NOTICE TO MARINERS.

HYDROGRAPHIC OFFICE,
CHARLOTTETOWN, P. E. ISLAND,
24th October, 1861.

IN ORDER to afford the MARITIME PUBLIC the earliest information respecting the existence of ROCKS and SHOALS not hitherto laid down in the Charts, I have been directed by the Admiralty to publish notices from time to time in the local Newspapers of any discoveries made by our Surveying party.

HALIFAX HARBOR.—A Rock with 14 feet least water, lies 50 fathoms from the end of Lyle's Wharf, and bears from Government House E ½ S. 180 fathoms. It lies within the 5 fathom line of the Admiralty Chart, but in passing up the Harbor no vessel of size should approach the wharves until well passed this bearing from Government House. If York Redoubt be kept open of the wharves this will be cleared.

NEWFOUNDLAND.—Freels Rock with 24 feet water, the only danger off Cape Pine, bears from Cape Pine Light W. ½ S. distant 2½ miles. In running along the land to the Westward, it may be cleared by not shutting in any of the land of Cape Mutton until Cape English come in sight.

CAPE ST. MARY should be approached with caution—the following Rocks have been lately discovered:

Between St. Mary's Cays and the Cape, and bearing from the Light S.W. by S. 5.2 miles, is the **False Cay** with 12 feet least water.

Lance Rock with 12 feet least water lies S.W. from Point Lance, distant 2 miles.

IN ST. MARY'S BAY on the East side of the Cape, 5½ miles E. ¼ S. from Point Lance, and S.W. ¼ W. 1.90 miles from Hares Ears is **Red Cove Rock** with 18 feet water; and 5½ miles E. by N. from this and S. ½ E. 2 miles from Red Head, is **Red Head Rock** with 24 feet least water.

IN PLACENTIA BAY, on the West side of the Cape, there is **Perch Rock**, 15 feet water, 5.70 miles N. by W. from the Light.

Nest Rock, 9 feet water, 6.20 miles North the Light.

Curslett Rock, 12 feet water, 1.85 miles W. by S. from Point Breme.

Patrick Rock, 9 feet water, N.E. by N., 3.30 miles from Point Breme.

South Rock, 9 feet water, 1.70 miles S.W. by S. from the Virgin Rocks.

False Girdle, 6 feet water, S.S.W. ¼ W. 1.40 miles from the Virgin Rocks.

Gibraltar Rock, lying 1.25 miles West from Point Verde, has only 4 feet water, instead of 8 feet as given in the old Charts.

Placentia Harbour has now only ten feet water at the entrance, instead of 18 feet as at the time of Cook's Survey.

BURIN.—On the West side of Placentia Bay. **Mortier Rock**, 18 feet, on Mortier Bank, lies E. by S. ½ S. from Burin Light-house, distant 6.40 miles.

Near the South entrance to Burin Harbour, 660 fathoms S. by E. from Little Burin Island, lies **Emberly Rock**, with 24 feet water.

And S. W. by S. 230 fathoms from Cat Island lies **Cockle Rock** with 18 feet water.

Also West 170 fathoms from Poor Island lies **Poor Rock** with 12 feet of water.

Within the entrance and half a mile E. N. E. from Neck Point, and 100 fathoms from the shore of Burin Island lies **Mine Rock** with 10 feet of water.

Off Sauker Head there are two Rocks instead of one, the outer with 21 feet lies S. by E. ½ E. 250 fathoms from the Head.

Off Small Point W. by S. ½ S. 350 fathoms lies **Bass Rock** with 20 feet of water.

LAPOILE.—La Poile Bay, 36 miles E. N. E. from Cape Ray, is now distinguished by a Beacon erected on the Western point of entrance, and also a Beacon on Ireland Island, Eastern side of entrance.

CAPTAIN,
In charge of Gulf St. Lawrence & Newfoundland Survey.

BUSINESS NOTICES.

Bogle's Celebrated Hyperion Fluid

For the growth, restoration and beautifying of the Hair. Under the immediate patronage of HER MAJESTY THE QUEEN, H. R. H. the PRINCE CONSORT, H.R.H. the PRINCE OF WALES, and used in the ROYAL NURSERY by command.

If any fact more convinsive than another were necessary to prove the great benefit derived from the use of BOGLE'S CELEBRATED HYPERION FLUID, now hailed throughout the world as the GREAT AMERICAN HAIR TONIC, it would be that of its rapid sale—quadrupled every year—and the immense number of certificates from all parts of the world, extolling its manifold virtues when everything else had failed. There is no malady which affects the Hair but this can cure. Is your Hair thin, coarse, wiry, turning bald or grey, Bogle's Hyperion Fluid will restore it to its pristine beauty and luxuriance. It is the only article to cure Scurf and Dandruff, and is highly esteemed for headaches and colds in the head. On children's heads it lays the foundation of a good head of Hair, and at the lady's toilet it is indispensable. Price, 25, 50 and 75 cents per box.

Proprietor, WM. BOGLE, 202 Washington Street, Boston, U.S. To be had in England of Morgan Bro's., 24 Bow Lane, Cannon Street, London; R. Hoverden, 5 Great Marlborough Street, ditto, and of every Drug gist and Perfumer throughout the world.

WEAKNESS AND DEBILITY.—All who suffer from weakness or debility, where there is a want of energy, should at once have recourse to Judson's Mountain Herb Pills. They immediately purify the blood and act upon the mainspring of life, giving strength and vigor to the system. Young persons entering into womanhood, with a derangement of the functions: and to mothers at the turn of life, these Pills will be most efficacious in correcting the tide of life that may be on the turn. Young and elderly men suffer in a similar manner at the same periods; when there is always danger they should therefore undergo a course of the purifying medicine, which ensures lasting health.

This great household Medicine ranks among the leading necessaries of life, as it is well known to the many persons that it cures other remedies cannot reach; the fact is as well established as that the Sun lights the World.

Judson's Mountain Herb Pills are sold by all dealers in Medicine.

BOGLE'S ELECTRIC HAIR DYE—The greatest wonder of the age—patronised by the elite of fashion in the Courts of St. James and the Tulleries, and to be found at the toilet of beauty and fashion throughout the world.

This wonderful compound has now been before the public for several years, and, wherever introduced, the sales have been beyond all precedent. Specimens have been sent to a number of Exhibitions, and been acknowledged in every instance by awards of Silver Medal and Diplomas. It is a liquid easy of application, and turns Hair to a beautiful Brown or Black, without staining the skin. In short, the inventor asserts, and every person who has carefully used it will join in the statement that this is the best Hair Dye in the world. It is now universally preferred in London and Paris. Price 50 cents, $1, and $1.50

(SPECIAL TELEGRAM.)

FATHER POINT, Nov. 28.

Light Southerly breeze; snowing since 11 A.M.; very mild. Three outward bound vessels seen early this morning. Very thick on the river since 10 A.M.

Weather yesterday and to day very favourable for taking the cargo out of the bark "John Pink;" if it should continue the captain has hopes of getting her to a more sheltered position, as she has received but little damage.

