OSWEGO
Silver-Gloss Starch,
FOR THE LAUNDRY.

This Starch is manufactured by
T. KINGSFORD & SON, OSWEGO, N.Y.
and is offered to the public as a
PERFECT ARTICLE.

IT is made from INDIAN CORN, without fermentation, is fine and sweet, and may be kept for any length of time without deterioration in quality.
It is now established beyond any doubt, that Starch made from Indian Corn is better adapted for the Laundry than that from Wheat or any other grain. It gives a finer face to the linen, filling the texture of the cloth, and at the same time leaving it comparatively soft and flexible.
But any degree of stiffness can be obtained by using the starch thicker and working it into the linen.
The Starch Works of the Company are by much the most extensive in the World, TURNING OUT DAILY over TWENTY TONS.
By furnishing an UNIFORMLY SUPERIOR QUALITY they have gained the confidence of the public, and now supply the great bulk of the Starch used in the States.
☞ Our article for Dessert, known as
Corn Starch, or Prepared Corn,
is extensively sold in Quebec, and has been received with great favor.
It also takes the place of Bermuda Arrow-Root, to which it is SUPERIOR from its greater purity and delicacy.
☞ *Our Articles are Sold by the Grocers generally.*

SABBATH LABOR.

"Agnew's agony," as some one called a Sabbatarian debate forced on the English Parliament by Sir Andrew Agnew, whom the member for Lambton seems anxious to make serve as his prototype, is over for the Session. Mr. Brown, whose Puritanism never stood in the way of his interest, has been induced, in imitation of Sir Andrew Agnew and some Pharisaical members of the House of Commons, to make a hobby of the sabbath labour question. Ill selected as was the theme of agitation, for it has been tried in England and found ineffective, we own that his success has exceeded his deserts. In the Imperial legislature it was in a careless House that a majority was filched in favor of closing the post offices on Sunday.—Here, obtaining a majority, as to the principle, in the Legislative Council, Mr. Brown procured a moiety of one hundred and six members in the Assembly, and was beaten only by the Speaker's vote. Mr. Sicotte accompanied his decision with remarks which are as sensible as they are praiseworthy. He said:—
I would have no objection to allow the clerks in the public departments to be freed from labour on the Sunday, if the bill merely declared that they should not attend to their duty on that day; but that the bill declares in the preamble a principle which I cannot allow—that the Legislature has a right to enforce on me, that it is the right of every one to rest on a particular day, I must vote in the negative.—It is not the state that has a right to give the right to rest. That is within the will of every citizen to decide for himself. • Another reason which will make me vote in the negative is, the doubt which is apparently in the mind of the Leg

LATEST PROCEEDINGS IN THE PROVINCIAL PARLIAMENT.

(By Telegraph Via Montreal Line.)

TORONTO, June 6th, 1857.

LEGISLATIVE ASSEMBLY.

After the report left last night,—

Several Bills were advanced a stage.—

To-day,—

The following Bills were passed:—To provide for the administration of justice in unorganized tracts of the Province; To better encourage Agriculture and the Mechanical sciences; To appoint attorneys; To incorporate the St. Maurice Railway—; To amend the Trinity House Act of Montreal; To incorporate the Western Canadian Loan Bill; The Bill to establish a Police Force in Quebec was reported from Committee of the Whole.

The second Report of the Committee of Supply was received.

A long discussion ensued, on the adoption of the report of the Committee of Ways and Means.

Mr. Brown moved that the appropriation for the public buildings at the Seat of Government be struck out. Lost—20, Yeas; 63, Nays.

LEGISLATIVE COUNCIL.

In the Legislative Council to-day, the following Bills were passed;—To incorporate the Port Whitby and Lake Huron Railroad; To incorporate St. Hyacinthe; To incorporate the International Bridge Company.

The Municipal Loan Fund Act was reported from Committee unamended.

A Message was read from His Excellency, stating that the House would be prorogued on Wednesday next.

☞ SEE FIRST PAGE.

We learnt, by telegraph, on Saturday that the Legislature will conclude its labors on Wednesday, and that the prorogation will, then take place. The St. Maurice Railway Bill passed the third reading on Saturday, after having been referred to the Railway Committee, before whom, we believe, Mr. Stuart attended, in the interest of the North Shore Company. The Ministry have shewn their sincerity on this question by adopting the bill as a government measure, a course which would have saved some trouble had it been taken at an earlier date. Their conduct contrasts most favorably with that of Mr. Cauchon, who fancies the North Shore project to be synonymous with his own elegant name, and tries to persuade people that he only is friendly to the enterprise. It may be that he succeeds in producing this impression on some who will retain it even after they are made aware that he was absent from the House, on Tuesday last, when the vote was taken on the Attorney General's resolutions, and Mr. Huot's amendment. Messrs. Evanturel and Casault were with him at this crisis, and the former gentleman lost the opportunity of moving the amendment of which he had given notice. The Ministry and the citizens of Quebec know that as long as he was in the Government, Mr. Cauchon was opposed to any special aid to the North Shore, and he did not deny this when recently taunted by Mr. Alleyn on the subject. The Administration have asked for and obtained from the House that assistance, virtually, which the ex-Commissioner of Crown Lands refused to give the project. Their scheme is a most equitable one, and it is to be hoped that the direction of the North Shore Railway Company will promptly avail themselves of the advantages which the grant of lands must afford. The Government could not have departed from the principle that a railway must pass through the lands donated, in favor of the North Shore Company, without extending similar aid to other incorporations. They have done all they could for the North Shore railway, this session, and have satisfied every one of its true friends. So soon as the Act is passed, it only remains for the Company, having an independent board with power to settle the terms of amalgamation, to carry on the enterprise to a successful completion.

