How Communists Work Is Explained to Rotarians

Johnny X Tells the Story of Communist Infiltration and Plans

Rotarians on Monday got some first hand information on how the Communist system works right in Russia and in other countries, through a representative of a foreign power who was once a party member. The guest speaker was Johnny X, his true name cannot be divulged for obvious reasons.

Rotarian Louis Levine introduced the speaker in the following manner: The unusual conditions under which our speaker has come to visit us give us much food for thought. We, on the North American continent, have been brought up in an atmosphere which encourages us to think, speak and do as we like, being restrained only by propriety and the laws which protect the rights of citizens.

Our freedom of speech is such that we can say anything short of libel and our freedom of action permits us to choose our own vocation and go wherever we please. So it is a unique experience for us to meet someone who, for security reasons, does not feel at liberty to reveal his identity. It makes us acutely aware that all is not yet right with the world, and that not everywhere is life as easy-going as it is here. Our speaker has a considerable background of experience about his subject matter and I am sure you will find his talk a highly interesting one. The subject is "International Communism in Action" by Johnny X, formerly of a foreign Secret Service with fifteen years counter-espionage in the Soviet Union where he succeeded to the rank of Major in the Red Army and was used by them as an international agent outside of Russia. He was loaned to the R.C.M.P. during the last war for hunting Nazis. Our speaker and the R.C.M.P. caught a German spy in the Gaspé Peninsula in 1943 in a submarine. The prisoner was kept in the basement of a house of Johnny X for 9 months, during which time he obtained much valuable information from him. Johnny X came to Canada in 1946.

Johnny X opened his talk by saying that people do not know the difference between Communism and Russian Imperialism. The day will come when we shall know the difference between the two. He said the Russians are realistic and they do not do things in a haphazard way. Seventy-five percent of the Communists believe in the aims of the party and millions of people will not believe that Communism is a menace. There are no newspapers and magazines from other countries in circulation in Russia, so the Russians do not know about the capitalist people. Some Russian people do risk listening to the Voice of America broadcasts and if found out, of going to Siberia. Thousands of people are taken to the concentration camps and labour camps for utterances against the Soviet Union and some are liquidated by bullets. Most people in democratic countries believe that Joe Stalin is the dictator or ruler of Russia. This is not so, Russia is ruled by 42 men in the C.P.R. (the speaker emphasized that this did not stand for the Canadian Pacific Railway, but for Communist Party of Russia) thus

Stalin was not alone and actually there were 42 dictators. If Stalin should die or have to be replaced, his place would be filled by one of the other members immediately. There are 5,000,000 party members in Russia and 15,000,000 young Communists.

The main thing that party members and others associated with the Communists must do — is learn to say "yes" to everything, right or wrong. One of the typical "yes men" in Canada is Tim Buck. He says yes to everything and thus he gets along well in the party. Those who do not say "yes" are eyed with suspicion and are probably removed by a bullet.

The Russian income is about equivalent to \$25.00 in our money or 1250 roubles. Often times persons are approached and asked how they would like to earn 1,250 dollars a week for work for the Russians. Actually the Russian income would be about 40 pounds of butter, but the wages received by workers here would buy 140 pounds.

The Communists are trained to work into all kinds of groups and to organize groups with the idea of causing trouble and unrest. Housewives are often used to cause trouble over prices and to urge their menfolk to strike for higher wages. This causes slowdowns and stoppages in manufacturing and trade which means huge losses to everyone. Yet in Russia a strike on Russian soil would be regarded as an act of treason.

We here, often wonder how it is that our famous police cannot run down the Communist. The reason for this is that all are divided into groups of three — no group is larger than three and all groups work in threes. Each one knows one other of the group of three but never knows the other two. Thus if caught, such a person at best could only name one other person. These groups impart their information to one person in charge and this in turn is given to a Communist who may own a drug store, a barber shop or any other business, but is not known to any one else. Thus the police force is unable to do anything without the active cooperation of every citizen. Any citizen having suspicions of Communists should communicate with the police. The police will then have this party shadowed and it may be years before they are able to arrest that person.

From the C.P.R. other bureaus are set up in other countries. But never is a native of that country ever put in charge of such bureau. It is possible that a German may be in charge of a bureau in Canada or the United States, while a Canadian may be in charge of a Bureau in Germany or France. The reason for this is that the Russians do not believe a citizen can be trusted in his own country. In a foreign country he will do his duty well.

The NKVD is the secret police of Russia and they are found everywhere, even in the schools. In the schools they teach the children to be good Communists. But in Canada or other democratic countries this police is simply known as defense. It would not be possible to have it known that a secret Russian police was organized in a country like Canada. Nevertheless it is here just the same.

The Profintern is the trade union from which orders go forth to call strikes, etc. These are not for the (Continued on page 7)

CHAMPLAIN SERVICE STATION WHICH OFFICIALLY OPENS TOMORROW

Above is a view of the now completed new Champlain Service Station which will officially open tomorrow (Thursday) under the management of Messrs. Yvon and Ildege Leduc, who are both well known to the citizens of this county. The new station offers the best in service and supplies for the car owners of the district and has greatly improved this corner on Chateauguay Street by removing a former very unsightly building.

Canadian Customs Man Is Collector of Art Subjects

Chester Pease, Trout River, Has Great Talent As An Artist and Wood Carver

Mr. Chester Pease, Trout River, who is quite well known to the residents of Huntingdon and District, is greatly interested in and has a talent for art, and through his own efforts has developed this talent. He is a native of Huntingdon, his parents being farmers near Kensington. He is a graduate of Huntingdon Academy and later joined the Canadian Customs, to which he is now serving at Trout River.

As a small boy still going to school, he was frequently awarded prizes for efforts in designing and making costumes for a masquerade or a Halloween celebration. As he grew older he gradually discovered his liking for making things with his hands. Wood carving was one characteristic of art to which he turned his hand. Much of his work has won prizes, some of them first, at Canadian National Exhibition, Toronto, Canada. The majority of his carvings are made of pine, mainly because it is a native wood and easily obtained. His first piece of work along this line was a credenza which he carved out of pine. The panels in the doors and the supports between the doors were artistically modelled in a Gothic design. Nearly all one winter was spent working on this piece of art. On the walls of many of his rooms are to be seen carved wall plaques, designed and carved by himself. Among these is one which stands out. It is the Peace Coat of Arms, made of pine, glazed and painted the colours of its original. The fire-place in his bedroom has been faced with wood and on this a colonial design has been carved.

However, this man's talent does not end here. Mr. Pease has on display in his home, many beautiful and colourful paintings which he has done himself. Among these is one of himself at the piano, painted by looking at himself in a mirror. This was a great feat to accomplish, with the painter portraying a very good likeness of himself. Another great accomplishment of Mr. Pease in this line is a mural. It extends from the top of the fire-place to the ceiling in the living room. Depicted in this mural is a typical Canadian village, with the village church and hall, the villagers' dwellings and a narrow country road winding its way along. The painter has a particular talent in bringing out the beauty and placidness of a country scene. He has

pointed many of these, some of trees, a brook and grassy slopes and others with buildings in the foreground. From his bedroom window he painted a neighbour's buildings, including the smallest detail.

Mr. Pease's love and knowledge of beauty is shown in all manner of ways. He is a collector of antiques, which he does not leave idle, but remodels many of them into something useful. For instance, one of his masterpieces is a very old upright piano made of Burr Curassau Walnut. He has remodelled this antique, making a silver-ware chest and china cabinet, combined, by replacing the key-board with the keyboard of a piano. The keyboard has been made of a large, flat Rosewood piano was made into a dining table, the legs of which are very artistically carved in a flourishing design. Purchased in Henry Morgan Co. Ltd., Antique Shop, and included in the collection is a solid silver candelabra which has four candlesticks and is almost too heavy to lift. Many of these antiques are gifts from Italy and France, such as carved wood door ornaments from Florence, Italy, and a duelling sword from France. The sword still has the French tri-colours wound around its handle. Mr. Pease plays cribbage on a board made by the Eskimos out of a Walrus Tusk. In the library is a Whale Oil Lamp, a Chinese figurine, and a carved wood tray, originally from Italy. Royal Doulton, Limoges pieces and a Wedgwood plate are outstanding in his china collection. On the Wedgwood plate is depicted Monticello, home of Thomas Jefferson, Author of Declaration of Independence, and the third President of United States. Many clocks of different descriptions are seen throughout the collector's home. One is a grandfather clock, and like he has a clock which is a clock of Italy. Royal Doulton, Limoges pieces and a Wedgwood plate are outstanding in his china collection.

Valleyfield Regatta Proves Splendid Success in All Ways

Daoust Pilots Canada Maid II to Schenley Win — Earl Jarrett Nears World Mark

VALLEYFIELD, QUE. — Bernie Daoust's Canada Maid II sailed a clean sweep of the heavy hydroplane speedboats at the Valleyfield international regatta held on Saturday and Sunday.

A crowd estimated at 50,000 jammed this small industrial city on the south shore of the St. Lawrence river, to see Daoust win all three heats of 225 inboard hydro, division II class, averaging 62.026 miles an hour over choppy bay.

Daoust's victory gave him the Schenley Gold Helmet Trophy lead in points. The trophy is awarded annually to the 225 class, division II winner, in all Canadian regattas under the sponsorship of the Canadian Boating Federation.

Last year's winner, John Hainault of Cornwall, Ont., came in fourth in his Kingcott II. He was favored to win the event.

Toronto's Bill Hodgson took second place in "My Ruthie" while Costa Livin driven jointly by Art Hatch and Ed Pine of Hamilton, Ont., finished third.

The course over picturesque St. Francis Bay, located between Lake Ontario and Lake St. Louis on the St. Lawrence River, is 2 1/2 miles long. Thousands of visitors jammed the shoreline as sunny, hot weather greeted the annual regatta.

In the Canadian one design, Wal-

ter Robinson of Palm Beach, Fla., whizzed his "Mrs. Dockitt" at an average speed of 40.732 miles an hour to win an easy two-heat race. Frank Ramsay of Rideau Ferry, Ont., was second in "For Sale Too" and Percy Buddell of Waterloo, Ont., followed in Miss Waterloo IV.

Aired IV, piloted by W. G. Brander of Waterloo, Ont., topped the 225 hydro class, division one event. He skimmered the way at the fast speed of 74.013 miles an hour in two heats. Second was Art Hatch in Costa Livin. Lotta Berchman Fortin of Montreal was next in Leopard and Bernie Daoust took fourth place in his Canada Boy.

In the outboard hydro, class M, Don Whitfield of Montclair, N.J., buzzed around the 2 1/2 mile course at 34.48 miles an hour. It took him just 5.222 minutes to complete the 3 miles.

Earl Jarrett of Albany, N.Y., came within 1 1/2 miles an hour of breaking the world's record in the 135 hydro, open class. He zoomed along at 66.82 miles an hour in Leopard and followed by Tommy Turner of Kenmore, N.Y., in Trebel. Strictly Stock, driven by Bill Viets of Springfield, Mass., was third.

In the outboard hydro, class B, Open, Gene Roess placed a field of seven, averaging 43.148 miles an hour. (Continued on page 7)

Poultry Experts Visit Local Model Turkey Farm

A group of specialists from the Quebec Poultry Industry Committee recently visited the Catlos at their Turkey De Luxe Regd. farm at Dewittville. The group consisted mainly of poultry experts from Government Departments and various Agricultural Colleges.

The Catlos have pioneered in Infrared Heat Lamp Brooding for turkey poult and the visitors came primarily to study what is believed to be the first major installation of this kind on this Continent. Great interest was shown in the infrared brooding system, the new equipment developed, the results obtained and in the two fine strains of White Holland turkeys being raised at Turkey De Luxe. Several of the visitors enquired whether they could obtain breeder stock of these strains from Turkey De Luxe and it is probable that this province may see many more of these fine birds in the years to come.

Trains For NCO in Korea

Ted Myre is Hard Working Candidate

SOMEWHERE IN KOREA — It's a long hard day for the potential non-commissioned officers now training at the 25th Canadian Infantry Brigade Group School near the 38th Parallel.

Private Ted Myre, 30, of Huntingdon, Que., is one of the 92 students in training for a junior NCO's rank. Son of Mr. and Mrs. Peter Myre, 20 King Street, he was chosen from the Royal Canadian Army Service Corps for this course.

Life for the student begins at 6:00 a.m. He washes, carefully dresses, has breakfast and lays out his large and small packs, mess tins and shined boots, on his bed ready for the morning inspection.

On parade his rifle and personal clothing and equipment are thoroughly inspected by his platoon officer, camp sergeant-major and sergeant.

This is carried out under the watchful eyes of School Commander Major Robert K. Swinton of Vancouver, B.C., and Chief Instructor Captain E. K. Wildfang, C.D., of Moorefield, Ont.

Then begins the training schedule. Each day is broken into eight, 45-minute periods. They cover small arms, mutual instruction, drill, map reading, fieldcraft and a thousand and one other items which a good NCO needs at his fingertips at all times.

The four-week course calls for a high-calibre soldier and the school's 22 instructors are continually watching, noting the manner with which the students conduct themselves.

At night, when training is through for another day, the blazing Korean sun, the men are more than willing to "hit the hay".

After a rugged day beneath the blazing Korean sun, the men are more than willing to "hit the hay".

Campaign For Funds For Band Is Complete Success

Members Are Pleased With the Splendid Support Given By Public

The members of the Huntingdon Citizens' Band are quite pleased with the results obtained from the week-long canvass of the town which was conducted the past week. Everyone called upon gave the canvassers a hearty welcome and with very few exceptions handed them a contribution. So well did the campaign succeed that almost the total objective was reached. The amount contributed reached the sum of \$1,227.05, while the objective set was \$1,500. There are still a few more to call upon and it is hoped that the balance needed to reach the \$1,500 will be raised in a most successful campaign and the band is very satisfied with the support and encouragement received from the public of the Town of Huntingdon.

It has been brought to the attention of Bandmaster Moore that some people in the country points would like to make a contribution. Those wishing to make such contribution can do so by contacting any member of the band.

Several engagements have been made for the band in the next few weeks and through these the people in various parts of the county will be able to hear what they can do. On August 1st, the band will play for a Lawn Social under the auspices of St. Andrew's Church, on the lawn of the home of Dr. and Mrs. F. G. McCrimmon, in Huntingdon.

Plans are underway for the band to play at a concert to be held at Athelstan and also for another that will be held at Franklin Centre within the next few weeks.

The fifteen new members who have joined as a new class to study for playing in the band, now have their instruments and practices will go on in earnest.

The following are the names of the people who have made donations to Huntingdon Citizens' Band, as of Monday, July 23rd:

\$25.00 — Mr. and Mrs. B. W. Allen
\$20.00 — Mr. and Mrs. A. A. Lunn
\$10.00 — Mr. John G. Rennie, M.L.A.; Rev. Father A. Pigeon; Mrs. Mac O'Connor; Mr. and Mrs. Adam L. Sellar; Mr. and Mrs. W. K. Phillips; W. E. Lefebvre Reg'd.; Huntingdon Motors Reg'd.; Canadian Bank of Commerce; Empire Garage Reg'd.; \$8.00 — Laberge and Lalonde.
\$5.00 — Mr. and Mrs. Leo Cappiello, Earl Elliott, Mr. and Mrs. Geo. Collum, Donat Leboeuf, Chas. Lacombe, Mr. and Mrs. David McCoy, Mr. and Mrs. J. D. McGerrige, E. Tremblay, Charles Grant, Mrs. N. F. Manning, Mr. and Mrs. A. Laberge, Mrs. F. H. Lachance, Mrs. W. E. Ewart, Mrs. G. McMillan, Mrs. L. McCormick, J. Boyer, Mr. Alec Hay, Miss Alice Vain, Norman Hay, Mr. and Miss Weeks, Mr. and Mrs. W. Peasey, Miss E. Blachford, R. Cauchon, Bridge Sweet Case (Tremblay), Mr. and Mrs. Ivan Heath, Mr. Turngunst, Wm. Tedstone, Robert

Rolfe, Miss Cecile Cappiello, Miss Electa Hart, L. Ballargeon, Jim McCoy, A. Latendresse, J. E. Myers, Marchand Freres, Menard's, Elite Dress Shoppe, S. J. Currie, C. J. Kyle, J. H. Demers, Doug Stephens, \$4.00 — Mrs. F. G. Braithwaite, \$3.00 — J. Valma's Beauty Salon, Dr. F. G. McCrimmon, W. R. Wilson, J. A. Lanktree, Joe Boisseau and family, Eleanor Hutchins.

\$2.00 — Mr. and Mrs. R. Morrison, Mr. and Mrs. C. E. Boyce, Mr. and Mrs. John Houle, Mr. and Mrs. M. McMillan, H. E. Purcell, Mr. and Mrs. J. Tobin, W. L. Carr, Mrs. N. McCrimmon, W. E. Barrie, Geo. Dixon, Notre-Dame Congregation, Mr. and Mrs. Jos. Brisebois, Mr. and Mrs. Gustave Houle, Mr. and Mrs. Harold McLean, Mr. and Mrs. Paul Lefebvre, Russell McDonald, Eddie Weeks, J. A. Parent, Armand Caza, Ernest Lefebvre, A. L. Levine, L. Brown, Ernest Gossling, Alban Mainville, Albert Godin, W. S. Brown, Jos. Monique, A. Tremblay, Harold Higgins, P. Lazare, John Houle, Mr. and Mrs. M. McMillan, Mr. and Mrs. W. E. S. McNair, Mr. and Mrs. H. Wooler, Mr. and Mrs. Gordon McHardy, Mr. and Mrs. I. McWhinnie, J. G. Cameron, M.D., Mrs. Mary E. Rennie, Mr. and Mrs. Walter Hogg, Wm. Ryan, George Bougie, Dr. and Mrs. M. J. Lefebvre, W. Munroe, Mr. and Mrs. E. W. Brown, Mr. and Mrs. F. H. Hunter, Fred Moore, C. Farquhar, Mr. and Mrs. D. MacFae, Mrs. G. Smith, Mrs. W. Boyd, Mrs. D. Paul, Mrs. C. McCrimmon, Mr. and Mrs. West, Mr. and Mrs. W. P. Durbin, Mr. and Mrs. O. Bonnevillie, Mr. and Mrs. Blondin, Miss Ruth Warden, Jon. Proudfoot, Mrs. Peters, Mr. and Mrs. W. K. Pope, Dr. J. E. Caza, Mrs. G. McLean, Steadman's 5c to \$10.00, O. Sauvage, Mr. and Mrs. J. Lefebvre, General 5c to \$10.00, H. Primeau, Kelly and Lanktree Reg'd., Gordon Lanktree, Dr. Girard, Mr. and Mrs. M. Charbonneau, George Renaud.

