LABOR LEADERS' COUNCIL.

THE BRITISH TRADES' UNION CONGRESS IN LIVERPOOL.

Radical and Socialistic Utterances Cheered.—Burns Fond of Fiery Oratory.—Labor Bureau Called For.—Conservative Newspapers Minimize the Importance of the Convention.

LONDON, Sept. 3.—The Conservative organs editorially minimize the importance of the Liverpool trades' union congress though they, as well as all the other newspapers, devote columns or space daily to reports of its proceedings and comment upon the speeches and resolutions. A noticeable feature of the congress is that the most radical socialistic utterances and demands are cheered to the echo.

Mr. John Burns' speeches display an unexpected amount of temper, and it is evident that Burns is much more cautious and wise as a leader in action than he is as a speaker. The congress has voted to accept an invitation for an international labor conference in Brussels in 1891.

A number of meetings were held this evening in different parts of Liverpool, at which delegates to the council delivered addresses.

The following is one of the resolutions which has been placed in discussion before the Congress:—In order to carry on more efficiently the organization of the large mass of unorganized labor, to bring into closer combination those sections of labor already organized, to provide means of communication and for the interchange of information between all sections of industry, and the proper tabulation of statistics as to employment, etc., it is necessary that a labor exchange on the model of the Paris Discourse du Travail should be established and maintained in every industrial centre in the Kingdom.

The African Explorers' Quarrel.—BRUSSELS, Sept. 3.—King Leopold has requested Baron Wissmann, of the German East African service, to come to Brussels and help settle the quarrel between Emin Pasha and Henry M. Stanley. The king believes that the differences between the two explorers grew out of misapprehensions, which Wissmann may be able to remove.

Consular Smuggling.—LONDON, Sept. 3.—U. S. Consul King, on arriving in Paris, found that a trunk which had contained silver plate was empty. On inquiring it was learned that the trunk had been detained at the frontier by the customs officers on account of irregularity in its declaration.

Gilbert and Sullivan's Profits.—LONDON, Sept. 3.—The litigation between the famous operatic collaborators, Gilbert and Sullivan, has revealed the fact that the profits of the partnership in eleven years were \$1,350,000.

Fire in Russian Naphtha Docks.—LONDON, Sept. 3.—Naphtha docks at Baku, the depot of the Russian petroleum trade were burned to-day and two oil ships were also destroyed. The loss is very heavy.

Missionaries of the Greek Church.—LONDON, Sept. 3.—The St. Petersburg synod of the Greek church is arranging to send missionaries to the tribes of the Caucasus.

WHERE WAS THE GREAT N. P.?—Deploable Condition of the Moncton Manufacturing Company.

MONCTON, N. B., Sept. 3.—The annual meeting of the Moncton Manufacturing Company was held to-day. The financial affairs of the concern are in a deplorable condition. The mill was only running six months out of the 12 and the working loss is \$15,000. The factory is now closed and the directors were compelled to dispose of the entire business. The capital stock was \$200,000 and it is understood the liabilities will reach \$100,000.

The corner stone of the new Y. M. C. A. building was laid to-day with Masonic honors.

Fire in the Brooklyn Navy Yard.—BROOKLYN, Sept. 3.—A destructive fire broke out at noon in the Wallabout Market on the outskirts of the Brooklyn navy yard. The fire started in Peter Young's bagging shop, which was filled with inflammable material, and spread to the woodyard of Frederick Tielke, and from there to Von Glahn & Co's. wholesale grocery store and three little wooden structures. They were entirely consumed by the flames. The losses will aggregate nearly \$200,000, of which Von Glahn & Co. lose from \$150,000 to \$175,000. Insurance \$90,000. Patrick Doran, who lived in the Young building, was rescued in an unconscious condition. Four firemen were slightly injured.

A Cowardly Assassin.—GLEN FALLS, N. Y., Sept. 3.—Fred K. Collett was assassinated near Ferrisburg on Sunday evening by Alphonse Shackett, who crept up to Collett's house and without warning emptied the contents of a shot-gun into Collett's head. Shackett was arrested shortly after and his examination began to-day. Shackett was a rejected suitor of Mrs. Collett's, and he swore vengeance against Collett, who successfully wooed the lady.

Carpenters Get Their Advance.—CHICAGO, Sept. 3.—The carpenters' strike inaugurated yesterday is to all appearances already ended. At the headquarters of the strike committee of the carpenters' council it was stated to-day that fully 4000 men returned to work this morning at the rate of pay and terms demanded and that not over 600 men are now idle on account of the strike.

Raising a Post-Office Order.—TORONTO, Sept. 3.—Robert Berkener was arrested to-day, charged with raising a post-office order from forty cents to \$20.40. He palmed it off on a citizen who had it refused payment at the post-office.

NATIONAL SELFISHNESS.

DEBATE ON THE TARIFF BILL IN THE U. S. SENATE.

No Concession to Canada Intended by Mr. Hall.—Self Interest the Only Moving Power in Politics.—A Lesson for Tax-payers Not to be Fooled by Party Cries.

WASHINGTON, Sept. 3.—The debate on the tariff bill was continued in the Senate to-day. Mr. Gray, of Delaware, spoke of the great awakening that had taken place among the American people in regard to the bill. It has issued from the House of Representatives with the endorsement of a great party; but its leaders and guides, who had attempted to scale the frigid alpine height of ambition, had found their followers lagging far behind and were now seeking (properly enough) to reform their lines on a lower plane and to meet the demand everywhere coming up for a freer trade and larger commerce, and for a greater measure of exemption from taxation. He complimented Mr. Hale on his amendment which meant little less than absolute free trade throughout the whole hemisphere, and if necessary, Canada.

Mr. Hale corrected the statement as to Canada, and said that he has never had any intention of including that country. Then, said Mr. Gray, your proposition is only less comprehensive, less promising and less statesman-like than I had supposed. Mr. Gray closed his remarks at 3:30 and a recess was taken until 8 p.m.

Mr. Evarts followed and spoke of the various reciprocity amendments and criticized them as being objectionable under the "favored nation" clause of international treaties. Was it, he asked, written in the bond that a different rule applied to competing and to non-competing nations? No, he said, could start on that position. He concluded by saying, "Make your tariff as you think right. Let others make theirs as they think best, and when you reach, as England has reached, the position that you can devour the substance of other nations better by free trade than you can preserve your substance by protection, then change your laws."

There was but a small attendance at the evening session, which was mainly occupied by Dr. Pierce in a speech advocating the idea of reciprocity. The Senate, at 9:45 p.m. adjourned till to-morrow.

TRADES' UNION TYRANNY.

Revengeful Boycott on the Pittsburg Exhibition.

PITTSBURG, Sept. 3.—The second annual exhibition of the Pittsburg Exposition Society opened in this city this morning. The exhibits are numerous and unusually attractive.

It is authentically stated to-day that the different trades' unions in western Pennsylvania have already or will at once take action on the matter and refuse to patronize the exhibition. The action already taken by the Carpenter association indicates that a gigantic boycott will be inaugurated at once. That the effect will be more or less disastrous to the society cannot be denied when it is ascertained that over 40,000 trades unionists and their families will withhold their patronage and support.

During the preparation for the exhibition an annoying strike occurred; union men refused to continue work in building where non-union employees of the Westinghouse Company were erecting the electrical display. The completion of the preliminary work was accomplished under difficulties and by union men, it is claimed, in violation of promises given by the society.

QUICK WORK ON THE WELLAND.

The Damage to the Locks Repaired by Forty-Four Hours' Incessant Work.

