MR. BLAIR MAKES FINAL STATEMENT THAT HE WILL NOT JOIN CAMPAIGN

St. John Has Rumor That He May Join the Georgian Bay Canal—Views of the Resignation—Toronto Globe Deplores Loss to Country Through His Leaving Commission.

"NO THANKS," SAID MR. BLAIR.

Ottawa, Oct. 20.—(Special.)—Mr. Blair has received a telegram from Mr. R. L. Richardson inviting him to speak in Brandon against Hon. Mr. Sifton. Mr. Blair declined.

Ottawa, Oct. 20.—(Special.)—Hon. Mr. Blair this morning stated that he had nothing further to add as to his future.

He said h thought he had made it sufficiently clear that he did not propose to re-enter political life or take any part in the campaign.

In view of that declaration Mr. Blair said he could not see what interest the public could have in his future. That was his own private business.

Hon. Mr. Blair stated that as soon as his resignation from the Railway Commission became known telegrams began to pour in upon him from Conservative candidates all over Canada inviting him to address meetings in the constituencies they were contesting. To all of their telegrams Mr. Blair says he replied that he was out of active politics and would therefore have to decline.

S. JOHN'S RUMORS.

St. John, N.B., Oct. 20.—(Special)—Absolutely nothing new has come out regarding the plans and intentions of Hon. A. G. Blair, but friends here say he is coming to New Brunswick at the end of the week, and will spend Sunday in Fredericton. It is said that there is nothing in the report that he is to enter the C.P.R. employ, and those in St. John who know most, together with the Russell papers, declare he is going to stump against the G.T.P. project.

It is reported that his speech-making will all be done in Ontario, and that he will return there immediately from Fredericton without delivering any addresses in this section.

Nothing has leaked out as to the future plans of Mr. Blair, but there are hints from friends both of Mr. Blair and of Mr. Russell regarding a new surprise that will be sprung in a few days. There is an impression that the Georgian Bay Canal scheme is in some way involved in the movement and that it will play an important part in the campaign that is being organized.

Conservative workers here are boasting that the new conditions will place at the party's disposal abundant campaign funds for all constituencies.

THE LIFE LINE.

MISERABLE ATTEMPT TO INFLAME WORKINGMEN AGAINST MR. LYALL

Published Report of a Coming Strike Against Mr. Lyall is a Lie, Says Mr. T. Robert Martin, Business Agent ofthe Union—Men Angry at Attempt to Use Union for Politics.

The tactics being used in St. Antoine Division by a certain section of Conservative workers were shown by the publication last evening of an appeal to the workingmen of the division on the ground that Mr. Peter Lyall, a large employer of labor, was a leader in opposing the labor union, it was published as an interview with Mr. T. R. Martin, business agent of the Building Laborers.

Mr. Martin indignantly denies the interview, as his letter below shows, and says that his union is not for political purposes and will not be used as such. Further, he says that the union has no quarrel with Mr. Peter Lyall.

The firm of P. Lyall & Sons, also write indignantly denying any trouble with their men.

The letters follow and speak for themselves:—

Montreal, October 20th, 1904.

We were very much surprised to read in last evening's "Star" that there was a probability of a building laborers' strike.

The statement was also made that Mr. Peter Lyall who was a member of our firm was the leader of the contractors in trying to smash the union. This statement is a malicious falsehood, and the purpose of it is quite evident.

It is a well known fact Mr. Peter Lyall has always been ready to meet the men, and to help them to improve their conditions, and our firm has always been in the forefront to advance wages when conditions warrant.

We have had no trouble or complaint from the building laborers for many months, and the statement by their President that Mr. Peter Lyall leading others had made a solemn agreement to defeat the aims of their union, is also an unmitigated falsehood.

It has been publicly announced that Mr. Peter Lyall had retired from our firm, and these men know it. Therefore, their reference to him in this article in the "Star" can only be construed as evidence that some parties are very desperate, and intend to use all unscrupulous means in their power to defeat him if they can in St. Antoine Division.

Yours, truly,
P. LYALL & SONS.

But the denial of such a gross misstatement of facts aroused indignation in the ranks of those whom it intended to inflame aginst Mr. Lyall. The Unionists did not appreciate being used as political counters and the business agent of the Building Contractors' Union, Mr. T. Robert Martin, after telling The Herald that there was no foundation for the statements attributed to him in regard to Mr. Lyall and his attitude toward the unions, handed in the following written statement:—

"Would you allow me the use of your valuable columns to contradict a story published in the "Star" of the 19th inst., regarding the Building Laborers' Union, Local, of this city? It is true that we are holding a mass meeting to-night, but it is not for political purposes as published, and it has never been my intention that anyone's name be printed, especially Mr. Peter Lyall's, for we do not intend to mix politics with any of our union affairs in the press.

Furthermore, there is no question of a strike, as it is not our aim to disturb the building industry. If some persons are too zealous in political matters, it is they alone who are to blame for creating such sensations.

Yours,
T. ROBT. MARTIN,
Bus. Agt. Local No. 1.

MAISONNEUVE HAS FIVE LIBEL SUITS

Meeting to Protest Against the Street Railway Was the Cause.

The public meeting of Maisonneuve proprietors on Monday night to protest against the granting of a franchise to the Montreal Street Railway has resulted in seven libel actions amounting to $35,000. No less than four actions, each for $5,000 damages, were instituted against Mayor Bleau this morning, the names of the plaintiffs being Joseph Trudel, Joseph Riendeau, W. Richer and P. Bennett.

Three actions for the same amounts have been entered against Councillor W. Reid, by Messrs P. Bennett, W. Richer and Joseph Trudel. The actions are based on statements alleged to have been made at the meeting by Mayor Bleau and Councillor Reid, to the effect that the present plaintiffs had been bought by the Montreal Street Railway. The actions are taken through Messrs. Bastien, Bergeron and Cousineau.

Mr. Justice Mathieu, in the Superior Court, has given a decision in the case of Edward Bacon vs. H. Lamontagne & Co., awarding $1,500 damages to the plaintiff for injuries inflicted on his minor son. Joseph Bacon was employed in the factory of H. Lamontagne & Co., and on September 26 had his foot badly crushed by some machinery. The amount sued for was $4,000.

Friends and acquaintances are respectfully invited to attend. x

CANADA'S ATTACHE ON LIAO YANG FIGHT

Captain Thacker Says Russian Works were well Designed

Ottawa, Oct. 20.—(Special)—The Canadian military attache, Capt. Thacker, was with the 2nd Japanese army at the battle of Liao Yang. He has sent the Militia Department plans and a description of the Russian position commanding the surrounding country, the various points flanking one another. The position appeared as strong as nature could provide. The natural position was strengthened by admirably designed field works, and well-placed obstacles, which made it practically impregnable. For the first time in the campaign the Russians concealed their defence works and masked their guns. As a result Captain Thacker says, though in a good position for observation, he never saw a single sign of a flash or puff of smoke during the two days.

HONORE GERVAIS OPENS CAMPAIGN

Committee Rooms Opened in St. James—Big Meeting Saturday Night.

With the expectation that the Conservatives will to-night nominate a candidate to contest St. James division against Mr. Honore Gervais, the contest in that riding is becoming decidedly more lively. Last night Mr. Gervais opened five committee rooms in the various districts of his county. Although the fact had not been advertised large numbers of his supporters turned out, and at every room an impromptu programme of speeches was carried out. The Liberals of St James division are confident of victory, and regard the nomination of an opponent to Mr. Gervais as merely a manoeuvre to keep him busy in his own riding.

On Saturday night Mr. Gervais' campaign will open in earnest with a big meeting at the Theatre del Ville, corner of St. Catherine and Montcalm Streets. The speakers will be Hon. R. Prefontaine, Hon. L. Gouin, Senator Choran, and Casgrain, and Messrs. Godfroi Langlois, A. J. Gareau and the candidate.

POINTERS ON PUBLICITY.

The Best English Paper

THE OSWEGO COAL COMPANY, 29 St. James Street, are well known coal merchants. Mr. Duclos, the proprietor, has recently acquired the Canadian rights for a portable heater, which can be employed for heating carriages, beds, muffs, etc. Said Mr. Duclos: "This article is found to be in general demand in such a climate as ours. It is a metal composition confined in a convenient nickel cabinet. After immersion in cold water for a few minutes, it will, when taken out, remain warm for twenty-four hours. It will be indispensable to invalids, taking the place of hot water bags; can be carried in a muff, applied to the feet, etc.

"I have selected *The Herald* as the best English paper in which to advertise such an article. I am satisfied that it reaches the best people in the community—people who have money and who are likely to be interested in a patent, which, while a luxury, has advantages that will quickly appeal to an intelligent public. I will use no other English paper."

Locomotive Output Increased From 40 to 300 in Last Seven Years

Under the Liberal Government Canadian Railroads Buy Canadian Made Engines When Formerly They Came From the U.S.—Longue Pointe Works Will be Increased to a 400 Output.

A striking instance of the rapid development of the trade of Canada during the last eight years of Liberal rule is to be found in the history of the Locomotive industry of the Dominion.

A leading official of one of the largest steel and locomotive works when asked by The Herald to point out the headway that had been made and the possibilities of a rapid increase made the following statement:

"Prior to the revision of the Canadian tariff, there was one company building locomotives in Canada—the Canadian Locomotive Works at Kingston with a capacity of perhaps forty locomotives per year. The largest railway systems in Canada were importing nearly all of their locomotives from the States, as the extended experience and facilities of the builders there enabled them to build superior locomotives at lower figures than they could be produced in Canada.

"Since that time the Canadian Locomotive Works at Kingston has increased its facilities, and the Canada Foundry Company, of Toronto, have placed themselves in position to manufacture locomotives, and the largest and best equipped plant in Canada has been erected in Montreal, and is the property of the Locomotive & Machine Co. of Montreal, Limited. This property represents an investment of over two million dollars, and is at present employing about 1,600 men at Longue Pointe. Its annual output is about two hundred locomotives, besides which it operates a structural steel plant having a capacity of twelve thousand tons of structural steel per year. Since the completion of this company's works, locomotives have been completed for the Canadian Pacific, Grand Trunk, Canadian Northern, Toronto, Hamilton & Buffalo, Dominion Coal Company, and several other smaller roads. The company has now enough business on hand to run its works to its fullest capacity for the next six months, and the outlook for the future is very bright. The policy of the company will be to increase its capacity and facilities in keeping with the development of the country, and, from the present outlook, within the next five years it will be necessary to increase the output from 200 to probably 400 locomotives per year.

Through The Herald's Sieve.

WE HASTEN to deny the rumor that Mr. Blair will become the solicitor of the Abbey Effervescent Salt Co.

MR. BORDEN is after the golf vote by announcing that it is a grand game. His next move will be to clinch the ping pong and parlor croquet support.

ONLY TWO WEEKS more of the campaign cigar.

NEVER DOUBT but we shall hear from St. Petersburg that this is all part of a grand scheme to lure the Japanese up into the country away from their base of supplies.

MR. BLAIR should have a rubber stamp made for his resignations to save him the trouble of writing them.

IT'S TOO BAD the Cons. have such poor eyesight, as there are a whole lot of fine

smoking factory chimneys around that greatly decorate the scenery.

EIGHT YEARS of solid work by the Libs are not going to be upset by a series of eleventh hour tin can explosions.

THE City of Montreal needs $17,000,000 for improvement. To the Con. candidates: "What are your needs?"

EMPEROR WILLIAM is going after the coal mines not that he is a believer in state socialism, but because he does not think there is room in one small country for himself and a coal trust.

MR. BLAIR'S butterfly fluctuations from one job to another recall the classic exploits of:

Off again,
On again,
Gone again,
Finnigan.

THE "WHIRLWIND" CAMPAIGNER.

The whirlwind orator has come, the fiercest of the year,
In nine-a-minute verbiage his speeches strike the ear,
Above the whistle of the train we hear his rolling tones
Beseeching us to vote for Smith and not to vote for Jones,
And ere his talk is half-way through, and while we are intent
Upon his words, the train pulls out and stops the argument.

Upon the platform at the rear throughout the day he stands
And stabs the ambient atmosphere with energetic hands,
His speech begins at Hickeyville and strings along the route
The workers in the fields look up and see him stand and shout,
While on through Piketon, Elmertown and Bigneyburg he speed
Delivering in sections talk on what the country needs.

A whirlwind he, he sweeps the land by north and south and west,
And east by nor', and nor' nor'-east, and swirls through all the rest,
A talk cyclone, a hurricane, sirocco and simoon
All whirled in one to warn the land of its impending doom,
And down the track from Stillyvale on into Barg and 'ville,
In fragmentary eloquence his speeches break and spill.

Before one crowd has seen him leave, and started with its cheers,
He's miles away haranguing in some other people's ears
He fades into the vista as the train goes dwindling on,
The rear coach growing smaller by degrees until it's gone;
The last we see is through the dust his ever-ready arm
Outstretched to point at Liberals and tremble with alarm.

ANOTHER shipload of patience will have to be smuggled into Port Arthur if Stoessel holds out until Kuropatkin comes to his relief.

KUROPATKIN'S advance was caused by orders from the Czar, but considering the lady-like efforts he made, the orders might well have been from Mrs. Czar.

MR. BLAIR says he is out of politics, and just when the Libs. were waking up for a scrap.

"INDIAN SUMMER," according to the popular idea, is any warm, pleasant day between Oct. 1 and Christmas.

THERE IS one good thing about the Blair revival. His campaign buttons can again be used at Christmas to represent Santa Claus.

IT WOULD BE too bad if Sir Charles Tupper's prediction department caved in just now, as it was beginning to feel like old times to hear his prophetic dreams wafted along by the western breeze.

MR. BLAIR resigned a $4,000 Premiership for a $7,000 Cabinet position, and the latter for a $10,000 chairmanship. It is hardly likely that the latest move is for the benefit of his health.

MR. RUSSELL HAS BOUGHT THE HERALD

For One Cent.

SIR CHARLES TUPPER, JR.

The Star has a correspondent in Cape Breton who must have taken lessons on how to cultivate the imagination from Sir Charles Tupper. He wired the Star yesterday:

"The announcement of the retirement of A. G. Blair from the Railway Commission has fairly paralyzed the Liberal party in Cape Breton. They now see more forcibly than ever that their policy is mere sham and that there must be something rotten about it when such high authority as Mr. Blair is publicly protesting against it. Reports from all over the Island to-day state that scores of Liberals are disgusted at the situation and are throwing in their lot and influence with the Conservative party."

There's only one way to beat a Con., and that's on election day. Before the elections they are invincible.

Those Russian Victories.

There is no such thing as a Russian defeat. Kuropatkin is simply performing a series of beautiful strategic evolutions for the benefit of the world at large. When the Russian forces retire it is according to a prearranged plan, so that what might look like a disaster to an outsider is really a great victory. We have had generals in previous wars who were accused of winning victories with their typewriters, but Kuropatkin and his aides are the first to turn defeat into a glorious triumph by this simple method. The modern army that has its explainer along and in good repair is not lost, no matter what happens.

RUSSIAN DEATH ROLL PILING UP

But Russian Stubborness is Yet in the Ascendant

Tokio, October 20, 2 p.m. It is announced at headquarters here that the left Japanese army captured near Langtouchieh six ammunition carts, 5,354 rifles, 4,920 rounds of field gun ammunition, 78,000 rounds of rifle ammunition, and tents, clothing, sabres and implements.

Additional casualties to the centre army just reported are twelve officers killed and thirty wounded.

Japanese Losses 5,000.

Reliable reports received from private sources estimate the losses of the Japanese left army during the recent battle at or about 5,000.

The number of Russian dead is largely increased by the further discovery of bodies, notwithstanding the nightly removals by lantern light.

The Russian forces have been reinforced by about 30,000 men of the seventeenth corps, a large portion of the tenth corps and portions of the fifth and sixth Siberian corps, which recently arrived. In all, six divisions of the Russian army now confront the Japanese left army.

Heavy rains have impeded the movements of the opposing armies since October 17.

JAPANESE CLAIM MUCH LIGHTER CASUALTY LISTS

With General Oku's left army at the front, October 16, 4 p.m., via Tien Tsin, October 20.—(Delayed.) Seven days' battle of Yentai was the heaviest blow yet struck the Russians by the Japanese, so far as loss of life is concerned. The left Japanese army during the week buried 4,100 Russian dead left in front of its lines. A village in front of the left wind contains many Russian dead, but the shell fire of the retreating Russians prevents the Japanese from reaching them. Conservative estimates place the Russian casualties at not less than 25,000. Probably many more dead are on the field in places not yet reached.

The Japanese report their total casualties at a little over 3,000 killed and wounded.

The principal Russian casualties occurred in determined counter attacks on each village captured by the Japanese. The Russian attacking parties were in many cases entirely annihilated.

For the first time the Russians have met the Japanese on an equal footing, not having strong defensive positions to depend upon and for the first time they attacked the Japanese in their own trenches. The Russians everywhere fought bravely but they were unable to drive the Japanese out or to hold their own positions against fierce charges. Almost in every case the Russians retired from their positions at the first charge, then made repeated attempts to recapture them. The Japanese left army with a front of nearly ten miles moved forward about five miles, fighting over every inch of ground. The final retreat of the Russians was almost a rout. The Japanese extreme left advanced, driving the remnant of Russians ahead.

The Russians made a determined counter attack at Lamuting with two regiments of infantry and two batteries of artillery. They were repulsed, after a half hour's fighting, with heavy loss.

BALTIC FLEET'S COALING PLANS VERY INTERESTING

New York, October 20.—A cablegram to the Times from London, says that the London Times' St. Petersburg correspondent says the arrangements for coaling and provisioning the Russian Baltic fleet have reached a very interesting stage and indicate the manner of its going to the Far East.

The fleet is apparently to keep together until the colliers now off Cadiz are picked up. It will then divide, the torpedo and small craft going via Suez and Aden to Singapore and the large warships making for the Cape.

Hamburg-American Colliers.

The big Hamburg-American boats which have loaded and are loading Welsh coal at South Wales ports will, under the present arrangemnts go in advance of the squadron, some to Aden and some to Zanzibar, to coal the vessels arriving by the Suez and Cape routes, and other German vessels will go straight to Singapore in order to coal the concentrated squadrons when they arrive there.

The Cape route as the way by which the big ships will go is clearly indicated by such incidents as the purchase of the British steamer Maori King. This steamer recently arrived at Liverpool, from the River Platte with about 160,000 worth of frozen meat. She has been intercepted without reloading by French intermediaries and sailed last night for the Cape with her cargo of meat.

The Maori King is to be re-named L'Esperance, and her future use as a store boat for the Russian warships is not open to doubt.

Mr. Edward Halley Retires to Support Mr. Bickerdike

Mr. Edward Halley, who was an independent candidate in St. Lawrence Division has issued the following statement:—

Montreal, October 19th, 1904.

TO THE ELECTORS OF ST. LAWRENCE DIVISION.

Gentlemen,—

I beg to announce that I have decided to retire from the contest in St. Lawrence Division. I do so on account of circumstances over which I, personally, have no control. I still believe that the influences which prompted me in accepting nomination were good and valid, but feeling as I do, that I am not in a position to command the undivided support of the Liberal party, I must bow to the inevitable and rally to the support of those who are chosen, whether rightly or wrongly, to be the representative of our party's principles. I will, therefore, do all I can to secure the election of Mr. Bickerdike, the Laurier candidate.

Again let me thank those valued friends, whose efforts were directed to obtain for me an opportunity to enter public life, where they thought I had some talents to be utilized, in our country's interest. The remembrance of their confidence will be, in the future, an incentive to me. Perhaps in some happier day and, under better circumstances, they may succeed in the attainment of their hopes and my own.

With my most sincere thanks,
I am, respectfully, etc.,
(Signed), EDWARD HALLEY.

Liberals Have Multiplied Immigration by Three

Remarkable Showing of the Increase of New Arrivals in This Country in the Last Five Years as Against Last Four Years of Conservative Rule.

Ottawa, Oct. 20.—(Special.)—The Immigration Department has prepared a statement of the immigration for the five years from 1899 to 1904 compared with the five years from 1891 to 1896, the last years of Conservative rule.

	Conservative immigration.
1891	27,035
1892	27,898
1893	34,649
1894	20,829
1895	18,790
1896	16,835
Totals	146,036

	Liberal immigration.
1899	44,543
1900 (six months)	23,895
1900-1901	49,149
1901-1902	67,379
1902-1903	128,364
1903-1904	130,330
	443,660

The percentage of increase in favor of the Liberal Government is 204 per cent. If the immigration keeps on at the ordinary rate, the increase at the close of the calendar year will be more than 220 per cent. The statement is as follows:

The percentage of increase in immigration in 1896 over the previous year was 29 per cent.; of 1898 over 1897, 47 per cent.; of 1899 over 1898, 40 per cent., of 1900 over 1899, 10 per cent.; of 1901 over 1900, 37 per cent., and of 1902 over 1901, 90 per cent., and of 1903 over 1902, 2 per cent.

CAR BLOCKADE KILLS OREGON WHEAT SHIPPING

Fifteen Million Bushels Sold to Chicago, Only One-third Shipped.

Portland, Ore., October 20.—The business of buying Oregon and Washington wheat for shipment to Chicago and other Eastern markets has ceased. The railroad companies cannot supply enough cars to handle the traffic and consequently business practically is at a standstill. It is estimated that from 12,500,000 to 15,000,000 bushels already have been sold on eastern account, and of this amount not over one-third has been forwarded.

FOUNDER OF BALDWIN LOCOMOTIVE WORKS DEAD.

Watertown, N. Y., October 20.—David W. Baldwin, aged 89, one of the oldest residents of this city, died yesterday. He founded the steam engine industry here, and in war times manufactured guns for the Government.

NEW AFFIDAVIT IN THE SAULT TRIAL

Patrick Galvin Makes an Alleged Confession.

Toronto, Ont., Oct. 20.—(Special.)—Speaking at the Parliament buildings in regard to the despatch from Sault Ste. Marie, alleging that a confession had been made by Patrick Galvin, implicating him in connection with the "Minnie M." revelations, Hon. J. R. Stratton said: "I have not seen any despatch from the Sault in regard to the investigation you speak of. All I do know is, no one went to the Sault with my authority to assist in the election, directly or indirectly. Personally I know nothing about the contest, how it was conducted, or who conducted it, further than the newspaper reports. You may, as emphatically and explicitly as you can, say so. If anyone has used my name to induce anyone to do anything in connection with that election, he did so improperly, and absolutely without my knowledge or consent. I do not know the Kennedy referred to. I never saw or spoke to him to my knowledge."

WHAT GALVIN SAYS.

Galvin's statement was read to the court at Sault Ste. Marie yesterday. He recalled the facts of the trip as already known, and said he was paid $400 by Jack Kennedy for getting the pluggers. The newest part of his declaration read as follows:

"I formerly resided in Peterboro, and was well acquainted with Hon. J. R. Stratton, for whom I worked in political matters for many years. When Kennedy came to me he stated and satisfied me that he came with the said Stratton's authority, as he said the said Strattan had told him I might be relied on to do anything that he might want to assist C. N. Smith in his election.

CALLED ON STRATTON.

"I wrote J. R. Stratton, calling on him and the Liberal party to get me out of the predicament they got me into, and shortly after one D. A. Grant, solicitor, from Toronto, called upon me in response to my letter to Stratton. We talked the matter over. I told him I did not like to have my name ridiculed in the way it had been, and that I wanted the matter cleared up, as it hurt me personally and financially.

"He promised that if I followed his instructions he would see me through, and I would be protected, and all fines imposed would be paid by him on behalf of the Liberal party.

"I told him I would not take ten thousand dollars, though I needed the money badly, for having my name and reputation commented on in all the papers in the country, and he said he wouldn't either. eH advised me to stay away from this court. Although I am a resident of Michigan now, I deemed it advisable to furnish this statement to the court, in the interests of all concerned."

POLITICAL GOSSIP

WARM JOINT DEBATE.

Coteau du Lac, Oct. 20.—(Special.)—At a joint political meeting held at St. Telesphore, Mr. Bissonnette, speaking in favor of the Conservative candidate, Dr. Seguin, his brother-in-law, made some remarkable statements, quoting from the Government statistics. Mr. Archambault accused the speaker of misquoting figures, and proceeded to argue that the Conservative orator had actually misrepresented the facts by only quoting portion of the figures dealt with. Speaking for three-quarters of an hour, Mr. Archambault sheltered his opponent's arguments and denounced the misquotation of statistics for political ends.

MR. E. KIDD AGAIN CANDIDATE.

Ottawa, Oct. 20.—(Special.)—The Carleton County Conservatives, in Stittsville, re-nominated Mr. Edward Kidd as their candidate yesterday. Only two names were suggested, Mr. Heney, reeve of Nepean, and Mr. Kidd. The vote was largely in Mr. Kidd's favor and was made unanimous.

QUEBEC WEST CONSERVATIVES.

Quebec, Oct. 20.—(Special.)—Mr. J. F. Burstall, lumber merchant, was yesterday afternoon offered the Conservative nomination in Quebec West by the delegates in convention. Mr. Burstall declined the nomination, which at a meeting in the evening was offered to Mr. L. Stafford, a Quebec advocate, who accepted the honor.

NANAIMO NOMINEE.

Capt. C. Phillips-Wooley, of Pier Island, has been chosen by the Conservative party as their candidate in Nanaimo against Mr. Ralph Smith.

DR. GABOURY WITHDRAWS.

Dr. Gaboury, the second Liberal candidate nominated in Pontiac, has withdrawn from the contest, leaving a straight fight between Messrs. Hodgins (Lib.), and Brabozon, (Con.)

DR. MONTAGUE UNDECIDED.

Hamilton, Ont., Oct. 20.—(Special.)—Hon. Dr. Montague was interviewed yesterday regarding the offer of nomination from the London Conservatives. He refused to give any information as to his course until he received the offer from the deputation appointed to convey it. He had, he said, no desire to re-enter public life at this time and had refused nominations offered by other constituencies.

McGILL PROCESSION.

Those of the McGill students who desire to take part in the public welcome to Sir Wilfrid Laurier at Bonaventure Station on Monday evening will meet at the corner of Milton and Mance streets to form a procession. The route of this McGill procession will be by way of Mance, Sherbrooke, Park avenue, St. Catherine and Windsor. At the station it will join the larger procession which will escort Sir Wilfrid to the Monument National and will accompany him to Sohmer Park when the first meeting is concluded.

HUNT CLUB MEMBERS AT QUEBEC.

Quebec, Oct. 20.—(Special.)—Some twenty-five members of the Montreal Hunt Club arrived in this city yesterday and this morning started on a tour across country along the Little River Road, in the direction of Lorrette.

Mr. D. McNicoll, vice-president of the C. P. R., will return to Montreal this evening from the west. He has been making a tour of inspection of the Lake Superior division.

GREAT BATTLES OF HISTORY.

In the number of casualties on the Russian side the battle of Shakha without doubt outrivals any battle of modern history. Following the usual method of computing casualties from the number of dead—four men wounded to one killed, the Russians lost 50,000 or more men as the result of Kuropatkin's advance and retreat. The Japanese losses as reported to date amount to 6,000. In the battle of Liaoyang the aggregate losses of both armies, so far as reported, were about 23,000, with about 400,000 men engaged. From all reports the number engaged in the present battle exceeds that at Liaoyang.

In none of the great battles of the United States Civil War did either of the contending forces even approximate the number on the firing line around Yental. At Gettysburg but 152,000 men were engaged.

At Waterloo the total French and allied forces numbered 190,000 men.