\$1.00 — Mildred McArthur, Mrs. F. Pace (Montreal), Mrs. E. Tessier, Mrs. H. Tessier, Mrs. C. Montgomery, A. Lemire, Mrs. Blanchette, Bob Harrison, Elsie Cooper, R. Stark, Mary Haineault, A. Fawcett, C. Thornton, H. McConville, B. Stone, Mr. and Mrs. W. Walsh, Mr. and Mrs. J. Lavery, Mr. I. Parker, Mrs. O'Neill, Mrs. Murphy, Muriel Langlois, Mr. and Mrs. Lloyd Duhamel, Chas. L'Heureux, N. O'Hare, Thos. O'Hare, Edward Lepage, Allison Cart, Miss E. Edgar, Mr. and Mrs. M. G. Gault, Mr. O. Gault, Mrs. D. Walker, Howard Grant, Mrs. Lacombe, Miss Viola Lallemand, W. F. Stark, Mrs. W. F. Stark, Mrs. Alex Fawcett, Miss N. Murphy, Mr. N. Gendron, S. Herdman, Mrs. S. Herdman, Miss Pat Lang, Mr. and Mrs. A. G. Gault, Mr. O. Gault, Mrs. Ward Kelly, Mrs. J. Howds, Mrs. M. MacMillan, Ira Gordon, Lester McCartney, Mrs. Lester McCartney.

Further list of names will appear in the next issue.

Champlain Service Station Officially Opens Tomorrow

Yvon and Ildege Leduc Will Operate New and Modern Service Station

For a town to be progressive there must be marked signs of keeping in step with the times, there must always be a forward movement, nothing can be allowed to stagnate. As an evidence that Huntingdon is progressive, one has only to take a look around at the recent improvements that have been made

and the many renovations and new buildings that have been built. One of these is the new Champlain Service Station on the corner of Cemetery and Chateauguay Streets, which will mark its official opening tomorrow (Thursday, July 26th). Quite a number will remember the rather ramshackle building that stood on this site and never improved as the years went by. It was not the mark of a progressive town, but rather one that did not care. This has now disappeared and in its place, the Champlain Oil Company has erected a new and up-to-date automobile service station. It stands well back from the corner allowing plenty of space for cars to pull in to receive the various services which the new station affords. It is the first one by this company in Huntingdon, although the old building was operated by the same company as a combination garage and service station.

The new building will serve only as a service station, no actual overhauling of cars will be done, but tune-ups, minor repairs, battery charging, tire and tube repairs will be done. A full line of accessories will be stocked as well as the usual Champlain oils, gas and greases. Modern equipment such as greasing machines, hydraulic hoists, checking the chassis of cars, etc., tools and machinery for giving fast service, have all been installed. The station will be open from seven in the morning until midnight daily and there is the possibility that longer service can be arranged. Two gas pumps will dispense gasoline and competent service men will be on hand to attend to customers' requirements.

The station is leased to Messrs. Yvon and Ildege Leduc, two brothers who are well known to the people of this district. They have been in the automobile business for a number of years and have operated this garage for the past five years. Both are experienced mechanics and in addition to the service station will be handling the sales and service for Austin cars.

To Lay Cornerstone For Gault Institute, Valleyfield

Special Ceremony to Be Held Thursday Afternoon, July 26th

Education is an important part of everyone's life and without it today, one would not proceed very far up the ladder of success. In all walks of life education is a factor that must receive vital consideration from start to finish.

Today therefore, facilities for education are receiving more and more attention by the people of every community and the school boards charged with the trusteeship of schools in the communities. From time to time we have reported the progress made by various schools within the District of Beauharnois and it now becomes our duty to report on a new extension that is being added to the Gault Institute at Valleyfield, Que.

From time to time we have reported on changes and additions made by this school and each improvement has brought about greater opportunities for the students who attend the school. It is a pleasure to report that a new extension which will include a gymnasium, additional classrooms, playrooms and lunchrooms, is now in the process of being built. This extension will cost approximately \$225,000, paid for by generous contributions from the Provincial Government, local industries, merchants, private individuals and former pupils.

The design of the extension is in the hands of Architects Wood and Langston of Montreal, while the general contractors for the construction are Ross and Anglin of Montreal.

On Thursday, July 26th, a special ceremony will be held at which the outstanding event will be the laying of the cornerstone by Dr. J. A. Mc-

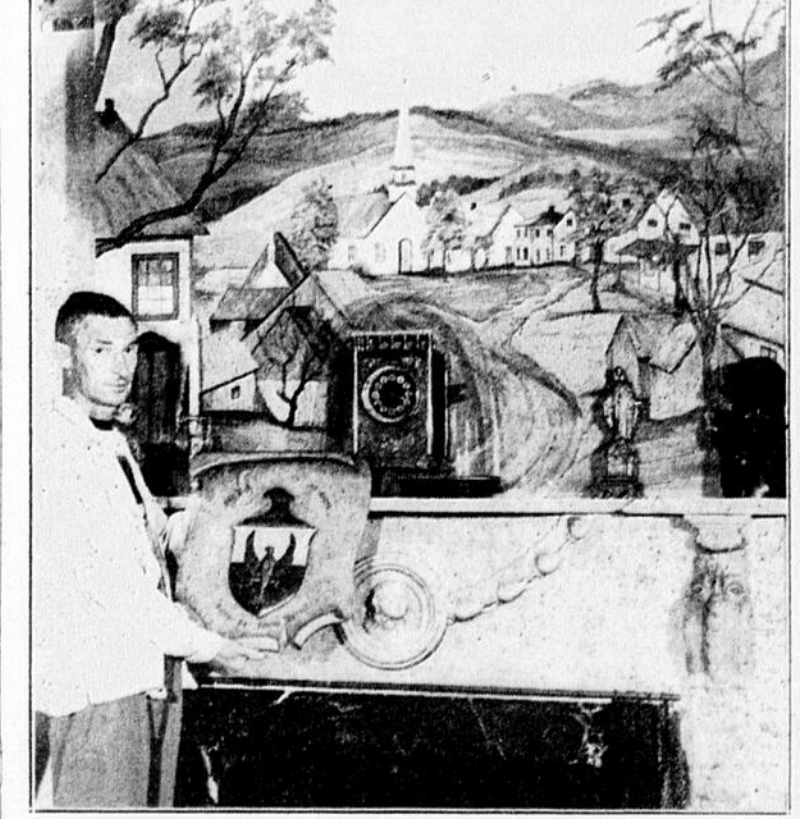

Donald, Chairman of the Gault Institute School Board. The public is invited to attend this special ceremony and witness still another step in making the Gault Institute one of the most up-to-date schools in this district.

Invitations to the ceremony which have been sent include those to the Honourable M. L. Duplessis, Prime Minister of the Province of Quebec, Mr. Edgar Hebert, Member of Parliament of the Province of Quebec for the Beauharnois District, and who has assisted greatly in obtaining the grant from the Provincial Government, the Honourable Omer Cote, Provincial Secretary, Mr. O. J. Desautels, Superintendent of Education and Doctor W. P. Percival, Director of Protestant Education.

The present Gault Institute was built and endowed through the generosity of the late Mr. A. F. Gault in the year 1895. At that time Mr. A. F. Gault was the President of the Montreal Cottons Limited. Since that time many students have passed through its doors and later carved names for themselves in the business and professional world and traditions have been built up to the standards that are required to be maintained.

W. G. E. Aird, Trustee of the Gault Institute fund, and who has taken a very keen interest in the school during the past twenty years, will be chairman of the cornerstone laying ceremony, on July 26th, and others who will participate include Reverend D. G. Gault, Minister of the United Church and Mr. J. S. Gamble, Presbyterian Church, Messrs. Percy Parry and A. G. Osborne, trustees and N. W. Clifford, Secretary-Treasurer.

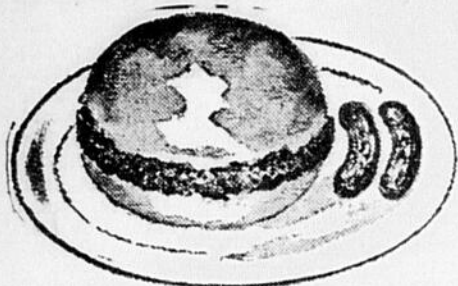

CHESTER PEASE POSES WITH HIS ART COLLECTION

Above is Mr. Chester Pease, of Trout River, near Huntingdon, Que., holding the Peace Coat of Arms, which he carved from pine and glazed and painted the colors of its original. A further display of his art talents which can be seen in the background is a Vermont Village Scene, which he painted, above the fireplace. An article on the collection of his art will appear in another column of this issue.

Orms town

St. Paul's United Church Sunday School Picnic
ORMSTOWN—On Friday, members and friends of the St. Paul's United Sunday School were transported to Hungry Bay for the annual picnic, when the young and older enjoyed a wonderful day of swimming, races and games.
 Winners in the various events of the day were:
 Girls, 1 to 4 years—1 Janet Cavers; 2 Betty McDougall; 3 Marilyn Greig.
 Boys, 1 to 4 years—1 Billy Bry-

Dewittville

DEWITTVILLE — On Thursday afternoon the annual garden party sponsored by St. Andrew's Ladies' Aid, was held at the D. M. Rowat home. The beautiful lawns and beds brilliant with red geraniums and multi-colored tuberos begonias provided a lovely setting for this event and a goodly number of ladies enjoyed a pleasant tea.

Recent week-end visitors with Mrs. Pearl McCartney were Miss Rose Stark, Mr. A. W. Tannahill, Mrs. Paul Chaput, Miss Annetta Tannahill and friend of Worcester, Mass. Mrs. Wm. McPherson, Dundee, and Mr. and Mrs. Archie Tannahill of Allan's Corners.

Mrs. James Tillotson, Wayne and Sharon visited a few days with friends in Montreal the past week.

Mrs. Joan Barrie, Cornwall, is visiting with her sister, Mrs. Pearl McCartney and Mrs. James Tillotson and family.

Miss Mary Bryson, of the Montreal General Hospital, and Mrs. Cameron Bryson and Bonny.

Mr. and Mrs. K. K. Pearce and Mr. Hooker Pearce motored to Port Hope, Ont., to attend the wedding of Miss Isabel Pearce. On his arrival, Mr. Pearce learned of the sudden death of his brother, Mr. Jack Pearce, of Newville, and Mr. and Mrs. Pearce attended the funeral on Monday. The remainder of the week they spent with Mr. and Mrs. Gerald Pearce at Welcome. On their return trip they visited with Mr. and Mrs. Kenneth Griffiths in Belleville.

Mr. and Mrs. C. W. Scott, Mr. and Mrs. Arthur Scott and Mr. and Mrs. Harold Scott, Carol and Donald, of St. Lambert, and Mr. Robert Scott of Ottawa, visited on Sunday with Mr. and Mrs. K. D. MacIntosh.

Mrs. Stacey Booth and Mrs. Bill Evans of Montreal West, spent several days with Mr. and Mrs. Colin McArthur.

Mr. Jack Stead and Mr. Larry Thomas of Toronto, Ont., were overnight guests at the K. D. MacIntosh home.

Mr. and Mrs. H. Heilbronn and their daughters Ruth and Susan of Philadelphia, Pa., spent a week at the home of Mr. and Mrs. Ernest Humberg. Miss Ruth Humberg accompanied them on their return motor trip and will spend several weeks at their guest.

Mr. and Mrs. Manson Peel and family, Mr. and Mrs. Albert Bryson and Mrs. Wm. Peel, of Montreal, called on Sunday at the MacIntosh and McArthur homes.

Tatehurst

TATEHURST — Mr. and Mrs. George Shearer and Patsy of Stratfordville, Ont., were guests the past week of Mr. and Mrs. William Brown.

Misses Judy and Gail Cavers spent the past week with Mary Catherine and Alanna Hooker, Lalonde's Point.

Mr. and Mrs. W. T. Logan of Richelieu, Que., and Mr. and Mrs. Fred Corkran of Town of Mount Royal, were guests on Sunday of Mr. and Mrs. R. F. Corkran.

Rockburn

ROCKBURN — Mr. and Mrs. Bruce Merritt of Oswego and Mrs. M. Shattuck of Burke, N.Y., were recent guests of Mr. and Mrs. John Oliver.

Mr. and Mrs. Brown and children, of Cornwall, are visiting at the home of Mr. and Mrs. J. Sloan.

After spending a few weeks with Mr. Ernest Rennie, Mrs. Margaret Hunter and daughter Dawn, of Huntingdon, left Thursday for Schenectady, N.Y., intending to make their home there at present. The good wishes of her friends here accompany Mrs. Hunter.

We regret to report that Miss Helen Lindsay has been hospitalized for some days, but all are hoping for a speedy recovery to health for her and her return home.

Mr. Herbie Pringle of Beaconsfield, Que., spent the week-end with his wife and daughter at the home of his parents, Mr. and Mrs. Ernest Pringle.

Mr. and Mrs. Ernest Pringle, Osborne and Beatrice and Mr. and Mrs. Herbie Pringle and Sharon were Sunday guests of Mr. and Mrs. Earl Pringle.

Miss Beatrice Pringle spent a week recently with her brother and sister-in-law, Mr. and Mrs. Earl Pringle.

at the Bradley home, Petawawa. Mrs. M. B. Hillman and granddaughter Daphne Baskin spent a few days at Lake Alma, the guests of Mr. and Mrs. Charles F. Smith, Sr., and Charles, Jr., of Sherbrooke, Que. Returning via Montreal, they were overnight guests of Mr. and Mrs. Leo Cayen and family.

Mr. and Mrs. Harry Cooke, of Verdun, Que., Miss Ann Watt and Mrs. E. Montfort of Toronto, were guests on Saturday of Mr. and Mrs. E. Baskin.

Mrs. Earle Walsh has returned to her home after spending two weeks with relatives in Calgary. Mrs. Walsh made the return trip by plane.

Misses Betty Martin, Jean Dickson and Grace Harkness of the Orms town Girl Guides have returned home from camping at Granby.

Miss Isabel McDougall spent a few days the past week with Miss Lorna Fleming, Dundee.

Significant Stanley McWhinnie is home from Kingston, spending a month's holiday with his parents, Mr. and Mrs. George McWhinnie.

Mr. and Mrs. Clayton Harvey, Barbara and Margaret of Bedford, were Sunday guests of Mr. and Mrs. Adam McNeil.

Mrs. Agnes Allen and Miss Alberta Parquhar of Brockton, Mass., spent the week at "The Towers."

Miss Isabel McDougall has returned home after a five-day motor trip to the New England States, travelling as far as Boston.

Mr. and Mrs. Jack Simons of Montreal, are spending three weeks at the Bradley House.

Miss Connie White spent a few days this week with Mary Catherine and Alanna Hooker, Lalonde's Point.

Bell to Seek Further Rate Increase

Higher Costs Given As Reason

To meet increased operating costs and higher taxes, The Bell Telephone Company of Canada will apply to the Board of Transport Commissioners for authority to increase rates for telephone services, Frederick Johnson, president, states in a message to shareholders enclosed with dividend cheques dated July 16.

The message says that higher rates authorized last year were based on the cost level existing in 1949. Since then, operating costs have moved upward at an accelerating pace.

The combined effect of the two major factors — increased wage costs and higher taxes — would alone make it imperative that we again request authority to increase the price of our services," the message says.

"We will, therefore, be compelled to apply to the Board of Transport Commissioners for approval of rate schedules in keeping with prevailing costs."

The message does not indicate when the application will be made or the amount of the increase that will be sought.

Exactly two years ago, shareholders were informed that rising

Beauharnois

Some happy young campers left on Monday for the Presbyterian Camp at Lancaster. They were Susan Kilgour, Sandra Currie, Marcia Tieghen, Betty Loucks and Miss Janet Turnbull.

Misses Shirley and Joyce Hunter are flying to North Bay, Ontario to spend their vacation with relatives.

Mr. and Mrs. Bill Kilgour are motoring to Prince Edward Island for their summer trip.

Mr. M. R. Reany will join his family at Marag while on holiday.

Mrs. Bill Loucks is joining her daughter, June, at Hampton Beach, New Hampshire, for a week's vacation.

Willing Workers Turn Up Remains of Indian Hamlet

MIDLAND, Ont. (CP) — The remains of an ancient Indian village are being extracted slowly from deep layers of earth near Victoria Harbour, six miles east of this Georgian Bay town.

A willing crew of 21 willing shovel and trowel men and women are searching for traces of St. Louis, a Huron Indian Hamlet which figured prominently 300 years ago in the history of Huronia and of the martyred Jesuit Fathers.

They are led by Wilfred Jury, curator of the museum of Indian Archaeology at the University of Western Ontario. Under his guidance they recently began a 14-day course in archaeology sponsored by the University of Western Ontario and backed financially by the provincial government.

The course actually has a dual

purpose. It uncovers valuable historical data for posterity and provides the work crew with a fascinating holiday.

The first days digging was gratifying to both the student-workers and their instructors. The finds included an assortment of almost 100 fragments of pottery bearing Huron markings. Also found were large pieces of Indian peace pipes, a prayer bead of European manufacture and the remains of a cone-shaped fire pit.

