SENATORS HAVE A BUSY DAY

Debate Hudson Bay Navigation—Define and Limit Holidays for Civil Service

Ottawa, Ont., June 17.—The Senate today voted its employees, clerks and officials out of the control of the Civil Service Commission; added an amendment to the Government's Civil Service bill limiting civil servants to nine holidays during the year (this does not include their annual summer vacation) sent the Act amending the Business Profits tax and the Customs Tariff to the committee stage; advanced a number of minor measures, and continued the debate on the report respecting the navigable feasibility of the Hudson Bay and Straits.

PRESIDENT IS HOPEFUL FOR THE DEMOCRATS

Has Faith American People Desire League of Nations Above Anything Else

New York, June 17.—President Wilson, in a special interview given to the New York World to be published to-morrow, said he was "extremely confident that the Democratic Convention at San Francisco will welcome the acceptance by the Republican Party of my invitation to make the League of Nations the issue in this campaign."

OPEN DIPLOMACY WILL BE RULE

Mr. A. J. Balfour Tells of the Service Rendered By the League of Nations

London, June 17.—A. J. Balfour, Lord President of the Council, outlining in the House of Commons today the work done towards setting up the organization of the League of Nations in its present position, and its prospects in the immediate future, said that the League had already been able to perform considerable service to the community of nations. The secretariat was now, broadly speaking, complete and adequate for the immediate duties of the Council, and an office had been established for the registration of treaties.

COAL SHORTAGE WAS DISCUSSED IN THE COMMONS

Hon. Rodolphe Lemieux Wanted To Ascertain the Gov't's Intention in the Matter

Ottawa, Ont., June 17.—Claiming that dislocation of industries in Ontario and Quebec was threatened, Hon. Rodolphe Lemieux this afternoon moved adjournment of the House to discuss the coal shortage and to ascertain the Government's intention on the matter.

WHY EMPLOY A FOREIGN AGENCY

Civil Service Object to Reorganization of Govt. Depts by American Firm

Ottawa, Ont., June 17.—Strong representations against the employment of "a foreign agency" in the person of Griffen Hagen and associates to reorganize Government departments was made to Sir Robert Borden personally this morning by the Executive of the Civil Service Federation.

ASK RESIGNATION OF GOVERNMENT

Mayor R. H. Gale Presided Over Vancouver Meeting of Citizens and War Veterans

Vancouver, B.C., June 17.—After hearing an address last night by J. Harry Flynn, Grand Army of Veterans, denouncing the Federal administration in connection with the policy toward returned soldiers, 2,500 war veterans and citizens endorsed a resolution demanding the resignation of the Dominion Government.

IRISH SITUATION WAS DISCUSSED

Irish Railway Delegates and National Union of Railwaymen Pass Resolution

Bristol, Eng., June 17.—A resolution approving the Government for its Irish policy was passed by the conference here between Irish railway delegates and the Executive Committee of the National Union of Railwaymen.

RESTRICTION OF CANADA'S EXPORTS

Read a Second Time at Ottawa—Referred To Special Committee

Ottawa, Ont., June 17.—(Can. Press)—Second reading was given in the House of Commons today to the bill which amends the Customs Act giving the Governor-in-Council power to prohibit or restrict the export of any necessary commodities from Canada except under license.

DEFAT GOMPERS AT CONVENTION

Labor President Was the Only One To Vote Against Increasing His Salary

Montreal, Que., June 17.—(Canadian Press)—President Gompers of the American Federation of Labor, was badly defeated at the convention today on two important questions. The first was the question of the convention going on record as being in favor of public ownership and democratic management of them. To this Mr. Gompers was opposed and it was carried by 9,058 votes to 8,348.

CANADIAN WHEAT BOUNTY REJECTED

Lloyd George Said in Commons He Could Not Adopt the Suggestion

London, June 17.—(By Can. Ass'd Press)—In the House of Commons today, the Premier replying to a question said he could not adopt the suggestion of a bounty on Canadian wheat brought here to meet the shortage in the home crops.

THE EXPORT OF PULPWOOD TO U.S.

No Intimation As To What President Wilson's Attitude Will Be re. Conference

Washington, D.C., June 17.—Contrary to expectation no notice was forthcoming from the White House as to whether President Wilson approved or vetoed the resolution which would authorize appointment of a commission to confer with the Canadian Government, or the Provincial Governments of Quebec, Ontario and New Brunswick, relative to certain restrictive Orders-in-Council of the three Provinces as to export of pulpwood from Canada.

CALLS THEM "UNIONIZED STATES OF AMERICA"

Asbury Park, N.J., June 17.—The United States ought to be called "the Unionized States of America" declared Eugene Lamb Richards, former Sup't. of Banks of New York State, in an address before the annual convention of the New York State Bankers Ass'n. He scored both government officials, who he said, "have run the country with excessive government" and what he described as the "tyrannical labor councils". In the past six years, he declared, the government has controlled virtually everything and has done it in a most inefficient and wasteful way.

SINN FEINERS KEEP ON WORRYING THE POLICEMEN

Cookstown, Ireland, June 17.—A hundred Sinn Feiners today attacked the police barracks here and drove the police to the upper part of the building. They captured two police constables and withdrew after two hours fighting.

REFUSED CHANCELLORSHIP

Paris, June 17.—Rr. Mayer Von Kauffmann, German Charge d'Affaires here, has refused the offer of the German Chancellorship tendered him by Karl Trimborn, leader of the German Centre Party who is trying to form the new German Ministry to be organized as a result of the recent election.

ORDERS DRIVE ON COAL PROFITEERS

Washington, D.C., June 17.—A drive on profiteers in bituminous coal was ordered today by Attorney-General Palmer.

RUMOR KAISER ATTACKED AND WOUNDED BY BELGIAN

Doorn, June 17.—There are persistent rumors in the village that the former German Emperor has been assaulted by a Belgian who, showing a forged pass, gained admittance to Doorn Castle. It is asserted that the former Emperor was wounded in the jaw and that the Belgian was arrested.

THE WEATHER.

Toronto, Ont., June 17.—The depression which was over the Ohio Valley last night now covers Middle Atlantic States and pressure is highest over Manitoba and the Upper Lake region. Rain has fallen in the extreme southern portion of Ontario and a few showers have occurred in Alberta. Otherwise the weather over the Dominion has been fair.

ICE FIELDS IN SHIPPING LANE

Sydney, N.S., June 17.—Capt. Wyatt, of the Alston, reports a large ice berg in lat. 46.7 and long. 45. The position given is about 240 miles east of Sydney. Two patches of ice fields are also reported between St. Pierre and Cape Ray in the track of shipping between Montreal and Sydney.

TORONTO STREET RY. CALLS MASS-MEETING

To Consider Extending Time Allowed Co., to Answer re. Increase of Pay

THREATEN 50% COAL PRODUCTION CUT

Because Royal Commission Promised Nova Scotian Coaliers Has Not Materialized

Toronto, Ont., June 17.—A mass meeting of the employees of the Toronto Railway Company was called for midnight tonight to consider the question of extending the time allowed the company to give its answer to the demand made on Wednesday morning that the maximum wage scale be not less than 65 cents an hour. Manager R. J. Fleming, of the Toronto Railway Company, notified the officials of the Street Railway Union, this afternoon, that owing to the short time given by the union for the company to reply to the new demand, he was unable to get a quorum of directors together.

The union officials discussed the situation for some time and then decided to call the men together at midnight to decide whether to extend the time of the threatened strike on Wednesday next, or to strike at 3 o'clock Friday morning as had been agreed upon at the recent mass meeting.

Consequently the leaders predict drastic action unless Ottawa makes an early move. What form this drastic action will take, the leaders will not state, but it is believed that what they really have in mind is the fifty percent coal production cut, recently advised by J. N. MacLachlan.

LITTLE SISTER'S DANCING FROCK.

By Gertrude Beresford.
Little Sister's frock of crisp organdie must wear knife pleats that adorn mother's summer gown. This dainty frock designed for girls from two to six may be developed in orchid, pale yellow, Nile green, pink, white or blue. The mode is blue. The short waisted bodice has a knife pleated ruffle of organdie, picot edged on neck and sleeves. Tiny French flowers trim the sleeves and run across the front of the neck. A sash of rose ribbon ties the short waist and helps hold up the pleated heading of the skirt. Bands of rose ribbon ending in bows at the sides surmount knife pleatings of organdie on the skirt. This dancing frock may easily be made at home, and is also effective in ecru net that may be worn over a pink or blue slip.

SOUPS YOU WILL LIKE.

By Loretto C. Lynch.
An Expert on All Matters Pertaining to the Home.
Who is there that does not enjoy a delicious plate of home-made soup? Whenever I hear a person say that he or she does not care for soup of any kind, I am quite sure that their opinion of soup has been based upon the poor soups it has been their misfortune to have been served.
Yet it does not take a great culinary artist to make a plate of good soup, and the average housewife can provide her family with some good soups that will stimulate their appetites for the more substantial things of the meal.
Suppose you try to make old-fashioned vegetable soup? Buy two pounds of shin of beef. Quickly rinse off the meat with running water and cut some of the meat from the bones. Put meat and bones into a cook pot. Add a minced onion, a teaspoonful of salt, a sprig of parsley, some celery leaves or root, or a celery stalk cut into pieces, and three quarts of cold water. Heat slowly to the boiling point, and then boil or rather simmer slowly for half an hour.
At the end of this time add a cupful of diced carrot and two cupful of canned tomatoes. Also add one-fourth cup of pearl barley, soft See how the family likes this good old-fashioned soup when nothing else pleases.
While the meat has lost most of its food value into the soup, nevertheless it may be sliced and served with horseradish or tomato sauce. If potatoes au gratin or baked macaroni with cheese is served with the soup meat the meal will be fairly well balanced.
Any other meat may be substituted for beef. Mutton, lamb or veal may be substituted for the beef. Where it is desirable to make a clear, greaseless broth, as is often required for the sick or convalescent, the meat or poultry is cut to small pieces and covered with cold water. Salt is omitted, because some diets call for a salt free diet. Salt may be added just before the patient drinks it if the physician allows it.
The water is brought slowly to a boil and allowed to simmer three hours, or until the meat falls in shreds from the bone. Strain the soup and allow it to cool. When cold remove the cake of fat which forms on the top. This fat should be saved. It may be used for sautéing cold potatoes or it may be used as shortening in biscuit and the like.
For a Clearer Soup.
If a clearer soup is desired slightly beat the white of one egg and stir it through the heated soup. It will gather up any particles that cause the soup to be cloudy. The egg should then be strained out. This clearing is usually done only for delicate invalids who may become nauseated from a slightly cloudy broth.
The American housewife does not take as frequent advantage of the legumes in soup-making as does her foreign sister. The legumes include peas, beans and lentils. Dry peas and beans have gotten considerably lower in price this past month and each makes very good soup.
A sliced onion, a stalk of celery, a sliced carrot and a ham bone, or ham skin may be added. Cook slowly until the legumes may be readily pressed through a strainer. Measure the pulp. For each cup of vegetable pulp, allow one cup of cold milk, to which has been added with one tablespoon of flour and one tablespoon of butter rubbed together.

