

The Stanstead Journal.

VOL. LXXVI—No. 26

ROCK ISLAND, (STANSTEAD) P. Q., THURSDAY, JUNE 30, 1921.

WHOLE No. 3934

International Water Company WARNING

On account of the present dry season, the use of water for sprinkling streets and lawns, or washing automobiles, wagons, etc., is strictly forbidden. It is "up to" everybody to economize in the use of water if a famine is to be avoided.

BY ORDER OF THE DIRECTORS.

SHINGLES, CLAPBOARDS, LUMBER

We are unloading this week a car of Lath and a car of Western Shingles and Clapboards.

Next week we will have a car of New Brunswick Shingles—extras and first clears.

See us when in want of any kind of lumber.

TOWN TOPICS

Mrs. J. W. Kingsley is visiting her daughter, Mrs. Charles Howe.

Mr. and Mrs. Ernest Thompson and son Edward returned Saturday from a visit to Mrs. Thompson's old home at Valcartier.

Mr. and Mrs. A. C. Cowles attended commencement at Middlebury College where their daughter Edith graduated with high honors.

Mr. H. L. Bigelow of Boston, Mass., has been visiting relatives in Tomifolia and looking up old friends in this vicinity during the past few days.

Mr. John F. McMullen of Boston arrived here on Saturday, accompanied by his niece, Miss Geneva Gibson, who has been in Boston for some time.

Mrs. W. W. Wilson of Concord, N. H., and Mrs. Cecelia Bachelier of Ayer's Cliff were in the Three Villages Monday. Mrs. Wilson was at one time a resident of Stanstead. Her late husband was the pioneer in the ice business here.

Commissioner Russell, accompanied by Scout Nelson O'Rourke, visited Way's Mills on Wednesday evening and gave a demonstration of Scout work to the newly formed Troop there. Mr. Holmes is acting scout master and doing splendid work.

The Scouts of the Three Villages, Beebe, Way's Mills and East Hatley will go into Camp on Friday July 1. The camp will be in charge of the Commissioner with District Scoutmaster Rice and Scoutmasters Benbow, Hall and Hopper. It is expected that about sixty boys will go under canvas.

Last Sunday afternoon Rev. E. C. Russell preached to the Boy Scouts and Girl Guides at North Hatley. Rev. Mr. Wilson conducted the service, assisted by Mr. Clifton Hall, B. A. In the evening Mr. Russell preached to the St. John Ambulance Association in St. Peter's Church, a very large congregation being present.

You never can tell what will happen. C. H. Lalonde of the Main Street customs fared worse in a little wind storm yesterday than he did in the war. He went through the Dardanelles campaign without injury, but yesterday when the wind struck his desk, he grasped the supporting stick with his left hand and sent his right hand through the falling window, badly lacerating it on the jagged glass. A surgeon dressed the hand and the arm is now in a sling.

TOWN TOPICS

For sale—Three-burner oil stove. W. B. LeBaron, Rock Island.

Mr. Albert Fregeau of Loyola College, Westmount, is at home for the summer holidays.

Mr. Stanley McMullan of Ormstown and Miss M. Rose Young of this place were married Monday, June 27.

Miss Elison Tilton of the faculty of Macdonald College is at her home in Stanstead for the summer holidays.

Iva M. Crowe has returned from a month's visit with relatives and friends at East Charleston and Island Pond.

Mr. Burt Villeneuve and Miss Agnes Cournoyer were married at the R. C. Church early Wednesday morning, and left shortly afterwards for Massachusetts and Rhode Island.

Mr. Parker of Cambridge, Mass., who was a teacher at Stanstead College in Principal Bannister's time, and is now a tutor at Harvard University, was a guest of his brother, J. J. Parker, the first of the week.

Mr. D. Bilodeau of the Rock Island Café, Maple Avenue, has secured the services of Miss Yvonne Rgy, a competent cook, with two years' experience at the Chateau Frontenac, Quebec, and makes a specialty of "home" cooking.

Mr. H. A. Chaddock, teller at the Canadian Bank of Commerce, is being detached from the local branch. For the immediate future he will be stationed at Freighsburg, relieving the manager there during his holidays.

On his way to Beebe, Tuesday, S. A. Meade, civil engineer, Coaticook, was attracted by the development work at the Prospect Park extension and halted to inspect it. He was greatly pleased with the location, which he considered the best townsite he had yet seen.

Saturday night at the Main Street customs, Mr. E. Brownlee, who owns a residence at Prospect Park, made the statement that he would not take the gift of any property on the Main street, either at Rock Island or Stanstead, and agree to live in it. Freedom from dust and disturbing noises are what attach him to Prospect Park.

Dull conditions in New England are reflected at Tomifolia. For some time E. J. Getty, who owns the old Smith power there, has been kept busy getting out special stock for furniture and sporting goods manufacturers in Massachusetts. Now this business has been cleaned up and no orders are in sight for the immediate future.

Fifty-five teams and twenty-five men responded to the invitation for volunteers to help rebuild the road from the Stanstead line to Beebe via the Catholic cemetery, with the result of building and graveling in good shape this highway clear through past the cemetery, and Beebe has done some work on the Worth Hill. Considerable credit is due Mayor Wilkinson and the Beebe council for their cooperation with the cemetery trustees in this work; also to the Beebe road commissioner, James Renihan, for his valuable services.

The Butterfield works close tonight for the annual summer holidays, which will extend to the middle of July. Some little time ago working hours in some departments were reduced, and now vacation days are being extended about a week over those of previous years. Some of the smaller industries here are closing for a short period because of slackness in business, and partly because almost everybody desires a holiday. Taken as a whole, however, industrial conditions here are much better than in most places we hear or read about. Throughout New England many thousands of men are out of employment altogether. Former Canadians have been gradually returning to this country for some months, and naturally this has some effect on conditions in the Dominion. Locally there has been considerable building activity, and delayed improvements are being made. There has been practically no unemployment and wages have kept up. A local traveling man who returned from a trip north a short time ago, said that after leaving Richmond he found the prevailing price for laborers to be \$2.00 a day; teams, \$4.00; carpenters, \$3.00 to \$5.00 according to ability; painters \$3.00 to \$4.00. A former Stanstead man, now a contractor in Southern Vermont, told of prices there which were considerably lower than those prevailing here. This community did not reach the highest wage levels attained in some quarters, but its stability is being shown now. On the whole it would appear to be a good place for the working man to tie to.

TOWN TOPICS

Mr. and Mrs. W. H. Brown motored to Sherbrooke Sunday.

Mr. and Mrs. Willis A. Cramer of Way's Mills were in town Sunday.

Mr. Howard C. Johnson of Boston is a guest of his sister, Mrs. F. A. Putney.

Miss Héleine Robitaille attended the funeral of Mrs. Peter A. Archambault last week.

Mrs. Frank A. Caron and daughter Mildred have returned from Stanbridge East.

Mrs. (Dr.) E. F. Babcock of Fairhaven, Mass., is a guest at Mr. M. W. Henry's in Derby.

Mr. and Mrs. A. McLellan of Eastport, Maine, were guests of Mrs. E. Lamoureux the past week.

For sale—Edison phonograph, 14 records, good condition. Apply at Bilodeau's restaurant.

Mrs. Carroll E. Tabor went to the Sherbrooke Hospital for examination Tuesday. She was accompanied by her husband.

J. Allard reports the sale of the W. B. Bailey farm at West Charleston to Edmond Chabot from St. Martin Courcelles, Que.

Miss Katherine Herrigan from Boston has succeeded Nurse Saunders who has been caring for Mrs. David Wilkie for some time past.

Mr. and Mrs. O. M. Carpenter, Mr. and Mrs. H. A. Clark and Mrs. C. E. Bennett motored to Island Pond Monday to call on some old friends.

Ed. Pettingill, who bought the old "electric light house," off the Beebe road, a short time ago, is now making extensive improvements to the property.

George Clark has sold the Sauve house at the Junction of Railroad Street and Passenger Avenue to Edmond Dutil. The sale was made through J. Allard.

Col. H. S. Haskell, Miss Susie Whyte and Mr. and Mrs. R. R. Wakefield of St. Johnsbury left Tuesday for a motor trip to the Ancient Capital and Montreal.

Tennis—All persons wishing to have the privilege of playing tennis on the College court during the holidays, are requested to meet at the girls' court at 3 o'clock Saturday afternoon, July 2, in order to form a club.

Misses Corinne Corede, Augustine Lamoureux, Effie Soutiere, Alice Jodour and Aline Morin are attending the fiftieth anniversary of their alma mater at Coaticook, the Convent of the Presentation de Marie, one of the excellent schools of the province.

Ralph Odell, who stole a harness and robe from Stephen Murphy and a tire from Elton Bennett's automobile, and was arrested and taken to Newport by Sheriff Byron Herrick, pleaded guilty before Judge W. M. Wright, and was sentenced to prison for from three to five years.

The finishing touches are being made by the workmen at Meadow Brook Farm, the new summer home of Mr. and Mrs. Hiram Foster at Derby. Tuesday noon Mr. and Mrs. Foster gave a dinner to the workmen employed on the job. Charles Ross, chef at the farm, gave the boys a fine chicken dinner, which was served on one long table on the porch by Albert Dunn. Twenty covers were laid. The guests were Charles Niles, Chandler Horn, Carlton Brainerd, Henry Duquette, Eugene Perkins, Benjamin Lepette, Francis Dezan, Elmer Rock, G. W. Reed, Fred Gibson, Albert Fusty, Fred Perkins, William Rice, Claude Rice, Wallace Wilder, Stanley Carboneau, Claude Spencer, Charles E. Bennett, with Mr. and Mrs. Foster. This was a most gracious thing for these people to do, and the workmen who have builded this beautiful home were very appreciative and enjoyed the noon hour very much. Such occasions, where cheer and meat join to make work worth while, are far too infrequent. Such a beginning, that of making it a pleasure to be host and hostess to working men, surely is the hanging of Dobbin's shoe to the door lintel of this home, an assurance of good luck in the days to come.

Christ Church, Stanstead.

Rev. E. C. Russell, L.S.T., rector. Sixth Sunday after Trinity: holy communion at 11 a. m.; preacher, Rev. E. C. Russell. Sunday School 3 p. m. All Saints Church, Beebe—Evening service 7.30; preacher, Mr. Russell.

Centenary Methodist Church

Rev. H. Mick, B.D., Pastor. 10.30 morning service. The evening service is withdrawn for July and August.

WAY'S MILLS

Mr. and Mrs. A. H. Dyson have returned from a trip to Danville and Tremholmeville, where they visited friends.

Mrs. W. L. Oliver will entertain the Ladies Aid at her home for tea on Wednesday, July 6.

Mr. and Mrs. W. N. Horn, Mr. and Mrs. F. D. Gilbert and Mr. and Mrs. E. J. Gilbert, also Mr. T. H. Aldrich, attended the wedding of Miss McDonald at Mr. H. S. Gilbert's, Windsor Mills, on Monday.

Quite a number from here attended camp meeting at Beebe on Sunday.

Mr. and Mrs. Norma G. Wheeler and sons of Newport were Sunday guests at the home of Mr. F. C. Daniels; Mr. Sewell Bryan of Hatley was also a guest at the same place.

Mr. and Mrs. L. J. Cramer of St. Johnsbury, Vt., are guests at W. A. Cramer's.

Mr. and Mrs. W. N. Horn, Mr. and Mrs. W. L. Oliver, Mr. F. C. Daniels, Maurice Daniels and Miss Rose Horn visited their aunt, Mrs. P. L. Ellis, Heathton, last Thursday.

Principal F. C. Humphrey of Valleyfield, Que., has finished the scholastic year and is with his family here.

Mr. P. B. Buckland is driving a new Ford car; Mr. B. Smith has also changed his old car for a new Ford.

Mrs. L. Bean accompanied Mr. and Mrs. Dyson on their motor trip, and visited with friends in Melbourne.

