World News In Brief

Chatham, Ont., Jan. 8.—(C.P.)—A bridegroom less than 24 hours, Milburn Roger Stinchcombe of Toronto, is scheduled to appear in police court today on a dangerous driving charge arising from an automobile accident in which two other members of a wedding party met death and his bride suffered facial lacerations.

Killed were the bride's sisters, Mrs. Ann Simpson, 27, of Thamesville, Ont., wife of a soldier overseas, and Carl J. Burk, 27, of Chatham.

Murray John Jacklin, 23, of Chatham, suffered severe head injuries and Stinchcombe received minor lacerations and bruises.

Police took Stinchcombe into custody upon his discharge from hospital last night.

Vancouver, Jan. 8.—(C.P.)—Joseph Bauer, 43, naturalized Canadian, was born in Germany and is recovering after imprisonment in the ill-fated Dachau concentration camp in Germany, told last night of being fed sausages made of human flesh.

In 1939 Bauer, his wife and two children purchased return tickets from Vancouver to Bavaria. With the declaration of war, the family was trapped. The Gestapo branded Bauer a traitor and cast him in jail.

In January, 1944, he was moved to Dachau where, he said, writings on the wall proclaimed: "This is the camp where you enter by door and leave by chimney."

"Our diet was coffee made from coal, and soup like dish-water," Bauer related. "Later they began serving sausage. I soon found out what it was—it was human flesh."

Winnipeg, Jan. 8.—(C.P.)—Confronted with a killing said by Chief Constable George Smith of Winnipeg to be unique in Canadian crime, city, Royal Canadian Mounted and suburban police today pooled their resources in a dogged attempt to find the slayer of 13-year-old Roy Ewan McGregor.

Body of the schoolboy who had been shot in the head and stomach was found Saturday morning in a Fort Rouge district coal-wood yard near his home. Time of the shooting has been established as 11:45 Friday evening, the moment nearby residents heard shots.

Belief grew, but still lacked official confirmation, that a sex pervert dragged the body of the boy to the coalbin in which it was found half-buried. But all Chief Constable Smith would say was: "I do not think there has been a murder of this type committed in Canada before. I believe he was killed by someone unknown to him. It was a ghastly crime."

Physicians who examined the body would not say whether the boy had been criminally assaulted. His clothing was disarranged when the body was found.

Montreal, Jan. 8.—(C.P.)—Councillor Frank Hanley today wrote the Montreal Municipal Executive Committee asking them to advise the public of the laws governing taxi drivers. He said he had received a number of complaints of taximen.

Western Union Strike Hits At Telegraphic And Cable Communication In New York

All But Most Vital "Life or Death" Messages In and Out of New York Will Be Halted by Strike, Which Began Four Hours Ahead of Schedule.

New York, Jan. 8.—(AP)—Four hours before the scheduled time for their strike, Western Union employees in New York City began a walkout at 7 a.m. today and it was expected telegraphic and cable communications from and to the city would be slowed to a standstill shortly.

A shop steward at the company's headquarters here said the strike was advanced four hours because the company was "shipping in four carloads of strike breakers."

A company spokesman denied that Western Union was bringing in strike breakers, saying "there was nothing to" such reports.

Louis Stenberg, Vice-Chairman of Local 40, one of eight locals of the C. I. O. American Communications Association involved in wage dispute with the company, said at 9:30 a.m. that the strike was "100 per cent effective with 7,000 employees out."

Another Union spokesman said that 1,000 points in Greater New York, including all of Long Island as well as Newark, Hoboken, Union City, Jersey City and Bayonne in New Jersey were struck.

A third spokesman for the Union said "a state of strike" had existed among employees since last night and that "very little work" was done by Union members because they were "highly indignant" at the company's rejection of a proposal by Mayor William O'Dwyer for settling the dispute.

At the headquarters building here, 1,200 pickets assembled and cried "scab" and "strikebreakers" were heard as persons approached the building. Sixty policemen were on the scene and one entrance was kept open.

At the main Western Union office the power tubes which carry messages were shut off. A number of branch offices were not open or business, including some in nearby New Jersey.

In New York City's Pennsylvania station, where a branch Western Union office is maintained, an assistant manager for the company said plus had been pulled from the machines.

Servicemen in the station, unable to send telegraph messages, formed lines before telephone booths.

At La Guardia Field, United Airlines, dependent upon Western Union equipment and maintenance for its teletype communications, said it had been assured by the Union that its service would be continued.

At a branch Western Union office handling Overseas cables, operators walked off the jobs, saying they had been summoned to attend a union meeting at 10 a.m.

A Western Union spokesman had declared the strike will halt all but the most vital "life or death" messages in and out of New York City. Company supervisory personnel will handle such messages.

The Western Union employees in

Cease Fire Order In China Tomorrow

Chungking, Jan. 8.—(AP)—The Chinese press predicted today that orders to cease firing in China's civil strife would be issued by both the government and the Communists tomorrow.

The wartime capital of China awaited some formal announcement from government and Communist negotiators and Gen. George C. Marshall, special United States envoy to China.

A spokesman for the democratic league said he had been advised by Communist sources that the cease firing order would not include M4-churia, where Government troops now are moving in by land and air.

He reported the Communists agreed to this proposal.