ROSS RIFLE FACTORY BOBS UP IN DEBATE ON ESTIMATES IN THE HOUSE OF COMMONS

Hon. Jacques Bureau Asks For Information Relative To the Sale of Machinery—Intimates That Superintendent in Charge of Dismantling Plant Was Vendor and Purchaser

Ottawa, Ont., June 17.—Again in the House today the militia estimates met with strenuous opposition. As item after item came before the committee, Hon. W. L. Mackenzie-King, leader of the Opposition, met it with a motion for reduction. His motions were invariably defeated with great majorities, the Progressives voting with the Opposition. Finally when, after some hours of discussion, the committee rose, a number of militia items remained for later consideration.

Criticism of the estimates lay chiefly along the line of need for retrenchment and economy. Hon. Jacques Bureau broke from the beaten track in a demand for information concerning the famous Ross rifle factory at Quebec, of which the Government entered into possession some time ago. Mr. Bureau declared that according to information in his possession, valuable machinery was being scrapped instead of tenders being called for.

Colonel Fisher, the Superintendent in charge of dismantling, Mr. Bureau went on, was also said to be proprietor of the Enterprise Foundry, of Sackville, N. B., to which the machinery had been shipped. Was this correct? Mr. Bureau asked.

Was the superintendent at the same time vendor and purchaser? Hon. Hugh Guthrie, Minister of Militia, promised to give the House full information when next in supply on the militia estimates. And for the time being, Mr. Bureau's questions stood.

Mr. Mackenzie-King urged that the \$258,112 asked for the Lindsay Arsenal and \$32,512 for Quebec be taken together. It meant a total of \$750,000 or \$400,000 more than in 1914.

He would move to cut \$150,000 from the Lindsay and \$250,000 from the Quebec items. The amendment on the Lindsay item was lost by 49 to 39.

H. B. Morphy voted with the Opposition. The Progressives were also against the Government.

Mr. King's motion to reduce the vote for the Dominion Arsenal at Quebec, by \$750,000 was defeated by thirty to thirty-nine. The Progressives voted with the Opposition and the item was then carried on division.

Previously, there had been considerable discussion on a vote for cadet service. A. R. McMaster, (Brome) had preferred the training given to boy scouts and girl guides. He urged the danger of militarism. The military note should be left out of the training.

To this Government members responded by emphasizing the necessity of preparedness. Sir Sam Hughes remarked that Mr. McMaster's speech reminded him of the "sloppy stuff served up" previous to the war by Rev. J. A. MacDonald, former editor of the Toronto Globe.

Early in the sitting Hon. Rodolphe Lemieux brought up on a motion to adjourn the question of coal supply, and following discussion on the militia estimates, the House considered the bill to amend the Post Office Act.

Hon. Rodolphe Lemieux, Postmaster-General in the Laurier Government, urged that there was no need for 24,000 employees in the Post Office Department. Jobs were being created throughout the country. Money was running wild. Mr. Lemieux also objected to Minister shifting the responsibility for reorganizing their departments to the shoulders of "German-American firms."

The House this afternoon took up the third reading of the bill respecting the Director of Coal Operations. Hon. Arthur Meighen stated that, during previous consideration of the measure he had announced that there were no disputes following on, or in any way connected with orders made by the Director of Coal Operations. He had since discovered that there was one such dispute which was practically a disagreement between two unions, the United Mine-Workers of America and the One Big Union.

Mr. King understood that the Government of Alberta intended to take exception to what was considered to be an over-riding of its rights by the present legislation.

Sir Robert Borden replied that so far as he was aware the Government had heard nothing of any protest from the Governments of Alberta or British Columbia in regard to the bill. If these governments wished to take exception to the bill, it was curious that instead of communicating with the Dominion Government, they had whispered in the ear of the leader of the Opposition.

—If that had been done, the Dominion Government had no desire to infringe on the jurisdiction of any Provincial Government. The coal orders were made that the people in Alberta and Saskatchewan might have coal.

D. D. McKenzie asked that the Act be amended to provide that it should not interfere with any litigation already commenced in the civil courts.

A. R. McMaster, (Brome) supported the suggestion. The reading was carried on division, the division being formal on the request of the Leader of the Opposition. There was no vote.

Mr. Meighen's bill to amend the Irrigation Act was then read a second time and passed through the Committee stages.

PUPILS WORK AT MACKAY INSTITUTE

Parents and Friends Well Impressed With the Skill Manifested by the Children

As the annual Exhibition of pupils' work at Mackay Institute, Montreal, for deaf-mutes and blind, could not take place on account of an epidemic of measles, a parents day was held on Saturday afternoon, June 12. There was a good attendance of parents and friends. All expressed great satisfaction at the general proficiency of the pupils both in class work and manual training, and also on the healthy, neat appearance of the children and the several improvements that have been made in the buildings.

The Kindergarten class trained by the Oral System for the deaf and Montessori Method, showed that the foundation steps of their education had been laid faithfully and thoroughly under the able guidance of Miss Anderson. Their writing was excellent. A recitation spoken by an older deaf girl and signed by several Kindergarten tots was delightful.

Then followed Junior and Senior classes in arithmetic, Geography, Language, and Scripture, both written and oral.

The lip-reading, articulation and defective-speech classes showed splendid progress despite the fact that Miss Daly who is a specialist in those subjects, did not take up her work till January owing to ill-health.

One of the managers, Mr. C. W. Lindsay was present and made a short address stating that owing to the increased expense the Board of Management had decided to raise the fees. Then he presented the prizes offered by himself to the boy and girl who had been best all through the year in studies, occupations and conduct. Anna McCullough and David Strait were the happy winners and received each a valuable book. The dances of the girls were gone through gracefully and in good time although unable to hear the music, reflecting great credit on the careful instruction of Miss MacLaurin.

The closing item was a hymn signed by the Senior girls and sung by Miss Barr.

The visitors then inspected the needlework which in quality and quantity showed that the industry and skill of Miss Cunningham had been emulated by her pupils. The military and carpentry work were commended on most favorably.

Then came the much looked forward to event—a tea-party of cakes, ice-cream and strawberries donated by Mrs. Alan Law, one of the managers.

The excitements were even then, not over for the day. The school again gathered in the Assembly Hall and addresses and presentations were made to Miss Snowdon who in her turn presented the older girls' gift was a lovely linen luncheon set trimmed with crochet lace, the work of the girls' own clever fingers. The Junior girls then came forward with a pretty crocheted bag containing neatly hemmed dusters. The Tiny Tots had also prepared a surprise package, containing a beautiful china cup and saucer. A handsome sectional bookcase made in our own carpenter's shop was the boys' token of regard.

When they are not decorating their tents or sleeping, the men love nothing so much as to wash their clothes, and may be seen scrubbing away as if for dear life. They were three weeks on the transport, and were then six days coming East from Vancouver, so that, as the officers explained, it is only natural that they want to have their clothes clean.

Next week it is expected that a great demonstration will be held, at which 800 men will take part. They will give an exhibition of their national songs and folk dances.

Two more transports are expected soon, and it is thought that some 6,000 more men will soon be on their way to Valcartier Camp. At the present time the different units in the camp are as follows:

7th Infantry Regiment, under the command of Col. Vanya; the 2nd Storm Battalion, under command of Major Gassler; and one battery of Horse Artillery, of Kulkovsky, under command of Major Sosa.

The two transports that are on their way with the other six thousand troops, have on board the following units: 8th, 9th and 10th Infantry Regiments; the 1st Cavalry Regiment; and the 2nd Division of the Artillery.

Many of the soldiers in the group now at the Camp are married, and are waiting for the first opportunity to return home after an absence of five years, to see their wives and children.

All of the soldiers have saved a fairly substantial sum of money out of his wages, and each is a member and shareholder of the Bank of Legionaries, a savings bank that was opened by the men themselves.

Efforts are being made by the officers of the force to have the Czecho-Slovak march through the streets of the city some day next week, headed by their fine bands.

The Camp authorities have nothing but praise for the Czecho-Slovak and say that they are a fine body of men, and a credit to the Camp of Valcartier.

It is expected that His Excellency the Governor-General, will inspect the Czecho-Slovaks this afternoon at the Camp.

CZECHO-SLOVAKS ARE FINE CORPS

Three Thousand Under Canvas at Valcartier Camp—6,000 Expected

There are many interesting features about the Czecho-Slovak forces that are at Valcartier Camp under canvas, waiting transports to take them back home after an absence of five or six years, and chief among them is the "Storm Battalion," or as it is known amongst the Czechs, the "Battalion of Death."

The members of this battalion, which is 800 strong, have the regulation uniform of the Czecho-Slovak army, that is, a khaki uniform after the Belgian model, and in addition a small scarlet patch upon which is a skull and cross-bones.

Every member of this battalion was wounded at least once, and among the 800, they have accumulated one thousand wounds. The conditions that every recruit volunteered had to fulfill were that he be under 25 years of age, and unmarried, for it was a "Battalion of Death," it was not felt that it would be wise to take any married men in the ranks.

The Storm Battalion have steel helmets made on the French model, with a kind of matting inside to mitigate the shock of a bullet or rifle blow, while their rifles and bayonets are of Japanese manufacture. They are a fine body of men, and the whole three thousand of them presented a very soldierly appearance yesterday morning as they marched to their tents after their morning drill, headed by their battalion band.

The men are given every means that can be had of amusing themselves when they are off duty. There is a library of 3,700 books, in both Russian and Czech, while there are two bands that give concerts, and classes for those who wish to learn foreign languages. At the present time a great many of the men are taking up the study of English and French.

All the officers speak both English and French, as well as their own language, and Russian or German, while the majority of the men speak German and Russian as well as their native language.

The men are quartered in their own part of the camp, and have their flags flying all over. The national colors are white and red, with a border of blue, while at the top of every flagpole are four rings joined together, representing the four provinces that go to make up the Republic of Czecho-Slovakia, Bohemia, Moravia, Silesia and Slovakia.

In their library are a huge collection of photographs, taken of the various places where the troops have been. There is a special photographer for each battalion, whose duty it is to take nothing else except take photos.

There are two brown bears in the camp, that were brought from Siberia with the troops, and they are the pets of the camp. The bears are very tame, while two cubs, that were also brought along, move round as freely as they like.

During their spare time the men decorate around their tents, and many designs, both artistic and fantastic, are to be seen. The national colors—white and red—predominate, while the Czech word of welcome, "Nazdar," is also seen in front of a number of tents.

When they are not decorating their tents or sleeping, the men love nothing so much as to wash their clothes, and may be seen scrubbing away as if for dear life. They were three weeks on the transport, and were then six days coming East from Vancouver, so that, as the officers explained, it is only natural that they want to have their clothes clean.

Next week it is expected that a great demonstration will be held, at which 800 men will take part. They will give an exhibition of their national songs and folk dances.