Mrs. W. G. Thompson is ill at present.

Walter Thompson is spending a week with his aunt, Mrs. Sarah Thompson, at Judd's Mills.

Mr. and Mrs. A. Cooper have lately been visiting at I. Bullock's, Heathton, and at the home of Mrs. Albert Bliss, Judd's Mills.

Messrs. C. L. B. Wheeler and Littlejohn were in Sherbrooke Monday.

Mr. and Mrs. Fred Carr of Newport were at H. McDonald's for the weekend.

Mr. Henry McDonald, Mr. George McDonald and the Misses Gertrude Amber and Katie McDonald spent a couple of days with friends in Holland last week.

Miss Agnes Oliver has been entertaining her friend, Miss Sherman, of Yorkshire, for a few days. They spent the week-end with Mr. and Mrs. Carl Hanson at the lake.

WEST HOLLAND

Miss Lena Mason of Brownington visited Miss Jessie Graves recently.

H. L. Perkins of Stanstead was a business caller in this section recently.

Miss Hazel Stearns is home from Lyndonville, her school having been closed.

Mr. and Mrs. Fred Flynn were called to Island Pond Monday to attend the funeral of his aunt.

Nearly one hundred were present at the dance given by Ora Griggs at the old homestead.

A reception was given for Mr. and Mrs. Jay Lackey on Wednesday, June 23. Jay is one of our native sons, and every one wishes him and his bride, good luck.

The Griggs brothers are having extensive repairs made to the old home, both inside and out. The house will be occupied by Mrs. Todd and family.

On Wednesday evening, June 22, Mildred Blanche Brewer was united by marriage to Harry James Goodall, each of the contracting parties represents one of Holland's oldest and best known families. They are highly esteemed here and have the best wishes of all. A reception will be given them on June 29 at the home of the bride.

Mr. and Mrs. Graves motored to Newport Saturday.

Eugene Perkins is doing carpenter work on the summer home of Hiram Foster at Derby.

The families of Eugene Perkins, Leon Carter and Wm. Musgrove attended camp meeting last Sunday.

Mr. Carl Greene and Miss Doris Bennett attended camp meeting at Beebe.

W. V. Graves attended the meeting of Masons at Christ Church, Stanstead, June 19.

William Gardner is working at F. E. Goodall's.

The Ladies Aid will meet at the church on Thursday.

CARD OF THANKS

We desire to express our heartfelt thanks to our kind friends and neighbors who sent flowers, furnished automobiles, or in any way assisted us during the illness and at the death of our beloved daughter and sister Gertrude. We would especially thank the Girl Guides, of which she was a member.

Mr. and Mrs. Sidney M. Taylor and Family.
North Hatley, Que.

DR. FOOTE DENTIST DERBY LINE HOTEL Thursday, July 7 for the day only

UNION SERVICES

Calendar of Sunday services to be held in the Congregational and Universalist Churches during July.

July 3. Morning worship at the Universalist Church at 11.00 new time. Sermon by Rev. E. L. Conklin. Evening worship at the Congregational church at 7.30. Sermon by Rev. H. Mick.

GRANITEVILLE

Henry Keniston of Manchester, N. H., is visiting his parents, Mr. and Mrs. Walter Keniston.

Mrs. Tom Bacon of Ayer's Cliff visited her son, Mr. Jas. Bacon, the first of the week.

Mrs. Herbert Hand and mother, Mrs. Henry, are visiting at the home of Mrs. Henry's daughter, Mrs. Russell Rediker.

Byron Loney of Georgeville visited his uncle, Mr. Frank Brown, the end of the week.

Quite a number attended camp meeting at Beebe on Sunday.

CASSVILLE

The burial of the late J. Wesley Cass took place at the cemetery on Thursday, Rev. A. E. Hopper of Hatley and Rev. C. Moore of Ayer's Cliff conducted the service. The relatives who attended were his wife and only daughter, Mrs. Arthur Slack, of Sherbrooke, Mrs. M. Leavitt of Hatley, sister; Mr. and Mrs. H. H. Smith, Mrs. Lee Jenkins and Mr. George Bartlett of Rock Island; Mr. Orville Cass and Mrs. Upjohn, sister, and brother-in-law, of Boston; Mr. Anson Heath, a cousin from Derby, was also present. Mr. Cass lived here on his farm for many years and was well known and highly respected as a successful farmer and business man. Much sympathy is felt for the bereaved family.

Mr. and Mrs. Eugene Clifford of Newport are spending a few days at the home of her mother, Mrs. C. Lyford.

Miss Florence Jolicoeur closed a successful term of school here on Tuesday.

More than sixty mounted men and five dismounted passed by here on Monday on the way to the 'camping ground at Ayer's Cliff.

Mr. and Mrs. Wm. Heath attended the funeral of his cousin, Mr. J. W. Cass, at Ayer's Cliff.

Mr. Gordon Thompson has painted his house and Mr. A. E. and Mrs. C. Lyford are repairing their buildings and intend to paint them at once.

MAGOON'S POINT

Mrs. Antoine Cournoyer and son were week-end guests of her parents at Fairfax, and while there attended the marriage of her eldest brother on Thursday, June 23.

Mr. Antoine Cournoyer and Mr. Joseph LaCourse were at Fairfax on Thursday and Friday.

Mr. George Little spent the week-end at Ayer's Cliff.

Mr. and Mrs. W. K. Blake, Mr. Ed. and Miss Lillie Eryou were at Beebe on Friday.

Mrs. Charles Eryou visited relatives and friends in Meredith, N. H., a few days last week.

Mr. Joseph Harman spent the week-end at Beebe.

FAIRFAX

Those interested in the Fairfax Cemetery are requested to meet there next Tuesday (July 5) to mow the grass and clear out the yard. Please bring tools required.

Quite a number from here attended the camp meeting at Beebe last Sunday.

John Ashman, jr., is one of the boys in training at Ayer's Cliff this week.

From an occasional Correspondent. Mr. J. Bertrand, buttermaker at the creamery, was married on Thursday last week to Miss Pepin, Stanstead. They will reside at the creamery.

Mr. Rudolph Corraon, who has been visiting his sister at Ascot, has returned home much improved in health.

Farmers here are getting ready for haying. The hay crop is reported to be very poor in this section.

Mr. A. Y. Smith, who has gone South for the summer, called on friends here last week.

Mr. and Mrs. Henry Whitaker of Brighton, Mass., are spending the summer with Mrs. E. Brown, as is also Mr. L. R. Whitaker, manager of the firm of Purdy and Henderson, engineers and contractors, New York City.

IMPROVED ROADS

ROAD CONSTRUCTION IN 1920

Distinct Shortage of Labor and Higher Cost of Materials Among Difficulties Encountered.

Every kind of road cost about twice as much to build in 1920 as it did in 1917, according to the chief of the bureau of public roads, United States Department of Agriculture, and highway construction suffered more than any other class of work through railroad congestion, strikes, labor troubles, and material shortages.

After the war there was a great public demand for improved roads. Many roads had been seriously damaged by war traffic, and it appeared that the return of men from military service would provide an abundance of

Sand-Clay Road Is Satisfactory.

labor. The army of laborers which we expected to apply for the work did not, however, materialize. On the contrary, there was a distinct shortage of labor, and wages reached the highest levels attained in the history of the country. In 1917, competent labor could be secured for from \$1.50 to \$3 per day, but the corresponding wages in 1920 were from \$3 to \$5 for a shorter day's work.

In proportion to this demand there was also a pronounced scarcity of construction materials. Sand, gravel, stone and cement, and materials commonly used in road work increased in price between 1917 and 1920 from 50 to 100 per cent. Naturally, these increases in cost were reflected in the prices paid to contractors for road work. Gravel roads increased from \$4,535 to \$7,250 per mile; concrete from \$21,165 to upward of \$40,000 per mile, and brick roads from \$33,000 to \$55,000 per mile.

As funds available for road construction are largely limited by statute, or by the returns from taxation, a majority of the states this year have deliberately withheld work, the plans for which had been completed, until they could obtain a greater return for their expenditure.

MORE GOOD ROADS BIG NEED

Will Increase Growing Popularity of Automobiles and Help Build Up Communities.

To determine the average mileage the automobile owner covers in a pleasure trip in the evening after the day's work is over, an investigation among 250 owners in a middle western city of around 300,000 population resulted in an average of 38 miles. Sixty-two per cent stated they would make longer trips if the roads permitted, 85 per cent stated they usually made their trips out into the country.

From these figures it is easy to see that more good roads will increase the growing popularity of the automobile, which will in turn help to build up communities, relieving congestion in the crowded cities, create a wider circulation of money, increase realty values, lower transportation costs and introduce "America First" to more people.

ROAD SOILS DIFFER WIDELY

Just What Characteristics Are Which Make Them Different Puzzles Highway Engineers.

The federal highway engineers point out that soils differ widely in their ability to support loads, particularly when they are wet. Just why this is true and just what are the characteristics which make them different is little understood at present. It is in this field of investigation, of increasing importance because of the growing volume of heavy traffic, that the federal investigators expect to secure important information.

ADVANTAGES OF PAVED ROADS

Give Ever-Increasing Share of Service in Providing Safe Highways for Motor Traffic.

Paved roads are giving an ever-increasing share of service in providing safe, permanent, dependable highways for heavy motor truck traffic, relieving railroads of much short haul, lessening terminal congestion and in these ways making the handling and shipment of supplies much easier.

MASSAWIPPI

A few days ago an automobile from Virginia in passing through here towards Stanstead, after crossing the bridge, instead of keeping the road, plunged through the doorway of Mr. J. Carr and into a wire fence, tearing it down. In its wild course it passed over a blanket on the ground upon which only a few minutes before Mr. Carr's baby had been lying, but fortunately had been taken into the house. The parents feel it was providential that its life was not crushed out. The driver of the auto, being in a state of intoxication, was not allowed to drive on, but another of the auto party took the wheel and proceeded after settling for the damage done. It seems that Government whiskey is as exhilarating as any of the old kind. It doesn't seem to "regulate" worth a cent.

The school-closing took place Thursday afternoon, when several of the parents and friends of the scholars were present to witness the giving of the prizes by Mr. A. Voisard, who has conducted the school in a very pleasing and able manner. We understand that he has been re-engaged to teach the next year.

The W.C.T.U. meeting was held on Thursday at "Rosebank," the home of Mrs. W. Frappied, with a large attendance. Mrs. Glidden and Mrs. W. Foot of the Hatley Union were present; also Miss Duggan of Springfield, Mass., Mrs. Cora Merrill and Mrs. Auger of North Hatley, and Mrs. Chadsey of Ayer's Cliff. The principal thought of the day was, if a repeal of the Scott Act was to be brought on there would be work ahead to do of a vigorous nature. The flag has been raised in Stanstead County but there are those who would pull it down—Shame! At this meeting it was decided to omit the regular July and August meetings as usual and all visit the sister unions in the town, when possible, also to continue the work of the departments during the vacation, that no time may be lost in the strife for right over wrong. A report of "temperance day" at Beebe was given by Mrs. Mosher, who upon that occasion was invited to recite and did so, giving the same (The Great Day) used by her at the medal contest at the county convention at North Hatley. Mrs. E. St. Dizier also reported having attended, and voiced the thought of many that a fine program was presented, under the auspices of the Beebe Union—addresses, music, etc. It was a pleasure to again listen to Mrs. H. B. Tice of the International Union, who gave her medal contest recitation, "Patchwork." The audience listened attentively to both recitations and gave hearty praise. At the close Mrs. Frappied and Mrs. W. Jones served delicious refreshments, with an abundance of strawberries and cream.

The congregation at church Sunday was rather small, owing to several attending camp meeting at Beebe. At the request of the W.C.T.U., Rev. A. E. Hopper will speak on temperance next Sunday, July 3, and all are invited to make a special effort to attend.

