AWFUL RAILWAY FATALITY ON LONDON SOUTH WESTERN

American Line Express Carrying 43 Passen-
gers of the New York Plunges Off the
Track After Passing Salisbury Station

THREE CANADIANS ON THE DEATH ROLL.

Salisbury, Eng., July 1.—Driving at a mad pace over the London South Western Railway, the American line express carrying 43 of the New York's passengers from Plymouth to London, plunged from the track, just after passing the station here at 1.57 o'clock this morning and plunged to death in its wreckage 23 passengers, who sailed from New York, June 23rd and four trainmen. Besides those to whom death came speedily a dozen persons were injured. Following is a list of the first cabin passengers dead: Barwick, Walter of Toronto, Ont.; Casser, Louis of Trumbull, Conn.; Coslett, Frederick Henry, of New York; Elphicks, Mrs. C. W., Chicago, Ill.; Harding, Dudley P., 316 West 96th New York; Hitchcock, Mrs. L. N., 201 Central Park, west, New York; Howatson, Miss Mary F., 31 West 31st Street, New York; King, Rev. E. P., Toronto, Ont.; Koch, Frank W., Allentown, Pa.; McDonald, Jno. E., New York City; McMeekin, C. F., New York City; Pison, C. A., Toronto, Ont.; Santell, Mrs. E. W., New York City; Santell, Miss Gertrude M., New York City; Santell, Charles E., New York City; Smith, Mrs. Walter W., Dayton, O.; Smith, Miss Eleanor, Dayton, O.; Smith, Gerard, Dayton, O.; Waite, Mrs. Lillian Hurd, 424 Fifth Ave., New York City. The following second cabin passengers are dead: Gospienger, Louis, address unobtainable; Keeler, Jules, address unobtainable; Thompson, W. H., address unobtainable. The following are the first cabin passengers injured: Allan, G. H. V., Fairhaven, Vermont; Critchell, Robert S., Chicago, Ill.; Griswold, Miss I. S., address unobtainable; Hitchcock, Miss M., New York City; Koch, Mrs. A. Allentown, Pa.; Koch, Miss Anna E., Allentown, Pa. The following second cabin passengers were injured: Rank, Miss H., address unobtainable. The train had passed the Salisbury Station platform at very high speed. As a sharp curve just outside the station, the locomotive jumped the track and, plunging over the rails, crashed into a west-bound freight train. The engine mounted the girders of the railway bridge over the River Avon and turned turtle.

The big American liner reached Plymouth at 9.35 o'clock Saturday night and half an hour later there was a tender alighting to receive passengers for England. Several who had planned to embark and pack their baggage decided at the last moment to remain aboard. It was a fateful decision, though not dictated by any fear. The run across the Atlantic had been pleasant. There were cheery partings when the passengers for London transferred to the waiting tender, which steamed for the Devonport landing, where the express was being made up. The train consisted of a powerful express engine, three first-class corridor coaches and one combination guards van and buffet. The passengers were soon entrained and at 11.30 the express pulled out. It was given a clear track right of way on the run of 230 miles to London, on which the express generally maintains an average speed of a mile a minute. Driver Robins quickly gave the engine her head and the special train sped swiftly through the night. It ran in safety and without incident until it entered the long railway yard at Salisbury, when the passengers noticed that the coaches began swaying from side to side. Suddenly at the end of the long platform, when the track begins to curve towards the bridge spanning Fisherton street, the main avenue of the city, the giant engine leaped from the track to the destruction of itself, its trailing coaches and many of their occupants. The engines leaped across the adjoining track, striking with terrific force and destroying the guards van of a milk train that was slowly steaming in the opposite direction, killing a guard occupying the van. Lurching forward, the locomotive plunged against the standards and girders of the bridge. The bridge withstood the impact, and the battered engine, rebounding, dashed into an engine standing on a parallel track, overturned and stopped, the wreckage of the two engines interlocked in a great mass of broken or twisted steel and iron. Throughout the wild plunging of the engine Driver Robins remained in his cab. Hours afterward his charred body was found crushed over the fire box. The first shock having wrecked the connections, and careened onward until it was hurled against the parapet of the bridge and smashed into fragments, killing or maiming almost every occupant. One man was pitched through a window,

cleared the parapet and fell dead in the street below. The second coach lurched forward and rolled toward a stationary train and practically destroyed itself before its wild flight was ended. The third coach dashed forward with the rest, left the rails and encountered some obstruction, overturned and collapsed. The guard's van and buffet, the rearmost car of the train, was saved by the courage and quickness of Guard Richardson. With the first shock Richardson jumped forward and set the brakes and saved himself and comrades. The van plunged forward, injuring some of its occupants, but practically maintained its equilibrium. The surviving passengers and trainmen describe the sound of the wreck as like the discharge of a series of heavy guns of varied calibre, and when the crash of the wreck was passed there came calls of the injured, some shrieking with pain and fear and others moaning as if bewildered by the shock. Relief came quickly, although it was an hour before the last body was dragged from the wreck. The police, attracted by the noise, called ambulances and surgeons and warned the hospitals to prepare to receive the injured. The railway yard quickly filled with police, doctors, nurses, trainmen and volunteers. The darkness and incredible destruction made the work of rescue exceedingly difficult. Lamps and torches were brought to light the desolate scene. The station was converted into a surgery and the platform was made a mortuary. Several of the dead and injured were imprisoned in compartments and it was necessary to saw away the partitions to effect their release. Others were caught under heavy wreckage. Several of the bodies were badly mangled and one woman was decapitated.

THE CANADIAN VICTIMS.

Toronto, July 2.—The body of Mr. C. A. Pison, general agent of the North Atlantic Steamship Combination, who was killed in the railway disaster at Salisbury, Eng., will be brought to Toronto for interment. It is probable that the body of Mr. Walter Barwick will also be brought here, but the final arrangement has been left with the widow, who is at present in Gloucester, Mass. The funeral of Rev. E. L. King, of St. Thomas Church, the third Toronto victim, will take place at Salisbury tomorrow.

THE CORONER'S INQUEST.

Salisbury, July 2.—The embalmers are busy to-night and by tomorrow the majority of the bodies of the score of persons who lost their lives in the wreck of the Plymouth express Sunday morning will be prepared for their return for burial in the land they left so recently in the fullness of life and hope. Frederick H. Coslett's body already has been forwarded to London on its way to America. The inquest today was a prolonged and tedious formality, which utterly failed to give any idea of the cause of the accident. No questions at that point were asked and the subject seemed to be avoided, a strange proceeding to the many Americans present, but it is thought to be due to the queer formalism that seems characteristic of such cases in this country. The proceedings were solemn, sad and monotonous, so much so that spectators surprised a juror by asking what necessity there was to adjourn the inquest for a fortnight. No answer was given. The delay is believed to be due to the declared intention of the Board of Trade to institute an independent investigation. It seems strange to Americans that while the population of Salisbury is shocked by the disaster, practically no emotion is displayed. It would seem as if such accidents were an every day occurrence, and yet nothing even remotely approximating it has heretofore disturbed the peace of this prosperous city. There have been no scenes, no groans, nothing of the picturesque tragic element associated with the pit-mouth in times of trouble so familiar to those in coal mining regions.

SCHOOL EXCURSION.

Richmond, Ind., July 1.—The Indiana school excursion will be run to Quebec.

Fuller's earth is excellent for cleaning suede gloves. Put the gloves well on the hands and rub the earth in with a small, soft brush. An old nail or tooth brush answers the purpose admirably. Some people use a mixture of the earth and powdered alum in equal quantities.

QUEBECERS WAKE UP

Is the Opinion Expressed by Shippers in View of the City's Future.

The public works under construction and in prospect for the city and district of Quebec, are attracting the attention of strangers from all parts of the country who are visiting the Ancient Capital these days. It is remarkable how observant the stranger is to Quebec's apathy, and how blind the city's citizens are to their advancement. Yesterday, a Western capitalist discussing Quebec's future at the Chateau Frontenac, said he could not understand how it was the people of the Ancient Capital were not waking up to the possibilities in prospect here in a few years' absence, and not taking advantage of the opportunity to seek investment. You lack a departmental store in the Upper Town, said the stranger, which if erected and properly managed, not only would induce your people to stop trading with Eaton and Simpsons in Toronto in the present, but will be required for the augmentation of Quebec's population in the future. You also lack a good commercial or moderate priced hotel, that could be erected on the site of the old Hotel Victoria on Palace street, in fact, the people of Quebec purposely close their eyes to investment, and will only open them when the city is invaded by outside capital and reap the benefits which is now thrown away by the residents, who, it is said, have the necessary capital, if they wish to employ it, on deposit at a small rate of interest in the banks. In support of the foregoing observations a stranger, Hon. S. N. Parsons not long ago remarked that those who are alive in Quebec at the expiration of the next five years will hardly know their own city, on account of the changes that will take place, in consequence of the completion of the Quebec bridge, the increased shipping, the building of the Grand Trunk Pacific, the Canadian Northern Railway, and a Union passenger station in the city, that will be called upon to handle the traffic of numerous railways.

