Special to the Chronicle.

Ottawa, April 23. — Private advices from authoritative sources in Washington are to the effect that the Attorney-General of the United States has given his opinion that it is not possible under present Dingley law to prohibit the importation of Canadian lumber into the States. Hence so far as the present season is concerned the Canadian lumber trade need not be alarmed at any prospective interference. Before the United States could prohibit the importation of Canadian lumber it would be necessary to amend the Dingley Tariff Act. In some quarters however, the belief is entertained that under a strained interpretation of the Dingley tariff, the duty on Canadian lumber could be increased consequent upon the manufacturing clause in Ontario timber licenses. Although it is difficult to see how this could be possible under the Dingley tariff provides that when any country imposes an export duty upon logs there shall be added to the duty on such logs an amount equivalent to such export duty. The tariff provisions, although held by some to be practically an export duty, can hardly be reduced to a basis of dollars and cents, so that it is not an easy matter for the States to decide when to add to the duty upon Canadian lumber entering that country.

Mr. Turney, American representative of a Japan tea exporting company, of Kobe, Japan, was in the city yesterday on business with Consul-General Nesse. Speaking to our correspondents in reference to the tariff of duty on tea, Mr. Turney said that a measure would be extremely detrimental to trade and an unfair discrimination against green tea. The average retail price of black tea is 50 cents per lb., and of green tea 25 cents per lb. Practically all the green tea comes from Japan, and is consumed by the working classes of Ontario and Quebec, so that a great hardship would be imposed upon them, especially on the black teas from India and Ceylon imported by the wealthier classes. Mr. Turney stated that the duty on tea is a reduced duty consequent upon the British preference of 25 per cent.

ST. GEORGE'S DAY.

St. George's Society and Sons of England made a splendid demonstration to-day on the occasion of their patron saint's day, attending divine service in St. Andrew's Church and listening to a patriotic discourse from Dr. Herridge. There was considerable unfavorable comment on the neglect of Mr. Tartie's department to hoist the Union Jack on the public buildings, as is customary on national days. Finally, late in the afternoon, after the annual sermon, he was informed about the omission, the flag was hoisted.

EXAMINATIONS.

The Civil Service promotion examinations will be held at Ottawa only this year, the date fixed being May 30. Twenty-three positions in the outside service of the Customs Department will be filled from this examination, but candidates must come to Ottawa at their own expense.

A NATIONAL CALAMITY.

Ottawa, Ont., April 23.—Rev. Dr. Herridge, of St. Andrew's Church, preached tonight the annual sermon to St. George's Society and Sons of England. The church was crowded. During his remarks he said it would be a national calamity if the Church of England was disestablished in the old land.

CHURCH PARADES.

THE 8TH ROYAL RIFLES GO TO ST. PATRICK'S CHURCH, AND THE 9TH BATTALION ATTEND ST. MALO CHURCH, ST. SAUVEUR.

The air was filled with martial music yesterday morning, when the 8th Battalion, Royal Rifles, and 9th Battalion, Voltigeurs de Quebec, had their first church parades of the season. Splendid weather prevailed for the occasion.

The 8th Battalion, Royal Rifles, mustered at the Drill Hall at 9.45 yesterday morning for a church parade to St. Patrick's Church. There was a large muster and the regiment was in very fine appearance. The Rev. Father Henning, C.S.B., was the preacher at the church, and it being the feast of the patronage of St. Joseph, the reverend gentleman directed upon that subject, upholding St. Joseph as a type whose life was an example to all classes of men, both young and old, married and single. The reverend gentleman upheld him especially as an example to the working men and the dying. The regiment was formed up in front of the church after the service and marched back to the Drill Hall, via Palais St. John, Fabrique, Baudin, Du Fort and St. Louis streets and Grand Allee. Lieut.-Col. Jones was in command of the regiment, and a large number of citizens viewed the Battalion as it marched through the streets.

9TH BATTALION, VOLTEIGEURS.

The 9th Battalion, Voltigeurs de Quebec, mustered at the Drill Hall yesterday morning 318 men strong, under Lieut.-Col. Jones. The regiment paraded to the Palais St. John, Fabrique, Baudin, Du Fort and St. Louis streets and Grand Allee. Du Palais and St. Joseph streets. The sacred edifice was decorated with bunting for the occasion, and over the altar was the Voltigeurs' motto, "Force sur le courage." The Rev. Mr. Henri Dufour, Curé, officiated, and the collection was taken up by two of the officers. Excellent choirs of ladies and gentlemen, the organist and band, Lieut.-Col. Evans, were seated in the front of the church with the Hon. Speaker of the Legislature on one side and the Hon. Colonel Evans, Lieut.-Col. Roy, on the other. The Battalion presented a creditable appearance, and numerous citizens lined the streets through which the parade passed. The march was at Jacques Cartier Market Square after service, it being about half-past twelve.