THE NEW CUSTOM HOUSE.—Private letters have been received from Toronto, stating that the building of the New Custom House is about to be discontinued. It may not, perhaps, be generally known that the proposed structure, according to the design selected by the Board of Works, has met with the most strenuous opposition from one of the representatives from this district, who was till lately a member of the Government. His views would seem to be adopted by others who are ever hostile to Lower Canadian improvements, and the result is that a suspension of the work will probably take place. The Commissioner of Public Works has always evinced a laudable anxiety to hasten the completion of a structure which will be of more than local importance, but his wishes have been thwarted by the ex-colleague we refer to. The appropriation of £20,000 granted by Parliament towards the erection of the Custom House has already been paid to the contractor, who has done work, we learn to the amount of £27,000. There is no sum included in the Supplementary Estimates to continue the building, though it is known that £32,000 more will be required for that purpose. The design chosen by the Executive Government, and approved of by the very Minister who afterwards opposed the carrying out of the work according to that plan, involved an estimated cost of £45,000, but the contract was made for £39,000. The contractor, we are assured, has proceeded with the work so far, in a most satisfactory manner, and has on the spot all the requisite materials to complete the building. He will, therefore, be a heavy sufferer by the discontinuance of the work, and will be out of pocket several thousands of pounds. His recourse, however, is evident, and will, no doubt, be suggested to him by Mr. Alleyn, M. P. P., who is one of his sureties.—Not so amenable will the individual be made who has secretly produced this state of affairs, and caused the Government to perpetrate an injustice to Quebec which must excite but one feeling of indignation.—Mr. Lemieux has earnestly striven to ensure the erection of such a Custom House as Quebec should have, and, we are told, has been ready even to sacrifice his place in the Cabinet rather than abandon the proposed building. We wish the improvement had received equal support from Colonel Taché, and the selfish member for Montmorenci would then have been less successful in arresting the completion of the work. We are glad to perceive that Mr. Stuart has given notice of an inquiry on the subject, in the House of Assembly.

THE JUDICATURE BILL.—Mr. Attorney General Cartier's Judicature Bill has passed through its several readings in both Houses of Parliament, and now only awaits the sanction of the Governor General to become law.

SAILING OF THE ANGLO SAXON.—The steamer *Anglo Saxon* sailed from this port on Saturday forenoon at 10 o'clock, for Liverpool. She takes out 191 passengers, and $1348 in specie. Among the passengers, a complete list of whom will be found in another column, are Dr. Morrin, Mayor of Quebec, delegate to London on the Seat of Government question, and Hon. Mr. Murney, member of the Legislative Council for Trent, C. W.

S.S. CANADIAN.—The telegraph reports that the steamship *Canadian* was lightened on Saturday. It is thought she will be got off to-day, with the assistance of a tug steamer.

Hon. Mr. CAYLEY, in answer to Mr. HOLTON, stated in the House, on Wednesday, that the government were in communication with the Atlantic Telegraph Company, but that, not having sufficient information on the subject of the enterprise, they could not say what course they would adopt in reference to it.

CHURCH OF ENGLAND.—The Lord Bishop of this Diocese will hold the usual Triennial Visitation next Thursday, when the Clergy from all the out stations of the Quebec diocese, together with those in the city and vicinity, will assemble in the Cathedral church.

GARRISON OF QUEBEC.—The 30th Regiment are under orders to proceed from Gibraltar to this garrison, and may be expected here very shortly.—Military *Gazette*.

A WEEKLY PARADE of a portion of the Troops in garrison will be held on the Esplanade throughout the summer, every Friday, at ten A. M. that day being chosen by the General for the trooping of the Guards.—*Ib*

BISHOP OF KINGSTON.—We are sorry to learn from the *Courrier du Canada* that Bishop Phelan, of Kingston, is dangerously ill.

Among the arrivals at Donegana's we notice the name of Mr. Lampson, an eminent American London merchant, director of the Transatlantic Telegraph Company, who is accompanied by his family.—Montreal *Gazette*.

KINGSTON AND THE SEAT OF GOVERNMENT.—The possibility of the Seat of Government being placed at Kingston has somewhat aroused that old Town from its usual torpid state. By way we suppose, of making "assurance doubly sure" it sends, we learn from local papers, two delegates to the Queen to support its claims. J. R. Forsyth, Esq., and Thomas Kirkpatrick, Esq., two Barristers, whilst a third, Mr. C. W. Cooper, the writer of the Prize Essay on Frontenac, Lennox and Addington, has been engaged to "get up the case" for Kingston. Mr. Cooper has, we have reason to know, been devoting himself to the task with a great deal of zeal, but we doubt much that he will prove the successful Essayist this time, and we trust that his reward is not contingent on the selection of Kingston as the Canadian Capital; if so, he will perhaps fare worse than in taking his prize money out in Essays.—Toronto *Colonist*.