At Sedan, the decisive battle of the Franco-Prussian war, 390,000 men were engaged—250,000 Prussians and 140,000 French.

Leipsic more nearly approaches the struggle now being waged by the Russians and Japanese in the number of forces engaged, but in no other way can the battles be compared.

An idea of the extent of the struggle may be gained from the following table showing the forces engaged in the great battles of history:

Jena—October 14, 1806.
French, 100,000; German, 60,000.
Losses: Germans, 20,000; French, 14,000.

Leipsic—October 16, 1813.
Allies, 300,000; French 130,000.
Losses: French, 40,000; Allies, 40,000.

Waterloo—June 18, 1815.
French, 72,000; Allies, 117,000.
Allies, 23,975; French ——
Alma—September 20, 1854.
Allies, 57,000; Russians, 50,000.
Losses: Allies, 3,400; Russians, 5,000.

Sebastopol—September 9, 1856
Allies, 170,000; Russians, 150,000
Losses, Allies, French, 7,546; English, 2,447; Russians, 17,000.

Bull Run (first)—July 21, 1861.
Union, 28,000; Confederate, 31,000
Losses: Union, 2,708; Confederate, 1,967.

Shiloh—April 6, 1862.
Union, 33,000; Confederate, 40,955.
Losses: Union, 13,573; Confederate, 10,699.

Fair Oaks—May 31, 1862.
Union, 51,543; Confederate, 39,000.
Losses: Union, 5,727; Confederate, 4,500.

Bull Run (second)—August 29, 1862.
Union, 35,000; Confederate, 46,000.

Fredericksburg—December 13, 1862.
Union, 113,000; Confederate, 78,000.
Losses: Union, 12,353; Confederate, 5,207.

Gettysburg—July 1, 1863.
Union, 74,000; Confederate, 78,000.
Losses: Union, 23,190; (including 7,000 missing); Confederate, 36,000 (including 13,733 missing and captured).

Sedan—September 1, 1870.
German, 250,000; French, 140,000.
108,000 French surrendered.

QUEBEC TEACHERS IN CONFERENCE

Scarcity of Teachers an Important Point of Discussion.

The Provincial Association of Protestant Teachers of Quebec opened their first morning session of the annual convention at the High School, Peel street, at 10 o'clock this morning. In the absence of the president, Rev. E. I. Rexford, D.C.L., LL.D., who was unable to be present owing to a family bereavement, the chair was taken by the Rev. E. M. Taylor, M.A., ex-president of the association.

Miss Hammond read the report of the library committee, which did not appear so satisfactory as its advantages should warrant. The Rev. E. M. Taylor was of the opinion that the report did not really indicate that teachers were reading less, but rather that they had more local advantages. It was decided to try a better system of communication to bring the library and the teachers into closer intimacy.

Mr. H. J. Silver, as representative of the Protestant committee, read the report. His report pointed out that it had been represented that the study of Latin should be subordinated in favor of French and mathematics as possessing greater commercial advantages. This perhaps in a measure was true, but Latin tended to train and intellectualize the mind, and to fit even for the profession they were intended to embrace. He was glad to say that the well defined line of demarcation between academies and schools had been largely removed and the schools were now able to teach those higher subjects which tended so largely to refinement of character.

He drew attention to an ever-increasing cry—the cry of the scarcity of teachers. There were those who believed that the situation could be relieved by a legislative enactment to put cheap teachers in the school, teachers willing to go to the remotest corners of the earth and teach for less than they could get in town. The idea should be strongly condemned. It was the very essence of education that teachers be competent. There was nothing to choose between no teacher at all and an incompetent. Competent teachers refused to teach at the salaries offered at present, and sought more remunerative employment elsewhere. Some stringent reform was necessary.

The report of the pension commissioners was read and approved, and showed a satisfactory increase in the income.

MR. BICKERDIKE CONFIDENT OF SWEEPING VICTORY

He Thinks the Other Candidates Will Lose Their Deposits.

"From the present outlook, I feel confident that both Mr. Campbell Lane, the Conservative candidate, and G. W. Parent will lose their deposits in St. Lawrence division," was the opinion expressed to The Herald to-day by Mr. Robt Bickerdike, the Liberal candidate in the division.

"Even when there were four or five candidates in the field," added Mr. Bickerdike, "there was not the slightest doubt as to the result, and the retirement of some of the candidates will not make any difference. The electors of the division seem determined to support the candidate of the Laurier Government."

CRUELTY TO CHICKENS.

City Inspectors are Hard After Offending Farmers.

The farmers who overcrowd chickens in crates will have to answer in the courts for their conduct.

When the steamers Berthier and St. Laurent reached port this morning, Inspector Fletcher, of the S.P.C.A., found on board three crates which were packed with chickens, no less than 100 fowls being locked up in them. The crates were opened and the chickens released. No less than twenty-five were found to be suffocated, while the others were in a stupefied condition. The city health officials were notified and they immediately confiscated the dead chickens. Inspector Marshall is learning the addresses of the farmers who shipped the chickens in such a disgraceful fashion, and they will be summoned to appear in court. The fowls were sent from the district about Berthier and Laroraie.

K. OF P. ORGANIZER APPOINTED.

At a recent meeting of Syracuse Lodge No. 9, Knights of Pythias, it was decided to put an organizer in the field in the interest of the lodge, and Knight Samuel Thompson was the unanimous choice. Mr. Thompson has had considerable experience in this kind of work. During the late summer when extra efforts were put forth by this order, with the object of the institution of the Grand Lodge, Bro. Thompson was instrumental in organizing a splendid lodge at Farnham with forty charter members. Mr. Thompson was also a prime mover in the organization of the Hackmen's Association of this city, winning the gold medal of this association for organizing work. He is also an active worker in the Canadian Order of Foresters, and has filled every subordinate office in this order, being at present Chief Ranger of Court Freedom.

PORT ARTHUR IS NEARING ITS END

Japanese Steadily Strengthening Their Positions—Naval Sorties.

Che Foo, Oct. 20, 3 p.m.—The most important recent events at Port Arthur include the capture by the Japanese of further minor positions near Rihlung mountain and the severe damage of a Japanese torpedo boat destroyer by striking a floating mine.

According to Chinese advices, which reached here to-day, and which are confined in essential points by Japanese letters from Port Dalny, the Japanese made assaults on the remaining outer works of Rihlung mountain at dawn Oct. 8 and were repulsed. The following day the Russians made an attack on the Japanese trenches, and they in turn were repulsed. The Japanese immediately followed with another assault, resulting in the capture of an iron railroad bridge and the heights south of the bridge, which is five hundred yards from the main fortress. The importance of these captures lies in the fact that they curtail the Russian fire in harassing Japanese who may attempt to advance on the trenches located on the slope of Rihlung mountain. This attack seems to have been a surprise for the Russians, the Japanese claiming that they lost only fifty men. Since the capture of the points mentioned the Japanese assert that they have successfully resisted numerous sorties in attempts to recapture them.

Sortie From the Harbor.

At 10 o'clock in the morning of October 12 seven Russian torpedo boat destroyers emerged from the harbor of Port Arthur and later they were followed by two moe destroyers. This squadron proceeded to Shaopington and bombarded the Japanese left flank. Four Japanese torpedo boat destroyers hurried to the scene and the Russians retired to the harbor followed by the Japanese. The pursuit ceased upon entering the imned area. One Japanese destroyer, while returning hit a mechanical mine and was severely damaged, but she managed to reach Port Dalny and is now being repaired.

In the meanwhile the Japanese siege guns continued to drop big shells in the harbor, the Japanese claiming that they damaged the Russian gunboat Giliak and another Russian warship.

A Chinaman who arrived here to-day decalres that during the Japanese assault on Rihlung mountain the Russian battleships fired almost incessantly to the north.

Ceaseless Rain of Shells.

The Japanese at Taku mountain have dropped a ceaseless storm of shells on the Chinese town and many rifle bullets also fell in the place. The Chinaman adds that the fighting was very severe and that the Japanese lass was considerable.

It is estimated taht the Russian force at Port Arthur now numbers 5,000 men, excluding the militia, which is not engaged in the fighting but in guard duty.

Winter clothing is very scarce at Port Arthur, shoes particularly. The Russian soldiers are wearing Chinese shoes and some of them areu nable to obtain even these and wrap rags about their feet. The agrrison is greatly worn out by the many months of exhausting, anxious labor and fighting. The town is full of wounded. Flour is plantiful and the slaughter of horses, mules and donkeys continues.

RUSSIA HAS NO USE FOR "PEACE AT ANY PRICE"

St. Petersburg, October 20.—The Novoe Vremya this morning, deprecating the renewed talk of foreign intervention in the Russo-Japanese war, says:

"Such talk, if based upon the fact that now and again the voicing of an urgent desire for peace is heard in Russia, must reflect the marvellous ignorance of, or indifference on, the the part of the foreigners to Russia's true internal condition. The fact is that in Russia, as in other countries, there are several parties; two of these want peace—the extreme reactionaries, because they constitute what was known in the United States during the Spanish-American war, and in England during the Boer war as 'peace at any price' men, and the ultra-radicals, because they are in favor of a humiliating peace, which would weaken the present Government. But these parties are insignificant. beside the great body of moderate Progressives, who wish to see Russia's interior economical capabilities developed to their fullest extent, and who realize that only through a decisive Russian victory in the far East can the wound be healed, not plastered, and Russia have the opportunity for interior development on which their heart is set."

ONE STOREY SHEDS FOR THE HARBOR

Contractors Have Accepted New Proposition—Will Simplify Plans.

An entirely different system of steel freight sheds than that already contracted for will now be erected throughout the harbor of the city.

The announcement made yesterday that some important changes would be made in the style of sheds was followed by a statement by one of the members of the Harbor Board that the changes are so drastic that everything except the foundations will be different.

The plans as prepared by Mr. T. W. St. George and accepted by the Minister of Marine and Fisheries and the Shipping Federation and more important still, the contractors Messrs. Peter Lyall and Sons, have agreed to erect the new style of buildings.

By the erection of one storey buildings with very few posts, the difficulty that was anticipated with the city when the question of vamps on Commissioner Street would be brought up will be entirely set aside.

It was announced to The Herald today that the new plans would be submitted shortly to the Harbor Board to be passed. The different members of the Board were informed to-day of the change to be made and those seen were entirely in favor of the alterations.

REVENUE MEN WERE AWAKE.

B. Schwartz, St. Lawrence Street, has been condemned by Judge Sicotte to pay a fine of $50 and costs, with the alternate of three months imprisonment, for an evasion of the Revenue Laws in respect of a cask of whiskey imported from the United States.

PROF. PIKE MAKES AMENDE HONORABLE

A Complete Apology for the Recent Kingston Incident

Kingston, Ont., Oct. 20.—(Special.)—The following is issued for publication: "October 20.—I desire to express my regret for having publicly stated that Prof. John Marshall was not a Christian. I fully withdraw the statement and humbly apologize for having made it.

WALTER K. PIKE."

This is the final stage of the episode at the Bible Institute where one Professor of Queen's objected to another speaking because of his alleged non-Christian views.

MR. T .W. HIGHT'S FUNERAL.

The fuenral of Mr. Thomas W. Hight, second son of Mr. W. J. Hight, which took place from his father's residence, 103 Anderson Street, at half-past two o'clock this afternoon to Mount Royal cemetery, was attended in a body by the members of Courts St. Jude, No. 5889, Aancient Order of Foresters, and Loyal Star of the West Lodge, Manchester Unity Oddfellows, with both of which the deceased had been identified. as wel las by a large number of personal friends and acquaintances. A service was held at the house, at which the Rev. W. T. Halpenny officiated. The chief mourners were the father of the deceased, Mr. W. J. Hight; Messrs. W. J. C. Hight, Robert Hight, L. R. Hight, and C. Mc. Hight, brothers; Mr. R. G. Brown, uncle, and Messrs. Percy Brown, Bert Brown and William Marshall, cousins. The pall-bearers were six members of the Lily Association of the St. James Methodist Church, of which the deceased had ben a life-long member.

The floral offerings were very numerous, and besides the tributes from relatives and friends wreaths were received from Court St. Jude, A.O.F., Mr. A T. Patterson, grand recorder of the A.O.U.W., and Mr. F. W. Atkinson, master workman of Federation Lodge, No. 2, A.O.U.W.; crescent mounted on a star from Gault Bros. & Co.; wreath from Alfred Robinson & Co., and anchors from the Lily Association and afternoon and morning Sunday schools of the St. James Methodist Church.

NEW C.O.F. OFFICERS.

At the annual meeting of the Council of present and Past Chief Rangers, Canadian Order of Foresters, held in the hall, 2204 St. Catherine Street, the following officers were elected for the ensuing year:—President, Mr. W. J. Guilbault; vice-president, Mr. J. Johns. Court Seaforth; secretary, Mr. D. R. Kennedy, Court McGill; treasurer, Mr. Clovis Laporte. The financial statemetn was satisfactory. It is proposed to hold an "at home" shortly.

C. P. R. COLLISION NEAR WESTMOUNT

Inquest Postponed Until Larne Draper is Able to Appear

The main point brought out at the inquest held this morning on the body of W. A. Macmahon, the brakesman killed yesterday morning in the C.P.R. collision near Westmount, was the difference admitted by train crews between hard and fast rules and the expediency of the moment.

After listening to the evidence of a number of the members of the crews of both trains, Coroner Macmahon postponed the inquest until such time as Lorne Draper, engineer of extra 1145, the construction train that backed out of the siding and caused the collision, should be able to appear in person to give his evidence. Draper is at present in the Royal Victoria Hospital suffering from injuries received in the accident.

Albert Minchen, of Outremont, engineer of the regular freight, explained the block system of signals, and testified that the first block after Montreal Junction showed him a clear signal. He pulled his train into the second block, and met the construction train half way between the two signals. The dense fog prevailing at the time prevented him from seeing the other train until it was within a distance of one car, when he saw the light of the van ahead. This was at 5.30 yesterday morning. He turned on the brakes and jumped just as the trains wet.

When asked his opinion as to how the accident occurred, Engineer Minchen stated that trains had no right to go in the opposite direction to that regularly followed on double track systems, except at the orders of the train despatcher, who, in the present case, would be the Farnham despatcher. In that case, the regular freight would have been held up at Montreal Junction.

Walter Finnigan, of Farnham, conductor of the construction train, extra 1145, explained the movements of his train prior to the collision. They had to back a distance of ifteen cars to let the other construction car, unloading there, room to go out. He sent a flagman out behind to warn any oncoming trains, and told the brakesman to back up fifteen cars. The engineer backed up too far, and went west of the block signal. He supposed the reason of this to be that the other engine gave three long whistles, a signal to back. The rear brakesman saw the danger and ran over the cars towards the engine, but the trains collided while he was still five cars away, the fog preventing his light from being seen by the engineer. The conductor had no orders from the train despatcher.

Brakeman W. G. Walker, of West Farnham, and J. P. Drake, of Farnham, both of extra 1145, gave their testimony, the bulk of which went to show that Engineer Draper had backed in obedience to the whistle of the engine in the siding, without awaiting signals from his conductor or brakesman, and that he was unable on account of the fog to see the signals to stop when he had proceeded far enough.

Mr. Blair Manager Lake of the Woods Co. at $20,000 a Year

The Herald is informed that the position Mr. Blair has decided to accept is that of manager of the Lake of the Woods Milling Company, at a salary of $20,000 a year. This company was reorganized some months ago by Mr. David Russell. Mr. Robert Meighen, of Montreal, is its president. The general meeting of the company is to take place on October 26.

Interesting Details of What the Dom. Steel Co. is Going to Do

There was some disappointment among the Dominion Steel shareholders yesterday that no information was given out in regard to recent earnings, but Mr. Graham Fraser's report was read with interest and received with satisfaction.

Among other things Mr. Fraser said that the company would mine about 315,000 tons of ore in Newfoundland this year, of which ore to the extent of 115,000 tons will go to Europe, where it commands a fair price and a ready and permanent market. Other interesting features of the report are quoted as follows:

Coal—The coal received from the Dominion Coal Company requires to be washed in order to reduce the sulphur and improve the structure of the coke so that it will work economically in the blast furnaces. Our coal requirements, with two blast furnaces running, are about 45,000 tons per month.

Coke ovens—It has been found from experience that retort ovens, such as the company has installed, require forty to forty-eight hours to make coke suitable for blast furnace purposes from the Cape Breton coals, which are high in volatile matter. The present 450 ovens will, therefore, not make as much coke as is required to run three blast furnaces, but I think it would be better not to build additional ovens until the effect of the washing plant is better known, when we can tell more definitely the number of ovens required.

Furnaces—The company's four blast furnaces are well equipped with modern machinery. Five of the ten furnaces of the open hearth plant are in operation, and doing fairly good work.

Blooming mills—The continuous billet mill, which was completed in April, will roll blooms into small billets without reheating, faster than the blooming mill can deliver them. The billet mill supplies billets to the wire rod mill, also 1 1-2 to 3-inch billets for the market. The rod mill, which was also completed in April last, was designed to roll 200 tons per day, but has proved itself capable of turning out 250 tons. This mill has proved highly successful, and is making wire rods of very satisfactory quality. The rail mill now being installed will have a capacity of 500 tons a shift. We expect to be ready to roll for next season's demands.

Products.—The Company's products now cover the following range:

1. Basic pig iron made from Wabana ore without admixture. This is the only pig iron used by us for the manufacture of steel.

2. Foundry pig iron, made from Wabana ore alone, which produces cheaply an iron of better quality than Middlesborough, Eng.

3. Foundry pig iron of better qaulity, similar to Scotch foundry iron, made from Wabana ore with a percentage of low phosphorous ore mixed. The ore used for mixing has usually been brought from Spain; this year we bought 20,000 tons on Lake Superior at a satisfactory price.

4. Steel ingots, in manufacturing which pig iron made from Wabana ore alone is used.

5. Blooms, billets and slabs for sale, and billets for use in rod mill.

6. Wire rods up to ⅜ inch diameter.

In addition, sulphuric acid and the by-products of the coke ovens, tar, sulphate of ammonia, etc., are sold and before long we shall add steel rails to the above list.

Now that we can supply two blast furnaces with coke made from washed coal we look for an improvement in practice and cost. The results of operations in September indicate that the new coke will enable us to increase our output of pig iron and decrease our consumption of limestone, both potent factors in the matter of cost.

Steel made from Wabana ore alone has proved to be of good quality; a large tonnage has been manufactured into boiler tubes, boiler plates and car axle, angle plates, wire rods, and all other products for which open hearth steel is used. Before starting to build the rail mill, 115 tons of steel blooms were sent to England and made into standard 80-pound rails. The rails were rolled and tested under the supervision of Mr. C. P. Sandberg, who represents in such matters the Governments of Canada, Sweden, etc., and many other important bodies. He reports most favorably of their quality.

Markets.—Canada consumes annually over 1,000,000 tons of pig iron and steel, and should undoubtedly be our best market. The output of the plant should therefore be manufactured into such products as the Canadian market calls for, keeping to the fewest lines which will keep the works running fully. Our whole tonnage could undoubtedly be sold in Canada in the shape of rails, billets and wire rods, but it may be found later on advantageous to instal the plate mill and 22-inch merchant mill, which the company has already purchased.

Fighting Laurier with Money.

The signs accumulate that the Conservative party managers have made up their minds they can and will carry the elections by the free use of money.

A few weeks ago, even a few days ago, it was a foregone conclusion that the party led by Sir Wilfrid Laurier would be returned to power. Nobody doubted it. Conservatives admitted it. But within a few days several things have happened, and now a few Conservatives who claim to known that other things are going to happen are very confident that their party will be returned to power.

What does it all mean? The meaning is very plain. They are using money, and they think they have enough of it, and can do enough with it, to beat the Government, no matter how strong that Government is with the people. Let us follow these developments.

The first was the breaking off of negotiations for the sale of the St. John Telegraph to persons who thought to bring it more into accord with the Liberal organization in New Brunswick, of which it had been nominally the organ. Mr. David Russell, the man of the hour in the Conservative party, decided to hold on to the Telegraph.

The next incident was the passing of the Montreal Star into a joint stock company, capitalized at $1,100,000, of which Mr. Hugh Graham retained $600,000 and $500,000 is held by Mr. Marler, a notary, presumably in trust. There were persistent rumors on the street that political or semi-political interests had acquired a large interest in the Star. The Star itself explained, just as was explained on behalf of La Presse the other day, that it was an innocent transaction, mainly for the purpose of allowing some old servants to acquire stock. The resignation of Mr. Henry Dalby, who had held an important position in the Star for over twenty years, following shortly after, seemed to discount this theory of benevolence, and half a million seemed to be rather a large interest to put in trust for the purpose, but no matter.

The next incident was the acquisition of the Times newspaper property in St. John, this time by Mr. David Russell again. One result was to put out of independent existence the Gazette, an evening paper, which had been friendly to the Government.

The next incident was the acquisition of La Presse, of Montreal, a paper which circulates in every corner of the Province of Quebec. It is much to be hoped that the full details of this transaction may be made public, for by all accounts it was the most high-handed piece of enterprise ever perpetrated under the name of a business transaction. It was not a sale that was contemplated by Hon. Mr. Berthiaume two weeks before it took place. It was forced upon him as a result of machinations engaged in by the heads of the Conservative organization in Montreal. It was not intended that the public should know about it. It was to take the form, in public announcement, of a simple reorganization for the benefit of employes. Men who are barely suspected of having given out the news have been persecuted all this week, threatened in some cases with loss of employment, in others with withdrawal of credit. In this case the Federal political issue is not the only one involved. It is the main issue, but carries with it, owing to the circumstances of the case, a change in the attitude of La Presse towards the franchise-grabbers of Montreal, who are hereafter to control it. Mr. David Russell also figures in this transaction as a negotiator and financier or financial agent.

The next incident was the resignation of Mr. Blair, who presided at a recent banquet given by Mr. Russell, who claimed Mr. Russell as a protege of his, and who announced, in one of Mr. Russell's St. John papers, his intention to renew his attacks on the Government's railway policy. He leaves what is practically a judicial position to accept, at the hands of persons whose identity is concealed, an office of great emolument, and frankly pleads his right to look after his own interests, arguing that if he did not he could not expect others to.

That is the list so far, but other incidents are openly hinted at. It has been already affirmed that Mr. Charles M. Hays has resigned. Mr. Hays has denied it by cable, but Le Journal, the organ of Senator Forget and the French Conservative directorate, protests that his statement is indefinite, that he was not reported as resigning from the Grand Trunk, but that he does intend to resign his position on the Grand Trunk Pacific. We must wait and see what ground there is for this prediction, so confidently made not only by Le Journal, but by others who are in the secrets of the Conservative organization, and what it means if true.

This much, at all events, is certain. There is a conspiracy in operation, backed by apparently unlimited money, the object of which is to defeat the Government of Sir Wilfrid Laurier. We must wait for the further developments, but they are assuredly near at hand. There is money to throttle a free press. There is money to induce a judicial officer to come down from the bench. There is money to use against the Government in every way that money can be used against the Government. Its use is directed by the champions of monopoly in Montreal.

It is a clear issue. The record of Canada's greatest statesman against the power of unlimited money to be used in driving him out of office.

When Laurier is here next week Montreal will show him what she thinks of it.

A MISSTATEMENT.

"Mr. Borden has fully committed himself to the prompt building of the line. No matter what men may come or go, the new transcontinental railway is a certainty of the immediate future. The question between the parties is merely one of method. Mr. Borden says that if the nation pays for the road, it should own it, and control rates."—Montreal Star.

Here is a clear-cut declaration that there is no issue between the parties as to the principle of another transcontinental road. Mr. Borden, we are told, is committed to the proposition. Let us hear no more, then, as to the folly of building the line from Winnipeg east. The Government's proposal, we are told, is adopted by Mr. Borden and those who are behind him.

Now, as to the matter that is at issue. Mr. Borden, we are told, wants to own the road, because the nation is to pay for it.

What is there in this argument? The eastern section the country will certainly own. It is to be built by the country, and owned by it, but operated by a leasing company.

The western section will not be owned by the country, but neither will it be built by the country. All that the Dominion agrees to do is to guarantee the G. T. P. bonds for a proportion of the cost. Now, a guarantee does not imply any payments, unless the bond-makers fail to meet their obligations. Does Mr. Borden hold that the G. T. P. west of Winnipeg will be a losing proposition, unable to pay even the interest on its bonds? If he does, he has little faith in the resources of the Northwest. And if he has such little faith, why does he endorse the idea of another transcontinental line, and why, in the name of common sense, does he want the country to own and operate a road he believes will be non-sustaining?

There is no getting away from the fact that Mr. Borden's whole argument about the Government being pledged to give the road to the G. T. P. is based on the assumption that the road will be a losing concern.

INSURANCE GROWTH.

The official figures relating to the growth of life insurance business in Canada are very instructive and afford reliable evidence of the growth of prosperity and the systematic thrift and carefulness of our population. In 1883 the total amount of life insurance effected in Canada was only $21,572,960 and the total in force totalled $124,196,875; the return just issued shows that $91,567,805, of new policies were effected last year and that the record amount of $548,443,000 was in force.

Even more remarkable and satisfactory is it to see the high position attained by the purely Canadian life insurance companies. In 1875 of the total life insurance in force $85,009,264 American companies held more than one-half, British companies nearly $20,000,000, and Canadian but $21,257,296. By 1895 the position had so far improved that out of a total of $319,257,587 in force, Canadian companies held $168,226,057. The last figures available, those for the year 1903, are still more remarkable and show that the total life insurance policies held in Canada have a face value of $548,443,000, divided as follows:—

Canadian companies	$335,638,940
American companies	170,676,800
British companies	42,127,260
	$348,443,000

The number of policies in force in Canadian companies was 217,500, in British 21,439, and in American 85,673.

Turning to details given as to the stability of the various Canadian companies the same satisfactory evidences are afforded in the Government blue books and it is not surprising to find that several of them are finding a remunerative field for their operations outside the Dominion of Canada. We are not only doing the lion's share of a business which until recent years our share was a small one, but are successfully competing in the special spheres of operations of our former invaders.

Apart from the business aspect of the question it is a splendid sign of the present habits of our people that they are in ever increasing number in availing themselves of the means of acquiring such an unavailable asset as is afforded by a policy of life assurance.

AN "ANTICIPATED CLIMAX."

The more one thinks of this Blair incident, the more does it seem to require candid explanation by Mr. Blair. There is, to be just to him, a certain incoherence about the statements attributed to him, which makes it look as though he may have fallen into the hands of unscrupulous people. His statement that he is not in politics does not accord with that other, alleged to be signed by himself, appearing in the St. John Times, which makes him say he is going to attack the Government's railway policy. He is said also to have telegraphed to Sir Wilfrid to the same purport, and the Ottawa Citizen claims to know he sent his resignation direct to Lord Minto. Unless Mr. Blair's confidence has been abused, there are some explanations which should be made at once.

Explanation is required of the suddenness of the performance. Here is a man holding a great judicial office, who is offered, as he says, a new position at higher pay, and who is in so much of a hurry to take the offer that he cannot wait for Sir Wilfrid Laurier to return to Ottawa, but must needs send the resignation to the Governor-General himself. They used to call Mr. Gladstone "an old man in a hurry," but Mr. Gladstone's proceeding was calm and deliberate beside this. It seems to us to be open to question whether Mr. Blair advanced matters any by his effort to get into touch immediately with the Governor-General. He no doubt knows the law about such matters, but there is an impression in this country that the only avenue of communication with the Governor-General open to anybody in Canada on a matter of business is through the Prime Minister. Mr. Blair is not Prime Minister—just yet, at all events. And even if Mr. Blair could ignore the Prime Minister, Lord Minto cannot. He cannot let Mr. Blair go until Sir Wilfrid says so. What, then, was to be gained, even in point of time, by this great haste?

