Established 1897. SHERBROOKE, QUE., SATURDAY, APRIL 25, 1908. ONE CENT

HOURS FOR SALE OF LIQUOR UNCHANGED.

Resolution in This Connection Defeated in City Council 6 to 5—Proposed 7 o'clock Closing Saturday Nights and 10 o'clock Other Nights—Aldermen Explain Their Positions on the Matter.

The city council held an important meeting last evening, with a full board present and Mayor Bachand in the chair. There was an unusually large attendance of the public, including practically all the hotel keepers of the city.

The important business was the early closing liquor proposal. The result was its defeat by a vote of 6 to 5.

A largely signed petition had been signed asking: 1. That the bars of the city close at 7 o'clock, Saturday night and; 2, That the bars close at 7 o'clock on evening preceeding every national and civic holiday and so remain through the day.

A counter petition was read, last night, signed by the hotel men of the city asking that no change be made in the hours for liquor selling, in "the general interests of the city."

The early closing proposal came in the form of a report from the Police Committee and enlarged somewhat upon the request of petitioners for early closing.

It read as follows:

"Report of the Police Committee to the Council in the matter of the petition of His Lordship Bishop LaRocque and others.

"Whereas, at the meeting of the Council held on the sixth day of April instant, a petition was presented, signed by His Lordship Bishop LaRocque and many others of the ratepayers of this city, praying that this Council do close the bars of this city at seven o'clock on every Saturday evening and also that such bars be closed at 7 o'clock on the evenin before every National and Civic Holiday, and so remain during the day; and,

"Whereas, said petition was by this Council, referred to the Police Committee; and,

"Whereas, the said Police Committee have given this subject due and full consideration,

"Your said Committee hereby beg to report that they recommend that that portion of said petition asking that the bars be closed at 7 o'clock on every Saturday evening be granted, but that the remaining part of said petition be not granted, inasmuch as your Committee entertain doubts as to the right of the Council to order the bars to be closed on the evening before every National and Civic Holiday; and further, inasmuch, as by the new License Act passed at the present session of the Legislature at Quebec, provision is made for the prohibition of the sale of intoxicating liquors on New Year's Day, Good Friday and Christmas Day;

"Whereas, in the opinion of your Committee it would not be just or expedient to prohibit the sale of liquor in hotels, and at the same time to allow such sale in any other licensed premises during the hours when the bars are closed,

"Your Committee would recommend that the sale or delivery of intoxicating liquors in any and every licensed premises in the city of Sherbrooke during the hours when the hotel bars are closed as aforesaid, be prohibited; and further, that all bars be closed and the sale or delivery of liquor be prohibited after ten o'clock in the evening on the other days of the week.

"Your Committee recommend, therefore, the adoption of this report, and that a by-law to this end be enacted forthwith by this Council."

After discussion the vote was taken, the division being as follows:

For—Aldermen McCrea, Howard, Simoneau, Armitage and Lanctot—5.

Against—Aldermen Denault, Oliver, Desaulniers, Ledoux, Thompson, McManamy—6.

The matter was introduced by Alderman Oliver, chairman of the Police Committee. He first read the list of applications for licenses and moved that they be granted. This was carried.

Alderman Olivier read the resolution as published above.

He stated that the committee had consulted the City Attorney as to the Council's power in granting the requests of the petition re early closing. He read the reply. In effect the City Attorney stated that the Council had the power to pass a 7 o'clock closing law but had no power to grant the second part of the petition, namely to prohibit sale of liquor on certain holidays.

Ald. Olivier stated that the Committee was not unanimous on the resolution or report which he as chairman read. It was supported by Aldermen Howard, Simoneau and Armitage of the Committee, but he (Ald. Olivier) was opposed to it on the ground that it went farther that the petitioners asked for. He did not think it was advisable to do something not called for. Ald. Olivier thought Sherbrooke had good hotels, well kept and that the Sabbath was well observed. The hotels were an institution which the city could not do without. A new license law had been passed at Quebec which was restrictive.

Ald. Simoneau said it was true that the petitioners had not asked that the sale of liquor should be prohibited during certain hours by holders of shop licenses. It had been felt, however, that it would be an injustice to close the hotel bars and not stop the sale at shops. The Committee had therefore decided to recommend that the early closing be made to apply to all. It would be no injustice to the shop keepers, as those who wished to buy liquor by the bottle could do so before seven o'clock. It would be fair to the hotel men.

Alderman Simoneau moved the adoption of the resolution as read by Alderman Olivier.

Alderman Howard seconded this. Fifteen or twenty years ago when Sherbrooke was not nearly as large as it is to-day there were the same number of licenses in the city as at present. With the increased trade of a growing city he was sure it would be no hardship to the hotel men to close the bars for a few hours Saturday nights. It would be a benefit to the city. It would benefit the good hotels. The great masses of the people were supporting this movement to restrict the hours for sale of liquor. He thought the hotel men should willingly concede one night to help the men who cannot afford to spend their earnings over the bar. A few years ago the Council proposed early closing for stores. There was much objection but merchants to-day would say that it was a good thing. This was not an effort to take money from the hotel men. It was an effort to protect the man and more particularly his family in the many cases where all the earnings are required for family support.

Alderman Ledoux congratulated Alderman Howard and the petitioners upon their good intention in trying to regulate the sale of liquor in the city, but he could not support a petition of that kind as he was sure that they were taking the wrong means and would not attain the object in view. To close the bars at 7 p.m., on Saturdays and leave the shops opened, would be simply ridiculous, and to try to prevent shop license holders from selling liquor on Saturday evenings, and sell their other goods was, also, ridiculous. To his mind a state of affairs like this would encourage the breaking of the law. He would be in favor of closing all hotel bars and shops, provided it was a provincial law, as in Ontario, and provided that the law would oblige all shop license dealers to have a separate store for liquors. Another reason to vote against the petition was that although no city can boast of having a better class of hotelkeepers and liquor retailers than Sherbrooke, yet, hotelkeepers having the right to sell to their boarders, in their rooms, the hotels would not have enough rooms where liquor would be sold as it is done in other cities where they have the early-closing by-law. He was in favor of applying the penalties of the present license act with its full force without any sympathy for the delinquents, and refuse those who break the laws their license next year. He favored the postponement of the question for a year.

Ald. McManamy asked if the committee had ascertained if it had the right to make an early closing law for shops.

Ald. Armitage read the law upon this point which seemed clear, the resolution before the Council having been drawn up in accordance with it.

Alderman Denault said that a city like Sherbrooke had a large number of strangers coming and going. Part of the business of hotels was to sell liquor. By prohibiting the sale, encouragement was given to those who would sell illegally, to the man who was not honest and would not observe the law. Secret liquor places would develop. Let the Council encourage the man who did business in a legitimate way. After 7 o'clock, those who would not observe the law would sell anyway. Such a law would do more harm than good to the temperance cause. It would open the door for the man who wanted to break the law. If the sale of less liquor was desired, why not cut down the number of licenses and increase the license fees.

Alderman Armitage — "Would you support such a measure?"

Ald. Denault—"Yes, certainly, I would."

Ald. McCrea—"The licenses are granted for this year. I'm afraid the Alderman will weaken on this point before another year."

Ald. McManamy could not see why the committee took upon themselves to go farther than the petitioners asked for. The proposal was going too far and this was always the fault with temperance advocates. Prohibition had been tried and generally was a failure. Stanstead, Richmond and Arthabaska had found it so. The early closing idea had originated in Toronto and he would venture to say there was more drunkenness there in the evening than in Montreal. Portland, Me., was a prohibition city and he had observed more drunkenness there than in high license cities. Quebec Province had the best license law in the country. If the law was lived up to there was no ground for complaint. Put restriction on hotels and liquor would be sold everywhere. He supposed some would like to do away with the hotels. He believed if a stop was put to legitimate sale a premium would be put upon illegitimate sale. He thought the license law was as perfect as it could be made at present. The passing of the resolution would be an injury to the morals of the citizens by driving them to illegitimate liquor business.

Ald. Armitage pointed out that the proposal was directly in accord with the Quebec license law. The power had

City Will Pay for Light Property by Temporary Loan.

$170,000, 4 MONTHS, AT 6½ P. C. —LIBRARY GRANT DISTRIBUTION NOT DECIDED—$2000 FOR E.T.A.A.

The estimates which have been a good deal delayed were finally adopted at the meeting of the City Council last night in accordance with the report read by Ald. Denault at the last meeting of the Council.

With regard to the Library grant the Committee provided $1000 for library purposes. The Sherbrooke Public Library has for the past few years received this amount. The Monument Nationale has petitioned for a library grant. The Finance Committee simply provided $1000 for library purposes and leaves the distribution to the Council. This will be taken up at a later meeting.

CITY AND THE LIGHT AND POWER PROPERTY.

The City will take possession of the Sherbrooke Power, Light and Heat Company's property on May 1st.

It was announced last night that the Eastern Townships Bank had offered to make a four months' loan to the city of $170,000 at 6½ p.c., receiving the city debentures on deposit as security, as provided for in the city's charter amendments.

The Mayor and Secretary-Treasurer were authorized to sign the necessary notes in this connection.

The Secretary was instructed to notify the Sherbrooke Power, Light and Heat Company that the city would take possession on May 1st.

Ald. Denault stated that the city had received an offer for the debentures offered, but the Committee did not deem it satisfactory. It was felt that a little later on when the money market improved a more advantageous sale could be made than at present.

The Council were unanimously of this opinion, and concurred in the proposed temporary loan.

THE E.T.A.A. GRANT.

The estimates provide for a straight grant of $2000 to the Exhibition. This was endorsed by the Council.

THE CARTERS BY-LAW.

An amendment was passed last night to the carters by-law. Under the amendment carters cannot refuse their services at tariff rates to any person seeking to engage them. A penalty is provided for such refusal and for efforts to collect more than the tariff rates.

SPECIAL EXCURSION TRAIN OF PILGRIMS IN COLLISION.

City of Mexico, April 25, (Special)—Twenty-eight persons were killed and 15 seriously injured at Gorgantau, a siding west of Meltrata, on the main line of Mexican Railway, yesterday, in collision between freight and second section of special excursion train carrying pilgrims from shrine of Guanaloupe.

The pilgrims left Mexico City in the morning.

OVER 100 NEW Y.M.C.A. MEMBERS.

The Result of Yesterday's Canvass.

THE CANVASS WILL CONTINUE TILL THE EVENING OF MAY 7TH.

Yesterday's canvass at the Young Men's Christian Association resulted in the securing of over 100 new members. The response was so good and as there are still a large number who have not been called upon it was decided to continue the canvass until the evening of May 7, when the members' banquet will be held in the gymnasium. At the banquet a good menu will be served and a number of strong speakers will be provided.

It is interesting to note that of the 104 new members, they give their church preference as follows: Church of England, 32; Presbyterian, 23; Methodist, 28; Congregational, 6; Baptist, 5; Roman Catholic, 7, and Jewish 3; 14 are boys; 19 are limited members, and the remainder take full membership tickets.