The Women's Institute will serve ice cream and cake on the hall lawn, Thursday evening, June 30, at the close of the town public meeting which convenes at 8 o'clock to discuss bridge building and other town affairs.

On Friday a school picnic was held at Burrrough's Falls, and was attended by quite a large number. The day was ideal, the weather a bit warm, the luncheon and ice cream very acceptable. The "Falls," always an attraction, and also the "cave" up the river were visited by nearly all, giving an experience of endurance in climbing and walking a mile or so over stones with the sharp edges up. Never mind; it's over with.

Miss Duggan of Springfield, Mass., is visiting her sister, Mrs. E. Walker, intending to remain several weeks.

Mr. Leon Colby and Miss Jessie Heron of Bulwer were recent guests of Mr. and Mrs. A. Wheeler.

Mr. E. A. Johnston of Springfield, Mass., was a recent week-end guest of his sister, Mrs. J. Gibson.

Mr. and Mrs. L. Colt were at Mr. H. Colt's at Coaticook Sunday.

Mr. and Mrs. Harold Wheeler and two children of Bulwer were guests at Mr. Allie Wheeler's recently.

Mr. Alby Wheeler and wife of Sherbrooke were at his brother's here on Sunday.

WARNING

The trustees of the village of Derby Line issue the following warning: In the case of any motor vehicle or other conveyance traveling faster than twenty miles per hour on the streets of said Village, the owner, operator or driver of such motor vehicle or conveyance is subject to arrest and a fine of not more than \$20, nor less than \$5 for the first offence. No automobile, motor, vehicle or other conveyance shall be parked on south side of street running from the Main street to Library Square, the prohibited space extending from Gilmore block on the Main street to east side of Haskell driveway. Automobiles, motor vehicles, or other conveyances must not be parked in front of driveways or byways on streets of said village. Violators of parking rules may be fined not more than \$5 nor less than \$3 for first offence.

VERMONT ITEMS

The season for taking black bass opens July 1st.

The class of 1871 has just given Middlebury College \$100,000.

Graylawn Farm, Newport, has recently received orders from Japan.

Derby village raised a relief fund of \$216 for the fire sufferers of East Charleston.

Mrs. Gary Rumery and family of Derby camped at Lake Willoughby the past week.

O. C. Taylor Co., Burlington, have filed incorporation papers with capital stock of \$300,000.

Cecil Goodrich and Bailey Moulton of Derby trapped over the "Long Trail" last week.

Camp Winape on Seymour Lake, Morgan, has been opened, and 20 boys are already there.

The Groton Times is to be moved to Woodsville, N.H., and published from that thriving town.

The population of West Burke is about 500 and 46 widows live within a mile of the post-office.

Mr. and Mrs. F. D. Flint of Newport are on an automobile trip to Exeter, N.H., and Boston, Mass.

The Barre Board of Trade is to have its first paid secretary. Now the organization will function.

Charles E. Johnson of East Charleston is rebuilding his grist mill which was burned in the late fire.

Derby village is holding union vesper out-door services Sunday afternoons during the summer.

Mr. and Mrs. Myron Cleveland and their son George of Derby are visiting relatives in Iowa and Minnesota.

At the 1921 commencement 36 physicians graduated from the medical department of the University of Vermont.

Water is the lowest in the power dams of the state since 1908, the year there was so much trouble from low water.

The woolen and cotton mills of the state are now running on full time and orders are coming about as in pre-war days.

Four men were haled into court recently in Morrisville and fined for disturbing the slumbers of residents near the Hotel Randall. \$25 each was the price.

A. C. Gallup of East Charleston is increasing the capacity of his Echo Lake cottage so as to accommodate summer tourists, etc. The location is beautiful.

The celebration of Barton's one hundred and twenty-fifth birthday begins tomorrow. The affair has been extensively advertised and will doubtless draw a large crowd.

Mrs. Lucy Bailey of Newport passed her ninety-third birthday on Thursday. Mrs. Bailey and a sister, Mrs. Nancy Smith, who is 88 years of age, joined in the celebration.

Bradford Memorial Park Association has been incorporated for the purpose of having a park in the village. The names of Harry E. Parker, C. A. Kent, J. H. Stilwell and L. A. Neal appear as incorporators.

Joseph Auld of Burlington, the founder of The Daily News, died Friday. Mr. Auld was very active as a newspaper maker in Vermont for many years. He was born in Prince Edward Island in 1848.

Dr. Franklin H. Page of North Troy died recently at his home at 71 years of age. He was the father of Mrs. Perry S. Dobson. Dr. Page was a frequent visitor at the Three Villages when Mr. and Mrs. Dobson were at Stanstead College.

Captain Sheldon, the new Fish and Game Commissioner seems to sense the true spirit of his department, when he says: "Forestry, good roads and wild life" are the three great lures for getting revenue making tourists to Vermont.

The drive now on for a hospital at Newport has become a county movement for a life saving station at its county seat, and this is due to succeed. If funds sufficient cannot be obtained by voluntary subscription a small tax upon the county should be levied.

Miss Mary Kilburn of Derby, who graduated as a nurse from the hospital in Troy, N.Y., in 1920, has just won one of two scholarships in Columbia University, New York City, and will take a course in social science. Miss Kilburn is the daughter of Mr. and Mrs. Willey Kilburn.

Vermont has 27 newly registered nurses. Naturally the time will soon come when the professional nurse will have keen competition and the present rate of compensation will be forced to a lower level. The motive back of this profession should be love of service at a reasonable wage.

Fifty divorce cases on the court docket of the court of Caledonia county is of course the aftermath of something. Possibly the world was should be charged with it. About so often the cussedness of human nature finds expression in various questionable actions. Most men and some women enjoy making the members of their immediate family uncomfortable about something. The moral quality of the act seems to be quite free from consideration, and marriage seems to be the last thing to class as an obligation.

THE old homestead has listened to the echoing footsteps of the children of three generations. Truly "the plans of yesterday are the fulfillments of to-day"—for the wise precautions taken by the original owner have made it possible for the family life of three generations to continue under the same old roof.

B-H PAINT "ENGLISH" 70% Pure White Lead (Brandram's Genuine B.B.) 30% Pure White Zinc 100% Pure Paint

has been in use throughout Canada for many years as a surface protection against the elements of decay. Even if it were more expensive than other paints it would be more economical, for this safe, dependable paint will last longer than any other paint.

The difference lies in the guaranteed formula—70% Brandram's Genuine B.B. White Lead and 30% Pure White Zinc, a formula of unexcelled merit. B-H "English" Paint is guaranteed to give you satisfaction—it will cover a greater surface—it will not chip, peel or crack. It is the national surface saver.

VERMONT ITEMS

Tuesday, June 21, a DeHaviland government plane flew over the county of Orleans. It was seen at Derby and many towns over the county. Lieut. Samuel P. Mills and Lieut. R. C. Moffatt were in charge of the machine. Lieut. Walter Cleveland of Coventry met Mills and Moffatt and piloted the machine over his home town to give his friends their view of an aeroplane.

Owners of frontage on the shore of Lake Memphremagog are making an effort to have the dam of the Dominion Textile Company at Magog lowered. Several years ago this dam was increased in height about 24 inches to the great inconvenience and damage of property owners along the lake shore. The matter is now in the hands of the engineering departments of both governments. Chairman Gardner of the International joint commission, visited Newport last week and looked over the situation there.

John M. Thomas, who was called from a long and splendid service as president of Middlebury College to the presidency of the University of Pennsylvania, in his commencement address said in a very few words something that should be passed on to the young men and women of today: "I covet for you each one the hardest place of severest toil and greatest sacrifice, for it is in meeting a task, worthy of him and a little larger and more difficult than he can ever accomplish to his satisfaction, that a man finds lasting joy."

It seems to us that it is about time to state the facts relative to the State Highway Commission. Beating around the bush is simply playing into the hands of the bonding, hard road faction. The facts are that the governor got his bill through, no matter how, and proceeded to appoint an intimate friend and S. B. Bates on the commission, the governor being the third member. Mr. Bates is a member of the commission, but the governor and his pal have matters in their own hands and the result of the road policy of the state is chargeable to the governor alone. There seems to be a disposition in some quarters to make Mr. Bates responsible for matters as they are going, but he has been opposed to many of the moves of the board and the records show this fact. However, it is a two to one affair and no appeal. The drain upon the highway fund for official salaries is more than quadrupled by this administration. Mr. Bates has his faults doubtless, but notwithstanding this, he has the reputation of being economical in the disbursements of public money. Stoddard is simply shelved because his mind "doesn't run along with the governors."

AUDINWOOD'S CONDITION POWDERS

The best on the market for keeping the horse in condition.

These powders are given with great advantage when the horse is in a run down condition, lacks strength etc., prevent swelling of the legs, scratches, yellow water, colic, and worms.

These powders are put up in two pound packages with full directions. Price \$1.00.

I also put up a colic cure, guaranteed to cure colic if given before bloating sets in. No horse-owner can afford to be without a bottle in the barn.

A two-pound package of condition powders and a bottle of colic cure sent prepaid to any address upon receipt of \$2.00.

NEED OF BULL ASSOCIATION

County Agent Obligated to Hustle Around and Arrange for Exchange of Purebred Sire.

(Prepared by the United States Department of Agriculture)

"I was in Mecklenburgh county, North Carolina, some weeks ago," says a field man of the dairy division, United States Department of Agriculture, "and had an opportunity of witnessing an incident which throws new light on the usefulness of the bull-association organization. There is an association in that county, and I was invited to 'sit in' at a meeting of the

Bull Associations Should Get the Best Bulls Obtainable.

board of directors. The question of holding a sale came up, and the county agent read a letter he had received from some farmers in another community who wanted to buy stock, and were coming to Mecklenburgh county to see what they could get. The directors appointed a committee to receive them and show them around.

"Thus this piece of business was provided for, and placed in the hands of the right persons. Otherwise the county agent would have had to give up other work he had on hand, and search for some one to whom he could refer the visitors, and go with them. Even then he would not have had the information so readily available as these breeders themselves had it.

"In another county I saw a different thing, which shows how the county agent is loaded down with work where there is no such organization. He had succeeded in getting a number of farmers in different parts of the county to take up pure breeding, and had placed some good bulls with them. These sires had now been used for two years, and a change had to be made. So the county agent found it necessary to hustle around and arrange exchanges among these farmers to keep the good sires at work; otherwise the owners would have sold them, and might have neglected to buy new ones, and might have lost the use of a good bull. If there had been a bull association in the county it would have attended to the business of exchanging, as one of its regular functions, and left the county agent free to take up other important work."

FEEDING VALUE OF POTATOES

Rank Below Good Corn Silage on Account of Higher Percentage of Moisture in Former.

From the standpoint of feeding value for dairy cows, it may be said that potatoes rank below good corn silage. The latter contains about 26 per cent dry matter and the former, about 21 per cent. The chemical composition of raw potatoes and corn silage is very similar. Both contain about 1 per cent of digestible protein and between 16 and 17 per cent of digestible carbohydrates and fats, but potatoes contain somewhat more moisture than well-cured corn silage. Potatoes at 36 cents a bushel would cost \$12 a ton, whereas silage is worth less than one-half that price under present conditions.

PROVIDING SALT FOR COWS

Best Plan Is to Give Animals Constant Supply—Once Each Day Is About Right.

The best way to provide salt for the cows is to give them a constant supply so they have easy access to it. The average cow will use about half a pound a week. If salt is provided daily an ounce each day will be about right, giving more or less according to the demands of the individual animals. Cows giving milk require more than those not in lactation.

INCREASING YIELD OF COWS

Foreign Competition Can Be Eliminated by Better Breeding, Right Feed and Care.

Better breeding, the right kind and amount of feed and good care are the only ways the production of our dairy cows can be increased. When this is done, foreign countries flooding our markets with their butter will have to look elsewhere for customers.

