FOR PERMANENT ARBITRATION COURT.

U. S. Proposal Before Conference.

St. Chas. Seminary 5Jan08

PROPOSAL FOR THE ESTABLISHMENT OF A SUPREME INTERNATIONAL PRIZE COURT APPROVED BY COMMITTEE.

The Hague, Aug. 23.—The test of the American proposition for the establishment of a permanent court of arbitration has been completed in agreement with Germany and Great Britain and will come up for discussion, August 28. It consists of 25 articles. The first articles record the desire of the signatory powers to organize an "international high court of justice easily accessible and free of charge, with judges representing the various systems of laws of the world and capable of ensuring a continuation of arbitration by jurisprudence."

The second provides that the judges must be "juris-consults of known competence in international law, selected so far as possible from the members of the permanent court of arbitration."

According to the third and fourth articles the judges are appointable for terms of twelve years, and will enjoy diplomatic privileges and immunities while exercising their functions.

Article five provides that the court shall consist of seventeen judges, nine forming a quorum.

Article six allots the appointments to the various nations.

Article seven provides that the high court yearly shall appoint three judges with three substitutes, constituting a special tribunal, which can, if necessary, try cases elsewhere than at The Hague.

Article eight says that the president of the court shall be elected every three years by a majority of the votes.

Article nine deals with the payment of the judges. The amounts are not fixed, but the proposal contemplates a fixed yearly salary, besides special remuneration when engaged in cases and travelling expenses.

Article ten forbids judges from receiving remuneration from their own or other governments for services in connection with the high court.

Article eleven says that the court shall sit at The Hague except in cases of "force majeure" and the special instances provided for by article seven.

Articles twelve and thirteen deal with secretarial matters.

Article fourteen states that the high court shall sit once or twice yearly, in July and January.

Articles fifteen, sixteen, seventeen and eighteen relate to the cases which the high court is competent to try.

Article nineteen provides that "each party shall be entitled to have its own judge to participate in the trial of cases submitted to the court. If a special tribunal acts as a commission of enquiry, even a person not connected with the court can participate in a trial."

Articles twenty, twenty-one and twenty-two deal with the court precedure and the calling of witnesses.

Articles twenty-three and twenty-four empower the court to establish its own rules.

Article twenty-five proposes the ratification of the convention at The Hague as quickly as possible.

Article twenty-six proposes to establish the duration of the convention, but the term is not yet fixed. Any signatory power is entitled to denounce the convention by notifying the Dutch Government two years before the expiry of each period, but the convention remains intact for the other powers.

President Nelidoff has informally interviewed the presidents of the committees on the advisability of postponing the discussion of the proposed permanent court of arbitration until the meeting of the next conference, recommending that the powers in the meanwhile study the question.

In order to reach an unanimous understanding about the higher court of justice, it is suggested that all countries appoint a judge each, who shall meet at The Hague, thus appointing a special tribunal, according to article six of the American proposition, which would really become a high court of justice.

The redrafting of the American proposition regarding the collection of contractual debts according to the observations made during the debate, has practically been finished. The only important alteration of the original text is the suppression of the words "implying the use of naval and military forces," where it says, "It is agreed there shall be no recourse to coercive measures, implying the use of naval or military forces for the collection of said contractural debts."

The special commission which has been examining the proposition to establish a supreme international prize court yesterday approved the project drafted by the United States, Great Britain, Germany, France, by 10 to 2 votes.

Pretoria, August 23.—In accordance with the resolution introduced by Premier Botha, the Transvaal Assembly has authorized the Government to purchase the Cullinan diamond, the largest in the world, valued at $1,000,000, as a present to King Edward as a token of loyalty and appreciation of the people of the Transvaal for the bestowal of a constitution on the colony.

STRIKE OF C. P. R. OPERATORS THREATENED

For An Hour at Winnipeg.

TEMPORARY SETTLEMENT REACHED—THE SITUATION IN TORONTO.

Toronto, Ont., Aug. 23.—(Special.)—Telegraph operators employed by the Canadian Pacific Railway at Winnipeg and Vancouver were out on strike for an hour last night, and the situation from the standpoint of that company for the time being was worse than at any time since the trouble between Western Union Postal Companie and operators spread to Canada.

