AMERICANS VISIT LORD STRATHCONA

Party Entertained at High Commissioner's Office and Invited to Knebworth.

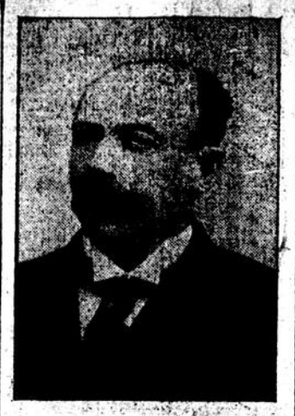
(By special cable from our own correspondent.)

London, June 10.—The visit to London of a party of one hundred ladies and gentlemen from all parts of the United States has been the occasion of an interesting function at the High Commissioner's office. They previously conveyed to Lord Strathcona their desire to pay their respects to one who has taken so large a part in the development of North America below as well as above the 49th parallel. Lord Strathcona consented, and the party were cordially received. He assured them of the friendliness of Canadians towards their great neighbors. They must always be much to one another. He himself, as they said, had intimate associations with the States, and had many good friends there, including Mr. Jim Hill and Archbishop Ireland.

Lord Strathcona amused the company by a story, probably familiar in Canada, of a triangular encounter between himself, Mr. Hill and Archbishop Ireland, which ended in Hill's exclamation: "Ah, well, Archbishop, I'll swop passes with you."

His Lordship invited the party to visit him at Knebworth, and offered to provide a special train, but unfortunately the party's arrangements already made forebade.

WINDERMERE.



The late George Clark, of the Montreal Post Office.

SUDDEN DEATH OF GEORGE CLARKE OF POST OFFICE.

Mr. George Clarke, chief of the night staff of the Montreal Post Office, died suddenly yesterday afternoon, at his home, 150 Lusignan street. He was apparently in the best of health when he returned from church in the morning, and in the afternoon joined his sons in a lacrosse game at Belmont school. He slipped and fell on a stone, but thought nothing of the matter and went home. Fifteen minutes later Mrs. Clarke found him in his chair dead. Dr. Hackett, who was called, said that death was due to a ruptured artery of the heart. The deceased was in his 55th year, and had been with the post office for twenty years.

In speaking of his death, Mr. L. J. Gaboury, Asst. Postmaster, said: "I am very, very sorry indeed. He was a very, very good employe and held in the highest esteem by all of us."

Mr. Taylor, head of the day staff, said: "I was very much surprised and grieved on the way down to the office this morning, to learn of Mr. Clarke's death.

JUDGMENT IN COLONIAL HOUSE LAND DISPUTE.

Mr. Justice St. Pierre has handed down the decision of the Superior Court in the much discussed trouble over building operations between the late Dr. McCallum and the firm of Henry Morgan & Co. The firm had begun building operations on a property purchased from the estate of the late Dr. R. P. Howard, in 1903. Dr. McCallum objected to the style of building, to the height, and to the extension of the frontage of the building to the street. As he had his home between two sections of the Colonial House, and as he had at one time owned the land upon which the extension was being constructed he appealed to the courts to prevent Messrs. Morgan & Co. from going on with the structure.

In his declaration he set forth that in the deed of sale to William Rhind a stipulation had been entered that any house to be erected on the lot of land sold must be of the same frontage as that to be erected by the doctor himself, and that it must also be of the same height. The doctor, in his application for an injunction also attempted to have the court declare that Messrs. Morgan & Co. had no right to erect a shop on the property, and wanted to prevent them from using the common wall which had been built jointly by himself and Dr. Howard.

The court has now maintained the claims of Dr. McCallum that Messrs. Morgan & Co. must not build any nearer the street nor any higher than Dr. McCallum did. On the other hand, however, Mr. Justice St. Pierre upholds the right of the Colonial House to extend its store in that direction and to use the common wall.

Normal School's Jubilee.

The committee in charge of the celebration in connection with the fiftieth anniversary of the l'Ecole Normale Jacques Cartier, met yesterday, at that institution, Mr. J. O. Casgrain presiding, for the purpose of arranging the final details of the demonstration to be held on June 24th and 25th. Abbe Dubois announced, in the course of the meeting, that he had received 340 replies to the invitations issued to former pupils.

Burglary at a Fur House.

A fire escape was employed by burglars early yesterday morning for the purpose of gaining entrance to the second story window of the premises at 622 St. Paul street, occupied by Mr. Albert Vineberg, fur merchant. The thieves took more away than they could carry, leaving thirty lamb skins at the foot of the fire escape. They made off with over $300 worth of goods.

Vancouver Delayed.

A change has been made in the date of the sailing of the Dominion line mail steamship Vancouver, from Liverpool, instead of leaving the Mersey port on Saturday, the 8th, as scheduled, she leaves to-day for Montreal.

Pretorian in the River.

FIFTH DAY OF TRYING ORDEAL IN WITNESS BOX FOUND ORCHARD AS COOL AND COLLECTED AS EVER

Witness Gives No Evidence of Breaking Down Under Long Strain—Cross-Examination To-day Directed Toward Proving He was in Employ of Mine Owners.

(See also pages 6 and 16.)

Special to the Montreal Star.

Boise, Idaho, June 10.—When the trial of W. D. Haywood was resumed to-day, the cross-examination of Harry Orchard, who has confessed to the murder of eighteen persons, was continued. This was his fifth day in the witness box, and he faced his examiner with the same cool indifference.

It was reported that Mrs. Orchard, wife of the assassin, would come here to testify, but this is denied in a despatch from Cripple Creek, which quotes her as saying that she would not leave her home, and would not be a witness in the case.

Many persons named by Orchard in his astounding confession are to be brought here by the defence to refute the statements made by Orchard.

Steve Adams probably will be the first witness called after the cross-examination of Orchard, which is expected to end to-morrow.

Darrow and Richardson, Haywood's counsel are also Adams's lawyers, and they defended him in March, when he was tried in Wallace for the murder of Tyler, which Orchard told about in his testimony a few days ago.

These attorneys have had repeated assurance from Adams that he will never turn State's evidence, and Mrs. Adams, who recently saw her husband in the Wallace jail, says he will not corroborate Orchard.

It is pointed out that the State, if it calls Adams to the witness stand, will be bound by his answers, and if he denies Orchard's assertions it will serve the defence a good turn, and help to destroy the testimony of the prosecution's chief witness. Judge Wood is not placing any limit on the extent to which the State may go in introducing evidence.

Extraordinary precautions are being taken to ensure Adams's delivery in Boise. He is manacled and in the custody of three men who have reputations as being dead shots. This is another of the spectacular settings of the case.

The cross-examination of Orchard to-day was directed with a view to proving, through the witness, that in reality he was in the employ of the mine owners as a detective when he committed his murders, and that he was not the agent of the Western Federation of Miners.

This indicated the line the defense would take in addition to trying to prove false many of the things to which Orchard has testified.

ORCHARD IN GOOD SPIRITS.

Orchard passed a quiet Sunday in the penitentiary. He ate heartily, according to the guards and spoke about his experiences on the stand without any show of emotion. He spends much of the time in his cell reading the newspapers containing accounts of the trial. William D. Haywood was visited yesterday morning at the county jail by his wife, daughters and mother. He, too, reads the newspapers closely. He appears to be in good spirits and confident of his acquittal.

This morning's crowd was undiminished. With Orchard on the stand, Steve Adams in the jail beneath the court room, and Haywood, Moyer and Pettibone in the same building, all paths lead to the county building. The Haywood family arrived at the court earlier than usual, so Mrs. Haywood could be carried to the court room in advance of the crowd, which was restrained in the yard until officials and witnesses were admitted.

ORCHARD MADE CORRECTIONS.

Orchard asked permission to correct two statements made by him on Saturday, one that "Bill" Easterly and himself had made bombs with "Pettibone dope" at Cripple Creek and that he and Steve Adams had carried their shot guns in holstears when they were stalking Governor Peabody. He said "Billy" Ackerman and not Easterly, made the experiments with him and that he and Adams did not carry their guns in holsters.

Attorney Richardson brought out that Orchard was in conference with Detective McParland this morning, and with McParland and Attorney Hawley yesterday and that each morning he visits Hawley's office.

"Didn't McParland speak to you about the method by which you could withstand cross-examination?" demanded Mr. Richardson.

"No, sir," replied Orchard, "but he spoke of what gave me strength to go through the examination."

Orchard has professed religion.

"Now, then," roared Richardson, "didn't you make this correction because you discovered that Easterly is here and Ackerman is not?"

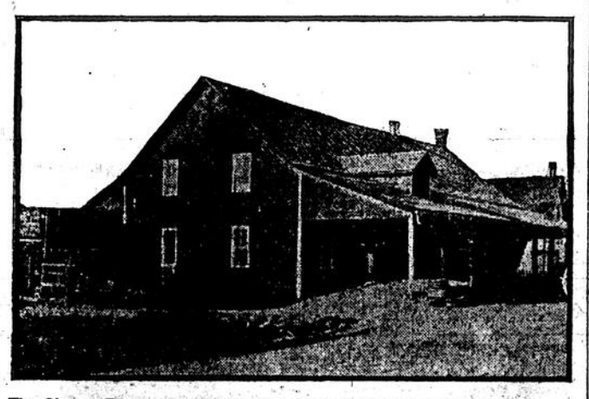
"No. I knew Easterly was here all the time."

Orchard said that he had heard that Ackerman is in Goldfield, Nev.

Richardson next wanted to know what Orchard had talked with Nelson Franklin and A. E. Carlton, of the Mine Owners' Association, about. He said he had a certificate of deposit in a bank which had closed, and he heard these men were buying such certificates.

Orchard denied that he had ever discussed the mining troubles with Franklin, Carlton, "Kid" Waters, Frank N. Reardon, A. T. Holman and Major McClellan.

Orchard said he had first discussed the blowing up of the Independence depot with Parker and Davis, the strike managers in the Cripple Creek district. He later discussed the Independence matter with Parker and Davis in Denver, and in the lobby of the Miners' Convention, which then was in session. It was because Haywood's control of the federation was in jeopardy in the convention that the leaders wanted "somthing pulled off."



The Cheese Factory at Wooter, Ont., where Orchard worked six years.

Little Rita Hastie, who was struck by an engine and lost both hands.

A CHILD'S HANDS CUT OFF BY G. T. R. ENGINE.

Rita Hastie, 11 years of age, was struck by an engine shunting in front of the G.T.R. Station, St. Henri, on Saturday, and had both her hands amputated. She is the granddaughter of Mr. W. F. Mitchell, of the P. O. Department, Montreal.

The engine cowcatcher threw the child partly off the tracks, and the wheels passed over both hands, which were extended across one rail.

Little Rita's parents live at Montreal West, near the G.T.R. Station.

The engineer picked the child up as soon as the engine could be stopped, and carried her into the station, where emergency bandages were applied, while the Royal Victoria Hospital ambulance was answering the call.

The condition of the child was reported to-day as being slightly improved. She passed a fairly good night, and is resting comfortably to-day.

CANADIAN FIVE MILE RECORD BROKEN

Toronto, June 10.—Tom Shipman, of Montreal, finished third in the five mile race, and Tom Longboat won by inches from Nebrich, the American champion, at the spring championships of the C. A. A. A. at Hanlan's Point on Saturday. Seven thousand people saw Shipman set the pace that broke the five mile record, but he lacked the sprint to finish in front. Longboat won out from Nebrich in the last three hundred yards of the three mile match race, after a hot contest. Time, 15 minutes, 12 seconds. Before the race, Nebrich offered to meet any man in the world in a mile race, to take place any time this year. His time for the distance is 4 minutes 27 seconds.

Nebrich led for the first mile, and the runners alternated the lead during the second. The struggle became intense in the last 300 yards, but the American never lead. The crowd went wild with excitement when the Canadian lurched forward in his last stride and won by the narrowest of margins.

Shipman took the lead in the five mile race, and set such a hot pace that most of the runners were quickly lapped. The first three miles were done in five minutes each, and the fourth in six minutes. At this stage it was seen that only four runners were to be figured with—Shipman, who led all the way; Fred. Meadows, Tom Coley and Jack Tait.

Shipman failed in an attempt to break away in the fourth mile, and Tait fell behind in the fifth, when Shipman was still setting the pace. The three leaders started to sprint for it in the last hundred yards; Meadows took the lead, closely followed by Coley, who passed him in the last twenty yards and won out. A new Canadian record of 26 minutes 57 seconds was established, and even Shipman, who finished third, was within the old record.

One of the surprises of the day was the defeat of R. Kerr in the hundred yards by W. R. Knox, in ten and two-fifth seconds over a course run on the grass. The latter gave evidence of great all-round ability by equalling the Canadian record in the pole vault and winning five firsts altogether.

A. C. Wood, of the Gordons, won the half mile in easy fashion, and twenty minutes later made a spirited bid for first place in the mile.

The results of the various events are as follows:—

Special two-mile run for Indians—won by Hilton Green, Irish Canadian A. C., 10.22.

MONTREAL CHOSEN FOR NEXT MEETING

Congregational Union Decides to Meet Here in 1908—Church Union Discussed.

Special to The Montreal Star.

Hamilton, Ont., June 10.—The Congregational Union of Canada decided on Saturday to meet next year in Emmanuel Church, Montreal. An invitation from Winnipeg was declined, owing to the expense of travelling so far. Greetings were sent to the General Assembly of the Presbyterian Church in session in Montreal.

Church union was again considered. only one of the remaining four resolution submitted by the special committee was discussed, that one being on the question of ordination to the ministry. Rev. Charles Pedley, Brantford, moved that an addition be made to this resolution expressing the union's conviction that without this provision (candidate not to be compelled to give an absolute subscription to a creed), it would be impossible to carry into the union a number of ministers whom it was desired to retain. Mr. Pedley said he had heard Methodist ministers state that the creed question was one on which the three denominations could easily agree, and he thought it would be well to disabuse their minds, as the Congregationalists' conception of the ministers' liberty as to creed was one to which the latter would hold. Rev. Hugh Pedley, Montreal, suggested a withdrawal of the proposed amendment, which was done after he had said that the Congregationalists should not throw down the gauntlet and arouse the spirit of battle instead of a spirit of conference. The committee on reorganization presented its report.

Yesterday visiting ministers occupied the pulpits in several of the city churches. Rev. Principal Hill, of Montreal, preached in St. John's Presbyterian Church, and Rev. Hugh Pedley of Montreal, in the First Congregational in the morning, and Rev. J. L. Alexander, of Granby, Que., in the first Congregational, in the evening.

STRICKEN IN CHURCH PEW.

Mrs. St. John, a Native of Montreal, Died in Detroit.

Detroit, June 10.—Just as the last gospel was being read at the close of High Mass, at St. Joachim's Church, Sunday morning, Mrs. Victoire St. John, aged 81 years, sank forward in her pew, unconscious. She was immediately removed to her home, but died as she reached the door of the house.

Mrs. St. John was born in Montreal. There she was married to Xavier St. John, 54 years ago, and afterwards moved with her husband to Detroit. Mr. St. John is a ship carpenter.

FEDERATION OF REPUBLICS.

Plans for Central American Project Take Definite Form.

Mexico City, June 10.—Plans for the federation of the five Central American republics have at last taken definite form.

If the ideas of those most interested materialize, a great congress will be held in Mexico City, attended by two hundred delegates. Of these 150 will be Central Americans now residents in Mexico, while the remainder will be regularly appointed delegates from the five republics

HON. EDWARD BLAKE VERY ILL

More Alarming News of His Condition Received at Ottawa.

Special to the Montreal Star.

Ottawa, June 10.—News has been received here that the condition of Hon. Edward Blake is far from satisfactory. The attack of paralysis from which he is now suffering is the third of its kind with which he has been afflicted. After the first stroke, which occurred two years ago, he went to Switzerland. The second which came last season, sent him to Canada last summer before the close of Parliament.

Wall Crushed Through Stable.

Calgary, June 10.—The whole side of the wall of the large wholesale building of the Cockshutt Plow Company fell with a crash, and crushed in the roof of the Alberta livery stable. Two horses in the stable were unhurt, but one horse that was loose in the corral at the rear was buried under the debris. It was a new building. The damage will likely be about $10,000.

HUNT FOR ESCAPED TYPHOID PATIENT

Whole City After Man Who Leaped From Hospital Window in Delirium.

Special to The Montreal Star.

Fredericton, N.B., June 10.—The city was in a state of excitement all yesterday. A score or more boats spent the morning and part of the afternoon dragging the river in front of the city with grappling irons, while members of the fire department and hundreds of citizens scoured the woods near by.

Left alone in a room at the Victoria Hospital shortly after four o'clock yesterday morning, Warren Allen, of Burton, Sunbury County, leaped out of the window. He was suffering from delirium of typhoid fever.

Clad only in a thin night gown, the thermometer showing 15 degrees above freezing, Allen arrived at the back door of the residence of Fred. Bliss, one of the trustees of the hospital, late in the afternoon, and asked for food.

The trustees of the hospital will hold an investigation.

Little Boy's Neck Broken.

Special to the Montreal Star.

Charlottetown, P. E. I., June 10.—The four year old son of Lewis Strong, Prince County, was found dead in a field under a fence which had fallen upon him when he was attempting to climb over it. The little fellow's neck was broken.

ALL ATHENS VACCINATED.

Smallpox is Causing Scare in District Surrounding Brockville.

Special to the Montreal Star.

Brockville, June 10.—The prevelance of smallpox in the district, surrounding Brockville is engaging the attention of the Provincial Health Department. There has been much agitation as to whether several suspected cases at Athens, fifteen miles from here, were smallpox or not. Dr. Bell, of the Provincial Health Office now diagnoses three cases of alleged "chickenpox as smallpox," and has placed the patients under quarantine. One of them was thought to have recovered, and was found in his shop plying his trade of a barber.

The whole village has been exposed to the infection and at a joint meeting of the village and township councils, the boards of health and the public schools it was decided to order a general vaccination, including the pupils of the schools. Several of the high school pupils who reside at points outside of Athens were not allowed to leave last night for their homes, which is customary at the week-end. A constable stood guard at the railway depot to see that no one got aboard the train, but despite his vigilance many managed to leave.

CAPITALS SHUT OUT ON HOME GROUNDS

Special to The Montreal Star.

Ottawa, June 10—The Capital's, world's champions, Minto Cupholders and conquerors of all England in lacrosse were shut out on Saturday by the Cornwall braves. No greater surprise in sporting circles could possibly be imagined. That the Senators might be beaten Saturday was thought to be out of the question, but that Cornwall would keep them from scoring was never dreamed of. The Cornwalls were just as much surprised as any one at the result. It is three years since Cornwall beat the Capitals here before, and that was by a close margin of one goal. And as for the shut out part of it on home grounds, the present players can't remember whenever it occurred before. There was a large crowd in attendance and the weather man served up a nice afternoon, although a high wind was blowing which made pretty passing difficult. Never did a more amazed or surprised crowd leave the Oval, as every one agreed that the game might be very close but Caps would surely win. In fact many bets were made that the Caps would double the score. All kinds of excuses were offered for the defeat of the Senators, but the truth is that they were not in condition to stand a hard game. This has been brought about in a large degree to the failure of the men to get out to practice. The game was far from a hard or fast one, and in the first two quarters it looked as if both were lagging and playing rag. The Capital supporters were still confident at half time that the champions would get into the game and win out, and remarks could be heard on all sides to the effect that the Caps were simply holding back and would come up with a rush at the last. If this was their game they waited too long, as Cornwall in the second half started to block effectively and kept the Caps out in great style. When the last quarter started with the score 3 to 0 for the visitors, they simply contented themselves with playing a defence game, and try as they might the Caps could not score, although they sent almost the entire team down into the attack. Neither team played gilt edged lacrosse; the passing and shooting of both being considerable off color. Another feature that helped to lose the Caps the game was the fact that outside of a couple of players the others made no attempt to cover their man closely. This gave the visitors a great chance to keep the ball for quite a spell at a time and afforded them opportunity for many nice combinations. The Caps at times would appear to be completely demoralized, and instead of following up closely, would let their man get away in easy fashion.

The team that fined up Saturday was not the Capitals of a year ago. That was very apparent and unless the players take a big brace they will soon be very much out of the running

Caps had as many good opportunities to score as the Cornwalls, but when a good chance came the ball was usually sent away over the top of the net or to the side. Gaul, who is considered one of the greatest scorers in the N. L. U. had a day off, as he missed many good chances which he should easily convert. The game was a remarkably clean one, the players having been given a severe warning before the play started that no foul work would be tolerated. A couple of men were ruled off, but for minor offences, and no player was seriously enough injured to keep him out of the game.

Both teams seemed to lack the snap and dash which has always been a feature of a meeting between them before. There is no question that the Caps have a better balanced team than the Cornwalls, but the visitors were in condition while the Senators were very much to the bad on this score. The Cornwalls have a great defence, however, and will keep them all hustling to get by it. They broke repeated attacks by the locals in easy fashion.

There is little question but that the Caps were robbed of a goal. Starrs, in a mix up, scooped the ball in but it landed only about a foot inside the goal posts, and Lalonde, quick as a flash sent it out again. The umpire refused to allow it and he was replaced. There were few features in the play worth mentioning. In the last quarter the Cornwalls simply played a defence game, and they held the Senators out in great shape. The Caps brought nearly every man on the field down into the attack but their shooting was bad. Lalonde also must be credited with some very pretty stops.

The locals tried to pull the Cornwall defence out but it didn't work. The whistle sounded with all the Caps down the field with the exception of Hutton and Ralph.

The teams were:

Capitals.	Cornwall.
Hutton	Goal
Ralph	Point
Fagan	Cover-point
Shea	1st defence
Pringle	2nd defence
Ashfield	3rd defence
Starrs	Centre
Butterworth	1st home
Eastwood	2nd home
Allan	3rd home
Murphy	Outside
Gaul	Inside home

Munyon's Success

IN CURING OLD CHRONIC CASES OF

RHEUMATISM

PATIENTS GIVEN UP AS INCURABLE.

Speedily Restored to Health by Munyon's 3 X Rheumatism Remedy.

I want every rheumatic to throw away all medicines, all liniments, all plasters, and try MUNYON'S 3 X RHEUMATISM CURE. No matter what your doctor may say, no matter what your druggist may say, no matter what your friends may say, no matter how bigoted or prejudiced you may be against all advertised remedies, go at once to your druggist and get a bottle of the 3 X RHEUMATISM CURE. Price $1.00. (He will get it for you if he has none in stock.) There are 160 doses in a bottle, and as one lady says: "Every tablet is worth more than a diamond of the same size." A few doses will take away all aches and pains, and a cure generally effected before one bottle is used.

Remember, this remedy contains no salicylic acid, no opium, cocaine, morphine, or other harmful drugs. It is put up under the guarantee of the Pure Food and Drug Act, but my guarantee I consider the best. Try the remedy, and if you are not satisfied, bring the empty bottle to me and I will refund your money.

If you have any other ailment, remember that we put up 57 different remedies for 57 ailments. We have no "cure-alls." Our Cold Cure cures the cold. Our Cough Cure is worth more than all the emulsions, all the oils, all the balsams and cough cures that have ever been made. You can prove this statement by the investment of 25 cents.

My Kidney Cure, I believe, has saved more lives and cured more chronic cases of bladder and kidney ailment than any other known remedy. Money back whenever it fails.

My Dyspepsia and Stomach Remedy enables one to eat a good, square meal and digest it.

My Constipation Ointment gives a natural movement in from two to three minutes, and is rapidly taking the place of cathartics and weakening nostrums.

If you are nervous and despondent. If you can't sleep. If you are weak and run down, don't fail to get a bottle of Munyon's Paw Paw Tonic. It will make you strong, make you sleep, and make you cheerful.

My Headache Cure stops all headaches in from 3 to 10 minutes, and is a good heart and stomach tonic.

All persons suffering with Piles I most earnestly ask to try my Pile Ointment. It stops all itching and pain instantly. Money back if it fails to cure and cure quickly.

Munyon's Vitalizer gives vigor and strength to old men and restores lost powers.

SEVERE TEST FOR THE HOMING PIGEON

The Dominion Messenger Pigeon Association flew their third race last Saturday, June 1st, from Sarnia to Toronto, a distance of 172 miles. Fourteen members sent seventy-one birds. The birds were liberated at seven o'clock sharp, by Mr. Cook, of Sarnia.

Unfortunately these changeable elements seem to be inseparable from "the merry month of June;" last Saturday the wind rattled over the country in some places at the rate of twenty-five miles per hour, dead in the face of these game birds, and, as a result only four pigeons reached Toronto on the day of liberation. Many have reported home since.

The first to arrive, the property of Mr. G. Whillans, did the trying distance in seven hours fifty-nine minutes, this being a velocity of 617 yards per minute. When the elements are considered we must look upon this as a splendid performance, and speaks highly of the pluck and endurance of these compact little birds.

No doubt a great deal of interest will be aroused if the above society carry out a plan that is at present only in its infancy. This is to fly a race about the end of September, open to all pigeon fanciers within ten miles of the centre of Toronto, and the race to be for any age of pigeons; that is to say, birds bred in 1907 to compete with birds of any age. This will be watched intently by many interested in trials of endurance of these little messengers.

Result of the race:

Messrs. G. Whillans, Quickstep, 7 hours 59 min. 3 sec.—617.19 yds. per min.; A. Bennet, Dandy, 8 hours 3 min. 13 secs.—618.48 yds. per min.; J. Norman, Norwood, 8 hours 13 mins. 50 secs.—596.06 yds. per min.; W. Harris, Lady H., 8 hours 19 mins. 20 secs. —591.35 yds. per min.

Travers' Championship.

Short Hills, N.J., June 10.—Jerome D. Travers, the young golfer, or Montclair, who won the metropolitan championship title at Nassau two weeks ago, took the championship on the New Jersey State Golf Association, by defeating Max Behr, of Morristown, in the 36 hole final round of the annual state tournament of Baltusrol. This is the first time that any player has succeeded in winning both titles. Travers beat Behr by 7 up and 6 to play, after being 1 up on the morning round of 18 holes.

NOTICE

The Harbour Commissioners of Montreal hereby call the attention of the public to the following extract from By-law No. 130, which has been approved by Order-in-Council, published according to law, and be of force and effect on and after the 15th June, 1907.

The cargoes of all vessels arriving in the Harbour on and after the aforementioned date, and not removed within the delay given, will be subject to the payment of the additional charges provided by said by-law.

"Goods remaining on the wharves or in the sheds for more than five clear working days after the complete discharge of the vessel from which they have been landed, except as hereinafter provided, shall be subject to additional charges, as follows:

"For each of the first five days, an amount equal to the wharfage paid on said goods, and

"For each of the second five days, double the amount of the wharfage paid on said goods, and

"For each and every day thereafter, five times the amount of wharfage paid on said goods.

"The Commissioners may remove and store at the expense of whomsoever it may concern, all goods not removed within ten clear working days after the complete discharge of the vessel from which the goods were landed.

"Consignees who may claim that their goods could not be removed within the above delay on account of the action of H.M Customs shall furnish to the Commissioners a certificate signed by the Collector of Customs, setting forth the date that their goods were released by Customs.

"Goods requiring to be gauged by H.M. Customs shall be allowed a further delay of four days for removal, in addition to the five days above mentioned, before the additional charge will be made.

"The agent of every vessel discharging in the harbour, the cargo of which is subject to the payment of wharfage dues, shall deliver at the office of the Commissioners within twenty-four hours after the final discharge of the vessel, a certificate to that effect and immediately after the expiry of five days after the final discharge of the vessel, a list of the goods not removed, and their weight or measurement, marks, and the name of the consignees as appear on the manifest of the vessel from which the goods were discharged.

"After the expiry of the delay given for the removal of goods from the wharves, the agent of any vessel shall not deliver to the consignee such goods as may not have been removed, unless said consignee produces a certificate from the Secretary of the Commissioners that the additional charges have been paid, and when the delay granted by said certificate for the removal of goods has expired, the agent of any vessel shall discontinue the delivery of said goods until the consignee produces another certificate from the Secretary that the further additional charges accrued have been paid.

International Athletes.

New Haven, Conn., June 10. — It is officially announced at Yale that a letter received from Oxford University stated that the challenge of the American universities, Yale and Harvard, for dual games would not be accepted. The letter says that the athletes in both English universities are very keen on the idea of international sports, and are much disappointed over the failure to have a meeting this year, but they hope that next spring, before the Olympian games, in London, the men of the four universities may meet and later in the London games also.

Stringer Against Lenny.

Ottawa, June 10.—Young Lenny, of Pittsfield, Mass., and Myer Stringer, of Glasgow Scotland, fought fifteen rounds to a draw before a large crowd of local sports at the Parc Royal, Hull, on Saturday night. The boys weighed in at 122 pounds, and gave one of the cleverest and fastest exhibitions ever witnessed at the weight around Ottawa. Geo. Donaldson, the lacrosse player, was referee, and his decision gave general satisfaction. Lenny was the more aggressive of the two, but the other man proved himself a clever little fellow, and the chap from across the line had nothing on him in knowledge of the game. So well matched were they that neither man secured a knockdown. Stringer claimed that Lenny had butted him in the eleventh round, but the claim of foul was not allowed. The fight will help the game along materially here, and the men may again be brought together at an early date.

Quebec Won.

Quebec defeated Montreal by a score of 1 to 0, in the opening match of the Eastern section of the Intermediate League, on the M. A. A. A. grounds on Saturday, the teams taking the field at the conclusion of the Montreal-Tecumseh match. The lone game by which the Quebeckers won was secured early in the first quarter, and although both goals were in danger a score of times afterwards the ball never entered the net of either team. Y.M.C.A. Defeated Celtics.

Y.M.C.A. defeated the Celtics on Saturday afternoon in a five inning game of baseball, by the score of 8 to 6, at St. Denis Park. The Y.M.C.A. boys started their run getting in the first inning by making four clean hits which, combined with some bad fielding, netted them five runs. Nelson pitched good ball, striking out six Celtic men. Score by innings:—

TOBOGGAN TACTICS BY OUR MR. KITTREDGE

Can Now Converse with Last Place Without Using a Megaphone--Two More Pumps Were Handed Out.

Instead of battling for an honored position in the dizzy heights, Mr. Kittredge's aggregation is making a frantic dive for the cellar position.

