Premier Lesage Top provide funds for expansion

QUEBEC (CP)—The Quebec government will provide the province's universities with the money they need for expansion, Premier Lesage said Tuesday.

Mr. Lesage told the Legislative Assembly the government will borrow the needed money and repay it as well as the interest.

Up to now the province's six universities have borrowed individually with the government guaranteeing the repayment of the loans and the interest.

Daniel Johnson (UN—Baqet) said the assembly was witnessing the announcement of the death of the universities' autonomy.

Mr. Lesage also said he does not know when a universities commission will be created.

An unofficial one exists, he said, made up of himself, Youth Minister Paul Gerin-Lajoie and representatives of universities and classical colleges in the province. The commission's role would be to attend to the needs of Quebec's universities.

The assembly adjourned without a night sitting to give the cabinet a chance to work out amendments to a proposed new liquor law.

The bill probably will come before the assembly next Tuesday Mr. Lesage said. The House adjourns three days later for the Easter holiday.

Canada-US still at odds over new tariff proposal

By HAROLD MORRISON
 WASHINGTON (CP) — Canada and the United States have failed to reconcile their differences over a proposed change in the Canadian tariff structure that Americans fear may hurt their huge exports to Canada.

Commerce Secretary Luther Hodges said in interview the situation is not yet serious, but "it has the possibilities of becoming a large problem."

He was referring to the Canadian government's move to revise "class or kind" tariff definitions in a way which would give it greater power to decide the type of goods which could claim special rates of duty as being of a class or kind not made in Canada.

The opposition in Parliament has charged that the changes will boost tariffs on a wide range of imports, increasing prices to Canadian purchasers.

MAY REPLY IN KIND

Hodges and his colleagues are under pressure from U.S. manufacturers to block any Canadian tariff boosts. U.S. authorities said they are watching the situation closely. They suggested that if Canada takes action to boost rates drastically, the United States will have no alternative but to reply in kind.

However, Finance Minister Fleming, discussing the issue at a press conference Tuesday, said U.S. cabinet members have given no indication they plan any trade-import moves against Canada.

The issue came up at the two-day ministerial conference on trade and economic matters that ended here Tuesday.

With Fleming were Trade Minister Hees, Agriculture Minister Hamilton, Revenue Minister Nowlan and a group of deputy ministers and other advisers.

State Secretary Dean Rusk led a five-man team of U.S. cabinet members in the first major economic huddle between the two countries since President Kennedy took office.

The Canadian ministers later went to the White House for a 40-minute visit at Kennedy's invitation. One topic that came up was the president's visit to Ottawa next June.

The two-day meeting, the ministers ranged over the world's economic front, expressing hope that North America was finally coming out of the economic doldrums and urging

By FRASER WIGHTON
 LONDON (Reuters) — British Commonwealth leaders were reported to have reached a compromise which will allow South Africa to stay in the family of nations despite bitter condemnations of its racial policy, sources close to their conference said today.

Sources said the Commonwealth prime ministers still have to approve a declaration on that thorny issue, which has bogged down their talks for the last two days.

They said acceptance of South Africa's application for continued membership might be coupled with a declaration registering the strong opposition of the prime ministers to South Africa's policy of apartheid (segregation).

The reports that South Africa probably would be allowed to stay in the Commonwealth followed a sustained effort by British Prime Minister Macmillan to avoid a deep split among the member nations over the issue.

Commonwealth leaders temporarily put aside the South African question today and began a discussion of the situation in the Congo and Laos while a declaration was being drafted for their approval.

Macmillan's compromise plan called for continued South African membership in the Commonwealth when it becomes a republic May 31 but coupled this with a clear declaration of the opposition of other Commonwealth leaders to apartheid.

But South African Prime Minister Hendrik Verwoerd strongly defended his government's racial policy and said his country would not submit to any interference in its internal affairs, conference sources said.

South Africa's apartheid policy has been condemned by all 10 other prime ministers who have taken part in the debate. But Britain, Australia and New Zealand all have spoken in favor of retaining the country in the Commonwealth.

Macmillan met with Verwoerd this morning an hour before

St. Laurent 'Neutrals' favored Israel

MONTREAL (CP) — Canada was officially neutral on the formation of Israel as a nation "but we always knew which side our neutrality was for," former prime minister Louis St. Laurent said Tuesday night.

He told a supper launching an Israeli bond drive in Montreal that the successful rise of Israel as a nation is important not only to the middle east but to mankind generally.

The 79-year-old statesman was given a "man-of-the-year" award by Israel at the supper for exemplifying "leadership in mankind's noblest common cause, the welfare of his brother."

Mr. St. Laurent is the first recipient of the award, an engraved plaque. It will be given each year to "one outstanding Canadian... who typifies in his lifetime the high ideals of devotion to his fellow man."

Mr. St. Laurent told the supper that Canadians "have a life-long devotion to the ideal of universal brotherhood."

"And now, while I no longer speak for Canada officially, I am sure our neutrality does not prevent us from hoping that in the not too distant future Israel shall attain not only economic security... but also security in the right to live in freedom and democracy as a gallant and courageous people who have sought sincerely and very hard to achieve peace between themselves and their Arab neighbors."

The plaque presented with the award would recall "my good fortune at having had the opportunity to express for Canada, as prime minister, its joyful recognition of Israel's entry into the family of freedom loving nations and its best wishes for its enduring growth and prosperity."

3 bodies recovered

SUMMERSIDE, P.E.I. (CP) — Seven persons were still in hospital today, one of them in critical condition, as a result of a hotel fire which claimed three lives here Tuesday.

At the same time, most of this western Prince Edward Island town was without telephone service after the flames burned through key lines near the hotel.

Three bodies were recovered from the ruins of the 75-year-old Clinton Hotel but because of their charred condition positive identification was delayed. However, they are believed to be Kenneth Dorsey, 40, Moncton, Earl Higgins, 34, Cheshetcook, N.S., and Lorne Morrissey, Vernon River, P.E.I.

In critical condition with severe burns and other injuries is Albert Kearney of Charlottetown.

Transport troubles coming to a head

By ROBERT RICE
 (Canadian Press Staff Writer)
 OTTAWA (CP) — A ticklish series of far-reaching decisions vitally affecting the future of transportation in Canada soon will confront the federal government.

Between now and May 16, a bewildering array of transport troubles comes to a head—all promising some headaches for the cabinet.

Biggest trouble spot looms as the May 16 threat of a nationwide rail strike by 111,000 railwaymen seeking higher wages.

With the strike deadline casting a shadow on all else, the government must also face:

1. How to implement the major recommendations of the six-man MacPherson royal commission, whose report on transportation is due March 31.
2. What to do about an April 30 expiry date for the Freight Rate Reduction Act which earmarked \$35,000,000 over an 18-month period to combat the impact of the 17-per-cent freight rate increase of 1958.
3. When to lift a long-standing freeze on further freight rate increases, which has tied up the big railways' revenue position for almost two years.
4. What to do about a 12-per-cent freight rate increase still pending before the board of transport commissioners, a multi-million-dollar matter left in abeyance when the rate freeze was imposed.

Call Peace Corps 'crafty plot'

LONDON (AP) — After waiting two weeks to assess President Kennedy's peace corps, the Russians today denounced it as a "crafty plot."

Radio Moscow said a "second glance" at the American plan to send young volunteers into underdeveloped countries revealed "goals that are anything but selfless."

The Soviet commentator said any efforts of the peace corps to win a good name for the United States would be out-weighted by "the U.S. monopolies pumping billions of dollars out of the underdeveloped countries."

"One can say right now that the peace corps task is doomed to failure," the broadcast added.

LANCASTER, Pa. (AP)—Arnold Toynbee, 72, British historian, says he would join President Kennedy's peace corps if he were younger. "I think the British people would find it easier to live in primitive areas than would you Americans, but the idea is yours," Toynbee said Tuesday in an interview.

Suggests tests 'condition' U.S.

LOS ANGELES (AP) — Missiles should be tested over the United States so citizens would be psychologically conditioned in case of an enemy attack, an air force officer said Tuesday.

"The Russians have been testing over Russia for a number of years and apparently they have no psychological problem," Lt.-Col. Roy O. Roberts of the Air Force Air Research and Development Command at Holloman Air Force Base, N.M. told a press conference.

U.S. missiles now are fired over ocean corridors from Cape Canaveral, Fla., and Vandenberg Air Force Base, Calif.

Tell tricks of trade at London spy trial

LONDON (AP)—The spy trial jury in the Old Bailey listened raptly today as Scotland Yard described tricks of the trade straight out of a thriller film.

Testifying against three men and two women charged with stealing Royal Navy secrets and passing them to the Russians, a detective described a "spy nest" house in which he said he found:

- A radio transmitter, buried beneath rubble, capable of tuning in to Moscow.
- A secret compartment in a cigarette lighter that contained instructions for using the radio.
- Sets of "one-time" message pads made of a special material that dissolved as soon as it was put near heat.
- A list of code numbers, used for coding messages.
- A belt with \$300 sewed inside it.

The testimony was given by chief inspector Ferguson Smith, He and Supt. George Smith have been the only officers so far identified in a parade of counter intelligence agents testifying since the trial opened Monday.

The house described was that occupied by two of the defendants, Peter J. Kroger, 50, and his wife, Helen, 47, at Ruislip near the headquarters of the 3rd U.S. Air Force. The FBI in Washington has said their fingerprints are those of two Americans, Morris and Lola Cohen, former residents of New York.

The prosecution contends two British employees of the Portland naval research station, Henry F. Houghton and his fiancée, Elizabeth Gee, delivered details of the fleet and atomic submarine plans to Gordon A. Lonsdale, who in turn frequented the Kroger home.

Inspector Smith, telling of the raid on the Krogers' cottage, said:

"I found a trapdoor in the kitchen floor. Inside there was a heap of rubble. Underneath was a concrete cover about four inches thick. I lifted up the concrete and underneath it a board."

There, he said, was the radio transmitter with control setting charts, lenses and a tiny pocket camera, a film spool, receiving equipment, and \$6,000 in \$20 bills.

In the loft of the house, Smith said, he found more photographic equipment, two cameras and a 75-foot radio aerial.

Spain protests Sahara incident

MADRID (Reuters)—Spain today announced it has lodged an "energetic" protest with Morocco over the abduction of 11 oil prospectors in the Spanish Sahara last weekend.

Spain demanded the return of the oil men — who include at least two Canadians — and the punishment of the kidnappers.

The Moroccan Embassy here said Tuesday the men were abducted by desert tribesmen who raided and burned their camp. It said a Moroccan army patrol rescued them as they were being taken into Morocco.

Girl, 7 killed by bus

A seven-year-old Sherbrooke child, Carole Boutin of 1935 Galt Street, West, died about 9:30 a.m. today of a fractured skull and other injuries following a traffic accident.

She was hit by a bus at the corner of King Street West and Gordon Street, directly opposite the Sherbrooke War Memorial.

The child was taken to St. Vincent de Paul Hospital by Brien's ambulance.

Police identified the driver of the bus as Real Forget, 9995 McManamy Blvd. No other details of the accident were released by police.

Dr. Louis Gagnon, Sherbrooke district coroner, said that no date has been set for the inquest.

Granny given life term for forging \$38 cheque

HOUSTON, Tex. (AP) — A white-haired grandmother was sent to prison for life Tuesday for forging a \$38 cheque.

An all-male jury found Mrs. Myrtle Veronica Barber, 69, guilty of being an habitual criminal.