Secondly, where the haste is so great there ought to be some explanation of the reason for it. Mr. Blair says he is to take a remunerative position, which will not wait, but he declines to tell the public what is this new work, which will not wait till after the elections, which will not wait till the Prime Minister gets back to Ottawa, which forces Mr. Blair to address the repesentative of the Sovereign without going through the customary formality of being chosen Prime Minister. Surely it isn't so portentous a business as all that. Surely the public would make sufficient allowance for the delicacy of the situation to forgive him if he mentioned the nature of the new position even before being relieved of the old one.

In another direction, indeed, where delicacy was more called for, Mr. Blair is not so prodigal of it. It seems he acquainted Sir Wilfrid Laurier, by telegraph, of his decision to renew his attacks on the transcontinental railway project. Might he not have waited until relieved of his judicial function before thus entering upon the field of party politics? So, if courtesy demanded that he so notify the Prime Minister, could he not have deferred for ever so little the formal public announcement to his St. John newspaper? What was the reason for such unseemly hurry?

The Ottawa Citizen, which as an active Conservative organ eagerly welcomes the coming of Mr. Blair to the aid of Mr. Borden, seems to think that the "suddenness" of the offer of the "lucrative position" is moonshine, and questions whether the resignation was not due to the circumstance that "a certain combination of events reached an anticipated climax, and indicated that the time was ripe for action." Just so. When Mr. David Russell, acting with Mr. Graham and Senator Forget, had secured La Presse to keep Quebec quiet, as he had secured the Telegraph and the Times to keep New Brunswick quiet, the "anticipated climax" was reached, and Mr. Blair stepped down.

There is a lot for Mr. Blair to explain before people will be ready to listen to anything he has to say about the Grand Trunk Pacific or anything else.

REPREHENSIBLE TACTICS.

The Ottawa Journal, an independent paper, says: "About as choice a sample of election scoundrelism as could be perpetrated, was that anonymous political postcard circulated in Durham County stigmatising Mr. Aylesworth as an atheist. We do not say this simply because the charge is not true. If Mr. Aylesworth were an atheist, the post card would be no less an infernal piece of scoundrelism. It is a dirty, underhand, cowardly appeal to ignorance and bigotry and malice."

The Journal's words are none too strong to fit the case. They should be taken to heart by a few over-enthusiastic Conservative workers who are using that identical argument against a Liberal candidate in Montreal.

WASTED MONEY.

Within the last few months our aldermen by giving out contracts to the highest tenderers and other unbusiness like methods have succeeded in throwing away $2,197 of public money. The action of the Water Committee yesterday was another example of waste of public money. The record is interesting:—

	Loss.
March 28—Fire hose	$ 400
April 11—City bonds	969
July 11—Fire engine	400
August 25—Brick sewer	278
October 18—Plumbing	150
Total loss	$2,197

NOTES AND COMMENTS.

Forward, Canada!

Canada is with Laurier.

Mr. Blair is Canada's Grand Old Resigner.

The memory of the late Bishop Baldwin, of the Diocese of Huron, will long be green in the hearts of the people of the Church of England, not alone of his own particular field of labor, but of all parts of Ontario and Quebec. He was a preacher of apostolic spirit, and the transparent simplicity and fervor of his sermons made him one of the most forcible and effective pulpit orators in the Church.

Mr. Halley has shown good judgment in retiring from the impossible contest on which he was engaged in St. Lawrence division, and in deciding to throw in his lot with Mr. Bickerdike. Mr. Halley was justified in seeking the suffrages of the electors of the Division, but if his action developed the fact that he was imperilling the safety of the Liberal cause his duty was to retire. He is to be congratulated on the substantial aid he is going to E the substantial aid he is giving Mr. Bickerdike, whose election is now placed beyond doubt.

The Toronto News is afraid that Mr. Schreiber's estimate of the cost of the Eastern section of the Transcontinental Railway will be enormously exceeded if the road is built by a Government Commission. The provisions governing this point appear to guard the public interests. In the first place the specifications are to be subject to the approval of the G. T. P. and the work is to be done under the joint supervision of the Commission and the Company. In addition, in the event of difference of opinion, a third engineer is to be called in as arbitrator.

The Ottawa Journal guesses that there isn't any political significance to Mr. Blair's resignation. Perhaps some people hope there is, and perhaps it was intended that there should be. But the probabilities are that it will have no effect on the imminent elections. Men's minds are not changed in the few days that precede an election, and if any plotters against the Liberal Government imagine that the purchase of Liberal papers, or the exploitation of the views of ex-members of that Government, are going to change votes at this stage of the political game, they display an amazing ignorance of human nature.

Sir Wilfrid's Acadian Descent

For every Acadian family that in the fall of 1755 remained in Acadia, after having escaped deportation by remaining in the woods, or for every family that returned from exile after spending ten or twelve years in captivity in the New England States, ten families took refuge in the Province of Quebec.

We are now about 140,000 Acadians in the Maritime Provinces, and I do not think I am exaggerating when I say that one-third of the French population of the Province of Quebec are of Acadian origin.

It is by a careful study of the registers of the State that I have been able to discover this fact.

The number of Canadian families who have Acadian blood in their veins is very numerous.

For example who would have thought that Sir Wilfrid Laurier, on his mother's side, was of Acadian descent.

It is, nevertheless, the exact truth, and here are my reasons:

In the parish of St. Lin, in the County of L'Assomption, on Nov. 22, 1841, Carolus Laurier and Dame Marie Marcelle Martineau, of that parish, had a son baptized who received the names of Henry Charles Wilfrid.

At L'Assomption on Aug. 3, 1834, Carolus Iaurier, son of Charles Laurier and Marie Therese Cusson, married Marie Marcelle Martineau. The latter was born Feb. 10, 1815, and was baptized on the 12th of the same month at L'Assomption. She was the daughter of Henri Martineau and Scholastique Maret.

At L'Assomption on Feb. 13, 1804, took place the marriage of Henri Martineau, of the parish of St. Roch, son of Etienne Martineau and Joseph Demers, to Scholastique Maret, of the parish, daughter of the late Louis Maret and Catherine Forest.

The registers at L'Assomption show the following:

The 15th of January, 1799, took place the baptism of Scholastique, daughter of Louis Demarest and Catherine Forest.

On the 8th of September, 1762, the marriage took place of Louis Marest, of the parish of St. Pierre, of Portage, and Catherine Forest, daughter of the late Joseph Forest and Marie Anne Viladre, both of whom belonged to the parish of Menadi, in Acadia.

The 2nd October, 1812, the burial took place of the remains of Catherine Forest. Were present Louis Marets, her son, and Henri Martineau and Antoine Mahen, grandsons.

Therefore Catherine Forest, an ancestor of Sir Wilfrid Laurier, was an Acadian.

She was born at Menaudie, in the district of Beaubassin, about 1743, and was about twelve years of age at the time of the expulsion of the Acadians in 1755.

Menaudie is a parish situated eight miles southwest of Amherst, in Nova Scotia.

Amherst, chief town of the County of Cumberland, is half way between Halifax and St. John, and forty-seven miles from Moncton.

Election Opinions, Gay and Otherwise

'Nother Paper Asks.

(Halifax Chronicle.)

What does Mr. R. L. Borden mean by "adequate protection?"

Laurier Prosperity.

(Quebec Telegraph.)

So overjoyed are the Manitoba farmers at the price of wheat the other day one of them fed a roll of crisp bank notes into a threshing machine.

Not Heavy Enough.

(Windsor, Ont., Record.)

Mr. Borden is a very nice man, but he is too light a weight yet to handle the affairs of Canada during these growing times.

Bouquet for Gazette.

(Windsor, Ont., Record.)

The Montreal Gazette, the greatest old mossback Tory paper in Canada, is throwing cold water on Mr. Borden's Government owned and operated railway.

And the Forget Buttons.

(Quebec Telegraph.)

Mr. Forget, the Conservative candidate for Charlevoix, passed through here on Saturday morning, bound for Murray Bay, with a strong contingent of Tory stump speakers from Montreal to assist him in the county. Mr. Cornellie, K.C., was one of the number.

The Way Sir William Does It.

(Toronto Telegram.)

Soon will Sir William Mulock put on his oldest suit of clothes and proceed to kick holes in Tory hopes with the cowhide boots of his North York eloquence.

A Sufficient Reason.

(Hamilton Times.)

The fact is that our city manufacturers are too busy just now to bother with elections. A change of Government could do them no good, but it would likely do them a lot of harm.

A High Tribute.

(Toronto Globe.)

The highest ribute paid to the Grand Trunk Pacific bargain is the necessity its opponents feel of misrepresenting it.

The Moral.

(Brantford Expositor.)

Canada's increase in trade since 1896 has been greater than that of any other country in the world. Here are some of the figures:

Canada, increase per cent	97 3-5
Japan, increase per cent	97 1-5
United States, increase per cent.	47 1-5
Germany, increase per cent	38 2-3
Great Britain, increase per cent.	26 1-3
France, increase per cent....	22

Keep the Laurier Government in power.

Talk vs. Action.

(Toronto Globe.)

Sir John Macdonald and Sir Chas. Tupper were early advocates of the preferential idea, we are told. Oh, yes; they talked about it. The Liberals did it. The Liberals do things.

The Difference.

(Amherst Daily News.)

The Tories who are weeping over the proposed Liberal expenditure of $13,000,000 for the transcontinental railway, gave the C. P. R., absolutely 65,000,000 acres of valuable land and $35,000,000 in cash.

Political Golf.

(Ottawa Free Press.)

Laurier is 47 up and 10 to play, whilst Borden is tangled up in a railway bunker, looking for a lost ball.

Oh! Heavens!

(Hamilton Spectator.)

Borden's triumphant progress through the country reminds old Conservatives of the days of Sir John Macdonald.

A Slight Change.

(London Advertiser.)

"A transcontinental railway is unnecessary." — Conservative Campaign Poster, 1903.

"We will immediately undertake the construction of a transcontinental railway."—Mr. R. L. Borden, Oct. 10, 1904.

Real Estate Boom.

(Brockville Recorder.)

From 1892 to 1896—4 years — only 411,608 acres of land were taken up by settlers in Canada. From 1899 to 1903-4—4 years—under Liberal administration, 7,700,212 acres were taken.

The Best Yet.

(Kingston News.)

Since Borden's appearance among the French his stock has gone up by leaps and bounds; the talk now is of 35 seats for him in Quebec.

YUKON ELECTION AT ORIGINAL DATE.

Otawa, Oct. 20.—The State Department has received word that the writs for the Yukon caught the last Dawson boat, and the elections will therefore be held on Dec. 16, as originally intended.

FASTEST THING ON THE LAKES.

Ottawa, Oct. 20.—The fisheries protection cruiser Vigilant is to be delivered to the Government by the Polson Company in three weeks. The boat is to show a speed of twenty knots, and will be the fastest thing of the sort on the lakes.

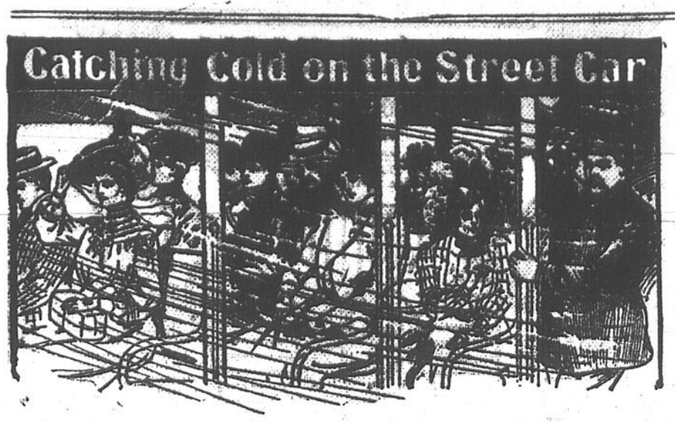
Catching Cold on the Street Car



"AS ANY COLD MAY LEAD TO CATARRH—PERUNA SHOULD BE KEPT IN EVERY HOME."—Dr. S. B. Hartman.

MANY people persist in riding on the street cars, insufficiently protected by clothing.

They start out perhaps in the heat of the day, and do not feel the need of wraps.

The rapid moving of the car cools the body unduly.

PRECAUTION BETTER THAN MEDICINE

When they board the car perhaps they are slightly perspiring. When the body is in this condition it is easily chilled. This is especially true when a person is sitting.

Beginning a street car ride in the middle of the day and ending it in the evening almost invariably requires extra wraps, but people do not observe these precautions, hence they catch cold.

Colds are becoming very frequent in the summer on this account, and as the weather becomes cooler it happens still oftener.

NIP COLDS IN THE BEGINNING

During the month of October no one should think of riding on the car without extra wraps.

A cold caught in October is liable to last the whole winter. Great caution should be observed during the month of October against exposure to cold, until the body gradually becomes accustomed to the lowered temperature, when the liability to colds decreases.

PE-RU-NA PREVENTS COLDS

But during the first onset of cool nights, the liability of catching cold is great.

No wonder so many people acquire muscular rheumatism and kidney diseases during this month.

However, in spite of the greatest precautions, colds will be caught.

At the appearance of the first symptom, Peruna should be taken according to directions on the bottle, and continued until every symptom disappears.

Do not put it off. Do not waste time by taking other remedies. Begin at once to take Peruna, and continue taking it until you are positive that the cold has entirely disappeared. This may save you a long and perhaps fatal illness later on in the season.

TAKE PE-RU-NA IN TIME

Mr. George Livingston, a prominent architect and builder, of Los Angeles, Cal., writes from the Census Office Building, Washington, D.C., as follows:

"I do not hesitate, when I see a friend or acquaintance suffering from a cold that is stubborn and threatening to become chronic, to recommend Peruna.

"It relieved me from a long and distressing catarrhal trouble, and brought back the strength the disease had taken away. I recommend it as a cure and a tonic that cannot be surpassed."—George Livingston.

Mrs. B. Schober, 221 10th st., Portland, Ore., writes:

"I am pleased to testify to the wonderful curative value of Peruna in cases of colds and a rundown condition of the system. I took it for a cold which I could not get rid of, and in less than a month it had cured me. I feel like a different person.

"I now take it when I am run down and in need of a tonic, and I find it excellent in restoring lost strength. You certainly deserve success."—B. Schober.

We have in our files thousands of letters from grateful people who have been cured by Peruna.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, Ohio, and he will give you the benefit of his valuable advice gratis.

WOMEN WORK TO CONVERT THE WORLD

Marked Progress of the Canada Women's Miss. Society.

Napanee, Oct. 20.—(Special.)—The twenty-third annual meeting of the Board of Management of the Canada Women's Missionary Society took place here on Tuesday, Mrs. W. E. Ross, president, in the chair. After devotional exercises all of the officers and forty delegates answered to the roll call.

Mrs. Dr. Cameron, Toronto, read the report of the supply committee, prepared by the secretary, Mrs. Dr. Briggs. Mrs. Snyder, of the Chinese Rescue Home, British Columbia, gave a brief address upon her work among the Chinese and Japanese women, and her story was one full of shadow.

The evening meeting was also presided over by Mrs. Ross. Rev. J. R. Real, pastor of the Western Methodist Church, brought warm words of greeting on behalf of both Methodist churches. Mayor Madole, on behalf of the town, gave a welcome to the convention.

Miss Wilks, of Toronto, general treasurer, presented a most encouraging statement. The main items of which are as follows:

Total amount raised by branches for 1904, including rest fund, $58,643.95; 1903, $53,031.54; an increase of $15,612.41. Total received from all sources, 1904, including rest fund, $62,515.98; 1903, $57,470.12, an increase of $5,045.86.

Mrs. Strachan Field, corresponding secretary, gave a brief resume of the work upon the respective fields covered by the society.

In the province of Quebec, and the latest field of this society's operations among the Galicians in the N.W.T., much progress was reported.

WORK OF THE SOCIETY.

This society is represented by fifty-four missionaries, eighteen of which are in Japan, with three at home on furlough, ten in China, with three en route, one among the Chinese in British Columbia and one on furlough, three among the French, while two have commenced efforts among the Galicians.

Mrs. McKay, home corresponding secretary, reported number of auxiliaries, 847, increase 45; number of annual members, 20,950; life members, 1,537, total membership, 22,487; increase 1,576. Mission circle and bond membership, 12,219; increase 1,604.

THE PROGRESS OF JAPAN.

Miss Veazy, who has given twelve years of her life to missionary effort in Japan, stated that to-day there is one baptized Protestant Christian to every five hundred of the population. Fourteen years ago it was one to every 5,000.

Thep resident's address was full of cheer and inspiration. Mrs. Ross reviewed the progress of the work and spoke of the magnificent increase in two years of $13,000, and urged her constituency to even greater achievements. She likened the schools in Japan to mighty power stations sending pulsing thrills through Japanese moral darkness, making an incandescent glow in thousands of homes from which idols are abolished.

WAR STILL WAGES AT MAISONNEUVE

Street Ry. Franchise Again Discussed at Council Meeting.

The Maisonneuve Town Council, at its meting held last night, had additional trouble over the new franchise to be extended to the Montreal Street Railway.

Most of the time of the meeting was taken up with sharp attacks between Mayor Bleau and Councillor Reed and the councillors who voted in favor of the new by-law.

Mayor Bleau, in answer to the attacks made upon him, declared he was entirely within his rights when he attended the meeting of the proprietors on Monday night, at which a protest was made against the by-law being passed. At the close of the meeting many influential proprietors had congratulated him on the stand he had taken. Besides, it would have been easy for the councillors who voted in favor of the by-law to attend the meeting, and have given the reason for their action.

Mr. Duncan McDonald, manager of the Montreal Street Railway, and Mr. J. P. Mullarkey, of the Terminal Company, attended the meeting. Permission was given to Councillor Riendeau, one of the councillors who voted in favor of the exclusive franchise to the Street Railway, to hold a meeting in the Town Hall.

SOME ACCIDENTS ABOUT THE CITY

Baby Boy Fatally Scalded—Rifle Cartridge Exploded.

A four-year old boy, Arthur Chappell, son of Evans Chappell, of No. 1 Mitcheson Avenue, fell into a tub of boiling water at his home last night about 7.30, and was so badly scalded that little hope is entertained of his recovery. The little fellow was conveyed to the Royal Victoria Hospital in a critical condition.

FELL FROM STREET CAR.

Herbert Swenerton, of 106 University Street, twenty-nine years of age, in attempting to leave a moving car last night, on St. Catherine Street, fell to the pavement and sustained serious bruises on his head and face. He is at the Royal Victoria Hospital.

RUNAWAY ACCIDENT.

A runaway accident occurred last night at 8.15 in Park Avenue above Mount Royal Avenue, by which a man named Depatie, residing on Notre Dame Street East sustained a fracture of the skull. His horse became frightened and ran away, colliding with a telephone pole with the result that Depatie was thrown head foremost to the sidewalk. At the Royal Victoria Hospital, where the case is being treated, no hopes are entertained of recovery.

CONDUCTOR INJURED.

A street car conductor named Oswald Duckett, twenty-seven years of age, residing at Overdale Avenue, had his face badly burned last night by the explosion of a rifle cartridge. He was taken to the General Hospital. The physicians there state that his injuries are not dangerous, and that his eyesight will be preserved.

Rings, Brooches, Bracelets, Chains, Lockets, Cuff Links, etc., etc., carefully repaired. Prices moderate. R. Hemsley, 255 St. James Street.—Adv.

CATHOLIC SAILORS' CLUB.

The concert given by the Catholic Sailors' Club last evening was under the direction of Prof. P. J. Shea and the choir of St. Ann's Church. The programme was a good one, and drew a large crowd. The soloists, who were assisted by the choristers, were:—Messrs. W. Murphy, E. Quinn, M. E. Norris, F. McCrory, R. Latimer, Ed. Jackson, Geo. Holland, the comedian; John Slattery, C. Killoran, J. E. Murray, T. Lyons and the little Sullivan brothers. Jas. Owens, R. Furey, of the Tunisian; W. Cuttrell, R. Schull, C. Ashcroft, of the Pretorian; W. Buckley, of the Milwaukee, also took part. Miss Lynch and Prof. Shea acted as accompanists.

THE SUPREMACY OF THE CANADIAN SHOE.

A Consignment of "Slater" Shoes Ordered by a Leading House in France.

For some weeks there have been in Montreal the delegates of the French Republic. They came to see industrial Canada—to learn of the growth of commercial enterprises—to see the progress in every line of business. Last Saturday they visited the factory of the Slater Shoe Company, under the guidance of Mr. A. Mathieu, local representative of the Boot and Shoe Workers' Union. The delegates were shown every detail of the making of the Slater Shoe, from the selection of the various leathers to the packing of the finished shoes in their boxes for shipment. The skill of the hundreds of operators, the all but human ingenuity of the wonderful machines, and the clock-like regularity of the whole factory system was a revelation to the visitors. So impressed were they with the workmanship, style and comfort of the Slater Shoes, that nearly a dozen of the guests ordered these shoes for their own personal use. In the party was M. Benoist, an instructor in the French school for teaching the shoemaking trade. Before leaving France he was commissioned by Messrs. A. & E. Bouchon to order a consignment of Slater Shoes. He selected a complete set in all the styles and sizes, in both ladies' and men's shoes. When one considers that France has been the leader of fashion for centuries, and that French footwear is famous throughout the world for its style and excellence, the high compliment paid the Slater Shoe by the French experts will be appreciated.

The same styles ordered for France are on sale at the Slater Shoe Stores throughout the city.

CORNELL HONORING GOLDWIN SMITH

Canadian Professor Lays the Corner Stone of His Memorial Hall.

Ithaca, N. Y., October 20. — Goldwin Smith, of Toronto, yesterday laid the corner stone of the Hall of Humanities at Cornell University, which bears his name, and is being constructed at a cost of $20,000. President Jacob J. Schurman, former president Dr. Andrew White and Dr. Charles Mellen Tyler were present. President Schurman said that in dedicating the hall to Goldwin Smith Cornell honored him as one of its earliest professors, who came to the youngest from one of the oldest English-speaking universities—Oxford—as one of the truest friends of the university and the United States, as a champion of democracy, liberty and peace among nations, and as an exemplar of the highest culture.

Mr. Smith said, in part: "The honor is deeply felt, and he on whom it is conferred heartily wishes that it had been better earned. A long life now at its close is many memories of mingled happiness and pain. One memory is unalloyed. Bright in my life, though dark and sad with rain, was the November morning in the year 1868, on which I landed from a train at Ithaca, was received by Andrew White, and afterwards taken out by Ezra Cornell to the campus, on which then stood one poor block, and which now is covered with stately buildings, and is joyous with the student life of the great Cornell University.

"I fear I am bidding a long farewell to Cornell and all objects of my long interests and atachment here. I do it with a full heart of affection and gratitude."

WORK ON QUEBEC BRIDGE MAKES RAPID PROGRESS

Skeleton Bridge on South Side Will be Completed in a Couple of Weeks—The G.T.P. Works.

Quebec, October 20.—Work in connection with the construction of the new Quebec Bridge is progressing very favorably.

The work on the approaches to the bridge in charge of Mr. P. M. Davis, is making rapid progress, and it is expected thata double track will be laid from the line of railway at Chaudiere Junction to the bridge, which will enable the Phoenix Company to bring its iron and steel to a convenient place in order that everything will be in readiness for the bridge permanent superstructure work next spring.

In the meantime the Phoenix Bridge Company has a large gang of men at work in putting up the skeleton bridge on the south side of the river, and expects to have this important work completed in the course of a couple of weeks, which will enable them to handle the heavy permanent parts in the month of May next.

Mr. Hore, C.E., and chief engineer of the Quebec Bridge Company is going ahead with his work At the same time plans for the immense workshops in connection with the Grand Trunk Pacific Railway to be erected in the vicinity of Quebec are being drawn up. The exact location has not yet been decided upon, but it is thought that they will be situated on the outskirts of St Sauveur and the road houses located on the Sillery heights.

IN NEED OF FURTHER FUNDS.

During May last, the Building Committee of the Montreal Maternity Hospital, finding the plans for their new building rather beyond their funds, decided to build only one wing and the administration building for the present, leaving the completion of the hospital to some future date This arrangement, although providing them with accommodation far in advance of their present quarters, would have considerably limited the educational side of the work, but Sir Wm. MacDonald, who has been for long a warm and generous friend of the institution, came generously forward and gave, in addition to his previous donations, the magnificent sum of $40,000, to erect a second wing.

This wing provided ample space for the teaching of both students and nurses, and provision is also made for the accommodation of private patients. As it is the earnest desire of the committee that the hospital may be erected and equipped free of debt, they now take this opportunity to ask the general public to give their assistance in raising the amount required to complete the building, which amount, as nearly as can be estimated, will be about $15,000.

MINTO AND MUSIC.

Lord and Lady Minto have always been ardent lovers of music and their formal opening of the McGill University Conservatorium of Music was a very gracious act. They inspected the institution throughout, including the 18 new Heintzman & Co. pianos supplied by C. W. Lindsay, Limited, as well as the superb Chickering concert grand from the same eminent firm.—Adv.

The St. Louis Town Council, after accepting the resignation of Mayor Gelinas, met last night, and decided that the nominations for his successor should take place on Nov. 7, and the election on Nov. 4. Councillor Olivier has been asked to be a candidate, and he has placed himself at the disposition of his electors.

ROBERT J. WYNNE, H. C. Payne's Successor as Postmaster-General of the United States.

BISHOP OF HURON HAS PASSED AWAY

Was a Member of a Great Episcopalian Family in Canada.

London, Ont., Oct. 20.—His Lordship Bishop Baldwin, of Huron, who has been ill for some days, passed away shortly before midnight.

Right Rev. Maurice Scollard Baldwin Anglican Bishop of Huron, the fourth son of the late John S. Baldwin, Toronto, and a first cousin of the late Hon. Robert Baldwin, C.B., known as the father of responsible government in Canada. Born in Toronto, June 21, 1836, he was educated at Upper Canada College and Trinity University (M.A., 1859). He was ordained deacon in 1860, priest in 1861, and became curate of St. Thomas' Church, St. Thomas, Ont. He was later incumbent of St. Paul's, Port Dover, and in 1865 he came to Montreal, where his eloquent preaching soon attracted a large number of hearers. In 1870 he was appointed to Christ Church Cathedral, and the following year he was made a canon. In 1883 he was appointed third Bishop of Huron, his consecration taking place in Montreal on November 30, of the same year. He was given a farewell breakfast in the city, which was attended by persons representing every race and religious profession, and at the same time presented by the clergy of the diocese with a fine silver tea and coffee service. His Lordship was made a D.D. by Trinity University in 1882. He is the author of two works, "A Break in the Ocean Cable," and "A Life in a Book." He attended the Lambeth Conferences in 1888 and 1897, the Winnipeg Union Conference in 1890, and was a delegate to the 15th annual convention of the Christian Endeavor Association at Washington, in 1896. Besides other offices he is president of the London Branch of the Lord's Day Alliance, and of the Western Bible Society.

He has always been regarded as one of the leaders of the Evangelical school of churchmen. He married in 1861, Maria, daughter of Edmund Ermatinger, St. Thomas, Ont. She died in 1863, and he married, in 1870, Sarah Jessie, youngest daughter of J. J. Day, Q.C., of Montreal.

