BRITISH ADVANCE WILL BEGIN FIRST OF AUGUST?

Britain Will Then Make Her Great Throw in the War, Says London Dispatch. Kitchener's Army of Two Million Men is at Last Ready For Struggle. Italians Have Made Great Gains. Russians Forced Their Opponents Back Several Miles on Rawa River. Berlin Claims Important Successes All Along Battle Line in Russia.

New York, July 20.—(Special)—The Tribune this morning publishes the following:

London, July 20.—From a Special Correspondent of the Tribune—"The great British advance will begin about the first of August, and Britain will then make her great throw in the war," was the confident declaration to-day of one of Kitchener's newest army, a man equipped with information, although he is only a private. A year ago he was a newspaper correspondent as well known in New York as in London, although now he is merely a man in the ranks of the Royal Fusiliers.

"We are off to the front next Wednesday (July 14)," he went on, "and we are almost the first of the new force. Kitchener's great army of two million men is at last in the war. Within a couple of weeks after that there will be another 750,000 British troops in France."

ITALIANS MAKE LARGE GAINS.

Geneva, Switzerland, July 20.—(Special)—Despatches to the Tribune say that large gains have been made by the Italians since July 16. According to these advices, the Austrians have lost more than five miles in Cadore and lesser amounts in Carnia, at Sochspite, Gradina, Doder and Kellerwald on the Isonzo. The Austrians have recaptured two positions near Tolmino and north of San Lucas.

The Tribune also published a despatch from the Russian front saying that on the night of July 17-18 a fierce hand-to-hand encounter occurred on the Rawa River in Russian Poland. After fifteen hours of fighting the Russians forced back their opponents several miles, capturing several hundred prisoners.

TEUTONS CLAIM IMPORTANT SUCCESSES.

Berlin, July 19, via Amsterdam and London, July 20.—(Special)—Important successes for the Teutonic allies all along the battle-line in Russia from the Baltic Sea to Bukovina are claimed in an official statement issued to-day at the German War Office. The army of General von Gallwitz is said to be standing in force on the Narew line southwest of Novo Georgievsk, one of the girdle of fortresses which protects Warsaw, and only ten miles from the Polish capital. With the capture of Windau the Germans have come into possession of another seaport on the Baltic and are within a few miles of Riga, seat of the Governor-General of the Baltic Provinces. The German and Austrian forces are said to have taken prisoners 45,000 Russians.

VIENNA SAYS RESISTANCE OF ENEMY SHAKEN.

Vienna, July 20, via London.—(Special)—Victories of the Teutonic allies all along the eastern battlefield on the 18th "shook the strength of the enemy's resistance," according to an official Austrian War Office statement issued last night. The assertion is made that, while the Russians brought up all the reinforcements available, they were unable to hold their positions.

REMARKABLE AERIAL OPERATIONS BY ITALIANS.

Rome, July 20.—(Special)—The Ministry of Marine issues the following: "Among the most remarkable aerial operations must be cited the bombardment by one of our dirigibles on the 17th, of Trieste. The technical establishment was badly damaged in the previous raid of the 14th. This time bombs thrown on these important workshops started a fire so extensive as to be visible twenty miles away."

"Our seaplanes dropped bombs on Austrian destroyers protecting Fiume Canal, near Pola. Two other seaplanes bombarded the battery near the Salvore Lighthouse on the 14th. One of our dirigibles bombarded with excellent results the Trigano station and Trieste Railway yards at Montefalcone on the 16th."

"On the 17th an enemy seaplane belonging to a small squadron which flew over Bari and Barletta, was captured, with two officers."

ITALIAN NAVY ASSISTS AERIAL SERVICE.

Rome, July 20, via Paris.—(Special)—The following statement was given out at the Ministry of Marine here:

"Since the last statement of July 7, the navy has intensified its action in co-operation with the aerial service against the enemy's coasts in the Lower and Upper Adriatic. The following operations on sea were carried out:

"In the Dalmatian Archipelago, cutting cables near islands which, on account of their proximity to our coasts, constituted effective centres of observation for the enemy; destruction of depots for revictualing barracks, factories and torpedo boats on one of the islands, and the capture of a few prisoners."

AEROPLANES BOMBARD CAPITAL OF UPPER ALSACE.

Paris, July 20.—(Special)—The official announcement from the War Office this afternoon says that a squadron of six aeroplanes bombarded the station at Osmar, capital of Upper Alsace. The aeroplanes returned undamaged.

RUSSIANS ORDER EVACUATION OF WARSAW

London, July 20.—The Morning Post's Budapest correspondent reports that the gradual evacuation of Warsaw has been ordered by the Russians.

GERMANS OCCUPY TUKUM

Petrograd, July 19, via London, July 20.—German columns have occupied Tukum, 38 miles west of Riga and Doblen, 18 miles west of Mitau, according to an official statement issued by the headquarters of the Russian General Staff last night. After capturing these points they advanced southward against Hofnaberge and Benen.

HEIGHTS OF MEUSE AGAIN SCENE OF GREAT BATTLE

London, July 20.—The Heights of the Meuse again has been the scene of a sanguinary struggle. The French War Office last night announced heavy losses to the Kaiser's troops when making two strong attacks in the vicinity of Sonvaux. Both are said to have been completely repulsed. Beyond a violent cannonade near

Souchard and bomb and petard fighting in the Argonne, quiet prevailed on the rest of the front.