The games so far seem to have been lost by punk hitting and an occasional error sandwiched in just at a time when it would do the enemy the most good.

Kit is making diplomatic overtures for a good outfielder and while his name has been confided to The Star, we have promised not to tell, the horrible secret being locked in the bosom of the author of this piece.

The artist in question has acquired some fame for his ability of bumping the ball, and it is artists of this kind that we need in our business.

The whole team has gone through the agonies of a severe batting slump on the road, and the slump by Morgan is the most conspicuous of the lot.

Morgan has been swatting the ball hard, but he hasn't been able to drive it safe.

George Stone, the man who led the American League in batting last year with a big average that had Lajoie faded, cannot hit a balloon this season, and he is said to be a joke.

It is an off day with Stone these times when he does not cash in for a couple of strike outs.

These good things in the batting line frequently blow up, and the men like Wagner, Lajoie and Keeler who are on top year in and year out are few and far between.

Some years ago Toronto captured Louis Carr, the third baseman, late in the season.

Carr started in and murdered the ball. He couldn't miss it. Carr hit them, to right field, centre field and left field and broke boards in the fences. Most of the time his slugging average was around 400.

The Toronto papers went nutty over Carr and hailed him as the greatest ever.

Toronto told us that Lajoie was a counterfeit compared with Carr, and that Carr had forgotten more than Wagner ever knew.

Then came the end of the season and a long winter.

During the cold days of rest Carr must have strained his eyesight reading Ibsen, Henry James and One Eye Dick, the Bad Boy of Death Valley.

The next season Carr had a batting average of about .006, and how he got the 6 part was a mystery.

From champion slugger Carr developed into one of the finest punk hitters in captivity.

That Doc Newton should lose his game to Newark after letting them down with two hits was considered a pure unadulterated line of hard luck.

But there is a tougher case on record than Doc's.

In a recent game between Cornell and Harvard, Deshon, the Cornell curve heaver, did not let Harvard have a single hit and yet he lost the game 1 to 0. A Harvard man got to first on an error and scored on two passed balls.

This case has everything faded in the tough luck department.

Ump Owens' full name is Clarence Birmingham Owens, but with average luck he may be able to live it down.

Mr. Huelsman, who swatted the ball so hard while in Montreal, is playing with Kansas City this year, and is making long hits that astonish the onlookers.

Buck Freeman, in the same League, has made six home runs in the past two weeks.

In a game with Washington the other day, Joe Yeager, who was easily the most popular ball player that ever wore a Montreal uniform, drove in four runs for his team by timely hitting.

Mr. Evers, the star second baseman of the Chicago National league and considered by many the star of the country, has a little trick in baseball that was devised by himself and which has been executed several times on the Chicago grounds. It is one of the prettiest pieces of baseball execution possible when properly carried out and always brings a cheer from the fans. It is simply a plan Evers concocted to prevent a double steal when a runner is on third base and one on first. Here is what he says:

"When I first started playing professional baseball I could not help but notice how often a double steal would let in a run, and often games were won by this method.

It seemed impossible to stop it, so I began thinking up some scheme to get the man. It usually occurs when there are two men out; then with a man on first and one on third, the former would start to steal second. If the catcher threw to second the man on third would race home and the throw was too long from second to get him.

"Then the trick of the second baseman running in behind the pitcher on such occasions and stopping the throw and shooting it back to the plate was started. This worked for a while, but then the runner on third got to sticking to the bag, and as a result the man going from first to second would be safe at second.

"It seemed to me that there should be some means of getting one of these men and making the third out, so I thought of the plan of running in behind the pitcher just as others had been doing and then if the runner at third did not try for home I would relay the ball on to second in time to get the runner coming from first. To make this relay one can lose no time, and it would be almost impossible to turn about and throw the ball to the shortstop, who is covering second base.

"So with much practice I was able to run in on such plays, thus holding the runner at third, and with a goodthrow from the catcher I could take the ball and with the same movementpass it between my knees back to second base in time to nab the other runner.

"The catcher, of course, must make a good throw for the play to be a success. The ball should reach me just above the knees. Kling and myself have practiced for hours on this one play and we have it down now so that it generally works.

"Of course, if the man on third tries to get home I am there for a short quick throw to the plate which should beat him. I think it is a spectacular play when properly carried out and there. is no doubt it is stopping a score and at the same time getting one of the men out."

All the critics are going wild over a shortstop, who plays on the West Point Academy team. He is said to be a wonder.

ROYALS DROPPED TWO TO TAILENDERS

Providence, June 10.—Great work in the box by Mack, together with Stanley's wildness, gave Providence the opening game against Montreal on Saturday.

In the ninth innings the visitors, who had been held down to four scattered singles, went in to make a grand rally. They biffed the ball in great style, and along with a base on balls, they sent in three runs, and had Phelan not been nailed at the plate by Clinton's lightning return the result might have been somewhat different. This throw saved the locals from going to pieces, landing the second man that tried to score on Crawford's weird throw into right field. Mack's support had been perfect up till this.

Stanley was very wild, and three of his five passes proved very costly, as hits followed. The Royals fielded excellently, their only two misplays making little difference in the score.

In the third inning a Texas Leaguer caused a mix-up between Joyce, Needham and Phelan, resulting in Mike being spiked so badly that he will be out of the game for several days.

The Greys started right in. In the first innings Poland fanned and Lord walked, but was forced at second by Chadbourne. Abstein laced out a screaming three-bagger, scoring Chadbourne. McConnell drew a pass and with Abstein worked a double steal, the latter scoring. Clinton singled and McConnell ran in.

In the next four innings the Grays got men on the bases, they were shut out each time by the sharp fielding of the visitors. The Royals also got men on in four cases, but with the same result.

Poland opened the seventh with a strike out, but Lord hit to Brown, but nobody covered the base on the toss and Lord went to second. Chadbourne was passed and Abstein breezed a single to centre, on which Lord scored. McConnell sent Chadbourne to the plate on a pretty bunt.

In the eighth Crawford made a hit and Peterson reached first on the attempt to force Crawford at second. Mack hit to Stanley, who forced Crawford at third. Stanley passed Poland, filling the bases. Lord hit for a base and Peterson and Mack registered.

Herbst started the ninth with a double to left, and Phelan was passed. Morgan hit to Crawford, who threw to right field, Herbst tallying, but Clinton's fast return nailed Phelan at the pan. Connor flied to Crawford. Hill doubled to left, scoring Morgan, and tallied himself on Needham's single. Brown ended the game with three strikes.

YESTERDAY'S GAME.

Providence, June 10.—The Grays defeated the Royals for the second time at Rocky Point yesterday by the score of 6 to 1. There was considerable wrangling with the umpire on both sides, and Kittridge, Hill and Newton were put out of the game and grounds.

It was drizzling all through the game, and when it came down in torrents in the fourth, both sides wanted time called. The umpire refused to do so, saying that if he could stand the wet they could. Manager Kittridge, who was on the bench, became so insistent that he was ordered to bunkey doodle; and when he seated himself in the side grand stand he was again ordered off the grounds. He then retired into the crowd and signalled plays to the team unseen by Mr. Ump.

Up to this point Newton had pitched magnificent ball, having fanned Poland, Chadbourne and Abstein in the first, and forced the Grays out on weak infield hits in the next two. The fourth was a bad inning for him, as the wet ball spoiled his effectiveness. He had another ascension in the sixth, and a wrangle over a close decision at the plate, both he and Hill were chased off the field. Hughes, who replaced him, twirled in fine style as soon as he got going.

The support of the Montreal fielders was very poor, all of the errors being glaring and costly.

Killiam, of Providence, was in grand form and kept the Royals guessing, thus winning his first game of the season. The hits of the Royals were too scattered to be dangerous, and Killiam received gilt-edged support. Montreal had a fine chance with two down to put a cinch on the game in the second, but Killiam's good work goose-egged them.

With two down, Needham hit over first, and Connor scratched a hit to Crawford. Newton hit to Killiam, who turned to nail Needham at third, but found nobody there to take the ball. He then struck out Joyce after giving him three balls and no strikes.

Two fast double plays in the third stopped another rally by the visitors.

Abstein opened the fourth with a single past Needham, and McConnell was hit. Donovan bunted to Newton, who threw to the bleachers, Abstein scoring. The next two were easy, but a ball in Killiam's ribs and four bad ones to Poland forced in McConnell. A base on balls to Herbst in the sixth, Brown's single, and a fly to Donovan gave the Royals their only run.

Donovan singled in the sixth, and Connor threw Crawford's bunt to the bleachers, the runners going to third and second. Peterson flied to Herbst, and Donovan scored. Killiam singled to left, sending Crawford home. Poland flied to Needham, but Lord made a base hit, and while Joyce was fumbling the ball and Needham throwing it over Connor's head, Killiam tallied.

With one down in the eighth, Peterson hit for one base to right, took second on Killiam's out to Brown, and scored on Poland's drive to right centre.

Joyce was all right to play, as his injury was not so bad as had been supposed. Madigan, who took Phelan's place in centre, moved to second, when Hunter Hill was put out of the game.

THE LACROSSE STRUGGLE SATURDAY

THE TORONTO LACROSSE TEAM WHICH DEFEATED THE NATIONALS.
—From a photograph taken specially for the Montreal Star.

HOW TORONTOS BESTED NATIONALS

Toronto, June 8.—There was quite a fair attendance at Rosedale Saturday when the Torontos and Nationals lined up for the initial contest of the season.

There were two changes in the National's line-up since a week ago, Sauve going on instead of Decarie, and Dulude taking Jack Laviolette's place. The Toronto line-up, on the contrary, with the exception of Gilmour, was the same as that which faced the Montrealers two weeks ago, and owing to the presence of the new man, the home was shifted around somewhat. Cameron was placed at third home, and Warwick, the old Maitland player, at inside home.

The elusive Kalls was at outside.

In the first quarter the Nationals got the draw, and made a determined attack on the Toronto goal, which was cleverly relieved. The ball travelled down the field, but did not get near the goal, before it was captured by the Nationals, Sauve starting down the field.

In passing the sphere to Lachapelle it was intercepted by Gilmour, who initiated another attack, but without effect for the moment. After a couple of passes up and down the field Barnett seized his opportunity and scored the first goal after not more than five minutes' play.

The Nationals now played stronger than ever, and were obviously displaying the better form. Their checking was good, and they passed with precision.

Toronto at times evinced a disposition to roughness.

The ball was now largely in Torontos' territory, the local defence being kept busy. Lamoureux secured the ball to the south side of the nets and rushed direct upon the goal. When a few feet away he passed to Laderoute, who was in front of the goal and unchecked.

A goal resulted in tieing the score.

Toronto was off color for the next few minutes and the Nationals got their second goal on a shot from the field by Dulude.

After play had been resumed Torontas assumed the aggressive and attempted to work the ball right in on the Nationals' net. They succeeded; but as Gilmour was passing to Kalls, a few feet out, the ball was captured by the Nationals. In the assault at the opposite, Menary relieved. The quarter ended with the ball in National territory, both teams going fast.

When the teams went on the field for the second quarter it was seen that a re-arrangement of the Toronto home had been effected. Gilmour was placed at inside home, changing places with Warwick, who went to third home, Cameron being brought in to first home.

For some little time Nationals kept the play pretty well distributed. They seemed to enjoy the large field and wasted a good deal of energy in running about to small purpose. The goal scored by Torontos early in this quarter was due to grand stand play on Lachapelle's part. He fooled about in a desire to show his check up. Finally he lost the ball to Gilmour, who made a short pass in front of the goal to Taylor, who scored.

The next goal, also won by Torontos, was the direct result of a combination effected by Gilmour and Warwick. The former worked the ball in on the goal, while the latter at an opportune moment did the needful.

The ball was now mainly in National territory. Kervin secured it, passed to Cameron away down the field, who in turn gave it to Kalls close on the goal. The whole thing was done in a second before L'Heureux could settle himself to intercept.

The Nationals now again displayed a disposition to hold the ball too long. Sauve had the ball and ran all around the field back of the nets with Barnett at his heels. Two or three times he appeared to have got away, but finally he slipped, the ball going to Barnett. Without waiting, the latter passed it rapidly up the field, until it finally reached Taylor, who, the National defence being drawn, shot on the goal, another tally resulting. The Nationals gained the next goal by some good head-work. Laderoute got the ball when he was standing well to the side of the nets at what appeared to be an almost impossible angle.

Without waiting to dodge or secure a more effective point of vantage he shot and scored.

Much ill-feeling was evinced, and several sticks were broken so close was the checking.

In the fourth quarter Torontos got the ball at the outset and commenced an attack on the National game, when a fortunate interception on Clement's part relieved.

Warwick scored after a fast combination on the part of the home.

Mackenzie was now on once more, and the Toronto field was keeping better abreast of the Nationals in similar positions. After several unsuccessful attempts on the part of the Torontos, the ball went down the field, and a goal was scored by the Nationals.

Adele Arrives in Toronto.

Toronto, June 10.—Adele, the Payne-designed craft for the Canada Cup challenge, arrived here and is now moored in the R. C. Y. C. anchorage at the Island.

Adele had several adventures on the trip up. She left Kingston early Tuesday morning, and at daybreak Wednesday morning, when 10 miles from the harbor, and bucking into a stiff head wind, she carried away a spreader. She was immediately put about and ran before it for Port Hope Harbor.

The craft laid in Port Hope until Thursday morning, when a new spreader was put in. Her next attempt, with a fair wind, resulted in another accident to her rigging, and she had to go back to Port Hope again.

She left Port Hope again yesterday, and threshed up against a light head wind, arriving here at 9 o'clock.

Adele, as she lays in the water, is a pretty slippery-looking little customer. With her highly polished mahogany topsides, and silver band at the waterline, she is a picture to the eye of the veriest tyro at the game.

She is just a modern little craft, of the afternoon fast cruiser type. She has no cabin; only an open cockpit, like a racing skiff of the 16-foot class. All her sheets and hallards lead to this cockpit, and her crew will do the major portion of the work right in this cockpit.

Adele looks what Mr. Aemilius Jarvis, who will sail her, said she was, a good one in light airs, and those who brought her up the lake say that she did remarkably well in a light head wind, and that when it blew up fresh she carried her canvas fairly well.

Adele will go on dry dock for a polishing right away, and Mr. Jarvis will take her in hand net week.

ALL-CANADIAN LACROSSE TEAM

In the eighFr-na Ohome shrdl hrdl Winnipeg, Man. June 10.—The All-Canadian Lacrosse Team, which reached here on Friday evening on its way to Australia and around the world, stacked up against the Winnipegs on Saturday afternoon, and were lucky to win out in the few minutes of the last quarter, after having been clearly outplayed during the early stage of the contest. The tourists made a rather poor impression on the crowd. Though their defence was strong, their home was away off color, some of the players being woefully out of condition. The game resulted 3 to 2 in favor of the visitors, the score having stood 2 to 1 against them when the final quarter was commenced.

Boston, June 10. — James Kirraine, aged 11, a caddie at the Brookline Country Club golf links, while illustrating some shots which he had seen made by players on the links, accidently struck another caddie, Wm. Strain, aged 15, in the head with his club, killing him instantly. Kirraine was arrested, charged with manslaughter.

TECUMSEHS LOOK LIKE PROBABLE CHAMPIONS

The Two Toronto Teams and the Shamrocks at the Head at Present—Cornwall Did Very Well in Ottawa—Quiet Match Here.

	Played.	Won.	Lost.	To play.
Shamrock	1	1	0	11
Tecumseh	1	1	0	11
Toronto	1	1	0	11
Montreal	2	1	1	10
Cornwall	2	1	1	10
Capital	1	0	1	11
National	2	0	2	10

Just at present the senior lacrosse situation is not very encouraging.

It looks on the surface as if the Union was already divided into two sections, the first including the two Toronto teams, and the Shamrocks. The last division, Cornwall, Montreal, Capitals and Nationals.

Let no one, however, be discouraged at the presumably gloomy outlook.

The four clubs in the last division are all good finishers, and Cornwall showed up well in Ottawa on Saturday.

The chances are that the four last mentioned teams will be strengthened also, either by changing some of the players around, or putting other men in here and there.

They are a wonderful aggregation in the matter of bulk and weight as well as in the matter of speed.

At present the Tecumsehs undeniably seem to be the strongest team.

They also play well together, a thing in which they were certainly suprior on Saturday last to the Montrealers.

The latter, it was understood, suffered still considerably from the hard game which they had gone through in Cornwall, but whatever the cause, they did not play as well as Tecumsehs.

The pace which the latter instituted at the beginning gave the Montreal supporters hope that they would tire themselves out, but nothing of the kind happened.

They kept right on and scored.

Their defence was particularly good, and firm and not to be drawn out.

That was a weak point with Montreal. Muir and Haynes stuck to their posts all right, but the rest of the Montreal defence was often nibbled at the bait which the wily Tecumseh home threw out, and wandered too far away, with the result that the apparently faster visitors got in and took advantage of the openings thus secured before the local men could get back to close the gaps.

Montreal gradually got wise to this, however, and played more carefully in the latter half of the match

GOOD INDIVIDUAL WORK.

Individually all the Montreal players did good work and hard work, and some of the runs by Roddy Finlayson and Neville and Angus and Dade were admirable, and ought to have been rewarded with earned goals, but somehow or other they seemed to always end in nothing.

Dade did some of his most deceptive twisting and curving, but all without avail.

The entire forward division of the Montreal team would make a combined rush with one or two of the defence men to help them, or even take the lead at times, only to split upon the big Tecumseh defence like breakers upon a rock.

And so it was nearly all the time.

The only two men who scored for Montreal were Scott, who has come to be considered as one of the best men in that particular line, and McGinnis, of Sherbrooke.

The only man who was ruled off was Povey, the other Sherbrooke man, who is playing with Montreal and who somewhat in general appearance and action resembles Scott.

The game was very clean on the surface, but there was some hard bodying going on, and many a rib-cracking, muscle-bruising dig with the end of a stick was given unseen, in the frequent melees that happened near both goals.

As the result, Adamson and Hamilton had to go off. Adamson, right at the beginning of the game, after he had scored the first goal for his side, and Hamilton a little later on.

DOLLIE DURKIN ON DECK.

Dollie Durkin took Adamson's place, and Kenna that of Hamilton.

The officials looked well after the fouls, and the players knew they were doing it, and that they could expect no mercy.

The crowd was large, comprising between six and seven thousand people, and the visitors received a much fairer treatment at the hands of the spectators than Montreal receives at the hands of the Tecumseh supporters when it goes to Toronto Island.

Several times the Tecumsehs were cheered. An unusual thing was to see Clarrie Mackerrow, for so many years a staunch standard-bearer of the team, amongst the spectators.

GRAND TRUNK'S FIRST REGATTA

The spring regatta of the Grand Trunk Boating Club took place Saturday afternoon at their usual place at Point St. Charles. Although the weather proved very unsatisfactory, the different events were carried on in the regular manner, and the affair proved very successful under the circumstances.

The sailing race was the first event on the programme ,but on account of the slackness of the wind had to be postponed. The junior single was run in its place The competitors of this race were G. Patterson, G. Marshall, R. Glass, W. L. Ferguson and A. Marshall. Marshall and Patterson kept well ahead of the others from the start and continued their gait for about three-quarter ways up the course.

All turned the buoy pretty evenly, Ferguson then made great efforts to win the race, which he successfully carried out, but won with a close finish. Glass followed closely and won out by about a foot. A. Marshall was about three boat lengths behind.

The wind by this time showed up a little, and the sailing race started. The following boats competed: The Thelma, owned by John S. Walker; The Turk, owned by Geo. Noel; The Murad, owned by T. Bentley; Tartar, by A. Payne; Psyche, by J. Carmichael; Idaho, by R. Laing, and The Talbot, owned by H. Glass. As soon as the last gun was fired, the Talbot took the lead, and the other crews followed closely, except the Idaho and the Psyche, who kept prowling around the starting line until a heavy rain fell.

The Talbot kept her course up well from the first, and the Thelma followed by about four boat lengths. The Thelma kept gaining upon its prey inch by inch and overtook her while crossing the current to the first buoy. The Thelma kept up the lead and passed the second buoy. The wind then collapsed completely and caused a lull which caused the race to be called off.

The Senior Single was then run, which consisted of W. Brownrigg, and G. Kelly. They were well matched men and kept even during the greater way of the course. Brownrigg won easily at the finish by about fifteen feet.

The Pair Oar race was won by Messrs. Marshall Bros. ,who had as their only opponents the Reid and Duncan crew.

The Junior Tandem Canoe was won by Marshall and Glass, followed closely by the Beattie and Trigg crew. The competitors for this race were: Messrs. Marshall and Glass, Ferguson and Clements, Roland and Brownrigg and Beattie's and Laing's crew.

Junior fours—Won by Kelly, Brownrigg, Cullinan and Heard.

Four-oar working boat—Won by P. Marshall, A. Marshall, O. Brownrigg and G. Auburn.

Single double blade canoe—Won by O. Brownrigg; G. Patterson, second.

Four in canoe, handicap—Won by Glass, Ferguson, Beatty and G. Marshall.

Senior tandem—Won by Brownrigg and Brown; Kelly and Broderick, second.

War canoe — Won by A. Marshall's crew.

THE PRINCE AND THE UNITED STATES.

The journeying through Canada of Prince Fushimi is giving our people an opportunity to show how highly they esteem the Japanese people and their ruling family. This, however, will be quite in the line of the expected. Canada is British, and our inclinations run in harness with our diplomatic duty. All over the British Empire, the alliance with Japan is popular; and no one who has taken any pains whatever to acquaint himself with the international situation can doubt that it is good statesmanship.

It is a pity, however, that the Prince cannot include the United States in his trip just at this juncture. If he were to appear in any American city east of the Rockies, it is safe to say that his reception would be quite as enthusiastic and as genuine as it has been in Quebec and Montreal, and as it will be in all the other Canadian cities he is to visit. The American people gained a great admiration for the Japanese during the Russo-Japan war; and nothing has happened outside of California since that date to change their feeling.

At a time when superficial observers are predicting the terrible crime of war between these two powers, whose purposes in world-politics are so nearly identical, it would have been a capital national tonic to have seen great crowds on Brodway, in Boston, Philadelphia, Washington and Chicago cheering a Prince of Japan. Such a spectacle would have presented an object lesson in the real feeling of the great mass of the American people at this time. They know that the Californians are wrong, and they are exasperated at their fellow countrymen on the Pacific Coast for getting them into diplomatic hot water with the leader of Asiatic development at this critical period.

This is an occasion, however, upon which the American people can show that they are the masters in their own house. They want peace with Japan; and they ought to realise that they must enforce sufficient national solidarity to make that peace secure by the good behaviour of all their citizens. "States Rights" is a fine doctrine in many ways. The large measure of "home rule" that the States enjoy undoubtedly makes for freedom. But the attitude of a nation toward a foreign people is a national question, if there be any such; and it ought to be as much the business of the Federal Government to take measures to keep the peace as it undeniably is to wage war when that unhappy necessity arises.

CHOOSING PRESIDENTIAL CANDIDATES.

A lot of people in the United States are trying to find candidates to replace Roosevelt and Bryan—the two candidates whom the people want. Roosevelt is helping those who are striving to get a substitute for him; but the managers who think they are running things do not like his help any too well. Taft was bad enough when he was simply the heir to the Roosevelt policy; but now that he has come out for tariff revision, he is still more undesirable in certain quarters. Knox, of Pennsylvania, is being pushed to the front; Hughes, of New York, is kept in mind as a man who can be taken if nobody more docile turns up; and even "Uncle Joe" Cannon is kept in harness in case he can be smuggled through.

In the Democratic camp, the "managers" are talking of side-tracking Bryan by becoming a Southern candidate. It is high time, they say, that the party recognised the "solid South," which has always proved faithful to it through good and bad weather, without ever once being permitted to nominate a standard-bearer. Several Southerners are mentioned, such as Judge Gray of Delaware; Senator Daniel, of Virginia, and even Senators Bailey and Culberson. In the West, there is Johnson, of Ohio, and, in the East, Douglas, of Massachusetts. The demand that the South be given a chance is a telling cry; but its weakness just now is that the South can put forward no national figure likely to command general support. If Folk, of Missouri, were mentioned, he would go farther than any of those spoken of yet; but Folk is probably for Bryan.

If Roosevelt and Bryan should run against each other, the "safe and sane" section would feel inclined to take to the woods. They would hardly know which to choose—the radical who can do things, or the more-so radical who would probably be tied up by a hostile Congress. The people, however, would not be losing much asleep over this predicament. They would vote in the way that their party proclivities indicated, feeling certain that "predatory wealth" was in for some severe jolts in any event.

FOWLER AGAIN.

Mr. George W. Fowler is reported as saying that two more Federal Ministers will resign as the result of his insinuations. This can only be if Mr. Fowler intends to be more explicit, or if some one else completes his work for him. But it will be hard to make people believe that Mr. Fowler intends to bring his charges down to details until he does so. The common impression, based upon Mr. Fowler's statements in the House, is that he desires merely to prevent the discussion of what he terms his "private business" by holding over the party, which might be tempted to discuss it, menacing threats of terrible reprisals. Now if he empties his gun—if he prematurely exposes the men whose silence he is endeavoring to secure—what will there be to keep their tongues silent afterward?

Let us suppose that Mr. Fowler lays his famous "data" before the country, and we all get to know all that he claims to have learned by diligent enquiry. The result may be disastrous to some of Mr. Fowler's political opponents. But where will Mr. Fowler stand? Will he not be the man with the emptied revolver at the mercy of his enemies? When they pick up the report of the Insurance Commission and show a disposition to discuss Mr. Fowler's "private business" callously enquired into by that body, what threat can Mr. Fowler then brandish in their faces to keep them quiet? He will be an exploded mine.

"But yesterday the word of Caesar might
"Have stood against the world; now lies he there
"And none so poor to do him reverence."

Now is it likely that so astute a politician as Mr. George W. Fowler will voluntarily leave himself naked to his enemies? Of course, being a practical public man, he may know the value of continuous publicity, and be willing to keep the public talking about him by every now and then stirring up the nauseous mess with hints at further revelations. This is good politics for George. This enhances his prestige, and advertises him as the man of whom the Government is afraid. But it is quite a different thing from firing off all his ammunition and sinking into the class of men who were once formidable but who may now be battered with impunity.

Of course, Mr. Fowler may have had a qualm of patriotic conscience, and may have consequently come to see it as a duty to clear out of public life any men whom he knows to be unworthy to remain in it; or he may be aware that some pluckier man is about to do his duty for him. But this is a case in which "seeing" will be "believing."

THE ST. HELEN'S ISLAND PURCHASE.

In any discussion touching the proposed purchase of St. Helen's Island by the city, the aldermen should satisfy the public on two points:—(1) why we should buy a property, the use of which we get for nothing, and (2) that, if purchased, the Island will be made fully and safely available for all the people, for all time. If the Federal Government is likely to sell the Island to anyone else, then, of course, the case for its purchase by Montreal is a strong one; but if we are to be permitted to use the greater part of it in perpetuity for nothing, then those who advocate purchase surely should give their reasons.

Again, at present, the Island is practically useless to the great mass of the citizens, because of the difficulty of getting to it. The ferry service has been neither regular nor of an assured safety to command public confidence.

Then the access to the ferry slip is both difficult and unattractive. A street car line should be run right to the wharf, and the service should be frequent enough to tempt citizens to take the outing. The Island, if properly equipped with ferries and other desirable facilities, ought to be as attractive a summer breathing spot as the Mountain. Its baths in the cool St. Lawrence are immensely refreshing as it is; and the tang of river air which the visitor may get there on a summer's day is a restorer of vigor and good spirits. By all means, let us make the most of the Island; but let us not consent to pay something for nothing, nor to sink money in a public park to which the people cannot get.

It is precisely like the City Council to permit a system which had justified itself so strikingly as the medical inspection of school children to lapse for lack of a few dollars. That children will sicken and die because of this neglect is all too probable; but when the City Council has uttered the cabalistic "No Funds," it invariably imagines that it has disposed of the last objection to any policy or lack of policy. The citizens, however, will not be content to go into the school term next autumn without a new provision for the continuation and even the strengthening of this system of medical inspection. Experience here and elsewhere has established the fact that it is a life-saver; and it is a common belief that the lives of school children are far more worth saving than the dollars in the civic treasury.

There is one point of which these animal story controversialists seem to lose sight; and that is that a story is not supposed to be the account of an extraordinary and accidental act on the part of a human or other animal, but of a typical act. This is especially true in dealing with the animal world where we cannot pretend to cover the entire field. It is not enough to show that at a certain time an animal did do the remarkable thing recorded in the veracious romance; but it ought to be shown that under somewhat similar circumstances the animal would always try to do it. A remark of Robert Louis Stevenson to Barrie in regard to an incident which the latter related in one of his stories, illustrates this point. Stevenson said that the incident was untrue, that the character in question would not naturally do it, and that he was surprised to see a writer of such true instincts as Barrie use it; but he could only account for the mistake by supposing that "it must actually have happened."

Another Law Then?

To the Editor of the Montreal Star:

Sir,—After reading your article on the first page of last Saturday's Star, headed "Neighbors Damaged; No Recourse," I was a little surprised, and I was all the more surprised when I read the next few lines: "The aldermen are too busy to enact nuisance by-law to protect citizens." The reason for my surprise is this: In 1896 my father was constructing a building on Craig street, and as it was necessary to demolish the old one before the new one could be erected, as in the case of the Temple Building, but on a good deal smaller scale, dust filled the air. On either side of our building were neighbors. They sent a complaint to the then building inspector I think his name was Lacroix, and the result was that my father was forced to put up a fairly high fence and have a hose to pour water on the debris as it came down the chute to avoid dust. Now, why, was my father forced to minimize dust in 1896, and the man who does demolition work in 1907 get away so easy because there is no law enacted for such offences? Why was there such a law in 1896? Surely laws that were good eleven years ago should still hold good to-day. I am writing these few lines to silence my conscience, which has been troubling me ever since, and which, so to speak, rebels at me when I pass buildings that are being demolished amidst clouds of dust—and nobody says anything.

Why Not Coal Oil?

To the Editor of the Montreal Star:

Sir,—I have been reading a good deal for the last couple of years of the effort of the aldermen of the city to get cheaper gas from the Gas Company, and now all their efforts have gone for nothing. Why will not the citizens take a hand and settle this vexed question? The Gas Company holds the monopoly of lighting the streets and public places in Montreal. The citizens are not bound to use gas in their respective residences; why not use coal oil, which will be about forty per cent. cheaper?

