Ormstown Citizens Listen To Interesting Address in Education Week Observance

Schools Should Make Positions Attractive to Retain Services Good Teachers, Says Mr. A. Lang; Town League Hockey Finals

The importance of education was stressed by Mr. Arthur Lang in an address delivered in Ormstown Academy on Friday evening in conjunction with Education Week. Mr. Lang, who is a former principal of the school and is at present principal of Willingdon School, Montreal, spoke before a large and representative audience, among whom was a number of his former pupils.

In his opening remarks the speaker emphasized the seriousness of the present international situation and the very real threats which now fall on democratic institutions. He described briefly the conditions in those countries now in the hands of dictators and pointed out also a few shortcomings in our democracies. A democracy therefore is to meet the challenge of dictatorship. Mr. Lang said it must maintain and improve its educational institutions.

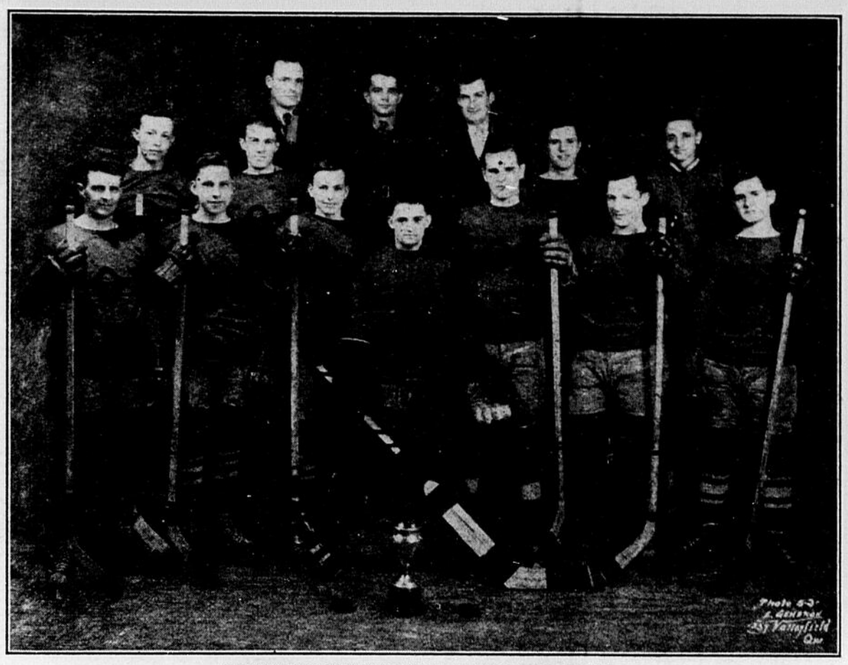

Turning then to educational problems the speaker mentioned several improvements that have been made in recent years. School work has been made more interesting, especially such subjects as geography and history. In most schools now the pupils enjoy their work especially in the elementary classes. Progress has not been so marked in technical education where our facilities are the poorer than those of other provinces, notably Saskatchewan. Mr. Lang gave several pertinent illustrations showing the possibilities of trying to educate all our pupils for university work when so many of them have no intention of entering the university.

Mr. Lang then spoke of conditions in the teaching profession. He quoted one authority as saying "there are three sexes:—man, woman, and male teachers." Like most school administrators he said he was perfectly aware that there are shortcomings and that teaching does not always attract the best type of men and women. Certainly it does not attract men like Mackenzie King, R. B. Bennett or Sir Edward Beatty for the simple reason that the salaries are far from adequate. Nevertheless Mr. Lang was quite sure that the average teacher was capable, honest and above all self-sacrificing. In recent years they had accepted lower salaries without complaint and without losing any of their enthusiasm. In some instances teachers had had exceptional influence in the community, an influence that can never be recompensed in money. This type of teacher was one that committees should try to secure making their positions sufficiently attractive to retain their services.

On Friday Ormstown Town Canadiens defeated East Ormstown 3-2 to win the best out of three series, two games to one. The game was played before a fair sized crowd and was full of spills and thrills. Both teams were out to win the Beauchamp cup and the Canadian Bank of Commerce medals and so from the first bell things began to happen.

The first period saw both teams make many rushes and the goal tends of both clubs were forced to make many spectacular saves. At 10.05 of this period "Del." Pettes took E. Cartier's pass to give Canadiens a goal to the good, but this lead was short-lived, Joe Boyle scoring at 15.06 on assists by H. McAdam and E. McBain. It is seldom that a goal keeper gets an assist but Eric McBain got his assist in the following manner. Eric stopped a

CHAMPIONSHIP TEAM OF DISTRICT LEAGUE

Officers and members of the Ormstown Hockey team which won the League championship in a two out of three series against Huntingdon Windsor Silks. Reading left to right. Back row: Médard Billette, club president; Jos. McNichol; John Cartier, manager. Players: left to right: Johnny Murphy, defence; Ernest Legault, Boyd Campbell, and Bernie Boyle, forwards; Bobby Campbell, defence; Jules Cartier, goaler; Burry McGerrigle, Merrill Smith, and Johnny Campbell, forwards; George Legault, trainer; Bertie McCartney,forward. They will meet another Huntingdon team for the Fisher Trophy.

Half Million For District In Estimates

Chateauguay - Huntingdon Gets $45,400 in Grants From Ottawa

Supplementary estimates tabled in the House of Commons at Ottawa last week show that the district federal members have been exceptionally active during the past summer. The total secured by Donald E. Black, M.P., Maxime Raymond, M.P., Vincent Dupuis, M.P., and Martial Rheaume, M.P., amounts to $617,900.

The largest item, $500,000, is for improvements in the Richelieu River, work which has been of particular concern to people in the St. Johns area. The second largest item is $38,000 for St. Johns custom building. $30,000 is provided for a protection wall at Laprairie, $4,500 for St. Paul. Under the heading of St. Chrysostome, $12,900 is provided for protective walls and cleaning of the English and Black rivers. $19,000 will be spent in dredging the Lacolle River, the Provincial Government to contribute a like amount. $13,500 is provided for Chateauguay River dredging but complete details of this work have not been announced.

Bedford Won Neutral Ice Hockey Game

Ormstown Team Lost Out Second Round Rural School League

Bedford High School senior hockey team entered the third round of the schedule of the Rural High School League of the province of Quebec by defeating Ormstown High by a 3-2 score at Huntingdon Saturday afternoon.

The teams played the first period without a score and battled on even terms until 3.01 of the second session before Boyd Campbell found a hole in Bushey's armour for the first goal of the game. Draper wiped out the lead and gave Bedford the advantage with two classy goals within five minutes. Chester McElroy gave the Bedford squad a two goal lead a few minutes later but Bob Campbell whittled the margin down to one with Ormstown's second goal as the period ended.

Neither team could score in the third period and Bushey was called on for some high class goal tending to hold the Ormstown sharpshooters at bay.

Ormstown: Goal, Upton; def., Hertz, Campbell; forwards, Campbell, Maither, Cairns.

Bedford: Goal, M. Bushey; def., S. McCaw, A. Gilman, R. Molson; forwards, D. Draper, D. McElroy, C. McElroy, E. Spencer.

1st Period—No score.

2nd Period—Ormstown: B. Campbell, 3.01; Bedford: Draper (McElroy) 9.21; Bedford: Draper, 13.06; Bedford: C. McElroy, 16.00; Ormstown: R. Campbell, 18.31.

3rd Period—No score. No penalties. Referees: C. Faille, J. Cartier.

This league is sponsored by the Association of Protestant School Boards of the Province of Quebec and is composed of fourteen teams from High Schools in the following towns:— Danville, Richmond, Asbestos and Windsor Mills, in Section A; Scotstown, Sawyerville and East Angus, in Section B; Lennoxville and Ayers Cliff, Section C; Three Rivers and Shawinigan Falls in Section D; Bedford, St. Johns, Section E; and Ormstown.

The Old Question Of Spare Time in Our Country Towns

"What do you do in a small town like this to pass the time?" This time-old question was asked of us by a friend from Montreal on Saturday, and we replied that were he to try and follow us in reporting the events here and elsewhere that day in which Huntingdon citizens took part he would never repeat the question. And then we went on to say that the Academy hockey team was playing in Montreal, that Huntingdon rinks of curlers were playing district medal matches at Outremont, and friendly games at Thistle, Saranac Lake was curling here, Ormstown and Bedford, Que. High Schools played a hockey final in the local rink, St. James the Apostle Badminton Club, of Montreal, was playing Huntingdon, two banquets were taking place at the Chateau, telephone pictures were being shown in St. Andrew's Church annex, there were hockey matches in the morning, and, if there was time left we could go for a skate or a talking picture during the afternoon or evening. We ask "What do we do with our spare time?"

Louden Home At Covey Hill Prey to Fire

Lack of Water to Fight Fire Hampered the Efforts Of Workmen

On Sunday morning of last week, Mr. W. W. Louden's home at Covey Hill was nearly destroyed by fire. Shortly after 10 o'clock his mother noticed smoke and his little daughter Jean discovered the fire upstairs and summoned her brother Alan from the barnyard. The greatest promptitude on his part was unavailing owing to the want of water. Mr. Louden who happened to be absent on an errand, and a crowd of neighbors hurried to the scene. Some fought the fire while others moved the house contents outside and also carried the beehives out of the cellar.

For a time the dwelling itself was given up for lost by many of the spectators, but the quick resourcefulness and cool determination of a splendid minority won the day. While, almost without exception and including some ladies, the assembled neighbours did yeoman service carrying water or saving furnishings, two "good men and true", Torrance Brisbane and Romeo Moise received a special meed of praise from their fellow-workers. There was also demonstrated the advantage of fire-extinguishers of which three were brought to this fire. The Hemmingford fire-pump also arrived for fear the fire should spread to other buildings.

In the afternoon a number of friends returned to reinstall the furniture and other contents, but the house was uninhabitable until quite a deal of repairing was done. The situation was complicated by the absence of Mrs. Louden who was in Montreal awaiting hospital treatment. The insurance was comparatively slight.

Mr. Romeo Moise, who has been employed by Mr. Thos. Waddell for the best part of ten years, has moved with his family to a farm near the Stevenson by-road. The house vacated by him is now occupied by Mr. and Mrs. Hollis Louden.

The farmers have been trying to use the recent few days of sleighing to the utmost. Logs were drawn all night to the mill at St. Chrysostome.

Huntingdon Recaptures Trophy From Saranac

The historic International Cup played for between Huntingdon and Saranac Lake Curling Clubs was won by the local club for the first time when it defeated the curlers from across the line by a 44-31 grand total score in a four-game series played here Saturday afternoon and evening.

Nine players came from Saranac to play against three Huntingdon rinks for possession of the trophy which was put up for friendly competition five years ago. The cup, a wooden one, was made at the City Gas and Electric Corporation mill, and presented to the local curling club, by the then mill manager, J. P. Harvey. It is played for every time the two clubs meet whether once or twice during the curling season. A lot of good fellowship is connected with this little wooden trophy. Saranac Lake won the cup the first year that it was played for and had held it until the Huntingdon curlers recaptured the prize Saturday night. As for most curling games, total points count in the competition.

In the afternoon games J. A. Lanktree lost 11-9 to a rink skipped by P. Stephens and J. B. Carr was defeated 7-8 by L. Benson. In the evening games the local curlers were in better form and romped off with two victories, E. C. Martin defeating C. Hall 15-3, and E. C. Cunningham downing L. Benson, 13-9.

The visitors were supper guests of the local clubs at the Huntingdon Chateau, where C. Hall extended the thanks of the Saranac members for the hospitality shown them here. E. C. Martin replied.

Huntingdon players who took part in the bonspiel were as follows: I. H. Bowden, G. Dixon, J. B. Carr, E. C. Martin (skip), J. Wilson, A. H. Guest, P. Baldwin, E. Cunningham (skip), R. Howe, F. H. Hunter, A. Chambers, J. A. Lanktree (skip).

Huntingdon players have planned a return visit to Saranac Lake this week when the trophy will again be in competition.

The Week at Ottawa

Parliamentary Committee Discovers That Direct Duty on Implements Entering Canada Has Little to do With Present High Prices

By Wilfrid Eggleston

Every farmer knows that farm implements cost plenty. A parliamentary committee is trying hard to find out why. A little over a year ago, just when some farmers were beginning to see faint streaks of daylight ahead for the first time, the list price of farm implements jumped up several notches. A committee of members of the House of Commons was appointed to discover the reason. Meanwhile the duty on farm implements was reduced. It is now one of the lowest in the tariff schedules. But the price of farm implements stays up. The committee came to no conclusion last session, and decided to continue their inquiry. Meantime accountants and economists have been looking into the books of the big producing companies. This session we have had repeated meetings of the committee, exhaustive studies of book-keeping accounts, tariffs, taxes, overhead, labor, capital structure, raw materials. What is the nigger in the woodpile?

So far as I can gather, a major discovery to date is that the direct duty on farm implements entering Canada has now very little to do with the high prices, although other tariff restrictions (such as duty valuations) may be more significant. What would happen if the duty was taken off entirely, on imports from all countries, is problematical. But there is, according to the analyses of farm implement costs submitted to the committee, a very wide spread between the cost of some farm machinery at the factory and the price to the farmer. I noticed one illustration in particular. A machine costing something over $900, at the factory ran up to $2,400 by the time it was taken out by the farmer at his local dealer's. The difference, of course, was not all profit, nor agent's commissions. But a layman would certainly say offhand that there is something wrong with a distribution service when a $900. machine cannot be laid down in a farmer's front yard for less than $2,400.

Another observation is common to almost all industrial production under the profit system. It costs a great deal more per machine when production is slack than it does when a factory is running full blast. As a consequence, farm implements cost much more per implement to make when times are hard and farmers haven't any money, than they do when demand is good and the farmers are relatively able to pay. Why? Because the overhead cost of a factory is much the same when it is running 10% of capacity as at 90%. The overhead per implement in the former case may be several times what it is in the latter.

The effect being that just when the farmer needs a little relief in the way of lower costs of production he is faced with exactly the opposite.

So much, and a good deal more, the farm implement committee is discovering. But what to do about it? That is not such a simple matter.

The government is now moving with its Trans-Canada aviation bill. Although some commercial aviation authorities have been arguing that a start cannot be made until 1938, even with the western half of the service, from Winnipeg to Vancouver, the Department of Transport continues to make plans for a commencement this summer. Dominion Day has been set as a suitable opening occasion, and so far as the facilities to be provided by the government are concerned, namely, the landing fields, aerodromes, radio beacons and weather service, they will, I am told, be ready. There may be some doubt as to whether the new corporation will have its aeroplanes, pilots and other arrangements ready by that date, but I hear that it is at least a good gamble.

There are still some landing fields and other equipment to be put in on the section between Montreal and Winnipeg, and the operation of the eastern half will not be possible until 1938. By that time it is possible that Trans-Atlantic flights will have begun, and a letter which leaves London, England one day may be in Montreal the following day, and in Vancouver 17 hours later. It now takes upwards of 12 days for a letter to travel between these two points.

The budget debate is bringing out some interesting points of view, but it will not go down into history as a classic. Even Mr. Bennett was, for the most part, dull—most unusual for him.

The government is banking on a continued improvement in employment and business. This was shown when the special supplementary estimates were brought down last week. The sum available for relief grants to the provinces is being pared down substantially, while the vote for the deficit of the Canadian National Railways is also down several millions.

The Dominion's contribution toward the direct relief costs in Canada in the present fiscal year, ending in a few days, will be $28,930,000. But the government is only providing $19,500,000 for this purpose in the coming fiscal year.

The total bill for all governments and authorities for direct relief in 1936 (the calendar year) was the staggering sum of $80,600,000. If the

Hemmingford School Stages Special Program For Visitors

Provincial Teachers Association observed educational week in Hemmingford Intermediate School Friday afternoon, Feb. 27. Visitors observed the work of all grades. After which a programme was put on for their benefit. This included a debate entitled "Country Schools are better than City Schools." The negative won according to visitors. Rev. V. C. Rose thanked teachers and pupils for inviting them there and providing a programme for such an interesting afternoon.

Recently grade VIII Science class spent a very interesting and profitable afternoon at Mr. C. E. Petch's office where he gave a lecture on insects of this district. Mr. Petch made his lecture more forcible by the use of the microscope. Mrs. Aitchinson and pupils are very grateful to Mr. Petch for his kind interest in them.

The annual meeting of the Hemmingford Women's Institute was held on Friday. In the continued absence of the President, Mrs. G. S. Walsh, the 1st vice-president, Mrs. Donald Orr, conducted the meeting. After the usual routine of business the Presidential Address was read by the acting president. The secretary's report was given, also reports from the following convenors: Agriculture, Education and Better Schools, Child Welfare and Public Health, Canadian Industries, Home Economics, Legislation and Publicity.

Following this a period of Community singing was enjoyed, after which the nominating committee presented their slate of officers for the ensuing year, which read as follows: Honorary president, Mrs. C. E. Petch, president, Mrs. G. S. Walsh, 1st vice-president, Mrs. Donald Orr; 2nd vice-president, Mrs. Henry Stewart; secretary, Mrs. M. Keddy, assistant secretary, Mrs. C. E. Petch; convenor of Agriculture, Mrs. A. A. Clayland; convenor of Child Welfare and Public Health, Mrs. D. Laurie, convenor of Education and Better Schools, Mrs. E. M. Cunningham, Convenor of Home Economics, Mrs. T. E. Clelland; convenor of Immigration and Colonization, Mrs. E. E. Bourdon; convenor of Legislation, Mrs. Alister Sommerville; convenor of National events, Mrs. Irene Aitcheson; convenor of Canadian Industries, Mrs. V. C. Rose; convenor of Publicity, Mrs. M. Keddy; Finance committee, Mrs. Herbert McNaughton, Mrs. Walter Keddy, and Miss Irene Moore; Visiting committee, Mrs. W. F. Orr, Mrs. J. P. Simpson and Mrs. M. Keddy; Programme Committee, Mrs. Donald Orr, Mrs. E. M. Cunningham, and Mrs. M. Keddy. Mrs. Henry Stewart, and Mrs. Donald Orr were appointed to represent the Branch at the County Convention, and Mrs. J. P. Simpson was appointed representative to the Provincial Convention.

Three Were Badly Hurt in Accidents During Past Week

Three persons were injured here during the past week, but all three are favorably recovering from their rather serious injuries. Last Friday Clovis Venne, a member of the Bell Telephone Company construction staff, jumped from a telephone pole near the Walker Bridge when it broke and suffered a fracture of the right leg between the ankle and the knee. Dr. H. R. Clouston rendered first aid and took an X-ray of the injured limb. The victim was removed to the Montreal General Hospital where the fracture was set and the patient is reported as resting comfortably. Little Ruth Montpetit, of Huntingdon, fell in her home while playing the same day and suffered a fracture of the right arm. The accident happened on the stairs. Rushing through the field from where his car was parked to the skating rink Wednesday night, Glenn Cruickshanks caught into a wire clothes line, had two teeth knocked out, and received slight cuts about the face.

Luck of Irish Lecture Topic United Church

Capacity Hall Taxed to Hear Witty Address By Rev. N. Rawson

The Rev. Norman Rawson, of Ottawa, proved more than an adequate drawing card for the Social Evening held by the Young People's Society of the Huntingdon United Church on Thursday evening. It was a capacity audience and they seemed to be more than happy and satisfied to the end—and afterwards. People attended from points as far apart as Howick and Dundee Lines, forty miles, a record achievement for the first week of March.

"The Luck of the Irish" was the subject of the address, and it was expounded as only an Irishman could do it. The conviction of many Scots that it is impossible for an Irishman to be lucky, was completely shattered in an atmosphere of loud and continuous mirth. Ridiculous idea!

Some on-the-side comments, by the speaker: "Irishwomen are the most beautiful in the world. They have "It". Soft spoken, beautiful blue eyes and clear complexions, not bought at the drug store."

"Germans, both men and women, best and healthiest looking with marvelous physiques."

"Snakes in Ireland were once so enormous that when the head was entering Cork harbor the tail was just leaving Dublin."

Mr. Rawson expanded somewhat in his eulogy of the Country newspapers. They were, he said, a source of great pleasure to readers who practice and appreciate neighborly interest and virtues. "I hope they will never disappear from the countryside. It will be a sorry day if they do. And I charge you to support your local newsaper." On the speaker's own weekly reading list are "The Coldwater Planet", "The Midland Free Press" and the "North Star" of Parry Sound.

During the evening musical selections were given on the piano by Miss Elsie Sellar and Miss Dorothy Davis and Irish songs by Mrs. N. W. Reese and Mr. Chas. Reid.

Rev. A. Nimmo, of Athelstan, and Rev. J. H. Lynn, of Dundee, thanked the speaker in the appropriate and witty Irish manner.

Ormstown Hockey Team Won League Championship in Final Match Here Wednesday Night

The Largest Crowd of Recent Years in Huntingdon Rink Witnesses a Thrilling Finish to An Overtime Game

After holding the powerful Ormstown team on even terms for three periods, Huntingdon Windsor Silks wilted before a furious overtime drive to take a 4-2 licking in the final game of the play-off for the W. E. Lefebvre trophy emblematic of the championship of the district hockey league at the Huntingdon rink Wednesday night.

The largest crowd of the season, over 600 people, crammed every available corner in the rink to watch the teams battle through two steaming periods without a score, then saw both squads tally twice in the last period to send the game into overtime. The game was one of the fastest and most thrilling seen on local ice this season.

Ormstown started the scoring in the opening seconds of the third period while the Windsor Silks were a man short. John Lasalle still had half a minute of his second period penalty to serve when John Campbell scooped up a loose puck inside the Windsor blue line to fool McGill on a low shot to the corner. The score came just as Lasalle was ready to step on the ice.

That goal looked like the winning margin as the teams battled on even terms throughout eight and a half minutes more. At the 9 minute mark Smith put the visitors two goals up when he slapped the puck past McGill from a scramble in front of the nets, and the Silk's hopes of winning the game looked very slim. Unleashing a powerful ganging attack, however, they evened the score within four minutes of play and made Cartier look like a ballet dancer as he jumped around to get his anatomy in front of the pucks that were coming at him from all directions. Cartier was unbeatable during those last hectic minutes, however, and held the Silks at bay while they burned themselves out in a desperate effort to get the winning goal.

Ormstown took another early lead in the overtime session when Smith took McGerrigle's pass at the half minute mark to drill a blazing shot past McGill from a face-off at the side of the Silk net. Smith took the pass and swept the puck into the net in one motion before McGill had a chance to move on the shot.

Ormstown played air-tight hockey to protect their lead after that and the Windsor attacks were dashed to pieces on their rocky defence.

In the dying minutes of the game Johnny Campbell made sure of victory by converting Smith's pass at the goal mouth for the second tally of the overtime period. The puck slid past McGill as he slid out of his net to save.

Ormstown's win was well deserved. They held a slight edge in play during most of the game and took better advantage of the breaks. The Windsor Silks had at least three chances to score in the first period but Cartier rose to sensational heights to smother shots that looked like sure things. Grant had him at his mercy twice and Johnny Chambers once but he was invincible. Smith, Campbell, and McGerrigle gave McGill plenty of trouble. The Windsor goalie had very little chance on the shots that beat him.

Heavy bodychecking featured the opening minutes of the game but these were all clean. Neither team took chances on getting penalties. A total of five penalties were handed out by referees Landreville and Guilbault.

Ormstown's war cry was, "Stop Grant and stop the Silks." Their theory worked out fairly well too. Every time the Windsor star got his stick on the puck there were about three men on his neck, and he was unable to get going.

Spectators swarmed all over the ice at the end of the game. They

MRS. MARY KINNIBURGH

Formerly Mary Cain, of Huntingdon, respected and well-known Western pioneer, whose death occurred recently at Airdrie, Alberta.

Three Escape Injury When Plane Crashes

Manager Halifax Shipyards R. Nelson Figured in Forced Landing

Three occupants of the Eastern Canada Airlines' plane City of Sydney escaped Thursday when the plane cracked up on a snow-covered field six miles from St. John, N.B.