THE NEW BRIDGE

Last Pin on Centre of South Shore Work Driven.

The last pin on the centre part of the south shore work of the new Quebec bridge has been driven into its socket, which completes the superstructure and all railway connections from the main river pier to the Chaudiere main railway line. The last pin was placed in position last week and the work on same completed on Saturday last, and to-day the Phoenix Bridge Co. will commence the cantilever work, and continue the same until the end of the season, when the engineers in charge expect to finish several sections, or about 400 feet, before the weather conditions shall interrupt the work. The weight of the steel erected on the south shore to date is 14,000,000 pounds, or 7,000 tons, and the weight of the centre post is 518 tons. This post, which will support one half the anchor superstructure, and one half the cantilever, rests on the main pier and is three hundred and fifteen feet in length, and when the ornamentation cap is placed in position the extreme end from the water level will be 400 feet in the air. The length of the bridge now finished is 740 feet from the shore pier, and the work on the same is said to be the greatest engineering feat in the world, and reflects the highest possible credit on all concerned.

TERMINAL RAILWAY.

Mr. M. P. Davis, the contractor for the construction of the terminal branch of railway to connect with the bridge on the north shore, and continue along the coasts and by the river front to the Champlain Market, where the passenger station is to be erected, recently commenced the work entrusted to him and has made wonderful progress, that can be observed, from the St. Romuald Ferry, as it courses on its regular trips up and down the river to St. Romuald. Mr. Davis has had a large number of experienced men at work during the past few weeks making the roadway from the bridge and three men, under the direction of their foreman, and personal supervision of Mr. Davis, have completed all the rock cutting to Dobell's Cove, and beside this have erected their massive concrete viaduct over which a steel viaduct will be laid, running through the coasts until the same reaches the level at Sillery Cove, from which place crib work will be constructed to place the rails on for the terminal railway. The public have very little conception of the immensity of the work going on west of the city and the rapid progress being made.

THE PREVOST DEMONSTRATION

The travel on the line of the Quebec and Lake St. John Railway is simply enormous at present. Between the rush of fishermen to the cannery fishing waters of the Grand Discharge and the crowd that has secured accommodation for the trip to Roberval because of to-day's demonstration there in honor of the Hon. Jean Prevost, two big trains will leave for Lake St. John this morning. The special will be started at 8.15 and will consist of eight or ten cars, four of them Pullmans, drawn by two powerful locomotives. Accompanying Mr. Prevost on this train will be Senators Choquette and Tessier, Hon. Messrs. Roy, Tessier, Kaine and E. B. Gauthier, Col. B. A. Scott, most of the directors of the Quebec and Lake St. John Railway, and about a dozen members of the Legislative Assembly, including Messrs. Turcotte, Dumas, Caron, Mackenzie, Gauthier, Blais, J. E. Caron, Tourigny and Morrisette.

FRESHEN UP THOSE DINGY WALLS WITH BRAND NEW PAPER.

HARDLY a slow-selling pattern in our entire stock of new wall papers—that speaks well for the care in selecting, doesn't it? Now, before in our history we have sold such an enormous amount of wall paper—specifically well for our showing—don't you think so? Fact is, we have secured such a splendid line of papers this year that there isn't a fault to be found with any of them. Makes choosing a pleasure, when you don't see a score or more of hideous patterns before striking something that is quite so bad. And that's the great trouble—you are frequently induced to purchase a paper simply because it isn't quite so horrible as those you had been looking at. But in the home, where you spend your leisure moments, isn't it an absolute necessity that the walls should be in harmony with the hangings, the carpet and the furniture? Let us show you what a really artistic line of wall papers we are offering at all prices up to.....40c

SOCIALISM AND ANARCHY.

The discovery of a number of bombs and other evidence of an anarchist plot against the King of Italy following almost immediately after the unsuccessful attempt at the assassination of the King and Queen of Spain when returning from the Cathedral after the wedding ceremony produced such a general sensation that for a time it appeared as if an effective international agreement with regard to combating the anarchist danger would be brought about at last, but so far very little has resulted from the idea, as Great Britain and Switzerland, the two countries which have hitherto afforded anarchists the right of asylum have not shown any remarkable inclination to adopt a different course, but if they should take the initiative in making a change of procedure it is tolerably certain that the rest of the civilized nations would follow their example.

It is urged that a union of all countries against a common danger is the more desirable because a certain section of the Socialists have declared themselves in sympathy with the Anarchists. There is, in point of fact, an amount of connection between the two parties which renders this not surprising, for the doctrine of the Anarchist is to a large extent the doctrine of the Socialist carried out to an extreme point, but for a time the Socialists were comparatively weak in numbers, and disclaimed all sympathy with anarchism. Now, the democracy is largely infused with Socialist ideas, both in Great Britain, the European and American continents, Australia and New Zealand, and a rapprochement between Socialism which hitherto has sought to gain its objects by peaceful and constitutional means, and Anarchy whose weapons are dynamite and the dagger, is a menace to civilization which the world cannot afford to disregard.

Yet there are evidences of the commencement of this alliance. Thus the Socialistic "Leinsie People's Journal" in connection with the Madrid outrage declared that it could not be hypocritical enough to express indignation at the attempt to kill the young King and his bride, and gives the Spanish monarch who had escaped an untimely death the designation of "Parasite by the Grace of God." The People's Journal has a reputation for extreme language, and little attention might be paid to this enunciation of its views were it not that it was supported by Forwards, the central organ of the Socialists which stated that it had reproduced the general opinion of the Social-Democratic party.

This, which may be regarded as the official assent of Social-democracy in Germany, can naturally have none other than an encouraging effect for anarchism, and renders it all the more necessary that international measures should be taken against it. The danger is not one that threatens crowned heads alone, it is equally great for both monarchies and republics. For just as the Anarchists have twice threatened the life of the youthful King of Spain, as they murdered the noble-minded King Humbert of Italy who was always thoughtful for the welfare of his people in the flower of his manhood, and as they also assassinated the unfortunate Empress Elizabeth of Austria who was entirely uninterested in politics, so have they also killed the leaders of republican countries, as, for instance, President Carnot of France, and President McKinley in the United States.

THE BRITISH FLEET.

The British naval manoeuvres which have recently been concluded were a demonstration which, no doubt, involved a vast amount of expense, but it is probable that the money has not been thrown away. It should go a long way to convince all other nations that Britain's home is on the waves and that it would be undertaking a somewhat big contract to dispute her title as ruler of them. If it does this the recent display, warlike as it was in seeming, was a peaceful demonstration in the best sense of the term.

No other Power can at all approach Great Britain's strength. Without

Do Away With Food Adulteration

The People Have a Right to Know What They Are Eating.

Too great attention cannot be given to the food we eat. The health of our families depends on this food. Are we to submit to the atrocities of the food adulterator? We must have laws to protect us and these laws must be enforced.

It is of interest to note that there is at least one article of food about which we can know everything. This is Malt-Vita, popularly called "The Perfect Food." The pure, all-grain product, in which every element of food necessary to the proper nutrition of the human body is found.

In the manufacture of Malt-Vita the whole of the wheat is thoroughly cleaned, cooked in the purity of absolute cleanliness and then mixed with the most malt extract, made from specially selected barley. The cooking and steaming of the wheat gelatinizes the starch, and the malt extract, a powerful digestive agent, converts this starch into maltose, or malt sugar, in which Malt-Vita is very rich. Maltose is of great food value, sweetens the wheat sufficiently to make unnecessary the use of any foreign sweetening agent and the weakest stomach digests and assimilates it without effort. Rolled into water-like flakes and baked under intense heat, Malt-Vita comes from the ovens crisp and brown, positively the most delicious food in the world. All grocers, etc.

counting the many large merchant ships participating in the manoeuvres there were three hundred and twenty-five warships of various classes engaged, and among these there were thirty-three big battleships. The aggregate tonnage of these warships was one million and forty-three thousand and fifty tons and their aggregate cost was three hundred and ninety-four and three-quarters million dollars. To surpass that would require the combined mercantile fleets of the next six biggest naval nations. Nor was it in mere numbers alone that the recent demonstration showed Great Britain's naval superiority. These warships carried seven hundred and eighty large guns of from six inches to thirteen and a half inches calibre, capable of throwing one hundred and eighty thousand five hundred pounds of projectiles per minute, besides hundreds of small guns throwing some thirty thousand pounds per minute, and eleven hundred Whitehead torpedoes. The warships were manned by sixty-three thousand men, being about double the number of the entire American navy.

