THE CITY FATHERS MEET.

E. T. Agricultural Association Asks for Renewal of \$2,000 Grant—No Double Track in East Sherbrooke—Estimates Brought Down.

A special session of the City Council was held last night. Mayor Farwell presided, and there were present: Councilors Cate, Fuller, McManamy, Wilson, Fraser, Lanctot, Dematt and Codere.

SHERBROOKE EXHIBITION.

A delegation was presented from the Eastern Townships Agricultural Association, and the President, Mr. N. T. Dussault, addressed the Council before the regular business was taken up.

He came to ask the Council to renew its grant of \$2,000 this year in aid of the exhibition. Mr. Dussault said it would be remembered that last year the Association asked for \$3,000. The petition presented in connection was largely signed. The provincial grant was reduced last year from \$5,000 to \$3,000. Last year's exhibition was a success owing to the large number of people attending, the extent superior quality of the exhibits. In order that the Association might continue its work, it was necessary that the city should renew the grant of \$2,000 made last year. The directors thought that with this amount they could carry on the fair successfully if favored with good weather. He believed that all felt that money paid in support of the Exhibition was not wasted. If the farm stock and products of the surrounding country had improved the Sherbrooke Exhibition must be given its share of credit for this. The receipts last year were about \$11,000 in excess of the ordinary expenditure. Expenses, however, in connection with absolutely necessary improvements had consumed the surplus, and left the Association between five and six hundred dollars poorer than a year ago. Repairs and improvements to buildings were becoming more and more necessary.

Mayor Farwell assured the delegates that their request would be taken up by the Council and he was sure dealt with liberally.

THE ESTIMATES.

The various departments brought down their estimates of expenditure for 1903 as follows:

Road	Permanent improvement	(\$1,400), ordinary	(\$13,501)	\$17,901
Fire				6,595

Alaskan Boundary Treaty Ratified by U. S. Senate.

Washington, February 12.—In an executive session, which lasted only an hour and a half yesterday, the Senate in addition to confirming a large number of nominations, ratified the Alaskan boundary treaty, and came near taking similar action on the commercial treaty with Greece.

There was no delay in securing action on the Alaskan treaty, and very little opposition to it was manifested.

Senator Teller said that he considered

the Alaskan boundary so well determined as to make it not a matter of dispute. Therefore, while he would not delay it, he would not vote for it.

The ayes and noes were not called, but there were several voices heard in the negative when an informal expression was called for. The ayes were so much more numerous, however, that the decision of the chair to the effect that ratification had prevailed was not challenged.

RICHMOND WATER

Ratepayers Will Vote Next Week on Purchase By-Law.

PROVIDES FOR PAYMENT OF \$24,000 FOR THE SYSTEM.

Richmond, Feb. 12.—(Special)—The ratepayers will vote on the Water works by-law, next Tuesday and Wednesday, Feb. 17th and 18th.

This by-law was passed at the last meeting of the Council and provides for the purchase of the system for the sum of \$24,000.

A public meeting was held at the town office, this morning. Col. Bernard acted, and Mr. E. F. Cleveland acted as Secretary. The meeting seemed favorable to the by-law. A poll was demanded and granted to be held on dates above stated.

Mayor Hayes has called a public meeting for Friday evening, in the Town Hall, to discuss the matter and to hear explanations concerning the by-law.

EXPRESS HELD UP.

Five Men Rob Train on Northern Pacific Ry.

THEIR PLUNDER WILL AMOUNT TO SEVERAL THOUSAND DOLLARS.

Butte, Montana, Feb. 12.—(Special)—Burlington Express was held up about mid-night near this city by five mounted men.

They covered the sides of the train with their guns, uncoupled the engine, and ran them ahead two miles where they fired two charges of dynamite, blowing the cars to pieces and wrecking the express car.

The plunder will amount to several thousand dollars.

The Northern Pacific Company has offered a reward of \$5,000 for the arrest of the men.

APPEALS FOR LOYALTY.

Cape Colony Urged to Forget Differences.

CHAMBERLAIN HINTS FOR CONTRIBUTIONS TO GOVERNMENT.

