Year's Biggest Liner

With the city's famous bridge towering above her, the 28,000-ton Peninsular and Oriental liner Himalaya berths at Circular Quay, Sydney, Australia, after her maiden voyage from Britain. The Himalaya, biggest ship built anywhere this year, is the new queen of the Anglo-Australian service. She dwarfs the 6,000-ton freighter under the bridge.

Transportation Troubles

The strike of bus-drivers in St. John's, Nfld., has brought forth an odd assortment of vehicles to keep passengers moving. Ambulances have been converted into buses; jeeps and assorted army vehicles have been pressed into service. This station wagon is one of the unorthodox "emergency" buses.

Good Enough To Eat

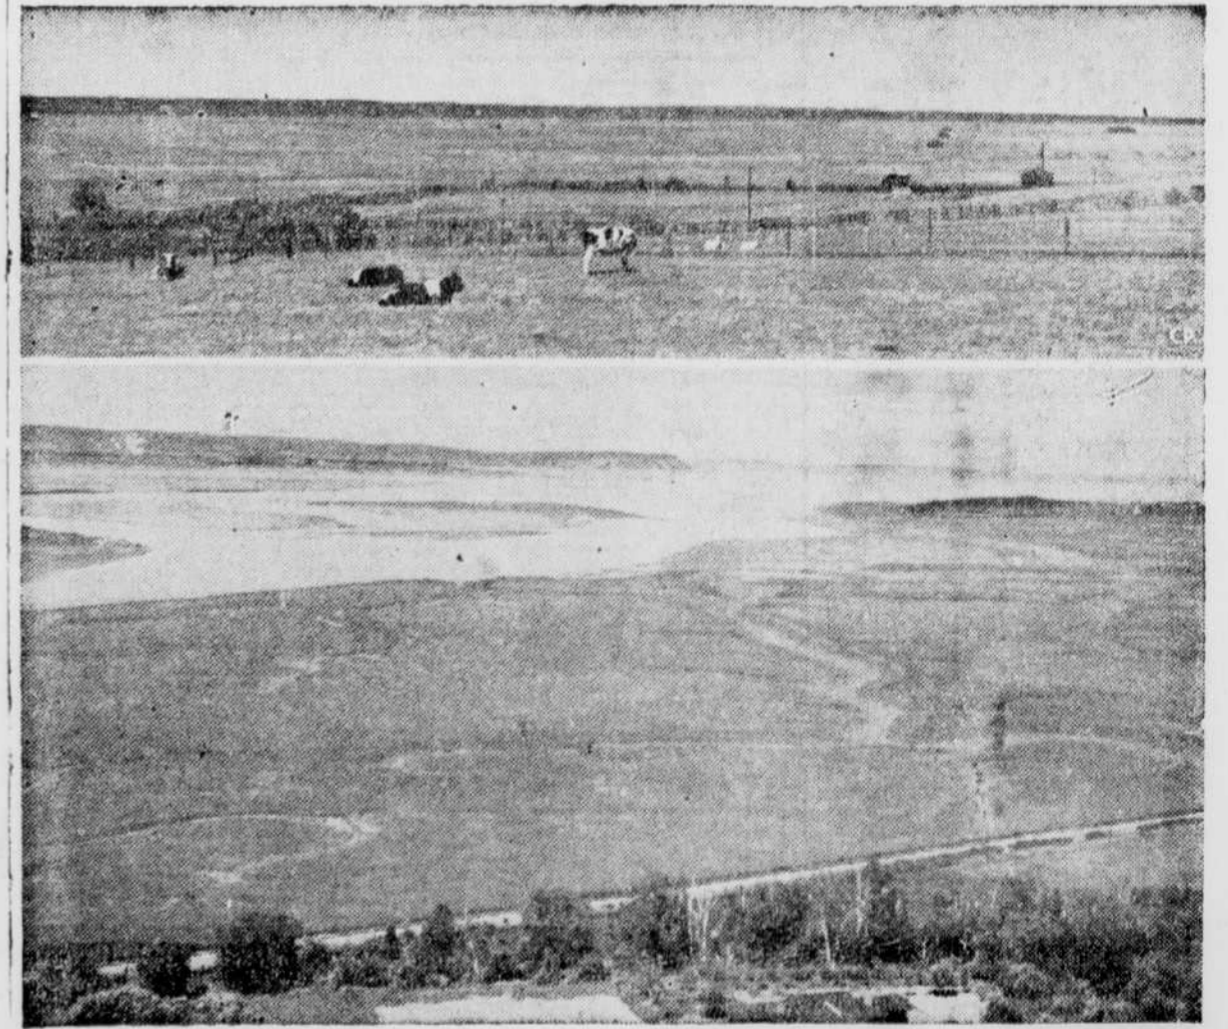

A life-size milkmaid and her cow—carved from butter—were on display at the Royal Winter Fair, which opened at Toronto Nov. 15. Ross Butler, noted Canadian sculptor, is shown putting the finishing touches to his work while the milkmaid model, Evelyn Crone of Toronto, poses. An estimated 1,000 pounds of butter was used for the figures, which were preserved by special refrigeration during the eight-day fair.