ST. CATHARINES, Sept. 3.—The recent accident to lock 18 of the new Welland canal, caused by the steamer Stinson running into and tearing away four of the gates, has been repaired. Four new 60 ton lock gates were brought up from Port Dalhousie, and hung in place, the gearing put on and locking again resumed within 44 hours after the accident occurred. As the wreckage had to be first cleared away, the lock swept throughout of the obstructions, the level filled up again, etc. this was undoubtedly the most rapid restoration of the sort, considering the magnitude of the disaster, that was ever performed on any canal, and reflects the greatest possible credit upon the Canal Superintendent and his staff, who worked unceasingly night and day from the minute the accident occurred until lockage was again resumed.

A VILLAGE HAMPTON.

Monument to the Memory of the First Settlers of Roxbury.

ROXBURY, N. Y., Sept. 3.—Nearly 5,000 people were present to-day at the unveiling of a monument at Roxbury, Delaware County, to the memory of John and Betty Moore, the original settlers of the village, about 120 years ago. A reunion of the family descendants from all parts of the United States and Canada occurred. Chas. C. Moore, of Poughkeepsie, delivered the address of welcome this morning. At noon the monument was unveiled, and the Hon. John H. Moore, of Michigan, spoke of the life and times of John Moore. Mrs. Sarah B. Northrop, sister of Jay Gould, also delivered an address. To-night lawyer John Keaton, of Philadelphia, spoke on the obligation of the future. The celebration closes to-morrow.

The monument is of Scotch granite, and is the gift of Jay Gould, whose native town is Roxbury.

Disastrous Floods in Hungary.

PRAGUE, Sept. 3.—The extraordinary rise in the River Moldan has flooded large districts of this city and vicinity, and caused the drowning of nineteen persons. Disastrous floods are reported from all parts of the country.

C. M. B. A. CONVENTION.

The Business Transacted at the Sitting Yesterday.

The proceedings at the convention of the Catholic Mutual Benefit Association, yesterday, were of little interest to the general public, although they possessed a good deal for the members of the organization. They consisted of matters purely routine in their character. Mr. O. K. Fraser, of Brockville, presided, and all the delegates were present. The report of the committee on laws was received and considered, and several amendments to the constitution were proposed and discussed at length, most of them being adopted. The principal amendment related to the clause of the constitution which insists that all the members of the association shall be practical Catholics. After considerable debate an amendment was adopted rendering it obligatory upon every member to produce a certificate from the spiritual adviser of his branch, showing that he has complied with the precept of the Church which enjoins upon Catholics the duty of approaching the sacraments at Easter. Infraction of this obligation will entail expulsion from the association. The election of officers takes place to-day. At 10:30 this morning, His Grace Archbishop Walsh, of Toronto, will address the delegates, and the convention will close with a banquet this evening at the Victoria Rifles' Armory.

WIVES WANTED IN ARIZONA.

An Appeal for Helpmates to the Mayor of Montreal.

A letter has been received by Acting Mayor Hurteau from a would-be benedict in Bisbee, Arizona, appealing on behalf of himself and a number of other miners there for assistance in the shape of furnishing them with wives. The letter states that the miners earn good pay, have usually from \$1,000 to \$5,000 each in the bank, and that all these disconsolate and desolate Adams need is a Eve apiece to make their wilderness blossom. Young girls with matrimonial tendencies between 14 and 20, so the letter says, would find good situations as wives, and the miners moreover are quite ready to send money for their fare. The Acting Mayor, hardly knowing whether to take the letter in jest or in earnest, has instructed the city clerk to reply that he is not the head of a matrimonial agency, and does not feel like "organizing a society for the furnishing of wives to disconsolate miners."

American Forestry Association.

QUEBEC, Sept. 3.—The opening of the congress of the American Forestry Association took place yesterday amid a great concourse of distinguished visitors and the elite of Quebec society, among whom were several ministers and Hon. W. Laurier. The inauguration speech was rendered by His Honor Lt. Governor Anger, who welcomed the American members to the old capital. Then His Honor dwelt on the immense raids made in our forests the past few years: "From 1867 to 1889, 10,450,000,000 feet board measure and 69,600,000 cubic feet of wood were cut down in the Province of Quebec while the revenue derived from lumber has been \$9,800,000. Last year's revenue was above one million dollars. His Honor expressed the hope that the association would publish its works in both languages, that the people of the Province might benefit by them. The address of welcome was delivered by J. M. Lemoine, who was much admired for his flowing eloquence. His picture of the sunny fields and forests of the Southern States was very much enjoyed. Dr. Bryce of Toronto spoke of the forest in a sanitary point of view. Mr. Joly, de Lothier, also made a very fine speech. The sitting adjourned after a few remarks by Mr. William Little.

An Aged Goldseeker.

LOWELL, Sept. 3.—Wm. S. Davis, of No. 4 Dodge-street, this city, recently received a letter from California containing information that his father, who had left his mother and little children at Pittsfield, Me. in 1849 was living, but very ill, at Rockland, Cal. It was signed "unknown friend," who proved to be the postmistress. Wm. W. Davis the father, who is now 80 years of age, left his home with the gold seekers of '49, telling his wife that he would return rich. She heard nothing of him afterwards. About 25 years ago she heard he was killed by the Indians, and then she married a man named Plummer, with whom she still lives at Pittsfield. The facts indicate that the absent husband and father has kept trace of his family during his self imposed exile. The father is now anxious to see some of his friends from the east.

Sir John denies the report.

OTTAWA, Sept. 3.—A wheeler, W. Va., despatches: Sir John Macdonald, Sir C. Tupper, Sir Hector Langevin, and other Canadians, English and Scotch capitalists, have just purchased four hundred thousand acres of land, in Mercer, Boone and Wyoming counties, W. Va., for which they paid fifteen hundred thousand dollars. They will found a great Scotch colony on the land, which is rich in timber and minerals, especially in coal. Sir John Macdonald, in reply to a despatch as to the correctness of the above, wired back the following: "It is a lie from beginning to end."

The Sawtell Tragedy.

DOVER, N. H., Sept. 3.—The result of the analysis of the stains found on Isaac Sawtell's clothing which was recently completed by Prof. E. S. Wood of Harvard is the strongest clincher the prosecution has secured in the line of new evidence against Isaac Sawtell. It discloses at once of the "Jack" theory in the man's alleged confession and leaves little doubt that Isaac killed his brother. The trial will probably commence here September 15.

War Leviathans at Play.

KIEL, Sept. 3.—The Austrian and German fleets this morning saluted Emperor William's yacht, the Hohenzollern, after which the Austrian men-of-war hoisted the German flag and the German vessels displayed the Austrian flag. Later in the day Emperor William inspected the entire fleet visiting each vessel. The weather was perfect.

LORD SACKVILLE REVIVES A LONG DORMANT CLAIM.

GIVING REFORMERS A NICE LITTLE TEXT.—OUT OF AMERICA BY PUBLIC SENTIMENT.—HE RAISES A SIMILAR ILL-FEELING IN ENGLAND.—CLAIMS RENT FOR THE SITE.

LONDON, September 4.—The claim set up by Lord Sackville the right of rental for the space occupied in the market square of Stratford-on-Avon by W. G. Child's memorial to Shakespeare causes widespread disgust. The incident has already been seized upon by the land reformers as an illustration of the evils of the present land system. The manorial rights which Lord Sackville claims to have inherited were originally conferred by the Crown in return for military services, which the lord of the manor was liable to be called on to render. Later on the liability to this service was commuted into a fixed payment or tax of four shillings in the pound on the value of the estates. But though the estates have increased enormously in value since then, the amount paid has not been increased. The land reformers claim that the payment should be four shillings in the pound on the present value and such selfish acts as this of Lord Sackville's are not likely to lessen the popular demand that the large land owners should bear a larger proportion of the public burdens than they now do.

