

MOUNT ETNA ROLLS RIVER OF LAVA DOWN SLOPES OF SICILY

Blotting Out Villages, Orange Groves And Forests On Mile And A Half Front, While Inhabitants Fled In Mortal Terror—5 Great Fissures And Stream Of Molten Rock 30 Feet Deep

Rome, June 18.—Mount Etna, in violent eruption, is laying waste to the surrounding countryside, says despatches reaching the mainland. Great rivers of molten rock, pouring down the steep sides of the mountain from numerous fissures, are overwhelming all before them and the inhabitants of the surrounding settlements stand in despair while crops and homes disappear under the hissing flood.

The main crater of Etna, after the fitful displays of the last week, suddenly opened up at midnight Sunday with a noise like the firing of a thousand cannons. There were subterranean rumblings, flames shot to the sky and the population of the little towns about the base of the cone fled to the plains.

Five great cracks opened in the northeastern side of the mountain and from the mouths, several kilometres from the old crater, came streams of lava. Thousands of tons of rocks and ashes were hurled to a height of from 30 to 60 feet from both the old and new craters, and the lava streams, advancing on a frontage estimated at 500 yards, laid waste the vineyards and forests in their paths and progressed at a speed of a mile and a quarter an hour.

Speedy Devastation.
Isolated houses, left early by their occupants, long acquainted with Etna's habits, were speedily devastated. The important railway station of Castiglione was destroyed.

Linguaglossa which is some ten miles from the central crater was surrounded by lava. Several houses in the town collapsed but the 15,000 inhabitants got away safely. Scrovo was enveloped and most of the villages in the neighborhood were quickly deserted. The sky was dull with smoke and cinders and dust fell heavily over a large area.

The roads and fields were filled with fleeing inhabitants, most of them carrying a few possessions hastily gathered or pushing wheelbarrows and hand trucks.

The sight of the first few fugitives from the danger zone coming into Messina, coupled with the terrific subterranean noises heard there, drew hurrying crowds of that town to the seashore for safety.

No loss of life has been reported in the despatches received here.

Mountain of Fire.
Catania, Italy, June 18.—Etna, or "the mountain of fire," as it was called, has shaken its shoulders and at its base, covering 90 miles in circumference, the earth has trembled.

One of the refugees from Linguaglossa thus described the first symptoms of the vast eruption. The earthquake was accompanied by terrifying rumblings and explosions followed by a rain of ashes and cinders and clouds of smoke which almost choked the inhabitants.

"Then suddenly," continued the narrator, "the door of an inferno opened from the side of the volcano, and a new yawning, burning chasm began throwing out fiery torrents of incandescent lava. It seemed to us the end of the world."

While the town of Linguaglossa is about 10,000 feet distant from the old crater, the eruption from the new crater was about 1,000 feet nearer, thus making the danger more imminent.

Lava Thirty Feet Deep.
Lava thirty feet deep and a mile and a half wide came rolling down on the doomed village in its path, sweeping over the vineyards and lemon groves which at this time of the

And if a round of golf she'd play,
All eyes must then their homage pay
If she—Smart Togs she "sports"
today.

SLEW SISTER IN BRUTAL FRENZY

Tragic End Of Farmer's Wife In Field Near Her Home In Terrebonne

Montreal, June 18.—Marie Ann Lamontagne, 37 years old, wife of Gilbert Cusson, a farmer living three miles from the town of Terrebonne, is dead of injuries received when she was brutally beaten. Her brother, Isador Lamontagne, 45 years old, of Cabin Rouge, Quebec, is held by Provincial detectives here but under the order of Chief Lorrain, is being guarded at the Notre-Dame Hospital where an examination into his mental condition will be made.

The assault took place at the Cusson farm yesterday afternoon while Mrs. Cusson, with her four children, the eldest eleven and the youngest three, was alone in the house with her brother. Lamontagne had come to the farm from Montreal yesterday morning. He lay around all morning, and appeared to be on the best of terms with both husband and wife.

The affair first became known when people at a nearby farmhouse heard screams. They told police officers later that they saw Lamontagne dragging his sister by the hair across the fields around her home, beating her with his fists and kicking her as he went. They ran out to stop the man, and at sight of them, he dropped the victim and ran away. Immediately Mrs. Cusson was carried by the visitors to her own home, and the police of Terrebonne were notified. She succumbed to a fracture of the skull and multiple injuries at 4.15 o'clock this morning.

In the meantime officers under the charge of Chief Doyle and M. Brunet Legris, Provincial detective at Terrebonne, combed the surrounding fields and woods for the alleged slayer and found him a few miles from the scene of the crime. He was brought to Montreal this morning.

Like Enormous Comet.
At night Mount Etna offers a fantastic spectacle; it is like an enormous comet from which cyclopic stones are hurled into space, columns of smoke made brilliantly red by the reflections from the interior of the crater, fills the entire sky and beneath this are roaring flames.

Catania is filled with refugees, including most of the inhabitants of Linguaglossa and many from Randazzo, Bronte, Frantavilla, Castiglione, Sardini, and Flume Fredde.

The people of Catania are extending every possible hospitality to the refugees most of whom have been received into private homes while the municipality has put at their disposal schools, covered markets, hospitals and theatres. Food supplies are being collected and there is not much danger of famine among the sufferers.

According to the latest news, the earthquake shocks continue, with increasing panic among these inhabitants who have not yet made their way out of the threatened region, but there has still a further subdivision of the lava stream and Linguaglossa is considered almost out of danger.

The panic stricken people are raising prayers to St. Egidio, patron saint of Linguaglossa, who, according to legend in 1844 stopped the flow of lava at the very gates of the town.

One report estimates that 30,000 people are homeless in the stricken area.

EX-SOLDIERS ASK SENATE

To Give Them A Hearing On Bills To Amend Pension Act

Ottawa, June 18.—A petition has been forwarded to the party leaders in the Senate from the Dominion Veterans Alliance requesting an opportunity to be heard in event of any objections being raised to the terms of the bills passed by the House of Commons to give effect to the findings of the Royal Commission on pensions and re-establishment.

The communication states that the veterans have been apprised that incorrect impressions are abroad concerning the purpose and scope of the new legislation and continue: "We, therefore petition that if objection is found to the provisions of bills 203, 204 and 205 that we be given a hearing to acquaint the honorable members of the Senate with the previous need for which remedial legislation is sought. It is believed this request is not unreasonable in view of the great burden already placed upon our organizations assembling evidence in justification thereof."

The Dominion Veterans Alliance includes the six principal organizations of ex-service men in Canada, the G.W.V.A., the Army and Navy Veterans, Tubercular Veterans Association, Imperial Veterans in Canada and others.

J. A. PARENT, K.C., APPOINTED RECORDER OF CITY OF HULL

Ottawa, June 18.—The Quebec Provincial Government by Order-in-Council has appointed J. A. Parent, K.C., Hull, to the position of Hull Recorder, made vacant by the death of the late Arthur Desjardins. It was announced today.

BERLIN BUZZING WITH TALK OF OUTLAW STRIKES

As Consequence Of Latest Slump Of The Mark To 160,500 To The \$1.00

WAGE DIFFICULTIES DUE TO NEW WAGE OF DEPRECIATION HAVE INTENSIFIED UNREST AMONG LABORERS

Berlin, June 18.—Berlin was buzzing to-night with talk of impending outlaw strikes after the mark had suffered a relapse which, once during the day, saw it selling at 160,500 to the dollar among unofficial dealers. There was scarcely a household in the city where the question was not raised as to how far the German unit can or will fall. One newspaper answers the question with the simple statement: "In Russia, the dollar brings 100,000,000 Soviet rubles."

The new wave of depreciation has intensified the feeling of unrest among the laborers who have become accustomed to repeated increases in retail prices, which will keep pace with the exchange rate, while wages follow very slowly.

The trade unions have already inaugurated negotiations with Chancellor Cuno and the Ministry of Labor with the object of remedying the wage difficulties due to the mark's depreciation, but there is widespread fear that the rank and file of the workers faced by still worse conditions, will get out of hand and strike.

It is currently stated that the trade unions funds are so reduced by the collapse of the mark that the organizations could not in any case finance legitimate strikes for any length of time.

Search Wage Basis
Both labor leaders and Government officials are searching for some stable measure upon which wages can be based. Labor is said to be divided into two groups; one sees a straight gold basis while the other favors the use of some other standard to estimate by, such as the price of some essential commodity, believing that the adoption of a gold standard would be impracticable unless applied simultaneously in all channels of the nation's life.

At any rate, it is asserted, the workmen appreciate that their wages cannot be put back to the pre-war level, but they are placed on such foundation that they may automatically rise with the rate of exchange.