Bambi On His Mind

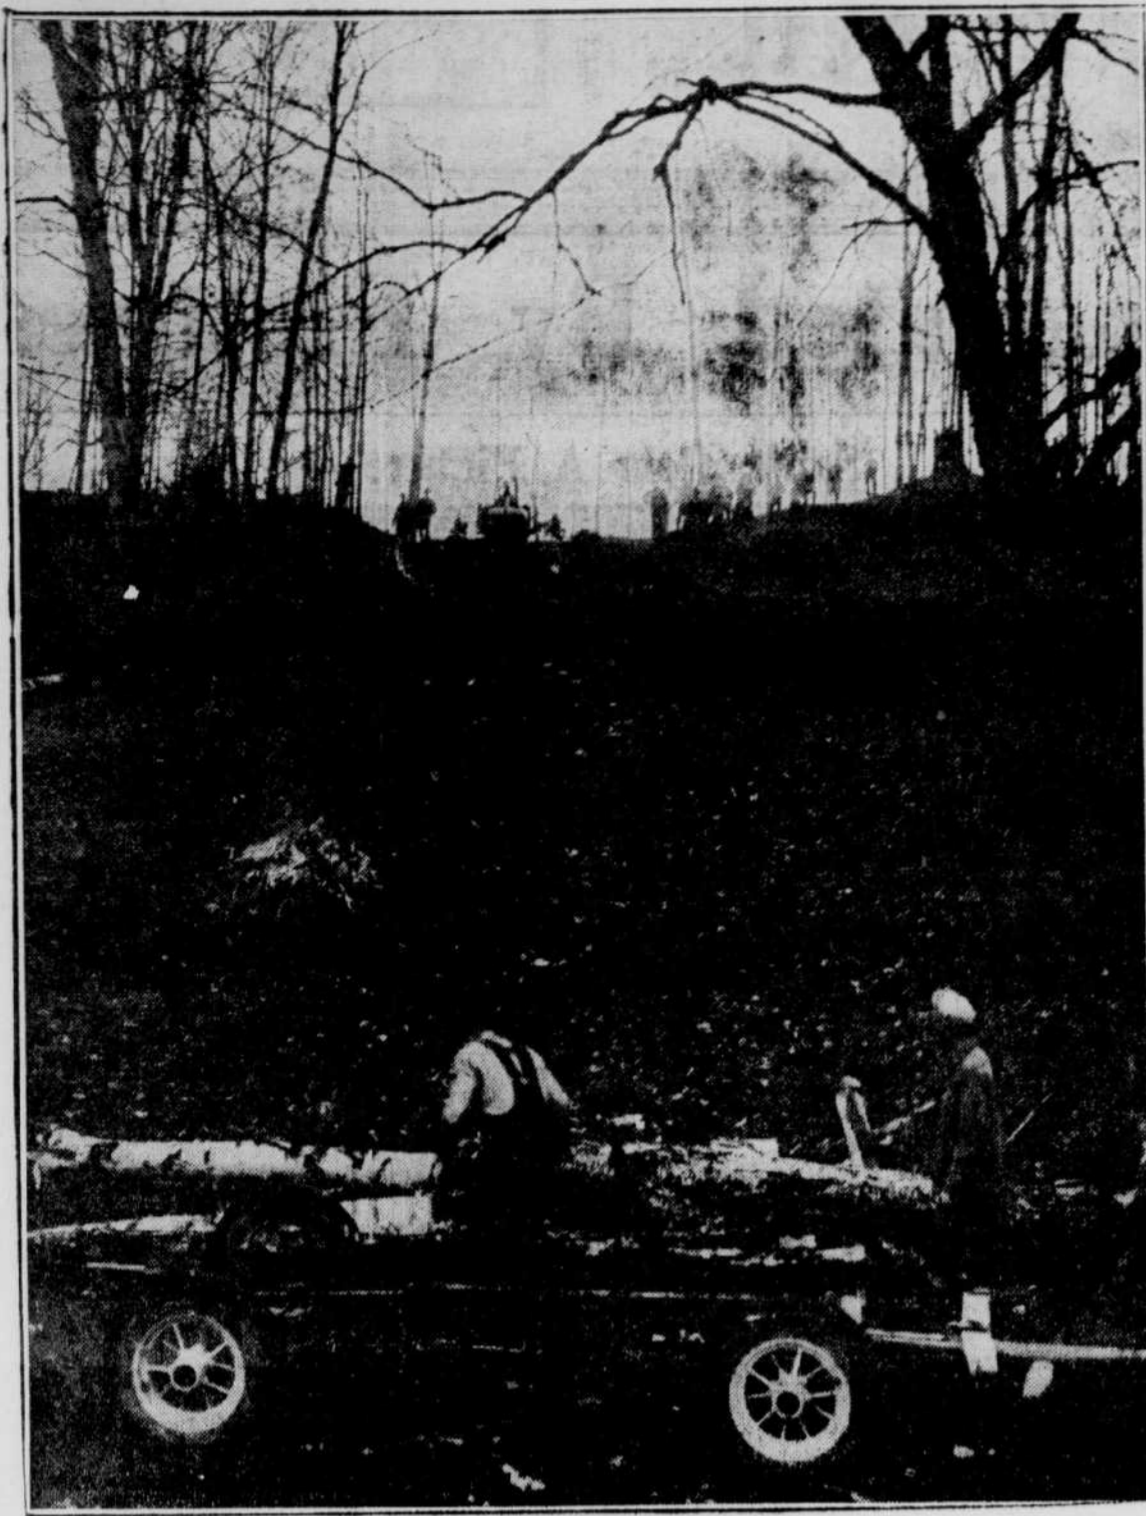

"Champion Diamond Ace," the Boston bull owned by Vic. or Greenland of Hammond, Ind., has plenty on his mind. First there's "Champion Wright's Si-Si Wee Bambi," a Chihuahua owned by Tressa Thurmer of Palatine, Ill. And second, there's the big Western Specialty Clubs' dog show in Chicago.

Maritime Reclamation

Near Amherst, N.S., cattle graze on the Tantramar marshes, some sections of which are scheduled for reclamation under a joint dominion-provincial program. The lower of these photos shows a once-fertile area near Wolfville. It now is useless for agriculture because of mud deposits and gullying which followed the collapse of dikes in 1930. This shows the mouth of the Cornwallis River, with Cape Blomidon in the distance.

Ski Run Prepared At Ayer's Cliff

If the enthusiasm and the work being done is any indication—then a new ski project at Ayer's Cliff should be a huge success.

Three Ayer's Cliff citizens, Sid Baldwin, Fred Fisher, and Tommy Dustin have rented their land, free of charge, and the entire community is pitching in to make the project a success.

In addition to the ski trails a toboggan slide is being constructed. There are numerous ski trails and more are being cleared by bulldozer, pick and shovel and axe, as indicated in the picture above.

The Athletic Association, which

is backed by all merchants, property owners and the citizens of the community, is responsible for the development. "Everyone is working hard—men, women and children" — stated Lynn MacDougall, who along with the Stafford brothers, Bernie Price and many others are the sparkplugs of the development.

Although the trails are not very long or steep they are adequate for beginners and will provide practice for the more experienced. On the north side of the slope there is a slalom hill which is being bulldozed and which will be an