Number of Eggs to Set.

Fifteen eggs are enough for any hen to cover, and during very cold weather or with very small hens, better results will often be secured if no more than 11 or 13 eggs are allowed to each one.

The Barn.

The dairy barn with a lot of expensive fixtures is not absolute necessary.

CALL THESE BRAIN TWISTERS

Try Them If You Imagine You Have a Really Efficient Thinking Machine.

Most people imagine they think quickly and can act quickly. But in many lines of work it is necessary for a person to know whether he thinks and acts quickly, and as proof of his speed demonstrations are required.

No class is required to think more swiftly than men who run trains, street cars or automobiles.

If you want to test your ability to think quickly, submit yourself to the following, which is a test employees of one American street railway are required to take.

With your pencil make a dot over any one of these letters, F, G, H, I, J, and a cross after the longest of these three words: Boy, mother girl. Then, if Christmas comes in March, make a cross right here...but if not, pass along to the next question and tell where the sun rises—. If you believe Edison discovered America, cross out what you just wrote, but if it was some one else, put in a number to complete this sentence: "A horse has...feet." Write yes, no matter whether China is in Africa or not... and then give a wrong answer to this question: "How many days are there in a week?"... Write any letter except G in this space...and then write No if 2 times 5 are 10.... Now, if Tuesday comes after Monday, make two crosses here.... Be sure to make three crosses between these two names of boys: George... Henry. Notice these two numbers, 3, 5. If iron is heavier than water, write the larger number here.... But if iron is lighter, write the smaller here.... Show by a cross when the nights are longer? In summer?... in winter?... Give the correct answer to this question "Does water run up hill?"... and repeat your answer here.... Do nothing here, 5 plus 7 equals... unless you skipped the last question; but write the first letter of your first name and the last letter of your last name at the end of this line.

An unusually alert person can fill in the above correctly in a minute or less. The average person requires about a minute and a half.—Baltimore Trolley Topics.

Ancient Perfumes.

Perfume plays a large part in the affairs of the world—a much larger part than the average person casually thinks. Pleasing scents have had their influence in the affairs of mankind for so many centuries that reference to them may be found in the oldest chronicles.

According to Homer, Circe augmented her charms by anointing herself with various perfumes, and it was by the harmony of these perfumes that she bewitched Ulysses. Violet was the favorite perfume with the Athenians at feasts, funerals and other ceremonies. There were fountains of fragrant waters at the feasts of Nero. The perfumery-makers of the old time combined the scents of roses from Cyrene, violets from Athens, balsams from the orient and henna flowers from Egypt. Incense was burned at pagan rites and in Hebrew temples centuries before the birth of our Lord, and "ardent ver-vain" was offered up by the Gauls in their ancient rites. Great value was given to the use of perfumery in Europe by the returned Crusaders, who learned to value it during their travels and trials in the east.

Prison Forum an Innovation.

Inmates of Great Meadow prison at Comstock, N. Y., are not allowing their temporary withdrawal from society to interfere with their knowledge of the progress of world events. They have established a prison forum and, encouraged by Warden William Hunt, have lectures on political and economic topics and conduct parliamentary discussions on subjects selected by members of the forum.

The members of the forum believe that their organization is the first society of its kind ever formed in any prison in this country. It is conducted entirely by inmates and has a complete staff of officials and committees. Parliamentary rules prevail at all meetings and there is an election of officers and committeemen every three months. Applicants for membership are investigated and then acted upon at a business meeting by secret ballot.

Coins as Metric Weights.

In the Valve World, Howard Richards, Jr., notes a little known fact as to our coinage and the metric system. It was shown at the recent annual meeting of the American Metric association, he says, that the United States subsidiary currency and the nickel are legally defined in terms of grams. A new 5-cent piece weighs exactly five grams, and the 10, 25 and 50-cent silver pieces weigh one gram for each four cents. Two 10-cent pieces will balance one nickel, and all of these coins may be conveniently used as weights or to check metric scales.

Tactful Solution.

"Look at the fine clothes she wears, and the car she rides in! Her husband must be making a lot more money than you."

"That doesn't prove anything. She may merely be more extravagant than you, my dear."

Posted on Foods.

"I guess the doctor is getting back at me for saying he didn't know beans."

"Why so?"

"He has put me on a diet."—Louisville Courier-Journal.

TO WAGE HARD FIGHT AGAINST CORN BORER

Steps Taken to Prevent Spread of Insect Pest.

Specialists in Charge of Work Have Completed Plans for Carrying on Work—Infested Area Borders on Lake Erie.

(Prepared by the United States Department of Agriculture.)

Suppressive measures against the European corn borer are to be applied vigorously this spring in the western part of New York state to test the possibility of preventing the natural spread of this pest. Specialists of the United States Department of Agriculture in charge of the work have completed their plans, which will be carried out in co-operation with state agencies.

The infested area where the experiment is to be tried out borders on Lake Erie and partly on that section of Canada where the corn borer made its appearance last year. The fight is to be carried against the insect while in its winter quarters. The corn stubble and refuse that have been lying in the fields since last year's harvest will be cleaned up and burned.

Meanwhile, as another method of attack, thousands of cocoons of a small, wasp-like insect whose grub has been found to be a parasite enemy of the corn borer are being sent to the United States by a representative of the department who is in southern France studying the enemies of the pest. Thus far about 5,000 cocoons have been received at the Boston office of the department, where they are hatched out and the winged insects liberated in hundreds in infested fields. The European corn borer, which has been known in this country but a few years, is looked upon as one of the most dangerous insect pests that have made their appearance in the United States. Some fears are entertained that it will eventually make its way to the corn belt. Infestations of the pest occur in sections of New York and Massachusetts, where federal quarantine to check the spread of the insect are in force.

CHUTE FOR HANDLING STOCK

Comparatively Easy Matter to Construct Device as Illustrated—Old Wheels Useful.

Farmers who ship many hogs, sheep and calves during the year know the value of a movable chute for loading

Loading Chute on Wheels.

and unloading live stock. Make the chute as shown. A pair of old buggy or cultivator wheels make it easy to handle.

GOSLINGS NEED GREEN FEED

Very Little Grain Is Required Until Fowls Are Fully Feathered—Water Is Essential.

Goslings do not need feed until they are 36 hours old or more, when they should be given stale bread soaked in milk or water, to which finely chopped boiled eggs may be added. Feed three or four times daily for the first two or three weeks, with chopped grass or some other green feed added, this latter to be increased in quantity from the first. Plenty of fresh, clean water should be supplied, and five per cent of fine grit or sharp sand may be added to the feed or kept in a hopper before the goslings.

After two or three weeks, if the goslings have a good grass range, they need only one light feed daily of a mash made up of two parts shorts and one part of cornmeal or ground oats or ground barley. After they are six weeks old, if they still need extra feed, change the mash to equal parts shorts, cornmeal and ground oats, with five per cent meat scrap. Where the pasture is good, many goslings are raised from the time they are two or three weeks old to fattening time without any grain feed, but the addition of a mash as described above is an advantage at all times. Whole grains are not usually fed until the goslings are well feathered.

CARE OF LAWN IS IMPORTANT

Mowing, Rolling, Fertilizing and Watering Have Tendency to Exclude Noxious Plants.

The general care of the lawn is important in controlling all lawn weeds, including crab grass, United States Department of Agriculture experts say. Mowing, rolling, fertilizing, and watering, in other words, everything which contributes to the growth of the desired grasses, will tend to exclude weeds. Purchased manure, because of the seeds contained, is a frequent source of weed infestation in lawns. In sowing, the seed used should be as pure as can be obtained.

MARNE NOW MURKY STREAM

Once Sparkling River Seems to Mirror the Horrors of the Ghostly Years of War.

If Chateau Thierry itself has tried to erase all signs of the occupation, the Marne still reveals its tale of a ghastly yesterday. It was once a sparkling stream flowing through a charming valley that was particularly noted for its wooded scenery. Nowadays the Marne writhes through a valley of tree corpses. Its waters are discolored and foul. Its surface is covered with a thick, oily scum. The stream flows with great weariness, and as though in great pain.

Even then you must look beneath the murky water to appreciate the full horror of the Marne. The story of what this river has mirrored in its troubled waters of yesterday is best told by the accumulation of rubbish that clutters the river bed. There one sees rusted shells and broken artillery pieces, sometimes old shoes, broken rifles, helmets, for the Marne, as those who fought there will testify, is a continuous sepulcher to the unknown dead.

Yet, despite this, the oddest sight in a trip through the valley of the Marne is the gipsy caravan one frequently encounters on the roads. The brilliant colors of their wagon wheels flashing in the sun, contrasts strangely with the dead underbrush by the roadside. At first you wonder why these people, who depend so much on foraging, should select these devastated areas. Certainly the returned peasant has no brass kettle ware for them to mend, and there is little food that the natives can afford to share with the gipsy beggars.

I finally was told the reason for the presence of these odd tourists. It seems that the gipsies have had great difficulty in holding their younger generations to the old roving life. This is particularly true of the young men, who succumb to the comforts and attractions of town ways. So, by way of a lesson, the gipsy chieftains are taking their children across the battlefields. When they reach a particularly desolate spot the grizzled leader points a bony finger and cries:

"See! There is the civilization that lures you!"—George F. Kearney in the American Legion Weekly.

Fine Engineering Work.

A notable feat in road engineering was the recent repair in New Mexico of a section of concrete highway that had been undermined by heavy rains. The engineer of the United States bureau of public roads first placed a shield of brush alongside the guard against further washing, and then quickly substituted a solid built-under bed for the damaged portion of the foundation. Sagging concrete slabs were brought into proper position on wooden stringers raised by hand-operated jacks. All loosened parts of the roadbed were then filled in with wet sand and this was firmly consolidated with a heavy ram worked by four men. Cribbing was placed under the stringers before the jacks were removed. The concrete slabs proved of high quality, and are said to have withstood setting and restoration without development of crack or flaw.

The Sheep-Header's Pay.

A telegram from Kallispell, Mont. (a town of wide horizons and wide-arched sky of fox-glove blue), brings sad news and good. The wages of sheep-headers have fallen with a dull thud from \$100 a month to \$80, but the number of headers is just the same. For here is a life where the wage never was in cash, but rather in that satisfaction men get from far and lonely places, where no elevated trains rattle overhead, and no shrill urchins are "shagged" by the police. To the sheep-header the prairie and the rolling lowlands must ever be the sea to him who longs for the sea. This week and next the little wagons will go off, one by one, into the loneliness and delight of vast Montana. Even at only \$80 per month many will flick their whip as they start and say: "This is the life!"—Christian Science Monitor.

Day of Force Is Gone.

The real dictator has small right for existence these days. This strong-arm stuff is associated with the assassin's method and doesn't reach into man's reason. Anything that is put through by brute force is doomed to failure. To be sure it may live a temporary existence, but sooner or later it is going to run the gamut of reason and public opinion. In some sections this is at low ebb. But taken the nation over, you will find that there is more thinking on things that affect the family harder and the after-supper comfort than most folks realize. It's a mistake to apply methods that suit Russians in a land of freedom like America, where liberty is part of the national inheritance.—Grit.

He Wished to Know.

"The extravagance of the city women is terrible," dismally said Deacon Drown, who was just back from the Big Burg. "Wherever I went in Kansas City I saw them wearing costly silk stockings on every hand, and—" "On every hand?" astoundedly ejaculated Abner Appledy. "Then, what in tunket were they a-wearing on their—er—h'm—limbs?"—Kansas City Star.

No Cause for Alarm.

Young Patrick (kidding red-haired girl)—Say, Sue, don't come too close to me; I might catch fire.

Sue—Don't worry, Patty; green things don't burn easily.—Houston Times.

