

Both British And French Troops Advance

GERMANS FAIL TO STAY PROGRESS CONTINUOUS PRESSURE ON ENEMY MORE TOWNS AND PRISONERS TAKEN.

Leaders Looking for Great Events—Enemy Shows No Signs of Being Able to Rally—Prisoners Talk of Von Mackensen Coming to Rescue—British Now Well Beyond Drocourt-Queant Line.

LONDON, Sept. 4.—In their push beyond the Drocourt-Queant line British troops have reached the line of the Canal du Nord, says Field Marshal Haig's official statement today. North of the Arras-Cambrai road they have occupied the town of Ecourt-St. Quentin.

North of Peronne the advance has carried the British through the Vaux Woods, above Moislans. Slight advances have been scored at other points.

Continuing their advance in Flanders the British are approaching Neuve Chapelle and Laventy. In the same region they have gained possession of Sailly-Sur-La-Lys and Nieppe.

The statement follows: "On the battlefield, minor actions are reported in different locations. We have reached the east side of the Vaux Woods north of Moislans and have advanced slightly at other points."

"Generally our troops have reached the line of the Canal du Nord, and north of the Arras-Cambrai road have occupied Ecourt-St. Quentin."

"In the Lys sector, further progress was made by us yesterday and last night both south and north of the river. Our troops are approaching Neuve Chapelle."

FRENCH TROOPS CONTINUE TO ADVANCE.

(Canadian Press Despatch)

PARIS, Sept. 4.—French troops yesterday and last night continued to push back the Germans to the east of the Canal du Nord and between the Ailette and the Aisne, says today's War Office statement.

North of the Ailette the French reached the outskirts of Coucy-Le-Chateau and Juvencourt, and south of the river they drove further east from Leuilly and attained the suburbs of Clamency and Braye.

On the Aisne the town of Bucy-Le-Long was penetrated. Prisoners to the number of 1,500 were taken.

Along the Vesle, parties of French troops crossed the river at several points.

In their advance the French took the Capitre Wood, northeast of Chavilly and approached the town of Crisolles, three miles north of Noyon.

DECISIVE RESULTS ANTICIPATED.

(Canadian Press Despatch from Reuter's Limited)

LONDON, Sept. 4.—Paris papers print the following semi-official statement:

"The hour seems close at hand when the superb efforts of the Allies will begin to bear fruit," one of our great chiefs said yesterday. "We are on the last lap and close to the winning post."

EASTERN TOWNSHIPS MEN ON CASUALTY LIST

MOUNTED RIFLES.

Wounded.

The following Quebec and Eastern Townships names are included:

L. K. Keene, Fitch Bay, Que.; T. Bedard, 245 Chateaugay St., Quebec, Que.; F. Gauthier, Granby, Que. Gassed.

R. Fowler, 38 Lachevrotiere St., Quebec, Que.

SERGT. BYHAM WOUNDED.

The names of Eastern Townships boys are figuring quite prominently in the casualty lists of late, which clearly demonstrates that the brave lads from this district are playing a big part in the victories of the Allies over the Huns. Mrs. Albert Byham, Belvidere street, yesterday received an official telegram from Ottawa informing her that her husband, Sergt. Byham, had been wounded. The statement said that Sergt. Byham was suffering from a gunshot wound in the foot and that he had been admitted to No. 2 Australian General Hospital, Wimereux, on August 27. Sergt. Byham enlisted with the 117th Battalion, but was later transferred to the 8th Mounted Rifles. He has been on active service "over there" for some time.

LIEUT. ROBINS, M. C., M., ON LIST

Mr. R. N. Robins, High street, received a private cable advice yesterday stating that his son, Lieut. Norris W. Robins, M. C., M., had been wounded in the neck, not very seriously. Lieut. Robins, who went to France in the summer of 1915, with a regiment from Montreal, under Col. Gunn, was wounded at Passchendaele in the offensive last fall, and spent the winter in England. He rejoined his battalion, of which he is signal officer, early this spring.

WOUNDED IN BOTH ARMS.

Mrs. James Cagney, of 10 Stanley avenue, has received an official message from Ottawa, informing her that her son, Pte. Ralph T. H. Washburn, of the 5th Canadian Mounted Rifles, has been admitted to No. 4 General Hospital, Dannes Camilla, suffering from gunshot wounds in both arms.

HENDERSON VALE BOY KILLED

The following telegram was received Saturday, August 31st, by Mr. and Mrs. Albert E. Little, of Henderson Vale:

"Deeply regret to inform you 748-732 Corp. Roy Foster Little, infantry, officially reported killed in action on August 8th, 1918."

The sympathy of the whole community goes out to Mr. and Mrs. Albert E. Little and family, also the aged grandparents, Mr. and Mrs. H. Little, in the death of their son, Roy, who gave his life for King and Country at the age of 21 years. He enlisted with the 117th Battalion, and went overseas August 12th, 1916.

CANADIAN CASUALTIES

(Canadian Press Despatch)

OTTAWA, Ont., Sept. 4.—There were 128 casualties in today's list, of which 13 were killed in action, six died of wounds, one reported killed by Germans, one accidentally killed, eight ill, one missing, 53 wounded, and 45 gassed.

BRITISH CROSS CANAL DU NORD TODAY

Afternoon Despatches Tell of Further Advance of Victorious British Troops.

(Canadian Press Despatch)

LONDON, Sept. 4, 1 p.m.—The British have secured a hold on the west bank of the Canal du Nord by taking Ramaucourt, to the north of Sains-Les-Marquais, according to advices from the battlefield today.

Further south along the canal the British are reported to have captured Inchy-En-Artois, Domicourt, to the east of Doignies and Hermies, three miles northeast of Bertincourt.

Near the Somme the British, the advices state, have crossed the canal of Haut-Allaines, slightly more than two miles north of Peronne.

From Hermies southward the British line is indicated as running to the west of Ruyaulcourt, a mile and a half east of Bertincourt.

Midway between Nieppe and Sailly, in the Lys salient, the British have captured the village of Croix-Du-Bat.

LENS NOT YET WHOLLY CAPTURED

(Canadian Press Despatch)

LONDON, Sept. 4.—Information from the front today is that the coal-mining city of Lens is still mainly in German possession. British patrols, however, are reported to be in the western portion of the town.

There were widespread reports yesterday that Lens had been evacuated by the Germans and occupied by the British. These reports emanated from an authoritative source in London and were generally accepted as correct until the receipt of last night's British communication, which failed to confirm them.

AMERICANS FIGHT MACHINE GUNS

(Canadian Press Despatch)

LONDON, Sept. 4.—The clearing of machine gun nests around Torny-Sorny is being continued by the Americans, despite the stubborn opposition of German patrols, says the Daily Mail's correspondent in a despatch from the Headquarters of the American Army in France.

DAY'S NEWS OF SITUATION IN RUSSIA

Soviet Forces in Difficult Position—Siberia Being Cleared by Allies.

(Canadian Press Despatch)

AMSTERDAM, Sept. 4.—Soviet troops advancing in the direction of Ufa, Perm and Saratov are in a difficult position, owing to a sudden rising of the peasants, according to a Moscow despatch to the Berlin Kreuz Zeitung. The peasants are threatening the Soviet forces from the rear.

Measures are being taken, it is stated, to suppress the revolt.

CANADA'S FORCE FOR SIBERIA

PROGRESS BEING MADE IN ORGANIZATION OF EXPEDITIONARY ARMY.

(Canadian Press Despatch)

OTTAWA, Ont., Sept. 4.—The organization of the force to be raised in Canada for service in Siberia is making satisfactory progress, according to an official statement. Of the two infantry battalions which will go towards making up the force, one is being raised in the Province of Ontario and Quebec, with component companies, one at London and Kingston, one at Toronto, one at Montreal, and one at Quebec city.

Another battalion is being raised in the Maritime Provinces and out West. The component companies for the Maritime Provinces will be at Halifax and St. John.

Canadians Won Imperishable Fame

(Canadian Press Despatch)

LONDON, Sept. 4.—Warm tributes are paid the Canadians in newspaper comment today. The Times says:

"The Canadians won imperishable fame by making a breach in the Drocourt-Queant line. This is the bare record of what was done by men from overseas. They would be quick to resent the odiousness of comparisons, but we in this country have a special reason to observe the doings of Dominion troops and there has been abundant material in this battle."

The Daily News says:

"The piercing of the switch line promises a new chapter in the war. The 'impregnability' of the Hindenburg defences has been shattered again by the Canadians and that disturbing truth must have a profound effect on Ludendorff's strategy."

The Daily Mail says:

"One of the greatest feats of the war has been performed by Canadian and English troops. The loss of this vast system of fortresses may involve the evacuation of the French coal fields, and perhaps even the Flanders coast."

The Daily Graphic says:

"The victory was chiefly, it seems, the work of the Canadians, who, despite many proofs of dauntless valor, never proved so irresistible as in smashing the switch."

RETIRING FOE BADLY CUT UP BY ALLIED GUNS

General Line is Sent Forward Steadily and Many Villages Have Been Taken By Canadians and the British.

NEW YORK, Sept. 4.—The Associated Press issues the following:

From Flanders to Soissons the British, French and American forces are keeping up without cessation their strong offensive tactics against the Germans, who all along the battlefield are still giving ground, although at certain points not without strong resistance. Seemingly it is the full realization of the peril he is in that now is prompting the enemy to put forth his every effort to avert complete disaster.

Additional areas of territory which long had been held by the enemy have been restored; many thousands of Germans have been sent behind the lines to swell the great throng already there in prison camps, and many of the enemy's dead lying upon the battlefield testify to his heavy casualties.

Retreating columns of the Germans have been cut to pieces by the British artillery from captured vantage points before which the enemy was compelled to pass unsheltered from the fire of the British gunners.

A General Advance.

From the region around Arras southward to Peronne, the British line has moved forward everywhere since the famous Drocourt-Queant defence line was overwhelmed and left in the rear. Eastward of the Drocourt line the British now are near the Canal de la Senese and Douai.