THE "TRENT" AND THE "HIMALAYA."—In the *Mysteries of Paris* there is a character by the classic title of le Chourineur, *Anglice* knacker, who, besides the horse-slaughtering business, had no profound objection to do a little human blood spilling from time to time, as the occasion served. One of his physical peculiarities, arising out of his moral constitution and course of life, was, that he constantly saw red. The persons who did not at once detect the improbability of the story of the *Trent* and *Himalaya* must be so bent upon having war that, like le Chourineur, they see every object through the medium of an appropriately sanguinary tint. The *Trent*, as it is now stated, does not go to England but only takes passengers to St. Thomas; though, as the way boats of this line are occasionally sent to England for repairs, she *might* have gone there. Yet, the next West India mail was only due at Southampton on the 29th, as any one can see on referring to the London *Times* of the 13th inst.; and the *Trent*, being of inferior force to the other vessels employed by the West India Company, is not likely to have made a quicker passage. Every one who knows anything about the voyage from the West Indies must have known that it was physically impossible for [illegible] by the 11th, which is the latest date by the *Canada* from Queenstown. If, therefore, news of her arrival, even, had come by the *Himalaya*, that ship must have sailed after the *Canada*, and yet have arrived simultaneously with her, which is not very probable, especially as the *Times* of the 13th states that the *Himalaya* was ready to sail on that day. Again, it was necessary to suppose, in order to credit this story, that the British Ministry made up their minds upon this important point, and wrote their despatches with the same haste as some *Chourineur* editors reached their decisions and wrote their editorials. But even then, why send a frigate? What was a frigate to do? She could not bring the news as quickly as a mail steamer; nor could do much to revenge our wrongs on the Yankees. Nevertheless, this very palpable hoax, brought up no end of red colour into certain optics. We all know what war means—harried homesteads; bleeding men; women and children starving with cold and hunger, in many a frontier village; landed property valueless; bank and other stocks at ruinous discounts; all ordinary industry at a stand still; families now living in comfort reduced to beggary, as they have been in the cities of the United States; men who have believed that they have acquired a competence, forced to begin life again; young men attracted or forced for several of their best years into the army, only after a certain term of service to find, as many found after the troubles of 1837, that armies are disbanded when no longer wanted, and that those who have served in them have acquired an incapacity to return with success to the pursuits they gave up. All this will be bad enough if it comes; but if it does come will be met bravely and firmly. Only, in the meantime, we hope the *Chourineurs* will oblige us by indulging in strict privacy the luxury of their own imaginations; without unnecessarily shocking the nerves of our wives and children, at their morning repast, by stories of a "Cock and of a Bull." Let us drink our coffee in peace till we have war in earnest.

THE AMERICAN GOVERNMENT AND CANADA.—We are glad to find that whatever attempts may be made to stir up ill will on one side of the lines or the other, the men who really represent the American people, as the Government at Washington, are showing their desire—a desire which it would be the highest imprudence not to entertain—to live at peace with their Northern neighbours. On three several occasions lately the Government at Washington has been appealed to from Canada, once officially and twice officiously; and on all three occasions they have promptly acceded to the demand made upon them. The first instance of an application of this kind was a demand for reparation for the affront offered to our territory by the blackguards who crossed from Detroit to arrest deserters at Sandwich.—That act, it is said, has been properly represented to the President by Lord Lyons, and has been disavowed and apologized for. Again, many minors, the children of Canadian parents, having been enlisted in the American army, Lord Lyons, upon the suggestion of Sir Allan McNab, addressed the proper authorities upon the subject, and an order was promptly made for the discharge of such youths. The passport system—in our opinion a very foolish one, inconveniencing no one but harmless travellers, but yet perfectly within the right of any Government—was found to be inconvenient, and upon the representations of Mr. Giddings, who, though in no respect charged with the duty of forwarding the interests of British subjects, a Consul's services being intended only for persons of his own nationality, an immediate remedy was applied. Passports may now be countersigned at either New York, Boston or Portland by the following gentlemen:—At New York, by Oscar Irving; at Boston, by Jonathan Amory; and at Portland, by E. L. O. Adams. In obtaining this arrangement, Mr. Giddings has, we believe, only acted in accordance with his constantly manifested wish to do everything in his power to facilitate the friendly intercourse between the inhabitants of the two countries, and has given the best possible reply to the absurd statements that he had behaved discourteously to persons who had to transact business with him.

SHAMEFUL DELAY IN DOING JUSTICE.—It will be remembered that, nearly two years ago,—on the 29th of April, 1860,—a poor woman, named Marguerite Robillard, met her death by the fall of the massive stone wall in rear of the Court House. We learn that this unfortunate victim of the carelessness of the public officer, whoever he may be, whose duty it was to have seen to the security of the wall in question, was so poor that the cost of her burial had to be obtained by subscription, and that she left behind her four young children, who had been dependant upon her industry for their support. The death of their mother, and their consequent destitution, was undeniably caused by the negligence of the custodiers of the public property, and few will be inclined to dispute the liability of the Government for such reasonable compensation to the children, for the loss of their mother, as a jury would not fail to have awarded had the wall, by the fall of which she was killed, been private property. It appears that, in view of the circumstances in which they were left, a benevolent neighbour was found willing to accept the charge of tutor to the orphans, and that he has supported them at his own proper expense up to the present time—the petition for an indemnity, on their part, presented to His Excellency, the Governor General, shortly after their tutor's acceptance of the enorous office, having, as yet, had no result. In commenting upon the case of these four children, a contemporary, with some justice, remarks that, while thousands of pounds, beyond the amount voted by the legislature, can be found for the public buildings at Ottawa, and millions of dollars for the Grand Trunk, not a penny can be got for a poor family dependant for its support upon a mother killed by the negligence of government employées. We would fain hope that the neglect manifested by the Government, in affording the relief so justly due to these orphan children, has not been intentional, and that we shall have the pleasure of recording, before they are many days older, that a liberal amount has been granted by the Government for their support and education.

PRINCE NAPOLEON'S SOUVENIRS OF HIS VISIT TO CANADA.—We have already mentioned the Prince Napoleon's considerate and liberal donation of valuable works to the Provincial library at Quebec. We are glad to find that His Imperial Highness has not been forgetful of our fair city. Mr. Peter Macdonald, President of the INSTITUT CANADIEN, has, we learn, received an autograph letter from the Prince, in which he states that he has forwarded, to the care of the French Consul at Quebec, the following munificent contribution to the Society's library:—

PALAIS ROYAL, 24 octobre 1861.

THE HORSE RAILWAY.—The cars are now running regularly, and, we believe, very successfully. A slight *contretemps* took place in Notre Dame street yesterday morning. The car going east waited on the siding opposite the Court House and allowed the car going west to pass. It then pushed on, but had only got about as far as St. Denis street when it encountered another car going west. Consequently those in the down car had to get out, the horses changed to the other end of the car, and it taken back to the siding at the Court House in order to allow the up car to pass.

OTTAWA.—We observe by the Ottawa papers that Alexander Workman, Esq., the present Mayor, after having filled the office for two years, has been requested and has consented to be a candidate for re-election.

THE NEW CHIEF OF POLICE SWORN IN.—Yesterday morning Mr. Guillaume Lamothe, the newly appointed Chief of Police, took the oath of office in the presence of the Mayor and City Clerk. He was afterwards formally inducted into his office.