A READER.

THIS DATE 30 YEARS AGO.

June 7th, 1877.

A most disastrous fire occurred at Hull at an early hour this morning, which destroyed about fifty thousand dollars' worth of property owned by Mr. E. B. Eddy, the lumber merchant. Over 150 000 feet of red pine and 20,000 bundles of laths and forty-three horses were consumed, besides the factory, stables and out buildings.

THE City of Hull is famed for its many costly fires in the lumber factories and mills. Only a few years ago the while city was almost wiped out. The late Mr. Eddy was one of the wealthiest lumber manufacturers in the Dominion. He passed away last year.

William Workman.

Yesterday afternoon Mr. William Workman, the president and sub-committee of the Protestant House of Industry and Refuge visited the "Thomas Molson Farm" to select a site for a large country home for the aged inmates of the institution. A very good spot was selected about three hundred yards from the road, and every effort will be made to put down the foundations of the proposed building this fall.

THE late Mr. Thomas Molson was one of the founders of the House of Refuge, and one of the most generous benefactors of this charitable institution. The late Mr. W. Workman took the greatest interest in the long-projected and much-needed improvement being carried to completion, and he certainly never spared himself to this end, as he and other philanthropic citizens believed that it would be an incalculable boon to many aged respectable people past the age for earning a living by honest toil. The Home is near Longue Point.

The hotel-keepers of the county of Missisquoi have resolved to again test the validity of the temperance by-law. This time the action will be brought before the Hon. Judge who originated the act.

THE late Hon. Christopher Dunkin, of the Superior Court, was the father of what is known as the "Dunkin Act," and had it passed while a member of Parliament. He was a member of the first Federal Government at Confederation, being Minister of Agriculture from November, 1869, to October, 1871, when he was appointed to the Bench.

Alexander Buntin

Mr. A. Buntin left last evening for Quebec to take passage by the steamer for Liverpool. He intends being absent a couple of months on business, and will also enjoy a vacation visiting relatives and friends in his native land, Scotland.

THE late Mr. Alexander Buntin was a very extensive and successful paper manufacturer, with large mills at Valleyfield, and in the province of Ontario. He was one of the largest shareholders and a director of the defunct Exchange Bank, and a very heavy loser by the failure of that financial institution, as he supported its stock at the top figures, when "blue ruin" was floating around it, and he subsequently suffered for his partiotism to his bank. He has been at work the many years.

REPORT ON CHURCH UNION HAS BEEN PRESENTED BY THE GENERAL ASSEMBLY

The first deliverance made before the Presbyterian General Assembly on church union, was uttered by Principal Patrick on Saturday morning. The statement was preliminary to the debate set for this afternoon.

The deliverance was a summary of the report of the committee which has been conferring with other churches during the year.

The substance of the recommendations of the committee is that the Assembly receive its report and send it down to the synods, presbyteries, and sessions for information and with a request for suggestions, which are to be sent to Dr. E. D. McLaren. The report expresses gratification at the brotherly answers made by the Anglicans and Baptists to the overtures of the joint union committee, and recommends that committees be appointed to confer with these churches. The committee will also receive suggestions on the curriculum and location of the theological colleges.

ACTION RECOMMENDED.

The committee asks the Assembly to authorize action as follows:

"(1) That the executive committee be empowered to choose a committee of fifteen to confer with any delegation that may be appointed by the Church of England on the question of the union.

"(2) That a committee of seven be appointed to meet any representatives which the Maritime Union of Baptist Churches may choose to discuss the question of federal union. The committee to consist of three Presbyterians, three Methodists, and one Congregationalist, to be chosen by the separate delegations at the close of this session.

"(3) That the Union Committee empower the executive to choose a committee to meet and confer with representatives appointed by the Baptist Union of Ontario and Quebec."

In conclusion, "the committee desire to place on record their sense of the frank, brotherly and judicial spirit by which the deliberations of the joint committee have been distinguished and their thankfulness for the solid progress which has been made. They are of opinion that the labors of the joint committee have now reached a stage at which these would benefit by such suggestions as members of the negotiating churches, conversant with the special topics, might be able to furnish."

The next session of the joint committee of the negotiating churches will be held in Toronto on Wednesday, September 11.

REPORTS FROM COLLEGES.

The balance of the morning session was devoted to college work. Pine Hill College of Halifax came first, and the Assembly heard a striking address from the new principal, Dr. Magill, in which he declared against the New Theology for two reasons: First, because it was not new and second because it was not theology. The principal balanced this declaration with the claim for himself and all Presbyterian students to examine all schools of thought, though he and his colleagues at Pine Hill held Christ as the central fact of history, "his person divine and his death our atonement."

The appointments of Prof. Magill as principal in succession to Dr. Falconer, who goes to Toronto, and of Rev. J. W. Falconer, a brother of the former principal, to the chair of New Testament Greek and Exegesis, were approved by the Assembly.

"INSURANCE BUSINESS."

Principal McLaren, of Knox, reported a loss on investments of college funds made by the late treasurer of the church, Dr. Warden. The board was, however, convinced that investments had been made with the greatest care and with a view to the best interests of college, and would therefore make no effort to recover the loss from the estate of the late treasurer.

The regularity of these investments was discussed shortly and differences of opinion arose as to their legality under the charter of the college. The Moderator stated that if some illegal investments had caused loss, others perhaps not legal, had been unusually successful.

"Insurance business," commented a commissioner.

The morning sederunt concluded with adoption of the reports of Knox and Manitoba colleges.

WHAT INVESTMENTS WERE.

The report of the auditors of the college accounts, John Mackay & Co., throw light on the investments of the late treasurer. In general the auditors advised that the securities held, particularly in mortgage and real estate, should be revalued, with the added declaration that without such a revaluation they are unable to accept any responsibility for the stated intrinsic value thereof.

The general endowment fund investments as given in schedule "A" of the auditors' report, in addition to real estate, mortgages, municipal and school debentures, shows the following bonds, with ledger values:—

Port Hood, Richmond Railway Coal Company, Limited, $4,500; Trinidad Electric Company, Limited, $1,829; Toronto and York Radial Railway Company, $6,173.

The fund has also $10,000 invested in Metropolitan Bank stock, in which Dr. Warden was present.

The scholarship endowment fund investments, in addition to mortgages, municipal and school debentures, show the following bonds, with ledger values:—

Niagara Falls Power Company, N. Y., $4,157; Trinidad Electric Company, Limited, $2,757; Nova Scotia Steel & Coal Company, Limited, $1,000; Dominion Coal Company, Limited, $9,899; Electric Development Company, of Ontario, Limited, $4,524.

The library endowment fund investments, as given in schedule "C" of the auditors' report, in addition to mortgages, show the following bonds and book values:—Imperial Rolling Stock Company, Limited, $989; Toronto and York Radial Railway Company, $4,145; Dominion Coal Company, Limited, $4,959.

The auditors say: "No provision has been made for loss on the investment in the Port Hood Richmond Railway Coal Company, Limited, which stands in the books at $4,500. These securities were substituted for $5,000 Port Hood Coal Company, Limited, bonds under a reconstruction scheme arising from the insolvency of the latter company.

"Certain securities held by the college are registered under names other than that of the corporation itself."

During the presentation of the reports from the colleges frequent references were made to the appointment of Principal Falconer to the presidency of Toronto University. High tributes were paid to Principal Falconer's work at Halifax, and Toronto was congratulated in obtaining his services. The feeling of the Assembly in the matter was voiced in enthusiastic applause.

On Saturday afternoon 300 members of the Assembly paid a visit to the school at Pointe aux Trembles. During the afternoon a sum of $700 was contributed by voluntary subscribers for the work of French evangelization.

DR. CHAMBERS APPOINTMENT.

He Leaves Pulpit to Take Governorship of Toronto Jail.

Toronto, June 10.—Rev. Dr. Chambers, pastor of Parliament Street Methodist Church, received official notification of his appointment as governor of Toronto jail, in succession to G. R. Vanzant. His four years' term in the Parliament street church expires this month.

Dr. Chambers was born in Ireland, and came to Canada in early boyhood receiving his education chiefly in Toronto. For some years he taught school, and finally entered the ministry, his ordination taking place in 1868 at Kingston. Twenty-five years of the period since then have been spent in Montreal, Quebec and Toronto Churches, and for one year he was president of the Toronto Conference. Dr. Chambers is also a graduate in law of McGill University.

The office carries with it a yearly salary of $2,000, free house rent and lighting.

He Stirred Up a Hornets' Nest.

Sunday was only ten minutes old when a revolver shot broke the comparative stillness reigning in Craig street. The report fell upon the ears of Special Constables Foucault and Bellefleur, who immediately rushed in the direction of the sound. Near the corner of St. Alexander street they observed an excited group of Italians, who were waving knives in the air, and creating a considerable disturbance. One of them was flourishing a revolver, but he ran off as the constables approached. The officers found Mr. John Fitzgerald, proprietor of Stillwell's, on the ground, badly bruised and crying for help. He had gone out to ask a crowd of Italians, who were loitering, on the corner, to move off, when they set upon him. The revolver bullet missed him.

Canadian Handicraft's Work.

In preparation for the Exhibition of Women's Work to be held shortly in Melbourne, Australia, the Canadian Handicraft Guild of Montreal is collecting materials. The Guild was formed for the purpose of encouraging home industries, like lace-making, fine needlework, wood work, etc., and is making great efforts to secure an exhibit worthy of Canada.

The Cassandra Sailed for Montreal.

The Donaldson liner Cassandra sailed from Glasgow for Montreal on Saturday, carrying 226 cabin and 730 [illegible] passengers.

IN LABOR CIRCLES.

At Saturday night's meeting of the picnic committee of the Plumbers' and Steamfitters' Union it was decided to hold the annual outing on August 3, at Otterburn Park.

The National Coopers' Union will hold an open meeting, at No. 3 East Craig street, on Tuesday evening, to arrange matters in connection with the coming Labor Day celebration. They will turn out with the National Council.

The local labor men have been notified that the overtime law, which it took the labor people of Massachusetts 12 years to have adopted, is now in effect. It provides that women and children in textile establishments shall not be allowed to work in such between 6 o'clock at night and 6 o'clock in the morning.

According to a report received by the labor leaders the American Federation of Labor controls a membership of 1,949,300, which does not include railway organizations and other important associations that do not affiliate with it. It has 119 national and international unions and 27,000 local unions, the result of unionism since the first convention of the federation in 1881.

The Labor Day Committee of the Montreal National Trades and Labor Council is making arrangements with the view to having one of the largest demonstrations since the formation of their organization several years ago. The picnic will be held at Sohmer Park this year. The committee state that no foreign flags of any kind will be allowed in the line of march. All badges and regalia will be made in Canada and everything in connection with the celebration will be distinctively Canadian.

The Canadian Northern's Shops.

The Canadian Northern have not yet decided where they will build their shops, and it is not likely that they will do so for some time to come. The shop for the maintenance of cars and locomotives will be built at Vaudville for the Canadian Northern and Quebec road, and the Quebec and Lake St. John shop will be built at Quebec. These are simply for the purpose of housing and repairing the cars and engines and have nothing to do with the construction of them.

100,000 British railway servants work from twelve to fifteen hours a day.

DEDICATION OF MEMORIAL WINDOWS AT ST. MARY'S.

A very affecting service was held, yesterday, in St. Mary's Church, Hochelaga, when the two memorial windows presented in memory of the sixteen little victims of the Hochelaga school fire and of Miss Sarah Maxwell, were dedicated.

The windows, which were presented by the children of the Sunday school and by the congregation, are of stained glass, in striking designs. The Maxwell Memorial, being an allegorical representation of Love, consists of the figure of a woman with a little child in her arms, another nestling at her feet, and bearing the motto: "The greatest of these is Love." Just under the window is the inscription: "To the glory of God and in loving memory of Miss Sarah Maxwell, principal of the Hochelaga Protestant school, who gave her life to save her pupils in the burning of the school building, February 26, 1907."

The children's window is a representation of the Good Shepherd carrying a lamb in His bosom, with the quotation from Isaiah: "He shall gather the lambs in His arms—He shall carry them in His bosom"; while underneath are the words: "To the glory of God and in loving memory of the sixteen little children who met their death in the burning of the Hochelaga Protestant School, February 26, 1907."

Many of those present were relatives and friends of the little ones and their beloved teacher. The service, which consisted of matins and the celebration of the Communion, was conducted by the Rev. Henry Jekyll, rector of St. Mary's. Special music was rendered by the choir.

Rev. Dean Evans, who delivered the sermon, preached from the text:—"He cannot come to me, but I shall go to Him," making touching reference, in the course of his remarks, to the tragic disaster which had given rise to the memorials and to the beautiful life and example of her who had given her life in trying to save her little charges.

The Verdict Was Accidental Death.

"Accidental death" was the verdict returned by the Coroner's jury at the inquest to-day into the death of John Wilkins, who fell from a pay-as-you-enter street car of the St. Denis line on Saturday. The man had been standing on the steps smoking, and those who testified thought that he must have fallen from the steps as a result of a sudden jerk at one of the switches. Wilkins is survived by a widow and six small children.

The two crimes which are decreasing most are [illegible] and coining.

"THE WOMAN'S CORNER"

ABOUT TOWN

A Pretty Costume.

What a treat it is for the eyes to light upon a really well-turned-out girl or woman! Be she young or old, so long as she is smart and neat, she gives delight to the beholder. Unfortunately such persons are few and far between, and one may wander about all day without setting eyes on any one particularly well-dressed woman. A few days ago I had the good fortune to meet coming towards me the smartest and triggest little lady I have seen for many a long day. She was young and slight and pretty, with the prettiness that comes from freshness and daintiness. Her fair hair was exquisitely done, not a hair out of place, and her girlish figure was clothed from head to foot in one of the new browns.

There is a perfect craze for all shades of brown this year, running the gamut from a dark brown through the cigar and cinnamon shades to bronze and copper, and finishing up on the palest biege for dress occasions. This costume was a bright clear brown, a trifle lighter than cinnamon. The skirt was pleated, and cleared the ground well all around. The jacket was tight-fitting, and neither long nor short, but something between the two. It was fastened in front with three fancy buttons, and—distinctive feature—it was braided all over, back, front and sleeves, with a fine braid the exact color of the cloth. With this was worn a brown crin hat, bent up in mushroom shape, with a couple of drooping brown plumes at one side. Brown gloves and a lacy lingerie blouse completed this striking and pretty costume, excellently well illustrating what can be accomplished by sticking to one color.

The Latest In Portraiture.

A revived fashion in portraits is creating a social stir by their beauty, and a certain artist has achieved an immense success. They are painted on porcelain with water colors, and framed with a glass over them, as the colors otherwise would be liable to injury. As many as five portraits were painted to order by this artist, so much talked of, for a certain beautiful woman, socially very prominent in New York. For children's portraits the effect is of the happiest.

A Whim in Jewellery.

Quite the very newest fad in demi-toilette or day jewellery is the wearing of a black satin ribbon chain, upon which are slipped a number of diamond slides in miniature size, but set with real stones, and all of fine workmanship. The ribbon is arranged double, so that there are two narrow ribbons running through each slide.

Fashion Hints.

White belts of either soft kid or linen with brass buckles are most popular. They serve to keep the waist line long when white blouses are worn.

The mushroom hat is again among the favored shapes for summer wear, but is not as much drooped as that worn this spring; it has, however, a higher and more positive crown. The tilted look that many of the hats have is given only by the way the crown is made, as the bandeau is but a narrow rim when any at all is seen.

Lingerie hats of sheer embroidered muslin with brim edges of leghorn straw are among the latest hats for early summer wear, and are beautifully trimmed with flowers and ribbon.

From Our Readers.

Washing A Linen Frock.

Dear Madame,

Would you kindly answer the following: How can a natural-colored Irish linen dress be washed and ink-stains removed without destroying the color? I understand the natural colored linen becomes discolored if washed in the usual way.

INQUIRER.

As far as I know Irish linen washes beautifully. By the natural color, I suppose you mean the unbleached, and I see no reason why it should discolor. Have you not a small piece that you can try? Ink stains can be removed by salts of lemon, although sometimes it requires a great many attempts to do so successfully. Ink stains should always be attended to at once, for every day they remain in makes them harder to remove. If taken at once, boiling water poured on the stain from a height is the best way. I should advise you to wash your dress, and if it is not successful, why not have it bleached white?

The Day's Little Story.

Mother—I don't see how you got Willie to turn the ice-cream freezer. I offered him ten cents to do it, and he scorned it.

Father—You didn't go the right way about it. I bet him five cents he couldn't turn it for half an hour, and he took me.

Vessel Crushed Between Ice.

North Sydney, N.S., June 10.—Crushed between immense ice clampers, the French fishing schooner Loraine, commanded by Captain Biebourdais, sank about 30 miles off Low Point. So suddenly did the thing happen that the captain and crew of 18 men had a hard time to escape with their lives. The men managed to secure their dories, and were picked up by the schooner Fauvette, Captain Lepage.

Designs by May Manton.

5678 Cape Eton. 5676 Nine Gored Plaited Skirt.

PONGEE COLOR WITH BROWN.

Unquestionably pongee color is to be a pronounced favorite throughout the entire season, and very fascinating are many of the costumes made thereof. This one combines the favorite Burlingham with bands of light brown silk and is worn with a collar of embroidered muslin that gives an exquisite touch of daintiness to the whole. The little wrap is one of the prettiest of the summer, and is eminently graceful as well as ideally comfortable to wear, while the skirt gives the double box plaited effect that is so well liked just now. The light brown on the pongee color is a favorite combination and an exceedingly beautiful one, but while there is a great tendency toward the use of browns and tans in all shades, they are by no means the only colors worn. Reseda is a favorite; there are some shades of grey that are exceedingly beautiful and much in vogue, while many blues are to be noted, and again pongees of all sorts are to be found in an almost infinite variety of checks and stripes. For these last the material itself cut bias or cross is the preferred trimming, but for the plain colors there seems to be equal favor shown bands of the same and of contrasting color. The little cape is simplicity itself, the sleeves being formed by straps under the arms, so that it can be slipped on and off with the greatest possible ease. In addition to the pongee, all the seasonable suitings will be found appropriate. Linen would be exceedingly beautiful and exceedingly useful so made for the later season, while for immediate wear such light weight fabrics as voile and marquisette are to be commended. For the medium size will be required, for the cape Eton 2 yards of material 27 or 1½ yards 44 ins. wide; for the skirt 11¾ yards 27 or 6½ yards 44 inches wide.

A May Manton pattern of the cape Eton, No. 5678, sizes 34 to 42 ins. bust, or of the skirt, No. 5676, sizes 22 to 30 ins. waist, will be mailed to any address by the Fashion Department of this paper on receipt of ten cents for each. (If in haste send an additional two-cent stamp for letter postage, which insures more prompt delivery.

WOMEN THE WORLD OVER

A Woman Sculptor.

Interest all over the world has been much aroused in the sad fate of Edward MacDowell, the gifted American musician and composer, whose work has been brought to an end by a tragic and incurable illness. A movement has been set on foot in the States not only to provide for his wants while he lives, but to establish a memorial to him. This memorial has taken the form of a three-quarter relief and a bust, and both are the work of a clever young sculptor now living in New York, Helen Farnsworth Mears. Miss Mears was born in Wisconsin, and her mother, Elizabeth Farnsworth, has won some celebrity as a writer, which talent is inherited by a sister. Her father, who is of Scotch descent, has a decided artistic bent, and it is probably from him Miss Mears inherits her talent.

From the time she was a small child Miss Mears began to model in clay, and first came before the public by an order for the Wisconsin building at the Chicago World's Fair. At this time she had been studying for but six weeks at the Chicago Art Institute. The career of Miss Mears shows what a clever and determined young woman can accomplish in a difficult field.

To Make Tea Properly.

Tea, coffee and cocoa all retard gastric digestion. Tea is taken to so great an extent and is capable of doing so much harm to the digestive and nervous systems that it is highly important that it should be properly made.

The water should be freshly boiled; the teapot heated so that the water will be maintained at the boiling point; one teaspoonful of tea to the cup should be allowed. The tea must not steep longer than four or five minutes; if it steeps longer than this, too much tannic acid and bitter substances are extracted, and the bolatile oil, to which much of the fragrance of a good cup of tea is due, is dissipated. When the process is complete, the tea should be poured into another teapot. Sugar detracts from the healthfulness of the beverage.

Olga Nethersole in Paris.

Olga Nethersole's Paris season, long expected and several times deferred, has begun at the Theatre Sarah Bernhardt. A cable despatch says that she "received a warm personal welcome from a crowded house," and that the house was filled with Americans. She intends to give eight performances, challenging Mme. Bernhardt on her own ground by playing "Camille" and "Adrienne Lecouvreur."

Nordica's Opera House.

All musical women are intensely interested in the announcement that Nordica will establish on the Hudson, near New York, a Bayreuth in America. It will be to this side of the ocean that Wagner's institution is to Europe. An American school of music where young men and women will be taught by the best masters is included in the scheme. The site for this great undertaking has already been purchased. Mme. Nordica has this to say of her venture:

"Call my object philanthropic or what you may, but the idea of founding here in my own country an Ameriotn Bayreuth has been my life's ambition. All the years I have been singing I have dreamed of such an institution. Now I am able financially to start this great project which I know will be an institution which after I am dead will continue to grow and enlighten the people of this country, who are now awakening to the benefits to be derived from a musical education such as was not dreamed of ten years ago. In this plan of mine, I am assured of the hearty co-operation of men and women of wealth. The latter years of my life I hope to give entirely to seeing the great institution grow until it can have no rival.

Rag Rugs for Summer Cottages.

If you are contemplating a rag rug for your summer cottage, bear in mind that for the black stripes, stocking legs are invaluable, and a practical use is found for what otherwise would be thrown away. These rugs, too, by the way, are entirely in keeping with the rush bottom chairs that are so sought for bedrooms, and it is surprising what the rag-bag will yield up towards making a very attractive bit of coloring. Each color is wound in a separate ball, and the pieces cut in narrow strips and sewed lightly end to end, and the weaver computes both his charge for making and the length of the rug by the weight of the balls so formed. As the cost of such a rug is but nominal, it is well worth considering and planning to have woven.

For the Woman Who Does Her Own Work.

It is well to take an occasional hour to watch one's self to discover whether unnecessary motions are taken in doing any piece of household work. For example, perhaps when you are washing the dishes you can save time and steps by passing them directly to a stable near the dish cupboard. Or, perhaps the flat-irons, which you use only once a week, are in the most accessible part of the kitchen, and some articles used every day are at a more remote corner, requiring a special trip to reach them. In the aggregate of three hundred and sixty-five days' work the unnecessary expenditure of time even in such small details will be expensive.

15 YEARS OF TORTURE

Itching and Painful Sores Covered Head and Body.

CURED IN A WEEK BY CUTICURA

"For fifteen years my scalp and forehead was one mass of scabs, and my body was covered with sores. Words cannot express how I suffered from the itching and pain. I tried many doctors and treatments, but could get no help, and had given up hope when a friend told me to get Cuticura. After bathing with Cuticura Soap and applying Cuticura Ointment for three days, my head was as clear as ever, and to my surprise and joy, one cake of soap and one box of ointment made a complete cure in one week. WOMAN IN FIRST PLACE.

Prince Albert, Sask., June 10.—The rush for Doukhobor homesteads is keeping up, though in the last day or two there has not been such large crowds competing for places at the door of the land office. A widow woman recently arrived from Russia had first choice of homesteads on Saturday. She squeezed into the pen outside the door overnight, and was apparently quite prepared to spend the night with the men who were also waiting for homesteads, but they agreed to allow her first place, and, after securing a policeman as witness to the bargain, she went away to sleep.

REAL CLUNY LACE GOODS

FOR BRIDAL GIFTS

We are showing a direct importation of lovely real hand made Cluny lace goods, than which nothing could be more appropriate or acceptable as a gift to a June bride.

Styles and prices offer a wide scope to the means of the individual for choosing a set, including Doylies, Centres and Bureau Covers. Some are comparatively simple and inexpensive; others represent weeks of patient industry, and are proportionately costly. But they come direct from the makers and are priced far lower than if we were dependent on the usual source. Out of this immense range we quote a few prices:

6-inch Doylies from 25c; 8-inch from 30c.

24-inch centres from $2.50, and from that up to the large-sized Tablecloths at $55.00.

Bureau Covers, size 20x36-inch, from $3.75; 20x54-inch from $5.

Exceptional Value in LADIES' HANDKERCHIEFS

Pure linen Handkerchiefs, hemstitched and embroidered in pretty designs, worth in many cases four times what we ask for them. We cleared a large quantity of samples from a maker at a low price, as they had small pin holes in them. They would readily sell as perfect goods at high prices, but we prefer to tell their history. You can buy these handkerchiefs, worth from 25c to 60c each, on Monday at......15c

Ground Floor.

WHITE SHIRTWAISTS, $1.48

A dollar in your purse as the result of our peerless sale values, if you buy one of these pretty Shirt Waists. For, at any other time than this month of underpricing, you would pay from $2.00 to $2.50 for them.

The styles are various. Some have pretty lace yokes and embroidery fronts; others are made entirely of all-over embroidery; others again are made with fancy yokes of lace and pin tucks. Surprising value at the sale price $1.48

First Floor.

FANCY BACK COMBS 35c

Worth as much as $1.50

In case of emergency, it is well to keep two or three Back Combs ready-to-wear, for you never know when you may lose one. You can choose three pretty ones on Tuesday for a dollar and five cents.

We offer an assortment of really elegant Back Combs, about 500 in all, in amber, shell and black, with a few greys. Some are finished with hand set Rhine stones, others with gilt and stone ornaments; worth as high as $1.50. Tuesday sale price 35c

FIFTH DAY OF TRYING ORDEAL IN WITNESS BOX FOUND ORCHARD AS COOL AND COLLECTED AS EVER

Orchard denied telling any one about the blowing up of the Independence depot in advance of his act.

"Was anything said to you by Haywood about the method of blowing that depot?" "No, he told me to do it."

Orchard could not tell the date of this conversation, other than that it occurred in the Western Federation of Miners' convention, at Denver.

"Who spoke of it first?" "Pettibone, Parker, Davis, and I were talking about it, and Haywood came first."

Richardson insisted on having the occasion on which this project was first broached.

Orchard said it was first discussed by himself, Parker and Davis either at Cripple Creek or Victor. He could not definitely state the time and place.

"You cared so little about killing people that you did not give any attention to the time and place you talked about it?"

"We talked about killing the non-union men and cleaning them out of the district."

"You had no further talk in the district with Parker and Davis about it?" "No we talked about it at my room in the Belmont Hotel." "What was said?" "They said that the Butte delegation was kicking about the conduct of the strike and if we could go up there and tear something loose we could unite the federation and sidetrack a candidate for secretary-treasurer they had from Park City."

WITNESS LOST PATIENCE.

Richardson went after the witness vigorously, striving to pin him down to specific places and substance of conversations. Orchard betrayed considerable impatience and gave his answers in a petulant tone.

He mentioned that a man named Whitney was present in the Belmont Hotel, but he went out before the talk began.

"Did you say Whitney left the room so that there would be only one man to dispute your story?" "No, sir."

"Parker and Davis advised that you blow up the depot, you say, and you testify that the same Parker later told you not to pull off this explosion while the peace committee was in the district?" "Yes sir, he did."

The witness refused to fix places of conversations he had had with Davis about the explosion, giving the place generally as the Cripple Creek district.

Richardson digressed to ask Orchard if after the Lyte Gregory murder he had gone to the Adams hotel in Denver.

"Did you know a man named Wardjohn?" "I have heard of him."

"Did you go to the Adams hotel, into the room of Warjohn and drop to the ground from the window?" "No, I did not."

"Where did you meet Steve Adams in the Cripple Creek district?" "I used to go to his house and he used to come to mine."

The witness stated that he had gone to Adams' house about a dozen times. He had seen Mrs. Adams there and a woman named Mary Mahoney, whom he had also seen in Denver.

"Have you been cautioned about fixing a time and place in this case?" "No, sir. I have not."

"What have you been cautioned about?"

"I have been cautioned to tell the truth."

"Who cautioned you?" "Mr. McPartland and Mr. Hawley."

GOT PAY FROM PETTIBONE.

Orchard thought the first money he received from Pettibone was paid him in the rear of the latter's store. Usually no one was present at the interviews regarding money except himself, Adams, Haywood, Moyer and Pettibone. During the time he and Adams were "working on Mr. Peabody" Orchard said they got $50 or $100 whenever they worked for it.

"Now these defendants had nothing to do with planning the Vindicator mine explosion?" suggested Richardson. "Nothing, other than to pay for it," replied Orchard.

"They had nothing to do with any of your outrages until the Independence depot affair?" "I believe they had something to do with it? Yes."

"I mean as to planning." "No they did not plan it."

Orchard admitted he had burned his cheese factory near Brighton, Ont., and collected $600 insurance.

Steve Adams reached here to-day, in charge of a deputy. Adams will refuse to testify when he is placed on stand.

Denver, Col., June 10.—The Western Federation of Miners' convention to-day sent this telegram to Moyer, Haywood and Pettibone, at Boise: "Fifteenth annual convention sends greetings. Confident of your innocence, and we are with you until your honor is vindicated and your freedom assured.

"(Signed) C. E. MAHONE"

Orchard said he received $20 from Moyer and $280 from Haywood. The latter, he declared, told him he could have money whenever he wanted it.

"You had not done anything for Haywood at that time?" "He was paying me for crimes I had already committed."

Next Orchard got $150 from Moyer at Cripple Creek and later Haywood gave him $55 for accompanying Moyer to Ouray.

His Imperial Highness, Prince Fushimi, photographed at "Ravenscrag" during his visit to Montreal.

PRINCE FUSHIMI'S FIFTIETH BIRTHDAY

It is interesting to note, in connection with the visit of General H.I.H. Prince Fushimi, G.C.B., to Montreal, that yesterday was his fiftieth birthday. This fact, which seems to have been generally lost sight of, was, however, remembered by his hospitable host at Ravenscrag, Sir H. Montagu Allan, at dinner last evening His Highness was surprised and gratified by the gift of a beautiful pearl-scarfpin in a silver box, presented by Lady Allan.