The interest in the campaign continues and a number of men have come to the Association office this morning to take out memberships.

NO TRACE YET OF PRIVATE MOIR.

ALL EFFORTS TO LOCATE HIM HAVE THUS FAR FAILED.

Guelph, Ont., April 25, (Special)—Although an army of detectives is in the neighborhood engaged in search for the elusive Private Moir their work has so far produced no results.

Moir once worked in this city and has friends here. It was thought he would be caught in this neighborhood, but there is apparently no clue to his whereabouts.

Investigation of Conditions Now Going On.

ONE EMPLOYEE DISMISSED AND OTHERS LIKELY TO FOLLOW.

Ottawa, Ont., April 25, (Special)—The Minister of Marine and Fisheries, Hon. L. P. Brodeur as result of investigations he is now making into internal economy of the department with view to general reorganization, has dismissed one employee for dishonesty and another official will be asked to tender his resignation promptly. The dismissed employee was steward on one of the Hydrographic Survey fleet and made over charges to department for supplies received. Other suspensions are contemplated.

TORNADO SWEEPS SOUTHERN STATES.

300 May be Dead and 10,000 Injured.

WIND DESTROYED THE CABINS OF THE NEGROES, BURYING THE OCCUPANTS IN THE DEBRIS.

Atlanta, Ga., April 25.—A wind of cyclonic proportions swept over portions of Louisiana, Mississippi and Alabama late yesterday, leaving a trail of dead and injured in its wake. Last night the number of killed was estimated at close to 100 and the injured at over 100, with many portions of the afflicted districts to hear from. Most of the dead are negroes. Perhaps a dozen whites were caught in falling buildings and either fatally injured or seriously disabled. The loss of life was chiefly in the quarters of colored persons, where the wind destroyed their cabins, burying the occupants in the debris, or in the farming sections of the country, where trees were uprooted and telephones and telegraph poles torn up.

New Orleans, April 25.—Forty-five persons were killed and seventy-five injured in the tornado at Amite, La., according to reports received here last night.

Birmingham, Ala., April 25.—Albertville is reported destroyed and many wounded and killed by a tornado.

Sioux Falls, S. D., April 25.—Twenty-two buildings were destroyed by the tornado which Thursday evening struck Valley Spring, near Sioux Falls, but no loss of life resulted.

300 DEAD, 10,000 INJURED.

Birmingham, Ala., April 25. (Special.)—Reports from the storm swept district estimate the deaths between 275 and 300, while the list of injured is said to be 10,000.

PROROGATION TAKES PLACE TO-DAY.

Land Subsidies For Railways Are Proposed.

QUEBEC CENTRAL, MOUNT ORFORD AND OTHER ROADS WILL BENEFIT.

Quebec, Que., April 25—Immediately following the Premier's assertion that the Legislature would be prorogued today, the most important and sweeping public bill of the session has just come to notice, and will have to be rushed through in one day. It involves the free distribution to railways of almost two and a half million acres of public lands.

When each section of the bill is carefully calculated and worked out, it is discovered that a total of 2,376,000 acres of the public domain are handed over to railways. The subsequent maximum sale value to settlers of this land is placed at $2.50 per acre. Thus this land will represent a possible value to the benefitted railways of $5,940,000. The Quebec Central, Mount Orford, Quebec & Lake St. John, Quebec, Montreal and Southern, the Indian River, the Matane & Gaspe, the Canadian Northern Quebec, the Atlantic, Quebec and Western are among the companies which are to benefit by the grants.

Members of the Y.M.C.A. in Los Angeles, Cal., are deeply agitated because General Superintendent C. B. Weaver, in charge of the construction work of the five hundred thousand dollar association building has discharged all Christians he could find among the two hundred men employed and declined to hire any. He declares that he can "get twenty-five per cent. more work out of sinners than church members" and will finish the job with men making no profession of faith.

Interesting Letter From the Daily Record's Correspondent

LICENSE AMENDMENTS DISPOSED OF—ADJOURNMENT NEAR AT HAND.

Quebec, April 24.—(Special.)—Some idea of the volume of legislation which has been pouring through the two chambers this season may be gathered from the fact that one hundred and eighty-two bills have already passed into law, the Lieutenant-Governor having assented to them last week.

A bill of importance to the twenty District Magistrates of this province has practically passed all its stages, which will increase the stipends of these officials to $2000 a year and if any one presides over a peculiarly litiguous district or in other words, when the business justifies it, an increase to $3000 may be made. In addition $6 per day is allowed for travelling expenses.

PRISONERS MAY WORK FOR THEIR FAMILIES.

Immediately prior to the recess the very important measure which will permit prisoners sentenced to hard labor to work for their families, who are left helpless by their offence, passed with general approval by both sides of the House.

THE FARMERS' SONS BILL.

Not so Mr. Walker's bill to enable farmers' sons to vote at municipal elections. It passed, but three Cabinet ministers voted against it, the Attorney-General and Messrs. Taschereau and Roy. So, also, did Mr. Leblanc, and the bill may certainly be open to criticism, which it will duly receive in the Council.

THE INSURANCE BILL.

The much studied and debated Insurance Bill was amended in the Council by the addition of a clause which enables insurance of risks with foreign mutual insurance companies, underwriters' insurance companies or underwriters' associations, whether they may have complied with the law or registered or the reverse.

THE LICENSE RESOLUTION.

Prior to the introduction of the license resolutions, Hon. Mr. Weir had given a statement which is indicative of the growth of the liquor sale in the province in the past twenty years. The treasurer stated that from hotel licenses the following had been collected:

1885-86	$103,811
1895-96	195,448
1905-06	210,593

And for other liquor licenses:

1885-86	$150,618
1895-96	390,104
1905-06	446,617

The license bill is designed to be restrictive without being unduly hard or sudden in its action. The treasurer has taken counsel with ladies and temperance workers and adopted many of their suggestions. Christmas Day, Good Friday and New Year's Day are to be observed in the same way as Sundays.

There will be a gradual scale of license reduction and in future when once a license has been withdrawn for infringement it shall not be renewed until a certain limit is reached. In Montreal the number will be 400. In Quebec and other cities and towns the maximum of one license per 1000 inhabitants. A third offence will bring with it confiscation of the license, no discretionary power being now left to the judges. No transfer of licenses is to be taken by a holder summoned before a Court for infringement. No restaurant license can be granted without clear evidence of the intention of the applicant to keep a bona fide restaurant, and its necessity has to be proved. It is also ordered that it shall be an offence for any restaurant keeper to cash salary cheques or wages certificates. Municipal police are to see to the carrying out and observance of the law and they are to report at once to the License Commissioners any violation that may occur. Mail carriers are prohibited from carrying liquor secretly into municipalities and wagons doing an illicit trade are also provided for. A double penalty is inflicted on sellers of adulterated liquors. The treasurer stated that it was easier to enact laws than to enforce them, and he thought that it was better to hasten slowly in the matter, but to take steps which will meet general approval. The general amendments might be grouped under three headings, provisions tending to reduce the number of liquor licenses in various places; respecting the confirmation of certificates; relating to the violation of the law. Certain localities. Thetford Mines and Black Lake, are left under the mining act, as asked for by the mine owners. Mr. Weir emphasized the fact that, while this country was proud of her great material development, it might be possible that leaders of public opinion had attached too much importance to the increase of wealth, and it was consequently a healthy sign when it was found that there was a strong public opinion in this province asking for moral reform and as had been asked for by the leaders of the temperance movement. True progress and the character of a people could be better measured by its conscience regarding moral questions rather than by its development in wealth and material comforts.

The bill was finally adopted on Wednesday, as reported in the Record.

The appointment of an agent-general for the province in London caused a long discussion, Mr. Prevost contending that the appointment would be useless unless the system of promoting immigration were changed entirely. After a discussion of the

SIDEWALKS IN BAD CONDITION.

Farnham, April 25, (Special)—Now that the frost is coming out of the ground, some of the sidewalks are in a deplorable condition, really unsafe to walk on. It is to be hoped they will all be put into good condition by June 1st, the date set by the council as a time limit.

CLUB HOUSE NEAR COMPLETED.

Farnham, April 25, (Special)—The boat club house is almost completed, and the formal opening will likely take place in the near future, it is expected that a good number will enter into the sport this season and make the most of the water facilities here. If the proposed channel through rapids is completed it will add a good stretch of navigable water to what there is already.

TO SETTLE LICENSE QUESTION.

Magog, April 25.—(Special)—The Magog Council held a special meeting, this week, to settle the license question for the ensuing year. The same number of licenses were granted as last year, viz., four. Three hotel and one wholesale license make up the total, and hotelkeepers were given a lecture on the proper way to conduct their business affairs in future. Card-playing is strictly forbidden, and selling of liquor after hours and on Sundays is to be punished severely.

LIMITED LICENSES TO FIVE.

Farnham, April 25.—(Special)—The clause in the license law limiting the number of licenses was passed by the House in Quebec on the 22nd. The Farnham Town Council passed a resolution shortly after the civic elections last winter, to petition the Legislature to limit the number of licenses in Farnham to five and this has been done. The number is supposed to be one license to every 1,000 of a population.

This settles the question for quite a number of years to come. It also, takes the power to grant more than five licenses out of the hands of the Council.

ENDOWMENT FUND.

Cowansville, April 25. — (Special)—A praiseworthy movement is on hand, relative to the raising of an endowment fund for All Saints' Cemetery and church yard. Messrs. J. S. and M. E. Baker have lately gone about the work of collecting money for such purpose, the intention being to devote the annual returns and revenues in interest to the caring for said cemetery.

Any who have not been visited by the committee will have a chance to subscribe to this worthy object by remitting to or leaving with Mr. J. S. Baker, the Treasurer of the undertaking, any contribution it might seem their privilege to make.

PURCHASED A GASOLINE LAUNCH.

Farnham, April 25.—(Special)— Mr. J. E. Marcessault has purchased a 20-ft. gasoline launch, fitted with a 3½ h. p. engine, for use on the river here, this summer. He is putting it together and expects to launch it this week,

PREPARING FOR THE SEASON.

Lake Megantic, April 25, (Special)—The steamers, "Jubilee" and "Campania," are having their machinery overhauled, giving them a new coat of paint, etc., preparatory for the opening of navigation as soon as the ice goes out of the lake, which promises to be very late this season.

HAS RECORD FOR SUGAR.

Cowansville, April 25. — (Special)—Mr. Samuel McElroy has probably the record for amount of sugar made per maple tree for this section of country, if not all Canada. From 23 trees he made 240 pounds of sugar and gathered his buckets for the end of the season on the 20th inst.

Others farmers near here have, even with thousands of trees tapped and a consequent inability to reach the high average attainable with a few trees, made the remarkable high average of six pounds of sugar per tree. When it is known that several of our farmers tap as many as 2,000 trees, the amount of sugar from this section is easily figured out as enormous.

VESTRY MEETING AT EUSTIS.

