QUESTION OF TERMINALS MOST MOMENTOUS ONE

Likely to Prove Enormous Factor in Changes of Quebec City and Its Environments.

RELIEF FOR COMING TRAFFIC CONGESTION

The very important question agitating the minds of those of our community having only the sincere interests of our city in view, is the proposition of the momentous terminals and the enormous factors they will be in the great changes that will result to our city and its environments.

The very geography of the city is bound to be greatly and seriously altered by the entry of the numerous railway lines into the Lower Town, and in many instances entire blocks will be expropriated for the public benefit.

It is just as well to view these matters in a broad light, and to examine not only the present, but the future developments that will arise from such a condition of affairs.

Take for instance the site of the present Custom House, a property which would be of very great necessity in the development of the city, it utilized for the purpose of the terminals and their approaches. There can be no question but that we MUST provide for very much greater facilities than that offered at present, and in doing so, we must secure and AT ONCE the most desirable locations that can be adaptable for these undoubted necessities. As at present

situated the Custom House is located in a most inconvenient quarter, and we would suggest that it be transferred to some point in St. Peter street, where an entire block might be secured on the south side of that street, and the Custom House occupy the frontage on Peter street, and the Examining Warehouse at its rear, and with its frontage on Dalhousie street facing the river, and in close proximity to the various railway lines passing at its doors, as well as the ferry and ocean steamers.

In any event we invite public comment on this proposition, and with the map of the Lower Town of the city before us, we can devise no better for relieving the congestion that is bound to develop, with a growth of business that we are all anticipating, and at the same time give all the advantages of convenience, accommodation and expediency that are but rightly due to our business community, who have daily dealings with our Customs and revenue departments.

We further suggest that the locality at present termed the Custom House pond, should be filled in and utilized as part of the terminal property, thereby giving several thousand yards of additional ground for these great works.

SOME APPLICATIONS BEFORE GOVERNMENT

Independent Comment on Some of the Applications Before the Legislature.

Certain companies are now applying to the Legislature for various rights and charters; and are setting forth the benefits which they contend would accrue to the public if such applications should prove successful. Their stated object is to lessen the cost of the product by direct competition with the existing companies.

This is quite right in its way, and the public naturally should be thoroughly considered in these directions, as well as carefully protected against exorbitant rates. But, on the other hand, it is also the duty of our legislators to protect these gentlemen, who have invested large sums of money in Quebec enterprises, and to whom, in all fairness, every consideration should be given, equally with the public in general. The rights of the latter should not be jeopardized, and they are now thoroughly protected by the Public Utilities Commission. Those capitalists who are striving to build up Quebec and develop and enlarge our possibilities, should receive at the hands of our Legislature such serious deliberation, as will provide against any thoughtless injustice to them.

Quebec people have had experience in the past of instances where mushroom companies have risen up, simply for the purpose of being bought up by the larger and bona fide concerns, thus subjecting them to increased outlays, for which the public naturally must suffer in the end.

The Chronicle recommends, therefore, a wise and careful consideration of all such applications. In fact it should be made to give the present company an opportunity to make good during the coming year, and let our public with them work along on harmonious lines, and by a combined effort secure a much greater volume of business, which would result in a decrease of rates on both the electric and gas supplies of the city.

Let the legislative body insist on the taking down of all the unsightly poles in the city, and let this be one of the provisions for the present company to continue on unmolested. By so doing the appearance of our city streets and the city generally will be greatly improved and beautiful.

\$2.50.

That is the price at which we sell almost all our hard hats, whether Buckley's, Royalties, or Tween's. We have 85 quantities, which we are selling at \$2.50.

YOUNGER MEN ARE WANTED

Sir Richard Cartwright and Hon. Wm. Patterson May be Supplanted in Federal Cabinet.

Ottawa, April 27.—There was considerable talk around the corridors of the House to-day concerning the letter to the Toronto Globe by H. H. Dewar, K.C., in which he criticized inferentially some of the Cabinet Ministers, and said in effect that west of Brockville there is none to lend directing force to the party in Ontario. While the matter has not taken any very definite shape, it is pretty strongly hinted that a move is on to supplant Sir Richard Cartwright and Hon. William Patterson by younger men. Mr. Pardee, the chief whip, and Mr. Hugh Guthrie, are mentioned in that connection. It is stated that Mr. Aylesworth has no intention of retiring. If he had such an idea, his friends say, the criticisms of the Globe have dissipated it. The Ontario Liberals are said to generally wish the Minister to remain and their views are shared by the party supporters in Quebec.

LISLET MAAS WAS A VICTIM

St. John, N.B., April 27.—Adelore Newman, of Lislet, was caught in the shafting and killed in a sawmill near Campbellton, and another man named Couillard was severely injured.

WON \$50,000 PRIZE

London, April 27.—Louis Paulhan, the French aviator, made the trip by aeroplane from London to Manchester, with only one stop, thus winning the \$50,000 prize donated by Lord Northcliffe.

THE BRITISH BUDGET

London, April 27.—Chancellor Lloyd-George's financial budget, the rejection of which by the House of Lords cost the nation, as Premier Asquith announced in his final speech to-night, \$8,500,000 in actual money, passed the third reading in the House of Commons by a majority of 93 amid loud cheers from the Ministerialists. It was immediately carried to the House of Lords, which was waiting in session to receive it and in quite uneventful fashion the Lords passed the first reading of the bill.

TELEGRAPHIC ITEMS

Washington, April 27.—General Nelson A. Miles, U.S.A., retired, was thrown from a new horse he was riding in Potomac Park to-day. One rib was broken, he received a slight scalp wound and was bruised on his shoulder and side. It is not thought he suffered any internal injuries.

Welch, W. Va., April 27.—Attorney-General Samuel W. Williams, of Virginia, to-day was found guilty of assault upon former Chief Justice Jos. M. Saunders, of the Supreme Court of West Virginia. He was fined \$100. Attorney-General Williams and Judge Saunders had a dispute in a courtroom at Welch last autumn and it was charged that the attorney-general struck the former chief justice with an ink stand.

Toronto, April 27.—Great indignation is expressed by Mrs. Alfred Pardee, wife of the President of several railroads in the United States, at the action of the Canadian immigration officials, who questioned her closely and made remarks which she considers insulting when she was crossing the line into Canada at Niagara yesterday. She was on her way to Toronto to visit her parents. Mr. and Mrs. Fulford Arnold, Mr. Arnold, who is Clerk in Chambers at Osgoode Hall, is very indignant at the treatment which has been accorded her. The officials express doubt that she was Mrs. Pardee even when she produced her visiting cards. They only ceased their inquiry when the conductor of the train, who had seen Mr. Pardee put her on the train at Philadelphia, came forward and identified her. A protest at the action of the officials has been forwarded to the Minister of Justice, who is asked to refer the matter to the proper channel to rebuke such conduct.

HOW TO ECONOMIZE.

By consulting the advertisement of Marceau & Co., which is appearing in another column, you will see the great savings you can make on a very select line of reasonable goods.

Deposit Account

CALL at the General Office and open a Customer's Deposit Account to-day. Once you have tried this method of shopping, you will wonder how you ever got along without it.

Ayer's Hair Vigor is composed of Sassafras, Glycerin, Quinine, Sodium Chloride, Castile Soap, Alcohol, Water, Perfume. Show this to your doctor. Ask him if there is a single injurious ingredient. Ask him if he thinks Ayer's Hair Vigor, as made from this formula, is the best preparation you could use for falling hair, or for dandruff. Let him decide. He knows.

The Quebec Chronicle

QUEBEC, APRIL 28, 1910.

THE NEW TIMBER REGULATIONS.

The Order-in-Council giving particulars of the new provincial timber and limit tariff is published in the Official Gazette. The new regulations will be in force for ten years from 1st September, 1910. The stumpage on pine logs is increased from \$1.30 to \$2 per 1,000 feet, and on spruce logs from 65 cents to \$1.05. The ground rent on limits will be \$5 per square mile in stead of \$3. The rules prohibiting the cutting of pulpwood for export are very explicit namely:—

All timber cut on Crown Lands after the 1st of May, 1910, must be manufactured in Canada—that is to say, converted into pulp or paper, into deals or boards, or into some other article of commerce or merchandise as distinguished from such timber in its raw state. It is further provided that there shall not be considered as manufactured, within the meaning of the present regulations, timber merely cut into lengths or logs piled up, barked or otherwise worked preliminary to the fabrication of pulp or paper, of deals or boards or of any other articles of commerce, nor waney timber nor poles; but actual square timber and railway ties are considered as manufactured.

Other provisions of a long list are to the effect:—

"1.—All licenses to cut timber are subject to an annual ground rent of five dollars per square mile or fraction thereof, to date from 1st September, 1910. These licenses run for 12 months, from the 1st May to the 30th April following, and no claim for over-charge of ground rent and fire tax in the extent of the limits can be entertained after licenses have been issued."

"2.—All licenses expire on the 30th April after being issued, but the licensee who conforms to the existing regulations has, until the 1st September following, the right of renewal of same. Any infraction of the law or regulations forfeits the said right, but the minister may consent to the renewal of the license, on payment of the ground rent, and such penalties as he may see fit to impose."

"3.—In the event of the partial or total destruction of a limit by reason of fire, by the process of colonization or for other causes, the minister holds the discretionary power of annulling the license in whole or in part."

THE REV. ANDREW T. LOVE, D.D.