Two more transports are expected soon, and it is thought that some 6,000 more men will soon be on their way to Valcartier Camp. At the present time the different units in the camp are as follows:

7th Infantry Regiment, under the command of Col. Vanya; the 2nd Storm Battalion, under command of Major Gassler; and one battery of Horse Artillery, of Kulkovsky, under command of Major Sosa.

The two transports that are on their way with the other six thousand troops, have on board the following units: 8th, 9th and 10th Infantry Regiments; the 1st Cavalry Regiment; and the 2nd Division of the Artillery.

Many of the soldiers in the group now at the Camp are married, and are waiting for the first opportunity to return home after an absence of five years, to see their wives and children.

All of the soldiers have saved a fairly substantial sum of money out of his wages, and each is a member and shareholder of the Bank of Legionaries, a savings bank that was opened by the men themselves.

Efforts are being made by the officers of the force to have the Czecho-Slovak march through the streets of the city some day next week, headed by their fine bands.

The Camp authorities have nothing but praise for the Czecho-Slovak and say that they are a fine body of men, and a credit to the Camp of Valcartier.

It is expected that His Excellency the Governor-General, will inspect the Czecho-Slovaks this afternoon at the Camp.

AMERICAN EDITORS ARE IN QUEBEC

Members of National Editorial Association Reached Here Last Evening

The delegates of the National Newspaper Editors of the United States, who attended a National Convention of Press men at Boston, in the first week of June, and who are now making a tour of Canada before returning to their homes and duty in the United States, arrived in Quebec last evening at 5:30 o'clock, in the special million dollar train placed at their service by the Canadian National Railways. The train arrived at the Canadian National Railways Station, formerly the Quebec station, at 11:30 p.m., and was met by the editor of the Chronicle and several other local newspaper men to bid them welcome.

The visitors were delayed an hour past the time of their scheduled arrival, which delay was caused by train stopping on the Quebec bridge to allow the scribes to take close observation of this one of the engineering wonders of the world. An opportunity which they appreciated and made the most of, by the editors and their ladies. Delighted with the monster steel structure, to take photographs of its architecture, and the sweeping panorama that they visualized up and down the river St. Lawrence and the surrounding country, and after an hour of drinking in the beauties of the situation, re-embarked on their train, and proceeded on their way to Quebec city.

The commodious and luxuriously appointed million dollar train with the fifty delegates and fifty ladies, steamed into the C. N. R. Station and after the Company disembarked to take in the sights of the city, and the Hotel Frontenac, the famous Quebec celebrated hostelry, the fame of which was known to the entire world and which they had heard so much about. This morning as the guests of the city they will be taken on a trip to St. Anne de Beaupre, to visit the famous shrine and on their return to Quebec will stop over at the Falls of Montmorency, where a luncheon will be served at the Kent House and when they return to the city will be free to take in the sights of the city, and in the evening attend a band concert on the Dufferin Terrace by the R.C.G.A. Band.

The returning delegates of the tour of Canada are President Mr. Edward Albright, Editor News, Gelatino, Tenn.; Secretary, Mr. Geo. Schlomer, Editor, Republican, Westington Springs, S.D.; and J. Bryon Ken, Editor, News, Belle Plaine, Kan.

President Albright Speaks

Mr. Albright, discussing the excursion through Canada, with a Chronicle representative said they were delighted with the reception and hospitality accorded them in Nova Scotia and New Brunswick, and a reception tendered them at Riviere du Loup, where the people turned out en masse to greet them and during their short stay there did their utmost to show their welcome by hospitality.

Speaking of the pulp and paper situation in the United States, Mr. Albright said the situation was delicate and while the big publications were sorely pressed for want of paper, many of the smaller publications were put out of business.

However the National Press Association as was named at the Boston Convention did not agree with the drastic resolution introduced in the U.S. Senate by Senator Underwood. On the contrary they wished to see Canada and the United States arrange matters in the same amicable manner in which our boundary and fisheries disputes were settled. The friendly relations that have existed between the United States and Canada for the past 100 years, they wish to see continued and perpetuated. Our association does not believe in raising the big stick as was proposed by Senator Underwood but I must say that the paper situation in the United States is very acute and in our difficulty, we look to Canada to act fair and help us in our difficulty.

Luxurious Train

The special luxurious train furnished by the Canadian National Railways that was placed at the press party after they concluded their Boston Convention and landed at Yarmouth, N.S., on June 7th, is probably the finest assembly of modern steel standard sleeping cars ever seen on any line of Railways on this Continent.

It consists of six standard sleeping cars, two diners and one of the most modern of tourist cars, and a steel baggage car. The new steel sleepers are of the very latest type and of finest construction with all the latest devices that make for elegance and comfort while traveling. The diners are also of the most modern design and have the latest improvements that afford every facility for the most efficient service. Both diners are manned by a specially selected staff, and the excellence of the cuisine has impressed the American newspaper writers most favorably. Every possible arrangement for the comfort of the editors is being carried out to the letter by the efficient staff of railway men who are accompanying the train, so it will be seen that the delegates are seeing Canada under the very best and most pleasing influences. As some of them expressed it: "We are journeying in a palace through a country of marvellous scenic beauty, a land of fertility, blessed with a wealth of resources that cannot but impress us profoundly. We will certainly go from here with the finest recollections of Canada and of her fine spirited and hospitable people."

Beginning at Yarmouth the editors were taken by the "South shore" Division of the National Railways, to Halifax, from there to Sydney, to New Glasgow, Truro, Amherst and Sackville, and from thence to Prince Edward Island. They returned from the island to Moncton where last Sunday was spent, and from there went to St. John. From St. John they visited Fredericton and then proceeded to Newcastle, Campbellton and Dalhousie Riviere du Loup was visited this afternoon and the "million dollar special" arrived in Quebec via the bridge about five o'clock in the evening.

Everywhere the press people have received a splendid welcome. The people of the various places visited have shown to it that every attention has showered upon them, and the American journalists will be certain to carry home with a fine impression of the hospitality of the Canadian people. The visitors are mostly the editors and proprietors of Western papers—not the big city dailies, but the papers of the smaller towns and cities and the weekly papers that are read so widely in the homes of many American people. Almost every state in the Union is represented. The organizer of the tour is Will Wilke of Jurey Eagle Mine, a banker as well as a newspaper publisher. Mr. Wilke is the President-elect of the Association for this year.

The Railway Association on this tour of Canada, are Charles K. Howard, General Agent of the C.N.R. at Boston, Mass.; C. Price Green, Commissioner of Industrial and Resources Department Toronto; A. H. Lonsay, Advertising Agent, Moncton; F. L. Douzon, Travelling Passenger Agent, Moncton; J. Colman, Asst. Supt. Sleeping and Dining Cars, Halifax; H. Patis, Inspector Sleeping and Dining Cars, Halifax; J. D. McNutt, Inspector of Train Despatching, Moncton; P. Mooney, Asst. Gen. Passenger Agent, Quebec, and E. L. Desjardins, Superintendent, Levis; and other officials of the operating and mechanical departments to look after the train en route.

The Pressmen and their ladies will live on their train on their tour through Canada, and to meet the requirements the accommodations have been cared for in every particular and in consequence the arrangements as perfect as in the best of hotels.

MRS. PATRICK L. COLLIER HAS PASSED AWAY

The death occurred at St. Francois L'Assise Hospital last night of Mrs. Patrick L. Collier, (nee May Mahoney) formerly of the city. Mrs. Collier was taken seriously ill several months ago with pleuro-pneumonia at Clark City and as her condition aggravated she was brought to this city two weeks ago for treatment here, but in spite of all that medical science could do she passed away peacefully last night surrounded by the members of her family.

Mrs. Collier was well known in this city, and being a gifted musician and singer, she was prominent here, a few years ago in musical circles. She was a member of St. Patrick's choir and took part in a large number of concerts and amateur entertainments. For the past eleven years, Mrs. Collier had made her home at Clarke City where her husband is mechanical superintendent for the Clarke Firm, and there as well as in Quebec she made a host of friends who with fondness will deplore her premature death and will extend sincere sympathy to her bereaved family. Mrs. Collier is survived by her husband, her father and mother, Mr. and Mrs. John Mahoney, of this city, one sister, Mrs. Charles S. Gray, of Van Buren, and one brother, Mr. Jack Mahoney of this city.

HARNESSING MICROBES.

How our crops will be improved and increased by an alliance between the tractor plough, which, by the way, can do the work of five ploughs and five teams, and the kindly microbe of the earth, is explained as follows by an expert.

It has been discovered that the microbes of the soil, notably those which make it fertile, are found to be much more active in autumn than any other time of the year. The discovery of this fact will mean a large permanent increase to the fertility of our acres.

Now that the tractor is in good use, fields are ploughed as soon as they are cut. On one farm, where the employment and production figures of the microbes were carefully studied, the tractors got to work on the fields being ploughed within a day or two.

The advantages claimed for this method are that the ploughing is easier, because the ground is soft under the standing corn; a seed bed is prepared early so that sowing can follow at any desired moment, while the microbes are now much more active in reducing the stubble and old roots into manure than they are at any other season.

INJUNCTION WRIT WAS REFUSED

Several Dominion Steel Corporation Directors Applied To Restrain the Executive

Montreal, June 17.—(Can. Press) Five members of the Board of Directors of the Dominion Steel Corporation, J. H. Plummer, and E. R. Wood, of Toronto; and Geo. A. Caverhill, Wm. McMaster, and Senator Dandurand, of Montreal, this afternoon, in their capacity as their shareholders appealed in the courts for a writ of injunction to restrain the executive of the corporation from holding the adjourned annual meeting of the shareholders here tomorrow.

Chief Justice Archibald, who heard the application held that no grounds were disclosed for interfering with the meeting of the company and thereupon dismissed the application.

Among other grounds for the judgment was the fact that the application represented only a very small proportion of the shares of the company.

Interesting changes in the personnel of the Board are looked for tomorrow at the meeting. Several of the leading newspapers have joined in and demand that a ministry of health be organized to give proper attention to sanitary conditions in factories and houses, to reduce accidents to workers, and to have charge of the erection of cheap houses for the poor, old age pensions, health insurance, maternity allowances, prevention of epidemics and hygienic instruction for the people.

One newspaper quotes Dr. Juarros as having asserted that smallpox, typhoid and tuberculosis has increased enormously; that births had decreased and the death rate among infants grown to such an extent that these deaths now comprised 20 per cent of the national mortality. An infinitesimal number of houses boast of a bath, he said, public baths were entirely lacking and the houses of the poor were so badly constructed that the occupants did not have as many conveniences as were afforded by the prison.

SPANIARDS AWAKENING TO BIG NECESSITY

Madrid, June 16.—Spaniards are awakening to the necessity of improved hygienic measures to decrease the mortality of this country. Several of the leading newspapers have joined in and demand that a ministry of health be organized to give proper attention to sanitary conditions in factories and houses, to reduce accidents to workers, and to have charge of the erection of cheap houses for the poor, old age pensions, health insurance, maternity allowances, prevention of epidemics and hygienic instruction for the people.

ONIONS DROP IN PRICE

Montreal, June 17.—Onions at the Bonsecours Market in this city have dropped \$2 per bag and are now selling at \$8.