Montreal Stock Market.
The situation to-day was practically unchanged. Holders are away above the market, and business was only possible in Canadian Pacific and Street Railway. The sales at both boards totalled 776 shares, and over 600 were Canadian Pacific. Bank of Montreal is held pretty stiffly at 23 1/2, with buyers 1 1/2 below that price. Toronto stood at 224 and 220 respectively, and Merchants at 146 and 145. One share of Bank of Commerce was put through at 12 1/2. Montreal Telegraph was firm at par but there was no business in it. Northwest was also dull and closed at 83 bid, 84 1/2 asked. Richardson was weakened with buyers at 57 and sellers at 58. Two lots of Street Railway were sold at 189, the market closing at 188 bid, 190 asked. Gas was steady but neglected at 210 and 209 1/2. Canadian Pacific after selling at 82 1/2 and 82 1/2 closed at 83 asked, 82 1/2 bid. New Gas stands at 197 bid and new Passenger at 170 bid. The following were the sales:

MORNING BOARD.		AFTERNOON BOARD.

POLITICAL ACROBATS.

It is difficult nowadays to tell when The Gazette is speaking by authority and when it is merely propounding a theory to be repudiated in a subsequent issue. Its latest announcement is that Senator Sherman's proposal for full or partial reciprocity with Canada is "of a character to excite approval in Canada," and that it is "strictly in accord with the policy of the Dominion Government." As the President of the Council informed the House of Commons that the Government was opposed to reciprocity even in natural products the Tory party must be a little puzzled by this new departure. If reciprocity in trade with the United States is strictly in accord with the policy of the Dominion Government what is the meaning of all the ministerial speeches, declarations and votes during the last three or four years? And what will the red parlor say about it? That Senator Sherman's proposal has created a flutter of alarm amongst the ministerial birds is evident from The Gazette's rush into fabrication, its favorite recourse when in difficulty. Sir Richard Cartwright's proposition to Parliament was that the Government should take steps to ascertain on what terms the United States would agree to unrestricted reciprocity. Mr. Sherman proposes that commissioners should be appointed by Canada and the United States to arrange the matter. The only practical difference between the two is that Sir Richard Cartwright spoke of unrestricted reciprocity, whereas Mr. Sherman speaks of unrestricted reciprocity or partial reciprocity as it may turn out. There was no proposal, as The Gazette falsely states, to make any "complete surrender of our tariff control." Nothing of the kind was spoken of by Liberal leaders. It is a pure invention. But if Sir Richard Cartwright's proposal was treasonable to England, as it has been described, and if, as The Gazette says, Mr. Sherman's proposal is just what the Government wants, what constitutes the border line, and how is the Government to get over it? Cartwright's proposal was for unrestricted reciprocity; Sherman's is for either partial or unrestricted reciprocity. The Dominion Government says it won't consent to either. What is the meaning of The Gazette's statement that the Government policy is to meet American Commissioners with a view to arranging a reciprocity treaty, complete or partial? Either The Gazette is talking without book and with the certainty of being repudiated as The Mail was when its utterances grew to be inconvenient, or else there is a ministerial back-down in store, which will overshadow all previous back-downs, and startle the humble Parliamentary supporters of Sir John to a degree which will excite the pity even of their opponents. But it will be satisfactory to the country to find that the Liberals have compelled Sir John to listen to reason, even if he has to dare the anger of the monopolists.

THE EUROPEAN SITUATION.

The wars and rumors of wars which correspondents of American newspapers periodically spring upon the world—involving the triple alliance, Russia, Turkey and France, and later on Great Britain, in a grand crash of arms—have been neither so frequent nor so alarming for some months past. Indeed, so far as can be ascertained from a careful study of the existing situation in Europe, there is no apparent disposition on the part of the triple alliance, Russia or France, to fly at each other's throats. The political situation presents a more peaceful aspect than for some months past. It is not improbable that the enormous cost of maintaining armaments on a war footing, and the tension which has so long prevailed between the powers mentioned, may have impressed upon the respective governments the necessity of doing something to relieve that tension and to pave the way for a reduction of military burdens. Hence there is probably a more sincere desire for the maintenance of peace at the present time than has existed for some years past. Just now the danger to the peace of Europe is Turkey, the "sick man" of the Continent. Turkish misrule in Armenia has produced such a state of affairs as may afford Russia, if not a justification, at least a pretext, for occupying that Province, ostensibly for the purpose of protecting the Greek and other Christian subjects of the Porte. That would bring Russia very much nearer to the goal of her ambition—Constantinople—and though it might not possibly provoke war, there is a danger that it might. Neither Great Britain, France nor the triple alliance would care to see the waterway from the Mediterranean to the Black Sea controlled by Russia and would probably fight to prevent it. Just now Russia's march to Constantinople via the Balkans is blocked by Bulgaria, whose desire for autonomy is supported by Austro-Hungary, and to some extent by Germany and Italy. Any attempt on

the part of Russia to reach Constantinople over the Balkans would undoubtedly provoke war; so probably would her occupation of that Province if she showed a determination to reach Constantinople from that direction. Thus it will be seen that at the present time the only apparent danger to the peace of Europe is the condition of affairs in the Turkish Provinces. The great powers would be quite willing to see Turkey hustled bag and baggage out of Europe, but unfortunately, when that is done, they will be very apt to quarrel over the division of the estate, and particularly over the disposition to be made of Constantinople and the Golden Horn.

MONEY: ITS FACE VALUE VS. PURCHASING POWER.

Col. Wright, an American statistician of some note, has raised a hornet's nest of angry protectionists about his ears by demonstrating that the duty on steel rails benefits the manufacturers four-fifths and the laborers only one-fifth. They are afraid of the influence of such a revelation on the laboring classes. This is a point for the laboring men of Canada to consider. It illustrates what was said by a protectionist politician during the last Presidential election campaign, that "the protected manufacturers are the men who got 'practically the sole benefit of the tariff laws,' for, whatever immediate advantage the protective tariff may give the workmen in the matter of wages is more than offset by the increased cost of articles of every-day use. Taking into consideration the purchasing power of the dollar, and the general cost of living under free trade and protective tariffs respectively, it will be found that workers in manufacturing establishments in Great Britain are considerably better off than their confederates in similar protected manufacturing industries in the United States, and the argument will apply to Canada with nearly equal force. This point explains why so many otherwise intelligent laboring men are carried away by the illusions of protection—they fail to discriminate between the actual value of the dollar and the purchasing power of the dollar. This point is discussed at some length by Mr. E. L. Godkin in an article in The Forum, on "Money Interests in Political Affairs." The retrogression in favor of the high protection fallacy which has taken place during the last ten or fifteen years in continental Europe he explains by showing that extension of suffrage has given the working classes more political power; that they are naturally and peculiarly open to those misleading and fallacious notions upon which the protection theory is based, because—and here is the point—the working classes think in money rather than in actual values, and they judge of their own present or probable prosperity entirely according to the amount of money which they receive or expect to receive, without regard to its purchasing power. No doubt the workmen of Canada and the United States, more particularly those of them who, from want of inclination or lack of opportunity, have not given attention to the study of questions of political economy, are influenced in the same direction. When, however, the people begin to appreciate the full force of the American protectionist politician's remark—that "the protected manufacturers are the men who get 'practically the sole benefit of the tariff laws'—they will very soon take steps to bring about an effective reform of such a state of affairs—with a good deal of emphasis they will declare that protection "must go."