Can Warsaw be held? With the German Field Marshals, von Hindenburg on the north and von Mackensen on the south, whipping forward the two ends of a great arc around the city, it is realized in England that Grand Duke Nicholas, commander-in-chief of the Russian armies, has the most severe task imposed on him since the outbreak of the European war.

The British press is discounting the fall of the Polish capital, and pointing out the enormous difficulty the Russian armies have labored under from the start by the existence of such a salient.

According to the latest accounts the Austro-German forces advancing from Praszynsk, were within forty miles of Warsaw; while to the south von Mackensen's center was, at certain points, within ten miles of the Lublin-Cholm Railroad.

FIGHTING WITH BOMBS IN THE ARGONNE
Paris, July 20, via London.—The following official statement was issued by the French War Office last night:

"In Artois there was a violent cannonade near Souchez, but no infantry fighting."

U. S. NOTE IS READY

Will be Given Final Revision Before Cabinet Meeting To-Day

NEW COMMUNICATION WILL REITERATE PREVIOUS NOTE THAT U. S. MUST BE PROTECTED.

Washington, July 20.—(Special)—Final decision on the character of the next note to be sent to Germany by the United States on submarine warfare waited upon to-day's meeting of the Cabinet.

A note President Wilson and Secretary of State Lansing prepared yesterday was ready to be laid before the Cabinet for discussion. It was expected to receive the approval of the Cabinet and be despatched to Berlin before the end of the week.

While the probable contents of the new communication are not known, it will reiterate the position taken by the United States in its previous notes that assurances be given by Germany that lives of Americans travelling on the high seas, bound on lawful missions, aboard unresisting and unarmed merchant vessels, be made safe.

VALLEY OF DEATH IN GALIPOLI

Successful Advance of the British Forces Was Secured at a Terrible Cost

TURKS KNOW EVERY INCH OF WAY AND FOUR TREMENDOUS NUMBER OF SHELLS INTO RAVINE

London, July 20.—The British press representative in the Dardanelles, reporting under date of July 4 says:

"The successful advance of the British left wing on June 28 placed in our hands another mile of the 'gully' ravine,' which is the Gallipoli Peninsula valley of death. The Turks know every inch of the ground and pour a tremendous number of shells into the ravine, which is dotted for miles up from the shore with lonely graves, marking the last resting place some great epidemic he will have undue luck."

"Despite the tragedies staged here, the spectator must admit that the ravine presents a scene of rugged grandeur, resembling the Scotch Highlands. The mile of gully most recently added to the British positions is still littered with the debris of the Turkish positions which are invariably ill-kept and filthy from a sanitary point of view. If the enemy goes through the campaign without some great epidemic he will have undue luck."

"As the correspondent travelled up the ravine twenty-four hours after the battle there were visible plenty of evidences of the strenuous character of the fighting—scattered bodies half protruding from the ground, hastily dug graves, hundreds of broken rifles and scattered equipment, and everywhere fires burning and giving forth a sickly stench, for on the fires Turkish dead in hundreds were being burned."

"In front of the trenches British soldiers were working like bees preparing barriers and trenches under a continuous fire of enemy sharpshooters, while others, for whom there were no room in the trenches, were sleeping calmly close behind and awaiting the summons to resist an expected counter-attack."

"One of the finest things about the gully ravine is that, despite the heat and lack of breezes, there is plenty of water for man and beast—springs which come from the interior hills and enter the valley in a tiny trickling stream as clear as crystal and icy cool. No wine ever has or will taste as good as a glass of this water to a warrior who has spent hours in the trenches stooping to avoid enemy snipers, cramped by the weight of his kit and the narrowness of his quarters, while the sun scorched his neck and back and while stench and millions of flies made existence well-nigh unbearable."

ALL EUROPE TO TREMBLE SAYS KAISER

London, July 20.—The Morning Post's Petrograd correspondent says Emperor William has sent his sister, the Queen of Greece, the following telegram:

"I have paralyzed the Russians for at least six months and am on the eve of delivering a coup on the western front that will make all Europe tremble."

Enough for Field Kitchen Fund. Will You Help Buy Two Machine Guns?

Field Kitchen Fund Now \$2122.65

The Field Kitchen Fund on behalf of the 5th Canadian Mounted Rifles, with to-day's acknowledgments, reaches the sum of \$2122.65.

This will meet the requirements, and as stated yesterday there will likely be some surplus.

It is just two weeks since the first call was made for contributions to this fund. The prompt and liberal response speaks well for the patriotic spirit of the contributors.

As stated yesterday, the suggestion has been made that contributions be continued with the object of presenting two machine guns to the regiment. All contributions to the Machine Gun Fund will be promptly acknowledged.

CORRECTION

In the West Sheffield contributions the name of Miss Forest should have appeared in place of Miss Hunt.

The name of Mrs. E. L. Watson was omitted through error from the list of Dunham acknowledgments Saturday.

RUSSIA CERTAIN OF VICTORY

Although Nations is Prepared to Pass Through Period of Reverses

ALTHOUGH NATION IS PREPARED TO PASS.

London, July 20.—(Special)—A Petrograd despatch to the Daily Mail says:

"Additional factories are undertaking every day to turn out large quantities of munitions, and the supply of war material of all kinds is increasing steadily."