VOLUNTEERING.—It is rumoured that the Grand Trunk employees at Point St. Charles are about to form a Volunteer Battery.

BRICKBATS IN USE.—On Wednesday evening last one Robert Hammond, while passing through St. Urbain street, was knocked down and rendered insensible by a blow on the forehead from a brickbat, which a man named Beauchamp threw at him. The wounded man was attended to by some of the neighbors.

FIRE INVESTIGATION.—An investigation has been begun by Mr. Coursol into the circumstances attending the Fire at M. Paul Deschamps', Notre Dame Street. The inquiry is held at the request of the Insurance Companies interested.

TWO NIGHTS LONGER OF LARUE'S PANOPTICON OF INDIA AT MECHANICS' HALL.—Those who have not visited this entertainment will have but three more opportunities—to-night and to-morrow afternoon and evening. It is well worth the price of admission, giving amusement as well as instruction. School children admitted to-morrow afternoon for 5 cents each. Adults 15 cts.

THEATRE ROYAL.—The performance of the Quebec Garrison Amateurs which took place last Wednesday was eminently successful, although the first piece was brought to rather an abrupt close by the sudden illness of Miss Effie Germon. On Saturday evening these gentlemen will give their second and last entertainment. The bill is an excellent one, Mrs. Buckland and Miss Carry Nelson have volunteered, and will appear on the occasion.

The sale of engravings, advertised by Mr. Shaw to commence this evening, at Dubois' Store, are a choice collection, and well worthy the attention of those wishing to purchase.

The sale of Household Furniture belonging to the Estate of John Carter, Esq., deceased, commences this morning, at his late residence, No. 31 Beaver Hall Terrace.

POLICE COURT---Thursday.

ASSAULT AND BATTERY.

Abraham Wilson vs. Joseph McKenzie—This was the sequel of a case of assault and battery called on the 18th Nov., wherein *Mr. Wilson*, of Montreal, Confectioner, was complainant, and *Mr. McKenzie*, of Lachine, defendant. At that time complainant did not appear to prosecute, and the case was consequently dismissed. The alleged reason of not appearing was that the defendant had apologised and promised to pay the costs. It was now maintained, however, that the costs had not been paid, and Mr. Wilson, indignant at the treatment he had received, took out another warrant against Mr. McKenzie, charged with assault and battery, committed on the 14th November, the same date mentioned in the first warrant.

The case being called on Thursday morning, Mr. John Campbell appeared for the defendant, and fyled a plea of *autre fois acquit*.

Mr. M. Ryan, for the prosecution, contended that McKenzie was not acquitted of the charge, the Court Record (produced) proving that the action was dismissed, "plaintiff not appearing," the penalty for his not prosecuting being the payment of costs, and not the losing of his recourse against McKenzie for the assault committed. In support of this argument Mr. Ryan cited the Acts 4 and 5 Vic., cap. XXVII., secs. 27 and 28, and also alluded to a decision of the Court on the 28th August last, in the case of Cusson vs. McGuire, when a plea of *autrefois acquit* was fyled by Mr. Pominville, and dismissed by the Court.

Mr. Coursol said that he would take the matter *en delibere* till this morning, when judgment will be given and a precedent established for the future.

STEALING BUFFALO ROBES.

A man arrested on suspicion of stealing buffalo robes was remanded, as his guilt could not be clearly established.

SENTENCE.

Angeline Vidal was brought up on remand, charged with stealing a shawl, the property of Mrs. Jones. The charge being sustained she was sent down to gaol for one month at hard labor.

RECORDER'S COURT---Thursday.

A dozen prisoners were up for trial, eight being for drunkenness. One woman was fined $5 as a vagrant, or one month, and another $3 or 15 days. Two young women requested to be committed, and were sent down to jail for two months.

CITY COUNCIL PROCEEDINGS.

SPECIAL MEETING.

(*Reported for the* MONTREAL HERALD.)

At the special meeting of the City Council held on Wednesday evening, by adjournment from Monday evening, there were

PRESENT:

His Worship the Mayor; Aldermen Leclaire, Thompson, Lyman, Beaudry, Bulmer, McCambridge, Gorrie, and Grenier; Councillors David, McNevin, Stevenson, J. B. Rolland, Rodden, Homier, Penn, McGrath, Duhamel, Cusson, Contant, McCready, G. L. Rolland, Brousseau, Muir, and Bowie.

The galleries were also crowded till the termination of the meeting at midnight.

NEW MARKETS.

The Market Committee submitted a report that Clerks will be required for the St. Gabriel and St. Antoine Markets, but they have not made any recommendations from the applications sent in. That several members desiring to see the Markets farmed out in the ensuing Spring, the Committee deemed it their duty, before appointing permanent Clerks, to submit the question to the Council as to whether it will not be more advantageous to let out the whole of the New Markets. In this case the appointment of Clerks would not be necessary, as temporary assistance could be procured from the other Markets.—Postponed.

STALLS.

The Market Committee reported that on the 25th and 26th instant, the stalls and shops of the St. Gabriel and St. Lawrence Markets were offered for sale at public auction, and the following was the amount of the highest bids:—

St. Gabriel Market, per annum			$2,864
St. Lawrence	do	do	7,736
Papineau	do	do	2,968

forming a grand total of $13,568; being $9,118 more than the upset prices.

The Cattle Market had been completed and in operation more than a month, and the receipts during that time had more than doubled the receipts during the corresponding period last year.

The Committee, in conclusion, asked for an appropriation of $2,000 for the contingent expenses.—Referred to Finance Committee.

THE LATE CHIEF OF POLICE.

The Police Committee reported that they availed themselves of the first opportunity that offered itself of conveying to the Council the sad and melancholy intelligence of the sudden and unexpected death of Moses Judah Hays, Esq., for the last seven years Chief of Police. In doing so, the Committee deem it their duty to place on record their sense of the public merit and private worth of the deceased, and of the ability and zeal with which he has discharged the onerous and responsible duties of the said office during the period he was in command of the Force. As a slight token of their esteem and regard for the late Chief, and in consideration of his long and faithful services, the Committee recommend that the balance owing to the deceased up to the 1st January next, be paid to his bereaved daughters.

Referred to the Finance Committee.

FREIGHT SHED.

The Fire Committee reported on the application from the Grand Trunk Railway Company for permission to erect a freight shed of a temporary character at the Bonaventure Street Station, with the understanding that the same will hereafter be lined or encased with brick. The Committee recommended that permission be granted, conditionally that the delay to line or encase the said shed with brick do not extend beyond the 1st July next.

Postponed till next meeting.

SCENES IN THE COUNCIL.

His Worship said—I will not make any re[illegible] shows the necessity of confining the members to speeches of 10 minutes. At the last meeting, a single question occupied three long, mortal hours. (Laughter.)

FIRE ALARM TELEGRAPH.

Alderman Beaudry moved, seconded by Councillor Homier, to reconsider the resolution adopted on the 11th September last, relative to the Fire Alarm Telegraph.

Councillor Stevenson inquired whether such motion were in order. After the resolution had been adopted on the 11th Sept., a motion for reconsideration had been brought forward at the same meeting and lost. A second motion for reconsideration could not be brought forward.

The Mayor decided that it was not in order.