The findings reveal some of the history of the Indian hamlet. Pray-

er beads proved they were in definite contact with Europeans and beads made of calamite showed they had traded with other tribes along the Mississippi River, the source of the stone.

Mr. Jury says restoration and development of historical sites will prove a great attraction to tourists.

"When the cash registers start to ring then business will realize we've been working for them," he says.

Stop the Itch of Insect Bites—Heat Rash

Quick Stop itching of insect bites, heat rash, eczema, liver pimples, scabies, sunburn, foot and other externally caused skin troubles. The quick-acting, soothing, antiseptic, D. D. D. PRESCRIPTION. Greaseless, stainless. Stop the money back. Don't suffer. Your drug store has D. D. D. PRESCRIPTION.

While increased wages and higher taxes have accounted for the most significant increases in expenses, the price of nearly everything is higher now than it was two years ago, the president's message says.

"Fair wages are necessary to attract and retain the type of employees required by the business, and we must keep our wages in line with those paid for similar skills by other firms in the communities we serve. Consequently, wage rates were increased in 1950, and it was necessary to again increase them in 1951."

"Federal income tax rates were increased last year, and this year they have been still further increased through the imposition of the Defence Surtax. The federal income tax rate applicable to the company has been increased since our last rate application from 33 per cent to 45.6 per cent, an increase of more than one-third."

Editorial Notes...

Traffic Regulations and Such

IT would seem that the Town Fathers will have much to discuss at the next regular council meeting to be held on August 6th. That old and time worn problem — Two-Way Traffic on Chateaugay Street — is going to be tossed around again. Already it is a topic on the street and when people get together.

Since it was first discussed and since it was tried first one way and then another, some other innovations have come about that it is thought may make two-way traffic more feasible on this narrow main street. First it must be remembered that traffic in Huntingdon is increasing every year and has done so since the end of the war. We won't know for sure until the result of the census is published, but it is certain that the population has also increased since the war. There are more houses, more stores and businesses, a larger school with more buses, extra buses for passenger transportation, more trucks of all kinds and various sizes, to say the least. These are to do with the town itself, and there is a great increase in the traffic which passes through the town to various points. All these factors add up to the problems that face us with regard to traffic in Huntingdon.

We are all very well aware how the traffic used to get snarled on Chateaugay Street when it was formerly a two-way street and we know how difficult it was to untangle the mass when the jams occurred. If Chateaugay Street is once more changed to two-way, will this same thing occur? It has been suggested that with the street controlled by traffic signals, this factor may also be controlled by holding the up and down streams independently so that one is held while the other is moving up or down the street. The placing of parking meters on one side of the street is also felt to be a control that will eliminate too much parking

and thus leave more room for the traffic that is moving. It is a problem that will require much thought before being put into operation, for it would seem that once changed to such a system it will be hard to change again. It may work, but on the other hand it may not. We doubt that it will mean as much to the businesses on that street as some seem to think, to have all the traffic using Chateaugay Street. There is still the occasional jam on that street even with one-way traffic and it is hard at the moment to visualize two-way traffic running as smoothly as the traffic does at present.

The suggested removal of the traffic signal at the Post Office Corner has aroused much comment and the comment seems to run against its removal. Never before has the traffic at this intersection been so well controlled and it is only by careful checking that one can obtain a real idea of the amount of traffic at this point. An improvement would be to allow right hand turns on the red light as this would allow the continuance of cars that are only turning into the flow of the traffic and thus eliminate waiting.

One other thing is that pedestrians should also be governed by the signal and cross with the green light just as the traffic does. It has been noticed that many people ignore this and cross against the signal, with the result they find themselves in the middle of the traffic. Once the green light is given the traffic has a through street and it is hazardous to cross against the traffic. The pedestrian should stop with the red light and go with the green just as the traffic does. That way is safe for everyone. Huntingdon is destined to have traffic signals at some point, so we may just as well get used to it now as later.

Burnside Sale of '51

THE District of Beauharnois has long been recognized as one of the most fertile, most progressive, economically substantial rural-urban districts of Quebec. In fact in all Canada. Also, the present position that that historic district of Quebec now occupies has been due to a very great extent to the purebred livestock breeders of the Huntingdon-Ormstown-Hovick area of same. That area has long been acknowledged as one of the largest, most important livestock breeding districts on the North American Continent. In fact, insofar as Ayrshires are concerned, the proud slogan of the Howick-Huntingdon Ayrshire Breeders' Club: "The Scotland of America" (sometimes "The Ayrshire of America") has never been challenged by any other group of Ayrshire breeders on the North American Continent.

The list of men and herds, past and present, who have contributed or who are still contributing to that great Ayrshire position is an imposing one, too long to give here at this time. However, none of them have excelled the contributions made and achievements attained by the Ness family of Burnside — The late Robert Ness of Woodside, an imported Ayrshire Scotsman; his son the Hon. R. R. Ness, founder of the world famous Burnside Ayrshire herd, and his sons J. Earle of Terrace Bank, R. Bruce of Burness and Douglas A. and A. Mitchell present partners with their father, R. R. Ness and Sons (Reg'd.) of Burnside Farms.

Some twenty years ago R. R. Ness and Sons decided to emulate the Scottish Ayrshire breeders by staging an annual auction sale of products of their herd and that effort met with immediate success. However, as time went on other leading Ayrshire breeders of Quebec and Ontario made strong pleas that they be permitted to consign choice specimens of their herds to the Burnside Sale. Again, that effort was successful and it now is that the other breeders concerned

give Douglas A. Ness practically a "Carte Blanche" invitation to pick what he desires from their herds for the Burnside Sale. And so it is that this year, on August 4th, the fourteenth annual sale (the wartime years rather disrupted the schedule) there will not only be the usual choice offerings from the Burnside herd but some 17 head from other Quebec herds, 2 from Ontario.

As regards these outside entries, so to speak, each and every animal was first considered from a pedigree as well as a conformation standpoint before acceptance. They are therefore outstanding in both respects.

The Burnside offering includes a young bull and 13 heifers which were personally selected in Scotland, from leading herds there, by Douglas A. Ness. However, considerable details were given of these animals in a recent issue of the Gleaner.

The Burnside-bred offering is mostly comprised of in-calf, vaccinated and negative heifers comprising a top, cross section of famous Burnside strains, sired by and in-calf to noted Burnside herd sires. There will doubtless be, as in the past, a considerable number of prospective customers from several of the United States, Quebec, Ontario and other parts of Canada, but we would suggest that local (Howick-Huntingdon) Ayrshire breeders should not just be spectators. That is, that they not only support the sale, with their bids, but also take advantage of this great opportunity to strengthen their own herds by purchasing what may undoubtedly develop into valuable breeding cows.

The same suggestion might also be made to new beginners in farming who are considering the establishment of purebred herds of Ayrshires or who have not yet made up their minds as to what breed they will finally select.

The sale date is, of course, the first Saturday of August, that is August 4.

Let's Keep Beauty Where Beauty Belongs

HUNTINGDON has much to be proud of in the fact that the Chateaugay River flows through it. There is always something fascinating about water that attracts more than a casual glance from the visitor and resident alike. However, the resident is apt not to notice the river as much as a visitor, because he sees it all the time. One visitor on a recent Sunday afternoon was looking at our river and said it would always leave a favourable memory with him.

However, there are some who still continue the practice of dumping all kinds of rubbish in this river and from time to time it will be noticed sailing down in unsightly masses. Often it collects near the shore and remains there to rot and become offensive. This practice has been frowned upon and offenders have been warned from time to time to refrain from it. The town has a garbage collec-

tion system and all such rubbish should be put out for collection by the truck and not dumped into the river. The health officer and health department would do well to make a check on this practice and insist that it be discontinued. If it does continue then the offenders should be punished according to law.

To see rubbish floating down the river does not add to the natural beauty of same and certainly odd collections along the river bank do not suggest a clean and tidy town. We want to attract the tourist and we want him to remember Huntingdon as a clean and neat town, he will not think very much of it after seeing the river in this state. It is believed that the offenders are few in number, but these few often mar a beautiful scene for the many.

Random Glimpses of The Past Taken From Gleaner Files

1881

June 9 Diphtheria has again made its appearance in Franklin. Mr. George Adams buried two children the past week.

On Sunday night a rather sharp frost was experienced which did a good deal of damage, though not so much had it come later, for there was little corn above ground. Beans and melons have been killed and potatoes touched. It some cases the tops of barley have been hurt and it may prove that the grass has got a setback. So far as we can learn this section has escaped much better than the country north and east of it. At Beauconsid, Gallacher & Co. had acres upon acres of their pretentious hardy vines scorched. Apart from this untimely frost, the season continues favourable and the crops look well. All the dairy factories report an unusual flow of milk.

June 16

On Monday, Mr. David White sold his yearling horse colt, which took first prize at the Fair last Fall at his mother's foot and was by Prince Royal, to Samuel Stevenson of Vankleek Hill, for \$130. This is the largest sum ever paid in this section and shows the demand that exists for Clydesdales.

June 23

D. M. McPherson, Esq., has sold 3,500 boxes of cheese, the product of two weeks in June, at 9¢ per pound delivered at the factories. This is the largest sale ever made in this country at any one time.

June 30

Grasshoppers have appeared in countless numbers on the limestone ridges in St. Anicet, Godmanchester and Elgin, and have already done much injury to the pastures. It is hoped that the showers of the past few days may keep them in check.

July 28

The thunderstorm of the 20th was accompanied, along a portion of Trout River by a whirlwind that did serious damage. The greatest sufferer was Mr. Andrew Gilmour, Elgin, who had over 70 trees in his sugar bush uprooted, several corn cobs, a quantity of grain spoiled when the roof of the barn lifted. Mr. McFarlane and Mr. Sayer also suffered in their bush and orchard. Mr. James Stephens had a roof of his woodshed and kitchen moved and a great many trees destroyed. The force of the wind may be conceived when it is stated that tamaracks, 8 to 10 inches thick, were snapped off like pipe stalks.

July 28

The last 10 days have comprised the most hayting time known in this section for a long series of years. Each day there have been showers, some days three or four, so that it has been impossible to draw in and the hay either mildew or blackening in coil or become deep

Weekly Review

The Pursuit of Security

By LEWIS MILLIGAN

Security is one of the most shopworn words in the language these days. It is the agitator's war cry and the promise of the politician. There is collective security, national security, social security, economic security, old age security, job security, and union security. Even the security organizations are demanding security for themselves. But the pursuit of security, like that of happiness, is as vain as the chasing of bubbles. The word happiness is derived from "hap", which means to "snatch at". Happiness is something we get in snatches; it just happens. Security is defined as "the state of being free from apprehension; confidence of safety; sometimes confidence; freedom from danger."

These definitions obviously imply that there is no such thing as perpetual happiness or security in this world. The world itself is so constituted, with its continual change, as to render perpetual freedom from worry, danger and risk impossible. Even though our homes were free from the peril of earthquake, tempest, fire and flood, they would still be subject to the natural process of deterioration. No sooner have we built a house than nature begins to pull it down, and if we neglect to keep it in repair the structure will fall into decay. Every housewife knows too well that if she neglects her regular cleaning for a few days everything will be covered with dust.

Human nature is equally unstable, individually, socially and nationally. Mankind has made up of differing temperaments and talents; distinctive races, tribes and nationalities, living under a variety of climatic and social conditions. Although in some countries there appears to be little change from one generation to another, history is a story of continual human restlessness and insecurity. "Man never is, but always be," wrote Alexander Pope, and he wrote two other lines which might well be taken to heart in these days of clashing political and economic creeds:

"For forms of government let fools contest; What's best administered is best."

H. G. Wells spent most of his life in the promotion of Socialism, which he believed was the only form of government that would insure all-round equality and security. Later he came to believe that Socialism could succeed only if it were established internationally in the form of a "World State." That is what the communists want, with Soviet Russia as the ideal and Moscow as the seat of World Government. But Wells had no admiration for Soviet Russia, and in his last

days he had given up all hope of a World State. J. L. Hodson, the British novelist and playwright, in a recently published diary, quotes Wells as saying to him: "Both nature and human nature have turned against us."

"This is what happens to those who want to organize the entire universe their own way," says Paul Parsons in the British Weekly. Wells, like his friend Bernard Shaw, died in disillusionment. It took those would-be reshapers of the world and its inhabitants a lifetime to discover what they could have learned from the Bible or from our own poets and scientists, that "the fashion of this world passeth away."

When Margaret Fuller declared ecstatically, "I am become a universal!" Carlyle replied, "Gad, she'd better!" And we had better accept nature and human nature for what they are, with all their insecurity and imperfections, and make the best of them. We have witnessed in two world wars what happens to men and nations that wanted to organize the world their own way. They have made a horrible mess of things.

Brooklet

BROOKLET—Mrs. Henry Wilson returned to her home on Thursday, July 19th, from Washington, D.C., where she had been visiting her daughter Helen for the past two weeks. Her grand-daughter, Gertrude Carson of Covey Hill accompanied her. They made the trip to Washington and home via Colonial Airlines.

Mr. Clifford McCormick and Phyllis of Saranac spent Monday afternoon with Mr. and Mrs. Francis McCormick and family.

Miss Anna Rutherford, R.N., of Montreal, is spending part of her vacation with her sister, Mrs. Allen Wilson.

Mr. and Mrs. Fred Sweet spent Monday at Chateaugay Lake, N.Y., guests of Mrs. E. Hurlburt and Mrs. Elliott of Syracuse, N.Y.

Mr. and Mrs. Francis McCormick attended the funeral of the late Sterling Watchorn held at Lancaster, Ont., on Sunday.

Mr. and Mrs. Wm. McCormick called on friends at Chateaugay, N.Y., Sunday afternoon.

Mr. George McMaster, Beaver, was a guest of Mr. and Mrs. Bruce McCormick on Sunday. He was accompanied home by his mother, Mrs. Elizabeth McMaster, who was an overnight guest of her son-in-law and daughter.

A joint service of the Gore, Franklin and Rennie's Church was held in Rennie's Church on Sunday morning, July 22nd. Rev. E. Davis conducted the service before

The Week At Ottawa...

OTTAWA, (CP) — Things were downright placid on Parliament Hill last week. About as exciting as anything were the one-hour carillon recitals from the Peace Tower at night by Robert Donnell, Dominion Carillonier.

But newsworthy events are cooking. A number of top-level meetings are on tap before Parliament sits again in October. In some cases high governmental officials from other countries will come to Ottawa for talks; in others, our government's ministers will go abroad to meetings where international policy will be discussed and shaped.

Considerable excitement prevailed in the capital last week when it was learned that Canada was the likely host of a vital September meeting of the Atlantic Pact Council. This would be a meeting that would bring together the most distinguished international gathering this country has seen since the

Powerscourt

POWERSCOURT — Powerscourt Women's Association was entertained by Mrs. John Wood on Wednesday at the home of her daughter, Mrs. Bert Shearer. Business meeting was conducted by Mrs. Myatt, Scripture reading by Mrs. W. McHardy. During the week period the ladies put a quilt top together. A delicious supper was enjoyed by 20 members and guests.

Mr. and Mrs. John Koski, Patsy and Jean, accompanied by Mr. Robert Thompson and Mrs. Viola Gauthier enjoyed a motor trip to Merrill, Minn., and Saranac, where they visited friends on Sunday.

News was received on Friday of the sudden death of Mr. Sterling Watchorn (husband of Jessie Taylor) in Cornwall, Ont. The remains were taken to the home of Mr. and Mrs. A. G. Fraser at Lancaster, Ont., and the funeral was held on Sunday.

Mr. and Mrs. Tom Ross and Mrs. Morris McLean visited on Friday with Mrs. Ross' uncle at the home of Mr. and Mrs. Fred McGregor, Boyd Settlement.

Mr. Arthur Taylor is with his daughters in Lancaster, Ont., where he attended the funeral of his son-in-law, the late Sterling Watchorn. Others who attended the funeral from this district were Mr. and Mrs. Geo. Taylor, Mr. and Mrs. Francis McCormick and Mr. and Mrs. Lyle Graham.

Mr. and Mrs. Maloney of Corinth, N.Y., are enjoying a two weeks vacation with their nephew and niece, Mr. and Mrs. Erskine Morris.

Mr. and Mrs. Norman O'Brien of Sutton, Que., were Friday overnight guests of Mr. and Mrs. Gordon McClatchie.

A large congregation and Miss Jean McCormick and Donald Wilson sang, "How strong and sweet my Father's care." This makes the third joint service this summer.

Callers at the home of Mr. and Mrs. Fred Sweet were Mrs. Jean Douglas, Chateaugay, and Mrs. Mabel Bush, Albany, N.Y.

Mr. and Mrs. Freddie Elliott, Mr. and Mrs. Carl Arthur and family spent Sunday at the McMillan home, Dundee.

Mr. and Mrs. Francis McCormick and family and Miss Florence McCormick were dinner guests of Mr. and Mrs. Martin Harrigan, Chateaugay, N.Y.

wartime Roosevelt-Churchill-King talks in Quebec City.

Under its broadened character, the Council would bring together for the first time the foreign, finance and defence ministers of all 12 Pact nations along with advisers for all three categories. Formerly only the foreign ministers belonged to it.

The foreign ministers would come here from San Francisco after taking part in the signing of a Japanese peace treaty around Sept. 4.

External Affairs Minister Pearson, due home from Europe this week, is expected to represent Canada in San Francisco and then head home again to direct this country's first experience as host to the Pact's top body.

The agenda would involve a number of matters vital to the western world, such as the inclusion of a rearmament Germany in the western wall against communism.

Top-Level Talks

Mr. Pearson, Defence Minister Claxton and Finance Minister Abbott would be Canada's chief spokesmen. The meeting would be attended by such noted figures as State Secretary Acheson and Defence Secretary Marshall of the United States, Foreign Minister Herbert Morrison, Defence Minister Emanuel Shinwell and Chancellor of the Exchequer Hugh Gaitskill of the United Kingdom. There would also be their counterparts from France, Belgium, Holland, Norway, Denmark, Luxembourg, Italy, Portugal and Iceland.