The Prince expressed his thanks in warm terms, declaring also the gratitude he felt at the kindness and hospitality shown him by Sir Montagu and Lady Allan during his stay in Montreal. As a slight return for this, it gave him great pleasure to invest his host with the decoration of the Order of the Rising Sun of the third rank.

This honor, which is greatly appreciated, is esteemed very highly indeed in Japan, Mr. S. Nagasaki, who is the Councillor of the Court of His Majesty the Emperor, holding only the second rank.

To Lady Allan His Highness presented a beautiful lacquer box.

When leaving this morning, His Highness issued, through his chief of staff, Mr. Nagasaki, a message of thanks to the people of Montreal for their hospitable welcome of him. His reception, he states, by the citizens on his arrival at Bonaventure Station, was gratifying in the highest degree. All displayed a friendly inerest, which spoke well for the relations between Japan and Canada. This was also noticeable in the kindly address of welcome which he received at the City Hall, and in the cheers of the thousands who gathered at the Jockey Club race meet to meet him. Throughout his whole stay here, he had been received with nothing but the greatest kindness and hospitality. It was a kindness which he would ever appreciate, and in future years he would look back to it as one of the pleasantness epochs of his life. Especially he desired to express his appreciation of the hospitality of Sir Montagu and Lady Allan.

The Victoria Rifles formed the guard of honor at the Bonaventure Station to-day, when Prince Fushimi took his departure from Montreal. Escorted by the dragoons and accompanied by Sir Montagu Allan, the Prince arrived at the station about five minutes to ten, and as he alighted from the carriage the Vics' band struck up the Japanese National air. Accompanied by Colonel Buchan and his staff His Highness inspected the troops and congratulated the commanding officers on their smart appearance, and then went on board the royal train, which pulled out at 10 o'clock punctually.

The Mayor and a number of the aldermen and other civic dignitaries were at the station. A large crowd of people had also gathered to catch a last glimpse of the famous Oriental statesman and as he boarded the train he was heartily cheered.

PRINCE FUSHIMI ARRIVES AT OTTAWA

Special to The Montreal Star.

Ottawa, Ont., June 10.—His Imperial Highness Prince Fushimi arrived in Ottawa at 1 o'clock from Montreal by special train over the Canadian Pacific short line. He was met at the station by His Excellency Lord Grey, and after introduction and greetings, stepped into a carriage and was conveyed to Rideau Hall under military escort, where he will be the guest of His Excellency. The escort was furnished by the Princess Louise Dragoon Guards.

When the train pulled into the station, which was decorated with British and Japanese flags, His Excellency and Hon. A. B. Aylesworth and Hon. R. W. Scott, representing the Dominion Government, stepped on to the car and were introduced to the Prince and his party. The Governor-General's Foot Guards' band then played the Japanese National Anthem. The Prince inspected the guard of honor furnished by the Governor-General's Foot Guards and the party departed for Rideau Hall. At 2 o'clock an official luncheon was given by His Excellency. At 3.30 o'clock at the City Hall a civic address was presented to the Royal visitor.

STRIKE AT ST. HYACINTHE.

Special to the Montreal Star.

St. Hycinthe, Que., June 10.—Employes in the textile works here to the number of 500, mostly employed by the "Penman Manufacturing Company" went out on strike this morning, they demand higher wages and a number of other conditions. The decision to strike was unanimously made on Saturday at a large meeting held in Blondin's Hall, Mr. Wilfrid Paquette, the President of the Canadian Federation of Textile Workers presided. The secretary read the correspondence which had passed between the unionists, the employers and the Labor Department at Ottawa.

DUKE OF MANCHESTER HERE.

The Duke of Manchester passed through Montreal on Saturday, en route for Detroit, where he intends studying the general organization and administration of the immense car factories owned by Eugene Zimmerman, of Cincinnati, the Duke's father-in-law.

PERSONALS.

Lady Lacoste is entertaining informally at tea to-day for her daughter, Mrs. Augustine Tessier.

Mrs. R. B. Angus and Miss Angus, Drummond street returned to Montreal on the Empress of Ireland.

Mr. and Mrs. F. D. Monk have left for Ottawa to be present at the dinner and reception at Government House this evening in honor of His Imperial Highness Prince Fushimi, G.C.B.

At the Sacred Heart Chapel, of Notre Dame Church, took place to-day the marriage of Miss M. E. Talbot, sister of Lieut.-Col. O. Talbot, M. P. for Bellechasse, to Mr. P. M. Durand, deputy sheriff of Montreal. Mr. Ed. Morin acted as witness for Miss Talbot, while Mr. L. A. Bedard, clerk of the Practice Court, acted as witness for the bridegroom. After breakfast at the residence of Mr. Morin, Mr. and Mrs. Durand left on a trip to Boston and other points in the New England states.

Child's Body Found.

The body of a new born child was found in a lane, in the rear of Reading street, Point St. Charles, by ragpickers. The remains were rolled in a piece of oilcloth, and placed on the ground near the ash barrel. The body was taken to the police station, and from there sent to the morgue.

CARNEGIE HELPS QUEEN'S UNIVERSITY

He Provided Pensions for Three Members of the Staff.

PROVINCIAL ASSISTANCE

The List of Ministers Received by Presbyterian Assembly from Other Denominations.

There was a slight resurgence at the General Assembly to-day of the discussion over the losses to Knox college funds through the investments of the late Dr. Warden.

It arose over the reading of the minutes. The clerk, Dr. Fraser, read a statement submitted by principal McLaren explaining the circumstances of the losses, which amount to $37,500.

Dr. Somerville questioned the advisability of inserting the statement in the minutes to be sent broadcast over the church. He thought it might tend to perpetuate trouble rather than allay it.

Sir Thomas Taylor, of Hamilton, suggested that the investments be not styled "illegal" but "unwarranted."

Principal Forrest, of Halifax, proposed "not authorized by charter."

Principal McLaren did not agree with Dr. Somerville. He thought it important that a correct statement should be laid before the public, either in the minutes or otherwise. He was quite propared to take the responsibility for anything he had said, but inaccurate statements had been published.

Finally, on suggestion of Dr. Bryce, of Winnipeg and Dr. Sedgewick, of Tatamagouche, N.S., this section of the minutes was referred to a committee, which will consider the question of publication and revise the statement if publication is decided upon.

In presenting the report of Queen's University, Kingston, Principal Gordon announced that Andrew Carnegie had provided pensions for three members of the staff, Professors Ferguson, Fowler and Mowatt. Queen's does not come within the terms of the Carnegie Foundation, and these are a special gift from the Scottish Laird.

The Principal also announced that a Pedagogic Department would be established at next session. This department will be as an offset to the transfer of the Ontario Normal College from Hamilton to Toronto University. A Government grant of $5,000 a year for three years, will be given to Queen's for the purpose by the province.

Phincipal Gordon's report and the report of Prof. Laird, on the Endowment Fund, which has already been published in the Star, were adopted with enthusiasm. A feature of Mr. Laird's report was that the greater part of the subscriptions received, totalling $272,000, are in the form of small subscriptions. "The large financiers move slowly," commented Mr. Laird.

After hearing the reports, the Assembly by resolution pledged anew its suppport of the movement for the endowment of Queen's.

MINISTERS RECEIVED.

The following-named ministers were received from other denominations:

Rev. John G. Inkster, a Canadian, from the English Presbyterian Church, admitted to Montreal Presbytery.

Rev. W. Stevens Smith, from the United Free Church of Scotland, to Toronto Presbytery.

Rev. H. F. Thomas, from Congregational Union of Canada, to Toronto Presbytery.

Rev. Jas. S. Allan, from the Presbyterian Church North, to Algoma Presbytery.

Rev. Robert Gorside, from the Baptist Church of Canada, to the Presbytery of Hamilton.

Rev. William Johnston, from the Congregational Union of Canada, to Glenboro Presbytery.

Rev. W. H. Jennings, from the United States, to Red Deer Presbytery.

Rev. G. W. Ginty, from the Free Episcopal Church of England, to the Presbytery of Arcola.

Rev. R. B. Beavis, from the Methodist Episcopal Church, U.S.A., educated in Methodist Church in Canada.

Rev. D. Bruce Miller, from the Church of Scotland, to Qu'Appelle Presbytery.

Special provision was made in these cases.

Rev. John Pate from the Congregational Church of Scotland, to the Presbytery of Algoma, on the production of ordination certificate.

Rev. David Campbell from the United States, to Presbytery of Winnipeg, authorized to renew application next year.

Rev. W. B. Spooner, from the Congregational Church of England, the Presbytery authorized to ordain as minister evangelist and to fix salary.

The action of the Montreal Presbytery in admitting Rev. P. A. Walker and E. W. Florence from the United States was regularized.

Applications for retirement were granted in the cases of the following ministers: Rev. D. McDougall, Inverness Presbytery; Rev. K. J. Grant, Halifax; Rev. Duncan Henderson, Miramichi; Rev. John MacKenzie, Quebec; Rev. Donald Stewart, Montreal; Rev. E. F. Seylaz, Ottawa; Rev. Peter M. Duncan, Peterboro; Rev. W. T. McMullen, D.D., Paris; Rev. Hector McQuarrie, Bruce; Rev. J. A. F. Sutherland, Rev. John Mowatt, Rev. James Carswell, Winnipeg; Rev. Charles McKillip, Macleod.

THIS EVENING'S MEETING.

The programme for this evening includes the reception of fraternal delegates from the United Free Church of Scotland. Rev. Mr. Maclennan and Mr. Hhomas Michal will represent the United Free Church. Following the reception of the fraternal delegates the sederunt will be devoted to the work of French evangelization.

Honors to Col. Wilson on Retiring.

A pleasant send off on his retirement from the command of his regiment was given Col. Wilson, of the Victoria Rifles in the Armoury, on Saturday night. All the officers, ex-commanding officers, and the honorary members of the mess, were present. Major Starke made a short address and presented a testimonial to Col. Wilson on behalf of his fellow-officers. Col. Buchan also spoke in like vein of farewell.

GRAIN COMMISSION NOW AT LIVERPOOL

Canadian Commissioners Inspect Facilities for Handling Grain at Port.

(By Special Cable from our own Correspondent.)

London, June 10. — The Canadian Grain Commissioners, Messrs. Millar Goldie and McNair, spent to-day in inspecting the dock discharging, warehousing, and milling operations of Liverpool and Birkenhead under the guidance of the Liverpool Corn Association. They are to be entertained at a banquet to-night in Liverpool. They find there is a general sympathy with the Canadian desire to preserve Canadian grain from adulteration especially from admixture with the lower grade of American wheats so as to secure full value on the British markets. British experience does not seem, however, to support the suggestion that the sample system be substituted for the present inspection and certificate system.

The Commission comes to London on Wednesday to arrange the rest of the programme. They will be entertained by the Baltic Association which is the centre of the London grain shipping trade.

WINDERMERE.

EFFECT OF THE U.S. CROP REPORT

The Government crop report to-day gave the winter wheat condition at 77.4 and spring wheat 88.7.

It resulted in a rally in stocks and a decline in wheat.

Towards the close, however, stocks failed to hold the advance.

Union, which sold up from 136 to 138, was off to 137¾, while Reading, after selling as high as 107⅛, broke over a point.

DIAMOND JUBILEE AT OTTAWA CONVENT

Special to the Montreal Star.

Ottawa, June 10.—A programme of festivities covering three days—June 10, 11 and 12—in honor of the diamond jubilee of Reverend Sister Therese, lady superior of the Sacred Heart Convent, Rideau street, an educational institution that is as old as the city itself, was opened to-day. Citizens of all classes and creeds have joined hands in doing homage to a lady who has contributed perhaps in a larger degree than any of her contemporaries to the intellectual and moral advancement of the community.

Miss Martha O'Hagan was a girl in her early teens when a little company of Grey Nuns arrived from Montreal in 1845 to open a branch of their order at Bytown. She was the first English-speaking novice to apply for admission, and, being admirably qualified by her natural gifts, sound education and a fine presence to further the interests of the order, she was gladly received and at the end of two years permitted to take her final vows of poverty, chastity and obedience.

In 1849 the young nun had already won the esteem and confidence of her superiors to such a remarkable extent that she was placed in charge of the new institute for young ladies. The wisdom of this choice has been abundantly demonstrated by the fact that to-day, after the lapse of sixty years Sister Therese, apparently as full of vim and vigor as ever, is still actively directing the affairs of the large establishment which has grown out of the infant school of 1849, and which, in a peculiarly literal sense, may be described as the splendid fruit of her own individual efforts.

This evening, the citizens' demonstration in honor of the diamond jubilee of Sister Therese will take place in the music hall of the convent. Among those who have accepted invitations to attend are Sir Sandford Fleming, chancellor of Queen's University; Dr. J. F. White, principal of the Ottawa Normal School; A. H. McDougall, principal of the Ottawa Collegiate Institute, and Mr. R. H. Cowley, provincial inspector of continuation classes. Reminiscences of the early days of Sister Therese's experience as a teacher will be given by prominent citizens whose connection with the city and its progress dates back to the days of Bytown, and a presentation will close the proceedings. The present pupils of the convent will hold their celebration to-morrow, and on Wednesday a reception will be held for the former pupils, at which the hostesses will be the daughters of former pupils.

BARGE CORNWALL STRUCK ON ROCKS

Special to The Montreal Star.

Brockville, Ont., June 10.—Coming down the Canadian channel early this morning in a heavy fog, the barge Cornwall, laden with 1,200 tons of soft coal for Montreal, grounded on a shoal at the head of Isle Royal, a short distance above Brockville.

The Cornwall, together with the Augustus, Princess and Arcadia, the last two grain laden, were in tow of the Emmerson and, although the Emmerson grated her keel, all escaped the rocks with the exception of the Cornwall. There is 12 feet of water in the hold, but a strong effort is being made to keep her afloat until the arrival of wreckers, which have been sent from Kingston. The tow was one of the Montreal Transportation Company's line.

HENRY MORGAN & CO. MONTREAL. LIMITED.

Stocks Worked Lower--Montreal Visited by Leader of Chicago Wheat Pit

STOCKS TO-DAY WERE INCLINED TO GO LOWER

A Reactionary Tendency Before Government Crop Report Came Out.

DOMINION STEEL SHOWED A LOSS.

Traders Discouraged a Little by the Fact That Coal Failed to Move.

Wall Street opened generally higher, and advanced somewhat further during the first hour, reacting later under profit-taking sales. London was a seller of about 25,000 shares at the opening.

On the reaction, Union Pacific and Southern Pacific were about the only prominent issues, declining under Saturday's closing figures. At noon the market was very quiet, with no distinct signs of much movement in either direction, and a general desire to await the Government crop report, which was later than usual, not coming out until two o'clock.

The Montreal market was quiet again, and apart from the operations in Steel, the trading was scattered.

DOMINION STEEL OFF.

Dominion Steel was off a little. There is nothing fresh on the stock, and as far as can be learned no more developments are in sight until Mr. Plummer's return from the other side.

More attention has been paid the stock lately, but as far as can be learned the insiders have not been doing much, the trading being largely confined to the smaller people, who expect to see the stock advance before the deal is closed with the Coal Company.

Coal stock has been neglected right along, and the inactivity of this issue has no doubt disappointed the Steel traders a little.

CANADIAN NORTH-WEST LAND.

The Canada North-West Land sales for May continue to show the great falling off in sales, and the loss has not been compensated for by the higher price per acre. This month the land averaged $11.41 per acre, as against $11.55 last year. Since the first of the year, however, the average price has been greatly better, $11.06 in 1907, as compared with $8.81 per acre in 1906. The sales have been as follows:

May, 1906, 6,080 acres for		$70,240
May, 1907, 2,830 acres for		$32,312
Decrease, 3,249		$37,927
For 5 months 1907	9,876 acres.	$109,250
For 5 months 1906,	34,236 acres.	$301,640
Decrease ...	...24,360	$192,389

Twin—Fourth week May increase $10,056; month May increase, $48,745; from January 1st increase $245,248.

New York banks lost $3,221,000 to subtreasury since Friday.

SLOSS-SHEFFIELD.

The month of May has been a profitable one for Sloss-Sheffield Steel & Iron. When the regular quarterly statement is issued next week it should show a surplus after dividends of at least $250,000. Of this amount $193,000 was accumulated during March and April.

TO MAKE STRUCTURAL STEEL.

A New Company About to Be Formed in Ontario.

Walkerville, Ont., June 10.—Walkerville is to secure another big industry in a plant of the Ontario Structural Steel Co., which has just been organized, and is now awaiting its charter. The company has secured an option on a twenty acre site near the town, and proposes to go into the manufacture of structural steel for bridges and buildings within a short time. The promoters of the new enterprise are Henry Drake and Herbert Schwein, formerly with the Canadian Bridge Co. The company is to be an independent concern.

THE MIRACLE OF SUNSHINE.

(Wall Street Journal.)

It is impossible for the leopard to change his spots, but six hours of sunshine all over the country would be more than sufficient to change every bull into a bear in the crop markets, and every bear into a bull in the stock markets.

British Consols New Low Mark

The decline in British consols on Tuesday to a new low level for sixty years revived discussion as to the standing of consols with other 'gilt-edged" securities of the world. Tuesday's price of 83 9-16 compared with 84¼ on March 14, when consols first established the sixty-year record, with 80 in 1848, the last occasion when they were quoted lower than the present price, with 54½, in 1813, the low record of one hundred years, and with 113⅞, in 1896, the highest price on record.

The New York Post points out that comparison of present quotations with those of the past is not altogether fair, because of the lower interest rate. Until 1889 consols paid 3 per cent.; from then until April 5, 1903, they paid 2¾; at that date the rate came down to 2½. At this week's low price, the yield is exactly 3 per cent. on current dividend rates, as against 3½ in 1886, when consols sold at 84⅝ and 3¾ in 1848, when they were quoted at 80. That is to say, the standing of British consols, measured by the net yield at current prices, is really higher to-day than it was in many other years, prior to 1903 or 1889, when the price may have been actually above to-day's.

DETROIT UNITED OBJECTED.

Company Claims It Is Being Persecuted by the City Authorities.

The Star's special correspondent in Detroit wired: "The Detroit United, which has been found guilty in a score of cases for violation of city ordinances within the past ten days, and assessed for fines aggregating more than $800, and against whom many additional cases are pending, applied to the Joint Circuit Court to-day for an injunction stopping the city from further prosecution pending the hearing of an appeal to the Supreme Court on some of the cases already decided. The company claim it is being persecuted."

A NEW NIPISSING TREASURER.

No Actual Mining Will Be Done During Summer.

According to a despatch from Boston, John Josten has been elected treasurer of both the Nipissing Mines Co. and Nipissing Mining Co., succeeding F. W. Holmes in both positions. Mr. Josten is associated with Samuel Newhouse, in New York.

Directors of the Nipissing Mines Company will meet within a few days in New York and declare the regular quarterly dividend of 3 per cent., which will be payable July 20.

No actual mining is being done on the Nipissing property, and none will be done there this summer, the work contemplated being of the nature of development and exploratory. In these operations, however, enough ore is being extracted to pay current dividends and working expenses, leaving a small amount for surplus.

There is said to be $1,000,000 ore in sight.

MADE $6,500,000 CONTRACT.

One of the Largest Steel Orders on Record Has Been Given.

Pittsburg, June 10.—Contracts for the construction of 5,000 steel cars, aggregating in cost $6,500,000, have been placed within the past forty-eight hours by the United States Steel Corporation. This is one of the largest orders for steel products, and the largest for steel cars, that has been placed since steel car construction has been an industry of the Pittsburg district. To fill the orders about ninety thousand tons of steel plates will be required.

ILLINOIS DIVIDEND.

Illinois preferred has declared the regular quarterly dividend of 1½ per cent., payable July 1.

MR. LOWRY ON THE EFFORTS TO BEAT TWIN CITY

President of the Road Is Hopeful and Says Things Look All Right.

SIX FOR A QUARTER AGITATION AND EFFECTS.

Says Franchise is Solid and the Present Fares Will Be Maintained.

Mr. Thomas Lowry, president of Twin City, and president as well of the "Soo" Railway, who has been in the south-west through the winter and spring, has returned to Minneapolis, and expects to give attention to business during the summer. Mr. Lowry is improved in health.

He says that while the general decline in securities has had its effect on the issues of his company, the real reason for the lower quotations for Twin City lines is the recent agitation for fare reduction and the unfavorable attitude of the municipalities through which the lines run.

"The six for a quarter agitation," said Mr. Lowry, "affects our stock, and our ability to borrow money and everything else. I have full faith, however, in the validity of our franchise and our ability to maintain fares."

For Minneapolis and the territory served by the Twin City lines, Mr. Lowry expects a year of continued good business, despite the somewhat more conservative tone to general reports. The comparative quietness in real estate in Minneapolis and St. Paul is due, he believes, to the fact that the decline in securities affected the purchasing power of a good many holders of stocks, who would otherwise be found more active in real estate.

Big Trading in Cobalt Stocks

For every share of Cobalt stock sold in Montreal, in Toronto they will trade in 500.

Sales of Cobalts there last week were 238,506 shares, having a market value of $164,623.

Foster and Trethewey were under pressure and led the others, as a list of the sales will show

One optimistic broker, writing to the Star, puts it this way:

"Those who think the bottom is dropping out of everything should take a day off, ignore market quotations, and carefully review the facts, which may be briefly summarized: On the exchanges: Pessimism, depression, liquidation. In the Cobalt field: Optimism, activity, new and valuable discoveries almost daily, and the constant creation of immense new wealth."

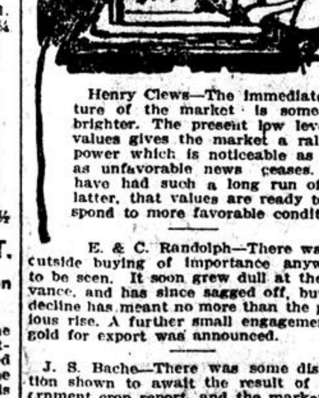
VANDERBILT ELECTED.

Cornelius Vanderbilt was elected a member of the board of managers of the D. & M. Co., to succeed Frank E. Smith.



Henry Clews—The immediate future of the market is somewhat brighter. The present low level of values gives the market a rallying power which is noticeable as soon as unfavorable news ceases. We have had such a long run of the latter, that values are ready to respond to more favorable conditions.

E. & C. Randolph—There was no outside buying of importance anywhere to be seen. It soon grew dull at the advance, and has since sagged off, but the decline has meant no more than the previous rise. A further small engagement of gold for export was announced.

J. S. Bache—There was some disposition shown to await the result of Government crop report, and the market became dull after the first hour. Considering the foreign selling and some profit-taking here, market held up well, and if Government report is more favorable than generally looked for another upturn will ensue.

J. B. Picken—Considering the rapid advance of prices last week we are inclined to look for a reaction, although speculative sentiment is still bullish. Further engagements of gold are expected.

The Trethewey directors have blundered enough in their management of the mine to justify a good deal of criticism; but some of the critics seem to be going pretty far.

There is nothing to prove that the directors rigged the market, nor is there any basis for the statements made by some of the reckless critics that the directors are practically pickpockets.

The Star knows for a fact that a good many of the so-called insiders on Trethewey have been landed high and dry in the slump, and that they are as badly off as the small fry.

The Trethewey directors have acted stupidly, no doubt, and for one thing they began dividends too soon.

The affair altogether affords another good object lesson, and holds up the majority of the mines as a gamble pure and simple.

The man who doesn't want to take a gambling chance should not buy Cobalts, and the man who loses needn't look around for a chance to throw bricks.

The cry of "thief" when anything goes wrong with a mining enterprise is an old one, and a great deal of mud has been thrown in the wrong direction both during the Rossland and Cobalt movements.

Many honorable men suffered unjust criticism in the Rossland affair and paid thousands of dollars from their own pockets to poorer friends who dropped money in their enterprises.

These occurrences were not uncommon, but did not get space in the newspapers, which were given to the darker side of the reversal and to "I told you so" observations.

When false statements are made about a mine, and the public is lured to buy its shares, that is the time for the critics to raise a yell of righteous indignation.

As far as we are aware, no director of the Trethewey has made the statement publicly that the shares of that mine were good end bound to go up, nor were any newspaper correspondents at Cobalt told fairy tales of concealed wealth by the mine management.

Many newspapers and brokers have always spoken well of Trethewey, and most of them, no doubt, did so in good faith.

They were led astray as the result of either sheer ignorance or poor judgment.

The Monetary Times of Toronto does not believe the Trethewey directors were dishonest, and thinks their statement in regard to the passing of the dividend should be accepted.

A stock broker who was handing a roll of greenbacks to a bookmaker at Blue Bonnets said:

"This is a fine outlet for your money when you find you are not losing it fast enough in the stock market."

The complaint comes from the Manitoba farmers that wheat only reaches a dollar a bushel after they have sold theirs.

There is undoubtedly a much better feeling in financial circles.

A gentleman connected with one of Montreal's richest enterprises, and one of the strongest of its kind in America, was complaining to-day about the scarcity of money.

"Surely," said a friend, "your company can get all the money it wants."

"No, it can't," said the other.

"But you're joking."

"I'm not joking," was the reply, "the truth is we cannot borrow money at the present time."

LONDON SETTLEMENT.

GEORGE PATTEN, A WHEAT KING IN MONTREAL

"May Go to $2.00"—He Said, "Hear Hear" Said Mr. James Carruthers

FAMOUS WHEAT MAN ON WAY TO EUROPE.

And Renews Some Old Acquaintances on the Montreal Board of Trade.

Mr. George W. Patten renewed old acquaintances on the exchange of the Montreal Board of Trade to-day.

Mr. Patten will be remembered as the gentleman who, within the past three months, was reported to have cleaned up, in company with his brother, Mr. James Patten, the tidy sum of from $1,500,000 to $2,000,000 in the Chicago wheat pit, the Patten brothers taking the bull side of the market, and taking it hard.

Thirty years ago Mr. Patten was a member of the Montreal Board of Trade, representing a Chicago house; now he is one of the principal wheat men of the Windy City.

He is in Montreal previous to a trip to the Old Country, and is so impressed with the St. Lawrence route, and its magnificent scenery, or probably his Canadian instinct is still strong with him, that he will engage passage by one of the Empress steamers sailing from Quebec.

"It is hard to say what the wheat market will show in the future," said he to a representative of the Star to-day, "but if the conditions warrant it we might have $2.00 wheat just as well as $1.25," and here he appealed to Mr. James Carruthers for confirmation of this valuable piece of information, and the latter said "hear, hear."

"It is now three years since I took a trip to the other side, and I am now crossing over for a rest. You know we have had a pretty strenuous three months of it in the Chicago pit, and I think I am entitled to a holiday."

Mr. Patten was very reticent in regard to the amount cleaned up by his brother and himself, though many guesses were made and put up to him.

He finally gave up and said: "Well, boys, some say we have cleaned up a cool $2,000,000, but I haven't heard of it yet."

Cheese Prices Again Lower

Special to the Montreal Star.

Brockville, Ont., June 10.—The cheese market was dull on Saturday, and though many bids were made, the sales were limited. The first bid of 11c was not accepted, and buyers found it necessary to offer 11⅝c before and purchases were made.

On the curb a great volume of business was transacted, and while 11⅝c was paid in some quarters, the unmistakable ruling was 11½c.

It is estimated that between 8,000 and 9,000 boxes changed hands, including, of course, the "regulars," which are sold on a basis of Brockville ruling. The sales of the corresponding week last year on this board were 10,000 boxes, and the price was 12c.

Belleville, Ont., June 10.—3,352 boxes white and 225 boxes colored; 2,450 boxes sold at 11 9-16c and 320 at 11⅝c. Balance bought at market prices on street.

Russell, June 10.—350 boxes cheese were boarded. All sold at 11½c.

Vankleek Hill, Ont., June 10.—1,601 boxes of cheese boarded and sold on the Vankleek Hill cheese board Saturday. Bidding stuck for a long while at 11⅜c, but was finally raised to 11½c.

Cornwall, Ont., June 10.—Eleven hundred boxes cheese boarded. All sold at 11⅝c.

Alexandria, Ont., June 10.—Six hundred and seventy-one boxes cheese, all white, at 11½c.

Picton, Ont., June 10.—635 colored cool cured, 135 white cool cured, 1,159 ordinary cured; total, 1,999. Highest, 11⅝c for cool cured, 11 9-16c for ordinary. All sold.

Crysler, June 10.—611 boxes of white cheese were sold at 11½c.

Winchester, Ont., June 10.—732 boxes white and 79 colored were registered; 87 white sold on board at 11⅝c.

London, Ont., June 10.—1,273 boxes. Bidding, 11c.

Cowansville, Que., June 10.—816 boxes of cheese and 1,588 boxes of butter. Cheese sold from 11¼ to 11⅜c, and butter from 20⅜ to 20¼c and 20⅝c.

St. Hyacinthe, June 10.—601 boxes of butter and 997 boxes of cheese were boarded. Butter sold at 20½ and 20⅝c, and cheese at 11⅝c.

FRUIT PRICES MAY ADVANCE.

The fruit market shows increased activity to-day, and with seasonable weather it is expected the prices will advance considerably.

The following quotations are furnished by Messrs. Hart & Tuckwell:

PEACHES, PLUMS, and APRICOTS.—Peaches, $2.25 to $2.50 per box; plums, $2.25 to $2.50 per crate; apricots, $2 to $2.25; cherries, $3 per box.

SOVEREIGN BANK.

The annual meeting of the Sovereign Bank will take place in Toronto to-morrow.

A manufacturer discussing the question of Japanese labor on the floor of the Exchange to-day stated that in consequence of the exclusion of Japanese laborers from the United States, these people are looking elsewhere, and he would not be surprised to find quite a number of them coming into Canada after the return of Prince Fushimi to his native land. However, with the exploitation of Formosa and Korea, and the expansion of manufacturing industries, there it will, in future, he believes, be as hard to obtain as it is now to exclude this class of labor.

It is now estimated by the authorities possessing the most accurate knowledge of the subject that the prune crop of California will total 65,000,000 pounds, and that of Oregon will amount to 20,000,000 pounds.

A report from Sacramento says that fruit shippers are looking forward to a successful season despite the discouraging reports that have come in from several of the fruit districts of the Sacramento Valley.

