Eastern Townships Bank

ANNUAL MEETING.

Notice is hereby given that, in accordance with a resolution passed by the Shareholders on the 14th February, 1903, and confirmed by Statute, changing the date of the Annual Meeting of the Bank from the first Wednesday in the month of June to the first Wednesday in the month of December, the Annual General Meeting of the Shareholders of the Bank will be held in their Banking House in the City of Sherbrooke, on

WEDNESDAY, SECOND DAY OF DECEMBER NEXT.

The chair will be taken at 2 p.m. By order of the Board,
JAS. MACKINNON,
General Manager
Sherbrooke, Que., Oct. 27, 1903.

Belvidere Ploughmen Hold Their First Annual Match.

WAS A BIG SUCCESS—BANKRUPT AT QUEEN'S HOTEL—ADDRESSES WERE GIVEN BY DR. PELLETIER, M.L.A., MAYOR FARWELL, MR. PANNETON, K. C., C. C. KNIGHT.

The first annual ploughing match under the auspices of the Sherbrooke and Belvidere Ploughmen's Association was held on Wednesday last on Villars' farm, Belvidere. The day was an ideal one, and the attendance of spectators was very large and great interest was manifested in the work of the ploughmen. The president and directors are to be congratulated on the success which attended their efforts in organizing the first ploughing match, and nothing was left undone to bring this about. The rules of the Association confined the entries to a certain boundary, but there is no doubt that later on these rules will be amended so as to allow others from without to enter. The entries numbered thirty-one, and included the young boy of twelve to that of the old man of seventy-six. All entered into the work with a spirit of enthusiasm, and although the ground was not the best suited for a ploughing match, the ploughmen did their best. The ploughing was judged by Mr. William Bell and Mr. A. E. Buchanan, Sherbrooke. Their task was no sinecure, and they gave entire satisfaction as was evidenced by the fact that not a single complaint was heard in connection with their awards. The horses were judged by Mr. A. M. Greenshields and Mr. E. Fitzgerald.

The prizes were awarded as follows:

OPEN MATCH.
Open to Ploughmen Anywhere Within Our Limits.
First prize, cup, presented by C. C. Knight, to be won twice before final ownership, and \$5.00 in cash by W. S. Armitage and \$3.00 by the Association—Alex. McClymont, Capelton.
Second—Cash \$8.00 and barrel flour by R. A. Bartlett, Esq.—John Baxter.
Third—\$5.00 and goods by Kerr & Foss—W. H. Smith, Belvidere.
Fourth—Blanket by Magog Woolen Mills and goods by J. S. Mitchell & Co.—A. Duncan, Belvidere.
Fifth—\$1.00 and goods by L. A. Codere—R. Cillas, Belvidere.

MATCH 2.
For Imitation Scotch Plows.
First, medal by S. C. Nutter, and bag of flour by Fuller & Wiggitt—E. Johnston, Capelton.
Second, \$7.00 and goods by R. Johnston—S. Jardine, Belvidere.
Third, \$6.00 and clock by L. Dupuy—C. H. Dundin, Lennoxville.
Fourth, \$5.00 and goods by D. W. Stenson—R. Collins, Belvidere.
Fifth, \$4.00 and goods by H. B. Bray—H. Smith, Belvidere.
Sixth, goods by J. A. Wiggitt and C. F. Olivier—E. Cillas, Belvidere.
Seventh, Examiner for one year, Stevens & Price—F. Patton, sr., Belvidere.

BOYS' CLASS, under 21 years.
First, cup presented by Dr. Worthington, and \$5.00—P. Fairbrother, Lennoxville.
Second, \$2.00 suit of overalls by T. Cowan and pair of pants by J. Rosenbloom—F. McGee, Belvidere.
Third, \$4.00 and goods by Morency & Millett—Howard Gaie, Belvidere.
Fourth, \$3.00 and goods by J. Smith—J. Arquin, Lennoxville.
Fifth, \$2.00 and pair of gloves by E. E. Bean—W. Wheeler, Belvidere.
Sixth, \$1.00 and goods from D. J. McManamy—B. Hutchison, Belvidere.
Seventh, goods by C. F. Olivier—Bruce Baxter.

SPECIALS.
Special prize in open match for best crown, four times around, 1 barrel of flour of flour from C. C. Clough & Co.—John Baxter and A. McClymont, equal.
For best finish, 500 lbs. phosphate by Nichols & Co., Capelton—John Baxter.
In Match No. 2, for the best crown, goods from Massey-Harris Co., value \$8.00—C. H. Dundin, Lennoxville.
For the best finish, 500 lbs. phosphate, by G. H. Nichols & Co., Capelton, value \$6.25—S. Jardine and E. Johnston, equal.
For the best ridge on the field, goods by R. J. Spearing—Alex. McClymont, Capelton.
For the straightest ploughing, centre table by F. R. Labonte—S. Jardine.

For the best pair of horses ever 1200 lbs.—1, Pair blankets by E. J. King, \$5.00, and shoeing by R. J. O'Donnell—John Baxter; 2, Blanket by F. L. Bean and shoeing by W. Hubbard—W. S. Armitage; 3, bag of flour by Wm. Murray & Co.—W. Parnan, Belvidere; 4, 5 lbs. tea by C. S.

White—J. Arquin.
For the best groomed horse and harness—1st, 5 lbs. tea by C. A. Bourque, shoeing by C. F. Waille, and brush by P. Desaulniers—W. S. Armitage.
For best turnout, umbrella by T. Belanger—John Baxter.
For oldest ploughman on field, pair trousers by E. T. Clothing Store—John Digby, Belvidere.
For the youngest married ploughman, easel by J. K. Edwards—F. Patton.
Youngest ploughman—Bruce Baxter.
For the man with the largest family that has competed in any match goods from Codere & Sons—Jas. Ellis, Belvidere.
For ploughman with youngest child—A. Duncan.
For the best pair of horses under 1200 lbs.—1, J. Cillas; 2, R. Cillas; 3, E. Cillas; 4, R. Cillas; 5, R. Collins; 6, John Digby.

EVENING MEETING.

In the evening the directors and members of the Association met in the Queen's Hotel, where a dinner was held and the distribution of prizes took place. There were several invited guests, including Dr. Pelletier, M.P.P. for the county Mayor Wm. Farwell, Mr. L. E. Panneton, K.C., and Mr. Geo. Armitage and others. Covers were laid for over one hundred, and the tables in the spacious dining room were nicely laid out, and the good things were appreciated all the more by the fact that the serving was first class.

Mr. W. S. Armitage, president of the Association, presided, and the honored guests sat on his right and left. Dinner finished the President opened the proceedings by presenting the prizes to the successful winners. Mayor Farwell on being called upon to address the meeting, thanked the Association for their kind invitation to be with them that evening. He had always taken a great interest in agricultural pursuits. He had no doubt that while they were improving in their ploughing they were also improving at the other branches of agriculture. The Mayor then referred to the changes which had taken place in farming in this section within the past forty years, and thought that the farmers had reason to congratulate themselves on the success which had attended their enterprise. There was no class in the community that showed such deposits as the farmer, which would probably exceed \$15,000,000. He did not believe that any greater success would attend those who went to the North-west than if they stayed at home. If the farmer in the Townships would put up with the same hardships and trials and loss in the social life as had to be borne in the west, the same success might attend them financially. He did not, however, believe that it was a good thing to put up with such hardships if it tended to break down the health. He did not believe that there was any better country than the Eastern Townships and success would follow all those who paid attention to the work on their farms. He closed by paying a compliment to the president and directors for the manner in which they had carried out the arrangements.

Dr. P. Pelletier, M.P.P., was next called upon. It was a great pleasure for him, he said, to be with them that evening, and it was also a pleasure to be with them during the afternoon. They had done great work to organize such a meeting in three weeks time, and it showed that the farmers were interested in their work. He thought the farmer of today were taking their profession—for it was a profession just as much as that of the doctor or lawyer—and by entering into friendly competition and rivalry they would learn a great deal that could not help but be of benefit to them on the farm. In the past this had not always been the case, and he trusted that this meeting once a year to compare work would continue more so in the future than has been the case in the past. He trusted that next year that instead of their being 31 ploughs on the field there would be double that number. He was glad to see that they recognize the man with the largest family. (Laughter.) That meant work for the doctors. (Laughter.) Napoleon had stated that the larger the family the more there were for the defence of the country. The farmer with the large family had so many more to work out the destiny of the country. There was no need of anyone going to the United States or the Canadian North-West in search of farms, for there was plenty of just as good land to be found in the Province of Quebec. Dr. Pelletier closed his remarks by giving every opportunity to the young people so they would be the men of tomorrow. (Applause.)

Mr. Panneton, K.C., said that Mayor Farwell had referred to the fact that he (the speaker) had been in public life, and he could assure them that there was nothing that gave him so much pleasure when in that life as attending just such gatherings of agricultural associations. He counselled the farmer to go in for good ploughing, for good ploughing was to a farm what a good foundation was to a house. There was no need for them to go west for they had as good soil in the E. T. and Province of Quebec as was to be found anywhere. They not only had a fine soil but their water powers were such as attract the attention of industrial concerns. (Applause.)

Mr. C. C. Knight, manager for the Eastern Townships of the Sun Life Co., on being called upon said: Life's

purpose should be for the attainment of happiness and to accomplish this purpose man must have some employment of mind and body—the enjoyment of which leads to contentment and proper living. To this end what employment of man is more ideal than agriculture. If rightly entered into and consciously followed, it certainly leads to independence, and hence happiness. The farmer is today the most independent man on earth. His occupation is at the foundation of manufacture and commerce and contributes by far the largest share to the nation's wealth. Farming nowadays is not the same as it used to be. Way back say in the 60's, when the scythe, cradle and hand rake were the principal implements. Now the mower takes the place of the scythe to lighten labor; the revolving rake in place of the cradle; the tread power in place of the flail. Now the separator, band cutter, grain weigher and a hundred and one other new inventions are your help. The years have made a wonderful difference. Successful farming has been the secret and foundation of it all. When you are successful all the wheels of industry are kept in motion. When crops are a failure there is a lull in the factory; mercantile pursuits are depressed and trade in general is dull. We are all dependent on the farmer and it is because of this I feel gratified and honored by the privilege of saying a word of cheer to you given me by your president.

Yours is a noble calling, gentlemen, requiring patience and intellect and industry. There are, true, hard, laborious hours and long days before success comes, but in response to these things it comes at last—I am safe, I think, in saying, Times never were better for our farmers than they are today. The result of the preference in the English markets given to our products by the old country consumers is that our products are going to England in enormous quantities and our farmers are receiving prices which they never received before. Today Canadian butter, Canadian cheese, Canadian fruits, and Canadian flour are being asked for and searched for by the English consumer. Keep up the standard of your products by taking advantage of every thing that will help you in your chosen calling. (Applause.)

IT IS NOW TIME TO
GET READY FOR WINTER.

We can supply you with
Horse Blankets, Halters, Surcingles, Tie Chains, etc.

—ALSO—
The Celebrated Wrought Steel Storm Window Fasteners,
no bother, can put them on and take them off in one minute.

Barn Rollers Track, Axes and "Maple Leaf" Saws. These things will be needed soon. Buy them now.

W. T. OUGHTRED,
MARBLETON.

purpose should be for the attainment of happiness and to accomplish this purpose man must have some employment of mind and body—the enjoyment of which leads to contentment and proper living. To this end what employment of man is more ideal than agriculture. If rightly entered into and consciously followed, it certainly leads to independence, and hence happiness. The farmer is today the most independent man on earth. His occupation is at the foundation of manufacture and commerce and contributes by far the largest share to the nation's wealth. Farming nowadays is not the same as it used to be. Way back say in the 60's, when the scythe, cradle and hand rake were the principal implements. The result of the preference in the English markets given to our products by the old country consumers is that our products are going to England in enormous quantities and our farmers are receiving prices which they never received before. Today Canadian butter, Canadian cheese, Canadian fruits, and Canadian flour are being asked for and searched for by the English consumer. Keep up the standard of your products by taking advantage of every thing that will help you in your chosen calling. (Applause.)

The chairman called on the judge to say a few words.
Mr. William Bell said that the ploughing done that day was very good and with a little more practice the ploughman in Belvidere need not be afraid to go to any other matches. Mr. A. E. Buchanan referred to the good work done by the boys and advised the Association to lend every assistance to them at their future matches.

