Guilmette's System of Health!

Guilmette's System of Singing!

GUILMETTE'S SYSTEM of SPEAKING

EACH DEPARTMENT is divided into THREE DISTINCT COURSES of Six Lessons each.

Doctor GUILMETTE would respectfully inform the public that his

☞Terms to Classes, number unlimited, are Five Dollars per Lesson or Lecture.

☞Terms to Private Pupils, Twenty-five Dollars for a Course of Twelve Lessons, either in PHYSICAL CULTURE, the ART of SINGING or READING.

☞Terms to Private Pupils, Single Lesson, Three Dollars.

☞THOROUGH MEDICAL EXAMINATION, with CHART, Five Dollars. Subsequent consultations, Two Dollars each.

Nearly Twenty Years of Successful Practice in the United States, Europe, the West Indies, and Empire of the Brazils, resulting in many Cures by his System of Treatment, enables Dr. G. to promise the speedy relief of several Diseases of the Organs of the Throat, the Chest, and other most important Organs, hitherto considered incurable.

☞Residence, ST. LAWRENCE HALL.
☞Office, NORDHEIMERS' BUILDING.

TO THE PUBLIC.
MONTREAL, October 1, 1861.

WE, the undersigned, having attended Doctor GUILMETTE's First Course of Lectures on "Vocal Physiology," hereby testify, that they embrace a correct, scientific view of the organs of speech and song, anotomically, and a beautiful exhibition of their functions, by the teacher's voice, physiologically or practically. As educating the human voice for both, we can scarcely speak too highly of them. The functional parts begin with respiration, both diaphragmatic and pulmonary, and the exercises devised and put in practice on this point, are not limited to strengthening and improving the voice, but have a very beneficial effect on the respiratory organs, in averting disease of those organs, and thus, as well as by the muscular exercises enjoined of a general character, promoting and securing a sound general health.

This is a very important consideration with reference to the system. As a preparative, by the right education of the vocal organs, it is of course valuable to the public speaker, and we have witnessed its good effects on the more forcible and delicate executions of song.

We recommend it for Schools and Colleges, as the instruction can be received by numbers in concert.

Bogle's Celebrated Hyperion Fluid

For the growth, restoration and beautifying of the Hair. Under the immediate patronage of HER MAJESTY THE QUEEN, H. R. H. the PRINCE CONSORT, H.R.H. the PRINCE OF WALES, and used in the ROYAL NURSERY by command.

If any fact more convinsive than another were necessary to prove the great benefit derived from the use of BOGLE'S CELEBRATED HYPERION FLUID, now hailed throughout the world as the GREAT AMERICAN HAIR TONIC, it would be that of its rapid sale—quadrupled every year—and the immense number of certificates from all parts of the world, extolling its manifold virtues when everything else had failed. There is no malady which affects the Hair but this can cure. Is your Hair thin, coarse, wiry, turning bald or grey, Bogle's Hyperion Fluid will restore it to its pristine beauty and luxuriance. It is the only article to cure Scurf and Dandruff, and is highly esteemed for headaches and colds in the head. On children's heads it lays the foundation of a good head of Hair, and at the lady's toilet it is indispensable. Price, 25, 50 and 75 cents per box.

Holloway's Pills.—Never Despair.—

SOMETHING THAT NEVER FAILS.—FEVER AND AGUE.—To the sick it is of little consequence how they are cured, whether from a rational view of the disease or by the rules defined for the guidance of the profession, so long as the cure is certain and expeditious. To a suffering man the question on the relative merits of quinine or calomel is uninteresting. The faculty may wrangle and dispute, while the disease progresses, even till the dying point. Holloway's Pills take the disease in hand, attack it at its root, and in a short time extinguish it. By these means Holloway's Pills are the only remedies which effect a speedy and radical cure without danger of relapse.

BOGLE'S ELECTRIC HAIR DYE—The greatest wonder of the age—patronised by the elite of fashion at the Courts of St James and the Tuillerics, and to be found at the toilet of beauty and fashion throughout the world.

This wonderful compound has now been before the public for several years, and, wherever introduced, the sales have been beyond all precedent. Specimens have been sent to a number of Exhibitions, and wherever it has come into competition with other preparations for Dyeing, its immense superiority has been acknowledged in every instance by awards of Silver Medal and Diplomas. It is a liquid easy of application, and turns Hair to a beautiful Brown or Black, without staining the skin. In short, the inventor asserts, and every person who has carefully used it will join in the statement that this is the best Hair Dye in the world. It is now universally prefer red in London and Paris. Price 50 cents, $1, and $1.50

Proprietor, WM. BOGLE, 202 Washington Street Boston, U.S. To be had in Great Britain and France of his Agents, and by Druggists and Perfumers every where. DC 227

