St. Joseph's Manor meeting

An information meeting of relatives and friends of the residents of St Joseph's Manor was held on Sunday, November 30. The purpose of the meeting was to bring these people up to date on the financial situation, and consequently on the staff work load. Some of the facts presented by Cecil Vibert, Director General, and Sister Imelda Duquette, Director of Nursing, were as follows:

-With the present proposed budget for 1980-81 a deficit is forecast of approximately $35,000.

-A calculation of nursing work hours presently at St. Joseph's Manor is: to provide proper basic care, approximately 80 hours per day are needed. The present staff provide approximately 53 hours.

-Increases in pay have been authorized but the funds to pay these increases have not been received.

-Some residents, classified chronic, will have to be moved to the Aylmer-Hull area if more money for staff is not allocated.

- All details and information have been presented to the authorities; to date, the word is that studies are being made. Contacts have been made with C.S.S.S.O. in Hull; Honourable Denis Lazure, Minister of Social Affairs, Jean-Guy Lariviere, M.P., the Department of Quebec responsible for finances at St Joseph's Manor.

- $6,000 was received through a special arrangement. This will provide a nurse's aide for five hours per day (6 days a week) until the end of the fiscal year, 31 March 1981. Unless authority and money is allocated, this position will cease to exist at that date.

A committee was formed to look into temporary and immediate solutions. This committee will try to organize volunteers to help to feed residents; and to organize fund-raising activities; - to co-ordinate an effort to have people write to the proper authorities and complain about the lack of action to correct the present situation;- contact service clubs and church groups in the area to request their assistance, either financial or otherwise.

Presently the proper basic care for the residents at St Joseph's Manor is not adequate, due to lack of staff and money. Concern is being expressed by the families, friends, staff and administration.

Any individual or group can help by offering their services to help in the Manor itself and to help raise funds.

For more information on how you may help, call 648-5852.

Opening of Youth Center at Coulonge

As of November 28, a Youth Center has been open for the Youths of Mansfield and Fort Coulonge.

The Centre is functionning with two employees at the moment and is seeking volunteers to help out as of January 31st, 1981, because this is when the grant ends. We are asking parents and clubs to get involved either financially or morally to help the teenagers of their community.

If interested, please contact Ginette Ladouceur, 683-2575 or Christine Bérubé Romain 683-3474.

Needed are ping-pong table, record player, and furniture. So if you are thinking of throwing things away think of us first. Thank You. Mansfield and Fort Coulonge Youth Center.

Radio Pontiac re-elects entire board of directors

Confidence in the policies and practices of the present board of directors of Radio Pontiac was demonstrated last Thursday night at the annual meeting and election. Thirteen people were nominated to fill the five seats which became vacant but after the vote was taken the five incumbents retained their seats by an overwhelming majority of the votes. The re-elected members are Guy Ladouceur, Rosaleen Dickson, Hector Soucie, René Latreille, and the chairman André Bellerose. Other members of the board are John Evans, Jocelyn St-Denis, Solange Léonard and the General Director Louis Landry.

According to a modification in the constitution, passed at this same general meeting, there may be one more board member elected to represent the employees of the station. This position is still to be filled.

In his opening remarks, president André Bellerose welcomed the large number of members who came out to the annual general meeting and particularly thanked all those who had been working throughout the past many months for the realization of a community radio in the Pontiac. This included board members, employees and volunteers Jocelyne Laroche, Rodrigue Beaulieu, Marcel Belec, and Marc Trottier. He also invited everyone to stay after the meeting for a reception where sandwiches and cakes were served by Mrs Aldéo Mousseau and her daughter Mrs Solange Léonard, smoked trout and sturgeon provided by Louis Landry through the courtesy of La Boucanerie Larouche, and refreshments supplied by Yvon Roussel who is the O'Keefe representative in the area.

Also after the meeting all the members present were delighted to view the modern studios and examine the equipment which will be used to produce and air radio fare for the County. John Pitcher, engineer responsible for the choice and installation of the equipment received many compliments.

After his welcome and his invitation to the members, Mr Bellerose introduced Louis Landry who presided for the rest of the meeting and the election of officers, and the meeting proceeded according to the agenda. The firm of Pitchard, Laflamme and Potvin was engaged for another year to audit the books of the organization.

Plans for 1981 include the completion of purchasing and installation of studio equipment, hiring of a full staff for the station, organizing a County-wide program committee, erecting transmission equipment on three towers and the eventual opening of the station and going on the air.

Although it has taken some community radio stations as long as seven years to get on the air it is expected that Radio Pontiac will be able to be broadcasting by March, 1981. Optimistic reports had estimated an earlier opening date but due to many contingencies which had been unforeseen the date has been changed. Even the March date could be wrong if the suppliers are not able to meet the needs of Radio Pontiac in time.

Despite all these postponements and setbacks, the board was in an optimistic mood this week, particularly in view of a grant promised from the Federal Government to assist in paying personnel during the start-up period and in training others to continue.

Along with the vote of confidence in the present board of directors, the general annual meeting also expressed confidence in the general director when a motion to reopen the position was resoundingly defeated. Other staff now at work, or soon to be activated, include secretary Mrs Solange Léonard, advertising salesman Robert Bertrand, record librarian Carl Morin, technician Marc Trottier, studio assistant Marcel Belec, ad script writer Denise Drago. A total of fourteen employees is anticipated with the addition of announcers and animators in the next few months. Plans are being made to include an on air opportunity for amateurs who would like to produce their own radio programs. Volunteers will also be needed to help with the 1981 membership campaign.

