SERIOUS CONDITION OF LILLY LYNN.

Semi-Conscious at Times But Never Rationa

GREENHILL'S UNFORTUNATE VICTIM CONTINUES IN CRITICAL STATE.

Richmond, July 8.—(Special.)—The condition of Lilly Lynn, victim of last week's brutal assault, shows but little change.

Dr. Tomkins, the attending physician, speaking to the Record, states that while she has recovered partial consciousness, she has at no time become rational. She sleeps much of the time and when waking in a semi-conscious state, becomes much excited.

Her pulse and temperature continue very satisfactory.

The condition of Albert Greenhill's victim is still regarded as very critical.

GREENHILL NOT A KNOWLTON HOME BOY.

Editor of Record—A report in connection with the Richmond assault case, that the victim, Albert Greenhill, came from the Knowlton Home, has given much pain to a number of our worthy young people, and is calculated to discredit the Home. I beg you will allow my denial to appear in your paper, although I am aware that you did not give currency to the report. Greenhill is not from the Knowlton Home. We never bring boys from any factory to Canada, or any who have been committed before a magistrate for any criminal charge. I am yours faithfully, MRS. L. BIRD.

KEEN CONTEST FOR THE SCHOOL BOARD.

A. Sangster, J. A. Tate and C. W. Nicol.

THREE CANDIDATES FOR TWO VACANCIES—REQUISITIONS WERE ALL LARGELY SIGNED.

A meeting of the Protestant ratepayers of the city of Sherbrooke was held in the city offices this morning at ten o'clock to nominate candidates to fill the vacancies caused in the Board by the expiry of the terms of office of Messrs. Andrew Sangster and T. W. Fuller.

Mr. C. O. Palmer, assistant secretary, presided.

Mr. H. D. Lawrence, chairman of the Board, said that owing to the absence of the secretary through illness and the absence of the auditor during the past two weeks, it was found impossible to have the balance sheet prepared for this meeting, but it would be published just as soon as completed.

The hour of ten o'clock having arrived, the chairman read the notice calling the meeting, and called for nominations. There were about fifty ratepayers present.

Mr. James Davidson said he had much pleasure in nominating Mr. Andrew Sangster to be again re-elected. A largely signed petition had been presented by ratepayers recommending that he should be re-elected. They all knew Mr. Sangster and so far as he knew they had perfect confidence in him. He had known him for many years as an independent, painstaking citizen with anything that he took it hard.

IN INTERESTS OF QUEEN'S UNIVERSITY.

Rev. Robert Laird Pays Visit to Sherbrooke.

SPOKE AT ST. ANDREW'S CHURCH YESTERDAY—GROWTH AND CHARACTER OF QUEEN'S.

The pulpit of St. Andrew's Church was occupied yesterday by Rev. Robert Laird, of Queen's University, Kingston. Mr. Laird is visiting Sherbrooke in the interests of the Half-Million Dollar Queen's Endowment Fund, which has been undertaken by the General Assembly of the Presbyterian Church, in co-operation with the trustees of Queen's University, Kingston.

His increasing popularity has been rendered imperative by the rapid growth of the University. The number of students registered during the last few decades has risen from 100 to 1,000. In 1877 there were 130 students; in 1887, 372; in 1897, 594; and in 1907, 1,139. This expansion is still further seen in the five handsome and spacious buildings that have been erected since 1900, while still another is now in course of construction. The pressing need of the institution at present is greater teaching strength and the revenue from the new endowment will be devoted almost entirely to making new appointments to the staff.

Queen's was founded by and has always been closely connected with the Presbyterian Church. But while individual Presbyterians had always been generous supporters of the University, it was only two or three years ago that the church at large awakened to the value of her connection with this vigorous and progressive institution.

The new interest resulted immediately in the present effort to secure an additional endowment of \$500,000, and to this end four successive general assemblies have directed the full right of their influence. But its alliance with the church has not impaired the national character of the University. A large proportion of the students are drawn from other denominations than the Presbyterian. Further evidence of this is shown in the fact that the church at large awakened to the value of her connection with this vigorous and progressive institution.