THE MIGHTY HEALER.—Let not disease, with its fangs, pray upon you, until the cold hand of death hurls you to an untimely grave. Shake off the feeling of despair and hopelessness, so liable to come upon the invalid. The plant born of the Sun we place within the reach of all. We care not what may be the specific form of the disease. The cause, the fountain of the disease itself, is impure blood, and through the different channels of the lungs, the stomach and the vital organs, Judson's Mountain Herb Pills will pass, mingling with the blood, search out and grasp and then expel all hurtful poison that there is in it. Thus cleanse the blood by a few doses of these Pills, and disease, in any form, will dissipate and vanish. As the Sun, with its glorious beams first causes the morning dew to rise as mist, then growing stronger, casts his burning rays upon it—and behold 'tis gone,—so cleanse the blood, and disease, like morning dew, retreats and vanishes. There is no blood purifier equal to Judson's Mountain Herb Pills. Sold by all dealers in Medicine. 1m 237

HUNNEWELL'S GREAT REMEDIES.—Their character sustained by testimonials to which all are invited to investigate. Their effect, which is perfectly natural, and their relations to disease, by strict adherence to laws of medicine.

Hunnewell's Universal Cough Remedy, which can have no superior for all Lung, Throat and Bronchial Complaints, to actual Consumption.

Hunnewell's Electric Pills, prepared to assist the work of the Tolu Anodyne in cases of indigestion, have proved a most perfect substitute for mercurials, so destructive to the effect of the Anodyne. For Bilious Complaints, Indigestion, Worms in Children, and all derangement of the digestive organs, they have proved by fair trial, all that is expected of them, and will be sent free until plans for sale are completed. The remedies and their connection is more fully described in the pamphlets, to be found with dealers, or will be sent on demand without "postage stamps."—Prices of each preparation within the reach of all. Economical Questions in connection with the American War.—The war, besides testing a great many other things, and, perhaps, convincing the world, as well as those immediately concerned, of many other errors, bids fair to expose the fallacy of some economical mistakes, into which Americans have been prone to fall. A high tariff for the protection of native industry—that is, of the industry of those who produce the things protected—has been a favourite doctrine, especially in the North. The retirement of the Southerners from the Legislature was at once taken advantage of by the Northern majority to carry out their views in this particular; and that monstrous production of selfishness and ignorance, the Morrill tariff, was passed to reduce the customs revenue to nothing, at the moment when a prodigious war was opening its jaws to engulph fabulous amounts of revenue. There are times when almost any absurdity and spoliation may be committed by a government provided it be not quite as plain as the nose on a man's face, and especially if it has a considerable number of well-organized advocates interested in its support. The masses are willing to be deceived, and they are [illegible] and theories, which promise an immediate advantage, no matter how clear it is that that advantage can be bought only by payments made by themselves. But in war a nation's powers are strained to the utmost, every nerve is made prominent by the violence of the struggle, and any weakness is at once detected. The men at the head of affairs have to do something which, with every aid they can obtain, is nevertheless a diffcult task, and something which admits of no delay. If they yield themselves to intrigues for their own benefit or the benefit of others, failure can not be put off. The responsibility must be assumed at once. Hence, in time of war, the men whose knowledge enables them to understand public affairs, have a much greater incitement than in time of peace to do the very best thing in their power, to overrule the interested schemes, which are tolerated by the ignorance or apathy of those whom they injure. Besides the Morrill tariff, which was so contrived as to exclude all foreign importations which could possibly be replaced by native productions, the Legislature at its last session found itself called upon to provide ways and means. Direct taxes of various kinds were proposed; but were no sooner proposed than rejected, owing to the opposition of Western members. These gentlemen had not knowledge enough, or tact enough, to oppose the excessive duties and vexatious regulations ingeniously combined in the Morrill tariff; but, having passed that piece of legislation, they fell foul immediately of the only source by which the Government could make up for the loss which must accrue from the annihilation of the customs duties. Of course, wars must be chiefly carried on by loans; but it will hardly do in time of war to reduce the revenue, even if deficiencies larger than the ordinary outgoings are met by borrowing. From what source, then, must the United States Government make up its revenues to the fair point at which the revenue in such a crisis ought to stand? Adequate direct taxation being refused, and any direct taxation impatiently borne, it must rely upon the ordinary mode of customs duties; and, in order to do that, it must repeal the Morrill tariff. The shuffling self-deception of incidental protection, which discourages importation and yet increases the revenue, arising from a per centage on importations, will not do in the matter of fact political philosophy of a time of war. It will be found that the Government must choose between a tariff, which will not exclude foreign goods, and therefore will not favour home production, or else a revenue from customs, hardly worth the cost of collection. The latter is the existing state of things. The economy which a time of war necessarily brings about must naturally depress the trade of the importer, but the depression has been aggravated by the excessive demands made by the Custom House authorities upon persons hardy enough to bring goods into a dull market. There is another remarkable circumstance to be noted in this connection. When persons who consume manufactured goods have cried out against the hardship of taxing them for the benefit not of the State but of their fellow-citizens, they have been always answered by the statement that they were quite in error in supposing that high duties increased the cost, or diminished the supply of the goods taxed. But no sooner does the government which has acted upon the principle find itself in want of a large number of blankets for the army, than it ships off the order to Europe. Why? Because the extra half dollar or dollar which John Smith or Robert Jones pays for his blanket, in order to stimulate the manufactures of his own country, to supply his demand as a civilian, are unnoticed, even by himself. He pays the price demanded, without ever thinking at how much less cost he might get the article but for the duties. But as soon as John Smith and Robert Jones start for Bull's Run or other fields of glory, and their blankets make only small items among the hundreds of thousands required, the purchasers of the hundreds of thousands find the half dollar or a dollar per blanket amounts to a very considerable sum in all, and that the capacity to obtain the quantity required promptly and without great augmentation of cost, depends very much upon the extent of market to which the purchasers can go. Thus it is that the government refutes its own protectionist theories, and when it wants to supply itself in large quantities and at cheap rates, it goes to the market where the largest quantities at the cheapest rate can be had. John Smith would be debarred from this if he bought himself by the duty, but when the government buys for John Smith, the duty which it takes out of one pocket comes into the other. But will it not be seen that a doctrine, which is an economical falsehood for the government, cannot be a truth for individuals. And if John Smith shall hereafter spread his own blanket on the domestic four-poster, instead of spreading Uncle Sam's blanket on the bed of fame, will he not discover that the covering employed for peaceful purposes, will be best procured exactly in the same way as that which warmed his limbs, when martial ardour was found to be not sufficiently heating?