ideal location for a practice slalom run.

The toboggan slide should provide many thrills and spills. A toboggan will travel at a very fast clip down the slide.

It is hoped that a ski tow will be installed and that several lifts will be erected on the premises to make night skiing, which is becoming popular all over the country, possible.

The public-spirited community is doing a great job and it is hoped that the citizens will take advantage of the project—especially the youngsters.

Mr. W. Bernie Speaks On Subject Of 'Prosperity' To Waterloo Kiwanians

Waterloo Nov. 24—The regular meeting of the Waterloo Kiwanis Club took place on Tuesday evening, at the Canada Hotel.

His Worship Mayor Albert Norris was accepted into the club, and three other guests were present. Messrs. Gordon Wilkins, Bill Carter and L. Genet were on hand to listen to an address given by Mr. Bill Bernie, industrial agent for the Southern Canada Power Co., who talked on a Broader Aspect of Things Necessary to Make Canada an Attractive Place for Canadians To Live.

He took as his subject, a declaration made by President Abraham Lincoln over one hundred years ago.

"You cannot bring about prosperity by doing away with prosperity." The government, Mr. Bernie stated, never prides itself on its thrift, but rather continually boasts that the budget just brought down is the largest in history, calls for more taxes than any previous budgets, etc.

Industry knows that they cannot be prosperous by wasting money. You cannot strengthen the weak by weakening the strong. If a government did this, you would get a nation of weaklings. "You must help the strong and the thrifty, not tear down what they have worked to create." You cannot help the poor by destroying the rich.