STRANGE FREAK OF LIGHTNING.

Passed Through Mow of Hay Without Setting Fire.

STRUCK IN THREE PLACES IN VICINITY OF RECENT GRANBY CAMP.

Granby, July 8.—(Special.)—The vicinity of Granby Hill, near by the camp ground lately occupied by the volunteers of the 3rd Cavalry Brigade, is thought by some of its residents to be more subject to the effects of electric storms than the surrounding neighborhood. However, this may be, whether fact or fancy, during the storms which passed over here on Friday afternoon about 5 o'clock, the lightning struck in three different parts of the Hill. Mr. Simons' mow of hay was struck on the end of the ridge pole, and the lightning, tearing and throwing pieces of board far into the yard, ran down through a mow of hay and along the wall into the stable. Mrs. Mow had just left that end of the barn, so fortunately escaped with only a shock. Mr. Mow, who was outside the barn, also received a severe fright. Fortunately and strange as it may seem, the hay which the lightning passed through did not ignite. Sweet Bros. had two fine cows killed in the pasture and a tree was also struck in the same vicinity.

QUET DAY ON COWANSVILLE BOARD.

Butter Ranged From 20 1-2c to 20 3-4c.

CHEESE MARKET DULL—11c. TO 11 3-8c. THE RANGE.

Cowansville, July 8.—(Special.)—The Dairyman's Exchange met on Saturday in the Town Hall here with the usual attendance. The session was devoid of exciting events, except the booming of prices of Dunham and Stanbridge East butter to 20c, by Mr. W. P. Hibbard.

President Thomas L. Barnett was in the chair and Vice-President A. J. Bouchard, Bedford, sold the goods. He made special reference of welcome to West Shefford, the largest creamery in the Townships, upon its return to the Board after three years of going it alone and stated that the said return was a tribute to the influence of Board, which was a factor in the market, deserving the farmers' patronage. The buyers were here in larger numbers than elsewhere and there was every facility offered not only for the securing of fair prices for goods, but also for the sure payment thereof. Mr. Bouchard hoped other large influential creameries would return to the Board and assist in production of competition rather than aid in killing it.

Twenty-three cheese factories offered 1238 boxes of cheese for sale, while 25 creameries offered 2104 packages of butter.

The cheese market was dull, many salesmen being unwilling to accept prevailing prices, holding their produce over till later. There was likewise a wide divergence in prices paid, sometimes by the same buyer, for different factories. This was, in some cases accounted for by the offer of factory inspection, at a price lower than Montreal inspection, prices offered being accepted in preference to the higher one. A resume of the day's business follows:

BROMPTONVILLE SCHOOL COMMISSIONERS.

Bromptonville, July 8.—(Special.)—The School Commissioners, to-day resulted in the return of Messrs. E. W. Tobin and O. Lambert, by acclamation.

WILL SETTLE MATTER ON SHERBROOKE TRACK.

East Angus, July 8.—(Special.)—It appears that two of our local horsemen have arranged a race between their respective trotters, each backing their judgment with a bet of \$100. The affair is to be held at Sherbrooke the 18th inst., and has aroused much local interest.

AUTOS ARE EXCLUDED.

Knowlton, July 8.—(Special.)—Ladies who wish to drive in safety and with horses that are worried by the autos have one delightful spot where none of the machines are allowed to enter. Rev. Father Couture has arranged a race between his week to horses and carriages. For a short drive and beautiful scenery one cannot find a pleasanter spot.

MANY ARRIVALS AT KNOWLTON.

Knowlton, July 8.—(Special.)—Saturday's flyer brought husbands, brothers and sweethearts galore. Four large cars were filled and a good show alighted at Knowlton. Mr. Geo. McClay met several passengers for Bonville, and representatives from all the boarding houses and summer residences about here received their quota of week-enders.

