

BOTH THE BRITISH AND FRENCH HAVE ADVANCED THEIR LINES NORTH OF THE RIVER SOMME

Russian, Serbian And Rumanian Forces Have Assumed The Offensive In Dobrudja—Austro-German Columns Are Forced Back Near Szurduk Pass—Russians Force Fighting In Volhynia—British Make Successful Raid In Balkans

In a vigorous counter-attack, launched with huge effectives, the Germans facing the French south of the Somme river in France have been able to recapture portions of their former trenches north of La Maisonnette and in the region of Biaches. In addition, 412 Frenchmen were made prisoner by the Germans.

To the north of the river, however, both the French and the British succeeded in advancing their lines—the British between Les Boeufs and Morval and the French north-west of Sully-Saillies. In the latter engagement sixty Germans were captured.

On the Transylvania front the Rumanians are still fighting hard in the Prahova valley and the Jiu valley, where fresh gains have been made by them. In the Rothenthurm Pass region Berlin records a new success for the Austro-Germans, but admits that south-west of the Szurduk Pass the Rumanians have forced the Austro-German columns to fall back.

In massed formation the Russians in Volhynia to the west of Pustonyty again endeavored to break the Teutonic line, only again to be defeated with heavy casualties, according to Berlin. Another Russian attack east of Szelzov also was repulsed by the Germans.

Heavy fighting is still going on at the bend of the Cerna river in Serbia, the French and Serbians being engaged there with the Germans and Bulgarians. Berlin reports that all the attacks by the Entente forces in this district thus far have failed. On the Doiran front the British have raided a German-Bulgar position, inflicting considerable casualties on the occupants of the trenches.

The Russian, Serbian and Rumanian forces in Dobrudja have assumed the offensive, according to the semi-official News Agency's Odessa correspondent.

WILSON DENIES IT.

Long Branch, N.J., Oct. 30—President Wilson tonight characterized as "untrue" the statement made by Senator Henry Cabot Lodge of Massachusetts to the effect that the President had seriously considered adding a weakening postscript to his "strict accountability" Lusitania note.

IN THE BALKANS.

Saloniki, via London, Oct. 30—The official statement from British headquarters reads:

"On the Doiran front on the night of Oct. 28-29, after artillery preparation, an enemy position at Crete De Tengs, north-east of Machukovo, was raided by our troops, who inflicted considerable loss on the Germans and Bulgarians in the trenches. North of Lake Doiran hostile air planes were brought down.

"Struma front: West of Demir-Hissar an enemy transport park was bombed by our air planes with excellent results. North of Ormanli our patrols drove back hostile patrols."

BIG BATTLE IN ABYSSINIA

London, Oct. 30—A despatch received in London from the British Minister to Abyssinia, announces that a big battle has been fought 25 miles outside of the capital and resulted in a complete victory for the new government. Ras Mikhael, father of the late Emperor, was taken prisoner.

The deposed ruler, according to the despatch, is believed now to be among the tribes on the border of Abyssinia and Somaliland. The despatch adds that if the victory proves sufficiently decisive the question will be reconsidered of recognizing the new government.

Recent despatches announced the outbreak of a revolution in Abyssinia. A London despatch said Emperor Lidj Jeassu, the 22-year-old grandson of the late Emperor Menelik had been deposed and that Ouizero-Zeoditu, daughter of Menelik, had been proclaimed "Empress of Ethiopia."

GREECE WILL PROTEST.

London, Oct. 30—A despatch to Reuter's Telegram Company from Athens says:

"The Greek government will protest to Germany against the sinking of the steamer Angheliki. The labor unions at Piraeus have decided to strike unless they are guaranteed against the sinking of Greek vessels."

A News Agency despatch from Athens Sunday said a German submarine had torpedoed the Greek steamer Angheliki Saturday evening near Piraeus, while she was taking to Saloniki 350 recruits to the volunteer movement. Fifty of the recruits were reported to have been drowned.

AUSTRO-HUNGARIAN CONSPIRACY.

London, Oct. 30—A Wireless Press despatch from Bucharest says an official decree has been issued there committing for trial on a charge of conspiracy two men, named Babosh and Thot, who are charged with having attempted last year to assassinate Premier Bratianu of Rumania, M. Costinesco, Rumanian Finance Minister, and the late M. Filipesco, former War Minister. The Wireless Press states that the conspiracy was organized by Austro-Hungarian authorities and that the assassins received instructions from the chief of police of Budapest and two captains serving on the Austrian general staff.

A Kranstadt lawyer named Offenberger, the despatch continues, conducted the two men to Rumania and was to have given 40,000 crowns to them. Before the conspiracy was discovered, it is said, the assassins gained entrance into Rumania by means of false passports and valises containing explosives were sent in by Hungarian non-commissioned officers.

NEW HUN WAR MINISTER.

Berlin, Oct. 30, via London—Lieut.-General Von Stein has been appointed War Minister by the Emperor, says an official announcement from Great Headquarters.

General Von Stein, who at the beginning of the war was quartermaster-general, achieved great popularity through the laconic war bulletins bearing his signature, proclaiming the rapid succession of victories to the German arms in the early stages of the war. Latterly he was commander of the Fourteenth Army Corps on the west front.

General Von Stein succeeds Lieut.-General Wild Von Hohenborn, who is given command of an army corps on the west front.

GREEK ATTITUDE NOW SHOWN UP

RESISTANCE TO GERMANS AND BULGARIANS WAS NOT ADVISED.

Athens, Sunday, Oct. 29, via London, Oct. 30—The Patrias, which supports the provisional government set up by former Premier Venizelos published this morning several documents which it characterized as revelations regarding the attitude of the Greek government at the time of the Bulgarian and German occupation of north eastern Greece. Included in the documents is the text of messages sent by the Minister of War, the newspaper says, ordering surrender to the Germans and Bulgarians of Fort Rupel, near Demir-Hissar, former Premier Skoloudis, who was then at the head of the government, said to The Associated Press correspondent:

"Resistance by Greece to the Germans and Bulgarians at that moment would have been ridiculous. As long as the government had decided to remain neutral all we could do was to obtain written guarantees for the return of the forts and their contents to Greece, for the safeguarding of private property, etc. By giving up Fort Rupel without resistance we obtained such guarantees. If the central empires have not kept the terms of the written guarantees it is not the fault of the Greek government. What more could we have gained by resisting?"

MARINA NOT A TRANSPORT.

Newport News, Va., Oct. 30—At the office of the United States Shipping Company, local agents for the Donaldson Line, owners of the Marina, it was stated today that the Marina was not a transport in the service of the British government.

"She is one of our regular steamers plying between here and Glasgow it was said, and was owned and operated as a merchantman by the Donaldson Line. She carried general cargo and sometimes horses for the British government, but she had not been commandeered and still retained her status as a merchantman."

GREEKS BITTER AGAINST HUNS

TORPEDOING OF STEAMER ANGHELIKI IS CAUSE OF RESENTMENT.

Athens, Oct. 29, via London, Oct. 30.—The torpedoing of the Greek steamer Angheliki on Saturday near Piraeus, with many Greeks aboard, was carried out without warning, it is stated here. This action is believed to indicate that since the capture of Constanza the German submarines have obtained a new supply of benzene enabling them to resume operations in the Mediterranean.

Greek naval officers are particularly bitter that the attack seems to have been made within Greek territorial waters, only a few miles from Salamis where a formidable Allied fleet has been stationed since Sept. 1.

The loss of life is now said to reach 200, though the full number aboard the Angheliki is not known.

The submarine, it is further stated, warned ships endeavoring to rescue the Greeks, to keep off.

AFTER-WAR CONDITIONS.

Montreal, Oct. 30—Sir George E. Foster, addressing the Canadian Club at luncheon in the Windsor Hotel at noon today, urged immediate preparations by business men to meet conditions when the war is ended, instead of waiting until peace is proclaimed. He claimed that mobilization in following the pursuits of peace could be made with advantage and just as effectively as mobilization for war had been.

BANDIT HOLDS UP POKER PLAYERS.

Saskatoon, Sask., Oct. 30—At the point of a revolver a masked bandit held up and robbed six men playing poker in a shack at Alaska, Sask., according to word reaching the city today. A .45 bullet was left in the floor, and working on this clue the Royal Northwest Mounted Police arrested Charles Burroughs, a farmer, living three miles away. The man has been sent to Prince Albert jail to await his trial before the Supreme Court. Only fifty dollars was taken, although it was known there were hundreds in currency in the room at the time.

BOTH BREMEN AND DEUTSCHLAND LOST

SECOND TRIP OF LATTER FATAL SAYS A SWISS NEWS- PAPER.