"Communism soaks the rich, but are the poor any better off? Do they derive more benefits from high taxes to the rich? No, it all seems to go into the pool to be spent. By taking all this money, a substantial aid to the hospitals, universities and schools, will be lost to them.

The government seem to take the money, but it does not seem to apply it just where we would like to see it go. We cannot help the wage earner by pulling down the wage payer. "It seems," said Mr. Bernie, "that this is the present policy of the present unions operating across the continent. You cannot keep out of trouble by spending more than you earn.

The government at one sitting spent one hundred forty million dollars in less than ten minutes, and at another sitting spent one hundred seventy million dollars in just fifteen minutes. Do you suppose," the speaker asked, "that they had planned where this money was coming from? It is very doubtful. You cannot establish a sound security on borrowed money, though this does not apply to an investment made in a company that plans to expand, produce and

making money. What is meant by spending money in this sense is spending it on luxuries that are not necessary. We can readily see that this type of spending is not only foolish, but disastrous.

"You cannot permanently help men by doing what they should be doing for themselves. Let those help themselves that would be helped. You cannot developed character and independence by taking away their freedom. We do not want our government to take away our freedom of religion, speech, worship or learning. "This would destroy our very service clubs." it was pointed out.

"Unless we want Canada like this, we must not destroy a man's initiative. Let us give the man the right to work, do not restrict him with laws about when, how, where, how much he is to work. Leave this up to his initiative.

"Canada was built up under a different policy that is now coming into effect. Our forefathers suffered and saved for our benefit. They left us a heritage that we do not fully appreciate. We need the unrestricted privilege of going ahead, making a success out of our life. Our greatest loss would be the loss of our freedom. Free enterprise has given the people on this continent the greatest level of living.

"Are we to lose it by being complacent, careless about our way of life, about the way we treat ourselves, our neighbors, our fellow countrymen?"

Kiwanian Wes Parkes introduced the speaker, and Kiwanian Jack Buckland thanked him. The vice-president, Mike Cardinal, who was in the chair in the place of President Bert Fisher, expressed the condolences of the club to Dr. Katz on the loss of his father.

Thanks were expressed to all these in the club who had worked so hard in making the "Koncert" such a success. It was announced that several members were going to Theford Mines on Saturday evening, to their Charter Night anniversary.

Next week is "Kiddies' Night," at which time each member is to bring two children, twelve years or younger, when the special attraction will be a magician, who will put on a special show for the children. A large attendance is expected at this meeting.

Principal of Bishop's Addresses International Community School

Derby Line, Nov. 24.—At no time in history has there been more need for skilled readers and listeners, was the theme of an unusually fine talk titled "Language and Literature in World Affairs," given by Dr. A. R. Jewitt, principal of Bishop's University, as a special feature of the closing evening of the fall sessions of the International Community School last week.

Dr. Jewitt, "and we are now in the third act. We are on stage ourselves, which makes the play hard to follow. We cannot understand the third act without an outline of the first two acts. That is where literature comes in. An intelligent study of the literature of the past is necessary for an understanding of the present.

"The proper study of man must be made in the civilization in which he lives, best embodied in literature. Here lie man's noblest

visions. Civilization is not a form of government, an economic system, or an applied science; it is an ideal not obtainable but in a few moments in history approached. It is freedom—Milton's "dedication to virtue"—and to find civilization we must go to the literature," the speaker asserted.

As a backdrop to the speaker, there was a display of the flags of the United Nations, previously carried in by students of St. Andrew College, and furnished through the kindness of Harold W. Slocum, of Burlington, Vt., secretary of the Vermont Association for the United Nations.

New Officers Elected
Mrs. Carroll Aldrich, of Derby Line, Vt., was elected president of the International Community School for 1950, succeeding Lloyd MacPherson, of Stanstead. E. J. Struthers, of Rock Island, will be the new vice-president, with Miss Gertrude Ketcham, of Rock Island, as secretary, and Miss Madeline Poisson, of Rock Island, continuing as treasurer. The registrar and assistant registrar are both from Rock Island, as are Miss Aline Ricard and Miss Denise LaGlois.

The other members of the executive committee are as follows: Alfred Aldrich, Derby Line; Dr. E. C. Amaron, Stanstead; Mrs. A. Arkin, Newport; Lloyd Bliss, Rock Island; Walter Bruce Derby, Rev. H. R. The school is in excellent financial condition, and the increased number of members this year has been especially gratifying to the executive committee.

