The usual quiet generally ...noted on the gallery of one's ...me was practically foreign to Mr. ...ordonsmith and the members of his ...household for, instead of the accus... ...tomed restfulness, there was, with the passing of the Quinlan engines, a huge volume of black smoke, the rumble of heavy waggons, the puffing and snorting of grinding machinery used as the motive power in transporting these detested trailors through residential Westmount.

In cross examination by Mr. Rinfret, Mr. Gordonsmith said that he knew the Quinlan engines and trailers with the contractor's name prominent on the latter. They had been going through the avenue since a little after the time of its opening, and the witness told of how he had to write to the Mayor of Westmount to have the watering carts sent over the road more than twice a day. The action was compelled by the smelling smoke scattering engines of which he, with others of his neighbors, had just cause for serious complaint. He told how these detested engines were a far greater nuisance than the regular auto traffic of his community.

There were sometimes three trains of these complaint-causing cars on the street at the same time. They travelled at a pace which could be considered anything from slow to the point of rapidity where a maximum of vibration was felt throughout the district as the trains trundled on. In concluding he said that there was one particularly objectionable engine whose every move brought consternation to different localities of Westmount.

SOOT AFFECTS THE HOUSEHOLD WASHING.

The evidence of Mr. James P. Anglin, contractor of 317 Claremont avenue, was next proceeded with, when besides corroborating the principal points in Mr. Gordon Smith's evidence, he drew attention to the fact that an engine with five or six trailers caused an unusual traffic. His family had suffered specially from the effects of the soot from the Quinlan engines, and very often the household washing suffered seriously. He concluded by causing a smile amongst those in court when, being asked about the nuisance caused by the hauling of blue clay he made the wide statement that 'the hauling of blue clay is the worst thing there is.' Mr. Anglin thought the Quinlan engines gave out more smoke than the city's steam rollers; that this smoke could be reduced; and to help this along, coke might be used for fuel.

Mr. John Ralph of 350 Claremont avenue, told of the vibration of the Quinlan engines being apparent in his house, and the nuisance of the smoke they gave out.

Mr. Edward Hamilton, 373 Claremont ave., Westmount, who has cause for complaint, told the court that the noises which disturbed his household, and which were caused by the Quinlan traction engines and trailers, could be heard a hundred yards from his home. Cracks in the ceiling of his house had been caused from this vibration.

Mr. Alex. Grant added a new point by stating that even the furniture in his house was being damaged by the smoke and dust which the Quinlan machines made. 'It is an absolutely unsympathetic and unjust state of affairs,' Mr. Grant concluded, 'and if these traction engines and trailers had been dumped into a field by the outraged people the action would have been perfectly all right.'

Dr. E. E. Simard, 369 Claremont avenue, gave evidence that his house windows had to be kept closed when these engines were in the vicinity if fresh air in the house was to be obtained next morning. His house also had cracks in it caused by the vibration complained of. Amidst laughter he wished that Quinlan's cars be kind enough occasionally to go down another street.'

REGULATION OF TRACTION ENGINES.

Evidence of a generally similar character to that given by these earlier witnesses was also proffered by Mr. Charles Overing, Mr. Wm. Bilt-Mr. Charles Overing, Mr. Wm. Bellcliff, Mr. James Mead, Mr. R. J. Common and the Engineer of Westmount, Mr. Archibald Currie, who told of the regulations relating to traction engines in England, Scotland and South Africa, where their use is penalised by the payment of a tax. He complained of the engines and trailers here puncturing the pavements in places, while horses are frequently frightened by them. To the Magistrate he said that traction engines are used only to a limited extent in London, where steam wagons are more favored.

Mr. Rinfret, appearing for Mr. Quinlan, was not ready to go into the evidence for the defence, nor was he ready with his witnesses. Urged by the prosecution to continue, the bench ruled that the hour was too late to open the other side of the case, which was ordered adjourned till Saturday at 2 p.m.

REBELS LOST HEAVILY

Mexican Federal Soldiers Made Sweep of Men and Supplies

El Paso, Texas, Sept. 12.—Three trains bearing about nine hundred Mexican federal soldiers left here secretly during the night for Douglas, Ariz., from which point they will cross to Agua Prieta, threatened by a rebel attack.

The first train carried General Augustas Sanjines, 500 Yaqui Indians and a few Sonora volunteers. The other trains carried federal infantry, supplies and machine guns. The movement leaves only about six hundred federal soldiers in Juarez.

FEDERALS VICTORIOUS.

Washington, Sept. 12.—Coincident with the despatch of reinforcements for the Mexican federal garrison at Agua Prieta, the arrival at Naco, Ariz, of 1,000 Krag-Jorgensen rifles and 500 carbines with ammunition was reported by General Steever. They will be available for the arming of Americans on the border. The weapons are being kept under close guard.

General Steever also transmitted reports of impending revolution in Coahuila, Nuevolon and Tamautipas.

Later advices concerning the fight at Cuchillo, indicate that the rebels lost heavily in men and supplies. The Federal forces drove the enemy before them, and forced him to ford the Concho river on rafts. The rebels, 1,000 strong, were believed to have been commanded by General Orozco, and were last reported retiring toward Coahuila.

STIFF FINES FOR GAMBLERS

Two Toronto Men Fined $1,000 and Two Fined $800

Toronto, Sept. 12.—Abe Orpen, $1,000; Izzy Wilkes, $1,000; John Hare, $800, and Ben Greenberg, $800.

These wer ethe fines imposed on these four men this morning by Magistrate Denison for keeping common gambling houses. They were the highest fine that could be imposed, and the alternative is anything up to a year's imprisonment.

Orpen and Wilkes pleaded guilty to keeping common gaming houses at the Metropolitan Club on King street West.

WON SCHOLARSHIP

List of Ten Successful Applicants Who Received Grants from the Government.

Following is a list of the successful applicants fr Government Scholarships which were granted by the Protestant School Commissioners this morning:—

Patterson, 329, Fabre st.; Jacob Primack, 740, Laval avenue; Howard Sunderland, 16, Torrance st.; Allan B. Strong, 605 Roslyn avenue, and Ewen Gillis.

There were thirteen applicants for ten scholarships.

DERRICK ARM KILLED THREE

Five are Also Injured in Halifax Accident To-day

Halifax, N.S., Sept. 12.—Three men are dead and five injured as a result of an accident at Woodside Sugar Refinery this morning. A derrick arm snapped in two, precipitating a number of men sixty feet to the ground amid a whirl of flying steel, wood and other material.

Three of the men were willed immediately. Their names are Jas. Hitchcock, Daniel Young and Jas. Dougan. One or two of the injured may die.

EDMONTON POLICEWOMEN.

Alberta Captial Favorably Consider Proposition of Women in Blue.

Edmonton, Sept. 12.—The city commissioners have considered favorably the application of women for the position of policemen on account of the difficulty of securing men.

JEWISH NEW YEAR STARTED

Vast Congregations Throng City's Synagogues

To-day the Hebrew has hailed his New Year, and with solemn religious services in all the Montreal synagogues has begun with devotions the Jewish year of 5673.

The Russian, the Pole, the Roumanian, the Austro-Hungarian, and the German, who belong to the Jewish faith, have been faithful in this city, as they are the world over, to the celebration of their picturesque services.

REFORMERS TAKE HATS OFF.

The three principal congregations in devotional and religious assembly today were those of the Reform Church at Temple Emmanuel, the beautiful mosque-like edifice on Sherbrooke street west, where Rabbi Nathan Gordon is in charge. Here at the services the ceremony attending the New Year is celebrated by and before an audience, whose male members remove their headdress during the service, but in the other places of worship the older custom of keeping the head covered is still respected by the men of the congregation.

The Spanish and Portuguese Synagogue on Stanley street, and the many others scattered throughout the east end of the city are crowded to the doors with the adherents of this faith.

The largest congregation of the day was doubtless that which attended the services at the German and Polish Synagogue on McGill College avenue, where the first great meeting of the day was held, at 10.15, lasting till an hour after noon. Here the men were predominant, silk hats were the most favored style of headgear, while the silken praying shawl, artistically draped over the shoulders, was in evidence, and, from the youngest male members in attendance to the most venerable octogenarian worshipper this symbol of reverence was unsparingly worn. The lecture of Rabbi Abramovitch urged a retrospect of the lives and dealings of his hearers, and an admonition to his congregation that, if their previous lives could be found wanting in religious devotion, true fair-dealing with their fellow-subjects, or was in anyway out of accord with the best traditions of their faith, there was no time os opportune as the New Year Day on which to start life anew, helped by resolutions and resolves entered into on the threshold of 5673.

There are no fasting ceremonies directly in connection with the celebration of the Jewish New Year, but a week from Saturday next, on the 24th, the Day of Atonement falls, when a fast from 6 o'clock the evening before, is observed for twenty-four hours.

TRAMWAYS COMPANY AND AUTOBUSSES

Shareholder Claims Older Company Should Have Been Given Chance to Run Them.

An application for a second writ of injunction restraining the city of Montreal from fulfilling the terms of its contract with the Canadian Autobus Co. has been made in the Superior Court. The petitioner this time is Mr. Donald Robertson, whose allegations are practically a repetition of those made by Mr. Shepherd a few days ago, with the exception that Mr. Robertson claims to be a shareholder of the Montreal Tramways Co., and as such maintains that, according to section 43 of civic by-law No. 40, the first right of option in a contemplated autobus system should have been given the Tramways Co.

Mr. Robertson is listed by the city directory as secretary to the president and purchasing agent of the Montreal Tramways Co.

GRAIN SHIP AGROUND.

Steamer 'Rhode' Was Bound For Montreal, With 50,000 Bushels Aboard.

Kingston, Sept. 12.—Loaded with 50,000 bushels of wheat on her way from Duluth to Montreal, the steamer 'Rhodes,' of the McKay-Hall Company, Hamilton, ran aground this morning near Alexandria Bay, and the steamer 'Donnelly,' of the Donnelly Wrecking Company, has been sent to the scene.

FAVORS PLANS FOR VIADUCT

Ald. Stroud Says Canadian Northern Railway's Project is Good.

'It is impossible to say anything against the plans of the Canadian Northern Railway for an overhead track to the water front.' This was told a 'Witness' reporter to-day by Ald. Stroud, who was present at a conference between representatives of the railways and the Controllers yesterday in behalf of the interests of his ward, which is affected at St. Antoine and St. James streets.

'The company,' he said, 'will widen St. David's lane for the city at its own expense into a street fifty feet across from St. Antoine street to the water front. This lane is not more than twenty feet wide at the present time.

'The company has prepared plans for a fine-looking structure overhead,' he said. 'It will look like a large building. Stores will be built beneath it. The trains will be electrified, and smoke, noise, and dirt eliminated. The tops of the cars will be visible from the streets.'

'The only difficulty,' he said, 'will be encountered by the public while this work is being built. It will then be pretty dusty and dirty in that part of the town.'

PALESTINE EXHIBITION

Scenes Will Illustrate Many Prophesies of the Old Testament

WEDDING PROCESSIONS.

A Large Model of Jerusalem as it Was in Christ's Day, is Shown.

The great Palestine Exhibition which is to take place in the Arena from October 3rd to October 24th, promises to be one of the most interesting exhibits ever given in Montreal. It is planned for the purpose of throwing light on the land, the people, and the Book. The main exhibits will be most interesting in view of the fact that they refer in so many cases to the various prophesies of the 'Old Testament.' A visit to this exposition will be necessary to get even a slight idea of the magnitud of the undertaking.

In the section set apart for the homes of Palestine there will be found a Bethany cottage, where may be seen the modern Marthas and Marys at their daily avocation; a Nazareth carpenter's home, showing a home the same as that in which Christ lived; a Bedouin tent, a real 'House of Hair,' bought east of the Jordan, illustrating the lives of the Patriarchs.

The models shown will include one of the Tabernacle of the wilderness, built to full scale; the model of the second temple; ancient Jerusalem, a large model of the city as it was in the days of Christ; modern Jerusalem, showingthe city as it is to-day; a raised map of Palestine, the largest ever brought to this country and covering an area of nearly 900 square feet, a rock-hewn tomb, with rolling stone. Mount Zion and Church of the Holy Sepulchre, are there showing in detail the church over the reputed Sepulchre of Jesus.

In addition to this there will be an agricultural court, showing the actual implements used in Palestine; music and furniture of Palestine; native industries showing the weaver, the carpenter, the baker, and the potter with his wheel; archaeological court, illustrated by casts and photos of the latest discoveries in Egypt, Babylon, and Palestine; a missionary court, illustrating the extensive missionary work carried on amongst the Jews in all parts of the world; a Jerusalem market place, with eastern shops filled with all kinds of eastern curious, which will be on sale to visitors.

WEDDING PROCESSIONS DAILY.

There will also be wedding processions daily, Eastern music, and the Rev. Samuel Schor, who is a native of erusalem, will, twice daily, give a series of lectures on 'Scenes of Eastern Life,' assisted by upwards of sixty ladies and gentlemen in Eastern costumes.

The exhibition will be under the presidency of the Right Rev. the Lord Bishop of Montreal; the vice-presidents are the Rev. Dr. Gordon, of First Baptist Church; the Rev. Dr. Johnston, of the American Presbyterian Church; the Rev. Hugh Pedley, of Emmanuel Congregational Church; the Rev. R. Bruce Taylor, of St. Paul's; the Rev. Canon Troop, and the Rev. Dr. Young, of Douglas Church. The organizing secretary is Mr. George J. Byrnell, while the executive committee is composed of the Rev. A. P. Shatford, chairman; Mr. Hamilton S. Hall, honorary secretary; Mr. R. H. Buchanan, treasurer; the Rev. James E. Fee and Mr. E. D. Ridout, steward's secretaries; Mr. H. J. Mudge, tickets; Mr. A. B. Haycock, advertising; Mr. W. G. P. Malone, marshal; Mrs. Pennel, refreshments, and the Rev. Canon Troop, the Rev. D. J. Neugewirtz, Mrs. Farthing and Mrs. Holden.

WOOD ALCOHOL CASE

Restaurant Keepers Charged With Manslaughter Before Inquest is Concluded.

George Zimmerman and Philip Belohuri, the two restaurant keepers on St. Urbain street, charged with manslaughter in causing the deaths of eleven Russians by furnishing them with wood alcohol, were arraigned before Judge Lafontaine to-day, and upon the representations of counsel, that the analysis being conducted to determine the nature of the liquor, was still going on. The hearing was postponed till Friday.

A peculiar feature of this case is the appearance of the two men before a magistrate prior t othe conclusion of the inquest.

There has been no verdict rendered by the coroner, and the investigation is still going on. This is the first time in a long while that the police charge has taken precedence of a coroner's jury in bringing the accused to trial. Crown Prosecutor Lafontaine acted for the Crown.

GIBSON ARRESTED ON MURDER CHARGE

New York Lawyer, Airy and Confident, Now Held by Police in Connection With Strangulation of Mrs. Szabo.

New York, Sept. 12.—Burton W. Gibson, the New York lawyer whose client, Rosa Menschik Szabo, lost her life while boating with him on Greenwood Lake, N.Y., on July 16, was taken into custody to-day by Deputy Sheriff Degraw, of Orange County, on a warrant charging Gibson with murder in the first degree. Gibson was arrested at his office. It was announced that they would start for Middletown at 11.30 o'clock.

Gibson declared his innocence as he was about to leave his home in Rutherford, N.J., for this city, where Deputy Sheriff Degraw, of Orange Co., was prepared to arrest Mrs. Szabo's lawyer. Degraw was ready, however, to arrest Gibson at his home in Rutherford in the event that he did not appear in this city.

All night long private detectives hung about the Gibson home, while the headlights of an automobile were turned on the Gibson house so that all exits could be watched.

Evidence submitted before County Judge Royce, of Middletown, upon which a warrant charging Gibson with murder in the first degree was issued, was most sensational.

Dr. Schultze, coroner's physician of this city, swore that Mrs. Szabo was so injured before she fell in the water that she never breathed after she had sunk below the surface. The surgeon said that there were tricks of jiu jitsu whereby Mrs. Szabo could have suffered a sharp blow in the throat which so affected the nerve as to close her air passage, thereby making it impossible to breathe. Dr. Schultze said there was not a single sign of water in the lungs, and no congestion.

Only expert knowledge was required to do the trick, said Dr. Schultze, who then asked Judge Royce to permit him to show how it could be done. Quickly the surgeon pressed a point on the judge's throat. The judge gasped, and not long after that issued the warrant. It was planned to arraign Gibson before Judge Royce tomorrow.

Two weeks after Mrs. Szabo was 'drowned' Gibson offered for probate a will of the dead woman, in which she left her estate of about $10,000 to her mother, Mrs. Menschik, and made Gibson her executor. To this will was attached a waiver of citation signed by the supposed mother of Mrs. Szabo, in which she waived all her rights to the contents of the will, leaving them to Gibson.

The Austro-Hungarian consul alleges that Mrs. [illegible] dead for two years [illegible] who could [illegible] did not [illegible] and that Gibson [illegible] pose as Mrs. [illegible]

Lawyer Gibson [illegible] meeting traffic [illegible] and a squad [illegible] he walked to [illegible] office. A crowd [illegible] people followed him. Gibson [illegible] private detective, went [illegible] men's office, and was put [illegible] of Deputy Sheriff Degraw.

Gibson said to the [illegible] should like very much [illegible] dletown and suggested [illegible] can be arranged. 'I cannot [illegible] sheriff, and have this thing done [illegible] gentlemanly a way as possible.'

The private detective said he would talk to Deputy Sheriff Degraw when he arrived. The detective was given time for Degraw to appear, and then leaving Gibson in the company of the newspaper men remarked: 'I guess I have to go and hunt up Degraw. He seems to be lost.' He returned with him, and the arrest then took place.

AN ODD CHAIN OF CIRCUMSTANCES.

The Austro-Hungarian consulate set the inquiry afoot about a fortnight ago by charging Gibson with fraud in connection with the will, and his publicity uncovered a chain of coincidences now linking the lawyer's name with four other clients or friends or relatives of clients, directly involved in litigation with Gibson, who were murdered or died violently or strangely disappeared. Gibson says he can explain everything.

Besides Mrs. Szabo, the four tragedies which figure in Gibson's career, as uncovered since the Szabo investigation started, are:

Mrs. Alice C. D. Kinnan, daughter of an aged woman whose property Gibson handled, murdered at her home in the Bronx.

Michael Shippo, a witness at the Kinnan inquest, found drowned in a creek in the Bronx in two feet of water.

George I. Malcom, a Wall Street broker and nephew of Mrs. Louisa Stanton, Mrs. Kinnan's mother, drowned in Long Island Sound from a steamboat. Previous to his death he fought Gibson for the control of the estate.

John Rice O'Neill, a British subject who had won a $10,000 damage suit for the loss of a leg, disappeared more than a year ago after conferring with Gibson concerning a mortgage transaction. The British consulate has sought him without avail.

CARS TOO CLOSE TOGETHER GOING UP HILL SAYS JURY

Verdict of Accidental Death in Guy Street Tragedy—Belated Juryman Fined Four Dollars.

When Coroner McMahon resumed the inquiry this morning, concerning the death of Mr. John Connell, who died on Tuesday shortly after admission into the Royal Victoria Hospital, from injuries that he had received in connection with the street car accident on Guy street, one juror failed to answer to the roll. The 'crying' of his name all over the building by the usher met with no response. Later the missing man reported himself and apologized. Coroner McMahon promptly fined him four dollars.

After hearing the evidence of Mr. Edward Blair and Mr. A. J. Gadona, the Coroner closed the inquiry. Dr. McMahon briefly summed up the evidence given before him, and the jury returned the verdict that the death of Mr. Connell was due to the tramway accident, which occurred on Guy street owing to the motorman losing control of the car, which came in contact with another car following up the hill. No blame was attached to the motorman, but the jury added the following rider to the verdict: 'That the cars which go up the Cote des Neiges hill should follow each other at a greater distance apart.'

BRAKE WAS ALL RIGHT.

Mr. Edward Blair, inspector, was the first witness called. In reply to the coroner, Mr. Blair said that he examined the car which slid down the hill the day following the accident. There was nothing the matter with the brake. Everything connected with the car was in first class condition. He failed to find that the condition of the brake was in any way contributory to the case of the accident.

As the coroner had understood, Arthur Lapierre, the motorman, to say that the catch, or piece, which should set the brake, had slipped up and was the case of the accident, the motorman was called into the court. Questioned by the coroner, the motorman repeated his statement that the brake-'dog' had lifted.

Mr. Blair, continuing his evidence, said, in explaining the movements of the brakes to the coroner and the jury, that it was quite impossible for the brake-dog to rise vertically and come out of the engagement with the ratchet wheel. It was, however, quite possible that the brake dog might not have engaged properly in a horizontal direction. In such a case it wold be a matter of a second to re-apply the brake.

The motorman, who had remained in the room while Mr. Blair was giving his evidence, said that was what he really meant. He tried to re-apply the brake an instant after the first effort, but it was too late.

THE CORONER'S SUMMING UP.

The coroner, in summing up, told the jury that they had to find out whether the circumstances justified them in coming to a conclusion that a crime had been committed. He thought from what the motorman had said yesterday that the man in charge of the car was responsible for the accident for having sent out a car with a defective brake.

It had, however, been clearly established by Mr. Blair and by the motorman that the brake was not in any way defective. The accident was caused through the failure of the working motorman to put his foot on the brake that had slipped from the gear.

There was another question, continued the coroner, whether it was the fault of the conductor for having so many people crowding the car. The latter explained why several persons fell, as stated in the evidence of some witnesses. It was well known that the citizens of Montreal will jump on to crowded cars and he thoroughly agreed with Mr. Pinkerton's statement yesterday about crowded cars. They had however, nothing to do with that feature of the case.

Even if the jury found that a crime had been committed, it would be for some other court to declare or assess damages. The only question for the jury was to state whether there was a crime or not. They might think it essential that some suggestion should go out from them to prevent the repetition of the accident. One thing they might suggest was that no car should be allowed up the Cote des Neiges hill before the preceding one was at the top. People might complain of delay, but that method would ensure safety.

THE JURY'S VERDICT.

After a brief consultation, the jury returned the following verdict:

'That we, the jurors appointed, after having heard the evidence, declare that John Connell died in Montreal on Sept. 10, 1912, from a fracture of the skull and other injuries that followed a tramway accident which happened because the motorman, Arthur Lapierre, had lost control of his car that crashed into another car, following up the hill in Guy street near Pine avenue. It was accidental. We suggest that the cars going up the hill follow each other at a greater distance.'

CONNELL BURIED TO-DAY.

John Cornell, the stonemason, who was killed in the street car collision on Cote des Neiges hill on Tuesday morning, was burried this morning from Wray's establishment on University street. Only a few acquaintances and friends were present at the funeral.

$50,000 PLANT BURNED.

Winnipeg, Sept. 12.—With a loss of $50,000, the plant of the Patterson Manufacturing Company, of St. Boniface, was totally destroyed by fire this morning. Plant and stock were fully insured.

WINDSOR IN QUANDARY.

Sewage Disposal Matter Holds Up Sale of Debentures.

Windsor, Sept. 12. — Windsor has a sewage problem on its hands. Recently officials of the provincial Board of Health sent notice of a law prohibiting the emptying of sewage into rivers and lakes. The city had already offered for sale debentures amounting to $100,000 a large portion of which is for sewers. City officials left to-day for Toronto to appear before the government officers to secure approval of the system now used here whereby the sewage of this city is emptied into the Detroit river. It is contended that the law against the emptying of sewage into waters of the province does not apply to internaton waters like the Detrot river.

Since the notice has been received the city of Toronto firm whose bid for the tenders was accepted has declined to take them on the grounds that the sewer plans are not approved by the Provincial Board of Health. To comply with the law regarding the sewer system, Windsor would be put to a million dollar expense.

AT FRENCH MANOEUVRES.

Hon. Sam. Hughes and Staff To Witness Army Evolutions.

Paris, Sept. 12.—The Hon. Colonel Samuel Hughes, Canadian Minister of Militia, accompanied by his staff, arrived here to-day. The Canadian party was met by Dr. Philippe Roy, the Agent-General for Canada in France, and later proceeded to Touraine to witness the manoeuvres of the French army.

SPECULATION RE DEPUTY MINISTER.

Ottawa, Sept. 12.—There is considerable speculation in official and political circles over the pending appointment of a Deputy Minister of Inland Revenue, to succeed Mr. W. J. Gerald, whose resignation goes into effect on October 15.

A large number of names are mentioned in connection with the appointment. Among those is the name of Dr. Paquet, M.P. for Lislet.

DECOMPOSITION OF BODY INTERFERES WITH JUSTICE

Dr. McTaggart Cannot Tell Whether Mrs. Boudrias Was Struck or Not—Restaurant Keeper Gives Startling Evidence.

Adelard Boudrias, charged with the murder of his wife, Alice Morian, whose body was found floating in the river at Varennes on the 15th of July, came up for a hearing this morning before Judge Lafontaine in the Enquete Court.

Dr. McTaggart was the principal witness, and said that at the request of the attorney-general, he conducted an autopsy on the body of the woman, which was removed from its grave encased in an ordinary white wood box, with the cover unfastened. At that time the face of the dead woman was in such a state of decomposition it was impossible to tell whether violence had been inflicted on the head, or that a cut of any kind was made. The clothing was wet and heavy from that cause.

Examination of the body showed that no bones were broken, and further investigation of the inner organs revealed a condition of decomposition so far advanced that the tissues were completely eaten away.

Dr. McTaggart could not say what caused the woman's death, so badly were the parts destroyed by the elements while the body lay in the grave.

Florence Collis, keeper of the restaurant where Mrs. Boudrias was employed, told of a conversation with the woman, in which she accused her husband of being jealous of her, and of the womanu's going away with the husband on July 11. Boudrias, she said, returned the next day to the restaurant, asking for his wife.

The following day he called for his wife's valise, and was told he could not get it. A few days later he came again accompanied by a detective, and claimed the valice saying that his wife was dead. That was the last time Collis saw him until the arrest a few days ago, following the peculiar circumstances that surrounded the death of the young woman.

The case was continued this afternoon to allow the examination of several witnesses. Mr. Dan McAvey appeared for the defense.

CHINA WAKING UP NOW

Great Schemes Afoot in Most Approved Style of Western Progress

Pekin, Sept. 11.—The project for a great scheme of Chinese Railways which holds the foremost place in Dr. Sun Yat Sen's programme for the modernization of China, has commanded the support of the Pekin Government, and it may involve a great extension of the privileges of foreigners in the country with possibilities of an immense increase in Chinese forign trade. The Government has authorized Dr. Sun Yet Sen, who was formerly provisional president of the republic, to establish a railway corporation to carry out a system of national railways covering territory 70,000 miles in extent.

Mixed Chinese and foreign companies will be granted concessions throughout China proper for periods of about 40 years, after which time the lines are to revert to China.

Similar concessions are to be given to foreigners for the intermediate districts, but the railroads in the frontier provinces will be under exclusively Chinese control, and will be financed through foreign loans apart from the other railways.

Dr. Sun Yat Sen's proposals are to open the whole of China proper to foreign residence enterprise, but to make foreigners amenable to Chinese laws for which special courts are to be established. The governments has not sanctioned the last features of the project, but Dr. Sun fully expects that they will be approved.

The French, German, and American banks will participate with Lloyds bank in the new loan to China of $50,000,000, the agreement for which recently was signed. The terms of this agreement include the starting of a bank having its head office in London, with a prominent English financier as chairman of the board of directors, and a subordinate board at Pekin. The bank is to be capitalized at $10,000,000, half of which will be subscribed by Chinese.

SWEAR IN NEW RECORDER

At 3 o'clock yesterday afternoon Mr. Amedee Geoffrion, the new recorder, was sworn in by Mr. Recorder Weir, after his appointment to the Bench was read from Sir Francois Langelier, the Lieutenant-Governor of Quebec.

There were many dignitaries present,

MR. RECORDER GEOFFRION.

including His Worship Mayor L. A. Lavallee, the Board of Commissioners, Mr. J. L. Archambault, K.C., Batonnier of the Montreal Bar, and many other prominent members of the legal profession.

After the ceremony the court adjourned, and the new recorder will ascend to-day for the first time the Bench which he will occupy till October 1, when he will be relieved for a month by Mr. Recorder Weir.

EUCHARISTIC CONGRESS

Vienna, Sept. 11.—The official opening of the Eucharistic Congress, which is being attended by delegates from all parts of the world, and which has attracted thousands of visitors to the Austrian capital, took place to-day in the Cathedral of St. Stephens.

The message sent by Pope Pius was read by Cardinal Van Rossum, the papal delegate to the congress, who arrived here yesterday from Rome. After the reading of the Papal brief, speeches were delivered outlining the aims and purposes of the congress.

The hospitality of Vienna and the capacity of the Austrian railways are being taxed to their utmost by the vast number of strangers gathering in the capital.

TILL NEXT SESSION

Ottawa, Ont., Sept. 11.—While no confirmation can be secured of the report that the re-distribution bill will not be introduced at the next session it is said that in order to lighten the work of the session this important legislation may be left over till next meeting of Parliament.