THE TRIALS OF A HOUSEWIFE

How They Have Been Endured and How Overcome by Lydia E. Pinkham's Vegetable Compound

Experience of a Providence Woman

Providence, R. I.—"I took Lydia E. Pinkham's Vegetable Compound for a female trouble and backache. I began just after my baby was born, and I did the best I could about getting my work done, but I had awful bearing-down pains so I could not stand on my feet. I read in the papers about Lydia E. Pinkham's Vegetable Compound and the good it was doing other women, and I have got dandy results from it and will always recommend it. You can use these facts as a testimonial if you wish."—Mrs. HERBERT L. CASSEN, 18 Meni Court, Providence, R. I.

Ohio woman for three years could hardly keep about and do her housework she was so ill. Made well by Lydia E. Pinkham's Vegetable Compound. Fayette, O.—"For about three years I was very nervous and had backache, headache, dragging-down pains, could not sleep at night, and had no appetite. At times I could hardly do my housework. I got medicine from the doctor but it did not help me. I saw Lydia E. Pinkham's Vegetable Compound advertised in a newspaper and took it with good results, and am now able to do my housework. I recommend your medicine to my friends and you may publish my testimonial."—Mrs. CHESTER A. BALL, R. 15, Fayette, Ohio.

An Illinois woman relates her experience: Bloomington, Ill.—"I was never very strong and female trouble kept me so weak I had no interest in my housework. I had such a backache I could not cook a meal or sweep a room without raging with pain. Rubbing my back with alcohol sometimes eased the pain for a few hours, but did not stop it. I heard of Lydia E. Pinkham's Vegetable Compound, and six bottles of it have made me as strong and healthy as any woman; and I give my thanks to it for my health."—Mrs. J. A. McQUITY, 610 W. Walnut St., Bloomington, Ill.

The conditions described by Mrs. Cassen, Mrs. Ball, and Mrs. McQuity will appeal to many women who struggle on with their daily tasks in just such conditions—in fact, it is said that the tragedy in the lives of some women is almost beyond belief. Day in and day out they slave in their homes for their families—and beside the daily routine of housework, often make clothes for themselves and for their children, or work in their gardens, all the while suffering from those awful bearing-down pains, backache, headaches, nervousness, the blues, and troubles which sap the very foundation of life until there comes a time when nature gives out and an operation seems inevitable. If such women would only profit by the experience of these three women, and remember that Lydia E. Pinkham's Vegetable Compound is the natural restorative for such conditions it may save them years of suffering and unhappiness.

There is hardly a neighborhood in any town or hamlet in the United States wherein some woman does not reside who has been restored to health by this famous medicine. Therefore ask your neighbor, and you will find in a great many cases that at some time or other she, too, has been benefited by taking it, and will recommend it to you. For more than forty years this old-fashioned root and herb medicine has been restoring suffering women to health and strength.

Lydia E. Pinkham's Private Text-Book upon "Allments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

THE AMES GARAGE

All kinds of Repair Work and Overhauling, Bronzing, Welding and Vulcanizing.

Storage Batteries Repaired and Charged. Batteries tested and filled with distilled water free at any time.

Skilled workmen and quick service in all departments. Give us a call.

GEORGE T. AMES, Proprietor

THE BEEBE GARAGE

At your service as usual

A good line of Goodyear Tires—Columbia Storage Batteries—Ford Parts—and Automobile Accessories.

Storage Batteries tested and filled with distilled water at any time without charge.

All kinds of Repair Work and Overhauling. Pass your automobile "grief" on to us.

C. W. BRAINERD, Proprietor.

"NEPTUNE" VICHY WATER

Sources Chateau-Robert, St. Yorre, Vichy Basin, France. Approved of by the Académie de Médecine de Paris.

Recommended in all cases of Stomach diseases, Rheumatism, Gout, Gravel, Nephritic Colic, Colitis, Diabetes, Diseases of the Urinary organs, Arthritis.

VICHY-LEMONADE

Bottled with the natural Vichy water from the springs of Chateau-Robert, near St. Yorre, France.

A delicious beverage, guaranteed to contain pure sugar and lemon juice. The best beverage for children. Nothing is more grateful to the taste, more refreshing, more recommendable for the digestive organs.

On Sale at all Druggists and Grocers.

Wholesale Distributors: LAPORTE, MARTIN, Limitée, MONTREAL.

BARNSTON

Sunday evening, the farewell service held in the Methodist Church was largely attended, many coming from Baldwin's and Way's Mills. Mr. and Mrs. Marten Gibb are leaving Barnston this week for their new home in Compton and bear with them the best wishes of the community for success in their new sphere of action.

Bishop Hamilton of Mid-Japan, who preached at St. Stephen's Church, Coaticook, both morning and evening last Sunday, was, between services, the guest of Mr. and Mrs. Hamilton Corey. Their son, Rev. Hollis Corey, now at Nagoya, is under Bishop Hamilton's jurisdiction, so they enjoyed immensely the many views, etc., of Japan which this delightfully simple minded, simple-mannered gentleman had to show them.

Donald Jenks celebrated his twelfth birthday last Friday by a birthday party attended by his young friends. Among those from Coaticook were Miss Irene Parker and Masters Rodolphe Lajoie and Everett McCoy. It is interesting to note that though Master Rodolphe Lajoie is only fourteen years of age, he is well advanced in Latin and has already commenced Greek. He is a student at the Jesuit College, Montreal, and is in the Syntax year.

The barn of Mr. George Laperle was destroyed by fire Saturday afternoon along with a considerable quantity of hay. Mr. Laperle was absent from home, having gone to Coaticook to deliver a load of calves. The origin of the fire is unknown. This is the second time the barn on that farm, erstwhile known as "The Town Farm," has been razed to the ground by fire.

Mr. B. E. Converse of Orleans, Vt., spent the week-end in Barnston and was accompanied on the way home by Mrs. Converse, who has been assisting in the care of her mother, Mrs. J. L. Thornton, for the past two weeks. Mrs. Thornton's condition remains about the same.

Mr. Herbert McCutcheon, who last week officiated as chef at the Sherbrooke military camp, is, this week, performing a like office at the Ayer's Cliff camp.

Mrs. Gardner Smith is entertaining company from St. Johnsbury, Vt.

Miss Clara Buckland, B.A., who was operated on a week ago Sunday for appendicitis at the Sherbrooke Protestant Hospital, was visited Thursday last by her father, Mr. P. B. Buckland, who reports satisfactory progress towards recovery.

A fourth little daughter was born recently to Mr. and Mrs. Porter (nee Muriel Buckland) of Saskatchewan. Congratulations.

The French-Canadian school was not in session last week, but studies have been resumed this, the closing week.

Miss Esther England is absent on a walking trip through the White Mountains. She is accompanied by the Misses Tomkins of Coaticook.

Mr. and Mrs. C. T. Adam were at Ayer's Cliff at Mr. Hand's both Saturday and Sunday.

Extra fine cauliflower plants for sale. Mrs. J. N. Jenks.

NORTH HATELY

Mr. A. J. Conner had the misfortune to have his Granby open buggy stolen from his premises last Thursday night.

Mr. and Mrs. Ralph McKee were given a reception at the home of his parents, Mr. and Mrs. James McKee, on their arrival from Montreal, on their honeymoon. Unfortunately their stay at the parental home was cut short by the news of the serious illness of the bride's mother, Mrs. Fessenden, in Montreal.

Miss Hazel Tait spent the week-end with friends in Sherbrooke.

The Ladies' Aid met this (Thursday) afternoon with Miss Abbott and Mrs. Murdoch.

Mrs. Murdoch and two daughters of Montpelier are spending the summer with her aunt, Miss Abbott.

Mr. C. A. Carr and Mr. Meyers of Three Rivers were recent guests at Mr. D. A. Carr's.

There is to be a dance in the town hall on Saturday evening, July 2nd. Turcott's Orchestra will furnish music.

Mrs. H. Lantagne recently underwent an operation on her nose, at Sherbrooke and is now much better.

Mrs. W. E. Hawee spent Sunday with her father at Moulton Hill.

Summer guests are arriving fast these days.

Mr. W. H. Seymour, Mr. Percy Ryland of Foster, Mrs. L. P. Crafts of White River Junction and Mr. Albert Seymour and Miss Delcie Seymour were here recently.

Owing to the continued drought, quite a number of farmers have commenced haying and report a very light crop.

Mrs. J. B. LeBaron and Mrs. A. C. LeBaron attended the annual convention of the Women's Institute at Macdonald College.

Miss Marion Crawford of Seerbrooke is spending a few days here.

The Presbyterian Sunday School picnic from Sherbrooke held in the park here last Saturday was very largely attended.

The Women's Institute and Farmer's Club are having a picnic here in the park on Dominion day. Speakers from a distance will be present and a very pleasant day is anticipated.

TOMIFOBIA

Mrs. Edward Russell, who has been very ill for several weeks, passed away on June 24. The funeral was held at the home the following Sunday morning, Rev. R. W. Carr conducting the service. The bearers were four sons of Mrs. Russell. The Methodist choir sang two appropriate hymns. Mr. L. O. Cass of Beebe had charge of the funeral. The body was taken to Cherry River for burial in the family lot. Mrs. Russell leaves a husband and several sons and daughters and their families to mourn her loss.

Several from here attended camp meeting at Beebe on temperance day and Sunday, and report fine addresses and a good attendance.

Mrs. Sibyl Hibbard and children are visiting Mrs. Hibbard's mother, Mrs. Emma Kenerson.

Mrs. T. Molyneux and son of Sherbrooke and Mrs. J. Molyneux of Waterville were recent guests of Mr. and Mrs. C. A. Baldwin.

Mr. E. O. Vancour has his new building nearly completed and intends to move in soon.

Rev. Dr. Ritchie of Montreal will preach in the Methodist Church next Sunday afternoon at 2.30, new time, instead of evening as it was announced, two weeks ago. Dr. Ritchie is a very talented speaker and a good attendance is looked for.

Mr. and Mrs. R. W. Allen attended the wedding of the former's brother, Mr. Lloyd Allen, and Miss Hazel Peasley at Georgeville on Wednesday evening.

The many friends of Mr. H. W. Merrill were very sorry to hear that he had met with quite a serious accident by falling while at his work, and as a result is confined to his bed. His friends hope for him a speedy recovery.

Mrs. W. Bachelder of Stanstead, who has been the guest of her daughter, Mrs. Allen, and family for the past week, has returned home.

Mildred Reeve is visiting her uncle and aunt, Mr. and Mrs. J. Smith, near Fitch Bay.

Mr. H. L. Bigelow of Boston, Mass., is visiting his brother, Mr. F. H. Bigelow, and other relatives for a few days.

From another correspondent

On Monday evening, June 20, about forty friends and neighbors, gathered at the home of Mrs. C. A. Jenkins, as a surprise to her son Lee, whose marriage to Miss Smith of Stanstead recently took place. It was at first planned to surprise them at their cottage at Lake Massawippi, but later thought best to have it at his mother's home. The rooms were beautiful with an abundance of flowers, the decorations being carried out in pink and white roses. During the evening, on behalf of their friends, Mrs. W. Libby presented the bride and groom with a purse of money. Mr. Jenkins thanked them in a few well chosen words. After congratulations a bountiful supper was served by Mrs. Jenkins, assisted by Miss Grace Ticehurst and Mrs. W. A. Libby.

Mr. Gordon Howard of Pennacook, N. H., and party of friends were week-end guests of his parents, Mr. and Mrs. T. G. Howard.

Mrs. L. T. Reed of Boston has arrived in town to take possession of her cottage, "Camp Welcome."

Mr. Roy Ellis and Mr. Sherwood of Newport, Vt., accompanied by Mr. W. A. Libby of this place motored to Bury on Tuesday.

Miss Grace Ticehurst has returned from Montreal, after a most enjoyable three weeks' visit with her friend, Miss Grace Munroe.

Mrs. Gale Billings and two children of Newport, Vt., was recently the guests of her parents, Mr. and Mrs. J. M. Reed, before her departure to Montreal, where she intends making her home.