On various classes were reported upon, and showed that interest continued all through the sessions, with some of the groups planning to continue during the winter. There was a display of the work done by the hobby and handicrafts classes, and some of these classes also plan to continue the work during the coming months.

The retiring president, Lloyd MacPherson, in his remarks paid special tribute to the leaders of the various groups, stating that their willingness to share their knowledge was what made the community school possible. The total enrollment of the school was 164, far ahead of the number the past few years.

The new executive committee will get busy almost immediately planning the sessions and work for the coming year. 1950 will be the 10th consecutive year of the International Community School, and every effort will be made to make it the most interesting, appealing and worth while year yet.

The Doctor Says

DON'T USE A DRUG UNTIL YOU'RE SURE IT HAS BEEN WELL TESTED

By Edwin P. Jordan, M.D.
Fat people naturally hope for some drug or other simple and quick way of melting off the pounds and restoring a slender figure. A few years ago it seemed as though the answer to this desire had finally been discovered. A chemical compound called dinitrophenol, which was known in industry chiefly for its use in the manufacture of explosives, seemed to be the wonder drug.

It almost literally melted off the fat. There was much enthusiasm for this drug in many places. For a short time dinitrophenol was used a great deal—and successfully—to reduce weight. However, soon after dinitrophenol began to be used, it was discovered that the drug had serious dangers. Some people who took it developed skin rashes. Liver damage was reported.

Resulted in Death
Several deaths were reported following the administration of dinitrophenol and in two of these the dosage had not been unusually large at all. In several of the six persons who died death came rapidly—a day after the symptoms first began to show. Among some who took the drug and seemed to have good results without imme-

diated signs of poisoning, cataracts formed in the eyes. This turned out to be another serious complication of dinitrophenol. The story of dinitrophenol is important because it shows that until a new treatment has been studied carefully no one knows whether the dangers in using it are not greater than the possible good. All new drugs, therefore, need to be handled with care and too much should not be expected of them until the important actions, but as well as good, have been worked out by study in the laboratory, on experimental animals and finally by careful observation of their effects on human beings.

Q—Is there anything a person can do to prevent dreaming nightly?
A—I do not know of any method. If anyone knows of one, it would be appreciated by a lot of people.

WATERLOO

ST. PAUL'S W.A. ACTIVITIES

St. Paul's W.A. met Thursday evening, November 10, in the Church Hall. A hymn opened the meeting with Mrs. Charles Daigeneau at the piano. Mrs. Roger McKergow, co-president, presided. It was decided that the next meeting, which will be held on December 8, will take the form of a Christmas party, with each member bringing a gift, not to exceed twenty-five cents in value. At this meeting, the "sunshine sisters" will make themselves known to each other. The members were then privileged to listen to a short talk given by Miss Daisy McNeil, secretary of Girls work in Montreal. She spoke on the value of a Sunday School in a community, and asked for better co-operation from the parents in seeing that their children got to Sunday School, and in organiza-

ations such as the W.A. to see that the school is provided with the necessary funds to carry on its work. Miss McNeil suggested that a committee might be formed in the W.A. to work for this purpose.

The speaker pointed out that modern day schools are provided with all modern equipment, and in consequence Sunday Schools must be provided likewise in order to compete with these.

A library to which both teachers and pupils may go for reference and study would be of a very great value to any Sunday School, it was pointed out.

A Sunday School teacher does her, or his, duty, if they attend regularly and teach the pupils, without making it necessary to purchase the equipment in order to do the teaching. There should however, be a committee whose work it would be to see that any necessary equipment was made available to the teachers at all times.

Miss McNeil was introduced by Mrs. McKergow, who was warmly thanked by Mrs. Heman Wing. Refreshments were then served by the hostesses, Mrs. Alfred Young, Mrs. Charles Norris and Mrs. George Young.

The above photos were taken Tuesday evening at the Arena during the Valleyfield-Sherbrooke game, which the Saints dropped by the count of 4-1. The top picture shows Jimmy Planché, with his hand raised, just after he had tallied the only goal of the evening for the Saints. Marcel Fillion, number 15, stands by ready in case there is a rebound, while Adj Cote, number 4, has his back to the camera. Larry Kwong (12) and Johnny Dutchak (2) arrived too late to help Roger Bessette. The middle photo shows Paul Leclerc, the Saints' busy goal-keeper, with his eyes glued on the puck under the melee in front of his nets. This was a usual scene in front of the locals' net as the Braves kept the pressure on at all times. The lower picture shows Reg Sinclair being held by Bill Franklin (18), while in the rear is Bernie Vinet and Fern Gladu, and Lloyd Ernst (3) is standing alongside Roger Bessette (1) waiting in case anything develops from the holding scene.