The Government and the Neutrality Laws.—We believe, though we cannot usually praise our Provincial Government very highly, that it has done exactly right as respects most of the late breaches of the neutrality laws. If Mr. Sheppard and his fellow busybodies had let it attend to its own business, the affair would, probably, have been got through with, with a great deal less excitement. But as it has cut those gentry adrift, and, as we understand, it failed to prosecute Colonel Rankin or renew his bail during the assizes at which he was bound over to appear; and as it has, moreover, dismissed both the Colonel and his subordinates, Mr. McAlister Clark and Mr. McGill McCutcheon, from the militia service, it seems to us, we repeat, that it has exactly fulfilled the demands of justice, as administered in such cases in the mother country. We think, however, that the Government has still one great criminal to deal with—we mean that formidable contractor for muskets for a Western friend belonging to Pennsylvania, of whom we have lately heard so much. We do not doubt that so redoubtable a person must hold some rank in the armies of his own country, and it will be very dangerous to leave such a character in a position which will enable him on a wet muster day, on the Champ de Mars, perhaps, to call the roll of his company from under an umbrella, and receive no answers. We call upon the Government not to neglect this important duty to their Sovereign and country. It is true the muskets were not sent, but only intended to be sent; and we see that Mr. McAlister Clark denies that he ever enlisted, but only intended to enlist. We think, therefore, here is a clear case for another dismissal. The Editor of the *Gazette* can tell all about the culprit, and Canada will hardly be safe till he has appeared in a new militia order.

The Tunnelling of the British Channel.—The much talked of project of a means to connect the cliffs of old Albion with the continent of Europe has been at length taken up by one of our own fellow-citizens, or, at least, by one who lately laid just claim to that title. Mr. James Chalmers, formerly of St. Paul Street, has devoted a great deal of attention to this object, which he thinks can be accomplished by means of a tunnel at a cost of £12,000,000 sterling. This plan is to lay down iron tubes; which should be kept in their places laterally by piers of stone dropped from the surface, which should then, together with the tube itself, be covered with more stones, gravel, &c. At suitable intervals he would place ventilators rising above the water, and illuminated at night like light-houses. He has published his plan in a neat little volume, with diagrams, calculations of cost and similar information, and his friends here say that he has met with great encouragement among influential people in England.

Halloween.—Notwithstanding the "root and branch" proscription, by the early Scottish reformers, alike of the creeds and the observances of the Romish church, so deeply were some of the latter ingrained in the customs and minds of the people that, long after their origin was forgotten, they continued to celebrate, as their fathers had done before them, some of the festivals and holidays of that church—more, however, in a spirit of fun and jollity than of faith and piety. Thus Halloween—the eve of the feast of All Hallows, or All Saints, as the Church of England calls it,—from a religious has become a national festival among the Scots, many of whom are, doubtless, ignorant of its ecclesiastical origin. They know not that the advent of the Saints on the following day was the reason why it was of old believed the Powers of evil—witches, devils and those ærial spirits, the Fairies,—were so active on Halloween. Even in Burns' delightfully graphic sketch, he gives not a hint of the origin of the social festival, unless it be in her "grannie's" indignant rebuke of "Wee Jenny," when she asks her to sanction her attempt to pry into futurity—

She puff't her pipe wi' sic a lunt,
In wrath she was sae vap'rin,
She notic't na an aizle brunt
Her braw new worset apron
Out thro' that night.
"Ye little skelpie-limmer's face!
I daur ye try sic sportin',
As seek the foul thief onie place,
For him to spae your fortune:
Nae doubt but ye may get a sight!
Great cause ye hae to fear it;
For mony a ane has gotten a fright,
An liv'd an' died deleeret
On sic a night."