We are all very sorry to hear that Mrs. J. Lunderville is very ill again.

Mr. R. Odell of Capelton is in town recently on business.

Mr. and Mrs. Harry Hunter of Richmond spent the week-end at their cottage, Camp Comfort, on Lake Memphremagog.

Mrs. J. S. Derrick was the guest of her son, Mr. Mack Derrick in Orleans, Vt., on Friday.

Mrs. W. A. Libby entertained the United Guild of Griffin on Wednesday afternoon.

Mr. and Mrs. B. C. Howard of "Howard's Island," Lake Memphremagog, were Sunday guests of Mr. and Mrs. T. G. Howard.

Mrs. Alex McKay and Mrs. R. A. Temple attended the convention of the Women's Institute at Macdonald College.

Meers. O. F. and H. A. Ticehurst have recently purchased the Channel block at Stanstead and intend taking possession of same by the first of August, where they will build a large and modern equipped garage, which has been a long-felt need to the traveling public.

Mrs. George Pomeroy of Kincoid, Sask., is the guest of her parents, Mr. and Mrs. W. A. Comstock.

Mr. Hanes of Beecher Falls is the guest of his daughter, Mrs. Edward Burbank.

Mrs. C. A. Jenkins is at "Camp Comfy," Lake Massawippi, the guest of Mr. and Mrs. C. L. Jenkins.

The Women's Institute held a very successful strawberry festival on June

21, at the home of Mr. and Mrs. F. H. Bigelow. About \$36.00 was realized.

Mr. and Mrs. L. E. Carpenter left on Friday morning for a motor trip to Concord, N. H. They were accompanied by Mrs. W. H. Lunderville, who was a recent guest of Mr. and Mrs. J. Lunderville.

Listen for wedding bells.

The W. M. A. will meet with Mrs. William Ketcham on Tuesday afternoon, July 5, and take up the subject of Stewart of Lovedale. Leader, Miss Iva Blake. A hearty invitation is extended to every one to come to the supper following, which is to be provided by the Ladies Aid.

One of the most enjoyable events which has taken place in our small town in a long time was staged at Fairview hall, Wednesday evening, when forty or fifty of the friends of Clifton Temple met to do him honor upon the occasion of his attaining his twenty-first birthday. The evening was pleasantly spent with dancing and and five hundred. After lunch was served Mr. E. E. Temple of Ayer's Cliff, on behalf of the friends assembled, presented the guest of honor with a purse of money also some well chosen words of advice. Clifton was also the recipient of a beautiful Hamilton gold watch and chain from the family, and a birthday cake decorated with 21 candles, for all of which he expressed hearty thanks. As a parting of goodwill Clifton was invited out on the lawn where he received a good bouncing.

GEORGEVILLE

Miss Alice Pearce of Roxbury, Mass., is staying at the Marsh house for a few days.

Mr. Getzler and two daughters, Miss Boivin and Miss Ste. Germaine of Montreal are at Cedar Cliffs for the summer.

Mrs. C. C. Copp and daughter, who have spent the past two weeks with Mrs. William McGowan have returned to their home at Derby Line.

Mrs. J. E. Davidson spent a few days in Richford, Vt., last week.

Miss Agnes Chamberlain of Oliver was in town Monday, en route to Boston and Worcester.

Mrs. F. Marshall and two daughters of Montreal were in town last week to attend the Peasley-Alen wedding and were guests of Mrs. W. E. Peasley.

Mrs. H. A. Packard spent a few days at Beebe the past week.

J. A. Davidson and J. E. Davidson motored to Richford, Vt., for the week-end.

LeRoy Tuft of Montreal is a guest at F. A. Rexford's.

Victor Hetherston of Cambridge, Mass., arrived at "Camp Margaret" on Sunday.

Mr. N. A. Beach of Derby Line is staying at Beechwood for a few days.

A quiet but very pretty house wedding was held at Mr. Leonard Peasley's on Wednesday, June 22, when their only daughter Hazel was married to Mr. Lloyd Allen, of Vankleek Hill. The bride, who was unattended, was tastefully attired in white silk and wore a white veil, carrying a beautiful bouquet of white peonies. At the appointed hour, the wedding march was played by Mrs. Sherwood Kimpton. The bride entered the room with her father to join the bridegroom under an arch of evergreens and flowers, where the impressive service was conducted by Rev. R. Wilson Carr of Fitch Bay. After the marriage ceremony the guests repaired to the dining-room, where a sumptuous wedding repast awaited them. The bride was the recipient of many useful and costly presents, among them being a fine case of silver, the gift of a cousin, Mr. Louis Pelkie of Bangor, Me. The happy couple will reside at Vankleek Hill, Ont.

MAGOG

A parlor meeting under the auspices of the W.C.T.U. was held at the home of Mrs. Manning on Tuesday evening, June 21. Mrs. Ball, the president, presided. Mrs. Manning had charge of the devotional exercises, after which some matters of business were disposed of. Mrs. R. R. Merrill gave a good report of the county convention. Mrs. A. E. Smith presented the county prizes to two of our school girls for essay work, Miss Winnifred Merrill and Miss Muriel Ball being the successful ones in their grades. The hostess served refreshments which brought to a close a pleasant and profitable evening.

Mrs. W. B. Buckland returned to her home in Barnston on Tuesday, accompanied by her mother, Mrs. Colburn, who will remain with her a few weeks.

Mrs. Abbie Ayer from Los Angeles, Cal., is visiting friends in town. Mrs. Ayer (nee Abbie Drew) formerly of Apple Grove and Georgeville, will be remembered by many old friends.

Mr. and Mrs. Moore and daughter May, also Mrs. Geo. Caldwell from Stanstead, were recent guests of Mrs. Manning.

Miss Helen Sheddick of Montreal is at home for the summer vacation, as is also Miss Claire Donald.

Quite a number from here spent the week-end at the Beebe camp meeting. Masters Leland Adams and Ralph Merry from Stanstead College are at their homes for the summer vacation.

Rev. S. W. Boyd accompanied the boys from the town to the camp at Ayer's Cliff.

HARVEST TOOLS

AT William M. Pike & Son's

THE STORE OF DEPENDABLE GOODS SOLD IN A DEPENDABLE WAY

ROCK ISLAND,

QUEBEC

"Come out of the Kitchen"

You are not needed there. The Electric Range

with a swiftness and efficiency almost like magic, is preparing such a dinner as the old coal stove could never aspire to.

Of course you used to have to spend hours in the kitchen drudging over dinner—watching that the old stove with its uneven temperature did not burn your meal to a sizzle. How you piled in the coal, got cinders into everything, turned dampers off and on—all in the big struggle to cook a meal.

But the Electric Range has come like the dawn of a new day. Results—better cooking, hours of leisure, a clean, spotless kitchen—and all at a saving of time and labor as well.

SAVE MONEY ON DRY GOODS

Everything in our stock is now offered at a discount of 35 per cent. Remember, this is a genuine Reduction Sale. Cut the cost of living by patronizing us.

GEORGE LACASSE

GARDENS

Attractive gardens planned and planted. MISS S. L. BOND, Stanstead, Phone 238.

FOR SALE

New Granby Light Concord Wagon with hard rubber tires. For particulars apply to H. T. Baid, Rock Island.

LIVE STOCK FACTS

PARASITES CAUSE BIG LOSS

Injury From Insects Is Greatest Among Lambs and Young Sheep—Ways to Prevent Diseases.

(Prepared by the United States Department of Agriculture.)

Sheep probably suffer more than any other kind of live stock from parasites. They are practically immune to tuberculosis, which is one of the serious ailments of cattle and swine, and among sheep there is nothing comparable to the devastating outbreaks of cholera among swine. Sheep have comparatively few bacterial diseases. Nevertheless, there is a steady loss of sheep in all parts of the country and this loss is mostly due to parasites.

It is the sheep owners' business to prevent disease rather than to attempt to cure it after it has made its appearance. While there are special treatments for the various diseases which makes it advisable to call a competent veterinarian, there are a number of ways to prevent diseases caused by parasites. Among these pasture rotation, use of forage crops, feeding from racks or board floors, draining or filling swamps, and preventing wandering dogs from getting into the flock. Permanent pastures perpetuate parasites, it is stated. The eggs of internal parasites pass from the animals in the manure and the pastures become infested. The proper disposal of the manure will aid in preventing this.

Damage from parasites is greatest, as a rule, among lambs and young sheep. Hence, it is important to pay special attention to the care and handling of lambs and yearlings. Prompt action to ascertain the cause when sheep become unthrifty will often prevent serious loss.

Parasites of sheep are divided into two general groups, external and internal. Among the former, lice, sheep ticks, and scab mites are the most common. One application of sodium fluoride in the form of a powder rubbed into the skin will kill biting lice, but not sucking lice. Both kinds of lice, sheep ticks, and scab mites

Where Pasture Is Abundant Sheep Need No Other Feed.

are destroyed by dipping the sheep. For lice and sheep ticks a number of dips are recommended in the bulletin, including coal tar creosote, cresol, and nicotine, or nicotine and sulphur. For scab mites the official dips are lime-sulphur and nicotine-sulphur dips. Arsenical dips are not well suited to sheep dipping. All places which have been occupied by lousy sheep should be regarded as dangerous from this standpoint for a period of three weeks; if occupied by ticky sheep, as dangerous for two months; if occupied by scabby sheep, as dangerous for a month or two in the case of pastures, and a year or more in the case of buildings. Quarantine measures are essential in eradicating scab.

The most common internal parasites of sheep include tapeworms, flukes, roundworms, and a few other forms such as maggots causing grub in the head, the tongue-worm and the one-celled protozoa. One of the most common of these is the grub, infestation with which can be largely prevented by smearing the nose of the sheep with a preparation made of equal parts of tar and grease, or tar and fish oil. Other important internal parasites discussed in the bulletin are tapeworms, the old parasites, hydatid, liver flukes, stomach worms, nodular worms, hookworms, and lungworms. Of these, certain tapeworms are fairly common over the entire United States; one tapeworm occurs only in the West; old is most prevalent in Montana; liver flukes are most common in the Gulf states and the Pacific Coast states; stomach worms and lungworms take a heavy toll in sheep in almost every state in the Union, and nodular worms and hookworms are common in the South and East.

FULL VALUE OF BUTTERMILK

Particularly Advantageous When Fed in Connection With Corn or Other Feeds.

The greatest or full value of buttermilk and skim milk for feeding is secured only when fed in connection with other feeds. Buttermilk fed alone to pigs does not give the results it does when fed in connection with corn.

Best Practice With Manure.

Hauling manure direct from the barn and spreading it on the field at once is the best practice in handling manure.

Get Collar to Fit.

Get a collar that fits the horse. A good collar costs money but a horse with a sore shoulder will cost money also.

SWIFT AND SLOW MOVEMENTS

Some Interesting Comparisons Made of Speed of Travel of Various Familiar Things.

The swiftest speed we know is that of light—186,000 miles a second; the slowest is that of the human thumb-nail, which grows 2-1,000,000ths of a yard a second.

This from Science and Invention, which makes some more speed comparisons, as follows:

A cannon ball has been fired at a speed of 2,000 miles an hour.

A bamboo tree grows 27-10,000,000ths of a yard a second.

The earth speeds around the sun at 65,533 miles an hour.

A snail moves 15-10,000ths of a yard a second.

De Romanet flew an airplane on November 4, 1920, 133 miles an hour.

Tommy Milton's motor car traveled one mile in 23 plus seconds, or 136 miles an hour.

An electric train in tests between Berlin and Zossen made 130 miles an hour.

Railroad engines have made 120 miles an hour.

Ice boats glide two miles a minute, or 120 miles an hour.

The motor boat Miss America has made 76,655 miles an hour.

Destroyers make 48 miles an hour.