APPOINT 3 NEW MINISTERS FOR DREW CABINET

Russell T. Kelley, William A. Goodfellow and Col. G. Arthur Welsh Sworn in by Lieutenant Governor Matthews.

Toronto, Jan. 8.—(AP)—Lieutenant Governor Albert Matthews yesterday swore in three new Ministers as members of the Progressive Conservative Cabinet of Premier Drew of Ontario.

They are: Russell T. Kelley, member for Hamilton-Wentworth, Health Minister.

William A. Goodfellow, member for Northumberland, Welfare Minister.

Col. G. Arthur (Tiger) Welsh, member for Muskoka-Ontario, Minister without Portfolio.

Premier Drew said that when the Legislature meets, probably early in March, a new Department of Tourists and Recreation would be created and Col. Welsh would become its Minister.

With the new appointments came the resignation of Dr. R. P. Vivian, of Port Hope, as Minister of Health and Public Welfare. Dr. Vivian, who has administered both portfolios since the Drew Government came to power in 1943, becomes Director of the Department of Health and Social Medicine at McGill University, but retains his seat in the Legislature as member for Durham.

President of the Russell T. Kelley, Ltd., advertising agency which he founded in Hamilton 33 years ago, the new Health Minister has been twice President of the Hamilton Chamber of Commerce of which he has been a director for twenty years.

Col. Welsh has served in two wars and was decorated for gallantry. In the Second Great War he won wide recognition for his organization of anti-tank operations along new lines during the heavy fighting in Italy.

Welfare Minister Goodfellow started his experience in municipal politics as a township councillor. Of the three new Ministers, he is the senior member in the House. He was first elected in 1943.

—Five Die In Hotel Fire In Quebec—

Five persons lost their lives when the Hotel du Convent, on Place Royale, in Quebec City, was destroyed by fire on January 3. Four died in the fire and another one in the hospital. This house was more than a hundred years old and was located close to Notre-Dame des Victoires Church, constructed in 1650.

DISAGREEMENT OVER ONTARIO BRIEF EVIDENT

Although There Has Been Little Reaction on Ontario Statement, Public Officials Who Have Commented Have Disagreed With Drew.

By The Canadian Press
Some disagreement with the Ontario counter-proposals for Dominion-Provincial financial co-operation is becoming evident in the reaction of public officials to Premier Drew's statement outlining his Province's views on the federal proposals.

As yet there has been little reaction on the Ontario statement, with most of those in a position to comment presumably giving the matter thorough study before making their position known. But, of those who have commented, the majority have expressed disagreement with Premier Drew's suggestions.

In a nutshell, Ontario has flatly rejected the federal proposal that the provinces abandon the income, corporation and succession tax fields in return for federal grants-in-aid based on population and has suggested instead the creation of a central fund for the sharing of provincial wealth.

Three other provinces — British Columbia, Alberta and Manitoba — have submitted less sweeping counter-proposals while Saskatchewan and Quebec have indicated they are opposed to surrender of taxation rights which would infringe on provincial authority.

New Brunswick and Prince Edward Island have indicated willingness to give up certain taxation rights if federal subsidies are large enough while Nova Scotia has asked whether the Federal Government is prepared to vacate certain tax fields.

FIVE CHARGED IN MURDER CASE

Montreal, Jan. 8.—In a desperate attempt to have his own life, Roger Chatelet, 27, of Verdun, yesterday in Coroner's Court, virtually "put the finger" on four other young men as those responsible with himself for the conspiracy that resulted in the murder of Edward Boisvert, 59-year-old lawyer, on December 18.

Held criminally responsible by the Coroner's jury for the man's death, mainly on the evidence of Chatelet, all five of the young men, including Chatelet, were arraigned less than two hours later on charges of murder. Preliminary hearing was fixed for January 11.

The other four accused are: Thomas P. Walsh, 21, 790 Third Avenue, Verdun; John Kelly, 21, 4433 LaSalle Blvd.; Harold Edwards, 27, 201 Fourth Avenue, Verdun; Leo Marcell, 26, 3742 Laval Avenue.

SOVIET ATOMIC BOMB RENDERS OURS OBSOLETE

Such Is Statement of British Scientist Who Believes Russian Bomb Could Be Manufactured on "Mass Production Scale."

Londonderry, Northern Ireland, Jan. 8.—(AP)—An atomic bomb the size of a tennis ball "which renders the Anglo-American bomb obsolete" has been developed by Russian researchers, a British scientist said in an interview last night.

Dr. Raphael E. G. Armatoo, director of the Lomeshie Research Centre for Anthropology and Human Biology, said "the Russian

DOUBT REPORT OF NEW BOMB

London, Jan. 8.—(AP)—Sources close to the British Government today expressed skepticism of reports that Russia had developed a new atomic bomb which makes the Western powers' weapons "obsolete."

The report was made last night by Dr. Raphael E. G. Armatoo, director of Lomeshie Research Centre for Anthropology and human biology at Londonderry, Northern Ireland. Dr. Armatoo declined to disclose the source of his information, but behind these active work-a-day agencies stands the Joint Defence Board.

Its terms of reference set in the task of considering in the broadest sense the defence of the northern part of the hemisphere. It has no authority and is more a consultative body than anything else.

However, it makes recommendations and these are invariably carried out. The recommendations are made to the Governments and are passed on to the appropriate staff chiefs for action.