She put her head in her arms and sobbed at the verdict, returned 17 minutes after the jurors left the courtroom.

The prosecution offered proof that Mrs. Barber was convicted of forgery at Dallas in 1938 and here in 1955.

Job still open

EDMONTON (CP) — Interviewing a job seeker who said he had completed Grade XII, an Edmonton employer Tuesday got these replies to some questions:

"I can't name the premiers of British Columbia and Saskatchewan but Mr. Manning is premier of Alberta. Winnipeg is the capital of Ontario. St. John's is the capital of Nova Scotia. One-quarter of one-quarter is an eighth. No, one thirty-second."

The job remained open.

To study farm machinery prices

By ARCH MACKENZIE
 Canadian Press Staff Writer
 OTTAWA (CP) — Commons approval was given Tuesday night to renewed study of farm machinery prices, and a government spokesman said he hopes definite recommendations to follow will prevent further increases and possibly reduce existing levels in the cost of farm implements.

CCF Leader Argue said the objectives anticipated by Warner Jorgenson, parliamentary secretary to Agriculture Minister Hamilton, are laudable but perhaps too lofty to be achieved.

He and Jean Paul Racine, Liberal spokesman from Quebec's Beauce riding, complained of government delay in resuming the study—entrusted to the standing committee on agriculture, and limited last session to three sittings.

Today, Finance Minister Fleming was scheduled to table the last of the supplementary estimates in the government spending program for the year ending March 31.

ESTIMATES RECORD NOW

So far this year, the government has filed estimates totalling \$5,883,059,323 — a record. Federal spending in the next fiscal year starting April 1 has been estimated at a record \$6,730,328,182 before the addition of supplementary amounts.

Show Business

By BOB THOMAS

HOLLYWOOD (AP)—TV actors are purring out of the corals and private-eye offices to make movies. This is the season for it, now that the TV series are winding up their production year. So we find Chuck Connors planning to play Germino, Robert Taylor filming in Formosa, a flock of Warners cowpokes enacting marauders in the Philippines.

Richard Boone, the Have Gun, Will Travel man, is sticking out west. He'll be helping to play A Thunder of Drums out on the MGM range.

"It's a post-Civil War story," he says. "The character I play is a real great one—just as different from Paladin as he can be."

TOUGH NEW ROLE

Boone will portray a rough-tough cavalry officer who criticizes everyone in his command. Only at the end of the movie does the reason come out.

"This is the second film Boone has made since he started Have Gun, Will Travel. The first was The Alamo, in which he had a unique film deal.

"I never had a contract until about the time I was going to the premiere," he recalled. "John Wayne just asked me if I wanted to do it, and I said sure."

SIX HOURS' WORK

"I did the role of Sam Houston in two weekends, flying down to Texas from the series. I worked a total of six hours—two hours one weekend and four the next. The pay came out to \$4,000 an hour."

There had been rumors he was ready to lay down his guns and quit travelling, but he denied he would part with the series.

"I've already signed for a fifth year," he said.

ART EXHIBIT PLANNING COMMITTEE — Shown above are members of the Beta Sigma Phi discussing plans for the Art Exhibition, left to right are Mrs. N. Di Tomaso, Mrs. W. S. Richardson, Mrs. W. H. Black, and Mrs. S. Gray, president. (Record Photo by Gerry Lemay)

For the second year in succession Beta Sigma Phi is holding an Art Exhibition on March 18 in the Sherbrooke Social Club. The primary purpose of this art show is to stimulate interest in the visual arts in the community, and bring to the attention of the public all the wonderful talent there is in the Eastern Townships.

Visitors during the hours of 2 to 10 p.m. will be able to enjoy a display of oils, water paintings, ceramics, sculpture, wood carvings and enamelling all of which have been made by local people.

Beta Sigma Phi will turn over the proceeds of its Art Exhibition to the Child Welfare Clinic in order that the clinic may continue with its expanding program of dental work and medical attention and the supply of milk and vitamins to needy children.

Although Beta Sigma Phi has been associated with the work and financing of the Child Welfare Clinic since 1952 it is interesting to know that the clinic's history extends back to the year 1919.

At that time when war veterans were returning to pick up their civilian life a number of Associations banded together in order to help the more needy families of soldiers and sailors. Amongst these Associations were the Canadian Patriotic Society, the Canadian Red Cross Society, the St. John Ambulance Brigade and the Victorian Order of Nurses as well as a number of very worthy Sherbrooke citizens alive to the needs of these children.

The Clinic received its Charter in the year 1923 and a number of doctors aided by the V.O.N. carried on a Clinic which then operated one half day a week, their services were given free and all finances were borne by the Executive Board of the Child Welfare Clinic.

Throughout the pages of the Clinic's Minutes one finds the names of the ladies of Sherbrooke's older families most of whom gave up to twenty years or more of devoted service to this Clinic.

Over the years in a spirit of concern for and awareness of the needs of these less privileged children these fine women raised the funds and administered the Child Welfare Clinic, providing treatment for them in the way of medical examinations, patch tests, X-rays, drugs, baby care, surgery when necessary, hospitalization eyeglasses and dental care. One can well imagine the relief they brought to hundreds of parents through the depression years.

During the past eight years of Beta Sigma Phi's association with the clinic the group has concentrated upon provision of milk and vitamins to a total of 115 children per year in the English schools who would otherwise go without these vital subsidies to their diets. Through the co-operation of local dentists they have been able to give the best of dental care year round to children badly in need of this kind of treatment.

Last year in co-operation with the Junior Red Cross the Child Welfare Clinic was able to extend their dental care to Lennoxville and outlying districts. During the summer months a dentist was fully employed for six weeks and members of Beta Sigma Phi provided transportation to get the children into Sherbrooke.

All of this work is carried out in a spirit of co-operation between the Child Welfare Clinic, local dentists and doctors, school principals and nurses. With the support of the public it is hoped to uphold the fine tradition of the Child Welfare Clinic of Sherbrooke.

Area unemployment

Jobless figures drop in February

Unemployment in the Sherbrooke district dropped slightly during the month of February, E. Charette, Sherbrooke office manager of the Unemployment Insurance Commission said Tuesday in his monthly press report.

6 months for theft of car

A 34-year-old Sherbrooke man was sentenced to six months in Winter Street jail Tuesday morning after he pleaded guilty to a charge of theft involving a car owned by Raymond Proulx.

Eugene St. Pierre admitted he took the car but explained he was drunk at the time. Judge Edouard Boisvert imposed the six-month sentence because of the man's record.

Crown Attorney Benoit Turmel, Q.C., said the accused was found in the car, his head resting under the dashboard.

St. Pierre admitted in Court that he had previously been sentenced to two years in prison but added that he himself had asked the judge to send him to penitentiary.

The maximum penalty for car theft is 10 years.

The accused is married and the father of seven children. He is presently out of work.

Liberal opposition astonishes Allard

In a press statement discussing the steps taken by the federal government since 1957 to meet the textile crisis, Maurice Allard, Progressive Conservative M.P. for Sherbrooke, declared he was astonished at the Liberal opposition to the latest action of the administration.

The most recent step, he said, was to redefine the tariff regulations concerning a "class or kind not made in Canada."

Under the new law all merchandise which Canadians may produce "economically and within a reasonable period of time" may not be imported to provide unfair competition for Canadians.

"Apparently," said Mr. Allard, "the Liberal philosophy of free trade is opposed to such a restrictive measure. But the objective of the government is to protect the Canadian textile industry which is going through a difficult period and to relieve distress."

"I am convinced," he continued, "that at the present time it is wise to produce here a number of articles which are not being manufactured here or which are assembled from parts imported from abroad."

"I know for a fact that as a consequence of the tariff changes, some companies are prepared to produce automatic transmissions in Canada."

"The measure," concluded Mr. Allard, "is not designed to change a single tariff rate. Its sole purpose is to provide a single definition for this expression and to prevent undue delays on the part of the Tariff Board."

Quebec ships more asbestos

QUEBEC (CP) — A total of 1,055,272 tons of asbestos was shipped from Quebec province during 1960, up from 992,196 tons during 1959, the department of mines announced Monday.

During December, 1960, a total of 58,066 tons was shipped compared with 67,685 tons in December, 1959.

Gold shipments totalled 1,077,552 ounces during the year, an increase from 1,037,000 ounces in 1959.

Silver shipments rose to 4,466,311 ounces from 4,109,772 in the previous year.

Would run for mayor - Trudeau

Former Sherbrooke mayor Alphonse Trudeau will become a candidate for mayor this year if he is asked "by a delegation representing all classes of our society..." he announced Tuesday.

"Since I have returned to private life, I often see my name mentioned in the newspapers and spoken of as a possible candidate," he said.

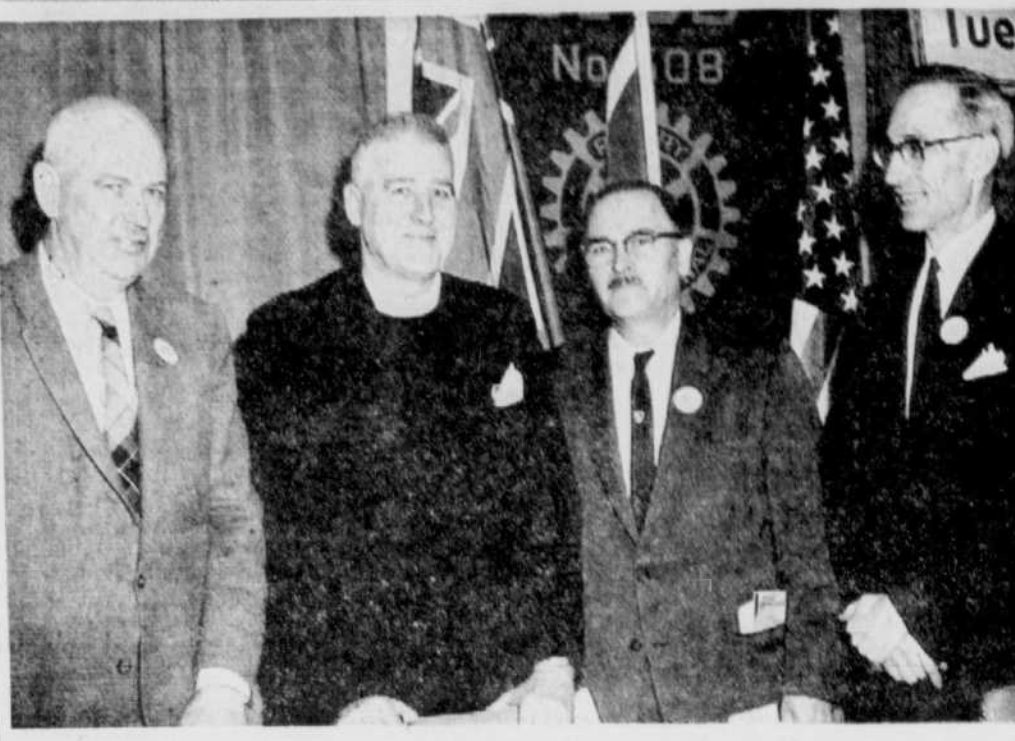

"I will not say no, but before answering in the affirmative, I would prefer to be asked officially."

There must be a change in the present municipal administration because they do not know how to live within their means, according to Mr. Trudeau.

In any event, candidates must be found who can offer the public acceptable qualifications and programs to replace the present mayor and aldermen when their terms expire.

