"Well, Don," said Dash, a few days after we had heard the story of Connor's wine stealing "you promised to tell us something about your passage home to Scotland; there is no better time than the present, so give us a yarn on that subject."

As nothing compared with the mad-cap capers of the sailors at this time—I could not tell you what they did, or what they did not do, in the space of a week; sufficient for my present purpose—was that several of them were the bar-rack, and from one of the number, in reply to my question of how they managed to get settled, I obtained the following elucidation of the mystery.

When peace was proclaimed, we were on our way to Lisbon; and a very pretty figure we almost completely wore out, and the original color of our clothing could hardly be pointed out for the multicolored patches with which they had been rendered water-proof, or at least something decent; and I do not believe you would have found, throughout the whole regiment, a pair of boots for which you would have given a quarter of a dollar. However, we were the constant subject of conversation, comment and grumbling, from the proclamation of peace until they engendered mutiny, disobedience, imprisonment, and, finally, a passage to Scotland, with the prospect of their being put off for some time, and the delay being very distant indeed.

bottle of wine, which struck her prow, breaking in fragments, and named her "Columbia." After a few minutes she was hauled up, and made fast to the wharf in the vicinity.

The Columbia was built by Mr. Louis LaBouche, under the inspection of James Goulet Esq., from a model made by William Power Esq., now in Quebec, but formerly of New York, and will measure about 400 tons, being 215 feet long, 29 feet beam, and 9 feet hold.

The Columbia is the sole property of our enterprising fellow-citizen, Mr. Louis Perrault, and will be under the command of Captain Andrew Welsh, well known in the Montreal, Quebec and Clyde trade.—Montreal Gazette.

NEW ADVERTISEMENTS.

Montreal Ocean Steamship Company—George B. Symes & Co. Mail for England via New York. Do per Canadian Ocean Steamer Indian. Notice—Season of Temperance.

From a New York contemporary we extract the following interesting account of the present condition of Australia, the colony of Victoria, and the improvements which have taken place in the city of Melbourne.

The intelligence will prove valuable to those interested in the progress of Australia, more especially as it is the latest of which we are in receipt, being up to the latter end of August.—The export duty on gold continued the same, viz., 2s. 6d. per oz. A large amount was being expended on the government line of railroads, and it was proposed to place a large number of extra laborers on the Mount Alexander line as soon as the wet season was over.

The Colonial Government had commenced to draw heavily on the local banks for the railroad expenditures. The public debt which arose from the completion of several public works, including the Yan Yean Water Works, the Patent Slip at Williamstown, the Melbourne and Williamstown Railroad, and the guaranteed interest on the Geelong and Melbourne Railroad, is over £2,000,000. To this may be added another £8,000,000 as the Government have accepted engagements to that amount for the erection of the main lines of railroad.

The paying of these amounts extends over the space of twenty years, so as to be paid out of the yearly income. The public revenue of the Colony of Victoria is stated at £3,500,000 yearly, without loans or special funds. For the year ending June 30, 1858, it was £3,423,642, being an increase over the previous year of £500,000. Of this amount 21,630,000 consisted of Custom duties, and 21,000,500 the proceeds of public land sales.

Tariff on spirits or cordials of all kinds, 10s. per proof gallon; on wine having not over 25 per cent. proof spirit, 2s. per gallon; on beer, 6d. per quart, or 2s. 6d. per gallon; on opium, 10s. per lb. on cigars, 3s. per lb.; on all other tobacco, 2s. per lb.; on sugar, 6s. per cwt.; on molasses, 3s. per cwt.; on tea, 6d. per lb.; on coffee or chicory, 2s. per lb. The last general census was on 29th March, 1857, and gave the population as 406,577, including 25,424 Chinese and 1,765 aborigines. There were 259,910 males and 146,667 females. Of the Chinese only 23 were females.