INTERNATIONAL BOUNDARY PHOTOGRAPHS.

Rock Island, July 8.—(Special.)—The surveyors who are taking pictures 500 feet on each side of the line, making 1000 feet altogether, have arrived at Derby Line. When completed both the American and Canadian Governments will have these, so they can tell exactly what buildings are located on the line, as well as what they are used for.

WANT LOWER RAILWAY RATES TO MONTREAL.

Knowlton, July 8.—(Special.)—Some agitation is going on to get a cheap summer rate for trips to Montreal and return, which if carried out, would be of great benefit to the many business men, especially of our town and surroundings. The trip tickets out of the city and returning over the week-end are reasonable, but the usual fare in and out for the country people is regarded as altogether too high.

PARTY OF AUTOISTS TOUR BROME.

Knowlton, July 8.—(Special.)—On Friday telephone messages were received asking for accommodations at the Lake House for thirty gentlemen who would arrive in autos on Saturday for dinner from Richmond, Vt. They were prompt and proceeded on their way toward East Brome about two p.m., six and four cars conveying the party. Several other stray machines kept the streets busy and the horses prancing although they are improving on last year's behaviour.

CELEBRATES 77TH BIRTHDAY.

Bishop's Crossing, July 8.—(Special.)—The celebration of the 77th birthday of Mrs. William Hooker was held by her son, Mr. L. J. Hooker at the beautiful home, "Wood Knoll," where children, grandchildren and great-grandchildren to the number of 25, were gathered with many good wishes and tokens of love. The day being fine the tables were taken out on the spacious lawn and the sumptuous repast was enjoyed by all. Mrs. Jenkinson, only remaining sister of Mrs. Hooker, was also present. Although 79 years of age, Mrs. Hooker is hale and hearty, erect and sprightly. Her next birthday is to be spent at the old home, "Meadow Farm," to which she extended an invitation to all present, also, the few who were absent. All wish her many happy returns.

A RARE BUTTERFLY.

Bedford, July 8.—(Special.)—On Thursday Mr. H. Connor found a rare specimen of butterfly on the screen door of his grocery store, which he captured and has on view. The butterfly, which is about three inches across, is a pale green shaded to almost white at the edge of the wings. The lower wings have a long narrow piece at the bottom near the body, which is curled at the ends. The body, which is brown, has a hump-like hump, is purple, white, with red legs. Each wing has a larger spot as large as a pea in the centre, and the edges of the wings are brown, the under part of the wings being thickly covered with a short fuzzy growth of white hair. Mr. Connor has had many visitors to see this rare butterfly, but no one, as yet, has seen one like it before.

Sutton, July 8.—(Special.)—A Boston Globe of recent date received by the Record correspondent, gives an account of a large meeting held in Boston to discuss the pros and cons of the recent big strike of teamsters in that city. The Globe's headings are "Labor and Socialism." Both are discussed before ministers. President Tobin tells the teamsters' side of the strike. W. R. Eastman, of Harvard, pleads for Socialism. Mr. R. S. Kelsch, consulting engineer of the Montreal, Light and Heat Co., and of the Power, Light and Heat Company, Sherbrooke, was in town on Saturday inspecting new machinery of the latter company.

The Rev. Robert Laird, of Kings-ton, Ont., who is representing Queen's College, Toronto, officiated yesterday at St. Andrew's Presbyterian church, and was the guest of Mr. and Mrs. John Edwards, at the "White House" during his stay in town.

The Rev. E. J. Bidwell, head master of Bishop's College School, preached at St. Peter's church yesterday morning, and in the evening the pulpit was occupied by the Rev. Mr. White, of Fort Vermilion, Athabasca, who is returning from a visit to England to his mission in the far north.

On Sunday morning at High Mass the sermon was preached by Rev. J. H. Roy, parish priest, who made a forcible address on the subject of bringing up children and of the duty of parents, pointing out that upon the early training of a child depends his future welfare and happiness, and urging constant watchfulness and usefulness on the part of those in charge of children.