LOOK FOR SUGAR AT 27 CENTS A POUND

Hamilton, Ont., June 17.—Hamilton grocers declared today that as a result of the latest boost at the refineries 27 cents sugar is now almost a certainty.

SIR HERBERT AMES RESUMES HIS SEAT

Ottawa, Ont., June 17.—Sir Herbert Ames took his seat in the House today. It is expected that he will make a statement on the League of Nations on Monday next.

THE JURY FINDS HARLAKA TRAIN ROBBERY IS RECOMMENDED TO MERCY

After deliberating for less than an hour, yesterday evening, the jury returned a verdict of "guilty with recommendation to the mercy of the court" in the case of J. Eudore Levasseur, charged with conspiracy in connection with the theft of the \$71,000 from the mail van of the "Ocean Limited" on September 17th last.

The trial was a very short one as it did not start until after seven in the morning and the verdict was reached a few minutes after six in the evening.

Nearly all the evidence was similar to that produced in the two other trials of the two men Topping and Proteau who have been found guilty of highway robbery and are now awaiting sentence.

The plea by the defence, the address by the Crown and the charge of the judge were all very short and after the jury had brought in their verdict the judge thanked the jurors stating they had rendered the verdict he expected.

The jury was then dismissed till Monday next when the case of Remillard senior charged with the murder of Lucien Morrissette at Bienville last January will be the first to be tried.

QUEBEC, JUNE 18, 1920.

A HEARTY FRATERNAL WELCOME.

The Chronicle desires to extend the heartiest and most fraternal of welcomes in Quebec to the visiting members of the National Editorial Association.

From a journalistic stand-point it is a real pleasure to have the opportunity of meeting and exchanging ideas with so many distinguished confreres from the United States.

From a civic stand-point we realize that the presence of these gentlemen, who have been said to represent eighty-five percent of the newspapers and ninety-nine percent of the wit and wisdom of the neighboring Republic, through the impressions that they will receive and carry back with them to their several homes, is one of the finest possible publicity openings that the Ancient Capital could desire.

It is probable that on such a brief and therefore hasty inspection the historic and picturesque aspects of the city may attract the touring editors more strongly than its modern and less romantic industries.

Despite the inroads of modernity, the old world atmosphere still clings wistfully to the buildings and thoroughfares of this ancient fortress Capital of New France while the panoramic landscape, bathed in the dazzling sun-light of our Canadian summer is one of grandeur and sheer loveliness.

On this account it is to be hoped that our confreres will note and remember that we have here a population of one hundred and twenty thousand, that this is the home of important industries, whose products will hold their own in any market.

To strike a controversial note on such an occasion would be an ungrateful task but it is understood that a part of the mission of the National Editorial Association here is to study the vexed newspaper situation and candidly to make a mark of the truest friendship.

From small beginnings the American people have built up one of the most powerful and materially developed States in the world. With a still more extensive territory and even richer natural resources but with a small and scattered population, we here in Canada are engaged upon the same task, we are still in the constructive stage.

There has been no breach of faith and no discrimination by this Province against American newspaper manufacturers holding timber leases within its confines. All that is asked of them is that they shall subject the raw material obtained through these leases to at least one stage of manufacture so that Quebec and Canada shall not be exploited for the benefit of a friendly but foreign State without reasonable compensation.

and can only be remedied by gradual enlightenment or the rough logic of events.

After pointing out that the United States has decided to build 18 new capital ships "with the object of beating British sea-power"; the chairman of the Naval Committee of the Lower Chamber estimating that by 1924 the gun-power of the United States and the British fleets will be equal, so that from then onward, unless Britain makes a strenuous effort, the Republic should lead on the sea, the Sydney Bulletin goes on to say:

"The Canadian Government decided by an overwhelming majority to refuse to accept Lord Jellicoe's plans for a Canadian navy. It is offering the existing warships for sale, and is closing the Esquimaux and Halifax naval bases. The offer of ships from Britain has been refused.

"Canada is in a position to adopt such a policy for several reasons, many Canadians are so like citizens of the United States that it is impossible to tell them apart. During the past 10 years more than 100,000 immigrants from the United States have poured into Canada annually. In the year 1909 to 1910 103,798 Americans arrived as against 41,144 English and Welsh. United States citizens claim that relations between themselves and the Canadians are so happy that there is no need for a solitary soldier on the frontier between the two countries.

"The war and the Panama Canal have between them made the Pacific the ocean of the world. The king position in the Pacific is held by Japan. The Japanese are spending \$30,000,000 on their navy this year, and that is 30 percent more than they have spent during any previous year. With the object of putting their fleet on an equality with the best available for service against them, they are spending an additional \$100,000,000 in the course of an unspecified period.

"Japan is not going to such ruinous lengths without an object in view, and neither is the United States. The sentiment of the latter is, roughly, that the great little brown men need a lesson; and the sentiment of the Japs is that they will not take a lesson from any one.

"Canada no more desires an unlimited influx of Japanese than its neighbor does; and rather than submit, it would probably both pay and fight. But its geographical situation relieves it of the necessity. Other considerations apart, the United States can no more have Japan in charge of Vancouver than San Francisco. All that the great Northern Dominion need do, so long as the Monroe Doctrine exists, is to sit back and leave the dirty work to its powerful neighbor. It may not be a particularly high-spirited policy, but on the economic side it is beyond criticism."

FOUNDED IN A DAY.

The St John Standard, in connection with the recent visits of the National Editorial Association and the Canadian National Council of Women, has published a unique supplement, illustrated by reproductions of old engravings, which records the history of Acadia and the city of St. John. In connection with the latter, it will be news to many of our readers even although they are of course familiar with the fact that it was first settled by United Empire Loyalists, to learn that St. John is a city that was literally "founded in a day".

We are indebted to the Standard for the following account of the first landing of the Loyalists, which has in turn been taken from the historical researches of the late Mr. D. Russell Jack:

All about the mouth of the River St. John, shrubs, stunted trees, marsh land and at low tide wide expanses of mud flats, with here and there a fish weir greet the vision. Amid the dark foliage of the evergreen, a narrow patch of clearing at wide intervals, marks the location of the lonely settler.

It is now Sunday morning, the 18th of May. The fog lifts. The bright sun sheds his life giving rays upon land and sea. There are 20 vessels in the harbor.

On board each of the vessels in the harbor unusual activity prevails. From every vessel, in small boats, men of every age, of strong arm, of stout heart and of earnest purpose are coming to the shore. Some of them come to the Upper Cove, beneath our feet, but the greater number make for the Lower Cove, which appears to offer the more attractive landing place. With them are women and children, the youngest already christened.

Among the motley gathering we observe the old continental dress and the well worn flint musket which the long war had taught them to handle. We hear the sound of the fife and drum. These men have come from many a battlefield, from many a post of duty and from many a weary bivouac. They have left behind them their broad acres, their commercial enterprises, their comfortable homes, their churches and schools and colleges and the tombs of their ancestors. They are exiles and their homes and their lands and all that they own have been confiscated. What has brought these homeless ones hither. It was because they loved the brotherhood, they feared God and they honored the King.

Their first act when all have landed, is to hold a thanksgiving service, and here in the open, the first service took place, Methodist, Presbyterians, Roman Catholics, New Lights, Anglicans, Quakers, all uniting in thanks to Him who is the Father of all, in that he has delivered them at last to dwell in peace within the borders of a new land. No doubt the gathering closed with the words of the Doxology.

Some Things the Public Would Like to Know:

(Pertinent Questions on Matters of General Public Interest are Invited)

Why so many of our prominent citizens, whose money is actually "going to the dogs", cannot build a Memorial to soldiers who saved Canada from "going to the dogs"?

The name of the City Assessor, who said: "Why is it easy enough, make your tenants pay more rent"?

A MOTHER'S ANSWER TO MR. ROBERT BIKERDIKE

To the Editor of the Chronicle, Sir,—

By what maudlin sentiment can one justify even the thought of a petition to relax the punishment so appropriately meted out to that Houde woman? Other women have been hung in Canada and not so very long ago and Canada has borne up under the fancied "disgrace". It is too easy a death for the murderer of Auroude Houde but as it represents the maximum penalty the law can impose let it then be applied. The world is full of step-mothers, not all of whose hearts overflow with the milk of human kindness. Let the example of Anne Marie Houde's fate be a training and deterrent influence on all and not alone to them but to all both old and young who take a peculiar and horrid pleasure in cruelty both to children and animals evidence of which is daily supplied in the press of the country. "A Mother."

THE HUGHES CHARACTER

Quebec, June 17th, 1920.

To the Editor, "Quebec Chronicle", City.

Sir,—

Your issue of today published an account of the bitter attack on General Sir Arthur Currie by Sir Sam Hughes, who said that he was "kicked out" of a dug-out near Ypres.

Surely, in all honour, this attack must not pass unnoticed. It must either be proved or retracted.

I am surprised that any journal would even publish such an utterance by one who was himself "kicked out" of a job that he was incapable of holding, (though it was not anywhere near Ypres but safe at home in Canada) and who, in his childish spitefulness, turns to the nearest one to vent his feelings, this one being General Currie, leader of the Canadian Corps in France, and who is naturally endeared to all the boys who fought under him, and I feel that I am expressing the sentiments of the rest of the boys when I say plainly, that I do not or would not believe anything Sam Hughes might say detrimental to General Currie's character.

Not having had the great honor of meeting General Currie personally, I can say nothing regarding his personality or character, but I feel and I know that if he was good enough to have led the Canadian Corps in France, he should be good enough to be above such foul evilisms by a man like Sam Hughes, who with his Ross Rifle, etc., would have sacrificed every man of the Canadian Corps.

Give every man his due. I do not believe that Gen. Currie is infallible. Who is? But like all great men he is bound to be a victim of envy and jealousy on the part of narrow-minded people.

I sincerely hope that the G.W.V.A., the Grand Army and all other associations of veterans will cast back to Sam Hughes the lie which he so foully uttered and retain for Gen. Sir Arthur Currie the good name he so fully deserves as the leader of the Canadian Corps in France and (I think) the finest man in Canada.

A Soldier.

YOUTH ACCUSED OF BUADE STREET THEFT

Detective DeJoy, of the Municipal Police, who was given charge of the investigation into the robbery of the J. P. Garneau store, Buade street, that was entered on Monday night last and the cash drawer robbed of its contents \$5.00 in cash, etc., traced the theft to a youth living in the neighborhood. The accused was taken to the Police Court and remanded to gaol to await investigation of his character.

IN AND ABOUT TOWN

CONVOCAATION AT BISHOP'S COLLEGE

Well Attended — Memorial Tablet Unveiled in College Chapel

Sherbrooke, Que., June 17—(Can. Press)—A large number of visitors were present today at the convocation of Bishop's University, among them being several prominent Canadians from outside points.

A memorial service was held in the morning in the college chapel when a memorial tablet was unveiled. Rev. Canon Scot was the preacher.

Degrees conferred were: D.C.L.—Canon Almond, Maj. General Sir David Watson. M.A.—Rev. A. T. Love, B.A.