Grahamstown, South Africa, Feb. 12.—In replying to deputations and as a guest at a banquet given here, Colonial Secretary Chamberlain made speeches Tuesday which are considered as clearly foreshadowing an invitation to Cape Colony to make a money contribution to aid the Imperial Government in carrying out its South African proposals. Mr. Chamberlain reiterated that Lord Milner would remain in South Africa to complete his work. He reminded the Dutch that it was the hope of their support that induced the Boers to undertake their struggle in defiance of Great Britain. He appealed to them to accept the result as final, as the Boers had already done; to forget racial differences and to aim at the fusion, instead of the disruption of the empire. The Cape was the only colony which profits by the war, and had a gigantic surplus. It depended upon them whether Africa's future was to be one of strength or weakness. Cape Colony's increased vote for the Fleet he said was not sufficient to keep up for six months the warship Good Hope. "I am addressing all colonies," concluded Mr. Chamberlain, "when I say that they are not doing what they ought in regard to their obligations to the empire. Who knows when a new blow may fall?"

Mr. Chamberlain, in returning his thanks for the welcome accorded himself and his wife at the banquet here, compared the settlers in South Africa in 1820 with the Puritan settlers in the Eastern States of America, to whom he owed a debt of undying gratitude, since he owes them his great domestic happiness. In this case the union of races was entirely successful. No shadow clouded that particular alliance. Proceeding with a comparison of the settlers in the United States and in South Africa, he said another similarity was that in neither case did the struggle against the forces of nature and barbarism make them lose sight of the value and importance of intellectual development. Accordingly, they became in Grahamstown, as in Boston, a centre of educational activity and energy. But Grahamstown and its inhabitants appealed to him more strongly because they had never forgotten what they owed to the mother land.

COMPULSORY VACCINATION.

A letter circular from the Provincial Board of Health dealing with compulsory vaccination was referred to the Sanitary Committee.

THE CITY'S INSANE.

The Mayor drew attention to two cases of the necessary removal to the asylum of insane persons in the city, viz., P. Menard and the son of Louis Dupre. One of these was destitute and would probably become a charge on the city. The other had relatives well able to support him.

NO DOUBLE TRACK IN EAST SHERBROOKE.

Councillor McManamy read the report of City Engineer Tremblay on the petition of the Sherbrooke Street Railway for permission to double track Bridge and Pine streets, East Sherbrooke, that is from the St. Francis bridge to the Exhibition gate. The engineer reported these streets to be 50 feet in width, 16 feet of this was occupied with sidewalks, leaving 34 feet for road. A double track would occupy 16 feet, leaving only nine feet on each side for drive way. This was not sufficient, owing to the heavy grade and traffic on these streets. The only way to double track would be to widen them.

Moved by Councillor McManamy, seconded by Councillor Cate, that the report be entered in the minutes and a copy sent to the Railway Co. Carried.

A letter was read from the Dominion Carpet Co., announcing some proposed improvements and extensions in connection with the works, after which the Council adjourned.

TRAIN WRECK IN THE WEST.

ALL AT HAMILTON.

PASSENGERS WHO WISH MAY CONTINUE EXCURSION.

New York, Feb. 12.—At the office of the Quebec Steamship Company it was said yesterday that the firm has not yet considered any definite plan for the excursionists who were shipwrecked while on the Madiana. The passengers are all ashore at Hamilton and the company's agents there have been directed to see that they receive every attention. Any who care to continue the original cruise, except so far as it included all ports in Porto Rico and Cuba, will have the opportunity of doing so on one of the Company's West Indian vessels. It will be impossible, however, to provide any one vessel, which can carry all of the excursionists, so, in the event that all elect to continue the cruise they will have to take their turns. No further cable information has been received at the Company's office since that of last night announcing that the passengers, mail and baggage had been saved.

GRANBY HAS A FIRE.

Damage to the Extent of \$20,000 Done.

GIDDINGS' FURNITURE FACTORY SUFFERED MOST SEVERELY.

Granby, Que., Feb. 12.—Quite a serious fire broke out in this town Tuesday evening between six and seven o'clock.

Before the flames could be got under control losses to the amount of about \$20,000 had been sustained by different parties.