Another important meeting is to be held in Washington, possibly in August, at which defence ministers from United States, the United Kingdom, France and Canada will discuss the U.S.-U.K. split over a common rifle.

The meeting is said to represent an important concession to Defence Minister Claxton who personally intervened after the two senior countries' differences over a common rifle went so far that the United States announced a decision to adopt a new 28 calibre weapon.

The U.S. is sticking with the 30 calibre rifle. Canada has announced adoption of the U.S. 30 Grendel but this decision may be reversed, depending on the outcome of the

Washington meeting. Finance Minister Abbott will follow Defence Minister Claxton to Washington early in September where he will preside over meetings of the International Monetary Fund. He is also to discuss raw-material shortages with western finance ministers there for the meeting.

Army Chiefs Confer

The swing will be from Washington to Ottawa in the first week of August when the top U.S. military figure, Gen. Omar Bradley, is due here for talks with the chiefs of staff as well as some fishing.

The Bradley visit is the result of a long-standing invitation by the general's Canadian opposite number, Lt.-Gen. Charles Foulkes, chairman of the chiefs of staffs. Informal quarters stay there is no special significance to it.

However, the visit will provide a chance for a discussion of numerous problems arising from close Canadian-American co-operation not only in continental defence but in the North Atlantic Treaty.

A surprise announcement from London that Prime Minister Attlee of the United Kingdom may visit Washington in late August led to speculation that Mr. Attlee in all likelihood may also stop over at Ottawa.

Prime Minister St. Laurent was out of town when the London report became known here but it was felt likely Mr. St. Laurent would duplicate last year's invitation to Mr. Attlee to visit Ottawa after leaving Washington. Mr. Attlee came here in December.

For Western Defence Canada last week announced that 300 radar sets will be sent to the United Kingdom, Belgium, the Netherlands, Norway, Denmark and Italy during 1962.

The sets are this country's latest contribution to help Europe build a wall against communism. Officials said that with this order Canada has largely committed the \$365,000,000 Parliament voted for mutual aid to Europe under the Atlantic Pact set-up. A further large vote is expected to be sought by the government within the next year.

You can secure BROAD DIVERSIFICATION OF YOUR INVESTMENTS through the medium of MUTUAL FUNDS

ROUND BYRE AND RING

By Frank Napier

A South Carolina Buyer

Gilbert McMillan of Huntingdon had several busy days last week showing around and assisting J. Willis McGee to get a load of cattle for his firm, McGee Bros. of Anderson, South Carolina, U.S.A.

Former Mule Operators

Since the McGees have been frequent purchasers of cattle in this district, it may be of interest to here relate a few of the details given to us by Gib McMillan. Originally the McGee Brothers

were large Mule Operators but when the Mule business petered off, due to the falling off of the cotton growing operations, followed by a demand for cattle to help bring back the depleted cotton farms they went into the cattle business.

An All Holstein Shipment

This is therefore the fourth year in which they have been purchasing Holsteins and Ayrshires in the Howick-Huntingdon district, thereby taking back around 100 head each year. This time, however, they were after an all Holstein shipment and Mr. McGee purchased 40 head of 2 year old heifers. At the same time a Mr. Bolt, who accompanied Mr. McGee, purchased 30 yearling heifers.

Of the combined purchases 11 of the 2 year old heifers (including 2 from MacDonald College) were purebreds; 6 of the yearling heifers were also purebreds.

Gib McMillan said that satisfactory prices were paid. He also stated that they would not consider any animals that had previously produced calves. The inference being that two year old or yearling heifers ship better than cows and that they were also wary of getting animals infected with mastitis.

Ayrshires for Vermont

Another recent chore by Gib McMillan was the purchase and shipment of 6 purebred Ayrshires to P. P. Pike of Cabot, Vermont. These animals were purchased as follows: 2 each from W. McCracken and Mrs. McCaig; 1 each from Walter Levers and Matthew Wallace.

Other Ayrshire Sales

E. Wilson Richmond, Secretary-Manager, Canadian Ayrshire Breeders' Association, reports that some 23 head were recently sold for export to the United States by district Ayrshire breeders. The names and addresses of the purchasers being as follows:

Rupert Steven, Sheffield, Mass., U.S.A.—1 animal from James Angell, Riverfield; 5 from Van Vleet Brothers, Lacolle; 12 from J. and W. Mannagh, Franklin Centre.

James Copley, Torrington, Conn., U.S.A.—2 head from Kerr Neely, Huntingdon.

C. K. Newton, Bradenton, Florida, U.S.A.—1 animal from T. L. Irving & Sons, St. Anicet; 2 from Matthew J. Wallace, Athelstan.

Horses for Trinidad

An interesting shipment of Hunter Type horses left Montreal last Friday for Port of Spain, Trinidad, B.W.I. Eight of the horses were going as remounts to the Mounted Division of the Trinidad and Tobago Police Force; three for a large Sugar Estate in Trinidad.

These horses came from the Brampton, Ontario Horse Breeding Station, one of 11 similar stations in various parts of Canada, which are subsidized by the Production Service of the Department of Agriculture of Canada. The purpose of same being to encourage and foster the production of Hunter-type and Police Remount horses. At present each of the 11 Horse Breeding Stations have on loan from Production Service an imported Thoroughbred stallion. Grants are also made to the Station owners on behalf of the other Thoroughbred stallions they maintain.

All of the dams of the horses in the present shipment are daughters of Thoroughbred stallions, most of them also from dams sired by Thoroughbred stallions.

Incidentally, all the horses in the Mounted Division of the Trinidad and Tobago, as also of the Barbados Police Forces are Canadian-bred animals. This is the third shipment for the Trinidad and Tobago Police Force and although no shipments were made during war-time years a total of 906 such horses have been shipped from Canada during the past 20 years. It is claimed that horses are best adapted for patrolling the various estates (sugar, etc.) than are Jeeps or Cars, also for ceremonial purposes, parades, festivals, etc. Also that their experience has been that Canadian horses are best adapted for such service, climate and all considered.

Scientists Test Cloth For Warmth

Apparatus to determine the efficiency of various fabrics in retaining warmth is the latest development of the National Research Council's Textile Laboratories at Ottawa.

Information gleaned from these tests will be of great value to Canadian textile producers in their future planning of indoor and outdoor clothing for both military and civilian wear. The Canadian industry is already noted for the development of textiles uniquely adapted to the variations of the Canadian climate. Now they will have a new tool to assist them.

Actually, tests will be made to determine the thermal conductivity of clothing materials in still air and in winds up to 25 miles per hour. The scientific unit for measuring such insulation value is known as "centimeter per degree centigrade temperature difference," but for ease of expression the word "clo" has been coined.

The "clo" is roughly a measure of the amount of clothing insulation which a normal resting man finds comfortable in an environment of 70 degrees Fahrenheit with a relative humidity of 50 per cent and an air movement of 10 feet a minute. On this basis clothing can be apparatus tested and graded accordingly.

Athelstan

ATHELSTAN — The Southern Division of the United Church Women's Missionary Society met Friday afternoon for its July meeting at the home of Mrs. J. Graham. The usual Worship Service opening the meeting with "Tell Me About God," being the theme. The Treasurer reported that a comforter and babies clothing had been sent to the Supply Secretary in Montreal for distribution. The regular monthly treasury report from the Stewardship and Temperance were given. The study period for the day was an interesting one, entitled "Meet the People of the Bible." Mr. Alexander Grant of Nova Scotia said that in order to know the Island of (Trinidad) you have to travel around and meet the people, which has been his privilege and the subject of his paper.

The bride travelled in an oyster linen suit with black accessories. They left on a wedding trip through Vermont and points in Canada.

Out-of-town guests were from Canada, New Jersey, Connecticut and New York.

They will reside in Virginia Beach, Virginia.

Mrs. H. A. Hampson spent the past week visiting friends in Montreal.

Mr. and Mrs. Fred Johns, Mr. Thomas Johns, Westmount, and Mr. and Mrs. Allan Rowat, Verdun, were week-end guests of Mr. and Mrs. Archie Rowat.

Mr. and Mrs. K. Hamilton and Shirley were week-end guests of Mr. and Mrs. George Swanson, Burke.

Miss Margaret Riehl, Montreal, spent the week-end with her parents, Mr. and Mrs. E. A. Riehl.

Mr. and Mrs. Nelson Westover, Burke, daughter, Alburg, Vt., and Judith Rowat were Sunday guests of Mr. and Mrs. A. M. Rowat.

Mrs. L. D. Watson is spending the week at Alburg, Vt.

Mr. and Mrs. Charles Savoury and children of Verdun and Mr. and Mrs. Clifford Royer of Sherbrooke.

Mr. and Mrs. Fred Hutchings, Mrs. K. M. Chalmers, Mr. and Mrs. S. Milne of St. Lambert, were among those who attended the Penner-Fyles wedding on Saturday last at Orwell, Vt.

Recent visitors at the home of Mrs. Mildred Helm, of Glenelg, were Mrs. John Grant of Berkeley, Mich., Mr. J. G. McKee and daughters, Misses Frances and Mildred McKee, of Ottawa, Ont. Mr. and Mrs. James Hutchings are vacationing at the homes of Mr. and Mrs. D. Caldwell, Ottawa, Ont., and Mr. and Mrs. G. Jesty at Como, Que.

Miss Edith Sieeman of Montreal, has been the guest of Mr. and Mrs. O. Bouthillier for the past week.

WEDDING

PENNER - FYLES

The marriage of Miss Margaret Saunders Fyles, daughter of Mr. and Mrs. Lyndon Fyles, of Orwell, Vermont, U.S.A., to Raymond Clifford Penner, son of Mr. and Mrs. Theodore G. Penner, of Bakersburg, West Virginia, took place Saturday, July 21st at 4:30 p.m. at the brick church in Orwell, Vt. Reverend Mr. Peacock, performed the ceremony. Mrs. Young played the wedding music, assisted by Mrs. Atwood on the violin.

The bride was given in marriage by her father, wore an ankle length of white lace gown with a matching lace coat, with veil and shoulder veil. She carried a bouquet of yellow roses buds and blue delphinium. She was attended by her sister, Mrs. John Forbes of Wautagh, Long Island, N.Y. in a flowered or gandy of bronze shades, with yellow tulip nose veil and she carried yellow carnations and blue delphinium. Mr. Lyndon Fyles, Jr., brother of the bride, of Orwell, Vt., was the best man. The ushers were Mr. Cleveland Fyles, Orwell, and Mr. John Forbes of Wautagh, Long Island. The mother of the bride wore a gown of black and gold sheer, black picture hat and matching accessories.

The reception was held at the home of the bride's parents, Orwell, Vt. The bride travelled in an oyster linen suit with black accessories. They left on a wedding trip through Vermont and points in Canada.

Out-of-town guests were from Canada, New Jersey, Connecticut and New York.

They will reside in Virginia Beach, Virginia.

Mrs. H. A. Hampson spent the past week visiting friends in Montreal.

Mr. and Mrs. Fred Johns, Mr. Thomas Johns, Westmount, and Mr. and Mrs. Allan Rowat, Verdun, were week-end guests of Mr. and Mrs. Archie Rowat.

Mr. and Mrs. K. Hamilton and Shirley were week-end guests of Mr. and Mrs. George Swanson, Burke.

Miss Margaret Riehl, Montreal, spent the week-end with her parents, Mr. and Mrs. E. A. Riehl.

Mr. and Mrs. Nelson Westover, Burke, daughter, Alburg, Vt., and Judith Rowat were Sunday guests of Mr. and Mrs. A. M. Rowat.

Mrs. L. D. Watson is spending the week at Alburg, Vt.

Beauharnois

Mrs. J. W. Kilgour is spending some time with Miss Wales at St. Andrews East.

Mr. and Mrs. A. MacLachlan are vacationing at Sherbrooke.

Mrs. Arthur Sullivan and family spent a few days with Mr. and Mrs. E. Sullivan.

Mr. and Mrs. J. M. Anderson spent the week-end with Mr. and Mrs. R. B. Calhoun at their Laurentian Cottage.

Miss Eileen MacAlindon was a week-end guest of Miss Kay Graham.

Mr. D. C. Currie and Miss Lynn Currie spent a few days with Mrs. Ben Stidwill, of Cornwall, Ont.

Mr. and Mrs. R. Hauver and Kent are vacationing at Old Orchard Beach.

Council about receiving the Winter Roads grant for 1950-51 through the medium of J. G. Rennie, M.L.A., which the Board are very grateful for. A letter of thanks is to be sent Mr. Rennie for his interest in securing Government grants for winter road maintenance.

The Shell Oil Co. account for \$693.00 for brushkill was ordered paid, also Alpha Leblanc, \$141.00 for labour while applying the Brushkill mixture.

Personals

Mr. and Mrs. W. D. Fraser motored to Magog on Sunday to visit their daughter, Miss Doris Fraser, who is a patient in the hospital there. Doris is recovering from an attack of flu while at a Girls' Camp at Lake Orford.

The Dundee W.I. held a very successful card party and tea Thursday afternoon. Prize winners at cards were: 1st, Mrs. Chas. Dempsey; 2nd, Mrs. Hugh Cameron; consolation, Mrs. W. P. MacDonald. Tickets were sold on a chicken, the winner being Mrs. George Taylor.

Life Depends on Water

We can live without house or clothing for months, we can live without food for days, but to live without water is figured in terms of hours and minutes.

It is something we seldom think about. Water is common, easily accessible, and cheap. It is cheaper than dirt; you can buy water in our cities, delivered by tap to your bath and sink, for about a nickel a ton, while just ordinary dirt fill costs from a dollar up, and topsoil comes at around \$10.

It is only when a crisis occurs that we realize our dependence upon water. Even then we most likely take stopgap measures such

as prohibiting the watering of lawns or shutting off the supply for a few hours a day, or, as in New York recently, going without shaving on one day a week.

In a paragraph, here are ten of the most important uses of water, every one of which has been the basis of hundreds of volumes of technical writing: moisture in the air makes organic life possible; drinking water is our greatest physical need; plants, from lowly lichens in Niagara Gorge to giant Douglas firs of British Columbia, grow only where there is water; the sea is the home of fish and of other food used by men; steam

power and electricity depend on water; mechanical and chemical processes in industry need water; from earliest times, water has provided men with a means of transportation; water dictates the location of cities and farms; in the form of ice, water is used universally for cooling and preserving; water is the great determinant of political boundaries.

With so many demands upon it, there naturally is competition between one use and another. Sometimes municipal or provincial or federal governments must step in and establish priorities. They may prohibit street washing, or reduce withdrawal for electric power generating, or ration the supply to industries.

Our disregard of the importance of rainfall and water supply has become a dangerous influence in our civilization. It leads to faulty economic ideas, confuses our thinking about colonization and immigration, blinds us to the consequences of building bigger and bigger cities, and leads us into wrong judgments about the location and prospects of factories.

Water is benevolent, when properly managed, it can be productive and will support prosperous communities if its flow is wisely used. Our water problems are the outcome of our efforts to adapt our physical environment to our economic and social needs, without reckoning sufficiently on nature's unchanging ways.

By drying up marshes and lakes we have destroyed the homes and breeding grounds of useful water-fowl and fur-bearers. By clearing lake and stream banks of bushes we have exposed the water to sunshine, warming it so that it is spoiled for the best fish life. By denuding hillsides of trees we have increased water wastage and lowered the water level in great areas, making it impossible for the roots of forests to find moisture. By inadequate management, we run short of water flow for production of electricity, as in Ontario last year, and of water depth for navigation, as in the Lachine Canal last year.

There's Beauty in Water

We should not become so wrapped up in the utilitarian use of water that we forget its contribution to the beauty of our surroundings. Imagine the barrenness of a world without water.

Water is the source of all the changefulness we see in clouds and the reflector of wonderful shades of light and shadow. Water modelled our earth's surface, chiselled our Canadian mountain crags into grace, and at the appropriate season, throws a mantle of white around them. Every river that flows has something worthy to be loved, from the inch-deep streamlet beside a British Columbia mountain road to the mazy and silent march of the St. Lawrence as it sweeps around Anticosti Island.

Poets, philosophers and movie makers alike have chosen the banks of rivers on which to sit, to escape from everyday things into meditation about their high desires, and to stage drama amid beautiful settings. Everyone knows how much more pleasant a railway journey becomes when the train follows the course of a river. We have all seen how idlers in a town choose a bridge for their passing of time, or sit on the edge of a dock with their feet hanging over the water.

In the Beginning

All the water available to man is derived from the condensed vapour of the atmosphere. An important step forward in the science of hydrology (which is concerned with the properties and distribution of water) was taken in recent years. It was the recognition of the fact that the distribution and transport of water obey a fundamental law of equilibrium. This relationship is called the hydrologic cycle. It represents the balance of water that exists between (1) oceans, lakes, streams and underground waters, (2) the solid part of the earth, and (3) the atmosphere.

Water is ceaselessly circulating from the earth to the atmosphere and back to the earth again. Evaporating from ponds, streams, lakes, rivers and oceans, it forms water vapour in the air; this condenses to form clouds, and later falls back to the earth as rain.

Rain which falls on the land is disposed of in some or all of four ways: some evaporates directly, some is held in the surface soil and subsequently evaporated by plants, some filters through the top layers and passes to the rocky strata beneath, and some runs off into rivers and streams. The amount of rainfall available for the good of humanity is determined by

The Chateaugay, N.Y. Chamber of Commerce is co-operating with the merchants and businessmen of Chateaugay in sponsoring store-wide Dollar Days from July 25th to July 28th inclusive. Special advertisements appear in this issue of The Gleaner which proclaim the many bargains that each store is offering to the public.