The Toronto *Leader* remarks:—

"The striking feature of novelty in Mr. Vankoughnet's Agricultural Bill, now before the Legislative Assembly, is the provision for the establishment of '*Boards of Arts and Manufactures*.' One of each of these corporate Bodies, is to exist in either section of the Province; and to be composed of the Minister of Agriculture, for the time being; of the Professors and Lecturers of Physical Science in all the chartered Universities and Colleges, the President of and one delegate from each of the Boards of Trade, and the Presidents of and delegates from each of the incorporated Mechanics' Institutes, or of any incorporated Arts Associations having certain qualifications named in the Bill. The delegates to be chosen annually, for the regulation of whose election provision is also made in the 24th section. The duty of these Boards is to collect and establish at Toronto and Montreal respectively, Museums, Model rooms, and free Libraries of reference, containing books, plans and drawings, conducive to the advancement of mechanical art. Power is also given to the Minister of Agriculture to cause duplicates of models, plans, &c., of inventions deposited in the Patent Office, to be placed in the Museum or Model-rooms; and provision is also made for the formation of Schools of Design for women."

The determination of the Canadian Banks to commence the next year by the adoption of the decimal currency, and the keeping of accounts in dollars and cents, will be followed by similar action on the part of the mercantile community, and shortly by the whole Province. The ease and simplicity of the system must finally overcome all prejudices, and conquer the adhesion of all civilised nations, becoming as general as the Roman Alphabet, and Arabic Numerals.

Nor is any immediate change of coin necessary here except the substituting of a cent for the half-penny now in use. Our paper currency recognises the dollar, and the conversion of the silver and gold coins in use into their recognised equivalents is simple, and will be rapidly learned by the people who are from their knowledge of American coins and their English representatives, already prepared for the change.

The adoption of the decimal system in the United States has not destroyed the traditional denomination of coins formerly in use; the cent in many States is still called a penny; and the shilling survives under various values, five, six and eight to the dollar, long after the coins which bore the name ceased to exist. So in Canada our cent of account may still be called a penny by the masses, and the shilling endure as the fifth part of a dollar, long after the record of them has passed out of the books of the merchant and the teachings of arithmetic; as the terms guinea and groat endure in England, and the penny and shilling survive in the United States.—Montreal *Commercial Advertiser*.

We have full particulars of the dreadful election riot at Washington, on Monday. The precise number of the killed and wounded is not yet known, but at least half a-dozen are dead, and an equal number very seriously wounded. During the miscellaneous disturbances of the morning, an infant child was killed, and at the firing in the afternoon, the man who killed it was himself shot in the neck by the marines. The real villains in the disturbances seem to have mostly escaped unhurt, not more than two or three of the leading rioters being killed or wounded. The rest were innocent, or half-innocent parties, eager to see what was going on, and placing themselves, therefore, in the midst of the fray. The worst feature of the affair seems to be that the original disturbers of the peace were encouraged and invited to their work by the Know-Nothing party of that city, which now takes their side, and denounces the authorities for their recourse to soldiers to put them down. The issue was between the Know-Nothings and the anti-Know-Nothings, and the latter were largely triumphant.

BRIGHAM YOUNG TO BE SUBDUED.—The Washington correspondent of the New York *Courier & Enquirer*, under date of June 2nd, says:

"The force destined for the conquest and reannexation of Utah will consist of about 2500 men. It will probably be under the command of General Harney. The command will concentrate at Fort Leavenworth as soon as practicable, and will move westward as soon as the subsidence of the June floods renders the passage of the rivers practicable. Col. Sumner and the 2nd Dragoons will accompany the expedition. The arrangement of the details of the movement is made by Gen. Scott, who says if he were young enough he would prefer the service himself."

(Correspondence of the New York Times.)

WASHINGTON, June 3.—Lord Napier has officially denied the report of the cession of an island by New Granda to Great Britain.

W. R. C. Webster, on behalf of Costa Rica and Nicaragua, and C. K. Garrison on the part of Garrison & Morgan, have preposed to this government and Lord Napier some plan of arrangement touching the conflicting interests of the Nicaraguan Transit Co., and indirectly involving the settlement of the Central American question. The plan is well thought of by the Administration. The Government will receive any representative the power now existing in Nicaragua may accredit to Washington.

PLAIN SPEAKING.—The Earl of Oxford, in reply to the application of the Secretary of the Norrwich (England) Bible Society, that he would preside at their late annual meeting, wrote as follows:—

"Sir—I am surprised and annoyed at the contents of your letter: surprised, because my well known character should have exempted me from such an application—and annoyed, because it obliges me to have this communication with you. I have long been addicted to the gaming table, I have lately taken to the turf, I fear I frequently blaspheme, and I have never distributed religious tracts. All this was well known to you and to your society; notwithstanding which you think me a fit person for your President. May your hypocrisy be forgiven, but I would rather live in the land of sinners, than with such saints.

I am, &c., OXFORD."

The London *Canadian News* says that a company has been established at Liverpool under limited liabilities, to trade in grain in Canada, and other parts of British North America, and to purchase boats and ships for that purpose. The capital is £18,000, in thirty-six shares of £500 each, of which thirty-four are taken up.

NOTICES OF MOTION.

Mr LEBOUTILLIER—Address to his Excellency the Governor General, praying him to be pleased to authorize a grant to be made either to a Company or to a person owning Steam vessels, to enable a steam vessel to pay twice a month between the Ports of Montreal, Quebec, Gaspé, Paspebiac, Shediar and Pictou, in order to unite the trade of the neighboring Provinces and the Fisheries in the Gulf with our inland markets.