This has already been attempted to a certain extent by the United States Government's index figure as a basis, but depreciation has become so rapid that labor has become dissatisfied with this system, especially as the index figure is announced only fortnightly. Some quarters regard the rumblings of outlaw strikes as one of the causes of the mark's new slump.

Others continue to attribute it to Germany's political prospects abroad and the heavy demand lately among German industrialists for foreign currency.

Vorwaerts declares that the slump was due largely to the considerable quantities of German currency dumped on the market today for the account of Kanuth, Nachod and Kuhne, the New York firm which recently went into bankruptcy and which had close relations with some German concerns. The drop in exchange was met with a quick reflex in the stock market, where shares soared unusually.

The dollar officially was 147,630 to 148,370, as compared with Saturday's 114,712 to 115,288. Late in the afternoon the dollar reached 160,500 unofficially. The rumor was circulated on the Bourse for a time today that hereafter the mark would not be given official quotation in New York.

WILL NOT FLY OVER NORTH POLE

Capt. Roald Amundsen Abandons Plan, After Very Unsatisfactory Trial

Christiania, June 18.—Captain Roald Amundsen has abandoned his proposed flight across the North Pole by airplane, it was announced this afternoon by the Norwegian Minister of Defence.

The Minister received a message from Leon Amundsen, brother of Roald, reading: "I just received the following telegram, dated Norwick, Alaska: 'Tial bid May 11. Result very unsatisfactory. Sorry forced abandonment proposed flight. Have written'."

The pride that holds its head high rarely picks up anything, whereas modesty, like a diver, gathers pearls by keeping its head low.

NEW OUTBREAKS OF BUSH FIRES

In Ontario—Fires Reported In Many Directions, Causing Much Trouble

Timmins Ont. June 18.—The rains of last Wednesday proved to be only a temporary check on the bush fires in this district and they are now raging worse than ever. Reports from all points show that the bush is burning in every direction. There is a bad one to the south of Timmins and the Muskog, south of the Mattagami spur line is causing a lot of trouble. The biggest blaze of all is reported to be in progress a few miles east of Night Hawk Lake and the huge clouds of smoke from this fire were clearly visible in Timmins on Saturday afternoon.

To the south of the Porcupine camp a fire has grown rapidly from west to east across the township of Deloro and another big one is burning several miles west of Timmins.

FOREST FIRES IN N.B. HALTED

Fires On Front Of Four Miles Reported To Be Extinguished

Fredericton, N.B., June 18.—A temporary halt in the progress of the forest fires in Northern New Brunswick was reported this evening to the Department of Lands and Mines.

The large fire which has been progressing in a southeasterly direction through timber lands to bald Mountain in Northumberland County is still twenty miles northwest of this summit and it was reported today that four miles of the fire line from the Npisquit south on the west side of Silver Brook has been extinguished.

NO ADMISSION TO DELORME TRIAL

Except For Those Having Business There, Montreal Sheriff Announced

Montreal, June 18.—Large cards bearing the words "no admission" are being printed by order of Sheriff Lemieux to be affixed to doors leading to the Court of King's Bench where the trial of Rev. Father Adolphe Delorme on a charge of slaying his half brother Raoul, will open Wednesday.

The official statement was issued today by the sheriff:—"Apart from principals in the case court officials, jurymen, and newspaper representatives, no one will be admitted to the Delorme trial. No special favors will be granted to any one and this rule will be strictly applied to the public in general."

BOLSHEVISTS IN MONTREAL

Lady Tells Chinese That 60 P.C. Of Jews In Metropolis Are Bolshevists

Montreal, Que., June 17.—That sixty per cent. of the Jews in Montreal are Bolshevists and that there are six Bolshevist schools in this city at the present time where Jewish children are instructed from four to six p.m. daily in principles of unbelief in God, in the government or in any authority, was the statement made by Mrs. J. C. Thompson in Knox Crescent Church here tonight.

Mrs. Thompson has for some years been actively engaged in missionary work among the Chinese. Her address was during a meeting of the Montreal Chinese mission at which Mrs. Thompson was given transportation from here to Canton, China to join her husband, Dr. Thompson.

KILLED WHEN CAR SKIPPED INTO POLE.

Winnipeg, June 18.—Edward T. Harwood, 29, of this city was killed Sunday, near St. Francis Xavier, when an automobile in which he was driving skidded and struck a telephone pole throwing him from the car.

Ticket Agent (after ten minutes of weary thumbing over railroad guides)—"Where is Florence?"
Old Colored Mammy—"Settin' over dah on de bench."—Princeton Tiger.

CYCLONIC WIND WRECKED TOWN OF ERNFOLD, SASK.

Nine Year Old Girl Whisked A Mile Found Sleeping Peacefully

YOUNG BOY KILLED

Miles Of Telephones Are Down And Extent Of Damage Still Unknown

Saskatoon, Sask., June 18.—The cyclonic wind that did much property damage in central Saskatchewan Saturday night and Sunday and killed Victor Cassidy, of Rosetown, aged 15, by carrying a bunkhouse, in which he was stopping, for fifty yards, blew at the rate of 46 miles an hour, according to the University of Saskatchewan Weather Observatory.

Details of barns blown over homes unroofed and other destruction in rural towns were still trickling in this morning. During Saturday Sunday more than an inch of rain fell in Saskatoon, balancing the wind's toll by doing incalculable good to crops.

At Canora, Sask., the storm Sunday afternoon lasted only eight minutes but in that time the tops of cars were blown off, barns and sheds were tumbled over, or moved around their foundations, trees were unrooted and lumber yards stocks were scattered over the landscape. No further death reports have reached here.

Regina, Sask., June 18.—The village of Ernfold, Sask., 67 miles west of Moose Jaw, is today a mass of wreckage as the result of a cyclonic wind that swept over the district at midnight Saturday. The damage to buildings in the immediate vicinity is placed at \$40,000.

Buildings are down in all directions, practically every window in the area was blown out and the high wind damaged growing crops to a considerable extent. Flocks of poultry have simply disappeared.

The nine year old daughter of Mr. and Mrs. Wm. Rudd, of Uren, who was returning to her home from Chaplin with her parents, was blown from the buggy just at the outskirts of Uren and was lost for ten hours. The buggy was upset just as the child was torn from her mother's grasp. In the inky darkness and raging wind and rainstorm the little one could not be located by the frantic parents who shouted and sought in vain.

Provincial police officers organized a search before one o'clock and assisted by residents of the district, found the little girl sound asleep in a deserted shack a mile and a half from the point the buggy upset. The child appeared none the worse for the experience.

Stanley McDuff lost everything he owned in the storm, house, barn, granary and garage. He had driven to his place from his father's home and drove into the garage for shelter. When the storm cleared he was sitting in his car on the spot where the garage had stood very much dazed but uninjured.

With miles of telephone wires down it is impossible to determine accurately the extent of the storm-wrecked district. It is believed to have stopped two miles from Uren and about four or five miles west of Morse.

Medicine Hat, Alta., June 18.—Word was received here today of the death of an unknown four year old child as the result of Saturday's storm, when the home of a settler four miles north of Sceptre was demolished. The child was not found until 11 o'clock Sunday morning and died a few hours later as the result of exposure.

The Weather.

Toronto, June 18.—Pressure is low over the western half of the continent and high on the south Atlantic coast. The weather has been showery in Manitoba and Saskatchewan and fair in nearly all other parts of the Dominion.

Temperatures:

	Min.	Max.
Vancouver	54	70

CONSIDERATION OF OCEAN RATES

By Imperial Economic Conference Urged By MacMaster Commission

Ottawa, June 18.—The consideration of ocean freight rates and the control of shipping rings is urged as a subject for consideration by the Imperial Economic Conference in London next fall by the MacMaster Commission on agricultural conditions in a report to the House of Commons this afternoon. The report suggests further that the subject be taken up by the International Council of Agriculture in Rome and that ships be operated in conjunction with the Canadian National Railways as a means of checking excessive rates. The committee also recommend that the Commerce department investigate charges of undue charges with a view to curing the evil by publicity.

Who has not experienced how, on nearer acquaintance, plainness becomes beautified, and beauty loses its charm, exactly according to the quality of the heart and mind?

SOCIALISTS QUIT STUMP

When Salvation Army Band Appeared On Scene And Started Its Music

(By Canadian Press)
London, June 18.—The supporters of Robert Smillie, the Socialist candidate in the Morpeth bye-election, who is now making his eighth attempt to enter Westminster, were unsuccessful yesterday in their efforts to maintain a twelve hour non-stop meeting in the market place at Blyth. From ten o'clock in the morning until seven o'clock last evening twenty-two Socialists held forth and looked like achieving a record in prolonged harangue. At seven o'clock, however, a Salvation Army band appeared on the scene and took up a position within a score of yards of the Socialists' platform and despite the appeals of the agent of the Socialist party, declined to move elsewhere.