Valenciennes and Cambrai have been further encroached upon by English, Canadian and Australian troops. East of Peronne the British line has been steadily pushed forward. Numerous towns and villages have fallen into the hands of Field-Marshal Haig's men, notably among them Queant, at the southern end of the Drocourt-Queant line.

Giving Huns No Rest.

To the south the French along the Canal du Nord are giving the enemy no rest and gradually are blotting out the remaining portion of the salient north of Noyon, while on the Soissons sector the French and Americans now are in control of the entire plateau dominating the Aisne, the Chemin-des-Dames and the roads to Laon and La Fere.

In Flanders the British have penetrated the outskirts of Lens, the famous coal mining city in northern France, and farther north in the Lys salient have taken Richebourg and St. Vaast and established themselves on the line of La Bassée road and between there and Estaires, having captured the last named place. Steenwerck and Wulverchem also are in British hands, and thus the great salient is virtually wiped out.

CROPS GOOD IN ONTARIO.

(Canadian Press Despatch)

TORONTO, Ont., Sept. 4.—Actual threshing returns show even heavier grain yields in Ontario than were at first estimated, according to this week's report of the Ontario Department of Agriculture.

MANY ACCOUNTS PASSED BY THE CITY COUNCIL

Meeting Was Very Quiet and Very Brief—Report Made By Superintendent McKeon on the Water.

It was a real quiet and brief family gathering which the City Council held last evening. There was no excitement furnished in the way of arguments, practically the whole time of the meeting being taken up in passing bills, paid, accounts, etc. In regard to passing accounts, the Council completed a very fair evening's work, for during the session bills to the amount of \$182,942.37 were authorized to be paid. The Gas and Electric Department had a total of \$171,938.82 in accounts, the largest amount by far of any one department. However, Ald. Edwards explained that this total covered a period of four months, and he voiced his opinion that in future efforts should be made to have the accounts statement made up monthly. This was the unanimous opinion of the Council, and Ald. Fortier also requested that a detailed statement of the distribution of money spent by the Gas and Electric Department be furnished at the next meeting of the Council the first Monday in October. The accounts passed during the course of the meeting last night are as follows:

Gas and Electric	\$171,938.82
Fire Department	6,480.82
Police Department	2,336.59
For City's Poor	931.99
Civic Hospital	275.00
Health Department	633.45
City Hall	69.22
Parks and Real Estate	62.20
Market Department	214.33

Total \$182,942.37
The above accounts included improvements, purchases and salaries. It was decided by the Council to make a number of improvements to the Civic Hospital to the amount of \$275, and this was included in the accounts which were passed last night. The total credited to the City's Poor is chiefly an investment in wood, etc., which might be needed during the cold winter months.

Chairman Fortier, in submitting the report of the Finance Committee, stated that the total collections for the past months from the courts amounted to the sum of \$9,041.05. Ald. Edwards asked regarding the progress being made in the collection of arrears in taxes, and the Secretary-Treasurer replied that this work had been going on very satisfactorily and that at the present time the outstanding amount was not very large.

The Water Report.

Superintendent Edward McKeon, of the Waterworks, made his monthly report to the Council. During the past month 683 feet of 16-inch water main has been laid on the C.P.R. property from King street going south to a point near the old C.P.R. depot, and the old 16-inch main on the Brown and Codere property taken out, at a cost of \$5,291.62. Three hundred feet of 6-inch water main and 300 feet of 12-inch sewer pipes have been laid on St. Michael street, also one hydrant, at a cost of \$1,167.82. Two hundred feet of 8-inch gas main has been laid on Galt St. and several gas services put in, as well as eight new water services. The department is now laying 425 feet of sewer and water mains on (Continued on page 8.)

SECOND DAY OF BROME COUNTY FAIR

Dull Weather But Crowds Coming in—Big Last Day Tomorrow—Excellent Exhibits.

BROME, Sept. 4.—(Special)—The second day of Brome Fair is somewhat affected by dull weather. Rain fell during the night but, this morning, on signs of clearing up, people began to arrive in numbers. Prospects point to a good attendance and, if tomorrow is fine, a very big last day is predicted.

Judging in the horticultural departments was finished yesterday, and will proceed today in the cattle, horse and other departments.

The exhibits are good. A little falling off in some of the cattle sections is noticed and is attributed to the handicap of farmers in the matter of help.

Brome Fair, on the whole, is well up to the standard of former years. There are the usual midway attractions.

TO RECORD SUBSCRIBERS IN BROME COUNTY

Owing to illness, Mr. E. G. Pierce, circulation manager of the Record, is unable to attend the Brome Fair. Many subscribers have been accustomed to hand him their subscriptions at the fair. He extends to them his greetings, and asks them to kindly forward their orders for the Record direct under the circumstances.

LENINE'S CONDITION IS CRITICAL

(Canadian Press Despatch)

LONDON, Sept. 4.—The condition of Nikolai Lenin, the Bolshevik Premier, on whose life an attempt was made last Friday, has become highly critical, according to a despatch from Moscow to the Central News Agency. The crisis is expected within three days. Surgeons have removed a bullet from Lenin's body.

THE WEATHER

FAIR AND COOL.

The shallow disturbance which was over the Lake region yesterday morning has moved eastward to the Gulf of St. Lawrence, causing showers in Eastern Ontario and Quebec. In the Western Provinces the weather has been fair and cool.

Fresh north and northeast winds, mostly fair and cool today and on Thursday.

AYER'S CLIFF FAIR IS NOW IN FULL SWING

All Was Hustle and Bustle Yesterday Making Final Preparations—Exhibits are Quite Up to the Standard.

(Special Staff Correspondence)

AYER'S CLIFF, Sept. 4.—Ayer's Cliff was a busy place yesterday with the hustle and bustle of getting every department on the Fair Grounds in full swing for the opening day of the 73rd Annual Exhibition of the Stansstead County Agricultural Society and the eighth annual exhibition of the Horticultural Society. The entries, which in some cases are the largest in the history of the oldest Fair in the Eastern Townships, were placed in good time, and it was evident that the stress of the times had not kept the farmers from doing their best to make the Fair of 1918 a huge success.

The cattle department, especially in milk and beef grades, is the largest in several years. Breeders who have a fine showing are Messrs. W. E. Hunt, C. W. Morse, A. E. Curtis, C. W. Moulton, A. L. Hodges, Monroe & MacKay, of Blinkbonnie Farm, in Shorthorn Durhams; Messrs. J. F. Woodman, L. H. Parker, H. Murray, C. E. Rose in Holsteins, this exhibit including Mr. Parker's "92-pound cow." Messrs. Geo. C. Poole, Dr. J. C. Colby, Mrs. Mary LeBaron, L. H. Ourett in Jerseys; R. H. Libby, E. C. Standish in Brown Swiss; Mr. E. A. Hodges in Registered Canadians; Messrs. B. J. Taylor, C. A. Brown, Hy. Styan and Sons, in Ayrshires. The greater part of the last named breed come from Brown's Hill and west of Ayer's Cliff.

Sheep and Swine. That the great necessity of increased sheep raising is being seriously considered by the Eastern Townships farmers is shown by the large exhibits in this section. Both sheep and swine are shown in larger numbers than at former fairs. Cheviots, a grade of sheep that is being brought to the fore, are being shown by Mr. R. H. Libby; Oxford Downs by Little Bros., A. L. Hodges, A. E. Curtis and G. L. Temple; Registered Hampshire Downs by R. H. Libby, Dr. J. C. Colby and J. A. Peaseley; Registered Shropshires by Messrs. C. P. Young, A. E. Parkhill and W. E. Hunt. There is a long list of entries in grades and crosses in the Royal Bank specials, and Dr. J. C. Colby and Wool Growers Association prizes. The exhibit of swine quite exceeded the expectations of the directors in charge, every available place being filled and several cattle and horse stalls being converted into quarters for the exhibits in the Canadian Bank of Commerce special for best type of bacon hog and sow. Mr. A. E. Hurd's special prize for the best brood sow and six or more pigs drew an exceptionally large entry, and several families are comfortably established in the enlarged space, and make one of the keenest competitions (Continued on page 5)

HOG PRODUCTION

It is a matter of the greatest importance that Canada should increase her production of BACON HOGS and other live stock as there is at present a world-wide shortage of meat. Good markets for some time to come are assured.

THE CANADIAN BANK OF COMMERCE
will gladly make loans to assist farmers in good standing to acquire live stock.

Teach the Children to Save

Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.

The easiest way to teach children to save, is to start a Savings Account for each child (\$1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.

HATLEY

The Hatley group of the Canadian Red Cross Society have lately shipped to headquarters in Montreal the following articles: 48 face cloths, 75 many tail bandages, 28 T bandages, 10 pillow cases, 35 pairs socks, 15 towels. To the Daughters of the Empire: 34 pairs socks, 6 pairs Highland socks, 5 sleeveless sweaters, 1 flannel shirt.

The fortnightly meeting of the Guild of St. James' was held at the Parish Hall on Tuesday instead of the usual Wednesday afternoon, and was fairly well attended, considering the counter-attraction presented by the Sherbrooke Fair. At the close a basket tea was served to the members and friends, gentlemen being specially invited for the tea hour.

On account of the annual county fair at Ayer's Cliff, the Ladies' Aid have postponed their fortnightly meeting until Wednesday afternoon, Sept. 18.

The young man, Arthur Plouffe, who was drowned while bathing in the Magog river at Sherbrooke a few weeks ago, was a nephew of Mr. Edward Perrault and nephew by marriage of Mrs. M. Dezan, for many years residents of this place.

On account of the accident on the B. & M. road between North Hatley and Massawippi, when the 6 o'clock train was derailed, Miss Jessie Davidson, of the Hatley Model School, and Mrs. M. Dezan, of this place, were obliged to walk the remaining distance to Massawippi station, the former being afterwards conveyed by motor to Ayer's Cliff and the latter to her home here.

An interesting event recently took place at the home of Mr. and Mrs. L. H. Sunlight does it

You who always dread wash day—because of the hours of weary, wash-board rubbing, the damp steamy air, with perhaps your skirt and shoes splashed and soaked—just forget all that. Come into the case and comfort of a Sunlight Wash Day.