Rev. M. Day Baldwin, rector of All Saints' Church, St. Denis Street, is a son of the late Bishop and has been for several days in London, at the death bed.

The Baldwin family is one of the most remarkable in the annals of the Canadian Church of England. A brother of the late Bishop, and sixth son of J. S. Baldwin, is the rector of All Saints' Church, Toronto, and a well known lecturer. Several other members of the family hold important offices in the church.

PROMINENT BELLEVILLE LADY DEAD.

Belleville, Ont., Oct. 20.—(Special.)—Mrs. Hester Chapman, aged 88, died last night in the 8th concession of Thurlow. She was the last of a generation that settled here in 1816 and was an aunt of Mr. J. Frith Jeffers, the well known Canadian historian and educationalist, and a sister of the late Rev. Dr. Jeffers, prominent in Methodist circles.

"WEIR" POST OFFICE.

A new post office has been opened in the township of Montcalm, in the county of Argenteuil, under the name of "Weir Post Office." The new post office is on the Montfort Railway, at present controlled by the Great Northern Railway Company of Canada, which company has likewise called its station and the express office at this place by the same name. It is understood that this has been done at the request of the inhabitants, who wish to pay a compliment to the local member of the county, Hon. W. A. Weir, K.C.

The Allan line steamer Pretorian sailed for Glasgow this morning with Mr. A. Cadman, Mrs. Cadman and Mrs. E. A. Gordon Cowie and child, Glasgow, Scotland; Mr. T. A. Lyon, Toronto, Ont., as saloon passengers.

TEACHERS SCARCE IN THE COUNTRY

Very Low Salaries Drive Them to Seek Other Occupations.

In some country districts it is impossible to obtain the requisite number of certificated teachers. They can earn more money in other provinces or in other occupations. Such was the remark of Rev. Inspector Taylor in an address at a conference of school administrators last night.

The conference was held in the High School in connection with the annual convention of the Provincial Association of Protestant Teachers of Quebec.

Rev. Inspector Taylor in an address on "Rural Schools," pointed out that it had never been so difficult to fill schools with teachers as at the present time; so much so that in one school, which had been a pattern to others, the board had found it necessary to employ 35 per cent. of teachers without diplomas. Quite a number of municipalities had employed anyone they could obtain, after advertising for teachers with diplomas, and failing to get them. The salary was from $10 to $15 a month, besides board, which was worth from $6 to $10.

A large number of the best teachers were being lost. Five or six from his own inspectorate had gone to the Northwest, where they received $50 to $60 a month, and paid $35 for their board. He instanced cases where teachers preferred to stay at home rather than follow their occupation at present salaries, their services to their parents being worth more than the remuneration obtained from teaching. A large number had taken up nursing, and this had been the heaviest drain upon the supply.

Very Rev. Dean Evans, spoke on "Functions of School Boards," which he dealt with from a three-fold standpoint, financial, educational and moral, and he was followed by Dr. G. W. Parmelee, who dealt in a very practical way with the "Duties of Secretary-Treasurer."

A brief discussion on the addresses ensued, and after Rev. Inspector Taylor, Inspector McOuat, and Mr. Cole, had been appointed a committee to prepare a programme for next year, the conference adjourned.

Point St. Charles

Mr. John Ashcroft, of Congregation Street, left last night for Toronto. Mr. Ashcroft has secured an important position there and the best fishes of his friends go with him. Before leaving he was met by a number of his friends and presented with a handsome monogram locket and gold mounted pipe as a small token of esteem. The presentation was made by Mr. Fred Scott who expressed the sentiments of the friends present in a very feeling manner. Among those present were Mr. G. Masson, W. Archer, W. Hall, J. Kitts, E. Ashcroft, J. Anderson, W. Anderson, W. Pollard, Jack Carmichael, E. Swan, Jack Myers, E. Corner and J. Lippiet.

Mr. O. Brownrigg and Mr. C. Mason has just returned from a two weeks holiday spent in Chicago and Detroit.

ST. LOUIS ..6 ..6 ..yrSar Rth .... (p

At a special meeting of the Council of St. Louis last night, the seventh of November was fixed as the day of nomination for a mayor to replace Mr. C. Gelinas, whose resignation was accepted on Monday last, and the voting will be on November 14.

Various rumors are in circulation as to who will be the candidates, but no names were mentioned outside of those councillors who are at present ruling the affairs of the town by a large majority.

All the councillors were present except Mr. Gladston.

COMMEMORATING THE GIVE-AWAY.

Seattle, Wn., Oct. 20.—Many excursionists have left for San Juan Island, where two monuments commemorating the settlement of the boundary trouble between the American and British Governments will be unveiled to-morrow. Both nations will have warships there.

QUEEN'S DEPARTURE POSTPONED

Copenhagen, Denmark, October 20.—The departure of Queen Alexandra for England, which earlier in the week was postponed until to-day on account of the indisposition of her sister, the Dowager Empress of Russia, was again postponed to-day, this time indefinitely.

BINDER TWINE ACT WORKING VERY WELL

Only One Lot of This Year's Importation Below Standard.

Ottawa, October 20.—(Special.)— Mr. Joseph Haycock, Government inspector of binder twine, has just returned from a trip through Manitoba and the Northwest Territories. He was very much pleased with the appearance of the country and says that there is no abatement in the rush of new settlers and prospectors. The country is prosperous and trade is buoyant. Referring to his own duties he said that there was a great improvement in the quality of binder twine from last year. During his visit a year ago he found seventeen parties violating the act. This year there were only four. Three of these were in regard to lots of twine imported a year ago.

ACT IS APPRECIATED.

Mr. Haycock collected about $1,200 in penalties. He says that the general improvement in the quality of the twine is apparent to everyone. Farmers dealers and manufacturers are particularly well pleased with the working of the act. As a Conservative estimate of the $3,500,000 worth of twine used in Canada there is undoubtedly an improvement of five per cent. which means a saving to the farmer of $175000 annually or in the last two years in which the act has been in operation a saving of $30,000. The farmers of the Dominion thoroughly appreciate the interest which the Dominion Government has taken in making arrangements for the proper inspection of binder twine. Mr. Haycock left to-day for Toronto.

EARL GREY AND THE PRESBYTERIANS

Canadian Customs Regulations—Another Undecided Cabinet Minister.

(Canadian Associated Press Cable.)

London, Oct. 20.—Earl Grey, at the opening of a Presbyterian Church bazaar at Alnwick, Northumberland, said he, as a member of the Church of England, looked upon the various Protestant churches in this country, not as rivals, but as comrades who ought to be upheld so far as possible. They were all regiments of one army and engaged in fighting the same enemy.

LORD STANLEY'S VIEWS.

(Canadian Associated Press Cable.)

London, Oct. 20.—Lord Stanley, M.P., Postmaster-General in the Balfour Cabinet, speaking at Bolton, said: "There was the most divergence of opinion regarding the colonial preference, which was understood by some as entailing a tax on food. He was unwilling to commit himself to such a course until he knew exactly what were the benefits which would accrue to this country in return. Our colonies were inclined to favor us by some preferences. It would be foolish in the extreme if we said absolutely and definitely 'No' to any proposals they might make, simply because 'they were supposed to be contrary to the doctrines put forward fifty years ago when the present circumstances of trade could not be foreseen.

THE CUSTOMS REGULATIONS.

(Canadian Associated Press Cable.)

London, Oct. 20.—The General Purposes Committee of the Birmingham Chamber of Commerce yesterday endorsed the Liverpool Chamber's condemnation of the new custom laws regulations of Canada, as to certificates of origin and value and declared itself prepared to co-operate in any action which it might be deemed advisable to take in the interests of British shippers.

TRAFALGAR DAY AND B. C.

(Canadian Associated Press Cable.)

London, Oct. 20.—Among the decorations of the Nelson monument is an autumn-tinted maple leaf bearing an anchor of lichen and the emblems of the rose, shamrock and thistle, from the Esquimault branch of the Navy League.

GREAT RAILROAD MAN DEAD.

New York, October 20.—Charles Parson, who had been at the head of many railroads, and one of the most prominent financiers of the country, is dead at his home in Parke Avenue.

He was born at Alfred, Me., in 1829, became a broker in this city, and in 1870 joined the New York Stock Exchange. Heart disease was the cause of death.

Mr. D. C. Alexander, Canadian agent of the Cunard Line, informed The Herald this morning that he was in receipt of a wire to the effect that the reported sinking of the Ultonia was without foundation, as this steamer was in communication with the Pantonia, also of the Cunard Line, off the Spanish Coast, and that all was reported well.

MR. JOHN DEROMO, OF COBOURG, ONT.

Had a Distressing Experience, but Found the Right Means to Escape the Consequences.

Cobourg, Ont., October 19.—(Special) Mr. John Deromo, of this town says:

"I used to work almost night and day, did not eat regularly, and only allowed myself a few hours' sleep.

"Of course my stomach gave out in consequence, and I had to stay in bed for about a month.

"Hearing of numerous cures by St. James Wafers, I decided to try them, I now rest well at night, eat well and suffer no more."

Many others in Cobourg testify to the great curative power of St. James Wafers—the stomach and nerve remedy.

By order of the Superior Court Messrs. Wilks and Michaud were appointed curators in the matters of the Montreal Clothing Manufacturing Co. and the Star Shirt and Overall Co. They are also in possession of the assets of the insolvent estates of the Canadian Fur Manufacturing Co., and W. Balacan & Son.

CLIMATE OF JAMES BAY IS NOT IDEAL

Mosquitoes, Rain, Fog, Snow Flurries and Pack Ice Simultaneous.

Ottawa, Oct. 20.—(Special.) — The Northwest Mounted Police constables, who were with the Canadian expedition to the Arctic regions, have turned in their reports to Colonel White, comptroller of the force. They contain some interesting additions to the reports already made. Staff-Sergeant Dee made note of an uncomfortable time at Repule Bay. There was trouble with mosquitoes, rain, fog, snow flumes and pack ice, all at one time. The mosquitoes were the worst. These pests are very active at times and aid the native hunting operations by driving the deer to seek refuge in the streams. Once in the water they are easily killed. The Artic deer is a small animal weighing 75 to 115 pounds. Dysentry and consumption take off the natives.

Corporal Donaldson notes the fact that Esquimaux around Pond's Inlet, are sickly and many of them suffer from hemorrhage. At Cape Sabine the sun was shining 24 hours a day and the ice was forming at the same time. At Cape Haven and Cumberland Sound there was pack ice when the year before there was clear water. There was good fishing off Eclipse Sound, where two of the Neptune's boats took a thousand salmon trout in two hours. The average weight was six pounds. There were walruses in Smith's Sound and cod were abundant at Burwell.

ARRANGEMENTS TO WELCOME LAURIER

All the Liberal Clubs Parade With Torches to Greet the Chief.

The preparations for a grand welcome to Sir Wilfrid Laurier on Monday evening are progressing rapidly, and the enthusiasm is growing. Fireworks, cheers and salutes of artillery will welcome the Premier at Bonaventure Station, and the procession will then be formed as follows:

Monument National.

Corps of Mounted Police.
Bugle Band of 6th Regiment.
Bickerdike Club.
West End Liberal Club.
St. Gabriel's Brass Band.
St. Gabriel's Liberal Club.
St. Paul's Liberal Club With Band.
St. Cunegonde Liberal Club.
St. Henry Liberal Club With Band.
Lachine Liberal Club With Band.
Montreal Reform Club.
Montreal Liberal Club.
Brass Band of 65th Regiment.
Le Club National.
Harmony Club Band.
Students Liberal Clubs From Laval and McGill Universities.

Carriages of Sir Wilfrid Laurier and his suite, followed by many citizens in carriages and on foot.

The Monument National doors will open at 7.30 p.m. and precisely at eight Sir Wilfrid will open his speech. After speaking for about three-quarters of an hour, Sir Wilfrid will be again escorted by the immense procession, which will be joined by the Robidoux, Marcil, Maisonneuve, Mercier, St. Jacques, St. Louis, St. Louis Nord, Ste. Marie, Archambault, Chenier, Delorimier, Lemieux, Ste. Marie de Maisonneuve, McKenzie and Maisonneuve Liberal Clubs. The concourse will proceed up St. Lawrence then east along St. Catherine to Panet to Sohmer Park, As it sets out the St. Lawrence market place will be illuminated with fireworks. Merchants along the road of the procession are preparing to decorate their business places.

Sir Wilfrid will be accompanied by Hons. Wm. Paterson, S. Fisher, R. Prefontaine, L. P. Brodeur and R. Lemieux and Messrs. H. Gervais, R. Bickerdike, Dan. Gallery, L. A. Rivet and many other Liberal candidates of the district of Montreal.

Hon. Raymond Prefontaine will preside over the Sohmer Park meeting, and Senator Beique at the Monument National.

Special arrangements are being made to bring in the many Liberals of the surrounding district who will be anxious to share in the Liberal leader's triumph. Reduced railway rates will be given from St. John, St. Hyacinthe, St. Jerome, St. Scholastique, Sorel, Longueuil and Valleyfield. From most of these places large delegations of Liberals, accompanied by bands, will come to Montreal.

The arrangements for Sir Wilfrid's visit to the English-speaking compatriots of Montreal, are well under way and will be announced later on.

NOVA SCOTIAN VESSEL WRECKED IN THE GALE

Her Name and the Fate of Her Crew are Unknown—Storms of Terrific Violence.

New York, October 20.—Two dismantled abandoned waterlogged schooner hulks, probably victims of the fierce gale which recently swept the Southern Atlantic coast, were sighted by Captain Evans of the steamer Denver, which arrived here to-day from Galveston and Key West. One of the wrecks, which was seen off Georgetown, S.C., is thought to have been the British schooner Syrania, the crew of which was brought here by the steamer Apache. She was burned.

The other hulk, which was lying about thirty miles off the Florida coast was that of a white, three-masted schooner, apparently a Nova Scotian. The seas were breaking over her fore and aft and there was no sign of life on board. Many bundles of shingles were floating around her.

Both wrecks were lying in the path of coastwise steamers and are a menace to navigation. A gale of great violence prevailed fr two days while the Denver was working along up the Florida coast. It was in this storm, probably, that the schooners were wrecked.

A SOUTH AFRICAN JOURNALIST.

Mr. Albert Cartwright, editor of the South African News, Cape Colony, is in Montreal. He is on a visit to this country to study the question of agricultural co-operation.

Brault's grocery store, at 481 Brebeuf Street, caught fire about two o'clock this morning. It is supposed that rats were gnawing a box of matches underneath the counter and set them on fire. The stock was small and was almost totally destroyed by fire and water.

Fred Samuelson, residing on Seigneur street, who was sentenced on Tuesday for unprovoked assaults in a restaurant on Notre Dame street, has since been recognized by Constable Duceppe as the individual who took a leading part in a severe mauling the officer got six months ago, and Fred again faced the music to-day in front of Judge Sicotte, in the Recorder's Court. Constable Duceppe on that occasion was knocked down and kicked, battered about the head with his own baton, and an atempt made to wrest away his revolver. Samuelson was sent down for six months in addition to the Tuesday sentences of $0 or two months, $20 or two months, and other two months failing suitable bonds

Stocks and Money.

STOCKS HAVE A REACTIONARY TONE WITH LOWER PRICES AND LESS LIFE

There was a reactionary tendency to the Wall street market to-day and the decline in the final hour yesterday was carried along to still somewhat lower prices.

The Steel stocks in New York were perhaps the weakest of any on the list, but on the whole there were no abating declines and the course of the market was considered a natural one in view of its recent big advance.

"A healthy reaction" was what the Wall street wires called it.

There was some pretty heavy liquidation during the morning and stocks on the whole were well taken.

The Montreal market also developed rather a pronounced breathing spell and apart from the trading in Dominion Steel Common, there was comparatively little done. It was no surprise to the street to learn that the Company failed to earn the bond interest last year, but it is believed that the Company has greatly improved its position since the turn of the present year. Mr. Graham Fraser's report was read with a great deal of interest and the concensus of opinion was that it was extremely satisfactory. It is evident thae the policy of the Company is a conservative one and it is only remains for the stock market to look at the position of affairs in a sensible light and not repeat the old campaign of anticipating visionary and impossible profits.

Detroit Railway aetracted some attention again and eased off from 75⅛ to 74¾. Mackay pfd., was also moderately active around 73 to 73½, and Steel Bonds sold at 76 and then off to 75½. Toronto Street sold at 105 and Twin City at 103⅛, and later 103.

There were no sales of Pacific here, but in line with the rest of the market it was a little easier in New York.

JAP BONDS.

Japanese 6 per cent. bonds were quoted in New York to-day at 90½.

The sales to noon in Wall street amounted to 646,400 shares.

NORTHERN SECURITIES.

Northern Securities opened in New York at 113¾, and at 12.30 were quoted at 113⅝.

GRANBY CONSOLIDATED.

Granby Consolidated opened in Boston at 3⅝, and at 12.30 were quoted at 3⅞.

FORGET'S CABLE.

L. J. Forget & Co's London cable quoted Grand Trunk first at 105¾, second at 92¾, third at 43⅞, Pacific at 137⅛, Hudson Bay at 48½, and Anaconda at 4⅞.

The following view of the stock market was wired from New York:—"In view of the recent course of the market, which, for the past twelve days, has been daily advancing to new heights, the reaction of yesterday at best was an insignificant affair, and the recovery demonstrated that the market is still in the hands of interests amply able to protect it at this time. The ofefrings were taken on the decline was self-evident and the manner in which most of the manipulative pools and cliques came to the support of the various issues which they had heretofore been identified with left little doubt that the market was moving under the guiding influences of powerful interests. The reaction seemed to imply that a little public following had worked into the market, were carrying stocks on stop loss orders and, in some cases, on slender margins. Weak holders were shaken out, but that the local public is not even yet a very large factor was disclosed by the suddenness and the extent of the recovery. In some quarters it was thought that the decline would serve to check the rapid pace at which the market was going, without too much discouragement to slowly awakening outsiders."

FINANCIAL CHIPS.

Bank of England rate unchanged.

Republic Steel net earnings for year decreased $2,817,482.

Carnegie Steel getting large orders for light rails. No decisive news from Far East.

Trial of Western Uuion-Pennsylvania suit commenced in Supreme Court.

Stocks plentiful in the loan crowd, with Atchison only issue in demand.

O. & W. dividend and bond issue will be authorized without opposition.

Iron Age more bullish on trade outlook.

Twenty-one roads for second week October show average gross increase 7.39 per cent.

Banks gained from the sub-treasury since Friday, $988,000.

Movements of financial markets abroad believed to indicate expectation of early peace between Russia and Japan.

New Haven board will consider question of buying O. & W.

No chrange in Atchison board will be made at the meeting on October 27th.

Twelve industrial stocks declined .44 per cent.

Twenty active railroads declined .18 per cent.

THE BANK OF ENGLAND.

The weekly tatement of the Bank of England shows the following changes: Total reserve, increased, £225,000; circulation, decreased, £424,000; bullion, decreased, £198,414; other securities, increased, £244,000; other deposits, decreased, £2,626,000; public deposits, increased, £2,583,000; notes reserves, increased, £261,000; government securities, decreased, £1,485,000.

The proportion of the Bank's reserve to liamility is 56.53 per cent. Last week it was 54.90 per cent.

NOON LETTER.

A noon letter to Mr. C. D. Monk said, Our market has been very irregular all morning. The steel stocks suffered from very heavy realizing and the situation lacked the appearance of continued strength of the last few days. The volume of business has diminished somewhat and the heavy profit taking, a natural result of the prevailing conditions, will in our opinion prove a safeguard and lead to a continuance of the upward movement.

IRREGULAR MARKET.

Noon Letter—The market has been very irregular this morning, but on the whole the tone has been distinctly weak. Further heavy profit taking more than counterbalanced all the fresh buying which developed in the market. The Steel stocks, which have had perhaps more effect on sentiment than any other, were steadily pressed for sale, largely by houses with western connections. The undertone was fairly good, and the absorption of stocks on the decline was on a large scale, but at the present movement prices are at about the lowest of the day. Metropolitan was an exception to the general tendency, and has been strong all morning. There is no news to affect prices, except that Mr. Jones persists in his low estimate on the corn crop, and that cereal is up nearly a cent in Chicago.—E. & C. Randolph.

A PURCHASE.

12.45 p.m.—From the exchange floor: The market looks to me like a purchase. —Edmund Randolph.

THE BOSTON MARKET.

Boston, Oct. 20.—The local market has been very irregular this morning and fairly active. Stocks were generally inclined to react but at times the buying was very strong and caused a temporary rally. Telephone sold 144 5-8 and 143 3-4.

In the coppers Amal. lost to 63. Copper Range sold off to 59 1-4. Bingham was very strong around 31. Iron sold at 15 and 15 1-4 and 14 1-2. Granby, 3 3-4 to 3 7-8.—Chas. Head & Co.

MARKET SHIFTED FOR ITSELF.

A noon wire to Laidlaw & Co., said: "There was widespread tendency among traders this morning to wait some cue from the so-called influential market interests before assuming an aggressive position on either side of the market. As the session advanced it became apparent that the recovery in the market was rectiving little assistance from the brokers supposed to act for the larger interests. The market it would seem, was left to take care of itself and its action, in a measure, has corroborated the opinion expressed in Conservative circles that some further decline was needed to thoroughly fortify its technical position. Liquidation has continued in fairly heavy volume, being well scattered throughout the list. Those stocks in which London has been relatively the largest speculative interests were naturally most susceptible to pressure."

Crops and Business in Canadian West

The grain movemnt in Manitoba has now attained maximum proportions and the railways have their hands full transporting the wheat. The fact that they are now refusing to supply cars for other uses than wheat shipment is signifi cant. The wheat is grading well and bringing good prices. Many of the farmers are doing their own shipping and are storing the wheat in terminal elevators to wait for an upward turn of the market. This is probably one of the reasons why merchants find collections slow. That they are slow is abundantly evident.

Bank clearings at Winnipeg show an increase of over 25 per cent. above the same period of last year. Labor in all parts of the west is fully employed, railway traffic is heavy and the weather is becoming more favourable for out-door work.

In regard to business in Winnipeg the Commercial says: "Broadly speaking there is about the same amount of goods going out as last year, but this business is distributed among a larger number of people and among jobbing houses whose facilities for doing business have been greatly increased since last year. This is not to be taken as meaning that the situation is any less healthy than it was last year. As a matter of fact it is such a situation as the business community should feel quite satisfied with."

Bradstreet's Estimates

"Bradstreet's" makes an increase of 1,600,000 bush. wheat in Northwest country elevators: 1,192,000 bush. in Manitoba, 300,000 bush. in Chicago private elevators and 217,000 bush. in Milwaukee, or 3,309,000 bush. at the four points, which with the increase in the official visible of 2,622,000 bush. accounts for 5,931,000 bush. out of the total increase reported.

Market Reports.

WHEAT YIELD IS 554,713,000 BUSHELS; CORN CROP WILL BE 2,300,000,000 BUSH

The total what crop of 1904, according to the October report of the American Agriculturist, is 554,713,000 bushels, compared with 703,000,000 bushels in 1903. This placed the average rate of yield of winter wheat at 11½ bushels, and of spring wheat 11.6 bushels. The total area harvested, 48,279,000 acres, is a material falling off of the breadth harvested last year, when the acreage was estimated at 54,548,000 acres. Part of this decrease occurred in the fall of 1903, when on account of the generally unfacorable conditions at end of preparation of the seed bed, it was not possible to plant the full area intended. An additional increase occurred in the winter wheat belt, especially in the Ohio Valley, as a result of winter killing and the substituting of spring crops.

Complete returns from the American Agriculturist's county correspondents show an average condition of corn October 1 of 82.4 compared with an average of 82.7 on September 1. The corn crop of 1904 is matured and safe from weather damage so far as volume is concerned. Basing the calculations upon the experience of other years in crop reporting, it is safe to assume, the Agriculturist asserts, that the corn crop for 1904 will exceed 2,300,000,000 bushels, making it at least as large in volume as the crop of last year, with quality decidedly better.

The Northwestern Miller reports the flour output as follows:

TABLE "A"	Past wk.	Prev. wk.	Last year.
Minneapolis, bbls..	309,680	312,040,	299,500
Duluth, bbls.......	14,430,	15,555	42,969
Milwaukee, bbls....	40,500	38,650	39,840
Three points, bbls.	364,610	366,245	373,300

The consumption of wheat on the basis of four and one-half bushels per barrel of flour, as indicated, would be:

	Past wk.	Prev. wk.	Last year.
Minneapolis, bu..	1,939,500	1,404,180	1,207,250

Grain, Flour, Hay

Grain—There is no new feature in the local market, and business for both local and export account is quiet. The enquiry is continued firm over the cable for Manitoba spring wheat, but the bids are yet out of line and practically no business is being done. We quote: No. 2 white oats, 38c to 38½c; No. 3, 37c to 37½c ex store. For export, No. 2 white oats, 36½c to 36⅝c; No. 2 peas, 74c to 75c; No. 2 barley, 54½c to 55c; No. 3 extra, 53½c to 54c; and No. 3, at 52½c to 53c afloat.

Flour—There is a steady tone in the market, but the volume of business passing is small. We quote: Manitoba spring wheat, patents, $5.80; strong bakers', $5.50; winter wheat, patents, $5.70 to $5.80; straight rollers, $5.40 to $5.50; straight rollers, in bags, $2.50 to $2.65.

Mill Feed—A fair business is being done at steady prices, with a preferable demand for shorts, which are scarce. We quote: Manitoba bran, in bags, $18 to $19; shorts, $21 per ton; Ontario bran, in bulk, $17 to $18; shorts, 19c to 20; and moullie, $24 to $28 per ton, as to quality.

Rolled Oats—The demand is fair at steady for small lots, at $2.30 to $2.32½ per bag, and at $4.90 per blr. Corn meal is quiet at $1.35 to $1.45 per bag.

Baled Hay—The demand is fairly active, and prices are steady at No. 1, $8.50 to $9; No. 2, $7. 50 to $8; clover mixed, $6.50 to $7; and pure clover, $6 to $6.50 per ton, in car lots.

Grain in Toronto.

Toronto, October 20.—Wheat—The market for Manitoba grades continue to develop strength and they are quoted firmer. It is said further sales of Manitoba wheat have been made for millers of the Northwestern States. Manitoba grades are quoted higher: No. 1 Northern, $1.03 to $1.04; No. 2, 99½c to $1.00½c; No. 3, 97c to 97½c at Georgian Bay ports, and 6c more grinding in transit. Ontario grades are steady. Red and white outside are quoted at $1.00½ to $1.01½; No. 2 goose, 90c; and No. 2 spring, 95c.

Flour unchanged. Cars of 90 per cent. patents are quoted at $4.35 to $4.46 in buyers' sacks east or west. Choice brands, 15c to 20c higher. Manitoba is quoted at $5.70 for Hungarian patents; $5.40 for second patents, and $5.30 for strong bakers', bags included, on the track, Toronto.

Mill Feed—Bran is quoted at $14 to $14.50 in bulk, and shorts at $17.50 east or west. Manitoba mill feed is unchanged at $20 to $21 for shorts, and $19 for bran, sacks included, Toronto fre ights.

Rye is firmer at 64c to 65c east and west.

Corn—Demand quiet at 52c to 53c for cars of Canada west. American is quoted at 61c to 61½c for No. 2 yellow; 60½c for No. 3, and 59c for No, 3 mixed on track. There is a moderate enquiry.

Oats are steady. No. 1 new white, 32½c east; No. 2 new white, 31½c to 32c low freights, and 31½c north and west.

