PERRY DAVIS' VEGETABLE *Pain Killer*

We ask the attention of the public to this long tested and unrivalled Family Medicine.

It has been favorably known for more than twenty years, during which time we have received thousands of testimonials, showing this Medicine to be an almost never-failing remedy for diseases caused by or attendant upon—

Sudden Colds, Coughs, Fever and Ague, Headache, Bilious Fever, Pains in the Side, Back, and Loins, as well as in the Joints and Limbs; Neuralgic and Rheumatic Pains in any part of the system, Toothache and Pains in the Head and Face.

As a Blood Purifier and Tonic for the Stomach, it seldom fails to cure Dyspepsia, Indigestion, Liver Complaint, Acid Stomach, Heartburn, Kidney Complaints, Sick Headache, Piles, Asthma or Phthisic, Ringworms, Boils, Felons, Whit-lows, Old Sores, Swelled Joints, and General Debility of the System.

It is also a prompt and sure Remedy for Cramp and Pain in the Stomach, Painters' Colic, Diarrhœa, Dysentery, Summer Complaint, Cholera Morbus, Cholera Infantum, Scalds, Burns, Sprains, Bruises, Frost Bites, Chilblains, as well as the Stings of Insects, Scorpions, Centipedes, and the Bites of Poisonous Insects and Venomous Reptiles.

See Directions accompanying each bottle.

It has been tested in every variety of climate, and by almost every nation known to Americans. It is the almost constant companion and inestimable friend of the missionary and the traveller,—on sea and land,—and no one should travel on our lakes or rivers without it.

Prices, 12½ cts., 25 cts., 50 cts., and $1.00 per Bottle.

'TIS FOUND WATSON'S NEURALGIA KING

WATSON'S NEURALGIA KING

A perfect ANTIDOTE, SPECIFIC and CURE for RHEUMATISM and NEURALGIA, has long been needed. After earnest and patient research this has been triumphantly discovered. It is called Watson's Neuralgia King

WATSON'S NEURALGIA KING reaches the source of the trouble and banishes the disease from the system. Unlike the untold number of Liniments and Embrocations which merely stimulate the surface, are but temporary in their effects, and are, at best, of doubtful virtue, it STRIKES AT THE SEAT of the ailment, ARRESTS IT, KILLS IT, ERADICATES IT, and leaves no trace behind.

WATSON'S NEURALGIA KING also cures Gout and *Dyspepsia* in all their forms. It is now giving relief to *thousands* who have been suffering from these diseases, and who have TRIED ALL OTHER REMEDIES in vain.

WATSON'S NEURALGIA KING has received the *highest testimonials* from the highest sources in regard to its WONDERFUL EFFICACY. It operates with equal success in mild and chronic cases, *never failing* to work out a speedy and permanent cure.

WATSON'S NEURALGIA KING costs but one dollar a bottle, and LESS THAN A BOTTLE often effects the end desired

WATSON'S NEURALGIA KING is the only SPECIFIC and CURE for RHEUMATISM and NEURALGIA that has ever been discovered.

HUNNEWELL'S UNIVERSAL COUGH REMEDY — HUNNEWELL'S UNIVERSAL COUGH REMEDY — BEWARE OF COUNTERFEITS

For all Throat and Lung Complaints, including, with most perfect results, *Whooping Cough, Chronic and Common Coughs, Bronchial and Throat Complaints*, always forerunners of Consumption. As a *Soothing Syrup* it has no superior. Freed from all Opiate or Emetic properties, may be used by most delicate constitutions, and with perfect confidence.

HUNNEWELL'S TOLU ANODYNE — HUNNEWELL'S TOLU ANODYNE, THE GREAT NEURALGIC REMEDY AND NATURAL OPIATE — SIGNATURE OF J. L. Hunnewell OVER CORK OF GENUINE ONLY.