Eustis, April 25.—(Special.) — The annual Vestry meeting of Christ church took place Tuesday, 21st, with the Rev. Mr. Wilson presiding, and was well represented by the male members of the church. The meeting opened with prayer then followed by the election of officers, viz., church warden, Samuel Hallam; people's warden, Henry Murphy; sidesmen, Henry Murphy, Jr., and George Pilgrim; vestry clerk, John Haldenby; delegate to the Deanery Board, Henry Murphy, Jr. The report of the people's warden was read and adopted, showing a very good surplus. A fonr, lights, etc., were discussed. Then a vote of thanks was moved to the Ladies' Guild, organist, Sunday school teachers, and all church supporters.

AFFAIRS OF MEGANTIC COUNCIL.

Lake Megantic, April 25.—(Special)—At the Municipal Council meeting on Tuesday, the 21st, the first balance sheet and report of the auditors for the town of Megantic was presented and accepted. It showed assets and liabilities as follows:

CRUSHING BLOW TO THE PRESTIGE OF THE GOVERNMENT—SOCIALIST POLLED ONLY 276 VOTES.

London, April 25—The Liberal Government suffered yesterday the most significant and in some respects the greatest blow it has yet received, when the electorate of Northwest Manchester rejected their Parliamentary representative, who reappealed for their suffrages, coming with the added dignity of Cabinet rank in the recognized ministry. The polling, which followed one of the most strenuous campaigns in British electoral history, was declared last night to have resulted as follows:—

Joynson-Hicks, Conservative . . 5,417
Winston Churchill, Liberal . . . 4,988
Mr. Irving, Socialist 276

The new President of the Board of Trade, addressing the Reform Club immediately afterward, frankly owned the importance of the constituency's verdict. He said in addition: "It would be useless to disguise the fact that we have received a heavy blow, the consequences of which will be grave and serious." Later in a speech he exhorted the Liberals not to allow this "heavy, bitter and crushing blow," to impair their courage.

It is beyond question that Mr. Churchill in thus speaking expressed the conviction which the Asquith ministry cannot escape, and which the largest part of the electorate of the country will take to heart.

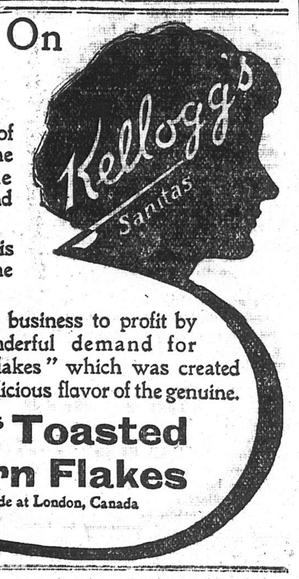
Impress This On Your Mind

There are just two kinds of Corn Flakes. One is the original and genuine — the other is a mere substitute and imitation.

The intention of the imitator is to confuse you by copying the name of the original.



It is their business to profit by the wonderful demand for "Corn Flakes" which was created by the delicious flavor of the genuine.

JESSOP'S STEEL!

Use Jessop's Steel in the beginning and save the cost of the education which users of cheap steel inevitably pay for, and pay dearly. If 75 per cent. of the value of your tools is represented by labor, and 25 per cent. by material, is it wiser to economize on the steel or on the labor?

NORTH HATLEY.

The annual Easter vestry meeting, which was to have taken place on Easter Monday, has been postponed until Monday, April 27th, at 7.30 p.m.

The services in St. Barnabas Church on Easter Sunday were very bright and hearty, and well attended. The eleven o'clock service was fully choral, the choir being accompanied by Mr. Seguin's orchestra, which rendered excellent music and added greatly to the heartiness of the service. The number of communicants was the largest in the history of the parish for Easter Day. The Easter music will be repeated on Sunday next.

Uniformity in Text Books.

One argument urged against the bill discussed in the Legislature last week, providing for uniformity in school text books, was that it would tend to injure the interests of printers and bookbinders. It would be difficult to find a stronger argument in favor of the measure, the natural inference of the one quoted being that with no uniformity in school books, those who buy them are exploited for the benefit of the bookbinders and printers. It must be easily possible to contrive two sets of school books, one of which would be best for the Protestant school children and the other for the Catholic. This is the only perfect plan. Otherwise when parents move from one section to another, as frequently is the case, it becomes necessary to buy different sets of books for their children. This consideration bears heavily in favor of uniformity. The burden which parents are under in this province to educate their children is heavy enough, in all conscience, without adding to its needlessly.

The Cost of Peace.

According to Senator Hale of Maine, chairman of the Senate Committee on Naval Affairs, seventy per cent. of the revenues of the United States will this year be devoted to the maintenance of the army and navy and the payment of war pensions. In a day when peace is the rule among civilized nations and war the rare exception, this is a formidable showing, yet not quite so formidable as appears at first glance. Taking Senator Hale's statement as correct, which is doubtful, a very large proportion of the seventy per cent. will be devoted to a pension list, which oddly enough grows in size as the original pensioners disappear from the scene. The balance is devoted to policing the world, a task in which all modern nations must sooner or later bear a share. The world needs a police force, as well as our cities, and navies, and to a lesser extent armies, must compose the police of the world. Some day this need will passed away but that day is far distant and until it dawns we must have armies and navies. In number both can be limited by agreement among the nations, and the day when they will be so limited is fast approaching, but no greater world power can hope to see its police budget disappear for many, many years to come. Among a certain section of political orators in every country, military and naval expenditures are a pet form of attack, but among this type of politician few deep thinkers are to be found.

The Use of the Ballot.

The success of democratic institutions must in the last analysis depend upon an intelligent and conscientious exercise of the franchise. In the good old days when kings ruled by divine right and the plain people had nothing to do but obey, those men who looked into the future to a day when the plain people would themselves hold sway cherished few misgivings that these same plain people might perchance trifle with so sacred a right as the right to vote, but so it has turned out wherever democratic rule prevails, which to-day comprises practically the civilized world. Various causes have conspired to this end, each reflected in some personal characteristic. There is the type of man who is bound to some particular political party that he supports it regardless of the public weal and regardless of consequences. He is, however, not seriously dangerous to the permanency of democratic institutions, because in numbers he is not important, and moreover there is reason to believe that this type is growing less in number year by year. Tendencies point that way. In Britain the oldest of democratic countries, men are more independent of party lines than anywhere else. Then there is the graduated type of man who looks upon his franchise as so much chattel to be sold at every election to the highest bidder, or in less virulent form, the man who has his price. This type taken altogether is menacing beyond a doubt and cases, out of number, are on record, where elections in cities or counties have failed owing to corrupt influences, to express the popular will. This sort of thing is food for the cynic and a shame on democracy. There are men in every country, in every county, men of power, who want to rule. In olden times they would have resorted to arms, in these days they resort to the politically corrupt use of money, and so long as there are votes to be bought these men will continue to rule. Then there is the third type of man, who is too engrossed in his personal affairs to take any interest in polities and who is even so careless as not to vote at all. Generally this type is intelligent, of which more is properly to be looked for, and for this reason the greater is the condemnation. If anything this type is the most dangerous of the three, because in numbers it is important, and most difficult to influence. If these three types of men could be reformed democratic rule would be brought close to the ideal state. At different times different laws have been discussed and sometimes enacted, laws designed to accomplish this three-fold reform, rather for the two last named types for no law can touch the one first mentioned. Fine, imprisonment and disfranchisement have been proposed for the second type and disfranchisement for a term of years for the third. In time such discussions and laws growing out of them, will bear some fruit, but the greatest and only permanent cure lies in education, projecting intelligent thought. This cure will in time bear full fruit and only pessimists doubt it. Democratic government is the best form of government, if only for the fact that it contains the germ to remedy its own shortcomings. With elections impending it is meet for all Canadians and especially young Canadians, to give this subject the most serious consideration.

DUNHAM.

Your correspondent was mis-informed relative to the likely return soon of Dr. A. E. Rykert, from Paris, France, on account of his father's illness. It is probable that Dr. Rykert will delay starting until later on. Mr. A. Rykert is slowly improving in health.

Miss Lilian Plaisted has returned home from her successful year's work in the Donalda department of McGill University. Miss Gertrude Plaisted her sister, will receive her B.A. degree, from the same institution, next week, at the annual convocation.

On Thursday, the young people of All Saints' parish kindly volunteered to take charge of the April session of the Parish Guild, which took place in the basement of All Saints Church, here. This Guild resolves itself into a sewing society, or other useful agency as the needs of the Church may direct. It takes upon itself the very important duty of providing much of the lesser church furnishings. Tea was served on Thursday and a very pleasant deal of work was accomplished.

The Misses Beatrice and Bernice O'Brien, daughters of Mr. and Mrs. W. E. O'Brien, are home from their duties as teachers in the northern part of Vermont and will soon return to start other terms of school there.

THE VULTURE OF SOCIETY.

(From the Law Journal.)

The habits of modern society are not so rough, but the offence of blackmail is as rife as ever. Citizens should be encouraged to withstand such attacks; and lawyers have a particular interest in this question, for from their intimate relations with clients, sometimes unscrupulous, they are peculiarly susceptible to modern methods of blackmailing which penetrate even into the procedure of the courts.

BARNYARD CACKLER WORTH $1,000 A POUND.

HEN WHICH HAS WON HONORS FOR HER OWNER.

Boonville, Mo., April 25.—Boonville has a hen for which the owner has refused a fortune, which has been three times around the world, costs $1,800 a year to maintain and has a private valet of her own. Peg's food is cooked especially and the travelling expenses of this hen are enormous. But she has won honors for her owner, and is worth almost $1,000 a pound. Peg is given a bath every day, her beak and comb manicured, her legs scrubbed and she is given exercise in an open lot with clean straw and fresh worms. No other chickens are allowed to associate with her. She is fed toasted bread and the finest of ground meats.

Good Clothes

Here's two more photographic reproductions of what the Duncan Shop have in stock for the particular fellows. These garments are tailored right up to the minute and represent the best class of workmanship that is possible to put into clothing. These pictures truly represent what we have to offer in the way of Swell Suits.

Take the Double Breasted Suit, for instance—looks pretty good, Eh? Well, we can fit you in just the same way—no better—certainly no worse. If you have $16.00, $17.00 or $18.00 to put into a Suit, and your preference is a D. B., let us show you what we have at these prices.

The fellow in the picture at the bottom of this advertisement is wearing the newest thing in a Three-Button Single Breasted Suit—and he has made a wise selection—because, twenty men out of twenty-five, would do the same thing. It is the popular garment—and a top-notcher in the style column. Everybody will not buy a Single-Breasted Suit, but the majority of good dressers will. Prices much the same as the other good kind.

The Duncan people finish the garments to your order in about a half hour—and finished by expert tailors.

Out-of-town orders will receive the personal attention of Mr. Duncan—and he will be just as particular as you are. Give usual measurements and we will guarantee our end of the commission.

The Spring Overcoats we have been talking about for some time, are all right.

You have Not One Reason for Not Using

Zutoo

Some people think that all headache cures are alike—that they all undermine the health, even if not perceived at the time of taking them.

Well, we'll admit that some cures do this, those, for example, which contain opium, morphine, antipyrene or chloral.

But this is no reason why you should not use Zutoo.

