THIRTY-F[illegible]OT CHANNEL [illegible]0 FEET WIDE

Is What Hon. Mr. [illegible] Means to Provide Between Quebec and M[illegible]eal—The Question of the Dominion Fleet.

The transfer of the vessels of the Dominion Steamship Company from Portland to Montreal in virtue of the new agreement with the Grand Trunk was incidentally referred to by more than one speaker at the meeting of the Harbor Board, which was held this morning under the presidency of Mr. Robert Mackay. At one time it looked as though it would become the subject of a general discussion, but a timely turn of the debate led the speakers into other channels.

When the secretary was questioned as to whether he had brought the fact before the notice of shippers that the present was the proper time to apply for wharfage space, Mr. Hodgson observed that the Dominion company need not receive any special consideration, seeing that it was about to move its fleet from this port to Portland. "So far as I am concerned," observed Mr. Hodgson, "I will give as little business as I can to a company which will bring it through a foreign port. We want to build up Montreal."

A little later when the subject of harbor improvements was debated, a list was given by the various shipping companies who would be affected by the works which it was proposed to undertake during the coming season. Amongst them the Dominion company figured, and Mr. Crathern observed that as they had, according to all accounts, decided to take their vessels away from Montreal and place them on a summer service to Portland, he did not see that they were entitled to any special consideration. Mr. Torrance, who was present at the meeting, made no reply to either remarks.

The larger part of the sitting was devoted to a discussion on the improvements at the harbor, which will be carried out during the coming navigation season. This was preceded by a letter from the Hon. Mr. Tarte, the Minister of Public Works, which had been received by Mr. Seath, the secretary.

HON. MR. TARTE'S LETTER.

"My dear Mr. Seath," wrote the Hon. Mr. Tarte, "your letter of January 4 re work done on the channel during the last season has come to hand. The statement that has been asked for by the Hon. Mr. Pirrie through Mr. Torrance is now printed, and as Parliament has the privilege to have first communication of the reports of the ministers, I did not feel on reflection satisfied to publish Mr. Lafleur's report before the opening of Parliament. The report of the Department of Public Works is now ready, and will be put on the table of the House, I hope, in a day or two. I will be very glad then to send you a copy of Mr. Lafleur's report, which is included in the general report of the Department of Public Works.

"I am at present in communication with Mr. Robinson, an eminent engineer, who, I may say, has been for some time in the employ of the Harbor Commissioners of Montreal, and who is now in charge of several [illegible]ant works in the United States. I contemplate the building or the purchase of a suction dredge in view of carrying out with more speed the deepening and widening of the St. Lawrence channel.

"If my personal views prevail with my colleagues, I hope that within the next two or three years at the outside there will be a channel between Quebec and Montreal 30 feet deep and 450 wide.

"I will have much pleasure in sending you in a few days the annual report of the Department of Public Works."

Mr. Torrance observed that he had got a copy of the letter in question and it was now half way across the Atlantic.

The president remarked that the fact of Mr. Torrance having received a private copy as a personal favor was no reason why the Minister should depart from established usage by making a Parliamentary document public before it was submitted to Parliament.

The Minister's letter was received with general applause.

WORKS TO GO ON NEXT SUMMER.

The Commissioners then took up consideration of the harbor works which will be undertaken and, if possible, carried to completion next summer.

The Harbor Improvement Committee reported that at a meeting held this day they considered a report of Mr. Kennedy, chief engineer, of 15th January, and supplementary reports of January 30 and 4th February, the two latter covering reports from the Harbor Master, and beg to recommend that in addition to finishing the works already ordered, the building of the middle pier of the 12 A 2 che pier authorized by the Commissioners and by the Government, be carried out, and the shore wharf between that and the pier built last summer be undertaken and pushed on as quickly as possible, and that in carrying this out, the rock which will be required for wharf filling be dredged out of Windmill Point basin, in such a way as to prepare for the future extension of the wharf on the southeast side, and that the earth be dredged partly from the basins within the guard pier and partly from Molson's shoal, and that nothing be undertaken upon the northeast side of Windmill Point basin, and also that the whole of the flood protection wall be built and the widening of Common and Commissioners Streets be all carried out during the approaching summer.

Mr. Bickerdike questioned whether in view of the peculiar attitude taken up by the city with regard to the payments of its share of the improvements, the board need make the construction of the flood protection wall obligatory this summer. The city was more interested in that than the port and this might be other works more essential for the progress of the port than the flood protection wall.

President Mackay thought that by pushing on the flood protection wall the port would benefit to the extent that the entire scheme would be advanced.

Mr. Kennedy, on being questioned, admitted that by proceeding with the flood protection wall.

"I object," exclaimed Mr. Bickerdike "to paying more for the flood protection wall by proceeding with the work this year, seeing that the city won't pay."

"You must not consider the city," retorted the Mayor. "You must consider the harbor of Montreal."

"I quite understand the Mayor desiring to push on these works," said Mr. Bickerdike, "but we have other interests to think of."

"Oh, but it will advance the scheme generally," President Mackay remarked.

"You will get the high level a year sooner, and you will get direct railway communication with the piers from the east and west. In this way we will be promoting the general interests of the port."

The Mayor moved and Mr. Lemay seconded the adoption of the scheme as recommended by the committee.

Mr. Bickerdike proposed as an amendment that the report be deferred for further consideration.

Mr. Crathern seconded this, but on a vote being taken the report was adopted by five votes against four.

THE PILOTAGE COURT.

A communication was received from the secretary to the Privy Council intimating that the new pilotage court at Montreal had been duly established in pursuance of the provisions of the act passed last year.

The members and officers of the court would be appointed by the Minister of Marine and Fisheries.

FEAR EPIDEMIC OF SMALLPOX

Disease Brought into Ottawa by Lumbermen—Hasty Quarantine Measures.

Ottawa, Feb. 11.—(Special.)—There is the greatest excitement in Ottawa to-day over the introduction of smallpox into the city.

The "Soo" train arriving here at four o'clock yesterday morning brought down a well-filled colonist car full of miners and lumbermen, one of the men was noticed to be ill on the way down and when the train pulled in he was too ill to get off. Dr. Kidd was called in to see him and pronounced him to be suffering from smallpox.

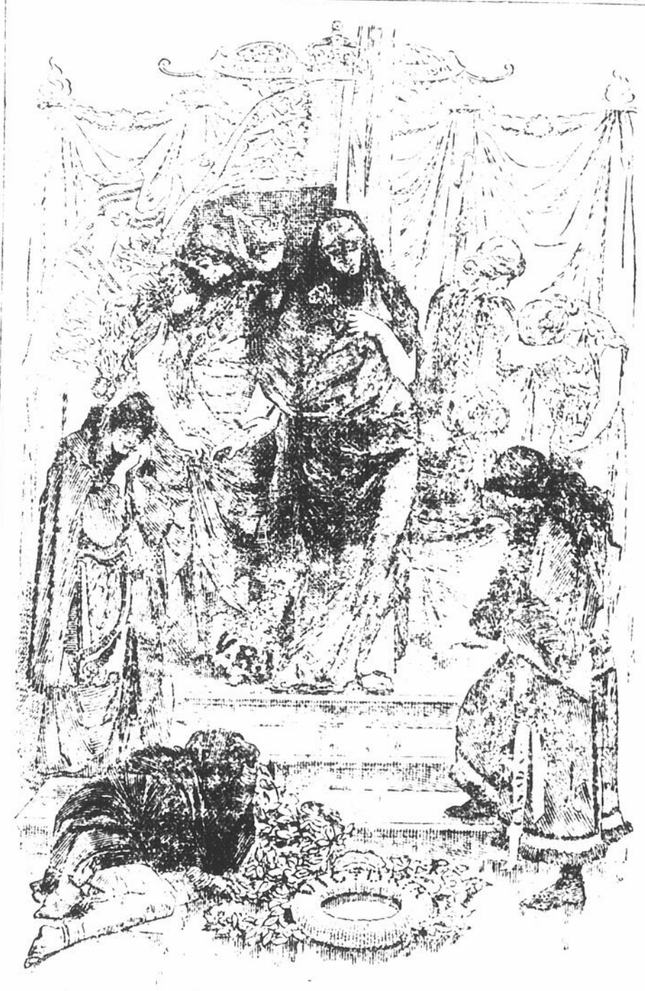

The civic health officials were notified and had the car hauled out to a quiet corner of the union station yard, where the sufferer was quarantined under Dr. Kidd's care.

There had been some thirty passengers on the car, and these, of course, had scattered all over the city in perfect ignorance of the fact that they might be spreading contagion. Several policemen were sent out on a hunt for these men, with the object of quarantining them and the houses where they were found. By noon to-day they had succeeded in tracing all but two or three.

The news leaked out this morning and there is consternation [illegible]ecially in the cheap hotels near the station.

There is hardly likely to be any considerable spread of the disease, owing to the prompt precautions taken, but as some of those on the car visited the sick man, it is not unlikely that there may be a case or two develop here.

The authorities will not give out the name of the man quarantined at the flats nor the place he came from.

"Requiescat."

CHARGED WITH TAKING $711.03

Mr. E. Perry Alleged by Ontario Firm to Have More Than His Due.

Edward Perry, of 40 Park Avenue, was brought before Judge Choquet in the Police Court on a charge of theft. For some time past he has been in the employ of the Ontario Grape Growing and Wine Manufacturing Company, Ltd., and the firm now claims that he appropriated $711.03 of their funds. Mr. M. J. Morrison appeared for the accused, and had him admitted to bail. Mr. J. Barnes, manager of the company, arrived in town this morning, and the enquete was started at once. Mr. Perry denies the charge.

THIEVES ROB TOMBS OF ITALIAN KINGS

Rome, Feb. 11.—It is reported that thieves carried away from the tombs of King Victor Emmanuel II. and King Humbert, in the Pantheon, a number of ornaments, one of them gold, adorning the Madonnas, together with fac similes of the various orders of the Iron Crown, and a badge of the Annegedado. Other objects not of great valve were taken.

HAILED MARY IV. AS QUEEN OF ENGLAND

London, Feb. 11.—The Daily Mail makes the following statement: "A notice declaring Edward VII. a usurper and "Mary IV." the rightful Queen was posted on the gates of St. James' Palace and at the Guildhall on the night Queen Victoria died. It was not signed, and no one saw it posted at either place, but it is known to have been the handiwork of a member of the Jacobite League. Probably no action will be taken, but the incident explains why the Legitimists were not allowed to place a wreath on the statue of Charles I. on January 30."

FRANCE QUITE ABLE TO DEFEND HERSELF

Paris, Feb. 11.—The Gaulois today says that at the obsequies of Queen Victoria, during the reception at Windsor, Emperor William perceived near him a group consisting of M. Pierre Paul Cambon, French Ambassador to Great Britain; Vice Admiral Fienaime, the head of the French delegation attending the funeral, and General Dubois. Addressing M. Cambon cordially, His Majesty said:—

"Well, M. Cambon, are you not coming to greet me?" and as the latter approached, the Emperor added: "I wish it to be well known that I love France very much and shall never allow her to be touched."

"Sire," replied M. Cambon, "I thank Your Majesty for what you have been good enough to say. France is a peaceful country, but if she is attacked she is capable of defending herself quite alone."

BLUE RAYS BANISH PAIN LIKE MAGIC

Young Russian Physician Experiments With Surprising Results.

St Petersburg, Feb. 11.—Medical circles here are excited over the discovery of a young Russian physician, M. Minin, regarding the curative properties of blue light.

Struck by the common notion among the Russian peasantry that a sick person on whom sunlight falls through blue glass feels relief from pain, M. Minin began an elaborate series of experiments, and he now publishes the result in a leading medical journal of St. Petersburg.

M. Minin used electric light through various shades of blue and violet glass. He demonstrated that in particular classes of nerve disorders and in neuralgia of the face blue rays alleviated the acute pain.

He also conducted successful experiments with cases of internal hemorrhage.

Dr. Minin uses an ordinary sixteen-candle power 100-volt eletric lamp, the light of which falls through pieces of ordinary blue glass. The length of time during which the patient is exposed to the light varies from ten to fifteen minutes.

NEGRO LYNCHED BY KENTUCKY MOB

Paris, Ky., Feb. 11.—George Carter, a negro, who was in jail here charged with having assaulted Mrs. W. E. Board about three weeks ago, was lynched by a mob early this morning. Shortly after 2 o'clock about thirty determined men appeared at the jail door and demanded admittance of Jailer Kiser. He refused and the door was beist open. The jailer was overpowered in an instant, the keys secured and in less than five minutes Carter was in the hands of the mob. He was dragged to the entrance of the court house and hanged. He refused to make a statement.

TEN CASES OF PLAGUE FOUND IN CAPE TOWN

Cape Town, Feb. 11.—Ten cases of what is supposed to be the bubonic plague have been isolated. One of the victims is a white person, two others are natives. A native child has died of the disease.

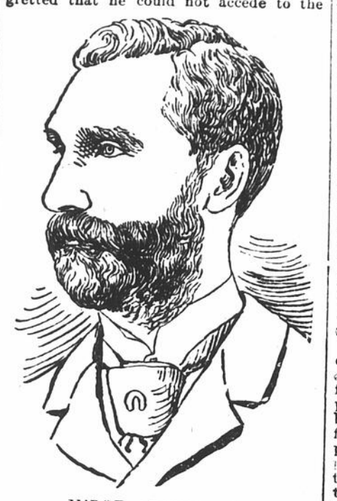

MR. HENRY FOLGER WAS BADLY BRUISED

Kingson, Feb. 11.—(Special.)—Henry Folger, the well-known steamboat owner, was out horse back riding yesterday, and was entering his yard when the horse stumbled and threw Mr. Folger to the ground. He struck on his face and had his nose broken and his forehead badly bruised. The injuries are very painful.

DELPIT CASE OPENED TO-DAY BUT POSTPONED

Mrs. Delpit's Lawyer Claims the Other Side is Playing to Get Judge Mathieu to Try the Case—Off Till To-morrow.

When the Delpit case was called for hearing before Mr. Justice Archibald in the Superior Court this morning, Mr. J. E. Bisaillon, counsel for the plaintiff, Mr. E. Delpit, made a verbal request that the case be further adjourned until February 21. In explanation Mr. Bisaillon stated that the counsel who was assisting him could not attend, having been called away to plead other important cases which had already been postponed on various occasions. He would not have time to assist at the present case any day during the present week, and Mr. Bisaillon hoped that the defence would, in courtesy, grant his request. With every possible desire to observe a strict professional courtesy Mr. Lafleur, counsel for Mrs. Delpit, regretted that he could not accede to the

JUDGE ARCHIBALD,
Who Is Hearing the Delpit Case.

wish of Mr. Bisaillon. The absence of one counsel, Mr. Lafleur contended, was not a sufficient ground for postponing a case. He had found this out in a certain case in the Privy Council, when through fortuitous circumstances he had been compelled to be absent from court. The case had been proceeded with, however, his junior partner having to act alone.

"I am ready," Mr. Lafleur said, "and have been for some time, to go on with the case. Mr. Bisaillon knew on Saturday that he would be unable to proceed today in the case. Yet he did not notify us. But now he wants a week's adjournment. I cannot do it. I have been engaged in the case and am asked to have it go on. Everything is ready. If my learned confrere wishes we will adjourn the case until to-morrow or until Wednesday. Surely Mr. Bisaillon can find time during an entire week to give one hour to this case."

"One hour!" exclaimed Mr. Bisaillon. "Mr. Lafleur has a valise with him and it will take us several hours to go through it."

ALLEGED TO WANT JUDGE MATHIEU.

"Childish," observed Mr. Lafleur. "My valise is filled with my gown, not the documents of the case. There is, I think, another motive for this request for an adjournment to the 21st. The other side do not wish to have the case heard now because they desire to have Mr. Justice Mathieu hear it. The 21st will fall during Judge Mathieu's sitting, and it is well known that Judge Mathieu usually sits here. His Honor Judge Mathieu has already decided a point in this case against us and the defendants are now trying to bring the case again before him."

"I am not anxious to have the case heard before Mr. Justice Mathieu, more than before any other judge," Mr. Bisaillon said, "but if my friend has already chosen a judge to hear the case, then it is another reason why I should insist for an adjournment. I am prepared to produce affidavits and give reasons to show that I am unable to be present at this court during the present week. As a matter of courtesy Mr. Lafleur should not refuse time, for if he were in the same circumstances he would make the same request."

Mr. Lafleur said he had inscribed the case regularly and he wanted to go on. As a matter of professional courtesy his confrere could not accuse him of refusing to postpone the case so that counsel might be engaged for Mr. Delpit. He, Mr. Lafleur, had been instructed by his client to proceed with the case this morning, if possible. He had this duty to his client to fulfil. If it could be fixed, however, for to-morrow, or the day after, he would consent. He had cases beginning to-morrow. To-day he had reserved for this case.

WHAT THE JUDGE SAID.

Mr. Justice Archibald looked over the inscription and remarked that the service was a fair time ago. He would have to order the case to go on with as little delay as possible. If there were any reasons why it could not go on, he would be glad to meet the convenience of the petitioner. But he was there to hear cases. He did not wish to hear the case in any way that was likely to injure either side. He would allow it to stand over until to-morrow morning. Unless it were then made manifest to him that there was a good reason why Mr. Delpit's lawyers could not proceed, he would not be able to postpone the case until next week.

AN IMPERIAL CONFERENCE

The Executive Committee of British Empire League Recommends Its Formation.

Toronto, Feb. 11.—The executive committee of the British Empire League, in its annual report, which will be submitted at the annual meeting of the League at Ottawa on Wednesday next, referring to the South African war, will express the strong conviction that an Imperial conference of representatives of all the self-governing colonies and the Mother Country should be held during the present year in England to consider the many important matters affecting the time and welfare of the Empire.

"The time," the report continues, "was never so opportune. The public mind is full of these Imperial questions. Australia is now in a position to act as a unit. Canada has long been ready. The people of England have at last awakened to the vastness and importance and future possibilities of their great outside Empire, and posterity would never forgive the statesmen of to-day if so favorable a chance to carry out a great work was lost."

The formation of a Royal Naval Reserve in Canada and the passing of the Insolvency law, together with the nationalization of the Imperial telegraph and cable systems, are also favored. The committee expresses gratification that after many years of agitation and effort the Pacific cable is in process of construction and likely to be in active operation before very long.

The report refers feelingly to the loss the Empire has sustained in the death of the Queen. The report will be presented by Colonel Denison, president of the league.

PRINCESS BEATRICE IS EUGENIE'S HEIR

To be Residuary Legatee After the Present Head of the Bonaparte Family.

London, Feb. 11. Princess Beatrice has accepted an invitation to go abroad and stay with the Empress Eugenie at Cap Martin, the fashionable watering place in the south of France, for some weeks.

Beatrice has always been a close friend of the widowed and exiled Empress, to whose son, the Prince Imperial, she was to have been married had he not been killed in the Zulu war. The Prince's portraiture in that campaign was intended to pave the way for the formal announcement of the betrothal. The young couple were deeply in love with each other.

Eugenie inherited a [illegible],000 from the Emperor. Two-thirds of it will go to Prince Victor as the present head of the Bonaparte family, but the bulk of the remainder, to-get-er with her priceless jewels, it is understood, will be left to Beatrice.

Eugenie is rapidly failing health, and Queen Victoria's death was a grievous blow to her. She is weary of life. She said recently to a visitor, in reply to inquiries: "Ah, don't fear for me. Alas! nothing can kill me since my misfortunes have failed to do so."

F. H. CLERGUE DENIES RAILROAD RUMORS

Sault Ste Marie, Feb. 11. F. H. Clergue, the Canadian promoter, who has arrived here after to discover on two months in England and Europe, denies that his companies are planning on a railway connection between the Soo and St. Ignace, the Duluth and South Shore undoubtedly would put it in the bid by sending its St. Ignace from over the Soo line rails via Trout Lake. This arrangement would give the citizens of the Soo that direct connection with St. Ignace which they have so long sought. The Power Company has a satisfactory traffic agreement with the Manitoulin and North Shore Railway, which will tap the Nickel Mine, but Mr. Clergue says his company has no interest other than an agreement in the road. The road is an ally to the C.P.R.

The Algoma Central Railroad and the Manitoulin and North Shore road, he says, will bring the raw material to his plants of the Canadian Soo. They are destined to become two magnificent feeders of railroad lines now centering in the Soo's freight and passenger traffic will be increased and the Soo will become a railroad terminus instead of a way station.

ROBBERY AND AKSON

PETERBORO HAS A MYSTERY OF ITS OWN TO SOLVE.

Peterboro', Ont., Feb. 11. Gough Brothers' clothing store was set on fire early yesterday morning, but the flames were discovered by the night watchman in time to be easily extinguished by the chemical engine. The cash register had been tampered with and some keys, but little else stolen. The stables in the rear of T. Giles' grocery store were fired by incendiaries on Saturday night and destroyed. The shop had been entered from the front and robbed of a large number of portable articles. A man who gave his name as James Mitchell is under arrest on suspicion of being the firebug. A form torn from the Giles check book and a key from Gough Brothers were found on him.

OUR MAN IN OTTAWA.

Ottawa, Feb. 11. (Special.)—When Hon. Mr. Charleton's scheme to shorten parliamentary speeches was made known it was moved by Oom Sam Hughes, seconded by Oom W. F. Maclean, that somebody hit Charleton with a brick.

"It is not every day that people get a chance to hear me speak," said Sam, "and instead of shortening speeches I now move, seconded by myself that I be allowed to speak until I feel like quitting, which will be sometime next week. Motion carried by myself.

"And now," said Sam "you have all heard how I settled the Boer war with the loss of only about 16 bottles of ink. I will now explain how a few well directed letters could catch DeWet. I would."

JOHN L. SULLIVAN DISCOURSES ON KING EDWARD

JOHN L. SULLIVAN'S opinion of King Edward is somewhat unique. John met the King some years ago when he went to England to fight Mitchell and writes:

"Now I want to give my reasons for thinking that Edward the Seventh is a great man. In the first place he's got common sense to burn. How do I know? See how he treated me. See how well I rested he was! There wasn't a bit of bluff about him.

"Give Edward the Seventh a show, and you'll find him one of the best in the business. And if he ever comes to America I'll bet he drops in at No. 97 West Forty-second Street and says 'Hello, there!' to his old friend.

JOHN L. SULLIVAN."

MR. CHARLTON, M.P., who will make a motion condemning long speeches in Parliament as a waste of time, might also add something about long letters. Remember that a few million of Oom Sam Hughes' letters are to be read.

SHANGHAI, FEB. 10.—(Special.)—Prince Tuan declined an invitation to dine with the members of the Sinclue Club to-day, afterwards jumping from Wun Hop Ching's 17 story pagoda, onto a barbed wire store house to see if he could hurt himself.

"I'm not afraid of him," said Tuan, "but I am keeping myself in train in case I am sentenced to read some of the Conservative speeches at Ottawa. I understand they are going to be of the XXXX No. 1 Wierd kind and just about the limit."

And so saying Tuan took a few of Cohen's Cauchoues for Constitutional Corns.

SIX DAYS ALLOWED

POINT DECIDED IN THE ALLEGED ST. HENRI BRIBERY CASE.

This morning in the Superior Court, Mr. Justice Archibald decided a point of procedure in the actions brought to upset the elections of Mayor Guay and Councillors Senecal in St. Henri, on the ground of alleged bribery. The question was the time of delay attainable. The defendants sought to nullify the actions by taking exception to the form. Mr. Justice Archibald said on one hand it was contended that the time of delay was fixed in Article 31, of the Civil code, wherein it was laid down that in cases not otherwise provided for, the delay of service was to be one clear day. On the other hand it was pretended that this was not a case in which there was an absence of provision for delay. He had consulted Mr. Justice Mathieu, who had been called upon to give judgment in a similar case. Mr. Justice Mathieu and he were both of opinion that a delay of one day was too short. The proceedings would not be annulled. The petitioner would be ordered to give new notice of the presentation of petition, six days delay was adjudged to be the period.

The development at the mine, it is stated, is progressing satisfactorily.

MAYOR CAN'T MAKE A CHOICE JUST NOW

Terrebonne Has Been Protested, and Until Case is Settled There is Noth ng to Say.

Mayor Prefontaine has not yet determined which seat he will occupy permanently in the House of Commons. At present he is representing Maisonneuve. The difficulty as regards Terrebonne arises from the fact that a petition to have him unseated is now before the courts. About ten days ago the preliminary exceptions, cited by his Worship, were argued before Judge Langelier, and these are now under consideration. "If those preliminary exceptions are sustained by the judge," remarked Mr. Prefontaine, "I will then be at liberty to signify my choice to the Speaker; if they are not sustained we will have to proceed to a discussion of the demerits, which may take as long as two years. Possibly the case may ultimately be taken to the Supreme Court. In the meantime, therefore, there is nothing more to say."

A SENSATIONAL WHITNEY EPISODE

President of Dominion Iron and Steel Company Says He is Pursued by Blackmailers.

Mr. Henry M. Whitney, the president of the Dominion Iron and Steel Company, and the head of the Dominion Coal Company, which contemplates making Montreal its headquarters in the near future, has just provided the State Legislature of Massachusetts with the most sensational incident of the session.

Mr. Whitney is the president of the New England Gas and Coke Company and it was on a demand for another gas investigation by a committe of the Legislature—a demand made by Representative McPherson, of Framingham, that the exciting episode arose.

In support of his claim for an investigation Representative McPherson made the charge that the New England Gas and Coke Company carried on its books one item to the amount of $1,000,000, which is set aside for legislative expenses.

According to the Boston newspapers of yesterday Mr. Henry M. Whitney, president of the New England Gas and Coke Company, in savage language denied the imputations made by Representative McPherson of Framingham that there was an item of over $1,000,000 on the books of the coke company for "legislative expenses," and that large and unnecessary loans were negotiated from Massachusetts banks upon the notes of the different Boston gas companies.

Mr. Whitney denied these statements as 'infamous and outrageous lies." He was cautioned by Speaker Myers, who was presiding, against using intemperate language, and later in the hearing this caution was repeated when Mr. Whitney declared that the move for a gas investigation this year was simply part of the general "scheme of blackmail" with which he and the corporations in which he was interested had been followed for years.

"To undertake," said Mr. Whitney, "to use the Legislature of Massachusetts for corrupt purposes and blackmail me and this corporation into purchasing quiet and peace is the reason of this order. This gentleman (McPherson) is in connection with the man behind the order. It is common knowledge. He can't deny it, either. He can't deny that he is in close contact with Thomas W. Lawson. He don't represent his constituency here in asking for this investigation. He represents men who have been following me for years."