Mr. STUART—Enquiry of Ministry, whether it be true that the building of the new Custom House at Quebec has been or is about to be discontinued from any and what cause; and if so, whether such discontinuance is owing to negligence or error committed by any person and whom, and whether a loss to any and what amount is likely to be occasioned thereby to the Province, and what course the Administration intend to take to ensure the future erection and completion of the building?

Hon. Mr. LEMIEUX—Committee of the Whole to consider certain Resolutions relative to the Quebec Turnpike Roads at Quebec, and the issuing of Debentures by the Trustees—and also to the raising of the Tolls and the giving up of certain of the said Roads.

The St. John New Brunswick, correspondent of the Montreal *Herald* writes:—

It is reported here, and, indeed, I have it on the authority of a member of the Legislative Council of Nova Scotia, that the Hon. Joseph Howe, formerly a recruiting sergeant for the British army in the United States, and a *dear* friend of Gov. Hincks, is to be appointed to the Governorship of this Province, and I have every reason to believe the report correct. At any rate, the British Government have intimated to Mr. Howe their intention to do something for him in that line.

The fisheries, up to this time, have been highly successful, more Gaspereaux and Shad having been taken in the present than for many preceding years, and many of the fishermen have reaped a golden harvest. The Shad, as a whole, are of the best kind, and sell, singly, from 1s. to 1s. 6d. As many as 400 or 500 have been taken in a single haul.

Ship-building is being prosecuted with unusual vigour, and nothing daunted by the low rates of freight in the American markets, our builders are launching some beautiful vessels. Whether they will meet with remuneration or not remains to be seen.

The Attorney General of Newfoundland has gone home as a delegate to secure direct mail steam communication to that Island from Great Britain, for which purpose £7,000 sterling per annum was voted by the Legislature at the last session.—*Halifax Journal*.

We find the following letter in the Liverpool *Times*:—

(TO THE SHAREHOLDERS OF THE GRAND TRUNK RAILWAY.)

Gentlemen.—As there appears to be a general accord in Canada for granting effectual aid to the Grand Trunk Company by the two bills introduced by government, which in addition to the money aid, will confer an al most equal boon in placing the Board of Directors entirely under the control of the shareholders, I would suggest to the Liverpool Shareholders the necessity of calling a meeting to consider what steps should be taken to secure a Liverpool Seat at the London Board, and also proper persons to fill the vacancies in Canada. The resident directors at Montreal appear to be too many, according to all Canadian accounts, while Quebec is without representation at the Board. During the construction of the French railways in which Liverpool capital was embarked, the shareholders were kept regularly informed of the progress of the works, and the monthly expenditure: surely the Montreal Board could append a short report to traffic returns sent to the Stock Exchange, which would explain the inequalities during winter, caused as we gather from the newspapers by snow storms, and other obstructions; for instance the breaking up of the Ice Bridge at Montreal will temporarily stop the transit of goods, a most important item in the traffic; this has been the case in the return of the 11th April, and no doubt, will continue to be so in the returns for the following two weeks, until the Ferry is open for the railway boats conveying the cars across from Longueuil to Montreal. Possibly no representations on this subject have hitherto been made to the board, as public attention has been more directed to the progress of the line to London and the completion of the Victoria Bridge, when the traffic will have a fair chance of being developed in its fullness, at present the line is a broken one, and not yet thoroughly ballasted between Brockville and Stratford, and with only rolling stock to convey a tithe of the traffic offering

THE SOUTHERN RAILWAY.

PETITIONS FROM ESSEX AND KENT.

The following petitions have been forwarded from Mr. Rankin's constituents in the County of Essex, and from Howard, in the County of Kent, to the House of Assembly, in reference to that hon. member's proceedings connected with the Great Southern Railway.—

To the Honorable the Legislative Assembly of the Province of Canada, in Parliament assembled,

The Petition of the County of Essex,

Humbly Sheweth—

That the Amherstburg and St. Thomas Railway Company was incorporated by an act of Your Hon. House, and that Arthur Rankin, Esq., (member for the County of Essex) one of the members of Your Hon. House, was named as one of the Provisional Directors of the said Company by the said act.

That the said Arthur Rankin, while a member of Your Hon. House, and also a Provisional Director of the said Amherstburg and St. Thomas Railway Company, did, as Your Petitioners are informed and verily believe, on or about the third day of July, A. D. 1856, corruptly enter into an agreement with the late Samuel Zimmerman, by which he was to receive £25,000, or contract worth that amount, at least, for his services in procuring a contract for the construction of the road for the late Samuel Zimmerman, and for his using his position as a member of Your Hon. House in favor of the said Samuel Zimmerman; and Your Petitioners believe that the said Arthur Rankin did, while a member of Your Hon. House and a member of the Provisional Board of Directors of the Amherstburg and St. Thomas Railway Company, corruptly and improperly, and to the great scandal of Your Hon. House, agree to sell his position and influence both as a member of Your Hon. House and as a member of the said Board of Provisional Directors, for money or for its equivalent.

Your Petitioners further state that after the said Arthur Rankin had entered into the said agreement with the said Samuel Zimmerman, some time about the month of July last, he opened up negotiations with Mr. Isaac Buchanan, and offered to sell himself, and the influence of his position as member of Your Hon. House and of the said Railway Company to the said Isaac Buchanan for money and other considerations.