Mr. Alex. Ames said that it gave him great pleasure to be present with the Belvidere Association that evening as representing the Sherbrooke and Lennoxville Association. He looked upon the Belvidere Association as an offspring of the Association he belonged to, and he believed that the establishment of another would tend to help the older Association. He thought that the Belvidere Association should open its doors to all the county, but he supposed for this year they wanted to see what they could do themselves before allowing all comers to enter.

After a few remarks from Mr. Geo. Armitage, a vote of thanks was awarded the President, Mr. W. S. Armitage and the secretary, Mr. Wheeler, and directors, and the meeting closed with the singing of God Save the King.

When you go to the country take a bottle of Weaver's Cerate along. It is useful to relieve pain caused by bites of animals, stings of insects, and in treating accidental burns and scalds.

Wood's Phospholine,
The Great English Remedy, is an old, well established and reliable preparation. Has been prescribed and used over 40 years. All druggists in the Dominion of Canada sell and recommend as being the only medicine of its kind that cures and gives universal satisfaction. It promptly and permanently cures all forms of Nervous Weakness, Exhaustion, Spasmodic, Impediment, and all effects of abuse or excesses; the excessive use of Tobacco, Opium or Stimulants, Mental and Brain Work, all of which lead to Infirmary, Insanity, Consumption and an Early Grave.

Before and After.

Prior to its use, six weeks, Mailed promptly on receipt of price. Send for free pamphlet. Address The Wood Company, Windsor, Ont., Canada.

Wood's Phospholine is sold in Sherbrooke by all druggists.

Autumn Jackets & Capes

The latest in Autumn and Winter Jackets are here, in our Ready to Wear Department, and judging from remarks we already hear from customers, it is gratifying to know that we still lead in this branch of our business.

If you want the correct style for autumn wear, come here, you will find the best fitting garments, and for value we are with you. The best for least money is what you will always find at our establishment. And we defy competition in every line.

Ladies' Tailor Made Skirts.

Our range of these skirts is just immense, and as our prices are popular, we anticipate an immense autumn trade.

Tailor Made Skirts as low as \$1.85
Tailor Made Skirts as high as \$10.00

For Ladies' Ready to Wear Garments in every style and make we are headquarters.

T. BELANGER,
145 Wellington Street.

DO YOU LIKE TO DEAL WITH US?

Do you find us obliging, anxious to please you?
We hope you do. We're only human, though, if we are Canadians, and sometimes things will go wrong.
We trust that it has always been with someone else, never with you.
We hate to have it occur at all, for it doesn't help our business.
Just now that business is to sell you an Overcoat—not any old kind of an overcoat, but one of the best you ever saw.
They're not shopworn, either—the lot we have—in fact we've just received them, and we have your size.

BOUCHER & LACROIX

Harvest Report Shows Increases in Quebec

Much Better Yield Is Realized Than Was Expected at Beginning of Season.

The Department of Agriculture of the Provincial Government has issued a special report on the harvests gathered in this Province this year. It says that a much better output has been realized than was expected at the time of the drought last spring. At that time it was expected that the highest yield realized would be 65.8 per cent. of the average yield. The good weather prevailing throughout the summer, however, the report adds, brings up the yield to 72 per cent. The products in which the greatest gain was made were wheat, barley, potatoes and fruit.

A larger acreage would have been secured had not the lower parts of the province been affected again with a severe drought in the early part of the autumn. The yield of apples and other fruits was much below the average.

C. C. RICHARDS & CO.

I was very sick with Quinsy and thought I would struggle. I used MINARD'S LINIMENT and it cured me at once. I am never without it now.

Yours gratefully,
MRS. C. D. PRINCE.
Nauwigewauk, Oct. 21st.

Mr. Chamberlain's speeches at Newcastle and Tynemouth, deals with the colonial aspect of the fiscal controversy. He practically accepts the offer of the Canadian manufacturers to raise the tariff against all foreign nations, and asserts that colonial fiscal freedom is not in as much danger as if a free trade Zollverein were suggested.

If you want to quit being a weather prophet, have your rheumatism cured by Milburn's Rheumatic Pills, a guaranteed remedy for Rheumatism, Sciatica, Neuralgia and Lumbago. Price 50¢ at all dealers.

Mr. A. B. Aylesworth, K.C., was tendered a banquet by the Canadian Club at Toronto on Monday evening on his return from London. He reviewed the Alaskan case, and made an appeal for acceptance, although he still believed the findings were not judicial.

Hagyard's Yellow Oil can be applied externally for rheumatism, stiff joints, chapped hands, chilblains, sprains, etc. It has been taken internally for croup, quinsy, bronchitis, pains in the stomach, kidney complaint, etc. Price 25¢.

A fourteen-year-old lad named Corkum was shot dead at Hantsport, N.S., while playing Halloween pranks. His murderer has been arrested.

A number of Montreal students caused a serious riot at Longueuil, opposite Montreal, on Saturday night, and were roughly handled by the inhabitants. Nearly fifty of the students were more or less injured.

FOR OVER SIXTY YEARS.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation and gives tone and energy to the whole system.

"Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurse in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

PREVENTION OF TUBERCULOSIS.

MAN'S GREATEST ENEMY—
THE DISEASE IS PREVENTABLE—IF PROPER PRECAUTIONS ARE ADOPTED

In St. Andrew's church on Sunday evening Dr. W. Duncan Smith gave an address on the cause and prevention of tuberculosis. He said in part:

(1). The object of this league is to prevent the prevalence of tuberculosis (1) by enlisting the co-operation of the people generally with the medical profession through the medium of the public press and the distribution of literature.

(2). By rendering assistance to needy tubercular patients where practicable, by supplying them with necessary comforts and pointing out the necessary precautions to be taken to prevent the spread of the disease.

(3). By acting in conjunction with the Canadian Association for the prevention of consumption and other tubercular disease in their efforts to secure such legislation as will tend to limit the spread of the disease.

Tuberculosis is not a newly discovered disease. About 400 B.C. Hippocrates, the most celebrated physician of antiquity, described pulmonary consumption as the disease which is "the most difficult to treat and which proves fatal to the greatest number." Isocrates, another Greek physician, living about the 5th century before Christ was the first to write of tuberculosis as a disease which is transmitted by contagion.

You will see that even before the Christian era it was credited with being man's greatest enemy. Down through the ages it has strewn its path with suffering and death.

That celebrated anatomist Morjan living at the end of the 17th century would never perform an autopsy upon an individual who had died of tuberculosis.

In Naples a royal decree dated Sept. 20, 1782, ordered the isolation of consumptives and the disinfection of their apartments, personal effects, books, etc., violating this law was punished by heavy fines and imprisonment.

While tuberculosis has been looked upon as one of the most serious diseases to which mankind is liable for the last 2500 years, its true cause was not discovered until 1882, when the great German scientist Robt. Koch found it was due to a minute organism or germ, the tubercle bacillus, so minute or small that it requires a very powerful microscope one that will magnify 1000 or 1200 times to see them.

Tuberculosis occurs as a natural disease in human beings and some of the domestic animals, but so far as known does not occur in wild animals.

Tuberculosis is a disease which may and does attack every tissue or organ of the body. The popular belief is that it is only a disease of the lungs. Almost every case of spinal curvature and hip joint disease is tubercular. Scrofula is of the same nature as well as most of those cases of enlarged glands so often seen especially about the neck. The skin, bones or any one of the internal organs is frequently the seat of the disease.

The form of tuberculosis with which we are most interested in as regards the usefulness of this society is what is commonly known as consumption or tubercular disease of the lungs.

WHAT IS CONSUMPTION?

Pulmonary consumption or tuberculosis of the lungs is a chronic disease caused by the presence of the tubercle bacillus or germ of consumption in the lungs. The disease is locally characterized by countless tubercles, that is to say, small rounded bodies visible to the naked eye containing great numbers of bacilli, the affected organ containing millions of these germs. It is this little parasite, fungus or mushroom, belonging to the lowest scale of vegetable life which must be considered the tree of life of all tubercular disease. This parasite gradually destroys the substance of the lung by ulceration and at the same time they form poisonous substances called toxins which give rise to various and often serious symptoms.

The important symptoms of consumption are cough (spitting phlegm) fever (increased temp. of the body, especially in the evening hours), difficulty in breathing, pains in the chest, night sweats, loss of appetite, hemorrhages (spitting of blood) and emaciation (loss of flesh).

How may the germs of consumption enter the human system.

(1) By being inhaled—that is, breathed into the lungs.

(2) By being ingested—that is, eaten tubercular food.

(3) By inoculation, that is the penetration of tubercular substance through a wound in the skin.

A consumptive, even when not confined to his bed may expectorate enormous quantities of bacilli. Now, if this expectoration or spittle is carelessly deposited here and there so that it has an opportunity to dry and become pulverized, the least draught or motion in the air may cause it to mingle with the dust and the individual breathing this dust is certainly exposed to danger of becoming tubercular if his system offers a favorable soil for the growth of the bacilli. By favorable soil for the growth of the bacilli must be under-

stood any condition in which the body is temporarily or permanently enfeebled. Such a condition may be inherited from parents or acquired through alcoholism or drunkenness or other intemperate habits, through privation or disease.

Consumptives and those living with them must know that all precautionary measures are instituted in the interests of the invalid as well as of his fellowmen.

In factories, stores, railroad cars, waiting rooms, etc., in short, wherever many people congregate, there should be a sufficient number of cuspidors well kept and regularly cleaned. If such measures are carried out there will be no excuse for any one to expectorate on the floor and thus endanger the lives of his fellowmen.

The dangers from sputum are greater in the home or living room of the patient, than in the open air, for in the latter it is soon dried and the bacilli are rapidly killed by means of the sunlight.

Speaking generally inhalation tuberculosis is a disease of young adult life although it may occur at all ages. Ingestion tuberculosis, that is where the germs enter the body by eating tubercular food, is a disease chiefly of childhood. The two greatest sources of infection are the sputum from a tubercular patient and milk from an affected animal.

The milk from cattle the subjects of tuberculosis of the internal organs and of the udder if consumed in the raw state is another source of infection but chiefly in children in whom until the 6th or 8th year it should form one of the chief articles of diet. To the ingestion of milk is no doubt to be ascribed all cases of intestinal tuberculosis and tubercular peritonitis that occur in children.

Infection by milk is prevented by sterilizing or boiling it for at least a minute.

As soon as tubercular cattle are rigidly excluded from the dairy there is no doubt that there will be a great diminution in cases of abdominal tuberculosis in children.

It is evident therefore from what has been said of the sources of infection that they can be prevented.

How far heredity conspires in the production of tuberculosis it is impossible to say. Several members of a family the offspring of tubercular parents may exhibit the disease but this is no strong argument in favor of inheritance. If members of a family live together and die off successively, the family is constantly surrounded by infective material, the danger of which is not appreciated it may well be then that many cases of so called hereditary consumption are only cases of infected surroundings.

It has been estimated that tuberculosis causes 2,000,000 deaths annually, that is nearly four per million. In the U.S. it kills nearly 150,000 a year. When you consider that 300,000 died in the four years of the American civil war, you therefore see it is more fatal than a great war.

What one of us can say that we have neither a relative or friend who has tuberculosis. What one of us can be sure that we may not some time be affected. If we have not that spirit which will make us care for the health of our neighbors, we certainly have an interest in the prevention of tuberculosis from the standpoint of selfishness. We may not realize it, but the interest in the prevention of this disease is universal.

When we consider the great mortality from this disease, and that every one died because some previous case scattered infection. A patient in an advanced stage of consumption will call off in his expectation several million germs a day, you will readily see the importance of properly caring for and disposing of the sputum, and how necessary it is in all cases to observe the greatest care in ventilating the rooms occupied by a consumptive and carrying out all hygiene and sanitary measures.

Houses after the death of a consumptive should be thoroughly disinfected and fumigated as well as all furniture, clothing and personal effects.

This is certainly a very dark picture but if we look upon its other side we find it much brightened and hopeful. This disease which destroys so many lives and leaves in its wake so much suffering and sorrow is a preventable disease.

Ordinary precautions on the part of the patient will make infection rare and painstaking care on his part will protect his attendant fully.