The chief colonial vocations are thus illustrated: Out of a male population of 238,040, exclusive of Chinese and aborigines, not in employment of the colonists, there were actually engaged in mining, 62,336; in agriculture, 22,712; in pastoral avocations, 8,066; in carrying trade, 9,260; in navigation, 3,850. The chief religious bodies were, Church of England, 143,374; Presbyterians, 55,172; Jewish, 3,500; other Protestants, 55,185; Roman Catholics, 76,512; Chinese, 25,524. The population for 30th June is estimated at above 480,000. A general passenger or immigrant rate of 5s. per head is charged, and a special rate of £10 on each Chinese immigrant landed in the colony of Victoria. By the latest advices business in general was dull and the banking returns of the second quarter of this year, compared unfavorably with those of the same time in 1857.

The crises of September and October had not been entirely recovered. The note circulation was, for 1858, £2,054,447; for 1857, £2,330,119; the deposits for 1858, £6,017,446; for 1857, £6,025,542; the debts due to the banks (discounts, advances, &c.) 1858, £7,716,676; for 1857, £7,400,636. The following is the regulation respecting vessels entering or departing:—Vessels entering or departing from Port Phillip are required to hoist their numbers, or distinguishing flag, on approaching the Electric Telegraph station at Sher Idon Bluff (Port Phillip Heads, west) and Gullbards Point (Hobson's Bay).

The streets of the town of Kyneton were being lighted with gas, procured from the leaves of the gun tree, or eucalyptus, a very good substitute for coal in the manufacture of gas. In the city of Melbourne several improvements had taken place, and many handsome public buildings erected, among them may be mentioned the new branch of the Bank of New South Wales, situated in the center of Collins street west, which is without exception the finest building occupied for banking purposes in the Australian colonies.

"HURRY OF THE CAKES"—They had stirring times of it on Saturday at the City Hall. Assessments nearly amounting to \$6000 passed into the hands of the Treasurer, from citizens anxious to qualify for a vote at the ensuing municipal elections. In matters of this kind, however, the French Canadians are much wiser in their generation than the British part of our population. The former esteem municipal power so highly that every source is put in requisition—clerical, secular and educational—seminary servants, Normal School boys, all are impressed and assessed, in order that a majority may be secured. Our own folk, with proverbial stolidity, look listlessly on, and suffer material equally legitimate that at employed by their opponents to remain quiet. We should like to know how many honest votes are lost to the British population of this city, just through sheer indifference—what with citizens who neglect to pay up their dues, and young men in mercantile establishments who fail to qualify by paying their capitation tax. We think the number must be very considerable, and it rendered available would tell materially upon the election results in many of the wards. We shall return to municipal matters in our next.

We submit, in round numbers, the amount paid into the City Treasury on Saturday last, for assessments.

Table with 3 columns: Name, Amount, Total. Total: \$5779.

STEAMBOAT ACCIDENT.—On Saturday night last, the steamer Lubliner, while on her way to Platon, grounded on the rocks off Saint Augustin. The passengers became alarmed, and threw overboard goods to the amount, it is said, of two thousand pounds. It was ebb tide when she struck, and the goods were thrown over with the intention of lightening the vessel, but the effort and loss were useless, as she remained on the rocks till the tide flowed. It was foggy when the steamer struck, and it is said that she was overloaded at the time.—The goods thrown overboard belonged to shopkeepers at Lubinerie and in its vicinity, and we believe, were not insured.

At the Toronto Assizes, an action was tried, on an information of the Attorney General, for the forfeiture of a case of goods imported by Mr. Hickey of Kingston, for an alleged infraction of the Revenue Laws. It appeared that the defendant had written to a party with whom he did business in New York, to send him some sewing machine thread, satin and other articles. The thread and three pieces of satin were forwarded by Express, with a direction to collect \$10.50, the value of the thread which had been purchased of another party, the satin being charged an account. The amount to be collected being marked on the box, the agent of the Express Company entered it at that value, whereupon it was opened and examined, the satin found, and held for forfeiture. The defence showed that the defendant did not know that the box had arrived, and the entry was made without his knowledge, and was inadvertent. The Jury found a verdict for Defendant.