In conferring the honorary degree of Doctor of Divinity upon the Rev. Mr. Love, Queen's University, paid a well merited tribute to one, whose worth has long been recognized, not only by the Presbyterian Church in Canada, and by the congregation which he has so ably ministered to, for many years, but also by the community at large.

Called to St. Andrew's from his first pastorate in St. Stephen, N.B., in 1881, as successor to the talented Dr. Cook, the task which confronted the young minister was naturally an arduous and difficult one.

The influential position which St. Andrew's Church occupies to-day is sufficient proof that it has been fulfilled faithfully and well.

Beloved as a clergyman, honored and esteemed as a citizen, we join with the congregation of St. Andrew's, and the citizens generally, without distinction of race or creed, in tendering hearty congratulations to the Rev. Dr. Love, upon the distinguished honor which has come to him, and which is all the greater coming, as it does, at a comparatively early period in life, and from a University which has always been noted for the marked conservatism displayed in the distribution of her honorary degrees.

Notwithstanding the heavy inroads made upon the time required for the pulpit and pastoral work of a large congregation, Dr. Love has ever evinced a deep interest in all matters pertaining to education, and for many years has been a most valued member of the Protestant Committee of Public Instruction for the Province, a Governor of Morrin College, and a Director of the Boys' High School of Quebec.

Free from that narrow ecclesiasticism which so frequently hinders and hampers movements of a non-sectarian character, Dr. Love, by his catholicity and tolerance, has won for himself the respect and confidence of those who differed from him in matters of faith and creed. And with every movement of a social or reform nature tending to better citizenship, he has, at all times, been closely identified, and expression is given to the wish that he may long be spared to the congregation, whose loyalty and attachment, grows stronger with the advancing years, and also spared to the city of his adoption, in whose welfare he has taken such a prominent part during a quarter of a century or more.

Smoking Tobacco, Mild and Natural

WHAT MORE WOULD WE HAVE?

Assurances have been given by the Mayor and the Chairman of the Harbor Commission, in connection with civic improvements, and it will be well for the citizens of Quebec to make a note of these assurances. At the end of the present session of Parliament, the Premier, the Minister of Public Works, and the Chairman of the Railway Commission are to appear upon the scene, and the city must hold its impatience in check until they arrive. La Vie comments that, while Montreal has been voted six millions of dollars for the improvement of its harbor, there is no mention made in the estimates so far, as to the amount to be spent on the improvement of the Harbor of Quebec. Were the Chronicle to implement that comment at this late date, after all we have said, such would only tend to raise the charge usually laid at our door when advancing well-weighted arguments in favor of Quebec, that we would make "political capital" out of the situation. We have had our say. And now we have assurances from two responsible officials—and the responsibility of implementing these assurances lies with these gentlemen. The question is entirely beyond the arena of political partisanship. Quebec would enter upon the advantages of what is its own, as an active seaport. And the man or newspaper who would condone the offense of keeping it out of its rights, on the score of "political exigencies," can hardly be classified among the friends of Quebec. The duty of the hour is therefore to hold our impatience in check until the Premier appears upon the scene; though it is to be hoped that the plans that are to be laid before him will be in a matured form in order that further delay may be avoided.

MR. BORDEN AND HIS ASSOCIATES

The fair fighting and brave fighting of the Conservatives in the House of Commons has turned the tables completely on the "subsidized ones" who have been exploiting a new kind of "somersault" every day, in order to make out, from between their legs, that the Conservative party has all gone to smash—the fair fighting has given an interest to the closing days of the session. The impression that is being made on the public mind is that "Canada is never likely to have again a Government more corrupt, in its big schemes as in its small schemes, as the one at present in power. The summings up by Mr. Borden, of the various debates on the malversation practices to be met with in the various departments, have been particularly fair and forcible. For instance, in speaking of the meanness of using the mails for franked matter that ought never to have been franked by the heads of departments, Mr. Borden quoted and re-asserted the statute which reads as follows:—"All letters and other mailable matter sent by the public departments at Ottawa and franked as being of a departmental character, all correspondence addressed to the ministers in charge of the said departments or to their private secretaries, or to the deputy heads or secretaries of the same, or to any recognized branch or division of a department are to be carried free of Canadian postage."

Now every postmaster in the country knows that this statute "has been broken with impunity, in behalf of Liberal candidates during an election campaign. And, in presence of what the Minister of Justice, the Postmaster-General, and the Solicitor-General, who were proven during the debate to have been cognizant that the above statute had again and again been contravened. Mr. Borden gave his final conclusive words:—"If any communication by mail is not on public business of a departmental character, it cannot properly come under the provisions of the statute. I know that awkward cases may be cited, possibly cases that are inconsistent with the usage established in the past. I am not concerned with that; I am taking the plain words of the statute, and the regulation. The minister (Mr. Paterson) has asked me a fair question and I desire to answer it fairly. Under the words of the statute, it seems to me, unless matter can be described as of a departmental character, and sent out by the department as such, it cannot go free in the mails. You cannot go further than that. But as respects trifling and trivial instances, no one would think for a moment of raising any question. It is only when there is a regular, organized system of what I hold to be a violation of the Post Office Law carried on by a department of the Government, that the question is raised in this House. I think that the Minister of Customs (Mr. Paterson) if he were satisfied that there was a violation of the law, would be as anxious as I am to see it brought to an end."

And it can easily be seen how far Mr. Borden held by the position side of the statute, without brandishing in the face of certain suspects, its more emphatic feature which threatens with the severest of penalties those who

would cheat the Post Office of any part of its revenue by means of counterfeit or unlawful imitated initials on a letter purporting to have been franked by a minister or sub-officials. Altogether Mr. Borden and his associates have been doing something, in a fair way, to show how rotten a rotten government can be in the smallest of meanness.

WHO WANTS TO DECAY A RIGHT EXPENDITURE?

The flippancy at times indulged in on the part of the Liberal Minister arises from the stereotyped majority behind their backs for a support in everything they do, with no distinction between right and wrong. But for that majority the Province at times would not know which way to look when the argument goes against him and his party's failings. For instance, a complaint, well-founded, was made the other day by a Conservative member that there was an unaccountable delay in the completion of a certain public work in his constituency. "You would have us spend more money," hinted the Premier. "That is the usual complaint I thought your side of the House were inclined to think we spend too much."

A contemporary pointedly refers to the ill-timed sneer of the Prime Minister that was certainly intended to misstate the case, claiming that nobody would think of blaming the Government for necessary expenses, however large they were, in a country, progressing as Canada is. The man who would be so would be inconceivably stupid. What is being decried in Conservative circles and in every part of the country in this connection is quite another thing. "The widespread and growing charges," says the Ottawa Journal, which can in no sense be called a Conservative paper, "of ministerial extravagance, deal with works improperly supervised, with conditions where three men are put to do one man's work, with bridges that fall down through lack of proper management, with building sites for which four prices are paid, with railway construction in which rock prices are paid for gravel excavations, with canals which when built are found to be without navigable water, and with a dozen other situations which the course of the present government's management of public affairs has made increasingly familiar."

For example, the City of Quebec would have certain things done for it in the way of public works, and when these works are in the way of being completed, what Quebecer will be likely to grovel against the expenditure, if everything be done fair and above board?

Zam-Buk in 3 Accidents

It would seem that Zam-Buk, the famous healing balm we hear so highly spoken of everywhere, is particularly useful in the family circle. A report sent by Mrs. E. Davey, 788 Ellice Ave., Winnipeg, will illustrate this. She says: "My little boy, of three, while playing, fell from a high verandah to the ground, cutting his forehead badly. Instead of calling a doctor who would undoubtedly have put in a number of stitches, I bathed the wound well, and applied Zam-Buk. The little fellow, although suffering keenly, soon had relief from his pain. In the course of three weeks by applying Zam-Buk daily, the wound in his forehead was nicely healed."

"Since then I have also used Zam-Buk for a boil which came on my cheek and which proved very painful and looked unsightly. Zam-Buk soon drew the boil to a head and it then quickly banished it."

"Another time my baby was scalded on her left thigh and calf of leg with boiling water. This was a severe scald and the child suffered cruelly, screaming from pain. Directly it was done I thought to use Zam-Buk, as we had a box in the house, and an ointment some on lint I wrapped up the baby's limb. Next morning she rested much easier and I applied a fresh bandage with Zam-Buk. I kept this treatment up daily and was rewarded by seeing a great improvement each time I dressed the wound. In a very short space of time the scalds were all nicely healed."

"I cannot recommend this wonderful healing preparation too highly for family use, and I have such great faith in its healing powers that my house is never without a box."

For all skin injuries and diseases, piles, eczema, salt rheum and face sores Zam-Buk is absolutely unequalled. 50c. a box at all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. Refuse all substitutes.

REMOVAL FROM OFFICE

Washington, April 27—President Taft has ordered the removal from office of Daniel A. Sutherland, U. S. Marshal for the district of Alaska and of Jno. J. Boyce, district attorney for the first division of Alaska. General incompetency was the charge against the marshal.

EMPIRE FESTIVAL

London, April 26—Dr. Chas. Harris personally directs the initial concert of the Empire Festival, May 24th, in the presence of the King, Queen, Prince and Princess of Wales. Four thousand in the choir and 480 in the band, everything arranged for the musical festival through the Empire, commencing in Montreal next March.

GREATER QUEBEC.

The clerks and office hands of to-day will be the managers and capitalists of to-morrow. Now is the time for our bright youth to prepare for the dawn of a commercial activity which is coming to old Quebec. The supply is already short of the demand for capable, active and willing workers. Enroll immediately in Quebec's foremost school for business training, where you will enjoy the advantage of a clerical help bureau free of cost to its pupils and the business community. No vacations.