To impress you with the difference between care and carelessness in dealing with the disease we might look at the difference between those in the tenements in a large city and that in the sanatoriums. The tenement houses stand for everything that is unclean and unsanitary while the sanatoria are examples of hygiene and sanitation carried to the highest pitch of excellence. The inmates of the former are ignorant of sanitary laws, careless in their personal hygiene. The inmates of the sanatoria on the other hand are taught to be cleanly in their habits, live in sanitary quarters and are furnished with everything that is necessary to prevent the spread of the infection.

As a result tenement houses are hot beds of infection while sanatoria are most desirable places in which to live.

In the 4th and 6th wards in New York city, during the years 1894-5-6, cases of tuberculosis were reported in 38 per cent. of the dwellings and from 12 houses in this densely populated district 375 cases occurred in eight years. That means that these

A Terrible Cough.

Mrs. Thos. Carter, Northport, Ont., says, "I caught a severe cold which settled in my throat and lungs, and my friends thought it would send me to my grave, when other remedies failed, Dr. Wood's Norway Pine Syrup completely cured me."

houses were thoroughly saturated with the germs of the disease. Now let us see how the nurses and attendants who are intimately associated with tubercular patients in the sanatoria lares. In the Brompton Hospital, London, 15,000 cases have been treated in the last 20 years yet neither a nurse or an attendant has become affected, the same is the case with the sanatorium in the Adirondacks.

These examples teach us two important truths.

(1) Tenement houses shows that the disease can be communicated from one person to another.

(2) Sanatoria teaches us that tuberculosis is not a contagious disease in the ordinary sense in which that word is used and that the sick and the well may associate intimately together without infection taking place provided the necessary care is taken. In other words tuberculosis can be prevented.

This, in brief, is the statement of facts as we find them. What is to be done?

In the first place public opinion must be aroused. No great movement can go ahead of public opinion. Tuberculosis is so common that the aid of society as a whole is necessary in order to check its ravages. The public must be made to understand that the enormous death rate and the indescribable sufferings which are caused by this disease are unnecessary and that they are caused by a disease that is preventable. The fact that it can be communicated from one to another must be taught, while teaching these truths we must be careful not to create unnecessary alarm. The tubercular patient must not be treated as a leper. There is no danger in associating with him if he is careful. He should be instructed how to destroy his sputum and when this taken away.

It is claimed that fifty per cent. of those who are afflicted can be cured when treated early, then the public conscience should be aroused to its duty to see that those who are afflicted are given the opportunity to get well.

Every case that is prevented from reaching the advanced stage and every case that has already reached it and has been properly cared for is a step in the ultimate eradication of the disease.

While we are teaching the people how to prevent the spread of the germs that cause tuberculosis let us not forget that it is equally important to teach the necessity of living natural lives with a generous supply of sunlight in our homes and surrounded by fresh air and night.

The principles of hygiene and sanitation must be our guides to good health.

If a child eats ravenously, grinds the teeth at night and picks its nose, you may be almost certain it has worms and should administer without delay Dr. Low's Pleasant Worm Syrup, this remedy contains its own cathartic.

DEMAND FOR TURKEYS.

Canadian farmers who have turkeys to export can look for good prices this winter in the English market. This is made clear in a letter which the Department of Trade and Commerce, Ottawa, received from Lord Strathcona. His Lordship encloses a communication from Messrs. C. E. Brook & Sons, of Leadenhall Market, wherein they state that they learn that Canadian turkeys will be scarce this year in London for the Christmas market, and in view of the general appearance of high prices, they suggest that it would be to the advantage of Canadian dealers to ship a fair quantity. Prices for English turkeys, they say, will undoubtedly reach very high figures.

CANADA POSTAGE STAMP.

The Pall Mall Gazette says the new Canadian postage stamp is a much more artistic production than we have the privilege of sticking on our daily letters. The presentation of the King's portrait gives the youth of the Dominion a far better idea of the Imperial ruler than the dejected head which floats in space on the British stamp.

Minard's Liniment for sale everywhere.

HAD A BIG PULL.

The Manchester Mirror had the following in a recent number.

Joe Lefebvre came to town recently from the back woods in Canada. "Hullo, Joe," said his friend, Jules. "Where you been?"

"I been cutting trees in the woods," said Joe.

"That so?" said Jules.

"Anything new?" asked Joe.

"Not much, I guess," replied Jules.

"You know Queen Victoria's dead."

"No; is he?" said Joe. "Who's got his job?"

"The Prince of Wales," said Jules.

"Has she?" said Joe. "She must have had a hell of a pull on Laurier."

MELBOURNE.

Mr. Arthur Armstrong, of Portland, Me., was the guest of Mr. Gordon Ames over Sunday.

Mr. William McDowell, of Melbourn, has sold his farm to Mr. Biers, of South Ely.

Mr. Dabry Dustin, of Gore, has gone to Windsor Mills, where he has secured a position as watchman in the powder mill.

Mr. Edgar Johnson has returned home from the green fields of the west, where he has spent the last few months.

A number of our young people were entertained at Mr. James Wright's on the evening of the 28th. A very enjoyable time was spent in dancing and other amusements.

"A WEE ENGLISH VEESITOR."

A showman who was on a tour through the Highlands had the misfortune to lose a large gorilla, which to save the trouble and expense of burial, he left to rot by the wayside not far from Pitlochry. Two Highland drovers on their way to Perth came across the carcass, dressed, as it had been left, in its performing garb. Never having seen such a queer specimen before, they were greatly puzzled what to make of it. "What'll she be?" asked Tonal "Weel" replied Tugal, "she'll no' be a Highlander, or she would hae a tartan plaid, and she'll no' be a Lowlander either, or her trousers would be grey." After some reflection Tonal exclaimed: "I'll tell ye what she'll be. She'll jist be a wee English veesitor, and pe of nae consequence."—J.N.

Only nine men have been hanged in Kentucky in the last five years, although there have been 798 murders.

Dr. Wood's

Norway Pine Syrup

Cures Coughs, Colds, Bronchitis, Hoarseness, Croup, Asthma, Pain or Tightness in the Chest, Etc.

It stops that tickling in the throat, is pleasant to take and soothing and healing to the lungs. Mr. E. Bishop Brand, the well-known Galt gardener, writes:— "I had a very severe attack of sore throat and tightness in the chest. Some times when I wanted to cough and could not I would almost choke to death. My wife got me a bottle of DR. WOOD'S NORWAY PINE SYRUP, and to my surprise I found speedy relief. I would not be without it if it cost \$100 a bottle, and I can recommend it to everyone bothered with a cough or cold. Price 25 Cents."

Eastern Townships Bank

ANNUAL MEETING.

Notice is hereby given that, in accordance with a resolution passed by the Shareholders on the 10th February, 1903, and confirmed by Statute, changing the date of the Annual Meeting of the Bank from the first Wednesday in the month of June to the first Wednesday in the month of December, the Annual General Meeting of the Shareholders of the Bank will be held in their Banking House in the City of Sherbrooke, on

WEDNESDAY, SECOND DAY OF DECEMBER NEXT.

The chair will be taken at 2 p.m. By order of the Board,
JAS MACKINNON,
General Manager.
Sherbrooke, Que., Oct. 27, 1903.

Dr. H. J. Kendall's Compound is a powerful remedy for all the above named ailments. It is a purely vegetable preparation and is entirely safe for all ages. It is sold by all druggists and is a household necessity. Price 50¢ per bottle. Dr. H. J. Kendall & Co., Enosburg Falls, N.Y.

THE SALES DOUBLED.

During the past three years the sales of THE CANADIAN MAGAZINE have doubled. It is now found in the home of almost every intelligent Canadian. Why? Because it is printing the best thoughts of the best Canadian writers: essayists, historians, novelists, poets and critics. It is bright and comprehensive. It is carefully produced, well printed and well illustrated. There has never been anything in Canada to equal it.

The November number opens a new volume. This is a good time to subscribe. Ask your bookseller to send it to you for a year, or write **The Canadian Magazine, Toronto, Canada.**

SUMMER OFFER

WEEKLY MAIL AND EMPIRE Mailed to any address in Canada, Great Britain or United States until January 1st, 1904, for..... **50 CENTS.** This offer includes choice of premiums pictures entitled:—"The Miner's Farewell," and "On the Edge of the Herd."

THE WEEKLY MAIL AND EMPIRE during the summer months will unquestionably be the greatest weekly publication which enters Canadian homes. It at present contains a greater number of columns of reading matter than any other Canadian weekly. All the news published in it is carefully selected to meet the varied tastes of the readers. The General News section will contain the fullest and most complete information of the events transpiring in all parts of the world. Particular attention will be given to cable and provincial news.

The Agricultural Section will be replete with information for the general advancement of agricultural science. Contributors to this section will be men eminent in this important industry.

The Magazine Section will also be a mine of information upon subjects which are at present attracting public attention. Many of the articles will be brightened by illustrations. Altogether the 24 pages, which comprise the Weekly Mail and Empire, are a library in themselves, and all for the sum of One Dollar a year.

Lord Strathcona.

Britain, the greater part of the enterprise is the work of eminent Canadians—men writing on their own soil about things of which they, more than any other living men, have specific knowledge.

A PRACTICAL WORK FOR PRACTICAL MEN

Practical knowledge is the keystone of success in every vocation in which man can engage, and there is more practical knowledge packed into a good encyclopedia than into a whole library of general reading matter. It is impossible to obtain that practical knowledge of Canada and of every detail of importance which has entered into the growth of the Dominion in any form so ready of access as in the pages of "Canada: An Encyclopedia." Every topic, in its least detail of value, is treated here, and by a very thorough and comprehensive system of indexing can be turned to at a moment's notice.

BEST OF ALL.—To every intelligent, patriotic Canadian the work furnishes that knowledge of his own country which it is his first duty to possess.

And last, but not least, this Encyclopedia is extremely handy to consult. It is complete in six volumes with an index volume additional; is very easy to possess, the price being low, and the terms of payment such as place this library about Canada within the reach of the smallest income. Write us to-day and we will send you specimen pages, also a complete prospectus and tell you how the work may become yours at very little cost and with scarcely any inconvenience.

Experiments With Coal.

Experiments in treating coal with a
saturated solution of salt and water
appear to have resulted in very great
advantages in England in the burn-
ing of the fuel. The experimenter
states that a fire made of coal so
treated burned more brightly and
gave out greater heat; that there was
less smoke; that the chimney did
not foul so quickly, the salt appar-
ently decomposing the soot as it was
deposited; that less ashes were
made; that a poker was unnecessary,
as the fire required no stirring, but
always remained bright and clear,
and burned to the last fragment of
fuel. This may be considered addi-
tional evidence as to the advantages
to be expected from the proposed
"under water storage of coal," in
which experiments are now being
made by the Admiralty. In the case
referred to, however, the coal was not
submerged, only the quantity required
daily being sprinkled generously
with the mixture of coarse salt and
water about twelve hours before it
was wanted. This would appear to
show that the salt had more to do
with the improvement in the burning
of the coal than the water, the latter
only being required to dissolve the
salt and to cause it to adhere to the
surfaces of the coal. Such a process
may be advantageous for coal to be
used for domestic purposes, but for
the storage of coal for lengthened
periods in hot climates only submer-
gence can be of any practical use. It
is exclusion of the atmosphere that
is necessary in the latter case, and
this can be attained by the complete
and deep immersion. Whether in the
tanks in which the coal will have to
be placed, it may be advantageous to
increase the normal saltiness of sea
water by adding a certain amount of
salt to it, is a question which may
well be worthy of practical determina-
tion.

"How to Cure All the Skin Diseases"
Simply apply "SWAYNE'S OINTMENT." No in-
ternal medicine required. Cures eczema,
itch, all eruptions on the face, hands, feet, etc.,
leaving the skin clear, white and healthy. Its
great healing and curative powers are posses-
sed by no other remedy. Ask your druggist for
SWAYNE'S OINTMENT.

SCOTLAND'S MINERAL HAR-
VEST.

It is virtually true to say of Scot-
land that there is greater wealth un-
der than above ground. At the pre-
sent time there are 530 mines in full
working order, employing 108,000 per-
sons, or several thousands more than
the populations of Greenock and Kirk-
caldy put together, and that, too,
quite apart from 100 quarries which
give employment to some 14,000. It
is interesting to note that of this
vast army of workers 1800 are girls
—employed, however, exclusively at
the pithead, and that over 6,000 are
youths between the ages of 12 and 16.