R. J. R. Neslon, of Huntingdon, general manager of Halifax Shipyards, suffered only a small scratch on his left leg. John Rowley, Ottawa, Dalhousie University student, and Pilot J. H. Compton were unharmed.

A forced landing was necessary when the plane flew into a snowstorm and visibility became extremely limited. Circling in search of the most suitable spot, the pilot selected a field at East Saint John. The plane's brakes failed to hold on the slippery snow and it skidded some 100 yards, snapped a small telephone pole and broke through a fence. Still travelling swiftly, it jumped a ditch, crossed the highway and another ditch and crashed through a second fence. Then the ship whirled and came to rest against a stump.

Dundee Men Want Factory To Open Doors

Request to Hon. M. B. Fisher Brought Forth The Results Desired

On Wednesday last a number of farmers from Dundee and others more or less interested, met in the County Building to discuss matters relative to the re-opening of the J. D. Currie creamery factory in Dundee for the manufacture of butter and cheese this coming season. The meeting was intended to have been held in Agronomist Pelletier's office but so many interested parties were present it was decided to adjourn to the County Building. Mr. Toupin, local district factory inspector and two other inspectors were present at the meeting.

Some weeks ago, George Sutton, of Hemmingford, who formerly was employed in the Kensington creamery, made a canvass of the farmers in the vicinity of Currie's factory, to ascertain if he could secure sufficient support to warrant making the necessary repairs to the factory preparatory to re-opening for butter and cheese. Having been assured of sufficient backing for the undertaking he commenced work immediately to get the factory ready to comply with factory permit regulations and assure an early spring opening.

Arguments for and against the factory's re-opening were presented under the chairmanship of H. B. Gardiner, Dundee. No permit was granted for the factory re-opening the day of the meeting.

Some of the men chiefly concerned with the re-opening of the factory communicated the following day with Hon. Martin B. Fisher, Provincial Treasurer and Huntingdon County M.L.A. to request him to use his influence in having the factory re-opened. After an explanation of the situation Hon. Mr. Fisher decided to intercede in their behalf. Accordingly, a representative of the farmers received a phone call on Saturday morning notifying them that the factory would be opened at a later date.

Huntingdon Loses Tournament To Montreal Badminton Club

Members of the "A" and "B" teams of St. James the Apostle Badminton Club, Montreal, played a tournament against the Huntingdon Club here on Saturday afternoon and evening, winning the round 19-5.

Play was started about five o'clock and five events were run off before the group adjourned to the Chateau for dinner. Games were resumed about eight o'clock and continued until almost midnight when the finals of the mixed doubles were played. Following the games refreshments were served and the Montreal group left for home enthused over the quarters of the Huntingdon Club.

Four ladies' doubles were played, the visiting team repeating players each time. Huntingdon won one game in this class. The results were: Mrs. M. Fenton and G. Dickson 15, Mrs. D. L. Kelly and Rucie O'Hare 6; M. Fiddes and M. Cockerline 6, Mrs. J. W. McGill and Carmen Lefebvre 15; Mrs. M. Fenton and Eileen Walker 15, Frances Cahill and Mrs. W. E. A. Rowat 6; M. Fiddes and M. Cockerline 15, Enid Stewart and Lomyra Popeck 3.

Huntingdon won one of the singles to Montreal's three. Mrs. D. L. Kelly defeated G. Cruikshank 11-7; Rucie O'Hare lost 11-7 to Mrs. M. Fenton; D. Coller defeated Alex Tomlinson 15-8; and Morris Hunter lost 15-13 to Thos. Barrington.

One of the men's doubles was taken by a Huntingdon team. Morris Hunter and Jim McCoy lost 15-8 to D. Coller and J. Cruikshank; T. Barrington and P. Fenton won 15-3 from Allan Hamilton and Frank Furtato; A. Tomlinson and M. R. Primeau lost 15-1 to T. Barrington and P. Fenton. D. Coller and J. Cruikshank won 15-6 from A. Hamilton and F. Furtato; James McCoy and Nelson White won 15-3 from J. Cruikshank and P. Fenton.

Five mixed doubles were played, two best out of three games. Only one went to the third game and this was won by Huntingdon. Following are the results: G. Dickson and D. Coller, 15-2, 15-4, Mrs. D. L. Kelly and A. Tomlinson; Mrs. M. Fenton and T. Barrington, 15-3, 15-9, Mrs. D. L. Kelly and Morris Hunter; M. Fiddes and D. Coller, 15-3, 15-8, Rucie O'Hare and Jim McCoy; M. Cockerline and J. Cruickshank, 15-3, 15-9, Carmen Lefebvre and Austin Lefebvre; Eileen Walker and P. Fenton, 15-11, Mrs. J. W. McGill and Mederic-R. Primeau, 15-12, 15-11.

A very enjoyable event was also held at the Badminton Club on Monday evening when the ladies entertained the men to a delicious supper which was attended by about thirty members. Following the repast time-limit games were played, and the final round ended near midnight. The prize-winners were Miss Carmen Lefebvre and Morris Hunter.

Huntingdon, Wed., March 10th, 1937

Successful Hockey Season

WITH the winning of the championship hockey match by Ormstown in the Huntingdon Rink on Wednesday night has ended one of the most successful winter sport seasons. The temperature was not always ideal but rink authorities both here and at Ormstown had their ice in good shape all the time and when warm weather came there was not enough melted to prevent but few of the games being played on scheduled dates. Insofar as the Ormstown and Huntingdon rinks are concerned the hockey league assured them financial success. At the final game here on Wednesday night there were five hundred and seventy paid admissions, a record crowd.

Four teams started in the league play, one from Ormstown, and three from Huntingdon, the Canadiens, Leach Textiles, and Windsor Silks. Canadiens and Leach were eliminated from the playoffs, and the championship matches left to Windsor Silks and Ormstown. Huntingdon won the first of the final matches on home ice by a substantial score. Ormstown did likewise a few days later. Odds were about even for the final match on Wednesday but the Ormstown group proved that they had a strong team by taking the game by a two-point margin after a hard-fought game.

The pleasing feature of this year's hockey is that a much better than usual friendly rivalry existed. Particularly was this noted in the final matches between Windsor Silks and Ormstown. Neutral referees were used, and they had no trouble whatever in handling the games. While all hockey regulations were closely observed only about six penalties were given in the three matches, and of that number only about two were merited. Now that the season has ended, animosities, if there were any, should be forgotten and only the good features of the friendly but spirited encounters remembered. They had their value from a physical and social standpoint and it is that significance which should endure.

Another Education Week

ANOTHER Education Week has slipped by without any particular observance of the event in Huntingdon, but, in this respect Ormstown was not so lax, and supplied a very interesting address to its citizens on Friday night when the school authorities arranged a talk by a former Ormstown school principal. There is talk locally of an address being given here in the near future by the Director of Adult Education for Canada, Mr. E. A. Corbett, who happens to be a former graduate of Huntingdon Academy. We hope that plans go through successfully for this lecture.

Thinking about matters educational we at once went to that very interesting book "Why Educate," by Dr. W. P. Percival, English Secretary and Director of Education for Quebec. Outlining the methods of thirty years ago with those which should be in general use today Dr. Percival states that if the majority of our elders had to make the decision the curriculum today, in general, would be identical with that which they themselves followed during their childhood. To such individuals, classrooms, textbooks, home-work, and examinations, presided over and imposed by stern schoolmistresses and masters, constitute the substance of education. Education to them consists of a rigid system of schooling which must be endured by children in order that they may pass a prescribed system of examinations. Upon reaching a certain age or attaining a given degree of mental maturity, the budding adults, trained under such conditions, may consider these obnoxious things passed as a bad dream from which they wake into life. Fortunately for the young these are not the ideas of all.

Dr. Percival dates education from the time of the Greeks when physical education was the chief part of the curriculum. In the earliest Athenian education, arithmetic, mathematics, science, and drawing were not taught. These subjects, with grammar, rhetoric, logic, and astronomy, were introduced at later dates. A consideration of these subjects and their content causes one to pause before pronouncing positively upon the most desirable course of study for our children. Too often, he says, we have been interested in trivialities and have failed to understand the real content of education. Imaginations have been hampered by picayune scraps of information. Dates when kings died or when battles were fought, rules for the uses of the verbal noun in English and the gerundive in Latin, have narrowed our horizon.

In recent years, he continues, increasing numbers of persons have passed beyond the stage where they think that education is restricted to the memorizing of the content of certain textbooks and to inflicting upon children "things that are good for them." They consider that education consists of more than loading the mind with facts that must be ready for expression at the Friday tests and the term examinations. Reading, writing, and arithmetic, they believe, form part of the social experience with which it is the function of the school to acquaint the child. They realize that the story of industrial expansion, for example, may be far more profitable for children to learn than the names of rulers and duration of wars.

In the process of education, Dr. Percival says the child will learn that he must adjust himself to the social world in which he lives. He must recognize that the more completely the adjustment can be made, the more successful his life will be. The classroom should be a practical place, a circle in which the child will learn the value of the world by direct experience. He ought to be allowed to know objects at first-hand by seeing and handling them. Education is life. Young people, he says, must be made aware of the fact that successful living is not identical with the possession of creature comforts. The satisfactions that arise from accomplishing useful things are of far greater importance than those which come from achieving financial affluence. The youth should know that to live a good life is the only success that is worthy to be called by that name. He should find the sermons in stones, the books in the running brooks, that will open wider vistas to him. He should learn what to think and how to think, and must improve his manners and conduct by this knowledge. When he finds out how to live so that the world will be enriched by his presence, he is ready to enter the wider sphere beyond the school doors where his education will be continued.

The chapter concludes with this very emphatic statement "If these considerations are presented to him aright, he may even relish the process of being educated." This is specially significant in light of the fact that sweeping changes have been announced to take effect in English education in the Province. When one reads this chapter of Dr. Percival's book he cannot but hope that the learned Doctor's new system should be put into force with the least possible delay.

In any reform of the educational system parents should be brought into a more intimate contact with the school. While this necessarily revolves upon individual school boards, teachers, and parents' associations, possibly some programme could be worked out wherein the parents of children attending school and those interested in educational matters would have some direct connection with the school, at least once a month during the school term. There are few but who will admit that the trouble between teachers and children arises from a misunderstanding on the part of the parents and teachers, and where the parents know the teacher, and vice-versa, the training of the child is a less difficult matter.

Shall Canada Interpret?

WHEN the Imperial Conference convenes in London next May Premier Mackenzie King will be able to lay before the statesmen of Great Britain and the other Dominions President Roosevelt's views on most of the questions vexing the world, as a result of the conversation concluded in Washington Saturday. Canada often has been pointed to as the logical mediator in composing differences of opinion between London and Washington because of its understanding of both governments, but never has a Dominion representative been so well equipped for the role as Mr. King will be.

Our Prime Minister, in press interviews, declined to disclose the subjects discussed with Mr. Roosevelt further than to say they were of a general nature. Trade matters were not taken up. Last month Mr. Roosevelt wrote Mr. King suggesting they should have an opportunity of talking over the problems affecting the two nations, and inviting him to go to Washington when convenient and be his guest at the White House.

As soon as the House of Commons entered the Budget debate last week which will be followed by the discussion of the budget resolutions, Mr. King took the opportunity of seeing the President before the latter left on his holiday in the South.

The talks between the President and Mr. King were informal. Going to the White House Friday afternoon with Sir Herbert Marler, Canadian Minister in Washington, the three had tea together, and the President talked of fishing and hunting. In one of the upper rooms in the White House the President and the Prime Minister had dinner alone together, and it is probable went deeply into the situation in Europe. Mr. King was in London last fall and no doubt has been kept closely informed on developments from a British point of view since then.

Keen appreciation appeared to be prevalent among persons interviewed in Washington over the week-end that the European political situation as it is, a sympathetic understanding between the United States and all portions of the British Empire is well nigh imperative. This is one reason Canadians in Washington taking an international view of the situation are hoping for a trade agreement between the United States and the United Kingdom, and perhaps between the United States and other British Dominions, with mutual advantages comparable to those in the Canada-United States treaty.

Anxiety was evidenced that the new United Kingdom-Canada agreement, while giving more freedom to Canada in tariff matters with foreign countries, had not relieved Britain to the same extent. However, a study of the documents, it was learned, has convinced tariff experts in Washington the new pact does not stand in the way of a substantial reciprocal treaty between Britain and United States.

When the Imperial Conference meets in May the Empire and the world will be looking to the Canadian Prime Minister for the United States viewpoint on world affairs, trade agreements, and international complications.

More Electricity Than Ever Before

CHEAP electricity, developed principally from abundant water-power, is steadily revolutionizing conditions in homes and factories throughout Canada. Electric power is cheaper in some parts of Canada than elsewhere in North America. Use of electricity in Canada, particularly in homes, exceeded all past records in 1936. The output of electricity reached a new high level at 25,493,474,000 kilowatt hours, a gain of 8.9 per cent above the 1935 output. Consumption of firm power in Canada or total output less exports and secondary power amounted to 16,992,515,000 kilowatt hours, an increase of 7.6 per cent and the highest yet recorded.

The per capita consumption has been estimated at 1,950 kilowatt hours. Of the total consumption of electric energy in Canada approximately 35 per cent is used for lighting purposes; the highly electrified pulp and paper industry uses about 40 per cent; and the mining industry about 11 per cent. The all-electric home is rapidly attaining public acceptance and electricity is being made available to an ever-increasing extent in the rural districts where it operates milking machines, churns, feed choppers and other farm machinery. In urban centres many newly-built homes are being fully electrified with adequate wiring, proper lighting, all-electric kitchens and air conditioning. Old houses are being modernized to an ever increasing extent by means of electricity. About three-quarters of all homes in Canada are wired for electricity.

Taking into consideration the extensive rural districts in Canada which have not yet been reached by the electric transmission lines and the fact that only 18.2 per cent of the potential hydro electric power in the country has been developed, the use of electric appliances in Canadian homes is very extensive. It has been estimated that 13 per cent of all Canadian homes are equipped with electric refrigerators, 18 per cent with electric ranges, 33 per cent with electric washing machines, and 61 per cent with radios.

Chronicled News Bits

Specially Written For The Huntingdon Gleaner

SAFER DRIVERS HERE

In spite of the great number of fatalities due to traffic accidents on this continent, the United States is far below some European countries in percentage of deaths from this cause to the number of cars in operation. Italy has the highest death record with an average of 59.4 lives lost yearly for every 10,000 cars in operation. In England, this average is 30.6; in Scotland, 44.8; while statistics for the United States show there are 13.6 deaths from traffic accidents for every 10,000 cars in use.

BATH UNDER TABLE

Patent papers have been granted for a combination table bathtub and stove invented by Alfred Castanien, Columbus, O. The stove is built into one end and may be used for cooking as well as heating the water for the bathtub. The cover over the bathtub serves as a table top. Castanien says his invention will be found especially useful in farm homes lacking hot and cold running water, also in house trailers.

LESS DANGER NOW

Years ago William Henry Baxter, man of wealth in Harrogate, England, made a will providing that at his death his two maiden sisters were to receive the equivalent of $600 monthly on condition that "they keep men away from their door." The two sisters, Georgiana and Lily Baxter, are still unmarried, age 75 and 76. Their brother died recently, aged 86. The will, still in force, will give each of them $600 a month to spend in their old age, provided "they keep men away from their door."

PINES FOR MATE

The recent death of an elephant named "Boo" in an Oakland, Calif., park was the last chapter in the "world's biggest love tragedy" as the Oakland papers expressed it. Book was the mate of Wally who killed his keeper last summer and was executed by a firing squad. Ever since then, Boo, has given every evidence of suffering from a broken heart. She pined away, refusing to eat and losing weight which brought on an illness that cost her life.

DUTY CALLS HER HOME

From a farm near Chattanooga, Tenn., came Florence Perry to New York looking for employment. More successful than thousands of girls who yearly go to the nation's metropolis looking for work, she got a job at good wages as a model and designer in a dress shop. She advanced rapidly but recently at the age of 22, she received word her father had died leaving the mother and younger children dependent. Back went Florence Perry to the farm from which she came. Now she is operating the little farm, raising pigs for which she gathers the garbage from the entire community to supplement what feed they can raise. In her spare time, she does drawing for department store advertisements, delivers newspapers and also receives cash income from raising and selling flowers.

NO SLEEP IN 20 YEARS

Ever since the World War, when a bomb from an airplane knocked him unconscious, Carol Crane, a Rumanian now 40 years old, has gone through life without a minute of sleep. He has tried many cures and visited specialists in several European cities but without results. At present he is in London taking a course of treatments from a specialist who has been unable to help him thus far. Crane rests at night but never fall asleep. In the morning, he takes a cold bath which has the effect of refreshing him and for a few hours he can work or exercise but soon tires. Doctors advise him not to exert himself too much. He has had offers ranging up into thousands of dollars from physicians who would like to have his head after his death for examination purposes. But alive, his earning power is very small.

RAT GETS PERSONAL

For several weeks John Garrity, McGrath, Minn., had been trying to get rid of a rat in his basement. The rodent was too smart to get into a trap or to eat poison. Finally Garrity stacked up everything in the basement that would serve as a hiding place. He noticed Mr. Rat dart from box to barrel until he got everything but one box, behind which the animal sought protection, into the middle of the floor. Taking a club, Garrity pulled the box away from the wall and the chase began. Seeing no place of escape, the rat suddenly turned on Garrity and, before he knew it, ran up his pant leg and lodged under his shirt just below his belt. His screams brought a neighbor, who seized a short board and told Garrity to brace himself. One smack with the board and the rat was still. Garrity lost no time removing his trousers. The blow had proved fatal to Mr. Rat.

NAMED FOR DISEASES

The first two children of Mr. and Mrs. Emsy Jackson, of Pauls Valley, Oklahoma, were boys. The parents, who are colored, wanted high sounding names so they were called Tonsilitis and Maningitis. Nicknames of 'Tonsy" and "Manny" soon were developed. Recently a daughter was born and she, too, had to have an ample name. Appendicitis seemed to be satisfactory, and she was so named, but ever since then the parents have been racking their brains for a suitable nickname. Maybe "Pendy" would do if nothing better suggests itself.

GERMANY BUYS MULES

One horse and mule dealer in East St. Louis has shipped 450 head of mules to the German government. His average of shipments has been 80 animals weekly for several months. For some reason, the German have taken a liking to American mules. They want either large ones, weighing 1,600 pounds or more, for farm work, or the small kind, weighing 1,000 pound or less, which are used in the German army.

DEATH INCH AWAY

Putting some coal into his furnace, Percy Speed, North Battleford, Sask., found a lump that was too large to get through the furnace door. With an axe he cracked it in two and as the pieces fell apart, he was horrified to see a 10-inch stick of dynamite roll out. The explosive undoubtedly was left by miners who had blasted out the coal. Speed still feels a cold sweat coming over him whenever he thinks of what might have happened had he thrown the dynamite into the furnace, or even if he had struck it with his axe.

SEND BLOOD TO SPAIN

One thousand Canadians, Ben H. Spence, chairman of the Canadian committee to aid Spanish democracy, has announced from committee headquarters at Toronto, have donated blood to be used for transfusions in the treatment of the war wounded in the Madrid area.

The blood is sealed in sterilized containers, refrigerated and distributed over the Spanish government civil war front. Spence also revealed the committee has been sending $500 weekly to maintain the project.

END PAIN—*Soothe* SORE HANDS *by Rubbing in*
MINARD'S "KING OF PAIN" LINIMENT

Our Members On Committees Legislature

In a recent issue of the Notes and Proceedings of the Quebec Legislative Assembly the members of the different Committees were listed.

Hon. M. B. Fisher, Provincial Treasurer and Huntingdon County M.L.A., is on the following Committees: Private Bills in General, Public Bills in General, Municipal Code, Public Accounts, and Agriculture, Immigration, Colonization.

Delpha Sauvé, M.L.A. for Beauharnois, is a member of the Railways and Other Communications, Private Bills in General, Agriculture, Immigration and Colonization, and Industries and Trade Committees.

Auguste Boyer, Chateauguay M.L.A., is a member of the following Committees: Private Bills in General, Public Bills in General, Agriculture, Immigration and Colonization, and Public Accounts.

Athelstan

A meeting of the teachers and officers of the Presbyterian S.S. was held at The Manse on Wednesday evening. There was considerable discussion over the right thing to do about marking the two Sundays in February during which the S. S. was closed owing to illness among some families. Several pupils had qualified for award pins on either Sunday and through no fault of theirs were forced to miss. It was finally decided to allow perfect attendance to those well members who would ordinarily have been present, but in those cases where they would have been absent through illness in the homes a fresh start will be made in qualifying for pins.

The March meeting of the Willing Workers' Mission Band was held in the Presbyterian Church parlour on Sunday morning at ten o'clock. The lesson was on Japan and Mrs. Elder told the children an interesting story about the Doll Festival of that country.

Mrs. T. S. Macfarlane has gone to Saranac, N.Y., being called there by the death of her brother-in-law, Mr. Glen Harvey.

Word was received here on Sunday morning of the death of Mr. Stewart Elder of Gary, Ind., youngest son of the late M. M. Elder of this place.

Rev. A. Nimmo, Mrs. Nimmo and children, Margaret and Stewart, motored to Morewood, Ont., on Friday where they visited friends, returning home on Saturday.

Messrs. John and George Elder left on Sunday night for Chicago and Gary, Indiana, to attend the funeral service of their nephew, the late Stewart Elder.

Mr. J. J. Fraser and son, Mr. Gordon Fraser of Dundee were guests of Mrs. James Lavery on Thursday.

"The manner in which the community takes care of its sick and incapacitated is the gauge by which the degree of civilization of a people may be judged."—Fannie Hurst.

Warning is Issued To Motor Car Owners

In a warning issued to motor car owners, Hon. Martin B. Fisher, Provincial Treasurer, declares that any resident of Quebec owning a motor car must have a Quebec license. The car may be confiscated if it carries only the license of another province. It has been a common practice for motorists to drive their cars into Ontario and take out registration because it was much cheaper there. In Quebec registration is based on weight, 70 cents per 100 pounds; in Ontario the rate is fixed on cylinders and horsepower, a 4-cylinder car costing $7 for registration, six cylinder cars up to $15 according to horsepower, and eights up to $20.

Mr. Fisher's warning follows—"The Government has information that many thousand people operated motor vehicles last year, without the necessary Quebec permits. Instructions have been given to law enforcement officers to check up on operators of motor vehicles. While the Province of Quebec welcomes bona fide tourists from other provinces, motorists are notified that infraction of the Motor Vehicle Law must cease.

"A new age has begun, where God is going to have right-of-way."—Frank N. D. Buchman.

BITE FATAL TO SNAKE

While dressing for dinner in Panama City, an officer of the U.S. Army Air Corps was bitten by a deadly fer-de-lance snake. The snake died. The lieutenant proceeded with his toilet, after a short delay, while he received serum, and arrived at the party only a few minutes late.

NEW LOW EASTER HOLIDAY FARES

Between all points in Canada and to certain destinations in the United States

Fare and One-Quarter for the round trip

Tickets good going any time Thursday, March 25, until 2.00 p.m. Monday, March 29, 1937. Return Limit to leave destination not later than midnight, Tuesday, March 30, 1937.

Solid Foundations
FOR A VITAL SERVICE

Combine large quantities of copper, iron, lead; add some carbon, nickel, aluminum, wool, cotton, silk; then a little silver and a trace of gold — a few bricks and some mortar —

Combine these and a hundred other ingredients by use of initiative, research, invention, experience.

That is the prescription for the construction of the telephone plant that serves you — the switchboards, vacuum tubes, wires, telephones, cables, coils, relays, jacks, plugs, batteries, and a thousand other ingenious intricate mechanisms. But that is not telephone service!

Without its human foundation, the telephone system is an orderly but inanimate mass of complex equipment.