Your Petitioners further state, that after death of the said Samuel Zimmerman, the said Arthur Rankin, then being President of one of the Boards of the Amherstburg and St. Thomas Railway Company, and also a member of Your Hon. House, offered, upon having his agreement with the said Samuel Zimmermann carried out, by which he was to receive at least £25,000, to assist in bringing out the proposed amalgamation between the Woodstock and Lake Erie Railway and Harbor Company and the Amherstburg and St. Thomas Railway Company, and to agree to the existing combinations under Mr. Buchanan, threatening at the same time that unless this aim was secured he would use his position as a member of Your Hon. House to defeat Mr. Buchanan's scheme;

Your Petitioners would further state that they verily believe, that through the claims made by Mr. Arthur Rankin on the estate of the late Mr. Samuel Zimmerman, and which in fact, if paid, must be paid by the two railway companies, and form a charge on the scheme, and from his having introduced a bill into Your Hon. House to incorporate a company to construct a southern railway, independent of the existing lines, by the amalgamation of which alone the road can, in the opinion of your Petitioners, be constructed, the money invested by the Corporation of Woodstock and the other municipalities will in all probability be lost, and Your Petitioners seriously injured;

Your petitioners further state that the conduct of the said Arthur Rankin in selling his influence and position both as a member of your honorable House and of the Provisional Board of Directors, to procure a contract for Mr. Samuel Zimmerman, for a money consideration or its equivalent, and his offer of a similar nature, made in the same month, to Mr. Isaac Buchanan; and his subsequent negotiations, through Mr. Vansittart; and his threats to prevent the carrying out of the Road, if his claims were not paid is unworthy of any member of your Honorable Body, and will greatly tend to lessen the confidence of the people of this Province in your honorable House, unless a thorough investigation is made into the conduct of the said Arthur Rankin; and if the charges made are fully substantiated, as your Petitioners verily believe they will be, he be suitably dealt with by your honorable House;

Your Petitioners, therefore, humbly pray that the said Arthur Rankin may be put upon his trial, with a view to his immediate expulsion from your honorable House, if found guilty of the said corrupt practices.

And your Petitioners, as in duty bound, will ever pray.

(Signed,) JEAN BTE. MAINVILLE,
WILLIAM C. LAMARCHE,
HENRY S. WIGLE,
J. W. MALOTT,
HENRY FOX,
and 476 others.

County of Essex, 26th May, 1857.

To the Honorable the Legislative Assembly of the Province of Canada, in Parliament assembled.

The Petition of the Undersigned Inhabitants of the Township of Howard, in the County of Kent,

HUMBLY SHEWETH:—

That your Petitioners, residing along and near the line of Railway, as projected between the towns of St. Thomas and Amherstburg, have observed with great concern and regret, that hitherto every measure tending to the completion of the said Railway, has been thwarted through the contrivance and intrigues of a party, headed by the Honorable Member for Essex, who, though having no rightful interest whatever in its progress, has interfered from time to time, and at all times during the last year, and intrigued so as to obtain over it an almost entire control, to the diriment of the extensive part of the country through which the said road is to pass, to the demoralization of the public and the promotion of the present pecuniary gains of him, the said member for Essex, by extolling his personal and Parliamentary influence, and offering the same for sale at various prices, bids and bribes. Your petioners humbly submit that the construction of said Railway should no longer be permitted to remain in abeyance to suit the selfish designs of the party so headed by the said member for Essex. Your petitioners have observed with great alarm that the said member for Essex has introduced into your Honorable House a bill, having for its object, as your petitioners verily believe, the embarrassment to the interest of the already existing charters for a line of connecting Railways from the Niagara Frontier to the River Detroit, of which said line, the said St. Thomas and Amherstburgh Railway, forms a link, and further to enable the said member for Essex to sell such charter, so sought to be obtained as aforesaid, together with his Parliamentary influence to any party as unscrupulous as himself.

Your petitioners, therefore, humbly pray that your Honorable House will not pass the bill introduced by the said member for Essex, intituled the Great Southern Railway Bill, as it would embarrass as aforesaid the completion of the said St. Thomas and Amherstburg Railway, and give effect to and countenance the most shameless bribery and corruption ever brought to the knowledge of your petitioners as having been attempted and publicly acknowledged in any constitutionally governed country, and your petitioners will ever pray.

M. SCOTT, J. P., and 44 others.

(From Farnworth & Jardine's Timber Circular.)

LIVERPOOL, May 21, 1857.

As usual at this period of the year, the import from the British Colonies is almost nominal. The past month has been characterised by extreme dullness throughout, and the consumption has been on a very reduced scale. The aggregate stocks are in excess of previous years, and sales very difficult to effect.

COLONIAL WOOD.

Pine Timber.—Quebec Pine.—The stock of this article is about the same as last year, viz., 950,000 feet. In the early months of the year the consumption was large, but during the last month there has been a marked falling off. No sales in cargo to note

Red Pine.—A parcel of 40 feet average, an old import, has been sold under 19d per foot.

Oak.—The market is nearly cleared; the few sales making are by retail, at extreme rates, and are no criterion as to value of coming imports.

Elm sells by retail at 22d to 2s 3d per foot.