Zutoo Tablets do not contain one iota of any of the drugs above mentioned. They do not contain a single ingredient that does not come from Old Mother Earth herself.

One ingredient is soda—just old-fashioned soda that our grandmothers used to take to settle the stomach when they had sick headache.

There is not one ingredient in Zutoo tablets that is not approved by both the British and American Pharmacopeias. And the world has no higher authority in medicine than these.

Your family physician, even if a personal friend, would approve of and prescribe every ingredient.

There is absolutely no reason why you should not use Zutoo.

If you suffer from headache there is every reason why you should.

Taken in time, two tablets will ward off a headache. Taken later, they will stop it in twenty minutes, and leave you feeling bright and well in both mind and body.

It is Harmless as Soda

Now is the time to clean and repair your furnaces and pipes.

HELIE DE SAGAN NEARLY DRIVEN TO DESPERATION.

Naples, April 25—Declaring that he had been driven almost to desperation Prince Helie de Sagan Thursday left the hotel at which he had been staying, and took an apartment on the Corso Vittorio Emanuele under the name of Louis Perigord. In trying to escape the close watch the newspaper men have placed on him, the Prince drove along the Toledo sea front, but soon discovered that his driver was in league with the cab drivers of the persecutors, animated signals passing between them by means of their whips. He returned at once to his hotel. The Prince went to the theatre in the evening, but soon realized that all the convenient places near him were occupied by reporters. He left in digust, exclaiming: "I thought it impossible to be worse treated than in America."

The Prince has engaged a magnificent apartment, dating from Friday at Bertholini's Palace Hotel.

This will Keep the Boy on the Farm

It Will Give Him a Real Start in Life

QUIT worrying about how you're going to "give the boy a better chance in life than his father had." Let up wondering how you're going to manage to give him a start. Fix it so he can make his own start—and have fun doing it. He will stay on the farm if you go at it the right way.

This way:

Any normal, healthy boy likes to "fool 'round" with live things—chickens for instance. Make him work at it, and he'll tire of it quick. But give him a little business of his own,—set him to raising chickens on his own hook,—and he won't let up till he makes a success of it.

I can arrange the whole thing for you,—teach your boy how to succeed at poultry-raising for profit,—show him where to save work and worry doing it,—stand right back of him and coach him along,—and find him a good, quick-cash buyer who will pay the highest prices for all the poultry he raises or the eggs he can sell.

The No. 2 (120-Egg Size) 1908 Peerless Guaranteed Incubator

In a word, I will make a BUSINESS poultryman of your boy,—and I don't want a cent for doing it. I want you, for your part, just to help give the boy a start,—like this:

Send for my free book—"When Poultry Pays." That will give you an idea of what there really is in up-to-date poultry raising,—of how much money anybody with hustle and gumption can get out of it.

And the book will tell you what kind of an outfit will get the most money out of poultry, quickest and easiest, and surest,—my Peerless outfit,—the Peerless Guaranteed Incubator, and the Peerless Brooder.

Then I will tell you just how you can get an outfit for your boy—either the big size (200 eggs in the incubator—200 chicks in the brooder) or the minor size—(120 and 120)—

Without paying a cent on the outfit until a year from now. By the time that first payment is due, the outfit will have earned far more than it cost, and the boy will know enough about the poultry-raising game to want to stick to it.

I know plenty of young folks who are earning their college money this way—and learning hard business sense as well—learning things that will make them succeed in other lines later in life.

I can show you why that's so. Write to me and ask me why the Peerless makes a worth-while present that will earn the biggest kind of dividends for you and for the boy,—or for the girl, for that matter. Get the free book.

HOG MARKET

MARKET WELL SUPPLIED AND BREAK IN PRICES.

Montreal, April 25.

The market for live hogs during the past week has been well supplied with stock, which caused a break in prices. Choice stock selling at $6.50 to $6.75 per hundred pounds. The demand for abattoir dressed hogs for the city trade is fair, but there is very little inquiry coming in from the country. In sympathy with the live hog market, prices of dressed have eased off, sales being made this week at $9.50 per hundred pounds.

GRAIN AND SEEDS.

WHEAT—Quite an advance has taken place in May wheat in Chicago, which closed Thursday at 96½c, a rise of 4½c on the week. Friday's closing was 98½c May, 89⅜c July.

No. 1 Northern Manitoba closed in Winnipeg Thursday $1.07⅜ April, $1.08⅛ May and $1.10⅜ July. Friday's closing was $1.10⅜ April, $1.11⅛ May, $1.13⅛ July.

FEED WHEAT—The market is firmer and higher. No. 2 being quoted at 63c to 64c and feed wheat 68c to 69c.

JUDGE MULVENA AT SWEETSBURG.

Young Sutton Lad Sentenced to Two Years.

PECULIAR CASE FROM BOLTON — MAN SHOT BULL WHICH STRAYED ON TO FARM.

Judge Mulvena presided at a term of Court at Sweetsburg yesterday.

In the case of the King vs. Victor Comeau, of Sutton, a lad of nineteen years of age, was convicted of breaking into the C.P.R. station at Sutton and stealing the contents of the till. The accused also admitted having served two years in a reform school in the State of Vermont. He was sentenced to two years in the penitentiary.

Another charge against the same accused of escaping from custody was not pressed by the authorities.

SHOT BULL BELONGING TO BOLTON FARMER.

Frederick Salls, of the Township of Bolton, and who had been in jail since the 17th March last on a charge of shooting and killing a bull that had strayed on the farm of his employer, asked for a speedy trial and pleaded guilty. A largely signed petition was presented by Mr. McKeown, who appeared on his behalf, asking for a lenient sentence, was presented to the Court. Mr. Lynch, who appeared for the private prosecutor, stated that he had been informed that a large number of signatures to the petition had been secured under false representation, and asked that a delay be granted, so that he might file a counter petition. The Court intimated that petitions asking for lenient sentences were always well received when they disclosed some evidence that had not been brought out at the trial, but that a counter petition asking for a severe sentence was something very unusual. However, the prisoner would be remanded until the 4th of May to allow the Court to go through the preliminary evidence, and also to examine the petition.

STOLE ALE FROM C.P.R.

Arthur Barbeau, of Farnham, pleaded guilty to a charge of stealing a case of porter from a C.P.R. freight car, and was given sixty days in jail.

Ernest Barbeau, who was implicated in the same offence, was given a similar sentence.

ON SUSPENDED SENTENCE.

Nap. Dupuy, 15 years of age, from the town of Bedford, was convicted of shop breaking, but was allowed to go on suspended sentence on his father agreeing to keep him at home and also to look after him.

ROXTON POND CASE.

Nap. Charbonneau, of Roxton Pond, who had previously asked for a speedy trial on a charge of assault, causing grevious bodily harm upon one Alph. Gilmette, came up for trial. He pleaded not guilty, and a large number of witnesses were examined. From the evidence it appeared that the complainant and accused with some others were having a night of it at the home of one Gilmette, and that the party did not break up until 5 o'clock in the morning. On the way home an altercation took place between Gilmette and Charbonneau, during which the latter stabbed Gilmette with a knife in the back. Charbonneau went into the box and swore that the stabbing was done accidentally, and that it happened after Gilmette struck him, when his arm swung round and inflicted the wound. The Court declared that it placed no credence whatever in the evidence of the accused in the face of the facts adduced by the prosecution. He was sentenced to three months at hard labor.

MR. RENNIE'S PRINCELY GIFT.

DECEASED GENTLEMAN LEFT $150,000 TO HONG KONG UNIVERSITY.

Winnipeg, April 25— The South China Morning Post, a copy of which, dated March 16, was received by D. E. Sprague, Thursday announced in appreciative terms, the gift of $150,000 to the University of Hong Kong by the late A. H. Rennie, who was well-known as the late Premier Norquay's private secretary. The announcement was made only a short time before the tragic death of the donor, in the following terms:

"The announcement has been made that the magnificent gift of $150,000 has been made by A. H. Rennie, of the Hong Kong Milling Company, for the founding of a university for Hong ong. The remarkable energy and enterprise of this gentleman is familiar to all, and now we have proof of his lavish liberality. Such a gift will be greatly appreciated by all who have the best interests of the colony at heart.

"It has been an open secret for some time past that a donor had come forward, but the name had been withheld."

Dairying For Profit

Any farmer who owns three or four cows cannot afford to be without a cream separator. The absence of its use means not only a loss of butter fat, but also an increase in the labor of handling the milk. In addition, when separated by any of the gravity methods, skim-milk loses practically all of its feeding value.

It is no longer a question whether a cream separator will be a good investment, but the question is, Which Separator will best meet the requirements. The best way to be satisfied in this particular is to see the separator. The Bluebell and Dairymaid are the simplest, lightest running and most practical cream separators on the market. They skim close and are easy to clean. No matter whether the milk is warm or cold, you can get better results with one of these cream harvesters than you can with any other or in any other way.

A Bluebell or Dairymaid cream harvester gets practically all the butter fat, and produces sweet, clean cream from which there is no trouble to make the finest butter. And if the cream is sold, it will demand the highest market price.

The Dairymaid is chain-drive and the Bluebell is gear-drive. Each machine is made in four sizes.

Ask the local dealer for further particulars concerning these Separators, or write the nearest branch house for catalogue and other advertising matter.

TWO CHILDREN CUT TO PIECES.

DISOBEYED THEIR PARENTS AND WENT UNDER A MILL WHEEL.

Glace Bay, N.S., April 25—News of the report of a most unusual accident comes from West Lahave ferry, by which two little daughters of Henry Rernette, aged 9 and 11 years, lost their lives on their way to gather Mayflowers. There is a sawmill in the vicinity and the children were in the habit of taking a short cut under the wheel when the mill was idle to shorten the distance. On this occasion their father warned them not to go in that direction, as the mill was to be set going that afternoon. The children did not heed the warning. Seeing the mill was not running, they thought they were safe, and when they were half under the wheel started and whirled them around, mangling them dreadfully.

The men, noticing the obstruction, stopped the machinery, and to their horror, found the little ones dead.

SCOTCH WHISKEY DETAINED.

LABELS DID NOT DISCLOSE THE PRESENCE OF COLORING MATTER.

London, April 25—News of the detention of a shipment of Scotch whiskey by the customs officials of New York on the ground that the labels do not disclose the presence of coloring matter, has dropped like a bombshell among the Scotch distillers, and has aroused much ire. Representatives of the distillers visited the Foreign Office here Thursday afternoon and brought the matter to the urgent attention of the officials; later it was declared that instructions have been cabled to James Bryce, the British ambassador at Washington, in the premises. The shippers contend that they have been most careful to comply with the requirements of the American Pure Food Law, and they claim that section eight of this expressly excludes its operations in regard to harmless coloring ingredients.

CREAM OF THE WEST FLOUR

"CREAM OF THE WEST" may cost you a trifle more than other grades of Manitoba flour. Suppose it does. What does a few cents per bag more matter if you get complete satisfaction.

"CREAM OF THE WEST" is honestly as good a grade of flour as can be made from the hardest of hard Manitoba wheat and that means the best wheat in the world.