Sunlight Soap will do the washing you can go out calling or shopping. Read the directions.

Preferred to Metal Pulleys

We guarantee immediate shipment of all orders for Dodge Wood-Split Pulleys from four inches up to six feet in diameter. There is no telling how long you may have to wait for metal pulleys. The United States Government won't allow steel to be released for their manufacture except for war orders.

Dodge Wood-Split Pulleys cost less to buy than metal pulleys, yet provide fifty per cent. greater return in horsepower value, because their surfaces provide greater adhesion; consequently there is less belt slip; and, because, being lighter and better balanced, there is less weight friction.

CONSTANT PAIN
AFTER EATINGThe Tortures of Dyspepsia
Corrected by "Fruit-a-lives"

ST. MARTIN'S, N.B.
"For two years, I suffered tortures from Severe Dyspepsia. I had constant pains after eating; pains down the sides and back; and horrible bitter stuff often came up in my mouth.
I tried doctors, but they did not help me. But as soon as I started taking 'Fruit-a-lives', I began to improve and this medicine, made of fruit juices, relieved me when everything else failed."

WILL UNVEIL TABLET IN MEMORY OF LATE CAPTAIN MILLER.

There will be a special service in Plymouth Church on Thursday afternoon at 4 o'clock, when a tablet in memory of the late Captain Howard B. Miller, who made the supreme sacrifice on November 18, 1917, will be unveiled. This tablet is being placed by his bereaved widow and parents, who will be present at the service.

It will be remembered that Captain Miller enlisted with the 35th Battery, which was recruited here three years ago. Subsequently he was transferred to the 30th Battery, 8th Howitzer Brigade. Previous to answering the call to the great duty of the hour he was the secretary-treasurer of the E.T.A.A. The service tomorrow will be of a simple character and will include a short address by the Rev. G. Ellery Read. The many friends of the brave soldier and his family will doubtless take this opportunity of showing their sympathy with the bereaved by attending this service.

STATUE WAS BLESSED.

A very interesting and solemn religious ceremony took place Sunday afternoon at the Hospice of the Sacred Heart, Belvidere street, when a statue, just erected by the Sacred Heart, was consecrated by Mgr. Paul Larocque.

The orphan children taken care of by the institution, both boys and girls, were all assembled on the terrace, together with the Rev. Superior, and the Sisters, and a large gathering of citizens. Towards 3 o'clock Mgr. Larocque descended the steps of the great building, which was tastefully decorated for the occasion, attended by the chancellor of the Palace, the Rev. Abbe Couture, Rev. H. A. Simard, other members of the clergy, and Redemptionist fathers, and a hymn to the Sacred Heart was sung by the children. The statue was then blessed by the Bishop, and an address was made by Rev. Mr. Simard, who dwelt upon the love and honor due to the blessed Jesus, who loved little children. Benediction of the Blessed Sacrament followed, the boys who were in souave dress, and carried a flag, forming a guard of honor throughout the ceremony.

A few words were said by Mgr. Larocque, and flowers were laid at the foot of the statue, which is of granite, six feet in height, and represents the gracious figure of the Saviour.

The carrying was done in Montreal by an expert and the statue is a striking object on the green expanse of the Hospice grounds.

Paints, Enamels, Varnishes and Wall Paper

Keep the home in a condition of respectability. It is not conserving resources to let painting and papering go until "after the war." Good paint costs less than depreciation due to lack of care.

A building that is well cared for is always worth more than if it was poorly kept. You are really conserving the value of your property by keeping them in the best condition.

Our stocks of Sherwin-Williams Paints, Enamels, Varnishes and Wall Papers is very complete.

SOX STRONGER IN THE OUTFIELD THAN THE CUBS

Hooper, Strunk and Ruth Better
Than Paskert, Mann and Flack
—Hooper the Star of All Out-
fielders.

If the Chicago Cubs are stronger than the Boston Red Sox as regards the infield departments of the team, the difference is easily made up when comparing the outfielders. Here the Red Sox have the advantage. And that in spite of the fact that Amos Strunk, a natural .300 hitter, has only batted .249 this season.

The four outfielders that the Cubs will use in the big series are Paskert, Mann, Flack and Barber. The Red Sox will oppose them with Hooper, Ruth, Strunk and Whitman.

Just glancing at the names of these players, the average fan would without hesitation pick the Red Sox outfield as the stronger. Strunk, Hooper and Ruth, he would say, outclass Paskert, Mann and Flack. Barber and Whitman do not figure much.

Strange to say, however, on the season's figures, particularly at the bat, there is little to choose between the two sets of outfielders. Paskert hit .238, Mann .288, Flack .249 and Barber .250, for a grand aggregate of .272. Ruth's record for the season is .304, Hooper's .286, Strunk's .249, and Whitman's .251, for an average of .267. These are the figures on practically a season's play. Of course they do not tell the whole story.

Ruth is Heaviest Hitter. For instance, Ruth is the most dangerous batter of the eight in a short series, that is, the greatest natural hitter. But Ruth, who bats left-handed, is going to face Tyler and Vaughn, two great southpaws, which may slow him up a bit.

Ruth will play left field for Boston, that is, except when he is pitching. He will hardly pitch more than one game in the series.

The Cubs will have Leslie Mann in left field. Mann is not Ruth's equal as a hitter, but he is a better fielder and a faster base runner. However, Boston must be given the edge in left field.

Paskert Better Than Strunk. In centre the Red Sox will have Amos Strunk. The Cubs will oppose him with Dode Paskert, the former Philly.

Both of these players are extremely fast. Both are wonderful ground coverers. Of the two, Paskert is the more steady, and Strunk the more brilliant.

Normally, Strunk is the best hitter. But the big games will be won and lost by the performances of players as they are now, and not as they were last year or five years ago. In centre Paskert appears to be a trifle better than Strunk.

Great is Harry Hooper. In right field the pendulum swings over strongly to the side of the Boston club. Harry Hooper outclasses Flack, of the Cubs, in every way. In fact, Hooper is the best outfielder on either club.

Hooper is a star of the first magnitude. He is a veteran of world series play. He kept the Giants from beating the Red Sox six years ago. He was largely instrumental in winning the world series for Boston in 1915 has hit .286. This is over 25 points and 1916.

Hooper has had a splendid year. He better than Flack's average, and Hooper is more than 35 points better than Flack with the bat.

In fielding the Red Sox player is just as far ahead of his rival. He is a master at playing for batters. Flack appears just an ordinary big league outfielder.

Between the two utility outfielders, Whitman and Barber, there is little to choose. Whitman has had more experience and is apt to play more than Barber. He will be in left field when Ruth pitches.

MARRIAGES

Dalton-Fallona

A very pretty wedding took place at St. Bibiane Church, Richmond, on August 28th, when Margaret M., eldest daughter of Mr. and Mrs. P. Fallon was united in marriage to Mr. Thos. J. Dalton, of St. Mary's. The bride, who was given away by her father, looked charming in her gown of white crepe de chene with the customary veil and orange blossoms. She carried a shower bouquet of pink and white sweet peas and ferns. The groom was supported by his father, Mr. M. Dalton, of St. Mary's. After the ceremony the happy couple went to the home of the bride's parents, where a reception was held. After receiving the congratulations and good wishes of their many friends the bride and groom led the way to the dining-room, where a dainty lunch was served to over sixty guests. The dining room was decorated with bunting and flags and cut flowers. Games of different kinds was the chief amusement of the afternoon. In the evening the young people gathered from far and near, and dancing was indulged in until midnight, when refreshments were served, after which dancing was resumed and kept up until the wee sma' hours of the morning.

The presents were numerous and costly, including silver, cut glass and china, also several substantial cheques, showing the high esteem in which the young couple are held. After a brief honeymoon trip Mr. and Mrs. Walton will take up their residence in St. Mary's.

WILCOX REPUBLICAN CANDIDATE IN WILWAUKEE.

MILWAUKEE, Wis., Sept. 4.—On the face of returns from about one-half of the state early today, Senator R. P. Wilcox has defeated Governor E. L. Philipp for the Republican gubernatorial nomination in the primary election held yesterday.

DE LAVAL CHAPTER HELD THEIR REGULAR MEETING YESTERDAY

Arrangements Made to Receive
Madame Dumas Lavolette, of
Montreal, Who is to Pay a Visit
Here.

A visit from Madame Dumas Lavolette, of Montreal, is contemplated with great pleasure by the De Laval Chapter, I.O.D.E., which held its regular meeting yesterday in the officers' mess rooms.

Madame Dumas Lavolette is a most patriotic French woman and few have suffered more, her two sons having given up their lives at the front. Both were decorated for bravery and gallant conduct, and she herself has been awarded a decoration for her splendid work and sacrifices.

Madame Dumas Lavolette is expected in Sherbrooke about the middle of the month, and what she may have to tell will be of deep interest. Mrs. G. L. DeLottinville, second vice-regent, presided at the meeting, which opened with the usual ceremonies, and the minutes were read by the secretary and confirmed. Mrs. Poirte, the treasurer, reported that \$175, the proceeds of the garden party, had been sent to the French Red Cross, and that a small balance remained on hand in the treasury.

It was announced that the firm of Desselets & Dufour has donated a fine Victrola, to be raffled for the benefit of the chapter, and Cummings & Co., of Montreal, a valuable fur stole for the same purpose.

Arrangements were made for the entertainment of Madame Dumas Lavolette, and other matters of interest discussed, the meeting closing with the National Anthem.

BIG CROWD AT FIRST GAME OF WORLD SERIES

Baseball Classic Will Get Under
Way This Afternoon at Chicago
if Weather Man Permits.

(Associated Press Despatch)

CHICAGO, ILL., Sept. 4.—Capacity crowds seemed probable at the first of the World's Series baseball games set for today between the Boston Americans and the Chicago Nationals, at the American League grounds. Although the demand for reservations has not come anywhere near that of recent years, nevertheless Manager Craighead, of the Chicago Club, said interest in the outcome of the World's Series is general. He said this was indicated by the number of baseball writers from all sections of the country who were on hand for the contests. The space required for these visitors was about equal to that of preceding years, he asserted, although there are fewer telegraph operators on account of the Government control of the wires.