Radio Pontiac offices and studios are located in the St Pierre School in Fort Coulonge, donated by the Pontiac School Board. The mailing address of Radio Pontiac is Radio Pontiac, Fort Coulonge, Quebec, JOX 1VO. The telephone number is 819-683-3155. Broadcasting will be in both French and English. All applications for work at the station should be addressed to the General Director, Mr Louis Landry, and all queries about advertising may be made to Robert Bertrand or Mr Landry.

Anyone who would like to take a course in Community Radio should contact Mr Landry as well. A course will be given, in French, at Rouyn, starting in February. The course is free, sponsored by Canada Manpower, and travelling expenses are also paid by the Federal government as well as expenses at Rouyn during the course. There is no age limit but since the course is open to all Quebec it would be wise to apply early if you are really interested. Taking the course does not guarantee a job but the training would be valuable for anyone thinking of working in community radio. The course will be 25½ hours a week for seventeen weeks. Leave your name and phone number at Radio Pontiac or talk with Mr Landry is you're interested.

Alex Paterson to address Western Quebec Workshop- The Adult Education Service of the Protestant Regional School Board of Western Quebec (PRSBWQ) has been very active this season. In response to a request from parents in the area, a series of free workshops on parent participation in education was organized this fall and will continue through February.

Four introductory workshops were held last month for new or recent School Committee members. The sessions included information on what a School Committee is, how it is organized, and what its role in the community should be. Workshops were held in Buckingham, Wakefield, Shawville and Lucerne.

A series of advanced workshops begins this month, with the first session scheduled for Tuesday evening, December 9th, at Philemon Wright High School in Hull.

Guest speaker for the evening will be Mr Alex Paterson of the Positive Action Committee in Montreal. Mr Paterson, a well-known lawyer and activist in Protestant education in Quebec, will address the topic "Rights and Responsibilities of Parents and Children" from both a legal and philosophical point of view.

Mr Paterson will also deal with the issue of how to effectively organize volunteer action in education. Parents as well as School Committee members are most welcome to attend what promises to be an interesting evening. The program begins at 7:30 p.m.

More workshops are scheduled for January and February, and anyone wishing additional information can call the Protestant Regional School Board of Western Quebec Director of Adult Education Mr H.E. Bashaw at 819 770-0132.

WARNING TO THE WEST

Anyone in Western Canada who is contemplating the possibility of separation from Canada should think twice. Quebec wasted untold manpower, money and other resources on that dangerous game and it may take decades for this Province to recover, if indeed it ever does.

The disgusting financial drain and loss of good Quebec citizens suffered here during our flirtation with so-called independence should serve as a horrible example to the West.

What great progress our Province could have been making instead of the social and moral stagnation which accompanied the separatism threat! What better use of time and money we could have enjoyed instead of undergoing that menacing referendum!

If there had been any way we could have avoided that whole awful experience everyone who loves Quebec would have been happy but, alas, we were caught in the trap and had to work our way out.

The West hasn't gone beyond the point of no return as yet. Surely they can take warning from what happened here and avoid the same pitfall. Our Western cousins probably have no idea how dreadful the whole exercise has been here and how irreversible the damage. All we can do is tell them and hope they'll get the message before it is too late.

READERS ARE ALSO WRITERS

THE EQUITY is made up of news from many sources. We receive items in the mail every day from all over the place. Some are worth publishing because they would be useful for our readers to see. Lots of stuff is thrown in the wastebasket because it has no particular value to our particular readers, or because they appear in every other paper so there is no reason to waste our few pages on them.

Most of what appears in THE EQUITY is written by our own readers. These include the columns sent in weekly by our special correspondents in each community, and also the articles sent in by club secretaries and the minutes of municipal councils, and the articles by sports organizers and fans, and the information from the social workers throughout the County. Then there are the informative articles from the Agriculture office and the Forest Fire Protection services, and the Quebec Police Force, among others.

But another very welcome source of news is the individual reader who wishes to use THE EQUITY to convey some item of news to his friends and neighbours around the County and across the country - wherever THE EQUITY is read. These readers who also write are the backbone of Canadian weekly newspapers. Their contributions are always welcome.

Shawville Youth Center

We ended the month of November with an exciting evening at the Roulathèque in Hull. Forty youths participated with great enthusiasm.

On December 1, a meeting was held with the organizations and parents to discuss the possibilities of volunteer work at the Center. We finalized the meeting with the agreement that the personnel would send a letter to all parents asking for their help with the supervision. This letter will be circulating in Shawville during the month of December. We would appreciate your co-operation in the matter since this will decide whether the Center is to remain.

TO WHOM IT MAY CONCERN:

In order to keep our Youth Center open, we need you in volunteer work.

As of now the Center is being run by full-time employees which are paid through a Government Grant. However, the grant ends January 31st, 1981 and in order to keep the Centre functioning, we must rely on volunteer help.

The duties consist of being present in the Center in order to assist and help the youths in any way. The doors are open from Thursday, 6:00 pm to 8:00 pm, Friday 6:00 pm to 12:00 pm, Saturday 1:00 pm to 11:30 pm., and Sunday 1:00 pm to 4:00 pm.