There is something more in your telephone service. It is the desire to serve — *the spirit of service* — on the part of the men and women in the Bell organization.

Canadians use the telephone more than the people of any other land. That fact is not unrelated to the desire of Bell Telephone workers, to render to users the highest standard of service they are capable of.

THE BELL TELEPHONE COMPANY OF CANADA — LONG DISTANCE TELEPHONE

Powerscourt

Henry made an appointment with a a friend to meet him at a certain grocery store, in a nearby hamlet. When I entered there were several there whom I knew, sitting around on boxes and nail kegs. They gave me the seat of honor, as I was a newcomer, which was the only chair in the place. After exchanging the usual remarks about the weather and other things in general, the conversation drifted into a sort of program, which was somewhat irregular, yet free from profanity and vulgarity but interesting and entertaining for it had variety. They served tobacco smoke between the acts and during the acts. Talk of home talent, what a display and all well versed in the gossip of the day. Someone had found the symptoms of a wooing or a wedding, and the contracting parties' ears must have burned for the pros and cons were well discussed.

What amused me most was a chap —sitting on a nail keg—who, but a day or two before gave for his excuse for not attending church, was that the pews were too hard to sit on after a week's hard work, yet he could sit on that keg for more than two hours and seemed to enjoy it. I thought now, if the preacher could contrive some sheme to interest his hearers in his sermon, so that they would forget themselves during the service it might work marvels, but then we are human and the things we have an appetite for are the things that we are interested in, for if our hearts crave for secular things, there is little chance that we will get much good from the sermon or prayers. We have often heard the saying, 'If I cannot be present in body, I will in spirit," but nowadays it is the other way around, we are apt to be present in body but not in spirit, and the body is apt to get as much good from a religious service without the spirit as the spirit would give without the body, when the collection plate is passed around.

Here my musing was interrupted for my friend came, saying he was sorry to have kept me waiting so long, but he had two blow-outs on the way.

New Officers Howick W. I.

Annual Meeting Institute Enjoys Treat From Scotland

The annual meeting of the Howick Women's Institute was held on March 2nd at the home of Mrs. Robt. Roy, with 26 members present. The meeting opened in the usual manner with the president, Mrs. R. Younie presiding. The delegates appointed for the County Convention were Miss Jean Lang, Mrs. Arthur Kerr and Mrs. Frank Sutherland. The delegates for the provincial convention were Mrs. Robert Younie, Mrs. John Graham and Mrs. Alfred Greig. The Riverfield ladies have charge of the program for the coming year with Mrs. R. Younie as convener.

All the officers were re-elected with, the exception of the third vice-president and the press correspondent., Mrs R. Anderson being 3rd vice pres., and Mary Hamilton, press cor. The 3rd concession members have charge of the finance committee with Mrs. David Tait as convener. The Institute in Scotland which corresponds with the Howick W.I. sent a delicious box of shortbread which was enjoyed by the members.

A meeting of the Y.W.A. met on Saturday afternoon at the home of Mrs. Allister McArthur with ten members present. The meeting opened with "What a Friend We Have in Jesus," followed by prayer by Mrs. McArthur. The Scripture reading was given by Mrs. Lincoln West. The delegates to the Presbyterial meeting held in Stanley Church, Montreal, Miss Lila Hamilton and Miss Jennie Whyte gave interesting reports. The meeting closed by singing "Simply Trusting Every Day" followed by the Lord's Prayer. Dainty refreshments were served by the hostess.

On Saturday afternoon the Lady Curlers were entertained in the club room of the rink, the following ladies being hostesses: Mrs. W. E. Logan, Mrs. Manning, Mrs. Douglas Ness, Miss Jessie Holmes and Miss Agnes Orr. A game of curling was enjoyed and a game of 'Bridge" or 500 by the others. The prize for high score in Bridge was won by Mrs. Younie, while Mrs. John Ross won the prize for 500. Dainty refreshments were served by the hostesses and all agreed that a most enjoyable afternoon had been spent.

Mr. Herbert McRae of Val D'or, Que., is spending a three weeks' vacation with his parents, Mr. and Mrs. John McRae.

Mr. Stanley Gebbie has returned to Beauharnois after spending a vacation with his parents, Mr. and T. T. Gebbie.

Powerscourt

Miss Phoebe Boucher of Montreal spent the week-end with her mother, Mrs. John Boucher.

Mr. Melvin Carson called on Mr. and Mrs. L. McClatchie Wednesday afternoon.

We are sorry to hear of the death of Mr. Lewis Percy at his home at Burke, N.Y. He was well known in this community, his wife being Miss Ethel Hinks, daughter of the late Mr. and Mrs. John Hinks of this place.

Riverfield

Four rinks from Fertile Creek curled against Riverfield on the District Medal, resulting in a win for Riverfield, on Riverfield ice.

The Y.W.A. met at the home of Miss Reta Robertson on Saturday afternoon. Opening hymn 530 was sung, followed by Bible reading by Miss Joyce Terry and prayer by Mrs. Flint. It was decided to collect pennies each month for the Pension Fund. After the roll call Mrs. Andrew MacFarlane gave a very interesting story on the life of the late Dr. John Geddie who was the first missionary that was sent to the New Hebrides. When he was a child he was quite ill and his parents prayed to God for his recovery and if he was only spared they would make his way clear for a missionary and at the age of twenty-one he was a minister. When he and his wife and three children started out on their journey two of their children died. The people they found there were all black, and they awaited them there with spears and clubs for they had no use for the pale-faced people. They found conditions in an awful state, worshipping little gods and not the real God, but John Geddie built his home and started his mission work. After a few years they raised $2,000 and built a chapel and school. At times he was discouraged but whenever he made a new convert it gave him courage to carry on. He made an appeal for them to send him a little boat so he could reach other little islands. They called the boat John Knox. After coming on furlough for rest he was sent to New Zealand, so his work would be easier. He took influenza and at the age of 57 he died, a young life but fought to the end. Here a tablet was erected to the memory of the late Dr. John Geddie. Lunch was served at the close of the meeting.

Mr. and Mrs. F. Palmer of St. Lambert were Saturday guests of Miss Joyce Terry.

Brooklet-Herdman

The Brooklet Y.P.B. met at the home of Mr. and Mrs. Jas. Wallace on Thursday night. There was a small attendance but a very good meeting was held. The meeting was in charge of the president, Mrs. Kenneth Earl. Further plans were made for the oyster supper which is to be held on the 19th at the home of Mr. and Mrs. J. O. Levers for the members and their families. After the business meeting was over games were played and lunch was served by the hostess.

The Woman's Association of Rennie's United Church met at the home of Mrs. A. E. Farquhar on Wednesday afternoon with a good attendance. The meeting was presided over by the President, Mrs. W. J. Maither. Several items of business were discussed and reports given. Mrs. Bruce McCracken and Mrs. Ellis Wilson were appointed a committee for visiting the sick. At the close of the meeting lunch was served by the ladies.

COUGHS UP MONEY

A city bandit held up a Buffalo Negro, so he put his 'roll" of $11 in his mouth. When the thug whacked him on the head, he promptly swallowed the loot. Later, while physicians were administering an anesthetic preparatory to sewing up his skull, Robert coughed up the necessary fee—first a $10 bill and then a dollar.

The Week At Ottawa

(Continued from page 1)

Minister of Labor is right in his forecast, and other governments reduce costs in proportion, this will not be more than $55,000,000 this year. Time will tell.

Similarly, the provision for the Canadian National Railways in the coming year is only $35,000,000.: Last year the railway system cost the taxpayer $43,303,000.

The special supplementary estimates, which amounted to $96,063,-307 cover what the government calls extraordinary as distinct from ordinary expenses of the government. There are in them some big items arising out of unemployment, quite apart from the $19,500,000 for direct relief noted above.

A sum of $7,331,000, for instance, covers the amount set aside for federal contribution to provincial and municipal relief projects, which may include some housing assistance. A million dollars is set aside for development and training plans for unemployed young peopie. The sum of $2,500,000 is set aside to assist in eliminating level crossings on railroads. This is a combined relief and safety measure. Two millions is being voted for assistance in the dried out areas of western Canada, in the form of direct relief, and another two millions for the drought rehabilitation schemes for the same area. A sum not to exceed $1,400,000 is available to build roads into mining areas.

A program of building to cost not more than $12,550,000 is being voted for public works across the Dominion. Of this, over two millions is to be spent in Ottawa. Sums have been voted to begin two major public buildings at the capital.

New Supreme Court

The first of these is a Supreme Court Building. As everyone knows, the highest court of justice in Canada sits in a building originally erected to house the architects and engineers while the Parliament Buildings were being erected in the 60's. It is obscurely, almost meanly situated at the base of Parliament Hill, a poor relation of the dignified office blocks now rearing on every side. I have heard the argument that it is meet and fitting for the High Court of justice to sit in a building little more ambitious than some stables. But most people will feel that a country as substantial as Canada deserves a more beautiful and impressive home for its highest tribunal.

The second is another in the series of stately departmental buildings which are beginning to extend the boundaries of Parliament Hill down Wellington street to the west. The Supreme Court building, for which a site has not yet been chosen, will eventually cost $1.250,-000, and the new office building between 5 and 6 miiions.

During the Bennett regime it was a favorite occupation of opposition groups and members to denounce the government loudly and frequently for its failure to do anything about unemployment. Now it is the turn of the Opposition to go after the King administration. Unemployment may not be so severe as it was, but it is a long way from cured, and the progress toward recovery has not been as rapid as the Liberals believed it would be when they got into office. There is not great vigor or fire in the attack, but the gravity of the situation is being stressed on the House. It is a current charge of the 'south-east corner', which stands still down there while Liberals and Conservatives move places after an election, that the major parties are deeply moved about the unemployment problem when they are in opposition but don't care so much when they take office.

Social Credit members say that improvement isn't to be looked for without monetary reform; the C.C.F. take the stand there can be no solution without a change in the economic system.

DOG GETS LICENSE NUMBER

State police of North Syracuse, N.Y., told recently how a valuable hunting dog got the license number of the automobile that killed it. The impact tossed the dog high into the air. As it fell, the body knocked off the car's rear license plate.

St. Anicet Council

A regular meeting of St. Anicet Council was held March first, all councillors present, Mayor J. B. Narey presiding.

On motion of Charles Trépanier, seconded by Edmond Carrière, the following accounts were ordered paid: Denis Latreille (goods sold to John Duheme) $3.64; Provincial Blank Forms, $5.15; Public charities (1934-35) $310.40; Public charities (January to July, 1936) $205.54; Avila Carrière, road work, $1.15; Guardian Insurance Co., secretary's bond, $10.00.

On motion of Alfred Primeau, seconded by Avila Robidoux, the report of the auditor, W. L. Carr, was accepted.

On motion of N. D. Rankin, seconded by Charles Trépanier, the secretary was instructed to write Mr. Donald Black, M.P., and Hon. Martin B. Fisher, to request Federal and Provincial grants to improve the Quesnel Concession road in order to relieve unemployment in the municipality.

Mayor Narey was named to represent the Council at the County sale of taxes, on motion of Avila Robidoux, seconded by Anselme Latulipe.

On motion of Alfred Primeau, seconded by Avila Robidoux, a request was made of the Provincial Government, through the intermediary of Hon. Martin B. Fisher, that, in future, no hotel licences be given in the parish without authorization from the municipal council.

Alfred Primeau gave notice of motion that he would introduce a by-law compelling all ratepayers to keep the brush cut on both sides of fences along the public roads, opposite the ratepayers' properties.

On motion of Alfred Primeau, seconded by Avila Robidoux, the following municipal officers were appointed:

Road officers: Euclide Dubois, Lucien Leblanc, Avila Carrière, Andrew McDonald, Alfred Trépanier, Ernest Caza, Ovide Duheme, George Robidoux, Omer Chrétien, F. X. Hurteau, Albert Caza, F. X. Quenneville, Edward McGinn, Hormisdas Hart, Jos. Durocher, Uldège St-Onge (Walsh road), and François Dancause (village).

Rural inspectors: Israel Beaudry, Oscar Dupuis, Aimé Brunet, Hidala Caza, William McNicol, Alfred Leduc, James Clark, Aldoma Caza, Ulric Hurteau, Alexandre Legros, Roméo St-Onge, John Murphy, Frank Fournier, Albert Carrière, and Sylvester Finnegan.

Pound keepers: Ludger Dugas, Albert Deschamps, Léo Caza, Oscar Beaudry, and Michael Cosgrove;

Valuators: Ernest Carrière, Achille Hurteau and James Clark.

Ormstown

Before the hockey game on Friday night there was a Broomola game played between two teams of boys picked at random. This game was played to the enjoyment of the spectators who were waiting for the hockey final game which started at 10.25 due to lack of equipment and the rink company wish to apologize for the delay.

Back to the Broomola game. It was a mixture of rugby, flying brooms and skates, trips were frequent, one penalty being given by referee Len Smith. The teams were under the names of Rangers and Maroons, the former winning 2 to 0 on goals by J. Forget and G. Blanchette.

The teams were:

Rangers: Jim Cartier, goal; J. Forget, def.; A. Cherrier, def.; S. Bryson, centre; N. Hooker, wing; G. Blanchette, wing.

Maroons: J. McGinnis, F. Green, goal; A. Hooker, G. McClenaghan, defence; B. Cairns, centre; N. McWhinnie, Howard McAdam, wing; J. Boyle, sub.

The doctor met Mrs. Brown in the street.

"And how is your husband sleeping now, Mrs. Brown?" he asked. "Did you give him the sleeping draught?"

"Yes sir," she replied. "You told me to give him the amount I could get on a small nickel, but as I hadn't any silver I used five pennies and he's been fast asleep for five days."

Ormstown Citizens Listen to Interesting..

(Continued from page 1)

enthusiasm knew no bounds as they hard drive off E. Legault, passed the puck ahead to H. McAdam, who carried the play to the Canadiens defence, then drawing the defence, he laid a perfect pass on Joe Boyle's stick and Joe makes no mistakes, he fired the disc over George Blanchette, who dove out in an attempt to save. This made a complete play and also completed a play seldom seen in hockey, goalies rarely getting assists.

The second period was void of scoring and sticks were flying as well as body checks and players were distributed on the ice in all kinds of odd positions. Some landed on their backs, while others made three point landings, others utterly rolled around, so like the game they kept rolling along. For those fans who like their hockey full of bumps and hard checking there was nothing left to ask for in this respect.

The third period saw the Town outscore the Eastenders two to one, R. Legault and E. Legault scoring and Emile Cartier getting an assist on the former's goal while E. Legault broke away catching the Eastenders way down the ice, he romped in on McBain, giving him no chance to save. H. McAdam ended the scoring in the last seconds of the game when he went through alone scoring the East Ormstown final and second goal at 19.42.

For the winners Pettes, the Legault brothers, Emile Cartier and George Blanchette were best, and the latter, playing his first year in nets, was sensational in all the games of the series. The team was well handled by D. McKeegan, who was presented the cup by Mr. Albert Beauchamp himself, after the game. Many thanks are due Mr. Beauchamp for his interest in the Town League. The Bank of Commerce medals will be given to each individual player and their interest in the league is also appreciated in making the town league a success. The medals are to be kept, each member of the team receiving one as a souvenir. The Beauchamp cup will be played for each year.

For the losing team coached by Jimmy McGinnis, all played hard driving games and must be given credit for their sportsmanship, outplayed and outlucked they gave the fans their money's worth. Joe Boyle, H. McAdam, Ralph Smith and Len Smith were always dangerous on the attack with Eric McBain playing brilliantly and cannot be blamed for the loss.

The officials: B. L. McGerrigle, B. Boyle.

Goal Umpires: Jim Cartier and George Smith.

Line-up:—

East Ormstown: Goal, E. McBain; defence, H. McAdam, L. Smith; centre, R. Smith; wings, J. Boyle, N. McWhinnie; subs, W. Roy, S. Bryson.

Town Canadiens: Goal, G. Blanchette; defence, R. English, D. Pettes; centre, E. Legault; wings, E. Cartier, R. Legault; subs, G. Legault, P. Cartier.

1st Period

1—Town. Can.: D. Pettes (E. Cartier) 10.05
2—East. Orms.: J. Boyle (H. McAdam, McBain) ... 15.06
Penalties: Joe Boyle.

2nd Period

No score. No penalties.

3rd Period

3—Town Can.: R. Legault (E. Cartier) 3.15
4—Town Can.: E. Legault 19.03
5—East Orms.: H. McAdam .. 19.42

Ormstown Hockey Team Won . . .

(Continued from page 1)

milled around to congratulate the winning players.

The game had to be stopped once while the ice was cleared of paper and glass thrown by enthusiastic fans.

Fred Laberge's ice sheet was a masterpiece. It was as smooth as glass and enabled the players to turn in a lightning fast game.

Howie Grant and J. Campbell got a shirt and tie for their goals. W. E. Lefebvre, Huntingdon merchant, offered a shirt and tie to the first player of each team who scored.

Johnny Campbell, Smith and McGerrigle were the big offensive guns for the visitors while Cartier and R. Campbell played standout defensive games.

McGill, Daniel, Grant, Boyd, Lasalle and Johnny Chambers were particularly effective for the Windsor team.

Ormstown: Goal, Cartier; def., R. Campbell, Murphy; centre, McGerrigle; l.w., J. Campbell; r.w., Smith; subs., Boyle, McCartney, Legault, B. Campbell.

Windsor: Goal, McGill; def., Daniel, Grant; centre, J. Lasalle; r.w., McPherson; l.w., Boyd; subs., Chambers, C. Tedstone, Lasalle, Kerby, Cahill, Hay.

1st Period

No score.
Penalties: Smith, Murphy, MacPherson.

2nd Period

No score.
Penalties: J. Lasalle.

3rd Period

1—Ormstown: J. Campbell ... .30
2—Ormstown: Smith 9.00
3—Windsor: Grant (J. Lasalle) 11.00
4—Windsor: MacPherson (Grant, Boyd) 13.00
Penalties: None.

Overtime

5—Ormstown: Smith (McGerrigle) ..... .30
6—Ormstown: J. Campbell (Smith) 8.30
Penalties: R. Campbell.

Referees: Landreville, Guilbault, of Valleyfield.

Goal Umpires: A. Rousselle, T. Hingston.

Time keepers: McKeegan, DeRepentigny.

At the conclusion of the game there was a variance of opinion as to who had scored the second Huntingdon goal, both MacPherson and Boyd figuring, and both thinking they had knocked in the puck. The opinions of different spectators were secured, and this was about a draw. The Ormstown goaler, Jules Cartier, stated that the goal was scored by MacPherson, and the goal umpire at that end of the rink, Thos. Hingston, of Ormstown, stated that No. 4 player, which is MacPherson, dashed in the puck.

WHEN HE LOOKS IN YOUR EYES!

Do they flash and sparkle; or does he find them dull and unattractive?

If your eyes are dull or have a yellow tinge, it's probably because your liver isn't functioning properly. Your liver affects almost every part of your body and if it gets out of kilter you can't look well, you can't be well. So keep your liver healthy by taking Fruit-a-tives. This famous remedy contains extracts of fruits and herbs and acts to stimulate the liver to normal healthy action; activates the flow of bile, cleanses the elimination tract, and helps 4 other vital organs of the body. Do not let your liver affect your looks. Start taking Fruit-a-tives today. Your druggist has them. Cost is low, only 25c; 50c. And insist on *genuine* "Fruit-a-tives".

Along Canada's Mining Highway

In addition to the Kerr Addison, Martin Bird and Omega properties, which are conceded to be substantial mines in the making, numerous incorporations are being formed to develop the prospect areas in the Larder Lake district. The immediate vicinity of the Kerr Addison is the scene of the greatest activity.

Wesley Gold Mines, to the south-east of the Kerr Addison, the Chesterville and Pelangio properties to the east, and the Shaver property to the north-east, are new incorporations. Wesley Gold Mines are diamond drilling; Pelangio have men at work; and the Chesterville are also reported to have operations under way. To the west, Barber Larder and Armistice Gold are starting active developments.

Mr. C. S. Greenland is Consulting Engineer in charge of operations on the Pelangio and Barber Larder properties. He is particularly familiar with the district through his connection with the Martin Bird property. The Martin Bird is located some four miles to the south-west of the Kerr Addison. (Advt.)

Guard against spoiled dough!

BAKE WITH ROYAL
always full strength

Every cake of Royal is sealed in an air-tight wrapper free from contamination

THERE'S one infallible rule in bread-baking — *your yeast must be full strength.* Weak yeast can cause spoiled dough, soggy grayish texture, an unpleasant "off-taste".

That's why it's important to insist on yeast that is protected against loss of strength—every cake sealed in an air-tight wrapper. Royal is the *only* dry yeast that has this special protection. *It stays fresh, full strength and free from impurities.*

For fifty years, Royal has stood for dependability. Today 7 out of 8 Canadian housewives demand Royal when they bake with a dry yeast. They know it is reliable.

Don't take chances with weak, uncertain yeasts. Be sure to buy *Royal.*

Send for FREE Booklet

To get uniform results in bread-baking, *it is important to keep the sponge at an even temperature.* The "Royal Yeast Bake Book" gives instructions for the care of dough. Send coupon for *free* copy of the book, giving 23 tested recipes for tempting breads, coffee cakes, buns and rolls.

WHY YOU SHOULD COOK ELECTRICALLY!

Electric Cooking is ECONOMICAL

Less than $3.00 per month for a family of four! that was the average cost of electric current found from a recent study of 1,000 families who cooked electrically. And this low cost did not take into consideration the additional savings which arise from the preservation of food values, and from the absence of smoke and soot in the kitchen, with consequent less frequent laundering of curtains and redecorating of walls and ceilings.

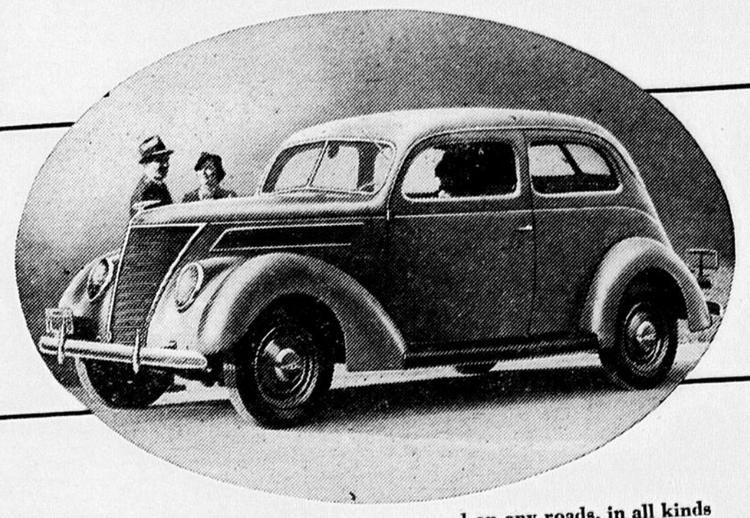

By careful operation of an electric range you can cook a meal for ½c per person, and with much less trouble than by other methods.

See the latest models of electric ranges at our local sales office . . . or any dealer

Fertilizer Problems And Physiological Disorders In Ontario

BY M. B. DAVIS,

Dominion Horticulturist,
Central Experimental Farm,
Ottawa, Ont.

During the past few years there has been a rather alarming increase in the spread of certain troubles in apples known as physiological disorders. Some of these are better known by the name of drought spot, corky core and bitter pit (stippen).

Since these appear to be controlled by the fertilizer practice adopted rather than due to the incidence of any organism of a pathological nature, it would appear opportune to discuss the whole question of orchard fertilization and the occurrence of these various troubles.

This present paper is based on results from orchard investigations in Eastern Ontario and Quebec and while we realize that conditions vary in different parts of the country and in different orchards there is a lesson in these results no matter where obtained because the fundamentals are exactly the same in one part of the country as in the other. The differences which exist are not due to the fact that the fundamentals are different, but because the practices or the soils are different. But if the fundamentals are ignored in the two places both will reach the same end only at a different rate.