Large as Britain's fleet of warships is, it is however small compared with her mercantile navy. It is estimated that the tonnage of the mercantile marine of the British Empire aggregates nearly seventeen million tons. To guard this immense boat and at the same time protect the British shores against attack the fleet of warships is none too strong, but it is one of which every Briton may well feel proud, and to the support of which every member of the British Empire should contribute a share.

There are two experiments being tried in Great Britain which are of great interest, and which can scarcely be termed experiments at this stage since they have already attained a fair measure of success. One of these, co-partnership in houses more especially affects labor, the other, the system of premium wages is one that might be studied with profit here both by employer and employee. It is distinct from time or piece work and is based on the allotment of a certain time for a specified job, the worker being paid a premium, over his regular pay, for the amount of time he can save. There are various ways of applying the principle in detail, but that known as the Rowan method, (suggested by Mr. James Rowan of Glasgow) appears to be distinctly the best, says Engineering. It is estimated by the management that a fair average workman could complete a certain job without undue exertion in, say, 100 hours. This time is accordingly allotted to the job. If the workman can do it in 80 hours, he receives payment for 80 hours at his ordinary rate, and is given in addition a premium equal to 20/100 of his hourly rate for the time worked. Thus a man rated at \$1. an hour would earn 9.6¢ per hour on the job, while if he did it in 60 hours he would earn 11.2¢ per hour. The wages cost to the firm for the job at day work rates would be 80¢, whereas under the premium system it would be 76¢, and 67¢, respectively, in the two cases instanced. The firm also gets the advantage of a greater output from the works, and a proportionately less cost for each article.

It will be seen, continues Engineering, that the firm and workmen both benefit by the system when the time spent on a job is reduced. The management guarantee that, unless new machinery or methods are introduced, a time once set shall never be reduced, and the men work with confidence and earn as much as ever they can. Their interests are further safeguarded by the knowledge that whatever happens, their ordinary weekly wage is assured, and no "debit" is run up against them, to be worked off on more lucrative jobs, if by any chance they exceed the time allotted.

Careful records kept since the introduction of the system have shown that the premiums paid have a steady tendency to increase; a fact upon which the management congratulate themselves, and to which the workmen naturally have no objection. In fact, the proportion of the premium to the normal wages is looked upon as a test of the efficiency of the works, and of individual workmen. When, through pressure of work, excessive overtime has to be adopted, the premium ratio falls back slightly, showing that the long hours tell on the efficiency of the men.

In one establishment noticed in Engineering the ratio of premiums to wages paid to men working on the system in the year 1902 averaged 9.5 per cent.; the next year it had risen to 14 per cent., then to 21 per cent.; while in 1905—a year which included much overtime—it was 19 per cent. From the very beginning, therefore, the men on premium work have earned on an average about 16 per cent. over their hourly rate, while over 20 per cent. would seem possible in future.

This system, which inspires the men to do their best, is in strong contrast to the fixed wage system, especially under union control, which tends to slacken the pace of the best workmen to that set by the poorest.

It isn't a good thing to repeat half you hear.

PRESS OPINIONS.

A PESSIMISTIC FOG HORN.—For concentrated misery we will back that now fog horn on Partridge Island against any sound that ever troubled the long-enduring atmosphere and inspired reluctantly listening mortals with melancholia and a strong desire to quit this vale of tears.

The old horn was unmusical enough, dear knows, but its raucous hoot was unmistakably warning and menacing. The vibration of it brought irresistibly to the mind visions of black reefs smoldering through grey wave-lips as they waited behind the mist for blind ships coming. It was business-like, and, for this reason, endurable. But this infernal new machine drops into its monotonous wail emotions of which a decent fog horn should know nothing. In its mournful howl are amalgamated the quintessence of biliousness, the uttermost depths of black despair and the helpless agony of a chained and vulture-torn Prometheus. At the end of each tormented yell there is a dying fall with an "all hope abandon ye" note that is especially depressing. Of a foggy night when its miserable uproar is punctuated by the dismal clang of the bell buoy, one can imagine the ghosts of all the drowned are playing ghoulish preliminary dead marches for the victims yet to come.

On behalf of an afflicted people we appeal to the powers that be for a respite. This kind of spring weather and the fog is hard enough without this additional affliction. The man who manufactured the outrageous instrument must have been a homicidal maniac, with horrible designs on the happiness of the race. Get us a more cheerful signal for sanity's sake. No wonder there have been many suicides here of recent months.—St. John Sun.

WILL THEY SACRIFICE JURY 1.—It seems to be the intention of the Laurier Government, as a consequence of an immigration scandal, to sacrifice Alfred Jury, the Liverpool agent. Should that course be pursued the labor interest will have something to say. A great many labor men are indifferent touching the attitude of the Government towards Mr. Jury in departmental matters. Mr. Jury might be dismissed and discredited by the Ministers for an offence against the rules of the bureau, without calling forth any objection on the part of workmen. But the present situation is abnormal. Mr. Jury is charged with having defended the interests of labor against Mr. W. T. R. Preston and his friends, Leopold, the London emigration worker. If Mr. Jury is dismissed from the service it will be because he has come into conflict with the Preston-

Leopold operations, and labor will not overlook such treatment to a man who has done his best in the position he occupied to protect the interests of the Canadian workman.

So far as can be gathered, the situation is a straight fight between the Preston-Leopold faction and the Jury labor party. The Leopold bureau was established in close proximity to Mr. Preston's office, with Mr. Preston's consent, and its purpose was to arrange for the sending of mechanics and others to Canada to break strikes and to flood the labor market. The labor men in Canada objected to the operations of this bureau, and Alfred Jury, who was one of their number when a resident in Toronto, sympathized with them. Mr. Jury learned the facts and tried to circumvent the Preston-Leopold movement. The Preston-Leopold faction, which he secured from the Allan Line was a distinct indication that the Leopold agency was being instituted under the Preston auspices. It seems clear that while the Government was not prepared to open its under the bringing of mechanics to Canada, the Preston-Leopold bureau was established for that purpose. Mr. Jury's fight against the office brought him into conflict with its founders, and schemes were laid with a view to his official undoing. If Mr. Jury is sent adrift the labor men of Canada will know the reason why.—Mail and Empire.

Summer is the Proper Time

Not half so hard to cure catarrh when the weather is fine. Start today with Catarrhoxone. Inhale it for five minutes four times a day. If in a fortnight you find any vestige of catarrh, any trace of bronchitis, any symptoms of asthma, make up your mind to this—your diagnosis is wrong. An unfailing cure is Catarrhoxone. Thousands have proved this. So can you. Two sizes, 25 cts. and \$1.00. Sold everywhere.

AN EXCEPTIONAL OPPORTUNITY. A unique property for sale. The magnificent property, known as the Pensionnat de Notre Dame du Bon Conseil, at St. Thomas de Montmagny, on which the works of repairs and enlargement have been finished for some time, is now offered for sale. These works had been undertaken for the installation of a branch of the Convent of Notre Dame du Bon Conseil at Chicoutimi. Mr. Charles Vézina, contractor, 117-121 Bridge street, Quebec, has through certain circumstances acquired the property, and would be disposed to sell it. It is without contradiction one of the finest establishments in the district. A pretty chapel connected with it which is a veritable gem has been built there. The establishment is provided with all the modern improvements, baths, hot and cold water everywhere, as well as electric lighting and warm water heating. A part containing a hall and drawing rooms has been specially divided off for the use of the director of the establishment and the other part contains class and study rooms and dormitories, and can accommodate between 40 and 50 boarders. The property is situated about a mile from Montmagny station. A spacious ground of two acres by four belongs to it and a superb wood in an elevated and most healthy situation. It is a unique opportunity for a pensionnat, a religious community, a hospital, a sanatorium, or a deaf and dumb institution. Apply to Mr. Charles Vézina, 117-121 Bridge street, Quebec.