SHAWINIGAN'S WINNING DAY

In Baseball—Beat Both Grand'Mere And La Gabelle—Motor Accidents

Shawinigan Falls, June 18—It was Shawinigan's winning day in baseball yesterday.

The local set-to, each team scored in 3 innings and was held scoreless in the remaining six, the game being really closer than the score would indicate.

Score by Innings:— R H B La Gabelle . . . 100001020—4 7 4 Shawinigan . . . 40049500—13 16 3

Pal Moore Easy For Lightweight Contender For Lightweight Crown Decisively Defeated New Orleans Boxer

Philadelphia, June 18—Lee Tendler, Philadelphia contender for the lightweight crown held by Benny Leonard, decisively defeated Pal Moore of New Orleans in an 8-round adjourned bout tonight at the National League baseball park.

Cloney Talt, Canadian lightweight, outlasted Ray Mitchell, Philadelphia, in an 8-round preliminary bout.

Cuddy de Marco, Pittsburgh lightweight and Babe Herman, California, fought an 8-round draw. De Marco weighed 129 pounds and Herman 130.

Andy (Kid) Palmer of this city bagged the better of Louis Bogash, Bridgeport, Conn., in the third bout.

Jeff Smith, Bayonne, N. J., middleweight defeated Tommy Loughran, Philadelphia, taking all but two of the eight rounds.

Prizes Awarded. The list of certificates and prizes awarded at the annual commencement exercises of the Shawinigan Falls Technical Institute has been given out as follows.

Preliminary Certificates: Varis Zaen, Ehpren Lacerie (prize in preliminary course), Charles Lebrun, Adrien Ross, Wilfrid Gonnelle (2nd prize in woodwork).

First Year Certificates: Alfred Bourassa, Romeo Houle, Duncan McDonald (1st prize in shop mathematics), Rosaire Thibodeau.

Second Year Certificates: Alcide Diamond, Lucien Pelletier (prize in second year drafting and \$5 in gold presented by J. N. Ricard, M.P.P.), Russell Wadleigh, Gordon Horns (prize in advanced mathematics), M. St. Arnaud (prize in English and draughting), Chas. Dupuis (prize for machine shop draughting, general excellence, also \$5 in gold, presented by Mayor Dr. J. A. Duff-mass, Emillion Deschenes (1st prize in woodwork), Clement Descharette (2nd prize in machine shop), Jack Morrow (prize in chemistry), Alexander Bourget (prize in first year draughting).

Advanced Certificates: Jack Morrow, Chas. Dupuis, Maurice Rinfret. The certificates and prizes were distributed by Principal W. H. Meddick, and on the platform were Messrs. E. H. Acton, R. A. Witherpoon, A. Dehautes, C. R. Lindsay, of the Board of Directors, and L. N. Ricard, M.P.P., and Mayor Dr. Dufresne.

Mayor Dufresne addressed the gathering, congratulating the Principal and Professors on the work they had done. He recognized that the Provincial Government had

BRITISH SEIZED TURK TRANSPORT; REMOVED GUNS

Then Allowed Vessel To Proceed To Destination With Men And Horses

TURKS ARE SILENT

Alleged They Were Removing Evidence Of Violation Of Mudania Armistice

London, June 18—The Turkish transport seized by the British destroyer, according to the Constantinople correspondent of the Times, was the "Imid." It was taken at Haldarpassa where the British removed two field guns 14 mountain guns and two breech blocks and then allowed it to continue to its destination, Panderna, with men and horses.

The correspondent confirms the information that the Turks were attempting to remove evidence of a violation of the Mudania armistice and adds that the Turks thus far have made no protest, preserving a tacit silence.

PAL MOORE EASY FOR LEW TENDLER

Contender For Lightweight Crown Decisively Defeated New Orleans Boxer

Philadelphia, June 18—Lee Tendler, Philadelphia contender for the lightweight crown held by Benny Leonard, decisively defeated Pal Moore of New Orleans in an 8-round adjourned bout tonight at the National League baseball park.

TENNIS TOURNAMENT STARTS TODAY

Ten Matches Will Be Played In Quebec Lawn Tennis Tournament Today

Ten matches are scheduled to be played in the Quebec Lawn Tennis Club open tournament this afternoon, five contests being on the bill in the Ladies' singles while a like number are to be played by the men.

2.00 p.m. Court No. 2—Miss Lemieux vs. Miss Donohue. Court No. 3—Miss Lafferty vs. Miss Pelletier.

3.00 p.m. Court No. 1—Miss Devarennes vs. Miss Jul. Baillargeon. Court No. 2—Mrs. Handsombody vs. Miss Brunet.

4.00 p.m. Court No. 2—H. C. Foy, vs. R. Boisvert. Court No. 3—Vallerand vs. Delage 5 p.m.

Unprofitable eloquence is like the cypress—great and tall, but bears no fruit.

1,000 SQ. MILES OF FOREST AREAS FIRE RAVAGED

And Great Amount Of Private Property Damaged In Quebec Province

SAYS MR. MERCIER

And Adds Grim Warning That There Are Still 4 Months Of Danger

Montreal, June 18—Fires below Quebec have played considerable havoc with the forests, and also with private property. Latest reports in the possession of Hon. H. Mercier today were to the effect that the rainfall has dampened the ardor of the flames to a certain extent.

On the Transcontinental Railway, between Riviere Blanche and Esouqui, fires have damaged the railway line considerably. The villages of Whitworth, Sully and Etroits in Temiscouata county have disappeared, and parts of the villages of St. Honore and St. Hubert in Temiscouata have been destroyed.

Other villages damaged by the forest fires have been Lac au Saumon, New Port in Gaspé County and Fortneuf in the Saguenay district.

Colonists in the newer section have suffered severely, their seed grain being destroyed, and a number of animals have been lost. Never in the past 15 years has private property been so damaged as during the course of this year.

MR. PUGSLEY WILL CONTINUE HEARINGS FOR A YEAR

Montreal, June 18—It is expected that hearings before the Reparations Commission presided over by Hon. Dr. Wm. Pugsley will be concluded in this city to-morrow.

Montreal, June 18—It is expected that hearings before the Reparations Commission presided over by Hon. Dr. Wm. Pugsley will be concluded in this city to-morrow.

Montreal, June 18—It is expected that hearings before the Reparations Commission presided over by Hon. Dr. Wm. Pugsley will be concluded in this city to-morrow.

HOUSE ADOPTS SALARY REPORT

Presented By Joint Committee Of Senate And Commons—Correcting Anomalies

(By Canadian Press) Ottawa, Ont. June 18—The House of Commons this afternoon adopted the report of the Joint Commission of both Houses to change the system for payment of indemnities of members of the Senate and House of Commons.

For instance, if a member attending more than fifty days actual sittings of the House he was entitled to draw his full indemnity of \$4,000. If he attended less than fifty, the law provided that he should receive \$25 a day for each day's attendance. But, if he attended exactly fifty days, a strict interpretation of the act meant that he received nothing.

The Allies assert that Turkey is diverting into its treasury revenue that should go to the Debt Council to pay interest and that what little remains reach the Council are eaten up by the cost of maintaining the Council.

M. Venizelos is also worried, fearing that peace between Greece and Turkey may become impossible if a general treaty is not signed.

COMMISSION ON WOOD EXPORTS Will Be Considered When Mr. Fielding's Motion To Amend Export Act Comes Up

Ottawa, June 18—On formal proceedings regarding the motion of Hon. W. S. Fielding, Minister of Finance to amend the export act in regard to the prohibition of export of pulpwood from Canada.

SIX-YEAR-OLD BOY WAS ELECTROCUTED. Winnipeg, June 18—Warren Feeley, six years old, was electrocuted in the yard of his home here last night when he came in contact with a live wire.

NEAR EASTERN CONFERENCE IS DYING OF INERTIA

TURKS STUBBORN

Venizelos Fears Peace Between Greece And Turkey May Be Impossible

Lausanne, June 18—The Near Eastern Conference shows signs of dying from inertia. The conference has practically ceased work, everything has been adjourned except the sessions on the Ottoman debt but the solution of the latter is not in sight.

The delegations are simply sitting around waiting for something to happen; the Allies admit that the treaty may never be signed unless Turkey meets the Allied views on the payment of the interest on the debt.

M. Venizelos is also worried, fearing that peace between Greece and Turkey may become impossible if a general treaty is not signed.

STRIPS LABRADOR RUSH OF CONSIDERABLE GLAMOR

One Labrador enthusiast, J. L. Hayne, vice-president of Labrador Gold Fields, has the temerity to come out and picture conditions, trials and tribulations that must be faced by those thinking of joining in the rush to the alleged placer fields.

He says that those talking of joining in the rush have no conception of the difficulties in the way of the conditions which obtain in Labrador. He pictures the country as most inhospitable and forbidding.