All three Canadian service chiefs and all American services are represented on the Board and the American counter-part of Gen. McNaughton is former Mayor LaGuardia of New York.

A source close to Canadian-United States defence problems has said one of the chief jobs of the Board is to dispel fear—a spawning ground for international suspicion and strife.

EXPORT TRADE TO FRANCE TO HIT NEW HIGH

France Reported to Have Earmarked \$345,000,000 for Possible Spending in Dominion Between April 25, 1945, and End of This Year.

Ottawa, Jan. 8.—(AP)—Prospect of an export trade to France unprecedented in proportions was suggested yesterday by Robert Benier, President of the French Supply Council in Canada, when he disclosed that France has earmarked \$345,000,000 for possible spending in the Dominion between April 25th, 1945, and the end of 1946.

Speaking at a press conference, he made it clear, however, that his country was not committed to spending the entire sum in Canada and that she would do so only if Canada could provide the goods wanted, at the time needed, and at the right price.

Already orders totalling \$153,000,000 have been placed and negotiations are under way for others. The purchases envisaged include industrial equipment, raw materials, food and ships.

Mr. Benier said France proposed to pay \$102,000,000 in cash, covering the balance of the purchase by a three-per-cent \$243,000,000 loan from Canada, being negotiated now and repayable in thirty years.

A breakdown of how the money would be spent if satisfactory arrangements could be made showed a proposed expenditure of \$170,000,000 for industrial equipment, including farm machinery, tools, factory and railway equipment, ships, trucks, planes, construction equipment and prefabricated houses.

About \$22,000,000 would be spent

Bracken May Go With King To UNO Rally

Premier Advises, However, That No Final Decision Has Yet Been Reached in This Regard.

Ottawa, Jan. 8.—(AP)—Prime Minister Mackenzie King may be accompanied to the peace conference — wherever and whenever it is held — by John Bracken as leader of the official opposition in Parliament, The Canadian Press learned today.

Prime Minister King said, however, through his office that no final decision had yet been reached on the matter of John Bracken accompanying him to the world peace conference as leader of the official opposition.

A spokesman for Mr. King's office said there was "no foundation" for a report which indicated it had been decided Mr. Bracken would accompany the Prime Minister, as reported earlier by The Canadian Press. He refused, however, to deny that Mr. Bracken might be chosen to accompany him.

The spokesman also said there had been no decision on the date of the opening of Parliament, reported earlier to have been set for February 14 or 21.

The opening date of the peace conference and its site will be decided by the Assembly of the United Nations Organization which opens in London this week and gossip coming back from London is that September is regarded as the probable month, although there is some talk of the conference being held in June.

It is not known what other members of the cabinet will accompany Mr. King but Justice Minister St. Laurent, State Secretary Martin and Agriculture Minister Gardiner are taking part in the assembly meetings while the Prime Minister has remained in Canada.

The government's representation on Canada's mission to the peace conference may be chosen from among those now attending the assembly, but will be headed by Mr. King.

The Prime Minister's reported plan to include the national leader of the Progressive Conservatives in line with the course President Truman is expected to follow of inviting some leading Republicans to join the United States mission.

One of the criticisms levelled at President Wilson after the Versailles Treaty was written was that only his own Democratic followers had any part in the decisions reached. That has been given as one reason United States turned down the League of Nations.

In the peace conference following the First Great War, Sir Robert Borden, the Canadian Prime Minister, headed a Union government and those accompanying him in the Canadian delegation included Sir George Foster, Rt. Hon. C. J. Doberdy, and Hon. Arthur Sifton. Mr. Sifton was a former Liberal. Sir Wilfrid Laurier, Liberal leader who died a month after the peace conference opened, was not included.

M. J. Coldwell, C.C.F. national leader, took part in the San Francisco conference last summer but it is not known whether Mr. King plans to invite him to the peace conference.

Gordon Graydon, Progressive Conservative member of Parliament for Peel, and Stanley Knowles, C.C.F. member for Winnipeg North Centre, are attending the London assembly sittings as alternates.

Seek Vicious Kidnap-Slayer Of 6-Year-Old Chicago Girl

Several men were taken into custody for questioning.

The tragic news of Suzanne's death was told to her grief-stricken parents, James E. and Helen Degnan, by their parish priest last night shortly after the finding of the severed head of the little girl in a catchbasin about a half block from the Degnan home.

About five hours later the left leg, severed at the thigh with a clean cut, was discovered in a sewer in a nearby alley. The right leg and parts of the torso were removed from another sewer in an alley, a block south and near the Degnan home. Later the remainder of the torso, minus the arms, was found in another sewer, also less than a block from the home.

Police said the torso was found in a sugar sack and also inside the bag was a pair of blue pajamas, which fitted the description of the clothing worn by Suzanne when she was kidnapped.

The only possible clues, police said, were two bags, one of which parts of the body had been placed before being thrown into the sewers, fingerprints found on the window sill of Suzanne's bedroom and a makeshift seven-foot ladder used by the kidnapper to enter the girl's room.

Accepting a plea by police officials, Rev. George Kearney told the tragic news of the slaying to her grief-stricken parents shortly after

Prosecutor Charges Goering More Dangerous Than Hitler

By DANIEL DE LUCE
Nuernberg, Jan. 8.—(AP)—An Allied prosecutor told the International Military Tribunal today that Hermann Goering was "more dangerous in some respects" than his master, Adolf Hitler.