FOR SALE.—FIRST CLASS MODERN self-contained houses, on Park Avenue, stone and brick. All modern conveniences. Also first-class building lots. Apply to Mr. Walter Sharpe, St. Louis Road.

FOR SALE OR TO LET.

FOR SALE OR TO LET.—THE UPPER portion of a very comfortable house, No. 31 Bridge street, containing 11 large rooms, bath, gallery, and large yard, etc. Apply to No. 49 St. Louis street.

Steamer Manchester Importer, Cap-

services she can be got under way in a very short time. All the men who leave port on both vessels are trained wreckers, the majority of them having spent many years in the service of the Davis firm.

To be ready to meet all demands that may be made on them, the Messrs. Davis have just imported five additional powerful pumps from London, England. This importation brings the number of these valuable appliances in the hands of the firm up to twenty. As the majority of these pumps throw a stream of water 15 inches in diameter, it can easily be judged the length of time a few of them would require to free a large ship of water. Besides the pumps, the firm have a number of air compressors to be used in floating vessels where pumps cannot be used to advantage. There are a number of other wrecking appliances attached to the establishment of this enterprising firm, but space forbids any lengthy reference to them. In conclusion, it might be added that a practical wrecker from England, a man of years of experience, recently stated that he never saw a more complete wrecking plant than that owned by Messrs. Geo. T. Davis & Sons. That speaks volumes for Quebec enterprise, and must be flattering to the firm to which it refers.

DOMINION PARLIAMENT
ON SUNDAY WORK BILL

Amendment Allowing Provinces to Administer Act

STANDS FOR THIRD READING

Effective March 1, 1907—Clause Forbidding Opening of Parks for Gain Dropped.

Ottawa, June 29.—The Lord's Day bill was again up for consideration in the House of Commons in committee of the whole. Clause 2 was first dealt with. It is in one sense the main clause of the bill. It reads that "It shall not be lawful for any person on the Lord's Day, except as provided herein or in any Provincial Act heretofore passed, to sell or offer for sale or purchase any goods, chattels or other personal property or real estate, or to carry on or transact any business of his ordinary calling, or in connection with such calling, for gain, or to do, or to employ any other person to do, on that day any work, business or labor."

This clause Mr. Piche (St. Mary's) proposed to amend by making the first part include any Provincial Act "Now or hereafter in force regarding matters coming within the exclusive powers of Provincial Legislatures." Mr. Aylesworth, for the Government, accepted this amendment after explaining that the result of Privy Council decisions was to declare that in certain matters the Provinces have as plenary powers as has Parliament. Mr. Piche's amendment was spoken of as a recognition of the coordinate right of the Provinces to legislate in regard to the matters dealt with in the bill and as likely to make the measure less disagreeable to the people of Quebec. Mr. Monk argued that such an amendment could mean nothing, as it was not in the power of Parliament to change that of the Provinces. This position Mr. Borden later agreed with. Mr. Gervais (St. James) pointed out that in the power to legislate in matters of police regulation and for good government the Provinces could regulate the matters dealt with in the bill. He did not think it well that Parliament should classify as a crime the mere employment of civil rights of a Province. Mr. Chisholm (Huron) pointed out that there were varying views in different parts of the country on the subject of Sunday observance. He thought the bill did not give satisfaction to any part of the country, and that it should be recast. The discussion for some time was very technical, being shared in chiefly by the legal members. Mr. Macdonald (Pictou) created a little diversion by condemning the course of Messrs. Bourassa and Lavergne as incendiary and making for disunion. To this Mr. Lavergne objected, and demanded a withdrawal. Mr. Macdonald retorted that perhaps he should not have used the word incendiary, because the case was one of more smoke than fire. He added that he was tired of hearing Messrs. Bourassa and Lavergne raising as the sole repositories of the principles of liberalism. Later Mr. Lavergne spoke somewhat slightly of Mr. Macdonald as having ambitions apparently in reference to the vacant Solicitor-Generalship. To this Mr. Macdonald retorted by recalling the result of the recent Provincial election in Nova Scotia and intimating that after the next Parliamentary elections he would be a member here and Mr. Lavergne would not. As the result of the discussion, Mr. Piche amended his amendment so as to read that it shall not be lawful for any person on the Lord's Day, except as provided in the bill or in a Provincial Act, now or hereafter in force, regarding matters coming within the classes of subjects enumerated in section 92 of the B. N. A. Act to follow his occupation for gain, etc.

The effect of this, it was pointed out by Mr. Borden, would be to give power to the Provinces to legalize many things proposed to be forbidden in the act. Sunday papers were mentioned as among the number. Mr. Borden further argued that by the bill they were legislating by federal authority on what should be dealt with by Provincial authority. He thought that Parliament could ordain that Sunday should be a day of rest, but that the Provinces should deal with the manner in which the day of rest should be observed. Mr. Borden's remarks were received with applause. Sir Wilfrid Laurier closed the discussion with a brief speech, in which he supported Mr. Piche's amendment. There were, he said, some things in connection with the bill which could not be left to the Provinces. The difficulty was as to where the line was to be drawn. It was impossible to make a law acceptable to all the Provinces. The amendment would give power to each Province to administer the act according to the popular wish. The amendment was then accepted and the clause adopted.

Clause 3 deals with the exceptions to clause 2. Sub-section D provides that "Starting or maintaining fires, making repairs to furnaces and repairs in cases of emergency, and doing any other work, when such fires, repairs or work are essential to any industry or industrial process of such a continuous nature that it cannot be stopped without serious injury to its product, or to the plant or property used in such process, or if, without the doing of such work on the Lord's Day, such process cannot be carried on continuously and safely during the other six days of the week."

Mr. Aylesworth moved to strike out the last twenty-nine words. This was opposed by Mr. Bennett, Mr. Gallihier, Mr. Duncan Ross, Mr. Cormac, and Mr. Zimmerman, who represent constituencies where smelting industries are carried on, and the operations of which would be interfered with unless a large amount of Sunday work is done. Mr. Martin (Wellington) spoke strongly against anything that would tend to encourage manufacturers to make Sunday a day for making repairs and cleaning up. Mr. Aylesworth's amendment was carried on a vote of 37 to 27 and the section passed. Then Mr. Aylesworth proposed another section to permit starting and maintaining fires and ventilation, pumping out and inspecting mines and any such work as is essential to the protection of property, life or health. This was accepted.

Section K permits the loading and unloading and operation of ocean-going vessels, which otherwise would be unduly delayed after her scheduled date of sailing, or would be in imminent danger of being stopped by the closing of navigation. Mr. Pardee wanted its scope extended to include lake vessels, but withdrew his amendment. Sub-section N was amended on motion of Mr. Aylesworth to allow the hiring of small boats as well as horses and carriages for the personal use of the hiker and his family. To Mr. Gervais, Mr. Aylesworth said this would not interfere with cab stands in cities, which were matters of municipal regulation. Sub-section O was amended on motion of Mr. Templeman to allow work on a Monday morning paper to begin at 6 o'clock on Sunday night. A section was inserted to permit the loading or unloading, after the 15th of September, of grain, coal or ore-laden vessels before 7 o'clock a.m., and after 8 o'clock p.m. Another section permits fishermen work on Sunday after 6 p.m. in the preparation for and the taking of fish.

Sub-section U was adopted. It provides that the Railway Commission may permit any work on Sunday deemed necessary in connection with freight traffic on any railway. Another subsection was added to permit farmers to make maple sugar during the season on Sunday. Clause 4 was amended to read, except in cases of emergency, it shall not be lawful for any person to permit any employee engaged in the work of some industrial process or in connection with transportation to do on the Lord's Day the usual work of his ordinary calling unless such employee is given during the next six days of such week twenty-four consecutive hours without labor.

Mr. Aylesworth then announced that clause 7, forbidding the opening of parks or pleasure grounds for gain on Sunday would be dropped. To meet the situation thus created he moved a change in clause 5 so as to read, "It shall not be lawful for any person on the Lord's Day to engage in any public game or contest for gain or for any prize or reward, or to be present thereat, or to provide, engage in, or be present at any performance or public meeting at which any fee is charged, directly or indirectly, either for admission to such performance or meeting, or to the grounds or place where it is held. Mr. Aylesworth explained that this would apply to "Trimsly Park, a Methodist summer resort in Lincoln."