Yesterday, the Festival of the Precious Blood, was kept with peculiar solemnity at the convent of that order on Dufferin avenue. Mass was celebrated by Rev. P. J. A. Lefebvre, chaplain, and at the close of the three preceding days of retreat the members of the community renewed their perpetual vows on their festival day.

In the afternoon there was solemn benediction of the Blessed Sacrament, and a sermon preached by the chaplain, who dwelt on the significance to the faithful of the feast of the day. The chapel was effectively decorated with flowers and lights; and the congregation was large and devout. Beautiful music was furnished by the choir, the canticles and hymns having been written and set to music by a sister of the community now gone to her repose.

The funeral of the late Edythe Norman Bayne, daughter of Mrs. Norman Bayne, Lennoxville, which took place yesterday afternoon, was one of the saddest and most touching spectacles ever witnessed in that village, and was attended by a large number of the residents, who showed their sincere, if silent sympathy, with the bereaved family by their presence. The bearers were Arlie Norcross, Roy Clarke, Charles Maskroy and Ernest Perry and on either side of the hearse walked three little girls dressed in white, and carrying flowers, friends and school fellows of the one who has gone to a better home. They were Hazel Hughes, Dorothy White, Kathleen Atto, Leah Draper, Delia Sterling and Ethel Sterling. A short service at the house was conducted by the Rev. R. W. E. Wright, who also officiated at St. George's church. The choir was present and sang the appropriate hymns, "There's a friend for little children" and "On the Resurrection Morning," very sweetly. The mourners were the mother, Mrs. Bayne, and her two daughters, Frances and Lillian Bayne, and Mr. Martin and Mr. McInnis, of Montreal. The little casket was heaped with lovely flowers from many friends. The long procession followed the remains to Malvern cemetery, where the last solemn words were said, and all that was mortal laid to rest beside those of the father gone before.

The members of the 53rd Band will meet in the Band Room to-morrow night for practice.

Mrs. C. L. Hovey and daughter, Rachel, from San Francisco, are the guests of Mrs. Philip Hovey.

Mrs. C. A. Martyn returned a few days ago from a month's visit to friends in Concord. Mr. Martyn, also, took a couple of weeks' holiday for a trip to Concord and Boston.

Rev. George Crabb, of Bury, was in town to-day on his way to East Dunham, where his family are visiting. He expects to return accompanied by his wife and children, about the end of the week.

Hon. M. F. Hackett, of Stanstead, was among the visitors in town Saturday. Mr. Hackett expects both Provincial and Federal elections before the end of the year. An announcement soon after the Premier's return from England would not surprise him. He does not look for another session of the present Parliament.

Grand Master Walling, of the I.O.O.F., Quebec, will visit Unity Lodge on Wednesday night, and install the officers. He will be assisted by a number of P.G.M.'s residing in this district. Haylock Lodge, of Lennoxville, have been especially invited to be present, and any Oddfellow in the city or from sister lodges will be cordially welcomed.

Late cards and letters received from Mr. and Mrs. A. S. Hurd, are from Matlock, England, where they are staying for a short time before leaving for Norway. The country around Matlock is described as being most beautiful, green and cultivated with quantities of sheep and cattle. High hills and cliffs are numerous, the High Tor being 400 feet in height. Mr. and Mrs. Hurd have visited many of the loveliest spots in England, including the most famous castles, churches and cathedrals.

R. C. BOARD ELECTIONS NEXT WEEK

It frequently happens that when securities are desirable purchases, investors are temporarily unable to avail themselves of the opportunity.

In such cases, I am prepared to buy for my customers, at prevailing prices, such securities as they may select, upon the payment of a fraction of the purchase price, the balance to be carried at a moderate rate of interest.

An opportunity now offers to those who have money to make investments which will return a much larger rate of interest than has been the case for some years, and later on the opportunity will have passed.