SHIPPING NEWS

ALLAN LINE.
Steamer Corinthian, from London and Havre, for Quebec and Montreal, sailed from Havre on Monday.
Steamer Ionian, from Glasgow for Quebec and Montreal, sailed from Merville at noon on the 24th with 325 second class and 727 steerage passengers.
Steamer Sicilian, Captain Wallace, from Glasgow, arrived in port at 10 o'clock last night, mooring at the Breakwater. She is the first steamer of the line to arrive here this season. She brought out 177 cabin and 855 steerage passengers, besides a general cargo. Her passengers will be landed this morning.

C. P. R. LINE.
R.M.S. Empress of Britain, from Liverpool, with passengers, mails and general cargo, was reported 164 miles east of Cape Race at 5:30 a.m. yesterday. Due in port about 1 o'clock on Friday afternoon. Among her saloon passengers are the following Quebecers:—Mr. and Mrs. H. C. Fox, Major T. S. Hethington and Mr. and Mrs. C. S. Parent.

CANADA LINE.
Steamer Prinz Oskar was reported 210 miles east of Cape Race at 6:40 a.m. yesterday (Wednesday) and is due in port Saturday evening. The Prinz Oskar has 923 third-class passengers to land here.

CANADIAN NORTHERN LINE.
Captain Foote, the marine superintendent of the Canadian Northern lake service, who at one time was expected to be the new marine superintendent for the same company on their Atlantic service, has returned to Toronto to resume his duties on the lakes, and the choice of a superintendent for the Atlantic portion of the company's business has fallen upon Capt. Jones, who, it is understood, is now on his way out and may be expected to arrive here in the course of the next few days.

STEAMER LAUZON LAUNCHED.
In presence of about 3,000 people, yesterday morning, there was launched from the yard of Messrs. G. T. Davie & Sons, at Lauzon, the second summer ferry steamer for the Levis Ferry Co., Ltd. All things being in readiness, the signal was given for the launch at 7:15 o'clock precisely, and the steamer began to move down the ways, when Miss Alina Gosselin, of Levis, broke a bottle of champagne on her bow, naming her Lauzon. As the vessel took the water, loud cheers broke forth from the spectators. The vessel was then towed to the wharf at Lauzon, where the minor work required to be finished.

FREIGHTS AND CHARTERS.
New York, April 25—Very little was done in steamer chartering, although there was a fairly good demand for timber and deal boats to Europe. Rates were steady and unchanged. The sail tonnage market was quiet but firm and freights offered steadily in various of the lumber trades. Quotations to Liverpool, Glasgow, London, and Hull, 14d; Antwerp, 14d; Bristol, 24d; Rotterdam, 3c; Hamburg and Bremen, 17½ pence; cotton to Liverpool, per 100 lbs, 14c.

CHARTERS—British steamer, 2,001 tons (or substitute), timber, Gulf to Quebec or Southampton, 66s 3d, or both ports, 68s 9d, May; British steamer, 1,920 tons, timber, Gulfport to St. Nazaire and Antwerp, 72s 6d, prompt; foreign ship, 500 standards capacity, lumber, Rivière du Loup to Adelaide, 57s 6d, August; British schooner, 503 tons, quebracho wood, Buenos Ayres to Stamford, \$2.50, April.

NOTES.
Steamer Saratoga, Captain Havett, left Middlesbrough on the 22nd instant for Quebec and Montreal.

PORT OF QUEBEC.
Arrived April 27.
SS Sicilian, Wallace, Glasgow, Alton, Rae & Co., passengers and general cargo.

CLEARED.
SS Sicilian, Wallace, Montreal, Alton, Rae & Co., part cargo.

SIGNAL SERVICE REPORT.

CLOSING LETTER.

By private wire Neuville Balleau & Co., 93 St. Peter Street, Quebec. Phone 946.

New York, April 27.—The market opened with a spurt of enthusiasm that carried prices upward from one to two points, but the strength was short-lived and within half an hour from the opening a reaction had set in that continued throughout the day and resulted in depressing prices to a point where the losses showed even greater than the earlier gains. The failure of the market to respond to the advance in the Steel Corporation dividend was given as the cause for the weakness, the traders and professionals jumping into the market and selling stocks right and left. It is said the demand for iron and steel has been very much curtailed of late and that production will have to be reduced. The copper statement is expected to show an increase of 20,000,000 pounds in stocks on hand and copper shares were correspondingly heavy. Recent reports show the crop damage to cotton as less than had been earlier stated. London did practically nothing. St. Paul displayed exceptional weakness, dropping to 137. Union Pacific also sold down to 181. Both of these roads have been given to understand, we are informed, that their proposed new bond issues will not be acceptable at present. Winter wheat damage in Kansas and Nebraska is estimated from 25 to 35 per cent. The closing was weak at about lowest with the blues prevailing.

SMALL INVESTORS.

To-day more and more attention is being paid to the small investor who has only a few hundred dollars to invest. In the public issues being made these days, directors take recognition of this fact. An example of this is shown in the issue of stock being made by the Maple Leaf Milling Company. Shares of the preferred stock are \$100 with each share of preferred carrying a bonus of 25 per cent. of common stock.

Subscriptions are payable as follows:
10 per cent. on application.
15 per cent. on allotment.
25 per cent. on 1st July, 1910.
25 per cent. on 1st July, 1910.
25 per cent. on 1st August, 1910.
As the preferred stock is 7 per cent. cumulative, from April 28, 1910, investors are assured of a return on their investment from the very outset. The common stock will eventually become very valuable so that a person who invests at the present time will receive returns from both his preferred and common stock.

DANGER IN DELAY

Kidney Diseases Are Too Dangerous for Quebec People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined, Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Booth's Kidney Pills, which have cured people right here in Quebec City.

Mrs. Malloy, of 78 Eustache St., Quebec, says: "I am very much pleased to recommend Booth's Kidney Pills for what they have done for Mr. Malloy. He had suffered with a continual pain and ache across the small of the back for months which became so severe at times that he could scarcely straighten up and left him feeling weak and miserable. Headaches were also frequent and he felt all run down. He learned of Booth's Kidney Pills through an advertisement and procured a box at Henry Willis' Drug Store. They were very quick in giving him relief and after a week's treatment the pains have entirely left his back. They have also acted as a good tonic and builder and he feels better in every way."

Sold by Dealers. Price 50 cents. R. T. Booth & Co., Ltd., Fort Erie, Ont., Sole Canadian Agents.

TO LET.—AN OFFICE AND dwelling situated at the prolongation of Sous-le-Fort street, Napoleon (Chouinard) wharf next to the office of the Corporation of Pilots of Quebec. This three-story building is in perfect condition, having been erected only last year. The first floor is suitable for an office and the upper two stories can be rented as one or two tenements. This is a most suitable building to rent for the above purposes as it will be at the landing of the new wharf of the Quebec & Levis Ferry Company, and where passengers to and from the trains on the Levis side of the river will pass. Apply to Dr. Ed. Turcot, 111 St. Anne street.

TO LET.—LARGE WAREHOUSE situated on Napoleon wharf, new landing place of the Quebec & Levis Ferry Co. The warehouse has been occupied for many years by P. G. Bussiere & Co., and by the Colonial Fruit Exchange, and is situated in the most commercial part of the city, adjoining Champlain Market and the pontoons for coasting steamers. Apply to Dr. Ed. Turcot, 111 St. Anne street.

HOUSE TO LET.—AT THE CORNER of Conway Avenue and Beaupré Road, a new house in solid brick, steel structure, Hopper roof, verandah and balcony, electric light, furnace with hot water, 11 rooms and bath room, with all modern improvements, shade trees, and lawn; close to electric tramways and railway. For details apply Edm. Conway, 282 St. Paul street.

TO RENT.—A SPLENDID RESIDENCE, 412 St. John street, near St. Jean Baptiste Church, 9 large well lighted rooms, heated by the proprietor, electric and gas system throughout the house, gas stove, bath, etc. Snow removed, has been occupied by same tenant for 8 years.

FOR PRIVATE USE.—THE IN-vincible Electric Suction Renovator keeps your house clean and healthy. Invaluable for sale by John Thomson, proprietor Quebec Carpet Cleaning Co., 95 Peter street. Phone 1043. Get information about this and see machine work before deciding to buy elsewhere.

FOR SALE.
FOR SALE.—A GOOD WORKING horse, cheap. C. J. O'Regan, No. 3 Palace street.

FAIRBANKS SCALES. EVERY style of scale from the delicate drug-gist scale to the heaviest track scale. Fairbanks Standard in every respect. Send for scale catalogue. Canadian Fairbanks Co., Ltd., Montreal.

FOR SALE.—TWO IRON BED-steads with mattresses, brass finished, in good order. Apply 9 Prince street, Montcalmville.

COUNTRY PROPERTY FOR SALE.—Property of Captain Benyon. That desirable property situated at Rivière du Loup Point with dwelling house containing 16 rooms, verandah 12 feet wide overlooking the St. Lawrence River, with stables, coach house and loft. The house is thoroughly well furnished and ready for occupation, and the property is supplied by good water from the main pipe of town of Fraserville waterworks, besides a well on the premises. For further information apply to Meredith & Meredith, Notaries Public, 46 Dalhousie St., Quebec.

FOR SALE.—ONE OF THE FINEST cottages of the Point, Rivière du Loup. For particulars and price apply to J. E. Richard, Credit Foncier, F.C., 74 Mountain Hill, Quebec.