If you would like to drop in to see what all is involved, please feel free to do so.

PLEASE FILL IN THE FORM

☐ Yes I would like to volunteer my time on:

☐ Thursday ☐ Friday ☐ Saturday ☐ Sunday

☐ No I am not interested.

Please check of the day or days that you could volunteer your time!

P.S. If in need of more information on how you can help, please call us. Our number at the Centre if 647-2630. Or you can mail your reply to Youth Centre, Shawville, Quebec, J0X 2Y0.

Shawville Youth Centre

All organizations or groups who want to discuss with us feel free to do.

We are starting the month with a Ping-pong tournament in which the winners will receive a trophy. Wheels are in motion on our Christmas festivities. All decorations would be greatly appreciated. Our Christmas dance will be held December 23 at 8:00 p.m. Admission is $1.00. A Snow Queen and a Snow King will be chosen that evening.

A bottle drive will be organized for January 3, 1981 and this money will be used to pay the amount asked by the School Board for the use of their gym - $250.00 damage deposit. Once again your co-operation is asked in saving your bottles.

Our doors will be closed on Christmas eve, Christmas Day and the day after. The Same for New Year's.

Have a Merry Christmas.

The advent wreath

The Advent Wreath is a wreath made of evergreens. It may be placed on a table in the kitchen or living room. Fastened to the wreath are four candles standing upright, at equal distances from one another. These candles represent the four weeks of Advent. Three are purple and one rose colored or four white candles with purple ribbon around them.

Daily, at a certain time (usually in the evening), the family gathers around the Advent Wreath for family prayer. Every Sunday of Advent one more candle is lit.

The Advent Wreath reminds the faithful of the Old Testament when humanity was "sitting in darkness and in the shadow of death" (Lk 1:79); when the prophets, enlightened by God, announced the Redeemer; and when the hearts of men glowed with the desire for the Messiah.

The Wreath- an ancient symbol of victory an glory- symbolizes the "fulfillment of time" in the coming of Christ and the glory of his birth.

The Circle- is a symbol of eternity and the never-endingness of God.

The Evergreen- a symbol of eternal life and the never-changingness of God.

The Candles- Symbol of Christ- the light of the world: Christ who overcomes the darkness (sin). As we draw near to His coming, we are drawn more and more into His life, symbolized by lighting another candle each week until all four are lit.

Heritage Campus - now part of adult education network

1981 marks an important date for adult community of Western Quebec. For the first time, Heritage Campus is trying to reach one of its longtime objectives by offering to anyone, 18 years or over, - its expertise.

Throughout North America adults are discovering the pleasures of investing a few hours a week in a structured, but made-to-measure course, and of cashing in on its dividends. Heritage Campus is now part of this adult education network.

Anyone living in the region can take full advantage of this special opportunity. The opportunity to learn practical, new, day-to-day skills, to train for a new career, to enrich already professional or special interests.

Flexibility is the name of the game for Heritage Campus. It will do its best to accomodate any group of people expressing a need for training or re-training in some field, or for a specific type of course; even if it means sending one of its staff members to your region. Another is the campus's objectives being to have many learning centers throughout Western Quebec.

Heritage Campus wants to accomodate:- adults working toward their CEGEP diploma, or those wanting to finish their high school (these are credited courses which could lead to a university degree); Adults interested in professional development programmes: business administration, secretarial procedures, organization psychology, etc. (these could lead to professional certification); adults wanting special-interest courses: French, photography, personal development, etc.; -adults registered in cours- -onsored by Canada Manpower Center.

Counselling service is available to any student. Qualified experienced personnel will teach the courses. All this being offered at no cost for the courses themselves, and just a minimal charge for inscription and materials.

The Bryson Influence

The Bryson family had continuous influence in Pontiac politics from 1855 to 1937. They were represented in every level of politics: municipal, provincial and federal. After the deaths at the turn of the cedntury of his father and his brother John, George Bryson Jr. was the sole representative of the powerful family. His record alone is one of extensive and prolonged influences: ☐president of the Bank of Ottawa in the century's first decade; lumber dealer; and member of the Quebec Legislative Council for half a century, serving under five sovereigns, eleven lieutenant-governors and ten prime ministers.

Land dealing was in some ways a sideline of politics at the time but, as has been seen, the family's early establishment in the area was also important to their position. In addition to political influence, the Brysons also affected the economic climate of the Upper Ottawa Valley. Still involved in the lumber trade, the Fraser-Bryson Lumber Company was a major employer in the Mansfield area. The influence held by employers is well known. Originally, a man had to declare his vote at the front of the election hall, and usually "you'd be fires if you didn't vote for the company man." (Hugh Proudfoot) As more people sought the use of credit with which to buy a better farm or a bush lot to cut, the resident banker held the means with which to finance a better future, and also had the backing of the bank corporation in the event of default on the part of the borrower.

Pontiac County slowly but steadily prospered in the first two decades of the twentieth century: mines were operating on Calumet Island and in Bristol Township; hydro-powered electricity was generated in Mansfield and Litchfield Townships; local sawmills were producing to capacity; and farms were producing wheat and other surpluses. At this time George Bryson Jr. rode the train to Ottawa daily to perform his duties as President of the Bank of Ottawa. Also on the train were teenagers bound for higher education at the academies, or secondary schools, in Fort Coulonge, Shawville and Aylmer.