While tickets found their way into the hands of scalpers, to some extent, the chances for their reaping a harvest were reported to have been reduced to a minimum. Confusion has seemed to exist in the minds of some baseball enthusiasts as to the rules governing the series.

Rain Falling This Morning.

Rain, which began falling shortly before eight o'clock today, threatened to cause a postponement of the first game of the World's Series baseball. Precautions were taken to protect the diamond, and it was said the game would be played unless the rain continued into the afternoon.

BASEBALL RESULTS.

ALLIES CLEARING UP SIBERIA.

(Associated Press Despatch)

LONDON, Sept. 4.—According to the Daily Mail's Harbin correspondent the allied forces have established uninterrupted connection between their forces across Siberia from the Volga to Vladivostok.

The despatch, which is dated Monday evening, says the vanguard of the Czech-Slovak forces from Verkh-Udinsk, eighty miles east of Lake Baikal have joined hands with General Semenov's forces on the Onon River, and General Dietrichs, the Czech commander at Vladivostok, already is in telegraphic communication with the trans-Baikal Czechs.

"From Pensa to Vladivostok on the Volga, the correspondent adds, 'there is now an uninterrupted chain of allied troops.'"

WHAT IS DOING IN GRANBY CITY

Labor day passed off very quietly in this city, the only excitement being a baseball match played on the G. A. A. grounds between a team from Sorel and the home team, which resulted in a victory for Granby by 8 to 2.

A great many people went out of town, motor parties being the order of the day.

During the months of July and August the congregations of the Methodist and Congregational churches have held union services. During July the services were held in the Methodist church, Rev. A. J. H. Strike being the preacher, while Rev. A. F. Pollock supplied a Toronto church. Through August the united congregations met in the Congregational church, Rev. Mr. Pollock preaching. During this period Rev. Mr. Strike supplied the united congregations of Douglas Methodist and Calvary Congregational in Montreal. The final union service was held on Sunday last and next Sunday separate services will be renewed in the respective churches.

Fire Did Considerable Damage.

On Friday afternoon fire broke out in a building on lower Main street, owned by Mr. Ephrem Racine and residence by Mr. Racine and tenants. Prompt action on the part of the fire brigade prevented the fire from reaching the bakery, but the residence portion was almost totally destroyed and Mr. Racine and tenants lost a considerable quantity of household and personal effects. The loss is between \$2,000 and \$3,000, partially covered by insurance. The cause of the fire is unknown.

Miss Eva Wallace, Red Cross nurse, who has been on duty at Fort Wright Military Camp, Fisher's Island, U. S. A., and who has been visiting her parents, Mr. and Mrs. George Wallace in town for a few days, received a telegram from Washington on Friday telling her to report at once for overseas service. Miss Wallace left early on Saturday morning for New York city, where she will receive further instructions.

Mrs. Oakley and two children, who have been spending the summer in Granby with Mrs. Gardner Bradford, have returned to their home in Brandon, Man.

Mr. and Mrs. Dexter Mitchell, who have been spending the past four months with their daughter, Mrs. W. Mock, Indian Head, Sask., have returned home.

Miss Darby, who has been spending the summer vacation with her parents here, returned to Knowlton on Saturday, where she will teach in the Academy this year.

Mrs. Hector Martin, of Montreal, spent Sunday with her parents, Mr. and Mrs. Dexter Mitchell.

Miss Mattie Keep spent Sunday with friends in Cowansville.

Mr. and Mrs. Charles Aitchison spent Labor Day in Montreal visiting friends.

Mrs. Longhurst, who has been spending the summer at North Hatley with her daughter, Mrs. Stewart Peterson, and family, has returned home.

Mr. Palmer Cox left on Monday morning for a few more days of fishing at Brom Lake before going back to New York City.

We are pleased to see Mayor P. E. Boivin out again after his serious accident recently sustained at the Elbow Web site.

Mrs. C. K. Stewart, who has been spending a few weeks with her mother, Mrs. A. W. Mitchell, has returned to her home in Renfrew, Ont.

Mr. E. A. Jackson, of Montreal, spent Sunday in town with his wife and family at the home of Mr. and Mrs. W. W. Miner.

Miss Helen Homer spent Sunday in Montreal with friends.

Mr. and Mrs. John Reeder left for their home in Boston, Mass., on Monday morning. They were accompanied by their niece, Miss Mabel Bradford, who will remain a month with them.

Miss Florence Bowker, who has been spending the summer with her parents, Mr. and Mrs. W. E. Bowker, returned to Montreal on Tuesday to resume her duties as teacher.

Mr. Herbert McCurdy, of the Royal Air Force, spent the week end with his parents, Dr. and Mrs. J. McCurdy.

Mrs. Wm. Giddings spent Labor Day in Montreal.

Mr. Pierce Gould spent Sunday with his parents at "Brownie Castle."

Miss Frances Pollock has resigned her position at the office of the Patriotic Association and will teach school this winter at Granby Hill.

Sergeant Campbell Kent was the guest of his aunt, Mrs. F. Lynch, last week. He went overseas three years ago, was wounded and returned home, but expects to return overseas shortly.

Mr. J. T. Farrah, who has been spending the past few weeks in town, has returned to his home in Winston, Salem, N. C.

Mr. and Mrs. H. E. Frye, of Sherbrooke, are the guests of Mrs. Frye's sister, Mrs. A. E. Solomon.

Mr. and Mrs. C. H. Bradford and little son, Howard, accompanied by Mrs. and Miss Wiggins, spent Labor Day at Potton Springs.

Miss Martha Wiggins, who has been spending the summer at her home here, returned on Tuesday to Montreal to resume her duties as teacher.

OVER THERE TO STAY.

The voyage was a bit rough and going across on the transport Sam got about all he wanted of life on the ocean wave. On arriving he was heard to remark: "It sho' takes some nerve to cross that Atlantic Ocean. If it don't freeze all over and a railroad ain't built across to mah home in Georgia, I's a European fo' de rest of mah life."

WHICH?

"Meekton's wife said she is never going to speak to him again."

"Was she angry or trying to be considerate?"

AYER'S CLIFF FAIR IS NOW IN FULL SWING

(Continued from page 1.)

The poultry exhibit is quite up to the standard. Messrs. H. M. Piercy, G. W. Paige, Dr. Stockwell and E. P. Ball having fine exhibits.

The exhibition of light horses is smaller than at former fairs, which shows that the time and thought of the farmers are taken up with the great food production problem, but in heavy grades some fine lines are shown.

An interesting section is the exhibit competing for the Canadian Bankers' Association special for best calves and pigs cared for by children under sixteen years, the large and close competition giving the judges some real hard thinking. The interest shown by the boys and girls in the annual fairs is a vital point in agricultural progress, and this exhibit is a credit to the society.

In the Main Hall, the Southern Canada Power Co., H. C. Wilson & Sons and Willis & Co. have good exhibits, and the remaining space is devoted to local exhibits. Maple sugar and syrup of excellent quality is shown, and the Stantead County Homemakers, representing the Three Villages, Way's Mills and Tomifolia Clubs, have a fine exhibit of canned fruits and vegetables, attractively arranged, and on the wall hangs a banner with the slogan, "Can All You Can." This exhibit is in charge of Mrs. T. G. Howard and Miss Brown.

The Ayer's Cliff Red Cross Society have a booth of plain and fancy articles, active service banners, etc., which are on sale during the fair. This is in charge of Mrs. L. Fish, who is also supervising the table of home-made mats and rugs, made from Red Cross scraps of cloth on hand looms. These were sent from Provincial Headquarters, Montreal, and the proceeds are to be used for returned wounded soldiers.

The Agricultural Exhibits.

The Agricultural Hall is well filled with displays of vegetables and fruit, one of the finest exhibits seen for years. One side of the hall is devoted to the Horticultural Society's exhibit, and includes Mr. H. A. Norton's display of flowers.

Canned goods of all kinds are also shown, and this is of special interest to lady visitors. Upstairs is an exhibit of fancy wools, quilts, rugs, etc., that is of the highest standard, and is in charge of Mrs. H. E. Baldwin and Mrs. Brown. The judge in this department is Mrs. Stephenson, of Montreal.

The machinery exhibits include Jos. Lacombe & Fils,

SHOULD CAREY LIGHTS.

In the enactment of laws and regulations governing traffic on the highways, the authorities seek to ensure public safety. If the drivers of motor vehicles would observe these rules, the safeguards, so far as motor travel is concerned, are probably sufficient. The law, however, does not seem to have quite covered the matter so far as horse-drawn vehicles are concerned. If such vehicles were required to carry lights at night, the danger of collision with autos would be lessened. Such protection is very much in the interest of the occupants of such vehicles, who must suffer in any accident. A horse-drawn vehicle often cannot be seen, especially in rounding a curve, until the car is almost upon it. If protected by a light, driving at night would be much safer.

SCHOOL BOOKS.

With the beginning of school, the school book problem recurs, and those who have witnessed the rush of pupils to the local book stores can appreciate to some extent what this annual buying of books means. And what has become of the discarded books of last year? Some of these are passed down to pupils requiring them this year, but many are not in use a second year and are wasted.

It is generally admitted that our system of handling the school book question is wrong. The school books should be owned by the schools and distributed as a part of the equipment each year. The commissioners admit this, but say they cannot afford it. All will not agree with them. Parents would be willing to pay a rental for the books, if necessary. This would be a saving over the present practice of buying a new equipment every year. The school book problem is one that the Board of School Commissioners would do well to study.

QUEBEC'S SURPLUS.

The favorable position of Quebec Province finances is a matter of much satisfaction to residents of this province. Some very interesting figures in this connection have just been issued by Hon. W. G. Mitchell, the Provincial Treasurer. Mr. Mitchell announces that for the year ending June 30 the receipts amounted to \$13,806,390.97, and the ordinary and extraordinary expenditures to \$11,671,852.69, so that a surplus is shown of \$2,134,538.28. Out of this was paid \$825,000 to the Patriotic Fund, leaving a net surplus of \$1,309,538.28. The Government had some surplus in the matter of revenue, the receipts from succession duties being \$3,395,547.84 over the estimates.