The former Reichsmarshal sat defiantly in the prisoners' box as the prosecutor started building the case to show his individual responsibility for the Nazi war crimes. Goering is the leading defendant among the 22 on trial.

Prosecutor R. T. Albrecht of New York opened a new phase of the trial with Nazi documents, many of them written by Goering himself, showing the part the former air force chief played in German aggression.

Goering, orally chastised by his chief jailer, Col. Burton C. Andrus, for cursing a prosecution witness yesterday, nearly upset the court room at the opening of the morning session by writing a note which convulsed Rudolf Hess with giggles, while a British assistant prosecutor was reading from Hitler's Mein Kampf.

Elwyn Jones, a member of Parliament, was dealing with the Fuehrer's long-range plans for German expansion. "In accepting and propagating the jungle philosophy of Mein Kampf," he declared, "the Nazi confederates indicated here deliberately pushed our civilization over the precipice of war."

Goering registered surprise when

Security Plans Are Laid On Experience Acquired In War

By JACK BRAYLEY
Canadian Press Staff Writer
Ottawa, Jan. 8.—(AP)—Defence of the northern part of this continent as an important segment in the broad pattern of hemispheric and world security is laid on a solid foundation of wartime experience and ready to serve as a guide for future regional international arrangements drawn up at United Nations councils.

This is the opinion of military experts who have watched wartime operation of agencies such as the chiefs of staff committee in Washington and the Permanent Joint Defence Board, scheduled to hold a regular three-day meeting in Quebec beginning January 16.

There is no indication that there will be an immediate disbanding of the chiefs of staff committee to which high Canadian officers have ready access in Washington while the continuity of the Joint Defence Board is emphasized by the word "permanent" in its title.

This word was first stressed by the late President Roosevelt when the Board was created in August, 1940, and more recently by Prime Minister Mackenzie King when he announced the appointment of Gen. McNaughton as Canadian joint chairman.

Consider Canada-United States defence collaboration: Lt.-Gen. Charles Foulkes, chief of the Canadian General Staff, said and has flown to Washington in a

few hours to talk over any immediate problem with his opposite number Gen. Eisenhower.

High Canadian staff officers in Washington also can trouble-shoot on matters of urgent concern. But behind these active work-a-day agencies stands the Joint Defence Board.

REVIEW CASES HEARD IN LOCAL COURT IN 1945

A review of cases heard in the local Court during the year 1945 is contained in a report released today by Clerk of the Court Hertei O'Bready.

Sentences handed down in the seven verdicts of guilty during the Criminal Assizes term included one life imprisonment, one six months' imprisonment with six lashes, one \$250 fine and three other penalties ranging from fourteen days to six months.

Jury panels found seven guilty of the crimes of which they were accused four not guilty and disagreed on two others. At the end of 1944 there were fifteen cases pending in the criminal courts while at the end of 1945, the number was five, and ten elected speedy trials.

In the Magistrate's Court, 918 summons were issued. There were two simple arrests, 39 saisies gageries, 9 saisies revendications, 153 fieri facias de bonis and 191 saisies arrests after judgment.

At the Clerk of the Peace complaints numbered 723, divided as follows: search warrants 23, warrants for arrest executed 245, not executed 12 and 443 summons.

Public Opinion On Filtration Plant To Be Sounded Out By Referendum On January 22nd

Before submitting a referendum to the proprietors alone, the City Fathers will sound out public opinion on the question of a new water purification plant for the City of Sherbrooke when a vote to include both proprietors and tenants will be taken on Tuesday, January 22.

Motion for the referendum was made by Alderman Alphonse Trudeau, chairman of the Waterworks Committee, at the first Council meeting of the New Year last evening.

Alderman Trudeau, in proposing the referendum, pointed out that he felt that not only the proprietors but the tenants, should be allowed to vote on this question because they, though indirectly, through the proprietors, contributed towards water taxation. This point was further stressed by Alderman Charpentier when he urged that immediate action be taken on a new filtration plant, adding that he felt it would be the first big step towards the progress of the city since the municipal ownership of the electrical works.

"Today," he said, "another great problem is facing us—the problem of better hygienic conditions for the population of Sherbrooke, and in view of the great possibilities of our water becoming polluted in a very short space of time, an epidemic could easily occur and take a considerable toll of lives before it could be checked."

Alderman Trudeau's motion for a referendum was seconded by Alderman O. Deziel, who long has been opposed to the plan for a certain type of plant favored by the majority of the Aldermen in preference for one of his own design. However, following the last Council meeting when Alderman Deziel was allotted the sum of \$25 for engineering advice, his opposition ceased.

A motion regarding the participation of the Mayor in the provincial organization of Mayors, proposed by Alderman Albert Charpentier, was postponed to the next regular session. Ald. Charpentier pointed out that while Sherbrooke was not represented at the recent conference held at Quebec City, many matters were discussed which were of considerable local interest.

Alderman Trudeau made a motion asking that some action be taken by the Department of Hygiene to check the rising spread of influenza in the city. Alderman Guy Bishop, Chairman of this department, stated that at present the local medical profession and the Department of Hygiene were doing everything possible to arrest the spread of the disease, adding that he was open to any suggestions from the Council which would further the precautions already taken.