THE EMPIRE: But while we have Liberals in Parliament praising the Western States and disparaging our own Northwest, we must despair of the full warning effect of the facts.

They don't; they praise our own Northwest, but disparage the Government which drives its people into rebellion. And it is the Tory Chaplain, Ives, Pope, et al., who disparage our own Northwest by investing their money in Texas ranches, California farms, etc., and it is a Tory Government official who publishes to the world as his well-considered opinion that Southern Alberta is only fit for grazing purposes. What is the use of building railways up and down and across Alberta, and spending money in inviting immigrants, if the Government, through its agents, declares that the country is unfit for settlement?

THE EMPIRE: If—will our free trade friends please answer this question?—the tariff is a tax which the consumer pays in the form of increased price of the dutiable goods, why are the Sheffield cutlers, the Welsh tinplate makers, the Parisian modistes, the German plush manufacturers, the American importers, howling in pain, as they contemplate the provisions of the McKinley bill?

What an idiotic question. European manufacturers cannot sell goods as freely to people impoverished by taxes as they would to the same people having money to spend. And they naturally dislike a bill which compels an American farmer or artisan to buy an article at home in order that some trust may be benefited, when they know they could sell him the same quality of goods for half the price he is made to pay.

So it appears that the telegram from the Minister of Militia asking General Middleton for souvenirs for Sir John Macdonald, Sir Hector Langevin and Sir Adolphe Caron was sent after the Bismarck telegram had been appropriated. Perhaps the telegram to have fully conveyed the idea should have run thus: "We hear 'you' have collared a whole pile of furs at 'Battleford. Don't forget us. Sir John 'wants some' so does Sir Hector. Me 'too.' Ah! if Middleton had only studied that telegram he might not have wasted souvenirs on Hayter Reed and Bedson."

SOME of our Conservative contemporaries underrate the intelligence of the Can-

adian people when they seek to palm off on them the utterances of American protectionists of ten, fifteen, twenty and twenty-five years ago, as a reflex of public opinion in that country to-day on the question of reciprocal trade relations. Things have changed pretty radically since 1865, and even since 1880. What Canadians are most interested in is the attitude of United States public men towards reciprocal trade relations with Canada in 1890, not in 1865 and 1887.

THE OTTAWA CITIZEN: It is, therefore, very apparent that the Republican party, of which Mr. Blaine is the mouthpiece, is as much opposed to reciprocity on a fair and equitable basis as it always has been. * * * Canada has nothing to expect from the United States in the way of trade concessions, unless we are prepared to cut our British connection and become annexed to the United States.

What's all this? The Gazette says that Senator Sherman's proposal "is strictly in accord with the policy of the 'Dominion Government.'" Sir John ought to keep these two organs on one key—two souls with but one single thought, as it were.

BUT Adam Brown, M.P., who votes for all Sir John's iniquitous jobs without stinting, will have his pleasant holiday lunch and good pay all the same—Stratford Beacon.

The Beacon should know that a member of parliament cannot accept any office of emolument under the Government and retain his seat in parliament. Mr. Brown's position as commissioner to Jamaica is an honorary one. He draws no "good pay."—Hamilton Spectator.

Can't, eh? What about Derby Bergin? He drew good pay while sitting as a member of Parliament and voting for Sir John.

EVERY one will be glad to hear that Mayor Grenier has so far recovered from his illness as to be able to resume his seat in the council chamber.

It is, coming Sister Mary, it is coming. What is? Never your mind, but keep your eye on the word reciprocity.

Asphyxiated in His Bedroom.
On Tuesday noon Mr. Aaron Buckley, a well-known jeweller of Bowmanville, Ont., arrived in this city and went to the Hotel Albion, where he registered and afterwards dined. He retired to his room at an early hour, but yesterday morning the smell of gas was quickly discovered by the night clerk, when the room was at once entered and the gas found turned on but not lighted. He lay in his bed in an unconscious condition, and a physician was at once sent for. The latter used all restoratives in his power, but they were of no avail. At the hour of six last evening the unfortunate gentleman had breathed his last. The family of the deceased were at once notified, and will arrive here this morning. There seems to be no doubt, from present indications, that the deceased blew out the gas in place of turning it off—hence his death from asphyxia.

A GRAND SUCCESS.

SECOND DAY OF GREAT EASTERN EXHIBITION.

Fifteen Thousand People on the Grounds—Further Description of the Exhibits—Attractive and Interesting Collections on View—Pickpockets Successfully Picked—Prizes Awarded.

SHERBROOKE, Sept. 3.—A finer day for an exhibition could not well be imagined than is the second day of the fair. Bright, clear and cool; not too cool, but just cool enough to be comfortable; a striking contrast to the corresponding day last year, when it was insufferably hot. The grounds are fairly alive with bustling humanity out for a holiday and to see the sights. Fifteen thousand is the estimated number on the grounds. Among this number are some of the light-fingered gentry who generally accompany big crowds and get in their work. In addition to the facts stated in the despatch of last evening, announcing the robbery at the G.T.R. station, other thefts are reported to-day. Some time at an early hour this morning a room occupied by four gentlemen was entered at the Magog House and sixty dollar stolen from the pockets of the clothes. Two hundred dollars lying under the pillow of one of the gentlemen was not molested. This was done without awaking one of the occupants of the room. Another man had his watch snatched from him in the industrial building. The thief escaped. Four suspicious characters were arrested and run in at noon to-day. It is thought they are the gang who are implicated in the robberies.

As promised yesterday, a general description of the exhibits in the industrial building is given below. The space in the industrial building is well occupied and the inside presents a pretty and attractive appearance by its variety of exhibits and their method of arrangement. On passing into the main entrance the eye is at once directed to the exhibit of G. A. LeBaron. His display of pianos, organs, carriages and sleighs occupy a large space, and is of excellent merit. Passing to the right one notices a splendid show of garden vegetables. Opposite this is the magnificent Manitoba exhibit shown by the Canadian Pacific Railway Co., attended by their general agent here, Mr. Duncan. The exhibit consists principally of the different varieties of cereals and grasses peculiar to Manitoba and the Northwest. The exhibit occupies fifty feet space and is very attractively arranged. A little farther on the Grand Trunk shows specimens of corn and grains grown on lands lying along the route of the Santa Fe route through Kansas, also some views of the Lake St. John region. Their exhibition is also very good but not so large as that of the Canada Pacific. Close by is one of the principal attractions of the exhibition, namely, the display at the Edison General Electric Co. They show a machine driven by a five horse power engine, lighting fifty lamps of 16 candle power attached to a bank on the wall and forming the word "Edison". The same dynamo also serves as a motor for winding the electric wire with its covering of silk and cotton the process of which is in operation here are also shown the Edison system of underground conductors. Also specimens of polished brass switch boards. The display of carriages is large and in some cases of excellent merit. The exhibits consist of such well known firms as P. Biron, of Sherbrooke, the Gananoque Carriage Company, Gananoque, Ont., R. J. Latimer & Co., Montreal, and others. In this department Mr. P. Biron is the first prize winner in every class. His display consists of twenty one splendid vehicles the finest it is said ever shown here. H. C. Wilson occupies 60 feet space with six different kind of organs and pianos, including the Bell, Estey, Dominions, and Heintzman, and Ives and Pond, Boston. In this department H. S. Hubbard & Co., of Waterloo, show the Guild piano. The Paton Mills have a very fine exhibit of woolen cloths and goods, such as yarns, tweeds, worsteds, shawls, linings, and red and grey flannels. Also, lawn tennis material.