The postponement of this legislation would not be altogether popular in the west because it would mean that no matter what issues might arise there could be no general election.

However, the sessional programme promises to be so heavy that it would not be surprising if the re-distribution bill is left over.

OPINIONS on the MARKET

Laidlaw & Company—The market remains a waiting affair, but so long as no premature efforts are made to bid up prices, against unfavorable money conditions, no pronounced setback need be feared, while all signs point to a resumption of the advance later on.

E. & C. Randolph—It looks as if the market would remain in the trading area for some time longer, as although sentiment is very optimistic, it is not likely that any attempt to make a real bull movement will be started in the near future.

HORTICULTURAL SHOW READY

Unique Collection of Sweet Peas—One Collection Has 70 Varieties

Mr. A. J. Bowles, secretary of the Montreal Horticultural Society, yesterday morning granted a 'Witness' representative a special view of the exhibition which was opened last evening in the Victoria Rifles Armory, at 41 Cathcart street. The city's seat of war has been transformed into a veritable place of beauty and peace.

The centre of the hall was arranged in a most fascinating form, a magnificent collection of hot-house plants, which were sent by Mr. W. J. Wiltshire, gardener to Mr. R. B. Angus, of Drummond street. Crotons, adiantums and yellow orchids have been tastefully massed round a beautiful palm, and the general effect was very beautiful.

Mr. Angus also sent a valuable exhibit of palms of a number of varieties, and these, placed near the door of the hall, were very effective indeed.

Along the east wall a showcase containing the various trophies which the society offers, was silhouetted by a ruddy bank of hydrangea tastefully arranged amongst a number of flourishing crotons and lovely orchids.

But the most attractive feature of this year's show was the really unique collection of sweet peas amongst the cut flowers. One exhibitor alone had accounted for nearly seventy varieties of this flower, and to avoid dispute, had carefully named each of them with their own distinctive names.

'I have never seen such a complete collection,' said Mr. Bowles. The gladioli and asters added color to the scene, and those who were interested in vegetable culture revelled in the excellent collections some exhibitors had sent.

Perhaps the only disappointing feature in the show was the absence of first class exhibit of pansies and violas. In view of the fact that these flowers are easily grown, the exhibit of them in this year's show was not what it ought to have been.

His Worship the Mayor formally opened the show last evening at 8.15 o'clock. The following is a list of the judges:—Plants, Messrs. Joseph Bennett and E. J. Hayward; cut blooms, Messrs. Geo. A. Robinson, W. J. Wilshire, R. Burrows and F. C. Smith; fruits and vegetables, Messrs. Geo. Trussell and J. Eddie.

WILL STUDY POLICE CONDUCT

Ald. Blumenthal said yesterday that the Board of Control had consented to investigate complaints of undue officiousness and ignorance in the discharge of their duties preferred by citizens against individual members of the police force.

'I saw a letter in the "Patrie,"' said he,' attacking me for being a Jew, and befriending the Jews. It said the French-Canadians were not intolerant. I never said they were intolerant, and one police officer, on whose behalf the writer takes exception to my complaint against him, is not a Frenchman, as was declared, but an Irishman. I did not mention the nationality or the religion of the officer complained of, because I did not want to raise racial strife. I take no account of a man's race or creed. Mr. Creelman, who was a complainant of police incapacity to me, is not a Jew. Many of the people who protest to me about the police are Christians. I represent all the citizens and want justice for them.

'These people,' said Ald. Blumenthal, 'who now come forward with letters against me, are the very persons who shout for reform. I endeavor to secure reforms in my ward, by suppressing houses of vice, by punishing police brutality when it occurs. Then these citizens come to me and say: "Are you going to be a reformer? If so, we shall fix you." If I say I want people protected, it will be said to me, "You are a Jew," and that ends it.'

Ald. Blumenthal said he favored the engaging of a competent instructor for the police to teach them how to make arrests, and to discharge their multifarious duties.

STUDY SITES FOR LIBRARY

At a meeting of the city public library committee at the City Hall yesterday a list of proposed sites was considered and Alderman Victor Morin, chairman, was empowered to act with two other members of the committee to consider the merits of each site and to look for others. He was also authorized to retain an architect, confer with proprietors, and take options if necessary. Then he to report back to the committee.

The following sites were suggested to the committee to-day:—The south-east corner of St. Charles Borommee and Sherbrooke street, 160 x 135 feet, at about $5 a foot.

The south side of Sherbrooke between St. Andrew and St. Timothy streets, $180,000; St. Denis and Lagauchetiere streets, $106,228.

Ontario street, between Church and Plat streets, no price given. Sherbrooke street between City Hall and Laval avenues, north side, 227,180.

St. Dominique street between Charlotte and Dorchester streets. No price.

St. Denis street between Albino and Ernest streets (Aberdeen school), $250,000.

Park avenue and Brebe street, intersection, 51 x 83 feet, $6.50 a square foot.

St. Louis street, between Sanguinet and the lane of St. Denis street, 182 x 110 feet. No price.

St. Denis street between DeMontigny and Ontario street, 150 x 125 feet. No price.

The corner of Craig, Bonsecours and St. Louis street, 175 x 122 feet, $7 a foot.

The corner of Viger avenue and Berri street, 100 x 120 feet. No price given

Notre Dame street east, and St. Gabriel, 115 x 75 feet, good terms. No price.

C.N.R. AND THE ORIENT.

According to a New York despatch received in Montreal today, Sir Donald Mann says that as soon as the transcontinental line is finished the company will take up the question of establishing a steamship service with Australia and the Orient.

The first practice of McGill football club will take place on the campus, on Tuesday next, September 17th.

FELL WITH AEROPLANE

German Aviator Killed While Scouting at Manoeuvres

Dresden, Saxony, Sept. 11. — Lieut. Siebert, an aviator attached to the Red army in the imperial manoeuvres, now in progress in Saxony, fell with his aeroplane while scouting to-day and was killed. His companion, Lieut. Zimmerman, was seriously injured.

Five of the six Red army aeroplanes have been disabled while carrying out military orders, though with the exception of to-day's accident, none of the aviators were badly hurt.

The dirigible balloons are proving very satisfactory. The Zeppelin III. and the Gross IV. are operating successfully from a distant base with their respective stations at Gotha and Berlin as in actual war.

WEST MUST HAVE LABOR

Regina, Sept. 11.—The present shortage of farm labor is expected to be greatly accentuated with the general commencement of threshing.

All over the West to-day it is fair, and harvesting is in the last stage. The provincial bureau of labor, in an attempt to partially alleviate the shortage, is considering, among other suggested steps, the following:

1. That every company release its section men for a month or six weeks and give them cheap rates to the harvest fields.

2. That municipal or other public works be stopped.

3. That an excursion be run from Vancouver to Regina or Moose Jaw.

CHORUS GIRLS DISAPPEAR

The release of Alexander Loftus, actor-manager of the "New Barmaid" company on $1,500 bail for his appearance when ordered by the court was effected on Tuesday. Besides the trouble in the family of actors the disappearance is reported of two chorus girls who, it is whispered, have gone away with a well known travelling man whose duties carry him from one end of the country to the other, with an occasional trip to the old country on the side.

The man's name was given to the city detectives, with the request that an abduction charge be laid against him and a warrant issued for his arrest.

This was done, and Chief Carpenter gave two of his men the job of tracing the whereabouts of the missing trio. Information secured at the Grand Trunk Station, convinced the pursuing officers that New York is now harboring the runaways, as a man and two women answering the description were in the waiting room here for a short time early Monday morning. New York was notified to be on the lookout.

The two young women it was stated were special charges of Mr. Lubbock, manager of the "New Barmaid" company, and came from England with the troupe for the Canadian engagement.

COW'S ESCAPADE

A large drove of cattle, consisting of some 60 head, caused a slight accident and much confusion on Common street yesterday. The herd were being hurried along and, near St. Peter street, encountered two children driving a pony. The frightened children vainly endeavored to move the beast, but of no avail. However, as the herd approached, the small pony tried to escape by making for a stone wall. The children were heavily bumped, and the boy sustained a severely scraped arm.

Later on the cow in the lead, proud of the success of her former escapade, jumped onto a passing lorry. The horses broke into a gallop, frightened by their strange burden, and the cow had a ride of some blocks before she could be dislodged.

STOLE SICK HORSE

Pierre Rochon yesterday admitted to Judge Lafontaine that he stole a horse and a vehicle belonging to Wilfred Menard, but did it for the health of the animal.

He explained that from watching the horse a few minutes he was convinced that it was troubled with indigestion, and, knowing a veterinary surgeon, he wanted to have him look the poor beast over.

He could not remember why the surgeon was forgotten on the way, but admitted to the court that the horse went along alright with him.

He was given a sentence of six hours in jail, the length of time he kept the vehicle from the owner.

TRUE BLUE ASSOCIATION IN SESSION.

Ottawa, Sept. 11.—The 38th annual session of the Supreme Grand Lodge of the Loyal True Blue Association is in progress in Ottawa. William I. Cole, of Caniffton, Supreme Grand Master, in the chair, and Brother N. W. Beaven, of Ottawa, Supreme Deputy Grand Master, occupying the deputy chair.

Other officers present are: Brothers Forsyth, Provincial Grand Master of Nova Scotia; W. I. Hart, M.L.A., of Orillia; R. C. Newman, of Toronto, Past Grand Master; James Worrell, of Pictou, N.S., Past Grand Master; W. M. Fitzgerald, of Toronto, Supreme Grand Treasurer; Nicholas Ingram, of Port Perry, Supreme Grand Secretary; J. W. Patterson, of Toronto, Supreme Grand Director of Ceremonies; Sisters Bleakney, of Moncton, N.B.; Mrs. Brunette, of Toronto, Supreme Grand Treasurer; and Mrs. Jacobi, of Oshawa, associate Supreme Grand Secretary.

At the opening session the chief business consisted in the drafting of committees.

This afternoon will be devoted to receiving the reports from the committees on constitution and laws, and on returns, the Grand Secretary's and the Grand Treasurer's reports and the report of the Orphanage Board.

There are nearly 70 men and women delegates here, and the session will probably continue until Friday. This evening they will be the guests of the city of Ottawa at a banquet held in Victoria Hotel, Aylmer.

WINNER OF THE ST. LEGER.

Doncaster, Sept. 11.—The St. Leger stakes of 6,500 sovereigns for entire colts and fillies, foaled in 1909, was won here to-day by August Belmont's Tracery. Maiden Erlegh finished second, and Hector was third. The race was run over the old St. Leger course, about 1 mile 6 furlongs and 132 yards, and fourteen horses started. The winner was ridden by Bellhouse.

FINANCE

The Sherbrooke Railway & Power Company closed its fiscal year at the end of last month, and the auditors are at work compiling the figures for the annual statement. Notwithstanding the large amount of improvements and extensions carried out by the company during the year, the report, it is believed, will be a favorable one.

COTTONS AND LAURENTIDE UP BROAD MARKET

The features of the morning's sales on the stock market were the strength in cotton stocks and Laurentide common. Canadian Cottons, Limited, was on big demand, and rose on a turnover of 900 shares from 75 1-2 to 77, while Montreal Cotton continues firm around 64.

Laurentide rose three and a half points to 207 1-2, and closed a point below this.

Quebec Railway failed to show the strength which many anticipated that it would. Banks and bonds were active.

New York, Sept. 11.—Wall Street—Noon—Local monetary conditions were the all-important factor in today's market. Call money opened at the highest rate of the present movement and some loans at 4 1-2 per cent were reported before noon. The list at first inclined to move forward, but the small volume of business and the complete lack of initiative, especially on the bull side, soon caused general recessions. A number of high priced specialties were again to the fore, but their rise failed to excite interest elsewhere. Sears-Roebuck and Snuff were among the few weak stocks in this group, the former yielding more of its recent advance. Bonds were easy.

Discount Rates Higher In London on Fares of Gold Demand--the Market

London, Sept. 11.—Money was easier to-day. Discount rates were firm owing to fears of the gold demand increasing with tightening money rates abroad. The general settlement received the chief attention of traders on the stock exchange. Carry-over charges were higher Americans being quoted at 4 1-2 per cent. Business for the new account was fair and the tone was cheerful especially in home and Mexican rails, Peruvian stocks and gold mines. Grand Trunk closed easy and San Paulo rails weak. American securities were quiet and featureless during the forenoon. Prices hardened a fraction after Wall Street opened, but the trading was limited and the market closed dull.

LONDON CLOSING PRICES.

London, Sept. 11, 4 p.m.—Consols for money 74 1-16; do., for account, 74 3-16.
Bar silver steady 28 13-16d per ounce.
Money 1½ to ¾ p.c.
The rate of discount in the open market for short bills is 3¼ to ⅜ p.c.
The rate of discount in the open market for three months' bills is 3½ to 9-16 p.c.

BAR SILVER

New York, Sept. 11.—Bar silver was steady, selling at 62 1-2 cents per ounce.

MARKET DULL NEW YORK WEAK

The local market exhibited nothing new in the afternoon except a slight increase in strength for Quebec Railway common stock. Laurentide was rather jumpy again, dropping a point and a half on one sale.

WALL STREET
WEAKER AGAIN.

The New York market closed about a point below the opening price, with Reading showing a decline of 2 points. Canadian Pacific finished at 273x, Reading at 167, Union 167 7-8, nd Steel 72 1-8.

BANKER GILES GOOD WARNING ON BORROWING

Mr. D. R. Wilkie, president of the Imperial Bank, who has just returned from England, says that Canadian Municipalities must borrow less until the present stringency of the world's money markets have passed.

He urges all municipalities and corporated companies, and even provincial governments to restrict their expenditures until something more is known of the future. 'Not for many years,' he adds, 'will money be as low as it has been in the past.'

CAPITAL TRUST CO. IS FORMED OF $2,000,000 CAP.

A despatch to the Financial News Bureau from Ottawa says that 'the Capital Trust Corporation, Limited, with a capitalization of $2,000,000, has been incorporated, with headquarters here, and the stock is about to be offered. The provisional directors include M. J. O'Brien, of Renfrew; Geo. P. Brophy, C. A. McCool, L. M. Poulin, Denins Murphy, W. H. McAuliffe and others of Ottawa, the interests being much the same as those concerned in the Capital Life Assurance Co. It is the intention to establish a board of European directors later.'

BIG CONTRACT

The directors of the Western Canada Power Company meet to-morrow, when it is expected that an announcement will be made in regard to the contract which the company has been negotiating for with the British Columbia Electric for some months past.

EIGHTY GRAIN ELEVATORS IN WEST COMBINE

Sir Max Aitken Puts Through Huge Deal---Plans for Flour Plant---New Directors Named

Sir Max Aitken, M.P., has completed another merger deal. This time he has purchased the control of at least eighty grain elevators in the western provinces, and in company with Mr. R. B. Bennett, M.P., of Calgary, has formed a company to operate and construct elevators all over the West. It is stated that Six Max Aitken's recent trip to the West was taken with the express intention of putting this deal through. The capacity of the elevators just purchased is between 3,000,000 and 5,000,000 bushels.

Sir Max Aitken.

The rapidly approaching completion of the Panama Canal has given impetus to the project. It is the intention of the new company, whose elevators are all situated in the far west, Alberta and western Saskatchewan, to ship their cargoes by way of the Pacific. The elevators are located on the lines of the Canadian Pacific Railway, the Grand Trunk Pacific, and the Canadian Northern Railway. Terminal elevators have been acquired in Calgary, Edmonton, Red Deer and Macleod. These terminals have a capacity of about 500,000 bushels.

In addition to going into the business of handling, storing and cleaning the grain, the new merger company is to participate in the manufacture of cereal products and flour. The company has purchased a ten-acre site at Calgary, on which to erect a huge plant.

The directorate of this newest merger, known as the Alberta Pacific Elevator Company, is composed of the following well-known capitalists:—Messrs. Nicholas Bawlf, director of the Bank of Toronto; Richard B. Bennett, K.C., M.P., president of the Calgary Power Company; 'Pat' Burns, of Calgary; D. R. Kerr, president of the Brackman-Kerr Milling Co., and John McFarland, director of the Alberta Grain Co.

G.T.R. Increase.

Grand Trunk Railway system earnings from September 1 to 7 show the following increase in favor of this year:

1912	$1,692,457
1911	1,073,652
Increase	$45,805

Canadian Banks Watching Money Situation Abroad

New York, Sept. 11.—New York funds in Montreal are quoted around 46 7-8 to 47 cents per $1,000 discount, suggesting further withdrawal of call loans from New York by means of gold by Canadian banks.

Canadian banks are reputed to be heavy sellers of finance bills in New York against their large London credits, which is naturally an additional incentive for shipments of New York funds to the Dominion.

Indications, however, are that gold will soon come here from Europe on account of heavy shipments of grain and cotton.

TORONTO CATTLE MARKET.

Toronto, Sept. 11.—The city cattle market started out this morning with a fairly steady market. There are very few changes in quotations. Sheep, ewes and lambs are also steady. Milch cows are very hard to sell. The receipts show seven cars, 23 cattle, 250 sheep and lambs, 40 hogs, four calves.

RAILWAY DIVIDEND.

New York Central Railway has declared regular quarterly dividend of 1¼ percent.

HILLS MINES WILL PRODUCE BUT NOT MAKE

New York, Sept. 11.—Reports from St. Paul that J. J. Hill intends to go into the steel manufacturing business are not new. Mr. Hill has denied these on many occasions, and his statements afford no foundation for the rumors.

It has been officially announced that on cancellation of the mining lease with the Steel Corporation, the Hill interests would enter actively into the mining business in ore fields in Minnesota now covered by the lease. But it was stated that operations would be confined to mining and selling the ore in the open market, and that there was no intention of establishing plants where the or could be turned into steel products.

WINDSOR HOTEL CO. MAY DOUBLE ITS CAPITAL

The directors of the Windsor Hotel Company are said to be working out a plan for the rearrangement of the capital. One of the plans under consideration is to double up the present capital, giving shareholders one new share.

The company has been making very large earnings for some years past, but individuals have never been keen for an hotel proposition.

PROSPERITY

New York, Sept. 11.—Mr. Otto Kahn before sailing on the 'Mauretania' predicted a great measure of prosperity with a gradual revival of general trade, and without any sensational boom. Bankers generally, he claimed, hold that business is being little affected by politics.

FINANCIAL AND COMMERCIAL NEWS AND STOCKS

If bank clearings are to be taken as a barometer of trade, business in Canada is certainly expanding very rapidly during 1912. Aggregate bank clearings of fifteen Canadian cities for August, which is normally one of the quiet months of the year, amounted to $732,754,000, a larger amount than in any month of 1911 except November. While the figure is a drop of seven percent from July of this year, it is an advance of 24.4 percent over the clearings of August, 1911. Canada's total clearings for eight months in 1912 are $5,693,147,898, an increase of 26.4 percent over the same period last year.

SMALL BUSINESS IN BEANS.

The market for beans is firm, but the volume of business doing is not large. Three pound pickers in carlots are quoted at $2.75 per bushel.

NO CHANGE IN EGGS.

Selected stock in round lots, 30c; in single cases, 31c; straight receipts in round lots, 28c; in single cases, 25c; second grades, in single cases, 22c.

FAIR TRADE IN POTATOES.

Potatoes are steady at the recent decline, with a fairly active trade passing, and sales of Cobblers in car lots were made at 75c to 80c per bag, and in a jobbing way at 90c to $1 per bag.

CALL LOAN MADE AT SIX PERCENT BY A LOCAL BANK

The local money situation is at present of a kind not conducive to an actively speculative stock market, while there are plenty of funds, at fairly high rates, for all legitimate business purposes.

Call loan rates have slowly but surely advanced during the past two or three weeks to 5 1-2 percent, while on Wednesday afternoon a loan was negotiated through the Banque Nationale of a considerable amount of money at the rate of 6 percent.

This, it is said, is fairly representative of the conditions now prevailing as to money, and while bankers admit that there are plenty of funds within ready call yet for the time being it is deemed advisable to limit the borrowing powers of certain interests in order to meet increased demands which always appear simultaneously with the crop moving and the closing of navigation.

BUTTER REMAINS FIRM.

There is continued firmness in the butter market, with no change of prices. Finest creamery, 27c to 27¼c; fine creamery, 26½c to 26¾c; seconds, 26c to 26¼c; dairy butter, 22c to 23c.

Weather reports from the grain growing sections of the West are most encouraging today. Rain has ceased, weather is fine and temperature higher. The forecast from the whole of the three provinces is 'Fine and comparatively warm.' The weather in the American northwest is also fine, with the exception of slight showers in South Dakota.

FOREIGN RATES

Paris, Sept. 12.—Closing prices on the Bourse to-day showed a strong upward tendency.

Three percent rentes, 92 francs 52 1-2 centimes account. Exchange on London, 25 francs 28 1-2 centimes for cheques. Private rate of discount, 2 7-8 percent.

Berlin, Sept. 12.—The tone of the Bourse to-day was quiet, but firm. Exchange on London, 20 marks 45 pfennigs for cheques. Money, 3 percent. Private rate of discount, 4 3-8 percent.

BANK RATE UNCHANGED.

London, Sept. 12.—The rate of discount of the Bank of England remained unchanged at 4p.c. to-day.

SHORTAGE OF GREEN GRAPES THIS AUTUMN

Mr. G. M. Richardson, of Glover Hill and Co., Liverpool, England, who is at present in Montreal, received the following letter from his company today:—"The quantity of Almeria grapes this coming season will be quite one third less than last year, this shortage being confined mostly to the late or good keeping growths."

These large and green Spanish grapes which have such splendid keeping qualities and which are a very popular winter luxury here, will likely be several cents a pound higher this year than last.

EXPORT [illegible] OF APPLES.

Mr. Richardson, when asked by the 'Witness' to give a forecast as to our apple export business with the United Kingdom this season, stated that it was, yet too early to make such conjectures. "I have no doubt," he said, 'that the export business from here will be as large as last season, but all depends upon quality and prices.'

TAKE PROFITS SAYS BROKER

The local market last week, says Mr. Colin McCuaig, experienced quite a reaction, brought about no doubt by the tightening of money, and a feeling on the part of the public that a bull market could not continue indefinitely. Matters have also been slightly unsettled, owing to the drop in Quebec Street Railway.

'Generally speaking 'concluded Mr. McCuaig, the present situation would appear to warrant limited commitments only. Any stocks purchased on bargain days should be realized on when fair profits are in sight.'

BANK RESERVE SHADE BETTER

London, Sept. 12.—The weekly statement of the Bank of England shows the following changes:

LIVE STOCK WAR IN TORONTO IS STILL GOING ON

Toronto, Sept. 12.—The cattle market seems to be holding its own with the competition of the Union Stock Yards at West Toronto, where the biggest buyers have transferred their business. There were 12 cars on hand this morning, consisting of 141 cattle, 145 sheep and lambs, 51 hogs and 18 calves. There was a notable increase in the number of small buyers and the market was decidedly brisk. Ruling prices were:

Butcher cattle choice, $6.60 to $6.75; dum, $6.75 to $6.90; do., bulls, $5.50 to $6.00.

Butcher cattle choce, $6.60 to $6.75; do., medum, $5.75 to $6.25; do., common, $5.50 to $6.

Butcher cows choice, $5 to $5.50; do., medum, $3.50 to $4.25; do., canners, at $1.50 to $2.50; do., bulls, $2 to $3.85.

Feeding steers, $5 to $5.50; stockers choice, $5 to $5.5.40; do., light, $3.50 to $4.00.

Milkers ch., each, $40 to $80; springers, $40 to $60.

Sheep ewes, $4.50 to $4.75; bucks and culls, $3 to $3.50; lambs, $6.50 to $6.75.

Hogs fed and watered, $8.75; do., f.o.b., $8.35; calves, $4.50 to $9.

WEALTH OF CROWN RESERVE UNLIMITED---M'ENANEY GOLD VALUES---SENSELESS ATTACK

Cobalt, Ont., Sept. 12. — (Special). — Mining men all over the Cocalt Camp who are personally acquainted with the Crown Reserve mine, are much amused over the efforts of the mining correspondent of a Toronto paper, in deprecating the Crown Reserve mine and apparently the statements of the management. However, the physical condition of the property is excellent and the management is shipping sufficient ore to more than cover expenses, dividend requirementss, and leave a handsome surplus, after writing off a liberal sum for depreciation of the plant and equipment.

The paper in question has figures that because the Crown Reserve has, so far this year, shipped only 251 tons of ore, that is to the end of August, as compared with some 780 tons last year, that the company will have to ship 6,500 ounces of ore for the balance of the year to come up to last year's earnings. In doing this the writer either wilfully or through ignorance loses sight of the fact that the only ore that has been shipped from the Crown Reserve has been high grade ore that has een shipped this year from the Crown Reserve has been high-grade amount of low grade was shipped which accounted for a great deal of the tonnage. The high grade ore of the Crown Reserve last year averaged 4,641 ounces per ton. Taking the same average value for this year's high grade, and estimating silver at even 60 cents per ounce — as a matter of fact a better price will be obtained — we have the following figures:—251 tons of high grade will yield approximately $700,000 net, after deduction of smelter charges, in addition to this and according to the Toronto paper, about $130,000 worth of bullion was shipped to the end of August, and as a matter of fact this figure was largely exceeded. But even on these figures alone the mine earned its dividends, royalties and expenses, and left a balance over. In other words the Crown Reserve management did what they set out to do as outlined in the last annual report.

They figure that if they can earn what they want with less expense, by producing a slightly lower tonnage so much the better. In addition last year, the sum of $125,000 was written off on account of the McEnaney, which mine hoisted $25,000 worth of ore last month alone, the McEnaney is now to go on a self-supporting basis, and if the management of the Crown Reserve liked they could charge this $125,000 extended on the McEnaney up to January to that mine, and count it as an addition to the Crown Reserve surplus. The McEnaney will be producing gold bricks in the month of November, and at the present moment developments underground are making the mine look better with every day's work.

There is now an ore shoot of 475 feet in length opened up on the 200 foot level alone, and on the 300 foot level the vein has been proved up for a distance of 200 feet, — this since early in July — and the assays at this level are phenomenal. The average of this ore will be at least $75.00 per ton. While the ore on the 200 foot leved averages $25.00 per ton. Above the 200 foot level ore has been blocked out to a height of 50 feet from the surface, and the management now figure that they have over $500,000 worth of ore net in sight after deducting cost of new plant and purchase price of property. As the original Crown Reserve Company will this year have a cash surplus of almost $1000,000 with $700,000 on the high-grade dump at Cobalt, which has not been touched, all low grade reduced coming from development work underground.

In addition to all this there is the McEnaney worth $500,000, which in all amounts to $2,200,000 actually in sight, and this without counting the ore reserves underground at the Crown Reserve mine itself, which are enormous and estimated at millions of dollars.

Lieut.-Col. and Mrs. J. G. Ross, Kensington avenue, are on a visit to Vancouver and the West, returning to Montreal about the twenty-fifth of the month.

Mr. G. G. Foster, K.C., and Mrs. Foster and family, who were at their Knowlton residence, 'Blarney Castle,' for the summer, have returned to the city.

The Rev. Principal Hill, Mrs. Hill and Miss Lois Hill have returned from the West, where Dr. Hill has been visiting the churches in the interests of the Congregational College.

Mrs. J. K. L. Ross sailed by the 'Mauretania' from New York yesterday to take her son, Master Jimmy Ross, back to school in England. Mrs. Ross will return to Montreal about the end of October.

The engagement is announced of Miss Elsie Jeffrey, daughter of the late James Jeffrey, Montreal, to Mr. Galon S. Grapes, of Colebrook, N.H. The marriage is to take place at Eaton, Que., on Sept. 25.

The marriage of Miss Vaughn Avery, daughter of Mr. and Mrs. Fred W. Avery, Ottawa, to Mr. Gordon Johnston, of the Canada Cement Works, Montreal, is announced in Ottawa to take place in October.

The engagement is announced of Mabel Gertrude, daughter of Mr. and Mrs. W. Charles Craig, Sherbrooke street, Westmount, to Mr. Hugh Edward Martin, son of Mr. J. E. Martin, K.C., the wedding to take place in October.

The Lieutenant-Governor of Manitoba, and Mrs. D. C. Cameron entertained at dinner on Monday evening, at Government House, Winnipeg, in honor of Sir Thomas Shaughnessy, who is on a trip to the West. Covers were laid for thirty-two.

The wedding of two Montreal young people was celebrated last evening in St. John's Church, Brockville, near which the bride's parents have their summer residence. The bride was Miss Belle Alicia Bryson, daughter of Mr. and Mrs. R. H. Bryson, and the bridegroom Dr. J. W. Duncan, of Sherbrooke street. The marriage ceremony was performed by the Rev. Hugh Pedley, assisted by the Rev. S. S. Burns. Miss Nora Pedley was maid of honor, and Miss Inez Whyte bridesmaid. Mr. Robert Bryson, the bride's brother, was best man, and the ushers were Messrs. Harold Moore, Robert and Andrew Murray, and Douglas Drew. A reception for upwards of a hundred guests was held after the ceremony.