The old lady had, probably, some recollection of the origin of the festival—an indistinct one, however, or she would never have graced the "sports" with her presence. The Halloween observances, which, in Burns' time, were at least the relics of unholy superstitions, are, happily, now but the pleasing and frolicsome reminiscences of "auld lang syne"—doubly dear to those, who remember the youthful glee with which, like "Wee Jenny," they participated in them, when they were lads and lassies. Whatever the cause—and, perhaps, Robin Burns is quite as much responsible as the Church of Rome for it,—the fact is indisputable, that, at home and abroad, Halloween is universally acknowledged and kept as a national festival by the "kindly Scots." Many of them, and of their friends of other national origins, will, doubtless, remember the complete success, with which it was kept last year, but a glance at the programme—in our advertising columns—will, we think, satisfy them that the entertainment on Thursday evening holds out attractions, which, to use the *banal* phrase, have "rarely been equalled and never surpassed" on any similar occasion. True, they will hardly find a chance

"To burn their nits, an' pou their stocks;"

but they will find ample means provided to enable them to

"Haud their Halloween
"Fu' blythe that night."

City Mortality.—During the past week there were 56 deaths. In the Protestant Cemetery the interments were 10 in number, being 5 men, 1 woman, 1 male, and three female children. In the Roman Catholic Cemetery there were 46 interments, 5 men, 8 women, 16 male and 17 female children. Total males 27, females 29.

The causes of death were as follows:—Hydrocephalus, 2; Consumption, 2; Infantile Debility, 23; Small Pox, 9; General Debility, 4; Child Birth, 1; Paralysis, 1; Croup, 1; Result of a Fall, 1; Abscess, 2; Disease of the Heart, 1; Worms, 1; Teething, 3; Cancer, 1; Congestion of Lungs, 1; Disease of the Liver, 1; Pleuresy, 1; Dropsy, 1; Total 56.

The Horse Railway.—A civil engineer writes to the *Minerve* that the mode of laying the rails of this road is not calculated for our variations of climate. The rails, he says, being laid close together at the ends, their expansion in the summer will cause them to be broken. We know not whether the expansion in such short lengths is sufficient to do any damage.

Assault.—As a sailor was proceeding along Wellington street on Sunday night, about half-past nine o'clock, he was met by three drunken rowdies, who knocked him down and searched his pockets, but finding no money in them took the boots off his feet and ran away. A Water Policeman passing by at the time found one of them loitering round, and took him to the King Street station.

The Accident on the "Albion."—We are glad to learn from Dr. Taylor, of the *North Briton*, that Peter Adams, who fell from the fore-mast of the *Albion* on Saturday afternoon, is out of danger, and will soon be in a condition for duty.

The Montreal.—The Richelieu Company's new steamboat *Montreal* made her trial trip on Saturday afternoon. For beauty of make and finish she will be an honor to the Company and to the builders, Messrs. Bartley and Gilbert. We gave a description of her size and proportions at the time she was launched, but may repeat that her length is 266 feet, beam 33 feet. The hull is of iron, and the paddle-wheels, also of iron, are arranged with feathering floats, being 9 feet by 30 inches, and their dip in the water 4 feet. She has an engine of 60-inch cylinder by 8 feet stroke, with wrought iron keelsons and engine frame. The valve is worked by what is called the "Corliss" motion. The passenger accommodation is very superior in proportion to her size.

Review on Logan's Farm.—Major Penn's Armstrong Battery, and the 47th, were reviewed on Logan's Farm yesterday morning.

Miss Lydia Hoyle, of Swift Place, St. Antoine Street, has shown us a bed of fine strawberries, grown in the open air. This is something new in Montreal, to produce strawberries at the end of October.

We understand that the Annual Meeting of the Ladies' Association of the Sabrevois Mission will be held in the School Room of Trinity Church this evening, at 7½ o'clock. The friends of the cause are invited to attend.

Spiritualism.—Those of our readers who have the curiosity to hear anything about this new-fangled doctrine, and who have heads strong enough to escape the risk of being turned, like the Spiritualists' Tables, will have an opportunity to gratify their curiosity, as they will see, from a letter addressed to us by one of the sect, that a meeting of the adepts will be held on the 1st proximo.

Jewellery, &c.—It is scarcely necessary to call special attention to the advertisement of Mr. A. Hoffnung, who is about closing his retail business. The extraordinarily reduced list of prices which he has published in our columns cannot fail to speak for itself, and must serve to convince every one of the genuineness of his intentions to clear out his stock as soon as possible. His fine assortment of watches, jewellery, silver and plated ware, and rich fancy goods is rapidly diminishing, and those of our readers who desire to secure a choice of the bargains now offering had better pay him an early visit. The stock is well known to be one of the finest in the city, and, notwithstanding the extremely low prices, every article is warranted to prove genuine, as represented.