"The nation is prepared to pass through a period of reverses, if necessary, but never has felt more certain of ultimate victory."

KILLED BY BASEBALL BAT

Daughter Struck Father in Defending Mother and Brother

Syracuse, N. Y., July 20.—(Special)—Mrs. Allan Robinson, 35 years old, killed her father, David Eugene Duval, 55, with a baseball bat last night at the family home near Chittenden Station.

She struck the fatal blow in defending her mother, her sister and brother from the man's attack. The tragedy followed a reign of terror in the Duval home during which the victim beat his wife and children.

HIGH HONOR FOR SIR. R. L. BORDEN

Is to Receive the Freedom of the City of London For Services to the Empire

IS HIGHEST GIFT THAT LONDON CAN GRANT, AND IS SPARINGLY BESTOWED.

London, July 20.—Premier Borden is to receive the freedom of the city of London in appreciation of his services to the Empire and grateful recognition of the splendid part taken by the Dominion of Canada during the present war and the invaluable assistance rendered by officers and men of the Canadian contingent on the battlefields of Europe.

The freedom will be enclosed in a gold box, the customary accessory of such an occasion.

CITIZENS' HIGHEST HONOR.

This honor is the highest the citizens of London can grant, and is sparingly bestowed. Earl Grey was thus honored after his term as Governor-General.

The ceremony will take place at the Guildhall some time this month. Sir Robert dined with the Colonial Secretary, Andrew Bonar Law, last night.

HAVOC BY SUBMARINE IN SEA OF MARMORA.

Sofia, Bulgaria, July 20.—A submarine, believed to be English, has entered the Sea of Marmora and sunk the steamship Bisga, an unidentified steamer and two Turkish lighters. The Bisga was sunk in Mudania Harbor.

The submarine passed through the Dardanelles and underneath the Turkish warships anchored at the western end of the Sea of Marmora.

MINERS ARE STILL OBDDURATE

Leaders Told That Government Will Not Allow Trouble to Imperil Victory

WELSH MINE WORKERS WILL NOT ACCEPT PREVIOUS TERMS, NOR ADMIT RECOGNITION OF ARBITRATION ACT.

Cardiff, July 20.—The centre of negotiations in connection with the great strike of the miners shifted suddenly to Cardiff last night with the arrival here of the minister of munitions, David Lloyd George, the president of the Board of Trade, Walter Runciman, and the president of the Board of Education, Arthur Henderson, for a conference with the miners' leaders. Mr. Henderson is the leader of the Labor Party in the House of Commons.

The members of the Cabinet were met at the train by Jas. Winstone, president of the South Wales Miners' Federation, and other officers of that organization. They held a preliminary talk with the representatives of the miners, and arrangements were made for the delivery of an address by Mr. Lloyd George to-day before the whole body of representatives of the miners in the South Wales field. It is thought that some agreement may be reached then, although the men are still obdurate in the matter of accepting the terms previously offered them or in conceding that they are subject to the Government's compulsory arbitration act.

Despite a heavy downpour of rain, a great crowd gathered at the station to greet Mr. Lloyd George, who is very popular throughout Wales.

Mr. Lloyd George told the executive officers of the federation that it was impossible to wage a successful war abroad with a strike at home, and that no government responsible for a colossal war could possibly allow the continuance of a conflict between labor and capital to imperil the chances of victory.

In addition to a conference with the miners a meeting has been arranged between the minister of munitions and the coal owners. Mr. Lloyd George, on being asked regarding the situation, said he was hopeful of a settlement of the strike but could make no predictions.

FRENCH PEOPLE ADDING TO GOLD DEPOSITS

Paris, July 20.—(Special)—Reports from all parts of France indicate that there has been a general and enthusiastic response to the request of Minister of Finance Ribot for deposits of gold to add to the country's reserve.

The municipal government of Paris deposited to-day 800,000 francs (\$160,000).

BRITISH ENCIRCLING GERMANS IN AFRICA.

Paris, July 20.—Details regarding operations by Franco-British troops in the Kamerun, the German colony in West Africa, are contained in a statement issued by the ministry of colonies. The assertion is made that the movement to encircle the German forces also is progressing favorably nearer the coast of the Gulf of Guinea.

ONLY ONE POINT AT VARIANCE.

Ald. Brault admitted there was only one point of disagreement. He objected to the cost of a man at \$15 per day to do clerical work, which should be done by the department officials. If Ald. Edwards or the Council had not sufficient confidence in the officials of that department, let them select another official from another department to do the work, or an outside accountant, but not pay \$15 per day for work which they did not know how long it would take.

day, but about 6 o'clock the weat-

pretty good. The lawn was prettily
trimmed with Chinese lanterns, and
other things appropriate for the oc-
casion. The Knowlton Cornet Band

splendid music. About \$80 was real-
ized for the benefit of the Daughters
of the Empire and the Red Cross
Society.

On Sunday Rev. Canon Carmichael,
rector of St. Paul's, Knowlton,
preached a splendid sermon on the
war from the text, "Where there is
no vision the people perish." He
made in appear quite clear that it
was because of the shortsightedness
of the people that the nation was
not prepared for the conflict, hence
the result.

DELIGHTFUL SUMMER DRINKS—
MAY TEMPTING BEVERAGES
FROM THE SAME BOTTLE.