A prominent orchardist remarked this summer, when relating his disasters with orcharding due to faulty fertilizer practice, that he didn't know any more about what to do than he did forty years ago. One is forced to sympathize with this man because he had followed instructions from sources which should have been considered as satisfactory but unfortunately his advisors had advised on the basis of fertilizer results obtained in a different part of the country without considering the fundamentals of the situation. It is hoped to be able to clarify this point as we proceed.

Throughout the Province of Ontario we are finding an increasing amount of trouble due to wrong fertilizer practices and in some cases due to soil difficulties which it should be possible to correct. These troubles divide themselves into two categories, those due to an upset balance of the major elements, like nitrogen, phosphorus and potash, and those due to the lack of minor elements, such as boron, manganese and iron. Having watched some of these troubles spread over large areas of Central Canada at a rather rapid rate it forces one to the conclusion that it can only be a short time before they will become prevalent in other parts of Canada. In fact, there is not a fruit growing district that has not experienced some of them to at least a limited extent.

First of all, let us consider the troubles due to an upset balance of the major elements. These are mainly foliage troubles, resulting in lowered vigour and reduced yields. One of the most common of these is leaf scorch, in which the margins of the leaves are scorched to a brown or grayish brown colour (see fig. 1). Sometimes only the very tip of the leaf is scorched or browned. This trouble is indicative of a low potash leven as compared to the nitrogen and can be corrected by reducing the nitrogen or increasing the potash. Occasionally we find this search due to a waterlogged condition in the soil. In this case the lower root system is either fully or partially destroyed, which brings about a reduction in potassium because a good deal of this element is gathered from the lower soil areas. A few years ago this trouble was not noticeable in our Canadian orchards but today it is rapidly on the increase. A recent survey of numerous fruit growers in Ontario indicates that a large percentage of growers have never employed fertilizer and that another large percentage have employed nothing but nitrogen, while only a comparatively small percentage have used phosphoric acid and potash along with their nitrogen. In two counties where we have been doing considerable work the soil analyses made to date indicate very low potassium and low phosphorus, particularly at the lower levels, and the trees show signs of both deficiencies in their foliage symptoms yet a large number of growers have only used nitrogen, thereby aggravating the condition of mineral deficiency. Apples from areas low in potash may be very poorly coloured; even the green is a muddy green instead of a nice bright, lively green. If the trouble is permitted to go on without correction die-back results, in which case the tops of the trees and ends of the branches begin to die back for no apparent reason.

Another symptom which we are just beginning to meet is a bronzing of the leaf, sometimes accompanied with some purple colouration. This is due to deficient phosphorus. It is not as prevalent as leaf scorch but there is no reason to doubt that it will not become prevalent under conditions which have been in existence for the past decade or so.

These major element troubles are the result of faulty fertilizer practice; the result of either no fertilizer at all or of fertilizers consisting of nitrogen only or fertilizers too high in that element.

The significant thing to remember in applying fertilizer to your orchard is that all these three elements are essential and that rarely do you have a soil which is inexhaustible in available amounts of any one. Nitrogen is an absolute necessity for satisfactory growth but it must be supported by readily available amounts of all the other elements, like phosphorus and potassium, calcium, magnesium, etc. A great many experiments have indicated results from the use of nitrogen only and recommendations for the use of this single element have been made in the past. The beneficial results obtained by this policy over a period of years was due to the fact that there were sufficient supplies of available minerals. The continued use of nitrogen alone has in many places already lowered the available minerals to a point where trouble is encountered and it will take years of mineral fertilization to rectify the trouble. To be forewarned is to be forearmed. No progressive orchardist will in future follow a single element program of orchard fertilization unless he has abundant evidence of a scientific nature that his soil is so well supplied with the other elements that he can do so for a period of time.

The fertilizer practices on soils may have to be changed periodically due to changes in balance. The employment of a complete fertilizer on a soil which is originally in good balance will prolong and possible obviate the necessity of a changed fertilizer program.

The best fertilizer recommendations available at the present time for apple orchards might be summed up as follows:

(1) It is recommended to apply nitrogen separately from phosphoric acid and potash. The annual applications suggested are, 200 lbs. of 20% superphosphate per acre or 250 lbs. of 16% superphosphate. 125 lbs. of either mariate of potash or sulphate of potash. Nitrogen to be applied as required.

(2) If the grower prefers an 0-12-15 may be employed at the rate of 400 lbs. per acre, using nitrogen as required.

(3) On well balanced soils where satisfactory crops are now being obtained with no foliage symptoms, such as leaf scorch, or on sod orchards a 9-5-7 is suggested at rates up to 800 lbs. or more for sod orchards and up to 600 lbs. for orchards under cultivation.

In the fertilizer recommendations made by the Advisory Fertilizer Board of Ontario the following is given:

"Time and method of application practically require that the nitrogen be applied separately from the minerals in orchard work. To accomplish its purpose nitrogen should be applied well in advance of tree growth in the spring and generally before the soil is fit for cultivation. Such applications, however, are soon available to the trees and without appreciable loss of the fertilizer applied. In surface applications of mineral fertilizers, unless immediately plowed or otherwise worked into the soil, much of the phosphoric acid and potash is likely to be quickly fixed in the top inch and so rendered unavailable. This fact requires that mineral fertilizers whether applied in fall or spring, should be made when the soil can be worked immediately. Probably the most satisfactory way of incorporating minerals in the soil is to apply them to a green manure crop stimulating growth of this crop. Later decomposition will release the minerals at soil depth, suitable for the trees.

No definite nitrogen recommendations have been included. Whether or not nitrogen should be applied and in what quantity, will depend primarily on the age and condition of the orchard and the present mineral content of the soil. Nitrogen applications to a low mineral content soil are likely to be harmful rather than beneficial. Probably most bearing orchards need nitrogen however. A moderate nitrogen application, based on the use of Nitrate of Soda or Sulphate of Ammonia, would be one-quarter pound per tree for each year of age of the tree. Cyanamid should be used in somewhat lesser amounts."

Before we leave this part of the talk, permit me to once more urge you to study the foliage symptoms of your trees and be prepared to maintain a well balanced condition in your fertility.

Physiological Disorders Due to Deficiency of Minor Elements

We now come to a consideration of those troubles due to a lack of some of the minor elements, such as boron, manganese and iron. All three of these have been observed in different parts of Canada but probably boron deficiency is the most widespread and should receive, at present, the greatest amount consideration. Insofar as apples are concerned, boron deficiency expresses itself in the form of drought spot of apples, corky core and internal cork. Other troubles commonly found in apples have sometimes been confused with these cork troubles. These are bitter pit, and what has been termed blotchy cork. In the case of pit there are typical markings on the fruit formed during the late life of the apples on the tree or perhaps not appearing until the fruit is in the store. The first symptom is the appearance of slightly discoloured spots deeper green on green fruit and darker red on red fruit, somewhat sunken or depressed and generally regular in outline. They are likely to be more numerous towards the calyx end. When an affected apple is cut it shows groups of brown broken down pulp cells just under the skin in the flesh, and the affected tissue is generally confined to this area.

In the case of cork, if the fruit has corky core, only the core will show the brown cork-like tissue, or this may spread over the entire interior of the fruit, without any external symptoms. On the other hand the fruit may show external discontinuous elevations, giving it a knobby appearance. Furthermore, it generally can be found in the fruit when it is half grown. In severe cases this is noticeable by the deformity; in mild cases, as in corky core, it is only noticeable upon cutting. If a fruit affected with cork has pit-like depressions, which make it difficult to tell from bitter pit, it can be distinguished by cutting through these pits and if a green layer of tissue is observable near the surface it can be assumed it is not true pit but cork. The so-called blotchy cork is really true pit in which the regular pit areas have become somewhat amalgamated and present a somewhat different appearance. How these two types of troubles are apparently due to somewhat different conditions. The cork complex can be cured by boron but so far the pit and blotchy cork troubles have not been cured by boron. Let us consider the cork complex first. The cork troubles are becoming very prevalent in parts of Ontario and Quebec. The conditions under which they are found are variable. Thus, they are prevalent in dry years more than in wet years. But we do not consider them primarily due to lack of moisture because one orchard in which the soil moisture was found to be only 4% has never showed cork, while others with moisture as high as 20% have showed it. The trouble has been associated in some orchards by an excessive amount of nitrogen due to the excessive use of hen manure, or, in at least one place, to the excessive use of a nitrogenous fertilizer. The fact that in these cases it was corrected by removal of the excess nitrogen indicates that this element plays an important part in the prevalence of the trouble. Another condition closely associated with cork is a shallow soil but the most common condition in Ontario and Quebec is a soil high in lime, generally in the form of $CaCO_3$.

In two counties this past season a large percentage of the crop was destroyed by drought spot. Wherever the soil was on the acid side the drought spot was not prevalent, but wherever an alkaline condition prevailed it was prevalent to a large extent. Trees which for two years had been injected with various elements showed drought spot, excepting those injected with boron which were one hundred per cent free. Under conditions of high carbonate, boron applications to the soil have not had any appreciable effect in the control of drought spot. In the orchard just referred to the boron injected trees were also free of cork although four years ago when we took the orchard over it was one hundred per cent corky core.

Since there seems to be little doubt that boron is a satisfactory remedy for drought spot and cork, the following recommendations are made:

Drought spot and cork may be corrected by boron applications to a soil at the rate of four to eight ounces of borax per tree, applied in spring and worked into the soil, if possible. To apply this, mix the borax with several times its volume of sand or dry soil to aid in spreading it. These soil applications are only effective if the soil is not on the alkaline or high lime side. If the soil is alkaline or on the high lime side results may be obtained by incorporating borax with the regular lime sulphur sprays. If this is done two applications should be sufficient; one at the time of the calyx spray and the other the second spray after that, using borax at the rate of 2½ pounds to 100 gallons of the spray mixture.

While the injection method may be employed we do not recommend it as injury may result and, furthermore, one injection is not good for more than two years so it is not a practical means of controlling the trouble.

In addition to the above the general recommendations following the section on pit are recommended.

Bitter Pit

This trouble, as previously intimated, is different from cork in its response to boron treatment. It is classed by us at Ottawa in the same group as Blossom End Rot of tomato, i.e., we consider it in the nitrogen carbohydrate group of troubles since they respond to treatments designed to correct the nitrogen carbohydrate ratio.

Pit is prevalent in our part of the country on Northern Spy, Baldwin and Spy seedlings and is generally found in orchards high in nitrogen where excessive vigour or leaf scorch symptoms are prevalent. It does not appear to be definitely associated with high lime and in fact may be found where that element is low. We have observed cases of where it may be corrected by lowering the nitrogen applications and increasing the minerals. The only recommendation we can give is to employ a complete fertilizer high in minerals and avoid forcing the trees to excessive growth or production. Another situation commonly associated with bitter pit are shallow soils where the lower root system is unable to get much in the line of minerals and the top root system is feeding in soil well stocked with nitrogen. Increased application of minerals have aided under these conditions in controlling the trouble.

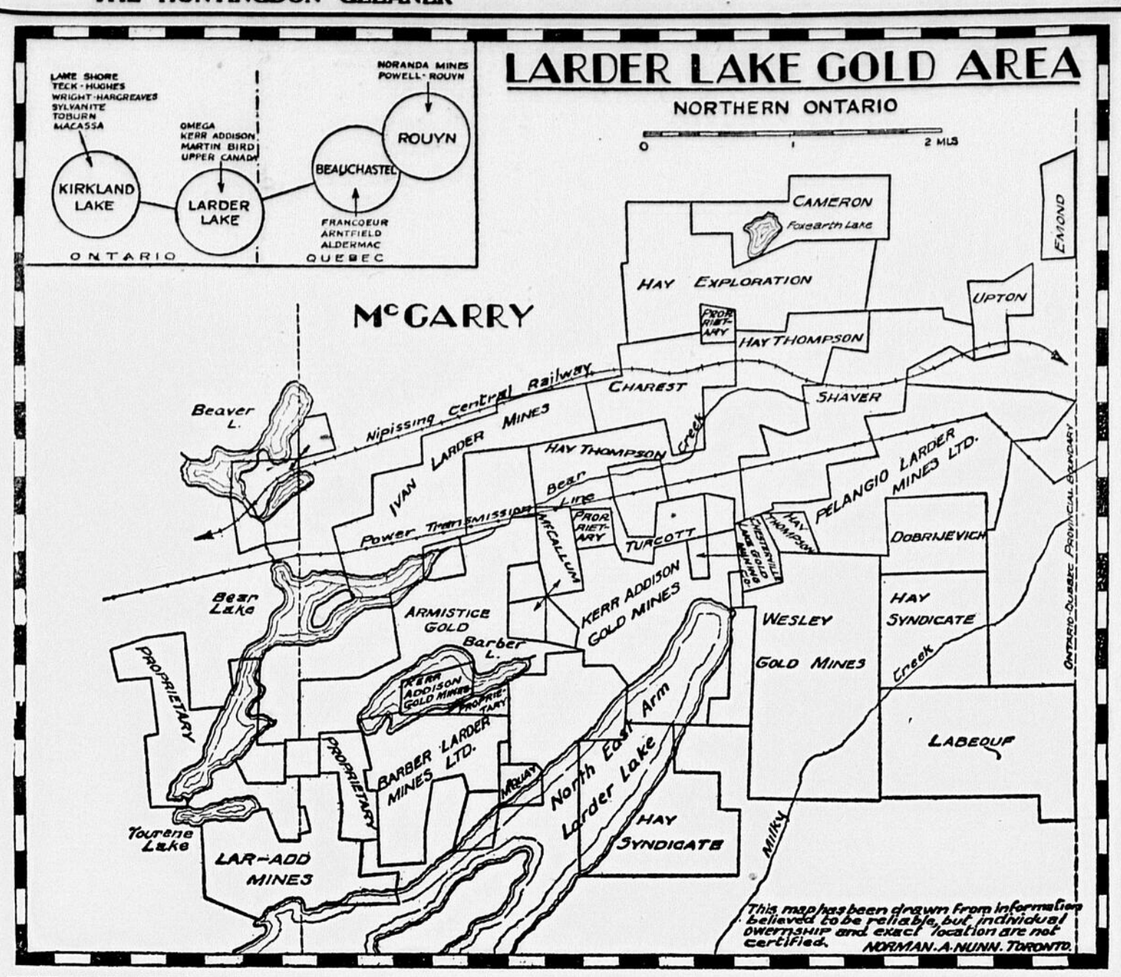

Deficiencies of maganese and iron are probably not as yet of great importance in Eastern Canada. We have had one or two instances of a lime induced chlorosis due to inactivation of iron by high lime content and one or two cases of a similar chloretic trouble due either to deficiency of manganese or a tieing up of that element by high lime. Both troubles have been corrected by the application of the suggested remedy, viz., application of either iron or manganese.

In closing, I would like to commend to you the idea of studying your individual trees for the purpose of observing deficiency symptoms. Yellowish or pale green leaves without scorch indicate low nitrogen, corrected by applying nitrogen. Very dark green leaves of large size without scorch indicate high nitrogen, a danger signal to be watched closely. Large dark green leaves with brown tips or pale margins are the early stages of potash deficiency. Marginal scorch either on pale leaves or dark green leaves generally means potash deficiency. Bronze coloured foliage indicates low phosphorus. Die-back of the ends of twigs or branches may mean either excess nitrogen or low potassium. Poorly coloured fruit or dull reds or muddy greens indicate either excess nitrogen or low potassium. The brilliant hues or lively colours are found under lower nitrogen and higher potassium conditions. Corky core or other cork troubles may be due to excessive nitrogen or too high lime or soil alkalinity. They may be corrected by the use of boron. Bitter pit may be due to excessive vigour, due to too high a nitrogen condition.

Watch for these symptoms and practice balanced fertilization in the years to come.

Educational Films On Bell Telephone Were Shown Here

An interesting an educational treatment of the role the telephone has played in past and present day life was shown through the medium of movie pictures to a large audience in St. Andrew's Presbyterian Church Annex Saturday night by officials of the Bell Telephone Company. The scenes showed many interesting phases in the development of the telephone. The audience was shown how communication between land and sea is set up, the part the telephone played on ships at sea was clearly demonstrated. The units of the instrument, its construction, and equipment necessary to keep it in repair were also seen, and the audience was given all the details about beams, metres, switchboards, dial phones, etc. There were also two comic pictures, one of Mickey Mouse, and one of Grey Owl, the great naturalist. The machine is equipped with a talky device but Mr. F. C. Whitaker, general district manager, added necessary explanatory remarks. Mr. Motton was the operator of the machine and he was assisted by Mr. Neilson.

County Sale Properties For Taxes

The county sale of lands for municipal, school and ditch taxes, was held in the County Building on Wednesday. In a number of cases the properties were sold to settle estates.

Two properties were sold in the Municipality of Elgin. The W. J. Moore property was adjudged to Arthur Watson, for $285.67, and the A. W. Smaill property to Miss Margaret Smaill for $61.23.

The Roy Dunn property in the Municipality of Franklin was adjudged to George H. Brooks for $57.05.

Only one of the advertised properties was sold in Godmanchester. This, the Mrs. Damase Monique property, went to Peter Monique for $10.84.

The Claire H. Masson property in the Parish of Ste-Barbe, an island, went to Henri Pinsonneault for $57.62.

Four properties were sold in St. Anicet parish. The M. J. Curran estate to John Moriarty for $263.11; E. Girard to Albert Dupuis for $47.85; Napoleon Hart to Mrs. Jas. O'Connor, for $12.42; J. B. Bertrand to Jos. T. Smythe, for $9.99.

In each case the former proprietors have two years to redeem their holdings, after which time they become the bona fide properties of the new purchasers.

Deputy Pays First Official Lodge Visit

Presents Fifty Year Jewel To Wor. Bro. Norman McCrimmon

The Rt. Wor. Bro. A. A. Lunan, D.D.G.M., Montreal District No. 3, paid his first official visit to the Chateauguay Lodge No. 36, at a regular communication held in the Masonic Temple at Huntingdon on Tuesday evening.

The D.D.G.M., who was accompanied by several distinguished brethren from Valleyfield and Glenorm lodges, presented a fifty year jewel to Wor. Bro. Norman McCrimmon, and addressed the meeting briefly about Masonic work.

The Rt. Wor. Bro. A. A. Lunan has had many and varied Masonic connections. Initiated into Chateauguay Lodge No. 36, in May 1908, he was W.M. in 1916-17, Grand Senior Deacon, Grand Lodge of Quebec in 1931, and D.D.G.M. of Montreal District No. 3, this year.

Seeking further light he entered Capitular Masonry, being exalted in Royal Albert Chapter, R.A.M., in 1916. Became a Charter Companion of Union Chapter No. 19 in 1921, advancing to the position of First Principal in 1926. Grand Superintendent of District No. 1 in 1930. In 1920 he became connected with Richard Coeur de Lion Preceptory; also Karnak Temple (Shriners). In 1922 he was accepted into the A. & A. Scottish Rite; while in 1924 he sought further light in the Cryptic Rite.

Among the other distinguished guests who attended the meeting were: W.M. J. A. MacDonald; R.W. Dr. C. L. Roman, the W.M. and several other brethren from the Valleyfield Lodge, the Very Wor. Bro. McLaren and Wor. M. and several other members of Glenorm lodge.

Supper was served afterwards by the Y.P.S. of St. Andrew's Presbyterian Church.

HAD AGONISING PAINS IN HER BACK

Free from Pain Since Taking Kruschen

Like many other sufferers from backache and rheumatic ailments, this woman decided to try Kruschen Salts in a last attempt to obtain relief from pain. To her surprise, the pains did grow less, and in a few months the backache had disappeared. Having made sure of the results, she now writes as follows:—

"For about four months I had agonising pains in my back, and could not turn in bed. During that time I tried various remedies, but obtained no relief, and was seriously considering going into hospital. However, seeing a case similar to mine described in an advertisement for Kruschen, I thought I would try it, and was more than surprised to find the pain getting less. I have been taking Kruschen for four months, and would not be without it for anything. I must say I am free from those dreadful pains."—(Mrs.) B. C.

Kruschen is an excellent diuretic that is, it helps to stimulate kidney functions. When kidneys are restored to healthy, normal action, poisonous waste is properly eliminated, the blood-stream is purified, and you get welcome relief from the dragging pains of backache.

CURLING NOTES

LADIES' CURLING

On Friday night the ladies played a novel tournament when the members of the teams were chosen according to streets. A Prince street band, led by Miss Olive Cluff were the ultimate winners, defeating a Hunter street group led by Mrs. W. K. Philps, and a Wellington street four skipped by Mrs. Goundrey. Prizes were donated by the club for this competition. The rinks and scores were as follows:

Hunter St.		Prince St.	
Mrs Kyle		Mrs. Walker	
Mrs. Martin		Mrs. Dixon	
Mrs. Thomas		Mrs. E. Brown	
Mrs. Philps (Skip)—	5	Miss O. Cluff (Skip)—	9
Wellington St.		**Prince St.**	
Mrs.. Guest			
Miss H.Kelly			
Mrs. Baldwin			
Mrs. Goundrey (Skip)—	2	Miss Cluff (Skip)—	9

On Friday afternoon Bridge was played at four tables with the prize going to Mrs. James Cluff.

Domestic Troubles

Mary, in her first situation, listened intently to her mistress's instructions.

"And always remember to change the serviettes," she was told. "Don't give the guests the same ones they had for breakfast. Understand?"

Mary nodded.

After dinner the girl was summoned by an angry mistress.

"I thought I distinctly told you to change the serviettes," she snapped. "The guests had those that were used at breakfast."

"Oh, no, ma'am," asserted Mary. "They didn't have the same ones. After breakfast I gathered them all up and shuffled them well, and gave the guests a different one each."

Ormstown

The March meeting of the Women's Christian Temperance Union was held on Thursday afternoon, March 4th at the home of Mrs. John Orr. The president, Mrs. W. G. McGerrigle occupied the chair. The meeting opened by singing "O for a faith that will not shrink." The usual devotional exercises followed which were in charge of Miss M. Bazin. Minutes of the previous meeting and business arising therein was discussed. Miss M. Bazin spoke of the mid-winter conference which she had attended in Montreal. Mrs. Hamilton and Mrs. Young gave two very interesting and instructive addresses on Social Hygiene and Moral Education which were greatly enjoyed by all.

The new Ebbitt Hotel in Washington, D.C., does not serve intoxicating liquors, but has enjoyed real prosperity under such a regime. The room receipts have almost doubled from July, 1935 to July, 1936. This corroborates what we have always believed, namely, that the public neither demands nor desires liquor hotels. Even the man who makes a habit of drinking, does not care to entertain his wife and children where liquor menus are thrust under their noses at every meal.

The next regular meeting will be held at the home of Mrs. H. B. Patton, on April 8th, the prayer meeting at the home of Mrs. J. Peddie, March 15th. Sick visiting committee are: Miss H. Bryson, Miss M. Bazin, Mrs. A. Cunningham, Mrs. Geo. Cottingham, Mrs. Jas. Carmichael. The meeting closed with the Temperance Benediction.

Tursday evening another game of curling was played on the Hawley Challenge Cup. Mrs. Quintin defeated Mrs. McIntyre to retain the Cup. The next challenger in line is Miss L. Bazin. The players and score were:

Holders	Challengers
Miss J. Woodley	Miss M. Swan
Miss C. Finn	Mrs. Stalker
Mrs. J. Atkinson	Mrs. McLaren
Mrs. Quintin	Mrs. D. McIntyre
(Skip)—13	(Skip)— 3

The final in the double competition played with granites took place on Wednesday afternoon, a very close and interesting game resulted in Miss Campbell and Mrs. Stalker winning over Miss H. Bryson and Mrs. McIntyre by a 9-7 score.

Miss Jean McKay left last week to visit her father, Dr. Chas. P. McKay at St. Johns, Que., after having spent some time with Mr. and Mrs. D. A. Barrington.