FOR SALE OR TO LET, WITH possession 1st May, 1910, house No. 14 Ramparts, Grand Battery.

FOR SALE, WITH POSSESSION 1st May, 1911, house No. 15 Ramparts, Grand Battery. Each house containing eleven rooms and three bathrooms, heated by hot water. Gas and electric light fittings. Spacious cellars, cement floors. Apply to Daniel McGie & Son, 63 Peter street.

HOUSES FOR SALE OR TO let—on St. Cyrille street, Montcalmville. Apply to A. Tremblay, 439 Richardson street.

YACHT FOR SALE.—Y.Y.C. YAWL "Pirate," 30 feet overall, fine cabin, furnished. May be seen at Chevalier's Shipyard, Cap Blanc. Apply to 37 Fraule street.

FOR SALE.—THE HANDSOME RE-sidence, No. 11 Haldimand street, containing 18 rooms, bath room on each flat, hot water heated, electric light and gas, with an entrance on Mont Carmel street, opposite Governor's Garden. For particulars, apply to Ames J. Colston, Hocholaga Bank Building, St. Peter street.

HOUSE FOR SALE.—A HOUSE FOR sale, No. 71 Maple Avenue, and another St. Augustin street, 118-120-122, near Parliament Building. Apply E. Nadeau, 41 Ste. Genevieve, or telephone 1020.

LANDS FOR SALE.—TWO SEPAR-ate lots of two arpents each by thirty at L'Anceienne Lorette, 6th range, Grands Deserts. In good state of cultivation, with buildings, and good fences. Address Pierre Gaurin, Anceienne Lorette, La. Leclerc, notary, Quebec.

CREAT CHANCE FOR A CAPITAL-IST OR FOR A SYNDICATE

FOR SALE.—TOWN OF MONT-CALM, 270,000 sq. feet of land on St. Foye Road, opposite to the New Battlefields Park, magnificent view. Price 11 cents per sq. foot. This price includes House and Stables and improvements worth \$10,000, thus making net price of land less than 74 cents per sq. foot. Apply to Dr. James Laurie, St. Foye Road, Montcalmville.

FINE LOTS FOR SALE.—FIVE fine lots fronting on Maple Avenue, opposite Brantford's Terrace, 130 feet front on Avenue, by 134 feet deep, with lane in rear. Their situation makes them the most desirable lots on the Avenue. Sold separately if desired. Apply to 60 Maple Avenue, Phone 983.

HEALTH COMMITTEE IMPROVEMENTS HELD MEETING NOW UNDER WAY

Question of Chinese Laundries—
Doctor for Ambulance Calls
Necessary.

In the Harbour of Quebec—What
is Being Done Near the
Louise Basin.

Ald. Jobin presided at a very interesting meeting of the Health Committee, which was held at the City Hall last evening. The other members present were Ald. Lantier, Collier, Cummings, Barbeau, Delisle and Guillet. Mayor Drouin and a number of other Aldermen were also in attendance.

A large amount of routine business was transacted, among which was the granting of the contract for removing of dead animals to M. Canac-Marquis for another term upon the same conditions.

The draft of a by-law concerning Chinese laundries, drawn up by Ald. Lantier, was read. The proposed by-law provides for regular inspection of the premises as well as medical inspection of the employees. Ald. Lantier said the by-law had been drafted in the interest of protecting the health of the city. There was an interesting discussion upon the matter, in which Ald. Delisle, Guillet, Barbeau and other members took part.

Ald. Collier suggested that the proposed by-law be submitted to Dr. W. Delaney, who was at present taking a course at McGill on public health. The present by-law would come under the proposed by-law, and Dr. Delaney would be agreeable to look over the by-law, and it would cost the city nothing. Dr. Lantier said he would be only too happy to have Dr. Delaney look over the by-law, as the committee wanted all the help in the matter possible.

Ald. Lantier brought up the question of sending out a doctor with the city ambulance. Under present circumstances, the victim of an accident might be dead before he reached the hospital. He suggested that the city might allow a subsidy to a doctor to accompany the ambulance on its trips.

The suggestion of Ald. Lantier was discussed at length, and the matter will be further studied.

DON'T SEEK ELSEWHERE.

It is useless to look for the suit you want elsewhere. Go at once to J. L. O. Drouin, 95 St. John Street, and buy one of his celebrated Red-Form suits. You will have the best at 25 per cent better bargain than anywhere else.

\$30,000.00

We have received more than \$30,000 worth of Carpet, Rugs and Oilcloths of all sizes, besides portieres, curtains, brocades, mattresses, iron bedsteads. Come and pay us a visit.

FAGUY, LEPINAY & FRERE.

FRENCH OPERA COI

"Lakme," one of the finest productions in the French Opera Co.'s repertoire, will be given to-night at the Auditorium. "Faust" and "Carmen" were given at the matinee and evening performance yesterday and evening. The dancing of the ballet was particularly charming in the production of "Faust." The New Orleans Company has made a remarkable impression in Quebec, and there should be crowded houses for the remainder of the engagement.

Rose Quesnel

Smoking Tobacco,
Mild and Natural!

HAD HIS LEG BROKEN.

The ambulance was called to the Champlain Market yesterday morning to convey a man named Joseph Theriault to the Hotel Den Hospital, and who arrived by the boat from St. Romuald. The man had been engaged on the work now in progress in removing the debris of the Quebec bridge, when he had his leg caught under some iron. The limb was broken and bruised. Dr. Lambert, of St. Romuald, was summoned to attend to his injuries, and set the fractured limb. The victim of the accident is a man of about 30 years of age.

ENJOYABLE ENTERTAINMENT.

A packed house greeted the entertainment given by the choral and calisthenic class of the Ladies' Auxiliary, A. O. H., at the St. Patrick's Hall last evening, and everyone present was greatly pleased with the charming performance. The youthful performers all acquitted themselves with the utmost credit, and won the enthusiastic applause of the big audience. The physical culture exhibition by the girls, under the direction of Instructor Pyke, was one of the features of the evening and was loudly applauded. There were songs, duets and choruses, piano selections and recitations, all of which were well received. The ladies of the Quebec Banjo Club also lent their aid, and added greatly to the performance.

THE UPWARD TREND OF THINGS.

Those who are interested, as all should be, in the moral progress of Canada, should attend the address to be given by Dr. S. D. Chown, D.D., of Toronto, in the Methodist Church this evening at 8 o'clock. The address will deal with the work undertaken by the Moral and Social Reform Council of Canada, which is composed of representatives from all the religious bodies in the Dominion, from the Trades and Labor Congress, the Dominion Grange and Farmers' Association. Dr. Chown was set apart to this work by the Methodist Church seven years ago, being the first man so appointed in Canada and from his ability and experience is one of the potent forces of the wise promotion of necessary moral and social reforms by Educational, Legislative and administrative action. He is a most attractive speaker and all who hear him will be abundantly repaid. The choir will furnish music and a collection in aid of the work will be taken during the evening.

PROMOTION OF QUEBEC PORT.

Special Committee Appointed by
Mayor Drouin Met Last
Evening.

The special committee appointed by Mayor Drouin, in connection with the recent timely suggestion made by Ald. Morin in the City Council in regard to the development of the trade of the port of Quebec, held a preliminary meeting at the City Hall last evening. There was a full meeting of the committee, and the discussion upon the subjects which the committee might take up, and the manner in which it might render useful service to the city and port was most interesting. The movement inaugurated by Ald. Morin bids fair to be of great importance to Quebec, and from the wide expression of opinion last evening, it seemed as if the time had arrived for the appointment of just such a committee in order to make a united effort to secure for Quebec an increased business, and its development into one of the leading ports of the Dominion. The committee aims to be able to express the united views of the city, Harbor Commission and Board of Trade, and therefore should be more effective.

Ald. Morin was unanimously elected chairman of the committee, the other members present being Ald. Messier, Ald. Goulet, Mr. G. A. Vandy, President of the Board of Trade, and Mr. Jos. Picard, President of the local branch of the Canadian Manufacturers' Association. Mayor Drouin was also in attendance and took a lively interest in the proceedings.

A most practical suggestion was proffered by Alderman Morin. He pointed out that although Quebec had a good import trade, it exported very little in comparison. The sum of the situation was this, that if a ship came to Quebec with imports, she had some difficulty in finding a sufficient cargo wherewith to return. They should, therefore, devise some scheme to remedy this, and he suggested that they should secure the services of a maritime broker, who would work up the export trade of the port by tapping the inland districts and diverting some of the stream of exportation going out from other places to the harbor of Quebec. This broker, or commissioner, would of course have a commission on the exports he was instrumental in securing.

Mr. G. A. Vandy approved of the idea, which, indeed, met with general favor, and suggested that the city be asked to vote a salary for such a broker for the first year or so, since it would take some little time to work up such a trade, and his expenses would probably exceed his income at the beginning. It was suggested as an alternative that a company might be formed for the purpose of increasing this export trade.