This evening Mr. S. C. Dubois presents his claims to the patrons of our Theatre for his benefit, and we certainly anticipate a very fine house. The bill offered—Farquhar's great play of *Wine Works Wonders*, or *The Inconstant*, and the beautiful nautical drama of *Tom Cringle's Log*—is certain to be a successful one. The first piece is pronounced by English critics to be one of the finest of the old school, and the main incident is supposed to have happened to the author while travelling in Italy. We hope Mr. Dubois will meet with the patronage he deserves, and the success due him for his labours to please.

We have to announce to our readers the return of the Swiss Bell Ringers on Wednesday next. They gave great satisfaction while here last week. Wednesday is the opening night on this occasion we promise our readers a treat in seeing the extraordinary talent of this troupe with the bells.

The sale of Bohn's splendid collection of illustrated and other books will not commence till Wednesday afternoon at half-past two o'clock. Catalogues will be ready to-day and may be had of the auctioneer, at Hill's, Place d'armes, and at Pickup's. The collection is very fine, embracing all the works of this great publisher, and are all in the finest order. They may be examined by catalogue to day. It was impossible to make the catalogues descriptive, therefore the books must be examined to be appreciated. The collection is indeed very fine, and will probably sell very low, on account of the late extensive sale of Appleton's books.

Mr. Shaw desires us to state that as he must close Appleton's sale immediately, all gentlemen who have not yet taken their books will confer a favour by calling for them this forenoon, as whatever remains on hand this evening must be sold at the cost and charges of the purchaser.

☞Now is the time to secure desirable Rooms at the Montreal House. Those contemplating a change of Board would do well to call. b

The attention of capitalists is directed to the sale of the very valuable property, belonging to the Kerr Estate, fronting on St. Antoine and Cemetery Streets. Three stone houses and thirteen building lots. Sale on the 2nd November next.—*See advertisement.* du

CORRESPONDENCE.

SPIRITISM OR SPIRITUALISM.

Sir,—The doctrines or truths embodied under the cover of such a name have had the effect of drawing millions of adherents, in the short space of a few years, in the United States only. In Europe the attraction has not been so great, but nevertheless it has been sufficient to attract the active notice of newspapers, periodicals, scientific bodies and philosophers in general. We do not wish to dwell upon the merits of the doctrines which Spiritism proclaims, nor recount the opposition which it has encountered from different sources, our intention is simply to draw the attention of believers to the subject, and show them the expediency of uniting their efforts to ours, in forming a body or society.

Unavowed believers—females not excepted—and those who are not personally known to us, are hereby notified that a meeting will be held on Friday, the first of November next, at Bonaventure Hall, in the fifth story, for that purpose. We earnestly hope that all believers will come and that no one will be held back by selfish or unwarrantable influences. The meeting will commence at 8 o'clock p.m., precisely.

SPIRITISTS.

INVITATION TO MR. JAMES SADLIER.

We have been requested to publish the following correspondence:—

Montreal, Oct. 26, 1861.

To James Sadlier, Esq.:

Dear Sir,—Your Irish friends in Montreal are very desirous to have you as their mutual guest on one evening at least, during your present visit to this city. They wish to do themselves this honor, not as mere matter of compliment, but in cordial remembrance of the many years you and Mrs. Sadlier formerly resided amongst them, and in acknowledgement of the many obligations they owe, in common with all their compatriots throughout the world, to the literary labors of your gifted lady; as also in appreciation of the highly instructive family journal of which you are one of the publishers—the *New York Tablet*.

Hoping you will consent to gratify your Montreal friends by naming an evening to accept their joint invitation, we beg leave to subscribe ourselves yours, (and Mrs. Sadlier's) ardent wellwishers.

James Donnelly, &c.

Montreal, Oct. 28, 1861.

Gentlemen,—I received your kind and cordial invitation to be your guest of an evening during my stay here.

Nothing would give me greater pleasure than to meet my Montreal friends in public as I have met them in private—but I cannot do myself that pleasure as I am obliged to leave for New York to-morrow.

Permit me gentlemen to thank you, one and all, for this additional proof of your kindness to myself and, what pleases me better, your kind appreciation of the literary efforts of my wife. Whatever may be thought of the intrinsic merits of her Works one thing I can vouch for, that they have been written with a heartfelt desire to amuse and instruct "the Exiles from Erin" in America.

Thanking you again for your kindness on this as on many other occasions.

I remain, Gentlemen,
Yours truly,
J. Sadlier.

A NEGRO KILLS HIS WIFE.

(*From the Sherbrooke Gazette, Saturday.*)

On Tuesday morning last, Augustus Green, a coloured man, living in Sherbrooke, reported that his wife, (a white woman) was found dead in her bed, about three o'clock that morning, that he went to Lennoxville the day previous in the afternoon, and did not return until about three o'clock in the night, when he found his wife dead in her bed.

Coronor Woodward summoned a Jury of Inquest, which resulted in a verdict of "Wilful Murder" against Green, who has been committed to Jail to take his trial at the next Court of Queen's Bench. Green also reported to some parties that he was up the Magog the night previous to his wife's death. Both stories appear to be untrue.