We are pleased to learn that the Rev. Dr. Heilbuth is actively engaged in making arrangements for the establishment of an institution in the neighbourhood of Quebec, where the advanced branches of education will be taught. There is none more qualified to superintend such an institution than the Rev. Dr., and we wish his project the success that it eminently deserves. As his prospectus is unexceptionable, our citizens of all denominations will doubtless cheerfully aid him in his enterprise.

His Excellency the Governor General has been pleased to appoint John Sharples, Esquire, of Quebec, to be one of the Quebec North Shore Tarpaulin Road Trustees, in the room of James Gibb, Esquire, deceased.

The Provincial Parliament, it is expected, will be convened on or about the 25th of January next.

ST. ANDREW'S SOCIETY, MONTREAL.—This Society held its Annual Meeting, at the Mechanics' Hall, on Thursday evening last, when the following Officers-bearers were elected for the years 1858-1859:

President—A. Morris, re-elected. 1st Vice-President—David Brown, do. 2nd Vice-President—David Mair, do. Secretary—Ewen McLennan, do. Asst. Secretary—Geo. Templeton, do. Treasurer—Alex. Milloy. JOURNALISM.—The Toronto "Atlas" and "Colonist" have been merged into one journal, which will hereafter be published under the title of "Colonist & Atlas." The Montreal "Argus" ceased to exist on Monday last. Mr. Bristow, in taking leave of his readers, says—"For various reasons, the principal of which may be frankly stated, namely, that the profit of the journal is not an equivalent for the labour and anxiety of conducting it, the undersigned, proprietor and editor of the Argus, has determined to discontinue its publication. This number is the last that will be issued."

The American Government has for some time been fitting out a formidable squadron for the vindication of its honor on the far off river Parana. For some trifling insult on the part of Paraguay, a State striving only in its island isolation, a fleet has been commissioned such as if the struggle were to be with a great nation. All this has afforded matter of surprise and speculation to those who know that the United States has usually a practical object in its expenditures, especially at a time when she has no surplus funds for any object; and the rumour is gaining ground that the Paraguay quarrel is only a pretext for getting an armament ready, the greater part of which is to be used nearer home and for more profitable objects. The forthcoming message of the President will, it is surmised, take strong ground in favor of the annexation of Mexico, Nicaragua and Cuba, with the threedy object of extending the area of slavery, restoring the lost popularity of the administration and necessitating the continuance of Buchanan in office for another term.

Lord Bury has been elected, in Toronto, a Director of the Hudson Bay Transportation and Railway Company, chartered last Session, the projectors of which are in high hopes of the success of the great undertaking. The Torontonians, as a further mark of their respect, entertained his lordship at a public dinner, on Saturday evening, in acknowledgment of his great attention as a member of the British House of Commons, to Canadian interests, and his having taken a leading part in bringing forward the project of an Atlantic and Pacific railway through British territory; as also the International Railway and Galway line of steamers.

THE METHODIST EPISCOPAL CHURCH.—The Minutes of the Annual Conference of the M. E. Church for the last ecclesiastical year, show a large increase of membership. The following table gives the recapitulation:—

Table with 3 columns: Year, Members, Total. Total: 122,961.

The returns from the foreign German missions have not been received, when received, they will probably largely increase the gain. The Rev. F. W. Flocken has been appointed a missionary to Bulgaria.

HOW WE LOOK IN GREEK.—A life of Washington has just made its appearance at Athens, Greece. They make short work of our names. Washington is rendered Oussinou, Hancock, Agkok; Bunker Hill, Bostonon Bongker; and old Governor Dilwiddle figures in the classic language of Homer, Demosthenes, and Plato, as Diouketa Diawiddle.