A pretty wedding was celebrated at Poole's Resort on Sept. 3rd, at noon, when Anna Hutchison (Daisy), eldest daughter of Mr. and Mrs. Robert Poole, was united in marriage to Mr. William August Hovemann, son of the late Professor and Mrs. Hovemann, of New York. The marriage ceremony, which was performed by the Rev. Mr. Fisher, of Mallorytown, took place on the lawn under an arch of pink and white asters and gladioli banked with palms and ferns. The bride, who was unattended, was given away by her father, and wore a dainty embroidered lawn and lace frock and tulle veil with coronet of orange blossoms. She carried a bridal bouquet of white roses, and wore the groom's gift, a necklace of pearls and amethysts. The wedding march was played by Miss Gladys Hunter, of Philadelphia. After the ceremony, the wedding party, which consisted only of the immediate families of the bride and groom, was taken in a launch to one of the nearby islands, where the wedding dinner was served. The usual toasts and speeches were made, and the newly-married couple then left by boat for a trip down the St. Lawrence, and through Lake Champlain and Lake George to their future home in New York, the bride travelling in a suit of Copenhagen blue diagonal serge, and large black hat with Copenhagen plume.

In Grace Church yesterday afternoon the marriage was solemnized of Miss Anna K. Williamson, daughter of Mr. and Mrs. George Williamson, 881 Wellington street, to Mr. W. W. Duggan, field secretary of the Ontario Dominion Alliance. The marriage service was conducted by the Venerable Archdeacon Ker, and Mr. B. Hinchcliffe presided at the organ. The bride, who was given away by her father, wore a gown of white duchess satin, with court train, veiled in dewdrop net, the bodice being of real Irish lace. She wore a veil of net and wreath of orange blossoms, and carried a lovely bouquet of orchids, lilies of the valley, and maiden-hair fern. Her cousin, Miss Mary Kinsella, was bridesmaid, dressed in mauve poplin, and carrying yellow chrysanthemums. The Rev. R. W. White, of Toronto, was best man, while Mr. Moore and Mr. Spencer, of Toronto, officiated as ushers. After the service in the church, about fifty guests were entertained at the residence of the bride's parents, where refreshments were served. Mrs. Williamson, the bride's mother, was gowned in silver gray satin with overdress of black lace. Among out-of-town guests were Mrs. James Duggan and Miss Duggan, of Toronto, mother and sister of the groom. Mr. and Mrs. Duggan left for a tour in the United States before going to their home in Toronto.

The friends of Nurse Sharples will be pleased to know that after three months of critical illness the doctors have consented to her removal to her home in the Mountains.

FINDS WATER HARMLESS

Vandalism Charged in Connection With Guybourg Waterworks

A delegation of residents of Guybourg again was heard by the Board of Control on the water question today. A report of Dr. St. George, city analyst, was read. It said that although discolored the water did not contain bacteria inurious to health.

Mr. J. C. Lamothe said that the contract between the water company and the people was invalid. The company, he said, failed to receive permission from the people of Longue Point Ward by a two-thirds maority to exercise its franchise. He urged the city to turn its water on in the pipes of the company.

Mr. Chapleau, for the company, said that it had arranged with the city for an emergency wajter connection, and Ald. Lariviere and other citizens objected. It was found necessary to turn off the hydrants by night, for it was found when this was not done that the average consumption of water between eleven at night and four in the morning was forty gallons a family.

It was further said that there was a great deal of vandalism with the property of the company in this section.

The Controllers took the matter under consideration.

OWNERS NORTON-GRIFFITHS CO.

Hannan Dredging Co. of Prescott Turned Over to this Concern

St. John, N.B., Sept. 12.—It is learned here that the company taking over the Daly & Hannan Dredging Company, of Prescott, is the Norton Griffith's Dredging Company, a subsidy of the Norton-Griffith's Company, which is doing the Courtenay Bay work here.

Mr. Daly, it is understood, has retired, and Mr. Hannan, of Ogdensburg, and Duncan McMartin, of Montreal, are the men who have joined the Norton-Griffith's Dredging Company, in the matter.

FINEST DREDGE IN THE DOMINION.

Ottawa, Sept. 12.—A new dredge for the Department of Marine and Fisheries will soon be launched from the shipyard at Sorel. It will be the largest and best-equipped of the kind in the Dominion.

Public sentiment is changing from the regular play-houses to the Motion Picture Houses, as a result of which bigger returns on the investment are being enjoyed by these institutions than any other form of amusement.

MOTION PICTURE STATISTICS

Statistics published in a recent issue of "The Theatre," a magazine published in New York City, gave the startling information that there were last year 6,246,000,000 paid admissions to the Motion picture theatres in the United States alone, and averaging each admission at 5c gives the staggering sum of one million dollars per day, and, figuring 300 days in the year, means that $300,000,000 were paid by the general public to the Motion Picture houses in the United States for the last year.

OUR PROPOSITION

The Montreal Motion Pictures, Limited, incorporated under the laws of the Dominion of Canada, capitalized at $100,000, par value of stock $1.00 per share, OFFERS FOR PUBLIC SUBSCRIPTION 75,000 SHARES OF THIS STOCK AT $1.00 PER SHARE.

This Company was formed for the purpose of establishing a circuit of Motion Picture playhouses in Montreal and in the leading towns of Eastern Canada. The circuit will include only theatres doing an established business and earning profits.

The Company has already acquired two of the finest theatres in the busy shopping districts on St. Catherine Street. Branch No. 1, "Le Passe Temps," St. Catherine Street, three doors west of St. Denis Street, which was opened on July 20th, and Branch No. 2, "The Colonial," St. Catherine Street, opposite Goodwins' Limited, which will be opened September 15th. These are conceded to be two of the finest motion picture theatres in Montreal, if not in the whole Dominion. "Le Passe Temps," which was opened on July 20th, has been running ever since and has made money from the day it opened its doors, and the "Colonial" with its seating capacity of 800, its beautiful interior decorations, its comfortable seats and superb ventilation, together with the magnificent programme that the management intend to produce, cannot help but reap the success enjoyed by "Le Passe Temps."

Options are also held on other play-houses, which are situated in the various busy and residential sections of the city. This Company will only take over the control of theatres doing a thriving business and showing big profits every week.. Each of these theatres is earning big profits and no stock enterprise offered for public subscription recently has, in our opinion, the practically assured profits as has the Montreal Motion Pictures, Limited.

The general public has made the motion picture industry what it is today, and for the first time the public is offered the opportunity of reaping some of the financial benefits, which promise to grow more rapidly in the future than in the past.

EARNINGS AND DIVIDENDS

The Motion picture Industry has made millions of dollars for Syndicates who operate a circuit of theatres, and the Montreal Motion Pictures, Limited, will likely do the same for its shareholders within the next few years.

The most important feature of this enterprise as a gilt-edge investment is,—THE DIRECTORS HAVE DECIDED TO DISTRIBUTE QUARTERLY AMONG THE STOCKHOLDERS 75 PER CENT OF THE QUARTERLY NET EARNINGS IN THE FORM OF DIVIDENDS, THE REMAINING 25 PER CENT TO BE HELD AS A RESERVE FUND FOR ACQUIRING ADDITIONAL THEATRES WHENEVER A GOOD OPPORTUNITY PRESENTS ITSELF.

FILM EXCHANGE

The Montreal Motion Pictures, Limited, expects to operate its own Film Exchange, which in itself should net the Company handsome profits as well as materially lessen the average expense, and provide an opportunity of declaring bonuses every three months in addition to the monthly dividends.

Only the highest class of films will be shown in the Company's theatres, and in renting these films to outside houses good prices will be obtainable.

CONTRACTS.

The Theatres above referred to are purchased under contracts, dated August 30, 1912, by and between Arthur M. Hirsch and Jacob Rubin, as vendors, and Nelson H. Truett and Arthur F. Emerson, as Trustees for Montreal Motion Pictures, Limited, Vendees.

WOODSTOCK CHEESE BOARD.

Woodstock, Sept. 12—The cheese board met in the council chambers of the City Hall yesterday, and much interest was manifested in the proceedings. Eight hundred and seventy boxes of colored cheese, the product of the Septembermake of seven factories, were boarded. The highest price paid was 13½c. Several factories refused this price, as it is 5-16c less than the price paid last week. On the 13th of September, 1911, the best prices offered on this board were 14¼c and 14 3-8c.

CITY OF MONTREAL
Direction of Public Works
Water Department.

TENDERS, under sealed envelopes, addressed to the Board of Commissioners, and deposited in their office at the City Hall, will be received until noon, FRIDAY, September 20th, 1912, for the laying of 6,200 feet of water mains, 16 inches diameter, in Notre Dame street, Longue Pointe Ward, from Trudel Street, at Beaurivage, to Axilda Street, at Tetreaultville.

All the pipes, specials, valves and hydrants shall be furnished and delivered by the City near the works.

All the other materials, tools, etc., will have to be furnished by the contractor.

Copies of the specifications and of the forms of tenders may be obtained by the interested parties at the office of the Superintending Engineer of the Water Department.

All tenders not made on the forms furnished for that purpose by the City of Montreal, and not sent in the printed envelopes also furnished for that purpose, shal' not be entertained.

No tender shall be considered unless accompanied by a cheque accepted by an incorporated Canadian bank, payable to the City of Montreal for the amount of $1,200.00, which said tender and cheque shall be enclosed in the envelope furnished for that purpose by the office of the Superintending Engineer of the Water Department.

The lowest or any tender shall not necessarily be accepted.

The tenders shall be opened in the presence of the interested parties by the Board of Commissioners, in meeting assembled, in the Board Room, City Hall, at noon, on Friday, the 20th day of September, 1912.

CHILD'S RESTAURANT

Will Not Be Further West Than Peel on St. Catherine Street.

The Childs Company, the McGill street restaurant people, is not after the Castle Blend Tea Company property, situated on the north-west corner of St. Catherine and Stanley streets. A 'Witness' reporter was told this morning that that property was too far west on St. Catherine street to suit the purposes of the company. Any site that it might purchase for the opening of an up-town business would have to be not farther west than Peel street, while a site a block or two farther east—near the corner of Mansfield street for instance—would be preferable. As the 'Witness' said on Feb. 15th last, a corner in that part of the city would find favor with the company.

So far, however, Childs' have been unable to secure a suitable site for the up-town branch; the high rents are said to have been the cause. Mr. S. H. Childs, of New York, the president of the company, has been expected here for the last three months, and, when he comes, some arrangement may be made, but the local officials of the business deny that the Stanley street corner is desired.

CRUSADERS' MATCH WITH THE GRAND TRUNK JUNIORS

Crusaders and Grand Trunk Juniors clash on Beaver Field, on Saturday, in the second round of the Quebec Cuy, in a game which will provide an interesting trial of strength between the second and third divisions of the P.Q.F.A.

Crusaders are a good second in the intermediate series, while the Trunk boys have an excellent record in the third division, heading the table, with an assurance of promotion next year.

The fact that several of last years Grand Trunk Juniors are this year with the Maltese Cross eleven adds interest to the combat. On paper Crusaders should win, but the youngsters are going into the game determined to die hard.

Crusaders will turn out—F. Harvey, Cunningham, Dundas, Seeds, Jude and Ballantyne; Bushell, Thompson, Orr, E. Harvey and Beattie. Reserves, Findlay, Cusack and Edward. Referee, Mr. Fielding.

It is, of course, impossible to know much about mining advertising, which offers probably the most speculative, and, therefore, the most risky of all investments. The great chances of gain are balanced by the great chances of loss, and no one should invest in a very speculative property more than he can afford to lose.

THURSDAY, SEPTEMBER 12, 1912.

The French were well advised in taking care to run no risks of a defeat in their first contest in Morocco. At the first rise of trouble they withdrew from the disturbed district around the city of Morocco and began to collect an army that they were sure would be irresistible before starting the march back to suppress the insurrection raised by Mohammed Hiba. From France, from Tunis and from Algiers forces were collected at Casa Blanca and marched inland to where the column was being collected within striking distance of the enemy's headquarters. Last Friday the forward march was started, and last Sunday after a fierce but short conflict the French army marched into the city of Morocco where the inhabitants are said to have showed signs of pleasure at their arrival. It seems that El Hiba has not proved popular as a leader even though as a usual thing it takes very little indeed to arouse the Moors against even a semblance of foreign aggression. Mohammed Hiba after the short resistance that he offered fell back with his following into the hills. There among the Berbers he will either shortly raise an army of considerable proportions or he will be displaced as a leader. The Berbers are a fighting race, and are certain to be deeply offended by the invasion of the French, though no greater good could come to them than such stability of government with justice as France is trying to set up.

HIGH FLYING.

Two recent flights have brought out astonishing results. At Houlgate, in France, Roland Garros flew in a monoplane to a height of 16,240 feet. Roughly speaking that is three miles, and as high as it is possible for people to breathe. Indeed, this flight had to be trained for by practising existence in rarefied air, and M. Garros took up with him a tank of oxygen in case he could not get enough into his lungs by quick breathing. The flight demonstrates that the aeroplane can already be used to heights beyond those at which human beings can live with any comfort. At a height of 16,240 feet the air would have just a little more than half the density that it has at sea level. A person would have to breathe therefore twice as fast to pass the same amount of life-giving oxygen through the lungs. Another serious discomfort is the temperature. The thermometer falls one degree for every three hundred feet of altitude, so that supposing the temperature at the earth to have been sixty Farenheit when Garros left the earth he would have been exposed to a temperature at the altitude he achieved of seven degrees above zero. We often know it colder than that in Montreal, but it must be remembered that while sustaining this cold he was exposed to a wind of about a hundred or perhaps a hundred and twenty miles an hour, for the aviator not only gets the velocity of his machine converted into a wind against him, but he has in addition the strong throw-back from the propeller, in the rear of which he sits. One other adverse condition must add to the bodily discomfort, evaporation from the body would be increased by the lack of atmospheric pressure. Balloonists have, to be sure, gone to almost double the height achieved by Garros, but they had the advantage of having no noticeable motion through the air, no need of having every faculty strained to the utmost, were able to encumber themselves with as many clothes as they liked, and were in constant use of their large supply of extra oxygen.

While the human machine in Garros' lungs, palpitating heart and respitory muscles had to contend with great cold and an air of only half the density for which it had been made and regulated by custom, the other machine on which his flight relied for success had these same difficulties to face. Like Garros, his engine was built with a certain breathing capacity which demanded a certain amount of oxygen at each inhalation to mix in correct proportion with its gasoline vapor. The aviator could by rapid breathing keep the proportions of the materials of combustion fairly balanced in his lungs. He could not, however, keep the proportions correct for his machine except by the process of gradually shutting off the gasoline. At the maximum of his flight he must have been burning just half as much gasoline per stroke as when he started up, and so getting just half the work out of each turn of his engine. To some extent this loss would be balanced by the swifter revolution of the propellor in the lighter atmosphere. There is, however, a limit to this adaptability on account of increasing friction and imperfect working at excessive speed. M. Garros evidently reached this limit. At the top of his flight his machine went dead, and from that great altitude he was forced to voleplane to the earth. The feat sounds easy, but it takes a master hand to perform. If he tips his machine too much he gets a terrifying speed that is likely to smash his wings when trying to check. On the other hand, if he goes too slow the machine will not pass over enough air to support it, and will pitch forward or backward out of control. The flight was a daring feat splendidly accomplished.

For future contests in the achievement of height there will undoubtedly be new developments of design. Cylinders will have to be doubled in size to develop the same horse-power, and propellers doubled to maintain the thrust. If the machine can be made to maintain the same effective horse-power at eighteen thousand feet its speed should be twice as great as it has but half the head resistance to overcome. That would be to give it a speed of two hundred miles an hour as the racing machines now in first-class contests do a hundred miles an hour or over. Moving pictures taken from such a machine in a flight across Canada would make a geography that would need no text and very little teaching. The rapid turning of its leaves would make of it a moving picture show. Such a work, however, is more likely to be accomplished by such dirigibles as Count Zeppelin is building in Germany both on account of their ability to carry greater weights and because of their greater steadiness. The flight of Mr. Vadrines at Chicago in which he won the world's championship for speed reached a maximum velocity of a hundred and five and a half miles. This is not equal to his own record made in France of a hundred and six miles an hour. In the hundred and twenty-four mile flight he only won by two minutes and a quarter over his only rival, Mr. Prevost, another Frenchman. All other contestants withdrew when Vadrines made his record. It is supposed they simply acknowledged themselves outclassed. No explanation has, however, yet been received, and something better than this is surely necessary to account for so many withdrawals of machines which had been erected at great expense especially for the contest.

STREET GRADES.

The frightful car accident on Cote des Neiges Hill on Tuesday brings again before the public very forcibly the lack of engineering skill, the lack of commonsense, or perhaps it would be better to say the lack of ordinary ability for government that has been exhibited in Montreal in laying out and then maintaining without radical correction its street grades. Which phrase of the above should be chosen depends upon which branch of the civic authority the blame most rests. Certain it is, as we have said before, there is hardly a country town in the West that would leave such easily corrected grades a permanent barrier to all traffic. The assumption in the engineering department of the city seems to be that a grade once established on a city street, and marked on its plans, is eternally fixed, and a thing not even to be questioned when new improvements are contemplated. In the East end of the city there is a long bluff, running parallel to Sherbrooke street and just below it, that is a nuisance to a very large part of the population of the city on their morning and evening journey to and from work. The properties on either side of the streets that mount this bluff are almost exclusively occupied by cheap buildings. They would all be immensely improved in value were the grade of the hills cut in half. The city could, therefore, fairly assess nearly the whole cost of improvement on the properties. There is no good reason why every street from Bleury to Amherst should not have an easy grade. Why should each of these streets go along on the level half the way from Ontario up to Sherbrooke, and then go up on a one in eight or one in ten incline? A little filling in is all that is necessary. The Canadian Northern would be glad to supply the material. With the slope made uniform from Ontario to Sherbrooke these streets would all be passable and useful to carry their share of the traffic.

Will it be necessary to wait for an accident on the steep pitch of Amherst street, just as it surmounts the bluff to Sherbrooke, before the civic authorities acquire sense and initiative enough to correct the error originally made in laying out the grade? It is a common thing for the loaded evening cars to get stuck going up. Sometimes it seems as if the power was insufficient, and a number of those who have been hanging on will escort the car up on foot, forming a bodyguard around it, each with his eye occasionally straying to the small piece of the footboard, back step, or buffer where his foot had found a precarious rest. More frequently the fuse blows out. Then if the motorman is not experienced and quick there is likely to be trouble and a block of some duration. Any day a car thus bereft of its power by an attempt to use more than the motor can carry may be the cause of a shocking catastrophe. This hill has an inexcusable grade of about one in ten, because the hill only runs half the block. An even grade from Ontario to Sherbrooke on this most important route would correct the grade to somewhere between one in fifteen and one in twenty, and make no part of the hill steeper than that part between Sherbrooke and Cherrier streets.

MR. ALLAN CAMERON DEAD

C. P. R. Traffic Agent Passes Away in London, England.

(Canadian Associated Press.)

London, Sept. 12. — The death is announced of Mr. Allan Cameron, second son of the late Hon. Mr. Hillyard Cameron, of Toronto, in his sixty-first year.

The late Mr. Allan Cameron was born at Toronto on March 14, 1864. He was married in June, 1895, to Margaret Ethel, eldest daughter of James Woods, New Brighton, Staten Island. He entered the service of the Great Western Railway in 1879, later the Northern Railway at Orillia, and the Canadian Pacific Railway service at Vancouver in 1883.

He held different posts in this company's road until 1901 when in January of that year he went to Hong Kong in charge of the Asiatic business of the Oregon Railway and Navigation Company's line of steamers as general agent. In 1905 he was called to London, Eng., as general traffic agent for the Canadian Pacific Railway for Great Britain and Europe. Since January, 1909, he has held the same position for the Canadian Pacific Railway at New York.

RAILWAY NEWS

The International Tickets Agents' Association, 150 strong which has been holding its annual meeting in Muskoka will pass through Montreal tonight en route to Quebec by the R. & O. steamers. Tomorrow thirty members of the Pennsylvania Railway Association will spend the morning in Montreal and at noon leave by the C.P.R. for Quebec where Saturday will be spent in seeing the sights of the city and in visiting Kent House and Ste. Anne de Beaupre. They will return to Montreal by Saturday night's boat and spend Sunday here, leaving by the New York Central lines for home in the evening.

DOUBLE-TRACKING PARTS OF MAIN LINE.

Mr. D. McNicoll, vice-president of the C.P.R., who accompanied Sir Thomas Shaughnessy on his western tour as far as Fort William, returned home last evening. He inspected the various C.P.R. works in progress at Fort William and also the 60 miles of double-tracking that is being done at different points along the main line between Fort William and Sudbury, which will facilitate traffic and prevent blockades.

ROLLING STOCK FOR GRAND TRUNK.

Rolling stock has been delivered to the Grand Trunk Railway, according to the company's latest report, as follows:—

(In Canada) 3 baggage cars from the Montreal shops making 13 cars delivered out of an order for 20.

Forty-five refrigerator cars, from the Canadian Car and Foundry Co., Amherst N.S.

One hundred and twenty-four box cars from the Canadian Car and Foundry Co. Turcot Que.

(In the United States) 93 automobile cars from the American Car and Foundry Co. Detroit Mich. completing an order for 250.

Three hundred and forty-one box cars from the Western Steel Car and Foundry Co. Hegeswich Ill.

Five hundred and twelve steel coal cars from the Pressed Steel Car Co., McKees Rocks, Pa.

Fifty tank cars from the American Car and Foundry Co. Milton, Pa., completing an order for 50 cars, dated July 25, 1912.

This makes a total of 1,168 cars recently received in addition to the G. T.R.'s present equipment.

PASSENGER TRAFFIC GOOD.

'Passenger traffic on the C.P.R.,' said one of the officials yesterday, 'shows no signs of decreasing. Besides the local events that are attracting outsiders to Montreal the through traffic keeps up wonderfully, and frequently the transcontinental trains are sent out in two sections. There is a growing demand for sleeping accommodation and it is a wise person nowadays who secures his berth in advance of the day he intends starting out on a journey.

Annual meetings of the Canada Atlantic Transit Co., and of the Canada Atlantic Railway Co., will be held in the Central Station of the Grand Trunk at Ottawa on Sept. 24th.

REPUDIATES HARDIE STATEMENTS.

Guelph, Sept. 12.—W. A. Lloyd, of Sydney, N.S.W., was an interested listener to the discussion at the Trades and Labor Congress the past couple of days. Mr. Lloyd was a member of the Labor Party in New South Wales for 10 years, and was a candidate in labor's interest at the last election.

He repudiates the sentiments of Kier Hardie, the British M.P., who gave utterance to views in strong opposition to Canada contributing toward either arm: or navy. Hr. Hardie's views, says Mr. Lloyd, find very little favor with the Laborites in the island continent.

NEW ZEALALNDER HERE.

The Hon. A. R. True, from the Antipodes, is a guest at the Windsor to-day.

PARKS COMMISSION LIKELY TO SEEK LARGER POWERS

Sir William Van Horne Elected Chairman and Mayor Lavallee Vice-Chairman—Co-operation of all Municipalities on the Island Necessary.

Sir William Van Horne was elected chairman and Mayor Lavallee vice-chairman at the first meeting of the Metropolitan Parks Committee which took place yesterday at the Mount Royal Club.

The deliberations were confined to a discussion of the objects and powers of the committee, and it is understood that possibly an amendment to the Act may be sought enlarging its administrative powers.

The success of the Committee under the Act as at present, depends on the co-operation of all the municipalities on Montreal Island, which cannot be taxed without their consent for the expense of the improvements to be carried out by the Committee.

The other members of the Committee, who were all present, were: Senator Boyer, Mr. W. D. Lighthall, Mayor Michaud, of Maisonneuve, Mr. J. C. Walsh and Controller Lachapelle.

The next meeting will be held on Saturday of next week.

SIR WILLIAM VAN HORNE.

CLOSING C.P.R. HOTEL SOON

Regret Expressed by Patrons of Fine Hostelry at Caledonia Springs.

Caledonia Springs, Ont., Sept. 12.—The statement is made that the Canadian Pacific Railway Company will close the splendid and commodious hotel here for the winter season at least on or about October 1 next. The decision of the company in this respect is much regretted among the many guests who have so frequently during the year enjoyed the comforts of the well-known hotel.

MR. J. S. DE BAY

The Caledonia Springs Hotel under the energetic management of Mr. J. S. de Bay, has been brought up to a standard of excellence unsurpassed by the best city hotels. Every possible comfort is to be had, while every convenience for outdoor exercise and sport is provided for the guests. The large grounds surrounding the hotel are beautifully and artistically laid out from a floral point of view, while the golf links and tennis courts are credited with being among the finest in the country affording devotees of these popular pastimes every opportunity to enjoy a game.

EUCHARISTIC CONGRESS.

Resources of Vienna Heavily Taxed To Take Care of Visitors.

Vienna, Sept. 12. — Both the early service and the sectional debates held at the Cathedral of St. Stephen this morning in connection with the 23rd Eucharistic Conference was largely attended by the members of the congress and by the general public.

The Emperor Francis Joseph, under whose protection the congress is being held, and the other members of the imperial family, received communion to-day in the Hofburg Church.

The Papal letter brought by Cardinal Van Rossum to Vienna thanked the organizers of the Eucharistic Congress unstintingly, praised the Emperor Francis Joseph and the members of the Imperial house, and wished the Congress a brilliant success.

The Pope called special attention to the need for care of the young lest they be led astray by deceitful teachings and temptations of the flesh. The Pontiff, in conclusion, conferred the apostolic blessing for the conference, the Emperor and the Imperial house.

Cardinal Franz Nagl, archbishop of Vienna, in the course of his speech said that the congress should be devoid of political character and should be purely an ecclesiastical celebration.

The city with its vast number of visitors and its gaily decorated streets presents an animated appearance. The feeding and housing of such an immense host is no easy task. The citizens of Vienna have responded generously to the appeals of the church and are entertaining great numbers of strangers, but it was necessary to put up several thousands in the schools and other public buildings.

BIG CONCERN SMASHED.

U. S. Motors Co., $42,500,000 Holding Syndicate, in Receivers' Hands.

New York, Sept. 12. — Receivers were appointed to-day for the United States Motors Company, a $42,500,000 holding corporation organized in 1908 to control ten automobile and gas engine manufacturing companies. Its directors number some of the best known capitalists in the country.

TILE AND MANTLE MEN.

The tile and mantle dealers of the city met in the board room of the Builders' Exchange this morning to consider the formation of an association. After the matter had been fully discussed, it was decided to defer action until a later meeting could be held with more dealers present.

DESCRIBED AS LABOR REBELS

I.W.O.W. Rapped in Spirited Debate at Guelph Congress

Guelph, Sept. 12.—The Dominion Trades and Labor Congress this morning engaged in a heated debate on a resolution introduced by Delegate Charles Nicholson, of the Twin City Trades Council, Berlin, recommending 'that a collection be taken up at the convention for two members of the Industrial Workers of the World now in prison at Lawrence, Mass.

Mr. Magnus Sinclair of Toronto, declared the organization seeking financial assistance had been antagonistic to the labor movement.

Mr. Wiley, St. aCtherines, likewise strenuously objected to the Congress placing itself on record as having contributed funds to the support of men connected with a rebel organization.

Mr. Rollo Hamilton, suggested that the resolution be dropped, and the mover be given permission to pass among the delegates if he desired to undertake the work of making a personal collection.

Mr. Pettypiece of British Columbia, strongly urged the Congress to support the resolution on the ground that the Industrial Workers, though a rebel organization, had helped to fight the battles of the labor forces affiliated with the American Federation of Labor and the Dominion Trades and Labor Council.

James Simpson, acting secretary, voiced protest against the resolution, which was followed by it being sent back to the executive for further consideration.

Other resolutions were endorsed as follows:

(1) The provincial executive uniformity of books not only in one municipality, but in all the municipalities in connection with the school system of Quebec.

(2) Condemning of the action of any company taking an injured worker out of Canada to avoid a coroner's inquiry except by distinct request of relatives, and urging the Government to insert a clause in all compensation acts in Canada to make illegal such action in the future.

(3) Suggesting the enactment of a law compelling the manufacturers and importers of cement to use containers that will reduce the escape of cement dust to a minimum for the protection of the workmen.

(4) Recommending that the Dominion Government appoint a chief labor commissioner under the general direction of the Minister of Public Works for the province of Quebec.

(5) That the Ontario Government having prohibited the cashing of pay cheques in hotels, the legislation be so amended as to make it unlawful to pay wages by the cheque system, but exempting the employees of transportation companies.

The election of officers will take place this afternoon. W. Glockling, of Toronto, has announced his candidature in opposition to President J. C. Watters and Gus Francq, of Montreal, will oppose Vice-President Bancroft, of Toronto.

After a spirited debate the Convention decided to send a fraternal delegate to England next year to attend the British Labor Conference.