The Greatest Natural Opiate ever offered to the world, containing not a particle of Opium, nor any substance but its strictly vegetable and medical properties. A sure Remedy for *Neuralgia, Rheumatism, Gout, Tooth and Earache, Catarrh, Rose or Hay Fever*, and all minor Nervous Complaints.

For Loss of Sleep, and Headache in all its varieties, it has no equal, and to which most undoubted testimonials are offered.

For Delirium Tremens it is a most perfect remedy.

For Bowel omplaints, after removing the pain it acts as physic, a most important contrast with the constipatory effects of Opium.

To Physicians, Formulas and Trial Bottles will be sent, and to Dealer or Invalid a descriptive pamphlet without "postage stamp."

CANADA PREPARED CORN

FOR PUDDINGS, BLANC MANGE, &c., made and refined by the CANADA STARCH COMPANY, at EDWARDSBURGH, C.W. The great care taken in the preparation of this Food is such as to merit a preference over all others.

RECIPE FOR PIE CRUST.—Boil the Corn with milk for four minutes, then pour it over the stewed or preserved fruit, and brown it in the oven. This is very lightsome and much preferred to the ordinary crust.

Bogle's Celebrated Hyperion Fluid

For the growth, restoration and beautifying of the Hair. Under the immediate patronage of HER MAJESTY THE QUEEN, H. R. H. the PRINCE CONSORT, H. R. H. the PRINCE OF WALES, and used in the ROYAL NURSERY by command.

If any fact more convincive than another were necessary to prove the great benefit derived from the use of BOGLE'S CELEBRATED HYPERION FLUID, now hailed throughout the world as the *great American Hair Tonic*, it would be that of its rapid sale—quadrupled every year—and the immense number of certificates from all parts of the world, extolling its manifold virtues when everything else had failed. There is no malady which affects the Hair but this can cure. Is your Hair thin, coarse, wiry, turning bald or grey, Bogle's Hyperion Fluid will restore it to its pristine beauty and luxuriance. It is the only article to cure Scurf and Dandruff, and is highly esteemed for headaches and colds in the head. On children's heads it lays the foundation of a good head of hair, and at the lady's toilet it is indispensable. Price, 25, 50 and 75 cents per box.

Proprietor, WM. BOGLE, 202 Washington Street, Boston, U.S. To be had in England of Morgan Brothers, 24 Bow Lane, Cannon Street, London; R. Hoverden, 5 Great Marlborough Street, ditto, and of every Druggist and Perfumer throughout the world. DC 227

HAIR DYE! HAIR DYE!!
WM. A. BATCHELOR'S HAIR DYE!

The Only Harmless and Reliable Dye Known!!!

ALL others are mere imitations, and should be avoided, if you wish to escape ridicule.

GREY, RED, or RUSTY HAIR Dyed instantly to a beautiful and natural Brown or Black, without the least injury to Hair or Skin.

FIFTEEN MEDALS and DIPLOMAS have been awarded to WM. A. BATCHELOR since 1839, and 200,000 applications have been made to the Hair patrons of his famous Dye.

WM. A. BATCHELOR'S HAIR DYE produces color not to be distinguished from nature, and is *warranted* not to injure in the least, however long it may be continued, and the ill effects of bad Dyes remedied; the Hair is invigorated for Life by this splendid Dye, which is properly applied at No 16 Bond Street, New York

Sold in all Cities and Towns of the United States by Druggists and Fancy Goods dealers.

☞ The genuine has the name WILLIAM A. BATCHELOR, and address upon a steel plate engraving on the four sides of each box.

IMPORTANT MEDICAL TESTIMONY.

The following, from Dr. D. Y. Williams, is one of the many thousands of letters received from eminent medical men, testifying to the efficacy of Holloway's Pills for Liver Complaints and Bilious Disorders:—

Professor Holloway: Dear Sir,—I wish to get some of your medicines. I am a physician, and have an extensive practice. I have tried your Pills, and found them the best Pills I have ever used. They seem to act upon the HEPATIC DUCTS of the Liver mildly, but promptly, and more surely than CALOMEL or PODOPHYLLUM, and without debilitating or depleting the system.