Alderman Beaudry appealed from the decision of the Chair; but, after a lengthy discussion, the Council sustained the ruling by a vote of 20 to 4.

Alderman Grenier then moved, seconded by Alderman Thompson:—"That the 20th rule of the Council be suspended with relation to the motion before the chair." This was with a view to allow the question to be reopened.

Lost by 12 to 12, a vote of two-thirds being necessary.

THE FRENCH PRESS UNREPRESENTED IN THE COUNCIL.

Councillor David moved, seconded by Alderman Gorrie:—

"That the Publishers of French newspapers, patronized by the Corporation, be requested to send Reporters to attend the meetings of the Council and report its proceedings."

Councillor David represented that at present there was not a single reporter at the Council meetings on behalf of the French Press, while the English Journals were all ably represented, and the debates reported with commendable accuracy.

Councillor Penn inquired what prevented the French reporters from coming there.

Councillor Rodden thought it would have been an improvement upon the published reports of the proceedings at the last meeting if there had been French reporters present to take down and lay before the public the precise remarks which had then fallen from the lips of his French confréres.

Councillor Contant, rising excitedly—Don't throw stones; we are quiet now. That is an insult. There are English members who have said things just as foolish and disgraceful as anything ever said by French members.

Councillor Rodden disclaimed any intention of insulting the French members, and was about to explain his meaning in French, when

Councillor Contant said he understood him perfectly, and would not be insulted in that way. He called on the Mayor for protection from insult.

Councillor Duhamel thought the motion was called for. At present they took up the *Herald, Gazette*, or *Commercial Advertiser* of a morning, and found accurate reports of the Council proceedings; but they observed that generally what Councillor Rodden, or Alderman Gorrie, or Bulmer, &c., had said was reported at length with much fidelity, while the French speeches were greatly condensed or omitted altogether. Of course in doing so those papers could not be blamed, as they only gave what they considered agreeable to their readers.

The motion was then carried unanimously.

NEW BYE-LAWS.

A new Bye-law to regulate water courses in this city was then taken up and read a first time.

Alderman McCambridge proposed to leave out the imprisonment added to the fine, "£5 and 3 months imprisonment."

After some discussion the words "or, in default of payment," were substituted for "and."

The Rules were suspended, and the bye-law was then read a second time, but, by consent, it was then left over till the opinion of the City Attorney could be had on a legal point.

Another by-law to compel the fencing of vacant lots and the removal of nuisances was also read a first, second and third time, and passed.

APPOINTMENT OF A SUCCESSOR TO MR. HAYS.

The Police Committee reported that, having advertised for applications for the Office of Chief of Police, they had received the following applications from 1. Eugene Flynn; 2. Adolphe Bissonette; 3. C. F. McKenzie; 4. Guillaume Lamothe; 5. Jacques Vilbon; 6. Jas. Civalier; 7. A. Montreuil; 8. Dom. Dupont.

After a careful examination of these applications, the Committee were of opinion that the application of Mr. Lamothe was best entitled to consideration, and they recommended that the appointment be conferred upon him. Signed by Messrs. Leclaire, Beaudry, Homier and Rolland.

Alderman Leclaire moved, seconded by Alderman Beaudry:—"That the Report be adopted."

Alderman Leclaire observed that he had known Mr. Lamothe for several years and believed him well qualified for the position. He was a man of good education and well established firmness and bravery. He did not consider Messrs. Flynn and Bissonette qualified for the position of Chief, though they had performed their duty well as sub-chiefs.

Councillor Rodden would say here what he had already said in Committee. He regretted to say that they had not in the Police force a man exactly fitted in every respect for the office of Chief of Police. If they had, it would be their duty to place him in that position. Both Messrs. Flynn and Bissonette were very active and energetic, but neither had all the qualifications required in such an officer. He would prefer that they should give a fair salary for the services required, and they might expect to get a person possessing higher qualifications. He did not mean to disparage any of the applicants. He knew nothing against any of them. He thought, however, the Council should have time to become better acquainted with the gentleman whom Alderman Leclaire had recommended so highly. It was an awkward thing for the Council to have to decide thus hastily so important a matter. The Police Committee had lost no time in advertising for applications, but he was under the impression that they would have had a greater number of applicants, and more with whom the members of the Council were acquainted. He believed that the Police Force was inadequate to the wants of the city. They had two police forces—he might say two Police Courts. The sooner this was done away with the better. He proposed to merge the Fire Department into the Police Department. He would have certain powers added to the Recorder's Court which would make it work with greater advantage to the city. He would also unite the Government Police with the City Police. He would also wish to have a House of Industry to which destitute persons might be sent instead of to Jail. Entertaining these views, he desired to wait a while before making the appointment, in order to ascertain whether it were possible to merge the two police forces into one, and unite the Fire Department with the Police Department. They would thus have fewer chiefs of Departments, and so be able to place at the head of the Joint Department a gentleman who would command respect—perhaps that might happen to be the gentleman now recommended, and perhaps not. He would lastly speak of one who had entered the Police Force 21 years ago, and so far had received no reward for his services. Twenty-one years service in almost any other department would entitle a man to be pensioned for life. But if they did not pension Mr. Flynn for life, let them not do him a great injustice. Let them neither bring in a stranger nor put a junior over his head. Let them give him a fair trial, and if he were found deficient, he (Mr. R.) would be the first to come forward, and vote for the appointment of a better. (Cheers in the galleries.)

His Worship rising—Mr. Darcy, bring me the names of those who are stamping; this not a public market, nor a fish market either. (Laughter.)

Alderman Lyman would have preferred that more time should have been given to the consideration of the question, as it was a very important post they were about to fill. On comparing the merits of the different applicants, he must say that, upon the face of it, Mr. Flynn had the advantage of being thoroughly acquainted with the duties he would be called upon to perform. With regard to Mr. Lamothe, however, he must say that what he knew of him was very favourable. He would prefer that he should be a few years older; but this was a fault which would be cured by time. He concurred in Councillor Rodden's views respecting the amalgamation of the Police and Fire Departments.

Councillor Rodden then moved in amendment, seconded by Councillor McNevin, "That Sub-Chief Flynn be allowed to continue as Acting Chief of Police, and that no other appointment be made at present."

The mover said he made this motion with the view of giving Mr. Flynn a fair trial, and, in the meantime, other gentlemen would have an opportunity of coming forward. His acquaintance with Mr. Flynn was very favourable, and his deficiencies were such as might be removed in time. Some persons had spread a report that he (Mr. R.) had been spoken of for this office. He could solemnly declare that he had no desire for the position; it would not be agreeable to him, and it was quite a mistake to circulate such a rumour.

Councillor Contant observed that there were other applications that merited attention. He maintained that there was not a man in the city better qualified for the post than Sub-Chief Bissonette. He objected to Mr. Flynn's appointment on the ground that he was not sufficiently familiar with the French language. He read a report which Mr. Bissonette submitted with his application, giving the number and names of the prisoners he had arrested since January last.

Councillor Stevenson inquired whether, since the death of the late Chief, Mr. Flynn had not performed the duties of Acting Chief satisfactorily?

Councillor Rodden answered in the affirmative.