DINNER PARTY AT THE CITADEL

Their Excellencies Entertain Some of the Elite of Quebec Society

A small though gay number of guests accepted the gracious invitation of their Excellencies the Governor-General and the Duchess of Devonshire to a Dinner at the Citadel last evening. The guests at the table which was arranged with pink roses in silver bowls, included besides their Excellencies, Lady Rachel Cavendish, Lady Blanche Beresford, Lord Richard Nevill, Flag-Lieut. Robinson, R.N., A.D.C., and Capt. Balfour, A.D.C., the following: Mrs. Colin Sewell and Miss Mabel Sewell, both gowned in black; the Hon. Frank Carrel and Mrs. Carrel wearing a black and gold gown in net; Mr. and Mrs. Frank Ross, Sir George Garneau Col. Count du Bury, Mr. W. J. Lynch and Mrs. Lynch who was gowned in a pale blue crepe de chine trimmed in silver; Mrs. Godfrey Rhodes wearing a green and silver brocade evening gown; Miss Rhodes in an apricot charmeuse with a ceinture of American Beauty; Mrs. E. G. Joly de Lotbiniere in a black gown of striped velvet and chiffon; Major and Mrs. W. H. Pezay, the latter gowned in black satin trimmed in silver lace; Major and Mrs. S. Easton, Capt. Jean de Ruffi de Pontevras who is in charge of the French cruiser Ville D'Ys; and Mr. Molson Macpherson.

Those unable to attend were: the Hon. and Mrs. Turgeon, Father Casgrain; Monsignor Pelletier, Lt. Col. and Mrs. Beckwith, Lady Garneau and Mr. Paul Gouin.

PROTESTANT SCHOOL BRD. Closing Exercises of All the Schools Under Jurisdiction Wednesday Next

The Protestant Board of School Commissioners met yesterday afternoon under the presidency of Mr. Justice Gibsons, the other members attending being Rev. S. J. Macarthur, Messrs. W. H. Brown and R. F. Easton, with the Assistant-Secretary, Mr. Robert Stewart.

The business transacted was of a routine nature.

A number of accounts were passed for payment, and other minor matters disposed of.

Arrangements were made for the closing exercises of all the schools under the jurisdiction of the Board to take place on Wednesday afternoon, the 23rd instant, in the Knights of Columbus Hall. It was also decided that re-opening of the school will take place on September 7th.

ENJOYABLE CONCERT FOR "EMPRESS" MEN

A most enjoyable concert was arranged by Mrs. Stott and Mrs. Shaw for the seamen of the "Empress of France" the night before last. A very large number of the seamen attended, completely filling the rooms of the Sailors' Institute. A very pleasant evening was spent by all present. Mr. Wm. Sharples acted as chairman and Mr. Sandy McGregor contributed several items which were much enjoyed. The following was the programme:

1. Address and Opening Chorus by the Chairman.
2. Monologue — Mrs. A. E. Scott
3. Songs, etc. — Mr. Sandy McGregor
4. Song — Miss Homerston
5. Dance — Mr. Giffay
6. Song — Mr. Stanton
7. Comic Song — Mr. Sharples
8. Song — Mr. Flynn
9. Song — Mr. Mahoney
10. Song — Mr. James
11. Song — Mr. Sandy McGregor
12. Song — Mr. Wm. Sharples

Aud Lang Syne—God Save the King

BAND ON TERRACE TONIGHT

MR. H. L. F. BLAKE OFF TO UNGAVA

Spoke Interestingly Before Leaving, On the Resources of Northern Quebec

Mr. H. L. F. Blake, C.E., the well-known explorer who has been spending a few days in Quebec left last night by the Quebec and Lake St. John Railway, accompanied by Mr. Kernichy, mining engineer and graduate of the McGill University, Montreal, for the northern hinterland of the province, to continue his exploring operations in the Ungava district.

Mr. Blake who had been obliged to discontinue his work in the north in May last, on account of an accident that occurred to the physician of his party, Dr. Corbett of Ottawa, does not expect to return to civilization until the end of September or month of October next.

Speaking to Chronicle representative yesterday, Mr. Blake said that in regard to his work in the Ungava, he did not as yet feel at liberty to take the public into his confidence until such time as he had finished his reports to the interests who had employed him. He had however, no hesitation to say that the Country was rich in its resources, and as a farming and dairy country was on a par with the excellent agricultural conditions of the Lake St. John. The climate was excellent, in summer it was warm and healthy and in winter the same as the Lake St. John district in weather conditions.

"The numerous lakes and extensive water powers offer great opportunities for the future. It is of course a forest country, and the pulp wood forests extend from the sight of land, hundreds of miles in every direction. There are plenty of fur bearing animals in the country which are trapped by the Indians, and there are several scattered Hudson Bay posts where the Indians sell and trade their furs. Apart from this there is no living civilization, it is a true forest country. Nevertheless the soil is excellent for agricultural purposes, mixed sand and clay he said should also prove a rich wheat growing country.

"The climate is preferable to that in the Province of Manitoba during winter, and it has the advantage over the prairie provinces of freedom from blizzards. There are plenty of moose in the country, but very little deer and consequently very few wolves who feed on deer. There are also plenty of otter and fox, as well as other specimens of fur bearing animals, in fact it is a hunter's paradise. I have been several years in this country doing exploring work for British interests and I hope to be through with the greater part of my work next fall, and make my report to my interests when I will be in a better position and no doubt at liberty to give full expression to the importance of my explorations."

Mr. H. C. Erstman, C.E. of London Eng., who is consulting engineer in connection with the British interests who employ Mr. Blake and who are studying conditions in the Ungava district for the possible carrying out of vast projects, recently came to Canada, and has also been at the Chateau Frontenac with Mr. H. L. Thompson also of London in conference with Mr. Blake. Mr. Erstman who is consulting engineer, is also manager of the Railway Department of The Grain Belt Construction and Development Co., Ltd., London, England and Calgary, Alberta, also managing agent of Messrs. Holmwood & Holmwood, Limited, London, who left New York last night.

Mr. Erstman, like Mr. Blake is very discreet in regard to the plans and instructions of the British interests he represents, but hoped to be in a position in the near future to speak for publication.

In the meantime it is said that there are other exploring parties at present at work in the Quebec Northern hinterland, especially the Ungava district. Some of whom are presenting American interests and it is quite likely that before very long, British and American capital will be flowing into the Province of Quebec, for the development of the rich resources of its Northern hinterland.

LAVAL DIPLOMA AND PRIZE LIST

Large Attendance at Distribution—K. of C. Presents University with \$35,000

Practically every space in the Promotion Hall of the Laval University was filled last evening when the distribution of diplomas and prizes took place. The attendance included a large number of clergy, members of the various professions, as well as relations and friends of the students.

Mgr. Pelletier, Rector, presided, and his report of the year's work was very encouraging and paid great tribute to the different professors for the success that had followed their labors in the various faculties.

A feature of this year's convocation was the presentation by the Knights of Columbus of \$35,000 to the University for the new Normal School for higher study. Mr. Alfred Savard, Grand Knight, and Mr. L. J. H. LaRue represented the Order, and both gentlemen made eloquent speeches in tendering the amount to the University. The subscription list was opened in 1914 for the object mentioned, and it was the intention of the Knights of Columbus to subscribe in all \$50,000. The Councils which subscribed to the presentation of the gift for the new High Normal School, and was to be used for whatever chair the University wished to establish. The new chair will be called the "LaRue Chair."

Mgr. Pelletier concluded by returning thanks on behalf of the University to the Knights of Columbus.

Before the distribution of prizes took place, Master LeBlanc, a lad of 14 years of age, and son of Dr. LeBlanc, of Moncton, N.B., rendered a violin solo with rare ability for one so young, and in response to the great applause that greeted his performance played Gounod's "Ave Maria." From the skill and ease he displayed last evening the boy has a brilliant musical future before him.

The Seminary Band was present and previous to the opening and following the closing of the proceedings rendered several selections.

The successful students who received their diplomas and prizes in the different faculties are as follows:

Diploma and Prize List

Doctors in Theology—Abbes Emile Deguire, C.S.C.; Willie Monaghan.

Ross Had Two Winners And a Second at Connaught Park Opening Day

Connaught Park, Ottawa, June 17—Commander Ross had two winners and a second in the opening day's racing here. Dellahm finished second to Honey Island, an outsider...

First race, purse \$700, for maiden two-year-olds, five furlongs—b-Honey Island, 112, Stirling, \$9.40, \$4.80, \$3.20, won; a-Dellahm, 115, Claver, \$2.60, \$2.70, second; Gallou Berry, 108, Richcreek, \$7.90, third...

Fourth race, Jubilee Purse, \$700, three-year-olds and up, six furlongs—Charlie Summy, 101, Pierce, \$8.50, \$2.40, \$3.00, won; Duke John, 110, Thurber, \$2.50, \$2.80, second; Thisleton, 110, Heapel, \$5.80, third...

The Dominion Arsenal became twelve were hard at work on the Esplanade last evening for over an hour and a half. They are evidently going to put up a great battle against the Frontenacs when the two teams meet on Sunday at the Kent House.

Sporting Notes

From present appearances the St. Louis Cardinals are going to be an important team to watch with regards to picking the possible contestants to figure in the world's series...

Babe Ruth knocked out his nineteenth home run of the season yesterday in the game between New York and Chicago, at Chicago.

An event of international importance took place at Valcartier Camp on Wednesday evening, when the R. C. R., of Montreal, who are under canvas at the camp, met a picked team from the Czechoslovaks in an association football match.

J. K. L. Ross has started off auspiciously at Connaught Park, getting two firsts and a second on the opening day. One of the firsts was the feature event in yesterday's racing.

The new score board that had been promised the City Baseball League has at last materialized. It has arrived on the spot, and will be placed in position at the Exhibition Grounds under the expert supervision of our old friend, Romeo Lepine.

Even though they did not play yesterday, Cleveland still lead the American League, although the Yankees cut down their lead a little.

There was only one game played in the National League yesterday, St. Louis defeating Philadelphia by 1 to 0.

INTERNATIONAL LEAGUE

At Jersey City— Buffalo-Jersey City: Game postponed; rain. At Syracuse— Akron-Syracuse: Game postponed; rain. At Reading— Rochester-Reading: Game called in third inning; rain. At Baltimore— Toronto-Baltimore: Game called in fourth inning; rain.

DUNCAN WON TOURNAMENT

London, June 17—(Canadian Associated Press)—The motorcycle senior tourist trophy race today was won by T. C. Delahny who averaged 52 miles an hour. The £580 gold competition at Westward Ho, Devon, was won by George Duncan. The first prize was £190 and a gold medal. He averaged 291 in four rounds. Abe Mitchell was second with 298; I. H. Taylor, third, 301; James Braid, 4th, 302.