Hoping to hear from you soon, with a list of prices,

BOGLE'S ELECTRIC HAIR DYE—The greatest wonder of the age—Patronised by the *elite* of fashion at the Courts of St. James and the Tuilleries, and to be found at the toilet of beauty and fashion throughout the world.

This wonderful compound has now been before the public for several years, and, wherever introduced, the sales have been beyond all precedent. Specimens have been sent to a number of Exhibitions, and, wherever it has come into competition with other preparations for Dyeing, its immense superiority has been acknowledged in every instance by awards of Silver Medal, and Diplomas. It is a liquid easy of application, and turns Hair to a beautiful Brown or Black, without staining the skin. In short, the inventor asserts, and every person who has carefully used it will join in the statement that this is the best Hair Dye in the world. It is now universally preferred in London and Paris. Price, 50 cents, $1, and $1.50.

Proprietor, WM. BOGLE, 202 Washington Street, Boston. To be had in Great Britain and France of his agents and by Druggists and Perfumers everywhere. DC 227

Delirium Tremens.—For this, the most awful of all complaints by its cause, and by its effect finds a sure remedy in Hunnewell's Tolu Anodyne. So marked was its effect on a violent case, that a physician remarked that "it might cause drunkenness, by the ease with which it [illegible]." The giving of opium actually aggravates the case, reproduces a counter delirium, [illegible] no argument to prove that this and it requires [illegible] contrast of the Anodyne is a stop to cure. [illegible], we ask to be with preparations of opium to rest on results proved by all, and are willing [illegible] directions. Read the pamphlet, and follow directions carefully. See advertisement.

THE NEWS FROM THE SEAT OF WAR.—Our telegram of yesterday from Washington, which will be found under the proper heading, brings intelligence of a most painful character to the people of the Free States, with whom are our warmest sympathies. That the Federal forces have suffered a very decided defeat, attended with the loss of a large portion of their guns and a great sacrifice of life, there can, we fear, be no grounds for doubting; although the details of the disasstrous reverse are not very clearly stated. When we get a full narrative of the circumstances attending, what appears to have been little short of the complete route of the army under Gen. McDowell, we shall be better able to judge of the causes of the disaster. In the meantime, and judging from the telegraphic statements, it would appear that the retreat of the Southern forces from Fairfax and Centreville was a mere *ruse*, on the part of General Beauregard, for the purpose of entrapping the Federal army. While we deplore the success of the *ruse* and the consequent reverse suffered by the Federal forces, we are satisfied its effect upon the people of the Free States will only be to intensify their zeal in the cause of the Union and their determination to make whatever sacrifices, whether of life or of treasure, may be required to secure its triumph.

ELECTORAL RETURNS OF UPPER CANADA.—The Toronto *Globe* gives returns of the population of the several constituencies of Upper Canada, in connection with the politics of the members elected. It would appear by this that taking population as the basis of representation, there is an overwhelming preponderance of opinion against the Ministry in that section of the Province. The sum total stands thus:

Opposition	810 442
Ministerial	523 901
Doubtful	52 305
Unrepresented	7 365
Total	1,394,0 3

THE GRAND TRUNK DIRECTION DODGE.—It is true that the recent election of the Grand Trunk Board of Directors, which took the public so much by surprise, has been authoritatively explained as being merely temporary and conditional upon the decision of the English Board. Had this explanation been given at the time of the resignation of the re-elected Directors the Government would have been relieved from all responsibility in the premises. As it is however, we confess there appears to us to be quite as much of truth as of poetry in the following comments of the *Globe* upon the whole transaction:—