The clause was adopted in spite of the protest. Another clause adopted proposed to bring the bill into force on March 1, 1907. This delay, Mr. Borden remarked, was to enable the Provincial Legislatures to do away with the bill before it comes into force. The bill was then reported and stands for a third reading. By this time it was 1.15 and the House adjourned.

Mr. Fielding's bill to repeal the act respecting annuities for certain Privy Councillors is a short measure, and simply provides that after July 1 the act of last session shall cease to be in force.

Mr. Foster asked if the Government had taken into account certain rights that might have been created. Certain action may have been taken by the beneficiaries of the Pension Act with other acting in good faith, which the present bill might affect. In reply Mr. Fielding said he did not think anything like vested rights had been created, and if arrangements had been made such as Mr. Foster alluded to it was not felt that they created any claim.

ST. LAWRENCE PILOTAGE. Mr. Brodeur introduced a bill to amend the Pilotage Act. Its purpose, as explained, is to require all vessels between Father Point and Montreal to take pilots. At present coal vessels and others from the Maritime Provinces are exempt from the obligation to take on board and pay a pilot. It is claimed that these sometimes render navigation difficult. They take the middle of the channel and make it hard for other vessels to pass them. It was, therefore, deemed well to require that a qualified pilot should be on board all vessels. In reply to questions by Mr. Bergeron, Mr. Brodeur further explained that the bill was prepared at the request of the Shipping Federation. Mr. Borden asked if those in the coal trade had been consulted in the matter, and other members spoke of the effect of compulsory pilotage laws. When up for a second reading there may be some opposition to the bill.

MOUNTAIN SCHOOL, BERGERVILLE. Last week a large number of the parents and others interested in the Mountain School attended the closing exercises. In the absence of Mr. John T. Ross, Chairman of Trustees, the Rev. Canon Vonfland was requested to preside.

The programme was as follows:—1. Dialogue—Four Celebrated Characters—By Helen Castell, Annie Langton, Rebecca Castell, Ruby Arnott. 2. Reading—By Ruby Arnott. 3. Recitation—King Edward—By Nannie Langton. 4. Lullaby Song by Dorothy Castell and Eva Winter. 5. Playing Crown Up, by Rebecca Castell and Ruby Arnott. 6. Song—Little Buttercups, by Dorothy Castell and Eva Winter. 7. Dialogue—Scene from Mother Goose—By Ruby Arnott, Rebecca Castell, Eric Bignell, Wilfrid Sleeth. 8. Exercise Song—By all the Scholars. 9. Recitation—By Jack Winter. 10. Song—The Land of the Maple—By all the Scholars. 11. Speech—By Eric Bignell.

Col. Forsyth announced that Mrs. J. T. Ross had given three extra prizes, and she had great pleasure in doing so, as they had been well earned. The recipients were Ruby Arnott, Dorothy Castell, Rebecca Castell. These three scholars did not miss a day through the school year, nor were they ever late.

The prize list was as follows:—Joint prize for conduct, Dorothy and Rebecca Castell. Grade IV—Rebecca Castell, class marks; Helen Castell, general improvement and writing. Grade III—Ruby Arnott, class marks; Annie Langton, improvement in writing. Grade II—Dorothy Castell, class marks; Wilfrid Sleeth, improvement in writing; Margaret Lamontagne, improvement in reading. Grade I—Eva Winter, reading and writing; Jack Winter, general improvement; Alphonse Lamontagne, arithmetic; Joseph Hughes, improvement in writing; Harry Langton, good conduct.

Canon Vonfland made a happy address, congratulating Miss Floyd and the children on the manner that the different exercises had been performed, reminding the children of the great advantages they had, that this was their golden opportunity to become well educated, as it was also perhaps the happiest time of their lives. He wished them all, both teacher and children, a very happy holiday.

Col. Forsyth stated that Mr. J. T. Ross was just leaving town and could not attend. He was certain that all present were pleased with the efforts of the young people, which reflected great credit on the teacher and pupils. He reminded those present that the school had always had excellent teachers, and that many of the scholars (male and female) had taken high places at different schools after leaving.

"God Save the King" was then sung by all present, and the school declared "closed" by the Chairman. The school room had been recently decorated by the teacher and scholars.

CHILD POISONED BODY CREMATED

Died After Taking a Dose of Soothing Syrup.
A Distressing Incident that Occurred at Valcartier Sunday Evening.

On Sunday last the two-year-old child of Francois Larose, residing at 196 Boissieu street, died after taking a dose of soothing syrup, commonly called "Sirop de Norqua." The child had been ill for several days, and to relieve its pains the soothing syrup had been resorted to. This, however, did not relieve the poor child's pains, and Dr. Alf. Simard was called in and satisfied himself that the child had been poisoned, and notwithstanding all medical care the little victim died in a few hours. Coroner Jolicœur will hold an inquest to-morrow, and in the meantime the syrup will be analyzed.

SUDDEN DEATH.
 A resident of St. Sauveur named Frederick Bodard, dropped dead on Saturday afternoon at his residence. Coroner Jolicœur will hold an inquest to-day.

COUNTY OF QUEBEC.
 Mr. Alf. Martineau, of St. John's, announces his intention of running as a Liberal candidate in the County of Quebec in the place of Hon. Chas. Fitzpatrick. He will hold his first meeting at Lorette this afternoon.

FATAL ACCIDENT.
 A lad named Ernest Fortier, 14 years old, and employed at the Quebec Bridge Works, was killed on Saturday last by a piece of machinery falling upon him. He had been advised not to go too near the machinery, but his brother who was in charge, the body was conveyed to his parents' residence where an inquest will be held to-day.

BODY RECOVERED.
 The body of Capt. Joseph Pelletier, who was drowned from his schooner near Isle aux Oies, about three weeks ago was found on the Lislet beach on Saturday last by a hunterman who was passing along the beach. A quantity of sand covered the body which was very much decomposed. An inquest was held at Lislet when a verdict of accidental drowning was rendered. The remains were conveyed to Quebec where the funeral took place yesterday.

QUEBEC INVADIED

By the Forty-First Rifle Regiment from Brockville, :

Quebec was subjected to a friendly invasion on Sunday last by the Forty-First Rifle Regiment from Brockville, Ont., under command of Lieut.-Col. A. A. Fisher, who continued their welcome siege on the Old Rock City and its inhabitants until last night, when the corps received orders to evacuate. The 41st 227 strong of all ranks, reached this city early Sunday morning and were greeted by Lieut.-Col. W. J. Ray, commanding officer, and several officers of the 8th R.R., who escorted the visiting corps to the Drill Hall, Grand Allee, where they were very comfortably quartered during their stay. It was previously arranged that all the officers and men would take their meals at the Hotel Victoria, where the commanding officer, Lieut.-Col. Fisher, and his officers were quartered.

After breakfast the corps mustered at the Drill Hall for church parade, and attended divine service at St. Andrew's Presbyterian Church, and at the conclusion of the service marched headed by their bugle and brass bands, along St. Anne street, up by the Place d'Armes and along St. Louis street and Grand Allee, back to the Drill Hall.

Colonel Buchanan, Provincial Commanding Officer; Lieut.-Col. Ray, Major Wood, and Capt. Swift, 8th R.R., and Capt. Price, Q.C.H., in full dress uniform, escorted the corps to and from the church and the visitors presented a very neat and soldierly appearance as they marched through the streets in splendid marching order.

On their return to the Drill Hall from church the corps was formed into line, when Lieut.-Col. Ray, on behalf of the officers and men of the 8th Royal Rifles and Citizens of Quebec, wished them a cordial welcome to the city and hoped they would have a good time. In the afternoon of the same day, the visiting corps were treated to an excursion around the harbor on board the steamer Queen by the officers and non-commissioned officers of the 8th, which included a sail up the river to the new Quebec Bridge, etc. Refreshments were served on board and the visitors were well looked after by the officers and non-commissioned officers of the 8th to whom they expressed themselves well pleased.

Sunday evening from 8 to 10 o'clock the band of the 41st gave a promenade concert on Dufferin Terrace, which was attended by fully 8,000 citizens, who appreciated the excellent programme of music rendered. In the meantime the members of the visiting corps took possession of the city and enjoyed themselves in a very pleasing and well behaved gentlemanly way, while the officers were put up at the Garrison Club, and were looked after by the officers of the 8th.