"CREAM OF THE WEST" is an expensive flour to mill because it represents the very "cream of the best of the wheat berry" but it rings true in the baking.

"CREAM OF THE WEST" is a nourishing, toothsome, sweet flour that invariably pleases. Order a bag.

THE CHURCH ARMY OBJECTS TO REPORT OF J. BRUCE WALKER ON ASSISTED EMIGRATION.

Editor of Record :—

Sir,—In his recent report on subject of Immigration from Great Britain by the Charitable Societies, Mr. J. Bruce Walker says, concerning the Church Army :

"This is a reformatory and charitable organization connected with, and working under the auspices of the Established Church of England. They sent to Canada last year 1595 persons, of whom 1519 received assistance from the Church Army Emigration Fund. This organization is of a many-sided character, embracing the reclamation of the drunkard, the reception of the discharged prisoner, the shelter and food of the homeless, and an asylum for the unemployed. It has a number of cheap night shelters throughout this city and country, and is engaged exclusively in operating amongst the lowest and most degraded classes to be found in England. In pursuance of the reformatory work, they have a farm colony, to which men are sent on probation, and where those who are destined for emigration to Canada are placed for observation and training in actual farming operations, but as these men were originally anything but farmers or rural citizens the probation can hardly be called satisfactory; the training is not very practical and the person still retains his aversion to the country and his love of populous places.

"The Church Army, also, interests itself in the emigration of persons who can pay their fare; young men who are beyond parental control; young men whose relatives believe that removal from old haunts and old associations to a new country would afford a new opportunity for starting life afresh, and rehabilitating themselves in the good opinion of their friends, and I am afraid that not a few of the latter are selected, not from any examination, but from the personal influence of those who are desirous of obtaining the emigration of such persons."

As Chairman of the Emigration Committee of the Church Army, I protest most emphatically against this sweeping condemnation of the emigrants sent out to Canada by this Organization. Will you allow me in the first place to say that, during the period when the 1595 emigrants referred to were sent to Canada, Mr. Bruce Walker was Assistant Superintendent of Emigration in London. He had no personal knowledge whatever, of the emigrants we sent out, although if he had been so minded he might have seen from time to time at the Great Central Railway terminus at Marylebone nearly all the emigrants whom we sent. Mr. Bruce Walker is entirely mistaken in saying that the Church Army interests itself in the Emigration of young men who are "sowing their wild oats," young men "who are beyond parental control," or young men whose relations are interested in their getting a fresh start in a new country. The great majority of the men whom we emigrated in the year 1907 were persons of the working class who had always been honest and industrious but who from no fault of their own had become destitute through being out of work a long time. Some of the emigrants and their friends found a part of the cost of emigration, and all the emigrants agreed to repay the money we advanced to them by instalments spreading over several years. I am glad to say that, whereas, £1715 became repayable in November last, we have received over £1100 already without exercising any pressure whatever. This, I submit, shows clearly that the men who remitted this money were both honest and industrious and that they had been fully employed. Many persons who applied for emigration last year were rejected as unfit and cases were only accepted after careful examination, medical inspection and investigation of references. The emigrants were sent out in batches to Canada, under the charge of one of our Church Army Officers, and on their arrival in Canada they went to places procured for them by our agents stationed at Montreal, Toronto and Winnipeg. It is quite true that a small proportion we sent last year were men who had been reclaimed through the agency of our Labor Homes. We are informed that they are doing well and we have received grateful letters from them enclosing remittances on account of the cost of emigrating them.

With regard to the emigrants we sent in the year 1906, in an interview with our Agent, Sir Wilfrid Laurier said :

"Your Immigrants have done well for themselves and well for their employers. There is plenty of work for all you can send out, as the farmers are wanting men and cannot get them. I wish you all success in your work."

As even more care was taken in 1907 in the selection of emigrants, it must be clear to any unprejudiced mind that Mr. Bruce Walker's report is, as far as it refers to the Church Army, wholly incorrect.

I am, Sir,
Your obedient servant,
WILLIAM F. HAMILTON,
Hon. Treas. of the Church Army

THREE ITALIANS ARRESTED.

HELD IN CONNECTION WITH THE DEATH OF JOAN TRICK.

Montreal, April 23.—Three Italians, who are said to have been mixed up in the row a week ago Monday night at 216F Aqueduct street, when Joan Trick was fatally stabbed, were arrested Tuesday night by Detectives Sloan and Pusie. They were taken to the Chaboillez street police station and locked up, but no charge was entered opposite their names.

Detectives Sloan and Pusie would not state what grounds they had for holding the three men, but it was hinted that the trio were with Guessipe Adami, the man who is said to have stabbed Trick during the fight in which the Italian was wounded.

Trick died in the General Hospital last Thursday morning from the effects of the wound he had received the Monday night previous during a row in his boarding house, 216F Aqueduct street. The police did not learn of the affair until Wednesday morning, when Trick was sent to the hospital. The injured man had been kept under cover in the Aqueduct street house for two days, as his wound was not considered serious by the other Italians in the house, and they did not want the police to learn anything about the trouble.

The three taken into custody Tuesday night are Ponifacio Mardilli, 27 years of age, St. Monique street; Lorenzo Dapoldo, 23 years of age, Mountain street, and Navare Milanze, 21 years of age, Mountain street.

It is not known if the detectives succeeded in finding out from one of the trio under arrest anything concerning the whereabouts of Adami, who the coroner's jury held responsible for the death of Trick; but, if so, they would not admit it.

CASTRO IS HIMSELF AGAIN.

VENEZUELA'S PRESIDENT HAS A RIDE ON HORSEBACK.

Caracas, April 23.—For the first time in nearly two years, General Castro was able to mount on horseback last week. Although for a year he has been gradually recovering from the illness which nearly cost him his life, he never had completely recovered until his late protracted stay at Los Teques. He had been absent from the capital nearly two months, living at that health resort, and he has now returned, evidently very much benefited. His return was coincident with news from Washington, giving the Calhoun report, and the next day El Constitutional, the Government newspaper, made a bitter attack on the United States commissioner, and against those conclusions which are adverse to Venezuela.

Judge Calhoun's first conclusion that the New York and Bermudez Co. never fulfilled the conditions imposed by the Hamilton concessions is duly applauded, but, referring to the other three conclusions, El Constitutional says that "The American judge could not maintain the impartiality of his position, and he has tried to invalidate his own opinion, based on good law, by means of two or three high-sounding phrases of a pettyfogging lawyer.

GOLD SHIPMINTS.

MONEY SO PLENTIFUL NOW THAT METAL CAN BE SPARE.

New York, April 23—The news of a further moderate gold export engagement was received with apathy Tuesday, particularly by bank officers and officials of financial corporations. This was not surprising in view of the heavy cash gain last week and the prospect of further accumulation as the result of the continued movement of money to New York from the interior and the gain from the sub-treasury already reported this week. Some well-informed persons lay stress on the fact that some of the banks are paying 2 and 2½ per cent for deposits, while call money returns only 1½ to 1¾ per cent.

The point is made that if general business and the volume of industrial activity were normal, prospects of the export from $10,000,000 to $20,000,000 or more in gold would, of course, be at once reflected in an increased demand for money and higher rates. As it is, it was said business is so extremely dull all over the country that a very large amount of the precious metal could be shipped abroad without creating a ripple. Government officials at Washington in answer to the inquiry why the Secretary of the Treasury does not take advantage of the situation to rebuild the Government's surplus merely express the opinion that the Secretary will act when he believes the psychological moment has arrived. Meantime, the pressure of unemployed funds is helping corporations to obtain temporary running financial accommodations, although at rates above the ordinarily quoted time money figures.

OTTAWA LIQUOR LICENSES.

BEER ADVERTISEMENTS MUST BE REMOVED FROM SALOONS' OUTER WALLS.

Ottawa, April 23.—The Ottawa License Commissioners took up Monday night the problem of cutting off ten local hotel licenses recently decided upon by the City Council. The conflicting interests were heard, but action was deferred for a week. Meanwhile a rigid inspection of all licensed premises will be made. It was, however, decided that all beer advertisements and the like, which decorate the outer walls of hotels must be removed at once, only the keeper's name being permitted. Alterations will also have to be made in many hostelries, so that a clear view of the bar-room interior may be had during prohibited hours.

A departmental inspector from Toronto has been in the city making a tour of the premises and several hostelries have been given the hint to make a general clean up at once. He even went so far as to cut off the licenses of several bartenders, who were found to be derelict in their duties to the public.

KING EDWARD'S TRIBUTE.

CAMPBELL-BANNERMAN WAS THE FAITHFUL SERVANT OF HIS COUNTRY.

London, April 25—"He was the faithful servant of his country; I am truly sorry he has gone," is the expression King Edward used on hearing at Copenhagen of the death of Sir Henry Campbell-Bannerman, and it well expresses the deep feeling of regret, as for a personal loss, underlying the tributes given in ungrudging measure by public and newspapers of all shades of opinion.

That all are ready to admit that Sir Henry Campbell-Bannerman was not a great statesman of genius, or even a great administrator, is not allowed to detract from the volume, the warmth or the sincerity of these tributes to his great force of character, his undeviating honesty of purpose, his courage and geniality of disposition, which enabled him to win all hearts, and his tacit dealing with men which brought him to the highest position of state.

PEARCETON.

Mr. Harvard Jones, who has been spending the winter at Boynton, has returned home.

Mr. and Mrs. George Wightman, of Bedford, were guests at Mr. Roderick Wightman's one day recently.

The teacher, Miss E. Norris, accompanied by Miss Lottie Clough, spent the Easter holidays at Granby and Milton.

Although the sugar season is not quite finished, the sugar makers are getting tired of it and are gathering their buckets.

Departures include Miss Margaret Stevens, after spending two weeks with relatives, to her home in Watertown, N.Y.; Mr. M. Gage, after spending the Easter holidays at his home, back to his duties in Montreal.

JAMIESON.

Mr. Wm. Gigg, who has been employed for the past two years with Mr. W. J. Forbes has engaged for another year.

Mr. and Mrs. Jos. Williamson, of East Angus, have been visiting friends in this vicinity recently.

Mrs. Little, of Irvine, accompanied by her mother, Mrs. D. Moffatt, visited Mr. and Mrs. Jamieson recently.

Miss Annie McKinnon is home from McGill, where she is taking the Arts course.

Miss Maud Kerr is home from Sherbrooke with her parents, Mr. and Mrs. Robt. Kerr, of Hillcrest.

So far there is very little sugar made in this vicinity as yet. There is also very little driving of lumber as yet, the water being very low for this time of year.

BROMPTON.

Mayor O. Lambert gave a sugar party here this week which was much appreciated. Sugar was served in various styles, to the large number present. All enjoyed the hospitality of the Mayor whose broad invitation was thoroughly taken advantage of.