It is ultimately on the weed that the smaller creatures, which constitute the food of fishes depend. The aquatic plants are, of course, affected by any change in the quality of the water and still more by the behavior of a lake or stream in the matter of rising or falling water levels and streams and mud runs, if less suddenly, as it does the floor of the river. Insect life constitutes a very large proportion of the fishes' diet.

How to Keep Trails Open. The angling possibilities of a forest range can, if sanely exploited, provide by far the cheapest way of by-product of sport.

It is not readily seen that the careless and thoughtless angler who throws the burning match into the brush or who leaves the burning bonfire, is doing something that is likely to lead to the wiping out of favored fishing areas by fire.

CORNERED AT LAST. The bazaar was in full swing when a young man, who had no intention of buying anything, as he passed a tastefully decorated stall, the pretty saleswoman detained him.

"No, thank you, I don't smoke," was the curt reply. "Or a pen-wiper worked by my own hands?"

"Then do have this nice box of chocolates." "I don't eat sweets." The young woman's patience was exhausted. "Sir," she said grimly, "will you buy this box of soap?"

The young man paid up.—London Tit-Bits.

FISHING SUFFERS BY FOREST FIRES

The Effects Of A Fire On Spawning Ground Are Manifol

With the opening of the bass season in the various Provinces of the Dominion, Prof. E. Nobbs, a well-known wild life conservationist, formerly of McGill University, declares that fire is the angler's worst enemy as well as being a terrible foe of the woodsman.

"In assessing the havoc of a forest fire, we often forget what happens below the surface of the rivers and lakes," said Mr. Nobbs, in pointing out that he has been familiar with a tract of 50 square miles of forest country over a period of many years.

Mr. Nobbs declares that, for some years after the fire in that district there was apparently no breeding, or what little there was only served to fill the maw of cannibal fish; small and large sized trout disappeared and fly fishing was useless.

Spawning Conditions. The effects of a fire on the spawning grounds are manifold, he says. "Certain reliable limits of depth and of temperature and clean gravel bottom, together with accessibility, are the essentials of a spawning ground."

Except in the case of small, confined waters, a fire does not heat the water sufficiently to kill the fish—they seek deep water and escape, protom, but the warm lowered water from which they may be not escape the following summer will surely do enormous damage.

Robert Forke, Progressive Leader, predicted that whatever might be the result now, there would be changes in the Bank Act in ten years. "I am perfectly sure of it," he said.

He emphasized that the farmers as a class were neither radicals, nor Bolsheviks, but that they were one man alarmed to see the banking institutions of our country converging into the hands of a few people.

SOCCER CLASH TO BE FEATURE

Emp. Of France And C.N.R. Meet On Thursday Evening In Senior Match

What promises to be the best game of the season in the eyes of the soccer followers of the city, will take place on Thursday evening at 7 o'clock when the Empress of France and the C.N.R. teams clash in the second senior fixture of the season.

The Empress of France have an unblemished record in league games and the worst they have done is draw. This they did last year against the Veterans, the score being 1-1, but they are out for blood this year, and intend making it one clean run of victories from start to finish.

On the other hand, the C.N.R., who have the majority of players who were in the game against the France, are determined that they will make it two straight against the Empresses, they having defeated the Scotland 3-0.

Thus the game should prove to be an attraction that will be irresistible for any who like soccer in this city and they are growing in number every day. The referee for the occasion is Mr. Farnum.

The Dodgers failed to show up for their game against the Crescents last evening at the Quebec Baseball Park, and the referee, Mr. Pont, awarded the contest to the Crescents by default.

This evening's match in the Junior League will bring together Shamrocks and St. Jean. The game will start at 6.30 at the Quebec Baseball Park and will be handled by Mr. Jones.

CLAUSE OF BANK BILL TO EXTEND CHARTERS 10 YRS.

Passed Committee Of House At 2 O'Clock This Morning After Hot Debate

AN AMENDMENT

To Limit Extension To One Year, Proposed By Progressives Was Defeated

Ottawa, June 18—Clause five of the Bank Act which provides for extending the charters of Canadian banks for a period of ten years passed the Committee of the House of Commons shortly before two o'clock this morning.

The clause was adopted following the defeat of the Progressive amendment to limit the extensions to one year by a vote of 55 to 27. The Progressives present voted solidly in favor of the amendment.

The Merchants Bank figured frequently in the debate on the Banking Bill which occupied the House of Commons today from early this afternoon till late tonight.

"An act of Parliament that has a hole in it big enough to let \$1,000,000 fall through," said T. W. Bird, Progressive, Nelson, "needs overhauling through and through."

Mr. Bird endeavored to discuss the bill on its general principles when the motion was made to take up in committee, but he was ruled out of order by the Speaker and the discussion was removed to section five which provides for the extension of the bank charters. It was on this section that Mr. Bird made the utterances just quoted.

QUEBEC, JUNE 19, 1923.

CANADA COLONIZATION ASSOCIATION.

Whatever criticism there may have been over the Canada Colonization Association as previously organized or over the proposed agreement between the Federal Government and that body, there should be general satisfaction in the announcement that the Association has now been once more reorganized on what are believed to be promising lines, since Canada is certainly none to well equipped at the present time with machinery for bringing badly needed settlers into the country.

The original object of the Association, as our readers may remember, was to co-ordinate the immigration activities of the Dominion and to stimulate the almost invisible flow of immigration to this country. The need of increased immigration is apparent to all excepting those who refuse to believe that Canada offers home-building opportunities and will prosper more with increased production.

By the new plan the railway companies join with the Dominion Government in financing and directing the Association's work. This means, it is claimed, that those who have had charge of its plans have succeeded in bringing into working harmony all the chief immigration forces of the Dominion. The Association will be adequately financed and the country should be able to look for good results from its operations.

The merits of this somewhat debated organization can best be estimated by Westerners among whom it has carried on and is planning to further carry on its activities. Of Sir Augustus Nanton, who has become Chairman of the Executive, the Winnipeg Tribune writes: "Under his capable and experienced direction the work of the Association should bring great advantage to Canada. There is scope in it for all his genius for organization and tireless energy. There can be no question of the need for an organization designed to place immigrants to Canada upon the land under favorable conditions and to help and protect them through the first and most difficult years. The plan now adopted augurs complete success in this work, especially under the capable direction provided."

Similarly the Calgary Herald pays tribute to the work done thus far by Mr. M. A. Brown, of Medicine Hat, as the man by whom the scheme was first mooted. "To bring into co-ordination the many interests involved," observes this paper, "was a task of very large proportions and to secure the initial funds needed to carry it on was by no means easy. Mr. Brown took the lead in raising the money necessary to finance the undertaking, and in the face of almost insuperable obstacles, he has persisted until success has crowned his efforts. Had he foreseen just how many trials he would have to undergo, and the long drawn out period of preliminary work that lay ahead of him it is doubtful if he would have entered upon the enterprise."

The Association is now in a position to do a very valuable work for Canada, which was all that Mr. Brown wanted, and he now retires from connection with it to attend to his private affairs. He deserves great credit for his broad vision in conceiving a scheme of such large scope and for the energy he has exerted in bringing it to its present promising position. He has been an unselfish and patriotic laborer. The later success which the country will desire the Association to have will add to the debt which the Dominion owes to him."

During the period of reorganization through which the Association has been passing it has still been active in building up an immigration and colonization machine which is now available for the new Board. The General Manager is reported to have closed land agents' contracts with some 300 agents throughout the Prairie Provinces and British Columbia. It has an active force of 150 men at work in the United States. The Association is further said to be in correspondence with hundreds of prospects. The proposal is to extend its operations as rapidly as possible to the British and the continental field. Over 500,000 acres of land in the Western Provinces have already been listed for sale in its offices; while the C.P.R. has paid it the compliment of adopting its 32-year amortization land settlement plan on the basis of its own agricultural refunding and colonization policy for the future.

In the words of the Calgary Herald the time would now seem to be "ripe to start a publicity campaign in the United Kingdom that might again put Canada in that place in the public eye of Britain which it occupied in other years and so divert to Canada some of that large stream of settlers which has been going for many months to Australia and New Zealand." We trust that the reorganized Canada Colonization Association will be an effective instrument to this end and will prove itself capable of supplying a serious deficiency in the way of national immigration machinery.

A KNOTTY PROBLEM.

For several years now the Lake of the Woods levee has been giving considerable worry to Federal, Provincial, and State Governments, Manitoba, Ontario and Minnesota being especially concerned. The question is still unsettled, and to the observer outside progress toward that end appears to be quite as low as in the natural resources negotiations, in which Alberta is more particularly interested.

The upper waters of the lake system, as well as the level of the lake itself, have featured largely in the case. In 1921 conferences were held at which an agreement was reached covering the Lake of the Woods, but referring the upper waters question back for further investigation. Lac Seul and the Winnipeg and English rivers have thus to be taken into account along with the big lake that forms the central subject of discussion.