We presume, says our contemporary, that the recent action of the Government in regard to the Grand Trunk Railway is another example of the working of "the principle of honour" which Mr. John A. Macdonald, according to his account, has sought to nourish in Canada. The railway policy of the Government afforded one of the chief issues of the late election, and prominent amongst its objectionable features was the direct connection of the Government with the Grand Trunk Company. Just before the election, this ground of objection was partially taken away by the resignation of Mr. Ross, the President of the Company and also President of the Bureau of Agriculture, and the other Directors, all prominent Ministerialists. When objection was made to the alliance of the Ministry with the bankrupt Railway Company, the answer invariably was—all that is at an end; Mr. Ross and the other Directors have resigned, and new men will be appointed not connected with the Ministry. The last election is hardly over, the shouts of the combatants have not ceased to reverberate, when a meeting is held, and Mr. Ross and all his old colleagues are quietly reinstated in their old position. The resignation was a trick to influence the elections and nothing else! When the contest was over, there was no use keeping up the farce!

NEW TOWNSHIPS — The *Canada Gazette* of Saturday contains proclamations of the establishment of the following new Townships:—

CAWOOD, in the County of Pontiac.
DENONVILLE, in the County of Iéniscouata.
CAMERON, in the County of Ottawa.

WAR STORES FOR QUEBEC.—By late advices from England we learn that the transport *Brothers* had arrived at Woolwich, and commenced shipping a cargo of war stores, consisting of 650 tons, for Quebec.

THE ARMSTRONG BATTERY.—The guns and waggons of the Armstrong Battery, now at Hochelaga, are about to be placed in the gun shed in the city barracks, which is being reconstructed for the purpose.

THE SOUTHERN PRIVATEERS.—We learn from Saturday's New York papers, that Government agents are at work in the great Atlantic seaports, inspecting vessels preparatory to chartering those which are suitable for a sea militia. With reasonable diligence it is calculated, a fleet of fifty steamers, brigs, and schooners may be at sea in two weeks for blockade service and the pursuit of privateers.

THE CONFEDERATE STATES CONGRESS.—This body was meet at Richmond on Saturday last. All the old members who composed Congress, during its sittings in Montgomery, Ala, will again take their seats with representative from Eastern Virginina, North Carolina, Tennessee, Texas and Arkansas, which States have since attached themselves to the confederacy.

MORTALITY IN OUR CITY.—Whatever may be the immediate cause, there can be no doubt that Montreal during the summer months, and more especially to the young, is the most unhealthy city on the continent, north of Baltimore. True, our population increases in a more rapid ratio than that of almost any of our sister cities, either of Canada or of the older-settled States of the neighbouring republic; but this increase must, we fear, arise much more from the influx from abroad than from the natural multiplication of births within our own boundaries. That the undeniable insalubrity of our city atmosphere is mainly, if not entirely, the result of defective drainage, we think, there can be no doubt; and, consequently, as little of the propriety of the following remarks of our contemporary, the *Gazette*, in its yesterday's issue, upon the culpable negligence of our city authorities in failing to provide, at whatever cost, the remedy for, what it justly designates as, the "needless waste of life" now going on in our midst—the *Gazette* says:—

Our city fathers are quarrelling about the precise manner in which certain parts of the city shall be drained, and while they quarrel the people are dying as if stricken by a pestilence. At this season large numbers of the wealthier classes are out of town, seeking health at the sea side and various watering places, but the poor cannot go. Last week the deaths in Montreal were over a hundred, or at the rate of 52 to 60 per thousand. The normal death rate of the city should be 18 to 20 per thousand. It is terrible! Now this is something too terrible to think of without shuddering. Yet Providence has afflicted us with no epidemic—there is no extraordinary mortality among any particular class. The truest test of defective drainage and defective ventilation and cleanliness of houses is the rate of mortality among children. And let any man look at the last weekly return and ask himself what it indicates. Over 70 per cent of the deaths were those of children! This is a massacre of innocents with a vengeance, the result of the most cruel neglect. There is a fiendish responsibility resting somewhere for these deaths. The public conscience seems to be asleep, or benumbed, or utterly unformed, or it would be a vision from one end of the city to the other against the perils to which the lives of the rate-payers and their little ones are thus subjected. While our city fathers squabble over schemes, or deplore with folded hands the hard times, King Alcohol is busy doing the work of the King Herod of old. Our Rachels weep for their children who have sickened and pined and died, they know not perchance, why. But those who do know or ought to know shrink from the exertion or the expense needed to remedy this atrocious evil.