In this respect, Alderman Armand Fiseté asked that more frequent reports be turned in by Dr. J. A. Dion, city health officer. He said that up to the present he felt that there had been far too few reports from the health officer, although these remarks were not in the form of a motion. Alderman Guy Bryant stated that he agreed with Alderman Fiseté.

Members of the Pension Fund Committee, Aldermen Fiseté, Bishop and Charpentier, and the treasurer, H. M. Cormier, were authorized to journey to Outremont to obtain information concerning the municipal pension fund in force in that community.

Ratification of the extension of the street from the main on Federal Street to the new plant of the Sherbrooke Dairy Company at a cost of \$1,400 and the purchase of a part of the property of Paul Legendre to round off the corners of Convent and Marquette Streets, was made. In the latter agreement, the City of Sherbrooke is to cede to Legendre a sufficient piece of property to allow him to construct a stairway leading from his home to Marquette Street. This last clause brought strong objection from Alderman Charpentier, who stated that construction of the stairway began even before a permit was granted and that while the land was the property of the City of Sherbrooke and payment had been made, he could see no reason why the city should give this land away.

Following explanation by Aldermen Fiseté and Lanctôt, the matter received the approval of all the Aldermen with the exception of Alderman Charpentier.

Pending the issue of bonds to be made in connection with the construction of the Bruck, Sills, Mills Limited plant in East Sherbrooke, the Mayor and city treasurer were authorized to sign a note to borrow from the Bank of Montreal the maximum sum of \$300,000 at four per cent interest. This loan is to be temporary.

NAME OFFICERS FOR LOCAL CLUB

Stuart Roberts was elected president of the High Dip and Dance Club at the first executive meeting of the New Year held at the MacKinnon Memorial Building last night. Retiring officers were congratulated for their successful work, and the new slate assumed office.

The 1946 slate includes, besides the president, Dalbert Butler, vice-president; Edith Lavallee, secretary; and Joyce Joslin, treasurer.

The retiring slate is Earl Fidler, president; Len Langley, vice-president; Ann Fuller, secretary; and Bob Davis, treasurer.

Many new plans were discussed and a successful year for the Club is anticipated. The High Dip and Dance Club is a popular rendezvous for teen-agers, and has now a membership of over three hundred. Much credit for the success of the Club is to Mr. and Mrs. E. N. Fidler and officers of the Y.W.C.A.

Local Delegation's Protest At Plans To Move Training Camp To Receive Ottawa's Consideration

The present situation regarding maintaining the Lord Sherbrooke Training Camp here "looks well for Sherbrooke," declared Mayor J. W. Genest in his office this morning following a Montreal interview yesterday with Hon. Douglas Abbott, Minister of National Defence. The Mayor headed a Sherbrooke delegation which met Maurice Gingues, M.P., in Montreal to press Mr. Abbott to cancel Government plans to remove personnel and equipment of the Sherbrooke camp to Farnham.

Mr. Abbott will consider the matter, and a decision is expected within a week.

Mayor Genest was accompanied by Alderman Alphonse Trudeau, Lt.-Col. Hector St. Pierre, E.D., O.B.E., A. J. Whelan, director of the Sherbrooke Senior Chamber of Commerce and Roger Larose, President of the Sherbrooke Junior Chamber of Commerce.

Mr. Gingues acted as official spokesman for the group during the three-quarter hour interview with the Defence Minister at his St. James Street office yesterday afternoon.

The Sherbrooke M.P. reviewed the case. It is general knowledge that the Government is planning to move the entire personnel and equipment of the camp to Farnham by the end of January "for economy purposes."

Mr. Whelan pointed out that the Sherbrooke Chamber of Commerce, which supports the city in its objection to the camp closing here, represents four hundred small industries in the district.

Mr. Abbott, who appeared sympathetic on the whole towards the Sherbrooke delegation, pointed out that it was necessary for some of the training centres throughout Canada to be closed up in order that Government expenditures, and, therefore, the people's taxes, be cut. The decision to favor the Farnham camp for the personnel of the Lord Sherbrooke camp partly as a result of the fact that it is believed that the grounds at the Farnham camp are more satisfactory for military manoeuvres.

Col. St. Pierre declared that the Lord Sherbrooke grounds were equally satisfactory for manoeuvres. Besides the obvious economic advantages, the delegation pointed out the social and moral advantages in maintaining the Sherbrooke camp. Here, soldiers have a more satisfactory entertainment field than would be available in Farnham. Sherbrooke is able to offer organized baseball.

among others. The resolution stated that the closing down of the Lord Sherbrooke Training Camp would cause considerable loss to the city and that reconversion of the camp for civilian use would incur great expense. It stated further that personnel of the camp have added greatly to the prosperity of the city by spending their money here and that in turn they are centrally located with good transportation service, which facilitates their visiting relatives and places of amusement.

Mr. Gingues declared at the interview that Sherbrooke's contribution to the Victory Loans and the general war effort was particularly commendable.

Mr. Whalen pointed out that the objection to the camp closing here, represents four hundred small industries in the district.

Several months ago the Chamber of Mines of the Montreal Board of Trade, which has taken such an active and helpful interest in mining development in the Province of Quebec, decided to broaden its interest to include all the natural resources in the Province. With this object in mind, it petitioned the Council of the Board of Trade to form a new Section—open to all members.