Arrivals are—Mr. W. G. Tobin in town, guest of Mr. E. W. Tobin, M.P., Easter holidays; Mr. and Mrs. Lesarge and daughter, of Pointt Claire, the guests of Mr. and Mrs. J. M. G. Poirier; Mr. J. A. Begin, N.P., Windsor Mills, accompanied by his sister, the guests of Mr. and Mrs. E. W. Tobin, this week; Miss A. Mullens, of Coaticook, in town visiting Mrs. James P. Mullens; Mr. and Mrs. E. Gregoire and daughter, Helena, from Danby; Mrs. Jas. McKeown, of Island Pond, and Miss E. McKeown, of Lowell, Mass., guests of Mr. and Mrs. T. Gregoire.

Deaths Reported.

MRS. MORRIS, GRANBY.

Granby, April 25.—(Special.) —Mrs. Morris, widow of the late Denis Morris, died on Friday morning after a long illness. She was a victim of the dread disease, consumption.

MRS. E. ROUSSEAU, GRANBY.

Granby, April 25.—(Special.) —Mrs. E. Rousseau, relict of the late Mr. E. Rousseau, passed away at her residence Main street, on Friday morning at the advanced age of 71 years. This aged couple have both been called to their last home this week. Mr. Rousseau was buried only one day before her death.

INFANT OF MR. H. GARNEAU, GOULD STATION.

Massawippi, April 25.—(Special.) —The infant of Mr. and Mrs. H. Garneau, of Gould Station, died and was brought here for burial Sunday last. Rev. Moore, of Ayer's Cliff, conducted the service at the church. The mourners were the parents and grandparents, Mr. and Mrs. Albee and family. They have the sympathy of the community in their loss.

MRS. PHILIP MOSS, BROOKBURY.

Brookbury, April 25.—(Special.) —The death of Mrs. Philip Moss occurred on Tuesday evening, the 21st inst. Deceased had been in failing health for the past two or three years of dropsy and heart trouble. The funeral was held at St. John's church on Thursday afternoon, the Rev. C. B. Washer performing the last rite. She was married to Mr. Moss about eight years ago, being his second wife. The interment was in the Brookbury cemetery. Mr. Chapman, of Robinson, had charge. The bearers were Messrs. W. J. and G. C. Batley, A. W. Saunders and H. M. Tite. The chief mourners were the husband, Mrs. Paige, of Sherbrooke, and Mrs. Worby, of Eaton Corner, his sister; Mr. and Mrs. Olson, of Learned Plain, the former deceased's brother, Mrs. Lowe, step-daughther, besides nieces and nephews.

COLORED BISHOPS SUE RAILROADS.

ACTION BASED ON PRESIDENT ROOSEVELT'S LETTER.

Washington, April 25. — The interstate commerce commission expect soon to hold a hearing in a case of great interest in connection with the letter sent by President Roosevelt to the department of justice in regard to enforcing the laws requiring equal accommodation for negro and white passengers.

The case is that of five bishops of the African Methodist Episcopal church against four large railroads of the south and the Pullman Company.

Inferior accommodation for passengers of the African race, the refusal of sleeping car and dining car facilities and other alleged discriminations constitute the grounds for the complaint.

The complaint which is aimed at all of the railroads operating in the south is made directly against the Seaboard Air Line, the Richmond, Fredericksburg & Potomac, the Southern, the Central of Georgia and the Pullman Co., all of which practically have denied the charges contained in the complaint made by Bishops Wesley M. Gaines and H. M. Turner, of Atlanta; Evans Tyrce of Nashville; U. S. Smith of Detroit and F. H. Lampton, of Washington, D. C.

A petition from the general conference of the African Methodist Episcopal Church accompanies the complaint.

GAVE HIMSELF UP TO QUEBEC POLICE.

F. GOLDING SAYS HE SHOT MAN NAMED JARDINE.

Quebec, April 25.—Walking into the Central Police Station Tuesday morning a man, who gave his name as Francis Golding, and said he hailed from Toronto, asked to see Detective Tom Walsh.

To this official he made the declaration that he came to give himself up, explaining as the reason for doing so that he shot a man in a Toronto saloon two weeks ago last Saturday.

The man, Golding, who appears to be very respectable and well educated, stated that the man in question, whose name he gave as Jardine, a travelling salesman, had alienated his wife's affections and that it was in revenge for this that he shot him.

Golding is now held in the Central Station and in the meantime Detective Walsh has wired the Toronto authorities to try and verify the statements made by the man.

ELEVATOR BURNED AT TORONTO.

HOSE REEL GOING TO FIRE KILLED A WOMAN.

Toronto, April 23.—The old Grand Trunk grain elevator at the foot of Spadina avenue was burned Tuesday morning with a loss of $81,000, fully covered by insurance. It was a relic of the old Northern Railway, and was little used of late.

For a time the Grand Trunk shops, city pumping station and several boat houses were in danger.

While going to the fire the hose reel ran over and killed Mrs. Mary Scott, widow, and another reel escaped colliding with a train at a level crossing.

NORTH COATICOOK.

At Christ's church last Sunday morning Holy Communion was celebrated, and at the afternoon service the church was well filled. The chancel and altar were decorated with a large quantity of plants and flowers. Excellent music was rendered by the choir. The Rector preached a most excellent sermon appropriate to the occasion. The rite of baptism was administered to the little daughter of Mr. Robins.

It was with deep regret that one learned of the death of Mr. Elmer Bliss, of Moe's River. One was forcibly reminded of the very bright and intelligent boy who was a member of the Sabbath school class for many years. The deepest sympathy is extended to the bereaved parents in their affliction.

Mrs. William Lamb, who has been the guest of Mr. and Mrs. A. A. Dutton, has returned to her home in Bromptonville.

Miss Florence Hopkins spent the Easter holidays at Sherbrooke.

Mr. Montgomery and family, of Montreal, have arrived and taken possession of their new home, which they purchased from Mr. O. E. Gronberg. All are ready to give them a hearty welcome, and at the same time deeply regret the departure of Mr. Gronberg and family to Montreal, for in them was always found a kind friend and one always ready to help in every time of need.

The Easter ball will take place in Mead's Hall Friday evening.

MANY WILL BE GLAD OF THIS

Catarrh Easily Eradicated by Using a Very Simple Home-made Mixture.

Here is a simple prescription, which drives from the blood and system every vestige of catarrhal poison with remarkable promptness. To prepare the mixture: Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, and three ounces Compound Syrup Sarsaparilla. Shake well and use in teaspoonful doses after each meal and at bedtime.

This is a harmless mixture, which has a peculiar action upon the eliminative tissues of the Kidneys, assisting them to filter and strain from the blood and system the catarrhal poisons, which, if not eradicated, are absorbed by the mucous membrane, and an open sore or catarrh is the result.

This remarkably simple recipe has been the means of relieving thousands of men and women of this foul and dangerous disease, and every sufferer here should give it a test, as it is not expensive nor unpleasant to take.

Prepare some and try it, anyway, as it is certain to do much good, if only to purify and sweeten the blood; though it may prove just what your system requires to overcome the catarrhal condition.

LADDS VILLAGE.

Mrs. E. A. Goff, who has been visiting friends at Worcester since January last, returned home on Saturday.

Miss Muriel Goff, who is attending the Danville Academy, spent Easter holidays with her parents here.

Miss Beatrice Lefebvre spent her Easter holidays with her parents at St. Giles.

A large party of young people drove up to sample Mr. Charles Fraser's maple sugar on Saturday afternoon.

WOULD-YOU-LIKE-TO-READ-THE-STORY OF-THE FURNACE?

Just write on a post-card, "Send Booklet A," and mail to nearest branch. The rest we'll gladly attend to.

—Just how correct principles say it should be constructed?
—Just why no other plan of construction will do?
—Just wherein lies its ability to be easy on fuel, quick in action, simple in operation?

The story is briefly told in a little booklet called "Furnace Facts." It's not an advertisement. No furnace name is mentioned, and you can read the whole story in 5 minutes.

To the party contemplating purchasing a furnace it points out the snags and pitfalls, and shows exactly what to demand of an architect, contractor or dealer, in furnace construction and installation.

CITY NEWS

Berean Club will meet at the Y. C. A. tonight at 6.15.

Ernest Armitage, from Beauce, is the Eastertide with his parents, Mr. and Mrs. George Armitage, in

meeting of the Sherbrooke Court No. 1, K. P. was held in the Odell Block on Tuesday evening, and was visited by several of the prominent officers of the Grand Lodge. Among those present were G. Chan., J. R. Baker; S. R.; G. P., M. J. Baker; S. R.; Powers; G. R., W. R. Weist, of Lennoxville. The degrees exemplified were the Page and Esquire. At the close of the work the local members were addressed by the visitors, after which refreshments were served.

"Easter tea" given yesterday afternoon by the Ladies' Aid of Plymouth Congregational Church, was one of the most successful and enjoyable events in the history of the society. The hall was almost crowded, over one hundred and fifty guests being present. Nearly all the churches in the city were represented, a striking feature of Sherbrooke life being the growing friendliness of the various congregations who are agreed to worship, each in its own way but in the "unity of the spirit, and the bond of peace." A delightful programme was furnished and much appreciated. Miss Hubbard and Mr. F. L. Stone opening with a duet for two pianos, "A. Minor Concerto" (Grieg), followed by violin solo by Miss Taylor, of Lennoxville, who was accompanied on the piano by her sister and responded to an encore; Mrs. Hubbard sang vocal solos by Mrs. G. J. Parmelee, of Richmond, and Miss A. Hubbard and an entertaining reading by Mr. F. E. Knowlton. Mr. Stone contributed a piano solo, "Spinning Song," (Litoeff), and two choruses for female voices were prettily rendered by the younger members of the congregation. Tea was served by the executive and a few of the members, the tea-table being decorated with a tree-of-snow azalea, and pots of flowering plants. Mrs. McCulloch and Mrs. McGillivray poured tea. Tall Easter lilies, palms, and plants in bloom were effectively arranged on the platform, and the occasion was one to be long remembered.

One of the saddest funerals in recent years, was that of yesterday afternoon, when the mortal remains of Mrs. A.G.Bonnallie, cut off in the flower of womanhood, were borne from her late home on Quebec street to St. Peter's Church, and thence to the English cemetery on Prospect street, for interment. Prayers at the house were said by Rev. Canon Shreve, who, also, officiated at the church, assisted by Rev. W. S. G. Bunbury. The simple service of the Church of England was strikingly solemn and impressive, a large choir chanting the 39th psalm in the office for the burial of the dead, and the singing with deep sympathy and expression, "Abide With Me," and "On the Resurrection Morning," most appropriate hymns. The bearers were R. Macdonald, E. C. Fraser, F. Adams-Briggs, E. O. Grundy, E. L. Stuart-Patterson and Dr. E. J. Williams. The following were pall-bearers: Capt. C. K. Fraser, J. P. Wells, A. W. Blue, G. S. McFadden, Dr. W. W. Lynch and A. S. Hobson. The mourners were:—Messrs. A.G.Bonnallie, husband of deceased; Arthur Macfarlane, Montreal, and Earl Tabb, cousins; Dr. F. J. Austin and E. S. Fee, St. Hyacinthe. The commitment service at the grave was said by Rev. Mr. Bunbury. The Eastern Townships Bank was practically closed during the afternoon, the General Manager, Mr. Jas. Mackinnon, the Local Manager, Mr. E. L. Stuart-Patterson, Mr. S. Edgell, and almost the entire staff attending the funeral, in a body, to testify to their sympathy with the bereaved family. Quantities of most exquisite flowers covered the casket, and filled a carriage which preceded the hearse, sent by friends in Sherbrooke, Montreal, St. Hyacinthe, and other places. The late Mrs. Bonnallie, who was the fourth daughter of the late H. B. Brown, K.C., leaves in addition to her husband, her mother, Mrs. H. B. Brown, two sisters, Mrs. Rupert Kaulbach, of Lunenburg, N.S.; Miss Ruth Brown, Sherbrooke, and one brother, Mr. Lewis Brown, who is in the Northwest.