Mr. McPherson, toward the conclusion of the hearing, admitted, in answer to a question put by Mr. Whitney's counsel, the Hon. William M. Butler, that he had been to see Mr. Lawson and got his story. He had also, he said, been invited to go and see Mr. Whitney and get his side of the story, but he did not say he had seen Mr. Whitney.

It is violating no confidence to state that Speaker Myers has no sympathy with Mr. McPherson's order. He does not think the Legislature is the proper place for the uncovering of the facts, if they exist, such as are sought to be got at in this way, and he believes that the Legislature has nothing to do with the question as to the methods employed by the banks in the conduct of their business. If they are not properly protecting their shareholders, he believes the remedy lies in the courts. He told a Herald reporter yesterday that the Legislature should not be used with his consent for the purpose of advancing the private affairs of individuals interested in furthering their stock jobbing enterprises.

These sentiments are shared by other members of the committee on rules, and to an extent, it is believed, that the committee will not recommend the passage of the McPherson order. The committee, however, regarded the allegation that a great business interest maintained a fund of $1,000,000 for so-called "legislative expenses," of sufficient seriousness not to be dismissed without affording the man who makes it the opportunity he seeks to substantiate. It was accordingly voted to hold the matter open until Monday.

The Thomas Lawson referred to in the foregoing has sent a statement to the newspapers in which he promises sensational exposures almost fraudulent corporation affairs, and he will appear before the Rules Committee of the House.

SOME PARIS CELEBRITIES.

Paris, Feb. 11.—Among other celebrities now disabled by the influenza are Premier Waldeck-Rousseau, Pere Hyacinthe Loyson, Cleo Merode, Captain Dreyfus, Max Nordau and George Washington, now a famous American negro bootblack left over from the Exposition.

MEN FOLLOW LEAD OF MRS. NATION

Decide to Clean Out all Illegal Saloons in the State of Kansas.

Topeka, Kan., Feb. 11.—Three thousand male citizens of Topeka in mass meeting here yesterday decided that the numerous joints of the city must close their places. They issued an ultimatum giving the jointists until Friday next at 12 o'clock noon to quit business. If this should not be done warning was given that a thousand armed men would immediately move on the joints and remove them by force.

To-day's action is the result of the crusade started in Topeka less than ten days ago by Mrs. Carrie Nation. The meeting was called by a committee of the law enforcement league and was attended by nearly all the prominent business men of the city.

Holton, Kansas, was purged of its joints to-day. The purging process was accomplished by a band of at least a thousand determined citizens who took the law into their own hands and attacked the jointists of the city. Three places were put out of business, and Holton is a dry town for the first time in fifteen years.

Des Moines, Iowa, Feb. 9.—Mrs. Nation's tour through the western part of the state to-day took on a new feature, and was in the sense of a triumphal journey for the little Kansas saloon smasher. She made a dozen addresses from the platform of a Rock Island passenger train in the towns she passed through to come to Des Moines to deliver a lecture.

FIVE GENERATIONS

ANOTHER EVIDENCE OF LONGEVITY OF GLENGARRY PEOPLE.

Cornwall, Feb. 11.—(Special.)—The longevity of the people of Glengarry has become proverbial and five generations of one family are not uncommon. One of the most interesting family groups to be found anywhere, however, is five generations of the name McMillan, all ladies, ranging in all from seven months to ninety-eight years. The eldest of this interesting group, Mrs. Ewen McMillan, was born in Lochiel Township on June 4, 1803. Her maiden name was Christy McLeod, and she married Ewen McMillan in 1821. Her daughter, Mary, was born on July 7, 1827, and was married in 1849 to Hugh R. McMillan, of Glen Sandfield. Their daughter, who was also named Mary, was born in 1852, and was married in 1875 to Dougald E. McMillan, of Laggan. Their daughter, Mary J., the fourth generation, was born in 1876, and in 1899 she married Duncan P. McMillan, of Alexandria. The fifth generation is represented by their daughter, Miss Edna Margaret McMillan, who first saw the light of day on July 9, 1900. She is the only one of the five who did not marry a McMillan.

DEATHS IN KINGSTON.

Kingston, Feb. 11.—(Special.)—The deaths are recorded of John Goodman, foundry man, after a long illness. Samuel Kirkpatrick, aged 71, at Watertown, N.Y. His remains were brought here for burial. James Keenan, aged 61 years, died from Bright's disease. He lived here for 37 years. Mrs. Ellen Scanlon, aged 65, passed away from an attack of pneumonia.

WANTS NIGHT CLASSES.

Kingston, Feb. 11.—(Special.)—The Trades and Labor Council have adopted a resolution complaining that when technical classes were proposed for the Collegiate Institute the understanding was that provision would be made for the establishment of evening and other classes, wherein the working classes might receive instruction in the various branches of technical education taught at the Collegiate Institute. This has not been done, hence the council emphatically protest against this lack of recognition, and demand that the matter receive immediate and fair consideration. A mass meeting to discuss the whole question of technical education, looking to further action, will be called.

WORKED THE PUBLIC.

Sherbrooke, Feb. 11.—(Special.)—Charles Bishop and Eugene Desendes were arraigned before Judge Mulvena on Saturday morning on a charge of obtaining money under false pretences. It appears that the two men had been going around the country with a subscription purporting to be in favor of Bishop whom they said had been burned out by fire at North Hatley on the 10th January and lost everything he had. They worked the public to the extent of $100, which was entered on the subscription list, and which was found in their possession, in sums varying from 25 cents to $2. They also received a large quantity of furniture, clothing, etc. The story was made out of whole cloth, for no such fire occurred.

BROCKVILLE NEWS.

Brockville, Feb. 10.—(Special.)—Mr. R. A. McLelland left yesterday for Carberry, Manitoba, in response to a telegram conveying the intelligence that his brother Edward, who is manager of a bank there, is very ill with pneumonia and not expected to live.

Last night Levi Crain, when alone in his house, fell through a trap door and broke two ribs, besides crushing his chest badly. A lamp which he was carrying was overturned and set fire to the house. Notwithstanding his severe injuries, he managed to put the fire out, and then climbed up stairs when he fainted, and was in that condition when his daughter returned. She summoned assistance, and his injuries were attended to.

John Carr, an elderly man, was driving a horse along King Street yesterday evening when the animal fell. In trying to raise the horse Mr. Carr received a kick in the leg, causing a bad fracture.

The Leeds and Grenville Law Society have had placed in their library in the Court House here, portraits of a number of the members of the legal profession of these counties who have attained distinction on the bench, in Parliament, and in other walks of life. The portraints already secured are those of the late Sir Wm. B. Richards, Chief Justice of the Supreme Court of Canada; the late Hon. A. N. Richards, Lieutenant-Governor of British Columbia; the late Lieut.-Col. J. D. Buell, M. P. and County Attorney; the late Hon. C. F. Fraser, Commissioner of Public Works in the Ontario Government; the late Hon. John F. Wood, Comptroller of Customs and Inland Revenue in the Government of Canada; Judge Senkler, Perth; the late Judge Senkler, St. Catharines; Judge Richards, Winnipeg; Judge McDonald, Brockville; and the late Judge Reynolds, Brockville. There are still several to be added to make the collection complete.

CHANGE IN THE 59th.

Alexandria, Feb. 9.—(Special.)—Upon the people of Cornwall accepting the Government's offer to build a drill shed or an armory in that town, providing the town gave a free site therefore, a change will be made in the personel of the 59th Battalion. This battalion is made up of two local companies in Cornwall, while in Glengarry there is one company in Alexandria; one company in Maxville and one company divided between Williamstown, Martintown and Lancaster. The remaining companies are in Finch, Roxborough, and Wales. The town having promised the site the Government will keep its promise. Following this comes the movement from Cornwall to raise a seperate battalion for that town, independent of the rural companies. This will necessitate a reorganization and a very strong feeling is expressed in Glengarry to seize the opportunity to raise a kilted regiment. This would be very popular with our people.

Trooper James Fraser, of Lancaster, who recently returned from South Africa where he served as one of our Canadian Mounted Infantry was tendered a fine reception by his friends and admirers, and presented with a handsome testimonial of their esteem. He was present and near Lieutenant Borden when he was shot and secured from this brave officer a locket which he wore and brought home. On Thursday he went to Ottawa to see the Hon. Mr. Borden, Minister of Militia, and father of the dead hero, and delivered to him the locket.

Congratulations are being tendered Dr. Kennet McLennan and Mrs. McLennan upon their arrival home from California, where they were married a few days ago. Mrs. McLennan is the eldest daughter of Mr. Ben Burton our well known citizen.

Mr. P. A. Huot one of Alexandria's prosperous merchants enjoyed with Mrs. P. A. Huot, their silver wedding on Saturday. Twenty-five years ago they were married in Beauharnois, P.Q., but have lived here for the last twelve years. During the quarter of a century of married life they have had the pleasure and gratification of seeing their family grow to manhood and exhibit the result of careful training on the part of their parents. A number of friends and relatives visited their home on Saturday and those unable to come sent beautiful presents. A very fine roll top solid oak desk and also an office chair was presented to them by the wholesale merchants of Montreal with whom Mr. Huot has done many years been dealing.

ITALY'S NEW MINISTRY

ZANARDELLI CHARGED BY KING TO UNDERTAKE TASK.

Rome, Feb. 11.—According to the newspapers of Rome, Guiseppe Zanardelli has been definitely charged by King Victor Emmanuel to form a ministry to succeed the Saracco cabinet. In that event it is believed that Signor Giolitti would be the Minister of the Interior and the actual Premier. It is also believed Signor Nicolo Fuloi, author of the amendment that overthrew the Saracco Government, will be Under Secretary of the Interior.

AMERICA THREATENS EUROPE'S COMMERCE

Paris, Feb. 11.—Sir Charles Dilke, writing in the Figaro concerning Anglo-French relations, which, he says, were never better than at present, says:

"We are too much disposed in Europe to regard Germany as the great commercial rival of Great Britain, but, as a matter of fact, it is the United States before which the United Kingdom, as well as Germany and France, must soon lower the flag.

"The value of the coal fields of the United States is well known, as are the energy of the people and their extraordinary resources. The Latinized republics of North, Central and South America, have been less recognized than they should be. The Argentine is already a great rival of England's own colonies in the South Seas in the production of food stuffs. The progress of South America, up to the present, has been retarded by revolutions, but in a short time the two Americas will be marching to conquer in the front rank. This progress would only be accelerated by quarrels between France and England."

LOTI'S BIG SALARY.

Paris, Feb. 11.—Pierre Loti is now in Pekin, where he was sent by the Figaro at what is believed to be the largest salary ever paid to a war correspondent—$25,000 for six months besides liberal expenses. The first three of Loti's letters have attracted a great deal of attention.

SCHOOL FOR CAB DRIVERS.

Berlin, Feb. 11.—An influential committee has been formed in Berlin for establishing a school for training cab drivers. No coachman will obtain a license who does not possess a certificate of the school for competence in handling horses through crowded thoroughfares. Before receiving a certificate he must also pass a strict examination on the topography of Berlin.

KING'S ENERGY AND TACT

His Majesty Devoting Himself to State Business—Plans for the Future.

New York, Feb. 10.—Mr. I. N. Ford, in his special cable letter to the Tribune this morning, says:—

"There is an impression that the opening acts of the new reign are colored by the King's popularity, but it is evident that no mistakes have been made, and that he is taking a hearty interest in his work, and employing large reserves of tact in doing the right thing in the right way. A largely attended meeting of the Privy Council was held at Marlborough House to-day for clearing off the arrears of state business, and making arrangements for the opening of Parliament this week with unwonted pomp and splendor.

If the King shares the feelings of apprehension entertained by other sovereigns respecting the risks incurred in the public appearances of royalty he conceals it bravely, and does not neglect the duties which are imposed by tradition. His march to Westminster will be conducted in great state, and the ceremonies there will be attended mainly by the privileged class. Peeresses and peers' sons are already booked for the best places at Westminster, and there will be a muster of smart society in the galleries of both houses.

It is rumored that the King will pay a visit to Germany to see the Empress Frederick as soon as Parliament has been opened, and Queen Alexandra may accompany him. The King will probably be entertained by the German Emperor before his return to England.

While the plans of the King for a foreign journey are uncertain, the intelligence that the Duke of Cornwall and York will go to Australia and Canada, and carry out the original programme for opening the first Parliament of the new commonwealth has caused general satisfaction. The announcement is satisfactory proof that the alarming reports about the Duke's declining health and increasing feebleness had been unfounded. His visit to Australia is regarded as a state event of great importance in stipulating enthusiasm for the Imperial federation. The Duke's title will probably be changed to Prince of Wales about the time of his arrival in the South Seas.

The allowances and financial arrangements made for Edward VII. as heir to the throne, will continue until six months after his succession, but Parliament will be required at the present session to order a fresh settlement respecting Crown lands and hereditary revenue, and the civil list must be sanctioned in return for the large income. The annuities granted to the heir of the throne and the members of his family will also be determined. This is not included in the schedule of important business, for which the leaders of the Government and Opposition are summoning their followers, but it will be more complex and delicate than any legislation respecting army reform or the increased burden of domestic taxation.

Lawyers are still quibbling over the technical points involved in the bad drafting of the law of 1867, dispensing with the necessity for the election of English and Welsh members of Parliament after the death of the sovereign, but leaving the Scotch, Irish and university members in a state of suspense. Close constructionists aver that a fresh amendment to the act will be required within six months, for the purpose of clearing the titles of all but the English members from cloud.

There will be many changes in the personnel of the English court, in consequence of the King's accession, but he is ordering changes slowly, and contenting himself for the momnet with distributing rewards and honors among the old servants of the Queen.

All the society journals take it for granted that there will be a marked transition from the widowed Queen's court in retirement to a more luxurious King's court, in the metropolis of English millionaires. The plutocracy, against which the old landed interests vainly sought to establish social barriers, is now coming in with a rush, if these mentors can be believed, and the state functions at Buckingham Palace will be the most brilliant in the world, as befits the richest capital of the greatest Empire. Social croakers are sounding a warning against the coming triumphs of spurious smartness, and are asserting that the King needs deliverance most of all from the flatterers and adventurers surrounding him. The King certainly has known more about the real character of English society than the lamented Queen ever understood about, and if his memory gives him useful service and he has strength of mind for readjusting social balances, his court may not lose dignity as it becomes more brilliant.

ST. LAWRENCE LLOYDS TO BE A BIG SUCCESS

English Shipping Men Interested in Mr. Clergue's Scheme—All Capital Needed Reported to be Available—Mr. Torrance's Views.

The first big steamer which comes up the St. Lawrence for a cargo from Montreal next spring will undoubtedly be protected by insurance in the St. Lawrence Lloyds (Ltd.). The discrimination by British insurance underwriters against the St. Lawrence route is about to bear fruit.

Discrimination of British underwriters fifty years ago gave birth to the Bureau Veretis, a French institution, which is to-day its great rival in the commercial insurance world. Similar discrimination against Canada is about to produce The St. Lawrence Lloyds, with a capital of $5,000,000 and plans to carry on marine insurance, not in Canada alone, but all over the world, wherever there are ships and shipping.

The movement owes its origin in the first place to discrimination against Canada and in favor of American competing ports, and in the second place to Mr. F. H. Clergue, the spirit of the Algoma Commercial Company, of Sault Ste. Marie. Mr. Clergue formed a company and invested several million dollars in pulp mills, railroads and steamships for the purpose of doing business with Europe via Montreal and the St. Lawrence.

One of the first things the present session of Parliament will have to deal with will be the Canadian Lloyds charter. That once secured the rest is a matter of working out details, for enough capital is already available.

MONTREAL'S HEAVY TAX.

The new company will have a fine field to begin at home for the discrimination against this port is something stupendous. The cost of insuring a steamer trading from Montreal, Halifax, Sydney or St. John is two and one-half times Boston, New York, or Baltimore. Sailing from Montreal costs a £100,000 steamer just $3,000 a voyage more than sailing from New York.

Last year there were 692 sailings from Montreal so there was about two million dollars more money given to the British insurance companies than there should have been. Two millions dollars is a good deal of money. It is certainly a greater discrimination than the port can stand for many years. The sum would go a long way toward paying for the wrecks which have occurred in the St. Lawrence.

MR. TORRANCE'S VIEWS.

Mr. John Torrance was the most positive on the success of the St. Lawrence Lloyds. When asked if he thought it would succeed he said, "I don't think so, I know it." When asked if Montreal capital was going into the enterprise he said, "Not much; that is the reason it is going to succeed." Asked where the money was coming from he said, "Mr. Clergue." A ventured statement that Mr. Clergue would not be able to put $5,000,000 into the enterprise brought as a response, "Why not? H could put in $10,000,000 if he wanted to."

The following message received Saturday from Mr. Jones, head of the Elder-Dempster Company by Mr. D. W. Campbell, the local manager, shows that British shipping men are alive to the need of a Canadian insurance association, and are ready to lend their co-operation.

"Very anxious to know what you are doing about insurance company. Invite anyone interested come here with you confer with us. Canada will not get fair play until she has independent insurance to look after Canada general business. We take £50,000 shares provided everything arranged satisfactorily. Confer Dobell."

RUMOR OF PARDON FOR MRS. MAYBRICK

Chicago, Feb. 11.—A special cablegram from London to the Chicago Record says: A well authenticated report reaches the Record correspondent to-night to the effect that Florence T. Maybrick will be released from Aylesbury Prison to-morrow.

At the United States Embassy nothing is known about the matter, and Ambassador Choate, when seen at his residence to-night, declined either to deny or confirm the rumor.

Ever since Charles Thompson Ritchie, the new Home Secretary, came into office last November, efforts to secure the release of Mrs. Maybrick have been active and have continued up to within a very few days ago. The efforts of Ambassador Choate, although made informally, have been unceasing.

When Mrs. Maybrick was allowed the privilege of seeing her New York lawyer, Mr. Clarke Bell, last summer, that gentleman told the Record correspondent that the chances for his client's release were more favorable than they had been at any other time during her twelve years' incarceration.

The authorities conversant with the attempts to secure the freedom of the famous prisoner, assert that if at last she is to be given her liberty, this may be regarded as due to the influence of King Edward, and may be interpreted as a token of appreciation of American sympathy over the death of Queen Victoria.

London, Feb. 11.—The officials of the Home Office say there is no foundation whatever for the report that Mrs. Florence Maybrick has been pardoned.

WOMAN DENTIST MADE WEALTH OUT OF KITS.

Paris, Feb. 11.—Josephine Nightingale, an American spinster who has just died in the suburbs of Paris, made a fortune in an odd way.

She was a dentist, but only practised a few years here. Afterward she designed and advertised extensively a dollar kit for home dentistry—extracting, caring for and filling one's own teeth. In seven years she sold more than four million of these kits in France, Germany, Italy, Spain and the Colonies. Each kit cost her only 19 cents.

FAMOUS FRENCH MODISTE TO INVADE NEW YORK.

Paris, Feb. 11.—Mme. Paquin, the famous dressmaker, contemplates opening a branch establishment in New York. Her shops here employ 185 men and 700 women. Five years ago she owned a London branch, which now employs 350 persons.

Doucetam, Paudnitz and many others are worried over Paquin's project. If she goes there several of the most famous firms may invade New York in order to defend their share of American patronage.

WILL BRING SUIT AGAINST DEPARTMENT

Acting on information from various sources, four officers of the Provincial police were detailed to raid the premises of Sue Shing-Hung Fung, 631 Lagauchetiere Street, on Saturday afternoon, in search of liquor alleged to have been brought there in contravention of the excise law.

The police officers were assured by Fong Chang, manager of the place, that no liquors were concealed in the place, but they would not listen to him and started to make a search.

Mr. Edmond Guerin, attorney for the proprietor, was called up by telephone, and protested against the doings of the policemen, as they were not invested with the proper authority to search the place. The officers, however, would not be turned from their purpose, and continued their investigation.

It resulted in nothing, for all that was found was a small dust-covered jug filled with a liquid preparation, and which the Chinamen said was used as a rheumatism cure. Further developments are awaited. In the meantime the Celestials, through Mr. Guerin, are speaking of a suit against the revenue department.

YOUNG GIRL A VICTIM F REPTILE PET'S FANCY.

Paris, Feb. 11.—From Cannes, the fashionable Riviera resort, comes news that Mlle. Blanchard, the beautiful society girl who entertained such an uncanny fondness for snakes, was bitten by one of her pets and died nine hours later. She was 26 years old. Ever since she was over 14 her parents had vainly tried to cure her of her passion. Sometimes she kept over two dozen different reptiles in her apartment.

BELIEVE OGILVIE [illegible] NOT RESIGN.

Ottawa, Feb. 11.—(Special.)—The Conservative organ here announces this morning that it is understood that Mr. William Ogilvie, Commissoner of the Yukon Territory, is about to tender his resignation. At the Department of the Interior nothing is known of any such intention on the part of Mr. Ogilvie, nor has there been any intimation from him that he is likely to give up the position in which he has been doing such good work.

SYBIL SANDERSON AGAIN SETS PARISIANS WILD.

Paris, Feb. 11.—Sybil Sanderson has reappeared on the Paris stage, over which she held regal sway before marriage. She sang passages from "Romeo and Juliet" in a concert given at the Opera Comique for the benefit of the Actors' Pension Fund. The elite of Paris attended and she was cheered wildly, being recalled eight times.

Her regular engagement begins in April, when she will recreate Massenet's "Manon."

SUSPECTS A MYSTERY AND FINDS AN OLD WIG

A wig which, having served a purpose at many masquerades, had been thrown away, was found by Constable Dekonnick, of No. 7 Station, on Saturday night, in a snow bank on Basin Street.

It seemed a strange, gruesome sight that tuft of dark brown hair in the white background on the roadside.

Murder! thought the policeman as he saw looming up before him the picture of a sensational discovery.

He approached the object with a sensation akin to fear.

He had never felt that way before.

He brushed away a hazy mist of snow that covered the thing and dared to touch it. It was hair, and he seemed to feel the scalp of some poor unfortunate. Great mysteries!

He pulled to raise it, but it was frozen stiff, and to him it appeared that the victim must have been heavy.

An idea struck the brave man. He went to the Canada Jute Works, secured a lantern, a pickaxe and a shovel.

One hundred spectators had gathered around, attracted by the strange doings of the policeman. They anxiously awaited the result of the snow-digging.

Finally the policeman thought he'd have another try, and, with great respect, again wound the long hair round his digits.

He prepared to give a terrific pull. One, two, three, he counted.

Then he pulled, and found the mystery was solved and the crowd around him were laughing, as he held in his hand the dishevelled remains of what had once crowned the fair head of a princess masquerader.

FRENCH SOCIALISTS ASK W. J. BRYAN TO LECTURE.

Paris, Nov. 11.—Upon receipt of the news that William J. Bryan intends to make a tour of Europe the Council of the Federation of French Socialists voted an address of invitation to deliver a series of lectures throughout France upon the condition of labor and the signs of social progress in America.

BUILDING BOATS FOR THE ALASKAN TRADE

Tacoma, Wn., Feb. 17.—Not less than two dozen sailing vessels will start for Nome and Behring Sea in April and May. The saw mills on the Yukon have resumed operations for the season, and every town between Bennett and Dawson is building boats and steamers. Nearly eighty vessels will be engaged in the Alaska traffic during the summer, including those on the Upper and Lower Yukon, together with steamers sailing on regular routes from Puget Sound.

The people of South-eastern Alaska have petitioned Senator Perkins, of California, to aid them in securing a lighthouse and other means of protection for the inside route between Tacoma and Skagway. The petition sets forth that 15,000 passengers, 20,000 tons of freight and $20,000,000 in treasure are annually transported over this route.

FOUND HER INSANE.

Toronto, Feb. 11.—Miss Magdalene Keefer, one of the Sisters of St. John the Divine, while in attendance at St. Margaret's Church yesterday acted so strangely that, after leaving the church, her sister, Mrs. Johnston, who accompanied her, took her to a police station. Here Miss Keefer was examined by a number of doctors, who declared her insane. She will be committed to the asylum.

BANK MANAGER DEAD.

Winnipeg, Feb. 11.—Donald Todd has been sent up for trial for the murder of John Gordon, in Winnipeg, two years ago. D. J. McLelland, manager of the Merchants Bank at Carberry, is dead, as the result of an acute attack of pneumonia.

GOES TO ENGLAND.

City Attorney Ethier leaves for England this evening, where, before the Privy Council, he has two important cases to argue. The one, involving an amount of $200,000, relates to the widening of Notre Dame Street East, in which, before the Supreme Court, the city secured judgment against the property owners who had protested against bearing their share of the expense of the work. The other, involving an amount of $60,000, arises out of the St. James Street sewer, in which Westmount, St. Henri and St. Cunegonde are the appellants.

A CUMBERSOME ALLIANCE.

St. Petersburg, Feb. 11.—The Bourse Gazette, in advocating a French-Russian-American-Japanese alliance, to offset the Anglo-German alliance, which a portion of the press persists in believing real, says the other three powers should accept Russia's leadership and make peace with China, without delay, regardless of the Anglo-Americans.

THE ABBEY SALT CASE.

The hearing of the defence side in the case of the Abbey Salt Company against Charles Dumontier and I. Vandandaigue, on the charge of stealing several dozen bottles of the salts, was opened before the Enquete Court on Saturday. Several witnesses, among whom were Vandandaigue's father and Detectives Guerin and Cote. They gave evidence that Dumontier after his arrest had declared that Vandandaigue had not known that the goods had been stolen. Mr. Vandandaigue, senior, said Dumontier had told him that because of his position in the Abbey Salt Company he was able to sell goods at a very small profit. The case was taken under consideration, and judgment will be rendered during the week.

CONTINGENTS HELPED HALIFAX STREET RY.

Halifax, Feb. 11.—(Special.)—The annual meeting of the Electric Tramway Company was held this afternoon. The directors report said: During the past year the business of the company has shown a decided increase, both in the railway and lighting departments, giving a net profit of $74,631.93 as compared with $61,798.67 for the previous year.

From the year's profits there have been paid four quarterly dividends of 1¼ per cent each, amounting in all to $40,000, leaving a surplus of $34,631.93, maintenance of road bed, rolling stock, power station equipment, and other property of company has received careful attention, and the cost of the same has been charged to operating expenses as in previous years.