Alderman Leclaire was well acquainted with Mr. Flynn, and must say that he was aware that he was not sufficiently conversant with the French language to carry on a conversation in it. Innocent French prisoners, brought to the Station, might be hardly treated, if unable to make themselves understood.

Councillor Bowie thought they would never have the Police Force managed properly till it was taken out of the hands of the Corporation, and placed under Police Commissioners. The Water Police were now acknowledged to be by far the most efficient body. He believed the applicant recommended by the Committee to be the best qualified from all he knew or heard of him. He considered that his youth was rather a recommendation than otherwise.

Alderman Bulmer rose to move another amendment. He doubted whether they had in the force at the present time any officer thoroughly [illegible] however, it was desirable to make a trial of amalgamating the Police and Fire Departments, and then they would obtain an augmentation of the strength and efficiency of the force. He moved, seconded by Councillor McGrath, "That the report now under consideration be left over until such time as the Police and Fire Committees shall have made a report upon the propriety of amalgamating the Police and Fire Departments, which report they be requested to make at as early a day as possible."

Alderman Leclaire thought this would cause too much delay, and he saw no good to be derived from it.

Alderman Thompson reminded the Council that seven or eight years ago, the Force had been under the command of Mr. Flynn for twelve or fifteen months during the illness of the Chief.

The Council then divided on the last amendment, and it was lost by 13 to 10.

Councillor Contant then moved in amendment seconded by Councillor Brousseau, "that Sub-Chief Bissonette be appointed Chief of Police."

Councillor Contant spoke at some length in favour of Mr. Bissonette, and then alluded to a rumour that he was seeking the office for himself. He denied the truth of it, saying "*he was too rich now to be Chief of Police.*" (Laughter.)

The Council then divided on the amendment, and it was lost by 14 to 9.

The vote was then taken on Councillor Rodden's amendment, and it was lost by 13 to 10.

On the main motion for the adoption of the Report, the Council divided, 15 for and 8 against. (We published the names yesterday.)

NOTICE OF MOTION.

Alderman Beaudry gave notice that he would move "That a petition be sent by this Council to the Legislature, with a request that the $20,000 be not granted for the purpose of erecting a Fire Alarm Telegraph within the city, as proposed by the resolution of the 11th Sept. last."

The Council then adjourned a few minutes after midnight.

THE NEW FRENCH TARIFF.

The effects of the commercial treaty with France are beginning to show. The 28th of last month was quite an exciting day for a great number of the inhabitants of Marseilles.

Hardly a person passed along the Rue St. Ferreol without stopping to inquire about "the foreign invasion." Towards noon, groups of persons were to be seen anxiously awaiting something or other. And what was the cause? Simply that for weeks past a spacious building had been gradually rearing an imposing front, destined to be a grand depot for the sale of English manufactures.

The doors opened at 3, and there was a tremendous influx of persons to view the stock, nor on the first day nothing was to be sold. Of Monday the Marseilles world had learnt what was to be found at the new shop, and from that day to this there has been an incessant crowd of purchasers.

At first sight I was disappointed at the style of goods sold. I found nothing but the cheap and useful,—blacking, hosiery, razors, flannels, corduroy, linen, beer, &c. But I soon learnt that the company had selected wisely and well. More than half their stock was disposed of during the three first days. The affair has been got up by some most respectable persons here. The director is a very intelligent man, and bears a high character. It is supported by the first mercantile house, and I am sure will prove a success.

They have selected a good position in the Bond-street of Marseilles; there are no less than 70 windows in the *facade*. There are 40 men employed, 12 of whom are English. The director gave me a list of the articles sold.

Among the principal were hosiery, stationery, papier maché, perfumery; provisions—such as cheese, beer, biscuits, sauces and pickles; Britannia metal and the japanned Birmingham ware; Staffordshire stoneware, but none of the finer porcelain, as in this article the French can beat us; woollen fabrics, but no fancy goods either in this material or in silk, the French having a superiority in these manufactures.

Carpets sell well, but the pile (*moquettes*) are thinner and narrower than those sold in France, and do not compete well with like quality of French manufacture. Druggets sell enormously. Kidderminster is not much in demand. In drapery, cotton and woollen mixtures sell well; cotton velvet especially. Of course, there is a good stock of cutlery, some saddlery, whips and sticks, a few cheap writing desks and portmanteaus, but in this branch I do not think they have been successful. The specimens I saw were very indifferent. Ready made paletots seemed to be in great demand.

Since the abolition of passports, and since a treaty of commerce was concluded between Great Britain and France, the communication between the two countries has greatly increased. During the first ten months of the present year 108,758 travellers passed through Boulogne, going to or coming from England. The number of travellers during the corresponding period of last year was only 91,785.

THE REMAINS OF THE LATE IRISH REBEL M'MANUS.

The remains of Terence Bellew M'Manus, the Irish agitator of 1848, have been brought in funeral procession to Dublin, and laid in state in the Lecture Hall of the Mechanics' Institute, there, where large crowds have daily attended to do honour to them. The patriots of Ireland, however, are greatly enraged at Dr. Cullen, who forbid the priesthood to take any part in the obsequies. The "M'Manus Obsequies Committee" do not venture to speak on the subject, but the Rev. Patrick Lavelle issues an address in the *Freeman*, supposed to be inspired by Archbishop M'Hale. We give some of the most impressive passages:—

"Alas! and alas! that in Ireland there should be a second sentiment on his claims to a national moruning and national gratitude! . . . He, the Catholic and the patriot, the disinterested, the devoted, and the brave, he is denied the honours accorded to the Castle-slave, time-serving, hypocrite, and wriggling sycophant, whose creed is to sell his creed and his country together to the first buyer for prompt payment.

"Good God! M'Manus denied a momentary resting-place in any church in Ireland, though those whose fathers built those churches would shed the last drop of their blood to honour his memory! Oh! why not have brought those sacred remains to the fane of Jarlath, that there the accents of tens of thousands of voices might mingle with the noble pronouncements of patriotic Cloyne in honouring the man who died a martyr to his country's love? Oh! Ireland! is this your act? If not, in the name of creed, country, and people, speak out your sentiment. Did M'Manus die the banned of the Church? Then, my Lord Bishops of New York and Cloyne, explain your ecclesiastical homage to his memory. The patriot died as he lived, true to his faith as to his country, anointed and annealed, in peace with the world and with God; with all except the enemy of all, the cruel oppressor of his dear native land. Yet is he denied in that dear land the honours heaped upon the coward, the traitor, and the slave; the honours which to-morrow would be granted to those men who, for gain and interest, swore his precious life away, and would swear to-morrow mine and that of any bishop in Ireland.

"St. Malachy, whom we this day commemorate! St. Laurence O'Toole, patriotic Oliver Plunkett, martyr to thy patriotism! were you to-day alive would you deny Terence Bellew M'Manus a night's rest before the lamp of your sanctuaries? Oh, Ireland! Ireland! how art thou fallen. When shalt thou rise! Is this thy act? If not, speak out? Dare to speak it, Ireland!