Since the above was written we have seen the still more alarming return for last week, of which an analysis will be found elsewhere.

ALARMING MORTALITY AMONG CHILDREN IN THIS CITY.—The returns of interments in the Cemeteries during the past week figure up the unprecedented total (except in time of pestilence) of *one hundred and eighteen* 1 or about *seventeen per diem*. One hundred were Roman Catholics, buried in the R. C. Cemetery, and eighteen Protestants in the Protestant Cemetery. The sexes on this occasion were very disproportionate, the males being only 46 in number, while the females numbered 72. But the most startling feature of this bill of mortality is the fact that out of 118, *one hundred* were children under five years of age. Examining into the causes of death, we find 74 ascribed to Infantile Debility and other Infantile complaints not elsewhere specified, including 27 infants from the Soeurs Grises. This also includes all Catholic still-born children, for as a reproach attaches to this among Roman Catholics, they never by any chance make a return of a still-born child, but ascribe the death to infantile debility. The next chief devastator was diarrhœa, which last week carried off ten persons, showing great impudence in the use of fruit probably unripe. Next small-pox, which in five cases proved fatal to children varying from three to four years of age. Consumption, 3; Paralysis, 1 (a female at the age of 77); Typhus Fever, 1; Worms, 1; Pleurisy, 1; Croup, 1; Teething, 3 children from 12 to 18 months old); General Debility, 2 (at the ages of 75 and 69); Cancer, 2 (at 52 and 63); Old Age, 1 (at 75); Childbirth, 1; Convulsions, 1 (at 2 months old); Asthma, 1 (a female aged 76); Protestant Still-born, 1; Imale and 1 female Norwegian Emigrant child, sent to the Protestant burying-ground, without name, 2; a Norwegian Emigrant, disease unknown, 1; a female, drowned, (sent by the Coroner) 1; Bronchitis, 1; Congestion of the Lungs, 1; Inflammation of the Lungs; 1; Unknown, 2.—Total 118, or one to about every 800 of the population. The excessive mortality among children must evidently be attributed to defective drainage, aggravated by the unusually wet weather.

A NARROW ESCAPE.—About five o'clock last evening, a procession of boys with a band were walking in No're Dame Str et near Sadlier's book store. A cab passed when the horse, startled by the Band, ran over a young lad, the son of Mr. Jerome Grenier. The boy was carried into Sadler's, and Dr. Craik being called in, found on examination that the wheel of the cab had struck his hip and passed obliquely over his chest, the injury sustained being comparatively slight. The affair being the result of accident, no blame attached to the carter, who stopped as soon as he could check his horse.

A NOTABLE CHARACTER SUPPOSED TO HAVE BEEN DROWNED.—One Henry Slater reported at the Water Police Station yesterday morning that he had just discovered the body of a man floating in the Canal Basin, which has since been identified by several persons, as that of the notorious Moise Collette. This man, it may be remembered, was implicated in the mysterious and hitherto inexplicable St. Athanase Murder, whose perpetrators have baffled all attempts to bring them to justice. Whether it was mere accident, or whether he was goaded to the act of self-destruction by the sting of remorse, there is no means of discovering; but it seems that one of the probable actors in the dark tragedy has gone to answer at a higher tribunal, leaving the transaction involved in the same obscurity which originally surrounded it.

THE COURT HOUSE.—This costly building, the crumbling interior of which was last summer renovated at considerable expense, has of late shown unmistakable signs of external decay. The most dangerous part, at the East End, has been protected by an enclosure to keep people from walking underneath the impending masses of stone ready at any moment to tumble from the walls, and the work of strengthening will be proceeded with at an early day, the Commissioner of Public Works having inspected the building.