It will be recalled that for a time control of these waters was exercised jointly by the Dominion and the Ontario Governments under the authority of concurrent Orders-in-Council, and that when an effort was made to give that control statutory authority in 1921 the concurrent legislation was enacted by the Dominion Parliament, but not by the Ontario Legislature. Consequently, the Dominion Parliament passed the Lake of the Woods Regulation Act of 1921, which provided for Dominion control and declared regulating works to be "for the general advantage of Canada."

This Regulation Act of 1921 was wrongly objected to by the Drury Government of Ontario, which sought its repeal, and, as a step in that direction, en-

acted the enactment by the Provincial Legislature of the concurrent legislation withdrawn in face of opposition in 1921. The King Government early last year was prepared to repeal the Lake of the Woods Regulation Act, but was prevented from doing so by the Senate, which heard the plea of the Province of Manitoba. That Province favored retention of control by the Dominion, in which is invested the ownership of important water powers on the Winnipeg River within the territory of Manitoba.

At a conference between the two Provinces and the Dominion Government last November, an agreement was signed by the Prime Minister and by Hon. E. C. Drury for Ontario and Hon. John Bracken for Manitoba, that the "general advantage legislation should be rescinded. There were, however, three things to be worked out before the legislation to provide for this went through Parliament.

Manitoba asked that the regulations under the concurrent legislation be clarified and simplified; that there be a satisfactory solution of the Lac Seul storage reservoir problem, and that more workable arrangements be made in respect to the patrol of the Norman dam.

Premier Drury took the attitude that the "general advantage legislation should be rescinded first, and, Premier King, agreeing with this, stipulated that second reading of the rescinding legislation should not be proceeded with until representatives of Manitoba had been heard from.

Another conference was held in Ottawa about two weeks ago, when an undertaking was given by the Dominion Government that it would not bring into effect by proclamation the rescinding of the "general advantage legislation concerning Lake of the Woods levels until the necessary clarifications of regulations and works under these regulations have been carried out.

It was proposed some time ago that a single treaty be made providing for the control of both the Lake of the Woods and Rainy Lake. The treaty covering the Lake of the Woods has been drafted, and is satisfactory to the United States Government and to all the interested governments in Canada. The question next arises whether or not that treaty can be enlarged to cover Rainy Lake. Representatives of the town of Port Frances and of certain lumbering interests are said to have urged that a treaty dealing with Rainy Lake be not hastily made without further enquiry.

Uster has gone dry and the South is likely to benefit in the same way that Quebec is profiting from an encircling thirst.

French action is said to be causing alarm in the Ruhr, but one would have thought that the Ruhr had had plenty of time to get used to it.

\$5,000,000 loss from bush fires in the last few weeks is reported from New Brunswick alone which drives home the fact that Canada is burning money faster in this way than it can raise it by taxation and other sources of revenue.

A New York brokerage firm has failed, due to unsuccessful oil promotion and falling markets for marks. We have always understood that too much oil would stop a machine as quickly as too little, but had not heard that the market for easy marks was showing any indication of falling.

A Verse Or Two

TROUBLES AND TRIALS OF THE SHIPOWNER. The following is from a recent issue of "Syrén and Shipping" and is said to give a true picture of the unsettled state of the shipping industry:

At breakfast I'm a pessimist, And of the deepest dye, When I peruse the shipping news, I pass the bacon by; The marmalade untasted goes, And to the depths I dive, When Mary brings my letters in, And still more bills arrive.

By luncheon-time life seems more bright, My pessimism fades, The City's quite a pleasant place (That noon Martini aids), Sir Ernest Glover may be right, Sir William Raeburn wrong, But after lunch I feel convinced A boom will come ere long.

By tea-time things have still improved, And shipping's right as rain, I feel that my barometer Will never fall again, A glass of sherry at the Club On the way home to dine Makes me an optimist once more And sets my glass at nine.

And when around the festive board My dinner's f. o. b., When I at last am safe in port, And port is safe in me, And when I've called a good No Trumps, And get a little slam— If freights be high, if freights be low, I don't care a . . .

Press Comment

GOING AND COMING.

Statements showing where the tax money goes are interesting, but to many of us where it is to come from is of greater immediate concern.

THANKFUL FOR A LITTLE

The Senate of our country is to undergo two reforms. One making women eligible as Senators under the same qualifications as men; two, making age limit for all Senators 70 years. The "elder house" will be the better for the changes.

WE ARE CIVILIZED.

One of the tests of our civilization is that every morning millions of men permit other men to draw keen blades across their throats without harm—in barber chairs. And there is no limit to what a race can accomplish that can take five cents' worth of straw and shape it into a five-dollar hat.

IT'S UP TO THEMSELVES.

One of the directors of Barclay's bank, a big English financial institution, suggests that Canadian Governments should sponsor Canadian flotations in the United Kingdom. British investors have, unfortunately, been "stung" by some Canadian promotions, but Canadian Governments cannot guarantee even to Canadians the security of commercial ventures. The buyers of promotion stock ought to know their business.

LOST CHILD FOUND ON TRACK

Sturdily Trudging Home After Night In Bush — Parents Were Distracted

La Tuque, June 18—(Mimi, the eight year old daughter of Mr. and Mrs. Bostrum of St. Benoit street, has adventurous blood running through her veins to judge by her escapade on the 15th.

Leaving the house early in the afternoon to meet her brothers coming from school, she did not return home, nor did she meet her brothers.

Her distracted parents organized a search party to look for her but no trace of her could be found that day. It was thought that perhaps she had gone to the riverbank where she often goes fishing with her brothers, and search was made especially in that direction.

No trace of her was found that night. About 11 o'clock on the 16th, a party going down the Transcontinental tracks found the youngster sturdily trudging home. When questioned she said she had been "down the track." Further questioning brought out that she had stayed out in the bush all night and had started for home when she felt cold, and day was dawning. It is thought that the child was taken down the line by a stranger but no information is forthcoming as to whether she suffered any injury.

LA TUQUE RIFLE ASSN.

The weekly spoon shoot of this association was held on the 16th, and 17th. As usual on the 16th, a very heavy north wind was blowing, but on the 17th, perfect weather, except for a slight mirage was the reward of riflemen who trudged out to the range.

For once also the mosquitoes did not hold their usual battalion drill, much to the satisfaction of the marksmen. The result of the shoot was as follows—

1st. Class, A. C. Carter, \$4; 2nd. Class, C. Jensen, \$4; 3rd. Class, F. Martinson \$1.

Next Sunday the 24th, in the second shoot in the Canadian Rifle League series, and a spoon shoot held concurrently.

David Brown Slightly Hurt.

David Brown the youngest son of Mr. Simmons had a lucky escape from a nasty accident on Sunday the 17th, when he fell under the wheels of a governess cart driven by his elder brother Fletcher.

The youngster saw his brother driving past, and wishing to ride with him, grabbed at the pony's reins to stop him. Unfortunately he missed them and fell under the carriage, the wheel of which luckily missed him. He received a slight cut on the head, however, apparently caused by the pony's hoofs.

He did not appear to be badly hurt, and after a few minutes, was put in the cart and driven home.

LA TUQUE PERSONALS.

Mr. and Mrs. Edward Belleau are spending a few days in Quebec and Montreal.

Miss E. Vallieres, sister of Mrs. Max Comtois, who has been spending a few weeks in La Tuque, the guest of her sister, left for Montreal on Monday, the 17th.

Mr. R. E. Hartley has returned to town after a short visit to Montreal. Miss Edie Jones is leaving for Detroit, Mich., where she will reside.

Mr. and Mrs. Max Comtois were hosts to a large number of friends at a dance, given in honor of Miss E. Valliere, the sister of Mrs. Comtois, at the Community Club on Saturday the 16th. Mr. and Mrs. Comtois kindly invited all club members who wished to come, and about 25 couples accepted and had a very enjoyable evening. A volunteer orchestra composed of Messrs. P. Cash, S. Nesbitt, N. Martinson and George Cash, supplied the music and acquitted themselves nobly.

RECEIVER GENERAL

HOLDS CONSIDERABLE REGIMENTAL FUNDS. Ottawa, June 18—A question in the House of Commons as to the amount of regimental funds at the end of the war and their disposal brought out the information today that the Receiver General had in hand \$102,662,269, as at August 31, and \$313,764.94, on the same date in the form of two special trust accounts. There have been no withdrawals except to satisfy claims received after deposits had been made and which claims were properly chargeable to the funds of units.