It will be noticed from the statement that although the company's business continues to increase satisfactorily, the operating expenses have also increased $15,997.48 over the previous year. Of this amount the sum of $12,000 is chargeable to increased cost of coal. To meet in a degree this advance in the cost of coal the company has decided to enlarge its wharf property and coal handling facilities by which the cost of coal at the company's works will be considerably reduced.

The cost of extending the lighting and power lines not only in the new but in the old districts have been charged to operating expenses with the exception of $195.00 appropriated for the extension of city arc services.

During the past year 2,968,811 people have been carried. An increase of 352,580 over the previous year. It is estimated that about 20 per cent of the increase of passengers carried is due to the presence of the South African contingents in Halifax during the past year.

PRESENTATION TO MR. R. STANLEY BAGG.

At the Conservative headquarters, St. James Street, on Saturday, an informal gathering of Conservatives was held to present an address on behalf of officers and members of the Liberal-Conservative Club, to their president, Mr. R. Stanley Bagg, who is going on a European tour. Mr. Monk, M.P., and Mr. R. H. Pope, M.P., spoke.

SPANISH RAILWAYS TIED UP FOR FIRST TIME.

Paris, Feb. 11.—The Spanish railways, for the first time in their history, are now largely tied up by strikes.

Emissaries who have been here to get French engineers, firemen and trainmen to take the places of the strikers, report that, notwithstanding the excessive wages offered, the men have obeyed the orders of the several labor federations, which enjoined them not to go to fight their Spanish brethren.

JACQUES REMANDED.

On Saturday night Edouard Jacques, a painter, of Amherst Street, was arrested by Detectives Reid and Picard. Before Judge Choquet this morning he was charged with highway robbery and assaulting Mr. M. O'Reilly on St. Jean Baptiste Street on Friday. He was remanded till Friday.

TWO NEW BY-LAWS.

Building Inspector Chausse has now in course of preparation a by-law which will deal with the storage of explosives and inflammable materials, in pursuance of a suggestion made by Alderman Hart, who, at the last meeting of Council, gave notice of a motion to that effect.

Alderman Lapointe will, at the meeting of Council this afternoon, give notice that, in 30 days, he intends to move the first reading of a by-law to define what is meant by a real estate agent. Hitherto there has been some difficulty in collecting licenses from gentlemen who were not buying and selling properties, but were merely handling them on commission. The new by-law will provide that these gentlemen shall be amenable to license in the same way as are ordinary real estate agents.

DEATH OF EDWIN M'LELLAND.

Brockville, Feb. 11.—(Special.)—Edwin McLelland, manager of the Union Bank at Carberry, Man., died yesterday of pneumonia, his brother, Alderman McLelland, of this town, left for Carberry on Saturday in response to a telegram announcing his illness, and will not reach there till to-night. The remains will be brought, for interment, to Three Rivers, Que., where the parents of deceased reside. The late Mr. McLelland was married in October last to Miss Ida Magee, of this town. He was 33 years of age.

Y.M.C.A. PROVINCIAL COMMITTEE.

Kingston, Feb. 11.—(Special.)—R. Kilgour, C. S. Gzowski, J. J. Gartshore, H. B. Gordon, Toronto; A. W. Ault, Ottawa; C. Cook, Brantford; A. Kingman, D. A. Budge, J. H. Pacard, Montreal; W. J. Waugh, Hamilton; W. R. Hobbs, London; D. L. White, Midland, were elected members of the Y.M.C.A. Provincial Committee at the convention just concluded here.

DIDN'T BRING BACK THE CHANGE.

Isidore Trudel, employed by Mrs. Burnet, 70 St. Denis Street, pleaded guilty this morning in the Police Court to a charge of stealing $5. The money was given him in a bill and he was sent to have it changed. He failed to return, hence his arrest. He was remanded for sentence.

LAVAL LAW STUDENTS.

The annual banquet of the law students of Laval University was held on Saturday evening in the Place Viger Hotel and was most successful. Mr. Levi Laurier, president of the law students' class, was in the chair, having beside him Hon. J. I. Tarte, Mayor Prefontaine, Mr. E. Lafontaine, Hon. L. O. Taillon, Mr. F. D. Monk, Dean Walton, of the Law Faculty of McGill; Mr. J. S. Buchan, Mr. Belanger, Abbe Bourassa, Messrs. Emard, J. A. Drouin, C. Piche, J. Coutlee, God. Langlois, Decarie, Dr. Gerin Lajoie, D. Wright, F. X. Benoit, jr., Arthur Ibbotson, F. Ibbotson and others.

CALL FOR TENDERS.

When on Monday last the City Council was discussing the proposition made by the Bank of Montreal, to act as the former's agent in floating debentures to the extent of $1,800,000, Mayor Prefontaine was not present. "The only thing to be done now," said he this morning, "is to call for tenders. If they do not prove satisfactory, the Council can then appoint a small delegation to proceed to London and transact the business direct. The sooner the affair is settled one way or the other, the better."

THAT HEAVY STORM.

Halifax, Feb. 11.—(Special.)—Steamer Erna Captain Bruhn, nine days from Bermuda to St. John, put into Yarmouth this morning short of coal. The steamer met a terrific storm flooding her cabin, breaking windows and forcing in the hatches. She is loaded with rum and sugar and has three passengers.

ANNUAL EARNINGS OF THE R. & O. CO.

Over $900,000 Taken in, Against $828,322 in the Year 1899.

The annual statement of the Richelieu & Ontario Navigation Company was issued to-day showing the largest earnings in the history of the company. The statement follows:

Your directors submit herewith a statement of the company's business for the year 1900:

	1900.	1899.
The gross receipts were..	$901,331.80	$828,322.96
Operating expenses	748,105.33	674,626.89
Fixed charges....	23,903.51	24,966.00
Net profit..	$129,322.96	$128,730.07

Two semi-annual dividends of three per cent, amounting together to $117,813.93 were paid, leaving the amount of $11,509.03 carried to surplus.

It will be noticed that the gross receipts show an increase of $73,008.84 due mainly to increased earnings from steamers, as well as to the first year's operation of the company's hotel, "Manoir Richelieu," at Murray Bay, and of the Yonge street wharf, at Toronto, leased by the company.

The expenses have also been increased by the operation of the hotel and wharf mentioned, but more especially by the large amount of $45,000 charged to the year's expenses for new improvements, including the lengthening of steamer "Bohemian"; new feathering wheels for steamers "Quebec" and "Hamilton"; and increased state-rooms to steamers "Quebec," "Hamilton" and "Sparton." These are outside the regular repairs and outfit in which is included the rebuilding of the steamer "Longueuil."

The company's hotel at Murray Bay, although not completed until after the season had commenced, was well patronized. The hotel at Tadousac was also well patronized and shows an increasing business.

The company's new steamer "Toronto" has continued to give the most satisfactory results with largely increased earnings. The new steamer "Kingston" now being built for the same route, with more extensive sleeping accommodation, and even more attractive fittings will be ready for next season's business.

Your directors have also contracted for another new steamer of 340 feet in length, and 266 state-rooms, and the most modern and attractive fittings, for the route between Montreal and Quebec, to be ready for the spring of 1902, to replace the steamer "Montreal," which will be utilized on another route to advantage.

Under the deed of trust securing the company's bonds, issued in 1895, $21,413.33 have been withdrawn and cancelled during the year, making a total cancelled to date of $97,333.32, out of the original issue of $571,833.33, and leaving therefore $474,500.01, stil loutstanding.

Respectfully submitted,

L. J. FORGET,
President.

DIPHTHERIA IS ALMOST EPIDEMIC

The epidemic of scarlet fever seems to be about stationary. During the past week about the same number of deaths from it as formerly were reported—viz., 14.

The number of deaths altogether throughout the city was 159; 130 of these being Catholics, 28 Protestants and 1 Jew.

The city is now threatened with an epidemic of diptheria. During the week just ended twenty-eight persons died from this cause as against one in the week ending January 11, the corresponding week of last month.

The mortality from disease other than those already mentioned was as follows: Infantile debility, 24; pneumonia, 10; bronchial pneumonia, 6; whooping cough and grip, 5 each; bronchitis, 3; typhoid and congestion of the lungs, 2 each.

Sickness is having a rather serious effect upon the fire brigade, no less than thirty-eight men being laid up with diverse complaints.

PRINCESS CHIMAY OWNS 16 HUNGARIAN BANDS.

Paris, Feb. 11.—A lawsuit now being pleaded in a Paris court between a restaurant proprietor and an orchestra manager reveals the fact that Rigo and Princess Chimay still own and manage sixteen Hungarian bands, two of which play respectively in prominent restaurants in New York and Washington; also that outside of the salary, the collections among the guests in first-class establishments of both New York and Paris never produced less than $25,000 a year.

Rigo and Chimay are supposed to get half, but the testimony shows that there is considerable cheating.

REJANE'E WHITE MULES.

Paris, Feb. 11.—Mme. Rejane, the actress, created a sensation yesterday by driving down the Champs Elysees with a span of splendid white mules at an hour when the avenue was crowded with fashionable equipages. The mules are fast and trained to step high like thoroughbreds.

They arrived a few days ago as a present from the King of Portugal, who has been Rejane's greatest friend since her victorious appearance in Lisbon last year.

LECTURES TO TEACHERS.

On Friday evening next, the next lecture in this series will be given by Prof. Penhallow in the High School, Peel Street. The subject is "Hawaii," and will be illustrated with some most striking stereopticon viwes of the islands and the volcanoes.

MUST SUBMIT ALL THE BY-LAWS

Ald. Laporte Says People Should be Given a Chance to Declare Themselves.

Ald. Laporte says that it is of the utmost consequence that two at least among the six money by-laws to be shortly submitted to the people shall be approved; viz., the $100,000 loan for the civic hospitals and the $100,000 loan for increased fire protection. Two others among the by-laws—that relating to better roads and sidewalks and that relating to the filtration of water—are also of much moment, but they are not, in his opinion of as much importance as the ones first mentioned. As for the enlargement of Bonsecours market and the elevation of the G. T. R. tracks, while possibly desirable, can be left in abeyance for the present without jeopardizing any material interest.

"I shall do all I can," observed Ald. Laporte this morning, "to secure a favorable verdict on the civic hospitals and to bring about the purchase of added fire appliances. Opposition has arisen to the former undertaking in an unexpected quarter, but I cannot see how the stand taken can be justified. When the question was first broached, the non-Catholic section of the populace was distinctly in favor of a single hospital. But such a proposition did not meet with the concurrence of the French and Irish Catholics; they wanted a dual hospital. Subsequently the matter was arranged so that two hospitals could be built for the cost of one, and the English people consented to sacrifice their sentiment so that all might be satisfied. There is no doubt but that the present scheme of two hospitals is the one most likely to meet with the approval of the property owners. It only remains to be seen if factious and fatuitous opposition will prevent the submission of the project to the people. An adverse vote of one-third of the Council will achieve this end.

"I wanto see each of the six by-laws submitted separately, so that an independent judgment may be secured on each. It is not in my judgment, for any member of the Council to say that the people shall or shall not vote on any one by-law. We want a plebiscite on all these questions, and they should go to the people without any opposition. If any individual alderman is not disposed to favor a particular by-law, he will have a chance, in common will the citizens at large, to express his preferences both with the ballot and on the platform."

FORMER KING MILAN DIED THIS AFTERNOON

Vienna, Feb. 11.—Former King Milan of Servia is dead. The former King expired at four o'clock this afternoon.

POLICE COURT.

Amini Dini was brought before Recorder Weir on a charge of peddling without a license. Dini looked bewildered, and notwithstanding the efforts of an interpreter, did not seem to see why he had to pay for selling in the street. A fine of $2 or 10 days was imposed.

Before Judge Choquet Theodore Desmarteau pleaded guilty to a charge of stealing a suit of clothes from Mr. A. Blais' office on Craig Street. He was remanded for sentence.

Albert Langley, a carter, was up in the Police Court on a charge of stealing a large box of soap. He pleaded guilty, and was fined $5 or one month.

C. P. R. DIVIDEND.

The directors of the Canadian Pacific Railway at teir meeting this afternoon, which was held under the presidency of Sir William Van Horne, declared the usual half yearly dividend.

There has been some speculation in financial circles as to whether in view of the diminution of traffic returns, owing to the partial failures of the harvest in the Northwest, the 2 1-2 per cent. dividend on the ordinary stock would be maintained.

The weight of opinion was that with the reserve left over for last year there was no reason why the dividend should not remain at the same figure as twelve and six months ago.

A CONNECTICUT TRAGEDY.

Winsted, Conn., Feb. 11.—Miss Winifred Cook, aged 21, a teacher in the W. L. Gilbert Home for Children, was shot and instantly killed in the Home this morning by her accepted suitor, Lieut. John T. Hayes, of Company I., 4th Regiment, C.N.G. Lieut Hayes afterwards turned his revolver upon himself, inicting three bullet wounds in his forehead. His condition is serious, but there is a chance of his recovery. Jealousy is supposed to have been the cause of the act.

BULGARIAN ELECTIONS.

Sofia, Bulgaria, Feb. 11.—The elections to the Sobranje (national assembly) have passed off quietly, except at Philippopolis, capital of Roumelia, where there was some rioting, in which two persons were killed and several others injured.

City News in Brief

TALK TO CHILDREN.—Miss C. M. Derick, M.A., delivered the first of a series of half-hour talks to children on the subject of Fruit and Seed Tramps, on Saturday afternoon in the Natural History Hall. The topic was discussed in an interesting and instructive manner.

SHAVINGS ON FIRE.—Fire occurred in a pile of shavings in the ginger ale manufactory of C. Robillard & Co., at 5 Robillard Avenue, on Saturday morning, but it was extinguished before any material damage was done.

CHAPLAIN LANE ICEBOUND.—The anniversary services in connection with St. James Methodist Church of this city, which were to have been held yesterday, have been postponed until Sunday next, on account of Chaplain Lane, who was to have conducted special services, being icebound at Georgetown.

FASHION GRUMBLES OVER MOURNING.

London, Feb. 11.—In fashion's haunts there is great grumbling over the mourning regulations. Black does not become every woman, and it needs that indescribable gift of style to wear it with distinction. Moreover, it is expensive. But the most fatal objection of all is its tendency to accentuate the wearer's years. Already smart ladies are inclining towards half mourning, where the sombre black is relieved by white, while others have blossomed out in charming purple costumes. Victoria, it is asserted, detested ordinary mourning. The fortnight's cessation of festivities is now being compensated for by a tremendous rush to restaurants and theatres, where all manner of ingenious modifications in mourning regulations are observable in the ladies' costumes.

QUEBEC HOUSE TO OPEN THURSDAY

Parliament Buildings Are Beginning to Show Signs of Life.

Quebec, Feb. 11.—(Special.)—The Parliament buildings are beginning to show signs of life once more. Everything has been renovated for the session, and the two chambers and all the committee rooms are as bright as the traditional new pin.

Mr. S. S. Hall, gentleman usher of the black rod, has issued the invitations for the opening of the House on Thursday next, but there is no stipulation as to whether the guests shall or shall not appear in mourning in respect of the late Queen. The matter will probably be settled on the arrival of the Hon. Mr. Archambault, who as Speaker of the Legislative Council, will decide the procedure. The Speaker is expected to arrive in the city this evening and take up his official quarters for the session. The illness of His Honor the Lieutenant-Governor, while not of a specially serious nature, will prevent him from fulfilling his official duties, and the House will in consequence be opened by Chief Justice Sir L. N. Casault, of the Superior Court.

The ministers meet in council this afternoon and to-morrow morning they will receive a deputation of the abattoir scheme as promoted by Mr. Arthur Hollinshed. The members have not yet begun to arrive in the city, but the advance guard is expected to-morrow.

CORONATION OATH OFFENDS CATHOLICS

London, Feb. 11.—Religious prejudice is being aroused over the King's coronation oath. The declaration against Catholicism is held to be gratuitously insulting his Catholic subjects, and the demand is made for its omission or alteration. The King, it is understood, sympathizes with the resentment of his Catholic subjects, but in view of the present grave dissensions in the English Protestant communion over the alleged Catholic tendencies of a large section of the Protestant bishops and clergy such modification of the coronation oath would cause a tremondous uproar.

The Duke of Norfolk, as Earl Marshal, stands by while the oath is being administered, and it is expected that he will refuse to officiate, while the Catholic peers will absent themselves. It is stated that the coronation will take place in the autumn, but it will depend upon South African developments.

The Toronto, Buffalo & Montreal Steamboat Co., Ltd., has been incorporated with a share capital of $100,000 by the Ontario Government. The provisional directors are Judge Morgan, John A. Carlaw, H. W. Van Every, T. P. Coffee and Dr. W. T. Stewart, Toronto.

WELL-KNOWN CONTRACTOR DEAD.

Quebec, Feb. 11.—(Special.)—A telegram dated Boonton, N. J., Feb. 9, was received in this city on Saturday from Augustus Andrews, announcing the death of his father-in-law, Mr. Nicholas Connolly, Contrecoeur, formerly a resident of Quebec. Mr. Connolly died on Saturday morning at 5.30 o'clock. The late Mr. Connelly was the contractor for the Louise dock and Louise basin, and built also the graving docks at St. Joseph de Levis, and at Esquimault, B.C. He was a man who numbered his friends by thousands, and the news of his death will be received with the greatest regret. His widow was a sister of the late Mrs. Felix Carbray, of this city.

SENATOR McKINDSEY AT POINT OF DEATH

Milton, Feb. 11.—Senator McKindsey is very low, although slightly easier this morning.

NEW BUILDINGS IN THE CITY.

The alterations in the Royal Insurance building on Place d'Armes, designed by Hutchison & Wood, are to be commenced this year. The outside material used will be Ohio sandstone. The pulling down of the Ontario Bank offices will be started in May. The new building will have a fine entrance on Place d'Armes. The building will be seven storeys high. The new C. P. R. telegraph offices, at the corner of St. Francois Xavier and Hospital streets, are to be ready for occupation by May the 1st. Work is proceeding night and day. The City Club, the Lake of the Woods Milling Company, the St. Lawrence Sugar Refinery, the Hamilton Powder Co., and the Pillow-Hersey Manufacturing Co. are among those who will have offices in this building.

BOSTON COUPLE WERE THIEVES.

While in the act of leaving the city last night for Boston, John Cunio and his wife, Dora Knelman, had their journey interrupted at Bonaventure Station by Constable Baker. Yesterday morning Mr. C. Trepanier, proprietor of the American House, St. Henri, informed the constable that a young couple who had been stopping at his hotel had left, and that a number of valuable dresses were missing. He thought they belonged to Boston and asked the constable to be on the lookout for them. About half-past eight a couple answering to the description given entered the station and were immediately taken into custody. On being searched at No. 6 Station, the missing articles were found in Mr. Cunio's satchel. They were fined $10 each.

SENATOR G. W. ALLEN HAS BEEN VERY ILL

Toronto, Feb. 11.—Senator G. W. Allen caught cold while attending the funeral of the late Mr. Frank Smith, and has been in a precarious state of health ever since. Last Friday it was feared he would die. He is slightly improved at present, but by no means out of danger.

FEAR IT IS SMALLPOX.

Ottawa, Feb. 11.—A man said to be suffering from smallpox was brought to Ottawa this morning from Sudbury on the Soo train, which arrived at 4.10 o'clock. The man has been quarantined in a colonist car, along with six others who were passengers. Three other passengers left the car and two of them are quarantined in a hotel near the station, while the third has escaped.

STORM ON THE ATLANTIC.

Queenstown, Feb. 11.—Incoming steamers report having encountered terrific weather and adverse gales on the Atlantic. The Wilson line steamer Toronto, which left New York January 26 for Hull, has put in here short of coal, water and food. The Red Star line steamer Rhynland, from Philadelphia, January 26, for Liverpool, has not yet been signalled, and her delay is attributed to the boisterous weather prevailing.

SNOW BLOCKADE AROUND ST. JOHN

Cold Weather and High Winds Interfere Seriously With Railroad Traffic.

St. John, N.B., Feb. 11.—(Special.)—While the snow blockade of the C.P.R. has been raised and trains are to-day running, there is still great danger of further trouble, for the cold weather and high winds continue, and heavy drifts are being piled up, particularly along the Moosehead Lake section. Large crews of men and plows are at work, and it is hoped to be able to keep the service open.

During the time of the blockade the C.P.R. has had four plows broken and as many engines wrecked, but fortunately nobody was injured. Every branch line in the province is still tied up and mails are being forwarded by team, while on the main line all trains are running late and freights are scarcely moving. A sudden thaw would cause heavy freshets and perhaps serious washouts.

A deputation from the provincial executive, Hon. Messrs. McKeown, Pugsley and Dunn, this afternoon waited on a civic committee to discuss with them the proposed establishment of steel shipbuilding in the hope that some action can be taken that will induce the promoters to locate in St. John.

DIED FROM INHALING GAS.

STIRRING TIMES AHEAD.

To-day's budget of news from South Africa is the largest for a long time, the germ of Lord Kitchener's despatch being probably contained in the information that "Our movement to the east is reported to have thoroughly upset all the enemy's calculations and created a regular panic in the district." It would be much more interesting if the curtain had been raised enough to allow the public to form an intelligent idea of what "the enemy's calculations" were, but in the absence of that condition the reasonable conclusion to draw from the account of the fighting near Ermelo seems to be that Louis Botha is now in the fight as actively and as determinedly as DeWet, which, considering the numerous announcements of Botha's alleged desire to terminate hostilities, is not a particularly hopeful sign. Ermelo is about midway between the Delagoa Bay Railway and the Natal line and is situated in a country of great natural strength. At Ermelo, and at Carolina, a little farther north, but still south of the Delagoa Bay line, the Transvaal Boers have been concentrating during months, and this notwithstanding that both towns have been visited more than once by British troops. The latest letters from Johannesburg bring accounts of a raid through the country by General French, who always does what he sets out to do. The re-appearance of the Boers after each of these visitations confirms the impression that there must be in the immediate neighborhood mountainous districts into which those who know the country can retire with safety. The mention made by Lord Kitchener of large herds of cattle and hundreds of waggons being driven east towards Amsterdam is further evidence of the natural strength of the Boers' position. The map shows clearly that between Ermelo and Amsterdam there is a height of land, or watershed, dividing the head-waters of the Vaal, which flows west to the Atlantic, from those of the Usula, flowing east to the Indian Ocean. A single road connects the two places. The theory long ago advanced by those who inferred from the obstinacy of the Boer character that they would hold out as long as they could, was that they would occupy strong positions of this kind, from which they could not be permanently dislodged, and that from these bases they would operate in such directions as seemed to promise the best chance of harrassing the army of occupation. Delarey is evidently doing it in the Rustenburg district. DeWet has been able to dodge about the Orange River Colony from his base near Ficksburg. The invaders of Cape Colony made straight for Calvinia, in whose neighborhood there is another such position, and now Louis Botha's strength at Ermelo is placed by the British commander at seven thousand men. Against this latter detachment seven British columns have been flung. It now remains to be seen whether there is any such thing as a natural position strong enough to offset overwhelming numbers, a pretty good idea of which will be formed when it is known what happens to Botha in his mountain fastness, encumbered as he is by slow moving live stock and waggons. One would think that if opposition can be fought down in this quarter, the pacification of the Transvaal ought to be near at hand.

More eager, however, will be the interest displayed in the proceedings in Cape Colony following the appearance of DeWet, who, according to Lord Kitchener, eluded his pursuers south of Bloemfontein, and who is believed in Cape Town to be now actually across the border. If this be true, and if, as is said, De Wet has issued a proclamation of his intention to let the Cape Dutch know at first hand what war means, we are about to see, once for all, what will be the result of putting the match to the mine. There are conflicting reports about the disposition of the Cape Dutch. One is that they are only waiting for De Wet, the other that they will have none of the business and are anxious for peace. The next few days should decide the matter. Meantime, thirty thousand mounted troops are getting ready to embark for the Cape.

THE LIGHTING TENDERS.

The manager of one of the companies likely to tender for the street lighting in Montreal probably struck not far from the mark when he said the sub-committee did their best to gather together all the most onerous obligations in a score of contracts. It has been pretty broadly suggested that this would be done, and on the whole we see no good reason why it should not be. If nothing more comes of it, we shall at least have a rather edifying discussion of the merits and demerits of the different provisions, and Council will be, in consequence, in a better position to make an advantageous contract for the city when the discussion closes. When all is said, what the people of Montreal want is a street lighting service as good as, or better than the present, for $75 or $80 per light per year, and that service must be had this time or those responsible for awarding the contract will get themselves into disfavor. Neither will there ever be a better time than the present for settling in the way it ought to be settled the question of putting wires underground. Every one who sees a fire in the down town section of the city realizes the urgent necessity of having these highly charged wires put out of harm's way. It will have to be done some time, and there is no better time than the present. Neither the companies nor the city can afford to have the present possibility of blackmail indefinitely continued, and however much the companies may balk at the expense the danger to public safety, always on the increase, ought to be ended. The aldermen have an opportunity and they should use it.

THE BANK AND THE BOND.

The proposal made by the Finance Committee to have the new civic loan negotiated by the Bank of Montreal would probably have been accepted by the City Council the other day were it not for the memory of the last loan, which was also handled through that institution, though not in the same way. There seems to be good reason to believe that the Bank of Montreal, with its exceptional facilities in the money centres of the world, could have made an excellent bargain for the city if acting as its broker. Indeed this was the alternative suggestion made by the reform aldermen last time, and is quite a different affair from tendering, as the bank did in 1899, with the object of getting the bonds for itself—or more probably its clients—as cheaply as possible. But several aldermen voted against the proposal because, while they might realize the nature of the distinction themselves, they could not be sure their constituents would, or that it would be the easiest thing in the world to demonstrate the wisdom and disinterestedness of their conduct supposing no higher premium to be realized than formerly. Had it not been for the implicit confidence of some other aldermen in the chairman and some of the members of the Finance Committee, the adverse vote would have been larger than it was. We are not sure that the city will profit by the vote, but at all events there is a certain moral to the story not at all to be depreciated. The aldermen do not propose to be victims of any accidents that may happen in this bond sale.