In this department is also a fine exhibit from the Grindrod Woolen Mills and the Coaticook Cascade Narrow Fabric Company. The Gonong Bros., of St. Stephen's, N. B., have a very fine display of confectionery, both in quantity and quality. This firm was the first in the Maritime Provinces to push for a trade in the West, which they have firmly established through their Montreal agent, Mr. Donnelly. C. H. Fletcher & Co., of Sherbrooke, are exhibiting in the same department. The Macfarlane Milling Company make a fine showing with their splendid display of flour, grain and breadstuffs, made from flour of their own manufacture. Messrs. Locke & Mitchell, of Sherbrooke, make a splendid display with their lines of hardware, consisting of brass, iron and steel implements.

T. Hart, of Montreal, is among the exhibitors of spectacles, marine glasses, telescopes, microscopes and eye-glasses. Rev. T. Fyfe, of South Quebec, has his splendid collection of insects on exhibition which attracted a good deal of attention. The Granby Rubber Company also make a good display with their goods. In the developments of fancy and art work the exhibits are not numerous but of merit. The following is the list of prizes awarded to-day:

A PUSHING CONTRACTOR.

Mr. St. Louis Loses No Time in Starting to Work on the Tail Race Bridge.

The Water Committee had an illustration yesterday of the folly they committed at their last meeting in giving Mr. St. Louis carte blanche for the construction of the bridge over the tail race.

The superintendent of the department surprised the committee not a little when he informed them that Mr. St. Louis had already deposited sand and erected sheds near the site of the bridge without his (the superintendent's) authority, and that although the latter had requested him to state how much he required a day for his services he had as yet failed to give a reply.

Ald. Thompson said that he had characterized the motion when it was passed as a most ridiculous one, and he had no reason to change his opinion. Mr. St. Louis could charge \$50 or \$100 a day if he chose, but in his opinion the work should not be allowed to go on until Mr. St. Louis informed the committee what he was going to charge them per day.

Ald. Shore endeavored to explain his vote at the previous meeting, and Ald. V. Grenier entered into an enlusive statement of Mr. St. Louis' abilities as a contractor.

The assistant superintendent helped to make the case worse when he informed the meeting that he had gone with Mr. St. Louis to the site of the bridge and that he had not authorized him to deposit sand there or to begin work without consulting Mr. McConnell.

Ald. Thompson said there was no price stipulated by Mr. St. Louis and he desired to know by whose authority he (Mr. St. Louis) had deposited the sand and erected sheds on the tail race bank.

The chairman said he had done so on his own responsibility.

Ald. Hamelin moved that the matter be left in abeyance till next meeting.

Ald. V. Grenier fought hard against this and as an amendment proposed that Mr. St. Louis proceed with the work at once.

After some discussion the vote was taken resulting in the defeat of the amendment. Ald. Grenier alone voting for it. The main motion was then carried on a unanimous division.

The balance of the business done was the reception and hearing of a delegation from the town of Maisonneuve, consisting of Mayor Barsalon, Mr. Desjardins, M. P., and Mr. Ecorement, secretary. They asked for a reduction in the water rate charged the municipality, claiming that the construction of the intercepting sewer and other sewers in the city prevented the inhabitants of Maisonneuve from taking water from the St. Lawrence.

It was pointed out that this was a question of finance, and after the deputations had been heard the matter was left on the table to be considered at a later date.

The committee then opened tenders and amended contracts as follows: For pig lead, 75 tons, to Messrs Thos. Robertson & Co., at \$3.47 per one hundred pounds; for 75 fire nozzle hydrants to Messrs. Garth & Co., at \$67.50 each, and for special cartings to Messrs. Ives at \$43.50 per long ton.

The remainder of the business done was of an unimportant nature and the committee then proceeded to the west end abattoir to inspect the new "freezer" in use there.

It Saved His Life.

GENTLEMEN—I can recommend Dr. Fowler's Extract of Wild Strawberry, for it saved my life when I was about six months old. We have used it in our family when required ever since, and it never fails to cure all summer complaints. I am now fourteen years of age.

FRANCIS WALSH, Dalkeith, Ont.

Death of Col. J. W. B. McLeod Moore.

Col. McLeod Moore, a well-known member of the Masonic order, died at Prescott on Monday last. He was of late years more intimately connected with the Knight Templars order of Freemasonry, being among the first, if not the first, to introduce the Templar grade into Canada. He was the Grand Master (ad vitam) of the Grand Priory of Knight Templars for the Dominion of Canada, and was an Honorary Past Grand Master of the Grand Lodge of Quebec, and a member of the Supreme Council of the 33rd Degree of the A. and A. Rite of Scottish Masonry. The funeral takes place at Prescott to the St. John's Church to-day, and the interment will be at Montreal on Friday on arrival of train.

BUILT BY SUN WORSHIPPERS.

Wonderful Roadway That Runs 1,200 Feet Up a Mount.

Charles J. Wimple, a wealthy Mexican miner, tells the following story to a representative of the San Francisco Call: "You have asked me to give an account of the interesting mountain my friend, Jessie D. Grant, and myself saw during our trip through Mexico on route to this city. Well, that mountain is at once one of the most gigantic exhibitions of man's handiwork and something almost beyond credence were we not already familiar with the works of the Aztecs.

"Just imagine a valley forty by thirty miles in area, and from its centre rising a mound over 1,200 feet in height. Then you can realize the first effect created upon our minds when we came before the hill I am to describe. My friend and I were with us, and had partly prepared us for the surprise, but we had treated his story with incredulous remarks, and had by no means suspected he had given a modest description of the mound.

"We gazed to the top and allowed our eyes to follow the windings of a road down to the base. We went around the base and conjectured it was about one and a half miles in circumference. Then we started for the summit. The roadway was built of solid rock clear to the pinnacle, and was from thirty to forty feet in width. A wall of solid rock formed a foundation and an inside wall at the same time. The outer edge of the road was unguarded. These stones weigh all the way up to a ton each, and are not cemented. The roadway is as level as a floor, and is covered with broken pieces of earthenware water vessels.

"Half way up the mountain is an altar cut in solid rock; in the niche is a boulder which must weigh at least six tons. The boulder is of different stone from that used in the walls. The rocks in the walls are dressed by skilled workmen but are not polished. We saw no inscriptions; in fact, we had no time to spare in making a searching investigation. We did look for arrow-heads or other warlike implements to satisfy ourselves that the mound had not been used for defensive or offensive purposes. Nor was there any evidence to prove that the roadway was built for the purpose of witnessing bull fights and other sports in the valley. I could only conclude the Aztec sun worshippers expended years of labor on the hill in order that the might have an appropriate place to celebrate their imposing festivals, inasmuch as the roadway was strewn with broken earthenware, and those scions of a bygone and notable race were known to carry at sunrise large quantities of water in earthenware jars to an eminence, and there pour out the liquid and smash the vessels.

"When we descended we brought with us a number of small sea-shells which had petrified, and if you look at these on my table you will see how they have been perforated by the Indians. We again took a long long look at the mountain and saw it was oblong in shade, and that the upward road commenced on the eastern side. I have travelled on both sides of the Sierrita Madre where the cliff-dwellers have left such remarkable mementoes of their skill and customs, but I have never witnessed anything so wonderful and magnificent as the mound which I have been telling you about.

"The valley is about six hundred feet above the sea level, and is about seventy miles from the coast. It is situated in Sonora, between the cities of Altar and Magdalena, and near the Magdalena River. We call the curiosity Palisades Mountain, and it is well named."

OSCAR WILD'S CYNICISM.

Some Cutting Things About Life in His New Book.

Beauty ends where intellect begins. Intellect is in itself an exaggeration and destroys the harmony of any face.

The ugly and the stupid have the best of it in this world. They can sit quietly and gaze. They live as we all should live, undisturbed, indifferent and without disquiet.