THE EVIL INFLUENCE OF A HOLIDAY SABBATH.—The Rev. R. S. Cook, secretary of the New York Sabbath committee, has prepared a timely pamphlet entitled "The Sabbath in Europe; or the Holy Day of Freedom—the Holiday of Despotism." It presents the facts in regard to the Sabbath in various countries, and contrasts the results of the different modes of observance. The friends alike of freedom and religion need to be aroused to a sense of the perils of a dishonored Sabbath, and Mr. Cook's testimony will contribute to this desirable object. His remarks that:—A holiday Sabbath is fatal to the growth and prevalence of evangelical religion. Sabbath-keeping and vital piety are so indissolubly associated as to make the former a certain index of the religious condition of any community. The moral accounts of the Sabbath as the Sabbath day is regarded according to the purpose of its appointment. Germany reads us a terrible lesson on this point. It was the home of the reformation, and would have been to this day, but for the false leave which vitiated the sanctity of the Lord's day. Recoiling from everything positive and ritual in the papal system, the reaction of the reformers in the direction of the absolute freedom of the gospel was a virtual abandonment of the Sabbath, excepting the claims of expediency. The result was, in the first place, a selfishness and worldliness proved inadequate; three centuries of the fluctuating—perhaps waning—power of a reformed faith on the continent, compared with the centuries of increasing vigor and expansion of evangelical religion in Great Britain and America, at a test on a grand scale the vital connection between Sabbath sanctification and the ascendancy of the gospel.

It will be found throughout Europe that attendance on the means of grace, the diffusion and study of the Scriptures, and the influence of benevolence, all the signs and fruits of a living faith, are graduated and may be determined by the measure in which the Lord's day is held in sacred esteem. As a general fact, the pulpit has little power; the masses being alienated from its influence, or dispelling its impressions by the misuse of the closing hours of holy time. The Bible is, for the most part, a sealed book because the season specially designed for its study is devoted to worldly pleasure. All schemes for popular evangelization are feebly conducted, and fail in popular efficiency. The conviction will deepen with every month of observation that until the Sabbath in Europe is re-established upon its divine sanction, error and irreligion will abound, and a general reformation and revival of a spiritual faith must be hopeless. All efforts from within or without to this end must be fruitless until the grand mistake of the sixteenth century be corrected. Such is coming to be the conviction of some reflecting men in Germany and Switzerland. It may be strengthened by a study of the influence of the Sabbath and by the reflex influence on the old world of the emigration to the new, when that emigration shall have been instructed in the claims and benefits of the sacred day, and brought under the power of a living gospel. But we are receiving by the shipload the population of the continent, to become, in a brief period, citizens with us, of this free republic. Is there not ground of apprehension that the prejudices and customs thus imported may make a stronger impression on our Sabbath habits than we make on these masses who establish themselves here? The population with which the emigrant sooner fraternizes here, is not the best instructed or most orderly. Thus the force of irreligious example may sweep away the restraints of the Sabbath from tens of thousands of American households; and a frightful measure of degeneracy, supererogation, and counteracting measures are employed. For our own sakes, then, as well as for the sake of the temporal and spiritual well-being of these strangers in a strange land, and for the sake of the lands from which they come, we need to invigorate the Sabbath sentiment of the nation, and to guard at every point against the incursion of an irreligious example. A continental holiday Sabbath would work our speedy destruction.

The Montreal "Argus" ceased to exist on Monday last. Mr. Bristow, in taking leave of his readers, says—"For various reasons, the principal of which may be frankly stated, namely, that the profit of the journal is not an equivalent for the labour and anxiety of conducting it, the undersigned, proprietor and editor of the Argus, has determined to discontinue its publication. This number is the last that will be issued."

The following circular contains some new provisions calculated to reduce the enormous expenses of the administration of Justice in Lower Canada—Witnesses once bound over to give evidence by a Magistrate, will not be summoned again; and the Crown Law Officers will exercise a check upon the expenses of conveying persons to Gaol. Hitherto the Sheriff was obliged to pay whatever bill was certified by the committing magistrate.—The circular has been addressed to all Justices of the Peace:—

PROVINCIAL SECRETARY'S OFFICE, Toronto, 30th Oct., 1858.