Even the operators employed at Toronto offices were alarmed last night at the turn of affairs. All Canadian Pacific Railway operators have agreed that they would not profit by the that they would not profit by a general strike in Canada. But something may be expected to happen now at any moment, so strained are the relations between men and company at Western points. The cause of trouble was the demand of men that wire chiefs should not handle messages to or from affected points, but settlement temporary at least was reach.

PRIME MINISTER HAS HIS MIND MADE UP.

Sir Wilfrid Now Ready to Fill Up Cabinet.

SUTHERLAND AND PUGSLEY—FAVORITES FOR VACANCIES—CABINET MEETING TO BE HELD ON SATURDAY.

Ottawa, August 23.—Sir Wilfrid Laurier will return to the city to-day and an important meeting of the Cabinet will be held on Saturday. The Prime Minister has, it is believed, made up his mind, tentatively, at least, as to whom he will call to his counsels from Ontario and New Brunswick, and on Saturday will announce his choice to his colleagues. It is for this purpose that all the ministers who are within call have been summoned to the Cabinet. So far as known, the Prime Minister has not intimated to any one his intentions in the matter of filling the Cabinet vacancies, although he has been, of course, largely guided by the advice of Mr. Aylesworth in fixing upon the successor to Mr. Hyman. Although Speaker Sutherland and Mr. Archie Campbell are considered to have the chances pretty well divided, with the odds in favor of the former, there are those who hold to the belief that in view of the near approach of a general election, Mr. Aylesworth has cast his ballot for Mr. Fred. Pardee as likely to be of more use to his party in the capacity of a fighting man. As for the New Brunswick vacancy, Hon. Wm. Pugsley is looked upon as the probable choice, notwithstanding the strong push that is being made for young Mr. Carvell, of Carleton. It is probable there will be some new ministers sworn in on Monday.

A BOLD ROBBERY.

THIEVES ATTACKED PAYMASTER AND MADE ATTEMPT TO SECURE $6,000.

Philadelphia, Aug. 23. — Mr. H. Hicks, paymaster for the Schaum & Uhlinger Company, textile machinists, in the northeastern section of the city, was held up and robbed of $6,000 near the machine shops Wednesday by two highwaymen, one of whom shot him in the right arm. Hicks, accompanied by Walter P. McDonald, purchasing agent for the company, was on his way to the shop with a satchel containing the $6,000 when he was waylaid, it is charged, by John Posicki, a former employee of the Sachaum & Uhlinger Company, and a companion. The highwaymen pointed pistols at Hicks and McDonald, and demanded the satchel. Hicks drew a revolver, when one of the highwaymen grabbed the satchel and fired at Hicks. The bullet struck him in the right arm, compelling him to drop the revolver. The robbers fled, and McDonald picked up Hick's pistol and began shooting at them. After a chase by a crowd, Posicki jumped on a trolley car and brandishing his revolver at the motorman, commanded him to run full speed ahead, but the pursuers pulled the trolley pole from the wire, stopped the car and caught the fugitive. Later, Anton Mojeski was arrested on suspicion. The satchel was recovered. Hicks was not seriously hurt.

AN AERONAUT'S NARROW ESCAPE.

Canfield's Balloon Drops Him Into Ocean.

BALLOON LUCKILY FLOATED AND HE WAS RESCUED.

Plum Island, Aug. 23.—It became known yesterday that Aeronaut Canfield, who made a balloon ascension Tuesday afternoon, had a narrow escape from being drowned. The ascent was made, but when Canfield tried to free himself the balloon became unmanageable and floated out to sea. He was several miles from the shore of the island when the gas began to escape and the big canvas bag came tumbling down into the water. Canfield clung to the balloon, which luckily floated. His cries were heard by A. B. Carter, of Merrimac, who was fortunately cruising about in his naphtha launch, and who went to the aeronaut's rescue. Canfield was hauled into the launch in an exhausted condition, but was not seriously injured by his long fall into the sea.

PROGRESS OF WORK ON FAIR GROUNDS.

BUILDINGS ALL UP AND ARE RECEIVING THEIR FINISHING TOUCHES.

With the Dominion and Provincial Exhibition barely more than a week off, the work at the fair grounds is going as fast as a big crew of men can drive it. All the new buildings are up, though many of them still are receiving their finishing touches. The rain has luckily held off somewhat during the past fortnight, and allowed the work to take long steps ahead, and there is now practically no shadow of doubt that everything will be ready on time.

Sherbrooke Fair will henceforth be a fair under cover. Every show will have a roof over it, even the amusement platform, so that rain or shine, a protected audience on a grand stand can see comfortably a performance by artists shielded from the rain, and the programme can be carried out at every performance in its entirety, without regard to the state of the weather.