Arising from this recommendation, D. A. Hanson, President of the Board, today officially announced the formation of the Mines and Natural Resources Section, with Noah A. Timmins, Jr., N. A. Timmins Corporation, as Honorary Chairman, and Mr. Frank Coates, a member of the Board's permanent staff, as Manager.

The announcement was made in the form of a printed brochure, which was mailed to the members of the Board. It reads in part "The Montreal Board of Trade has always realized that a great opportunity lies in the further development of the natural resources in the Province of Quebec, which added to those we know about, will be capable of interesting and engaging an ever-increasing number of people over a long period of years. These is a vast area within our boundaries that has been described as 'unexplored, unprospected and undeveloped,' estimated at two-and-one-half times greater than that portion of Western Quebec which has been developed or closely prospected during the last twenty years with such satisfactory results."

Assistant Attorney Kirchengraber said that the Grand Jury's report "closes this phase of the case," but the investigation would continue. He said 18 of the 20 persons taken into custody will be arraigned soon.

CAMPAIGN FOR NEW MEMBERS AT LIONS CLUB

The first 1946 meeting of the Sherbrooke Lions Club held in the New Sherbrooke Hotel last night featured the inauguration of the Melvin Jones Birthday Programme which is, in short, a campaign to recruit new members.

Melvin Jones was the founder of Lions International and it has been the policy of the various Lions Club throughout the country to celebrate his birthday by staging such a campaign to increase their membership. Narcisse Amiraux, chairman of the Membership Committee, introduced the plan with announcement that three teams would compete for the honor of obtaining the highest number of new members.

In this spirit of friendly competition, it is felt that the members will work that much harder to increase the number of club members.

Lion Albert Charpentier gave a report on the drawing which the club held before Christmas, which showed net receipts of \$386.72. The gross receipts amounted to \$1,152.00 and the expenses came to \$764.18 leaving \$387.82 to be used in helping charitable organizations.

Guests at the meeting included R. Goyette, District Representative of the Shell Oil Company; M. K. King, and J. D. Stark.

Seated at the head table with President, Henri Leo Gagnon were Lucien Hamel, Mr. Justice Dalma Landry, Dr. J. A. Landry, Roch Gervais and J. E. Caron.

Mr. St. Pierre declared that the Lord Sherbrooke grounds were equally satisfactory for manoeuvres. Besides the obvious economic advantages, the delegation pointed out the social and moral advantages in maintaining the Sherbrooke camp. City Council Votes \$500 For Sherbrooke Fusilier Regiment Reception On Its Return Home

The City Council last night appropriated the sum of \$500 towards the reception which will be accorded upon their return to this city, which is expected some time this month.

Alderman Alphonse Trudeau was authorized to act as liaison between the military in charge of reception and the Council.

It was learned today from Major Fred Baldwin, Chairman of the Publicity Committee, that a special meeting of his committee will be held in the William Street Armory at 8.30 o'clock tonight when further discussion on the plans for the reception will take place in the light of recent information received from district headquarters regarding the unit's arrival.

First meeting to organize committee was held on December 5th at the Belvidere Street Armory and was attended by former officers of the regiment recently discharged body, the Reception Committee, under the chairmanship of Lt.-Col. Aime Biron, former Second in Command of the Sherbrooke Fusiliers.

Although no official word has been received then, as to the date of arrival of the unit, it is expected that an announcement will be made within the next few days.

Chairman of the various committees chosen were: Finance, Major Carl Skinner; Press, Major F. H. Baldwin; Decorations, Major J. H. Gilbert; Recreation, Major E. W. L. Arnold. These men in turn all form part of the main controlling body, the Reception Committee, under the chairmanship of Lt.-Col. Aime Biron, former Second in Command of the Sherbrooke Fusiliers.

Although no official word has been received then, as to the date of arrival of the unit, it is expected that an announcement will be made within the next few days.

FIRE BRIGADE ANSWERS TWO FALSE ALARMS

A mild flurry of excitement occurred in the vicinity of the Hotel Dieu Hospital at 3.30 p.m. yesterday when what was thought to be smoke was seen issuing from a vacant house at 170 Bowen.

When the Fire Department arrived on the scene in answer to a hurried call the "smoke" turned out to be steam issuing from a disconnected pipe. The house, owned by the nearby hospital, is at present being newly equipped with a steam-heating apparatus.

Another call turned in from the Notre Dame du Rosaire school on Steward Street, at 7.30 last night proved to be a false alarm.

MERCURY DOWN, STILL WARMER THAN YEAR AGO

There was a vast difference between the temperature registered yesterday and that of a year ago, according to the Lennoxville Experimental Station's statistics.

On January 7, 1945, the thermometer skidded to 24 degrees below zero as compared to yesterday's minimum of 49 above, eight points short of the all-time high of 57 established in 1932. Maximum yesterday was 50. Comparing the two minimums makes a difference of exactly 75 degrees.

Today, however, the ratio approached the normal more closely, although it is still a good deal warmer than it was at this same time last year. Maximum last night was 39, the minimum 23, as compared to the 23 and zero, respectively, of 1945. Throughout the day the mercury has been on the climb again, reaching well up into the 40s.