Of course the black diamond is far
and away Scotland's leading mineral,
and the value of Scottish coal export-
ed alone exceeds 3½ million sterling.
Kirkcaldy is easily the largest coal
exporting centre, with an annual out-
put of 2,241,000 tons, against
Grangemouth's 1,366,000 and Glas-
gow's 1,211,000. Altogether 36½
million tons of minerals are every year
dug out of the country of which 2½
millions are oil shale.

One LAXA-LIVER PILL every
night for thirty days makes a com-
plete cure of biliousness and constipa-
tion. That is—just 25 cents to be
cured.

The following story of the Pope is
told in the Italian papers: A depu-
tation of the monks of some order
had obtained an interview with him.
According to the etiquette of the
Vatican, only Cardinals are allowed
to sit in the Pope's presence, and an
invitation from him to do so is deem-
ed equivalent to the promise of a car-
dinalate. Pope Pius X. is a plain
man, utterly indifferent to the etiq-
uette of the Papal Court. He, there-
fore, begged the monks to be seated.
They hardly knew whether they
could venture to do so, and while
they stood hesitating, he said to
them: "You do not, I suppose,
expect me to draw your chairs for-
ward for you?"

Deranged Nerves

AND

Weak Spells.

Mr. R. H. Sampson, Sydney, N.S.,

Advice to all Sufferers from
Nerve Trouble is

"GET A BOX OF

MILBURN'S

HEART AND NERVE

PILLS."

He says: "I have been ailing for about
8 years from deranged nerves, and very
often weak spells would come over me and
be so bad that I sometimes thought I
would be unable to survive them. I have
been treated by doctors and have taken
numerous preparations but none of them
helped me in the least. I finally got a box
of Milburn's Heart and Nerve Pills. Before
taking them I did not feel able to do any
work, but now I can work as well as ever,
thanks to one box of your pills. They have
made a new man of me, and my
advice to any person troubled as I was, is
to get a box of Milburn's Heart and Nerve
Pills."

Price 50 cts. per box, or 3 for \$1.25, all
dealers, or

Phenomenal Heroism!

(An Historical Fragment)
(Under the heading "Fashionable Lady's
Daring Innovation," a daily paper recent-
ly described, in half a column of wonder-
ment, the apparition in the West End
in the previous afternoon of a bonnet
with dark green strings tied in a double
bow slightly to the left of the center of a
very neatly and elegantly dressed,
and still obviously and undeniably young;
a tiny cluster of spring flowers adorning
the "confection.")

The Kalends of April, Anno Domini
Nineteen Hundred and Three, was an
epoch-making date in the history of the
British Empire.
At half-past three o'clock on that af-
ternoon a rumor spread like wildfire from
end to end of the metropolis to the ef-
fect that a strange and startling spec-
tacle of a feminine nature was to be
observed in Bond Street.

A few minutes later the Tube and sub-
urban lines were blocked with streams of
hurrying and peering gossamers; the
service of buses had to be trebled and
quadrupled on all roads converging to
the above-named focus of fashion; extra
drafts of police were hastily telephoned
for from outlying districts; and by four
o'clock the streets were so immense in
this particular quarter that all traffic
and circulation was impossible.

Things began to look ugly, and the
crowd was getting out of hand, when
the new Commissioner of Police, Mr. E.
Richard Henry, thought it advisable to
summon the military. Six Army Corps
promptly arrived in as many motor-cars,
with Mr. Brodick at their head.
By degrees a lane was made to the cen-
ter of attraction, after the Riot Act had
been read and a volley of blank charge
fired.

The cause of the disturbance was then
ascertained and located by a picked body,
numbering some hundreds, of interview-
ers and photographers, and led by Mr.
Punch's own special representative at
the seat of war.

It was a bundle of the early eighties
worn (slightly on the right) by a pre-
possessing and very self-possessed young
lady of some twenty springs.

Such a heroine had not been seen since
the days of Grace Darling, and special
editions recording the progress of the
affair were issued until late at night.

All fashiondom had been rocked to
its foundation. Dressmakers were aghast
at the audacity of the incident, while
their clients, who had just purchased
what they supposed to be latest cos-
tumes, were in despair.

Further details must be looked for
elsewhere, as Mr. Punch's young man
fainted with emotion on being present
at such a portentous scene.—"Punch."

Curious Bits of News.

Denmark has a system of insurance
against the possibility of spinsterhood.
If a sum of about \$225 is deposited on
behalf of a girl at birth, she becomes en-
titled, if unmarried at the age of thirty,
to receive an annuity of \$25, which is
increased by \$25 every ten years. If,
however, she marries before she is thirty,
\$225 is returned to her, or if she dies
before she is that age, there is a contri-
bution of some \$30 or \$35 toward her
funeral.

The experiments carried on during the
last six months by the Department of
Agriculture at Washington to test
whether the preservatives used in pack-
ing food products for export are injur-
ious, have shown that they are harmful.
Twelve officials of the department's bu-
reau of chemistry volunteered to diet
themselves consistently for six months
on food which had been adulterated with
boracic or salicylic acid as a preserva-
tive, and, having fulfilled their task, they
found they had their health entirely unaf-
fected.

The most frantic appeal for a servant
ever put into type has just appeared in a
Chicago newspaper. It took 300 words
and \$20 to express the would-be em-
ployer's feelings. After describing the
favorable location of his home, and his
"small family," he appeals for "a medium-
sized girl," because "a small girl might
not have strength to draw the salary we
are willing to pay," and adds: "If you
don't want to wash your own clothes
we will send them with my laundry and
pay for them. If you don't like to wait
at table we will turn the kitchen into a
cave, and all walk out and wait on our-
selves. The nurse and you have separate
rooms on the third floor. She is very
lady-like, but if she is objectionable to
you in any way we will let her go. My
wife will try very hard to please you,
but if you don't like her I will let her
—well, anyway, come to our rescue."

To be arrested on a charge of holding
one's skirts too high on a rainy day sug-
gests, of course, the United States. Jop-
lin, Missouri, was the prize scene of the
incident, and Miss Flo Russell its vic-
tim or heroine. It was charged against
her, quite in the Addisonian style, that
the height at which she held them creat-
ed enough commotion to amount to a
disturbance of the peace. Her youth and
prettiness, if they did not aggravate the
offense, did aggravate the commotion;
and a policeman arrested her. Miss Rus-
sell, in her defence, said that she was
wearing a new and particularly hand-
some silk petticoat, and other "things,"
equally new and equally handsome, and
that she held her skirt just high enough
to prevent them from being muddled, but
not an inch higher. To clinch the mat-
ter, she had come dressed in the identi-
cal clothes, and was ready, if the judge
desired, to give a demonstration in court.
The judge, of course, jumped at it, a
space was cleared, and the court be-
came so unjudicially fascinated with the
performance that it took him fifteen
minutes to discharge her, with apologies
and so progress continues, even in Am-
erica.

Mr. and Mrs. H. Cunningham have
returned from their trip to Boston.

Miss Flossie Orr is on the sick list.

Mr. T. Campbell, while working
on the roof of his house the other
day, had the misfortune to fall to the
ground, a distance of about twenty-
five feet, and although not serious-
ly injured, received a good shaking
up.

The R. T. of T. of this place held a
Halloween supper and entertainment
in their council room on Saturday
evening, November 7th.

Some men owe more to their wives
than they ever get paid.

MOE'S RIVER.

Mr. A. C. Price has leased his
place and has gone to Lennoxville to
resume his occupation with the glove
firm. Mr. J. A. Cowan has also
gone to take charge of the glove
cutting for a few weeks, and on
cutting for a few weeks, and on
young ladies and one young man went
from here to the same place, all of
them being experienced glove mak-
ers. We are sorry to lose so many
from this place but hope soon to have
the vacancies filled.

Mr. Fred. Young and family have
moved into the cottage recently oc-
cupied by Mr. A. C. Ayer.

Mr. H. F. Draper and family are
now moving into their fine new
house, which is so complete in every
part and very convenient. We wish
them long years of health and com-
fort in the new home they so richly
deserve.

Hallowe'en passed very quietly here
—the mischievous spirit seeming quite
dormant this year.

Mrs. W. Holtham, of Lyndonville,
Vt., was visiting here on Monday, the
guest of Mrs. Frank Hartran.

Mr. and Mrs. Geo. Harvey, of Mil-
bury, spent Sunday at the home of Mr.
and Mrs. D. W. Ayer.

Mrs. J. E. Bellam and little grand-
son, also Mr. and Mrs. Fred Cairns,
of East Clifton, were here over Sun-
day.

Mr. A. C. Brown, of Lennoxville,
visited at the home of his son, Lyman
A. Brown over Sunday.

Rev. I. W. McLaughlin will hold
the regular service in the Universalist
church on November 8th at 2.30
p.m.

The Ladies' Circle will meet in the
vestry on Tuesday, the 10th, where
they intend to finish the beautiful
crazy quilt on which they have all
worked so faithfully. Much credit is
due to the Parker sisters, who so
nicely arranged and put together the
forty-two blocks covering all the
seams with fancy stitches. Dinner
will be served at the regular
hour, and a general invitation is ex-
tended to all.

EATON CORNER.

Mr. Robert Lebourveau, of Barre,
Vt., who was visiting his mother and
friends last week, has gone to Cali-
fornia.

Mr. Charles Picard has returned
home from Nashua, N.H.

Messrs. Wells Hodge and Joseph
Hall have returned from the North-
west.

Mrs. Aggie Rand, of Randolph,
and Mrs. Stewart Lebourveau, from
Coaticook, are visiting at this place.

A surprise party was given Mr.
and Mrs. James French on Saturday
night, the occasion being the tenth
anniversary of their wedding. A
large crowd was present and a very
pleasant evening was spent. Mr. and
Mrs. French received quite a number
of presents.

The sawmill of this place has been
sold to Mr. Bryant, of Sherbrooke.
The machinery has been taken out
and removed and the frame will be
taken down in a day or two. It is
a serious loss to this place.

The sacrament of the Lord's Supper
will be observed in St. Andrew's
chapel Sunday, November 8th, at 8
o'clock a.m.

LEARNED PLAIN.

Wm. Young and wife, of Rivard
Corner, were visiting at F. P.
Young's on Sunday.

Wilson brothers are home from
threshing.

Eva Sample is stopping in Cook
shire.

Florence Holbrook is stopping
with Mrs. Heath for a few days.

Mr. and Mrs. Archie Bowen a son
on the 28th.

The senior member of the firm of
C. Berchardson & Co., St. Mary's,
Ont., dealers in dairy, creamery and
cheese factory supplies, made their
agent here, Mr. F. P. Young, a call
on Thursday.

Mr. Ed. Heath picked a dish of ripe
strawberries on Sunday and on Mon-
day the ground was white with snow.

Mrs. Geo. Shearman has a very bad
hand and blood poisoning is feared.

Mrs. Winnie Rogers is very low.

Mr. Bagley, senior, is on the sick
list.

Mr. T. Hood, sr., was visiting his
son on Sunday.

The school is completed and ready
for use.

Mr. Walter Locke has bought the
Ellis place in Bury.

CORLISS.

On Friday, the 6th, there is to be
a chicken pie supper at Mr. Derias
May's, at Baldwin's Mills.

The people who took the trip to
Boston for ten days returned home
on Saturday last.

A number from here attended the
chicken pie supper in the town hall
on Friday last given by the ladies of
the Methodist church.

Mr. and Mrs. Will Horn have re-
turned from their wedding tour and
will take up their abode in Magog.

Mr. Grandin has his mill nearly
completed.

SOUTH DUDSWELL.

Mr. and Mrs. H. Cunningham have
returned from their trip to Boston.

Miss Flossie Orr is on the sick list.

Mr. T. Campbell, while working
on the roof of his house the other
day, had the misfortune to fall to the
ground, a distance of about twenty-
five feet, and although not serious-
ly injured, received a good shaking
up.

The R. T. of T. of this place held a
Halloween supper and entertainment
in their council room on Saturday
evening, November 7th.

Some men owe more to their wives
than they ever get paid.

(Liquozone was formerly known in Canada as Fowley's Liquid Oxygen.)

We Will Buy

A 50c. Bottle of Liquozone and Give it to You to Try.

Liquozone—liquid oxygen—is the only
product that can kill germs in the body
without killing you. No man knows any
other way to destroy the cause of any
germ disease.
It is new to America, and millions who
need it don't know of it. For that reason
we make this remarkable offer. We will
give you the first bottle and give it to you
if you need it. We will do it willingly,
gladly, to convince you at once and for-
ever that Liquozone does kill germs.