HARMONY BAND BAZAAR.

Friday evening at the bazaar was very well attended. The programme was filled by the C.O.F. band, which volunteered their services. The Harmony band is grateful to the sister organization for the courtesy shown on this occasion. The programme, which appeared in the Record, was very well rendered and much enjoyed. Mrs. C. Beaudoin, who always pleases her audience, rendered a few songs, which were much applauded. Miss Caron played piano solos with great effect and was also greeted with a good round of applause. The popularity contest is drawing to the end and is getting warmer and warmer. The finish will be interesting to-night. All votes must be in by 11 p.m., and will be counted and result given. The winner will be presented with the solid gold medal which has been displayed in Mr. J. H. D. Codere's window. Those who have not get visited the bazaar and contributed their share towards the keeping up of the band are expected this evening. Drawing of the articles and closing of the bazaar. Come one, come all. Refreshments served. Cigars, soft drinks, etc.

MISERABLES SEE THE POPE.

FEVER-STRICKEN, STARVING PEASANTS VISIT HIS HOLINESS.

Rome, April 25—The Pope Thursday gave an audience to fifteen hundred fever-stricken, half-starved peasants from the Roman Compagna. His Holiness made a speech to them, expressing affection for the poor and lowly, and promising them financial help to relieve their miseries. The peasants cheered and wept. The Pope was so much moved by their gratitude that he wept while he was blessing them.

THE HISTORIC TRUTH OF THE RESURRECTION; FOUNDATION OF CHRISTIAN FAITH AND PREACHING.

A sermon preached by the Rev. R.A. Parrock, M.A., LL.D., Principal of Bishop's College, at St. George's Church, Lennoxville, on Easter Sunday, 1908.

1. Cor., 15: 14,—"If Christ be not risen, then is our preaching vain, and your faith is also vain."

There is an ancient proverb that warns us against "putting all our eggs in one basket,"—a proverb which is doubtless full of wordly wisdom and prudence in connection with that sphere with which it usually deals, for, in human affairs, when wordly prudence and foresight have done everything possible, there still remains a certain element of risk and uncertainty against which some such precaution as the proverb suggests has to be taken.

But though this is the case in human affairs, the very opposite is true of the foundation of our most holy faith. There we stake everything on the truth of a single issue. The fact of the Resurrection which all Christendom is once more celebrating with joy and gladness is the one and only foundation of the home for the sons and daughters of humanity eternal in the Heavens. And it is well in these days of "New Theology" when attempts are constantly being made to eliminate the miraculous from the Gospel narratives and to set up a purely ethical form of teaching, it is well that we should sometimes be reminded of the great elemental facts upon which the first preaching of Christianity was based. There is no uncertain sound in the words of St. Paul—on the contrary, there is the triumphant tone of absolute assurance. "If Christ be not risen, then is our preaching vain, and your faith is also vain."

I.

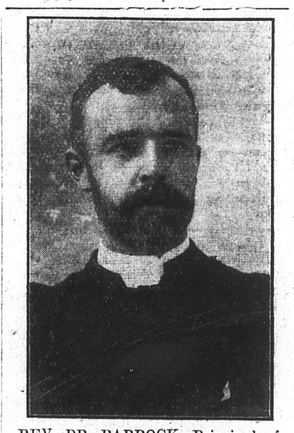
Seeing then the supreme importance of the great doctrine commemorated by to-day's festival, let us examine the evidence upon which it is based, and which in every age the Church is able to offer in relief of doubt and to the eternal comfort of the faithful believer. We may say at the outset that the evidence of our Lord's death upon the Cross, and of his Resurrection on the third day and of his subsequent appearances both to individual disciples and to large numbers of people is as full and complete as the evidence on which we believe other facts recorded in the history of the world, and St. Paul, in this same epistle to the Corinthians is able to appeal to the evidence of five hundred brethren who had seen and spoken with the risen Lord.

But there are other circumstances in connection with this evidence which make it particularly convincing. His enemies had taken every precaution to prevent any such story being circulated. They had gone to Pilate and represented that Jesus Christ had announced that He would rise again on the third day. They had urged that every precaution should be taken not only against such a thing happening, but, also, against the slightest suspicion of any fulfilment of His words, and, consequently, they set a watch, and they sealed the stone, and thus took every precaution against the possibility of fraud or error. And this conduct on their part has had a result that they never dreamed of. It has added to the certainty of the evidence that our Lord, Jesus Christ, rose, through the sealed stone, because He could not be holden any longer in the chains of death.

And, secondly, we have the evidence of our Lord's disciples. They were not credulous people who were only too willing to accept the Resurrection upon any plea whatsoever,—quite the contrary was true. Although our Lord had spoken several times, and not ambiguously of His rising again on the third day, they had not understood these things, and they had everyone of them regarded the death of their Leader on the Cross as the end of the hopes that He had inspired. Those faithful women who with a woman's courage, "went early while it was yet dark unto the sepulchre" had no idea whatsoever of meeting their risen Lord. Their hearts were filled with deepest sadness as they went to complete those last loving offices to the dead which had been only partly completed in their haste on the eve of the Passover. Their anxiety was great when they found the stone rolled away from the tomb, and when they came back with their amazing news to the disciples, "their words appeared unto them as idle tales, and they believed them not." In fact, it was only when they could no longer be false to the evidences of their own senses that they were convinced that their Lord so truly loved, was restored to them in a glorified humanity.

And thirdly, this evidence is greatly strengthened not only by the fact that the early disciples were ready to lay down their lives in support of it, but also, by the marvellous change that took place in themselves and in their lives. Before they were convinced, they were poor trembling men and women, quite incapable of originating any course of action, let alone the movement to evangelize the world. After they were convinced, and after the gift of the Holy Spirit, they were transformed into the dauntless pioneers of Christianity, counting all things as lost if only they might preach Jesus Christ, Him Crucified and Him Risen.

And fourthly, the foundation of the Christian Church, her continuance and her spread through succeeding ages in the teeth of the bitterest persecution, and her existence to-day still powerful to supply all the spiritual needs of



REV. DR. PARROCK, Principal of Bishop's College.

humanity are facts impossible of explanation, if Christ be not risen. If Christ were a mere man and His disciples were mistaken in the central point of their teaching, the existence of the Church to-day is a far more difficult problem than the belief in the Resurrection from the dead.

II.

If such then be in outline the evidence for the Resurrection, and the considerations that make it specially convincing, let us consider what the power of the Resurrection of Jesus Christ means to us to-day.

It is in the first place the revelation and the pledge of our own immortality. We, too, shall pass through the grave and the gate of death to a glorious Resurrection to life eternal, and this surely transforms and ennobles even the most commonplace life. It widens our horizon, it lifts our ideals, it raises our aims from the seen to the unseen, from earth to heaven, and explains the inequalities and the injustice in this present world in a way that no other religion has ever done. It consoles our sorrows, and our bereavements, with a comfort that surpasses the power of the truest human sympathy, and it brings into our lives that eternal and unbroken peace that is God-given and God-preserved.

And secondly, the power of the Resurrection gives us the strength to live here and now the risen life. It is a great mistake to think that this blessedness relates to a far distant future. Even here and now in the midst of this naughty world the Christian is buried with Christ, and risen with Christ, and his life is hid with Christ in God; the power of death is forever conquered, and the grave is reft of its terrors, because, we are permitted to begin even here and now that risen life which shall continue to be ours, only in greater fullness, when we have passed through the dark valley and are in the immediate presence of our risen Saviour.

And so, brethren, to-day, on this joyful Easter festival, with Nature at the dawn of a new life teaching us the same lesson in her own sweet way, and with the emblems around us of fresh life and more beautiful, triumphant over death and decay, let us ratify our faith in the Resurrection of our Blessed Redeemer, let us pledge ourselves in the power of his endless life, "To seek those things which are above, where Christ sitteth at the right hand of God."

COWANSVILLE.

The petition of Messrs. R. F. and E. J. Woodburn, asking that certain pencil-machines be excepted from the hypothec held by this village on the Woodburn plant here, was withdrawn from the court in Montreal Thursday, each party paying their own costs.

Mrs. Edward Jaques, of Montreal, has been visiting her sister-in-law, the Misses Jaques, of this place, for a few days, and returned home Friday evening.

Miss Mazie Boyd, of Montreal, is the guest of her sister, M(s. G. F. L. Fuller.

Mrs. Beauchamp, who has been visiting Mrs. A. E. Ross for some time, left here on Wednesday evening to accompany her husband from Montreal to Kalamazoo, Michigan, where he has secured a fine business opening. Mrs. Beauchamp will be especially missed by the musical circles here, as she was taking one of the leading roles in the production of "Pinafore," at the Town Hall next Wednesday and Thursday evening. In connection with this production, it might be well noted that Mrs. H. C. Cotton and her daughter, Miss Katherine, went to Richford, Vt., one evening this week to attend the production there of the same opera under the direction of Mr. and Mrs. Van Duser, who are putting it on here, and report a splendid performance.

Messrs. Horace and R. H. McClary, of Knowlton, were here Wednesday.

THE WORK OF THE QUEBEC LEGISLATURE.

(Continued from Page 1.)

question of cost, Mr. Leblanc favoring a limit of $5000 a year, the resolutions were passed and a bill introduced and read a first time. The outlay will be above $11,000 a year. A bill to provide for the appointment of a Deputy Speaker also passed.

THE LIBERAL CAUCUS.

The first caucus of the Liberals was held and was brief. It has, however, become known that the question of an increased indemnity of $200 a session was discussed, but that it was thought inexpedient to pass such a measure this year. Later on, in the chamber, the question of a general election was spoken of, but the Premier refused to be definite on the subject. The matter had, he said, not been discussed with the Lieutenant-Governor, and the Legislative Assembly did not end by expiration of time until January, 1910. Elections might, however, take place before. The members generally believe that they may gird on their armor for the fray.

GAME PROTECTION.

Sportsmen and all who work to see the extinction of our game prevented will approve of the new law protecting beavers and partridges for two years. The law is so framed as to be most drastic and its severity ought to deter anyone from violating it.

Workingmen will be pleased with the passage of an enactment to prevent abuses in sub-contracts and to provide for the payment of the wages current in the localities where the work is done as paid to competent workmen.