Mrs. Helena McCormack spent the past week-end with her sister, Mrs. M. E. Finn, before leaving for her home in Fort Worth, Texas.

Messrs. Willie McClintock, Keith McCaig and Francis Smith have gone to take up the short course at Macdonald College.

Mrs. C. Munroe of Montreal was the guest of her mother, Mrs. P. McLaren over the past week-end.

Messrs. R. S. Dunn and Clifford Barrington left last week by motor for Noranda, Que., where they have secured positions.

Mrs. R. J. Morrison and son of Newport, Vt. have returned home after spending three weeks with her daughter, Mrs. Dugald A. Lang.

Valleyfield Star Is Hurt Playing Hockey in England

Gerald Philbin, well-known Valleyfield hockey player, suffered a slight concussion and had to be taken to hospital for treatment following injuries received in a game at London, Eng., Friday night. Philbin, Southampton Viking ace defenceman, was injured when his team was playing Brighton Tigers. The Tigers went on to win the game 4-3.

Bobby Lee of Montreal scored two of the Tiger goals and Gibson and Vince Gallagher of Kenora got the others. Roger Gaudette of Montreal, with two, and Theo Hamel of Quebec, were the Viking marksmen.

Philbin is well known to hockey fans in this district. He learned most of his hockey in Valleyfield where he played for the Knights of Columbus team for several years. Two years ago he went to play in the Senior Group in Montreal and last year was a member of the powerful Verdun Maple Leafs. He left last fall for England where he has been playing hockey since.

Engines: Male or Female

Railroad engines should be called "he" instead of "she", Pat argued. "They smoke and choo, don't they?"

"Shure," replied Mike, "but an engine wears a jacket with a yoke, pins, shields and stays. She has an apron and a lap, too. She wears shoes, but she sports pumps and even hose and she drags trains behind her. Shure, and she attracts attention with puffs and mufflers, and sometimes she foams and refuses to work. At such times she needs to be switched. She needs guiding and she requires a man to feed her, and that's not all—she is much steadier when she is hooked up."

They were discussing holidays.

"We go away only every third year," said Smith.

"What do you do the other years?" queried Green.

"Oh, the first year we talk about last year's holiday, and the second year we discuss plans for the next."

Tired Nerves

Tired nerves make you restless, nervous, irritable and sleepless. Most women, and men too, depend on Dr. Chase's Nerve Food for new nerve force. For new pep and energy use

Dr. Chase's NERVE FOOD

Harry Kluger Silk Expert Dead at 68

Harry Kluger, president of H. Kluger, Inc., of Paterson, N. J., silk converters, died of heart disease, Saturday, Feb. 13th, as he was being driven through Perth Amboy by his son, Benjamin, on his way home from Lakewood, where he had been for a rest. He was sixty-eight years old.

Mr. Kluger went to Paterson forty-five years ago and began to manufacture silk. At one time he operated plants in Fall River, Mass., and in Huntingdon, the Windsor Silk Mills, but for the past year he has discontinued active manufacturing, giving his work out on a commission basis. He lived at 117 Graham Avenue, Paterson.

Besides his son, Benjamin, Mr. Kluger's wife Mrs. Fannie Kluger; two other sons, Nathan and David, and three daughters, Mrs. Bonnie Washer, Mrs. Samuel Mendelsohn and Mrs. David Fofelman, survive.

Ladies Name New Officers Dundee W. I.

On Wednesday afternoon, March 3rd, the annual meeting of the Dundee Women's Institute was held at the Community Hall, with Mrs. Joseph Platt as hostess. After the routine business, the election of officers took place. The slate for the coming year is as follows: President, Mrs. Joseph Platt; 1st Vice-President, Mrs. Watson; 2nd Vice-President, Mrs. G. Leslie; Secretary, Mrs. Smallman and Treasurer, Mrs. S. McGibbon. The convenors for the coming year were chosen and Mrs. Harold Smith was named convenor of the Programme Committee.

The treasurer's report showed that the sum of $216 was the total raised during the current year. Convenors of departments presented very satisfactory reports of their year's work. Mrs. Watson and Mrs. E. Gardner were appointed auditors. Several suggestions for next year's programme were given in response to the roll-call.

Mrs. C. R. Grant, convenor of legislation read an article on the Signing of Contracts. She also gave a humorous reading in dialect about the "Dionne Quintuplets", which was much enjoyeds. Answers to the question box were then given. Supper was served to fifteen members and four visitors.

On Thursday evening the members of the Women's Institute and their families gathered at the Community Hall to celebrate the birthday of the retiring president. Five Hundred was played and high scores were won by Mrs. Hugh McNicol and Mr. Earl Gardner. Then the newly elected president, Mrs. Joseph Platt, on behalf of the organization, presented Mrs. Smallman with a gift of money, thanking her for her work during her years of office. The recipient, in reply, expressed her gratefulness for such a thoughtful expression of appreciation. All then had lunch in the dining-room, after which they disbanded, having spent an enjoyable evening.

League Hockey Gossip

Ormstown defeated Huntingdon's Windsor Silks for the district hockey league championship and the W. E. Lefebvre Tip-Top Trophy in one of the greatest games of the entire schedule at the local rink on Wednesday night. After battling through two periods without a score Ormstown banged in two goals late in the third session but the Silks came back to tie the count and send the game into overtime.

Hon. M. B. Fisher, M.L.A., Presents Challenge Cup For Hockey

A new Challenge Trophy has been donated by the Hon. Martin B. Fisher for inter-town competition between Ormstown and Huntingdon. Picked teams from the two towns will battle for this cup in a two out of three game series starting at Huntingdon Thursday night. The Fisher Cup will be up for competition every year.

The second of the two out of three game series, starting at Huntingdon Thursday night, will be played at Ormstown Saturday night. The team scoring the highest number of goals in these two games will have the right to play the third game at home, if such a game is necessary.

The Cup, a handsome eighteen-inch high model will be presented to the winning team by Mr. A. A. Antoine, president of the Huntingdon Skating Rink Association.

Probable Huntingdon line up for the series is as follows:

Goal, Hunter or McGill; defence, C. Grant, C. Faille; forwards, Wilson, Fortune, E. Tedstone; White, Ferry, J. C. Lefebvre; Boyd, Lasalle.

Ormstown will use the same team that beat the Windsor Silks, namely, Cartier, goal; R. Campbell, Murphy, defence; McGerrigle, J. Campbell, Smith, B. Campbell, Boyle, McCartney and Legault.

The Windsor Silk banquet already postponed twice will be held at the Chateau, Thursday night. This will officially wind up the Windsor Silk team's activities for this season.

A pick-up hockey game played after the St. Joseph-Academy Jr. game at the Huntingdon rink between Ormstown and Huntingdon Canadien players was won by the latter 5-4. John LaSalle with three goals and N. Lefebvre with 1 were the local stars.

Covey Hill

One farmer decided that the long way round was the only practical way home for him, and has been driving his load out of his woods across two other farms to the public road and so roundabout to his own place.

Mr. H. Waddell and son Eldon of Chateaugay, N. Y., have been guests of Miss A. Stewart.

A company of young people spent a pleasant social evening at the home of Mr. and Mrs. R. Sutton on the occasion of Howard's birthday.

Mr .and Mrs. Eugene Titus of Brainerdsville, N.Y., were recent guests of Mr. and Mrs. Roderick Sutton.

Mr. Thos. Barr of Plattsburgh, N.Y., was a visitor on the Hill last week.

Mr. Geo. Hooker of Ormstown was a guest at "Cornerstones" on Monday.

Recent visitors to Montreal included Messrs. R. C. Whyte, E. R. and W. W. Louden, E. W. Semple, and L. A. Waddell. The latter has invested in a new car. Mr. W. W. Louden visited his wife in the General Hospital.

We hear that Mr. Lester Hamilton's son, Caslyn, has achieved some fame and fortune as a wrestler, taking part in a recent exhibition at Canton, N.Y.

There have been some cases of mumps reported, and a good many of la grippe continue to occur.

Mr. Jonathan M. Fletcher, formerly of Ballymena, Ireland, was student-preacher from the Presbyterian College on Sunday of last week. He proved a very forceful and earnest speaker. Last Sunday the service was cancelled, although Mr. Jas. Collins, of Brockville, Ont., a young man of especially prepossessing appearance, was on hand for his duty.

FISH—THE FOOD OF HEALTH

From the days of the early Greeks and Romans fish has always been a popular dish. Instinctively they knew what was good for them and the prowess of the early Romans as a sturdy nation is well known to students of history.

Throughout Europe fish is a daily dish. In Canada, however, more housewives should make a closer study of this wonderful food. Fish contains vitamins, minerals in quantity and variety and is an excellent source of highly digestible proteins.

Try this delicious recipe for stuffed fillets of Sole. It is one that is simple to prepare and one that every member of the family will enjoy. Choose six large fillets of equal size, which will serve four to five people. Make a stuffing by moistening a cup and one-half of stale bread crumbs with a cup or more, depending on the staleness of the crumbs, of hot, sifted tomato juice, one-half a teaspoonful of salt a tablespoonful of mixed dried herbs may be added if desired. Spread this stuffing over three of the fillets, place over these the left-over three fillets, fasten at the sides with wooden toothpicks, lay on the grate of a baking pan with a thin slice of salt pork over each, pour into the pan a cup or more of fish stock, water, or water and tomato mixed and bake for half an hour until done—at 350 degrees F., basting every ten minutes.

Pan Broiled Fillets a la Meuniere are delicious too:

2 lbs. Canadian Fish Fillets
4 tbsps. butter
1 tbsp. finely minced parsley
Juice of one lemon.
Salt and Pepper

Roll fillets in salted flour. Heat some oil in a frying pan and fry fillets until cooked a nice brown on each side. Remove to a hot platter. Melt the butter, and the lemon juice.

And don't forget that a good sauce always adds to the zest and enjoyment of a fish dish.

Life Member Institute By Aubrey Ladies

Comprehensive Report of Year's Work Given By Secretary

The annual meeting of the Aubrey-Riverfield W. I., was held in the Aubrey Curling Rink Club rooms with a good attendance of members who responded to the roll call with "payment of fees". The minutes of the last meeting were read and approved after which current events were given by the conveners present. An interesting paper on "Finland, its people and the contribution they have made to Canada", was given by Mrs. J. L. Gruer. Conveners' reports were given, and a very comprehensive report of the year's work by the Secretary-treasurer, Mrs. John Gruer, who also gave the financial report, showing that $47.80 had been raised during the past year.

In the very fine address given by the President, Mrs. C. W. Orr, she thanked the officers and members for the whole-hearted manner in which they supported her during the past year, and urged them to greater activity in the future. At the close of her address, a certificate of Life Membership was presented to Mrs. A. Bennie, who for the past twenty-five years, has been an Institute member. The election of officers followed: President, Mrs. Jas. Angell; 1st vice-pres., Mrs. J. L. Gruer; 2nd vice-president, Mrs. W. C. Craig; sec.-treas., Mrs. John Gruer; Press Correspondent, Miss E. Rorison. Conveners: Agriculture, Mrs. Ewart Orr; Canadianization, National Events, Mrs. W. Craig; Canadian Industries, Mrs. D. Flint; Child Welfare and Public Health, Mrs. W. G. Allen; Education and Better Schools, Miss J. Morris, Home Economics, Mrs. S. Reddick; Immigration and Colonization, Mrs. J. L. Gruer; Legislation, Mrs. F. G. Easton; Publicity, Miss L. Rorison. Programme Committee: Mrs. C. W. Orr; Mrs. A. Bennie, Mrs. A. A. Allen, Mrs. Jas. Angell and Mrs. Jas. Bruce. Delegates to County Convention in Huntingdon, Mrs. Ewart Orr and Miss E. Rorison; Provincial Convention delegates, Mrs. Jas. Angell and Mrs. S. Reddick. One new member was added to our list. The meeting closed with the National Anthem after which refreshments were served by the hostesses, Mrs. E. Orr, Mrs. McClenaghan and Mrs. Bruce and a social hour spent.

Miss L. Savage of Cape Cove is the guest of her sister, Mrs. W. Craig.

Sorry to report that Mrs. Everett Orr is not as well as her many friends would wish. We hope she will soon be restored to her usual health.

C. G. I. T. Meet

The Junior and Senior Siloki C. G. I. T. groups met at the home of Mrs. J. J. Peddie on Saturday, March 6th at 2 P.M. Eleven members were present and responded to the roll call with the name of "An Irish Song". The devotional period was in charge of Miss Ruth Reddick. At the close of the business meeting a demonstration on bandaging wounds was held. Dainty refreshments were served by the hostess assisted by her daughter Margaret and a social time enjoyed.

Hemmingford

Mrs. Geo. J. Brown entertained on Tuesday and Thursday evening. On Tuesday, Mrs. Brown entertained both ladies and gentlemen when "500" was played at five tables. Mrs. Roy McCanse won ladies' first, Miss Irene Moore second, Mrs. J. K. Goodfellow, consolation. Mr. Geo. J. Brown held highest score, but the prize went to the second highest, Mr. C. E. Petch. Mr. J. K. Goodfellow won second, and Mr. Ralph Kennedy, consolation.

On Thursday, Mrs. Brown entertained ladies only. Mrs. J. K. Goodfellow won first, Mrs. S. D. Cunningham, second, and Mrs Calvin Smirle consolation. Every one thoroughly enjoyed and did justice to the luncheon served by the hostess.

Mrs. S. D. Cunningham entertained at two tables of bridge Saturday evening in honour of her daughter, Miss Hazel Cunningham, of Montreal. Miss May Bennett won first prize, Mrs. Walter Keddy second and Mrs. S .D. Cunningham consolation.

The regular meeting of the Hemmingford Young People's Society was held Monday, March 1st. The meeting opened with singing under the direction of Millicent Orr, followed by games under the direction of Peggy Hawkins. The literary part took the form of charades. The meeting closed with the devotional period under the leadership of Mr. Rose.

Hon. Martin B. Fisher was in town Monday.

Miss Hazel Cunningham, of Montreal, spent the week-end at the home of her parents, Mr. and Mrs. S. D. Cunningham.

Mrs. J. P. Simpson spent the week-end with friends in Champlain, N.Y.

Mrs. Mabel Keddy spent the week-end at Champlain, N.Y., at the home of her daughter, Mrs. Allen Maynard.

Mr. Glenn Benjamin of Greenfield Park, is spending his vacation at the home of Mr. James Williams.

"When Asia and Europe look toward the Americas their eyes look as though they had bayonets in them."—General Mincada of Nicaragua.

"I believe medical science will solve our longevity problem, for even today its miracles are gradually extending man's age."—Dr. Serge Voronoff.

ITCHING

TORTURE STOPPED *In A Minute!*

For quick relief from the itching of pimples, blotches, eczema, athlete's foot, rashes and other skin eruptions, apply Dr. Dennis' cooling, antiseptic, liquid D. D. D. PRESCRIPTION. Its gentle oils soothe the irritated skin. Clear, greaseless and stainless—dries fast. Stops the most intense itching instantly. A 35c trial bottle, at drug stores, proves it—or money back. Ask for— 30

D.D.D. *Prescription*

Dewittville

Quite an excitement was caused in Dewittville early Tuesday afternoon when it was ascertained that Antoine Castell's house was on fire. A bucket brigade was quickly formed and the fire of unknown origin was soon extinguished before much damage was done.

Mr. and Mrs. Allan Ritchie and Mrs. Frank Martin spent Monday in Montreal. Miss Margaret Ritchie returned home with them, having secured her diploma for hairdressing and beauty culture, from Professor Bernard's School on Friday.

Mrs. D. Boyd returned to Montreal on Wednesday after spending the past four months with her daughter and son-in-law, Mr. and Mrs. James Ferns, Jr.

Mrs. Leonard Lucas returned to Montreal, Saturday afternoon, after spending some time at the home of Mr. and Mrs. William Graham.

Mr. Joseph Rabidoux spent Saturday in Montreal.

Miss Greta Ferns of Montreal, spent the week-end with her parents, Mr. and Mrs. James Ferns, Jr.

Mrs. A. S. Booth and daughter Helen of Montreal, were Sunday guests of her mother, Mrs. Peter McArthur.

Miss Cassie Ouimet of Montreal, was the week-end guest of her friend, Miss Isabel Ferns.

Miss M. S. Burke of Montreal, spent the week-end at the home of Mr. and Mrs. Frank Benson. Mr. Benson took her to Montreal, Monday morning.

Sorry to have to report that Miss Keitha Pearce has been having the mumps.

It is reported that Mr. Robert Gordon has sold his farm to Mr. Wylie McArthur of Howick.

Mr. and Mrs. Richard Ouimet and family are again installed on Mr. D. M. Rowat's farm in Dewittville.

Tatehurst

Mr. John Greer spent Tuesday in Montreal.

Mr. and Mrs. David Booth of Huntingdon visited on Saturday with Mr. and Mrs. Robert Ovans.

Mr. and Mrs. McMath and family left this week to make their home at McAlpine, Ont.

Master Buddy Pearce of Dewittville is a guest this week of his grandparents, Mr. and Mrs. George Hooker.

Miss Lyla Ovans, nurse-in-training at the Baby Foundling Hospital, Montreal, visited on Friday with her parents, Mr. and Mrs. Herbert Ovans.

Mr. and Mrs. Walter Scott attended the anniversary celebration at the home of Mr. and Mrs. Wm. Cairns, Huntingdon on Friday.

Mr. and Mrs. George Hobbs of Montreal spent the week-end with Mr. and Mrs. Frank Weale.

Mrs. Edgar McKell and Thyra of Aubrey were guests on Tuesday of Mr. and Mrs. John Whiteford.

Miss Viola Gruer is teaching at Franklin Centre at present, replacing Miss Isabel Rember, who has been ill with measles and mumps.

On Wednesday evening Upton's buses transported several passengers to the Hockey Game, Ormstown Seniors vs. Windsor Silks.

Robson

Mr. and Mrs. Fernie Beattie and children visited Mr. and Mrs. Herbert Gilmore of Russelltown on Sunday.

The Misses Maye Thompson of Montreal and Helena Thompson of Bristol spent the week-end with their sister, Mrs. Henry Stewart.

Miss Elleda Stewart of Montreal spent the week-end at her home.

Mr. and Mrs. W. D. Sample spent the week-end in Plattsburg, guests of their daughters.

Mr. Robt. Blair was operated on in the Physicians' Hospital Thursday. Latest reports are that Mr. Blair is doing as well as can be expected but is very weak.

Mr. Robert Walker spent a few days here recently. Mr. Walker is taking a course in Syracuse, N.Y.

While helping to put on a load of wood in the woods last Thursday morning, Mr. Walter Barr had the misfortune to slip on some ice and fall, the small log he was carrying falling and striking him on the leg. As a result he is laid up for a few days.

Mr. Charles Barr, student of Ste. Martine Agricultural School, spent a few days at home this week.

The executive of the Young People's Society met at Mr. Percy Barr's on Wednesday evening and laid plans for the meetings for the month of March.

The Hemmingford Calf Club held their annual meeting in the Entomologists Laboratory, Hemmingford, on Friday afternoon. Messrs. J. P. Fleury and J. L. Pelletier had charge of the meeting. The prize money was distributed for the Fall Fair. The Calf Club was re-organized for the coming year and the officers elected.

Roxham

Miss Joan Farquison of Henrysburg, Que., spent the week-end with her friend, Miss Ethel Fewster.

Rev. E. E. Dawson and Mrs. Dawson of Lacolle were visitors on Saturday afternoon of Mrs. Wm. Akester. Mrs. Akester is sufficiently recovered from her illness to be able to sit up a while each day.

Mrs. Ruth Wing spent a few days visiting with her mother-in-law, Mrs. Betsey Wing.

Mrs. Everett True of Henrysburg, spent the week-end the guest of Mr. and Mrs. Harvey Smith.

ACCIDENT SAVES LIFE

Fixing a gadget on the dashboard of his car with the engine running nearly caused an Atlantic City motorist his life. He slumped forward owing to the poisonous fumes of carbon monoxide gas. His leg shoved the gear into reverse and the car backed through the closed doors into the life-giving open air.

HARRY KLUGER

Formerly connected with Windsor Silk Mills, Huntingdon, who died recently at Perth Amboy, N. J.

Born

Boyd—At Franklin Centre, Que., on March 3rd, 1937, to Mr. and Mrs. Clarence Boyd, a daughter (Wilma Freda).

Lang—On March 2, 1937, to Mr. and Mrs. Dugald A. Lang, a daughter, Patricia Ann.

Norton—At the Hotel-Dieu Hospital, Valleyfield, March 1st, to Mr. and Mrs. Radley J. Norton (nee Dorothy Hartley) a daughter.

Howie Morenz Dies In Hospital, Result Of Heart Attack

Howie Morenz, 35 year old first string centre for the Canadiens of the National Hockey League, died from a heart attack at 11.30 o'clock Monday night in the St. Luke hospital, Montreal. He had fractured his leg in a game against the Chicago Black Hawks at the Montreal Forum on January 28th and had been in hospital since then.

One of the most brilliant players in the game, Morenz won the hearts of all hockey fans for his fine sportsmanship and dazzling play. A member of the Montreal Canadiens for most of his professional career, he was sold to Chicago in 1934, went from there to New York Rangers in January 1936, and rejoined Canadiens at the beginning of the current season.

Morenz was born near Stratford, Ontario, where he played his first hockey as a member of the Stratford team in the Ontario Hockey Association. He joined Canadiens in 1923 and was a member of that club until 1934, when he was sold to Chicago.

He is survived by his wife, the former Mary Stewart and three children, Howie Jr. 10, Donald 4, and Marlene 3.

Mrs. Morenz is a step daughter of J. R. Stewart of Howick, formerly of Montreal.

Franklin Centre

W. I. Annual Meeting.—

The annual meeting of the Women's Institute was held at the home of Mrs. A. A. Rowe on Friday afternoon, March 5th, with an attendance of thirteen ladies. The meeting was presided over by Mrs. F. D. Stevenson, and the answer to the roll call was program suggestions. Good reports of the past years work were given by the officers and conveners. The important event of the afternoon, was the election of officers for the ensuing year, which resulted as follows:

President: Mrs. R. C. Manning; Vice-President: Mrs. F. D. Stevenson; Secretary-Treasurer, Mrs. R. J. Blair; Conveners, Agriculture: Mrs. Wm. Price; Education: Mrs. Wm. Whitehead; Child Welfare: Mrs. J. F. Manning; Canadian Industries: Mrs. R. A. French; Canadianization: Mrs. J. H. Rowe; Immigration: Mrs. W. Barr; Home Economics: Mrs. W. Blair; Legislation: Mrs. A. A. Rowe; Delegates to County Convention: Mrs. A. A. Rowe, Mrs. Wm. Price, Mrs. R. A. French; Delegates to Provincial Convention at Macdonald College: Mrs. J. F. Manning. Alternate, Mrs. Dan Leahy; Programme Committee: Mrs. Wm. Whitehead, Mrs. J. Beaudin and Mrs. Dan Leahy.

The Secretary informed our Branch that Her Excellency Lady Tweedsmuir had accepted an invitation to be present at the County Convention, to be held in Huntingdon, May 7th.

During the work period a quilt was quilted. At the close of the meeting the hostess, assisted by Mrs. Fred Adams and Mrs. Frank Rowe, served a bountiful lunch which all enjoyed.

Mr. and Mrs. Fred Moore, Beryl, Carl and Clarence, were Sunday guests at the home of Mr. and Mrs. Henry Blair.

Mr. and Mrs. Wm. McKinnon and son Clarke of Massena, N. Y., were week-end guests of Mr. and Mrs. C. Dickinson.

Miss Elsie Johnston returned home from Sherbrooke, after spending the past two weeks there.

Miss Jean Manning, R.N., returned home on Saturday after spending the past week nursing at the home of Mr. Tinning, Ormstown.

PAIL OF PENNIES

Back in 1930 Luther Hines, statehouse fireman at Des Moines, Ia., began saving all pennies that came into his possession. When the appeal for help for Ohio flood sufferers came Hines put his collection in a pail, filling it, and took it to Red 7,289 pennies.