The stock market crash of 1929 and the resulting Depression of the 1930's brought a swift end to Pontiac's short period of prosperity. The Depression had different effects on the County depending on the local economy. The sawmill towns were much harder hit than were the farming communities. As the mills and mines closed one by one, whole villages were left without incomes. Those who depended solely upon a cash salary and did not have a farm to supply even the barest necessities of life were extremely hard pressed. Many left the area in search of work, often travelling for free in the railway. When relief was finaly brought in, most families in hard hit areas such as Fort Coulonge began to learn to live on next to nothing. Small grocery stores gained lifelong customers by extending credit to needy people during this hard time.

Families on fertile farms whose main occupation was farming fared much better through the Depression than did those who depended upon a cash salary. With an unfailing demand for their products, farmers could barter their produce and perhaps get a little cash for necessary expenses. The main cash income however, the sale of wheat, disappeared when the price fell from

$1.25 a bushel to 47½ cents in 1934. As a result of fallen prices and improved transportation wheat was purchased in the west. (Peter Ruppell) Labour, so often needed on a farm, was easily available and at a low rate.

Although the lumber business stalled for some years, the 1930's were hard for the Bryson family in matters other than financial. The presence of the Bryson family was felt less and less in the Fort Coulonge - Mansfield area. Many of the once numerous offspring of the pioneer Bryson brothers, Thomas and George Bryson Sr., had made their homes elsewhere. The few who did remain were elderly in the 1030's and their children had followed the same trend away from the Pontiac. Perhaps more attuned to the climate of the lumber industry, these managers of the trade realized a decline in the lumber potential of the Pontiac and, pursued careers elsewhere, even before the great Depression closed all the mills.

Mortality also played a part in the decline of the Bryson influence in the Pontiac. Of the many offspring of George and Robina Bryson, only George Bryson Jr. and Jennie Bryson Boulter remained in 1930. Jennie Boulter had been widowed early in her marriage and had no children. George and Helen Craig Bryson had three surviving children, but had lost their only son, George Bryson, the year before, in 1929, at the age of 43. Helen Craig Bryson died in 1933, followed not long after by her unmarried daughter Ella. James Thomas Bryson, the last of the Thomas Bryson family in Fort Coulonge, died in 1936. The residence of Jennie Boulter, built as the retirement home of the patriarch George Bryson Sr., was gutted in a fire in the 1930's. The Honourable George Bryson Jr. and his sister Jennie Boulter both died in 1937.

The Boulter house was sold out of the family in the 1940's and was rebuilt by Dr. Rabb as a handsome two-storey residence. The John Bryson house was sold to Hugh Proudfoot in 1941. Only Spruceholm, the home of George Bryson Jr., still remains within the family as the summer home of his daughter, Mrs. Frances Bryson Toller.

The demand for wood and m· nerals for the war in the 1940's began to bring reliev to the County. Not all the Sawmills were reopened, however, and it was clear that Pontiac's production of wood products would not be the same as before the Depression. The logical progression from square timber to sawn lumber continued until pulp and paper production replaced lumber as the main business in the Valley. After the 1940's the business of government in Ottawa took over the position as the major employer.

[This brings to an end the series of articles about the Bryson family, the Bryson farm, and historical notes about the County of Pontiac .]

Grist and miscellaneous

Happy 80th Birthday to Mrs Claire Sturgeon, a great person who has devoted much of her life to nursing in this community. The party for her will be on Sunday afternoon, December 21st in the Masonic Hall, Shawville.

Judging the entries in the Campbell's Bay Christmas Parade last Saturday were Andrew Dickson of CHRO-TV Pembroke, Louis Landry of CHIP-FM Pontiac Radio, and Guy Ladouceur, president of the Pontiac Business Association. Although trophies were presented to many others, the most applause went to the lady who worked the hardest to organize the event, Mrs Andrée Martin.

Congratulations to Robert Archambault, son of our Luskville correspondent, who has been appointed Director, Sales, Parts and Service of Ottawa Mack Inc., the Mack Truck distributors in the area.

Three year old Greg Pigeon who was drowned in the Indian River last week was the grandson of Sheila and Elburn Dagg. The sympathies of the community go out to them in their bereavement.

Mainstream Canada

A Matter of Justice

There's one law for the bureaucrats at federal and provincial government departments and agencies, it seems, and another for ordinary citizens, particularly people operating smaller businesses.

The problem: government officials take advantage of their privileged and powerful positions when it comes to enforcing the maze of many times conflicting regulations that control our lives.

The result: the cost of fighting Ottawa or provincial authorities is so prohibitive that in most cases Canadians find it cheaper to pay a penalty rather than appealing what may be a legitimate point.

In short, the system is grossly unfair to Canadians seeking justice from the hundreds of government boards, agencies and commissions that rule our lives.

The matter is especially important for smaller firms because they lack the expertise and financing that it takes to battle agencies such as Revenue Canada or the provincial labor relations boards.

The Americans have found a solution to the problem. The U.S. Senate has passed legislation forcing the government to re-imburse smaller companies for their costs when they are found blameless of wrongdoing in government-related actions.

It's high time such legislation was brought forward in Canada because independent business people are sincerely concerned about the issue.

Members of the 56,000 member Canadian Federation of Independent Business, for example, recently voted 88% in favor of such a move.