On the Montreal list there are plenty of good stocks yielding 6 to 7 1/2 p. c., while in New York some of the industrials are now yielding 9 to 10 p. c.

SERIOUS RIOT IN NEW YORK.

One Dying And Others Injured Result of Race Row.

REVOLVERS, FLYING BRICKS AND FLOWER POTS KEPT THE POLICE BUSY FOR TWO HOURS.

New York, July 8.—A painful of water thrown from an upper window up on the heads of a group of Italian boys, who had disturbed the Sunday quiet of a colored woman, started a riot on "San Juan Hill" last night, which brought five men, one dying, to the hospital, made several men prisoners and terrified the peaceably inclined among the ten thousand persons of all nationalities who reside in West 61st street and West 62nd street, between West End and Amsterdam avenues. Many of the Italians, in one side, and their negro neighbors on the other side became involved; while the hoodlums of all races seized the opportunity to attack each other. Wm. Smith, colored, was arrested, charged with having fired a revolver, impartially into the crowd from the fire escape of his home.

While the fight raged in the street, less adventurous rioters lined the tenement roofs, and showered bricks, chunks of coping and flower pots up on the heads of those below. It took the police reserves of four precincts two hours to beat the combatants into submission and clear the streets.

When a round up of the seriously injured was made it was found that, as usual, the innocent had suffered most.

LASHES KING LEOPOLD

REV. R. J. CAMPBELL SAYS BRITAIN SHOULD END THE CONGO HORRORS.

London, July 8.—The Rev. R. J. Campbell, the well-known Congregationalist minister, denouncing the Congo horrors and "King Leopold's accursed methods," at the City Temple yesterday, declared that Great Britain could end the terrible conditions in a fortnight and she ought to do it. He said that the greater part of the ill-gotten wealth of the Congo was brought to Europe in British ships, and that they and all of the others sailing between the Congo river and Antwerp must call at British ports. If Great Britain refused them coal, "King Leopold would be helpless.

Insisting upon the repressing of the atrocities at all cost, Mr. Campbell said that if even force was morally justifiable it would be in order to bring the ruthless tyrant Leopold to his senses. "President Roosevelt had signified that he would support Great Britain in any concerted effort to end the horrors, and if England and America acted together no power could garrison them. Every hour's delay meant more bloody massacres in that land of woe; but for England the Congo would not be in Leopold's power and it was her duty to deliver it from him.

Mr. Campbell's declarations were frequently interrupted by loud cheers.

SHERBROOKE PUTS UP PLUCKY GAME, BUT SCORE IS BADLY AGAINST THEM.

The Sherbrooke boys went to Quebec on Saturday to play the return game with Quebec in the intermediate league, and were defeated to the tune of 24 to 1. In the first two halves the boys put up a good game, the first quarter ending 4 to 1. The score at the end of the second quarter stood 8 to 1. In the second quarter after about 5 minutes play Gordon Maguire received a bad crack in the eye which put him out of the match. Smith replaced him and the game proceeded with the above result at the end of the second quarter. In the third and fourth quarters Quebec came out determined to pile up the score and succeeded in adding 16 games, making the final result as stated.

Quite a number accompanied the boys and although the youngsters were badly defeated some of them put up a good game, notably Hammerich, E. Byrd, Attio, Hallett and W. Maguire, the latter time and again carrying the ball down from his defence, his running being at times applauded by the spectators.

Attio scored the game for Sherbrooke. They all returned on the New York Sunday, the only man hurt being G. Maguire, but it is hoped it will not result seriously.

The players were: Sherbrooke—Jones, goal; Hammerich, point; E. Byrd, c. point; W. Maguire, d. f.; Hallett, d. f.; Grant, d. f.; Attio, centre; Malone, h. f.; Dunn, h. f.; Macnamore, h. f.; Webster, o. home; J. Byrd, i. home; Hawkes, c. Captain; Bowers—Mr. Kennedy.