Geneva, Switzerland, via Paris, Oct. 30.—The National Zeitung of Basel prints the following concerning the German submarines Bremen and Deutschland:

"Both the Bremen and the Deutschland have been lost—either captured or sunk. The Bremen never reached the United States nor returned. The Deutschland during her second trip across the Atlantic in September under the name 'Weser' also disappeared. Submarine U-53 was sent in search of the vessels but found no traces of them. The loss of the two commercial submarines has not yet been officially admitted."

GREEK AMBASSADOR TO UNITED STATES.

Athens, Sunday, Oct. 29, via London, Oct. 30—Demetrios G. Metaxas, former Greek Minister at London, will be appointed minister to the United States, it is announced. He will replace D. Caclamanos, who has espoused the cause of former Premier Venizelos.

M. Caclamanos, who was formerly Minister to Italy, was appointed minister to the United States to succeed Agameron Schliemann, on Sept. 14 last. M. Schliemann was recalled in September, 1914.

STOCK EXCHANGE RE-OPENS IN LONDON.

London, Oct. 30—The stock Exchange re-opened today after the holiday with trading dull. A few orders had accumulated for the war loan, consols, and mine and rubber shares, but after the executive of these the market relapsed into idleness. Greek bonds were one or two points higher. About the only firm feature were home and Argentine rails, which were easy. American stocks were undecided. Low priced shares were most active. Money was plentiful, but discounts were quiet.

FIRE ON "CHICAGO."

Paris, Oct. 30—Officials of the French Line announced today that the fire which broke out on board the liner Chicago last week while the vessel was bound from Bordeaux for New York was in her coal bunkers and that the steamer put into Fayal, Azores, as a precautionary measure. They added that after the fire was extinguished the steamer's coal bunkers were emptied in order that an examination for possible damages might be made. The vessel was found to be uninjured and will proceed to New York.

REACHED THE TOP.

Very wrong verdicts are come to by people who use modern inventions in the wrong way. The moving staircase at the Embankment Station offered a proof of this. A country-woman was seen trying to ascend the descending side of the moving staircase there. There was no official about, and after two plucky attempts she at last made progress and doggedly worked her way up to the top. Some people who saw her efforts waited for her at the top. When she recovered here breath she said: "I don't think the moving staircases all the talk's about is any better than the old lift!"

DR. FRASER GIVES VIEWS OPPOSING SCHEME OF UNION

NEW PRESIDENT OF PRESBYTERIAN CHURCH ASSOCIATION SAYS IF UNION GOES THROUGH IT MEANS SPLITTING CHURCH IN TWAIN.

(Montreal Star)

The Rev. D. J. Fraser, D.D., Principal of the Presbyterian College, who has been elected last to the presidency of "The Presbyterian Church Association" — a new organization for the continuance of the Presbyterian Church in Canada, explained to a representative of The Star this morning his attitude to the question of Organic Union between the Congregational, Methodist and Presbyterian communions.

"I have never," he said, "been an enthusiast for the proposed organic union as an ideal, nor have I been convinced that conditions in Canada demand it as expedient. I have always been a champion of a broad statesmanlike policy of co-operation which will try to avoid unnecessary overlapping of religious forces, and put to shame all unseemly sectarian rivalries. However, I had such high regard for the character and wisdom of many of the advocates of organic union that I was willing not to press my strong personal preference, if the Presbyterian Church declared in favor of the scheme with any degree of unanimity. The votes taken in 1911 and 1915 showed plainly that there was no desire, certainly no enthusiasm, on the part of Presbyterians, for the proposed change. In the few years between the taking of the two votes, the membership of the Presbyterian Church in Canada, increased about forty thousand; the increase in the number of votes in favor of organic union in the meantime was only six hundred, while the increase in the number against organic union was twenty-three thousand.

"In the face of this obvious situation, the General Assembly in Winnipeg last June resolved in favor of organic union by a majority of five to one. The temper of an Assembly that could so violate our fundamental principle of democratic representation is to me a psychological mystery. I can only appeal for enlightenment to the alienist.

On Verge of Disruption.

"Ever since the decision of the Winnipeg Assembly, it has been perfectly manifest to me that the Presbyterian Church in Canada is on the verge of disruption. There are a large number of intelligent persons in almost all our congregations who will not consent to being legislated into the United Church against their expressed wishes and without some slight apology of a mandate from the church members. Under these circumstances I interpret my personal duty to be that I shall use my best endeavors to avert the impending tragic disaster of disruption. To this end I have identified myself with the new association whose members, representing the church from the Atlantic to the Pacific, declare that our present duty is to maintain and continue the Presbyterian Church in Canada.

"I do not wish to say anything uncharitable regarding my fellow-ministers, but I do feel very keenly that those clergymen who are using their pulpits at this late stage of negotiations in support of the policy of the Union Committee, and who are given wide publicity to their deliverances, are really making more acute the crisis which has unfortunately been precipitated. I shall be greatly disappointed if cooler heads do not devise wise counsels by which moderate men from all over the church will organize to make it clear to the next General Assembly that such serious disruption as is threatening is too high a price to pay for an untried experiment. The aim of the Presbyterian Church Association of which I have the honor to be president is to save the Presbyterian Church in its unity and integrity as an efficient missionary agency. If the leaders of the movement towards organic union persist in their purpose and succeed in persuading the next General Assembly to go forward with the consummation of their policy. I have not the slightest doubt that our church shall be split in twain, and that the intolerable condition will be created in countless local congregations of division, estrangement, ill-will, alienation of pastor and people, separation of friend and friend. The responsibility for this almost unthinkable demoralization will not rest on those who in this time of crisis are planning to avert such an unhappy cleavage."

TARIFF.

The word "tariff" is of Moorish origin, and refers to the duty placed on imports or exports. At the southern point of Spain, running out into the Strait of Gibraltar, is a promontory which from its position commands the entrance of the Mediterranean Sea. A fortress stands upon this promontory, called in the times of the Moorish domination in Spain "Tarifa." It was the custom of the Moors to watch from this point all the merchant ships passing, and to levy duties according to a fixed scale on all merchandise passing in and out of the strait. The duty thus levied took its name from the place and was called tarifa, or tariff.

Gathering ROSE QUESNEL Native Canadian Tobacco

Bringing the Tobacco leaves to the drying barn.

About 30 days after the tops have been removed the tobacco plants show yellow spots on the leaves and the veins become brittle. The crop is then ready to be harvested and the planter is careful to secure it before any autumnal frost occur, for the plant is among the first to feel its injurious influence. Judgment is also required in cutting the plants, and this operation is assigned to the best and most judicious hands employed in the culture. Each person so employed being provided with a strong sharp knife, proceeds along the respective rows of plants, and selects only such plants as appear fully ripe, leaving the rest a short time longer. After being cut, a half dozen leaves are spiked on a stick set in the earth so that the leaves will wilt. This requires from 4 to 5 hours during favorable weather and then the crop is hauled to the drying barn. Particular care is exercised in handling the leaves not to damage or bruise them in any way. It is no wonder then, that tobacco produced by such scientific and improved methods of culture is of such fine texture and color, and possesses such invaluable smoking qualities that it is often taken for imported tobacco. It is this tobacco which enters into the making of

A WELL-MERITED SNUB.

The type of woman who, in the early days of the war, used to go about offering white feathers to young men she judged ought to be serving in the army is not yet quite extinct.

Recently one of them entered a crowded Tube carriage. A young man immediately rose and offered his seat. "No, thank you," she said, "I don't care to accept the seat of a slacker."

The young fellow smiled, sat down again, then he asked: "Madam, have you any relatives at the front?"

"I have!" she snapped. "Three brothers and two cousins."

"Good! Then perhaps you would not mind dropping them each a postcard asking them to keep a sharp lookout for three fingers which are out there somewhere, and return them, for they belong to this right hand of mine."

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

WHEN CROSS, FEVERISH AND SICK, GIVE "CALIFORNIA SYRUP OF FIGS."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

U.S. MAKES OUT CASE FOR HUNS

SECRETARY LANSING AWAITING FULLER INFORMATION WITH INTEREST.

Washington, Oct. 30.—Preliminary reports of the sinking by German submarines of the British steamers Marina and Rowanmore, partly manned by Americans, were too incomplete tonight to enable officials at the State Department to form an opinion as to whether there had been a violation of neutral rights or of pledges given the United States by Germany.

On its face, the case of the Marina, reported by Consul Frost at Queens-town, presents the gravest situation that has arisen since the sinking of the channel liner Sussex, which brought the American and German governments to the verge of a break.

There were no casualties. According to the agents in this country of the Marina's owners, the Donaldson Line, the vessel, with some fifty American horse tenders aboard was not under charter to the British government as a transport, but was engaged in her regular trade as a freighter and carried horses for the Entente Allies as a part of her general cargo.

