SURPRISE

one person in ten is free from dyspepsia, and yet it is an entirely preventable disease, one for which there is absolutely no cure."

Doctors who are called upon by dyspeptic people often err in their diagnosis, and treat for some other ailment. To those who suffer from dyspepsia, we would say, "Do not try to describe any of the symptoms. It will be well, however, to remind the sufferer of nausea, gnawing at the pit of the stomach, heartburn, variable appetite, distention of the tongue, constipation and sallow skin. For dyspepsia and its attendant troubles, that great scientific discovery, Paine's Galaxy Compound, goes direct to the cause of the difficulty, and gives permanent relief. No other remedy of the present day has been so successful for the cure of this terrible disease. It does the work that nature builds up the body with flesh, bone and muscle; it gives strength to the nerves and a flow of blood to the system. If no other medicine can cure, try it. If dyspeptic sufferer, the result will make you