Aside from the simple justice such a change would provide, government bureaucrats might be forced to have second thoughts about the arbitrary rulings and financial penalties that create hardship for entreprenеurs.

Which is not to suggest that government employees shouldn't enforce the law. That's their duty and responsibility.

But in all fairness, people incorrectly charged with wrongdoing should be compensated for their costs when, through simple error or lack of understanding, the government is indeed proved to be an ass.

The Director General and Secretary General were also present.

A representation of the Onslow School Committee met with the Board.

It was moved by Comm. Neville and adopted unanimously that the minutes of the previous meetings held on October 29, 1980, as circulated, be adopted.

Resolution 99-80- Considérant que le conseil des commissaires a adopté une résolution approuvant le budget d'opérations courantes 1980-81 pour des dépenses totales brutes de 1,437,048.

Considérant que la commission scolarie encaisse ses revenus pour les fins d'opérations courantes selon des modalités qui ne sont pas nécessairement concordantes avec ses déboursés curants;

Considérant que la commission scolaire doit, conséquemment, financer temporairement certains déboursés d'opérations courantes.

Considérant que la commission scolarie doit également recourir à du financement temporaire pour couvrir les subventions qui lui sont dues en rapport avec les années antérieurses.

En conséquence, monsieur le commissaire Brown propose qu'une résolution temporaire sont adoptée et énoncée de la façon suivante:

Le conseil des commissaires de la commission scolaire protestante du pontiac décrète un emprunt temporaire de 2 000 000 auprès de la Banque du Montréal pour la période se terminant le 31 juillet 1981 pour les fins suivantes:

-pour les operations 1980-81, 100% des dépenses brutes au budget, soit la somme de 1 437 048.

-pour les arrérages ou le solde des comptes au 30 juin, 1980, soit la somme de 1 219 587.

Toutefois, les emprunts effectués en vertu des paragraphes a) et b) ne devront jamais excéder les montants mensuels maximum de notre plan de financement temporaire de l'année scolaire en cours, tel qu'il a été validé par le ministère de l'Education du Québec.

-Le directeur des finances J.A. Russell et le président M.B. Quaile sont désignés pour signer les différents documents.

-Cet emprunt temporaire sera remboursé au fur et à mesure des disponibilités de la commission scolaire.

Le taux d'intéré de cet emprunt n'excédera pas le taux établit par le gouvernment en vertu de l'article 50 de la loi sur les dettes et emprunts municipaux et scolaires (C.R.Q., c.D-7) Adoptée unanimement.

Resolution 100-80- It was moved by Comm MacKechnie and adoted unanimously that Mr B Quaile, Chairman and-or Mr J.A. Russell, Director of Finance be authorized to sign the required documents concerning the Sale of Lots 89 and 90 in the Village of Quyon to the Municipality of Pontiac.

Resolution 101-80- Whereas the new Valuation Roll for the Municipality of Bristol is not yet available to the Pontiac Protestant Schooi Board, it was moved by Comm Eades and adotped unanimously that, for the 1980-81 taxation year, the School Board will use the Municipal Valuation on the Rolls for 1979-80.

Resolution 102-80- It was moved by Commissioner Kilgour that the collective agreement (1979-82) containing those clauses negotiated locally between member school boards of the Q.A.P.S.- Branch of Western Quebec and the Western Quebec Teachers' Association, by virtue of the Provincial Entente, be accepted by this School Board.

Furthermore, that the aforementioned agreement be signed by Comm. G Eades.

The School Board is planning to have an Information Meeting with the Teachers and Parents of children in the Campbell's Bay School sometime in January 81.

Correspondence was read.

The next regular meeting will be held at 1200 hrs. Wednesday, December 17, 1980.

Comm Eades moved adjournment at 2310 hrs.

Energy supplies board allocations

Energy, Mines and Resources Minister Marc Lalonde announced December 3rd that primary food production, including commercial fishing and the processing of essential perishable food products, will be given the highest priority rating by the Energy Supplies Allocation Board (ESAB) for the supply of petroleum products in the event of an emergency.

This new classification was approved by the Board last week. It was still under review at the time of the pre-publication of the proposed mandatory allocation program in part one of the Canada Gazette dated November 8, 1980.

There are three categories under the ESAB proposed program. Category "A" covers the use of petroleum products relating to the health, welfare and security of Canadians. Uses relating to the economic stability of the country generally fall under category "B", and category "C" applies to used relating to the maintenance of the standard of living.

"Clearly the agricultural sector plays a very direct role in promoting the health and welfare of all Canadians," stated Mr Lalonde. "Representatives of various agricultural groups have made a series of representations to myself and to the Minister of Agriculture, the Honourable Eugene Whelan, and these representations are, I believe, fully reflected in this decision."

The program calls for allocation factors to be set by the Board for each category assuring a greater relative security of supply of petroleum products to category "A" than to category "B"; category "C" being the last in the order of priority. Primary food production includes livestock, crop, fruit and vegetable farming and commercial fishing.

My best of wishes for your Merry Christmas and your happy New Years, your long lives and your true prosperities. Worth twenty pound good if they are delivered as I send them.

—Charles Dickens

Christmas Tree

Whether you plan to buy the biggest possible tree or a tiny table-top one, you'll want to choose one that is fresh.

