

LACHINE

INCORPORATED AS A TOWN IN 1872; AND AS A CITY IN 1909.

The City of Lachine, was founded by Cavalier de La Salle in 1669, as a French Settlement; and was later the headquarters of the Hudson Bay Company in Canada; and was for sometime the main Distributing Point for the country reached by the Upper St. Lawrence and the Ottawa Rivers.

The actual conditions on the Island of Montreal warrant the statement, that to-day, any manufacturer wishing to establish a factory in or about the City of Montreal, should come to Lachine for the following reasons:

1. Lachine possesses all the advantages that Montreal can offer in point of, (a) Shipping facilities; (b) Banking accommodation; (c) Home market for products; (d) Home of great industries; (e) Cheap electrical power.
2. The price of land in Lachine is from 50 to 100% per cent. cheaper than in Montreal.
3. It is the head of Lachine canal, one of the finest artificial waterways of the world.
4. New factories sites, with both water and rail-shipping facilities. Each of these points we will bear out with facts in the following:

UNIQUE SITUATION OF LACHINE

To get a proper idea of the situation of Lachine, one must keep in mind that it constitutes one of the most important links of that chain of canals known as the St. Lawrence Canal, which stands to-day as the finest system of inland navigation known to the world.

The system comprises the canals of Lachine, Beauharnois, Cornwall, Pointe-Farran, Flat-Rapid, Galops, Welland and Sault Ste. Marie, extending the navigable portion of the St. Lawrence for 2,384 miles, from the straits of Belle-Isle to Fond-du-Lac at the head of Lake Superior.

Lachine is at the head of Lachine Canal which serves to bridge the Lachine rapids on the St. Lawrence River and which renders Montreal the head of the Ocean Navigation, a seaport 980 miles inland.

Lachine is situated on the Island of Montreal, 9 miles to the west from the city itself, a distance covered in 40 minutes from the Montreal Post Office, by a ten and twenty minutes ten cents trolley car service and by over forty railroad trains daily.

It is practically a part of the city itself. It has a population of 15,000 as per report of City Assessors.

Shipments to any part of the world may be effected to-day directly from Lachine both by water and rails.

Lachine is situated on the trunk line of both the Canadian Pacific Railway and the Grand Trunk Railway System. Over eight other railroad companies with terminus in Montreal, complete the transportation requirements of a great distributing centre.

The same rates apply for LACHINE as for MONTREAL for shipments to or from that city.

The Manufacturer in Lachine finds himself in the very heart of Canadian finance with its vast resources and its unparalleled record of stability, and soundness.

HOME MARKET FOR PRODUCTS

One of the greatest advantages of the manufacturer in Lachine is to have at his very door, a market of nearly three quarters of a million people for his output.

HOME OF GREAT INDUSTRIES

Following is a list of some of the foremost corporations of Lachine. The Steel Company of Canada Limited, Canadian Car & Foundry Company Limited, The National Breweries Limited, Canadian Allis-Chalmers, Dominion Bridge Co., St. Lawrence Bridge Co., Etc., Etc.

Other important industries are those of La Compagnie du Gaz de Lachine (Lachine Gas Works), the Asbestos Manufacturing Co., Plisk Limited, Daly & Morin, McLaurin Bros., Limited, Lachine Motor Works, the Hebert, Lecavelier, and Robert's Motor Works, Etc., Etc.

ELECTRIC POWER

Lachine possesses an enormous development of Hydro-Electric Power, generated by the current of St. Lawrence River and Lake St. Louis.

It is this electric muscle that drives the wheels of factories and propels the street cars, and supplies light to both—factories and dwellings.

The Electric Power is under Municipal control, thus ensuring protection to consumers.

WATER SYSTEM

Water is supplied by the municipality at low rates.

A new pump will shortly be added to the present one which will thus increase its capacities by 5,000,000 gallons daily. At an early date the City will erect a large reservoir or settling basin in rear of the present Post Office and facing 21st avenue.