Peas are steady at 63c to 64c for No. 2, west or east.

Country Produce.

Eggs—The tone of the market still continues strong. We quote: Straight gathered stock, 21c to 21½c per doz.; cold storage stock, 19c to 19½c doz.; selected, in a jobbing way, 24c; and Montreal limed, 20c doz.

Beans—There is no change, at a slow demand. We quote: Choice primes, in a jobbing way, $1.40 to $1.45; and seconds at $1.30 to $1.35 per bushel.

Honey—is still dull at unchanged prices. We quote: Extracted white clover honey, 7¾c to 8c per 10 lb. tin, 7c to 7½c per 60 lb tin; buckwheat honey, 6c to 7c; and white clover comb, 10c to 11½c lb.

Maple Product—is without anything new, in a very dull market. We quote: Syrup, in 15 gal, casks, 5¼c to 5½c lb., in tins, 55c to 60c per wine measure, 70c to 75c per imperial, and Beaver sugar, 8c to 10 c lb.

Potatoes—The demand for choice below Quebecs is still up to standard, and all the potatoes arriving are quickly bought up. We quote: Choice stock, in car lots, 55c to 65c per bag; and in a jobbing way, 70c to 75c per bag.

Hops—There is no change, at a slow demand, at 33c to 35c for choice Canadians and 28c to to 31c for fair to good.

Potash—The market is dull and unchanged. We quote: First lots, $5.70 to $5.75; seconds, $5.40 to $5.45; and pearls nominally at $8 per 100 lbs.

Flour Prices

The Ogilvie Flour Mills Company quotes the following prices.

Royal Household	$5.80
Glenora patent	5.50
Bran, per ton	19.00
Shorts per ton	21.00

Wheat and Corn on the Firm Side

Wheat and corn opened on the easy side to-day, but around the noon hour both saw much higher prices. A wire to a local house from Chicago said:

"Scalpers bought wheat at the opening, with general sellig by commission houses. On the break at 11.30 there was good buying. Seems to be good demand."

The various options in Chicago today were quoted as follows:

	Open.	High.	Low.	12.30
Wheat—				
May	113⅞	114¾	113½	114⅝
Dec	114¾	116⅛	114¾	116⅛
Corn—				
May	45¾	46⅜	45¾	46⅜
Dec	49½	49⅝	49½	49⅝
Oats—				
Dec	29	29	29	29

Cheese and Butter

Cheese—The market continues dull, owing to the continued stubborness of English buyers to fall into line with prices on this side. Very little new business is being done, and, in any case, if holders were desirous of realizing to any extent, they would have to shade the prices. We quote: Finest Ontario colored, 9½c to 9⅝c lb.: white ditto., 9⅜c to 9½c; Townships, 9⅛c to 9¼c; Quebec, 9c to 9⅛c; summer goods, 8½c to 8⅝c lb.

Butter—There is still no improvement, and the market remains dull. The demand is poor, and the English cable enquiry shows little encouragement towards any new business. Local jobbers, too, show an indifference as regards handling, and the outlook for holders is not very promising at present. We quote: Townships unsalted creamery, 19⅝c to 20c; do., salted, 19¼c to 19½c in boxes, and in tubs, 19c to 19⅛c: under grade, 18⅞c; dairy butter, 15c to 16c.

Hogs and Provisions

The local provision trade was without any new feature, the demand for all lines of cured meats being steady from both local and country buyers, and sales were made of some fair-sized lots. The demand for dressed hogs was fair, at $7.50 to $7.75 for fresh-killed abattoir dressed and at $7.00 to $7.25 for country dressed, per 100 lbs.

The Cheese Sales

Woodstock, Ont., October 19—Cheese advanced to 9¼c here to-day. At this price 1,200 boxes of early October cheese were sold. The offerings were 3,600 boxes. Some of the sellers held out for 9¼c. At Ingersoll, this week, 700 boxes sold at 9 3-16c. The make continues normal.

Picton, Ont., October 19.—At our cheese board, to-day, 12 factories boarded 780 boxes, all colored; 9¼c highest bid; 70 boxes sold. Buyer, Carter.

Cattle Receipts

Toronto, October 20.—The cattle returns from the western cattle market for the second week in October indicate no falling off in the business when compared with the corresponding week last year. The figures are as follows:

	1903.	1904.
Cattle	3,021	3,333
Sheep	4,051	5,617
Hogs	3,954	3,237
Calves	145	243
Fees	$180.76	$189.86

Flurry in Hops

Tacoma, Wash., October 20.—A decided flurry in hops was caused to-day by a private cablegram from Nuremberg saying prices of all descriptions continue to advance. On the strength of this the local market went up to 31c. Operators figure there are now less than ten thousand bales left in Washington.

Cattle in Toronto

Toronto, Oct. 20.—134 loads in to-day, including 1,650 cattle, 2,200 hogs, 600 sheep and lambs and 74 calves. Export cattle, choice, $4.40 to $4.75; export cattle, medium, $3.80 to $4.25; export bulls, $3.25 to $4; export cows, $3.12½ to $3.50; butchers' cattle, choice, $4 to $4.50; butchers' cattle, medium, $3.30 to $3.80; butchers' cattle, common, $2.50 to $3.25; feeders, short keep, $3.40 to $3.80; feeders, medium,$3 to $3.40; stockers, $2 to $2.12½; milk cows, each $25 to $55; export ewes, $3.25 to $3.50, steady; export bucks, $2.50 to $2.75, steady; cull sheep, $2 to $3.50 each, dull; lambs, $3.85 to $4.35, dull; calves, $2 to $10 each, or 3c to 5¼c, all sold, prospects steady. Hogs, singers, $5.15, fats and lights, $4.90, off cars, trade slow for butchers' cattle, unless for choice; they the selling export cattle slow, not many on the market; milk cows selling well and in demand.

The Fruit Sale

The following were sold at the Montreal Fruit Auction this morning:—Canadian grapes, 8c to 20c per basket; Canadian tomatoes in baskets, 20c basket; Canadian pears in barrels, $1.90 to $4.10 per barrel; red onions, $1.65 cwt.; Canadian apples, $1 to $2.10 per barrel; Spanish onions in cases, $2.85 per case. Mr. Walter M. Kearns was the auctioneer.

NO GREAT LOSS.

A certain M. P. is in the habit of buying a paper from the same newspaper boy every evening on his way to the House, says the St. James' Gazette. It chanced that one evening when he came to put his hand into his pocket he found he had come out without a single penny. He hesitated a moment, and then explained the situation to the lad. "Don't mind about that, sir," was the reply, "you can pay for it to-morrow. It will be all right." "And tomorrow, my boy, I may be dead," said the politician, with the idea of impressing a moral lesson upon the youthful mind. The answer of the lad left the moralizing legislator gasping. "Well, sir, if that is the case, it will be no great loss, after all."

MR. BLAIR MAKES FINAL STATEMENT

(Continued from page one.)

GLOBE POINTS OUT THAT MR. BLAIR IS AGAINST BORDEN

Toronto, Oct. 20. — (Special.) — The Globe, discussing Mr. Blair's resignation, says: "Surely our Tory friends have bidden good-bye to their wits. They are like wrecked marinets, who from their raft in mid-ocean convince themselves that every sea bird that wings in sight is a barque to bear them to safety. Mr. Blair's resignation has thrown them into transports of expectation. Why this should scatter consternation in Liberal ranks, as opponents exultingly suppose, may be left for them to explain. They seem to forget that Mr. Blair equally condemned Mr. Borden's solution of the western railway problem.

"To be fair to Mr. Blair, his statement to the Railway Commission does not bear out the construction which the Tory press puts upon it. He virtually says that he has the choice of taking a more remunerative post than the one he now holds, and that justice to his own interests and to those of his family counsel him to accept it. It must be said that the note of jubilation in the Tory press can hardly help being distasteful to the party leaders. Elsewhere it is asked, even if Mr. Blair does take the stump, what could he say further than he has already said in Parliament?"

A LOSS TO THE COMMISSION.

Under the heading of "Chairmanship of the Railway Commission," the Globe this morning says: "From the point of view of the public advantage, it is greatly to be regretted that Mr. Blair has found himself constrained to retire into private life, although it is matter for congratulation that he held the office long enough to aid in establishing the procedure of the board on a firm basis. His business ability, professional skill, and railway experience combined to fit him pre-eminently for such a judicial position. In view of the power and influence of great corporations, whose plans he may at any time find himself under the necessity of thwarting, the new chairman must at least have Mr. Blair's independence, courage and firmness."

MAIL AND WORLD CALL ON MR. BLAIR TO TALK

Toronto, Oct. 20. — (Special.)—Under the heading, "Blair can aid Canada," the Mail and Empire says:

"By far the most impressive of current political events is the resignation of Hon. A. G. Blair and the reiteration by that gentleman of his belief that the Grand Trunk Pacific bargain is unsound. Mr. Blair, who so ably criticized the first scheme, would render a service to his country were he to come forward, as he is free to do now that he is out of office, and give his views of the affair in its present shape. Pronounced by Sir Wilfrid Laurier the greatest and ablest railway expert in Canada, his opinion would be received with great respect, and it might go a long way toward saving us not merely from a blunder, but from a national disaster."

"National Railways the Issue" is the heading of a World editorial, which says in part: "We cannot predict what Mr. Blair may do during the next fortnight. But his resignation is a protest, a condemnation of the railway policy of the Government, the force of which cannot be destroyed or impaired."

MR. EMMERSON SAYS BLAIR IS "WHERE HE WAS"

Moncton, N. B., Oct. 20.—Hon. Mr. Emmerson, questioned as to the effect of Mr. Blair's resignation said:

"Mr Blair is simply where he was before he accepted a position on the Railway Commission I have nothing to say with respect to his resignation or the time chosen for it"

Asked if it came as a surprise, he said:

"Naturally, somewhat as a surprise, especially in view of our last conference, before I left Ottawa All I could say as to what Mr Blair will do would be only in the way of conjecture He is simply where he was when he resigned from the oGvernment He seems to intimate that he has some position offered him He has not said more than he had already said respecting the Grand Trunk Pacific. The country knows his views as stated in Parliament, and his opinion will be no surprise to the country. I do not see how anything he may do can have any more effect. The arguments presented by those supporting the Conservative side are but a recital of Mr. Blair's speech."

WHEAT SHIPMENTS.

So far this fall very litite of the wheat crop of the West has come down the St. Lawrence route and the opinion of local grain men is that very litite more will be brought down before the close of navigation.

This unprecedented condition of the grain trade at the present season is due to the fact that the export force for wheat is two and three cents a bushel lower than the price at Winnipeg and on this account practically none of the crop is leaving the country. Owing to this unsettled condition the farmers are holding on to their wheat and waiting to see if prices will adjust themselves.

This peculiar condition means a big loss to the local grain merchants as the summer has been an unusually dull one and the majority were looking to the fall to secure some business.

Mr. James Carruthers, a leading grain exporters, stated to-day, that, as yet he could not see any solution to the peculiar situation. It was certainly an unprecedented one. A feature that should now extraordinary, were the existing condition was that better profits could be secured even on the option market at Winnipeg than on the prices that exporters were willing to pay.

FORTUNATE BEGGARS.

There are various instances on record of London street beggars have amassed fortunes varying from £1,500 to £3,000, says Tit-Bits. In one or two very rare instances they have been still more fortunate.

Many years ago a woman, who had stood with a broom in her hand for about a quarter of a century in the neighborhood of Charing Cross, died worth nearly £3,000. She got the name among the fraternity of "The Banker," because she was in the habit of lending small sums to others at an enormous rate of interest. It was proved by bills found in her possession after death that she had loaned one tradesman in Westminster £50 for three months at the handsome interest of fifty per cent. per annum .

But the most extraordinary instance of good fortune in this way was exhibited in the case of a man, a black, who for nearly thirty years swept another crossing at Charing Cross. He actually saved in that time, by his profession, £8,000. The yearly average proceeds of the man's broom were calculated at £300—the £8,000 being found at his death in the wretched hovel in which he vegetated, so that none of it could have been the proceeds of interest on stock.

Another woman, who for many years swept a crossing in the Old Kent road, left at her death £1,500 to a clerk in the Bank of England, simply because he was in the habit of giving her a penny more freuqently than any other passer-by she knew.

Not a Cheap Store

QUALITY COUNTS FIRST HERE! We never figure on low prices only. That is a very simple bargain (?) making way—but how unsatisfactory!

FULL VALUE IS THE WATCHWORD HERE. If there's such a thing as a lot of "seconds" put on sale, we are careful to tell you just what's the matter with them. Take, for instance, this first Blanket item. We call these "Bargains" in every sense of the word—and we tell you just why. It's this continual keeping to a higher standard of merchandising that gives this store its steady growth and rather enviable position.

All Wool Scotch Blankets

ONE-THIRD UNDERPRICED.

Mill "seconds," some with soiled spots, some with damages in the weaves, requiring a little darning. All imperfections plainly designated with red threads. These Blankets are large sizes and of superior quality; no colored borders; each Blanket neatly finished at both ends. Here are the sizes and prices:

Size 68 x 90, worth $6.75, for $4.50
Size 72 x 94, worth $7.95, for $5.25
Size 90 x 100, worth $8.75, for $5.75

Surely, Mrs. Housekeeper, the above should hurry you this way Friday morning.

THOSE MILLS.

Editor Herald:

Sir,—The general public must be heartily weary of the dismal and monotonous wail that has, for months, gone up from the woollen mills. One would think to hear the dreary and persistent plaint of these mills that they were the only enterprises in Canada that ever knew mishap; whereas, in truth, they are very far from having a monopoly of misfortune. The wholesale merchant, the country trader, the farmer, the bootmaker, even the green-grocer, and the one hundred and one other agents of production and distribution, have all had their own share of the calamities incidental to putting money into an unknown quantity. Also, within a corresponding period of time and corresponding ratio of amount, have they all, in turn, paid as dearly for their experience as the woollen mills have done.

The merchants, traders, farmers, miners, and general confraternity of productive craftsmen, despite their colossal losses at different times from preventible or unpreventible causes, have never put up a plea for pity, or expected the Government of the day to deliver them from the caprices of trade, or the effects of their own miscalculation. Other industries have been tried in the Dominion besides woollens and have failed. Years ago the silk industry was introduced under very favorable auspices, but throve no better than would have thriven the cultivation of oranges or the manufacture of fabrics from shoddy.

Again, the manufacture of cotton wrap cashmeres and merinos was tried, but with the same abortive result. If, therefore, silks and cashmeres and oranges cannot be produced in Canada at a sufficient profit, why should it be considered an incredible thing that certain lines of woollens should also fail to succeed?

What gave the woollen industry a damning blow in its early career was the foolish imposition of a duty that put from 60 to 80 per cent. on goods which constituted the clothing material of nine-tenths of poorer classes of the community. This, too, on an article which was semi-raw material, from its having to be made into garments by the domestic clothiers before it became really "finished goods." The glamour of this impost, whose practical working Sir John A. Macdonald had only to see to repeal, allured a host of small capitalists into this class of manufacture. In their eagerness to get rich soon, they had produced a quantity of goods that glutted the market and which finally had to be forced off, at prices which not only wiped out their own profit and that of their competitors, but utterly demoralized the local markets. To stop this reckless work, resort was had to amalgamation, and this was the beginning of the end. In this well-meant scheme, good money was thrown after bad and worthless concerns had to be bribed with prices to come into the combine that made them a drag and an incubus ever after.

Of the old mills many of them today are making goods which are a credit to Canada and a terror to Yorkshire. A representative of one of the unfortunate mills recently admitted that the Canadian mills which are doing well to-day are those that have gone on to "specialties," instead of following one another like a flock of sheep until the hindermost got drowned in the ditch? There is no limit to invention and the creation of "specialties." It is a field without bounds, while humdrum monotony is a back number and has become an abomination to the genius of the age.

There is, therefore, nothing for those unfortunate manufacturers but to take their medicine like men and go on to the next thing. Their present situation is outside the sphere of government interference or help. If every luckless industrial in a community were to put the hat round to the government and meet a sympathetic response the taxes would soon reach a point which would make it harder for those who bore them to live than it is for the present unfortunate manufacturers. If one class of trade unfortunates is entitled to become mendicants at the footstool of the government it will be difficult to decide at what point a line should be drawn to exclude similar suppliants for the public charity. For, stripped of its disguise and euphemisms, this is what all this posing in extremis means.

Here and at this hour of the day any industry that cannot survive under 30 per cent. protection has no title to live. Such have mistaken their calling and should adapt their parts as expeditiously as possible to a more congenial field of usefulness.

No amount of so-called employment possible in these mills to the native population, would ever compensate the vastly disproportionate number of the masses, who would have to pay increased taxes. Besides to support what is demonstrably unfit is economic immorality. It is a premium on incapacity and would have the effect of emasculating the national intellect. Fair competition is the soul of business; and never let us forget it.

CANADIAN ELECTION RETURNS.

The Canadians of Boston and adjoining cities intend holding a "Canadian Night" at Union Hall, 48 Boylston st., on Thursday evening, Nov. 3, to receive the returns of the Canadian elections. The meeting will be held under the auspices of the Canadian Club, and they have specially engaged Mr. A. T. Kempton, the well-known lecturer, with his varied, beautiful and original views on Canada, "Evangeline," "Hiawatha," etc. The portraits of all leading men in Canada will also be shown.

Arrangement has been made with the Western Union Telegraph Company for complete returns from all parts of Canada, and a special wire will be placed in the hall. The public, including ladies, are invited to attend. Tickets on sale in advance at Dominion Atlantic Railway, 228 Washington street, and at hall on evening of entertainment.

Sir Wilfrid's Triumph Again Repeated in North Ontario

Crowds a Hall Three Times the Size of That Used by Mr. Borden—Station Demonstrations Continue—Strong Promise of an Ontario Majority for Liberalism and Good Government.

Orillia, Ont., Oct. 20.—(Special.)—"East Simcoe won for Laurier and progressive and economic administration," was the sentiment which governed the four thousand people who crowded Agricultural Hall here last evening.

As the Laurier Ontario tour progresses, day by day evidences accumulate that the people are prepared to give to him on November 3rd substantial evidences of their approval of the honest, clean and progressive administration of the affairs of the Dominion which has characterized the record of the past eight years.

The great demonstration in Agricultural Hall here was a reflection of the growing sentiment which exists, especially in the rural portion of Ontario, in favor of continuation of that policy. The town of Orillia was en fete, the principal street being decorated with banners, bearing among others the mottoes, "We want the G.T.P. built," and 'Laurier and the larger Canada." Special trains were run from Barrie and other points to carry the crowds desirous of hearing the Premier explain his policy.

The meeting was a magnificent tribute to the personal popularity of the Premier. The large agricultural building was fitted up to accommodate about three times as many people as the Opera House, in which Mr. R. L. Borden spoke upon the occasion of his recent visit, but proved inadequate to accommodate the large number present.

The Premier's address was cheered to the echo, his exposition of the Government's policy in contrast to that offered by the Opposition evidently satisfying his audience. There are strong evidences of industrial prosperity in Orillia as in other towns in the county, and quite a few new factories have been opened in recent years in this busy town, giving employment to a large number of people. The business men of Orillia also pride themselves on the fact that there has not been a single case of bankruptcy in the town for a number of years. Every commercial concern, it is stated, is flourishing to a surprising degree. The Premier dealt somewhat in detail with the tariff and transcontinental railway questions, and predicted a great Liberal victory on November 3rd.

THE CRY OF SECTIONALISM.

"I have no doubt at all that I shall have a majority in Quebec, said Sir Wilfrid. It is conceded by our opponents and they make this point against me; they say that Quebec is with me because I come from that province, and because I am of the race and of the people of Quebec. So it is; but sir, I say it, and I say it with pride, that I can see no reason why, having behind me the record which I have, having never appealed to the prejudice of any man, having stood above all things upon the broad principles of the Liberal party, I should not obtain as much support in Ontario as in Quebec. (Applause.) Ontario in my younger days, when I was a boy at school, was the hot-bed, the bulwark of the cause of Liberalism in Canada. At that time Quebec was Conservative, but there has been a change from those days and I hope to see the day when Ontario will come back to its first love, when it will become once more what it was before, the bulwark of Liberalism."

When Sir Wilfrid resumed his seat, having spoken for fifty-five minutes, there was proionged cheering.

The departure of Sir Wilfrid Laurier from Uxbridge yesterday morning was witnessed by a large crowd who gave the Premier and Lady Laurier a parting cheer as the train pulled out. At Blackwater Junction Sir Wilfrid held a reception at the railway station while waiting for train connections and shook hands with a large number of passengers, who are always to be found at this busy point. Among those who were introduced by G. D. Grant, who accompanied the Premier to Orillia, were Rev. Mr. Sparks, and N. W. Hayle, M.P.P., with whom Sir Wilfrid had a pleasant chat.

At Cannington, the home of Mr. Hoyle, quite a crowd had gathered, and in response to the cry, "Long live Laurier," cheerd heartily.

VOTE AS YOU CHEER.

"My friends, I hope you can vote as well as you cheer, and it will be all right," said the Premier, when the cheers were renewed in honor of Lady Laurier.

At Lorneville Junction there was more cheering, in response to which Sir Wilfrid appeared on the platform of the car and exchanged greetings with his admirers. In reply to a question he was informed he was in Victoria county and immediately inquired regarding the welfare of Col. Sam Hughes.

"We have not seen him lately, but we are going to try to turn him down," cried an ardent Liberal who acted as spokesman and led the cheering.

SHERBROOKE DID NOT GO WILD OVER MR. BORDEN

Great Demonstration at Eastern Townships Metropolis Was Rather a Cut-and-Dried Affair.

Sherbrooke, Oct. 20.—(Special.)—The much heralded Conservative demonstration was enacted last evening, and the Conservatives have the county already won. The leader of the Opposition was escorted from his hotel to the Clement Theatre by a crowd of the faithful, who had been armed with torches and fireworks, from the Central Committee room of the Conservative party. There was a large crowd along the streets, and the Clement Theatre, which has a seating capacity of about 1,000, was filled. The ladies and the Bishop's College students occupied a prominent part of the building. A special chorus of about fifty voices also occupied a conspicuous place, and a majority of this number were non-voters.

The theatre was decorated with mottoes and banners, which came along in the same train with Mr. Borden, and which had the appearance of having been used on previous occasions. The workmen who had charge of the decorations were from Montreal, and the local leaders had to take their instructions from them.

Mayor J. O. Camirand presided, Dr. Worthington was the first speaker. He spoke generally of the Liberal party having broken their promises made to the electorate in 1896, and said that while Laurier was the idol of the people of the Province of Quebec, the country would on the 3rd of November, show that they were done with broken pledges. He criticised the action of the Minister of Agriculture in acting in the way he did in insulting the pet of the British nation. He intimated that the name of the Minister of Agriculture would not be found in the peerage of nature's gentlemen. The candidate for Sherbrooke county was most bitter in his attack on the Minister of Agriculture, but his words did not seem to go down with the majority of the audience. The applause seemed to come from his loyal supporters in the front row.

MR. BORDEN'S SPEECH.

Mr. R. L. Borden, the leader of the Opposition, went over the same speech which he had delivered in Ontario and Montreal, and he repeated the same old stories which have gone the rounds since he started his campaign. The applause was very stinted throughout his address, and it was admitted by his own following that he failed to arouse any enthusiasm. The leader of the Opposition closed by predicting that on the 3rd of November, he would have wafted over the wires not only a victory for Sherbrooke county, but also for the whole Dominion.

Hon. Mr. Tallion and Mr. R. H. Pope followed, and the latter repeated his tirade against the Minister of Agriculture.

WHEN LIFE'S NOT WORTH LIVING

Your Stomach is Out of Order and Needs Dodd's Dyspepsia Tablets—Story of Isaac Jenkins.

Are you afraid to eat for fear of the consequences? Do you have pains and aches, a feeling of despondency or sour stomach or heartburn? Are you restless and irritable? Is your work a burden? Are you troubled with sleeplessness, or is your night filled up with bad dreams?

If you have any of these symptoms you needn't rush off to a doctor. Just procure a box of Dodd's Dyspepsia Tablets. They will fix up your stomach and make life worth living again. They've done it for others. Isaac Jenkins, 116 Dundas Street, Toronto, says:

"I was troubled with Dyspepsia for one year and could get no relief. I would have sour stomach and heartburn and could eat no rich food. I used half a box of Dodd's Dyspepsia Tablets and am cured."

THE NEWS OF SPORTS TERSELY TOLD

SPORTING COMMENT

That there is a rift in the O.R.F.U.'s lute is made apparent by the following criticism of the Burnside rules by the Toronto Telegram:

"The snap-back game, as played in the O.R.F.U., does not appear to be holding the friends it made on its first appearance, and at last Saturday's game you could full many a time and oft hear the remark, 'This is not as good a game as last Saturday's.' That last Saturday's game was, of course, the Varsity-McGill struggle.

"The trouble with the snap-back, from a spectator's standpoint, is that there is too much sameness to it. It consists of two futile attempts to buck the line and then a punt. And like the old songs, every verse is a repetition of the first one. In the scrimmage game there is the fighting on the wings and the throw-in to relieve the monotony, while the new rule requiring a gain on three downs puts in punting enough to satisfy the ordinary appetite."

* * *

The Burnside rules were adopted by youthful delegates to a packed meeting of the O.R.F.U. two years ago, and they were adopted in order that the big, strong players might be put out of the game. Some of the older heads urged at the time that the old rules should be maintained in the senior series and that the new rules should be tried out in the intermediate and junior series, but the youthful solons, who were in the majority, would not agree to this plan.

Of the senior clubs that were in the O.R.F.U. at the time the Burnside rules were adopted, not one was in favor of them. Messrs. Harpell, Kingston, Dumoulin, Hamilton, McGiverin, Ottawa, and Thompson, Argonauts, were at the meeting, and they were all opposed to the innovation. The result of the youngsters' stubborness was that the Rough Riders dropped out of the union, the Argonauts went to pieces, and the Granites disappeared.

In short, the glory and prestige of the Ontario Rugby Football Union disappeared, and it became an insignificant body. It is looked upon as a junior organization, and such, indeed, it is.

Varsity last year trounced the alleged seniors of the O.R.F.U. in rude fashion, and will do the same this fall. It is easy to imagine what fate the Hamiltons or Torontos would meet were they to be pitted against Ottawa College or Montreal.

* * *

The Telegram has pithily expressed one of the great objections to the Burnside game. The latter is too monotonous. There is no variety to speak of.

The tussles and struggles of the Q.R.F.U. matches are missing, and there is no denying the statement that people like to see individual as well as team contests. The Quebec game furnishes both, and the Ontario game but one, the individual.

It is perhaps not too wild a prediction to hazard the statement that Quebec rules will be used again by Toronto teams within the next three years, despite the best efforts of the clique that at present controls the O.R.F.U.

* * *

In The Herald yesterday appeared the following:

"The Westmounts will be dangerous in only one of their future games, and they will be apt to upset the calculations of the experts. Altogether the season promises to be as interesting as any the O.R.F.U. has ever had."

What was written was:

"The Westmounts will be dangerous in every one of their future games, and they will be apt to upset the calculations of the experts. Altogether the season promises to be as interesting as any the Q.R.F.U. has ever had."

The announcement that the Arena management will permit only one league to play games on its ice, has caused more than a mild sensation among the backers of the C.A.H.L. and F.A.H.L. Both leagues have been counting on securing the Arena, and the one, whose hopes are dashed, will not be ecstatically happy. The Westmounts have practically the deciding voice in the matter, and the course they take at Friday night's meeting will settle the question. The Westmounts have not determined whether to accept the coy advances of the C.A.H.L. or the shy proposal of the F.A.H.L., according to President Andrews, but it is understood that the Federal is the favorite in the running.