Quebec—Copeman, goal; Beaumont, point; Doyle, c. point; Metivier, d. f.; Webster, d. f.; Malone, centre; McCormick, h. f.; Lalbert, h. f.; Cornier, o. home; J. Byrd, i. home; Hawkes, c. Captain; Nolan.

THE MODUS VIVENDI.

DEADLOCK IN NEGOTIATIONS BETWEEN BRITAIN AND UNITED STATES.

St. John's Nfld., July 8.—It is understood here that a deadlock has arisen in the negotiations between the British and American Governments over the proposed modus vivendi for the coming winter herring fishery on the Newfoundland coast, and that the difficulty arises from the British Cabinet's inability to enforce the suggestion of the Newfoundland Government, and their refusal to serve legal processes aboard American vessels, a clause to which the colonial officials have refused to agree.

Notice is hereby given that I will not be responsible for any debts contracted in my name after this date unless upon a written order signed by me.

GRAND ILLUMINATIONS FOR SIR WILFRID.

QUEBEC STREETS WILL BE RANGED WITH ELECTRIC DISPLAY.

Quebec, July 8.—At a meeting held Tuesday evening of the reception committee to Sir Wilfrid Laurier, a sub-committee was appointed for the occasion of the procession that will be made to Sir Wilfrid on his arrival here.

The sub-committee has decided to have everything done on a grand scale. The electrical display will be of a most elaborate nature.

The procession route from the Chateau Frontenac to St. Peter's Market where the demonstration of welcome will take place, will be highly and artistically illuminated all the way, with various electrical devices, all for the purpose of welcoming the Premier and expressing admiration for him.

Mr. R. H. Gale of the Slade Electric Co., has been entrusted with the care of taking charge of all the arrangements for the illuminatory part of the Premier's welcome. Over five thousand lights will range the streets of Quebec, where Sir Wilfrid will pass through. These illuminations will take the form of inscriptions suitable to the occasion. They will include references to present political questions. The All Red Route schemes, the results of the Imperial Conference as accomplished by Sir Wilfrid will all be enthusiastically displayed.

Short extracts from the Premier's speeches containing two or three words and quoted from his political sayings ever since his first entered public life will be displayed as well as various forms of welcome.

The illuminations will form a brilliant pageant and panoramic scene of Sir Wilfrid's career and is certain to prove an unparalleled success.

IF JAPAN AND U. S. SHOULD FIGHT.

World Would Witness One of Its Greatest Struggles.

ADMIRAL SIR CYPRIAN BRIDGE TALKS ON TROUBLE BETWEEN UNITED STATES AND JAPAN.

London, July 8.—"If the United States and Japan should go to war the world would witness a struggle such as it never saw before."

This remark was made by Admiral Sir Cyprian Bridge, retired, who for six years up to 1904 had command of the British squadron in the Far East, and who before that was at the Admiralty.

"But," added the celebrated naval strategist, "I see nothing that would be gained by either country in going to war. One might say without fear of heated contradiction that America is almost ready to give away the Philippines, which, on the other hand, may be regarded as the sum and substance of all the possible gain that could come to Japan through a conflict with your people. What America would like to give away, however, she would not allow to be taken from her without a great fight."

"But really, the Japanese people are too level-headed to rush headlong into war with America. One great restraining factor would be the treaty between England and Japan. The people of Japan, of course, know the strong relations of blood and friendship that unite England and America, and would, in my opinion, hesitate a long time before entering on a conflict that would greatly distress their allies. Again, the result of a war in the long run, regardless of what might be the immediate outcome, would be considered carefully by the Japanese. Even admitting for the purposes of argument, that America should lose the Philippines in a war with Japan, the feeling in America against the Japanese would not subside. It would be like the feeling in France towards Germany over the lost provinces."

"America, a great nation, with almost 90,000,000 people, and unknown resources, would be likely to build the world's finest navy if necessary to regain any lost prestige."