Few facilities

PARIS (AP)—A statistics survey showed today that only 10 per cent of the homes have bathtubs or showers; only 60 per cent running water—and of these only 30 per cent hot water; and the average Frenchman uses only one fourth the toilet soap the average North American uses. The statistics were compiled by the housing ministry and leading manufacturers of soap and household plumbing.

Urges sympathetic understanding of people of British Guiana

A Sherbrooke minister Tuesday urged Canadians to have sympathetic understanding for the people of British Guiana.

Speaking to Sherbrooke Rotarians at their weekly meeting held Tuesday night the Reverend John Franklin, newly appointed rector of St. Peter's Anglican Church in Sherbrooke gave a vivid description of the South American country where he was a missionary for some time.

Mr. Franklin described the country geographically, and historically and told Rotarians about the people, their way of life and their industries.

"Although British Guiana is no great tourist resort its waterfalls, wild jungles, and its people have inspired great writers and artists from all over the world," he said.

British Guiana has a strange, "checkered history" Mr. Franklin said. Originally a Dutch Colony, British Guiana has a peculiar mixture of population. The population is made up of French, English, Dutch, Chinese, Portuguese, Negroes and East Indians.

"There is no color bar of any kind in British Guiana," Mr. Franklin said. "A man is accepted on his qualifications and his education. It is not uncommon to have an East Indian for a District Commissioner, a Chinese for the local doctor and a Negro for a judge," he said.

"It's just wonderful how such a cross section of so many, many races live together in such perfect, and peaceful harmony," he said. English is the accepted language.

"The Granary of the West Indies" is the name given to British Guiana as far as trade with other countries is concerned. Speaking on the country's economy Mr. Franklin said four-fifths of the wealth is from the sugar estates. British Guiana is also famous for its timber business and gold, rum, and diamonds.

Speaking on the political scene in British Guiana Mr. Franklin said, "Far away as this place may seem, their problems concern all of us as a Dominion. Keep a watchful eye on political affairs in British Guiana. Canada, as the oldest colony should give sympathetic help and sympathetic understanding to British Guiana."

The speaker was introduced by past president Bert Lyon and thanked by Errol Duval.

Rotarians were reminded that the annual spring conference is coming up on April 7. The conference will be held in North Conway, New Hampshire.

Would unite damage suits for purposes of judgment

Lawyers for Quebec Propane Gas Co. Ltd. Tuesday presented a motion in Superior Court asking that several of the damage actions taken against their company because of the explosion at Raby & Freres store on December 15, 1958, be united.

They maintain in their motion that those actions in which they and the two other defendants, Stanilas Grondin Inc. and Raby & Freres are named jointly, should be tried first and at the same time.

In this way, the degree of responsibility of each would be determined, facilitating a decision in those actions naming only one or two of the defendants.

Two persons were killed, 18 injured and an estimated \$300,000 damage caused by the 1958 explosion.

As a result, a total of 62 damage actions have been taken against the three defendants, either individually or jointly.

The Gas Company lawyers have chosen six of these actions which they consider representative of the rest and are asking that they be judged jointly and only these three may be judged before the others.

The six actions total \$225,335.19 in claims. Total sum of the 62 actions taken against Propane Gas is more than \$400,000.

Should each of these 62 go through regular channels, the interest of justice would not be served, according to the motion. The burden of court costs on their client, the defendant would be extremely heavy and unfair, the lawyers note.

Once a certain number of representative actions have been decided, the rest can be ruled upon in short order, they argue.

Justice Desmarais will hand down his judgment on the motion March 21.

Capelton has been without water since the town's regular source, a well belonging to Eugene Cote went dry.

The Carnation Milk Company heard of the situation and came to the rescue. A large tank of water was brought to Capelton and left there for the use of the residents.

The supply has been sufficient to cover the residents' normal needs.

Will stand trial at Assizes on total of seven theft counts

SWEETSBURG — (Staff) — Paul-Emile Bernatchez, charged with seven counts of theft, was ordered to stand trial at the 1961 Bedford District Criminal Assizes to be held in October.

Bernatchez was sent to the Assizes on the strength of a "voir dire" testimony on the part of 51-year-old Granby QPP head, Leopold Dauphin and 27-year-old Granby constable, Roger Gauthier, during Bernatchez's preliminary hearing Tuesday.

Mr. Dauphin was given permission by Judge Redmond Hayes to produce a confession Bernatchez signed sometime last February when questioned by police.

Charges against Bernatchez are as follows:

- Stealing \$50 cash from the Princess Restaurant in Granby November 21, 1959.
- Stealing a 1950 automobile radio May, 1960.
- Stealing \$3 cash from the soft drink cooler belonging to Moi Garden Restaurant in Granby.
- Stealing six automobile radiators from the Boucher Auto Parts Garage in Granby.
- Stealing \$7 cash from the Moi Garden Restaurant. Another charge of stealing \$5 cash from the Moi Garden April 11, 1960.
- June 2, 1960 stealing \$5.50 cash from the Moi Garden.

Marc Noiseux, of Freleighsburg and owner of the Champlain Hotel had his preliminary hearing postponed until next Tuesday when he pleaded not guilty to a charge of selling alcoholic beverages on a Sunday.

Leslie A. Gallagher, of Granby was fined \$25 and court costs when he pleaded guilty to a charge of filing his income tax report late.

A \$75 fine and court costs together with a three months license suspension was imposed upon Emile Lemelin, of Adamsville who pleaded guilty to a charge of impaired driving.

The incident occurred March 11 at Adamsville.

Edward Miller, of Granby was fined \$10 and court costs and was forbidden to drive in Canada for the next three months after he pleaded guilty to two Motor Vehicles' Act breaches.

He was fined \$10 and court costs after he admitted driving an automobile without a permit while the second charge for which the prohibition was imposed was for a hit and run accident which Miller admitted. Miller had already spent four days in jail.

A 21-year-old Ville Jacques Cartier man was given a suspended sentence by Judge Redmond Hayes Tuesday so that the youth would not have a criminal record against him for the rest of his life.

Pierre Hamel admitted to stealing an automobile belonging to a Mr. Benoit of Granby but told the court that he was intoxicated at the time.

"You took an awful chance," Judge Hayes said. "You will have to do something about drinking if it gives you trouble."

"I don't want you to have a record for the rest of your life. I thought of ordering you to post a bond to keep the peace but you are not working."

Business aid to education

The important reforms in the Quebec education system last week by Youth Minister Gerin-Lajoie and the appeal Monday by Premier Lesage that business increase its assistance to the cause of education are both part and parcel of the same problem.

Undoubtedly the educational system in this province could undergo modernization and improvement, a policy to which the new Government has committed itself. But any expansion of the Education plant will cost vast sums of money. As the cost of education to the student is lowered, the number attending institutions of learning at all levels will increase materially. This will throw additional burdens on educational administrators to provide new buildings and larger instruction staffs at the very time their revenues are being reduced by a cut in tuition charges.

This gap must be met from other sources. A large portion of the deficit will be financed by government contributions but apparently Premier Lesage feels that it is unrealistic to expect

the state to bear the entire burden. Thus he asks that industry, which benefits from the technological training given by schools and universities, should make some direct contribution to the provision of this training.

Many Canadian companies, large and small, have realized their position in this respect and have made funds available for educational purposes, especially at the secondary level, through various means — bursaries, contributions to capital expansion campaigns, grants for specific research projects, etc.

But others have not. And it is to this group that the Quebec Premier particularly directs his appeal.

Without clearly defining the respective places of government and business in the field of education, Premier Lesage indicates he believes it the responsibility of the state to provide its citizens with a basic level of general education. Companies and individuals receiving the benefit of specialized service should aid in the creation and maintenance of these facilities.

All-purpose flag

One of the problems that those who advocate a national flag for Canada find hard to solve is how to please all the groups in the country who want to be represented in some graphic form.

Of the many Canadian flag designers around, only one that we have heard of has come up with something that might be considered a solution.

Samples of his flag differ in one small respect. Some have a small crown on them; the rest do not.

Harmony Band Concert

Nearly 30 years ago, Sherbrooke's Harmony Band, then 45 years old, held an open air concert in Montreal. A crowd of 20,000 turned up.

Tonight, with the Band celebrating its 75th anniversary, members don't expect that many at their concert in the St. Charles auditorium. But they do hope for a full house. And they deserve it.

The crown, he explains, is "optional."

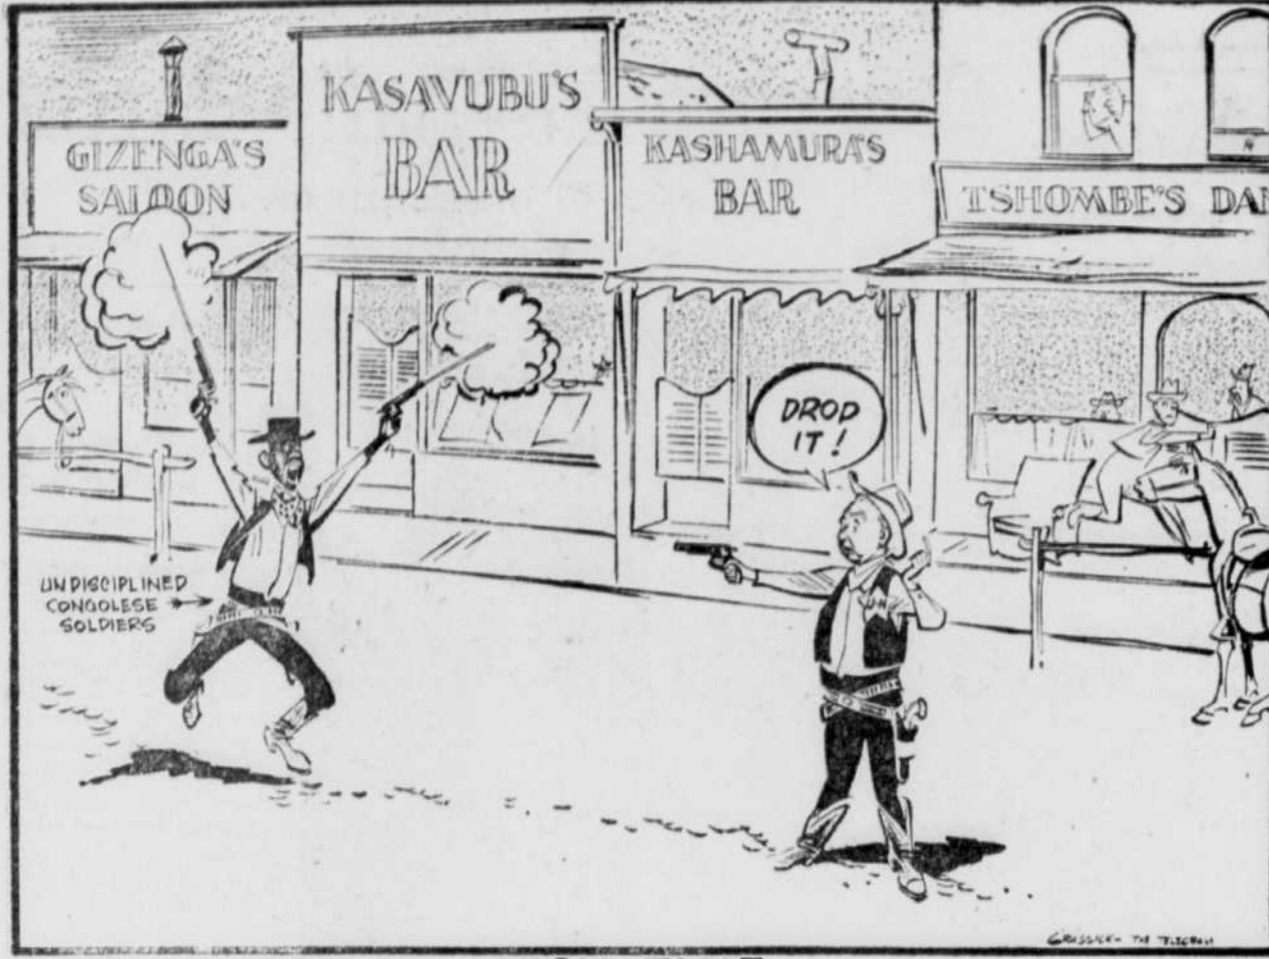

This device has all sorts of interesting possibilities. Could not a new Canadian flag come complete with a number of "optional" accessories in a kit.