The fire broke out from an explosion of benzine, in this addition recently made to the furniture factory of Messrs. H. & F. Giddings, after which the flames communicated to the residence of Mr. John Mullin and thence to the block formerly occupied by Messrs. Smith & Mullin, and now occupied by Wm. Topp, tinsmith, the upper portion being much damaged.

The building in which the Bank of Ottawa is located also took fire, but little or no damage was sustained.

The damage to the Giddings' factory is placed at about \$10,000, with an insurance of \$5,000.

WOLVES NEAR ANGUS.

Four Seen on Road Between There and Cookshire

HAD A HUNGRY LOOK AND THE NEIGHBORHOOD IS CONSIDERABLY ALARMED.

East Angus, Feb. 12.—(Special)—Last week as a traveller was coming to Angus from Cookshire way, he stopped his horse to water him at the "Watering Trough," at the foot of the hill, near the Eaton town line. Whilst his horse was drinking he saw coming through the snow from the woods to the south, strange looking objects, heading almost straight towards him. Determined to see what this was, he caught his horse by the bridle, as the poor beast was showing the most abject fear, but the man still held him until the strange beast or beasts could be better seen, when lo! they came to the main road, but a few rods from where the traveller was. The traveller now was unable to hold his horse, although, revolver in hand, he did not fire as he leaped into his sleigh, for his horse was fairly flying towards Angus, where he related his adventure to a large crowd, but nothing was done as many did not believe the story.

A few hours after one of our local hunters was passing the old Watering Trough when he espied the wolves' track, and thinking it was a deer track, started at once after it, thinking to overtake the animal in the deep snow, when he met a Mr. Bates, who told him that he had just seen four great timber wolves pass through his field and they were heading towards Bury. This corroborated the traveller's tale exactly. Mr. Bates says the local hunter stopped for home about as quick as he ever saw a man go on snow shoes.

It is evident, that in a few years, we will have wolves once more in our woods, as there are being seen a few, here, there and everywhere.

Situation in the Balkans Becomes Daily More Serious.

Vienna, February 12.—There is considerable criticism in diplomatic quarters owing to the delay in presenting to the Sultan of Turkey the Austro-Russian scheme for reforms in Macedonia, it being held that if such action is capable of good results it ought not be delayed, every day tending to make the situation worse. Advices from Constantinople and Sofia show, however, that the Sultan is determined to fight rather than accept any scheme that is likely to diminish his authority. The pessimism created by this news was materially increased yesterday by a despatch from Sofia, from a source that is regarded here as authentic, saying that Bulgaria has now decided to make effective her threat to mobilize her army, and will begin with two divisions, namely those of Sofia and Philippopolis. Such a step would put 12,000 men and seventy guns on a war footing. It is believed here that Bulgaria's action, if it is accurately reported, will seal the Sultan's resolution to resist the imposition of reforms and the avoidance of war will be consequently doubtful.

FIGHTING STARTS.

Sofia, February 12.—It is stated that Kamper's revolutionary band has re-engaged a force of Turkish regulars near Rezanji. The Turkish regulars killed and wounded, besides rifles and ammunition. The revolutionists lost two killed and three wounded.

News From Dominion Capital.

Ottawa, February 12.—Returns from far away Yukon show how rapidly that district is being rescued from primitive conditions. During the calendar-year 1902 there were registered 139 births, and 136 deaths. Of the latter 21 were accidental, 3 murders and 4 suicides. One hundred and two marriages were celebrated in the same period. There are now nine schools in the Yukon receiving Government support, and giving tuition to 375 pupils. They are located in Dawson, White Horse and on the creeks. Since gold was discovered; followed by the mad rush to the Klondike in 1897, the Yukon gold output has amounted to \$80,500,000. Last year 6,056 mining licenses were issued, and 4,461 renewed, while 2,040 claims were relocated and 1,198 new placer claims recorded. The quartz claims recorded for the past twelve months numbered 1,135, indicating that that branch of mining is receiving much more attention than formerly. Arrivals at Dawson numbered 3,320 persons, with 5,389 departures. **ALL RED CABLE.** As a partner in the "all red cable" the Government of Canada has just been furnished with a detailed account of the cost of the enterprise to date. The cost of laying the cable was \$1,044,761, the contract price being \$1,009,285. The outlay for instruments was \$10,120. The ship contract \$15,975, and the expenses for engineers and experts, \$9,935. **A LONG TRIP.** Dr. Conroy, Indian commissioner for the Peace and Mackenzie River districts, has returned to the capital from the far Northwest, having completed the usual treaty payments. He was as far west as Dunvegan, on the Peace, and reports the Indians of that district are in prosperous circumstances, fur (Continued on page 2.)