Apparently all depends upon the accuracy of the first reports; whether the Marina actually was attacked without warning or whether she is to be recorded as only another of the scores of British carriers that have gone to the bottom as the result of their skippers' desperate efforts to outrun enemy shells.

Until a full report has come from Consul Frost no step will be taken by the State Department. Frost is regarded as a thorough investigator and has played a part in determining the facts in many of the most important incidents, including the destruction of the Lusitania.

VON HINDENBURG GIVES INTERVIEW

OF COURSE EVERYTHING IS ROSY FOR THE GERMAN ARMS.

Berlin, Oct. 30, via Sayville, N.Y.—"The situation is as good as possible, and all will be well also in the future." Thus Field Marshal Von Hindenburg, chief of the German general staff, described the present war situation to a representative of the Vienna Neue Freie Presse, whom he received at headquarters in the presence of General Von Ludendorff, first quartermaster-general.

As to the duration of the war, Field Marshal Von Hindenburg said: "That depends upon our enemies. Prophecy does not pay; during a war one had better leave it alone. It is possible that the year 1917 will bring battles which will decide the war. However, I do not know and nobody knows. I only know that we will fight this war to a final decision."

This interview with the chief of staff was given out today by the Overseas News Agency for publication. It continues: "The correspondent in turn reported to Field Marshal Von Hindenburg on the general feeling in Austria-Hungary, declaring it was one of confidence and satisfaction but that, as everywhere, the end of the war was wished for. The Field Marshal replied:

"That we all wish; I understand this well. The Austro-Hungarian people have accomplished their full duty during this war and have made all the heavy sacrifices which were necessary. But still new sacrifices must be made, lest those already made have been made in vain."

General Von Ludendorff interjected: "Tell your Austrian friends that there is only one efficient means for ending the war; a firm will to end the war by victory. Every soldier and all others must work together; they must realize that no way but war leads to peace. Munition is not all; nor grenades, but the morale of the troops brings the final decision, and the morale of the German and Austro-Hungarian troops is superior to that of all our adversaries. Nevertheless, munitions means very much in this war. At a previous visit the Field Marshal told us: 'The main thing is discipline.' That is true. Discipline is based on the complete education of every individual man."

Asked whether there was any chance that the war would be culminated by a decisive blow General Von Ludendorff said: "Perhaps. The trend of events must show this. I prefer to make no statement."

As to whether the Russian masses shall be exhausted, Field Marshal Von Hindenburg replied: "They are already becoming so; the Russian army commanders have charged themselves with that. There is no doubt also that new masses will grow up in Russia. But that makes no difference. We, too, have enough men. Germany has a profusion of reserves, and in Austria-Hungary the reserves are by no means exhausted. We never were afraid of the Russian numerical strength. We know no numerical superiority."

General Von Ludendorff, taking up the subject, said: "Numerical superiority and danger only exist for the weak. Who objects against fate ought better to object against himself. A firm will commands fate. There is no blind fate."

Field Marshal Von Hindenburg then continued: "The new Russian armies are as good as and as bad as the former. The main quality of the Russian soldier is blind obedience. He makes no progress of a military kind; only the Russian artillery has become more efficient on account of instruction by French and Japanese officers, who partly command. But our artillery remains superior."

"During a certain period the Russians had more munitions than they formerly had. Their munitions supplies have now become diminished by a cause of the end of importation by way of Archangel and Vladivostok."

The correspondent asked whether in the opinion of the chief of staff the termination of the war was only possible in the east, to which Field Marshal Von Hindenburg replied:

"People don't know what nonsense they talk. One does a great injustice to an army commander by attributing to him a programme. He certainly has in his head a plan of war, a general view of war. But there is no prepared programme, except that one—to gain victory. Where and how that shall be done can only be decided each moment anew on the basis of events. Therefore a decision can be looked for as well in the east as in the west. It is nonsense if they tell you that I intend to shorten my front in the west. I never thought of it. Why should I do it? The front in the west stands as firm as a rock, and if our enemies by gigantic use of artillery here and there gain a little terrain, they shall never break through. In order to do this they would still have to attack for thirty years provided they had enough men."

SEEKS HELP FOR POOR OF GERMANY

U. S. AMBASSADOR TO GERMAN MANY SAYS THERE IS URGENT NEED OF FUND.

New York, Oct. 30.—In endorsing a "Thanksgiving appeal for funds to relieve distress among the war sufferers of Germany," issued in this city today, James W. Gerard, United States Ambassador to Germany, in a statement sent out by The Associated Press tonight, declares there is a great need of relief work among the poor of the Teutonic empire. Mr. Gerard points out that Americans have sent more money to other nations than to Germany, and concludes: "If I am able to go back to Germany bringing a substantial sum of money raised by this committee, I do not know of anything better to aid relations between this country and Germany, and when the Germans see that the funds has been raised by a committee so distinctly American as this one it cannot but make a most excellent impression upon the people there."

ADVERTISING American Literature Appeals to Canadians.

Montreal, Oct. 30.—E. Desbarats, of Desbarats Advertising Agency, this afternoon told the commissioners this afternoon that American magazines and periodicals appealed to Canadians more than English publications. The general make-up of the former seemed to be better, besides Canadian readers had been educated to like the American style from greater familiarity with it. The stimulation of the English magazines circulation here would be a matter of individual effort, to a great extent, Mr. Desbarats said, and generous advertising would be necessary. One thing that militated against the popularity of English magazines, he added, was that whereas the greater number of them sold here are marked six pence each they cannot be bought for less than fifteen or twenty cents.

The idea of an Empire label, that is the marking of goods made within the Empire with "made in British Empire," was discussed with C. W. Tinning, of the National Drug and Chemical Company, who looked with disfavor on the proposal as not likely to prove of much utility to the manufacturer.

FRENCH WAR LOAN.

Paris, Oct. 30.—M. Ribot, Minister of Finance, will announce the total subscriptions to the second war loan in the Chamber of Deputies after All-Saints' recess next week. Until then the Ministry of Finance will be engaged in receiving returns from financial institutions and post office all over the country, which are computing the figures.

Saturday and Friday were the days of the biggest individual subscriptions, while yesterday was essentially a day of small money. The exclusion of three per cent from conversion into this loan will naturally affect the general total.

SEVERE STORMS IN THE BRITISH ISLES.

New York, Oct. 30.—A brief cablegram from the London correspondent of the Associated Press early this morning advises that severe storms in England and Ireland during the past 24 hours have virtually crippled the British land telegraph lines. Brief fragmentary cable items filtering into New York late tonight were timed back as far as ten a.m. Monday.

WHAT LONDON "TIMES" SAYS OF WAR PICTURES

WILL GIVE TO HISTORY SOMETHING WHICH THE GREATEST WRITERS OF THE WORLD WOULD BE UNABLE TO DO.

The "Battle of the Somme" pictures which will be shown at the Auditorium on Nov. 9th, 10th, and 11th, are attracting universal attention. The "Chronicle" in bringing these pictures here realizes that the public will appreciate the film as it will do much to show what the British Army is accomplishing on the battlefield. The performances will be as follows: matinees 2 to 3.25 p.m., 3.30 to 5.00 p.m. Evenings, 7.30 to 9.00 p.m., 9.05 to 10.30 p.m.

Here is what the "London Times" said of the war pictures:—"If anything was needed to justify the existence of the cinematograph, it is to be found in the wonderful series of films of the opening of the British attack on the Somme on July 1. In years to come, when historians wish to know conditions under which the great offensive was launched, they will only have to send for these films, and a complete idea of the situation will be revealed before their eyes, for we take it as a matter of course that a number of copies of them will be carefully preserved in the national archives."

"One of the most striking features of the Somme battle has been the condition of publicity in which it has been waged, and these films will do more than any number of lectures and speeches to show the worker at home what is really going on. He sees at once the vast preparations, the wonderful organization of the 'army behind the army' that has been perfected during the months of waiting. Then he sees the launching of the attack, and as he sits at home there comes a glimpse not merely of the horrors of war, but of its glories, of unselfish British soldiers sharing their cigarettes with their prisoners, of the wounded patiently waiting their turn at the dressing stations, of men staggering back to the British lines with wounded companions on their backs. And all the time one feels that these men, cheery under the most trying conditions, are members of a victorious army."

The cinematograph men have been allowed the greatest latitude by the military authorities, and with an utter contempt of danger they have fixed their cameras at the most impossible places. Their only anxiety has been to secure a series of films which will give an idea of every phase of the life of the army during such a momentous day as the 1st of July. Now the operators are with the big guns, now in the front line trenches, waiting for the infantry to swirl over the parapet, now with the R.A.F. men getting through an extraordinary amount of work in an incredible short time, now in the captured German positions, now in the ruins of Fricourt, Metz or La Boisselle.