We Paid \$100,000

for the rights to Liquozone for America.
We tested this product for years in the
most difficult germ diseases; then we
bought these rights for the highest price
ever paid for a scientific discovery.

We paid that price because Liquozone
does what all the skill in the world can-
not do without it. Any drug that kills
germs is a poison to you and it cannot be
taken internally. The best physicians,
the world over, employ Liquozone alone
for germ troubles; and any physician
who doesn't is almost helpless in any
germ disease.

Just Oxygen.

Liquozone is simply liquid oxygen—no
drugs, no alcohol in it. It is the discovery
of Pauli, the great German chemist, who
spent 20 years on it. His object was to
get such an excess of oxygen in staple

form into the blood that no germ could
live in any membrane or tissue.
Liquozone does that. The results are
so certain that we publish on every bottle
an offer of \$1,000 for a germ that it can-
not kill. Yet oxygen is Nature's greatest
tonic—the very source of your vitality.
Its effects are exhilarating, purifying,
vitalizing. But germs are vegetables; and
this excess of oxygen—the very life of an
animal—is deadly to vegetable matter.
We spend 14 days in making each bot-
tle of Liquozone, and the result is liquid
oxygen—the best thing in the world for
you, yet certain destruction to disease
germs, wherever the Liquozone-laden
blood goes.

Germ Diseases.

These are the known germ diseases.
All that medicine can do for these troubles
is to help Nature overcome the germs,
and such results are indirect and un-
certain. Liquozone kills the germs,
wherever they are, and the results are
inevitable. By destroying the cause of
the trouble, it invariably ends the disease,
and forever.

CHANGE OF WEATHER.

Considerable Snow Has Fallen, But Rivers Are Still Low.

The man who knows all about the weather and was predicting that we would have fine weather during the present moon must have been very disappointed yesterday morning to observe that his faith in signs was exploded, rain began to fall yesterday morning and the majority of people in the city and country were congratulating themselves that the water situation would be relieved, but as the day advanced it became colder and snow began to fall, and by evening the weather had a very wintry appearance, with a good touch of frost. This morning there was not much change in the temperature and snow was again falling. The rain that has fallen will not be of much benefit to the rivers and springs so long as the frost continues, and unless mild weather sets in soon the situation will be indeed serious. This morning the water in the pond was lower than at any time yet during the season.

Realizing the serious state of affairs so far as the domestic supply of water is concerned, Mayor Farwell and Councillor Olivier, chairman of the Water Committee, called upon the proprietors of the various industries on the Magog River on Wednesday afternoon, to see if some solution of the situation to give the city sufficient water at the pump station could be arrived at. The Mayor stated yesterday that they were trying to arrange with Messrs. D. G. Lomas & Sons to install a dynamo to run their sash and door factory, so as to give the city the full benefit of the water at the dam at the pump station, the former company and the city having equal rights to the water there.

Mayor Farwell also placed himself in communication with the officials of the G.T.R. to see if they could not arrange to water their engines at Richmond and Waterville, and thus relieve the strain on the pumps here. The officials at Montreal replied that they would give instructions to have this done. The railway companies require about 125,000 gallons of water a day, and as the pumps are only able to supply about 1,250,000 gallons a day as compared with 2,000,000 when everything is in running order, it will be seen that this saving will be very considerable so far as the domestic and fire supply is concerned. The Mayor was also informed by the general manager of the Dominion Cotton Co. at Magog, that they would endeavor to have the

old dam at the outlet to Lake Memphremagog removed in a day or two, and if this can be accomplished about six inches more water will be available in the river.

INDUSTRIES RUNNING ON SHORT HOURS.

The Paton Mills have only been running during a portion of each day, but the work has been divided so that the help work a portion of each day, and are thus not altogether laid off from work. The company expect in a day or two to overcome the difficulty by the use of steam as an auxiliary power.

Messrs. A. G. Lomas & Son's mills are only running two sets, but this does not interfere with the supply of water, because what they use would have to pass down the river to supply the pumps and the electric light station.

The Electric Company are not using what water they are entitled to, as their object is to conserve the water in the pond as much as possible. When possible the street lights are not turned on, and every effort is being made to run with as little water as possible.

The mills at Magog are only running on quarter time, but they are following the same principle in regard to their help as the Paton Co. so as not to throw them altogether out of work.

Rain and plenty of it is earnestly hoped for.

How to Get Up An Appetite.

Distaste for food often follows Grippe and fevers, and is associated with a general weakness of the system. To impart a real zest for food, and give power to the stomach to digest and assimilate, no remedy can equal Ferrozine. This is a new and startling discovery. It strikes at the root of the disease and by removing the cause, cures quickly and permanently. Ferrozine will quickly enable you to eat and digest anything. All druggists and medicine dealers sell Ferrozine.

Effect of Treaty-Making Power.

LONDON DAILY NEWS DISCUSSES THE QUESTION.

The London Daily News, referring to the Alaskan decision and the feeling in Canada, says: "Sir Wilfrid Laurier, who has been the favorite premier of the Imperialists, will soon begin to take the place vacated by Paul Kruger. Suppose Sir Wilfrid Laurier's demand for the treaty-making power really took shape and swept Canada off its feet. Would the prospect be so dreadful? It would be, after all, only one more step in the long process—not of separation, but of detachment. question to the tender mercies of fate had to hand over the Alaska question to the tender mercies of Lord Alverstone, an admirable judge, but a notorious political partisan. Canada very distinctly told us she holds herself free to help us in any Imperial quarrel. We should have to say the same to Canada. If we thought her right we should lend her the arm of the Empire, if not we should just warn her and then hold aloof. What if history should one day repeat itself in another form?"

Use Zutoo Tablets to break up a cold. They will certainly cure the aches and pains arising from a cold and gripe. 25c.

Mr. McManamy Replies to Mayor Farwell.

To the Editor of the Examiner: Dear Sir—In reply to Mayor Farwell's epistle of the 31st ult., I desire to state that I have no personal quarrel with Mayor Farwell, that I am quite willing that this epistle of his should be taken as a whole, and stand on its merits before the public, and to be considered as characteristic of the actions of its author in the civic chair.

Mayor Farwell has chosen as his policy opposition to Municipal Ownership, and his actions in this connection have sometimes been forcible and aggressive, and that is why, at times, I have objected to his ruling.

Mayor Farwell charges the majority of the Council with subservience, discourtage, incapacity and ignorance. Mayor Farwell's charges of subservience can be more truthfully applied to his friends of the gallant "minority," namely, the representatives of the North Ward of this city, who

have never failed to personify and exemplify the very essence of subservience in protecting the interests of the Gas and Water Co. during the past six or seven years, whenever there was a question before the city council liable to affect the company; the rights and privileges of the city were made, in every instance, subservient to that of the Gas and Water Co.

Mayor Farwell's charges of discourtage and the occasion thereof, will disappear as soon as he and his friends of the "gallant minority" will fully realize that the North Ward of this city is only a part, and not the whole city of Sherbrooke, and act accordingly.

Mayor Farwell's charges of incapacity and ignorance against the majority, if true, is very unfortunate; the formulating of such a charge by Mayor Farwell is more of an insult and reflection upon the ratepayers whom they represent than any fault of theirs, and is, in my opinion, unfounded, and should be beneath the dignity of the civic chair.

Now, with regard to Mayor Farwell's portentous and ponderous document, I have only to say that if the extent of the area of space covered, and the gross weight of paper and ink used, be considered an argument, Mayor Farwell is not only entitled to the proverbial prize "cake," but I would say he should be awarded the whole hakeshop and contents.

Mayor Farwell's voluminous document, and the pretended facts therein, are not worthy of credence, as the said statement of facts emanates from the G. & W. Co.'s office in this city, and is no more reliable than a similar list which appeared in the press of this city on the 13th January last, during the heat of the election campaign, when the G. & W. Co. quoted rates for electric light for the city of Brockville. I sent a copy of the Daily Record of that date to the city clerk of Brockville asking him for his version of said item, and I herewith submit an extract from his reply, which speaks for itself, and is more eloquent and convincing than anything I could add:

Brockville, January 16, 1903.

About two weeks ago I received a communication from Sherbrooke asking for information about our plant. I wrote to Mr. Robins at considerable length on the subject, but I would think from the copy of item sent me by Mr. McManamy that fully ninety per cent. of my reply had been suppressed. . . . You can form your own opinion as to the information which has been furnished to your papers and the object. . . .

(Signed) W. H. DOWSLEY,

Secretary-Treasurer.

Now, in conclusion, what does Mayor Farwell's document prove. If it proves anything, it proves that where political and other outside influence preponderate in the management, that success in municipal ownership is in danger. We do not need to leave home to get positive proof of outside influence dictating and controlling actions of some of our city councillors.

Yours truly,
D. McMANAMY.

UNFIT FOR WORK.

THE RESULT OF SEVERE KIDNEY AND BLADDER TROUBLE.

After Years at Much Distress Mr. W. F. Kennedy Has Been Restored to a Life of Activity.

There is probably no man in the township of Pelham, Welland County, better known than Mr. Wilbur F. Kennedy. He is a prosperous farmer and the owner of a large cooperage, and is held in the highest esteem by all who have his acquaintance. Mr. Kennedy is now seventy-two years of age, and is active and rugged as many a man years younger. For years, however, he was a great sufferer from kidney trouble and he cheerfully gave credit for his present good health to the use of Dr. Williams' Pink Pills. Mr. Kennedy says: "Ten years ago, as the result of exposure, I think, I was stricken with kidney and bladder trouble in a severe form. The complaint at times caused me most intense suffering and great personal discomfort as I would often have to arise a dozen times in the night. I tried many kinds of treatment and some of the best physicians, but their skilled efforts were unavailing, and as a result I lost in flesh, grew very weak, and was troubled also with insomnia. I grew despondent and felt that I was doomed to a life of suffering, if not an early death. At this stage I was prevailed upon to give Dr. Williams' Pink Pills a trial. After using four boxes I could see a distinct improvement in my condition, and I gladly continued the use of the pills, until all the symptoms of the trouble had passed away, and I was again strong and healthy. It is no exaggeration to say that at the time I began the use of Dr. Williams' Pink Pills I was so weak that I could not lift twenty-five pounds, while now I am quite sure I can lift as much as any man of my age. I believe the pills not only released me of the misery I suffered, but have added years to my life."

Anaemia, rheumatism, kidney trouble, heart ailments, partial paralysis, St. Vitus Dance, and the many ailments peculiar to women are speedily cured by Dr. Williams' Pink Pills, simply because these pills make new, rich, red blood, and thus reach the very root of the trouble. There are pink colored imitations of this great medicine, but the buyer can protect himself against these impositions by seeing that the full name "Dr. Williams' Pink Pills for Pale People" is printed on the wrapper around every box. Sold by all dealers in medicine or direct by mail from the Dr. Williams' Medicine Co., Brockville, Ont., at 50 cents a box, or six boxes for \$2.50.

Mr. F. H. Clergie, now in London with Senator Dandurand, says Canada is to know first of developments regarding Soo works.

Pandora Range

SAVES FUEL AND HELPS TO PAY FOR ITSELF.

It is not the price you pay for a range which makes it cheap or expensive, but the fuel it consumes after you get it.

If you buy a range which costs \$5 to \$7 less than a "Pandora" and it burns a ton, or only half a ton of coal more in a year, what do you gain? Nothing, but you actually lose money, besides putting up with all the inconveniences, troubles and extra work which are a certainty with a poor range.

The "Pandora" is equipped with many fuel-saving features which are not found on any other range. Hot-air flues are constructed so that all the heat from the fire-box travels directly under every pot-hole and around the oven twice—every atom of heat is used, and only the smoke goes up the chimney.

Sold by all enterprising dealers. Booklet free.

SHOULD WOMEN VOTE

Women should vote, for the same reason that men do. Of course, it's only the exceptional one that cares to assert her citizenship in this particular. Men don't seem to estimate this privilege very highly, but often only about half of them come to the "poll." Probably it's just as well that women don't urge their citizenship to its full degree. Anyhow, we won't quarrel about it with you. We would rather wait until the question becomes a burning issue, and then we'll buzz around to keep warm. Just one word. If women vote with the same discretion that they choose to exercise in the world's destiny might safely be entrusted to their guidance. Women seem to think of all things at once—men dwell upon one thing at a time. There's the heel, instep, toe, shank, toe cap lining, stitches, all these things to be examined, and quick perceptions counts at least in the buying of these things, for some of them seem to be made only for sale—not for service.