BURKE WON THE HANDICAP TROPHY

Feature Event of the Eastern Canada Trapshooting Assn Won by Markham Man

Ottawa, Ont., June 17—H. W. Burke, of Markham, shooting from the 21-yard mark, carried off the Grand Canadian Handicap Trophy in the feature event of the annual tournament of the Eastern Canada Provincial Trap Shooting Association which was concluded at Rockcliffe today. His score was 91 out of a possible 100 and was one of the big surprises of the meet. E. W. Hobbs, of Greenwich, N.Y., Geo. O'Connor, of Ottawa, and A. D. Bates, of Hamilton, Ont., were tied for second money with 90 each, while J. R. Booth, Jr., Ottawa, P. W. Cooney, Toronto, J. Payne, Galt, Ont., and W. R. Kenyon, Montreal, were on even terms for third with 89. The special prize punch bowl donated by His Worship Mayor Fisher, also goes with the Grand Canadian Trophy.

The eight-man team championship was captured by the St. Hubert No. 1 team, which turned in a total of 178 out of a possible 200, the Montreal squad being second with 167. The Hamilton gunners added the Mall Trophy and the five-man honors to their collection, defeating a field of seven teams. They scored 236 out of a possible 250, while Toronto grabbed second money with 228. Ottawa No. 1 were third with 222. Sam G. Vance, the Tillsonburg star, won the Governor-General's Trophy for the high score of 300 targets in registered events and the 100 birds in the handicap. He had a record of 379 out of the 400.

ADMIT CHILDREN FREE TO GROUNDS Decided at Meeting of Sports Committee Last Evening at Exhibition Grounds

The Sports Committee of the Exhibition held a meeting last evening, and decided that, in view of the many requests that have been received from different people, automobiles and vehicles will be permitted to enter inside the race course for the summer season, and that no extra charge will be made for the same.

It was also decided that children under 15 years of age, accompanying their parents, will be admitted free to the races, in the grandstand or on any part of the grounds. On Sunday afternoon there will be a double attraction. Traviu's Band will give a concert, while the races will be run off as usual. There will be two good classes of one mile races and they will be under the three in five system.

Entries for these races will be published in tomorrow's columns of this paper.

GOLD CUP WINNER FOULED OPPONENT Ascot Heath, Eng., June 17.—Viscount Astor's Buchan won the Ascot Gold Cup race run here today. Sir W. Neilson's Tangiers was second

NOTICE The administration of the Julien Automobile Department, in the best interests of its present and future customers, has adopted the following wise course: Beginning on Monday, June 21, 1920 THE PUBLIC WILL NOT BE ADMITTED TO THE MECHANICAL WORKSHOP. Since the opening of our new Garage, the public was permitted to enter and talk with our employees. We have observed that this practice has been the cause of considerable loss of time and also of errors being made. A good mechanic, to give efficient service, must be able to give his undivided attention to his work. If he is called away, he wastes time, and will overlook something. Besides, we have noticed that our foreman loses at least half his time answering the public, whilst his full time is required to oversee the work done by each mechanic. Therefore, in the best interests of our customers, to whom we wish to give absolute satisfaction, we find it is essential that nobody should be admitted to our mechanical workshop. BEGINNING MONDAY, THE 21st INSTANT, THIS NEW SYSTEM WILL TAKE EFFECT. We hope that the adoption of this measure, which is done with the sole object of giving the best service possible, will not in any way offend those who wish to favor us with their distinguished patronage. THE MANAGEMENT, Eug. Julien & Co. 1200 St. Valier Street, Quebec

FISHING SEASON. If you are contemplating a fishing trip, make sure you have a sufficient quantity of eatables for the occasion. We have at present in stock a full supply of CANNED MEATS, FISH, SOUPS of all descriptions, MINERAL WATERS, TEA, COFFEE, JAM, NUTS, Etc., Etc. Our prices are very reasonable, and we carry nothing but the best stock. Georges Patry, 'THE HOUSE OF QUALITY.' Phone 6400 23 Fabrique Street QUEBEC. Tangiers 100 to 15. Juvencour 100 to 8. Keysee 10 to 1. MANITOBA OFFICIALS ARE SUSPENDED Winnipeg, Man., June 17.—Two officials of the Manitoba Soldiers' Settlement Board, Daniel W. Campbell, Director of Loans, and Richard W. Gardiner Assistant District Agriculturist, were suspended today. The suspension will remain in effect until the report of the investigating committee which is at present inquiring into the affairs of the Board has been received in Ottawa.

**SHOULD HAVE HAD
 N. S. DELEGATES**
 At the International Seamen's
 Conference to Decide Great
 Lake Shipping Policy

Genoa, June 16—Canadian delegates at this afternoon's sitting of the International Seamen's Conference, strongly proclaimed the necessity for the presence of United States delegates at the conference in order to regulate questions affecting international navigation, as they said both Canada and the United States had common interests on the large lakes forming the boundary between the two nations.

"On behalf of Canadian shipping interests, I strongly protest against any recommendation being made by this conference without hearing our friends from the United States," declared Thomas Robb, Secretary of the Shipping Federation of Montreal representing the employers.

"It is a very serious matter to make any recommendation concerning such a large inland sea without both parties being present, as these lakes are navigated by Canadian and American vessels. Regulations for navigation there are not international, but national regulations adopted by the United States and Canada.

"Trade between the two countries on the lakes for year ending March, 1919, amounted to over 14,000,000 tons. As these matters concern only the United and Canada it is essential they be dealt with by these two nations," he said.

Other Canadian delegates at the conference are:

G. H. Desbarats, Canadian Deputy-Minister of Naval Service, representing the Dominion Government, and C. J. Gauthier Montreal, representing the interests of the Canadian seamen.

CANADIAN NATIONAL-GRAND TRUNK.
 Important New Train Services Are Announced.

The unification of the Canadian National and Grand Trunk Railways will effect some material improvements in the train service concurrently with the summer changes in time-tables on June 27th.

One of these changes that will be particularly appreciated is the new day service between Toronto and Ottawa. This will be over the Grand Trunk double track line between Toronto and Napanee, thence over the Canadian National between Napanee and Ottawa. The departure time fixed from Toronto is 12:00 noon, Eastern Standard time, arriving Ottawa at 7:15 p.m. Instead of 6:30 p.m. This will save two hours and forty minutes en route in addition to the much more convenient hour of departure from London. From Stratford, where passengers now leave at 8:15 a.m., they will leave at 8:15 a.m. and save one hour and fifty-five minutes en route. Corresponding savings will be made from Kitchener and Guelph.

From Palmerston, the night journey now takes fourteen hours and fifteen minutes, and there is no day service, where the new day service will only take ten hours and fifty minutes, representing a saving en route of three hours and twenty-five minutes. Similar savings will be made from all the important territory to the north and west reached through Palmerston.

Passengers from Toronto will, in addition to the Grand Trunk "International Limited," which leaves Toronto, daily, at 9:15 a.m. and arrives at Montreal 5:45 p.m., have an alternative route via Ottawa, leaving Toronto 12:00 noon daily except Sunday and arriving at Montreal 10:50 p.m. A sleeping car will be operated on the connecting train from Ottawa at 7:30 p.m. daily except Sunday, which will be attached at Montreal to the new night train of the Canadian National leaving at 11:15 p.m. and reaching Quebec the next morning at 6:30 via the Quebec Bridge.

At Quebec connections will be made with the Canadian Steamship Lines steamer sailing Quebec at 8:00 a.m. for Murray Bay, the Saguenay, etc. This night through sleeping car service from Ottawa to Quebec will be entirely new.

Another feature that will be popular with business men from Montreal is that they will be able to leave on the Grand Trunk night express at 11:00 p.m. (12 midnight "Daylight Saving" time), arrive at Toronto 8:30 a.m. "Daylight Saving" time, have all morning in Toronto for business, leave at 1:00 p.m. (12:00 noon Eastern Standard time) take lunch and dinner on the train and arrive at Montreal 10:50 p.m., thus saving a night's journey on the round trip between Montreal and Toronto.

The new time-tables will be issued about June 17th and the public commencing trips to Ottawa and beyond from Toronto and Western Ontario should consult agents or secure the new folders which will enable them to ascertain full details of the many new and attractive features that will be introduced with the changes effective June 27th, besides those already referred to.

POWERFUL NEW PARTY FORMED IN FRANCE
 Alliance Republican—Democrat of Social Action and National Reconstruction

Paris, June 17—A new party which has just been formed in the Chamber of Deputies, comprising 260 votes, is one which it is expected any future Premier will have to take into account in preserving his majority in the Chamber.

Charles C. A. Jonnard, Senator from Pas de Calais, has been elected its president and the party has been recruited from remnants of the radical elements of the national bloc holding seats in the Centre and Right Centre of the Chamber.

The new party is called the "Alliance Republican-Democratic of Social Action and National Reconstruction," and its Premier of France, it is affirmed by its sponsors, will be able to govern henceforth without its good will and support.

DIPLOMAS FOR NURSES

Montreal, June 17.—At the graduating exercises of the Montreal General Hospital Training School for Nurses, forty-two members of the graduating class received diplomas today. The prize winners of the class were Miss Helen Peters, of St. John's, Nfld., and Miss Bertrice Wells, of Montreal.

Miss Mildred Buchanan, Lewis, Que.; Miss Isabel Ewing, Pike River, Que.; and Miss Phyllis Jessiman, Sherbrooke, Que., were among the graduates.

WILL NOT AFFECT CANADIAN MARCONI MEN

Montreal, June 17.—It was announced today that wireless operators employed by the Canadian Marconi Company will not be affected by the walk-out just ordered by the wireless telegraphers' association with headquarters in London, England, as they are organized separately as division 56 of the Commercial Telegraphists' Union of America and are not affiliated with the British occupation.

THE GREAT EVENT OF THE DAY

Our Footwear Sale caused a commotion in local business circles. The prices which we quoted are marvels.

Nobody is able to explain our mode of selling. The opinion of others does not worry us. We promised AN EXTRAORDINARY SALE in the line most in demand, which everyone needs. We believe we are fulfilling our promise in its fullest extent.

The Sale which is now going on at our Store has not had an equal within the past six years.

We are doing in Quebec what the big American firms have tried in New York and other large centres. In our field of action we do not recognize any superiors.

Saturday is the popular day. Profit by it to make your purchases in the Footwear that you really need. It is the time to bring all your resources into play.

It Is Also A Fine Investment

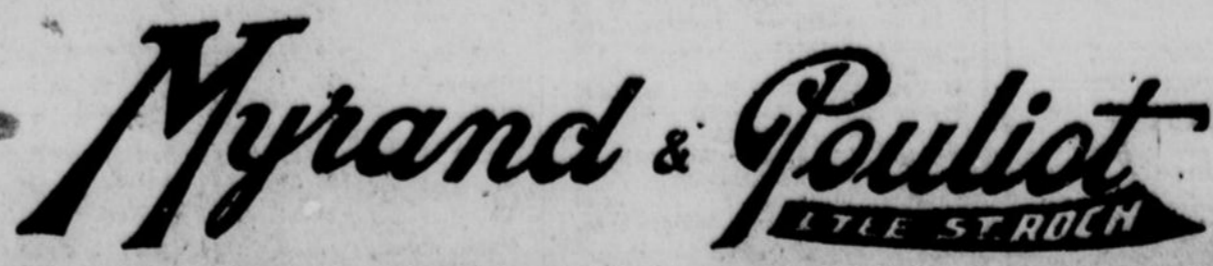

On Saturday we shall give appealing prices in nearly all departments, notably in Clothing for Ladies and Gentlemen. Ready-to-wear garments are always very much in demand on that day.