It is pointed out that the favorable result of the financial operations for the year place the province in the position where it can carry on its public works, continue its aid to education and agriculture, and pursue its good roads policy.

The Premier and Provincial Treasurer, and the Government as a whole, are to be congratulated upon the careful administration of the affairs of the province to which these figures bear testimony.

WHEN WILL THE WAR END?

This question has been much discussed ever since the war began. The Germans were going to end it in three months, but the Battle of the Marne interfered with their plans. At vari-

Backward, turn backward, O Time in your flight Make me a boy again, just for this fight.

ous times during the four years the Allies have looked forward to a speedy conclusion, but events have occurred to prolong the struggle.

The question of the early and successful conclusion of the war is again being discussed by the press in the Allied countries.

In the New York Sun a definite prediction is made, as follows: "Maximum man-power in Europe by next summer; mammoth Allied drive as soon as possible thereafter, surpassing in size and force anything previously attempted, with the view of inflicting decisive defeat on the German armies; peace bid from Germany late in 1919, and sufficient guaranty from her to make possible an armistice; signing of peace treaty in the winter of 1919 or early in 1920."

Lloyd George, in a recent address, said: "We are over the top of the mountain," and we are considerably farther along now than when he spoke. At the same time, undue optimism regarding early peace should be guarded against. There is a long road yet to travel before the Rhine is reached, and it is still farther to Berlin. The Germans are groggy, but they are not yet knocked out. The shortening of their front will give them more men for defence and enable them to prolong the fight if they have the will to do so. The splendid achievements of Allied arms during the past few weeks brings peace nearer. They do not, however, fix any date for the conclusion of the war.

Perhaps the greatest present danger is that attached to a premature peace. This is well illustrated in an article which appears in the August number of Everybody's Magazine. It is in 1938, twenty years hence, a greater and more hopeless war has begun. The Huns have landed in England, and men who were too old to fight in 1918 have been called to the trenches. They know the cause is hopeless. They only fight to die—and all because of a compromise peace in 1918.

When will the war end? The best answer is: The war will end when the job is finished.

REMINDERS.

Occasionally a truthful man goes fishing. Conceit is but the self-esteem of the other fellow. When trouble goes to sleep don't set the alarm clock. Gossip is the ammunition used in the gun of idle curiosity. A dentist says that teeth are like verbs—regular, irregular, and defective. A woman tries to make her heart show on her face and a man tries to make his mind show there. This would not be so bad if all women had hearts and all men had minds.

Press Comments

VICARIOUS MOTHERHOOD.

(London Daily News.) What is the state going to do for the motherless orphans of the war? The mere provision of bodily subsistence does not cover a fraction of the need. State orphanages or asylums, however well conducted, can never fill the gap. An ounce of mother is worth a pound of clergy, and the only way of meeting the need is to find actual parents for the children, and to bring them up in real homes.

RECRUITING IN IRELAND.

(London Daily Chronicle.) The recruiting response will have to be national, or it will be insignificant. And it will only be national if on our side genuine and unmistakable good will is shown towards the principle of Irish nationality. We know what it was that froze out the Irish recruiting movement in 1914-15 at a time when Mr. Redmond and Mr. Devlin had worked their hardest for it. It was that the military authorities administered nearly every snub and insult within their power to the principle of Irish nationality. A complete reversal of that policy, if accompanied by sufficient evidence of sincerity, might even now have far-reaching effects. But as yet it is scarcely in sight.

FOLLOW SENATOR LODGE.

(New York Tribune.) There are many who say—with what secret or unconscious emotions we do not know—that the doctrine of peace by the sword is wrong and unwise, because if the enemy hears that he is to surrender or perish he will be made desperate and unreasonable, which would tend to prolong the war. The answer to this is that those who fear for the effect of this doctrine upon the German mind and upon the length of the war have never themselves believed the phrase they glibly speak, namely, "peace by victory." To a great many people that is a vague phrase, meaning victory by an "honorable means." To Senator Lodge, victory means the reduction of the enemy and his unconditional surrender. That will be its meaning increasingly from this time forward. We wish that were already its meaning to the whole country, and we earnestly wish the Republican party would adopt as its own Senator Lodge's logical and unequivocal statement of war aims, with the slogan: No peace but one dictated by the Allies on the other side of the Rhine.

EL KANTARA AND BEYOND.

(Boston Transcript.) While the Germans are gradually being forced to let go all their dreams of "Berlin or Bagdad," the English have not only consolidated their "Capri to Cairo" connection, but have joined Cairo by rail with Jerusalem, and have commercially annexed Syria to Egypt. The way in which war may be made to serve the enduring interests of peace is illustrated in the achievement of that remarkable improvement, the swinging bridge over the Suez Canal at El Kantara, northeast of Cairo and thirty-five miles south of Port Said. The bridge carries the trains from Cairo to Jerusalem, completely over-

coming the desert obstacle which lay between Egypt and Palestine, and at the same time linking Egypt with Arabia, for the trains which pass from Cairo to the Jordan valley will eventually connect, if they do not already connect, with the Hejaz railroad to Medina and Mecca, and make Arabia Felix economically the tributary of British-Egyptian Cairo or Alexandria rather than of Damascus, Aleppo, Constantinople or Berlin. All the holy places of the world—Christian, Jewish, Mahomedan, Buddhist and Brahman—are passing, as the result of this war, under British guardianship. The breath of toleration shown by the British in India, in Egypt and in Palestine, as well as always at home, constitutes an excellent guarantee of the safety of all these shrines under the Union Jack.

LETTING THE GERMANS KNOW.

(Boston Transcript.) The American Administration is following a policy of letting the Germans know what the United States is doing and is going to do instead of keeping its plans secret. Thus General March stated openly in Washington this week that under the new man-power legislation the United States will send eighty divisions of approximately forty-five thousand men to France, with which the Allies should have such a superiority in the number of effective that they could bring the war to a conclusion next year. He went further and fixed June 30, 1919, as the date by which this great army will be in France.

In case the Germans should think this impossible because of shipping shortage, General March went on to undeceive them: "I might as well say right here, frankly, that the programme of Mr. Schwab will take care of the army programme and gain on it," he said.

If the United States were to attempt to keep these plans secret it would be with the intention that the enemy might be lulled into a false sense of security, not knowing what was in store for him. But of course he would secure through his own channels information more or less reliable of what was going forward, and the American authorities evidently think there is more to be gained through moral effect on the Germans by letting them see the huge American army rising to confront them. The policy being followed is calculated to discourage the Germans and at the same time give new heart to the Allies.

CANADA CAN DO IT

(Ottawa-Journal Press.) Joy in the great news that comes unabated from the front is intensified for Canadians, thought fraught with anxiety and grief for so many of them, by the fact that we have such an important and brilliant part in it. Once again the Canadian army, in the greatest battle of the war, is covering itself with glory and writing the name of Canada still larger on the map of the new world that is in the making. With the stories of Ypres and Vimy and Passchendaele will go down in the history of the war that of the Canadian victory on the Arras front.

The British bulldog's jaws are closing on the daschund's throat in a grip that won't be loosed, and one of his eye-teeth is the Canadian army. Canadian bayonets are helping to drive the breaking German legions forever from the ravaged provinces of France in a victory that foreshad-

ows the final crash of German power, the end of the diabolical Hohenzollern ambition.
Canada's destiny holds nothing dearer than her part in freeing the world from the threat of German darkness. Nothing could have compensated us for being out of it, or for not being in it with our best. When the opportunity came to advance on the enemy and teach him the lesson he so hates to learn the Canadians were able to respond at their full strength. As their brilliant general has said, they are at their best, every unit complete and with adequate reinforcements behind them.
The next greatest satisfaction will come when the soldiers from Canada are following the beaten Huns in their flight beyond the Rhine.

COL. WATTERSON, LAST OF THE GREAT EDITORS, LEAVES COURIER-JOURNAL.

(Literary Digest.) "One of the last of the journalistic Mohicans, the sturdy and invincible, the fiery and overwhelming, the caustic and the genial," declares the Philadelphia Press, "the clear-thinking and strongly expressive editor for more than half a century of the Louisville newspaper that his personality made famous, has retired." A hundred newspapers, north, south, east and west, swell the chorus. The Florida Times-Union protests, in something of Colonel Watterson's own caustic vein. "With Colonel Watterson out of the active editorial field where will we go to find a great editor? We confess that we do not know. There are quite a number of great newspaper men, but their work primarily is in furnishing the news. The editorial page still remains because there are some who still desire to read it. There are others who desire to read the sporting page, and still others wish to read about society. The newspapers continue to give their readers what interests them or even a few of them. A small number call for editorials and a very much larger number call for 'Bringing Up Father.' The newspapers do not seek to discriminate between tastes, but only to gratify all to a reasonable extent.
"But the Courier-Journal has made it a practice to say something worth saying, and say it in its own way. Its own way has attracted attention, has arrested thought, has fastened itself in the mind, and has influenced the conduct of men, and incidentally has given Henry Watterson a reputation such as no other living newspaper man holds or approximates. For the Courier-Journal for fifty years has been but Henry Watterson in type."

It is fair? Is it just? Is it British to send this man back while so many thousands of others have not even lifted a finger towards helping the land which has been so kind to them?
I am confident that an outraged public conscience will not for a moment tolerate a state of affairs such as that to which I refer. I know that the loyal citizens of this country will make their influence felt, and leaving aside everything else as to the nature of Millington's calling or his categorization if, as is said, five sons out of six have shown their love for the Empire in the only manner they can, that pressure will be brought to bear upon the Minister of Militia, his colleagues and all those who are interested, to see that in a case of this kind as much sympathy be shown as they do for defaulters and deserters who profit by the amnesty and the sweet will of the government on the part of those in authority to pamper and pet the aliens.

WELFARE OF OUR SOLDIERS.

Sir—May I crave your support and sympathy, and be permitted through the columns of your paper to acquaint the public with one of the saddest cases that I think has been brought to the attention of those who are interested in the welfare of our soldiers.
What makes matters still worse is the fact that notwithstanding all that I will relate, the soldier in whose welfare so many are interested themselves, is refused favorable consideration by those who should know better, and that absolutely no regard has been paid to the sacrifices that the family has already made on behalf of the great cause and the Empire to which we are all so proud to belong.