A telegram received here to-day said: "Unless restricted by high prices the cotton consumption will almost surely force prices higher."

Indian wheat exports for the week, 384,000, against 632,000 last week and 904,000 last year; since April 1 total is 5,716,000, against 4,000,000 last year, and 9,504,000 two years ago.

A cable received on 'Change to-day said: "The suspension of the French duty on wheat and flour reported as probable, is in doubt."

The commercial failures last week in Canada numbered 21, against 10 the previous week, and 13 last year.

John Rogers & Company of Liverpool, cabled to-day: "Canadian steers, 12¼ to 12¾; States steers, 12½ to 13c; trade slow, but firm.

Edward Watson and Ritchie cabled today from Glasgow: "437 cattle on offer, with short supplies. Sharp trade experience. Top steers, 12½ to 13c; secondary, 12c; bulls, 10½ to 11c per lb. Parthenia missed market.

The following gentlemen were introduced on 'Change to-day: Messrs. Geo. W. Patten, Chicago, by Mr. A. G. Thomson; J. Wallace, London, Eng., by F. Fowler; J. G. Wallace, London, Eng., by F. Fowler.

The Lake of the Woods Milling Company showed on 'Change to-day samples of wheat from Boissevain, Whitewater, and Forest. The wheat averaged about 6¼ inches in length.

Ogilvie's Report From Broomhall

Broomhall cabled the Ogilvie Flour Mills Company to-day:

"The Russian semi-official report for the period ending June 2 shows winter wheat outlook generally unsatisfactory, particularly in the north-west and south-west.

"Winter rye shows a good average condition.

"The outlook for spring wheat crops is fully satisfactory. Area under winter crops abandoned in the south-west had been replaced by spring wheat; elsewhere the abandoned area has been replaced by barley."

BUTTER AND CHEESE MARKET

BUTTER—The butter market is steady to-day. The country markets on Saturday last proved rather firmer than was anticipated, the average price being 20⅛c f.o.b. At present prices there is evidently a good demand for the receipts, as they come in, as there has been no accumulation of stock. Prices are still far above export prices, and until the receipts increase so that there will be a surplus over local requirements prices will continue steady.

The official quotations to-day are: Quebecs, 20¼ to 20½c; Ontarios, 20c; Townships, 20½ to 20¾c.

The local receipts to-day were 707 packages.

CHEESE.—All the cheese boards on Saturday last registered a decline of an average of ¾c to 1c lower than the previous week. On spot this morning business is very quiet. The responses over the cable have been very limited, and it remains to be seen if present prices are sufficient to promote a more healthy business.

The official quotations to-day are: Quebecs, 11¼ to 11⅝; Ontarios, 12c; Townships 11⅝c.

The local receipts to-day were 7525 boxes.

POTATO AND EGG MARKET.

POTATOES.—Though the potato market showed signs of weakness last week, the tone is firmer to-day, and the market is steadier. Those coming in are of a poorer grade, and if they were better the outward shipments would bes increased. The prices to-day are unchanged: Whites are quoted at $1.20 in broken lots, delivered; at track, $1.10 to $1.15, single lots; at track, $1.08 to $1.10, in car lots; reds, $1.18 in broken lots, delivered; at track, $1.08 to $1.13 in single lots; at track $1.06 to $1.08 in car loads.

EGGS.—The demand has fallen off, and the market is somewhat weaker. Prices to-day are 17½ to 18c in wholesale lots; 19c in single cases, and 20½ to 21c for selects.

HAY AND OATS MARKET.

HAY.—The market to-day is steadier. Prices are quoted from $16 to $17 for No. 1, $15 to $16 for No. 2, and $14 to $15 for clover mixed.

OATS.—The market was easy to-day. Manitoba No. 2, 49¼c to 50c; Ontario No. 2, 49½ to 50c; No. 3, 48 to 48½c; No. 4, 47 to 47½c.

CORN.—Prices are unchanged at 63 to 66c.

OUTSIDE WHEAT MARKETS.

New York—July wheat opened at 105, and closed at 104⅝.

Duluth—July wheat opened at 101⅞, and closed at 102 asked.

WHEAT PRICES WENT DOWN FROM OPENING

The Public is in the Market Again and is Buying Quite Heavily.

HEAVY SHORTAGE THROUGH EUROPE.

Good Reports From the West—Butter Steady—Cheese Prices Have Declined.

From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.

Chicago, June 10.—Hal. P. Watson, the old-time "dyed-in-the-wool" Minneapolis wheat bear, is now smiling from a high pinnacle in the camp of the bulls. He wired the following to the Star correspondent this morning, showing his unmistakable position in the market, and as he has both Jones and John Inglis in the wheat fields, he is pretty sure of his position:

"The Government report to-day dealt with totals based on correspondence two weeks old, and therefore of little value as reflecting present conditions. In its May reports, for instance, the Government gave Kansas 88,000,000 at about the same time the Jones estimate of maximum of winter yield included Kansas at 60,000,000, with the statement that the total wheat might be reduced further in July. Developments have sustained the Jones observations made early in May, when they were situated as purely sensational. It is the exception now to find a milling firm in Kansas that places the Kansas total of yield above 50,000,000, and some name as low as 35,000,000.

"A despatch from Inglis says Kentucky and Tennessee will produce 8,000,000 less than last year, that the crop has deteriorated rapidly, and that oats in those States will be practically a failure. It is plain that winter wheat is declining in condition in all the States with one or two exceptions. The Government is usually late in discovering actual conditions as shown by its December figures as compared with September estimates.

European Conditions.

"The European situation shows a heavy shortage of wheat in Roumania and Russia, also of rye. A Liverpool firm of prominence estimates, in a letter received to-day in Minneapolis, that Europe will need 200,000,000 bushels from the United States and Canada, and says: 'Based on the deterioration in the United States, which possibly may be repeated in spring wheat, we do not see where it can be had."

Public Are In Again.

On the basis of 325,000,000 it cannot be had unless at a considerably higher level of prices than is now ruling, and then at the practical exhaustion of stocks. The spring wheat of the North-West is four weeks late on an average, which will compel the crop to pass through the trying periods of weather before it can mature. The public are again in wheat, and on the side of the market. The bears were outnumbered after the first preliminary skirmish of the day and forced to take a back seat. Some of the longs sold early, causing the depression. The buying of September by the North-West and the South-West, coupled with scattered resting orders on the buying side not only absorbed everything thrown over, but a higher level was bid for more.

To-Day's Quotations.

July sold at 97⅛ down to 96¾, but it bulged upward to 97¼; September 99⅛ to 99¼ to 99⅞, and December at 101⅛ to 100⅜ to 101⅞, showing advances over the lowest points of ⅝ to ¾c.

Foreign Markets.

Cables show wheat ½c lower at Berlin and 1⅛c off at Budapest; Antwerp was unchanged and Paris was unchanged to ½c lower. The decline at Budapest was attributed to better crop reports.

Liverpool Market.

A private Liverpool message said that the support there was general, but that the principal buying came from shorts, who were induced to cover owing to the very bullish Kansas report and fears of a bullish Government report. The heavier world's shipments and better reports from Hungary caused some selling by the larger houses. Some traders abroad were of the opinion that the American damage had been fully discounted.

Broomhall's Report.

Broomhall personally cables that the crops of Austria are looking well, but the outlook as described by the Vienna Exchange is middling.—J. F. Pritchard.

Acreage Ahead Of Last Year

Special to The Montreal Star.

Saskatoon, June 10.—Carefully compiled reports from the immense hard wheat area tributary to Saskatoon now justifies the conclusion that the acreage under seed in June, 1907, is thirty to fifty per cent. greater than last year, and of oats and barley fifty to sixty per cent.

While the seeding was late the weather for the past two weeks has been propitious, and crop conditions are declared by old-timers to be the very best.

The severity of the winter and the late cold spring is considered by them to be the direct cause of the present unexampled growth. The cold nights of April and May so pulverized the ground as no human efforts could do it, and thus gave the grain the best possible seed bed. The wheat is up and from one to four inches in height all over the country and making rapid progress, and the temperature by day is warm. There is over fifteen hours of sunlight daily. East of the city at French, Woodview, Floral and Elstow, the increased acreage is large.

Durnan Brothers show 250 acres more than a year ago, and individual reports show increases of from 20 to 80 acres. In the 250 districts west of the city, many of which have been settled from five to ten years, the increases are sixty to eighty acres on a farm. In a few cases there is a decrease, but the acreage of oats is very much larger.

On the line of the Wetaskiwin branch of the C.P.R. there is a marked increase in area. Those people have waited long for a railway, and the sure hope of getting it this fall has inspired them anew to increased activity.

St. Helen's Island Ferry Difficulty.

There was a rather lively altercation on the wharf on Friday night on the arrival of the R. & O. Navigation Company's boat Rapids King at the St. Helen's Island wharf. The ferry has free use of this part of the harbor on condition that it moves out if at the wharf to allow the R. & O. boats from the west to come in and land their passengers. On this occasion the ferry captain refused to do so, and the aid of the Hon. James McShane, harbor master, had to be invoked before the Rapids King could come to dock. Mr. McShane then brought to the notice of Mr. Lamarre the conditions under which the ferry allotment was made, and he immediately agreed to comply with them.

Funeral of the Late Rev. Fr. O'Bryan

The remains of the late Rev. Father O'Brien, S.J., rector of Loyola College, Drummond St., were consigned to their last resting place with funeral services of the simplest character, befitting the rule of the Order of the Society of Jesus. Both leaving the college building and after the service at the Church of the Gesu, Bleury street, one hundred and sixty pupils of the college, in charge of the Rev. Father Quirk, S.J., preceded the hearse, and immediately following the chief mourners were the clergy and citizens generally. The remains were interred in the private cemetery of the Jesuit Order at Sault au Recollet.

As prescribed by the tenets of the Order, there was a low mass, at which Rev. Father Doyle, S.J., was the celebrant. Simple in ceremony, but yet solemn and impressive, was the service, and when the large congregation emerged from the sacred edifice it was seen that a vast number had assembled to do honor and pay a last tribute of respect to a priest and scholar who had been beloved by all who came in contact with him. The Franciscan Order was among those represented, and at the church were sisters of many of the religious congregations in the city.

As the funeral procession left the church of the Gesu the street was lined with people, and as the cortege wended its way northward it presented an imposing spectacle.

The chief mourners were the brother of the deceased, Mr. Joseph O'Brien, deputy postmaster at Halifax, N.S., and Mr. John M. Quinn, of this city, cousin.

The college staff representatives included, besides the Rev. Father Quirk, Rev. Fathers, McCarthy, Hingston, Malone, Cox, Plante, McMahon, Gorman, Desjardins, Brady and Devine.

The Rev. Canon Roy represented the Archbishop's Palace of Montreal; the Rev. A. J. Hanley represented Archbishop of Kingston, Ont., and the Rev. Father Brady represented the Bishops of Hamilton and London.

Among the additional clergy present and the citizens generally of Montreal were: The Rev. Martin Callaghan, parish priest of St. Patrick's Church; Rev. Father Donnelly, of St. Anthony's Church; Rev. Father Shea, Rev. Father G. J. McShane, P.J.S.; Rev. Father Albert Laporte, Rev. Father Casey, Rev. Father Kiernan, Rev. Condon, C.S.C. (St. Laurent College), Rev. Father R. E. Callaghan, Rev. Father Kavanagh, S.J.; Rev. Father Pilodeau, Rev. Father Fahey, Rev. Father Coleman, Rev. Father Singleton, Rev. Father Corbett Mackay (St. Andrew's West), Mr. Justice Curran, Mr. Justice Guerin, Hon. Dr. J. J. Guerin, Messrs. Andrew Finn, J. B. Delorimier, J. J. McConniff, Dr. McCarthy, Dr. Hingston, Michael Guerin, Ed. Murphy, F. Donovan, T. Collins, P. J. McCaffrey, W. P. Kearney, T. B. Lyons, J. P. Kavanagh, H. J. O'Neill, Dr. Mason, T. Donohue, Thos. Hickey, Dr. Merrill, W. Kearney, A. Cinq-Mars, Dr. Styles, T. Mignault, Dr. Mignault, P. J. McGovern, F. W. Hopkins, Dr. Hackett, Dr. Conroy, P. J. Gordon, P. J. Carroll, J. R. Clancy, F. Drum, D. McFee (Alexandria, Ont.), W. J. Coughlin, J. C. Murphy, T. C. O'Brien, S. M. Lowrie, J. Furlong, J. Ryan, M. Lynch and J. L. Ryan.

The Late Mr. Alph. Leroux.

The funeral of Mr. Alphonse Leroux, took place from his late residence, 20 Bishop street, at 8.30 to-day, to St. Patrick's Church and thence to Cote des Neiges Cemetery, and was attended by many personal friends and acquaintances. At the church the celebrant of the Mass was Rev. Dr. Luke Callaghan, assisted by Rev. Father Robillard as deacon and Rev. Father P. Heffernan as sub-deacon.

The chief mourners were the only son of the deceased, Mr. Charles Leroux; Dr. T. d'Arcy Tansey, son-in-law; Messrs. Charles, Wilfrid, Wilbrod, Ferdinand and Frederick Leroux, brothers; Mr. Ulric Ouellette, brother-in-law; Mr. Pedro Leroux, nephew and Messrs. B. Tansey, Owen Tansey, Dr. O. J. Tansey, Frank C. Sudden Death of Thomas E. Huot.

The death occurred very suddenly at an early hour this morning of Mr. Thomas E. Huot, the well-known druggist, whose place of business was 20 St. Catherine street, West. Mr. Huot was about in his usual good health yesterday, but during the night had an attack of acute indigestion, from which he never rallied, and death took place about 4.30 this morning. The deceased has been conducting the business at 20 St. Catherine street, for about ten years, and was thirty-eight years of age. He was unmarried and was a son of Mr. Emilien Huot, advocate of Belle Isle.

Several Horses Have Gone Wrong--Toronto Men to be Here To-day

The horse "Highland Fling" struck himself in one of the trials since coming to Montreal, and has gone wrong. This horse would assuredly have won at this meeting had he not met with the accident.

Gold Coin is another to go wrong. The going for the past couple of days here would have suited her.

Mr. T. Ambrose Wood, the owner of "Kelvin," the plater, will arrive in Montreal this morning to see his horse run this afternoon.

Several other Torontonians will come down with Mr. Woods.

Chatelaine will not be started again at this meeting until "Get-Away-Day," next Saturday. She will start in the event for gentlemen riders and should run a better race than on Saturday last.

TO ASK FOR LOWER TELEPHONE RATES

Mr. Shepley Outlines His Argument on the Bell Telephone Inquiry.

In the outline of his argument before the telephone enquiry on Saturday, Mr. Shepley intimated his intention to contend that in view of the profits made by the Bell Telephone Company and its subsidiary companies there should be throughout Canada a general lowering of its rates. Mr. Shepley, however, did not enter into detailed reasoning, but merely indicated the lines upon which his conduct of the case would proceed.

The enquiry then adjourned till Wednesday, on which day the final arguments will be heard. Practically the whole day was taken up by Mr. Aime Geoffrion, who opened the argument for the Bell Company, by reviewing the main points of the evidence in considerable detail.

He then went on to argue that a good case had been made by the company for the official approval of the existing schedules of rates.

Mr G. F. Shepley, K.C., the chief counsel for the Government, followed by laying down the various lines that might be adopted by the Railway Commission in dealing with the matter. The board herbated would have the power to approve or disapprove of the whole tariff, or to suggest a tariff themselves; to approve or disapprove of any part of the tariffs submitted by the Bell Telephone Company or to suggest changes in any portion of it.

Speaking generally, Mr. Shepley said he would contend that the rates should be reduced all along the line in view of the general earnings of the company, including its subsidiary companies. Proceeding, Mr. Shepley outlined the general history of telephone legislation in Canada.

From its very nature, he said, the telephone business must be in the nature of a monopoly, and it was on account of this that the Government had invested Parliament with powers to deal with the matter to protect the public from any possible monopolistic imposition.

Mr. Shepley will open his main argument on Wednesday, and will be followed by Messrs. Eugene Lafleur, K.C., and Lyon Macfarlane for the Bell Company. It will probably be some considerable time before the board arrives at its decision, as the evidence is very voluminous and involved in an enormous amount of intricate detail of a technical character.

STREET AND BUILDING AFFAIRS IN ST. LOUIS.

The third reading of the new construction by-law of the town of St. Louis took place last week. The measure had been thoroughly considered and amended previously, and the Council unanimously decided to take it as read the third time. It will go into force at once.

Another important measure received its second and third reading, namely, the new by-law providing for the construction of permanent sidewalks all over the town, as follows: Five-feet flagstones, with asphalt from the flagstone to the curb stone, two feet on either side, on all the commercial streets. And on the private streets, which take in all those running north and south excepting St. Lawrence and St. Joseph Boulevards, there will be five-feet cement sidewalks put down. Half of the cost of this work is to be paid by the town and the other half by the proprietors, in sections, the latter to make their payments in ten years or before, with interest. This by-law, which was moved by Councillor Berube, and seconded by Councillor Challifoux, was unanimously adopted, and will go into force very shortly.

The Council then adjourned into committee to consider the proposed purchase of some land from the Hon. Louis Beaubien for the extension of Maguire street to Sanguinet, in accordance with a resolution of the Council passed some time since. The other land necessary to extend this street has been obtained from the C.P.R. in exchange for Depot street, which has been closed up, and is now used exclusively by the railway company for its tracks, etc. In connection with Hon. Mr. Beaubien's offer to sell the said land to the town for $3,600, the legal adviser had pointed out some complications in regard to the title of the land, but after a consultation with Mr. Beaubien and the Mayor, Mr. Beaubien decided to write the town a letter, which was read Friday, offering to guarantee the town against any possible claim that might arise in connection with the said land, and also agreeing to give the town a strip of land one foot wide on the east side of Sanguinet street, which, for some reason or other, he had retained when the property in the rear thereof had been transferred to the Baxter estate some years ago. It is thought that the town will accept this offer.

A Hearing in the Duclos Case.

At the Practice Court on Saturday, the argument on the writ of habeas corpus to secure the release of Alexander Duclos, from Longue Pointe Asylum was heard by Mr. Justice Davidson. On behalf of the Crown, Mr. D. A. Lafortune, K.C., joint Crown Prosecutor, produced the reports of the medical officers, Dr. George Villeneuve and Dr. A. Brochu, who have had Duclos under observation since his voluntary return from Burlington.

Mr. N. K. Laflamme, K.C., for Duclos, argued that the detention of his client was illegal, inasmuch as it was based on no medical report, and was in direct contravention to the finding of the jury, which had declared Duclos sane at the time of the term in which he was acquitted on the charge of attempted murder.

Mr. Lafortune, for the Crown, argued that the detention of Duclos was justified by the evidence adduced at the trial, showing that Duclos was liable to become violent at any moment.

Mr. Justice Davidson took the question en delibere.

Presentation From the Prince.

While the C. P. R. steamship Empress of Ireland, was steaming up the St. Lawrence, the commander Lieut. J. O. Forster, R.N.R., was called to the Prince's cabin, where he was invested with the Order of the Rising Sun, sixth class, and presented with a handsome silver teapot and cigarette case, on both of which were emblazoned the arms of His Imperial Highness. Captain Forster was complimented by Prince Fushimi on the magnificence of the Empress and congratulated on the admirable manner in which he had handled the ship during the voyage. The Prince's entire suite were present during the ceremony.

Bad Fall From a Gallery.

Little four-year-old Jacob Raik fell from a gallery at his home, corner Napoleon and Cadieux streets to-day, and was so severely injured that only slight hopes are entertained for his recovery by the medical men of the General Hospital. The child is suffering from concussion of the brain and internal injuries.

Gentlemen Riders from Toronto May be Here to Ride on Saturday

M. Jacobson, who is training the horses of J. E. Madden and Thomas Hitchcock, wired Buffalo this morning for stabling. In this lot is Nellie Burn, who has ran so many good races at this track. This mare should win at Buffalo.

Word was sent to Toronto to-day asking some of the gentlemen riders of that place to come here to ride on Saturday. If they decide to come it will give the "Gentlemen Riders'" race on Get-Away Day, an Interprovincial flavor, making it even more interesting.

James Meagher will ship the jumpers, Butwell and Jimmy James, owned by J. W. Ryan, to Buffalo, after the Montreal meeting.

J. J. Walsh, the owner of Sir Edward, has made a big offer for the horse Salvidere. Mr. Walsh is anxious to get another good string together.

James Meagher gave the steeplechaser Jimmy James a schooling through the field this morning.

A local gentleman has made Mr. Ryan an offer for this colt.

R. J. Waldron will not ship his horses to Buffalo until after the meeting closes here on Saturday night.

The Seagram horses were only given a light gallop this morning as they were given harder work yesterday morning. The filly Sea Wall was worked a mile and an eighth in good time yesterday.

The Mannix horses were all breezed through the stretch this morning.

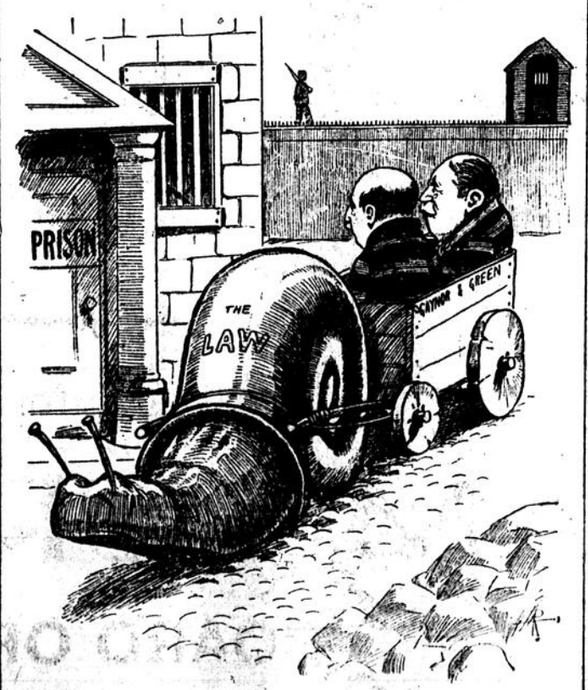
Many Horses at Blue Bonnets Will Enter the Buffalo Derby

Blue Bonnets Track, June 10.—Main Chance and Purselaine, the Seagram eligibles in the great Buffalo Derby, to be run on Saturday next, will be shipped to Buffalo on Wednesday morning. It is not likely that either of these horses will be started here again, as Trainer Littlefield does not want to take any chances of a mishap to Main Chance. This horse looks to be the best that will start in the feature event at Kenilworth track.

He has shown more in his races than the majority of the other eligibles. The field in the Buffalo Derby this season will not be as large as last, as many of the horses entered will come from the East for it.

The horses likely to go to the post in the Buffalo Derby are Purselaine, and Main Chance, Temeraire, Seawell, from the Seagram stable; Ethon, owned by Burlew; J. R. Loughrey, W. H. Holland's Col. Jack; W. J. Young's The Abbott; J. H. Madogan's Eillcott; E. Wayland's Ampedo; Schrieber's Joe Carey; Thos. Clyde's Transition; J. Laxton's Gold Note; J. H. McCormack's Tileing; N. B. Spalding' Dankoll; Palestine Stables' Alpenmanchen; L. V. Bellow's Woolstone; Fred Cook's Tom Dolan.

Several others are entered, but not likely to go to the post. It is not probable that Frank Gill, owned by J. L. McGinnis, will go to Buffalo, owing to engagements of more value in New York.



Arrived at last, or, "Honesty is the Best Policy."

COL. STEELE TALKS OF SOUTH AFRICA

Constabulary Force Has Much to Do With the Present Good Feeling Between Briton and Boer.

Colonel S. B. Steele of the South African constabulary force, arrived in Montreal on Saturday.

In the course of an interview he spoke interestingly of his work in South Africa and of the celebrated force with which he was connected.

"The Constabulary was formed by Major Baden-Powell in October, 1900, in order to give it as imperial an appearance as possible he divided the force into four divisions of 2,500 men each, two commanded by British officers and two by Colonials, Colonel Pilkington, C.B., of West Australia and myself.

"At first the force was divided into troops of one hundred men with a captain and lieutenant, it was then known as a military force in war and police force in peace as directed by Lord Roberts proclamation."

Did you see much service with them and were there many Canadians? he was asked.

"The war lasted for more than a year after I joined. As for the Canadians there were thirteen troops of one hundred each under their own officers, but as General Baden-Powell considered them such useful and handy men for the benefit of the whole service he distributed them in troops amongst the divisions of the force. You may think that the General had a right to think them adaptable and resourceful men when I tell you that many of the troops took the field on foot and were not long providing themselves with excellent mounts and transport at the expense of the enemy. In fact so much was this little habit dreaded by the Boer commanders that they gave strict orders not to bivouac nearer than twenty miles from the constabulary.

"The force after the war was organized on the same lines as the N.W.M.P. and reduced in numbers to six thousand and distributed among all the magisterial districts of the Transvaal and Orange River, each district commanded by a Captain and the sub-districts by a Lieutenant.

"The good feeling that to-day exists between the Boer and Briton was largely attributable to the good judgment of the men of the force who did every thing in their power to help the Boers to reestablish themselves on their farms. So good a feeling existed that it was a frequent sight to find Boers at the camp mess.

"We had instructors for the men in the Transvaal language which is the patois spoken there and quite a number became proficient both in this language and Kaffir. We policed the whole country with the exception of Johannesburg and Pretoria.

"How about the reports regarding the treatment of the colonial troops by regular officers?"

Colonel Steele replied that they were very much exaggerated.

LAVAL LAW STUDENTS PASS THEIR EXAMINATIONS.

Twenty-two Laval students have completed the licentiate and baccalaureate courses with success, and are now awaiting the final test for admission to the Bar, the examination to be held early in July, at Quebec, before the examiners appointed by the various sections of the Bar of the Province. The following named have obtained the degree of Licentiate in Laws with honors:—Guillaume, Sainte-Pierre, Jean Beaudoin, Eugene Angers, Romauld Roy and Alexandre Prud'homme. The same degree was attained by Ernest Guimond, Euclide Roy, Gustave Lanctot, Honore Guyon, Charles E. Monty, George Duford, and Phillippe Durocher. Nine graduates have obtained the degree of Bachelor of Laws, namely: Alfred Beauchemin, Antoine Lamothe, Endore Godin, Philadelphie Lalonde, Leopold Barry, Oscar Coderre, J. E. B. Normandeau, Jacques Brosseau, and Auguste Prud'homme, Mr. Sainte-Pierre, who leads the graduating class, is the youngest son of Mr. Justice Sainte-Pierre, of the Superior Court.

One of Killed at Vaudreuil Identified.

William Johnson is the name of one of the men run over at Vaudreuil Station on Friday morning. He is 39 years of age, and came here from the United States, but it is not known from what part. The identification was established by John Ryan, 48 St. Etienne street, who said that Johnson was a cattleman. The body of the man who had been walking along the tracks with Johnson, and who was killed at the same time, has not yet been identified. The inquest into the cause of their deaths will be opened at the morgue to-morrow by Coroner McMahon.

The Iona Here To-morrow.

The steamship Iona, of the Thomson line, from Newcastle, passed Father Point at 8.30 a.m. to-day on her way in to Montreal. She is expected to arrive here to-morrow afternoon.

PRINCE FUSHIMI'S TOUR.

Visits the Thousand Islands by Special R. & O. Steamer.

The Richelieu & Ontario Navigation Company have been commissioned by the Dominion Government to furnish a steamer to transport General His Imperial Highness Prince Fushimi, G.C.B., from Brockville to Kingston, on Tuesday, the 11th inst. The party will arrive at Brockville at 1.30 p.m. and drive immediately to the steamer and embark for a trip through the Thousand Islands to Kingston. The trip will be made through the Canadian channel giving the Prince an opportunity of seeing the beauties of the Thousand Islands to the greatest advantage, as the Canadian channel through the Thousand Islands probably has no rival in the world for natural beauty of scenery. This trip will be made through intricate channels and round the Fiddler's Elbow and ending at Kingston at 5.30 p.m.

The steamer furnished for this occasion is the new "Rapids King," whose completion has been rushed for this occasion. The "Rapids King" has been especially designed for service through the Rapids of the St. Lawrence between Prescott and Montreal, and will carry one thousand people in comfort on her spacious observation decks, and should the weather be inclement her spacious cabins would accommodate the same number in comfort inside. She is beautifully decorated throughout in the most modern style, the prevailing color scheme being green buff and weathered oak. She has only a few state rooms, the entire space of the main saloon deck being thrown into the saloon. She has, however, a number of rooms with berths which in the day time will be transformed into comfortable sofas, thus turning them into comfortable little parlors.

The upper saloon deck is provided with a large open cabin with glass windows and doors all around, so that the beauty of the scenery can be viewed from the inside. Taken altogether, the "Rapids King" is an immense stride on any previous steamer of her class, and will certainly be a great attraction to this beautiful route.

ROYAL MONTREAL DEFEATED OTTAWA

The annual golf match between Montreal and Ottawa, took place Saturday, June 8, on the links at Dixie, and the Montreal team defeated the visiting team by a score of 45 to 11.

The players from Ottawa arrived at the Dixie club house at 11 a.m., where they partook of luncheon with the members of the home team. Several toasts were proposed and were enthusiastically responded to. After luncheon the members of both teams were photographed, and that being satisfactorily concluded the match was begun by Dr. R. F. Ruttan, president of the Montreal Golf Club, and Mr. D. MacPherson, of Ottawa. Although the weather looked threatening during the early part of the day, the rain kept off during the match, except for one or two light showers, not nearly enough to damp the ardor of enthusiastic golfers.

The course was in excellent condition and some good playing was done on the part of the Montreal players.

The poor showing of the Ottawa players was, to a great extent, due to their unfamiliarity with the links.

The game, which excited most interest, was that between, Mr. J. Percy Taylor, of Montreal, and Mr. B. W. Swarbreek, of Ottawa, in which the latter defeated the former by 2 to 0.

Following are the scores:

Belleville Gas Works Threatened.

Belleville, Ont., June 10. — Fire threatened to destroy the city gas plant, and it looked for a time as though the whole works would go, but the firemen saved the building after about $500 damages had been done.