Ald. Messier also made a very practical suggestion, and one which met with much favor. This was to the effect that in view of the greater Quebec now being agitated for, the committee might take advantage of the recent law of the Province in regard to the exportation of pulpwood. Owing to the new law it would be necessary shortly to establish pulp and paper mills in order to help small operators to dispose of their timber. Ald. Messier asked if it would not be possible to have such mill erected at Montmorency Falls one that would eclipse Grand Mere, Shawinigan and other inland establishments. Montmorency is in a central position and would naturally get the wood from railroads going through Levis by the new car service ferry as well as most of the pulpwood from the lower St. Lawrence, cut off government limits. Ultimately all this wood must go to a central point, if that point can be reached by rail or water, and whatever site be chosen will quickly make a large sized town. Quebec has this opportunity and the Q. R. L. & P. Co. would add handsomely to its freight and traffic if it adopted such a plan as described above. There would be no difficulty for the mill to get all the wood required at a reasonable price, and it would be a gold-mine to small operators of 50 or 75 or 100 miles of limits who would otherwise be hard hit. This would be a practicable development of a policy which if carried out, would be of untold value to the City of Quebec and vicinity.

These were the main suggestions made at the preliminary meeting, but all the members seemed to be fully imbued with the importance of the question which they had been called upon to deal with, and there is no doubt that the subsequent meetings of the committee will not alone be marked with the deepest interest, but will also be of the utmost importance to the development of the trade of the port.

ECONOMISE!

Fit-Riform suits sold by J. L. O. Proulx are "It" with a capital "I." They are worn by those who wish to be well groomed at an economical price. In spite of their high value they are sold at a better bargain than you can buy them anywhere else.

HELP.

All that is supposed to be in brushes, brooms, cleaners, soap, etc., are offered at special prices during those days at Myrand & Pouliot's grocery store. You should not push back such an offer of help. You certainly need it very much.

TRIAL TRIP OF STEAMER LEVIS

Most Successfully Carried Out—
Everything Worked Smoothly and
Well—How Machinery Worked

The steamer Levis, of the Levis Ferry Co., Ltd., was taken out for a trial trip yesterday, and fully came up to the expectations of her owners and builders. At four o'clock in the afternoon, about 150 gentlemen from Quebec and Levis assembled on board the steamer, which was lying at Davis's wharf, Levis. Shortly after that hour the moorings were cast off and the vessel headed down the river. The trial trip was in charge of Mr. Geo. D. Davie, while the steamer was handled by Captain Menard, of the salvage steamer Lord Strathcona, the officers and crew being taken from the same vessel. When the Levis neared Indian Cove she was headed to the Quebec side of the river, going below the Breakwater. She next was headed into mid-stream, running a considerable distance up the river, finally putting about and going to the Champlain Market wharf to land the Quebecers on board. Although this was the first trip the vessel ever made, it was most successful, all the machinery working smoothly and in first-class style. A particularly noticeable fact was the rapid manner in which she answered her helm. During the trial, although the steamer was tested with, against and across the tide, she was very steady, little vibration being felt. This is remarkable when it is considered that everything connected with the vessel is new, and reflects the greatest credit on the builders of the hull, boiler and machinery, Messrs. G. T. Davie & Sons, and the Canadian General and Machinery Co.

During the trip refreshments were served on board. Just as the steamer was nearing the Champlain Market wharf, the health of the builders of the boat and machinery was proposed and received with great enthusiasm, those present tastily singing "For They are Jolly Good Fellows."

Mr. Caron, Manager of the Canadian General and Shoe Machinery Co., reported in an eloquent manner, in which he paid a warm tribute to the employees of the Messrs. Davie and his own company for the manner in which they had performed their respective tasks.

The boat having reached the landing, the trial was brought to a successful close.

Following is a short sketch of the two firms who constructed the Levis and her sister ship, Lauzon:—

Mr. Ernest Caron, managing director of the Canadian General and Shoe Machinery Company, Limited, established himself in Quebec in 1901 in the manufacture of shoe machinery.

At first equipped with a small machine shop but unlimited energy and perseverance the business grew rapidly. In 1905 Mr. Caron formed a company with a \$500,000 capital, the shareholders including the most prominent business men of Quebec and Montreal. In 1908, after marked success in the business, Mr. Caron went to England for the purpose of opening the European market for his shoe machines. His efforts were met with success on all sides and there now exists a flourishing market.

In 1909 the Canadian General and Shoe Machinery Co. obtained from the Federal Government a 30-year lease of the shops and works of the late firm of Carrier, Laine & Co., in Levis. Immediately the shoe machinery plant was installed and also launched into general mechanical, engineering and marine work and contracting. Hardly two months had passed since the installation in the new works when the Canadian General and Shoe Machinery Co. obtained the contract for the building of the engines and boilers of the two new ferry boats for the Levis Ferry Limited. With his recognized judgment and foresight, the managing director established friendly and firm business relations with the firm of George Davie & Sons, which company has been in the shipbuilding business for the last seventy-five years, and together these two companies undertook the construction of the ferry boats, Messrs. Davie & Sons building the hulls and the Canadian General and Shoe Machinery Co. building the engines and boilers and installing same in boats. The contract for both boats was given out on the 25th November last with the stipulation that they should be ready for service the 1st May, 1910. A great

task, but the organization was commenced with vigor in December and the secret of the success which now sees their efforts crowned is the harmony and good-will which at all times existed between the two companies, their staffs and workmen, the able direction of Mr. A. Angstrom, of Toronto, the naval architect, the unceasing and watchful supervision of Mr. Alf. Perusse, mechanical superintendent, with the encouragement of the directors of the Levis Ferry, Ltd., Messrs. George Demers, and Dr. Demers, Gosselin, Bernier and Marceau. The superintendents, engineers, foremen and workmen of the Canadian General and Shoe Machinery Co. are the best in the district and leave nothing to be desired. The same applies to Messrs. Davie & Sons. Mr. Angstrom, the architect and inspecting engineer, was highly pleased with the work performed, and on his recommendation contracts for two winter ferry boats for the same company were given out to the Canadian General and Shoe Machinery Co. and Messrs. Davie to be ready for service in November next. The summer boats were launched with engines and boilers installed and ready for service. This gigantic task, performed in so short a time, is a great success and merits the encouragement of the public of the district, and the secret of the success, as before stated, was harmony. If the public recognize the good work and energy of these contractors, the governments will soon fall in line, and instead of having their boats built in Europe, as heretofore, Levis and Quebec will have the benefit of their undertakings. The men employed on these works are all local men and the material was purchased in Quebec and Levis, encouraging local enterprises. The works of the Canadian General and Shoe Machinery Co. are favorably located with water and railway facilities and equipped to handle all classes of marine and mechanical work. The same also applies to Messrs. Davie in their line of work.

SHE COULD NOT HOLD A TEACUP

But Dodd's Kidney Pills Cured
Mrs. James H. White

They took away her backache; cured her urinary trouble and made her a well woman.

Preville, Gaspé Co., Que., April 27.—(Special)—After suffering for four years with ills which many a woman knows, and being treated by a doctor who failed to give her relief, Mrs. James H. White, a farmer's wife living near here, is again a well woman. Dodd's Kidney Pills cured her.

"My trouble started from a strain," Mrs. White states. "I had a pain all across my back and a steady pain in the back of my neck, and I had urinary trouble that caused me a great deal of annoyance. For four years I suffered in this way and the doctor I consulted did not do me any lasting good. In the morning I was dizzy and I finally got so nervous I could not hold a cup."

"Then I started to use Dodd's Kidney Pills, and I got relief right from the start. Three boxes cured me completely. To-day I am a well woman." Mrs. White's troubles were kidney troubles. So are the troubles of nine out of ten of the suffering women of Canada to-day. That is why Dodd's Kidney Pills always cure them.

CAP ROUGE.

ST. JOHN'S PASSENGER RECORD
St. John, N.B., April 26.—During the season just closed the steamers of the Canadian Pacific line landed at St. John 20,489 passengers of all classes. Of these the larger number came from Liverpool and surrounding counties and were nearly all destined to settle in Canada.

TONOMEAD

Water Works Office,
CITY HALL.

Quebec, 21st April, 1910.

PUBLIC NOTICE is hereby given that sealed tenders enclosed "Tender" and addressed to the undersigned will be received up to 4 p.m. on Tuesday, the 10th of May, 1910, for 250 tons (more or less) of Cast Iron Pipe: specials and valves per specifications to be seen at this office.

The pipes shall be delivered free on cars or on wharf in the city and in time to allow the special works contemplated being commenced as early as possible.

Each tender shall be on a blank form procurable at this office and shall be signed by two responsible parties as sureties for the fulfilment of the contract.

Tenders shall contain the City Treasurer's receipt for a sum of \$300, which sum will be confiscated in case of refusal to sign the contract and be retained till the completion thereof.

The city does not bind itself to accept the lowest nor any of the tenders and the contractor shall pay for drawing up the contract and of a notarial copy thereof for official use.

J. GALLAGHER,
Waterworks Engineer.

CITY OF QUEBEC

CITY CLERK'S OFFICE,
CITY HALL.

Tenders for Publishing Documents and for Advertising.

Quebec, 18th April, 1910.

PUBLIC NOTICE is hereby given that sealed tenders will be received from this date until Thursday, the twelfth day of May next (1910) at 4 o'clock P.M., for the publishing of advertisements, By-Laws, Orders of the Day, Minutes of Council Meetings, Committee Meetings, Resolutions or Reports of Council, or Committees, and all documents which the law prescribes to be published or which the Council may order to be published whenever required by His Worship the Mayor or the heads of the several Municipal Departments of the City of Quebec, etc., to be advertised, in one French and one English newspaper, of the city, from the 1st of June next to the 31st of May, 1910, also the consolidation of the By-Laws of the Council. The prices to be specified for one year and calculated "en bloc" or per line of 24 ems Brevier.