One of the very pleasant features of
a bottle of Montserrat Lime Fruit
Juice is its versatility.

The ordinary Montserrat beverage is
made with half a wineglassful of
Montserrat, some sugar, broken ice
and a glassful of water. This is de-
lightful and quenches the thirst.

It can be made by using soda water instead
of plain water. It gives a little more
snap. Golfers like it.

Montserrat can also be used instead
of lemons for flavoring frozen punches
and ice creams.

Montserrat is not common Lime
Juice. It is pressed from fresh, cul-
tivated limes from the beautiful is-
land of Montserrat.

men up at the "Varsity" of whom
over 800 are in the Officers' Training
Corps. Of these, scores are taking
commissions from day to day, and
the rest are ready at any moment to
become active service officers should
they be called upon.

PROTEST AGAINST
HIGH FOOD PRICESPrices are Fixed by the German
Government

SOCIALISTS ALLEGE SPECULA-
TION—HITS POORER
CLASSES.

London, July 20, via London.—The
Executive Committee of the Social-
ist Party and the Federation of So-
cialist Labor Unions have united in
a protest to the Minister of the In-
terior against any rise in the max-
imum prices of grain and flour. It
had been intimated that there would
be an increase when the Federal
Council adopted the new regulation
for the conservation and distribution
of this year's harvest.

The Executive Committee of the
Federation published in the Vorwärts
a manifesto against "food harpies,"
as follows:

"The general rise in prices is press-
ing even heavier on the poor classes.
The prices of meat have risen almost
10 per cent. under the ruthless ex-
ploitation of the situation caused by
the scarcity of grain and cattle, and
the rise continues. The consumption
of this so important food product
has become thereby almost an impos-
sibility in the widest circles, particu-
larly among the laboring classes.

"All other food products, particu-
larly those recommended as substi-
tutes for meat, such as vegetables,
fish, eggs, milk, butter, cheese and
sugar, are unusually dear and are
steadily becoming more expensive.
Speculation of the most unprecedented
sort is again in evidence in the po-
tato market. Potatoes stored for a
month for price manipulations had
to be unloaded in the spring and sold
at low prices to dealers, who, in
turn, are selling at profits of from
200 to 300 per cent.

"It is now announced that the
Federation Council is about to in-
crease the maximum prices of grain,
which already are from 30 to 40 per
cent. higher than in times of peace.
Bread, the all-important food, is to
cost the people more. This will
arouse indignation in the widest
circles.

"In the name of the working
classes, upon whom the war already
has imposed great sacrifices, we pro-
test against any increase in the max-
imum prices. We demand instead a
thorough regulation of price fixing
in the provision markets and effec-
tive protection for the people against
food harpies. We demand that, with-
out regard to the protest of producers
and dealers, moderate maximum
prices for food be fixed on a basis
assuring adequate alimentation of
the people's food supply. The storing
up of supplies in order to manipu-
late prices must be prevented by ex-
propriation and compulsory sale.

"We urge party comrades through-
out Germany to fight the food har-
pies by every means in their power.
Representatives of labor in the Leg-
islatures must above all exert every
influence to assure a supply of food
to the people at non-exorbitant
prices."

Further, the wish was expressed
that the international anarchy should be
abolished step by step by the build-
ing-up of a great republic of mankind
composed of all civilized nations,
which should unite all peoples, no
matter what their form of govern-
ment. In the first place a super-na-
tional system of justice should be
organized, which should gradually be
made to cover all questions as to
commercial and civil conditions, and
the great common interest of man-
kind. At the same time an organism
for information and control must be
established which should eventually
become the administrative system of
the league of all civilized nations.

A resolution moved by Dr. Aletia
Jacobs, president of the women's
conference at The Hague, and demand-
ing political equality for women,
was adopted, as was also another ex-
pressing the wish that consultations
might at once be held with a view to
the organized restoration of towns
and villages which have suffered from
the war.

At the close of the session a per-
manent committee, composed of re-
presentatives of cultural societies in
all countries, was appointed for the
protection of such interests of hu-
manity as might be imperilled.

LANE SERGEANT ORDERED TO
"HOLD ON," AND DOES

London, July 19.—Fighting as a
soldier builds up men physically, it
is found. For instance, Lance Ser-
geant Douglas Belcher, who has just
received the Victoria Cross, was a
salesman and weighed 137 pounds
when he enlisted. Now he weighs 182
pounds. He writes to a friend of how
he won the V. C. as follows:

"Three days ago we took up a new
position, and I was given eight men
and told to hold an advanced post.
Well, we were being shelled to blazes.
I got a message through: 'Regiment
on my right retiring but I am hold-
ing on.' I got a reply: 'Good. Hold
on.' Which I did until reinforcements
came up.

"I had to see the C. O. next morn-
ing, and he said, 'Sergeant Belcher,
allow me to congratulate you per-
sonally on your brilliant performance
yesterday. You saved the situation.'
Nearly took my breath away. But it
was a bit saucy, wasn't it? Six
men—two lost and three wounded—
holding up the blooming Germans. I
had nothing worse than a bit of
shrapnel through my hat and a slight
scratch on the chin."

WINNER OF GERMAN DERBY.