Eye-Glasses and Spectacles repaired. R. Hemsley, Jeweller, 255 St. James.

TWENTY-NINE KILLED AND FORTY INJURED

Storm Swept Over Southern Illinois Causing Great Loss.

TO LIFE AND PROPERTY

Gradysville, Ky., Struck by Cloudburst, and Twenty-one Persons Perished.

Chicago, June 10.—Twenty-nine known dead and forty persons injured, constitute the list of casualties resulting from storms of wind and rain which swept over Southern Illinois and Indiana and Central Kentucky. These fatal visitations came in the shape of cloudbursts, high wind and electrical disturbances. The property damage is many thousands of dollars. Houses were swept away, bridges demolished and thousands of acres of growing crops destroyed.

Gradysville, Ky., was the worst sufferer. A cloudburst caused Big Creek to deluge that village, of 175 persons, and 21 persons were drowned or crushed by falling houses.

At New Minden, Ill., a tornado killed five persons and injured six others.

At York, Ill., three persons were killed and thirty injured by a tornado, which descended on the town.

At Duquoin, Ill., many houses were blown down around the outskirts of the town, and four persons were injured.

TWENTY-ONE KILLED.

Louisville, Ky., June 10.—Twenty-one persons dead, the village devastated, and several thousand acres of growing crops ruined are the havoc wrought by a cloudburst that caused Big Creek to submerge Gradyville, Ky., and vicinity last night. All the dead are residents of Gradyville, and although reports are meagre, it is believed that no further fatalities will be reported from the surrounding country.

The disaster was due to the erratic behavious of Big Creek, which was already swollen by recent rains. When the cloud burst precipitated six inches of rain in an hour on Gradyville and vicinity, the creek took a new course, with the force of a tidal wave.

Inhabitants of Gradyville were nearly all in bed when the foaming waters struck the town, carrying away six residences, a mill and a number of small houses. Nearly all the victims were drowned, but four were crushed by the collapse of dwellings.

State Senator Nell, who is a physician, owes his escape from the fate that overtook his family to the fact that he was several miles away in the hill visiting a patient. As soon as news of the disaster reached Columbia, Ky., the nearest town of any size, several hundred citizens departed for the scene with wrecking appliances, food and clothing. All the physicians available were taken along.

VILLAGE WIPED OUT.

York, Ill., June 10.—Three persons are dead and eight are fatally injured as a result of a tornado which almost wiped out York and damaged Grayville, Ind. The loss to property in York is $50,000. The damage to timber, fruit and crops is $100,000.

The dead:—Henry Rook, blown sixty feet and struck by flying timbers. Mrs. Lucinda Pinkerton, blown 700 feet into tree tops. Mrs. John Bostick, buried in ruins of home.

The storm broke while most York people were at supper. Entire families were buried in the ruins of houses. The storm lasted less than four minutes. The Methodist Protestant Church was demolished. Much live stock was blown into the Wabash River, and washed away.

Heavy damage was caused at Grayville, Ind., just east of York. James Layton was blown out of his house and buried under the ruins.

C.P.R. WIN EXCITING GAME FROM POINTS

In showery weather on the National grounds the C. P. R. lined up against the Points on Saturday as follows:

C. P. R.—McIntyre, goal; Young and Hollis, backs; Barber, Short and Ross, halves; Cox, McKendrick, McDonald, Studley and Fitzpatrick, forwards.

Points.—Kinnaird, goal; I. Andersan and Lorimer, backs; McKay, Evernden and Doran, halves; Nedrie, Strachan, Dorman, Nairn and Burnett, forwards.

Mr. F. Calder, Referee.

Play commenced nearly an hour late. C. P. R. won the toss, and Dorman started. In the first minute Kinnaird handled a nice shot from the home right. They continued to press, and gave Kinnaird plenty to do, gaining two corners in succession.

Then the Points went away. Even play followed, both goals being tested, McIntyre kicking away a beauty.

With McIntyre out of his goal, Dorman scored after ten minutes' play, to the cheering of the Points' supporters. This reverse spurred the home team on. Play was fast and furious, and in Points' favor, McKay ending some nice play by sending over. Studley ended a fine run by equalizing the scores, Kinnaird not having the slightest chance to save. This put fresh life into the game, and both teams now struggled hard for the lead. The home team had hard luck, the ball being got away in a wonderful manner. The visitors' right were always dangerous, but the home backs defended well.

C. P. R. had many chances to take the lead, but their shooting was at fault, being wild and erratic. Play on the whole in this half favored the home team, but the Points showed far better combination. The home team would not be denied and forced another corner, causing the visitors some anxiety, half time coming to the rescue.

Interval:

C. P. R., 1; Points, 1.

From the opening the Points got busy and looked dangerous, Nedric just missing. Play was very exciting and full of incident. McIntyre used his feet to advantage, but rather risky work with well-directed shots as anything might spell disaster. After a brief spell of defending, Points returned to the attack, and went at it hammer and tongs, McKay playing a great game, put his wing in hand repeatedly. The home team visited Kinnaird from a break away, and looked like scoring. Lorimer kicking clear. Each team struggled hard for the leading goal, C. P. R. having a little more of the play, the Points, however, were determined to keep them at bay, though some exciting play took place in front of their goal.

Ten minutes from time Studley scored the winning goal for C.P.R., and a hard game was at an end.

C.P.R. 2

SASKATOON!!

The Most Progressive and Aggressive City in North Western Canada West of Winnipeg.

SASKATOON'S geographical position as the hub of the hard wheat belt, with railways radiating in every direction affords it the best shipping facilities in the North West Province.

THE GRAND TRUNK PACIFIC has its road graded many miles east and west of Saskatoon. It has in course of construction a railway bridge---concrete and steel---across the Saskatchewan river at Saskatoon.

The Canadian Pacific Transcontinental has many miles of roadway constructed east and west of Saskatoon and a new steel-concrete bridge under construction in the city. This line to Winnipeg will be in operation by September.

The Canadian Northern Railway owns and operates the line from Regina to Prince Albert with a new bridge right in the heart of Saskatoon City.

Other lines being projected and surveyed have all in view the advantageous situation of Saskatoon.

Saskatoon is situated in the centre and is the hub of the most fertile hard wheat belt on the globe, the highest average yield and the highest average grade.

Saskatoon has Eight Hotels supplying the very best accommodation that can be afforded in the West.

Saskatoon has Seven Chartered Banks and a branch of the National Trust Company, providing unexcelled financial facilities for the rapidly growing trade of the city and country.

Saskatoon has voted a quarter of a million dollars for Sewerage, Waterworks and Electric Light Systems. These works are all well under way and will be in full operation this fall.

Saskatoon has three large brick Modern Schools, employing fifteen teachers, each is in a different part of the city. A site has been purchased and preparations are being made to build a High School.

Saskatoon has two newspapers, the Phœnix and the Capital. Each prints a daily and weekly edition. Both papers compare favorably with cities ten times the age of Saskatoon.

Saskatoon citizens constructed buildings in 1906 costing over half a million dollars. Double this sum will be expended in 1907, including a $100,000 Brewery, a $100,000 Post Office and Court House, $75,000.

Saskatoon has in use throughout the city, the Automatic Telephone System, the most perfect and satisfactory system of the day.

Races in Rain Were Good; Surprises and Upsets Were the Order Saturday

Only One Favorite Landed First Money at Blue Bonnets--Track Muddy and Heavy all Day--Blue Coat a Popular Winner --Prince Fushimi Pleased with Course and Races.

It would be difficult to devise a stiffer test for Montreal's lovers of out of door. than that to which they were subjected Saturday. Intermittant rain, alternated with bright sunshine, the warm rays being scant in duration, while the rain at times amounted to a veritable deluge. Yet despite an insistant rain that fell just before train time, a big crowd of enthusiastic persons bid defiance to the elements and proceeded to Blue Bonnets, determined to spend the afternoon at the new race course, no matter what was provided in the shape of weather. One needed optimistic enthusiasm to venture out under such conditions, but the optimistic spirit was strong, and the crowd journeyed out in the hopes of being rewarded by better things. It was a surprising crowd for Montreal; in fact it was the biggest gathering that ever left the city to see the ponies go the route. Not even Bel Air at the height of its glory did as well as this. The result is doubly surprising when to the wretched weather conditions is added the factor that Montreal is really new to this enlarged scope of the game. If it is a correct indication of the temper of the people on this particular form of sport, it goes to suggest a prognostication that the Metropolis will soon become the real racing centre of Canada, forging ahead of famed Woodbine and surpassing Ambitious Hamilton. There were seven thousand spectators at the track and it seems a safe wager to lay, that a couple of thousand remained at home because of the early afternoon showers. From this it may be easily judged that bright, warm sunshine would have sent an overflow crowd to Blue Bonnets.

CROWD WAS JOLLY.

It was a good, jolly crowd, filling the grand stand, swarming through the betting ring, while the tony folk echoed the spirit of the others and swarmed out to the sacred precincts of the club house enclosure and made a gallant showing in that reserved part of the place.

It was a good racing crowd. The spirit of contest caught their souls and it was a sight to see them charge down the muddy lawn and cheer some gallant horse as it struggled through the boggy track to a win. The crowd certainly livened up in great style and each finish was fought out in a roar of vociferous applause. It was a crowd that had gone out for a good time and was bound to have it even if the heavens poured, and the heavens did loosen the floodgates, but the spirit was too strong to be washed out by any display by old Jupiter Pluvis.

This big crowd saw fine racing and a bunch of surprises. One favorite caught a decision, the other six races going to second choices and shots, of which the real good things were Widow's Mite and Peter Knight. Widow's Mite went to the post at seven to one in a field of three and whipped the well played Cobmosa to a standstill. Peter Knight carried 140 pounds seven furlongs in the race for gentlemen riders, and romped away from a choice lot of seven starters and turning a pretty penny for the handful of wise people who got on. This winner was played from ten down to seven and disposed of Gallant and Chatelaine, good performers, in a merry scramble past the stand.

Some of the thoughtful people got some of it back by being in on Blue Coat in the final dash, the Quebec horse whipping the well thought of favorite, Royal Lady, in a stiff drive.

SURPRISES WERE FREQUENT.

One of the real surprises was the victory of Paprika in the steeplechase. Paprika looked like an old crock and fairly staggered about the shop, but the old boy was there with the staying powers and got away from Lulu Young and Gold Run, the latter carrying a lot of good public money.

It was all good racing despite a frightful track. The continuous rains of the week took effect, and when on top of all that the skies wept on Saturday, the wonder of it was not that the track was bad, but that it was not really worse. It was heavy as lead, with spots of water showing here and there, and sticky enough to take the heart out of anything but a game bit of horseflesh. It was a day for the mudlarks and it needed web feet to make the going fast.

The steeplechase course was not in such wicked condition. Theturf drained well and the field was in fairly presentable shape all the way through.

The rain had another effect in disposing of the ceremonial entry of His Imperial Highness, Prince Fushimi. The conditions of the roads was such that driving would have been very uncomfortable so the carriage and the cavalry escort were dispensed with and a parlor car secured from the Montreal Street Railway system. On board of this the Prince, his staff and the guests were conveyed to Blue Bonnets. The party arrived after the third race and remained until after the sixth. The Prince was led through the members enclosure, being received in a downpour of rain, the members standing bareheaded as the band played the Japanese national hymn. His Highness was brought to the first balcony in the eastern corner of which provision had been made for the accommodation of himself and his suite. This box was decorated with red and white, the Japanese colors. His Highness took a keen interest in all the races he witnessed and seemed to be having a good time.

HOW THE RACES WERE WON.

The horse, Sir Edward, owned by J. J. Walsh has evidently rounded to, for on Saturday he proved himself the best of a field of good ones, and won rather handily. In the first race Preen, who was known to like the heavy going, was made the favorite, and was heavily supported by the students of form. He looked to be in a good place at the weights. Sir Edward, the winner was the second choice, with the odds of two to one against him. These were the only close priced horses, as the others were not looked on as having a chance.

When the rubber was let go Preen as is always his custom went to the front, cutting out a smart clip, with Dr. Mack close on his heels. Bullman waited with the winner and timed him exactly. Dr. Mack took up the running, and set the pace for the middle quarter, facing Preen into submission.

As the lot rounded into the stretch Bullman went to the whip on Sir Edward, and closed up a big gap, winning by a head over Dr. Mack, who was tiring after having been made too much of in the first part of the journey. It took Preen all he could do to save the third money from The Englishman, who was closing in fast. This horse should win his next time out.

A GOOD TWO YEAR OLD.

The second race, an event for two year old, brought out as good a field as any horseman would care to see. Columbia Lad and Lawless were the equal choice, the former on his previous races here and the latter on the race he ran at Toronto. It was not known what either could do in the heavy travelling, so both had an equal number of supporters. Inspector Purvis was looked on the good thing to show with a big price against him. Helen Green, who won the short end of the purse was only played to peep.

The start of this event was as good as any at the meeting. Columbia Lad who is fast breaker went to the front after outbreaking his field, and held the others safely all the way. He was never in trouble and won handily by four lengths, being eased up at the end. This colt was well ridden by McDaniels, who took the shortest way home with him, hugging the rail at the turns thus saving ground. The race was between Lawless and Helen Green for second place. Lawless came from behind after Shindy had run in front of him all the way and won over Helen Green, who caught Shindy tiring badly in the last eighth. Shindy did not like the footing and was all in at the end. The winner could have beaten better horses on Saturday. This is his second victory at this track.

QUEEN CITY'S FIRST WIN.

The original field of half a dozen horses in the third race was cut down to three by the scratches. Cobmosa, Widow's Mite and Factotum were the three to go to the post. Cobmosa on his previous races was made the odds on choice at one to two, while the winner was as good as ten to one in some of the books. Factotom's price never changed, he being held at two to one.

In this event the winner was the best of the three. She ran a true race, and won pricking her ears at the end, showing that she could have done much better. Goldstein made the early pace with Factotum who is not a front runner, and led the greater part of the back stretch. Burton, who was on the winner, went after him, when the lot straightened away and soon assumed the lead, holding it to the end. Cobmosa never got going, and although he was ridden out could not get up with the first pair. He finished a poor third to Factotum, never having any chance of outrunning the first two.

A SURPRISE TO THE PUBLIC.

The result of the race over the hurdles came as a surprise to the public, for the favorite was badly beaten, and never was up with the first two. Gold Run in this event looked to be the sure thing of the day, as he has beaten better horses. He was an even money chance, while the winner Paprika was as good as six to one, with Lulu Young the second choice, over the great Esterjoy. When the horses went to the post, Gold Run who is one of the best behaved horses on the turf acted strangely, and ran away with his rider. He did not go far, but the boy could not control him, having to dismount and lead him back to the starter. When the lot were sent off, Esterjoy went to the front, with Lulu Young next, and Gold Run away back, he running poorly, bobbling at nearly every jump. Esterjoy made all the pace until the Liverpool was reached, where he fell, leaving Lulu Young in front, with Gold Run and Paprika fighting for the place. They ran this way for the second turn of the field, and Paprika and Lulu Young were opening up a winning gap on the Toronto owned horse. As the last jump was reached, Gold Run was hopelessly out of it, while Rodrock went to the whip on Paprika. He soon overtook Lulu Young and beat her out by four lengths, going away at the end. Gold Run was a poor third, being twenty lengths behind the winner.

THE GOOD THING LANDED.

Goldie was the good thing in the fifth race, and ran the mile and an eighth in stake horse style. He was the second choice in the betting, with all the wise ones on him. Ivanhoe was the favorite at 8 to 5. This price was put on him over his race the last time out, which he won handily.

Ivanhoe went to the front, outbreaking his field, and opened up a gap of two lengths going the first quarter of a mile. Johnson used poor judgment in the ride, as he used the horse up too much going the first part. Gaugel kept close behind him all the way, not allowing him to get too big a lead, and when it came to a drive in the stretch the winner responded gamely, winning by half a length. Col. Jack tried to keep up in the first part, but was outrun all the way. Azelina ran wretchedly, and finished a poor last.

GENTLEMEN RIDERS UP.

There was a great deal of interest taken in this event, as all of the riders were well-known local society men. Some of the best horses at the track were entered in this race, so that every one had a good mount. The favorite in this race was Gallant, who finished second. The winner was held at a long price, but proved to be the best horse in the footing. Mr. Mathias put up a masterly ride on the winner, and it was through this that the horse won. When the riders came up to weigh in he was greeted with great applause.

There was perhaps more betting on this race than any of the day. Gallant was backed down from 3 to 1 to 8 to 5 at post time. The Toronto owned horse Chatelaine had her share of support in the ring. Chatelaine was the first off to a good start, with Gallant next, and the winner third. They ran this way for the first part of the trip. Mr Davies went on with Chatelaine and opened up a big gap in the first furlong. Mr Watson on Gallant took after her, and was within bailing distance when the lot went around the top turn. It was at this part of the journey that Mr. Mathias made his move on Peter Knight. He soon overhauled Gallant, then took after Chatelaine, who was still setting the pace. He caught her tiring as the bunch rounded into the stretch. Going to the front with Peter Knight, Mr. Mathias had no difficulty in winning by three lengths, while Gallant came again at the finish, and beat Chatelaine out for the place by several lengths. The first three were pounds the best of the other starters.

THE LAST RACE OF THE DAY.

The win of the last race by Blue Coat was a popular one. This horse is owned in Montreal, and nearly every local horseman had a wager on him. In this event Royal Lady was the hot tip handed out, which caused a great play on her on her New York race. It was on this pair that all the betting was done. The others were outsiders and only nibbled at to show or for the place. The good thing took up the running soon after the start and led nearly all the way home, Blue Coat coming up just in time to catch her at the post, winning by a head. This was one of the best finishes seen at this meeting. Principia and Fire Fang fought it out for third place, the former winning by outgaming the latter. There was a delay in this event, as Fire Fang was entered to be sold for $500 when her price should have been $1000. There had to be a change in her weight, which caused the delay. This event brought to a close one of the best day's racing of the meeting, notwithstanding the heavy condition of the track.

WHAT WAS DOING AT HAMILTON

Hamilton, Ont., June 10.—The weather for the races Saturday was bright and warm. The track was very fast, and the attendance was the largest in the history of the Hamilton Jockey Club.

First race—Martin Doyle (Lloyd), 6 to 5, first; Charlie Eastman (Moreland), 6 to 5, second; Ellicott (A. Martin), 11 to 5, third. Polly Prim, Avaunteer, Amelia, Racine and Scarfell also ran.

The race went to Martin Doyle without much trouble. The horses were at the post nearly ten minutes, but they got off well. Considerable money went on Charlie Eastman, and much more on Ellicott, which was touted to win. Martin Doyle was well played. Eastman got away first, but was gradually overhauled by Martin Doyle, who held the lead without trouble. Martin Doyle finished a length in front, while Eastman and Ellicott disputed every inch of the way in a hard drive, but Eastman put his nose in front. The others were never contenders.

Second race, 2 year old, purse $400, at 5-8 mile.

Johnnie Blake, 125 (Nicol), 3 to 5 and out, won.

Cieil Turney, 120 (Lloyd), 2 to 1, 1 to 3 and out, second.

Sir Balin III (Moreland), 10 to 1, 2 to 1, and 3 to 5, third.

Time, 1.01 3-5.

William Penn, Courtown II, Sea, Frescati also ran. Rough house scratched.

Third race, Steeplechase, about 2 miles and a half.

Picktime (Dayton), even, first; Frank Somers (J. Murphy), 5 to 1, second; Ruth's Rattler (Gallagher), 2 to 1, third. Billserry, Ohnet and Apteryx also ran.

One hundred yards from the finish Frank Somers and Picktime were racing neck and neck. Murphy had to use his whip on Frank Somers, who could not stand the pace, and Picktime won by half a length, Ruth's Rattler, which was heavily played was a poor third. Picktime was generally played, but Frank Somers carried a lot of money.

Fourth race, Tuckett, Seelin Stakes, 1 1-16 miles.—Jacomo (J. Carroll), 4 to 1, first; Euripides (Fairbrother), 1 1-2 to 1, second; Court Martial (Moreland), 10 to 1, third; Chippewa, Bonmot, Meringlo also ran.

Jacomo won the other day and his price was only 4 to 1 to-day. Chippewa was picked for first with Euripides and Merlingo second and third choices. Jacomo got away in a bunch at the front and kept there until the finish, when he drew away from the field and won with plenty to spare. Euripides had to fight hard to stall off Court Martial, who should have come second in three more lengths. Carroll gave Jacomo a splendid ride. Chippewa got away behind and tired on the stretch.

Fifth race, 3-4 miles, three year olds and up, selling $300 added. Prince Brutus, 114, (J. Dally), 8 to 5, 4 to 2, 2 to 5, first by length; Arby Van, 109, (J. Foley), 6 to 1, 1 to 1 place and 7 to 5 show, second; Omah J., 109, (W. R. Walker), 40 to 1, 15 to 1 and 6 to 1 show, third. Time, 1.15 1-5. Irene A, Brazil, Gold Note, Doc Kyle, St. Jeanne, Taunt, Goggles, Ruby Ring also ran.

Sixth race, 1 mile, three year old and up, selling, $350 added.—Rather Royal, 111, (Moreland), 9 to 5, 1 to 2 and out, won by 1-2 length; Picaroon, 116, (Nicoll), 3 to 1, 1 to 1, 1 to 2 second; La Thorpe, 87, (Pohaka), 40 to 1, 10 to 1, 4 to 1, third. Time, 1.43 1-5. Mary Custis, Arthur Rosenfield, Halton, Fire Alarm, Charlie Ward, Bitter Hand also ran.

St. John's School Sports.

The annual swimming races took place at the Laurentian Baths, on Friday last, with the following results:

Senior, 100, Heward I.
Junior, 50, Young II.
Preparatory, 25, Black II.
Senior Dive, Cleghorn II.
Junior Dive, Young II., Darling.
Obstacle (open), Cleghorn II.

Mr. Jacombe kindly acted as adjudicator.

Football Game Postponed.

The league match arranged to take place this afternoon between the M. A. A. A. and Y. M. C. A. teams at the Baseball grounds was postponed at the request of the M. A. A. A. players. It appears that the management of the Amateur Association eleven had been informed by several of the principal members of the team that it would be impossible for them to turn out.

Accordingly the Y. M. C. A. team was approached and asked to agree to a postponement till Tuesday evening next. The latter acquiesced, and it is expected that both teams will be at full strength when they meet.

Special Notice.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W 88, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night. 1372 law sow

Entries For Future Meet Will Show Decided Increase Over Inaugural Gathering

Likely that August 31, Will be Opening Date of Fall Racing at Blue Bonnets--This Will Catch Horses From Saratoga and Fort Erie.

Nearly every horseman at present in Montreal has promised to return to Blue Bonnets for the fall meeting, and as each one will likely bring a friend it is probable that there will be about 200 more horses here in September than there are at this meet, provided stable accommodation can be added by that time. It has been decided to hold the fall meeting during the first two weeks of September and the opening day will soon be definitely fixed. Saratoga is advertised to close on Friday, August 30, the day preceding the Futurity at Sheepshead Bay. This closing day may be one day earlier this year, as horsemen scarcely relish an arrangement which sends them on the journey on the Spa to New York with only one night in which to make the trip. The Fort Erie meeting closes on Saturday, August 31st, so that Montreal will get a large number of horses, both from Saratoga, which is only four hours away, and from Fort Erie. A canvass among the owners at the track shows that they are strongly in favor of at least thirteen days, which means that the fall meeting will commence on Saturday, August 31, which will be one or two days after the close of Saratoga and overlapping Fort Erie one day. The meeting could continue to September 15, which would take in three Saturdays and Labor Day, this holiday coming the first Monday in September. Of course such an arrangement would be a concession both to the owners who come here, and to the association on the part of the club house section, for it is a little early to ask them to come back from the watering places, but in so doing they will not do any more for the thoroughbreds than does the Newport set which formerly returned to New York in the third week of September, but which now relinquishes its fetes, bal masques and surf bathing and hastens to dear old Sheepshead to applaud the kings and queens of the baby division as they come around the elbow in gallant contest for the Coney Island Jockey Club's rich prizes.

LAUGHED HEARTILY AFTER FACING DEATH

Special to the Montreal Star.

Galt, Ont., June 10.—Much credit is due to the officers and directors for the signal success of an exhibition that is now given rank with any horse show in the world.

The names of these officers of Galt Horse Show Association are as follows:—Executive—M. N. Todd, President; J. C. Dietrich, Vice-president; F. Stewart Scott, Secretary; T. T. Aitken, Assistant Secretary; F. S. Jarvis, Treasurer; R. O. McCulloch, C. R. H. Warnock, Wm. Sadler, Frank Moss, Dr. Mackendrick, Jas. Cromarty, Geo. Hancock.

Directors—Jas. Anderson, V. S., Geo. Hancock, Jas. Cromarty, G. D. Forbes, Dr. Charlton, A. N. W. Clare, O. Spiers, G. E. Goldie, John Orr, R. E. Cowan, Jas. Wetherell, A. J. Oliver, Frank Moss, Wm. Sadler, J. B. Dalzell, F. G. Hughes, Alex. Ames, John Scott, C. R. H. Warnock, Dr. Wardlaw, A. R. Goldie, Jos. Stauffer, E. G. Perine, R. O. McCulloch, Mr. Mackendrick, Z. A. Hall, Dr. Thomson, Mayor of Galt, Thos. Allison, Reeve of Township of North Dumfries, John Fischer, Warden of County of Waterloo.

Ringmaster, Charles Robb.

A crowd of 5,000 thronged Dickson Park Saturday afternoon and witnessed the last day of the 7th annual Galt Horse Show. A programme of exceptional interest was carried out in exemplary style.

All the classes were well filled, and highly wrought attention was sustained till the close. The roadsters and carriage horses shown revealed the very flower of the Province, and caused old horse show patrons and expert judges to say that there was nothing like it on the continent.

There was an exciting contretemps in the steeplechase. Artist, with Murray up, was making the home stretch in capital style, from across the hill and had to take the jump to finish. He had led his rival, Kalamazoo, (Moss up), notwithstanding his rider's 203 pounds avoirdupois. On the home stretch places were reversed with the heavy weight making a fresh effort to overtake his rival. Moss kept the place however, and took the bars. Artist again acted badly at the first jump, knocking the rail, and throwing his rider violently. It looked for the moment that all was up with the "Jolly Scotchman's" riding, not to say earthly career. The crowd held its breath while the mix-up lasted. The fallen man, however, cleverly disengaged himself rolled from danger, and let go of the reins. Then he rose, shook himself, and laughed heartily—a laugh following a situation which had just threatened his life—but Jimmy Murray is a game man all through, and faces death with a smile, if his work calls upon him to do so.

"What did you cut such a clip for," he was asked, as he wiped the blood off a nose abrasion made by the horse's hoof.

"I just wanted to be at the other fellow in the race, am I hurt? Not a bit of it." Remounting, he urged the Artist to the second jump, went over it, and cantered up to the post as if nothing had happened. The plaudits that met this game exhibition were immense and hearty.

Montreal Juniors Defeated Y.M.C.A.

There was a pretty big crowd at the M. A. A. A. Grounds Saturday to see the first real match of the Monrealers on their own ground and they came early because they imagined the game was going to start at 3 p.m. Alderman Tom O'Connell and Mr. Tom Moore of the Shamrocks who were respectively to act as referee and judge of play were ready at that time to start the game, all dressed up in their white sweaters and grey lacrosse caps and when the Tecumsehs did not turn up Mr. O'Connell was prepared to fine them ten dollars. He was informed, however, that the match had been advertised for half past three.

As there was a junior match on between the Railway Y.M.C.A. and the M.A.A.A, before the big game the crowd was kept in good humor. The teams and result in this match were:

Ry. Y.M.C.A.	Position	Montreal.
Elson	Goal	Cameron
Leaker	Point	Hamilton
Slater	Cover Point	Coolyean
Brown	Defence	Hyman
G. Lines	Defence	Cole
J. Lines	Defence	Riddell
Brighten	Centre	Ayer
Kelly	Home	Gomery
A. Armstrong	Home	Platte
J. Armstrong	Home	Reynoldson
McQueston	Outside	Douglas
Irwin	Inside	Reede

The result was as follows:
1st game, Montreal, Reede.
2nd, Montreal, Platt.
3rd, Montreal, Platte.
4th, Montreal, Reynoldson.
5th, Montreal, Platte.
6th, Montreal, Platte.
Referee, Albert Hinton.

Tennis Opening Postponed.

The opening of the new Mount Royal Tennis Club courts was postponed till next Saturday on account of the rain.

WESTMOUNT VS. VALLEYFIELD

Westmount received an easy victory on Saturday afternoon in their League match with Valleyfield. The game was played in presence of a good attendance at Westmount and after the first twenty minutes there was little room for doubt as to who would gain the points. The homesters won by 5 goals to 1, and the score is a fair criterion of the run of play. The victorious team was supposed to be considerably under strength several of the League players being absent, but on the whole display given by the eleven was superior to that of the past few Saturdays. At the start the Valleyfield lot played in a most promising manner and at the end of the first quarter they led by a goal. After that period, however, they were seldom dangerous and were almost wholly on the defensive. The visiting backs had a very warm time of it and they acquitted themselves creditably, especially Marriott, the captain, who was easily the best man of his team. Marriott played a dandy game and had the men in front of him performed with the same skill the result would had been materially different. The halves were weak and offered little opposition to the Westmount van, while the forwards were very ineffective and in the second half could do nothing right. The victors occasionally showed class form and the forwards did many clever things. Forsyth was the star of the line. He is a fine speedy forward and it takes a good man to dispossess him of the ball. Bingham at centre forward led his comrades in breezy fashion and he gave the Valleyfield custodian no end of trouble. The halves easily held the Valleyfield forwards in check and the backs could afford to take matters very coolly. Valleyfield will have to buck up if they desire to occupy a good position on the League table.

Vanderbilt in London.

London, June 10. — At the international horse show Saturday Americans won four prizes. In the competition for stallions, any breed, F. Pabst's Sir Humphrey won the first prize; in the pairs competition, four years or over, Alfred B. MacLay, of New York, with Marguerite, Margrave and Roseworthy, won the first prize; in the three year old hackney fillies' competition, Mr. Pabst's Matchless Princess was second, and in the single harness horses' competition, Alfred Vanderbilt's Rustling Silk was third.