OBITUARIES IN NEWS TO-DAY

MR. A. POWERS, K.C.

A telegram received has brought the news of the death of Augustus Power, K.C., I.S.O., at Vancouver.

The late Mr. Power was formerly chief clerk in the Federal department of Justice at Ottawa.

Deceased was 65 years of age. He was born in Quebec in 1847, the youngest son of the late Mr. Justice Power and Suzanne Aubert de Gaspe.

He was educated at St. Mary's College and McGill University, Montreal, being called to the bar of Quebec in 1874, when he entered the Department of Justice at Ottawa. He became chief clerk in 1879. He was employed on the revision of Dominion statutes in 1887 and in 1902 was appointed commissioner for the revision of statutes.

Deceased married in 1885 Leleah daughter of the late Rev. Edmund Crawley, D.D., of Nova Scotia, and relict of the late Seymour Tobin, R.N.

The late Mr. Power leaves one son and one daughter to mourn him. His death is keenly regretted by a wide circle of friends.

MR. PETER D. DAVIS.

Adolphustown, Ont., Sept. 12.—Peter D. Davis, one of the oldest residents of this locality, died at the Davis homestead, near the U. E. Loyalists chapel, at the age of 85 years.

The late Mr. Davis was of true U. E. Loyalist stock, his father, Henry Davis, having come to Canada under Major Van Alstyne. He resided all his life on the farm granted to his father by the British Government in recognition of his loyalty.

STORM DID BIG DAMAGE

Eastern New York and Western Connecticut Had Sore Time

New York, Sept. 12.—From all parts of eastern New York and western Connecticut there came to-day reports of the heavy damage caused by high winds and hail during a brief but severe storm last night. The loss to the Connecticut tobacco crop from the storm is estimated at $100,000. The hail stones in some sections were so large that they went through the roofs of barns and outhouses, while hundreds of windows were shattered.

In the vicinity of West Point the wind was very violent. Fifty trees on the military academy camping ground were uprooted, telephone and telegraph wires were torn down and considerable damage was done to crops and many houses.

Lightning started scores of fires in Connecticut villages. At Flushing, N.Y., the electric lighting system was put out of commission for 24 hours by a bolt, and at Manhasset, N.Y., Christ Church, one of the oldest and most imposing church edifices on Long Island, was hit and burned to the ground.

In New York city the storm showed its most destructive phase at the Bronx zoological park, where lightning wrecked the 'raising ranch,' a section of the park devoted to the cultivation of domestic animals to be used as food for the denizens of the cages and dens adjoining the closure. The raising ranch just before the coming of the storm had more than 3,500 chickens, pigeons, and guinea pigs, all of which were killed, with a cost to the park of $10,000.

WANTS INSTITUTE OF JOURNALISTS TO COME

Board of Trade Sends Telegram of Invitation.

At the weekly meeting of the Council of the Board of Trade yesterday afternon the executive committee reported the endorsement of an effort being made to induce the British Institute of Journalists to hold their next annual conference in this city, the following telegram having been sent to its president on 23rd ult:—

'Montreal Board of Trade wishes Conference every success, and hopes that the next one will be held in Montreal.'

As already reported in the 'Witness' the effort of the Canadian Division to hold its 1913 Conference in Montreal to hold its 1913 Conference in Montreal has been successful.

GUATEMALA AND SALVADOR GOOD FRIENDS

Panama, Sept. 12.—In connection with the rumors current on the Isthmus that a conflict between Guatemala and Salvador was imminent, Dr. Manuel Araujo, president of Salvador, has cabled to the Salvadorean minister at Panama the following message: 'The relations between Salvador and Guatemala are cordial. My government will maintain peace with its neighboring countries, no matter what may be the sacrifice.'

MISS PANKHURST IN PARIS.

London, Sept. 12.—'Votes for Women,' the official organ of the militant suffragettes, announces that Miss Christobel Pankhurst, who evaded arrest when her mother, Mrs. Emmeline Pankhurst, and Mr. and Mrs. Pethick Lawrence were arrested and tried for conspiracy, is now established in Paris, from which city she will direct the political side of the movement.

The suffragettes legally advised Miss Pankhurst that she was free from arrest on the warrant still out for her as her offence, being political, is not extraditable.

JEALOUSY AND MURDER.

Boston, Sept. 12.—Insane jealousy was the cause of the murder of Mabel Slayton at a third-class hotel in the west end yesterday, in the opinion of the police. The Slayton girl was killed by Frank Ogilvie, a young ice wagon driver of Melrose, who ended his life in the same way. The police say that Ogilvie had associated with Miss Slayton during the past year and was jealous of an employee of the hotel where the tragedy occurred. Miss Sayton was formerly a resident of North Sydney, N.S.

NOT A CAR RUNNING.

Duluth, Minn., Sept. 12.—Duluthizens walked to work to-day, for the strike of the street car employees has effectually tied up the system and not a car was run. Despite the stories of fatal disturbances last night there was no rioting. The company officials say there is nothing to arbitrate, but city officials and other societies are heading a movement for arbitration.

G.T.R. PRESIDENT AT OTTAWA.

Mr. E. J. Chamberlin, president of the Grand Trunk and Grand Trunk Pacific; Mr. A. W. Smithers, president and chairman of the board of directors, and Mr. Wainwright, vice-president, went over to Ottawa on a special train this morning, and are expected to return this evening.

McGILL COAL

Did Carters for Coal Company Deliver Load to the College?

Peter Finn, Joseph Power and Joseph Mortimer, employed as carters by the Hartt and Adair coal company, were charged in the Enquete Court yesterday, with the theft of a ton of coal from the waggon of one of the two who was on his way to McGill University.

Instead of taking the order to the University it was claimed they met on Inspector street and between them emptied a ton in the cellar of a house there.

The coal was listed at $7 a ton by the company.

Pleading not guilty, the men were remanded for enquete on the 13th.

NEW DOMINION BANK PRETENTIOUS STRUCTURE.

Toronto, Sept. 12.—Plans for the new Dominion Bank building to be erected at the corner of King and Yonge streets, and running south to Melinda street, are nearing completion. The building will be the most pretentious of its kind in Canada, costing several millions, and one of the most complete, largest and most imposing bank structures on the continent.

FIRE RAZED PARRY SOUND VENEER MILLS.

Parry Sound, Ont., Sept. 12.—The large veneer factory, mills, drying kiln and drying sheds of the Niagara Veneer and Basket Company and George Neibergall & Sons, as well as the lumber and part of the logs in the yard, were entirely destroyed by fire, which broke out yesterday in the noon-hour, while the workmen were absent.

The flames spread with such rapidity that it was imposible to save either outbuildings or yards. Several boat houses were also burned. The loss is estimated at $100,000, with insurance of $25,000.

CABINET COUNCIL

Mr. Borden Presided at First Meeting Since His Return.

Ottawa, Sept. 12.—Premier Borden presided this afternoon at the first cabinet council held since his return from Europe and most of his colleagues were present. Only routine matters, it is understood, were discussed, but questions of a larger policy and future legislation of the government will be taken up, however, very shortly.

It is understood that the Premier feels his hands considerably strengthened since he witnessed the remarkable demonnstrations held in his honor at Quebec, Three Rivers, Sorel and Montreal. He is looking forward to the notable banquet to be held in Montreal on Sept. 21, when he may make important announcements as to the attitude of the government on certain public questions.

MUCH TATOOED MAN.

Mr. J. H. Frohman, one of the crew of the steamship 'Victorian,' now in port claims to be the most tatooed man in the world. The number of his tatooes is 221, and there are some that have been drawn by clever artists. The largest tatoo which is on his breast gives a tropical scene in India. Many different animals are shown, and the picture measures some thirty inches all around. He states that he is in receipt of scores of letters from circusses offering him large salaries.

IN LIGHTER VEIN

WRONG SIDE OF THE FENCE.
(Kansas City 'Journal.')

An office seeker was pleading for votes at a picnic adjoining the Osawatomie Asylum grounds. 'The trouble is you farmers are not getting enough for your products,' he said. 'You are entitled to get more.' Then turning to a bunch of laboring men, from the town, he said. 'Something must be done to bring down the cost of living to you. I propose to help make life easier for you.'

An insane man standing on the asylum grounds over the fence from where the spellbinder was holding forth took a hand in the conversation.

'You expect to bring down the cost of living to the laboring man in town by raising the prices of farm products?' he asked.

'Well, er, that's the idea,' replied the spellbinder.

'Better climb over this fence,' said the crazy man. 'You belong on this side.'

HE HAD AN EXPLANATION.

A committee had the State Senator on the carpet.

'Didn't you promise, if we elected you to get our county good roads?'

'Why, certainly, gentlemen.'

'Did you do it?'

'No. You see, airships are getting very common now. I thought we'd better wait a few years. Maybe we won't need any roads at all then. Fine weather for corn, isn't it?'—Kansas City 'Journal.'

TOO MUCH OF A GOOD THING
(From the 'Youth's Companion.')

'I was very happy,' said the professor, 'when after years of wooing she finally said "Yes."

'But why did you break the engagement so soon after?' asked his friend.

'Man, it was she who dissolved it.'

'Really?' said the friend. 'How did that happen?'

'It was due to my horrible absentmindedness. When a few days later I called at her home I again asked her to marry me.'

....

A PASTIME SPOILED.
(Washington Star.')

'It is getting to be more and more dangerous to rock the boat,' said the vapid youth.

Why, boats are harder to upset than ever.'

'Yes. But feeling had grown so strong in the matter that ssome prejudiced person in the boat is almost sure to give you an uppercut as soon as you start.'

THE EXCEPTIONAL INSTANCE.

A teacher was explaining to her class the meaning of the word 'axiom.' 'An axiom,' she said, 'is a self-evident fact or proposition. That is, it is something which you know to be true — something which, in the very nature of things, cannot be otherwise than true. For example, it is a well known axiom that the whole is greater than any of its parts—to state it in another form, the half of anything is less than the whole of it.

'Teacher,' exclaimed a little boy, 'I know the half of something that's bigger than the whole of it.' 'You surprise me, child,' said the teacher. 'What is it?'

'A semicolon,' answered the lad. 'It's bigger than a colon!'

Sergeant—'Now, then, Murphy, what's the trouble?' Murphy—'Im looking for me belt, sar'nt.' Sergeant—'Well, man, you've got it on!' Murphy—'Thankee, sar'nt. If you hadn't told me I would have gone out without it!'

2,000 PERSONS WERE IN PERIL

Excursion Steamer Ran on Reef in New York Harbor.

New York, Sept. 12.—The Hudson County Democratic Club, formerly the Robert Davis Association, of Jersey City, 2,000 strong, had a narrow escape from drowning last night, when the iron steamboat 'Perseus' ran on a reef opposite the College Point ferry house. The boat was badly damaged, and the inrush of water stopped the engines and cut off the electric lights on all the decks. A panic followed, but brave and efficient work by the crews of two tugs prevented any fatalities.

The tugs, one of which was the 'Alice, of Astoria,' showed the sinking 'Perseus' into the ferry slip a quarter of a mile away from where it had struck the reef. The tugs got the 'Perseus' into the slip before it sank, and all aboard were landed in safety.

Captain Moses Osborne, who was in command of the 'Perseus,' has been running to College Point for years. He said he had never known of the reef on which the 'Perseus' struck.

MAISONNEUVE

Bylaw Adopted to Regulate Steam and Other Motor Trucks.

The Council of Maisonneuve held a meeting last night under the presidency of Mayor Michaud, at which Councillors Frasers, Dufresne, Belanger, Tremblay Lemay and Germain were present.

The secretary read a letter from the Degris Company (Limited), submitting an offer to construct ten kiosks in the town to contain meteorological instruments indicating changes in the weather and clocks giving the correct time. A part of these kiosks is to be devoted to the display of advertisements. These kiosks are to be constructed of iron on stone foundations. The company asks permission to place these kiosks in the most prominent parts of the town, and an exclusive right for ten years; also for the surveillance of the police, the company undertaking to keep the kiosks in good order and to defray all costs and expenses.

The secretary was instructed to write to the company asking them to send plans and specifications of the kiosks, which it was represented, are not to be devoid of elegance.

A by-law concerning the hauling of merchandise and building material through the streets was adopted. The first section prohibits the transportation of merchandise of building materials by means of truck or vehicles driven by steam power, or hauled by steam motors, unless motors and other vehicles are provided with rubber tires. This provision does not apply to vehicles running on rails. All persons acting in contravention of this by-law shall be liable to a fine of $20, or in default of payment to imprisonment not exceeding one month. The penalty will be incurred for every day that the offence is continued.

As complaints against the tramway service on Ontario street continue to be received Mr. A. Gaboury was requested to make an inspection and report to the council.

Dr. Lussier, medical officer, was necessary to install the laboratory instruments required for the laboratory, also to report upon the changes necessary to instal the laboratory in the new Town Hall.

The request of Councillor Tremblay for sidewalks for the east side was referred to the superintendent of roads who is to see what is necessary to be done in the matter.

DENVER NOW.

Sixty Officials and Others Indicted For Alleged Maladministration.

Denver, Colo., Sept. 12.—More than sixty persons named in forty-six true bills returned by the county grand jury, were expected to appear in court yesterday to give bond. These included present and former city officials, corporation heads, prominent business men, members of the board of education and men and women of the underworld.

Among the first to respond to official summons were: Chief of Police Felix O'Neill and A. A. Blakely, of the fire and police board, indicted in connection with the vice crusade; E. B. Field, sr., and E. B. Field, jr., president and vice-president respectively, of the Telephone and Telegraph Company, charged with obstructing public streets.

TO CONFER REGARDING LORD'S DAY ACT.

Toronto, Sept. 12.—The Rev. W. M. Rochester, of the Lord's Day Alliance, goes to Quebec next week to confer with Sir Lomer Gouin, Premier and Attorney-General of the province, regarding the Government's attitude toward the Lord's Day Act. Some time ago the Supreme Court declared the provincial Sabbath law ultra vires inasmuch as it conflicted with the Dominion Lord's Day Act. Notice of appeal was given, but action was delayed.

Mr. Rochester is confident that Sir Lomer will not press the appeal, provided he is convinced of the provincial law being ultra vires.

LOTBINIERE ELECTION CASE.

Quebec, Sept. 12.—The federal contested election case of Lotbiniere was called in the Superior Court yesterday, Chief Justice Lemieux and Judge Dorion presiding. The Hon. L. A. Taschereau, representing the Liberal candidate, Mr. Fortier, whose preliminary objection had been dismissed last May, moved to strike the case from the roll on the grounds that his client had appealed to the Supreme Court, and that the petitioner Bergeron, had not given a legal notice, which should be in time to notify all the municipalities in the county that the case had been fixed for to-day. The judges wil render a decision on this point to-day, when it is probable that they will grant Mr. Taschereau's motion and adjourn the case until notification has been given to all the municipalities.' Over a hundred witnesses from the county were in court to give evidence in the case.

KILLED BY A STREET CAR.

Toronto, Sept. 12.—Ground under the wheels of a suburban car at Lansdowne Avenue and Devenport Road yesterday morning, William Burke, 37 Hook Avenue, West Toronto, a night watchman employed on the civic construction work at St. Clair Avenue, had his right leg torn off above the knee, and his left leg broken. He died an hour after in the Western Hospital.

WHITE PLAGUE FIGHT

Hospitals Will Be Established in Newfoundland by Reids.

St. John's, Nfld., Sept. 12.—The announcement that the Messrs. Reid would give a tubercular hospital to the people of Newfoundland was yesterday supplemented by the official statement that Mr. W. D. Reid, president of the Reid Newfoundland Railway, together with his two brothers, Messrs. H. D. and R. G. Reid, have decided not only to build a hospital for tubercular treatment in the city of St. John's, but will likewise give fifteen cottage hospitals for the same purpose.

The Messrs. Reid, coming in contact with the workingmen as well as the fishermen of the colony during the carrying out of their many enterprises in Newfoundland, have reached the conclusion that diseases of a tubercular nature had gained more than an ordinary foothold in the island, and that little had been done to combat the disease either in the capital city of St. John's or in the several rural districts of the colony. With the object of furnishing the people of the island the necessary hospital treatment and placing the medical fraternity in a better condition to carry on an anti-tubercular campaign, the Messrs. Reid will build an institution to cost $100,000, at a spot about one and a half miles from the city of St. John's, and fifteen cottage hospitals at as many outside points.

MR. BISPHAM TO-MORROW.

The David Bispham Recital in the new Y.M.C.A. Hall to-morrow evening promises to be a delightful musical event. Besides marking the opening of the musical season, it is also his first recital to be given in the new Association Auditorium of the Central Y.M.C.A. building on Drummond Street. This hall promises to be a popular home for the giving of chamber musical concerts and vocal and instrumental recitals. Mr. Bispham's programme on Friday evening is an all-English one, and he will be assisted by Mr. Harry M. Gilbert, pianist.

ALBERTA LICENSE SUBSIDY.

Ottawa, Sept. 12.—The Alberta Government has signed the agreement with the federal authorities by which it secures the subsidy voted last session under the act passed to encourage agriculture. Every province now except British Columbia has availed itself of the subsidy and has reached an agreement as to the way in which the money is to be spent. The British Columbia agreement will be signed shortly.

SOCIAL WORK FOR STUDENTS

Professor Fraser Explains Plans for East End Settlement

CHURCHES CREEPING OUT.

But Will Be Invited to Send Their Social Workers to Special Classes.

Professor D. A. Fraser, who made a special report to the Presbytery this week on the subject of the new East End Social Settlement, explained to a 'Witness' representative some of the details of the scheme and of the motives which prompted the movement.

It is evident that the social conscience of the people of Montreal has been, to some extent, awakened. Pro-

THE REV. PROF. FRASER.

He explained to-day what is expected from the Presbyterian East End Settlement.

fessor Fraser says there is no lack of real interest in the work or of helpers to carry it on. The cost of buildings and equipment has to be defrayed locally, but money to pay the necessary salaries in connection with the institutions which are being set up will be paid by the General Assembly's Board of Social Service.

The field of their present labors is that district lying east of St. Lawrence, which, Professor Fraser remarked, seems to be the field where the work will be most effective. The social problem in Montreal has become very complicated recently. Until within the last few years it was comparatively simple owing to the fact that it largely centred round the question of the relations between the English and French populations. In late years, however, the social problems have become extremely complex, owing largely to the fact that there has been such an increase in the number of immigrants of other nationalities.

A SUBSTITUTE FOR THE CHURCH.

In combination with this is another serious state of affairs. The tendency of the churches is gradually to creep out to the outskirts of the city, and leave the centre barren of any religious influences. It is to offer some substitute for this deprivation that the settlement will be formed. It is only the nucleus of a very much larger and deeper movement that the initial stages would lead one to believe.

In the first instance there will reside in the settlement three ladies, who have been specially trained in social work in New York. One of these will act as general superintendent, while each of the others will interest themselves in gymnastics and club work respectively.

PRACTICE FOR STUDENTS.

There is an agitation on the part of the Presbyterian College that some opportunity for practice in social work should be offered to the Theological students, and it is hoped that before long the settlement will be the means of introducing just such a chance. In the first instance, however, owing to the limitations within which their premises confine them, the influence and work of the missionaries will be almost entirely focused on the women and children of the district. Clubs and classes are rapidly being organized on such lines as the experts conclude are demanded by the peculiarities of the district with which they are connected.

TRAINING CLASSES.

Prof. Fraser hopes that yet another valuable influence will be exerted by the settlement. The churches will be invited to send their social workers to special classes which will be formed to give them scientific training and then they will be able to return and apply their expert knowledge to the more parochial needs of their particular churches. Classes will be formed for those who wish to undertake social work either voluntarily or professionally.

Already, where a similar movement has been effected in Toronto, there are two hundred students, and Professor Fraser anticipates that no fewer will collect in the Montreal classes, as there is no lack of enthusiastic volunteers amongst the young men and women of the city.

SHOULD KEEP OFF THE 'MANXMAN'

Thomas Tucker was fined $5 and costs in the Enquete Court yesterday for going aboard the S.S 'Manxman' without the permission of the master. This was his first arrest. It was also charged that meals intended for longshoremen were gobbled up by Tucker, and other men like him, who came under the guise of calling on friends.

EARRINGS MISSED FROM SS. 'SATURNIA'

Charged with stealing ear-rings and a pipe, the value of which was placed at $2.50, Joseph Fournier, Joseph Lamay and Arthur Morais pleaded not guilty in the Enquete Court yesterday, and will have a hearing on Friday. The stolen goods were taken from the cabin of the S.S. 'Saturnia' during the last voyage, and three of the crew were suspected.

Y.M.C.A. CAFETERIA OPEN.

The Cafeteria in the new Y.M.C.A. building was opened on Tuesday by a supper served in cafeteria style to the men resident in the dormitories. The splendidly equipped new dining-room was filled to its capacity, and although the self-served plan was being operated for the first time, everything went on smoothly as if both the staff and those being served had been accustomed to the new plan. Including a private dining-room, there is accommodation for one hundred at a single sitting. The main dining-room is attractively finished in weathered oak and equipped with furniture to match, thus affording one of the most desirable dining places for men in the city.

LIFE-SAVING REGULATIONS.

Washington, Sept. 11.—Modifications of life saving regulations submitted by the federal supervising steamboat inspectors to Mr. Nagel, Secretary of Commerce and Labor, for approval, would permit the lesser life boat requirements of the summer season to remain in force until October 15 for all Atlantic and Pacific coastwise vessels.

The season, under regulations issued a few months ago as a result of the Titanic disaster, now runs from May 15 until September 15 during which coastwise steamers are required to have lifeboat equipment for only sixty per cent. of passengers and crew. During the rest of the year, however, they must provide lifeboats and rafts for all. The proposed modification would not affect the ocean, lake, bay, sound or river steamers.

THE OLD SAW-OFF.

Toronto, Sept. 11.—North Middlesex and North Essex on the one hand, and East Middlesex on the other, are the actors in the well-known drama of the saw-off.

The Liberals of North Essex protested the return of the Hon. Dr. Rheaume, and those of North Middlesex contested the return of Duncan McArthur in the local house in an effort to compel Mr. Geo. W. Neely to give up his fight to unseat Mr. Robt Sutherland, the Liberal victor in the Conservative stronghold of East Middlesex.

Since then Sutherland has died. Notice of the withdrawal of the protest against his return, has been followed by service of notice of withdrawal in North Essex and North Middlesex. The court will fix a day for formal hearing of application to withdraw. The writ for the by-election in East Middlesex will follow shortly.

ELECTION PROTEST.

Quebec, Sept. 11.—The Lotbiniere protested election case is expected to proceed to-day. Judge Lemieux having appointed this date for the hearing.

At the last federal election, Mr. Fortier, the ex-Liberal member, was re-elected, but his election was contested and he filed preliminary objections, which were subsequently dismissed with costs. Mr. Fortier appealed to the Superior Court from Judge Dorion's decision, but in the meantime the plaintiff moved to have a day fixed for proof and hearing.

LIKED THE ROADS.

Grand Forks, N.D., Sept. 11.— Enthusiastic over the good roads which have been built by the Meridian road forces, working between here and Winnipeg, officers of the Meridian Highways Association reached here last night, closing the first day of their tour of inspection, which will take them to Galveston, Texas.

CARDINAL COULLIO DEAD.

Lyons, France, Sept. 11.—Cardinal Peter Hercules Coullio, archbishop of Lyons, died here this afternoon. He had been ill for some time. Cardinal Coullio was born at Paris in 1829 and was created a cardinal in 1897 by Pope Leo XIII.

Of Interest to Women.

The Witness' Daily Fashion Hint.

DRAPED GOWN IN FASHION.

Illustrated are two gowns designed for early autumn wear—one of satin, the other of charmeuse. Both are made with full draperies, resembling the panier, and both are relieved by a touch of white at the throat and wrists.

THE HAPPY MEDIUM.

The people who are able to make the most of life are doubtless those who are able to hit the 'happy medium' in everything, observes a writer in the 'Lady's Companion.'

It is not always easy to do this, mental vision is often defective, people cannot always distinguish the true value of things. It is almost certain that we can have too much of even things which are intrinsically good in themselves.

'Nowhere is this happy medium required more than in the household; for want of it, the best intentioned woman will fail. Take the virtue of cleanliness which is said to be next to godliness, how it can be overdone! Who does not know the woman who is always sweeping and dusting, clearing up, and making tidy, and never has a quiet moment to herself, or indeed allows a quiet moment to anybody else in her immediate neighbourhood. How she nags at her husband for coming in with dirty boots, how uncomfortable children are made to feel, if by chance they should leave any litter about, or spill something on the cloth. Things must not be used in the house for fear of making them dirty, and every crumb must be swept up as soon as dropped. Truly, like Mrs. Joe in Dickens' immortal work, "she has the exquisite art of making her cleanliness more uncomfortable and unacceptable than dirt itself."'

Economy can be practised so strenuously that it becomes akin to stinginess, and giving indiscriminately is a form of extravagance.

There is such a thing as being too unselfish, for the good of others. The mother who is so unselfish that she never thinks of her own rights at all, is very liable to see her children grow up selfish.

TO AVOID WRINKLES.

Wrinkles, when they come comparatively early in life, are more often than not the telltale imprint on the face of worry, brooding and unhappiness, facial mannerisms, or possibly bad temper. With a mind at ease the tendency to wrinkles is overcome. Happiness also leaves its marks; but laughing wrinkles are not unbeautiful like those left by dissatisfaction. If the beauty doctor, after smoothing out wrinkles, could only follow up the treatment with lessons in thought-control and mental poise, the cure would be complete.

Undue use of the facial muscles produces wrinkles in no long time. The girl who frowns frequently, even though it be only from concentrating her thoughts, or when she is studying, will see her forehead disfigured by two upright lines, which, in time, will become indelibly fixed. Wrinkles around the eyes often come from straining those organs through near-sightedness or some other defect of vision, which should come under the care of the oculist.

Lack of sleep, either from sitting up too late or from insomnia, is a fruitful cause of fine lines that deepen into wrinkles. The saying that an hour's sleep before midnight is worth two hours' sleep after that time is based on experience. If one does not go to bed until midnight or after, the vital energy is so near exhaustion that renewal has to begin almost at the beginning, as it were. The old rule for the 'beauty sleep' was two hours before midnight. Insomnia, unless it comes from some nervous disorder or other ailment that needs medical attendance, can often be overcome by simple, natural means. Some persons find that a drive in the open air just before bed-time makes them sleepy. Often a bath at blood heat, perhaps followed by a cup of hot milk, induces sleep.

VARIATIONS OF TOAST.

Nicely-made buttered toast suits the taste of most persons, but sometimes it is desired to turn the toast into a more elaborate 'dish.' Following are a few varieties:

Bohemian Toast.—Beat up two eggs well and blend with half a cup of milk, a seasoning of salt and pepper and a teaspoonful of onion juice. Dip into this mixture stale slices of bread and fry them a nice brown in a well-greased pan. Creamed peas or fried tomatoes with cream sauce may be placed on top of the slices of toast.

Cheese Toast.—Toast slices of stale bread, butter lightly and cover with a slight sprinkling of grated cheese. For five slices make a sauce with half a pint of milk, two level tablespoonfuls each of flour and butter, salt with pepper to taste. When done stir in a teaspoonful of butter. Pour over the toast; sprinkle lightly with more cheese; dust with a little paprika, set in the oven for a few minutes and serve. Another kind of cheese toast is made as follows: Toast thin slices of bread a light brown and butter while hot. Heap thinly shaved rich yellow cheese on each slice; dust with a little dry mustard, salt and cayenne and place on a platter. Set the dish in the oven until the cheese begins to melt, then serve at once.

Tomoto Toast.—Take two eggs, two small tomatoes, two ounces of ham, an onion, and make some slices of buttered toast. Peel, and chop the pulp of the tomatoes, mince a slice of the onion and the ham. Put a lump of butter in a small saucepan, add the mince and cook a minute. Remove from the fire; add the eggs well beaten, and stir, and cook over hot water until the eggs are thick but not cooked hard. Spread quickly on buttered toast and serve hot.

Bloater Toast.—Put the bloaters in boiling water and let them simmer gently for two or three minutes or until the skin can be drawn off easily. Skin them and lift the meat from the bones. Brush with butter, and dust lightly with pepper, then lay between slices of buttered toast. Cut in neat squares and place in the oven long enough to get very hot, then serve.

Egg Toast.—Beat an egg lightly, in a shallow pudding-dish; add a saltspoonful of salt and a cup of milk. In this soak about half a dozen slices of stale bread until soft, changing the lower slices to the top, and dipping the egg over them so that they will soften without breaking. Butter a hot griddle; put in the slices and brown them on one side, then dot the top of each slice with butter and turn it down in the pan to brown. Sprinkle with sugar, and dust slightly with cinnamon, and serve hot.

THE 'WITNESS' DAILY PATTERNS.

The home dressmaker should keep a little catalogue scrap book of the daily pattern cuts. These will be found very useful to refer to from time to time.

WATER IS FAIR

Guybourg Residents Are Not Given Unwholesome Fluid.