"The films are full of dramatic incidents—the explosion of a monster mine which envelops the countryside in debris and smoke, the devastating effect of the Royal Marine Artillery's 15-inch Howitzers, the burying of the dead, and the pathetic picture of the Manchester's pet dog, killed with his master in the storming of Dantzic Alley. But there is nothing more stirring than the sight of the infantry rushing over the parapet to the attack, some of them falling even before they have cleared our own wire. However, great the danger, the photographer is on the scene, and it would be a graceful compliment on the part of the authorities if the names of those who have secured these films could be made public when the pictures are shown a few weeks hence."

FIRST— SUIT REDUCTION— OF THE SEASON—

In our great display of Smart Suits we have found it exceedingly difficult to pick any for reductions. At length we succeeded in choosing a number which we have repriced to moderate figures indeed. None are "old style." Each embraces the modish styles of the moment.

The Skirts are full, tho' of reasonable width. In some cases the fullness is allowed to fall soft and limp, in others it is flared suddenly. The Jackets are long, with a slight suggestion of fit. Smart, little square Collars complete a combination that has already pleased many women.

In Serges, Broadcloths, Wool Velours and Novelty Checks, some trimmed with fur, others tastefully touched with becoming braids.

In Blues, Black, Brown and some lighter colors. Reg. \$18.50 to \$65.00 Now \$13.90 to \$35.65

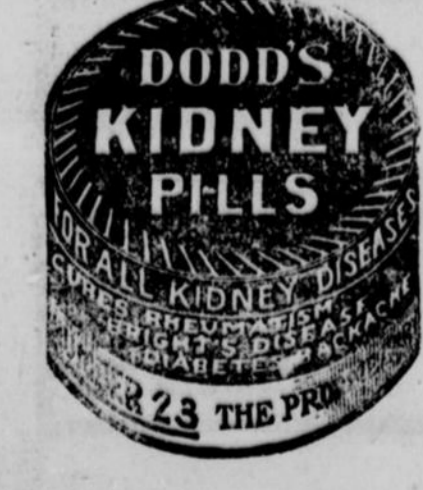

DISCOVERING THE TELEPHONE.

A dinner of the American Geographic Society held in Washington recently was used as an occasion for celebrating the marvellous developments of the telephone during the last forty years. One of the principal guests was Dr. Alexander Graham Bell, who recalled that "great day"—March 10th, 1876—when he learnt beyond doubt that complete words and sentences could be understood through the instrument he had constructed. This early telephone was connected with the next room, where his assistant, Mr. Watson, was at work. Dr. Bell talked into it, and said: "Mr. Watson, come here; I want to see you." Mr. Watson came to him at once, and the inventor then knew that his problem was solved.

Child Was Nervous, Irritable, Tired Out

She Had No Appetite, and Her Complexion Was Pale and Sallow.

How many parents realize the strain which going to school means to the child who is naturally nervous and of delicate health? You see them come from the schools daily with pale faces, many wearing glasses, and looking tired and worn. At home they are irritable, do not sleep well at nights, and are upset by a little extra excitement. If they are to grow to healthy manhood and womanhood their systems must have attention now. Such treatment as Dr. Chase's Nerve Food does wonders for children in this condition. We are constantly receiving letters from grateful parents telling what the Nerve Food has done for their children. This one is a fair sample: Mrs. Stephen Hartman, Italy Cross, Lunenburg County, N.S., writes: "My little sister at eleven years of age became nervous, irritable and seemed all tired out. She had no appetite, was lifeless and drowsy and her complexion grew pale and sallow. Finally she had to keep her bed and have somebody with her all the time. She was afraid of everything, would get excited and tremble till the bed would shake. As she seemed to be getting worse under the doctor's treatment, mother decided to try Dr. Chase's Nerve Food. After she had used about four boxes, improvement was noticeable and it was wonderful to see how much brighter and stronger she grew week by week. She used ten boxes altogether and they cured her. She got fat and rosy and went to school every day with an ambition that she never seemed to have before. I do not hesitate to recommend Dr. Chase's Nerve Food to anyone, for it was indeed wonderful what it did for her." BRITISH SHIPPING.

As illustrating how rapidly Great Britain is more than overcoming her losses in mercantile shipping, it is noticed that during the quarter ending Sept. 30, there were under construction in the British Isles 29 more vessels with 259,000 more tonnage than in the corresponding quarter of last year.

Additional information sustaining this view comes by telegraph today. Apart altogether from the warships, which were under construction when war broke out and which were completed a year or so ahead of their schedule time, it is now claimed that Great Britain has twelve new battleships of the super-dreadnought type practically ready for sea.

AIDING CANADA'S ENEMIES.

While Hon. Mr. Casgrain, Hon. P. E. Blondin and Hon. E. L. Patenaude, French-Canadian Ministers in the Borden Government, are making every effort to stimulate recruiting among their fellow countrymen in the Province of Quebec, the newspaper Le Canada, the organ of Sir Wilfrid Laurier in Montreal, is endeavoring deliberately and systematically to nullify those efforts.

Commenting on this the Fredericton Gleaner says that to traduce and vilify men who are working earnestly and patriotically in the cause of freedom, is to strike a blow at that cause, and a blow so struck is a blow in the interests of the Empire's enemies.

It is not necessary perhaps to ask that question at all. It is not necessary to assume that Le Canada, in its efforts to discourage recruiting in Quebec, acts under any recent instructions from the politician whose mind it speaks.

The public career of Sir Wilfrid Laurier has been a long, incessant fight to create the very situation with

which Messrs. Blondin and Patenaude are now confronted. Ministers of the Borden Government are appealing today in Quebec to a spirit which survives in that province only because of the inability of the Lauriers and the Bourassas to crush it utterly.

Le Canada might achieve its mission by either of two ways, says the Gleaner. It might, frankly and openly, call upon its readers to disregard the appeals made by Messrs. Blondin and Patenaude in behalf of recruiting. That would be the honest way, if honesty plays any part at all in a mission of that sort.

Is the argument a good one, apart from the mischievous and unpatriotic purpose for which it is advanced? It is built upon the assumption that Messrs. Blondin and Patenaude are insincere, that they are playing a part. Let us look at that. Does the situation in Quebec justify the assumption that such a part could be played to the political advantage of those who play it? It does not.

Mr. Wilson is regarded in Mexico, China, Japan, and Europe as weak. Never mind how we regard him. That is the way other nations regard him. For an American policy to be thought weak by the Mexicans is bad enough; for it to be thought weak by the Chinese would make a jackrabbit sardonic.

dreadnought battleships for service in this very war. He is the man, who, reckless of the Empire's safety, denied the existence of an emergency when Germany was arming for this war.

If the argument of Le Canada is a good argument, then it strikes most effectively at one man, Laurier. And if Le Canada is right, the Canadian people may rest under no doubt as to the real aspirations of the Liberal leader. Le Canada's case is an insult to and a crime against all those Liberals in Canada whose sons are at the front, whose sons, many of them, have made the supreme sacrifice.

PRESS COMMENT.

Under President Wilson the United States has lost the respect of the powerful nations of the world. Respect in international relations does not arise from affection. It need not arise from fear. It is best commanded by strength. Amiability without strength will not get respect.

Mr. Wilson says the other nations do not understand the United States. They think they do. They draw their understanding from the acts of the United States Government. They think the United States government is afraid. They do not yet know whether the American people are afraid or not.

European nations, Asiatic nations, Central and South American nations know that the United States government is timid. They know it blusters, but they know that the bluster soon dies away. What they want to know now is whether it is the real government of the American people or whether it is something that, unfortunately for the American nation, happened to be in power at an embarrassing time.

If this be the real and chosen government of the people of the United States; the other nations will know how to deal with us. They know how to deal with China. If China were not a "Thank God for Wilson" nation, the Japanese would not be conquering it in such easy fashion. If the United States is another yellow nation, the powerful countries will know how to deal with us.

Two considerations govern the policy of powerful nations. We may not like their way of thinking or acting. We may not want to adopt their ways. But we hurt ourselves if we decline to recognize the fact that they operate upon these two considerations: "Have you anything we want?" "Can we get it?"

That is all; two considerations glossed over in many ways, but always discoverable. Sentiment can be fogged them and rhetoric try to hide them, but they exist as the two compelling considerations.

If the American people advertise themselves as yellow, one question will be answered. "You can get it." That was the answer in China. It may be the answer which the American people will seem to give in November if the Democrats insist that the issue shall be "He kept us out of war."

The Mexicans have a perfect right to think the American government weak. To their knowledge it never has done anything but bluster. They have Pershing's column "interned" in Chihuahua and have informed our government officially of the fact in a polite fashion that would make ordinary Americans mad if ordinary Americans cared anything about Pershing's column, or about Mexico and the danger it may be to the United States, or the humiliation it already has been.