To be sure the tree is fresh when you buy it, foresters suggest checking for a wet, sticky stump bottom and needles that are not brittle and do not readily drop off when the trunk is rapped on the ground or shaken. It will stay fresh longer if a slanted slice is cut off the bottom, the stump end placed in water, and the tree located in a relatively cool place.

Recent visitors with the Thrun's were Mr and Mrs Clifford Wadge from Campbell's Bay and Mrs Peter Bowman from Grande Cache, Alberta, who spent some time visiting with friends in this district. Mrs Bowman has now returned home.

Deepest sympathy to the family and friends of Mr Ruben Thoms of Otter Lake who passed away last week.

On Saturday evening November 29 relatives, friends and neighbours from far and near met at the home of Mr and Mrs Paul Bretzlaff for a surprise celebration of their 35th wedding anniversary. Taken totally by surprise, Paul and Genevieve handled the situation beautifully. They received many lovely and useful gifts including money for which they thanked everyone.

A full course supper and refreshments was served later including a delicious anniversary cake especially baked by their daughter Mrs Dennis Sheppard. The evening was very much enjoyed by everyone present, and we again all join in wishing Paul and Gen the best of everything in the years to come.

Friends from here send deepest sympathy to the family and friends of Mrs Heman Belsher of Arnprior who passed away recently.

An old fashioned snow storm last Tuesday with snow, sleet and high wind made travelling difficult and blocked some roads.

Best get well wishes to Mrs Ebert Turcotte Sr and Mrs Emma Krose who are at present patients in the Community Hospital but are expected home soon.

Last Sunday December 7th was a special event at the home of Mr and Mrs Gustave Yach. About 35 relatives, friends and neighbours met in the afternoon to celebrate Mr Yach's birthday. Gustave received many useful gifts, cards and good wishes. A delicious supper was served complete with three birthday cakes. Les employés demandent pourquoi

Le latter qui suit fut envoyée à Monsieur Yves Bérubé, Ministre de l'Energie et des Ressources, l'onze septembre, 1980:

Monsieur, Comme vous le savez sans doute l'Unité de Gestion Coulonge et Noire oeuvre dans le Comté de Pontiac sur la route 148 à Fort-Coulonge depuis plusieurs années. Nous sommes une petite Unité de Gestion à l'intérieur du vaste et complexe Ministère de l'Energie et des Ressources.

Nous tentons de vous signaler la situation vécue par ce petit groupe d'emploiés qui vivent à l'heure dans un milieu désordonné. Vous trouverez ci-joint un aperçu des problèmes de santé physique et psychologique ainsi que des ennjis de sécurité.

Nous vous remercions à l'avance pour votre célérité à remédier à ces difficultés que nous vivons lorsque nous essayons de garantir un service de qualité aux clients.

Nous vous offrons nos salutations les plus distinguées.

Nous demeurons, Les employés de l'Unité de Gestion Coulonge et Noire, Fort-Coulonge.

P.J.

Bureau de 18 pieds x 34 pieds, (612 pi. carrés) ceci inclus la toilette, la conciergerie, la vestiaire, la papeterie et le bureau de gestionnaire (9 pieds x 9 pieds).

9 permanents plus 2 à 3 occasionnels saisonniers.

5 bureaux en place à partager entre 8 à 12 employés.

Une seule toilette pour le public et les employés, aucun urinoir.

Eclairage sombre, non propice pour le travail.

Plancher brixé au point ou les chaises ne roulent plus, elles restent dans les trous.

Les murs de la toilette sont tellement minces qu'on entend tout.

Les murs du bureau du gestionnaire sont eellement fluets que la confidentialité en souffre.

La porte et le mur adjacent au garage sont tellement délicat les gazs impreignent le bureau.

Un calorifère placé sous un des bureaux des employés et un autre derrière la chaise de l'agent de bureau, surchauffe ces derniers.

Souvent on ne peut s'asseoir et travailler quand un autre employé cherche ou travaille aux différents classeurs.

La circulation libre dans le bureau est très restreinte au point que souvent les employés doivent s'amincir pour passer.

A certains classeurs lorsque l'un des tiroirs est ouvert la circulation s'arrête.

Quand un employé a besoin d'utiliser une table à dessin il doit échanger son bureau avec celui qui occupe la table à dessin.

Lorsqu'un client est au comptoir et qu'un autre rentre le premier doit se tasser vers la gauche pour laisser le deuxième client rentré.

Etant donné l'espace, le comptoir est toujours embarassé de cartes, cahiers, etc...

3 téléphones, mais une seule ligne pour tous les employés y compris le gestionnaire, ceci rend la communication à l'extérieur difficile pour les employés qui doivent téléphoner pour leur travail ainsi que pour la clientèle qui désire nous rejoindre.

La garage est tellement petit que les camions cognent dans les remorques et dans les moteurs de bateau en avançant et reculant.

On gèle l'hiver quand on doit travailler dans la garage.

L'électricité supporte à paine les installations existantes, régulièrement les employés doivent remettre en marche le disjoncteur, après une redistribution des instruments utilisés.

Manque d'extincteur inspecté.

Manque de détecteur de fumée.

Une seule porte de sortie à l'extérieur du bureau.

Système électrique douteux.

Les gazs du garage impreignent le bureau à travers le mur et la porte adjacent au garage.

Système de ventilation inadéquat surtout lorsqu'on utilise la machine "Blue Ray" et lorsque les camions rentrent et sortent du garage.