Farm For Sale

I OFFER my farm of 200 acres of land situated 1 mile from Johnville on the Lennoxville road. The farm is under a good state of cultivation, well watered and well fenced; it generally cuts about one hundred tons of hay and is an excellent grain farm; there is about 20 acres well timbered and an abundance of fire wood on the place; also a fine sugar place of about 150 trees. All fitted up with new camp add evaporator, and also apple orchard; a fine story and a half brick house and kitchen with wood shed and granary; 3 good barns and horse barn, carriage house and store house, all in good repair. This is a fine farm and will be sold on easy terms as I am not able to do farm work. The farm is within 1 mile of 2 stores, 2 churches, school, blacksmith shop, carriage shop, grist mill and creamery. For particulars, etc., apply or write to

Lady Street Car Conductors.

Lady conductors had charge of the Belt and Park cars yesterday of the Sherbrooke Street Railway. Owing to the unfavorable weather the number who travelled was not nearly so numerous as was anticipated. This is the first time that ladies have had charge of the street cars in this city, and the novelty created considerable attention. The Railway Company have donated the proceeds to the Sacred Heart Hospital. Among those who acted as conductors were: Mrs. Rioux, Mrs. Panneton, Mrs. de Lottinville, the Misses Morrier, Mrs. Morency, Mrs. J. P. Royer, Mrs. (Dr.) Rioux, Mrs. Alfred Lanctot and Miss Lanctot. The receipts amounted to \$104.04.

FRENCH DAILY FOR SHERBROOKE.

The oft mooted question of starting a French daily paper for Sherbrooke is once again on the tapis, and judging from what can be learned there is every prospect that it will be carried into effect this time. The question is engaging the attention of several of the leading business and professional men, and subscriptions have already been volunteered for the project. It is felt by many of the French Canadian population that owing to the present crisis in the city council that they should have an organ to represent their interests, and it is confidently felt by the promoters that the French element in Sherbrooke and vicinity is numerous enough to support a French daily paper.

MR. JUSTICE LEMIEUX MAY GO TO QUEBEC.

The removal of Mr. Justice Lemieux, of the Superior Court here, is talked of as being probable. The "Soleil," of Quebec, in its issue of the 4th says: "The Hon. Charles Fitzpatrick has been in Quebec since yesterday morning. The Minister of Justice has gone on a tour of the country with Hon. Mr. Justice Lemieux and L. J. Cannon, Esq., assistant attorney general."

The rumor, however, that Mr. Justice Lemieux has received word from Ottawa to dispose immediately of his cases now on deliberation is premature.

FUNERAL OF THE LATE C. B. STEVENS.

The funeral of the late Charles B. Stevens took place from his late residence on Wellington street on Wednesday afternoon to Elmwood cemetery. The mourners were Mr. B. Stevens, father (Coaticook); A. M. Stevens, brother; C. N. McCormack, brother-in-law, and H. Ellis, Coaticook. The service at the house was performed by the Rev. T. B. Brown, pastor of the Baptist church, who in his brief address spoke words of hope and consolation to the afflicted family. Court St. Francis Canadian Order of Foresters, and Prince Consort Council, Royal Arcanum, of which Societies deceased was a member, was well represented, and the attendance of personal friends was large, testifying to the sincere regret by all for his untimely death. The bearers were Messrs. L. G. Moulton and H. Elliott of Coaticook; E. J. Astell, J. McGivney, S. E. Wiggett and L. N. Perault.

Cut flowers and designs were received from the following friends: (Prince Consort Council) Royal Arcanum, Mrs. C. Stevens, Miss McCormack, Miss Rose, Miss Harwood, Mrs. L. E. Mayhew, Mr. and Mrs. G. McLean, Mrs. McWilliams and family, Messrs. A. M. Stevens, C. N. McCormack, C. H. Foss, F. T. Vaughn, E. J. Wiggett, Sherbrooke; Mrs. B. Stevens, Messrs. L. G. Moulton and H. Elliott, Coaticook; Mrs. J. Porteous and Mrs. C. O. Peterson, Waterville.

CORCORAN—DOLPHIN.

A very pretty wedding was witnessed at high noon on Wednesday at the residence of Mr. and Mrs. John Dolphin, Wolfe street, when their daughter, Miss Eva Rose Dolphin was married to Mr. Neil Corcoran, of New York. About forty-five guests were present to witness the interesting ceremony, which took place in the large parlor, the bridal party standing in the bay window with a background of palms and flowering plants.

The bride was given away by her father, wore a handsome gown of white corduroy velvet, trimmed with heavy cream lace, which was extremely becoming. In her hair was a rosette and she carried a bouquet of white roses.

The bridesmaid was Miss Maude Parr, cousin of the bride, who was prettily dressed in navy blue skirt, and white corduroy waist. Her bouquet was of pink carnations.

The best man was Mr. John Dolphin, the bride's brother.

The wedding march was played when the bridal party entered the room, and the simple, but impressive ceremony was performed by the Rev. T. B. Brown, pastor of the Baptist church.

After the young couple had received the congratulations of the assembled friends, luncheon was served, the tables being decorated with roses, ferns and carnations and the huge wedding cake flowering in the centre of the table, like a miniature ice palace. The young couple left by the afternoon train for their future home in New York, being accompanied to the station by a large number of friends.

The presents were valuable and included set of furs from her parents, cheque from her brothers, cheque from the groom, and cheque from each of her two uncles, besides many pieces of silver, etc., from friends.

WINDSOR MILLS.

The remains of the late C. F. Ross who died at Muncie, Indiana, arrived on the evening train Sunday. There was a large crowd of friends at the station. The funeral took place Monday afternoon from his late residence, Brompton, to the Methodist church, and from thence to the Windsor cemetery. The funeral service was conducted by the Rev. Mr. Watt, assisted by Rev. C. A. Tanner. The bearers were Messrs. J. Pender, J. McMurray, Thos. Dearden, D. Stewart, Wm. Samson and F. Rankin. The deceased leaves a wife and four children, two being by a former marriage.

Jubilee Lodge I.O.O.F. celebrated their sixth anniversary on Friday evening with an oyster supper, to which they invited a large number of their friends. After doing justice to all the good things that the tables were loaded with and the company settled for a smoke. Chairman A. A. Briggs called upon Grand Master Baldwin for a speech, who was followed by Dr. Allan, of Sherbrooke, Grand Warden of the Order. Both

speakers were very entertaining in their remarks. Mr. F. Powell, of the Canada Paper Co., was also called upon. The gathering represented members of the Order from Boston, Richmond and Danville.

Mr. A. Trudeau, who has been very sick is able to sit up in bed.

Mr. Frank Trudeau, of Boston, is home visiting his parents.

Jackets and Ulsters

Today we wish to draw your attention to a small lot of Jackets and Ulsters which are on hand from previous seasons. Of course the style of these are not what you might call the "very latest," but with a little alteration they could be made very neat and dressy, while they would be warm and comfortable, because they are of heavy cloth, assorted colors and black in the lot.

Jackets were \$10 to \$15, now \$1.50. Ulsters were \$15 to \$20, now \$1.50. Be sure and see at 28c YARD.

Some ten or fifteen pieces of fancy dress goods are laid on our counter to clear at this low price, were 40 to 60c yard, all double width, now 25c yard.

Remnant! Remnants!

A special counter of these remnants all marked at specially low prices to clear. Remnants of cloaks, tweeds and dress stuffs, quantity and price marked on each ticket.

—Keep the body warm and feet dry if you want to keep well during this wet spell.

Dr. Sore Kurum.

The above prescription can be accurate carried out by purchasing a good umbrella, water-proof and rubbers here.

LADIES' RAINPROOFS

At 25c, 7.50, 8.50, 10.00, 12.50, made of imported Cravette, in greys, fawns, olives, and full box hays, in full and three-quarter lengths. New cut and sleeve, assorted lengths, full sweep.

Umbrellas for Ladies and Gentlemen.

At 50c, \$1.00, 1.25, 1.50, 1.75 up.

Fast color tops, paragon ribs, steel rods, assorted handles.

RUBBERS

For ladies at 45c and 60c. Gents at 60c. Boys at 45c and 50c. Misses' at 40c, and Girls at 35c, and every pair of the best India rubber quality.

A Plea for Quality In Fruit

DEPARTMENT OF AGRICULTURE - COMMISSIONERS
BRANCH, OTTAWA

In an address at the recent annual meeting of the American Pomological Society, held at Boston, Mr. G. Harold Powell gave some excellent advice in regard to growing fruit of first class quality. Many of the points which he brought out were noted with approval by Mr. W. A. MacKinnon, chief of the Dominion Fruit Division, and are given here for the benefit of Canadian fruit growers. Mr. Powell recommended as summer apples for the United States, Red Astrachan, Sweet Bough and Williams; as autumn apples, Gravenstein and Alexander; for winter the Greening, the Newton Pippin, which he stated had sometimes sold as high as \$20 a barrel, the King, the Spitzenberg, Baldwin, Spy and McIntosh Red. He recommended top grafting the King on two year old Spies, stating that in this way a vigorous tree bearing good crops would be obtained.

Regarding the Ben Davis Mr. Powell made a very cutting criticism, declaring that it had only one quality to recommend it, namely, its color; and stating that no fruit was taken a prominent place in our markets or would continue to be a profitable one for growers, which depends upon a single virtue for its sale. The Champion grape received a similar castigation. Its only virtue is its earliness, and this Mr. Powell thinks has made it one of the worst enemies of the grape grower, inasmuch as the price of the Champions at first very high, drops almost to nothing. The last price of the Champion, or what the public are willing to pay after they have become acquainted with its wretched quality, fixes the price of all other grapes which follow, though they are infinitely superior in quality to the Champion. In other words, rock bottom prices having once been fixed it is impossible to get back to normal prices.

Mr. Powell spoke rather more kindly of the Elberta peach but is of the opinion that it also is not an unmitigated blessing to the fruit growers. It is a splendid shipper, but has no quality. The conclusion to be drawn from Mr. Powell's remarks is that whatever transient advantages may be obtained by the grower from the production of inferior varieties, it is to his permanent advantage, and it is his only wise policy to produce the highest quality in each sort of fruit which he places on the market.

Striking testimony to the value of such advice is furnished by some reports of fruit sales just received by the Fruit Division from London, England. On October 7th, there was sold a large number of half-cases of Californian and other American pears, including about a dozen varieties. The Seckel, which is generally regarded as a pear of the highest quality, though small in size, sold for 12; the Glout Moreau for 13.5; the Calabash similar to our Bosc for 11; the Comice (one of the varieties recommended by the Fruit Division) for 11 to 12. If we contrast these prices with those for fruit of inferior quality, we must conclude that the Englishman wants only the best fruit and that he is prepared to pay for it. Bartlett's, which are certainly above medium quality fetched 6 to 7; Anjou 9; Clingman 7 to 7.5; Dutchess 3.9 to 4; Hardy 2.6 to 3.9; and Keiffer, which it is only fair to mention, were "wet" only ten pence to 1 a cask. Large quantities of Canadian apples sold on the same day brought all the way from 10 to 25 per barrel (the latter figure being for Ribstones), with the great majority at 15 to 16. On October 12, half-cases of Comice pears were sold by the firm for 11.6; while the Dutchess variety fetched only 4.3, the highest that day. The two sorts of pears sold on that date were 23, again to the credit of No. 1 Ribstones, while the lowest prices were 12 for No. 2 Fall Pippins, and 13 for No. 2 Ribstones and Gravensteins, the wide variation of 10 per barrel, between No. 1 and No. 2 Ribstones, is practically worthy of notice, indicating as it does that quality is sure to tell.

BOXES FOR APPLES.
In view of the scarcity and high price of apple barrels this season, and of the fact that in some districts farmers found it impossible to procure barrels at any price, the Fruit Division recommends the general use of boxes. These can be had, knocked down, at almost any sawmill for about eight cents each, and they should not cost as many apples as a barrel, they will be found much cheaper than barrels at fifty cents and upwards. The boxes should be well and strongly nailed, and should hold about forty pounds of fruit. The dimensions of the boxes used by the Grimsby shippers are nine by twelve by eighteen inches, while the British Columbia standard box is ten by eleven by eighteen inches, these being inside measurements in both cases. The boxes should be made of strong material not less than five-eighths of an inch for the ends, and not less than three-eighths of an inch for the sides; the tops should have strips across the end to prevent the weight of other packages, piled on top, from bearing directly on the fruit. It is also usual to leave open corners at the top and bottom for ventilation. Little or no packing material should

Faulty Kidneys Imperil Life.