The one charm of marriage is that it makes a life of deception necessary for both parties.

Conscience and cowardice are really the same things. Conscience is the trade name of the firm. That's all.

Laughter is not a bad beginning for a friendship and is the best ending for one.

The more insincere a man is, the more purely intellectual his idea will be, for it will be colored by his wants, his desires, or his prejudices.

Every impulse that we strangle broods in the mind and poisons us. The body sins once and has done with its sin, for action is a mode of purification. Nothing remains then but the recollection of a pleasure or the luxury of a regret.

Nothing can cure the soul but the senses, just as nothing can cure the senses but the soul.

The only difference between a caprice and a lifelong passion is that the caprice lasts a little longer.

Sin is the only color element left in modern life.

Young men want to be faithful and are not; old men want to be faithless and cannot.

Punctuality is the thief of time. Nowadays people know the price of everything, and the value of nothing.

Men marry because they are tired women because they are curious. Both are disappointed.

People who only love once in their lives are really shallow people. What they call their loyalty and their fidelity I call the lethargy of custom or the lack of imagination.

Faithfulness is to the emotional life what consistency is to the intellectual life—simply a confession of failure.

Religion consoles some. Its mysteries have all the charm of a flirtation.

Is insincerity such a terrible thing? I think not. It is merely a method by which we can ultimately our personalities.

HOW WILL IT GO?

THE LACROSSE COMMITTEE TO DECIDE TO-DAY

Whether the Shamrocks and Cornwalls Will Play Over or Not Saturday's Match—Racing at Sheephead—The Bel-Air Races—Baseball News and General Sporting Gossip.

This afternoon the committee composed of a representative from each of the senior clubs in the senior series will meet in Mr. W. J. Cleghorn's office, New York Insurance building for the purpose of deciding whether or not the Cornwalls and Shamrocks will be obliged to play over their scheduled match of last Saturday, which resulted so unsatisfactorily owing to a mistake in the time taken by Referee Dr. Shanks, cutting the playing time by nine minutes. Much interest is manifested by the lacrosse loving public, and particularly the friends of the two clubs concerned, on the issue of the meeting and considerable comment is being indulged in as to what the likely result will be. Dr. Shanks, by his honorable action in immediately acknowledging his mistake, and doing all in his power to rectify matters, deserves great credit, and the highest praise is bestowed upon him from all parties. How the vote will go exactly is hard to say but it certainly looks as though the match will either be played out or played over altogether. This may be calculated upon when it is taken into consideration that Toronto and Ottawa are both looking for championship honors and any chance of the Cornwalls being defeated would certainly be taken advantage of. The Shamrock representative makes this a majority, and why should Montreal vote in favor of Cornwall? The match may be arranged by mutual consent to be played on neutral grounds, with Montreal as the recipient, and Cornwall are not verid enough to miss an opportunity of making \$700 or \$800 and will have a good chance for the championship even should they be defeated by the Shamrocks in another contest. It will not take long for the representative to decide the question, and it will be very surprising if they do not favor another match.

LACROSSE.

The Annual Feats of the Toronto Lacrosse Club at the Exhibition.

The committee having charge of the feats to be held at the Toronto Exhibition met on Tuesday night and adopted rules to govern the throwing of the ball, etc. The events will be as follows:

1. Long throw.
2. Accuracy, 40 yards.
3. Accuracy, 75 yards.
4. 125 yards run with lacrosse.
5. 125 yards run with ball on lacrosse.
6. 125 yards run picking up lacrosse ball.

The events are open to any bona fide member of the Association. Several well known lacrosse players have signified their intention of taking part and McCanaghy of Ottawa will make another attempt to break his last distance record.

Montreal vs. Ottawa.

The Montreal team which will appear against the Ottawas on the M.A.A.A. grounds on Saturday afternoon will be selected to-night, and in all probability will be the same as defeated the Shamrocks recently. The Montrealers are in splendid form and will make a hard struggle for supremacy. The Ottawas are also practicing hard, but their supporters are not too ready to back them up, as they consider that they will be easily defeated by the local team. The sale of reserved seats for the match is progressing favorably and a large crowd will undoubtedly witness the game.

BASEBALL.

Coming to Montreal to Organize a Team for Next Summer.

A gentleman who is interested in base ball in this city has received a communication from Mr. Bacon, former manager of the defunct Buffalo International League team, who "faked" Montreal for a few days, stating that it was his intention to make his permanent residence in Montreal and would be here this fall. During the winter he intends working up the baseball enthusiasts and try to organize a professional team here as he believes Montreal can yet be turned into a good ball town. Mr. Bacon will, no doubt, succeed in organizing a nine, but we will surely not guarantee him success unless it shows up much better than the two visiting teams of this summer, who managed to get away with a few hundred dollars from the Montreal public.

THE RING.

The Coming Fight Between Slavin and McAuliffe.

As the time draws near for the men to meet, interest in the Slavin-McAuliffe fight continues to increase, especially in London sporting circles. It is difficult to get money put up on McAuliffe, as the Slavins are kind of scared of the result, and in consequence very little betting has been done. McAuliffe is in steady training and is now in splendid condition. He weighs 214 pounds stripped, which is 32 pounds less than his weight when he left California.

Dempsey May go to England.

Recently the Osmond Club, of London, offered to back Jack Burke against Jack Dempsey for the middle-weight championship of the world and a purse of £800, stipulating that the fight must come off at their club. Dempsey states that he is willing to fight Burke, but will toss a coin to see whether he will go to London or Burke came to this country. A go between these two middleweights for the championship of the world will excite as much interest as any fight which has taken place on either side of the Atlantic for a decade past. They met several years ago in a ten round match in San Francisco. No decision was reached by the Referee but it was considered by many that Dempsey had a little the better of it.

THE TURF.

The Coming Autumn Meeting at Bel-Air Track.

The Bel-Air race track is being greatly improved for the autumn meeting, and better accommodation will be afforded those who attend. The judges' stand is

being repaired and constructed in such a manner that it will not interfere with those on the grand stand seeing the whole race on the opposite side of the track. A tent will be erected for the benefit of the ladies, and tea, coffee and refreshments served. Entries still continue to pour in and the meeting promises to be the best yet held. What may be called the principal feature of the meet will be the Carlsbad handicap steeplechase. Horsemen are enthusiastic over the race, and from the entries it may be seen that the event will be an exciting one. Following are the starters:

T. H. Love's b m Skylark, aged, Aerolite—Sweetbread.
Alex Shields' b g Dublin, 5, Lk Blackburn—Dublin R.
Alex Shields' b g Repeater, aged, Revolver—Regards.
Percy Stables' c h Harrodsburg, aged, Fallowcraft—Donnie May.
Bay View Stable's b g Mackenzie, aged, Legate—May.
E. J. Collins' c g Prince Charles, aged, Princeton—Unknown.
Jas Minogue's b g Little Charles, aged, Charley Brown—Unknown.
Ed Rooney's b g Oliver, aged, Bullion—Experiment.
Wellington Stable's b g Echo, aged, Escala—Sunshine.

AQUATICS.

Mr. McKendrick's Challenge Accepted by Mr. Johnston, of Toronto.

Recently Mr. H. F. McKendrick issued a challenge to paddle any man in the world one mile in best and best A. C. A. canoes. This has been accepted by Mr. M. F. Johnston, of the Toronto canoe club, who in answer says he would prefer the race to come off on Toronto Bay rather than on the narrow and crooked Grand river at Galt, but Mr. McKendrick objects to Toronto Bay. Johnston is willing to toss him for choice of water. The race will take place about the end of the month.