Augustus Green at the inquest, said—Yesterday afternoon I left my house and went to Lennoxville, and left Lennoxville to come home about two o'clock this morning, and returned home about three o'clock this morning. I found my door fastened; I rapped, and my boy Johnny opened the door and said my mama is dead. I lit a candle, and found my wife dead, lying across the foot of the bed. Her head was nearer the foot than the head of the bed, with her clothes on. Her feet were hanging over the edge of the bed. She was cold, except one side of her cheek. I immediately went for assistance. I then went to Mr. John Ker's for some candles, it must have been half an hour after I returned home, till I was at Mr. Ker's. After getting the candles I went to my house and lit one of them. I then went for Mrs. Molloy and Mrs. Paige. When I left for Lennoxville my wife was as well as usual. I only saw one man while at Lennoxville, and I did not know him. I did not go into either of the taverns. I was in search of a man by the name of Henry. There was some whisky in a bottle in my house when I left home when I returned there was a little left. My wife is given to drink I had been drinking when I left for Lennoxville, but was perfectly sober when I came home. I never knew her to have any fits since she left Montreal; she did have one or two fits in Montreal.

John Green, son of Augustus Green, states—Is going on eleven years of age. Yesterday I went to school in the afternoon, and on my return both father and mother were at home. Father was at home all the evening, also mother. They had no candle. I went to bed first, and mother after. I was awake when mother come to bed. Mother did not take her clothes off. She laid partly across the bed Father was lying upon the floor. Father got up and got on to the bed, laying across my mother's breast. His head touched my hips. I asked father to get off from mother two or three times, and told him he would smother her. He replied, don't bother me. I think he laid upon her about half an hour. Father got up and lit a candle and told me that mother was dead. I then said, I told you you would smother her. He answered, I don't mind you told me so. Father told me not to tell Mr. Clark how mother died, but to say that he was out all night.

E. D. Worthington, M. D., sworn, says:—I have examined the body of Mrs. Green. I have heard the statements of John Green, and believe that the statement made by him of the way his mother died are borne out by the state in which we found the body; and I am clearly of the opinion that the deceased came to her death by some means other than natural causes.

POLICE COURT—Monday.

END OF THE RAILROAD ASSAULT CASE.

In the case of Patrick Martin vs. John Lewen, for obstructing the highway, judgment was given yesterday morning. Mr. Coursol considered that the act referring to loose, idle and disorderly persons applied in the present case. Lewen was therefore fined $8 or 15 days.

ASSAULT AND BATTERY.

Adeline Cederat vs. François Xavier Lupie. Settled.

Margaret Sigh vs. Bridget McCarthy. Action dismissed.

ROBBERY.

One William Chambers, was arrested and remanded, on a charge of highway robbery.

Jerome Chaput, farmer, of the Parish of St. Paul, District of Montreal, said that on Saturday last, October 26th, about eleven o'clock in the evening, he arrived in Montreal by the steamer from St. Lambert. He was on his way from the States. Having landed he took his carpet bag and placed it on his back, and walked to the Bonsecours Market to get lodgings. Finding all the taverns closed he proceeded down to St. Paul Street, and when near the Bonsecours Church he met two young men to whom he spoke, asking if they could direct him to a respectable tavern. They told him that there was a very respectable tavern in a small lane close by, at the same time pointing it out. Chaput proceeded to the house to which he was directed. On arriving in front of it he was seized by the throat, and struck by one of the men. In the meantime the other took his bag away. He called out "murder," and they both ran away. Chambers was arrested, and on being brought before Chaput was recognised by him as being the one who laid hold of him by the throat. The bag contained a large quantity of clothing, and with its contents was valued at about fifteen or twenty dollars. It has since been found out that the other robber is one Geo. Barbeau, an old hand, and well known to the Police. Chambers was remanded.

STEALING A BLANKET.

One Edouard Jaques was brought up for having, on the 26th October, stolen one woollen horse blanket, valued at 12s 6d from Leon Lapierre. The prisoner pleaded guilty, and was sentenced to one month common gaol at hard labor.

HIGHWAY ROBBERY.

Three parties, Joseph Edwards, Robert Wilson, and Charles Williams, were arrested under the following circumstances: Thomas C. Fraser, of St. Anns, came to Montreal on Saturday last, Oct. 26th. The following day, Sunday, he took dinner in a boot shop in Common Street, where he met the three men above named. They all left the shop before he did, and shortly afterward, whilst he was walking in Common Street, he met them again. All four went into a tavern and had something to drink. Fraser himself acknowledged that he got a "little drunk" while there. They all left the tavern for the purpose of going to the house of one Denis, who the three men said was their "Boss." On arriving there they all took some more liquor, and after remaining there for about half an hour, left the house together, and went away. Some time about half-past nine, Fraser was picked up by a policeman named Entwistle, of the Water Police, and was without his boots. He told the policeman that he had been robbed. Fraser was taken to the Station House, and a short time after the three men above mentioned were brought in by Entwistle, who found the boots on the feet of Edwards, who was with the others he had arr[illegible] Wellington Street. The priso[illegible]anded.