The Canadian public is invited to visit Chateaugay, N.Y., during the four days of this bargain festival and for convenience the stores will be open on Friday and Saturday evenings. Special attention will be given to customers from across the border and it is hoped that Canadians will take full advantage of the opportunity that is being offered. (Advt.)

Howick

The regular meeting of the W.M.S. was held at the home of Mrs. Logan with Mrs. J. White and Mrs. C. E. Tait in charge. The meeting was opened with the Lord's Prayer repeated in unison. Mrs. C. E. Tait conducted the devotional period and Mrs. J. White read a very interesting chapter from the study book. The general business was discussed with Mrs. Marshall in charge. Three hymns were sung, played by Mrs. Logan. Mrs. McFarlane read a very interesting letter received from Miss Kennedy. The meeting was brought to a close by prayer. Very dainty refreshments were served by the ladies in charge.

Kilbain

KILBAIN—Mrs. Anna MacCaul and Margaret Malone, of Malone, N.Y., motored to Ogdensburg, N.Y., Alexandria Bay and Thousand Islands, on Sunday, July 15th, accompanied by Mr. and Mrs. Ed. Bannan, Huntingdon.

Mrs. Emmet McDonagh is home again after undergoing an operation in Ormstown Hospital, and she is feeling much improved.

Mrs. Annabel Windle is progressing satisfactorily after her operation in the Barrie Memorial Hospital.

Mr. and Mrs. James Curran spent the week-end with Mr. and Mrs. James Higgins and Mrs. Ed. Bannan.

Sorry to report that Mr. Tom O'Connor is not as well as his many friends would like to see him.

Mr. and Mrs. Harold McNicol,

the temperature, the nature of the land surface, vegetation, and other geographical factors.

That part of the rainfall that is absorbed by the ground is of very great importance. It sinks down until it joins the vast underground reservoir of water that exists under practically all of the earth's surface. It is this groundwater, as it is called, that feeds springs and wells and rivers. It furnishes water to plants by capillary action. It dissolves mineral matter out of the soil, thus supplying food to the plants.

The only way to get more water for our use is to intercept it in the run-off, and this is the prime feature of conservation. It is obvious that there is little use in crying for rain if we then allow it to wash across our fields and make its quickest way to the sea along some river bed. Man's limited comprehension has wasted millions of acres of land, caused sharp drops in crop yields, starved cattle, spread deserts over the face of the earth, and devastated industrial areas.

Canada's Water Supply

Some persons have expressed the belief that our water supply is decreasing. Their opinion is based upon such facts as were revealed in Ontario surveys a few years ago. Within the last one hundred years between 80 and 85 per cent of once permanently flowing streams have become temporary, drying up for at least part of a normal summer.

But our earth's water resource is permanent and indestructible; it is the amount available at a place or at a time that is changing. Demand is rising in response to population growth, industrial progress, and rising standard of living. Such developments as air conditioning and the spread of rural electrification create great new needs for water.

So, in spite of the fact that Canada is richly endowed with water resources, we have no room for complacency. We have 228,307 square miles of fresh water within our boundaries. Lake Superior, forming part of our southern border, is the largest body of fresh water in the world. We have great rivers, the Mackenzie, our longest. (Continued on page 8)

Brace and Brian

are spending holidays at the home of their parents, Mr. and Mrs. Hugh McNicol, Dundee.

Dewittville

On Tuesday evening, July 17th, Mrs. Clifford Winter, Mrs. Paul Forget and Miss Beatrice Cairns entertained at a linen shower at the home of Mrs. C. Winter, in honour of Miss Marjorie Clark, daughter of Mr. and Mrs. Earl Clark, of Peterborough, Ont., whose marriage will take place in September.

When Marjorie arrived, she was taken completely by surprise and was escorted to a chair, tastefully decorated with pink and white streamers. She was then presented with a basketful of attractively wrapped gifts, which upon opening, were passed around to be admired by all. Marjorie graciously thanked everyone for their kindness and invited all to visit her in her new home, if ever they had the occasion to be in Peterborough. Games were then played, after which delicious refreshments were served by the hostesses.

New Class Starting For Nursing Aides

Applications are now being considered for entrance to the fall class of the Montreal School for Nursing Aides. This class which will start on September 5th, will be the seventh to receive their training at that institution.

The course given at the School is of six months' duration, approximately three months of which are spent in the classroom and the remainder of the time in the wards of the Montreal Convalescent Hospital, where the School is situated. Class room and ward experience are closely correlated throughout the course. This is followed by a further six months' experience as salaried employee in the wards of one of the general hospitals, to which the Aide is assigned.

After receiving her certificate and pin, the Aide may continue to work in the hospital if she so desires or she may turn to one or other of the many openings which are within the scope of her experience. There is no question but what an interesting career and future are assured for the Nursing Aide, and requests for her services are many, and come from inside and outside of the city and province.

Two Extension Courses will be available to the graduates of the M.S.N.A. after September 1st, next. The course in the Convalescent and Non-Critically Ill Child given at the Children's Memorial Hospital was inaugurated last May 1st, and proved to be interesting and well worth while to the Aides who availed themselves of the opportunity of this added experience.

Another course which will start September 1st, will be given at St. Mary's Hospital, and will provide training and experience in the Post-Partum Care of Mother and Baby. Each of these courses has been made possible through the co-operation of the Director of Nursing and the teaching staff of the respective hospitals, both of which are associated with the M.S.N.A., and they are being given with the Aides widening the scope of interest and experience available to the Aides and of equipping her for a broader field of usefulness to the Community.

The courses are each of two months' duration. They have been specially arranged so that the teaching and practical experience are on a level with the instruction being given at the parent school, and are available only to Graduates of the Montreal School for Nursing Aides. Further information may be obtained from—The Director, Montreal School for Nursing Aides, 3001 Kent Avenue, Montreal. Telephone No. EX. 3661.

New Edition Handbook on Facts About Canada

That eight of Canada's ten provinces border on salt water is one of the little realized facts about Canada pointed out in the new issue of Quick Canadian Facts, the handbook of facts about this country. "We put that item of unusual information into the new issue because we once had a reader call long distance from Winnipeg to Toronto to confirm the fact and win a wager," says R. L. Gough, one of the publication's editors.

In addition to a timely quiz on Canada and Canadian affairs, the new issue carries several special feature articles, one of which describes the life of our Eskimos and calls these far-north citizens the "happiest Canadians." The Eskimos, says the article, are a people who have no chiefs, soldiers, police or servants. Largely unchanged by civilization, they are about the happiest and healthiest people on earth.

As with former issues of the annual pocket book, the main contents of the 1951-1952 edition of Quick Canadian Facts is a compilation of up-to-date facts about the Dominion, the provinces, government, trade and industry, natural resources, the population, finance and taxes, and all significant aspects of Canadian life. Distributed through bookstores and newsstands, the new issue of Quick Canadian Facts is this week released across the country.

Beauharnois

BEAUHARNOIS—Congratulations to Mr. Jack Spencer, who shared the singles title with Miss Pat Macken of the Montreal Club, played at Markland, Sunday. Displaying a very strong backhand, Jack defeated Jean Richer in straight sets. The three sets were classically fought, Jack with brilliant long drives and Richer with clean, short, cross-court drives. Jack reached one final Saturday by defeating to drop, Val Haut. Pat Richer who took former Danis Cup winner George Robinson Friday, won with considerable ease over Colin Maas.

Mr. C. Sundstrum of Helsinki, Finland, stopped over from his flight to visit with Mr. and Mrs. Kokko prior to flying to Vancouver to join her son.

Mr. and Mrs. Toby Novell, Montreal were guests of Mr. and Mrs. A. Kokko when they celebrated their wedding anniversary on Tuesday.

Mr. and Mrs. Archie Cameron, Mrs. C. Budge and Miss B. Budge were guests of Miss B. G. Kilgour during the week.

BOY, 10, CRAWLS UNDER MOVING FREIGHT TRAIN TO SAVE CHUM

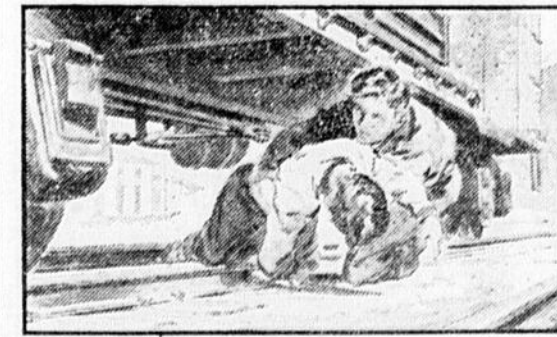

André Fiola, of Jonquière, Que., risks his life in daring rescue of unconscious boy

1. Young Eddie Simard, aged 7, was playing alone on a large company's railway siding in Jonquière. His thoughts must have been miles away, because he was quite unaware of a freight train approaching. The train was also backing up . . . and the sound of the engine didn't reach him — or didn't bother him. Suddenly he was struck by the rear car and knocked unconscious.

2. Everything had happened so quickly that no one noticed the plight of the unfortunate youngster — no one, that is, except 10-year-old André Fiola. He was horrified at the sight of Eddie being knocked down . . . but when he saw the little figure crumple in a heap and then begin to disappear under the freight car, André leaped into action. At top speed he raced to the railway tracks.

3. Luckily the freight was moving very slowly. But even so it took great courage and presence of mind for André to get under the moving car and drag the unconscious boy to safety. The bravery of this young Jonquière boy and his unselfishness in risking his life to save a friend merit the praise of every Canadian. We are proud to pay him tribute through the presentation of The Dow Award.

THE DOW AWARD is a citation presented for acts of outstanding heroism and includes, as a tangible expression of appreciation, a \$100 Canada Savings Bond. The Dow Award Committee, a group of editors of leading Canadian daily newspapers, selects Award winners from recommendations made by a nationally known news organization.

Huntingdon Locals

Remainder of Mill Employees Enjoying Vacations

Pitex Limited employees are in the middle of the last week of their vacations, while Popular Rugs and Huntingdon Woolen Mills still have a week and a half ahead of them. They started their vacations on July 20 and will go back to work on August 6th.

During the past few weeks much has been read and heard with regard to traffic regulations in the Town of Huntingdon. "All is well that ends well" is also familiar to one's hearing, and no doubt the town fathers and representatives of a traffic light company will solve the problem in the near future and the result will be safer streets for pedestrians and motorists alike.

In the meantime, hats off to the road committee for erecting "stop signs" at the east and west ends of Fairview Road, at the corner of Henderson and the intersection of Athelstan Road and Lorne Avenue, respectively. These corners were ever-increasing danger zones. Now that the primary safety measure has

been taken, it would seem advisable to follow up and paint in the white lines as in the other parts of town.

This street, being one of the best maintained, is subjected to much heavy and fast traffic. It is indeed deplorable that the parents residing on this street do not realize that sooner or later grief will strike if the children are allowed to use the street as a playground. It is not unusual to see a car come to a dead halt after the motorist has sounded his horn to no avail. As there appears to be plenty of space in the vicinity — and even a planned playground — it would seem that the street is not the safest place to play.

If the weatherman is being unkind to the farmers by causing so much rain that having can't be done, he is at least keeping lawns green and thriving. One cannot help but remember that two years ago many of these lawns looked fairly brown and burned towards the end of July. The farmers, however, have had enough — with fields of hay being

ready to cut and hauled to barns — or baled in the fields — for quite some while. It is high time the weatherman turned off the rain and allowed the hay to dry long enough to get the mows filled.

Feted on Anniversary
Friends and neighbours dropped in at the home of Mr. and Mrs. Melvin Clark recently, it being their 35th wedding anniversary. On behalf of those present, Mr. Leslie Hayter presented them with a beautiful tri-light floor lamp and two end tables. An address was read by Mrs. Roy Simpson, after which the couple thanked everyone for their kindness. Refreshments were served and a pleasant evening followed.

Donations to County Hospital
The Huntingdon County Hospital wishes to acknowledge with thanks a donation of \$16.75 from the Maple Leaf Garage.

Schenleys of Valleyfield were hosts at the Chateau, Huntingdon, to all publicity agents connected with the Regatta held in Valleyfield, on Saturday and Sunday. Altogether a total of 45 people were entertained by this hospitable company.

A fire occurred at the entrance to the Gail-Lounge at the Chateau, on Sunday night at about 11:30. The fire was in the canopy and was caused by a short circuit in the Neon lighting system. Only slight damage was caused and the fire department soon answered the call.

Johann Wassink better known to many as "Joe", who was employed at Tedstone's Bakery and Restaurant for over a year, left Huntingdon and is now on his way to his native Holland.

Joe received word a few weeks ago that his father is in poor health and reluctantly decided to leave Huntingdon, where he has enjoyed living and where he counts many friends. He expects to spend a couple of months at his home near Amsterdam and, if conditions permit, to return to Canada.

Mr. and Mrs. R. Bonney and Miss G. Lowenfeld bicycled from Montreal to Huntingdon to spend the week-end as guests of Miss Isabel Teller.

Mr. and Mrs. George Dixon, accompanied by Mr. and Mrs. Harold Bickford, Prince Street, Huntingdon, returned on Saturday, July 21st, after spending a week's vacation, during which time they motored to Kennebunk Beach, Maine, U.S.A.

The many friends of Miss Norma Rorison, nurse at the Huntingdon County Hospital, will be sorry to learn that she is a pleurisy patient in the Royal Victoria Hospital, Montreal.

Wm. Stemp, Sr., Charles and Mrs. Stemp and their sons Robert and Donald, all of Coppercliff, Ont., are visiting Frank and Mrs. Napier, Clyde Ave. Wm. Stemp being a brother-in-law and Charles a nephew, of Mrs. Napier.

POULTRY EXPERTS VISIT TURKEYS DE LUXE REGD., AT DEWITTVILLE

The Gleaner photographer took this fine group picture when the Quebec Poultry Industry Committee visited Turkeys De Luxe Regd., at Dewittville recently.

Front row: Prof. W. A. Maw, Macdonald College; Gaston Pilon, Dept. of Agriculture; J. S. Hamilton, Pioneer Feeds Ltd.; J. P. R. Cristel, Agricultural Dept. Shawinigan Water & Power Co.; Roger Paiment, Dept. of Agriculture; Poultry Inspector; Jacques De Brouin, President Quebec Poultry Industry Committee.

Back row: J. Huysman, Editor "La Ferme"; F. Semetlin, L'Abord a Plouffe; Prof. L. Crevier, Ste. Marthe Agricultural College; J. U. Pilon, Dept. of Agriculture, Quebec; Noe Henault, Poultry Inspector, Dept. of Agriculture, Montreal; Prof. Ad. Gratton, Oka Agricultural Institute; Mrs. Dorothy Catto; Noel Catto.

Grade X Results
Ormsdown High School
ORMSTOWN — Promotion list: Grade X — Sheila Beattie, Heather Davidson, Ruth English, Paul Forbes, Thomas Gartshore, Marion Greer, Eileen Imhoff.

Mrs. L. F. Beachell, Ottawa, Ont.; Mrs. B. Brownrigg and Mr. and Mrs. Wm. MacFarlane and family of St. Johns, Que.

Mr. and Mrs. Bill Fewster and Penny, of Lacolle, were week-end guests of Mr. and Mrs. Ray Reddick. Recent guests at the same home were Mr. and Mrs. E. S. Jackson, Montreal South, and Miss M. M. Whyte of Montreal.

The Huntingdon County Hospital, Huntingdon, Que., has received and acknowledged a \$10-membership from Mr. Wm. Goodall.

Mr. and Mrs. M. Cole, Harry and Joan, Mrs. Jean Minaker of Kingston, Ont., were week-end guests of Mr. and Mrs. Allan Crutchfield. On returning home they were accompanied by Shirley Cole who spent the past few weeks with her grandparents.

Mr. and Mrs. Sam Herdman were Sunday afternoon guests of their cousins, Mr. and Mrs. Pat Lockery, Malone, N.Y.

H.H.S. Grade X Class Leaders Announced
Mr. J. B. Macmillan, Principal of Huntingdon High School, called The Gleaner this week to inform of results he had received with regard to results in Grade X final examinations. The full report is not available and will not be until those of Grade XI are released, but the class leaders are given as follows: Marilyn Martin 78.8, Ainsley Helm 78.2 and David Spencer 74.3. These marks are based on the work of the term as well as on the final examinations. Each student will receive an account of the marks he or she has made in each subject.

St. Paul's Evening Auxiliary.
The monthly meeting of the Young Women's Evening Auxiliary of the United Church was held on July 21st at the home of Mrs. John Wallace. The president, Mrs. Sault, presided and conducted the meeting. The devotional period was led by Mrs. E. McDougall. It was decided that instead of a regular meeting next month, the young ladies would spend a social evening together. After the business period refreshments were served by Mrs. D. Lang, Mrs. J. White, and Mrs. W. Hamilton.

Barrie Memorial Hospital.
Ormsdown, Que., has received and acknowledged the following \$10 memberships: Miss Maude Welch, Ormsdown; Mr. W. G. Allen, Aubrey; Miss Nettie McCormick, Ormsdown. The following donations were also received: Mrs. John Wallace, Charles E. Frost and Co., Montreal, \$25.00 and a friend, \$5.00, a flag from Mr. James Moffat, Ormsdown.

On July 18, the C.G.I.T. group from Franklin under the leadership of Mrs. Manning made surgical dressings and on July 19, Mrs. Reddick was convener of the sewing group. Mrs. Wallace Logan, Howick, made 1 dozen draw sheets and Mrs. Smith gave a donation of flowers in memory of Mrs. Taylor.

Tatehurst
TATEHURST — Miss Margaret Phillips, of Ottawa, spent the week-end with Miss Heather Hooker. W.M.S. at Mrs. John Gruer's.

The Upper and Lower Ormsdown Branch of the Presbyterian W.M.S. was entertained on Thursday afternoon at the home of Mrs. John Gruer. Considerable work was done on a quilt during the afternoon and some quilt blocks made. A delicious supper was served to fifteen ladies by the hostess assisted by Mrs. Arthur Henderson and Miss Margaret McWhinnie.