Dr. St. George, city analyst, will complete his analysis of the water supplied to the residents of Guybourg, in Longue Pointe Ward, to-day. He said that it was sufficiently advanced to prove that the water was not unwholesome. A few changes will be recommended. All the city can order the company to do with the water, said Dr. Laberge, is to sterilize it. The city cannot take it over by breaking a contract on one of his reports.

STEWARD BURIED ASHORE.

The burial of Mr. W. E. Roberts, the unlucky steward of the steamshin 'Laurentic,' who met his death on Tuesday by falling into the hold, took place to-day. Although the officers of the vessel desired to give him a sailor's burial at sea it was rendered impossible by the fact that the 'Laurentic' does not leave port for several days.

MANY DARK ROOMS

Dr. Louis Laberge Would Prosecute Owners of Such Houses.

Dr. Louis Laberge, city medical health officer, reported to the Board of Control to-day that his inspectors have just visited many new dwellings, and they report that these have more dark rooms in them than the old houses in the city. He asks authority to take action against the builders of such houses.

Dr. Laberge also asks to have a cemetery found within the city limits to be closed and the bodies removed.

FUNNY PICTURES

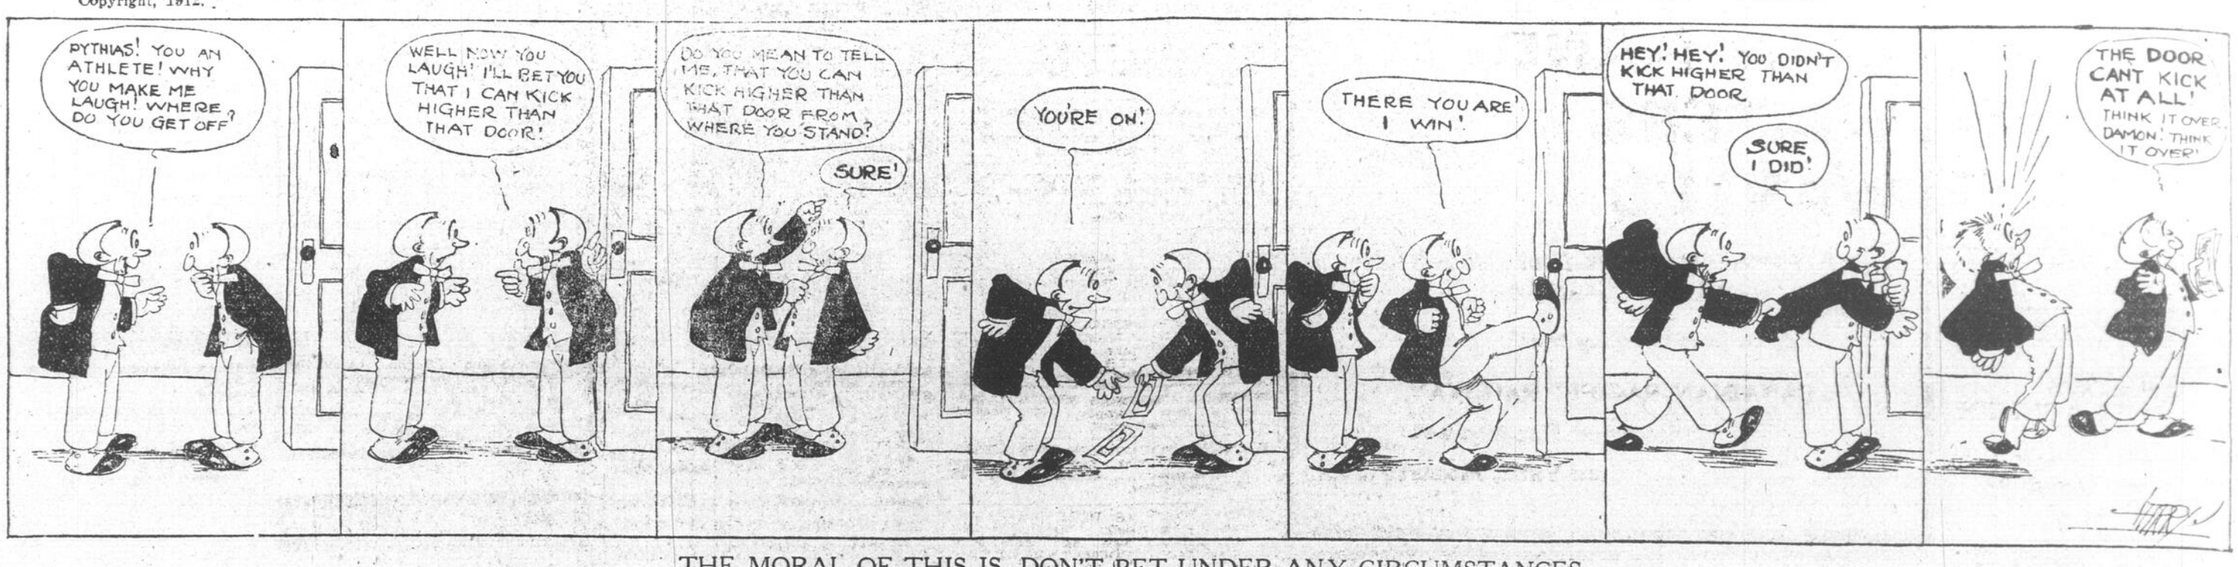

One of the New Features, which our readers are already praising, is the use of really good comic pictures. On Saturday the amusing adventures of Mr. Twee Deedle were commenced. They will be continued next Saturday and the following Saturdays as long as the series last. This week we introduced two creations of one of the great newspaper artists, funny fellows who bear the classic names of Damon and Pythias. Their amusing and frequently incredible adventures will be continued to-morrow.

TEST IN GERMAN.

Ottawa Man Examined in Claim Case For $64,000.

St. Lous, Mo., Sept. 12.—In the cross-examination to-day by Benjamin Foster Moynihan, of Ottawa, Canada, who claims a son's inheritance in the $64,000 estate left by Jeremiah Moynihan, 'the millionaire rag picker,' he was asked by the probate judge to count in German. He said that Jeremiah Moynihan was the son of a German, and said he spoke German himself. He counted well until he got to 'Sieben,' his pronounciation of which the court questioned.

Moynihan was the only claimant questioned to-day, but just before court adjourned for the afternoon Mrs. Ruth A. Cross, of Oregon, Ills., filed an affidavit in which she stated she was a daughter of Jeremiah Moynihan. Six hundred other claimants will contest for the estate.

POLICE WILL HIT BACK.

Duluth, Minn., Sept.12.—Scores of deputies were sworn in by Sheriff Meining to help the police in their efforts to prevent further rioting, anticipated in connection with the street railway strike. Car service will be suspended to-night. There are plenty of men to run the cars, but they dare not take them from the barns. Railways with running lines to the outskirts of the city have put on trains which stop at each block to be run morning and evening.

'I have never seen a mob exhibit more frenzy than that of last night,' said Chief of Police Troyer. 'I shall order violence for violence to-night if the mob starts it.'

RUTHENIAN BISHOP.

Winnipeg, Sept. 12.—Word has just been received here of the appointment of Rev. Nicholas Boodka, of Galicia, as bishop to rule over the Ruthenian Catholics (Greek rite in communion with Rome) of Western Canada.

THE

PATH OF GLORY

A ROMANCE OF THE FRENCH AND INDIAN WAR.

BY

PAUL LELAND HAWORTH

(Copyright, Little, Brown, and Co., Boston.)

SYNOPSIS OF PREVIOUS CHAPTERS.

On the eve of the French-Indian War, George Washington, in company with Charles Randolph, a young Englishman, an Irishman, Baraby Currin, Jacob Van Braam, a Dutchman, and a number of Indians, is the bearer of a menacing letter from the British governor of Virginia to the Chevalier de Saint-Pierre, commander of a fort near Quebec, accusing the French troops of encroaching on British territory. The envoys are gallantly entertained by the Chevalier and his beautiful daughter, Alfrede, but Captain Reparti, commander of another French fort, shows hostility, and plans to surprise the Britishers; however, they receive a timely warning from Alfrede. Charles Randolph is given the captaincy of a company in the army, while Barnaby is made a lieutenant. The Chevalier de Saint-Pierre is summoned to Quebec for military orders, and Alfrede, who bids good-bye to the old fort, follows in company with her trusty servants. On the way they are taken captive by a squad of Indians, who never hear their plans, and Alfrede is on the point of being burnt to death when she is rescued by Charles Randolph, Banaby, and their company. Randolph escorts her to within sight of Fort Presqu'Isle, where she is discovered by Captain Reparti and his men. The captain discovers the whereabouts of Alfrede's rescuers, and he cunningly inflicts a great massacre at the British fort, and takes Barnaby's family prisoners. Randolph and his men set out and liberate the captives, but they are unable to find Barnaby's little boy. In a battle with the French, Randolph is wounded and taken prisoner by Captain Reparti. After his recovery he is conducted to Quebec, where he associates with the French nobility. Here he again meets Alfrede. Captain Van Braam and Randolph accompany Baron La Valliere, his daughter, and Alfrede, to the Baron's seigniory.

CHAPTER XX.—Continued.

The baron seated himself in an armchair behind a table, on which lay open the censier in which were inscribed the terms of each holding. Seeing that his lord was ready, a grizzled censitaire, the oldest man present, advanced before his fellows with a sack of grain. Baring his head, he knelt before the baron and cried out:

'Baron La Vallière! Baron La Valliére! Baron La Valliere! I bring you the faith and homage which I am bound to bring you in consideration of my fief Du Buisson, which I hold as a man of faith of your seigneurie of La Marck, declaring that I now offer to pay my seigneurial dues and demanding that you accept my faith and homage. The labor of five days upon your demesne, which is part of my contract, has been duly performed. I bring here the two minots of wheat for the arpents I hold, and the ten francs that complete my payment.'

'Rise up, Pierre Michaud,' said the baron, 'your obligation is discharged. You have always been a faithful tenant, mon enfant.'

The next to step forward was a woman carrying a basket of eggs and two lean capons. She was old, her cap and short ragged petticoat looked older, and her face was as brown and wrinkled as a frosted persimmon. Kneeling as had the censitaire who preceded her, she pronounced the same formula, adding: 'I am here in place of my son, Henri Du Some, who is with the troops at Carillon. Monseigneur, here be a basket of eggs and two capons. Hélas, it is not enough, for I have not the money and the grain! Before seedtime my two garcons were ordered to the war. One was killed with M. de Langy. He was a brave garcon, and my eldest. It has been a hard year and a sad one, monseigneur. I be near to starvation already; and, mon Dieu, what I shall do when winter comes, I know not!'

'N'importe, Suzanne Du Some,' said the baron kindly. 'Your father stood with mine in the mill and did not flinch. By Ste. Anne! do I not remember how you and I and the other enfants cowered down in the corner of the mill shivering at the screeches of les peaux rouges without? Keep your fowls and eggs, and take also this bag of wheat which Pierre has brought. Your need is greater than mine.'

'And take this also,' said Randolph, stepping forward and dropping a sovereign into the old creature's wrinkled palm. 'I fought against your sons, madame; who knows but that it was Henri who wounded me and caused me to fall a captive? But I wish you well, and I hope that Henri comes back to you.'

There was a murmur of approval in the crowd, and the old curé said:

'Do God and the Saints ever abandon the needy? Forget them not, Suzanne Du Some. They will bless you both for these benefactions, monseigneurs.'

'I prayed to the Virgin and Ste. Anne de Beaupre,' said Suzanne. 'They heard my cry.'

With words of thanks to the Baron and Randolph, she hobbled away and gave place to a short fat censitaire, with dirty greasy hands and unkempt clothes. He was empty-handed, and told a long story of lameness and the failure of his crops. To prove the first part of his story he hobbled back and forth in front of the baron.

'Pardieu! Jacques Marmette,' the baron shrieked, his eyes glittering, 'do you think to impose on me, you lazy beggar! I know how you escaped fighting on the same lying plea. Va-t-en, you dirty rascal! Have your payment here within the hour, or a thousand devils will not save you from the stocks! I expect some day to hang you on the gallows!'

Forgetting his pretended lameness, the fellow, with a black look on his face, hurried off as fast as his fat legs would carry him, and gave place to other tenants, many of whom told true stories of poverty and hardship.

'The wolf is at our doors,' said one old censitaire, bolder than the rest. 'The war has ruined us. Most of our horses were killed by order of the intendant. Only a little grain could be sowed, for women and old men are weak. Even what we have harvested is soon to be taken from us in the king's name by the intendent's agents. Mon Dieu! I know not how many of us will be alive when the flowers bloom again!'

The baron swore his favorite oath under his breath. Further than that he said nothing, but kept on with his work. When all was done, barely half of what had been brought remained—so generous had he been.

'My cens et rente will not amount to a fifth part of what it should be,' said he, surveying the heap somewhat ruefully. 'Were it not that I must have food on which to live, I would not have exacted anything.'

'You are generous and kind, monseigneur,' said the old curé. 'I would that all who are in authority in New France were like you. This will be a winter of suffering.'

After supper in the chateau the baron and his party re-entered the caleches and set out for Quebec. The sun was just setting, but the long twilight of the north held until they neared the city.

'It has been a strange and interesting day,' said Randolph to Alfrede, as they entered the valley of the St. Charles. 'The barony has a charming flavor of Arcadia. Except for the stories we heard and the scarcity of men, there was little to suggest that your nation and mine and most of Europe as well are engaged in the bloodiest war of the century. Peaceful barony! May it always remain outside the current of the conflict, and may all the husbands and sons who are away return in safety to their wives and mothers!'

Man has not the gift of prophecy. Little did he suppose that when another year had passed he should be engaged in the bitterest battle of his life upon the soil of that very barony, and that not only his own fate but that of the fair girl who sat beside him should hinge upon the issue.

CHAPTER XXI.

AN INTERRUPTION.

For a week longer all was warmth and summer beauty. Then sharp winds swept down from wintry Labrador, bringing frosts that crimsoned the leaves and sent them fluttering to the earth. Soon the first patch of snow lay gleaming on frowning Mount Torments. The sun set in chill autumnal splendor, and the dagger-like spires of fire trees on the heights of Sillery rose stiff and black against the clear cold amber of the fading sky. One by one the ships for France raised their anchors, and, hoping to escape the swarm of English cruisers that lay in wait in the Gulf and off Newfoundland, dropped down the broad river. Then winter came in earnest: the earth was wrapped in snow; the river lay locked in gleaming fetters; and at intervals the evening sky was illuminated with the gorgeous spectacle of the Northern Lights.

Before navigation closed most of the troops in the frontiers betook themselves to Montreal and Quebec to winter quarters, leaving small garrisons to guard the fortresses against the hardy rangers of the English king. The capital became livelier thanever. The streets swarmed with figures wrapped in rich furs or in homespun paletots, whose vivid colors added a charming tone to the picture as their wearers trudged through the snow drifts. La haute noblesse, the officers, the high civil officials, and the rich bourgeois sped jingling in swift carrioles from one manor house to another; here there was a dance, there a dinner, everywhere gayety, for even in a season of war when famine menaces the Frenchman loses not his lightheartedness.

'Such gayety and frivolity in such a time is incomprehensible to an Englishman,' said Randolph one day to the Baron La Valliere. 'Two days ago I attended a dinner at the palace of the intendant. There was great display, an elaborate profusion of viands, and after that lansquenet. The intendent lost eighty thousand livres.'

'N'importe,' said the baron, shrugging his shoulders, 'he will make it back from the people and his king.'

'Everywhere I go it is the same story,' continued Randolph. 'No one talks of anything but gambling, of louis lost, of louis gained. Sometimes it is lansquenet, sometimes trente et quarante, sometimes momons, as you call the dice game; but always it is for money. Yet on my way home last night no less than six men stopped me and said that their families were starving.'

The baron's eyebrows contracted fiercely. 'Monsieur, you are right. By Ste. Anne! it is deplorable! Sometimes I fear it is the feast of Belshazzar for Nouvelle-France. Bigot and La Grande Societe are all powerful. As the Marquis de Montcalm has well said, rogues grow rich and honest men are ruined. Even the goods intended for the Indians are stolen. Eh bien, the king pays for all! The shop which you hear called La Friponne — The Cheat—is only one means whereby Bigot robs the people, but it will suffice as an example. He fixed the price of grain by edict, imposed a heavy penalty on all who refused to sell, and sent his agents through the country gathering wheat and maize. When the famine came, the people must go to La Friponne and buy back their grain at a great price.

'His palace is the rendezvous of the monde elegant et frivole of the capital, and to his chateau, called the Maison de Montagne, beside the high hill of Charlesbourg, resort his companions for many a debauch and revel. Gilded vice stalks in the palace, while gaunt famine preys upon the vitals of the people. All of us know, many of us regret, but, mon Dieu, we are powerless! It is the same in France. We have Bigot; France has La Pompadour. The two are in league with one another. The Frenchman is long suffering, monsieur. In that he is not like you Englishmen. Even we of the noblesse can do nothing but despise our despoilers. Deschenaux, Bigot's fidus Achates, is the son of a cobbler in Picardy. Some say that he fled to New France to escape punishment for forgery. Cadet, the commissary, is the son of a butcher; yet by his peculation he has made himself richer even than Bigot. Major Pean, who has made four million francs, is a coward; but his wife is beautiful—and Pean is complacent. Many of the others are of low birth, yet they have us in a vise. Voila tout!'

'Has no attempt been made to overthrow their power?'

'Baron de Longueval, a brave man, defied them. He swore he would go to Paris and lay the wretched condition of the country before the king. Before his ship sailed he was drawn into a duel and fell, struck, some say, from behind. Such is likely to be the fate of all who oppose La Grande Societe!'

That night Randolph attended a grand supper given by the governor-general. He found the old Chateau de St. Louis, originally built by Samuel de Champlain, the Father of New France, and reconstructed by the great Comte de Frontenac, her Preserver, brilliantly lighted for the event. The great hall was adorned with gorgeous escutcheons of the royal arms, over which were draped milk-white flags embroidered with the golden lilies. Upon the paneled walls hung the portraits of warriors in plumed helmets and glittering armor, of governors, intendants, and ministers of state in courtly garb, of ecclesiastics in priestly vestments—portraits which called up the romantic vision of a primeval continent conquered for civilization. All the notabilities of Quebec were there—Montcalm and the higher military officers, the chief civic officials, including the intendant and his accomplices, the great seigneurs, with their families. The hall was thronged with officers in uniform, with gentlemen in their smartest toilets of perukes, velvet coats, embroidered waistcoats, knee breeches and silk stockings; with grand dames and gal demoiselles gowned according to the latest Parisian intelligence, with powdered hair, court plaster, ribbons, and fans. The table was laid with a hundred covers. There was as much magnificence, as much profusion, as if the habitants were not dying of hunger.

The seating had been prearranged, and Randolph noticed with disapproval that Alfrede had been placed next to Reparti. He was surprised to find himself beside Madame Pean. This was not their first meeting, and, little as he respected her morals, he had found her interesting. She was well born, hardly more than a girl, tall, magnificently formed, with beautiful skin, and eyes dark, fascinating, and capable of expressing every emotion in the range of human feeling. 'A woman wickedly beautiful,' was the way he had described her to Van Braam.

THE CHILD'S STORY.

(By Charles Dickens.)

Once upon a time there was a traveller, and he set out on a journey. It was a magic journey, and was to seem very long when he began it, and very short when he got half-way through. He travelled along a dark path for some time without meeting anything, until he came to a beautiful child. 'What do you here?' he said. And the child said, 'I am always at play. Come and play with me!'

So he played with the child all day long, and they were very merry. The sky was so blue, the sun so bright, the water so sparkling, the leaves so green, the flowers so lovely, and they heard such singing birds and saw so many butterflies, that everything was beautiful. This was in fine weather. When it rained, they loved to watch the falling drops, and to 'smell the fresh scents. When it blew, it was delightful to listen to the wind, and fancy what it said, as it came ruching from its home — where was that, they wondered!——whistling, driving the clouds before it, bend the trees, rumbling in the chimneys, shaking the house and making the sea roar in fury. But, when it snowed, that was best of all; for they liked nothing so well as to look up at the white flakes falling fast and thick, like feathers from the breasts of millions of white birds; and to see how smooth and deep the drift was; and listen to the hush upon the paths and roads. So, they played for a long, long time, but, one day, of a sudden, the traveller lost the child. He called to him, but got no answer. So he went on his way again, and did not meet anything, until he came to a handsome boy. So he said to the boy, 'What do you here?' And the boy said, 'I am always learning, come and learn with me!'

So he learned with that boy about the Greeks and the Romans, and I don't know what, and learned more than I could tell — or he, either, for he forgot a good deal of it. But they were not always learning; they had the merriest games that ever were played. They had holidays, too, and parties and cakes. And they had such dear friends and so many of them! They were all young like the handsome boy, and were never to be strange to one another all their lives through.

Still, one day, the traveller lost the boy as he had lost the child, and, after calling for him in vain, went on upon his journey. So he travelled along until he came to a young man. So he said to the young man, 'What do you here?' And the young man said, 'I am always in love. Come and love with me!'

So he went away with that young man and presently they came to one of the prettiest girls that ever was seen. So the young man fell in love directly; and the pretty girl and he wrote leers evrey day to each other, and were always looking for each other and pretending not to, and sat close to one another by the fire, and were going to be married very soon.

But the traveller lost them one day, and after calling to them to come back, which they never did, he went on his journey. So he went along, without seeing anything, till he came to a middle-aged gentlemen. So he said to the gentleman, 'what do you here?' And his answer was, 'I am always busy. Come and be busy with me!'

So he began to be busy with that gentleman, and they went on through the wood together. The gentleman was was not alone, but had a lady of about his own age with him who was his wife; and they had children who were with them, too. Sometimes they came to several avenues at once and they all stood still, and one of the children said, 'Father, I am going to sea,' and another said, 'Father, I am going to India,' and another, 'Father, I am going to seek my fortune where I can,' and another, 'Father, I am going to Heaven!' So with many tears at parting they went down those avenues, each child upon its way.

At last there were so many partings that there were no children left, and only the traveller, the gentleman and the lady went upon the way in company. So they came to an avenue that was darker than the rest, and were pressing forward on their journey without even looking down it, when the lady stopped. 'My husband,' she said, 'I am called.'

They listened and they heard a voice say, 'Mother, mother!' It was the voice of the child who had said, 'I am going to Heaven!' and the man said, 'I pray not yet!' The sunset is very near. I pray not yet!' But the voice cried, 'Mother, mother!' without minding him, and the mother who was already drawn into the shade of the dark avenue kissed him and said, 'My dearest, I am summoned, and I go!' And she was gone. And the traveller and he was left alone together. And they went on and on together, until they came to very near the end of the wood. For all the journey was through a wood, only it had been open and green at first, like a wood in spring; then thick and dark like a wood in summer. Then the wood was yellow; and then brown; and now the leaves began to fall, and they could see the sunset shining red before them in the trees.

Yet once more, while he broke his way among the branches, the traveller lost his friend. He called and called, but there was no reply, and when he passed out of the wood and saw the peaceful sun going down upon a wide, purple prospect, he came to an old man sitting on a fallen tree. So he said to the old man, 'What do you here?' And the old man said with a calm smile, 'I am always remembering. Come and remember with me!'

So the traveller sat down by the of that old man, face to face with sunset; and all his friends came back and stood around him. beautiful child, the handsome boy, young man in love, the father, mo and children; every one of them there, and he had lost nothing. he loved them all, and was kind forebearing with them all, and pleased to watch them all, and all loved and honored him. And think the traveller must be your dear Grandfather, because this is you do to us, and what we do to —'N. Y. Observer.'

MYSTERIOUS ROBBERY.

Toronto, Sept. 12.—A myste robbery occurred yesterday whe package of silver bullion valued $300 disappeared in broad da from a Dominion Express wagon consignment, which was about size of a brick, was shipped from United States to a Toronto jewel firm. It was received at the custo house, Front and Yonge Streets, employees of the Express Comp but when the wagon reached its tination the silver was gone. trip was made through the most gested part of the city, part along Yonge Street, and it seems possible that anyone could have ta the package from the wagon u ticed.

JACK JOHNSON'S WIFE A SUICIDE

Had Domestic Worries, and Shot Herself Through the Head.

Chicago, Sept. 12.—Mrs. Jack Johnson, wife of the world's champion heavyweight pugilist, shot herself through the head last night, and died this morning. She did not regain consciousness.

Facts that came out after Mrs. Johnson had shot herself showed that she had decided to commit suicide as soon as her husband left the house to go down town. She called Mrs. Veanie Rhodes, the pugilist's sister, on the telephone and asked her to come to her at once, as she had something important to tell her. Mrs. Rhodes said she would and prepared to start.

Then Mrs. Johnson called her two colored maids into her bedroom and told them she wanted them to join her in prayer. With an arm about each of them, Mrs. Johnson knelt at the bedside. The maids followed her example and the three prayed together for several minutes. As they arose Mrs. Johnson, pressing her hands to her face, said: 'God pity a poor woman who is lonely.'

She sent each of the maids into other rooms on errands, and before either had time to return a shot was fired, and when they came back they found her lying on the floor fatally wounded. She was taken to a hospital, where she died at 3.30 this morning.

On the recent trip to Las Vegan, where Johnson fought Jim Flynn, Mrs. Johnson is said to have remarked to friends that every one shunned her because she had married a negro, and that she was unhappy.

Mrs. Johnson was 31 years of age and the daughter of Mrs. David Terry, of Brooklyn, N.C. When she married Johnson she was the divorced wife of Clarence Duryea, a well known New York turfman.

AVIATOR HAD FALL AT HALIFAX.

Halifax, N.S., Sept. 12.—Charles F. Walsh, an aviator flying a Curtiss biplane, had a narrow escape from death on the exhibition grounds yesterday afternoon, when his machine crashed down on the edge of a cattle barn. the biplane was badly smashed and Walsh had a broken nose and a severe shaking up. It was Walsh's initial trip in Halifax at the Nova Scotia fair.

ARCHITECTS' FEDERATION.

Toronto, Sept. 12.—The federation of all the local and provincial architectural associations in Canada will be consummated on October 7, at Ottawa, when the Royal Canadian Institute of Architects opens its annual meeting. Such a federation has been agitated for years, but has been opposed on the floor of Parliament because of dissention on the part of local associations.

BASEBALL

McTigue Pitched Good Ball Yesterday, But Despite the Fact that He Struck Out Nine Men He Also Walked Six and Twirled Two Wild Ones.

THE FIRST WALK McTIGUE HANDED OUT RESULTED IN A RUN —DALTON, WHO GOT THE PRESENT, STOLE SECOND, AND CANTERED HOME ON A CLEAN DOUBLE BY JORDAN.

Toronto, September 12. — McTigue's inconsistency enable the Leafs to beat the Royals in the first game of the series yesterday by 5 to 2. The Montreal pitcher struck out no less than nine of the Leafs, but he walked six and had two wild pitches. In addition to that, the Kelleys were able to hit him opportunely.

Kent twirled a consistent game. He weakened just a little toward the finish, but sparkling fielding kept him out of trouble. At bat the Leafs flinger distinguished himself. He was directly responsible for three of the five runs accounted for by the leaders. His curve ball broke off like forked lightning, and the Royals scarcely knew what to do about it.

The first walk handed out by McTigue became a run. Dalton was the recipient of the favor, and promptly stole second, whence he scored when Jordan rapped a clean double. In the second chapter Holly singled to right, but Graham forced him, after which the catcher advanced on a wild pitch, Kent put up a high faraway wallop that landed the ball in the bleachers for a home run, putting Toronto three runs to the good. The other brace of Toronto credits were due to a walk, a triple and a single.

There looked like trouble in the sixth, with Connolly at first base as the result of a single. Ray Demmitt lined a bullet-like drive to right centre, but Dalton pulled it down and got the ball to first base before Connolly could get back.

Kent showed signs of weakening in the seventh. Yeager singled, and when Fournier hit to Jordan the latter tried to force Yeager at second. The throw went to centre field, and 'Pepper Joe' was safe. Purtell, trying to sacrifice, fouled out. Kent then walked Betcher, and the sacks were crowded; There was only one out. Hartman hit in front of the plate, but the ball hit his foot in fair territory and Phyle called him out. Phyle also declared Yeager out when he was touched coming home, but he reversed his decision, and the runners were sent back to their bases. Burns flew out to centre. Connolly's single and an infield out, followed by Yeager's single, scored for the Royals in the eighth. Trouble loomed up again in the ninth, when Purtell singled and Betcher again walked. Frank Smith batted for Hartman, and drove Purtell home with a sharp single. Burns hit to Bradley, who got Betcher going to third, and then pegged Burns out at first.

Montreal was weakened by the absence of Cunningham and Hanford, who were kept behind in Montreal. Cunningham has a spiked foot and Hanford is slightly ill.

The victory enabled Toronto to gain a full game, as Rochester was beaten at home by Buffalo.

Rochester, N.Y., Sept. 11.—Slow work in the infield and lack of ability to hit at opportune times, cost Rochester a game to-day, the Bisons winning out, 4 to 1. Cozy Dolan's home run saved the champions from a shut out. Bobby Keefe pitched sterling ball, but received weak support.