Among the passengers who arrived by the *Asia* from Liverpool are Lord Adolphus Vane Tempest and the Marquis and Marchioness de Montholon.

A FEW MONTHS IN THE EAST; or a Glipse of the Red, the Dead, and the Black Seas. By a Canadian. Quebec: John Lovell.

We have read this interesting little volume with much pleasure. It is from the pen of a gentleman widely known and esteemed in Canada—James Bell Forsyth, Esq, of the firm of Forsyth & Bell, Quebec—and most agreeably fulfils all that its author professes to have contemplated by its publication—namely, to show his readers how so many interesting places as he describes may be visited, with benefit alike to mind and body, even during such short periods of relaxation from business as Canadian merchants can afford to give themselves.

Mr. Bell—who is, evidently, a thoroughly orthodox member of the Church of England—very appropriately dedicates the modest and unpretending narrative of his observations and impressions in Palestine and the adjoining countries to the Right Rev. the Lord Bishop of Quebec.

THEATRE ROYAL.—To-night will be played the great drama of the Three Guardsmen, adapted from A. Dumas' celebrated *Trois Mousquetaires*, expressly for Mr. Dillon. His *D'Artagnan* is spoken of as a magnificent performance. The London *Times* says:

A state of chronic hilarity has been most felicitously apprehended by Mr. Dillon. His *D'Artagnan* has about it the true spirit of a sanguine adventurer, to whom every windfall is a source of bliss, and no obstacle a cause of terror. The empty sheath of the sword, "Bobadillo," which was left him by his father, with the strict injunction that he is never to refuse a challenge, seems the main end of his existence; but yet there is nothing cruel or bloodthirsty in his temperament. If he can fight three duels in the day he is delighted at the opportunity, not because he harbors ill will against any three of his fellow creatures, but because he is gratifying a natural disposition to pugnacity, and moreover, showing a pious regard to his father's memory. True, he may take life in the course of the several encounters, but with him life is but a trifle to be staked on every occasion when fortune commands a game of chance, and death is a slight balk, the prospect of which need not in the least disturb the equanimity of a sensible man.

It is the great merit of Mr. Dillon that he makes such a character appear completely natural *now*, and thoroughly amiable into the bargain. He becomes the child of a certain period in such thorough efficiency that the period itself is revived, and we can think and feel according to the moral code of the seventeenth century. Nay, he is even somewhat of a childish child; there is an innocence in his very pugnacity; and one may compare him to a generous, good-humored schoolboy, who is, at the same time, the "best fighter" of his class, and who, totally destitute of anything like an "itching palm," makes up for the deficiency by the indubitable possession of an "itching fist."

ROYAL VICTORIA HOTEL OTTAWA.—In another column will be observed the advertisement of this Hotel, under the able management of Mr. Pope, who is well and favorably known from his former connection with the Donegana Hotel in this city.

WINE BOTTLES.—We would invite the attention of the trade to Messrs. Maxham & Co's. sale, at Quebec, to morrow forenoon.

POLICE COURT.—YESTERDAY.

AN OLD OFFENDER.

Cecilia McGee charged Caroline O'Reilly with assault. The defendant in this case, a colored woman, is almost daily brought before the Court on charges of a similar nature. On this occasion a dispute amongst the children of the parties seemed to have given rise to the charge. She was convicted and sentenced to pay a fine of 50s. or go to gaol for two months, the Court reminding her at the same time of the frequency of her appearance there, and admonishing her to be more careful in future.

A SINGULAR PROCEEDING.

Robert Wright charged Ann Gordon with assault. The prisoner, quite an old woman, was evidently insane; indeed, Wright stated that he was aware of this and induced the woman to commit an assault on him in order that he might be brought before the Court and sent down to gaol. The case was dismissed, Wright being condemned to pay the costs, receiving also a severe reprimand for not having applied to the proper authorities at once, instead of bringing an insane woman to the Court on a charge of assault and battery. The Court directed that the necessary steps be taken to secure the woman a place in the lunatic asylum.