The covering for the amusement platform is to be a roof set on long uprights, high enough so that the view of the audience towards the back stretch will not be interrupted. This roof will be of ornamental design; the plans are drawn and the steel work is already on the way to the grounds. It is possible, if it can be done without cutting off the view of the back stretch, that a new judges' box may be constructed, and hung from the lower edge of this platform roof, like a bird's nest. This will bring the judges practically to the track's edge.

Mr. Felix Reich, of New York, the amusement manager, has been in Sherbrooke all the week arranging the stage and the placing of the complicated paraphernalia for the acts. The new stage is finished, with commodious dressing rooms underneath, in place of the row of little houses that formerly stood behind it.

The judges of racing this year are men who have international reputations in this work. C. F. Pike, of Windsor, Vt., is the starting judge, and the officials at the finish are G. Milton Harch, of the American Horse Breeder, Boston; E. D. Harpin, of Windsor, Vt., and E. P. Stevens, of Montreal.

The official programme of the fair shows something doing all the time for the entire two weeks. Judging begins promptly on Tuesday morning, Sept. 3rd, in the dairy, maple products, and the horticultural and agricultural products departments; amusement programmes will be changed between afternoon and evening; races, contests of various kinds, and the judging in other departments, the stock parades and demonstrations will keep visitors busy day after day.

One interesting change to be noted this year is the shift in the method of furnishing dinners. Instead of one dining hall, there are now four scattered about the grounds—well constructed, handsome new buildings, where good meals will be served at modest prices. The provision for giving dinner to visitors is unusually good.

The two most prominent buildings are of course the new Arts building, where Mr. Stuart Taggart's great painting "Guilty" will be shown, and the new dairy building. The Art building is in the form of a noble Greek temple, with simple lines and fine porticos. It is wonderfully well lighted from above, and the interior design shows graceful lines and an astonishingly large amount of room. Part of the horticultural exhibit will be shown here, and more in a great tent between the Art building and the Main building.

The new Dairy building, designed especially for its purpose, is particularly well adapted for not only the display of dairy products, but for demonstrations of practical dairy methods and dairy contests as well.

CONSTABLE IN GREAT DEMAND.

Bedford Had Several Cases for the Law Last Week.

A FEW ARRESTS AND ONE MAN COMMITTED FOR TRIAL IN SEPTEMBER.

Bedford, Aug. 22, (Special) — High Constable Boisvert, of Sweetsburg has been kept busy in this vicinity during the past week. On Thursday evening last, some local roughs gathered around Galipeau's hotel and after imbibing quite freely three of them created such a disturbance that a complaint was sent to the High Constable, who came over on Friday and arrested the three men and on the complaint of one of the prisoners he arrested a young man for assault. The case was tried on Friday when the young fellow was fined, which with the costs amounted to eight dollars. The other men were fined $1.00 and costs, amounting to about $5.00 each.

On Saturday Nick Lahue, who recently came here from Vermont, while in an intoxicated condition gave his wife a pounding. She was found by a neighbor in an unconscious condition and Dr. Mitchell was immediately called and found that her head and side was injured. The High Constable arrived that evening and arrested Lahue, who was given a preliminary hearing, and committed for trial in September. Constable Boisvert left late that night with his prisoner for Sweetsburg, where he will remain until the court meets.

Still another arrest was made on Monday when a young man was taken into custody for using profane language and creating a disturbance.

While in town a complaint was made to the High Constable that a certain woman, who lives on the outskirts of the town allowed a crowd to gather at her house at night and disturb the peace. She was warned that if any more complaints were made he would have the crowd prosecuted. He was also here on Tuesday on business and at Stanbridge East.

MR. D. WILLIAMS OF GRANBY DEAD.

Received Fatal Injuries by Being Thrown From Wagon.

VEHICLE STRUCK A COW ON MAIN STREET, WEDNESDAY—DEATH OCCURRED EARLY THURSDAY.

Granby, August 23.—(Special)— On Wednesday evening a bad and fatal accident occurred on Main street.

Mr. Daniel Williams was driving at a rapid pace in the west end of the town when a cow suddenly crossed the road. The wagon struck the cow and Mr. Williams was thrown out on his head.

He was immediately taken to Dr. Verdon's office where everything that medical skill could do was done for the sufferer.