In the competition for pairs, mares or geldings, in phaeton, driven by a lady, Walter Winans, an American resident of London, won first prize with Coker's Rosador and Proserpine, Mr. Vanderbilt was second with Columbia and Highboy, and C. W. Watson, of Baltimore, Mr., was third with Kitty Grey and Ringing Bells.

For trotters, stallion, mare or gelding, with a record of 2.30 or better, Mr. Winans was first with Barn Eye. The horse is nineteen years old and will be exhibited again. Mr. MacKay took second and third prizes with Auditor B. and Roseworthy.

Mr. Maclay won the first prize for the best road rig with Auditor B. and won the second prize with Roseworthy.

In road teams, Vanderbilt won the first prize with four greys, the owner driving.

The output of Transvaal gold at present averages over $10,000,000 per month.

SKIN DISEASES

Salt Rheum, Pimples, Erysipelas, Ringworm, Shingles, Scald Head, Itching Sores.

All diseases of the skin are more or less directly caused by a bad state of the blood, which produces acrid humors and corrupts the secretions.

No one can expect to have a clear, bright skin when the blood is in a disordered condition, and the stomach, liver and bowels acting feebly in consequence.

All the above skin diseases, in fact, any disease arising from a bad condition of the blood, are curable by

BURDOCK BLOOD BITTERS

through its wonderful cleansing, purifying powers, on the blood, and its renovating action on the system.

Mr A. Squire, Dominion, N.S., tells how he was cured of Salt Rheum. He writes: "For years I suffered with Salt Rheum, and was unable to find a curable remedy out of all the medicines I took, and Physicians consulted. Finally I was urged by a friend to try Burdock Blood Bitters, and after a very short space of time I was completely cured. I shall always recommend B.B.B. for such cases, as I consider it an indispensable remedy."

Price $1.00 per bottle or 6 bottles for $5.00.

MORE INTERESTING NEWS FROM THE COBALT AND ROSSLAND CAMPS

A Scene on the Trethewey.

A special from Cobalt says: The Buffalo Saturday took out sixty sacks of ore, running from 17,000 to 18,000 ounces to the ton. This ore was taken from an open cut in the scene of the big strike on May 10. Two slabs of argentite, covered with coarse native silver, were taken from a drift at the 85 foot level on No. 5 shaft.

The Cobalt Central Company has issued a circular to their shareholders, in which it is stated the shaft in the Big Pete has reached a depth of 140 feet. The first drift is now about 175 feet long, and another drift is well under way at the 115 foot level. It is said that in all these workings the ore is of uniform value. Outside development work will be vigorously pushed now that the weather conditions are favorable. Manager Elmer expects the concentrating plant to be running early in August.

It is reported that two offers have been made for the Dufferin Cobalt Mining Company's 60 acre claim on Coleman township. Both of these offers are in advance of the purchase price, and one may be accepted. The mine is entirely owned by Ottawa people, and both offers come from capitalists.

Mining companies capitalized at about $10,000,000 were incorporated as follows:

Cobalt Combine Silver Mines, Toronto, $1,000,000.

McKinnon Mines, Haileybury, $1,000,000.

Montreal River International Silver Mines Toronto, $1,000,000.

Munroe Prospecting and Developing Co., Cobalt, $200,000.

Dr. Orok Larder Mines, Haileybury, $750,000.

Beaver Superior Silver Mines, Toronto, $5,000,000.

Hanson Consolidated Silver Mines, Toronto, $100,000.

Murphy Mines, Haileybury, $1,000,000.

Master-Stein Cobalt Mining Co., $1,000,000.

Cobalt Silver and Gold Claims Co., Cobalt, $40,000.

Rossland, B.C., June 10.—Nest Egg mine has been leased by Edward Webb from the British Columbia Land and Improvement Agency, Ltd., London, England. Mr. Webb will immediately begin operations on the Nest Egg, which has not been operated since the fall of 1897. Shaft is sixty feet, and drifts fifty feet on ledge. Ore is of a good grade, and ledge is a strong one.

Mr. Webb, who knows the property, is satisfied he will be able to make considerable out of his lease. Shipments of ore for the week were: Centre Star, 2,630; Leroi, 3,080; Leroi, two, 490.

Total for week, 6,200, and for year to date, 111,405 tons. Trail smelter received 2,869 tons during the week, and Leroi smelter, at Northport, 3,080 tons.

A. Hall, of Haileybury, has entered an action at Osgoode Hall against George Crawford, of Haileybury, and Frank Thomas, of New Liskeard, for specific performance of an agreement for the discovery, staking and recording by the defendants of the plaintiff of twenty-four mining claims in the Montreal River region or for damages for non-performance.

A Cobalt special says that E. P. Earle, of the Nipissing; W. B. Thompson and J. E. Thompson, all of New York city, accompanied by W. B. Russell, Arthur Ferland and W. H. Linney, who spent last week in Cobalt, inspecting their latest acquisitions, the Chambers-Ferland holdings and the Violet mine, have purchased the O'Brien interest in the 140-odd acres which remained in that syndicate's holdings, after the selling of the 846 acres to Nipissing and the 154 acres held by M. J. O'Brien and J. B. O'Brien, now known as the O'Brien mine. Mr. Earle and his New York associates acquired the Violet mine adjoining the O'Brien, some six months ago. The company will be known as the "Chambers-Ferland Cobalt," and will have a capital of $1,500,000. W. H. Linney will be the engineer in charge of the development work, which will be started immediately.

The following are the ore shipments and smelter receipts in south-eastern British Columbia districts for the past week and year to date in tons:

Shipments.	Week.	Year.

A big time is expected in Cobalt on July 25 and 26, when about 200 mining engineers from the United States will visit the camp. The party expected are all members of the American Institute of Miners, and arrangements are being made for their reception by the Cobalt branch of the Canadian Institute of Miners, of whom they will be practically the guests during their two days' visit. The visitors will be taken on a tour of inspection over a number of the properties, and privilege likely will be granted by a number of the mine managers to go down the shafts and make an examination of the work being done below the surface.

A Cobalt despatch says: Thomas Nevins & Sons, of New York, are reported to have purchased the Gamey or Wright lot, located near the Trethewey, and until recently owned by Mr. Denis, a Michigan operator. It is said this will be added to the Cobalt Central holdings and put on the English market.

The R. L. Bernier Company, of Chicago, are also known to be making good purchases in the camp. Capitalists are ready to buy good Cobalt properties, and this summer will see many changes in the camp and good development.

A good strike was made in the crosscut at the 75-foot level at the Duchess property last week.

The excitement over Larder Lake, says a Cobalt despatch, increases, and the number of people convinced of the permanence of the camp steadily grows. The magnificent samples brought down from there by Colonel Rogers are sufficient to convince the most sceptical that gold abounds there.

A mill run at the Larder Lake Proprietary mine is predicted by the middle of July.

THE UNITED STATES POLICY AT HAGUE

Disarmament and Enlarged Arbitration Provisions Will Be Chief Matters Advocated.

Washington, June 10.—The second Hague Conference will assemble next Saturday. The part to be played by the United States in this great international gathering, and the nature of the instructions under which her delegates are to participate in the congress, are now fairly well known.

Of the first order of importance is the proposal that improvements be made in the provisions of the existing convention relative to a peaceful settlement of international disputes as regards the court of arbitration and the international commission of inquiry. Instructions of the American delegates on this point are known to be explicit. They are to do everything in their power to influence the conference to enlarge powers of the permanent Hague tribunal in dealing with arbitration cases; above all, the effort is to be made to bring more business before the tribunal; to induce nations to have more frequent recourse to the arbitral tribunal for the settlement of their disputes.

The fact is that the President and Secretary Root are disappointed at the very small issue from the august tribunal. Since its creation it has passed upon just four cases:—First, the Pius case, involving the disposition of the fund set apart by Mexico to satisfy the Catholic Church in California for church property taken over by the state; second, the settlement of the question growing out of the blockade of Venezuelan ports by the allied Powers; third, the Alaskan boundary question between Great Britain and the United States; fourth, the decision of a question between Japan and Great Britain as to the exemption from taxation of foreign dwellers in Japan. Realizing that from its isolated position the United States is less affected by the needs of great armaments than are the closely crowded countries of Europe, Mr. Root believes that the very fact of isolation and comparative freedom from danger on this score makes it possible for the United States to advance the disarmament proposal with more advantage than any other nation, and without any question of disinterestedness.

ARMY IS NOT GOOD ENOUGH.

Prosperity of West Tempts Soldiers to Desert From Barracks.

Special to The Montreal Star.

Victoria, B.C., June 10.—The military authorities at Work Point Barracks, the headquarters for the regular Canadian militia on the Pacific Coast, are having a rather hard time keeping the men under their charge from deserting. It is the general opinion among the men that they are wasting their time in the army with wages as they are at present. They are of the opinion that there are openings in the West for any person who is desirous of taking advantage of them, and they are not going to let the opportunity slip by. The deserters adopt very novel methods of disguising themselves in order to make good their escape, and some very funny experiences are told of those who have been captured. Recently two of the Imperial soldiers made an attempt to desert, but they were located on board the Seattle steamer. They were sentenced to ten days in the guard room. A sentry was placed over them. One morning the sergeant in charge went to relieve the guard and was surprised to find not only the two offenders gone, but also the guard.

SIX MINERS WERE BURNED TO DEATH

Burning Shafthouse Prevented Their Escape—Fire Started by Lighted Candle.

Special to the Montreal Star.

Edmonton, Alta., June 10.—Six miners lost their lives in a mine disaster here Saturday, when the engine-house and shaft house of the John Walter coal mine, on the south side of the river, opposite the city, was burned. Five miners who were working on the night shift attempted to escape by the air shaft, but this being in the same building as the main shaft immediately caught fire on the surface, cutting off escape and igniting their clothing. They fell back into the mine. Their charred bodies were taken from the foot of the shaft, 90 feet below. The sixth victim, George Lamb, in attempting to warn his companions, was burned on the arms and legs. He died at the hospital a few hours afterwards.

The names of the victims are:—Joseph Hardy, aged 52, pit foreman, leaves wife and two children in England.

Percy Harrington, aged 27, unmarried.

Geo. H. Lamb, aged 30, day foreman, unmarried.

Wm. McLellan, aged 24, unmarried.

J. O. Tetley, aged 27, unmarried.

The fire was caused by a lighted candle in the engine house. The fire did not reach the mine drifts.

Will of James Kelly.

Special to The Montreal Star.

Wingham, Ont., June 10.—The will of the late James Kelly has just been entered for probate. The estate, which consisted of lands, securities for moneys, and life insurance, is divided between a daughter living in Winnipeg, a son practicing law there, another son in the insurance business in Hamilton, a sister in Manitoba, and a niece residing in this town. The latter receives one thousand dollars as her share.

Death of Rev. Dr. Gaetz.

Red Deer, Alta., June 10.—Rev. Dr. Gaetz died yesterday, at the age of 66 years. After a distinguished career in the leading Methodist pulpits in Fredericton, N.B., Montreal, Toronto, Hamilton and London, his health broke down in 1883, and he settled at Red Deer.

The discovery has been made that a febrifuge almost equal to quinine can be extracted from the sunflower.

STREET IMPROVEMENTS IN CAUGHNAWAGA.

Caughnawaga village is rejoicing just now over the prospect that the streets and lanes will be placed in better condition. The council, composed of Mayor John Skye and Councillors Michel d'Aillebout, John d'Aillebout, Lazare Deragon, Michel Leclaire and Louis Jocks, were opposed to the going of engineers to undertake the work. As the people of Caughnawaga paid no municipal taxes the councillors could not see that the people were entitled to improvements. The people viewed the question in another light, however, and sent delegates to Ottawa.

Two weeks ago, a couple of engineers reached the village, and did a little preliminary work. On Thursday last, they went down and engaged assistants, started in earnest the work of straightening the streets and roads, and surveying the village so that each may have the land apportioned to him by the tribe or the council. Mayor Skye, though originally opposed to the scheme, has accepted the decision of the department and now appears as anxious as anybody in the village to see the work carried out with all possible despatch.

Shooting Outrage in Clare County.

News of a desperate shooting outrage is to hand from the Ruane district, County Clare, the victim being John Murphy, a young man, of the farming class, who resides at Rinneen. Murphy left his house in the evening to visit his nephew, who lives in the Crusheen district. He was on horseback, and on his return home, within three or four hundred yards of the village of Ruane, two gunshots were fired at him from behind a hedge at the left side of the road. Though badly wounded he galloped back to Ruane, and reported the outrage to the police barracks. The outrage is said to be attributable to local feeling over a farm at Rinneen which was some time ago taken in divisions by several farmers, of whom Murphy was one.

A STRANGE MISTAKE.

In publishing the results of the second year examinations, a strange mistake was made in listing the names of those who had passed, the names of those who had not passed in the total of subjects, but had made good in one or more of the individual subjects. Following is the correct list of those who were successful in all the subjects of the second year, comprising the following Anatomy, Practical Anatomy, Physiology, Practical Physiology, Organic Chemistry, Applied Medical Chemistry, Histology, Pharmacy and Pharmacology: Anderson, W. M.; Atkinson, P. McL.; Auld, F. M.; Bailey, C. V.; Ballem, J. C.; Benoit, H. W.; Bramley-Moore, A.; Cameron, G. L.; Carney, M. J., B.A.; Churchill, L. P.; Cody, H. C.; Conn, L. C.; Cotton, T. Second Day of the Millinery Sale!

Crowds have seen our elegant window displays of dainty Millinery; one look was sufficient to captivate hundreds of purchasers. Those who have not seen them should come to the store to-morrow.

Every Hat in the store reduced all the way from one-third to half regular value and real worth.

A Three Day Wash Goods Sale!

Sales here are a succession of achievements, and as the season progresses keener and broader efforts are made, with the result that the store is sure to be crowded with people who find it not only pleasurable but profitable to shop where "everybody shops."

We've made great preparations for this sale. We have attempted to make it an event that will be long remembered. These beautiful sheer Wash Fabrics will be sold at lower prices than ever before for such high grade materials. No seconds in the collection.

MAYOR TO START STRIKE.

Montpellier, France, June 10. — A monster demonstration yesterday by wine growers marked the climax of the situation, which has arisen because of a demand by the growers that the Government stop the widespread wholesale adulteration of wine. At the recent gigantic meeting, held at Perpignan a resolution was adopted that if the government did not fully satisfy the demands of the growers a civil strike would be inaugurated this month.

At a meeting held after the huge parade yesterday Marcelin Albert referred to this resolution, and announced that the time had come for action. He invited the assembled multitude, which was estimated to number over 400,000 to swear solidarity of action, and immediately every hand was raised.

The mayor of Narbonne will be the first to open the strike. He and the entire municipal council will resign after having previously dismissed all municipal employes.

ROGERS ENTERS NEW PLEA.

Middletown, N.Y., June 10.—Charles H. Rogers, charged with the murder of the Olney brothers and Alice Ingerlok, and now in the Goshen jail, awaiting trial, appeared before Justice Tompkins and through counsel entered an amended plea of not guilty, on the ground that he was insane when the crime was committed.

It is regarded as probable that a commission will be appointed to determine Rogers' mental condition.

The Holiday House is well fitted out with commodious galleries and hammocks and quantities of books; and there are extensive grounds and several boats in connection. The charge per week is $2.50. Married women and children are not admitted, the purpose being, merely to afford an opportunity for rest and change to girls working in departmental stores, warehouses, factories, etc. Contributions will be received by Miss Howard, 22 Tupper street, who will also receive applications and answer all inquiries in regard to the work.

The residents of the town of Langham, Sask. (on the main line of the C. N. R.), during the week of May 26-31, received an object lesson as regards the keen interest of homeseekers (both from Canada and the States) in the opportunities for home-building the western provinces of Canada afford. During that week and following the announcement of the late opening up of Doukhobor lands for homestead entry (several townships of which were in near proximity to Langham) close to eight hundred prospective settlers from various points in Canada and the United States thronged the town, and driving into the country viewed the fertile agricultural lands in that vicinity. It is estimated that for every available homestead near Langham there were at Prince Albert on opening day 200 applicants — between three and four thousand people. Langham is a town of 500 people in two years' growth, has business representation in all lines, has two banks, four elevators and a grist mill and three hundred thousand bushels of wheat of the crop of 1906 were marketed there. The fact of the widely known agricultural advantages of the district and its market facilities doubtless had much to do with this phenomenal rush of land seekers.

MANY MONTREAL PULPITS WERE OCCUPIED BY VISITORS TO THE PRESBYTERIAN GENERAL ASSEMBLY

Assembly Sabbath was marked throughout the majority of the Presbyterian, Methodist, Congregational and Baptist Churches of Montreal by the presence of visiting clergymen in the pulpits. It was a practical illustration of the union which is in the air, with the Presbyterian brethren in control of the new united Church.

In the Assembly church, Erskine, there were three special services. Rev. J. W. Falconer, the new professor of New Testament, Greek and Exegesis in Halifax Presbyterian College, preached in the morning. Mr. Falconer is a son of the ex-Moderator, and a brother of the new President of Toronto University. In the afternoon there was an Assembly Communion service, when an address was given by Dr. Miller of Halifax, and a group of elders officiated at the Lord's Table.

The evening service took the form of a platform meeting, engirdled with religious ceremony, at which addresses were given on two laymen's subjects, the Laymen's Missionary Movement and the Presbyterian Brotherhood.

The address on the Laymen's Missionary Movement was delivered by Rev. J. A. Macdonald, who mentioned in opening that he was present at the Assembly as an elder, not being technically a minister, as he has no charge.

Mr Macdonald sketched the rise and origin of the general movement among laymen underlying both the missionary movement and the Presbyterian brotherhood. The laymen's movement, he pointed out, was not a machine. It was a great energy, a great enthusiasm, to be organized for the benefit of the Church.

The new movement was born in the United States of the Church's sense of need. Controversies over creeds had weakened the Church's powers. The revelation of rottenness in the Republic awoke the Church. There arose a feeling that the Church was not doing its work. An appeal was made to the laymen. First in Chicago, by a few men calling themselves a brotherhood, then in Cleveland, in New York, and in St. Louis. The Assembly heard of it and tried, as assemblies often did, to bury it in committee. But it had too much life and it survived, and enlisted the leaders in business and in industry. There was a real revival in the churches, and among the men. Men began to take their religion as real, as they took politics.

At the very core of the movement was the culture of the individual man in the things of faith. It meant the obligation on each man to do the thing that he could do best; and it brought the conviction that each man had a special work to do.

That was the laymen's movement, translated into the Presbyterian Brotherhood. It had its parallel in the Laymen's movement for Missions.

This laymen's movement was also a power, no a machine. It worked through existing machinery; and its motto was "The Evangelization of the World in this Generation."

It was a movement among all chuches. It was active in Canada, as well as in the United States. In the United States it dealt only with Foreign Missions; in Canada it included both the home and foreign fields.

Dealing with the future of the movement, Mr. Macdonald expressed the view that might revolutionize machinery, might alter the map of the world. It might mean a vision that the financial methods were inadequate, a vision that the lack of more capital was resulting in the wasting of the capital already invested. Thus it might lead to the opening of purses and the adequate equipment of missions with all that would mean.

The great danger of the day, he said, was not war or pestilence. It was cynicism, the losing of ourselves in the search for wealth. The laymen's movement was an antidote to this danger. It would show men that there was something more worth while; and in doing so, even if there was not a heathen to be saved, the movement would be bestowing an untold benefit on the world.

Mr. Macdonald appealed to the layman to surprise the ministers by coming out to the mid-week meeting. There were problems which only the laymen could solve; there was work that ministers and women could not do. It was the duty of laymen to grapple with the commercial and national problems. That would make the church a national church. An income from the state exchequer only made a church a grafter. That church was national which was related vitally to the national ideals. He called on them to think what this vital relation would mean to the nation. It would mean that a stronger call upon young men than commerce or combine. The Presbyterian laymen could root out from the country more graft than the most clear-sighted man in the assembly could see.

"Are we in Canada to make a poor greasy reproduction of the Republic across the line or of the lands across the sea?" he asked. "Cannot we have a new ideal? A nation where men were all honest, where business is all clean, where the goods inside the can are what they are marked on the outside, where a man's bond is as good as his word. And," he concluded, "it is only by the power of a redemptive gospel that these national ideals can be maintained."

Rev. C. W. Gordon, who dealt with "the Presbyterian Brotherhood," had already preached twice during the day and spoke but briefly. The Presbyterian Brotherhood was established, he said, to do away with two anomalies: that the financial leaders in the church were not giving personal service, and that there was no permanent organization among the young men. It had been organized, under the auspices of the American General Assembly in a convention at Indianapolis and had spread into Canada.

Ralph Connor, like Mr. Macdonald, emphasized the non-machine character of the movement. There was no hard and fast constitution. Each brotherhood was organized according to the need of the church in which it was formed. It was adaptible, and in that was true to the methods of Jesus Christ.

The men of the church, went on Mr. Gordon, were anxious to work. They were not lazy. He appealed to the ministers of the church to guide them, to show them how and to allow them to work. Church life had been revivified in Chicago during the last seven years. Forty thousand Presbyterians were united in the Brotherhood, and through their efforts new mission churches had been opened. A dying mission through the brotherly help of one Brotherhood, had been transformed into a flourishing congregation in three years. The Brotherhood had put new life into the mid-week services; had brought into it the leaders of finance and industry; had made it clear that no man who was a Christian could be exempted from any Christian service. Mr. Gordon, in one sentence, based his faith in the Brotherhood on the ground that it would concentrate the energy of leaders in financial and industrial life and turn it to the service of Christ.

REV. DR. PATRICK AT AMERICAN PRESBYTERIAN.

At yesterday morning's service of the American Presbyterian Church, Rev. William Patrick, D.D., principal of the Manitoba College, Winnipeg, preached an interesting sermon to a large congregation.

The rev. gentleman took his text from St. Matthew, chapter II., v. 28 and 29, as follows: "Come unto me, all ye that labor and are heavy laden, and I will give you rest. Take my yoke upon you, and learn of me; for I am meek and lowly of heart, and ye shall find rest unto your souls."

The preacher declared that Jesus stands absolutely alone among men. Imagine, said he, any person in this audience, 30 years of age, or more, leaving their seat and taking the pulpit and inviting those present to "Come unto me and I will give you rest." Rev. Dr. Patrick said he had known scores of men who had been successful, in a business way, far beyond their fondest expectations, yet they had not found peace nor rest. Sin, he said, was the most fatal of all diseases and men and women will not give up sin.

"Come unto me," said Jesus, "and I will give you rest." This declaration will be fulfilled unto the end. Christianity should be judged by its fruits, and men and women can only find peace and rest in God. Truth, he said, is an element of rest, and forgiveness is an element of rest. Lack of faith is the cause of sin.

Rev. Mr. Patrick then pointed out to the congregation in eloquent terms that we have not become the Christian men and women we might have, but it was not want of willingness on God's part. "What is Christianity?" asked the preacher. "Jesus in me is Christianity. 'Come unto me,' said Jesus, 'and I will give you rest.' In no other way is perfect peace and true rest to be found."

REV. DR. DUVAL AT ST. PAUL'S CHURCH.

At St. Paul's Church (Dorchester street), the preacher was the Rev. F. B. DuVal, D.D., Winnipeg. He chose as the subject of his discourse the fifth chapter of Matthew, his text being "Blessed are they which are persecuted for righteousness' sake," and treated his subject in a most able and picturesque way. His sermon was intently followed by a large congregation, as also was the beautiful choral service. The preacher drew a picture of the Christ as the giver of all good, and brought out well the greatness of our debt to him.

"Just as the sun is the giver of all good gifts to earth, so also in the spiritual world do all good things on earth below come from good things above."

How great was the love of Christ in bringing to earth a foretaste of the love of the Father! How he had been received! What had been the history of the great teachers! The early struggles of Socrates to inculcate deeper principles of spiritual life, to lift his fellow-men from their superstitious degradation had been met by charges of atheism. He was persecuted and put to death. "Truly, the man who hangs in the lowest plane is the man who lives, but the man who tries to elevate all is the one who has to pay in suffering and in death."

Give life for the life of others is the order of the universe, and give it especially for the order of the universe. So it was above all with Jesus. He told them plainly that God did not live in Jerusalem. They who worshipped him could do so anywhere, but they must do so in spirit. Immediately they replied: "Thou art come to destroy the law." To which Christ gave forth the magnificent apologetic. "Think not that I am come to destroy the law, or the prophets; I am not come to destroy, but to fulfil." How much there was in the word "fulfil." Christ came to repaint the image of God, and to correct all the errors that had crept around the worship of God. His advocacy of the truth to the would-be saints of the time was surpassing in its directness. Were they such as the Scribes and Pharisees, they should not enter into the Kingdom of Heaven. No cold, legalized and mechanical observance of religious forms and ceremonies was adequate worship. They must find room for justice, mercy and faith. God is for all and for no exclusive worship, but "for Greek and barbarian, bond and free." This was Christ's resurrection of the law, the 'fulfilment' of it. We must not loog for a quid pro quo for worship."

The preacher went on to show the necessity for moral excellence and the descent of the moral ideal to us from Heaven above, with the great aim of the Messiah. We must in our great country among those of all nations, and all creeds study the conception of the conversion to life and revulsion against sin, and remember that God is for all. He that created will recreate, but we must accept His way.

The heaviest test of Christianity is here and now. Where Christianity has to show its power to save the masses brought into heterogeneous relations with one another from the ice-bound north to the sunny shores of the Pacific.

The Rev. Dr. DuVal is pastor of Knox Church, the most influential church in Winnipeg. He is French on his father's side, and his mother was Scotch. He has been a member for 19 years of the College Board and College Senate, and in that time has examined personally all outgoing students and missionaries for the prairies. He is chairman of the city committee for the suppression of vice and lately carried a law through Parliament aiding the police in that regard.

REV. PRINCIPAL MAGILL WARMLY UPHOLDS LABOR UNIONISM IN CANADA.

Rev. Principal Magill, Ph.D., of Pine Hill College, N.S., speaking before the men's association of Taylor Presbyterian Church at their afternoon meeting, lectured on the position of the working men in Canada. It was a subject on which Principal Magill was eminently qualified to speak, having a thorough acquaintance with labor conditions in the Maritime Provinces and also in the Old Country. He declared his belief in trades unions as a power for good, both for the people and for Canada; though he admitted also the possibility of evils arising through the abuse of the power gained through such organizations. He prophesied the ultimate supremacy of labor interests in the administration of Canada.

"The working man in Canada today," said Dr. Magill, "has tremendous advantages over his fellow-laborers in other countries,—advantages which accrue to him in many ways.

"In the first place, Canada is underpopulated. With food and work for a hundred million people, she has a population of a little over six million. For any able-bodied man, skilled or unskilled, there is an abundance of work offered in Canada — in her manufacturing, in the tilling of her soil, in the exploitation of her mineral wealth and in the extension of her railways. Wages for this work are at a very high level, tremendously high as compared with those in Great Britain, which is much over-populated with her forty-two million inhabitants.

"Again, we have on the statute books in Canada a splendid set of factory laws, designed for the protection of the workers. True it is that they are not always well administered, but who is to blame, but the men themselves. Many of them for the sake of a little gain do not want these laws obeyed; and it is the function of trades unions to see that they are.

"One of your greatest advantages is that your trades unions are recognized by law here as nowhere else. Statesmen fully acknowledge your right to combine. In Great Britain the result was attained only by terrible struggles, but you have attained it by peaceful legislation.

"I think little of a man in any trade who does not join a union," declared Dr. Magill. "I would not call him a scab or persecute him, or anything like that, but I would merely regard him as a simple fool who would not seize the opportunities to be gained by organization; who, in brief, threw away his birthright to no end.

"You have your advantages also," continued the speaker, "in possessing such ample opportunities for educating your children. The public school system in Canada is the finest system of universal education in the world. You may think I am exaggerating, as it is said Irishmen sometimes do, and I am an Irishman, but I am not exaggerating. I speak as one having an intimate knowledge of the educational systems.

"And now, finally, think of the political power you hold. Every working man in Canada has a vote. It is a tremendous power and it means that sooner or later, under this universal suffrage, the working classes by sheer force of numbers will hold the House of Commons in the hollow of their hands. You have a power which working men in Great Britain, 'the freest country in the world,' never had.

"Great power is a good thing, but all depends on how it is used. You will one day have great power, but if you use it ill, it will mean tremendous wars between you and the other classes. If you do not educate yourself to its use, the result will mean war between those with numbers behind them and men of intelligence.

"I am told that in Halifax at the last elections votes were bought for the sum of two dollars each. Here is one of the gravest dangers. You complain of graft at Ottawa, of graft in the municipalities; but the worst graft in this country is the graft among the voters. It is the cause of all the graft in higher places. The working men could do nothing better for their country than to expose this graft among their fellow workmen. Through honest voters only can be secured an honest administration."

IT HOPES TO RIVAL CUBA.

Republic of Santo Domingo, With a Few Years of Peace, May Do Something.

Dr. W. A. Morris, physician to the United Fruit Company, in the Republic of Santo Domingo, and brother of Sir Edward Morris, attorney-general of Newfoundland, is at present in Montreal.

Interviewed yesterday, he made the most optimistic statement regarding the progress of the republic under the regime of President Ramon Caseres, who succeeded the unfortunate Morales when that leader was practically forced to leave the country. He praises the present head of the executive, and spoke of the new prospective loan as likely to do much good to the island. In the arrangement for the collection of revenues, the 45 per cent. for the island expenses will be of as much service to the island as were the full revenues under the old system. The population of San Domingo is now, Mr. Morris says, about 600,000, and the revenue last year amounted to $3,200,000, but he thinks that under the new system of collection the sum will increase from year to year. He believes that ten years of peace will make the island rival Cuba, the Queen of the Antilles for fertility and production.

PLAN OVERTHROW OF JAPAN GOVERNMENT

Programme Includes Demand of An Apology and Indemnity From the United States.

Washington, June 10.—That the Japanese of the Pacific coast and the Progressives, a political party of Japan, have entered into an alliance, which has the earmarks of an international conspiry, with the overthrow of the present ministry in Japan and the annulment of the clause in the immigration bill, excluding Japanese coolie labor from continental United States as the ultimate objects, was learned authoritatively here.