The contractors to whom the contract is awarded shall furnish without extra charge to His Worship the Mayor and the City Clerk to each two copies of their newspaper, two in French and two in English, i.e., four French and four English copies gratis of each newspaper exclusive of the copies for which the city pays the ordinary annual subscription. They shall publish in their papers the proceedings of the Council and of the Committees, the Resolutions and reports of the Council and of the Committees and Advertisements and Public Notices which shall be sent to them by His Worship or by the heads of the several departments of the Municipal service, and all documents which shall be sent to them in execution of the contract, the day after they shall have received them and if they fail to do so, they shall suffer a penalty of ten dollars, which may be claimed from them by the city for each day of delay.

The contractors shall also deliver to the City Clerk one hundred French copies and fifty English copies in foolscap pages, printed on one side only, of the minutes of all the meetings of the Council, and also of all By-Laws published in their columns, without extra charge, and if such minutes or by-laws are published a second time they shall also supply one hundred French and fifty English copies of such second publication when they shall be required to do so.

They shall also (whenever requested to do so) supply the same number of French and English copies of all Minutes of Committee meetings, Reports and Resolutions of Council or Committees, Advertisements or Public Notices published in their newspapers. They shall also publish the lists of persons who apply for inscription, correction or radiation on the electoral lists for Parliamentary elections at

NOTICE

In a few days, the Assessors will begin to prepare their valuation roll.

As it often happens that many persons willingly deceive the Assessors by giving them erroneous and false information as to the real amount of their rents, etc., etc., I DRAW, IN A PARTICULAR MANNER, the attention of the tax-payers to the following clause of Act 33, Vic. chap. 46:

"Any person who shall refuse to reply to the questions which are put to him by the Assessor in the discharge of the duties imposed upon him by law, or who shall give information to the said Assessor which he knows to be false, or who shall verbally insult or slander or strike such Assessor, or who shall refuse to allow any such Assessor, in the discharge of his said duties, to enter in and upon his property or the localities occupied by him, shall incur for each offence a penalty not exceeding forty dollars, which shall be recovered according to law before the Recorder's Court of the said city."

THE MOST EVERGETIC MEASURES will be taken to discover the persons guilty of such offences, as injurious to the Corporation, as unjust to the citizens who pay according to the real amount of their rent. All such persons will be PROSECUTED TO THE FULL EXTENT OF THE LAW.

PRINTING

If you use Printing in any form and desire to have it put in the most suitable shape, we can serve you.

In Printing, good or bad, the main items of cost are fixed and you pay as much for stock, for composition, and for presswork to one printer as another, provided he is estimating with a true knowledge of his costs and a fair profit. The fact that one piece of work is more attractive than another is caused only by the intelligence with which it is planned and care which the work receives. This planning and careful supervision is not expensive, and the difference in price between good and poor printing is less than you may suppose, while the difference in selling power may be---probably will be---several times greater than any POSSIBLE difference in cost.

We have the knowledge and facilities necessary for producing good Printing and shall be glad to exert them on your orders.

LEGISLATORS HAD LIVELY DEBATE

Question of Insurance Inspection was
Principal Topic Before Assembly
Yesterday.

A most interesting debate was started yesterday afternoon in the Legislative Assembly upon a motion by Mr. Sylvestre, the Conservative member for Montclair, for the production of all correspondence between the Government and insurance companies and mutual, benefit and charitable associations and as a result of the debate it was almost unanimously conceded that the system of insurance inspection by the Government in this Province needed considerable reform. The question had already been brought before the House last session by Mr. Sylvestre, another Opposition member, and Hon. Mr. Weir, Provincial Treasurer at the time, had promised an investigation into the workings of certain companies, which had, however, been limited to one company, which according to one of the speakers, had shown a better report than the other five companies. Several Ministerial members took part in the debate, all admitting that there was something defective, which should be remedied immediately. The Government inspector coming in for considerable criticism from both sides of the House. The discussion was taken up by Mr. Leclerc at midnight, but was adjourned until this afternoon on motion of Mr. D'Anjou of Rimouski, who was one of the members who had lots to say last session about these companies who carry on a thriving business in the rural counties.

During the afternoon several important measures were introduced by members of the Government, and during the evening sitting quite a debate arose over one of the Montreal subway bills.

When the House opened yesterday afternoon Sir Lomer Gouin introduced a bill to amend the Revised Statutes with respect to bulk sales and explained that the object of his bill was to protect creditors, and according to the provisions of his bill a merchant in future, who wishes to dispose of his stock by sale, will have to obtain the consent of those who sold him the goods, and the purchaser will have to reserve an amount sufficient to pay off the amounts still due to these creditors. This law will have the effect of preventing merchants selling out to any person and leaving the Province with the proceeds of the sale.

Hon. Mr. Devlin introduced his bill to amend the Quebec Game Laws among the amendments for two years extending the present law for those regarding beaver and partridge. Consequently beaver cannot be killed during the two next years and the same amendment applies to the killing of partridge for trade purposes.

There were fifty more questions by members on the order paper, and 42 were answered by members of the Government.

Mr. Mercier asked what revenues had been obtained from fisheries and game since 1892, and Hon. Mr. Devlin replied giving the sums collected every year since then. The smallest amount \$9,993 was collected in 1892, but this has increased yearly until 1909 when the revenue from that source amounted to \$99,656. Mr. Mercier also asked a similar question as to the revenues of mines since 1892. The smallest amount was received in 1904-05 when it was \$1,408 and the largest amount was in 1906-07 when the amount collected was \$70,399.

Mr. Mousseau asked what amount had the Government spent for public institutions in each year since 1887.

Hon. Mr. Decarie gave statistics covering each year since 1887-88, when the amount spent was \$375,459, and in 1908-09 \$737,600.

Hon. Mr. Decarie also informed Mr. Mousseau regarding the amounts paid by ratepayers each year since July 1, 1887, as school taxes. In 1887-88 the sum of \$1,016,372 was paid in, but has been increased every year until 1908-09 it reached the sum of \$3,106,399.

Hon. Mr. Allard informed Mr. Lavergne that the Government did not purchase maps of the Province of Quebec in Ontario.

In answer to Mr. Kelly, Hon. Mr. Allard stated that 20,947 letters were received during the last fiscal year by the Department of Crown Lands and Forests; there was no special officer named to see that these letters were answered or disposed of, but they were sent to the hands of each branch to which the letters referred to. These of-

Why Not Get Rid of That DYSPEPSIA?

Probably you have tried hard enough, with doctors, drugs and dieting. The only trouble is that you have not yet tried Father Morrissey's "No. 11" Tablets. If you had you would be cured. It is very doubtful if any better remedy has ever been devised for indigestion, dyspepsia, and all forms of stomach trouble, than these tablets prescribed by the late Father Morrissey. He studied out the prescription carefully, with all his wonderful skill, because so many of his people needed a remedy of this kind. During his lifetime thousands were cured by the "No. 11" Tablets, and the good work still goes on.

Don't give up hope, thinking there is no cure for you, until you have tried these tablets. Each tablet will digest 1½ pounds of food, so that no matter how weak your stomach may be, a good meal can be digested, and you can get the strength from it. Father Morrissey's "No. 11" will give you a new grip on life. Get at your dealer's, or from Father Morrissey Medicine Co., Ltd., Chatham, N.B.

Officials were Messrs. C. E. Gauvin, Superintendent of Surveys; Woods and Forests, P. Blouin; the Assistant Superintendent of sales of the western section of Crown Lands, J. Grenier, and Mr. J. M. Gingras, the Superintendent of sales of the eastern section, the two latter acting under the immediate control of the General Superintendent, Mr. C. O. Lavoie. All the above were under the immediate superintendence of the Deputy Minister.

Mr. Mousseau asked what was the value of the school houses, furniture and appliances used in teaching in this Province in 1896-97, 1904-05 and in 1908-09.

Hon. Mr. Decarie replied \$13,150,699 in 1896-97, \$15,665,418 in 1904-05 and \$22,378,330 in 1908-09.

Mr. Girard was informed that there were 112 schools under the control of the Commissioners in the County of Stanstead, and that 105 were in operation in 1908-09. During that period, school was taught in 28 schools during 10 months; 4 during 9 months; 56 during 8 months; 2 during seven months; 12 during six months; two during five months and one during 14 months.

Hon. Mr. Allard in reply to Mr. Kelly stated that there were 68 employees permanent or otherwise in the Crown Lands Department working or supposed to work in the Parliament Buildings and that the annual cost for the salaries of all these employees was \$82,641.25.

Mr. Lavergne had a number of questions regarding the colonization moneys spent in the Lake St. John district and regarding certain departmental employees in that district, several of which were replied to. Other questions were also asked regarding moneys spent for newspapers during the Conservative regime and for amounts spent for colonization, agriculture and iron bridges during the same regime.

The principal feature of the afternoon's sitting was an interesting debate on Mr. Sylvestre's motion for copies of all correspondence between the Government and insurance companies, mutual benefit and charitable associations respecting the law governing such companies and associations. Mr. Sylvestre started the ball rolling on a most important question and the Ministerial members who spoke on the motion, although not naturally blaming the Government for the present state of things, were practically of the same opinion as the member for Montclair, who criticized the Government for their neglect of duty in not having a better superintendence over these companies, five of which had had liquidated about the same time.

Hon. Mr. Mackenzie replied and remarked that the Government were in no way to blame as they had received favorable reports from these companies, and when the condition of these companies were made known to the Government special measures were taken to increase their financial deposit.