The Chinese know that the United States has interests in China. They welcome American enterprise. They see Japan shutting the door to this enterprise, and they know that if they were strong and if the United States were strong the interference would not be thought of, much less permitted.

Thus we have lost the respect of Mexicans and Chinese. European na-

tions know that we cannot command respect. Germans do not forget that our factories are furnishing supplies to their enemies. That is our right, and we chose to maintain it, but we must understand that it creates a sense of injury. When a nation causes a feeling of restraint in a powerful nation it had better be itself powerful.

The entente powers think they are fighting our fight; that they are making the sacrifices and we are making the money; that what they regard as the German peril is our peril. They need favors and supplies from us. Therefore they try to be polite. Beneath the politeness is a contempt for our attitude.

We can stand the consequences of policies honestly conceived for the benefit of the United States if we are not cowardly and craven. We may be able to weather mistakes if the moral character of the nation is not debauched. But if we advertise to the world that a weak government has a timid people behind it, we shall pay the price that every yellow nation has to pay.

If this nation does what it is asked to do—re-elect a President because he kept us out of war—we shall advertise to every nation that we are a yellow race. They do not respect our government now. They do not respect us. When this advertisement has been made our proclaimed yell streak will be taken into consideration by every nation which may have matters to take up with us.

The Democratic party is trying to force a confession of cowardice from the people.

TRAGIC ACCIDENT GRIEVES QUEBEC

MRS. A. E. SWIFT IS KILLED BY TEAM OF RUNAWAY HORSES.

A very sad accident took place yesterday afternoon when Mrs. Swift, wife of Lieut.-Col. A. E. Swift, D.S.O., officer commanding the 2nd Battalion, C.E.F., now at the front, was knocked down by a runaway dray at the corner of Lachefroisier Street and Grande Allee, whilst on her way to fetch her children, who were spending the afternoon with Mrs. Code, Grande Allee Apartments, and received such injuries that she only lived a few minutes afterwards. It appears that whilst the driver of a double team was at the back of the Ross Rife delivering a load, the horses for some reason, as yet unexplained, took fright and galloped away into Grande Allee, where they raced towards the Apartment House. On approaching the building Mrs. Swift, who was walking in the opposite direction, noticing the runaway team which appeared to be getting nearer the sidewalk, turned down Lachefroisier street to avoid them. The horses, however, took the same direction with the result that the shaft of the dray struck the unfortunate lady, hurling her down and inflicting fatal injuries. As soon as the accident occurred Miss Meredith, who had been standing on the steps of the Apartment House at the time, immediately ran to the scene and with the assistance of Constable J. Coleman, who jumped off a street car on seeing the accident, carried Mrs. Swift into the house of her father, Mr. E. G. Meredith, 133 Grande Allee. Dr. Carter, who had been summoned, was quickly in attendance, but notwithstanding all that medical skill could do, Mrs. Swift passed away within ten minutes from the time of the accident without regaining consciousness.

The late Mrs. Swift was a member of a family highly respected in this city. She was the daughter of the late Lieut.-Col. Erskine Scott, and besides her husband Lieut.-Col. A. E. Swift, she leaves two young children, Miss Marjory and Master Guthrie Swift; a sister, Miss Minnie Scott, and three brothers Mr. Herbert Scott, Mr. Arthur Scott and Mr. Harry Scott, who will have the deep sympathy of the community in their sad bereavement.

MRS. BERNARD LEONARD HAS PASSED AWAY.

It is with deep regret that large circle of friends of Mrs. B. Leonard, of 65 Grande Allee will learn of her death which took place last evening, after a prolonged illness, which she bore with christian fortitude. The late Mrs. Leonard, who was formerly Miss Catherine Kerwin, was an esteemed member of St. Patrick's congregation, was of a very charitable disposition, and was a generous benefactor to St. Patrick's Church and St. Bridget's Home.

To mourn her loss the deceased lady leaves her husband, Mr. B. Leonard; a daughter, Miss Beatrice Leonard; and five sons, Messrs. John and Bernard Leonard, Major William Leonard, Private George Leonard, now overseas, and Mr. Esmond Leonard, all of whom will have the sympathy of numerous friends in their bereavement.

THE TREATMENT OF INFLUENZA OR LA GRIPPE

It is quite refreshing these days to read of a clearly defined treatment for Influenza or La Grippe. In an article in the "Lancet-Clinic," Dr. James F. Johnson, of New York City, says he is convinced that too much medication is both unnecessary and injurious. When called to a case of influenza, the patient is usually seen when the fever presents as the chief which occasionally usher in the disease, has practically passed away. Dr. Bell then orders that the bowels be opened freely with salts, "Acetate" or citrate of magnesia. For the high fever, severe headache, pain and general soreness, one anti-painful tablet every three hours is quickly followed by complete relief. Ask for A-K Tablets. They are also unexcelled for headache, neuralgia and all pains.

LADIES WILL AID RECRUITING HERE

VERY LARGE AND ENTHUSIASTIC MEETING HELD AT THE CHATEAU FRONTENAC.

In answer to an invitation to lend their co-operation in aiding recruiting in this district an exceptionally large number of ladies attended a meeting at the Chateau Frontenac yesterday afternoon arranged by Brig.-General Fages for the purpose.

The meeting was opened by General Fages, who explained in English and French, the object for which it had been called and in conclusion he introduced Rev. Mr. Belford, chaplain of the 171st Battalion. This speaker made a spirited appeal to the ladies present to use their influence and energies in helping to stimulate recruiting. He told the ladies that their record in matters of importance undertaken in the past had been so successful that he felt confident that with their assistance the present effort to stimulate enlistment would meet with equally good results. Rev. Mr. Belford paid high tribute to General Fages, who had conceived the idea of arranging such a meeting.

Rev. Father Giguere, chaplain of the 167th Battalion, was next introduced. He also delivered a very able address, impressing upon the ladies the importance of lending their efforts in this campaign.

Lieut. Christian Chaneul, of the 50th Infantry Regiment, of France, who was recently invalided to Quebec, told of the great demand for fresh men to fill the ranks of the Allies on the western front. He described many of his interesting experiences to show the urgent need of strong arms being kept, especially at this stage when the Allies are on the offensive.

After the very stirring addresses, Brig.-General Fages thanked most heartily the ladies of Quebec for attending in such a large number, and he invited the ladies present who were willing to lend their assistance, to sign a book brought to the meeting for the purpose. A meeting of all those who signed will be held at Chateau Frontenac on Thursday afternoon next, when the ladies will organize a committee.

Before the meeting adjourned a vote of thanks to Mr. Fred McMahon, manager, and staff of the Chateau, for their kindness was proposed by Gen. Fages.

You have a bad cold!

Then listen! Cold attacks the lungs and the breathing passages. To cure it you need to get at these organs direct. STARS PLAY
HERE TOMORROW

THOMSON-COUTURE
BOUT ON FRIDAY

STARS OF MONTREAL WILL MEET ST. PATRICK'S WEDNESDAY AFTERNOON

Laval, Local Champions, Would Not Undertake Financial Risk Involved in Bringing Montreal Champs Here— League Fined St. Romuald Ten Dollars and Officially Declared Laval Champions.

One of the most harmonious meetings of the City League season was presided over by Mr. Johnny Brunneau last evening at the Victoria Hotel. The Laval baseball club was officially declared champions of the league for 1916, and received the congratulations of the other clubs. Even Tancred Boucher, the famous leader of the Indians was present and paid up his fine of ten dollars which the league imposed because of the defaulting of last Sunday's game. Boucher did not say much but stated that he could not bring his players back here for last Sunday's game and therefore it was out of the question to think of playing the Laval club for the pennant.

The Laval Club will receive the handsome Richelieu Tobacco Cup, the Boswell trophy and the Spalding Cup. Both Richelieu and Boswell Cups are in possession of St. Patrick's just now and the Saints will have to kiss them good-bye for another season.

It is now quite possible that the Stars of Montreal will come here on Wednesday to play St. Patrick's. Laval could not see their way clear to accept the terms offered by Cecil Hart but Manager Newton of St. Patrick's is willing to take the risk and negotiations are now practically completed whereby the Stars, Champions of the Montreal League will play against St. Patrick's here on Wednesday on the Exhibition grounds. The St. Patrick's team, as everyone knows is a formidable aggregation and Newton will have the whole squad on hand with the exception of Eddie Ramsey, whose place at second will be taken by Lou Mace.

The Stars have quite an organization including Malcolm Fraser who is touted as the peer of the famous Duchesnil. Fraser has broken all records for strikeouts in the Montreal city league and his reputation is a big one. Towne is catching for them while "Bud" Craver one of the classiest first-sackers in the league covers the initial bag. Rice is the regular second baseman, though Camie Ashton, formerly of the St. Pats club of this city subs at second. Eddie Cline who played great ball with the Emmets is playing in the outfield for the Stars, while "Lefty" Williams the centerfielder who signed up with St. Pats at the beginning of the year will be lined up against the Saints Wednesday.