Pittsburg Won Again.

Philadelphia, Sept. 11.—Pittsburg again hit the ball hard here to-day and won from Philadelphia, 10 to 3. Chalmers was knocked out of the box in four innings, Seaton lasted three innings, and Nelson finished the game. The visitors backed up their pitchers, Ferry and Camnitz, without an error. Carey led in the hard hitting with three singles and a double in five times at bat.

Broke Up Game.

Boston, Sept. 11.—Rain broke up the Boston-Chicago game in the first half of the fourth inning to-day. Boston was ahead at the time, 3 to 2, but the Cubs had men on second and third with two out. Hits by Maranville and Kirke drove home the three Boston tallies. Zimmerman's home run scored Schicago's first run, and the second was tallied just before the game was called. Toney, for Chicago, and Perdue, for Boston, were the pitchers.

RAIN STOPPED PLAY.

The game between New York and St. Louis at New York was called at the end of the first inning on account of rain.

A General Mix-up.

Detroit, Mich., Sept. 11.—After Umpire Connolly called Cobb out for stepping out of the batters' box in the third inning, a spectator in the grand stand hurled a bottle at the umpire. It struck the ground, then bounded and hit Connolly in the mouth. Cobb had singled and Bush scored on the disputed play. Several Detroit players loudly protested, and Manager Jennings was sent to the club house. Cobb seated himself on the bench instead of taking his position in centre field, and Connolly pulled his watch. Cobb finally went out, but the wrangling did not stop. Vitt was also ordered to the club house, and in the eleventh inning Bush was exiled. After the trouble Lake became wild and his support went to pieces. Philadelphia ran bases wild on Kocher, stealing eleven socks. Collins stole six of these.

Six runs behind in the ninth inning, Detroit made a rally, and drove Houck off the mound. Covaleski was substituted, and walked the first batter who faced him, filling the bases. He was then taken out, and Plank finished the inning. Detroit put two more runs across with but two out, a man on second, another on third, and two runs needed to tie, Veach grounded and was out.

Chicago, Sept. 11.—Chicago could do nothing to Ray Collins to-day, and Boston bunched hits off Cicotte and won the second game of the series to-day, 6 to 0. Two hits, a sacrifice and a wild pitch gave the visitors' their first run. Two singles, a sacrifice and a triple counted two more, while bunched hits netted three in the ninth. The fielding of Weaver was a feature of the afternoon. Collins allowed but one hit until the seventh, when three were bunched with no results, and again in the ninth, when two more hits netted nothing. The batting honors went to Berton, Hooper and Lewis.

GOVERNOR DIX DETERMINED TO STOP BOUT

There Will be no Fight in Madison Square Garden Between Wolgast and Packy McFarland

New York, Sept. 11.—Threatened legal action to prevent the proposed staging of a bout between Ad. Wolgast, the lightweight champion, and Packey McFarland, in this city, on the grounds that it was in the nature of a prize fight, was made unnecessary yesterday by the calling off of the bout scheduled to take place at Madison Square Garden on September 27. Manager Billy Gibson, of the Garden Athletic Club, who said last night that he could see no way in which the law would be violated by the holding of the proposed bout, and that he was going ahead with the preparations for it, yesterday made the announcement of its abandonment. He claimed that Wolgast had refused to live up to the terms of the contract he signed when Gibson was in Cadillac, Mich., three weeks ago.

Governor Dix took initial action in the matter, in communications to Sheriff Harburger, District Attorney Whitman and the New York State Athletic Commission instructing them to take such steps as lay in their power to prevent what he considered to be virtually a prize fight. Both Sheriff Harburger and District Attorney Whitman had made known their intention to comply with the Governor's request and prevent the proposed bout if it were found that a violation of the law was being attempted. Tony Ross, of Newcastle, Pa., was suspended by the commission for six months for fouling during his bout with Joe Jeannette at the Garden Athletic Club last Monday.

BLUE BONNETS

A Good Card of Racing Was Seen Yesterday at Blue Bonnets.

There was again a capital attendance at Blue Bonnets yesterday, when some splendid racing was witnessed on the fourth day of the autumn meeting. Seven events figured on the card, but the principal interest was centred in the Strathcona steeplechase. Of the eleven horses in the race, five went down, but the even saw a magnificent struggle between Wickson and Ringmaster for first place, the first mentioned getting home by a length. In the sixth and seventh races some clever riding by McTaggart and Teahan respectively gave handsome victories to Rifle Brigade and Falcada.

MR. GEORGE S. LYON, OF TORONTO, DEFEATS MR. F. R. MARTIN, OF HAMILTON

Mr. George S. Lyon was the observed of all the observers at yesterday's championship matches at the Royal Montreal Golf Club tournament at Dixie. The veteran Canadian player early began to show signs of a victory to come, and verified the best prophecies of his friends, by defeating Mr. F. R. Martin of Hamilton in the morning by a score of 3 up and 2 to play, and Mr. G. R. Hutchinson in the afternoon by 5 up and 4 to play. The match between Mr. Lyon and Mr. Martin was followed with the greatest interest, because both of these gentlemen have held the Canadian championship. Mr. Lyon has won it six times and Mr. Martin twice. The links were not in the very best of condition, as there was sufficient evidence of the recent heavy rains, and a quartering wind somewhat interfered with accurate driving.

Two Montreal gentlemen will this morning meet Mr. Lyon and Mr. C. Moss also of Toronto to qualify for the finals. Mr. G. H. Turpin will meet the former and Mr. Alex Hutchison is paired with the latter.

Mr. G. A. Hutton was paired with Dr. J. T. Novinger in the second round in the morning, winning by 4 up and 3 to play. In the third round, however, he came to grief, being defeated by Mr. Alex. Hutchison, of the Royal Montreal Club, by 5 up and 4 to play. He lost in the early stages of the game, Hutchison being 6 up at the seventh green. After that he recovered, but it was too late.

There was an exciting finish in the game between Mr. Alan G. McKay and Mr. G. Moss in the second round as they halved the match on the eighteenth green. At the nineteenth green Mr. G. Moss won 1 up. It is an instance of the accidents to which this game is peculiarly liable, and which renders it so fascinating to its votaries, that this game was probably lost by McKay through his ball going into the water when coming in, and refusing to come out for less than three strokes. He thus lost that round, and later the match was halved.

Mr. G. G. MacKenzie, in the Consolation Competition, has won his way into the third round, through default in the first round, and that he is thrust immediately into the third round because of the fact that both T. A. Tapp and Alex. Wilson defaulted in the first round, and there was none to compete with him in the second. The other matches in the second round will be played off this morning at ten o'clock, the following being the contestants:—

C. B. Grier, Royal Montreal Club, vs. E. F. Newcombe, jr., Ottawa.
A. P. S. Glassco, Beaconsfield Club, vs. H. C. Macklem, Toronto.
E. R. L. Henry-Anderson, Royal Montreal Club vs. A. A. Adams, Hamilton.

The semi-final of the Consolation Competition will be played in the afternoon.

The arrangements for the Inter-Provincial Match of eighteen holes will be made by the executive committee of the association today at noon, and the match will be played off this afternoon.

YESTERDAY'S RESULTS.

The results in the second round of the amateur championships were as follows:

E. A. MacNutt, Royal Montreal Club, won from W. T. Patterson, Beaconsfield Club, by 3 up and 2 to play.

G. H. Turpin, Royal Montreal Club, won from John Morgan, Beaconsfield Club, by 6 up an 4 to play.

W. R. Hutchison, Royal Montreal Club, won from S. McDougall, Country Club, Montreal, by 3 up an 1 to play.

Geo. S. Lyon, Lambton Club, won from F. R. Martin, Hamilton, by 3 up and 2 to play.

G. A. Hutton, Beaconsfield Club, won from Dr. J. T. Novinger, Outremont, by 4 up and 3 to play.

Alex. Hutchison, Royal Montreal Club, won from J. Watson Yuile, of the same club, by 5 up and 4 to play.

F. Chattan Stephens, Royal Montreal Club, won from R. F. Robinson, St. Catharines, by 1 up.

G. Moss, Toronto, won from Alan G. McKay, Royal Montreal Club, by 1 up on the 19th green.

In the third round of the amateur championships the results were as follows:

G. H. Turpin, Royal Montreal Club, won from E. A. MacNutt, of the same club, by 3 up and 1 to play.

Geo. S. Lyon, Lambton Club, won from W. R. Hutchison, Royal Montreal Club, by 5 up and 4 to play.

Alex. Hutchison, Royal Montreal Club, won from G. A. Hutton, Beaconsfield Club, by 5 up and 4 to play.

G. Moss, Toronto, won from F. Chattan Stephens, Royal Montreal Club, by 2 up.

Consolation Competition.

The first round of the consolation competition resulted as follows:

T. A. Tapp, Walton Heath, England, and Alex. Wilson, Royal Montreal Club, both defaulted.

G. G. Mackenzie, Missisauga Club, Port Credit, won from J. F. Starks, Louisville, Ky., by default.

C. B. Grier, Royal Montreal Club, won from B. L. Anderson, Lambton Club, by 4 up and 3 to play.

E. F. Newcombe, jr., Ottawa, won from H. C. Monk, Ottawa, by default.

A. P. S. Glassco, Beaconsfield Club, won from D. W. Baxter, Rosedale Club, by 8 up and 6 to play.

H. C. Macklem, Toronto, won from J. H. Forrester, Missisauga Club, by default.

E. R. L. Henry-Anderson, Beaconsfield Club, won from W. C. James, Lambton Club, by 2 up.

A. A. Adams, Hamilton, won from G. S. Deeks, Toronto, by default.

DUKE OF WESTMINSTER IN LINE-UP OF BRITISH POLO TEAM.

Pasadena, Cal., Sept. 11.—Practice was begun to-day for the polo season with two teams on the field under the eyes of Harry Weiss, who will pick the four to represent Pasadena in the winter games with Lord Tweedmouth's English team.

The British players will compete for the American trophy and for various cups on the Pacific Coast. It is reported that the Duke of Westminster will be in the line-up.

BOWLING

The annual meeting of the General Fire Extinguishers company Bowling Club took place recently, the following officers being elected for the ensuing year:—

Hon patrons: Messrs. J. R. Dickinson, T. H. Higginson and W. L. Horn; hon. president, Mr. A. Sutton; hon. vice-president: Mr. J. A. Learmonth; president, Mr. C. G. Sherman; vice-president, Mr. L. B. Wilcox; sec'y-treas., Mr. L. S. Fogg; captain, Mr. W. R. Higginson. The team will again play in the Commercial Bowling League this season and expect a successful season as all of last year's players are available together with several promising ones.

RUGBY OUTLOOK BRIGHT FOR QUEEN CITY TEAMS.

Toronto, Sept. 11.—If the Toronto R. & A. A. can be judged as to its prospective strength by its initial turnout at Aura Lee grounds yesterday afternoon, the new organization will have an overflow of high-class material. Over thirty senior candidates were in uniform, a record practice for a local team at this stage of the season.

Among the new men out were: Frank Heffernan, the Ottawa College star right half; Bert Moore, the Argonaut crack outside wing; Parke, also of the Argos.; Egan, one of Ottawa College's regulars at outside wing; Faster, the stellar 190-pound middle wing of St. Andrew's College; Eddie Beeton, Roy Beatty, of Upper Canada College, an outside wing who shone with the Calgary team last year, nd nummerous others in addition to many juniors. The members of last year's T.-A.A.C. team out were: Bill Hoar, Bill Crawford, Darcy Smith, Bill Williams, Fred Mills, Babe Burkart, Dode Burkart, Hal DeGruchy, Bob Cory, Macolm Ross, Art Haines, Harcourt, Flemming, and Everett Smith are out of town on holidays, and will not be out for a week or ten days. Pete Flett will be in uniform next week, as will Sheehy, another Ottawa College outside wing, and O'Leary, the star inside wing of the same team.

MINTO CUP DATES DECIDED UPON

Trustees Have Selected Sept 21 and 26 for World's Lacrosse Championship

CORNWALL WILL NOT RING IN ANY NEW PLAYERS, BUT WILL LINE UP WITH REGULAR TEAM.

Cornwall, Sept. 12.—Dates for the Minto cup match are between the N.L.U. champions and champions of the British Columbia League were received by the officers of the Cornwall Club yesterday. They are Sept. 21 and 26. The first on Saturday and the second on the following Thursday. The same twelve players which represented Cornwall all season will be taken along, with John Tallon and Eddie Degan as spares. Captain W. T. O'Neil, Trainer Leonard Johnson, and J. A. Cokers, of the committee, will also go along. Joe Lally left for the coast a few days ago and will be present to look after the interests of the N.L.U. champions.

Joe Lally Will Referee.

Vancouver, Sept. 12.—The C.N.R. lacrosse team of Winnipeg, challengers for the Mann cup, arrived yesterday, all in good condition for the opening game, which will be played here Saturday against the Vancouver Athletic Club, the holders of the trophy.

Joe Lally, trustee of the cup, arrived on the same train, and at a meeting held betwen the officials of the two clubs and Lally, final arrangements in reference to officials, etc., for the games, were discussed. Lally will referee.

GREAT INTERNATIONAL AVIATION MEETING STARTS TO-DAY.

ten days, will start this afternoon at three o'clock on Cicero field. More than a score of American and foreign aviators are entered for the events, the prizes for which aggregate $24,000.

The machines were being groomed for the races at Cicero field last night, and although the aviators were somewhat downcast over the fatal plunge of Paul Peck at the field yesterday afternoon, none of them gave any indication of withdrawing from the races.

Competition for the first four days will be at Cicero field, and will be between aeroplanes. Each day's programme will consist of exhibition flights, accuracy landing contests with motor shut off 5000 feet up, bomb, mail and express throwing, races between biplanes and monoplanes and passenger carrying contests. Each day the hours for flight will be between three o'clock and six o'clock in the afternoon. Next Monday the meet will shift to the lake front for the hydro-aeroplane races.

CANADA SCORES ANOTHER VICTORY.

Miss Lois Moyes, of Toronto, Wins Women's Singles.

Cleveland, Sept. 11.—The women's section of the Ohio State Tennis Tournament was concluded to-day, when, in the finals of the women's singles, Miss Lois Moyes, of Toronto, Ont., won from Miss Rhea Fairbairn, of the same city, by scores of 6—3 and 6—2, and when, in the doubles, Miss Moyes ond Miss Fairbairn beat Miss Buda Stephens, of Cleveland, and Miss Olive Willey, of Oberlin, Ohio, 6—1 and 6—4.

In the third round of the men's sinkles, W. S. McEllroy, of Pittsburg, Pa., beat A. F. Reed, of Cleveland, 6—3, 7—5, and J. D. Nelson, Dartmouth College, beat H. L. Vail, Cleveland, 6—3, 6—3.

In the men's doubles, Nat. Thornton, southern champion, and J. J. Armstrong, western inter-collegiate champion, easily won in the first and second rounds, as did also F. H. Harris and H. Nelson, the Dartmouth College pair; W. S. McEllroy, of Pittsburg, and T. W. Stephens, of Wilkinsburg, Pa., and H. F. Pettee and C. O. Benton, of Cleveland.

PROSPECTS VERY BRIGHT FOR HOCKEY SEASON.

Quebec, Sept. 11.—With all its team of last year signed up the Quebec Hockey Club is in a position that puts them on easy street. There was an informal but interesting meeting held this evening, when all the players now in Quebec present, and the members of the executive came together to discuss the prospects for the coming season.

M. J. Quinn, the hard-working and popular manager of the local club, presided, and explained the objects of the meeting.

'The prospects for the coming season are exceedingly bright,' said Mr. Quinn. 'We have all of our last year's players signed up, and we have some other good players in sight. The Stanley Cup is now in Quebec, and I think that it is here to stay for another year. We will have all last year's team intact, and we will have some other good men on the team to strengthen us up.'

Mr. Quinn touched upon the question of the new arena. Even if the new arena is not built, the Skating Club rink will be extended t osuch an extent that it will fill all purposes for the coming season. But the new arena is bound to go through, and there can be no doubt that Quebec will have one of the most up-to-date arenas in Canada.

OTTAWA WILL ENTER THE ONTARIO RUGBY FOOTBALL UNION

Ottawa, Sept. 11.—The football situation in Ottawa took a rather unexpected turn last evening when Fred Chittick, former manager of the Ottawas, who has been leading the new Rough Rider club, announced that he would go to Toronto to-morrow to represent the capital at the special meeting of the Ontario Rugby Football Union.

Chittick not only signified his intention of placing a team in the Ontario circuit, but he cashed a $500 cheque, signed by a well known business man, to be deposited as a guarantee that the Ottawas will finish out their season and live up to the regulations of the O. R. F. U. Chittick received the letter from Secretary Livingstone and immediately got to work. He says he has been guaranteed $2,000 to finance the new club, and that he will fight the present organization to the bitter end.

'Ottawa will be in the Union notwithstanding reports to the contrary,' said Chittick. 'We have money enough already subscribed to carry us through the season, and if the gate receipts do not come up to expectations, our backers will not expect to be remunerated. I have already one cheque for $500 to-day, and there is another one awaiting us the day the team turns out. Moreover, I have sixteen of the regular players of last year's team. I have Williams, Gerrard, McCann, Disney, Gerrard, Smith and all the live ones. The rowing men can have the has beens. I want only the young fellows and they have promised to stick by me.'

Martin Kilt may also go with Chittick as an Ottawa delegate. Chittick says he has already chased the local grounds and tha this team will turn out to practice on Monday. An A. committee of three ex-players will do the coaching. Meanwhile the Ottawas appear to be having great difficulty in getting their men out, as four regulars have been in until date.

R.Y.M.C.A. RUGBY TEAM WILL PRACTICE SATURDAY

The Railway Y.M.C.A. Rugby elected officers at a meeting last night, they being: The Honorary president, Alderman A. T. Monaghan; president, D. Thompson; vice-president, Bert Lindsay; secretary, W. Mason; manager, A. C. Johnson; executive, W. Brownrigg and J. Mason. The first practice will be held on Saturday afternoon at 4.30, and after date turnouts will be held on Tuesdays and Thursday mornings at

PUBLIC NOTICE.

is hereby given that under the First Part of Chapter 79 of the Revised Statutes of Canada, 1906, known as 'The Companies' Act,' Letters Patent have been issued under the Seal of the Secretary of State of Canada, bearing date the 27th day of August, 1912, incorporating Thomas Henry Greenbank and Thomas King Sanderson, Manufacturers; John Stuart Buchan, King's Counsel; James Greenbank, Accountant; Benjamin Ward, Sales Agent; and Henry William Riva, Watchmaker, all of the City of Montreal, in the Province of Quebec, for the following purposes, viz.:

(a) To carry on any or all of the business of manufacturers and dealers, wholesale and retail, of or in mineral waters artificial and other waters of every kind, also fruit wines, cordials, essences, extracts, flavorings and syrups, drinks and beverages, and to manufacture, buy, sell and deal in all kinds of canned, preserved, pickled and cured fruits, vegetables, grains, meats, fish, fowl and game, relishes, sauces, jams, marmalades, jellies, aerated or evaporated fruits, cider and cider vinegar, and all other foods and articles of a like nature.

(b) To grow, produce, make, buy, sell or deal in all kinds of fruits, vegetables, meats, acids and chemicals required for any of the purposes of the Company;

(c) To make, buy, sell use and deal in any and all appliances, materials, machinery, receptacles of all kinds necessary to or used in the Company's business, or in whole or in part in any similar business;

(d) To acquire, buy, lease, build, hold or own real property, buildings or premises necessary or required for the purposes of the Company, and to alienate, sell or lease the same;

(e) To acquire patents or to act as agents, sole or otherwise, for any patents, formulae, or any invention or discovery affecting or dealing with any of the interests of the Company;

(f) To acquire by purchase or otherwise, as may appear advisable, all or any part of the business, property, privileges, contracts or rights of any other company, firm or individuals carrying on a business similar to that of the Company, and to assume or take over the liabilities or obligations of the same, and particularly to acquire and take over the business of the manufacture of mineral waters, ginger ale and similar products now being carried on by Thomas Henry Greenbank, on such terms as may be agreed upon by the Company;

(g) To pay, in whole or in part, for any such business or assets by the issue of fully paid-up or in partly paid-up shares or bonds or debentures of the Company or otherwise as may be found advisable;

(h) To sell, lease or otherwise dispose of the business or undertakings, in whole or in part, of the Company for such price or consideration as may be deemed advisable by the Company, and to accept in payment thereof shares, bonds, debentures or other securities of any other company having similar objects;

(i) To amalgamate with any other company having similar objects

(j) To distribute among the members of the Company in kind, any shares, debentures, securities or property belonging to the Company;

(k) To carry on any of the trades or business mentioned herein, either separately or in connection with others;

(l) To carry on any other business which the Company may deem capable of being conveniently carried on in connection with the above or any part thereof which may be considered directly or indirectly to enhance the value of the Company's property or rights;

(m) To do any and all things which may be necessary or expedient to carry out the objects of the Company;

The operations of the Company to be carried on throughout the Dominion of Canada and elsewhere by name of 'The Bat Seal Springs Company, Limited,' with a Capital Stock of one hundred thousand dollars, divided in one thousand shares of one hundred dollars each, and the chief place of business of the said Company to be at the City of Montreal, in the Province of Quebec.

GUELPH WOMAN COMMITTED SUICIDE.

Guelph, Ont., Sept. 11.—Despondent over domestic troubles, Mrs. Joseph Norman, residing with her sister, Mrs. John Searle, committed suicide this morning by drinking poison. Her husband left her three years ago, and she has worked in the spinning mills to support herself and her five-year-old son. Her husband has several times attempted to take the child from her, his latest effort being made on Saturday last. After being called yesterday morning she drank the poison and was found in a dying condition.

NEGROES IN TROUBLE.

Trinidad, Col., Sept. 12.—Negro soldiers belonging to the 9th Cavalry, sent from Fort Russell to the Mexican border, who stopped off here yesterday while their cars were awaiting train connections, nearly caused a riot by their alleged conduct towards citizens.

It is said the troopers insulted several white women. The troopers took possession of saloons, and a number of fights with whites occurred. When their cars departed fifty of their number could not be found.

GRAIN STORAGE CHARGES.

Toronto, Sept. 12.—Charges for storing grain in the terminal elevators at Fort William and Port Arthur will cease five days after shipping instructions are filed, if the demands of the Toronto Board of Trade are granted by the grain commissioners, who meet at Fort William on Friday.

NEXT YEAR AT M'GILL FROM THE STUDENTS' POINT OF VIEW

Fee of Ten Dollars Will Admit Students to Membership in Various Clubs and Societies—Sporting Side of College Life—New McGill Daily.

Speaking from a student's point of view of the approaching session of McGill University, Mr. John MacNaughton, president of the Students' Council, says the new session will be one of big things, and in all branches greater success than ever is anticipated.

The adoption of the universal fee by the authorities will mean that the Council will get $10 for each student attending the university, and this will enable them to develop the student organizations in a manner that they have never been able to do before. For this amount, which will require to be paid when the students are paying their tuition fees, every student will be a member of the Union, and of every club in the university. The money will pass through the hands of the Council, the Union, the Literary Society, the Canadian Club, and athletics, being each apportioned their share, and as a result, developments will take place in each.

The supply room, which will be under the control of the Students' Council, will not only be a source of profit to the council and provide more money to spend on student activities, but owing to the reduced prices at which the student's equipment will be sold, the students themselves will save considerably by buying there instead of in the city stores. The sales will also be the means of providing employment for six or seven student salesmen, and the wages earned while acting in this capacity will help these students to work their way through the university.

FUTURE OF ATHLETICS.

Speaking of athletics, Mr. MacNaughton said the coming of Shaughnessy, the new coach, will cause a great boom in matters athletic, and at the same time will relieve the council of a great deal of anxiety and worry in regard to the players. The kindness of the McGill authorities in placing the law house on the new university property, at the disposal of the football men, is very much appreciated by the students, and this, combined with the coach appointment, will settle the whole football question.

Though the track club outlook is not as bright as last year, owing to Harry Logan, the middle distance man going to Edinburgh, Hollinsed not coming to McGill, and Gale being laid aside with a broken leg, still it is at least encouraging, as Harry Smith, the pole vaulter; Murray, the distance runner; MacDougal, the weight lifter, and the MacKenzie brothers, who made a good show in the jumps, are all coming back.

Russell, who showed great gameness in distance runs some time ago, is to attend this year to finish his medical course, and Stanley and Fraser will again give evidence of their sprinting ability. Kenneth W. Dowie, whose specialty was hurdles and broad jumps, is filling the post of Y. M. C. A. secretary at Strathcona Hall, and also studying for his M.Sc. As he is in the best of form, he may be induced to lend a hand to the red and white.

There is no reason, said Mr. MacNaughton, why the hockey team should not repeat the success of last year, as all last season's septette will remain practicaly intact.

SWIMMING CLUB HAS HODGSON.

The swimming club, with its world's record holder, Hodgson, and also Smith, who showed fine form two or three years ago, and is coming back this session to McGill, wil give a good account of itself.

Speaking again on the football question, Mr. MacNaughton said one of the great difficulties they had to contend with was the great inadequacy of the campus, and it showed how necessary it was that all possible haste should be made with the new football campus on the law and Molson property now owned by the university.

WILL BE A DAILY NOW.

The 'McGill Daily' this year will be published each day instead of four times a week, as was the case last year, and the president, Mr. W. H. Morgan, and the busines manager, Mr. H. P. McKeen, are looking forward to the first issue being out on October 1st.

NEW RECORDER PRESIDES TO-DAY

Interesting Scene Yesterday When Mr. Amedee Geoffrion Took the Oath

PRESENTED WITH BIBLE.

Mr. Recorder Weir Says New Judge's Words Will Not Always be Received With Acclamation.

In the Recorder's Court yesterday afternoon many of the prominent members of the local bar and city council assembled to hear the new Recorder, Mr. Amedee Geoffrion, K.C., take his oath of allegiance to the King.

On the bench were Chief Justice Davidson, Mr. Justice Monet, Mr. Recorder Weir, Mr. Geoffrion and Judge Leet. After Mr. F. X. Perras, K.C., Clerk of the Court, had read the commission to Mr. Geoffrion, the court was seated while Mr. Geoffrion solemnly read the quaintly worded oath of allegiance to his Majesty, in which he promised to 'disclose and make known to his Majesty, his heirs and successors, all treasons or traitorous conspiracies against Him or any of them.'

Then Mr. Recorder Weir handed him a Bible, on which he solemnly swore faithfully, impartially and honestly according to the best of his skill and knowledge to execute all the duties and powers of the Recorder of the City of Montreal. He then signed the oath, and Mr. Recorder Weir, after witnessing the signature, gracefully presented the new judge with the Bible on which he took the oath, as a souvenir of the occasion.

Mr. Recorder Weir, in addressing the new judge, expressed his congratulations and welcomed him to share the grave responsibilities which he had been, honored by being asked to undertake. He told his new colleague that the difficulties of his task were no mean difficulties. He would be constrained not only to punish, but to rebuke, admonish and exhort, because one of the real duties of the Recorder was to administer the law with reformative intention.

He hoped that when the new court was completed an additional judge might be appointed, so that inquiry into the justice of the cases which came before them might be as thorough as possible.

Chief Justice Davidson, who was seated on the presiding Recorder's right hand, also congratulated the new judge. He told the court that the administration of municipal law was a task which was coveted by some of the finest legal minds in Britain as it was widespread in its sphere and influence. He felt sure that the new Recorder had the confidence of all.

Mr. Justice Monet also publicly congratulated the new Recorder. He was followed by His Worship the Mayor and G. L. Archambault, Batonnier of the Montreal Bar, who both spoke highly of the ability of Mr. Geoffrion, and assured him of the confidence and good-will of the public.

The new Recorder, speaking in French, made a very humorous speech. He was impressed, he said, with the responsibilities of his new office and sincerely thanked those who had spoken in such a kindly manner, expressing their confidence in his ability to administer the municipal law.

He had an excellent example in his predecessor, Mr. Recorder Dupuis, who had filled the office with such dignity and ability.

Mr. Recorder Weir sent his hearers into uproarious laughter by suggesting that although the new judge's words had been received with acclamation by his present audience, he feared that on every occasion on which he spoke from that bench he would not receive so much gratitude in return.

Mr. Recorder Geoffrion presided in court this morning for the first time.

MUST EXTEND INTERCOLONIAL

Former C.P.R. Engineer Suggests Tracks be Laid at Once to Relieve Congestion

Unless the government intends to dispose of the Intercolonial Railway, it should at once build a double-track extension from Montreal to Georgian Bay, and share in the profit of the grain trade, as well as help materially to relieve the annual grain blockade. Such is the opinion of Mr. W. F. Tye, formerly chief engineer of the C. P. R., who has just returned from a trip to the West.