Yesterday forenoon Lieut.-Col. Fisher and several of his staff paid their respects to Mayor Garneau who received them in his apartments at the City Hall. Later in the day Lieut. Col. W. J. Ray and the officers of the 8th R.R., entertained Lieut.-Col. Fisher and officers of the 41st to a lunch at the Quebec Garrison Club, which was a very pleasing event. Mayor Garneau was a guest and made a pleasing address. The following are the names of officers of the 41st Regiment:—Lieut.-Col. A. A. Fisher, commanding officer; Major J. Power, Capt. and Adj. W. S. Buell, Surgeon Major R. N. Horton, Surgeon Lieut. Bowie, Capt. A. S. Bowie, Capt. R. W. Stewart, Capt. E. W. Jones, Capt. A. M. Patterson, Capt. C. F. Wilkin, Quartermaster and Hon. Capt. A. G. Bowie, Lieutenants W. Weatherston, C. T. Wilkinson, F. G. Graham, H. H. Bryan, A. J. Husband, E. Kelly. In the meantime the 8th non-commissioned officers of the 8th and the citizens of Quebec in general.

The 41st took their departure for their Brockville home last night highly pleased with their trip to Quebec and the hospitality they received from the officers and non-coms. of the 8th and the citizens of Quebec in general.

They were escorted to the ferry and across the river to the G.T.R. train by Col. Ray and officers and some 18 non-coms. of the 8th R.R.

The members of the corps are all young men whose ages in the bugle band average from 18 to 20 years, and the nucleus of splendid Canadian volunteer soldiers. The bugle band numbered 20 drums and bugles, and their marches were very much admired, while the brass band is a very fine musical corps.

THE SERGEANTS ENTERTAINED.
 The warrant officers, staff sergeants, and sergeants of the 8th R.R. entertained their brother staff sergeants and sergeants of the 41st Brockville Rifles yesterday afternoon by a trip to Montmorency Falls. On their return to the city, dinner was served at the Masonic Hall. Sergt.-Major Wilkinson occupied the chair. On his right was seated Sergt.-Major A. M. Clark and on his left Q.M.-Sergt. Cowie.

Full justice having been done to the edibles another feast was in store and the toast to the King was responded to in the most hearty manner, followed by songs by Sergeants J. Toftin, W. Tobin, and Johnston.

The toast was proposed by Col. Sergt. Blair and responded to in a most happy manner by Hospital Sergt. Miller.

The toast to the 41st Rifles was proposed by Sergt.-Major Wilkinson and in well chosen words responded to by Sergt.-Major A. N. Clark. A song by Q.M.-Sergt. Cowie was followed by address by Col. Ray and Quartermaster Parmelee. Songs and recitations by Col. Sergt. Tobin and a vote of thanks by Quar. M. Cowie closed the programme. The music for the banquet was furnished by an excellent orchestra under the direction of Sergt. Gingras.

MONTREAL WINNERS
Defeated Levis and Quebec at Baseball Sunday and Yesterday.

Sunday was an ideal summer day and one of the largest audiences that have yet turned out to a ball game in the city of Quebec, assembled on the Q.A.A. grounds. Ladies resplendent in all the colors of the rainbow were also much in evidence, fully six hundred adding their presence to the match. Levis and Montreal were the opposing teams and seeing that they were both neck and neck in the race for first place in the Canadian League series, it was only natural that their best efforts to have the strongest teams that it was possible to have for the occasion. The result was the fastest and best game by far that has yet been seen in the city of Quebec. Mr. Joe Page, who had umpired the two previous games to the entire satisfaction of teams and spectators, again handled the indicator, and it is sufficient to say that a number of New York people who had attended the big league games for the past twenty years were heard to say that it was the best ball played from start to finish but in addition was the best conducted game that they had yet had the pleasure of witnessing any place. The umpire seemed to have the knack of not only being able to render decisions that were palatable to players and spectators but at the same time kept the field clear without the aid of police and that with over two thousand present, the players of both teams on the move, and finished the game in one hour and twenty minutes which would have been cut at that by at least fifteen minutes, which was used up on account of accidental injury to two players.

From the above remarks quoted it can be taken that the Canadian League is putting up a finished article of ball in all departments and the large audiences attending these games is evidence of that fact. But it is pleasant to know that others that have the opportunity of witnessing major league ball at all times are of the same opinion too. The story of the game can be summed up in very short order as there was scoring in the fifth on an error of Grannary, who failed to hold the ball, a pretty steal of second and Aubertin's second hit of the game, a two bagger easily scored the former. But with only one out the succeeding two batters were unable to solve the masterly pitching of Rivest and were easy outs. Following is the score:—

DIAMOND DUST.
The best game ever seen here.
A pretty sight to see the grand stand with over five hundred ladies present.
Both outfields accepted all the chances that came their way, Anteil making an especially brilliant catch.
The work of Rivest and Farrell in the points for Montreal was extremely fine, the former having everything and the latter playing a star game behind the plate.
Pouliot and Payette, the opposing battery, were very much in evidence, too, error in the fifth, nine innings would never have settled the game.
The umpiring of the President of the League, Joe Page, was the subject of much comment around the corridors of the lending hotels after the game, and it is the unanimous opinion that he is an umpire that would do credit to the major leagues, his experience of twenty years and his ability to be on top of every play fitting him well for the position.

QUEBEC DOWNED ALSO.
It was Quebec's turn to fall victim to the strong Montreal outfit yesterday afternoon on the Q.A.A. grounds. A large crowd of fans saw the locals go down with a dull, sickening thud to the tune of 7 runs to 2. Montreal played good fast baseball. The score:—

ST. PATRICK'S II. DEFEAT BUF. FAULT II.
A very exciting game of baseball was played Sunday morning, when the St. Patrick's II. defeated Buffalo II. in the Junior League series by 20 to 18. The Buffalo pitcher blew up in the first innings, and Burns was substituted and pitched pretty well. L'Oiseleur pitched a splendid game for St. Patrick's. The batting order:—
Buffalo II.—W. Savard (pitcher) and 1st base; Jno. McDonald (catcher); Burns, 1st base and pitcher; James Walsh, 2nd base; J. Malone, c.f.; Webster, 3rd base; J. Savard, s.; J. McDonald, r.f.; Beckwith, I.L.
St. Patrick's II.—Keeler, c.f.; Timmons, 2nd base; C. Cummins, s.; L'Oiseleur, pitcher; J. Ledden, catcher; Jno. Walsh, r.f.; R. Duggan, I.L.; H. Ledden, 3rd base; C. Henchey, 1st base.

Souris Badly Beaten—Caps Defeat Shams—Quebec Wins.

Montreal, July 2.—The Souris lacrosse team, the champions of Manitoba, played the Shamrocks on the latter's grounds this afternoon for the Minto Cup, but were badly defeated by a score of 10 to 2. The visitors were completely outplayed and decided not to play the second match of the series. The teams:—
Shamrocks.—Goal, Kavanagh; point, Howard; cover-point, McIlwaine; defence, Kenny, Munday, Smith; centre, Currie; home, Robinson, Hennessy, J. Brennan; outside, P. Brennan; inside, Hogan.
Souris.—Goal, Hewes; point, Hawkes; cover, Tyson; defence, Hethune, McDonald, McDonough; centre, Barter; home, McLean, Burns, McLeod; outside, Lawrence; inside, Lyle.

SHAMS BEATEN BY CAPS.
Montreal, July 1.—With but a minute to play, Capitals scored the deciding goal on Shamrocks yesterday and won the match by a score of 6 goals to 5. The Shamrocks had the game well won, when there was a sudden development of roughness, causing men to go to a fence, and with seven men to nine Caps rapidly covered the score and finally won out. The Capitals played a good game, but their home was weaker than their other departments. There is one man on the team to whom particular credit, if it can be called that, is due. That is Fagin. He is the Capital point, and it was he who broke up the Shamrock team by causing Brennan to lose his head. Fagin seems to be an aggressive sort of player. At the end of the second quarter he hit Paddy Brennan on the head, and Lally sent him to the fence. Fagin was not the only offender, Hennessy and John Brennan and other Shamrocks in the heat of the fight did some ugly checking too, as is shown by the number of them that were ruled off, but it was Fagin labelling the end of his stick into Paddy Brennan's face and cutting his lip, that caused the fight which demolished Shamrock's chances of victory. They had some hard luck too. McIlwaine, for instance, really scored one game for Capitals although officially the credit is given to an Ottawa man. The ball went over the net, and McIlwaine holding up his stick to catch it, caused it to bound back between the poles and struck the body of Hutten and this saved the situation. The Caps showed an immense improvement and will certainly come to be counted on the championship series. The teams lined up as follows:—
Capitals: (6)—Goal, Hutten; point, Fagin; cover, Lalor; defence, Pringle, Pleau, Starrs; centre, Ashfield; home, Butterworth, Eastwood, Allan; outside, E. Murray; inside, Gail.
Shamrocks: (5)—Goal, Kavanagh; point, Howard; cover point, McIlwaine; defence, Kenny, Munday, Smith; centre, Currie; home, Robinson, Hennessy, J. Brennan; outside, P. Brennan; inside, Hogan.