STORY OF LORD KITCHENER

Most stories represent Lord Kitchener in a somewhat stern light. Here is one which shows that even the modern "man of blood and iron" can unbend. During the last Soudan campaign Kitchener was accompanied by a telegraphist, to whom he took the nearest approach to a fancy his stern nature would allow. After Khartoum, the telegraphist heard that his mother was ill and in want at home. He applied for his discharge, to which he was entitled. Kitchener sent for him, and demanded to know why he wished to leave. The man explained. "Don't you think you could help your mother without going home?" asked Kitchener. "I'd rather go home, sir," replied the operator. "Oh, very well," said Kitchener, closing the interview abruptly. "You know your own business best. That'll do." The day came for the telegraphist to leave, and he went to bid his chief good-bye. "Ah," said Kitchener, "you're a fool to go. I would have given you a good post had you stayed. I'm very busy—good-bye." The man saluted and was retiring when Kitchener called out, "Here, just take this note to the paymaster for me." The note was delivered and the bearer was walking away when he whom irreverent subalterns call "Shovelpenny" called him back. "I'm to give you this by the General's orders," said he. "This" was the equivalent in Egyptian money of a ten-pound note. It was characteristic of Kitchener that he would not lift a finger to urge the man to stay, and that he did not want to be thanked.

Another tale, whilst illustrating Kitchener's severity, also shows that he is not so inaccessible as might be supposed, and that his men know it. A soldier felt extremely ill and went to the doctor, who examined him more or less carefully, said there was nothing the matter with him—indeed, hinted none too politely that he was shamming—and ordered him to continue his work. To be even suspected of malingering on active service is a terrible thing, and the man toiled on till at last he gave in and sank down, muttering:—"I can't do another stroke—doctor or no doctor; I don't care if I get six months." "Why don't you go to Lord Kitchener?" suggested his chum. "What's the good—he wouldn't bother about me," moaned the sick man. "Oh, yes, he would," said his comrade, "and if you won't go, I will," and with that he sought out Kitchener, and explained matters.

Kitchener had the sufferer brought to his own tent, and there examined by another doctor, who pronounced it a bad case of enteric. Then the original doctor was sent for. "You told this man there was nothing the matter with him," said Kitchener, "examine him, please." The doctor did so, and, in some confusion, admitted that he had made a mistake—the man was seriously ill. Kitchener had the man taken away to hospital, then turned to the doctor, and said:—"I give you 24 hours to send in your papers and leave the camp."

POINTS ABOUT PEOPLE.

The Eugene Field Monument Committee have nearly completed their task of raising the fund which they will divide between the family of the loved and lamented poet and humorist and the erection of the monument.

The will of the late Charles E. Orme, of Philadelphia, provides that upon the death or remarriage of his widow his estate of $60,000 shall revert to the Episcopal Hospital in that city, to be used for the maintenance of free beds.

It is said that Sir John Murray, of the Challenger, who recently left England for the purpose of visiting Christmas Island, intends before returning to go to Java in order to join Professor Haeckel in his explorations in the volcanic deposits on that island undertaken with a view to bringing to light further remains of the missing link between man and the apes, the existence of which was first discovered in Java six years ago by Mr. Eugene Dubois, a Dutch army surgeon.

Sir Charles Gavan Duffy, K.C.M.G., has presented to the Royal Irish Academy his valuable collection of books, manuscripts and curios relating to Ireland. His "Ballad Poetry of Ireland," which was issued in 1845, has passed no fewer than fifty editions.

The late Lord Lilford, a memoir of whose life work has just been issued by his sister, owing to his physical infirmity, was never seen at Westminster, although he succeeded to the title as long ago as the year 1861. He spent the whole of his time, whenever he was able to get out of doors, in a bath chair, surrounded by his birds at Oundle Hall.

A bronze bas-relief tablet in memory of Hamilton Fish, jr., who was killed in the Spanish-American war, was erected in Columbia University. It was provided by subscriptions by his friends and classmates. The tablet, which is the work of Albert Jaegers, is at present in College Hall at Columbia, but on completion of Memorial Hall, now being constructed, it will be placed there.

The important scientific work of collecting, examining, figuring and describing the mammals of Egypt—a work to which the later part of the late Dr. John Anderson's life was mainly devoted—will be carried out to its conclusion under the direct supervision of Mrs. Anderson. Dr. Anderson had already published a lavishly illustrated monograph of the reptiles and batrachians, forming the first volume of his Zoology of Egypt.

Daniel R. Magruder, an ex-judge of the Maryland Court of Appeals, is a constable in Annapolis. To the protest of the citizens that constables had not been appointed, the board in charge of the matter replied that they could not find men to accept the office. When Judge Magruder stated that plenty of good men could be found, it was banteringly suggested by a prominent politician that the judge should accept, and he did.

General Lambert, who defended Bazeilles in 1870, has died in his sixty-seventh year. He is represented in Alphonse de Neuville's famous picture, "Les Derniers Cartouches," which reproduces an episode of the fight at Bazeilles. General Lambert was then a major in the marine infantry, and identified with him in the defence of the Ardennes town was Captain Aubert. The deceased officer, who was a Senator for his native Department of Finistere, had been on the retired list of the French army since 1896.

HITHER AND YON.

THE CHORISTERS.

(From the Atlantic Constitution.)

There's a little band of singers
Every evening comes and lingers
'Neath the window of my cottage in the trees;
And with dark they raise their voices,
While the gathering night rejoices,
And the leaves join in the chorus with the breeze.
Then the twinkling stars come out
To enjoy the merry rout,
And the squirrels range themselves upon a log;
And the fireflies furnish light,
That they read their notes aright—
The katydid, the cricket and the frog.

All the night I hear them singing;
Through my head their tunes are ringing—
Strains of music straight from Mother Nature's ear,
Now the katydid and cricket,
From the deep of yonder thicket;
Then the croaking frog off yonder drones his part.
By and by the moon appears,
As the midnight hour nears,
And her smiles dispel the low'ring mist and fog;
Then the mirth is at its height,
And they glorify the night—
The katydid, the cricket and the frog.

PROF. STEEN NOT WANTED.

The Prescott correspondent of the Ottawa Citizen says: The annual diocesan missionary meeting was held at St. John's church, Tuesday evening of last week. The deputation consisted of Rev. Rural Dean Emory, of Kemptville; Rev. Bedford Jones, Brockville; and Rev. A. L. MacLean, of Cardinal. Special reference was made to the resignation of Prof. Steen, of Montreal, teacher of apologetics and church history in the diocesan college. Rural Dean Emory expressed the opinion that the sooner men like Prof. Steen got out of the church in Canada the better for it, and said that Prof. Steen's highest ideal of a conscientious Christian man was Paul Kruger. His remarks created a sensation.

DR. FRECHETTE'S OPINION.

Hamilton Herald:—Too much importance should not be placed upon the opinion expressed in Buffalo by Dr. Louis Frechette, the French-Canadian poet, regarding the destiny of Canada. He has told the Buffalonians he felt sure that "all of the Dominion of Canada will some day become part of the United States," and that "there ought to be only one flag on this continent, and that flag is the Stars and Stripes." It is well known that Dr. Frechette has held these views for many years. That he should express them in an American city is no more significant than a similar expression of opinion from Goldwin Smith would be. What the ultimate political destiny of Canada may be is a fair subject for discussion from an academic standpoint; but it is a question which is not likely to give much trouble to the present generation. But Dr. Frechette did say something in Buffalo which is worthy of attention. He has no right to speak for the people of this country as a whole, for, being a French-Canadian, he cannot sympathize with nor perhaps even understand, the sentiment of men of British blood. He has, however, some right to speak for French-Canadians, and when he says that the annexation of Canada to the United States is "the ultimate destiny and desire of the French people of Canada," he says something which is of serious moment. Did he accurately represent the sentiments of the Canadian French?

Canada can claim a remarkable freedom from crime. While the cases of murder in the United States reach the enormous number of 10,000 a year, Canada during the past year only had 25, and in these the parties were arrested and dealt with in all but two instances. In the whole vast territory of Canada, embracing more than half the North American continent, with its almost inaccessable wildernesses, with its mining camps, pioneer towns and similar apparent temptations to the lawless, there has not been a single case of lynching. The New York Mail and Express attributes this to the fact that the large cities in Canada are few and do not attract the criminal classes as do the cities of the Republic. And it adds: "To a certain extent, therefore, the tardier growth of the Dominion in population and wealth has its compensation in the fact that her gain, small though it be, is solid, conservative, safe and along lines which involve no peril to social or civic virtue." It is probably, however, to her vigilant, expeditious and unhampered enforcement of justice that Canada owes her immunity from crime, and the Mail and Express admits that the United States might profit by her example.

The Militia Department at Ottawa have just received a touching postcard bearing an English postmark. It is addressed to the "Postmaster, Canada," and bears the inscription, "Please forward to headquarters." On the opposite side is a design suggestive of the days of chivalry, being a number of crossed swords surmounted by a helmet and visor. The card is also adorned with the Royal Standard and a printed verse, reading:—

"Then farewell home, and farewell friends;
Adieu each tender tie;
Resolved we mingle in the tide
Where charging squadrons furious ride
To conquer or to die."

Below in a feminine handwriting appear these words:—"From an English mother to the brave Canadians who have just left London for home, sweet, sweet home. Well done."

A returned Canadian soldier relates the following anecdote of Father Sinnet, one of the Canadian chaplains in South Africa, who was noted for his fearless conduct:—"Once we were rather hard pressed at a point where a gun was in action. The heavy rifle fire directed upon it brought down in short order two of the men serving it with ammunition. Father Sinnet, coming along and seeing how things were, was soon at work bringing up shell after shell. The officer in command found him thus engaged and begged him to get under shelter. 'No, Colonel,' he had just breath enough to say, 'this gun has to be kept going.'"

Cronje is, it seems, a lover of billiards. One of the Canadian Mounted Rifles has arrived home with a billiard cue which was "commandeered" from the captive general's house. The cue is a handsome one with an ebony base and encircled by a small silver band engraved with the owner's name.

"NOT A BRITISH SUBJECT.

Editor Herald:

Sir,—Your Toronto dispatch of Thursday relating a story of a letter being addressed to "The Town Clerk, City of Toronto U.S.A.," by a municipal officer of a London (Eng.) borough, reminds me of an incident which goes to show that all the ignorance is not on the other side of the Atlantic. The writer moved from Montreal to Toronto some few years ago. An election campaign coming on, he went into a committee room of one of the candidates to ascertain if he had a vote. The name was not to be found on the list and the following dialogue ensued between the chief committeeman and the would-be voter:

"What is your name and address?"
Name and address were given.
"Do you belong to Ontario?"
"No."
"Where did you live before you came to Toronto?"
"Montreal."
"Oh. Then you are not a British subject?"

With that I nearly collapsed, but managed to say that possibly I was not, although having been born in the heart of England I had always been under the impression that I was a Britisher. But I didn't vote, anyway.

Yours, etc.,
Englishman.

MUSIC AND THE DRAMA

If the Sunday concerts are to pass away with the old regime at Her Majesty's Theatre, it is fortunate that yesterday's was of a character to make the memory of the series a pleasant one. Both afternoon and evening the programmes were well selected and appropriate to the day. The omission of the elocutionist was a much appreciated blessing, and the substitution of Mr. De Seve highly satisfactory.

Mr. U. S. Kerr, a basso with a rich and mellow voice, was the special attraction. Although his upper register is weak, Mr. Kerr sings with a consummate skill which largely atones for his shortcomings. Mrs. Waterhouse's solos were much enjoyed, and at times Mr. Bush, the pianist, played well.

This is the last week of the stock company at Her Majesty's. The company which has triumphed over innumerable obstacles and by sheer pluck and perseverance redeemed the reputation of the theatre, is to disband Saturday night, and Montreal will be without a stock house, unless, as is rumored, Walter S. Baldwin takes over the new Theatre Francais for an early summer season. In "Camille," the bill for this week, Miss Linthicum should be seen to good advantage. There is little doubt that the week will be a big one from the box office standpoint, or that the innumerable friends the members of the company have made during their career here will testify their appreciation in the only way which is still possible.

The Academy is again dark this week, and next week offers a new and comparatively unknown melodrama. After that, however, the bookings of the theatre call for a succession of attractions which will not only make up for the dreary blankness so far this season, but makes the year the best one theatrically Montreal has known for some time.

THE FRENCH PRESS.

A PARISIAN'S BRIGHT IMAGINATION.

Le Journal publishes part of an odd article, taken from La Verite, of Paris, in which the relations of English and French Canadians are treated. It refers to the incidents of last March over the relief of Ladysmith. "English students went to the college of their opponents, and under the windows sang 'Soldiers of the Queen, and, climbing to the main entrance, pulled down the tri-color flag, the national flag of the French-Canadians for the last thirty-five years. To answer this insolence, the French-Canadian students invaded the offices of an English newspaper, broke up the tables and chairs and the British shield. In Valleyfield, on the frontier of the United States, French-Canadian workmen, having gone on strike, a military battalion composed of English Canadians, offered their services to the government and went to the scene of the trouble to bring the rebels to their senses, but the French were armed and ready to resist. Before this resolute attitude the militia were compelled to retire piteously just as the humble khakis in South Africa."

Le Journal points out the inaccuracies in the above statement, and says it is strange to see with what little success Frenchmen, even those who have lived here, have touched upon Canadian questions.

ATTACKS ALD. MARTINEAU.

Le Trifluvien, of Three Rivers, attacks Ald Martineau because in the discussion about the Civic Hospital he said that the aldermen should not bother about the question of religious belief when the city has need of a hospital; that he had heard complaints about the present Civic Hospital on the ground that it was not modern, but not on religious grounds, and that the city could administer such a hospital without outside aid. These declarations, it says, show clearly his intention to secularize the death bed, and even death itself. Would not this be a triumph of doctrinal Liberalism and even of advanced Liberalism? And then death being the reflection of life, if we secularize death, why not also life, the school for example where the child is taught the principles of a higher life? Exactly! The same person is a member of the Catholic School Board of Montreal. "We pity the Catholics," says Le Trifluvien, "who can find the shadow of a sentiment of security in the presence of such a man in a body like that. These Catholics up there are evidently of astonishing strength in matters of laisser faire, indifference or of simplicity."

LOYAL STAR OF THE WEST.

At the meeting of Loyal Star of the West Lodge, I.O.O.F., M.U., in Richmond Hall, on Tuesday evening, there will be a social reception and presentations to Messrs. Young and McLeod, members of the lodge, on the occasion of their return from South Africa.

SONS OF ENGLAND.

The members of Royal Rose Lodge, No. 147, S.O.E.B.S., will make make a presentation to Private Murphy, first contingent, on Wednesday evening, to mark his safe return.

ANNUAL CHUCH SERVICE.

The members of Irvine Lodge, No. 54, A.F. & A.M., Q.R., and brethren of sister lodges to the number of about 50, attended divine service at the Church of the Ascension, Outremont, last evening. The officiating clergy were the Rev. James L. Flanagan, district grand chaplain, and Rev. Thos. Everett, past grand chaplain. Lieutenant-Colonel F. Whitley and Mr. C. Croby, B. A., both members of the order, also assisted at the service. While the offertory was being taken up, Miss Chennell sang "The Psalm of Life," and Mr. E. Barry presided at the organ. The sermon was preached by the Rev. James L. Flanagan, who, taking for his text I. Peter ii., 16-17, passed in review some of the broad principles which had made Freemasonry a power and permanent force in the world, and refuted the strange and erroneous ideas held in certain quarters concerning it. While not in itself a religious system, the teachings of Freemasonry were pure and elevating, and its foundation well and truly laid upon principles of morality and sound religion.

GUESSES ABOUT THE NEW COURT

The King, It is Said, Will Draw the Lines More Strictly Than Heretofore.

New York, Feb. 11.—The London correspondent of the Herald cables as follows:

Need it be told that the feature of conversation everywhere is, "What will the King do and what will the new court be like?" Consequently people keep guessing at a great rate.

Among the straws to show which way the kingly stream is thought to be flowing is the following little incident which reaches me from the highest source, and is particularly instructive at the present moment.

On the last visit of the King here he called together several old friends—Sir Ernest Cassel, Sir John Blundell Maple, Sir Edward Albert Sassoon and others. Saluting them with the greatest amiability and friendliness, he gave each of them his hand and made them a brief but unmistakable speech, in which he said that, while he thanked them all very much for all that they had done for him, and while he felt none the less friendly to them than of yore, they must understand that the situation had entirely changed, and therefore their relations must do so also, and that nothing else was possible.

This, of course, was a terrible blow to those who formerly had basked in the warmest sunshine of the princely friendship, as it was taken as a general warning to the whole lot.

WARNING TO NOUVEAUX RICHES.

But that is not all. Another shock has come upon the moneyed mushrooms of society.

Already the King has given it out that it is his intention that the court shall be much stricter than heretofore.

Of course, no one accuses the late Queen of any laxity, yet somehow or other there has come to exist a certain looseness in the matter of presentations which is going to be remedied.

For example, in the past Mrs. Moneybags would find some highly placed lady to introduce her at a drawing room. After that she herself was qualified to present ladies of her acquaintance, and in this way many presentations were made which were not in the least desirable, and which in several cases have brought about the necessity for presentations having been cancelled.

In future the King has decided that all this must be changed.

NIGHT DRAWING ROOMS.

There exists a strong sentiment, not unshared in the highest circles, that drawing rooms should take place at night, as in many other courts, the whole female opinion on this subject being, to use a parliamentary phrase, with the ayes, for nothing can be more trying to matrons and demi-matrons than having to face the searching glare of broad daylight in very low-necked dresses, more especially after having gone through the trying waiting ordeal.

Tradespeople's view of the future is most optimistic.

I have taken particular pains to find out how this important class look upon the kingship, and one and all believe that the court in future is going to be much gayer than it has ever been since the great times before the death of the Prince Consort.

For years and years they have grumbled very much, saying that there was no movement at court and what a pity it was that its direction was not given over to the Prince, with sufficient money to spend, and now they say surely the court will become as it should be, brilliant, for they assert that none knows better than the King how much harm the semi-closing of the court has caused to trade.

CORONATION IN JULY.

From what I hear, the coronation is to take place in July, a very fitting time, when the weather is fine, and at the same time keeping people together at the end of the season.

I may tell you that already there is much speculation going on, syndicates being formed to lease houses along the route, in order to make speculations by reletting them later on.

Apropos of this letting business, the most remarkable lately was the harvest reaped by one of the lodge keepers of Hyde Park. He received a license to put up two hundred seats, but when it came to the point he crammed five hundred persons in.

Considering that no seat probably went under $10, and many of them for much more, it is easy to calculate the good man's profits.

NO REGARD FOR ANTIQUITY.

If the King already has shown symptoms of what his policy will be, so has Lord Roberts, his first action upon entering the room provided for him at the War Office being to condemn the absurd old-fashioned, lumbering desks, which are as antiquated and out of date as the War Office building itself, and to call for a rolltop desk, after the manner of those known in America.

By the way, both Lord Roberts and the King are of the opinion that the English officer must in future do much more work, and also that he must wear his uniforms much more.

An example of how much gayer places of amusement are when uniforms abound was shown this week, when one evening the palm garden of the Carlton seemed filled with foreign uniforms, those of German representatives and others.

STAG HUNTING SEEMS IN DANGER.

Hunting men are discussing the much asserted intention of the King of suppressing the royal buckhounds as a cruel sport.

This would naturally mean the suppression of all stag hunting, except perhaps that of wild stag on Exmoor.

Spaniards, when accused of being brutal owing to their bull fighting proclivities, invariably retort, "But we consider your stag hunting just as cruel as you do our bull fighting."

DESCHANEL A CONVERT AT HIS BRIDE'S BEHEST.

Paris, Feb. 11.—The son of Paul Deschanel, president of the Chamber of Deputies, whom a Russian girl student recently tried to shoot for an alleged assault, will be secretly baptized next week preliminary to his marriage. He was not reared in any religious faith, and only recently he sided with the anti-clerical political faction. But the bride, a Catholic, stipulated for a church wedding.

OPIUM JOINTS FOUND BY PARIS POLICE RAID.

Paris, Feb. 11.—A police raid intended to close gambling hells incidentally disclosed the existence of six opium joints in Paris. One, kept by two Calcutta Indians known as the "pretty twin princes," contained several ladies, married and unmarried, highly connected socially.

Pt. St. Charles

LAING COMPANY TO MOVE.

Owing to a disagreement between the Laing Packing and Provision Co. and the city, the Point may lose a very extensive industry. The company proposed putting up a number of new buildings on St. Etienne Street which were to cost $100,000, and give employment to 300 men. The city, however, refused them permission to slaughter their own meat within the city limits. Yesterday the company sent an answer saying that unless this permission is granted them they will remove elsewhere.

WHERE WILL THE NEW FIRE STATION BE?

The Point is to have a new fire station in place of the present No. 9, but where it will be built is not exactly known at present. It was the original intention to build it on the site of the present St. Gabriel Market, but property holders and residents of Victoriatown are making a strong bid to have it erected nearer their homes. The fire station at present is certainly a long way from them, and if a fire were to break out in their midst it would have time to gain considerable headway before aid reached them.

BOLD ROBBERY.

On Friday afternoon four young boys broke into a shed in rear of 116 Charron Street and stole a quantity of tools. The matter was at once placed in Detective Coleman's hands, with the result that one of the culprits was safely lodged in No. 9 station before six o'clock. The detective then started out to get hold of the other two, which he soon succeeded in doing. On Saturday morning all four were brought before Judge Lafontaine and were remanded for trial.

REMOVAL OF GRAND TRUNK OFFICES

From present indications, it would appear as though the Grand Trunk Point offices might be closed down about the 15th of May. As to what will be done with the building the railway officials are not willing to tell. It will likely be taken over by the Sunlight Soap Company, of Toronto, or be turned into a home for old men.

A PRESENTATION.

On Tuesday evening next the officers of Star of the West Lodge, I.O.G.T., will hold a social in their lodge room on Richmond Street. During the course of the evening a presentation will be made to Brothers Young and McLeod, who have recently returned from South Africa. A concert will also be given.

WILL ALSO TAKE PART.

At the production of "Hazel Kirke," which will be given in the Grand Trunk Institute Tuesday evening, February 12, a number of vaudeville numbers will also be added. Among those who will take part in this portion of the programme will be Miss Margaret Kitts, Mr. J. C. Hamilton, Miss Pansy Driscoll, Miss Maud, Miss Tootsie Durand and Mr. W. Kitts.

ATHLETIC ENTERTAINMENT.

An athletic entertainment and smoker will be held in O'Brien Hall on the evening of Feb. 15 under the auspices of the Point St. Charles hockey team. The event promises to eclipse anything of the kind given at the Point up to the present time. Some of the best possible talent in the city has been secured and everything possible done that might add to the enjoyment of the evening.

ANNUAL DRIVE.

The Christian Endeavor Society of St. Matthew's Church, which by the way is one of the largest in the city, will hold the annual drive on Tuesday night, Feb. 12th.

MEN'S TEA MEETING.

At 5 o'clock yesterday afternoon a most enjoyable men's tea was given at the Railway Association by the members of the Ladies' Auxiliary. These social gatherings are very fast becoming very popular with the men, and the attendance yesterday was one of the largest of the winter season. After tea speeches of introduction were in order. A few of those present were Rev. E. A. Mackenzie, Messrs. Blackaller, Connaughty, Sherman, Wells, Vance, Todd, Fawcett and a number of others.

REV. DR. KER BETTER.

Rev. Dr. Ker, Grace Church, who for some time past has been confined to the house with a severe attack of grippe, was able to preach for the first time last evening. At morning service Rev. Mr. Brewer, Church of England missionary at Riviere Desert, recounted a number of his experiences in the far north. His present visit to the city is with the intention of raising funds to build a church at Manawawka, in the Hudson Bay district. Mr. Brewer is perhaps the foremost of the Church of England missionaries in Canada.

FUNERAL OF MR. JOHN HODGKISS.

The funeral of Mr. John Hodgkiss took place from his late residence, 85 Conde street, on Saturday afternoon. It was attended by the members of Balmoral Council, No. 1519, Royal Arcanum. The funeral services were held at the house, interment taking place at Mount Royal Cemetery.

POINT NEWS IN BRIEF.

At Centenary Methodist Church last evening there was a special service for the administration of the sacrament. The pastor, Rev. Melvin Taylor, presided.

At Fraternity Hall on Saturday evening a most successful assembly was held under the auspices of the Bell Social Club. Great interest was taken in the prize waltz competition.

Last evening a very large congregation of men attended a special men's service at St. Matthew's Church. Rev. E. A. Mackenzie delivered a most interesting sermon on "The Average Man."

Yesterday afternoon a large crowd went from the Point to attend Miss Booth's lecture at Windsor Hall. An effort is being made to have her lecture in the new Point barracks, on Bourgeois street.

At the Point St. Charles Baptist Church yesterday morning the pulpit was occupied by Mr. Meigs, of Indianapolis, who is at present in the city attending the annual convention of the Quebec Sunday-school Union. The preacher gave a very good account of the work done by the different Sunday-school associations throughout the States.

Mr. Wm. Weegar, Bourgeois street, was yesterday taken to the Western Hospital to undergo an operation for appendicitis.

Mr. H. Thomas, dry goods merchant, Wellington street, who some time ago underwent a severe operation at the General Hospital, is now convalescent. He will return home in a few days.

The members of the Young People's Society of Grace Church are hard at work making elaborate preparations for their annual concert, which will be given shortly in the Grand Trunk Literary and Institute Hall. In addition to a grand concert, a number of tableaux vivants will also be given. In the latter the members of the society will alone take part.

A hockey game that is causing great interest in the Point will be played next Wednesday evening at the St. Lawrence Rink, when the championship of the Grand Trunk will be decided. The teams will be from the freight department of Bonaventure depot and the freight department of Point St. Charles.

BICKERDIKE CLUB.

The Bickerdike Club, 2603 Notre Dame street, will be reopened to-morrow. All Liberals are invited. The following will address the meeting: M. Hutchison, M.P.P., W. A. Weir, M.P.P., E. Taillifer, pres., Club Chenier; Mr. Campeau, pres., Club Robidoux; P. Duchene, J. O. Larner, and others.

Labor News

TEACHERS TO ORGANIZE

MOVEMENT ON FOOT TO GET THEM INTO UNION.

A movement is on foot to organize the school teachers of Canada on trade union lines. The teachers in the public schools of British Columbia have already organized a strong union, which is affiliated with the Vancouver Trades and Labor Council, and is organized on exactly the same basis as that of any other union in the trade category.

In Chicago, recently, the teachers organized a union, and asked for an increase of salary. Mayor Harrison expressed his sympathy with their plans.

They found the city had no money to pay larger salaries with because property of millionaires escaped taxation. When a movement was begun to have this property taxed the teachers were advised to keep out of politics or out of the schools.