Naturally the liquor question has overshadowed everything in the consideration of the License Act, but other licenses are dealt with. For example pedlars' licenses ($50) remains at the old figure, save in Montreal and Quebec, where a further charge of $150 is imposed as asked for by the trades. Pedlars of fruit and eatables, such as tea and coffee, fuel and coal oil go free.

The measure to ensure the inspection of scaffolding has passed and this will meet with the approval of all who have to hazard life and limb on these too frequently scanty structures.

Dr. Pelletier has a resolution on the paper asserting the necessity for due inspection of locomotive engines, a protective measure which meets general endorsation.

The adjournment of the House is expected to take place on Saturday.

COLONIZATION GRANTS.

Dr. Pelletier put the following question in the Assembly Thursday: Did Hon. Thomas Chapais, the Commissioner of Colonization and Mines, in the Flynn Government, prepare and cause to be approved by the Lieutenant-Governor in Council, a list of distribution of the $100,000.00 which the Legislature had, during its session of 1896-97, voted for the work to be done on colonization roads during the year 1897-98? If so, at what date was such list of distribution prepared and approved; what amount according to such list, was to be spent for visits and explorations and what amount was to be spent for colonization works in each of the following counties: Bellechasse, Wolfe, Bonaventure, Montmorency, Charlevoix, Laprairie, Shefford, St. Hyacinthe, Portneuf and Levis, Bagot, Maskinonge and Dorchester?

Hon. C. R. Devlin replied that on the 17th of April, 1897, the Lieutenant-Governor-in-Council, on the recommendation of Mr. Chapais, commissioner of Colonization and Mines, approved of a distribution list of $100,000.00 that had been voted by the Legislature at the session of 1896-97 for works to be performed on the colonization roads during the fiscal year 1897-8 according to this list expenditure was to be expenditure for surveys and explorations, $23,150 for works of colonization in the following counties: Bagot, $200; Maskinonge (none), Dorchester, $3,000; Bellechasse, $200; Wolfe $3,000; Bonaventure, $1,000; Montmorency, $1,000; Charlevoix, $500; Laprairie, $500; Shefford, $400; St. Hyacinthe, $200; Portneuf, $300; Levis, $150.

It is generally understood that the rumors to the effect that Mr. Champagne, M.L.A., will take the seat in the Council, vacant by the death of the late Hon. Mr. Mathieu are well founded.

AMUSEMENTS.

MISS ROSELLE KNOTT, in "Alice-Sit-by-The-Fire," Clement Theatre, Tuesday, April 28th.

Miss Roselle Knott requires no introduction to Canadians as she has already won the esteem and admiration of the people of the Continent from the Atlantic to the Pacific, and is acknowledged to be a very clever interpreter of the better class of dramas. She brings with her on this occasion, an exceptionally strong supporting company, in J. M. Barrie's comedy, "Alice-Sit-By-The-Fire." The production is an elaborate one, every act, scene and property being carried, and will, it is assured, be given in its entirety.

HOURS FOR SALE OF LIQUOR UNCHANGED.

(Continued from Page 1.)

been given to Councils, to restrict the sale of liquor to certain hours. This was the proposal.

Ald. Thompson said there was no doubt quite a temperance wave passing over the country. The reason given for this early closing proposal, was the desire to protect the families of men who squander their earnings. He believed the general custom among employers of labor was to pay on Friday. Now, it was proposed to close the bars on the evening of the next day, or more than 24 hours after pay time. It looked to him like locking the barn door after the horse had been stolen. He believed that there were some defects in the Quebec license law. It was hard to enforce it. The man who buys illegally was as liable to punishment as the man who sells illegally. It was hard to get a man to convict himself. If the police were backed by the Council and the law as it stands strictly enforced the thought all requirements would be met. Besides, many trains were coming into the city evenings. Many people went from the trains to the hotels. If the bars were closed liquor would be ordered to the dining rooms or the private rooms and the distribution would be spread rather than restricted.

Alderman Lanctot said this was a public question and should be treated as such. The hotel business was a profitable business and a few hours, more or less, of bar operation would not seriously affect it. Unfortunately, there were in this town, as in every other, men who sometimes forget the needs of their families. The families were in need of all their earnings. They should be with their families on Saturday evening enjoying home life, instead of elsewhere. Their earnings should go to their families and not into the pockets of the hotel-keepers. If the aldermen were faithfully representing the public interests he felt they could not conscientiously do otherwise than support the early closing proposal. The defeat of the resolution might make some sixteen men a little wealthier but the public good demanded first consideration. His observation was that men coming in on trains Saturday night could not do better than proceed to their homes and prepare for a sober Sunday. A hotelkeeper, representing the Hotelkeepers' Association, had come to him, and asked his opinion on the matter. This man had said that he had his clients who would stand by him. They would stay with him and not with their families. He felt sure that if this measure should pass, the hotelkeepers present would shake hands with him and say you have done well. Ald. Thompson had said that the law should be applied to those who sought to evade the liquor law. He favored first to put them on their honor as citizens respecting the law by their own free will.

Alderman McCrea said the whiskey question was a vexed one. Some were benefitted by sale of liquor and some were ruined, the greater number was ruined. Every alderman had friends and enemies. It was natural to want to please one's friends. One did not care as much about his enemies. He thought, however, at the Council board, a man had no right to know either friends or enemies. He was here to do his duty in the interests of the citizens generally. It had been stated that if the bars were closed at 7 o'clock, the hotel men would open private rooms for sale of liquor. He had not found hotel men as a rule dishonorable men. He thought when they knew it was illegal to sell after seven o'clock, they would observe the law. If they persisted in evading it, the Council had the remedy when granting licenses the following year. Alderman McManamy had objected to the committee going beyond the request of the petitioners. It was true there had been a petition, but the Council did not require a petition at all to deal with this matter. The power was given by the Legislature. It was felt that the sale of liquor at the shops should also be restricted in accordance with the bar restriction. For himself, he thought the shop licenses should be done away with altogether. The hotels were a useful institution as were the churches, but the liquor shops did not serve any useful purpose. He thought after twelve months the hotel men would not consider themselves badly treated and would be glad that they had been able to contribute in this way to the benefit of humanity. The plea of strangers coming in on trains did not apply to Saturday night. Men were on that evening going to their homes for Sunday. He believed the adoption of the resolution would result in real good to the city.

Alderman Desaulniers opposed the resolution on the ground that the law as it stands is not enforced. He saw men on the streets on Sundays intoxicated. He did not know where they got their liquor, but it was evident that the law was not enforced. He did not think liquor sellers who would not observe the Sunday law would observe the early closing law.

The vote was then taken as stated above.

A motion was subsequently passed, calling attention of the Chief of Police to the clauses of the license law, and stating that the Council desires that these conditions shall be strictly lived up to and that the law be enforced in every respect.

There was considerable discussion over this motion and the form it should take. It was claimed that the police did not have the emphatic support of the Council in their efforts to enforce the law. The resolution was intended as an assurance to the Chief of Police that the Council stood behind him in the matter and especially directed that the conditions of the license law be enforced to the letter. The motion was adopted unanimously.

'FRUIT-A-TIVES' ALONE CURED HIM

Clarence J. Placey is a farmer of Ulverton, Que., known as a man of integrity and good judgment. He writes in no uncertain terms of the great benefit he derived from taking "Fruit-a-tives" for a long-standing kidney trouble.

Ulverton, Que.

I suffered for many years with kidney trouble, with bad pain in the back and all symptoms of disease of the kidneys. I took every known kidney remedy and kidney pill but nothing gave me relief and I was getting discouraged. I was advised to try "Fruit-a-tives" and I did so—and this medicine cured me when every other remedy failed. I used altogether fifteen boxes of "Fruit-a-tives" and from the outset they gave me relief and I am now practically well again, no pain in the back, no distress, and all the symptoms of severe kidney disease have entirely left me. I am very thankful to be once more well and I freely make this statement for the sake of others who may suffer as I suffered and to them I say "Try "Fruit-a-tives."

Section 3. Any married man may become an Auxiliary Member by promptly and cheerfully purchasing for his own family—such toilet remedies or requisites as may be desired by any Active or Passive Member

NOTE 1. It is passing strange that we have no clubs for the improvement of one's natural appearance; "a back to nature club," so to speak. We certainly need them, for we all know that one lecture by a capable dermatologist would be more helpful to the complexion than a ton of beauty lotion.

NOTE 2. No one has other than encouragement for literary clubs, but we are forced to admit that many, many hours are devoted to looking up the depredations of some ancient Buccaneer, when the time would be worth more if spent in combating the depredations of dandruff germs.

NOTE 3. Upon this very subject, how many know about the dandruff germ and the havoc it creates in a luxuriant growth of hair? It is a deplorable fact that, up to within very recent years, one century after another rolled by without any important addition to our knowledge of hair preservation.

NOTE 4. Nearly six thousand years ago, or to be exact, 4000 B. C., the mother of the Egyptian King Chata (second king of the first dynasty) tried to save the hair of that monarch with a mixture of dogs' paws, dates and asses' hoofs, ground up and cooked in oil (Egyptian Papyrus). Similar remedies have been popular ever since.

NOTE 5. Just when cantharides took the place of dogs' paws in hair remedies is not known, but Hippocrates, "the father of medicine," used it four hundred years B.C., and it has been in constant use—with no benefit whatever—up to within the present decade. Most hair remedies contain it even now. What is "cantharides?" Simply a foul smelling dead fly or bug from the Levant that has been dried, powdered and soaked in alcohol. The elder Pliny, A.D. 23, and also Dioscorides, overcame the "mousy" odor with hot vinegar.

NOTE 6. It remained for the eminent Ger Unna (ask your doctor about him discover that the real cause of dandruff, itch scalp and falling hair is an invisible microbe gr of vegetable character that lodges and develops i sebaceous glands of the hair follicles in the This shows that the disease is contagious and that the use of dead animals or bugs is worse useless.

Read how a guinea pig was denuded with dandruff germs, page 511, "Jackson on Diseases the Skin," 4th edition. Also Lancet, London, 24, '04; Medical Review of Reviews, New Nov. '01; New England Medical Monthly, Oct. Literary Digest, New York, March 1, '02, and 12, '04.

NOTE 7. The first remedy to successfully but the dandruff germ, stop itch and permit the hair to grow as nature intended, is bro's Herpicide. It is a scientific germicide and prophylactic. It does not stain or dye the hair, it contains no cantharides. While Newbro's Herpi will not cure chronic baldness or do anything "m cal," its intelligent use will produce results that to say the least, extraordinary. In addition to remedial qualities, it makes the hair light and flu and gives it a silken gloss. Doctor V. T. McGi cuddy, Denver, Colo., Medical Inspector Mutual L Insurance Company of New York, writes as follow concerning Newbro's Herpicide:

"Knowing the composition of Herpicide, I can sta that it contains nothing injurious. In a great num ber of cases of baldness, a neglected dandruff can b considered as its immediate exciting cause or associa ted condition. Your Herpicide will, in the vast ma jority of cases, cure and prevent the continuation o dandruff. It is an elegant and ideal hair dressing.