CHILD ALMOST SUFFOCATED.

Fire Caused Damage to a Building

Shortly before seven o'clock last evening, fire declared itself in the upper portion of a house occupied by St. John and St. Joseph streets, the property of Mr. Jos. Cote. The building in question, is a four story brick building, and the fire originated in a wooden boiler and spread to the building had been built. The cause of the fire is unknown, and one of Mrs. Healey's children had a narrow escape from being suffocated. Thinking that the child was frozen on hearing the noise caused by the fire on the attic, she went upstairs, upon which she found it to be dense with smoke. She rushed to the door, and crying for assistance, she seized the child, which was sleeping, rushed down stairs. The alarm was at once sounded, and the promptness with which the firemen responded, and the willingness with which they worked, was the only thing which averted a serious fire. As it is the damage is estimated at \$2,500 on the building and contents. Cote's loss on the building is covered by insurance. Mrs. Healey carries a little insurance on her effects, but not sufficient to cover the loss. The millinery establishment of Miss Brownrigg which is beneath, is also damaged by water, but her loss is covered by insurance. A physician, who was called in by Mrs. Healey, stated that the child had a narrow escape from being suffocated by the smoke.

SEVEN HUNDRED PEOPLE LANDED

From the R. M. S. Dominion Yesterday.

SCENES AT DISEMBARKATION.

HOW THE NEW ARRIVALS WERE RECEIVED — OFFICIALS WHO WERE PRESENT, AND HOW THEY DISCHARGED THEIR RESPECTIVE DUTIES.

Staid old Quebec was greatly excited early Sunday morning on the occasion of the arrival in port of the Dominion, the first ocean steamer of the season. She had been expected to arrive about six in the morning, and even at that early hour, a large number of people were on the Terrace watching for her to appear. However, it was not until between nine and ten that she came in sight. Then all roads led to the docks. Every kind of vehicle was pressed into service, and five minutes after the ship tied up, all eager flanking crowd were besieging the gate of the wharf. A stout and dignified policeman guarded this throng of those who had special business were permitted to pass the sacred portal. The Dominion brought over 700 passengers, 484 of whom were immigrants. The latter are in a fine lot, all strong and healthy, and they are just the kind of people we need in this great country of ours. Nearly all are English. In an interview with Capt. James he stated that they left Liverpool on the 13th instant, and had a most delightful passage, the sea being as calm as a pond during the whole trip. Not even the suspicion of a storm came near them for which the passengers, doubtless, were very thankful. No ice was encountered until off Cape Race, when they met quite a large quantity of ice. It seemed dangerous to proceed, so the vessel halted for 12 hours before continuing the journey. Ice next appeared between Bird Rock and the Cape. There was no importance, however, so they were not delayed any time there. Rimouski was reached on Saturday evening about 5 o'clock, and they saw no more ice until near Grand Etang. The Grosse Ile vessel anchored for two hours, after which she came straight on, arriving here the 23rd, thus making the entire voyage, including the stop at Grand Etang, a very rapid trip for the time of the year. Pilot Adam Pouliot brought the steamer up to the city. Among the passengers were Mr. Penne, Chief of Quebec Police, Mr. Rounilhou, the enterprising Quebec merchant, and Miss Anyot of this city. The wharf presented quite a busy scene. As Grand Etang, the Dominion is not yet open, the medical examination, conducted by Drs. Montzambert and Church, took place on board before any of the passengers were permitted to disembark. The vessel got a clean bill. Mr. P. Doyle, Immigration agent, accompanied by several officers then boarded the steamer, and the Dominion passengers and discharging of baggage and a portion of the cargo then proceeded without delay.

THERE IS SOME FIGHT IN THEM YET.

Filipinos Make a Stout Resistance.

AMERICANS SUFFER HEAVY LOSS

THE ENEMY RETIRE WITH BUT SLIGHT PUNISHMENT — THE SPANISH COMMISSIONERS REQUESTED ADMISSION INTO THE FILIPINO LINES — THE INSURGENTS STRONGLY INTERSCUED.