Sir,—His Excellency the Governor General in Council, having had under consideration the expediency of reducing as much as possible, consistently with the public interest, the cost of administering Criminal Justice in Lower Canada, I have it in command to convey to you the following instructions for your guidance:—Whenever you bind over witnesses to appear before a Court of Justice, you will explain to them that their retainer will be forfeited on their default so to appear, and that no summons or new process will be served. When the case is not to go on at the term next ensuing, they will be notified to that effect by the Clerk of the Peace or Clerk of the Crown, as the case may be. The expense of conveying prisoners to jail must hereafter be certified by the Crown Law Officer acting in the District, or by the Clerk of the Crown, and the Sheriff has received instructions to pay no such expenses without that Certificate. I have the honor to be, Sir, Your obedient and humble servant, H. FARNET, Assistant Secy.

Which motion was put to the vote and rejected, and the said 19th Report of the Market Committee was put to the vote and passed, on division of 12 against 9, to wit:—For—Messrs. Audette, Hearn, Lemieux, Fortin, Connolly, McGreevy, St. Pierre, Chateaufort, Fitzpatrick, Burns, Mercier, Hall (12). Against—Messrs. Eadon, Shaw, Martel, Lemieux, Gingras, Rheanne, Hill, Gauvreau, Robertson (9). Resolved, That a sum of one thousand nine hundred and sixty-six pounds 6s. 6d. be advanced to the contractors of the Champlain Market Hall for the extra work executed by them at that Hall and which were partly anticipated by their contract.

Then the said 20th report of the Market Committee and 35th report of the Finance Committee were put to the vote and passed. On motion of Mr. Hearn, seconded by Mr. St. Pierre, the Council adjourned until Friday next at 7 o'clock P. M.

THE BOARD OF WORKS.—A Quebec paper gives currency to a rumour that Mr. Killaly has been suspended from his functions as second Commissioner of Public Works. The statement is wholly untrue, by whomsoever originated or put in circulation. It was never heard of here till it appeared in the Quebec Gazette. Mr. Begley's removal from the office of Public Works, which recently took place, probably originated the story regarding Mr. Killaly. Mr. Killaly was not the Montreal Gazette gave currency to the story, and every one rejoiced at the prospect of getting rid of an incompetent officer. It was not to be however. Mr. Begley was dismissed because his salary was more than what he was worth, and he was not to be paid for his services. Mr. Killaly does not stand in the way, however; he never stands in any body's way and is useful to both. He went a-fooling with the Governor General, and after that how could any one believe that he would be dismissed? Unfortunately Mr. Begley, not to be handy with a trying pen. Even one of the Government officers, not remarkable for its scrupulousness, demands that the Commissioner shall follow the Secretary—it must have forgotten the trip to Lake Simcoe. Mr. Killaly may be corrupt and a scoundrel—the office over which he presides may be a sink of jobbery—but then Mr. Killaly has assisted His Excellency in teaching the Canadians good habits (vide the Leader), and he cannot be dismissed. Hurrah for Responsible Government!—Globe.

FAITHFUL DEATH.—On Saturday morning, a brakeman, in the employment of the St. Lawrence and Champlain Railroad Company, met a terrible death at St. Lambert's. The deceased, Edouard Comte, was observed at his post, standing by the breaks; but before the train reached the station he had ceased to exist. The cause of the passengers' anxiety as they sat in the cars, that they experienced such a sensation as would be caused by the train jolting lightly over some yielding substance. The worst fears were aroused, and when the train reached the depot, inquiries were made about the safety of the brakeman. On proceeding as far as the wood shed, it was discovered that the deceased was dead, and his remains horribly mutilated, scarcely any feature or member being distinguishable. The flow the terrible accident occurred seemed a mystery, as the deceased was at his avocation only a few minutes before. The body was gathered up, and the Coroner notified. The deceased was in the prime of life, and had been a long while in the service of the Company. We understand that this may be accounted the only fatal accident that has occurred on this, the oldest railway line in Canada.—Montreal Herald.

Elizabeth Carr, one of the domestics who had been wounded in the Goadly tragedy, died yesterday, at the Hospital.