Grandma Unsung Heroine

Pleasure-Bent Working Daughters Left Babes With Their Mothers

DEAR MISS DIX: Much sympathy is expressed for the poor little war wives, but what about the poor war grandmothers of whom I am one? The war is far harder on us than on our daughters because we are older and less able to take it. All of us grandmas are glad to help out our daughters and our daughters-in-law in taking care of their children, but in reason. However, when they dump down whole nurseries on us and go off to take a job, or to spend their evenings cheering up the service boys by dancing with them, it is something else again.

Yet that is the way it works out and Grandma is left to hold the bag and change the dummies. If it happened once a week, it wouldn't be so bad. But when Grandma is turned into a night and day nurse and has to run after a toddler with her poor rheumatic knees, and isn't even paid the wage of a baby-sitter, it is pretty tough going for her.

WANT OCCASIONAL RECREATION
Believe me, we grandmothers would like to have a night off from baby-tending now and then and be able to go to the movies, but we can't. Baby's Mama has already gone. She beat us to it.

GRANNY.
ANSWER: The newspapers say that there is much discussion in Washington about the brass hats about what this war shall be called. We are all on familiar speaking terms with the Revolutionary War and the Civil War and the Spanish-American War and the World War, but it seems that no one can decide upon what moniker this war shall go down in history.

My suggestion is that it be called Grandmas' War, for certainly in no other war have so many grandmothers been drafted to the support of the infantry. In former wars women with children thought they were doing their bit for their country by staying at home and taking care of the baby and sister and brother, but in this late unpleasantness, millions of young mothers have wished that job off on Grandma.

Grandma has risen like a martyr to the occasion. She has given up her sunny room to be turned into a nursery. She has crawled out of her bed at night to give the baby its formula and Johnny a drink of water. She has walked the colic and stumbled around after toddlers, while the children's mothers were making money, or spending it on fine clothes, or going to parties to divert themselves.

And it hasn't been an easy job, for 70 isn't 17 nor even 27. Old muscles tire quickly and it is agony for Grandma to run after a perpetual motion youngster. Old people like the quiet and their old ways, and no one has made a greater sacrifice during the war than Grandma has in taking care of the grandchildren so their mothers could be canteen hostesses or lady riveters or whatnot.

Grandma is one of the unsung heroines of the war. Her breast would be covered with medals if she got her just desserts, but let's hope she will now get a rest, anyhow.

DEAR DOROTHY DIX: So many wives write to your column about husbands who are philanderers, or gamblers, or misers, or spendthrifts. Believe me, they don't know anything about men who are hard to live with. They should have a grouch as I have. Think of spending your life with a man who grows about everything from the size of the breakfast eggs to the way the president is running the country; who never says a pleasant word to anybody or has a cheerful thought, and whom nothing in God's world pleases.

Can anything be done to change such a man?
MARTYRED WIFE.
ANSWER: I doubt it, because a grouch is just naturally mean and cantankerous all the way through and he would have to be born over again to be changed. He is a sadist who gets his pleasure in life in making everybody else miserable, and it gives him an especial kick when he can torture his own family. He feels that the quiet and the end of a perfect day when his children cover before him and he can send his wife in tears to her bed.

The only thing the wife of a grouch can do is either to leave him, which isn't always a happy solution of her problem, for taking the children and going back to Mother is often jumping out of the frying pan into the fire, and exchanging a husband's growls for Mother's complaints about how much noise the kids make and how much more it costs to feed a big family than a little one; or else she can teach herself to be so deaf to her husband's complaints that she actually won't hear them.

The Record will be pleased to receive any letters to this Dorothy Dix column. These will be forwarded to Miss Dix who will answer them as quickly as possible.

MARRIAGES

TYLER—BEAMISH
Ayer's Cliff, Jan. 8.—A quiet but pretty wedding was performed at the parsonage of Beulah United Church, Ayer's Cliff, by the Rev. M. H. Sanderson, on Saturday afternoon, December 8, 1945, when Miss Elaine Grace Beamish, daughter of R. W. Beamish, of Edgewater, B.C., became the bride of Cpl. Randolph Tyler, only son of Mr. and Mrs. Earl Tyler, of Ayer's Cliff.
The bride looked very attractive wearing a gown of Queen's blue, with black accessories and a corsage of pink carnations. Miss Lois Tyler, cousin of the groom, acted as bridesmaid and she was wearing a dress of American Beauty color with black accessories and a corsage of white carnations. Mr. Cecil Robinson, of Shelburne, Vt., attended the groom.
A reception was held at the home of the groom's parents, following the marriage, when relatives and a

few immediate friends were present, who wished the young couple much happiness in the future years.
The wedding table was most attractive, centered with a beautiful wedding cake, and delicious refreshments were served, after which the newlyweds left amid showers of rice and confetti for a short honeymoon.
The bride has just received her discharge, having served with the R.C.A.M.C., C.W.A.C., and Cpl. Tyler is with the Royal Montreal Regiment, now at St. Johns, having returned a few months ago from service overseas. He has been in the army since about the beginning of the war and was stationed in the west for a greater part of the time.
The groom is a native of Ayer's Cliff, where he has many friends, who extend to him their sincere congratulations. The bride came here a few weeks ago a stranger, but has already won the hearts of many that she has met and they welcome her into this community and to her they extend their best wishes that she may find happiness here in the east.