He was subsequently removed to his sister's, Mrs. Boyd's, where he passed away at 3 o'clock, Thursday morning.

Two sisters, Mrs. C. E. Gordon, of Lowell, Mass.; Mrs. Mary Boyd, of Granby, and a brother, Mr. George Williams, of Granby, survive.

The funeral will take place at St. George's Church on Saturday, at two o'clock.

INSANE CONVICTS IN DANNEMORA PRISON.

Fought Three Guards for Two Hours.

ONE OF THEM WAS KILLED — ATTEMPT TO ESCAPE WAS FRUSTRATED.

Plattsburg, N.Y., Aug. 23.—For two hours Wednesday night a mob of criminally insane at the state hospital in Dannemora stood off their guards, while other lunatics made a desperate attempt to force an exit from the building. Not until one of the rebellious madmen had been shot and killed, and the guards reinforced by less violent inmates and villagers, was the outbreak put down. Again locked in their rooms, an examination of what the insane men had done was made. This developed two large dormitories wrecked, windows smashed, iron gratings bent, and walls damaged where an effort to wrench the iron bars from their stone sittings had been made. The dead man was Isaac Dubois, who had been at the hospital but a short time. Convicted of larceny in the second degree, he was subsequently mentally examined and ordered to the state hospital.

Details of the outbreak first became generally known yesterday. It had been planned with the cunning of the mad, and the plan so far was carried out was executed with reckless boldness.

Mr. Bullock, who has suffered quite severely with the wound, left for Sutton, where Dr. Lorrain, of that village, dressed the hand and he is still under the doctor's care thopgh he is reported as improving.

INTERESTING MISSIONARY MEETING AT KNOWLTON.

Knowlton, Aug. 23. — (Special) — The Woman's Missionary Society, in connection with the Knowlton Methodist Church met an Wednesday afternoon at the home of Mrs. E. M. Taylor. More than the average number of ladies were present as it was a day of unusual interest for this work. They had with them Miss Wilcox, of Montreal, who is a Deaconess in St. James Methodist Church of Montreal. After the usual preliminaries, Miss Wilcox gave a short address giving the ladies an idea of her work. She, in company with five other Deaconesses, one of whom is a trained nurse, spend their time among the poor of the city, often being called upon by pastors of other denominations to attend certain cases where such help is needed. They go into a house or home looking up the sick ones, distributing good clothes, kind words and deeds, nursing where needed, and encouraging these people to get out to various church services. Her talk was most interesting and appealed to the heart of the Society.

Miss Wilcox described the new Deaconess' Home that is being prepared for the six ladies, where they will be together and can entertain in a quiet way some of those people among whom they work, and where they will be more homelike than boarding in separate places, as has been the case previously.

Miss Nettie Robb, a Knowlton young lady, but for a number of years a nurse in various cities of the United States, was also present. She told the ladies of the work she had been preparing herself for during the past two years. She leaves her home here in about a week for Boston to join a party of returning and new missionaries who will sail in the month of September for India via England when she will spend some time in London. She has chosen the Society of the Boston Baptist Church to work under, and has attended a Theological Seminary for two seasons, learning the work, language and customs of the country she will finally live in. Her work will be in hospitals among the women natives mostly she expects, and she is pledged for six years. The Knowlton Society presented her with a handsome fountain pen and an address of farewell wishes, and kind words, begging that occasionally they should receive a letter from her regarding her new home and work. Miss Robb gracefully thanked the ladies and promised to write them.

Refreshments were served and pleasant chat followed informally.

The Onlooker.

Thermost Bottles.

By this name is known a recent invention, of great convenience to tourists, especially those travelling by automobile. It is an ordinary looking nickelled canister, containing a bottle, which holds a quart or so, and the construction is such that the contents will maintain its temperature for 48 hours. Thus it can be filled with hot coffee before starting out in the morning and there will be hot coffee for lunch or tea, whether a hotel be reached or not. Or, if preferred, it can be filled with ice water in the morning, and there will be ice water to drink until it is all gone. The article is patented and the manner of its construction kept a secret as well. The steady maintenance of temperature is probably maintained by the use of a vacuum, secured in the peculiar construction; at least this is the general idea.

The Dominion Exhibition.