A man has skated 27 1-3 miles an hour, run 13 1-2 miles an hour, walked 9 1-2 miles an hour.

CHINESE HAVE OWN COURTS

Oriental in This Country Administer Justice Without Troubling the Regular Tribunals.

Completely isolated from any interference from the occidental officers of the law, the Chinese have their own courts of law. Criminals against this code, when punished, are not hailed before the white man's tribunal. As conclusive evidence, examine the dockets of any court, in an attempt to find where one Chinese has issued a complaint against another, say the police. Quick execution, under the busy life of downtown Portland, is said to have been meted out to many men, while milady shopped above.

At any rate, that is the gist of one of the many tales told about police headquarters concerning Portland Chinatown, by an "unchow" who should know. Most of the police are aware of the suspected existence of the tunnel. The numerous raids against gambling dens, which to the public are more or less routine affairs, are tinged with the thrill of adventure for the police, who wonder which one of their number will be the first to discover one of the entrances to the mythical passageway.—Portland Oregonian.

Solidified Oil Economic Fuel.

French chemists have announced that they are meeting with signal success in the effort to save and conserve the fuel supply by a process which solidifies the oil and makes it in this shape much easier to handle and economical to burn as fuel.

At no distant date, it is promised, it will be possible to use the new product as substitute for heavy fuel oils in furnaces, locomotives, and for other industrial purposes where coal conservation is a big issue.

Not only will the product not be affected by changes of temperature, but it will also withstand combustion unless in direct contact with flames, while it is easily extinguishable by water.

Preliminary samples already produced have proved too costly.

Looking Ahead.

Here is a new Northcliffe story from "The Mirrors of Downing Street." The eminent editor had a caller who raised his hat and made a profound bow to the elevator boy as the two men, Northcliffe and his friend, went up to the editor's rooms. When they came down the friend again raised his hat and bowed low to the boy. Northcliffe remonstrated with him.

"You shouldn't joke with these boys," he said. "It makes discipline difficult."

"Joke?" exclaimed the caller. "Good heavens, I wasn't joking. How do I know that tomorrow that boy will not be the editor of the Daily Mail?"

As It Was Pronounced.

"You have made a big mistake," said the boss. "I never saw that word in my life. It may mean 'solidified,' but even that word doesn't apply."

"But that is what you dictated," replied the stenographer, spelling and pronouncing from her notes.

"Ah, yes," returned the man, "I understand now. I said 'hona fide,' but I didn't expect you to spell it 'hondified.'"—Houston Post.

New Orleans Anniversary.

In 1923 the two hundredth anniversary of the formal elevation of New Orleans to a capital city, with the historic Place d'Armes as its civic center, will be celebrated, and by that time it is hoped not only to have Jackson square and its surroundings duplicate its ancient arrangement but also to duplicate the ceremony which marked the occasion as memorable as any in American civic history.

Fox Aids Farmer.

Besides such poultry as they capture, foxes are very fond of field mice and destroy thousands of them; in this way they are a positive benefit to the agriculturist, says the American Forestry Magazine. They also catch and eat many woodchucks—the latter standing in the utmost fear of them.

TAILORED SUITS ARE CHIC

With the reduction in the price of cloth and the large variety of cloths being offered, suits are beginning to regain their lost popularity. This is a smart, spring tailored suit of covert cloth.

STYLE IN ROBES DE NUIT

Voile Outranks Silks in Paris for Negligee; Net is Used Extensively in Underclothes.

Although the shops in Paris show quantities of colored undergarments, they are more often of voile than of silks such as are seen in this country. Net footing and inset motifs of net are used extensively in the colored as well as the white underclothes.

Ever so many of the new French combinations of corset cover and petticoat button down the back. This gives an opportunity of introducing plaiting in the full length of the front—and plaits appear to be very desirable in the new underwear. Plaited underslips and even chemises of yellow voile are made in this way and often have another shade, such as pink or blue, introduced in the form of shoulder straps or a ribbon trimming.

One wonders if the nightgowns developed in colors were not originally intended to be worn as midsummer negligees. For instance, one is in pale pink triple voile and has narrow band trimmings of mauve georgette crepe and taffeta bows of matching hue. To accompany this there is a little cap in crown form made of the pink material and trimmed in the same manner as the gown.

DECORATION FOR THE HOME

Seed Pods and Grasses May Be Beautifully Tinted as if by Fairy's Wand.

Seed pods and grasses are popular as a decoration in the home now because of their new polychrome colorings.

Such tints as bronze, silver, gold, green, blue, crimson and brown are painted quickly on lotus pods and leaves, magnolia leaves and are very showy. Two tints are often applied to give a very fascinating iridescent effect. Thus, a spray of leaves is touched with blue and silver, crimson and purple or bronze and gold just as if a fairy's wand had been waved.

These painted sprays are also attractive combined with artificial flowers to supply foliage. Silvered sprays, particularly, are effective added to most any bouquet.

LATEST PARIS FASHIONS

Paris is showing flower toques for summer wear, most of these shapes being small rather than large.

Dinner gowns of black are most effective when brightened by some brilliant color, in the form of sash or girdle, or a flower arranged to adjust drapery, or as a foundation slip. Most of these dresses are of lace or net, or a combination of the two, of beaded net, embroidered georgette or crepe de chine.

Hats of crepe de chine, lace trimmed, are a Paris innovation. Taffeta hats are in excellent taste, especially where shot taffeta is used, and hats of georgette continue to be in vogue.

Smart street frocks developed in a combination of taffeta and check gingham are a new development in spring and summer dresses. For instance, on a gingham skirt is posed a straight hanging frock of taffeta with low round neck that shows a yoke of the gingham and skirt slashed into panel to reveal the underskirt of gingham.

Dress hats of malines and of lace are developed in the dark shade of brown and are said to be much in demand by those whose complexions are not well suited to an all-black hat, where the materials lack a brilliant gloss as with fancy luster straws, satin or panne velvet.

Hand-made flowers of self-material are the simple, yet effective trimming used on some very youthful dresses of colorful organdies, intended for graduation trousseaux, so to speak.

THE SHADOW FOLK OF TAHITI

Pretty Legend Full of the Peculiar Romance of the Fascinating South Seas.

We were in the land of the Little People of the Shadows. We had been told that we must offer them all our possessions, but that they would take for themselves only the shadows of the things they wanted. So we put slender sticks on the ground, all along the open side of our room, between the high tree-roots, and hung on them our tapa garments, our necklaces and ornaments of feathers and of pearl and of green jade-stone. One precious thing we could not offer them, and that was the bracelet of iridescent pearl-shell set with cut's eyes of the sea. It had been put on my sweetheart's arm when she was a little girl, and now she could not take it off.

We hoped the Little People of the Shadows would understand that the bracelet also would have been offered them if it had been possible. I feared—and resolved to stay awake, to protect my sweetheart if they did not understand, but I was tired and soon fell asleep on the soft mesa beside her warm body.

Suddenly I awoke. The Ribbons of Light were all about, going and coming, rolling and unrolling, lighting up the open spaces, where hundreds of the Little People were carrying off the shadows of all the ornaments we had hung on the slender sticks. They were dancing in the light of the Rolling Ribbons, and the place where my sweetheart had been lying was no longer warm.

She was dancing in the midst of the Little People. . . . I saw my sweetheart—my full-bodied woman, my beautiful one, the Flower of the Mountain—becoming smaller and smaller.

. . . She became as a little child. As the bracelet of shining pearl slipped from her tiny wrist, the Little People picked it up and hung it on one of the slender sticks, where its cat's eye glowed. Soon, as they danced, my sweetheart, was no larger than the other Little People and was among them.

The Ribbons of Light rolled away among the trees and all was dark again. The Shadow Folk were gone; my sweetheart was gone to be with the souls of all the other people who have been lost in the forests of purple Orohena.—From the Shadow Folk: A Tahitian Legend, by E. Lloyd Sechrist, in Asia Magazine.

Has Own Idea of "Progress."

A different idea of progress from that usually held is given by A. Edward Newton, who, in the Atlantic Monthly, writes: "I was dining once in London, quite informally, with a great electrical engineer, a very trig maid in attendance. On the table near my host's right hand was a small block of white marble and a tiny silver mallet. When he wanted the maid he struck the marble a resounding blow. I was somewhat amused and asked him if he had ever heard of a push-button for the same purpose. 'My boy, I have,' was his reply, 'but I get enough of electrical devices in the city; I don't want a single one of them in my own home. I've not yet come to using gas; I prefer candles; they are not so likely to get out of order. I hate this pushing a dimple and waiting for something to happen. When I make a noise myself I begin to feel a sense of progress—that's what we stand for in this country—with a knowing wink—'progress.'"

"Safety Net" Worked Well.

The thrilling rescue of a four-year-old boy occurred in Brooklyn a short time ago. The boy had his tonsils and adenoids removed and was on the third floor of a hospital. The nurse left the ward for three minutes and when she returned she missed the child. The little patient had climbed to one of the windows, squeezed through the bars and was hanging outside. The flutter of the child's nightie attracted the attention of passers-by. Two young men stripped off their coats, knotted them together by the sleeves, and stretched them out as a makeshift safety net. A moment later the boy's grasp on the window ledge relaxed and he went hurtling down. But the safety net proved effective and he dropped into it unharmed.

Old Almond Trees Bear Well.

That age is one of the assets of an almond orchard in point of bearing is claimed by Edward Wyckoff, pioneer resident of the Woodland district, who has on display in the board of trade rooms limbs from almond trees on his place planted in 1857 by his brother, David Wyckoff, former sheriff of Yolo county, writes a Woodland (Calif.) correspondent. Though 64 years of age, the orchard is the best bearing in the valley and the trees are strong and virile. Records of the production are being kept for grandchildren that they may make some comparisons of crops when the orchard reaches the century mark.

People Lacking Curiosity.

If there is a skeleton in your closet, rest assured that the few inhabitants of Easter Island, 2,300 miles off the coast of Chile and the easternmost inhabited Polynesian island, will make no effort to bring it forth into the light as one traveler says of them that they are not curious enough to turn around on the dock to look at the boat that calls there about once in eighteen months. Gigantic statues, stone houses and sculptured rocks, relics of an ancient people, are found on the island. —National Geographic Society Bulletin.

VACATION TIME

It is the Good Old Summer Time again, and soon you will be starting for your annual outing. When you turn the key in your door won't you regret leaving your silver or valuables unprotected from fire or theft?

Our Storage Vault will enhance the pleasure of your trip, if you use it. Plenty of room for silver, clothing, rugs or other valuables. Charges reasonable.

BEEBE

Mr. F. A. Goddard, who has been disabled for several months owing to a surgical operation performed at Portland, Maine, has resumed work and is located at Sherbrooke for the summer months, as telegraph operator at the Grand Trunk station.

On Monday, June 20, the pupils of the Academy Department enjoyed a delightful car ride. The day was perfect. The pleasure of the afternoon was due to the kindness and courtesy of the following who gave their time and provided cars: Messrs. Stewart, Wilkinson, Kirwin, Robertson, Akin, House, Crook, Bachelder and Lavers.

The pupils of the Beebe Academy gave one of the most delightful "proms" of the season on Monday evening, June 20. The principal, Mrs. H. M. Avery, and the students of the school made every preparation, leaving nothing to be desired in the way of decorations and delicious refreshments. Mr. William Hazelton, chairman of the school board, acted as director of the "prom," and all details were carried out in first-class style. One of the features of the affair was the music by the Orchestra of the Island Pond High School, which was composed of Miss Bernadine Sargent, Richard Boyce, John Lafontaine and Ernest Bresse. The work of these young people won many favorable comments. Many of the leading people of Beebe were present, as well as the Scout Troop, under Commissioner Russell. Every one present voted the affair a great success. Miss Osbourne and Scout Kezar of North Hatley were among the visitors. This pleasant evening was a fitting close to the year's hard work.