He Understands Batteries

That is why the truck driver, the man about engines, everybody who understands batteries always use a Reliable when faced with a demand that requires a continuous flow of hot, crackling sparks.

The Big Brass Cap on every Reliable No. 6 is your safeguard against wasted power. Well made of the best materials and tested three times, the Reliable does give you longer and better service. We use the Big Brass Cap because it is better, but you can have the Reliable with the "Fahrenheit Clip" if desired.

Those who know, use the Reliable Flashlight too—handy, safe light whenever needed. Reliable Flashlight Batteries are better for every light case, whether called Flashlight or every other name.

FRENCH WARSHIP IN THIS PORT

"Ville d'Ys" Arrived in Yesterday Morning and Saluted British Flag with Salvo

The French warship Ville d'Ys, in command of Commander de Ruffi Pontevs, D.S.O., Legion de Honneur, arrived in the port of Quebec yesterday morning at 8 o'clock, and saluted the British flag flying from the Citadel flagstaff with a salvo of 21 guns, and later the vessel went alongside Shed 18, at the Breakwater, Louise Docks, where she will remain until Monday, when she will leave for Montreal to allow the officers and crew to take part in the unvaluing of the Dollard Monument.

Shortly after the arrival of the Ville d'Ys, the commander accompanied by Mr. St. Victor, French Consulate Agent at Quebec, proceeded to pay the Commander's respects to the Governor-General on the Citadel. His Honor the Lieutenant-Governor, the Archbishop, and the Mayor of Quebec, and in the afternoon a number of the crew were granted shore leave, while the Commander of the ship and several of its officers visited Quebec acquaintances.

SHIPPING NOTES

The steamer Tannenberg passed up at 3:10 yesterday.

The steamer Compton passed up at 5:30 a.m. yesterday.

The steam yacht Albacore, the property of Sir William Price, arrived up at 6:15 a.m.

The steam barge Maplegrove passed up at 7:30 a.m.

The steam barge Rockaway Park, passed up at 4 p.m.

The C. G. S. Rouville arrived up at 4:15 p.m. yesterday.

The C. G. S. Canadian Voyager passed up at 5:20 p.m. yesterday.

C. J. SEWELL, Manager Quebec City Branch

DAILY GOSSIP ON THE LEADING STOCKS

Yesterday's New York Financial Bulletin was as follows: A specialty improvement trading market is expected to continue Best Sugar, Cuba Cane, Intl Motor Reading and Rook Island and favored in professional circles.

C. I. Hudson & Co. say it: Will not be long before market starts discount the prospective of a wise and more harmonious administration of affairs.

According to the Wall Street Journal: Politics are playing a large part in market movements. A banker says the best thing he can say of the Republican ticket is that both "in times like these," said he, "the progressives will have to take a back seat. We have had too much progress in the last 5 years."

Block Maloney & Co., think that: A cautious policy is best for the present with sales on bulges. When shorts are in the stock market promises to go back again.

In the opinion of the New York Sun: The market was disappointing again to those people who had looked for a rising market with the relaxation in money, but it did not surprise observers who have been saying that not much could be expected of the trading before the democratic convention.

Shonard Mills & Co., say: "To our mind the market looks upward."

According to the Journal of Commerce: The general range of movement was narrow. There were several instances in which the increase ran several points.

Retail Stores declared common stock dividend of 5 percent payable in common stock August 16 to record August 2nd.

While the stock reflects a firm undertone, it is generally professional, it is character is unchanged. We look for a dull irregular and narrow trading market to continue pending and depending the development of some new condition, say A. C. Gwynne.

CLOSING LETTERS BY THE CANADIAN PRESS

(By Canadian Press) New York, June 17.—The stock market was left to its own devices almost throughout today's stagnant session. Prices were firm at the outset, irregular at mid-day and inclined to heaviness at the close. Sales of barely more than 300,000 shares represented the lightest dealings for a full day since February of last year.

Fundamental conditions were unchanged, the money market presenting no new features, except for the negotiation of moderately large time loans. Industrial and commercial developments served to emphasize the prevailing state of transition.

Cables from London suggested heavy liquidation for home account but it was not made clear what American securities secured in the selling. Nevertheless, some of the stocks favored by London, Paris and Berlin before the war were inclined to lose ground here.

The weekly statement of the Bank of England showed another large gain in gold holdings and the local rate on London strengthened appreciably. Apart from these indications, however, there was nothing tangible on which to base the belief that more gold is soon to come to this market.

So far as stocks displayed any animation at all, the movement again converged around such specialties as General Chemical, Barrett, National Aniline, Virginia Iron and several of the minor equipment and food shares. As usual, extreme gains in these and divers issues experienced marked impairment at the close.

Railway and industrial bonds, notably St. Paul and United States Steel 5's reflected the reactionary trend of the Stock List. Liberty bonds fluctuated narrowly and international were disposed to ease. Total sales (par value) aggregated \$11,450,000.

Old United States bonds were unchanged on call.

CLOSING LETTERS BY THE LOCAL BROKERS

(By Bruneau & Dupuis) New York, June 17.—The volume of transactions is still so light as to give little or no sign in the market. The reaction in Crucible has affected some of the other steel shares and in the last hour of trading a number of prices were slightly lower.

The Northern-Pacific declared its regular dividends as we have recently predicted, also considerable uncertainty has existed on this point, owing to the recent reduction in the Great North west dividends, money market has shown a slightly improved aspect, in that more time money has been available it looks as if the federal reserve bank was making progress in the right direction, the railway congestion is also being steadily relieved so that bus-ness conditions seem to be headed towards somewhat sounder and better basis.

There is not likely have been any material change important for the present although it seems to us that the outlook is slowly improving. Total sales 329,300.

(By O'Brien & Gourdeau) New York, June 17.—The stock market opened somewhat irregular today, although the majority of speculative favorites showed overnight gains. Crucible Steel, however, was a weak feature, despite the cash and stock dividend declared, after the close of business yesterday, and showed an overnight loss of approximately five points. The heavy selling pressure of Crucible Steel lent encouragement to floor traders to depress values elsewhere and by mid-forenoon recessions looked persistent aggressiveness however, and after a period of dullness at the low level gradual improvement developed. The afternoon witnessed backing and filling operations in which transactions were highly professional and the volume of business decidedly small. The market closed dull and irregular.

The session today was again an unsatisfactory affair and the day's news contributed nothing that might in any way be an influencing factor in changing the uncertain state of sentiment.

Sales stocks 318,800; bonds, \$5,487,000.

(By Breen & Gourdeau)

Table with columns: Bid, Ask. Lists various commodities like Ames, Abitibi, Arbestos, Bell Telephone, etc.

EGG MARKET

Ottawa, Ont., June 17.—The chief feature of interest in the egg market is the strong and higher prices for the grades. Quality is now reported poor and shrinkage heavy. One Ontario co-operative association intends advancing the price to producers next week. Today this association is receiving 50 for fresh and 53 for extras. Several more sales are reported at Western Ontario points for full export.

Toronto quiet, jobbing prices, specials 71; extras 54 to 55; firsts 52 to 53; seconds 44 to 46.

Some dealers report buying straight receipts at 43 country points.

Montreal firmer and higher, jobbing specials 57 to 60; extras 55 to 56; firsts 53; seconds 47 to 48.

Dealers claim buying 47 to 48 f.o. b. country.

Cables received asking for dressed poultry prices.

New Issue

\$8,500,000

Riordon Company Limited

8% Cumulative First Preferred Shares

Dividends will be cumulative at the rate of 8% per annum from July 1st, 1920, and payable quarterly thereafter.

Transfer Agents — Montreal Trust Company Registrars — Royal Trust Company

The First Preferred Shares will be Preferred as to assets and entitled to a fixed cumulative dividend at the rate of 8% per annum and subject to redemption in all or part on any dividend date at 110 and accrued dividend. They will be non-voting except in the event of default in payment of dividends.

Table with columns: CAPITALIZATION, Authorized, To be Issued. Lists 8% Cumulative First Preferred Shares, 7% Convertible Cumulative Second Preferred Shares, Common Shares.

There will be authorized \$30,000,000 Twenty Year 7% Mortgage Sinking Fund Bonds, of which \$7,401,000 will be presently issued, which amount will include bonds to be held by Trustee to provide for ultimate retirement of outstanding Funded Debt of the Riordon Pulp and Paper Company, Limited.

Application will be made in due course to list both First Preferred and Common Shares on the Montreal Stock Exchange.

Complete prospectus (copies will be mailed on request) contains a letter from Carl Riordon, Managing Director of the Company, from which we summarize as follows:—

1. Riordon Company, Limited, has been incorporated to acquire the properties and assets of Riordon Pulp & Paper Company, Limited — Kipawa Company, Limited — and all the issued Capital Stock of the Gatineau Company, Limited, which has been incorporated to acquire the water powers, timber limits and mill properties of Gilmour & Hughson, Limited, and W. C. Edwards & Company, Limited. Company will also own over 60% of the outstanding Capital Stock of the Ticonderoga Pulp & Paper Company.

2. Combined timber holdings comprise 10,590 square miles of leasehold timber limits located mostly in the Province of Quebec on the watersheds of the Ottawa and Gatineau Rivers, and tributaries, containing over 25,000,000 cords of pulpwood and over 1,200,000,000 feet of pine.

3. Water Powers, developed and undeveloped, on the watersheds of the Quinze, Gatineau, Kipawa, Rouge and Nation Rivers, etc., have a capacity of 175,500 horse power of hydro-electric power.

Table with columns: Present Output, Annual Output, Lumber, etc. Lists Bleached Sulphite Pulp, Easy Bleaching Sulphite Pulp, Soda Pulp, Book Paper, etc.

5. After deducting all Current Liabilities, Net Liquid Assets (Working Capital) as at the date of completion of present financing should amount to not less than \$5,000,000.

A conservative estimate of the Property Values of the Company and its subsidiaries shows a valuation in excess of \$50,000,000 which, after deducting Company's and subsidiaries' Funded Debt amounting to \$12,401,000, shows a surplus available for First Preferred Shares of over \$37,000,000.

6. Net Earnings of the properties acquired, for the year ended December 31st, 1919, after payment of interest on present Funded Debt of the Company and subsidiaries and available for First Preferred Dividends, Depreciation, Depletion and Taxes, amounted to over \$2,250,000, equal to nearly 3 times First Preferred dividend requirements.

Net Earnings of the Company and its subsidiaries, for the current year ending December 31st, 1920, after payment of Interest Charges and allowing for Depreciation and Depletion and available for First Preferred Dividends and Taxes are estimated to be not less than \$5,000,000, equal to over 6 times First Preferred Dividends, and after payment of all Preferred Dividends, equal to over 12% on the Company's Common Share Capital.