Mr. Patenaude followed and statistics in hand proved that the necessary precautions had not been taken by the Government to protect the policyholders in these companies and asked the Provincial Treasurer what he had done to prevent such a state of things in this Province. It was nothing new to tell the House that these companies had gone into liquidation as they had already obtained that news through the newspapers. The main question for the Provincial Treasurer to answer

was whether the insurance inspector had done his duty and whether he had inspected the working of these companies. According to the report of one of these companies it had a deficit of \$21,000. La Fomiere Company had gone into liquidation in June last and the notes given by the policyholders for their premiums were sold to a man named Clement for 45 cts. on the dollar, the latter making a clean profit of fifty-five cents on the dollar as the notes were placed in the hands of lawyers, who issued writs right and left. All the property of the company was sold and a dividend of 20 per cent paid, but the policyholders lost all their insurance.

Mr. Levesque, member for Laval, was the next speaker and although unwilling to blame the Government, nevertheless admitted that more precautions should have been taken in regard to these companies. The Government insurance inspector had no office in Montreal as such, but had an office in an insurance company's building and probably acted as an agent of that company. Such an inspector should do nothing else but attend to the inspection of the companies referred to and examine their books, and if that had been done perhaps there would have been another story to tell.

Mr. Sauve, member for Two Mountains, replied to the latter speaker and criticized his remarks, which were partially favorable and partially against the Government. Last year he (Mr. Sauve) had brought the matter before the House and had been promised an investigation by Provincial Treasurer Weir. As it happened the only investigation held was over the Canada Fire Company, while all the others were allowed to go scott free. Perhaps the others had some Ministerial friends as president of these companies. He quoted the example of a farmer he knew who had \$2,000 insurance in one of these companies and \$1,000 in another and when his residence and all his other buildings were destroyed by fire he filed his claims with both companies, only to learn that they had liquidated and never got a cent. If the Government inspector attended to his duties, such things would not happen, as several of these companies had not sufficient financial backing to carry on business. The inspector should investigate all these companies and report to the Provincial Treasurer the result of his inspection. He was in a position to state that the Provincial Treasurer neglected his duty in allowing insolvent insurance companies to carry on business in this Province, thereby making thousands of victims.

Mr. Geoffrion followed and remarked that the question was a most important and serious one, and that every member of the bar, sitting in the House, had had occasion to be consulted by the victims of La Fomiere.

Several members—All the six companies are alike.

Mr. Geoffrion, continuing, did not wish to blame the Government as he considered they did their duty towards the public. However, the fault lay with the inspection of these companies, and like Mr. Levesque, he was of opinion that the Government should investigate whether or not there was any collusion between La Fomiere and Providence Companies as he thought Clement's name was only a borrowed name under the circumstances. He was surprised that Judge Fortin granted the request to sell the assets of the former company.

Mr. Patenaude—He could not do otherwise as, like in all such cases, the motion was approved of by the inspectors.

Mr. Tellier—Did the Provincial Treasurer intervene to prevent the motion being granted?

Premier Gouin—Why should he intervene?

Mr. Tellier—To protect the public.

Mr. Geoffrion remarked that the Government could not intervene in such matters according to law, but the law should be changed. The notes given by the insured for the premiums were sold to Clement for 45 cts. when at least 85 cts. could have been obtained. The public as well as the policyholders should be better protected.

Mr. Kelly was the next speaker, and remarked that the question was not as to what had been done in the past or what was to be done in the future, but what should be done in the future to protect the thousands who have fallen victims to these companies in this Province. He knew that in Beauport County there were over 500 cases where people took out policies in these companies and gave notes for their premiums. A large number have already been sued, while others will be in the same predicament when their notes come due, and they would not get one cent of insurance. He understood that the liquidator appointed was the manager of one of these companies and a law should be adopted to prevent such things occurring again.

Mr. Tellier—We have been sitting here for a month and a half and the Government has not even suggested a law.

Mr. Kelly, continuing, said that he would support any measure which would be put forward for these victims, a large number of whom are farmers who had put money aside to purchase their seed, and had to pay it out to lawyers to meet their notes. He suggested that the Attorney-General and Provincial Treasurer should take the necessary means to stop proceedings in all cases not yet acted upon, until an investigation was held.

Mr. Cousineau expressed his surprise at the remarks of the Liberal members, who did not want to blame the Government, while at the same time admitting that there was something radically wrong somewhere and blamed the inspector. They were sent to the House to represent the people of this Province and if the Government was to blame they should shoulder the blame. He considered that the whole fault lay with the Government as they were responsible for the acts of their law the insurance inspector should inspect the companies at least once a year, examine their books and if necessary get a sworn statement from the managers and then report to the Provincial Treasurer, who, acting upon such report, could suspend or annul the permit to do business. The law was not faulty, but the Government, through its officials, were. Many of these who supported these companies were also supporters of the present administration in whose favor they never failed to cast their votes. Mr. Cousineau then referred to Mr. Simar, manager of the Canada Fire, who was sued by the Government. He was a Nationalist, but none of the other managers were prosecuted. If Simar was to blame he should be punished, but the others should not have escaped, and if the inspector had done his duty there would probably have been no necessity of taking action.

Messrs. Francoeur and Bernard also

True Household Economy

MOTHERS, we owe it as a duty to our husbands and families to take good care of them. We all want, of course, to have our loved ones cheerful and comfortable.

Our dominant part is to give them the very best that we can make or bake. But sometimes we are tempted to save a few pennies in food and think that in so doing we are economising. But is it so? Is this the kind of economy that is wise and profitable? Is it doing our full duty to our loved ones?

Royal Household Flour

We wouldn't think of buying the lowest priced eggs in the market just for the sake of economy. We would feel that because they were cheap they would be good eggs to avoid. The low price would give us a suspicion of their freshness and quality. None of us would want to economise by buying eggs marked ten cents a dozen.

But when it comes to flour, for example, we may be tempted to buy the second best instead of the best because of the few pennies difference in price. We may think that economy in flour is different from economy in eggs. But it isn't. The principle is the same. The difference in cost between the best flour in the world and ordinary flour is so little that in justice to our responsibility as wives and mothers we can not afford to take chances.

The one safe rule in buying flour is to buy "Royal Household" and in that way make sure of the finest quality, and absolute uniformity.

From every point of view Royal Household Flour is more economical than any other. It produces more loaves to the barrel. It is richest in food value. It is uniform. It is best for Pastry as well as Bread and yields more baked product in either bread or pastry than any other flour.

ROYAL HOUSEHOLD FLOUR furnishes more nourishment, more real food value per pound and per penny's worth than any other flour in the world.

The acme of economy in flour buying is to use only "Royal Household." Best for Bread. Best for Pastry. Most uniform. Most perfect. Best and cheapest for health and happiness of the entire family.

12

spoke and on motion of Mr. Leclerc the debate was adjourned until the evening sitting.

The House took recess at 6 o'clock.

The bill to incorporate the Montreal Underground Railway Co. was the subject of another debate at the evening session of the Legislative Assembly. Two companies have already received authority this week from the Legislature to build subways and elevated roads and the majority of the House seemed favorable to the idea of allowing a third company to compete with the others, the city of Montreal to decide which to establish the system. Premier Gouin took the stand that if one company, the Montreal Street Railway, had that privilege, other companies should have the same right and it remained for the city of Montreal to decide whether one or three companies had the right of constructing subways. The Legislature could not accept the idea of accepting only one company and all then should be put on the same footing. However, only one subway was needed and the city of Montreal, should decide which of the three should carry on the business. The preamble to the bill was adopted after a lengthy discussion and the remainder of the bill will again come up for argument to-day, when it is expected that Mr. Bourassa will have some amendments to add to the bill. After the above debate the motion was carried. Premier Gouin and Mr. Bourassa opposed the bill, while Messrs. Geoffrion, Perron, Plante and Gaipeault spoke in its favor.

Mr. Eug. Leclerc, M.P.P. for Quebec Centre, continued the debate on the insurance question, which arose during the afternoon and at 12.30 Mr. D'Anjou moved the adjournment of the debate when the House adjourned.

NOTES

The Montreal bill was again considered by the Private Bills Committee yesterday morning and as a result two new wards, Ahuntsic and St. Paul, were added to the city. Notre-Dame-de-Grace having been added on Tuesday last, so that the city of Montreal will in future have three new wards. No opposition was offered by Ahuntsic and St. Paul as the interested municipalities had arrived at a decision of amendments were made to the bill, including the right of extending the hours of voting in municipal elections from 9 a.m. to 7 p.m., to have a public bureau, to build public libraries and to establish a juvenile court. Another clause empowering the city of Montreal to contribute towards the expenses of a committee to inquire into the advisability of having a Metropolitan Parks Commission was also adopted. Three hundred thousand dollars is to be expended by the city of Montreal within three years in public parks and only one hotel house will be granted in the new ward of Ahuntsic.

The Montreal bill will be taken up again before the Private Bills Committee on Tuesday next.

TENDERS REQUIRED
POLICE COMMITTEE.
Quebec, 23rd April, 1910.

SEALED TENDERS will be received by the undersigned until Monday, the second day of May next, at four o'clock in the afternoon, for the supplying of 82 or more Rubber Coats for the Police Force of the City of Quebec.

The tenderers shall accompany their tenders with a sample rubber coat, and the contractor shall be obliged to give a guarantee as to durability and wear for three years.

All the coats shall be delivered by the sixteenth day of June next, and if the contractor has not fulfilled that condition, there shall be retained five dollars a day for each day's delay after said date, until the last rubber coat shall have been delivered.

Should additional rubber coats be required, the contractor shall be obliged to supply the same at the price and on the conditions required by the contract.