In addition to crowns, there could be fleurs de lys, lions, harps, thistles, beavers, buffalos, stars, eagles, etc.

Add a needle and some thread, and you have it — an all-purpose distinctively Canadian flag that will please almost everybody.

Not only does the program warrant it (there's something for everybody, from classics to jazz) but so does the cause.

The concert, which starts at 8.30 p.m. is being sponsored by the Sherbrooke Rotary Club and proceeds are to go to the Sherbrooke School for Retarded Children.

Committee opposes 'Cherbourg' suggestion

Cut down on weird place names

By JOHN YORSTON
Canadian Press Staff Writer

QUEBEC (CP) — A small committee is enthusiastically whittling away at the bewildering array of place names dotted over the map of Quebec.

Such mouthfuls as St. Raymond - de - Pannafort - de - Weedon or La Visitation-de-la-Ste. - Vierge - de - L'Île - du - Pads make the task difficult.

The committee also would like unoriginal names such as Montreal South or Weedon Centre wiped out and English names such as Britannia Mills and Ascot Corner changed.

"We are not anti-English," Marc Hardy, the committee's publicist, hastens to add. "But this is a French province and we would like to see French names used to give the province a French face."

In its five years, the committee has been involved in more than 100 name changes. But, says Mr. Hardy, it does not care for change just for the sake of change.

A campaign has been started in the city of Sherbrooke to have the name changed to Cherbourg. But the committee is against the change because Cherbourg has no connection with Quebec while Sherbrooke is named for Sir John Coape Sherbrooke, governor - general of Canada from 1816 to 1818.

The committee steps in when there is an indication the community would like to obtain a new name. "We don't force ourselves on anyone," says Mr. Hardy, assistant-director of the provincial tourist bureau. "We

get out if we feel trouble will be caused."

The 10-member committee is sponsored by the St. Jean Baptiste Society and the Council of French Life in America. It has the unofficial approval of the provincial government which often seeks its advice.

Its method of operation is simple. When it runs across a name it feels could be changed to one more simple or more logical it approaches the community in question through the local branch of the St. Jean Baptiste Society.

If the municipality's council does not appear in favor of the change or if a fight appears shaping up, the matter is quietly dropped.

But once it gets the go-ahead the committee has an established formula for choosing a new name. First it studies the geography of the region for inspiration. Failing in this, it turns to history—local history first, then Quebec history.

"We are very careful and try to avoid controversy in choosing a name," Mr. Hardy says. The committee was involved in changing the name of Shawinigan Falls to plain Shawinigan. It supported the change on grounds that the Indian name Shawinigan just didn't match the English Falls.

The source of much of Quebec's collection of odd place names goes back to the first years after the British conquest of Canada. About 1792 British engineers began laying out the unsettled areas between the St. Lawrence River and the United States border, now called the

Eastern Townships. They gave English names to each of the townships they laid out.

In 1855 legislation was passed—it has since been abolished—requiring that parishes wishing to become municipal corporations contain the township's name.

In most cases the name of the township was simply tagged on to that of the parish. Thus arose Ste. Cecile-de-Whitton, St. Antoine - de - Padoue - de - Kempt and scores like them.

Many high Roman Catholic clergymen, including members of the committee, feel the names of saints have been abused in Quebec's place names too.

Abbe Jean Mercier, history professor at the University of Sherbrooke and described as the committee's "guiding inspiration," says there are a number of reasons why many names should be changed.

There are mailing errors made when letters are addressed to one of the 40 communities starting with "Notre Dame," or the eight Saint Pierres or the 22 St. Josephs.

There are also patriotic reasons and plain dollars and cents motives, says Abbe Mercier. Not only will thousands be saved in smoother mailing but "above all we must preserve and accentuate the French face of the province for the tourist trade."

When a tourist comes here he wants to see something different and too many of the place names are just those back home, he says.

FEWER SECRETS HELP ALL
(From the Financial Post)

Before it was drafted or put before Parliament, the new disclosure rules for foreign firms and unions, put forward in Bill C-70, were discussed with a wide selection of those affected, including both foreign and domestic officials. It seems unlikely, therefore, that giving the financial and other details that the bill requires will meet much opposition or create any difficulties.

The lack of information on foreign-owned subsidiaries and international unions has been a very serious gap in the knowledge Canadians have of their national affairs—and in the knowledge officialdom needs to have if it is to conduct national business wisely.

For instance, the Bank of Canada used to publish each year the comparative financial results of more than 700 Canadian companies by industries, based on published statements. The series was dropped, however, because no details were made public by such very large and important Canadian subsidiaries as General Motors, Chrysler Corp., Campbell Soup, Standard Brands, Swift Canadian, Procter & Gamble, Dow Chemical, Canadian International Paper Co., and Shell Oil Co. of Canada. The list includes many or most of the real giants in Canadian business.

In future, some reasonably significant and accurate picture of the whole Canadian economy and its directions will be possible.

Although some of the unknowns may be cleared up in regulations to be issued later, the bill appears to leave some gaps. It says nothing, for instance, about unincorporated branches. Its income account disclosure requirements specify nothing on royalties or "know-how" payments to parent firms.

The laws may appear discriminatory, in revealing such details from foreign-owned private companies, and not from Canadian-owned private firms. It also requires more detail on ownership than most public companies provide.

However, more and more companies in Canada—private and public—are coming to learn the advantages of reporting fully on their operations. This trend will be spurred by the new rules laid down in Bill C-70 because the largely imaginary and temporary advantages of secrecy will have been removed from the large segment of the nation's industrial community that is owned abroad.

Pure white insects living 6,000 feet above sea level in Antarctica have been discovered by Keith Wise, a New Zealander working for the United States Antarctic Research Program.

The insects—primitive "springtails"—were living under loose rocks at the head of a glacier near Mount Grant. This is the highest altitude at which insects have been found in Antarctica.

Besides springtails, Mr. Wise found a dozen small mites living nearby. What they live on is obscure, since no plant life of any kind was found in the area.

OVERBIDS GET ALL INTO ACT

South's jump to three clubs after his partner had passed his opening heart bid was an overbid but made with a reason. South suspected that East and West could get together in spades.

South's double of three no-trump was also an overbid, but he would have set the hand by opening a high club and shifting to the king of hearts, therefore West did well to run out to four diamonds.

As for North's four heart bid the less said, the better. True enough, his partner had bid very strongly, but North had no points and no singleton and no reason to believe that he would be able to ruff a diamond.

West held the first trick with the king of diamonds and led a second diamond to East's ace. East led a spade and South was in.

Needless to say, South wasn't happy about the whole thing, but he saw that there was one bit of hope. He played the king of trumps and sure enough West had to play his queen under it. East stayed off, but that did him no good. South led the seven of hearts to dummy's eight. East won and led a second spade which South ruffed. Now the ten of trumps furnished an entry to dummy to allow a club finesse. Since that worked and since the suit broke

Thriving West Berlin reports record output

By ALFRED KLUHEM

WEST BERLIN (Reuters)—West Berlin, with a thriving but still subsidized economy, reported a record industrial output recently while simultaneously the city labor office recorded an all-time low level of unemployment since the Second World War.

The city's industry was dismantled or war-damaged to 80 per cent after the war, and reconstruction efforts were crippled further by the Soviet blockade of 1948-1949 and East German harassments on the communication links with West Germany.

As a result, West Berlin once had the highest number of unemployed in West Germany, and its industry took a much longer period to recover and set out in pursuit of the West German "economic miracle."

The main impetus to industrial recovery came from generous aid from West Germany and abroad. West Germany, apart from subsidizing the city budget, also bears the financial risk arising from political conditions facing the city from surrounding East Germany.

Direct and indirect subsidies include tax preferences for West Berlin firms and for West German firms placing orders here, guarantees for loss of orders or goods due to political measures, and subsidies for such vital

foodstuffs as potatoes and milk, and for coal.

But in spite of this outside help, the measure of recovery from practical non-existence at the end of the war is regarded as remarkable by Western observers here.

The record month for industrial output was last September, with 935,800 West German marks (about \$233,950,000), an increase of 15.3 per cent compared with August. In October, there was again a seasonal reduction to 883,700 West German marks (about \$220,925,000).

The West Berlin statistical office has announced that during the period from January to October, 1960, the over-all industrial output was 38.2 per cent higher than during the corresponding period of the previous year.

In the wake of the boom came near full employment which no one here had dared to forecast only 10 years ago, when West Berlin had 300,000 unemployed in a total population of 2,250,000 people.

But for last September, the unemployment reached an all-time low record of 19,217 while there were 18,800 vacant jobs.

Canada plays key role

Seek pact for narcotics control

By JOSEPH MACSWEEN
Canadian Press Staff Writer

UNITED NATIONS (CP)—Canada has been "precipitated into prominence" at a 77-country conference working on a single treaty for the international control of narcotics.

While world headlines are made by the United Nations General Assembly, delegates to the narcotics meeting strive with little or no publicity for a simple law to fight one of mankind's most terrible scourges—addiction.

Canada, while having an addiction problem of its own, has become recognized as a country without any axe to grind but has worked diligently through the years for a workable international convention on narcotics.

"That is why we've been precipitated into prominence at this conference," said R. E. Curran, legal adviser for the de-

partment of health and welfare, who heads the Canadian delegation. He's assisted by K. C. Hossick, chairman of the UN narcotics commission, and R. C. Hammond, chief of the narcotics control in the health department.

There now are no less than eight multilateral narcotics treaties, evolved in various conferences that began in 1909, and Canada is a member of them all. The best parts of these will be pulled together in the new treaty which also will form an international control board to supersede existing bodies.

"I'm satisfied that the conference will accept the text of the treaty because no one can afford to let the conference fail," said Curran in an interview.

But Curran, chairman of the drafting committee of some 15 countries, could not be sure that

it will be ratified by all the countries represented at the conference, which range from the Soviet Union to the Vatican.

"Canada has tried to eliminate clauses which some countries might use as a legitimate reason for not signing," Curran declared. "We want a simple text—I stress simplicity—and elimination of roadblocks."

In the past, treaties failed ratification by countries including Russia and Mexico because they called for "mandatory embargo" against offending nations. A similar result flowed from a treaty demanding "local inquiry" against offenders. Some countries regarded this as interference with sovereignty.

Such clauses were eliminated from the new draft by an overwhelming vote, in which Canada joined such countries as Britain, Russia and the United States in voting with the majority.