As a matter of fact, the Westmounts will be in good company, whichever league they join.

The Westmount Amateur Athletic Association has emerged from the soft shadows of intermediate athletics into the dazzling calcium light of senior athletics, and they are bearing the promotion with becoming modesty, "No swelled heads" is one of Coach Powter's admirable mottoes.

TURF AND TRACK

RACING AT MEMPHIS.

Memphis, Tenn., Oct. 20.—The Dividend stakes for 2.20 trotters, and the Magnolia stakes for 2.14 trotters were decided here yesterday, Bonnie Russell winning the former in straight heats, while Lesonjero took the latter in straight heats. Both horses were favorites.

The third race for 2.07 pacers went over until to-day, after Belle McC., King Direct and Sphinx S. had won a heat.

Prince Alert, with Curry in the sulky, attempted to lower his own pacing record of 1.59 1-2. Accompanied by a runner, he made the mile in 2.01 flat.

Lou Dillon has recovered from the attack of "thumps" from which she suffered Tuesday in the race with Major Delmar. She was taken out of her stall yesterday and jogged slowly around the track.

H. B. Duryea's stable won the most money at the Morris Park meeting. More than $22,000 is credited to Mr. Duryea's account. E. W. Jewett, with one colt, Bedouin, won $14,475.

International Golf Match is Being Played at Toronto To-Day

The Misses Curtis, Philadelphia, Won Medal Matches Yesterday.

Toronto, Oct. 20.—The team of lady golfers from Philadelphia, brought here by Mrs. Griscom, on the invitation of Mr. A. W. Austin, president of the Lambton Golf Club, were late in arriving yesterday, and were only able to play 13 holes, but were in time to play yesterday's medal match preliminary to to-day's international event. Miss M. Curtis, Philadelphia, won with 66 strokes, her sister, Miss H. Curtis, being second, with 70, while Miss Griscom, Philadelphia, and Miss Dick, Lambton, tied, with 71. Miss Dod, the English champion, played against Miss Harvey, Canadian champion, Miss Dod making the course in 74 and Miss Harvey in 75. They were, however, all even on holes. The scores:

	Philadelphia.	Canada.
Miss Bishop	73	
vs. Miss Thomson, St. John		76
Miss M. Curtis	66	
vs. Miss Dick, Lambton.		71
Miss Griscoll	71	
vs. Miss Green		83
Miss Wells	74	
vs. Miss Phepoe, Hamilton		72
Miss H. Curtis	70	
vs. Mrs. Bolte, Toronto.		83
Miss Ayers	84	
vs. Miss Davidson, Rosedale		77
Miss Thomas	94	
vs. Miss Cox, Lambton		80
Miss Lockwood	76	
vs. Mrs. Dick, Lambton.		81
Miss Dod	74	
vs. Miss Harvey		75

The draw for to-day's international game, in which Miss Dod will play with the Canadians, is:

Philadelphia.	Canada.
Miss Bishop	Miss Dod
Miss M. Curtis	Miss Harvey
Miss Griscom	Miss Thomson
Miss Wells	Miss Dick
Miss Lockwood	Miss Green
Miss H. Curtis	Miss Phepoe
Miss Ayers	Mrs. Dick
Mrs. Bettie	Mrs. Bolte
Miss Thomas	Miss Davidson

VICTORIA LADIES' COMPETITION.

Miss Nora Smith won first prize and Miss Knight second in the approaching and putting contests of the Victoria Ladies' Golf Country Club yesterday. Quite a large number of members competed.

A TYPOGRAPHICAL ERROR.

In the first edition of The Herald, on October 14, appeared a despatch from Ottawa, concerning the victory of Ottawa lady golfers over a team from Montreal. Instead of the heading of the article reading "Ottawa Ladies Beat Montreal," as it was written it read "Ottawa Cads Beat Montreal." The typographical error is regretted.

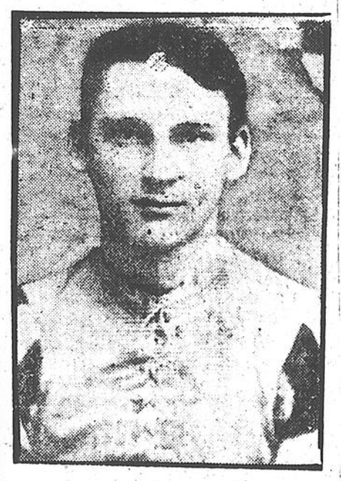
Saturday's Q.R.F.U. Games Will Certainly be Very Interesting

Teams Are Well Matched and Each is Set on Winning.

The indications are that a banner crowd will attend Saturday's match at the Baseball Park between Montreal and Westmounts. Both teams are dissatisfied with the result of their last game, which Montreal won by fifteen points to eleven, the Westmounts because they did not win, when there was every prospect of their so doing, and the Montreals because of the doubtful glory of their victory.

The Montreals are out for the championship and the Westmounts are out for a victory over Montreal and the rivalry between the teams will ensure an exciting contest. Montreal will have practically the same team that defeated Ottawa College, the only player not available for next Saturday being Ogilvie. Westmounts will be stronger than last Saturday and as they have put in a week's hard practice, they may be relied on to keep the Montreals on the jump. Both fourteens have big followings, which will turn out in force to root for their respective favorites.

Charlie Wilkinson, of Brockville, will referee.



J. W. BROWN, one of Westmount's Speedy Players.

TWO OTTAWA TEAMS PREPARING

Lansdowne Park, Ottawa, will be the scene of a Titanic struggle Saturday afternoon, when the Rough-Riders and Ottawa College come together in their second fray of the season. There isn't a world of love lost between these teams and it is hardly likely that the contest will be dull from a spectator's point of view. The Rough Riders have been practicing faithfully as they are dead anxious to trim College and they will take a lot of beating. The Collegians are admittedly strong but it is hardly likely tht they are any better than when they defeated Rough Riders on October 8. If the garnet and grey loses it will practically put them out of the championship race, but the last thing that King Clancy's proteges want happen them, is to be beaten by Rough Riders. Yes, it will surely be a battle.

GOOD OFFICES RECOGNIZED.

Because of the assistance that Mr. J. S. Robertson has given the Canadian Hunt Club in running off its races, this organization has made him an honorary member.

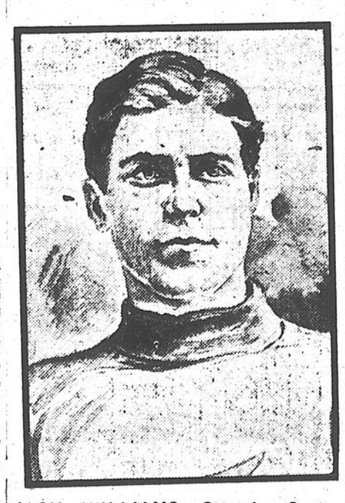
ST LAMBERT BOAT HOUSE.

A splendid programme has been prepared for the final concert of the season, to take place to-morrow (Friday) evening in the Boat house, St. Lambert and it is sure to be an enjoyable affair, as usual. The last train leaves the suburban town for the city at 11.30 p.m. so no one need to rush away but can sit out and enjoy the concert fully.

MAT AND RING.

SCHMIDT WANTS TO MEET MAUPAS.

Florrie Burnett, of New York, is trying to arrange with George Kennedy a match between Carl Schmidt, of New York, and Emil Maupas, Graeco-Roman style, best two in three falls. In the hope of securing a match, Schmidt has started training. Schmidt wants to wrestle in Montreal. He has defeated such crack wrestlers as August Faust, Mike Miller, and has wrestled a two-hour draw with John Prinning.



JACK WILLIAMS, Queen's Centre Half-back.

Denmark's Champion Wrestler Seeks Fame and Coin in States

New York, Oct. 20.—A new champion wrestler is on his way to this country. The newcomer, who is anxious to test his merit with the crack American wrestlers, is H. H. Egeberg, champion wrestler of all Denmark. In Europe, Egeberg is known as the Great Dane, having succeeded Beck Olsen. Egeberg is expected to arrive here on Wednesday on the steamship Main. He will be met by his manager, John F. Schmidt and a delegation from the Danish societies of Brooklyn.

Manager Schmidt, who brought Olsen to this country a few years ago, when he won the championship from Ernest Roeber, says that Egeberg is a greater wrestler than the former champion and that he expects him to beat all of the American wrestlers. Ernest Roeber saw Egeberg wrestle on the other side when he won the championship by throwing twenty-five men in one week. Egeberg weighs 205 pounds and stands six feet two inches in height. He is proportionately built and is so finely developed that for three years in succession he was awarded the physical culture prize for the best developed man in Denmark.

Yankee Rogers Roughed it in His Match With Emil Maupas

Eddie McBride (Hotspur), writing in the Buffalo Enquirer concerning the Maupas-Rogers wrestling match which he refereed, says:

"But Maupas certainly showed he was a novice at the catch-as-catch-can game when he got on top. He did not know what to do, and with wicked face and leg holds, the latter hurting the Frenchman so that at one time he screamed in agony, Rogers finally put his man down for the first fall in ten minutes and thirty seconds.

"Maupas cannot speak a word of English, neither does he understand that language, and he had in his corner Dr. Gadbois, a famous Montreal physician and sportsman, who referees all of the bouts in that city. He speaks English fluently, and the rules of the second style were explained to Maupas, who, by the way, is a handsome looking man, and his gameness, coupled with is inability to understand what was being said about the ringside, soon brought him many admirers, many men who sympathized with him simply because he was a stranger and in a strange land.

"It was a most gruelling match from Rogers' viewpoint. Twice I had to caution him for roughness, although he was always within his rights, but Rogers is a vicious person on the mat, especially when he does not like an opponent, and poor Maupas was not in his good grace last night. The final fall was taken in a little over thirty-one minutes."

Burrows Established New World's Club Swinging Record at Arena

He Kept the Clubs Circling for Over Forty-three Hours.

A world's record for endurance club swinging was established last night at the Arena by Tom Burrows, who at 10.36 o'clock completed a feat never before performed, viz., swinging clubs for 43 hours 6 minutes without a break. Burrows held the former record, 42 hours, but on coming to Montreal recently he decided to set a new mark, and his performance at the Arena was the outcome of this decision. He started swinging clubs at 3.30 a.m. Tuesday, and all the time he was at work judges were present to see that his attempt was honest.

Through the long hours Burrows maintained the monotonous swing, using a wrist motion, and his average number of swings per minute was 120. This means that the clubs must have made at least 310,320 revolutions. Burrows was on his feet every minute of the time that he was at his task, and this in itself was a severe strain.

Towards evening his pace slackened, though he never went below 120 revolutions. At ten o'clock Prof. Murray announced that only half an hour remained. A pianist struck up a lively strain, and the gritty Burrows responded by taking his time from the music. His speed increased, and he handled the clubs with all the cunning of a master hand. The exhibition was pretty, and the spectators applauded the performer at frequent intervals.

At 10.30 o'clock the crowd broke into cheers, and when Prof. Murray announced that Burrows would continue for five minutes longer, the enthusiasm was augmented. In a whirl of clubs, and to the time of a lively waltz, Burrows circled the clubs for the last few minutes, and when the judges held up tehir hands to announce that a new world's record was established, the spectators cheered again.

Burrows dropped limply into a chair, which was lifted to the front of the platform. His admirers crowded round him, extending congratulations. To these Burrows tried to reply, but all he could say was: "Thank you for coming here, and I think that this mark will stand for some time." Then he disappeared behind the scenes.

This morning he was out for a walk bright and early, and seemingly little the worse for his trying experience. His hands and arms are rather sore, and the muscles of the forearm keep twitching. This, however, will disappear in a day or two.

Burrows challenges any other man in the world to swing clubs with him.

McGill Athletes Will Meet 'Varsity at Toronto To-Morrow

For the sixth time the track teams of the Universities of McGill and Toronto met Friday in battle royal for the intercollegiate track championship. The team which is to uphold the red and white left at nine o'clock this morning for Toronto, with the best wishes of the whole student body. For the last week or so the main topic of conversation in hall and lecture theatre has been the old question: "What chance have we for the trophy?" With the performances of last week before them, the victory seems almost certain to rest with McGill.

But appearances are extremely deceptive. Last year everything looked easy for the retaining of the championship, yet Toronto came sixty points to the good above what was expected of them.

Apparently from a comparison of the records, McGill should find no difficulty in winning the trophy, but the results from Toronto are not regarded as correct, and no such over-confidence will be entertained as that which proved so disastrous last year.

The intercollegiate games were organized five years ago, and have proved a decided success. They are without doubt the best contested series in the Canadian athletic meets. For four years McGill were the proud winners until last year, when overconfidence and unforeseen disaster proved the means of sending the trophy back to Varsity. Out of the sixteen records established, McGill holds eleven. Next year will see Queen's a worthy rival of both, and the three sister universities will strive for the title of champion.

The McGill team and their entries are as follows.

100 yards dash—M. J. Carney, R. A. Donahue, G. E. McCualg, G. T. Brown.

120 yards, hurdles—O. S. Waugh, R. A. Donahue.

440 yards' run—R. A. Donahue, G. E. McCualg, E. K. Deback, M. J. Carney.

220 yards' run M. J. Carney, R. A. Donahue, G. E. McCualg, G. T. Brown.

880 yards' run—E. H. Grey, R. E. Powell, W. J. Scott.

Mile—C. Gamble, E. Hawkins, W. J. Scott.

Broad jump — M. J. Carney, R. A. Donahue, Gus McIntosh.

High jump—O. S. Waugh, R. E. Powell, J. G. Beaubien.

16-lb. shot—Gus McIntosh, J. MacYoung, J. G. Beaubien.

Discus—J. G. Beaubien, Gus McIntosh, J. MacYoung.

Pole vault—R. A. Donahue, A. Cumming, E. H. Debeck.

16-lb. hammer—Gus McIntosh, J. G. Beaubien, J. MacYoung.

A reduced rate having been secured, a large number of students accompanied the team. A stop-over has been arranged so that the team may witness the football games at Kingston between the Rugby teams of McGil vs. Queen's. The president, Will Stewart, and the secretary, F. G. Wickware, will take charge of the team.

GRIDIRON ECHOES

Princeton's defeat by Annapolis on Saturday fairly stunned the undergraduates.

The Yale coaches are seriously considering taking Tom Shevlin back to end rush.

With the exception of the Yale games the defeat at Annapolis is the first that has been administered to Princeton since 1900, and also the first time the Tigers have scored one since 1902.

It is rumored that Filley, Harvard's big end, will drop football for a couple of weeks and perhaps for good, to look after the oarsmen, he being the crew captain this year. This will leave Harvard in a bad way for ends.

Bloomer's absence in Saturday's game was due to an injured shoulder. He re-opened the wound which crippled his last year. He will be able to line up for Yale against West Point next Saturday, but will not practice much this week.

No player has serngthened the Pennsylvania line so much as Stevenson, who supplanted Gorson, at quarterback on Saturday. This youngster tackled like a demon and ran with the ball better than any other man on the team. Furthermore, he did not miss a punt in the back field, and ran the team perfectly.

Tooker at present is playing a good game at end rush for Princeton, and if he keeps on with his good work a place will have to be made for him on the team, especially as he is showing up well as a drop kicker. He showed signs of this ability last year, but with a kicker like DeWitt he was given very little attention.

One thing which as been neglected so far this year at Princeton is the finding a competent man to kick goals. Perhaps two of the best men of recent years who did this in good shape were DeWitt and Cadwallader. Both men kicked goals for their school teams,and were successful because they practiced long and hard at it.

Trainer MacMaster, of Harvard, says that only three men have been wearing aluminum guards for the legs. These guards, he said, were lined inside and out with cotton and were used in particular as a precaution against clots of blood. He said he is inventing a substitute to them which cannot be objected to, as in the game Saturday.

In the West Minnesota leads the elevens with a grand total of 440 points to none for its opponents. This record has been made in seven games, and there is a likelihood that the record total of the season will fall before the season closes. Michigan is next in line, with 279 points, though it has six points against it.

Eight or nine Yale football players are the victims of a distemper which has upset them physically and which was largely responsible for Yale's failure to hold the Syracuse eleven in the second half of Saturday's game. The best men affected are Ralph Kinney, guard; Roraback, centre rush; Owsley, quarter-back, and Quill, half-back. An equal number of prominent substitutes are likewise affected.

Harvard is now the only big college in the East that has not been scored on this season by any of its football opponents. The Carlisle Indians have run up a larger total of points than any of the colleges in the East, but they have four points scored against them. Princeton, Yale, Pennsylvania, Cornell, Columbia, and the others have all been scored on, though some of the elevens have not had touchdowns made on them. Goals from the field have cut a prominent figure in the contests so far this season.

By the irony of fate Brill, who weighs 220 pounds, who has safely passed all the dangers of football, hurt himself while trying to convince the Harvard athletic authorities that he is fit to play football. He was taking the required strength test under the direction of Dr. Dudley A. Sargent, director of the gymnasium. The big fellow worked too hard and snapped a muscle in his leg. He was doing the squatting act, trying how often he could lower himself from a standing posture to one where his hips touched his heels. Brill started to rise too quickly and his 220 pounds of weight resisted the strain.

SPORTING BRIEFLETS

Billy Breen has again been elected captain of the hockey septette of the Winnipeg Rowing Club.

A St. Louis club has offered to match Terry McGovern and Benny Yanger for October 25, and guarantees a purse of $3,500.

Stanley, captain of Quebec's hockey team last winter, will play with the Winnipeg Rowing Club during the coming season.

Max Wiley, who has been defeated by Eugene Tremblay, is anxious to make another match with the Canadian wrestler.

Bob Fitzsimmons called Jack O'Brien's bluff to fight for the middleweight championship by posting a $5,000 forfeit to bind the match.

Charlie Weil is in training to meet Eugene Tremblay for the Canadian lightweight championship, catch as catch can, in a few weeks.

It is reported that Lily Langtry is the purchaser of Meddler. We wish Lily would instruct her press agent to keep out of the sporting columns.—Chicago Record-Herald.

The High School Football Team left for Quebec last night. It will play the Quebec High School this afternoon. Mr. Powter was in charge of the team.

Buffalo, with a champion Eastern League team, is a good baseball city, but it is doubtful if it would be with a tail-end National League team within its portals.—New York Journal.

The St. Louis Nationals refused to play the deciding game for the championship of St. Louis with the Americans unless they were given a share of the gate receipts and the match has been declared off.

The weekly general meeting of the Athenaeum A. A. A. will be held at Roffey's, corner Atwater and St. Antoine streets. Friday evening, Oct. 21, at 8.30 o'clock sharp. A good attendance is requested.

Jack Walsh announces his willingness to meet any man in Canada at 145 pounds. His address is 477 Wellington street, and he would be glad to hear from anybody anxious to test his prowess in the ring.

Philadelphia Jack O'Brien, whose real name is Joseph Hagen, is easily the wealthiest fighter in the world. He has $80,000 in the bank and owns twenty-one houses in the Quaker City. His present home is in the best residential part of Philadelphia, and the fighter lives like a wealthy merchant.

Benny Yanger may be up against a tougher proposition than he thinks when he faces Maurice Sayers at Milwaukee the latter part of this month. If Benny's shoulder is still weak and he thinks he is picking out easy meat he is wrong.

Carl Lundgren, the Illinois youth, leads the Chicago National pitchers with eighteen games won and nine lost. He also batted .222. In his first fifteen games Chicago's new outfielder, Schudte, made fifteen hits, including three doubles, a triple and a homer, for .375.

New York, Oct. 20.—Following closely his inauguration of a dancing class, composed of the young members of his congregation, Rev. John L. Scudder, pastor of the First Congregational Church, Jersey City, has startled his flock by announcing that he will add to the dancing diversion that of boxing. Scudder has engaged as boxing master Patrick Cahill, a saloonkeeper.

The Marlboros expect to have Pete Charlton, Frank McLaren, E. Winchester, H. Birmingham, Bert Brown and Lal Earle of last year's team with them this season, and Roy Armstrong of Peterboro', Hall, an eastern player, Redpath of the westerns, and Tyner and McKernan of Barrie. The latter two goalkeepers are the new men available.

New oYrk, Oct 19.—Prize money amounting to $35,000 will be distributed by the National Horse Show Association of America during the twentieth annual exhibition which will take place in Madison Square garden, Nov. 14 to 19, inclusive. Several new classes have been added for competion this year, including an increase of $3,000 in the prize list.

The annual rifle competition of the McGill Rifle Association will be held Saturday at the Pointe aux Trembles ranges, beginning at 10 o'clock. The competition will consist of twenty-one rounds each, a string of seven being fired at each of the following ranges. 200 yards, 500 yards and 600 yards, shooting in any position, with head to the target.

The Diamond Sculls won by Lou Scholes, of Toronto, will shortly be turned over to City Treasurer Coady for safe-keeping. They have been removed from Ryrie's to Scholes' hotel, and are now on exhibition there. Lou would like to keep them at the hotel, but he is afraid of fire and burglars, and so will send them over to Mr. Coady at the end of the week.

The Palma trophy, after having been won by the American team in 1903, was returned to Great Britain because of the allegation that the Americans had shot with a special make of barrel. The British Rifle Association did not ask for return of the trophy, but the National Rifle Association decided that it would not keep it if there was any question as to the genuineness of the victory.

In his report of the doings of the Vancouver Cricket Club to Secretary John A. Hall, of the Canadian Cricket Association, Alexis F. R. Martin, an old Interantional player, writes that the team had a good season financially and on the field. The captain, L. O. Garnet, is an old M.C.C. man. The report shows that L. York made two centuries this year. Mr. Martin says that York, who is twenty-six years of age, would strengthen any Canadian team he ever saw. On this recommendation York will in all likelihood be found on next year's international.

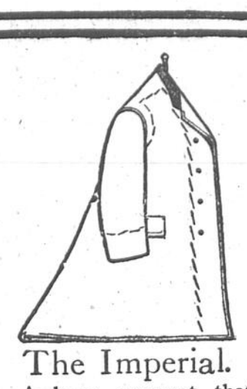
M'GINNITY'S GREAT WORK.

Joe McGinnity, the iron man of New York, was the best pitcher in the National League last season. The proof thereof is on the figures, which, in this case at least, do not prevaricate. Sir Joseph worked in forty-four decisive games last season, and parts of seven or eight more games. Of the decisive battles he won thirty-two and lost but nine, tying the rest. This gave him a better winnig average than any other National League slabman, while he allowed fewer runs to the game than anybody else.

Of course, McGinnity had a great team behind him, but his work stands out distinctively and in high relief as the best he ever did, and the best done by any National Leaguer in 1904.

Of the other New York pitchers, Mathewson worked through as many games as McGinnity, and won almost as frequently. He struck out more men than Joseph, and fewer hits were made off him, and the only explanation of his failure to win as many battles must lie in the fact that he is not the general, with bases crowded, that the Iron Man is.

Taylor did the best pitching of his career. Wiltse, though only working in fourteen full games, proved himself a corker, while Ames and Elliott got very little show.



The Imperial.

A boxy overcoat that comes just below the knee.

For medium height men —those whose fondness for rich, dressy fabrics and neat snappy style make them especial friends of the Imperial.

The form is carefully hand-tailored on resistable shape of hair-cloth and shrunken canvas, moulded by the hot iron, afterward made shape permanent by much skilful stitching.

The skirt is boxy—the velvet collar and shoulders fit neatly and closely; yet they are loose and comfortable and give easy movement to the arms.

Made of Isaac Carr's famous West of England Vicunas and Meltons; Brown Brothers, Galashields, Scotland, heavy Scotch Tweeds and winter Cheviots. Price $15—$30.

CADETS TO PARADE.

The cadets of Mount St. Louis and St. Patrick's at Champ de Mars on Saturday afternoon will be a strong attraction, not only for friends of the members, but for those citizens generally who have a liking to see the youth of the city grow up hardy, healthy, useful sons of the Dominion. The occasion is the annual drill inspection for the usual trophies, and it is no secret that in the opposition camps there has more than usual exertions been put forth to reach as nearly as may be the pinnacle of perfection.

Lieut.-Colonel Carrieres and Captain Bonham will be inspecting officers, and not the least interesting item on the afternoon's programme will be the presentation by Lieut.-Col. Burland, of the prizes won at the last competition, viz.: the cup to St. Patrick's, second trophy, Mount St. Louis, first team; third trophy, Mount St. Louis second team.

The muster is set down for three o'clock.

SELLING OF HAY ON THE WHARF

Objections Raised at Meeting of Chambre de Commerce Yesterday.

The modification of the plans for the permanent freight sheds on the harbor front occupied the attention of the Chamber of Commerce yesterday afternoon. Mayor Laporte said at the meeting that he favored the modification. The Harbor Commission had entered upon the erection of two-storey buildings without providing practical means for reaching the second storey. He, however, did not know that the work of reconstruction was interrupted. He advised the Chamber of Commerce to write to the chairman of the Harbor Commission asking for information.

President Brault considered it would be useless to apply to the Harbor Commission when the Mayor, who was a member, could say nothing about it. He thought it would be better to apply to the Government.

The members agred to this, but decided to apply to the Harbor Commission also.

The question of the prohibition of hay traffic on the wharves was discussed. In answer to a request by the Chamber the Harbor Master said that he had advised the commission to impose a tax of $50 for the season on five or six dealers who had been using the wharves as a hay market, but that the Board had done nothing. He considered this unfair to the merchants of the city who paid high rent and taxes for similar privileges. In his opinion the city of Montreal should put a stop to the traffic.

Mayor Laporte said that the regulations imposed no special tax for the selling of hay, and the Chamber decided to notify the City Council.

TREATMENT OF PILES.

Permanence of Cure the True Test.

Many so-called pile remedies will afford the user slight temporary relief, and the majority of those afflicted do not expect more than this.

The average sufferer, after having tried every preparation recommended for the cure of piles, comes to the conclusion that there is no cure except by an operation, and rather than undergo this "last resort" he suffers on, resigned to the situation, so far as may be. The attention of those interested is invited to the following experience.

"After ten years of suffering from blind, bleeding and protruding piles, and after using every remedy I could hear of without any benefit, I finally bought a fifty-cent box of Pyramid Pile Cure, and used it with such good results I bought next a dollar box, which finished up the job. That was nearly six years ago, and as far as piles is concerned I am cured, and have never felt a symptom of them since.

"Many others have used this remedy by my advice, and with the same results, and I always recommend it to sufferers with piles." C. H. Potts, Burlington, Kans.

Testimony like this should convince the most skeptical the Pyramid Pile Cure not only cures, but cures to stay cured. It is in the form of a suppository, can be applied in the privacy of the home, directly to the parts affected and does its work quickly and painlessly.

Druggists generally sell this famous remedy for fifty cents a package and sufferers are urged to buy a package now and give it a trial to-night. Accept no substitutes.

A little book describing the causes and cures of piles is published by the Pyramid Drug Co., Marshall, Mich., and same will be sent free to any address for the asking.

SARNIA JURY APPEALS TO RAILWAY COMMISSION

Wants it to Consider the Best Means of Ventilating St. Clair Tunnel to Prevent Loss of Life.