The teachers are now talking of securing a charter from the American Federation of Labor, and uniting their energies with the workers in an effort to overthrow the domination of capital, against which they have been vainly battering their heads. The Trades and Labor Congress are requesting trades councils in different cities, to interest the teachers in organization as a means of raising salaries.

BOOT AND SHOE WORKERS.

Saturday afternoon President Tobin organized a large number of the girls employed in the boot and shoe factories here into a union under the jurisdiction of the International Brotherhood. It is not yet decided whether the women workers will amalgamate with the men workers' unions, or attempt to work out their salvation under a separate charter.

As yet there is not a single woman's union in Montreal. Many of the girls employed in the cigar making industry have been admitted into the local union here, but they are not very steady adherents. As girls generally regard their employment as a temporary condition, they do not feel the necessity of organizing to improve it.

At the meeting of the Shoe Turner's Union yesterday afternoon, Mr. Tobin, president of the International; Mr. L'Esperance, business agent of the local shoemakers' union, delivered short addresses. The members signed application forms for a charter from the International Brotherhood.

The Boot and Shoe Lasters are divided on the question of joining the International Union at the present time, though they all admit that circumstances will compel them to take this step before long. This, however, will not block the movement to establish the union label here. Those lasters who favor the International will, if necessary, withdraw from the local union, and organize under a charter from the Brotherhood.

STONECUTTERS.

The Stone Cutters' Union, having arranged the preliminaries incidental to affiliation with the International, have made formal application for a charter from the Journeymen's Union.

ABOUT SETTLED.

The labor dispute between the Toronto master plumbers and journeymen is almost settled, the employers having made concessions at every point. The only matter still unsettled is the period over which the agreement shall extend. The masters, who desire to avoid trouble next year, wish to have it remain in force until Feb. 1903, while the men want to terminate it in May next year.

Obituary

NEW YORK.—David Hunter McAlpin, who was stricken with apoplexy at a meeting of the directors of the Eleventh Ward Bank, on Tuesday, died at his residence, No. 46 West Fifty-eighth Street, Friday. Mr. McAlpin was born in Pleasant Valley, Dutchess County, N.Y., on November 18, 1816. He came to this city in 1837, and in 1862 established the firm of D. H. McAlpin & Co. At the time of his death he was the oldest independent tobacco manufacturer in this country. He accumulated a fortune estimated in the millions. He owned many apartment houses and business buildings in this city. One of the most valuable pieces of property in his possession was the Broadway front of the block facing Herald Square, and bounded by Thirty-third and Thirty-fourth streets, on which stands the Alpine. He owned a large block at Morristown, N.J., near which place was his country residence, Glen Alpine. He was a director in the National Bank of the Republic, Eleventh Ward Bank, Union Trust Company, Home Fire Insurance Company, Manhattan Life Insurance Company, German-American Real Estate Title Guarantee Company and the First National Bank of Morristown, N.J. He was also a director of the Union Theological Seminary. He took a deep interest in the seminary and was generous in its support. He contributed largely also to other benevolent enterprises.

TORONTO.—Mr. Stewart Blain, a brother of Mr. Hugh Blain, of Eby, Blain & Co., aged 75 years, died suddenly on Wednesday at his home in Newtonbrook. He was one of the oldest retired farmers of York County, having come from Ayr, Scotland, in 1842.

KINGSVILLE.—One of the oldest settlers and most prominent men of South Gosfield Township, Mr. Theodore S. Wigle, died Saturday in his eightieth year. He had the record of being in South Gosfield Township Council longer than any other man in the county, having served as Reeve and Councillor twenty-two years.

The Drink Habit

Is a disease, and can be cured at home without pain, publicity or detention from business, by the use of the

Dixon Vegetable Remedy

It is the greatest specific on earth for the cure of Alcoholism. In two or three days the craving for liquor is gone and in three weeks the cure permanent. Dr. Mackay, of Quebec, a specialist in the treatment of inebriates, admits that it is far superior to all the "Gold Cures" or other treatments, and that it is practically infallible. Those interested will do well to call and see our long list of testimonials, or write for our pamphlet giving full particulars. Address—

CITY HALL
SPECIFICATIONS ARE TOO ONEROUS

Manager Walbank Points Out the Particulars in Which They Will Need Modification.

In view of the specifications prepared by a sub-committee of the Fire and Light Committee—Ald. Hart (chairman), Ald. Ames and Ald. Lamarche—as a basis for the next contract for street lighting, a Herald reporter sought the opinion of two prominent electrical company managers to-day, and their views are given herewith. Mr. Aldred, of the Shawinigan Company, did not care to enter into a protracted discussion at present, but Mr. Walbank had much to say in regard to a number of the clauses in a document that contained in all thirty-four clauses.

MR. ALDRED'S VIEW.

"I think the committee who have prepared the specifications are to be congratulated on having so carefully considered the matter and prepared specifications which in most respects protect the city's interest," said Mr. J. E. Aldred, treasurer of the Shawinigan Water & Power Company.

"The work of preparing specifications for such a contract is one of no small magnitude. The committee has done its work well. If there are some conditions which might best be modified in the interests of the city, getting a lower bid for the present contract, the committee will doubtless be glad to consider suggestions looking to this end.

"Montreal, with the advantage of electricity generated by water power which can be transmitted at low cost, should have as desirable a contract for lighting as any city on this continent, and doubtless when the bids are opened for the contract in question the result will be hailed with great satisfaction by its citizens.

"The time allowed to cover this contract will give all bidders ample time to make the necessary arrangements for the delivery of the power, and speaking for the Shawinigan Company, I may say that we intend to tender for the lighting of the city, and are confident that we can furnish a much improved service and at a very considerable saving to the city.

"I may say that the lighting business would involve but a small part of the power we intend to deliver in Montreal, and backed by practically unlimited power at Shawinigan Falls, we shall be able to sell power in Montreal at prices that should mean much to the general industrial situation."

MR. WALBANK SPEAKS.

"Viewed from the standpoint of these specifications," said Mr. W. McLea Walbank, manager of the Lachine Electric Company, "I cannot see how the lighting of the city is to be cheapened. I question whether under them there will be any competition. Somewhere in the document it is said that the present lamp is satisfactory. Why not, then, ask for tenders on a system similar to the one in existence at the present time, instead of inserting any number of restrictive clauses, which will only tend to hamper new companies who may desire to compete for the contract. It strikes me that the sub-committee did its best to gather together all the most onerous obligations in a score of contracts instead of bending its best energies towards devising a safe and workable specification. Personally, I think it would be better if the committee had suggested that each company should supply its own specifications. The members would then be in a position to see just what each company was prepared to do for a stipulated sum. It is not reasonable to suppose that laymen could prepare proper specifications. A man might go into The Herald office and see the machinery. One piece of mechanism, skilfully operated, he would designate as a linotype. He would know that there were such things as linotypes, that is all. Similarly in connection with the electrical business, the average man knows that there is such a thing as an arc lamp, but that is about as far as his knowledge goes.

"But to come down to a consideration of some of the thirty-four clauses in the document. In clause 5 we read that 'the lamps at present in use will be deemed satisfactory.' The strength of current, voltage, and size of carbons to be used are also specified. We are willing to figure on such a basis, and give the city a light equal to, if not better than, the lights in use to-day. But it is doubtful whether the lights in the streets will be improved by a change of company. The only thing you can say of them is that they are not up-to-date lamps. The current, though, is just the same no matter what company supplies it. This, it seems to me, affords another reason why the new tenders should be called upon specifications as nearly identical with those in existence to-day as is possible.

"But the question of the basis of the contract does not afford the most serious objection. Clause 18 reads: 'The city reserves to itself all rights which it may have under its charter to require any and all wires within prescribed limits, or throughout the city, to be placed beneath the surface of the streets or elsewhere, and to require any poles or wires to be removed and the wires likewise placed in conduits beneath the surface of the street or elsewhere; and to compel any or all wires, pipes and other constructions and conduits to be placed in a common area beneath the surface or elsewhere upon such terms as it may designate.' What does that mean? It might mean that the City Council could order us to go underground, with little or no notice, and give us nothing for it. I think that it should be stipulated that a change of such a nature should be submitted to arbitration. If that is not done, then it should be distinctly understood upon what system we are figuring, whether overhead or underground. The former is much less expensive than the latter.

"It seems to me that clause 19 is a waste of energy. It reads: 'Nothing in these specifications shall be construed to prohibit or prevent the Corporation of Montreal from contracting for or establishing, using or maintaining its own electric lighting system for the purpose of lighting the city streets or any building under the control or supervision of the City Council; and when the Corporation of Montreal shall have decided to provide its own electrical lighting system, the Mayor may, upon two years' notice to the contractor if on a five years' contract, or upon three years on a ten years' contract, annul the contract made in this specification.' Were we to take a five year contract, we would have to figure that the amount we invested in poles, lines and machinery would be paid for or otherwise it would be so much scrap iron on our hands. We would consequently have to provide that at the end of the contract we would be reimbursed for the amount of money and interest thereon invested in installing the plant.

"Let us assume that this work cost $500,000. In addition to being paid for the power that it would take to operate the lights, for the carbons and globes, for the trimmers and patrolmen, for wages and salaries, for taxes and insurance, and so forth, we would have to allow a sufficient sum to admit of the $500,000 being repaid at the end of what time—at the end, possibly, of only three years. We might, according to this clause, be called upon to hand over the plant in as short a space of time as three years. It is not for me to to cast reflections upon aldermen as a class, but we must look at this matter in the light of the past as well as in that of the present. We may not always have as good a Council as the present one, composed for the most part of men of rectitude and right feeling; there may be a relapse to old-time methods. Do you imagine that a clause of this kind would not be used to extort monies from the holder of the contract? And so it might be year by year.

"In clause 29 I read: 'The city of Montreal shall have a right to locate fire alarm boxes on the company's poles and further use the same for departmental lines of communication.' There seems to be no provision here for compensating the company for the use of its poles. But, if this must be, it should be made subject to the approval of the company's superintendent. At the same time the city should pay a rental for the use of the poles. Those poles cost something to erect. Nor in these specifications do I see anything about the height of the poles, or in regard to the material of which they shall be composed, whether wood or iron. 'Straight wooden poles may be used,' is the dictum, and, of course, wooden poles would be used, because they are cheapest.

"Clause 24 should not give any such option. It reads: 'Tenders may be submitted for a contract covering a term of five or of ten years.' I believe that the contract should be arbitrarily set at ten years. Five years is no good; it is too short.

"A very objectionable stipulation is found in clause 31: 'In case the contractor has an arrangement with a municipality presently outside the city, should this territory become annexed before the expiry of the present contract, the annexed district shall immediately and thereafter have the benefit of the prices in this contract.' That is certainly against the Lachine Company's interests. It is not fair at all. We possess three contracts with outside municipalities that run for fifty years. The clause in question says that if these municipalities were to become part of the city we would have to give them the benefit of the competition existing in the city of Montreal, and that notwithstanding the fact that we lost money on all these contracts during the first few years of their existence. If this clause is insisted upon it will mean that we will be forced to add to the cost of the Montreal lighting sufficient to make up for the diminution in our receipts on those outside contracts. I don't think it is right for the city to place us in such a position.

"A great deal is heard nowadays about municipal plants. As soon as a rumor of the amalgamation of companies is bandied about, the cry of 'Monopoly,' 'Trust,' etc., is raised, and the aldermen commence to talk about putting in their own plant. We hear much about its being less expensive than contract. But the operators of a municipal plant never take into account all the items of management that are forced upon a private company. Instead of the cost of municipal lighting being less than contract, it is, when figured on a commercial basis, in reality more. Take our own waterworks as an example. What does municipal ownership do for us here? We are paying nearly four times as much for water as in other places. If you investigate you will find that in no municipal electric plant is regard had to taxes, fire insurance, liability insurance, interest on the money invested, depreciation of plant, rent or water—all items that a private company has to make provision to meet. You have seen it stated in the public prints that lights could be supplied for $65 or $75. Here is a statement that disproves such a contention:—Boston (average price), $127.25; Detroit municipal plant (on commercial basis), $134.57; Chicago, municipal plant (on commercial basis), $154.80; St. Louis (the cheapest, and they are going out of business), $90.67; Cincinnati, $110.87; Baltimore, street lights, $154.08; Philadelphia, $142.33; and New York, $139.90. The trouble with a great many people who talk about the cheap lights in other cities is that they don't take into account the difference in the conditions that exist at various points. In the States they pay about $1.25 for coal; in Canada we pay $5.00. But they will tell you that we have water power. True, but the water power had to be purchased and the interest on the money so invested has to be met. That interest money would buy a great deal of coal. In Chicago, where there is a municipal plant, they claim that a 2,000 candle power lamp costs $96.40 for all night. Coal costs from $1.14 to $2.50 per ton. At Thompsonville, Conn., a 2,000 candle power lamp costs $80 per year; lit for five hours only, and on a moonlight schedule. At Trenton, Mo., a 1,200 candle power lamp costs $90, lit all night. So that you see these figures tell you nothing unless you know of the conditions under which they have been created."

UNDER THE NERVE LASH.—The torture and torment of the victim of nervous prostration and nervous debility no one can rightly estimate who has not been under the ruthless lash of these relentless human foes. M. Williams, of Fordwich, Ont., was for four years a nervous wreck. Six bottles of South American Nervine worked a miracle, and his doctor confirmed it.—28.

QUEBEC OATH CHANGED.

True Witness—The Lieutenant-Governors of Quebec have invariably been Catholics. The oath of office had to be changed for them in order not to subject them to the humiliating dilemma of refusing it, or of swearing to that which we believed to be false. If the form of oath can be so amended as to suit the conscience of a member of Parliament, or of a Lieutenant-Governor, it can equally be changed to suit the monarch and the times.

Milburn's Heart and Nerve Pills act on the three vital, health-controlling forces of the body—*the Heart, the Nerves* and *the Blood.*

The Heart—they strengthen and regulate, curing palpitation, throbbing, skip beats, weak and irregular pulse, dizziness, faintness, smothering and pain around the heart.

The Nerves—they tone up, and renew the worn out and wasted nerve tissues and electrify the nerve centres, curing nervousness, sleeplessness, melancholia, locomotor ataxia, St. Vitus' dance, lack of energy, brain fag and loss of vitality.

The Blood—they enrich, causing nourishing life-giving red blood to flow through the arteries, repairing and strengthening all the organs of the body, curing weak, anæmic, pale-faced people who are run down and debilitated.

The reconstructive power of these pills is simply marvellous, and those whose health standard is below par, will find a course of treatment with Milburn's Heart and Nerve Pills soon recuperate their health and gives them mental and bodily vigor they never knew before.

Milburn's Heart and Nerve Pills are 50c. a box or 3 for $1.25, at all druggists.

An engagement which is of much interest to many Montrealers is that of Miss Annie Galt, youngest daughter of Lady Galt, Mountain street, to Dr. H. Smith, of Winnipeg. Miss Galt is extremely popular in Montreal society, and it is to the great regret of her many friends here, that her marriage will remove her to Winnipeg.

Mrs. J. M. McCarthy, Hutchison Street, gave a delightful tea on Friday for Mrs. Pleasants, a Florida lady who is spending some time here. The tea table was decorated with pink, and violets were the flowers used. The refreshments were in charge of Mrs. J. G. McCarthy, Mrs. W. Converse, Miss Tyre, Miss Macrae, Miss Taschereau, Miss Roy, Miss Ferrier, Miss Strathy and Miss Murphy.

If Proctor's turns out to be as popular here as Shea's in Toronto, it will be a success. There the people are quite wild over the vaudeville house. They say that the popularity of Shea's as a place of amusement is responsible for the coining of a new word in the English tongue as spoken in Toronto, "Will you Shea with us?" is the preliminary to many an agreeable party. Everyone knows how Proctor's in New York is patronized.

Mrs. Clarence J. McCuaig, 1127 Sherbrooke street, gave a charming tea on Friday afternoon last. Mrs. McCuaig, who was handsomely gowned in black satin, with steel trimmings, received in the drawing room. The tea table, which was presided over by Mrs. Samuel W. Ewing, was beautifully decorated with pink roses. Miss Irene Alloway also assisted at the tea table. The house looked beautiful with many palms and flowers. Among the invited guests were Mrs. E. G. Rykert, Mrs. Colin McCuaig, Mrs. Charles R. Whitehead, Mrs. Leslie H. Gault, Miss Gertrude Price, Quebec; Mrs. G. Herrick Duggan, Miss Drynan, Toronto; Mrs. R. A. Baldwin Hart, Mrs. Samuel W. Ewing, Mrs. C. Ernest Gault, Mrs. A. K. Fisk, Mrs. Augustus J. Ferguson, Miss Black, Mrs. Philip B. Gilbert, Mrs. Lovell M. Spackman, Mrs. E. Carman, Miss Thomas, Miss Eva Molson, Miss Pauline Biddome, London; Miss Irene Alloway, Mrs. William Spicer, Miss Millie Monk, and others.

Miss Robinson, of Elm Avenue, Westmount, has gone to spend two or three weeks with friends at Cobourg and Toronto.

The visiting governors to the Montreal General Hospital for the week commencing Monday, the 11th February, are: Hon. Geo. W. Stephens, Mr. A. Ramsay, Mr. David Yuile, Mr. James Tasker.

Mrs. E. F. Sleeper, of Coaticook, is in town.

Hon. Mr. Justice Blanchet, of Quebec, has recovered from an attack of grippe.

Mrs. F. G. Henry will receive on Wednesday next at 4646 St. Catherine street.

Mrs. Frederick Taylor, who is a patient in the Royal Victoria Hospital, is getting stronger.

Mrs. Percy Robinson, of Sherbrooke, who is a patient at Dr. William Gardner's private hospital, will soon be able to return home.

Mr. W. H. Comstock, ex-M.P., Brockville, and Mrs. Comstock, leave shortly for California.

Miss Doutre, of Montreal, is visiting her aunt, Mrs. Brodeur, in Ottawa, and was present at the opening.

Mr. W. M. Macpherson, of Quebec, was in town yesterday, leaving in the evening for Toronto.

The marriage of Mr. Frederick Nethwood Brown to Miss Grace Isabel Kerr will take place in Grace Church on the 19th February.

Mr. and Mrs. Foster Chaffee have left Montreal to live in Toronto. Mr. and Mrs. Chaffee have many friends in town who will regret the change.

Her Excellency Lady Minto, who is at Niagara Falls, was accompanied by the Countess of Antrim, Lord Dunluce, Lady Eileen, Lady Ruby and Lady Violet Elliot, Miss Elliot, Miss Plowden, Capt. Graham, and Mr. Guise. They are expected back on Wednesday.

Miss Raw Gilchrist, scholar from the University of Wales, is spending a little time in the city for the purpose of studying the system of education here, especially in the training of teachers. She is at present at the Royal Victoria College, at the invitation of Miss Oakley.

Mr. W. P. Sloane, manager of the Toronto branch of the Quebec Bank, has resigned that position with a view of turning his attention to stockbroking. Mr. Sloane has been in the employ of the Quebec Bank for about twenty years, and during the last ten years has been manager of the Toronto branch. The improvement and enlarged scope of the bank's operations in Toronto are chiefly due to the first-class business as well as banking ability Mr. Sloane has displayed. The directors of the bank have recognized the value of his services by a very substantial bonus, and there is among the friends and clients of the bank a very general feeling of regret at the severance of his connection. Mr. Sloane will continue to make his home in Toronto.—Toronto Globe.

On Saturday afternoon Mrs. C. L. Shorey was hostess at a very large and successful tea in honor of her daughter, Miss Edith Shorey, who made her debut early in the winter. Five hundred invitations were sent out. Mrs. Shorey wore a handsome costume of black and steel, and her daughter was in grey, with rose pink. There were numbers of men present as well as ladies, and the affair was most enjoyable. The decorations used were red carnations, and the candles were shaded in red. In the tea room were Mrs. McLernan and Mrs. Bullock, pouring tea and coffee, and they were assisted in attending to the wants of the guests by Miss MacLean, Miss Armande Shorey, Miss Wishart, Miss Ray, Miss Black and Miss Slater. Among the guests invited, many of whom were present, were the Hon. A. W. Atwater, Mrs. and the Misses Atwater, Hon. M. and Mme. Thibaudeau, Mrs. and the Misses Weir, jr., and Mrs. Ross, Dr. and Mrs. Campbell, Mrs. James Morgan, Lt.-Col. and Mrs. J. B. Maclean, Mrs. E. A. Small, Mr. and Mrs. Beecham, Mr. and Mrs. Ross, Dr. R. PURELY PERSONAL.

Mrs. John Ogilvie, 305 Stanley Street, who has been confined to the house for some time is very much better.

OUT OF TOWN NOTES.

Mrs. Alfred Denison (Lady Gay, of Toronto Saturday Night) is the guest of Mrs. Brodeur, Ottawa.

Mr. and Mrs. E. B. Eddy have returned to Hull from visiting here. Mr. Eddy's new house is called Standish Hall, as he is a direct descendant of Miles Standish.

Mrs. DeKalb, "Sedgwick Farm," Syracuse, N.Y., has announced the engagement of her daughter, Miss Ada B. DeKalb, to Mr. John Gibson Hazard, of Rhode Island. The news will call forth sincere congratulations from Canadian friends.

Miss Britton, of Kingston, invited her girl friends in at the tea hour on Friday to meet her guests, Misses Kathleen and Harriet Cassells, of Toronto. Miss Ethel Hendry and Miss Carrie Skinner poured tea and coffee and Mrs. Hugh Nickle served ice cream.

It now transpires that the elaborate story about the Baroness von Ketteler's appointment in the German Royal household was false. The Baroness left to-day for the Mediterranenan for her health, and goes later to visit her mother-in-law in Germany.

Mrs. Magrath, wife of C. A. Magrath, manager of the C. N. W. Irrigation Company and land commissioner of the Alberta Railway and Coal Co., at Lethbridge, Alberta, arrived on Thursday for a visit of some days with her husband's mother, Mrs. Magrath, at 72 Vittoria street, Ottawa, after which she returns to Lethbridge. She has been in Montreal for some weeks visiting her mother, Lady Galt.—Ottawa Citizen.

Kingston, Ont., Feb. 11.—(Special.)—Numbers of the old graduates are returning this week for the Alumni conference at Queen's, and many of these will be accompanied by their wives, amongst whom will be Mrs. Macphail, Mrs. Binnie, Mrs. Turnbull, and others. The Women's Alumnae will also meet next week. On Thursday afternoon at half-past three a discussion on "The Responsibility of the Twentieth Century Woman" will be led by Mrs. John Marshall. In the evening there will be a supper in the Levana room for members of the college women's alumnae, after which there will be five minute speeches made by graduates and under-graduates. The prospect of hearing five-minute speeches from girls and women will draw many members to the alumnae supper who might otherwise pass by this re-union of college women.

COMING AND GOING.

Mr. L. Taschereau, Quebec, is at the Hall.

Mr. J. H. Bolton, Toronto, is at the Windsor.

WOMEN'S DOINGS.

NURSES KEPT BUSY.

At the monthly meeting yesterday of the Victorian Order of Nurses it was announced that in the last year the nurses have paid 6,751 visits. In the past month they paid 446 visits, had 43 new calls, and answered 21 night calls.

THE VALENTINE TEA.

The much spoken of "Valentine tea" for the friends of the Society for the Prevention of Cruelty to Animals, on Wednesday next, promises to be a great success. The Natural History rooms are well adapted for the tea and the ladies hope everyone will try and attend. The "bran pie" for the children will be a great feature of the entertainment. Also the Punch and Judy and magic lantern shows. Refreshments may be obtained and valentines will be for sale.

LADIES' CURLING CLUB.

The Quebec Ladies' Curling Club, or rather some members of it, arrive in town to-day, to play the Montreal ladies to-morrow. The match takes place at ten in the rink on St. Luke Street, and promises to be a lively and exciting one. After the match the Montreal Club gives a lunch to their visitors at the rink.

MISS EVA BOOTH.

Last night in Windsor Hall Miss Eva Booth, Salvation Army commissioner for Canada and Newfoundland, addressed a large audience on the text, "I will arise and go to my Father, and will say unto him, 'Father I have sinned against heaven and before thee.'" Miss Booth's exhortations were listened to with the deepest interest. To-night at 8, in Windsor Hall, she will give what is regarded as her best lecture. Last evening Brigadier Pugmire conducted the religious service.

LOCAL COUNCIL OF WMEN.

On Wednesday afternoon at 3.30 o'clock the Montreal Local Council of Women will hold a general meeting in the Young Women's Christian Temperance Association. At this meeting, Dr. D. J. Evans will address the audience on "How to Insure a Pure Milk Supply." With the prevalence in our midst of so much sickness, this will be a word of timely help and warning, especially to those who have to do with children. The well-known reputation of the lecturer will give weight to the important message, which, it is hoped, will be listened to by large numbers. The public are invited. A special feature of interest in the early part of the meeting will be the reading and signing of the address to Queen Alexandra, which is to be signed by as many women of Canada as possible, and then sent to Her Majesty through the National Council of Women.

LADIES' GOLF CLUB.

At the annual meeting of the Royal Montreal Ladies' Golf Club the following officers were elected: Mrs. R. W. MacDougall, president; Miss Linton, honorary secretary; Miss Bond, hon. treasurer; committee, Mrs. MacTier, Mrs. Alex. Paterson, Miss Lorn Macdougall, Mrs. W. Hope, Miss Marler and Miss Mabel Taylor. The club is in a most prosperous condition, and the election of such competent officers will ensure its continuing so.

Rub through a collander and put back in the pot; thin with milk if too thick.

BIRD'S NEST PUDDING.

Six medium sized apples, 4 tablespoons butter, 2 shredded wheat biscuit rolled and sifted or half cup granulated wheat, shred, 6 eggs, 1 quart milk, 1 cup sugar, half teaspoonful salt. Core and pare apples. Butter a pudding dish and sprinkle with the crumbs. Place apples in dish, fill the space left by removing core, with butter, and sprinkle the remainder of the crumbs over the apples. Beat the eggs and sugar together, add milk and salt, turn over the apples, and bake in slow oven till custard is set. Serve either hot or cold.

ATTEND ANNUAL BALL

ACADEMY DANCE AT HUNTINGDON DRAWS A LARGE CROWD.

Huntingdon, Feb. 11.—(Special.)—The annual academy ball which is usually looked forward to with much pleasure by the young people in this neighborhood, was held in Moir Hall on Friday evening, and was a very pleasant affair. Over 450 invitations were sent out, which were heartily responded to by the recipients, who filled the large hall to overflowing, many coming from a distance. The music was good, the supper excellent, and dancing lasted until daylight—"glad to meet, sorry to part, and hopeful of meeting again."