NEW IMPROVEMENTS

Among the many new improvements contemplated by the City of Lachine, are the following: Paving in asphalt of St. Joseph Street from East to West—end of the City.

Erection of three new Fire Stations. Erection of a Settling Basin or Reservoir.

Building a new City Hall at a cost of \$1,000,000. Work is now in progress.

Opening of new parks and play grounds for children and adults.

A new Central Police and Fire Station. Work just started. Probable cost \$50,000.

Granolithic sidewalks throughout the City and shade trees to be planted in residential districts.

All telephone and telegraphic conduits are actually being placed under ground.

When these are completed, the City will change its actual plant of electric lamps for the lighting of the City, and will adopt the most MODERN and ECONOMIC system known as the Cluster lights which supplies more lights and embellishes the streets.

The drainage system will be enlarged and extended throughout the City, and in all new wards.

An incliner will also be built. Also a public wharf which the Federal Government will erect shortly, plans and estimates are now before them for final consideration. When completed a new ferry to and from Caughnawaga will transport, at low rates, market produce from all parts south beyond Caughnawaga.

FACTORY AND RESIDENTIAL SITES

There are plenty of available properties for factory and residential sites which may be purchased at reasonable prices, and the Mayor, the City Clerk, or any of the Aldermen will at any time kindly supply to any manufacturers or others, any desirable information on this subject.

Lachine has to-day a total superficial area of about 3,000 acres of land, and the City is constantly adding to it. There are Catholic and Protestant Churches, Hospitals, Colleges and Convents where education is given to many thousands of children.

Telephone and telegraphic communications are open with the entire world.

Electric and steam cars run daily to and from Lachine, and postal facilities with letter carrier delivery from house to house.

LASALLE

The Town of Lasalle was incorporated under a Provincial Charter on the 14th March, 1912.

It was formerly the Parish of Lachine.

It lies between the Cities of Montreal and Verdun on the east and the City of Lachine on the west, and extends from the River St. Lawrence on the south to the Lachine canal on the north.

This district is one of the most beautiful parts, and, in the opinion of many, is the most beautiful part, of the Island of Montreal. The drive along the Lower Lachine Road, lined with majestic elms and overlooking the far-famed Lachine Rapids and the St. Lawrence River, is a favorite one with Montrealers and with visitors. There can be no doubt that there will be built up here within the next few years one of the finest residential districts adjacent to the City.

The town is at present almost exclusively residential and many wealthy Montrealers have made homes along the beautiful river banks. The south side of the Lachine canal, however, is peculiarly adapted for factories, and a number have already been established there. The factory area is strictly limited.

Since its incorporation the Town has made rapid progress in the matter of municipal improvements. A water system has been installed, and the Town is lighted by electricity throughout. Water is presently obtained from the City of Lachine, but the Town will soon have its own plant.

Sidewalks have been laid through a part of the Town, and will be extended as required.

Sewers have been constructed in No. 1 Ward (Highlands) and the work is being rapidly extended.

A fire station to be provided with the most modern equipment will be erected this year. Hydrants are now installed in every street for fire purposes.

The Town is now provided with a police department which will be enlarged as required.

~~A handsome building on Strathroy Avenue has been acquired, and is now used as a Town Hall. Large vaults will shortly be constructed.~~

The Montreal Aqueduct runs for $3\frac{1}{2}$ miles through the territory of Lasalle and the twin boulevards which the City is constructing along its banks will be among the finest driveways on the Island. The scenery along the banks of the aqueduct is picturesque, the view up the aqueduct being one of the most beautiful on the Lower Lachine Road, and when these boulevards are completed, this part of the Town will rival in attractiveness the river front.

In addition to these boulevards the Town is itself constructing three boulevards each 80 feet wide leading from the canal to the river and to Montreal and Verdun. These boulevards were mapped out by an expert, and form the central plan of the Town, ensuring that the territory will never be defaced by subdivision; that have no relation to one another.