He stated that he was amazed at the enormous expansion of both freight and passenger traffic in the West since he was with the C. P. R. in 1902 and 1903 and stationed at Winnipeg. The C. P. R. yards, which were then being laid out, were the talk in railway circles all over the continent on account of their size, and were expected to be sufficient for 25 years, but already the company is compelled to provide additional yards with capacity for 10,000 cars. The handsome large passenger station is also entirely inadequate now, and will have to be doubled in size, while the hotel adjoining it was so crowded while he was there that a hundred cots had to be used.

The other railways are growing rapidly, he said, but in spite of what all have been done there is going to be another grain blockade in the West this year as bad as that of last year. The G. T. P. and C.N.R., he said, will have to double-track their lines from Winnipeg to Fort William, the same as the C. P. R. The latter piece of road is one of the best he had ever seen, and was able to carry great train loads of grain.

A great relief to the congestion on the present railways would be afforded, Mr. Tye said, by the construction of a double track line from Montreal to the Georgian Bay, with very low grades. Both tracks should be laid at once, as the traffic was there for such a railway to handle.

THE SCOTS GUARDS BAND.

Owing to numerous requests received by the management of the Arena that the Scots Guards Band, which is to appear there to-morrow evening, be prevailed upon to place on their programme the ever-popular 'William Tell 'overture of Rossini, and the overture 'Solenelle (1812),' Mr. F. W. Wood, the bandmaster, has kindly consented, but in doing so presents an altogether different programme to that which has already been announced. The rearranged programme is as follows:—

MEMORIAL TO MR. MOLSON.

At the closing service of the season of St. Mark's Church, Dorval, held on Sunday last the proceedings were of a harvest thanksgiving nature. The announcement was made of the intention to erect before next summer season a memorial to the late Mr. Markland Molson, who lost his life in the 'Titanic' disaster. Mr. Molson was for many years a resident of Dorval, representing St. Mark's in the Diocesan Board.

Mr. A. R. Doble will receive subscriptions towards the memorial.

DEATH WAS ACCIDENTAL.

Quebec, Sept. 12.—'Accidental death' was the verdict rendered by the coroner's jury on the body of Ludger Beauregard, who met with a terrible death by falling from a window of the Mountain Hill House.

PREFERENCE IN THE EMPIRE

Board of Trade Council Hears Reports From President

At the first weekly meeting of the season yesterday the Council of the Montreal Board of Trade heard a report of Mr. R. W. Reford, the president, who was present at the eighth congress of the Chambers of Commerce of the Empire in London last June. The other delegates from the Montreal board were: Messrs. Hugh A. Allan, W. M. Botsford, George E. Drummond, and the secretary. He said that the resolution of the board urging the enlargement and adapting of the British consular system, so as better to serve the commercial needs of the overseas dominions and asking the Imperial Government to co-operate with the overseas governments in establishing a truly imperial consular service was cordially received, approved in principle, and referred to the Imperial Council of Commerce, a permanent committee of these congresses.

The congress passed a resolution by a majority of 122 to 9, with 58 neutral, reaffirming its opinion in favor of preferential trade within the Empire, and urging on the various governments concerned the desirability of taking action to give effect to this principle.

The Canadian Chamber of Commerce, London, notified the council that it was formed to promote Anglo-Canadian interests, and asked the Montreal Board of Trade to become a member. This the council agreed to do. The same chamber had communicated a resolution towards preventing the exploitation on the London market of unsound Canadian real estate propositions, and this the council endorsed.

The programme of the fifth International Congress of Chambers of Commerce and Commercial and Industrial Associations, to be held in Boston on Sept. 24 to 28, was submitted as follows:

The establishment of a fixed date for Easter, and the reform of the calendar.

Regulation of international expositions.

The establishment of an international court of arbitral justice for suits between individuals and foreign states.

The unification of legislation relating to cheques.

International postal reforms in view of the next conference of the Universal Postal Union in 1913.

Commercial statistics and the immediate institution of an international office.

The desirability of an international conference upon the validation of through-order-notify bills of lading, and of legislation and other means for making the system more effective.

The desirability of international uniformity of action in the matter of consular invoices.

The desirability of an international conference on prices and the cost of living.

Lieut.-Col. Jeffrey Burland, who represented the board at the last of these congresses, will be the board's delegate to the Boston congress.

An application from a number of members of the board, to be allowed to form a branch association to be known as the Montreal Wholesale Liquor Association, was approved.

Appointment of the committees was made as follows, suggested by the Hon. Mr. Foster, at a special general meeting of the board, which he addressed on the 15th of May last.

Export Trade Committee—Messrs. W. W. Hutchison, John A. Gunn, Alex. McLaurin, H. J. Fuller, Vincent A. Ward, D. W. Campbell, and L. L. Henderson.

Interprovincial Trade Committee—Messrs. W. K. Grafftey, Armand Chaput, A. Hamilton Gault, W. F. Angus, Geo. F. Benson, Wm. Lyall, and Jas. Elmsly.

The following were admitted to membership in this board:—Hiram L. Piper, of the Hiram L. Piper Co., Ltd.; Edward W. Parker, of Findlay & Howard, Ltd.; John Wilson, of Matthews, Limited; A. Gibb McArthur, of Gibb & Co., Ltd.; I. W. Steinholt, of Swift Canadian Co., Ltd.; O. W. Dettmere, of Willis, Faber & Co., of Canada, Ltd.; Edward Fitzgerald, Purchasing Department of Canadian Pacific Railway; James Birchenough, Merchants Bank building; Fitzjames E. Browne, of The House of Browne, Limited.

Mr. Jas. Elmsly resigned from the council on account of his severance with the banking interests which he represented. The council delayed the appointment of his successor until the bankers' section should make a nomination for the office.

MAIL TRAIN JUMPED TRACK.

Running at 60 Miles An Hour; Score Injured.

Rochester, N.Y., Sept. 12.—The Wabash mail, on the R., W. & O. division of the New York Central Railway, running sixty miles an hour, jumped the track at Morton, 25 miles west of Charlotte, at 6.30 o'clock this morning. Two passengers and the engineer and fireman were seriously injured. A score of passengers suffered slight injuries.

AIRSHIP FOR TURKS.

Captured When Italian Officer Was Obliged to Descend.

Tripoli, Sept. 12.—The Turks, who on several occasions have tried vainly to smuggle into Tripoli an aeroplane for scouting purposes, are at last in possession of a machine through a mishap to Captain Moizo, of the Italian army. Captain Moizo was making a flight from Zouara to Tripoli when the motor of his machine stopped and he was obliged to descend in a hostile country. He was made a prisoner.

ONE OF NATURE'S SAFEGUARDS.

During normal periods we digest our food properly and assimilate it thoroughly and thus accumulate a reserve fund of vitality, strength or force, which may be drawn upon in time of need. This reserve enables us to safely tide-over danger periods of epidemic or infectious sickness which otherwise would bring disaster.

Very careful scientific experiments made in two separate series by Professor Thompson of the School of Physiology, Trinity College, Dublin demonstrated that the daily use of Bovril has an extraordinary effect on the alimentary system, for it enables the digestive organs to do their work more thoroughly, and gives power to the system to absorb the full store of nourishment from our every day food and by that means to accumulate the store of surplus energy which is a most valuable possession.

TO OTHER LANDS

There are not Many of us Familiar with the Geographical Locations of Countries Described.

Geography is defined as the science that describes the surface of the earth and its divisions into continents, and generally speaking, not many of us are likely to go more deeply into the subjects. Most of us know the boundaries of our own country, but we little realize the educational value to be gained from an occasional hour devoted to reading of other lands.

Take, for instance, Palestine, which is described as a narrow strip of country at the eastern end of the Mediterranean Sea, stretching north and south one hundred and forty miles and from thirty to forty miles east and west, covering in its entirety only twelve thousand square miles. Compare that with the area of Ontario, more than twenty times that size, and Quebec, nearly thirty times as big as the area of Palestine.

Of all of the lands of the earth, Palestine is one of the most interesting, for in this small country originated a volume that is familiar to all—the Bible. It has often been a question of wonderment that such a small portion of our earth could be instrumental in producing a work so universally known. And yet small countries have given to the world some of its greatest treasures. Take, for instance, England, Greece, Italy and Egypt, all of them are small, yet they are or have been world leaders.

To-day there is not a place on our planet which is more thoroughly studied and known than this twelve hundred square miles of Palestine. Even in our own generation, every foot of it has been surveyed. Our geologists have gone through the rocks; botanists have gathered and classified its plants; and zoologists have collected and arranged its animals. Maps have been made that show every mountain, valley, lake and river, as well as cities and villages.

In Palestine is to be found all the rock formation, as well as all of the flora and fauna known to this earth. Between the high altitudes of its mountains with the perpetual snow and the tepid waters of the Salt Sea, every climate is experienced, in which there is every living thing that is known to earth. So it has been truthfully said that Palestine is the world in a nutshell.

By reading the foregoing, one may get a slight glimpse of the interesting knowledge set forth in the new illustrated Bible which is being distributed by the 'Witness.' This magnificent volume contains six hundred text illustrations prepared by great artists at the enormous cost of $50,000 aside from the numerous full page colored plates from the famous Tissot collection. Every picture portrays a scene that throws a true light on the particular subject which it accompanies. Some Bibles lay claim to 'Illustrations' where they simply have 'pictures' inserted at random, without regard to the subjects. These may be said to entitle the volumes to the word 'illustrated,' but they have no educational value, as they have no bearing on particular subjects which they accompany. The New Illustrated Bible which the 'Witness' distributes is the only one that truly illustrates the exact subject related to it in position as well as in matter.

For a short time the 'Witness' will offer this beautiful volume to its readers on the plan explained under the educational certificate printed elsewhere in this issue. Read every word of it and take advantage of this great opportunity at once.

PEACE IS TARDY

Negotiations Drag Along at Chiasso, Switzerland.

Chiasso, Switzerland, Sept. 12.—The Italian premier, Sinor Giolitti, who is now at his country place at Piedmont, has had a special wire put in in order to communicate with the unofficial delegates who are discussing peace with the Turkish representatives in Switzerland. It is expected that the Premier will return to Rome to-day, and will submit to the council of ministers a report on the present state of the negotiations.

Turkey is now convinced that Italy will never recede from the main points sets forth in her proposals, and is bending her energies towards reaching a settlement, which will save her prestige before the Mussulman world.

MEXICAN REBELS HELD UP TRAIN.

Nogales, Ariz., Sept. 12.—The Southern Pacific passenger train, which left here for West Coast points at 11 o'clock yesterday, was held up by rebels under Emilio Campa at Quijano, 30 miles south of Nogales, and partly destroyed.

The first intimation that rebels were in the vicinity was a volley of shots fired at the engine, and, obeying the implied command, the engineer brought the train to a stop. Campa himself boarded the train, and with an exhibition of extreme deference explained to the passengers that they would not be molested; that he merely wanted all the arms and ammunition aboard the train.

After taking what few arms and ammunition there were, the engineer was compelled to run the train to Aguazarca, where there was a bridge. The mail, baggage and second class cars were placed on the bridge and set on fire. Telegraph wires were tied to the engine and torn down when the train started. Only the first-class coach and sleeping cars escaped destruction.

SOCIALISTS TO CONFER

Reichstag's Powerful Party Said to Have Internal Disturbance

Berlin, Sept. 12.—The greatest political gathering in point of numbers and in many respects the most important of the year, will begin at Chemnitz, Saxony, on September 15, when the Social Democrats gather for their annual general meeting. Here officers will be elected, party differences adjusted and the plan of campaign for the ensuing year mapped out.

Present indications are that the meeting will be marked by many sharp, if not bitter contests, for the number of resolutions to come before the delegates is much greater than on any previous occasion, and more than two score of them propose changes in the party statutes and by-laws.

All the party leaders, of whatever faction, deny the existence of any important differences of opinion within the party, but the resolutions looking to the changes of the party organization affirm it. Back of them, although no one in authority will admit it, lies a movement to take from the present leaders of the organization a great part of the power now vested in them by relegating certain committees, creating new checks or existing executive officers and otherwise restricting the dominant faction in its conduct of party affairs.

The other resolutions refer in the main to internal party affairs. It is unlikely that any platform change of any moment will be made, all wings of the party being fairly united as to that, although differing as to methods of procedure.

The enrolled membership of the party is nearly one million. Of this number more than 130,000 are women. Every third voter who went to the polls at last January's election cast a Social Democrat ticket. The party, with 110 seats in the Reichstag, has relegated to second place the Clericals, for years the strongest party represented. It has, moreover, 225 delegates in the Diets of the various German states.

ELECTROCUTION FOR ALLENS

Leaders of Gang Who Shot Judge in Court Will Go to Chair.

Wytheville, Va., Sept. 12.—Floyd Allen and his nephew, Claude, two leaders of the gang that 'shot up' the Hillsville courthouse, were brought into court here yesterday, and sentenced to be electrocuted on Nov. 22. They were found guilty of murder in the first degree several weeks ago. The trial of young Victor Allen, charged with complicity in the same murders, was continued to-day.

UP THIRTEEN HOURS.

French Aviator Came Near to Breaking Duration Record.

Etampes, France, Sept. 12.—M. Fourny, the French aviator, competing yesterday for the Criterium Prize offered by the French Aero Club, made a notable flight, but failed to equal the record set by Helles here last September. Fourny remained in the air for 13 hours and 18 minutes, and covered a distance of 1,010 kilometres (628 miles).

Helles' record, which was made while competing for the Michelin cup is 776.86 miles in fourteen hours and seven minutes.

OUTREMONT COUNCIL OBJECTS TO STREET WITH FRENCH NAME

Prefers 'Bernard' to 'Georges Emiles' and Respectfully Informs the Montreal Authorities of the Fact.

Mayor Beaubien presided at last night's meeting of the Outremont Council, and the councillors present were: Messrs. Stuart, Cooke, Munro, Picher and Bessette.

It was moved by Councillor Bessette, seconded by Councillor Cooke, that the name of Bernard street in Laurier ward in the city, having been replaced by the name of 'Georges Emiles,' and whereas the Town of Outremont does not consent to change the name of this street, the citizens interested in that street are for the most part English speaking, and whereas the name Bernard has always existed for this street, be it resolved that the town of Outremont respectfully prays the city authorities to remove the name of Georges Emiles and restore the name Bernard. The motion was carried.

The proposed agreement between the Water and Power Company was submitted and after it had been explained that by this contract it was only proposed to give the company exemption from taxation, and that it did not interfere with the terms of the company's franchise, the agreement was adopted on the motion of Councillor Munro, seconded by Councillor Picher, Councillor Bessette dissenting.

The by-law to amend the building by-law so as to permit the Bell Telephone Company to build a Telephone Exchange station on Rockland avenue gave rise to some discussion. The building by-law provided that only residences could be built in this locality. Councillor Bessette called attention to the fact that the building residences in that section of the town had been falling away very much of late on account of the fact that the restriction imposed by the building by-law was too severe. He did not think that anybody would care very much about going so far away to build residences near the railway tracks. The building by-law did not permit the construction of anything there but detached or semi-detached cottages, in fact, residences of a class on which nobody would care to spend any money.

Councillor Stuart thought they should keep up the standard, and that if people were given the privilege of building cottages at a reasonable cost they would do so. The building of cottages should be encouraged instead of permitting the construction of ugly flats.

Councillor Bessette replied that it was strange that building operations were at a standstill here while the building trade was so busy in the other sections of the town.

BELL TELEPHONE CO. MAY PROCEED.

After further discussion the amendment of the building by-law to permit the Bell Telephone Company to put up its Exchange building was carried, the first reading being moved by Councillor Bessette, the second by Councillor Munro, and the third by Councillor Picher.

The question of the opening of Spring Grove avenue was taken up next, Councillor Munro submitting a motion to the effect that the Sisters of the Immaculate Conception be offered 85 cents per foot for the land required in place of 62 per foot, at which price they offered to sell.

Councillors Bessette and Munro said that this land in its present state was simply farming land, and when the avenue was opened through this property the land would not increase in value.

Councillor Picher said he had been given to understand that the land had already been sold to a certain party for 75 cents per foot. Councillor Stuart thought this was all bluff.

Councillor Picher understood that the Sisters did not wish to divide this land into building lots, and that the piece of land wanted by the town was really used as a yard; it was not farming land.

Councillor Stuart replied that the land in question was already in the market, which to him was a clear indication that they did not want it as a yard. They had no use for it as a yard.

AGREED TO OFFER 85 CENTS.

It was finally agreed on the motion of Councillor Munro, seconded by Councillor Cook that the offer of 85 cents per foot be made.

A petition from Felix Bruyere and others was presented asking the corporation to remove the earth which was piled up in front of the houses on Champageur street; also that an electric lamp be placed at the corner of that street and Bernard avenue.

The Council granted the request of citizens on Bernard avenue to lay a wood sidewalk on that thoroughfare between Devaar and Wiseman avenues. A permanent sidewalk will be laid next spring.

The secretary was instructed to write to the President of the Tram Car Company asking when they expected to start with the new car route around by Bernard, Outremont, and Van Horne avenues.

Councillor Stuart called attention to the bad condition of the tarvia preparation which had been laid down on some of the streets this year. It was several cases unsatisfactory. It was decided that the company should be called upon to make good their guarantee.

A blue print of the plan of the proposed hose tower for the Outremont municipal buildings was submitted by Messrs. Hutchison, Wood & Miller, architects, and estimates of the cost will be made later on, instructions as to whether tenders are to be called for or not.

NEW BUILDINGS IN OUTREMONT.

Mr. Reid, building inspector, reports that he has issued permits for the following buildings since the last report was published.

To Mr. J. Brunette, a cottage for Mr. W. Bessette on Bloomfield avenue, to cost $14,000.

Mr. O. Gurrie, 2 cottages on St. Catherine road, for Mr. Legasse, $30,000.

THE TRUE CAUSE OF RHEUMATISM

Due to Acid in the Blood—Can Only be Cured Through the Blood.

Not many years ago even doctors thought that rheumatism was only a local pain caused by exposure to cold or wet. Now they know that the trouble is caused by the blood becoming tainted with uric acid. This condition of the blood causes the muscles to contract, stiffens the joints and irritates the nerves. If not promptly treated the stiffness spreads and the pain grows worse until you are a helpless cripple, tortured day and night. If the disease touches the heart it means sudden death. You cannot cure rheumatism with liniments, plasters or hot cloths, as so many try to do. You must go right to the root of the trouble in the blood. The scientific way to cure rheumatism is to take Dr. Williams' Pink Pills, which make new, rich blood that goes right to the root of the trouble. They sweep out the poisonous acid, loosen the aching joints and muscles and bring ease and freedom where before had been pain and misery.

Miss Beulah Sheppy, Morpeth, Ont., says: "Following an attack of measles I took inflammatory rheumatism. My joints became swollen and the pain was almost unendurable. I doctored with two doctors, but the pain was only relieved while I was taking their medicine, and soon returned. For six months I continued to suffer in this way. Then I tried electric pads, but they failed to do me any good. Finally a friend persuaded me to try Dr. Williams' Pink Pills, and I had not been taking them long before I found relief. I continued using the Pills for a time and soon found myself in perfect health and feeling like a new person. I never lose an opportunity to recommend Dr. Williams' Pink Pills, as I cannot say enough in favor of them."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

PREMIER'S VISIT

Committees in Charge of Plans for Banquet on Sept. 21 Appointed.

When Mr. Borden comes to Montreal on Sept. 21st, as the guest of honor of the Liberal Conservative Club, he will find that the Metropolis of Canada has spared neither pains or expense to make the banquet on that anniversary date a memorable one.

Leading Conservatives of the city already have the arrangements well under way, the committees in charge of the different plans in connection with the dinner celebration being:—

General committee—President, L. T. Marechal, K.C.; vice-presidents, Mr. T. C. Casgrain, Col. A. E. Labelle, J. H. Sherrard, C. E. Gault, M. L. A.; treasurers, H. Duverger, Col. C. A. Smart, M. L. A.; secretaries, A. Pipineau Mathieu, Guy M. Drummond.

ARTIFICIAL FERTILIZER.

New Product May Lighten Expenses of the Farmer.

New York, Sept. 12.—An announcement of special interest to farmers in that it may cheapen the cost of fertilizers was made here yesterday by Professor Hofrat Bernthsen, an eminent German scientist, lecturing before the eighth International Chemical Congress. He explained that a system had been discovered in Germany for the synthetic, or artificial manufacture of ammonia by the uniting of nitrogen and hydrogen.

As ammonia is extensively used in the manufacture of ice and in the preparation of fertilizers, notably ammonia sulphate, Dr. Bernthsen predicted that its synthetic preparation was an important step forward in scientific achievement.

AVIATION'S TOLL.

Flying Man Tried Spiral Guide and Was Fatally Injured.

Chicago, Sept. 12.—Aviator Paul Peck, of Washington, D.C., holder of the American duration flight record, was fatally injured in a fall with a biplane last night, while flying in a gusty wind. He attempted too steep a spiral, and when he struck the ground the heavy engine came through the wreckage, striking him in the neck.

A gusty wind blew at Cicero field all day, and Mr. Andrew Drew, the director, posted the customary warning to aviators against going up. Peck believed his small biplane would be fast enough to carry him through the choppy wind, and went into the air in spite of the caution.

At about 800 feet altitude he started to come down in a spiral glide. Because of the unusually small span of his machine Peck got into too steep a spiral, his aeroplane slid in toward the centre of the vortex and he could not bring it back.

MILLIONNAIRE HAD CLOSE CALL AT COBALT.

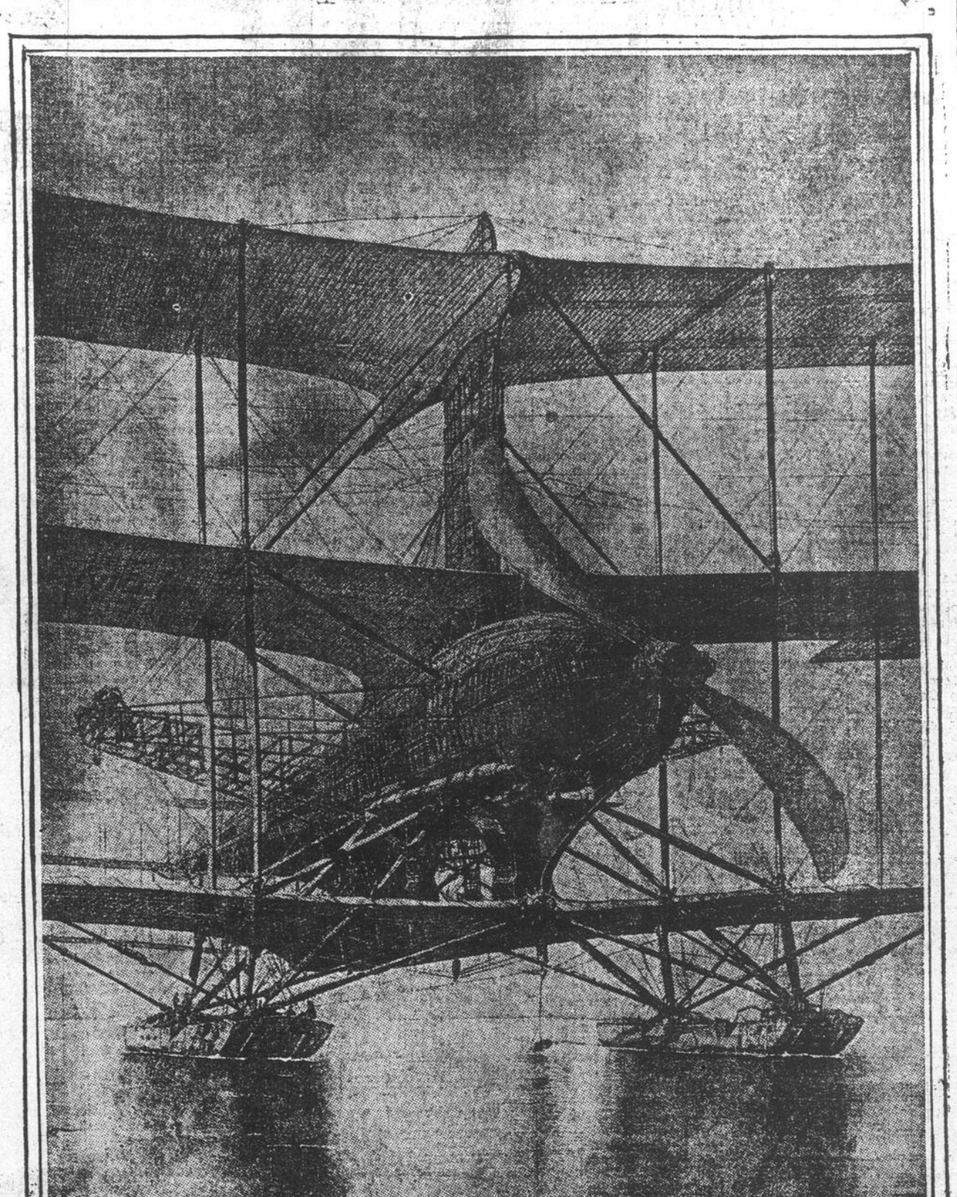

Cobalt, Ont., Sept. 12.—Austin Gillies, millionaire lumberman, and a party of ladies, twelve in number, had a close call yesterday. They had returned from a long run in Mr. Gillies' motorboat on the Montreal River, and just as the ladies were disembarking the engine back-fired and the boat was enveloped in flames. Mr. Gillies had to dive into the river to escape the flying bullets from a box of shells which exploded.

The craft was burned to the water's edge. No one was hurt.

ROBBED HIS EMPLOYER.

In the Enquete Court yesterday morning, Richard Smith, a grocer, claimed he was robbed of $21.17, by William Fosberry, a driver in his employ for a year. Fosberry, it was stated, failed to turn in his collections, and this morning told the court he was short of the money which was taken from him in a store while doing his rounds. Later he pleaded guilty, and will be sentenced on Thursday. He lives at 1 St. Monique street.

THE FUTURE 'AIRLINER' AS DRAWN BY AN ENGLISH ARTIST.

● The above drawing, made by an English artist, is intended to represent the airship of the future, which may be a substitute for the great ocean liners of the present time such as the Mauretania and the Olympic. The date for the arrival of this great sea monster is set for 1930. It is to be a hydro triplane and the finest product of modern science and engineering.

WILL RESIST BI-LINGUAL LAW

Separate Board Says Ontario Government Forcibly Anglicizing French-Canadians.

Ottawa, Ont., Sept... ..1.2—The Ottawa Separate School Board will take a bold stand against the enforcement of the regulations in regard to bi-lingual schools recently put in force by the Ontario Government This was decided at last night's meeting of that body, which lasted until after midnight and where a motion was passed stating the board would decline to enforce such regulations.

As to the effect of this stand several trustees stated that the Government could do no more than cut off its grant of $4,000, while others differed from them and stated that should it so desire the separate schools of the Capital could be rendered mere private institutions for which taxes could not be collected. At length, however, two motions, moved by Mr. Genest, a trustee, were carried.

The first, after pointing out that the mode of teaching prescribed by the new regulations was detrimental to the public, for whom the board had to provide, that the appointment of English Protestant inspectors over the heads of the bi-lingual Roman Catholic ones was objectionable, and that additional expense, would be incurred, stated the board would be regretfully compelled to decline enforcing the said instructions.

The second motion, addressed to the Department of Education, drew attention more particularly to the matter of the appointment of the Protestant inspectors.

'The aim is not the education but the Anglicanization of our children,' said Mr. Genest in the course of an eloquent address, in which he introduced his motion.

'The Orangemen are responsible for these regulations,' said Dr. Freeland, on seconding the motion.

CANNERS ROUSED.

B. C. Salmon Men Against New Regulations in France.

Ottawa, Sept. 12.—British Columbia salmon canners are confronted with the posible embarrassment of their operations in France as the result of a bill now pending before the French Parliament.

Some years ago the sardine industry in France suffered severely from imitations, such fish as pilchards, sprats and small herrings being tinned in the same manner. In 1906 a law was passed directing that in the case of sardines, tinned vegetables and tinned plums, the name of the country of origin should be stamped in the bottom of the receptacle in letters at least four millimetres (about one-sixth of an inch), high. A bill now is pending in the French Chamber, put forward by Deputy Braird and backed by a number of deputies mostly from Britany, extending the law of 1906 to 'all foreign fish preserves' entering France. It was at first proposed to include lobsters in this enactment, but this has been dropped. The British Columbia canners take the ground that it would be impracticable so to mark their cans as their trade with France amounts to only some six percent of their total output.

MURDER AND SUICIDE.

Boston, Sept. 12.—After killing a woman in a West End hotel early yesterday, a man, believed to be Frank E. Ogilvie, of Melrose, Mass., fatally wounded himself by sending a bullet into his temple. The couple went to the hotel soon after midnight. Two revolver shots later attracted attention, and upon forcing the door of their room, the couple were found unconscious. They were sen, to the Relief Hospital, where the woman died. Ogilvie lived six hours after the shooting.

DISEASED MEAT

Dealers Alleged to Have Sold Carcasses With Lump Jaw.