Don't Experiment With Cheap, Dangerous Nostrums. Get the Unfailing Sure Cure **Ferrozone.**

Thousands are kept in perfect health and free from kidney complaints by Ferrozone. Among those who speak in the most laudatory terms of Ferrozone is Mr. Chas. F. Olive, of the Gazette, St. John, N. B.: "For several years I have had kidney trouble," says Mr. Olive, "until quite recently I suffered torture. A few months ago my condition assumed a very serious form. I consulted several city doctors, used different pills, but without the slightest benefit. I suffered from an intense pain in the groin, and the increasing seriousness of my trouble prompted me to try Ferrozone. It gave me quick relief, and half-a-dozen boxes cured. Ferrozone I can recommend as a specific for disordered kidneys."—Charles F. Olive.

Ferrozone not only cures kidney complaint, but also such maladies as Rheumatism, Gout, Sciatica, Skin Eruptions, Diabetes, Lassitude, Nervousness, which are caused by defective kidneys. It neutralizes and destroys all poison in the system, cleanses the blood and invigorates enfeebled energies. It is mild, gentle and certain. Costs 50c per box, or six boxes for \$2.50. At druggists everywhere, or by mail from the Ferrozone Company, Kingston, Ont. Don't fail to get Ferrozone at once—it will make you well.

be used as purchasers like to find the package quite full of fruit. A sheet of cardboard at the top and bottom will materially reduce the amount of injury from bruises. But it should be remembered that even in this year of scarcity of barrels, it will not do to ship anything but first-class fruit in boxes, as the reputation of the Canadian box and of the Canadian trade in general will greatly suffer if inferior or common fruit is exported in the box or any fancy package.—W. A. Clems, publication clerk.

PILES! PILES! ITCHING PILES!
Symptoms—Molting: Intense itching and burning; most at night; worse by scratching; if allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. CANADA AND THE STATES

No Prospect of the Former Seeking Union With the Latter.

(New York Commercial Advertiser.)
The bitterness which is felt just now in Canada over the Alaskan boundary decision will be regretted by all Americans, the more so because, in its way, it may be thought by some to affect the cordial relations which have generally existed and which ought to exist between this country and the Dominion. Canadian opinion with regard to the United States has never been definitely formulated, and it is rather difficult to get a fair impression of it in the large. The difficulty is enhanced by the circumstance that the population of Canada is not racially homogenous. Nevertheless some consideration of the facts may be without interest at the present time.

In the first place, French Canada—that is to say, the province of Quebec—is, in one sense, more intensely English in its sentiments and sympathies than any other part of the Dominion. It is, therefore, the least favorable toward any very close rapprochement between Canada and this country. The reason for such a state of things lies in the fact that the French-Canadians are an intensely religious people and are very much under the influence of their priests and bishops. By the so-called Quebec Act, passed by the British parliament in 1774, the inhabitants of that province had guaranteed to them all the civil rights which had been granted them by the French kings. The French legal code was also left untouched, and in matters of religion the customs and privileges of the French regime were made perpetual. Moreover, the French language was allowed in the law courts and in the Canadian Parliament, and all legal and official documents are issued in both French and English. Thus French Canada enjoys a species of autonomy which it could not hope fully to preserve in case of annexation to the United States, and to which American influences would be more or less unfavorable. In the same way, oddly enough, French Canada is wholly out of sympathy with modern France. Provincial Quebec is a genuine survival of the seventeenth century. It is a bit of royal and Catholic France and looks upon the priest-baiting Republic of Gambetta and Combes with unaffected horror. Its inherited sentiment prefers a monarchical system; and it is the English monarch which guarantees in perpetuity all the rights that are so dear to French-Canadians. Hence it was that in Canada during the Boer War the most passionate expressions of devotion to England and of pride in her military glory were uttered by those subjects of the Queen whose native tongue is French.

In the province of Ontario, and also in British Columbia, one finds a great preponderance of English people and their descendants. These are more intensely English than the English who remain at home; and the casual stranger who arrives in the City of Victoria, for example, feels for the moment as

though he had reached some provincial English town, so marked is the general conservatism of its inhabitants, and so complete the observance of British rule and custom. It is only in Manitoba and Assiniboia that American influence is strong. Here many settlers from the United States have made their homes, tempted by the richness of the wheat crops, and here the new arrival from Minnesota or Dakota feels quite at ease. Winnipeg, in fact, bears all the outward marks of a prosperous American city. Nevertheless, even the Americans in Canada are pretty good Canadians, in so far as they appreciate the very excellent government which Canada possesses. They do not become denationalized, but they are quite content with the conditions which prevail.

Since these things are so, while we may regret any temporary irritation which the Canadians feel because of the decision, we cannot sympathize with those who view it as having any influence upon the question of the ultimate annexation of Canada to the United States. For, as a matter of fact, annexation becomes with every year a more and more improbable dream. Canada is growing up to a strong and prosperous state, with interests and with an individuality that are peculiarly her own. At some future time when she shall have got her growth she may drop away from political union with Great Britain; but when that time arrives she will become an independent power. Indeed, there is today neither in Canada nor in the United States any of the commercial ties between the two countries can be strengthened their interests will be almost if not quite, identical without political union. And before very long, we believe that the Canadians will see that this Alaskan boundary dispute has really been settled in the only way that could insure tranquility in the future.

Minard's Liniment Relieves Neuralgia.

EASTERN TOWNSHIP'S COLONY IN GREATER NEW YORK.

Bishop Niles, of New Hampshire, State Protestant Episcopal Church, was a visitor in New York City recently, en route to an ecclesiastical convention.

Mr. Arthur E. Ibbotson, formerly of Sherbrooke, is a New Yorker now. He is a broker at 68 William street. His friend, Mr. Robbins, also of Sherbrooke, is with him.

Miss Bertha E. Fiske, formerly of Waterville, now of Mount Vernon, N. Y., and a neighbor to your correspondent, likes New York City and vicinity as a place of residence, but never forgets home, her early home.

Miss Idella Kegar, formerly of Ayer's Flat, is also a resident of the Metropolitan district. Miss Kegar is a nurse-in-training at the J. Hood Wright Memorial Hospital, Amsterdam Avenue, and 133rd Street, from which she graduates in January next.

The managers of the hospital speak most highly of her and her work. Miss Kegar came from the Royal Victoria Hospital, Montreal. Cousin Stuart Lucius Huntington is working in a downtown bank, and is using the odd moments in preparation for great things. He is son to the late Hon. Lucius Seth Huntington, of Shefford, Quebec. As for ourselves we shall continue studies at Columbia University and also the teaching and philanthropic work. We have been studying under Edwin R. A. Setigman, LL.B., Ph.D., Professor of Political Economy and Finance, John B. Clark, Ph.D., LL.D., Professor of Political Economy, Frederick James Egeuge Woodbridge, A.M., Professor of Philosophy, Felix Adler, Ph.D., Professor of Social and Political Ethics and Dr. Sheldon. Columbia has 6,000 students now. It is possible that we shall move into the city and become residents of a settlement. Do you know that your correspondent has never become a naturalized citizen. Ah! but he must become such. It is only right.

SAT NIGHT AND DAY IN A CHAIR

Wm Dodd's Kidney Pills Cured his Rheumatism

William Dodd, of Strong Township, Hale and Hearty after Four Years of Torture—The Story of his Sickness and his Cure.

Sundridge, November 2.—(Special).—After four years of torture, during which he was scarcely an hour free from pain, Wm. Dodd, a farmer, living on Con. 3, Strong Township, and well known here as a hale and hearty man, Dodd's Kidney Pills cured him. Speaking of his cure, Mr. Dodd says: "The trouble started in my back and the pain got so bad that I could not sit down to take rest, but had to sit night and day in a chair. 'The pain would sometimes move to other parts of my body, and when in my knees I was unable to walk. 'I was treated for Rheumatism by several doctors, and also tried different medicines without receiving any benefit. I feared I would never again be free from pain.

"My attention was called to cures by Dodd's Kidney Pills and I started to use them. Before I had finished the second box I was a new man, entirely free from pain. It has not come back since."

Uric acid in the blood is the cause of Rheumatism. If the Kidneys are working right they take all the uric acid out of the blood. Dodd's Kidney Pills make the Kidneys work right.

Eating Became a Dread.

HOW MANY PEOPLE ARE ALMOST AFRAID TO SIT DOWN TO THEIR MEALS?

YOU MAY BE ONE OF THEM. IF YOU ARE, THERE IS A CURE FOR YOU.

BURDOCK BLOOD BITTERS

CURES INDIGESTION, DYSPEPSIA, BILIOUSNESS, SOUR, WEAK AND ALL STOMACH TROUBLES.

Mr. J. G. Clunis, Barney's River, N.S., tells of what this wonderful remedy has done for him.—It is with gratitude that I can testify to the wonderful curative powers of B.B.B. I was so badly troubled with indigestion that whatever I ate caused me so much torture that eating became a dread to me. I tried numerous physicians, but their medicines seemed to make me worse. I thought I would try B.B.B., so got a bottle, and after taking a few doses felt a lot better. By the time I had taken the last of two bottles I was as well as ever, and have had no return of the trouble since. I recommend your medicine to the highest degree. B.B.B. is for sale at all dealers.

The Druggists Are Agreed

That the most reliable corn and wart remover is Putnam's Painless Corn and Wart Extractor, which has been used with universal satisfaction for more than thirty years. We recommend Putnam's.

THREE LAKES.

We had the pleasure of a visit from the new incumbent of the Agnes Methodist church, the Rev. Mr. Almutt. He wishes all to know, particularly the residents of Three Lakes

and Maccamamac, that he will hold a fortnightly service at the residence of Miss Flint during the winter commencing on Monday, the 9th of November.

What a sudden jump we made from a summer October to a winter one, but cheer up, farmers, you may yet get some ploughing done in November's Indian summer.

Although the Club House officially closed the steamer stopped running, and the regular employees departed for Boston on the 15th of October. There are yet members at the Club House and Mr. Latty and his staff will attend to their requirements.

Late George Addie.

Mr. George Addie died at his home in Marlboro, P.Q., Tuesday after an illness of several months. Mr. Addie was city freight agent of the Q. C.R. at Quebec for 15 years, and entered the latter road from the old Kennebec Railway. His health had been failing for some time and he was succeeded last January by Mr. P. M. Cotter. Mr. Addie was a patient at the Jeffrey Hale Hospital for some time, and was removed to his old home a few months ago. He was 73 years of age, and his quiet, unassuming manner made many friends for him while here.

Why Catarrh Cures Catarrh.

It goes to every affected part and kills the germs that keep up the diseased condition. Catarrh cures never irritates but stimulates the mucous lining of the nose, throat and lungs to normal action, and keeps the nasal passages free from offensive discharges. Catarrh contains no dangerous drugs or opiates, and is delightfully pleasant and simple to use. Catarrh is an absolutely certain cure for any form of Catarrh and sells for a dollar at druggists, small size 25c. By mail from Polson & Co., Kingston, Ont.

Church Notices.

Sunday, November 8,
North Hatley—St. Barnabas church church notices
—At 10:30 a.m. with Holy Communion.
Waterbury—St. John's church—At 3 p.m. Sunday school at 2.
Capleton and Eustis—Christ church —At 6:30 p.m.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

West & Trux, Wholesale druggists, Toledo, O.
Walding, Kinnam & Marvin, Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists.

Hall's Family Pills are the best.

EAST CLIFTON.

We are having beautiful Indian summer weather now, and the people generally are preparing for winter. Alton Betts, of Perryboro, has bought the farm which was owned by the late Davis Cairns for the sum of \$1,500. The farming implements and household furniture was sold by auction on Wednesday at very satisfactory prices. Joseph Lemieux, of St. Malo, was auctioneer.

Mrs. B. S. Curtis, of Newport, Vt., is in town on a visit to her parents and friends here. She is accompanied by her two children.

We are very sorry to have to report that Mrs. T. B. Thompson is on the sick list. We understand it is a case of typhoid fever. We hope she will soon recover under the careful treatment of Dr. Thompson.