All toll-gates within the limits of the Town have recently been abolished.

Lasalle has a Post Office Branch with a Saving's Bank Department (recently opened). It has both public and private schools. Advanced pupils can conveniently attend the City or the Lachine schools. It has telegraph and telephone communication with Montreal. A large part of its territory is in the six mile radius which constitutes the primary telephone area, and consequently has the same telephone service as the City of Montreal.

TRANSPORTATION.

The City is $\frac{1}{2}$ W—E/Mz reached in twenty minutes from Highlands station by the C.P.R. and N.Y.C. Railways. Lasalle is within the area of the lowest commutation rates. The Town can also be conveniently reached on the west by the Lachine electric line, and on the east by the electric cars to Verdun.

The Council is negotiating with the Montreal Tramways Company for the extension of a line from the City with reduced commutation rates.

The Montreal Light, Heat & Power Company's hydraulic plants are situated within the limits of the Town, at its eastern end, and this Company is now building some extensive works among which is a large

GAS AND ELECTRIC PLANT.

These works will add greatly to the wealth of the Town, and will give employment to a large number of men, many of whom will, no doubt, make their homes in Lasalle.

The present Council is composed as follows:

Mayor: CECIL PLATT NEWMAN.

Aldermen: F. B. LAFLEUR, MALCOLM HODGE, VICTOR JARRY, FRANCIS PENNISTON, S. A. MORRISON, THOMAS R. SMITH.

Town Clerk: FRED LAFLEUR, SR.

LA SALLE.

TOWN OF LASALLE.

A town on the North Shore of the River St Lawrence, situated between Verdun and the City of Lachine.

Was but recently erected into a town by the Provincial Legislature, which granted it a charter. At the present time it is exclusively a residential district; and is the home of many wealthy Montrealers. There are some beautiful farms which are all well cultivated. There are also several dairies which supply cream; milk and butter to the City.

The Federal Government has lately opened a branch of its Savings Bank. There are also a Post Office Branch; two private schools; telephone and telegraph communication with the City of Montreal.

In case of fire, the locality is protected by the City of Lachine fire brigade.

The town of Lasalle is a beautiful summer resort and was formerly the "Lower Lachine Road." It has a fine view of the Lachine Rapids and the Nuns Island as well as Laprairie, Caughnawaga and the Indian Village and the Western part of the City of Montreal. The population is about 600

The town has a Recorders' Court and a Municipal Office which presently sits at No. 15, 19th Avenue, Lachine, pending the erection of a new Town Hall.

VILLE DE MONTREAL-EST

La ville de MONTREAL-EST n'a que 8 p.c. d'hypothèque sur le montant de son évaluation. Ses propriétés sont cotisées à 40 p.c. de moins que celles de sa voisine immédiate, la Cité de Montréal, dans le quartier Longue-Pointe. Tous les services publics, aqueduc, canaux d'égouts, e.c., sont placés dans les ruelles. Toutes les rues sont garnies d'arbres et éclairées à l'électricité. Le quartier résidentiel est situé en dehors du district réservé à l'industrie.

Les terrains à bâtir, avec tous les travaux faits, se vendent meilleur marché que dans aucune autre ville de l'île de Montreal, et sans taxes pour les travaux permanents. La raison de ceci vient de ce que la Ville de MONTREAL-EST a été bâtie d'après un plan d'ensemble et administrée comme une propriété privée.

Aussi, alors qu'en ce moment les valeurs immobilières sont partout stationnaires et souvent chancelantes, les terrains dans la Ville de MONTREAL-EST sont en demande de plus en plus, surtout aux abords de l'église.

**LA VILLE DE MONTREAL-EST
EST L'AVENIR DES PETITES BOURSES**

MONTREAL SOUTH.

There are three churches, Catholic, Methodist and Anglican, a public hall and two schools, including the English Model School of Montreal South and Longueuil.