PROVIDENCE MAN CAUGHT IN MONTREAL.

CHARGED WITH STABBING HIS BROTHER TO DEATH WITH SCREW DRIVER.

Montreal, July 8.—(Special.)—Michael Sylvestri, alias Silvestri, of Providence, R.I., is under arrest here on a charge of having murdered his brother September 12, 1904, by stabbing him to the heart with a screw driver.

Sylvestri was recognized by a Providence man in Montreal, who communicated with Chief Carpenter.

The Chief, after getting into touch with Providence authorities, made the arrest last night, when the accused confessed his guilt to four detectives.

Sylvestri said he was driven into madness by months of nagging by his brother and that on day of murder his brother had struck him with an iron bar. He then retaliated with a screw driver.

This morning Sylvestri repudiates confession and states that his only brother died in Italy.

FRENCH BATTLESHIP SUNK.

THE HOUCHE HAD A NARROW ESCAPE FROM DESTRUCTION BY FIRE.

Toulon, July 8.—The battleship Houche has had a narrow escape from destruction. Fire broke out during the night near her powder magazine, and, in order to prevent the spread of the flames, the battleship was sunk in her slip, adjoining the one in which the battleship Iena was wrecked by an explosion, with great loss of life, March 12th last. The fire, which broke out in the sail room, as did the fire which destroyed the French torpedo school ship Algeiras here on November 25th 1906, resulting in the loss of three lives, is a mystery, and as this is the third conflagration to break out on board ships at Toulon within a month, the incident has created much disquietude in naval circles, and a rigid enquiry is being made.

It is officially announced that the damage to the Houche is slight. The fire broke out mysteriously in a roll of painted canvas, and spread to the linoleum covering of the magazine.

GOVERNOR ASSASSINATED.

KILLED AN OFFICIAL WHO WAS AFTERWARDS DECAPITATED.

Shanghai, July 8.—The Governor of Anhui, who was wounded Saturday, while reviewing a parade of students, died from the effects of his injuries. It appears that he was not wounded from the bomb explosion, as was at first stated, but by a revolver shot fired by an official, who was a revolutionist.

The governor, who was a reactionist, recently discovered that the revolutionists were smuggling arms, and took steps to break up the illegal traffic, thus incurring the enmity of the revolutionists. The assassin, who was captured, has been decapitated by order of the viceroy.

CROWN JEWELS STOLEN.

STATE REGALIA, VALUED AT \$250,000, MISSING FROM DUBLIN CASTLE.

London, July 8.—The Express says that on the eve of the departure of the King and Queen for their state visit to Ireland, it has been found that the jewels of the Order of St. Patrick, valued at \$250,000, have been stolen from the strong room of Dublin Castle, where they were kept. The robbery was discovered owing to the jewels being wanted for use at the state reception of the King. When the officials opened the safe they were missing. It is believed that the thieves have brought them to London for disposal.

Particulars of the missing jewels have been telegraphed throughout the world to prevent them from being sold. They consist of a star, studded with a large Brazilian diamond, with a cross of rubies and a trefoil of emeralds, and other stones of the value of \$15,000; a diamond hedge set in silver, with designs in various stones, value at \$80,000; and five gold and emerald collars of the Order, consisting of golden harps and enamelled roses, tied with golden knots, valued at \$20,000.

There is nothing to indicate the manner of the theft. The Daily Mail gives the story reservedly, adding that the police refuse to give any information. The servants at the castle say they have heard nothing about the robbery.

Reports from Magog state that Secretary Hopkins, of the Y.M.C.A., and his band of boys are fully enjoying their outing on the shores of Lake Memphremagog. The camp is pleasantly located and the two weeks or so will pass quickly.

"If we had any of the name it was dropped instantly," re-Dunne. Sheriff O'Neill, who, again, turned to the court. "No one could have wheeled, Your Honor." In the meantime half a dozen photographers had set off in the midst of the cheering crowd and the shouting the convicted man's statement to a newspaper man.