Master Lorne Robert is spending a holiday with Mr. and Mrs. John Shapcott, Morin Heights.

Mr. and Mrs. R. K. Rankin of Saranac Lake, N.Y., Mr. and Mrs. A. A. Smithers of Notre Dame de Grace, Mr. and Mrs. E. H. Orr of Riverfield and Mr. and Mrs. W. J. McGerrigle of Maple Grove, visited on Sunday with Mr. and Mrs. R. L. McGerrigle and Beryl.

St. Louis Cardinals Tryout Camp Program

VALLEYFIELD — "Are there any potential major league ball players here?" is the question that veteran Red Bird scouts Frank Crespi and Joe Cusick will be asking themselves when the St. Louis Cardinals conduct their tryout camp at Valleyfield Fairgrounds in Valleyfield on August 2, 3 and 4.

In the tryout camp at Valleyfield, which is one of many camps conducted each summer by the Cardinals, Crespi and Cusick will be looking for the natural ability in the ball players which can be developed into the smooth perfection which is required in the majors.

They will watch each aspirant go through his paces, noting particularly his fielding, throwing, hitting and base-running. Those who are adjudged by the scouts to be future big league material will be signed to one of the 15 teams in the famous Cardinal farm system, where they will develop through the top-notch coaching and invaluable experience of the minors, into veteran baseball players. The best of these will become the major league stars of tomorrow, when they will be more than amply rewarded for their previously expended effort.

The tryouts will begin at 11 a.m. each day for all interested between the ages of 17 and 23. Those who attend are asked to bring their own shoes and gloves, and uniforms if possible. Expenses incident to attending the camp will be refunded to all players who are signed to a contract by the Red Bird scouts.

Softball News
Merchants 10 — Franklin 8
On Friday night at Ormsdown the Merchants won their 5th game of the season. The Merchants came from behind in the fourth inning to tie up the game at 5 all and scored five runs in the sixth inning to cover 10 to 5. Franklin came back strong in the seventh after two men were out, scoring three runs, but Brooks made a nice catch of Glen Waller's line drive to end the game. Derespigny and Monique hit home runs for the Merchants and Jimmie Leahy hit one for Franklin. Derespigny led the Merchants batters with three hits, including a triple and a home run. The three Stars of the game were Brooks, Jimmie Leahy and Derespigny.

Softball Game at Fair Grounds
On Thursday night, Thursday, July 26th a Softball Game will take place at the Huntingdon Fair Grounds between the Huntingdon Merchants and Rouse's Point, N.Y. The Americans play under rules which are a little different from ours. Each of the players on the team is allowed to wear a glove and some fine plays can be made in cases where a barehanded fielder would not be able to hold the ball.

The Rouse's Point team have not lost any of the games they have played this year and they hope to continue their winning ways tomorrow night.

Johnny Marks, the star pitcher of this team is a former Snowdon Pastball League player who played in Montreal up until this year. Buddy French, a former resident of Huntingdon and Bill Fewster, Lacolle, are other members of the team who are well known around this district.

Every sports-minded person in our community should come out and give this game their support, so the future will bring bigger and better sports attractions to our town.

Softball Double-Header
On Monday night, July 23rd, before the largest crowd of the season, the Huntingdon Merchants whipped the Howick 10-4. Monk Monique led the Merchants to victory with a home run, a triple and a single in five of the Merchants' runs and he scored two himself. Merrill Smith pitched a steady game, allowing 9 hits and striking out 8. He had two hits in three trips to the plate, recovering three runs to help along the cause.

On the defensive side, McCallum made some perfect catches near second base that dazzled the crowd. He caught one short which looked like a sure hit and another one he pulled in out in right field. For Howick, Oakley McRae pitched a good game, allowing 9 hits and striking out 8. The three stars of the game were Monique, McCallum and Oakley McRae.

The Merchants' leading batters this week are Monique 500, J. Proudfoot 406, L. Derespigny 387. Thanks are extended to George Renaud and Sylvia Wattie for their help.

The Huntingdon Girls defeated Howick Girls 16-7 in the double header played at Huntingdon Fair Grounds on Monday, July 23, at 7 p.m. This was an exhibition game leading up to the League game between Huntingdon Merchants and Howick Boys. Bernice Goldie, playing for Howick Girls, hit a home run and several other good hits were made. The attendance at this game was exceptionally good and tends to lend encouragement to both the boys and the girls. It is hoped that the attendance will be similar at the games to be played in the near future.

Allan's Corners

Mrs. M. McIntyre Celebrates 90th Birthday.

ALLAN'S CORNERS — On Tuesday, July 24th, Mrs. M. McIntyre, Sr., celebrated her 90th birthday. She was very active and has been enjoying good health until recently, but is recovering speedily from her illness.

Mrs. McIntyre enjoys accompanying her son and daughter-in-law to her former home in the country and has missed only a few days since she returned.

Her many friends at "the Corners" join in wishing her a happy birthday with many more years of good health.

Mrs. Helen Peddie returned home on Tuesday afternoon after the past ten days at the home of Mr. and Mrs. Wesley Peddie and family in Cornwall.

During her visit she accompanied the Peddies on a boat trip through the Thousand Islands.

Mrs. Norman MacLeish and Ann, who accompanied Mrs. Gwen Lough to Toronto, returned home on Tuesday. While there they visited the Falls at Niagara and other points of interest.

Mr. and Mrs. Sidney Schofield, accompanied by Mr. William Shirley, motored to Noranda to visit their daughter Joan and family. They also spent a few days with their other daughter, Irene, and family in Ottawa.

They plan to spend the remainder of their holiday at their summer home here.

Mr. and Mrs. Hugh Goodall and David of Beauharnois, spent Wednesday with their parents, Mr. and Mrs. Jim Cullen and family.

Mr. and Mrs. Jack Dooling and Kevin visited on Sunday with Mr. and Mrs. T. J. Graham in Athelstan.

Aubrey-Riverfield
AUBREY-RIVERFIELD — The Riverfield W.M.S. Auxiliary was held in the Church Hall on Tuesday afternoon, July 17th, with the Mission Band in charge of the program. The meeting opened by repeating the 23rd Psalm in unison, followed by hymn 683, "When Mothers of Salem Their Children Brought to Jesus". The devotional period was taken by Kay Wylie, reading from 2nd chapter of John, and explaining the parable of the loaves and fishes. Myrna Kipling led in prayer, followed by the Roll Call, which was responded to by the text word "Shepherd". One verse of the hymn "The Wise Man Bring Their Learning" was then sung, and Rodney Reddick received the offering, and the offertory prayer was repeated in unison. Carolyn Wylie sang very nicely "Father, We Thank Thee". Mrs. Black read a short story entitled "Hello", which the children enjoyed very much. The closing hymn was "Jesus Loves Me", and Norma Robertson gave the closing prayer. Refreshments were served in the basement by the W.M.S. ladies.

Mr. and Mrs. Charnley, Mr. and Mrs. Lard, Sr. and Mr. and Mrs. Jimmie Lard and little son, of Montreal, were Sunday guests of Mr. and Mrs. Chester Orr.

In Memoriam

HAMILTON—In loving memory of dear Grandmother. Deep in our hearts your memory is kept. We loved you too deeply to ever forget. Ever loved and remembered by
Jane, Doris and Glen.

HAMILTON—In loving memory of our dear Mother, who passed away July 19th, 1950—Dearest to us than words can tell. Was the mother we lost and loved so well. Deep in our hearts your memory is kept. We smile with the world but never forget. We miss your voice and loving smile. And all the things that make life worthwhile. Wherever we go, whatever we do, Always, dear Mother, we are thinking of you. Sadly missed by
Her Family.

PELLETIER—In loving memory of a dear husband and Dad, Frederick Pelletier, who passed away July 25th, 1947. Always remembered by
His Wife and Family.

Cards of Thanks

I wish to extend my sincere thanks to Doctors McCrimmon and Cameron, also nurses and staff of Huntingdon County Hospital, for their many acts of kindness to me during my stay in hospital; also my relatives and friends who so kindly remembered me with visits, flowers, fruit, chocolates, gifts, birthday cards and letters; the United Church W.A. for a lovely box of fruit and especially Rev. Knowles for his kind visits. All these kindnesses were deeply appreciated by me.
Helena M. Gardner.

Our sincere thanks to all who extended comforting sympathy and help in our recent sorrow; for the floral offerings and other kindnesses, we are deeply grateful.
The family of the late Mrs. Joseph T. Stevenson.

To all kind friends who attended the burial service, for kind sympathy extended to us, and also to the gentlemen who so kindly acted as pall-bearers for our beloved mother, Mrs. Robert Logan, our very sincere and grateful thanks.
(signed) "The Family".

We wish to offer our thanks to Reverend Fathers Pigeon and G. Quenneville, to Doctors McCrimmon and Cameron, and to all who have so generously given their assistance during the recent illness of the late Mr. James McDonagh; also sincere thanks to those who have offered their sympathy and have sent Mass cards and flowers at the time of his death.
Mr. and Mrs. John McDonagh, Mr. and Mrs. Joseph Ryan.

We wish to extend sincere thanks and appreciation for the acts of kindness, messages of sympathy and beautiful flowers received from relatives, friends and neighbours during our recent sad bereavement.
Mrs. Shaw and family.

I wish to thank Dr. Cameron and doctors and nurses of the Barrie Memorial Hospital for their kind attention while I was a patient; also my sincere thanks to all my friends and acquaintances who made my stay so pleasant by visits, letters, cards and flowers.
Helen Lindsay, Atholstan

ORMSTOWN W.I. MEMBERS GATHER FOR A PICNIC

The members of the Ormstown Women's Institute gathered at the summer home of Mr. and Mrs. Alan Hooker for their July meeting which was held in the form of a picnic and business meeting. A good attendance was on hand as will be noticed from the above photograph of the group.

Franklin Centre

FRANKLIN CENTRE—The christening of Janet Susan, baby daughter of Dr. and Mrs. Walter Gow, of Montreal, took place on Sunday afternoon at the home of the maternal grandparents, Mr. and Mrs. James Watt, Covey Hill. Rev. K. E. Sullivan officiated in the presence of 20 relatives and friends.

Following the ceremony, supper was served, a special feature being a beautifully preserved portion of the bride's cake of two years ago.

Guests from Montreal for the occasion were Miss Shirley Wellington, Miss Olive Watt and Mr. Robert Watt.

Mr. Gordon McLaren from Petersburg, Florida, motored (via motorcycle) to the Manning home the past week and is spending some time with his uncle and aunt.

Mr. and Mrs. E. Baker, Teddy and Wendy of Montreal, are spending a few days with their uncle and aunt, Mr. and Mrs. Willard Vaincourt.

Mr. and Mrs. James Wilson, Ross, Patricia and Beverly of Beauharnois, were the guests of their uncle and aunt, Mr. and Mrs. John H. Rowe for a few days the past week.

Mr. and Mrs. Lewis Parham of Haverhill, Mass., is spending a few days with his uncle and aunt, Mr. and Mrs. Willard Vaincourt.

Mr. and Mrs. Willard Vaincourt, accompanied by the Misses Joan Murray, Elaine Amyot, Neta Heatherton and Olive Stewart of MacDonald College, spent the weekend at the home of Mr. and Mrs. Willard Vaincourt.

Mr. and Mrs. Mitchell and Mr. and Mrs. Pomeroy of Montreal, are spending their vacation at the home of Mr. and Mrs. Ross Dunn.

Mr. and Mrs. James Manning, Dorothy, Margaret, Miss Jean Manning and Mr. Gordon McLaren, spent Sunday with Mr. Keith Edwards at Alburt, Vt.

Sorry to report that Mrs. R. French, of Dundee, formerly of this community, has been a patient in the Barrie Memorial Hospital for the past three weeks. Mrs. French expects to be discharged in a few days for future treatments. Our best wishes go with her for a speedy and permanent recovery.

Mr. and Mrs. Wesley Stevenson and Mrs. Leeds and son Teddy of Toronto, are spending a few days at the home of Mr. and Mrs. Harry Money Penny.

Miss Norma Vaincourt is spending her vacation with her parents, Mr. and Mrs. Willard Vaincourt.

Master Stewart Taylor of St. Lambert, is spending a couple of weeks' vacation with his friend, Kenneth Dunn, at the home of Mr. and Mrs. Ross Dunn.

A recent week-end guest of Mr. and Mrs. John H. Rowe, was Mr. Rowe's sister, Mrs. Annie Wilson of Montreal West.

Mr. and Mrs. Herbert Sherritt, of Parkhill, Ont., formerly of Hanna, Alta., and their son-in-law and daughter, Mr. and Mrs. Russell Bell, from London, Ont., motored to the Harvey home, arriving Monday evening, leaving Wednesday forenoon, to visit relatives on their homeward trip. The Sherritt family and the Harvey family were close neighbours when they lived on the Western Prairie near Hanna, Alta.

On Tuesday afternoon, Mrs. Harvey and her guests visited with Mr. Jerry Dunn and sisters, Mrs. Gamble and Miss Margaret Dunn, at Atholstan, Que.

Errors and Omissions
In Red Cross Report

Some omissions and a correction have been handed to The Gleaner in connection with the recent report on the Red Cross Campaign in Huntingdon.

The name of the Municipality of Dundee was omitted and the amount of the contribution, \$15.00, A. H. Fraser was the collector.

The name of the Huntingdon Town list report of Mr. W. E. S. McNair was left out as having collected \$29.50. Mrs. Ross McLeod was reported as having collected \$29.50, whereas this should have been \$50.00.

Obituary
The late James McDonagh

Mr. James McDonagh, Huntingdon, Que., died at the home of his brother John, on July 14, 1951.

His funeral Mass was sung by Reverend Father Marcell at St. Joseph's Church, Huntingdon, on July 17, 1951.

The pall-bearers were his nephews, Messrs. Michael Burke, William Burke, Hugh Cosgrove, Edward Cosgrove, Ayton McDonagh and Emmet McDonagh.

He leaves to mourn his loss two brothers, John and Sylvester of Huntingdon, and several nieces and nephews.

How Communists Work

(Continued from page 1)

welfare of the worker, but to interfere with the capitalist structure.

Canada has an organized Party. Defence which will not hesitate to kill if necessary and they have various methods of performing such duties.

Canadian citizens are taken to Russia for training and screening by the Russian Secret Police. John X went through this training and was a major in the Russian Army.

In Russia he said they have every kind of rubber stamp that is ever made and can make out any kind of paper even to a dollar bill. So if a citizen works that it is hard to discern any passes for the genuine article. He gave several examples of this and how several passports are used to get from one country to another. As soon as these have served their purpose they are destroyed in such manner as to leave no trace. The Russians even supply their agents with a wife, who is in reality a trained person to keep a check on her mate. He had one, but he managed to get rid of her.

He then went to show several articles that are used to do deeds of sabotage and to liquidate those who are no longer required or have acted against the party. A very simple mixture could cause a fire when only moisture or water is added to it. Cigarettes are loaded with a high explosive which will blow the head of a person. Fountain pens are loaded in a similar way. Baskets of fruit are sent to a person which may also be loaded to explode at a touch of any piece of the fruit.

There are three thousand trained saboteurs in Canada and when you realize what damage one man can do with such simple and inexpensive things, think what these three thousand could do if let loose.

The speaker appealed to all Canadian citizens to be forever on their guard and to inform their police of any suspicious happenings in order that they can be fully investigated. The man in the store may be a Communist and you may think nothing of it, but this man may be most dangerous when the time should come for him to do his work.

Rotarian Gilbert McMillan thanked the speaker and said that he thought that everyone present had learned much of value. All should be constantly on the alert until this menace is completely wiped out.

Valleyfield Regatta
(Continued from page 1)

hour over the 2½ mile course. He barely missed out by Niagara Falls, Ont.

Ed Endres, of Grand Island, N.Y., took top honours in the "D and E" racing inboard runabouts, completing the 2½ mile course in 6.65 minutes and averaging 49.113 miles an hour in the two heats.

The dance on Saturday evening was attended by some 1000 people from Valleyfield and surroundings. The committee in charge reported that this organization was the most successful ever staged since regattas have been organized in Valleyfield.

On Sunday at noon members of the press from Montreal Valleyfield and surroundings were the guests of Canadian Schenley Limited at the Coco-Cola plant in Valleyfield where they were served an appetizing brunch. Present were officials of the Schenley headed by Mr. Clifford Foley, manager of Schenley plant at Valleyfield. Mr. P. Lovejoy, of the New York Times, loudly congratulated Valleyfield for staging such an impressive aquatic event which "is certainly the most important and interesting I have ever seen."

Kawartha Ski school artists, featuring Canadian champions, performed before thousands on Saturday and Sunday evenings to the great delight of waterski enthusiasts. The drawing of the electric refrigerator took place on Sunday evening at the conclusion of a musical program featuring the Union Musical band under the direction of Mr. Henri Dumouchel. Other local artists also were heard during this musical show. The winner of the refrigerator is holder of tag number 1554. The prize has not yet been claimed. The winner is asked to contact Messrs. Gerald Boyer or Marcel Leduc.

Fireworks display, organized by the Junior and Senior Chambers of Commerce of Valleyfield, concluded this most successful regatta weekend at Valleyfield.

Members of the Valleyfield Boating Club, organizers and sponsors of the annual regatta at Valleyfield were loud in their praise of all who had contributed to make this event such an outstanding success. "Boats in all classes were very numerous, the fans enthusiastic and their cooperation was perfect. This is what makes or breaks a regatta." These remarks were made by Commodore Amund, Club President and President Georges-André Meloeche to the public on Sunday evening at 10.00 watched the display in Park Sauvé.