"Dear M'Ma[illegible] be thy memory in every land where freedom still dares to breathe. Thou art to-day ostracized in the heart of thy native land; but thy living countrymen have no part in the dead. Nay, thou art still dearer to them, far and far, from the attempt to dishonour thy name and thy grave, and the principles for which thou hast died, than thou ever wouldst have been had the dim lamp of the sanctuary been permitted to cast its faint and melancholy light on thy precious remains. But thou are enshrined in our hearts a thousand times more than ever; and I, for one, vow never to enter the city in which thou art thus proclaimed on thy bier almost as I am in my parish, without pouring out my soul at thy grave, and vow a new vow each time of hate and hostility to thy enemy and mine, the enemy of our creed, our country, and our Holy Father."

FAMINE IN IRELAND.

(*Kilkenny, Nov. 5, Correspondence of the Dublin Evening Post.*)

It is only just now that the last of the oat crop has been got secured, owing, in the first place, to the lateness of the growing season, and, secondly, to the wetness of the harvest. It is really lamentable to reflect on the difficulty which must exist in all directions on the part of the farming classes to meet their engagements, which, at other times and under more favorable circumstances, would appear to them of very inconsiderable magnitude. With scarcely half a crop of potatoes—the keeping properties of which are still a question of much doubt—with the same falling off in the other staple article of farm produce—wheat—and a barely average oat crop, which has been but very imperfectly saved, it will be with great difficulty the small tillage farmers will struggle through the coming year.

On Saturday, November 2, the clergy of the Deanery of Castlebar met at Armstrong's Great Rooms, Castlebar, the venerable Archdeacon Browne in the chair.

The following resolutions were unanimously adopted:—

Resolved,—That the disastrous effects of the present inclement season, in the destruction of the potato crop, have created among the people of this district the most alarming anticipations of an impending famine, vitally affecting the interests of all classes in the community. That we have carefully investigated the grounds of the alarm, and we feel it our bounden duty to the people, as well as to the country, to state that scarcely one-fourth of the potato crop of this year is safe from the ravages of the blight, and that even this small remnant is so inferior in quality as to be unfit for human food. That no human foresight could have provided against a calamity so unforeseen as the destruction of the food of an entire people; and, therefore, that the salvation of the people demands that the most prompt and comprehensive measures be adopted by the government to avert the horrors of famine with which we are threatened. That the unprecedented scarcity of fuel this year cannot fail to add considerably to the privations which the poor [illegible] cured, fever and dysentery, created by damp and cold, will spread to an alarming extent among them.

THE PRISONERS AT FORT WARREN.

(*From the Boston [illegible]*)

By orders from Washington, nine of the political prisoners incarcerated at Fort Warren were discharged from custody yesterday afternoon, upon their taking the oath of allegiance.

They are all but one from Maryland, and their names are as follows:—S. B. Frost, John L Bouldon, David Lucchesi, George Thompson, Robert Roe, Charles D. French, John J. Heckhart, Geo. W. Landing and Leonard J. Quinlan.

Five other prisoners, whose discharge had been ordered by Secretary Seward, refused to take the oath of allegiance, as follows: W. G. Harrison, Robert A. Carter, Thomas Shields, Michael J. Grady and Geo. A. Appleton, and are retained in custody.

Col. Heckhart was a member of the Maryland Senate, and Messrs. Landing and Quinlan of the Maryland House of Representatives.

The men were arrested at different times for various acts of treason such as carrying despatches, &c., &c. They appear to be active and intelligent. Some of them express themselves as exceedingly disgusted with secessionism, finding fault at the manner in which they have been treated by the leading secession prisoners at the Fort.

They say that when they were first arrested the leading prisoners c[illegible]ed them "goodfellows," but now, when they were about to be discharged, they refused to furnish them with money to carry them home, and otherwise treated them coldly.

One of the prisoners, S. B. Frost, was taken at Fort Hatteras. He is a young man, a native of Connecticut, where his father resides. When the rebellion broke out he was keeping school at the South. He says he went to Fort Hatteras to visit a friend among the officers of the garrison, and while there the place was stormed and captured. That he might be better used than the bulk of the prisoners, he claimed to be the colonel's orderly, and by doing so he was "messed" with the officers. After their arrival at Fort Warren he wrote to Secretary Seward a statement of his case, and was therefore placed upon the list of political prisoners. An investigation by order of Mr. Seward resulted in his discharge, and he now goes home to Connecticut. He says that while there are some ignorant men among the Hatteras prisoners, the majority of the privates are persons of ordinary intelligence, and some of them are wealthy citizens.

Mr. Quinlan is a middle-aged man of intelligence, representing a district [illegible]en miles from Baltimore. He says he has never been a secessionist, although he was opposed to the war, and that not more than seven men in the Legislature would have voted for secession ordinance. Mr. Q. was in feeble health while at Fort Lafayette, and did not expect to leave the place alive. The accommodations are better at Fort Warren, and his health has somewhat improved. He was the only man among the political prisoners who was sick, though several are consumptive.

Mr. Landing, who is a wealthy land-owner, was a representative of Worcester county.

One of the discharged men was a member of Marshall Kane's police force, a young man asked to stay in the fort till he could send to Baltimore to get money to return home with, but this was not allowed.

The prisoners unite in speaking well of Col. Dimmick, whom they describe as a soldier and a gentleman. They also speak of Lieut. Beal, the officer having especial charge of the prisoners, and of the 24th regiment belonging to the garrison. The quarters are in every respect better than those at Fort Lafayette, and the facilities for obtaining articles desired to purchase have been satisfactory.

Prisoners are generally a little cross for the first day or two after arrival, but this wears off, as they find that their companions are cheerful. Most of them have acquaintances among the prisoners. Pa[illegible] French, the notorious swindler, found friends, and made himself at home from the first, evidently well pleased with being in good society.

The leading rebels are [illegible]at inclined to be exclusive, though they [illegible]se freely with the others, and endeavour to prevent any from taking the oath of allegiance. Mr. Carter, one of those who refused to take the oath yesterday, is a wealthy citizen of Baltimore and was a member of the Legislature.

They have many stories of amusing incidents. As an example the following:—One evening while th[illegible] was at Fort McHenry, a prisoner was [illegible] in, and introduced to his companion[illegible]acon, of Delaware. One of the prisoners [illegible] his hand, and with much solemnity [illegible]id I understand that your name is Ba[illegible] "Yes," said the new-comer, "my na[illegible]on." "Then," said the other, "I am to inform you that you will be very well [illegible]re you get out." Mr. B. didn't see the joke, and doesn't yet, although he has been [illegible] in custody.

Among the prisoners [illegible]gyman, Rev. N. G. North of Virginia. [illegible]ligious services on each Sabbath, which are attended by most of the prisoners and [illegible] officers of the garrison.

We understand that [illegible]idell and Mason were much pleased upon learning that they would be allowed to read newspapers. They had expected to be deprived of that privilege. They have been introduced to most of the political prisoners with whom they were not previously acquainted.

The Hatteras prisoners have faith in the success of the rebels, and they frequently sing to the tune of "Dixie," a verse composed in part of the following lines:—

"We have no fleets, we have no navies,
But we put our trust in old Jeff. Davis."

The soldiers of the garrison are almost as much prisoners as those whom they guard. Their walks are limited, and their conversation must at all times be circumspect. They are not allowed to speak to prisoners except in performance of duties.

TRADE AND COMMERCE.

Current Topics---Finance and Trade.