The Police Committee does not bind itself to accept the lowest or any of the tenders.

The contractor before signing of the contract shall be obliged to furnish to the satisfaction of His Honor the Mayor two good and sufficient sureties. The contractor shall pay the cost of drawing up the notarial contract and supplying a certified copy thereof to the Police Committee.

EDWARD FOLEY,
Secretary Police Committee.

Gagnon, Baie St. Paul; S. Robertson, Toronto; A. Marquette, Halifax; E. Letourneau, St. John, N.B.

Correspondence.

TO MR. ONLOOKER RE. FIRE BRIGADE.

Dear Sir,—I have seen in this morning's Chronicle that you want explanations regarding the fire at the Frontenac laundry stables. Please give your name and your address and I will meet you with my Deputy Chief and I will give you the necessary explanations.

Yours truly,
W. FITZBACK,
Chief Fire Brigade.

COURT OF SESSIONS.

Yesterday in the above Court, a defendant from Pont Rouge was fined \$50 and costs or three months' jail for selling liquor without a license. A resident of St. Ambrose de Lorette, accused of selling liquor without a license and also selling liquor to Indians, pleaded not guilty to the two charges. Both cases were fixed for hearing on the 3rd May.

CORONER'S INQUEST.

Coroner Jolicœur held an inquest yesterday morning on the body of Maxime Jolicoeur, aged fifty-nine, who was found dead in his bed on Monday last. A verdict of death from congestion of the lungs was returned. The coroner also held an inquest yesterday morning upon the body of Noble Smith, aged sixteen, who expired suddenly Tuesday afternoon. Death was caused by heart failure.

YOUNG MAN ATTACKED BY FIVE ROBBERS.

A discreditable episode has taken place this week in Quebec. The other night when Mr. Meunier, clerk in the firm of Lavoie & Dion, was passing along St. Valier street near the Sacre-Coeur, he was accosted by a "tough," who asked him for a quarter. On being answered that the clerk had not this amount upon him the man attacked him with five others, who impounded him for money. Finally one of them is said to have stabbed him, and then the whole gang, perhaps from fear, took to flight. Young Meunier then betook himself to a doctor, where it appears that the nature of the wound inflicted by the knife of his assailant necessitated the sewing of several stitches. As a result of this attack he was compelled to leave off his work for several days.

THREE MEN DROWNED.

A triple drowning took place at Tewkesbury on last Tuesday evening. The three victims were engaged driving logs for the Jacques Cartier Paper and Pulp Co., of Pont Rouge, when they were carried into Bedard's rapids, and before assistance could be rendered them, they were drowned. The body of one, Samuel Dumont, of Batiscan, was recovered. At last reports the river was being dragged for the other two bodies.

Muscular and Mental Fatigue

Broken Sleep and Bad Dreams Cured by a Simple Remedy.

"My sickness had so many curious symptoms that I think I shall try and describe them," writes Mrs. A. X. X. "Muscular fatigue seemed to follow even slight exertion. I would soon feel the weakness of the muscles of the back, limbs and arms. Even the fixed position of light sewing would be sufficient to bring on tiredness. In a little while, if I picked up a book, the letters would look blurred, and if I didn't drop it, headache would result. My thoughts would not flow freely—I was irritable, irrational, and insomnia seemed at last to be settling down upon me. Finally I saw I had to give up trying to do things, and began taking raw eggs and milk, whether I had an appetite or not. I also took Ferrozone. I am glad now I did this. Ferrozone gave me an appetite and aided digestion of my food. I could soon see how my blood was being renewed, and its color reddened. When my blood improved my nerves also improved, and by persistence with Ferrozone, lots of food and rest, I recovered perfectly from the load of worries and sickness that made my life so miserable. I urge every ailing, weak or worried woman to use Ferrozone, one or two tablets with meals. It's a vitalizing nourishing tonic—full of the properties needed for rebuilding the body—that's what Ferrozone is—try it—50c. per box, six for \$2.50, all dealers or The Catarrhose Co., Kingston, Canada.

TONOMEAD**CRICKET CLUB HOLDS MEETING**

Report of the Secretary was Most Encouraging—Officers were Elected.

A meeting of the local cricketers was held last night at the Imperial Bank, when a large amount of business was got through. Dr. A. E. Macintyre being in the chair. The following were present: Dr. A. E. Macintyre, Messrs. H. B. Bignell, P. G. Owen, A. Phillips, A. Forster, H. Taylor, A. C. Smith, S. G. Newton, W. P. Osborne. The Secretary, Mr. S. G. Newton, presented the following report:—

Mr. Chairman and Gentlemen,—In submitting the following report of the events and doings of the Q. C. C. for the past season, it is in every way most gratifying to realize the excellent results and showing of consistency throughout the year. Notwithstanding the disappointment of being deprived of no less than eight important fixtures with leading Canadian and American teams, which consequently left us with few engagements, it is, in spite of this, encouraging to see the enthusiasm shown in the substituted club and practice matches; and this, together with the distinction of coming through the season with but one defeat to our credit is, to say the least, a performance worthy of record.

With regard to general matters, the fact that is perhaps most inspiring, is the appreciable increased membership, both transient and junior and an increase even on our last year figures. It is sincerely hoped that our ambitions to see a still further advancement in that direction will be realized during the coming season.

The absence from our ranks of the retired Secretary, Rev. Mr. Bigg, has been keenly felt by all, not only as a player, but his untiring efforts in the interest of the club generally. Our groundsman, Maynard Mustard, gave entire satisfaction, and his assistance proved at all times invaluable.

With regard to statistics, I have summarized and submit the following: Matches played, 11; won, 10; lost, 1. Our victories were: Lennoxville, twice; Three Rivers, twice; R.C.G.A., twice; Empress of Britain, twice; Empress of Ireland, twice. The games played versus the Empress were not included in the club records for average of players. Our one defeat to which I have already referred was versus Three Rivers, and credit must be given for the excellent showing of our opponents on that occasion. The aggregates for and against the club are as follows:—Runs for, 827; wickets, down, 70; average per wkt., 11.81; runs against, 664; wickets, down, 83; average per wkt., 8.0.

These figures are indeed worthy of credit, and comparing them with last season's aggregate, I find them to show improvement, although only small, viz., 11 of a run higher per wkt.

Regarding the batting and bowling averages, although the average of play has not been quite so steady as that of our most successful season the figures are most incredible, as will be seen in the following list of members who have batted or bowled in three or more innings and their averages:—

Batting.—A. E. Macintyre, 19.71; G. Ansell, 17.00; A. C. Smith, 15.6; H. Taylor, 15.28; A. Evans, 10.6; Major B. Pym, 8.00; M. Mustard, 7.25; J. B. Windross, 4.00; D. E. Carruthers, 3.33; A. Rawland, 2.00. Bowling.—H. Taylor took 33 wickets at an average cost of 6.6, runs per wkt.; G. Ansell took 23 at a cost of 6.9.

According to the rules of the Club, Messrs. Macintyre and Taylor are entitled to the bats presented annually by the Club for the highest average in each department.

In conclusion, I desire to record my hearty thanks to all who have so zealously rendered assistance to me in the execution of my duties during the past season.

Respectfully submitted,
S. G. NEWTON.

This was followed by the election of officers, which resulted as below:—Patron—His Excellency the Governor General of Canada.

Hon. President—The Very Rev. Dean Williams.

Hon. Vice-Presidents—Lt.-Col. Turnbull, Godfrey Rhodes, Esq., William Price, Esq., M.P., L. Evans, Esq., R. Harcourt Smith, Esq., H. M. Price, Esq.

President—J. Burstall, Esq. Vice-President—Dr. G. W. Parmelee. Captain—Dr. A. E. Macintyre. Vice-Captain—G. Ansell, Esq. Hon. Secretary—P. G. Owen, Esq. Hon. Treasurer—H. B. Bignell, Esq. General Committee—Messrs. A. C. Smith, H. Taylor, W. M. Masse, Major Poole, A. Rawland, S. G. Newton, W. P. Osborne.

It was decided to secure the services of the same groundsman again to be begun work on May 10th. The Treasurer's report was presented, but it was decided that it be submitted at a later date, in order that certain overdue subscriptions might be collected. It was evident, however, that the finances of the club had been very ably administered during last season. The meeting was adjourned after votes of thanks had been passed to Mrs. Taylor for the valuable assistance which she had rendered at the club luncheons; to those who had generously given donations to the club; to the officers for the capable and devoted manner in which they had performed their duties, and to the Chateau Frontenac for the use of a room for meetings.

RECORDER'S COURT.

Five prisoners for drunkenness appeared before the Recorder yesterday. One was fined \$10 and costs or one month's jail, one \$5 and costs or fifteen days, one \$2 and costs or eight days, and two were discharged. The proprietor of a moving picture house in St. Roch's was condemned to a fine of \$40 and costs for keeping his place open on Sunday.

**BLACK OPALS**

Black Opals are not black. No more misleading title could be found to apply to the most wonderful and beautiful of all Opals.

Imagine a gem that is darker in general color than the usual Opal, but which reflects the glow of countless sunsets, the silver sheen of the moon, the changing blues of an Italian sky, the many hues of the rainbow, the greens of a tossing sea, a stone that is never the same, but changes with every angle of light, and you will have some idea of the fascination and beauty of the Black Opal.

Birks', Montreal, are making a specialty of Black Opal Jewellery for the Summer Wedding Season, and have prepared colored sketches of individual pieces to send, upon request, to out-of-town customers who are interested enough to write for them.