Canada has some 3,000 narcotics addicts, concentrated mostly in Vancouver, Montreal and Toronto with some in Winnipeg, but boasts a domestic legal control system "second to none," Curran declared. This is another reason for the respect accorded Canadian views.

The United States, with a much weaker control system for narcotics moving from legal to illicit sources—as well as the entirely illicit—has counted 60,000 addicts but probably has many more, conference sources say.

An essential aim of the conference — which deals primarily with "natural" narcotics such as heroin, cocaine and marijuana rather than synthetics—is to limit supply strictly to medical needs.

"The keystone is the limiting of production to what is needed — if there were no more, there would be no addiction as we know it," Curran said.

Under the treaty terms, countries will be required to state their needs in advance and the supply will be closely watched by the international board, which will have the right to call on a country for further information.

Chief weapon of the board will be publicity against an offender — publicity through UN agencies up to the 99-member General Assembly.

Prince Albert's name lives on

By FRASER WIGHTON

LONDON (Reuters) — Few famous figures of British history live on in as many visible memorials as Prince Albert, consort of Queen Victoria, who died 100 years ago this year.

Hundreds of roads, institutions and public buildings throughout Britain, including the Royal Albert Hall and the Victoria and Albert Museum, keep his name in the currency of 20th-century conversation. It also is perpetuated in place names throughout the Commonwealth.

But transcending all these tangible memorials in importance is the impact, still living on, which this German prince made on the land to which he came as a stranger.

In the words of one author, the prince consort with his wife established a new moral tradition for both monarchy and nation, a tradition which strengthened Britain and saved its throne when so many others fell.

In Brave Men Choose (Blandford Press, London), the author, Garth Lean, paints an intimate portrait of the prince whom Queen Victoria married in 1840, and after his death in 1961 mourned for the rest of her long life.

This biographical work, about a group of men who changed the shape of Britain in their age, tells how, when the prince consort died, "the Earl of Orford put on his gayest clothes to mark his joy that one more foreigner was out of Britain."

Upon this incident, the author comments: "The remarkable thing was that so few agreed with this eccentric Norfolk nobleman. For the German prince, who had been Britain's real ruler for 21 years, had begun by having his allowance insultingly cut by Parliament, and only seven years before his death had been called traitor by most of the British press."

"Yet, by the day he died, he had won a unique position of respect as well as of power."

"His encouragement of science and industry set a fashion which had grown in importance every year. His part, during his last illness, in averting war with America has made easier the alliance of modern times. His care for the working classes—a new thing in British royalty—has become the mean for all his successors."

When Albert reached London for his marriage, "grave, handsome and 21," he found "the Queen, though in love with him, was controlled by a closely-knit power ring."

"This ring—the principal elements of which were Lord Melbourne (then prime minister), the Paget family and Baroness Lehzen—managed almost every detail of her public and private life."

"Albert chose quietly to set about winning the Queen's confidence as he had won her love, taking interest in public affairs, not out of ambition but for her sake. Throughout his career, he was always ready to take second place, and to see his ideas

attributed to others."

Albert moved steadily forward as month succeeded month, says the author, and eventually won the respect and friendship of the prime minister.

When Prince Albert died in 1862 of typhoid fever, a major political force was removed, as Albert comments, adding: "His immense application and knowledge of every branch of government gave him a unique authority."

"By now the monarchy, which seemed too insecure when Albert came to England, was firmly based in the people. As one of the first statesmen to work for the welfare of a whole people, irrespective of birth, wealth and influence, Albert had turned, both naturally and deliberately, away from complete dependence on the nobility to the middle classes and the masses. . . . All future sovereigns were to follow him in an equal interest for all classes of the nation."

Letter To The Editor
Dear Sir:

Following is an open letter to the Minister of National Defence which you may care to carry in your letters to the editor column, or on your editorial page.

Dear Mr. Harkness:

I have been greatly disturbed by the tenor of many of your recent public and semi-public attacks upon those Canadians who do not agree with your de-void desire to quicken Canada's descent into the nuclear arms morass.

I find it revolting and terrifying to observe a Minister of the Crown debasing himself, his office, and the concept of democratic morality for which he stands, and I also trust that the general public will not tolerate further resorting to calumnious slighting of other men's honest convictions.

There is no point in speaking nicely about these things. Nice-ly has little place in a situation where innuendo and con-

tumacious implications are deliberately used to persuade the public that those who stand for immediate nuclear disarmament, and for disengagement from the world powers which rely on nuclear diplomacy, are soft-headed pacifists if not something far more sinister.

I consider that some of your recent speeches and press releases represent an incipient and reprehensible assault upon the convictions and characters who do not agree with your de-void desire to quicken Canada's descent into the nuclear arms morass.

Bishop presides St. Peter's rector inducted in ceremony

St. Peter's Church opened a new chapter in its history Mar. 12 when the new rector was inducted by the Lord Bishop of Quebec.

The service began with the singing of solemn Evensong. The Lessons were read by the Rev. R. Jervis-Read and Archdeacon T. J. Matthews, and the Rev. Charles Mitchell acted as Bishop's Chaplain.

After the anthem the Bishop moved to his chair at the choir entrance, where Rev. John Franklin took the customary oaths and declarations.

H. W. Baugh, the People's Warden, then read aloud the Bishop's Mandate, and Mr. E. F. Grigsby read the Bishop's License, and these documents together with a Bible and a prayer book were handed to the new rector as he knelt before the Bishop.

The Church warden then handed the church keys to the Rector with the words "in token that we acknowledge you as lawful Incumbent of this Parish."

The Rector was then placed in his stall by the Archdeacon accompanied by the Wardens, after which the Rector was escorted to the baptismal font, the pulpit, the lectern, and to the High Altar, where at each station prayers and exhortations reminded the new rector of his duty to baptize, preach, lead the prayers, and frequently celebrate the Holy Communion.

The Induction thus completed, the sermon was preached by the Rt. Rev. Russell F. Brown, Lord Bishop of Quebec.

As a former Rector of St. Peter's, the Bishop paid tribute to the ministry of the Rev. Guy Marston and the late Canon Bigg, and expressed his own pleasure at returning to St. Peter's Church for this service.

Following the service, a reception was held in the Memorial Hall when members of the congregation had an opportunity to meet Bishop Brown and the new rector.

This reception was arranged by the St. Faith's Guild, the Women's Auxilliary, and during the evening tea was poured by Mesdames Baugh and Grigsby, Mrs. Neville (President of WA), Mrs. C. Abbott (President of St. Peter's Guild) and Mesdames Rice and Taylor, officers of St. Faith's Junior Guild.

Activities for Education Week at Knowlton interrupted by storm

KNOWLTON — One of these activities held in connection with Education Week, was Parents' Night at the High School. Parents and teachers assembled in the auditorium, where they were welcomed by Principal J. L. MacKeen.

Under the direction of A. Wild, a group of Grade 8 pupils presented the play, The Happy Journey, by Thornton Wilder.

Following the play, parents visited teachers in their classrooms, where exhibits of school work were on display, through-out the school. These included, art exhibits, woodwork, biology and chemistry displays etc.

Thursday was set as a most important day for the students, but owing to the severe storm, the High School had to be closed. Mrs. Orrin B. Rexford was to speak to the pupils of Grades 1-3, with Principal MacKeen addressing pupils of Grades 4-7.

Pupils of Grade 9 Preparatory, Grade 11 and Commerce, who are likely to enter the business and industrial world were to have been conducted by bus to Cowansville, where they would have visited the Bruck Mills.

Prospective teachers were to observe instruction in Grades 2-5.

On March 10, J. Hand of South Bolton gave an illustrated lecture on Eskimo art to pupils of Grades 4-7. He also had many interesting exhibits on display.

In the afternoon, the K.H.S. Band left for Sawyerville, to perform a concert.

The dispute now has become the lengthiest of any conference of Commonwealth leaders. The prime ministers already had debated the subject for 12 hours when today's session began.

Conference sources said Macmillan delivered "an earnest and moving speech" Tuesday in which he strongly criticized apartheid but argued in favor of keeping South Africa as a Commonwealth member.

But the strongest criticism of South Africa's racial policies came from Canadian Prime Minister John Diefenbaker and the leaders of the African and Asian Commonwealth countries — India, Pakistan, Ghana, Malaysia, Ceylon and Nigeria.

Verwoerd was told to decide whether his nationalist government can agree on a declaration of principles outlawing racial discrimination.

The declaration is understood to be in line with the declaration of Commonwealth rights — not yet in written form — which Diefenbaker has long sought to establish.

At one point Tuesday, Verwoerd came up with a declaration of his own. This was promptly slapped down. Diefenbaker said in effect:

"This is nonsense. We can't accept a veto from one member. It is up to him (Verwoerd) to decide on the basis of the will of the majority."

The conference well behind schedule the South African issue Monday and turned Tuesday to a discussion of the situations in The Congo and Laos.

Conference sources indicated the conference might continue until early next week, instead of ending Friday as originally scheduled.

The Commonwealth leaders today welcomed the latest member of their group — Archbishop Makarios, the Cypriot president, who flew here Tuesday after the conference had voted Monday to admit the Mediterranean Island as a member.

Mr. Farmer, who was 79 years of age, was the second son of Alonzo Farmer and his wife Carrie Seymour. He was married to Katherine Reynolds in Worcester, Mass. in 1913. Following their marriage they lived in Worcester for several years, later moving to Knowlton.

Mrs. Farmer died in July, 1956. He is survived by three daughters: Sister Catherine (Reverend Sister of the Sacred Heart of Jesus); Lorette, Manitoba; Eleanor (Mrs. Norman Marchand) Arlington, Mass., and Mary (Mrs. Lawrence Richard) Knowlton; three sons, John and Francis of East Montpelier, Vt., and Lawrence, Swetsburg.

Two sons-in-law, and one daughter-in-law, Mrs. Lawrence Farmer, and five grandchildren James and John Rheaard, Michael, Catherine and Mary-Lynn Farmer; two sisters (Jennie) Mrs. J. Thompson, Barre, Vt., and (Bertha) Mrs. G. Miller, more, Drivher, Sask.

The bearers were John, Francis, and Lawrence Farmer, Norman Marchand, Lawrence Richard and Irwin Chamberlain. Interment was in the Roman Catholic Cemetery, Wheeler Hill, Knowlton, with Rev. Father Jodon officiating.

Among those from a distance to attend the funeral were Mr. and Mrs. Maurice Winston, Barre, Vt.; Mr. and Mrs. Winston Lawson and sons, Newport, Vt.; Mr. and Mrs. K. Mr. and Mrs. Fred Rumsby feted at Iron Hill on 25th anniversary

IRON HILL — Mr. and Mrs. Fred Rumsby were pleasantly surprised on March 7, by about 60 guests, who helped them celebrate their 25th anniversary.

Mr. and Mrs. Percy Howard had invited the Rumsbys to a special dinner at Jenne's Restaurant, in Cowansville, while the guests were gathered in Holy Trinity Church Hall. The hall was decorated with spring flowers, streamers of silver and white, and white bells.

On arrival the guests of honor were conducted to a place of honor where they were presented with corsages and received congratulations from all.

The celebrants were then escorted to a large table, which was decorated in silver and white, with white bells suspended over it.

A three tiered anniversary cake, made by Mrs. William Rusbridge, and decorated by Mrs. June Williams, of Sweetsburg, centred the table and was flanked by candles in silver holders.

Refreshments were in charge of Mrs. Andrew Howard and Mrs. Gordon Rumsby, assisted

by the young ladies of the parish.