2 seules fenêtre qui s'ouvrent l'une dans le bureau commun et l'autre dans le bureau du gestionnaire. Les deux sont acaparés par des livres et des documents qui n'ont pas de place de rangement dû à l'espace restreinte.

Les courants d'air excessivement froid pendant l'hiver dû à la position de la porte du garage et de la porte d'acceuil.

La machine Blue-Ray dégage une vapeur nocive aux gens, surtout au femmes enceintes.

Dû à l'encadrement physique il est très facile d'avoir une santé morale déficiente. (Bureau désordonné, manque d'espace, manque de classeurs, manque de bureau, air vicié, etc...)

Dû aussi au communautaire des citoyens: ex. "Un patron qui laisse travailler ses employés dans un bureau de ce genre n'aime pas ses employés et ne s'aime pas lui-même."

Gisele Asselin 6 annee école St Anne Ile du Grand Calumet fille de Mr et Mme Pierre Asselin.

Suite à cette lettre, les employés ont eu une réponse de M. Bérubé leurs disant que des améliorations majeures seraient faites avant la fin de décembre, 1980. La date arrive à échéance et le propriétaire n'a pas commencé les travaux. Les employés doutent donc que le tout soit prêt pour la fin de décembre.

Pourtant, il y a plus d'un mois déjà. Mm. Carol Gagnon et Rémi Bégin du ministère des travaux publics ont rencontré le propriétaire des lieux et on signé un bail en commun accord, bail qui répondait à toutes les demandes! Maintenant nous apprenons que le propriétaire a été avisé de ne pas commencer les rénovations, parce qui Monsieur le sous-ministre des travaux publics ne veut pas signer le dit bail.

Les employés demandent pourquoi?

"Peut-être est-ce que ceci n'a aucun intérêt politique?" C'est ça que les employés croient.

Les feux de cheminée

Avec la popularité que connaît le chauffage au bois, le public se doit d'être informé des dangers d'incendies de cheminée que peut occasionner une mauvaise utilisation de ces appareils de chauffage. C'est pourquoi la Direction générale de la prévention des incendies (DGPI) du ministère des Affaires municipales a décidé de publier certains renseignments essentiels à ce sujet.

L'ensemble des études réalisé dans ce domaine, révèle que tous les types de cheminées peuvent prendre en feu. La maçonnerie ou le métal (isolé ou non), présentent sensiblement les mêmes risques. Cependant, la majorité des feux de cheminées ont une relation directe avec les conditions de ventilation des appareils, poêles ou foyers, qui provoquent une trop forte accumulation de crésote et de suie sur les parois intérieures des cheminées. Quelle que soit la méthode utilisée pour chauffer le bois, il en résulte une formation de créosote. La formation de cette substance inflammable peut-être diminuée si l'on observe certaines recommandations.

Les vapeurs d'eau qui se dégagent de la combustion du bois favorisent la formation de la créosote. Il est possible d'en éliminer une grande quantité si l'on ne brûle que du bois bien à point, qui aura séché a l'air, à l'abri des intempéries, pendant au moins 6 mois (1 an de préférence) et ce, après avoir été abattu et débit?.

Comme la créosote provient aussi d'une combustion incomplète du bois, celle-ci peut-être améliorée si l'appareil de chauffage est bien ventilé. Ce phénomène de mauvaise combustion survient surtout dans certains poêles plus hermétiques dont le feu couve et brûle lentement. Il s'avère donc préférable de bien couvrir les prises d'air de ces poêles afin d'obtenir un feu actif, surtout lorsqu'on y ajoute du bois.

Optimiste Club

En 1954, un groupe d'Optimistes de la Caroline du Nord, aux Etats-Unis, décidèrent qu'on accordait trop d'attention à l'aspect négatif des actes posés par les jeunes et trop peu de pbulicité à la grande majorité des jeunes qui acceptent de bien remplir leur rôle de citoyens responsables. Afin de reconnaître le côté positif des actions et des contributions des jeunes gens, ils inaugurèrent la Semaine d'Appréciation de la Jeunesse.

Depuis son début, cette pratique a pris de l'ampleur au point que maintenant elle est organisée par les Clubs Optimistes de toute l'Amérique du Nord. Elle a pour objectif de publier le fait qu'aujourd-hui la jeunesse n'est pas composée uniquement d'égoistes, de dégénérés paresseux comme trop d'adultes se plaisent à l'imaginer. La grande majorité de la jeunesse est bien intéressée à s'impliquer par ses efforts à l'amélioration de notre société. Etant donné que la vitalité et l'ardeur de la jeunesse a besoin de la sagesse et de l'expérience des adultes pour l'appuyer dans ses efforts en vue d'atteindre les buts qu'elle s'est fixés, il s'ensuit que tout adulte a la responsabilité d'aider la jeunesse à franchir l'étape de l'adolescence à l'âge adulte. En effet, il importe que l'on reconnaisse les mérites de la jeunesse; cependant, nous ne devons pas devenir suffisants et oublier la nécessité d'une implication et d'un apport personnels continus dans l'amélioration de la communauté. Au moyen de la Semaine d'Appréciation de la jeunesse (S.A.J.) les adultes et les jeunes peuvent travailler ensemble au bien commun.