Obituary

The late Glen J. Harvey

Glen James Harvey, 47, co-proprietor of the Glen J. Harvey & Co. automobile business in Saranac Lake

The funeral service will be held since 1921, died Saturday, March 6th at 6 o'clock at his home, 114 Park avenue. He had been seriously ill for the past two and a half years.

The funeral service was held Monday afternoon at 2 o'clock at the James A. Fortune funeral chapel where the body was at rest. The Rev. Oscar C. Plumb, pastor of the Methodist church, which Mr. Harvey attended, performed the service. Burial was in Pine Ridge cemetery.

Born in Canton, Pa., Mr. Harvey was the son of the late Rozelle and Lulu Harvey. He attended the schools of Canton, later going to New York City where he was employed by a nationally known spring water company.

Suffering a breakdown in his health he went to Saranac Lake in 1915. Two years later he was sufficiently recovered to open a taxi business which he conducted until 1921.

At that time he was joined in Saranac Lake by his brother, Earl J. Harvey, who became his partner in the automobile sales company which since 1926 has had salesrooms at 37 Woodruff street. Their first show room was located in the Masonic temple building.

Nine years ago Mr. Harvey married Miss Jean Hamilton of Glenelm, one child, John, being born of the union. Mrs. Harvey and their son, Earl Harvey, and an aunt, Mrs. Etta Tebo of Elmira, are his only immediate survivors.

Mr. Harvey's fraternal affiliations included the Elks lodge, the Masonic lodge and the Shriners.

He was long active in the business and civic affairs of the community, and had made a wide circle of friends who were shocked to learn of his death.

Rockburn

Visitors at the home of Mr. and Mrs. L. Maithers were Mr. Stanley Gowan of Saranac Lake, Mrs. J. Cowan and Mr. and Mrs. H. Cowan of Chateaugay, N. Y., Mr. Cheeseman of Ellenburg, N. Y., Mrs. Anna Welch and Mrs. M. Shattuck of Burke, N. Y.

Mr. John Farquhar and son Cameron of Fort Covington, N. Y., visited Monday at the home of Mr. and Mrs. Ernest Rennie.

Mr. John Goldie spent the week-end in Huntingdon with his sister, Mrs. Annie MacIntosh.

METROPOLITAN LIFE BUSINESS SHOWS GROWTH

Insurance in Force Increased —Welfare Work Benefits Policyholders

OTTAWA, March, 8. — Economic conditions on this continent are reflected in the report of the Metropolitan Life Insurance Company, every fifth person in Canada and the United States being a policyholder in this mutual company — and a general improvement in business is apparent in the 70th Annual Statement released today. The 28,400,000 policyholders increased their insurance protection in Metropolitan Life by over one billion dollars during 1936, to a total of $21,310,975,784 — the largest amount of life insurance ever in force in any company. Policyholders of the Metropolitan and their beneficiaries received in 1936 for the fifth successive year over half a billion dollars as payments on policies — over one hundred million dollars will be returned to them during 1937 as dividends on their policies — assets increased in 1936 by $259,899,260 to a total of $4,494,701,772 — and satisfactory progress is reported in all departments of the company.

HARRY D. WRIGHT

Second Vice-President and Manager for Canada, Metropolitan Life Insurance Company, who reports increased investments in the Dominion.

Second Vice-President Harry D. Wright, Manager for Canada, commenting on the Canadian business of the company, stated that in the Dominion alone, payments to policyholders and their beneficiaries in 1936 totalled $28,592,050. He added that life insurance companies in Canada during the last five years had distributed to the people of the Dominion over $500,000 per day, which illustrates the very real measure of security afforded thrifty Canadians through life insurance. The Company's total of life insurance in force in Canada has been increased to $1,065,096,301. Of this amount $592,861,421 is in the Ordinary Department, which issues policies of $1,000 and upward; $78,072,947 is in the Group Department, insuring groups of employees; and $394,161,933 is in the Industrial Department, premiums being paid weekly or monthly.

Metropolitan continues its welfare work, and in Canada during the past year nurses made 379,000 visits to homes of Company policyholders, while 4,319,000 pieces of literature were distributed in the interests of wider education on health subjects.

Mr. Wright reported that Metropolitan investments in the Dominion increased during the year to a total of $270,965,607, and that in all major aspects of the business in Canada the year 1936 was most satisfactory.

Referring to the Company's total business in Canada and the United States, the year's report shows a gain of life insurance in force of $1,041,626,208. This gain is reflected in all departments and represents high points in the history of the Company. The total insurance in force is now $21,310,975,784, of which 51% or $10,896,871,470 is in the Ordinary Department. The Industrial Department has 34% or $7,175,974,709, and Group insurance accounts for 15% with a total of $3,238,129,605.

Assets increased $259,899,260 in 1936 and totalled $4,494,701,772 on December 31st last. On this date the surplus funds were $278,424,667, and the contingency reserve was $48,000,000.

For the fifth successive year, the Metropolitan disbursed more than half a billion dollars to its policyholders and beneficiaries in death claims, matured endowments, dividends, disability benefits and other payments. More than two-thirds of the total was paid to living policyholders — a powerful refutation of the saying that, in life insurance, "you have to die to win"

An idea of the Metropolitan's business can be conveyed by reducing some of these annual figures to a daily basis. For instance, the daily average of payments to beneficiaries and policyholders and addition to reserve was $2,450,501. An average of 2,344 claims were paid every day; and every day saw an average of 17,284 life insurance policies issued and revived; and $9,818,422 in life insurance issued, revived and increased.

St. Anicet

Miss Jeanne Caza, of Montreal, came to spend the week-end here at her father's, Mr. Donald Caza.

Mr. Lionel Dupuis has gone back to Montreal with his father, Mrs. Olivier Dupuis.

Mr. Wilfrid Mandeville and family from Montreal, were here over the week-end.

There was a re-union of relatives and friends at the home of Mr. and Mrs. Avila Caza, on Sunday night.

Messrs. Gilles Dumouchel, Jacques Castagner and George Quenneville came here to spend their monthly holiday at the home of his parents.

Mrs. L. Dugas has gone to stay in Montreal for a while, where she will be under the doctor's care.

Havelock

Mrs. Keith Curran and son Harold have been spending a week with her mother, Mrs. Wm. Gilmore.

Mrs. Stanley Waddell was the guest of friends at Howick a few days the past week.

The Havelock school has just received a beautiful large map of Europe, having been purchased by the teacher, Miss Rennie.

Miss Doris Stevenson, who has been a patient in the Montreal General Hospital is convalescing at the home of her aunt, Mrs. W. Gamble.

Messrs. George McKee and John Bustard left last week to take a two weeks' course at Macdonald College.

Mrs. Alex. Patenaude is ailing at time of writing.

Mr. Harold Palmer of Montreal spent a few days the past week at his home here.

Ste. Agnes

Mrs. J. E. Marchand of Victoriaville recently spent a couple of days in this locality. She was the guest of Mr. and Mrs. J. B. Myers and other friends here.

Mr. Cleophas Richer returned after a short time in Montreal, visiting his daughter, Mr. and Mrs. Minor Aubin and family.

A number of farmers of this locality met in the County Building, Huntingdon, on Wednesday to discuss matters of opening up a cheese factory in Dundee. No definite answer was given.

Mrs. Ildouri Quesnel and daughter Marielle of St. Anicet spent a few days with her sister, Mr. and Mrs. Alf. Leblanc.

Guests at the home of Mr. and Mrs. A. Normandeau on Sunday were Mr. and Mrs. A. Quesnel, Mr. and Mrs. Il. Quesnel of St. Anicet, Mr. and Mrs. J. Quenneville, Mr and Mrs Alf. Leblanc, Mr. and Mrs. F. Teste. They were also guests at the home of Mr. and Mrs. F. Teste for the evening.

Messrs. Francis and J. B. Ouimet were business callers in Montreal on Monday.

Howick Council

A regular meeting of Howick Council was held March 1st. All members present, Mayor Lemieux presiding.

Moved by Coun. Robertson, seconded by Coun. Vallée that the following accounts be paid: H. Sauvé, $4.07; insane account, $75; E. Laberfe, $6.96; Public Assistance account, $93.96; Bruno Lefebvre, 75c.

Moved by Coun. Vallée, seconded by Coun. Greig, that Mrs. Arcoite be allowed free rent, 1 quart milk per day, 3 cords wood and $4.00 per week for month of March.

Moved by Coun. Craig, and seconded by Coun. Hope that Donat Arcoite be allowed 1 cord stove wood for month of March.

Moved by Coun. Vallée, seconded by Coun. Anderson, that Miss Rutherford be allowed $20 for month of February.

Moved by Coun. Hope, seconded by Coun. Decent that Mrs. Pierre Laberge be allowed $5.00 for month of March.

Moved by Coun. Craig, seconded by Coun. Anderson that Gerald Roy, John Currie, W. A. Currie and Wes. Peddie be granted permission to cut the trees on their front roads.

Moved by Coun. Hope, seconded by Coun. Decent, that Jos. Simon and David Forrester be notified to have their road division opened before 8 a.m. after a snow storm.

The following were appointed Inspectors for the Parish of Tres St. Sacrament in their respective divisions:

Valuators: Camille Turcot, And. Bennie and Clarence Kerr.

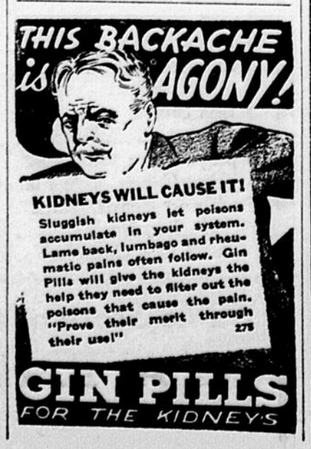

Road Inspectors: Horace Decent, Arch. Robertson, Raoul Lefebvre, James Cullen, Jr., John Cullen, Bruce Ness, Alex. Holmes, Bruce Chisholm, J. D. Lang, Adelard Bourcier, Arch. Chisholm, Peter Peddie, Arnold McKell, Wallace Craig, Wm. Lett, Richard Loiselle, Adelard Primeau, Robt. McGregor, Robt. Templeton.

Rural Inspectors: Victor Lemieux, J. D. Bryson, John McKell, Albert Hope, Albert DeGrossillier and W. A. Currie.

Poundkeepers: Thos. Hamilton, Dan. MacFarlane, James Cullen, Sr. and Camille Turcot.

Water Courses: 5 and 5, John Morrison, (Cunningham), Percy McCartney, (LeBrun), R. J. Roy; (Gordon and Bourcier), J. J. Craig, (Hastie), And. Rutherford, (Chisholm), Wallace Younie, (Howe to Holmes), Thos. A. Kerr, (McRae) Kenneth McRae, (McCormick) Wm. Wilson, Jr., (DeBonneville) Louis Robidoux, (3 and 4) Gerald Roy, (5th con.) Haddon Kerr.

Bridge Overseers: Camille Turcot, Chester Orr and James Cullen, Jr.

Chapter 17

What had brought him at this hour, and in this fashion, to the apartment of the murdered Rita Wingfield?

Blackwood groped to the bed and sat down upon its edge to answer his own question. Vaguely he felt that the case was beginning to take shape.

In this very room, now lost in darkness, Janice Hume had furiously searched for something of importance. But had she found it? When Zelda had told her that her search was known, she had gone hysterical. In the circumstances, was it not probable that Janice had failed to find the thing she sought?

And surely it must be something, he reflected, that Janice feared would identify her with the crime. Some piece of wearing apparel, possibly? Had he quite certainly seen her searching in the closet.

Almost more important, he realized, was the question's corollary: Who had it been—if it had been anybody—who had aided Janice in her search! In brief, who the devil had been with Janice in this very room?

He was groping for the light switch when he heard a sound that struck him rigid. It was a light cough, somewhere in the apartment itself.

"The murderer!"

The words rushed through his mind with such force and clarity that he almost believed they had been shouted aloud.

But it was a mad idea. The murderer, if he—or she—had sense, was now full many a mile away, establishing a glorious alibi.

Blackwood breathed more freely. Nevertheless, he rather wished that he had slipped a pistol into his pocket before going to the theatre.

It was at this moment, with ears cocked apprehensively for further sounds, trat a new and paralyzing thought occurred to him.

If Percy Jones were in hiding, either as murderer or suspect, innocent or guilty, what safer place for him to hide—now that it was empty—than in the Wingfield apartment? The daring of it would be enormous, but it was quite the last place anyone would think to search. The place was closed—locked—by police order—until such time as some executor of the murdered woman might apepar to take it over. The inquest—continued—had been held that afternoon.

"What a notion! Percy! With Janice close at hand to feed him and keep him posted!

It was a brilliant flight of fancy, and so hard did it seize hold on him that for a moment he almost knew that it was so. What it did to his various other theories he did not stop to consider.

He put away his spectacles, and tiptoed to the inner door. He ventured further and stepped into the kitchen. Softly he slipped along the passage leading to the dining-room and put his head around the corner.

There was a faint light in the bedroom off the living-room—the room in which the murder had been committed. A little light that glowed and dimmed and vanished and reappeared like fire on a marsh; a miniature torchlight, he supposed. Small sounds of occupancy were telegraphed across the rooms that lay between.

He stepped into the dining room and a loose board creeked beneath his foot. He shuddered and stood stiff. Listening, the light had vanished. There was no sound whatever from the murder chamber. The darkness lay in visible layers around him. It advanced upon him and receded noiselessly.

Then he was aware that something was moving in the room beyound. Something half-felt, half-seen, that floated ghostlike between him and the farthest patch of blackness. He stepped back recklessly against the wall and ran his fingers over it, groping for the light switch. But he had lost his bearings in the darkness, and it was some moments before he had found the button. It was close beside the door through which he had just entered.

A faint perfume, intangible as the darkness itself, yet vaguely alluring and familiar, drifted to him across the chamber; and quite suddenly he knew that the intruder was a woman. His finger pressed the switch.

At the same instant he heard the front door softly open and softly close.

The visitor had gone.

For a moment he stood blinking, blinded by the sudden dazzle of light; then he was hastening in pursuit, with all the chair of Grand Rapids, Michigan, it seemed, across his path. He flung into the entry and snatched open the door.

Nothing!

The passage was bare from end to end. No sense of recent occupancy pervaded it. There was no sound of elevators in either shaft. The stairway, when he had reached it, was a soundless void.

Blackwood searched his soul for oaths that might be suitable to the situation.

Then a fragment of sound disturbed the impersonal stillness. Somewhere in some distant apartment a radio was open and an orchestra, now reaching a passage in fortissimo, was playing 'Has Anybody Seen My Gal?' It seemed to Blackwood a singularly appropriate inquiry.

Discouraged, he returned to the door he had left open and gently closed it behind him. The impalpable odor of perfume still lingered in the living room. In the bedroom it was stronger. The woman had been there for some time. He sniffed the elusive scent with appreciation—with interrogation. Certainly somewhere he has smelled the stuff before.

That the intruder had been the mysterious redhead he had no doubt whatever. Quite probably, in the light of Zelda's surprising narrative, he had been face to face—in darkness—with the murderer of Janice Hume.

Was she too searching for the evidence that had worried Janice to her death?

Anne Gray, thank heaven, was at the theatre, and probably was now absolved of an unworthy suspicion. But what had she been doing with Rollie Colbath? In the excitement of Janice's murder he had almost forgortten Anne and Colbath.

Upstairs, he supposed, Zelda was still telling her story, under the June-bug eyes of Dallas. And she too was virtually absolved—though she would probably be arrested before the night was over.

He lighted a cigarette and turned his attention to the bedroom in which, two nights before, the cause of all this difficulty had been shot to death. Under a blaze of light, again he noted the funereal counterpane, the yellow window hangings, an dthe clutter of bottles upon the dresser. The cards, however, had vanished from the table, and with them the ash tray that had called forth his first pontificial utterances. With the revolver, the handkerchief and the matches, these were now in the hand of the police.

But the array of photographs upon the wall remained. He reread the extravagant inscriptions with cynical humor and turned away. There was no one of the simpering celebrities whose face was known to him, and none whose recorded name evoked the faintest shock of interest. Then—swiftly—he turned back.

Something was missing from his memory picture of that wall of photographs. He knew exactly what it was. Rita Wingfield herself was missing!

Blackwood recalled the photograph quite clearly. It had been the only portrait of Rita in the gallery, and so he had studied it. A slightly faded photograph of Rita Wingfield as she had been in earlier year—standing beneath a parasal, her head turned coyly to one side after the fashion of maidens in a studio, and wearing a costume that suggested a Methodist choir performance of "The Mikado."

This was the pictures that wa missing, and he now saw clearly the space from which it had been removed. There was even a small chip out of the calcimine to show that the removal had been recent.

In his mind ran a swift impression of a redhaired woman flinging herself wildly down the staircase, clasping a small framed photography against her breast. How near he had been to laying hands upon her!

But ia was not a photograph that Janice Hume had sought. The photographs had been there for anyone to find. Nor was it the incriminating weapon, now locked away in Dallas's desk.

A handkerchief? Could she have left a handkerchief on the day she had turned over the revolver? With her initials, possibly, worked into the corner? But the handkerchief that had been found beside the body was Rita's own—wasn't it?

He hunted diligently for half an hour and found precisely nothing. Then, glancing at his watch, he hurried from the apartment.

After all, the missing photograph was now the clue to work with. There could be only one possible reason for abstracting it. It was the clue to Rita Wingfield's past—and out of Rita's past had come her murderer. What the devil had been the city of her origin? It had been plainly stamped upon the photograph beneath the name of the photographer. He had read it with a smile; but now—annoyingly—it eluded him.

On the whole, however, the drama critic of the Morning Chronicle was not displeased with himself. Sooner or later he would remember.

Chapter 18

Dodging the busy local room of the newspaper that employed him, Riley Blackwood sneaked into his own pigeonhole and savagely attacked a worn-out typewriter with sticking keys, achieving—along toward midnight—a slashing evaluation of "Mrs. Hathway's Predicament," which it was as well its English author would have no opportunity to read. Then thrusting his copy into the chute to the composing room, the Morning Chronicle's drama critic stumbled into the night and headed northward for Pomander Mansions.

A bath, a rubdown, and a spot of tea; and then—one of the gay detective novels of the English masters that brightened the drearier stretches of his careful bookshelves!

He smiled in pleasant anticipation.

On the doorstep, as his taxi deposited him on the sidewalk, lounged a striking figure—a man in cape mounted stick.

and topper, swinging a silver-

"Hello," said Blacwood. "It's Constantine!"

The novelist extended his hand. "Sorry to be a nuisance, Riley," Philip Constantine apologized. "It's late, I realize; but your man told me you were at the theatre, and I figured you'd be along shortly. I preferred to wait outside. It's cooler."

"He might have offered you a drink," said Blackwood.

"As a matter of fact, he did. But I'd had enough of those, as it happens, at the Cucaracha. I've been thinking things over, Riley, and there's a story I want to tell you."

"About the Cucaracha!" Blackwood chuckled. "I told you it was a dive."

"About Janice Hume," said the novelist soberly. "The Cucaracha has nothing to do with it. I soiply had a late supper there—and, incidentally, was handed a bad bill." He smiled a trifle sourly.

"Come in," said Blackwood, and led the way inside. "What's on your mind?" He asked abruptly when they were seated. "What's this about Janice Hume?"

The novelist crossed his knees. "It's a queer tale, Riley. I don't know how much of it I believe myself. But I'm convinced that you are the man to listen to it."

Both men looked up as Blackwood's Chinese servant entered the room, and Constantine frowned.

"Tea, Jim," said Blackwood, "and some sandwiches. That's mine, anyway. What will you have, Constantine?"

"Tea, please." The novelist smiled. After a moment he began again. "It was tea that started things okff, this afternoon," he explained, with a little shrug. "I had tea with Janice, and she told me an extraordinary story. Not to make a secret of it, Blackwood, it was her gun that bumped off Rita Wingfield!"

"The deuce it was!"

Mr. Blackwood's incredulous cry was testimony, he hoped, to the histronic ability of the members of his craft.

"She swore me to secrecy, of course," continued the novelist. "What she was doing, I think, was asking my advice. She didn't know what to do about it. It appears that she loaned the weapon to this Rita Wingfield that very afternoon—the afternoon of the murder."

"What!" said Blackwood, and this time his exclamation was a cry of genuine excitement. Already the story had gone beyond the meager recital of Zelda Lansing.

"The woman was afraid of something—Rita Wingfield, I mean—and Janice found her crying in the elevator."

"Crying?"

"She wasn't hawling, as I understand it; but there were tears in her eyes. She was nervous and upset—twisting a handkerchief in her fingers, and that sort of thing. Janice, who's a good-hearted soul, asked her what the trouble was. They didn't know each other; but they'd gone up together in the same elevator a number of times, and knew each other by sight. They had nodded on previous occasions, and possibly passed the time of day. I don't know everything that passed between them, but obviously the woman was glad to talk with some one who was sympathetic. She asked Janice into her apartment, and they had tea together."

Blackwood nodded. If this were true, the case was certainly beginning to look up, he reflected. It seemed obvious that Constantine had heard no hint of Janice's murder, although by this time, he supposed there was an extra on the newstands.

What's in the Wind

by PAULA DICKS

GREEN WIT

The return engagement of the Rev. Norman Rawson in Huntingdon packed the United Church Lecture Room to the doors. The famous Radio Parson of Ottawa uses the confessional method to hold and sway his audience. He just stands up there and tells all. And do they lap it up! But as Shakespeare puts it, he has a green wit—and the Luck of the Irish. When a speaker can break all the so-called rules of oratory and still maintain a healthy reputation, he has to have unusual ability as well as extraordinary luck.

He got away to a whirlwind start by referring to this column and the audience were heartily amused. And I was astonished to have my chips come ashore in such a flattering manner. Maybe the incident calls for explanation. Away back last May the Editor wanted a comment on the address given by this speaker at the Annual Supper. I said: "Nobody could report that man. You have to hear him and see him."

It was Tuesday and I worked until midnight doing extra cooking, as I wanted to go to Montreal the next day. I was up at five to get the school lunches and breakfast and while waiting for the gang to appear, I grabbed a piece of paper and a pencil.

"Oh Lord", I said, "it is Wednesday and what'll I write for the Gleaner?" Miraculously, the answer appeared in print that afternoon. It was to this apparently inspired script that Mr. Rawson referred when he said: "Paula is wasting her time writing for that scandal sheet. Such pungent writing deserves a place on the New Outlook." Ye, gods!

I learned the other night that my message was doubtless inspired by a curious affinity. Maybe that strange mysterious force directing all life and effort to which the speaker referred so eloquently in his closing remarks. We were both born and brought up in the Georgian Bay District, near enough to have had the same School Inspector, Isaac Day of Orillia. Day took a keen personal interest in the young and crippled Norman Rawson of Coldwater, who only weighed three pounds at birth and suffered until twelve years of age from a serious physical handicap. Like Sir Walter Scott, however, this turned him to reading as a pastime. His fondness for books and acquaintance with the classics made him Librarian and leader of the local Literary Society. He was sent when only sixteen years of age as a missionary preacher to the Manitoulin Island.

Just about the same time I was attending a one-room country school where the teacher also encouraged reading and literary effort. Before I was twelve I had obtained a fair acquaintance with the English classics from the Rosseau Public Library, which was contained on a few back shelves in Brown Bros. grocery store. I took part in debates held in the Town Hall and contributed to the Rosseau Eureka, written in ink and read at the fortnightly meetings of the Literary & Debating Society. I recall also that I was Editor of a rival organ, published secretly by a group of girls and having a strictly private circulation. Inspector Day used to board at our hotel when on his visits to the District. Many a time I rode to school in his buggy. Inspector's little pet just like Normie!

