheese were 11,615 boxes and of butter 1962 packages.

COUNTRY CHEESE BOARDS.

At Belleville, eighteen factories offered 1255 white and 75 coloured cheese; 9 cents bid; no sales. Board adjourned for one week. At Ingersoll, the offerings were 575 boxes; no sales; 8⅝ cents highest bid; very few salesmen present; heavy rain all day in this section. At the Campbellford cheese meeting held yesterday, 1000 boxes of white were boarded, all being September make; 8¾c bid; no sales; board adjourned for two weeks. At Madoc, there was 4860 boxes boarded; September and October cheese; no bids.

FLOUR AND GRAIN.

A Firm Grain Market—Manitoba Wheat is Stronger and Ontario Steady.

Business in flour is unchanged. Lake of the Woods sold 1,000 barrels of Manitoba on London account yesterday, and a further sale is expected. Other millers report a good local trade, but no export.

We quote: Winter wheat patents, $3.85 to $4.10; straight rollers, $3.40 to $3.50; in bags, $1.65 to $1.75; Manitoba old patents, $4.60 to $4.70; old strong bakers, $3.30 to $4.40.

FEED.

Owing to the unusually good grass, for this time of the year, business in bran and shorts is under the average.

We quote: Ontario winter wheat bran, $11.50 to $12; and shorts, $13 to $14 per ton in bulk; Manitoba bran, $11 to $11.50 shorts, $15.

The demand for meal was quiet, and quotations are $2.60 per barrel, and $1.75 in bags.

Corn was firm at 36c afloat this morning, and business was moderately active.

Rye is dull, and quotations are steady at about 50c afloat.

GRAIN.

The grain markets were firm all round this morning.

Oats were in good demand at 28½c afloat.

Peas were quoted at 61½c afloat.

Manitoba wheat is strong on account of spoilt grain. No. 1 hard was bought last night at 71c at Fort William, and for October delivery, 68c to 69c is the quotation. Ontario red winter is 63c west, on a 14c freight rate.

Corn was sold yesterday at 36¾; quotations this morning were 36¾ to 37c, afloat.

Rye is quoted at 51c to 52c.

HAY.

The demand for hay is fairly good, and some shipment is going on.

We quote: Shipping hay, $4 to $5; good to choice, $6.50 to $7.50; No. 2, $5 to $6 per ton in car lots.

PROVISIONS.

Live hogs sold at Point St. Charles this morning at $4.40 to $4.50, off the car. A falling off in the demand for hams was reported, but business in dressed hogs was good at 6 1-4c, and the demand for bacon was active.

We quote: Canadian pork, in barrels, $15.50 to $16.50; hams, 10 1-2c to 11 1-2c per lb.; bacon, 11 1-2c to 12c; pure Canadian lard, in pails, 7 1-2c to 8c; compound refined, 5c to 5 1-2c.

The Liverpool provision market was steady and unchanged this morning.

The Chicago market developed some strength during the forenoon, and at 12 o'clock October pork stood even at $7.65; Dec. was 5c up at $7.60; Jan. was 7c up at $9.02. Oct. lard was even at $4.75.; Dec. and Jan. were steady at $4.80 to $4.87, respectively.

CHICAGO HOG MARKET.

UNION STOCK YARDS, October 12. — The estimated receipts of hogs were 23,000. The official report of yesterday was 23,393, of which 4,233 were shipped, and 6,180 left over. Estimated to-morrow, 30,000. Market fairly active, mostly 5c higher. The quotations to-day were: Light mixed, $3.45 to $3.82; mixed packing, $3.50 to $3.90; heavy shipping, $3.30 to $3.90; rough grades, $3.30 to $3.45. The receipts of cattle were 12,500 Market 10c higher.

CEMENT AND NAVAL STORES.

Canadian Business in Naval Stores Improves—Manila Rope a Shade Easier.

CANADIAN ARTIFICIAL CEMENT ADVANCES 10c A BARREL AND DEMAND IS HEAVY.