Hamburg, July 20, via London.—
Special.—The Deutsches Derby, the
biggest sporting event of the year in
Germany, was won to-day by Han-
del's Pontresina, with jockey Pluer-
cke up. The prize for the winner
was 125,000 marks (\$31,250). The
race was run on a muddy track,
which put the favorites out of com-
mission at the start. In spite of the

war and its handicaps, the Derby
had more starters (20) than in any
year since 1902.

Rockefeller spent \$250 for fireworks
the other day. The I. W. W. would
gladly have given him a fiery dis-
play for nothing.

A New York woman rushed to the
divorce court when her husband
would have reached for the broom
in the bathtub.

ing to all inclined to do so.

MRS. DAW MADE UNEVENTFUL TRIP.

Mrs. Hilder Daw, who joined her husband, Capt. Daw (Divisional Engineers) in England, writes from Norwich, where she is very comfortably settled, but says they are expecting orders to leave at once for York, where the men will be encamped. Mrs. Daw's voyage from New York to Liverpool was happily uneventful, though the last night on board the passengers slept on deck with their life-belts at their feet, and the life-boats were made ready, with water and biscuits, etc., to lower into the sea, should an attack take place. London seemed very strange, with soldiers everywhere, and almost complete darkness, and the English newspapers are much less hopeful than the Canadian ones, dwelling constantly on the need of munition and the necessity for work and economy in every direction. Mrs. Daw attended the service at the beautiful cathedral, where

there were one thousand soldiers and a few of the officers' wives as a congregation, and also a Red Cross tea, where the wounded soldiers were wheeled in and decorated with roses in their coats and hats. There are two Canadians in the hospital near by, who receive a great deal of petting. Capt. Law got up a concert and gave an illustrated lecture, the proceeds in each case being in aid of the soldiers, for their comforts and amusements, and these were most successful.

"BIG LIES," WRITES CANADIAN IN GAELIC. SHOWS PRISONERS ABOMINABLY TREATED.

Halifax, July 20.—How the German censor can be fooled was shown in a letter recently received by a Cape Breton mother from her son, who is a prisoner of war in Germany.

The letter told in detail of the kind, humane treatment and the abundance of food meted out to the prisoners generally, and the writer in particular. In fact everything was lovely, but the Gaelic words added as the writer's name so as to deceive the censor, told the whole story. The words were "Briegan Mor," meaning "Big Lies."

PROVINCE HILL.

Thursday evening when Lawrence Gregory, son of Charles Gregory, was running he fell and broke both bones in his arm below the elbow. Dr. White reduced the fracture, but found conditions which call for the X-rays. The Red Cross ice cream lawn party held at Mr. Leblanc's July 15, was a great success. There were over 300 in attendance, and \$25.70 was cleared. Many came from New-Port Centre and North Troy, Vt., and Mansonville and Highwater, Que. The Frontier Band, of North Troy, of fifteen pieces, furnished excellent music. The Red Cross Committee are very grateful to all who helped in any way to make the occasion so successful.

A Little Look Around the House

may reveal to you many things needed to make life at home run a bit smoother.

Why not take part of the day for looking around the house, the cellar and the yard. See if there aren't a lot of little things gone wrong—screening with a hole in it, window catch broken, screws lost from hinges, bell batteries exhausted, oil needed for the mower. See if nails and screws of various sizes are not needed, see if the hose isn't going to pieces, see if the screens don't need paint, or the refrigerator varnish, or the bathroom enamel.

Take a look around to-morrow, and get things straightened out.

ALEXANDER AIMING FOR 1,000 STRIKEOUTS. Philadelphia, July 20.—Grover Alexander, of the Philadelphia Athletics, is aiming to complete his season equaling in interest, Honus Wagner's hundred home runs. If he maintains his present streaked speed Alexander should round out 1,000 whiffs of opposing batters before the curtain falls on October 7.

At the beginning of the 1915 campaign his record showed that close to 790 batters had been turned back to the bench during Alexander's league career as a result of failing to connect with Grover's curves. When the season opened he needed about 214 strikeouts to complete his 1,000, and since July 1 saw him well past the 100 mark it appears reasonably certain that Alexander will fan his thousandth opponent within the next thirty-two weeks.

A Kansas City marshal resigned because he had so little to do that he was ashamed to draw his salary. Chances are that he intends to run for a higher office.

Sherbrooke Man Previously Convicted on This Charge

Fined \$40.00

SMITH MILLS' DEFENDANT FINED \$50 AND COSTS FOR UNLAWFUL POSSESSION OF LIQUOR.

Before Judge Mulvena in the District Magistrate's Court on Monday, the case of Marie Lafurest vs. Horstmas Gatten, of the city of Sherbrooke, for neglecting to support his wife and two children, aged 4 and 7, they being in destitute and necessitous circumstances, was heard.

Defendant pleaded guilty to the charge and also admitted that he was convicted on the 2nd of November last on the same charge and then fined \$25, with an alternative of three months in jail.

In this case defendant was sentenced to pay a fine of \$40 or spend four months in jail.

CRUELTY TO ANIMALS. E. S. HAPPENINGS AT CLARENCEVILLE

Considerable Damage Done to Farm Buildings During Electric Storm

THE HAY CROP IS ABOVE THE AVERAGE AT THIS SEASON OF THE YEAR.

Clarenceville, July 20.—(Special)—During a severe electrical storm on Saturday a barn and cow barn belonging to W. H. Longway was struck by lightning and burned.