Maria Leblanc vs. Mary Healy, assault and battery, was dismissed on the complaint.

SELLING LIQUOR WITHOUT LICENSE.

Geo. Anderson, a colored man, was brought up, charged by the Revenue Inspector, with selling spirituous liquor without proper license. None of the witnesses being present the case was continued to Wednesday.

LARCENY.

Patrick Behan was charged some time ago, with breaking into the store of Mr. McClelland on the 30th of May, and stealing therefrom a number of linen bags. Behan was sentenced at the time to three months' imprisonment. Another man, named John McCarthy, was with Behan when arrested, but succeeded in making his escape from the constable. Having at length, however, fallen into the clutches of the law, he was brought up yesterday, pleaded guilty and sentenced to 3 months' imprisonment.

ROBBERY.

On Friday night, a man named Antoine Hamil, of the Parish of Champlain, was robbed on board the barge *Canadian*, now at the wharf. He lost a silk cravat, a coat, a gold watch with a silver guard. Another man, Louis Lacroix, was robbed at the same time of a coat.

ENTICING SEAMEN TO DESERT.

John Beaton, a seaman, was charged by the captain of the ship Lady Eyre with the above offence. The captain stated that two of his men had been in company with Beaton on Sunday, but had not presented themselves on board the vessel since. There being no evidence, however, that Beaton had induced them to desert, he was discharged.

Peter Wakely, a seamen of the barge Sharp, was fined 10s or 15 days for being drunk.

George Rougris, seaman, was brought up for being drunk on the ship, but was discharged at the request of his captain.

Edward Golding, laborer, late from England, was fined 10s or 15 days, for drunkenness.

Henry O'Neill, steward of the ship Pride of Canada, was charged with being drunk, and abusing the Water Police on the Wharf. He was fined 40s or one month.

RECORDER'S COURT.

Forty-one prisoners were brought up yesterday; about 20 for being drunk, and the remainder for loitering, vagrancy, &c.

A carter named Barnard Calligan was fined 2s 6d or 24 hours for driving without a number. Another carter was fined 20s or 15 days for driving with a false number.

THE ALLIANCE BETWEEN FRANCE AND ENGLAND.

(Translated from Le Semeur Canadien)

In 1847, the inhabitants of Birmingham, one of the most important manufacturing cities of England, met together for the purpose of voting an address to the French people. This admirable document contained, among other things:—"We extend to you the hand of brotherly alliance; in the remembrance of the past, and to share with us the happy promises of the future. Of all these promises there is not one which is more precious than that of the fortunate hour when the people of England and France gave to the world the spectacle so beautiful, of peace, of brotherly harmony and social order."

We know that, in England more than in any other country in Europe, it is the people who give an impetus to the Government when new measures are agitated, and, consequently, the sentiments expressed at Birmingham and afterwards in other parts of the country, were not to remain without effect. Since then the two nations have formed an alliance, and during the Crimean war, in 1854, they united their armies with that of Turkey against the Northern invader. The English and French soldiers, who had been accustomed to hate each other without being acquainted, learned to love one another on becoming acquainted, and those campaigns made together, those dangers and those brilliant exploits shared by those two powerful nations, had at the same time the effect of creating a military fraternity and of cementing their union.

Since, it is true, clouds have appeared in the horizon and apprehensions have been awakened for a moment; nevertheless peace has not been for a moment troubled, and at present England and France act together in China, labouring to open that country to commerce and civilization, and they agree equally in a great cause of humanity, namely, the protection of Christians and against the mad fury of the Musulmen in Syria.

As we can observe, great causes unite these two nations in a foreign country, and it is easy to see that interests not less important at home ought to induce these nations to walk in the path of peace. Without speaking of the national benefits of this alliance; the material prosperity which is the fruit of it, it is certain that England and France united can maintain peace in Europe at any time, when any of the great powers may be disposed to trouble it.