LOST BLACK CAT; WON BLUE RIBBON

Pacific Greyhound Record Breaking Run Raises Interesting Question For Tars

Vancouver, B.C., June 18—Is a black cat lucky? The Canadian Pacific Express of Canada's record smashing arrival here yesterday almost eight hours ahead of the best time ever made in the Trans-Pacific voyage, raised the old question, for Molly, the ship's mascot, who was born at the time of the big Express launching in Glasgow and who has travelled on her every voyage since that time, forsook her floating home on the eve of the Canadian record departure from Yokohama.

No one knows where Molly went, but all the world knows today that the Express of Canada has won the blue ribbon of the Pacific, surpassing the Express of Russia's previous record time by almost eight hours. Had the weather been the equivalent to that experienced by the Express on her record trip, the Canadian officers are convinced that fully ten hours more could have been shaved from the Russia time.

Passengers of more than usual interest were on the big liner during her sensational race across the Pacific. Fritz Kreisler, world famous violinist, and his wife were among the most enthusiastic travellers and took a keen interest in the daily speed of the greyhound. Mr. Kreisler has just completed a combination pleasure and concert tour of the Orient and is en route to Vienna to spend the summer.

Alexander Sklarovsky, described by his New York critics as the "pianist poet," with his wife and three small sons, whom he just recently rescued from the outrages of Bolshevism, was also on board. Previous to last November Mr. Sklarovsky had had no communication with his family for five years. His art took him to the Orient where he has enjoyed tremendous success during the past sixteen months and a series of fortunate circumstances brought about his reunion with his family just a few months ago at Harbin.

Eighty-one times across the Pacific ocean is the record of Mr. Yasukuni Mural, known as Japan's pioneer exporter, who was also among the passengers. For forty-six years Mr. Mural has been connected with the firm of Morimur Brothers, of New York, and although seventy years of age still expressed the keenest enthusiasm for globe trotting.

Sir Edward Crowe and Lady Crowe were also on board. Sir Edward is the commercial attaché in the British Embassy at Tokio and is en route to England for a year's holiday with Lady Crowe and their small son. Sir Edward will visit Lake Louise, Banff and Montreal before sailing on the S.S. Montclair June 29.

JUSTICE WILSON NOT FOR SALE

Issued Warning Against Attempts To Apply Pressure In Narcotic Case

Montreal, June 18—Declaring from the Bench that pressure had been brought to bear upon him by two men and one woman to render judgment in "a certain sense", Mr. Justice Wilson, sitting as an Appeal Judge in the Court of King's Bench, this morning warned everyone that he is not for sale, and upheld a judgment of Judge Perreault, Beaubien Street, to \$1,000 and costs or six months in jail for selling drugs.

After argument for the crown by Emile Depoux, K.C., and for the defence by William Pilon, K.C., the judge said:—"The proof in this case is sufficient for me to dismiss the appeal but I must add that I also have sufficient strength of character to maintain my convictions based on the proof adduced in any case heard before me.

"In this case, three persons—two men and one woman—brought pressure upon me in connection with

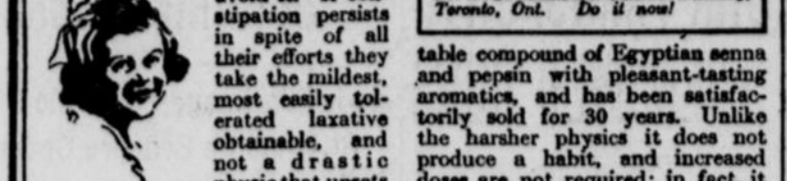

"JUST CARRY 'EM FOR ME A BIT!"

—Philadelphia Ledger.

Public Now Prefers Vegetable Laxative

Dr. Caldwell's Laxative Syrup Pepsin affords prompt relief in a natural way. The public is constantly becoming more discriminating in its choice of things. Those subject to constipation try to learn what makes them constipated, and then avoid it. If constipation persists in spite of all their efforts they take the mildest, most easily tolerated laxative obtainable, and not a drastic physic that upsets over 10 million bottles of Dr. Caldwell's Laxative Syrup Pepsin are sold a year, a large proportion of the people must believe that this mild vegetable compound is the proper remedy for them, and so it is. No need to take salt waters and powders that dry up the blood; coal-tar drugs in candy form that produce skin eruptions, or calomel that salivates. These drugs are "heroic measures", over-effective, weakening and gripping.

THE best constipation remedy is the one that moves the bowels without shock to your system, and such a one is Dr. Caldwell's Laxative Syrup Pepsin. It is a vegetable compound of Egyptian senna and pepsin with pleasant-tasting aromatics, and has been satisfactorily sold for 30 years. Unlike the harsher physics it does not produce a habit, and increased doses are not required; in fact, it so trains the stomach muscles that in time medicines of all kinds can be dispensed with.

Many take a teaspoonful of Syrup Pepsin once a week as a health safeguard. Others use it only when required, as, for example, Mrs. Jack Turtin of Cherry Valley, Ont., who finds it equally valuable for herself and the children, and Mr. H. S. McLaren of Montreal, Que., who uses it regularly. Try Dr. Caldwell's Laxative Syrup Pepsin in constipation, biliousness, piles, headaches, sallow complexion, and to break up fevers and colds. A generous-size bottle can be had at any drug store, and it costs less than a cent a dose!

ANY FAMILY MAY TRY IT FREE. Thousands of parents are asking themselves, "How can I find a trustworthy laxative that appeals to the family as well as to my Laxative Syrup Pepsin? I will gladly provide a liberal free sample bottle, sufficient for an adequate test. Write me where to send it. Address: Dr. W. B. Caldwell, 33 Caldwell Building, Toronto, Ont. Do it now!"

TAKE DR. CALDWELL'S LAXATIVE SYRUP PEPSIN. The family remedy.

John Darlington, Reg'd. Opposite General Post Office

this case. The woman arrived at my private house at St. Vincent de Paul at eleven o'clock Saturday night after I had been sitting in the case during the day. I regret to say I was obliged to prohibit the lady from sitting down, and to order her out of the house. The position in which such a occurrence puts me is well recognized. Had the proof been such that I was conscientiously obliged to maintain the appeal and free the accused, people would have said: 'All you have to do is to see Judge Wilson and your case will be all right.'

CITY OF QUEBEC CITY HALL CITY CLERK'S OFFICE BY-LAW No. 24N.

To Amend By-Law No. 24B Re: Construction of Buildings.

Drawn up in the French Language At a meeting of the City Council held on the 15th June, 1923, the following By-law was read for the first time:

It is ordained and enacted by this Council and the said Council doth ordain and enact as follows, to wit: Article 67 of By-law No. 24B, passed 11th January, 1918, as amended by By-law No. 24d, passed 11th April, 1919, and as amended by By-law No. 24F, passed 22nd April, 1921, is repealed and replaced by the following:

1. 67. In Montcalm Ward, it shall be forbidden to erect or exploit any manufacture, forge, shop, store, commercial or industrial establishments whatever along St. Louis and Ste. Foye Roads, west of Maple Avenue, of Belvedere, Monton, Murray, Bougainville, des Braves Avenue, Levis Avenue, Montcalm Park, Parke Avenue, new street Levis, Fraser street west of Maple Avenue, Maple Avenue, Ste. Cyrille street and Holland Avenue, also at the corners of said streets and avenues above mentioned. But the erection of commercial establishments shall be permitted on that part of Ste. Foye Road between Holland Avenue and the western city limit; on said road, and on that portion of Marguerite Bourgeois Avenue, north of Ste. Foye Road.

2. In Belvedere Ward, all the houses that shall be erected on St. Louis Road, Ste. Foye Road, Sherbrooke street, Parke Avenue, Brown Avenue, Ste. Cyrille street, Bougainville street, Murray street, Monton, Levis, Marguerite Bourgeois Avenue, Holland street and Maple Avenue, or streets and avenues of the subdivision of Dandurand Terrace, on streets and avenues of the subdivision of Queen City Realty Co., and all other streets the Council may add, shall be of a value of at least \$5,000.00, for a detached house and of \$3,000.00 per house for a bloc comprising a series of lodgings. On des Braves Avenue the buildings to be erected shall have to be isolated (detached), to be built on only one lodging, each of the value of at least \$5,000.00, exclusively occupied as private residence and have most advanced parts of the house at a distance of not less than twenty feet-8 from the avenue alignment and that of both sides of said avenue.

In the subdivision called "Dandurand Terrace" the houses to be built shall have to be at a distance of not less than five feet from the alignments of streets and avenues of said "Dandurand Terrace" and that on both sides of said streets and avenues.

3. The present By-law is declared formerly part of By-law No. 24B.

Public Notice is hereby given that in conformity with the dispositions of the law, the above By-law shall be read a second time for adoption, on Friday, the 22nd June, 1923.

By order, H. J. B. CHOUINARD, City Clerk.

CITY OF QUEBEC CITY HALL CITY CLERK'S OFFICE BY-LAW No. 57.

Concerning the Expropriation of Lots at Limoulou.