The game will begin at 1.45 Wednesday afternoon on the Exhibition Grounds and it is expected that one of the largest crowds of the season will attend if the weather is fine at all.

The St. Patrick's team will likely be: Campagna and Maurais, pitchers, Manager Newton, catcher, "Bill" Fields, first base, Lou Mace, second base, George McLeod, third base, Sergt. Cliff McKee, shortstop, Sergt. Eddie Kirkwood, left field, Frank Sackman, center field, Tom Kelly, right field.

Campagna's great pitching against Laval last Sunday has shown that Pierre is in his best shape just now and can be depended upon to give the Stars some anxious moments.

White and Palmer will provide the preliminary fireworks on Friday night in a ten round bout.

This should be a good test for the two little fellows.

There is some talk of a match between "Red" Allen and "Spike" Sullivan.

"Spike" is much heavier than "Red" but the latter has stated that he could put Jones and Sullivan away in one night and "Spike" wouldn't mind showing him that there is a limit.

Allen has left for New York where he will take part in one or two bouts.

Gus Lavigne is back in great shape and expects to stop Legare.

Young Kid Williams would meet Young George Rivet.

"Bull" Thomson is expected here today. "Bull" will do his best to make Couture do "Quebec Bridge" act.

Willie Andrews and Brown will be here for their bout at the Grande Allee Rink on the tenth.

LEVINSKY OUTFOUGHT.
New York, Oct. 30.—Billy Miske, of St. Paul, outfought Battling Levinsky in a ten round bout here tonight. Levinsky weighed 181 pounds, 10 1-2 heavier than his opponent, but Miske was on the aggressive throughout, having the better of six rounds. In the fourth round Miske closed Levinsky's left eye and in the fifth added a hard left on his right eye.

Sporting Notes

Laval are now officially declared champions of the Quebec and District Baseball League for the season of 1916. Hearty congratulations are now in order.

While the management of the champions could not see their way clear to shoulder the financial risk of staging a game here with the champion Stars of Montreal, the St. Patrick's team are ready and will play the Montrealers on the Exhibition Grounds, Wednesday afternoon.

Manager Newton of St. Pats expects to have his whole regular lineup with the exception of Ramsey, whose place at second will be filled by Lou Mace.

Tancred Boucher was at last evening's meeting of the baseball league and paid up his fine of \$10.00 without a kick.

Heard in the Bowling Alley:—"Say, Bill, that fellow Spayre is the meanest guy I know."

"How's that?"
"Why, he never tries to make a strike because he says he only gets one shot then and is therefore not getting his money's worth unless he gets two shots every frame."

The Emmet baseball club will hold a euchre and dance in the Emmet Hall this evening. There will likely be a very large attendance as entertainments by this popular club have always proved enjoyable.

Eddie Cline will line up with the Stars against St. Pats, tomorrow afternoon. "Pierre" Campagna has not yet faced Cline this season.

"Lefty" Williams who was signed up by St. Patrick's at the commencement of the season will be in the lineup of the Stars also. Williams was hurt during the season's playing but lately resumed his position on the team.

Fans who expressed the hope that they would see St. Patrick's defend the honors of the Quebec City League in a post-season series will now have their wish gratified.

After all the expenses of last Sunday's game were paid, Manager LeTourneau of the All-Stars did not have enough money left to pay for a charity-tax ticket.

George Kennedy has given out another scheme to gain the confidence of the fans. He offers the Canadians to any overseas regiment to operate during the winter.

It is a pity that Laval could not see their way clear to play the post-season series with the Stars of Montreal. Laval are playing good ball just now and have had more practice than any of the other teams. St. Patrick's have not played for some time but some of their players are in good shape. McLeod, Kelly, McKee and Campagna played for the All-Stars last Sunday.

Tomorrow's game will begin at 1.45. There should be a large attendance as it will be a holiday attraction.

"Jimmy" Lonergan, the Sons of Ireland coverpoint, is an allround athlete. Jimmy has played on the Loyola College hockey team, Lacrosse team and now figures on the Football team at right half. He played for Loyola against the Ottawa collegians, Loyola winning 20-1.

PACIFIC COAST PAYING SOME ROLL.

Vancouver, Oct. 30.—President Patrick, of the Pacific Coast Hockey League, says there will be no reduction in salaries of coast hockey players, and in some cases increases are almost certain to be given. The annual meeting of the league will be held on Nov. 9 or 10 in this city, and at this meeting the agreement with the National Hockey Association will be formally ratified.

TRIED TO WIN LOVE WITH "POISON PEN."

Chicago, Oct. 30.—Confronted by evidence that he had written more than 100 letters attacking the reputation of one of his woman teachers, John Henry Hill, Principal of the Morgan Park High School, after an all night grilling in the office of the Board of Education, confessed that he had attempted to wreck the teacher's home to win her for his sweetheart.

Hill's resignation was accepted, and on promise to leave Chicago within twelve hours it was agreed that he should not be prosecuted. He has a wife and five children, and the woman to whom he wrote, Mrs. Marie Moore, is married to Oliver C. Moore, a dental student at Northwestern University. She was teaching to pay his tuition.

WHAT FRATERNITY ASKS OF COMMISSION

BASEBALL PLAYERS ORGANIZATION SENDS ULTIMATUM TO NATIONAL BODY.

New York, Oct. 30.—The official list of requests which virtually means an ultimatum, made by the Baseball Players Fraternity to the National Commission and the National Board of Arbitration for concessions to its members, was outlined today by President David L. Fultz, of the Fraternity, as follows:

"First—That clauses in baseball contracts empowering clubs to suspend without pay, after certain periods of disability, players who are injured in service, be eliminated, and that such players be entitled to full pay as long as they are held under contract.

"Second—That rule 34 of the "rules and regulations" of the National Board be amended insofar as it violates section marked "first" of the Fraternity agreement.

"Third—That minor league players receive their traveling expenses from their homes to the training camps when reporting for spring practice. (The words "traveling expenses" to include in addition to railroad ticket, berth and meal money where either or both of the last two items are usual expenses of the trip involved)."

"Fourth—That the procedure now employed by the National Board in hearing players' claims presented by the Fraternity be amended so that the Fraternity shall receive copies of the defenses interposed by the clubs and an opportunity be given it of answering such defenses; that immediately upon decisions being rendered, the Fraternity shall be served with a copy thereof and the players' exhibits, if any, presented by the Fraternity, returned to it, if requested. That the board shall enforce its award against the clubs."

In a brief supporting the Fraternity's petition, President Fultz, acting for the board of directors, says in part, referring to minor league players:

"When a class A, A. or class A. player receives a five days notice of unconditional release, he must be free to sign with any team immediately, the contract to run from the expiration of his notice of release."

"This section permits a player who has received notice of his unconditional release, to immediately negotiate for his services so that by expiration of the release period, he will have a position open for him. Rule 34 complained of, takes this right away from the minor league player, thus materially lessening the value of the release notice."

Paul Drouin of the Laval team says that he will retire from baseball now that his club has at last won the championship. But the eminent lawyer will likely be found on the coaching lines next summer just as "vacillistic" as ever.

IRWIN DISCOVERED "BENNY" KAUFF

TORONTO SCOUT CLAIMS HE UNCOVERED MCGRAW'S "TY COBB."

Arthur Irwin of the Toronto Ball Club believes the rise to fame of Benny Kauff vindicates him as a scout, for it was Irwin who dug up John McGraw's second Ty Cobb. Also Irwin says if there had been a different system of trying out the Yankees today would be boasting of this former outlaw beauty. Incidentally Irwin takes issue with the system of quick tests for recruits now rather general among major league managers. Drastic roster limits and club treasury troubles of late years have about done for the gradual development of youngsters by big league teams.

"The difference between \$300 in cash and a \$35,000 ball player is what the New York American League club might have saved if my theory that a bushier is entitled to gradual polishing instead of a quick-fire test of his ability had been worked out in Kauff's case," argued Irwin.

"Late in the summer of 1910 I first struck Benny's trail. He was then past timing in the Virginia Valley League with the Parkersburg team. I watched him slam the ball in four or five games and I then was ready to stake my reputation on his ability to hit. That fall we drafted the player; he cost us only \$300. The next spring he went to Athens, Ga., with the Yankees. With Parkersburg the previous season he had batted .417, against all sorts of pitching. Well, he pelted good and bad serving on that training jaunt. I don't say he was a good felder or used good judgment in his base running, but he could hit. And the other qualities usually come in time under proper coaching."