Seated at the head of the table were Mr. and Mrs. Rumsby, Mrs. Minnie Rumsby, mother of Mr. Rumsby, Mr. Oswald Williams, of Waterloo, father of Mrs. Rumsby, and Rev. Mr. and Mrs. Davidson.

After refreshments, Mr. Davidson presented the honored couple with a chest of silver and a box of chocolates.

Mr. Rumsby voiced the appreciation of himself and Mrs. Rumsby for the gifts, and all for coming, and who were responsible for making the occasion a memorable one.

The decorations were in charge of Mrs. Andrew Howard, Mrs. Percy Howard, and Mrs. Gordon Rumsby.

Attending from a distance were Mrs. Floyd Williams, of Foster, Mr. and Mrs. Humbolt, of Sweetsburg, Mr. and Mrs. Keith Wilson, Foster, Mr. and Mrs. Jesner Rumsby, of Cowansville, and Mr. and Mrs. Bruce Rumsby, of East Farnham.

Bury Rebekahs resume meetings after two months

BURY — Alexandra Rebekah Lodge met in the lodge rooms on March 7, after having been closed for two months.

Several thank-you letters were received, and a notice that the Assembly will be held in Sherbrooke.

A letter from the planning Board announced its projects, the chief one being the library at the Camp for Crippled Children, to be opened on April 1. It also contained information of the new film on the United Nations, and a proclamation of the five dates to observe during the year.

The official report was received and contents noted.

A two-minute silence was observed in memory of Sister Lily MacLeod, who passed away recently and the charter was draped with suitable ceremonies in her honor.

Information on the Peace Garden was read and suitable memorials suggested along with an appeal for assistance. Members were also asked for articles for the exchange table at the Assembly in Sherbrooke in May.

The members signed a card to send to an absent member.

The drawing donated by Sister, Eva MacRae, was won by Sister Winnie Buchanan.

The financial report was heard and a bill for flowers ordered paid.

Farm Forum Activities

BEDFORD

The Farm Forum met on March 8 at the home of Mr. and Mrs. L. Bernier, with Mr. Bernier, chairman.

The topic was, Loss with farm machinery. A prolonged discussion was held on the subject which resulted in recommendations being made, to be forwarded to the House of Commons committee on agriculture.

It was recommended that every effort be made to have more farm machinery designed and manufactured in Canada by Canadian engineers and manufacturers; also that the employment of Canadian labor would help to alleviate the unemployment situation.

It was decided that another in the series of card parties, which the Farm Forum is sponsoring will be held on the evening of March 18 at the home of Mr. and Mrs. Neil Creller, in Stanbridge East. The purpose of these card parties is to raise funds for a bursary, to be forwarded to a student wishing to attend an agricultural college.

A successful card party was held on March 4, at the home of Mr. and Mrs. L. Bernier near Frelighsburg, when \$50 was played at ten tables. The prize for the ladies' highest score went to Mrs. Clifford Rhiard, and the gentlemen's to Neil Creller both from Stanbridge East. Consolation prizes went to Mr. and Mrs. Hannibal Sheltus.

Since it was the birthday of Mrs. Herman Reil she received congratulations and a birthday cake to mark the occasion.

The meeting concluded with the serving of refreshments by the hostess.

THIRD RANGE

The regular meeting of the Farm Forum was held at the home of Mr. and Mrs. Lemuel Clark on March 6 with 12 present. After the Greenleaf was read and the broadcast listened to, the questions were discussed on the topic, Profit or Loss with Machinery.

It was decided that more standardization of machinery is needed. If the trend towards standardization continues as at present the farmers would be satisfied.

To the question, what recommendations do you have for the House of Commons Committee on Agriculture and Colonization, which we could pass along, the group felt that more information was needed on this subject.

As to other opinions on the cost of farm machinery, the decision was the price of machinery is too high compared to the farmers' income.

Following the discussion period cards were played at three tables, after which refreshments were served by the hostess.

Nine Easy Hops Around the World was the theme of the Women's Missionary Prayer Group meeting held at Grace Chapel on Monday evening.

The members of the executive, under the direction of Mrs. A. C. Hill gave an inspiring missionary review. A luminated globe of the world centered the table and after the singing of the hymn, "I Love To Tell The Story", each speaker lighted a candle, symbolizing the light of the Gospel as she presented her report of the work for Christ being done in the far corners of the earth.

Mrs. Arnold Baker reported on the Far East and Laos, Mrs. W. J. Klinec on India, Miss C. Bernard on Israel, Mrs. Shufelt on Korea and Formosa, Mrs. Ruby Cutler on Europe, Mrs. Tucker on Cuba, and Mrs. H. A. Hill, speaking on the needs of our own Country, stressed the responsibility of each individual in furthering the cause of Christ here at home. It was concluded that, though the environments and material needs in all these countries are different, yet the spiritual needs are the same, and the saving power of the Lord Jesus Christ is the basic answer to the problems of the world today.

During the business meeting it was announced that the annual At Home this year would take the form of an afternoon and evening Missionary Conference to be held on May 6th. The main speaker will be Mrs. E. A. Harlow, wife of the well known editor of Fields Magazine. Other missionaries, who are home on furlough, will also be present.

A time of social fellowship, during which refreshments were served, brought the enjoyable evening to a close.

The president thanked the members for their assistance at the bridge making special mention of Mrs. W. Johnson and Mrs. G. Stoddard, who were joint conveners.

The secretary was requested to send a letter of thanks to the Board of Directors for the new sinks which had been installed in the kitchen. New supplies for the kitchen are to be ordered by the treasurer. A tea pot and wall can opener were donated by Mrs. W. Girling for which she was thanked by the president. Mrs. Girling was appointed on the house committee to be assisted by Mrs. P. Richard.

Parents: groom children to step into your shoes

"The greatest inducement to any advantages in the adult world."

growth in children is the privilege of being around exciting parents—parents who help kindle desire in children by enjoying themselves as 'whole' adults.

"It is no sign of health to expect providence, creature comfort, or special schooling to give the child an appetite for adult roles in life when, as the child can plainly see, these roles are not particularly enjoyable to the adults themselves."

Those two sentences from the new book, "The Importance of Being Imperfect" by John Robert Clarke, ought to make a lot of parents take a closer look at themselves and at their children.

When we buy junior a car in high school and get sis her first evening dress at age 14—aren't we actually saying, "You don't need to wait to grow up to have adult privileges. You can have them right now—without adult responsibilities."

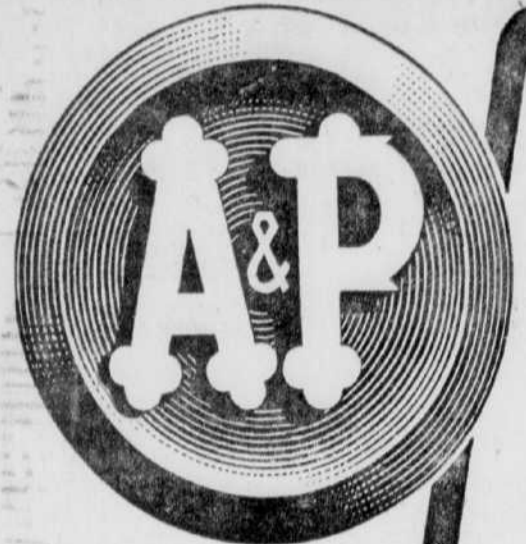

We're saying the same thing when we let them start going steady in junior high or racing around at night without letting us know where they are, when we fancy up their rooms with their own TV sets and their own telephone, when we say "How much do you need?" rather than "Here is what you can have" when we hand out money to them.

And all the while that we are making their lives carefree and easy—we are complaining about our own lot. We're overworked, burdened with taxes, disillusioned with politics, bogged down with responsibility. We even sometimes go so far as to say to teenagers, "This is the happiest time of your life."

So why should they want to grow up and enter the adult world when as children they can have most adult privileges—without any adult responsibility?

We had better think about this—and seriously, too—before we turn into a nation of adults who wish they were children and of children who don't see

HOW YOUR LIVER BILE HELPS BREAK DOWN FATS IN THE DIGESTIVE TRACT

Laboratory tests have now proved that liver bile emulsifies fats... actually breaks them down. It is an established fact that when liver bile is added to fatty solids, the fats are broken down and form a smooth, easy-flowing mix.

In your digestive tract, liver bile helps break down fats the same way. Many of the foods you eat reach the digestive tract as undigested fatty solids. Your golden liver bile helps break down these fats... for easier and more complete digestion.

Carter's Little Liver Pills' exclusive formula of vegetable ingredients relieves irregularity gently and effectively. At the same time, it actually improves the flow of liver bile needed to break down fats in your digestive tract.

So when you feel sluggish, head-achy, nervous and need a laxative, take Carter's Little Liver Pills. Remember, Carter's not only relieves irregularity, but actually improves the flow of liver bile. Get Carter's Little Liver Pills today!

Ken Watson's Curling Wild West Won Better Briar

When Canada's annual curling classic hit Cowtown last week it celebrated the thirty-second renewal of what the faithful reverently call "The Briar."

Originating back in the days when the "cut plug" was still found on the tobacconists' shelves, this single rink competition emblematic of Canadian curling supremacy was held for 13 long years in the palatial Granite Club in Toronto and for the same 13 years staid old Hogtown didn't know it.

The crowds in those early days were meagre at best and after a week's play, when the new champions were crowned the write-up in the sports pages of "The Toronto Telegram" rated only one column treatment that might be located eventually with a powerful magnifying glass.

In 1910, yielding to vehement pressure of Western delegates, the Briar trustees finally agreed to exhumate the championship from its mouldy repose in the Toronto graveyard and start it in circulation.

Winnipeg was selected as a likely site to apply artificial respiration and when 5,000 fans turned out to witness a clash on the final draw between Howard Wood, the Manitoba champion, and the great Cliff Manshan of Edmonton, the Curling Cavalcade (after paying one more dutiful courtesy call to the fabulous Granite Club in 1941) was on the road to stay.

One last colorful stand was made within the ancient citadel of Old Quebec in 1942, where the ceremony and pageantry were eye-filling but the ice conditions a nightmare. Then the demands of World War II called a halt for three years.

Ingemar Johansson Gets Another Belting, This Time US Government Slugs Him With \$1,000,000 Tax Claim

MIAMI BEACH, Fla. (AP)—Sweden's Ingemar Johansson, belted by a \$1 million tax claim, was scheduled to battle another round with the U. S. government today while Floyd Patterson headed home to figure out whom he is going to slug next.

The heavyweight champion, a knockout conqueror of the big Swede in the sixth round Monday night, probably will face England's Henry Cooper in New York next June or September.

Sonny Liston of Philadelphia, Eddie Machen of Portland, Ore., and other contenders have been mentioned as possibilities. But Cooper, unbeaten in his last seven fights, is understood to have the inside track if he gets by Welshman Joe Erskine in London next Tuesday night.

Johansson had hardly recovered from his kayo defeat when Uncle Sam tossed another financial haymaker at him. This time the man with the beard demanded another \$411,620 for 1961 to go with a back tax claim of \$598,181 for 1959 and 1960.

MAN DEPARTURE In addition, the U. S. immigration service handed Ingo an order temporarily banning his departure from this country. He probably will lounge around in the sun at Palm Beach for a week or so.