Drawn up in the French Language At a meeting of the City Council held on the 15th June, 1923, the following By-law was read for the first time:

Whereas it is in the public interest, for the development in Jacques Cartier Ward, to have new roads of communication to accelerate the increase of said ward. It is ordained and enacted by this Council and the said Council doth ordain and enact as follows, to wit:

1. To join 6th street to the northern limit of lots 508, subdivision 18 and 19 in Jacques Cartier Ward, it is necessary for public utility ends, acquire the following strips of land, to wit:

Lots 518 of subdivision 89-90 of the official cadastral plan of St. Roch North of Quebec, forming a superficies of 5345 feet.

2. For the ends above mentioned, the City shall acquire amicably or by way of expropriation, said strips of land mentioned in paragraph 1.

3. The prices to be paid for the said strips of land shall be taken from the product of the sale of the land at the Palais.

Public Notice is hereby given that in conformity with the dispositions of the law, the above By-law shall be read a second time for adoption, on Friday, the 22nd June, 1923.

By order, H. J. B. CHOUINARD, City Clerk.

NOT IDENTIFIED YET.
The corpse that was washed ashore at Sillery on Friday evening last has not yet been identified.

Mr. O'Neill, from Little River, visited the morgue yesterday morning, but stated that he did not find anything to resemble anybody he knew.

STEER WALKED INTO OFFICE

Preferred Cool Spot To Walking Along In Hot Sun Of St. Valier St.

Not a little excitement was caused in the office of F. H. Andrews & Son yesterday afternoon, when a steer, in trying to escape the tender ministrations of a cattle driver who was trying to get him to move along into St. Valier street, bolted into the office, causing quite a stir.

The cattle driver had considerable trouble with his herd, consisting of seven or eight animals, especially around the stopping point of Palace Hill cars, for the bovines seemed to find an irresistible attraction in the sweet-looking green grass that abounds on a vacant lot.

Several of the herd bolted for this plot of land, and commenced to chew the cud, but one contrary steer evidently thought that the nice cool yard was what he wanted, out of the sun, and he accordingly made his way there, despite the efforts of the man in charge of the animals.

This individual, tried to get the animal to make his way out into St. Valier street, but it seemed set on going into St. Paul. Some passers-by were pressed into service to prevent the animal from doing any such thing, and the poor beast, seeing both exits blocked, jumped for the first open space he could find, which happened to be the office of F. H. Andrews & Son, the door of which had been left open to enable any coolness outside to get in.

Perched against the door, the steer seemed perfectly content, and refused to go out, although one of the office staff wielded a wicked broom. The cattle driver finally grabbed the bull by the horns, and led him out of the office, much to the amusement of the spectators who had gathered round.

STUBBORN FIRE AT THREE RIVERS

On Water Front Was Got Under Control After Hard Fighting

Three Rivers, June 18.—On Saturday afternoon a large delegation of the Toronto Board of Trade arrived in the city by boat shortly after one o'clock. They were met by members of the local Board and escorted to the City Hall, where an address of welcome was read by the Mayor, after which a visit of the city was made in automobiles. The delegates were then driven to the wharf and left at four o'clock for Quebec.

A very stubborn fire broke out early this morning on the water front near the signal station. At a late hour this morning the fire fighters were still at work, but the fire was under control. The amount of damage not known yet.

The St. Maurice Paper ball team of Cape Madeleine opened their season yesterday afternoon by defeating the Sorrel team 10-5. Nearly a thousand ball fans were in attendance. Although the score was a little one-sided, the game was very good, some very nice plays being pulled off. Mr. T. Wark pitched the first ball. The Sorrel team were without the services of their regular pitcher and were a little handicapped.

Harris, of the Cape team, was the star of the game, making three hits out of four trips to the plate. Bettez, the Cape pitcher, made six strikes out, and did not pass a man on balls. The other members of the Cape team played very well also and with a little more practice will make some of the best look up.

CALL TENDERS FOR LOWER TOWN SCHOOL

School Board Expects To Award Contracts On The 26th Instant

At a meeting of the Quebec Catholic School Board held last night it was decided to call for tenders for the construction of the new school on Sous-le-Fort street. The tenders will be received until Tuesday, the 26th instant.

The question of the engagement of additional teachers for the school for the next school year was tentatively discussed.

A complaint was received by a carpenter who had been working in one of the schools and had had his tools stolen. He asked that the Board make good his loss.

Chairman Picard was opposed to compensating the workmen, holding that this would constitute a precedent.

There was also question of the erection of a residence for the Brothers of St. Patrick's School, but this will be more fully considered at a subsequent meeting.

MAYOR IS GOING TO ANTICOSTI

His Worship Mayor Samson accompanied by Aldermen Lesage, Thibault, Paradis and Desaurault are leaving this morning on the Steamer Richelieu to join the outing of the Union of Municipalities of the Province of Quebec which will go down the St. Lawrence as far as the Island of Anticosti.

FIRE UNDER STAIRS

An alarm from box 523 last evening summoned the firemen to Cartier Avenue, where an incipient blaze was discovered under the stairs of one of the houses. Trifling damage was caused, due to the prompt arrival of the firemen.

TORONTO BOARD OF TRADE PARTY VISITED QUEBEC

Inspected Harbor, Immigration Buildings And Drydock During Stay Here

TEA AT SPENCER WOOD

Delegation Entertained To Luncheon At Chateau By Local Board

Quebec was the host yesterday to a delegation of some two hundred members of the Board of Trade of Toronto, who accompanied by their wives and daughters, invaded the city for the day.

The delegation was in town for the purpose of studying the facilities of the harbors of Canada and the developments necessary to build a deep waterway to the Great Lakes.

Leaving Toronto on June 14 the party, numbering in the vicinity of four hundred, sailed down on the Cape Eternity, and stopped off at Cornwall and Prescott, after which they continued down to Montreal, in which city they spent a brief period. At Three Rivers the delegation was entertained to lunch by the Board of Trade of that city, after which they resumed their voyage, passing Quebec and proceeding down the river to Cape Eternity, Tadoussac and Murray Bay.

They turned round at Murray Bay and reached Quebec yesterday morning. Immediately upon their arrival they were taken to the Louise Docks, where they witnessed the examination of the immigrants who landed here yesterday, and had explained to them the manner in which the new settlers were landed from the ships and through into the immigration buildings.

A thorough tour of the buildings was undertaken, after which the delegation made a general tour of the harbor, accompanied by officials of the Harbor Commission as well as members of the local Board of Trade, in whose hands was placed the task of looking after the visitors while they were in the Ancient Capital.

Then came a short water trip to the dry dock at Lauzon on board the icebreaker Montcalm, the Torontonians being given an opportunity of seeing the Quebec bridge from very near, and then luncheon at the Chateau.

For this event the Toronto Board of Trade members and their relatives were the guests of the Quebec body. An address of welcome was read by Mr. Ed. G. Tanguay, President of the local Board, while Mayor Samson welcomed the delegation in the name of the city.

The toast to the Province of Ontario was proposed by Sir Charles Fitzpatrick, who dwelt at length on the good feelings that existed between Ontario and Quebec, and stressed the hope that such good feelings would always be a keynote of the tie that bound the two Provinces so closely together.

Mr. Gurney, of the Bell Telephone Co. of Toronto, replied to the speech in an appropriate manner.

Several short speeches were delivered by various orators, who stressed the efforts that were being made to bring about closer relations between the Provinces of Ontario and Quebec, adding that they thought this could be best brought about by an exchange of ideas on commercial and other problems.

The local Board of Trade was warmly thanked for its hospitality, and in general everything went off smoothly.

After luncheon the visitors were driven all round town, and shown the points of interest, the members of the local Board having car placing them at the disposal of the visitors.

Tea at Spencer Wood, at which the delegates and their families were greeted by Sir Charles and Lady Fitzpatrick, came next, and then the visitors were driven down to the good ship Cape Eternity, which shortly after proceeded on her voyage.

BAND ON TERRACE THIS EVENING

By the kind permission of Lt. Col. Henri Chase, D.S.O., M.C., the Officer Commanding the Regiment, the Band of The Royal 22nd Regiment will play the following programme on Dufferin Terrace this, Tuesday, evening, from 8 to 10, weather permitting.

The size, number of pages, the neatness and the historical description of the views make it more valuable. On sale in the principal stores, railways, Montreal and Saguenay steamships, and also at Ant. Langlois latest Quebec Souvenir Store, 26 Mountain Hill.

OLD-TIME STREET FIGHT STOPPED

Police Constable Off Duty "Seen" His Duty And He "Done" It

An honest to goodness street fight of the old-fashioned variety in which "the fists" figured as much as the fists and no quarter was given, was going on in ripping style on Palace Hill opposite the Hotel Dieu Hospital last night when Constable Tanguay, of Plain Station, who was in plain clothes, intervened and restored peace, but with the result that the two belligerents were taken in charge and locked up in the cells.