Bulge in Wall of New Notre Dame School Repaired

Moisture Behind Brickwork is Revealed to Be Cause of Trouble

Considerable talk has taken place about a bulge in the brick-work in the east end wall of the new Notre Dame School, but the damage

has now been repaired and everything is once more in good condition.

The bulge was about five feet from the top and was about thirty feet in width. The architect and the engineer visited the building and examined it, but could not make a report until the portion was taken down. This could not be done until the school closed. The contractors arrived the past week and took down the part in question, which is now replaced.

This wall is 12 inches thick and the bulging was caused by moisture getting in at the back of the brick and freezing in the winter time. It was discovered that the moisture got in through the flashing on the roof. The roofers were called and the flashing has been replaced after which the work was completed.

The contractors are now working on completing several details that were previously left unfinished. By the time the children are ready to return to school the building will be in readiness.

By law the contractor and the architect are jointly and severally responsible for the building for a period of five years.

Winner of Maple Leaf Grange Baking Contest

Miss Patricia Irving was the winner of the Chocolate Cake Baking Contest held at the Maple Leaf Grange. Second prize went to Miss Mae Montgomery and third to Mrs. Grant Whyte. The judges were Mrs. William Badgley, Mrs. R. A. Arthur and Mrs. D. H. Brown. Miss Irving will be eligible to compete in the Pomona Baking Contest to be held in Malton in September. The prizes consisted of baking materials, flour, sugar, chocolate, etc.

An entertaining programme was presented by the Chairman, Chester Pease. Saxophone solos by Bobby Olmstead; vocal duets by Mrs. Chas. Fraser and Mrs. Eva McPherson, accompanied by Mrs. Isabel Elder. A reading by Mrs. Cora Cameron, "Wider Green's Last Words," Highland Fling and Step Dances by the Baird Sisters, to violin music of Clarence French. Recitation by Fred Donnelly and a "Country Ballet" by Leland Thornton was followed by Square Dancing.

Chocolate cake, ice cream and coffee were served to the large gathering. A vote of thanks to Mrs. Chas. Gavin, Chairman of Service and Hospitality Committee, Mrs. Jessie MacDonald and Mrs. A. Brathwaite and the artists contributing to the programme, moved by Mrs. B. A. Rankin, Lecturer, was heartily applauded.

Correction In Report Of L. W. Lewis Accident

Certain facts in the accident involving Mr. and Mrs. L. W. Lewis, Rockburn, Que., were not quite as reported in the last issue of The Gleaner.

The Gleaner has been informed by Mr. Lewis, who has now returned home from the hospital that he did not pull out from behind a truck. One truck was parked on the opposite side of the road and another truck was coming from Montreal toward Huntingdon. Mr. Lewis was proceeding along in the direction of Montreal. The oncoming truck failed to stop and Mr. Lewis crowded his station wagon into the ditch in an effort to avoid the truck, but it swerved into the ditch also. Damage was done to the right side of Mr. Lewis' car and also to the right side of the truck. It was reported that it was a Willis station wagon Mr. Lewis was driving, instead it was an Austin station wagon. The actual collision occurred right in the ditch. It is hoped that this report will clear up any misunderstanding that may exist.

The Cadet Corps. Along with his advanced technical subject Cadet-Midshipman Palatini is completing a liberal academic curriculum designed to give him a well-rounded educational background.

Besides the academic program, Cadet-Midshipman Palatini was actively engaged in various school activities, including the Propeller Club, the Society of Naval Architects and Marine Engineers, the Marlinespike Seamanship Club and was a member of the Regimental Information Service.

Upon graduation, Cadet-Midshipman Palatini will receive his license as Third Officer, a Bachelor of Science Degree, and concurrent commissions as Ensign, United States Naval Reserve and United States Maritime Service.

The public is cordially invited to be present at the official opening of the new station on Thursday, July 26th, and enjoy the service and special attention that will be given at all times. During the alterations and renovations the station has been operating as usual, but things will return to normal after the official opening. Whether you want to buy or not you are invited to look over this new service station in Huntingdon.

Champlain Service
(Continued from page 1)

The color scheme of the service station is a colorful combination of orange, blue and white, and quite attractive. The windows are set in aluminum frames and provide plenty of light for the showroom and a clear view all around the station. Washrooms are available for the travelling public and equipped in the latest style. The finish is in white stucco while the outside space is covered in granite-chips. Later when the ground has settled sufficiently, the space around the station will be paved. On the front of the building the name Champlain appears in red letters.

The public is cordially invited to be present at the official opening of the new station on Thursday, July 26th, and enjoy the service and special attention that will be given at all times. During the alterations and renovations the station has been operating as usual, but things will return to normal after the official opening. Whether you want to buy or not you are invited to look over this new service station in Huntingdon.

THE BELL TELEPHONE COMPANY OF CANADA

VOICE frequency amplifiers have been approved in use until today amplifiers that would have filled a whole building now can be put in a single room. Result: important savings in building costs.

TO GIVE YOU BIGGER AND BIGGER VALUE

High Beef Prices Bring Down Butter Output, Put Up Price

Production Down 8,000 Lbs. in First Five Months Of 1951 — May Import to Meet Demands

OTTAWA (CP)—Canada has entered the flush period of the summer butter-production season, but for the first time in three years, no surplus butter has reached government warehouses.

Moreover, stockpiling of butter by commercial interests to care for next winter's stock production period has dropped to 50 per cent of last year's level. The shortage last winter was estimated at roughly 10,000,000 pounds.

A direct reversal of the trend in 1949 and 1950, current development may have some bearing on Canada's stocks of butter during the off-season winter months, an agriculture department official said recently.

By this time in 1949, the government had accumulated about 25,000,000 pounds of surplus butter.

Last year, in July, the government had about 20,000,000 pounds and ended up in the fall with a total of about 35,000,000.

The problem this year, said the official, was initially one of lower production caused partly by the high price of beef.

Farmers, instead of maintaining large dairy herds, were selling some of their stock on the beef market. Butter production, in the first five months of 1951, had dropped to 70,000,000 pounds, down from 78,000,000 in the corresponding period last year.

Prices Show Increase
Consequently, butter prices have been above the government's price-support offer of 58 cents a pound — an increase of five cents over last year's 53.

Wholesale prices have been running 62 and 63 cents and retail prices at 66.

With the commercial industry handling all of the butter trade for the first time since 1948, the next winter will have to look to commercial stocks to care for demand that normally runs to about 1,000,000 pounds a day.

But stockpiling on June 1 was drastically down from a year ago. Total stocks amounted to 16,100,000 pounds, about one-half the 32,179,000 on June 1 last year.

To avert the gloomy prospects of another butter shortage, Canada

may have to scour foreign sources to augment supplies. Parliament has given the agriculture department power to do that under legislation passed at the last session. Canada, at the height of the butter shortage last winter, obtained 4,000,000 pounds from New Zealand. It is a question whether she will be able to obtain more from that and other countries at prices Canadians can afford to pay.

Life Depends on Water

(Continued from page 5)

reaches 2,514 miles from Great Slave Lake to the Arctic Ocean; the St. Lawrence and the Great Lakes provide a shipping waterway 2,338 miles long from the Strait of Belle Isle to the head of Lake Superior, the heart of the continent. Our seacoast is one of the longest of any country in the world, with 14,820 miles of mainland seacoast and 34,450 miles of island frontage.

Enough, one might think, to minister to all human needs. Enough to give us the moisture that dissolves the oxygen we breathe, to liquefy the food we eat so that it can be digested, enough to supply our health and industrial needs.

But look at the demands made upon it. Three hundred tons of rainfall properly used are required to grow one ton of corn, and it requires 700 gallons a day to supply the demands of every person for food and the other necessities and amenities.

To bring all the needed water to areas that are not naturally taking it, Ancient Rome had eleven aqueducts bringing a daily supply of 40 million gallons to its one million people. That was the same average per day as in Montreal in 1860, but today's water supply for Montreal averages 120 million gallons per person per day, just about the same as Toronto's. New York needs 12 billion gallons a day.

There is, without doubt, a serious situation in regard to water in many parts of the world. Scarcity of drinkable or usable water is fast becoming a limiting factor in the expansion of agriculture and industry and the growth of communities. Many a city and town that only a few years ago had abundant water supply is now finding that an unexpected increase in population taxes its water supply. The farmer finds that he must dig deeper wells.

In some places, where water is drawn from artificial reservoirs, silt is being carried from eroded watersheds to fill up the storage capacity. New York's plight of recent months is a timely example. Cause it is on such a large scale. Many other cities suffer in a degree only less because of their relative size.

Instead of working from rock-bottom up, and from the mountain-top down, to build a sure supply of water, there are some who propose fantastic expeditions. There's lots of water in the ocean, say some, so why not distill it? The answer is, in part, contained in a paper presented to the United Nations Economic and Social Council last August. Estimating that from 25 cents to \$1.25 per 1,000 gallons. Take the modest estimate half way between these figures, and New York's cost would be about \$50 million a year.

Others suggest the feasibility of collecting dew. That was a system used in ancient Britain, and dew ponds are still to be seen in the chalk hills. The suggestion was brought seriously before the United Nations Economic and Social Council last year, and the United States representative was forced to admit that dew was not recognized as a source of water supply even in the western arid regions.

The Other Extreme
An excess of water can be almost as bad as a shortage. Tropical rain forests and swamp land are unfit for permanent settlement. Even passing floods make life miserable for many cities in the world.

In Paris of the United States, nature's balance has been upset all the way from mountain top to valley floor, and the loss through erosion and sedimentation averages 4300 million tons a year. Depleting farm practices, the irresponsible cutting of trees, and general laxity in preventing erosion have contributed to flood-

store the lost soil short of that infinitely slow process by which soil was formed in the first place from the foundation rocks of the world, nor can she overcome by her mild processes the rapid poisoning carried on so ruthlessly by human beings.

The classic examples of civilizations wiped out by their misuse of water and soil are the use of water and soil are the once mighty, now buried, civilizations of Babylonia and Assyria, and the colossal destruction wrought in the once rich soils of the vast regions of northwest China. Erosion destroyed or sapped all the Mediterranean civilizations, past and present, from Athens and Rome to Italy and Spain, to say nothing of the formerly fertile plains of North Africa where once flourished great Carthage.

We, in this age, are living in an age when world agriculture is not able to meet the nutritional needs of a rapidly growing world population. Much depends upon our capacity to cope with problems of deficient or excessive water supply.

Nature's Way
It is necessary, however, to draw from this present survey the importance of water in our lives, some lesson and perhaps hint at a plan for water conservation. The plan we have in mind is nature's way.

The most damaging impact of civilized man on his environment is the shattering of the water cycle. In the wilderness of Canada, before the coming of the white man, there was built up a mutual society of balance between the waters, soils, grasses, forests and all animal life.

How it operated is well told in *Canadian Restoration* by Mr. Newton-White. To this society each member contributed its powers of control and protection, and was in turn itself controlled and protected. In result the streams and rivers ran clear and constant, and carried away, with little disturbance, the surplus water left after all the demands of the natural reservoirs and animal and vegetable life had been satisfied.

But we have broken off our contact with nature, hiding behind our mechanistic contraptions with a sense of security that is false. We harvest grain, grind flour and bake bread by machinery and electric power, but forget that the materials of a pound loaf have used up almost two tons of water. We use square miles of corn either to eat on the cob or to feed our livestock, without remembering that an acre of corn in its growing season transpires 3,000 tons of water, equal to about 15 inches of rainfall.

In thinking about food, let us start with the one essential ingredient: water. In thinking about soil conservation, let us start with the element which is the greatest friend or most ruthless foe of soil formation: water. And in thinking about water, let us start, not at the top or at the river-mouth, but away back

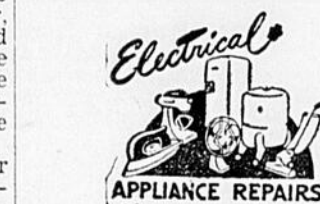

where the flow begins, on the mountain tops and the hillsides. Control and conservation of the water resources of our western plains — the breadbasket of the world, as we are fond of calling them — begins on the slopes of the Rockies. Serious depletion of forests there increases the rate of spring flooding and sends cascading down rivers the water that should seep into the ground to maintain our underground reservoirs.

There's no use in spending huge sums on river control and valley development unless it is accompanied by a thoroughly effective attack on the needless evil of forest devastation. Well-managed forests are the best of all soil and water holders. A record was kept of more than 100 storms in a period of two years on the Appalachian watershed. It showed that the flow of water from deforested areas during floods ranged from ten to twenty times greater than that from forested areas. Small streams from forested land are usually continuous, but streams often dry up between rains on unforested land.

Forests act as balance wheels. In the dry seasons the water stored in the soil dribbles out in springs and streams, and the water table is kept up in adjacent lands. Forests may not increase the total rainfall, but certainly they help to dispose of it more fruitfully than does land without forests.

This is not to say that we need to go to the extreme of taking land out of agricultural use to be reforested, though some of this may be needed. A wise use of land is to be aimed at in accord with its natural aptitude.

Recipes

A SALAD NEEDS THE RIGHT DRESSING

It is a well known fact that the dressing may "make" the salad, so every salad should have the right one. Salad dressings are of two main types: first the uncooked French dressing and mayonnaise, which are simple oil and acid mixtures. The second type is cooked dressing which is usually thickened with egg and flour or some other ingredient which acts as a permanent binder. It is possible to make variations from each of the three basic dressings, mayonnaise, French dressing, and cooked dressing.

Oil for salad should be fine and delicately flavoured. Pure olive oil should be bright in colour and, if it is of good quality, should have no trace of strong flavour. Vegetable oils should be mild and sweet. Vinegar supplies the needed tartness to any salad dressing. However, if made with a poor vinegar or with one which is too strong the dressing may destroy the natural food flavours of the salad.

A light salad which may accompany a substantial meal requires a light, delicate dressing but a hearty salad, the kind served as the main course of the meal, should have a substantial dressing. When the menu contains foods which are high in fat, a simple dressing should be used by preference to those rich in oil or cream. Dressing should be used lightly with any salad, for too much may ruin it. It is a good idea to have a bowl of salad dressing on the table for any member of the family who likes a little extra. Since oil or fat is a basic ingredient in many salad dressings it is well to store them in a cool place, preferably the refrigerator.

Wonderful salad dressings may be prepared right in the home kitchen but many prefer to buy their salad dressing. Commercial salad dressings are sold as three types, namely, mayonnaise, French dressing, and salad dressing. Standards as to the ingredients contained in dressings are set up under the Food and Drug Act and all commercial dressings must be made and labelled according to such specifications. Both mayonnaise and salad dressing contain oil but mayonnaise must contain not less than 65% oil, while salad dressing contains not less than 35%. According to the regulations mayonnaise must consist essentially of vegetable oil, eggs, vinegar or lemon juice and seasoning. It must not contain cereal thickener such as cornstarch, nor an emulsifying agent, that is, an ingredient added to keep the oil from separating out. Salad dressing on the other hand may contain both cereal and an emulsifier. This makes it more like a homemade salad dressing with oil added.

French dressing contains the same ingredients as mayonnaise, with the exception of eggs. If an emulsifying agent is used it must be declared on the label. Like salad dressing, French dressing must contain not less than 35% oil. The amounts of the different ingredients used in dressings of various companies varies within the regulations to some extent.

This is a recipe for French dressing from the home economists of the Consumer Section, Canada Department of Agriculture.

FRENCH DRESSING

1/4 cup cider vinegar
1/4 cup salad oil
1 teaspoon sugar
Dash of pepper
1/2 teaspoon salt
1/2 teaspoon dry mustard
Place all the ingredients in a jar with a tight fitting lid. Shake until thick and creamy looking. Store in a cold place. Shake well before using.

The variations for this dressing may be:

1. Add 2 tablespoons chopped parsley, 1 chopped hard-cooked egg, 1/4 cup chopped cooked beets. Use this dressing with a plain lettuce salad.
2. Add 1/4 cup tomato catsup and serve on meat salads.
3. Add 1 teaspoon of meat sauce, and serve with vegetable and egg salads.
4. Add 3 tablespoons of peanut butter and use on cabbage or carrot salads.
5. Add 3 tablespoons of grated cheese and serve with vegetable salads.

Allan's Corners

Former Residents Celebrate Golden Wedding Anniversary

Mr. James Greig, fourth son of the late Robert and Jane Ness Greig of Allan's Corners, Que., and his wife, Eva Cowles Greig, formerly of Hampton, Conn., celebrated on June 5th their Golden Wedding Anniversary.

Mr. and Mrs. Greig have resided in California for the last 30 years; their three sons with their wives and families live in the same vicinity. All were present at the anniversary reception including a granddaughter, with the exception of one grandson of Panama, U.S.A. Mr. Greig's only sister, Janet, visited them during the Easter holiday.

Rockburn

Miss Marjorie Farquhar, Huntingdon, spent her holidays with her parents, Mr. and Mrs. Alton Farquhar, and also visited with friends in Hamilton, Ont.

Little Miss Gertrude Farquhar spent a few days with her brother-in-law and sister, Mr. and Mrs. Russel Paul, Huntingdon.

A WEEKLY INFORMATION SERVICE

MONTREAL — Tasting is believing how very good this tea really is! Yes, the blends of RED ROSE TEA have made an ideal of quality — so that there's real flavour-satisfaction in a cup of their excellent tea. And real economy, too! For since Red Rose Tea is good tea its flavour goes a long, long way — gives you more cups per pound! And each superb cup of Red Rose costs you less than a cent — including the milk and sugar. So it's both taste-wise and budget-wise to make a year-round, clock-around habit of Red Rose Tea! And, by the way — you'll find that Red Rose Coffee is every bit as good as Red Rose Tea!