It is reported that many more such bills have been circulated in the London market. The origin of the forgeries has not yet been discovered.

FATAL KICK WHILE PLAYING FOOTBALL.

Vancouver, B. C., Feb. 12.—In a hard fought match for the football championship between Vancouver and Nanaimo, W. H. Kennon, of Vancouver, was kicked in the back of the head and paralyzed. He is probably fatally injured. Captain Mathfolo, of Vancouver, was also severely injured. The match resulted in a tie.

BONE FOOD

The bones of a baby are soft—so very soft that at first they can scarcely be called bones. They grow hard in time, but the period of their growth is a critical one. Loose joints, bow-legs, enlarged head and hip disease are evidences of rickets. If not checked they lead to deformities of a permanent character. This is the natural result of improper bone nourishment during the period of bone development.

The child needs mineral substance to harden the bones and this is plentifully supplied in the hypophosphites of lime and soda contained in Scott's Emulsion. The cod liver oil provides the element of fat needed to reinforce the child's ordinary food.

Thus Scott's Emulsion offers in a perfect combination the very principles of proper bone and flesh nourishment most needed by a young child. The action of the Emulsion is so mild that the most delicate stomach will accept and retain it. This makes Scott's Emulsion of particular value to weak children and very young babies who are in absolute need of a mild yet effective food-medicine.

Pale-faced children show they are not getting what they ought to get from their food. They need Scott's Emulsion to enrich their blood and give them strength to start on the right road to a healthy growth.

If a child is thin, backward in growth, or slow in development it will be found that Scott's Emulsion will quickly help it. There is nothing better for babies and growing children than Scott's Emulsion.

We'll send you a sample free upon request.

FREE CONCERT AT ART HALL.
 The free concert given last night by L'Harmonie Band under the auspices of the Library and Art Union proved a great success. In spite of the rain storm and several social and public gatherings in other parts of the city, the hall was very well filled with an audience which gave the closest attention and a round of applause to every number. The band of thirty members presented a fine appearance in their handsome uniform, and under the leadership of Prof. de la Casiniere, rendered the really beautiful and difficult selections of the programme in a manner which would be creditable to a metropolitan organization. The precision of time and execution of the different instruments to the ensemble was very marked. The programme was varied by five solos of different instruments, rendered respectively by Messrs. Dupile, Garneau, Choquette, Gendron and Fleissner, all most enjoyable, and showing great proficiency. It would be hard to distinguish between them. Those of Mr. Gendron, who played with great ease and expression, and who was evidently emporium with the audience, and Mr. Fleissner on the clarinet, showing fine execution, may be noted. The latter deserved a much finer instrument than he was using. We regret that space does not admit of more detailed reference to the other soloists. At the conclusion of the concert a vote of thanks was rendered to the performers on behalf of the Art Union and the audience emphasized the latter with a round of applause, such as the hall does not often witness. Attention was called to the value of these free entertainments and to the one to be held on the 26th inst., viz., an illustrated lecture on the volcanoes of the Pacific Islands.

GAVE RED PEPPER.
YOUNG WOMAN HELD CRIMINALLY RESPONSIBLE FOR CHILD'S DEATH.
 Montreal, Feb. 12.—Coroner McMahon held an inquest at St. Lazare Monday night into the death of Procul Fax, the six-year-old son of Joseph Fox, whose death followed a severe fit of vomiting, which was continued for five or six days, and after that time the little fellow was never able to swallow food. The cause of death, according to medical testimony was starvation. Coroner McMahon ordered an autopsy, which revealed the fact that there was a serious contraction of the windpipe, which was said to be due to the absorption of red pepper. The evidence showed that six months ago a young woman named Sulpicia Charlebois gave the boy red pepper to eat. The jury returned a verdict, holding Miss Charlebois criminally responsible for the death of the boy, and ordered her arrest.