Referee, Joe L. Cornwall; Judge of Play, Guy Pettigrew; Montreal: Umpires, King, Clancy, Ottawa, Percy Quinn, Toronto: Time-keepers, Harry McLaughlin, Wm. Gorrie; Penalty Time-keeper, Mr. Allan, of Ottawa.

NATIONALS WERE BEATEN.
Toronto, June 30.—In a rain storm the Tecumseh beat the Montreal Nationals at the Island this afternoon by 8 to 3. It was not as one-sided a game as the score looks, until the final quarter, when the Indians found the net five times. Seventeen men were penalized by the officials and at that the usually watchful Waghorne was without his spectacles half of the time. McIntyre, of Ottawa, had charge of the game with "Wag" as judge of the play and a whole lot of rough work was overlooked. The most serious offence was Davidson's foul of Lemons, for which he got ten minutes on the bench. The spectators hissed the Toronto man and strongly condemned the offence, which was most glaring. The penalty list, however, looks as if both sides were trying to wipe out a few scores. As to the play it was fair, considering the condition of the grounds, which made accurate shooting and passing impossible. There was a large crowd considering the weather, which threatened to snail all afternoon. Just as the whistle blew, the heavens opened, and the downpour made the footing bad. There was a slight change in the line up of both teams, Stewart going on for Rometon on the Tecumseh defence, and Blanchard for Clement at cover for the Nationals.

QUEBEC WON.
Montreal, July 2.—With two men short of their regular line-up, the Quebec lacrosse team this afternoon, defeated the National II by a score of 7 to 6. The match was close and exciting, but Quebec showed a vast improvement over the form they displayed a few weeks ago, when Nationals defeated them in Quebec.
Sherbrooke, June 30.—Montreal intermediates and Sherbrooke intermediates met here today in a league match, the former being defeated by the score of 7 to 1.

TORONTO DEFEATED.
Toronto, July 2.—The Montreal lacrosse team snatched a victory from the Toronto by a margin of one goal at Rosedale this afternoon. The game was by all odds the best seen this season in Toronto. The final score was 5 to 4 in favor of Montreal.

CRICKET AT THE FALLS.
The Rev. H. C. Burt's team easily defeated the Secretary's on Saturday afternoon at the Kent House Grounds. The chief features of the game were a capital innings of 60 not out, by H. B. Price, and the "bat trick" by the Rev. H. C. Burt, who was in excellent form. Other players who distinguished themselves with the bat, were Messrs. A. Drolet and H. M. Price, who were brilliantly caught at point by A. Drolet, F. G. Daniels, Evans and the Rev. H. C. Burt. In bowling W. M. Massey obtained five wickets, while H. B. Price showed good form and was difficult to play.

R.C.G.A. WINS THE CHAMPIONSHIP.
The R.C.G.A. football team turned out to play their scheduled league match with the Quebec team on Saturday afternoon on the Q.A.A. grounds. The Quebec team failed to show up, and the R.C.G.A. team lined up at 4.10 p.m., when Mr. Cooper faced the ball. Billy Pugh kicked off the ball, and scored a goal. The result was a 1-0 victory for the R.C.G.A. team, who become holders of the cup for the next year.

ONTARIO WON GOLF MATCH.
Ottawa, June 30.—Ontario won the Interprovincial golf match at Ottawa this afternoon by 5 to 4, after a most exciting finish.
The result was in doubt until the last couple came in, when it was seen that H. J. Martin, of Toronto, had beaten H. McGrovy, of Quebec, by a single hole and so won the match. The Quebec team made a plucky fight, but were beaten by superior players.
But though there was a good deal of interest manifested in the Interprovincial match, it was entirely secondary to the excitement over the contest between George S. Lyon, of Toronto, the most famous of all Canadian players, and T. R. Reith, of Beauséjour, Montreal. They were the first couple out and they had no sooner started than it was seen that Lyon was up against a golfer of rare ability. Reith is a young Scotchman, who played but moderate golf round Edinburgh, but since he became a master in the Montreal High School last year, he has practised faithfully and is now recognized as probably the best player in the east.
The score was as follows:—

IT'S COMING
Scotch (Hard) Anthracite Coal
ALL SIZES IN BAGS.
Thirty thousand tons received in St. John each year, and is claimed to be superior to all other Anthracite Coal. Here is what the St. John Public Hospital, says about it:
St. John N.B., August 7th, 1903.
"In accordance with the authority of the Commissioners of this Hospital, I have much pleasure in certifying as follows:
"The Hospital was heated with Scotch Anthracite Coal for the first time, during the winter season of 1904-5, and the result was so very satisfactory that the Commissioners have just recently given it their preference over all other kinds, and preferred for the entire supply required or next winter viz., 350 tons.
"The Scotch Anthracite not only gives out great heat, but it produces very little ash, and no clinkers, and there is therefore, the least possible labor or trouble connected with burning it.
(Signed) L. OLIVE THOMAS, Secretary."

Orders for this coal is now looked at reasonable price for next summer delivery.

DOMINION DAY

How It Was Observed In
Quebec and
Vicinity.

Domination Day was quietly observed
in the city of Quebec, and apart from
the closing of the principal stores in
the Upper Town and the suspension of
business in the Lower Town, a stranger
visiting the city would hardly be
impressed with the idea that the occa-
sion was the national holiday of an
isle. The English-speaking portion of
the population, however, celebrated the
day in a very pleasing and pleasant
manner with their families in the
country. The Catholic Order of For-
esters held their third annual picnic at
St. Catherine's Grove, which was a
splendid success in all respects. There
were over 900 ladies and gentlemen
present, who seemed to enjoy them-
selves immensely, including several
Fathers of St. Patrick's Church. The
sporting events connected with the
picnic were well contested and the
game of considerable excitement. Dancing
was indulged in all day under the
tall pine trees, and light refreshments
of an absolute temperance character
were served on the grounds. The
junior excursionists had special amuse-
ments of their own. They went in
for bathing and boating in Lake St.
Joseph and in general had a good
time. A full report of the sporting
events will appear in tomorrow's
Chronicle.

A large crowd of citizens passed the
day at the Kent House grounds,
where they regaled themselves to re-
freshments under the hospitable roof
of the Kent House hotel. Other
citizens with their families went
for a trip to the Island of Orleans, while
quite a number proceeded for a sail
on the steamboats up and down the
river.

The camp at Levis was visited by
an immense crowd of people, who came
from all parts of the district to see
the rural soldier boys underneath canvas,
and the camp grounds presented a
gay appearance all afternoon until
late in the evening. The Q. A. A. A.
grounds were not forgotten by lovers
of athletic sports, who turned out in
large numbers to witness the base-
ball match between the Montreal and
Quebec nines, which resulted in favor
of the visitors by a score of 7 to 2
runs. The 41st Regiment was an-
other centre of attraction, and kept
the officers and non-commissioned offi-
cers of the 8th Royal Rifles busy all
day acting as hosts, and the home
soldiers sustained the reputation of
the old city in a very creditable man-
ner by their hospitable treatment of
the boys from Ontario. The dinner
given by the non-coms. of the 8th to
the non-coms. of the 41st, which took
place at the Masonic Hall, was charac-
terized, not only by a substantial
spread, but by fraternal greetings and
good speeches.

There were quite a number of private
picnics held in all parts of the coun-
try district, which were greatly en-
joyed by the respective parties who
attended them. The city police were
the only members of society who did
not indulge in diversion. They had a
very quiet day of it, and the station
houses remained empty, which speaks
volumes for the sobriety and good
conduct of the community.