There were three pigs in the stable and a few hens, and from appearances they were killed by the shock. Mr. A. M. Wheeler's barn and a carriage house belonging to George Stewart, both in St. Thomas parish, were struck by lightning during the same storm, but neither of them burned. We have never had a building struck in this vicinity where lightning rods were installed.

CROPS ABOVE THE AVERAGE. Hay and grain in this locality are away above an average crop. The farmers seem very well pleased with the present outlook.

PUPILS PASS EXAMS. The two pupils in the Clarenceville Model School taking II Academy grade have both passed.

NEW CONCRETE BRIDGE. Mr. Albert McCarthy, of Henryville, has built a very good concrete bridge on the Clarenceville good road near the Tremblay butter factory.

WORK ON THE ROADS. Work on the good roads will be continued after the haying season. The municipality has spent \$1,499 already this year on the roads.

MR. A. H. DERICK SERIOUSLY ILL. Mr. A. H. Derick, one of our esteemed villagers, who perhaps has done more for the poor in this vicinity than any other citizen, lies at the point of death.

SCHOOL TAXES FIXED. The rate for school taxes for the scholastic year ending 30th June, 1916, is 6 1/2 mills on the dollar. The fees for the Academy and Model School scholars have been raised one dollar per term.

NOTES. Miss Alice Derick, who was taken to the R. V. Hospital some time ago for an operation for appendicitis and peritonitis, does not gain strength as fast as her relatives and friends would wish her to.

Mrs. McClay, who has been ill for a long time, is no better, and slight hopes are entertained for her recovery.

Mrs. A. Evans, in the village, is sick.

Miss Winnie Dean and Mr. Harold Boomhour, Mr. Stanley Cochrane home for a short vacation from MacDonald College; Mr. and Mrs. Cyrus H. Bissell and two daughters motored here from Gloversville, N.Y., and are with Mr. and Mrs. L. H. Bissell.

The enemy then bombarded our trenches, and with weak effectives delivered a series of minor attacks, which were repulsed. The German losses were considerable.

INCREASE IN BRITISH CROPS

Yield in Italy Will Also be Above That Gathered at Last Harvest

Washington, July 20.—Grain crops in England and Italy promise greater yields this year than the last harvest. Forecasts cabled yesterday by the International Institute of Agriculture here placed the Italian wheat crop at 189,000,000 bushels, some 20,000,000 bushels more than last year. The prospective wheat crop of England and Wales is placed at 63,000,000 bushels, or 3,000,000 more than last year. The barley crop at 44,000,000 bushels, a decrease of 7,000,000 bushels, and the oats crop at 89,000,000 bushels, an increase of ten million bushels.

REFUSED TO GRANT BONUS

Waterloo, July 20.—(Special)—An adjourned meeting of the Town Council was held in the Council room.

D. M. Poirier & Co. were given an order for 18 inch tile at 65 cents per foot, and 12 inch at 40 cents per foot. It was decided to lay cement sidewalks on Court and C. P. R. Streets.

The Canada Maple Exchange Limited of Montreal offer to locate here if the town give them a bonus of \$14,000. Owing to the town being at considerable expense this year it was decided they could only give them the lot to build on and exempt them from taxation.

THE CITY AS STOREKEEPER

(Continued from page 1.)

usual in a store to keep a record of the name and occupation of a man who made a cash purchase—a cash entry was generally made in the books. It was almost asking an impossibility to ask for the names of all purchasers during the last two years, and it would be a costly piece of business for Mr. Bryce to try and find out all the names represented only by a sum. He still maintained they would get the same thing if done by the department, and if not satisfactory the auditor could be asked to verify it. If Ald. Edwards changed his motion accordingly they would all agree. That was the only objection the other day and now.

SHOULD HAVE REPORT FROM AUDITOR.

Ald. Edwards replied by saying that sometime ago when the taxes and affairs in the city office got into a considerable muddle and the seriousness of the conditions dawned upon the Council, the Council did not hesitate to engage auditors—they did not ask the then secretary-treasurer to prepare a statement. They took the matter entirely out of his hands and secured auditors who charged \$5,000, finally settling for \$3,000. In the electric department the thin edge of the wedge was getting in pretty much the same and if the investigation cost a few hundred dollars it would be money well spent.

HARD TO GET PURCHASERS' NAMES.

Ald. Ewing admitted it would be hard to get all the purchasers' names. If goods were sold on credit there would naturally be a bill, but if sold for cash the goods would be entered as cash sales. If all the names could not be found, they would find cash entries.

Ald. Brault—That's it, but it is not what you are asking. Ald. Edwards explained he did not want to be unreasonable, but if anybody purchased goods he would expect the office to take the names and addresses with the articles sold, except, perhaps, in the case of a few lamps, etc., but in any case where names and addresses were not taken there would be "cash sales." He was willing to modify his resolution to read "in as far as possible," not expecting to have every little petty cash sale mentioned.

HARD TO BALANCE ACCOUNTS.

Ald. Fortier, who as Pro-Mayor was in the chair in the absence of the Mayor, asked how it was proposed to balance if all the sales accounts were not entered in the report. Ald. Edwards presumed merchandise accounts, journals and cash books, etc., were kept.

Ald. Fortier said in a large number of stores where articles were sold at two and five cents it would cost more than the profit to write down all the names and addresses. He again asked, if the petty cash sales were to be omitted, how would the account balance?