The Mayor's Return.

There was a large gathering of city fathers and officials at the wharf yesterday morning, to welcome Mayor Grenier back to the city. He returned on the Quebec boat, having spent some weeks at the seaside recuperating his shattered health. The inevitable Joe Vincent fired a salute when the boat came in and after her arrival Acting Mayor Hurteau presented Madame Grenier with a bouquet and welcomed the mayor back. There were present: Aldermen Prefontaine, A. Dubuc, Malone, Stevenson, Perreault, P. Dubuc, W. Kennedy, Thompson, Conroy, Villeneuve, Gauthier, Lamarche, Wilson, B. Dufresne, Prefontaine, Robert, Brunel, Shorey, V. Grenier, Martineau, Griffin and Germain, besides Chief Benoit and Superintendent McConnell. There was a short address of welcome and a reply by the mayor, after which he drove to his residence on St. Denis-street.

NEW PUBLICATIONS.

PRACTICAL SANITARY AND ECONOMIC COOKING—by Mary H. H. Abel, American Public Health Association, Concord, N. Y.

Mr. Henry Lamb, of Rochester, N. Y., offered a prize of \$500 for the best article upon Sanitary Cooking, adapted to persons of moderate means, and the above work secured the prize, and the remark from the judges that the author was far ahead of any of her competitors. Mrs. Abel has exposed many of the fallacies which have hitherto been in vogue in the kitchen, and has presented to the unscientific mind in as clear a manner as possible many of the fundamental scientific principles required in the correct preparation of our food.

TROCKMORTON—by Mallie Elliot Seawell—D. Appleton & Co., New York.

The scene is laid in Virginia, after the war, and is intended to represent the conditions which existed at that time. Some of the characters are quite vigorous, and the story is interesting.

MRS. PARTINGTON'S NEW GRIP SACK—by Mrs. Partington, A. P. Shellabear, J. S. Ogilvie, Rose-street, New York.

Mrs. Partington has added a number of new things to her Grip, and those who have never examined the contents will enjoy a good laugh when they do.

KATY OF CATOCHIN, by George Alfred Townsend.—D. Appleton & Co., New York.

With many real characters and some fictitious, the author has woven quite an interesting story, commencing with John Brown's raid on Harper's Ferry and his death, ending with the plot and assassination of President Lincoln and the death of the conspirators. The author claims to have known J. Wilkes Booth, the assassin, personally, and many of the incidents related are historical. Some of the types of character are quite original and the book is marked by vigorous and powerful writing.

GEORGE HAMPSTEAD—Those who like novels in which something happens will appreciate the stirring history of Geoffrey Hampstead. The name is that of the central figure of a strong novel by a new writer, Mr. Thomas Stinson Jarvis, a barrister of Toronto, Canada. In one novel Geoffrey Hampstead is a realistic novel, since it deals realistically with every-day life; but the author recognizes the fact that men are carried away by hate and love, and swayed by all the passions and emotions, even in the seemingly prosaic "life of to-day. Realism, if this novel be taken as an example, does not exclude plot, incident, action and dramatic interest. Geoffrey Hampstead is published in Messrs. D. Appleton & Company's Town and Country Library.

"THE CENTURIAL"—A Jewish calendar for one hundred years. This production, published by Rev. E. M. Myers, New York, shows the days of the week, and corresponding dates of the English month, on which every Rosh-Chodesh, feast, fast, and festival will occur during that time. It also gives directions to ascertain the English date of any Jewish date, and a summary of nearly seven hundred events, from the time of the Deluge up to the present, descriptive of the persecutions, tortures, and massacres to which the Jewish people have been subjected, their victories and defeats, the high positions which they have attained in arts and science, their inventions and erudite productions, their progress in civil and religious liberty, etc. It contains 210 pages, cloth bound, and costs one dollar.

A Gang of Crooks Discovered.

The "crook profession" of the city have struck another scheme to swindle people. They go to certain stores and there deposit a sum of money in an envelope. This is kept until they have made a number of purchases, and when a certain day arrives the envelope is to be opened and the amount due the storekeeper is to be taken from the contents. How the scheme pays these gentlemen may be better understood when the story of their doings a few nights ago is told.

An ex-policeman named Montgomery now employed at the St. Lawrence sugar refinery, had Miss Maggie McDonald, a servant girl who has long been employed in the family of Mr. Stroud on Mackay-street, arrested on the charge of stealing seven dollars, claiming that the girl took it from his vest pocket while they were walking, because he missed it when they had parted. But Maggie, who was in court, accompanied by Mr. Stroud, who gives her an excellent character, tells a different story and claims that it is per section on the part of Montgomery, who wants to marry her for some \$700 she, by hard labor, has accumulated. The girl was discharged, but the society for the protection of women and children have taken up the case, and being satisfied for her innocence, will no doubt make things lively for the rejected lover.

H. B. Ford and T. H. Graham next answered the roll call. They are the two financiers who have achieved such an unenviable reputation in connection with the "Disabled Firemen's Fund." Each was dressed in the latest style, in fact regardless of expense, and they both seemed to appreciate their position. They were introduced to the country by Detective Campeau, who arrived with them on Tuesday evening from Windsor by the Chicago express.

Yesterday morning two women, well known to the police, at whose house Ford formerly lived, and one of whom was supposed to be his wife, called, and they were the only parties who seemed to take any interest in them. Chief Benoit, shortly after, had an interview with them, during which Ford, who is the spokesman, offered, if they were let off, to make everything good. The law will have to take its course, said the chief. On being brought before Judge Desautels, Ford stated that it was all a mistake, but his Honor differed and sent the pair to jail to ensure their appearance on Friday, when Chief Benoit will be on hand with his witnesses. A search in the prisoners' baggage for that "Magic" red covered subscription book, which Ford said he had torn up, and which was important testimony against them, resulted in the finding of the same, but most of the leaves had vanished. Other interesting documents in the shape of love letters, photographs, various papers, drafts and contracts in connection with their different money making schemes, all duly classified, were found, also a letter from Alderman G. W. Stephen, threatening them with legal proceedings unless some matters were settled. Numerous documents in the same hand writing, purporting to be recommendations from well known business people vouching for the integrity of Graham & Ford, were also discovered. Leaves of the subscription book were likewise found, and if the signatures are as genuine as they seem they will furnish positive proofs against the prisoners. From the first leaves found it appears that besides the subscriptions of which the chief was aware the following collections have been made by the energetic pair.

Canadian Pacific Railway.....\$500
Thomson, Dunnison & Co.....100
Unbleached and S. Carley's.....100
Great Northwestern Telegraph Company.....100
Grand Trunk Railway.....500
The E. C. Gurney Co.....100

Total.....\$1400
All these subscriptions are marked "paid."

A Sad Accident.

At the hour of noon yesterday a young man named John Keenan, while at work in Ogilvie's Mills, on Mill-street, had his right hand caught in the wheel of the elevator, which lifted him from the ground and after some two or three revolutions of the wheel the engine was stopped, and the unfortunate fellow picked up more dead than alive. The Notre Dame Hospital ambulance was at once summoned and Keenan removed to that institution, where it was found that not alone was his hand crushed but his entire right side badly lacerated, as also his head and there seems to be no doubt of his having received internal injuries. At the hour of going to press he was unconscious.

Arrival of Odd-Fellows.

The local lodges of the Independent Order of Odd-Fellows are preparing for a great reception to members of Springfield, Mass., canton, which will visit the city in a body to-day. A public parade has been arranged and the lodges are called to meet at the City Hall at 1.30 o'clock this afternoon for that purpose. St. James and other streets have been decorated with flowers of welcome to the visitors. The route of the procession will be from the City Hall along Notre Dame to McGill, thence to St. James, along St. James to Place d'Armes Hill, and down to Craig, and thence to Beaver Hall Hill, up there to St. Catherine, to St. Lawrence, down St. Lawrence to the starting point. In the evening a reception will be tendered the visitors.