The 28-year-old businessman, fighter was subpoenaed for a U. S. courthouse appearance at Miami today. The government action was aimed at tying up any funds Ingo may have received in advance as well as money promised him by Fea-

Patterson May Meet Cooper In Los Angeles

LOS ANGELES (AP)—Boxing promoter George Parnassus has bid for a heavyweight title match in Los Angeles between world champion Floyd Patterson and British Empire titleholder Henry Cooper.

Parnassus said he has wired managers of both fighters. He proposes a June or July date in Los Angeles.

Sam And Cards To Play Argos

TORONTO (CP)—Quarterback Sam Etcheverry and St. Louis Cardinals are coming here to play Toronto Argonauts in a pre-season exhibition football game the night of Wednesday, Aug. 2.

The game will mark the debut of Etcheverry, the former great Montreal Alouettes quarterback, as a National Football League player. The Cardinals signed him in January as a free agent after Montreal tried to trade him to Hamilton Tiger-Cats in a move that breached his no-trade agreement with the Alouettes.

The appearance of Etcheverry in a Cardinal uniform after nine seasons with Montreal is expected by Argo officials to be a big game attraction. They are counting on him to draw a crowd bigger than Argos got for pre-season games here against NFL clubs in 1959 and 1960.

A crowd of 27,770 saw the Cardinals clobber the Argos 55-26 in 1959 when the NFL team played out of Chicago. Last year 23,570 watched as Pittsburgh Steelers trounced the Argos 43-16.

The Toronto-St. Louis game will wind up Argos' four-game pre-season schedule. They meet Toronto in a night encounter July 20 and then travel west to play Calgary Stampedeers July 25 and Winnipeg Blue Bombers July 27, both at night.

Aces Post Sixth Straight Win To Move Into Fifth

Where did those Quebec Aces come from?

Quebec, a quiescent team since the early stages of the American Hockey League season, has suddenly turned up in a tie for fifth place and as a possible contender for one of the playoff places still open.

When the Aces trimmed Rochester Americans 5-2 Tuesday night it was their sixth straight victory in a drive that didn't start until the waning weeks of the season. It put them into a fifth-place tie with Cleveland and only four points behind the Americans, who hold the fourth and last playoff spot.

Cleveland's Barons have only a slim chance of regaining their two-point bulge tonight when they take on Springfield Indians, a team that hasn't let down in its scoring efforts since it clinched the AHL championship. Tonight's other game gives second-place Hershey Bears a chance to increase their one-game margin over Buffalo when they play Providence Reds.

Jackie LeClair and goalie Claude Dufour were Quebec's standouts Tuesday night. LeClair scored two goals and Dufour turned in a fine job as he blocked 33 Rochester shots. Other goal getters were Jean-Marie Cossé, Fleming Mackell and Claude Labrosse of the Aces and Hank Ciesla and Dave Creighton for the Amers.

Patterson May Meet Cooper In Los Angeles

LOS ANGELES (AP)—Boxing promoter George Parnassus has bid for a heavyweight title match in Los Angeles between world champion Floyd Patterson and British Empire titleholder Henry Cooper.

Parnassus said he has wired managers of both fighters. He proposes a June or July date in Los Angeles.

Sam And Cards To Play Argos

TORONTO (CP)—Quarterback Sam Etcheverry and St. Louis Cardinals are coming here to play Toronto Argonauts in a pre-season exhibition football game the night of Wednesday, Aug. 2.

The game will mark the debut of Etcheverry, the former great Montreal Alouettes quarterback, as a National Football League player. The Cardinals signed him in January as a free agent after Montreal tried to trade him to Hamilton Tiger-Cats in a move that breached his no-trade agreement with the Alouettes.

The appearance of Etcheverry in a Cardinal uniform after nine seasons with Montreal is expected by Argo officials to be a big game attraction. They are counting on him to draw a crowd bigger than Argos got for pre-season games here against NFL clubs in 1959 and 1960.

A crowd of 27,770 saw the Cardinals clobber the Argos 55-26 in 1959 when the NFL team played out of Chicago. Last year 23,570 watched as Pittsburgh Steelers trounced the Argos 43-16.

The Toronto-St. Louis game will wind up Argos' four-game pre-season schedule. They meet Toronto in a night encounter July 20 and then travel west to play Calgary Stampedeers July 25 and Winnipeg Blue Bombers July 27, both at night.

Aces Post Sixth Straight Win To Move Into Fifth

Where did those Quebec Aces come from?

Quebec, a quiescent team since the early stages of the American Hockey League season, has suddenly turned up in a tie for fifth place and as a possible contender for one of the playoff places still open.

When the Aces trimmed Rochester Americans 5-2 Tuesday night it was their sixth straight victory in a drive that didn't start until the waning weeks of the season. It put them into a fifth-place tie with Cleveland and only four points behind the Americans, who hold the fourth and last playoff spot.

Cleveland's Barons have only a slim chance of regaining their two-point bulge tonight when they take on Springfield Indians, a team that hasn't let down in its scoring efforts since it clinched the AHL championship. Tonight's other game gives second-place Hershey Bears a chance to increase their one-game margin over Buffalo when they play Providence Reds.

Jackie LeClair and goalie Claude Dufour were Quebec's standouts Tuesday night. LeClair scored two goals and Dufour turned in a fine job as he blocked 33 Rochester shots. Other goal getters were Jean-Marie Cossé, Fleming Mackell and Claude Labrosse of the Aces and Hank Ciesla and Dave Creighton for the Amers.

WINS MOLSON'S TROPHY — Claude Perra of Waterloo, centre, is seen accepting the Molson's Trophy from Guy Potvin, who represented Gaston Forand of Granby. On the left is Rene Paquette, chairman of the Yamaska Conservation Club, who sponsored the Fish Derby last Sunday. (Photo by W. Bessette)

An ideal day of bright sunshine brought out at least 300 fishermen on Waterloo and Bromelakes, Sunday afternoon. The occasion was the Sixth Annual Fish Derby of the Yamaska Conservation Association.

The "weigh-in" was held at the Canada Hotel in Waterloo at 5:00. Archie Johnson and Carlton Ladd looked after the

"weigh-in" while Rene Paquette was chairman of the Derby.

First prize for pickerel was awarded to Claude Perras of Waterloo, whose fish weighed 1 pound and 14 ounces. Perras was presented the coveted Molson's Trophy by Guy Potvin of Granby, representing Gaston Forand. Second prize in this

class went to Jacques Goyette of Granby.

Corby's Trophy for perch was won by Louis Perras, Waterloo, with a fish weighing 13 1/2 ounces. Major E. L. Pelletier of Sherbrooke made the presentation of this trophy to the winner. Second prize in this class went to Diane Fulmer, also of Waterloo, with her perch of 13 ounces.

Norm Ullman Pots Four As Wings Win 5-2

Norm Ullman of Detroit Red Wings is one of the foremost exponents of the expression that action speaks louder than words.

Off the ice, the curly-haired centre is shy silent and retiring. On the ice, he's unspectacular but probably one of the most underrated players in the National Hockey League.

Ullman exploded for four goals Tuesday night to lead the Red Wings to a 5-2 victory over New York Rangers in a game that was meaningless as far as the league standings are concerned.

The Wings are already assured of fourth place and a berth in the Stanley Cup playoffs. The Rangers are fifth and out of the money.

The four centers raised Ullman's total goal production for the season to 28, tops among Detroit players.

The only other player in the league to score four times in one game this season was Toronto Maple Leafs' Frank Mar-

hovich who registered the feat twice.

GETS REAL HAT TRICK Ullman tallied his 25th, 26th and 27th in succession—a genuine hat trick. They came within 11 minutes in the first period and propelled the Red Wings into a 3-0 lead.

The Rangers came fighting back to narrow the score to 3-2. But Alex Delvecchio's 26th goal at 17:52 of the third period saved the Wings' from New York's mounting pressure.

Ullman, wearing a helmet to protect a black eye he received in a 4-0 loss against the Rangers Sunday, supplied the Wings with added insurance at 18:52 with his fourth goal.

Scoring for the Rangers were Pat Hannigan and Andy Heben-

Gordie Howe assisted on two Detroit goals, stretching a streak of at least one point a game to 17. It's a club record.

The great right winger last week surpassed the previous Detroit club high of 14, estab-

lished by Ullman earlier this season.

PAILLE WORKS HARD Veteran goalie Terry Sawchuk had an easy night while at the other end of the ice, substitute Ranger goalie Marcel Paille had his hands full and had to stop 39 drives.

Paille was called up from Springfield Indians of the American Hockey League after regular goalie Lorne Gump) Worsley suffered a leg injury in a game against Chicago Black Hawks last week.

There are two games scheduled tonight.

The Rangers travel to Boston for a game with the last-place Bruins while the Red Wings go to Chicago to play the Black Hawks.

Thursday, Toronto Maple Leafs and Montreal Canadiens meet in Montreal in a game that could go a long way to deciding first place. Each team has three games left to play.

The Canadiens currently lead the Maple Leafs by one point.

Kitchener Moves Into Second Spot Following Tie

Kitchener-Waterloo Beavers climbed into a second-place tie in the Eastern Professional League Tuesday night by defeating Montreal Royals 5-1 at Montreal.

Beavers share second spot with Sault Ste. Marie Thunderbirds, who lost 6-0 to Sudbury Wolves. The Wolves increased their chances to catch a play-off spot—they are eight points ahead of last-place Montreal.

Meanwhile, Kingston Frontenacs, fighting to keep their three-point lead over the Wolves, defeated league-leading Hull-Ottawa Canadiens 8-4.

Hull-Ottawa holds top spot with 90 points. Sault Ste. Marie and Kitchener-Waterloo are next at 71, followed by Kingston with 62, Sudbury with 59 and Montreal with 51.

Kitchener-Waterloo scorers were Leon Rochefort, Bob Sabourin, Don Cherry, Art Stratton and Dave Balon. Royals' centre Skipper Burchell averted a shutout with his single.

MANIAGO GETS SHUTOUT At Sault Ste. Marie, the Wolves were led by goals by Myron Stankiewicz, Jack Martin, Bill White, Jim Pappin, Don MacGregor and Jack Price. Recorder Cesare Maniago recorded the shutout. The Thunderbirds renew their attempt to finish in second place when they take on the Wolves in Sudbury tonight.

At Kingston, the home team handed the Canadiens their worst drubbing since Oct. 25 when they dropped an 8-3 decision to Kitchener-Waterloo.

The Frontenacs erupted for four unanswered goals in the second period in one of their finest efforts of the season. Scorers were Bob Attersley, with three, Orv Tessier, two, Dick Meissner, Don Blackburn and Ted Green, singles.

Yankees Faced With Opening League Without Ace Reliever Luis Arroyo; Dodgers Crush Pirates

Beset by ambushes along baseball's exhibition trail, the American League champion New York Yankees are faced with the prospect of opening the 1961 season without south-paw relief artist Luis Arroyo.

The portly 32-year-old left hander was struck on the left wrist in batting practice Tuesday by a line drive off the bat of rookie catcher Jesse Conder just before the winless Yankees lost their fourth game in a row, 4-1 to Milwaukee Braves.

Arroyo, who won five games and lost one while making 39 relief appearances in the 1960 pennant drive after being brought up from the International League, suffered an oblique fracture of the ulna bone. He will be out of action three to four weeks.

In other action along the grapefruit league circuit, Los Angeles Dodgers gave big Don Newcombe four runs in the first inning and went on to crush defending world champion Pittsburgh Pirates 8-3. It was the

first pre-season loss for the Bucs.