The grubbing and cutting out the road recently established leading from East Clifton to Doncaster is nearly completed and no doubt a good road will be kept open there during the coming winter.

Mr. Chas. Birch, of Hereford, has bought the Roger Taylor farm and has moved into the farm with his family. The former proprietor of said farm, Mr. Roger Taylor, died at Canaan, Vt., a short time ago.

The water is very low in the streams and some wells and springs are dry. Something very unusual at this season of the year.

THE FIRSTBORN.

Why is it that the firstborn child is so often the healthiest of a family of children? The reason seems to suggest itself. As child follows child the mother has less and less vitality; often not enough for herself and none, therefore, for her child.

Expectant mothers who use Doctor Pierce's Favorite Prescription find that it keeps them in vigorous health. They eat well, sleep well and are not nervous. When baby comes its advent is practically painless, and the mother is made happy by the birth of a healthy child. If you would be a healthy mother of healthy children use "Favorite Prescription."

"I will be very glad to say a few words for Dr. Pierce's Favorite Prescription," writes Mrs. P. S. Douglas, of Quebec. "During the first four months, when I looked forward to becoming a mother, I suffered very much from nausea and vomiting, and I felt so terribly sick I could scarcely eat or drink anything. I hated all kind of food. At this time I wrote to Dr. Pierce, and he told me to get his 'Favorite Prescription' and a bottle of 'Golden Medical Discovery.' I got a bottle of each, and when I had taken them a few days, I felt much better, and when I had taken hardly three parts of each bottle I felt well and could eat as well as any one, and could do my work without any trouble (I could not do anything before). I feel very thankful to Dr. Pierce for his medicine, and I tell all who tell me they are sick to get these medicines, or write to Dr. Pierce."

Those who suffer from chronic diseases are invited to consult Dr. Pierce, by letter, free. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y. Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

RICHMOND.

The harvest home, supper of St. Anne's Episcopal church, which is an annual affair, took place in the Odd-fellow's hall on Wednesday evening. As usual the ladies of the congregation had sacrificed themselves to make it a success. The Rev. Rural Dean Hepburn and Mayor Hayes were the spokesmen of the evening, and Dean Hepburn and Mayor Hayes were they done justice to the entertainment. On account of the late hour the vocal and instrumental part of the evening was curtailed, but Miss Marion Blackburn, Richmond's prima donna, Miss Virginia Lalonde, who has a magnificent soprano voice and Mr. Henri Girard, N.P.; Miss Violet Palmer, with her violin obligato and Mr. Rice, who has a magnificent bass voice sustained the vocal and instrumental items of the programme; Dr. T. L. Brown and Mr. J. C. Sutherland, B.A., rendered readings which were greatly appreciated by the audience. St. Anne's harvest home is always the event of the season; this year despite a three-fold postponement it scored another success of which the Rev. Rural Dean Hepburn can well be proud.

The usual services for the dead were held in the R.C. church here on Monday, 2nd November. The Rev. Mr. Rheame, curate, officiated. He arrived here from Magog and has already wondrous opinions. Rev. Father Quinn is making the annual visit of the parish.

Last week Mr. J. Wilcocks bought an excursion ticket to Boston, naturally expecting to get there and to get back. Mr. Wilcocks is English, any one could see it, naturally the customs officer. When he left Island Pond a man with an "eagle" on his cap sat down beside him and as a consequence Mr. Wilcocks and the customs officer left the train at North Stratford. He is not a pauper, in fact he could buy up No. 1 ward and have something left over but because he could not tell the U.S. officer that he had been on this side of the Atlantic for six months he was landed. Any number of French-Canadian wood choppers got through on the same train, and the same day it was announced that Lord Alverstone had cast the die in favor of the Americans in the Alaskan dispute.

Miss Dora Gallup has gone to Danville for a few days.

Mr. A. M. Barrie, of Montreal, was here a few days this week on business.

Mr. Genge, of Sherbrooke, is in town this week.

Mr. Foster at Cardiff.

Ex-Finance Minister of Canada Says England Must Abandon Free Trade.

Hon. Geo. E. Foster, ex-Finance Minister of Canada spoke at a tariff reform meeting at Cardiff, Wales, last evening. He said preferential trade had been settled in Canada, and in all the great colonies of the Empire. Commerce was the blood of the Empire. Preferential treatment would cost tears and sorrow on the part of many, but they had to lay aside the old economic tradition and go back on free trade. After a microscopic examination he had not been able to find any free trade in England. He drafted several tariffs for Canada, and was able to tell them if 2 shillings duty were put on wheat, and Canadian wheat were to come in free, the consumer would not know there was a tax unless told of it.

London celebrated Guy Fawke's Day, chiefly by burning effigies of free trade.

London, November 5.—Truth has raised the laughter of London by dubbing Chamberlain Elijah III. It says more may be said in favor of Dowie's than of Joseph's pretensions. That Elijah III. is more successful than Elijah II. proves that Englishmen are more gullible than Americans.

Foolish to suffer from Headache when Zutoo Tablets will cure your Headache in thirty minutes. 25c.

A young man named Paul was killed by an explosion on the barge J. Israel Tarte, in Lake St. Peter, and several others of the crew injured.

A young man named Thompson, falling from Kingston, a deck hand on the tug Jessie Hall, fell overboard and was drowned on the way to Montreal.

How Men of Genius Work.

Dr. F. Regnaud contributes to "La Revue" a somewhat scrappy but interesting paper on this subject. Apparently men of genius work in a hundred different ways, and there is no general philosophy to be drawn from a study of their methods. Napoleon decided the fate of battles by a moment's inspiration. Haydn attributed the idea of "The Creation" to a special grace from on high; the Polish poet Mickiewicz declared that he had only to strike his breast to find inspiration; Byron said that composition was a violent labor; Bossuet excited the brain by binding his head with warm cloths. It is curious that Schopenhauer of all men should work when "his will was asleep." Of men who worked in their dreams, Coleridge, with Kubla Khan, is probably the best known to Englishmen. But Heine dreamt also of his poems, and La Fontaine composed the fable of "The Two Pigeons" while dreaming. Voltaire dreamt in one night a complete canto of the "Henriade," and Mr. Kruger, to take a recent case, declared that his dreams sometimes enabled him to solve difficult problems. Genius has also always differed as regards rapidity of work. Voltaire wrote "Candide" in eight days, while Virgil was so dissatisfied with his life-work that he gave orders for its destruction. Flaubert rewrote "Madame Bovary" seven or eight times. Michael Angelo worked with a rapidity which approached frenzy; and Rembrandt gained a wager to engrave a landscape while a servant went out to buy mustard. Leonardo da Vinci, on the other hand, took four years to paint "Joconde."

FOR THIRTY YEARS

Congressman Meekison Suffered With Catarrh—Read His Endorsement of Pe-ru-na.

CONGRESSMAN MEEKISON, OF OHIO.

Hon. David Meekison is well known, not only in his own State but throughout America. He began his political career by serving four consecutive terms as Mayor of the town in which he lives, during which time he became widely known as the founder of the Meekison Bank of Napoleon, Ohio. He was elected to the Fifty-fifth Congress by a very large majority, and is the acknowledged leader of his party in his section of the State.

Only one flaw marred the otherwise complete success of this rising statesman. Catarrh with its insidious approach and tenacious grasp, was his only unconquered foe. For thirty years he waged unsuccessful warfare against this personal enemy. At last Peruna came to the rescue, and he dictated the following letter to Dr. Hartman as the result:

"I have used several bottles of Peruna and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison, ex-Member of Congress.

Over fifty members of Congress endorse Peruna as a catarrhal tonic. Men of prominence the world over praise Peruna.

A TONIC is a medicine that gives tone to some part of the system. There are different kinds of tonics, but the tonic most needed in this country, where catarrh is so prevalent, is a tonic that operates on the mucous membranes. Peruna is a tonic to the mucous membranes of the whole body. It gives tone to the capillary circulation which constitutes these delicate membranes.

Peruna is a specific in its operation upon the mucous membrane. It is a tonic that strikes at the root of all catarrhal affections. It gives tone to the minute blood vessels and the terminal nerve fibres. Catarrh cannot exist long where Peruna is used intelligently. Peruna seeks out catarrh in all the hidden parts of the body.

A. M. Ikard, an employee of the C. B. & Q. R. R., West Burlington, Ia., writes: "I had catarrh of the stomach and small intestines for a number of years. I went to a number of doctors and got no relief. Finally one of my doctors sent me to Chicago and I met the same fate. They said they could do nothing for me, that I had cancer of the stomach and there was no cure. I almost thought the same, for my breath was something awful. I could hardly stand it, it was so offensive. I could not eat anything without great misery, and I gradually grew worse."

"Finally I got one of your books, and concluded I would try Peruna, and thank God, I found a relief and a cure for that dreadful disease. I took five bottles of Peruna and two of Manadin, and I now feel like a new man. There is nothing better than Peruna, and I keep a bottle in my house all the time."—A. M. Ikard. Catarrh of the stomach is usually called dyspepsia. Catarrhal dyspepsia cannot be cured by pepsin powders or any other temporary relief. The only cure for real dyspepsia is a removal of the catarrh from the mucous membrane of the stomach. This Peruna will do. This Peruna has done thousands and thousands of times.

Congressman Botkin, of Kansas was cured of catarrh of the stomach of many years' standing. Hundreds of other cases have been reported to us through unsolicited testimonials. Peruna is the only internal systemic remedy for catarrh yet devised. Every one afflicted with catarrh in the slightest degree ought to take a course of Peruna.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

ULVERTON.

Our Ulverton correspondent, writing of the fatal accident there says: A very sad and fatal accident took place near here at the Graham school house last Sunday, when Albert Janvers, a lad of 13 years lost his life. He was desirous of getting some school books of his out of the school house, and as the school house door was locked he undertook to go in by the window, and as he returned the window fell upon him and broke his spinal cord and it is thought death was instantaneous. No one was present to witness it, and he was found by a passer by, Mr. Irwin, hanging from the window, dead. Mr. Janvers, the lad's father, had sold his farm, stock, etc., and was to leave on the next day with his wife and family for Ontario, and this adds to the sad part of our report, as the family now have to leave, leaving their only son, and brother, behind them. The funeral of the young boy took place today (Tuesday) when about one hundred teams, followed his remains to their last resting place, showing the deep and wide sympathy held by the community in this sad affliction.

I notice that you refer in your edition of November 7th to the fact of Messrs. McCrea and Tobin having bonded the water power on the St. Francis River, commonly known as the Kingsley Falls. This same water power was bonded about sixty years ago by the late Wm. Nunn, who owned the first grist mill at Kingsley, now Trenholmville. Mr. Nunn, it is said, was an engineer by profession, and it is reported that he was the first engineer, who ran a steamboat upon the St. Lawrence river. He always looked upon this power as an excellent one, and we are glad to know that it has fallen into the hands of such wide-awake and enterprising men as Messrs. Tobin and McCrea, and we confidently look forward to no distant day, when this water power will no longer be idle, but will be fully utilized. Since writing the above, I hear that the bond is now closed, and the cash paid over to Mr. Martin, of Ulverton, and Mr. Evans, of Kingsley.

Pain In the Joints

May be muscular or rheumatic. The joints are hard to get at, and it requires a powerful, penetrating remedy to reach the affected parts. Polson's Nervine exactly meets the requirements, for it is both powerful and penetrating. The pain is expelled as if by magic, for one drop of Nervine equals in strength five drops of other remedies. You won't often call the doctor if Nervine is in the house. Price 25 cents.

A letter in the London Westminster Gazette denies that the Cheshire cheese trade is ruined by Canadian competition, as claimed by some writers, but says that the only cheese trade ruined by Canadian imports is that of a wholly inferior class.

"Progress Brand"

Tailor-Made Suits and Overcoats

come nearer to perfection than any other Ready-to-Wear Clothes. They are designed, cut and shaped for the men of to-day. They have that grace, comfort and style that conforms to the figure, look well on young, dashing men, dignified and stately on older men. None of that stiff old-manish appearance you see in other suits.

Also everything that is new, elegant and proper in OVERCOATS is ready for your choosing—from Short Top Coats to long, heavy Storm Coats and Raglanettes. Correct in every style detail. Faultless in every tailoring essential.

AND "PROGRESS BRAND" MEANS FIT, PERFECTION IN OVERCOATS AS WELL AS SUITS.

Prices from \$5 to 20