If those who are aware of the circumstances should think that a just grievance could be remedied in any other way but through the publicity that the press gives, they would not have assented to the step I am now taking in making the matter public.
Private Alfred Millington, No. 48470, Royal Canadian Dragoons, is a member of a family of six sons, four of whom have already made the supreme sacrifice by the giving up of their lives, and a fifth lost an arm. Millington himself was invalided back from England, having suffered from a gas attack. He is one of the first division men married, with a wife in delicate health, who is at present under the doctor's care for pleurisy and inflammation of the kidneys; he has one child; his parents are aged and naturally, in view of the sacrifices they have made for their country, in a by no means robust state of health. Furthermore, two brothers-in-law of this man have likewise been killed in action. I hardly think that any family in Canada or in any part of the Empire can approximate to this record of noble sacrifice.

These facts were made known to the Sherbrooke Patriotic Society, who have been endeavoring to secure some consideration for this poor man, who will be compelled to report at the expiration of his furlough, granted to all first division men, unless the public in its recentment at such treatment compel the authorities to either grant him a prolonged furlough or a complete discharge.
At the request of those who so strongly sympathize with this man's family, I wrote to the Minister of Labor asking him to intercede with his colleague, the Acting Minister of Militia, on behalf of Millington. Through a clerical error it was mentioned that he was in category "D," when he is in category "A." It appears that those who sought to secure some consideration for this man, in making representations, stated that he was a farmer, evidently believing that in view of the concessions that have already been made to this class of the community, that

his case would receive more favorable and prompt consideration than it otherwise would.
Mr. Crothers, with the kindness and promptness characteristic of him, wrote his colleague, and a reply has been received, the last paragraph of which I have no hesitation in making public, which reads as follows: "The family circumstances do not, upon investigation, appear to be such as to make his presence at home in any way a necessity, and in the circumstances the Adjutant-General, who gave the case very careful consideration, felt that he had no choice but to order his return to England."
There is no denial of the statement that four out of six brothers have been killed and one lost an arm. Yet, with a coldbloodedness and absolute want of sympathy that seems to be inherent in the routine of some of our Government departments, it is stated that upon investigation the family circumstances appear to be such as to make his presence at home in any way a necessity. I might also point out that in spite of Millington being categorized as "A" after having suffered from a gas attack, he is at present in the hospital suffering from anaemia and gastric trouble. Yet, according to the medical board which categorized him as "A," is sufficiently fit to go back, and probably be a sixth son to give up his life for the cause, enabled by the death of his brothers and brothers-in-law.
What rouses the indignation of every loyal and patriotic citizen is the contrast between the treatment of this man and that accorded others, and more particularly in view of the hundreds of thousands of alien-enemy, friendly and neutral—who have done nothing at all for this country in its hour of peril, but who are battering upon the sacrifices made by such noble families as the one to which Millington has the honor to belong.
Is it fair? Is it just? Is it British to send this man back while so many thousands of others have not even lifted a finger towards helping the land which has been so kind to them?

KAISER AGED AND SAD.
(Canadian Press Despatch)
GENEVA, Sept. 4.—Swiss who saw Emperor William and King Ferdinand quite closely at their Neuheim conference recently, declare that the German ruler has greatly aged and that his hair is snow white and his shoulders stooped. The Emperor's eyes are feverish, his gestures abrupt, and his face, which is severely lined and tanned, gives the general impression of a man suffering a great sorrow.

ATTRACTIVE STOCKS AT PRICES
To Yield 7 to 9 Per cent.
Exceptional market conditions—due to the war—have caused many high grade Canadian Industrial and public utility stocks to sell at prices that yield 7 to 9 per cent. on the investment. This is the investor's opportunity—leading bankers have indicated that many stocks are selling at below their intrinsic value. Our Statistical Department will be pleased to discuss your investments with you.

CAPT. GRANT ELECTED**HEAD OF OTTAWA G.W.V.A.**

OTTAWA, ONT., Sept. 4.—Capt. G. P. Grant, was unanimously elected President of the Great War Veterans' Association, at a general meeting of the members which was held on Tuesday night for the purpose of filling the office of president, which was vacated a short time ago by Lieutenant-Colonel Pidgeon, who resigned.

LOCAL SCOUTS HONOR VISITOR.

Forty Scouts were at the 43rd Army last evening and were entertained by Scoutmaster Loomis to refreshments, after which the troop formed up and accompanied Master John Schibbe, of New York City, who has been visiting the Rev. E. C. Russell, to the Grand Trunk station, where he left on the Boston & Maine for home. At the station the boys sang their Scout songs and made things generally interesting.

Scout Schibbe, who is the boy scout of St. Thomas Church, New York, thinks that the Canadian Scouts are splendid fellows and that the 2nd Sherbrooke troop is one of the best run organizations that he has ever seen.

A guard of honor, composed of Scoutmaster Loomis, assistant Scoutmaster Moffat, Chaplain Russell and Scouts Martin, Palmer, Kenalty and Goetz, accompanied Scout Schibbe as far as Lennoxville.

CITY NEWS**LATEST WAR BULLETINS****BRITISH TAKE MOEUVRES.**

(Associated Press Despatch) WITH THE BRITISH ARMIES IN FRANCE, Sept. 4, noon.—British troops were reported this morning to have taken the town of Moeuvres, three and a half miles southeast of Quant, but the capture of the place was not confirmed.

The Germans are in full flight in the region of the Canal du Nord, and appear to be more than ever disorganized. A thousand more prisoners were captured last night by Field Marshal Haig's forces.

ENEMY DRIVEN BACK IN MACEDONIA.

(Associated Press Despatch) LONDON, Sept. 4.—Forces of the Central Powers on the morning of September 2 attacked the Entente Allied troops, under cover of an intense bombardment, on the left bank of the Vardar River in Macedonia. An official statement issued today by the British War Office says the enemy was driven back by a counter attack.

OVER 1,600,000 YANKS IN FIELD.

WASHINGTON, D.C., Sept. 4. General March announced today that the total embarkation of American soldiers for all fronts, including the Siberian expedition, had passed the 1,600,000 mark on August 31.

In answer to a question, General March said it was estimated that more than 250,000 had landed in France during August. The record for monthly shipment, he added, was 285,000.

HAVE TO STAND TO SAVE DOUAI AND CAMBRAI

More Than Possibility that Enemy Will Not Be Able to Reconstruct His Defensive Positions in Time.

(Associated Press Despatch) NEW YORK, Sept. 4.—The Associated Press today issued the following:

The British have driven home their push through the Wotan line as far as the Canal du Nord, and as yet their progress is not reported checked.

Already the advance they have driven into the German defenses in the sector between the railway-centres of Douai and Cambrai is a menacing one to the enemy, who must stop the British on the Canal line here if he hopes to save these bases—valuable points in the German defense system in the west.

Disorganization in the German ranks is reported in unofficial advices from the front, however, and there seems to be more than a possibility that the enemy command will not be able to reconstruct its defensive formations even in time to hold up the British temporarily along the Canal positions. The menace to both Cambrai and Douai may be indicated by the fact that the British are within 5½ miles of the outskirts of the former city and not more than six miles from Douai. At Inchy-en-Artois they are a little more than two miles from the Bohrin Wood position, where General Byng was temporarily anchored in his drive at Cambrai last fall, marking what was virtually his nearest approach to the city.

In Byng's drive, however, the British approached Cambrai on only a narrow front, whence a German counter-attack on the flank ousted them disastrously, whereas at present the advance is on a far wider front and is offering no apparent opportunity for an effective counter-blow, especially in the present reported state of German disorganization from the constant pounding the enemy has received all along the front from Rheims to Arras since mid-July.

Still in Retreat in North. To the north the Germans are still in retreat and the British have occupied additional towns in the Lys salient. The enemy's reported retirement in the sector of La Bassée has not been confirmed, however, and the Germans apparently are holding the greater part of the coal mining city of Lens in this area, although the British are understood to be in the western end of the town.

\$3,000,000 REQUIRED TO MEET INCREASES GRANTED POSTMEN

OTTAWA, ONT., Sept. 4.—Three million dollars over and above ordinary salaries, it is estimated, will be required to meet increases recently granted to post office employees in the outside service. Of the 5,947 employees in Eastern Canada, 4,990 got a total increase of \$350 a year, including the increase granted in the appropriation of last session; of 3,005 men in Western Canada, \$2,774 got a total additional grant of \$300.

Johnson Letters Sold. The collection of autographs, letters and historical manuscripts, including a series of 200 letters from Dr. Johnson to Mrs. Thrale, were recently sold. The highest single price was \$76, paid for the finest and longest letter from Johnson to Mrs. Thrale, dated 1773. Another realized \$47. The letter to Mrs. Thrale dealing with American affairs sold for \$35.

LATEST TELEGRAPHIC DESPATCHES**BRITISH PUSH FORWARD TO CANAL DU NORD**

Have Established Ports on Western Bank—Enemy Intends to Make Stand as Long as Possible.

(Associated Press Despatch) WITH THE BRITISH ARMIES IN FRANCE, Sept. 4.—Exploiting their successes of yesterday, the British today pushed forward to the Canal du Nord and are establishing posts on the western bank. Attempts to cross the canal have been met with heavy machine gun fire and it is evident the enemy intends to stand here as long as possible.

Reports from the north and south indicate that virtually the whole of the British front is being moved up, and local attacks in the north are helping the Germans to decide to move faster.

South of the Arras-Cambrai road, Canadian troops are on the canal bank on a front of 2,000 yards. The British artillery is now pounding the areas in rear of the canal, while troops from the west bank everywhere are delivering a rain of machine gun bullets on the enemy. The Germans have destroyed their canal bridges at several places, including that to the east of Bouris, fearing that they might be rushed and crossed.

There are indications that the Germans are still playing for time. East of Peronne the British have made further slight advances.

In the north the Germans are still retreating and in many villages in various localities the torch has been applied.