Sarnia, Ont., Oct. 20.—The inquest on the recent tunnel tragedy was concluded before Coroner Dr. Wm. Logie. Twenty-two witnesses in all were examined, and the following verdict was rendered: "We, the jury empanelled to enquire into the death of Daniel J. Gillies and others, find that Daniel J. Gillies came to his death by suffocation from gas in the St. Clair tunnel, October 9, 1904, while in discharge of his duty as a tunnel brakeman for the St. Clair Tunnel Company. Your jury also are of the opinion that if the company had better equipments for ventilation it would, we believe, have prevented the accidents that have occurred since the opening of the tunnel for traffic, and we, your jury, strongly urge that the railroad commission appointed by the Government investigate what means the St. Clair Tunnel Company should adopt to prevent the loss of life in the future."

Halifax, N.S.—The death occurred on Saturday morning of Mrs. Mary Wiggins, widow of the late Geo. Wiggins, and daughter of the late Wm. Colsell King, for many years rector of Windsor.

Amherstburg, Oct 20.—The ratepayers voted on a by-law to raise $6,000 to purchase a new pump for the waerworks. The by-law received very little support being defeated by twenty-two for, 251 against.

Quebec, 20—Messrs. P. A. Choquette, A. Lavergne and A. Taschereau, will practice their profession as advocates under the firm name of Choquette & Lavergne and Taschereau, at No. 97 St. Peter Street.

Halifax, N.S. Oct. 20.—E. F. Smith, the well known stock broker, is now in the United States, but his assignment is in the hands of the official assignee, Geo. E. Faulkner. The liabilities are heavy.

St. John's, Nfld., Oct. 20.—The Labrador mail steamer Virginia Lake, concerning which there has been much anxiety, is safe. She was detained by the severe hurricane that swept the coast of Labrador last week. The damage done by the hurricane was great.

Ottawa, Oct. 20.—Rev. Canon McCarthy, late parish priest of St. Bridget's Church, is seriously ill at the presbytery. Dr. C. F. Martin, professor in McGill University, and specialist in lung and stomach diseases, was called in consultation.

Ottawa, Oct. 20.—Judge O'Meara gave judgment finding Charlse Kelly and Albert Hillman guilty of keeping a common gaming house. The prisoners were remanded for sentence till Dec. 15. Kelly and Hillman were allowed out on $1,000 bail.

Whitby, Oct. 20.—A prominent citizen and pioneer has just passed away in the person of Mr. Arthur M. Richardson. Deceased was born in Pickering township in 1837, and after many years as a successful farmer he retired and removed to Whitby seventeen years ago.

Peterboro, October 20.—Peterboro is the largest town in Ontario, the present population being 14,175, as compared with 11,548 in 1903. An increase of 1,781 was brought about by the addition of the village of Ashburnham to the town, while the natural growth is responsible for the difference.

North Sydney, N.S., Oct. 20.—(Special.)—Another fatal accident occurred at Sydney Mines last night. A boy named Bernard McMillan was returning from work at the winning pit and fell off, the car passing over his body and mangling it fearfully. He was only fourteen years old. He leaves a father and mother and three brothers.

Preston, Ont., Oct. 20.—Last night the buildings of the Metal Shingle Company were totally destroyed. The loss is about $30,000; insurance unknown. The workshops occupied the former power house of the Galt, Preston and Hespeler Street Railway. The loss is serious, as the company are rushed with orders. The cause is not known.

Brockville, Ont., Oct. 20.—At the Assizes Court Mark Forsyth, of Kemptville, obtained a verdict against the C.P.R. for injuries sustained in August, 1903, near Kemptville Junction. Forsyth alleged that while driving over the plaintiff's crossing the horse took fright at a pile of ties unloaded on the highway by the company's employes.

London, Ont, 20.—London, St. Thomas and the Talbot settlement in Elgin County are soon to have a visit from two distinguished personages, Lord and Lady Talbot de Malahide, of Ireland. Lord Talbot is a relative of Col. Talbot, founder of the Talbot settlement, the centennial of which was last year celebrated at St Thomas, and with Lady Talbot he will spend some time in the district which bears his name.

Hamilton, Oct. 20.—As a result of the investigation by a special committee of the Board of Education into the case of Miss Malcolmson, a teacher in the Cannon Street School, it was decided to recommend the board to stand by Miss Malcolmson in her appeal against the decision of the Police Magistrate, who fined her $2 last week for too severely whipping a boy named Kelly. Evidence given for the teacher was to the effect that she had not unduly punished the boy, who had played football shortly after being whipped.

Toronto, Oct 20—Charles Horace Gooderham is dead, aged sixty, the youngest son of the late Wm. Gooderham. Till twenty years ago he had charge of the millinery interests of Gooderham and Worts at Mansonville, but he then moved to Toronto, where he has since been prominent in various financial institutions. Mr. Gooderham at the time of his death was a director of the Canada Permanent Mortgage Corporation, the Confederation Life Insurance Company and the War Eagle and Centre Star Mining Companies. Until a few years ago he was one of the Board of Regents of Victoria University. Mr. Gooderham has also for many years taken a deep personal interest in the Home for Incurables, of which he was a trustee.

New mainspring in your watch from $1.00; guaranteed one year. R. Hemsley, Watchmaker, 255 St. James Street. —Adv.

By a majority of 10 to 2 a jury has awarded $1,000 to Mr. B. Hugman, who sued the town of Westmount for damages for injuries sustained by his wife, who slipped and fell on a Greene ave. sidewalk last winter. The chief contention was that the accident was due to the slippery state of the sidewalk, and that the town ought to have provided a safe passageway for pedestrians.

GRAND TRUNK ASKS FOR LESS TAXATION

Company Considers Point St. Charles Shops Are Assessed Too High.

The Finance Committee held a special meeting yesterday afternoon to consider the complaint of the Grand Trunk Railway in regard to the overtaxation of its works at Point St. Charles. The Company contended that its property is overtaxed by $199,000 and asked that a reduction be granted to that extent, that the amount of its taxable property stand at $1,000,000

The committee did not agree with this view, but offered to keep the taxation at its present figure for a period of twenty years.

The difference of $199,000 occurs in connection with the rails, engines, boilers and motive power at Point St. Charles. The city had assessed these at $229,000, but the company considered $30,000 to be quite sufficient, as the tracks and other material were movable

Mr. William Wainwright wrote that it would be well to settle the question amicably, as the company was preparing to extend its shops at Point St. Charles.

Mr. R. S. Logan, assistant to the general manager, pointed out that the company was doing a large amount for the working people of Montreal. The company was only making a reasonable request when it asked to have its property assessed on a basis of one million dollars.

Ald. Sadler figured out that the taxable property of the company was $1,053,100. To this should be added $52,500, the value of the land the company had an option on at Point St. Charles, making a total of $1,105,600. Ald. Sadler thought that upon this the committee would be willing to grant a fixed taxation for twenty years, provided the case of overtaxation were withdrawn from the courts.

Chairman Vallieres said that the city would only grant fixed taxation in return for some benefit to the workingmen. He wanted to know how many men were to be employed in the new shops.

Mr. Logan said he did not know, but the company would employ as many men as it required. About $150,000 would be spent on the new shops.

The matter was left over until the next meeting.

THE DISHONESTY OF SOME FRUIT DEALERS

Montreal Buyer Duped but Only for a Brief Space, When He Got His Money Back.

The fruit inspectors are kept pretty busy on the wharves at present examining the apples shipped abroad. Despite the Government prosecutions for fraud they are continually coming across shipments marked falsely, a flagrant example of which came to light yesterday.

A Montrealer dealer bought a car load of apples from a prominent apple dealer in Trenton, which were supposed to be number one quality. He paid for them without examination and they were duly delivered here. On arrival he noticed that the mark had been evidently changed, so he refused the lot. He demanded his money back and the Trenton dealer to avoid exposure refunded the amount and sent a man down to re-mark the goods as number two standard.

The inspectors examined the lot and found them number two and now the apples go to England with the telltale erasures and remarkings to notify the merchants there that all Canadians are not honest.

NORWAY WANTS BEST OF CANADIAN APPLES

Canada's Commercial Agent Reports Numerous Openings for Trade in That Country.

Ottawa, October 20.—The Department of Trade and Commerce this morning received a report from C. E. Sontum, Canadian agent in Norway, in which he states that Norway has entered into a parcel post convention with the United States, and suggests that Canada should follow suit. Iceland, which has been isolated from the rest of the world heretofore is now to be brought into constant touch with Europe by means of a cable with Norway. A contract has been entered into to lay the cable line and the work is to be commenced immediately. Canadian apples of first rate quality are in constant demand, notwithstanding the high rate of duty. A market can be built up so long as only first class stock is sent over. Baldwins are principally required. In view of the short crop of hay, he has placed Canadian exporters in touch with buyers, and thinks there are excellent prospects for Canadian hay. Mixed clover and timothy is required, not coarse hay. Scarcity of water in Norwegian rivers may have the effect of reducing the output of pulp and lead to an increasing demand for Canadian pulp in the foreign markets.

DIGBY, N.S., SCHOONER WAS ABANDONED AT SEA

Terrible Experiences of the British Vessel Syanera During Recent Gales on the Atlantic.

New York, Oct. 20.—After having been buffeted by wind and wave for seven days, until only her battered hulk remained, the British schooner Syanara was set on fire and abandoned at sea October 18, off Georgetown, S. C. Her commander, Captain Morehouse, and four members of the crew arrived here yesterday on the Clyde line steamer Apache, which, after rescuing the five men, set fire to the hulk. Two sailors had been taken from the wreck on Monday by the British steamer Barrister.

The Syanara left Savannah, Ga., on Tuesday, October 11, with a load of timber for Digby, Nova Scotia, and on Wednesday began her battle with the gale, which finally compelled the cutting away of three masts in order to keep the vessel righted. This was on the third day of the storm, and on the fourth day, Saturday, the seas washed over the dismantled hulk, forcing her crew to take refuge on the after house. That afternoon Geo. Rudolph, the mate, and two seamen were torn from the wreck by a heavy wave, but after a hard struggle all were rescued. The storm began to abate on Sunday, and when the Barrister was sighted the five who arrived here felt that there was a possibility of her reaching an American port, and declined the aid then offered.

MINARD'S "KING OF PAIN" LINIMENT

Stanstead Junction, P.Q., 12th Aug., 1897.

MESSRS. C. C. RICHARDS & CO.

Gentlemen,—I fell from the bridge leading from a platform to a loaded car while assisting my men in unloading a load of grain. The bridge went down as well as the load on my back and I struck on the ends of the sleepers causing a serious injury to my leg. Only for it being very fleshy would have broken it. In an hour could not walk a step. Commenced using MINARD'S LINIMENT, and the third day went to Montreal on business and got about well by the use of a cane. In short I got along very well. I can sincerely recommend it as the best Liniment that I know.

Yours truly,
C. H. GORDON.

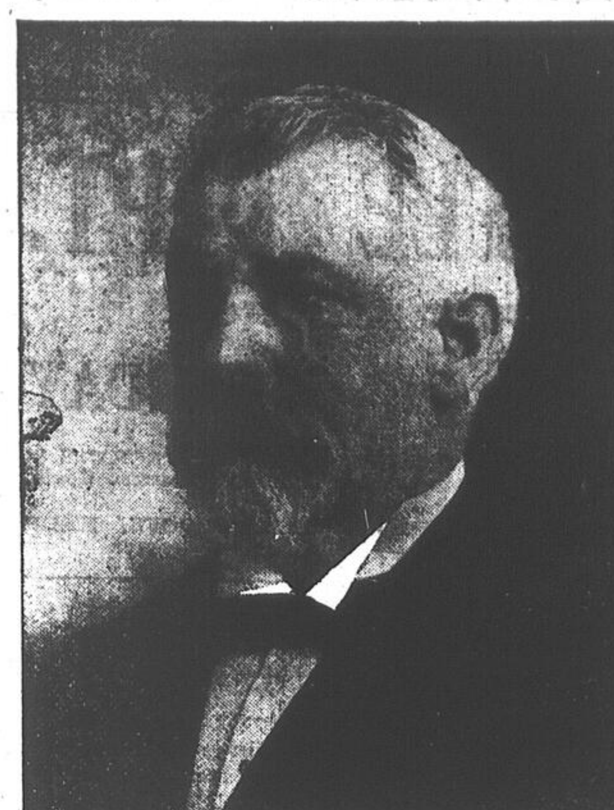
The Political Situation in Canada.



HON. W. S. FIELDING, MINISTER OF FINANCE.

The most famous newspaper man on the floor of the House of Commons is Hon. W. S. Fielding, Minister of Finance, and member for Shelburne and Queens, N.S. His newspaper career began in his native city of Halifax, where he became connected with the Morning Chronicle, ultimately becoming managing editor, from which position he retired in 1884. He was also Nova Scotia correspondent for the Toronto Globe.

But before this he had for years taken an active part in politics and attained considerable fame as a platform orator. He contested Halifax county for the Nova Scotia Assembly at the general election of 1892, and was elected. He made his mark in the House at once, so emphatically that when the Holmes-Thompson Government resigned that same year he was offered, but declined, the premiership. He afterwards entered the Popes administration as a minister without portfolio.

Hon. W. S. Fielding became Premier of Nova Scotia in 1884, which position he held up to 1896, having sat for Halifax throughout and acted as Provincial Secretary also. In 1896, however, he resigned and joined the wonderfully brilliant coterie of Pen-statesmen who entered the Laurier administration accepting portfolio of Minister of Finance, which he has since held with conspicuous ability. He was elected to the House of Commons for Shelburne and Queen's by acclamation and was re-elected in 1900 by a majority of 893 over Mr. J. J. Ritchie. Mr. Ritchie is again his opponent on the present occasion.

The new Minister of Finance signalized his entry into Dominion politics by introducing a new preferential tariff scheme in 1897, and moved resolutions during the session of 1898, amending it so as to make it an Imperial British preference. He visited England in 1897 to float a new Canadian loan, which was obtained on better terms than any ever before secured by Canada. He was one of the Canadian delegates to the Colonial Conference held in London in 1902, and attended the coronation of King Edward with Sir W. Laurier.

Initiative and courage, combined with admirable precedence have been the characteristics of Mr. Fielding's administration of the Department of Finance. Each session of Parliament has witnessed glowing scenes of enthusiasm when he made his budget speechs, and unfolded the tale of prosperity of both people and Government, in the creation of which he has taken so active a part. The inspiring scenes which marked the introduction of the British preference in 1898 will long live in the memory of those privileged to witness it. Almost equally enthusiastic was the outburst of patriotic spirit which marked the reception of his German surtax plans in 1903, to combat German trade hostility, and the "anti-dumping" provisions of his speech at the last session of Parliament.

Besides being a masterly administrator, Mr. Fielding is one of the best speakers in Parliament, and as a debater has few equals in the country.

Hon. W. S. Fielding is a governor of Dalhousie University, and was for some years president of St. George's Society of Halifax. He is by religion a Baptist.

LEEDS LIBERALS.

Brockville, Oct. 20.—(Special.)— The Liberals of Leeds met in convention at Delta yesterday and nominated W. J. Gibson, of Gananoque, as their candidate for the pending election for the House of Commons. Several names were proposed, but only W. J. Gibson and F. C. Fredenburg, of Westport. Mr. Gibson is engaged in business at Gananoque and will be a strong candidate.

AN OPPONENT TO MR. POWER.

Quebec, Oct. 20.—(Special.)—The Conservatives of Quebec West have at last agreed upon a candidate to oppose Mr. William Power. Mr. Lawrence Stafford, advocate, of this city, who already has been defeated in three previous political contests, two in the county of Portneuf and one in the county of Lotbiniere, has been chosen.

HON. MR. PATERSON AT GALT.

Galt, Ont., Oct. 20.—(Special.)—Hon. Wm. Paterson, Minister of Customs, addressed a meeting in the Opera House here last night in the interests of the Laurier Government, and George Laird, Liberal candidate in South Waterloo. The meeting was well attended and the enthusiasm was marked. The unanimous opinion of those present was that Hon. Mr. Paterson's address was the fairest and finest political address ever heard in Galt. He was in great fettle, despite his arduous and exacting work of the last month, and his address was studded with brilliant passages.

DR. ROSS' ELECTION SURE.

Quebec, Oct. 20.—(Special.)—Hon. Rodolphe Lemieux, Solicitor-General, and Senator Choquette, have returned from St. Flavie, county of Rimouski, where they addressed a large meeting yesterday in the interest of Dr. Ross, the Liberal candidate. Mr. William Price, the Conseravtive candidate, was represented by Dr. Gauvreau and Mr. Belley. Three thousand electors were at the meeting and listened to the addresses of Hon. R. Lemieux, Senator Choquette, Senator Fiset, and the local member, Mr. A. Tessier. The meeting was a Liberal success and leaves no room for doubt of the Liberal candidate's election.

MR. BERGERON AT VALLEYFIELD

Valleyfield, Oct. 20—(Special.)—Messrs. Bergeron, Plante and Laurendeau addressed a Conservative meeting here last night. Aa fair crowd was present to hear the addresses.

ENTHUSIASM FOR PICHE.

Mr. Camille Piche, Liberal candidate in St. Mary's division, held an enthusiastic meeting last evening at his central committee rooms, 1232 St. Catherine street. The occasion was the opening of the rooms, and the electors of the division responded loyally to the call. Not only was the large hall itself crowded with enthusiastic voters, but the audience extended through the doorway and blocked the pavement outside. Of the speakers, Mr. Piche and Senator Cloran were given an especially warm reception.

Mr. Nazaire Pulze occupied the chair, and the entire staff of the committee were present, including Messrs. Hormisdas Lapointe, sr., Joseph Dionne, Joseph Bourgelas, Joseph Bariteau, J. Desjardins, D. G. Lapointe, G. H. A. Pellerin, Theophile Trudeau, J. B. Charbonneau, Henri Dubord, C. B. Lafond, H. F. Bellemare, H. Lapointe, jr., Aristide Rivet, F. X. Charbonneau.

Senator Cloran opened the meeting by an address brim full of patriotism. He enumerated the benefits bestowed on the country by the great Canadian, Sir Wilfrid Laurier, and exhorted the electors to cast their votes for Mr. Piche on November 3.

The candidate followed Senator Cloran. Mr. Piche was received with a storm of applause, those outside the hall clamoring for him to make himself heard there as well as inside. Mr. Piche responded with an address that was full of eloquent allusios to the history of the Canadian people. Then passing on to the present day politics of Canada, he showed the merits of the Liberal administration, evidenced in the prosperity that reigns on every side.

Messrs. J. Decarie, G. A. Lacombe, and R. Latulippe followed the candidate on the rostrum.

ST. CUNEGONDE FOR RIVET.

The school hall on Vinet street, St. Cunegonde, was too small to hold all who wanted to hear Mr. L. A. Rivet speak last evening. Nearly two hundred people gave him a splendid reception.

The Hochelaga Liberal candidate began by referring to the last election, when he was returned by a majority of 250 votes. He declared that that majority would be doubled on this occasion. His reason for believing so was that the Liberal Government had brought the country prosperity unrivaled in the history of Canada. He criticised the speeches of the leader of the Opposition, particularly that at the Monument National.

Discussing fiscal affairs, Mr. Rivet said that Sir Wilfrid Laurier in 1896 had declared that the protectionist policy then in force meant ruin for the country, and that if returned to power he would establish a tariff which would give satisfaction to the whole country. This he had done, and the country was benefited from that legislation.

Mr. Letourneau, of St. Henri, Dr. Charbonneau, Mr. Bazin, and Dr. Poupart also spoke.

MR. BORDEN AT SHERBROOKE.

Sherbrooke, Que., Oct. 20.—(Special.)—Mr. R. L. Borden arrived here yesterday at noon, and was given an enthusiastic welcome by the Conservatives of the city and district. He was met at the Grand Trunk station by a deputation of citizens and escorted to his hotel.

In the evening a mass meeting was held at the Clement Theatre, where considerable enthusiasm prevailed. hen the leader and Dr. orthington, the Conservative candidate and his party entered the hall, the applause lasted several minutes. Mayor J. O. Canurand of Sherbrooke, presided.

Mr. Borden dealt at some length with the Grand Trunk Pacific scheme and the tariff. He covered very much the same ground as in his speeches at Montreal and Quebec, and was followed with close attention by his auditors.

In concluding his remarks, Mr. Borden stated that the prospects of the Conservative party were of the brightest. The reports which he had received, were very encouraging, and he believed that on November 3 from British Columbia to the Atlantic the country would once more turn to the Conservative party. They would get good tidings from every province, he felt sure. Mr. Borden was confident that on the evening of election day the good news would be wafted to him over the wires that Dr. Worthington had met with the approval of his electors.

Dr. orthington spoke at some length on the political questions of the day and was favorably received. Hon. Mr. Taillon, Mr. Rufus Pope and Mr. Bumbray also spoke. Mr. Borden left by the C.P.R. at 10.30.

SHERBROOKE LIBERALS CONFIDENT.

Ascot Corner, Oct. 20.—Three hundred Liberals met at Ascot Corner yesterday. Mr. Knight, the Liberal candidate, Dr. Pelletier, M.P.P. and Mr. John Leonard addressed the meeting The general feeling here is that Mr. Knight will be elected by a good majority.

HON. R. LEMIEUX AT LACHINE.

A meeting will be held a tLachine this evening in favor of the candidature of Mr. L. A. Boyer. Hon. R. Lemieux and others will speak.

DEBATE AT COTE DES NEIGES.

Mr. S. Deguise presided at a joint meeting at Cote des Neiges last evening. The speakers were Messrs. Cousineau, D. A. Lafortune, Lussier, Emile Demers, Monk and Boyer.

MR. CHARLES MARCIL'S CAMPAIGN.

Metapedia, Que., October 20.—(Special.)—Mr. Charles Marcil yesterday addressed a mass meeting at St. Andre de Restigouche, one of the new parishes of the Metapedia Valley. He was received with every marq of sympathy and encouragement. To-day Mr. Marcil will visit St. Alexis. On Monday next, he will speak at a great Liberal assembly at Campbelltown, in company with Hon. m. Pugsley, Solicitor-General of New Brunswick.

LAURIER CLUB TO-NIGHT.

A grand rally of the Laurier Club will be held to-night at 8 p.m., to organize the Laurier demonstration which is to take place next Monday at Sohmer Park.

SCORED MR. COUPAL.

The magnificent weather yesterday made possible the gathering together of a large number of electors at the open air meeting at Laprairie in the interests of Mr. Roch Lanctot, the Liberal candidate. Mr. Lanctot was assisted by Hon. Raymond Prefontaine, C. Cherrier, M.P.P., and Mr. Marc Sauvalle, of Montreal.

Mr. Lanctot himself, opened the meeting with an excellent address. He presented himself as a warm supporter of Sir ilfrid Laurier, and challenged his opponent, Mr. Coupal, who is running as an independent, to come plainly before the electors, with a statement as to his position. He showed the necessity of givingthe present Government as strong a following as possible in order that they might be able to carry out their energetic railway policy. The farmers of Laprairie felt in their own prosperity the results of Liberal administration. Such a party was the ont to support rather than the Conservative, to whom this opponent really belonged although he had not the courage to come out and frankly say so.

Mr. Coupal then endeavored to make his position clear, with only partial success. hile his opinions apparently leaned towards the Conservative platform, they were so indefinitely expressed that the audience seemed unable to determine what policy he intended to follow if elected.

Mr. M. Sauvalle replied to Mr. Coupal by drawing a sharp contrast between the frank way in which Mr. Lanctot placed his opinions and intentions before the people and the apparent fear of Mr. Coupal to commit himself to any statement. Mr. Lanctot was justified in his allegiance to the Liberal party by the great advance made by Canada under it, the great public works projected and the brilliant future they were opening up for it.

Mr. Patenaude then addressed the meeting in favor of Mr. Coupal, and Mr. Cherrier for the Liberal candidate.

Hon. R. Prefontaine followed, receiving a magnificent reception. He took up first, the question of protection and showed how, while this was the great cry of the Conservatives the Liberals had really been the party who protected the industries of Canada as was shown by their great advance in the last eight years. The Conservative party, he said, had, in Laprairie and Napierville, a candidate who seemed ashamed to take their name.

Mr. Charles Beaubien spoke briefly in support of Mr. Coupal, whom he designated as an independent candidate.

DEBATES IN JACQUES CARTIER.

A joint meeting was held on Tuesday evening at Notre Dame de Grace, in Jacques Cartier, on Tuesday evening, which was very satisafctory to Mr. L. A. Boyer and his supporters. Mayor J. De Corrie presided, the Liberals being represented by Messrs. L. A. Boyer and J. De Corrie, jr., while Mr. F. D. Monk and Mayor De Corrie, of Lachine, represented the Conservatives. The sympathies of the meeting appeared to be warmly with Mr. Boyer and Mr. De Corrie, who were loudly applauded. An announcement that some time ago orders had been issued for the construction of the bridge over the canal at Atwater Avenue, was received with strong signs of approval.

The same speakers also held debate at Godin Hall, Cote des Neiges, last night.

YESTERDAY'S NOMINATIONS.

The nominations to date are: Liberals—J. E. Marcil, Bagot; D. B. Meigs, Missisquoi. Conservative — L. Stafford, Quebec West; Edward Kidd, Carleton County; Capt. Clive Phillips, Woolley, Nanaimo.

There are also two withdrawals, Mr. Labourg in Pontiac, and Mr. Halley in St. Lawrence division.

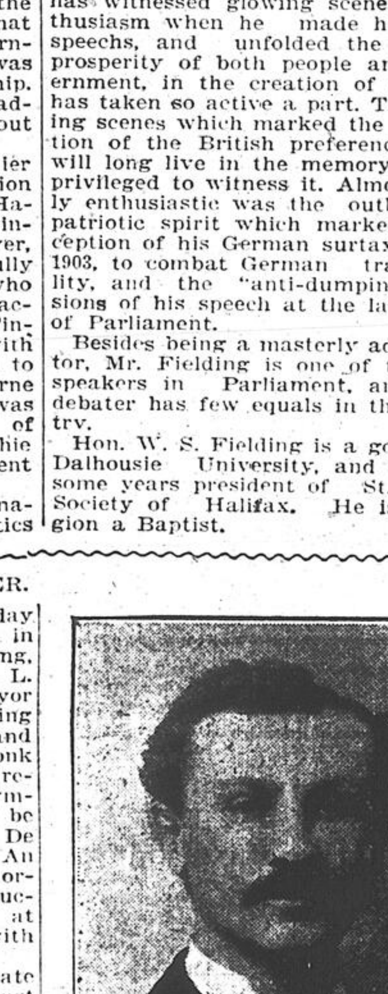
MORRISON OPENS CAMPAIGN.

Mr. M. J. Morrison, the Conservative candidate in St. Ann's, opened his campaign last night with a meeting at Engineers' Hall, Point St. Charles. He was assisted by Mr. Donald Macmaster, K.C., who made an excellent speech.

Dr. Sharp presided, and first called upon the candidate, who spoke briefly. In opening Mr. Morrison expressed his devotion to the principles of Conservatism, which he declared he would support so long as the Conservative party did, and if they failed he would resign and again appeal to the people. He then dilated at some length upon protection, which he regarded as the thing which had made Canada w'at it is today, and which, if the tariff were raised, would still further increase our prosperity. He regarded the Liberal tariff policy as a mongrel one. Mr. Morrison said he wanted a clean, open fight, devoid of personalities, and he would be prepared to meet Mr. Gallery on the platform at any time.

Mr. Donald Macmaster devoted most of his time to a discussion of the Grand Trunk Pacific project. He closed with a patriotic peroration, lauding Mr. Borden as the man who would see that Canada took its proper place on this continent while doing its duty to the Empire. This was the policy that Mr. Morrison, as one of the "men behind Borden," would support.