Cette année le Club Optimiste de l'Ille du Grand Calumet est heureux de décerner les trophées de l'apapréciation de la jeunesse aux personnes suivantes: Niveau secondaire: Mademoiselle Natalie Ladouceur, Monsieur Martin Ladouceur. Niveau primaire: Mademoiselle Gisèle Asselin, Monsieur Kenneth Derouin.

Ces jeunes ont mérité la palme qu'ils ont contribué à leur façon à l'amélioration de leur communauté, parce qu'ils sont bien informés de la situation locale et nationale et qu'ils ont des attitudes saines et des sentiments de valorisation personnelle.

Nathalie Ladouceur etudiante Polyvalente Sieur de Coulonge fille de Mr et Mme Edmond Ladouceur, Ile du Grand Calumet.

Farm production of fuel alcohol

With the recent publicity about gasohol and on-farm production of alcohol fuels, many Canadian farmers are looking at alcohol production on the farm to reduce dependence on diesel fuel and gasoline.

However, the available information can be confusing and sometimes conflicting. In addition, it often fails to cover all considerations a farmer needs to make a sound business decision.

To help farmers make this decision, Agriculture Canada offers a free publication, "Farm-scale Production and Use of Fuel Alcohol: Opportunities and Problems".

On-farm fuel production can be expensive. The publication discusses the equipment needed, including handling equipment, fermentation vessels and a distillation apparatus. Storage facilities for the fuel and the livestock feed produced as a by-product (stillage) are also outlined. The booklet points out that some of the equipment can be built by the farmer himself.

The publication also helps answer some of the basic questions a farmer should ask before starting farm-alcohol production. How much alcohol fuel can the farm use? Is there available feedstock to provide that fuel? Are there enough animals on the farm or nearby to use the stillage produced?

t discusses the costs that must be kept in mind in deciding if alcohol production makes economic sense. These include capital investment and associated operating expenses, such as depreciation, interest, energy inputs and chemicals. These costs must be weighed against returns for the alcohol fuel and stillage livestock feed produced.

Potential health hazards and the threat of fire and explosion during the production, storage and use of alcohol should be major producer concerns and these subjects are dealt with in the publication. Safety precautions and regulations outlined in the booklet should be carefully followed.

For copies of Farm-Scale Production and Use of Fuel Alcohol, publication number 1712, contact: Information Services, Agriculture Canada, Sir John Carling Building, Central Experimental Farm, Ottawa, Ontario, K1A OC7.

Heritage Herald

From Darrell Comeau

The drama club of Heritage Campus made its debut performance on the 28th of November to an audience of students and faculty with their production of Sorry Wrong Number (originally a 1954 radio drama). The performance, with the assistance of Toni Cullier, the college's audio visual wizard, flowed smoothly from start to finish. The play depicts the story of an invalid woman who, by a twist of fate, over-hears a telephone conversation between two men who plan to murder a woman at 11:15 that same night. Confined to her bed, she tries all night to call someone to investigate this alleged murder, yet no one believes her and at the end of the play it is the invalid woman who is murdered.

The drama club, known as "The Famous People Players", was organized by Wade Parker and Denis Bernicky. Both agree that the club had several preliminary problems to overcome. Heritage Campus has no auditorium and finances for a small stage and lighting were needed. Marcel Crisafi, responsible for Student Services at Heritage Campus, answered this need by financing both. Denis Bernicky acknowledged, "If it weren't for Marcel, the drama club would never have gotten under way". Also, in order to accommodate the diverse schedules of the students, rehearsals had to be held at 7:00 in the morning or 5:00 to 7:00 in the evening. Although none of the students looked forward to rehearsing at these hours, one student allowed that" ... making the rehearsals was the hard part but the fun comes from performing the play."

The cast of the "Famous People Players" consists of Chris Culbert, Gerry Girouard, Jasmine Mahmud, Linda Porebski, and Debbie Umrysh -- all from Aylmer; Denis Bernicky and Michelle Tessier of Hull; and Sara Kane of Pointe Gatineau. This group is under the direction of Wade Parker, a student from Pointe Gatineau.

The drama club is planning more plays for 1981 and is also considering work in film.

IN MEMORY

MORRISON- In loving memory of a dear brother, Edward Smith Morrison, who passed away December 10, 1977.
I cannot keep from wondering
No matter how hard I try
For in my sad and lonely heart
I keep on asking "Why"
A dear Brother laid to rest
For all of us he did his best.
The reason is hidden somewhere
In a pattern, God has planned.
We must believe and trust in him,
As some day we'll understand.
Up in that home not made by hands
The Master will prepare
A place for us, when he calls,
We'll meet our loved one there.
Sadly missed and always• remembered.

MORRISON- In loving memory of Edward Smith Morrison, who passed away December 10th, 1977.
Three sad and lonely years have passed
Since that great sorrow fell
The shock that we received that day
No one can ever tell.
The end came sad and sudden
No time to say goodbye
You were gone before we knew it
And only God knows Why.
We can't forget your smiling face
And all the happy bygone days
So this moment comes with deep regret
For it brings back a day we can never forget.
Sadly missed and always remembered by Florencena and Fred Stevens.

STANLEY- In loving memory of a dear husband, father and grandfather, Fred John, who passed away December 3, 1970.
Time may heal the broken hearted,
Years may make the wound less sore,
But it cannot fill the longing
For the loved one gone before.
Who shall say the grief is lessened,
Though the smile may hide the tears,
Memories keep the wound still open,
Despite the passing of the years.