My grandfather was the Hudson Bay Factor or Government Indian Agent (I'm not quite sure which) on Manitoulin, about a hundred years ago and my father, John Monteith, was said to be the first white child born on the Island. Grandfather afterwards settled in Simcoe County near Barrie, where a number of his descendants, including his youngest son, Archibald, are living.

But I'm only half Scotch and can claim a share of the celebrated luck, for like Norman Rawson again, my mother's family were Irish Catholics. Also, according to family gossip, my weight at birth was only three pounds! Good things and good people are often delivered in small packages, and to prove a rule by its exceptions, don't always die young! Add that we both have had careers in Ottawa!

After a mutually cordial meeting Mr. Rawson suggested that I should join the European Tour he is conducting this summer. I inquired if he needed a press agent. "Now, that is a thought," he replied. Then we were interrupted.

It would just suit me like a book to have the job of Recording Angel on a tour conducted by that Circuit Rider. Think I'll have to promote a syndicate to raise the $750 plus required. Shares at $1.00, and just see what we can get out of the newspaper, radio and film rights! The first dividend (maybe the only one) to be a postcard from a foreign country to each subscriber ..... 'Having a swell time. Wish you were here." Ha! Ha! I might even get a chance to ask Hitler when the war is going to start and let all the stock holders know in advance.

I got a postcard to-day from a traveller sister posted at Port Sudan. It has a picture of the Motor Vessel, "Llangibby Castele." Had to look on the map to find that Port Sudan is on the coast bordering the Nubian Desert, about the middle of the Red Sea. Yes, I've heard of crazier ideas than this postcard proposition, but not many.

It's all blarney. Sure, an' I thoink he's afther axing iverybody he meets to go to Europe wid him, t'rascal! Jist on the chanst they've a tousan' dollars handy loik, that they may as well spind thimselves as give to the mining stock salesman.

DO THIS FOR A COLD

1 Take 2 "Aspirin" tablets with a full glass of water at first sign of a cold.

2 If throat is sore, gargle twice with 3 "Aspirin" tablets dissolved in ½ glass water.

Quick Relief with 2 "ASPIRIN" Tablets

The modern way to treat a cold is this: Two "Aspirin" tablets the moment you feel a cold coming on. Repeat, if necessary, in two hours. If you have a sore throat with the cold, dissolve 3 "Aspirin" tablets in ½ glass of water and gargle with this twice. The "Aspirin" you take internally will act to combat fever, aches, pains and the cold itself. The gargle will provide almost instant relief from soreness and rawness of your throat. Your doctor, we feel sure, will approve this modern way of treating a cold.

● "Aspirin" tablets are made in Canada by the Bayer Company, Limited, of Windsor, Ontario.

"Thin Wood" Method of Pruning Bearing Apple Trees

By G. L. RICKS

Of Lansing, Mich., delived at annual meeting of the Quebec Pomological and Fruit Growing Society

The "thin wood" method of pruning is based on branch performance studies. Only those branches which produce small or green apples are removed by this method. In making these branch studies, records were taken from over 2,500 individual branches. Branches were classified as the basis of the diameter of the branch at the point where the wood was four years old. Three classifications were made of all fruiting branches, as follows: "Thin wood" branches were those whese four year old wood was less than 2-8 in. in diameter; intermediate branches were those whose four year old wood was from 2-8 to 3-8 in. in diameter; and thick branches were those whose 4 year old wood was more than 3-8 in. in diameter. At some time during the growing season a number of representative trees of a given variety were chosen in each of several orchards. From 12 to 14 branches of each of the three principal classifications were selected at random and tagged. Trees of eight varieties were inoluded in this study. At harvest time the apples from each of the previously marked branches were picked and the size and colour of each apple recorded, together with their total number and weight in ounces. In addition to the fruit record the average age and length of each of the branches are recorded.

The significant facts brought out by these branch performance studies were:

(1) The size of the individual apple tends to be directly proportionate to the diameter of the branch upon which it is borne.

(2) The number of apples borne by a given branch tends to be directly proportionate to its diameter.

(3) The amount and shading of colour present on the apples produced by a given branch tends to be directly proportionate to the diameter of that branch.

These related facts were made the basis of a large number of pruning trials, and resulted in the development of the 'thin wood" method of pruning.

Rules for "Thin Wood Pruning"

In pruning trees by the "thin wood" method, four simple but very important rules are followed. They are used to identify those branches which produce the poorest apples. "Thin wood" branches have the following characteristics:

(1) The four year old wood is less than 2-8 in. in diameter. This is thin.

(2) "Thin wood" makes comparatively short terminal growth.

(3) "Thin wood" generally grows in a downward direction.

(4) Most of the "thin wood" is found in the lower and inner part of the tree.

Usually the work of pruning a given tree by this method is divided into three steps. The first step is to remove the larger branches, most of whose laterals fall in the "thin wood" class. This is done with a saw. The first cut is made at the most convenient point, after which the worker proceeds arounds the tree, making all the necessary cuts of this type. The removal of these branches makes subsequent work easier. After having made the saw cuts just described, the writer prefers to discard the saw and do the work with lopping shears although some may prefer to use hand shears or to continue with a saw. With the lopping shears the worker moves once more around the trunk of the tree, this time removing the "thin wood" which still remains in the lower center. Most of the work is done in what is hereindescribed as the first and second steps, and in the case of younger trees it only remains for the worker to step up on the lower branches of the trees and remove any "thin wood" which could not be reached from the ground; in the case of older and larger trees some climbing and the use of a ladder may be necessary.

Of course dead or broken branches, and water sprouts, except where needed to fill in holes caused by breakage or excessive pruning, are removed whenever encountered in the progress of the work.

Although it is not essential in pruning trees to follow the exact procedure just described, it is important to have and to follow some system.

Little attention is given to the appearance of the trees in pruning by the "thin wood" method—the maximum yield of high-grade apples is the goal—and even very thick tops need not be thinned if the bearing wood of which they consist is over 3-8 in. in diameter at a point where it is four years old. No matter how thick the tops may be, the vigorous thick branches will not only produce apples of larger size and better colour but will produce more of them than will the branches in other parts of the tree. Productive thick branches should be allowed to remain, even though they may grow parallel or otherwise interfere. Why should a productive branch be removed just because it happens to grow in close proximity to another? The greater the number of vigorous branches the greater the productiveness of the tree. Only when two branches rub or interfere to the extent that one is injured so severely that it assumes the characteristics of "thin wood" should it be removed.

The grower who wants to decide ahead of time on the wood to be removed should go over the trees just before harvesting. He will see more especially in the lower part of the trees a number of small green apples. The wood upon which these apples are borne is that wnich should be removed during the following dormant season. If the grower is not sure he can bear in mind the characteristics of the wood to be removed, he should prune at least one tree at harvest time, with the apples to guide him, and by noting carefully the wood removed he is certain of doing an excellent job. By using this tree as a guide, when the dormant season pruning is done, it is possible for him to continue the good work over the whole orchard.

Benefits of "Thin Wood" Pruning

This method of pruning results in a decrease in the yield of inferior apples "Thin wood" pruning materially increases the yield of large apples; it materially improves the colour grade of the harvested fruit. It requires less time and, therefore, is less costly than conventional methods in common use. "Thin wood" pruning makes spraying easier and more effective because it is much easier to cover the side of the apple facing toward the tree trunk; it makes harvesting easier; it reduces the cost of thinning, however, it is by no means a substitute for thinning; it results in fewer water sprouts. "Thin wood" pruning does not throw young trees out of bearing as will many other methods, and it may be used on bearing trees of all ages.

Note: For more details and illustrations of "thin wood" pruning, see Michigan Agricultural Experiment Station Special Bulletin No. 265.

Obituary

The late Mrs. Mary Kinniburgh

Mrs. Mary Kinniburgh, a well-known and respected pioneer of the Airdrie, Alta., district, passed away at the home of her son, Merrick, recently, following an illness of two weeks, in her 85th year.

She, the eldest daughter of the late Thomas Cain and Euphemia Stuart, was born at Huntingdon, Que., where she grew to womanhood and later became the wife of the late David Kinniburgh.

After living in the east until 1907, she, with her family went to join her husband, who with Mortimer, had gone two years previous to take up land and make a home at Airdrie, Alta.

Mrs. Kinniburgh was in possession of all her faculties up till the very end, taking an active part in the work of her church. A kind christian friend and neighbor, always ready to help in her own quiet way, she will be sadly missed by those whose esteem she held, especially by her family to whom she was devoted. Surviving are three sons, Martimer T., Merrick H., and Carmen S. and two daughters, Edith Gertrude (Mrs. A. D. Black) and Alma Margaret. Fourteen grandchildren and one great-grandchild, also Jack Taylor, of whom she had been a foster mother since a child of four years. Mrs. Angus McDonald of Huntingdon, Que., is the only surviving sister.

The funeral service was conducted in the Airdrie church with four grandsons, Jack Taylor, and Bert Church as pall-bearers. Interment at Airdrie.

Ste. Agnes

Mr. and Mrs. Ed. Berriau of Hull, visited their uncle, Mr. and Mrs. Jos. Leblanc, Sunday.

Dr. and Mrs. J. E. Caza and family, of Huntingdon, spent Sunday the guest of Mr. and Mrs. Jos. Leblanc.

Mrs. Lucille Dupuis is visiting her grand-parents, Mr. and Mrs. Jos. Leblanc.

Mr. and Mrs. Edmond Léger, Mrs. Léandre Beaudry visited Mr. and Mrs. Ed. Leblanc on Sunday.

Valleyfield Council

The letter written by Dr. C. L. Roman, which has caused so much discussion throughout this district, was given full consideration by the City Aldermen at the regular meeting on Wednesday evening. Ald. Miron attacked the letter of Dr. Roman in a vigorous manner, and stated that the Council should not stand for such injurious insults as contained in the letter. As Dr. Roman is employed by the Montreal Cottons Ltd., Ald. Miron asked that the Council pass a resolution authorizing the city clerk to send a copy of "The Huntingdon Gleaner" for February 10th., to the General Manager of the Company, requesting him to bring the matter before the President, Mr. Gordon, also to draw the attention of the directors to the insults hurled at the Council. Mayor Philorum Billette explained the situation clearly, stating that Dr. Roman had called upon him and had expressed his regret at the misunderstanding caused through misinterpretation of his letter regarding dismissal of a certain negro from a local factory. He also mentioned that Dr. Roman had sent another letter to the "Gleaner" endeavouring to make his viewpoint clearer. Ald. Miron still maintained that the remarks contained in the latter part of the letter should be considered as insults. The Mayor tried to settle the matter by explaining in greater detail the opinions as expressed by Dr. Roman to him personally. He admitted that the Doctor regretted the incident, although he had not agreed to retract his statements. Ald. Miron remarked that such a letter might be overlooked if written by an uneducated person, but that Dr. Roman has always been considered as a well-educated citizen.

It was then moved by Ald. Miron and seconded by Ald. Monette that the city clerk should send a copy of the "Gleaner" to the Montreal Cottons Ltd. officials, asking them to give the matter their full consideration. Carried.

Ald. Touchette complained about the condition of the bridge on Chaussée St., stating that numbers of persons had come right to his house to show him the damage done to clothes splashed with mud. The engineer was asked to consider the complaints sent in to Ald. Touchette.

The Catholic Workmen's Union reported that a large number of outside labourers could be replaced in the local factories. Mayor Billette explained that Mr. W. G. E. Aird, Manager of Montreal Cottons Ltd., had told him that certain outsiders in his factory were indispensable. Philorum Lecompte, Secretary of the Union, stated that these outsiders, such as Mr. and Mrs. Lamarche, Lucien Paré, etc., could easily be replaced. He also mentioned a certain Mr. Lemieux of St. Etienne, who is working for Mr. French. The Finance Department was asked to study the matter.

Lionel Cossette, acting for Edgar Ostiguy, informed the Council that action would be taken against the city if damages to the amount of $167 were not paid immediately. Damage was caused in the "Grill" owing to Corporation work taking place in front of this particular place. The matter was referred to the engineer.

A letter from the Railways Association asking the Council to adopt Daylight Saving Time during the summer months, was read, and it was agreed that Daylight Saving Time should commence April 25th and end September 2th.

Ald. Miron asked the clerk to write to the Association to find out whether the Time-Table will be changed on account of Daylight Saving Time.

A letter from J. A. Linteau explaining his ideas for protecting the small property owner, was referred to the Proprietors League.

Mr. W. G. E. Aird informed the Council that an agreement had been made some time ago regarding the water supply for the Montreal Cottons Ltd. farm. The clerk was asked to continue his search in the archives for any agreement that might have been made, and also to ask Mr. Aird the date the agreement was signed.

A letter from J. E. Laforce, suggesting new plans for the Return-to-the-Land Movement was read and filed.

A letter from Maxime Raymond, M.P.P., explaining his attitude on the armament plan, was filed.

Another request from the Salaberry Snowshoers Club asking for a grant was referred to the Finance Department.

A building permit was granted R. B. Lecompte to construct a stairway six feet from the street, facing his property.

A letter from Edward Bougie asking that he be reappointed Parks Superintendent for this year, was read, and the request was granted.

Applications from Messrs. Lorenzo Derepentigny and Alphérie Délisle for work with the Corporation were referred to Mr. Léveillé.

Mayor Billette was authorized to sign the following requests for admission to Hotel-Dieu under the Public Assistance law: Gaston Champagne, Wellie Roussel, Armand Grondin, Roland Paré, Zéphirin Thibert, Roger Campeau, Gustave Lemay and Dame Aimé Hainault. Requests from Régis Leblanc, Alphonse Bélanger and Alexandre Mailloux were filed.

A list of expenditures from the St. Vincent de Paul Society was read and approved. The list included $910.84 for December 1936 and $745.42 for January 1937.

It was moved by Ald. Mallette that the Quebec Liquor Commission should be asked to refuse new hotel licences in Valleyfield, particularly to refuse the request sent in by Joseph Deschambault for a hotel licence. Carried.

Considerable discussion took place regarding certain remarks made by one of the members of the Proprietors League to Ald. Miron. As the whole subject was of a sarcastic nature no definite conclusions were reached.

Ald. Touchette stated that he had visited Joliette, and St. Hyacinthe in order to inspect the electrical apparatus in use in those cities. In Joliette he found that the sum of $40,000 was realized each year, while in St. Hyacinthe the sum of $70,000 per year was saved. The matter was held over for further discussion.

A letter from Omer Leduc, 27 Narcisse St., Bellerive, stating that he held the Council responsible for payment of $80 as salary lost following an accident to his wife, was referred to the Finance Department.

A letter from the "Bellerive Symphony" directed by Signor Agostini, thanking the Council for the hall placed at their disposal, was filed.

SUFFICIENT FEED AT PROPER TIME

A great many high producing cows receive but little more than a maintenance ration and consequently become very thin, in flesh. The extra quantity of feed required to put them in condition is of considerable consequence to say nothing of the final loss of product occasioned by lack of sufficient feed at the proper time. It is the strictest economy in the long run to feed at all times a balanced ration containing nutrients enough for maintenance and for daily milk production. In the end nothing is gained or saved by periodic starving, as it were. It often requires a year or more of good feeding to put a neglected cow in condition for maximum production.

Shanghai, China, is growing so rapidly that it has had to increase its power plant.

GUARANTEED RELIEF FROM CONSTIPATION

Common constipation is usually due to meals low in "bulk." Pills and drugs give only temporary relief. The sensible thing to do is to put "bulk" back into your meals.

Millions of people get this needed "bulk" in a delicious cereal: Kellogg's ALL-BRAN. Its "bulk" is much like that in leafy vegetables. Within the body, it absorbs moisture, forms a soft mass, gently cleanses the system.

Some years ago, an investigation was made among thousands of ALL-BRAN users. 98 per cent found it satisfactory. Only 2 per cent had the type of constipation that would not respond to ALL-BRAN.

ALL-BRAN is *guaranteed*. Try it a week. If not satisfactory, your money will be refunded by the Kellogg Company.

Just eat two tablespoonfuls daily, either as cereal or in cooked dishes. ALL-BRAN is sold by all grocers. Made by Kellogg in London.

Letters To The Editor

March 6, 1937

Editor,
Huntingdon Gleaner
Huntingdon, Que.
Dear Sir:

In a recent letter to the press, Professor Jackman of the University of Toronto characterized the Canadian National Recapitalization Bill as 'high finance", and drew attention to a neat bit of legerdemain whereby the Bill provides that the **accumulated deficits** of the Canadian National will in future be shown as a **surplus:** An equally remarkable example of "black magic" in railway-government finance is the astonishing declaration that present bookkeeping methods, whereby loans made to the Canadian National Railways and shown both on the Dominion Balance Sheet and the Canadian National Balance Sheet, constitute a "Duplication of **Liabilities**".

This contention will bear the most careful investigation. It is the real crux of the whole case for writing off liabilities in excess of $1,500,000,000 from the railway balance sheet; for the proposal that the railway accounts shall never again be required to remind the public of the facts of the case; for allowing the published results to ignore entirely the interest on the hundreds of millioins of dollars of money borrowed by the taxpayers to lend to the railway; and for the highly interesting thesis that, notwithstanding that the taxpayers still pay fixed interest rates on money they lent to the railway, the latter will be entitled to regard it as extraneous to railway liabilities.

Proponents of the Bill have stated that "the Duplication arises out of the assumption in the net debt of Canada of loans, interest thereon, and capital cost of the Canadian Government Railways concurrently with the inclusion of the same liabilities in the accounts of the National System".

It is informative to look at these accounts and to see what is the precise position. The following table shows the items comprising the alleged duplication of $1,500,000,000 of liabilities as they appear in the railway accounts, side by side with the same items as carried in government accounts.

	Dom. Bal. Sheet Asset Side	Rail. Bal. Sheet Liabil. Side
Loans & Advances	$645,527,456	645,527,456
Can. Government Railways	388,880,003	388,290,294
Unpaid interest	x	495,030,137

x—Not segregated, included in Consolidated Fund.

It will be clearly noted that on the Dominion balance sheet, the railway accounts are carried as assets, and not as **liabilities** as one would infer if there was a duplication of liabilities. They are carried as non-active, which places them in the same category as our parliament buildings, legation properties, canals, harbours and wharves. The unpaid interest is carried in the Consolidated Fund.

This set-up was adopted in 1920 by the Minister of Finance, Sir Henry Drayton, with the full approval of Parliament.

J. C. Saunders, deputy minister of finance, drew attention to the change in his annual report for 1920, and stated that George Edwards, of the Toronto firm, Edwards, Morgan and Company, had been consulted, and that they had sought to have the accounts "set up more in conformity with those of banks, railway corporations and other financial institutions". It is inconceivable that a combination of the best legal, financial and accounting experts in the country would, after mature consideration set up a system of accounts as between the railway and the government which was "without corporate precedent anywhere on the face of the earth", or one which would produce a "duplication of liabilities" prejudicial to the national credit. It is impossible to believe that in the intervening years, when the government's commitments in respect of the railway were increasing so rapidly, no responsible person either in the railway or the government noticed that this practice created a "duplication" until after the Royal Commission drew public attention to the huge cost of the national railway adventure.

It was not until 1934 that the railway auditors discovered what they termed a **"misconception"** as to duplication in the net debt. The present Bill goes farther and has translated this misconception of a duplication into an actual **"duplication".** It is now argued that since these items are treated as "non-active assets", and included in the net debt of Canada, they are acknowledged by the Government as "written off" and as "not having any asset value". Hence, it is claimed that to record what the Canadian National Railways owes the Government on the railway balance sheet is "duplicating liabilities" and constitutes an unreal transaction. Such reasoning, of course, chooses to ignore all sense of business relationship and proportion. Should one treat the parliament buildings and the canal system, which are also included as non-active assets in net debt, as "written off" and as "not having any asset value"?

Despite the apparent conviction with which proponents of the duplication fallacy reiterate their views, there is nothing incongruous or unorthodox in the manner of expressing the relationship between the railway and the Government in the published accounts of each. This is clearly shown by the evidence given before the Railway Committee in April, 1935, by B. J. Roberts, comptroller of the guarantee branch of the department.

It has been well said that "the whole theory of recapitalization is obviously dominated by a misconception". The small group who favour recapitalization have set out "to eliminate duplication of liabilities and losses of some One Billion, Five Hundred Million Dollars between the published accounts of the National Railway System and those of the Dominion." It is unbelievable that any recognized authorities not connected with the railway or the Government can be found who will admit the existence of any such duplication of liabilities.

It is certainly high time that the "searching examination" referred to by Mr. Dunning, and urged by Professor Jackman, should commence. The present controversy might produce lasting results if it awakened a real public demand for constructive action to solve the railway problem, and confounded those who would see this problem minimized by a calculated deception of the Canadian people.

Yours truly,
A. L. A. RICHARDSON.

THE YOUNG CANADIAN'S CLUB

NEWS from AROUND the WORLD

A dust storm carrying death and destruction in its wake is sweeping through Kansas and the middle west of the United States. Like a big black fog, the dust is moving across the country, drying up the land, and killing the people and stock. The dust storm is man-made. For years, men have been cutting down the trees with no thought of reforestation, and the trees which used to absorb the moisture and distribute it to the land to make it rich and fertile have all been destroyed. Now the water is running off the land as fast as its falls and death in the form of dust is sweeping over the country.

Britain has already started her programme to increase her army and navy. She plans to have 25 capital ships, 70 or more cruisers and hundreds of smaller craft by 1942 besides bringing her air strength up to 5300 planes by 1939. By this move the strength of her fleet will be doubled in five years.

The management of the Moose River Gold Mine was held responsible for the cave-in last April which held Herman Magill, Dr. D. E. Robertson, and Alfred Scadding, of Toronto, imprisoned underground for 10 days. Magill, the owner, died as a result. A commission examined the collapse and tabled its report in the Nova Scotia Legislature this week.

Trucks lessened Canadian railway revenues by nearly $38,000,000 according to figures published on the 1936 operations of the two great transportation mediums. A more equitable distribution of cargos between the two freight carrying agencies will have to be affected if the railways are to continue paying their way.

Prime Minister MacKenzie King of Canada spent the week end in Washington, a guest of President Roosevelt at the White House. World questions of peace and war were discussed and it is thought that the two also talked about trade matters, the St. Lawrence Seaway Project which has been a source of interest to the two countries for a long time.

Berlin has filed official protest to the United States Government over an utterance of New York City's fiery mayor, Fiorello la Guardia, who called Hitler 'a brown shirted fanatic", in an address before the Women's division of the American-Jewess Congress. Mayor la Guardia, of Italian and Jewess descent has always been opposed to the Nazis, who have carried out a policy of strict hostility towards the Jews.

The split in the Spanish Cabinet has ended in a victory for Premier Largo Caballero who emerged from the crisis with the full support of all party leaders. This strengthens the Loyalist cause in Spain and the government is now able to present a united front to its opponents.

Joseph Stalin, Russia's man of the hour has started a war on cliques and on bureaucracy within the government. In his campaign against nepotism and all other foes of democratic government, the Russian leader plans to clean up the Communist party.

Sam Abraham, 46 years-old, a Syrian, who socked a man for passing a slurring remark about the late King George V will find refuge in Canada, immigration authorities have decreed. The man, a former have decreted. The man, a former Detroit meat shop proprietor, struck a customer who entered his store and insulted the late King while Abraham was hanging his picture in his store. United States authorities wanted to have Abraham deported back to Syria.

The Spanish freighter, Mar Cantabrico, which won a dramatic race with the United States Congress in January when that body tried to prevent her schedule departure for Spain loaded with arms, was sunk Monday in the Bay of Biscay by the insurgent cruiser, Canaries. Congress passed hurried legislature to prevent the ships sailing on January 6th from New York City with a load of planes for the Spanish government but the freighter was loaded and on the sea before the new legislation came into effect.

A FACT A DAY ABOUT CANADA

Dolls

There are 2,200,000 children in Canada under the age of ten years late figures state and there are over two million dolls made in Canada a year as well as one million imported. This means that probably every child in the Dominion has one doll a year and many have more. Canadian factory-made dolls are valued at $312,000 a year and the imported variety at $133,000. We import mostly celluloid dolls, although there are still many papier maché, wax and wooden dolls coming into the country.