Some of the hockey enthusiasts in Valleyfield have at last discovered that the Huntingdon boys can play hockey as it should be played. It is hoped that the Valleyfield boys may also become proficient in the game, so that our Canadian winter game may become popular hereafter wherever the lads of Huntingdon and Valleyfield meet to play hockey. They have met three times already this winter, first at Valleyfield, second at Saranac Lake, N.Y., and third at Huntingdon, the Huntingdon boys coming out victorious in each game. The last mentioned game was here Saturday on the skating rink and was very well attended. Most of the home boys having attended the acadmy ball on the night previous, were not quite up to their usual form, yet they won, but not without a stout resistance on the part of the visitors, who deserve much credit for the game they put up. The score was four to two in favor of Huntingdon. Following were the players:—Valleyfield, R. Brodie, R. Bougie, J. Derochiers, J. McVicar, R. Robineau, J. Petrie, and C. Eagleton. Huntingdon, Laurie McNaughton, Arthur Ieman, J. A. Macpherson, Ken. Dalgliesh, Tom Moir, Willie Blackwood and Jack Marshall.

John W. Smith, whose parents live in this village, was our only representaive in the South African war. He returned safely home with the last contingent, but owing to the death of his only sister, which happened a couple of weeks previous to his return, and later on the the demise of Queen Victoria, caused our citizens to change their plans with regard to the nature of the reception they wished to tender him, and it was decided to call a public meeting for the purpose of giving expression to their feelings towards him for his loyalty and devotion to his country in her time of need. This meeting took place on Saturday night in Moir Hall, and was well attended. Dr. R. N. Walsh, Mayor of the village, was chairman. Mr. Smith having been invited to the meeting, appeared on the platform in full khaki dress. After a few preliminary remarks by the chairman, Mr. W. S. Maclaren, M.P., was called on, who spoke in warm terms of the loyalty of the Canadians to the Motherland, closing his address by presenting Mr. Smith, on behalf of the citizens of Huntingdon, with a valuable gold watch as a token of their appreciation of his valour in having braved the hardships of the South African campaign. The watch is a Waltham movement, with a perfectly plain 14k gold case. On the outside case are his initials, "J. W. S.," engraved in full monogram, and on the inside cap the following inscription: "Presented to John Wolfe Smith, E Battery, R.C.A., by the citizens of Huntingdon, on his return from South Africa, 1901." Mr. Smith made a suitable reply, telling the story of his journey and adventures while in South Africa with a vividness that held the attention of his audience. The Rev. Messrs Lewis and Deeprose also made appropriate remarks, after which the audience rose and sang "God Save the King."

THE LATE MR. G. MELVILLE.

The funeral of the late Mr. G. Melville took place from St. Margaret's Home, 557 Sherbrooke Street, to Mount Royal Cemetery, on Saturday afternoon, and was largely attended, especially by his Masonic brethren, he having been a member of St. George's Lodge, No. 440, E.R. A service was held at the Home, at which the Rev. James Patterson, assisted by Rev. J. R. Dobson, officiated. There were no pallbearers, and the chief mourner was Mr. Gordon Melville, jr. Those present were Ald. Clearihue, Messrs. James Crankshaw, K.C., Wm. McGilton, Wm. Maynard, D. R. Kennedy, Charles Chappell, George C. Nicholson, H. Dunne, J. McBeth Taylor, Thos. Simpson, W. F. Fellows, John Allan, Robert Allan, R. H. Brand, David Guthrie, James Strachan, Wm. Barker, Charles Reinhart, Capt. Riley, A. Rubenstein, L. Rubenstein, I. Rubenstein, J. Urquhart, J. W. White, G. T. Stump, Walter N. Kearns, J. H. Monaghan, Andrew Sword, George Hobson, J. Brennan, W. J. Kearns, E. Askew, F. Ricketts, R. Brand, John Lawrence, John Wilson, J. P. Adams, and R. M. Adams.

A LUMBER BILL.

In the Superior Court on Saturday, Mr. Justice Curran rendered judgment in the case of McLaurin et al vs. Jones. The former are lumber merchants. A Mr. Morrison applied to them for a quantity of lumber. They refused to sell to Morrison on credit. Then Jones wrote a note asking them to deliver monthly $75 worth of lumber and on the same day he wrote to McLaurin et al. saying he would hold the amount of the bill against Morrison, who was working under Jones at Mr. Cole's house. The bill was sent to Jones, who gave an order on Mr. Cole, which he repudiated, saying he had already paid more than he had agreed. Judgment was given against Mr. Jones for the amount claimed, $137.70, with costs and interest.

TRIBUTE TO MR. R. TIFFIN.

Mr. R. Tiffin, the traffic manager of the Intercolonial Railway, was made the recipient the other day when he paid a visit to his old staff of the C.P.R. general freight department at Toronto, of a gold mounted umbrella, a cigar case, and a toilet case. The presentation was made by Mr. W. H. D. Miller, on behalf of the staff of the general freight and city freight offices.

THE MODEL SUNDAY SCHOOL

MR. MEIGS GIVES AN ADDRESS ON WHAT IT SHOULD BE.

At the Congregational Church last evening Mr. C. Meigs, a leader in the International Sunday School Movement, spoke upon "The Front Line Sunday School." After speaking of schools which were, in his opinion, not up to the mark, he said:

In the front line school there are strict rules, which, though they need never enforce, produce a splendid school. In some those five minutes late must wait twenty before being admitted; absence for three Sundays means expulsion for pupil or teacher. In one school every teacher, pupil and parent of a pupil must sign a pledge to try to keep the rules, in one colored school a teacher absent for one Sunday must apologize to the class, for two Sundays to the whole school, for three Sundays must kneel at the altar and publicly ask the forgiveness of God. Secondly, in a Bible school, every Bible scholar must have the Bible in his hands. Teaching should be from the Bible. Thirdly, the weekly teachers' meeting should not study the lesson, but study how to teach the lesson already studied, and discuss some outside topic. Fourthly, the home department system, by which those unable to attend pledge themselves to follow the Sunday's lesson at home, should be organized. Fifthly, a normal class for training boys and girls to take the place of teachers who fall out should be a regular part of the work. Lastly, a cradle roll should be established, on which every child is recorded as soon as it is born, as a pledge of its entering the primary department when it is old enough. "Catch them in the cradle, as the devil may be after them in the crib." In such a school neither teachers nor pupils will be few; the work is often hard, but the teachers are teachers by the grace of God, and the toughest pupil is a diamond in the rough, which with finding and grinding may sparkle as a gem.

KNOX SUNDAY SCHOOL FESTIVAL.

The annual festival of Knox Presbyterian Church Sabbath School was held in the lecture hall of the church on Friday evening, and was largely attended by the parents and friends of the pupils. Besides a capital musical and literary programme by the little ones, addresses were delivered by the pastor, Rev. James Fleck and the Rev. James Patterson, and Mr. Wm. Law, secretary, submitted his annual report, as well as a satisfactory financial statement on behalf of the missionary society. Mr. Walter Paul presented the Misses McCay with two handsome medals in recognition of the fact that they had attended the school for five years without missing a single Sunday.

ANGLO-PORTUGUESE ALLIANCE.

London, Feb. 11.—"A solemn re-affirmation of the Anglo-Portuguese alliance is pending, I am informed," says the Lisbon correspondent of the Daily Mail, "and England will request Portugal to lend Portuguese troops to guard certain points in South Africa in order to enable the British employed at those points to join the fighting columns."

To Know La Grippe

The Symptoms and Dangers of the Deadly Epidemic Which is Driving So Many to Beds of Sickness —Effective Treatment Described.

Chill followed by fever, quick pulse, severe pains in the eyes and forehead, and dull pains in the joints and muscles, mark the beginnings of la grippe. There is also hoarseness, inflamed air passages, and obstinate cough, furred tongue, distress in the stomach and diarrhoea. The one unmistakeable feature of la grippe is the depressed spirits and weakness and debility of the body.

With the very young and very old, and with persons of low vitality, the dangers of la grippe are very great. Pneumonia of a violent and fatal form is a frequent result. It is also claimed that very many cases of consumption can be directly traced to la grippe. The after effects of la grippe are most often felt in the nervous system. The extreme debility in which this disease leaves its victims is more than most nervous systems can endure—paralysis or prostration follows.

The most successful doctors advise their patients to avoid exposure to cold or overexertion, and recommend both general and local treatment, such as Dr. Chase's Nerve Food, to strengthen and tone up the system, and Dr. Chase's Syrup of Linseed and Turpentine, to loosen the cough and protect the bronchial tubes and lungs from threatened complications.

Any honest and conscientious doctor will tell you that this combined treatment recommended by Dr. Chase, cannot be surpassed as a means of relieving and curing la grippe, and restoring the weakened and debilitated body to its accustomed vigor. Dr. Chase's Syrup of Linseed and Turpentine is too well known as a cure for bronchitis and severe chest colds to need comment. Dr. Chase's Nerve Food seeks out the weak spots in the system and builds them up. It rekindles the vitality of persons weakened by disease, worry or over-exertion, and cannot possibly be equalled as a restorative and reconstructant to hasten recovery from la grippe and to prevent serious constitutional complications. For sale by all dealers, or Edmanson, Bates & Company, Toronto.

CONSTIPATION

Permanently Cured and all its Ill Effects Removed by

Burdock Blood Bitters.

If you've suffered from constipation for years, tried all the remedies you ever heard or read of, without getting more than the relief the one dose of the medicine afforded—if you've been subject to all the miseries associated with constipation, such as sick headache, nausea, biliousness, pimples, eruptions, blood humors, blotches, piles, etc., wouldn't you consider it a blessing to be cured of your constipation so that it would stay cured?

Burdock Blood Bitters can cure you—cure so that the cure will be permanent. It has done so in thousands of cases during the past twenty years.

Just one statement to prove what we say is right.

Mrs. G. Gasby, Portage La Prairie, Man., writes: "For over two years I was troubled with sick headache and constipation. I tried many different pills and patent medicines, but they only gave me slight, temporary relief.

"A lady friend of mine induced me to try Burdock Blood Bitters, and sent me half a bottle of it to start with. I derived so much benefit from that that I continued to use it, and took in all three bottles, which completely cured me.

"That was ten months ago, and as my health has been splendid ever since I have only my kind friend to thank who advised me to take B.B.B."

HOCKEY

ANOTHER SCALP FOR THE OTTAWA SEVEN

And This Time it Was the Speedy Victorias—A Dirty Match.

Ottawa's victory over the Victorias on Saturday, goes a long way toward deciding the championship, if it does not actually decide it. Ottawas have now won five matches out of the eight there are to play. Another was a draw, which if it is necessary, will be played off. But looking at the standing of the clubs now and the form the teams are playing in, it seems impossible for the Dewar shield, which represents the championship to go elsewhere than to Ottawa.

Look at the situation. The standing of the teams in the league is as follows:

	Won.	Lost.	Drawn	To play
Ottawa..	5	0	1	2
Shamrock..	3	2	0	3
Victoria..	2	2	1	3
Montreal..	1	4	0	3
Quebec..	1	4	0	3

Ottawa has a substantial lead and when the matches yet to be played are taken into consideration it is good betting, giving liberal odds that the shield goes to the capital. Here are the matches yet to be played by the clubs yet in the running:

Team.	At Home.	From Home.
Ottawa	Sham., Vic.	Quebec.
Shamrock	Mont., Vic.	Ottawa.
Victoria	Que., Sham.	Ottawa.

Looking closely at this list and taking into consideration the previous matches, there should be little doubt about Ottawas winning out.

This must not be regarded as anything more than a probability, (extreme one though it may be) for it is in the power of Shamrock and Victoria yet to win out, or at least tie Ottawa. That is on the one condition that both defeat Ottawa, which is very doubtful.

OTTAWA, 5—VICTORIA, 4

The long expected meeting between the two leading clubs of the league resulted in a disappointment for the local septette. Those who had seen both teams play, judged Victorias to be the cleverer and faster players, and confidently expected that they would win out against the heavier Ottawa men, who lacked the skilful combination of their opponents. So the score of 5 to 4 in favor of Ottawa came as a rude shock to many of the local followers of the game, They had to admit defeat, but those who saw the game have the same opinion still—that Victorias are the clever, faster men, and play much better hockey than do the Ottawas.

Then how was it that Ottawa won? Just this way: They used their bodies to such great effect and handled the light bodied Vics so roughly generally that their effectiveness was very much impaired. That and a couple of bits of luck lost the match for Victorias.

At the same time it must not be forgotten that the use of the body to a certain degree is just as admissable as dodging past an opponent. It is a part of the game quite as much as the other, and an A1 team must be able to rough it as well as play a fast, clever combination game. A good many of the spectators did not recognize this evidently, for the Ottawa players got many a call down from the gallery for legitimate checking while graver offenses were passed over.

With another referee the result might have been different. The match was the roughest seen in Montreal this year, and that was to the disadvantage of the Vics. The referee allowed it to pass, however, so there is nothing to say now except that the Ottawas won, and that there may be another match between the same two teams.

EVERY SEAT WAS TAKEN.

The Arena on Saturday night was crowded. From 8 o'clock on the street cars unloaded their human cargoes opposite the doors, and they poured into the building till every seat was taken. In fact, the attendance was the largest this year with the exception of the second match for the Stanley cup.

And they weren't all Montreal people either. The Capital City supplied its quota, and a big one at that, judging by the volume of sound when the visitors scored. Then half the Ottawa people in Montreal were at the match, bedecked with Ottawa colors.

It was a big crowd, it was an enthusiastic crowd, and it had the lungs to back up its enthusiasm.

MATCH NONE TOO FAST.

The match was not a fast one on the whole. The first half might even be called slow. But the last twenty minutes of the second half made up for it in part, for it was the fastest seen here this year. And like many another game on which much depends, it was as rough as it was fast. The referee could and should have stopped it, but he didn't, and so the vicious work went on till there was a hand to hand fight, which took half a dozen of the players to stop.

Ottawas won, but hardly on their merits. The first half was mostly Ottawa, for the reason that the Victoria defence was not up to the mark, and the forwards had to help it out. It was not because Ottawa was playing good hockey. In fact, neither team in the first half could be accused of that. Yuile and Strachan made many muffs in lifting which were disastrous, whereas the Ottawa defence was playing a good and steady game. The Ottawa forward line relied on individual work entirely, and, except where absolutely driven to it, never passed the puck. They did one thing, however, and that was to demoralize the Vics' combination by heavy checking and close attention to the puck. Keep an eye on the puck and every time a man gets in the road dump him, was their motto. Besides, the Victoria forwards fought shy of Pulford, whose rough work thus had its effect.

The Vics' forwards tried hard to get their combination work going, but found themselves hampered by the persistent checking of the opposing quartette and the heavy checking of the defence men.

The second half was much better hockey all round, and showed out more distinctly the difference in the two styles of play. The Vics' defence had pulled together and played well, with one exception. The forwards rushed and passed beautifully, and had the Ottawas almost off their feet, so hot a pace did they set. But when the score was even they were beaten out by a flukey lift in a mix up which scored the deciding game. It was hard luck, for the Vics had things all their own way, and were playing beautiful hockey on the line.

The line out was as follows:

VICTORIAS.

OTTAWAS.

Referee—Frank Bickerdike, Montreal.
Goal Umpires—T. Y. Foster, W. Christmas, Montreal.

The game began with a goal for the Vics which took people's breath away, for the game lasted just 25 seconds. A run by Yuile, a lift back, a return lift and a quick shot by Bowie—that was all there was to it.

The second game saw the beginning of the time-honored pilgrimage to the timekeepers' shrine, and Stuart led the way by putting Sixsmith prone on the ice by a judicious use of the foot. Henry made a dash and passed in to centre. Munro stopped on hot one, but cleared straight to Westwick, who evened the score.

Now the delays began, and before the match was over the crowd had more than enough of them. Sixsmith got his foot cut with a skate, and limped off the ice. When he got back the referee laid Strachan off, though it was Henry who had fouled him. Henry got off so well on this occasion that he tried some more, and gave the foot to everyone in reach till the referee went so far as to put him off. At this stage it was pretty much all Ottawa, for the local defence was demoralized and were muffing badly. This was the longest game of the match, and the most uninteresting. There was little hockey, but lots of "shinny." Finally, in a mix up in Vics' goal, Sixsmith batted the puck through and so the Ottawas were ahead, with the score 2 to 1.

In the next game Sixsmith had to go off again with his sore foot, but curiously enough it did not take long to recover this time. Then another delay occurred through Rogers' skate being broken. When this was fixed and play began, Vics evened the score by a neat rush and a shot by Bowie on Russell's pass.

There were still three minutes more of the half left, and they were eventful. Roger and Yuile were sent to ornament the railing and Pulford joined them a moment later. Eddie Stuart got a bad crack on the temple with the puck which almost put him out of business, but he was able to play again. Then came the whistle with the score still 2 to 2.

It did not take Ottawa long to break the tie. In a mix up Westwick slipped the puck to the net.

The next game was exciting, for the play became exceedingly fast and rough in proportion. Roger and Russell had a fight which gave them a five-minute breathing spell. Sixsmith got the puck in the head and had to give up for a while. Then Henry and Stuart came together head on and were carried off the ice. Then Roger took another session in the reserved seats. And this was all merely as a preliminary to Bowie's scoring the sixth goal, which made it three all.

Vics were now having it all their own way, and excitement ran high, for the pace was terrific. But the Vics' hopes were dashed again, for on a long lift by Duval, Henry scored.

Two minutes later it was even all, for in a mix up Stuart sent a shot to the net.

Then came the hard luck of the night, for the Vics. They had the Ottawas reeling, but the Capital men made one desperate attack. Vics cleared nicely, but Henry lifted in from the centre of the ice, and it was all over. A couple of minutes more and the gong sounded the knell of Victorias' hopes.

The summary:

Goal.	Won by.	Scored by.	Time.
1	Victoria	Bowie	.25
2	Ottawa	Westwick	2.30
3	Ottawa	Sixsmith	21.00
4	Victoria	Bowie	3.00
HALF TIME.			
5	Ottawa	Westwick	8.00
6	Victoria	Bowie	6.00
7	Ottawa	Henry	3.00
8	Victoria	Stuart	2.30
9	Ottawa	Henry	5.30

WITH THE PUCKSTERS.

Pretty dirty all round.

Bowie was best man on the forward line.

Stuart was in hard luck. He got badly used.

Roger, Pulford and Duval did effective body work.

Ottawa forwards, though small, could stand hard checking.

Pulford plays good hockey, but he's something of a butcher, too.

Victorias had Strachan's bull terrier for a mascot. It was a hoodoo instead.

Billy Christmas is to have an operation performed on his nose this week to fix up the fracture sustained a week ago.

Trooper W. E. Bishop, of Ottawa and an old Ottawa man, was down with the team and helped to swell the cheering of the visiting delegation.

Ottawas did some dirty tricks, but they were not the only ones. It is but fair to Vics to say, however, that the Senators started the killing.

The Leader Hockey Club met and defeated the Jubilee Hockey Club on the Minto Rink by the decisive score of 5 to 0.

The first Avocas and first Overlands met in a friendly game of hockey at the Victoria Rink on Saturday evening. The match resulted in a win for the Avocas by a score of 5 to 0.

The Leader hockey team met and defeated the Jubilee hockey team in a very fast game of hockey, Thursday night, on the Minto Rink, by the score of 5 to 0. P. Cowan made a very capable referee.

A hockey match was played between Huntingdon and Valleyfield, resulting in a win for Huntingdon by 5 goals to 2. This makes the third win for Huntingdon against Valleyfield this season at Valleyfield, Saranac and Huntingdon.

The referee received criticism for allowing the last goal scored by Ottawa while he was assisting an Ottawa man who was laid out. He didn't blow his whistle, so it goes all O.K. Ottawa man recovered when he saw it was a goal.

The Aberdeen Hockey team met and defeated the Archambault's 3 to 1, on the Ontario rink, the scorers were Meldurm, Neil of the Aberdeens and Galarneau of the Archambault's. Referee L. Trudel. The Aberdeens would like to hear from any players 15 and under, Address George Neil, jr., 1657 Ontario Street.

Arrangements have been completed at Winnipeg for a rousing reception to the Victorias when they arrive home on Monday. They will be met by the association and club officers at the repot, will receive an address from Mayor Arbuthnot at the City Hall and then will go to a formal welcome at the Clarendon, where speeches will be made by Hugh John Macdonald, E. L. Drewry, E. B. Noxon, the president of the association, and others.

The Baylis Manufacturing Company and Pilkington Bros. played a draw at the White Star Rink, each scoring twice. The teams were:—Pilkington—Cornell, goal; Devine, point; McCarron, cover point; V. Chapleau, Benoit, E. Chapleau, forwards; Marcil, centre. Baylis—McBrearty, goal; Hye, point: O'Connell, cover point; McBrearty, Elliot, Furgeson, forwards; Hughes, centre. Referee, T. Cornell, M.A. A.A.; umpires, T. Ryan and G. Munroe; timekeeper, F. Haines.

Quite a large number of the friends of the Royal Victoria Masonic Lodge and the Temple Club hockey teams gathered at the Victoria Rink to witness the match between these stalwart exponents of the popular game. At the end of the first half neither team had gained any advantage, but the second half had hardly got fairly started before Mr. Chas. Manhire put the puck through the Temple Club goals, scoring for the Royal Victorias. And this was the standing when time was called, Royal Victoria winning by one goal to nothing. An adjournment was afterwards made to the Temple, where refreshments were served and the cup presented to the winning team.

HOCKEY

SHAMROCKS WON OUT IN QUEBEC

They Got a Lead on the Start and Held it Against the Ancient City Men.

Quebec, Feb. 10.—(Special.)—Two thousand people saw the Shamrocks defeat the Quebec hockey team last night, after the most keenly contested and hardest game that was ever played here. The result is not a fair index of the relative play of the teams, for Quebec's speedy forwards literally played rings around the ex-champions, and on many occasions made them look like schoolboys. But the traditional Shamrock luck was present in large chunks, and although the Quebec men shot and shot again and again, every time direct on the goal, the work was all in vain. The puck hit the posts, the top rope of the net, the stick of the goaler, and, in fact, landed everywhere except in the net. For the whole of the second half Shamrock was obliged to play a defence game, and Quebec's attack was incessant and vigorous, but in vain. Grant, Tansey and McKenna were assisted by all the Shamrock forwards crowded before their goal, and the visitors were all kept busy. That they succeeded in keeping the puck away is the wonder of the whole city.

The teams lined up as follows:—

Quebec.		Shamrock.
F. Stocking	Goal	J. McKenna
C. Cahill	Point	F. Tansey
H. Stuart	Cover point	M. Grant
B. Stuart	Forward	H. Trihey
J. Gillespie	"	S. Cummings
Lemesurier	"	C. Farrell
D. Hogan	"	F. Scanlan

Mr. Hugh Baird held the whistle and was perfectly fair.

The first game was short and scored by Trihey in two minutes. Quebec then woke up and took the puck to the Shamrock end. Time and again Quebec rushed up only to have their combination broken by Grant or Tansey when the rush would be the other way. After some very fast hockey Farrell got the puck and, by a beautiful end-to-end run, scored after 11 minutes' play.

The third game got a little warmer, and after the puck had been travelling a while Trihey and Hod Stuart got in a mix-up and were put off for two minutes. This kept up the interest. Finally Gillespie emerged from a scuffle in front of the Shamrock goals and scored with a shot that fairly whizzed. Time, 14 minutes.

The score was then 2 to 1, and although there was still five minutes of play to half time, neither side could score again. The rest of the match was hard and rough. Hod Stuart struck Tansey on the head and laid him out, Hogan was off for slashing, Farrell was on the side for two minutes, and, altogether, it was hot and exciting. The local fans are disappointed at the loss, but are still proud of the showing the Quebecs made.

Summary.

Goal.	Won by.	Scored by.	Time.
1	Shamrock	Trihey	2 mins.
2	Shamrock	Farrell	11 mins.
3	Quebec	Gillespie	14 mins.

MONTREAL IN NEW YORK.

Montreal team, by defeating N.Y.A.C., and all New York, have made a record for a Montreal team. The best that was done previously was to beat N.Y.A.C. and tie all New York, which the Shamrocks did a year ago.

Here are the New York Herald's reports of the two games:—

Friday's Game.

Montreal's crack hockey team proved entirely too fast for New York A.C.'s seven at the St. Nicholas Rink, last evening, playing a remarkably daring and scientific game and winning by 6 goals to 1. Considering the aggressiveness and speed displayed by both sides, the contest was noticeably clean.

Liffiton and Campbell were revelations to home players and spectators alike. They did as fast and graceful skating as was ever seen in a hockey game, and manipulated the puck in a really startling manner. Three times Campbell steered it through the most formidable interference, and had every member of the opposing team except the goal tender behind him. His brilliant shots, however, were neatly blocked.

Liffiton was at all times in the thick of it, made dozens of beautiful passes and dribbles, and followed up every one of his shots for a goal. An unfortunate feature of the game was the uncalled-for striking of Campbell, while he was down, by Hunt. Two minutes off the ice was the only punishment inflicted.

The home team was on the defensive in the first half, and Montreal tallied five times to their one. In the second half New York A.C. tried hard, and the visitors rested on their oars, Liffiton scoring the only point.

The line-up and score:—

Montreal (6).		New York A.C. (1).
Nicholson	Goal	O'Donnell
Moore	Point	Hunt
Boone	Cover point	Fenwick
Bardner	Forward	Howard
Campbell	"	Hornfeck
Scott	"	Belden
Liffiton	"	Wonham

Referee—A. De Witt, St. Nicholas Skating Club.

Goals—Campbell, 3; Liffiton, 2; Gardner, 1; Howard, 1.

Saturday's Game.

International hockey honors were gained by the seven of the Montreal Hockey Club in a game with the all New York team at the St. Nicholas Skating Rink last night. Smart, snappy, team work gave the Canadians the victory by a score of 5 to 0.

The local team was a thoroughly representative one, being composed of members of the Crescent and New York Athletic Club, who are leaders in the American Amateur Hockey League. The contest was marked by rapid plays on both sides. Rough tactics were also indulged in by the players, Drakeley and Gardner, the principal offenders, being disciplined by the referee. Gardner had his finger cut and bruised in a scrimmage. Drakeley's offence consisted of grasping Smith around the body, causing the Canadian to fall heavily on the ice and knocking him unconscious.