THE STEAMER FALLON CITY, bound from Pittsburg to St. Louis, struck at Badington Island, on Tuesday, and sunk in 16 feet of water. 12 dead passengers were drowned. The rescued passengers lost all their baggage.

LOUISVILLE, Nov. 12.—A mob of desperadoes from Campbellville broke into the jail at Louisville, Ky., on the 10th inst., seized and hung two prisoners named Thompson and Desp. These men belonged to the party who murdered Henry Simpson some sixteen months ago. Another one of the murderers, Elias Stagg, committed suicide in prison to escape the hands of his captors. A fourth prisoner, Hunter, confessed the murder of Simpson, and implicated six others in the affair. The mob are after these latter.

ST. LOUIS, November 12.—The Santa Fe mail with dates of the 18th ult., reached Independence on the 18th inst. The mail was somewhat delayed in consequence of bad roads and high water in the river. Donna Maria Narcisca Gallagos was murdered at Las Vegas, October 1st. Col. Miles has had another encounter with the Navajo Indians. Ten of them were killed and several wounded, while eighty-five horses and sixty-five hundred sheep were captured. Two of the Colonel's men, Wm. Noy and Maurice Paulman, were afterwards found to be missing and it was supposed they were killed. Sergeant John Thomson was wounded.

YET CARSON had passed through Santa Fe with a band of Utah Indians. The latter were on their way to fight the Navajos, with whom they were at war. A letter to Lieut. Wilkins, dated September 22d, says that the Mohave Indians had attacked an emigrant train, while crossing the Colorado killing three men, two women and four children, and wounding sixteen others. The remainder of the emigrants then retreated, and sent to Albuquerque for supplies, which were furnished to them by Major Backus.

BOSTON, Nov. 11.—Ann Stewart was found in a barber's shop in this city, early this morning, with all her clothes burned off and her body shockingly burnt. She was taken to the hospital, and in her dying deposition stated that a mutilated man Mitchell had been after her, which ignited, when he fled. She will not live through the day. Mitchell has been arrested.

NEWARK, N. J., Nov. 5.—The case of Jas. McMahon was concluded to-day, the jury rendering a verdict of guilty of murder in the first degree. The prisoner manifested no apparent concern at the verdict. He will be sentenced in a few days.

ROUSE'S POINT, N.Y., Nov. 11.—The steam stave and heading mill in this place, belonging to Mr. Rice of Moores, N.Y., burst this morning, killing three men, two women and four children, and wounding sixteen others. The remainder of the emigrants then retreated, and sent to Albuquerque for supplies, which were furnished to them by Major Backus.

EXPLOSION OF A STEAM MILL.—ONE MAN KILLED AND THREE SERIOUSLY INJURED. ROUSE'S POINT, N.Y., Nov. 11.—The steam stave and heading mill in this place, belonging to Mr. Rice of Moores, N.Y., burst this morning, killing three men, two women and four children, and wounding sixteen others. The remainder of the emigrants then retreated, and sent to Albuquerque for supplies, which were furnished to them by Major Backus.

LEAVENWORTH, Nov. 9.—(Per U.S. Express to Bonville, Nov. 12.)—Favorable accounts continue to arrive from the gold regions. Seven men, of a Georgia Company, took out five hundred dollars in five days. Upwards

of six hundred wagons bound to the mines, were met last week, between Fort Kearney and the crossing of the Platte. Arrivals from Utah report six inches of snow on the Sweet Water, and ice an inch thick. Twelve hundred Indian lodges were erected in the vicinity. On the military road, between this point and Fort Laramie, the Indians are peaceable.