"I remember some freak stunts Kauff pulled one day on that trip. The Yankee Yarnigans were on their way north. I was managing them and we were up against a college team down in Virginia. The first time up Benny poled a single and was out trying to stretch it. Next time he hit to centre for a double and was thrown out striving to reach third. On his fourth attempt he hit one over the centre fielder and was tagged out sliding home. His one idea was to keep going until the ball reached some base ahead of him."

"That, of course, was kid stuff—Benny was only 18 at the time—but he was an unpolished star then. His ability to hit the ball on a line to any field was due to his unusual muscular development. He had exceptionally powerful shoulders and arms.

"BULL" THOMSON ARRIVES TODAY

VICTORIA CLUB EXPECTS BOXER THIS AFTERNOON— WHITE AND PALMER SIGNED ON FOR FRIDAY NIGHT.

George Belanger did a good day's work yesterday when he signed up Young Charlie White and Kid Palmer, two of Quebec's best bantams for a ten round bout before the Victoria Club, Friday night. Though the bout will be put on as a preliminary, yet the interest which will be taken in it will make it just as appetizing to the fans as any main bout. White earned the decision over Palmer in their first meeting while Palmer got the shade in a recent battle. White claims that over the ten round route he will demonstrate his superiority without question and as the fans will be anxious to see the mill, the Victoria Club have made a good move in signing the young scrappers up.

"Bull" Thomson is expected in town this afternoon to prepare for his bout with "Coon" Couture. Thomson is a classy boxer, fights openly and there is little doubt but that he will greatly please the fans as he has done so on former occasions. Couture has shown that his promise to train faithfully was no bluff by his great showing against F. White whom he almost knocked out here some time ago.

The semi-windup attraction will be a meeting between "Gus" Lavigne and Soldier Legare. Lavigne has not appeared in a Quebec ring for some time and as he intends to re-enter the fighting game in real earnest he is out to give Legare a good facing if possible. Legare, however, has learned a lot since his fight with Dillon chief amongst the things taught him, being that a boxer cannot win a fight if he is not in shape for it. He is sore over his defeat by Dillon and after he is through with Lavigne intends to secure a return match. He is confident of giving Gus a big battle and is working hard to be in his oldtime shape, when he used to clean them all up one by one.

HARNESS RACING AT LAUZON.

A large crowd of race-track followers watched the harness racing events at Lauzon. Both races were won in straight heats, Crispin winning the special trot.

Mr. D. Chantal of Quebec was starter and as usual gave entire satisfaction.

The results:—

Special trot:—1st, Crispin, A. LeTourneau; 2nd, Charley Hal, D. Samson, 3rd, G. G. Carl, H. Samson.

Time, 2:27 1-2; 2:27; 2:24 1-4.

2:35 Trot and pace:—1st, Inconnu, W. Carrier; 2nd, Elvecias, Alex. Guay, 3rd, Red Carrie, T. Bilodeau.

Time, 2:34, 2:34 1-2; 2:30.

The St. Patrick's Hockey Club will meet this evening, this being their Annual assembly date.

KING GOSSIP.

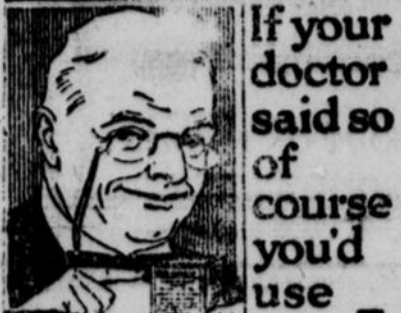

White and Palmer will provide the preliminary fireworks on Friday night in a ten round bout. This should be a good test for the two little fellows. There is some talk of a match between "Red" Allen and "Spike" Sullivan. "Spike" is much heavier than "Red" but the latter has stated that he could put Jones and Sullivan away in one night and "Spike" wouldn't mind showing him that there is a limit. Allen has left for New York where he will take part in one or two bouts. Gus Lavigne is back in great shape and expects to stop Legare. Young Kid Williams would meet Young George Rivet. "Bull" Thomson is expected here today. "Bull" will do his best to make Couture do "Quebec Bridge" act. Willie Andrews and Brown will be here for their bout at the Grande Allee Rink on the tenth. LEVINSKY OUTFOUGHT. New York, Oct. 30.—Billy Miske, of St. Paul, outfought Battling Levinsky in a ten round bout here tonight. Levinsky weighed 181 pounds, 10 1-2 heavier than his opponent, but Miske was on the aggressive throughout, having the better of six rounds. In the fourth round Miske closed Levinsky's left eye and in the fifth added a hard left on his right eye.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

NO STOMACH PAIN, GAS, INDIGESTION IN FIVE MINUTES

"PAPE'S DISPEPSIN" IS THE ONLY REAL STOMACH REGULATOR KNOWN.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach regulator in the world.

CANADA AND OCEAN TONNAGE SHORT

QUESTION DISCUSSED BEFORE DOMINION ROYAL COMMISSION IN MONTREAL

Montreal, Oct. 30.—It is about time Canada was doing something to relieve the ocean tonnage shortage, according to Hon. J. R. Sinclair, New Zealand member of the Dominion Royal Commission, which this morning heard evidence of ship scarcity from James Carruthers, Montreal, the inequality of freight rates on wheat and on flour, and the side of the ship owners on these points from W. I. Gear, Montreal.

In dealing with the shortage of ocean tonnage Mr. Carruthers said that it would be possible to ship twice the quantity of grain from Montreal if the ocean tonnage were available. His explanation for the shortage was the increased insurance on the St. Lawrence route and the great disadvantage of the port being closed during winter.

Mr. Sinclair: "Is anything being done in Canada to supplement the tonnage? are you building any boats here?"

Mr. Carruthers: "No, not as far as I know."
Mr. Sinclair: "It is about time that you were up and doing something in Canada."

Mr. Black quoted figures to show the big difference in freight rates between wheat and flour.
Mr. Gear admitted the difference but argued that shippers did not consider the larger space occupied on ships by flour. The average cost of handling flour on ship and on shore was four times that of wheat.

SS. FOLIA COLLIDES WITH WHARF.

The SS. Folia was damaged slightly on starboard quarter when she jarred against the wharf at shed 19 in the Louise Basin last night when leaving the Basin. Although the damages were thought to be trivial the local agent of Robert Reford & Co. decided as a precautionary measure to retain the ship until an inspection is made. It is stated that there is insufficient electric lights along this part of the Basin.

SHIPPING NOTES.

The SS. Phoenix, the Danish vessel chartered by Robert Reford & Co., which has been taking on deals in the Louise Basin left yesterday for Montreal to complete her outward cargo.

SS. Manchester Inventor after discharging a portion of her cargo here and taking on a quantity of spool wood left yesterday for Montreal.

The SS. Peshawar and schooner A. Tremblay were among the vessels to pass this port yesterday bound for Montreal.
Two sailors of the Manchester Line Manchester Inventor which reached port Sunday, were brought before the Court of Sessions yesterday afternoon on a charge of deserting their ship. The defendants, John Gillon and Edward Nurgent, were each sentenced to four weeks' imprisonment and ordered to be put on board the vessel before she leaves port for overseas. Yesterday the Manchester Inventor left for Montreal and the two condemned sailors are due to remain in jail here until she returns to Quebec.

Killing the Calves
—All sorts of excuses are offered for the high price of beef, the most plausible being the alleged demand for veal—"the killing of calves which should be allowed to grow into regular beef." You cannot have beef if you eat it as "veal," but you can have Shredded Wheat Biscuit which contains more real nutriment than beef and costs much less. Shredded wheat biscuit is the whole wheat steam-cooked, shredded and baked. Make it your "meat" for ten days and see how much better you feel. Wholesome and strengthening for any meal with milk or cream or in combination with fruits.

Closing Letters By the Can. Press

(Canadian Press) New York, Oct. 30.—The conflicting and erratic course of today's trading suggested adjustment of speculative contracts preliminary to the approaching election.

Closing Letters By Local Brokers

(By L. G. Beaubien & Co) We have witnessed another day of strong and active trading. Dominion Steel continues the leader and as far as activity is concerned it certainly was the feature.

United States Steel also reflected the diverse opinions current regarding the quarterly statement to be issued tomorrow. For some inexplicable reason forecasts dealing with this event was more conservative than the estimates and views of the previous week.

Metal issues made up a goodly part of the days large and diversified business. Chino Copper being most conspicuous in its particular class by reason of its ascent to the new record of 63 1-8.

Bonds were again uneven on lower quotations for internationals. Total sales, par value, aggregated \$4,960,000.

COTTON MARKETS. New York Oct. 30.—Cotton futures closed steady. Closing bids: December, 18.53c; January, 18.49c; March, 18.64c; May, 18.77c; July, 18.79c.