The Doctor Says

BLADDER STONES DUE TO MANY CAUSES

By William A. O'Brien, M.D.
Stone and gravel in the kidney and bladder have been observed since ancient times. In parts of India and China the stone problem is the same today as it was 100 years ago; in our country stones are usually discovered when they are small and some varieties are no longer seen.

Dr. O'Brien

Stones form in the urinary passages as the result of many factors. More than one member of a family may develop stones, but apparently they are not inherited. Stones are more common in hot countries where the passage of concentrated urine is the rule. In experimental animals, deficiency of vitamin A in the diet favors stone formation. Kidney stones form at any age, but they are uncommon under 20. Both men and women suffer from kidney stones, but bladder stones occur 40 times more frequently in men than in women. Stones are tiny or large, round or irregular, smooth or rough, hard or soft, single or multiple. Chemical analysis of stones reveals their composition to be phosphate, uric acid, oxalic acid, calcium carbonate, cystine or xanthine. Some stones cast a faint shadow on the X-ray film, while others appear as dense shadows. Stones vary in color—white, red, brown or blue.

Pain Is Usual Symptom

Kidney stones occasionally form in patients given sulfa preparations in the early days of these drugs. Stones were sometimes so large that they plugged the kidneys. These deposits were eliminated by washing the interior of the kidney with warm fluid; today they are prevented from forming by simple precautions.

Pain is the most common symptom of kidney stone. When a stone is fixed in one position and it does not obstruct the flow of urine, it may cause a steady aching pain in the abdomen over the kidney. Attacks of renal colic are accompanied by nausea, vomiting and cold sweats. Patient tears to move as the slightest motion starts up another paroxysm of pain. The abdomen is sore and distended; when the attack passes, the muscles relax and the patient feels better.

X-Ray Aids in Diagnosis

Stone colic may follow lifting something which dislodges the stone. Pain commonly develops in the early morning or on arising. When the urine becomes obstructed, pain changes to a dull, steady, throbbing ache and the feeling as though something was going to burst. Blood and pus appear.
In attacks of colic a physician should be summoned at once to give an opiate. If the pain is not relieved by opiates, an intravenous anesthetic may be administered. If the stone attempts to pass from the kidney to the bladder, extreme pain results. Stones in the bladder may be comparatively silent, but should they attempt to pass from the bladder, severe pain again develops. If the patient cannot pass the stone, surgical removal is the only treatment which will bring permanent relief.

MIND YOUR MANNERS

The Situation: You receive a gift through the mail.
Wrong Way: Wait a week or two before writing a "thank-you" note for the gift.
Right Way: Write your note the day or the day after the gift arrives. A prompt note is always better than the most charming one put off until it simply had to be written.

The Battle of the "Bulge" Goes On

JANE RUSSELL: Kicking keeps her slim and trim.

The season's fashion emphasis is on the rounded hipline, not the bulging one. Don't count on the new dresses with hip fullness to conceal an extra bit of padding on the thighs—they may accentuate it.
If, instead of having a graceful curving line from waist to knee, which movie star Jane Russell can boast, your hipline ripples with an excess of fatty tissue on the thighs, it's time for you to start special exercises, and do them faithfully every day.
Linger up with a few high kicks and be as energetic about it as a chorus girl. At first, you may want to brace yourself by putting a hand on the back of a chair. Swing the left leg forward as high as you can with the knee stiff and the toes straight; then swing it backward as far as you can. Do this 15 times with each leg.
Now you are ready to stretch out on the floor and work in earnest on those trouble spots. Lie on the right side, your head pillowed on the rounded hipline, not the bulging one. Don't count on the new dresses with hip fullness to conceal an extra bit of padding on the thighs—they may accentuate it.

Here's Quick Relief from SINUS PAIN

3-Purpose Medicine Helps Clear Out Congested Sinus Areas

ONE best way to get relief from torturing sinus pain is to clear congestion from nasal passages and give sinuses a chance to drain. A few drops of Vicks Va-tro-nol in each nostril is usually enough to bring this comforting relief.
3-Purpose Medicine . . . Va-tro-nol is so successful because it does three important things: (1) shrinks swollen membranes of the nose; (2) helps clear out pain-causing congestion and (3) soothes irritation. Many sinus sufferers say it's best relief they've found. Try it!

"Thanks to you, Grandpa Kruschen . . ."

I've Found Relief From My Aching Joints and Depressed Feelings

What a world of comfort there is for the one who again feels bright and well after passing through dark days. Mrs. E. B. is just such a case. Here is her letter:—
"Although I'm not nearly so young as I used to be, I work very hard. But for several months back, I have been getting rheumatic pains combined with very depressed feelings. So I obtained a bottle of Kruschen and in a short time the effect was most encouraging. The aching joints, the depressed feelings, the sleeplessness and constipation were all relieved. I felt so much better—and so bright."
—Mrs. E. B.
Perhaps you have ailments like those which bothered Mrs. E. B. and if that is so, why not try the same treatment? Kruschen is a balanced combination of several mineral salts. This saline treatment aids elimination and supplies the body with minerals which may be lacking in the diet. The result is relief from constipation, sluggish feelings and depression. Take Kruschen faithfully for the next few weeks. Give it a chance to help you as it has helped others. Kruschen is procurable in two sizes. At all drug stores: 25c. and 75c.