RECORDER'S COURT—Monday.

Forty-two prisoners were brought up.

Eight men and four women found drunk and disturbing the peace in a house of ill-fame in Amherst Street. The house was one of Davis' notorious row. The prisoners were each fined $5 or two months, except two who were only fined $2 or 15 days.

Margaret McGuire and Sarah Jane Gorman were brought up for giving liquor to prisoners through the cell window. The former was fined $10 or two months, and the latter $5 or one month.

One Francois Densin, a tavern keeper in Common Street, was fined $8 and costs for keeping open on Sunday last.

The remainder of the prisoners were up for trifling offences.

October 7.

COFFEE---The large amount of 860 tons was delivered for home use and exportation during the past week, and in corresponding time of former year 690, landings were 560 against 450, and stock is now 7230; at this period in 1860 it was 6450 tons. The Coffee market is not so animated as a few days back, yet prices generally sustained for shipping and home trade sorts. Plantation Ceylon good mid to good, in auction, went at 80s to 82s 6d; fine ord to midd 72s to 79s; Pea berry 78s to 86s; unclean mixed and Triage 50s to 70s; black 30 to 40s; Native Ceylon, common to good ord 64s 6d to 70s; and Singapore Java 63s 6d to 66s per cwt.

INDIGO—The public sales are progressing. The sale opened with a fair attendance of foreign and country buyers, and has proceeded with an unusual amount of animation, all qualities of Bengal selling readily at 1s per lb advance on July rates, with the exception of the fine descriptions, for which the orders appear to be very limited, and which were consequently bought in or withdrawn.

METALS—The upward movement for Spelter continues, business being done at £18 15s to £18 17s 6d. Increased heaviness in trade for Scotch Pig Iron, and 49s 6d to 49s 9d accepted cash mixed numbers. Sales limited in Tin, Banca 118s 6d, and Straits 117s 6d per cwt.

OILS—An advance for Rapeseed, 46s 6d to 47s paid for Foreign Refined, and brown 43s 6d to 44s. The lowest quotation for Linseed is 34s on the spot. Palm more readily dealt in, and 44s paid for fine. Cocoa Nut wanted, 51s obtained for Prime Cochin, and Ceylon 50s.

RICE---Stock 7000 tons smaller than last season, and deliveries nearly equal. Floating cargoes greatly wanted, 11s 3d paid for Necranzie Arracan fully insured, but without guarantee, open character. On the spot much demand for Rice, and previous rates rather exceeded. In auction Rangoon went at 11s to 11s 6d for good quality, and at 8s to 11s for damaged. Bengal good mid to good sound white realised 11s 6d to 13s 6d per cwt.

SALTPETRE—Sales trifling, and sellers willing to accept previous valuations for Calcutta and Bombay. Deliveries 800 tons under last year, and stock 700 tons deficient.

SPICES.—Cinnamon is not much required, and Ceylon found buyers 11d to 1s for third sorts; Nutmegs: Prices do not rally, but supply much reduced, and common in auction sold at 11d per lb. Mace: Not easily to be obtained at previous moderate terms, and only trifling parcels now offering for sale. Pepper: Demand favourable, and rates firmly sustained. Singapore realised 4d to 4½d; Penang and Batavia 3¾d, and Malabar 5d to 5¼d, Singapore white went at 6¼d to 6¾ per lb. Ginger: There is still a firm market with a good demand, and in auction Cochin went at 50s to 57s, and Jamaica at 54s to 104s per cwt.

SPIRITS.—Market quiet for Rum, yet common Leewards not easily to be bought under 1s 7d proof; or Demerara below 1s 8½d. Purchases in Brandy readily made, and quotations looking up; Cognac best brands of the vintage of 1860 selling at 10s to 10s 2d; 1859 ditto 10s 6d to 10s 8d, older 11s to 14s 6d, inferior 7s to 9s 10d.

TEA.---There is not much briskness in the market, yet rates rule firm for Congou, green, and scented. Duty was paid at this port during last week on 941,006 lbs, being a decrease of 2828 lbs in comparison with the former one.

New York, Oct. 28.

Our army in Western Virginia continues to be actively employed. Brig-Gen. Kelly attacked Romney on Friday night, after a march from New Creek, and completely routed the rebels, taking some prisoners, three pieces of cannon, and all their wagons and camp equipage, with a very trifling loss on our side. The rebels retreated towards Winchester.

Information reached the Government yesterday that the rebel army in front of Washington has been divided in expectation of an attack by our forces at other points. A large body has gone to Leesburg, where Gen. G. W. Smith commands, fearing a renewal of the attack by Gen. Banks' column, and an immense force has been concentrated at Norfolk. It was supposed in anticipation that our naval expedition was to make a demonstration in that quarter. The main body of the enemy is still at Centreville. Along our lines there was no change yesterday.