Ald. Edwards would leave that matter to the judgment of the auditor.

Ald. Fortier objected to pay \$15 a day for the work. Ald. Ewing referred to Ald. Edwards having called Mr. Veary, who made the inventory for the Road Department, an "outsider," but Mr. Bryce was not an outsider. He wanted to see that audit made and the report brought in. If the Council did not pass the resolution, there

was a way of getting it.

ALDERMEN GOING TOO FAR.

Ald. Forest said an audit was made every month and the aldermen ought to be informed how it was done. Some of the aldermen were trying to push themselves in this matter and going too far. The thing was not worth all the trouble they were taking.

REPORT NOT ACTED UPON.

Ald. Edwards here held up Mr. Bryce's report (submitted in April), saying: "Here is a report submitted by the auditor, and you gentlemen who are so much taken up with economy and don't wish to spend money on reports—here is a report sheet after sheet—and this work costs money. We have already paid a lot. Mr. Bryce is quite familiar with the work and I want him to undertake it."

Ald. Edwards further said that the report submitted on April 6th was referred to the gas and electric committee and never came to light until July 7th. He referred to one list of accounts amounting to \$2,425.71, saying many were uncollectable. He wanted to know why those accounts had not been paid. If it cost \$300 to get that information, it would be a first-class investigation for the city.

FAVORS PROPER INVESTIGATION.

Ald. Denault stated that the public were aroused by the press reports, and they should be reassured. He was in favor of a proper investigation by the auditor, as he did not want to sit in the council with such an accusation against him. The matter should be probed to the end, and, if possible, it must be discovered whether there had been theft or negligence.

OFFICIALS SHOULD REPORT.

Ald. Tetreault was in favor of a report such as the motion called for, to be first made by the officials of the department, and in case some of the aldermen were not satisfied, the auditor could be called in.

\$10,000 IN ARREARS.

Ald. Edwards afterwards read some lists of figures from the last report, approximating about \$10,000 of accounts, the estimated loss on which ranged from 100 to 25 per cent. He said he had every respect for Mr. Dugal, but he was not the kind of a man the department wanted. What was needed was a good, careful business man. What was the use of asking Dugal or any of his staff to make the report?

SAYS ALD. EDWARDS IS NOT FAIR.

Ald. Brault did not believe Ald. Edwards was fair. In his opinion Dugal was one of the most competent accountants in the city. The fact that he had managed large corporations in the past proved it. As far as bookkeeping went he knew or had forgotten more than three-fourths of the whole staff, and was perfectly able to make a statement as Mr. Bryce, and for less money. It could be verified by Mr. Bryce afterwards. ARREARS EXTEND OVER SEVEN YEARS.

Ald. Brault complained that the arrears were being considered an enormous affair. Did the aldermen know they had been running since the two utilities were purchased seven years ago! And they called than an awful amount—possibly 1 per cent. on the business done! Ald. Brault referred to a resolution of the council passed in October, 1913, to hand all arrears to the city. This was done and the department held the receipts from the city attorney. Dugal could not be blamed, neither anyone else, for their non-collection since. Why should anything be imputed to the department that did not exist? Give everybody a square chance and put things fair and square. Ald. Brault also referred to the city audit costing \$55 per day two years ago, when thirty days were spent in the electric light department, but all the discrepancy that could be found was nine hundred and odd dollars. Moreover, that report was not correct, for Dugal had accounted for more than three-fourths of the amount. It was not always the most expensive man who gave the best work. When incompetence was imputed to Dugal let other proofs be given. Alluding to the former statement of Ald. Edwards that a firm owed the city \$20,000, Ald. Brault said the criticism was unfair and unfair, when a settlement was made with the firm on an equitable basis. It would not help the credit at Sherbrooke nor the council by trying to throw dirt where it did not belong, notwithstanding that some aldermen tried to speak for the gallery. Some were also trying to spend the city's money and didn't care where it went. Ald. Brault also made an allusion to some people who should pay first their own bills if they could afford to.

PATRIOTIC WORK IN SHERBROOKE

Excellent Work on Behalf of Men in Hospitals

RELIEF COMMITTEE WILL MEET TO-MORROW AFTERNOON.

The Sherbrooke Branch of the Canadian Red Cross Society gratefully acknowledges from Bury 5 dressing gowns, 9 suits pyjamas, 6 pairs socks.

There will be a meeting of the Relief Committee of the Ladies Auxiliary.

"Such an early death is a crown of honor." Dr. Rose.

ary of the Canadian Patriotic Fund on Wednesday afternoon in the Y. W. C. A. Assembly Hall. A large attendance is requested.

PATRIOTIC ASSOCIATION MEETING.

The weekly meeting of the Sherbrooke Patriotic Association was held on Friday in the Y. W. C. A. Assembly Hall. The formation of another Red Cross circle for making soldier dressings was reported. This circle meets on Monday evenings for the convenience of business girls at 7.30 p. m. in the Y. W. C. A. Assembly Hall. The meeting of the Patriotic Association will be held monthly during the remainder of the summer months.