Buttons

Buttons play an important part in every day life. There are nearly 300 million dozen buttons made in Canada in a year and the average person uses 30 dozen of these himself. On a snappy day in October, a well dressed man, replete with top coat and spats, has close to four dozen buttons on his clothes. Children and laundry firms are great assets to the button business. They destroy more buttons than any other agency known.

Racial Leaders

People of English origin are the leading race in six of the nine provinces of Canada as well as in the Yukon. They lead in Nova Scotia, Ontario, Manitoba, Saskatchewan, Alberta, and British Columbia. The French lead in Quebec and New Brunswick, while the Scotch predominate in Prince Edward Island. The Scots are second in Nova Scotia, Manitoba, Saskatchewan, Alberta, British Columbia, and the Yukon. The English are second in Prince Edward Island, New Brunswick and Quebec, while the Irish are second in Ontario.

English War Horses

To English people in Canada the Shire is the horse of horses. He was the noble breed that carried knights into a battle in the brave days of old. He was the horse of the tilting tournaments and the pride of his owner as he galloped thunderously in the lists. Today only a few hundred of these horses remain in Canada. A few years ago some were sent from England and placed on experimental farms but none of these is alive today. Most pure bred Shires are to be found in Alberta. They used to be found chiefly in Ontario but that province has switched its favour from heavy to light horses during the past few years.

Depression Data

During depression people naturally have to save money and luxuries feel the pinch irst. Take tobacco, confectionery, and pastry, for instance. Less candy and cream were sold during worst depression years but there was just as much chewing gum and other confectionery sold. Bakery shops suffered, many people preferring to make their own pastry at home. Tobacco consumption showed little or no difference. Fewer cigars were bought and there were fewer tailor-made cigarettes sold, but more cigarette tobacco was sold in packages for the "roll-your-own" purpose.

Canadians More Sober

Canada is growing more sober, according to figures shown by the Criminal Statistics Branch of the Dominion Government. For five years before 1929 drunkenness was on the increase, reaching an all time high of 38,826 convictions in that year. Since that time there has been a steady decrease and now the number is less than a quarter of the 1929 figure.

Canada's 1936 Position

Canada ended 1936 in a better position than she has ended any year since the start of the depression. Impressive gains have been made by all industries in general, while there has been a marked expansion in the mining and power industries. Canada is in fifth place as an exporting country, truly a great achievement for a country of only eleven million people. The New Trade Agreement just passed with Britain, puts Canada in a very favourable position as far as trade is concerned. Canadians can look forward to a very prosperous year during 1937.

Sport-a-Graphs

By A FAN

Hockey air is full of play-offs at this time of the year. With only four more games to go, N. H. L. teams are scrambling around for favoured spots in the play off line up and the first three teams in both sections of the loop are putting up some great battles.

Canadians already have first place in the Canadian section of the league tucked away under their belts but Toronto Maple Leafs and Montreal Maroons are fighting tooth and nail for the right to the second place honours. Both teams are tied with 42 points, but the Maroons have a game in hand over their Toronto rivals.

Experts who are already naming their choices for the final bracket are looking with favourable eyes in the direction of Maroons and Toronto. Both teams they claim are as well balanced as any in the league and both are capable of championship hockey when "hot". Both squads are after that second place slot for the playoffs because they figure Bruins are easier to beat than Rangers.

Both teams are getting ready as the campaign goes into the home stretch. Toronto players who have been on the sidelines all year are in shape once more and the Maroon machine that has been gathering power with every game is now going full steam ahead.

Fred Perry, who is leading Ellsworth Vines 13-14 games in their professional tennis tour says that America will not win the Davis Cup this year. He claims that American players play too much winter tennis and are stale when Davis Cup time rolls around. A rest during the off-season would do them a lot of good, he says.

A new star, in the person of little Archie San Romani, of the Emporia State Teachers College has flashed across the racing firmament. . The little saxophone-playing flash led Glen Cunningham to the tape by two yards and Gene Venzke by seven yards in a sensational finish in the Banker's mile feature event in the Chicago Relays at Chicago, Saturday night.

Alf Engen of Salt Lake City, Utah, ski-jumping champion of the United States, Sunday added the Canadian championship to his list of titles with his performance at Banff, Alberta. He jumped 194 and 208 feet to win the title easily. Percy Bott, Montreal schoolboy jumper, was ranked sixth in the meet.

The sensational Seabiscuit won the $10,000 San Juan Capistrano Handicap Saturday at Santa Anita to close the most successful racing meet in the history of the United States West. Seabiscuit, who was beaten by a nose by Rosemount in the $140,000 Santa Anita Handicap last Saturday won by seven lengths in track record time of one minute and 48 4-5th seconds.

Di Maggio, Gehrig, and Ruffing are now the only serious holdouts of the Yankee Baseball Club which is having more trouble than any other team to get its players signed. Gerhig and Di Maggio are expected in training camp Monday but the Ruffing quarrel is expected to last well into the season. Gerhig who wants $50,000 and has been offered $31,000 with a possible $36,000 limit will report from Hollywood where he has been busy taking screen tests. The Iron Man of Baseball will do some screen work as soon as the ball season is over. Di Maggio, the Yank's sensational rookie will also probably do some cavorting before Hollywood cameras when the curtain falls on the baseball wars, next autumn.

WITH THE CURLERS

Carrying a 22-point deficit as a result of games played here last week, Huntingdon Curlers were defeated 30-27 by Outremont Saturday afternoon in Montreal in the District Medal Play, to lose by a 80-55 round score.

Valleyfield defeated Point Claire in their District Medal Competition by winning 24-19 at home and 25-22 at Pointe Claire.

The big lead which the Outremont curlers had piled up here stood them in good stead Saturday as the Huntingdon curlers settled down to turn in some fine games.

J. W. Stark led his rink to a 12-10 victory over W. Craig and J. A. Ross Jr. won 9-8 in a close game with J. A. D. Annett. D. L. Kelly lost to J. W. MacDonald 12-6.

In the evening the local curlers played a series of friendly games with Thistle and were defeated. The scores and teams for the Medal Play were as follows:

TAKEN FROM GLEANER FILES

1927—Ten Years Ago

Rev. J. B. Maclean, D.D., of St. Andrew's Presbyterian gives resume of church activities for past 18 years. Congregational contributions totaled $101,710.00, of which $30,913 was for missions. The W.M.S. and its junior branches raised a total of $16,225.32.

W. G. McGerrigle's Ormstown four make best showing in Quebec City Bonspiel gaining final of Centenary Cup play but were defeated 10-9 by a Shawinigan Falls team.

1917—Twenty Years Ago

Paul Cartier, of Ormstown, breaks leg while sliding down the hill to the river at Chamber's Shop on his skates.

Notice

On account of the shortage of fuel, the rink will open only on Tuesdays, Thursdays and Saturdays, afternoon and evening, for skating only.—H. R. Fraser, Sec.-Treas.

Bell Telephone Co. pleads with party line subscribers to answer only to their own number. So many subscribers have been listening in on every conversation, the service being weakened and disrupted with so many lines "listening in."

1907—Thirty Years Ago

Provincial Loyal Orange Grand Lodge Conventionists welcomed by Mayor Philps at annual meeting held in Forester's Hall, Huntingdon. R. Sellar, Rev. W. H. Stephens, Rev. C. E. Jeakins were among speakers.

The trial of Ernest A. Lee, charged with the revolver murder of Jean Baptiste Roy at Cazaville started at Valleyfield, March 4th, 1907.

Rev. Donald Stewart, 70, of Laguerre retires from active ministry.

1897—Forty Years Ago

Cows sold at Ed. Murphy's sale, March 9th, at Ormstown, bring good prices—$28 to $32. Eggs are 14c dozen, bread 18c a loaf.

Rev. Dr. Muir of Huntingdon sends in resignation from ministry on account of poor health, to Montreal Presbytery.

English River curlers defeat H'don Club by 4 shots in district medal play. Skips were: English River, J. McGregor, J. Angel; H'don, Jas. R. Oney, G. Cunningham.

1887—Fifty Years Ago

Huntingdon Correspondent: People in this vicinity do not need to make a voyage in order to secure the supposed benefits of sea-sickness. A smart drive to Athelstan will do the business, for the road is a succession of cahoots.

Blizzard sweeps over district on March 6th. Ten inches of snow fell during the day, cutting off all communication with Montreal and tying up all local traffic.

College Wins By 5-4 Score Over Academy

Avenge Previous Defeat by Victory on Home Ice Saturday

Nursing a lead which they obtained in the opening minutes of the second period, the Presbyterian College hockey team withstood a determined attack in the dying minutes of the game to win by a 5-4 score over the Huntingdon Academy six at the McGill campus rink in Montreal on Saturday morning. Huntingdon had beaten the College team 7-4 in a previous game played here.

The teams fought through a scoreless first period but the Montreal team got to Hayter to three goals before the middle session was five minutes old. The three goals, all scored within a minute and a half, were the result of clever combination plays. Wilcox, fast-skating forward scored two of these and Graves one. At the 11.17 mark G. Lefebvre took Duke's pass along the right wing boards and blazed a high shot to the corner for the first Academy goal. Five minutes later Duke scored unassisted.

Sproule and Wilcox gave the College boys a three goal lead with two smart counters at the start of the third period but Grant cut the lead to two on a nice individual effort at the 17 minute mark. Just before the bell, Boyd took Lasalle's pass to make the score 5-4 and the last few seconds found the Academy players swarming around the goal in a vain attempt to get the tying goal.

Penticost, Montreal goaler, was in superb form throughout the game and turned away all manner of shots with uncanny skill. Grant had him all to himself on several occasions but couldn't beat him.

Wilcox was the big gun for the home squad notching four goals. Bill Boyd and Mons Duke took turns refereeing. There were no penalties given.

The teams were:

Pres. College: goal, Penticost, def., Sproule, McLean, Bigelow; forwards, Wilcox, Neilson, Graves, McMillan.

Academy: goal, Hayter, def., Griffiths, G. Lefebvre; forwards, Grant, Bennett, Duke, Boyd, LaSalle, MacPherson.

First Period

No score.

No penalties.

Second Period

1—Wilcox (Neson, Graves) ... 3.05
2—Graves (Wilcox, Sproule) .. 3.57
3—Wilcox (Graves, Sproule) .. 4.35
4—Lefebvre (Duke 11.17
5—Duke 17.36

No penalties.

Third Period

6—Sproule (Graves) 7.35
7—Wilcox (Neilson, Sproule) . 10.17
8—Grant (Unassisted) 17.37
9—Boyd (Lasalle) 18.17

No penalties.

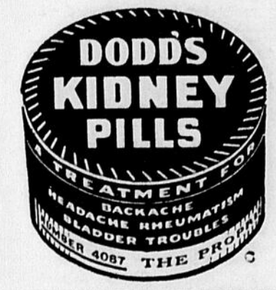

Huntingdon

The picture "GREEN LIGHT" to be shown in O'Connor Theatre Tuesday and Wednesday—March 16-17 is sound, dramatic entertainment produced from the novel by Dr. Lloyd C. Douglas.

When Mrs. Dexter (Spring Byington) dies as a result of a slipshod surgical treatment, young doctor Newell Paige (Errol Flynn) prefers to accept responsibility in order that Dr. Endicott's (Henry O'Neil's) reputation may remain unblemished. An outcast in his profession, Paige, who is loved by nurse Frances Ogilvie, (Margaret Lindsay), meets and falls in love with Phyllis Dexter (Anita Louise) daughter of the surgical martyr. When Phyllis learns Paige's identity, her affections turn to hatred, but the drama of this is graphically contrasted by sacrifices which Frances makes to bring together again the two whom she knows really love each other, and by the manner in which the inspiring character Dean Harcourt is worked into the story.

An epidemic breaking out, Paige, who is attempting to beat his way back, combines with bacteriologist Stafford to develop a serum which will eradicate the scourge. Their efforts successful, Paige is restored to his profession and with the love of Phyllis to serve as an inspiration he devotes his life to the service of humanity.

This picture was previewed in the Warner Beverley Theatre and the reactions of the audience indicated that it had seen something inspiring as well as a film the memory of which would not be quickly forgotten. (Advt.)

Watkins New Improved Spray Does A Better Job - - - AND AT A LOWER COST!

Watkins Fly Spray has been recognized for a long time as one of the best on the market. Now it's better than ever before. You get more for your money, because it gives a faster knock-down, a greater kill and will repel flies for a longer time. Test after test has shown it to be much superior to anything I have sold before. It is clean and odorless, will not gum up the hair or hide of your cows and can be used in the barn or milkhouse without tainting the milk. It is so clean that it can be used in the house, without staining or discoloring curtains, rugs or draperies. Buy Watkins Fly Spray and you get two in one, for you can use it both in the house and the barn.

It's economical, too, because many dairy men report that they have to buy only half as many gallons of Watkins Fly Spray to get the same results. It's cheaper because it goes further.

Wait for Watkins--It Pays!

1 Jersey cow to freshen in May, also pure bred Tamworth boar and sow; 2 Collie pups. Gordon McClatchie, Tel. 633 2-4, Athelstan.

Accident Leads to Major Industry

A cow kicking over a lamp, they say, started the Chicago fire. A spider climbing a thread brought Bruce of Scotland victory. But these like many other historical incidents pale before the story of the housewife whose carelessness founded one of the most important phases of the Canadian fish industry.

Away back in a Scottish village a housewife left a haddock hanging from the rafters of her cottage as she went out for the day. She had left it too near the peat fire, however, and when she returned the fish was all dried by the smoke from the fire. She decided to cook it anyway and the result was so appetizing that the news spread like wildfire and smoked fish became a national delicacy.

Today the popularity of smoked fish has spread everywhere and the appetite for this delicacy has founded Canadian organizations of international repute, some of which have been established for a century and more.

The Canadian climate has been found ideal for the production of this delicacy and other cured fish and today the Dominion holds a foremost place in world trade in the export of dried, smoked, and pickled fish.

Notice

It has come to my notice, that vendors of certain motor vehicles, in order to make sales in the County of Huntingdon, have stated that people who wished to work on the road must have a certain type of truck. I wish to advise anticipating purchasers of trucks that this propaganda is entirely false, and that for roadwork there will be no discrimination between any type of truck.

Martin B. Fisher, M.L.A.,
Huntingdon,
Treasurer of the Province.

TAXI and TRUCKING

24 hours service.
Walter Lefebvre,
Phone 145, Huntingdon

NOTICE

Upholstering and furniture repairing done in exchange for wood.

J. R. Tully,
Huntingdon

Secretary Farmers' Club.

Abitibi Power & Paper Company, Limited

Notice is hereby given that the undersigned intends to make application to the above Company for the issue of duplicate certificates to replace the following certificates: TH5187 for 50 Common shares in the name of Gardiner, Wardrop & Company and TJ3203 for 25 Common shares in the name of F. O'Hearn & Company, on the ground that the said certificates have been lost or destroyed.

Dated this 13th day of February, 1937.

LEO FORTIN,
Hemmingford, Que.

PROVINCE OF QUEBEC

Municipality of the Town of Huntingdon

NOTICE

All arrears of municipal taxes, water rates, and business will be handed to the town attorney for collection with costs unless settled by the 1st of April, 1937.

All proprietors are requested to notify the secretary-treasurer to turn off the water when their houses are vacated by themselves or by their tenants.

E. C. MARTIN,
Secretary-Treasurer.

Public Notice

Public notice is hereby given that the City of Salaberry de Valleyfield, will apply to the Legislature of the Province, at its next session, for certain amendments to its Charter concerning the following matters:

To designate the permanent officers of the Council; to change the mode of assessment relating to the construction and repairs of sewers; to allow the installation of snow barriers on vacant lots; to authorize the City to maintain winter roads, within a radius not exceeding thirty miles from its limits, with the assistance of the interested municipalities; to levy a tax on different lines of trade and a special tax on chain stores; to acquire and expropriate lands and all things relating to the lighting of the City and to power; to acquire and expropriate electrical plants together with their distributing system and accessories; Chapter 269 R. S. Quebec 1925 will not apply to the City; and for other purposes.

Salaberry de Valleyfield, February 12th, 1937.

LAURENDEAU & COSSETTE,
Attorneys for the Petitioner.

Bred for vigor, high production, large egg size.
Breeders blood tested.
Member R.O.P.
Barwick Farm,
E. A. BARWICK, Athelstan, Que.
Phone 651 3-1.

DAY OLD CHICKS

Buy your chicks from a sanitary breeder hatchery with modern incubators and where the eggs come from big, husky breeders, rigidly culled and blood-tested under government supervision. Barred Plymouth Rocks, White Leghorns and Rhode Island Reds.

A complete stock of Poultry and Cow Feeds always on hand at the lowest prices.

Get our prices on fertilizer before placing your order, we have no representative soliciting business for us, in this way we can give you the best prices obtainable.

For prices and other information write,
Co-Operative Agricultural Society of Ormstown,
J. Ross Bryson, Manager.

Service Brand Chicks

Good Breeding and Proper Selection of eggs count. Ten years ago any hen that laid a few eggs was profitable. Today only the hen that would make a good record as a factory piece time worker is worth keeping. The Extra Size and Numbers of eggs that Service Brand Chicks lay makes all the difference between profit and loss in poultry. Write for catalogue and price list. White Leghorns, Barred Rocks, White Rocks, Rhode Island Reds, White Minorcas, New Hampshires.

Waterloo County Hatchery,
New Hamburg, Ont.

SCHOOL NOTES

St. Joseph's School junior hockey team defeated the Huntingdon Academy juniors by a 7-4 score at the local rink Monday night to even peau; defence, R. Rodigue, J. week the Academy won by a 2-1 count.

Scorers for the Academy were, Allan McDermid 2, and Guerin 1. Rene Senecal, 2; Cahill, 1; R. Kirby, 1; P. Faubert, 1; D. Lefebvre, 1; and R. Rodrique, 1; were the St. Joseph marksmen. The game was refereed by J. Lefebvre.

The line-up:

Huntingdon Academy: Goal, A. Mann; defence, A. Hatfield, M. Robinson, R. Moore, W. Kiernan; forwards, G. Guerin, A. McDermid, M. Helm, G. Allen, A. Hayter, R. Cluff.

St. Joseph's School: Goal, E. Galipeau; defence, R. Rodrigue, J. Rodrigue; forwards, R. Senecal, H. Cahill, R. Kirby, L. Legault, P. Faubert, D. Lefebvre.

The boy's senior hockey team lost their first game of the season 5-4 in a return match with the Montreal Presbyterian College team played at Montreal on Saturday.

After the game the boys were dinner guests of their opponents at the College, and remained in the city to see the American-Maroon game at the Forum at night. The trip was made in Elder's school bus.

Glenelm

The Kensington Women's Association met at the home of the president, Mrs. C. H. Brown on Wednesday afternoon where the attendance was unusually large, a cordial invitation being extended to every lady in the congregation, who took advantage of the beautiful day to be present. The devotional exercises were conducted by the president, asssited by Rev. J. H. Woodside. The afternoon was spent in working on quilts for the Missionary Society, with Mrs. Salter in charge. A delicious lunch was served by the hostess, Mrs. Brown, assisted by Mrs. D. L. Brown.

Miss Eleanor Gordon entertained the Kensington Young Women's Association on Saturday afternoon, at her home, when 15 young ladies were present. The meeting was conducted by Miss Marjorie Salter, and, owing to the absence of the Secretary, the minutes were in charge of Miss Robina Seward. Arrangements were made for an oyster supper to be held in the Hall in keeping with St. Patrick's Day. The young ladies were busily employed in quilting. At the close of the afternoon lunch was served by Miss E. Gordon, assisted by her sister, Mrs. Claire Lavery. Huntingdon and Mrs. Jean MacGibbon, Constable, N.Y.

Mr. David P. McFarlane is a patient in the Montreal General Hospital, where he has recently undergone an operation. He is doing as well as can be expected and hopes are held that he may have a speedy and complete recovery.

Mrs. Mabel Douglas, Manitoba, is spending some weeks here, being called home owing to the serious illness of her mother, Mrs. Robert Todd.

Mr. and Mrs. Irving Duff, Montreal, were week-end guests of Mr. and Mrs. D. L. Brown.

Mr. J. J. H. Taunton and Miss Lucy Taunton, Montreal, spent the week-end at Caterham Cottage.

Huntingdon R. R. 2

The Young Women's Auxiliary of Elgin Presbyterian Church met at the home of Miss Janet Arthur on Wednesday afternoon, March 3rd. Sufficient blocks for a quilt were completed. Devotional exercises were conducted by the president. A letter was read from the Presbyterian Secretary stating that the allocation for the year was $75.00. A card of thanks from the Supply Secretary acknowledged a bale sent forward by this group. After adjournment a social hour and delicious supper was enjoyed by 28 members and visitors. Collection, $6.25.

Miss Etheline Moore of Covey Hill was a week-end guest at the home of Mr. and Mrs. Robert Arthur.

Mr. J. A. Carr's herd of 37 Holsteins received an Accredited Herd Certificate this week. Mr. W. L. Carr's herd also successfully passed the T. B. test.

Recommended for the next Russian firing squad or to be shot on sight, fertilizer salesmen who recommend that phosphate be spread on stable floors. It may have some virtue in a stable but what it does to linoleum and hardwood when tracked in by half a dozen men and as many youngsters is a caution!

"To neglect a Navy or air force in time like these would be as foolish as to discharge our policemen or disband our fire departments."—Bruce Barton.

Huntingdon

A number of relatives, neighbours and friends called at the home of Miss Mary Ann Cunningham recently to congratulate her upon the occasion of her eighty-seventh birthday. Surprise refreshments, including a delicious birthday cake, added to the evening's pleasure.

Mr. and Mrs. A. L. Sellar have returned home from Toronto after visiting friends and relatives. In the course of Mr. Sellar's visit he visited several printing plants and supply houses with a view to making changes and additions to the Gleaner plant.

A 1936 Ford car driven by Mr. W. C. Collings of Hemmingford, was slightly damaged when it slid down the approach to the lower bridge in Huntingdon about 10.00 o'clock Wednesday morning and crashed into a truck. The grill of the car was shoved in, the radiator dented and one headlight broken.

Miss Mary Macfarlane was given a surprise on Monday afternoon when a number of her neighbours gathered at her home to celebrate her birthday.

Mrs. Louis Cappiello is at present in St. Albans, Vt., where she was called owing to the death of her aunt.

Miss Dorothy Derochie of Montreal was the week-end guest of Miss Alice Faubert.

Miss Ena O'Hare, R.N., of Montreal, and Mr. Thos. O'Hare, of Curry Hill, Ont., spent the week-end at the O'Hare home.

Miss Florence Demers, of the Post Office staff, is a patient in the Montreal General Hospital where she underwent a serious operation on Monday afternoon. Her many friends extend sincere hopes for a quick recovery.

Proceeds from the "Hot Dinner" held in St. Andrew's Presbyterian Church, on Thursday, under the auspices of the choir amounted to $42.35.

The fourth in the series of Lenten Services being held in the three Protestant Churches of Huntingdon is being held tonight in St. Andrew's Presbyterian Church. Rev. J. H. Miller, D.D., of the United Church, will be the special speaker.

ROADS OF FAITH

Beyond the clamor and the grime,
The toiling wheels' insistent chime,
The weary feet of men may pass
To quiet comfort of the grass.

Beyond the heart's distress and pain
There is hope's green-bordered lane
And sunny waters, hushed and deep,
That no wings of trouble sweep.

Beyond the darkness and the grey,
Descending light of closing day,
At the journey's end love sees
The home lights beckon through the trees.

He who walks with faith at last
Finds his days of question past,
And learns before the long miles cease
That all life's ways lead on to peace!

—Arthur W. Peach.

Hairdressing

I have finished my course in hairdressing and beauty culture, would be pleased to have appointments. Phone 613-4 for particulars.