It is customary with Exhibitions to advertise each succeeding Fair as surpassing in every way all that have previously been held, hence, the perennial claim has come to be taken with a grain of salt. In the case of Canada's Great Eastern Exhibition this year, however, the familiar claim will be sustained and more than sustained. The Dominion Fair will assuredly surpass in every respect all previous Sherbrooke Fairs, but this fact will have only an incidental interest, to the interest of which the Fair itself will be the meritorious center. As an exhibition pure and simple, it will possess features ahead, far ahead, of those furnished by former Sherbrooke Fairs, both in point of interest and scope. The range of exhibits will be national rather than more or less local in extent and much greater pains will be taken to make them attractive and instructive, than is the case when the Fair is just the Great Eastern Exhibition, and this is saying a great deal. The amusement features, included with the price of admission, including daily flights of an airship, will be in keeping with the more practical side of the Fair, the races will be worthy of Saratoga, and no doubt the Midway will be lined with a larger number of more startling features than ever before.

Paroid Roofing—

The Roofing With a Money-back Guaranty

Buy one lot of Paroid; open it; inspect it; apply it to your roof, and if then you are not satisfied that you have the best ready roofing made, send us your name and address, and we will send you a check for the full cost of the roofing including the cost of applying it.

Paroid Lasts Longest

Because it is made of the best felt—made in our own mills (established in 1817); other manufacturers buy their felt outside and simply saturate and coat it.

Because it is soaked (not dipped) in a saturing compound which makes it water proof in every fibre.

Because it is coated on both sides with the strongest, thickest, smoothest, toughest, most flexible coating used on any ready roofing. Don't take our word alone for it. Compare Paroid with any other. You can see and feel the difference. Paroid does not break or crack in the coldest weather or run in hot weather

Because it is applied with our patented square, rust-proof caps—water proofed on both sides—the only caps that will not rust, work loose and cause leaks.

These are some of the reasons why we can give Paroid so strong a guaranty; why last so long—why it is so largely used by governments, railways, factories and farmers every where.

All we ask is that you try it on our money-back guaranty.

Paroid is made by F. W. Bird & Son, Hamilton, Ont. Established in U. S. 1817. Don't take a substitute but send for samples and prices to

KING MEETS CLEMENCEAU.

FRENCH PREMIER CALLED UPON HIS MAJESTY YESTERDAY.

Marienbad, Bohemia, Aug. 22.— M. Clemenceau, the French Premier, who is taking the cure at Karlsbad, lunched with King Edward here yesterday afternoon. The Premier also saw Sir Edward Goschen, British ambassador to Austrai-Hungary, who is in attendance on the King. The results of the recent royal meetings at Wilhelmshohe and Ischel were fully discussed with apparent satisfaction.

After the meeting Premier Clemenceau said his interview with King Edward was upon the general situation, and especially the Moroccan question, and it led to "absolutely pacific hopes."

AMERICANS IN CANADA AND U.S. CITIZENSHIP.

Formalities Necessary for Them to Retain It.

MUST FYLE DECLARATION WITH THE U. S. CONSUL EACH YEAR.

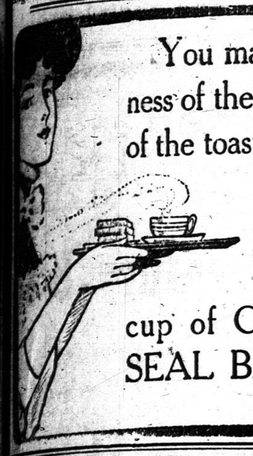

If the Americans in Canada wish to retain their citizenship with the United States, they must fyle a declaration at the office of the U. S. Consuls. According to the new law passed by Uncle Sam, which went into effect on August the 1st, 1907, citizens of the United States, residing in Canada, must, to retain their citizenship, declare their intentions of remaining citizens of the Union, and also give satisfactory proof that they are at the time American citizens. A similar declaration must be filed at the office of the U. S. Consul each year of residence abroad.

One of the objects of the new law is to put an end to those residing in Canada abusing the electoriul laws of both Canada and the United States by voting on both sides of the line.

Daily Market News

THE HOG CROP.

IN ONTARIO IT WILL BE LIGHT IN THE EARLY MONTHS.

(Toronto Weekly Sun.)

There will be no glut in the supply of hogs in this province during September and October, at all events. So much is made abundantly clear by the special reports given on next page of this issue of the Sun. There may be a somewhat heavier pressure on the market in November, but after the end of December indications point to the probability of receipts running below demand.