Ash is considerably reduced in stock, but still sufficient for the demand.

Quebec Deals are very low in stock, and for the time command full rates.

Quebec Staves are scarce, especially Puncheon, and sell by retail at high rates.

We publish as a great curiosity the following characteristic letter, received by our friend Dr. J. C. Ayer, of Lowell, Mass. from the "Rebel Chief" or usurping Emperor of China, in acknowledgment for quantities of his Cherry Pectoral and Cathartic Pills, the Doctor sent him as a present.

To DR. AYER in America—

the great curing Barbarian of the outside country.

Your present of sweet curing seeds (*Pills*) and fragrant curing drops, (*Pectoral*) of the Cherry smell, has been brought to Hug-seu-Tsene—the mighty Emperor (Kwangto) of the terrible stout Ming dynasty, by the grace of heaven revived after an interval of ages—Prince of peace (Ta-ping-wang) of China the central flowery land. He directed his powerful mandarines to give them to the sick according to what the intepreters read from your printed papers (directions.) Be profoundly happy, O wise Barbarian! for I, Yang-seu-Tsing, say it. Your curing seeds and sweet curing drops were given to the sick in his army of the Winged-Sword, and have made them well. Be profoundly happy while you live for this is known to the Mighty Emperor of China, who approves your skill, and permits you to send more of your curing medicines for fierce armies of myriads of men.

They may be given to Chiang Lin, Chief Mandarin of the Red Button at Shanghai, who will repay you with Tea, or Silk or Gold.

The high Mandarins of China have heard of your great knowledge, surpassing all other Foreigners, even aspiring to equal the keen wisdom of our own healing teaching, who make remedies that cure instantly. We are glad to know you bow in trembling terror before our Mighty Emperor.

Written by YANG-SEU-TSING,
Minister-in-Chief of the restored Imperial Ming Dynasty, destined by the heavenly wisdom to rule in China.

Another Instance of Tape Worm Cured by the use of.

DR. M'LANE'S CELEBRATED VERMIFUGE

PREPARED BY FLEMING BROS.

NEW YORK, October 15, 1852.

☞ This is to certify that I was troubled with a tape worm for more than six months. I tried all the known remedies for this dreadful affliction, but without being able to destroy it. I got one of Dr. M'Lane's Almanacs, which contained notices of several wonderful cures that had been performed by his celebrated Vermifuge, prepared by Fleming Bros. I resolved to try it; and immediately purchased a bottle, which I took according to directions; and the result was, I discharged one large tape worm, measuring more than a yard, besides a number of small ones.

MRS. M. SCOTT,
No. 70 Cannon street.

☞ Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS. of PITTSBURGH, PA. All other Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. None genuine without the signature of

THE GREATEST DISCOVERY OF THE AGE.—It seldom occurs that we notice, under any circumstances, patent medicines, restoratives, or anything of the kind, for we have a prejudice against most of them. But candor compels us to invite attention to the advertisement of Prof. Wood's Hair Restorative in the last column at the bottom of the third page of this paper. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which almost assure us that it is a sovereign remedy against the hair becoming prematurely gray. It is not a "Hair Dye," but upon its application as directed, the effect is produced on the skin, which brings out the original, native colored hair, without stiffness, and gives it a glossy and natural appearance. We have seen persons who have used it, and they are much pleased with it. Examine the advertisement.—Missouri *Republican*.

☞ We advise those of our friends in a state of single blessedness who would win the idol of their hearts, and enjoy that domestic felicity known only to those in married life, to restore the hair on their bald pates, change their grey locks to their original color, make them glossy as silk, by using Professor Wood's Hair Restorative. It is now the standard remedy for all diseases of the hair and skin.—Ohio Statesman.

A RETIRED PHYSICIAN.

Whose sands of life have nearly run out, discovered while in the East Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and General Debility. The remedy was discovered by him when his only child, a daughter, was given up to die.—He had heard much of the wonderful restorative and healing qualities of preparations made from the East India Hemp, and the thought occurred to him that he might make a remedy for his child. He studied hard and succeeded in realising his wishes. His child was cured and is now alive and well. He has since administered the wonderful remedy to thousands of sufferers in all parts of the world, and he has never failed in making them completely healthy and happy.

Wishing to do as much good as possible, he will send to such of his afflicted fellow-beings as request it, this recipe, with full and explicit directions for making it up, and successfully using it. He requires each applicant to inclose him one shilling—three cents to be returned as postage on the recipe, and the remainder to be applied to the payment of this advertisement.

Address
Dr. H. JAMES, No. 10 Grand street, Jersey City, N. J.

N. B.—Dr. H. James has neither office nor Agent in New York, as some have pretended and advertised. The recipe is sent from NO PLACE but No. 19, Grand street, Jersey City, N. Jersey.

CHOLERA.

A Certain Cure for this Disease may be found in the use of

PERRY DAVIS' VEGETABLE PAIN KILLER.

DUBUQUE, Iowa, May 5, 1855.

GENTLEMEN:—I feel under obligations to you for the benefit I have received from your invaluable Pain Killer. A few days since I assisted in laying out and burying one of our citizens who was supposed to have died with the Cholera. The next morning I was taken with severe vomiting, accompanied with coldness of the extremities. Warm covering and hot applications failed to restore warmth. My wife's family, who had used the Pain Killer with success during the Cholera season in Buffalo, in 1849 advised me to take it. I took two doses at intervals of fifteen minutes; a fine perspiration ensued, and the next day, barring a little weakness, I was well, and have been since. Since my recovery I find that several of our citizens have used the Pain Killer as a remedy for Cholera, pronouncing it good. I therefore take pleasure in recommending it to a still more extensive notice.