FALL OF COUCY-LE CHATEAU IS EXPECTED

General Mangin's Army Has Overcome the Bitter Resistance of Huns in Southern Area of Battlefront.

PARIS, Sept. 4.—General Mangin's army has been busily engaged in the last three days overcoming bitter resistance by the Germans to its advance in the southern area of the battlefront. His forces have marked time in some instances and at points retreated slightly, but they have now succeeded in getting the better of the enemy's defense and have resumed their slow but sure advance.

Their forward push is threatening the fall of the important town of Coucy-Le-Chateau, and its fall is hourly expected here. The Germans however are resisting the forward movement to the best of their ability, as the fall of the forest of St. Gobain, which the advance is threatening, would entail a retreat of General Von Boehn's armies to Laon. A rupture of the Hindenburg line in the south would thus be effected, and as the line has already been smashed in the north by British troops, a withdrawal of the whole German front from the North Sea to Rheims would then be forced.

The Paris military critics today treat mainly of the threatening breach in the Hindenburg line in the north, pointing out that the enemy is now forced to forge the use of prepared artificial defenses and to fall back on the natural obstacles which the writers argue are the only hope of the German Command in the present state of disorganization among its divisions.

The enemy, the critics show, will have before Cambrai a series of natural defenses which may help him stay the march of the British armies momentarily. The general assumption is that the German stand will be made along the line of the Canal du Nord, passing west of Marquion, east of Inchy-en-Artois, and from Moeuvres to Hermes.

REAR GUARDS UNABLE TO CHECK OUR BATTERIES

Gallop Up Behind the Retiring Huns and Fire Point Blank Into the Masses Moving Eastward.

(Canadian Press Despatch from Reuter's Limited) British Headquarters, Sept. 4.—The great pursuit of the retreating Germans continues. The German rear guards are quite unable to check our batteries, which gallop up behind them, and fire point blank into the masses moving eastward.

We appear to have reached the outskirts of Moeuvres. Slight fighting is probable here as this is the village connecting the new switch line with the main Hindenburg line. It is linked to it by a redoubt covering a square mile. As, however, we occupy Buissy-Inchy, it should not be difficult to turn the Moeuvres position by coming down on the rear of it.

Yesterday we were reported to be entering Ytres. We established posts along the western bank of the Nord Canal. The opposite side does not appear to be held in strength, but is simply bristling with machine guns.

THE BOCHE HAS RETIRED ACROSS CANAL DU NORD

Canadian Corps Did Fine Work—Retirement of Enemy Will Lift Load Off Minds of Allied Commanders.

(By J. F. B. Livesay, Canadian Press Correspondent.) WITH THE CANADIAN FORCES, September 4.—The Boche has gone back across the Canal du Nord, surrendering to us, without further struggle, the Drocourt-Quant line. He got out just in time. The Canadian corps was driving in his front and the Canadian artillery was waiting for the hour to lay down such a barrage along the canal as must have destroyed all its bridges and make evacuation impossible. This is not official, but there is small doubt of its truth. It is the logic of the situation.

Yesterday the enemy fought like a wild cat to save his guns and transport. Last night our line was absolutely quiet. An airman this morning reported that after flying all across the enemy line he is convinced that there is not a Boche west of the Canal du Nord. He scouted the idea that he might be hiding in his dugouts.

If this great news is confirmed it must lift a load off the minds of our commanders. No troops can fight many days together on a scale of yesterday without suffering such losses as must in time impair their efficiency. The price paid for the first breach of the Drocourt-Quant line is relatively cheap, doubtless less than the total prisoners, but if the corps had had to fight forward to the canal on the same scale it must have proved terribly expensive. To gain the line of the Canal du Nord with no further blow is a triumph indeed, and an unwilling tribute to a beaten enemy to the prowess of Canadian arms. In this triumph British troops worthily participated.

The enemy, enclosed in a Cul-De-Sac, with the Scarpe on his right and the canal behind him, was in a desperate plight, and desperately did he fight to escape it. He threw in no less than eight divisions. The fury of his counter stroke equalled anything hitherto experienced by the veteran Canadian troops.

For miles behind the Canal du Nord he lacks such a great system of fortification as the Canadian corps stormed early yesterday morning.

On the Canadian front alone the weight of metal was greater than that of Amiens or Passchendaele or Vimy, but in addition was the converging fire of the British armies to the right and left. As this barrage crept forward ahead of the infantry, lifting one hundred yards at a time, there could be made out amid the thunder and the lightning the bulked masses of the slow-moving tanks. Hardly had the show opened when field batteries galloped over the ground where but a few minutes before the infantry had stood at attention, waiting the word to go on.

Worthington street for the Sherbrooke Real Estate Company, for which the company have guaranteed the whole cost.

Mr. McKeon reported that the pump house on Prospect street is nearing completion and that the water connections for the pump have already been installed. Mr. McKeon concludes his report as follows:

"During the month of August several cases of typhoid fever were reported, but I am pleased to state that not one case could be traced to the city's water supply. A sample of water is taken daily from the city's water supply and forwarded to the Provincial Board of Health for analysis, and the report received from this Board is very satisfactory and of a high standard."

Ald. Edwards spoke of the excellent waterworks that the city possessed, and asked that in the near future an invitation be extended to the members of the Sherbrooke Board of Trade and other prominent citizens to inspect the plant.

Subdivide City Again.

Owing to the growth of the city, notice of a by-law dividing the city into thirty-two polling subdivisions instead of twenty-four, as at present, was read. It was also decided by the Council, on the recommendation of Chief Couture, that the three children of Mrs. Francois Lachance be placed in the Sacred Heart Home for a period of two months at the city's expense.

The monthly report of the Health Department showed that the total number of deaths during the past month was greater than ever before, numbering in all forty. During the corresponding month in 1917 there were thirty-seven deaths. Of those who died in the city last month, twenty-two were males and eighteen females.

GOVERNOR WHITMAN WINS IN PRIMARY OVER LEWIS, HIS OPPONENT.

(Associated Press Despatch)
NEW YORK, N.Y., Sept. 4.—With women voting for the first time in a state-wide primary, the organization candidates of both parties were almost universally successful. The vote generally was light and no analysis was available early today, which would show the division of the vote between the sexes, but the granting of political equality resulted in nothing revolutionary.

On the face of incomplete returns the victory of Governor Whitman over Attorney-General Martin E. Lewis, was even more of a landslide than it appeared in earlier returns. The results were: Whitman, 197,427; Lewis, 79,669, with 1764 districts out of 5,781 missing.

OLD RESIDENT OF BARNSTON PASSED AWAY

Late O. Hunter Was Well Known Throughout the Eastern Townships—Had Been Failing in Health for Some Time.

NORTH BARNSTON, Sept. 4.—(Special)—After many months of failing health, the death occurred of Mr. Orison Hunter at his home here on Monday night. The late Mr. Hunter, who was the eldest son of Mr. and Mrs. Thos. Hunter, was born at Hereford, Que., but came when a young man with his parents to North Barnston, where the remainder of his life was passed. Early in life Mr. Hunter married Miss Ada May, niece and adopted daughter of the late Mr. and Mrs. Dean Sutton, of Barnston. For a number of years Mr. and Mrs. Hunter occupied the farm formerly known as the Dean Sutton property, at North Barnston. Besides his wife, Mr. Hunter is survived by a son and daughter, Mr. David Hunter and Miss Mary Hunter, who are now at home, the former having recently been granted by the Government a month's leave of absence from military duties. In addition to his immediate family, two brothers and two sisters also survive: Messrs. T. D. Hunter, of the New Cliff House, Ayer's Cliff, and W. J. Hunter, of North Barnston; Mrs. A. Bryan, of Hatley, and Mrs. F. Bryan, of Way's Mills, together with several nieces and nephews and other relatives.

LOCAL RED CROSS BRANCH DISCUSS MANY QUESTIONS

Sherbrooke Will Shortly Have a Government War Exhibit—Annual Meeting Was Fixed for October 8th.

Sherbrooke will shortly have a most interesting exposition in the form of the Government War Exhibit, arranged and brought together for propaganda purposes, which has attracted great crowds in American cities—Baltimore, New York, Washington, etc.—and will be taken to every Canadian city from Halifax to Vancouver. This announcement was made by the secretary of the Sherbrooke branch of the Canadian Red Cross Society at the monthly meeting held yesterday in the rooms of the society, and the secretary stated that Col. Doughty, of Ottawa, who is in charge of the exhibit, visited the city last week and held a conference with the officers of the society, and although his time was short, the necessary preliminaries were arranged. The 54th Regiment Armory was fixed upon as the most suitable place, as it will be an easy matter to transport the big guns, which will form part of the exhibition, from the railway station, and everything connected with the war will form part of the great collection, including recruiting posters, German trophies and a large number of historical pictures.

A casualty clearing station may be a feature, and a tea room or canteen was spoken of in connection with the exhibition, which will be in charge of returned soldiers and nurses, and will remain open for a week.

The date has not been definitely decided, as a further communication is awaited from Col. Doughty. The proceeds will be given to the local Red Cross Society, and Miss Twose was appointed as convener of the tea room, to select her own assistants.

Mrs. Jack Morill presided at the meeting and the usual business was transacted, the minutes read and confirmed, and the report of the treasurer presented. The president commented on the latter as being very satisfactory.

The appeal for the Christmas stockings for the men in hospitals and homes overseas, met with the usual ready response, and it was moved and carried that the Sherbrooke branch of the Canadian Red Cross furnish at least two hundred and fifty of the three thousand asked for from the province of Quebec.

Every detail was discussed, including the material, size, shape, etc., of the stockings, and a committee composed of Mrs. Cross, Mrs. Lockhart and Miss Wilson was appointed to make all purchases and to carry out all the plans for these Christmas gifts, which must be forwarded to England at an early date for holiday distribution.

The president stated that Mrs. E. Jones had kindly consented to take the place of the treasurer, Mrs. S. A. Jones, during the absence of the latter in Winnipeg.

The subject of the annual meeting was also brought up. In accordance with instructions from the provincial branch in Montreal the fiscal year of the local branch of the society will close the last day of September, and it was decided to hold the annual

PROGRESS OF GREAT BATTLE IS DISCUSSED

When and Where Will Enemy Pull Himself Together—Prisoners Talk of Von Mackensen Coming.