People seemed to be hesitating and did not feel like making new commitments during the late trading attributed to the report of an English ship having been sunk on which there were Americans and Philipinos among the crew this may cause further profit taking, however we would buy the good dividend paying cotton stocks on all reactions.

Montreal, Oct. 30.—Trading today was active and was well distributed throughout the list. At the opening Iron and the cotton stocks were the feature the former sold up to 72 3-4, a new high on this movement.

(By Bruneau & Dupuis) New York, Oct. 30.—Today's market has been quite interesting, although it was rather quiet and somewhat reactionary most of time.

(By Bruneau & Dupuis) Chicago, Oct. 30.—Wheat—As usual, wheat made a new high and held the advance well up to mid-day. The December delivery showed more strength than the deferred months, probably because foreign buying in December delivery has been so widely advertised and the public is confining its bear operations to the May and July.

(By Breen & Gourdeau) Toronto — Quotations are as follows: Wheat: Ontario (new crop) No. 2 winter, \$1.71 to \$1.73 outside according to location.

little changed. A good volume of trade continues and the strength in Winnipeg is reflected in a small way in our market. New York—Sentiment in speculative circles is still somewhat confused. This fact is best indicated by the continued irregularity of price movements, and today's session was no exception.

BECMAN APPEARS AT THE SPECIAL MATINEE TOMORROW AFTERNOON

"LE MONDE OU L'ON S'ENNUIE" AND "SON HOMME" TO BE REPEATED — "ARSENE LUPIN" WED. NIGHT, THURS. MATINEE AND EVENING.

"Le Bossu" will be repeated tonight at the Auditorium. At the special matinee tomorrow afternoon, the French players will give another performance of "Le Monde Ou l'On S'Ennuie," and "Son Homme," which were played to crowded houses on Friday and Saturday and pleased so much that a great number of requests were addressed to the manager of the Auditorium, asking him to have the plays repeated at the special matinee. Becman in "Arsene Lupin,"

Wednesday and Thursday.

Tomorrow night, Thursday afternoon and evening, the Quebec public will have an opportunity to see "Arsene Lupin" as it should be played. Mr. Becman, who is probably the best

Arsene Lupin that ever played the part, aside from the one who created the role, has the title role of the cast. Mr. Benedict, the director of the company, will make an ideal Guichard, and Miss Mirval will also star in the role of Sonia.

"La Francaise" and "Son Homme" Friday and Saturday.

Brieux's "La Francaise" is on the bill for Friday night, Saturday afternoon and evening. This play in which are shown the characters of the French and American citizens, is one of the most amusing comedies of our days. "Son Homme" will also be repeated at all three performances on Friday and Saturday.

"PHANTOM FORTUNES" A HIT AT EMPIRE

Splendid Film at Popular Theatre Will be Shown Again Today.

"Phantom Fortunes" greatly pleased large houses at the Empire yesterday and should draw big crowds again today.

Mr. Jules R. Lanthier, the new manager of the theatre, intends to give his patrons some of the best films on the market and expects crowded houses during the coming months.

Adele DeGarde, the Vitagraph player who won many friends as a child in the pictures, is seen to excellent advantage in "Phantom Fortunes," the Blue Ribbon Feature released which stars the Hebrew comedian of "Potash and Perlmutter" fame—Barney Bernard.

Edward Elkas, the villain of the Vitagraph Company, is also found in a role decidedly to his liking in "Phantom Fortunes," the Blue Ribbon release which stars the Hebrew comedian, Barney Bernard. This film will be shown for the last time today at the Empire Theatre.

Dyspeptics Should Avoid Drugs And Medicines

Try a Little Magnesia Instead.

Some people instinctively shut their eyes to danger, and it may be that instinct, or custom or habit causes dyspeptics to take drugs, patent foods and medicines, artificial digestents, etc.

But closing the eyes does not banish the danger, and it is certain that neither drugs nor medicines possess the power to destroy the harmful excessive acid in the stomach, which is the underlying cause of most forms of indigestion and dyspepsia. They may give temporary relief, but ever increasing quantities must be taken, and all the time the acid remains in the stomach as dangerous as ever.

Physicians know this and that is why their advice so often suffers from digestive and stomach trouble is "Just get about an ounce of pure bisurated magnesia from your druggist and take a teaspoonful in a little water immediately after every meal. This will instantly neutralize all the harmful acid in the stomach and stop all food fermentation, thus enabling you to enjoy hearty meals without experiencing the least pain or unpleasantness afterward."

LAST DAY OF METRO WONDERPLAY AT OLYMPIA

The Olympia is the only theatre in Quebec showing the new Metro releases.

MEETING OF THE CITY COUNCIL

(Continued from page seven)

man Dussault (Belvedere), seconded by Alderman Mercier, in amendment thereto: That, in the petition to obtain power to borrow, which will be presented to the Legislature, at its next session, the following amounts be added: \$45,000, of which \$25,000 to be spent in permanent works in Belvedere Ward, and \$20,000 for the extension of Chateauguay street to the hill known as Bell's Road, which sum of \$45,000 will raise to \$245,000 the loan for permanent works; and the said amendment being put to the vote is voted upon as per the following division of 9 for and 9 against, as follows, to wit:

For: Aldermen Bertrand, Dussault (Belvedere), Fiset, Gauvin, Lockwell, Madden, Mercier, Paquet (St. Sauveur), Theriault (9).

Against: Aldermen Bouchard, Dussault (St. Louis), Galibois, Glode, Lantier, Martin, Paquet (J.-Cartier), Pettigrew, Verret (9).

And the vote being equally divided, His Worship the Mayor registers his casting vote against the motion, which is declared lost.

And the said third report of the Special Committee, as amended, being submitted to the vote in toto, is adopted; and it is ordered that a bill be prepared in consequence by the city's legal adviser, to be presented to the Legislature.

The report of Mr. Baillairge, City Engineer, declaring that urgent repairs are needed to city property to the amount of \$43,992.25 is then taken up and referred to the Road Committee, together with the report of Mr. George Emile Tanguay, architect.

The letter from the Quebec Board of Trade, suggesting to tender a civic reception to the Dominion's Royal Commission, on the 2nd and 3rd of November next, is then taken up, and it is unanimously resolved: That His Worship the Mayor is requested to arrange a suitable reception and is authorized to make the necessary expenditure.

Questions:

By Alderman Bertrand: Is it to the knowledge of this Council that the master bakers have resolved to diminish the actual weight of bread loaves which is now 3 and 6 pounds respectively, and to reduce it to 2 1/2 and 5 pounds respectively. Is there a by-law that prohibits the said sale?

By Doctor Fiset: Is it to the knowledge of the Police Department, or of the bread inspector, that the bakers are delivering loaves weighing only 5 pounds. Is it the intention of the city authorities to inquire in the matter?

Notices of Motion.

By Alderman Galibois: That, at the next meeting of this Council, he shall move that, after the 30th of April, 1917, the salary of Mr. L. J. C. Lafrance, Consulting Treasurer, be reduced from \$3,000 a year to \$1,000 a year;

That the salary of Dr. Catellier as Consulting Physician of the Board of Health, be reduced from \$2,000 a year to \$1,000 a year;

That the salary of Mr. Edward Foley, as Consulting Clerk of the Recorder's Court, be reduced from \$2,000 a year to \$1,000 a year;

And that notices of such resolutions be sent to Mr. L. J. C. Lafrance, Doctor Catellier and Mr. Edward Foley on or before the 31st of December next.

By Doctor Dussault: That, at the next meeting of this Council, he shall move: That the By-law Committee be instructed to prepare a by-law ordering that, every five years, a census be taken of the population of the City of Quebec.

It is moved by Alderman Lockwell, seconded by Alderman Theriault, and resolved: That a vote of thanks be passed to Mr. Eugene Tanguay, Manager of the Public Service Corporation Company, for supplying, free of charge, a considerable number of electric lights for the celebration of the golden jubilee of the Fire Brigade, for the decoration of the fire stations of the city.

It is moved by Alderman Bertrand, seconded by Alderman Bertrand, and resolved: That in consideration of the high cost of living and of the approach of winter, the summer wages paid to the workmen of the Road and Waterworks Departments continue to be paid to them during the coming winter for such number of hours of labor which shall be determined in the discretion of the Chairman of the said Committee.

Moved by Alderman Verret, seconded by Alderman Gauvin: That His Worship the Mayor be authorized to contract with the Bank of Montreal a temporary loan of \$50,000 to be carried to the credit of the construction of the stand on the Exhibition grounds, said temporary loan to be paid out of the proceeds of the permanent loan to be authorized by the Legislature. And the said motion being put to the vote, Alderman Dussault (Belvedere) draws the attention of His Worship the Mayor to the fact that the clock has struck midnight, and that the Council must adjourn. And His Worship the Mayor declares the Council adjourned.

Adjourned.