The preliminary steps in this scheme, it is said, will be to induce the Tokio government to recall Viscount Aoki, the Japanese ambassador to the United States, and to demand an apology and perhaps an indemnity from the American government for the alleged acts of violence against Japanese subjects residing in San Francisco.

With this end in view, representatives of the faction hostile to the Sainje ministry, have been in Washington to consult the Japanese ambassador and the State department officials regarding the objectionable clause of the immigration bill, the California school question and the recent riots in San Francisco. The report which they have sent to Tokio, it is alleged, will form the basis of a systematic campaign to bring about anti-American demonstrations in Japan and to force Foreign Minister Hayashi, if possible, to demand indemnity and an apology on account of the Japanese disturbances in San Francisco.

JAPANESE PRESS ON SITUATION.

Tokio, June 10.—In regard to the recent attack on a Japanese bathroom and restaurant in San Francisco, the Jiji advises its readers not to believe that the unfriendly sentiments of San Francisco are shared by the whole American nation. The paper points out danger to friendly relations between Japan and the United States, which might result from such mis-apprehension. It also expresses full confidence that the Washington government will be able to settle the matter satisfactorily.

The Hochi suggests that the traditional friendship and the outrages suffered by the Japanese in the United States are two things that must be kept distinctly separate in solving the question of assault on Japanese in San Francisco, which is not at issue. The Hochi says that the outrage should be considered irrespective of the locality of the occurrence. It says further:

"The San Francisco incident concerns not only the rights of the Japanese there, but the honor of Japan. The future relations between Japan and the United States are involved in this question. Our demand must be firmly insisted on, and sentimental considerations set aside. Thus will be the friendship of both nations placed on a firm footing."

Viscount Tani, leader of the opposition in the House of Peers, and head of the defense of Kumamoto in the Satsuma rebellion, is reported to have said: "The persecution of the Japanese in San Francisco is a most wicked act. Should diplomacy fail to bring about a satisfactory solution, the only way open to us is an appeal to arms. Our mind is firmly made up. It is certain that America will yield, for its people are radically commercial in their sentiment."

AUTOMOBILE SMASH HAS FATAL RESULT

One Dead and Many Injured — Man Ground to Death in a Turntable.

New York, June 10.—One death and the injury of nine persons resulted from an automobile accident on Ocean Parkway, yesterday.

Thomas H. Effner, of Sheepshead Bay, was killed, and James Sweeney, of Saratago, N.Y., also an occupant of the automobile, was reported dying.

William C. May, chauffeur; Frank Short, and Jackson Morris, other occupants of the machine, were likewise injured, but not so seriously as Sweeney.

Le May, who was at the wheel, ran down a carriage on the parkway, and both vehicles were wrecked. William Anderson, of Sheepshead Bay; Herbert F. Drinkwater, of London, England; Roy Reeder, of Manhattan, and two young women, were the other persons hurt.

BODY JAMMED UNDER TURNTABLE

Rochester, N. Y., June 10.—Patrick Lee was literally ground to death in a turntable at Manchester. A huge engine was on the turntable when it refused to work, and the employes, who investigated to find what was clogging it, found Lee's body jammed under the table on the track of the wheel and against the wall of the well.

ENTANGLED IN PARACHUTE ROPES.

Granite Falls, Minn., June 10.—Entangled in the ropes of a parachute, John Juepuers, an aeronaut, of Utica, N.Y., met death by drowning in the Minnesota River. The wind carried the balloon up the river half a mile before the aëronaut detached the parachute. In some manner his arms and legs became entangled in the ropes and when the parachute struck the water he was unable to save himself.

RAN WITH FRACTURED SKULL.

Buffalo, N.Y., June 10.—Two boys met accidental death yesterday, Andrew Kotelec, seven years of age, stumbled and fell against an iron grating as he was running home. His head struck the iron, but the plucky little lad got up and ran home with a fractured skull. He died when he got there. Earl Wicks, another seven year old boy, was scooping minnows when he fell in the stream and was drowned.

STRUCK BY SWITCH ENGINE.

Rochester, N. Y., June 10. — Wm. James, who had tramped from Blackfoot, Idaho, in order to meet his sister here, was killed in the Lehigh Valley yards, at Shortsville, by being struck by a switch engine.

TWO BODIES IN HUDSON.

Albany, N. Y., June 10.—The bodies of two men were taken from the Hudson River here yesterday. One is believed to be that of Wm. P. Kennedy, who had been living at Schenectady. The other is unidentified, but from papers found on him it is believed he lived in Troy.

Will Inspect Pupils' Work.

The annual meeting of the Council of Arts and Manufactures will be held on Tuesday forenoon, at the office of the board, Monument National. All the members from the various parts of the Province will be present. The annual report will be submitted, and the election of officers for the ensuing year will take place. Before the annual meeting, the Council will make an official inspection of the exhibition of the pupils' work to be inaugurated in the evening.

THE JUNE BRIDE.

The thousand and one things that a bride needs are to be found in great variety at the dry goods store of Messrs. Jas. A. Ogilvy & Sons, St. Catherine street west, corner of Mountain street. Their announcement on page 5 of this issue of the Star furnishes a long June sale list.

TYPOGRAPHICAL UNIONS HONOR ORGANIZER.

The Montreal Labor Hall was crowded on Saturday night with members of the Typographical Unions, who assembled for the purpose of doing honor to Mr. Charles S. Brown, of Toledo, international organizer of the Union. During the past few weeks Mr. Brown has been actively engaged in the city in connection with the agitation for the eight-hour day, and now that this object has been attained, the members thought it fitting that prior to his departure they should present Mr. Brown with some tangible token of their esteem. This suggestion when made by the committee was immediately taken up with great enthusiasm by the members of the English and French branches of the Union. Mr. W. Hughes, president of the English branch, and Mr. Franc, president of the French branch, acted as chairmen. On behalf of the French union, Mr. Brown was made the recipient of a handsome gold ring set with a large Ameythist, while the English union presented him with a silver-mounted umbrella and cigarette holder for himself and also a gold brooch set with pearls and turquoises for his wife. Suitable reference was made to the great work done for the Union in the city by Mr. Brown, and in reply that gentleman expressed the hope that a bright future lay before the members of the Union in Montreal. A few pleasant hours were spent together the utmost cordiality existing between the representatives of the French and English sections. The presentations were made by Mr. J. Cantwell and Mr. Rodier, of Nos. 176 and 145 respectively.

Natural History Society Excursion.

Over two hundred of the members and friends of the Natural History Society visited Isle aux Noix on Saturday the occasion being the annual field day of the society. On the arrival of the party at the historic island a visit was paid to the various buildings, including the Governor's house, barracks and officers' quarters, also to the museum and old sun-dial in the centre of the grounds.

Among those who attended were:—Dr. and Mrs. Penhallow, Miss Van Horne, Dr. and Mrs. Frank D. Adams, Mrs. S. Finley, J. A. U. Beaudry, S. W. Ewing, Mr. Joseph and Mrs. Fortier, Mr and Mrs. Malcolm Gregory, A. Holden, H. H. Lyman, J. C. McDiarmid, Mr. Allan Phillips, Mr. E. Phillips, Miss Phillips, Miss Bickley, Miss Sloan, Mr. and Mrs. Griffin, Miss Ida Barrett, Mr. R. McLaren, Mr. J. M. Henderson Mrs. G. P. Girdwood, Mr. and Mrs. John Ward, Mr. T. Hiam.

A Street Car Fatality.

John Wilkins, 40 years of age, 1679 St. Andre street, while jumping from a moving street car on Saturday fell backwards on the pavement and fractured his skull. He died a few hours later in the Notre Dame Hospital. The victim had been a passenger on north-bound St. Denis car No. 900. When the motorman did not reduce speed at the corner of St. Denis street and Boulevard St. Joseph, Wilkins hazarded a jump.

Sherbrooke, Que., June 10.—Mr. John Copping, a large mill owner at Boswell, was so badly crushed at his mill by a log that he died two hours later.

ORCHARD PROVES AN IMPENETRABLE MYSTERY AND MOTIVE IN MAKING CONFESSION STILL BAFFLES EXPERTS

Special to The Montreal Star.

Interest in the Haywood case to-day centres around the coming of Steve Adams as witness for the prosecution. Adams was taken from jail at Rathdrum under orders of Judge Wood, Saturday night and reached Spokane in an automobile. He was placed aboard a train there and is now on his way to this city, where it is expected he will arrive to-night.

Speculation is rife over the testimony which Adams will give on the witness stand. He was an associate of Orchard for years, according to the testimony of the latter, Adams helped to pull the wire which caused the Independence explosion, killing fourteen men. He stood beside Orchard when the latter shot Lyte Gregory. He lay in wait with Orchard to assassinate Governor Peabody and it is declared he is the man who shot Arthur Collins through a window, while surrounded by his family. Of the two men Adams is said to have more human blood on his hands than Orchard has confessed.

While in jail at Boise last year, Adams made a confession which the prosecution declares corroborates the one made by Orchard in every detail. This confession he afterward repudiated and the attorneys for the defence feel sure he will do the same now when he is placed on the stand. Adams' confession like that of Orchard's was made in a number of separate chapters, each one detailing some particular crime. When he was on trial a few months ago at Wallace for the murder of Fred. Tyler, the claim jumper, only that chapter of the confession referring to Tyler was introduced. The defence does not know what the rest of the alleged confession contains except in a general way.

STORY WILL EQUAL ORCHARD'S.

If he repudiates the confession as expected by the defence, it will probably permit the prosecution to introduce the document in evidence. If it is introduced another story of murder and assassination will be unfolded which will equal that told by Orchard. It is not certain, however, that Adams will repudiate the confession. He is in a position where it is said he will surely be hanged unless he is offered immunity by turning State's evidence. While the trial of Adams at Wallace resulted in disagreement, the jury dividing strictly on class lines, it is said that even were he acquitted in this state he would be taken to Colorado and hanged for murders he is charged with having committed in that state. In that position he may decide to save himself by turning State's evidence, although lawyers for the defence assert he would rather be hanged. While Orchard and Adams are said to have been associated in crime, they are of entire different temperament.

Adams is human, and in making his confession he declared that industrial strife in the mining regions of the West was a class of war in which he felt justified in taking human life. He declared every murder he committed he did in hope that it would further the interest of the Western Federation of Miners. He has always been zealous, intensely interested in affairs of his union and willing to go to any extreme in his blind devotion to its cause. He is of highly emotional nature, a streak of emotional insanity running in his family, which is of Kentucky origin. It is easily understood how such a man might commit murders, he is said to have confessed to.

ORCHARD'S VANITY APPARENT.

Orchard's vanity is apparent. It sticks out all over him and he showed it plainly while telling of his crimes. It is true this vanity is not altogether incompatible with the theory that his religious conversation may have caused him confess. Any one who has attended religious meeting and watched effects of so-called "conversion" of persons know that such a man takes delight in proclaiming just how bad he was before he was converted.

It hardly can be said that Orchard has shown any particular pleasure in telling of his misdeeds, because he has not shown enough feeling for that, but his manner indicates pleasure rather than contrition.

Orchard's admitted willingness to die only deepens the mystery which surrounds this remarkable criminal. It is difficult to believe that any man would voluntarily place his neck in a halter. Life is sweet to the average human being, and if Orchard has been promised immunity it would be more easily understood why he has confessed. He himself declares he has no hope of escaping punishment for crimes he has committed, and every one connected with the prosecution says he surely will be hanged.

At the same time his action in turning States evidence has postponed that punishment for a year now, and indications are that in any case he will not be hanged for two or three years to come. It may be that he is a consummate hypocrite and that behind his conversion lies a desire to prolong his life.

A CRIMINAL WITHOUT EQUAL.

There is one thing about this criminal that makes him without equal in the history of criminal jurisprudence. What was the motive that prompted him to take human life in the manner he did. No one seems to be able to answer that question. Once he said, under cross-examination, that he saw non-union men at work in a mine and dynamite surrounding it, and he felt enough enmity in his heart to want to blow it up. But that was not the feeling which prompted him to kill. Orchard was never a union zealot. He did not take a very active part in the affairs of his union. He seldom attended meetings, and was never known to make any sacrifice to further the cause of unionism.

Some murderers have had a mania for killing. Orchard has no such mania, although he has no moral conception of human life. He said on the stand that at the time of the Vindicator explosion, he would just as soon blow up a mine and kill a hundred persons as one. He did not care about it one way or the other. He placed poison in the milk on Fred. Bradley's porch in San Francisco without thought of the other six members of the family, one of whom was a baby two months old. The whole family might have been poisoned had they not discovered the bitter taste of strychnine in the milk and left it unused.

During his stay in the penitentiary Senator Borah says Orchard did, on one occasion, show slight feeling on the attempt to poison the family of Bradley. Enormity of that crime did appear to affect him a little, and Senator Borah says he broke down on one occasion when speaking of the Steunenberg murder. But all his other crimes apparently had no effect whatever on him. They do not seem to have any effect on him today, in spite of his conversion. Only one thing that Orchard has done that appears humane was sending money to his wife in Canada. He deserted her and his child years ago, and married another woman, but after his conversion in the penitentiary he sent her money. He has written her on a number of occasions since he has been in jail. But notwithstanding the generally bad moral character of the man, and in spite of the revolting murders he has confessed committing, one could hardly doubt that he was actually telling the truth on the witness stand. That Orchard was the agent of others, as he claims, is something for the jury to determine when it has heard all the evidence.

CROSS-EXAMINATION RESUMED.

Orchard admitted during his cross-examination on Saturday that he still sends aid to his first wife whom he deserted in 1895. Since his imprisonment he sold a locket and chain and other objects for $115, most of which he sent to her. The warden disposed of the articles, which were not to be delivered until after the trial.

Orchard said the warden told him that he received part of this money from Governor Gooding. The latter may be examined on this point.

Witness said that he had not become acquainted with Pettibone until 1904, the early part of the year. He had roomed over Pettibone's store for a while.

"Was it not because of that fact that you met him?" demanded Mr. Richardson for the defence.

"No, I met him at headquarters."

Richardson went into the attempts made upon the life of Governor Peabody. He wanted to know why Orchard had gone to Cripple Creek to get Steven Adams to help him assassinate the Governor.

"Was it because he was a federation man?" he was asked.

"No," replied Orchard, "It was because I wanted a partner."

"Did you know Adams very well?"

"No."

Orchard constantly corrected Richardson as to inferences when he made his answers, and the attorney's recollection of his direct testimony.

WITNESS STUCK TO STORY.

Richardson went over his testimony on direct examination almost word for word with the witness, each question in direct evidence suggesting from five to twenty interrogations in the cross-examination.

Orchard adhered to every one of his first statements and elaborated them.

"Outside of your assassinations," Mr Richardson asked, "did you have any little enterprises on the side?"

Orchard said he gambled some with the money he drew from the federation, but lost oftener than he won.

"Did you ever hold anybody up in the street and take their money away from them?" "No, I did not."

Asked about the assassination of Lyte Gregory in Denver, Orchard said he had never known Gregory personally and had no grudge against him.

"What was the reason given you for the killing of Gregory?"

"Because of his opposition to the federation and the coal miners."

"But the federation had nothing to do with the coal miners, did it?" "I believe not."

"And there was not a coal strike on?" "Yes, I believe there was."

"But the coal miners belonged to Mr. Mitchell's organization?" "Yes."

Orchard said Gregory had been a deputy of the coal operators. He had also been a detective at Idaho Springs during a strike the federation was conducting there.

The witness said Pettibone had reported the proposed assassination of Gregory to the executive board of the Western Federation of Miners and had said the board thought it would be a good thing. Asked to name the members of the executive board at this time, Orchard gave the names of Jack Simpkins, James Kirwain, and Jack Williams.

Orchard said it was not Bob Meldrum of Helluride who was drinking with Gregory the night of his assassination, but a man named Mildrim, whose first name the witness did not remember.

Asked why he shot Gregory three times with his sawed-off shot-gun, Orchard replied coolly:—

"He didn't go down till the third shot."

"You kept pumping till he did go down?"

"Yes, there were five or six shots in the gun."

Orchard said he got $100 from Pettibone a day or two after Gregory's death.

"Was this specifically for the Gregory matter or were you a general salaried officer for killing people?"

"I drew money whenever I needed it."

"You didn't care what you did to get money, so long as it was not work, did you?" "I did not work much."

Orchard said there was no fixed schedule of prices for his crimes.

NOW WRITING AUTOBIOGRAPHY.

Later Orchard said he had written the story of his life in book form.

"Are you testifying from that narrative or in response to questions?" was asked.

"In response to questions," Orchard replied positively. He said he had been at work on the autobiography for a year. He said Detective McPartland had seen the work, but denied that McPartland had ever suggested any changes in it.

"When you and Jack Simpkins were talking about your experiences in the Coeur d'Alenes," questioned Richardson, "didn't you tell Simpkins that if Governor Steunenberg had not driven you out of Idaho you would be a rich man; that your former partners in the Hercules mine were all millionaires?"

"I told him part of that," Orchard replied. "I said my partners were rich men."

Orchard said that at the time Haywood told him to "pull off something" in Cripple Creek, because he was afraid there might be a split up in the miners' convention unless something was done, things were quiet in Cripple Creek, and the union had sent a committee to the Governor to urge that there was no further need for the troops.

"Are you sure that Haywood did not say there was likely to be a split up in the mine owners' association, and that the miners would have to do something if they wanted to retain the militia?"

Orchard declared that he mentioned nothing of the kind.

"At the time of the Independence Depot explosion, were not you having some relations with Detective Scott and Detective Sterling?" "I may have."

"Did you ever talk to A. E. Carlton?"

Orchard said he had spoken once to Carlton, who was an official of the mine owners' association. He had also spoken to Nelson Franklin. Asked how it was that he could pass the militia without trouble in Cripple Creek, Orchard replied that there were many union men who had done the same thing.

He and John Neville decided to burn Neville's saloon near the Independence depot, collect the insurance money and divide it.

"Who set fire to the saloon?" "I did."

"How?" "I took some 'Pettibone' dope upstairs and came away and left it there."

"You did have some use for 'Pettibone' dope then, after all?" "Yes."

Orchard later got $100 of the $600 insurance Neville collected.

WOOLER FEELS DISGRACED BY TERRIBLE CRIMES OF HARRY ORCHARD.

Wooler, Ont., June 10. — Albert E. Horsley, the Idaho murderer, felt the pulsing of unruly blood so keenly during the latter part of his residence here that he went himself to the authorities of his Church and had his name removed from its membership. He knew his own shortcomings so well that he feared to be a reproach to the religion which eh had professed, but no longer practised.

Naturally enough, "Ab" Horsley is the name on every tongue in Wooler to-day. People here eat, drink and sleep with Horsley in their mind's eye. The confession of his revolting crimes has come as almost unbelievable tidings to this quiet little village, which suddenly finds its name known to all the world.

Wooler, like Brighton, is divided in the opinion it expresses of "Ab" Horsley's early record. "He was not such a bad man," declared one lady, and "so handsome," said another. Womanlike they blame the "other woman" of Horsley's evidence. "Until he met her," said one, "he was as fond of his wife as could be, and he had every cause to think a lot of her, for she was as good a wife as ever lived. While all agree in praising Mrs. Horsley, there were quite a number who do not hold to the "youthful-innocence" theory as regards the now criminal. "Dishonest in little things," is a frequent descriptive, "A schemer," other say.

One of his nearest neighbors in those days say that his boyhood was uneventful. He did not show any particular viciousness; not even to the extent of being particularly fond of killing wild things.

In the clear air of the countryside, neighbor meets neighbor and Horsley is the inevitable topic. They tell vaguely of his petty dishonesty, but they cannot particularize; they say that they knew he was bad, but they cannot say definitely why; they rake his record for scandal, but they do not find much. Crimes such as those he has committed seem unreal, and almost unimaginable among the quiet and beauty of the countryside where Wooler lies. But Wooler has sent forth this man and the crimes are self-confessed. The disgrace of it stings keenly.

Mr. J. W. Curry Nominated.

Toronto, June 10.—East York Liberals nominated J. Walter Curry, K.C., ex-Crown attorney, to be their candidate in the next provincial election. He received 72 votes to 29.

Newmarket, Ont., June 10.—There were no nominations at Saturday's convention of the North York Conservatives. Mr. Arch. McCallum was elected president of the association.

Cattle Killed by Train.

Belleville, Ont., June 10.—Thirteen valuable cows belonging to George Burkett, of Springbrook, were recently killed or so badly injured that they had to be killed. They wandered on the Canadian Pacific track and were struck by a train.

MONTREAL GIVES A REGAL WELCOME TO THE VISITOR FROM JAPAN NOTWITHSTANDING BAD WEATHER

Prince Fushimi, the distinguished visitor from Japan at present touring Canada, arrived in Montreal on Saturday afternoon and was in the Canadian Metropolis until ten o'clock this morning when he left for Ottawa. The only thing to mar the visit here was the weather and certainly the brand served up on Saturday was not at all desirable, for it was dark and gloomy the whole afternoon. At times there was a regular downpour and towards night there was nothing but rain.

The time of the arrival of the Royal train from Quebec was given as two o'clock and long before that hour the streets in the vicinity of the station were lined with people anxious to catch a glimpse of the distinguished guest. In front of the station was drawn up a guard of honor of one hundred men from the Royal Canadian Highlanders with the regimental colors in the centre. These men were under the command of Capt. Clark-Kennedy. Behind them on the other side of the street was an escort of troopers from the Royal Canadian Dragoons. The brass and pipe bands of the Highlanders was also present.

VISIT OF H. I. H. PRINCE FUSHIMI—The party leaving Bonaventure Station for City Hall.

The following-named gentlemen of the reception committee were on hand to welcome the Prince: Sir H. Montagu Allan, Aldermen Sadler, L. A. Lapointe, Yates, Molson and Payette, Col. Buchan, C.M.G., A.D.C., attended by Lieut.-Col. Dunbar and Lieut.-Col. Burkett, P.M.O.

The station was lavishly decorated with flags, bunting and flowers, and in all directions could be seen interwoven the flags of England, Canada and Japan. The floral decorations were also very beautiful and the whole scheme reflects much credit on those who had it in charge.

The police precautions, too, were of the best and under Inspector McMahon, who was in charge at the station, were a body of stalwarts that would do credit to any city. Among them were several mounted men and they did excellent work in keeping the crowd back from the entrance. The Governor-General's state carriage, brought from Ottawa for the occasion was in waiting at the station entrance, with outriders and footmen.

The Royal train arrived almost on the hour and Prince Fushimi left the train accompanied by Mr. Joseph Pope, C. M. G., who is representing the Government during the tour, and Hon. T. Nosse, Consul-General of Japan in this country. Mr. Pope made the presentations in the station and after a few minutes conversation, the party left the building.

AT BONAVENTURE STATION.

As soon as His Highness reached the station door, the band struck up the Japanese national air and the troops gave a general salute, all standing at attention until the strains died away. The scene was a striking one and the precision with which the arrangements were carried out was admirable.

As soon as the strains of the music had died away, the Prince made a brief inspection of the soldiers and complimented the commanding officers on their splendid appearance, after which he entered the state carriage and was driven to the City Hall.

In the carriage with His Highness were Ald. Sadler, Sir Montagu Allan, and one of the members of the Prince's suite. The mounted police preceded the party, and the Dragoons formed the escort, falling in before and behind the royal conveyance. Four other carriages conveyed the rest of the party to the City Hall.

As the Prince passed through the crowds that lined the street, he was greeted with cheers and was kept continually raising his hat in acknowledgment. Altogether the welcome ceremonies were of a most successful nature.

The party accompanying His Highness is as follows: Mr. Michinori, Seigo Nagasaki, Councillor of the Court of His Imperial Majesty the Emperor; Mr. Saburo Baba, grand master of the household of His Imperial Highness Prince Fushimi; Major Otohiko Hagashi, artillery aide-de-camp to His Imperial Highness Prince Fushimi; Dr. Teizo Iwai, physician to His Imperial Highness Prince Fushimi; Chigehiro Tokioka, attache to the section for exterior affairs, the Imperial Household; Shigetaro Kurosawa, attache to the bureau of ceremonies, the Imperial Household; and Motojiro Tauda, attache to His Imperial Highness Prince Fushimi.

The I. C. R. train on which the party travelled consisted of the Royal cars Cornwall and York, and the diner Shogomac, as well as baggage cars, etc. The whole train was elaborately decorated and presented a fine appearance, the private dining room of the Prince being particularly beautiful and resembling a regular floral bower.

On the train were Mr. D. Pottinger, general manager of the Intercolonial, who accompanied the Prince to Montreal; L. B. Archibald, superintendent of the sleeping and dining cars of the I. C. R., who remains on the train during the Prince's visit to Ottawa, Toronto, Niagara Falls and back again to Toronto, where the Royal train is handed back to the I.C.R.; Mr. M. J. Butler, Deputy Minister of Railways and Canals; Mr. H. A. Price, assistant general passenger agent and Mr. D. White, general car foreman, who remains on the Royal train also, during the itinerary, in case of accidents.

AT THE CITY HALL.

A formal reception was tendered the Prince at the City Hall, and an address of welcome was presented by Mayor Ekers and responded to by the Prince. The ceremony took place in the Council Chamber, which was also lavishly decorated for the occasion. When the cavalcade arrived at the building, about 2.30, they were received on the steps by the Mayor, and the entire party at once proceeded up the steps to the Mayor's parlors and thence to the Council Chamber, where a number of members of the City Council as well as many invited guests were waiting to receive them. The Prince mounted the Mayor's dais and Mayor Ekers then read the civic address in English, and afterwards presented His Highness with a beautiful, illuminated copy engrossed on parchment. This was the work of Mr. G. Charlebois, chief city draughtsman.

The Prince replied to the address in French and in a few words expressed his thanks for the cordial reception and his great pleasure in being able to visit Canada. Among those present at the City Hall reception were: Chief Justice Taschereau, Sir Melbourne Tait, Principal Peterson, Sir Alex. Lacoste, Messrs. H. B. Ames, M.P., R. Wilson-Smith, ex-Ald. Stevenson, Rev. J. Edgar Hill, D. McDonald, Hon. J. D. Rolland, I. Ponsonby Sexton, consul-general of Greece, ex-Mayor Desjardins, Judge Desnoyers, A. W. Grenier, K.C., and Archdeacon Norton.

Ald. Payette occupied his seat in the Council and was accompanied by Mlle. Payette. Among the other aldermen present were Ald. Sadler, Ald. L. A. Lapointe, Ald. Yates, Ald. Clearihue, Ald. Levesque, Ald. Ward, Ald. Nault, Ald. N. Lapointe, Ald. Mercier, Ald. Leclaire, Ald. David, and Ald. Turner.

VISIT TO THE RACES.

The ceremonies at the City Hall occupied less than half an hour in all as, outside of the address, there were no presentations at all. Immediately at the conclusion the party started for the Windsor Hotel. By this time the rain was coming down very fast and consequently the second trip through the streets was made with closed carriages. It was the original intention to drive from the City Hall right to the Blue Bonnets track, but the rain caused the plans to be changed, and from the hotel the trip was made in the fine private car of the Montreal Street Railway, also elaborately decorated. Accompanying the Prince was his suite, Sir Montagu Allan and a number of prominent Montrealers. The Royal visitor witnessed a number of races at the track, and was delighted with the course, though owing to the inclement weather, it was not at its best by any means. There was another large crowd present here and the prince was again given an enthusiastic welcome.

After returning from the races a dinner was given in his honor by the Mount Royal Club.

During his stay in this city, His Highness was the guest of Sir Montagu and Lady Allan at Ravenscrag, which had been beautifully decorated for the occasion, and at night the grounds were brilliantly illuminated. Last night a dinner was given at Ravenscrag, at which covers were laid for fifty-six, the guests being, Mr. Michinori Seigo Nabasaki, K.C.V.O., councillor of the court of His Imperial Majesty, the Emperor of Japan; Mr. Saburo Baba, K.C.V.O., grand master of the household of His Imperial Highness Prince Fushimi; Major Otohiko Higashi, M.V.O., aide-de-camp to His Imperial Highness Prince Fushimi; Dr. Tiezo Iwai, M.V.O., physician to His Imperial Highness Prince Fushimi; Chief Justice Fitzpatrick, Mrs. Fitzpatrick, Miss Fitzpatrick, Mr. Joseph and Mrs. Pope (Ottawa), Sir William and Lady Van Horne, Sir Thomas and Lady Shaughnessy, Miss Shaughnessy, Sir Alexander and Lady Lacoste, Mr. Nosse, Mrs. Mackenzie, Captain Newton, Miss Taschereau, Miss M. Angus, Mr. Baker, Miss Baker, Mr. Creelman, Miss Creelman, Sir George and Lady Drummond, His Worship the Mayor and Mrs. Ekers, Mr. Hugh A. and Mrs. Allan, Mr. Colin and Mrs. Campbell, Dr. and Mrs. Peterson, Hon. J. Israel and Mrs. Tarte, Senator and Madame Dandurand, Hon. Lionel and Mrs. Guest, Colonel and Mrs. Buchan, Lady Hickson; Dr. H. B. and Mrs. Yates, Mr. Chas. H. and Mrs. Hosmer, Mr. Hampson, Miss Howard, Mr. and Mrs. Major, Mr. and Mrs. George L. Cains.

THE ITINERARY OF THE WEEK.

At 1.30 yesterday an informal luncheon was given by Sir William Van Horne at his residence, at which the guests, in addition to Prince Fushimi and his suite, were Sir George Drummond, Principal Peterson, Messrs. C.R. Hosmer, W. R. Baker, Sir H. Montagu Allan, Hon. Raoul Dandurand, Sir Thomas Shaughnessy, Chief Justice Sir Alexandre Lacoste, Mr. Lambton, A.D.C., Vincent Meredith, D. McNicholl, Hon. Robert Mackay, Jos. Pope, C. M.G., Sir Melbourne Tait, and Hon. Rodolphe Lemieux.

The bright sunshine and clear sky of the afternoon were pleasant changes and after luncheon the royal visitor was given a drive through the city and Mount Royal Park. The foliage was of the glorious green of early summer, the very trees shook from their foliage the tear drops of the past and smiled upon the visitors a cheering welcome.

The visit to Montreal concluded at ten o'clock this morning when the party left via the Grand Trunk for Ottawa.