HERALD OFFICE,
Thursday, Nov. 28, 1861.

We have no arrivals this week, and only one departure, viz.: the "Conway," for Liverpool, fully laden, 1156 tons.

We may now fully consider our direct trade by water as closed, as with the exception of a few wood barges and some river steamers, we shall see nothing more in our Port for the next five months. The harbour presents a very desolate appearance, all the sheds and temporary buildings on the wharf having been removed.—With the exception of some river craft and some dredging machines, no sign of life is visible, and all that remains is to point to what has been our trade during the past season, and later on to form our ideas as to the prospects of the coming year.

At the Canal some little animation still exists, and the arrival of Produce continues, though of course on a very limited scale. Two or three steamers are still due, and a vessel called the "Niagara," laden with grain direct from the West, for Liverpool, is daily expected, she being over six days out, since leaving the Welland Canal, having been detained by the strong easterly winds that have recently prevailed, and which, we regret to learn, have also extended to the Gulf, accompanied with heavy snow storms. We fear that a considerable amount of damage will be done to the vessels on the way home. So far, we have only heard of one accident lately, the "John Pink," laden chiefly with peas; we see by a telegram to-night that she is discharging her cargo, and will probably be got off without much injury. The open weather we have been favored with here has proved of the greatest advantage to enable vessels to get away. We can only trust that the large number of vessels detained here so late may safely clear the Gulf before the winter in those more northern parts fairly sets in.

Last week we gave a general analysis of the tonnage that arrived here last year, in comparison with that of the previous one. This week we give a complete one of the distribution of our large receipts of Produce, and we feel sure it will prove of considerable interest to our mercantile readers, as they thus are enabled at a glance to see to what Ports the bulk of our exports flow:—

Our Produce market has been dull, prices, however, have ruled steady. There are no market. We give three letters from our country friends respecting the state of crops in their districts. We are sorry to perceive that taken generally the letters of our correspondents are by no means encouraging respecting the agricultural prospects this Fall; and there will apparently be a considerable falling off in the aggregate quantity of grain raised as compared with last year.

WEST HAWKESBURY,
Vankleek's Hill, Nov. 20, 1861.

We have received from a friend of ours following accounts of the Crops in his district:—

Wheat will be about ¾ of crop compared with last year.

Oats an average crop, fully equal to last year. Corn crop good in point of quality, but not more than ½ of last year. Peas an average crop. Barley only about ½ quantity sown, and in comparison with last year; will yield about ½ of last year. Hay a good crop, and well saved.—Potatoes about ¼ of a crop, and very indifferent in quality. Turnips and carrots generally good.

TOWNSHIP OF ALICE,
County of Renfrew, Nov. 18, 1861.

SIR,—In answer to yours of the 1st November, I will endeavour to give you as correct an account of the harvest in the neighbourhood as I have been able to collect. Owing to the very wet weather, some crops have not been as good as was expected, from what has been threshed. I think the following is a pretty fair statement:

Pease about 15 bushels per acre; Oats 25 do. do.; Wheat 23 do. do.; Hay has been what may be called an average crop; Potatoes is a very fair crop, but there are a great many of them rotting since they were taken out of the ground. With regard to other root crops, they are not raised in sufficient quantities to make any return.

DAWN MILLS, Nov. 18, 1861.

SIR,—In answer to your circular of the 1st inst., I have to state that the crops in this neighbourhood (in the Townships of Dawn and Camden), are a very fair average. Fall Wheat is a good sample; Spring Wheat not so good; Indian Corn good, not much planted, the frost not injuring it, as has been the case for a number of years; Oats injured by the summer drought, but a fair crop; Rye very little grown here; Potatoes, the greater part rotten, some farmers have not dug them, but turned in the hogs; Turnips, Carrots, &c., a good crop. We had a very wet spring; nearly two months in summer with scarcely a shower; a wet Fall, when it rained fell very heavy, but on the whole, the weather was warm and pleasant, as it has been to-day, we had the first snow on Friday evening last, and a little this morning, but it has all melted.

In Toronto the receipts of wheat last week have been considerable, mounting up to 12 @ 15,000 bushels Fall wheat, and about 8,000 bush. Spring. Prices of former has slightly given way. Spring remains steady. There has been a fair demand for other descriptions of grain and the supply has been good. The receipts of Flour have fallen off and sales are effected with difficulty, owing in a great measure to the stagnation of this market. To make sales holders have to accept lower rates. Respecting the English markets we quote from the *London Economist*.

Mark Lane, Friday Evening.

The leading markets of consumption have continued to be scantily supplied with home-grown wheat. Both red and white qualities have changed hands somewhat freely, at, in some instances, an advance in the quotations of 1s per quarter, and at which fair clearances have been effected. In foreign wheat---the imports of which have fallen off---a fair average business has been passing, at late currencies. We have very little change to notice in the value of either English or foreign barley; nevertheless, selected samples have commanded extreme rates. Malt has maintained its previous value; but the demand for it has been of a retail character. Good sound oats have moved off steadily, at full prices; but heated qualities have ruled in favour of buyers. Both beans and peas have moved off steadily, and there has been a good consumptive inquiry for flour, at full quotations.

The imports of foreign produce into France from the Black Sea ports continue on a very extensive scale. The wheat trade has, therefore, become heavy, on easier terms. All spring corn has commanded very full prices. Flour, however has met a fair inquiry. Heavy shipments of produce continue to be made from New York.

In Scotland, there has been a moderate demand for wheat, at about previous quotations. Barley and oats have changed hands freely, at very full prices; and most other articles have sold on former terms. The shipments of produce to the South have been on a limited scale.

Advices from Ireland state that nearly all kinds of produce have continued in fair request at very full prices. The potato crop is turning out well in some localities; but, in others, the losses are heavy.

A fair business has been done in our *Grocery Market*, and the sale at Cuvillier & Co.'s went off with considerable spirit at fair prices. On the whole considering the season of the year we can safely say that over an average amount of goods have been sold. *Sugar* may be quoted if anything a shade higher, although in the beginning of the week they had a downward tendency. *Teas* are very dull. Western men generally being largely stocked. We notice prices of Teas both in England and New York are advancing, and in the latter there is considerable speculation going on. *Coffee* and *Rice* may be quoted unchanged. *Molasses* in demand, but no change in prices. *Oils*—little doing and scarce. No *Fish* of any consequence in first hands and prices looking up. *Salt*—nothing doing. *Tobacco* keeps very stiff, but only retail demand, prices being too high to admit of any speculation.

We notice the suspension this week of Messrs. Louis Marchand & Co., we believe that the liabilities are heavy. The creditors have not as yet been called together as the books are being made up and a balance sheet prepared.