One thing, however, connected with
the day which was noticeable, that
was the want of unity in the citizens
in properly observing the occasion as
a general holiday, and unmistakable
national festival. Dominion Day does
not belong to one section or class of
Canadians alone to observe. It is a
statutory holiday, established by Par-
liament to commemorate the federa-
tion of all Canadian Provinces, and
therefore is a recognized holiday for
all Canadians to observe. But strange
to say not only do a section of Cana-
dians fail to honor the day by closing
up their establishments and thus gly-
ing in the importance of their coun-
try, but a branch of the public service
boast in ignoring the day, for in-
stance the Quebec Arsenal, under the
immediate control of the Canadian
Military Department, refused to shut
down and give the employees an op-
portunity to observe the day. With
such an example, it is no wonder that
Dominion Day is to some extent look-
ed upon with indifference, that de-
monstrates a want of loyalty to the
country and its fine and independent
institutions.

"Getting Back The Old Vigor."

These words describe the feelings of
the person who is using Dr. Chase's
Nerve Food.

As the blood becomes richer, the nerves
stronger, and the bodily organs
more vigorous and regular in action,
digestion improves, you sleep and rest
better, headaches disappear, and irrita-
bility and discouragement give way to
brighter and more hopeful feelings.
Most of us have our spells of weak-
ness and tired feelings. Sometimes
they pass away, but only to return
again, unless active restorative treat-
ment is used, such as Dr. Chase's
Nerve Food.

Too often it is neglected to heed these
symptoms of nervous exhaustion that
allows the nerves to get weaker and
weaker, until a little unusual strain
brings on prostration, paralysis or
insanity.

It is better to get back old vigor
while you have something to build on.
Dr. Chase's Nerve Food will help you,
as nothing else can. 50 cents a box,
six boxes for \$2.50, at all dealers, or
Edmondson, Bates and Co., Toronto.

AT THE KENT HOUSE

Another very acceptable menu of
vaudeville performers is presented this
week at the Rustic Theatre, Montmorency
Falls. These features are alto-
gether different from previous weeks,
and afford constant enjoyment and
appreciation. In fact we congratulate
the management on the very desirable
increase in the attendance, and right-
ly too should there be this increase, as
the features and attractions offered
our public are second to none in the
Province.

The very pretty theatre itself is a
great attraction and the artist who
presides at the piano is one in a class
by himself. The opening feature this
week is a laughable sketch by Duffy,
Sawtelle & Duffy, entitled "Papa's
Sweetheart." Master Jack Duffy, the
youngster in the skit, is quite clever,
and he is the mainstay of the feature.
Henry and Francis are also enter-
tainers of no mean ability and gave a
good impression last night.
Bedard and Bedard, who give the
features as well as the principal act
of the programme, are well worth par-
ticular mention. Their feats of strength
combined with grace are exceedingly
good and they carried away the audi-
ence last night by their work. Men-
tion might also be made of the
"merry-go-round" on the grounds,
which is a source of constant enjoy-
ment and amusement to the children
as well as numbers of adults who
daily patronize the grounds. It is
also rumored that Manager Baker is
contemplating building a miniature
railway and a "shoot the shoots" for
visitors and patrons of Kent House.

There is no reason why a Dominion
Park of a small nature should not be
sufficiently patronized at this place by
our Quebec and the travelling public.

BE A STRONG MAN.

Increase your vitality.
Restore your nerve energy and feel
as you ought, brisk, hearty and ever
ready for work. You need Ferrozone.
It is just the remedy for men. It
creates a keen appetite, gives prodigious
digestion, builds richness and vi-
tality into the blood.

It takes power to rebuild a wornout
man, but Ferrozone has that power,
and Mr. Walter Wood, of Beauséjour,
N.B., supplies the proof.
"Ferrozone has given me a new lease
of life. A year ago I suffered terribly
from nervous weakness. I was scarce-
ly able to drag myself around, my
appetite was gone, I had no color or
ambition and I felt utterly
exhausted. I took a lot of Ferrozone
but it was worth while, as my health
was completely restored."

The ablest restorative known to man
is Ferrozone. Get it to-day, 50 cts.
per box at all dealers or by mail from
N. C. Polson & Co., Kingston, Ont.,
or Hartford, Conn.

PRESERVES.

Now is the time; go to Chinie's
Branch Store and get a preserving
kettle. They have all sizes; also wood-
en spoons and jar fillers.

NOTICE.

We invite those who wish to secure
real Oriental rugs to come and visit
the samples we have in our store only
for a few days; you can select the
pattern, the size and design. Goods
will be delivered in September. This
is a special occasion to get Indian
rugs at 50 per cent cheaper than those
purchased in Montreal and Toronto.
Amateurs, visitors or purchasers will
be welcome at

P. J. COTE'S,
Opposite Palace Hill.

THROWN FROM A WAGON.

On Sunday afternoon, George Caron,
master carter, residing in St. Fran-
cois street, was the victim of an
accident which might easily have had
serious consequences. While driving to
Charlesbourg with some visitors he
suddenly perceived an automobile ap-
proaching at a rapid pace and while
endeavoring to avoid a collision, which
seemed inevitable, was thrown from
his wagon and badly shaken up. A
doctor was summoned, who attended
to his injuries, after which he was
sent home.

EXHIBITION GAME.

Ottawa, July 2—The Capitals and
Nationals played an exhibition game
of lacrosse to-day and the Senators
won by a score of 5 to 3. It was
an exhibition game and the play was
rather too listless to be interesting.

The Ottawa baseball team played a
Northern League game with Platts-
burgh N.Y., on the home ground this
morning and won by a score of 8 to
1. The game was witnessed by a
large crowd and good ball was played.

NO ELECTION HELD.

The election of officers did not take
place at the meeting of the
Ship Laborers' Benevolent Society held
last evening, owing to the necessary
quorum not being present. It was
decided to hold the annual picnic on
the 22nd instant, as usual.

Soaps for laundry work should be
bought in fairly large quantities. A
piece of twine attached at either end
to a small wooden peg is an excellent
device for cutting the bars of soap
into convenient sized pieces. These
should then be dried near a hot
water cistern in a good place—and
stored in a warm, dry place.

Whose Say-so is Best?

With nearly all medicines put up for
sale through druggists, one has to take
the maker's say-so alone as to its curative
value. Of course, such testimony is
not that of a disinterested party and
consequently is not to be given the same
credit as if written from disinterested
motives. Dr. Pierce's medicine, how-
ever, forms a single and therefore striking
exception to the general rule. Their claims to
the confidence of invalids does not rest
solely upon their makers' say-so or
praise. Their ingredients are matters of
public knowledge, being printed on each
separate bottle wrapper. Thus invalid
sufferers are taken into Dr. Pierce's full
confidence. Scores of leading medical
men have written enough to fill volumes
in praise of the curative value of the
several ingredients entering into these
well-known medicines.

Amongst these writers are such medi-
cal lights as Prof. F. H. Kellum, M.D.,
of Bennett Medical College, Chicago; Prof.
Hale, of the same city; Prof. John M. Scud-
der, M.D., late of Cincinnati, Ohio; Prof.
John King, M.D., late of Cincinnati, Ohio;
Dr. G. W. Allen, of New York; Dr. Bar-
low, of Jefferson Medical College, of Pa.,
and scores of others equally eminent.
Dr. Pierce's Favorite Prescription cures
the worst cases of female weakness, pro-
trusion, anteversion and retroversion and corrects
irregularities, cures neuralgia, drives up
disastrous and weakening drains, some-
times known as pelvic catarrh and a multi-
tude of other diseases peculiar to women.
Bear in mind, it is not a patent nor even a
secret medicine, but the "Favorite Prescrip-
tion" of a regularly educated physician, of
large experience in the cure of women's
peculiar ailments, who frankly and consid-
erately takes his patients into his full con-
fidence by telling them just what his "Pre-
scription" is composed of. Of no other medi-
cine put up for women's special maladies
and sold through druggists, can it be said
that the maker is not afraid to deal thus
frankly, openly and honorably, by letting
every patient using the same know exactly
what she is taking.

Sick women are invited to consult Dr.
Pierce, by letter, free. All correspond-
ence is guarded as sacredly secret and
womanly confidences are protected by
professional privacy. Address Dr. R. V.
Pierce, Buffalo, N.Y.
How to preserve health and beauty is
told in Dr. Pierce's Common Sense Medi-
cal Adviser. It is free. For a paper-
covered copy send Dr. R. V. Pierce, Buf-
falo, N.Y., at one-cent stamps to cover
mailing only; its cloth binding 50 stamps.
Dr. Pierce's Pellets cure constipation.