Australia Pioneer Line,

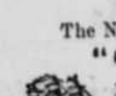
ESTABLISHED 1852,

Carrying the United States Mail.

SAILING POSITIVELY ON THE DAY ADVERTISED.

The Noble A 1 Clipper Packet Ship

"CONTINENT,"



1,032 Tons Register, Gibbs, Commander, will succeed the RAMBLER. Sails JULY 1st, and day of Sailing guaranted.

The Continent was built in 1851, of Virginia Live-Oak, coppered and copper-fastened; insures at the very lowest rates, and is, in every respect, a model Passenger Ship. She is a three-decker, with a flush promenade deck fore and aft. The Saloon is fitted up with all the modern improvements; the State-rooms are unusually large. The Second Cabin is also fitted up with State-rooms for families, and arrangements for light, ventilation and cleanliness, that cannot possibly exist in the between decks of a two deck ship. Persons who have already crossed the Atlantic, will appreciate this. The management of the Pioneer Line for the past five years, is its best recommendation, and the fact that no accident has occurred, and not one claim made on the Underwriters; also that the two shortest passages from this country, 74 and 76 days, have been made, is a proof that none but good Ships and able Commanders are employed. The Rates of Passage are the same as charged by BAINES & Co., Black Ball Line, from Liverpool, and are as low as can be afforded, consistent with the requirements of the Passengers. The provisions are as heretofore, of the very best quality. Second-class Passengers are furnished with fresh Bread not less than three days in the week. The Continent will carry an experienced Surgeon.

Rates of Passage:

Children in arms, free; over two years and under twelve, half-price.

First Cabin Saloon, - - - $200.
Second Cabin State-Rooms, - $120.

A few Berths in Second Cabin, for $100.

Second-Cabin Passengers furnish their own Soap and Towels, all other requisites furnished by the Ship.

Rate of Freight, $10 per ton. For Freight or Passage, apply to

☞ THE PRESIDENT, VICE-PRESIDENTS and DIRECTORS ARE ALL INSURED IN THE SOCIETY.

1. Character and Standing—The Noblemen and Gentlemen who form the Board of Direction of this Society attest their high opinion of its soundness and liberality and of the positive pecuniary advantages secured to its members by *insuring their own lives in the Society* and by presiding over the management of its affairs.

2. Certainty of Final Payment.—Every consideration is made subordinate to the perfect security of the Assured. It is the paramount object of this Society that seventy or eighty years hence Policies shall be as promptly paid as they have been for the last thirty years of its existence, and the safe and satisfactory character of the investments will be found detailed in the 3rd Septennial "Investigation" Pamphlet, published and distributed by numerous agents of the Society, which is neither a secret nor a Proprietary Association.

3. Important Reduction of Premiums.—From the pamphlet referred to information will be obtained as to the large profits of the Society, *all belonging to the assured,* from an application of which for the future, as fully explained in page 29, has been framed a Table of Premiums unprecedentedly low. For instance, (table A C) a person aged twenty may secure £100 at death by the annual payment of £1 8s. 6d.; were his age thirty, he should pay £1 16s. 7d; if forty, £2 9s. 7d.; if fifty, £3 10s. 9d.; if sixty, only £5 7s. 2d., and proportionate premiums for intermediate ages. Under the table the £100 is insured if the additions declared during the currency of the Policy are greater than at the rate of 1½ per Cent., or diminished if less. *The rate has never been less* and at the last *two* investigations *exceeded* 1½ per Cent. A Life Insurance for one year will cost £1 5s. 6d. for £100 at age 40.

4. Amount of Business.—The outstanding Assurances exceed TWO MILLIONS and A-HALF STERLING. A number of the most respectable citizens of Quebec hold Policies, or are insured in the Society.

5. Proposals entertained for Assurance of any *contingency* depending on human Life. Various modes of payment of premiums to suit the Assured.

NEW LIFE.—"God bless it! it will never be forgotten! As soon as RADWAY'S RELIEF was given, and an application of it made to his bruised and mangled body—all pain and uneasiness ceased, and a new life was infused within his system."—T. D. Spring's Letter of Lacyville, Pa.

Expressions of thankfulness coming from the souls of those whom our Remedies have restored life, is a source of pleasure to us beyond all earthly blessings. On the receipt of every new letter of thanks, from a recovered invalid, who through the efficacy of Radway's Ready Relief, Regulators and Resolvent has been raised from a bed of pain, misery and long sickness, and restored to the enjoyment of redolent health—we feel that our efforts have not been fruitless, and the angel of truth with healing on its wings, will not knock at the gate of Paradise in vain. The case we refer to above is truly astonishing, (no one who knew Spring thought he could live) —but no more so than many other miraculous cures, performed by those Remedies, even when death had seized the patient, their use have restored the death-stricken back to new life.

RADWAY'S READY RELIEF.