To avoid the effusion of blood, to prevent the ravages of war, to spare the people those struggles which exhaust their reason and destroy their children, what a beautiful, what a sublime mission!

Another consideration which ought to make us desire the continuation of this alliance, is our position in this country. The union of England and France may bear fruit in Canada as well as on the other side of the ocean, and the harmonious relations of the French and English can be greatly facilitated by the good understanding of the nations from whom they respectively derive their origin. Since we are here, and destined to live together, it is of still greater importance than in the old world to nourish good feeling, and each one ought to make it a duty to cultivate pleasant intercourse with his countrymen of a different origin than his own, seeking that which contributes to peace, concord and harmony. Let us, then, lay aside these national hatreds, the fruit of charge. She was convicted and sentenced to pay a fine of 50s. or go to gaol for two months, the Court reminding her at the same time of the frequency of her appearance there, and admonishing her to be more careful in future.

THE ALLIANCE BETWEEN FRANCE AND ENGLAND.

(Translated from Le Semeur Canadien)

In 1847, the inhabitants of Birmingham, one of the most important manufacturing cities of England, met together for the purpose of voting an address to the French people. This admirable document contained, among other things:—"We extend to you the hand of brotherly alliance; in the remembrance of the past, and to share with us the happy promises of the future. Of all these promises there is not one which is more precious than that of the fortunate hour when the people of England and France gave to the world the spectacle so beautiful, of peace, of brotherly harmony and social order."

We know that, in England more than in any other country in Europe, it is the people who give an impetus to the Government when new measures are agitated, and, consequently, the sentiments expressed at Birmingham and afterwards in other parts of the country, were not to remain without effect. Since then the two nations have formed an alliance, and during the Crimean war, in 1854, they united their armies with that of Turkey against the Northern invader. The English and French soldiers, who had been accustomed to hate each other without being acquainted, learned to love one another on becoming acquainted, and those campaigns made together, those dangers and those brilliant exploits shared by those two powerful nations, had at the same time the effect of creating a military fraternity and of cementing their union.

Since, it is true, clouds have appeared in the horizon and apprehensions have been awakened for a moment; nevertheless peace has not been for a moment troubled, and at present England and France act together in China, labouring to open that country to commerce and civilization, and they agree equally in a great cause of humanity, namely, the protection of Christians and against the mad fury of the Musulmen in Syria.

As we can observe, great causes unite these two nations in a foreign country, and it is easy to see that interests not less important at home ought to induce these nations to walk in the path of peace. Without speaking of the national benefits of this alliance; the material prosperity which is the fruit of it, it is certain that England and France united can maintain peace in Europe at any time, when any of the great powers may be disposed to trouble it.

To avoid the effusion of blood, to prevent the ravages of war, to spare the people those struggles which exhaust their reason and destroy their children, what a beautiful, what a sublime mission!

Another consideration which ought to make us desire the continuation of this alliance, is our position in this country. The union of England and France may bear fruit in Canada as well as on the other side of the ocean, and the harmonious relations of the French and English can be greatly facilitated by the good understanding of the nations from whom they respectively derive their origin. Since we are here, and destined to live together, it is of still greater importance than in the old world to nourish good feeling, and each one ought to make it a duty to cultivate pleasant intercourse with his countrymen of a different origin than his own, seeking that which contributes to peace, concord and harmony. Let us, then, lay aside these national hatreds, the fruit of

Coal (?) NEAR QUEBEC.—Several pieces of coal, or something resembling that necessary mineral, have been brought into town within a day or two. The story goes that some men were cutting a ditch in a field, about a dozen miles away, when they came upon a small seam of coal which they followed and came upon a large vein. A Mr. Stuart, of this city, is said to have bought the land and intends working the mine. We hope it is true, but, remembering Bowmanville, and remembering, too, how the Corporation of Quebec were once floated about the coal mine said to exist in the rock under the Parliament Houses, we shall suspend our judgment until we hear and see a great deal more about the matter.—*Quebec Chronicle, Saturday.*