Five minutes after the face-off in the first half, Howard, captain of the all New York team, started down the rink with the disc at a brisk pace, intent on making a goal. Within a few yards of the Canadians' net Howard lost the rubber and "Charley" Liffiton got it and made a fine pass to Campell, who tallied for the visitors.

Dobby, for the Americans, a few minutes later got the disk and accidentally forced it to "Charley" Liffiton, who made a goal. The New Yorks failed to get a point during the 20 minutes of play.

In the second half, after 10 minutes of sharp work on both sides, Gardner recorded a goal with an accurate drive of 25 yards. Immediately the disk was put in action again "Charley" Liffiton got it and, cleverly dodging the New York players, shot a goal. Just before the half closed the Canadians repeated the feat. The line-up:—

Montreal.		New York.
Nicholson	Goal	O'Donnell
Hodge	Point	Hunt
Boone	Cover point	Drakeley
C. Liffiton	Forward	Howard
D. Smith	"	Dobby
Gardner	"	A. Liffiton
Campbell	"	Fenwick

Referee—Archibald De Witt, of the St. Nicholas Skating Club.

PERTH CRESCENTS WON.

Perth, Feb. 9.—(Special.)—One of the most exciting games of hockey ever witnessed in Perth occurred here last night between Smith's Falls and Perth Crescents. The Smith's Falls seven were extremely confident of a victory, as they defeated Perth two weeks ago by 10 to 2, and to back up this confidence their supporters wagered all kinds of money at odds on their favorites. There were over 400 Smith's Falls' people at the game, and were accompanied by a brass band. The game was well contested in the first half, the score being a tie, 2 to 2, but in the second half the visitors were played to a standstill, and only notched one goal, while the Crescents secured three, making them the victors by 5 to 3.

Mr. F. D. Asher, of Smith's Falls, refereed the game with satisfaction, and the teams were as follows:

Smith's Falls.		Perth.
Larocque	Goal	King
Washburn	Point	Lyons
Gilroy	Cover point	McGregor
Lester	Forward	F. McLaren
Jarvis	"	R. McLaren
Rankin	"	Wilson
George	"	Simpson

Umpires—W. Blair and Dr. Mitchell.
Timers—C. Miller and C. F. Stone.

SCHOOL STANDING.

The standing of the teams in the Interschool League is as follows:

Senior Series.

CYCLING

NEW FIVE MILE RECORD.

Fresno, Feb. 10.—The first races on Fresno's new velodrome built by the National Racing Association took place this evening. Results: One mile, scratch, Laurin won, Newkirk second, Turville third; time, 2.28. Earl Kiser, of Dayton, and Arthur Stone, of Denver, rode in two motor paced heats of a five-mile pursuit race, Kiser winning both the first in 8.10 1-5, and the second in 7.58. The latter lowered the world's record for a motor paced five-mile race on an eight lap track.

SNOWSHOEING

CASBOURN WON BY TWO SECONDS

Beat Out Smith of the Hollies in an Exciting Cross-country Race.

The Holly steeplechase on Saturday proved a delightful surprise to the many admirers of this veteran snowshoe association, and demonstrated that its members can be counted on for fast running and staying powers. To those who found leisure to go out as spectators, the races were most interesting. Everything, besides, lent itself to facilitate a good run; the weather was splendid, the roads were good, time was fast and the entertainment was enjoyable. In the contest Lachine won first and third places; Smith, of the Hollies, came second. He could have been first. There is a fable about the hare and the tortoise, and while none was as the latter, Smith seemed to act like the former, and seemed to lose opportunities when they were given him. The order of finish was as follows:

George Casbourn, Lachine S.S.C. 1
George Smith, Holly S.S.C. 2
George Caine, Lachine S.S.C. 3

Times—42.40, 42.42, 42.56.

J. M. Edwards, Holly S.S.C.; A. Default, Le Canadienne; W. O. Davis, Holly S.S.C., also ran.

After the race lunch was served at the Lachine Hotel, Mr. A. Rattray, president of the Hollies, in the chair. Among others present were Alex. Stewart, president of the Montreal Snowshoe Club; Capt. Sully, St. George's Snowshoe Club; W. M. Brown, Lachine Snowshoe Club; R. Lacroix, Montagnard Snowshoe Club; T. Martel, Canadienne Snowshoe Club; W. Donoghue, Argyle Snowshoe Club; George Hodge, hon. president Holly Snowshoe Club; G. W. Sinn, of the Witness; A. M. Ritchie, past president Holly Snowshoe Club; D. Pollock, Thomas Reid and Thomas H. Skelcher. The following were also present: Messrs. E. L. Turcot, G. W. Scott, H. O. Davis, W. Bolsted, S. W. Hackett, Arthur Forbes, Dr. D. D. MacTaggart, W. Cornell, H. Roffey, G. W. Paterson, H. E. Scarff, H. C. Codd, W. S. Davis, H. Casbourn, T. Bennett, C. Smith, George Smith, James Tuck, W. E. Hampton, F. Gascoigne and others.

The officials of the day were: Referee, A. B. Rattray; judges, Capt. Sully, Messrs. A. Stewart, W. M. Brown, R. Lacroix, T. Martel, W. Donohue; timekeepers, Messrs. George Hodge, A. M. Ritchie, D. Pollock; scorer, T. H. Skelcher.

Y.M.C.A. LADIES' NIGHT.

Last Friday evening the Y.M.C.A. Club held its regular ladies' night, and the members, with their lady friends, turned out to the number of over fifty. After a tramp, which, despite the cool atmosphere, was thoroughly enjoyed, those present partook of the hospitality of Mr. Dawson, Pine avenue, where a very pleasant evening was spent.

CEDARS' LADIES' NIGHT.

When the Cedar Snowshoe Club held their first ladies' night a most enjoyable evening was spent. Despite the cold weather a large number turned up, prepared for tramping, and had a good time going over the mountain. On their return the committee were pleased to see quite a party of ladies and gentlemen awaiting them. Progressive euchre was then in order, and after playing six games refreshments were served, when three more games were played. Prizes were presented to the winners. There was also a short but witty programme rendered. The evening was then closed with singing "Auld Lang Syne" and "God Save the King." The committee for the evening was as follows: Messrs. J. Walsh, chairman; J. A. Bayley, acting secretary; W. S. Greene, R. Gomery.

Sporting Notes

Steel workers in Bristol shops are busy on the first of two steel masts to be built for the Belmont syndicate's cup defender. This mast, from all that can be learned, is to be longer and of greater diameter than that used in the Columbia two years ago.

At the forthcoming meeting of the New York Yacht Club there will be an important amendment to article 8 of the constitution offered. This amendment, if it passes and is approved at a subsequent meeting, will increase the cost of life membership from $200, as it now is, to $500.

Entries for the forthcoming bench show, under the auspices of the Westminster Kennel Club, which begins Feb. 19 in Madison Square Garden, New York, break all records. In all 2,084 entries have been received, and this does not include nominations expected from England by mail.

A tournament at English billiards will begin at John Donahue's Brunswick Billiard Hall this month. Three prizes will be offered. Entries now open.

Mr. J. S. V. Oddie, secretary of the New York Yacht Club, has received a communication from Hugh C. Kelly, secretary of the Royal Ulster Yacht Club which will be considered on Monday, February 11, by the committee on the challenge of the Royal Ulster Yacht Club. Mr. Oddie said that nothing would be given out for publication until the matter shall have been considered by the committee.

THE TURF

HORSE SHOW DATES MAY BE MAY 9, 10, 11

These Days Follow the Boston and Toronto Events and Are Spoken of by Promoters

It is altogether probable that the Montreal Horse Show will be held this year May 9, 10 and 11, Thursday, Friday and Saturday.

The Boston show is April 15 to 20, and the Toronto dates are May 1 to 4, so the best dates for Montreal seem to be those above given.

These dates have, of course, not been definitely decided on, and won't be for a while yet. But informally the promoters of the horse show of last year and who will no doubt have a good deal to say about this year's show, seem to think May 9 to 11 about right, and it is probable they will be adopted.

This would make the show about a week later than last year. The dates were May 3, 4 and 5. Judging by the experience of last year a week later would be of benefit all round.

The show this year will be held in the Arena this year as last year, and owing to the success of last year's event, a much larger representation of horse flesh is expected to be entered. Society too, should turn out better this year and in every way the outlook is very promising.

REIN AND BRIDLE.

A meeting of representatives of the various turf associations of Western Ontario, was held in Stratford for the purpose of fixing dates for the Canadian Trotting Circuit. The dates are as follows: New Hamburg, June 4, 5 and 6; Guelph, June 11, 12 and 13; London, June 18, 19 and 20; Wingham, June 26 and 27; Stratford, July 1, 2 and 3; Seaforth, July 9 and 10; Goderich, July 17 and 18; Listowel also will hold races, but the dates have not been decided upon.

Justice Grantham has granted an injunction against Lady William Beresford (formerly Lilian, Duchess of Marlborough), entering or running in any races, or selling the Derby favorite, Volodyovki, or other horses leased by the late Lord Beresford from Lady Meux, as executrix. Lady Beresford claimed the right to fulfill the engagements of the horses. Lady Meux contended that the lease lapsed with the death of Lord Beresford. Notice of appeal was given.

Tod Sloan has purchased Louis Ezell's mare, The Lady, for $7,500. If the daughter of Hanover, should be successful in winning the San Francisco Handicap, Ezell is to receive an additional $1,000.

The management of Charter Oak Park, Hartford, is the first to announce its stakes for the coming season. The first in the list is an $11,000 futurity. This race will be decided at the Grand Circuit Meeting of 1904, when the nominations will be three-year-olds. Five stakes are open for the Grand Circuit Meeting next September. The Charter Oak Stake of $10,000 is for the 2.13 trotting class, and four of $2,500 each are for the 2.17 and 2.30 trotting classes, and the 2.14 and 2.30 for pacing classes.

An open declaration of war on the Oakland race track, made by the San Francisco Jockey Club, in control of Tanforan Park, has stirred up much excitement among horsemen on the Pacific Coast. President Williams, of the California Jockey Club, which manages the Oakland course, expressed great surprise at the statement that racing would be continued at Tanforan next week, in view of the contract existing between the two tracks to race a fortnight alternately. So far as the owners of horses are concerned, he says they can race at both tracks without any protest from his club. Special inducements will be offered, however, at Oakland. It is unofficially stated that an injunction will be asked from the courts to prevent the Tanforan people from racing next week, should they attempt to do so. The Oakland officials say if a single race is run at Tanforan next Monday there will be racing at Oakland every day until the close of the season.

IS MONTREAL IN THIS?

Cincinnati, Feb. 10.—The members of the West End Jockey Club who were not allowed dates when the new jockey club was organized at Chicago several weeks ago, will hold a meeting Cincinnati to-morrow to formulate plans and allot dates. Newport, Nashville, Highland Park and Little Rock have formed a combine with Bel-Air and Fort Erie, and plans have been perfected by which a vigorous fight will be made against the new jockey club.

BASEBALL

"NO COMPROMISE," SAYS MR. JOHNSON.

Chicago, Feb. 11.—President Johnson, of the American League, characterized as pure imagination without foundation the story emanating from Baltimore to the effect that secret negotiations were in progress between the National and American League looking to a compromise. "As I have said before, there is no chance of a compromise," said Mr. Johnson. "The time for that has passed, and I think both leagues understand that fully. It will be foolish for us to make any such terms as those indicated from Baltimore after having our plans so nearly completed as they are. We could not afford to relinquish as strong a hold as we have on Boston and take Louisville instead. But there is no use in discussing the matter, as it is a groundless rumor. Why, we have our Boston manager engaged and his team pretty well made up, and already have most of our players signed for next season.

"We are going ahead to make an earnest fight to rid the game of many of the evils which now encumber it, and of the men who have done much to injure baseball in order to put the game back on the level it once occupied. We have been forced into the fight to protect ourselves, and the game from those men, and now we will see it through to the end."

MAT & RING

THE PONS-ROEBER FIGHT.

As usual, the second day after the Pons-Roeber fight, some one rises to remark that it was a fake. It may have been or may not have been. Who knows? The principals aren't going to tell, and all this speculation as to why the bout was stopped at midnight is not as long as the police inspector doesn't mount the rostrum, and he'd be a fool to do it.

TURK VS. PONS OR ROEBER.

New York, Feb. 11.—Martin Julian Saturday posted $500 in real money in behalf of Nouroulah, sometimes called "Neuralgia," his gigantic Turk, calling for a match with Pons, Roeber or Jenkins, the Frenchman preferred. Though Pons is 6 feet 5½ inches tall, the Turk, with his turban on, looks to be a foot taller. Pons says he threw Nouroulah at Paris after a long struggle. Nouroulah denies this, and is so confident that he can throw Pons, even off the dock, if necessary, that he is willing to arrange a match on any kind of terms. If Roeber should tackle the Turk it might be well for the German to use a pair of stilts. Nouroulah says he has been training lightly since his arrival here, which means that Julian is busy buying steaks, no doubt, together with cigarettes. And yet, somebody is unkind enough to say that the Turk has come over here at the joint invitation of Roeber and Pons.

ALL READY FOR THE FIGHT.

Cincinnati, Feb. 10.—Notwithstanding the proceedings in court here and the attitude of the Governor at the State Capital, this has been a busy day with the sporting men in Cincinnati. All the visiting and local sports are expressing their opinions as to the two men, and generally pick Jeffries, although they concede Ruhlin is in better condition. They will go through their regular practice Monday; they will slacken their exercise Tuesday and still more on Wednesday, doing very little on Thursday. They rest on Friday. As the preliminary bout between Childs and Martin for 10 rounds is not to be called till 9 o'clock Friday evening, it may be late when Jeffries and Ruhlin enter the ring for their 20 rounds. Meantime there is much anxiety over the decision of Judge Hollister and the action of Governor Nash. It will be known in a day or two whether Judge Hollister will grant a permanent injunction against the contest on the ground of a public nuisance, but the promoters do not know what the Governor will do or when he will do it. While the Mayor, with his permit, promised a force of police to maintain order, it is known that the police will not protect the event to the extent of offering any resistance to the military, which is said to have received marching orders for Friday evening. There has been considerable talk to-day about postponing the contest. If Judge Hollister should allow the injunction on Tuesday, the defendants will at once appeal to the Circuit Court, and if they lose in that intermediate court, they will carry the case to the Supreme Court, which does not sit again till February 19. If this course is pursued the contest may be postponed from one to two weeks. The promoters do not want to postpone the date any longer than possible owing to other engagements after this week, and the expenses of training quarters are very heavy.

AQUATICS

HANLAN AT WORK.

New York, Feb. 11.—Now that the mid-year examinations are finished at Columbia, the work of the rowing candidates will be begun in earnest, and training on the machines will be rushed until fair weather permits Coach Hanlan, the famous Canadian oarsman, to put the men on the Harlem.

It is expected that Hanlan will begin work this week with full 90 men under his charge, and that this number will probably ultimately reach the 100 mark.

Coach Hanlan has expressed himself as not being at all satisfied with the shells used last year. He considers them faulty in several respects, and claims that one can be constructed at least 20 seconds faster. He is putting his ideas in shell construction into shape, and is having a new boat made under his own supervision.

New York, Feb. 11.—W. A. Melville, one of Sir Thomas Lipton's secretaries, has arrived in New York on the liner Umbria. Mr. Melville will remain until after the yacht races, and will assist David Barrie, Sir Thomas' American representative, in his preparations for the berthing of the fleet that will accompany Shamrock II., securing of tenders, and other necessary preparations in connection with the race for the America's Cup.

SKATING

BROKE TWO WORLD'S SKATING RECORDS

Pilkie, Coldwell and Drury Beat the Best Time Ever Made at Half and Quarter Mile.

Two world's records broken into little bits was the result of the races at the M.A.A.A. on Saturday afternoon, when the 61st annual meeting of the Montreal Snowshoe Club and the 17th annual race meeting of the Montreal Toboggan and Skating Club was held. The day was an ideal one for the occasion. There was no wind to hamper or aid the competitors, and the steady cold made the ice of the very best.

A. E. Pilkie made the very excellent time of 1.20 for the half mile, which drops by 2-5 of a second the record made by Johnny Nilsson February 1, 1896, on the M.A.A.A. track. As the track on Saturday was officially measured, and the watches were in competent hands, this record of Pilkie's will stand as the world's best time for circular track. For purposes of comparison, the straightaway record is interesting. It is 1.18 3-5, made by P. Oestlund in 1892.

Though it is not generally known, the 440 yard record was beaten by Coldwell and Drury in their dead heat. The best previous record for this distance on a circular track was 39 1-5 seconds, made by J. K. McCulloch on a 2-13th mile track at St. Paul, January 27, 1896. Harley Davidson's record of 33 1-5 was on a straightaway track, so Caldwell and Drury have the honor of reducing the world's best time for 440 yards, circular track, from 39 1-5 to 38 3-5, a drop of 3-5 of a second.

Pilkie made his record in the easiest manner possible. Pilkie was content with last place at the start, and worked his way through the crowd till at the bell lap he was third. He took the lead immediately, and with a long stroke which seemed to be anything but world beating, swung into the stretch and sped home with the bunch trailing. Drury and Coldwell were in the race, but did not exert themselves, saving their wind for the dead heat run off which followed.

Coldwell and Drury made their new mark in the 440 in a way that argues that either is up to much better speed. They led their bunch, and from half way round turn out the stretch there was a great deal of interference which impeded both. Who was to blame is a disputed point, but in spite of this both passed the tape 3-5 of a second ahead of the record for a circular track. Just at the tape there was another clash, and Coldwell went down and slid over the line in a dead heat with Drury. The time in the run off was slow, 44 3-5 seconds. Caldwell won out in the last few yards.

Boswell, of Winnipeg, and Bellefuille, of Rat Portage, had a practice for the races next Saturday. Neither won a place.

In the backwards skating, 880 yards, Fafard went the distance in good time alone, the other two going in to fill up.

The snowshoe races were quite as interesting as usual.

As usual at these races, there was not a second's delay. The officials ran off the races according to the time card, and in fact beat it by a few minutes. The officials were:

Referees—Snowshoe events, Mr. Alexander Stewart, president M.S.S.C. Skating events, Major W. B. T. Macaulay, president M. T. and S. C.

COLLIE PUPPY SHOW.

The second annual puppy show of the Canadian Collie Club was held in Harmony Hall, St. Catherine Street, on Saturday afternoon. A very representative lot of youngsters were up for competition, the majority being of fine quality, while not a few give promise of great excellence. Of the latter may be mentioned Davie Alexander's Mountain Victor, bred by Isaac Stewart, a fine pup of about three months old, with perfectly formed head, good ears and true collie expression; John Cumming's Craikstone Skylark; A. F. Gault's Braehead Maiden, a handsome little bitch in every way, which, although not feeling quite herself, was deservedly placed first; W. O. Roy's Coila Lad and Joseph Reid's Grand Union Joe. Dr. Wesley Mills officiated as judge and gave every satisfaction to exhibitors and visitors, who, by the way, were very much in evidence during the afternoon and evening. Mr. S. S. Kellie, the secretary and superintendent, deserves much credit for the manner in which he conducted the show, and the club is to be congratulated on its success. Following are the awards:

Class 1.—Puppy dogs, under 4 months—First, D. Alexander's Mountain Victor; second, Walter Elliott's Blair Athole Bruce; third, Willie Roy's Coila Mac; reserve, W. O. Roy's Coila Tam.

Class 2—Bitches, under 4 months—First, J. Cumming's Craikston Skylark; second, Walter Elliot's Blair Athole Jess; third, Dominion Queen.

Class 3—Puppy dogs, under 9 months—First, W. O. Roy's Coila Lad; second, Jos. Reid's Grand Union Joe; third, J. Cumming's Craikston Nightingale; reserve, A. F. Gault's Braehead White Heather.

Class 4—Puppy bitches, under 9 months—First, A. F. Gault's Braehead Maida; second, W. S. Elliot's Blair Athole Lassie; third, Jos. Reid's Logan's Tulip Blossom; reserve, Jos. Reid's Logan's Victoria.

Class 5—Puppy dogs, under 12 months—First, Jos. Reid's Grand Union Joe; second, J. Cumming's Craikstone Nightingale; third, A. F. Gault's Braehead White Heather; reserve, Jos. Reid's Logan's Earl.

Class 6—Puppy bitches, under 12 months—First, A. F. Gault's Braehead Maida; second, Alex. Smith's Maple Leaf; third, D. Ccull's Heather Bloom; reserve, James G. Reid's Mayflower.

ATHLETICS

HIGH SCHOOL BASKET BALL.

The following games will be played during the present week:

Feb. 15—Old Boys vs. Present Boys, 4.30 p.m.; O. McCallum, referee.

Feb. 16—IV.B. vs. III.D., 10.30 a.m.; E. Taylor, referee.

Following is the standing of classes for the week ending February 9:

Class.	Pld.	Won.	Lost.	Pts.
Senior Series.				
VI.	4	2	2	4
V.A.	5	1	4	2

III.C.	4	3	1	6
III.D.	3	0	3	0

A win counts 2 points; a draw, 1 point.

THE GOLD MINES

Rossland, B.C., Feb. 11.—On the Evening Star on level No. 4, a promising shoot of ore has been encountered. It is of white iron carrying gold values which will average $30 to the ton. It is being drifted to determine its extent. On the Green Mountain a ledge twenty feet in width has been crosscut by the diamond drill on the 350 foot level. After the ledge had been crosscut there came such a rush of water from the drill hole that operations had to be suspended on that level. On the 250-foot level the same body of ore has been encountered, and there it is to be drifted on to determine its width, value and extent.

The shipments for the week ending Saturday were the largest so far, and establish a new record, reaching a total of 7,814 tons. The largest previous week's shipments was for the week ending Sept. 22, 1900, when 7,484 tons were sent to the smelter.

Following are the shipments for the week ending Feb. 9 and the year:

	Week. tons.	Year. tons.
LeRoi	4,574	20,027
Centre Star	2,160	11,940
War Eagle	780	3,570
Iron Mask	90	910

GRANBY SMELTER WORKS.

The Granby smelter at Grand Forks commenced operations on Aug. 21 last, and up to Feb. 1 had treated 81,000 tons of ore, which produced 2,700 tons of 50 per cent. matte, valued at $500,000.

PAINT WITH THEIR FEET LIKE ARMLESS ARTIST.

Paris, Feb. 11.—Two well known painters, Charles Didier and Henri Marechal, have for eighteen months been practising painting with their feet.

When Charles Feru, the armless Belgian artist, died, a year and a half ago, Didier offered to undertake to paint a copy of one of Rubens' masterpieces for $5,000. The sum was immediately subscribed, whereupon Marechal wagered another $5,000 that he would get two toe-painted pictures admitted to the Salon of 1901.

When the time comes to execute the pictures watchmen will see that the competitors handle the brushes with their feet only.

STOLEN JEWEL CASKETS.

Paris, Feb. 11.—The Prince of Monaco was recently summoned to appear at the office of Magistrate Prengue to identify two precious caskets stolen from his Paris palace in September, 1898. When taken they were full of ancient jewelry and bric-a-brac. Then Prince recognized the caskets, but now unfortunately they are empty.

PATENT NOTICE

Louis J. Pelatan, of Paris, France, and Fabrizio Clerici, of Milan, Italy, the owners of Canadian Patent No. 51,297, covering improvements in process and apparatus for extracting gold, etc., from ore, are willing to grant licenses for the use of such patented invention, or otherwise to supply the same. Applications should be made to Owen N. Evans, Solicitor of Patents and Expert, Temple Building, Montreal.

STOCK MARKETS LACKED CHARACTER

The Richelieu and Ontario Annual Statement Considered an Excellent One.

There was no particular character to the local stock market this morning, and the same can also be said of the market in Wall Street. The trading here was scattered throughout the entire list with no stock coming in for any particular attention.

In fact, not the least interesting feature of the day was the appearance of the Richelieu & Ontario statement for the year, showing the largest earnings in the history of the company. The gross receipts were $901,331.80, against $828,322.96, and the net receipts $129,322.96, against $128,730.07. It will be seen by the statement published elsewhere that $45,000 was charged to expenses during the year, the sum going towards improvements on the different steamers. And in regard to the item of bank loans, $207,723.28, it is understood that this sum has been spent for the construction of the company's new steamers and is of course more than covered by the proposed new issue of stock. Altogether, the "Street" was most complimentary in its comments of the statement, and while the past year has been a record-breaker, it is believed that with the Pan-American Exposition on the present year's returns will again establish a new record.

The changes in values on the local market this morning were comparatively small, and Wall Street's course was so irregular that it offered little opportunity for comment.

London, Feb. 9.—The Statist says to-day: "The great cheapness of money in Paris is likely to continue. The great French banks hold an immense amount of sterling bills, and have been employing considerable money on the Stock Exchange. French investors are buying Argentines and Brazilians on a great scale, and investing otherwise. One of the reasons is that the balance of indebtedness favors France against England. There is a depression in the wool industry in France. Manufacturers are not buying on the old scale.

Henry Clews says:—"We have now had three months of uninterrupted boom of most extraordinary activity and enthusiasm; and it would hardly be pessimistic to ask whether there is not some probability that the sanguine spirit may soon show signs of drain and reaction. At the moment, however, there is no conspicuous disposition to realize. Cliques who have large profits in their hands remain sanguine in the hope that the managers of the current deals have revelations in store that will enable them to close their pools with better profits than are now in sight; and, when that pass is reached, there may be a scrimmage involving considerable crashing in values. While not doubting the possibility of some further rise on certain cliqued specialties, I consider it wise to maintain a cautious attitude."

CHEESE IN ENGLAND

London, Feb. 11.—The week has clearly developed a less hopeful feeling in the cheese market, and many holders have been forced to admit that they do not consider the outlook cheerful for high-priced goods. Demand has been very light, while stocks, though not excessive, are fair. As a result prices have been shaded somewhat this week, and the range now is 50s 6d to 54s. Butter, on the other hand, under light stocks and a fair demand, is firm at 80s to 86s for dairy, and 90s to 100s for creamery.

Bristol, Feb. 11.—There was no change in the cheese market here, but the demand is slack and prices are irregular at a range of 50s to 56s. There is no change in dairy butter, which meets a fair enquiry at 85s to 94s.

WHEAT AND CORN WERE BULLISH

Stronger Markets Ruled for Both in Chicago This Morning.