There is no pain so severe, no disease so acute, no pestilence so terrible and fatal but that the Ready Relief will check, cure and prevent. This remedy has been proved to be both a quick cure and positive preventive of cholera, yellow fever, ship fever, Dysentery, Fever Ague, Scarlet Fever, Small Pox, and all malignant and dangerous diseases. Its quickness in stopping pains, allaying inflammations, soothing the most terrible paroxysms of acute and inflammatory diseases, and the rapidity with which it checks sudden and violent attacks, and restores the whole system to the enjoyment of ease and comfort, renders it a blessing to all who live in places where medical aid is difficult to obtain.—Every family should keep Radway's Ready Relief in their houses. If in the night you are suddenly seized with pain, aches, or sickness of any kind, either in the head or bowels, stomach, nerves or any other part of the body, a dose of Radway's Ready Relief will in a few moments relieve all pains and uneasiness.

SNAKES—DOGS—CATS.

If you are bitten by a rabid dog, or scratched by a spiteful cat, stung by a venomous snake, or other reptile, Radway's Ready Relief poured into the wound will neutralize the poison, and prevent inflammation or mortification taking place. It has saved the lives of many hunters who have been stung by snakes, and other poisonous reptiles.

THE AGED.

All Infirm weak, feeble and nervous, will derive lasting blessings from the use of the Ready Relief. The stiff jointed, cripple, and Rheumatism will become supple, elastic, strong and vigorous, in every limb and joint of the body by its use.

MOTHERS.

If you will resort to Radway's Relief or Regulators, when your children are taken sick, with Croup, Measles, Whooping Cough, Scarlet Fever, or bowel diseases, or other complaints, you will save the lives of your children. Radway's Ready Relief imparts new life, new strength into the weak, feeble and diseased body. Keep this in mind, and do not let your children die. Radway's Remedies will save them, if it is in the power of human agency to do so.

RADWAY'S REGULATORS.

A THOROUGH PURGATIVE—NEW MEDICINAL VEGETABLES

Form the basis of Radway's Regulators:

A good Appetite, a healthy digestion, a correct action of the heart, a sound stomach, a pleasant regular discharge from the bowels, a pure and sweet breath,

is secured to all who will take one or two of Radway's Regulators once or twice a week. The Weak grow strong, and the Lean, Fat—the Nervous, Fretful and Gloomy, are changed to a strong condition of body, and a happy flow of spirits. All who take them are delighted with their operation. All the good derived from the use of other pills, are secured by the use of Radway's Regulators, without entailing the evil effects of common drastic pills upon the system.

The Discovery of these Wonderful Pills establishes a new era in purgatives, and a new principle in the science of medicine. In taking these pills no griping pains or sickness in stomach is experienced; they operate naturally, leaving the bowels, liver and other organs in a natural and healthy condition.

Each pill that is taken gives new life to the blood; they purify it, take from it all impure deposits and equalizes its circulation.

One or two doses of Radway's Regulators will entirely remove all distressing symptoms of Dyspepsia, Jaundice, Nervousness, Indigestion, Costiveness, Liver Complaint, Billiousness, Melancholy, and will cure all organic diseases either in man or woman. Ladies troubled with irregularities or weakening discharges, may rely upon a prompt cure and regular periods if Radway's Regulators are taken.

PICTURE OF HEALTH AND BEAUTY.

A few doses of Radway's Regulators will insure a clear, fair, pure and healthy skin and a rosy complexion. They give to those troubled with weak, dull, yellow eyes, a brilliant appearance. Radway's pills give natural beauty to the face, eyes and head; and the use of the Ready Relief as a wash for the teeth and an aromatic for the breath, will change the most discusting foul breath to sweetness, and the blackest teeth to Parian whiteness.

One to ten of Radway's Regulators is a dose; they never do injury, but always do good.

RADWAY'S RENOVATING RESOLVENT,

for the cure of chronic disease, Scrofula or Syphilitic, Hereiditary Contagious, be it seated in the lungs or stomach, skin or bones, flesh or nerves, corrupting the solids, or vitiating the fluids.

Cures Humors, Salt Rheum, Scrofula, Ulcers, Nodes, Tumors, Fever Sores, Skin Eruptions, Blotches, Bronchitis, Dyspepsia, Gout, Dropsy, Syphilis, Consumption, Apoplexy, &c.; and all constitutional and Chronic Diseases, either inherited by hereditary transmission or inoculated by exposure or otherwise.

There is no remedy in the world that will work such miraculous cures in old diseases as Radway's Resolvent. It changes the whole human body—reproduces new and healthy blood.

☞ Bleeding from the lungs—Radway's Renovating Resolvent will in a few minutes check Hemorrhage from the lungs or throat. In cases where the patient coughs up clots of blood or pus streaked with blood Radway's Resolvent will soon remove the difficulty.

☞ Sarah Hammond, of 198 East Thirty-second street, had a bad cough for two years.—She coughed up sometimes half a pint of blood during the night. She was cured in seven days by the Relief and Resolvent.

☞ A sore leg of 21 years, cured in three weeks, by Radway's Relief. Mr. T. H. Kilgo, a merchant of high standing in Dahlouega, Ga., says:—"That a gentleman, who for 21 years had been afflicted with a sore leg, that resisted every kind of treatment, was effectually cured in three weeks by Radway's Ready Relief, Resolvent and Regulators.

The sick will please read our Tabular Almanack for 1857, and our newspaper called "The Moving Wold." for interesting cases of cure, and a more thorough explanation of our Remedies.