(Canadian Press Despatch)

LONDON, Sept. 4.—The progress of tremendous events on the battle-front in France is being followed with almost breathless eagerness by the whole British nation. The most significant feature of Tuesday's developments was that the expected German attempt to restore the position of the broken Wotan line did not materialize. The failure of the enemy to make such an attempt apparently is attributable to the speed and energy with which Field Marshal Haig's armies were able to press the advance on the retreating enemy. Informed observers, however, continue to speculate on when and where the enemy will pull himself together. Disastrous as the blow already has been to German prestige and seriously as the German position is endangered, experts here are not expressing anticipation of an early debacle and admit the probability of some defences being organized behind the enemy line in an attempt to check the allied advance. Some German prisoners taken in the battle talk confidently of the impending arrival of a great reserve army under General Von Mackensen, who will turn the tables on the allied forces, but obviously it is impossible to throw any light on such reports. Whatever the future may hold, the actual situation is regarded as one of extraordinary promise for the Allies and containing the possibility of a compulsory abandonment of the entire German front, including the Flanders coast.

While featuring the dramatic developments on the British front commentators do not neglect to emphasize the great importance of the operations on the southern end of the battle line where the French and Americans are holding against large enemy forces and making progress.

SOIL OF FRANCE SLIPPING FROM BENEATH ENEMY'S FEET.

(Canadian Press Despatch)

PARIS, Sept. 4.—General Ypres and Rheims with General Mangin menacing the St. Gobain Forest and the Chemin-Des-Dames, with Generals Humbert and Debeney advancing on St. Quentin, and the Franco-Americans on the Vesle, with General Byng before Lens and General Plumer before Arras, the enemy feels the soil of France slipping from under his feet.

Commentators point out that in the present offensive continuity has been maintained for six days without a break, and that since the beginning of the war has such an extended series of hammer blows been delivered, throwing the adversary into complete dismay. The enemy is unable to reorganize his forces to make a stand at resisting the onward march of the Allies.

AMERICAN SHIPBUILDING

NEW RECORDS WERE MADE DURING MONTH OF AUGUST.

(Canadian Press Despatch)

WASHINGTON, D. C., Sept. 4.—New records in American shipbuilding were made during August, figures made public today by the Department of Commerce showing that the month's output in merchant ships, including those built for foreign owners, was 295,849 gross tons. This included eighty-eight seagoing vessels of 283,099 gross tons. Forty-nine of these were of steel, with a tonnage of 191,102, and thirty-nine were wooden making up 91,997 tons. For the twelve months ending with August, the total output was 1,787,730 gross tons. Before the European war, the largest production in the United States was 614,216 gross tons for the year ending June 30, 1908.

FIRE IN SHIP AT QUEBEC.

QUEBEC, Que., Sept. 4.—The firemen from the city brigade fought a stubborn blaze that broke out last night in the gully of a steamer in port here. The damage is rather heavy, though the vessel sustained no injury to its machinery. The fire will in no way delay the vessel's departure.

meeting on Tuesday afternoon, October 3, at 3 o'clock, in the Red Cross rooms.

The president spoke in terms of the highest praise of the work of the Boy Scouts, for the Red Cross Society, and their invaluable assistance during the summer, and said that they hoped to be able to organize so that two or three of their number might be at the rooms every day after school hours to give any help needed. It was unanimously resolved to establish a long service badge to be bestowed for 500 hours' work, and later a committee would be named to obtain the badges, with suitable motto, symbol, etc.

Before the meeting adjourned the hope was expressed by the officers that generous contributions would be made by the public towards the Christmas stockings.

There was a good attendance of members and a large number of friends and relatives of the deceased members.

WAS BORN IN WEST SHEFFORD

WEST SHEFFORD, Sept. 4.—(Special).—The Troy Record, of Troy, New York, of July 17, has the following:

"Rev. Seth A. Mills, of this city, yesterday received a telegram from the adjutant general's office in Washington announcing the death of his son, Lieut. H. C. Mills, caused by wounds received in France June 10. The telegram received from Adjutant General McCain, is as follows:

"Deeply regret to inform you that it is officially reported that Lieut. Harold Colthart Mills died of wounds received in action, June 17."

Word that Lieut. Mills had been wounded was received by his father June 18. Later word was received that his wounds were not serious. Lieut. Mills was the first Troy officer to be reported wounded. He was one of the first Troy boys who took advantage of the training camp at Plattsburg in 1916 and was there for three months where he received his first rudiments of warfare.

He entered the training camp at Fort Niagara with several other Trojans. He won a commission as second lieutenant in the National army and was assigned to Fort Benjamin Harrison, Indiana.

The last time that Lieut. Mills visited this city was on January 15 of this year. He reached France in February, and had been on the battle-front since that time.

Lieut. Mills was well known in this city. He was a graduate of the Troy High School and while attending school was active in all its affairs. He is survived by his parents, Rev. and Mrs. Seth A. Mills. Rev. Mr. Mills is pastor of St. Luke's Episcopal church of the South End.

DESPATCHES TELL OF THE GREAT VICTORY

Germans Surprised By Sudden Attack Which Smashed "Impregnable" Line.

(Canadian Press Despatch)

WITH THE BRITISH ARMY IN FRANCE, Sept. 4.—The fighting yesterday afternoon was more vigorous along the northern part of the Hindenburg line than elsewhere. The British are sweeping along astride it from a point where it joined the Droocourt line at Queant. Considerable progress is reported and large numbers of Germans have been killed or taken prisoner. Thousands of prisoners are coming into the cales. One army had six thousand Germans in its cage yesterday afternoon.

The prisoners were of all sorts, including cavalrymen, who had been dismounted and fought as infantry. The hard pressed German commanders took men from anywhere, no matter what they were supposed to be doing, and put them in the line with rifles and machine guns in an effort to stem the tide.

How many dead there are it is impossible even to give an estimate. The zone of the battle in many places shows that the Germans suffered terrible losses. The German formations which opposed the British have been literally torn to pieces. And the tearing continues along the Hindenburg line and to the south.

VICTORY MAY LEAD TO GERMAN DISASTER.

(Associated Press Despatch)

WITH THE BRITISH ARMY IN FRANCE, Sept. 4.—The British victory in the battle of the Droocourt-Queant line seems complete. Without having delivered a single counter-attack, and staggering from the blows administered to them, the Germans during the night and yesterday morning were in full flight on the eastern side of the Canal Du Nord.

The enemy is trying to save what men and material he can from the wreck and in behind most powerful systems ever devised. The much boasted Droocourt-Queant line, or as the Germans call it, the Wotan line, is totally shattered. The British are driving far through it and the Germans are hurrying eastward, leaving behind only pockets of machine gunners and even resistance from these is gradually melting away.

Strong forces are now fighting their way down the Hindenburg line itself and are cleaning it up as they go. Meanwhile, a little south from here, another force is driving on the Hindenburg line frontally. The Hun has tasted disaster in the Droocourt-Queant line battle and now his disorganized and badly depleted forces are working fast to prevent an even greater catastrophe overtaking them. The British are rapidly approaching and are close to the Canal Du Nord, the territory behind which is even now under heavy fire from many British guns.

The foe knows well that this movement contains a grave menace to some of his forces, and orders apparently have been given to get them out with all haste.

FINE WORK OF NAVAL DIVISION

(Canadian Press Despatch From Reuter's, Limited).

LONDON, Sept. 4.—Describing the work of the Naval division at the

battle of the switch line Reuter's correspondent at British headquarters says the division was comprised of battalions from H. M. S. Anson, Hawke, Drake and Hood. They occupied Queant and subsequently advanced down the valley with a view to rounding up prisoners and mopping up the triangle formed by the junction with the Hindenburg line. The naval men pushed on carrying their machine guns, as they were told they were going to be engaged in open warfare away from artillery support. The men from the Drake took Pronville and after fighting all night long succeeded in getting astride the mouth of a deep little valley below Inchy-En-Artois. The naval men made great use of their machine guns, one team alone firing thirty thousand rounds. They were not accompanied by tanks and what they did was due entirely to their own initiative and resources.

EXPLOIT OF A CANADIAN OFFICER.

(Canadian Press Despatch From Reuter's, Limited).

LONDON, Sept. 4.—Reuter's correspondent at British headquarters describes the clever exploit of a Canadian officer at the Wotan line battle. In the dark hours of Monday morning he crept out to try and find a crossing over the Sensee River. He discovered a bridge, but thought he would investigate before returning to report his valuable find. The result was the detection of a heavy mine fitted with contact wires already to be laid. With wire cutters the officer nipped through all the leads and not long after the Canadian infantry streamed across the bridge in an endless flow.

So rapidly did our guns get across the entrenched zone that six inch high velocity shells since early morning have been maintaining a continuous and harassing fire on the Marquain crossing on the Cambrai road whence all the heavy German transport had to escape. By eleven o'clock the old Royal Naval Division had advanced nearly eight miles since yesterday morning and are still going strong.

Northward to the Scarpe our troops have done little more than steadily throw forward a covering flank. Our infantry outran the support of their guns despite the fact that the batteries galloped forward in a way reminiscent of the long valley manoeuvres.

The enemy's gunfire was desultory and nowhere formidable, the Germans being evidently desperately short of artillery ammunition on this part of the front.

The surprise occasioned by the rapidity of our advance seems to have been complete. Many fires are springing up in many places far back of their lines. The Germans have damaged the Scarpe and the water has spread over considerable areas, but has not interfered with our progress.

We struck the enemy in a new place northward, where our troops stormed and captured Richbourg-St. Vaast.

The weather continues ideal for field warfare.

The airmen are having a great time, flying little more than two hundred feet high. Wherever the enemy is met with he seems to be in a state of panic. The number of machine guns we have already collected is said to have run into thousands. We captured the crews of some heavy howitzers who had just blown up their guns. They complained that they had been unable to fire at all owing to the lack of shells. Comparatively few guns have fallen into our hands since the enemy early in the battle sent his batteries scampering rearward.