Over \$8,000,000 par value of this issue has already been sold in Canada and the United States. We offer the unold balance, if, as and when issued, at a price of—

100 and accrued dividend, yielding 8%

Carrying a Bonus of 20% in Common Shares (One Common Share with every five Preferred Shares)

Payable: 25% of the par value on application.

25% of the par value on July 15th, 1920.

25% of the par value on August 16th, 1920.

25% of the par value on September 15th, 1920.

Common Stock Bonds will be adjusted to even amount by purchase or sale of fractional share at the rate of \$50 per share. The right is reserved to allot none, or a portion only, of the amount applied for. If only a portion of the amount applied for be allotted, the balance of the deposit will be applied towards payment of subsequent instalments. Payments may be anticipated in whole or in part at any time. Interest will be allowed on payments at the rate of 8% per annum. Interest will be adjusted upon final payment.

GERMAN MUNICIPAL BONDS

Latest shipping advices are to the effect that on account of large importations of surplus of German goods, there has been a steady demand for marks at advancing prices.

The German Government has recently appointed a Commission to arrange an International Loan to stabilize the European Exchange and to arrange a definite policy with other countries relative to exports and imports, trade with Russia and a general settlement of economic conditions.

This means that carefully selected German Municipal Bonds purchased on the basis of the present exchange rate will show a considerable profit in the near future.

The following figures give an idea of the present cost and the possible profits should normal conditions be restored.

Table with columns: Present Value at normal price, rate of Exchange. Lists 5,000 Marks City of Hamburg, 5,000 Marks City of Berlin, 5,000 Marks City of Dresden.

TANLAC HAS NO EQUAL, SHE SAYS
Montreal Woman Says Her Case Had Defied Other Medicines For Fifteen Years

Mrs. Malvina Lariviere, living at 111 6th Ave., Lachine, Montreal, is still another whose deep sense of gratitude and desire to benefit others will not permit her to remain silent regarding the great benefit which she has derived from Tanlac. Mrs. Lariviere is the mother of an interesting family of eleven children and is highly esteemed by all who know her. In speaking of her experience with the medicine, she said:

"I have already recommended Tanlac to many of my friends, but I am glad of the opportunity of telling everybody what a splendid medicine it is. I think my case was enough to test any medicine, because for fifteen years I had been troubled with indigestion so bad that I couldn't eat a thing but what would give me a burning sensation in the chest and bloat me up with gas until I would fairly grasp for breathe and felt as though my heart would stop beating. This continual distress after meals made me dislike the very sight of food and the smell of cooking would nauseate me. I was constantly having splitting headaches, and I had such pains across the small of my back that it couldn't have hurt much worse if I had been stabbed with a knife. These pains were so bad at night that I couldn't get proper rest and I always felt so completely done up that the work of the house and the care of so many children was a terrible burden to me. I had tried so many medicines without getting any help from them that I did not know what to do, and was very down hearted and discouraged.

"I have to thank those who made public statements in the papers about Tanlac, because that was how I came to try it, and after taking six bottles I want to say that in all my experience I have never come across a medicine equal to this. Why, I feel like a different woman entirely. I now have a splendid appetite and can enjoy a hearty meal without any fear of heartburn, gas or indigestion afterwards. The pains have completely disappeared from my back and I don't know what it is to have a headache. I sleep like a child every night and get up in the morning so rested and strong that I can get through the day's work without any trouble. Tanlac has proved a great blessing to me and I feel sure it would help all who may be suffering as I did."

REMARKABLE RECOVERY.

New York, June 16.—(By Canadian Press).—The remarkable recovery which Belgium is making is described in reports received by the Guarantee Trust Company of New York from its correspondents in that country. The little country which was so ruthlessly laid waste by the Germans, according to three reports, is now rapidly assuming a place in the forefront of producing and commercial nations.

Here is a summary of Belgium's position at the end of the war: One-third of the factories destroyed; 2,000 kilometres of railways, 1,800 bridges, 600 kilometres of canals, and practically the entire telephone and telegraph systems rendered useless; 50,000 railway cars and 2,500 locomotives had been taken; the public administration had been disorganized; the State Treasury was empty.

At The Theatres
New and Excellent Bill at the Classic Today and Tomorrow

"The Girl Alaska," the first and only photo-play ever made on Alaskan soil will be the special attraction at the Classic for today and tomorrow. A story told in wonderful Alaska has a particular interest to all and for entertainment "par excellence." "The Girl Alaska" is all that could be desired. It is accredited as one of the best, in every respect of recent releases.

"Dads Knockout," a 2-reel comedy, gives everyone an opportunity "to Laugh and Grow Fat."

The seventh episode of "Trailed by Three," is the most interesting and entertaining of the scenes, so far.

The Pathe Color Review is splendid.

An attraction which everyone appreciates and greatly enjoys is the big orchestra at the Classic, which is without a peer (if any others are as good) in any theatre in Quebec.

"Two-Bit Seats" Scores Instantaneous Triumph

"Two-Bit Seats" featuring Taylor Holmes, Marguerite Clayton, scored an instant and complete triumph at all performances at the Empire yesterday. It's a comedy-drama and simply delightful. Sixth episode of "The Lost City" of the African jungles is crowded with excitement and thrills. A screamingly funny comedy also on bill. The Empire is twenty percent cooler than any other theatre in town. Specialty adapted music for each feature by Empire Orchestra under direction of Bailey F. Alart.

Chronicle Files 100 Years Ago

SOCIAL AND PERSONAL

The Earl of Selkirk.
With sentiments of very deep regret we notice in one of our American papers the death of the Earl of Selkirk. Considering him apart from his colonization enterprises, and the legal proceedings consequent thereon, (with which we are but slightly acquainted; and upon which, were it otherwise, delicacy would prevent us making any observation) he was a man of the mildest and most prepossessing manners, and said to possess a very clear intellect, and much decision of character. In his demeanor was very happy blended the dignity of the British Noblemen with the polish of the travelled and educated gentleman. To the learned world he is known as an author of enlarged views, which had destiny placed on his head a crown, would probably have conducted much to the prosperity of his subjects and the extension of their commerce.

Chronicle Files 25 Years Ago

Major-General Herbert
Complaint is made of the long absence from his command of Major General Herbert, who seems to be doing nothing of an official character for Canada these days, but drawing his pay. It is said that his term expires in November next; and that he will not come out here until about that time, to close his office and pack up his things. Then his successor, who is not to be a Canadian, will be appointed. In the meantime the country is paying liberally for services it does not get, and our chief soldier seems to be enjoying himself in England, at Canada's cost.

The Marquis de Levis.
The distinguished French party headed by the Marquis de Levis and the Count de Nicolay, which has been expected here for several days past, arrived in town yesterday afternoon by the C. P. R. and was greeted with great enthusiasm by the French Canadian population. Their friend, the Canadian Historian, Rev'd. Abbe Casgrain, at whose suggestion they undertook the visit to Canada, went by the 1.30 P. M. train as far as St. Augustin to meet them and accompanied them to Quebec; and on their arrival here presented them to His Worship the Mayor of Quebec. The visitors were formally welcomed in the name of the citizens. The party were accompanied to the Chateau Frontenac by the Mayor, the City Clerk, Alderman Tanguay, Mayor, and Mr. Ernest Tanguay and other members of the City Council. At 3 o'clock the distinguished visitors will cross from Quebec to Levis and will there be welcomed by the Mayor, the officials, and the citizens of Levis. On Saturday night they will dine at Spencer Wood with His Honor the Lieut. Governor.

MILK BRICKS

The Chinese have, for some time past, been manufacturing a very satisfactory milk from small yellow beans.

These curd beans are first thoroughly soaked, after which they pass through crushing rollers or stones. The pulp is then transferred to tubs and strained through cheese-cloth, diluted with water and afterwards boiled, when it is strained again and ready for use.

In Japan, manufactured milk is being made from the "soja" bean. Here the beans are first soaked, and then boiled in water until a white liquid is obtained. To this is added sugar and phosphate of potash. After another boiling it assumes the consistency of molasses, when it is ready for use.

Cocoanuts as a possible source of supplying milk should not be overlooked. The South African natives utilize this nut, apparently with satisfaction.

The manufacture of synthetic milk from peanuts has been several times experimented with in various European countries. The nuts are shelled and crushed, mixed with distilled water until a gruel-like mass is obtained, and then a starch-meal is added. The whole is then subjected to a boiling process and filtered. Two hours or so later it is transformed into a kind of milk.

In Sweden experts have succeeded in perfecting a process whereby milk can be changed into a fine flour. At will this flour can be again transformed into true milk by adding sufficient water, and it is claimed that the milk does not lose any of its alimentary qualities through the changing process.

In some parts of Siberia, too, milk is solidified and sold in cakes and facilities in handling, also ensures the milk being kept in good condition.

Pains About the Heart

ANY derangement of the heart's action is alarming. Frequently pains about the heart are caused by the formation of gas arising from indigestion.

Relief from this condition is obtained by the use of Dr. Chase's Kidney-Liver Pills.

Chronic indigestion results from sluggish liver action, constipation of the bowels and inactive kidneys.

Because Dr. Chase's Kidney-Liver Pills arouse these organs to activity they thoroughly cure indigestion and overcome the many annoying symptoms.

Dr. Chase's Kidney-Liver Pills

Winnipeg, Man., June 16.—Ambulance chasing lawyers were scooped severely by Chief Justice Mathers, of the provincial court of King's bench, when he addressed the members of the Manitoba Bar Association. His subject was "Legal Ethics." Chief Justice Mathers spoke with severity on "ambulance chasing," pointing out that it is unethical and most unprofessional for a member of the bar to solicit such business as comes from street accidents or to induce individuals to enter into litigation.

LAWYERS SCORED

Just One Application And the Hairs Vanish
(Modes of Today)
A harmless yet very effective treatment is here given for the quick removal of hairy growths: Mix enough powdered delatone and water to cover the undesirable hairs, apply paste and after 2 or 3 minutes remove, wash the skin and the hairs have vanished. One application usually is sufficient, but to be certain of results, buy the delatone in an original package.

ATTEMPT AT DOUBLE SUICIDE FAILED
Hilo, Island of Hawaii, June 17.—Strapped together as they leaped into the sea to fulfill a double suicide pact, Uye Tafaburo, a Japanese of the North Kohala coast, and his wife, fell in their endeavor. Tafaburo

P. J. COTE,
29 & 31 St. John Street,
Opposite Palace Hill

was drowned but the woman was pulled from the surf by W. Pinehaka, Jailer of North Kohala. Pinehaka saw the pair with ankles and bodies tied, leap at one into the sea from the rocks below Haul on the North Kohala coast. He scrambled down to the water's edge just as the tide washed the woman back to shore, the bonds that tied her to her companion having broken. Later Tafaburo's body was recovered by Hawaiian divers. The woman's infant child, wrapped in her obi, or giraffe, was found hanging in a tree not far from the spot where she had fallen in her attempt at suicide.