Chatham, Ont., Sept. 12.—High Constable Peters left for Tiltbury this afternoon to arrest a butcher of that place by the name of Strong, who is charged with selling diseased meat for consumption. Several other farmers of the vicinity will also be charged with selling cattle suffering from lump jaw to the butcher.

The police recently located the head of one of the cows, and dug it up. It will be produced in court at the time of the trial. It is alleged that the animals were suffering from lump jaw in the last stages.

SAILORS' CLUB CONCERT.

Band From SS. 'Victorian' Caused Amusement With Odd Instruments.

The Catholic Sailor's Club gave their weekly concert last night. Mr. James Murphy, chief ranger of Sarsfield Court, Catholic order of Foresters, under whose auspices the concert was held, acting as chairman.

A novel feature of the programme was the ragtime band from S.S. 'Victorian.' Using the most absurd ship implements for musical instruments they succeeded in evoking smiles from the audience in a larger ratio than by music from their instruments.

Among the others who contributed interesting songs or dances or recitations were. Miss Grace Beatty, Miss B. Broderick, Miss M. Benoit, Messrs. E. O'Brien, Benoit, Wm. Grant, C. Mallon, M. Irons; also T. Prescott, 'Laurentic,' and Mr. Dorchester, of the 'Royal George.'

Collections to the sum of £2 11s. 9d. were made by Mr. Jas. O'Toole from the seamen of the 'Laurentic' in aid of the club burying ground at Cote des Neiges cemetery.

TICKET AGENTS HERE.

One Hundred and Fifty Will Arrive To-night From Muskoka.

About 150 members of the International Ticket Agents' Association, fresh from the annual gathering which took place at Muskoka this year, will pass through the city to-night on their way to Quebec. The party includes representatives from every railway line in the United States and Canada. A delegation from the Pennsylvania Railway Association will stop here for a day before going to Quebec and Ste. Anne de Beaupre. They leave Montreal for home on Sunday evening.

PROPOSED CHANGE OF HEADQUARTERS.

Toronto, Sept. 12.—It is announced that at the annual meeting of the Canadian Manufacturers Association in Ottawa September 26, notice of a motion that the head office be transferred from Toronto to Ottawa will be given. This motion will be seconded by a member from St. Johns, Que. It will receive the opposition of members throughout Ontario. Whether or not the head office will oppose such a transfer from this city has not yet been determined, but it is to be decided at a meeting to be held Tuesday next.

YUAN CLEVER PRESIDENT

Strengthening His Hand by Making Popular Appeal.

Pekin, Sept. 12.—President Yuan Shi Kai proposes to give Dr. Sun Yet Sen 20,000 taels ($20,000) monthly to promote his scheme of railways throughout China, and the provisional assembly is expected to agree to this. Dr. Sun proposes to borrow abroad, giving the railways as security until the profits will pay the loans, whereupon the lines will become government property.

This is considered a clever political move, for while many sections of the country distrust Yuan Shi Kai, recognizing only his capability, Sun Yat Sen is a popular hero, who is most likely to persuade the nation to accept foreign railway loans, which were actually the cause of the late revolution.

President Yuan has invited each provincial governor to send three representatives to a conference to be held at Pekin, hoping to persuade them of the necessiay of a strong central government, the inter-provincial ties now being insecure. The president's powers of persuasion are remarkable. Men come to Pekin his enemies and depart loyalists.

The $50,000,000 loan which has just been negotiated with Lloyd's Bank at London, is agitating Pekin. The representative of the bank here says that it is merely a preliminary loan and that all funds necessary for the reorganization of China's finances will be forthcoming. There is much scepticism, however, with regard to the ultimate success of this step. The opinion is expressed that if it is successful the six-nation group of bankers will be broken up. Their counter action is awaited with interest.

AMERICAN UNIONS GAIN

Canadian Federation of Labor Reports Internal Dissent and External Attack.

Three Rivers, Que., Sept. 12.—Discord within and attacks from without seemed to be the general experience of the Canadian Federation of Labor, judging by the reports which were made at the opening sessions of the fourth annual convention, held here yesterday.

The reports showed that the Canadian body has had to fight strenuously the American organizations, and that even in its own ranks there have been difficulties that have retarded progress. Nevertheless, the secretary stated he was neither pessimistic nor optimistic, he only presented the facts.

On assembling in the City Hall this morning there were represented eleven unions from Quebec, twelve from Nova Scotia, and three from Ontario, each of these sending two or three delegates. P. J. Jobin, inspector of industrial establishments, represented the Quebec Labor Department, and Victor Dubreuil the Federal Labor Department. The convention received a warm welcome from Mayor Normand at the morning session.

John Moffatt, president, in a short address surveyed the work of the year and pointed out the need for better organization. In reporting for the Quebec Union, L. A. Laroche stated that they had waited upon Hon. L. A. Taschereau with several recommendations, most of which had been carried into effect at once, among such being the nomination of boiler inspectors for factories, obligation to employ certified engineers and representation on the technical school board. An attempt to comply with a request made by female shoe operatives in Montreal to organize them had failed, but the scheme was not abandoned. The report went on to express regret that Quebec, once so well organized for labor, was not in that condition to-day. The international unions had made desperate efforts in the past year to break them and had used some disaffection in Canadian ranks to their benefit. In strong language the report denounced the infamous and disloyal methods adopted by the outsiders.

These statements were corroborated by the report of Secretary George G. Mercure, who, after giving details of the year's work, drew attention to the present status of Quebec National unions. He pointed out that there were five or six American organizations warring against the Canadian Federation of Labor, and further that political ambitions had caused internal troubles, the two causes resulting in a loss of a thousand members to the Canadian body.

TROUBLES OF A PLAY.

'Blindness of Virtue' Has Succession of Setbacks in Quebec.

Quebec, Que., Sept. 12.—The 'Blindness of Virtue,' Cosmo Hamilton's senational play, which comes direct to Canada from the Little Theatre in London, had been booked for Quebec, but there appears to be some trouble in the way of its appearance in this city.

The company will arrive here from England about the 23rd, and it had been originally announced to appear on the 27th and 28th, prior to its visit to Montreal and other Canadian cities, after which it will go to the United States. The William Morris players evidently have their troubles before them, at least so far as Quebec is concerned.

A representative of the company, who was in this city from New York to-day, was confronted with the proposition that the play could not be produced in Quebec, as the church authorities would not stand for it. An interview was had with the church authorities, and when the matter was explained no objection was made.

The next trouble encountered was the local theatre manager, who thought a drama of this style would not take in Quebec. However, it is expected that the drama will be given here.

AMERICAN TOURIST AUTO. FATALITY IN ENGLAND.

Ambleside, England, Sept. 12.—John J. Williams, of New York, his wife and son were injured, though apparently not seriously, a chauffeur was dangerously injured and another man was killed in an automobile accident at Kirkstone Pass of the Cambrian Mountains yesterday. The Williams were returning to Ambleside from a tour in a hired car.

FINISHING WINDSOR STATION.

The completion of the large addition to the C. P. R. general offices and the Windsor Station, are being expedited now as much as possible, and the offices will all be ready by Nov. 1st, while the enlarged station will be finished by Jan. 1st. It will have a fine large concourse and three additional tracks.

"IMPOSSIBLE TO HELP MY KIDNEYS"

Until I Used "Fruit-a-tives" World's Greatest Kidney Cure

Practically everybody in Toronto knows Professor J. F. Davis. For years, the elite of that city has taken lessons from Prof. Davis in the art of Dancing and Deportment.

His constant activity gradually weakened his Kidneys, which caused and threatened to make him an invalid.

But read Prof. Davis' letter—

563 Church St., Toronto, Ont.
December 29th, 1911.

"I want to say that "Fruit-a-tives" is my only medicine, and has been for the past five years. Previous to that, I had been troubled with Rheumatism and Kidney Disease, and had taken many remedies without satisfactory results. Noticing the advertisements of "Fruit-a-tives" I adopted this treatment altogether, and as everyone knows, I am now—and have been since taking "Fruit-a-tives"—enjoying the best of health."

J. F. DAVIS.

If Rheumatism or Kidney Trouble is making you miserable, take "Fruit-a-tives" and get well.

50c a box, 6 for $2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

FAVOR NEW PAVING LAW

Aldermen Propose Levying of a Uniform Rate on Proprietors of City.

A committee of aldermen grappled with the paving by-law at the City Hall last night. A majority of those present concluded that the present law was not equitable. It was also declared that it was unfair to oblige a proprietor to pay $4 a yard for granite block pavement on a street subjected to heavy traffic and to let off another proprietor on a residential street with $2.10 for asphalt.

Ald. Monahan said it would be better to impose a paving tax of a uniform amount for all materials used. Anything above that cost could be charged to the account of the city.

Ald. L. A. Lapointe said he had not voted for any paving contracts.

Ald. Monahan submitted a resolution saying the present paving law was unjust, and it should be amended at the discretion of the legislation committee. This was accepted.

Ald. L. A. Lapointe said that the committee should first obtain the opinion of the controllers on the proposed amendment, for it affected the city's finances.

The following were present: Ald. Mederic Martin (chairman), L. A. Lapointe, Monahan, Lariviere, Drummond, Poissant and Garceau.

NO FAN TAN IN MAISONNEUVE

There is no fan tan played amongst the Chinese in Maisonneuve according to Mr. James S. Lee of 372 St. Catherine street West, who acted as interpreter for Mark Sing, the Chinaman who was acquitted on Monday of a charge of aggravated assault on Charles Wilkinson. Reports of the case indicated that the trouble arose over a game of fan tan, but Mr. Lee says that is not so, and is anxious that the public should know that neither Mark Sing nor any other Chinaman in Maisonneuve allows fan tan to be played on his premises.

3,000 AT LAWN FESTIVAL

The lawn festival of St. Patrick's which was held last night was attended by over three thousand people who entered freely into the various amusements provided. The automobile trips through the streets and the pony drives for children proved attractive features, and the band concert, which will be continued during the rest of the week was highly appreciated.

Among the visitors present were Monsignor Riardon, of Newfoundland, the Hon. H. C. Doherty, Minister of Justice, and Ald. O'Connell.

SEIGNEURIAL FAMILIES MEET

Petition to American Government Sets Forth Perfidy of Great Britain.

FOR THE HAGUE.

Suggest That Matter Take Precedence Over Panama Canal Dispute.

Representatives of the old Seigneurial Families of French Canada met yesterday at the Diocesan College under the presidency of Vicomte de Fronsac, when the latter read a paper on the history of the various orders of noblesse in Canada.

He referred to the perfidious manner in which the British Government had broken all treaty obligations and robbed them of their right to rule the country.

The Vicomte produced a petition addressed to the Secretary of State and Government of the United States regarding the wrongs of the Canadian noblesse, setting forth that, while by treaty the British Government had promised to keep up the customs of Paris, it had flagrantly violated its promises. They, however, offered to submit the matter to The Hague tribunal and suggested that the matter take precedence over the Panama Canal dispute.

It was argued that the position of the Canadian noblesse today was no better than that of the meanest peasant coming here from Europe, since the latter, on acquiring citizenship was given equal share in voting and government representation.

A number of titled personages with names suggestive of French Canada, but now residing abroad, were mentioned as signatories to the petition for Hague adjudication of the seigneurial wrongs, after which the fifteen representatives of Canada's ancient aristocracy departed in silence.

A QUESTION OF ALLEGIANCE

Oversea Club to Decide Whether Ex-British Citizens are Eligible

Whether persons who have at any time foresworn his or her allegiance to the British Crown shall be eligible to members of the Overseas Club will be decided at a meeting to be held in the Edinburgh Cafe next Tuesday evening.

When the club was inaugurated in this city last year, Article III. of the constitution provided that none who had foresworn allegiance to the Crown, should be admitted to membership. Some heated speeches were made at the time by Britishers, who held that men who had left their country to become citizens of the United States were not eligible for membership in their club and others held that Britishers in Canada who had once been naturalized American citizens should be admitted to membership.

The constitution as drawn up barried such from the club, but a movement is now on foot to have this section struck out.

It is proposed also to increase the annual dues from one to two dollars; also, to amend the constitution so as to provide for four vice-presidents instead of two, and for a secretary-treasurer. Various other amendments and by-laws will be considered.

It is proposed to celebrate the anniversary of the founding of this branch of the club on October the 21st, Trafalgar day, and the executive will be pleased to receive suggestions from members at this meeting.

SIR WILFRID'S TOUR

Intense Interest Aroused in Places Where He is Due to Speak.

Toronto, Sept. 12.—The Hon. Rodolphe Lemieux, M.P., and Mr. Hugh Guthrie, M.P., will be present at the meetings to be addressed by Sir Wilfrid Laurier during his tour of Ontario, and will deliver addresses.

The announcement of Sir Wilfrid's tour has aroused intense interest, and the local committees are being deluged with inquiries as to the times of the meetings, accompanied by requests for seats.

PREACHES CAUTION.

'Daily News' Thinks That Grave Evils Are Developing in Canada.

(Canadian Associated Press.)

London, Sept. 12.—'While we do not anticipate any serious setback in the near future, there are reasons, nevertheless, for preaching caution, says the 'Daily News,' commenting on the Canadian returns published yesterday. 'Speculation in land sales,' it says, 'has reached a dangerous point, and in the midst of this rush of prosperity, it is well to remember that grave evils are developing which will furnish many difficulties when the country is exploited by the trust system, which has gripped the country to an alarming extent.

'The railways possess the power which dominates the state, and labor is very disorganized politically.'

It concludes that Canada is far behind in its material development.

VETS. PUZZED BY EPIDEMIC AMONG HORSES.

Lincoln, Neb., Sept. 12.—Nearly a hundred Nebraska veterinarians, with a few from neighboring states, met here yesterday, and discussed the epidemic which is killing hundreds of horses in this state and Kansas.

Scores of suggestions have come to Governor Aldrich, among them this cable from a London, England, veterinary surgeon:

'The same epidemic was in South Africa a year ago, just as it is now ravaging Nebraska. It can be cured and prevented by not using grain and by feeding only alfalfa or wild hay grown in an altitude of more than 3,000 feet. The germ lives only in a damp climate, and enters the horse's system through the nose.'

NO CAR SHORTAGE.

Ottawa, Spt. 12.—It was statd at th Railway Commission offices that so far this season there have been no complaints regarding car shortage, though at this time last year complaints were flowing in in great numbers.

MASTERPIECES WENT CHEAP

Stock of the Cambridge Corporation Sold by Auction at Low Prices

SHAKESPEARE AT SIX CENTS.

Silk Autographed Set by Guy de Maupassant Brought 40c—Parkman Sells Well.

The book lovers of the city had a great day yesterday, the occasion being the liquidation sale of the stock of the Cambridge Corporation, Limited, of McGill College avenue. The collection was a magnificent one, many of the books being bound in full morocco or buckram, and being the choice works of Parkman, Ruskin, Shakespeare, Scott, Beaconsfield, Irving, Balzac (French and English); Paul de Kock, De Maupassant, Flaubert, Voltaire, Memoirs and Secret Chronicles, Universal Classics Library and Manuscripts; Beautiful Britain, History and Encyclopaedia of Freemasonry; Tissot's Life of Christ, Prayer Book of Edward VII.; Standard Family Physician and Home Doctor, Encyclopaedia Britannica, and other works, of splendid character. The buying was brisk, and some choice sets of great works were disposed of at very low prices. Some buyers secured large numbers of books, and one popular upown clergyman invested so heavily that he became temporarily 'embarassed,' and had to hasten home for new supply of cash. But the long winter evenings that are coming he will be able to spend, revelling in the writings of the illustrious dead.

Shakespeare was the first to pass under the hammer, and the sage of Stratford-on-Avon saw forty-five volumes of his works sold for six cents each. The price rose later, however, to eleven cents; then the bears' got busy and the market jumped to seven cents, where it stuck fast. Magnificent sets of J. J. Tissot's 'Life of Jesus Christ' ranged in price from $1.50 to $2.75 per volume for sets of three books. 'Beautiful Britain' brought $1.00, while the Waverly novels in full morocco sold for seventy cents.

A silk autographed set of Guy de Maupassant went for forty cents; Voltaire brought $1; Ruskin about fifty cents, and the Encyclopaedia Britannica fifty cents. The History of Freemasonry was snapped up at sixty cents, the buyer declaring that he would take the entire stock at that rate.

Live stock, apparently, was of much more value than humanity. 'The Doctor at Home' brought sixty cents, but the next lot, 'Diseases of Live Stock' sold for twice that amount. The next time the 'Doctor at Home' was put up, not a bid could be obtained; the 'Home Doctor' was combined with it, and a lone quarter was attracted from a buyer for the two books. A moment later there was a scramble to obtain 'The Horseman's Friend and Vet.' at thirty cents, and the 'Diseases of Live Stock' at fifty cents.

Parkman, the historian, was in happy mood. His works were the only ones that were keenly bid up, for a splendid set that started at twenty-five cents per volume was rushed in a few seconds to $1.45, and even at that price the happy purchaser thought he had a treasure. Other authors were unable to win the palm for popularity from Parkman.

CHOLERA INFANTUM

A FATAL DISEASE OF YOUNG CHILDREN DURING THE SUMMER MONTHS.

Mothers should look well after their children during the hot summer months, as this is the time of the year this trouble is most prevalent.

If any of your children become troubled in this way it will not pay you to experiment with some new and untried remedy.

Get one having stood the test of time. Dr. Fowler's Extract of Wild Strawberry has been on the market for over 65 years, and we have yet to hear of a case of Cholera Infantum it has not cured.

Mrs. Edward Sharp, Norton Dale, N.B., writes:—"I have three children, and with them I have used Dr. Fowler's Extract of Wild Strawberry with the greatest of results. Two of them had Cholera Infantum last summer, and could not keep anything on their stomachs until I gave them some of the Extract. I have also used it on several other cases, and would not be without it in the house."

PORTE'S FAITH IN BULGARIA

Doubts of Cabinet Will be Stampeded into War by Popular Clamor

London, Sept. 12.—Belief in the imminence of war is stronger in Sofia than in Constantinople, according to a despatch from the Turkish capital to the Daily Mail.

The Porte does not believe that the Bulgarian cabinet will be carried away by popular clamor. The basis of this belief is the programme of reforms which the Porte purposes to grant to Macedonia and all other Christian provinces.

While these reforms do not amount to autonomy, the correspondent adds that assurances have been given that a constitution granting equal treatment to all nationalities will be put into operation in the fullest sense.

A Salonica despatch reports further firing in the Velikarakol district.

SCOUT STORY OF DROWNINGS

Police Sceptical of Stories of Many Deaths in Fraser River.

Vancouver, Sept. 12—Although newspaper reports of the drowning of scores of railway laborers in the Fraser river have been received both here and at Victoria, the provincial police have made no move to verify the facts.

Superintendent Campbell states that no report has been made to him directly, and he will not act until his men, stationed at every mile along the river, so he says, send in details.

At the local bureau of the provincial police the acting chief scouts the story, stating that if twenty-five men had been drowned they would have been the first to hear of it. Late yesterday afternoon they had received no information.

Reports that a general strike on the Grand Trunk Pacific is imminent are spread by the Industrial Workers of the World's secretary at Vancouver, but denied by the contractors who claim that the men are well satisfied.

It is known, however, that laborers have left the construction camps in large numbers within the past two weeks. Attorney-General Bowser is away from Victoria, and will not return for some days.

The provincial police will not initiate the investigation without direct authority from Attorney-General Bowser. Until he returns the matter will be held in abeyance.

COOPERS RESENT USE OF STEEL BARRELS.

St. Louis, Sept. 12.—Declaring that the substitution by the Standard Oil Company of steel for wooden barrels would throw thousands of coopers out of employment, the Coopers' International Union of North America, in biennial session here, has adopted a resolution to unionize all cooperage shops of the Standard Oil Company, and to fight efforts to substitute steel for wood of the barrels.

The convention also adopted resolutions against prohibition.

REPRESENTATION ON MINORITY VOTE.

London, Sept. 12.—The Unionist press is jubilant over the capture of Gladstone's old seat for Midlothian as a knock-down blow to the government. The Liberal morning papers demand that Mr. Asquith insert in the next electoral reform bill a clause which, either by provision for an alternative vote or for a second ballot, will prevent a constituency from becoming represented by a minority vote.

PERU VOTES FIFTY MILLIONS FOR DEFENCE.

Lima, Peru, Sept. 12.—The Senate has approved an internal loan of $50,000,000 for the purpose of national defence.

JOINT STEAMSHIP SERVICE.

(Canadian Associated Press).

London, Sept. 12.—The 'Times' understands that the appointment of the Cunard Company as agents of the P. & O. line in the United States and Canada will be followed by an issue of through tickets for the services of both lines. For a considerable time past many travellers from North America to India and the Far East and Australia have been using the Cunard and P. & O. service, though it has not been possible to book through on a single ticket.

SAYS ABOUT THIS GREAT WORK

THE LADIES' HOME JOURNAL.

The Curtis Publishing Co.

Edited by Edward W. Bok.

'Why I like this illustrated edition of the Bible is because everything about it has been well done, and seems to have been done in the right spirit. The Book itself has been approached by the annotator with reserve and intelligence, and by its artists with sympathy and knowledge. It has not been made into a meaningless picture book. The pictures here serve a distinct purpose. They enrich the text, but they do more, they intelligently explain it, and many a hitherto obscure passage will assume to thousands a new meaning through these eye-teaching pictures. Popularizing the Bible is a risky experiment in the hands of many, but it has been made a splendid achievement in this case.

BARNADO SECRETARY

Rev. W. J. Meyers, of Famous Homes, Will Campaign in Canada.

(Canadian Associated Press.)

London, Sept. 12. — The Rev. W. J. Meyers, senior deputation secretary of the Barnado Homes, sails for Canada on the Allan liner 'Sicilian,' on September 19 in charge of an emigrant party of 200 boys and girls.

The principal object of Mr. Meyers visit is to advocate the claims of the institution for Canadian support, which, hitherto, has been very little. Mr. Meyers brings an influential personal introduction from the Bishop of Durham, Lord Strathcona, Dr. Clifford, the Rev. F. B. Meyer, Prof. Webb Peploe and others.

The 'Tribune' Sees 'Doom' and 'Death Knells' in Midlothian Result.

New York, Sept. 12. — A cable to the 'Tribune' from London says: 'The Midlothian election is regarded as more significant even than the Northwest Manchester election, and sounds the doom of the Government, and the death knell to Home Rule. The Liberals, in their hour of disappointment, are endeavoring to show that a straight fight between Major Hope and Mr. Alexander Shaw would have resulted in a Liberal majority of 2,381.

'Unionists and Laborites alike reject this argument. The Labor party is resolved to stand on its own legs and to have no alliance with the Liberals. Unionists are everywhere jubilant Belfast received the news with acclamations of the profoundest joy. Wild scenes were witnessed in the mills, shipyards and factories, employers and operatives joining in resounding cheers, which were repeated over and over again.

'In view of the representative character of the Midlothian district it is impossible to exaggerate the importance of the capture of the seat, which has been recognized ever since Gladstone's victorious campaign of 1880 as the stronghold of Liberalism in Scotland. A Unionist part official has stated that a general election now would result in the capture of a hundred Liberal seats, converting the coalition majority of 108 into a Unionist majority of 92, and the longer the appeal to the country is delayed the greater will be the fall of the Government.

'Unquestionably Mr. Lloyd George was largely responsible for the result of the election. The Insurance Act, which was the first experiment in this county of a general system of direct taxation, was very unpopular, and the election was fought mainly on the question of its merits and demerits.'

WITNESS IN COURT OF KING'S BENCH CALLS PRISONER A LIAR

Judge Threatens to Send Him to Jail if He Repeats the Offence —Case of Italian Charged With Attempted Murder— Woman Found Guilty.

Samuel Rosso charged with shooting with intent to murder stood his trial before the Court of King's Bench yesterday afternoon.

During the taking of evidence yesterday afternoon, a witness named Aquitino Ranko shouted at the accused. 'You lie.'

The prisoner's counsel, Mr. George Alexander, had asked Ranko if he slashed the accused with a razor, whereupon Rosso raised his arm to show the rip in the right sleeve of his suit. It was then the objectionable term was used.

Mr. Justice Trenholme instructed the interpreter to tell the witness that if he used such language again in court, he would send him to jail. The witness apologized.

The main points brought out in the case were as follows:—The accused and three other Italians were drinking beer in the rear of Amedee Dini's premises, when a quarrel ensued. Ranco had struck Rosso, and the latter then left the company, and was heard by Alphonse Dini to remark that he was going to get his revolver.

After six o'clock Ranko and Rosso entered the grocery store at 415 Cadieux street talking in rage to each other. Amedee Dini entered the place from the rear, at the same time, and in an instant a revolver was fired which wounded him.

Jeanne Dini, sister of the wounded man, was the principal witness regarding the actual shooting, but stated that she did not see who fired the shot.

WOMAN GUILTY OF NEGLIGENCE.

Rose Anna Champagne was found guilty by the petty jury yesterday afternoon of failing to secure assistance in child birth. The jurors recommended mercy. She will be sentenced later.

The Grand Jury having completed their work, were discharged by the judge.

The remainder of the list of cases which the Grand Jury returned yesterday were:—

Thomas Clark, charged with wounding with intent to maim, disfigure or disable one Pearl Clark, his sister. True bill.

Joseph Lassar, charged with attempt to commit rape. True bill.

Sam. Rais, charged with obtaining money by false pretences. True bill.

Moses Hirschfield, Joel Marcovitch, Sam Brenn, Tobias Pearlmann, Alick Slutzky, Isidor Bachman and George Leibner, charged with intimidation. True bills.

Samuel Copeland, Israel Schwartz, Charles Boruck, Moses Freedman and Pine Goldwog, charged with intimidation. Ignoramus in all cases.

Saul Brenn, charged with intimidation. True bill.

Pine Goldwog and Bernard Rottel, charged with aggravated robbery. True bill.

FLOWER SHOW PRIZE WINNERS

Mayor Opens Horticultural Society's Show in Victoria Rifles Armory

The functions of the Mayor of Montreal are multifarious. Yesterday afternoon His Worship welcomed the new Recorder and in the evening was called upon to open the Horticultural Society's Show in the Victoria Rifles Armory. He performed both ceremonies with equal gratification.

Speaking to a representative gathering of the horticultural interests last night he told his audience that he was not a flower expert, and for that reason was unable to speak learnedly on the subject of their culture. But he was very glad to have the privilege of publicly congratulating the society on their beautiful exhibition and hoped that it would flourish in like manner for many years to come.

AIR LINE TO WATERFRONT

Canadian Northern Officials and Controllers Talk Over the Project.

The Controllers held a meeting with representatives of the Canadian Northern Railway and considered the proposed overhead line from Lagauchetiere Street to the waterfront. The railway men present were:

Mr. S. P. Brown, tunnels and terminal engineer;; Mr. W. H. Moore, secretary, and Mr. T. S. Darling, sales agent. The Controllers were assured that the structure would be as noiseless and unsightly as possible, that every reasonable demand would be granted, that the company was willing to erect steel bridges of appropriate design.

After the meeting it was said that the main structure to support the elevated tracks would probably be of steel and concrete. The ties will be laid in a material that will reduce noise to a minimum.

The railway men submitted a letter from the Canadian Northern management. It said that an overhead line to the harbor front was essential, for the company expected to cross the river to the south shore.

The City Council was represented at the meeting by Aldermen L. A. Lapointe, O'Connell and Boyd.

New Arrivals in Carpets

Have you ever been in our Carpet Department? We have literally thousands of rugs and carpets of every description. Importations of Axminster, Wilton, Brussels and Tapestry Carpets are continually arriving. From Alexander Morton and Sons, one of the highest class manufacturers of carpets, come particularly charming wool Art Squares in beautiful harmonious coloring and most artistic designs. It would be difficult to imagine a more suitable and dainty, as well as inexpensive floor covering for a lady's bedroom. Of the absolutely unfadeable "Sundour" bath mats we make a specialty.

One section of our department is stocked with rolls and rolls of linoleums in every conceivable neat matting and parquet patterns.

Our special inlaid parquetry linoleum looks exactly like wood and can be waxed and polished in precisely the same manner.

Not only is our stock so very large and varied, but our prices are always as low as we can possibly make them.

A WORLD'S RECORD.

Denver, Sept. 12.—In the Denver trap shooting tournament at Overland Park, R. H. Prunk, an amateur, of Brookville, Ind., made a world's record for ten traps by breaking 200 targets out of as many shots. For the first two days of the shoots he leads the field with 395 breaks out of 400.

FOR AND AGAINST HOME RULE

Toronto, Sept. 12.—'I met many of my own people in the North of Ireland who were unalterably opposed to Home Rule, who would not listen to it on any terms, and I met some who were ready to throw up both hands and go south. There is undoubtedly a strong feeling in Ulster against the Home Rule bill, but there are a great many Irish Protestants who believe in it.'

This was the sizing up of the Home Rule situation in Ireland of T. Johnson, local member for Westmeath, who has just returned after three months tour of the British Isles and Europe. Mr. Johnson was in the Parliament buildings yesterday morning, upon the Prime Minister.