Luis Aparicio's single drove in the clinching run for Chicago White Sox, who scored three unearned runs in the last of the ninth inning and nipped the new Minnesota Twins entry 5-4.

Kansas City Athletics shamed Washington Senators 2-1 on the five-hit pitching of Jim Archer, Dick Hall and Bob Hartman, while Cincinnati Reds cut loose with a power attack, including four homers, to whip Detroit Tigers 7-4.

Rookie Clarence Coleman's fourth single, coming with two outs in the bottom of the ninth inning, sent in the run that gave Philadelphia Phillies an 8-7 decision over St. Louis Cardinals.

Don Zimmer's two round-trippers paced Chicago Cubs as they trimmed Los Angeles Angels 9-5. And Billy Harrell drew a bases-loaded walk off Bobby Bolin in the last of the ninth inning to give Boston Red Sox a 6-5 win over San Francisco Giants.

Five Provinces Tied For Honors In Royal Canadian Legion Curling Tourney, Quebec Drops Opener

TRAIL (CP)—Nova Scotia, Ontario, Manitoba, Saskatchewan and British Columbia were victorious Tuesday in the first round of the Royal Canadian Legion curling championships.

Top game of the morning saw Ontario's Helge Byberg rink come from behind a five-rock deficit to score six in the 12th and edge Newfoundland's Gerry McGroarty rink 14-13.

In other close games, Manitoba's Bill Crocker rink downed New Brunswick's Fred Fraser foursome 14-12 while B.C.'s Paul Siddle took an 8-6 win over Quebec's Jack Wilson rink.

Nova Scotia's Bill Cook rink chalked up the highest score, 15-8, over Prince Edward Island's Alex MacDonald rink. Saskatchewan's Taylor Patterson defeated Alberta's Terry Soldan 9-6.

Two of the unbeaten rinks were to topple Tuesday night in the second draw when British Columbia met Nova Scotia and Ontario met Manitoba.

The other games: Newfoundland vs Alberta; Prince Edward Island vs Saskatchewan; New Brunswick vs Quebec.

WESTERN RINKS FAVORED Western Canada has maintained Legion curling supremacy for the last four years. Last year's winner was a team from Rivers, Man.

A Cloverdale rink represents British Columbia this year while Manitoba is represented by the Charles Wood branch of Winnipeg.

A Bridgewater rink represents Nova Scotia, the Regina branch represents Saskatchewan and the Virgintown branch represents Ontario.

Beliveau Ties NHL Assist Record With 56

MONTREAL (CP)—The National Hockey League announced Tuesday that Jean Beliveau of Montreal Canadiens has tied the league record of 56 assists in one season, on the basis of a previously uncredited assist.

The assist was earned in Chicago Sunday night when Canadiens defeated the Black Hawks 6-2. It came on Montreal's fifth goal, scored by Bernie (Boom Boom) Geoffrion, at 9:15 of the second period. The goal was Geoffrion's 49th of the season, leaving him one short of the record 50 made by retired Maurice (Rocket) Richard in the 194-5 season.

The record of 56 assists in a season was set in the 1955-56 season by Bert Olmstead, then with Canadiens and now with Toronto Maple Leafs.

The official scorer at first gave only Doug Harvey an assist on the goal.

The change gives Beliveau a total of 87 points, on 31 goals and 56 assists. He is in second place among the scoring leaders. Geoffrion is in first.

Bower May Miss Tilt Tomorrow TORONTO (CP)—A pulled leg muscle has strained the hopes of Toronto Maple Leafs goaltender Johnny Bower in his bid for the National Hockey League's \$1,000 Vezina Trophy.

Bower injured his right leg in Sunday night's Boston game and may be out of action for Thursday night's game in Montreal. The veteran has a six-goal lead on Chicago's Glenn Hall for the team least scored upon.

"I don't think I'll be able to play in Montreal," Bower said. But Leafs' coach Punch Imlach was optimistic: "Sometimes these things get better in a hurry."

Bower said his leg stiffened and prevented him from taking part in the Leafs' practice Tuesday. He said he suffered the pulled muscle behind his knee in the second period of the Boston game when he left the net to check Bruin's Johnny Bucyk.

Imlach said he hasn't decided whether Gerry McNamara or Cesare Maniago will mind the net in Montreal if Bower can't play.

J. Codere Paces Winners With Two While Pierce Ellis Gets Same For Jets, Meet Tomorrow In Rock Island

WINDSOR — The Paper Makers rallied in the third period last night to edge out the Rock Island Jets 5-4 before 1,058 fans and knot the four-out-of-seven finals of the St. Francis Intermediate Hockey League at one game each. Tomorrow evening the series will continue at Rock Island.

The defeat was costly to Coach Conrad L'Heureux's team as they lost the services of Albert Beasse for the balance of the series. He suffered a fractured collar-bone and was transported to the Sherbrooke Hospital.

The game was closely fought; the whole way and the issue was only decided in the third period when the Paper Makers managed to outscore their rivals for the odd and winning goal. The first frame ended 2-2 while in the second they split tallies but in the third the home club potted two while holding the Jets to one.

Penalties were costly to the Jets as the Paper Makers made their breaks count by registering three goals when they

Czechs, Russians About Even, Says Jackie McLeod

Swedish Team Biggest Players He Ever Saw; Poor Ice Conditions At Lausanne Cost Smokies Victory

REGINA— Jackie McLeod, leading scorer for Trail Smoke Eaters in their march to the world hockey championship, arrived here by plane Tuesday with one wish: "I'd like to sleep for 48 hours." McLeod, a forward and a former player in the National and Western Hockey Leagues, hadn't been to bed since helping Trail to a 5-1 win over Russia in the final game of the world tournament in Geneva Sunday night. "We were pretty keyed up after that win," he said. "I didn't get to bed that night, grabbed the plane in Lausanne Monday morning at six and landed in Montreal Monday night at 7:30. We were delayed in Toronto with engine trouble and didn't leave there until 4:30, arriving in Regina at 9 o'clock." Smoke Eaters have two more exhibition games to play against Canadian servicemen before returning to Trail. Jackie, first player to leave for home, expects to join Moose Jaw Pla-mors, Saskatchewan senior champions, in their remaining playoff games.

McLeod scored 10 goals and had two assists in leading the Smokies to the world title.

After retiring from professional hockey last fall, McLeod got his amateur card through the Moose Jaw club and was loaned to Trail for the world tournament with the idea of returning to Moose Jaw for the senior playoffs.

Asked about the 1-1 tie with Czechoslovakia last Thursday, Jackie said the poor ice condition on the open-air rink in Lausanne cost the Smokies any chance for victory.

"The ice was pitiful. It was covered with holes, it was very rough and although we had 80 per cent of the play the puck was just bouncing over our sticks. After the Czechs scored the first goal they just fell back and played defensive hockey hoping for a win but playing for a tie. They were certain

Amherst Ramblers Chalk Up Another Win by Belting Glace Bay To Move Into Maritime Senior Hockey Finals

Amherst Ramblers wound up another final series Tuesday still on the winning end but without the spotless record. Ramblers defeated Glace Bay Miners 5-1 to win the best-of-five Nova Scotia finals in three straight games after losing the first game. Ramblers had previously won eight straight games in playoff competition this year.

Bay goal Jim McLean, Bill Payne and Frank Dorrington sewed up the game for the Ramblers in the second and third periods. Charlottetown pounded out its victory despite the loss of goalie Thane Doyle half way through the game. Doyle was handed a game misconduct when he went into the stands after a heckling fan, and the Penguins were forced to tie the pads on defenceman Junior McLeod. The Penguins jumped into a 2-0 first period lead on goals by Buck Whitlock and Jack Kane but goals by Bob McKinnon, Doug Hewey and Don Hersey gave Saint John a 3-2 lead half way through the second period.

Helping Circle to hold annual noonday dinner

ROCK ISLAND — The March 8 meeting of Stanstead South Church Helping Circle was held in the church hall following the mid-weekly Lenten service at Wesley United Church in Beebe.

Plans were completed for the annual noonday dinner in the Church Hall on March 16. The menu will be roast beef, vegetables and pies.

It was learned with regret that Mrs. Raymond Grow had suffered a fall and was hospitalized for three days, that Mrs. Milton Porter was in hospital for a few days, and that Mrs. Harry Kelly had fractured a wrist. Cards were sent to all three.

The kitchen committee was authorized to join a member from the Aid and 35 club to purchase kitchen requirements, and several needs were listed.

The March 30 food sale was discussed. Final plans will be made at the next meeting in the church hall on March 22, following the Lenten corporate communion service, at which Dr. H. Hutchison, headmaster of Stanstead College will be the speaker. The hostesses will be Mrs. T. W. Tyson, Mrs. Elsie Young and Mrs. Thomas McCune.

After the meeting, lunch was served from a table attractively decorated in St. Patrick's Day motif, by Miss Mildred Blake, Miss Ruth Wing and Mrs. W. B. Dustin.

Ladies Aid to cancel meeting

ROCK ISLAND — Stanstead South Church Ladies Aid met in the Church Hall on March 9. Mrs. Harry Smith, president, was in charge of the devotional period.

Because of the joint Easter food sale on March 30 at Caswell's store with the Helping Circle Society, it was decided to postpone the March 23 Aid meeting. The next meeting will be in the church hall on April 6. Mrs. Smith and Mrs. Alton Hull will work at the Easter food sale table.

Several cards were signed to be sent to shut-ins.

At five o'clock supper was served, the tables being decorated in St. Patrick's Day motif.

Firemen honored at Rock Island by Town Council

ROCK ISLAND — A pleasant event took place on March 8, when the mayor and aldermen entertained the firemen at a banquet at the Del Monte Hotel.

Present were all firemen of the department except Bill Pope, who was on duty. Present also were the mayor, Alton Grady, aldermen, Oscar Roy, town roads supervisor, and his staff, Wilfred Currier and Maurice Sisco, and Victor Federico, who has control of the fire siren.

The men enjoyed a roast beef dinner served by the management. Commendation for the fine work of the fire department was expressed by Mayor Grady and Alderman L. E. Roberge, chairman of the fire and police committee. Steve Bronson, fire and police chief, on behalf of the department, thanked the town fathers.

Education Week is observed at Hatley School

HATLEY — Open house was held at the Hatley School on March 10 from 1:15 p.m. to 3:30. Owing to the severe snow storm and high winds some parents were unable to attend, but a goodly number came and spent an enjoyable afternoon.

Regular classes were held in the primary grades and at 2:30. Grades 4 and 5 presented a play, Little Red Riding Hood, in French.

After the play the parents viewed work-books and art work of the pupils in Grades 5 to 7. At the close of the afternoon lunch was served by several Institute members and a silver collection was taken for the Red Cross.

SWEETSBURG —

Mr. H. J. Strange and his brother, Mr. Allan Strange, are both reported improving nicely from their illnesses, the latter having been a patient in the local hospital for nearly three months, the former since March 6.

Friends of Miss Helen Buck will be sorry to learn that she is ill with pneumonia in the B.M.P. Hospital.

Dr. M. C. Mooney is vacationing in Jamaica with friends of the medical profession. Mrs. Mooney's sister from Ste. Anne de Bellevue is her guest during Dr. Mooney's absence.

FULFORD —

Mr. and Mrs. George Badger, and family were guests of Mrs. Badger's mother, Mrs. Doris Sweet, of Eastman, on the occasion of her birthday.