The following rates of commission adopted by the Chicago Board of Trade are from Well's *Commercial Express* of October 8:—Commission on sale of Grain, &c.—Wheat, 2 cents per bushel; Corn, Oats, and all other grains, 1; on sales of other products, or property of any kind, over $100, 2½ per cent; under $100, 5. The above without advance or acceptance; that to be subject to agreement. Without agreement—for advancing, 2½ per cent; for accepting, 2½; for guaranteeing sales, 2½. On withdrawal of consignment 2½ per cent on amount of expenses incurred, and 1½ on invoice. On Charters 2½ per cent on freight list. For effecting Marine Insurance, the return premium and script. Commission on purchases of Grain, &c.—For purchasing Wheat from Canal Boats or Warehouse, 1 cent per bushel; from Railroads in small lots, 2; for purchasing Corn by cargo, 1; Oats by cargo, ½; Corn, Oats or other grain in less quantities than cargo, 1; all other property over $100, 2½ per cent; under $100, 5; for negotiating bills (without agreement) 1½. All expenses actually incurred to be added. The risk of loss by fire (unless written order to insure), and of robbery, theft, and other unavoidable occurrences, if the usual care be taken to secure the property, is in all cases to be borne by the proprietors of the goods. Interest to be charged as per agreement. Without agreement 10 per cent to be the rate.

The English news is important. There is little doubt but that there will be a severe famine in large districts of Ireland, owing to the almost total loss of the Potatoe crop. We should have thought that the painful experience of 1846 and 1847 would have prevented them ever again relying on such an uncertain means of subsistence as the Potatoe crop has of late years proved to be. It was then hoped that the Irish farmer would turn his attention to the raising of other sorts of grain, and more especially of cattle, for which the country is eminently fitted, and for which there is always a ready market in England. We trust active measures will be taken to prevent the repetition of the sad scenes of 1846 and 1847. We regret to notice a strike amongst the Cotton operatives, this, at the present moment is certainly a most illtimed movement, and will cause great distress among the manufacturing districts. We quote from the London *Economist* respecting the money market:—

DISCOUNT AND MONEY MARKET.---The Directors of the Bank of England yesterday lowered their rate of discount from 3½ per cent, at which it was fixed on the 19th of September, to 3 per cent.

This alteration has exercised no effect in the discount market, the general rate being still much below the Bank. During the greater part of the week the best bills could be negotiated at about 2¾ to ⅞ per cent, but to-day, owing to some exceptional cause, there was a slightly increased inquiry, and the usual terms for three months' paper were 2⅞. This afternoon the applications at the Bank were more numerous than usual. The small number of commercial bills offering is still the subject of remark, especially as regards inland trade. The following table shows the rates of discount currently charged for first-class paper, but the terms necessarily vary at different establishments:---

30 days	2¾ to ⅞ per cent.
60 days	2⅞ per cent.
3 months	2⅞ per cent.
4 months	3 per cent.
6 months	3¼ per cent.

On the Stock Exchange, yesterday, loans on Government securities were more inquired for, and 2 to 2½ per cent. was asked. To-day, however, the supply is ample at 1½ per cent.

The great topic of conversation to-day on change is the telegraph from Halifax respecting the arrival of the steamer "Himalaya" with troops, and bringing intelligence of the arrival of the steamer "Trent," and the dispatch of a frigate to America. The pros and cons of the possibility of such an event are so fully discussed that we need not say a word on the subject.

There is no news of any importance from the seat of war in the States. The naval expedition does not appear to be prospering as well as at first. On the Potomac the position of matters remain unchanged.

Respecting financial affairs we quote from the [illegible]

It seems to be taken for granted that the Tariff will engage the early consideration of Congress, and that the unfortunate Morrill Tariff will have to give place to some other, considering the universal opposition which the existing Tariff has met throughout the business community in nearly all the commercial arenas in this city and elsewhere. There can be but little doubt that such will be the case, though the people's representatives at Washington may view things in a vastly different light from the business men of this city, and refuse to legislate upon it. That the existing Tariff has not yielded a greater revenue, we think, should occasion little surprise, when the fact is taken into consideration, that ever since it became a law, the country has been either in a very disturbed state or actually engaged in civil war. Of course this state of things has contributed largely towards reducing the trade of the country—and, in our judgment, any Tariff which is in any way protective will not enlarge the revenue to any considerable extent while the war lasts, unless it shall be made to seem clear that the rebellion will surely be crushed at an early day.

As regards our *Financial affairs*, the money market is hardly so easy as for some weeks past. As yet there is no pressure, but the Bank and other money dealers are evidently disposed rather to curtail than extend loans. The reasons for this are in our opinion the following:—Firstly the natural stagnation of trade consequent on the closing of the navigation. Secondly, the state of the roads at this period of the year, being neither fall nor winter, preventing country dealers coming to town. Thirdly, the necessary caution arising out of the peculiar state of the political world; the money market being always the safest barometer to point out coming political storms; and lastly, the usual tightness at the end of the month to meet liabilities generally falling due at the commencement of the coming month.

Sterling Exchange has again advanced, and it is difficult to buy to-day Bank bills under 9½ per cent prem. Private bills may be quoted at 8¼ to 8¾ per cent prem. The Exchange business of the week has been only moderate, bankers not caring to purchase at the advance. The sudden rise in the rate reported from New York has not been maintained. Some of the leading Bankers there held for 9½ per cent in the beginning of the week, but are now drawing at 8¾ to 9 per cent. Drafts on New York are still very plentiful at ¼ to ½ per cent prem.

The business in stocks is quite trifling.

The weather has been tolerably open, there having been only two snow showers. The City Horse Railroad has fairly started, and we trust it will come up to the sanguine expectations of its spirited proprietors.

Review of the Montreal Grocery Market

MONTREAL, 28th Nov., 1861.

In our Wholesale Grocery Market transactions of the week have been quite of a retail character, both with the city trade and Western buyers.—Prices, with few exceptions, are unaltered.

SUGAR experiences a moderate enquiry, and brings $7.50@$7.70 for good Grocery samples, and $7.75@$8.00 for Bright, at which rates holders are unwilling to press sales, and by many an advance is required. Refined are steady in value. The stock now held in second hands, with the exception of Dry Crushed, is very small, and some descriptions are not obtainable outside the factory. Messrs. Redpath's price list quotes Loaves at 11⅝c; Ground and Dry Crushed, 11¼c; Extra Ground, 12c; Crushed A 10⅞c; and Yellow No. 2 8¾c; equal to 60 days credit.

MOLASSES.—Small sales have been made both in Clayed and Muscovado, at rates favorable to holders. The very limited demand throughout the past two months is by many attributed to the low price of butter.

SYRUP.—Only a moderate business doing at the decline noticed last week. The quotations at the refinery are unaltered, say 45c for Extra and 43c for Standard.

TEA.—Twankay and Hysons continue in favor at full rates. Other descriptions meet a limited enquiry at last week's prices.

COFFEE.—The advanced rates noticed in our last report have been confirmed by sales during the week and a decided firmness on the part of holders.

TOBACCO.—The sales are generally confined to ordinary samples "10's," and well made "half-pounds" at very full rates. In Leaf nothing has transpired.

RICE.—Some few parcels Arracan have been done at last week's quotations.

ROSIN.—Is well enquired for at $5,25 per barrel for common, at which figure holders are un willing to part with what little they hold, and are now requiring $6 per barrel, which is under the cost of importing. Turpentine: None here. Tar: None in first hands.

OILS.—Fish Oils of all descriptions are scarce and have advanced in value. Linseed is only offered at advanced rates. Olive is without change. Salad is in good supply and favors buyers.

FISH.—Is very slow of sale at last week's rates.

SALT.—Is firm at 65c for Coarse and 95c for Stoved.