Just how the row started is not exactly known, but it appears that earlier in the day one of the participants in last night's row fought and defeated another individual and was so proud of his exploit that he invested in a few glasses of hop juice.

When well refreshed he was strolling down Palace Hill and encountered another friend who had heard of the fight earlier in the day.

"Let's go and hire a room," suggested the man he met.

"What do you want a room for?" asked the champion.

"To fight you to a finish," rejoined the other.

"Why not try it right here?" asked the champion and after some further discussion of preliminaries they decided to have it out on the lower part of Palace Hill where the police would not be likely to interfere.

It happened that just in the thick of the fight when the champion a few hours' previous was lying on the sidewalk and was being administered a sound kicking by his erstwhile friend, Constable Tanguay happened along. The officer was off duty and was taking a stroll with his lady friend.

The call of duty was there. Peace had to be restored, so telling his lady friend not to be afraid Constable Tanguay was soon in the thick of the fray and hostilities ceased. Later Constable Ouellette came to his assistance and soon the two scrappers were locked up in separate cells.

They will have an interview with the Recorder this morning and he may decide after hearing the evidence in the case which is the better man.

PAT JOYNT HEADS SHIPLABORERS

Re-Elected President At The Annual Meeting Held Last Evening

The annual meeting of the Quebec Shiplaborers' Benevolent Society took place last evening at their hall on Champlain street, when the election of officers and other business was transacted.

The secretary's report showed that the society was in a flourishing condition, while that of the treasurer revealed the fact that financially speaking, the club was in a fine position.

After other business had been concluded the election of officers took place, with the following result:—
President—Mr. Patrick Joynt.
Vice-President—Mr. Martin Waters.
Secretary—Mr. Richard Butler.
Assistant-Secretary—Mr. Willie Byrne.
Treasurer—Mr. Michael Power.

LEVIS TO HONOR NATIONAL DAY

Three Municipalities Combine For Celebration Of St. Jean Baptiste Feast

(Special To The Chronicle)
The celebration of the Feast of St. Jean Baptiste on the South Shore this year will certainly be carried out on a larger scale than ever before.

Last night there was a joint meeting of the St. Jean Baptiste Societies of Levis, Bienville and Lauzon where the finishing touches were put to the arrangements for the big event.

In the procession which will be held next Sunday morning there will be 53 different bodies or allegorical cars and after the parade through the various streets of the three municipalities the procession will terminate at the Church of Notre Dame where a solemn grand mass will be held at 11 o'clock.

A field day has been arranged for the afternoon when the men of the Royal 22nd Regiment will hold sports.

In the evening there will be a band concert by the Bienville Band in Shaw Park. There will also be fireworks there as well as in Bienville and Lauzon.

RUNAWAY HORSE ON ST. FOY ROAD

A horse attached to a farmer's cart ran away on St. Foy Road yesterday morning and was in grave danger of colliding with automobiles and other vehicles. The horse was stopped in his mad career by the courage and presence of mind of Mr. William Hunt, St. Foy Road who took charge of the animal until claimed by its owner.

He who regrets of a fault upon right grounds is almost innocent.

DISTRIBUTION OF PRIZES AT LAVAL

Education Congress Will Be Held Here 27th And 28th Of June

The annual distribution of diplomas at Laval University took place last night in the Convocation Hall and was attended by a large gathering.

In his address Mgr. C. N. Garlepy, Rector of the University, made some important announcements.

He stated, for instance, that an educational congress will be held here on June 17th, and 23th. The principal question which will be studied at this meeting will be the revision of the educational programme in the classical colleges and will hinge mainly on the teaching of Greek and French.

The Rector also announced that the University will soon maintain a residence for priests, who come to the city to follow courses at the Superior Normal School.

He said that thanks to the generosity of Sir William Price a scholarship would be awarded in the Superior School of Chemistry to the graduating student in third year which will enable him to study in Europe.

He also mentioned the prize for music which is given by the Courcelle Chapter of the I.O.D.E. and which is open to competition by the convents of Quebec, Sillery and Bellevue. The prize this year, he said, had been won by Miss Alice Langlois of Bellevue Convent.

He also announced officially the appointment of Dr. Joseph Caouette and Dr. Rosario Polvin as professors in the Faculty of Medicine.

COMPETENT NURSES

The Rector dwelt upon the importance of competent nurses to tend to invalids and said that in order to encourage the training of nurses the University had decided to affiliate the Nursing School of the Sisters of Providence of Three Rivers.

He publicly thanked the French Government for the scholarship granted and which was awarded for the first year to Dr. Fabien Gagnon, who was at present studying in Europe.

He likewise thanked the Universities of Toulouse and Lyons for the reciprocity of their diplomas.

The Rector expressed regret at the death during the year of three distinguished professors, Messrs. J. N. Gastonguay, Dr. Auguste Hamel and J. E. Prince, K.C. Eulogies of these three former professors were delivered by Mr. Paul Joncas, of Mr. Gastonguay, Dr. S. Roy, of Dr. Hamel and by Mr. Eusebe Belleau of Mr. Prince. The distribution of diplomas then took place.

HOUSE RAIDED ON ARAGO STREET

A disorderly house on Arago street was raided last night by the Morality Squad when two women and one man were arrested. They will be arraigned before the Recorder this morning.

CANADIAN NATIONAL RAILWAYS

Montreal-Quebec-Murray Bay Service

For further information, reservations, etc., apply to City Ticket Office, 10 St. Ann Street, Tel. 529 and 530, Palais Station, Tel. 2125, Parent Sq. Stn. Tel. 3427 or to any agent of the Canadian National Railways.

PINSHOT WON DECISION OVER TEDDY JOYCE

Toronto, June 18.—Eddie Pinchot of Charleroi, Pa., outboxed and won the judges' decision over Teddy Joyce of Toronto, in a 10-round bout here tonight. Pinchot weighed 123 and Joyce 131. Joyce was the aggressor at the start of the first round, but after that Pinchot settled down and went into the lead for the remainder of the bout.

They are poor discoverers that thing there is no land when they see nothing but sea.

Over 500 Uses

SCORES OF STOCKS SLUMPED TO NEW LOW RECORDS

PRICES BROKE BADLY IN N.Y., OILS SAGGING 1 TO 3 1/2 POINTS AND SPECIALTIES TO 7 POINTS

Wall Street Was Pessimistic Over Saturday's Large Stock Exchange Failure, and Weakness in Commodity Prices Further Disturbed Confidence—Bonds Also Slumped

New York, June 18—Prices broke badly in today's active session of the stock market, the industrial averages establishing a new low for the year on a net loss of two points on the day.

Wall Street was of a decidedly pessimistic frame of mind this morning because of the large stock exchange failure on Saturday and the failure of the market last week to respond to a number of favorable dividend developments.

These rumors, combined with the weakness of several commodity prices, the cut of 25 cents a barrel in Pennsylvania crude oil and the increase in California production, provided the professionals with plenty of ammunition for lower prices.

Scores of stocks sank to new records for the year including United States common at 22 5/8, Studebaker at 10 3/4, Texas Co. at 43, Kelly Springfield at 25 1/2 and United States Rubber at 45 3/8.

Oils were in free supply all day, net losses of 1 to 3 1/2 points being established by the Pan American issues, California Petroleum, Phillips Petroleum, Pure Oil, Sinclair, Skelly, Houston and Standard Oil of New Jersey preferred.

Baldwin dropped 4 1/8 points, American Can. 6, Stewart Warner 3 3/4 and United Fruit 7.

Railroad shares, which previously had offered splendid resistance to selling pressure, yielded with the rest of the day.

Call money opened at 4 1/2 per cent., advanced to 5 and thence to 5 1/2 where it closed. Demand for time money and commercial paper was very quiet with no change in rates.

Foreign exchanges were heavy. French francs broke 15 points to 6.15c, and German marks established another new low record at 0008 1/4c. Demand sterling held fairly steady around \$4.62.

Day's total sales 956,400 shares.

20 industrials averaged 92.64; net loss 2.00.

High 1923, 105.38; low 92.64.

20 railroads averaged 92.14; net loss 1.34.

High 1923, 90.63; low 80.13.

Bond prices slumped throughout the list in today's relatively quiet trading on the New York Stock exchange. Losses, however, generally were small. Recessions were attributed to the influence of lowering stock prices.

Active U.S. Government bonds held fairly steady through the day closing only slightly lower than Saturday's final figures. The tax exempt 3 1/2s, and the third liberty 4 1/4s, each advanced 2-3 of a point.

Foreign issues were depressed the French issues particularly yielding.

Railroad mortgages were offered freely.

Losses in the industrial group, while general, were small.

Total sales, par value, were \$11,457,000.