Expenses Never Go "On Holiday" — that's the sad truth of the matter. There's no escaping the steady demands of day-to-day living at home or away. And with today's soaring costs, a girl has to be more watchful than ever to make her money do the things she wants it to do. And I don't mean just ordinary budgeting — that's only part of the answer. Today's problems call for a more effective approach to money management! I think you will agree with many of my friends that the BANK OF MONTREAL'S Personal Planning system is just that approach — the kind that enables you to look your expenses straight in the eye — without flinching. Why not get a copy of that interesting booklet, "PERSONAL PLANNING", at a convenient branch of the B.O.M. It will show you how to cope with the high cost of living — and save money too! Drop in for your copy today.

Piping Hot Biscuits and a crisp fresh salad — just enough for a cozy meal for two. And CALUMET BAKING POWDER insures the biscuits of their tender texture, their melting deliciousness. Young brides will find Calumet a boon in all their baking — it's the two-way action that does the trick in cakes and muffins as well as these tempting biscuits: Golden Tea Biscuits...

1 cup sifted flour
1/2 teaspoon salt
6 tablespoons milk (about)
1 1/4 teaspoons Calumet Baking Powder
2 1/2 tablespoons shortening
Sift flour once, measure, add baking powder and salt; sift into bowl. Cut in shortening until mixture looks like coarse meal. Add milk; stir with fork until soft dough is formed (about 15 strokes). Turn out on lightly floured board and knead 30 seconds to shape. Roll lightly 1/2 inch thick and cut with 2-inch cutter. Bake in ungreased pan in 450 deg. oven for 12-15 minutes. Makes 7 biscuits.

You'll Point With Pride to sparkling, jewel-bright desserts you make with JELL-O JELLY POWDERS. And the family will waste no time in plunging in busy spoons to taste the fruit-fresh flavor of Jell-O. But aside from the wonderful tangy flavor and gorgeous appearance of desserts and salads made with Jell-O — you'll appreciate the ease with which you can prepare any of those seven "lock-in" flavors. No wonder Jell-O's such a midsummer favorite! It's a thrifty time-saver as you'll find anywhere. Keep several packages of Jell-O on hand this summer, and serve Jell-O desserts and salads often.

Here's A Brand New "Buyword" for folks with bothersome corns 'n' calluses... a word you'll use again and again if your feet are a problem to you — Phenylum! It's the new wonder ingredient in BLUE-JAY Corn and Callus Plasters. It took ten years of scientific research by Blue-Jay to develop Phenylum — and it was certainly well worth the effort! For Phenylum is effective in 95% of the cases tested — works 25% faster to get rid of corns and calluses. That's why you can't find any other "It's the best news in years for people with unhappy feet!" Ask your druggist today for "Blue-Jay" with the new wonder-working Phenylum!

Glenelm

GLENELM — Visitors at the home of Mrs. John Helm were Mrs. John Grant of Berkeley, Mich., Mr. J. G. McKee and two daughters, Francis and Mildred, of Ottawa.

Rivers on Rampage, Riots, Peace Bids Feature News

Truman Sends Representative to Try and Straighten Out Oil Dispute

The shooting went on in Korea while the negotiators sparred over the preliminaries to a possible cease-fire agreement. Negotiations were called off temporarily when the Communists refused to allow 20 newspapermen to accompany the United Nations delegation to Communist-held Kaesong where the talks were to be held. Then U.N. commander Matthew B. Ridgway demanded demilitarization of the Kaesong zone with complete freedom of movement for a maximum of 150 persons attached to each side. At the week-end the Communist radio said the Reds were willing

to consider Ridgway's proposals. Meanwhile the war continued at half speed. Allied bombers kept pounding away at North Korean communication lines. Ground troops pounded out minor gains against stiff Communist resistance in local actions. Both sides kept their major forces ready for possible resumption of full-scale activity at any time.

Rivers on Rampage

Flood and fire brought a nightmare to the 900,000 residents of Kansas City as heavy rains boosted the Kansas and Missouri Rivers to their highest crests in history. With water lapping at the second-storey level in three major industrial areas, firemen had difficulty fighting a two-block fire touched off by a series of explosions in oil storage tanks. All but essential businesses were ordered closed at the week-end by city officials in both Kansas City, Mo., and Kansas City, Kans., and their suburbs to facilitate relief work. Only drug stores, food shops, clinics, public utilities and similar establishments were exempt.

The Canadian Red Cross was quick to offer the services of its disaster workers, skilled in flood-fighting from their experience in Winnipeg during the last two winters. By the week-end, flood damage was estimated at \$500,000,000 and there was every indication that the damage toll would rise. At least 13 persons were killed with an undetermined number missing in the two states. Highway and rail traffic ground to a halt. Air force planes dropped food, clothing and other necessities to isolated communities.

Oil Peace Bid
President Truman sent Averell Harriman, his personal representative to Iran in an effort to find a solution to the Anglo-Iranian Oil Company dispute. With the Iranian government proceeding with nationalization of the British government-owned oil fields at Abadan despite a World Court ruling that the company should be administered by an impartial board of directors, the president imposed no limitations on Harriman in the scope of his discussions with both parties.

United States Ambassador Henry F. Grady already had held several talks with Premier Mossadegh of Iran in an effort to mediate the dispute. He described the premier as "courteous but firm." In sending Harriman to Tehran, Truman emphasized that the U.S. had no selfish interest in the matter.

Grange Youth Leadership Training School at Cobleskill, N.Y., next week, beginning Sunday, July 29 and continuing through Saturday, Aug. 4, will draw more than one hundred young men from every part of the state to the State Youth Center on Borden. Under the direction of Harold M. Stanley, State Grange Secretary, a full and interesting program, liberally mixed with recreation and fun, will contribute to making this second year's youth training course a great one. Besides the trained staff of leaders, and state officers who will speak on various phases of Grange work, at least three national leaders will be present: Charles M. Gardner of Springfield, Mass., for a discussion of Grange history; Wib Just and Paul Taber from Washington, D.C., on National Grange Youth work and general Grange program respectively. One of the outstanding phases of N.Y. State Grange Youth program, these annual schools are a splendid contribution to rural and community leadership throughout the state.

Secretaries of all Subordinate

had no selfish interest in the matter.

Riots in Guatemala

An anti-Communist demonstration in Guatemala City touched off riots that took 20 lives and felled at least 150 persons with bullet wounds.

Students at the National Orphanage school started the disturbances when they beat up Gabriel Alvarado, director of the school, claiming he was a Communist, and ousted the authorities from the school. Tear-gas bombs thrown by police combined with a torrential rain to restore the peace, but anti-Communist demonstrators then formed up before the presidential palace and demanded that President Jacobo Arbenz assure them of his anti-Communist position. Alleged Communists were attacked, automobiles were burned and the palace placed under a state of siege. Troops dispersed the mob by opening fire from patrolling trucks.

Apartment-House Battle

There were riots, too at an apartment house in the Chicago suburb of Cicero where a mob objected when a Negro family rented an apartment in the community of 70,000 which has no other Negro residents.

A milling crowd estimated at 4,000 was broken up by steel-helmeted national guardsmen using rifle butts after the mob broke through police lines guarding the apartment. The crowd peppered police, guardsmen and the building with bricks, stones and firecrackers. A group of youths tossed a flare onto the roof of the building, starting a fire which was quickly extinguished by firemen on the scene.

Sign Pacific Pact

In a three-way treaty, the United States, Australia and New Zealand agreed that an armed attack on any one of the three will be considered dangerous to the safety of all. The treaty pledges that in the event of such an attack each nation will "act to meet the common danger in accordance with its constitutional processes." The treaty follows the general pattern of the 12-nation North Atlantic pact. Ultimately officials see the Pacific pact as including the Philippines, Japan and possibly China, which would cover the major Pacific nations in the same manner as the North Atlantic pact covers the United States, Canada and western Europe.

Tel. 500 Ormstown

Granges in the state will receive request by mail this week to send in membership reports on special forms furnished several months ago to show net gains. In addition, secretaries are asked to report individual members who are eligible for awards for having obtained five or more new members. These reports are to be mailed in to E. Payson Smith, Union Springs, N.Y., as well as any requests for the necessary report blanks.

Capsule Report on what farmers may expect in business prospects, according to the Washington Farm Reporter, is a cautious, but more definite picture than could be seen a few months ago. Controls: Rapid spread has been slowed down, with some easing in prospect. Prices: Continued general stability, some farm commodity weakening. Production: Prospects are for close to an all-time crop record. Demand: Consumer buying is less urgent, more wait-and-see on prices. Defense: Spending won't be cut much, may be spread over more time. The Washington Farm Reporter, published by National Agricultural Research, Washington, D.C., is an authoritative private weekly service. You may write them for details on how to receive it.

NOTICE TO ADVERTISERS

Owing to the present schedule of the arrival and departure of mails to and from the Huntingdon Post Office, it is necessary that The Gleaner go to press early Wednesday morning.

In order to meet the above schedule, will all advertisers please have their copy at The Gleaner Office by 5 p.m. on Tuesday of each week, as advertisements received after this hour cannot be guaranteed insertion in the current issue.

NOW AVAILABLE IN CANADA

AUTOMATIC TRANSMISSION

Owner-proved by tens of thousands
now yours for effortless driving in

FORD and Monarch cars

Here it is!—the newest, most advanced Automatic Transmission of all—now offered as optional equipment* on all new Ford and Monarch cars. Road-proved and owner-proved by tens of thousands of satisfied drivers who are now enjoying the extra smoothness, the magically effortless driving pleasure made possible by this latest, finest Automatic Transmission.

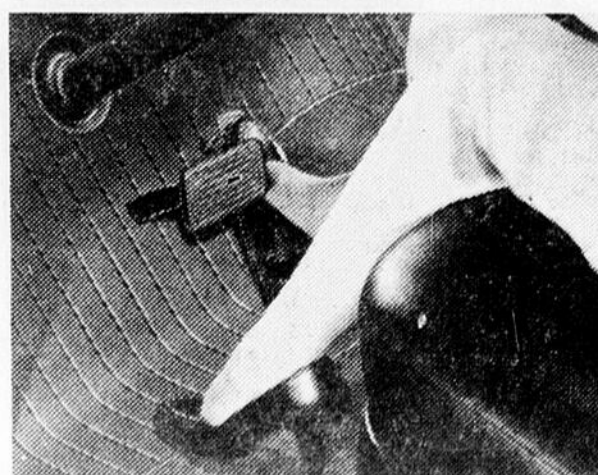

The clutch pedal and gear shifting are completely eliminated! This newest Automatic Transmission combines the smoothness of oil-cushioned drive with the flexibility and control of automatic operation unmatched by any other type of Automatic Transmission.

Until you enjoy a Test-Drive in a Ford or Monarch with Automatic Transmission, you'll never know the extra acceleration—the extra "passing power"—the extra safe engine braking downhill—that only this newest and finest Automatic Transmission can give. See your Ford-Monarch Dealer for a demonstration . . . and enjoy the driving surprise of your life.

*Automatic Transmission optional at extra cost. Fords and Monarchs are also available with Standard Transmission or with Overdrive.

Flashing Getaway—Leave it to Ford and Monarch to perfect "no-lag" pickup in Automatic Shifts! The outstanding combination of a remarkable torque converter PLUS a fully automatic gear transmission bring you smooth, surging starts with no need for racing your engine!

NO CLUTCH PEDAL . . . NO GEARS TO SHIFT—Just set the Drive Selector, which is mounted on the steering wheel, then forget about clutching, forget about shifting . . . with Ford and Monarch Automatic Transmission! It's more automatic than most other drives, yet you have complete control with far greater flexibility. And it can't be touched by most systems for its efficiency of operation.

Instant Acceleration—You can drive all day and never move the Selector from Drive (DR) position. For quick pick up in passing or climbing steep hills, you simply press down on the accelerator and the closed throttle "downshift" takes you out of lull into intermediate automatically, requiring no effort on the part of the driver.

Permits use of engine for braking safely—You're safer on hills or slippery roads with the new Ford and Monarch Automatic Shifting because the engine actually helps to slow the car down. You can flip the Selector to Low (LO) at any speed with complete safety when extra engine braking is needed.

SEE YOUR FORD-Monarch DEALER NOW!

Howick School Board Decides On Repairs to Be Done

HOWICK—A meeting of ratepayers of the Howick Protestant School was held on Monday, July 9th, 1951 for the purpose of nominating two Commissioners to the seats which had been held by Commissioners D. A. Wilson and Dr. W. Watson whose term of office had expired. The meeting was called to order by the Secretary, Mr. W. P. Welch. Two nominations only were received. They were for the retiring Commissioners, Mr. D. Albert Wilson and Dr. W. Watson, therefore the Secretary declared the meeting closed and Mr. D. Albert Wilson and Dr. W. Watson, duly elected Commissioners for the period of three years, that is to say until July 1954.

The regular meeting of the Board of School Commissioners for the Howick Protestant School which was to have been held in the School was adjourned due to there being "no quorum" to meet at the same place on Friday, July 13th.

An adjourned meeting of the Board of Commissioners of the Howick Protestant School was held

Notice

Province of Quebec
District of Beauharnois
Re: Estate
MISS ANNIE McDONALD
in her lifetime of the Township of Godmanchester, District of Beauharnois

NOTICE

Notice is hereby given that on or after the twenty-seventh day of August, nineteen hundred and fifty-one, a petition will be presented to one of the Honourable Judges of the Superior Court at Salaberry de Valleyfield, in and for the District of Beauharnois, praying for the appointment of one or more executors to administer the succession of the late Miss Annie McDonald above-described. All interested parties are asked to govern themselves accordingly.

Salaberry de Valleyfield, Que., July 25th, 1951.
E. C. MARTIN,
Attorney for Mr. and Mrs. Lindsay Watson, Achetlan, Que., two of the legatees.

Public Notice

Public Notice is hereby given by the undersigned, secretary-treasurer to the Municipalities of the Parish of Tres St. Sacrement, the Village of Howick and the Howick Protestant School, that by order of the Councils and Board of Commissioners of the above-mentioned municipalities, all taxes unpaid on August 15th, 1951, will be handed in for collection, in which case the cost of collection will be added to the amount of tax due.

Will be in my office at the Town Hall every Monday and Thursday, 9:30 a.m. - 4:30 p.m.
W. F. WELCH,
Secretary-Treasurer.

Commissioners adjourned July 14th, was re-convened at 9:00 p.m. Tuesday, July 17th, under the Chairmanship of Commissioner D. Albert Wilson, who, having been re-elected, again took the Oath of Office. All the Commissioners were present.

The Secretary reported that a considerable number of taxpayers were in arrears of School Tax whereupon it was moved by Dr. W. Watson, seconded by A. A. Allen that a Public Notice be inserted in the "Gleaner" that all taxes unpaid by August 15th, will be handed to a Collection in which case collection costs will be added to the amount of the Tax.

This being the first Board meeting since the election of the new Commissioners it was moved by Commissioner R. Kerr, seconded by A. McArthur that Commissioner D. Albert Wilson be re-elected Chairman.

The quite extensive list of repairs which seemed to be required at the School was discussed at length and it was moved by A. McArthur, seconded by Dr. W. Watson and carried that Mr. Welburn, Senior, be contacted and requested to undertake the supervision of these repairs after consultation with the Board of Commissioners.

It was moved by Dr. Watson, seconded by R. Kerr that Mr. D. Piskin be given the order for the coal required to heat the School at a price of \$16.25 per ton.

There being no further business upon motion of A. A. Allen the meeting adjourned at 11:15 p.m.

Howick United W.M.S. Meeting
The July meeting of the Howick United W.M.S. was held in the

church, on Tuesday, July 17th, with 27 ladies present. The devotional was taken by Mrs. J. R. McKell and centred around the word "Teach." The qualities that are necessary for a good teacher were stressed, and many splendid thoughts left with all.

A gift to Mr. and Mrs. Carey in Japan is planned in the near future.

Dundee

Recent visitors at the home of Mr. and Mrs. William Ferguson were Mr. and Mrs. Geo. Baker of Summerstown, Ont., and Master Byron Gallagher, Cornwall, Ont., also Mr. and Mrs. Archie Ferguson, Rodger and Roy of Syracuse, N.Y., Miss Florence Ferguson of Montreal was the week-end guest of her parents.

Offices of the Rental Commission at Valleyfield & Beauharnois

Text of legal form

LAW CONCERNING THE REGULATION OF RENTALS
14-15 GEO. VI, ch. 20

(name of tenant) and (name of landlord)

To Mr. (First name and name of landlord)

(Address of landlord)

Notice is given you by these presents in conformity with the law concerning the control of rentals that I, the undersigned, your tenant, intend to apply to the rental administrator, in the delay stipulated by the said law, to ask him for the prolongation of my lease and the fixing of rent, relating to the dwelling bearing the civic number..... of the street

..... at (city or town) that I

occupied as tenant.

In testimony whereof, I have signed, at

this..... 195

..... (place)

(Signature of the tenant)

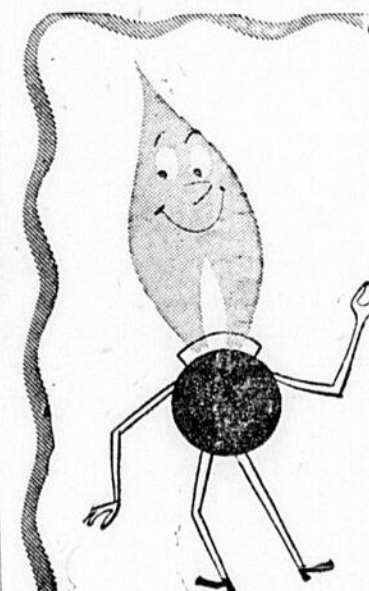

Any tenant whose lease has expired since the entry into force of the said law on May the first, 1951 or will expire before the first of August, 1951 should send to his proprietor before the 1st of August 1951 a notice such as that published above or similar notice advising his proprietor that he intends to ask for a prolongation of the lease during the month of August next.

Further the proprietors and tenants will find at the offices of the Rental Commission all information and other forms necessary. Those forms are available to residents of Huntingdon from Chief of Police Joffre L'Heureux at the Police Station, on Prince Street, Huntingdon, or at Valleyfield.