NEW BOSTON

The crop outlook in this section is better than the average.

The young folks party at Austin Smith's was well attended.

Mr. and Mrs. A. A. Bachelder and family motored to St. Johnsbury recently to visit Mrs. Bachelder's sister and family. They report crops in that section as being poor.

Harry Whitchee has been entertaining the measles the past week.

A number from here attended the camp meeting at Beebe.

Mr. and Mrs. Smith and John motored to Glover Saturday, accompanied by Mr. Smith's nephew, George Smith, who bought some Holstein cattle at auction.

Reports from Detroit regarding the condition of Mrs. James Hill (nee Mildred Wallace) are satisfactory, considering the weak condition she had reached, having quick consumption and meningitis.

A house warming will be held at Mr. Horner's, Heathton, a number from here having been invited.

George Wallace was at Coaticook Monday on business.

Myron Hill of Barford has been visiting at Cedarville for a day or two.

HEHTHTON

Mrs. Julia Clifford and son, Cortez Clifford, attended the Corlies-Washburn wedding in Coaticook last Wednesday.

Mr. Clayton Holmes is building a new barn. Robert Perkins is the contractor.

Mr. and Mrs. A. Cooper and Mrs. Fred Chesley of Way's Mills were at J. C. Bullock's a few days last week.

Quite a number from this place attended the Beebe Plain camp meeting.

Mr. and Mrs. C. D. Davey of Connecticut are with his mother, Mrs. Mary Davey, for a few weeks.

Mr. C. E. Davis from Boynton was at the home of Mr. E. A. Davis here one day last week.

Our school closed on Friday for the summer holidays. Miss Jessie McIntyre has been engaged to teach here the following year.

Quite a number of boys from around here are drilling at Ayer's Cliff.

Mr. and Mrs. G. Keeler and two children of Beebe were at K. D. Cooper's recently.

Mrs. E. Humphrey of Dixville is at the home of Mr. P. L. Ellis for a few weeks.

Mrs. Clayton Holmes attended the convention in Montreal, being sent as a delegate of the Women's Institute at Way's Mills. She reports a very pleasant trip.

The school worked with much enthusiasm collecting for the "Mile of Pennies," under the supervision of Mrs. Fritz Lovell, Coaticook. Total collected \$16.45. The prize was taken by Mildred Davis, who collected \$7.46, followed by \$7.11 collected by Helen Davis.

The Ladies Aid will meet with Mrs. K. D. Cooper, Thursday, July 7, for tea. Invitations are extended to all.

HEATHTON SCHOOL

Rank of standing:
Grade VII, Jr.: Avery Davis, Helen Davis.

Grade V Jr.: Mildred Davis, Ruth Davis, Melville Davis, Margaret Garland, absent.

Grade III Jr.: Ernestine Davis, John Westbrook, Moody Davis, (Hector Duquette, Alphonse Duquette, Lulu Belknap, absent).

Grade I: Merton Davis, Alfred Davis, (Jesse Parker absent).

Enrollment 15, average attendance 12. Teacher, Mrs. K. D. Cooper.

HATLEY

Mrs. J. Smith was a recent guest at the home of her brother, Mr. Edward Pellerin.

Messrs. Thomas Smith and Ernest Pomroy of Montreal spent the week-end at the Pellerin homestead, coming by motorcycle.

A large number from this place attended the Beebe camp meeting on Sunday.

Mr. and Mrs. Chalk and family are guests of her mother, Mrs. E. Howe.

Mrs. O. H. Glidden was the guest of Mr. and Mrs. A. E. Gage at their Newport farm recently.

Misses Alice Schoolcraft and Mable Glidden spent the week-end with friends in Beebe and Derby Line.

A daughter was born to Mr. and Mrs. Bradley Hartwell on Sunday afternoon, June 26.

Mr. and Mrs. Fred Young, Miss Martha Young and Mr. Albert Young were guests of Mr. and Mrs. C. P. Young on Sunday.

BALDWIN'S MILLS

The marriage of Mr. Alfred Corlies and Miss Viola Washburn took place at the Methodist Church, Coaticook, June 22. Mr. Lloyd Lyons acted as "best man," and Miss Myrtle Washburn, sister of the bride, as bridesmaid. Immediately after the ceremony they drove to the home of the bride's parents, Mr. and Mrs. W. C. Washburn, where dinner was spread by Mrs. A. O. Lyons and Mrs. H. L. Baldwin, only the immediate relatives being present. On the following evening a reception was held in their honor at the town hall, Barnston, about two hundred people being present, and a delightful time was spent. A large number of gifts were displayed both at the bride's home and at the reception, which showed the esteem in which the young couple are held in this community.

GRIFFIN

Eliza Mitchell and Kathleen Layfield have gone to Lennoxville to attend the summer Sunday school for teachers.

Mrs. Hugh Elder of Beebe was a guest at Mr. S. G. Drew's a few days the past week.

Mrs. James Kelly of Lake Megantic and daughter, Miss Kelly of Lowell, Mass., are visiting at the home of Mr. Alexander Layfield.

Miss Effie Soutiere passed the week-end with her mother and brother at "Broadview Farm."

Mr. and Mrs. W. J. Watkins, Mrs. E. R. Embury and two sons started Monday morning on a motor trip to Hartford, Conn.

No meeting of the Griffin and Tomifobia Guild will be held Wednesday, July 6, owing to the absence of the president.

APPLE GROVE

Mr. and Mrs. E. B. Dolloff, accompanied by Mr. and Mrs. Dell Taylor of Los Angeles, Cal., left there May 14 and arrived here last week. They are guests of Mrs. Dolloff's sister, Mrs. G. A. Harvey.

Miss Flora Bryant, M.A., and her mother of Magog have returned to their home here, Miss Bryant having finished a very successful term of school at Magog. She does not intend to teach next year.

Miss Irene Harvey, nurse-in-training at the Sherbrooke Hospital, is home on a three weeks' vacation.

Mr. and Mrs. Arthur Gothorp and Mrs. Hattie Ticehurst and son, Alvin Ticehurst, attended the wedding of their cousin, Miss Edith Bryant and Mr. Roswell Jersey at East Bolton Church and also the reception at the house on Wednesday, going by motor.

MANSONVILLE

Mrs. Henry Boright is entertaining her daughter, Mrs. Keilly, and grandson, Nelson Keilly, from Ottawa.

It is very smoky, hot and dry; small brooks are dried up.

Last Saturday night, at about nine o'clock the barn of Alonzo Sargent on the S. Elkins farm, North Jay road, caught fire and was burned to the ground.

Mr. Benjamin has purchased a new auto truck and is carrying his neighbors' milk and cream up to the Mansonville creamery and also over to the North Troy butter factory.

MARLINGTON

Mr. E. L. Scott of Linboro was in the place Wednesday.

Mr. T. A. Woods and son Aubrey were at Beebe, Sunday.

Mrs. R. M. Reed's brother, Mr. A. Bullock and family are visiting at her home.

Mr. A. Hamilton went to Sherbrooke, Saturday.

Master Ronald Davis is at A. Hamilton's.

Western Crop Outlook Splendid

In renewing his subscription to the JOURNAL, Mr. E. J. St. Pierre of Winnipeg, manager of Walter Blue & Co's western branch writes:

"Crop conditions in the West were never better than they are at the present time" exceeding if possible the splendid prospects of the year 1915."

By this it would appear that the West has escaped the drought which has meant so much in the East this year. But farmers of the West are entitled to a big crop this year. They have been "up against it" during the past few years and besides they should get something in quantity to offset declining prices.

Barton Historical Pageant and Anniversary Celebration

JULY 1-4

PROGRAM

FRIDAY, JULY 1

- 7 p. m. Pageant Parade (free)
- 8 p. m. Pageant Presentation (children free)

SATURDAY, JULY 2

- 10 a. m. Aeroplane Exhibition [free]
- 11 a. m. Band Concert [free]
- 2 p. m. Aeroplane Exhibition [free]
- 3 p. m. Baseball, Newport vs Barton
- 7 p. m. Pageant Parade [free]
- 8 p. m. Pageant Presentation

SUNDAY, JULY 3

No program arranged by the committee

MONDAY, JULY 4

- 10 a. m. Baseball, Lyndonville vs Barton
- 1 p. m. Band Concert [free]
- 2 p. m. Pageant Parade [free]
- 3 p. m. Pageant Presentation
- 7 p. m. Pageant Parade [free]
- 8 p. m. Pageant Presentation

Remember this entire program is given on a great natural out-door stage, lighted with great floods of electric lights. A special grand stand seating 1200 people is being erected and the beauty of the scenes cannot be described.

The Pageant will be given four times, complete each time. No expense is being spared to make this an event to be remembered a life time. Remember the four presentations come as follows: Friday evening, July 1, at 8 o'clock. This first show is free to all children. Saturday night July 2, 8 o'clock. Monday afternoon, July 3 at 3 o'clock and Monday evening at 8 o'clock.

PROLOGUE

Pan calls the elements. Spirits of the woods and mountains mingle in a dance which fades before the spirit of the Indians, and the Indian spirit in turn fades before the Pioneer spirits. In the prologue 52 persons take part.

I

- a. French-Indian episode of the 16th century. Indians paddle in from the lake coming ashore and onto the stage, which borders the very water. More than 30 persons are used in this scene.
- b. Spirit of the Pilgrims, of the period from 1620 to 1700. Twenty-five men, women and children appear in this scene.
- c. Roger's Rangers. The first white man appears in the territory, 1759. Here are 16 characters.

INTERLUDE

The thirteen states invite Vermont to join them. More than 20 persons take part in this symbolic interlude, where History calls forth the characters: Ethan Allen, Seth Warner, Dr. Jonas Fay, Col. Ira Allen and Gov. Chittenden.

II

- a. Granting of the charter of the town of Barton, 1789, at the home of Gov. Moses Robinson, where Col. Barton, Asa Kimball, Col. Ira Allen and John Paul Jones came to receive the charter.
- b. Organization of the town and the first marriage, 1797. Runaway pond incident of 1810. Nearly 50 characters are necessary to portray these events.
- c. Smuggling scene in which there is rough and ready struggle, by 25 stalwart men.
- d. General Lafayette releases Col. Barton from a debtor's prison at Danville in 1825. A magnificent scene portraying an incident of unusual interest in Barton's history. More than 40 persons receive Lafayette with dancing and singing.

INTERLUDE

Here Agriculture gathers the Elements for her uses. Here is interpretive dancing in a scene requiring more than 40 persons.

III

- a. Civil War episode in which 45 persons take part as the boys leave Barton in 1861.
- b. Union in 1864.
- c. A merry husking bee scene in which 25 young people take part, and the red ear is found. Dancing of the money musk.

INTERLUDE

Here Manufacture in turn gathers the elements for its uses. Interpretive dancing with 40 persons.

IV

Veterans of the Civil War pass the flag to members of the American Legion.

EPILOGUE

Hope releases the dove of Peace. Band, orchestra, chorus and audience strike up America.

Every person is costumed in exact representations of the period being acted. Costuming and make-up alone, aside from what is being done by individuals, which is a very large part, costs more than \$500.

Band, orchestra and chorus will be used for music, this feature alone costing fully \$200.

Descriptive circular and tickets from the following, or from the committee:

Pierce's Drug Store, Barton
Austin's Pharmacy, Orleans
Bigelow's Pharmacy, Newport
Kelley's Pharmacy, North Troy
Coburn's Pharmacy, West Burke
Edmonds' Pharmacy, Lyndonville
Searles' Drug Store, St. Johnsbury
Brigham's Drug Store, St. Johnsbury

Plenty of Free Parking Space close to Pageant Grounds. Pictorial Souvenir Program free with each paid admission.

COMMITTEE IN CHARGE

F. W. Cutting, Fred D. Pierce, C. A. Barrows,
Barton Village Trustees
C. S. Webster, Wallace H. Gilpin