Manila, April 23.—Four men of the Nebraska Regiment, including Col. Stensberg and Lieut. Sisson, and three men of the Fourth Artillery, were killed and 41 wounded in an engagement at Cebu. The Filipinos retreated with small loss. The engagement developed into a disastrous though successful fight. The insurgents had a horse strong trench about a mile long, encircling a rice field on the edge of a wood. Captain Bell, with 40 cavalry men, encountered a strong outpost. One of the men was killed and five more were wounded by the Filipinos. The Americans retired, carrying their wounded under fire and with great difficulty, being closely pursued, the men being obliged to creep up to them. Two men who were carrying a comrade were shot in the arms, but they continued with their load. Captain Bell sent for reinforcements to reinforce the position of the killed cavalrymen, and a battalion of the Nebraska Regiment, under Major Muford, arrived and advanced, and checked by volleys from the enemy's trench. The Americans lay about 800 yards from the trenches behind lines of furrows, under fire for two hours. Several were killed, and many were injured by the effects of the heat as they lay there waiting for the artillery to come up.

REINFORCEMENTS ARRIVE.

Finally the Second Battalion arrived, and then Col. Stensberg, who had spent the night with his family at Manila, came upon the field. The men immediately recognized him and raised a cheer. Colonel Stensberg deciding to charge, as he was being driven back, he led the attack at the head of his regiment. He fell with a bullet in his breast, dying instantly. About 100 yards from the breastworks the Nebraska Regiment, under the command of Lieut. Sisson, was struck by a bullet near the picture of a girl, suspended by a ribbon from his neck. In the confusion the artillery had arrived and shelled the trenches.

ENEMY FALL BACK.

The Filipinos stood until the Nebraska troops were right over the trenches and then they bolted to the second line of the entrenchments, a mile back. The Nebraska Regiment, two privates killed and had many wounded, including two lieutenants. The Iowa Regiment had several wounded, but no one killed. Thirteen dead Filipinos were found in the trench. Their loss was compensated small on account of their safe shelter.

The Americans carried the second trench with small loss and are holding the town to-night.

Colonel Stensberg had won a reputation as one of the bravest fighters in the army. He always led his regiment and had achieved remarkable popularity with his men since the war began, although during his first campaign he was quite severely wounded. He was not used to the rigid discipline of the regular troops, thought him a hard officer.

The loss of the Nebraska Regiment in the campaign is the greatest sustained by any regiment, and to-day's disaster has greatly saddened the officers and men.

GENERAL OTIS'S REPORT.

Washington, April 23.—The following message regarding the fight at Quingua was received at the War Department to-day—Manila, April 23.—Advantage was gained by the Nebraska reconnoissance on Quingua Place, six miles north-east of Malolos, made by Major Bell's troop of cavalry this morning, resulting in a contact and retreat, in which four battalions of infantry and four pieces of artillery became engaged. The enemy was driven from the strong entrenchments at Quingua with considerable loss. Our casualties were quite severe. Colonel Stensberg and Lieut. Sisson, of the First Nebraska, killed; also several enlisted men. A considerable number wounded not yet reported. (Signed).

REFUSED ADMISSION.

Col. Romo and Major Laskovs, the Spanish Commissioners, with their secretaries, attempted to enter the rebel lines yesterday to confer with Aguinaldo regarding an exchange of prisoners, but failed in their mission. The party, the members of which wore in full uniform, drove to the American camp and lunched with General McArthur. They then proceeded in a carriage under a flag of truce toward Calumpit but were stopped by the rebel outposts on the road, who assumed a menacing attitude, and refused to parley with the Commissioners, and the latter were compelled to return and took the evening train for Manila.

STRONGLY ENTRENCHED.

The rebels before Calumpit have recently been reinforced by bodies of men from the Pangasinan Province and are now well entrenched in the strongest position, on what is practically an island formed by a tributary to the Rio Grande.

BROCKVILLE ELECTION.

TWO MEN ARRESTED ON A CHARGE OF BALLOT SUFFRAGING AT THE RECENT ELECTIONS FOR THE HOUSE OF COMMONS.

Brockville, Ont., April 23.—A warrant was issued on Friday for the arrest of a Brockville man named Gordon Emry for ballot stuffing. The police were unable to locate the warrant on Emry and disappeared. He returned to the city to-day and was promptly arrested. A hotel-keeper of this place named Antiope Weidling was also arrested to-day for 14-15 ballot stuffing. Emry and Weidling were both accused were released on bail, which was promptly furnished by prominent Liberals.

THE GERMAN MEAT BILL.

AMERICAN MEATS GET A MOST DISREPUTABLE NAME FROM THE LEGISLATORS OF FATHERLAND.