The reason why shipments in the first two fall months will be kept within limited compass are plainly stated by correspondents and will be readily understood by all readers. The heavy mortality in spring litters caused a reduction in the number which would otherwise have been available before the end of the year, and many of those that survived will be, owing to the complete clean-up of last year's feeding grain, later in reaching market than would otherwise have been the case; there has of necessity been a holding back until new grain came in. But, because of this delay in finishing hogs which should have been ready for September and October, there will likely be a heavier run in November than would occur under normal conditions. With the opening of the new year the number of marketable hogs available will, because of the reduction in the total of the year's grain crops, almost certainly run below the average of recent years; as Sun correspondents say, there is a general disposition to reduce grain feeding to the narrowest possible limits.

The lesson from the situation seems to be that, in so far as local supplies affect local prices, we are likely to have a fairly good market in September and October, a weaker one in November, and a firming up of prices again with the opening of 1908. Of course, conditions in Denmark and Ireland, which are our chief competitors in supplying the English bacon market, or the commercial situation in England itself, may upset this calculation; but the dominant factor in the hog market is the local supply, and the facts regarding this seem to justify the forecast just made.

LIVE STOCK SHIPMENTS.

GOOD TEMPLARS MEET.

ANNUAL SESSION OF QUEBEC GRAND LODGE AT ORMSTOWN, QUE.

Ormstown, Aug. 23.—The annual session of the Grand Lodge of Quebec International Order of Good Templars, met here Wednesday. Mr. W. H. Lambly, the Grand Chief Templar, alluded to the fact that the Grand Lodge this year was meeting in prohibition territory, also to the growth of temperance sentiment in the jurisdiction. There were now six hundred municipalities in the province under Local Option, the hours for the sale of liquor had been limited in Quebec, Levis and elsewhere and in many other ways a check was being placed upon the power of the drink evil. In Ontario a wave of local option was sweeping the province, and New Brunswick and Nova Scotia were also stamping out the traffic. In view of the imminence of the Provincial and Federal elections he urged Good Templars to attend the political primaries and seek the nomination and election of prohibitionists to the Dominion and Provincial parliaments.

The report of Mr. J. W. Rock, Grand Secretary, was also very encouraging. There had been a substantial increase in the number of lodges and in membership and the debt had been practically wiped out. In Montreal three lodges had been organized during the year and there were good prospects of several more. Both the report of the G.C.T. and G. Lee contained references to the death of Mr. J. K. Macdonald, of Montreal, and tributes to his worth as a man and a Good Templar.

The following officers were elected: G. C. T., W. H. Lambly, Inverness; G.V.T., Miss A. I. Mason, Montreal; G. Councillor, W. Davis, Montreal; G. Sec., J. W. Rock, Montreal; G. Supt. Juvenile Work, Mrs. Spowage, Montreal; G. Elect. Supt., W. D. Munro, Montreal; G. Treas., T. Winter, Ormstown; G. Chaplain, the Rev. E. W. S. Coates, Ormstown; G. Marshal, J. R. Clouston, M.D., Huntingdon; G. Asst. Marshall, Mrs. Houghton, Huntingdon; G. Asst. Sec., Mrs. J. W. Rock, Montreal; G. Guard, A. Grant, Montreal; G. Sentinel, H. S. Elliott, Starks Corners; G. Messenger, A. Sly, Shawville; Deputy International Templar, R. W. Williams, Three Rivers; Representative to International Lodge, W. H. Lambly; Alternate, R. W. Williams.

JULIUS TEICH, A NEW YORK WEAVER, THEN SHOOTS HIMSELF.

New York, Aug. 23.—Insanely jealous of his attractive bride of two months, Julius Teich, a silk weaver, Tuesday, shot her through the head, and then sent a bullet into his own brain. When shots were heard in the apartment, neighbors summoned the police and when the doors were forced Teich and his wife were found unconscious. They were rushed to an hospital but lived only a few minutes after they had been received at the institution. Teich was 35 years old; his wife was 30.

Vin St. Miche

Is Nature's Remedy

Vin St. Michel is unlike any other wi

The peculiar curative properties which possesses are largely due to the nature of soil and the climate where the grapes grow.

Attempts have been made to grow the grape vines in other countries, but, wh transplanted, the grapes have lost the medicinal properties.

It is the presence of phosphor and iron in Vin St. Michel whi gives it its wonderful tonic qualities

Vin St. Michel is nature's ton —a rich, delicately flavored wine.

You need it three times a d for a while.