ARRIVAL OF THE STEAMSHIP VANDERBILT. Three days later from Europe. SANDY HOOK, Nov. 5.—2 P.M. The steamship "Vanderbilt," from Bremen, and Haver via Southampton, 3d inst., has arrived off this point. She left Southampton on the evening of the 4th and brings 329 passengers. The entire passage has been extremely windy. On the morning of the 5th, saw a large propeller off Selly bound up the channel. On the evening of the 11th, 20 miles east of Cape Race, saw a large steamer. At midnight of the 12th, 30 miles west of Sable Island, passed the Persia. The S. S. "Prince Albert" arrived at Galway on the 20th ultimo. The "Canada" reached Liverpool on the 31st. Four nominally unladen cargo, with a declining tendency. Western Canal, 20s; Philadelphia and Baltimore, 21s 2d; Ohio, 22s 2d. Prices tending downwards; very dull, and wheat irregular, 1d a 2d lower; red Western, 5s 6d; White Western, 9s 2d a 6s 6d; White Southern, 7s 7s 3d. Corn tending downwards, and nominally Yellow, 30s a 32s; White 33s a 33 6d; European was quoted 1s lower. Beef was heavy, and quotations barely maintained. Pork dull. Lard heavy with more retail sales at 55s 3d a 55 6d. Sugar quiet. Ashes, Pats steady at 35s; Pearls quiet.

The ship "Azee," from New York for Glasgow had foundered at sea, but all hands were saved. The formation of a new company with a capital of one million and a half of pounds, to lay a submarine telegraph from Galway to Quebec was talked of. Several gallant affairs had taken place in India, the British in all being successful. A large amount of wool from Australia was on the road to England. Spain was prepared to act against Mexico. London money market unchanged. Consols for money 98 a 98 1/2, for account 98 1/2 a 98 1/2.

FEVERS. Fever, like every other form of disease which the human form is liable, is caused by impure humors. This being caused by the more rapid action of the blood struggling with nature, in endeavoring, to cast out of the body the corrupt matter which is the cause of the fever. Hence, the good and bad humors are at war with each other, and the commotion which follows causes fever and heat. The symptoms of fever are various; causing heaviness, languid, difficult breathing, eyes dull and heavy, anxiety, sighing and yawning, alternate fits of heat and cold. After which the patient complains of pains in the head and back, heat of the stomach, and sometimes vomiting bilious matter. Dr. Morse's Indian Root Pills are acknowledged to be a strengthening and delightful medicine for all kinds of fevers. They not only cleanse the stomach and bowels from bilious matter, but they open the excretory vessels, causing them to pour copious effusions from the blood into the bowels, after which the corrupt matter is thrown out by the natural passage of the body. All that is required, in urgent cases of fever, will be to take large doses. In order to have them operate thoroughly by the bowels, take from three to five, eight and morning, until the fever entirely ceases. After which, from two to four every evening, until well, and you will be convinced that this is the best way to check fever, because they drive out all inflammation, and restore the body to a state of sound health. And the blood and other fluids will be so thoroughly purified that disease, in form, will be utterly impossible.

Dr. Morse's Indian Root Pills are sold by all dealers in Medicines. R. & G. A. WRIGHT'S FRANGEPANNI OR THE FERNAL PERFUME. FRANGEPANNI EXTRACT, FRANGEPANNI POMADE. Do. SOAP. Do. SACRET. CORPORATION OF THE TOWNSHIP OF INVERNESS, COUNTY OF MEGANTIC.

A SPECIAL SESSION OF THE MUNICIPAL COUNCIL OF THE TOWNSHIP OF INVERNESS, in the County of MEGANTIC, duly convened by special notice given to all the members of the said Council, by the Mayor of the said Council, and held in the said Township of Inverness, at the usual place of meeting of the said Council, on MONDAY, the EIGHTH day of NOVEMBER, in the year of our Lord 1858, at Ten o'clock in the Forenoon, in conformity to the provisions of "The Lower Canada Municipal and Road Act, 1855," at which Session are present: NEIL BRODIE, JOHN KEOLE, JOSEPH ROCKINGHAM, SAMUEL JAMIESON, WILLIAM DEMPSEY, DUNCAN MCGILLIVRAY, and THOMAS LLOYD.

Members of the said Council, and forming a quorum thereof, the said NEIL BRODIE presiding as Mayor. The said Council doth hereby ordain and make the following By-Law; to wit:— BY-LAW, Authorising a Loan of Money, on the credit of the Lower Canada Municipal Loan Fund, established by the Act 15th Victoria, Cap. xiii.