Berlin, April 23.—The meat inspection bill in the Reichstag and the Midland Canal bill in the Diet have attracted attention this week throughout Germany. The Agrarians and Reactionaries oppose both measures, and the public opinion of the fighting strength of the parties. Regarding the meat inspection bill, it was noticed that the debate was a repetition of the statements made at the United States army beef investigation, with the worst evidence and the bitterest construction of all sorts of American products. The reputation of slow leading American packing houses was torn to shreds by quotations from American publications, which were read in extenso, or which were summarized by the speaker. The bill will be the line of argument followed by the opponents of the bill, for the comment of the press this week, when in sympathy with the Agrarians, almost entirely consisted of repetition of the charge which was put tersely, that "this American meat, which Germans are accustomed to buy, is found by the highest American investigating authorities to be unwholesome and even deadly in the case of strong, lusty men." An American expert, who is in the confidence of the highest American authorities, and who is now here, said bluntly: "If Germany passes a law requiring, in addition to the American official certificates of the healthy condition of the meat, that the meat be inspected by a German official, a double inspection after the arrival of the meat here, that will be tantamount to a prohibition against American meat." It is to be expected that the bill will be answered by retaliation on German exports to the United States. Every bottle of German wine is opened and its hygienic qualities tested.

THE DRUMMOND AGAIN.

The Government is evidently determined to clinch the Drummond Railway deal. It is now asking Parliament for authority to buy the railway outright and make it a part of the Intercolonial system.

The chief effect of the Montreal extension to date has been to cripple the trade of this city. Passengers from the east desiring to stop over in this city and go on to Montreal have been prevented from doing so through the refusal of the Intercolonial to sell tickets to the West via Quebec.

Before the arrangement is made permanent an effort ought to be made by the representatives of this city to secure for it more considerate treatment. They should exact a guarantee that the policy of side-tracking Quebec will be discontinued.

A GLARING EXAMPLE.

Rarely has a criminal received a more severe lecturing than Judge Besse gave John Dickson in sentencing him to fourteen years in prison. The judge told the young convict plainly that, though the jury had, on account of his youth, found him guilty of manslaughter, he was, in point of fact, a murderer, and had started on a career which, if continued, would lead to the gallows.

THE PROBLEM SOLVED.

THE NEW MEDICAL DISCOVERY TESTED.

Chronic indigestion or dyspepsia, while a very common trouble, has for some time been looked upon by able physicians as a very serious thing, treating it as a case of consumption, and in treating it properly at the start, because recent researches have shown that the most serious, fatal and incurable diseases have their origin in simple dyspepsia or indigestion.

Diabetes is simply one form of indigestion, the sugar and starchy food not being assimilated by the digestive organs. In bright's disease the albumen is not properly assimilated.

While consumption and dyspepsia are twin diseases, and it is beyond question that dyspepsia makes a fertile soil for the seeds of consumption.

But the trouble has been to find a remedy that could be depended upon to cure dyspepsia, as it is notoriously obstinate and difficult to cure.

This has been the question which has puzzled physicians and dyspeptics alike, until the question was solved three years ago by the appearance of the new dyspepsia cure in the medical world known as Stuart's Dyspepsia Tablets, which it was claimed was a certain reliable cure for every form of stomach trouble.

Physicians, however, would not accept statements without first giving the new remedy many tests and carefully observing results.

For three years the remedy has been thoroughly tested in every section of the country and with surprising and satisfactory results.

Stuart's Dyspepsia Tablets can be honestly claimed to be a radical, lasting cure for indigestion in the various forms of acid dyspepsia or sour stomach, gas or wind on the stomach, too much bile, undue fatness or depression after eating, and similar symptoms resulting from disordered indigestion. Stuart's Dyspepsia Tablets were not placed before the public until this three years' trial left no doubt as to their value, and they have recently been placed in the trade and can be found at all druggists at the nominal price of 30 cents per package.

No false claims are made for the remedy. It will not cure rheumatism, pneumonia, typhoid fever nor anything but just what it is claimed to cure and that is every form of stomach trouble.

No dieting is necessary, good wholesome food and plenty of it, and you may rest assured that Stuart's Dyspepsia Tablets will digest it.

Druggists claim for it that it is a pleasure to recommend it to dyspeptics, because it gives such universal satisfaction.

The latter, with Officer Scott, was arresting Bill Donnelly, brother of the accused, for drunkenness. Tom, who was sober, got a hammer from a blacksmith's shop, concealed it up his sleeve and came up behind his victim, striking him on the head. The latter avoided the blow and Tom made a fierce lunge at Chief Tingley. Scott grabbed the hammer, which missed Tingley's head, striking him on the back. Tingley, unconscious, Officer Scott then struck at the ruffian with the handcuffs and the brothers were arrested.