FRENCH BUDGET
 M. ROUVIER'S PROPOSALS RESULTED IN AN EXCITING DEBATE.

The finance minister's defeat brought out talk of his retirement and other changes in the ministry.
 The Government later rallied its forces and succeeded in defeating by 278 to 207 votes a test motion to amend M. Rouvier's budget.

A BUFFALO DUEL
 Patriarch of the Herd is Still Absolute Monarch of Silver Heights—An Interesting Yarn.
 Yesterday an understanding was arrived at in the buffalo family, says The Winnipeg Free Press. Silver Heights might have been the scene of a deadly battle between the old patriarch of the herd and young McCreary, but discretion evidently struck young Bill as the better part of valor; in this case, and he accepted the part of second fiddle without showing fight.
 The question which has been decided is a momentous one. It was whether there was to be absolute monarchy or not, and now it is decided that there will be absolute monarchy, and McCreary, the four-year-old bull, who until yesterday considered himself capable of managing the affairs of the household, has accepted the fact that he has to submit to the old bull's ruling in matters of state. All summer the old bull, for several reasons which will be enumerated, has been locked up in a stronghold. The walls of his cell are of heavy logs and are ten feet from the ground. It was built none too strong, for the old fellow would have broken loose from any place less secure. The reason for this means of close captivity arose from a domestic squabble in which young McCreary aided in a small way by Horace Wilson, the other baby bull, on the one side and the old patriarch, who is one of the original herd in Lord Strathcona's time on the other side, upon the quietude of the herd and made it impossible for the five cow buffalo to know just exactly who was boss.

McCreary was not strong enough to go in and give the old bull a licking, though he has lots of courage, but Horace Wilson hadn't the nerve to even lift his voice against him. To show that he was boss the old bull made himself very objectionable and would bellow and roar himself into a fury of excitement to put fear into the hearts of the younger bulls. So far as Horace was concerned he succeeded and McCreary was left without an ally and sulked by himself.
 The bull at last got so dangerous that he was locked up. Then McCreary was chief and Horace Wilson got naturally or from a faint heartedness, took second place. It was thought that by keeping the old bull locked up his spirit and temper would be broken. His temper, however, did not have a chance to improve for young McCreary would pass the morning, afternoon and part of the night roaring at him through the logs of his cage. He called him many bad names and dared him to come out and fight. The spirit of the old bull was not broken, and he would rush wildly at the walls of his prison to get at young McCreary. The walls were too strong and when McCreary saw this he took away more delight in torturing his superior by bellowing.

Not long ago owing to McCreary's taunts the old bull broke out from his prison. McCreary must have made himself scarce. There was no fight, but when Mr. Preston, who has charge of the herd for the city, came to look after them on this particular day he found the paddock usually occupied by the big bull, empty. Roaming about in a sulky way was young McCreary, but the others were nowhere in sight. Horace Wilson was gone, too. The herd were traced and found eighteen miles away at Champlain Lake, near LaSalle. The old patriarch had led them away, and they had stamped with him in the lead over hill and down dale, caring for no obstacle. It was with some difficulty that they were got back. For the rest of the summer the old bull was left in his paddock, and young McCreary grew and became stronger and more ready to fight. There was only one way in the mind of Mr. Preston to settle the question, and this week he decided the time was ripe for it. McCreary has been exercising all summer and the old bull had no chance to, so it was thought that McCreary could at last prove to the satisfaction of the herd by licking the old man that he was the rightful monarch of Silver Heights.

It was a moment of intense excitement when Mr. Preston threw open the gates of the old buffalo's yard. Young McCreary, who had watched the preparations and seen the ropes ready to lasso the buffalo who conquered, and was in the mood to extol the death penalty, seemed to know there was something expected of him. He separated himself from the herd and eyed Mr. Preston at the gate.
 The gate was thrown open. With a low, angry bellow the old bull walked out. Fire glinted from his eyes, set deep in the shaggy mass of hair. His mane became rigid and his tail curved like a piece of iron. Mr. McCreary looked at him and the fire in his eyes seemed to die out. The old bull walked up to him with determination in every step. He did not stop until their two noses were close together. Young McCreary never moved, but winked weakly, and though he too, crooked his tail and tried to look fierce, he showed no desire to fight. The two bulls stood each other's nostrils for several seconds, and then the old fellow calmly turned his back to McCreary, walked off and the herd followed him. Horace Wilson included. Young McCreary stood still a few seconds longer and then fell in line and brought up the rear as the herd made slowly for better feeding grounds.