The Park & Island Electric Ry. cuts through the lower part of the Town affording a 20 minutes' service with the city. The Montreal P. & I. Ry., enters the Town by the Sherbrooke Boulevard with a 5 minute service. It has three churches; Church of England, Presbyterian and Methodist, a Public Model School and a Post Office. Postal delivery twice a day. There are drains, water, electric light and Bell Telephone. Population about 1,800. For names of residents and a guide to the streets see Montreal Street and Alphabetical Directory.

(Incorporated in 1875.)

A town near the west end of Mount Royal Park, forming part of the municipality of the parish of Montreal, county of Hochelaga. It is bounded on the East and North by Laurier ward, on the West by Cote des Neiges ward, and on the South by Mount Royal Ward. Electric cars going around the mountain to St. Laurent, and Cartierville, pass through the town, and there is also a special five minute service for the town. The town contains a very fine Protestant school, a large educational convent, a branch of the Sisters of the Holy Names of Jesus and Mary, a Town Hall and the Outremont Curling Club. The Outremont Golf Club has its links off St. Catherine road. Building operations have been carried on extensively during the past year. Easy of access from the city, no finer suburb can be found. Distant from Montreal 2 miles. Population about 10,000, Joseph Beaubien mayor; G. Ficher, G. H. Robinson, Donald Munro, Wilfrid Besette, A. R. Lemire Marsolais, Robert Cooke, W. J. Stewart and A. Corbin councillors; Ernest T. Sampson, secy-treasurer; J. Duchastel, engineer; H. G. Reid, building inspector; G. B. Baker, chief of police.

ST. LAMBERT.

A suburban town on the south shore of the St. Lawrence directly opposite Montreal in the county of Chambly, district of Montreal, with a population about 4,500 and growing rapidly. It is an important railway centre, with an electric railway to Montreal, operated by the Montreal & Southern Counties Railway Co., making 50 trips each way; fare single, 15c return 25c; ten trips 75c, 55 trips \$2.75; and has an excellent train service by the Grand Trunk Railway, with over twenty trains each way daily. Return 25c, single 15c, on suburban trains, return good for day of issue only, 25c; return good for 1 month 35c; single fare on regular train 25c; by commutation tickets, 10 trips for 75c, 55 trips for \$2.75, or 5c a trip

The Victoria Jubilee Bridge spans the St. Lawrence here, and all trains to and from the City stop at the railway station. Several lines of railway run here, viz: Grand Trunk for points South, East and West; I.C.R. for Halifax; Central Vermont for Larnham; New York and Boston, Delaware & Hudson for New York; South Shore Railway for Sorel and the Montreal Southern Counties Electric Railway. The distance to Longueuil,

the county seat, is three miles; communication, by the electric railway. There are four churches: Methodist, Episcopal, Roman Catholic and Presbyterian, with resident ministers and cure. There is a large Academy, conducted by the Protestant School Commissioners, with a staff of eleven teachers.

The Roman Catholic School Commissioners' school is now conducted by the sisters of the Holy names of Jesus and Mary and have a staff of five teachers for girls and two brothers of the C. S. Viateur for the boys. They have built a convent that has cost \$80,000 to receive boy boarders. There is excellent boating on the river, and the St. Lambert Boat Club is recognized as one of the best clubs in the vicinity of Montreal. The residents are mostly employed in the City, and select it for a suburban home from its favorable situation and excellent means of communication at all seasons with the city. A walk along the river bank gives the Town a fine promenade of over 1,000 feet in length from which the view of Montreal, lighted at night by thousands of electric lights, is magnificent. During the winter months direct communication is had with Montreal by an ice road across the St. Lawrence on which considerable driving is done, and by the bridge. St Lambert is being rapidly built up, and is destined to become a very important suburban point and has a system of water, drainage and electric light. Mail twice daily. G.N.W. Tel. Co. has an office, also telephone communication.