CRIME'S DESERTS.

PICKINGS FROM THE COURTS YESTERDAY.

The St. Catherine-street Shooting Affray Again Revived—Ford and Graham Placed on Trial—How They Victimised Different Citizens—Proceedings in the Court of Special Sessions.

The judicial grist mill of the Recorder's Court had thirty-one cases to grind out yesterday, which after a thorough sifting resulted as follows:

Simple inebriates, 13.

Philips Prevost, a resident of Ontario-street, was arrested on the charge of destroying the property of one G. Richards, for which amusement he was fined \$3.

Geo. Gibbons, who hails from Bleury-street, for being drunk and disorderly was fined \$10 or one month in jail.

An erring sister named Ellen Hughes was arrested for being drunk and disorderly on St. Charles Borromeo-street on Tuesday night. She pleaded guilty, and asked the clemency of the court, who imposed a fine of one dollar or 10 days.

Gus Johnson, who lives on Notre Dame-street, got on the war path on Tuesday evening and assaulted one Gustave Kheer, for which freak he was sentenced to pay a fine of \$5 or rusticate for 15 days.

Jane Kennedy, who needed no introduction to the court, stood charged with "vagrancy." She had the option of paying \$3 or going to jail for 3 months. She accepted the latter.

S. Welsh, a carter, for loitering and having no numbers on his lamps, paid in \$2 to the treasury.

Napoleon Lavigne, an amateur pugilist, for training on Ontario-street, had the option of a \$2 fine or 10 days in Payette's Gymnasium.

Margaret O'Tool, a cook, handed over \$1 for being drunk and disorderly on Notre Dame-street.

John Quinn and M. McNamara, agents for carters, were present to answer to the charge of soliciting fares, not being the licensed driver and owner of a coach or carriage. The cases were continued until Sept. 10.

A coal carter named Alfred Narier was arraigned on the charge of cruelty to a poor horse. By the affidavit made it is alleged that the defendant did, on August 13 last, unlawfully beat a horse attached to a coal cart, and driven by him, by striking the animal several times on the head with the butt end of a whip, thereby injuring one of said horse's eyes to such an extent as to blind the same. After a severe lecture from the court he got off with the small fine of \$5.

In the Police Court.

Richard Murphy, a hale and hearty looking individual, was brought up on the charge of "refusing to support his family." His case was continued until Friday.

Alfred Paquette, for the larceny of a quantity of nails and gas fittings from Mr. J. Thompson, received a dose of 3 months with hard labor.

Patrick Coady, a driver, charged with highway robbery from Frank Eck, takes six months in jail.

Louis Ducharme, a laborer, 32 years of age, living on St. James-street, got off with a four months' term, on a charge of larceny.

An ex-policeman named Montgomery now employed at the St. Lawrence sugar refinery, had Miss Maggie McDonald, a servant girl who has long been employed in the family of Mr. Stroud on Mackay-street, arrested on the charge of stealing seven dollars, claiming that the girl took it from his vest pocket while they were walking, because he missed it when they had parted. Numerous documents in the same hand writing, purporting to be recommendations from well known business people vouching for the integrity of Graham & Ford, were also discovered. Leaves of the subscription book were likewise found, and if the signatures are as genuine as they seem they will furnish positive proofs against the prisoners. From the first leaves found it appears that besides the subscriptions of which the chief was aware the following collections have been made by the energetic pair.

Smoke the Sohmer Cigar, 10c.

The O. R. N. steamer Sovereign is about ready to resume her trips on the Ottawa river, her disabled machinery having been rapidly repaired. The defective walking beam was replaced by a new one made at the Grand Trunk works and is said to be a fine piece of workmanship.

An intimation has been received by the Principal of McGill from the chairman of the Royal Commission for the London International Exhibition that the University has been selected as one of the institutions in which a scholarship of \$750 per annum, tenable for two years, shall be open for competition.

Smoke the Sohmer Cigar, 10c.

Yesterday afternoon whilst the steamer Cassius of the Hansa Line was being discharged, a horse in a cart belonging to master carter of the name of Donnelly loaded with paving sets from the steamer became restive, and despite the efforts of the carter backed into the river and was engulfed, the driver having a narrow escape. The horse and cart still remain at the bottom of the St. Lawrence.

POPULAR AMUSEMENTS.

"Master and Man" at the Academy—Margaret Mather Next Week.

Large audiences still continue to patronize the Academy nightly, and all leave thoroughly pleased with the actors, actresses and play. Those who have not yet seen the drama would do well to do so at once.

Fort Donelson.

The sterling drama Fort Donelson attracted large audiences at the Theatre Royal, yesterday afternoon and evening and the spectators were highly delighted with both productions. One of the principal features of the piece is the singing and the dancing of Mr. Hoyt, who was compelled to respond four times to the encores last night. The military drill between Van Ness and Dunphy is also very amusing and the dancing of the former was greatly admired. The different parts in the sensational drama are well taken and the company has been well received during the week with crowded houses.

Margaret Mather.

Margaret Mather, who is regarded as one of the leading actresses of the United States, opens a week's engagement at the Academy next Monday, with a performance of John Tobin's excellent comedy, "The Honeymoon," in which Miss Mather has never before been seen here. The last appearance of this tragedienne was of so successful a nature as to warrant the belief that her season next week will be a financial success. In addition to "The Honeymoon," "Romeo and Juliet," "Leah, the Forsaken" and "Lady of Lyons" will be given during the week. Miss Mather's company is said to be the strongest organization she has ever had, and consists of Mr. Otis Skinner, Maida Craigen, John Malone, Giles Shine, Henry E. Walton, Howard Kyle, Carrie Jameson, Fitzgerald Murphy and Gilman Scott. "The Honeymoon" is one of the old English comedies, made famous by leading actresses whose names are household words in the theatrical profession. The sale of seats opens this morning (Thursday).

Robbed at the Park.

During the entertainment at Sohmer Park last night quite a sensation was caused by an audacious robbery. It appears that a rich farmer of Pointe-aux-Trembles, named Champagne, has been staying in the city at the Racicot hotel for the past few days with his wife and daughter, the latter a very prepossessing young lady who is engaged to be married to a young man named Tremblay, of Pointe-aux-Trembles. Tremblay also came to Montreal on a visit and last night accompanied Mr. Champagne to the Sohmer Park to attend the concert, the two were drinking together, when suddenly Mr. Champagne discovered that he had been relieved of \$700. This was after he had been separated from Tremblay and his suspicious were directed toward the latter. The victim hastened to lay a complaint at the Central police station and a warrant may be issued this morning for Tremblay's arrest on suspicion.

The Y. I. L. and B. Association.

The regular meeting of the Young Irishmen's Literary and Benefit Association was held in their hall last evening, Mr. R. Lennan presiding. Mr. A. C. O'Neill was elected recording secretary, and Mr. M. J. Whelan librarian. A resolution of condolence was passed on the death of Mr. John Boyle O'Reilly, lately deceased. A report was received from the excursion committee showing that the excursion this year was one of the most successful ever held, both financially and otherwise. The meeting then adjourned. The Y. I. L. and B. Society is rapidly increasing in membership and an extra inducement, which has proved most successful, has been added to the privileges of the association, in the form of a hand ball alley which is constantly in use. The gymnasium is complete and the season will reopen in the first week in October, when it is expected the class will be larger than ever.