HATLEY BOY WRITES
 Tells of Success of Townships People in the West
 THEY ARE DOING WELL IN ALBERTA AND ARE CONTENTED.
 Mr. Warren Christie, formerly of Hatley, writing to friends in Stantstead County, from Duhamel, Alberta, says:
 "After my long, long stay away from you and my childhood home I thought I would pen a few lines. For a few weeks past I have not been in the best of health, having accidentally dislocated my shoulder, so have been unable to work. The thought occurred to me that I would take a trip and visit some of the Compton and Stantstead County people, who had settled here in Alberta."
 "The first I visited was Mr. John Mussen, found them well satisfied with the country, except some of the young ladies, who I thought had some attraction in Compton."
 "The next on the trail was a French Canadian, by the name of Previer. I asked him how he liked the country. His reply was, "Excuse me for that, I guess I don't go back to Herford to live no more, to pick stone, and chop log, like I use to be."
 "The next was the family of O. B. McClary. He is considered one of the prosperous farmers. I think he has three hundred and ten acres of land, thirty head of cattle and six horses. He has accomplished this with nothing to start from in about six years."
 "The next was Z. Hill. He is doing a large ranching business and likes the country."
 "The next stopping place was Walter Patney's and Walter Haine's. They seem well pleased with their home here and are doing a large business."
 "The next was Chas. Pool, who is to be congratulated for the grit and pluck of a man of his age to settle in a new country. He has a comfortable home and a prosperous future here. Next was Mr. Byron Mussen. He has a neat little framed house and is quite contented. Mrs. Mussen, when arriving here nearly one year ago, was thought by all her friends to be fast passing to her last resting place with consumption, but to-day she is steadily improving in flesh and strength, and she blesses the day she came to Alberta."
 "I then visited the Hatley ranch, owned by E. Carbee and J. Knight, of Hatley. The ranching business is progressing favorably. The foreman, J. Mavor, is making a visit to his old home in Compton. A. Pellierin, in charge of the horses for the company and is contented and happy in his work. The next ranch I visited was H. J. Hasting and Sons. They are wintering about three hundred and fifty head of cattle. They said it was better than milking cows at home, on the old farm in Barnston. After visiting so many I started for my bachelor's headquarters meeting several more old friends on my return. All are well and happy.
 "I have never seen but two who came here who were not satisfied with the country. They were from Way's Mills and we wish them prosperity."
 "I have spent, oh, so many happy days in my old home and birth place. East Hatley village, with those who since I came here have been laid away. But I have never seen a day I wished to return to make it my home in the east. I would surely like to see all, and in particular those who are bound to me by the ties of blood.
 May God bless you all is the wish of
 A HATLEY BOY."

MAINE ABANDONED.
 NO ATTEMPT TO RAISE WRECK IN HAVANA.
 Havana, Feb. 12.—Resident Americans are indignant over the officially announced abandonment of the Cuban Government and Spanish wreckers of the remains of the former United States steamship Maine in this harbor—this startling declaration having been made from Washington, through Minister Squiers, to the authorities of the republic of Cuba, in response to a communication requesting that the wreck be removed from this port—as an obstruction to navigation; which demand upon the American authorities, inspired by a Spanish member of President Palma's cabinet, was transmitted to the Washington Government some months ago through the usual diplomatic channels; previous to the issuance by the same secretary of an order directing the removal by the department of public works and municipality of Havana of the Statue of Liberty, which the late military governor of the island had placed in Central Park the day before the withdrawal of the Stars and Stripes from Cuba.

TROUBLE IN IRELAND.
 NEW LAND BILL SAID TO IGNORE CONFERENCE.
 London, Feb. 12.—The Daily News understands that in the new Irish land bill the Government was decided to ignore the principal suggestion of the recent Irish landlord and tenants' conference, presided over by Lord Dunraven, and will frame a measure mainly on the lines of the previous Irish land purchase bills. If this decision is carried out it will arouse consternation in Ireland.