That a sum of Ten Thousand Pounds currency, (£10,000), or Forty Thousand Dollars, (\$40,000), be borrowed from the Government of this Province, by virtue of, and under the authority of, an Act passed in the Sixteenth Year of the Reign of Her Majesty Queen Victoria, Chapter Twenty-two, intitled, "An Act to establish a Consolidated Municipal Loan Fund for Upper Canada," and of another Act passed in the Eighteenth year of the Reign of Her Majesty Queen Victoria, Chapter Thirteen, intitled, "An Act to extend and amend the Act to establish a Consolidated Municipal Loan Fund for Upper Canada, by applying the same to Lower Canada and for other purposes;" which said sum of Ten Thousand Pounds, or Forty Thousand Dollars, does not exceed twenty per cent. on the aggregate valuation of the property in the said Municipality, ascertained by this By-Law, according to the last valuation or Assessment Roll thereof; That the said sum shall be borrowed for a term of Thirty years, and shall be applied in the manner following:—

- 1.—To the repair of the Highway known as the Gosford Road, within the Township and Municipality of Inverness, and widening the said Road to the breadth required by law, and covering it with a bed of gravel or broken stone. 2.—Opening and completing a Highway on the South-East side of the River Thames, within the said Township of Inverness. 3.—Building and constructing a Bridge over the River Thames, on the concession Road known as the Dublin Range, in the said Township of Inverness. 4.—Building and constructing a Bridge over the River Thames, on the concession Road running between the Eighth and Ninth Ranges of the said Township of Inverness. 5.—Building and constructing another Bridge over the River Thames, on the concession Road between the Fourth and Fifth Ranges of the said Township of Inverness. 6.—Building and erecting a Town Hall at the place called the Cross Roads, near the Presbyterian Church, in the said Township of Inverness. 7.—Repairing the front or Concession Roads on the First, Second, Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth, Eleventh Ranges of lots in the said Township of Inverness, and of the Range known as the Craig's Road Range of the said Township of Inverness, and giving them the breadth required by law. NEIL BRODIE, Mayor of Inverness.

(Attested.) DUGALD CAMPBELL, Secretary-Treasurer of said Council.

I do hereby certify that the foregoing By-Law is a true copy of a By-Law which will be taken into consideration by the Municipal Council of the Township of Inverness after the expiration of one month from the first publication of said By-Law, to be made and dated the Fifth day of November, One Thousand Eight Hundred and Fifty-Eight, in the newspaper "The Quebec Gazette," and in the newspaper "Le Canadian," being newspapers published in the place nearest to the said Township of Inverness, in which there is no newspaper published; and that on FRIDAY, the TENTH day of DECEMBER, One Thousand Eight Hundred and Fifty-Eight, at Ten o'clock in the forenoon, a MEETING of the qualified Municipal Electors of the said Township of Inverness will be held at the place known as the CROSS ROADS, near the Presbyterian Church, in the said Township, to take into consideration the said By-Law, and to approve or disapprove the same.

BUFFALO ROBES, Wholesale and Retail! JUST RECEIVED AND FOR SALE BY THE UNDERMEND. 20 BALES OF HUDSON'S BAY BUFFALO ROBES, of this year's importation, in lots to suit purchasers. CHARLES BRODIE, St. Peter Street, Quebec, 1st Nov., 1857.

THE LIVER INVIGORATOR! PREPARED BY DR. SANFORD. Compounded entirely from GUMS! IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. It acts as a Cathartic, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter; thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it. It not only acts in a moderate dose, but will strengthen and build it up with unusual rapidity.

The LIVER is one of the most important organs of the human body, and when it is diseased, the system is almost entirely dependent on its healthy action. It is the source of the bile, which is the basis of the stomach's food, and the whole system suffers in consequence. The Liver is also the seat of the gall, which is the basis of the bile, and the whole system suffers in consequence.