Wheat was stronger in Chicago to-day. May opened unchanged at 74⅝c, and then advanced gradually to 75⅝c to 75½c, where it was quoted at 12.30. May corn opened at 39¼c and at 12.30 stood at 39½c to 39⅝c. Wheat in Liverpool closed ⅛ higher and corn ¼ higher. A wire said:—"Broomhall's exports of wheat, 9,664,000." z z z z

$ $ $

Liverpool, Feb. 11.—The imports of wheat into Liverpool last week were 68,000 quarters from Atlantic ports and 3,000 quarters from other ports. The imports of corn from Atlantic ports last week were 92,100 quarters.

$ $ $

"The export demand was slack to-day, and little of interest was manifested, except moderate resting buying orders for No. 2 red winter wheat for Lisbon shipment. Reports that 50 per cent. of the Minneapolis flour mills would shut down next week had a bearish effect, but these reports are so often circulated for market effect, or to force lower rail rates, that the trade accept them with some allowance. The export shipments of flour last week, as noted later on, were large, and would seem to reflect conditions that warrant mills running to capacity. Complaints are more rife regarding the quality of some of the Northwest flour shipments East. These flours are made from low grades, and unsound wheats as a venture for cold weather use, and were sent forward to be sold on their merits. Considerable amounts of this flour are now en route, and bid fair to be heading for a poor market.—New York Post.

ADVANCE IN STOCKS

"It is not to be concealed that the present firmness of the market at a very high range of prices is abnormal and largely fractional," writes Henry Clews. "But for the operations of our strongest financiers in these exhilarating deals, the market would be now careering back towards a normal level of values; and when it is seen that the giants have completed their plans and withdrawn their support, the speculative value of stocks will be estimated from a quite different point of view. In prospect of a certain degree of reaction at probably no very distant date, it may be well to compare present prices, for 20 representative stocks promiscuously selected, with market values midway between the highest and lowest of 1900 (omitting fractions), as follows:—

	Year 1900.	Feb. 25, 1901.	Advance.
Am. Sugar Refining Co.	122	138	16
Ath., Top. & S. Fe, pfd.	74	89	15

Union Pacific	63	91	28
Total of 20 quotations	1,544	1,871	

"The first of these columns represents the medium between the highest and lowest prices of last year; the second column, the prices of last Tuesday; and the showing of the comparison is that, this week, prices averaged 16 points above the middle figures of 1900,—although last year's average included the highest points touched in the election boom period of that year. Comparing the prices of the same stocks for this week, with the lowest of 1900, we find an average advance of 29 points. From this comparison, we may judge of the downward distance the market has to travel before normal values are reached."

Wills and Executors

No one should be burdened with the duties and responsibilities of executorship, with the loss of time, worry, litigation and personal friction so often incidental to such position, now that Trust Companies exist for the purpose of performing the functions of an Executor.

Prior to the existence of Trust Companies there was no choice but to accept and to delegate such serious responsibilities, such difficult and thankless tasks; Testators had no course open but to appoint Private Executors with all the risk and uncertainty of these individuals being able to perform properly their trust functions, whether from lack of business knowledge, experience, time, inclination, or permanent residence, and always the possibility that the Executors would not survive the Testator a day.

A Trust Company makes a permanent Executor—one never indifferent to the performance of duty—one never absent.

BRITISH ADVANCE CAUSED A PANIC

7,000 Boers Put to Flight by Kitchener's Occupation of Ermelo.

London, Feb. 11.—The War Office has received this despatch from Lord Kitchener, Commander-in-Chief in South Africa:—

"Pretoria, Feb. 9.—The columns working eastward occupied Ermelo, February 6, with slight oppositon. A large force of Boers, estimated at 7,000, under Louis Botha, retired eastward. About 800 waggons, with families, passed through Ermelo on their way to Amsterdam, and large quantities of stock are being driven east.

"A peace delegate under sentence of death, and other prisoners, were taken away by the Boers. All the reports show that the Boers are exceedingly bitter. Fifty Boers surrendered.

"Louis Botha, with 2,000 men, attacked General Smith-Dorrien at Orange Camp, Bothwell, at 3 a.m., February 6. He was repulsed after severe fighting. General Spruit was killed, General Randemeyer was severely wounded, two field cornets were killed, twenty of the Boer dead were left in our hands and many severely wounded.

"Our movement to the east is reported to have thoroughly upset all the enemy's calculations and created a regular panic in the district.

"Christian DeWet appears to be crossing the line south of Jagersfontein Road to the west this morning, having failed to effect a crossing by the drifts east of Bethulie.

"In Cape Colony, Calvinia has been occupied by Col. De Lisle, who entered February 6, the enemy retiring toward Kenhardt.

"Col. Haig is driving the Midland commando northward past Aberdeen."

A Cape Town despatch, dated February 9, says:—

"Kritzinger's commando of Boer invaders has been compelled to make a rapid retreat from a point south of Oatlands Station, in a northeasterly direction. The Boers were surprised by the force under command of Col. Haig, and compelled to abandon their cart-horses and a quantity of rifles.

A small commando under Commandant Scheepers is in the vicinity of Spreeuwfontein (in the Prince Albert district of southern Cape Colony, about 100 miles from Mossel Bay.)

MAJ. CREWE'S HARD FIGHT.

East London, Cape Colony, Feb. 10.—Details have been received her of severe fighting at Tabaksberg Mountain, 40 miles east of the railway and about midway between Smalldeel and Bloemfontein. Maj. Crewe, with a composite column travelling southwest, sighted the mountain on the morning of January 31. He heard heavy firing and knowing that Colonel Pilcher's column was on the other side of the mountain he concluded that this officer was in action. Consequently he hurried forward, only to meet Boers streaming down and evidently retiring from Colonel Pilcher's lyddite shells. Immediately Major Crewe brought three 15 pounders and a "pom-pom" to bear on the Boers, who, however, were found to be so numerous that it was impossible to head them off. Orders were given to return to camp about two miles from the mountain. The column rested until 4 in the afternoon when the march was resumed southwest. Major Crewe was just touching the southern point of the mountain when a terrific rifle fire opened from a large force of Boers who were in ambush on the mountain. The fight soon became general. The Boers outnumbered the British five to one and were attacking them on both flanks and the rear. The British "pom-pom" jammed and became useless. Major Crewe grasped the situation and by a brilliant movement got the convoy into a safe position.

Between 7 and 8 in the evening the Boers charged the position and turned both flanks. The British ammunition became exhausted and Major Crewe was obliged to retire and abandon the "pom-pom," after the advance party had endeavored to save it and had sustained severe losses.

A rear-guard action was fought by Major Crewe into the camp where the waggons had been laagered. He personally superintended the retirement, the Boers harrassing him throughout. Entrenchments were thrown up during the night.

When morning came Major Crewe started to join General Knox 12 miles southwest. The Boers immediately re-attacked him, compelling him to fight a second rear-guard action for a few miles. General De Wet personally commanded the Boers, estimated at 2,500. Major Crewe's force was only 700. Eventually the British officer joined General Knox and returned to Bloemfontein. Lord Kitchener has highly complimented Major Crewe upon the achievement.

NO TALK OF PEACE.

London, Feb. 10.—Lord Raglan, Under Secretary of State for War, informed the correspondent of the Associated Press today that General Sir Evelyn Wood is not going to South Africa, and that no peace commission is contemplated.

"The report as to a peace commission is false from the beginning to end," he said. "The policy of the Government is the very opposite of what would prompt such a step. Troops, not peace commissioners, are going to South Africa."

It is also understood that Sir Evelyn Wood is less likely than any other high officer to be chosen for important special duties, as he is now so deaf that his retirement is only a question of a short time.

DE WET'S THREAT.

London, Feb. 11.—The Cape Town correspondent of the Times, wiring yesterday and giving a general outline of the British offensive operations, says:

"The British force directed against De Wet's commando includes seven columns under Knox, Hamilton, Maxwell, White, Pilcher and Crewe. They hoped to force De Wet upon the British corps concentrated on Orange River. The Boers, under cover of a detached commando, swung westward and captured a 'pom-pom' from Major Crewe, and by crossing the railway between Springfontein and Enderberg, evaded the British concentration.

"De Wet is now probably in the Philippolis district, and this probably accounts for the northwesterly movement of the Boers in Cape Colony.

"The latest proclamation issued by De Wet and Steyn closes thus:

"I shall now enter Cape Colony to give the farmers a taste of what we have ourselves suffered through this war."

De WET A TYRANT.

Cradock, Cape Colony, Feb. 9.—Boer raiders are nine miles from Grauffrienet and are also in the neighborhood of Rosmead.

A deserter from General De Wet's force avers that De Wet treats his men cruelly and frequently sjamboks them. The deserter was arrested by the Boers after he had surrendered to the British and was given 25 lashes. Many Boers are deserting. President Steyn and General De Wet personally shoulder rifles.

MILNER TO THE TROOPS.

Cape Town, Feb. 10.—Yesterday Sir Alfred Milner reviewed 7,000 men of the new volunteer force, and made a spirited address to the officers. He expressed his gratification at the loyal response the Colony had made to the call, emphasizing the great value of mounted men, and complimented the officers and all concerned upon the "excellent work already done in stemming the Boer invasion.

"It has been said that the enemy would never come to Cape Town, but anyone who, in the face of the events of the last few months, will say a thing is impossible because it seems improbable is too silly to be argued with. I am aware that I risk being called an alarmist, but it is better to be called an alarmist than to run any risk. There was a time when it was regarded as impossible for the Boers to penetrate the extreme west and south of Cape Colony, but they have reached one, and are within a few miles of the other. Therefore it is necessary to take every precaution.

"Most men prefer to be called alarmists, and to safeguard their property. That is better than to be called fine, plucky fellows, and to lose your property."

INVALIDED HOME.

Ottawa, Feb. 10.—(Special.)—The undermentioned non-commissioned officers and men of the Special Service forces in South Africa have been invalided to England:

Battalion, Royal Canadian Regiment; Lance-Corp. W. Welch, 90th Regiment; Royal Canadian Dragoons; Corp. A. St. L. Carter, Manitoba Dragoons; Trumpeter A. H. Roberts, Manitoba Dragoons; Canadian Mounted Rifles, Private J. A. Laroque, N.W.M.P.; Brigade Division, R. C.F.A.; "K" Battery; Sergt. W. Kiely, 13th Field Battery, C.A.; Bombr. W. H. Tennant, 13th Field Battery, C.A.; "D" Battery; Corp. W. R. Hare, Elgin County; Gunner J. W. Randall, 6th Field Battery, C.A.; "E" Battery; Gunner P. Walsh, 2nd Regiment, C.A.; Strathcona's Horse, Sergt. D. Allison, Sergt. C. G. Duncan, Private J. V. Bull, Pte. D. Burnett, Pte. W. P. Jackson, Pte. T. McMillan, Pte. J. L. Nesbit, Pte. E. C. Wragge.

MUST WEAR UNIFORM.

London, Feb. 10.—Some of the army officers are bitterly complaining of an innovation since Lord Roberts took command of the forces, by which they are obliged to wear uniform whenever they go to the War Office. Whatever his purpose, Lord Roberts, in this way and many others, is trying to down the prejudice of the majority of officers against appearing in public in uniform. Soon officers' uniforms are likely to be as common in London streets as privates' uniforms are now.

COURT PRESENTATIONS.

London, Feb. 11.—The Court Circular announces King Edward's decision that court presentations during the reign of Queen Victoria will hold good for the present reign. This will be the great difficulty that would have been involved in thousands of renewed presentations. At the opening of the Parliament which will be a great pageant the King will wear a crimson velvet state robe, with rich trimmings of ermine. Ladies have permission to wear pearls and diamonds.

DE WET'S APPEAL TO HIS BROTHER

Implores the Boer Commander to Cease His Fruitless and Bloody Efforts.

Bloemfontein, Tuesday, Feb. 5.—The text of a portion of the letter from Piet De Wet, chairman of the peace commission, to his brother, Christian De Wet, appealing to the latter to surrender, in the Post as follows:

"Dear Brother,—I hear you are so angry that you have decided to kill me, accusing me of high treason. May God not allow you the opportunity to shed more innocent blood. When I saw we were beaten by the British I wrote to the President requesting him to consider terms of peace and rather to surrender than to ruin the country and starve the people. I was with you afterwards for a month, convincing me that it was better to lay down our arms. I did my duty in the battle at Chietma with Prinsloo. I charged the guns when I was shamefully left in the lurch by Froneman who fled. Convinced that the struggle was hopeless, I left with my staff and surrendered and was sent to Durban.

"You and Steyn in carrying on guerrilla warfare caused me to write to Kitchener November 12, requesting an opportunity to come to the Free State and persuade the men to lay down their arms, no Free State government existing against whom I could commit treason. What is better—for the Republics to continue to struggle at the risk of total ruination as a nation, or to submit? Could we think of taking back the country if it were offered to us, with thousands of people to be supported by a government that has not a farthing but a debt of five or six millions, even if helped by you? Do you think any nation so mad as to have thousands killed and spend millions and then give us the republics and the necessary capital to govern them?"

"Put passionate feeling aside for a moment and use common sense, and you will then agree that the best thing for the people and country is to give in, be loyal to the new government, try to get responsible government and as soon as the finances will allow doing so, govern the country virtually ourselves, have our children properly educated and save the people as a nation.

"Should the war continue a few months longer, the nation will become so poor that it will become a working class and disappear as a nation.

"I have heard that you and others accuse me of being paid by the English Government for what I am doing. I can only answer that there is a God and he will pass righteous sentence. I have also heard that what Kitchener offers to me and others are considerede by you as signs of weakness on the part of the British. When you cornered fifty soldiers at Blaawn Bank, did the same to four hundred at Nostershoek and surround a small body at Rhenoster River, under a flag of truce and asked them to surrender, was it weakness or magnanimous on your part?

"The British are convinced that they have conquered the land and the people and they consider the matter ended and are only trying to treat those continuing the struggle magnanimously in order to prevent unnecessary bloodshed. Believe me when I tell you that no troops are sent from England, but thousands are still coming to South Africa. If you do not consider the Free State you will be insensible and act insensibly.

"Burghers, are you blind? Can you not see that you are being deceived by the Transvaal generals? What are they doing? They do not fight one-tenth part as much as we do. The Transvaal is not so much ruined as is the Free State. They are inclined to submit and are only waiting to see what you are going to do. The moment you surrender, fall or are captured, they will surrender. I pray you again to consider before you proceed further."

TORONTO MAY ENLARGE RADIAL RAILROADS

Toronto, Feb. 11.—There is a keen conflict going on just now in street railway circles regarding the proposed enlargement of the system to provide raidial railways for the districts around Toronto. Mr. Wm. Mackenzie is said to be strongly in favor of the expansion policy, while Mr. James Ross, of Montreal, who is said to hold a controlling interest, when supplied with the proxies of investors from the eastern city, is leading the opposition. The Metropolitan purchase has been hanging fire for some time because of the division of opinion. This railway is a very good suburban one and is well on the way to Lake Simcoe by way of Yonge Street, which, it will be remembered, is the old military road connecting Toronto with the northern lakes. The directors of the Toronto Railway held a lengthy session on Saturday afternoon and evening to reach a decision, but at the close President Mackenzie said there was nothing to give out.

CREEDS OF JUDGES ON BENCH OF ONTARIO

Toronto, Feb. 11.—In view of the plea being circulated for another Roman Catholic judge in Ontario, and the statement made by the Christian Guardian that there is no Methodist sitting on the higher Bench, the following statistics of the religious faith of the judges in Ontario are interesting:—Chief Justice Armour, Anglican; Justice Osler, Anglican; Justice Maclennan, Presbyterian; Justice Moss, Anglican; Justice Lister, Anglican; Chief Justice Meredith, Anglican; Justice McMahon, Roman Catholic; Chief Justice Falconbridge, Anglican; Justice Street, Anglican; Justice Lount, Anglican; Chief Justice Boyd, Baptist; Mr. Justice Ferguson, Anglican; Justice Robertson, Anglican; Justice Meredith, Anglican.

Of the fourteen judges eleven are Anglicans, one Roman Catholic, one Presbyterian, and one Baptist.

In the census of Ontario in 1891 the returns of religious denominations gave the information:—Methodist, 647,518; Presbyterians, 452,712; Anglicans, 385,999; Roman Catholics, 358,300; Baptists, 96,696. By a division per capitum the judges would be.—Anglican, 3; Presbyterians, 4; Roman Catholics, 3; Methodists, 5; and Baptists none at all. The cDpartment of Justice has not yet committed itself to the denominational test.

A CARPET FACTORY

CORNWALL NEGOTIATING WITH A FIRM FROM PENNSYLVANIA.

Cornwall, Feb. 10.—(Special.)—A public meeting of citizens has requested the council to submit a by-law to aid Richard Westwood, of Guelph, Ont., formerly of Philadelphia, Pa., to establish a carpet factory. He asked the town to give him a site, about 175 x 250 feet, not necessarily on the canal or river bank, exemption from all taxes, except school taxes, and to loan him $12,000 without interest, $2,000 would be paid back at the end of two years and $1,000 every year thereafter. With this $12,000 he would build a two-storey solid brick mill, 75 x 86, and finish its equipment. He estimated that he would have enough money left to start the factory and operate it. For security the town would have knowledge of how every dollar of the loan was spent and would also have a first mortgage on the entire property, Mr. Westwood would guarantee to expend $10,000 in wages, the first year, and at least $15,000 the next and each succeeding year. He would give employment to 40 hands in the second year.

SOME C.P.R. CHANGES

PLANS FOR REORGANIZATION IN MINING CENTRES.

Advices from Rossland state that a number of very important changes are contemplated in the staff of the Canadian Pacific Railway in the Kootenay and Boundary Creek districts. It is stated that the recent absorption of the Yukon steamship line by the C. P. R. has created a vacancy for a first-class steamboat man and in this connection the name of Captain J. W. Troup, who was at the company's headquarters here the other day is mentioned. Captain Troup has managed the railway and steamboat lines in the Kootenay and is regarded as a very capable man for the position.

Another very important change is also said to be engaging the attention of the company. This is the establishment of a new division under the direction of a general superintendent who will take charge of the Crow's Nest Kootenay, Columbia & Western and Boundary roads, with a district superintendent in charge of each.

At the present time general supervision over these districts is exercised by General Superintendent Marlpole, of Vancouver, but with the developments at the coast his hands are pretty well full. In connection with the new general superintendency the name of Mr. H. E. Beasley, formerly superintendent at Nelson, who has for the past year been chief clerk in President Shaughnessy's office at Montreal.

The C. P. R. is now handling double the tonnage of coal, coke and ore in the Rossland district that it was moving at this time last year.

REV. FATHER JAMES CALLAGHAN'S FUNERAL

REMAINS LAID BENEATH THE SEMINARY CHAPEL TO-DAY.

The last solemn services over the mortal remains of Rev. Father James Callaghan were held this morning, and now all that is earthly of a man who was respected and loved by his parishioners and associates rests beneath the chapel of the Montreal Seminary, on Sherbrooke Street.

Yesterday the body was taken from Hotel Dieu to Notre Dame Church, where the offices for the dead were said. The chief mourners were John Callaghan, the aged father, and his sons, Rev. Father Martin Callaghan, Rev. Father Luke Callahan, Mr. Thomas Callaghan and Mr. John Callaghan.

At Notre Dame many priests participated in the services, the seminary and the city churches being represented. Among the clergymen were Rev. Canon Dauth, representing the Archbishop, and Rev. Father O'Reilly and Rev. Father Girard, chaplains of Hotel Dieu.

This morning Notre Dame was filled again, when solemn requiem mass was chanted by Rev. Father Leclair, of St. Patrick's Church. The service was one of inexpressible solemnity, which was made the more so by the presence of His Grace Archbishop Bruchesi, Bishop Emard, of Valleyfield, Mgr. Raclot, and a host of clergymen, including Rev. Father Bernard, of St. Mary's Seminary, Baltimore, and Rev. Father Urique, of the Seminary of Philosophy, Boston, both of whom were personal friends of Father Callaghan.

Lemay, $45; Yamaska, L. J. Allard, $21; Quebec East, J. A. Lane, $673.

AN ENGLISHWOMAN'S LOVE LETTERS.

Toronto, Feb. 11.—Motions for injunction have been made before Sir William Meredith, Chief Justice of the Common Pleas Division of the High Court, on behalf of Morang & Co., proprietors of the English copyright in "An Englishwoman's Love Letters," to restrain Robert Duncan & Co. and J. Eastwood & Co., of Hamilton, from importing into Canada from the United States and offering for sale reprints of the work. The counsel on behalf of the defendants appeared and admitted that they had infringed Morang & Co.'s copyright, but claimed that such infringement was without wilful intention of violating Morang & Co.'s rights. Judgment was pronounced perpetually restraining the two Hamilton firms from importing or offering for sale the reprints, and directing that they should pay Morang & Co.'s cost of the action.

VAN WALDERSEE GROWS ANGRY

Commander-in-Chief in China Dissatisfied With Action of French.

Pekin, Feb. 11.—Count von Waldersee is very much dissatisfied with the conduct of the French troops near Pao Ting Fu and also with their avowed intention, in spite of his protests against it, to organize an expedition to take possession of the province of Shan Si. He takes the ground that expeditions, except for police purposes or against bands of robbers, should not be undertaken during peace negotiations.

General Ballou, the French commander at Pao Ting Fu, says that he is acting in entire independence of Count von Waldersee, and believes the wisest course to be to nip the incipient rebellion in the bud immediately. He asserts that he was attacked on three sides by a number of Chinese while out with a few men near Pao Ting Fu, and his theory is that the power of the foreigners should be shown, if possible, whenever an occasion arises.

A staff officer of Count von Waldersee's, who investigated the Pao Ting Fu affair, could find no evidence of such trouble as had been supposed. On the contrary, he believes there are grounds for supposing quite the opposite, although probably there, as elsewhere, considerable numbers of dangerous robbers infest the country districts. At next Tuesday's meeting the foreign envoys will consider the plans submitted by the military committee for the legation defences. A reply from the court is not expected until then at the earliest.

Li Hung Chang asserts that the Empress Dowager and Emperor Wang Su never had more harmonious relations than they have now, and that the former quite agrees to the necessity for modern reforms. He has telegraphed to the court his refusal to agree to sentences of execution "fraught with extreme danger and threatening the dynasty itself."

A PIANO EVENT.

The Heavy Discount Sale Now Going On In the Lindsay-Nordheimer Co. Warerooms.

People who profit by the great discount sale of high class pianos now going on in the Lindsay-Nordheimer Co. warerooms, can purchase a strictly first-class piano at from 20 to 33 1-3 per cent. off the regular prices. When it is considered that such pianos as Steinway, Hazleton, Nordheimer, Heintzman and Howard are being offered at these discounts, the sale presents an opportunity worthy the attention of every prospective piano buyer in Canada. A personal call solicited, or if out of town a postal card or letter will have prompt attention. City warerooms, 2366 St. Catherine Street. East end branch, 1622 St. Catherine Street, cor. ONTARIO LICENSE LAW

Toronto, Feb. 11.—According to the World, it has leaked out that the new license law which the Provincial Secretary will bring down in the Legislature on Tuesday next is to be chiefly a codification of the legislation of the past decade, with a number of detail changes acceptable to the trade. An inkling of this, the World says, having reached the temperance people, a deputation from the Methodist portion of them waited on the Government and asked it to introduce a prohibition bill for Ontario. The request, however, the paper declares, received a very chilly reception. A provisional conference of Ontario white ribboners, who are representatives of the W.C.T.U., with representatives of the Good Templars, Royal Templars, Sons of Temperance and other organizations, will be held at the Dominion Alliance offices on Tuesday to arrange for their plan of campaign.

GET LAND IN NIPISSING.

The Ontario Government have about decided that the soldiers to whom they intend to give grants of 160 acres of land as a recognition of their services in South Africa, will get the land in Nipissing. The Ministers are anxious to get the districts peopled and will exert their efforts to have the soldiers settle there. They will, in all probability have a large area to choose from. Friends of the Government are urging that no restrictions should be placed on the land to be given away to the soldiers who fought in South Africa.

WEAK LUNGS NEED CONSTANT CARE.

The Slightest Cough or Cold should be Promptly Treated by Dr. Wood's Norway Pine Syrup.

There are many people who have weak lungs and need to be constantly on their guard. The arch enemy of the race—consumption—is ever ready to pounce upon those who neglect coughs and colds, and claim them as its victims. Those who catch cold easily should never put off treating a cough in its first stages by the use of Dr. Wood's Norway Pine Syrup. It will not only cure the cough quickly, but the healing balsamic properties of the pine it contains will strengthen the lungs and help them to resist cold.

Miss Grace Lynch, Blackville, N. B., writes: "I have been troubled with coughs, colds and weakness of the lungs for a long time and could get no relief until I took Dr. Wood's Norway Pine Syrup which soon made a complete cure in my case."

IN THE AIR.

The Germs of LaGrippe are Conveyed Through the Atmosphere.

No one can escape the La Grippe germ because when an epidemic of the disease is prevailing the air is laden with it.

The reason everyone does not have the disease at the same time is because the persons who are enjoying perfect health are able to successfully resist and throw off the infection, while those, who for any reason are not in the best of health fall ready victims.

The first symptoms are those of acute catarrh, resembling a hard cold and if prompt treatment is applied at this time, it can easily be broken up; one of the best remedies at this stage is Stuart's Catarrh Tablets, sold by druggists everywhere and if taken freely, say one tablet every hour or two for two or three days, the danger of pneumonia and serious complications will be averted.

The Rev. L. E. Palmer, Baptist clergyman of Ceresco, Mich., makes a statement of interest to all catarrh and grip sufferers. He says: "Stuart's Catarrh Tablets have certainly been a blessing to me. I have used them freely this fall and winter and have found them a safeguard against La Grippe and catarrhal troubles from which I had suffered for years. I feel that I can freely and conscientiously recommend them."

Persons who suffer from catarrh of the head and throat are very susceptible to La Grippe and such will find a pleasant, convenient and safe remedy in this new catarrh cure.

Stuart's Catarrh Tablets are composed entirely of harmless antiseptics and may be used as freely as necessary, as they contain no cocaine, opiate or poisonous drug of any kind.

When Selecting a Watch

Begin with a movement that is constructed to run with lasting regularity. Do not buy a $50 case and put into it a $5 movement; but rather the reverse.

Although it is best that the case should be of a quality suitable to the movement, the purpose of a watch is to tell the time.

Our $90 Gentlemen's Watch for instance, is an open face 18 karat case, highly finished movement containing 21 jewels, fully adjusted to temperature and positions. Guaranteed in every respect.