Short speeches were also given by Messrs. Frank Curran, S. Carmichael, and W. O. Smith.



MR. J. A. C. ETHIER.

Joseph Arthur Calixte Ethier is a young man of thirty-six. As his name indicates, he is a French-Canadian, born at St. Benoit, county Two Mountains, which constituency he has represented since 1896. Educated at Montreal College, he adopted the profession of law and from 1888 to 1895 he acted as deputy prothonotary for the district of Terrebonne, and subsequently was appointed Crown prosecutor for the same district. Besides the study of national politics, he has taken a deep interest in municipal economy and has been Mayor of St. Scholastique twice. He is secretary-treasurer of the rural municipalites of St. Scholastique and St. Colombin, and secretary of the Mutual Assurance Company of the parish of St. Scholastique. Mr. Ethier, when returned at the general election of 1896, had a very narrow victory over Mr. Jos. Girouard, being elected by a majority of but fourteen; however ere the general election of 1900 he had considerably strengthened his position and was returned by a majority of 131 over Mr. Girouard. His friends of Two Mountains are confident that on Nov. 3rd he will yet more increase his lead.

MR. FOSTER AT WHITBY.

Whitby, Ont., Oct. 20.—Hon. George E. Foster held a meeting here last night in support of Mr. Peter Christie, the Conservative candidate in South Ontario. He denounced the G.T.P. as an outrageous arrangement for the benefit of grafters, favored Government ownership, and promised, if the Conservatives won, to reform the "vicious system of the Intercolonial Railway."

BOULEVARD ST. PAUL LIBERALS.

The Liberals of Boulevard St. Paul will hold a mass meeting this evening in support of their candidate, Mr. Alphonse Boyer. Among those who will speak will be the candidate and Messrs. L. Charbonneau, P. Duchesne, Aubertin, and Arthur Geoffrion.

HARRIS CLUB OFFICERS.

The elction of offiecrs of the Harris Club resulted as follows:—Henry Campbell, president; R. Lindsay, vice-president; L. Boyer, secretary; N. Wilson, treasurer. Mr. Jos. Marchand was unanimously appointed a director of the club, the first French-Canadian to occupy this charge. The club will hold a banquet on October 22.

MR. H. PRICE DROPS OUT.

Mr. H. Price, the Conservative candidate in Montmagny, has withdrawn, leaving the field to Mr. A. Lavergne. It is said Mr. A. Bender may again come forward in the Conservative interest.

Golden Wedding

The golden wedding was celebrated last night of Rev. John McKillican, Congregational minister of this city, and his wife, nee Parker. The beautiful ceremony took place at the home of the venerable couple, who reside with their son-in-law, Mr. E. A. Wright, 942 Dorchester Street.

Mrs. McKillican and her daughters were assisted by Mrs. T. Y. Foster and Mrs. F. J. Day, of Sherbrooke; Miss Bryson, Miss Nora Pedley, Miss Mary Johnston, Miss Edith Upton, and the Misses Gamble. More than two hundred relatives and friends were present.

In the course of the evening Rev. Dr. E. Munson Hill, of the Congregational College, presented an illuminated address to Mr. and Mrs. McKillican, together with a purse of gold, on behalf of their friends. Mrs. Lemuel Farwell, of Sherbrooke, who acted as bridesmaid at the wedding half a ceutury ago, was present.

Mr. and Mrs. McKillican were married in the Congregational Church at Danville, by the pastor, Rev. Amine Parker, father of the bride. The groomsman was Mr. James McKillican, brother of the groom. In his earlier years Rev. Mr. McKillican was a missionary and agent for the Canada Sunday School, travelling from Sarnia to Prince Edward Island. He organized more than 1,200 schools, with more than 6,000 teachers, and 40,000 scholars, and delivered 8,000 sermons and addresses.

Rev. Mr. McKillican was born near Vankleek Hill, Glengarry county, in 1824. After taking a four years' course in the Toronto Congregational College, he was called to the pastorate of the churches his father had superintended before him. About fifteen years ago Mr. McKillican retired from public life and settled with his family in Montreal to enjoy well-earned repose.

For the Cook.

CHILI SAUCE WITHOUT COOKING.

Pour boiling water over a half-peck of ripe tomatoes, using a colander, so that they do not stand in the hot water. Skin, chop and drain for two hours. Pour one quart of vinegar over the tomatoes, and let them stand while the rest of the pickle is preparing. Mix together one cupful of fine minced onion, one cupful of sugar, one cupful of white mustard seed, two tablespoonfuls of black pepper, one tablespoonful of cinnamon, one tablespoonful of cloves, one teaspoonful of mace, two or three heads of chopped celery, one small red pepper chopped, one cup of grated horseradish, one-half cup of salt and one cup of nasturtium seed. Now combine the tomato and vinegar with the rest of the pickle, mix thoroughly, and bottle without cooking.

MANGO CHUTNEY.

Scald together one quart of vinegar, two tablespoonfuls of mustard seed, two tablespoonfuls of ground mustard, two tablespoonfuls of salt, and two cupfuls of brown sugar. Stone and chop the raisins to make a cupful, seed two green peppers and chop with two onions. Put all with the vinegar and simmer two hours. Then add fifteen green sour apples, pared, cored and quartered, and stew another hour, or until the apples are tender. Put in small bottles and seal.

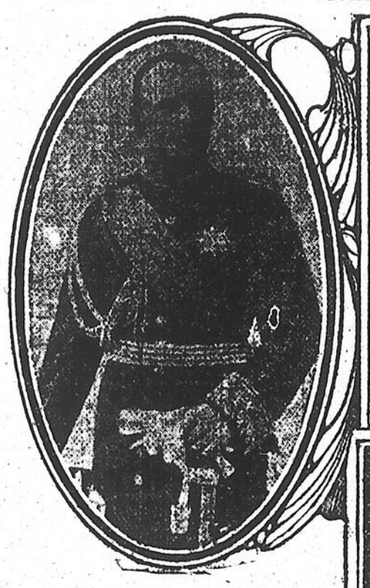
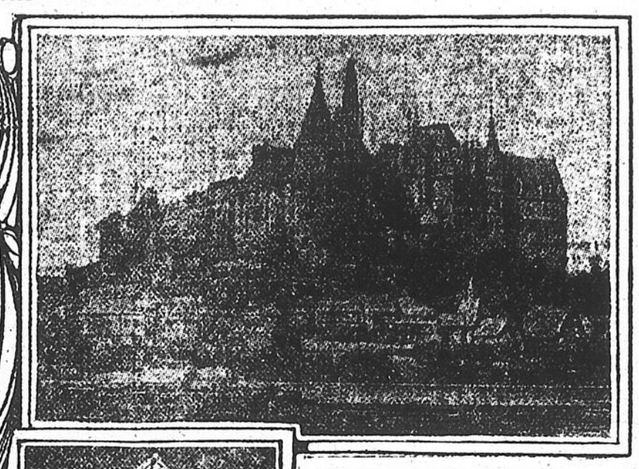
SAXONY'S NEW SOVEREIGNS.



THE NEW KING OF SAXONY.



PRINCESS LOUISE.

Albrechtsburg Castle on the Schlossberg Meissen.

Frederick Augustus, the new King of Saxony, was born at Dresden in 1865, and is in the prime of life. He is the oldest of the three sons of the late King George, the youngest being the well-known Prince Max, who took priest's orders eight years ago, and is a professor of canon law in the University of Fribourg. As Crown Prince the King has actively engaged in military duties, commanding an army corps.

He was married at Vienna in 1891 to the Archduchess Louise Antoinette, daughter of the Grand Duke Ferdinand of Tuscany. Their eldest son, Prince George, is now nine years old. After the Giron scandal of last year a divorce took place, the Crown Princess forfeiting her rank and privileges and taking the name of the Countess Montignoso. The royal house of Saxony was founded by Albert the Courageous, Duke of Saxony, in the fifteenth century. It did not assume the kingly title until the Dukes of Saxony became Kings of Poland. They held that uneasy sovereignty from 1690 to 1763. The title of King of Saxony was assumed in 1806, and at the union of Germa n states in 1871, the King of Saxony played a conspicuous part. The population of the kingdom is 4,202,000.

MAKING OVER FURS.

Furs are a bit of a problem for the woman who wants to dress well on a moderate sum of money. They are expensive to begin with, and vary in style almost as often as frocks and hats do. There is a new cut in the sleeves every winter, a different length, a variation in collar and some novelty in lining.

Furs used to be a real comfort. You packed them away with blankets and curtains and borax powder to outwit moths, and all you had to do in the fall was to shake them, hang them out to air and then be comfortable.

But nowadays women begin in August to wonder how they can get their furs up-to-date without bankrupting the family exchequer. For furriers are as heartless as plumbers and almost as essential to happiness.

Of course this fall's furs differ a good deal from last season's, but here is a word of comfort, they suggest all sorts of practical schemes for the artistic remodelling of old garments. Almost all furs are trimmed or made up with other furs. Ermine is combined with almost everything but seal, deer and baby calfskin, chinchilla combines with seal nicely, especially Russian chinchilla, which has a brownish cast. It is also used with deer and mink, with Persian lamb and fine dogskin. Usually the light fur is the trimming, but squirrel beaver, tibet and moleskin are all very smart trimmed with suede leather, or for dressy occasions, with embroidery. This use of leather is new, and you have no idea what a smart touch it gives an old coat put over collar, cuffs or set in a double-breasted tailor vest.

It comes in all the dull vegetable dyes, in hunting green, golf red, mahogany, bluet blue, navy blue and every conceivable shade of brown, light and dark. Sometimes it is embroidered with outline work in gold thread or silk.

The embroideries most in vogue for fur trimmings are straps from old Chinese silk petticoats, to be found in any Chinese shop, bands from Persian towels, strips of Russian or Hungarian peasant work, and all the rich Turkish, Indian, and Japanese hand embroideries. The colors are selected to match the color scheme of fur and lining as closely as possible. It would be very easy for a clever girl to imitate Russian or Japanese embroidery and make her own trimming just to match her coat.

There is one bit of good fortune in this season's furs, they are fashionable all lengths, and both loose and tight fitting. You are in the style whether your coat is a reefer, blouse or baspue, and your sleeves may have fullness at the shoulder, or a trifle at the elbow, and the stole effect of last winter is quite gone out.

Nearly all coats, plain as well as fancy, have light linings this fall, satin brocade, Jamasse and broche silk and plain light twilled taffeta. As this was somewhat in vogue last year, many women will unpack their furs this fall with a sense of dismay over the soiled conditions of their pretty coat linings. But there is no need to worry, for a soiled lining that is still is good condition otherwise can be made as good as new by the right sort of home cleaning.

Linings for fur coats are fitted in after the coat is quite finished, and may be removed without any ripping beyond the actual tacking that holds them in. Once out, shake and brush with a velvet whisk, then regularly wash in a luke warm suds of castile soap and borax, two teaspoonfuls of borax and a handful of soap shavings to a bowl of water, and let drip in the wind. When almost dry roll over a curtain pole, pull taut, and pin, stand near the fire. Unroll the next morning and you will find to all intents and purposes a new coat lining.

If the lining is in a pale tint, soak in cold borax water, two teaspoonfuls to a basin of cold water, for half an hour before washing.

It is not impossible for the amateur dressmaker to do over her own furs, with a hint or two about the work. Use always a seamless pattern, place in on the leather side, tack with pins, then cut without any seam allowance, using a sharp penknife. The seams are overhanded with fine stitches. It is wise to first cut a cambric pattern, see that it fits perfectly, and make a stiff paper pattern from that, as any wrong cutting in fur work is serious. In piecing, make sure that the nap of the fur runs in the same direction, and that your colors are what the furriers call "close."

BY FERGUS HUME.

CHAPTER XX.—(Continued.)

Witness: Yes, because I thought it a curious place for a gentleman to wear a ring, and when he was paying me my fare, I saw the diamond glitter on his finger in the moonlight.

Calton: That will do.

The counsel for the defence was pleased with this bit of evidence, as Fitzgerald detested rings, and never wore any; so he made a note of the matter on his brief.

Mrs. Hableton, the landlady of the deceased, was then called, and deposed that Oliver Whyte had lodged with her for nearly two months. He seemed a quiet enough young man, but often came home drunk. The only friend she knew he had was a Mr. Moreland, who was often with him. On July 14th the prisoner called to see Mr. Whyte, and they had a quarrel. She heard Whyte say, "She is mine, you can't do anything with her," and the prisoner answered "I can kill you, and if you marry her I'll do it, even in the open street." She had no idea at the time of the name of the lady they were talking about.

There was a great sensation in the court at these words, and half the people present looked upon such evidence as being sufficient in itself to prove the guilt of the prisoner.

In cross-examination, Calton was unable to shake the evidence of the witness, as she merely reiterated the same statements over and over again.

The next witness was Mrs. Sampson, who crackled into the witness-box dissolved in tears, and gave her answers in a piercingly shrill tone of anguish. She stated that the prisoner was in the habit of coming early, but on the night of the murder had come in shortly before two o'clock.

Crown Prosecutor (referring to his brief): You mean after two.

Witness: 'Avin made a mistake once, by saying five minutes after two to the policeman as called hisself a insurance agent, which 'e put the words into my mouth, I ain't agoin' to do so agin, it bein' five minutes afore two, as I can swear to.

Crown Prosecutor: You are sure your clock was right?

Witness: It 'adn't bin, but my nevy, bein' a watchmaker, called unbeknown to me an' made it right on Thursday night, which it was Friday mornin' when Mr. Fitzgerald came 'ome.

Mrs. Sampson bravely stuck to her statement, and ultimately left the witness-box in triumph, the rest of her evidence being comparatively unimportant as compared with this point of time. The witness Rankin, who drove the prisoner to Powlett Street (as sworn to by him) was recalled, and gave evidence that it was two o'clock when the prisoner got down from his cab in Powlett Street.

Crown Prosecutor: How do you know that?

Witness: Because I heard the post-office clock strike.

Crown Prosecutor: Could you hear it at East Melbourne?

Witness: It was a very still night, and I heard the chimes and then the hour strike quite plainly.

This conflicting evidence as to time was a strong point in Brian's favor. If, as the landlady stated, on the authority of the kitchen clock, which had been put right on the day previous to the murder, Fitzgerald had come into the house at five minutes to two, he could not possibly be the man who had alighted from Rankin's cab at two o'clock at Powlett Street.

The next witness was Dr. Chinston, who swore to the death of the deceased by means of chloroform administered in a large quantity, and he was followed by Mr. Gorby, who deposed as to the finding of the glove belonging to the deceased in the pocket of the prisoner's coat.

Roger Moreland, an intimate friend of the deceased, was next called. He stated that he had known the deceased in London, and had met him in Melbourne. He was with him a great deal. On the night of the murder he was in the Orient Hotel in Bourke Street. Whyte came in, and was greatly excited. He was in evening dress, and wore a light coat. They had several drinks together, and then went up to an hotel in Russell Street, and had some more drinks there. Both witness and deceased were intoxicated. Whyte took off his light coat, saying he felt warm, and went out shortly afterwards, leaving witness asleep in the bar. He was awakened by the barman, who wanted him to leave the hotel. He saw that Whyte had left his coat behind him, and took it up with the intention of giving it to him. As he stood in the street someone snatched the coat from him and made off with it. He tried to follow the thief, but could not do so, being too intoxicated. He then went home, and to bed, as he had to leave early for the country in the morning. In cross-examination:

Calton: When you went into the street, after leaving the hotel, did you see the deceased?

Witness: No, I did not; but I was very drunk, and unless deceased had spoken to me, I should not have noticed him.

Calton: What was deceased excited about when you met him?

Witness: I don't know. He did not say.

Calton: What were you talking about?

Witness: All sorts of things. London principally.

Calton: Did the deceased mention anything about papers?

Witness (surprised): No, he did not.

Calton: Are you sure?

Witness: Quite sure.

Calton: What time did you get home?

Witness: I don't know; I was too drunk to remember.

This closed the case for the Crown, and as it was now late the trial was adjourned till the next day.

The court was soon emptied of the busy, chattering crowd, and Calton, on looking over his notes, found that the result of the first day's trial was two points in favor of Fitzgerald. First: The discrepancy of time in the evidence of Rankin and the landlady, Mrs. Sampson. Second: The evidence of the cabman Royston, as to the wearing of a ring on the forefinger of the right hand by the man who murdered Whyte, whereas the prisoner never wore rings.

These were slender proofs of innocence to put against the overwhelming mass of evidence in favor of the prisoner's guilt. The opinions of all were pretty well divided, some being in favor and other against, when suddenly an event happened which surprised everyone. All over Melbourne extras were posted, and the news passed from lip to lip like wildfire—"Return of the Missing Witness, Sal Rawlins!"

LONGSHOREMEN COME TO TERMS

St. John, N. B., Oct. 20.—The 'Longshoremen's Association has endorsed the agreement effected by its representative in Montreal with the Canadian steamship lines. This agreement is that the laborers will receive thirty cents an hour, night and day, and forty cents an hour for handling bulk grain; double time for work on Sundays and Christmas, and half-time when called out in the evening from 7 o'clock until such time as they are dismissed.

The day's work will be ten hours. All work performed in rigging and unrigging gear shall be paid for on the same basis as above. The agreement is to go into effect on Nov. 5, and last until April 30.

In consideration of this the steamship companies are not to employ other than members of the 'Longshoremen's Association of St. John during the time of contract.

THE SOURCE OF HEALTH

STRENGTH AND VITALITY IS THE FOOD SYSTEM.

Dr. Chase's NERVE FOOD

ENSURES PERFECT DIGESTION AND ASSIMILATION.

It matters little how much food you eat so long as the digestive system is not in condition to convert it into blood and nerve force.

When the nervous energy is consumed by disease or by excessive mental or physical exertion the nerves and muscles which control digestion are unable to do their work and the food is allowed to ferment and become a burden instead of a benefit to the system.

DR. CHASE'S NERVE FOOD IS THE MOST RATIONAL TREATMENT FOR INDIGESTION AND DYSPEPSIA THAT WAS EVER CONCEIVED.

By forming new blood and creating new nerve force it strengthens and invigorates the nerves and muscles which control the flow of gastric juices and the contracting motion of the stomach which is necessary to digestion.

It would be impossible for any treatment to go more directly to the cause of trouble.

While revitalizing and re-energizing the principle organ of digestion—the stomach—Dr. Chase's Nerve Food also sharpens the appetite, enlivens the action of the liver and has a gentle laxative effect on the bowels.

Mrs. E. J. FORSYTH, 62 Elm St., Toronto, says: "My trouble has been acute indigestion and severe attacks of headache, as well as nervousness, and at times spells of dizziness. After having thoroughly tested Dr. Chase's Nerve Food I can say that it has cured my stomach troubles, and, as a result, the other symptoms have also disappeared. I consider Dr. Chase's Nerve Food the best treatment for indigestion, as well as being a splendid general tonic."

Dr. Chase's Nerve Food, 50 cents a box at all dealers, or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous recipe book author, are on every box.

Gault Institute—Prize Day.

At the annual distribution of prizes at the senior departments of the Gault Institute, on the platform were Dr. Sutherland, the chairman of the board, who presided; Mr. James A. Robb and Mr. D. F. Smith, the other trustees; Hon. J. K. Ward, Rev. W. Henderson, Rev. J. E. Duclos, Dr. Ostigny, the chairman of the Board of Roman Catholic Commissioners; Mr. Jas. Wattie, and Principal Messenger.

The hall was prettily decorated with streamers, and the stage was adorned with flags, garnets and cream bunting (the school colors) and flowers. The pupils were at their best, and deserved the praises given them by the different speakers for their appearance and behavior.

An interesting programme was rendered by the pupils, and short addresses were given by Hon. J. K. Ward, Mr. Jas. Robb, Mr. Rivard, principal of Ormstown Academy; Mr. Jas. Wattie, Dr. Ostigny, Rev. J. E. Duclos, and Rev. W. Henderson.

After the distribution of the prizes and certificates, the various school rooms were visited by the many parents and friends of the pupils, where the specimens of school work were much admired.

The following is the list of winners of prizes and certificates with regard to which it should be mentioned that the prizes for general proficiency are all donated by Mrs. A. F. Gault.

WHAT REAL ENGLISH GRAND OPERA IS

Col. Savage's Representative Talks About the Coming Season.

Mr. W. Payne, representing Col. Henry Savage's English grand opera company, is in town for a few days, making extensive arrangements for the appearance here of that company during the week after next.

The company which opened in Brooklyn, with a six-night season during last week, is now playing in New York State, and will continue doing so until it reaches Montreal, after which it will play a week in Toronto and head for the West. These two are its only dates in Canada.

Mr. Payne stated to The Herald that the great 10,000 mile tour upon which the grand opera company has now embarked was simply an outgrowth of the old circuit of eight or ten cities which Mr. Savage's English Opera forces have been playing for nine years. For two or three years this circuit has been gradually extending, as it became increasingly evident that grand opera on a real grand opera scale could be made popular, and last year the organization visited twenty-seven theatrical centres. This year the range is enormously greater. One-week and half-week bookings are being made for the first time, Mr. Savage being of opinion that his company is sufficiently well known not to have to play to empty houses for the first two or three nights in a new town in order to get a hearing afterwards. This fact, along with a natural desire to avoid the United States during the last two weeks of the Presidential campaign, accounts for the Canadian invasion.

"Mr. Savage's undertaking," said Mr. Payne, "is entirely unlike anything you have had in the way of grand opera before. His idea is based largely on the knowledge that opera is run successfully in small cities in Europe, at popular prices, attracting the interest and support of every class of the community; and he believes that the same can to some extent be done here.

USE OF THE VERNACULAR.

"An essential point in this theory is the use of the vernacular. The opera houses of Europe could not live a season if they presented their repertoire in languages the ordinary people did not understand. In America, except a few very third-rate touring companies and one or two splendid but ill-managed efforts at good English opera, the public has had no operatic performances except in foreign tongues. This reason has made of it more a society fad than a popular institution; and without their enormous social backing the opera season of London and New York would be failures. They are not and cannot be popular.

"Mr. Savage believed, too, that besides putting opera in to the vernacular, it could be made more interesting in its presentation in other ways. The use of foreign languages and the absence of any school of opera in this country made it necessary to employ foreign choruses, and they had neither the intelligence nor the interest in their work that would be shown by any American comic opera chorus. The substitution of English and the gradual recruiting of the chorus from vocal training schools all over the United State and Canada removed the defect.

"The matter of staging Mr. Savages was pretty sure of. He knew that if he could once make his productions appeal to the people, he could make enough, even at prices enormously lower than those of the Metropolitan Opera House, to pay for entirely adequate staging, and his experience for the last few years has shown that he was right."

Mr. Payne added that Col. Savage was not out for personal profits, and though his English opera had for some seasons now been paying its way the profits went into the enlargement of its scope and improvement of its productions. Whether the annual programme of the company will continue to take in the Canadian cities will depend in great measure upon the amount of interest shown in it during the week after next.

LIFE IN HAPPY SHERBROOKE.

Sherbrooke, Oct. 20.—The street railway service on the belt line was interrupted on Saturday evening by a street car colliding with a cow. The impact was so severe that the car was derailed, and the five passengers received a severe shaking, and one lady fainted. The cow died in a few minutes.

MR. EDWARDS STARTS HIS NEW MUSIC HALLS

The Columbia of Boston Opens the Series With a Big Success in a Combination of Burlesque and Vaudeville.

The Columbia Theatre, Boston, is now running as a "music hall," the first of the circuit organized by Mr. Edwards of His Majesty's Theatre. It is putting on a combination "burlesque and vaudeville," bill, the former section consisting of the Weber-Fields piece "Hoop-de-doo," and is playing to an immense business. Mr. Edwards has been in Boston superintending the opening.

MUSIC AND THE DRAMA

"A Chinese Honeymoon," with its tuneful music, novel situations, pretty girls and a splendid cast is the attraction at His Majesty's Theatre next week. Mr. Sam S. Shubert, who manages the opera, has sent the company on the road this season with all the lavish details which characterized its New York and Philadelphia productions. The company is headed by James A. Kiernan, Lillian Reed, Frances Golden, Fred Heck, Charles Prince and Marie Louise Gribbin.

• • •

Among the hits of last season was "His Last Dollar," which will be seen here at the Academy next Monday night, when it commences a week's engagement. Not only did David Higgins and his co-author evolve an excellent plot and story, but it was given the aid of elaborate scenic surroundings and the work of a clever company, and yet the major portion of the success of the play can be traced to the personality of David Higgins, the star, whose acting is at all times convincing.

• • •

The New York Stars, which will commence a week's engagement at the Theatre Francais, Monday next, furnish an entertainment that is far removed from the ordinary run of burlesque offerings; it is a two act comedy, abounding in humorous incidents and ludicrous situations, with a capable cast and a chorus that is hard to equal in voice and beauty.

• • •

THE MEISTER GLEE SINGERS.

The Meister Glee singers, who will be heard at the Arena to-morrow evening, will be a very rare treat. They are undoubtedly the finest quartette in England, and their singing is of a most delightful nature. They sing every class of music from a fine work of Elgar's down to a plantation molody, when their own voices furnish the banjo accompaniment. They will be assisted by Mr. Roland Henry, of London, England, musical sketch artist, and Miss Ethel Henry, a very charming English elocutionist. Among the selections they will give are "Ladies Fly from Love's Smooth Tale," "Lull Me to Sleep," "The Devout Lover," "The Old Folks at Home," with imitation banjo accompaniment, "Ding Dong" and "Sunday Fishing," a humorous quartette.

ECHOES OF THE BANQUET.

The banquet at the Windsor to Lord and Lady Minto was a huge success. Every detail was carefully attended to regardless of expense. The comment was universal upon the beautiful tone of the Heintzman & Co. Grand piano supplied by C. W. Lindsay, Limited, 2366 St. Catherine St.—Adv.

SHANTYMEN SLOWER IN COMING FORWARD

Wages Have Been Much Reduced, and the Lumber Jack is Chary of Going to the Woods.

There is a dearth of shantymen this year. Laborers in Montreal are not very much affected by the lumber camps, as a rule, for those there are in the city have for the most part steady work all the year round. The majority of the men sent to the woods by Montreal employment agencies come in from the country districts, where they work on the farms during the summer months. Those who go from Montreal itself are usually laborers on the wharves. They are waiting until the last moment, for their pay is better than in the camps.

"We are very much in need of men," said Mr. T. D. Tattersall, of the Dominion Employment Agency, this morning. "I could send two thousand to the lumber camps if I could get them. They are chiefly wanted in the Ottawa, Papineau and Parry Sound districts."

"What wages do you offer"

"From $22 to $28 a month. Last year the lumber firms were paying from $26 to $34, but they were badly hit. There was an unusual amount of snow, and the trees were therefore not cut so low to the ground as is ordinarily the case. This meant a serious loss. During the summer, therefore, the lumber merchants got together, and agreed to keep down the wages. However, this is much higher than we were paying some ten or twelve years ago, when the price was from $14 to $22.

"We send men out up to December 1, and I anticipate that there will be somewhat of a rush before then, especially when river traffic ceases."

Don't be a slave to your range—range-slavery is household drudgery, it's nerve-destroying, health-breaking—it's killing.

If your old range is making your life a burden, throw it out and get the "Pandora." A new "Pandora" range costs less than a new set of nerves.

The "Pandora" is easy to run, it robs kitchen work of half its labor, it robs it of all the worry, it cooks on time, it cooks economically, it uses all the heat for cooking, not for making a hot kitchen.