The following report was received from Mrs. Jencks, Regent of the Duke of Wellington Chapter of the I. O. D. E. telling of the work done for the men in Overseas hospitals:—

"Since the beginning of the Literary Work in the late Spring some 700 booklets or pamphlets have been sent to different hospitals. There are now ready two large boxes of reading matter and a third large box of comforts, comprising Maple sugar, tobacco, pepsin gum, games, including checkers and cards, also two dozen puzzles. These will go on the first sailing. Several groups of volunteer workers meet regularly every week. The Girls' Auxiliary of the Church of the Advent in East Sherbrooke, through Mrs. Callis have done excellent work and contributed most generously. Another circle of young men and maidens contribute most cheerfully their time and labor one and sometimes two evenings every week, and a recent addition of some little girl helpers ages eight to ten, have been much appreciated. They help in the Magazine Work by taking them apart and discarding the advertising matter; they are also helping their mothers make some jam and jellies for the comfort box. From Waterville has come several pleasing donations in the way of scrap books and cartoons beautifully made up into booklets. The field is a large one and every little helps. Anyone in sympathy with the work if not able to come to the meetings could help in a very practical way at home by dissecting the magazines there and sending in only the complete articles, eliminating parts of continued stories and war atrocities. Contributions of literature to be left either at the Mess Rooms, Dufferin Avenue or 17 Prospect Street. The Duke of

Wellington Chapter has also decided to resume its "Home News" project and has made arrangements to have the Daily Papers mailed twice a week on Tuesdays and Thursdays. Persons willing to contribute papers in good condition not more than one week old are invited to leave them at the Rosemary Gift Shop, Dufferin Avenue."

The sum of fifty dollars was voted to head a subscription list for the purchase of a machine gun for the 5th Mounted Rifles. One pleasing item of the afternoon business was a resolution to send \$13.00 to Lady Drummond's fund for prisoners so that a box of food and comforts be sent to Pte. C. W. Harmer weekly for three months. Pte. Harmer is the only Sherbrooke man who is known to be a prisoner in Germany.

spend the city's money.

ALD. EDWARDS REPLIES.

Ald. Edwards remarked that a result of the agitation was that the report which was referred to the committee on April 6th had been brought to their attention, and quite a number of the accounts complained of had been paid in. Ald. Brault's point was very well taken about the firm in question, but extreme cases required extreme measures. Ald. Edwards had not wished to make any charges, but Ald. Brault had insisted.

ACCOUNTS OWING SINCE CANUARY.

Ald. Edwards continued that at one session of the committee meeting only one page of the report was gone through, and recognizing it would take a long time to go through all the accounts he went down to the office next day to continue going through the list, but had not gone far until he found on a great many of the current accounts nothing had been paid since January. Six or seven months behind and the light not taken off! Dugal should have seen that the current accounts were collected in the interests of the city.

ALD. FORTIER PRODUCES STATEMENT.

Ald. Fortier here submitted a statement. He said the electric works were bought in 1908 and in the report submitted the other day \$7,700 were supposed to be bad debts, but nothing had been wiped off during the seven years.

WHERE IS THE NEGLECT?

In the department there were 4,500 monthly accounts. In 1913 the revenue was \$122,526 and collections \$125,021. In 1914 revenue was \$126,097 and collections \$128,151. Where was the loss for the last three years? For the six months in 1915 the revenue was \$64,000 and collections \$65,415. Where was the neglect?

Ald. Edwards replied that the report was very well gotten up, but did not overcome the fact that a great number of people were not paying for light and power.

LOST THROUGH NEGLIGENCE?

Ald. Ewing referred to an account of \$900 which he claimed had been lost through negligence. Ald. Brault repeated his defence that the accounts had gone to the city attorney in 1913, and also said that in reference to the largest loss of \$2,000 that was due to the secretary at that time not turning up at the sale.

TRIED TO BE THE WHOLE THING.

Ald. Brault asked what were the arrears since October, 1913. Fortunately, Ald. Edwards had had the privilege of looking over the report, but the other members of the committee had seen one page. Of course, since Ald. Edwards had been in the council he had tried to be the whole thing ja voice in the gallery. "We want a few of those whole things," and when others did not comply he simply felt sore and they had to bring him to time, and that remained on his mind. Nevertheless, the other members of the committee wanted to have the same privilege to look over the details. Ald. Brault was quite willing to know what had been lost or stolen, but did not want to pay \$15 per day, for the cure would be more costly than the disease. It was quite easy to give away other people's money.

MOVES AMENDMENT.

Ald. Brault moved an amendment "that all particulars asked for by Ald. Edwards be supplied by the officials of the department, and if this report be not satisfactory to the council, that it be audited by the city auditor."

ALD. GAUVIN SECONDED.

Ald. Genest approved of the amendment and expressed himself strongly in favor of writing off the bad debts every year.

A PUPIL OF ALD. BRULT.

Ald. Edwards could not resist the temptation to reply to Ald. Brault. He respected him and had learned many good things from him, but one thing he had learned was his great care of his friends; he had tried to get his son a job in the city office and in other ways had looked after his friends—notarial fees, arbitration appointment, &c. NARROW ESCAPE FROM BEING KILLED BY TRAIN.

Theftford Mines, July 20.—(Special)—As Ludger Boulanger, a young man of Theftford, was driving his buggy over the track by St. Alphonsus Church crossing he failed to notice the approach of the evening train from Quebec, and when he did he pushed hard to get over before the advancing engine, but too late to be perfectly safe for both hind wheels of the buggy were broken to pieces, showing what a miraculous escape he had had, for both the horse and driver were quite unhurt. A minute later doubtless he would have been killed.