A despatch was received in St. Louis yesterday from Gen. Fremont, dated from his Head Quarters near Homansville, stating that his guard, headed by Major Seagoyne, made a dashing charge upon a body of Rebels 2000 strong in their camp at Springfield, and drove them from the town, and after planting the national flag on the Court House, withdrew to a reinforcement which was approaching to join him. Fremont's Guard, who made this charge, numbered only 150 men. Fremont states that his advance would occupy Springfield on Saturday night.

Lieut. Porter, of the *Powhattan*, reports that she arrived at Maranham, Sept. 24, only 5 days after the *Sumter* left. The latter had cruised for 2 or 3 days at the mouth of that harbor to overhaul the brig *Maria*, expected from New York. The Governor of Maranham treated the officers of the *Sumter* with every courtesy, and supplied her with coal, but was unwilling to do the same to the *Powhattan*. In entering Maranham the *Sumter* got ashore, lost her false keel, and when she left was leaking.

A "Secesh" traitor named Lowler, arrested in Ohio as bearer of despatches to "Secessia," endeavored to make his escape from Hotel de Lafayette yesterday, but was foiled in his attempt by the sentry.

St. Louis, Oct. 28.

We are gratified to learn from J. H. Wade, President of the Pacific Telegraph Co., that over 200 private messages passed over the Line the first day it was opened, and that messages continue to come in at both ends fast; thus indicating already that it will soon be necessary to put up one or two more wires to meet the urgent wants of the commercial public and the press.

Fort Monroe, Oct. 27.

The great expedition has been delayed by a prevalent gale.

Some refugees from Yorktown state that the rebels are in considerable force in that vicinity, and that there is an apprehension of an early attack by the Federal troops.

There is a large fleet of transports at Point Comfort, destined for Washington, unable to ascend the Potomac River.

New York, Oct. 26.

A Washington special despatch states that the rebels are again reported to be in full force at Fairfax Court House. Their object of course is to protect their army at Leesburg.

A large number of transports have arrived at Baltimore. Their cargoes are transferred to the railroad as soon as possible.

A Kentucky correspondent of the Cincinnati Gazette says that the rebel General Buchanan is now at the head of a force of 20,000 men, with 30 pieces of artillery, and that the cavalry force is well drilled and formidable, and they must be able now to count not less than a thousand sabres.

An Indianapolis dispatch in the Cincinnati Gazette says that Mr. Strongham, who has been busily engaged in conveying information to the rebels, is in the hands of the proper authorities at Louisville.

St. Louis, Oct. 27.

The following dispatch was received this [illegible] Hannisville, Mo., Oct. 26:

Captain McKeever, assistant Adjutant General, and Major Seagong, at the head of the troops, yesterday afternoon, made a most brilliant charge upon the body of the enemy, drawn up in line of battle at Springfield, 2,000 or 2,300 strong. He completely routed them, cleared them from the town, hoisted the national flag on the Court House, and retired upon a reinforcement which he has already joined. Our loss is not great. This successful charge against such very large odds is a noble example to the army. Our advance will occupy Springfield to-night.

(Signed,) J. C. Fremont.

Washington, Oct. 27.

Lieut.-General Scott to-day received the following dispatch, dated Romney, Oct. 26:

In obedience to your orders, I moved on this place at 12 o'clock last night, attacked the enemy at three o'clock this afternoon, drove in their outposts, and, after a brilliant action of two hours, completely routed them, taking all their cannon, much of their camp equipage, and many prisoners. Our loss is but trifling, but cannot say to what extent.

(Signed,) Brig-Gen. B. F. Kelly,
Commanding.

There are now at least 50,000 rebels in the vicinity of Leesburg, 4,000 men having been sent there from Manassas.

New York, Oct. 28.

The Washington correspondent of the Herald says he has private information that the rebels have sent very large reinforcements to Leesburg, in expectation of a renewal of the attack by our forces on that point, and an immense force has been congregated at Norfolk under the impression that the naval expedition is intended to make a demonstration there.

The rebel army rests at Centreville, and has been liberally drawn from.

The steamers Satellite, Union, Freedom, and others passed by Matthias' Point on the 25th, without molestation, and it is not believed that there is any battery there. Several schooners have passed that point unmolested, and it is believed that the guns there were nothing but flying artillery.

Fort Monroe, Oct. 27.

The sailing of the great expedition has been delayed by a prevalent gale.

Two prisoners of a Georgia regiment were yesterday brought from Great Bethel.

Refugees from Yorktown state that the rebels are in considerable force in that vicinity, and that there are apprehensions of an early attack by the Federal troops. There is a large fleet of transports at Old Point destined for Washington, unable to ascend the Potomac.

New York, Oct. 28.

The Tribune's Washington despatch says that the utmost astonishment and indignation is expressed in all the departments and at the White House, at the publication, by certain New York newspapers, of the details of the Naval Expedition.

A newsboy was arrested yesterday morning by our pickets this side of Fairfax, with a number of copies of the Sunday Times, which were going to market among the rebels.