Trade in imported cement keeps up well. The demand continues to be almost entirely for small quantities, but orders are sufficiently numerous to exhaust the full supply. Stocks have no opportunity to accumulate, and are almost as low as ever. Receipts for the week ending Tuesday night were 9500 barrels German, 11,258 Belgian, 750 English, and 198,456 Scotch fire bricks. Receipts to date, for the year, are now 211,563 barrels of German and Belgian, and 27,655 of English.

Trade in Canadian artificial cements unusually good. Sales are largely for bridge work and made generally of lots of 500 barrels. The factory is running night and day to fill orders, and prices have gone up 10c a barrel, quotations now being $2.10 per barrel.

For future delivery German brands are quoted at $2.45 to $2.55 a barrel, and Belgians at $1.80 to $1.90. British brands are quoted at $2.30 to $2.40; firebricks, $15 to $21 per thousand, but for immediate delivery prices are 5c to 10c higher all the way round on imported cements.

Business in naval stores has picked up wonderfully during the past week. There is now a nice volume of trade going on, perhaps a little more than usual at this time of the year. The only complaint now heard is that there are too many in the trade.

Manila rope is a shade easier, and prices reported are half a cent lower than last month. Sisal rope follows Manila.

Quotations this morning were 11½ to 12½c for Manila rope, according to size, 10½c for Sisal. Oakum was 5 to 6½c a pound; caulking cotton, 9c to 11c; cotton waste, 4½ to 5½c for coloured, and 7c to 8c for white. Pine pitch was $2.30 to $2.50 a barrel; pine tar and coal tar, each $3 to $3.50, and resin, according to colour, $2.50 to $5. Turpentine was about 49c gallon.

HOPS AND MALT.

A Strong Market—Foreign Demand for Barley Might Send Malt to $1.00.

The hop market continues firm, and business is said to be excellent. Prices to growers this week are 15c to 16c a pound here for Canadian goods. Growers are, of course, demanding higher prices, but, on account of the shortage of the crop, they are already receiving a much higher price than has been paid for them for years. It is not thought that the market will become much stronger as dealers would import from the United States in preference to advancing the price much on Canadian. American hops would cost probably 22c laid down here, but dealers consider they are worth fully 4c a pound more than Canadian, as they are better picked and packed, and have to pass the brokers' inspection before being shipped. Canadian hops, on the other hand, are received in a more mixed condition, and perhaps 10 per cent. of them are below the average of the best.

The British Columbia crop is a good one this year and has already been pretty well bought up, a considerable quantiy having been sold to England. Sould Germany require to import any hops, she may come to Canada for them,as the Canadian goods blend more satisfactorily with her own crop than the output of most of the other hop growing countries.

Possibly Germany may have to import barley for malting, also, but if so, she will likely go to California for it. Canadian barley is of good quality this year, and it is said that already the local brokers find an active foreign demand for it. In anticipation of higher prices, farmers are holding off, and meantime the market is strengthening. Malt 1, now 75c to 80c a bushel, and a dealer remarked this morning that should the foreign demand for barley continue, he would not be surprised to see it reach $1 a bushel.

The English crop is light this year, and the quality inferior. The continental crop is also short, so that it is not impossible that an active export may take place.

None of this season's malt is on the market yet, but, at the least, it is expected to bring 10c a bushel more than the highest price reached last season.

COUNTRY PRODUCE.

New laid eggs showed another slight advance this morning. Business is good and export demand increasing. Pickled stock is selling freely in England and prices for new laid stock are firmer. Receipts this morning were light, being only 541 cases.

We quote: New laid, 17½ to 18c; P. E. I., about 13c; straight candled, 14c to 15c; No. 2 stock, 11c to 12c; culls, 9c.

Honey is not in demand, and stocks are heavy.

We quote: White clover, comb, 7c to 7 1-2c; dark, 5 1-2 to 6 1-2c; white, strained, 5c to 6c; dark, 4c to 5c.

Maple products were very dull also, and prices are nominal.

We quote: Maple sugar, 5 1-2c to 6c; syrup, in wood, 4 1-2c per lb., in tins, 40c to 45c.

Beans were dull this morning, there being no enquiry for them. Prices range according to quality, from 85 to 95c a bush.
